

War God 1991

Chapter 1991 - Allied Genius

To Su Yan, this scene was undoubtedly extremely worrying.

She didn't know how strong Mo Xiaolang was, she only knew that the surrounding Wolves were terrifying races, they were the peak level amongst the demon race, with just one move from the sun, it looked like it was going to destroy the entire grassland, would Mo Xiaolang be able to hold on?

Even if they could hold on, if this power could not be stopped, and leaked out, the homes of the tribes on the prairie would be completely destroyed, and they would no longer have the chance to return. What was more troublesome was that there would definitely be many people who could not escape far, and these people would very likely be buried in this golden sea of fire.

A mere Shadowless Wolf clan that was almost the weakest possessed such godly might!

Extinguishing these weak tribes of the prairie was a matter of one move to them!

The Clear Sun Wolf Tribe was very confident in their move. This was one of the most powerful divine abilities in the bloodline of the Mighty Sun Wolf Tribe. The countless number of Mighty Sun Wolf Clan members that could use this move far and wide was unstoppable!

The Haotian and Moon-Corroding Wolves also sneered in their hearts. They really wanted to see just how powerful these two people, whom Wolf Owner valued so highly, were!

The sun was setting!

The entire grassland was almost within the range of the flames, and Mo Xiaolang was the one who bore the brunt of the impact. If the falling sun were to smash onto his body, without a doubt, he would explode and be burnt to death by the flames.

Su Yan's face was pale white. She hugged her arms in the middle of the silver moon as she trembled, tears welling up in her eyes.

However, she suddenly saw the light of victory.

In her field of vision, the black demonic wolf was walking under the falling sun. When everyone thought that it was impossible for him to handle this move, he appeared very calm. He raised his head to look at the increasingly large golden sun as a disdainful smile appeared on his face.

He was the controller of the flames. No one possessed absolute control over his flames.

The two great noble bloodlines of both races were so proud, but in terms of the way of fire, Mo Xiaolang was more proud than anyone else. Since these fellows want to see if they have any value, then, let me show you my value!

In that moment, his eyes became as red as a sea of blood, filled with savagery. Looking up at the sky, the sun that had fallen was resounding with its might, and just as he was about to kill Mo Xiaolang, and destroy the entire grassland, in his eyes, it was simply food!

"It's over." Everyone thought that they could almost imagine what would happen next.

But at this time, the Sun Devouring Demonic Wolf that was no different than a dead person in their eyes, actually rushed up into the sky, like a moth to a flame, and rushed down towards the falling sun without caring about her life!

All of a sudden, a majority of the wolf tribe opened their mouths wide, looking at this strange scene, they thought that what Mo Xiaolang could do was dodge, that way, he might still be able to keep his life, but he actually didn't retreat, and directly went to seek death?

Even to the Haotian Wolf Clan of the Five Elements tribulation of reincarnation, this action was courting death. If the Sun's Fall was too powerful, then the person who used it would need at least ten to fifteen days to recover.

What happened next almost froze time.

That black demon wolf was brave and fearless. It looked weak in the face of that violent falling sun, but it was able to expand its body. The good thing was that the strength of its body was even greater, and the bad thing was that it had lost its flexibility and increased its area.

"Is he going to bear the power of the sun's fall for the sake of this grassland?" The wolf leader's mouth slightly opened as he said in a surprised tone.

"So great?" His actions left even Mighty Wolf Lord astonished. This prairie didn't have much to do with him. He actually chose to sacrifice himself for the sake of those weak races?

They were wrong.

The next scene was when the Sun Devouring Demonic Wolf suddenly opened its mouth before the falling sun. Countless netherworld Devil Ancestral Flames spewed out, and the netherworld Devil Ancestral Flames formed a gigantic vortex of flames, burning brightly. The direction in which the sun fell was the core of the vortex formed by the netherworld Devil Ancestral Flames!

All of them happened in an instant!

The falling sun smashed into the vortex, but the strange thing was that there was no explosion. The Nether Demon Ancestral Fire endured the power of the falling sun, accelerating its rotation, causing the falling sun to sink deep into the vortex. Following that, the Sun Devouring Demonic Wolf did something that no one could imagine, it actually rushed forward and directly swallowed the terrifying scorching sun into its stomach!

Stunned!

Even the two Great Wolf Masters were frightened by his actions.

The fallen sun had the power to destroy the entire grassland. That was the true body of the Haotian Wolf Clan, and if they swallowed it, they would only have death as a result of facing such power with their weakest organs. There would be no surprise at all.

Maybe in the next second, the Sun Devouring Demonic Wolf's body would explode and die.

In reality, no one could understand why he would do this, other than Su Yan.

Mo Xiaolang's entire body turned gold once again, the current him, was exactly the same as the Clear Sun Wolf Tribe, even his eyes were gold, the flame that swept out from his body was once again absorbed.

Other than Su Yan, even the two great wolf masters thought that he was about to explode. The explosion not only tore him to shreds, it even destroyed the grassland.

However, the Sun Devouring Demonic Wolf landed gently on the ground. Other than the golden flames on its body, the entire battlefield had regained its tranquility.

Mo Xiaolang closed his eyes.

The moment of explosion had yet to come.

At this time, the air seemed to freeze. The wolf pack of wolves were suffocated. How come there still wasn't an explosion even after such a long period of time?

In the next moment, Mo Xiaolang made a move.

His eyes suddenly widened as he opened his mouth, spitting out a bunch of golden objects onto the ground.

The golden flames on his body slowly faded away.

Everyone hurriedly looked over.

When they clearly saw what was on the ground, all of their expressions were very interesting, to the point where they could only be described as horrified and in disbelief. They had not imagined an explosion, and after the Sun Devouring Demonic Wolf had swallowed the Sun's falling down, it was as if they had swallowed all the flames, and then spat out the Haotian wolf pack.

Haoyue Wolf Clan leader's face turned pale white, he was on his last breath, his entire body trembled and he was unable to speak. With his current condition, it was even easier for Mo Xiaolang to kill him than it was for him to do so.

The Mighty Sun Wolf tribe member struggled to get up, but he fell back to the ground.

A fierce gust of wind blew his black hair up, and he looked at the two wolf lords with a deep gaze, then said in a deep voice: "Wolf lords, I wonder if the two of you are satisfied with the performance of this junior today."

If they hadn't seen it with their own eyes, they wouldn't have believed that someone would actually be able to swallow the power of the sun. This was a great humiliation to the Mighty Sun Wolf clan, but it had really happened.

Even the two wolf-lords remained silent for a long time.

In the end, Wolf Head Hao Ri waved his hand and let the two wolf masters take away the losers, so as to let him rest in peace. He secretly discussed with Wolf Lord Eclipse, and finally said to Mo Xiaolang: "Very good, you are even more unexpected than what we imagined. There is no doubt that I have seen and heard of all the people in the same generation, and almost no one is your opponent."

He knew that his fighting strength came from the devils and was not in the category of a normal warrior. If he counted the warriors in the Heavenly Dao, perhaps Long Chen was the kind that would defy the heavens.

However, there was no need for him to refute the high hat the other party had brought him.

He was waiting for their decision.

"So, you have passed our test. We will not give you to the Nine Tailed Heavenly Fox. Even if the Nine Tailed Heavenly Fox comes looking for trouble, we can chase them away, but in the coming months, you must do something of considerable importance for us."

"I believe that the power of love is great, so I have no choice but to use it to restrain you. Before you complete this task for us, let your little lover follow me, you can rest assured that I will swear on my character and reputation that I will make your little girl comfortable and carefree. But as a man, you must fight for her freedom, and for yours as well."

Mo Xiaolang had already known this would happen.

His belief was freedom, and anyone who restricted his freedom, and even more so, threatened him with Su Yan, was unforgivable. The other party was still considered courteous to him, but Mo Xiaolang was unable to suppress his hatred towards the two of them.

No one could deprive him of his freedom.

He took a deep breath to quell the hatred in his heart. He looked up at the two wolf-lords and said, "Now that you've said so much, you two should be able to explain what you want me to do."

He realized that this was definitely not going to be an easy task, or perhaps it was something only he could do.

The Moon-Corrosion Wolf's Master chuckled, "Actually, it's not a particularly troublesome matter. Do you know about the Hegemonical War between the Golden War God Clan, the Illusory Immortal Clan and the Nightmare Race?"

Indeed, it had something to do with the war for the Star Lord.

Mo Xiaolang nodded lightly.

According to the rules of the Nine Star Alliance, the allied forces also represent the competitiveness of the Star Lord race. The first battle in the war for the Star Lord is the battle between the geniuses of the three races, and the allied talents can also participate. As an ally of the Gold War God Tribe, we need to contribute some talented youths to the battle.

Chapter 1992 - Fantasy City

In the middle of the starry sky, Long Chen turned into a ray of light and descended towards the stars like a shooting star.

In the middle of the stars, generally speaking, one's speed would reach its limit. If one was in the Immortal God Realm, with the same distance, Long Chen would definitely need to spend a lot of time.

The dazzling stars were drawing closer and closer.

"So beautiful!"

Ling Xi praised inwardly as she looked at the planet surrounded by the crystal quicksand in the God Kingdom.

"We're here."

Long Chen resisted the attraction of the bright stars, passing through the beautiful crystal sand and rushing into the bright stars. Long Chen's vision suddenly widened. Looking around, this planet definitely had a lot of land, it was equivalent to the ten ancient city territories. It would probably take Long Chen a lot of time to circle around this resplendent star.

The world below continued to expand in his eyes.

This was a lush and verdant forest. The spirit energy here was rich, and was not far from the Immortal God Realm. The difference between it and Dragon Sacrifice Continent was like heaven and earth; it was indeed worthy of being called a good place.

After a long journey, they had finally reached their destination.

During this period of time, the two of them had not stopped cultivating, but the most important thing that had improved was the God Slaying Sword. Long Chen had trapped the Styx Halberd, making it a feast for the small skeleton, and at this time, the River Styx Halberd no longer had the strength to resist the God Slaying Sword. As for the God Slaying Sword, it already had around 160 dao patterns on it.

If it was 200 dao patterns, then it would be an extremely precious killing tool.

This big meal made the small skeleton extremely happy.

The Nine Hell Illusory Butterfly could not take it anymore, pouting, "I don't care, I don't care, I also want Dao patterns, I also know 200!"

Long Chen and Xiao Lingxi laughed at each other as they held each other's hands. Looking at the vast expanse of land, Long Chen said, "Little Wolf is also on this resplendent star. His goal was to become stronger! "His name is known throughout the world!"

Ling Xi held onto his arm, revealing an extremely beautiful smile, and said: "I will also work hard."

After arriving here, he first took a look around, then Long Chen suggested: "First, we should look for a place where there are living beings gathering, and gather all the other materials needed to restore the Butterfly's Illusory Sword, we can try to recover the Butterfly's Illusory Sword, what do you think?"

Since he had nothing to do recently, he might as well take this opportunity to get to know the resplendent stars better. After all, he might be able to stay here for a very long time.

After making their decision, the two of them started their journey. Ling Xi released the Spirit Touch Array, and very quickly, there was news of their release, she pointed in a direction and said: "In front of us is a city, there are many strange races, and only humans, spirit races, witches, and so on. This city is called Mirror City, which is considered very big for the bright stars. I believe that those materials should be there. After all, other than the Ancestral Tree Heart, the other things are not too rare. "

With the Sector lord Divine Arts, everything would be more convenient.

