

War God 2001

Chapter 2001 - Immense Fear

In truth, in the eyes of the crowd, Mu Huang was a very amiable person, and it was rare for him to act against him in such a way. Currently, his expression was ferocious, and his face was filled with a murderous intent, his meaning was very clear, and after hearing his words, the crowd felt that their anger could not be quelled. How could they so easily kill him? He should have teased her.

Mu Huang's words were completely directed towards Gong Qing.

He stood beside Long Chen and said loudly: "Today, I am not bringing him back here for everyone to tease him or to kill him, but to give him a chance to turn over a new leaf and earn merits for our human race. I am not joking with you all, the reason why I decided this is because I felt that he could do something that no one else could do, and there are two other things that I need to explain to everyone. Secondly, he might have killed Di Yu, but I believe that before a genius becomes a strong person, they are no different from trash. Di Yu's death is his fate, and although Long Chen is at fault, as my clan's Dragon Fighter, he has the chance to change his mind.

When Gong Qing said this, it instantly caused a huge uproar in the surroundings.

In reality, none of the Dragon Fighters in the younger generation thought that Gong Qing would have such a bizarre plan. This simply surpassed their imaginations, and for a moment, almost everyone was staring at him in astonishment, especially his disciples. They all felt that it was unbelievable.

Wasn't this kind of traitor supposed to be killed? Why did he get the chance to repent? Almost no one could understand Gong Qing. Looking at their disbelieving expressions, Long Chen knew what kind of pressure this old man had to face in order for him to accomplish this. He was suddenly moved, it was not a step that a person he had just met was willing to do for him.

Why was he willing to resist such a huge pressure for her? Was it because he pitied her, or did he also have his own beliefs and beliefs in Long Qinglan?

Long Chen didn't know why, but he knew that he must definitely not let down the expectations of this old man!

Gong Qing's words stirred up huge waves. Although he had the highest authority, the crowd could not restrain the confusion in their hearts. One after the other, they loudly said, "Mr. Gong, how can you do

that? "He's a traitor to the human race. Even if he were to die ten times, it wouldn't be enough. How can we forgive such a person?"

"If you say that the Eternal Dragon Emperor is not related to him, then he is not guilty? Even if he dies, a powerhouse at the level of the Eternal Dragon Emperor can still force his own ideas onto his son. This guy is so wild and untamed, if he is allowed to become strong, he would definitely become a new devil in the future, and will also bring a monstrous disaster to our human race.

"Master! How can you think that? No matter what, he had beaten senior brother Jiang Kun into such a miserable state. He was an outsider, a traitor. He was most likely still working for the Spirit Race. As such, how could someone like him possibly allow him to turn over a new leaf? I don't think he can change it at all! "

He could only describe them as ugly. If they were aimed at him, he would have long gotten used to it, but when Gong Qing and he had just met Long Chen, Long Chen felt extremely pressured. Long Chen felt very bad, and just as he was about to speak, Gong Qing stopped him. The white lightning in his eyes exploded, and he bellowed: "Shut up!"

The sharp sounds of thunder exploding caused everyone to be shocked. They shut their mouths and looked at Gong Qing in astonishment. They were even more clueless as to why Gong Qing was angry.

At this moment, Gong Qing looked around and said, "Who do you think you are, the three of us need to make a decision, you need to obediently listen to me, whoever speaks anymore will slap their own face 3000 times. If you have any dissatisfaction with me, after you return to Life Dragon City, you can go to the higher ups.

Amongst the three heads, Gong Qing's temper had always been the most explosive. After all, he was a Thunder Dragon from the Divine Palace and was infamous for his ferocity. After he finished speaking, no matter how angry the youths were, they could only swallow their anger. However, from their bloodshot eyes, none of them were convinced!

In the past, they might have respected Gong Qing, but now, in their eyes, that old man had already become an unreasonable and brain-dead guy. They did not believe that the other two masters would be like Gong Qing and make such a messy decision.

Long Chen deserved to die!

In truth, Mu Huang and Xing Yue already knew what Gong Qing was thinking about. At this time, the person who was truly facing Gong Qing was indeed the enormous dragon that supported the sky. His jade green eyes were incredibly deep as he said coldly: "Old ghost Lei, do you need to slap your face when I fight against you?"

It was already not an easy feat for him to fight for a chance for Long Chen today, but in reality, he had never hoped for Mu Huang to be moved by him. He also sneered: "If you want to slap yourself, then of course I wouldn't dare to stop you. My views and decisions can't be changed today. If you have anything to say, say it. "

His eyes flashed with lightning. He didn't have the slightest intention of backing down.

Mu Huang laughed out loud, and said: "Old ghost Lei, your brain is in water! The Eternal Dragon Emperor's sins are monstrous, he almost let the devil destroy my Dragon God Domain, and even more so, he wanted to destroy the war of gods, what kind of puppet is the god of the war of gods? Such an outrageous person is unworthy of being one of our human race! As for his son, he has destroyed the hope of our humankind for a million years! He killed the blood and sweat of the, the entire human race wants nothing more than to eat his flesh and drink his blood, but you are telling me that you want to give him a chance to start anew? Can you stop making fun of me? I've known you for so many years, but I didn't know that there was something wrong with your head! "

After he finished speaking, everyone nodded, obviously he had said what was in everyone's heart, even Gong Qing's disciples had no choice but to stand by the Wood Desolate Land at this time. The current Gong Qing was talking about something, Long Chen did not think that such an intense situation would occur, he did not know what kind of courage this old man had, to bring him here.

Facing Mu Huang's intense questioning, Gong Qing sneered and said: "You stubborn old man, your head of an elm has already decayed. Do you still know what it means to think? Don't talk about your personal hatred here, don't make me think that you're so ridiculously old. I already said that this child's father's everything has nothing to do with him, don't force a rare genius to leave! Also, I won't say another word to you. As long as two of the three of us decide on the decision of our Life Dragon City's team, we will be satisfied.

Saying this, he looked at the purple-robed middle-aged man who had been silent all this time.

3000 Star Soul Dragons, Xing Yue.

The eyes of that star shone like the starry sky as it swept over.

"Xing Yue, what do you think?"

Gong Qing said firmly.

Xing Yue's views became the crux.

Of course, this little thing still hasn't reached the tribulation of reincarnation, and doesn't have the ability to do so either. Even if the sin of the Eternal Dragon Emperor doesn't have anything to do with him, the fact that he killed Di Yu caused the entire world to become furious, so it absolutely cannot be forgiven! "

Xing Yue did not listen to him. He took a few steps forward, circled around Long Chen, and finally began to speak: "Child, what do you say?"

Long Chen was not afraid at all, his gaze was firm as he said loudly: "I am very grateful to Senior Gong for trusting me, towards all of you, I also have my own thoughts regarding the matter of Di Yu, no matter how talented he is, but he has gone against me, from the very beginning to the end I have never regretted killing him. Perhaps you all consider him to be the future hope of the human race, but who can clearly say what the future holds? With his personality, he would have died at my hands that day and at the hands of others in the future. Let alone what hope this kind of person has, he is only a dream. Other than this matter with Di Yu, I don't think that I have ever done anything that would let the humans down. As for the so-called 'surrender to the spirit race', I just can't stay in the human race anymore and have no choice but to let my friends take me away. If everyone thinks that this is the way to join the spirit race, then I can only say that this is foolishness and ignorance. "

After saying that, he looked around, and said word by word: "Lastly, it concerns my father. I can say that I firmly believe that my father has never done anything to abandon the sect, and cleaning up the humiliation that doesn't exist is the goal of me, Long Chen, for my entire life! But today, I do not have any evidence or power, but I will not give up because of any obstacles. I won't say what will happen to me one day. I just want to say that everyone can give me this opportunity and let us wait and see! "

For him to be able to say all these, it required an extraordinary amount of courage.

Many people had never seen Long Chen speak before, so they did not know that he would be so bold. If they were to put aside their previous preconceived impression, they suddenly felt that this youth was sincere, tenacious, had a strong heart, and would rather die than submit.

Long Chen did not finish his sentence. He paused for a moment, then increased his voice, his temperament allowing him to look down upon the world. He was like a king in the heavens, looking at his subjects and saying: "The reason I came here today, is to participate in the Hegemonical War for the Life Dragon City! I have this ability, it can allow the Life Dragon City's team to have greater confidence in winning the championship! You can challenge me here if you have any doubts about what I just said. I, Long Chen, will accept however many there is. "

With that, he said to Xing Yue, "Senior, this is what I want to say. "What do you think?"

Chapter 2002 - Ice Soul Beauty

Gong Qing had recommended him to participate in the Star Lord competition. If he did not display his strength, no one would be convinced, so Long Chen wanted to make it clear that there was any misunderstanding about his strength. No matter who it was, they could all come to challenge him and speak with their true strength!

If it was said that he made everyone speechless when he expressed his attitude towards them, how could those hot-blooded strong men endure this kind of atmosphere when he publicly challenged all the young Rankers. The key was that Long Chen did not seem to have reached the tribulation of reincarnation at all, and most people had not seen his battle with the Wrath of the Sea Dragon before.

Firstly, it was his fury after being provoked, and secondly, it was his contempt for Long Chen!

When they came to their senses, they felt that Long Chen was making a huge joke out of them. In that moment, everyone laughed loudly, pointing their fingers at Long Chen, laughing so hard they couldn't even straighten their backs.

"What did he just say? Let any of us challenge him? Does he think he's good? "

"Oh, I remember last year, he defeated Di Yu. Only, at that time, Di Yu was only twenty years old. "Why is it so funny?"

Only Gong Qing's disciples did not laugh. They carefully imagined, with Long Chen's lightning-fast method of defeating the Raging Sea Tyrannosaurus Raging Dragon, he might really be able to live under the top level of the surrounding four thousand years old warriors!

He could even fight against those who were supposed to participate in the Star Lord Battle.

Long Chen looked at them with cold eyes, he had never cared about them, because the more they laughed, the more frustrated they would be in their hearts. Long Chen was not arrogant and conceited, he knew that the Life Dragon City still had many strong experts, but he knew even more that he could not lose today, so he had to use all his strength to make these people shut their mouths.

If he could make them shut their mouths today, then Long Chen would be able to make the entire Dragon God Domain shut up for him in the future!

Today was the beginning of the war!

Everything Long Chen said before was in response to Xing Yue's words.

He could tell that Xing Yue was actually considering a lot. He wouldn't be like Mu Huang who kept denying Long Chen, but instead, he was truly considering Long Chen's value. Long Chen's perspective and his challenge were simple and clear, allowing Xing Yue to understand his goals and his choices.

Long Chen knew that Xing Yue would definitely choose to use this kind of method to see if Long Chen had the ability to make him take the risk before deciding whether or not he would support Gong Qing. Because of Mu Huang's opposition, Xing Yue's support was extremely important.

Long Chen had to get his support!

