

## War God 2231

### Chapter 2231 - god corpses

According to logic, Long Chen had already gotten control of the Divine Boat. Although breaking through the storm was extremely difficult, it was generally impossible for there to be such a violent collision. It was impossible for the storm to cause such an intense disturbance in the Emperor Jun Divine Boat!

There must be something else!

At this time, Di Jun and the Divine Boat should have been thrown out of the Spirit Sea.

Long Chen immediately controlled the Di Jun Divine Boat, filling the entire Di Jun Divine Boat with his Four Symbols Power of Reincarnation. This was not a simple Four Appearances Power of Reincarnation, but rather the power of reincarnation which had merged with the power of the four earth veins. Under his control, the Di Jun Divine Boat finally calmed down during the flight and continued forward under Long Chen's control!

"What's going on!"

Li Xuanji tidied up her messy clothes, and vigilantly looked around. Perhaps she was too sensitive, and already felt a sense of danger.

This was the Spirit Sea!

"I don't know yet."

The interior of the Di Jun Divine Boat was sealed, so it was actually very difficult to see what was going on clearly. There was only a small window that allowed one to see the outside, and the scope of the view was very small.

If he wanted to see a larger area, he could only open the cabin door. The storm and the divine blood would probably flood in from the outside.

"I'll stabilize first and continue moving forward. If there's still such a collision, then there must be something in Spirit Sea." Long Chen said calmly.

Logically speaking, this was the battlefield of the gods, a Spirit Sea with such a terrifying storm. There shouldn't be living beings. However, if it was not a living being, then why did Di Jun Divine Boat suffer a collision just now?

For a short period of time, Di Jun and the Divine Boat were walking steadily.

In the next moment, Long Chen saw from the small window that the waves in the surroundings had fluctuated even more violently, and the divine blood in the sea had become much richer. He spread his power over the entire Di Jun Divine Boat, and in the next instant, a heavy 'clang' sound came from the Di Jun Divine Boat!

After that, a tyrannical and destructive power attacked once again!

That wave of power was extremely tyrannical, tyrannical, barbaric, purely a result of the collision of physical strength. The entire Di Jun Divine Boat started to tremble violently, but luckily it was under Long Chen's control this time, so the entire Di Jun Divine Boat did not get knocked out, but instead stopped after a moment of bumping.

Long Chen realized that there were some things that had arrived and had their eyes set on them. In this Spirit Sea and the Sovereign Jun Divine Boat, it was obviously impossible to fight and it gave him a headache, but it was more likely that he knew what this thing that had suddenly appeared out of nowhere was!

In this storm, he immediately turned towards the direction of the Di Jun Divine Boat. The small window in front was facing the direction of where the enemy had launched his attack.

"What is this!"

Li Xuanji covered her lips lightly, her eyes filled with shock.

A flash passed before his eyes.

It was only a few tens of metres tall, and was as big as an Emperor Jun Divine Boat. With just a glance, Long Chen could only see that he was wearing a set of extremely worn out and ancient armor, his entire body was enveloped in shadows, and his appearance could not be seen clearly. In his hand was a golden halberd that was about to rot!

Some parts of his body had even been penetrated, and some of his armor had even been torn to shreds, which was almost equivalent to hanging on top of his body through rotten cloth. However, among the numerous wounds, blood kept flowing out without stop, converging onto the Spirit Sea, causing the area around him to be filled with a dark rainbow!

This was also the reason why the divine blood in the surrounding seawater would be so rich when it came!

"The blood in the Spirit Sea is God's Blood, and the blood that came out of this thing is God's Blood. Could he be a God?!"

Long Chen was shocked.

Of course he knew that the blood that flowed out of the other party's body was exactly the same as the God blood that was rolling in the Spirit Sea!

"It's coming again!"

Li Xuanji exclaimed.

Long Chen did not have much time to be shocked, if this continued, not only would it delay their journey, if the Di Jun Divine Boat was broken, both he and Li Xuanji would probably die here. This was not a joke, no one could save them!

Through the window, he saw that the 'god' had once again appeared in front of the Emperor Jun Divine Boat. He raised her decaying golden halberd high up and swung it towards the Emperor Jun Divine Boat, slashing the surrounding water into two!

This time, Long Chen could see everything even more clearly. He could even see his face clearly, but there were quite a few wounds on his face. Furthermore, his body was in a rotten state, so Long Chen finally understood that if he guessed right, this thing in front of him was actually a body!

Or could it be called a 'god corpse'?

He did not have time to think, so he quickly controlled the [Emperor Jun Divine Boat] and dodged like a fish. This time, he was lucky enough to avoid the attack, but in a blink of an eye the 'god corpse' had disappeared from his sight, leaving behind only the Spirit Sea Storm!

"He probably hasn't left yet." Li Xuanji said.

The windows were too small to see or feel what was happening outside, and the Di Jun Divine Boat was also sealed. Just at that moment, the Di Jun Divine Boat suffered another heavy injury, the top part of its head had caved in, and was probably going to be broken if the opponent hacked on it again! As long as it was broken, the two of them would definitely lose their lives here. At this moment, the two of them deeply understood the seriousness of the situation!

He had to retaliate, or wait for death!

He had just arrived at the battlefield of the gods, and he already encountered such a crisis. It was truly terrifying.

Furthermore, the opponent's background was unknown!

"Xuanji, come here."

Long Chen said to Li Xuanji as he controlled the Di Jun Divine Boat. Right now, he only had the Four Symbols tribulation of reincarnation. Without the help of Li Xuanji's yin devil power, the difference between him and City Lord Di Jun. Therefore, in this life or death situation, he would obviously need Li Xuanji's help!

Li Xuanji understood and turned into a yin demon, fusing into Long Chen's body, causing Long Chen's body strength to skyrocket and his control over the entire Emperor Jun Divine Boat to increase. At the same time, his intuition told him that the 'god corpse' was nearby, and that he was already preparing his second attack!

"I will open the cabin, and while blocking the Spirit Sea's storm, I will use the Dragon Binding Bow and Dragon Binding Arrow to deal with him!"

Long Chen had no choice but to take this risk, if he kept going, he would die waiting. Although this method was very risky, but there was nothing he could do!

He immediately did what he wanted to do. First, he turned the Emperor Jun Divine Boat and finally found the location of the Divine Corpse, he had indeed already rushed up and was preparing to attack. At this moment, Long Chen decisively opened the door, but he did not immediately use the Dragon Binding Bow or Dragon Arrow.

