

War God 201

Chapter 201 - Undying Xiao Qiang

The moment Long Chen flew out backwards, Dongfang Xuanxiao had already caught him in one go and placed him on the ground. In his hands, a medicinal pellet with overflowing spirit energy already appeared, and he crushed it, stuffing it into Long Chen's mouth. Then, he channeled his true energy and helped Long Chen refine the medicinal pellet.

At this time, Long Chen's eyes were closed, the corners of his mouth were full of black blood, it could be seen that his entire body was ice-cold, emitting black aura, he looked like a dead person.

"Brother!" Looking at Long Chen's current state, Yang Lingqing only felt the sky grow dark. She only knew that Long Chen was most likely not going to live, and even if he managed to survive by a fluke, he would definitely be crippled in this lifetime!

There were a total of four gaps between the initial stage of the Earth Core Stage and the initial stage of the Heavenly Core. How could Long Chen block Beitang's palm strike so easily for such a huge gap like this?

Even if it was Dongfang Xuanxiao, he didn't have any confidence right now. But his years of experience told him that now was not the time to be discouraged.

"Brother, you have to hold on, your aunts, they are still waiting for you at home." Yang Lingqing weakly collapsed on the ground, her entire body no longer had any strength, and she could only blankly stare at Long Chen, as though her entire world had collapsed.

Holding her arms, Yang Lingqing's face was filled with helplessness and self-blame.

Seeing Long Chen like this, Beitang Mo turned around and revealed a faint smile to his father. Bei Tangming felt extremely relieved in his heart as he looked at his son.

"Mo'er has really grown up." Bei Tangming knew that since he had proposed beating Long Chen up, Long Chen would definitely not agree to it even if he knew that he was going to die. However, if it was Beitang Mo who spoke up, Beitang Mo would definitely agree to it as Long Chen was from the same generation as him!

That was why there was this result!

"Father, I heard that this guy was also participating in the competition for the green dragon halberd. I was friends with Dongfang Tianxing, and a few days ago we gathered together, as if he had said that his brother Tianyu would definitely kill Long Chen in the competition. However, the current Long Chen, even if he doesn't die now, his meridians would definitely be shattered, and his strength would be greatly reduced. Walking to Bei Tangming's side, Beitang Mo said in a low voice.

"That's true. You did very well today." Bei Tangming sincerely praised.

Then, they looked at Long Chen.

"This Long Chen, should be dead." Bei Tangming sneered in his heart.

Dongfang Xuanxiao, who was currently using high grade Profound Rank medicine to heal Long Chen, was also not very confident when he saw Long Chen's expression. At this time, he also felt some regret: "If he can't wake up, then am I wrong? I only feel that a man should be brave enough to take responsibility at a crucial moment, even if he has to be smashed to smithereens.

When Dongfang Xuanxiao saw the helpless and blank Yang Lingqing, he once again recalled his own past and felt as if a knife had cut into his heart.

"Long Chen, I'm sorry." He too was filled with self-blame.

Just as Dongfang Xuanxiao's expression became gloomy, he suddenly felt another type of healing power within Long Chen's body. This power was consciously circulating within his body, and even though it was weak, it was able to cure a corner that could not be cured by spirit medicine.

"This is the legendary life combat technique!" Dongfang Xuanxiao actually possessed the legendary life combat technique, which surprised him to the core. But the most important thing was that the life combat technique was still alive, which meant, Long Chen was not dead yet! He even had the consciousness to heal himself!

Thinking about all these, Dongfang Xuanxiao became extremely happy. He took out another high grade Profound Rank Elixir and crushed it before placing it in Long Chen's mouth. He then used his Innate Qi to carefully treat Long Chen's injuries.

"Xuan Xiao, he's been struck by my son's Yin Wind Poison Demon's Palm, stop wasting high-grade Profound Rank medicine." Bei Tangming said with a smile that did not reach his eyes. Having been threatened by Dongfang Xuanxiao just now, he was extremely unhappy.

Hearing that Long Chen was no longer hopeful, Yang Lingqing suddenly felt her mind go blank. And at this moment, she suddenly saw Long Chen's finger move!

"Brother, you didn't die!" Yang Lingqing immediately crawled up from the ground, and with a few steps, she rushed to Long Chen's side. At this time, Dongfang Xuanxiao knew that the time was right, and hurriedly supported Long Chen up, making him sit on the ground with his five hearts facing the sky. At this time, although Long Chen's eyes were still closed, he had already used his own energy to refine the medicine, and also used his Gui Yuan Battle Skill!

Long Chen himself, was extremely clear about where his body was injured, so the effect would be even better if he did it himself!

"He didn't die?" Beitang Mo and Bei Tangming looked at each other in dismay.

"Is this kid a cockroach? His life was so tough! Merely a mere first step into the Earth Core Stage, under my initial stage Heavenly Core, I actually wasn't killed!" Beitang Mo thought.

"However, even if he doesn't die, he would probably be crippled for the rest of his life."

Amidst Yang Lingqing's anticipating eyes, the black aura on Long Chen's face slowly faded. Half a day later, Long Chen finally opened his eyes and saw the tearful Yang Lingqing who was still laughing.

"Where did the slugs come from?" Long Chen bit the corner of his mouth, and said a few words slowly. Even this simple sentence made it difficult for him.

Hearing Long Chen's words, he remembered the past when he was young and laughed at by Long Chen. That kind of happiness made Yang Lingqing freeze up for a moment, and only after a long while did she react, nervously asking the godlike man in front of his: "Brother, are you alright?"

"The waist is good, the kidneys are good, everything is good." The waist is good, the kidneys are good, everything is good. Long Chen forced a smile and said these words because he was afraid of this girl's worry.

"Big Brother Scoundrel!" These words made Yang Lingqing laugh and cry at the same time.

Long Chen wanted to touch her face, but it was extremely difficult.

At this time, Dongfang Xuanxiao looked at him and asked: "How do you feel?"

"No problem, let's get down to business first." After he finished speaking, Long Chen looked at Beitang Mo and said, "I have already received your palm and have not retaliated. Beitang Mo, remember what you said?"

Beitang Mo was surprised that Long Chen was still alive. However, he knew that if Long Chen went to participate in any battle for the green dragon halberd in such a condition, he would definitely die. As long as Long Chen died and Yang Lingqing was unable to leave Beitang family, wouldn't that be as easy as pie?

Therefore, he said in a cold voice, "When I, Beitang Mo, speak, I will naturally keep my word."

"Is that so?" Dongfang Xuanxiao looked at Bei Tangming coldly, and said indifferently: "I won't say anything, Long Chen has already received a palm, if one day, I realize that his palm was useless, some people would probably be hit by my, Dongfang Xuanxiao's, palm."

"Since everything is done, Brother Xuan Xiao, please go ahead." Bei Tangming did not want to talk to him, so he immediately sent him off.

Dongfang Xuanxiao did not plan to stay either.

"I'll carry you."

"Yes." Long Chen nodded, he currently did not have the strength to walk on his own. However, he had grown up to be carried by an old man. This made him feel extremely humiliated.

Before he left, he turned around and glanced at Beitang Mo, who was on Xuan Xiao's back.

"Beitang Mo, today's palm, in the future, I, Long Chen, will repay you ten thousand times over! Otherwise, I will never be able to reincarnate!" At this moment, Long Chen made a venomous oath!

"Ling Qing, come with me." Before he left, Long Chen still had to explain some things to Yang Lingqing.

Beitang Mo originally wanted to stop them, but her father stopped him.

"No matter what we block, they are all people who will die. Let them meet us again, our Beitang family, everyone is very benevolent, ah."

After exiting the Beitang family, Long Chen turned his head and said to Yang Lingqing: "Today, I wanted to scold you thoroughly, and it's fine now. But Ling Qing, if you suffer grievances in the future, you don't tell me that you look down on this brother of mine, and in the end, let me know, I won't punish you. But for the person who bullies you, I will definitely tear him into a thousand pieces without considering the consequences!"

"Got it, brother, are you okay?" Yang Lingqing was already afraid of what had happened today, but in the end, Long Chen had still completed a miracle and had successfully saved her. Right now, what she cared about the most was the problem with Long Chen's body.

"The Yin Wind Poison Demon's Palm, even if it doesn't die, its meridians would usually break. The worst case scenario would be that its meridians would accumulate energy and its power would regress." At the side, Dongfang Xuanxiao added, with a worried look in his eyes.

"Rest assured, the two of you, I am an undefeatable cockroach." Long Chen laughed mischievously, and said, "Although I was severely injured, I don't have the strength to retreat. I can guarantee that I will completely recover in the face of the battle for the green dragon halberd!"

Long Chen's current body, in terms of strength, was a Level Two Thunder Flame Battle Body, but in essence, it was a dragon body that had inherited the Ancient Dragon God's blood essence. Its recovery ability, resistance, and various types of qualities made it an absolutely first-rate existence.

Of course, it was also because Beitang Mo did not use her most powerful move.

Hearing Long Chen's guarantee, both Dongfang Xuanxiao and Yang Lingqing heaved a sigh of relief. Today, Long Chen could be considered to have passed through another tribulation.

"Ling Qing, you have already accepted your master in the Beitang family, I am unable to bring you out now, and can only help you until now. However, from now on, Beitang will restrain her emotions, but you must be careful, if there is anything you want to say to me in advance!"

"Alright, I understand." After experiencing today's events, Yang Lingqing knew that with Long Chen, this man who could support the heavens, there was no need for her to be afraid!

"Brother, you must participate in the battle for the green dragon halberd. You must heal your injuries and cultivate in peace. Then, you must work hard. I have my eyes on you!" Yang Lingqing squeezed out a smile and said.

"Mn," Long Chen nodded. Looking at Yang Lingqing's strange face, he suddenly thought of a serious question and softly asked: "Xiaoqing, did you use force with that Beitang Mo?"

"What are you talking about!" Yang Lingqing was a little embarrassed, but, she knew that Long Chen was concerned about this point and had just cleaned up, and said: "Brother, you do not have to worry about this, I heard from others that I have the Profound Yin Body, and that if I do not have the Great Perfection of the Heavenly Core, the result will not be a good one, so you do not have to worry about that at all!"

Chapter 202 - Earth Core Stage Small Success

"So that's how it is." Yang Lingqing did not have any manpower, so her words were unclear. When Long Chen understood, he heaved a sigh of relief and said, "That's great."

After he finished speaking, he was so happy that he laughed out loud. However, his injuries were accidentally triggered, and he immediately grimaced in pain.

After talking to Yang Lingqing for a while longer, Long Chen knew that it was time to go back. When he went back this time, he needed to prepare well in order to face the upcoming battle for the green dragon halberd.

etched Beitang Mo's palm in her heart. There would be a day when she would take revenge, but the most important thing right now was to fight Dongfang Tianyu and obtain the green dragon halberd.

Yin Mengyao had also been working very hard for the past few days, so she did not know about Yang Lingqing's situation.

Under the succession of two high grade Profound Rank medicinal herbs from Dongfang Xuanxiao, most of the injuries in Long Chen's body had healed after three days. Yin Mengyao had gone into closed door cultivation, so she did not even know that Long Chen was injured.

However, this was easier for Long Chen.

With Gui Yuan, Long Chen could heal his injuries at all times, and the speed at which he could recover was much faster than others. Although Dongfang Xuanxiao knew that he had the life combat technique, he did not ask.

Early in the morning on the fourth day, Long Chen found Dongfang Xuanxiao and said: "Foster father, my current cultivation has already reached a bottleneck. I want to make another trip to Star Demon Prison. I have a premonition that this time, I will be able to break through the small success stage of Earth Core Stage! "

"Oh?" To Dongfang Xuanxiao, this was a piece of good news. For Long Chen to be able to recover so quickly, he knew that the life combat technique must have contributed a lot.

Dongfang Xuanxiao's expectations for Long Chen was very high, so he had hopes of making another breakthrough. Dongfang Xuanxiao was also very pleasantly surprised, and immediately brought him into the Heaven Martial Stage, arriving at the entrance once more.

After greeting Yan Honghai, Long Chen who was familiar with the Star Demon Prison walked in alone. Very quickly, he arrived in front of the two thick iron chain.

"Mo Xiaolang is in that direction." Long Chen looked at the iron chain on his left, then looked towards the distance. There were a total of five huge shining stars, and Long Chen knew that the one that was faintly revealing cyan colored star should be the Azure Dragon Star that imprisoned Mo Xiaolang.