Just when everyone was laughing out loud, Xing Yue suddenly said, "Young people have guts. Brave ones have no fear. Very good. Among the many young geniuses from the Life Dragon City, who are willing to come and fight him? "

Although they didn't understand what Xing Yue was thinking, no one would miss this good opportunity to beat Long Chen up. More than half of the young people raised their hands, indicating that they wanted to fight with Long Chen, and among them, there were even children with one yuan of tribulation of reincarnation.

Although she was a child, she was actually older than Long Chen.

Strangely, none of Gong Qing's disciples expressed anything. Although they were also very angry, they did not dare to fight Long Chen head on.

When competing with Long Chen, many people asked Gong Qing's disciples why they did not want to participate. One of them said, "This kid once defeated Senior Brother Jiang Kun, so his strength is very strong. Everyone should not underestimate him."

Although this sentence was very soft, it was too small and almost everyone heard it. The originally noisy scene instantly became absolutely silent. Everyone looked at Jiang Kun with a sluggish expression. Obviously, he had experienced a great battle and had not completely recovered from his defeat.

Everyone swallowed their saliva. In reality, the majority of the people who intended to participate were not as strong as Gong Qing.

"A high level divine dragon, an angry sea Tyrannosaurus Rex, and he actually lost to a late stage tri-level tribulation of reincarnation?"

Everyone could not help but compare Jiang Kun's strength with theirs. They discovered that, at most, they could only fight evenly with Jiang Kun. If they wanted to teach Long Chen a lesson, they would probably be taught a lesson.

However, they couldn't wrap their heads around it. How could this youth have such combat strength? That's impossible! Everyone guessed that Long Chen must have used some tricks, and were still a little disdainful in their hearts. However, after hearing the news, the number of people who wanted to fight decreased, and the remaining few people who were on par with Jiang Kun, felt that they might not lose to Long Chen.

But in reality, the strongest group of youngsters, the ones originally participating in the Star Lord Battle, had been coldly observing and had no intention of interfering.

Long Chen was also sizing them up at this time. This group had directly come from the Life Dragon City to participate in the Star Lord Battle, and every single one of them were stronger than Jiang Kun by a large margin, even if they were considered to be top geniuses amongst the Life Dragon City. In the future, they would become famous in the Life Dragon City, and any one of them would be a household name, and would also be the pride of the Dragon God Domain's Dragon clan.

Their reputation, would definitely attract praises whenever it was mentioned. This was the complete opposite of the treatment Long Chen had received, as even though they had cultivated for four thousand years, they were still considered of the young generation according to the standards of the Immortal God Realm. The few people in front of them were the true experts of the young generation.

If not for their outstanding talent, they wouldn't have been sent here specifically to help the Illusory Immortal Clan participate in the battle for supremacy!

"The five of them, are all at the early stage of the Four Symbols tribulation of reincarnation, and all of them are supreme divine dragons. Was this the standard of the top geniuses of the Immortal God Realm? Although the Snow Spirit King is also a genius, his cultivation time is still shorter than theirs. When the Snow Spirit King passes two thousand years later, she should also be at their level. "

During cultivation, most of the time was spent on tribulation of reincarnation. To geniuses, Nirvana Tribulation Realm could do it in a few hundred years.

Long Chen had only used a few years of time.

Sure enough, at this time, one of the people in the small group raised his hand and said in a cold voice, "I will deal with him."

She was like ice, standing on the ground, surrounded by ice particles condensed from the cold energy. Her eyes revealed a faint blue color, her blue hair was similar to the Snow Spirit King, but the Snow Spirit King was snow while the young lady was ice. Whether it was her appearance or eyes, they were filled with a bone chilling coldness.

This was a supreme divine dragon.

The ice spirit beauty stared at Long Chen coldly and said: "Gentlemen, didn't he want to participate in the Star Lord Battle? Out of the five of us, I am the weakest, let me see if he has the qualifications!"

From her eyes, one could tell that she probably hated Long Chen a lot.

"Bing Xinyue, it's hopeless for this guy!"

"Hehe, let him boast then. I want to see how he will continue boasting when he meets a true genius!"

"There were so many provocateurs who turned into ice statues in front of Bing Xinyue. This guy's fate is the same."

Since Bing Xinyue could make a move, everyone gave her the chance. After all, no one else thought they were stronger than Bing Xinyue, and this mighty and arrogant little princess was extremely famous in the Life Dragon City. It was her elders who had sent her here to make a name for herself.

Everyone looked at Long Chen as if he was a dead man.

All he had to do was wait for Xing Yue's answer.

Xing Yue looked at Bing Xinyue with a pair of mysterious eyes. Unexpectedly, he shook his head and said, "Xinyue, step down. Qing Er, come with me."

His gaze looked at a different woman.

After saying this, everyone once again felt suffocated. They looked at Xing Yue with astonished faces. For a moment, their minds were blank. No one had expected him to change his candidate to Xingqing.

"Let Qing Er come?"

Muhuang was also surprised, and then laughed: "This is a good decision, didn't some little thing that doesn't know the limits of heaven and earth threaten to challenge all the young warriors? Let Xing Qing play along with him, and let him truly experience what a true genius is like! "

Bing Xinyue heard him and said, "Gentlemen, I thought I was the one who did it. How could I let Sister Shiqing come? How could I kill a chicken with an ox knife!"

In fact, out of the five people who were fighting for the Life Dragon City's position, Long Chen could tell that Bing Xinyue was indeed the weakest, and he could even tell that the strongest person was the woman called Xing Qing. The more similar this person was to Xing Qing, the more likely it was that he was related to her by blood.

Both she and Xing Yue had three thousand star soul dragons!

It was not that the 3000 Star Soul Dragons were superior to other super divine dragons, but the feeling this woman gave Long Chen was more terrifying. At least in this place, she was the strongest among the young generation. This woman called Xing Qing had a true coldness hidden in her eyes, not that girl called Bing Xinyue. Because of the icy coldness in her eyes, and the danger of death seeping out from her bones, her eyes were like a machine, without any fluctuations. Even if she looked at Long Chen, it would be hard to tell that she was disgusted by him.

From the very beginning, she wasn't particularly interested in Long Chen's matter, nor did she expect that this matter would fall onto her shoulders. When Xing Yue asked her to make a move, she was startled for a moment, and then immediately nodded. "Father."

Indeed, this was the daughter of Xing Yue.

Bing Xinyue pouted, and scratched Long Chen with her eyes before she went back. The girl called Xingqing slowly walked out.

Chapter 2003 - Star River Holy Sword

Honestly speaking, this woman named Xing Qing was also extremely outstanding. She could be considered a peerless beauty, with her graceful bearing and movements, as if she was a lady of a noble family. Her looks were also biased towards quiet and gentle, and were quite similar to Ling Xi's.

It was obvious that the young disciples were all in awe of this girl called Xing Qing. They did not clamor anymore, but smiled mockingly at Long Chen, and the good show was about to begin. Since Xing Yue had already decided, they only needed to see the result.

At the very least, no one believed that Long Chen could still defeat Xing Qing. If it was Bing Xinyue, Long Chen defeating her would perhaps cause a huge commotion, but the audience could still accept it, but when his opponent was the strongest star, no one believed that it was possible, because even after returning to the Life Dragon City, among the countless of young geniuses, Xing Qing's strength would rank amongst the top five or even the top three.

In this war of geniuses, the most important force was her!

The Illusory Immortals specialized in illusions, but in truth, they specialized in supporting illusions.

His true combat power was on the Life Dragon City, and on the body of Xing Qing.

"Back off!"

Gong Qing was filled with faith in Long Chen. Even though he was not very confident with Xing Qing's appearance, he still clenched his teeth and firmly believed in Long Chen.

"Good luck."

Ling Xi had been silently accompanying them the entire time.

"A small matter."

Long Chen put down her slender and white hand, and let the Heavenly Palace's Thunder Dragon take him away from the stone platform. In reality, if they became dragons, this stone platform would not even be enough for them to fight on.

The hundred plus people of Life Dragon City also left the high platform and floated in the distance. They were quite a distance away from Long Chen and the others, and with their eyesight, they could see the battle clearly, and it would not affect them at all.

On the wide stone stage, only Long Chen and Xing Qing were left staring at each other.

In the distance, Mu Huang sneered: "You have really made the right decision, I don't know what's wrong with Gong Qing's brain, but if I let Xing Qing ruthlessly teach this guy a lesson, seeing him suffer a crushing defeat, I think Gong Qing will probably wake up. Letting the son of the Eternal Dragon Emperor participate in the Hegemony of the Star Lord, this joke is really too big of a joke."

Xing Yue, however, said, "I'm serious."

"What do you mean?"

Xing Yue didn't bother hiding anything, saying: "If he has the means to defeat Qing Er, I will agree to Gong Qing's proposal to let him participate in the Star Lord Battle. If he is really a child that is beneficial to our human race and not harmful to us, I will not let him be criticized."

Mu Huang was furious.

Xing Yue shot him a glance, saying: "Even though I have never seen the Eternal Dragon Emperor, I have lived in the same era as him. I don't believe in rumours and rumors, I only believe what I see with my own eyes, believe in my own judgement. No one can decide his or her birth, and no one can be criticized for being his or her child. "

Hearing this, Mu Huang's eyes almost burst into flames, but he was more clear on Xingqing's battle prowess. He then sneered and said, "Then let's wait and see, and see if this little rascal really has the ability to make you think highly of him."

Xing Yue no longer said anything.

He only needed to see the result.

Long Chen indeed felt the pressure of this cold woman standing in front of him. She seemed to be a vast and endless starry sky, and sometimes, even the huge size of the world was a type of fatal oppression.

She did not seem to want to say much. When everyone was ready, she stared at Long Chen coldly and raised her slender hand. Countless rays of light from the sky gathered together and formed a Stellar Sword in her hand.

It had to be said that there were very few women of the same generation who could give him such a feeling of power!

He recalled that the first divine dragon he had seen since arriving at the Immortal God Realm was a three thousand star soul dragon!

The Stellar Sword was purple in color and was covered with bright stars that flickered with light, forming a vast, starry river. The Stellar Sword was purple in color with bright stars that flickered with light, forming a vast, starry river. With her cultivation of the early stages of the Four Symbols tribulation of reincarnation, using a Dao Artifact with this pattern could be considered very suitable.

"Stellar Holy Sword."

From between those light purple lips, she lightly spat out two words, which could be considered to be out of respect for Long Chen.

He never thought that she would still use her sword, this was truly fun, it was rare for Long Chen to meet a powerful sword-wielding opponent, he was already impatient to take out his God-Slaying Sword.

Right now, the God Slaying Sword has 180 dao patterns, its overall power has reached its most tyrannical state in history. Although the River Styx Halberd has more than 300 dao patterns, it has only increased the God Slaying Sword by no more than 80 dao patterns.

When the God Slaying Sword met the divine weapon again, it became excited. Although the small skeleton was very satisfied, but the desire to devour was always endless. It was like a hungry man, and the Star River Holy Sword was a noble and cold beauty.

Long Chen raised his Slaying God's Sword. Although the Divine Slaying Sword had a few lines on it, with the addition of the God Slaying Sword, the power seemed to be no weaker than his opponent's.