Just then, Long Chen quickly finished preparing the bow and arrows. The god corpse had already swung the gold halberd towards Di Jun and Divine Boat, the heavy power was extremely destructive, without saying a word, Long Chen released the Dragon Binding Arrow, which turned into a golden dragon, instantly pouncing onto the god corpse. It exploded like a cannonball, causing the god corpse's chest to explode with a bloody mist!

At the same time, it also resolved the crisis this time, sending the god corpse flying.

However, Long Chen was shocked to realize that the attack that could subdue City Master Di Jun was not able to completely shatter the Divine Corpse, it was only slightly injured.

It was extremely strenuous for Long Chen. He had already readied the Dragon Imprisoning Bow and Dragon Bolt, and the moment the other party attacked, he would immediately attack, but at this time, the corpse unexpectedly glanced at Long Chen with its dim and lifeless eyes, and said in an extremely gloomy and ancient voice, "Annihilate the gods' battlefield, save my life, save my life!"

With that, the god corpse seemed to lose all its strength and began to sink back into the Spirit Sea. In the blink of an eye, it disappeared without a trace.

At that moment, Long Chen was almost stunned.

Seeing that the countless storms were once again charging towards them with God's Blood in them, Long Chen immediately closed the cabin of the Di Jun Divine Boat, controlling the Di Jun Divine Boat to advance steadily. After the battle, they miraculously escaped from danger, Li Xuanji came out from his body, and the two of them looked at each other.

"Destroy the World of Gods and save my life?"

Long Chen was confused by his words.

Why did Long Qinglan want to destroy the Gods' Battlefield? Had he seen this god corpse before? That was to say, he knew even more secrets!

But why hadn't he told himself?

He didn't even tell the Dragon Emperor s that he was going to bear the burden himself.

What was this secret?

What did the god corpse mean by what he had said just now?

Long Chen could not understand no matter how much he thought about it.

This made him feel as if he had entered a strange whirlpool.

"Don't be too anxious. The truth will one day be revealed. You are still young. As long as you don't die, you can create unlimited possibilities."

Li Xuanji held both of his hands, and said gently.

"Yes."

Long Chen nodded.

This strange episode was over, and the god corpse never appeared again. However, another problem appeared before their eyes, as if the time they had spent inside was much longer than the last time. However, they couldn't find the blood-red colored tornado, nor could they find the battlefield of the gods.

"Could it be that the god corpse's attack caused them to deviate?"

This didn't seem possible. Long Chen had already been able to adjust his direction as much as he could, and with the tornado being so violent, how could he not have noticed?

Because of this, he started to look for the tornado seriously.

A day passed, but he still did not reap any rewards.

He had searched around everywhere.

"In that case, it should be even deeper now."

He moved deeper into the cave.

From the god corpse to the unreachable battlefield of the gods, Long Chen had a premonition that the god corpse would not be the same as before. This was a kind of intuition.

## Chapter 2232 - White Bone Temple

Just as Long Chen was searching for the location of the God Battle Arena, outside the Spirit Sea, the City Lord Di Jun was looking at this Spirit Sea with a deep gaze.

"Go. One chance. Take advantage of this opportunity and join us. Become one of the lucky ones in this era of destruction. "

Emperor Hei Yan said sinisterly as he transformed into a black cloud behind him.

Spirit Sea was engulfed in a tempest, and blood rained down everywhere, causing people's hair to stand on end.

Di Jun turned his head back, coldly glanced at the Black Emperor, and said, "The things that you have promised me, you cannot go back on your promise."

With that, he walked towards the Spirit Sea.

Halfway there, he suddenly turned his head and asked, "Chen Ting, when did you become like this?"

Hearing this, Emperor Blacknether was startled. He then laughed, "This is all part of the past. Right now, I am better off than anyone else. This is the key."

"Just tell me yes." The City Lord said.

Heh heh heh, it's not a big deal, that's after losing to Long Qinglan multiple times back then. I was not convinced. It just so happened that he was lucky enough to get a balance in his fate. Now that Long Qinglan did not even have a corpse left, and I have such ability, all of these are just memories of the past, and are not worth mentioning anymore. "

Instead, he silently entered the Spirit Sea. With the things provided by the Black Hell King, he did not need the Emperor's Divine Boat, and because of that, even if he killed Long Chen in the battlefield of the Gods, no one would know about it. After he succeeded, all he needed to do was escape.

After the City Lord entered, the Black Hell King smiled sinisterly, "Truly a fool whose mind is muddled by hatred. I just randomly made up a few experts and they were enough to scare him off. "

For this, he was extremely proud.

"Life, life, is truly lonely. Who would have known that my fate would change like this? I thought I was the only Black Hell Beast left in this world, but Long Qinglan wasn't created by me. I must still have more of my own kind, they will definitely come to find me! "

The so-called "his team has countless strong warriors", "within a hundred years, they will definitely attack the Dragon Sacrifice Continent", all these were fabricated by him. But it was also his guess. After all, if Long Qinglan transformed into a Black Underworld Beast after death, then there would definitely be an even stronger Black Underworld Beast. Once this matter was completed, the Black Hell King would find him, or even them, and become one of them!

"I've been warned several times that I can't enter this place, so what is the secret here?" Although Dragon Emperor Yongye is with us, Di Yao is not an easy target. I hope he can succeed! "

With that, he quietly left.

Just as he had expected, Dragon Emperor Yongye had lost Long Chen.

She was travelling alone in the Spirit Sea, and only someone at her level could withstand such a terrifying divine blood and storm.

She wore a long silver robe, and her long silver hair danced in the wind. Her beautiful figure was like a flower blooming in the sea.

However, her eyebrows were currently tightly-knit.

Not long ago, she was following Di Jun and the Divine Boat when a god corpse appeared, sending the Di Jun Divine Boat flying, and chased after it. In that instant, it created a huge storm, and the Eternal Night Dragon Emperor was just blown away by the storm. Because she did not have the Di Jun Divine Boat's protection, she had to be extremely careful and prudent while moving forward in the Spirit Sea, and her speed was also not fast, so when she turned around, the Di Jun Divine Boat and the god corpse were all lost.

However, she wouldn't forget the shock she felt when she saw the god corpse.