The two of them continued onward, and soon, a huge city appeared on the horizon before them. The city was built like countless mirrors, and under the light's illumination, it was especially bright. The human voice boomed, and a large number of creatures gathered in the Mirror City.

"The territory we are in, is among the resplendent stars, one of which is called the Illusory Immortal Clan's territory. This Illusory Immortal Clan was very large, almost occupying half of the bright stars. I wonder if the little wolf is also in the territory of the Illusory Immortal Clan. "

Long Chen said: "I'll ask him later."

The two of them headed towards Mirror City, and in all directions, there were different kinds of strange races, heading to Mirror City together. Generally speaking, in the territory of the Illusory Immortal Clan, all the cities were under the control of the Illusory Immortal Clan, but of course, as long as the other races had money and strength, they could also live in the city.

The weak races on the bright stars were just like the tribes on the prairie, existing in the form of tribes.

After Long Chen entered Mirror City, he took out the list of items that Ling Xi had given him and gradually bought them. Mirror City was very big, and it took Long Chen two whole days to gather and buy all of these things, before he was able to reach his goal.

Within the past two days, he had thoroughly understood the current situation of resplendent stars.

"There's actually going to be a war for the Star Lord. Listening to what they said, it seems like this war for the Star Lord isn't a good thing for the weak. It's more likely to be a type of destruction."

Ling Xi said worriedly, "If the little wolf comes here and allows this war with the Star Lord to affect his will, wouldn't it be very troublesome?"

Long Chen said: "He said that he could control the martial magic seed and I believe him. If he felt that there would be trouble, he would probably leave this place. and will tell us. "

After putting aside the matter with Mo Xiaolang for a while, the two organized themselves. Ling Xi said: "They are missing a type of Imperial Jade Milk that combines all the materials and activates the power, but this Mirror City does not have Imperial Jade Milk ..."

Long Chen asked someone else.

"From what they said, only the Illusory City has Emperor's Jade Milk, Illusory City is the base camp of the Illusory Immortal Clan, and is also one of the most prosperous cities among the stars, and the majority of the cities there are Illusory Immortal Clan, so it is still dangerous, but buying the Imperial Jade Milk shouldn't be a problem, after all this is a new environment, and no one knows who I am."

After making their decision, the two headed towards the Illusory City.

The distance from Illusory City to Mirror City was also quite long, and because they were travelling on resplendent stars, it would take them a few days to reach there.

Before this, Long Chen had already seen the so-called Illusory Immortal Clan.

Their clan members were all extremely beautiful, and their level even exceeded that of the spirit race. Their bodies were covered in a hazy white light, and only death would dissipate; this made them seem as illusory as a dream, as if they were gods, and as beautiful as the resplendent stars. The most miraculous thing was that all of them had snow-white clouds wrapped around their bodies. This was an ancient species, born together with them, called the Misty Cloud Beast. In the battle of the Illusory Immortal Clan, the associated Smoke Beast could display its infinite usefulness.

The Illusory Immortal Clan was one of the rulers of this place, it was normal for them to be arrogant, and to be used to being condescending. But for Illusory Immortal Clan, even if they were young boys and girls, they would have several people accompanying them when they travel, waiting for them in front and following them from behind. They were naturally pampered and proud, Long Chen had not tried to interact with such people in the past two days in Mirror City.

The Illusory Immortal Clan bragged that they were the most perfect race. Unless it was a top power, otherwise, even the most powerful of warriors, they wouldn't take it to heart.

Five days quietly passed.

When Long Chen passed through countless lakes and saw the Illusory City shrouded in colorful clouds, he couldn't help but sigh with emotion. Although it wasn't as vast as the War God's Ancient City, which took up countless territories, it was still considered very big here. The exquisite snow-white building, beautiful palaces, and flickering runes made the Illusory City seem like it was a dream, it was so beautiful that it was suffocating.

In reality, Illusory City was only a part of the Illusory Immortal Clan's main camp. The true experts of the Illusory Immortal Clan would definitely be in other mysterious places, and this Illusory City was only a transfer point for them.

Human beings and spirit race were all large clans, and the people of the Illusory Immortal Clan did not dare offend them on the surface. Basically, other than the demon race, the rest of the Five Great Races could freely enter and leave the Illusory City, but even so, the guards of the Illusory Immortal Clan, all of them were incomparably arrogant, treating Long Chen and Ling Xi indifferently.

Only after they could clearly see Ling Xi's exceptional appearance did their attitudes improve a little, allowing Long Chen and Yue Yang to enter the mysterious Illusory City smoothly. As the name suggested, the city seemed to be like a dream, everything was perfect, they were advancing through the clouds, although there were not many people inside, most of them were strong, Long Chen and Yue Yang were not much in here.

"It seems that out of the five great clans, the ones supporting the Illusory Immortal Clan are humans, which is to say, the people from the Dragon God Domain. I wonder if these people will be able to stay in the Illusory City."

Thinking of this, Long Chen became cautious.

He did not wish to meet the people from the Dragon God Domain, because his current strength was not enough for him to accomplish his goals. He dreamed of returning to the Dragon God Domain, but this was definitely not it now.

Walking in the Illusory City, Long Chen asked a few Illusory Immortal Clan members about it, he wanted to know where they could sell royal jade milk, but most people treated him indifferently. The Illusory Immortal Clan was used to being proud, even if it was the human race, in reality, there were a lot of them who did not put him in their eyes.

After a long time, Long Chen finally found out that there was a place called the Dream Alliance, which was a huge merchant guild established by the upper echelons of the Illusory Immortal Clan. It was a place where the stars were bright and resplendent, where one could obtain anything one wished to go, only with money.

Following the instructions, Long Chen finally reached the Dream Alliance. This was the core of the Illusory City, and all the people coming and going were important figures, but just as Long Chen was about to enter, the Dream Alliance's guards stopped him. The warrior looked at Long Chen with contempt and said: "Only two types of people can enter, one is a warrior with my Dream Alliance's guest order, and the other is a warrior with tribulation of reincarnation above, which one are you satisfied with?"

He had a mocking smile on his face as he looked at Ling Xi and said: "This lady here can enter, but you cannot. If you know what's good for you, hurry up and f * ck off. "

"tribulation of reincarnation?"

Chapter 1993 - Jade Milk

If it was just to show off his strength, why would he be afraid of such people?

Long Chen had seen many people like this from the Dragon Sacrifice Continent to the Immortal God Realm. Although it was true that he should restrain himself when he had just arrived at the resplendent star realm, restraining himself wasn't a surprise to him that he had to go against his own principles. Long Chen's principle was that if people didn't offend him, he shouldn't.

As the guards continued to tease him, Long Chen immediately moved to his side. He stood not even half a meter away from them and said: "What if I have the strength of tribulation of reincarnation?"

They were all warriors of the tribulation of reincarnation, so they had the qualifications to be guards here. At this moment, the person who Long Chen asked: "Very good, very good, you have some guts, that's all. If you can convince me, I'll let you in, and I won't argue with you."

Long Chen smiled lightly: "As a man, you have to keep your word."

The other party's smile grew even wider. He said to the others, "Brothers, it wasn't easy to have a good time. I'll do it!"

His words ended there.

He looked at Long Chen with incomparable shock, because he discovered that he was actually unable to move. It was as if the time on his body had stopped, his reincarnation energy could not circulate, his body could not move, and even his eyelashes could not tremble. This kind of death-like state had always been maintained, but he was unable to resist even if he risked his life.

Long Chen stood in front of him and said in a deep voice, "As a practitioner of tribulation of reincarnation, you have no power to resist me. If I wanted to kill you, I only need to use a light sword strike. Now, do you think I have the qualifications to enter the Dreamscape? Let me tell you this, in the boundless universe, there are countless powerhouses. Do not underestimate those who you think may be weak. "

This sentence was said for a very long time.

His companions watched this scene in shock, their jaws almost dropping to the ground. They urged the man to make a move, but he was much more anxious than them. Not only could he not move, even the smoke cloud beast on his body could not.

Long Chen retreated two steps, and released Eternal Heaven's control over the other party. His eyes were filled with killing intent, and he asked: "Everyone, can I enter now?"

Everyone looked at each other. Although they were not convinced in their hearts, Long Chen's previous might was truly unimaginable, they gritted their teeth and could only nod their heads. To be honest, even though they were used to pride, they also had the experience of running into an iron plate.

Thus, when Long Chen openly entered the Dream Alliance, immediately, a beautiful woman dressed in simple clothes from the Illusory Immortal Clan stepped forward to accompany him. The women from the Illusory Immortal Clan were rather gentle and beautiful, their figures were also outstanding, possessing gentleness and gentleness, their soft voices making one unable to stop themselves from talking.

"Excuse me, is there anything I can help you with?"

When she bowed, the two perfectly round and soft flesh on her chest swayed in front of Long Chen's eyes. She was extremely mischievous, her skin was as thin and tender as water, and could break under the force of the wind.

Since they were in front of Ling Xi, she could only look straight ahead and pretend that she didn't see anything. He said: "We want the Jade Emperor Milk, does it exist here?"

The woman from the Illusory Immortal Clan replied, "Only treasures that exist, it's impossible for the Dreamscape Alliance to not have them."

She smiled and began to lead the way for Long Chen. All the guests that could come here were basically all honored guests, and every guest had a special welcome, the interior of the Alliance became even more dreamlike, with countless things that could not be seen clearly, following this woman, the two of them felt like they were floating in the clouds, surrounded by beautiful and precious goods. There were even many Primordial Immortal Spirits that faintly appeared, releasing a dense Qi, allowing people to feel refreshed, their cultivation to rise unknowingly.

They finally arrived at their destination.

In the midst of all the materials, the Emperor Jade Milk that the outside world viewed as extremely precious did not look special at all. After Long Chen confirmed that it was the Emperor Jade Milk, he did not waste any more words, and all of the goods here were exchanged with Dao artifacts or Primordial

Immortal Spirits. The Emperor Jade Milk had Dao patterns or Immortal Marks marked on it, and the mere Emperor Jade Milk actually required a set of archaic instruments, it was simply too expensive.

However, Long Chen could afford it.

Long Chen looked in front of him and had to admit that this guy and Snow Spirit King were of the same level. In terms of temperament and looks, he was quite good, but this dream immortal man was already a bit older, probably around two to three thousand years old in terms of cultivation age. Therefore, his strength was also relatively strong, at least he had the strength of late stage tri-level tribulation of reincarnation.

Looking at it this way, this man from the Illusory Immortal Clan was a terrifying genius.

He was high up in the sky, and his eyes were deep, giving off the charm of a Snow Spirit King that bewitched all living things. After seeing this man, the young lady from the Illusory Immortal Clan actually blushed, and hurriedly said, "Greetings, Young Master."

"Yes."

The man nodded slightly, then walked past Long Chen, quickly disappearing into the clouds.

"Little Boss, Little Boss!"

The woman was still looking in the direction he had left. Her face was flushed, her heart was beating fast, and her eyes were filled with tears. It was obvious that she was unable to extricate herself.

