

War God 2061

Chapter 2061 - The God of Taishang

This was not Long Chen's own strength.

Everyone's gaze fell on Long Chen's slap. They watched as the slap landed on Lin Ming's face, as though it was a slap on their face. Almost everyone's heart was cold and filled with fear for Long Chen. In the past, he only thought that the other party was a genius. However, the so-called genius didn't possess the power of a master before he became a supreme expert. Yet, it was different now ...

The strange descent of the Eternal Dragon Emperor and the appearance of a hundred thousand divine dragons gave Long Chen the strongest backing he could muster. From today onwards, he would inevitably become one of the scariest figures in the world.

BOOM!

This slap landed on Lin Ming's face while he was struggling to beg for mercy.

Time seemed to stop at this moment.

Long Chen was a very fair person, whatever others brought him, he would give them back. He didn't know how much power was in his right hand, so he didn't care about that.

The result was that under the power of the Eternal Dragon Emperor, Lin Ming was not able to survive.

A terrifying Ranker from the human Five Dragon Cities was turned into powder before Long Chen's eyes and dissipated into the starry sky under the influence of the Eternal Dragon Emperor. What they remembered most was Lin Ming's expression at the last moment, which was filled with regret and pain.

But he had no chance to regret it.

It was not Long Chen who wanted to kill him, in the end it was Long Qinglan who killed him. Long Chen could only make a decision, but could not control the power of his right hand.

When the second slap hit Lin Ming, the strength attached to his right hand disappeared.

In that instant, the surroundings were completely silent.

Everyone was staring at this youth in shock. They all knew that this youth possessed the power to dominate the masses.

"Long Chen!"

Gong Qing and the others retreated a few steps.

They all knew that if Long Chen had gone back to the Dragon God Domain in the past, just for the sake of his father's name, then he would no longer have to return to the Dragon God Domain when Long Qinglan appeared again.

Then, he had nothing to worry about.

In the starry sky, there was silence.

Fantasy King and the others were covered in cold sweat, their hearts were tormented, they wanted to escape, but they did not have the guts to do so.

But he was thinking too much, Long Chen simply did not care about him at all. What he cared about the most right now was this man who had brought one hundred thousand divine dragons, who exactly was he? 'Is he really my father? Is it just that my father isn't dead? '

Eternal Dragon Emperor, Yang You, the two Star Lord level black-and-white elderly men and the hundred thousand divine dragons were all looking at Long Chen. Right at this moment, when everyone was incomparably quiet, those hundred thousand divine dragons, other than Long Qinglan, and even Yang You, all half-knelt on the ground and said in a loud and clear voice, "Your subordinates pay their respects to the young master!"

"Young Lord!"

The last word reverberated through the entire starry sky, causing a loud rumble. It was so loud that it nearly deafened everyone. A hundred thousand Dragon Fighter were half-kneeling on the ground.

The crowd had already guessed at this scene, but now that they saw it, they were still incomparably shocked.

Under their kowtows, Long Chen's status instantly grew to the extent where even the Illusory King had to look up to him. From today onwards, Long Chen would not be just a simple genius, he would become a super great figure whose might would shake the Immortal God Realm!

Long Chen was equally shocked, his gaze swept past countless Dragon Fighter who were kneeling, and landed on the only standing Long Qinglan. That man's pair of cold eyes were still fixated on him, and no one knew what he was thinking about.

At this moment, the scene froze in Long Chen's mind.

"Young master?"

He never thought that such a moment would appear. No matter who this man was, these hundred thousand Dragon Fighter should be Long Qinglan's subordinates. Long Chen thought back to how he had heard of the bunch of exiled Dragon Fighter from Heavenly Dragon Star.

"Let them get up."

The man finally spoke, he was extremely familiar, it was Long Qinglan's voice.

This was exactly the kind of sound Long Chen was waiting for after experiencing such a heavy ordeal.

"Please rise, please rise!"

Long Chen reacted and said quickly.

His eyes were filled with tears as he looked at the man. Was this really Long Qinglan? If he had revealed a smile to her, Long Chen would have recognized him, but he did not. This was the only doubt in Long Chen's mind, if not, he would have already rushed over.

At this time, under Long Chen's call, a hundred thousand Dragon Fighters stood up. Amongst them, Yang You raised a hand, and led a hundred thousand Dragon Fighters to retreat, but at this time, a tyrannical and irresistible force pulled Long Chen towards Long Qinglan's direction. In the blink of an eye, Long Chen was already standing a hundred meters away from Long Qinglan.

The two of them were surrounded by hundreds of thousands of clan experts and hundred thousand Dragon Fighters. Everyone was watching them. Long Chen suppressed the excitement in his heart. He knew that the time for the decryption was right around the corner, and he would quickly find out whether or not he was Long Qinglan.

Perhaps Yang You and the others already knew.

Long Qinglan's face was cold, without saying a word, he started to revolve around Long Chen.

The crowd was as silent as cicadas, not daring to move an inch.

"Who are you?" Long Chen was shocked by his strange actions.

In the end, Long Qinglan had already stopped ten meters away from him. He gave Long Chen a very strange feeling, Long Chen's heart was in a tumble, he was still waiting for the other party to tell him that he was Long Qinglan. That way, Long Chen would be able to relax his entire life, but the other party wouldn't say anything.

Until Long Chen spoke.

His face was cold, and suddenly revealed a strange smile. Using that familiar voice, he said to Long Chen: "Who am I? "Who am I? I am the one who has come to take your life."

Long Chen immediately became vigilant, or it should be said that he was in despair. Since this person said such a thing, even though he helped him teach the Starlord of Primal Chaos and killed Lin Ming, he was definitely not his father, because Long Qinglan would not say such a thing to him!

Furthermore, the spectators couldn't seem to hear what Long Qinglan was saying.

"Take my life?"

Long Chen took a deep breath, and his gaze fell silent. He felt an incomparable disappointment, not because the other party wanted to kill him, but because the other party didn't want to kill him.

But if that was the case, why did they call him Young Lord?

Long Chen could not understand no matter how much he thought about it.

"Who the hell are you?"

Long Chen said somewhat angrily.

"Me? Me? Actually, you should have guessed it. The moment he stepped into chaotic star field, I was born because of you. I came to this place all because of you. Who am I? "

The other party continued to laugh strangely.

Long Chen's mind went blank, he could not figure it out, he tried his best to think of these words, but he still could not figure it out, and at this time, Long Qinglan flew up into the sky, looking down at him from above, and said: "I am the God of the Beginning."

When he heard the last four words, Long Chen was stunned.

He swore that he had never imagined that the person in front of him would be the God of Taichi. This was simply too unbelievable. The disparity was too great!

However, the other party would not lie to him! He was the God of the Beginnings.

The God of Great Beginning was a calamity. This was similar to what he said before, that he was here to take his life.

"God of the Beginning!"

Long Chen's heart was still in disarray, he never thought that this would actually be the result. He originally thought that he was still alive, but he never thought that it would be the most mysterious God of the Beginnings!

Long Chen gritted his teeth and said angrily: "Despicable! Why did you come out as my father! You can change into something else! "

The God of Tai Shi still had a strange smile on his face as he said to Long Chen, "No, no, I was like this in the first place. From the moment I was born, I was like this. "

Long Chen was at a loss.

If the other party was speaking the truth, what secret was in that?

The God of Taiji, god of tai-su and the God of Taishang, what exactly is this thing? Why does the God of the Beginning look like Long Qinglan? This was different from god of tai-su, god of tai-su had transformed into Li Xuanji to tempt him.

The most serious problem was that this God of the Beginning was able to scare off the Chaotic Star Lord and kill Lin Ming. If such an expert were to fight with him, wouldn't he die without a single chance?

Long Chen's heart was in complete disarray.

The people outside could not hear what they were saying at all. They only thought that it was father and son reminiscing ...

"Let's begin, child. The final calamity before reincarnation. If you defeat me, you will have the qualifications to continue living. "

The God of Taishang had changed. The expression on his face had completely disappeared, returning to that cold and detached look once more.

Long Chen took a deep breath.

"Don't worry, there is not much difference between your strength and mine, but there is no doubt that I will be much stronger than you. Your chance of defeating me is only one percent. But it's also an opportunity. "

The other party's intention should be that in this battle, he wouldn't be as strong as he was when he defeated the Starlord of Primal Chaos.

Long Chen heaved a sigh of relief, but a one in a hundred chance, this was basically not happening at all!

Everyone's gaze fell on Long Chen.

"It's all a mystery! If I die today, there will never be a time to know these mysteries. I cannot die! "I haven't righted my father's name yet, and I can't die without giving Little Xi happiness!"

This surge of soul power caused the inside of Long Chen's heart to explode. This was the intense desire to live on, he adjusted his heart, and knew exactly what he needed to do now.

"Kill!"

Long Chen clenched his fists, his eyes filled with a murderous look.

"Very good." Just like Long Chen, he also clenched his fists tightly. Right at this moment, Long Chen suddenly discovered that there were blood-red dragon scales on his body. Those were the dragon scales of the Primordial Blood Spirit Dragon.

"Slaughter Dragon Seal!"

The Primal Beginning God stretched out his dragon claw and attacked!

Chapter 2062 - I Can't Lose

The Slaughter Dragon Seal was the first move that Long Chen had learned from the countless divine abilities and Tao techniques of the Primordial Blood Spirit Dragon. It wasn't too powerful, but the

problem was that it was a divine ability that belonged to the Archaic Blood Spirit Dragon, so why could the Primal God use it?!

When he saw the Primal Chaos God's body that was covered with blood-red dragon scales and the Slaughter Dragon Seal that he was about to use to kill, Long Chen's entire mind was in a daze. This was simply too much of a shock to him.

In this world, only he knew how to use the Slaughter Dragon Seal, and only he was the successor to the Primordial Blood Spirit Dragon. In addition, since ancient times, there had only been one true Archaic Blood Spirit Dragon, and it only inherited a single drop of its blood essence.

"Brother Chen!"

There was no mercy in the Primal Chaos Immortal's massacre.

Long Chen's dazed state was nothing more than courting death.

In the eyes of the hundreds of thousands of experts, they were even more puzzled by the sudden actions of the God of Tai Xi. Wasn't Long Chen his son? Why would he attack his own son when father and son met?

For a time, everyone was discussing amongst themselves with faces full of astonishment.

After Ling Xi's reminder, Long Chen finally reacted. The Primal Beginning Divine Spirit had always been ever-changing, maybe it was like the god of tai-su, who was good at confusion, but Long Chen quickly reacted, a strong idea to fight back arose in his heart.

"No matter what, I must defeat him and live on!"

This was his belief.

His struggle was to live on. Only by living on would he be able to fulfill his father's wish.

At the same time, he was grateful to the God of Tai Shi, who had given him a chance to be so close to his father. Although this was fake, Long Chen still had a special feeling in his heart.

"Kill!"

Long Chen growled softly, his body was similarly covered with dragon scales, and he had turned into a Blood Dragon Fighter. Using the same Slaughter Dragon Seal, he fought against the Primal Chaos God, and everything on his body was similar to. Long Chen felt that it was as if he was fighting with him, but he quickly discovered that the other party's comprehension of the Heavenly Dao far surpassed his own, and the ability to use the Ancestral Dragon Art was not something he could match up to!

They were both of the same Slaughter Dragon Seal, and both of them were of the same strength, but when the other party used it, he was still more experienced and stronger than. This was something that he had comprehended from the first clash, at least in terms of killing intent, the other party had surpassed him.

"So strong!"

The usage of the Slaughter Dragon Seal was full of oddities, bringing Long Chen a deep shock. He didn't even have time to digest it, when the Primal Beginning Divine Spirit struck again, causing Long Chen to become even more dazed this time, because the moment the other party stretched out his hand, it was actually the ability of the Great Void Cosmic Dragon, an eternal instant!

