

War God 2011

Chapter 2011 - Great Emperor Qing Tian

BOOM!

The surrounding flames assaulted his face.

These subterranean flames were especially passionate. To traverse through these flames, one would not be able to do so without a strong physical body and strength. People like Bing Xinyue had to be careful when moving through the flame. Of course, to Long Chen, there was no question at all.

Question.

When he rushed out after being burned by the scorching flames, Long Chen suddenly discovered that his surroundings had cooled down, becoming extremely empty.

Over a hundred people from the Illusory Immortal Clan had come here.

This was a very large space, and it was not a problem for hundreds of thousands of people to squeeze into it. It looked very empty, and even though it was the core of the resplendent star, it wasn't burning hot at all.

This place was undoubtedly dark, but there was something in the darkness that attracted everyone's attention the most. When Long Chen looked downwards, he saw something that looked like an embryo.

The blue embryo emitted a blue fluorescent light, illuminating the entire subterranean space. The blue energy was extremely magnificent, it was extremely beautiful, upon seeing such a beautiful object, everyone was stunned for a moment, then they all sighed.

"The Star Origin is too beautiful."

"This is the source of the entire planet. Back then, when the land in the Immortal God Realm shattered, the star sources gathered the shattered land to form a mysterious planet. If there were no star sources, there wouldn't be a chaotic star field present."

"Yes, Star Origin is the equivalent of our mother."

Seeing this beautiful blue embryo, everyone could not help but reveal a gratified smile. The Star Origin seemed to have countless secrets, but since ancient times, no one had been able to solve these secrets. Everyone only knew that only by fusing with the Star Sand could one enter the Star Origin.

However, a grain of star sand could only last for four hours.

There were already many people around the Star Origin.

"More than thirty chiefs from the Nine Star Alliance have arrived."

After saying that, the Dream King brought the crowd towards the direction of the Star Origin.

In addition to the Heavenly Dragon Star, the Nine Star Alliance was an alliance formed by all the races of the chaotic star field, and only the truly strong clans could join the Nine Star Alliance. For example, the Illusory Immortal Clan was a member of the Nine Star Alliance, and the so-called Alliance Master represented the super high status of the Nine Star Alliance.

For example, the Dream King was one of the Nine Star Alliance's chiefs.

The head of the Golden War God clan and the head of the Nightmare Race were also the chiefs of the Nine Star Alliance.

There were more than a thousand experts gathered below. Some were from the Nine Star Alliance, some were from the Brilliant Stars Country, but not from the three great clans. At least forty of them possessed extremely terrifying strength.

The super planet's experts were all gathered here, this place had at least half of the Nine Star Alliance's power gathered!

Long Chen reckoned that there would be a lot of strong Warriors at the level of the Holy Spirit Realm!

The Illusory King was a super powerhouse of that level.

Here, there were the most core Rankers of the chaotic star field!

With so many strong practitioners gathered together, a young man like Long Chen didn't even dare to breathe loudly.

After all, in the entire chaotic star field, there were only four Star Lords, and all of them were heaven-shaking and earth-shattering figures. If a new Star Lord was born, it would be a huge increase to the strength of the entire Nine Star Alliance.

That was why more than thirty Alliance Masters had come.

Bright stars gave birth to stellar nucleus, this was the luck of the three races, namely the Illusory Immortal Clan and the Golden War God Clan. After fusing with the stellar nucleus, one's strength would increase by leaps and bounds, reaching the Star Lord Realm, which meant that one could reach the sky by leaps and bounds. Back when they came to the Raksha Clan and the Asura God Clan, they weren't that strong ...

He was similar to the Illusory Immortal Clan, but after the birth of the Star Lord, he was now very close to the Chaos royal clan!

The rules of the Nine Star Alliance had long been set. Once stellar nucleus were born, only the local forces would be able to compete with them, so they could only blame the super planet that they were from for not having a stellar nucleus yet.

However, no matter what was said, the Star Lord Battle this time had too many benefits, including the human race and the demon race. Hence, the Nine Star Alliance had placed a lot of importance on it, and almost all of the strong warriors of the chaotic star field were gathered here.

Of course, other than Star of Destiny and Heavenly Dragon Star.

Although it was called the Nine Star Alliance, it was actually none of Star of Destiny's business, and even more so, it was Heavenly Dragon Star's business. The people of these two planets had never bothered with chaotic star field's matters, especially Star of Destiny's extremely mysterious nature.

In the eyes of the countless experts of the Nine Star Alliance, the Illusory Immortal Clan was one of the hosts. As they majestically descended, a group of people came to the side of the Star Origin.

In the direction of the Nine Star Alliance, all of the Alliance Head level characters were sitting on the 'Star Seat'. The 'Star Seat' was condensed from starlight, and only Alliance Head level characters would receive such treatment.

The Illusory King was also one of them, but he was now the target of their envy. He brought the Illusory Immortal Clan and ed in a clear voice, "My friends from the Nine Star Alliance, the Bright Star Illusory Immortal Clan has arrived. They have already made preparations for the war of the Star Lords three days later.

"Ready."

The representatives of the Nine Star Alliance were sent out to talk to the Illusory King.

"Very good, I invite the Illusory King to bring the Illusory Immortal Clan's experts to rest, and bestow upon the Illusory King the 'Starry Sky Throne'!"

The Illusory King brought the Illusory Immortal Clan to the side, and behind him, starlight condensed into a throne. The Illusory King gracefully sat on it, and as its majesty covered the world, it attracted countless looks of envy and jealousy.

No matter what, the Dream King had a very high chance of becoming the Star Lord.

More than thirty Starry Sky Thrones shone on the blue star source. This was a symbol of authority.

Most people didn't even dare to breathe in front of so many experts.

Although their strength was not at the level of the Alliance Master, they still received a lot of attention. After all, the Immortal God Realm was still the domain of the Five Great Clans, and the human Dragon Fighter was renowned throughout the world.

Coming here, they could only be considered aboriginals. If the Five Great Clans were not restraining each other, the chaotic star field would have already been conquered.

Long Chen and the group of young faces were all participants in the tournament. They also received many gazes, especially from Xing Qing, who was famous outside. Whispers rang out everywhere.

Taking advantage of the fact that the Nightmare Race and the Golden War God Clan hadn't arrived yet, the Illusory King and the more than thirty Alliance Masters of the Nine Star Alliance were having a pleasant conversation.

The new Star Lord was almost certain to be born between the head of the Illusory King and the Golden War God Clan — Great Emperor Qing Tian. In terms of combat strength, the two of them were both proficient, but they should be almost the same.

However, the battle for supremacy didn't just compare the strength of the two experts. The battle for supremacy was also going to be the final battle.

He had a total of five points. If one of the races obtains three points in advance, then there would be no need to compete anymore and the next battle would directly produce the Star Lord. If the final result was two different races receiving two different points, then the deciding factor would be the ultimate strongest ...

The battle between the two races that shared the same score. The strongest race was the victor.

In other words, if the Illusory Immortal Clan first got three points, or finally got more than three points, then the Illusory King would directly become the Star Lord, and wouldn't even need to carry out the fifth round's strongest battle.

However, if the Illusory Immortal Clan and the Golden War God Clan obtained two points each, then the final deciding factor would be the strength of the Illusory King or the Great Emperor Qing Tian.

This was the most perfect competition rule set by the Nine Star Alliance.

It was also a game.

Today's first battle between geniuses was actually extremely useful.

At the time of the exchange between the Illusory King and the Nine Star Alliance's Alliance Master, the second team finally arrived. The Illusory Immortal Clan members looked over one after another, only to see countless intense metallic rays shooting from the sky, as well as the dual auras of the sun and moon.

The Golden War God Clan and the Monster race have come.

Clang clang clang!

The gold war god race was a group of iron men. Every time they moved, the steel on their bodies would make an ear-piercing noise. This kind of ear-piercing sound was sometimes also a type of attack.

RUU...!

Hundreds of Golden War Gods descended in front of everyone.

They are basically three to four meters tall, but the stronger they are, the larger their body size will be. They have gorgeous iron as their skin, flesh and bones, and they are made of metal. They are called the Golden Winged Clan, the Golden Wargod Clan, the Golden Winged Clan, the Golden Winged Clan, the Golden Winged Clan, the Golden Winged Clan, and the Golden Winged Clan.

They were innately violent machines, and their steel bodies were incomparably sturdy. Their attainments in the body were far superior to any other race, and they were extremely famous in the chaotic star field, even surpassing the Illusory Immortal Clan.

Over a hundred glinting steel giants stood in the air, letting out intense glints in their eyes. At least in terms of aura, they were far superior to the elegant Illusory Immortal Tribe, just like a group of killing machines. In front of the Nine Star Alliance, they didn't show any sign of weakness.

Still sharp.

Among them, the Haoyue Wolf Tribe and the Moon-Eclipsing Wolf Tribe were hidden in the middle of the Golden War God Tribe.

At the front of the Gold Wargod Clan was a golden-steel man with a body similar to that of a human's. No one could have imagined that this seemingly ordinary, the most lusterless, and the most fragile Gold Wargod Clan was actually the famous Great Emperor Mighty Heavenly!

Emperor Qing Tian's eyes swept across the people of the Illusory Immortal Clan, and everyone felt a bone chilling coldness, along with the gentle and refined aura of the Illusory King. This Emperor Qing

Tian was simply too sharp, he cupped his hands and said to the Nine Star Alliance's Alliance Masters, "Everyone, gold war."

The god race has arrived. "

On the side of the Nine Star Alliance, everyone looked at each other in dismay before announcing, "The Golden War God Clan has been bestowed the Great Emperor of the Heavens, the throne of the starry sky. Three days later, the war for the Star Lord officially begins!"

When Great Emperor Qingtian had just ascended the throne of the starry sky, the weakest of the Nightmare Race had actually arrived. But, the Nightmare Race had never been highly regarded. Their arrival this time had caused a great stir.

Chapter 2012 - Primal Chaos Kunge

The Golden War God clan had just sat down when the Nightmare Race arrived.

The Nightmare Race was also very easy to identify, their bodies were only half a meter long, their torsos and heads were intact, their skin was purplish black, and they looked very smooth. There were a pair of horns on their head, and two tiger teeth in their mouth.

It was adorable, however, and beneath the torso, there were no legs, only a lump of black mist.

The Nightmare Race descended like a nightmare.

His name was Nightmare King, and he could be considered a pair of old rivals with the Illusory King. But in reality, the Nightmare King had always been suppressed by the Illusory King, and it wasn't until the Golden War God clan descended upon the resplendent stars that they succeeded the Nightmare clan.

As the second largest power, it was almost the same as the Illusory Immortal Clan.

Although the Nightmare Race was very famous, there was no way they would cause a stir.

Not every race would be interested in the. For example, the Sea Clan would only stay in the Sea God's Region and rarely came out. In the end, they were able to form an alliance with the Nightmare Race.

The one who became the ally of the Nightmare Race was the strongest race in chaotic star field — — Chaos royal clan!

Although the Chaos royal clan was far from being comparable to the Five Great Clans of the Immortal God Region, in the chaotic star field, other than the Star of Destiny and Heavenly Dragon Star, they were unrivalled super tyrants. They held the role of leaders, and although their overall strength was inferior to the Five Great Clans, they were still in the Primal Chaos.

The imperial family was closer to the resplendent stars, and knew everything about the chaotic star field. Thus, from the beginning, the Illusory Immortal Clan and the Golden War God Clan did not underestimate the Nightmare Race.