"Right now, I should hurry up and cultivate. Breaking through to the Small Success Stage of the Earth Core Stage is more important." Thinking about it here, Long Chen stepped onto the right iron chain. In

the air, he travelled along the iron chain s, and after about an hour, in the midst of endless loneliness, he arrived at the fork in the road.

"Five times gravity, ten times gravity, twenty-three times gravity." Looking at the symbols, Long Chen wondered which fragmentary star he should enter.

"Last time, I was able to move freely amidst the 20 times gravity force of the fragmentary star. The greatest gravity here is 100 times gravity, so only Heavenly Core should be able to enter, so I will enter the second place, the fragmentary star with 50 times gravity!"

Fifty times gravity meant that Long Chen's bones and muscles would have to bear a weight of over seven thousand kilograms, which was seven tons. If an ordinary person were to come here, he would definitely be crushed to death on the spot.

"The greater the gravity within the range that I can bear, the more suitable it is for me. There are only a few days left, and I must make a breakthrough at this very last moment. Otherwise, I won't have a chance. "

Thinking of this, Long Chen no longer hesitated, and resolutely decided to enter that fifty times gravity star fragment.

While walking on the chain, when he was about seven hundred meters from the shattered star, Long Chen was sucked in by the broken star. He fell to the ground.

Pow!

His body that had just recovered immediately suffered greatly. The pulling on his muscles and the stagnation of his blood almost made Long Chen close his eyes and rest on the ground, unable to move at all.

"Very good, very powerful." With such a gravity present, Long Chen was extremely satisfied. He roared loudly and started to grit his teeth, using his hands to support himself up against the yellow ground, the veins on his arms continuously bulged like tiny green snakes, coiling around his arms and neck.

"F * ck!"

Long Chen scolded, the gravity was too strong, at the moment he was covered in perspiration, after working hard for almost fifteen minutes, the final result was that he was only able to support himself.

However, during this process, his body received an enormous amount of training.

"My next goal is to be able to meditate!"

As long as he could meditate, Long Chen could circulate his Innate Qi!

Therefore, under this frightening gravity, Long Chen resisted the urge to sit up and start doing something that he would be able to accomplish not long after he was born.

After an hour, Long Chen was drenched in sweat and gasping for breath. However, he had already sat up.

"Next, I should circulate true qi and temper my true qi."

Under this fifty times gravity, circulating his Innate Qi became particularly difficult. Long Chen had to use a hundred times more difficult than usual to barely circulate his Innate Qi. This kind of feeling made him feel as if he was pulling an elephant when he still lacked the strength.

One could imagine how difficult it was.

However, Long Chen knew that as long as he persisted on, he would definitely be able to break through to the early stage of Earth Core Stage in a short amount of time. He had been using the Blood Refinement Qi the entire time. Although Ling Xi had said that he was still weak and did not have to care about her foundation, Long Chen knew that he still had to be careful.

The time taken for Long Chen to complete a cycle became less and less, until five days later. From completing a cycle, he needed a full day's worth of time to complete it, to half an hour later.

"After five days of tempering, my true energy has been compressed once again, and even my fusion with the Power of Thunderflame has increased by quite a bit. This has caused my true energy to become even stronger, and the opportunity to breakthrough should be right in front of me!"

"Persist!"

In these few days, Long Chen thought of Yang Lingqing, and then he thought of Ling Xi, who still needed his help, and his heart was filled with a strong power. Long Chen knew that men who could take responsibility could continue to improve, protect people they had to protect, and defeat the person they wanted to kill!

After half a day, when Long Chen channeled his True Qi, the obstacles he encountered were already around the same as when he was circulating True Qi for around twenty times gravity!

"Time's up!" When all the true energy finally entered his dantian, it crashed into each other and began to rapidly fuse with each other! The blood-red mist gradually turned into a solid blood-red Earth Core!

The process lasted for a very short period of time, and very quickly, Long Chen released a roar. That pound of Innate Qi flew out from his mouth, forming a blood-red cloud around his mouth.

At this time, the Earth Pill had shrunk quite a bit within Long Chen's Dantian, and it was much more condensed than before. It was even more powerful!

"Earth Core Stage Initial Stage, success!" Sensing that his Innate Qi had increased sharply, Long Chen knew that in terms of Innate Qi, he was not far from Dongfang Tianyu!

Of course, the precondition would be for him to undergo the powerful Dragon Soul Transformation!

At this moment, his entire body was brimming with power. He tried to stand up on the fifty times gravity force fragmentary star, but the result was that he discovered that everything wasn't difficult at all. Right now, he felt just like when he was under twenty times gravity. If Southern Palace City was able to come here, he could fight him once more and use the Nine Dragons Flash once more!

"The feeling of becoming stronger is great!" In this way, Long Chen was much more confident in the battle for the green dragon halberd. The green dragon halberd was related to Mo Xiaolang, so this time, Long Chen had to succeed no matter what!

"There should still be three days until the battle for the championship. I will spend another two days to perfect the Nine Dragons Flash once again on this fragmentary star which has fifty times gravity! Xuan Xiao was able to reach the ninth flash, why can't I? "

The enormous pressure caused Long Chen to not relax in the slightest. He had just broken through to the early stage of Earth Core Stage, and he immediately began cultivating the Nine Dragons Flash. What surprised him was that under this fifty times gravity force, his understanding of the Nine Flashes of the True Dragon deepened.

"If this continues, the ninth flash won't be a problem either!"

Only then did Long Chen know, battle skills were not so easy to learn, with his current talent, he was already considered outstanding. At the very least, his cultivation speed of the True Dragon Nine Flashes was much faster than Dongfang Xuanxiao's back then.

Two days had passed and Long Chen had already completed his ninth flash. He had completely mastered the True Dragon's Nine Flashes and had even integrated it into his daily battles.

"It's time to go back and give them a big surprise." Long Chen thought, he tidied himself up a bit, and then began the journey back. When he returned to the transfer hall, Long Chen told him in the direction of Azure Dragon Star: "The next time I am here, I should be able to rescue you out."

In the depths of his consciousness, Long Chen felt that this Mo Xiaolang would be the person who would accompany him in his battles for the rest of his life. It would be his left arm and right shoulder.

After exiting the Star Demon Prison, Yan Honghai came over to welcome him and said: "Young Master Long Chen, Lord Xuan Xiao has been here for two days. He is waiting for you there."

Long Chen nodded and headed towards his position.

"Why does Young Master Long Chen seem to be different?" Yan Honghai said in surprise as he looked at Long Chen's leaving figure.

"He went through a transformation." Beside him, another armored guard muttered.

"Foster father." Long Chen came to Dongfang Xuanxiao's side and called out. At this time, Dongfang Xuanxiao was meditating with his eyes closed.

"Success?" Dongfang Xuanxiao opened his eyes.

"Yes."

"Then go back, and wait for your performance." Standing up, Dongfang Xuanxiao sized Long Chen up for a while. He also knew that after experiencing Yang Lingqing's matter, Long Chen had truly undergone a metamorphosis, making him look more like a man of honor than a muddleheaded youth.

Just like that, they set foot on the road back.

"Wolf, wait for me." Long Chen turned his head and thought.

The current Dongfang Xuanxiao, was also looking in the direction of the Star Demon Prison, and was silently lost in thought.

Regarding this, Long Chen didn't know why.

"Could it be that he has a brother who is imprisoned inside?" Long Chen continued to imagine arrogantly.

Chapter 203 - Azure Dragon Ancestor

Tomorrow was the day of the green dragon halberd Contest, and he had made great breakthroughs in all aspects. Thus, in a short span of one day, it was rare for him to have time to rest. After the two of them chatted with Ling Xi for a while longer, time passed.

"I really didn't expect you to break through to the Earth Core Stage Initial Stage at such a critical juncture. Long Chen, you're much stronger than me. Up till now, I've only trained the Waterflow Holy Body to the basic level. " Yin Mengyao's words contained a trace of helplessness. When she was together with Long Chen, she felt the pressure.

Long Chen laughed, looked at Yin Mengyao, and suddenly thought about Yang Lingqing's matter, and asked: "Sister Meng Yao, that Dongfang Tianxing, is she bothering you?"

"That guy ..." When he thought of him, Yin Mengyao's brows slightly furrowed as she said angrily, "He relied on his strength to come and tease me time and time again. If it wasn't for me imitating you and bringing out his foster father, in the end ..."

"So it's like that." A cold light flashed across Long Chen's eyes. In the Inner Race, whether it was Dongfang Tianyu, Dongfang Tianxing or Beitang Mo, they were all his enemies.

"Forget it, then come one by one, tomorrow, will be Dongfang Tianyu!"

At daybreak on the second day, Long Chen followed Dongfang Xuanxiao and Yin Mengyao to the Profound Wind Pavilion. At this time, the Profound Wind Pavilion was already filled with people, and each of them was strong and robust; Among them, the most eye-catching was a tall and thin old man. His eyes were sharp and he stood there like an unsheathed sword, his white hair was like silver needles, sparkling with a light that would make one's heart palpitate.

This old man, Long Chen actually felt that it was as if a huge mountain had been placed right in front of him, causing him to be completely unable to catch his breath.

Long Chen knew that this was the Dongfang family's current patriarch, an existence that surpasses the Divine Pill Realm in the legends, a Milky Way Realm expert. He is Azure Dragon Ancestor. On his clothes was embroidered a flying azure divine dragon.

"Patriarch!" Even Dongfang Xuanxiao bowed to this old man after walking in.

"Since everyone is here, let's go to Zunling." The voice of the Azure Dragon Ancestor was even hoarser than what Long Chen had expected. His expression was cold, and he was clearly not someone to be trifled with.

Today's competition location for the green dragon halberd was the Zunling. This was what Dongfang Xuanxiao had told Long Chen yesterday. The competition's rules were simple: Among the younger generation, other than Dongfang Tian Chen, Dongfang Tianxuan and Dongfang Tianxing, who had already obtained the qualifications, the other younger generation would all participate in this competition.

On the road to the green dragon halberd, this was a huge subterranean space. This place had already been arranged by the clan to over a thousand gilded puppet s, as long as one could obtain a hundred of these gold-plated hearts in this space, they would be able to rush towards the green dragon halberd. Of course, in the process of obtaining the gold-plated hearts, or advancing towards the green dragon halberd, they would also be able to fight with each other!

This gilded puppet was the newest and most powerful puppet in the entire Lingwu Family, and was much stronger than wood and metal puppets. When Long Chen heard this name, he naturally thought of the Golden Holy En's Gold-ranked Battle Body. Since gilded puppet was known as the Gold-ranked, then even if she was not as powerful as the high grade Profound Rank body tempering technique, he was still pretty sure that it wasn't too far off.

Fortunately, the gilded puppet only had a strong physical body and a strong attack power, but no true qi. If it was combined with her true qi and techniques, she would be just like a real warrior.

Speaking of this rule, Long Chen was actually a little speechless.

"Like this, Sister Meng Yao and I will be completely isolated from each other. If Dongfang Tianyu encourages them to join hands, it will definitely be much more difficult for us."

With that in mind, Long Chen followed the large group and arrived in front of the Zunling. At this point, the juniors who were about to participate in the competition were a little nervous, especially those who had just reached the Earth Core Stage, their faces were all tight.

"When we reach the Zunling, don't make any noise!" The Azure Dragon Ancestor said in a low voice and everyone quieted down. Then, the Azure Dragon Ancestor opened up the Zunling for everyone to enter.

At this time, those who wanted to speak could only dare to speak in hushed tones.

"Did you see that? When that Long Chen was carried back by Fourth Uncle, he was already heavily injured, and right now he's probably not much better. Big brother Tianyu might not even be able to make it in time."

"You don't need to worry about that. We just need to be obedient. When it's done, big brother Tianyu won't treat us unfairly, hehe."

"I really don't understand, isn't it just a newly entered Earth Core Stage? I am already at the small success stage of Earth Core Stage, why would I need to gather so many people. In my opinion, I can capture him by myself. "

The youths did not know that their soft discussions could basically be heard very clearly in front of Dongfang Xuanxiao, Ling Xi and the others. Hearing these words, Ling Xi was a little worried, but after knowing it, she only laughed lightly. The ones who would laugh till the end in this battle would only be the strongest individuals. Those small tricks were completely useless.

