

## War God 2171

### Chapter 2171 - Invincible Bravehearts

The Soulshake Maple Dragon actually belonged to the Dragon race.

Different from Star Dragons, the Soul Dragons were better at soul attack and defense, while their physical bodies weren't strong. But to grow to the pinnacle, one could control the minds of all living things, controlling a million divine dragons, such as the Soulshake Maple Dragon, to have this ability. In the The Age of Dragons, the Soul Shocking Maple Dragon was one of the representatives of the Soul Dragon Clan.

The most powerful part of the Soulshake Maple Dragon was not inferior to the Eternal Blood Prison Dragon. It was much more terrifying than his slightly literary name.

Their dragon scales were shaped like maple leaves and were also the same color as the maple leaves when they were red. In terms of appearance, the soul-shocking maple dragon could be considered to be at the very peak. However, their strength was also extremely frightening.

And Yang Jing, relying on the inheritance blood of the Soulshake Maple Dragon, possessed the current reputation and ability.

His pupils constantly changed shapes, to the point that they even revealed the appearance of a maple leaf.

At this moment, he was already standing before Liang Teng's eyes.

The result of the battle between the two of them would directly determine the outcome of the battle between the two teams. This battle was very fair. The performance of the War Dragon Clan was far beyond everyone's imagination. At this time, everyone knew that the Battle Dragon Clan truly had the strength to fight the third clan!

There was almost no difference between the two!

At this moment, everyone was cheering for the strongest cultivator from both sides.

Long Chen was also looking at these two. Even though they were the same age, Long Chen had already far surpassed them. Today, they were the main characters.

As for who would win and who would lose, Long Chen knew that Liang Teng would win, because he was very similar to him, it was just that he was used to being silent.

Amidst the most intense cheers, the battle officially began!

At the very beginning of the battle, the Soul Shocking Maple Dragon and the Celestial Destroyer Star Dragon transformed into the shape of a dragon. The orange Soul Shocking Maple Dragon with the maple leaf dragon scales and the pitch black Celestial Destroyer Star Dragon quickly fought with each other. What finally decided victory or defeat was not the difference in strength, but a battle of wills!

In terms of physical strength, even ten of the Soul Shocking Maple Dragon's were not a match for the Celestial Destroyer Lonely Star Dragon.

In terms of primordial spirit control, the Heavenly Calamity Solitary Star Dragon was not even a match for the Soulshake Maple Dragon.

Their actual strength was about the same, so the most important thing was, whoever could take more damage, who would be tougher, who would be crazier, and who wouldn't be afraid of death!

When facing on a narrow path, the brave win!

Who could it be?

Long Chen knew that it would be Liang Teng.

He had that vision.

"Compared to the two, Liang Teng's background is humble, but he has tempered his will. His many years of patience have increased his endurance and mental fortitude. And although this Yang Jing is also very hardworking, he cares more about himself than about the honor of the Third Family. "

That was the key.

Those who fought for him, the only power he could display, would always be his.

People who fought for their partners, loved ones, and lovers, the power he displayed would often surpass his own limits and reach a level that even he hadn't expected!

That was the power of faith!

When Long Chen was on the Dragon Altar of Inheritance and connected to the trillions of lives and lines in the Dragon Sacrifice Continent, he felt that his life no longer belonged to himself. This made him understand this principle even more clearly!

It was not unreasonable that he could fight to this extent.

This was because most of the time, he had to fight for the sake of his dignity and honor!

Both sides were extremely excited. Liang Teng had already been controlled, and was at a disadvantage. He was in a very miserable state, his body was covered with wounds he had made.

When the Dragons shouted out for him and went crazy for him, Long Chen fell into his own deep thoughts.

He did not need to look at the battlefield; he knew that the outcome would definitely be Liang Teng's victory.

Out of the tens of thousands of people present, no one had a eye as Long Chen did.

At this time, the people of the third clan were already cheering for the Soul Shocking Maple Dragon's victory. What they saw was the Heaven Calamity Consecutive Star Dragon's miserable self-abuse under the control of the Soul Shocking Maple Dragon's primordial spirit.

"A group of lowly creatures actually dared to fight against our third clan!"

The beautiful woman from the third clan couldn't help but mock him.

"What did you say!"

Suddenly, Liang Teng's eyes widened.

He had actually broken through the control of the origin soul!

His pair of sharp eyes stared unwaveringly at the beautiful woman!

"We are not despicable at all!"

It was as if he was roaring out an endless amount of anger and resentment.

His eyes were bloodshot and burned with a terrifying rage. In that moment, he was like an iron sword that rushed into the clouds, entangling that Soul Shocking Maple Dragon within!

His dragon claw, dragon teeth, and dragon tail were like steel bars. That fragile looking Soul Shocking Maple Dragon simply wasn't his match. Under his entanglement, it instantly became severely injured and cried out in misery!

"Admit defeat, or else the pain will be endless!"

Liang Teng had killed his opponent, and his entire body was drenched in blood. However, he couldn't make him take a step back.

The Soulshake Maple Dragon was still resisting.

Liang Teng didn't bother to be polite with him and used his strength once again. The dragon claw pierced deeply into the other party's lower abdomen, almost piercing through it.

"Admit defeat."

He finally said two people.

At this moment, those who had not expected such an outcome were stunned.

Only Long Chen's expression did not change in the slightest; this was the outcome he knew from the very beginning.

"Is this the power of time, or my guess?" In reality, even before the battle had begun, he had already seen a scene like this.

There were still many secrets of the Great Void Cosmic Dragon.

"I concede!"

When Yang Jing discovered that his soul attack could no longer cause any damage to Liang Teng, he had no choice but to admit defeat.

It was the right choice.

Liang Teng let him go.

The frightened maple dragon fell to the ground and was taken away by the people of the third clan.

That beautiful woman looked at Liang Teng blankly, and then looked at Long Chen.

The Third Tribe was defeated!

From this day forth, the name of the Third Tribe would no longer exist. They would become part of the Fourth Clan, and would fall out of the top three. This was because the top three would always have the greatest limelight.

This fact caused the surroundings of the Furious Dragon Battlefield to fall into a momentary silence.

Finally, someone announced the Dragons' victory.

Liang Teng turned into a human and stood on the Raging Dragon Battlefield, looking around in a daze. He had never thought that he would have such a glorious day, and all of this was because of Long Chen.

He turned around and looked in Long Chen's direction.

Suddenly, he knelt on the ground and kowtowed deeply to Long Chen.

Long Chen did not stop him.

"Go back." The martial battle with our potential is over! "

Long Chen raised his arm.

They had already entered the top ten. If they beat the third, then their original ranking should be third. Every team had the qualifications to challenge them, but Long Chen disregarded these rules. In reality, he believed that no one dared to challenge them!

He left with the Dragons, and no one stopped them.

As for whether or not he would become the first clan? This wasn't necessary, as this battle was already burdensome for them. Time to go back and rest.

Everyone was watching them leave.

After they left, everyone looked at each other in dismay.

"The Slaughter Dragon City is indeed different."

"That's right, this son of the Eternal Dragon Emperor is rising too fast. We were just a little careless, and he's already above us."

"Who knows what his future will be like? Was it a new Long Qinglan who was unrivalled in the world, or was he killed midway? After all, he has too many enemies. "

"Whether or not he will survive through all these dangers will depend on himself."

They returned to their War Dragon Palace.

His current mood was completely different from when he had left this place.

Each of them had experienced a baptism of life.

Especially Liang Teng, Pang Hong, and the others.

When they got back here, they were finally liberated. However, they were well aware that strength was the only power in their words. Therefore, they could not be arrogant, or else they would be eliminated sooner or later. The entire War Dragon clan couldn't let one or two people hold on.

The martial battle of potential would soon end.

They had indeed become the new Third Race.

Long Chen's name shook the world once again.

His position, and even the entire Dragon God Domain, were quietly changing.

Long Chen started his life of cultivating quietly in the War Dragon Palace.

He always felt that he was missing something.

Was it Ling Xi's close companion, or was it the hot blood of a fierce battle?

In the end, he remembered that what he was most concerned about was still Long Qinglan's corpse. He agreed to wait for Ling Xi's arrival, but as time passed, whenever he thought about the fact that he was still lying in Everlasting Dragon City, Long Chen could not hold back.

He had to go once!

But for Ling Xi, he had to endure, and not let her worry too much. When a person grows up, they have to shoulder this kind of responsibility, and even more so, don't let things go wrong, because there were too many people who were worried.

In the span of a long time, he began to study the keys and stone locks carved into the bodies of the Destiny Dragon City and the Star of Destiny, as well as the things that the Slaughter Dragon Pearl had entered into his body. He began to study the path of life, the life forms of the gods, and the connection between the Black Jade Dragon's words and the legacy of the dragon.

But everything was a mystery.

Even everything about Long Qinglan was a mystery.

With so many questions, he couldn't help but feel lonely.

He would occasionally talk to Li Xuanji but she was still in Dark City and no one dared to mess with her anymore.

One day, a person arrived at the War Dragon Palace.

One of the disciples opened the door for him.

"Who are you looking for?"

"Long Chen."

"Oh, oh. I'll take you to see him."

Long Chen felt the arrival of this Ranker. He had let the disciple leave first, and now, the person standing in front of him was someone he had met once before.

He was, the one in charge of the slaughter dragon tomb, the one with strength comparable to Yang You and the Chaotic Star Lord, Tianmu Emperor!

At the moment, his eyes were looking at Long Chen.

"Long Chen, you have improved a lot again."

Long Chen stood up and asked indifferently: "Emperor Tianmu has come, what can I do for you?"

He wasn't afraid of him making a move.

This was because the Slaughter Dragon City was the territory of the three Dragon Emperor.

Tianmu Emperor sneered and did not say a word.

Chapter 2172 - SemiGod Body

Now, Long Chen had displayed his terrifying value.

Without the order and permission of the three Dragon Emperor s in Dragon City, no one would dare to even touch him in Dragon City.

Thus, he was not worried about the Tianmu Emperor taking action.

This kind of crafty person would not be so impulsive.

But what was he doing?

Tianmu Emperor circled around Long Chen, and said while clicking his tongue, "tri-level tribulation of reincarnation, can actually kill a Seven Star tribulation of reincarnation disciple. This was truly terrifying. The Unparalleled Dragon s are actually this terrifying? "

Long Chen said: "Who said I am a Unparalleled Dragon? In fact, I don't know myself. Maybe it's just Ultimate Dragon s. "

What he wanted to know was what he wanted to do.

At this moment, the Tianmu Emperor stopped in his tracks as those withered yellow eyes looked at Long Chen and said solemnly: "Looks like you have already thought that you might be my match once you reach the Four Symbols tribulation of reincarnation. Right? "

Long Chen did not answer.

However, based on the current progress, it seemed that they were almost there. If he could defeat Long Qingyue now, and when the five element tribulation of reincarnation were almost complete, wouldn't he be able to kill this Tianmu Emperor?

Of course, he also knew that the closer one's tribulation of reincarnation got to the Divine Spirit Realm, the greater the change would be, and the more terrifying it would become. The gap between him and the earlier stages would be even greater.

So it was hard to say if he could kill the Tianmu Emperor at that time.

At this time, Tianmu Huang laughed involuntarily, his face was full of ridicule and he said: "Looking at your face, you must be thinking the same thing." Truly young and ignorant. Maybe, you don't even know the meaning of the eight trigrams and the cycle of reincarnation, which is not something that talent can make up for. "

Long Chen indeed did not understand the realm of the highest levels.

The hegemon of the Emperor level and ultimately the existence of the Emperor level.

and even Spirit King who had transcended fifteen Dragon Emperor s.

He didn't understand.

Currently, his true level was only tri-level tribulation of reincarnation.

Tianmu Emperor looked coldly at Long Chen and continued, "From the start of the Seven Stars Reincarnation, the road to the true beginning of the Path of God. The Seven Star Samsara suffered the test of the Seven Star Ancient Gods, went through seven stages of death, and had the initial power of the Spirit Realm. But now, you can fight against a Spirit Realm powerhouse. It is truly inconceivable, but it is mostly because you possess a kind of power similar to the power of the gods. Otherwise, you won't be able to fight against a Spirit Realm expert. "

What he meant by 'divine power'.