There were many taboos about the name God Slaying Sword. Long Chen did not announce it to the public, but because of this, everyone believed that he was rude, which immediately made everyone criticize him even more.

"He really is a troublemaker. He doesn't even have this little bit of courtesy and courage!"

Bing Xinyue gritted her teeth. She couldn't wait to fight on Xingqing's behalf.

Just at this time, Xing Qing had no objections to Long Chen's actions. He was a swift and decisive Dragon Fighter, and after both parties took out their weapons, she had already impatiently started attacking.

At this moment, Long Chen's calmness and faintly revealed powerful aura made Xing Qing, who viewed his as an idiot, feel an extreme sense of challenge. Although she was still cold, the flames in her heart were already burning brightly, her seemingly delicate body was releasing an astonishing killing intent, it was not something a girl should have!

It was obvious that this was a woman who had experienced countless life-and-death battles!

She looked at Long Chen coldly. Holding the Star River Holy Sword in one hand, she raised it horizontally and placed her other hand's handprint on her chest, then quickly changed it. A speck of starlight suddenly appeared on her fingertip as she muttered an unknown incantation, then crawled into Long Chen's ear like an ant.

"The starry sky!"

In a split second, Long Chen felt as if he had traveled through innumerable dimensions, and his feet suddenly emptied up. Raising his head, he saw that he was actually in a field of stars, and his surroundings were filled with endless darkness. Not only him, but everyone else was also in this field of stars.

The purple-clothed girl in front of them was the core of the hundreds of stars. On the stars, there were countless threads that extended out and intertwined with Xing Qing, causing her strength to expand, forming a terrifying star pressure that pressed down on Long Chen's body!

She could actually transform her surroundings into a starry sky, and then, link it with these stars, use her star power to temporarily increase herself, and fight Long Chen!

The eyes of the Star River Holy Sword tore apart the starry sky, and the sharpest blade pointed towards Long Chen, bringing about a fatal threat!

The surrounding young Dragon Fighters all let out tsk-tsk laughter. It was clear that this guy was dead. In order to deal with him, Xing Qing had gone all out.

Although the opponent was powerful, it was not easy to scare him off.

"This battle is too big of a relationship, I must win!"

Long Chen clenched his teeth. This was one of the most important battles in his life, and also the beginning of Dragon God Domain, so he could not lose!

Under the guidance of his berserk will, a large amount of Refinement Flames emerged from his body. The blood red flames shot up into the sky, vaguely forming countless roaring blood-colored dragons that danced around him. Although there were hundreds of stars that appeared to increase his battle prowess, Long Chen's Refinement Flames also had the same effect!

The moment the Divine Flame had spread, everyone had witnessed how many methods Long Chen had up his sleeve. Even though they still felt disdain in their hearts, they had to admit that at least the matter of Long Chen defeating the Furious Sea Tyrant Dragon was real!

Roar!

Inside the body of the woman from Xingqing, there was actually the roar of a divine dragon. Her expression was even colder; her eyes had already disappeared and were replaced by two bright stars!

Starlight exploded out from the Star River Holy Sword and countless stars swirled on it, as a faint, resplendent Sword Qi swept out. Xing Qing obviously already had an intense desire for this battle, at this moment, she brandished the Star River Holy Sword, twisting her waist and shooting out stars in a flash, he rushed towards Long Chen murderously, without mercy!

Endless amounts of sword energy surged out, blotting out the sky and covering the earth. Although Xingqing was a woman, she was also a well-known martial arts fanatic. Once she fought, there was no room for mercy!

The spectators roared with laughter as they retreated. They started to wager just how long Long Chen would be able to last under the hands of Xing Qing.

Some people said ten breaths, while others said twenty.

"You all think too highly of him. I dare to say that after I finish saying those words, he will lose, no?"

When he said the word 'lost', a gray sword Qi of death shot up into the sky under the cover of the countless dazzling sword Qis of the stars. It tore through the sword Qi of the stars and shot out countless grey sword beams, forcing Xing Qing to retreat at the first possible moment.

Beneath the Godfire, Long Chen brandished his sword with a fierce expression. His battle intent was unprecedented, shaking the heaven and earth!

Chapter 2004 - Astral Soul Sword Secret Art

BOOM!

On the other hand, more than half of the young Dragon Fighters were directly sent flying, and only stopped after spinning a few rounds in the air. They were simply stupefied from the shock, staring blankly ahead, and the two people in front of them had already started a fierce battle and caused a huge commotion!

The person Long Chen was fighting, was Xing Qing!

Super Dragon, 3000 Star Soul Dragons!

Until now, Long Chen still did not show any signs of losing, this was simply a miracle. Everyone had previously mocked Long Chen, many of the profound practitioners did not think that they were unable to defeat Long Chen who did not even have tribulation of reincarnation, but at this moment, they were completely dumbfounded.

With Long Chen's strength, it could be said that he had completely surpassed them by countless times. He was definitely one of those people who could easily kill him in an instant, yet he actually had such a thought which was as if Long Chen had slapped their faces. It was extremely loud, causing their hearts to twitch. A pair of eyes could not leave the scene of the battle because it was too shocking and too exciting.

In truth, neither of them could suppress the other. This so-called victory or defeat was something that only lasted for an instant, and this battle opened the eyes of the Young Fighters, even though they had some prejudices towards Long Chen, they had no choice but to admit that Long Chen did seem to have the ability!

But they still clenched their fists, firmly believing that Xingqing would defeat him, because Xingqing was the symbol of youth and invincibility in their hearts!

The Astral Sacred Sword swept out, bringing forth endless amounts of resplendent Sword Qi each time. The sharp Sword Qi surged through the starry sky as Xing Qing coldly stared at it. She absorbed power from hundreds of stars, and every move carried a fatal killing intent!

The power of the stars was vast and swift!

On the other hand, Long Chen's strength was that of a bloody slaughter, filled with the negative energies of death and devouring. On the level of power, Long Chen was obviously not as strong as the other party, but he had experienced the nourishment of Tai Su's power, and his body was almost invincible among the younger generation, which brought about a huge increase in his achievements. Usually, when he was injured by Xing Qing's resplendent sword aura, Xing Qing's arms would become numb from the power of his body, and her blood would dye her sleeves red.

However, this woman's tenacity was extremely terrifying. Despite the blood flow, her expression remained the same, as if she hadn't heard anything.

"Senior Sister Xingqing seems to be bleeding!"

Countless of people who had looked down upon her in the past had been killed by her sword. Her fighting style was sharp and passionate, far surpassing many men, but today, looking at the current situation of her battles, she, who had always killed her opponents, did not even manage to break Long Chen's attack!

"Don't spout nonsense. Bleeding is just a small matter. That kid must have been injured by senior apprentice sister Xingqing's Astral Soul. He's definitely going to be heavily injured and defeated soon!"

Most of the disciples had this thought in their hearts.

They gritted their teeth, as if they were fighting with Long Chen as well. In reality, they were fighting with Long Chen, and in their hearts, the battle had become more and more intense, taking over more and more of their territory. The ridicule and teasing they had towards Long Chen, had completely collapsed, and had become reverence and fear!

To a certain extent, her personality was very similar to his, and could be considered as an opponent that was on par with his. He did not relax even a little when facing her, as the divine flames on his body burned fiercely, causing him to be on the verge of exploding. Although his terrifying flesh had not turned into a dragon yet, it was still like a super ferocious beast, and with a raise of his hand, he had the power to tear apart the heaven and earth!

In fact, it was not that they did not want to immediately turn into a dragon-shaped battle, but it was a tactical psychological problem. Generally, those who were at a disadvantage in battle would desperately display their trump cards. Therefore, none of them wanted to face the dragon form first!

Since it was a comparison, it meant that they had to compete in all aspects. In fact, both of them were very proud and arrogant people. If they wanted to suppress the other, then they would suppress the other in all aspects.

This was also the greatest deterrence to the surrounding humans!

That was the biggest result Long Chen needed!

She viewed this terrifying opponent with utmost importance. In truth, she did not believe that Long Chen had not reached the tribulation of reincarnation yet, and with her super dragon's capabilities, she had defeated the Primal Chaos God before. She knew that it was impossible for her to unleash that kind of power!

"Astral Soul Sword Art!"

After resisting Long Chen's attack, Xing Qing rushed forward, the Star River Holy Sword in his hand released a thirty thousand Zhang Sword Qi, he descended from the sky, while Long Chen had already activated the Sword Arts. This was a clash between the two sword arts, causing the killing sword qi to shoot up into the sky, and once again dissipate the Astral Soul Sword Qi!

"Stars shine!"

She landed on top of Long Chen's head and raised her Star River Holy Sword, pointing towards the sky, the hundreds of stars in the sky lit up like never before, erupting with strong star light, and for a moment, the star light was strong enough to make most of the warriors close their eyes!

Long Chen looked up, and the hundreds of stars had actually evolved into hundreds of gigantic star swords that stood proud in the sky under her power.

"The stars shine, and the Heavenly Swords are formed. Listen to my commands and exterminate the evil!"

She stared at Long Chen with her eyes that was filled with the aura of slaughter. With the point of the Star River Holy Sword, countless of sword qi from planets started to descend from the sky, and started to attack Long Chen! The starry sky shook and countless space was torn apart. Everyone had a feeling that it was the end of the world!

This scene was simply too vast.

The crowd retreated once more, avoiding this time's attack. They had long admired this girl, Xing Qing, to the point of prostrating themselves in front of her!

"Astral Soul Sword Art is Mr. Xingyue's most adept mantra, but when used by Senior Sister Xingqing, it's still so terrifying!"

"Long Chen will definitely die in front of this Astral Soul Sword Art!"

They were truly relieved. After all, was too harsh on them, and there was always a burning pain on their faces. To them, it was like the time to vent their anger had finally come!

RUU...!

Such a roar filled Long Chen's ears.

He looked up, almost all his vision had been submerged by the sword aura of those planets, all of them locked onto him.

"Seems like she has been setting up the Astral Soul Sword Art since the beginning. This Astral Domain should also be part of the Astral Soul Sword Art, right? Truly formidable!"

However, Long Chen was sneering in his heart.

He would not lose!

The opponent was strong, but this was just the beginning!

At that moment, he had no hesitation. Holding the God Slaying Sword in his hand, he was like an ant, rushing towards those countless sword energies formed from the countless falling stars!

The impact of this moment was like his entire life. From the very beginning, he had always been pursuing his destiny and never took a step back. There was no retreat in his life, he only bravely advanced, opposing authority and rules!

The Astral Sword Qi was the authority from the Dragon God Domain.

He clenched his teeth. In that moment, he had forgotten everything. He only had one belief, and that was to shatter everything in front of him!

Slaying Sword Technique!

From the start till now, Long Chen had already killed over a hundred swords.

"Hua!"

The crowd clamored, in their opinion, Long Chen going against such a technique yet still rushing forward, he was simply courting death!

But, was he really courting death?

Long Chen used his own blood, his own actions, to prove to them!