Very quickly, Long Chen and the rest arrived in front of the ancestral tablet of the Zunling.

Long Chen remembered the last time he came here, the door behind the tablet had a thing hidden inside that caused the Mysterious Dragon Jade to move. Although it didn't move this time, Long Chen had a strange feeling in his heart.

"The green dragon halberd is inside." Dongfang Xuanxiao pointed to the light golden metal door behind the tablet, and said softly.

"The thing that attracts Mysterious Dragon Jade should be green dragon halberd s. This green dragon halberd is truly worthy of being an Earth Ranked Divine Weapon, it is actually able to excite Dragon Jade, it must be a miraculous treasure. It looks like this time, I must use all my strength, this is my only chance to turn the situation around." Long Chen thought in his heart.

At this time,'s generation had basically already begun to worship their ancestors under the lead of a few other great elders of the Azure Dragon Ancestor. As for Long Chen, Yin Mengyao and the others, they were already with the young generation of the Dongfang Family.

Among this group of people, the most dazzling wasn't Dongfang Tianxuan the cold beauty, nor was it Dongfang Tianxing the evil looking handsome guy, but rather, it was a tough looking man with a face that was as cold as a knife and as if it was carved into swords. From start to finish, this man did not say a single word, his expression did not change, and he was actually somewhat similar to Dongfang Xuanxiao. From his body, Long Chen felt an aura that was not one bit inferior to Beitang's Ink.

"He is the number one genius of the Dongfang family. His Heavenly Core is already at the initial stage and he has already trained in the Azure Dragon Battle Method. According to the rumors, he's quite powerful!" Yin Mengyao bent down beside Long Chen's ear and softly explained.

"Dongfang Tian Chen?" Long Chen and him both had the word Chen in their names, but compared to him, Long Chen was just one realm lower.

"It seems like among the young generation of Lingwu Family, the strongest is only at the early stage of Heavenly Core. Back then, Mo Xiaolang should also have had this kind of strength as well, but since Mo Xiaolang has a Sky Wolf Blade, he should be the strongest!" Long Chen only understood now that Mo Xiaolang, who had appeared in the Bai Yang Town back then, was much more monstrous than him. But today, Long Chen was also very close to that level.

"Oh, isn't this the Long Chen who was crippled and returned? To think that we would be able to participate in a battle for power today, I truly have a whole new level of respect for you. " Long Chen turned around. It turned out that Dongfang Tianyu was leading a group of brothers and sisters as they looked at him provocatively.

Amongst these people, Dongfang Tianyu was not the oldest, but he was indeed the strongest. These were all the participants in this competition.

"There are so many things that you have to look at in a new light." Long Chen said indifferently, and did not bother with him anymore.

"Then I'll look forward to your performance! If that's the case, before I even make a move, I would have already been beaten to a pulp by that gilded puppet, crying for my father and calling for my mother. " Saying that, Dongfang Tianyu laughed, and the boys and girls behind him also roared with laughter.

"Quiet!" Second brother Dongfang Xuanyu who had just finished his sacrifice walked over, and shouted out indifferently. Dongfang Tianyu and the rest immediately stopped laughing, and obediently greeted: "Aunt!"

"Yes." Dongfang Xuanyu nodded, walked to Dongfang Tianyu, and looked at him lovingly: "Yu Er has grown up so much in a blink of an eye, you're already a man, today you should perform well for Second Aunt, don't disappoint Second Aunt and take care of you all these years."

"Thank you Aunt, your kindness, Yu Er will never dare to forget about it. Today, I will definitely perform well, acquire the green dragon halberd, learn the Azure Dragon Battle Method, and beat some outsiders out of the Dongfang family!"

"How can you say that, you're so poor!" What Dongfang Tianyu said was extremely unsightly, but Dongfang Xuanyu merely gave him a weird look, and did not stop him. In her expression, it seemed that she agreed with him. Then, she looked at Long Chen, sized him up, and said indifferently: "Have you actually recovered?"

"With your blessings, I, Long Chen, will not die yet." Towards this woman, Long Chen did not have any good intentions.

"You!" Long Chen was about to die but his tone was still so impolite, causing anger to sprout in Dongfang Xuanyu's heart once again. To her, the more Long Chen looked at him, the more he detested him.

"I really don't know what's so special about you. At such an age, you are still just a young man in the Earth Core Stage. I have so many Lingwu Family s and today, Xuan Xiao will see how laughable his decision is. He actually went to Beitang's house to cause trouble for you, and even had a quarrel with my father when he returned, and even fought.

"What?" Xuan Xiao fought against him? " Long Chen was completely unaware of this, and he was still thinking why Dongfang Xuanxiao seemed to have become a little dispirited these few days. It turned out that it was because of him that he actually started to fight against Azure Dragon Ancestor.

Long Chen thought about it, and felt that this matter was not unreasonable, the Four Great Inner Race s being able to maintain this kind of state, where they were fighting side by side, was already quite a feat, and Dongfang Xuanxiao actually broke the rules and came to threaten Bei Tangming, isn't this slapping Azure Dragon Ancestor's face?

"This favor, I, Long Chen will repay it no matter what." Long Chen secretly noted it down in his heart.

At this time, the Azure Dragon Ancestor turned around and coldly said: "The competition will begin now. How are your preparations going?"

The critical moment had finally arrived.

At this time, under the lead of the Azure Dragon Ancestor, Long Chen and the others went around the ancestral tablets and arrived in front of the big gate. There were about twenty or so participating Young Fighters lined up in a row, and the current Long Chen was standing next to Dongfang Xuanxiao. At this point, Dongfang Xuanxiao had nothing else to say, he directly patted Long Chen's shoulders and said: "Do your best. With your current situation, there's hope for you to take first place!"

"I know." Long Chen nodded, then looked at Dongfang Tianyu. Dongfang Tianyu was also looking at him, his eyes filled with ice. Thinking back to the first time he had met Long Chen, Long Chen was still an ant-like existence, bowing and kneeling in front of him.

"Fighting against me, Dongfang Tianyu, this time I want your life! He could be considered to be avenging Yun Yao's brother! This contest battle didn't mean that they couldn't kill anyone! However, I have also not easily moved my hands. Seventeen Earth Core Stage warriors, along with the endless gilded puppet, will not be able to take your life! " As these thoughts passed through Dongfang Tianyu's mind, he understood the obvious killing intent in his eyes.

Long Chen did not care either, but Yin Mengyao, who was at the side, was a little worried.

At this time, the Azure Dragon Ancestor swept his gaze across every single Young Fighters, and his gaze finally stopped on Long Chen's body.

"I heard that this young man is a Beast Fighters, why is his aura so strange? What kind of demon beast would have such a majestic atmosphere, and even the smell of ancient times, actually has a hint of the same aura as that of a green dragon halberd? " No matter how much Ren Azure Dragon Ancestor thought about it, he did not know that there was actually a Dragon Fighter in this world.

Long Chen had become the Dragon Fighter, but because he was not strong in the first place, he only absorbed a thousandth of the inherited blood essence. He had not revealed the powers that many of the Dragon Fighters had, otherwise, his aura would have been even more terrifying. That Ancient Dragon God was an existence that ruled over the ancient Dragon Sacrifice Continent.

Time was up, the Azure Dragon Ancestor did not think too much about it. Under his control, the golden door opened!

Rumble rumble rumble!

It was probably to protect the green dragon halberd s, this door was even thicker, and as it moved, the entire Zunling was trembling. Soon, the door was completely opened. Inside, it was pitch black and its appearance could not be clearly seen. However, at this time, a wave of killing intent could be felt.

"A thousand gilded puppet s, and each of them requires a hundred Gilded Gilded Heart. In other words, at most only ten people will be able to make it back, and those who get the green dragon halberd will usually be the first to complete the mission. " Long Chen thought in his heart.

"Xuan Feng, we'll go to the green dragon halberd first. You'll preside over this!" Azure Dragon Ancestor gave the order and quickly flew in the direction of the green dragon halberd with a group of Profound Elders and a large group of Xuan Xiao's generation. They prepared to wait for Long Chen and the others to arrive.

Dongfang Xuanxiao took another glance at Long Chen and Yin Mengyao, and said. These words were filled with a strong confidence in them. However, the only person who supported and favored Long Chen here was only Dongfang Xuanxiao.

"Are you ready? I said, start, all of you charge in together! " When Azure Dragon Ancestor and the rest were about to reach the destination, Dongfang Xuanfeng looked around and said loudly.

"Alright!" Dongfang Tianyu's eyes revealed blazing rays of light! Today, it was finally his turn to touch the green dragon halberd. The previous few times, he had participated, but they were not the strongest existences. Seeing his three brothers and sisters all have this opportunity, he was actually very envious in his heart!

"After I obtain the green dragon halberd and learn the Azure Dragon Battle Method, I can also become someone like my big brother and gain the respect of Grandfather, Xuan Lao, and even Father!" Thinking of this, Dongfang Tianyu was filled with fighting spirit!

"Begin!" Under Dongfang Xuanfeng's command, all the younger generation of the Dongfang Family rushed in, rushing forward. Long Chen and Yin Mengyao looked at each other and rushed in as well!

"Sister Meng Yao, follow me closely!" In this battle, Long Chen's only ally was Yin Mengyao. Furthermore, Yin Mengyao was his foster sister, so the two of them had a very good relationship.

The first part of the road was a wide and lengthy passage. The light was a little dim, but it was enough for Long Chen and the others.

Just as he entered, Long Chen burst out with an astonishing speed, following closely behind Dongfang Tianyu, he rushed out of the tunnel and arrived in the middle of a gigantic subterranean space. This was a square-shaped space, and its surroundings were inlaid with light green bricks. All sorts of lifelike green dragons were carved onto the carvings, and suddenly, a strange warmth surfaced in Long Chen's heart as he was surrounded by so many Divine Dragon carvings.

"The Ancient Dragon God is still extinct. It's probably because the inherited blood essence sensed the existence of these reliefs that it reacted this way." Long Chen thought in his heart as his gaze shifted downwards. Then, he saw that at the base of the walls in all four directions, there were depressions one after another. And in the middle of those depressions, there were over a thousand human-shaped objects standing there.

These were golden puppets, their bodies covered in azure runes. Its body sparkled with light, making it appear exceptionally hard. Moreover, its body was thin and not as heavy as the steel puppet's. It was likely that it did not have any weakness in speed and agility.

Just as Long Chen and the rest were about to enter the square space, the eyes of the gilded puppet suddenly lit up with a dazzling white light.

"Be careful!" Long Chen was on guard and immediately led Yin Mengyao to the side. Just at that moment, other than Dongfang Xuanxiao, the rest of the young generation of the Dongfang Family surrounded Long Chen!

"Let me exhaust him to death, haha, Long Chen, just wait for death! I will collect the heart of gold first, after I collect all one hundred of them, I will come back to take care of you!" Dongfang Tianyu laughed. This was his foolproof plan. Other than the fact that they were not very outstanding in actual combat, they were very outstanding. Long Chen had to face their attacks as well as withstand them, so the speed at which he collected them was naturally far inferior to Dongfang Tianyu's!

To be able to make everyone serve him, Dongfang Tianyu had to expend more than just a little bit of effort this time!

But at this time, before the gilded puppet could attack, the rest had already started charging towards Long Chen. A dozen or so Earth Core Stage warriors were truly untouchable, once they attacked, they immediately had the power to shake mountains and shake the earth.

Long Chen didn't say anything, but facing such a stance, Yin Mengyao was extremely worried in her heart. She had long known that this contest battle would not be easy, but she never thought that she would face such a predicament from the very beginning!

"You want to trap me, Long Chen, at such a level?" Long Chen sneered. At this time, he already had no choice but to use the Dragonsoul Transformation.

"In front of us brothers, the beast spirit transformation is nothing!" At this time, Dongfang Tianyu had already come into contact with the gilded puppet, he had learnt a high level Profound Ranked battle skill, and other high level Profound Ranked battle skills as well, so their battle power was extremely strong. Those gilded puppets, although their movements were nimble and their speed was extraordinary, most importantly, their bodies were strong, almost nearing Dongfang Tianyu's, but if they lost their True Qi, they would not be Dongfang Tianyu's match, even if there were more than ten of them surrounding him.