This was the first time that he had experienced the feeling of frozen time, time's restraining force was all-pervasive, Long Chen had exhausted all of his strength, the berserk attack, although in a short period of time he had broken through the eternal imprisonment of an instant, but right now the Primal Beginning God had already rushed forward coldly, and while Long Chen was completely unable to resist, he decisively made his move, the Slaughter Dragon Seal struck again, imprinting itself on Long Chen's chest!

At that moment, a deadly crisis struck!

The terrifying shockwave caused Long Chen to be blown away, he spat out a mouthful of blood and his chest was caved in, his internal organs were almost crushed by the attack, with Long Chen's sturdy physique, he was still almost severely injured by the attack, showing how well his opponent used his energy.

The same strength, the same divine ability, he could instantly subdue Long Chen!

When they saw Long Chen being heavily injured, everyone could not believe their own eyes.

"What's going on!?" Why would the Eternal Dragon Emperor attack his own son?! "

"Is this a test of Long Chen's strength? But there's no need to use such a heavy hand, right? "

They could clearly see that Long Chen had suffered a heavy blow.

Fortunately the Eternal Dragon Emperor didn't use the kind of power that punished the Starlord of Primal Chaos. Otherwise, Long Chen would have lost his life.

But this was only the beginning!

Even knowing how to use the Great Void Cosmic Dragon's abilities, Long Chen was completely convinced that this time, injuries had triggered the desire and conviction to fight. He found that his blood was starting to burn and an endless fighting spirit was urging him to stand up and once again, face off against the Primal Beginning Divine Spirit. He reached out and wiped his chest, the injured area was quickly recovering and under the power of the reverse flow of time, he instantly recovered to the point where he was completely unharmed.

"If you fall, you have to stand up. However, this is only the beginning. Next, I'll hit you harder."

Expressionless, the God of Taishang once more charged forward.

This time, he rushed forward with high speed, and when he was halfway through the attack, he suddenly turned his body, and that tiny body unexpectedly erupted in a split second, as a bloody mist pervaded the air. An Primordial Blood Spirit Dragon appeared, and rushed towards Long Chen with a terrifying killing intent!

This Primordial Blood Spirit Dragon, no matter what aspect, is exactly the same as Long Chen!

After experiencing the previous two shocks, Long Chen was already used to it this time. It was the first time he was facing himself from another perspective, and he had a feeling that he was fighting against himself. An even stronger and more terrifying, who had experienced many opponents, was still the most terrifying one in his heart!

"Kill!"

The scene of two almost identical Primordial Blood Spirit Dragons meeting in the air was extremely shocking. Everyone thought that Long Chen was a Unparalleled Dragon, but Long Qinglan was actually the same as him, and the two were fighting. What exactly was going on?

For a moment, everyone was stupefied!

Long Chen officially threw everything aside, just for the sake of killing!

The two Primordial Blood Spirit Dragons fought with each other!

"Heavenly Slaughter Blood Sword!"

"Heavenly Slaughter Blood Sword!"

The divine dragon swung its tail, forming a blade. The two divine dragons' tails continued to clash with each other in the starry sky above the Heavenly Slaughter Blood Sword. This scene was naturally incomparably vast, and every clash would result in a terrifying impact!

Long Chen struggled extremely hard, although his power was the same, his opponent's usage of the Sky Slaughter Blood Sword was superb. He previously thought that he had already cultivated the Heavenly Slaughter Blood Sword to its limits, but at this moment, the Primal Beginning God had displayed many unexpected changes on the Heavenly Slaughter Blood Sword. It was so inconceivable, and played a very important role in developing Long Chen's train of thought, but if he were to die here today, then it would be of no use!

"You're too weak."

All the Ancient Slaughtering Runes gathered at one point, and this point broke through Long Chen's Heavenly Slaughter Blood Sword, piercing into his dragon body. In that moment, dragon scales exploded, flesh and blood splattered everywhere, and Long Chen was struck once again!

Long Chen could feel that his own life force was rapidly disappearing, and the Primal Chaos Realm God was becoming more and more terrifying.

No matter what kind of divine ability it was, in his hands, it would be ever-changing. It allowed Long Chen to broaden his horizons and realize his own inadequacies!

Slaughter Dragon Seal, Heavenly Slaughter Blood Sword! Dream Bubbles, Moment Eternity and the Origin of Dream Return

Long Chen was unable to fight against the Primordial God and was forced to retreat step by step. Under the strong attacks of the opponent, his body was full of holes, and even the origin of his dreams was difficult to recover from.

In the blink of an eye, he was already on the verge of death.

"Have I already lost?"

Despair struck.

He did not want to admit defeat. Losing meant death, and he was not willing to die, so no matter how heavy his injuries were, he would immediately recover. Despite the blood dripping and the pain, he still had to use his vicious eyes to look at the Primal God!

As for the commotion outside, everyone knew that the God of the Beginnings was definitely trying to kill them. If it was just testing Long Chen's strength, he would not have reached such a degree of brutality!

"Why is that?"

"Why is Long Qinglan making a move on his own son?"

The Illusory King, Cangwu, and the others all looked at each other.

In their eyes, it was a pitiful sight for Long Chen to be seriously injured and be on the verge of death.

However, his tenacity was truly terrifying. After injuring him to such an extent, he was still able to climb back up and fight back against the God of Taishang. This was truly admirable.

On Long Chen's face, blood was flowing nonstop.

The blood had already blurred his vision!

"Puchi!"

Long Chen was in even more pain. When he raised his head, he saw the disdainful look in the Primal Chaos God's eyes and he sneered, "Little guy, you're still too weak. Your weakness has caused your death today. The heavens are merciless, so you deserve to die and can't blame me for this! "

After being agitated, under the suppression, Long Chen roared frantically, he endured the pain with his teeth gritted and broke free from the Primal Chaos God's control, causing the gigantic Divine Dragon Body to lose control, blood spilling everywhere.

"Your time of death has come."

The God of Taishang said coldly.

His uninjured Divine Dragon Body once again rushed forward, the countless dragon scales on its body started to glow, and the muddled Long Chen truly felt the danger of death once again. The other party was planning to use the Blood Weeping Dragon's soul! Long Chen's current strongest attack!

As expected, under the control of the Primal Beginning Divine Beast, a total of two million strong killing dragons charged over. Countless sinister roars, countless sharp dragon teeth, and dragon claws, Long Chen had no doubt that he would be completely engulfed by these crazy killing dragons.

He would shatter into pieces and enter their stomachs.

"You are not strong enough, so your life ends here!"

This scene was incredibly shocking.

"No!"

Long Chen's conviction was undefeatable. Even though his entire body was in a daze, he was still able to firm his spirit through endless pain and exhaustion.

"I can't lose!"

He had limitless responsibilities in his heart, causing him to loathe death and resent it. The God of Doom was heartless, and he had long given up hope. He clenched his teeth. No matter how much he had to pay, he still wanted to live!

"Alive! "Alive!"

Even if he lost, he would still be so proud. Along with his strong fighting will and his undefeatable faith, the dragon's scale flashed before everyone's eyes as two million Blood Weeping Dragon souls also rushed out!

One side was high above, the other side was fighting with their lives on the line. Long Chen was definitely on the brink of death, but when he risked everything to stand up again, his Blood Sobbing Dragon Soul, might not be weaker than the other side!

Chapter 2063 - Storm of Years

Long Chen was confused.

Everything he had done now, had all been for the sake of this terrifying Primal Beginning God's attack. From the god of tai-su s onwards, he had already known how terrifying the Primal Beginning God was, and this was even the only barrier that was set for his Ancestral Dragon ancestor. In this world, other than Long Chen himself, no one else had ever encountered it.

Although he used the same kind of strength and divine ability, the other party had still crushed him. Everything he had displayed, Long Chen had indeed learned and comprehended a lot every time he fell down, but this had all been exchanged for a fatal crisis!

This was the moment of life and death!

The word "I can't die" made Long Chen desperately insist once again. He had already forgotten everything, and only remembered the deep responsibility he had in his heart.

That was why he risked his life! He had never fought with his life on the line before. He had ignited his Divine Flame to the extreme, just so that he could block the opponent's Blood Weeping Dragon's soul!

In just a short moment, more than a million of them had died, turning into a bloody light that filled the sky. However, that tiny divine dragon was roaring like a giant beast, and among the onlookers, because they couldn't stand such a sound, a majority of the martial artists had already started to run away!

It was too terrifying!

This was definitely the most terrifying opponent he had ever seen his entire life. No one had ever been able to cause Long Chen to feel such despair on the same level of power, and this caused Long Chen to deeply realize his own inadequacies, and even caused a huge transformation!

But unfortunately, it was really extremely difficult for him to survive.

The God of the Beginnings felt that it would be very easy to kill him.

Long Chen clenched his teeth, he stared angrily at the sky, in this battle of the Sobbing Blood Dragon Soul, because Long Chen had finally clenched his teeth and fought with his life on the line, he finally managed to block the attack of the Primal Chaos God for the first time!

When all the small dragons disappeared, Long Chen could barely hold on. He was burnt out and almost died, while the God of Taishang was still standing in the sky, coldly staring at him.

"In the end, you're just a piece of trash with no abilities."

The sharp voice of the God of Primal Beginning resonated in Long Chen's ears.

He could feel that his killing intent was drawing closer and closer. At this time, the God of Doom only needed to make up for it once more and Long Chen would be completely annihilated.

"I can't die!"

Long Chen exhausted all his strength, he bit his tongue, and only then was he able to wake up for a moment, and face the God of Taishang.

"You are too weak, and your Ancestral Dragon Art is also not mature. You do not have any outstanding points, so I will not forgive you. Perhaps you can make progress in the future, but you have no future. Before you die, I can show you my most powerful divine ability! "

Any usage of the Ancestral Dragon Art would make the other party far surpass Long Chen.

Long Chen struggled to stand up, but when he saw the cold face of the God of the Beginning, it belonged to his father. could not help but feel confused, just like what the other party said, was he really that useless?

He was unwilling, very unwilling!

He did not give Long Chen a chance. Right at this moment, his Divine Dragon Body suddenly dimmed, and in the blink of an eye, it transformed into an illusionary cloud. It was difficult to see clearly, but the clouds in the surrounding were either moving or moving slowly.

"Damn it!" It's the Great Void Cosmic Dragon! "

Long Chen shook his head with all his might. He really did not understand, other than fighting with his life on the line, what else could he do.

However, the Primal Beginning God in front of him, was obviously impossible to defeat even if he went beyond the limits of his abilities. He was destined to be an impossible opponent, what else could Long Chen do other than clench his teeth? Even when facing Lin Ming, he was not as terrifying as the God of Beginning, who possessed the same level of power as Lin Ming.

Or it could be said that the Primal Beginning God was capable of defeating the Netherworm!

What did Long Chen have to fight against such an expert? Was he destined to die?

This made him feel pain and despair, but he was still unwilling. He did not want to die.

His pair of blood red eyes stared at the Great Void Cosmic Dragon like Primal Beginning Divine Spirit, at this time, he activated the power of time and struck over. Long Chen could clearly see every detail, these details were slowly replaying in his mind. He deeply understood that this was a sacred art that originally belonged to him, it was just that he had not discovered it yet.

The voice of the Primeval God was like sleep talking, ringing continuously beside Long Chen's ears.

"There is also his anger. The Dao of Time Disorder is never as simple as just illusions and illusions. It's just like this tempest of Time!"

The Tempest of Time!

When that word resounded in Long Chen's ears, he realized that it was very strange in his surroundings, everything had disappeared, and he was the only one left in this world.

Time was just a river that flowed past. From ancient times until now, it had always been quiet, but there were times when the river had rebelled. Under the control of external forces, the river had also formed a storm, a chaotic storm, a storm, it swept across and anyone who advanced forward on this river would be seriously injured, or even killed!

This was the wrath of time, the tempest of time!