The thing that truly shocked everyone was that in the group of the Nightmare Race, there was a young expert from the Chaos royal clan.

His arrival somewhat disrupted the Illusory Immortal Clan's plans. After seeing this young expert, the higher ups of the Illusory Immortal Clan all gathered together, falling into a tense discussion. Even on the side of the Golden War God Clan, their mood seemed to fluctuate greatly.

However, this young ranker's reputation in the chaotic star field was terrifying.

Such a youth, yet he messed up the Illusory King and the others' plans.

Long Chen also curiously looked over, it was a young man from the Chaos royal clan, the Chaos royal clan was similar to the human race, there was basically not much difference, it was just that their skin color was a little silver-grey, their body's strength was also a little strange, full of primal tyrannical power. chaos

The royalty of the chaotic star field were tyrants, their ways of doing things were actually very similar, that was, arrogant, domineering, showing off their abilities. From this young man's disdainful gaze, it could be seen that he was confident in his own strength.

A sinister smile was constantly on his face. Although he was young, he did not cower at all when he looked at the Nine Star Alliance Alliance chiefs. Long Chen had met many opponents, but this one was the most sinister, one that he did not bother to conceal.

Amidst the crowd, he immediately attracted everyone's attention. However, he was fearless and had a relaxed smile on his face, as if he was enjoying the attention.

"That's right, it's the primordial chaos."

Chaos royal clan possessed a strange surname, and their surname was Primal Chaos.

This youngster's name is Primal Chaos Kunlun.

"This youth's cultivation seems to have broken through to the late stage of the Four Symbols tribulation of reincarnation. Compared to all of the participants here, he is on a higher level. Moreover, his bloodline is also very strong, not inferior to a superb divine dragon. So right now, you and Xing Qing are probably not his ...

"Enemy."

Ling Xi softly told Long Chen.

"Oh?"

Long Chen was truly surprised, he never thought that such a powerful warrior would appear in the young generation of the Star Lord Battle. He previously thought that the strongest was at Xing Qing's level, and it seems that it was not as simple as he thought.

The Life Dragon City had obtained victory, now it looked like it was just too mystical ...

After all, in a genius team battle, Long Chen was hard to determine.

Of course, the appearance of this Primal Chaos Quin was also out of the expectations of the Illusory King and the Life Dragon City, so they were caught up in an intense discussion.

Long Chen was secretly listening.

Below four thousand years, there is no one in the entire chaotic star field who has surpassed him. I originally thought that he was only at the early stage of the Four Symbols tribulation of reincarnation.

"Period."

"The reason the Chaos royal clan hid him for such a long time is definitely because of this Star Lord Battle. It's a pity that the strongest young warriors of my Life Dragon City didn't come, and that in the other four Dragon Cities, there is even one Ultimate Dragon that has reached the tribulation of reincarnation of the Five Elements.

"If it is, of course, Kunlun is not a match for him."

"This genius team battle, what should we do?" With Primal Chaos Qun's combat power, even if Xing Qing and Long Chen joined forces, they probably wouldn't be able to resist the Chaos royal clan's Primal Chaos Divine Powers, right? "

One by one, their gazes landed on Long Chen and Xing Qing.

They thought that their victory would be guaranteed with Long Chen, but they never thought that Chaos royal clan would send out even Primal Chaos Qun. This was the so-called number one person in chaotic star field, they never expected that he would actually be at the late stage of the Four Symbols tribulation of reincarnation. With his abilities in the Chaos royal clan

There seemed to be no hope for this genius group battle and the next genius elite battle ...

The Dream King said in a deep voice, "We absolutely cannot let a small Nightmare Race get two points. Xing Qing, Long Chen, can the two of you do it?"

Xing Yue answered in their place: "They can only try their best, our Dragon Fighter is not that weak. Now that the battle is about to begin, we are unable to summon the other young experts from the Five Dragon Cities, and they might not be willing to travel thousands of miles to come here.

With everything we have, we can only rely on the hard work of this young man. "

Hearing this, the mood of everyone from the Illusory Immortal Clan became very heavy.

The ten participants looked at each other in dismay. It was obvious that the arrival of the primal chaos kungwu had given them a lot of pressure. If he let Primal Chaos Qun lead his team and get two points

directly, then the Nightmare Race, who was the most unlikely to win, would become the ones with the greatest chance of winning.

A clan!

The Illusory King had given the position of Star Lord to the Great Emperor Qing Tian, but he wasn't willing to give it to the Nightmare King.

The atmosphere was heavy.

On the other side, Nightmare King and the alliance masters of the Nine Star Alliance were having a pleasant conversation. In fact, within the Nine Star Alliance, the Chaos royal clan had a lot of power and influence, and the Nightmare Race was currently supported by the Nine Star Alliance.

Luo, the Alliance Masters all praised Primal Chaos Quin's innate talent. In less than four thousand years of cultivation, he had actually reached the later stages of the Four Symbols tribulation of reincarnation that were hard to imagine.

The primordial chaos clearly had a chance to become a Deity in the future!

The Four Symbols tribulation of reincarnation was already quite impressive, who knew how many people had died in the cycle of reincarnation along the way.

It's not that I have extraordinary talent, it's just that the chaotic star field is too small and my resources are not as good as the Five Great Clans of the Immortal God Realm. I want to compare with the geniuses of the Five Great Clans today, so today, we have to compare.

"Strength is really nothing!"

chaotic star field was also full of talents. If they could join forces, then their overall strength would definitely not be any weaker than that of the Sorcerer or Sea God's Realm. And yet, Kunlun had directly trampled all of the geniuses beneath his feet.

Then, in the warm atmosphere, Nightmare King sat on the Monarch of the Starry Sky.

Everything was waiting for the appointed time to arrive.

A mere Nightmare Race, because of the relationship with the Primal Chaos Qun, actually stole away the limelight of the Golden War God Clan and the Illusory Immortal Clan.

Over at the Illusory Immortal Clan's side, all the Rankers explained to Long Chen the various aspects of Primal Chaos Quanwu's combat power and abilities, as well as telling them that it was best not to fight with Primal Chaos Quanwu for star sand, and not to fight with him. If they were injured, they could only obtain new star sand.

It's not easy.

Overall, it was to avoid combat.

As for the gold war god race, Great Emperor Qingtian, Wolf Master Haotian and Wolf Master Eclipse, they weren't as enthusiastic.

Mighty Sun Wolf was crawling in the sunlight as he sneered, "The primal chaos kungwu was already expecting this."

The Moon-Eroding Wolf Lord said, "Seeing how nervous the Illusory Immortal Clan is, this time they are definitely going to lose. As for the Nightmare Race, if they want to rely on Chaotic Kun Wu to get two points, they will have to ask our wolf cub for permission."

The Iron Man Great Emperor said, "Let Little Wolf continue to hide for the time being. Let him enter when the war starts and give them a surprise."

"That's true." Eclipse Wolf master chuckled.

Right at this time, that young and vigorous Primal Chaos Kun left the group of the Nightmare Race, walking towards the Illusory Immortal Clan with an evil smile on his face. One must know that there were too many powerhouses in the Illusory Immortal Clan, and any one of them could subdue him, yet he was so fearless and fearless.

Of course, this was also the personality that was common in Chaos royal clan.

In their world, they were the most precious.

Chaotic Kun Wu came to the front of the Illusory Immortal Clan, raising his head to look at the Illusory King, saying, "Illusory King, junior of the Chaos Kunwu, would like to meet Life Dragon City Xing Qing, please allow us pass."

He was obviously not polite when he said this.

Everyone's attention was drawn over, they really wanted to see how the Illusory King would deal with this young and infuriated guy.

Illusory King only smiled, and waved his hand slightly, saying, "We are both youngsters, so let's have a good chat."

Hearing this, the dream immortal warriors standing in front of Xing Qing all spread out, giving him a path. Primal chaos kungwu swaggered to the front of Xing Qing, his eyes filled with aggression, sizing her up. His eyes narrowed into a slit, and said:

"I heard that you are the strongest member of the Illusory Immortal Clan?"

Xing Qing was still as cold as ever, her eyes full of killing intent as she stared at the opponent, not saying a word.

However, Chaotic Kunlun did not place this coldness in his eyes, he smiled and said, "Life Dragon City, you're only so-so, right?"

Chapter 2013 - Wonderful Star Sand

The provocation in this sentence was too much. Furthermore, he was provoking the human Life Dragon City in front of so many people.

In the face of such provocation, Bing Xinyue, who had an impatient personality, couldn't help it. She stood beside Xingqing, and when she saw that everyone was paying attention to her, she was about to start cursing, but Xingqing stopped her. At this moment, everyone looked at her ...

When it landed on her body, she did not feel any pressure, but instead looked at him with eyes as bright as the stars, and said, "I have seen all the truly outstanding people. The reason why they are strong is not because they know how to talk.

Leave us. If you are not convinced, you can perform after entering the Star Origin. No matter how much you brag now, it would still be a lie. "

Hearing that, Primal Chaos Qun started laughing and said, "I was just joking, don't mind beautiful women. As a woman, it's already very difficult for you to have such abilities. I really want to make friends with you. In the future, go to Dragon God Domain and visit the Dragon God.

"The genius of the region."

Xingqing interrupted him and said, "Friend? "Impossible, you don't have the qualifications."

It was true that the primal chaos kungwu was arrogant, but when encountering Xingqing, he couldn't do anything about it. Just like now, his smile was interrupted by Xing Qing's ice-cold words, and it was immediately filled with mockery.

Of course, the one who mocked was a member of the Illusory Immortal Clan.

In the eyes of others, the primordial chaos was quite impressive.

"Alright, then let's meet at the Star Origin."

Chaotic Kun Wu chuckled. He didn't make Xing Qing's cold words awkward. He was still very pleased with himself as he weaved through the crowd with a smug look on his face.

"What a relief!"

Bing Xinyue smiled.

"Now that he's vented his anger, if we anger him, he would probably target us in the Star Origin."

Xing Qing said softly.

Bing Xinyue was confused, "Sister Xinyue, can you really not deal with him?"

Xing Qing muttered to herself for a moment, then looked at Long Chen and said: "We can only count on him."

Bing Xinyue paused and laughed, "Forget about him. It's good enough that he can be of help in a team fight." Furthermore, with the Primal Chaos Kunlun, he will not be able to play any role in the elite battle.

As such discussions continued, time quietly passed. The atmosphere became more and more tense as everyone awaited the arrival of the Hegemonical Star Lord battle!

Long Chen and the others were also cultivating quietly.

Suddenly, someone from the Illusory Immortal Clan said, "Strange, why is there one person missing from the Golden War God Clan's side, it seems like there are only nine people in the team."

"That's right. Are they willing to give up a spot?" "That's impossible. One must know that a single placing may be of great use in the team battle as well. After all, the team battle depends on how many people are left."

Long Chen also looked over, there were only nine people there.

Demonic Beast!

They were the same as Mo Xiaolang, they were also part of the wolf clan, and hearing that these two of the three great noble bloodlines that came from the wolf clan, they would definitely leave very quickly, so Long Chen would definitely run into Haotian within the Star Origin Realm.

They were the opponents of the wolf clan and the crescent moon wolf clan.

"Little Wolf is also on this resplendent star. He must be aware of the war between the Star Lords and should be aware of the Monster race's presence here. He should leave this place. I'll contact him after the war is over."