"Long Chen, I will help you block them, go kill the gilded puppet is more important!" At this critical moment, Yin Mengyao clenched his teeth, and stepped forward. Unexpectedly, just as she moved, Long Chen stopped her, and laughed: "My foolish sister, do you really think that their encirclement will be useful here?"

None of them were stronger than Long Chen, so Long Chen brought Yin Mengyao and randomly found a break, and rushed forward!

"Dongfang Tianyu, do you still remember that taste?" Long Chen's cold laughter instantly caused the expression of one of the youths to change. Sure enough, Long Chen had turned into a mirage as he charged towards him!

"Such a fast speed!" They were all greatly shocked in their hearts!

"Surround him!" When he said these words, it was actually a little late, because Long Chen had already arrived beside Dongfang Tianya. With a Burning Heaven Devil Yang Fist, he blocked Dongfang Tianya's attack, and then, with an explosive shout!

"Annihilation Leg Technique!"

had used it on Dongfang Tianya today, the attacks that were like a torrential storm immediately made him miserable, and forced him to retreat slowly!

"Quick, save me!" Dongfang Tianya's face turned bitter, just as he shouted out, his mouth was kicked by Long Chen, causing a few bloody teeth to fly out, falling onto the ground, just at this time, Long Chen had stepped on his face, and quickly rushed out of their encirclement!

"Long Chen is so powerful!" To be able to kill an expert who had mastered Earth Core Stage just like that, Yin Mengyao was completely impressed with Long Chen. She immediately followed Long Chen and rushed out of the encirclement.

"What?" Everyone was shocked that Long Chen was able to rush out of the encirclement so quickly. Other than two people who went to support the miserable Dongfang Tianya, the rest rushed towards Long Chen, but Long Chen was too fast, and at this time, she and Yin Mengyao had already charged into the encirclement of the gilded puppet. They wanted to advance, but they were already surrounded by a total of one thousand gilded puppets, which was way more numerous than them!

"Bastard!" Dongfang Tianyu was in a bad mood as he continued to kill. He had planned for so long, he did not expect Long Chen to break through so easily.

"Fine. Even if you can match my speed, I'll still kill you in the end!" Thinking about it, Dongfang Tianyu started to kill the gilded puppet with all his might. While Long Chen was fighting with the other Eastern Genius disciples, he had already killed more than ten gilded puppets, and was leading the charge by a lot.

"So, how can the speed at which you obtained the gilded puppet compare to mine?" Although he hated Long Chen, Dongfang Tianyu had to admit that he now barely had the qualifications to be his opponent!

And at this time, Long Chen began his berserk massacre of the gilded puppets!

"It's the same as fighting against the steel puppets. It's the same as always. Slaughter from close range!" Extending his sharp claws, Long Chen's legs moved, and he appeared beside one of the gilded puppet s!

Chapter 205 - Competition

There were a total of a thousand gilded puppet s, and the toughness of their bodies could barely reach the high-level Profound Ranked. This made them harder to deal with than steel puppets, but Long Chen's claws were extremely sharp, and in terms of hardness, they were basically at the level of Divine Weapons.

Boring!

An ear-piercing sound was heard. In that moment, Long Chen had already used his shoulder to knock one of the gilded puppet s away, and at the same time, he exploded forth with all his might. He twisted his body and unleashed his attack, his sharp claws directly piercing into the gilded puppet's body! gilded puppet's tough body was unable to block Long Chen's powerful attack and was pierced through by his claws!

"Fortunately, it was able to pierce through!" Long Chen twisted with all his might, and in a split-second, his fingers came across a burning hot crystal. Without saying a word, he took it out from gilded puppet's body, and without even looking at it, he placed it into his own Qiankun bag!

Dongfang Tianyu had already taken the lead by a lot, and at this time, he no longer had time to watch anymore. Furthermore, at this time, the other gilded puppet s all rushed towards Long Chen, blocking at least the front and the left and right of him!

With such a strong body, if Long Chen were to be hit directly, even if he had Returning Energy, he would probably be injured. Most importantly, this would delay him for some time.

Therefore, he had no choice but to give it his all!

He casually took a glance outside. At this time, Yin Mengyao had also begun to battle with the first gilded puppet, although the rest of the youths of the Dongfang family were already surrounded, but they still fought their way towards Long Chen, intending to once again pin him down so that Dongfang Tianyu could obtain the one hundred Gilded Gold Heart!

"Sister Meng Yao has trained the Flowing Water Holy Body, and also experienced the wood puppet's training, so she should be fine! I only need to use the fastest speed to obtain the heart of gold! "

Thinking to this point, Long Chen did not care about anything else. He looked in which direction with more gilded puppet s, he was actually headed in that direction, his entire body was attacking, using the method of close combat, he looked like a lunatic. However, it was this lunatic who actually made others feel that he was a wolf in sheep. Of course, Long Chen was a wolf, and those gilded puppet were sheep!

Boring Boring Boring!

Long Chen's claws and the spikes on his knees continuously pierced into gilded puppet's body, emitting an ear-piercing sound. Beside him, a large amount of gilded puppet began to collapse, forming a small hill beside him.

"What?" The youths of the Dongfang family were all shocked when they saw Long Chen's actions.

"When did Long Chen become so strong? He killed almost as many gilded puppet as us combined! "

"That's impossible, even if he managed to cultivate a high level Profound Rank body tempering technique, I can still learn it!"

"Look, his claws and spikes are very sharp, they can easily pierce into gilded puppet's body, it's much more convenient than us."

"So that's how it is. I thought he was really strong!"

"Brothers, he's almost catching up to big brother Tianyu. We promised big brother Tianyu that if he could gather enough gilded puppet s, where would we be able to put our face? Let's go and stop him! "

They discussed loudly as they walked in Long Chen's direction. Dongfang Tianyu heard their discussion, and immediately looked over. When he saw Long Chen's crazed look, his heart jumped: "So fast? Brothers, quickly stop this brat for me. When I have gathered everything, I will immediately go and kill him! "

If he had chosen to defeat Long Chen first, there was a possibility that he would also be injured, and after getting injured, he would have to go and collect the gilded puppet, which would be much harder.

"Yes sir!"

"Thirty-eight!" When Long Chen placed the thirty-eighth gold-plated heart into his Qiankun bag, he had already spotted the others surrounding him from the corner of his eyes. He laughed coldly, "Can you trap me?"

Following that, his figure started to rapidly move. After a few consecutive flashes, he had already broken through the encirclement that they had painstakingly made and arrived in another area with a large number of gilded puppets.

"True Dragon Nine Flashes is indeed extraordinary. In such a scenario, I have to use the True Dragon Nine Flashes to gain an even greater advantage." With the Nine Flashes of the True Dragon and the heaven defying ability of the Dragon Soul Transformation skill, it was completely possible for Long Chen to complete the mission before he finished it.

"What?! He actually rushed out?" Towards Long Chen who had once again charged out of the encirclement, everyone was a little speechless.

"That movement technique just now, why does it seem to be the Nine Dragons Flash?" One of the youths suddenly said.

"How could that be? He has just arrived at the Dongfang family, how can he cultivate the Nine Flash of the True Dragon so quickly? The Nine Flash of the True Dragon is Fourth Uncle Xuan Xiao's unique skill! "

"Don't worry about it so much, let's capture him first!"

Everyone, I have an idea. This Yin Mengyao is with him, if we were to touch her, she might not send herself to our doorsteps. "Feng Xue'er said in a serious tone.

When he said that, the others all agreed, without saying a word, they rushed towards Yin Mengyao.

Yin Mengyao was merely at the initial stage of the Earth Core Stage, her fighting capabilities were considered a genius in the other clans, but in the Inner Race, she was not even comparable to these children. With so many people dealing with her, how could she possibly be a match? A person like Long Chen, who was able to shine when he first entered the Inner Race, had never been here before.

There were more than ten people in total, so if they approached Yin Mengyao, he basically did not have any defensive capabilities.

"I originally didn't want to fight with you guys, but you guys are actually courting death. You can't blame me, Long Chen." Seeing that they had set their eyes on Yin Mengyao, Long Chen was enraged, he put down the killing intent in his hands and rushed through the gilded puppet like a tornado, releasing a burst of killing intent towards the group of people!

"Such a nimble body! You can actually come and go as you wish, but how could you possibly be a match for my dozen or so brothers?" Seeing that Long Chen was really not afraid of death, the youths were overjoyed, and immediately rushed towards Long Chen!

"This is a critical moment, I can't afford to hold back. I have to get rid of these fellows in the shortest time possible, only then will I be able to get my hands on gilded puppet in peace!"

Thinking about it, Long Chen suddenly used this ability.

"Devouring Blood Realm!" Instantly, a wave of blood colored Qi spread out towards the Dongfang family's disciples. These people didn't know what was happening and were immediately surrounded by the Devouring Blood Realm. Seeing the faint bloody Qi around them, their faces changed as they asked in doubt, "What is this?"

However, just as they asked this question, they felt their blood boiling in their bodies, as though they were not under their control at all. Especially those children who had just reached the Earth Core Stage, whose faces were deathly pale, as they screamed miserably in pain one after another. Amongst them, there was even a little boy who fell to the ground!

"Now is the time." Long Chen thought, without saying a word, he had already arrived beside them. Under his Devouring Blood Realm, most people would need to spend their energy to deal with the Devouring Blood Realm, but Long Chen was like chopping vegetables, killing one with one palm!

These miserable cries caused Yin Mengyao, who was just inches away from him, to look at him in a daze. Her beautiful eyes were filled with disbelief, and when Dongfang Tianyu also saw this scene, her hand trembled, nearly allowing her opponent to hit him.

Under Dongfang Tianyu's gaze, Long Chen knocked out one young man after another from the Dongfang family. This way, they wouldn't dare to cause trouble anymore. Yin Mengyao focused on facing the gilded puppet, so he should not be in any danger.

"How is this possible?" Among these people, there were some who had realms similar to Long Chen, but he didn't expect Long Chen to be so powerful, to actually be able to beat someone of the same level to a pulp with just a slight movement.

"We can't let this Long Chen stay, he must die." Dongfang Tianyu secretly swore on his heart. At this time, he did not leave to take care of these trash, but exploded with power to fight against the gilded puppet. At this point, he already had fifty or so Golden Stones.

"I'll let you all get even more annoyed!" Under the Devouring Blood Realm's power, all the geniuses of the Dongfang family were beaten until they lost their fighting capabilities. Long Chen wanted them to not be able to move, so his attacks were not light.

"Long Chen, there isn't much time left, quickly collect the Gold-ranked Battle Body!" Yin Mengyao was very concerned about Long Chen, but since this battle was related to the little wolf, she actively reminded them. Because at this time, only Long Chen could challenge Dongfang Tianyu, and only they could fight for the championship!

"Dongfang Tianyu has not been affected by external factors, and is now much faster than me!" Without saying a word, Long Chen immediately joined the ranks of gilded puppet, and started killing as he pleased.

He was originally worried that those youths would faint and die. If gilded puppet were to kill them at this time, how would he deal with it?

Now that he had pulled down so much, Long Chen had no choice but to use his offensive skills as well as the True Dragon's Nine Flashes to directly slaughter the gilded puppet. With the True Dragon's Nine Flashes, he could walk freely in the enemy's encirclement, displaying even more efficiency.

The two of them looked at each other out of the corner of their eyes as they massacred crazily. What made Dongfang Tianyu feel threatened was that although Long Chen was a bit weaker than him, his speed of acquiring gilded puppet was faster than his. If this continued, there would be a time when Long Chen could catch up to him!

"Kid, if you catch up to me, would I still need to stay here?" Dongfang Tianyu sneered and sped up. In the midst of killing, time passed bit by bit. Finally, when Long Chen reached the ninetieth place mark, Dongfang Tianyu let out a long laugh: "Long Chen, I'm going to get the green dragon halberd, I won't be accompanying you! You can slowly kill them, see you later! "

Dongfang Tianyu had originally planned to kill Long Chen here, but now it seemed that this mission was a little difficult. If he were to comprehend a technique from the green dragon halberd, it would also be troublesome if he was injured, so he forcefully suppressed his anger and directly went to grab the green dragon halberd.

Chapter 206 - green dragon halberd

After he finished speaking, Dongfang Tianyu headed towards the depths of the Zunling, where the green dragon halberd was placed!

Seeing that Long Chen was still killing monsters, he knew that Long Chen had not completed his mission yet. Previously, he was still a little worried, but in the end, he had still rushed to Long Chen's side and completed a hundred of them.