The war of gods was the God's Tomb, but the Archeozoic era gods had also disappeared. Until now, no one knew that they would also die, so the god corpse must have been one of the corpses left behind by gods. When it appeared in the Spirit Sea, the Eternal Night Dragon Emperor had already felt that there must be a monstrous secret hidden within!

A secret even she did not know.

To be honest, the fifteen Dragon Emperor s were all Dragon Fighter s, so they did not pay much attention to the matter of the seventy-two Shencheng s. Generally speaking, the seventy-two Shencheng s would enter this place on the day the storm stopped, so no one would dare disturb the rest of the gods' rest of the time.

Although the fifteen of them had the ability to enter all by themselves, they did not believe in the seventy-two divine spirits for one thing, and it was not easy to enter once, so they might even be injured. Thus, since ancient times, there did not seem to be many people who would come to this place outside of their own time. Even after entering for half a day, they basically didn't find the World of Gods and left.

It seemed that Long Qinglan had come here before.

Therefore, the appearance of the god corpse this time made her truly feel that the God Realm was a secret. There was even the possibility that Long Qinglan was not wrong in his actions back then, and this was how Long Chen firmly believed it was.

"Let's find Long Chen first."

She went deep into the Spirit Sea to look for Long Chen's whereabouts.

As for diving into the sea? To be honest, even though she had reached the pinnacle of heaven and earth, there were still many places that she could not go to. The deepest part of Spirit Sea was that since ancient times, no matter how strong people were, as long as they went in, they had never come out alive.

Long Chen maneuvered the Emperor Armament in a circle through Spirit Sea's storm for a good few days. This Spirit Sea might seem small, but in reality, it was infinitely big, with no end in sight.

Every thousand years, when the Spirit Sea opens, there will be a calm path that leads directly to the God's Battlefield, but this time was different. Long Chen originally came here along the same path, but after going through the obstruction of the god corpse, maybe he had deviated from his original location, or maybe the God Battle field itself wasn't where it used to be.

After a few days of research from Long Chen, he discovered that the probability of the God Battle Zone not being in its original position was higher.

This was also a major discovery.

But he did not give up, and continued to delve deeper. He had to find enough evidence to let the fifteen Dragon Emperor see that they had misunderstood Long Qinglan.

Perhaps it was due to luck, but one day, he finally saw the blood-colored tornado within the Spirit Sea. In front of him was a giant dragon-like storm that soared into the sky, enveloping a large area of the surrounding ocean within it.

Back then, Su Zilan could even control the Ancient Ark of the War God to rush into the battlefield of the Gods, but this time, he could as well. Although the disturbance was a little big, it was clearly not as big as the collision of the god corpses. However, the position of this battlefield seemed to be very different from the previous one.

However, in the entire Spirit Sea, there would definitely only be one battlefield belonging to the gods.

The same blood-red tornado made Long Chen certain that it was precisely at this place.

"I've finally found it."

Long Chen was a little excited.

He remembered that last time he arrived at the Door of Door of Doom, and then passed through the Door of Doom, which was the small path that led to the God's Tomb. Last time, Long Chen had only been to the Martial God's Tomb.

It was obvious that the Necropolis of the Gods was very large.

Long Chen began to rush forward. In the midst of the tornado, there was a bumpy road filled with blood red fog, following that were Nine-colored fog s. Seeing them, Long Chen was almost certain that they had reached the battlefield of the Gods.

Sure enough, after a while, the Nine-colored fog finally appeared.

Long Chen held his breath, broke through the Nine-colored fog, and arrived on a platform. At this time, the Di Jun Divine Boat had already landed on the shore, reached the destination, and calmed down. With an excited heart, Long Chen and the beauty Li Xuanji got off the Di Jun Divine Boat, and when he raised his head to look at the battlefield of the gods, what they saw stunned him for a good quarter of an hour!

All of this was completely different from what he had imagined or imagined!

In fact, Long Chen almost thought that this was not the battlefield of the gods!

The battlefield of the gods in his memory was covered by Nine-colored fog. Countless tombs of the gods were faintly discernible among the Nine-colored fog, quiet and profound, holy and lofty, as if they were paradise.

But in front of his eyes, the sky was also a group of Nine-colored fog s, but in front of him was a gigantic group of palaces, countless of palaces were endless, and most importantly, all of the palaces were greyish white, the walls, rubble, pillars and so on, were actually all made of white bones, it was really hard to imagine that there was actually a world of palaces made entirely out of white bones, a world of white bones.

It was as if there were millions of years of history on it, and no one had set foot on it. On the surface of the city gate, there was a white bone signboard, and on it, there were real human bones, written in four big words. It was not the battlefield of the Gods, but the 'White Bone Palace'!

As far as the eye could see, the entire White Bone Divine Palace was enveloped in a deep grayish-white fog, a dense rotten stench swept out, and a lot of stink, indicating that no one had come here for a very long time, and yet everything in front of their eyes was in a trance, there were no signs of life, it seemed more like a dead city!

"White Bone Divine Palace?" Li Xuanji's face slightly paled as she read out the four large, skeletal words in front of him, word for word.

Long Chen didn't know why there was such a change here!

However, this verified his guess. There was indeed a problem here, and today, he was here to uncover this secret!

"Back then, my father obviously went to this place before, which was why he wanted to destroy the World of Gods." Long Chen could not help but say.

Seeing him so excited, Li Xuanji said: "Regardless of what you say, this is a mysterious place left behind by the Primordial Era, it is filled with endless dangers, you should still be careful, so as to not get into trouble."

"Alright." Long Chen nodded.

"Let me help you."

In this place, she was alone outside, and it was even more dangerous. Becoming a Yin Mo could guarantee her safety, but it could also increase Long Chen's strength.

In these past few days, it was precisely because of Li Xuanji's help that Long Chen could defeat the City Master of Di Jun and the god corpse.

The fusion between the two was complete.

Without saying a word, Long Chen packed up the Emperor Jun Divine Boat and began to walk towards the city gate of the White Bone Divine Palace. The surroundings were filled with the marks of time and space, and walking inside would require a lot of courage and pressure, but for the truth, Long Chen did not hesitate!

#### Chapter 2233 - Nine-Color Palace

After passing through the city gate, what appeared in front of him was a vast expanse of palaces made of bones. A desolate aura assaulted his senses and the ground was actually filled with skulls. There were tens of millions of skulls on the ground; at any rate, the end couldn't be seen.