Ling Xi lightly pulled Long Chen and said: "This man has a certain charm power, he should be a type of Inherent Skill, which is extremely attractive to girls. If I had not cultivated the Sector Lord Divine Arts and was able to resist his charm, I would probably have been confused by this man, just like how this girl behaved."

"So awesome?"

Long Chen could not help but sigh. This was truly a heaven-defying ability. Just a passing by would be able to make a girl so anxious that she wanted to sacrifice herself. This ability was simply too heaven-defying.

"I was first envious of this ability." Long Chen praised.

"I hate it." Ling Xi pinched his arm, and said: "I don't want to act like this, I don't want you to get involved with all this trouble."

Of course, Long Chen was joking. He had already obtained the royal jade milk, so it was not a good place to stay. They had to leave the Illusory City as soon as possible.

The woman from the Illusory Immortal Clan sent them off, but her face was still flushed red, as if she was burning with lust. Looking back, she could see that the sisters were the same way, to the extent that some of them couldn't help but stroke her, letting out an intoxicating moan.

"Follow me."

Suddenly, the Young Master with limitless charm appeared in front of the young lady who had served Long Chen before.

She was so excited that she quickly passed through layers of clouds and followed the young master to a sealed space. The young man's back was facing her and the young girl's heartbeat quickened, not daring to move. However, the man's body was too attractive, so she couldn't help but approach him.

"Although you are a virgin, your background is too low. You do not have the qualifications to receive my favor and control your desires." That Young Master said coldly.

Hearing this, the girl felt as if she had been doused in cold water. She quickly kneeled on the ground and said in shock, "Young Master, I was wrong, I will definitely listen!"

That Young Master said no more and instead asked: "Just now, those two humans, what did they take away?"

The woman was startled. So it was for those two humans that had summoned her. She didn't dare to hesitate and quickly said, "It's the emperor's jade milk."

"Imperial Jade Milk?" He stayed there, his deep eyes filled with endless strangeness. He muttered to himself: "Royal Jade Milk can be used to fuse materials, and it can be used to repair Dao artifacts. What do they use it for?"

Repairing the Dao patterns and repairing the Dao patterns were two different concepts. The Dao patterns could be repaired, but it was almost impossible to restore them. It was said that only some races had methods passed down by their ancestors.

The reason he was interested in these two was because he noticed that the age of Long Chen and Ling Xi was something that couldn't be hidden. He could estimate that these two people were definitely not even a thousand years old, but one of them was a two star tribulation of reincarnation, and the other one, even though not a tribulation of reincarnation, revealed a power that was simply unimaginable. Furthermore, they were both human beings, so there was no doubt that the dragon race's aura could be felt from his body.

"Among our Illusory Immortal Clan's allies, there shouldn't be a person like him. We have to ask father."

An hour later, he stood in front of a layer of clouds, surrounded by an endless sea of clouds. He said in a clear voice, "Father, I've come."

An illusory voice came from the clouds. That person said, "If there's anything you want to say, just say it."

The Young Master said: "Today, I saw two strange fellows. I wanted to ask if you are a new warrior from Life Dragon City."

As he said that, he recounted the details of meeting Long Chen and Ling Xi to his father.

After he finished listening, that person said, "Life Dragon City, no one else came."

"Oh, that's a Dragon Fighter who came here on their own, which dragon city did that come from? I've already sent people to watch them." The Young Master said.

He wanted to praise her, but the man suddenly said: "I see that you are interested in the woman beside him. You are not young anymore, you should focus on the heavens and deal with the Life Dragon City more often. It is best for you not to bother with the others."

Hearing this, that Young Master was vaguely unwilling to accept it.

He said, "Actually, I feel that man is very strong, giving me a sense of danger. What I mean is, if he is a member of the Dragon God Domain, he can also be considered our ally. If he can also take part in the first battle of this Hegemonical Star Lord battle, then wouldn't we still lack people?"

That person said, "Since that's the case, go and test out his strength. You do not have the strength and the qualifications to participate. "

"Yes sir!"

After which, he left. When he returned to the Illusory City, he was just about to contact the subordinate who was chasing after Long Chen and Ling Xi, but did not expect the opponent to contact him first. The moment he activated the Star Talisman, the opponent said helplessly, "Young Master, we lost him."

Chapter 1994 - Palace Thunder Dragon

When he had left the Illusory City, Ling Xi had known that someone was following him.

They were from the Illusory Immortal Clan, and were experts in illusions, so they could definitely hide themselves. Their methods were extremely high, if not for Ling Xi possessing the Spirit Touch Array, she wouldn't have been able to discover this guy who was following him.

She gave this news to Long Chen.

Long Chen said: We have only interacted with others when we were at the Dream Alliance, and the most likely person would be the young master there. It seems like this fellow has his eyes on us, and it should be related to me fighting in front of the Dream Alliance, but it doesn't matter, we just have to shake him off.

With Ling Xi's Spirit Touch Array, Long Chen could easily grasp her opponent's position. When she turned into a blind spot, Long Chen would quickly send Ling Xi into the Divine Kingdom, and then use Time Traversing Dragon. With her following abilities, it would be difficult to find him.

As expected, the man was quickly stunned.

They, the Illusory Immortal Clan, were practically one of the most skilled races at following others in the Immortal God Realm. However, Long Chen had so easily managed to escape, causing him to be completely unable to react.

And at this time, Long Chen had already left the Illusory Butterfly City, casually walking in another direction. He didn't have a specific destination, and what he needed to do was to find a quiet place to let Ling Xi peacefully recover the butterfly Illusory Sword Technique. According to her estimate, the first step she would take would be to restore the butterfly Illusory Sword to two hundred lines.

If two hundred were successful, then seven hundred would also have great hopes.

All he needed was the materials.

Of course, there was also the issue of Ling Xi's personal power. Currently, the amount of power she had could at most restore the Butterfly Illusory Sword to two hundred lines.

After leaving the Illusory City, Long Chen began to expand his full speed, and advanced in a general direction of two to three days. He was already quite a distance away from the Illusory City, and the mountain peaks that pierced the clouds in front of him were rarely seen, as wild beasts ran rampant through the deep forests.

However, Long Chen had bypassed them, and found an extremely deep ravine. The trees in this place seemed to have burrowed into the clouds, making it look desolate, but they were exactly the good place for Ling Xi to try to restore the Butterfly Illusory Sword.

"Alright, here it is."

Long Chen confirmed the surroundings, to ensure the safety of this place.

"I'll arrange the Spirit Touch Array."

Ling Xi smiled sweetly as she started to work hard to set up the Spirit Touch Array to its maximum. This way, the moment someone approached, she would know in advance to avoid being ambushed.

Long Chen stood at the side and watched Ling Xi busy herself with a slight smile on her face. This feeling made him return to many years ago, when she was also in the middle of the forest deep in the mountains. Ling Xi had helped him remove the restrictions on the Dragon Seal, allowing him to obtain the inherited blood essence of the Primordial Blood Spirit Dragon.

His woman had actually done many things for him, and would never be forgotten.

hugged her as he rested for a while. Then, once again, he became lively and said: "Brother Chen, just pay attention to your surroundings, you can stand guard for me."

Long Chen nodded.

"Perform well. After you succeed, I will reward you." He smiled maliciously.

Ling Xi's face reddened, she rolled her eyes at him, then focused on her own matters.

She created a space in the middle of the mountain and sealed herself inside it. There were many different colored arrays at the entrance of the cave, trapping her inside. Even Long Chen could not see what she was doing, and the reason she did so was because she was afraid that the commotion would be too great and attract the attention of some strong practitioner.

The Butterfly's Illusory Sword was not a simple item, but Long Chen was actually still a little worried. Seeing that Ling Xi was so confident, he decided to endure it and told herself that Ling Xi had changed a lot.

As such, he guarded the entrance of the cave with a peace of mind, waiting for Ling Xi's success.

Illusory City.

When she knew that she lost the person she sent, Xiao Hong Chen was shocked. His eyes were filled with doubt as he asked again: "Tell me clearly, what is the process?"

The other party said, "I used the Cloud Trace technique to track them, concealing my tracks. Right after leaving the Illusory City, they rushed into a forest. After I carefully went over, I discovered that they had completely disappeared, as if they had disappeared into thin air."

"So mysterious?" Xiao Hong Chen knew that she had met an opponent.

He put down the Star Talisman and pondered: "This guy, I should ask the people in the Life Dragon City if he knows his identity, or maybe he is one of the Five Dragon Cities."

Roughly two hours later, he arrived at the resting place for the people of Life Dragon City. This was an endless forest, Xiao Hong Chen was waiting outside and very quickly a human youth came out from it. When he saw that it was Xiao Hong Chen, he asked: "Brother Xiao, what are you here for?"

The people of the Life Dragon City were the important guests of the Illusory Immortal Clan, they were on the same level.

Xiao Hong Chen said, "I have something that I want to ask Senior Gong Qing. Can you bring me to see him?"

The youth nodded and said, "Follow me in."

Passing through the forest and crossing several tall mountains, Xiao Hong Chen suddenly realized that there was a huge divine palace in front of them. It was a heavenly palace with a grand atmosphere and countless terrifying white lightning surrounding it like countless long snake entwining themselves around it. That lightning had the scales of a divine dragon and just by looking at it, Xiao Hong Chen knew that the white lightning with dragon scales would be able to easily tear him to shreds.

"Master!"

The Life Dragon City youth knelt down respectfully.

Xiao Hong Chen also knelt down and said: "Junior Xiao Hong Chen greets Senior Gong Qing."

Just as they spoke, the vast white palace transformed into a white coiled divine dragon, with countless dragon scales surrounding his body and surrounding him with white lightning, as though countless long snakes were coiling around his body.

Both Xiao Hong Chen and the youth were extremely envious and respectful. The elder sent by Life Dragon City to guard this place was a rare super dragon! Name: Palace Thunder Dragon.

The Heavenly Imperial Palace's Thunder Dragon, there was only one Thunder Dragon in the world and it was unique. It was one of the tyrants of the Thunder Dragons. The Heavenly Imperial Thunder Dragon that was also a thunder super dragon was completely no match for the Palace's Thunder Dragon.

Amidst Xiao Hong Chen and the young man's gazes of reverence, the snow-white Divine Dragon transformed into an old man. His pupils were wrapped with white lightning, and there were actually traces of dragon scales in his eyes.

The old man floated over and raised his hand, indicating for Xiao Hong Chen and the young man to stand up. He looked at Xiao Hong Chen and asked, "What have you come here for today?"

Xiao Hong Chen went straight to the point: "Senior, this junior has met with a strange Dragon Fighter today. I would like to ask if he is related to Life Dragon City."

The young man by the side said: "You have seen all of my Life Dragon City's comrades who are stationed here, are there any other Dragon Fighters here?"

Xiao Hong Chen nodded.

The white-haired old man waved his hand and said, "Tell me what happened in detail."

Xiao Hong Chen then explained everything she saw to the old man. As she continued, the old man frowned.

"Senior, do you know the identity of this person?" Xiao Hong Chen asked with concern.

The Divine Palace Thunder Dragon said: "Perhaps I know, but you said, he doesn't even reach tribulation of reincarnation, but he can cause a tribulation of reincarnation Ranker to be unable to move. In fact, his body is very threatening, and it makes you feel a little afraid, this kind of situation is pretty rare in our

Dragon Fighter, but if he really has that level of combat strength, then it means that he is at least a super dragon!"