Long Chen had studied the slightly disordered time, time stopped, time reverses its flow, yet it had never touched upon the wrath of time. Everyone was in the midst of time, and the God of Doom was controlling the storm of time around Long Chen!

It was as if he could also control the terrifying power of this Time Storm. An extremely clear idea emerged in his mind, and his eyes could see the river flowing by. It had suddenly turned into a terrifying storm from its initial trembling to it suddenly!

Weng! *

At that moment, a tempest of time swept out!

This kind of storm couldn't be touched and couldn't be seen, but it had instantly destroyed Long Chen's already shattered body, caused countless of dragon scales to explode, and shattered the dragon bone. Under the time storm, with Long Chen's stable physical body, it was obvious that he would be annihilated into ashes in an instant!

The danger of death instantly closed in on him!

Long Chen had already smelled the scent of death and his consciousness was quickly dissipating. It was impossible to describe the terror of this storm of time with words, it was the anger of time, the death of living beings.

Long Chen felt that he had become like a fish, he was getting stronger and stronger, he had become one with time, he was playing around, his mind was constantly replaying the method of controlling time used by the Primal Beginning God, and when he realised that this fish was big enough, he could not help but to stir up the river!

BOOM!

Under his influence, the river of time actually churned up a storm, the waves rolled forward mightily, rushing outwards. Long Chen deeply understood that this was the power of the Time storm!

With just a single glance, he had mastered it!

It was as if the tempest of time had given him a new lease on life. Long Chen immediately regained his senses, and when the Primal Beginning God's tempest of time had just swirled up and almost killed him, he manipulated the tempest around the other party.

As long as he understood the principles behind the Time Storm, it was not difficult for him to make it disappear.

It was just an instant, but Long Chen almost brushed past death's shoulder.

He had never thought that he would be able to comprehend the Tempest of Time at such a close proximity to death. The attack power of this move was obviously even more terrifying than the Blood Weeping Dragon's soul!

The God of Taishang had almost killed him!

"The power of time!"

Even more experts were at a loss. Just what kind of situation was this?

In their eyes, Long Qinglan wanted to kill Long Chen time and time again mercilessly, and Long Chen was more or less dead just now!

Their minds were filled with endless questions.

He once again turned into an Primordial Blood Dragon. He looked at Long Chen with his sinister eyes and said coldly, "Not bad, you actually comprehended the Time Tempest, and turned out to block my attack. However, this bit of ability does not exempt you from death, because as long as you don't die, I will die."

Long Chen struggled out of the Time storm and could not help but laugh bitterly when he saw his body in a mess.

Yet, the other party was still unharmed ...

He wished that he could tear apart the God of Taishang alive. Although there was no hatred between them, his opponent wanted to kill him. Moreover, he was simply too terrifying. After comprehending the Tempest of Time, he could only let himself live for a bit longer ...

Was survival really so difficult?

After walking out from death's door, Long Chen's eyes were filled with misconception.

He was still as ruthless as ever. He looked down on Long Chen, was high above, and attacked fiercely. This time, the power he displayed was even more terrifying. This was a killing technique that came from the Primordial Blood Spirit Dragon and was still above the Blood Weeping Dragon's soul!

When the opponent had just used it, Long Chen already realized how terrifying he was and also felt powerless!

The Primordial Blood Spirit Dragon was a dragon of slaughter and even more so a dragon of death. His sacred art was different from the Great Void Cosmic Dragon's, he only fought to kill, while the Great Void Cosmic Dragon's ability to control and change time was even more terrifying.

His rigid body was wrapped up as his dragon head faced down at Long Chen. His entire body was in a spiral shape like an iron drill!

At this moment, the body of the Primordial Blood Spirit Dragon displayed an incomparably terrifying killing power. Layers upon layers of blood-red light covered the body of the Primordial Blood Spirit Dragon, and at this moment, the spiral shaped dragon's body unexpectedly rotated, forming an incomparably terrifying death storm in an instant!

"Blood Spirit Spikes!"

This was a divine ability named after the Primordial Blood Dragon!

What appeared before Long Chen's eyes was a completely red spike. This was the most fearsome spike that Long Chen had ever seen, and this spike possessed the power to tear through everything, and pierce through everything. No one dared to look at this spike directly, and just by looking at it, they would feel as if their entire body and soul were being penetrated!

Blood Spirit Spikes!

There was nothing in the world that could stop the Blood Spirit Spikes of the Primordial Blood Dragon of that era. It couldn't even stop the bodies of other Ancestral Dragons!

Chapter 2064 - Blood Spirit Spikes

Not only did it cause one's body to tremble, even the primordial spirit felt as if it was being penetrated. Even though Long Chen was currently an Primordial Blood Dragon, he realized that in front of the Blood Spirit Spikes, he was as weak as tofu!

Sharp, ferocious, terrifying, and trembling!

Even the experts like the Illusory King were extremely frightened and did not dare move an inch when they saw the Blood Spirit Spikes. This Blood Spirit Spikes contained an incomparably terrifying killing

intent, and only the Primordial Blood Spirit Dragon, the ancestor of the dragon that had died, could emit such a terrifying aura!

"Could it be that he really wants to kill Long Chen?"

Those observers wouldn't have believed it in the beginning. After all, Long Chen was his biological son, and it was rare for them to meet. Previously, everyone thought that they were just exchanging pointers, but when the Tempest of Time was unleashed, it almost killed Long Chen, followed by such a terrifying attack from the Blood Spirit Spikes, they had no choice but to believe that the Eternal Dragon Emperor was about to kill Long Chen!

They had no idea what was going on.

As for the hundred thousand divine dragons, they might know a bit about them, but they had clearly given the order not to interfere.

The only one he knew was Long Chen. He knew clearly that the Primal God wanted to kill him, and would not show the slightest bit of mercy. He knew that his life was going to end with the Blood Spirit Spikes!

Such a terrifying killing intent was enough to cause one to lose all power to resist!

He had even lost the will to resist!

This was an attack that completely exceeded the level of the Blood Weeping Dragon's soul, one fatal move, Blood Spirit Spikes stabbed out, it will not turn back, until it penetrated through everything, it will not stop!

The entire world around Long Chen disappeared, the only thing that remained was the sharp thorn that symbolized death!

Ding!

With a crisp sound, the Blood Spirit Spikes moved!

Long Chen knew, this almost meant the end of his life!

In the God Kingdom, Ling Xi had already clenched her hands tightly. She would not cry and disturb Long Chen, she had already thought about it from the beginning, the moment Long Chen disappeared, she would follow his footsteps and give up on everything!

Long Chen also knew that she would die with him.

As a man, he was unable to give his woman a peace. This was his greatest inability, and the extreme guilt in his heart made it impossible for Long Chen to forgive himself. He found it difficult to breathe, and he even suffocated!

"I have the body of a Double Ancestral Dragon! My father's hope! It was all because of Xiao Xi! He was the older brother of the Little Wolf, Little Cat, and the others! I have already walked this far, do you think I will just admit defeat like this! "

"No!" "No way!"

Within his body, his blood burned with rage. He didn't want to lose, and he also didn't want to die! He had a responsibility in his heart. His duty to protect the people he cared about and to the entire world had driven him to the point of going crazy!

"Forget everything! The final battle! "

At that moment, he had forgotten about life and death. In his eyes, there was only that terrifying Blood Spirit Spikes left, and that was the thing that was about to take his life. Even if he died, he had to fight!

A person could not yield, yielding meant death!

Even if he died, he would die valiantly. He would be like a moth flying into the fire, enjoying the glory and glory of that moment of light.

At this moment, Long Chen held onto the pride of not wanting to give in, the promise of following his father, and the protection of his loved ones and brothers. He thirsted for the arrival of great power, he was the true Primordial Blood Spirit Dragon, and his desire for the bloodline of the Primordial Blood

Spirit Dragon surged with this extreme fighting spirit. Something that belonged to Long Chen's bloodline slowly surfaced!

The Primal Beginning God was filled with killing intent, Long Chen was even more filled with killing intent than him!

In front of his eyes, the Blood Spirit Spikes seemed to have become extremely slow. With the demonstration of the Primal Chaos God, a window once again opened up in front of Long Chen's eyes, allowing him to see the world outside the window. The awakening and awakening of the bloodline in his heart, as well as the demonstration of the Primal Chaos God in front of him, allowed him to once again succeed.

"So that's how it is! "So that's how it is!"

Long Chen wanted to roar a few times, but the blood in his body immediately rushed out, just as the Blood Spirit Spikes was about to land, Long Chen shot into the sky, charging straight for the Blood Spirit Spikes without caring about his life. Just when everyone thought that he was courting death, his body suddenly rotated at the moment he charged forward, turning into a spiral shape at a high speed, letting out a terrifying howl.

The two Blood Spirit Spikes s collided!

"This ..."

Everyone's face trembled again. They seemed to have understood, in this battle, under the guidance of the Primal Chaos God, Long Chen seemed to have awakened two extremely powerful abilities.

"So, it turns out that it's not to kill this Long Chen, but to completely stimulate his potential in this way? This is too cruel. "

Illusory King and the others gathered together, suddenly enlightened.

Of course, Long Chen couldn't hear their discussion.

On the hundred thousand divine dragons' side, the mysterious woman Yang You watched this scene with calm eyes. A faint light flickered in her eyes, but it soon disappeared.

The current Long Chen was in high spirits!

Finally, it was complete!

He never thought that he would actually be able to use even the Blood Spirit Spikes!

First, it was the Tempest of Time, then it was the Blood Spirit Spikes! These two terrifying skills naturally caused his strength to greatly increase. He seemed to have the confidence to fight against the Primal Beginning Goddess!

"For the sake of living, for the sake of living, for the sake of those who care about me, I want to fight you to the death!"

Facing the Blood Spirit Spikes, he roared out in his heart!

Amidst the fearful gazes of countless people, the two most sharp parts of the Blood Spirit Spikes suddenly clashed against each other!

Everyone believed that this was going to be a terrifying contest. One side would eventually break first!

But they didn't expect that this moment would come so quickly!

Even Long Chen did not expect it himself.

Right at that moment, the Blood Spirit Spikes in front of him suddenly stopped spinning, and he abruptly stopped charging forward, returning to the appearance of a divine dragon in front of Long Chen. That pair of deep eyes, filled with laughter, stared at him without any complaints.

This was the father that he was most familiar with. He had thought of him countless times before, and the thing that he remembered the most was the look in his eyes!

This was definitely his eyes!

However, this was the God of Taishang!

Did he have to come up with some tricks in order to kill me?

did not stop, and kept on killing, using his Blood Spirit Spikes to pierce through the dragon head, never turning back. In that moment, he pierced through the enemy's head, and rushed out from the dragon tail.

"Whiz!"

The extremely sharp thorns, turned into Long Chen.

Long Chen naturally understood that he seemed to have won. The Blood Spirit Spikes was very scary, he should have severed the life force of the Primal Chaos God.

This was his control over his own strength.

But at this very moment, his heart was in turmoil. Why did he give up on the attack of the Blood Spirit Spikes at the very last moment, why didn't he resist at all and let himself pass through? How could he let himself succeed?

Long Chen's heart was filled with endless questions.

He turned his head back in shock, the Tai Shi God Divine Dragon Body had been destroyed, becoming dust, and finally transforming into Long Qinglan. Standing in front of Long Chen, he was smiling at him.

"You!"

Long Chen had also transformed into his human form and stood in front of him. At this moment, the killing intent in his heart had completely disappeared, and his face was now filled with a heavy expression as he looked at the Primordial God, whose smile caused Long Chen's heart to collapse. No matter how he looked at the Primal God, he didn't seem like his own father.

"Just who are you!"

Long Chen rushed over mournfully!

"You'll know, son."

There was a red dot between his brows, it was formed by Long Chen using the Blood Spirit Spikes, and there was still the scent of blood flowing out from it.

"Impossible, you are just the God of the First Beginning, don't lie to me!"