It was eerie and deathly still, and this was a type of city of death!

There was a difference of heaven and earth between this and the battlefield of the gods.

Long Chen was currently walking on the widest path, and the top of the path was also filled with skulls. These skulls were extremely hard, so Long Chen was not worried about breaking them, but in this strange place, it was better to not make any noise, so he lightly stepped forward.

He noticed that on the two sides of the road, besides the skull, the most common thing was a statue of a warrior. On the two sides of the road, besides the skull, the most important thing was a statue of a warrior.

Although these warrior sculptures were only sculptures, each of them had a tyrannical and primordial aura on them, making them extremely imposing, and even gave Long Chen some pressure. It could be seen from this that this place was definitely not simple.

Thousands of warriors were stationed on both sides of the road.

Long Chen first entered the small palaces on both sides of the road. It was empty inside, and it seemed that no one had come to visit for a long time.

He decided to go back inside.

Among them, he had entered countless of palaces without any direction.

On the other hand, that eerie and deathly aura was growing denser and denser with each passing year. Now, when he looked back, he couldn't even see the city gate. He was deeply entrenched in the White Bone Divine Palace, and when he looked up, all he could see were skulls, statues of warriors, and palace bones.

After walking for a little more than half a day, a majestic palace appeared in the depths of the palace in front of them. It was over a thousand meters tall and stood majestically in the middle of the palace, the surroundings were shrouded in gray clouds and above it were Nine-colored fog s.

"This must be the key point."

After walking for such a long time, he finally found a rather crucial point.

He quickened his pace as he walked towards the palace. Of course, he also paid great attention to concealment. Although this place seemed to be empty, it was not without danger.

Very quickly he approached the palace, standing at its feet, he looked up, the White Bone Palace was a huge mountain, one of the doors was at least 500 metres tall, it was a door formed by two sets of bones, it was extremely huge, the two doors were sealed shut, but the most important part was that they were not tight, leaving a two meter wide gap, which was enough for Long Chen to enter!

There was a similar signboard on the door, with dozens of skulls arranged in three words — Nine Color Palace.

Nine Color Palace?

It was pitch black inside, and there seemed to be something living inside.

"What kind of things would appear in this Nine Color Palace?"

Long Chen became even more suspicious, but he did not advance, otherwise there was no point in coming here.

After making up his mind, he walked into the Nine Color Palace through the crack of the door. As he stepped into this place, there was actually a vast pressure pressing down on him, just like the pressure from Emperor Jun's City Lord. It was even more terrifying than the freezing power of his space!

It was as if a god was standing in front of Long Chen, forcing him to kneel down.

It was not easy for Long Chen to stabilize his body, but his forehead was already sweating profusely, and it seemed like this place was indeed the key. He used his power to resist this pressure, and raised his head, causing the entire White Bone Palace to become pitch black, a total of hundreds of white bone pillars stood in the surroundings, forming a road in the middle, with a red carpet on top of them, extending to the depths of the palace.

Everything was silent.

"There is a feeling of danger." Li Xuanji had turned into a Yin Mo, but their minds were linked, so a thought could be transmitted to Long Chen.

"Let's go in and take a look."

Long Chen entered the Time Traversing Dragon's state. This seemed to make him feel a little better, and it was also a little safer.

Every few hundred meters, there would be two pillars.

He continued to walk deeper. After walking through hundreds of pillars, he suddenly stopped. He had a feeling that he was being watched. Under this extremely strong pressure, it was difficult to even fight.

Drip! Drip! Drip!

A sound suddenly rang out in the surroundings.

On the floor around him, thumb-sized beads suddenly fell to the ground and continuously bounced back, making "di da da" sounds. For a moment, Long Chen felt goosebumps all over his body.

Just a bead?

The beads seemed to have fallen from the sky as they continuously jumped and surrounded Long Chen. At this time, Long Chen was already prepared to fight!

As expected, in the next moment, smoke suddenly rose from the beads on the ground, turning into warriors with swords, spears, halberds, and silver cloaks!

Dozens of silver-gowned and gold-armoured warriors surrounded Long Chen in an instant. Long Chen was not anxious at all. First, he could not feel any signs of life from these warriors. He carefully observed these warriors carefully, and found that they were all extremely similar to human beings in every aspect. From their appearances, there seemed to be no big difference.

However, they had no emotions, no eyes, and a stiff expression. Although they were lifeless, they had a vast power, like a Seven Star Samsara martial artist. They all held at least five hundred dao tools!

Even more importantly, Long Chen discovered a very special kind of power on their bodies. That kind of power was similar to the divine power of all living beings, and even more mysterious and imposing, giving them an indescribably terrifying feeling.

It was precisely because these silver-gowned and gold-armoured warriors didn't have any feelings for, that when they first appeared, they brandished their Dao artifacts and charged towards him expressionlessly. When dozens of warriors of this level attacked, Long Chen felt a certain amount of pressure from them in a moment!

"The Tempest of Time!"

Long Chen used the power of time to deal with them first, it was the most effective, fastest, and most unavoidable way to do so. Amidst the chaos of time, it was as if the surroundings exploded one after another, causing the warriors' bodies to explode, and the blood actually wasn't red, there was gold, and there was even silver!

With Long Chen's strength at the moment, it was not difficult to subdue them. Under the time storm, he would rush around and kill his way through them with the Heaven Smiting Sword in hand. Now, the God Slaying Sword had more than 400 Dao patterns, because Long Chen would not be using it for a short period of time with the Dragon Confining Bow and Dragon Confining Arrow, but the God Slaying Sword had a huge value.

"AHH!" A lot of food, but it starved me to death! "

The small skeleton was extremely excited, under Long Chen's control, the God Slaying Sword specifically swept across the Dao artifacts and tore off pieces of 'flesh'. Long Chen's speed was extremely fast, coupled with the Great Void Cosmic Dragon's Limitless Eternity spell, all of the silver-gowned and golden-armoured warriors fell in front of them, turning into their original pearls, only that they were already broken!

During this entire process, the small skeleton would always laugh happily.

On the God Slaying Sword, more and more Dao patterns appeared. After Long Chen had killed more than ten Dao artifacts with about five hundred dao patterns on them, the God Slaying Sword had also become a Dao weapon with five hundred dao patterns. It was just that at this time, Dao artifacts of the same level were useless to him, thus Long Chen packed up the remaining precious Dao artifacts.