Facing the huge amount of sword qi formed from the stars, he was tiny and insignificant, just like his God Slaying Sword. But he used the God Slaying Sword, in front of everyone's shocked eyes, the God

Slaying Sword ruthlessly slashed on the star sword qi. The small God Slaying Sword carried a terrifying power, directly splitting the planet sword qi in half!

Crash! *

That stunning sword strike had blinded everyone's eyes!

BOOM!

The dazzling stars exploded around him. Under the influence of the endless starlight, the blood-covered dragon scales on his body made him look like a god! Proud of the heavens!

But this was only the beginning!

"Heavens!"

The explosion of the first planet's sword energy, for everyone, was already beyond the limits of their imagination.

But following that, Long Chen acted as if he had gone mad. He brandished the God-Slaying Sword, and when all the planet's sword Qis pounced at him, he struck out with the fiercest of counterattacks, each beam of slaughter sword aura was capable of causing an entire planet's sword aura to explode. For a moment, it was as if fireworks exploded in the sky, and bright starlight flooded Long Chen.

RUU...!

From the very beginning, there would only be one explosion at a time, to the continuous explosions later on, the countless explosions caused the starry sky to tremble violently. Most of the space had been torn apart, and killing sword Qis covered the entire starry sky.

And people saw, every time the planet's sword qi exploded, it would only deal a little bit of damage to Xing Qing!

In the sky, she suffered countless of attacks as blood flowed from the corner of her mouth. Her impeccable face was also slightly pale, but the look in her eyes was still as resolute as ever.

saw her current appearance. It had to be said that in this Draconian form, Xing Qing was definitely the most beautiful Dragon Fighter he had ever seen, and Long Chen's body was filled with blood colored dragon scales. His head, back, and joints were all bloody bone spikes, which could only be described as sinister.

BOOM!

Long Chen's final sword strike consecutively tore apart the final ten planets!

Chapter 2005 - Three Thousand Clones

Long Chen wielded the God Slaying Sword, displaying incomprehensible strength, he unleashed the Killing Sword Technique, successfully blocking the attack of the opponent's Astral Soul Sword Art, and at the same time inflicting some damage on the opponent!

The purple-scaled girl flew out and escaped from Long Chen's battle range. Her Heavenly Star Sword was on the verge of collapse, and in the battle against the sword techniques up till now, the 3000 Star Soul Dragons had actually lost to Long Chen!

No matter who it was, it seemed hard to imagine.

"How is this possible?" The ice spirit's Bing Xinyue was pale. She clenched her fists and muttered to herself with a face full of disbelief. If it wasn't for Xing Yue's decision to send Xing Qing up, she would be facing Long Chen right now. She was the ice spirit dragon, one of the rare super dragons.

She knew that she definitely wouldn't be able to block this kind of attack from Xing Qing unless she took the form of a dragon.

However, this was only the beginning!

After all, at this time, no one lost. It was just that Long Chen was suppressing the other party temporarily, and Xing Qing had an exceptional talent, in a short period of time she had recovered to her original state. Her eyes were frighteningly cold, from the very start to the end, she did not look down on Long Chen at all!

When the starlight shattered, Xing Qing did not retreat. Instead, she took advantage of this opportunity to attack. Wherever the sword went, the sky and earth would shatter!

The attack this time was actually even more terrifying than the starlit skies.

When the three masters saw this, they immediately protected the young disciples, worried that the aftermath of the battle would hurt them.

The Stellar Clear Sword was coming at him!

"Astral Soul Sword Art, Universe Explosion!"

Under the guidance of the Star River Holy Sword, this entire stretch of starry sky finally shattered, revealing the little dragon region outside. When he started using his' Starry Sky 'technique, it was clear that if he was unable to defeat his opponent within a short period of time, Xing Qing would unleash her strongest move, shattering the starry sky, letting the Universe Explosion, condense the Stellar River into Sword Qi, and deal with Long Chen!

The entire space exploded as countless star fragments gathered around Xing Qing like a giant wave. As Xing Shengnan waved her sword, it gradually condensed into a huge blade made of star fragments in front of Xing Qing. One had to say, the might of this sword could be said to be terrifying.

The elders of the Life Dragon City were naturally very satisfied with this sword strike of Xing Qing's.

They were looking forward to such a situation being solved by Long Chen.

When Xing Qing was using the Star Soul Sword Art, Long Chen had chosen to end the battle quickly. Before the Astral Soul Sword Art's Astral Fragment Sword Qi was completely condensed, had already unleashed the Killing Sword Technique and unleashed a fierce attack. At this time, the Killing Sword Technique had already reached over 400 swords, the divine fire on Long Chen's body burned intensely, gathering and stimulating his strength!

"Four hundred and thirty strikes!"

Before the Astral Fragment Sword Qi was successfully condensed, Xing Qing could only try her best to dodge but her eyes were filled with determination. In that short moment, the entire starry sky had gathered onto her sword Qi, and everyone was once again standing on the stone platform of the Xiaolong's domain!

Just at this moment, Xing Qing did not hold back, she unleashed her Astral Soul Sword Art, her endless killing intent charging forth. Her sword moves covered the sky and twisted the space, giving Long Chen no chance to dodge!

Long Chen had already brandished his sword, releasing the Astral Fragment Sword Qi towards him.

"This woman is really scary."

She had no choice but to let Long Chen use his trump card!

In front of the vast Astral Fragment Sword Qi, Long Chen was not afraid at all. He rushed forward once again, the God Slaying Sword in his hand raised up high, and once again struck out!

"Eye of Hell!"

In the God Slaying Sword, the small skeleton was actively cooperating. With the increase in the Dao patterns, it was becoming easier and easier to use the Eye of Hell. The clouds behind it began to move, creating strange changes.

In Xing Qing's vision, the world behind Long Chen seemed to have been forcefully torn apart as a pair of huge, green, oily eyes suddenly appeared. That suffocating pressure and fear instantly made Xing Qing's mind go into disorder, and one had to say, this pair of eyes was simply too frightening.

Long Chen sneered in his heart, the moment when Xing Qing was in a state of confusion and almost unable to control the Star River Holy Sword, he used Time Traversing Dragon and disappeared from her sight. In the next moment, another even more violent killing intent appeared and slashed onto the sword from the side, and in an instant, the Star River Holy Sword left his hand, and the explosive power of the universe exploded in front of Xing Qing!

If she hadn't been conscious at the last moment, Xing Qing would have definitely blown her attack into pieces. But even though she had successfully dodged the attack, she was still shaken by the waves of Qi and blood.

Her face had turned even paler!

After a series of earthshaking explosions, the two sides once again faced off in mid-air. Long Chen appeared to be unharmed and grand, but Xing Qing was still in a sorry state, even her purple dragon scales had been broken quite a bit.

This was the first time that her eyes had trembled in front of Long Chen's eyes. The Eye of Hell's move had shocked her greatly, and even now, she still felt a lingering fear.

She had never been afraid of any opponent before, but the current Long Chen made her feel like she was about to retreat. She knew that she represented the Life Dragon City, no matter what, she must not lose! She had already gradually begun to feel that this Long Chen was indeed a terrifying opponent!

Not only her, even those who had mocked Long Chen before were now completely convinced. They trembled with fear as they looked at everything that had happened, at the bloody and mighty young man, in their hearts, they had long been utterly defeated and subdued by Long Chen. Although they were still unconvinced in their hearts, at the very least, no one dared to say anything to Long Chen, as in their eyes, Long Chen had completely become someone on the same level as Xing Qing.

It seemed that he hadn't even cultivated tribulation of reincarnation yet.

This was a power that was impossible to achieve!

In this confrontation, although there were over a hundred people, they could only breathe nervously. He had already achieved the effect that Long Chen wanted him to achieve, and that was to make anyone who disagreed with him shut their mouths!

"I admit that in terms of human form and the Dao of the Sword, I am inferior to you."

She put away the Star River Holy Sword that was sent flying by Long Chen.

Long Chen took a deep breath. He had finally arrived at this moment, and as long as he defeated this sturdy girl one last time, it would be equivalent to opening the door to the Dragon God Domain.

The crowd became fervent once again.

They didn't want to lose. They didn't think that Xingqing would lose just like that. They still had a chance to retaliate! That was a true battle that truly belonged to the Dragon Fighter!

For a moment, they were boiling once again. They had lost too miserably, only with Xing Qing's victory could they raise their heads in front of Long Chen!

Under the leadership of their elders, they retreated once again!

It could only be said that because Xingqing was a girl, the 3000 Star Soul Dragons in front of her were even more beautiful. She wandered in the starry sky, appearing to be a part of the stars as her body shone with bright and resplendent light. Like crystals and gems, regardless of whether it was dragon claws, dragon teeth or dragon tail, they were all extremely beautiful, as if they were works of art created by the heavens.

A divine dragon was truly the most perfect existence.

Long Chen was no different from an ant when he stood in front of the three thousand star soul dragons.

Xingqing looked down at him, her eyes filled with anticipation, but also burning with a terrifying fighting spirit. She was a person like Long Chen, who would never admit defeat, she was more like a madman in battle.

This kind of fight was quite a feast for the eyes!

Without saying a word, Long Chen retreated. His body turned, and with the Divine Flame of Refinement, he shot into the sky, the blood mist surged forth like never before, finally transforming into a blood colored divine dragon in front of the 3000 Star Soul Dragons. Although the blood-colored dragon looked smaller than the 3000 Star Soul Dragons, it was filled with killing intent.

Even her father would not be able to give her such a bloodline suppression!

"The lowest Red Dragon?"

Everyone was puzzled.

Because there was no Primordial Blood Dragon description, there was only one name, so it was difficult for them to imagine that level of strength. Dragon Fighter was the one who understood the Divine Dragon the most, so they knew that the Ancestral Dragon might just be a kind of legend, whether it was real or not was still unknown.

"No!"

Gong Qing, Mu Huang and Xing Yue, were all observing Long Chen carefully. The more they observed, the more shocked they were. With their understanding of the divine dragon, they still didn't know what kind of dragon Long Chen was!

The Ancient Dragon Gods were simply too numerous. There were many legacies and blood essences that were not recorded and had no name, this was very normal!

When they were researching, the three thousand star soul dragon and Long Chen's Primordial Blood Soul Dragon were currently engaged in an incomparably intense battle. This battle between the divine dragon was even more ruthless and shocking than the battle in human form, what made everyone give up was that Long Chen still displayed a fighting strength surpassing that of the super divine dragon, and actually wasn't the slightest bit inferior to the super divine dragon!

In that case, Long Chen should also be a super divine dragon!

After transforming into the Divine Dragon Body, Long Chen had the advantage in terms of body. Under the pure attacks of his fleshly body, the three thousand star soul dragons could be said to be forced to retreat, which was even more than what Xing Qing had expected.

Her fighting spirit was ignited to its limit. When she knew that she could not defeat Long Chen in this state, she immediately decided to summon her three thousand clones!

Chapter 2006 - Conquest

The strongest of the three thousand Astral Soul Dragons was their three thousand clones!

This was an ability they had all their lives, one that could crush other Divine Dragons. With three thousand clones attacking together, they would be able to inflict a lot of damage to their enemies. The three-thousand Star Soul Dragons were famous for their three thousand clones, and they were very powerful!