"Long Chen, quickly!" Seeing that Dongfang Tianyu had already left, Yin Mengyao was a little anxious. At this point in time, she had only collected around thirty or so hearts of gold and already knew that there was no hope for her. Her hope rested on Long Chen.

Long Chen's expression was calm, as if he did not hear Yin Mengyao's voice. He was still acting like a machine, collecting the gilded puppet and knowing that Dongfang Tianyu's figure was gradually shrinking.

In the deepest part of Zunling, there was a wide open space. It was a cave, and under the light of the torches, the cave was bright white, and the shadow of a person was dragged along.

These people were the leaders of the Dongfang Family. They were the Azure Dragon Ancestor and a few Spirit Master Cultivators. Dongfang Xuanxiao was also present. They were all waiting for the first person to complete the one hundred hearts of gold.

At this moment, Dongfang Xuanyu came to Azure Dragon Ancestor's side, and said somewhat nervously: "Father, it's almost time."

"Yes." The Azure Dragon Ancestor nodded.

Dongfang Xuanyu laughed in his heart. In other words, if Dongfang Tianyu really wanted to kill Long Chen, then he would already be dead by now.

This brat had repeatedly disregarded her, and had even contradicted her. This made her feel extremely displeased.

"That's good too, since Yu Er managed to remove the thorn in her heart, she can cultivate in peace." Towards this brat Dongfang Tianyu, although he was not born of him, Dongfang Xuanyu still doted on him a lot.

"Don't worry mother, that brat Long Chen, won't be a match for Xiao Yu." Dongfang Tianxing crossed his arms, and laughed casually. However, when he saw Dongfang Xuanxiao's gaze, he could only let out a dry laugh and lowered his head.

"Someone has appeared!" Azure Dragon Ancestor was the first one to sense it.

At this time, everyone tensed up. Following the Azure Dragon Ancestor's gaze, everyone looked towards the pitch black passageway and sure enough, there was the sound of hurried footsteps coming from inside.

"It's Little Yu!" Seeing the appearance of this person, Dongfang Xuanyu and the rest revealed happy expressions, their taut heartstrings finally relaxed.

To them, Long Chen was obviously not a match for Dongfang Tianyu. It was just that when they thought of Long Chen, their hearts did not feel at ease. After all, within the other clans, Long Chen had already created many miracles.

Seeing that it was Dongfang Tianyu, Dongfang Xuanxiao was startled and could not believe it. Amongst these people, he was the one who understood Long Chen the best. He lowered his head and muttered: "Could it be that I fell for Sky Yu's trick and wasted my time?"

"Little Yu, aren't you bad? Did you kill some people?" Beside Xuan Xiao, Dongfang Tianxing started to be complacent, and even though he was disregarding the presence of his elders, Zhang Kuang started to laugh out loud. His mother and Dongfang Xuanxiao did not walk the right path, so he did not give Dongfang Xuanxiao any face either.

However, Dongfang Tianyu did not answer him. Instead, he rushed towards the direction of the green dragon halberd!

"What?" Everyone was in a daze. The current situation was obvious, Dongfang Tianyu had already obtained victory, but he was not happy at all. Instead, he was in a hurry ...

"There's still someone else!" They looked towards the passageway and indeed, the sound of footsteps could be heard. Then, in the midst of everyone's shocked gazes, a red figure rapidly flew towards Dongfang Tianyu, and within a few breaths of time, it had already rushed to Dongfang Tianyu's side, walking together with him!

"It's actually that Long Chen! What a fast speed, he actually caught up to Tianyu from behind! " Dongfang Xuanyu and Dongfang Tianxing were both shocked, their hearts raging. Since when did Long Chen have such speed?

Long Chen's arrival immediately caused everyone who had heaved a sigh of relief to tense up again. Now that they had not touched the green dragon halberd, the victor was still unknown!

In other words, it was possible for Long Chen to obtain the green dragon halberd!

After Dongfang Tianyu finished collecting the one hundred Gilt Steel Heart, Long Chen spent a few breaths of time to finally finish the mission. After that, he rushed towards Dongfang Tianyu, because the passage just now was not short, and the speed at which Long Chen erupted was even slightly faster than Dongfang Tianyu, allowing him to rush up at the last moment!

Earlier, Dongfang Tianyu's expression was anxious, and it was also because of the fact that Long Chen had already rushed over.

Seeing Long Chen's figure, Dongfang Xuanxiao's eyes finally revealed a trace of relief. He knew that it was time to watch the show.

"What are you so proud of? So what if he charged? In front of Little Yu, who has mastered Earth Core Stage, you're just a clown. It seems like Little Yu was a little modest towards him just now. " Dongfang Xuanyu rolled his eyes at Dongfang Xuanxiao, and said sinisterly.

"That's right, and there's even Little Yu and the High Profound Ranked Searing Sun Halberd. Even if Long Chen cultivated for another ten years, he still wouldn't be his match." Dongfang Tianxing also agreed with his mother and laughed.

They spoke sarcastically, but Dongfang Xuanxiao's expression was indifferent, and only looked at Long Chen, not saying a single word.

The Azure Dragon Ancestor saw their tit for tat, and all of this was because of that youngster, Long Chen. He looked at Long Chen, and then looked at Dongfang Xuanxiao.

"Xuan Xiao, it's been eighteen years. Do you really think that you can escape from my eyes with these thoughts of yours?" Azure Dragon Ancestor secretly said this in his heart. No one could hear his words. Even if they heard it, few would know what it meant.

At this time, Long Chen, who was standing shoulder to shoulder with Dongfang Tianyu, had already become the focus of everyone's attention. And the focus of Long Chen's eyes, was indeed something that made him feel throbbing in front of him!

It was a kind of vague feeling, one that made his blood boil. It was as if a wanderer who had left home for many years had returned to his hometown, and when he saw the item in front of him, Long Chen actually had the urge to cry.

He knew that this item would definitely be his. No one could take it away from him.

On top of it, there was a black altar, and in the center of the altar, there was a seven-colored cauldron that seemed to be made out of crystal. This cauldron had three legs and two ears, it was extremely beautiful, but that was not the most important aspect.

This was a halberd that was around two meters long, its entire body was light green, the hilt was made of unknown metal, a trace of dark green flowing around the handle, upon closer inspection, one could see that this halberd hilt was filled with green dragon scales, which were very similar to the ones on Long Chen's body right now.

On the head of the halberd shaft, there was a lifelike dragon head. In the mouth of the dragon, there was a sharp blade with three sharp edges and two sharp blades. It was like a dragon's fang; anyone who looked at it would feel a chill in their heart.

"Such a huge aura, it does not belong to the power of Divine Pill Realm at all. This thing must definitely be a green dragon halberd!" Long Chen thought excitedly.

This halberd in front of him was countless times better than the one in his Cosmic Bag. And most importantly, the austere majesty of the halberd made Long Chen, a mere commoner, have the urge to kneel down in front of it.

Long Chen could deeply feel that this aura, when he was trying to fuse with the inherited blood essence, was actually a dragon!

"Could this green dragon halberd be related to the Ancient Dragon God?" Long Chen was shocked in his heart. He knew that the reason the Lingwu Family was prosperous was entirely because of the Heaven Martial Stage, and more accurately speaking, it was the Star Demon Prison. Ling Xi said that the Heaven Martial Stage was a ruin, and these green dragon halberds and such things must be rushing towards the Heaven Martial Stage!

"Brother Chen, I can feel that there seems to be traces of a weak ancient dragon's soul within this green dragon halberd. Obtaining this green dragon halberd will benefit you greatly, you must do your best!" Seeing this green dragon halberd, Ling Xi was pleasantly surprised. This was a time of nervousness, so she didn't dare say too much and focused her attention on Long Chen.

"Ancient Dragon Soul?" Although he did not know what it was, it had strengthened his resolve to obtain the green dragon halberd.

The two of them walked side by side as they charged towards the green dragon halberd. This scene was quite attractive, but who would obtain the green dragon halberd in the end?

"Long Chen, don't run, let's fight in the end!" Dongfang Tianyu's heart was filled with anger. At this time, he directly punched towards Long Chen!

Because of this, he chose to fight with Long Chen directly!

"Okay, that's what you said, if you try to snatch the green dragon halberd during the battle, you Dongfang Tianyu will be my grandson!" Long Chen dodged Dongfang Tianyu's punch, and said coldly. If the two of them were to fight over the green dragon halberd, with the strength of the green dragon halberd, who knew what kind of trouble Long Chen would cause.

However, Long Chen's words were indeed a bit excessive. Dongfang Tianyu's grandfather was the Azure Dragon Ancestor, wouldn't Long Chen take advantage of Azure Dragon Ancestor's wife when he said that? Although they said it was a bet, it still made Azure Dragon Ancestor's face darken. A few big elders' faces darkened as they shook their heads at each other.

To them, this adopted son of Dongfang Xuanxiao was simply too unbearable.

Long Chen's speed was faster than his, and Dongfang Tianyu was even worried that he would snatch it from him first. But now that he was actually willing to stop and fight with him, he naturally had something he wanted to rely on.

"You merely surpassed me in speed, and yet you wish to defeat me in front of your elders? Long Chen, just die!" In front of the green dragon halberd, the two were preparing for the final battle!

"Don't worry, after going through Star Demon Prison's fifty times gravity training, I will give you a pleasant surprise, Dongfang Tianyu!" Long Chen didn't have the slightest expression of fear, and his eyes shone with an ice-cold light.

"Cut the crap, go to hell!" With that said, Dongfang Tianyu erupted with the large success stage of his Earth Core Stage, and rushed towards Long Chen!

"Today, I shall let you experience the difference between the geniuses of the Inner Race and those of other clans!"

Chapter 207 - Fighting Dongfang Tianyu

Long Chen and Dongfang Tianyu fought tit for tat. From the start of the battle all the way until now, there was still no clear victor, yet right now, they were actually fighting in front of everyone, which aroused the strong interest of the others.

Amongst the two of them, Dongfang Tianyu was an almost invincible existence in the Earth Core Stage. Although Long Chen's expression was extremely shocking, because his strength had not reached the peak of the Earth Core Stage yet, other than Dongfang Xuanxiao, almost no one would think highly of him.

Looking at Dongfang Tianyu who was rushing towards him like a cheetah, Long Chen's expression did not change, in his body, the blood red Zhen Qi was surging, he could burst out and unleash the strongest move at any time!

"Sky Blue Dragon Seal!" In the process of advancing, Dongfang Tianyu quickly received the imprint. A pair of palms instantly turned into a mirage, and with the energy of the faint divine dragon simulacrum howling in his hands, he fiercely slashed towards Long Chen!

Heh!

With an explosive shout, Dongfang Tianyu unleashed the Dragon Seal in his hand, causing a green divine dragon simulacrum to appear out of thin air. It roared and pounced at Long Chen, and this was actually Dongfang Tianyu's seal technique that was filled with True Qi!

"Is this also a seal related to dragons?" "Now, he has surpassed the Yang Family's Taixuan Dragon Seal, but" Long Chen's eyes flashed with a cold light, when the other party was making his move, he kicked off the ground, his entire body turning into a bloody arrow, shooting towards Dongfang Tianyu!

He was now at the small success stage of the Earth Core Stage, and adding on the ten times amplification of the Dragon Soul Transformation, he was almost the same as Dongfang Tianyu in terms of zhenqi. But now they were competing in combat skills, experience, and nerves. There was a huge difference in terms of combat skills that were both High Ranked Profound Ranked combat skills. However, Long Chen had passed down his Spirit Devil Sword Finger s, so they shouldn't be too bad. As for his movement skill, True Dragon Nine Evasion, it was definitely better than what Dongfang Tianyu was using right now.

"It's actually the Dragon Seal, then I will deal with it with the Dragon Seal!"

In the process of advancing, Long Chen astonishingly unleashed her Taixuan Dragon Seal, and instantly, nine blood-colored divine dragons converged together, transforming into a drill, clashing against Dongfang Tianyu's Sky Blue Dragon Seal!

Roar!

The clash of the two divine dragons caused the mausoleum to tremble. The violent energy spread out in all directions, causing everyone's clothes to flutter!

This was their first time clashing, the two of them were retreating, it was just that Long Chen was retreating even more. He staggered a few times and almost fell to the ground!