They knew that super divine dragons were very rare and were specially groomed by the Five Dragon Cities. As for the Dragon Fighter that still existed now, their highest rank were Ultimate Dragons and super divine dragons could already be considered as the second level of precious bloodlines.

Furthermore, what the Divine Palace Thunder Dragon said was true. If it was at least a supreme divine dragon, then it could be even stronger.

While the two young men were still in shock, the Thunder Dragon from the Divine Palace pondered for a moment and said: "Five Dragon Cities has those super Divine Dragons, in fact, I am very clear about it. You said that he brought a young girl with him, and in addition to your description of his appearance and all kinds of methods, is extremely similar to the information I have obtained about him.

Xiao Hong Chen and the young man were both confused.

The Thunder Dragon from the Divine Palace stroked his lightning beard, and said with a deep look in his eyes: "Do you guys remember who killed Di Yu, who had eighty percent of the Emperor Jun's Divine Blood, and took the legacy blood essence of the ancient dragon?"

Hearing this, both of them were shocked, and asked involuntarily, "This young man is the one who caused chaos in the World of Gods, and later joined the Spirit Race as the son of the Eternal Dragon Emperor?"

Xiao Hong Chen was still alright, he just felt that it was too much of a coincidence. He never would have thought that such a legendary figure would appear on such a resplendent star and the young man from Dragon Fighter couldn't hold himself back. He immediately shouted in fury: "Master, I didn't think that it would be him! This traitor had been hacked into pieces, the one who had betrayed his ancestors! He actually didn't obediently wait for death in the Spirit Race and ran to the resplendent stars to get away with it. Like his father, he is also a traitor to our human race! Now that he's here, we have to find him, capture him, and bring him to justice! Give Di Yu justice. "

He was particularly excited, his eyes filled with loathing.

The old man's expression became much more solemn. He pondered for a moment before waving his hand. A man dressed in black knelt in front of him.

"Shadow Dragon, follow me in chasing after the son of the Eternal Dragon Emperor."

"Yes."

At this time, many people seemed to have heard their conversation. Many young human martial artists had come here, and when they saw that the old man was about to leave, they hurriedly asked to follow him. The old man had agreed.

Chapter 1995 - The Son of Eternity

In the blink of an eye, Long Chen had already stayed here for ten days.

During these ten days, he could be said to be extremely anxious, but Ling Xi still did not slow down. Calmly activating the Sector lord Divine Arts, allowing the Dao patterns to recover was an extremely troublesome matter, he needed a very strong control over it, and he also needed to use all the materials. This was an extremely huge task, and could not be disturbed by others.

Based on the current progress, the distance from Ling Xi's success should already be fast.

In the past ten days, the Spirit Touch Array still did not make any movements, which meant that no one had come here. Ling Xi very carefully hid the movement of the Butterfly Illusory Sword.

As he was about to succeed, Long Chen suddenly felt a trace of unease in his heart.

It was instinct.

He carefully thought back to what had happened along the way.

"Most of the time, I use the Time Traversing Dragon. Although that Dream Alliance's young master doesn't know why he chased me, he shouldn't have the ability to find me here. After all, my Time Traversing Dragon cannot be broken by ordinary people."

If there really was trouble, that could only mean that something outside Long Chen's control had appeared.

Long Chen had finally discovered that it was actually the power of time that gave him this feeling. Time had three parts: the past, the present and the future, whether it be in the past or the future, Long Chen's research in this area was very weak, especially the future. What made him feel uneasy at this moment, were the powers of the future.

But it just so happened that at this time, Ling Xi's work had already reached the final juncture and she was about to succeed. If she were to be interrupted at this moment, it was very likely that her efforts would be for naught.

"An Xin, if there's anything, I can deal with it. You just need to focus on repairing it."

Long Chen said to Ling Xi.

After many years of mutual reliance on life and death, with a tacit understanding that no one could compare to, Ling Xi merely gave a light grunt of agreement and did not say much. She knew that no matter what happened, Long Chen would definitely do her best.

He was his own solid shield.

Long Chen's biggest worry was that he would still make a move.

The Spirit Touch Array moved.

This meant that someone had already gotten close, and the Spirit Touching Array soon stopped working. This meant that the person who came to this place could feel the existence of the Spirit Touching Array, and had already destroyed it. At the same time, they also knew Long Chen's location.

Long Chen did not know how these people managed to find this place, but he stood up with a dark gaze, and looked into the distance in the forest. In that short moment, a group of people had appeared in front of Long Chen!

The vast aura almost overturned Long Chen.

Now that Ling Xi had reached the most critical juncture, perhaps she could finish it in fifteen minutes. Regardless of how she absolutely could not make a mistake at this time, Long Chen suddenly faced a huge pressure, but he maintained her composure and sized up the approaching person.

Long Chen quickly saw through them.

He had met one of them before. It was the young master of the Dream Alliance, the one who possessed a mysterious charm that could make any woman crazy.

It was obvious that he was from the Dragon Fighter, and his strength must be very terrifying as well. The white colored lightning that had materialized into his long hair contained a destructive power, and his eyes that were covered in dragon scales looked straight at Long Chen. He was also sizing him up, but it gave Long Chen a creepy feeling.

When he stared at Long Chen, Long Chen had a feeling that there was nowhere for him to run. This hunchbacked middle-aged man was also a Dragon Fighter, Long Chen had a feeling that the reason the other party was able to catch up to him was most likely because of this black-clothed man.

Aside from these three people, the others were all young Dragon Fighter. All of them had quite a strong cultivation, and were absolute elites, all of them were young geniuses, each one more outstanding than the last, all of them showing their edge. All of them were rare geniuses, and were most likely people with great reputations.

This was Long Chen's first time seeing so many Dragon Fighter in the same place.

His first reaction was that these people in front of him should be people from Five Dragon Cities. He never thought that just by going to the Illusory City to buy royal jade milk, he would have the people from the Five Dragon Cities chase after him. This couldn't be blamed on his carelessness, it was just that these people were simply too heaven defying.

Regret was already useless, the bright stars were a bit out of Long Chen's expectations.

The two of them were silent for a moment, and then looked around at Long Chen. Seeing the sealed cave, they knew that Long Chen's woman was definitely inside, so they were even less worried.

They could barely suppress the anger in their hearts, as if they had an absolutely irreconcilable hatred towards Long Chen. If it wasn't for the old man's words, they would have definitely charged forward to kill him. Long Chen could feel their contempt and hostility.

Just at that time, the old man took a step forward. He did not display anything and remained expressionless. At that moment, he said, "Let me introduce myself. I am from the Life Dragon City and my name is Gong Qing."

Sure enough, it was as Long Chen had expected, they were actually people from the Life Dragon City. Long Chen only knew a part of the story regarding the Everlasting Dragon City and the Dragon Slayer City, he did not know anything about the Life Dragon City.

His gaze was calm, and he did not say a word. He was waiting for Ling Xi to succeed in order to have a way to escape, if not she would be in trouble. In such an urgent situation, if it were anyone else, they would have been frightened to death. But from the fierce eyes of the Young Dragon Fighter, it could be said that they harbored malicious intentions.

Long Chen thought back to what he had done in the Dragon God Domain. The other party's actions were not strange at all. However, he was still young and vigorous, and could not stand this kind of temper. He had long vowed that he would definitely return to the Dragon God Domain to redeem his dignity, but he did not expect to meet them so soon!

At this time, the old man asked, "I roughly know your identity. You are the son of the Eternal Dragon Emperor, Long Chen, right?"

Long Chen had already guessed that they knew his identity.

That's true.

This matter is useless. He nodded: "That's right, I am Long Chen. Coming to the resplendent star, I never thought that I would meet all of you from Life Dragon City here. I wonder what business do you have looking for me? "

"What can I do for you?"

On the other side of the Life Dragon City, the young and strong Dragon Fighters could no longer hold it in. Their faces were filled with hatred and one of them sneered: "Have you forgotten what you did? You killed my human race's super genius! You stole the Ultimate Dragon's inherited blood, you betrayed the

human race like your father, you betrayed your ancestors, you defected to the Spirit Clan, you abandoned the human race, with your crimes, you should have been hacked into pieces and died! We captured you in front of the resplendent stars today, so we naturally have to bring you back to the Dragon God Domain so that you can be executed in front of thousands of people! "

You are just like your father, who has long been despised by all humans. You don't have the qualifications to be a human, and you don't even have the qualifications to be a Dragon Fighter, today you have been captured by us, your life is already over. Let me tell you, from now on, it is time for you to atone for your despicability and your crimes, and it is also time for you to atone for your father's sins! "You won't be able to escape from us. From now on, you should properly enjoy the rest of your life to atone for your sins!"

No matter what, traitors were always looked down upon the most, especially when Long Chen and his son were carrying such infamy on their backs. On the way here, too much anger had accumulated in their hearts, and they had long wished that they could rip it apart Long Chen right now!

"To betray the clan, to harm oneself and others! It seems that the Spirit Race has given you a lot of benefits. I am just curious why you did not stay in the Spirit Race, I am afraid that that is your home, why the Spirit Race did not treat you well, drove you out, and forced you to escape to chaotic star field to earn a living. "Haha!"

To them, Long Chen having a legendary father made them jealous.

He would only be a disgrace to the Dragon God Domain. If Long Chen was still considered obedient, he would not be treated well in the Dragon God Domain, but he had done something even more outrageous. This had undoubtedly challenged the bottom line of everyone in the Dragon God Domain.

Towards Long Chen, they only had one word in their heart, and that was despise.

They were waiting for their master to give the order for them to defeat Long Chen, capture him alive, and teach this traitor a terrifying lesson. Only this way would they be able to somewhat calm the hatred in their hearts.

However, what made them unable to restrain themselves was that the elder did not give any orders.

Long Chen displayed an extremely strong psychological quality when they were cursing. Even though the cursing had touched upon his forbidden zone and his bottom line, making it so that it did not submerge

his rationality, a real man would not scold his opponent. He would only smash his opponent's mouth at the most correct time.

From the beginning to the end, his eyes were calm, without the slightest bit of emotion.

He was sure that no matter who his disciples encountered this humiliation, as long as they were hot-blooded men, they would not be able to bear it and explode. However, this young man in front of him did not have the slightest reaction.

He stretched out his hand to calm his disciples. He sized Long Chen up from head to toe and said in a deep voice, "Remember that when you were at the battlefield of the gods, you could defeat Di Yu with your greatest abilities. At that time, Di Yu was able to unleash the power of two? I heard that you can easily cause a tribulation of reincarnation Ranker to be unable to move, so tell me, how is your current strength? "

He did not attack him immediately, but instead made Long Chen feel strange. Long Chen had also found an opening, and without saying a word, he raised his finger and circled around the group of Dragon Fighters, and in the end, stopped at one who had cursed him the fiercest, and said: "If you want to know, let him try."

Chapter 1996 - Enraged Sea Tyrannosaurus Rex

When Long Chen's finger landed on one of the youths, it created a moment of silence. In reality, in their eyes, Long Chen was just a lamb waiting to be slaughtered. The only thing left was the question of who would take action, but they never thought that Long Chen would take the initiative and provoke them.