What he said was right, if not for the Absolute beginning Divine Spirit giving him power to fight against the power of the gods, it would be truly difficult for Long Chen to defeat someone at Long Qingyue's level.

"What are you trying to say?" Long Chen asked directly.

He bit his lips and sneered: "What I want to say is that for warriors like me, who have already stepped into the cycle of Samsara, even if I had just stepped in, a single person would be able to kill tens of warriors with Seven Star tribulation of reincarnation. This is because the Eight Trigrams Tribulations have truly opened up the path to a divine ascension platform. After experiencing the tribulation of the Eight Trigrams, we are definitely on the verge of death, possessing the body of a demigod! "

His vicious look didn't seem like he was joking with Long Chen.

Long Chen had indeed felt that Bloody Blaze, Yang You, and the others were just too strong when compared to the Seven Stars tribulation of reincarnation. It seemed as if he was much more powerful than the Illusory King and the others. Even the Glowing Dragon Emperor and the Dark Dragon Emperor had a feeling that they couldn't resist.

It was as he said. In that case, the Overlord would truly be extremely terrifying. Even if Long Chen reached the Four Symbols tribulation of reincarnation, he still might not be able to go against them.

The transformation from the Taiji, god of tai-su and Primal Beginning Gods earlier on was even more of a life-level calamity, not an increase in strength.

"Do you know what true gods are like?"

Tianmu Emperor stood right in front of him, glaring at him like a tiger.

Long Chen shook his head.

Tianmu Emperor sneered, then gently pulled open his chest, revealing his chest and abdomen.

Long Chen was instantly attracted to his chest.

"This is the body of a demigod!"

Long Chen was attracted by the scene between his chest and abdomen

It was a tree!

Starting from his dantian, the trunk rushed up to his neck and branches and leaves covered his entire body. Rays of light circulated within his body, illuminating his flesh, his bones, and his organs. The interior was extremely pure, sparkling and translucent like beautiful jade. It didn't look like a human body, but more like a work of art.

At the center of his chest was the center of the tree. There seemed to be a point of light here that was sometimes weak and sometimes intense. The light was flashing like a heartbeat.

Tianmu Emperor pointed to the tree in his body and said: "This is the World Tree. What was the World Tree? It was the structure of a god's body. The body of a god was also like a small world. As for the core of my chest, it is the 'World Core', also known as the 'Heart of Rules'. If I were to become a Deity in the future, this place would be the core of a Deity. This is an extremely marvelous place. "

At that instant, Long Chen was indeed very shaken.

A human body could actually turn into this. It was truly unbelievable.

"Do you see the tiny spots on those countless leaves?" Tianmu Emperor said proudly.

Long Chen saw that there were countless small dots, which seemed to be millions of small dots, densely packed and releasing the aura of life.

"This is the Divine Palace. You can't see what use the shrine has right now, but I've heard the legend, real gods have one billion palaces on them. In every palace, there is a living being, and that is the real life form that provides power to the gods. Every single deity had a billion living creatures in their bodies. Perhaps, these one billion living creatures should supply the divine power! "

Weng! \*

Long Chen listened in a daze.

Of course, he had only known that gods were powerful, but he had no idea what true gods were. He only knew that it seemed as if the gods understood the Heavenly Dao and controlled a region's rules, allowing them to control the world and destroy it. However, not many people knew the exact details.

Tianmu Emperor was one of them.

"My Divine Palace only has five million at the moment, and it hasn't even awakened yet. Therefore, it could only be called a demigod body. This world tree could also be considered a rudimentary form, but it also brought about terrifying effects to the martial artists of the Eight Trigrams Reincarnation cycle. What's more, relying on the palace, we can derive the highest level of power, a divine power that is even more terrifying than the divine power of all living things! This is the true power of us Eight Trigrams Samsara martial artists. This is also the reason why we can be compared to hundreds of Seven Star tribulation of reincarnation martial practitioners by ourselves! "

Speaking to here, the Tianmu Emperor covered up the World Tree, Heart of Rules and five million Divine Palace which he had shocked Long Chen with.

What truly made Long Chen revere him was not the Emperor Tianmu, but the divine spirit, and even more so the Ancestral Dragon above the divine spirit.

A divine god had a billion divine palaces in his body, and a billion living creatures within them. A billion lives?

His body was like a vast world.

If that was the case, the gods truly had the ability to destroy the heavens and the earth. Even the Immortal God Realm, such a sturdy world, could easily be destroyed.

The Eight Trigrams Reincarnation formed the body of a demigod and became the elementary form of a deity.

However, what was Tianmu Huang's purpose in showing all this to him?

Long Chen looked at him warily, and asked: "Sir, you have said so much, why are you introducing me to the Eight Trigrams Reincarnation, what exactly do you want to say?"

Tianmu Emperor had long since been waiting for him to say this.

He narrowed his eyes and said: "I'm here to tell you not to think you've defeated Long Qingyue. No matter what you say. You still cannot escape the shadow of death. Because the experts above Long Qingyue are too much stronger than her. "

"It's you, isn't it?" Long Chen could not help but sneer.

Tianmu Huang nodded without hesitation.

He looked at Long Chen gloomily and said, "If you want to surpass me, ten years is impossible, unless you also reach the eight trigrams reincarnation cycle within ten years, and possess the body of a half-god and the divine power of all living beings. But was that possible? If an ordinary person was lucky enough to survive, they would need at least twenty thousand years. Even your father took nearly two thousand years. He was also very fierce in the early stages, but once he reached the Seven Star tribulation of reincarnation, his speed began to decrease. "You too."

Long Chen laughed, and declined to comment.

"Don't be complacent. I'm waiting for the day when your power stagnates. As long as you don't truly enter the eight trigrams cycle, I'll never be afraid of you. Once the growth of your strength stagnates, and once you are unable to obtain the same strength as Long Qinglan, the three Dragon Emperors will give up on you.

He sneered.

"Once you're done, let's go."

Long Chen knew in his heart that if he was not progressing as quickly as he was now, and if his cultivation was no longer as terrifying as an ordinary person's, then there would definitely be a lot more people who would want to kill him, and not just just Tianmu Emperor.

Of course, we can only deal with the Emperor Tianmu if we enter the eight trigrams reincarnation cycle?

Long Chen did not believe it.

He believed that even if the Four Symbols tribulation of reincarnation was impossible, the Five Elements and Six Daos were not impossible!

Everything would be revealed in the future.

"I hope the next time we meet will be your death."

This was the enmity of someone who had killed his son.

It was already a miracle that Tianmu Huang had been able to endure for such a long time.

After he finished speaking, he slowly disappeared from Long Chen's sight, his laughter still resounding in Long Chen's ears.

"World Tree, Heart of Rules, billion god palace, and myriad living beings' divine power!"

The structure of that divine body continued to stay in Long Chen's mind.

From the tree trunk, countless leaves extended out, filling every part of his body.

The difficulty of becoming a god was this high, no wonder Long Qinglan was unable to become a god.

And how did those Archaic Gods of the Archeozoic era become deities?

Of course, these matters were very far away from him.

"I want to see what level of strength I have to be able to face this practitioner with the Body of a SemiGod, the Eight Trigrams tribulation of reincarnation!"

He began to cultivate.

It charged towards the Four Symbols tribulation of reincarnation from the Three Powers.

Of course, they still had to obediently go to the late stage of tri-level tribulation of reincarnation first.

According to his terrifying speed, it would not take long.

The days were quiet again.

The Wardragon clan didn't have much to do, so they focused on improving themselves.

This kind of peace lasted all the way to the end of the day. A person who had never thought of coming here to look for him had brought him an exciting piece of news.

Chapter 2173 - Yongye

That night, Long Chen was standing at the top of a tall tower in the War Dragon Palace.

After cultivating for a long time, today, he spoke with Ling Xi for a period of time.

Just as he was about to go down, he suddenly felt someone's presence.

An illusory figure appeared in front of him.

He slowly revealed his true form.

Long Chen had a very strong impression of this illusory figure. Before this, he had seen that only the number one and eternal Dragon Emperor of the Everlasting Dragon City could give him this feeling.

"Eternal Dragon Emperor, why is this old geezer looking for me?"

Long Chen became vigilant.

In his eyes, this old man was not a good person. Long Qinglan's final outcome, was largely related to him. Even if he hadn't personally caused it, it was also related to his lack of action.

That figure gradually materialized until it reached the back. From the outline, it did not seem to be the Immortal Dragon Emperor.

This was because the Immortal Dragon Emperor was an old man, and in front of him was the silhouette of a gentle and graceful woman.

Very quickly, Long Chen got his answer.

This person's appearance, brought about a deep shock to Long Chen. It was as if she was born in the dark night. It was so tranquil and natural.

This was a beautiful lady with a pair of bright eyes, whose age was hard to determine. She wore a light white gauze dress that left her hair fluttering in the night sky. It had to be said that she was very beautiful, but that was not important. What was important was that this woman had a temperament that could not be described with words, she seemed more like the combination of Li Xuanji's calmness and beauty with Ling Xi's spirit energy.

This kind of silver haired woman floated in front of Long Chen's eyes. A pair of eyes, which were as black and bright as the night, coincidentally looked at Long Chen. It was very comfortable to look at. There was not the slightest bit of fear in his heart, nor was there the slightest hint of desecration.

Long Chen was just curious as to who she was.

With this woman's strength, it was obvious that she was much stronger than him. In that case, she definitely wasn't of the same age as him. Although he looked young, and he looked around the same as Long Chen, Long Chen guessed that he should at least be of the same generation as Hui Ran, or maybe even more than that.

After all, she seemed to be a little too strong.

Long Chen did not dare be rude, and immediately asked respectfully: "Junior Long Chen, may I know who you are?"

Hearing those words, the silver-haired woman's smile became even wider, revealing a deep dimple in her cheeks. There was also a hint of cuteness in those words, making people want to get close to her.

Her voice was just as gentle and moving as her own.

She did not conceal anything and said softly, "I come from Everlasting Dragon City. I am the third Dragon Emperor, the Eternal Night Dragon Emperor ..."

This scared Long Chen.

In fact, his intuition from the beginning wasn't wrong. He thought that the Immortal Dragon Emperor had arrived. Now that the silver haired woman revealed her identity, she was also on the same level as the Immortal Dragon Emperor.

However, he hadn't expected that someone at the Grandmother level would be so young and beautiful.

From the looks of it, this woman was already very old.

The third Dragon Emperor of the Everlasting Dragon City!

What did she come to find me for?

Long Chen didn't dare to ask first. Seeing that the other party didn't seem to have much malice towards him, he first bowed and said, "Junior Long Chen greets Dragon Emperor Yongye."

To be honest, this was the first time he had seen the true face of a Dragon Emperor.

Previously, Long Chen only saw illusory figures and blood-colored fog.

This Dragon Emperor in front of him was indeed very powerful, a terrifying person who stood at the very peak of the world. A person who controls trillions of lives.

Dragon Emperor Yongye still looked at him carefully. Her gentle eyes made people feel awkward.

After a while, she said, "I came here specifically to tell you something."

She came from the Everlasting Dragon City.

Long Chen immediately asked: "What does senior want to tell me?"

A Dragon Emperor coming here to personally tell him one thing, it definitely wasn't because Long Chen's status was noble, but because this matter was definitely very important. Even the average person wouldn't know.

Therefore, he almost held his breath.

Dragon Emperor Yongye went straight to the point, and said directly, "If it's like this, there may be some things that you are unable to imagine right now. However, Long Qinglan's corpse had changed a lot recently. Even we can't stop this, if you really want to know what you want to know. I think it would be best if you come with me to Everlasting Dragon City. "

These words caused Long Chen's heart to completely calm down.

The other party's words were very strange.

"He's already dead. How did his corpse change?"

This was something that Long Chen could not believe.