Until the very end, when there were only a few warriors left in front of Long Chen, and those warriors didn't fear death at all as they continued to attack with difficulty, until there was only one left of them. At this time, the warrior stopped his movements and said: "If it's not my kind, there's no doubt that they will die. "Human, you don't have to struggle!"

In reality, there was no difference between their appearances and that of humans. Long Chen had always thought that they were humans who had created them, or maybe they were human gods, but they were still humans.

At this time, the fellow in front of Long Chen exploded and turned back into a bead. However, it had already shattered.

He placed all the broken pearls inside the God Nation's new world, and the surrounding area once again became deathly still. Long Chen packed up the God Slaying Sword, and continued to walk inside.

It was actually a crack in the door, a five hundred meter high door with a crack in the middle that was big enough for him to pass through. It was gentle and beautiful, causing Long Chen to almost think that it was a fairyland inside. And more importantly, this huge palace was called the Nine Colors Palace, then it must be related to this!

They had finally reached the most crucial point.

He slowed his pace and walked step by step towards the door. As he approached the door, he could already hear the rustling sounds as well as the sound of the flowing wind, and the colourful glow was getting stronger and stronger, until Long Chen stood at the crack of the door and realized that there was an endless abyss behind the door. The abyss was so wide that he couldn't see the end, and countless Nine-colored fog were rushing towards the sky from the bottom.

In other words, all the Nine-colored fog in the entire White Bone Divine Palace came from this abyss.

Long Chen suddenly remembered that the Nine-colored fog was an extremely terrifying existence, it was like a tiny worm. Being able to swallow a person whole in a short amount of time, was extremely terrifying.

He could not help but step through the door and look into the depths.

This was a nine colored abyss, and all kinds of colors were shining exactly the same. For a moment, Long Chen couldn't even clearly see what was below him.

However, he felt a sense of danger.

Chapter 2234 - Nine-colored Insects

The crisis came very quickly. Although he had long since come to this place with this realization, for his father, he was willing to take risks here. This was his duty as a son, and also his desire.

In the blink of an eye, the Nine-colored fog before his eyes started to fluctuate violently, and as if it had sensed Long Chen's aura, who was a stranger, it instantly charged towards Long Chen.

Right at that moment, the Nine-colored fog had smashed onto the door, causing it to tremble the most, and the door that was five hundred meters tall was actually smashed open at the first moment. After that, an endless stream of Nine-colored fog rushed in, but they did not directly attack Long Chen, but instead circled behind him, and instantly sealed off his path of retreat!

It could be seen that these Nine-colored fog had a certain amount of intelligence!

"Be careful!"

Just as the Nine-colored fog surrounded Long Chen, making him unable to retreat, all of the Nine-colored fog behind him suddenly charged towards Long Chen. From the looks of it, they wanted to fight to the death with Long Chen.

When those Nine-colored fog descended, Long Chen used the tempest of time to block them. He treated these Nine-colored fog as bugs and treated them as living creatures, and indeed, under the tempest of time, a large number of Nine-colored fog disappeared in the air and turned into fine powder. But there were simply too many of them, and after being destroyed by a group of Nine-colored fog, another endless amount of Nine-colored fog rushed forward, forcing Long Chen into the abyss that he was close to, and firmly blocking his way out!

In that instant, that door was practically sealed by countless Nine-colored fog, and even the entire palace was filled with Nine-colored fog. In the abyss, Long Chen was unable to leave the palace anymore.

For a moment, Long Chen was trapped here as countless Nine-colored fog surrounded him. Although they did not immediately launch an attack, it was more or less enough as countless Nine-colored fog danced around him, even emitting a terrifying 'zzz' sound, like the sound of insects.

"Can't get out?"

Long Chen couldn't help but frown. If he were to rush out now, it was very possible that he would be eaten up to the point where not even his flesh would remain before he could even rush out. There were

very few people in the world who were his match, but in the World of Gods, there was still something that he couldn't resist!

Under the suppression of the Nine-colored fog, Long Chen even went deeper into the abyss.

At this moment, this scene could only be described as soul-stirring. It was much more dangerous than when he was battling against the City Lord.

Long Chen felt a living being squirming below him.

He couldn't help but look down and discovered a scene that he initially found hard to imagine.

In this seemingly bottomless abyss, there were a type of insect crawling all over the surrounding walls.

The small one was more than ten meters long.

Those that were over a hundred meters long, or even several hundred meters, were like meat sticks as they stuck onto the walls of the mountain.

It was a type of pure flesh worm, but its entire body was sparkling and translucent. It had nine colors, and it was like a gem, radiating a wonderful light in the abyss.

However, such beautiful flesh worms were terrifying monsters to Long Chen, because what he saw was that the Nine-colored fog that surrounded the entire White Bone Divine Palace, or should he say the battlefield of the gods, and the Nine-colored fog that surrounded him right now, was actually the smoke released by this 'Nine-coloured bug', or could it be more accurate to say, it was a 'larva'?

No matter what, all the Nine-colored fog were created by this Nine-coloured Worm!

This place is called the Nine Color Palace, so that's what it means?

What exactly were the secrets of the World of Gods, the White Bone Divine Palace, and the Nine-Colored Worms?

Not giving Long Chen time to think, just as he had entered the abyss and saw the Nine-coloured Bugs, the endless Nine-colored fog that he had accumulated for many years once again swarmed over the years. In that instant, it nearly drowned Long Chen completely!

Long Chen was also thinking about how to deal with these scary things.

First, he used the Blood Weeping Dragon soul.

Initially, they wanted to rely on them to rush out, but when the million Blood Weeping Dragon souls appeared, surrounding Long Chen in the center, and just as they were about to attack the sky and the outside world, the countless Nine-colored fog s instantly submerged the Blood Weeping Dragon souls and then, swallowed them!

It had always been the killing of small dragons that killed others. But today, the opponents had an even larger number of enemies. The ones to be killed and devoured was actually them!

Under the terrifying swarm of Nine-colored fog, Long Chen's Blood Crying Dragon Soul was completely unable to support him as he charged into the sky. After all, this Nine-colored fog was simply endless!

He quickly gathered up the Sobbing Blood Dragon Soul to prevent himself from suffering too much damage. If this went on, he would definitely die here!

This was the most effective way for him to use the Tempest of Time once again. It could turn a large portion of the surrounding Nine-colored fog into powder, but the Nine-colored fog was endless, and there were even countless of Nine-coloured Insects still producing. If he used up all his energy, wouldn't he die here?