"Haha!" I already said that Long Chen was not a match for Xiao Yu, so it should have come true right? " Seeing this scene, Dongfang Tianxing laughed complacently, as if everything was under his control.

"No, Xiao Yu is using a middle grade Profound Rank combat skill, and although Long Chen's battle skill is also a kind of Dragon Seal, it is at most a high grade Yellow Rank. To use a high grade Yellow Rank combat skill to defend against Xiao Yu is quite difficult," Beside him, Dongfang Xuanyu revealed a shocked expression, and blankly looked at Long Chen, who was in a sorry state, but was not injured.

Everyone present was wondering the same thing. The moment Long Chen started to fight, he displayed a fighting strength that exceeded his cultivation realm, causing the others to not dare to believe it.

"Although this battle skill is a High Rank Huang, it has already reached the acme of perfection. Furthermore, the degree of compatibility between it and this battle skill is extremely high. It seems like this Long Chen's realm is too low, he is a genius in training battle skills." Azure Dragon Ancestor's clear and cold voice faintly echoed.

"So that's how it is." The others then realised, the Azure Dragon Ancestor did not praise anyone, he said that Long Chen was a genius in training, that meant, in terms of techniques, Long Chen was too heaven defying.

And all of this was thanks to the Mysterious Dragon Jade.

And at this time, Long Chen was once again fighting with Dongfang Tianyu!

"Dongfang Tianyu, it seems like you are only so-so." Long Chen sneered and immediately used the mountain god's leg art and the Burning Heaven Devil Yang Fist, forcing Dongfang Tianyu away and retreating in a sorry state. Long Chen once again proved to everyone that he was completely capable of facing Dongfang Tianyu head on!

"It seems like you really won't cry until you've entered the coffin." Dongfang Tianyu coldly retreated a few steps back, before reaching his hand out towards his Qiankun bag.

"Honestly speaking, you can indeed cause me trouble, but you only have the slightest bit of strength left in me, so there's nothing to be excited about. I'll let you know now, the real Dongfang Tianyu is a realm that you cannot touch!"

As he spoke, Dongfang Tianyu smiled. With a turn of his hand, a long halberd was immediately taken out of his Qiankun bag. This halberd was extremely extraordinary. Its entire body was a fiery-red color, and a fiery radiance circulated around it. The tip of the halberd faintly emitted a fiery light, which was extremely dazzling to the eyes.

"This is a Searing Sun Halberd, it's a high level Profound Ranked Divine Weapon, you kid must have never seen it before right? Searing Sun Halberd, even if I am not as good as that green dragon halberd, it is enough for me to take care of you. "

When he took out the Searing Sun Halberd, Long Chen already knew that this would be another troublesome matter. However, he knew that Dongfang Tianyu had high-grade Profound Rank divine weapons previously, and was now somewhat prepared.

Dongfang Tianyu has this Searing Sun Halberd, which will certainly increase his fighting strength by a lot. If I can control the Sky Wolf Blade the same as the little wolf, then my fighting strength will definitely soar even more!

Thinking about it, Long Chen looked at the green dragon halberd that was not far away, and his eyes burned with passion.

"What are you looking at? The green dragon halberd is mine, and as for you, you should go to hell to find it!" In front of all the elders, Dongfang Tianyu still felt that he was a bit more decisive, thus, without saying a word, he directly brandished his Searing Sun Halberd and charged towards Long Chen!

This was the first time Long Chen had formally fought with an enemy with a weapon. The sharp feeling of the opponent's weapon was as if it was scratching on his body at any moment, causing him to feel a little numb!

Long Chen could feel that Dongfang Tianyu's threat had instantly doubled!

"Die, Searing Sun Halberd, fight everywhere!"

When he used this battle skill, he immediately locked onto Long Chen. The fiery red Searing Sun Halberd immediately split into eight shadows, and rushed towards Long Chen from all directions. They were extremely quick and violent, and every attack was close to the full power of an expert of the large success stage of the Earth Core Stage!

"This is bad!" Facing such an attack, Long Chen was a little depressed in his heart. He had no choice but to reveal his trump card!

"This time, Long Chen is finished." Seeing that Dongfang Tianyu had used his Searing Sun Halberd, and then seeing that Long Chen basically had no way of resisting, everyone sighed. Dongfang Xuanyu and the others were all smiles at Long Chen's misfortune. However, when they saw Long Chen's reaction, their expressions instantly froze.

At this time, Long Chen used the True Dragon Nine Flashes!

"Movement technique? In the face of a fierce battle between four sides, can you dodge eight times?" Dongfang Tianyu increased his strength. Of the eight attacks, not a single one of Long Chen dared to go against them, because he knew that they were simply too strong.

"Who said I can't dodge it eight times?" Long Chen laughed coldly. He suddenly rushed forward, and then, under everyone's shocked gaze, his figure began to change. The appearance of those afterimages, completely turned Dongfang Tianyu's Searing Sun Halberd attack into invisibility!

"True Dragon Nine Flashes? How is this possible? The fifth consecutive flash! " In Dongfang Tianyu's heart, it was filled with shock. His five ring attack had already been completely dodged by Long Chen, and he hadn't even touched a single hair on Long Chen's body!

"No matter how much of a genius you are, you can still use the Nine Flash of the True Dragon? The next three moves that I will use will be enough to take your life! " Thinking about it, Dongfang Tianyu became completely berserk, all of the True Qi in his body erupted out, the Searing Sun Halberd unleashed wave after wave of Qi, sweeping towards Long Chen!

"True Dragon Nine Flashes?" At this moment, the spectators all looked at Dongfang Xuanxiao out of the corner of their eyes. This True Dragon Nine Flashes had to have been passed to Long Chen by him, and in terms of time, it had obviously not passed for very long.

How could he defy the heavens to have such a realm?

"The seventh time!" At this time, Long Chen had already easily dodged seven of the attacking attacks from all sides. He was relaxed, but after using the Searing Sun Halberd, Dongfang Tianyu whose attack power had almost doubled was tragic.

This move of his had all missed, but the thing that was messing up was the praise of the others. This was unintentional praise, but to Dongfang Tianyu, who had heard it, it was a monstrous humiliation!

"Bastard!" I don't believe that you can still escape! Fighting in every direction, dominating the entire world! " This was the last move of the fierce battle in all directions. Immediately, the halberd turned into a mountain and cleaved towards Long Chen!

"This move of Tianyu's, is definitely already the attack power of his Heavenly Core! Long Chen has already used the True Dragon Nine Flashes. I don't believe that he will still be able to dodge it! " In the past, even if Dongfang Xuanyu was looked down upon, Dongfang Xuanyu had no choice but to believe that Long Chen's talent was indeed somewhat monstrous. To be able to cultivate the True Dragon Nine Flashes to the seventh flash in a short amount of time, what realm was that?

At this time, the person who was most shocked was actually Dongfang Xuanxiao. He had cultivated the Nine Dragons Flash, so he naturally knew the difficulty of this battle skill.

"Will he still be able to dodge such a dominating attack?" If an attack that was almost made from Heavenly Core was dodged by Long Chen, it would definitely cause a huge commotion!

When everyone saw the final scene, shock raged in their hearts. Even the Azure Dragon Ancestor was staring intently at Long Chen and Yue Yang! More importantly, it was Long Chen!

The move that came from all directions caused all the hairs on Long Chen's body to stand up. He had to admit that Dongfang Tianyu was strong, but he, Long Chen, was not weak either!

"The wondrous use of movement techniques, when used to the extreme, it's not the slightest bit weaker than an offensive combat skill!" This was what Long Chen was thinking in his heart. At this moment, as he faced that tyrannical move, the movements under his feet expanded once again, turning him into a ball of afterimages! After the seventh flash of the True Dragon's Nine Flashes, it welcomed the eighth move, then the ninth move!

After changing his figure twice in a row, Xiongba finally brushed past his shoulder and that vast attacking power directly caused a huge crater to appear on the ground of Zunling. At that moment, soil flew everywhere and filled everyone's field of vision!

At this moment, all of their expressions changed.

Chapter 208 - Final Victory

"Nine-Nine Flash?" Even Dongfang Xuanyu's mouth was wide open as shock filled his face. Thinking about her mockery of Long Chen, it was like a slap right on her face!

Dongfang Tianxing, who was at the side, was also stunned after hearing what his mother had said.

The rest of the Dongfang family members had previously looked down upon Long Chen. When they saw that Long Chen had actually completely mastered the Nine Flashes of a Dragon and completely

mastered it in just a short month, the shock in their hearts was almost no different from Dongfang Xuanyu's. Even though it was the Azure Dragon Ancestor, his expression was extremely solemn.

"It seems like Xuan Xiao has found a true combat skill genius. Why is this Long Chen so special?"

Compared to the others, Dongfang Xuanxiao's heart was currently filled with pride. Although he knew that Long Chen would give him a pleasant surprise, this surprise was just too great.

There were thousands of things to say in his heart. However, after seeing Long Chen perform the last move and successfully dodge Dongfang Tianyu's Hegemony, he had become completely silent.

However, when he flashed past to dominate the entire world, shocking everyone, how could Long Chen stop creating miracles?

"It's time to determine the victor." Long Chen chanted in his heart. At that moment, when Dongfang Tianyu's Searing Sun Halberd shot up into the air and formed a cloud of dust, Long Chen flashed across the sky, and a sharp ray of starlight suddenly lit up in the middle of his fingers. In just an instant, a bright ray of sword light instantly arrived in front of Dongfang Tianyu, who had just expended a large amount of energy, and had not even recovered from his shock!

"Spirit Devil Sword Finger!"

The Spirit Devil Sword Finger's biggest characteristic was its speed. Just as Long Chen raised his finger, the sword light had already attacked Dongfang Tianyu's body!

"No!"

At this last moment, Dongfang Tianyu could only discard the Searing Sun Halberd in his hands and subconsciously block as the sharp sword light completely exploded the clothes on his sleeves. The Spirit Devil Sword Finger instantly turned into countless of afterimages as it charged into Dongfang Tianyu's body, directly slaughtering his internal structure once again!

Countless of sword slashes instantly appeared on Dongfang Tianyu's body, and after Dongfang Tianyu was forced to retreat by the attack, blood started to gush out from the wounds, making him look extremely sinister, and even tragic!

With a blood-curdling scream, Dongfang Tianyu flew out. Pa! He landed heavily on the ground, causing a cloud of dust to fly into the air! The blood in his body immediately turned into a pool of blood!

Long Chen took Dongfang Tianyu's Searing Sun Halberd and with a twist of his body, the Searing Sun Halberd firmly nailed itself between Dongfang Tianyu's legs, just five centimeters away from the crucial point. Even so, it caused the rest of the Dongfang Family to suck in a breath of cold air!

"If it wasn't for the Dongfang family, I would have pierced your balls." Long Chen thought. At this time, the smoke and dust around him finally dissipated, and the battle had finished. Long Chen had also recovered from his Dragon Soul Transformation.

Not far from his feet, Dongfang Tianyu who was covered in blood had fainted.

This kind of scene, played back in everyone's mind. They realized, no matter how hard they tried, they could not forget about Long Chen's figure in their minds. They could not see the arrogance in his eyes!

He was like a wild wolf, after defeating its prey, it would show off its might to those who wanted to kill it but could not!

"Tianyu lost?" Seeing Dongfang Tianyu like this, and seeing Dongfang Xuanyu who had watched him grow up, his heart felt waves of pain. When she looked into Long Chen's eyes, they were already completely bloodshot.

In today's competition, Dongfang Xuanfeng would be taking charge of the overall situation outside. If he were to see Dongfang Tianyu's current miserable state, the killing intent he would have towards Long Chen would probably not be any less than Dongfang Xuanyu's.

Other than Dongfang Xuanyu, Long Chen saw another person, it was Dongfang Tian Chen. When no one else had moved, he silently walked to Dongfang Tianyu's side and helped him heal his injuries. The crisscrossing sword wounds on Dongfang Tianyu's body were just external injuries, they were very easy to stop, but to recover from the internal organs that were injured by the Sword Qi, it would take a long time.

Long Chen could see a dangerous aura from Dongfang Tian Chen's calm eyes.

Amongst the crowd, the only person who gave Long Chen a warm gaze was Dongfang Xuanxiao. His gaze contained too many emotions, such as praise, pride, warmth, pride, and so on. The fact that Long Chen could complete such a great reversal today was far beyond his expectations.