Dragon Emperor Yongye shook his head and said, "This, you will understand once you see it. Of course, if you choose not to go. I'm sorry about that, but I can't tell you about it due to the rules. "

In the dark night, her voice was light and light, making people feel comfortable listening to her.

Only, Long Chen gritted his teeth.

Originally, he had promised Ling Xi that he would only go over together with her when she arrived.

"Don't worry, we won't harm you. We just want you to know the truth. Regarding this matter, I have already told the three Dragon Emperor s of Dragon City. They have already promised you the right to go to the Everlasting Dragon City. All three of them were good people. for you, too. "

Dragon Emperor Yongye said softly.

"Is that so?"

Since he did not dare go to the Everlasting Dragon City first, his main concern was actually his safety.

After all, there were too many people over there who disliked him. Once he reached there, he would be no better off than in the Dragon Slaying City.

"You mean his body has changed. If I don't look, I guess it's too late. Besides, I'm the only one who knows the truth, and if I don't, you won't tell me? "

Long Chen asked.

Dragon Emperor Yongye pursed his lips and shook his head, "It's not that I don't want to reveal it. There are some things that you won't understand unless you see it with your own eyes. "

Long Chen had already made a decision in his heart.

He nodded and said, "Alright, I'll go with you!"

Originally, because of the matter regarding Long Qinglan's corpse, his heart had many knots.

What he did not expect was that Dragon Emperor Yongye would come to find him and bring him this kind of news.

Since he promised to kill the Dragon Emperor and bring him away, then the Everlasting Dragon City would not do such a thing. They would use this method to lure him over and kill him.

That was impossible.

Other than safety, there were no other issues that Long Chen needed to consider.

He really wanted to know the truth behind what she had said.

Everything that Long Qinglan had done, was done with wishes, so there must be a reason. Why did the so-called truth appear in their mouths?

He swallowed these questions back down his throat.

Seeing that Long Chen had finally understood, Dragon Emperor Yongye smiled faintly, and her smile blossomed like a flourishing flower in the night sky.

The way she looked at herself also seemed to have a special light in her eyes. It seemed to be something called a mother, or something else?

Anyway, she was not the same as Yang You.

Yang You was a person with a lot of stories, and her eyes hid endless secrets.

In front of Yang You, Long Chen was the real child.

"I'll bid them farewell first."

After all, he still had a bunch of children to protect. He couldn't just leave without saying his goodbyes.

Hearing the news that Long Chen was about to leave, Liang Teng and the others were sure to be extremely helpless.

However, they were unable to stop this decision.

Thus, they could only sincerely bless Long Chen and ask him to take care of himself.

It was unknown when Bloodfire had appeared to stand to the side.

He said, "After a period of interaction. I found out you were a good kid. "I didn't want to think that it would be so ugly." "

Long Chen laughed: "To be honest, you too."

Then, she patted Long Chen's shoulder and said, "Enough, go chase after the truth that you want. I really want to know what kind of changes you will bring to the future Dragon God Domain. I hope it's not the same nightmare as last time. "

That was the nightmare Long Qinglan had given them.

Long Chen didn't want to promise anything.

He followed the Eternal Night Dragon Emperor, broke through the night sky, and left Dragon City amidst the rolling sea of blood. From the northernmost area of the Dragon God Domain, he headed towards the southernmost area.

The Everlasting Dragon City was located in the southernmost area.

That was also the place where the War God's Ancient City resided, the starting point of Long Chen's arrival in the Immortal God Realm. When he had first arrived there, he had absolutely not expected that he would encounter such an event.

From the War God's Ancient City, to the battlefield of the gods, to the Demon God Area and the Spirit God Realm, finally rising to the chaotic star field, then returning back to the human race, only today did he finally reach the Everlasting Dragon City that he had first thought of!

This performance spanned across the entire Dragon God Domain.

In front of him was Dragon Emperor Yongye, whose long skirt and silver hair were fluttering in the air.

She didn't speak much, but her peaceful smile was extremely comfortable.

She was not in a hurry during this journey.

Along the way, she didn't ask Long Qinglan about anything else. Instead, she was extremely interested in the matters of Long Chen's childhood.

"You grew up at the edge of the lower realms, rose to power because of a girl. You fought fiercely, and in the end, you became a supreme expert of the lower realms. Your life is even more colorful than Long Qinglan's. "

She seemed to be deeply moved as she continued to chat about these things.

"Not bad."

Long Chen did not feel anything.

It seemed very normal.

Speaking of which, it was probably less than twenty years.

"In such a short period of time, only Long Qinglan's son can achieve such results. He's not his son. There's simply no possibility for him to surpass him. I personally saw him grow up. You are very similar to him, but there's also a difference."

"How so?" Long Chen asked.

Dragon Emperor Yongye said with a chuckle, "He is a proud and refined genius. Compared to him, you are less refined and more brutal. This is not a bad thing, it's a good thing."

The cruelty she spoke of did not seem to be a derogatory term.

"Can you tell me more about my father?"

Long Chen asked anxiously.

"In the future." Dragon Emperor Yongye refused.

She suddenly said, "Since you have come from the lower realms, you should know that the lower realms are so weak that they are about to be destroyed right? I heard that there are some border regions that even the newborn babies of the Immortal God Realm can tear open and possess might close to that of a god? "

The Realm of Myriad Kingdoms Long Chen was in, was that kind of place.

To be honest, if he hadn't come to the Immortal God Realm, he definitely wouldn't have known that the Realm of Myriad Kingdoms was a world that was about to collapse.

"It is very possible that after tens of thousands of years, the border regions will disappear forever!"

Dragon Emperor Yongye said worriedly.

For cultivators, tens of thousands of years was not a long time.

In other words, the Divine Dragon Nation that Long Chen had personally established and the many borderlands would completely collapse or even disappear into thin air in the near future.

During the Primordial Era, the size of a Dragon Sacrifice Continent was far larger than it is now.

Several times.

If this world was being destroyed, it was already in its late stages.

Even the strongest person in the world was powerless against this matter.

This was a change in the heaven and earth that no one could change.

"Perhaps one day, the entire Dragon Sacrifice Continent will disappear and the Immortal God Realm will be on the verge of collapse. In the end, the whole world disappeared. All of our legacies have been cut off. "

The voice of Dragon Emperor Yongye drifted over from the front.

Her voice was filled with worry for the nation and the people. Dragon Emperor Eternal Night made people feel that she was a very gentle person and not a bad person.

As for the change in the Dragon Sacrifice Continent ...

Within a hundred years, the dragon sacrifice was dead.

Now that the Dragon Sacrifice Continent was dissipating, those peripheral worlds, and even the entire Dragon Sacrifice Continent, and the Immortal God Realm, would probably all perish a hundred years later. This was what the Black Jade Dragon that the The Age of Dragons had passed down to this day had told Long Chen.

A hundred years, was so short. It was so short that Long Chen could not believe that it was true.

He did not know what had happened in this world, and the current him had nothing better to do. Thus, he decided to wait ten more years before he became somewhat capable.

The ability in his eyes, was naturally to become a character similar to Dragon Emperor Eternal Night in front of him.

From the north to the south.

After passing through a large part of the territory, they finally arrived at the endless wilderness in the south. They arrived at a huge inner sea, which was probably dozens of times larger than the one in the Dragon Slayer City.

One of the Five Great Clans of the Immortal God Region, the Sea Race, resided in the inner sea. The entire inner sea was the Sea God's Domain.

This inner sea had no name, but its core was known as the 'Time Sea'.

The sea of time was roughly the same size as the sea of blood in Slaughter Dragon City.

The Everlasting Dragon City was built on the sea of time.

"You've also trained in the Dao of time. When you see the sea of time, you'll definitely have a special feeling."

"How so?" Long Chen asked.

"The ocean of time is actually about the same as the ocean outside. The difference was that in terms of time, the flow of time in any place was not exactly the same. In some places, you might feel as if three days have passed, but in reality, only one day has passed. In others, you might feel as if a day has passed, or even as if five days has passed. "

"Oh, it's so magical."

This was the wonder of the world.

"The flow of the entire time sea is changing rapidly as well. The water here is very quiet, and you can almost tell the flow of time from the speed of the fluctuations. The place where the flow of the water is flowing is obviously faster and vice versa." For those who cultivate the path of time, cultivating in the ocean of time and feeling the change in the flow of time will be of great help to you. After all, you are someone who has never experienced the sea of time and is proficient in the path of time. "

Dragon Emperor Yongye said sweetly.

"Is that so? "If I have the chance in the future, I will definitely try it out here."

Dragon Emperor Yongye helplessly smiled and said, "What a pity, if only you had come to my Everlasting Dragon City from the beginning."

Long Chen countered with a question, "Wasn't it because Everlasting Dragon City didn't make a sound back then that I went to Slaughter Dragon City?"

With regards to this point, Dragon Emperor Yongye was silent for a moment, before he said, "This is the choice made by that old fogey in his eternal life. Including me. "

When she said this, it was hard to tell what she was feeling.

"Time is up."

Hearing this, Long Chen became excited in his heart. He was about to go to Everlasting Dragon City and see the thing he wanted to meet. Long Qinglan's corpse and the strange things that the Eternal Night Dragon Emperor had said, would naturally be revealed the moment he saw Long Qinglan's corpse.

In the blink of an eye, they had entered a strange sea.

In this place, it was practically deathly still. Only the light fluctuations of the sea water would be able to symbolize the eternity of time.

In the air, the speed of time was the same, but Long Chen could feel that the ocean below him was extremely strange. Time was chaotic, constantly changing.

"If you have the chance, you must go down and take a look at the Time Sea."

Long Chen thought.

After so many years, he had finally arrived at Everlasting Dragon City.

In front of them was a city about the same size as the Dragon Slayer City. Different from the blood-red color of the Dragon Slayer City, the buildings here were all very monotonous, simple, and not at all gorgeous.

"Everlasting Dragon City, other than me and the other two Dragon Emperors, no one else knows about your arrival. In order to avoid trouble, I will bring you directly to Weiyang Palace. "

Dragon Emperor Eternal Night whispered into his ear.

Her voice was always soft.

"Weiyang Palace, is it?"

Long Chen naturally understood that because of how dazzling Long Qinglan was back then, there were definitely more people in the Everlasting Dragon City that were targeting him than in the Dragon Slayer City. Bluefire Emperor, Long Haochen, and the others. Therefore, Dragon Emperor Yongye's actions were correct.

"To outsiders, it is a forbidden area. It is my palace. But to you, that is also the place to store Long Qinglan's body. All these years, I have been the one in charge of it. "

"Oh!"

Then, this Eternal Night Dragon Emperor should know a lot of things. Just as she had said, she was a person who had watched Long Qinglan grow up.

"Then go."

Long Chen nodded.

Dragon Emperor Yongye held his arm and in the blink of an eye, the surrounding scenery quickly changed. No one could clearly see their figures; He understood that from the beginning of the eight trigrams cycle, there would be a tremendous change to martial artists.

For example, this Dragon Emperor Yongye, felt that he was much, much stronger than Emperor Tianmu.

In the blink of an eye, they had arrived at Weiyang Palace.

This was an ancient building that was sealed with layers of restrictions and array diagrams. It was difficult for outsiders to even see what was happening here, much less barge in.

"Other than the other Dragon Emperor s, this is the first time you have entered my Weiyang Palace in so many years."

Dragon Emperor Yongye said with a light smile.

She landed on the ground and brought Long Chen to walk within the ancient palace. They passed through many corridors and walked towards the deepest parts of the palace. It was very quiet here, not a single sound could be heard. However, Long Chen's heart was beating nervously.

The so-called truth, what exactly was it!

He even felt his blood pumping!

"Don't be nervous." Dragon Emperor Yongye looked at him with concern.

Long Chen could not help but ask: "Will it be a result that isn't too good for me?"

Dragon Emperor Yongye pursed his lips but did not answer his question. Instead, he said, "Immortality is in front waiting for you."

First Dragon Emperor.

They finally turned into a deep courtyard. There were a few dead trees in the courtyard, and they were all dead. There was a two-meter diameter dry well beside them, and when they entered, there was an old man standing next to the dry well.