BOOM!

Just as Xing Qing was about to force Long Chen to retreat, she summoned her three thousand clones. Countless amounts of starlight shot out from her body, condensing into three thousand star points around her.

The Star Soul Dragon's body was only one twentieth of the size of the 3000 Star Soul Dragons, but the advantage was that there were a large number of them. The three thousand Star Soul Dragons gathered together, densely packed together, covering Long Chen's entire field of vision.

Xing Qing had hidden herself within the group of three thousand Star Soul Dragons, waiting for the chance to give Long Chen a fatal blow!

When they saw Xing Qing summon her three thousand star soul dragon, all the Life Dragon City s started to boil in excitement. They shouted loudly in support of Xing Qing, and they were waiting for this moment, precisely because she had three thousand clones, she would never lose! This was her most powerful symbol. If it wasn't her strongest opponent, she wouldn't have been able to force out this move. After all, using this sacred art would consume a huge amount of energy, possibly affecting the following battle with the Star Lord.

Sssii! *

The three thousand Star Soul Dragons roared in front of Long Chen's eyes. Under Xing Qing's control, they spread out and bared their fangs and brandished their claws at Long Chen.

"Senior Sister Xingqing!" Hurry up and defeat this guy, don't let him participate in the Star Lord Battle and embarrass us! "

"You're right, we should ruthlessly crush him!" Don't give him a chance to turn things around! "With his identity and crimes, he's not qualified to be a part of us!"

Long Chen could only use the word dog couldn't stop eating sh * t to describe them!

This battle had reached its most critical moment, how could he slack off! He had to admit that Xing Qing was indeed good, but in Long Chen's heart, he already had the confidence of winning, and couldn't wait to complete the final victory!

Victory! This title would only belong to him!

At the urging of the Life Dragon City s, Xing Qing was no longer polite. Her main body brought her 3000 clones and swarmed forward.

When the 3,000 clones moved, everyone could see the dawn of victory. They became incomparably passionate, their hearts straining!

What Long Chen had defeated was not only Xing Qing, but also their pride as Five Dragon Cities disciples!

Under the anticipation of tens of thousands of people!

Long Chen was hidden in the blood mist and laughed coldly at everything that was happening around him.

He closed his eyes abruptly and muttered, "Father, today is only the beginning for me to return to the Dragon God Domain. There will be a day when I will stand in front of everyone in the clan and defeat all of them. Then, I will use my authority and my evidence to prove everything to them!"

"Father, I will do it!"

In his heart, he was more crazed than anyone else because he thirsted for victory. Although Xing Qing was a martial arts fanatic, she was still far from being able to match up to Long Chen!

It was as if a peerless ferocious beast that had been buried for many years had awakened, causing the disciples to retreat once again. Just when their complexions had turned pale once more, Long Chen displayed an incomparably shocking scene!

A million Blood Weeping Dragons!

Three thousand to one million!

If Long Chen was willing, he could definitely summon two million Blood Weeping Dragon souls. On the path of the clone, he, the Primordial Blood Spirit Dragon, was the true ancestor!

A million Blood Weeping Dragon souls shot out from the blood mist!

Although the Blood Weeping Dragon's soul was small, it was far inferior to the Astral Soul Dragon's avatar, but its quantity was frightening. Hundreds and thousands of them surrounded one Astral Soul dragon, frantically fighting like Long Chen!

The Sobbing Blood Dragon soul versus the 3000 Star Soul Dragons. This scene was akin to the complete defeat of the 3000 Star Soul Dragons. The attacking Star Soul Dragons were all screaming as they fled! In terms of ruthlessness, they were far inferior to the Blood Weeping Dragon soul. In terms of brutality, the Blood Weeping Dragon soul did not care about life and death and only knew how to fight.

Roar! Roar!

Countless roars and screams filled the air.

The crowd that had been anticipating the victory of the 3000 Star Soul Dragons had their mouths wide open, eyes wide open, and expressions of shock. They had forgotten everything, and their minds were blank. Only the endless stream of blood-colored dragons gave them a deep sense of shock!

There was still a deep blow to it!

From the first Astral Soul dragon's escape, the number of fleeing soldiers grew larger and larger. In a short period of time, Xing Qing's 3,000 clones had been completely destroyed, defeated in a single line!

His sharp dragon claws, sword-like Long Chen and his sharp dragon teeth were all powerful weapons used for physical combat. In terms of physical combat, there was a huge gap between the heaven and earth, and when Long Chen's body was wrapped around her like a steel whip, the purple scales of the 3000 Star Soul Dragons were instantly shattered. The 3000 Star Soul Dragons struggled with all their might, but to no avail.

To Long Chen's steel-whip-like Divine Dragon Body, the three thousand star soul dragons that were under his control were simply weak tofu!

The scene of the two Divine Dragons fighting like this was extremely shocking, but it had also dealt them a deep blow. Looking at how Xingqing was not able to move, they all felt like they wanted to cry, but had no tears!

From the human form to the dragon form, from the way of the sword to the way of the body, to his three thousand identities fighting against a million wailing blood dragon souls, although Xing Qing was the number one genius here, she was completely defeated by Long Chen!

After being entangled, Xing Qing did not have the strength to control the three thousand clones anymore. The clones exploded one by one and disappeared into the air.

More importantly, he had already won.

With his mighty strength, he smashed the 3000 Star Soul Dragons into the stone platform, causing the stage to immediately explode, sending the rocks flying and more wounds to appear on the body of the 3000 Star Soul Dragons. Long Chen then used his dragon claws to pinch her onto the ground, preventing her from moving.

Xing Qing roared in anger, she had used up all of her strength, but Long Chen saw that she was still unconvinced, and increased her strength. With the power of the steel whip, she instantly caused countless of wounds on the 3000 Star Soul Dragons.

"Are you convinced?"

Long Chen asked again.

BOOM!

Xingqing had turned into a human from his entanglement. She stood on the shattered stone platform, swaying and almost falling to the ground.

Her body was filled with wounds. For a beauty like her, Long Chen's previous actions were indeed ruthless, especially when the opponent's father was still around.

Long Chen transformed into his human form and stood before her. In comparison, Long Chen had indeed achieved complete victory without the slightest injury.

Victory and defeat were extremely clear.

If Long Chen had wanted to kill her earlier, he wouldn't have asked her whether she was convinced or not.

Although they had expected this outcome, when it really happened, they still found it hard to accept it. At this moment, everyone's eyes were bloodshot, they hated Long Chen for not showing mercy on them, but they did not have the guts to fight Long Chen alone.

She wiped the blood from the corner of her mouth and looked at Long Chen again. Without saying much, and as if nothing had happened, she didn't hate Long Chen for defeating her, and as if nothing had happened, she returned to the side of Xing Yue and said: "Father, I've lost."

Xing Yue's gaze was calm as she replied, "Yes, we should properly recuperate and restore ourselves to our peak condition in the face of the Star Lord Battle."

"Then I'll go back first." This was the first person in her life who had defeated her in a situation she hadn't expected. It indeed gave her a deep shock, and caused a quiet change in her heart. She suddenly felt that she was lacking, and realized that there was still a lot of room for improvement in the future.

The eyes of the stars flashed. The stars didn't stay any longer. They floated away.

"Shijie Xingqing!"

Amongst the five people in the Star Lord Battle, the remaining four people quickly caught up. However, Gong Qing stopped them at this moment and said, "A few minor injuries are nothing. The four of you stay here and have something to announce."

Everyone returned to Long Chen's side, Ling Xi, who was beside Gong Qing, was safe and sound. The two of them smiled at each other, and understood what the other was thinking, regardless of how nervous

Ling Xi was during the battle, she had won. Once he opened the door to the Dragon God Domain, Ling Xi was truly happy for him.

The time had come for the results to be revealed.

Xing Yue stepped forward, and said in a deep voice, "Everyone, the war for the Star Lord position is related to the authority of our human race in the chaotic star field, it is extremely important, and also the biggest mission for us. Today, fortunately, a genius has joined our young team, and you have all clearly seen his strength. I have to say that I was moved by his strength. I can temporarily ignore what he has done, ignore his background, and let him participate in the Star Lord Battle to realize the value that he wants to achieve. "

Xing Yue expressed his opinion, agreeing to Long Chen joining their team.

Mu Huang was about to go crazy with rage.

Gong Qing dared to say in a clear voice before he got angry, "From today onwards, he is one of us. I don't want to hear or see anyone specially targeting him, and all battles for the Star Lord are top priority. If anyone violates this rule, no matter who it is, they will be punished!"

Chapter 2007 - Unparalleled Dragon

Since Xing Yue and Gong Qing, the two masterminds, had already agreed for Long Chen to participate in the Hegemonical Star Lord Competition, these three people groups, only needed two people to agree to it, and the other Dragon Fighters simply did not have the chance to refute them.

Of course, they could not be convinced. In their hearts, they felt wronged more than anyone else, and every single one of them was furious, but it was a pity that their strength was inferior to others. In addition to the suppression from the elders, they could only suppress their anger at the bottom of their hearts as they looked at Long Chen with unwillingness.

"It's best not to be happy too early. Just wait and see! "He actually dared to injure Senior Xing Qing, this traitor!"

Bing Xinyue was especially angry. She was covered by ice fog, which made the people around her feel much colder.

Gong Qing then said to Long Chen, "In less than ten days, the battle of geniuses between Star Lords will begin. You can make some preparations, after five days, we will head to the Dream Profound Realm of the Illusory Immortal Clan and gather with the Illusory Immortal Clan. After that, we will head out together!"

At this moment, the entire planet was definitely waiting for that moment to arrive. Some were happy, others were sad.

Long Chen did not say much and just nodded. He had already made up his mind. He naturally had to go through hardships to lay the groundwork for his return to Dragon God Domain in the future.

However, only the other four Dragon Fighter remained. They were all super dragons at the early stage of the Four Symbols tribulation of reincarnation, and in terms of fighting strength, they were not weaker than Xing Qing.

During the war between the Star Lords, you all were teammates that were related to each other's lives. For the sake of our human race's victory, you all should throw away everything and fuse together, turning into an iron board to deal with the enemy! "

Gong Qing said harshly.

Because of the rules of the genius battle, everyone was not fighting alone. Their teamwork became especially important, and if there was disharmony within, it would have a huge impact on their battle strength, and even cause them to fail. That was why Gong Qing gave special instructions.

She looked at Long Chen angrily and said: "Mr. Gong, Master, we have never teamed up with him, and he is also not on good terms with us. When we are together with him, it is true that he is strong, but being alone will also affect our overall fighting strength. And who knows whose side he's on. "

"Shut up!"

Xing Yue shouted to stop her.

Bing Xinyue was Xing Yue's disciple. She and Xing Qing were sisters.

As long as you don't reject him, our team will only become stronger. The leader of your team is Xing Qing, and I believe she will have a rational judgement that she will not be like you, growing up to be like a little girl, and that this is a big matter that concerns our human race. Since you are here, don't mess around, understand? "

At the end, Gong Qing's tone became serious.