Now that everyone was watching, it was rather inconvenient.

The people of the Illusory Immortal Clan were still discussing why the Golden War God Clan was missing a person, while Long Chen and Ling Xi were secretly conversing with each other, waiting for the time to come.

"Little Xi, do you think I can give the Illusory Immortal Clan two points?"

Because of the appearance of Chaotic Kunlun, he was rather unconfident.

Ling Xi smiled lightly and said: "Of course you can. Even if you are unable to face the opponent head on, the fact that you have the Time Traversing Dragon would still give him quite a headache."

In that case, Long Chen was a lot more at ease.

In the blink of an eye, three days had passed. As everyone waited anxiously, the first battle of the Star Lord Battle finally began! The surrounding atmosphere was extremely tense. Even the spectators were feeling extremely nervous, because the birth of the Star Lord was closely related to this battle.

Too many benefit chains.

The first battle had a huge impact on morale in the future.

Before entering the starsource, he first needed to fuse with stardust.

Each faction only had ten stardust, and these ten starsand could only let everyone stay in the Star Origin for two hours. Whether they could stay in the Star Origin for a full three days would depend on whether they could stay in the Star Origin for a whole three days.

From the source, he wondered if he could get some star sand.

Star Sand was a mysterious thing. It would randomly appear in the Star Origin and disappear after a long time without a trace. The Star Sand contained a mysterious power that could at least heal injuries, and at the same time, strengthen one's body.

As long as he knew anything about the star origin, Long Chen would be familiar with it.

When their team of ten entered the Star Origin, they would definitely be washed away by the chaotic space in the beginning. When their team of ten entered the Star Origin, they would definitely be washed away by the chaotic space in the beginning.

He was searching for the star sand while avoiding the chaotic space to find another place.

Outside of the Star Origin, the strong warriors could surround the Star Origin and watch most of the battles. Of course, in their eyes, the people who entered the Star Origin would become very small, only the size of a thumb, but this did not affect their view of the sky.

A battle between talents.

After entering the Star Origin, the first mission was to find one's comrades and then fight side by side to find the star sand. After all, there was one more power. This was also the reason why Bing Xinyue decided that Long Chen was unable to play a big role.

Time was almost up, and the Illusory King took out ten pieces of stardust.

Everyone looked over curiously. It was an irregular grain of sand about the size of a soybean, but what was different about it was that the stardust was as bright as the stars, emitting a dazzling light.

It even lightly trembled, looking a little like a miniature star source.

"Each person will receive one grain of star sand and then assimilate it into their own body. You will be able to sustain yourself in the Star Origin for four hours. However, fusing one grain of star sand usually requires a quarter of an hour." In this quarter-hour, you need someone else to protect you. Otherwise, if you are interrupted ...

then the stardust will run out of your bodies and be taken away by others. "

The Illusory King warned again.

These details were all memorized by everyone.

Other than the Illusory Immortal Tribe, the Golden War God Clan and Nightmare Race all began to move.

Everyone drew closer to the star origin. Under the illumination of the blue light, their faces seemed like they were in a dream.

They were still hiding Mo Xiaolang. Of course, Long Chen and the others didn't expect that the Golden War God Clan would be even more cunning, they wouldn't easily show themselves to their opponents, so that their opponents would be prepared.

Under the orders of the Dream King, time was up, and everyone began to fuse with the stardust.

Long Chen placed the blue colored star sand on his palm and covered it with his Nirvana Power. The star sand gradually fused into his body as it was the power of the stars, and when the star sand fused into his body, Long Chen realized that his body was covered with a layer of misty starlight.

He looked much more handsome.

At the same time, there was also a surge of power in the stardust that was being absorbed by him, turning into his own power.

"If I can get more stardust, it might help me reach the later stages of god of tai-su, the stage where I can prepare to reach the Primal Beginning Divine Spirit."

Long Chen thought.

A quarter of an hour quickly passed and everyone had almost successfully fused with the star source. It seemed that someone from the Golden War God's side had already started to enter the star source and it emitted waves of ripples.

On the side of the Illusory Immortal Clan, two more people were fusing. Therefore, everyone was still waiting.

With this kind of competition, there wouldn't be any advantage in going in first, so no one was in a hurry.

Long Chen and Xing Qing stood at the very front.

Xingqing said, "I'll be rid of you next. I can't deal with Primal Chaos. I'm sure you can?"

Long Chen said: "Try to avoid direct confrontation as much as possible."

Towards this battle, the two of them chatted for a while longer, and then Xing Qing went to each of her teammates to have a careful exchange. After entering the Star Origin, the first thing she had to do was to meet up as soon as possible within four hours, and then she could do other things.

At this time, Bing Xinyue came closer to Long Chen, stared at him and asked, "Senior Sister Shiqing, why are you talking so much?"

Seeing her angry look, Long Chen was a little confused. He asked: "Is it related to you?"

Bing Xinyue blushed and said, "Let me tell you, I have a friend who likes her and wants to court her. Don't think about Sister Xingqing, I know she is pretty. You, as a toad, must like her."

If he could fight her, he would think that he had a lot of opportunities to interact with her! Your identity and ours are not the same. We are proud sons of heaven, and you are a traitor to the human race.

She did not dare speak loudly, which could be considered to be a threat to Long Chen.

Long Chen had already tolerated her for a long time, this woman had bitten him to death from the beginning till the end, and was even so baffling. No matter how good Long Chen's temperament was, his expression still instantly turned cold as he asked in a heavy voice, "Can you give me another word?"

Bing Xinyue smiled and said, "Is what I said wrong?" You're a criminal, you better take care of yourself, and don't you have a woman? "I despise this kind of glutton the most."

Pow!

Before she could even finish her words, Long Chen had decisively slapped her face and sent her flying. Bing Xinyue screamed in pain. She flipped in the air and was caught by Xing Qing. However, her white face was swollen and red.

"What's wrong?" Xing Qing glared at Long Chen.

Long Chen waved his hand and said, "This guy only has a dirty mouth. I told her to shut up. Don't waste time, go in. "

Chapter 2014 - Primal Chaos Force

When everyone was about to enter the Star Origin, this slap could be said to be especially resounding. Not only did it let the people from the Illusory Immortal Clan hear it, but even the people from the Nine Star Alliance looked over in curiosity.

She seemed to have received a great humiliation, her eyes revealed a resentful look. Just as she was about to attack Long Chen, Gong Qing came over to stop the commotion, glared at Bing Xinyue fiercely and said sternly: "I warned you, don't cause him any trouble!"

Bing Xinyue's hatred towards Long Chen increased even further. She did not expect Gong Qing to side with Long Chen and said angrily, "Are you sure?! He hit me first!"

Beside Bing Xinyue, the other Dragon Fighters were also furious. Other than Xingqing, everyone else wished they could beat Long Chen up.

"I'm not blind. I didn't see you provoke him time and time again!"

Gong Qing glared at them, his eyes flashing with white lightning. This scared the Young Dragon Fighters and caused them to shut their mouths. At this time, the ten of them had already fused with the star sand.

The Fantasy King spoke out, "We are all partners, and will have to fight side by side in the Star Origin. This time, the battle will be very crucial, and if anyone misses something because of a personal grudge, we can see it clearly. We'd better watch out a bit!"

Although the Illusory King was graceful, it also carried a terrifying might. This time, it was mainly to scare these youngsters, so he used his oppressive aura, silencing everyone.

In the Nine Star Alliance, everyone was laughing.

Who would have thought that the most favored Illusory Immortal Clan from before, not only would be suppressed by Primal Chaos Qun, but before the match even began, their own team would be the first to clash, how could they compete with him?

At this moment, the team from the Golden War God Clan and the Nightmare Race had already entered the star source.

The Star Origin shook.

Xingqing let go of this matter and said, "Everyone, hold hands and do your best. Don't let the turbulent space break apart!"

Upon entering the Star Origin, one would first have to face the chaotic space. The space turbulence was extremely powerful, stabilizing as many people as they could.

As for the others who had lost them, they could only look for them.

Everyone held hands, lined up in a row, amongst which, Xing Qing took the initiative to hold Long Chen's right hand. Long Chen stood at the very end of the line, while the four Illusory Immortal Clan members stood on the other side.

"For the Star Lord, for glory! "Fight, children!"

The Dream King looked excited.

This was an important battle that would change the history of the resplendent stars!

Friends from the human race, became the main force of the Illusory Immortal Clan!

Under Xing Qing's lead, everyone lined up and rushed towards Xing Yuan. In that instant, Long Chen seemed to have fallen into water, his surroundings were a thick and cold liquid, enveloping his entire body and preventing Long Chen and the others from advancing. If it wasn't for them fusing with the star sand, they probably would have been blown away at this time!

The viscous and ice-cold liquid did not obstruct the way of the crowd.

After walking about a hundred meters, they finally entered the Star Origin. The scene in front of them suddenly became very empty. Before they could even react, Xing Qing shouted: "Be careful, the chaotic space is here!"

Without her saying anything, everyone knew.

Long Chen felt as if he had fallen into a vast river. This was not an ordinary river, the terrifying power contained in the chaotic space far surpassed the power of Long Chen's fleshly body, and he almost could not control himself, let alone those people who were falling in the chaotic space.

Rumble rumble rumble!

A loud boom resounded in his ears.

It seemed like someone had already been washed away, and was separated from the group. After the group got shorter, the pressure on Long Chen also became shorter, and he only held onto Xing Qing's somewhat ice-cold hands, which was why Long Chen's strength was the greatest amongst the group, so Xing Qing was basically being pulled by him, and she was also extremely confident in him, as the main point was to pull on the other side of her body, which was Bing Xinyue.

BOOM!

Under the impact of the Chaotic Storm of the Stars, Long Chen suddenly felt the resistance in his hands become lighter. With difficulty, he turned his head to look, only to realize that even Xing Qing could not stop his, causing Bing Xinyue to be swept away by the Chaotic Storm of the Stars.

On one hand, it was based on luck, on the other hand, it was based on strength. Long Chen and the others didn't have very good luck, the turbulence in the sky was rather strong, when Long Chen was flung out, he discovered that there was only Xing Qing by his side.

Before his eyes was a vast and endless void.

There was a large number of fragmentary stars floating in the endless void. This was the inner region of the Star Origin, and it seemed very vast without end. It was also a huge battlefield, with the Star Origin as the starting point for the first battle of the Star Lord Battle, and it was also one of the unique rules of the Nine Star Alliance.

After all, only the chaotic star field had Star Origin.

Long Chen looked at the vast star origin in front of him, and behind him was the endless turbulence of the starry sky.

Xing Qing tidied herself up a little and said helplessly: "It's all my fault. I didn't stop them."

The war for the Star Lord had already begun!

The two of them looked at each other, and Long Chen said: "Go find them first, and also Star Sand. If we don't fuse with a new Star Sand, we will be eliminated."

"Alright!"

He hadn't expected the two of them to act together.

The two of them began to head towards the vast starry sky.

"Xiao Xi."

Once inside the Star Origin, although the people outside could see him, they would definitely not know that Ling Xi was in their divine country, and they could not see him clearly either. Ling Xi activated the

Spirit Touch Formation, allowing the illusionary butterflies to fly into the distance, to find other companions.

Although Long Chen did not have the slightest bit of good will towards them, this was a war of attrition between Star Lords, and was the best opportunity for his reputation to be greatly shaken.

Outside of the Star Origin, everyone was leaning on it, watching the young man inside.