It was a white-haired old man with a face full of deep wrinkles. He wore simple and unadorned clothes, like an extremely ordinary old man in the common folk, only that pair of eyes were simply too sharp, causing Long Chen to no longer be afraid of heaven or earth. However, in front of this old man, he still felt a sense of fear, as if his life was no longer in his hands.

This was the Immortal Dragon Emperor.

Last time, I didn't see his true face.

The dragon carriage stopped.

He didn't like this person, so he didn't need to pay his respects.

"You truly dare to come? Aren't you afraid that I'll kill you to prevent future troubles?" The Immortal Dragon Emperor lowered his head, his face dark as he said coldly.

Long Chen was too lazy to bullshit with him, he said: "I want to see him, bring me along."

The Immortal Dragon Emperor gave a cold snort, and said: "You are indeed accustomed to living outside, not even having basic education. A person like you is not qualified to become a member of my Long family. "

Long Chen didn't want to argue with him.

It's pointless.

Moreover, he never thought that there was any relationship between him and this family.

"That's enough. Let him take a look at Qinglan." Dragon Emperor Yongye interrupted them.

These words caused Long Chen to be shocked.

Because Dragon Emperor Yongye actually called his father Qinglan, not a traitor etc. This might mean that she acknowledged Long Qinglan?

"Follow me!"

The Eternal Dragon Emperor's face turned foul, he extended his hand and rushed into the well with Long Chen. Long Chen knew that the well had other secrets.

Dragon Emperor Yongye also followed behind.

Long Chen was in the middle of them all.

He did not feel uncomfortable because of the eternal Dragon Emperor's suppression, but his entire body was extremely excited, and he was about to see Long Qinglan again. Even if it was just a corpse, it was something that he desperately wanted.

"You'd better not have too much hope."

The cold voice of the Eternal Dragon Emperor came from the front.

The three of them traversed through the dark tunnel.

Roughly half an hour later, with their speed, they still hadn't reached the end.

"Soon, soon!"

Long Chen could not help but have his eyes bulge out.

Just then, the sounds of an infant crying came from below them. It was a kind of sound that would make one's hair stand on end. Long Chen's entire body tensed up, but the two Dragon Emperors were used to it.

"Senior Yongye, what's with this voice?" Long Chen could not help but ask.

"When you see it, you will understand."

Long Chen's heart was shocked, what exactly did this mean?

Why would there be such a baby's cry from Long Qinglan's corpse? What had happened for them to look for him?

The sound of the baby's crying was very slow.

It was as if time had slowed down.

Long Chen's blood almost congealed, he saw a few specks of light in the darkness in front of him, maybe, that was their destination!

Chapter 2175 - Truth

"We're here."

The Immortal Dragon Emperor in front of him suddenly stretched out his hand and stopped Long Chen. He obviously knew that the current Long Chen was very excited.

Therefore, he brought Long Chen with him, restricted his speed, and then brought him down slowly.

The bright stars below gradually expanded in Long Chen's eyes, revealing an extremely large space. As he gradually approached, he could feel that the specks of light were actually ancient symbols. The symbols formed a formation that was ancient and distant. It possessed a heavy power as it surrounded the area below him.

"This seems to be the power of time!"

Long Chen was quite sensitive to the power of time.

This ancient diagram was suppressing the flow of time to the limit, causing the flow of time to be reduced to the extreme. Compared to real time, it was only a tenth, or even a thousandth, of it. Almost a year had passed outside, but only one day had passed inside.

"Don't be agitated."

Dragon Emperor Yongye stood at his other side and said with a gentle yet somewhat worried tone.

Long Chen was suspicious.

The truth!

He desired to know the truth, so he widened his eyes and gradually approached the diagram below. As the distance between them shortened, he seemed to be able to see something moving slowly, but he didn't mind. He was looking at the core instead.

In his opinion, Long Qinglan's corpse should be very small, in a corner.

However, when he approached, he saw something strange.

There was a black, sticky, octopus-like tentacle that was swaying gently in front of his eyes. The sound of the baby's crying came from within.

"What is this!"

Long Chen was shocked.

"Take a look!"

The Eternal Dragon Emperor said coldly.

Long Chen was a little confused. He focused and saw that the space below him was actually filled with such things, octopus tentacles that were waving about everywhere, but they were even more disgusting and sticky than the octopus tentacles.

Looking downwards, what he saw caused him to almost suffocate. His mind went blank.

The ball of meat was not the body of the octopus, and it did not even seem like it wanted to die. It was just a regular ball, with no eyes or nose in sight, but on the ball of meat, Long Chen saw something even more shocking and disgusting.

On top of the giant ball of flesh were hundreds of human heads, all of them baby heads. They were of the same size and appearance. This was definitely an infant's head growing out from the ball of flesh, because at the place where it was connected, one could clearly see the blood vessels, meridians, and other things.

Octopus tentacles, the giant black ball of meat, and the hundreds of identical infant heads were all stuck inside. The problem was, what about Long Qinglan's body?

Long Chen did not care about this strange thing.

He opened his eyes and looked around. At this moment, he was already very close. In front of him was the array formation that could change the flow of time. He carefully searched every nook and cranny, but he couldn't find a single familiar figure. In the end, he locked his eyes onto the waving monster ...

"What the hell is this? Where's my father?"

Long Chen retreated a step and asked with his hoarse voice that was actually trembling.

His appearance seemed to be within the expectations of the Eternal Night Dragon Emperor and the Eternal Night Dragon Emperor.

The immortal Dragon Emperor snorted and said: "Are you blind? You can't see such a big thing! "

At that moment, it was as if Long Chen was struck by lightning!

This was the truth!

Long Qinglan's body, could it be the octopus's tentacles, baby head filled monster in front of him? This was impossible! Long Chen didn't even know what it was. It wasn't a dire beast or an ancient beast, who knows what it was!

"Bullshit!" How could my father be such a thing! Immortal Dragon Emperor, did you let me come to the Everlasting Dragon City just to let me see this? What are you trying to tell me? That my father was this damn thing from the beginning to end? "

Long Chen took a few steps back, his eyes staring straight at the Immortal Dragon Emperor.

Below, the monster imprisoned by the formation was still waving its hundreds of tentacles, as if nothing that happened outside had anything to do with it. The hundreds of baby heads were no different from real people.

Long Chen's heart was in chaos.

This was completely different from what he had imagined!

The Immortal Dragon Emperor wanted him to see this, what was his goal!

Facing Long Chen's hysterical appearance, the Immortal Dragon Emperor laughed coldly and said, "I knew you wouldn't believe me. I didn't believe you then either. You're asking me, but who should I ask? I don't know the reason either, but I only believe that the result I saw was Long Qinglan! If you don't believe me, you can scram right now and return to your Dragon City! "

His temper was not as good as that of Dragon Emperor Yongye.

"Enough, stop arguing, Long Chen, listen to me."

Dragon Emperor Yongye lightly pressed on Long Chen's shoulder.

"Wait."

Long Chen's heart trembled. He looked down at the monster below him, his eyes trembling, and shook his head. "I won't believe it, so just tell me your goal. You want me to think that this is what my father is, to force me to give up and search for the truth, and then obediently serve you? "

Hearing this, the Eternal Night Dragon Emperor was enraged. He was about to attack, and with his close proximity to the god, he could easily kill Long Chen with a single move. But at this moment, the Eternal Night Dragon Emperor hurriedly stopped him and said angrily: "Old bastard, have you gone mad? If he were to make a move here, it would give way

If the Time Diagram Array was destroyed, what would happen when it ran out? How much effort have we expended to slow him down? Do you know what kind of disaster he will cause? "

These words caused the Immortal Dragon Emperor to stop his actions, but he still looked at Long Chen coldly and said, "The truth is right here. We had kept his corpse sealed in ice here all those years ago, so we didn't think too much about it. I didn't expect that one day, there would be some movement below us. When we were rushing down, what did you think we saw? "

The Immortal Dragon Emperor looked at Long Chen's expression which was crumbling more and more, and sneered: "We saw, the tentacles that emerged from his corpse one by one, was exactly what you saw. Then his skin, his flesh, everything turned into what you saw. This is the truth. The truth is, your father is probably not himself anymore. At some point in time, his body was already occupied by the demons, and it could even be said that he himself is an evil demon! "

"Don't spout nonsense, he himself is not a problem." Dragon Emperor Yongye's cold face interrupted the immortal Dragon Emperor's words. She looked at Long Chen seriously, and at that moment, Long

Chen's entire body was trembling, he was looking down in disbelief at everything that was happening below.

"No, that's impossible. My father never told me that." He shook his head.

Long Qinglan died in the Everlasting Dragon City, but he had no idea who he gave birth to. He was the one who personally buried him in the White Poplar Town, and he had even met Long Qinglan many times.

Then what about this monster in front of him?

Which one was his real body?

Seeing the dazed look on the child's face, Dragon Emperor Yongye held it in for a moment, but he still said, "Child, there is one thing you must believe. It is the truest evidence."

"What is it?"

Long Chen was still the most trusting and loyal to Dragon Emperor Yongye.

Dragon Emperor Yongye pursed his lips. She pointed at the huge ball of meat below and asked, "Do you see the heads of those infants?"

"Yes!"

Long Chen nodded. Every time he saw this infant's head, he would feel especially sad.

Dragon Emperor Yongye said softly, "Maybe you won't believe it, but, this is how Qinglan was when she was young. There's no difference at all ..."

These words, completely shattered Long Chen's heart.

In that instant, he was stunned.

In the beginning, he did not believe it at all. He felt that it was not real. However, from their many conversations, Long Chen gradually understood that this was not a lie. This was the truth!

At that moment, Long Chen took a deep breath, but he almost couldn't control his tears.

Impossible, even if he turned into something like this, it definitely did not come from his own will. Long Chen was familiar with his father, so no matter what, he was definitely not the type of person who took the initiative to do evil.

Looking at his stupefied expression, the Eternal Dragon Emperor asked in a deep voice, "Do you understand now? I know that you, Long Chen, have absolute faith in him, and I want to uphold his name. Today, I want you to see, it is only to make you give up hope and display your true talent in peace, in the future, if you are able to have his strength, you will need to protect my human race and work for my human race, and not turn into a new Evil Demon. We never try to discredit him intentionally, but you have to admit that ever since we became the Eternal Dragon Emperor, Long Qinglan is no longer the Long Qinglan he once was. He is guilty! "

Long Chen did not refute him.

He was unable to explain or admit anything, and today was enough of a shock. He stared blankly at the monster waving its octopus tentacles. No matter how he tried to imagine it, he could not connect it with the man in his mind ...

Dragon Emperor Yongye said, "Let's flip through the information of the Primordial Era. The three Dragon Emperor s will work together to lay down this ' Time Array ', preventing it from growing. A day inside and a year outside. We had no choice but to do this, because we realized that it possessed extremely strong power and was constantly increasing. Furthermore, what was very strange was that it actually knew Long Qinglan's profound arts and Tao techniques. "So we can only use this method."

The swaying tentacles of the octopus lowered the heads of hundreds of babies, causing Long Chen's heart to become deathly still.

He could never really accept this fact.

"Can the two of you stay here and accompany him?"

Long Chen calmed down in the end, wiping the tears from the corner of his eyes, and asked.

Chapter 2176 - Qinglan Hall

Long Chen obviously did not believe that this was the so-called truth.

He wanted to find out the truth, so he had to stay here.

He firmly believed that as his strength improved, all of this would come to light.

At this moment, he looked at the two Dragon Emperor s seriously.

The Immortal Dragon Emperor seemed to have predicted his words, he coldly said: "Good, you stay here, I can check on you and control you. You are Long Qinglan's son, and he is this kind of monster.

This old fellow was simply too annoying. Long Chen clenched his teeth, and still did not argue with him. This was meaningless, if the day came where the truth was revealed, this old fellow would shut his mouth.

He was the lofty number one Dragon Emperor, the, and the true ruler of the Immortal God Realm. He had tens of thousands of years of cultivation history, and was one of the strongest people in the world.

Even the current Long Chen could only look up to him.

However, this was all temporary.