The situation seemed to be urgent.

After dealing with three or four of the attacks, the other party still charged forward to attack. With almost no room for Long Chen to catch his breath, he was already able to sniff out the scent of danger and death.

At this critical moment, he suddenly came to his senses and targeted the Nine-Colored Worms. Without saying anything further, he condensed two Dragon Bows and Dragon Arrows with 700 runes on them. He instantly aimed at the largest Nine-Colored Worm that he could see!

It was over a hundred meters long, and its tail was covered with a large number of Nine-colored fog.

"Are you controlling these Nine-colored fog?"

Long Chen sneered.

Shoot!

The Dragon-Confining Arrow turned into a Dragon-Confining Dragon, Long Chen unleashed the 'explosive' rule. With his current power and the Dragon Confining Bow, he was unable to block the powerful destructive ability of the Nine-coloured Bug. It was obvious that they were not good at defense, so Long Chen's Dragon-Confining Arrow was aimed at piercing through the Nine-coloured Bug!

Then, it exploded!

The entire Nine-coloured Bug burst apart, transforming into countless Nine-colored fog s that joined the team that were besieging Long Chen. Then, a portion of its organs were directly shattered, turning into ashes!

Before dying, the eyeless Nine-Colored Worm let out a world-shaking hiss, and the surrounding Nine-Colored Worms squirmed downwards in fear. Even the Nine-colored fog that was surrounding Long Chen was slowing down its attack, but it still firmly stared at Long Chen, preventing him from escaping.

"It's still difficult."

Long Chen was still trapped here, with a radius of only a dozen meters around him, it was hard to tell which direction was up and which was down.

"Let's kill a few more first."

Using this Dragon-Binding Arrow, Long Chen aimed at the 1900 Colored Insects. The Nine-coloured Insects seemed to be able to sense him, and he once again headed downwards, quickly disappearing into the darkness.

Not giving Long Chen a chance, Long Chen unleashed that Tempest of Time time again and again, and very quickly, he became exhausted. However, the Nine-colored fog was still endless, and he had already sensed the terrifying danger, if he continued to be besieged like this, he would not even be able to live.

"How do I get out?"

This was the question that he and Li Xuanji were thinking about at all times.

Long Chen could only descend, and threaten them at any time. Otherwise, those Nine-colored fog would have no scruples, and would definitely engulf Long Chen in a short amount of time!

Because of this, Long Chen went further and further down, and he was actually getting further and further away from the exit.

However, this was something that he had to do. Once they were not further down, the Nine-colored fog would have no more worries.

In the process, once the Nine-colored fog attacked, Long Chen would shoot a Nine-coloured Bug to warn them. This was the only method.

Now that it had gone on endlessly, Long Chen realized that he did not even know how far he had fallen in this tragedy. It would be even harder to leave this place.

"Are you afraid?"

He held Dragon Confining Bow and looked at his opponent seriously before using his heart to communicate with Li Xuanji.

"Not afraid."

"Why?"

Facing such a death, even Long Chen himself was disgusted. Who would be willing to be devoured by such a thing without leaving a trace?

"Because I feel that you will not die. You will not die. I will not die."

Li Xuanji's voice was filled with gentleness and certainty.

She trusted herself so much that she had brought endless power to herself. As the saying goes, when a ship reaches the end of a bridge, it is natural that she should not give up and become timid before she dies. Otherwise, how could he be worthy of her trust in him?

It was very easy to kill them, but Long Chen did not dare be too brutal. If he managed to kill all the Nine-coloured Worms, it would be the true doomsday for them. At the current time, he could still threaten them.

Suddenly, Long Chen saw something special on the mountain wall below.

It was a small blade of grass.

In this barren land, it was truly unbelievable for such a jade-green grass to grow. It even emitted a charming brilliance, bringing with it a rich green color. It was incomparably strong, powerful, and filled with a terrifying life force.

More importantly, no Nine-colored fog appeared within a radius of ten meters from this little grass. In fact, the Nine-colored fog was actually afraid of this little grass?

This was a golden opportunity, Long Chen directly rushed towards the small grass, the Nine-colored fog tried its best to resist and kill, but they were unable to stop Long Chen from betting everything on this.

## Chapter 2235 - Fire of Life

When Long Chen stood next to the small grass, as expected, the Nine-colored fog stopped ten meters away from the small grass and actually did not dare to approach. Long Chen finally heaved a sigh of relief.

For the time being, his life was in no danger.

This could also be considered the heavens helping him.

He was sure that those Nine-colored fog would only dare to clamor outside, and did not dare to go near, he could not help but start to study the grass growing from the mountain wall. This was not an immortal spirit, it did not even have a single Immortal Mark, it looked ordinary, but it had a terrifying life force, relying on this life force, it was sufficient to grow into a creature that was over a thousand meters tall, to the extent that it was as tall as Luan Treeman's ancestor.

How could a small grass obtain such a huge amount of life force?

Everything in the world had the ability to grow. The stronger the life force, the more terrifying it would be, for example, Long Chen's life force, which was now in a timeless state. This was also a part of his cultivation and potential.

Most importantly, Taiji Creature Dragon was a dragon of life and creation. Although Long Chen had very little understanding of the way of life, but he had this tyrannical and terrifying innate advantage here. In terms of controlling his life force, he could be considered an ancestor. At the very least, his bloodline was ancestral.

"Life is truly a magical existence. Although these Nine-colored fog looked beautiful, they were actually made up of the power of death, which was why they were so afraid of this incredibly exuberant life force. It is precisely in this White Bone Divine Palace where the ultimate death lies, that random grass that gathered the last of the life force of the entire White Bone Divine Palace and condensed it into a single spot, that gives rise to such a vast amount of life force! "

Suddenly, Long Chen seemed to have found a way to escape.

His body was like a huge treasure trove, but he did not have much time to dig it. He spent most of his time focusing on the path of killing and time, ignoring the cultivation of life. At most, he only had control over the power of the 14th Sacrifice. The Fourteenth Sacrifice could almost catch up with the destructive power of the Time Storm, but the path of life controlled the Divine Kingdom. The vast and vibrant world in his body should have had a greater development.