Long Chen stopped right in front of his eyes, but what shocked him was, at this moment, the man in front of him had a gratified smile on his face, and his body gradually dissipated, transforming into a type of gem-like sand that densely floated within the starry sky.

Long Chen would never forget his final smile. It was so serene, so gratified, as if he had seen the birth of a work he was very satisfied with, and then, he would pass away with a peace of mind ...

The God of the Beginning did everything possible to kill him, it shouldn't be like this!

Long Chen was at a loss.

"Just who are you!?" "Why is he the same as me, why is he using my sacred art?"

His appearance, on the other hand, made Long Chen even more suspicious of all these. He clenched his fists tightly and looked around. On the Illusory King's side, they were just as shocked as Long Chen.

"Where did the Eternal Dragon Emperor go?"

"He wouldn't let Long Chen kill him, right? "That's impossible!"

All of a sudden, the other side started discussing.

Long Chen spun a few rounds on the spot, and no longer saw the figure of the God of the Beginning.

His gaze finally fell upon the grains of sand transformed by the God of the Beginning.

He extended his hand, and those precious gem-like grains of sand began to come into contact with his body, before fusing into his body. When the first grain of sand fused into his body, a surging wave of energy swept towards Long Chen! This was a terrifying power!

Strength had the difference in nature.

The power of rebirth was not comparable to the Power of Reincarnation, and there were divisions of Power of Reincarnation s as well. The six Power of Reincarnation s were countless times more powerful than the One Yuan Power of Reincarnation, and the Seven Star Power of Reincarnation was also equivalent to the power of Comprehension. That was a power that was close to that of gods, stronger than the six Power of Reincarnation s!

Long Chen's Tai Chi Nirvana Power was probably of a similar nature to the Four Symbols Power of Reincarnation.

But at this moment, he had obtained a higher level of power!

This was divine power from the Grand Xia!

Chapter 2065 - Taishang Divine Energy

Taishang divine power!

Just like how Long Chen had obtained the primal chaos energy back then, the primal chaos energy had fused with Long Chen's power and replaced it. The primal chaos energy was even more ancient and vigorous.

Strength, just in terms of the nature alone, should be around the same as the power of the Spirit Realm!

The power of the Spirit Realm was the power of a Primal Divine Spirit!

When Long Chen obtained the Absolute Beginning Divine Energy, he also possessed the true form of a Divine Spirit's power, and it could even be considered the origin of a Divine Spirit's power. This kind of power made Long Chen's heart throb, and countless grains of sand fused into his body, transforming into a vast ocean that surged within his body.

The power of Nirvana had been completely devoured, and the Primal Chaos Force had become the dominant power in Long Chen's body!

At that moment, Long Chen felt his own strength increase by a terrifying level!

Although in terms of measurement, Long Chen was still far from being comparable to the real Rankers like the Illusory King, in terms of quality and quantity, he was close to it. They had the power of an Innate God and could easily crush others.

However, to Long Chen, the power of the Absolute Beginning Divine Power was already enough to make him majestic!

Long Chen had this premonition, that the only realm he would face in the future would be One Yuan Tribulation. Right now, like most of the warriors at the peak of the Nine Layered Nirvana Tribulations Realm, he had begun to attack tribulation of reincarnation.

Too much.

The power that came from the primordial divine spirit flew about within his body. The power contained the destructive power of Tai Chi and the nurturing of Tai Su. Under the surging flow, it nourished the flesh, bringing about the growth and maturity of Long Chen's ancestral dragon body.

His primordial spirit seemed to have received nourishment and became especially mature!

This was a transformation!

At this moment, Long Chen's every move contained a terrifying power!

It was as if everyone could feel the change in him. The Long Chen before him was basically the top genius expert, even a few of the Five Great Clans could suppress him. But now, it seemed that among all the living creatures, those under four thousand years of age, even included the tribulation of reincarnation of the Five Elements.

Even Ultimate Dragon might not be his match!

His cultivation base had risen sharply!

The Primordial Blood Spirit Dragon's branding of the primordial blood dragon turned into a blood red power. When this power erupted, it made everyone tremble!

"Oh my god, although this power is not the power of the Spirit Realm, but in terms of nature, it's almost the same as the power of the God Realm!"

The so called power of the Spirit Realm was something that could only be granted after experiencing the tribulations of the ancient seven stars and ancient gods!

Every single martial artist that had reached the Seven Stars tribulation of reincarnation were all almighty beings. And Long Chen, who was still so young, already possessed such a power.

This news spread among the crowd and once again challenged their hearts.

Fortunately, although this Absolute beginning divine power was of a high nature, the amount of Long Chen's power was not even one ten thousandth of the true profound practitioners of the Seven Stars tribulation of reincarnation. This allowed them to heave a sigh of relief.

"As expected of the son of the Eternal Dragon Emperor, a peerless genius. Compared to the current him, Primal Chaos Quin is probably far inferior. Even amongst the five great clans in the Immortal God Region and above, no one below four thousand years of age will be a match for him. "

Cangwu sighed.

These words were said by many experts.

Long Chen's brilliance today was destined to be the core of everyone's eyes.

He closed his eyes to feel the majestic power. This power came from the God of Primal Beginning, allowing Long Chen to completely transform and far surpass his peers. The increase in his strength had exceeded Long Chen's imagination, but Long Chen's heart was still filled with doubt and confusion, and even sadness, towards the Primeval God.

"Xiao Xi, do you think he is the God of Taishang or my father?" Long Chen asked.

Ling Xi was the witness.

He has been helping you since the beginning. Even though his method was very brutal, he was able to use this kind of cruel method to allow you to obtain the power of the Tempest of Time and the Blood Spirit Spikes. In the end, he was only able to do so.

He gave up on attacking and let you pierce through him ... probably because he wished for it to be completed.

Listening to Ling Xi's words, Long Chen was finally sure that everything that happened before was all because of him, and perhaps he had never thought about killing Long Chen.

This made Long Chen feel very uncomfortable.

"No matter who he is, he is doing it for your own good. Moreover, when he finally left, his smile was one of gratification and satisfaction. That is enough. Brother Chen, if you really desire to know who he is, then you will continue to grow stronger. One day, I believe that you will understand ...

It's all in vain! "

Ling Xi encouraged.

"Oh!"

What Ling Xi said was right, no matter what kind of secrets the Primal God or Long Qinglan had, as long as he worked hard to progress, not letting down and not letting him down, as long as he did not disappoint the abilities and power that the Ancient God gave him, one day, he would understand.

Tch!

His conviction was extremely strong!

Today was not the end. It was a new beginning.

From today onwards, Long Chen possessed the qualifications to suppress all. He was no longer a small fry, but a true big character!

He, Long Chen, was bound to shake the world, sweep the four seas!

In the middle of the starry sky, in the center of everyone's attention, Long Chen opened his eyes wide, looking around at his surroundings.

The Primal Divine Energy, the Time Storm, the Blood Spirit Spikes. This was everything he had obtained today ...

From that mysterious man.

Long Chen was sure that he had misunderstood him.

But none of that mattered.

From the shocked and respectful eyes of the thousands of martial artists, he knew that his status had undergone a tremendous change. At this point, he was no longer someone who anyone could bully.

Even existences like the Illusory King, Xiao Ding Yuan and the Primal Chaos Cangwu all looked at Long Chen with deep fear in their eyes!

There were hundreds of thousands of warriors. The thing they were most confused about was, where had the Eternal Dragon Emperor gone? Before, they were certain that the Eternal Dragon Emperor was still alive, but now, they were uncertain. After all, he had already dissipated under Long Chen's attack.

The death of the Eternal Dragon Emperor was something that the important figures had decided together.

As a result, they began to doubt the authenticity of the Eternal Dragon Emperor that had just appeared. Because the Illusory King and the others were safe and sound, their courage gradually grew.

At this time, Cang Wu asked: "Long Chen, was that person from before an Eternal Dragon Emperor?"

It was only then that Long Chen remembered one thing, it was not the Primal Chaos Cangwu's problem, but the day when the ten stars connected together, the day where the Taiji Creature Dragon's inherited blood essence was born.

He turned his head to look, only to see that the hundred thousand Dragon Fighter from Heavenly Dragon Star, were looking at him, their eyes filled with gentleness ...

They seemed to be the group of people that acknowledged him the most.

"Young master, come here." It was as if someone was speaking to him in this manner.

As expected, they were once's subordinates, Lin Ming should know about this. But because they were exiled, they could not easily leave Sky Dragon Star.

They called him Young Master because they viewed him as their leader. Listen to their own commands; they were Long Qinglan's subordinates, and just by this point, Long Chen could completely trust them!

At the same time, his heart was filled with excitement!

Although Long Qinglan had still yet to come back to life, at least the Primeval God had sent him so many strong warriors. Long Chen did not know what relationship between the one leading the pack, Yang You,

who was comparable to the Primal Chaos Star Lord, and the Primeval God. She should know more than him, right?

Under their sincere summons, Long Chen headed towards them. That was his own world of Dragon Fighter, because he did not respond to Cang Wu's words.

However, when he heard that the people of Sky Dragon Star were following Long Chen like this, he was convinced. He understood how powerful the three people of Sky Dragon Star were, and the most mysterious woman among them, Yang You, was even the imaginary enemy of the Star Lord of Primal Chaos!

Given Cangwu's power, at most, he would be the same as Lin Ming. As long as he thought of Lin Ming's miserable state, Cangwu would be completely silent.

The Fantasy King came to his side, and powerlessly looked in the direction that Long Chen had left in, and said: "Primal Chaos Cangwu, the Primal Chaos Star Lord said that the stellar nucleus is with Long Chen, and this is about it. If the people of Sky Dragon Star bring him away, then wouldn't the stellar nucleus be taken over by him?"

"I am currently contacting the Star Lord, but unfortunately, I cannot contact him. Otherwise, if he knew that Long Qinglan had disappeared earlier, he would have been able to return and fight with Yang You. Now, the Star Lord and the Asura Star Lord are rushing over. "

"I hope these two Star Lords can help."

The Illusory King felt extremely helpless. He had longed for such a long time for the sake of the Star Lord, but who would have thought that a heaven-defying Long Chen would suddenly appear in the middle of his path, controlling everything.

At this time, Long Chen had already surrounded a hundred thousand Dragon Fighters.

Amongst them, there were elderly, middle-aged, young, and young children. Almost everyone was looking at their Young Master with curious eyes, probably because of the battle between Long Chen and him.

This gaze made Long Chen feel warmth.

Amongst the one hundred thousand divine dragons, there were hundreds of super divine dragons, and the majority of them were experts. Amongst them, there were seven star tribulation of reincarnation, which was equivalent to Xiao Ding Yuan's and Primal Chaos Cangwu's levels, and there were also many super divine dragon geniuses among them.

The two elders and the mysterious masked woman in the middle, Yang You.

Long Chen was currently facing Yang You.

Yang You's eyes were as tranquil as water. It was hard to figure out what she was thinking. At this time, she said, "Young master, my name is Yang You. We will bring you back to the Heavenly Dragon Star, is that okay? "

Celestial Dragon Star

Long Chen naturally understood that the Dragon God Domain could not go back immediately, at least, he had killed Lin Ming. This matter could not be explained clearly, these were all part of Long Qinglan's old clan.

Chapter 2066 - Fifteen Color Blood Droplets

Therefore, he nodded and said, "No problem. "I ..."

There were too many things that had happened today that he did not know what to say.

Yang You's eyes were as gentle as water as she said, "I am your father's maid. I will serve him for half his life. If you are willing, you can call me Aunt You."

"Ah!"

Long Chen had long since understood that Yang You was definitely related to Long Qinglan. He hadn't thought that it would actually be a maid that accompanied him for a long time, and that she would lead such a large number of Dragon Fighter who followed Long Qinglan. In his heart, she should have a very high status.