Eternal Night Dragon Emperor rolled his eyes at the immortal Dragon Emperor. She looked at Long Chen seriously and said, "Ignore his nonsense. But as for your request, we can't agree to it completely. The time line diagram here is very fragile to the outside world ...

Even if we stay here, it will affect the flow of time and help him grow. If you really want to accompany him, you can only stay in Everlasting Dragon City and I can allow you to enter Weiyang Palace once a month. Come and see him for a while, so that you feel

"What?"

This was a Diagram Array that the three Dragon Emperors had painstakingly laid down.

In order to delay the growth of the monster, they did not kill the monster. Of course Long Chen would not destroy the things here.

Therefore, he nodded and said, "Alright, I'll come in once a month."

He firmly believed that there must be a reason for him to become like this. Only by having the opportunity to approach him would he be able to understand this reason.

"Alright, get out!"

The Immortal Dragon Emperor snorted and took the lead to leave.

Eternal Night Dragon Emperor called out to Long Chen, then left with Long Chen. Long Chen couldn't help but turn back as the light below them became dimmer and dimmer, and quickly disappeared.

The mystery gradually sank.

Long Chen's body suddenly shook!

He thought back to the battlefield of the gods, as well as the diagram in the dragon tomb. All of the carvings there were of a strange thing called the Heaven-Devouring Race. One of them was the dragon-devouring beast

There were even demon wolves that were similar to Sun Devouring Demonic Wolves.

Amongst them, Long Chen vaguely remembered that there seemed to be a type of monster. It was a ball with many octopus tentacles on it and a lot of human heads. The thing in the mural seemed to be very similar to what he had seen today!

At first, he only took a glance and didn't see clearly. However, this was the appearance he remembered. However, he couldn't be completely sure. It was possible that he remembered incorrectly. After all, there were too many 'Heaven-Devouring Tribe' in that mural ...

"Looks like I need to go to the God Battlefield to confirm something."

The battlefield of the gods was also a magical place.

Back then when he gave out the God's Lure, the Ancient God's Corpse and the Sector lord's Divine Arts, Long Chen still could not understand what was going on.

"The thing that father is looking for, the Heaven Swallowing Tribe, is most likely related to these strange things. And now his body was likely to become a member of the Devourer race. Did this mean that an enormous race like the Heaven-Devouring Tribe really existed? Or just a few? "

While Long Chen was still thinking about these problems, they were already outside.

Dry well, deep courtyard, ancient tree.

Dragon Emperor Yongye said straightforwardly, "Long Chen, since you want to stay in Everlasting Dragon City, I'll arrange a place for you to stay. Do you have anywhere you want to go? "

Long Chen stopped thinking about the Heaven-Devouring Tribe. After thinking for a while, he suddenly thought of the most suitable place. He said: "Senior, I want to go to the place my father used to live."

Dragon Emperor Yongye was slightly stumped for words, and said, "Oh, no one has set foot in that place for a long time. You are his son, of course. "

The Immortal Dragon Emperor beside him raised an eyebrow and said, "You want to go to 'Blue Tide Palace'?"

Long Chen nodded, that was the place where he had lived and trained since he was young, he wanted to take a look. For no other reason than to see this man's past.

Seeing Long Chen's nod, the Immortal Dragon Emperor said, "It's a pretty good place, in a remote corner of the Everlasting Dragon City. If it's like this, basically no one will go there. What a thought!]

"It's a secret."

There was a saying, "The heart of a villain is in the belly of a monarch."

Long Chen was too lazy to argue with him, he had never been afraid of provocation, especially with the people from the Everlasting Dragon City, they were all defeated by his father, what else could they be other than jealousy and jealousy?

"Alright, we'll take you there."

The scenery changed endlessly in the blink of an eye. Of course, no one in the entire Everlasting Dragon City could detect them, and in less than half a quarter of an hour, Long Chen had stopped at a dilapidated palace. It had been a long time since someone had come to this place.

Pushing open the door, Long Chen walked in.

Although it wasn't full of dust, there was still a refreshing feeling that she had not felt in a long time.

"He grew up here when he was young. At that time, Yang You was still here, and she was the one who cleaned this large hall. Things are different now." Dragon Emperor Yongye looked inside in a daze as he muttered.

"Thank you, both of you."

Long Chen thanked him sincerely.

No matter what, the fact that he could live here was already a form of help. After all, this was the place that Long Chen had wanted to see a long time ago.

This place wasn't very big, but it was very warm. Looking at the surrounding buildings and vegetation, Long Chen felt as if he could see the stunning man from back then cultivating and growing up here.

And now, things had changed.

Heroes and legends became monsters, living deep at the bottom of the well.

"Let's go." In a month's time, I will bring you to see him. " The Eternal Night Dragon Emperor bid his farewell and the Eternal Night Dragon Emperor was too lazy to even glance at Long Chen. He didn't want to stay here any longer and directly left.

He was Long Qinglan's foster father.

"This Yongye should have nothing to do with my father, and it has nothing to do with me. Why is it that she treats us better than this old geezer, eternal life?"

Long Chen couldn't help but be suspicious.

Weiyang Palace.

The two Dragon Emperor s stood by the dried up well in the courtyard and stared at the bottom of the well, lost in thought.

"Eternal life. Can you tell me the truth? Does he believe what he's seeing?" Dragon Emperor Yongye's expression was calm as he replied in a low voice.

The Immortal Dragon Emperor said, "Don't ask anymore. I only believe what my eyes see. Maybe he did something to give me face. But later on, he was also deranged and did many things that violated the rules. You know very well that by the end, he was completely mad.

"

"Perhaps, what did he encounter?" Dragon Emperor Yongye could not help but say.

"What can we encounter? In this world, no one was his opponent. In this world, there was only one enemy that he could not deal with, and that was himself. So he died by his own hands, and he couldn't blame anyone else. Divine beings no longer exist. You say, in this world today, there's still ...

Could there be someone stronger than him who could kill him? Or caused him to become like this? "

Dragon Emperor Yongye looked at him and asked, "Have you forgotten about the devil star?"

The immortal Dragon Emperor slightly trembled.

"That's right, Demon. But what a pity, the truly terrifying 'Ancient Giant Demons' are all sealed within the deepest parts of Demon Star. They can't get out. and it won't affect him much. "

Dragon Emperor Yongye sighed lightly.

She suddenly thought of something, and said: "Since there are no existences above the Divine Spirit, then why? What is the power that is causing its destruction in the Dragon Sacrifice Continent?"

This point, the Immortal Dragon Emperor didn't have an answer.

He said, "I can only say that this is the end of the world. One day, the entire world will be destroyed and will no longer exist. This was probably where the common people belonged. I don't want to be bothered by it. If we don't become Deities, when the final divine tribulation strikes, we will all be reduced to dust. Time is running out

As for the destruction of the common people, what does that have to do with me? "

After saying that, he burst out laughing.

Dragon Emperor Eternal Night held onto the edge of the dried well with both of his hands, and pondered while looking at the deep tunnel below.

"Didn't you say before that you would bring him for inspection and see if he was a monster or not?  
"Eternal life!"

Dragon Emperor Yongye suddenly asked.

"Ugh ..." The Immortal Dragon Emperor was stunned for a moment, then shook his head, "Forget it, I'm tired. He didn't want to waste any more time. This little guy is actually quite good, right? There was nothing wrong with it, it was just too weak. "I don't believe that he can figure out a truth that even I don't know."

I only believe that what I see is the truth. "

He pointed to the bottom of the well.

"When that baby's head matures into the shape of an adult Long Qinglan's, tell me, what will happen?"  
The Immortal Dragon Emperor asked.

Dragon Emperor Yongye bit his lips lightly but did not reply.

"He will possess Long Qinglan's destructive power, haha! Eternal Night! If you're still conscious, make up your mind and kill him now. You can't be merciful anymore, you will cause the death of many people! "

These words caused the Eternal Night Dragon Emperor's emotions to completely fluctuate.

She protected the side of the well as she coldly stared at the Immortal Dragon Emperor and said angrily:  
"Enough, scram for me. This is not the place for you to be. "

The Immortal Dragon Emperor sneered, "Why not? I am the number one Dragon Emperor, the one who has the final say. I am also his father, and I have the right to stand here. "

"You're a father, aren't you?" Dragon Emperor Yongye could not help but laugh. Her cold smile contained too much helplessness and pain.

The Immortal Dragon Emperor gritted his teeth and said, "You will regret it, my kind junior sister. When this monster grows to a point where we can't even control it, you can just watch as the Everlasting Dragon City destroys it! "

"Alright, get lost." Also, please call me by name. Don't even talk about Junior Sister, we aren't young anymore.

A cold and fierce light flashed through the eyes of the Dragon Emperor s of Eternal Night.

The Eternal Dragon Emperor pursed his lips, took one last look at her and left.

## Chapter 2177 - Four Daoists

Night fell.

The night in Everlasting Dragon City was completely silent. This place was not as lively and bloody as the Dragon Slaying City, it was more suitable for cultivating one's body and soul. Especially since it had been a long time since anyone had come to the Qinglan Hall, and even more so, no one had come near it.

As a result, it was much quieter here. There was practically no sound at all.

Today, Long Chen had already been walking around the Blue Tide Palace, pondering for an entire day.

With regards to Long Qinglan and the Heaven-Devouring Tribe, he was pretty much the same. There must be something like the Heaven-Devouring Tribe in this world. It could even be very powerful. The change in Long Qinglan later stage and the change in his corpse definitely had a lot to do with the Heaven-Devouring Race. Thus, he had to ...

He needed to know more about the Heaven-Devouring Tribe.

Even after Long Qinglan became the Eternal Dragon Emperor who controlled the Five Dragon Cities, he was still living in the midst of the Blue Tide Palace.

Perhaps, there were some clues left behind by him.

Long Chen looked around, and more often, he fell into a state of nostalgia. Looking at everything here, he thought about the scene of Long Qinglan and Yang You living here. It was as if everything was real.

He cultivated, read, and improved amidst the curses.

Yang You stayed by his side the whole time.

Every blade of grass and every tree had a deep relationship with them.

The footprints from many years ago still remained on the ground.

"I really want to see what he was like when he was young ..."

Long Chen couldn't help but reminisce.

This was where his father had grown up.

Only after he had seen this place did he finally sit down on a large stone to cultivate.

He suddenly thought of Yang You.

He should have told her that he was here.

He had already explained to Ling Xi about him coming to the Everlasting Dragon City and the change in Long Qinglan. Ling Xi was a very sensible girl, so she naturally could understand her own decision this time.

Long Chen connected to Yang You's Star Talisman.

In the middle of the Star Talisman, Yang You's blurry image of a veiled figure appeared.

"Aunt You, I'm in the Everlasting Dragon City's Qinglan Palace right now."

Long Chen told his part of the story.

"Do you know how my father's corpse changed?" Long Chen asked.

"Got it." Yang You nodded.

"Then do you believe it?" he asked.

"I don't believe it, but I don't know why either. I'm also looking for an answer. " Yang You said in silence.

At least she believed in Long Qinglan.

Long Chen really admired this woman, hence he told her a few more things.

"Qing Lan Hall." Since you've arrived, then go take a walk at 'Qingyou Hall'. That was his study, and also where he trained. Over the years, he stayed there. It's the place where he stays the most. "

Yang You said.

Green Abyss Palace?

Long Chen seemed to have walked past this place, but he did not go in. He listened to Yang You's instructions and walked towards that direction. Yang You did not intend to stop communicating with him, so Long Chen held the star symbol in his hand.

"Have we arrived?"

Yang You asked eagerly.

In the blink of an eye, Long Chen had already arrived at the Qingyou Hall. The sign at the entrance had the words ' Qingyou 'carved on it. One was vigorous and powerful, while the other was gentle and exquisite. It was obvious that they came from two different people, but of course, Long Chen knew who they were.

It looks like the relationship between Long Qinglan and Yang You was really close.

He pushed open the door of the hall and a wave of decadent aura assaulted his senses. No one had been here for a long time. The interior was extremely spacious. Half of it was filled with bookshelves, while the other half was filled with books. On the other side was a secret chamber made of extremely sturdy materials. It was hard to find today ...