"They've all dispersed."

"The primal chaos kungfu sure is daring enough to move alone!"

"The two young geniuses of the Gold Wargod Clan, Lu Zhan Chen and Lu Zhan Xing are together, and who is that black clothed youth? Although they are of the demon race, they don't seem to be of the Haotian Wolf Tribe or Moon-Erosion Wolf Tribe! "

Even though he was a spectator, he was also very excited when he saw this scene.

There was even less of a need to talk about the three great clans. They were all staring at their own people and many of them were extremely nervous. The war for the Star Lord's position had far too much to do with it.

"The Yellow Dragon is about to meet the Primal Chaos Kung."

Xing Yue frowned and said.

When Long Chen and Xing Qing were together, he was very satisfied, these two were the strongest.

However, the Netherworld King Dragon was the first one to encounter the Chaos royal clan's Primal Chaos Quin.

It just started not long ago.

For a moment, everyone looked over.

In the endless void, the huge Dragon Fighter Huang Long passed through a region of broken stars, moving forward stealthily. While searching for the other members of the Illusory Immortal Clan, he also searched for Star Sand.

"What are you looking for?"

At this moment, a mocking laughter came from behind him.

Huang Long's eyes focused, he turned around and saw that in the middle of the broken stars, a silver-grey colored gas had condensed and formed the appearance of the Primal Chaos Kun. He laughed sinisterly, looked at Huang Long and said: "What a coincidence, meeting me from the beginning, I remember you are the Dragon Fighter right? I have never defeated Dragon Fighter before in my life? Is it finally time to fulfill my wish? "

His opponent was at the late stage of the Four Symbols tribulation of reincarnation!

If it was an ordinary late stage Four Appearances tribulation of reincarnation, Huang Long wouldn't be afraid. He was a super dragon, but the Chaos royal clan's innate talent was especially outstanding, especially this chaotic star field's number one person!

Starlight once said, she was not a match for Chaotic Kunlun!

Thinking of this, Huang Long's first reaction was to escape!

He pretended to be fierce and immediately turned around to flee, charging towards the endless starry sky in front of him, turning into a yellow ray of light.

"You want to run away from me?"

Two silver disks appeared beneath his feet, and under the high-speed rotation, the Primal Chaos Qun's speed was astonishing. In a short moment, a grey swirl of mist appeared in front of the Yellow Dragon, and the Primal Chaos Qun released all of his power and sneered, "I never thought that I would make you leave, I will defeat you, and let you stay by my side for four hours, to let you leave the Star Origin safely. What do you say?"

Huang Long was shocked by his opponent's speed, but he was also arrogant in his heart. After having no way of escaping, he grinded his teeth and snorted: "A mere Chaos royal clan, actually thinks himself to be invincible in this world just because he stands at the top of the chaotic star field?"

"If the Five Dragon Cities was only a trash like you, of course I would be invincible. Resplendent Stars is also the territory of our chaotic star field, so you humans and demons also want to intervene, that's really wishful thinking. On that day, I really want to go and see for myself what ability the so-called Five Dragon Cities has! "

"How dare you provoke the Five Dragon Cities!"

Huang Long was angered to the point that he wanted to explode. He knew that his human form was no match for his opponent. Since he was already entangled, regardless of victory or defeat, he would fight to the end! That way, he wouldn't lose face for Life Dragon City!

BOOM!

Suddenly, there was a fierce dragon roar, a completely blood-red, seemingly a mixture of blood and yellow clouds. However, the head of the divine dragon was pure black, and it emitted the aura of the netherworld, as it stuck its head out from within the blood-red clouds!

"Divine dragon?" The primal chaos kung-fu looked at this enormous creature with contempt and let out a sneer of disdain.

"Just like the demons, they're all big and useless!"

He opened his arms, the Chaos royal clan's attainments in physical body was also very terrifying. They were different from the Golden War God Clan in that the Chaos royal clan trained in the Primal Chaos Force and replenished their physical body with energy, not their physical body.

Chapter 2015 - Stardust Initial

The Primal Chaos Force was the most primitive type of destructive power, it could fuse with any kind of energy and was a mysterious power inherited from the ancient times through the The Age of Dragons.

In terms of destructive power, it was not far from the power of Mo Xiaolang, but the Primal Chaos Force was unleashed using the power of the flesh.

The strength of the Golden War God Clan's flesh was reflected in their toughness, while the strength of the Chaos royal clan's flesh reflected the vastness and the direction of destruction.

Streams of silvery-gray air gradually twined around Primal Chaos Kunlun's body, eventually forming a dense vortex. His body was emitting an ancient aura of power, thick and domineering, as if it came from the most primitive place. This strange force swept through Kunlun's body, making him look even more terrifying than the huge Netherworld King Dragon.

"Phew!"

Primal chaos kungwu raised his head and stared at the Netherwyrms with an aggressive look, revealing an evil smile. The explosive power from his body swept out and even broke through the blood-red clouds of the Netherwyrms!

The battle was about to begin!

This was the first battle, and everyone was watching nervously. Of course, they all knew that although the Netherworld King Dragon was a super dragon and not bad, the difference between it and the Primal Chaos Kunlun was still very big!

BOOM!

In the starry sky, the Netherwyrms and the Primal Chaos Kunlun began their intense battle. Because of the Star Origin, the crowd could not see it clearly, but they roughly understood that the battle between the two of them was basically one-sided.

It was true that the Netherworld King Dragon's eyes were bloodshot, but just from the clash between the two, they had almost knocked the opponent over. Its huge body seemed like tofu in front of the opponent's Primal Chaos Force, and as Primal Chaos Kunwu laughed out loud, he used his fists to suppress the Netherworld Dragon and gave it a good beating!

It was to the extent that the scene was similar to how Long Chen was abusing the Raging Sea Tyrannosaurus Raging Dragon. He grabbed the tail of the dragon and threw it towards the enemy, shattering countless broken stars!

"Kunlun Primal Chaos!" Don't be happy too early, what's there to be proud of in defeating me? You're just a frog in the well, I'll tell you! Our Life Dragon City's strongest warrior can kill you in an instant! Even my Senior Sister Xingqing can only be ranked fifth in Life Dragon City, so even if you can defeat her, what are you worth? Furthermore, our Life Dragon City is ranked the last, do you dare to compare with the Slaughter Dragon City people? The frog in the well! "

"Trash!"

Chaos kung fu kicked him, causing Huang Long to cry out in pain and shut his mouth.

Primal Chaos Kung hated him for saying such words.

He sneered, "Don't worry, I will go to the Immortal God Region and challenge all of your so-called geniuses to step on them. I will prove to you all that I, Primal Chaos Qun, am the strongest in this world. One day, I will become a god and then, my Chaos royal clan will rule the Immortal God Region!"

He said this in Huang Long's ear.

With such wolfish ambition, it was best to restrain it a little. There was no need to let the people outside hear it.

After all, there were humans and demons outside.

Huang Long endured the pain and said with a smile: "Wishful thinking, you frog in the well. Let me tell you, even in our current team, the strongest person is not my senior sister, you defeated him and then say those words!"

This sentence caused Primal Chaos Kun Wu to be shocked.

His gaze turned, and suddenly said: "You're talking about the one who hasn't reached the tribulation of reincarnation yet?"

Huang Long was shocked, he never thought that this Primal Chaos Qun would actually be able to notice him. Seems like Long Chen must be really capable!

On one hand, he didn't like Long Chen, and on the other hand, he hated the Primal Chaos Kun Wu more, so he said, "That's right, it's him! Perhaps you still do not know, but he is the son of the Eternal Dragon Emperor, and his name is Long Chen! "

"Oh." Primal chaos kungwu said. His eyes flickered as he looked into the distance.

"The son of the Eternal Dragon Emperor is truly extraordinary!"

He laughed.

Right at this moment, the Primal Chaos Force on his body erupted, like a cannonball smashing into the body of the Yellow Dragon. The Netherworld King Dragon's scales immediately cracked, instantly injuring himself, dying, his body shrunk, taking human form under Primal Chaos Qun's feet, at this moment, the Yellow Dragon's face was already pale, blood was flowing from the corner of his mouth, this way, he would completely lose his combat strength. If he wanted to snatch the star sand, it would be even more impossible!

"You!"

Huang Long was incomparable rage.

"Rest for now. From now on, in four hours, you will not be able to leave my palms until you leave the Star Origin. The victory of this battle will definitely belong to us Chaos royal clan, and also to the Nightmare Race!"

As he said this, he smiled and said, "Then, shall we look for the Eternal Dragon Emperor's son? Listening to you brag about him being so mysterious, that guy must have some ability. If I defeat him, it will definitely cause your Dragon God Domain's geniuses to be utterly defeated, right? "

Primal Chaos laughed sinisterly.

Outside of the Star Origin, the onlookers naturally couldn't hear their voices, and could only see the result of the battle. The result was that the Netherworld King Dragon was defeated and then controlled by the Primal Chaos Kunlun.

They looked at each other.

"This primordial chaos really is formidable. To be able to reach this level in less than four thousand years, perhaps one really does have a chance of becoming a Deity!"

"Moreover, his opponent is a super divine dragon!"

Many people were praising him. To them, there was no doubt that the primal chaos kungfu was the strongest amongst them. Moreover, it was very possible that he would bring Nightmare Tribe's team to obtain the most crucial points in the first battle.

In the last three matches, the nightmare race only needed to obtain a single point, and that would be the Star Lord!

This possibility put a lot of pressure on the Illusory King and the others. On the other hand, they didn't seem to care about the Golden War God's side, they were even quite confident about it.

Under their watchful eyes, 30 martial artists were wandering around. After two hours had passed, more and more people began to encounter this mysterious star sand. The mysterious star sand seemed to have a mind of its own, cleverly appearing, and every time it appeared, it would shine so that people in the surroundings could feel it.

Once two people want the same star sand, there will be competition!

In a dark area, a teenager dressed in black was walking with two four-meter-tall steel giants. Those two steel giants were famous geniuses of the Golden War God clan, and they were brothers. They were Lu Zhan Chen and Lu Zhan Xing.

Ancient and powerful runes flashed on the shiny steel skin. The two Gold Wargod Clans spoke very little, and so did the teenager.

"Wolf tribe, can you deal with that Primal Chaos Qun?"

One of the gold war god clan members coldly looked into the distance and asked in a mechanical and dry voice.

Mo Xiaolang stopped in his tracks and said: "It should be around the same, but adding the two of you, there's no problem at all."

Hearing this, the two of them felt more at ease.

"It was said that in the previous Star Lord Battle, there would only be three people who could remain in the Star Origin Realm after three days. We just need to ensure that the three of us don't leave the Star Origin Realm. The others will see if they have the ability to do so themselves."

They were very fast and carefully searched for the surrounding stardust.

At the same time, Long Chen and Xing Qing were also shuttling through the star realms.

"Brother Chen, I think there are two enemies there. One is from the Nightmare Race and the other is from the Chaos royal clan."

Ling Xi's Spirit Contact Array was spread out around Long Chen, and was even more sensitive than Long Chen's reaction.

Long Chen said, "Xingqing, there are two opponents. They are from the Nightmare Race, not the Primal Chaos Quin. Do we have to go injure them and cause them to lose the ability to continue on?"

This time, the decision maker was her, Long Chen respected her and asked.

Xing Qing looked at him curiously, feeling that this young man simply had an endless amount of tricks up his sleeves. He even knew who his opponents were.