Bing Xinyue wanted to say something, but she hesitated. In the end, she could only look at Long Chen angrily, and although she was unwilling, she knew that the situation had been resolved, so she said, "I understand."

Xing Yue, who was at the side, said, "The four of you will have five days to interact with him. You will have five days to get familiar with each other. Don't leave this place for the next five days. While we're at it, we'll also explain some of the competition rules and precautions to Long Chen. The three of us have something to do, so we'll be leaving first. "

Behind them, Mu Huang's face was cold and filled with unwillingness.

Bing Xinyue was so angry that she had to stay here for five days and even talk about the competition rules with Long Chen.

Gong Qing gave Long Chen a bit of explanation and left him with an Star Talisman so that Long Chen could find him if he wanted to. Then, Gong Qing left the field of vision of everyone with Xing Yue and Mu Huang, leaving behind Long Chen, Ling Xi, and the four others who were staring at each other blankly.

"What are you looking at!?" Don't think that you can do it just because you have some ability! "

Bing Xinyue glared at Long Chen and walked away angrily, but she didn't leave. She just sat down in the distance and prepared for the fight that would happen in a few days.

"Who knows, maybe this girl will fall in love with you in the future?" Ling Xi said with a smile as she held her arm and looked at Bing Xinyue's slim back.

Long Chen said: "It's indeed very similar to what you did ten years ago; both of them are very fierce.

From the very beginning, when the two met, Ling Xi had always been easily angered. At that time, the two had experienced too much and also had a hundred lifetimes of reincarnation experiences, causing the two of them to have a very different frame of mind. Ling Xi was no longer the girl from before.

Of the five teammates, besides Xing Qing, whose attitude was unclear, the other four naturally did not like him. The three people in front of him were similar to Bing Xinyue, but they were more obedient.

These three men were all supreme divine dragons and peerless geniuses.

One of them had a rather ordinary appearance and body, but its pair of golden eyes were blazing with flames. That pair of eyes looked like a three-legged copper cauldron, which was covered in golden runes, and was extremely magical, causing Long Chen to feel a burning sensation in his eyes just by looking at the eyes. He roughly understood, that a large portion of the power of this super divine dragon should have come from his eyes.

"My name is Sun Che, and I inherited my blood essence from a super divine dragon, the Fiery Golden Eyes Dragon."

He was extremely mysterious, with a feeling of being the king of the night. He did not seem to be old, and he did not seem to have much to say either, since he also did not like Long Chen, thus he said: "Jun Ling, my inherited blood essence comes from the Dark Night Tyrant Dragon."

He was the man with the short hair that was half an inch long, looking like a steel needle standing upright. His skin was dark yellow, and on it, the picture of a skull would occasionally appear, and from it, one could faintly hear the wails and screams of vengeful spirits, which were the most terrifying of the three, akin to evil spirits. However, he seemed to be the one who did not like Long Chen the most, and was also a lot more cheerful. If there is a chance in another day, I would like to spar with you. This is because I have spent most of my energy on training my physical body to fight. "The other lady is called Bing Xinyue. All five of us are super dragons. Her inherited blood is also from the Ice Soul Dragon. She is very powerful."

According to the rules of the Dragon Fighter, most people would voluntarily reveal the kind of Divine Dragon they belong to. It was inconvenient for Long Chen to say it out loud, so he said: "I'm sorry, but I also do not know what kind of dragon my inherited blood essence came from."

The Netherworld King Dragon, Huang Long said, "It's alright. They don't say much. Let me explain to you about this war for supremacy."

"Thank you very much."

Finally, someone was willing to speak for themselves. This was also the first step to his success.

After the three people of Xing Yue's group left, they gathered together. The three of them sat down in a pavilion and looked at each other.

Mu Huang rapped the table lightly with his hand, saying, "Thunderclap, we have cooperated for thousands of years. You must explain everything to me today. This son of the Eternal Dragon Emperor is indeed talented, but you still dare to keep this ticking time bomb by your side? With just a slight misstep, you don't have to be crushed to pieces. It's fine for you to be crushed to pieces, but it will also implicate me, so my attitude is still considered good. Five Dragon Cities and the rest of the people all hate Long Qinglan to the bone, and those were all defeated by Long Qinglan.

Xing Yue also looked at Gong Qing, deep in thought.

Gong Qing chuckled and said, "Okay, I've indeed gone crazy this time, but you guys don't know how I feel. I think Xing Yue has already guessed my thoughts, right?"

Xing Yue was startled, then he nodded and said, "According to my observation, there's a 80% chance that it can't be wrong."

"What do you mean?" Mu Huang said in confusion.

Gong Qing chuckled, "Old fool, do you know how long our Dragon God Domain has been without any existence above the Ultimate Dragon, in other words, Unparalleled Dragon?"

Mu Huang's pupils contracted, and said: "If you say it like that, then there's only one possibility, which is that he could miraculously defeat Xingqing before even reaching the tribulation of reincarnation."

Gong Qing replied, "It's not only a matter of strength, but also an important piece of evidence. Even though it hasn't been verified, everyone is clear in their hearts that Long Qinglan must possess the blood essence of a Unparalleled Dragon. He is the Dragon Fighter of a Unparalleled Dragon and that is why he is able to defeat all the heroes of the realm, and is known as the number one person in the past million

years. As his son, with Long Qinglan's capabilities, it might not be impossible for him to get the Unparalleled Dragon's inherited blood essence for his son! "

After thinking for a moment, Mu Huang's face shook. He said: "Do you know what kind of Unparalleled Dragon his inherited blood essence is? Do there are any records of him in the legends?"

Gong Qing shook his head. "Of course I don't know."

At this time, Xing Yue, who had been silent the entire time, said: "I heard that the Eternal Dragon Emperor had been to the forbidden grounds of the Slaughter Dragon City, and took an important thing away from their 'Ancestral Realm'. Even the people from the Slaughter Dragon City don't know what it is, but Long Chen's inherited blood essence is obviously of the Slaughter attribute.

At this point, Mu Huang laughed and interrupted, "Bullsh * t, even the existence of a ancestral dragon can't be verified. Where did this inherited blood essence come from, that is simply too heaven-defying!"

Xing Yue rolled her eyes at him and said: "I'm not done talking. I mean, it should be one of the Primordial Blood Spirit Dragon's eight great concomitant dragon, but I don't know which one. After all, eighty percent of the Unparalleled Dragon are Ancestral Dragon's concomitant dragon."

Chapter 2008 - Astral Sources

The Unparalleled Dragon was not a joke. Back then, the Unparalleled Dragon that was related to Long Qinglan was actually just a guess, but if Long Chen really was proven to be the Unparalleled Dragon's inherited blood essence, then the Dragon God Domain would definitely cause an even bigger stir.

Gong Qing said: "To be honest, to our Five Dragon Cities, the value of a Unparalleled Dragon completely surpasses a young genius who possesses eighty percent of the Emperor's Divine Blood. Although the Unparalleled Dragon's growth is a bit slower than the Emperor's Divine Blood, and its Eighteen Major Tribulations is definitely more terrifying, whether it be in terms of combat strength or inherited abilities, a Unparalleled Dragon is still superior by several levels. What I mean is, if Long Chen is truly a Unparalleled Dragon, then his value to us humans will soon surpass Di Yu's, and he might even become the other Long Qinglan in a short amount of time! "

The influence of someone like the Eternal Dragon Emperor was too big, and everyone couldn't help but gasp.

Mu Huang knocked the table, and said with a frown: "I am not opposed to what you said, but you must remember the example of the Everlasting Dragon Emperor, this brat is not someone that is easy to settle with just a single glance. The fundamental difference between him and Di Yu is, Di Yu belongs to our human race, and that Di Yu is very likely to be loyal to his father. It is true that his potential is great, but if it was the other Long Qinglan, I might as well kill him now, so as to not cause irreparable damage in the future! "

Gong Qing said with slight anger, "Woodland, don't force a good genius into the enemy's camp. At least for now, I don't feel that there's anything wrong with this young man. Instead, I feel that he's very real."

"The Eternal Dragon Emperor back then was also very real. Didn't he just abandon his clan after that?"

Seeing that they were about to argue again, Xing Yue said: "Alright, let's use this Star Lord Battle as the benchmark to see how strong this brat is. If he can work for us, with his potential, and even the possibility of him being a Unparalleled Dragon, we must bring him back to Five Dragon Cities and let the Dragon Emperor make their decisions."

Gong Qing sighed lightly. He understood in his heart that if he brought Long Chen to the Dragon God Domain, then this place might very well be hell for him.

What was the future of this youth? He was very worried.

What he didn't wish for the most was for Di Yu to be dead, and for the humans to chase away this newly born genius.

They had grown up under the influence of their elders, and it was simply impossible for them to have a good attitude towards Long Chen. In this Star Lord competition, although Long Chen was strong, they did not expect him to coordinate with them.

He stood in front of Long Chen, looking down at him from above, and directly introduced him with a deep voice: "Among the ten great planets in the center of the chaotic star field, other than the Dragon Fighter of the Heavenly Dragon Star, the other nine planets will form the Nine Star Alliance. Among the Nine Star Alliance, excluding the five great clans, there are over ten thousand different races within the Alliance, so eternal life is an extremely strong power outside of the Realm of the Gods. "Among the top ten super planets, if you want to choose a Star Lord, you have to follow the rules of the Nine Star Alliance and engage in a war of hegemony. The war of hegemony between the Star Lords is not just a death match."

Long Chen quietly listened, and did not say much.

It didn't matter whether these people accepted him or not, as long as he performed well, he would be able to open up a path to Dragon God Domain.

The Netherworld King Dragon paused for a moment and then continued, "In short, there are five battles in the Star Lord Battle, and what is related to us are the first and second matches, we are the allied forces of the Illusory Immortal Clan, the young geniuses of the Illusory Immortal Clan and their allies, and the strength of the Illusory Immortal Clan after thousands of years is also an important indicator of whether the clan can produce a Star Lord, so we are related to the birth of two points. If we can win both the first and second matches, defeating the three teams from the Golden War God Clan and the Nightmare Race, then we can get two out of the five points, and that would almost confirm the Star Lord's position. After all, the Star Lord Battle is between three teams, fighting for the five points. "

"The two battles of our new generation are team battles and elite battles. Team battles are more complicated, but in reality, in elite battles, the eight people with the most outstanding performances are selected. After three rounds of elimination battles, a champion is chosen. The team that won the championship would receive an important point, and the team that won the team battle would also receive a point. These two points were very important. "The remaining three points will be won by the strongest of the three great races, so the more points we get in the genius battle, the less pressure there will be in the battles between the following powerhouses." The remaining three points will be won by the strongest of the three great races, so in the genius battle, the more points we get in the genius battle, the less pressure there will be in the battles between the later powerhouses.

A team battle was a place that was related to teamwork.