It was extremely difficult to destroy, and was probably where Long Qinglan trained when he was young.

"I'm coming in."

Long Chen said to Yang You.

"Mm, go take a look around. If there's anything you don't understand, ask me. "

Yang You's voice seemed to tremble slightly.

This was the place where half of her memories were entrusted to. She also missed and longed for it?

She was Long Qinglan's maid.

Long Chen thought too much, the training room was simple, there was nothing inside, Long Chen did not enter. He looked at the bookshelves filled with ancient books. They were all bound with secret techniques and were difficult to damage. Although it had been a long time, they were still intact.

Basically, they were all books about various desolate beasts, immortal spirits, and Dao artifacts. There was also the history of the Dragon Sacrifice Continent, the life records of the various great figures and so on. It was complete, since Long Chen was too lazy to flip through these things, but Long Qinglan seemed to be very interested, so it was completely out of the question.

Not only was he extremely talented and knowledgeable, he was also an omniscient genius.

"Can you clean it? Nobody's been there for years. " Yang You suddenly said.

This was probably the real reason why she wanted him to come to Qingyou Hall.

In the past, this had always been a place she'd tidied up. It was obvious that she missed this place.

"Alright."

The cleaning was very simple, he just had to drive away the dust. With Long Chen's control over wind and water, it was a piece of cake for him.

"Done." Long Chen said in satisfaction as he looked around at the bright and beautiful surroundings.

"Thank you." Yang You said.

Long Chen's gaze moved left and right, and suddenly he saw a painting on the wall. There were two people there, he took a closer look, but when he saw the people in the painting, he couldn't help but feel strange.

A man and a woman stood in the middle. The man stood behind the woman and reached out a hand to wrap around her waist, while the woman turned her face to the side, nestling within the man's embrace. Her eyes were filled with affection and sweetness ...

He looked at the man.

"Who drew this painting? The two men inside are my dad, and the woman is? "You?" Long Chen asked.

The man was indeed Long Qinglan, but the woman only had a face to the side, so it was hard to tell who he was. But the painting hanging here should be Yang You, right? But now that Yang You was covered by a veil, Long Chen did not know what she looked like.

"Hmm?" Yang You's mood fluctuated a little as he said in a daze, "What?" A painting? How could that picture be there? "That's impossible, he said he lost it ..."

She was pretending to be calm.

Long Chen could tell that the feeling in her heart must be huge.

But what did she mean by painting?

"Aunt You, are you saying that this painting would never have appeared here?"

Yang You hid the panic in her heart and said, "I painted that. I gave it to him before, but he once said that he lost it." I haven't seen it in a long time. How could it be there? I leave there for the last time and it seems like I will never be there, but by then he will already be

meridian

At this point, she stopped.

"What's wrong?" Long Chen asked.

"It's nothing. You can study that painting and hang it here. Maybe there's some mysterious trick to it."

"Arcanum?" Long Chen was startled, wasn't it just a painting? What kind of tricks could he possibly have?

He asked, "Is the woman in this painting you? "Aunt You."

Yang You nodded.

This was her painting. It depicted Long Qinglan carrying her from the back, depicting the admiration and infatuation she had for the man behind her. Long Chen was roughly aware that Yang You seemed to like his father.

Of course, it was normal for her to like such a fine man. However, he probably had to consider the status of the maid, so he didn't say anything further.

Long Chen took down the painting and unfolded it on the desk.

He noticed that although Yang You's face could only be seen from the side, she was extremely beautiful, as if she had seen it before.

If it was a little clearer, perhaps it would be able to make him recall it.

Soon, another detail caught his attention.

That was, Long Qinglan held onto Yang You's slender waist with one hand, and held onto a bow with the other, with three arrows nocked onto the bow. He grabbed the three arrows and placed them on the bowstring. The tip of the bow was pointed towards the sky. Although he didn't pull the bow out, it was still filled with a strong sense of disdain. That sharp edge ...

The feeling immediately rushed towards the drawing, piercing right into Long Chen's eyes!

The beauty in his arms was filled with tenderness as she pointed her sharp weapon at the sky!

In his life, a painting was displayed so vividly.

"Aunt You, what did you draw? What are these bow and three arrows?"

From the appearance of the sharp weapon, as well as the strokes that vaguely expressed the Dao patterns, Long Chen calculated that this weapon was probably very terrifying.

"That was the Dao item your father used. that he had used before becoming an Eternal Dragon Emperor. Relying on these four Dao tools, he once shook the world and killed people 10,000 miles away. " Yang You explained.

"Oh, how many Dao patterns?" Long Chen could not help but ask.

After all, it seemed like a lot.

Yang You replied, "Three arrows. These three arrows are all different, they are the dragon bones of the real dragon of The Age of Dragons, the Azure Dragon Arrow and the super divine dragon. They seem to be a super divine dragon called the Extreme Heaven Azure Dragon. The second black arrow was an Emperor Dragon Arrow. It was the final arrow!

As for the third, it's called the Dragon Binding Arrow, and is said to be forged from the bone of the The Age of Dragons's true Unparalleled Dragon. But as for the specific dragon, I am not very clear about it. "

A dragon bone from a real dragon!

The first Azure Dragon Arrow!

The dragon bone of the Heavenly Comet Azure Dragon, and it was definitely the most important part.

At that time, the real Divine Dragon and the Divine Dragon that the Dragon Fighter had transformed into were basically two different concepts. When a super dragon reaches adulthood, it would be comparable to a powerhouse among the gods, and it would also be an extremely strong one at that!

A high level divine dragon, upon reaching adulthood, could surpass ordinary deities.

The second was an Emperor Dragon Arrow, from the Dark Emperor Dragon's dragon bone. Black Dust was the inheritor of the Dark Emperor Dragon. However, he was only at the level of the Eight Trigrams Reincarnation, while the real The Age of Dragons's Emperor Dragon of Darkness was probably even stronger than the strongest person in the Archaic Gods, Di Jun.

He had to be strong!

As for the Dragon Confining Arrow, it came from a Unparalleled Dragon, and was close to the level of an Ancestral Dragon. It far surpassed that of Di Jun, to say nothing about that. It must be even more terrifying.

Therefore, Long Chen was already very shocked in his heart.

To find such a dragon bone and forge it into a Dao tool, only a very powerful martial artist would be able to do so.

Yang You finally said, "The Azure Dragon Arrow seems to have five hundred Dao patterns. The Emperor Dragon Arrow seemed to have 600 lines on it.

Five hundred, six hundred!

Five hundred Dao patterns was still considered normal. Six hundred Dao patterns was already very heaven-defying. An ordinary practitioner of the cycle of the Eight Trigrams, would only have six hundred dao tools.

"As for the Dragon Confining Arrow, it's the same as the Dragon Confining Bow. It's a Dao item with 700 patterns on it."

Chapter 2178 - Azure Dragon Arrow

Seven hundred Dao patterns!

It was equivalent to the stellar nucleus of the chaotic star field!

In the chaotic star field, there were only a few people who could become the Star Lord and possess stellar nucleus.

Ling Xi had obtained Ling Xi's stellar nucleus for her.

stellar nucleus s could only be said to be something that could only be met by luck and not sought. Many martial artists with the body of a demigod would find it hard to have seven hundred dao tools.

And from what Yang You said, there seemed to be two Dao patterns here.

She continued, "The final bow is the Dragon Binding Bow. Just like the Dragon Confining Arrow, the body of the bow came from the bones of the unknown Unparalleled Dragon and the bowstring came from the tendons of the Unparalleled Dragon. These two were the real set of divine weapons, both of which had seven hundred Dao patterns on them. Your father is here

When I didn't have the body of a demigod, I used this Dragon Confining Bow and Dragon Confining Arrow to instantly kill a warrior on the same level as me or the Star Lord of Primal Chaos. "

Saying this, she sank into deep memories.

Although Long Chen only understood it a little, his blood was already boiling.

One bow and three arrows could deal with different levels of opponents.

Of course, he had never used a bow before, but now that it had reached his current level, he did not need to practice it and could use it whenever he wanted. Being able to shoot an arrow without being wasted wasn't a difficult matter, the key lay in strength and the Dao Artifact itself.

"It seems like I don't know where he put them either." Yang You said.

Long Chen did not think too much and said: "Let me hang this painting back up."

It was obvious that Yang You was very happy with the reappearance of this painting.

"Yes." You must be careful in Everlasting Dragon City. " Yang You reminded.

She was preparing to cut off the talisman.

"Wait!"

Right at this moment, Long Chen suddenly shouted to stop her.

"What's wrong?" Yang You asked.

Long Chen was shocked to see that on the painting on the table, the four Dao Artifacts had actually turned into four points of light, one dark brown, one black, and two gold. Four specks of light floated up and floated towards Long Chen. Long Chen opened his palm and there were actually four specks of light ...

It landed on his palm.

The four specks of light were like four droplets, gently sliding on his palm without falling down. The swaying feeling made Long Chen feel a little cool.

He didn't dare to move, so he told Yang You about the situation over here.

"So that's how it is." Yang You seemed to be happy.

"What's going on?" Long Chen asked quickly.

Yang You said: "The reappearance of this painting is probably because he knew that you would be going to Qinglan Hall. This is his gift to you. You can follow his instructions to find these four Dao-tools. I think they should all be in Qinglan Palace. However, he was afraid that if others found out, he would most likely cause trouble ...

Some camouflage. "

"Oh?"

Long Chen was pleasantly surprised.

What Yang You said seemed close to the truth.

On the painting, the four Dao artifacts were already gone.

Long Chen once again hung the painting on the wall and paid attention to it in his hands. The four dots of light were still moving. Two of them were golden and black, but the dark brown one was moving back and forth as if indicating something.

Long Chen noticed that this dark brown light dot was moving in a fixed circle. But most of the time, he would bend in a certain direction and then slide in a certain direction.

Following this direction, Long Chen looked in that direction. It was a bookshelf, and a desk was at the bottom.

He suppressed the excitement in his heart and walked over.

The shelves were filled with books, and Zhang Xuan couldn't tell what was on the shelves. On the table, there was an empty space, and in the middle of it, there was a brush.

Long Chen picked up the brush. This was an ordinary brush, there was nothing strange about it, he could not help but be disappointed, it seemed like finding these Dao Artifacts would not be easy. Long Qinglan would definitely hide it well.

Just at this time, the dark brown light spot left Long Chen's hand and rushed towards the brush.

Long Chen became vigilant.

While he was fully focused on the brush, the dark brown light soon merged with it and became one with it. The entire pen was emitting a dark brown light.

At first, there was not much movement, but a dark brown dragon's scale was currently emerging on the brush, making it look extremely lifelike. It was as if what Long Chen saw was not a brush, but a dragon!

"How is it?" Yang You couldn't help but ask.

"These should be azure dragon arrows with five hundred Dao patterns. Don't worry, I can still control them." Long Chen said in a serious tone.

Generally speaking, the Seven Star tribulation of reincarnation warriors were usually the ones who controlled the five hundred Dao patterns, such as the Holy Spirit and the Taiyi City Lord. Long Qingyue had 580 Eternal Emperor Bells. She was quite formidable.

Therefore, Long Chen was still able to control the 500 Dao Inscriptions.

Sure enough, at that moment, the pen suddenly released a roar, and its entire body started to roll, from a pen into a dark brown divine dragon, which Long Chen held in his hand!

The dark brown divine dragon was not big. When it saw Long Chen, it immediately let out a fierce resistance.

"Fight with me!"

Long Chen stretched out both of his hands, and with the tyrannical power of the Primordial Blood Spirit Dragon, he firmly held onto the other party. He did not know if he should say, but the power of the Azure Dragon Arrow was extremely strong, and if Long Chen had not used his full strength, he would have been unable to control it and let it escape.

He would never be able to find it back, or maybe he would give it to someone else!

This was something that Long Qinglan had gifted him!

Long Chen gritted his teeth as blood-red dragon scales appeared on his body. His hands were covered with dragon scales as he firmly held onto the azure dragon arrow, not allowing it to attack him.