She was just about to say something when Long Chen's expression suddenly changed. He looked towards the direction of the Nightmare Clan's group, when suddenly, a flash of starlight shot out explosively from there, turning into an attack.

"Star Sand!"

He didn't expect that star sand would actually appear between the two teams.

Long Chen did not want to touch them initially, but now, when the star sand appeared, they would definitely go and snatch it as well. The two of them did not speak anymore and directly rushed over.

Chapter 2016 - Three Heads, Six Arms

"The stardust has appeared, beside the girl called Xing Qing in Life Dragon City."

Other than the Star Origin, everyone else immediately turned to look at Xing Qing and Long Chen. This was the first time that Star Sand had appeared, and more importantly, it had appeared beside the two groups of people.

They heaved a sigh of relief when they realised that Long Chen and Xing Qing were not a match for Primal Chaos Qun. It had already been two hours, and they were guessing that there would be star sand everywhere now. It all depended on their strength and luck to find out who would be able to obtain star sand and successfully fuse it.

"There is no suspense for these two grains of stardust."

The Illusory King and the others all had their own thoughts.

But for others, they had just noticed Long Chen, who was a rather unfamiliar face. They were puzzled for a moment, who was this guy?

Of course, and Primal Chaos Quintus were the ones who hid their trump cards first. Long Chen's appearance also seemed to be a secret, but no matter how they looked at it, they could not find out that had the ability of Primal Chaos Quin.

And at this time, Mo Xiaolang also didn't attract too much attention.

After all, he hadn't shown his strength yet.

A fight was about to erupt!

Long Chen and Xing Qing transformed into two beams of light and instantly rushed to the front of the group of star sand. They and the group of Nightmare Clan members were very close to the star sand, but their speed was even faster, so they were about to snatch it away.

"Who is this kid?" How could he be so fast? "

Everyone could see that Long Chen's speed was not slower than Xing Qing's. It seemed that the other Dragon Fighters did not have this kind of ability.

Although everyone was puzzled, they didn't rush to ask the Illusory King, otherwise they might have missed out on something interesting.

Long Chen had already seen the two pieces of star sand. Compared to the ones that had been fused with the outside, the star sand now was much brighter, like a living thing shining in the starry sky, while the small star sand was incomparably dazzling.

In the distance, two powerful experts were charging over!

One of them was from the Nightmare Race, the other was from the Chaos royal clan!

Long Chen laughed coldly, he instantly increased his speed and grabbed one of the star sand before Xing Qing could react, at the same time, he also threw the other star sand in the direction of Xing Qing. When the two of them grabbed hold of the star sand, and placed it into a jade bottle they prepared beforehand, and hung it around their waists, the Nightmare Race and Chaos royal clan were only able to reach a distance of thirty meters before them.

In Long Chen's eyes, the Nightmare Race had the same kind of appearance. Their eyes were dark and unassuming, with a pair of huge and evil eyes staring at the two of them, while Chaos royal clan's face was filled with unwillingness.

Xingqing calmly looked at them and said, "Xingsha, we've taken it away. If you want to fight, come up!"

The two of them naturally knew of Xingqing's name.

The Nightmare Race still had some respect for him, but that Chaos royal clan had a ruthless temperament. With a roar, he charged towards Xing Qing.

With the eruption of the Primal Chaos Force, the Chaos royal clan was like a beast. With every move of his, the Chaos royal clan had the power to move mountains and fill the seas!

As for the Nightmare Race members, they had originally wanted to work together to deal with Xing Qing, but when they remembered that Long Chen also had a star in his hand, his thoughts shifted to Long Chen.

"Brother, please hold on for a moment. I will snatch this star sand and immediately come to help you!"

He never thought that his first opponent would be a little thing like the Nightmare Race. Of course Long Chen would not underestimate them, it was rumored that the Nightmare Race's method of training in nightmares could invade the opponent's mental world, causing one to hallucinate, and then cause one to die a violent death. This was a terrifying method!

"Die!"

The Nightmare Race sneered as they charged forward.

In the blink of an eye, the black tide completely engulfed Long Chen and the surroundings became pitch-black. Countless amounts of black mist turned into tentacles that burrowed into Long Chen's body.

But he knew that this was an illusion.

The most powerful confusion he had ever seen came from the god of tai-su. Long Chen had nearly died that time, and luckily, his Eternal Protection Heart had awoken him in the end. Although this Nightmare Race was powerful, compared to the god of tai-su, they were too far behind.

Until today, Long Chen still could not figure out what the Taiji God and god of tai-su were.

He did not even know how terrifying the Primal Beginning God would be.

But at least the Nightmare Race could do nothing to him.

Long Chen seemed to be immersed in his dreams, unable to control his own body at all. Disaster continued to befall him, causing him to crumble and cry, but Long Chen coldly watched as everything happened. He understood that the attack of the Nightmare Race, to ordinary people, was undoubtedly terrifying, because everyone would have nightmares, and the Nightmare Race could make nightmares seem like reality.

Outside of the Star Origin, everyone could see that the Chaos royal clan was not Xing Qing's match. He was forced back by the galactic sacred sword, but Long Chen was stopped by the Nightmare Race.

"If Xing Qing doesn't turn around and save this boy then she'll be driven mad by the Nightmare Race."

Many people had the same thought in their hearts.

Many of the people present had tasted the power of the Nightmare Race.

When one reached the deepest level on the path of nightmares, it was comparable to reality. As for the current Nightmare Race, they could only cause Long Chen's mind to collapse and turn him into a fool. This did not affect the rules of the Star Lord Battle, as long as they did not kill anyone, they were fine.

The Illusory King and the others looked at him very seriously.

After all, Long Chen was the son of the Eternal Dragon Emperor.

In reality, the other side had never been successful in their invasion.

Just as the Nightmare Race was brimming with pride and thought that they had succeeded, Long Chen's wooden face suddenly revealed a cold smile.

The Nightmare Race was shocked. Under great shock, the nightmare he created disappeared completely in front of Long Chen's eyes.

Whoosh!

Right at this moment, Long Chen suddenly traveled over ten meters and stood by the side of the Nightmare Race. He opened his palm and grabbed onto the head of the Nightmare Race, and under the great shock of the Nightmare Race, they frantically struggled, but it was like a toy in Long Chen's hands. It looked extremely comical, and the changes caused the people who were nervous for Long Chen to be completely stupefied.

"Since when did the Nightmare Race become so useless?"

Everyone present didn't know whether to laugh or cry. In front of Long Chen, the Nightmare Race didn't have any power to resist at all, and in terms of physical body, even the Primal Chaos Mink and Golden War Clan were no match for him. The Nightmare Race's physical body was weak, so after being controlled by Long Chen, he could only pick at them.

"Let me go, I'm warning you, let me go!"

The Nightmare Race panicked. However, they couldn't help but pretend to be angry.

He did not even have the qualifications to compete for star sand. Without saying anymore, he grabbed the Nightmare Race and swung high into the air, and then, with his own strength, he gave them an explosive kick, and with Long Chen's explosive physical strength, the Nightmare Race was like a ball, disappearing from Long Chen's sight. Along the way, he left behind his miserable screams.

Long Chen had a sense of propriety and would not kill the other party. However, the Nightmare Race could only obediently stay there, waiting for the energy of Star Sand to disappear.

Their companion's fire speed defeat and Xing Qing's powerful attack made the Chaos royal clan smell of defeat, but the Chaos royal clan was born fierce, they thought they were noble, they revered honor, and the power of honor made them unwilling to retreat!

The furious Chaos royal clan, under the powerful attack of Xing Qing, finally displayed the sacred art that was most famous in the Chaos royal clan!

Those people who were still shocked at Long Chen's power were immediately attracted by the Chaos royal clan's ability.

Chaos royal clan had awakened this sacred art from the moment he entered the tribulation of reincarnation.

Once they used this ability, their combat strength would soar to the heavens!

This was a sacred art from the The Age of Dragons. Compared to the Primal Chaos Force, this sacred art was the symbol of the Chaos royal clan.

From one person to three!

At this very moment, his Chaos royal clan was under the attack of Xing Qing and he quickly retreated before freezing in midair. His eyes were filled with incomparable fury as he yelled, "Primal Chaos Limitless! "Three Heads, Six Arms!"

Weng! *

The Primal Chaos Force swept out, forming a silver gray cocoon that surrounded him.

More and more forces rushed out, forming a gigantic silver gray vortex, rushing towards the surroundings, forcing Xing Qing and Long Chen to move away.

BOOM!

In a short moment, the large silver-gray cocoon exploded and a Chaos royal clan with a miraculous structure appeared in front of Long Chen. The one facing Long Chen was still that furious Chaos royal clan from before!

However, his body underwent a great change. This change started with his torso, which allowed him to grow six arms and three heads from three different directions!

If they had six more legs, then it would be almost three people.

Of course, he only had two legs, which proved that he was still alone.

This was the Chaos royal clan's unique ability.

The human face in front of him had a furious expression.

The left side of his face had a sad expression as he cried.

The right side of the face had a joyful expression as it laughed heartily.

As for the six arms, they were actually equipped with three types of Dao artifacts.

Rumor has it that the Chaos royal clan's Three Heads, Six Arms Technique came from the time of the Divine Dragon, and it was passed down as the most precious treasure in the Chaos royal clan.

After using the Three Heads, Six Arms, their combat strength would immediately increase to two to three times their original strength. It was as if they had one or two helpers that were equivalent to their own bodies!

This miraculous ability caused Long Chen to be stupefied.

To be honest, this kind of sacred art could already be compared with the Ancestral Dragon Art.

After all, it was something that had been passed down from the The Age of Dragons to this day.

Anger, sadness, joy.

Three kinds of emotional energy rushed over.

Chapter 2017 - Golden War God

He was Xing Qing's opponent, Long Chen only needed to watch the match.

However, he had to be shocked at the astonishing fighting strength of the Chaos royal clan. After activating the Three Heads, Six Arms, and Three Heads, it was as if Xing Qing was facing three opponents, dealing with three different types of Dao artifacts at the same time. Chaos royal clan, who was initially considered as middle ranked among the thirty people in terms of strength, had instantly become an opponent strong enough to fight against Xing Qing!

"Three Heads, Six Arms!"

Outside of the Star Origin, most people's eyes were already focused here.

To the majority of the people, they were afraid of the Chaos royal clan's three heads and six arms sacred art.

Xing Qing had no choice but to deal with it seriously. With a wave of the galactic sacred sword in her hand, a starry sky appeared, its own starry sky, the techniques of the 3000 Astral Soul Dragons were unleashed at this moment, with hundreds of stars shining above their heads, connecting onto Xing Qing's body. At this moment, Xing Qing had turned into the goddess of the starry sky, and under her use, the planets turned into sword Qi, falling down from the sky!

"Stars shine!"

Initially, Long Chen had relied on the Killing Sword Technique to get rid of the opponent's sword technique.

Although Chaos royal clan had become much stronger, he still wasn't able to block Xing Qing's Astral Soul Sword Art. He roared and rushed towards Xing Qing, causing the countless sword qi on the countless terrifying planets to quickly retreat. Even if he had three heads and six arms, allowing him to unleash all three types of Dao weapons, he was still defeated by Xing Qing's Astral Soul Sword Art!

The starry sky shook!