After Long Chen came to the Immortal God Realm, when he saw the one hundred thousand divine dragons, he truly felt like he belonged there.

"Aunt You."

Although they called him Young Master, he definitely could not be arrogant because of this Young Master's status. Furthermore, because Yang You's strength was too strong, Long Chen respected her from the bottom of his heart.

Of the two old men by his side, one of them had snow-white hair and had been looking at him happily the entire time. The other man had a cold expression with black hair and black eyes, but he was naturally indifferent.

Most of the others did too.

"In that case, I want to take advantage of you as well. Just call me Uncle White." The snow-white haired old man laughed as he spoke, he looked extremely kind. Although his existence could absorb the light around him, making him look extremely terrifying, it still made Long Chen feel warm and friendly to him.

"I am Hei Chen." There's another nickname for it in the Dragon God Domain, Dark Dragon Emperor. "

The other one pursed his lips and introduced himself unnaturally. He did not seem to be very good at dealing with people.

These two elders were also very interesting. They looked exactly the same, but their attributes and personalities were the opposite.

Long Chen hurriedly said: "Greetings Uncle White and Uncle Black!"

Other than the three of them, the rest didn't have the guts to have Long Chen, the young master, call them uncle and aunt. In actuality, these three were Long Qinglan's former trusted aides. Long Qinglan did not have many friends, but he had a lot of followers.

"Haha, to actually call me Uncle Bai, this is great!"

The white-haired old man couldn't help but snicker. His face was flushed red.

At this time, Yang You looked around and said, "He once said that he wanted to give you the item that will be born on the Day of the Ten Stars Linked Pearl. It's about to start. Wait a moment, I'll seize it for you."

After hearing this sentence, Long Chen was ecstatic.

Or perhaps it was because he was moved.

The him that Yang You spoke of was the same God of Taishang from before. However, not only had he sent so much for him, he had also instructed Yang You to gather the Taiji Creature Dragon's inherited blood essence for Long Chen before he left. At first, Long Chen thought that he was just the God of Tai Chi, but now, it seemed that was not the case.

That was all. As for who he was, Yang You had a definite answer in her heart, but now was not the time to ask. The Taiji Creature Dragon's blood essence was too important, she would wait until Yang You got it for her.

Long Chen was worried about what happened today countless of times, but he never thought that the Primal God, who brought killing intent to him, would actually bring him everything, including that incomparable treasure, the Taiji Creature Dragon's inherited blood essence.

"The Chaotic Star Lord was scared off by him and won't be here for a while, but the other two Star Lords are hiding in the vicinity, so there's no need to worry. They don't dare to offend us."

Those two Star Lords were Star Lord Raksha and Star Lord Asura. Their strength should be around the same as Long Chen's Uncle White and Uncle Black. He was definitely not as good as Yang You.

Long Chen was completely relieved.

"Thank you, Aunt You."

He was extremely grateful to the mysterious woman who was wearing a veil, a maid who had served Long Qinglan for half his life. What kind of secrets did she have?

Yang You's gaze was warm. Even though her face was covered by a veil, Long Chen knew that she was smiling.

The sensation this woman gave him was completely different from the one he had felt from Ling Xi and the others. Ling Xi was her wife and her lover, but Yang You had a completely different feeling.

The hundred thousand divine dragons surrounding them were also whispering, basically discussing Long Chen in admiration and respect.

It was as if Long Chen was living in a dream. Today, adding on the Taiji Creature Dragon's inherited blood essence and Ling Xi's resplendent star stellar nucleus, his gains were truly too much!

Silence!

The 100,000 divine dragons didn't leave, nor did the 10,000 clansmen.

This was their territory, so of course they would wait until the Dragon Fighter left.

At this time, Yang You brought Long Chen and looked at the nine stars outside the resplendent stars.

"It's about to begin."

After a while, Yang You softly said from beside him.

Long Chen was looking forward to it. This feeling of having someone to protect him and not needing him to help felt really wonderful.

He looked around. In reality, the ten stars in his eyes had already formed a straight line. It was just that there was still a slight difference in their details. This little difference was about to be perfected.

"What are they waiting for, the day when the ten stars are linked together?"

Cang Wu finally found their goal, but in front of the three Powerful Dragon Fighters, they still didn't dare move.

At the same time, a lot of warriors were gathered on the lines of all the ten stars. Other than Long Chen, Yang You and the others, no one else knew that the so called treasure would appear next to the resplendent star.

"It's begun."

The two black and white elders rose into the starry sky, surrounding Yang You.

"Wait here for a moment." Yang You told Long Chen that as the three of them leapt into the air and headed towards the front. Within the domain that they controlled, no one dared to approach them lightly. Most people could only watch helplessly.

At the last moment, Long Chen's heart was moved. He looked towards the deepest part of the starry sky, only to see a black dot at the deepest part, and at the moment the ten stars connected, a beam of light with a dozen different colors erupted from the black dot. It shot through and approached him.

Within the nearest star of the black dot.

"That's Sky Dragon Star."

The hundred thousand strong experts of the Dragon Fighters gathered around Long Chen, and one of the Seven Star Samsara experts said to Long Chen.

Heavenly Dragon Star was the closest place to the demon star.

Long Chen laughed. If the little wolf went to the Demon Star, then the black dot that appeared from the light beam was probably the Demon Star. This time, it should be eleven stars linked together.

Then, the light beam pierced into the mysterious Star of Destiny, and before it could tear apart the mysterious veil, it left the Star of Destiny and entered the Primal Chaos Emperor Star. Then, it exited the Primal Chaos Emperor Star and entered the next super planet!

A dozen different colored beams of light were constantly approaching Long Chen. Their speed was extremely fast, surpassing everything else!

Yang You and the others had already made their preparations.

On the 10 star line, millions of martial artists were welcoming this moment. But, they discovered that when the beam of light passed through their planet, it didn't seem to leave anything behind. Although this scene was incomparably gorgeous, it didn't seem to have anything to do with a great treasure!

Many people understood that this so-called great treasure could very well be a rumor. Now that they witnessed it today, it was as the rumors said.

As a result, most people felt disheartened.

At this time, a dozen different colored beams of light had already approached the resplendent star.

In the blink of an eye, the beam of light broke through the planet next to the resplendent star and arrived before everyone. The dozen or so colors of light passed through everyone and entered the resplendent star. The resplendent star was the end of the beam of light.

At this moment, the light beam had completely connected the ten stars. Everyone was floating beside the light beam, their faces colored.

"Rumor has it that a great treasure was born at this moment, so it shouldn't be nearby?"

This beam of light was simply too long. Almost everyone was trying their luck, except for Yang You and the others.

The three of them were also standing beside the beam of light. Their gazes were deep as they looked at one part of the beam of light.

Just when everyone was puzzled, Long Chen indeed felt something being born around Yang You and the others!

He was the one who was most familiar with ancestral dragon-inherited blood, so he understood that the place he was born in was indeed the Taiji Creature Dragon's Inherited Blood. It was different from the feeling the Primordial Blood Spirit Dragon and Great Void Cosmic Dragon gave him.

On the other hand, Great Void Cosmic Dragon s were eternal and illusory in time, while this Taiji Creature Dragon was ever-changing. Inherited blood essence was originally a reserved thing, but even if it was restrained, it still brought about a huge impact!

The scene that Long Chen saw was completely different from the others.

Other people could only see the light beam and feel something being born within the light beam. But Long Chen was able to see something inside, it was a drop of blood with 15 colors, looking extremely gorgeous and beautiful, filled with the power of life!

The dragon of life and creation, the Taiji Creature Dragon!

The fifteen colored blood droplets seemed to appear in front of Long Chen, as various colors competed and fought each other, symbolizing everything in the world. Long Chen actually felt like the blood droplets seemed to be looking at him ...

In front of Long Chen, the colored blood droplet in the object expanded infinitely, before transforming into an Ancestral Dragon that covered the sky ...

The Archaic Blood Spirit Dragon had an ordinary appearance, like a red dragon. However, it was the ancestor of slaughter. The Great Void Cosmic Dragon was a complete hallucination. It was empty without a shape.

And what appeared in front of Long Chen's eyes, was probably the dragon that once lived and created!

This divine dragon had an incomparable physique, the most obvious characteristic being that it actually had fifteen dragon heads!

The dragon coiled around, with fifteen dragon heads raised up high, looking down at Long Chen from above.

In the center was the largest dragon head. It was filled with vitality and was constantly changing colors. It was so bright that it looked like a flying beast, and there were thousands of creatures living on it. All of these creatures turned into the color of the dragon head. This Dragon Head was called Life.

The other fourteen dragon heads were of the same size!

The first was made up of illusory power and had no fixed shape. It was the 'Origin Energy Dragon Head'!

One was like the blazing sun, with a blazing sun. In his eyes, there were three golden crows soaring, and he was called the "Sun Dragon's Head"!

One was like the moon. It was quiet and cold with a moon rabbit in its eyes. It was called the 'Head of the Proud Moon Dragons'!

One was like a sky full of stars, extremely bright and resplendent. There were grains of sand in his eyes that transformed into bugs, constantly changing. It was the Astral Dragon Head!

One was made up of bones, the corpse aura that filled the sky, it was called the 'Bone Dragon Head'!

In addition, there was the 'Gale Dragon Head', the 'Blazing Dragon Head', the 'Sea Dragon Head', the 'Rock Dragon Head', the 'Metal Dragon Head', the 'Thunder Dragon Head', the 'Cloud Dragon Head', the 'Earth Dragon Head', and the 'Tree Dragon Head'.

Fourteen of them formed the basis of the creation of the world.

The life dragon head, created with 14 dragon heads, became a Taiji Creature Dragon!

Taiji Creature Dragon was proficient in fifteen rules, such as wind, fire, water, moon, stars, mountains, trees, thunder and cloud, as well as life and corpses. It was proficient in everything, which was why it could create such a thing!

Chapter 2067 - Return of Other Days

Taiji Creature Dragon had fifteen dragon heads.

The illusory image of the fifteen colored blood drops, that could only be seen by Long Chen himself, disappeared in a flash, but brought a deep shock to Long Chen.

This was the third ancestral dragon he had seen.

Be it the mountains, rivers, trees, sun, moon, or stars, they were all part of his body. His boundless life force seemed to be the source of all life, while the other fourteen dragon heads made up the entire world.

In the rankings of the Ten Great Ancestor Dragons, Taiji Creature Dragon were definitely higher than Primordial Blood Spirit Dragons, they were only slightly weaker than the most mysterious Great Void Cosmic Dragon. After all, Taiji Creature Dragon possessed a total of fifteen different types of powers, which practically encompassed everything that could happen in the world.

The Taiji Creature Dragon's inherited blood essence had appeared!

If it wasn't for Yang You, Long Chen wouldn't have been able to snatch it from Lin Ming under his control.

At this time, Yang You was standing guard beside the Taiji Creature Dragon's blood essence. Under her control, night descended, and even an existence like the Primal Chaos Cangwu was unable to clearly see what exactly had happened at that place.

"Young master, come here."

The Black Dragon Emperor, Black Dust, waved at Long Chen.

His eyes were still filled with excitement.

Long Chen no longer spoke, and entered the area controlled by Yang You, getting closer to the fifteen colored blood droplets.

Yang You was standing beside him, and his eyes were filled with shock as he looked at the inherited blood essence.

"Put it away. From what he said, it seems like I only inherited the inherited blood essence to the Divine Kingdom when you reached the tribulation of reincarnation. "

"tribulation of reincarnation?"

Long Chen heaved a sigh of relief, but in reality, he was under a lot of pressure. After all, he had already fused with two kinds of Ancestral Dragon Inherited Blood.

Creatures of the Divine Kingdom.

Let's put it in the Great Void Realm first.

Long Chen passed Yang You, and approached the fifteen colored blood droplets.