"Eternal!"

Long Chen used the Great Void Cosmic Dragon Divine Dragon to control its body. When its opponent was bound by time, he reached out to press his hand on its head, making its jaws open and making his control stronger. It made the struggling azure dragon even more unable to escape his control!

Based on his current strength, he could crush an ordinary warrior of the Six Paths of Reincarnation to death. This azure dragon arrow that Long Qinglan used was actually fine!

After pressed down on his head, he could not even make a sound!

At this time, a dark brown dragon shadow suddenly rushed out of the dragon's head and rushed into Long Chen's sea of consciousness. It was the spirit of the Azure Dragon Arrow and also the remnant soul of the Extreme Heaven Blue Dragon!

Roar!

After the Extreme Heaven Azure Dragon rushed into Long Chen's sea of consciousness, it roared angrily, attempting to find Long Chen's primordial spirit and then destroy it!

He quickly dashed forward and broke through the layers of clouds.

Finally, it felt its primordial spirit.

He suddenly charged forward!

Suddenly, it stopped, its entire body trembling.

That divine dragon was illusory, awe-inspiring, eternal. It was extremely familiar with the Azure Dragon Arrow, and its entire body was trembling as if it was worshipping. It gloomily escaped from his sea of consciousness and returned to the Azure Dragon Arrow.

In the middle, at this time, Long Chen realized that the Azure Dragon Arrow could no longer resist.

His dao spirit was also communicating with Long Chen.

"Master."

The Spirit of the Dao was trembling a little. It did not have a high intelligence, and was probably at the level of a newborn baby, afraid of the Great Void Cosmic Dragon Primordial Spirit and its body unable to escape from Long Chen's control. At this moment, it was completely stunned and submitted to Long Chen.

Furthermore, Long Chen also felt like his original master, and this easily garnered his reverence.

The divine dragon before him gradually transformed into a dark brown sharp long arrow. Its body was covered with dragon scales while its tail was full of barbs. The tip of the arrow was as sharp as a dragon's fang and similarly possessed a barbed shape.

From top to bottom, there were a total of 500 dao patterns!

Every single rune was filled with an unfathomable amount of power.

"Daddy! Daddy! Give me some snacks! Haha! I want to eat him!" small skeleton could not help but run out and drool while staring at the azure dragon arrow.

"Get lost!"

Long Chen threw him back to the Divine Kingdom. Other Dao artifacts could be swallowed up by the Heaven Slaying Sword, but not these Blue Dragon Arrow and Emperor Dragon Arrow. Because this was what Long Qinglan had left for him.

"It's done, Aunt You." Long Chen said as he packed up the azure dragon arrow.

"Hmm, you can look for Emperor Dragon Arrow, Dragon Prison Bow, and Dragon Prison Arrow, but don't be too anxious. I'm afraid that you might not be able to control it and cause a huge disturbance. If people were to discover these things, that would not be good. "

Long Chen nodded and said: "There doesn't seem to be anyone around. You can rest assured on this point. With my current strength, Emperor Dragon Arrows shouldn't be a problem. As for the Dragon Binding Bow and Dragon Binding Arrow, he would look for them after a while. I'll go see if there's any news from Emperor Dragon Arrow. "

"Alright, look for me if you need anything." Yang You said.

Long Chen began to concentrate on finding the Emperor Dragon Arrow.

The Emperor Dragon Arrow didn't seem to be inside this Qingyou Hall.

This was something that Long Qinglan had left for him, so he couldn't give it to others.

On his palm, the two drops of golden light did not move. The black dot of light trembled slightly, and it was hard to tell where he was pointing to.

"Looks like I can only try my luck. As long as they are in this Qinglan Palace, it shouldn't be difficult for me to find them."

Although he had never used a bow or arrow before.

However, if such a Dao item was used well, it would definitely have a very powerful effect.

Before Long Qinglan had the body of a half god, he had already known that he would need to use this weapon to instantly kill powerhouses that were on the same level as him. If he could control it and reach Long Qinglan's realm back then, he would probably be able to shoot Tianmu Emperor to death.

In the blink of an eye, the sun had already risen.

Long Chen had already circled Qinglan Palace several times, but still could not find any clues regarding Emperor Dragon Arrows.

He was not in a hurry. He rested for a while and recuperated. Only then did he continue his search and found the backyard from the palace in front of him.

It seems like the location is roughly in the vicinity ...

### Chapter 2179 - Emperor Arrow

The backyard was extremely spacious. It had been a long time since someone had tidied it up. There were many immortal spirits here, and most of them had ten dao traces on them. Although it was an absolutely great treasure to the lower realms, and even to a portion of the people in the Immortal God Realm, it was no longer attractive to Long Chen.

The Five Dragon Cities was originally the center of the Dragon God Domain, and was also the place where all sorts of spirit energy was concentrated the most.

It could be seen everywhere that these were the treasures of heaven and earth outside.

It was precisely because of this that people outside had to think of all sorts of ways to get in. However, this was only the territory of the Dragon Fighter. No matter how strong the other warriors were, they could not enter this place.

Long Chen looked at his palms as he walked around.

At last he was almost certain that he was near where he was standing now.

This place was quite spacious and was a piece of mountain rock.

The Azure Dragon Arrow transformed into a brush. As for what the Emperor Dragon Arrow was now, it was truly difficult to determine. After all, this place was much more complicated than Blue Nether Hall. There were rocks everywhere.

"It shouldn't be a rock. It should be something long."

Long Chen made a quick search around the place. He would study everything he saw, even the black spots of light on his palm towards the things he studied. After about four hours, he basically did not find anything.

"It seems like the Emperor Dragon Arrow isn't in this place?"

Long Chen understood that Long Qinglan had done all these to trick others, to not let them take it away ahead of time.

"If it was that easy to find it, someone would have taken it away long ago."

Long Chen guessed.

Thus, he did not give up. Instead, he stood up and continued searching.

This time, he didn't want to let anything go. The range expanded a lot. After a whole day and night of searching, his surroundings were completely destroyed.

"It seems to be here?"

Long Chen realized that the black light on his palm was trembling a little bit more violently, and at the moment, he was standing on a flat piece of land with only a few grass spirits. Obviously, it wasn't them.

"Could it be that it was buried underground?"

If so, it would explain why he had never found it.

He was a very patient person. In order to not cause too much noise, he started to be careful and use his Ether Divine Powers to condense tools, slowly digging into the ground. In order to not destroy the Emperor Dragon Arrow, his speed was also considered to be rather slow.

As he went deeper, the black dot of light on his palm became more active.

This was precisely the indication that he had done the right thing.

Without the light dot's instruction, it was impossible for others to find the Emperor Dragon Arrow.

Deep in his heart, Long Chen touched a tree branch.

It was a dead branch.

"This is it."

Since a brush could be an Azure Dragon Arrow, a dried up branch would also be an Emperor Dragon Arrow.

He gently held onto the dried up branch. It was very likely to be a six hundred Dao Rune Dao Artifact, one that was a little fiercer than the Eternal Dragon Emperor. After all, this was the dragon bone from a true Ultimate Dragon, the Dark Emperor Dragon.

As expected, the black dot of light on top of the palm finally left Long Chen's grasp and flew towards the branch. The dot of light lightly touched the branch, and then seeped in like a water bead. The branch started to emit a hazy black light, and then, black dragon scales suddenly appeared on the branch.

Long Chen held the branches tightly with both of his hands, ready to fight against them!

This was going to be a fierce battle that was even more intense than before!

Of course, Long Chen had the confidence to control it!

At this moment, the branch suddenly turned into a dragon!

Dark Emperor Dragon!

This was the Dark Emperor Dragon's skeleton, it instantly transformed into the Dark Emperor Dragon's appearance, and even started to expand. The tyrannical force almost split Long Chen's hands apart!

The pitch black dragon head was filled with the dignity of an emperor, at the moment, it's eyes were staring straight at Long Chen, a terrifying divine light flickered in its eyes, he did not struggle, but formed a vortex and pulled Long Chen into its world of consciousness!

"Be good to me!"

Long Chen suddenly used force, suppressing the Dark Emperor Dragon's expanding body back. He subdued the dragon on his flesh, but it used its tyrannical spiritual energy to rush into his body!

BOOM!

Long Chen realized that the scenery in his surroundings had instantly changed. He entered an incomparably pitch-black world and everything around him disappeared.

At this moment, an incomparably terrifying dragon roar rumbled in his ears, deafening him.

The endless world of darkness in front of him actually distorted and converged, ultimately transforming into an incomparably enormous Black Dragon, standing proudly in front of Long Chen. It was impossible to describe with words the enormous size of this divine dragon, it was even tens of millions of meters long, seemingly limitless!

In front of this divine dragon, Long Chen was just a small dot in the black fog and the dragon's tail!

This was the true Divine Dragon of the The Age of Dragons. At that time, the entire Immortal Divine Region was only the resting place of the Ten Great Ancestor Dragon and only ten Ancestral Dragons could be found here.

A Ultimate Dragon like the Dark Emperor Dragon, with a length of tens of millions of meters, was very normal.

There was a difference between a Divine Dragon and the Dragon Fighter who had inherited their blood essence.

There was also a difference between Long Chen and a real Ancestral Dragon.

But why is there such a difference? No one knew.

A true Ultimate Dragon, when he reached adulthood, was a terrifying existence that even the peak of the Divine Spirit Realm could not fight against. It was as if many Ultimate Dragon had died before they even reached the Eight Trigrams tribulation of reincarnation.

The Dark Emperor Dragon in front of him had given Long Chen a huge shock!

If it really was floating in front of the real Emperor Black Emperor Dragon, of course Long Chen wouldn't have the slightest ability to resist, but the one in front of him was just a fake. It was the remnant memory in the Dark Emperor's dragon soul that had intimidated Long Chen. He knew how powerful Long Chen was, so he had to scare him!

Of course, this kind of mental deterrence was also a blow!

"Disperse!"

Long Chen closed his eyes, ignoring everything else.

This way, the Dark Emperor Dragon wouldn't be able to scare him. He had easily rushed out of his opponent's spiritual world. Now, his opponent was actually roaring, and had almost broken free from his grasp!

"Eternal!"

Long Chen used the ability of the Great Void Cosmic Dragon to easily let his previous efforts fail. Long Chen adjusted his hand gesture a bit, and perfectly restrained the other party, but he was not afraid of getting hurt.

What truly made it difficult for Long Chen was the seven hundred striped Dragon Confining Arrows.

And there was also the Dragon Binding Bow with 700 patterns on it.

That would come from a real Unparalleled Dragon!

The Emperor Dragon Arrow trembled non-stop.

Under Long Chen's all-out suppression, he chose to do the same thing as the Extreme Heaven Blue Dragon, dashing into Long Chen's sea of consciousness in an attempt to shatter Long Chen's primordial spirit. However, even if the Dark Emperor Dragon was before the eyes of the Great Void Cosmic Dragon, it was simply suicidal to use such a method.

However, this battle seemed to have some movement, and might even spread out.

"If there's no one around, then it should be fine. I guess my luck isn't that bad." Long Chen breathed a sigh of relief.

Finally, the Dark Emperor Dragon was subdued.

The Dao Spirit had already recognized Long Chen's position.

The appearance of the Dark Emperor Dragon finally turned into a pitch black arrow in front of Long Chen. This arrow was very similar to the Dark Emperor Dragon, its majesty, arrogance, and dominance were all over the dragon's scales, and there were 600 lines on its surface. It looked to be much stronger than the dark brown Azure Dragon Arrow.

Of course, for the current Long Chen, if he controlled the Dragon Confining Bow and was able to use it, he could only use a maximum of five hundred Blue Dragon Arrows with Dao patterns. After all, it wasn't easy to activate the Dragon Confining Bow, and he could only move it a little. At this time, using the Dragon Confining Bow along with the Azure Dragon Arrow to unleash Long Chen's full strength, if he were to use the Emperor Dragon Arrow, it would instead be extremely taxing, and might not even be able to achieve the best result.