It was not Long Chen who had taken the initiative to provoke him, and such a choice was only a way for him to stall for time. He wanted Ling Xi to be as calm as possible and peacefully complete the recovery of the Butterfly Illusory Sword. After Ling Xi succeeded, if she could use the Stellar Transposition Formation to move the old man away, the two would have a slight chance of escaping.

This was also his only hope.

He was very calm, and did not faint from the other party's insults and scorn. He had long thought about the matters of the Dragon God Domain, and he did not want to face the other party with a beast in a fight, only by defeating them with the most rational person would he be able to obtain his dignity.

The only way to break through was with the old man.

His expression and thoughts were completely unfathomable from the very beginning, but Long Chen was certain that he at least did not have any thoughts of killing him, and this was the first time he had met someone from the Five Dragon Cities. He did not know exactly how Long Qinglan was treated, or in other words, even if it was the Five Dragon Cities himself, there would likely be differences between them.

When Long Chen said those words, the youth that Long Chen was pointing at was so angry that he looked like he was about to spew flames. He clenched his fists and stared straight at Long Chen with his tiger-like eyes, gritting his teeth, there was no way to describe how angry he was right now! He shook his head and said to the old man: "Master! Let me take care of him! Let me see, let me see, if Eternal Dragon Emperor Long Qinglan was once invincible, let me see if his son is capable of it! Don't worry, I won't kill him. He still needs to be brought back to the Dragon God Domain to apologize to the people of the world! "

The other Dragon Fighters all instigated, there was no lack of people in this group who were stronger than the young man that Long Chen was referring to. In the Immortal God Realm, 1000 years of age was in truth the equivalent to the difference between a martial artist who was 10 years of age in White Poplar Town. Generally speaking, as long as one was less than 4000 years of age, they could be considered young martial artists in the Immortal God Realm.

Di Feng was not even a thousand years old, and among the humans, he could be considered to be one of the strongest people under that age.

However, most of them were under the age of four thousand. For example, the person who confronted Long Chen, had already cultivated for more than two thousand years and had reached the late stage of the tri-level tribulation of reincarnation. Having gone through three great tribulations, he could be considered a peerless genius of the human race, or even the entire Immortal God Realm.

For example, when one reached Di Feng's age, they might not even have his fighting strength.

Most of the people the old man brought over were the geniuses of Life Dragon City.

Everything was waiting for the old man's answer.

At this moment, the old man muttered to himself for a moment. "Then let's give it a try."

Hearing the permission from the old man, the young man was immediately excited, his blazing eyes stared straight at Long Chen, as though there was no one else present.

The others said in unison, "Jiang Kun, you must teach him a lesson and avenge our brothers!"

"Remember, don't kill him. We still need to bring him back to the Dragon God Domain. We need to see if he has the face to face his own ancestors!"

"You're right, we have to take it easy." It is enough to let him understand how powerful the Genius dragon martial artists are. "

The Dragon Fighter called Jiang Kun chuckled and waved his hand: "Rest assured everyone, I know what to do with him."

Under the lead of the old man, the rest had already retreated, leaving the arena to them. However, Long Chen stood firmly in front of the deep mountain where Ling Xi was, and did not leave even half a step.

He was battling, and he was also waiting.

Ling Xi was interlinked with him so she naturally knew of the current situation.

"Brother Chen!"

She was very grateful that Long Chen trusted her so much, so she definitely could not give up!

His fighting spirit surged!

Jiang Kun mocked Long Chen and said, "I am a high level divine dragon, the Raging Dragon of the Enraged Sea! May I know what kind of dragon you are? What would the Eternal Dragon Emperor leave for you? I heard it's a super dragon? Let's take a look! "

Long Chen had not even reached the tribulation of reincarnation yet, so if it was a super dragon, he would at most have the combat power of a one Yuan tribulation of reincarnation. In the eyes of this

Jiang Kun, he was simply no match for Long Chen, the only one who was curious about Long Chen's fighting strength was probably that old man and the other person, the Illusory Immortal Clan's Xiao Hongchen.

From the very beginning, he hadn't said a single word, but he had been sizing up Long Chen. His gaze was extremely terrifying, and the strength of Xiao Hong Chen was probably a little stronger than Jiang Kun.

What caused Jiang Kun's mood was that Long Chen did not pay attention to him at all. He stood in place, waiting for the opponent to make a move.

"He doesn't even dare to say which Divine Dragon blood essence he inherited?"

Jiang Kun chuckled coldly.

Even if the son of the Eternal Dragon Emperor was despised by others, because of his father's past glory, his identity would still be extremely special. To become the first person to defeat him, Jiang Kun felt that he would definitely be famous for a thousand years!

Excited, angry, and hateful, these three kinds of emotions made his heart itch unbearably. He was a Wild Sea Dragon, and at this moment, blue dragon scales appeared on his body. One of them was completely blue, as if he was a Dragon Fighter in the midst of ocean waves.

"Just what kind of divine dragon are you!"

Wherever he went, the ground would crack and crack. He then threw out a punch with his fist that covered the sky and earth, pressuring down, like a tidal wave that covered the heavens and earth, smashing down! Boom!

A cold light flashed across Long Chen's eyes. Without saying a word, he activated his shocking speed and left Ling Xi's place, rushing to the left. He could not go too far, but he would not get too close either, lest he implicate Ling Xi.

"You're pretty fast, aren't you?"

The furious Sea Storm Dragon laughed loudly, smashed apart many mountain peaks, and chased after Long Chen.

"Just in terms of speed, it's indeed quite good. It should be a divine dragon that specializes in speed."

"It's just that in front of the Raging Dragon of the Raging Sea, this guy is just like a baby. He has no way to resist at all."

The Life Dragon City s of the Life Dragon City began to discuss together.

Slaughter Dragon City, one of the worshippers of the Ten Great Ancestor Dragon, the dragon of blood and slaughter — the Primordial Blood Spirit Dragon!

Everything related to the Archaic Blood Spirit Dragon was just a legend. People only knew this name.

Everlasting Dragon City, one of the worshippers of the Ten Great Ancestor Dragon, the Dragon of Time and Eternity — — Great Void Cosmic Dragon!

No one knew about the Great Void Cosmic Dragon either.

This was also the origin of the Five Dragon Cities. In reality, the Dragon Fighter and their Dragon City did not have an absolute compatibility, for example, the Eternal is the Time Attribute, but in the Everlasting Dragon City, there were very few divine dragons that had the power of time.

The Life Dragon City worshipped one of the Ten Great Ancestor Dragon, the dragon of life and creation — the Taiji Creature Dragon!

It was said that the formation of the entire world had an inseparable relationship with the Taiji Creature Dragon. According to the legends, the Primordial Blood Spirit Dragon ruled the slaughter, and the Taiji Creature Dragon ruled the new generation, one dead and one alive. However, the Taiji Creature Dragon was even more famous because it could create a new world, and create a new life!

There was only one form of life and that was nurturing. However, Taiji Creature Dragon was different, it could directly create life and create the world. This was his sacred art, and he possessed the same ability as the creator of the world.

Of course, the T-rex was not related to the Taiji Creature Dragon in the slightest.

Everyone laughed quickly because Long Chen was actually being chased and fought, without even the slightest chance to retaliate. In front of the Raging Dragon of Raging Sea, he could only flee in a sorry state, and was always on the brink of dying at the hands of the Raging Dragon of Raging Sea.

The middle-aged man in black next to the old man whispered: "Master, should I go and kill that woman first?"

He was referring to Ling Xi.

He also knew that Long Chen was protecting Ling Xi.

The old man gently held his hand: "There is no need, we will wait and see."

All of the Dragon Fighter s ridiculed and laughed out loud. They had initially thought that Long Chen was very strong, but they had never thought that he was just boasting, causing them to feel that it was really shameful, yet the old man could see that this little fellow was only stalling for time.

He was looking forward to how he would fight back when the time came.

Angry Sea Tyrant Dragon roared: "Traitor! If you have the guts, then don't run. Fight me fair and square and rely on your speed to run. Can you still be considered a man? "

In reality, he was feeling extremely aggrieved. Even though the other party had been beaten to a pulp by him, he had yet to touch him. This kind of feeling was unbearable.

However, no matter how much he threatened or threatened, Long Chen's face was still calm.

The Raging Dragon of the Angry Sea was furious.

"Sea Tide!"

BOOM!

The terrifying impact caused Long Chen to stagger to the side. Jiang Kun, who was in the middle of the huge wave, carried along a monstrous amount of seawater and charged towards him, with most of the Raging Dragon's combat power on his body. The amount of strength he possessed was several times greater than that of the dragon race!

"Crush!"

The vast and awe-inspiring tide rolled past.

Originally, he could have restrained Long Chen this time, but Long Chen was instead like a mud fish, extremely fortunate that he had dodged. He was furious to the extreme, and immediately transformed into the shape of a dragon.

And at this time, Ling Xi actually finished ...

Chapter 1997 - Shocking Instant Killer

The blue Sea Tyrant Dragon was the overlord of the sea of The Age of Dragons. At that time, the Dragon Sacrifice Continent was much larger than today, and its high level divine dragon was comparable to gods and had a might that could shake the heavens and earth.

The Raging Dragon in front of him extended for more than a kilometer. The blue dragon's scales glowed with a dazzling brilliance as innumerable waves appeared in the sky, surrounding him.

This Raging Ocean Tyrant Dragon was one of the strongest amongst the old man's disciples. Otherwise, Long Chen would not have chosen him as his opponent.

When the Sea Tyrant Dragon took the shape of a dragon, he let out a huge roar, staring at Long Chen with a pair of Ocean Blue gem-like eyes, and roared: "Son of the Eternal Dragon Emperor s! Show us your Divine Dragon Body, let us see what you can do! If you still don't have the guts to fight me and still blindly run away, don't blame me for being rude! "

The true battles of the Dragon Fighter were carried out with Divine Dragon Body. That was the glory.

The creed of Dragon Fighter was that it was brave and useless to hide like that. Long Chen dodging so quickly naturally made them look down upon him, and the surrounding young Dragon Fighters had already started laughing at him. In their eyes, it was as if Long Chen had such an extremely powerful father for nothing.

"He's so unfeeling, I really don't know how he killed Di Yu."

Seeing that they were mocking him, the silent Illusory Immortal Clan's Xiao Hongchen said, "He's stalling for time, he hasn't even begun to fight yet."

Hearing this, the young Dragon Fighter was stunned for a moment. Although Xiao Hong Chen's words seemed to make some sense, they were unwilling to believe that in their eyes, Long Chen looked to be in a sorry state, especially after the Raging Dragon of Raging Sea had changed into the dragon form. The other party didn't even have the guts to change into the dragon form!

Ling Xi had succeeded!

Long Chen had always been waiting for this moment!

To be honest, he had had enough of being scolded and chased by this fellow. He had been enduring the entire time, waiting for the moment Ling Xi succeeded!

Indeed, at this moment, she had really succeeded!

"Truly worthy of being my good wife!"

Long Chen secretly laughed, but at this time, the furious Sea Tyrant Dragon was furious beyond belief. Long Chen was actually courting death, then he couldn't hold himself back anymore, he was the overlord of the ocean, right now he was rolling in the sky, his sturdy tail was bringing an endless amount of ocean waves as it coldly smashed towards Long Chen.