At this moment, a storm came from both sides of the starry sky. The sky on the left was blood-red, and a man covered in blood appeared within it. Behind him was a sea of blood, and a thick killing intent assaulted him.

On the right of the starry sky, there was a grey fog. Within the grey fog, there were countless souls and skeletons, and a figure could be vaguely seen.

Yang You continued to look at the 15 colored blood droplets, and said without blinking, "Star Lord Luosha, Asura Star Lord, if you don't want to die, then obediently stay here." "If you anger me, then come visit Luo Sha planet and Asura planet."

Hearing these words, the two unwillingly hid themselves.

He was actually scared off by a single sentence from Yang You.

did not dare to waste anymore time, if not the Chaotic Star Lord would have returned, it would have been a huge battle. At this moment, he was standing in front of the fifteen colored blood droplets, extending his hand and using his Absolute Beginning Divine Spirit to guide the fifteen colored blood droplets into his Great Void Realm.

Weng! *

When the fifteen colored blood droplets entered the Great Void Realm, Long Chen seemed to have heard the roars of countless Ancient Dragon God. In the Great Void Realm, the strengthened Divine Dragon Body twisted and turned, and the 15 dragon heads scattered. The pair of deep and hypnotic eyes made Long Chen feel incomparable reverence.

This was his belief.

He had succeeded.

After he took away the fifteen colored blood droplets, the ten star beads were finished. The light dissipated, and the starry sky returned to normal.

Long Chen turned around as Yang You's eyes were filled with gentleness as he stared at him.

"Young master, everything has been completed. It's time to follow me back to Sky Dragon Star."

Right now, the Taiji Creature Dragon's inherited blood was all in Long Chen's body. Although others didn't know what he had obtained, it was at least a great treasure, and even the two Star Lords were extremely envious. In such a short period of time, Long Chen had nowhere else to go besides Sky Dragon Star, to be protected by Yang You and the others.

Moreover, that place was Long Chen's home to begin with.

"Alright."

Long Chen nodded.

Hearing his answer, the hundred thousand Dragon Fighters all cheered. They had already lost their backbone for a very long time, Long Chen was the son of the person they were following, and their actions made them extremely admire him.

Hearing that Long Chen was going to the Heavenly Dragon Star, the Fantasy King and the rest were all worried. Long Chen definitely did not want to hand over the stellar nucleus. They wanted to snatch it back, but there was nothing they could do. They were so depressed that they almost vomited blood.

Even though they were going to Sky Dragon Star, they still had to settle some matters.

Therefore, Long Chen's gaze fell on the hundreds of thousands of experts present, and he said in a deep voice, "Illusory King, the Star Lord is fighting for supremacy. The first two battles are the points I obtained for you. If it weren't for me, you Illusory Immortal Clan simply wouldn't have any hope of obtaining the stellar nucleus. Initially, according to your Nine Star Alliance's rules, this stellar nucleus would never turn to me, but since you all broke the rules, then I will accept it impolitely. After all, I almost lost my life for this stellar nucleus, wasn't that right? "

The Illusory King felt like vomiting blood.

Beside him, Cang Wu said: "Long Chen, fusing with a stellar nucleus, means becoming the controller of a resplendent star, requires multiple conditions. As long as one has a clan, they must belong to the Nine Star Alliance, and fusing with a stellar nucleus is equivalent to invading our land! Our Nine Star Alliance will not agree to it! "

Following his words, a large number of warriors also began to clamor.

After they finished making noise, Long Chen laughed and said: "Who said I took over, isn't our Heavenly Dragon Star also in the chaotic star field? We're all on the same side. You have the right to fight for it, and I have too. Who else said I don't have my own kind? Aren't these people behind me? Everyone, the stellar nucleus is in my hands, you guys don't even think about taking it back, unless you three Star Lords come to Sky Dragon Star to snatch it! "

He died at once.

As a result, the Illusory King and the thirty Nine Star Alliance chiefs could only die from anger.

After he explained the stellar nucleus's situation clearly, he left behind the friends of the Life Dragon City.

Although he had killed Lin Ming, Gong Qing and the others treated him very well.

"Mr. Gong."

Long Chen landed in front of him.

At this moment, they had finally recovered some of their strength. Bringing Xin Yue, Xing Qing and the others along, he asked, "Long Chen, are you sure you aren't going back to the Dragon God Domain?"

In truth, they could not understand what was going on with Long Qinglan. Was he really dead? Then what was his previous appearance? If he was still alive, Long Chen wouldn't have to shoulder the responsibilities and return to the Dragon God Domain to correct his father's name!

Long Chen went silent for a moment, and said firmly: "Don't worry, there will be a day when I will still return. My business, my responsibilities are not yet complete. "

Hearing Long Chen's words, they seemed to understand that Long Qinglan seemed to still be dead. Even though Long Chen had obtained the protection of Heavenly Dragon Star, his determination did not change, he would still return to the Dragon God Domain, return to the battlefield that belonged to him, and recover everything for his father. That was still Long Qinglan's last wish!

"Then, that's good, we'll wait for you at Dragon God Domain!"

In this period of time, everyone had gotten along quite well.

Long Chen looked at this group of people. The silent but warm-hearted Xing Yue, the warm and gentle Xing Qing, the Bing Xinyue who looked down on him before. It was as if he had just arrived in chaotic star field and so many things had happened that even the Little Wolf had gone to the Demon Star.

In the beginning, he never would have thought that such a thing would happen.

"As for Lin Ming's matter, we can't hide it from you. We can only it." Gong Qing apologized.

Long Chen laughed: "It doesn't matter, just tell them, I hate people who slap me, no one can."

He was not a peerless expert yet, but this domineering aura still frightened everyone.

"Goodbye."

After saying that last two words, Long Chen no longer had any regrets as he left in a grandiose manner, following the hundred thousand divine dragons with a peace of mind. Hundreds of thousands of pagoda warriors watched him leave, their hearts shaking. Their expressions were different, there was anger, hatred, envy, and worship, but most of them were powerless towards Long Chen.

From today onwards, he could practically control Heavenly Dragon Star. This kind of youth was comparable to the overlord of the Chaotic Star Lords. If his name were to spread back to the Dragon God Domain, it would probably shake the entire world. Those who looked down on him would probably have their jaws drop to the ground!

After a long while, the crowd finally dispersed.

Everyone knew that this youth was destined to be the most dazzling star. No one could stop his rise to prominence.

When the people of the Life Dragon City passed the news back to the Five Dragon Cities, a huge upheaval indeed occurred in the Five Dragon Cities.

"He's actually with that group of deported traitors? "Good, very good. Haha ..."

On their way back to the Sky Dragon Star, Long Chen told Ling Xi to come out of the God Nation. From today onwards, Ling Xi would no longer have to stay and seek refuge in the God Kingdom.

Long Chen brought Ling Xi to meet Yang You and the others.

"Aunt You, this is my wife, named Ling Xi."

"Ling Xi greets Aunt You."

Yang You was wearing a veil, so it was impossible to see her smile, but her eyes revealed a sense of gratification and gentleness. Although it was shallow, it was still very warm.

"Very good!"

Yang You nodded.

Following that, Long Chen brought Ling Xi and greeted the other rankers. The hundred thousand divine dragons were very warm and respectful to Long Chen.

After a few days, Long Chen had basically become familiar with everyone.

Everyone headed towards Sky Dragon Star.

Looking at the vast starry sky in front of him, Long Chen said: "That place should be a peaceful place. If I want, I can live there peacefully for my entire life and give you peace and warmth."

However, Ling Xi smiled and shook her head, saying, "Brother Chen, there isn't a completely safe place, so I just need to follow you. No matter where you go. Furthermore, I know that you will still be going to the Dragon God Domain.

Dragon God Domain!

Long Chen really wanted to go back and prove everything.

Ling Xi had always been the person who understood him the best.

At this moment, Yang You came to their side.

She said, "Dawn is right. There is no place that is absolutely safe. Only when one was invincible would one be able to protect everything. Today, everyone on Sky Dragon Star only exists to protect you, in the future, maybe we will need your protection. "

Long Chen had too many questions to ask her

Long Qinglan had left him with too many mysteries.

Especially with the appearance of the Primal Beginning Deity, it was even more inconceivable. Everything he did was so strange, yet Yang You and the others seemed to have already expected it.

However, travelling through the vast starry sky was not the best time to ask such a question, so Long Chen could only endure it.

In this journey, he had gotten to know many of his comrades who came from the hundred thousand divine dragons. They were all very passionate and respectful to Long Chen, with Long Chen as their leader.

They had followed Long Qinglan since childhood, and even after Long Qinglan had died, they had still not left, bringing his followers to Heavenly Dragon Star.

Bai Sha was a very cute and cheerful old man. He didn't like mentioning his name and thought that it was too infuriating for his mistress to hear him speak. He also had a very dazzling name in the Dragon God Domain, and that was the Radiant Dragon Emperor, who was just as famous as the Dark Dragon Emperor. Radiant Dragon Emperor's inheritance was a rare and powerful Ultimate Dragon called the Heavenly Emperor Holy Dragon!

The Heavenly Emperor Divine Dragon was the ruler of light in the ancient times, it devoured light, it had the might of a Heavenly Emperor Dragon, it ordered hordes of dragons, its battle power was monstrous, it was an extremely terrifying divine dragon under the Unparalleled Dragon, even the divine beings within the Archeozoic era, might not be as powerful as the complete Heavenly Emperor Holy Dragon!

As for his brother, the Dark Dragon Emperor, he inherited his blood essence from the equally famous Dark Emperor Dragon. As the ruler of darkness, he possessed the might of a Black Hole and could devour the heavens and devour the earth.

The inherited blood and vitality of these two Dragon Kings were given by Long Qinglan.

Amongst the hundred thousand divine dragons, there were still a few Ultimate Dragon. However, they were not strong enough to reach the level of the two dragon emperors, but they were undeniably peerless geniuses.

As for Yang You ...

Long Chen had never asked her before, but he could tell that Yang You's Inherited Blood must be much more terrifying than the two Dragon Kings'. After all, she was Long Qinglan's closest person and a maid that had served Long Qinglan for half her life.

Yang You spoke very little, and spent most of her time on the road, quietly and quietly. Only for a small portion of the time, she would turn her head and gently watch Long Chen and Ling Xi get to know the other Dragon Fighters, laughing and joking.

During this process, Sky Dragon Star arrived.

This was an equally beautiful planet. Long Chen had liked it here from the first moment he came to the Immortal God Region. It was only here that he felt like home, this was the place that belonged to him.

Heavenly Dragon Star was like a dark green gem. Although it wasn't as bright as the stars, it was still very beautiful.

However, not too far away from Heavenly Dragon Star, there was a black whirlpool that looked like a huge black mouth, it was a great beauty, and there was even the vague aura of a devil coming from it, causing everyone to feel terrified.

Yang You brought everyone back to Heavenly Dragon Star.

Long Chen knew that this was the Demon Star, and the two of them were very close to each other now that Mo Xiaolang was here.

"I hope there will be a chance for us to meet again."

Long Chen thought.

A hundred thousand divine dragons teleported into a world filled with the fragrance of flowers. When Long Chen arrived on this planet, he looked around and saw a beautiful world.

"This is the home we've been living in for a long time."

Yang You said from his side.

When they finally got home, the Dragon Fighter was very excited, and many of the youths were jumping up and down.

"Don't go yet, Young Lord. Follow me."

Standing there, Long Chen looked down. A hundred thousand Dragon Fighter stood neatly at his feet, their eyes filled with reverence, and amongst them, two Dragon Emperors were the leaders.

"Aunt You, this is?"

Long Chen was a little taken aback, he had just arrived at Sky Dragon Star, what was he trying to do?

"Swear."

Yang You said.

After she finished speaking, she took a few steps back and stood behind Long Chen, allowing him to face the hundred thousand divine dragons alone!