The Netherworld King Dragon was expressionless, and continued, "Regarding the practice of team battles, our friends and the Illusory Immortal Clan have been practicing for a long time. A team of ten was originally made up of our Life Dragon City and Illusory Immortal Clan's five members, but because of your appearance, the Illusory Immortal Clan cancelled a quota, and after a few days we will meet with our Illusory Immortal Clan's friends. They can play an important role in the battle, and using you as a substitute for the Illusory Immortal Clan is also a great risk for our already mature team.

Long Chen said: "You should get to the point, what is a team battle like?"

The Netherworld King Dragon coldly swept his eyes over him and said: "When the time comes, the thirty of us will enter the star source of the resplendent star. The star source is the core of the resplendent

star, it is a wondrous place, and inside it is a dangerous place with many disasters, and when the time comes, we will all enter. Before we go in, everyone will fuse a bit of star sand, because only by fusing with the body of the star sand can we enter the Star Origin. Because before we go in, everyone will fuse a bit of star sand, because only by fusing with the body of the star sand can we enter the Star Origin, a star sand can approximately maintain itself for four hours.

The rules for the team battles were a little complicated, but after listening to it once, Long Chen had a rough understanding of it. In other words, among the Star Origin, they had to fight for the stardust, not only letting themselves stay in the Star Origin but also letting their teammates stay in the Star Origin. Only then would they be able to obtain the final victory.

Underworld King Dragon said, "Did you hear that clearly? It was forbidden to kill people in a team battle, and they couldn't injure the opponent too much either. They could only fight over the star sand, and after obtaining it, the fusion process would take a quarter of an hour, and during this period of time, they had to have teammates to protect them, or else they could be ambushed, and the fusion process would fail, and the star sand would be taken away by others. After obtaining the star sand, they could only carry it around with them. With such an accidental intervention, even if you are powerful, if you do not cooperate, it will bring about a lot of negative effects. For us, this is not a good thing, our team's commander is Senior Sister Xingqing, can you listen to her orders? "

Speaking to this point, he had indeed already expressed his displeasure. Long Chen's joining did not let them heave a sigh of relief, but instead made them even more worried.

"You might be the strongest on our side if you are able to defeat Senior Sister Xingqing, but you can only be of use in the Elite Tournament. Of course, if you are willing to cooperate with us, you can barely make a difference in the team battles. The thing that we don't wish for the most is for you to be on your own.

Long Chen sneered in his heart. These guys were too worried, it hadn't even begun, and they already thought that he wouldn't cooperate.

He had a rough understanding of the rules of the team battle, and knew that things differed between the two. He asked: "Did Brother Huang finish?"

Having been interrupted by Long Chen, Huang Long was slightly displeased, and said: "In short, you think of it as you. I know what you want, isn't that our forgiveness? "Work hard!"

While talking, he got bored and returned to Bing Xinyue's circle. The four of them started to talk and laugh.

Although Long Chen was ignored, he did not mind at all. He pondered for a moment about the rules of the team competition, and knew that this battle would test the teams, if he wanted to rise in fame, he would need to rely on the elite battles!

No matter what, he must make his name known, and make everyone in Dragon God Domain begin to look up to him!

Chapter 2009 - Mysterious stellar nucleus

A few days passed in the blink of an eye.

Gong Qing had instructed them to familiarize themselves with Long Chen and to cooperate in the battle. However, with the hatred they had towards Long Chen, it was simply impossible for them to do this, and other than the Netherworld King Dragon, no one else was willing to speak to Long Chen.

Secretly, they were also slandering Long Chen, since they wouldn't accept a human traitor as their teammate.

"In a team battle, we can just ignore him and let him fend for himself." His value is in the elite battle. I feel that if Senior Sister Xingqing didn't lose in the end, we might meet him. At that time, Senior Sister Xingqing might not lose to him in another battle.

"Him!"

Bing Xinyue spoke with indignation.

The previous battle had been too depressing for them.

This also deepened her hatred towards Long Chen. She still remembered the stories her parents told her about the Eternal Dragon Emperor s when she was still young, and how they told Bing Xinyue that people who abandoned their ancestors should be despised. Long Chen, as the son of the Eternal Dragon Emperor,

Adding to the matter of him killing Di Yu, in Bing Xinyue's heart, he was no different from Long Qinglan.

When they were about to leave for the Dream Profound Realm, Xing Qing had just finished her recovery and joined them. Seeing that Xing Qing had recovered, they all gathered together excitedly, and since Xing Qing was not good at talking, she looked through the crowd and asked Long Chen, "Regarding the sky ...

Did you tell him about the details of the battle? "

Netherworld King Dragon said, "I told him."

Starlight's eyes narrowed, and he said, "It seems like you have not communicated with him. From now on, he is a member of our team, and he is also a powerful general. If he can bring us victory, his value is greater than mine, so the three elders definitely do not wish for us to waste it like this."

"An expert."

Bing Xinyue couldn't believe it, "Sister Xingqing, why are you speaking up for him? Have you forgotten whose son he is? Have you forgotten who beat you before? "

Xing Qing said calmly, "I only care about the Star Lord's victory in the war. Regardless of his identity, that is his ability, not his fault."

She naturally knew that in the few days that she had been recuperating, the others would definitely not be able to live with Long Chen.

She pushed through the crowd, and under Bing Xinyue's indignant gaze, she walked in front of Long Chen and Ling Xi. She first looked at Ling Xi, then maintained the distance between his and Long Chen.

My father told me that no matter what you have done, no matter where you have come from, only you can fight alongside us, our comrade. I know that what you desire is for everyone to accept you and accept your father.

After obtaining the victory of the Star Lord Battle, my father and I will do our best to speak up for you. "How about it?"

Long Chen liked to be a straightforward person. Xing Qing was a straightforward person, she did not have any small intentions, and with her magnanimity, the other four people couldn't even catch up to her.

However, she was wrong about one thing, Long Chen did not want everyone to accept him. If it was not for his father, he definitely would not care about how everyone thought of him, because his own roots were not here, and he had only done this to prove to them in the future.

Long Qinglan was innocent, he was innocent too!

He only wanted this group of people to understand, that he had let them blame themselves for their own wrong judgement, and let those who spread public opinion to be punished, not making them accept him. Only Long Chen would not fall short like this, what he had to do was always to kill his way back to the Dragon God Domain.

He was not going back to the Dragon God Domain on his knees, begging for their forgiveness!

There was no need for him to express his true thoughts. Instead, he smiled and said, "I will do my best to cooperate with the battle. You can rest assured that I'm not someone who doesn't know his limits. "

Xingqing pouted and said, "That's good. Maybe what Huang Long introduced to you was rather simple, I will explain the overall arrangement of the team battle to you, and also set up your division of labor first.

Long Chen nodded of course.

Seeing that Xing Qing had actually let go of her body to converse with Long Chen, patiently explaining the various details to him, everyone felt indignant. To be honest, they wished they could just throw Long Chen out of their team, it was just that they didn't have the ability.

"I can guarantee that the three masters are using him. Once he finishes his Star Lord Battle, he will definitely be captured and brought back to the Dragon God Domain for questioning and execution!"

Bing Xinyue said angrily.

"I think so too." The Fiery Eyes of Truth Long Haochen said.

They started laughing coldly. The possibility of this happening was still very high. It was as if they received comfort and no longer displayed the anger in their hearts on their faces.

Following that, Xing Qing called over everyone who was unreconciled and distributed their missions together, allowing them to become more familiar with Long Chen. Although they were unwilling, but under the order from their hearts, they could only compromise.

After understanding the details, Long Chen started to consider Ling Xi's problem. He was not at ease with handing Ling Xi over to anyone, not even Gong Qing. According to the rules, he should not be able to bring Ling Xi into the star origin realm.

"Brother Chen, don't worry. If I can use the protective enchantment again in your Divine Kingdom, they will definitely not be able to sense my existence. At a critical moment, I will even be able to help you."

With this, Long Chen became more relaxed.

Soon, they would be heading towards the Dream Profound Realm!

In these few days, Xiao Hong Chen, who had temporarily separated from Long Chen and the others and returned to the Dream Profound Realm, also met with his father once more.

The ruler of the Illusory Immortal Clan, was a very famous Illusory King. If this battle of the Star Lords was successful, the Illusory King would be the new Star Lord.

As for Xiao Hongchen's father, he was the younger brother of the Illusory King. His name was Xiao Dingyuan, and he was quite an important figure within the Illusory Immortal Clan. He was practically one under one, above tens of thousands.

Xiao Hong Chen stood outside the clouds and said: "Father, the Star Lord's War is about to begin. You should finish your closed door cultivation and leave tomorrow."

Deep within the clouds, Xiao Ding Yuan asked: "Is it time? So fast. "

Following his words, the depths of the cloud began to shake, as if something was emerging from within.

Xiao Hong Chen thought for a bit, but still said: "Life Dragon City has gained an expert over the past few days. I heard that that expert defeated Xing Qing in a battle, so for us Illusory Immortal Clan, we have decided to reduce our quota by one.

"Strength."

Upon hearing these words, Xiao Ding Yuan, who was about to come out of seclusion, hesitated for a moment before saying: "Tell me the details of what happened."

Only then did Xiao Hong Chen recount the process of her tracking Long Chen and causing so many things to happen, as well as Long Chen's identity.

"The son of the Eternal Dragon Emperor? Looks like this war between the Star Lords is getting more and more interesting. " Xiao Ding Yuan laughed heartily.

This was something that the Illusory King agreed to, so he didn't express his own opinion.

Right at this time, Xiao Hong Chen said something else, and said: "There's a girl beside the Eternal Dragon Emperor, I keep having the feeling that he has something from our Illusory Immortal Clan on him, and that it's a very likely treasure."

"Is that so? Then I'll look at it again. It's just that after all these years, other than the previous generation's Star Lord's stellar nucleus, we haven't lost anything else. As for the old stellar nucleus, it's also been destroyed, and it doesn't seem to be of much use.

This time, you guys should be able to see the new stellar nucleus in the battle between the star sources. If the stellar nucleus was not reborn, the resplendent star would not have been able to hold the Star Lord Battle! "

Xiao Hong Chen muttered, "That's right. Only by fusing with a stellar nucleus can one become the true Star Lord. That is the true master of the resplendent star, the true control of it."

Xiao Ding Yuan corrected him: "It's not a resplendent star. In the past, this place was called the Illusory Star, and was the territory of our Illusory Immortal Clan. It was just that the death of the previous Star Lord caused the destruction of the stellar nucleus, allowing this place to return to its ownerless state.

Here's our chance. No matter if it's the Golden War God Clan or the Nightmare Race, they have to submit to our divine might! "

Hearing this, Xiao Hong Chen was especially excited.

In the entire chaotic star field, there were only four Star Lords. It wasn't that there weren't any experts on the other super planets, it was just that there weren't any. The resplendent star of the stellar nucleus would be the fifth Star Lord's birth!

The Starmist Sovereign's status was so high that he was nearing the highest level of power in the entire Eternal stratum!

"As long as the stellar nucleus inherits, one day, we can also become a new Star Lord! The stellar nucleus of the previous generation was a sword with a total of 700 lines. What was it this time? "This really makes me look forward to it."