Chaos royal clan was forced to retreat step by step, while Xing Qing was in hot pursuit, she had used her Astral Soul Sword Art to remove three of his Dao artifacts. Her sharp Astral Soul had pierced into his body, destroying his defenses unrestrainedly, but she had her limits, at least she would not let him die, but it would at least cause him to lose his ability to fight!

Crash! *

The two of them separated.

Xing Qing held the Star River Holy Sword in her hand, her eyes glinting with a cold light.

Her opponent was Chaos royal clan, her entire body was pale white, her entire body was drenched in blood, but she was also on the verge of death, but this Chaos royal clan was extremely arrogant and ruthless, even if he lost, he was not afraid, but using a vicious gaze to look at Xing Qing, he gritted his teeth and said: "Even if you defeat me, so what, our boss is definitely looking for you, before long, you will all end up worse than me! The future name of this resplendent star was Nightmare Star, not Fantasy Star! Chaotic Kunlun, he will get two points. In front of him, you guys are even worse than dog shit! Life Dragon City? Dragon Fighter? "Is it really that powerful?"

They seemed to be completely confident in the primordial chaos.

After he finished speaking, the Chaos royal clan snorted and turned to leave. He had already lost his fighting strength, and basically, it was not possible for him to find star sand in less than two hours. When the time was up, they would be expelled by the Star Origin, so in the eyes of Long Chen and the other person, he had no value.

Xing Qing looked towards Long Chen and said: "Primal Chaos Qun's ambition is really big, we should quickly find the others and talk about it first, so as to not let him handle it."

Long Chen nodded.

The two of them resumed their journey, but unfortunately, this endless space was really too big, and finding their own people here was extremely difficult. In fact, it was not easy to encounter enemies and star sand, and the time spent on the first star sand became less and less, until finally, they met two women from the Illusory Immortal Clan.

In addition to Xiao Hong Chen, there was also a man and two women. After the two women were blown away by the space turbulence, they weren't far from each other, but they were very far from each other. In this hour and a half, they had not met any enemies, nor had they met any friends of their own.

This could be considered lucky, but also unfortunate, because there were only an hour left. They still did not have any stardust, which meant that they would be leaving in an hour.

No matter what, it was a good thing that they could find him.

Xing Qing conversed with them for a while and said: "Let's go, we will search for the star sand together."
"The team battle is a final battle for the final number of people. Everyone needs to persevere as much as possible."

"Alright."

The two beautiful dreamy immortal girls nodded their heads. Previously, they had been quite nervous, after all, there was a terrifying expert like Kunwu in the primal chaos. If they were to encounter him, they wouldn't even be able to escape.

The four of them moved together.

Long Chen concentrated on using the Spirit Touch Array with Ling Xi to look for the others. This was relatively easy, but this star field was simply too big and the structure was strange. Sometimes, Long Chen would keep walking forward, but in the end, he would still return to his original place.

Seeing that the hour was getting shorter, and the first batch of people were about to be eliminated from the Star Origin, Xing Qing also became nervous. Usually, the number of people eliminated for the first time would be the highest. Next up, when there were fewer people, it would appear as if there would be more star sand.

Time quietly passed. The people from the Star Origin roughly knew who had the star sand and who didn't, but they were more nervous.

"Look, the team of Xingqing is heading that way!"

"Here, two of the Illusory Immortals are fighting a three-man team from the Golden War God Clan!"

"The two pieces of star sand have already been taken by the gold war god."

The frequent battles had attracted their attention, especially the people from the three great clans. They were extremely nervous about the birth of the Star Lord.

At this time, Long Chen already felt it.

"In that direction, Xiao Hong Chen and the others are over there, as well as the warriors from the Haotian Wolf Clan, Moon-Eroding Wolf Clan, and the Golden War God Clan."

Xing Qing and the two young girls from the Illusory Fairy Clan looked over in surprise. They naturally believed in Long Chen, because at this time, Long Chen had already charged over.

"Follow me!"

They were naturally very excited to meet their teammates again.

Amongst the four of them, Long Chen was the fastest, followed closely by Xing Qing, followed closely by two young ladies of the Illusory Immortal Clan. The Illusory Immortal Clan had a total of ten people, and if they combined with Xiao Hong Chen and the other two, then they would be separated from the six Dragon Fighter.

Swish swish!

The fight over this side once again attracted the attention of everyone.

At this point of time, Long Chen's reputation was not really worth it.

"It's this Dragon Fighter again? "His senses seem to be very sharp, and his speed actually surpasses Xing Qing's."

More than thirty alliance chiefs of the Nine Star Alliance, three great clans, and the captains of various races of the resplendent planet all shifted their gazes to this location. More than thirty alliance chiefs of the Nine Star Alliance, three great clans, and the captains of the various races of the resplendent planet all shifted their gazes to this place.

Almost everyone was watching.

This time, Long Chen also entered the eyes of many people, and everyone started to ask about the identity of the Illusory King.

This was also Long Chen's goal.

What he wanted was to become famous!

Bang!

Very quickly, he saw that in the space in front of him, Xiao Hong Chen and the other Illusory Immortal Clan martial artist were being attacked by two huge beings. The Illusory Immortal Clan was the same as the Nightmare Clan, they weren't good at close combat, and the opponents had three people.

The two of them were on the verge of rebirth.

The two pieces of stardust that appeared earlier were luckily obtained by Xiao Hong Chen, but at this time, a team from the Golden War God Clan appeared, and three of them at that. The three of them stopped them, and two of them surrounded and attacked Xiao Hong Chen, quickly trapping him and stealing the stardust from him.

In front of Long Chen's eyes, one of the golden Divine Wolves was bathing in the sun's light, the other silver Divine Wolf was surrounding him with a silver moon, and the last one who had a body similar to the Goblin Tribe was a Golden War Clan member. That man was made entirely out of steel, his entire body was cast in steel, his bronze body was filled with wildness, and when he moved, there was a sharp metallic sound.

Under the bombardment of their three powerful opponents, Xiao Hong Chen was forced to retreat step by step, while the other man from the Illusory Immortal Clan was already injured.

BOOM!

A dark hole appeared on the chest of the Golden War God Tribe. Dark red energy gathered and a golden rune flashed. When the energy continued to reach its limit, a power similar to a sacred art shot out and formed a destructive pillar of light that shot towards Xiao Hong Chen!

Xiao Hong Chen was good at illusion techniques, but he wasn't good at resisting. If it wasn't for the Haotian Wolves holding him back, he could have used illusion techniques to divert the Golden War God Clan's attention, but he couldn't do it now. He immediately revealed a look of despair, it seems like his journey of genius team battles is really coming to an end, this is related to the birth of the Star Lord.

The other Illusory Immortal Clan member was still fighting with the Moon-Devouring Wolf tribe, but he was previously injured, and now he was in danger of reborn!

Just as they were about to attack Xiao Hong Chen, suddenly, a blood mist rushed over and blocked in front of Xiao Hong Chen. The blood mist instantly expanded and Divine Dragon Body moved, the moment the power of the Golden War God Tribe struck the blood mist, it was actually killed by the blood mist and was blown back into the air!

Whoosh!

At this time, Xing Qing, along with two young ladies from the Illusory Immortal Clan, also appeared.

The scene that was originally 2v3, suddenly became 6 v3. The Illusory Immortal Clan had the absolute advantage, the Golden War God Clan's team already got the star sand, now seeing that the enemy has a lot of people and also has the existence of Xing Qing, the three of them immediately shouted and started to retreat!

"You want to leave?" Xing Qing sneered, and then rushed towards the Eclipse Wolf tribe who was closest to her.

Long Chen had already transformed into a Divine Dragon, so he naturally would not let his opponent slip away for nothing. He moved his body, and in the blink of an eye, he blocked the two opponents from the Haotian Wolf Clan and the Golden War God Clan.

Chapter 2018 - Reputation to the World

"What kind of divine dragon is this?"

For a moment, everyone was very curious.

The method Long Chen used to block the Golden War God Clan showed that his physical body was without a doubt extremely strong. With such a strong physical body, everyone's eyes were immediately focused on him alone.

In fact, Long Chen had even used his own strength to block two opponents.

From the looks of it, he was going to fight one on two.

Xiao Hong Chen and the other three Illusory Immortal Clan members originally wanted to help Long Chen, but Long Chen suddenly said to them, "All of you, stand guard around them. Don't let them escape.

His tone was so arrogant that the four people from the Illusory Immortal Clan found it hard to adapt.

However, when they thought about the rumors of him defeating Xing Qing, as well as the fact that Xiao Hong Chen and the other Illusory Immortal Clan members needed time to recuperate, they quickly nodded their heads.

The Yue Yu Lang Clan was under the greatest pressure, because she had to deal with Xing Qing alone, so her chances of success were very low. However, the other two people were actually a little stunned, they had never heard of Long Chen and did not want to be concerned about him, but he actually said that he was going to deal with the two of them?

"We only have two stardust, we can just break out of the encirclement!"

The Haotian wolf clan said to the Golden War God clan.

The Golden War God clan nodded coldly.

The Haotian Wolf clan, the Golden War God clan and Long Chen were all colossal beings in the starry sky!

Time waited for no one, they had to finish off their opponent before the four hours were up. In that instant, a battle had occurred between the three of them, the Golden War God Clan was the main attacker with their gigantic steel bodies, and the Haotian Wolf Clan was the main attacker with the power of the blazing sun!

The Primordial Blood Spirit Dragon, with its powerful body, fought against the Golden War God Clan. Long Chen had once fought against the metal Octopus s, which were very similar to the Octopus s, they were tough and tough, metal covered their entire bodies, their bodies could be comparable to Dao

artifacts with multiple patterns. However, Long Chen, who had experienced the baptism of Tai Su, was able to fight against him without any pressure!

"Eternal!"

The first thing Long Chen did was to charge forward and forever stop his opponent in that split-second. Although it was just a split-second of pause, the Golden War God Clan's plan was already disrupted. Long Chen's vast and mighty divine dragon body shot towards his opponent, and in front of everyone's shocked and shocked eyes, that bloody draconic tail instantly turned into a blood sword, filled with ancient slaughter runes.

"Heavenly Slaughter Blood Sword!"

That sky-upholding sword swept down right in front of the Golden War God's eyes. Just as he broke free from his restraints and had no chance of resisting, the Heaven Slaughter Blood Sword hacked down on his chest!

"The so-called divine dragon, can it break through my Golden War God clan's iron body?"

The eyes of the gold war god tribe were filled with disdain. Ever since they were young, they have never lost to anyone in close combat. They were very confident in their own toughness, so even though the Heaven Slaughter Blood Sword was terrifying, they were not afraid!

At this time, the divine dragon swung its tail and the Heaven Slaughter Blood Sword viciously smashed into his chest. An incomparably sharp sound of grinding steel immediately erupted. Sparks burst out, and a massive amount of sparks flew into the air!

BOOM!

An explosion occurred on the chest of the Gold Winged Clan, and an enormous hole was torn open where they were slashed by the Heaven Slaughter Blood Sword. The Gold Winged Clan did not have any blood, but the hole was broken, making it look quite tragic!

underestimating Long Chen, had never had a good ending.

Golden War God clan was basically defeated in one move!

He looked at Long Chen in shock. To be honest, although the Golden War God Clan was not the strongest genius in their clan, they could still be ranked in the top four. How could they be settled so easily? This completely showed that in terms of fighting strength, Long Chen was at least on the same level as Xing Qing!

"Who is this young man?"

Many people couldn't help but ask the Illusory King.

After all, the expression that Long Chen had displayed was truly astonishing.