At this time, the Glowing Dragon Emperor and the Dark Dragon Emperor took the lead and half kneeled on the ground. Following them were all the Dragon Fighter s that were kneeling on the ground in unison!

A hundred thousand people. This scene was without a doubt quite spectacular.

Only Ling Xi stood at the side, not knowing what to do.

At this moment, the Glowing Dragon Emperor and the Dark Dragon Emperor loudly swore, "We pay our respects to the Young Lord!"

Following them, everyone lowered their heads in front of Long Chen and said the same words in unison. For a moment, even the orderly sounds from the surrounding mountains caused them to tremble.

Before Long Chen could react, the two Dragon Emperors said at the same time: "We swear an oath that from today onwards, we will unconditionally obey any of Young Master's commands. We will ascend the mountain of blades, descend the sea of flames, and we will not refuse it even if it costs us our lives! From today onwards, the Young Master will be the ruler of our Heavenly Dragon Star Dragon Fighters! We will follow them from their sides until our deaths and until our lives come to an end! If there is even the slightest bit of betrayal, then you will never be able to reincarnate! "

As they excitedly finished speaking, the unstoppable momentum in their voices caused the heaven and earth to tremble!

The one hundred thousand Dragon Fighters followed the both of them as they repeated the same lines, each of their faces were filled with excitement, because this was the meaning of staying on Sky Dragon Star, and they were all waiting for today's arrival!

There were even hot tears in the eyes of many elders!

In the beginning, Long Chen had not made any preparations, so he was a little stunned.

But after hearing what they had to say, he understood deeply what he meant to them. This may have been a huge amount of power on his part, but it was also an obligation that had to be fulfilled. He wanted to become their Young Master and lead them to glory, because he was Long Qinglan's son!

He had to shoulder all of this!

Of course Long Chen would not reject this kind of loyalty.

Without Yang You's reminder, he knew what to do.

He quickly said, "Everyone, please get up."

The two Dragon Kings led a hundred thousand Dragon Fighters, and looked at Long Chen with excited eyes, as they stood up.

Long Chen bit his lips and said resolutely: "I accept everyone's loyalty. From today onwards, I will do my best and do my best, you are also my companions, I will take back everything that I lost before, and I will also take back everything that my father lost! This is my promise! This is also my long-cherished wish

that I will fulfill for the rest of my life. Thank you all for travelling together with me, I vow here that even if I have to sacrifice my own life, I will not let you all down and even more so not let you all down! "

Everything that he said, was naturally everything that all the Dragon Fighters wanted to hear.

After all, using Long Chen as their Young Master was also a type of dangerous price to pay. After all, Long Chen was still young.

Hearing Long Chen's words, everyone cheered.

She softly whispered in Long Chen's ear: "I will relay today's matter to the Dragon God Domain. At that time, the people there will help you with your identity and status today, and they will have no choice but to look at you from an even higher level. "From today onwards, you are also my ruler, Young Lord!"

Long Chen turned his head around in a daze and said, "Aunt You ..."

Yang You said gently, "You can do it."

Long Chen was silent for a moment, then nodded: "Then I'll try my best to do my best."

Long Chen was not one that was harsh on others, so after the oath, everyone relaxed a lot. Those children really liked Ling Xi, so they surrounded her.

One of them was a young man called Zhang Huiling, who was young, but could be considered a genius on Sky Dragon Star. His inherited essence was the super dragon, Black Flame Tyrannosaurus, and he was an extremely brutal fire dragon.

At this moment, he was clamoring beside Ling Xi: "Big Sister Ling Xi, you are someone that Young Master likes, what should we call you? The young master's wife? Haha, it's not very nice to listen to! "

"Fuck you, we'll just call you Sister Ling Xi." A young lady by the side pulled Ling Xi's hand and said angrily.

It was a scene of bliss and bliss.

At this moment, Yang You said, "Everyone, you have returned. There is no need to restrain yourselves. Disperse. If you have any orders, you will be summoned again."

Yang You rarely appeared.

Hearing that, everyone seemed to have been released, for a moment, tens of thousands of Dragon Fighters turned into divine dragons and rushed into the clouds. Sky Dragon Star was very big, and since all of the divine dragons had their own homes, most of them went straight home.

"Do you have any questions for me?" Yang You said from behind Long Chen.

Long Chen indeed had a lot of questions.

Now that everyone was gone, it was a good time.

At this moment, Yang You's face turned cold as he said, "Please wait, someone who is blind has come."

Two of them, the Dragon Emperor, and all the warriors with seven star tribulation of reincarnation from Sky Dragon Star followed her. Outside of the sky, three human figures gradually appeared, one of them had a blood-red glow that overflowed the heavens, as if carrying a sea of blood. The other one was shrouded in gray clouds, and the middle one was a huge silver-gray beast.

They were respectively the Luo Sha Clan's Luo Sha Star Lord, Asura God Clan's Asura Star Lord and the Primal Chaos Star Lord.

As soon as the Dragon Fighter returned, the three of them caught up.

The Primal Chaos Star Lord stared coldly at Yang You and said, "Yang You, return the stellar nucleus of the resplendent star back to us. That is our item."

Star Lord Luosha laughed, "Long Qinglan is still dead. Without him, your strength would at most be on par with us."

Long Chen was also paying attention to the situation here, with Ling Xi standing beside him. The other children were all staring at the place, but they were not worried at all.

Facing these three powerhouses, Yang You's face remained unchanged as he said: "I've said it before, this is something our Young Lord snatched away, it doesn't belong to you. If you still refuse to give it up, then we won't be polite."

The Chaotic Star Lord and the others were still quite fearful of Sky Dragon Star.

After hesitating for a moment, he continued, "If you don't want to start a war between the Nine Star Alliance and Heavenly Dragon Star, then give it back to me."

Unexpectedly, Yang You said, "If you want to fight, then come at me."

Chapter 2069 - The Past

Yang You was a lot tougher than they had imagined.

Long Chen looked carefully from below. Honestly speaking, even though the hundred thousand divine dragons were all ruling over him, if it were because of him, a great battle would have occurred between them and the Star Lord of Primal Chaos.

He was thinking that if a bitter battle were to break out, he should just give the stellar nucleus to the Chaotic Star Lord and the others. When there was a certain amount of responsibility on his shoulders, he had to consider it.

However, Yang You obviously would not let Long Chen do that.

With her words, she had almost completely blocked off the Chaotic Star Lord.

Just when the Starlord was about to lose his temper, she said, "One day, he will definitely return. You should know clearly in your heart how miraculous it is that he is. If you don't grow eyes today, he will bring calamity upon you and your Chaos royal clan in the future."

Even though Yang You's words were simple, it had a huge impact on the two Star Lords.

The person the Primal Chaos Star Lord was most afraid of in his life, was probably Long Qinglan.

He had come today because he was unresigned and had the courage to do so.

With his heaven-defying abilities, he might really appear one day. As long as he appeared, he wouldn't have any chance of survival, and even if he were to fight to the death with his opponent today, he might not be able to defeat Yang You. But Star Lord Luosha and the Asura Star Lord might not be the opponent of the two old fellows, the Radiant Dragon Emperor and the Dark Black Dragon Emperor.

The two dragon emperors were already in full fury as they surrounded the three Star Lords.

The Dragon Fighter below, not only was they not afraid, they even cheered for Yang You and the two Dragon Emperors.

However, he endured it in the end. As the saying goes, there is no need to worry about the survival of the fittest, so coming here rashly was indeed lacking in preparation. However, it wasn't that easy to make him give up on the stellar nucleus.

He stared at Yang You and said, "That is not yours. If you recklessly swallow it, sooner or later you will be dead. In the future, I, Chaotic Clouds, will definitely come again to pay a visit!"

As he spoke, he led the Asura Star Lord and the Rakshasi Star Lord away.

Yang You seemed to have predicted that the other side wouldn't have the courage, so she came down directly.

The Glowing Dragon Emperor laughed out loud and said, "Three grandsons, to be scared off without even having a proper contest with their grandfather, you really are too timid."

When the Dragon Fighter heard this, they all started to laugh loudly.

Once they left, Heavenly Dragon Star once again returned to its previous cheerful and peaceful state. Ling Xi followed Zhang Huai Ling and the others to play, while Long Chen followed Yang You and traveled across the mountains and rivers.

Looking at the gentle and graceful woman in front of him, Long Chen had a kind of warm feeling in his heart. It was probably because she was Long Qinglan's companion.

Yang You did not speak the entire way, until he was far away from all the Dragon Fighter. He stood at the peak of the mountain, his dark green long skirt fluttering in the wind, his long hair fluttering, like a flower blooming in the wind.

Her gaze was like a quiet lake, deep and mysterious, calm and natural without the slightest ripple, but it was precisely because of this that countless tempting secrets seemed to be hidden within.

Long Chen really wanted to find out more about Long Qinglan from her. Even if the Primal Chaos God had appeared strangely, Long Chen would still go and complete Long Qinglan's last wish. That was what he had said to his father, and it was also how he paid back the debt.

He stood next to Yang You, and right above his head was the black vortex created by the demonic star. Within the black vortex, one could faintly hear the sound of weeping and howling, which caused one's hair to stand on end.

But that was not the point.

"What do you want to ask me? Ask away."

Yang You said cordially.

No matter what, she might be very cold and detached towards others, but she had always been gentle and amiable towards Long Chen.

Long Chen naturally would not be polite. After he organized a bit, he began to speak, "I want to know about my father's matters. About his childhood, youth, and some key things ..."

"Oh!"

Yang You tried recalling it, but it was as if there were countless emotions hidden in her eyes.

After a while, she said, "He was an orphan, and both his parents died when he was young. Initially, he was abandoned because no one cared about him, but after his first time cultivating, he displayed a talent that defied the heavens, and in the end, he was taken in as an adopted son by the First Dragon Emperor of the Everlasting Dragon City. He rose swiftly in power, and in the span of a few thousand years, he became an unrivalled expert that no one in the world could stop. That era was his own era, and there is no one in the world who is a tenth as sharp as him. "

Speaking up to here, Yang You smiled in satisfaction, as if recalling this man's heroic and majestic figure. In this world, no one could match him. What a mighty and domineering aura!

Long Chen also seemed to have seen the him of that era.

His eyes were filled with worship. Even though Yang You's words were simple, he could imagine that scene.

"However, when he stood at the peak of life, his status began to undergo a drastic change because of one thing."

Yang You looked at Long Chen, and said with shimmering eyes.

This should be the turning point of Long Qinglan being recognized as a traitor.

Long Chen did not interrupt her, but listened quietly.

"After he became invincible throughout the world, he began to explore this world, searching for the answer he wanted. His first target was the demon star in front of you, he used his great abilities to rush into the demon star. When he came out again, he changed. He became very mysterious at that time and excitedly told me that the cultivation method of a demon is free and runs counter to the Heavenly Dao. Perhaps this will allow him to unravel the secrets of this world. Thus, he used his great ability to release the devils from the devil star and lead them back to Dragon God Domain. He wanted to use some sort of method to turn a part of the devils into true deities, but he failed ... "

"Wait."

Long Chen interrupted her and asked: "Is there anyone who knows that he wants to transform the devil into a god?"

Long Chen had never heard of this before, was this the true reason why Long Qinglan released the magic on the Demon Star? Long Chen only remembered one thing, and that was in the legends of the War God's Ancient City. The Eighteen War Gods were bedeviled first, and then they shed their martial magic seed and became Divine Spirit.

Yang You replied, "Not many people know about this, just a few Dragon Emperor s. The key point was, he failed. The devils lost control of their bodies and caused huge damage to the Dragon God Domain, causing huge losses. Even though he once again sealed all of the devils and allowed them to return to the devil planet, he is still strong, but among the humans, he no longer has the prestige of believing in the world. From that point on, he became dispirited, but he did not give in, he left the Immortal God Realm, he did not know where he went, and even the entire world could not find him, I also could not find him. "

From then on, she had truly lost contact with Long Qinglan.