But Long Chen no longer had to dodge!

It was not that he was not angry, it was just a matter of reason and pressure, in his entire life, he could not stand people humiliating his father, it was his greatest provocation, he was able to endure until now was all for the sake of reason, but the moment he did not need to endure, Long Chen's ruthless killing intent completely manifested itself, his eyes instantly turned blood-red, and his killing intent soared to the sky!

At this moment, he suddenly stopped retreating. Instead, he charged towards the Raging Dragon of Raging Sea. However, he did not transform into a dragon. Instead, he used his human form to withstand the terrifying attack of the Raging Dragon of Raging Sea!

The Raging Dragon of the Fury Ocean, his tail could stir up the ocean and form a destructive storm. Its power could be imagined, Long Chen's actions were undoubtedly a moth flying into a flame, he was undoubtedly courting death!

At least the young Dragon Fighters were clamoring and looking at Long Chen in surprise, they were filled with amazement, but this still did not dispel their previous despise of Long Chen. In their eyes, regardless of whether Long Chen was a Dragon Fighter or not, he, a traitor, was not qualified to be compared with them. They held deep feelings for the human race, detested Long Chen, and wished for nothing more than for him to die.

However, they saw an unimaginable scene.

Long Chen was just like a small fly that collided in midair with that enormous blue dragon tail!

Everyone thought that Long Chen would probably be blown into dust.

But they absolutely did not expect that not only was Long Chen unharmed, his hands had even grabbed onto the dragon's tail of the Raging Dragon of Furious Sea. Both of his hands had turned into sharp blood-red dragon claws, deeply piercing the dragon's scales of the Raging Dragon of Fury Sea, locking himself firmly on the dragon's tail.

The T-rex knew it was stuck, so it shouted angrily, "Damn flies!"

He had originally thought that he could suppress Long Chen into meat paste, but at this time, the piercing pain from his dragon tail woke him up. He was shocked to discover that after the dragon tail had chopped down, Long Chen had landed on the ground first, with his legs on the ground, sinking deep

into the ground. However, his hands were still supporting his dragon tail, which was countless times larger than his own.

This strange scene caused everyone to be stunned.

Long Chen still did not let go of her. What was he trying to do? Comparing strength with a humanoid body? Raging sea Tyrannosaurus Raging Dragon is good at strength, this is undoubtedly courting death, right?

But the next scene, was actually Long Chen shouting explosively. He clenched his teeth tightly, and his small body, in comparison to the others, exploded with terrifying power. No one would think that he would succeed, but he had completely exceeded everyone's expectations!

At that moment, the Raging Dragon of Furious Sea let out a panicked cry!

The terrifying strength that came from Long Chen's body was controlled by the dragon tail. He originally thought that he could easily throw Long Chen out, but to his horror, he discovered that his dragon tail couldn't move at all.

At that moment, Long Chen finally revealed a cold smile to him.

"Are you done talking f * cking about that!?"

With his tiny body, he rolled up the entire body of the Raging Dragon of Fury Sea. With himself as the center, he actually swung the Raging Dragon of Fury Sea in a circle, and finally smashed it ruthlessly onto the ground. In that instant, the earth trembled, and the entire ground and mountain forest within a hundred miles all cracked, bursting out into chasm!

Under Long Chen's terrifying strength, the Raging Dragon of Angry Sea smashed onto the ground, its scales cracked, its flesh turned into a mess, and it vomited out blood from its mouth. In an instant, the blood turned into a river, and the Raging Dragon of Angry Sea twitched non-stop.

But this was only the beginning!

He could not imagine what kind of anger was stored within Long Chen's body.

I'll tell you, no matter who I kill, I have never once regretted it. I have never offended anyone, nor was I afraid of them, so I have no regrets towards the Dragon God Domain. Even if my father and I were wrong about each other, it is not your place to point fingers at me.

He once again rose into the air, and with his insignificant body, he swung the Canghai Azure Dragon several times in the air, and in the end, smashed it to the ground with all his might. In an instant, it was as if a huge meteor had fallen, and if the Raging Dragon from the sea of fury were to smash onto the ground, it would definitely result in its body shattering into pieces!

At this moment, Long Chen's terror had already shocked everyone!

With his most berserk posture, he caused all those who were still pointing fingers to shut their mouths. Everyone looked at the miserable state of the Raging Dragon in the sea of anger with pale faces, and saw that he was about to be smashed into pieces. Almost every single one of the youths' minds were blank, no one even thought of saving the Raging Dragon in the sea of anger.

Honestly speaking, in the entire Life Dragon City, the Fury Ocean Tyrant Dragon Jiang Kun was also a very high level genius and he was worshipped by countless young Dragon Fighters. He had a huge reputation among the Five Dragon Cities as well, but the speed and misery of his defeat today had exceeded everyone's imagination.

Jiang Kun was his disciple.

Naturally, he couldn't allow Jiang Kun to die just like that.

As for Jiang Kun, who had been scared out of his wits, he finally reacted before his death. Although his body was badly mutilated, this time around, he could at least relieve the pressure from his master.

When he almost crashed to the ground and died, the Heavenly Palace's Thunder Dragon waved his hand and steadily fell to the ground, landing beside his seniors and juniors. At this moment, he spat out a mouthful of blood, and was already unable to stand properly, his vision already blurring. He raised his head and saw that the blood-red youth was still slowly falling, his eyes revealing extreme shock.

From the moment he had been in high spirits to the moment he had been defeated, it had not even been ten breaths of time.

If Gong Qing didn't save him, he would have died without a doubt.

After the battle ended, there was complete silence.

This battle had vented his anger.

Long Chen never thought that the Life Dragon City would come to this place. He had long ago treated the Five Dragon Cities as a target that he needed to conquer in his entire life, and all he had done was to silence the people of the Five Dragon Cities.

Just as they had said, as the son of the Eternal Dragon Emperor, he should have his own pride.

He became cautious and fell to the ground. In reality, this was the most critical moment. Facing the people of Five Dragon Cities, he who did not have enough wings on his body, had to leave immediately, he was only waiting for Ling Xi to succeed. Once he landed on the ground, Ling Xi, who had the same thoughts as him, instantly appeared in front of him.

Ling Xi was ready, her goal was the leading old man, as long as they could take him away, no one would be able to do anything to Long Chen.

"Revolving Star Passage Formation!"

At this time, everyone was trembling as they checked the injuries of the Raging Dragon in the sea of fury. Ling Xi's appearance was something they basically didn't notice at all, and's movements were extremely fast. This time, the Stellar Transposition formation instantly enveloped most of the enemy's warriors, including the thunder dragon from the palace and the shadow dragon beside him.

Revolving Star Passage Technique activated.

Ling Xi changed her hands and activated Sector lord Divine Arts.

Long Chen was naturally very nervous.

Once Ling Xi succeeded, he would immediately leave with Ling Xi.

When the old man activated the Revolving Star Passage Technique, he immediately sensed it.

Chapter 1998 - Determination of direction

His eyes were calm as he looked over.

The other party was a martial artist with six sets of tribulation of reincarnation. Ling Xi could make the practitioners of the five elements tribulation of reincarnation move, but to martial practitioners of this level, it was very likely that in the eyes of the opponent, this level of Sector lord Divine Technique was just a child's play!

The Revolving Star Passage Technique was extremely fast. The moment it was activated, it was about to succeed.

The Dragon Fighter inside the formation diagram were all shocked and were about to escape.

Right at this moment, the old man stretched out his hand, and with a flick, a destructive bolt of white lightning flew towards Ling Xi at a breakneck speed, the speed of the white lightning was extremely fast. If the Revolving Star Passage Technique was activated, the other party could definitely teleport away, but Ling Xi would probably die under the hands of the white lightning!

Any casual attack from the six tribulation of reincarnation Warriors was no small matter!

In this moment of life and death, Long Chen did not care that much. He made the most correct decision, and that was to transfer Ling Xi to the Divine Kingdom, which was the fastest way to protect her. Ling Xi was safe and sound, but the result was that the Revolving Star Passage Array was forcefully cut off, and it did not have any effect.

When the white bolt of lightning struck him, Long Chen could only dodge as if his life depended on it, but he found that he was unable to dodge this kind of attack. Just as he was about to struggle with his teeth clenched, he did not expect the white bolt of lightning to suddenly disappear in mid air.

He was startled for a moment. It should be the attack that Gong Qing lifted.

He had no intention of killing him? Or would he not let himself die so easily?

Long Chen did not know what the old man was thinking.

This change also made the young Dragon Fighter even more furious.

"You actually want to escape!?" As a traitor, you still dare to injure our people! Today, you will definitely die without a burial ground! "

Several Dragon Fighter s clamored as they charged towards Long Chen.

"Halt."

Although these people were extremely unwilling, they could only endure it. After all, the one who had spoken was their master, and they believed that if they were stronger than their master, they would definitely make Long Chen pay.

Since things had progressed to this stage, Long Chen could only take one step at a time. However, he could keenly feel that the breakthrough today should be on this old man, so he comforted Ling Xi a little and told her not to be too nervous. Today might not be too troublesome for him.

"Master, let us kill him! "Avenge junior brother Jiang Kun!"

"Indeed, I will avenge senior brother Jiang Kun!" He actually injured Senior Brother so severely! "

While they were taking care of Jiang Kun, they were also grinning at Long Chen. However, in reality, they were afraid in their hearts, so they could only attack together with.

The elder's eyes were calm as he said, "Take care of Jiang Kun and let him heal his wounds. I will take care of the other matters. Stay here and don't leave."

Hearing this, they finally got over their anger and looked at Long Chen with gazes full of hatred and schadenfreude.

"Don't even think about living. Even if my master were to help you, don't even think about living comfortably."

Under the influence of the elders, in the minds of the young generation of Dragon God Domain, Long Qinglan was the devil, the symbol of betrayal.

They had hated this kind of people since they were young. Long Chen was their son, so he naturally became the target of their hatred and contempt.

Under their complacent gazes, the old man walked over to Long Chen and said expressionlessly: "Let's chat somewhere else. Follow me."

Hearing the old man say such words, the complacent Dragon Fighters' faces stiffened. They had originally thought that their Master would immediately take Long Chen's life to avenge Jiang Kun.

"Master must be secretly torturing him!"

They comforted themselves like this.

Xiao Hong Chen stood at the side with a puzzled expression. He looked at everything that was happening with great curiosity.

As for the shadow dragon, it merged into the shadows, disappearing without a trace.

Long Chen stepped on the shattered fallen leaves and followed the old man deeper into the ravine. The old man in front of him had white hair that fell like a waterfall, and wherever he went, it would become charred black. White lightning that was surrounded by dragon scales swam around his body.

Finally, he stopped and turned around.

"Senior, what business do you have for me to come here?"

Since the other party did not kill him, then Long Chen would not be stingy with his respect. After all, he was an elder of the Five Dragon Cities.