It could be said that with one move, Long Chen made the opponent lose his fighting strength. Xiao Hong Chen cleverly rushed over and snatched away the golden war god race's star sand, while at the same time, he also took control of the Golden War God Clan. After being heavily injured, the Golden War God Clan's body reassembled, a large amount of steel retracted, and in the end, it returned back to its original 4m tall state.

On his chest, there was still a huge wound. At this moment, it was still making sizzling sounds, making him feel extremely painful.

His mind was still blank. Even now, he still could not believe that this was reality.

The steel body that he was so proud of had been broken by his opponent in a single move!

At this time, Long Chen had already begun his battle with the Haotian Wolf Clan!

Those who were about to ask the Dream King, were attracted by Long Chen's battle.

The battle between Long Chen and the Clear Sun Wolf Tribe was also extremely fierce. The Haoyue Wolf Clan had unleashed the ability of Sun's Fall, but it was still broken by Long Chen, and the Haotian Wolf Clan was also quickly defeated by Long Chen, their speed of defeat was almost the same as the Golden War God Clan. When the Haoyue Wolf Clan was defeated, everyone realized that Xing Qing had not dealt with her opponent yet.

Between Long Chen and Xing Qing, it was still clear who was stronger.

Xing Qing saw that Long Chen had defeated two of his opponents and used her Three Thousand Clones, causing his opponents to lose their fighting capabilities in a short amount of time. All three people in the Golden War God Clan team all landed in Long Chen's hands, Long Chen and the rest turned into their human forms and surrounded them.

The one the three of them were most afraid of was Long Chen.

Although they were severely injured and Star Sand was taken away by Long Chen and the rest, they were still pressed together, looking at Long Chen vigilantly.

Their vicious gazes made Long Chen think of the Chaos royal clan that he had beaten before. He laughed: "Did all of you want to tell me not to be happy too early?"

The three of them looked at each other, their hearts filled with doubts. They had already kept that mysterious wolf tribe a secret, could it be that Long Chen knew of his existence in advance?

The gold war god said, "The Illusory Immortal Clan indeed has no chance. Even if you appear, you won't be able to turn the situation around. This battle is destined to be a contest between Kunlun and us!"

Long Chen laughed coldly, "At least send the three of you out of the Star Origin. I think this will be a huge blow to the Gold Wargod Clan too!"

The other party remained unyielding and noncommittal.

Long Chen did not have the time to spout nonsense with them, he rushed forward and greeted them once more. Four hours of time were almost up, it was simply impossible for them to find new star sand at this time.

After all, there were only six people, and they only had four pieces of stardust.

What he did not know was that there had already been chaos outside over his matter.

When Long Chen easily defeated the Haoyue Wolf tribe with his powerful strength, everyone was completely able to confirm that his combat power had still surpassed Xing Qing's, and that someone had

noticed that his cultivation level did not seem to have reached the tribulation of reincarnation yet. In an instant, all of the people from the Nine Star Alliance, and the people from the Brilliant Star Academy, were all discussing about Long Chen.

Most people were asking the Illusory King what was going on with this youth called Long Chen.

Under this kind of pressure, the Illusory King could no longer hide it, and said, "This person is a member of the human Dragon Fighter. We are not sure what kind of divine dragon's inherited blood he received, but he has an extremely special identity, and that is — the son of the Eternal Dragon Emperor!"

This heavyweight news undoubtedly stunned everyone.

Even if it were someone from the chaotic star field, the reputation of the Eternal Dragon Emperor was like a thunderclap to them. At that time, the first person to ever exist in this world, and later on, he mutinied against the Dragon God Domain, and then died mysteriously, causing people to feel regret. The name of this peerless expert had just disappeared, and everyone had just forgotten about his existence.

"I seem to have heard that he killed the human genius Di Yu in the God Battlefield, so he could be counted as betraying the human race?"

Someone spread the news.

At this time, the people from the Life Dragon City had no choice but to come forward.

Gong Qing took a few steps forward and said: "Everyone, this so-called betrayal is only a part of the thinking, he is still a member of the Dragon Fighter, and is also a member of our human race. Although he has done some wrong things, it doesn't mean much, and allowing him to participate in the Star Lord Battle today is also an opportunity for him to return to the human race."

Everyone understood.

But very quickly, someone asked again, "This youth hasn't even reached the tribulation of reincarnation yet, how can he have such combat strength? How can the son of the Eternal Dragon Emperor be so heaven defying? There had never been such an existence in all of history. Could it be that the inherited

blood essence of this son of the Eternal Dragon Emperor even surpassed that of the Ultimate Dragon? I said, Unparalleled Dragon. "

Everyone was clear what kind of concept Unparalleled Dragon was, if it was really like that, then Long Chen's position would be extremely high. If it wasn't about the matter of the Eternal Dragon Emperor, then if he really was a Unparalleled Dragon, then he would definitely be treated as a treasure by humans, a treasure even more precious than Di Yu.

Gong Qing had already known from the start that he could not hide anything regarding Long Chen.

He wanted to let the Dragon God Domain find out about the situation through this incident and make Long Chen's name famous.

He said, "Regarding the Unparalleled Dragon, we are unable to confirm anything. However, it should at least be a Ultimate Dragon. Of course, even Unparalleled Dragon would not be able to make him display such fighting strength at this time. We think that it's very likely that the Eternal Dragon Emperor did something to him back then, allowing him to have such abilities.

Everyone nodded their heads.

Someone said, "Does this mean that one day, this little guy will be able to shake the world?"

The others corrected him, "Wrong. In today's battle, if his reputation were to spread out, his name would shake the world."

Just as everyone was paying attention to Long Chen's identity, suddenly, someone discovered that just as Long Chen and the others were preparing to fuse with the star sand, that Primal Chaos Quin was actually heading towards them ...

Chapter 2019 - Genius battle

"Primal Chaos Kunlun!"

Outside of the Star Origin, everyone quieted down as they revealed an expression full of interest. The climax of the Star Lord Battle had actually arrived just like that!

"There's nothing we can do. There are only four pieces of stardust. We won't be able to obtain them in a short period of time. We need to hurry and fuse them."

Xing Qing said in a deep voice.

The two women from the Illusory Immortal Clan looked at each other, and said, "In the team battle, we have the least use, so let's leave first."

Xiao Hong Chen and the others looked at each other, thinking that there was no problem.

"Don't worry, we will definitely persevere, and get a point for the Illusory Immortal Clan."

Xing Qing said calmly.

With her words, the two women felt even more at ease.

"You four fuse with star sand first, we two sisters will act as your protectors."

At this time, because there was only a quarter of an hour until the fourth hour, almost everyone who had obtained the stardust sat down and began to fuse with it. Those who had not yet done so were all confident in themselves.

Long Chen held onto the star sand, and suddenly said: "The three of you go ahead, I'll come back when you guys have finished. "With so many of us gathered together, if someone were to come at this time, it would be easy for them to take advantage of us."

They looked at each other and nodded.

"Be careful!"

After that, she and the other two people started to fuse with new star sand, while Long Chen and the other two people who did not have star sand stood to the side to guard.

"Protect the three of them."

Long Chen warned them once again, and then, he was dozens of steps away from them. He then allowed Ling Xi to inspect her surroundings using the spirit array.

They only needed roughly fifteen minutes of time to fuse with each other. After fifteen minutes, they could replace him.

But at this time, he felt that something was wrong. This sense of danger was just too great. He didn't even need to touch the Spiritual Array to realize that there was danger coming from that direction. Moreover, this wasn't an ordinary danger!

"Chaotic space?"

Generally speaking, there would also be random space turbulence here, sweeping people away.

It was as if only chaotic space could give rise to such a sense of danger.

But Long Chen didn't think so. It was a feeling that made his hair stand on end!

"It's an expert!"

When he realized this, Xing Qing and the others had only merged with him for a short while, so interrupting him at this time would basically be a waste of effort. He hurriedly said to the two Illusory Immortal women behind him, "Before you leave the Star Origin, protect them. An enemy is coming!"

After saying that, he rushed towards the direction of the incoming crisis like lightning!

In the eyes of the crowd outside the Star Origin, Long Chen was heading straight for the Primal Chaos Quin!

The number one genius of chaotic star field!

Long Chen had already known that he would meet him eventually, but he didn't expect that it would be at this time!

When Long Chen abandoned Xing Qing and the others and rushed towards the Primal Chaos Qun, everyone outside the star source knew that he was trying to make it so that the Primal Chaos Qun would not notice him and allow them to fuse with the star sand in peace.

This bit of courage and bravery was already quite impressive.

He crashed towards the Primal Chaos Qun like a comet. At the place where they met, the Primal Chaos Qun could only see Long Chen, while Xing Qing and the others were still quite a distance behind him. If the battle had not reached there, it was likely that the Primal Chaos Qun would not have noticed them.

This was Long Chen's way of thinking.

If a group of people were to encounter him, then there was no other way to reduce their losses other than defeating him. But if he were to meet him, to be honest, because of the Time Traversing Dragon, there was nothing Primal Chaos could do about him!

Hearing Long Chen's reminder, of course, only one person came to Xing Qing and the others, but of course, they couldn't be sure who it was. The two of you, the Illusory Immortal Clan, immediately hid everyone inside using your illusions after hearing Long Chen's words.

Xing Qing and the others didn't give up on fusing, but sped up the process!

When Long Chen and Primal Chaos Qun suddenly met up, the people outside the star origin realm had actually already placed all their focus on them. They were very curious as to what would happen when these two strong young warriors met.

In terms of combat strength, Primal Chaos Qun should not be a match for anyone. He was already a level stronger than Xing Qing, and with the addition of abilities like Three Heads, Six Arms, and so on, his battle prowess rose explosively, even to the point of being able to fight someone from the tribulation of reincarnation of the Five Elements!

Although Long Chen was a little stronger than Xing Qing, he was still not on the same level as Chaotic Kunlun!

Passing through a stretch of broken stars, Long Chen indeed saw that Primal Chaos Kunlun.

In his hand was a young man, the Underworld King Dragon of the Life Dragon City.

Suddenly seeing Long Chen, his eyes lit up, and laughed: "It's actually you, such a coincidence?"

Long Chen fearlessly said: "I also feel that it's a coincidence. Four hours are almost up, why aren't you fusing with the star sand?"

Long Chen saw that although this guy was alone, he had at least collected three pieces of star sand.

Primal chaos kungfu laughed arrogantly, "What are you so anxious about? Don't we still have fifteen minutes? Those guys are definitely fusing with the star sand at this time. I was just about to deal with them, but I didn't expect to meet you here, why don't you fuse with the star sand? "

never thought that he would have such a thought, it was truly sinister. To make a move at this time, as long as he met someone, with his Primal Chaos Qun's power, he would be able to easily snatch away their star sand. At the same time that he obtained his star sand, he would also be able to chase them out of the Star Origin.

Long Chen said: "Of course my thoughts are the same as yours!"

"Oh, are we from the same sect?"

He was unbridled and fearless, the Netherworld King Dragon trembling in his hands.

Outside of the Star Origin, the people of the Illusory Immortal Clan were especially nervous. Their biggest reliance was Long Chen, and right now, Long Chen was most likely going to meet the same fate as the Netherworld King Dragon.

On the Nightmare Race side, they were already laughing loudly.

They naturally knew that the Fantasy Immortal Clan had suffered a great loss this time. If it weren't for Long Chen's quick thinking to block the Primal Chaos Qun at the distance, even Xing Qing's star sand would probably have been snatched away, before being chased out of the star source.