Xiao Ding Yuan finished his closed door cultivation.

Xiao Hong Chen left with a cloud of white fog, heading towards the large group of the Illusory Immortal Clan. The war for the Star Lord was about to arrive, and they were also dispatched to witness the first of the five battles, the Battle of Genius!

Of course, they had to wait for the arrival of the Life Dragon City's genius experts first!

On the side of the dragon region, people from the Illusory Immortal Clan had already come to invite them.

On this day, Gong Qing and Xing Yue brought Long Chen and the rest of the six to the Dream Profound Realm.

As for Woodland, he stayed behind to guard the dragon's area.

Gong Qing looked at Long Chen and asked, "Where's your wife?"

Even with his level of skill, he still could not discover Ling Xi staying in his Divine Kingdom with his protective barrier.

Long Chen vaguely said: "Let her leave. When the war of the Star Lords is over, I will go and find her."

"Oh." Gong Qing didn't ask any further.

On the side, Bing Xinyue and the others looked at each other and sneered in their hearts, "After the war between the Star Lords is over, you are going to be taken back to the Dragon God Domain to be a prisoner for life. You still have a chance to meet your wife?"

They firmly believed that Long Chen's final result would definitely be like this.

Xiao Long Region wasn't far from the Dream Profound Realm. In less than two hours, Life Dragon City's eight Dragon Fighters had entered the Dream Profound Realm and were greeted with earth-shattering cheers. To the Illusory Immortal Clan, the genius allied forces of the Life Dragon City were their most important helpers!

Chapter 2010 - The Dream King

As the days of the Star Lord Battle drew nearer, the entire planet was in an increasingly tense atmosphere.

A weak race like the Jadegrass tribe found a piece of barren land and obediently hid themselves, hoping that the commotion this time wouldn't affect them.

All the races in the entire resplendent star system were under the feet of the Illusory Immortal Clan, the Golden War God Clan and the Nightmare Race. They were all under the command of the three clans.

This would cause their status in the resplendent stars to plummet.

Therefore, standing in a line was very important.

The Illusory Immortal Clan was one of the most popular races, the Golden War God Clan was almost more powerful, more suitable for battle than the Illusory Immortal Clan, and the Nightmare Race was also a well-known force in the Bright Star Realm, they were rumored to have a great relationship with the Illusory Immortal Clan.

Just as tens of thousands of people were looking forward to or afraid of the war between the Star Lords, the elders Gong Qing and Xing Yue brought Long Chen and the other six Young Dragon Fighters to the Dream Profound Realm.

Within the Dream Profound Realm, a large number of Illusory Immortal Realm experts were already waiting.

Long Chen looked around, and it was as if he was in a dream among the clouds, as if he was in a dream. The Illusory Immortal Clan members rode the cloud-like Misty Cloud Beast, and both men and women were extremely beautiful.

Amongst them, it seemed that most of the Illusory Immortal Clan's experts had also struck this place, a total of hundreds of people, almost all of them warriors of tribulation of reincarnation. Of course, this was not the full strength of the Illusory Immortal Clan, and most of the experts were still hiding, after all, this was what happened next.

However, in the first battle of the Star Lord Battle, it was not yet time for the experts to make a move.

Among the two people standing in front of the Illusory Immortal Clan, one of them was the famous Illusory King, a middle-aged man shrouded in mist. He was handsome, extraordinary, and ethereal.

The gentle smile on his face made one not feel the slightest bit of arrogance. His white robe fluttered in the wind, giving off the demeanor of a transcendent being, giving people a sense of harmony.

Beside him was his own younger brother, the Illusory Immortal Clan's War God Xiao Dingyuan. He looked similar to the Illusory King, but he had a valiant and valiant temperament. The Illusory Immortal Clan was extremely elegant, but this Xiao Dingyuan was indeed an anomaly.

Xiao Dingyuan was publicly acknowledged as the second strongest member of the Illusory Immortal Clan, but in reality, his strength was about the same as the Illusory King.

Of course, to Long Chen, people like them could only look up to him.

But Long Chen was not discouraged, after countless of efforts, he was finally going to come into contact with the peak of this world. In terms of the younger generation, he was also a super genius of the Immortal God Realm. He was even under 4000 years old, and only a few people could compare to him.

As the two groups met, the Illusory King warmly welcomed them along with all the other Illusory Immortals.

"Brother Gong, Brother Xing."

The two of them clasped their hands.

The powerhouses of the Illusory Immortal Clan all displayed a welcoming posture.

When the Dragon Fighter arrived in front of the Dream King, Xing Yue also cupped his hands and said, "Xing Yue greets the Dream King. We are late. Can we head to the Star Origin now?"

The Dream King said with a kind smile, "Nonsense, there's still plenty of time. It's not too late at all. Everyone, you have just made your way here.

Xing Yue said, "The Hegemonical Star Lord battle is more important. We should arrive earlier and prepare earlier."

The Illusory King nodded. "Since that's the case, let's set off then. However, I heard that there's one more genius among the three teams, and that he's the son of the Eternal Dragon Emperor?"

This was related to the Hegemonical Star Lord battle, so the Dream King still had to ask about it and look at Long Chen.

Gong Qing had already anticipated this a long time ago, so he pushed Long Chen to the front. In a short moment, almost everyone's gaze turned towards Long Chen, but when they realized that the legendary son of the Eternal Dragon Emperor was actually only a little kid who did not even have tribulation of reincarnation, they were filled with doubts.

He asked, "Friend of the Life Dragon City, is there a mistake here? It seems that the son of the Eternal Dragon Emperor has not reached the tribulation of reincarnation yet?"

Faced with all these doubts, the Illusory King stroked his long beard and laughed, "Everyone, don't underestimate him. Don't you know that a few days ago, he defeated Xing Qing in front of the three Life Dragon City Brothers. Xing Qing was a 3000 Star Soul Dragon. The daughter of the Star Moon brothers.

"

Actually, Xing Qing was also the strongest genius of the Illusory Immortal Clan.

This news only spread to the upper echelons of the Illusory Immortal Clan.

When they heard this news, the Illusory Immortal Clan members immediately opened their mouths wide, their faces filled with disbelief. Only when they recalled that Long Chen's father was the Eternal Dragon Emperor did they finally relax. But no matter what, I didn't see it with my own eyes

If it was said, they wouldn't be able to accept it. After all, in the Illusory Immortal Clan, Xing Qing was quite famous.

The Fantasy King stopped everyone's discussion, and said, "Little Brother Long Chen is our secret weapon for this tournament, please do not leak out his information beforehand. "Alright, let's head out for the Star Origin!"

Under the orders of the Illusory King, over a hundred experts of the Illusory Immortal Tribe and eight Life Dragon City began their journey.

"Don't be happy too early, and don't be complacent. Today you are relying on your senior sister Xingqing to get the position, but one day, she will still win it back! "

Bing Xinyue was especially unaccustomed to Long Chen, but when the Illusory Fairy Clan looked at Long Chen with their curious and admiring eyes, she felt especially uncomfortable. In her opinion, Long Chen making such a mistake, was not worth participating in the Star Lord competition, and more so had nothing to do with glory.

"Xinyue, shut up! Did you forget what I told you before?" Xingqing glared at her.

Bing Xinyue was upset.

The four participants from the Illusory Immortal Clan also joined their ranks. Other than Xiao Hong Chen, the other men and two women were more curious about Long Chen. They surrounded Long Chen and asked: "I heard that your father is the Eternal Dragon Emperor? Was he the strongest expert in the Eternal Life Divine Region?"

"

This problem

Long Chen could only nod his head.

"Hmph, the strongest?" Bing Xinyue and the others sneered.

"It seems that your companions don't like you?"

One of the Illusory Immortal Clan members said.

"It doesn't matter." Long Chen replied.

"It seems that you are very arrogant. We are a team. It is impossible for us to not be in the same group, especially in a team battle. One person's strength is always small."

The man from the Illusory Immortal Clan could not bear to watch any longer, so he taught Long Chen a lesson. It should be true that the Dream King said that Long Chen had defeated Xing Qing before, but they still couldn't believe it in their hearts. Unless they saw it with their own eyes.

In the face of this problem, explaining was useless. Long Chen just ignored them.

At this time, Xiao Hong Chen walked over and stopped them in their tracks. He stood beside Long Chen and asked, "That's right, where is your wife, Ling Xi? Why didn't he follow and watch the fight? Is hers in the dragon region? "

Long Chen was curious, what was Xiao Hong Chen paying attention to Ling Xi for? Could it be that he also had a crush on Ling Xi's beauty?

But it doesn't look like it.

Long Chen remained vigilant in his heart, and said: "The matter of the Star Lord's battle is extremely important, I was unable to protect her, so I let her leave first. Is there a problem?"

"No, of course not." Xiao Hong Chen chuckled.

At this time, the other three Illusory Immortal Clan Dragon Fighters were gathered together with the other Dragon Fighters. In order to ease the tense atmosphere before the battle, they happily chatted, especially Bing Xinyue, who happily chatted with the other party, giggling from time to time.

Xiao Hong Chen frowned and looked at his father, Xiao Ding Yuan. Xiao Ding's eyes were expressionless.

As the Illusory Immortal Tribe majestically travelled, in about a few hours, they arrived at a place called Nanshan Region. It was only then that Long Chen realized that the so called "star source" was actually at the core of the entire resplendent star, it needed to pass through thick layers of soil and

Lava and steel.

In the core of the resplendent star, there was a mystical hole. The Star Origin was a mysterious place, and it existed in the core of the hole.

In the entire resplendent star, there were a total of four entrances to the Star Origin, three of which were under the control of the three races, while the other was under the control of the Nine Star Alliance. The entrance to the Star Origin was very strict.

With the arrival of the Illusory Immortal clan.

Long Chen looked down. At the bottom of the abyss, there was a bit of starlight, and that was the entrance to the star origin. They were about to pass through half a star, reaching the center of the planet.

It was impossible for one to reach that level of power.

"What's the situation?"

Arriving here, the Illusory King stood at the very front of the group, inquiring from the powerhouses guarding the entrance of Nanshan Region.

That person replied, "The people from the Nine Star Alliance are already prepared. Radiant Stars also has a few hundred clans' Patriarchs in there. Right now, we are only missing the team of three clans. We should be the earliest."

The Dream King nodded, then waved her hand, leading over a hundred experts and geniuses to rush into the entrance of the Star Origin. Long Chen suddenly felt as if he was travelling through a tunnel in space, there was an enormous attraction from underground, attracting everyone inside.

First the bright starlight, then the fiery lava.

In such a fiery place, Long Chen believed that if Mo Xiaolang came here, he would definitely like it.

"How magical, there's actually such a place in the center of this super planet."

Ling Xi was also watching everything and could not help but exclaim.

After turning the surrounding tunnels into a fiery red color, Long Chen seemed to have heard the voices of people talking below him. They had fallen for more than two hours, and it seemed that Star Origin was about to arrive.

"This battle, we must definitely win beautifully. Not only must we win in a team battle, we must also win in the elite battles afterwards." That way, they will have nothing to say! "