The old man said in a deep voice, "With your strength, I estimate that you'll turn into a dragon and be able to fight against warriors of the early stage of the Four Symbols tribulation of reincarnation. Such

power, is truly heaven-defying. Even at your age, Five Dragon Cities does not have such a strong existence, it would not be an exaggeration to say that you are the number one under the heavens at the same level as Di Yu. If Di Yu had reached the tri-level tribulation of reincarnation one year ago, he would not be your opponent right now. "

Gong Qing knew the specific strength he had when he first left the battlefield of the gods. For Long Chen to be able to reach his current cultivation level within a year, it had actually caused a huge sensation in his heart, in truth, no one in the Dragon God Domain ever thought that Long Chen would be a genius with potential, because no one thought that he could be compared to Di Yu in terms of potential. As long as it wasn't Di Yu, the Dragon God Domain wasn't lacking in any way.

"In other words, if your fighting strength were to spread to the Dragon God Domain today, it would definitely cause a sensation throughout the world. I think that the others would be like me and would not think that you would be able to achieve such a feat today. But you should know, the more powerful you are, the harder it is for all humans in the Dragon God Domain, and this is not a good thing, rather it is a disaster that makes them feel terrified. If this is the case, before you truly become strong, I think countless people will want to kill you in your cradle, so as to prevent you from becoming the second Long Qinglan.

Long Chen still could not figure out what the other party was thinking.

But he was right, today he had displayed an unrivalled attitude in terms of talent. At least, until now, even Di Yu's talent was incomparable to his. He had begun to display the Ancestral Dragon God's might, especially after a fierce battle with the god of tai-su s. If humans knew that they had already reached this step, it was very likely that they would become the second Long Qinglan.

Because, in their eyes, he was the second Long Qinglan, the second traitor!

If not for Long Qinglan, he would not even come into contact with the people here. However, he understood that to Long Qinglan, this was his homeland, the place where he was born and raised. He did not want his repulsive reputation to be passed down forever, this was Long Qinglan's wish before his death.

"Senior, say what you want to say."

Long Chen knew, he must have said all this for real. Otherwise, he wouldn't waste his breath on him, and could directly imprison him and bring him back to the Dragon God Domain.

He wasn't afraid.

Gong Qing nodded, but he could not help but praise, "With your temperament, no one at the same age could compare to you. I believe that the so-called matter of defecting to the Spirit Race is just absurd. What I really want to say to you today is that I don't give you the choice to oppose.

He paused for a moment, and said, "The Brilliant Stars has three major powers: the Golden War God Clan, the Nightmare Race, and the Illusory Immortal Clan. According to the rules of the Nine Star Alliance, the three clans can form good relations with one another, and our human race can assist the Illusory Immortal Clan. The human race has sent a few of our Life Dragon City s to stand guard. The three forces are about to engage in a war of hegemony between the Star Lords, and in the war of hegemony, the first battle will be a battle of geniuses. At that time, my Life Dragon City, who is under four thousand years old, will form a team with the geniuses of the Illusory Immortal Clan, and against the other two forces, the Gold War God clan and the Demon Clan, will fight against the Nightmare Clan and the Chaos royal clan. Do you understand all of this? "

Long Chen nodded his head, he had always been clever, and after saying that he had a rough understanding of the situation, he said: "Senior, you mean to say, you want me, along with the people of the Life Dragon City and the Illusory Immortal Clan, to fight against the other two forces, so that you can obtain victory?"

The old man was very satisfied. He stroked his long beard and said: "We have quite a few Genius dragon martial artist s at the early stage of the Four Symbols tribulation of reincarnation, but if you are able to participate, the chances of us defeating you would be even greater. All that I have said is just to give you a chance, and you can use this chance to express yourself. If you are able to make a great contribution to the human race by stepping into the brilliant stars, and adding the heaven defying talent that you have displayed, I believe that the people above Five Dragon Cities will think carefully in their hearts. After all, the only wrong thing you did, was to kill Di Yu. But, if you can replace Di Yu, can also repent and make outstanding contributions to the human race, I believe that you will once again gain the respect and trust of our Five Dragon Cities and bring honor to your father. "

He gave out his own ideas in a series of sentences.

It was obvious that this fellow had come prepared.

He did not want to be like those other young men, who would start shouting and shouting whenever they saw him, and would instead treat him as a rational elder who was looking at him and giving him directions. Just because of this point, Long Chen felt that he should give this old man some face.

However, he needed to consider whether or not he should agree to her request.

"Let me collect my thoughts."

Long Chen said as he nodded, and then pondered in his heart: "Everything I will do in the future, is nothing more than asking for my father's right name. But with my current situation, if I am to be spurned by the human race, how can I do it for him? If it were only me, I could have just ignored these humans. However, that is my father's homeland. I have to fulfill my last wish for him. There should be something I have to do! "

Chapter 1999 - Xiaolong Domain

At most, he would consider it for Long Qinglan.

In fact, he wasn't sure how he would be able to return to Dragon God Domain and give those guys a head-on attack in the future once he became strong in the chaotic star field. But he understood one thing, in the entire Dragon God Domain, there definitely wasn't just people who hated the Eternal Dragon Emperor, there must be a group of his admirers. What he wanted to do was to find out the truth from those who didn't know, were deceived by history.

However, all of this was built on the premise that he was not despised by the humans. In his current state, no one would believe him because he not only wanted to blend into the Dragon God Domain, but he also wanted to wash off everything on his body, let them see his positive image, and let those who despised him to shut their mouths.

And this old man in front of him seemed to have provided him with an opening, an opportunity. He yearned for freedom, but he shouldered the wishes and responsibilities of his parents. This was something he could not abandon even when he was on the verge of death, and it was also the difference between him and others.

The Divine Palace Thunder Dragon continued. "If you are truly concerned about your own future, you should understand that you are the Dragon Fighter, the descendant of the Divine Dragon. You belong to the human race, and you also belong to the dragon race! You are also a descendant of a Divine Dragon, and in our body there is the same bloodline. Only when he returns to his homeland and the world that he belongs to, can you truly shake the world, and not wander around! Long Chen, I know that you are not satisfied with what you did with your father, and I also know that you want to save the situation, so I

will give you a chance, and give you a chance for everyone to get to know you again. In my opinion, that youth can be arrogant, and pursue freedom, but you can't.

Long Chen guessed that if it was someone else who came, they would probably imprison him and send him to the Dragon God Domain for trial without a second thought. However, he did not.

"Brother Chen, I feel that he is right, we cannot go against the human race, after all we are human beings, and the more we fight against them, the more difficult it will be to fulfil your father's final wish. What you have to do is to subdue them, make them shut their mouths, and let them feel guilty for you and your father."

When Long Chen asked Ling Xi his opinion, Ling Xi told him that this was probably what he was thinking. His original plan was to go back to the Dragon God Domain to adventure! Then he would go and correct his father's name!

But, the God of Taishang hadn't arrived yet, the One Yuan tribulation was even further away!

He wanted to fulfill Long Qinglan's last wish, redeem his father's name, and wash away his grievances. He could start right now, and could use this opportunity to charge towards and create his own name in the chaotic star field, and shock the entire Dragon God Domain with his name! This could also be considered as paving the way for him to return to the Dragon God Domain in the future!

If this old man were to give him this chance to win, then he himself would definitely face a huge amount of pressure. After all, amongst the human race, all of the public opinion was not good for Long Chen and his son.

Long Chen only wanted to confirm one thing.

He asked, "Senior, can I ask you a question? What do you think of my father's character?"

The old man suddenly laughed, and after a while, he said seriously: "I think he is a peerless great hero, with talent that no one can compare to, with power that is unrivalled in the world, almost to the level of gods, creating a new river of history, but what do I think it is used for? You have to make everyone believe that making them feel ashamed of their previous misunderstandings is the most important thing. My own thoughts are useless. "

"No." Long Chen's expression became determined as he said, "At least let me understand that Dragon God Domain isn't all idiots. I still have hope. "

Although these words were a bit impolite, young people should show off their edge in this way.

Gong Qing smiled, "Then, are we considered to have an agreement?"

Long Chen no longer hesitated, he laughed: "If I don't agree, I believe you definitely won't let me go like this."

The other party laughed: "You are very smart, and managed to catch you. If you do not follow my instructions, I can only send you back to the Five Dragon Cities, and have them come to judge you."

This was more or less what Long Chen had expected.

In actuality, the other party had only given him a chance, but not a choice.

Bravehearts, wise men, they should face the adversity, fight against fate, fight against the world!

After making this decision, Long Chen seemed to have a plan, he knew that he couldn't stay silent any longer. From today onwards, he would be ruthless to begin with, as long as he did not touch the bottom line of the Five Dragon Cities, he could do whatever he wanted to do. Even in the entire human race, only the thunder dragon in the palace trusted him, and he was not afraid of Long Qinglan!

He swore in his heart, "One day, I will make all those people repent for my father and me for their mistakes. I will use my efforts to find out the truth of history and give my father justice!"

This was Long Qinglan's wish before his death!

This was also the eternal obsession in Long Chen's heart! If he didn't succeed, he would die! After all, everything that he had done today was given to him by his father!

His life had once again been filled with a passionate fighting spirit.

Gong Qing was very satisfied with him. He took the lead on the road back and said while walking, "The road ahead is filled with disasters. Young people should be fearless and dare to challenge authority, overturn history, and forge ahead bravely! Although I don't know why, but I believe that with your participation, this whirlpool of history will experience unprecedented turmoil.

It had to be said that this Gong Qing was an extremely special person.

His way of thinking might be very different from the other humans, at least from his disciples.

"Brother Chen, you can do it! I will fight with you!"

Ling Xi was with him.

Long Chen raised his head and looked up. The crystal shard in the sky was flashing with sand, his future was bright!

"Let's go!"

He followed Gong Qing and returned to the previous location.

When the Dragon Fighters saw that Long Chen was completely unharmed, they could not believe their own eyes. They believed that Master would definitely torture Long Chen quite miserably. After all, he was the traitor of the entire human race.

This kind of inconceivable surprise caused them to be stunned for a moment. Only when the old man walked in front of them did they ask in astonishment, "Master, you didn't punish him?"

"He is a traitor to the human race, and his father is a sinner who has sinned throughout the ages. He even brutally injured Senior Brother Jiang Kun, why didn't he punish him and bring him back to the Dragon God Domain?"

Although he couldn't be killed immediately and had to bring it back to the Dragon God Domain to await his judgement, the other party had already committed a grave mistake. At the very least, he should be beaten up to take revenge for Jiang Kun, right?

They couldn't figure it out.

The old man didn't reply. Everyone was clear about his temper. If he was annoyed by too many questions, then everyone would definitely suffer.

"Let's go back!"

Long Chen was already standing side by side with Ling Xi. The two of them held hands, welcoming the new battle.

"Why didn't you kill them?"

The young Dragon Fighters were about to go crazy. They really could not tolerate going back with Long Chen like this, even if they did not punish him right now, he should at least be imprisoned.

These doubts made them extremely uncomfortable. Everyone looked at each other and once again raised their doubts to Gong Qing.

Gong Qing said, "I've been asked too many questions. After I go back to the 'Xiaolong territory', I'll announce some things."

This answer caused the crowd to be even more perplexed.

At this time, Long Chen had already followed Gong Qing and was walking towards the direction of the Dragon Region.

It was true that the young Dragon Fighters were furious, but they could only clench their teeth. Their eyes were filled with killing intent as they stared at Long Chen.

Long Chen would never put these insignificant people in his eyes.