However, Long Chen was much calmer than they thought.

He looked at Huang Long, and said, "He is obviously about to be chased out of the Star Origin. There is no need to make things difficult for him." Our Dragon Fighter is not someone you can offend. "

"Oh? I'm so sorry. "

Chaotic Kun Wu was slightly surprised, then he laughed. He picked up Huang Long and laughed, "You are right, I have already found the person I want. It is useless even if I want you. Get lost! "

With that, he threw Huang Long out. At this moment, Huang Long was heavily injured and on the verge of death, so he could only drift about in space, waiting to be chased out of Star Origin. However, this was much better than being controlled by Primal Chaos Kunlun.

The yellow dragon gradually disappeared from his sight.

Long Chen did not have a deep relationship with him, and was too lazy to save him. On the other hand, Huang Long was extremely grateful for his actions this time, if not for Long Chen, he would probably still be tortured for another fifteen minutes.

At this time, Primal Chaos Kun stared at Long Chen and laughed: "That means you are the strongest Genius dragon martial artist? You are the son of the Eternal Dragon Emperor? the son of that world-shaking figure? "

Huang Long should have told him about this.

Long Chen did not deny it, he understood that when this quarter of an hour was about to pass, Primal Chaos Qun would also have to fuse with star sand. He would have to hold on for a little longer to ensure that Xing Qing and the rest would succeed, and in such a short period of time, no matter how strong he was, he wouldn't be able to do anything to himself.

Seeing Long Chen not saying a word, Chaotic Kunlun laughed coldly: "Are you afraid of me? You are actually the son of the legendary being, and in Dragon God Domain, you are definitely the strongest youth. In that case, I would like to take a good look at you and see what kind of abilities Dragon Fighter has. "

Chaos royal clan!

Long Chen did not say anymore. He had the passion from battle, and it made him boil in excitement, the stronger the opponent, the more they could stimulate his fighting spirit. Honestly speaking, in this genius battle, it seemed like only Chaotic Kunlun had the qualifications to be his opponent!

"The number one genius of chaotic star field?"

Long Chen's mouth revealed a cold smile. He took out the God Slaying Sword, and the aura of slaughter was completely displayed.

This courage caused everyone to cheer.

Chapter 2020 - Hun Yuan's Spear

There was nothing that could stop his hot-bloodedness and determination to fight against experts!

Previously, when he was fighting with Raging Ocean Tyrannosaurus, Xing Qing and the others, he was actually not Long Chen's match. In this battle, Long Chen was basically crushing them, so in this long period of time, he had not met an opponent that could give him such a huge pressure!

In truth, in chaotic star field, the fame of the Primal Chaos Qun was far greater than Long Chen could imagine. This was also the reason why the Illusory King and the others stirred up such a disturbance when they saw the Primal Chaos Qun appear and reaching the late stages of the Four Symbols tribulation of reincarnation.

There was no need to doubt his strength!

Seeing that Long Chen actually dared to fight with him, Primal Chaos Kunlun suddenly laughed. Since young, he had always been arrogant, and every time he fought, he would take the initiative to attack other people. However, other people did not even have the strength to fight back in front of him.

Although he still felt disdain in his heart, he still needed to prove himself! From what he knew, there were many people who had played up the power of the Five Great Clans before him, and the terror of the Five Dragon Cities. He was not convinced!

Therefore, Long Chen was also instigating his strong battle intent!

The two sides clashed!

"Dragon Fighter, you will see that in front of my Chaos royal clan, you are all trash!"

His ambition was to lead the Chaos royal clan to complete control of the Nine Star Alliance and occupy the chaotic star field. He was not willing to let the Five Great Races live in such a good place in the Immortal God Realm, he had sworn that when he was very young, one day, he would become a peerless expert and become a god! He would definitely conquer the Immortal God Realm and turn it into the world of the Chaos royal clan!

"Our Chaos royal clan's history is even more distant than the Five Great Clans. Why must we live on this small planet of the chaotic star field, while the Five Great Clans can be divided into the Immortal God Region!"

When he was very young, he had been gnashing his teeth, releasing his desire and ambition to swallow the entire Five Great Clans. He had also displayed a peerless talent, at least since he was young.

The arrival of the world-famous Dragon Fighter had made his heart tremble!

That man from the five clans actually came to divide their chaotic star field's territory. This was simply challenging the limits of Primal Chaos Qun's heart, he hated all the warriors of all humans and demons from the bottom of his heart!

Primal chaos energy!

"The son of the Eternal Dragon Emperor?"

He could not help but sneer. He still did not know about Long Chen, and had even thought that Long Chen was extremely popular among the human race, so at this moment, he was thinking that after defeating Long Chen, he, Primal Chaos Kuangwu, could make the entire Dragon God Domain realize that he had left!

The desire in his heart ignited his entire body as a whirlpool enveloped him.

BOOM!

He raised his fists, and a terrifying fist aura condensed on his fists. That was the primordial chaos from ancient times!

The primal chaos kungwu before him had a destructive aura! His eyes stared straight at Long Chen, a sinister look flashing past his eyes!

Weng! *

Kunlun activated his speed and shot out!

"So fast!"

Long Chen indeed felt that the other party was stronger than him in every aspect, especially in terms of strength.

Right now, he definitely did not have any methods to win. In other words, even when Long Chen used all his strength, he could not defeat his opponent!

Fortunately, he only needed to tremble.

In the boundless universe, there were countless strong warriors and monstrous geniuses everywhere. Long Chen was never arrogant and complacent, when Primal Chaos Qun attacked him, he was actually already prepared!

He had long since honed himself to the point of familiarity with the Killing sword technique. As he casually performed it, the sword qi instantly swept out in all directions. Countless death sword qi condensed into a torrential river, surging towards the Primal Chaos Qun!

"Bastard!"

He gathered his primal chaos energy and punched out. Immediately, a wave of immense power broke through the Sword Qi and rushed towards Long Chen!

That wave of power, was even more terrifying than the majority of the huge beasts. That was the primal chaos energy, his destruction almost caused the slaughter sword qi to crumble!

This battle made all the warriors outside of Star Origin very worried, especially the Illusory King. Although Long Chen had not been defeated, the Illusory King and the others had basically given up.

"I can only pray that he can hold on for a little longer. When the time comes, Primal Chaos Qun will have to merge with the star sand and the battle will stop."

While they were discussing, Long Chen's battle with the other side gradually escalated. Although the Primal Chaos Qun was violent, Long Chen knew his limits, and he basically did not fight the other side directly. It was as if the other side was chasing after him and beating him.

If he fought head on, the opponent's primal chaos energy was too tyrannical, he definitely wouldn't be able to hold on for long!

But he did not attack, at least so far, in front of his increasingly powerful Killing Sword Technique, although Primal Chaos Qun was stronger than him by a level, he could not do anything about it. From the difference between the two of them, Long Chen's performance already caused him to be greatly shocked.

"He sure is capable. He's much stronger than that stupid dragon from before!"

Primal Chaos Qun sneered.

Long Chen did not say anything more. Instead, he took advantage of the moment when Primal Chaos Qun was speaking to force his opponent back with his God-Slaying Sword. The slaughter sword qi

soared to the sky, and as the sword qi shot out, the surrounding fragmentary stars were completely shattered by Long Chen's attack!

"If I lack some power, then I can play with this guy once I pass the God of Great Beginning trial. If I go any further, I should be able to deal with him by the end of my base level."

But at the moment, Long Chen was still lacking in that aspect.

Of course, this was not a big difference. With Long Chen's current abilities, dealing with the Primal Beginning Divine Spirit was just a huge hurdle. As for reaching the late stages of this realm, it should be easy.

He was very clear that this time, as long as he stopped his opponent, he would be able to truly defeat them. After all, during the elite battle, almost everyone believed that Primal Chaos Qun had already won, but Long Chen believed that since he participated in the Star Lord Battle, his goal was to get two points for the Illusory Immortal Clan, that way he would be able to become famous in Dragon God Domain!

When Primal Chaos Qun realized that he was unable to handle Long Chen with just his punches and kicks, he became anxious and anger started appearing between his brows!

Whoa!

With a crisp sound, the silver grey light condensed into an ancient long spear in front of Kunlun. This spear looked very ancient and dilapidated, even full of rust. It was covered with cracks and looked as though it was about to break, but upon closer inspection, one could see that these cracks were actually Dao patterns!

That Dao Artifact that looked like it was about to die exploded with a power that shook heaven and earth in the hands of the Primal Chaos Qun. That power was the same as the Primal Chaos Force!

"Hun Yuan Spear"! "301 Dao Symbols!"

The primal chaos energy in Kunwu's body exploded out, as if he was a peerless god of war!

Long Chen smiled faintly, and said indifferently: "Who cares about you, in four hours time, it's not even half a quarter of an hour yet. If you don't fuse with star sand, the two of us will have to leave the Star Origin.

He was sure of that.

What Long Chen said was not without reason, but what he hated most was that he actually did not defeat Long Chen even after spending such a long time!

"Take my attack! Hun Yuan's Qi!"

After a moment of hesitation, he was still unwilling to give up. Now that he had rushed over and infused his Primal Chaos Force into the 'Hun Yuan Spear', his fighting strength was actually extremely close to the Yaksha King who wielded the halberd!

As if a terrifying demon was engulfing everything in its path, the heaven and earth were in the other party's control. The strength of the 'Hun Yuan Spear' was so strong that it was terrifying, at the very least, he had completely suppressed the two hundred lines of the God Slaying Sword!

"Who wants to fight you?"

Long Chen sneered. Even though he wanted to fight to the death with the other party, not now was the time, so when the other party took out the 'Hun Yuan's Spear', he had pretty much made a decision.

Time Traversing Dragon!

He rushed into the river of time, and completely disappeared before the eyes of Primal Chaos.

When Long Chen disappeared, not only was Primal Chaos Kun completely stunned, everyone else outside the star origin was also completely stunned. They were indeed very strong. If Long Chen entered the river of time before their eyes, he might not be able to hide it from their eyes. However, they were currently in the Star Origin.

Therefore, no one was able to discover traces of Long Chen.

To just disappear into thin air like that, it could only be described as miraculous.

Everyone looked at each other in dismay. The 30 plus chiefs of the Nine Star Alliance were all experts of the Six Paths of Reincarnation or higher. There were even a lot of experts who possessed the power of seven stars of the Divine Realm.

"This seems to be the power of time. I remember that the Eternal Dragon Emperor would also use the power of time, but it's obvious that this child's inherited blood essence is from the Slaughter Divine Dragon. What's going on?"

Suddenly, most of the people's gazes turned towards the Life Dragon City.

Xing Yue actually didn't understand. He shook his head and said, "We don't know the specifics, but throughout history, no one has been able to accept the inherited blood essence of two kinds of Divine Dragons. The new and flourishing inherited blood essence will expel the old. But the Divine Dragon Legacy is not everything about the Dragon Fighter, I think he must still have a path to walk in cultivation time! "

Hearing this, the crowd finally understood.

"However, it is truly surprising that this child is able to survive in the hands of a proud son of heaven like Kunlun."

"To tell the truth, it seems that Chaotic Kunlun was unable to do anything to him. In our chaotic star field, the young generation under the age of four thousand should be invincible. "

It was because of Primal Chaos Kun Wu's power that they felt that Long Chen was not bad!