"Being trapped here right now, to me, might also be a form of cultivation. This is a rare opportunity that was given to me by the heavens. Right now, I seem to have fallen into a net of fish. It seems that only by killing the fish will I have a chance to escape. For me, this is a type of motivation! "

After comprehending everything, his previously tense heart was now completely at peace.

Just as Li Xuanji had said, he would not die.

He forgot about life and death, forgot about the numerous Nine-colored fogs outside that were still dancing in the air crazily, and entered into a mysterious life world. He reached out his hand and gently held onto that small grass that had such a majestic life force, of course he wouldn't break it, because if it did, it would lose all of its life force.

This might be the only remaining life energy in this White Bone Divine Palace.

When he held onto this little grass, Long Chen felt as if he had come to another world. He saw himself leaning on a ten thousand meter tall tree.

Surging life force flowed through this towering tree, pushing it to continue growing. It even had a lifespan of tens of thousands, hundreds of thousands, or even millions of years.

This was life.

In the new world inside Long Chen's body, the perfect dragon-shaped continent was also continuing to grow. In the expansion, the fourteen peaks represented the fourteen elements, and everything was forming and brimming with vitality. There were even new life forms being born within them. Even so, the greatest power in this world was not any of the fourteen peaks, but life!

Amongst the fifteen dragon heads of Taiji Creature Dragon, the life dragon heads were the most important.

If the Primordial Blood Spirit Dragon was a divine dragon that brought death, then the Taiji Creature Dragon was an Ancestral Dragon that brought life. Long Chen immersed himself from the little grass in his hands into his own world. Time quietly passed and everything was born.

Long Chen discovered the first flame in the new world, in the way of life that belonged to him. It was a type of green flame, born in the very center of the new world, with only a tiny bit of it.

Long Chen called this initial green flame — Flames of Life.

It must be that name in itself.

Although the flame of life was small, it had penetrated the entire new world, including all of the tiny life forms that had just been born, even the flowers, plants, and trees.

Although the fire was not big, it had always been beautiful and would not go out.

This little flame of life could be seen on Long Chen's palm. On his body, this was the true beginning of his road to life. At the same time, the Flame of Life was his greatest reliance.

Long Chen placed the fire of life on his palm.

Under the contrast of the light of the fire, not only Long Chen, but even that small stalk of grass seemed especially alive.

"So comfortable!"

Li Xuanji could not help but moan softly as well. Her body was currently connected to Long Chen's body, and everything she sensed was the same as Long Chen's.

Under the illumination of the fire of life, as long as Long Chen had a dying wish, everything could be reborn and life force could once again shine forth. The healing of this kind of fire of life is different from the origin of the dream return of time reverse flow. The origin of dream return will consume a lot of energy, but the fire of life is endowed with the power of life, recovery and growth.

Even more so, Long Chen had not completely unearthed it yet.

For example, at this time, his fires of life, to all Nine-colored fog, were something that was even scarier than that small blade of grass. In an instant, all the Nine-colored fog retreated to a distance several hundred meters away, and trembled under the power of the fire of life.

When the fire of life was born, it meant that Long Chen had no problem leaving this place.

It was still a deep abyss below him, with countless of Nine-coloured Insects within. This time, it was extremely dangerous, and he almost lost his life, he was too lazy to stay in this damned place. The White Bone Divine Palace was so huge, the answer that Long Chen wanted should not be in this place.

Perhaps after the Nine Color Palace, there will be many more of these palaces that hide true secrets!

This was just the beginning!

"Thank you!"

Long Chen lightly touched the green grass with his life force. The grass continued to grow, from a length of less than half a meter, in a short period of time it grew to almost ten meters, and it had an even stronger vitality.

Today, it was Long Chen's savior.

Long Chen held onto the flame of his life, and flew towards the sky. Currently, all the Nine-colored fog were hurriedly retreating, and were constantly retreating. As he was rising into the sky, he once again saw the place he had entered from earlier. He passed through the gate that had been blasted open, and arrived at the great hall.

"Nine Color Palace, hehe."

The battlefield of the gods should be this White Bone Divine Palace. He believed in his father even more. If this White Bone Divine Palace was the battlefield of gods, then this place must be destroyed!

But before it was destroyed, Long Chen still wanted to know its secret!

He left the Nine Colors Palace, went around the Nine Colors Palace, and headed deeper into the White Bone Divine Palace. In front of him were yet another endless sea of skulls and warriors stationed on both sides of the road, in front of him was still a vast expanse of gray fog, and the surroundings were still empty palaces. Long Chen quickened his pace this time, and continued onward.

It was even bigger than the Nine Color Palace!

There were three words written on top of the skull — — idol palace.

"Divinities Palace?"

From these three words, Long Chen already felt that this seemed to have something to do with the Primordial Gods.

The idol of the gods?

Because of what happened to the Nine Color Palace last time, Long Chen was still afraid of this place, so he did not dare to act rashly this time.

The Divinities Palace was also a palace made of white bones.

Standing outside the door, Long Chen could see that it was pitch black inside, as if there was nothing inside. However, this time, the pressure that the deity statue palace gave him was even greater, as if there was a real god inside.

To be honest, he did hesitate.

But for the truth, for the desire in his heart, he could not help but act.

He strode into the palace.

It was different from the previous silence. The moment he stepped into the palace, the interior suddenly became resplendent and erupted with boundless light. Everything before his eyes instantly turned into clouds, floating high in the sky!

Buzz! Buzz! Buzz!

Long Chen stood in place, looking at the white clouds rolling in front of him. Just at this moment, a few dozen people suddenly appeared from within the clouds, floated above the clouds, and looked down at Long Chen. When Long Chen took a closer look, there were a total of seventy-two of them!

Seventy-two!

This is the 72 - The Ancient City of God's descendants's number.

And these seventy-two people in front of them, obviously corresponded to the seventy-two Archaic Gods. They wore ancient clothing on their bodies, and looked disdainfully at others, as if they were

standing above the ninth heaven, with power that would make people incomparably bow down to them. Even Long Chen had the urge to surrender in front of them.

BOOM!

It was as if countless giant boulders were pressing down on Long Chen's body, causing him to find it difficult to breathe.

All seventy-two of them seemed to have their gazes fixed on him.

"This is ..."

Long Chen's mind was in a mess.

#### Chapter 2236 - The God of War

The clouds and mist were endless, the deities had descended, and their divine might was vast and boundless!