Long Chen could imagine the situation at that time, he had originally had a lot of thoughts but because of the heavy casualties in the Dragon God Domain due to failure, countless people suspected that he must have felt a lot of pressure in his heart. However, it was very possible that he knew some extraordinary secrets that would be made public immediately.

Therefore, he chose to search by himself.

Just as he had told Long Chen back then, he was searching for the mystery of the Divine Dragon's extinction!

"It looks like if I want to know what my father did, I have to return his innocence. I have to truly understand what a demon is and why he did it that time!"

This is the key.

"And then?"

Long Chen continued to ask.

Yang You felt extremely regretful as he said, "One day, when everyone had almost forgotten about him, he appeared again. This time, he appeared on the battlefield of the gods, and at that time, he seemed to be injured, his mind was extremely crazed, and he even spoke words that many people could not understand. He decided to destroy the battlefield of the gods, among the Five Dragon Cities, the Five First Dragon Emperor, including his foster father, had joined hands to stop him, as well as many warriors from the Five Dragon Cities.

"I did not participate in the battle and did not know the details of the situation, but I heard that he had crazily killed a lot of human experts, causing the strength of the human race to decline, and was at a disadvantage when fighting against the demon race. Even an ancestral tomb like the one that was the Wars of the Gods was almost destroyed, and after that he disappeared once again, but because of this matter, the human race began to feel completely disappointed in him, but they still believed that we were the only people following him, but at that time, the five First Dragon Emperor were extremely angry, and they also sent us here. As for his reputation from now on, it's like what you've heard. Under the influence of the Five Dragon Cities, many truths were concealed, what's left is him falling off the throne, and that's all he has to live for ten thousand years!

The Infernal Star, the battlefield of the gods!

These were the last two changes to Long Qinglan.

From the hope of the devil star to his madness in the World of Gods, all of this meant that he probably knew some rare changes and secrets, and even wanted to destroy the World of Gods at all costs!

"He must have known something that made him act this way! With his personality, he wouldn't go crazy all of a sudden, but why didn't you tell me directly, Father? "

Long Chen was excited!

He understood that in order to find out exactly why Long Qinglan underwent such a change, and where he went, only by going to the devil star and then to the battlefield of the Gods would he be able to find out ...

The Demon Star was right in front of him, but with the power that was in front of Long Chen, it was impossible for him to enter the Demon Star.

While he was struggling in his heart, Yang You said with a dull expression, "After he left the World of Gods, he disappeared again." One day, he appeared again and his body descended from the skies, landing on the Everlasting Dragon City. At that time, he would already be a corpse. That's why everyone was sure he was dead, but how did he die? To this day, I still do not know, and all of this has always been a secret. "

Chapter 2070 - Fixed stellar nucleus

Long Qinglan had told Long Chen that he had suddenly been killed while he was pursuing the mystery of the Divine Dragon Extermination, and even he did not know who it was that had killed him!

He was a pioneer, a person with dreams and persistence. From what Yang You had said, everything about this man who caused others to respect him surfaced clearly in Long Chen's heart!

Long Chen believed even more that he was definitely not a reckless person and that his heart must be filled with difficulties. He knew everything, yet he was rejected by the world and bound by people who were disorderly.

Long Qinglan definitely knew a lot, but he didn't really explain it to him.

Even that God of the Beginning was probably one of the secrets.

This world was full of mysteries.

With the extinction of the Divine Dragon and the destruction of the Dragon Sacrifice Continent, how long could this world last?

Those people in the upper echelons of Five Dragon Cities, with their foolish hearts, how could they understand the thoughts and goals of such a genius?

Long Chen was extremely angry in his heart!

He suddenly thought of something, and asked, "Aunt You, the number one Dragon Emperor of the Eternal Dragon Emperor is his foster father.

Yang You said: "Existence, is also a martial artist close to the Divine Spirit Realm. They have already passed through the Eighteen Major Tribulations, but should not be able to become a Divine Spirit.

Before his accident, the first Dragon Emperor had always regarded him as her own son. With your appearance, the person he would care about the most would probably be him. I believe that he would send you to see him before long.

"Grandfather?"

Long Chen could not help but laugh.

Was he the grandfather of someone who had obstructed his father in the World of Gods? Although Long Chen didn't understand everything, he was not an idiot. He could guess that this so-called grandfather would definitely treat him badly. Long Chen did not think that it was the same thing.

Long Qinglan's death, was almost ten thousand years away.

I believe that he died a long time ago, but your appearance, your age, has definitely caused them to panic. You only appeared a long time after he died, so there are still people in the upper echelons of Five Dragon Cities who do not believe in your identity. It is also possible for you to appear in this world after a few thousand years. "

Long Chen understood this point.

No matter what, he couldn't say anything about the matters of White Poplar Town.

So as not to affect the other side.

However, if it was as Yang You had said, Long Qinglan had died in Everlasting Dragon City on that day, why would he appear in White Yang Town several thousand years later and still bring up? This was also something that Long Chen couldn't wrap his head around no matter how much he thought about it.

Yang You didn't question much about Long Chen's background. She was familiar with Long Qinglan, and could tell at a glance that Long Chen was his son.

"You should also want to know what exactly is going on with that person who brought us to the Brilliant Stars and looked exactly like your father, right?"

This was Long Chen's second question today.

He organized the information from before and put it aside for now. Then, he nodded and said, "Yes."

Saying this, Yang You helplessly shook his head and said, "At the beginning, I also thought that your father had been reborn, but later he told me that he wasn't. He was even more mysterious than your father. He told me that Long Qinglan's son would appear there, told me that the Taiji Creature Dragon's inherited blood essence would appear there, and also told me that he would make you stronger. Because he's too strange and powerful, I could only trust him. We got you, and this mysterious man disappeared. "

Hearing all these, although he had expected it, Long Chen still couldn't help but be disappointed.

It turned out that Yang You was the same as him, she didn't know anything.

Her time with Long Qinglan was mostly before he became a peerless expert, reached the top of the world, and his life went awry. She did not seem to know about everything that had happened after that.

Thus, everything that Long Chen wanted to know was mostly clear now.

"You still yearn to find out what's going on, to find out what's going on in the Infernal Star or the Divine Battlefield, right?"

Yang You asked gently.

She reached out her hand, and caressed Long Chen's hair.

Long Chen was startled for a moment, and immediately nodded: "Yes."

With a veil covering his face, Yang You shook his head and said, "It's fine if you can't go, Demon Star. I'll guard here. There will be a day when I understand." But, if you are going to return to the Dragon God Domain, and you want to find out what exactly happened, you can start from the battlefield of the Gods, but you have to be careful in everything you do. "

Long Chen's heart had an extremely strong desire!

He wanted to find out what exactly had happened. He wanted to find out what that man was chasing after even at the cost of his life!

Therefore, he would definitely go back and prove to them that everything was gone!

This was his determination, his destiny, his explosive desire for his father!

Because, Long Qinglan gave him everything.

"I understand." Long Chen said as he nodded his head.

Yang You nodded in satisfaction, and said, "However, you must at least enter Samsara and inherit the Taiji Creature Dragon's blood essence before you can leave. "During this period of time, you can focus on training on Sky Dragon Star."

Long Chen nodded. "Okay."

"Any other questions?"

Yang You asked gently.

Long Chen thought for a while, then said: "Can I take your veil away, and look at you?"

Yang You was startled, but quickly took three steps back and said, "No." Not in the future. "Got it."

This was her most serious moment of the day.

Long Chen was a little stunned. In fact, in his opinion, this was a small matter, but if the other party was unwilling, then he had no other choice. He smiled awkwardly, and said: "I'm sorry, Aunt You.

"No worries." Go and play with them. I'll be quiet for a while. "

Yang You said softly.

Long Chen nodded and said his farewells, leaving her behind. When they were on the road, he remembered everything Yang You had said and suddenly turned his head, only to see that Yang You had already disappeared from the summit.

"The Devil Star, the War of the Gods, God of the Beginning!"

Long Chen's mind was still a blur, he estimated that he would need a long time to organize his thoughts.

When he returned to his original place, he raised his head and saw more than ten young divine dragons flying and playing in the sky. They would occasionally smash through the mountains and charge into the great river, causing waves to fill the sky as they laughed merrily.

Ling Xi was currently surrounded by a group of small dragons, laughing merrily with them. Seeing her relaxed smile, Long Chen felt much better.

Long Chen's arrival immediately attracted everyone's attention.

"Young Lord, Young Lord!"

Zhang Huiling and a few other small dragons flew up and circled Long Chen, very cheerful.

Ling Xi arrived beside him, grabbed his arm, and asked softly: "Are you done asking?"

Long Chen nodded.

At this time, the Radiant Dragon Emperor smiled and said, "Young Master, and the Young Master's wife, please follow me. I have already set aside a piece of territory for two people on Sky Dragon Star. Without your order, no one is allowed to enter."

Hearing this, the little dragons began to heckle nonstop.

The face of the Glowing Dragon Emperor stiffened, immediately scaring them away.

Long Chen brought Ling Xi and followed the Brilliant Dragon Emperor's departure. Sky Dragon Star was huge, the two of them could not live in an unsettled place. As the Young Master, it was only right for him to have a piece of land of his own.

The Radiant Dragon Emperor brought Long Chen and Yue Yang to the sky of a beautiful lake. The lake was very large, and even if Long Chen took the shape of a dragon, he would still be able to roam about.

The surroundings of the beautiful lake was an emerald green vegetation, birds chirping and the fragrance of flowers, it was a paradise on earth. Seeing this kind of place, Ling Xi was naturally very happy, the wonderful smile on her face could not be hidden.

"This lakeside with a radius of 50 miles is your territory. I have already drawn a line in the outer area. As long as the two of you can come in, or receive your orders, then you can come in." You can cultivate here. Of course, it will be lonely staying here all the time. Young master you should always travel around Sky Dragon Star, if there is anything you don't understand, you can ask this old one anytime. "

Such a big place was indeed wonderful.

Long Chen looked at his surroundings, then said: "Thank you, Uncle Bai."

"Of course, of course. Alas, once this person grew old, he would easily forget about important matters. There was one more thing, it was about the stellar nucleus. In order to avoid unnecessary trouble, this old one feels that it would be best for Miss Ling Xi to communicate with the stellar nucleus quickly, and even slowly fuse with it, until it finally succeeds. "

In reality, Long Chen knew nothing about the fusion of stellar nucleus.

He asked, "Uncle Bai, what exactly should we do?"

The Glowing Dragon Emperor said: "I heard that she has previously controlled the original stellar nucleus of the Brilliant Star, and now that the two stellar nucleus have fused, among the newly born stellar nucleus, she definitely has his mark, so she will not be rejected by the stellar nucleus, but with her strength, to fuse with such a powerful stellar nucleus, it is definitely not something that can be accomplished in a day, I discussed with Old Black for a while and felt that he can stay at the bottom of the lake to train, interact with the stellar nucleus, fight for the fusion, it should be possible, and it will

bring about a huge increase in her strength, and once she succeeds, she will directly become the Brilliant Star Lord!"

Long Chen and Ling Xi looked at each other. They both felt that this was a heavenly good thing.

The Radiant Dragon Emperor continued, "You can rest assured. With Miss Yang You here, as long as anyone approaches Heavenly Dragon Star, she will know. Even the Star Lord of Primal Chaos wouldn't be able to come here and snatch the stellar nucleus away. So, you can just release the stellar nucleus, and Old Black and I can keep the treasure safe. "

Long Chen said: "Then thank you, Uncle Bai."

The Glowing Dragon Emperor waved his hand and said with a smile, "Old Black, hurry up and get out here to do some work."

With a whoosh, a black ray of light shot over from the distance and instantly stood in front of Long Chen. The Dark Dragon Emperor saluted respectfully, and then he quietly followed the Radiant Dragon Emperor in fixing the stellar nucleus!