At this point, everyone had to accept the fact that Long Chen had already defeated Dongfang Tianyu and obtained the qualifications to comprehend the Azure Dragon Battle Method!

This made them feel as if they were dreaming. The Azure Dragon Battle Method, was it actually being comprehended by an outsider?

Although the Inner Race wanted to recruit talented warriors from other clans, but in reality, who would truly admit that a person without the Azure Dragon Bloodline could truly become one of them, and even comprehend the highest level secret scriptures in their clan?

After a short period of silence, everyone finally thought of this question. Dongfang Xuanyu was the first to react, and said in a righteous tone: "Father, there are still a few elders, I think it is very inappropriate to let Long Chen study the Azure Dragon Battle Method, Long Chen is not a true member of my clan, how can he study the highest level secret manual of my clan, if he defends against us, or passes it on to outsiders, what should we do?"

Dongfang Xuanyu's question had hit the nail on the head, so the others also joined in, wanting to change Azure Dragon Ancestor's mind.

"Tianchen, bring Tianyu back to recover first." Azure Dragon Ancestor could not tell what he was thinking, but he spoke indifferently. He would only deal with Long Chen after Dongfang Tian Chen took Dongfang Tianyu away.

At this time, Long Chen and Xuan Xiao stood at the side, while everyone else stood at the side. Dongfang Xuanyun, who had a good relationship with Dongfang Xuanxiao, hesitated for a moment before choosing to stay next to the patriarch.

"Father, you must think about it again, Long Chen is a brat that is ruthless, malicious, and made such a move against Xiao Yu! He injured a member of my clan, and is now qualified to comprehend Azure Dragon Battle Method, I think everyone in my clan would be dissatisfied with this, right?" After Dongfang Xuanyu said this, he almost burst into tears.

"Xuan Xiao, why didn't you say a few words?" Azure Dragon Ancestor did not listen to Dongfang Xuanyu, and looked straight at Dongfang Xuanxiao.

"The rules have already been set, Long Chen has already acknowledged his ancestors and entered the clan. I hope that clan leader can follow the rules, do not listen to the woman's superficial opinions." Dongfang Xuanxiao said indifferently.

"What did you say?" Dongfang Xuanxiao's words were clearly directed at her, causing him to instantly become furious. But she couldn't do anything as all the elders were here so she could only say this coldly: "Xuan Xiao, aren't you going too far with your words? "All these years, I have done my best to contribute greatly to the family. How did you end up with me being a woman?"

Dongfang Xuanxiao curled his lips, completely ignoring her.

Long Chen stood at the side of Dongfang Xuanxiao, observing the situation. After defeating Dongfang Tianyu, he had thought that he had secured victory over the green dragon halberd, but he did not expect the Dongfang Family to cause such a ruckus.

"The situation is not optimistic." Seeing the Dongfang Family being so exclusive, Long Chen was a little worried.

At this time, the few Profound Elders discussed for a while, then came over to the Azure Dragon Ancestor's ear and said: "Big bro, how about we spare the green dragon halberd? We reward Long Chen with an extreme high grade Profound Rank battle skill and a high grade Profound Ranked Divine Weapon. How about it?"

He spoke softly, but in this open space, everyone could hear him.

"There's no hope." After working so hard, he still ended up like this. Long Chen said that he was not angry, that was impossible, but the other party were all extremely strong people. He was just an Earth Core warrior, how could he have the authority to speak?

Even Dongfang Xuanxiao was frowning deeply.

"What are you saying?" Under everyone's anticipating gaze, the Azure Dragon Ancestor suddenly laughed and said: "The Dongfang family is a big family of the Yuanling County, big families naturally follow the rules. If today's words were to spread, would you not be afraid of becoming the laughing stock of the other families? How could the great Dongfang family be so petty? "

When Azure Dragon Ancestor said this, even Long Chen was stunned. What was going on? Long Chen knew, although the words of the Azure Dragon Ancestor were correct, but looking at the intent behind them, they were definitely helping Long Chen.

However, Long Chen was more willing to believe that it was Dongfang Xuanxiao's fault, because when Azure Dragon Ancestor said those words, he only looked at Dongfang Xuanxiao.

"Ancestor, think twice before acting!"

"Don't say too much!" When the Azure Dragon Ancestor scolded him, the rest of the people immediately became submissive and didn't dare to say anything more. Even a few great profound elders didn't dare disobey his order. From this, Long Chen could tell that this huge Dongfang family was actually controlled by the Azure Dragon Ancestor. He was the only Milky Way Realm expert, so it was no wonder that he possessed such might.

"I have made my decision. Now, I declare that the victor of this competition for the green dragon halberd will be Long Chen. He will hold and use the green dragon halberd for ten days, thus gaining the right to comprehend the Azure Dragon Battle Method! Long Chen, come to my side! "

Dongfang Xuanxiao had once told Long Chen that the current master of the green dragon halberd was the Azure Dragon Ancestor. If Long Chen could become the champion, he would condense a thread of his Innate Qi into a seed and plant it in Long Chen's body. With this Innate Qi, Long Chen could hold and use the green dragon halberd for ten days, and during this period of time, the green dragon halberd would treat it as its master.

But now, the Azure Dragon Ancestor wanted to plant a seed of Innate Qi for Long Chen.

Chapter 209 - Ancient Dragon Soul

Long Chen was pleasantly surprised that he could actually obtain a green dragon halberd in this kind of situation. However, he had a bad premonition in his heart. The look in the Azure Dragon Ancestor's eyes

didn't have the care and concern that Dongfang Xuanxiao had. Then why did he ignore the opinions of his family members and give the green dragon halberd to Long Chen?

"He really is a profound old fogey. No one can guess what he's thinking. That's right, the older the wiser. I think this old fogey is quite spicy." After that, Long Chen accepted the seed of Azure Dragon Ancestor's true qi. Carefully, he fused that seed with his true qi, allowing his true qi to carry a trace of the aura of a Azure Dragon Ancestor.

Seeing Long Chen accepting the Zhen Qi Seed, everyone had different emotions. Some were envious, some were depressed, and there was even hatred and unwillingness.

"Child, go and take away what belongs to you. You have ten days in total, after ten days, the green dragon halberd will automatically return here. Whether or not you can comprehend the Azure Dragon Battle Method will depend on your own luck." Azure Dragon Ancestor laughed.

"I will work hard and definitely not let you down!" Long Chen said. In fact, he felt that Azure Dragon Ancestor's smile carried a sense of ill intent.

"What is this old man plotting?" Long Chen was suspicious.

Following that, in the eyes of everyone, Long Chen walked closer and closer to the green dragon halberd, and when he saw the Earth Ranked Divine Weapon, he became excited. This green dragon halberd actually had an ancient incomplete dragon soul as its artifact spirit. It could be seen that it was a very strong existence even among the Earth Stage experts. It had to be known that an ordinary earth-step divine weapon wouldn't have a weapon spirit at all.

The green dragon scales, the hard steel lines, and the sharp tip of the halberd, all gave the green dragon halberd a sense of beauty.

"It would be great if I could turn him into my own. Unfortunately, I only have ten days, so I might as well try to move the green dragon halberd." When he walked to the side of the green dragon halberd, Long Chen didn't hesitate as he reached out his hand towards it. Very quickly, his fingers were about to touch the green dragon halberd.

And at this moment, Long Chen suddenly felt that the green dragon halberd seemed to be letting out a wail, and was trembling a little because it was afraid. Long Chen guessed that the ancient dragon soul amongst them had probably felt the divine dragon's bloodline within Long Chen's body.

In the Ancient Dragon God, the Azure Dragon was one of the lowest ranked dragon, and the inherited blood essence that Long Chen possessed might be the most heaven defying Ancestral Dragon's inherited blood essence.

"Brother Chen, the ancient dragon soul inside the green dragon halberd sensed your existence and was both familiar with you and afraid. Therefore, it is now like a child and has to hide far away. You first take the green dragon halberd, then go back and properly pacify it." Ling Xi's voice came out from Ling Xi's sword and entered her ears.

If it was anyone else, they would definitely suffer the berserk attack of the ancient dragon soul if they touched this green dragon halberd. However, when Long Chen appeared, the ancient dragon soul could only flee in fear.

"Afraid of your father? Is this Ancient Dragon Soul a little girl?" Long Chen laughed and then grabbed the green dragon halberd. In an instant, his entire body shivered, normal weapons would only cause their tentacles to turn cold, but this green dragon halberd was actually a bit warm, as if it was a living being. What Long Chen was holding was not a halberd, but a dragon.

"This ancient dragon soul has already been dead for billions of years, what remains is only a trace of obsession. It took a long time before this inexplicable dragon soul was formed. Brother Chen, take it back into your Cosmos Sack. It will not fight back if it is afraid of you right now." Ling Xi explained.

Whether or not he could put the green dragon halberd into his Cosmos Sack was the first criteria for understanding the green dragon halberd. Therefore, Long Chen first put the green dragon halberd back into his Cosmos Sack, and prepared to study it after returning home.

And today's matter, after Long Chen put away the green dragon halberd, had already come to an end.

"To actually be able to keep the green dragon halberd, this Long Chen can't really be able to comprehend the Azure Dragon Battle Method, right?" One of the Xuan experts said.

"Impossible, in our generation, there are only a few people who have comprehended Azure Dragon Battle Method. In addition, there are Xuan Xiao and Tian Chen, and even geniuses like Xuan Feng and Tian Xuan have yet to comprehend it. How is this Long Chen possible?" Another Xuan Lao said decisively.

"You're right."

At this time, seeing that Long Chen had successfully kept the green dragon halberd, the majority of the people had the same idea.

"You can be proud now. After ten days have passed, you will know what it means to have a go at nothing." If we were to give this chance to Tianyu, it would mean that Tianyu has our Azure Dragon bloodline and would not be rejected by the green dragon halberd. It would even be more likely. " Dongfang Xuanyu now looked at Long Chen with an ice-cold gaze.

"Long Chen, make good use of these ten days." After Azure Dragon Ancestor finished speaking, this time's green dragon halberd battle could be considered to have ended.

"Long Chen, you should train harder. I have once comprehended Azure Dragon Battle Method, and have some experiences that you might not understand, come and ask me." After returning to his residence, Dongfang Xuanxiao explained.

"I'll go back and figure out what's going on. I really don't understand, so I'll go find you. How about it?" Long Chen asked.

"This is great, you have a strong talent for training combat skills. I'm looking forward to your performance." He was very pleased that Long Chen was able to obtain the green dragon halberd after he finished speaking with a smile.

"Ten days, I will first give him eight days of cultivation, and in the remaining two days, I will also complete my final wish. Long Chen, I hope you won't blame me for this, if you don't do this, I will live the rest of my life in regret." At this moment, Dongfang Xuanxiao was actually thinking about such a thing in his heart. If Long Chen were to hear his thoughts, he would definitely not understand.

"Ten days are enough time for me to save Little Wolf, but I need to be very careful this time. Before that, I need to get familiar with the green dragon halberd, don't waste this great opportunity." Long Chen thought.

His and Dongfang Xuanxiao's thoughts were somewhat in line, but what was Dongfang Xuanxiao's plan?

Carrying these thoughts, Dongfang Xuanxiao left the place. Yin Mengyao, who was at the side, impatiently asked: "Xiao Chen, do you have any plans?"

For Long Chen to be able to obtain the green dragon halberd and accomplish her goal of entering the Inner Race, aside from being shocked, he was extremely excited when he thought of how he could save Mo Xiaolang.

"Right now, the only way is this, I will first find an excuse to enter the Star Demon Prison to try it out, then go to Azure Dragon Star alone to save Little Wolf. Little Wolf's strength is at the small success stage of Heavenly Core, but at the entrance of Star Demon Prison, there are four experts at the small success stage of Heavenly Core blocking his path, it's just that if Little Wolf has Sky Wolf Blade s, he will probably be able to escape!"

"Even if he doesn't have a Sky Wolf Blade, it's fine. Little Wolf has learnt a movement technique called Phantom Shadow Steps, which is very fast. He probably can't even see his figure clearly with normal Heavenly Core."

"This is just right. I know those four armored guards, so I don't want to take their lives. After the wolf cub escapes, it will affect my safety. That would be for the best. Sister Meng Yao, is the Phantom God's walk really so mystical? " Long Chen had always had a worry in his heart, and that was after he saved Mo Xiaolang. If people knew that he was the one who saved him, what would he do?