Of course, if Long Chen approached the level of the Tianmu Emperor, and used Dragon Confining Arrow, an artifact with two stages and seven hundred dao patterns, its power would definitely be terrifying!

Long Chen was communicating with Di Long Arrow.

What he didn't expect was that just as he retracted the Emperor Dragon Arrow and was about to confront the Emperor Dragon Arrow, a group of people were approaching Blue Tide Palace.

They were a group of young geniuses from the Everlasting Dragon City, led by Long Haochen.

"Congratulations to Big Brother Haoge for becoming an Inherited Dragon, and for becoming a Dragon Emperor in the future!"

Beside Long Haochen, there were many other very young men and women, all elite of Everlasting Dragon City, not weak either. A few of them were of the Four Symbols tribulation of reincarnation, the most elite of all the geniuses under the age of four thousand of the Everlasting Dragon City were gathered here.

Before Long Chen had appeared, they were already the top geniuses of this Dragon Sacrifice World.

And among them, other than Long Haochen, there were two other people who were ranked in the top ten of Hidden Dragon Rank. They had a great reputation within the entire Dragon God Domain, and were the object of admiration and admiration for thousands of youths. However, when heaven-defying characters like Long Chen appeared, the group of geniuses couldn't help but pale in comparison.

Among the youths, the male and the female were all handsome and elegant. A few of them even formed a pair, holding each other's arms as they advanced, and that Long Haochen was the target of many of them.

In front of these people, Long Haochen was in high spirits, occasionally revealing a devilish smile, which made his junior sisters happy.

"The matter of the young dragon being inherited is nothing. Being able to become a future Dragon Emperor will depend on your future hard work. " Long Haochen replied in a gentle and refined manner.

Everyone looked at him with reverence.

He looked ahead and said, "I won't speak about the young dragon's inheritance today. The main reason we're here is to find a remote place to relax. Everyone, stop talking about things like training, artifacts, and divine abilities. Let's play a game, what do you think? "

"Big brother, what game are you playing?" The eyes of the youths instantly turned hot.

For some games, it seemed like they could take advantage of the situation and play around secretly. The girls wouldn't mind.

Long Haochen was about to announce the rules of the game, when a few dragon roars suddenly came from the left.

Chapter 2180 - Don't leave

These dragon roars startled everyone. Logically speaking, no one should have come to such a remote place.

They looked at each other. The game they had prepared had to stop.

Long Haochen couldn't help but swallow his saliva as he looked at the girls' snow-white thighs, which had a somewhat seductive body.

Sure enough, there was a young lady who spoke out in a tender voice, "Brothers, isn't that direction the direction of the Green Tide Palace of the Eternal Dragon Emperor? Why is there a voice coming out from that direction?"

"Ah!"

Everyone was a bit nervous. After all, the Eternal Dragon Emperor had been dead for quite some time.

"Let's hurry up and go. My dad said it's best not to get too close to this place. I don't know why, but I keep feeling that this place is a bit eerie. Just in case the Eternal Dragon Emperor left something behind. We're finished. "

The girls were timid, so they could not help but pat their chests. Their faces were slightly pale as they spoke nervously.

Long Haochen and the other youths exchanged glances. It wasn't easy to get these beauties to come to this remote place, and they wouldn't be willing if they didn't take some advantage of them. This was their old game. In the past, they would often bring some pretty girls here to play games. Most importantly, they were also willing to curry favor with him.

After being interrupted like this, if they didn't understand, the girls would probably be on tenterhooks. Long Haochen thought of something, and said with a smile, "It just so happens that we should change the game and head to this Qinglan Hall to explore. Do you have the guts to come with me?"

The other youngsters understood what he meant and quickly echoed, "I'll go!"

After getting their approval, Long Haochen looked at those girls, asking, "Don't worry, we will definitely protect you."

The pretty girls nervously pondered for a moment. This kind of tense and exciting feeling once again piqued their interest. In addition, Long Haochen would be able to protect himself. For a moment, his heart was filled with bashfulness, and he hurriedly agreed.

Thus, a group of people carefully headed in the direction of Blue Tide Palace.

The current Long Chen was in the middle of a battle with Emperor Dragon Arrow, he never expected that Long Haochen's group would coincidentally be here flirting with girls.

Everyone looked around as they opened the doors to Blue Tide Palace.

The young girls quickly embraced the boy's arms. As their arms and legs came into contact, they all felt their hearts tremble.

"Come, let's go in and give it a try!"

With a woman in their arms, the youths were brave and majestic as they walked towards the back in a swagger. In reality, looking at the surroundings where no one had come for so many years, and thinking of how terrifying Long Qinglan was, they were also a little worried.

"There seems to be movement behind us!"

At this moment, a youth suddenly said.

Everyone was scared and took a few steps back!

This was where Long Qinglan used to live, and now, no one had come. Why was there still movement!

Long Haochen's eyes narrowed. If he stepped back now, the girls would definitely be disappointed. Making up his mind, he declared, "You guys wait for me here, I'll go take a look!"

"Let's go together!"

The other youths didn't want Long Haochen to take the spotlight for himself, and act cowardly in front of them.

As a result, the young females did not dare to stay here alone, so they all went together.

As they quickened their pace, they soon arrived at the backyard.

At this time, two wails came out, it was when Long Chen had lost the Emperor Dragon Arrow and started communicating with the Dark Emperor Dragon.

"It's right in front!"

Long Haochen vaguely sensed something, and sped up. The group of people followed him at flying speed, and very quickly, they reached a small hill, arriving on flat land. In front of them was a pile of rubble, and as they rushed up the largest of the rubble, they astonishingly saw, fifty meters in front of them, a youth standing with his back facing them.

The ground was filled with the soil that he had dug up.

"That's ..."

Everyone panicked. They didn't think that someone from Qinglan Palace would actually break in!

However, their eyes were quickly attracted by the object in the boy's hand. It was an arrow. It was completely black in color, covered in dragon scales, and extremely sharp. Its tail was not far from an ordinary dragon's tail. The arrow's body was surrounded by layers upon layers of Dao patterns. With their eyesight, other than the parts that Long Chen was holding, they already had at least five hundred Dao patterns. Which is to say, these were most likely six hundred Dao patterns!

Long Haochen's group was instantly envious!

In fact, even for a young inherited dragon like Long Haochen, he only had 400 dao patterns on him. This could be considered the best of the best. The others haven't.

This was a Dao weapon with six hundred Dao patterns!

Moreover, there seemed to be some impression!

This was precisely the time when Long Chen had just retrieved back the Emperor Dragon Arrow.

He was about to communicate with Emperor Dragon Arrow when he felt a disturbance behind him. He realized that he might be in for some bad luck. The sound that had occurred before wasn't too loud. If someone wasn't standing right next to him, they definitely wouldn't have been able to hear it.

He quickly picked up the arrow.

However, he reckoned that the other party should have seen it.

Since they saw it, they must be looking for trouble.

"Who are you!?" Don't go, turn around, I'm Long Haochen! "

Long Haochen sensed the fierceness of this person, so he berated him. He had a nagging feeling that this figure seemed somewhat familiar.

Everyone was originally somewhat afraid, but after hearing Long Haochen's shout, their courage increased by a lot.

A group of people rushed down the huge boulder, rushing towards Long Chen's direction.

Hearing the voice, Long Chen could recognize that it was Long Haochen.

At this moment, he turned around and saw more than ten young men and women rushing towards him.

When he clearly saw Long Chen's appearance, Long Haoge was instantly stupefied, and hastily stopped his steps, looking at Long Chen with incomparable shock.

Amongst the others, only two or three of them had seen Long Chen before.

On the other hand, many people still continued to rush towards Long Chen, but they immediately realized the change in Long Haochen. In a panic, they changed their charge to a retreat, and immediately hid behind Long Haochen.

The majority of the people were still puzzled as to why Long Haochen had such a wonderful look on his face when he saw this person.

Because, they could never have guessed that Long Chen would actually be here!

Long Haoge panted heavily, his eyes staring straight at Long Chen, and said, "You, why are you here?!"

He personally saw Long Chen defeat Long Qingyue.

He would never forget that kind of power for the rest of his life.

"Who is this!?" Even Long Haochen seemed to be very afraid! "

Everyone silently recited it in their hearts. It was somewhat strange.

Long Chen sized them up. What had happened had already happened, so he had no choice. Then he said: "Why am I here? It has nothing to do with you. Now that this place is my territory, you should hurry up and leave. "

Of course, Long Haochen didn't guess that Dragon Emperor Yongye personally brought him in.

He thought about it in his mind and braced himself: "You sneaked into my Everlasting Dragon City. Long Chen, do you believe that I won't tell my father right now and let him kill you?! This is the Everlasting Dragon City, not your territory! "

Long Chen?

The girls seemed to have heard of this name before. Thinking about it carefully, god, wasn't this the legendary heaven-defying son of the Dragon Emperor?

The group of people could not help but retreat a few steps as they nervously looked at Long Chen.

They had all heard that even Long Qingyue, the youngest daughter of the Immortal Dragon Emperor, had lost to Long Chen! This young man was powerful to the point of defying the heavens!

Long Chen laughed and said, "Don't waste your effort. Eternal Night Dragon Emperor brought me here, so I may still be able to stay here for a long time in the future. From now on, all of you must have my permission to come to Blue Tide Palace. If you don't, I won't be polite with you guys. "

"Dragon Emperor Yongye?"

That mysterious Dragon Emperor who lived in Weiyang Palace and never showed himself?

Everyone hesitated for a moment.

Honestly, if Long Chen wanted to enter the Everlasting Dragon City without being discovered, it would be rather difficult. After all, the three Dragon Emperors were in charge, so no one should even think of sneaking in.

Only

Earlier, they saw Long Chen getting at least six hundred dao tools!

Long Haochen braced his courage and shouted in anger, "I don't care how you came in! This Everlasting Dragon City is our territory, it has nothing to do with you, at most, you can only be our guest, customers can't take away master's things! So, Long Chen, you better hand over the six hundred Dao patterns you just stole, or else, don't blame me for being rude! "

Everyone couldn't help but cheer for Long Haochen's courage.

"Right, you're right. That's not yours. Hand it over quickly!"

"You are stealing my Everlasting Dragon City's things. This is a huge crime!"

The youngsters' chance to show off came, and in that moment, everyone looked at Long Chen with unfriendly eyes.

Long Chen was too lazy to talk too much with them, he directly interrupted them and said in a low voice: "I'll count to three. If you guys still don't leave this place, I'll kick you out of here!"

Upon hearing these words, the crowd couldn't help but retreat, yet they were unwilling to give up.

"One."

Long Chen looked at them coldly.

Everyone became nervous, and Long Haochen shouted back in anger, "What are you trying to do? This was the Everlasting Dragon City! Do you believe that I can find an elder to kill you?! "

He was actually quite nervous.

In front of everyone, he was a genius who was revered by others. He was high up in the sky, proud to be at the peak of the world, but every time he appeared in front of Long Chen, he would feel a sense of frustration that made him unable to raise his head.

Although his words threatened Long Chen, his voice was indeed trembling.

Now, in the eyes of the girls, he was no longer aloof.

"Two." Long Chen counted lightly.

Reaching this point, Long Haoge and the others looked at each other. They saw that Long Chen's eyes were growing colder and colder, and were becoming more and more terrifying.

Long Haochen's heart was flustered, "Don't go, I'll call someone!"

Saying that, before Long Chen could count to three, he ran!

The dignified number one genius of the Everlasting Dragon City was actually scared to the point of running away after hearing just a few words from Long Chen.

If word of this got out, they would probably laugh their teeth out.

Everyone was slightly shocked.

Since Long Haochen had already run away, how could they not be afraid? In a moment, the youths all dispersed. He hastily rushed out of Blue Tide Palace. Only after they left did their complexions turn pale, and they began to pant heavily.

"Um, this guy is a monster. We should avoid fighting with him and let the elders solve the problem." Long Haochen revealed an embarrassed smile.

"Right, if we really want to teach him a lesson, it's not impossible for us." Another youth chuckled.

"Then go in." The young ladies were very clear that the expert they worshipped was actually a coward when faced with someone stronger than them.