Along the way, no one spoke, but Xiao Hong Chen from the Illusory Immortal Clan suddenly walked forward, to Long Chen's side. As they travelled, he said: "Your name is Long Chen? I am the Illusory Immortal Clan's Xiao Hong Chen, nice to meet you? "

This was the young master of the Dream Alliance. If it weren't for him, he wouldn't have come here.

In the beginning, he should have harboured malicious intentions towards, but Long Chen did not know what his intentions were.

But he couldn't be a good friend.

This time, it was likely that there was some ulterior motive in this conversation.

Long Chen said: "You're the young master of the Dream Alliance, right? May I ask, I only bought the imperial jade milk, why did you send someone to follow me? "

This straightforward manner of his caused Xiao Hong Chen to feel a little awkward.

He laughed: "I have seen Brother Long Chen make a move and felt that you are an extraordinary Dragon Fighter, but you are not someone of the Life Dragon City, I am curious, if I offend you, I can only apologize to you, it is just as the saying goes, if we don't fight, we will never get to know each other, I am afraid that we will meet again in the future and we will need each other's help, I hope Brother Long Chen do not argue."

Xiao Hong Chen could tell that Gong Qing did not intend to punish Long Chen at all. Just now, Long Chen had displayed an earth-shattering combat ability, and it was no surprise that Gong Qing wanted him to participate in the Star Lord Battle!

He, Xiao Hong Chen, was one of the participants.

"It's just a small matter. Of course, there's no need to care about it."

Long Chen smiled, he was focused on rushing.

Behind him, the Dragon Fighter looked at them with unfriendly eyes.

They sneered and said, "This guy really knows how to act cool. He even ignored Xiao Hong Chen's words, do you really think that just because you're the son of the Eternal Dragon Emperor, your status is so noble?"

"Don't bother with him, this brat is just a joke. He's about to return to the Xiaolong territory, there are still nearly a hundred Dragon Fighter brothers there. When the time comes, everyone will beat him to death and take revenge for Jiang Kun."

Sure enough, they returned to the dragon region after a few days.

"There are still two elders. I need to discuss this with them." Gong Qing said to Long Chen.

Chapter 2000 - Heavenly Gigantic Wood Dragon

In fact, there were only less than ten days left in the Star Lord Battle.

In recent days, the three factions that had the qualification to participate in the Star Lord Battle had been preparing like a raging fire. The entire resplendent star became fiery hot, and the atmosphere became incomparably tense. A large number of experts shuttled through the area, and the resplendent constellations were about to welcome the storm.

At this time, Long Chen followed the Divine Palace's Thunder Dragon and arrived at the small dragon region. There were also people from other Life Dragon City. There were many Dragon Fighter hiding in the resplendent stars, far more than a hundred people.

Nearby, the Illusory City was right there.

In the deepest parts of the Illusory City, was the true gathering place for the Illusory Immortal Clan, named the Dream Profound Realm. In the past few days, Illusory City had been relatively peaceful, and that was because the experts of the Illusory Immortal Clan were all in the Dream Profound Realm, preparing for the upcoming war against the Star Lords!

When he neared the small dragon region, Xiao Hongchen proposed to say his goodbyes. He first bid farewell to Gong Qing, and finally said to Long Chen, "Brother Long Chen, see you at the Hegemony of Star Lords."

After saying that, the Genius dragon martial artists looked at each other. They didn't know what Xiao Hong Chen meant. In their opinion, since Long Chen had come here, even if he was not judged and punished, he would still be imprisoned forever.

In the past few days, Xiao Hong Chen had been acting very friendly, but this person was too shrewd. Long Chen had no intention to befriend him, and bid him farewell politely.

Ahead of them was the small dragon region.

When the group of them walked towards the Dragon Region, the Sea Storm Dragon, who had already recovered, coldly spoke in Long Chen's ear. "Don't be complacent, once we reach the Dragon Region, your fate is destined to be miserable, and you can forget about having a free life for now, even with this beauty beside you, who is also your wife, your fate will be the same. You will be imprisoned for life, endure all the suffering, and atone for the sins that you have committed."

Long Chen tilted his head and laughed wickedly: "If I knew that you would be so noisy, I would have killed you earlier."

He was an Archaic Blood Dragon, and his killing intent was unstoppable. Even though it was just a simple sentence, Jiang Kun was still scared into retreating several steps. He gritted his teeth and said, "Let's wait and see."

Just at this time, Gong Qing waved at Long Chen with a gentle expression. His kindness towards Long Chen made the other disciples feel extremely uncomfortable, they were confused and had many opinions regarding the old man's actions.

Long Chen brought Ling Xi forward and asked: "Is there anything senior needs to tell me?"

Gong Qing replied, "There are three leaders from the Life Dragon City in the Xiaolong Domain. I am only one of them with the least qualifications. The other two have been stationed at the Brilliant Star for thousands of years. Although they are of a high rank, their realms are deeper than mine. They hate your father and are the opposite of me, so if Xiao Hong Chen had sought him out before, you would already be dead. "

A cold light flashed through Long Chen's eyes as he said, "I'll remember it."

Gong Qing continued, "There is another host, who is also a super dragon like me. However, his fighting strength is stronger than me and Mu Huang Dong. His name is Xing Yue. It was a three thousand star

soul dragon. He is also the strongest warrior among our Life Dragon City in the resplendent stars. This person has a calm personality and is quite mysterious. He has a shallow relationship with Woodland and me. He should not be targeting you because he is keen on training. "Remember, no matter what, you must not anger these two."

Long Chen said: "I know what to do."

The other party said, "For the Star Lord Battle, my personal consent cannot be counted. I need the consent of more than two of the three of us. Therefore, after you enter, you can display your potential and fighting strength. You know that better than I do. "

In other words, if there was not a fight, these hundred or so Life Dragon City s would not be convinced. What Long Chen needed to do was to beat someone who was unconvinced until he was convinced.

"Alright."

After speaking, they had arrived at the Dragon-Dragons Domain. A group of people had arrived, passing through the vast mountainous forests and the sea of clouds.

Because this matter involved quite a bit of things, before returning, Gong Qing had already communicated with the other two. Right now, the people from the Life Dragon City were all gathered together, waiting for Gong Qing's return and also waiting for the arrival of the legendary Eternal Dragon Emperor's son.

After returning here, Raging Dragon of the Raging Sea of Flames and the others all smiled.

From afar, one could see over a hundred Dragon Fighter s standing on top of them. A wave of immense dragon's might pounced over, Long Chen had never seen so many Dragon Fighter s before, but after arriving here, he actually had a strange feeling of belonging.

If they didn't misunderstand her, didn't misunderstand Long Qinglan, and fought together with a group of their own kind, then that would probably be a beautiful thing in life.

Before Long Chen even arrived, he could already feel countless gazes of hatred, contempt, and viciousness land on him. Some gazes were even fiercer than those of Raging Ocean Tyrant Dragon and the others, and Long Chen was deeply aware that his father and son's reputation in the Dragon God Domain must be too bad. However, this was definitely not without reason.

At the very least, the hatred of the younger generation was formed under the influence of the older generation.

After arriving here, Long Chen was fearless.

Furthermore, Ling Xi would also accompany him at all times to encourage him with smiles. If he was unable to face these hundred or so people today, how would he be able to face the thousands and tens of thousands of people in the Dragon God Domain in the future? As the son of the number one expert of the past, he could not retreat in the slightest.

Tap! Tap! Tap!

The Divine Palace Thunder Dragon and the others landed on the stone platform.

Besides the disciples of the three of them, there were also many strong warriors whose strength surpassed Long Chen's. There were also quite a few who had reached the tribulation of reincarnation of the five elements, and some of them had even rushed over from the Life Dragon City just to help the Star Lords in the battle for supremacy!

These hundred plus people, were extremely imposing, and came with the intent of absolutely giving Long Chen a show of strength.

Whoa.

Gong Qing's gaze was calm as he brought Long Chen to the center of the crowd, while his disciples sneered and stayed outside. They couldn't help but gloat because the good show was finally about to begin.

Long Chen's heart was very calm. It had been so many years since he had last stood at this place, facing this group of people, even though there were only a hundred people, but had already imagined this scene countless of times. Ever since he married Ling Xi, everything he had worked hard to do was to one day stand in front of their eyes in broad daylight!

Laughing and chatting!

He looked over with a calm gaze and soon saw two super strong warriors, Mu Huang and Xing Yue, the upper echelons of the Life Dragon City. Their statuses were equal to the Thunder Dragon of the Divine Palace, and they had sky-upholding wooden dragons and three thousand star soul dragons.

The sky-upholding wooden dragon was an old warrior over two meters tall. Although it had a head full of white hair and wrinkled skin, its build was sturdy and very vigorous. Its pair of jade-green eyes were as sharp as an eagle's.

As for the 3000 Star Soul Dragons, they were a handsome, purple-robed, middle-aged man whose long hair was combed meticulously. He was like the starry sky and his body was covered with dazzling stars.

Long Chen's arrival caused a commotion among the others.

In the middle of the arena, almost everyone's eyes were glued to him. Although they had not personally seen the huge commotion caused by Long Chen on the God Battle Battlefield a year ago, they had heard of the entire story. On that day, Long Chen's name began to shake the entire world, but because he had killed Di Yu and also had the identity of being the son of the Eternal Dragon Emperor, what he carried on his back was a rare infamy.

In the younger generation, they, who had never lived in the same era as the Eternal Dragon Emperor, could only learn about the Eternal Dragon Emperor from the guidance of their elders.

They had transferred the contempt they had for the Eternal Dragon Emperor's onto Long Chen, just like Gong Qing's disciples.

For a time, they discussed amongst themselves.

"The son of the Eternal Dragon Emperor is this guy? Abandoned by the Spirit Race, lost in the chaotic star field, and then caught by us? "

"This fellow's life is simply a joke." The speaker chuckled.

"How interesting, guess what his fate will be from now on? My guess is that he will be brought back to the Dragon God Domain, and then be suicidal in front of the common people as a form of apology! "

"Is that person beside him his woman? "Unfortunately, such a beautiful young girl like her actually followed him. This is also a very tragic matter, I wonder if the elders will let her go."

Father owes his son a debt, but the Eternal Dragon Emperor owes us humans too much, can he pay them back? "Hehe."

Although it was a soft discussion, Long Chen was completely able to hear it. Of course, he wasn't angry. He had already heard similar words and opinions countless times. By now, he already knew what was the best way to shut them up.

In front of Long Qinglan, he had to be a terrifying person in order for them to keep their mouths shut.

The gazes of Xing Yue and Mu Huang were also carefully sizing up Long Chen. It was probably because Gong Qing had told them about Long Chen's situation, and their eyes were filled with doubt.

Gong Qing stood still as Long Chen stopped beside him.

Gong Qing looked around and said, "Everyone, this is the son of the Eternal Dragon Emperor, his name is Long Chen."

Everyone let out a cold laugh as they looked at Long Chen with ridiculing gazes, as if a group of people were surrounding a monkey and teasing him.

Long Chen discovered that there was indeed a person whose gaze was especially warm. This person's gaze originated from the Heavenly Giant Wood Dragon named Wood Desolate. His jade colored eyes scrutinized Long Chen, and then, he said in a withered old voice.