If Long Chen was alone, he could have gone far away, but Yang Lingqing was still in Lingwu Family, and Bai Yang Town's foundation was also here. If he was caught, he could not escape the temple, and would suffer a miserable fate.

However, if it was Yan Honghai and the rest, they did not know who had escaped, so it would be better.

As long as I disguise myself, I can guarantee that the four armored guards will not be able to recognize him. It's just that Long Chen, if Azure Dragon Ancestor were to enter the Azure Dragon Star to investigate, he would naturally know who is missing. Furthermore, with the fact that you are in Star Demon Prison, the person who holds the green dragon halberd, it should be very easy to find him, right? Speaking till here, Yin Mengyao frowned. On one hand, she wanted Mo Xiaolang to regain his freedom, and on the other hand, she didn't want anything to happen to Long Chen.

Being analyzed by Yin Mengyao, Long Chen also felt that the matter was not easy to handle.

"How about we ask our foster father for help? I think our foster father is pretty good to us, when the time comes, as long as he finds an excuse to lure the four armored guards away, wouldn't it be easy for the wolf cub to come out, and he hasn't been discovered?" Yin Mengyao suddenly said.

"Dongfang Xuanxiao?" That was a good idea, but he was a member of the Azure Dragon Family, would he really agree to help, and not berate Long Chen and Long Chen?

Long Chen, you go and comprehend the Azure Dragon Battle Method first, I will think of a solution, if it really comes to it, I can only take the risk and tell my foster father, he has treated us very well, moreover, he is also not on the right path with the rest of the clan, even if he does not agree, he will not stop us, right? Yin Mengyao said.

"That's all we can do for now." With regards to Dongfang Xuanxiao, Long Chen felt that he could indeed give it a try.

After bidding farewell to Yin Mengyao, Long Chen returned to the center of the room. At this time, Ling Xi had already impatiently came out.

"Xiao Xi, how do you think I should deal with the green dragon halberd?" Long Chen knew that Ling Xi had a very strong background and a lot of knowledge.

"If it's someone else, then you have to go against the Ancient Dragon Soul and gain the recognition of the Dragon Soul. That Dongfang Tianxuan and the rest did not comprehend the Azure Dragon Battle Method because they were unable to resist the Dragon Soul with their willpower, but you are different, the Ancient Dragon Soul has already escaped to the deepest part of the green dragon halberd, obviously because it is afraid of you. As long as you try to communicate with it and pacify it, it should be easy for you to succeed. Just like Mo Xiaolang. "

"What?" Long Chen was a little surprised and said: "Ling Xi, are you saying that the old fellow is not the owner of the green dragon halberd?"

"Of course not." Ling Xi creased her cute nose and said: "He doesn't have that ability, but his ancestors once controlled him, and left behind an inheritance, which gave him the qualification to barely use the green dragon halberd."

"In other words, your father has a huge chance?"

Chapter 210 - Understanding the Azure Dragon Battle Method

"Not at all." Ling Xi said.

"If there is only a sliver of a chance, I will work hard. With only ten days, I will first think for a day, and if I can figure out how to leave the house, I can think about the wolf cub in a few days. After all, the green dragon halberd s cannot be stored in my hands for long."

After firmly shutting the door, Long Chen went to the basement where he trained.

Because he was afraid of disturbing Long Chen, Ling Xi had already returned to Ling Xi's sword while he sat cross-legged in the basement. Then he took out the warm green dragon halberd s from his Qiankun bag. Long Chen could carefully observe it this time, the more he observed it, the more he felt that the halberd was perfect.

As he stroked the green dragon's scale and felt the lines, Long Chen actually felt a sense of connection between them.

"Ancient Dragon Soul, how do I get close to it?" In regards to this, Long Chen was not skilled at it. He could only close his eyes, immerse his mind into the green dragon halberd, and use his heart to feel it.

"I should think of the green dragon halberd as a life form." The warmth of his hands also made Long Chen have a feeling, and from then on, he felt like there was a heart beating within the green dragon halberd in his hands. Although it was weak, it was real.

"That should be it." Long Chen was a person who knew how to think. He merely said that he was close to it, but did not give any hints, and Long Chen was just thinking, close to it, and only when it was of the same kind, would it be easy to be close to it. The green dragon halberd seemed to have its own way of thinking, and this was already more or less like a person.

In the beginning, he was blind. When he tried to perceive the green dragon halberd in his hands, it was as if he was in a vast white world with no direction; he did not know where the other party was.

"I need to call him out." Long Chen thought, he couldn't make a real sound, but he could also call out with effort, so it wasn't difficult at all. As Long Chen tried to find it, he also tried to get closer to it using his own origin.

Long Chen felt as if a wave of energy flowed into his eyes, and the vast expanse of white mist in front of his eyes suddenly disappeared. The world was bright and his field of vision was wide open;

This was a huge mountain range. Long Chen could only see a small section of it.

"This isn't a mountain, but the Ancient Dragon Soul." As Long Chen guessed, he started to walk closer. Sure enough, he discovered that this was the ancient dragon body of the incomplete dragon soul. This dragon body was huge, comparable to a mountain range.

"Could a divine dragon from the Ancient Era be this big?" Long Chen's heart was filled with shock.

"I have to find his head before I can communicate with it!" As he thought about it, just as Long Chen was about to take action, he felt as if the earth was shaking and mountains were trembling. The mountainous divine dragon in front of his eyes was swaying its body, and sand and clouds were boiling. Next, a huge dragon head appeared in front of Long Chen.

If he was facing this ancient dragon soul directly, this dragon soul would fight it out with him. But after it was Long Chen, this ancient dragon soul was afraid.

"All of this was due to the Mysterious Dragon Jade." If there were no Dragon Jade, Long Chen might not even be able to find this incomplete ancient dragon soul.

"I also saw it. This Ancient Dragon Soul is extremely weak, but in terms of consciousness, it's stronger than you. Long Chen, try to communicate with it, it's like coaxing a child."

"Lure the children?" Long Chen's face was gloomy, but for the sake of that Azure Dragon Battle Method, he was going all out.

How could he coax them?

This Long Chen really wasn't that good, he could only do his best to look at the cyan dragon head that covered the sky with a kind gaze. It was as if a waterfall of dragon whiskers was about to drown Long Chen out.

From this lowest level Azure Dragon, one could tell how terrifying the era ruled by the dragon was.

"Good girl, come over here. Big brother will give you some sweets." Speaking of children Hong, Long Chen could only say shamelessly.

"Brother Chen, I really can't stand you." Ling Xi rolled his eyes. However, even if this little girl rolled her eyes, she would still look very beautiful.

Just as Ling Xi was thinking of how to help him deal with this ancient dragon soul, that ancient dragon soul suddenly let out a wail. Then, a cyan divine light pierced through the clouds in its huge eyes and directly poured into Long Chen's body.

A lot of information suddenly appeared in Long Chen's mind.

"Azure Dragon Battle Method?" Long Chen was stunned. Ling Xi wanted him to get close to the ancient dragon's soul, but he had not started to get close to it yet. Then the ancient dragon's soul would just directly give him this Azure Dragon Battle Method?

At this time, the ancient dragon soul had gradually dissipated and Long Chen's consciousness had left the green dragon halberd s, returning to the underground room. His expression was still a little dazed.

"Xiao Xi, I've already succeeded?"

"You really don't know how to be shy when you get what you want." Ling Xi covered her mouth and laughed, feeling extremely happy for Long Chen.

"I don't know the reason either. Maybe the ancient dragon soul sensed your Dragon Fighter's aura and took special care of you."

"So that's how it is, that is to say, in less than a quarter of an hour, I have already completed a mission that Dongfang Tianxuan and the others did not complete for the past ten days, and obtained this Azure Dragon Battle Method?" As he silently skimmed through the amount of information in his mind, a look of ecstasy appeared on Long Chen's face.

"How is it? What did you get?" Ling Xi leaned forward, looked at Long Chen with his big eyes, and asked curiously.

"The Azure Dragon Battle Method, including a Superclass. Cultivating this Superclass would allow me to bring green dragon zhen Qi into my zhenqi, making it into the Azure Dragon zhen qi stage. I guess that's the same theory as practicing the Power of Thunderflame, but the green dragon zhen Qi is obviously stronger." This was the first time Long Chen had seen such a battle skill with the Superclass. With the help of the Azure Dragon's true qi, when Long Chen used the Azure Dragon Battle Method, its power would increase by leaps and bounds.

"Just a Superclass?" Then what about the Earth Tier Battle Skills?" Ling Xi said with some anticipation.

"There's no need to rush. The Azure Dragon Battle Method has a total of three moves, and the legendary Earth Tier Battle Skills is the last move, it is included in this. Since I managed to comprehend the Azure Dragon Battle Method so quickly, I will first spend five days to practice the general outline of the Azure Dragon Battle Method and then simultaneously cultivate the first of the three moves, the broken yellow spring!"

"Three moves? The other two moves are?"

"green dragon halberd, broken yellow spring, Azur! Also known as the Earth Tier Battle Skills!"

After making up his mind, Long Chen started to cultivate the Azure Dragon Battle Method. With his exceptional comprehension ability, he could easily cultivate the Superclass. When the newly-created Azure Dragon True Qi met Long Chen, who was originally a Dragon Soul Zhen Qi, it all became the color of blood. From then on, Long Chen also understood that the drop of Inherited Blood was definitely a higher ranked Ancient Dragon God than the Azure Dragon.

"To use the momentum of the heaven and earth to cleave the broken yellow spring with a single strike of the halberd! Even if it's the first two moves, along with the combination of the green dragon halberd and the Azure Dragon's true qi, it's much stronger than my Spirit Devil Sword Finger and can be classified

as a top high grade Profound Rank battle skill. Even if it's an expert from the Heavenly Core, I can still fight! "

Thinking of this, Long Chen was filled with fighting spirit.

"Unfortunately, green dragon halberd eventually have to return it to others." These past few days, he had been communicating with the ancient dragon soul and there were no signs of him recognizing it as master. However, Long Chen was becoming more and more unwilling to part with her green dragon halberd, especially when he used the green dragon halberd s to demonstrate her first move of the broken yellow spring. Its power is definitely not something that the middle grade Profound Rank halberd in his hands can compare to. "

"Are there still any signs of recognizing him as master? With only five days left, Long Chen, when will you be leaving to save Mo Xiaolang?" Ling Xi asked.

Although green dragon halberd s are important, the little wolf only has this one chance to escape. I cannot ignore him because of the green dragon halberd, fine, everything should go according to the flow of time. I'll go look for Sister Meng Yao now to discuss this matter! "

Long Chen had always been a swift and decisive person. At this moment, he acted as he pleased and immediately walked out of the room.

Regarding Mo Xiaolang, Long Chen had actually thought about it before, he had Ling Qing and other concerns in this world, so he could not act rashly without thinking of the consequences. After thinking about it for five days, it made him decide to beg Dongfang Xuanxiao's help.

From the time of the Inner Race selection, foster father helped me so much, especially when Ling Qing supported me. If it wasn't for him, Ling Qing would already be a woman, and he would value me so much. After carefully analyzing Dongfang Xuanxiao's personality, Long Chen felt that this matter was feasible.

These past few days, Yin Mengyao didn't come to disturb him. She went to her room and knocked on the door, only to discover that Yin Mengyao wasn't there.

"I'm in closed-door training. She's worried about the wolf cub's situation, so she should be waiting on the side. Where did she go?" Long Chen was suspicious, he could not delay any longer, so he went out to look for Yin Mengyao. Among the Dongfang family members, there weren't many buildings, but it was

very spacious. Long Chen continuously went to Mystical Cloud Pavilion and the Mysterious Rain Pavilion, but he didn't see Yin Mengyao.

"Where did he go?" Forget it, I'll find someone to ask. "

Long Chen turned again a little, seeing that there were two youths walking over, Long Chen wanted to ask them, but when the two youths saw Long Chen, they acted like mice that had seen mice, and ran away immediately!

"There's a problem!" Long Chen rushed forward and caught one of them in each hand, then said coldly: "Do you know where my Sister Meng Yao is?"

The two youngsters seemed to have their thoughts exposed. They were frightened. One of them spoke out first, "Big Brother Tianxing lured her to the Cloud Ridge Forest. It has nothing to do with me!"