An enormous pressure attacked him, as if he was in a shrine. When he turned around, even the door to the room disappeared. At first, Long Chen was truly frightened, but when he regained his senses and looked at the 'people', he realized that the so called divine might was not really that terrifying!

At the very most, he was only slightly more terrifying than the previous Nine Color Palace.

If it was a true god, then how terrifying would it be if 72 deities stood here? If Long Qinglan had not become a god when he was at his strongest, then it would have shocked the entire Immortal God Realm!

Therefore, these people in front of him were definitely not real gods.

Moreover, the name of this place was the Palace of Divine Statues. The entire White Bone Divine Palace was very long, and if they go any lower, there would definitely be many palaces. This was only the second palace, how could there be all of these deities?

Thus, he felt that it was impossible!

Thirdly, after a round of careful observation, he realized that the seventy-two people in the clouds were actually similar to the silver-gowned and golden-armored warriors that he had seen in the Nine Colors Palace. They were all lifeless, only their fleshly bodies were made of puppets, or rather, statues of gods.

They do not exist.

Thus, there was nothing to fear.

However, even if it was a deity statue, they were too lifelike. It was as if almost all the deities had been observing him.

This feeling would still make one's hair stand on end.

When the initial fear and worry had disappeared, they did not move an inch. Long Chen started to look at them carefully, and at the very beginning, his gaze had naturally landed on the God in the middle.

Long Chen had seen this person before at the Di Jun Mountain. He was the idol of the first god emperor of the ancient times, dressed in plain clothes, with an ordinary appearance. Even though he was inconspicuous in the crowd, he was actually a born emperor!

Long Chen had seen his other image before, he was simply handsome and domineering to the extreme.

Now, this 'idol' was also looking at him. Although it was an idol, but in terms of time, it looked no different from a human. It had flesh and blood, but it just didn't move. However, the statue of Di Junshan should have been carved out of rock, they were not the same concept.

Other than Di Jun, there were also other deities dressed up beside him, all of them were extremely elegant and imposing, possessing true divine might, controlling lightning snakes, standing on divine dragons, hugging the moon, like giants, etc.

Other than Di Jun, there was also the Primeval Giant God, the Violet Myrtle Heavenly Emperor, the Eastern Emperor Supreme One, the Void God King, and more. There were even more common Sky Fire Gods, Ice Goddesses, God of Light, and the Demon Gods of Hell.

The seventy-two Archaic Gods of the human race were clearly displayed in front of Long Chen.

Long Chen heaved a sigh of relief, luckily they were not real, otherwise, he would really lose his life this time.

Today, they were still above the clouds.

Long Chen could not help but want to know the purpose of the appearance of the god statues of the 72 Archaic Gods.

After calming down, he wanted to go up and take a look, but at that moment, he remembered the sense of danger he felt when he first entered. Although the statue appeared before his eyes, the sense of danger did not disappear.

Long Chen thought about the warrior in silver robes and golden armor.

Just then, a cold snort came like thunder, deafening Long Chen.

"Who are you? You actually barged into my clan's divine palace!"

That was the voice from the 72 gods above. When Long Chen's gaze swept across them, one of them suddenly moved, it felt like a warrior in silver robes or golden armor, although it was not the appearance of a real god, Long Chen obviously did not know where those gods went. However, the appearance of this guy in front of him might clear his doubts, but of course, it would also bring him an even greater danger!

His entire body seemed to be cast in gold, even his skin had a tinge of gold, in his hand he held a gold battle halberd, with three pointed and two blades, when he woke up, it erupted with a boundless light, his eyes were like blazing fire, filled with an endless desire for war, one could tell with one glance that he was that kind of expert who practiced martial arts and was addicted to it!

"That mortal, charge into my Heavenly Palace and die!"

It landed on the ground in the blink of an eye, causing a loud explosion that echoed throughout the entire palace. However, what made Long Chen slightly at ease was that none of the gods in the clouds seemed to have come to life like the one in front of him.

There were a lot of gods that Long Chen didn't know about, so he wasn't sure which one was in front of him.

But even so, the other party still brought a terrifying killing intent to him. He was absolutely countless times stronger than that silver-robed, golden-armored warrior.

Right now, Long Chen was at odds with him in the middle of the deity statue palace.

The other party's divine eyes lit up, his entire body was shining with a brilliant light. The golden halberd in his hand pointed towards Long Chen, and he bellowed: "I am the God of Martialism, 'Mortal Realm Body'. Guard the Divine Statue Palace, you must quickly commit suicide, if I were to make a move, I will destroy your soul and spirit, so that you will never be able to reincarnate! "

Of course not.

In this place, it was difficult even to transform into a divine dragon. After all, there wasn't much room for him to do battle here. With a single hand on his sword, there were more than 500 runes on it right now.

The moment Long Chen took out his weapon, the Martial God was enraged.

The so called Divine Spirit of Martialism probably had a very deep history with Long Chen. The True Martial Imperial Palace was related to the War God's Ancient City, and the ancestor of the War God's Ancient City was none other than these eighteen Martial Gods, right? They were only the Divine Spirit of Martial Arts?

He didn't expect it to be him!

What was the mortal body?

"Who knows what you are? What was a mortal body? If you tell me that I believe you, I will definitely commit suicide. "

This thing in front of his eyes was basically lifeless. It was true that it did not have much intelligence, thus, in this moment of crisis, Long Chen wanted to come up with something.

However, the man shouted in anger, "Damn it! How dare you tease me!"

Right at this moment, the power of the Divine Spirit of Martialism suddenly exploded. Long Chen could clearly see the completely intact World Tree, Heart of Rules, and even the one billion Divine Palace that could only become a Divine Spirit!

There was a billion lives in there!

Of course, it only lasted for a moment.

"Tai!"

The Divine Spirit of the Martial Arts was the pinnacle of all martial arts. He was good at close combat, and with the golden halberd in his hand, his moves looked simple, but they carried a myriad of changes and might. As he attacked, the surrounding wind and clouds surged, and Long Chen was instantly suppressed within his weapon!

Long Chen had used the God Slaying Sword to execute the Sword Arts that he had not displayed in a long time, and now it was possible for him to even rush up the 3000 swords. With his current power, all the profound meanings of the Sword Slaughter Art were "Fast", becoming faster and faster, and the attack also became fiercer!

In a mere instant, he had almost exchanged over a thousand strikes with the Divine Spirit of Martial Arts. He felt that the power of the Divine Spirit of Martial Arts was actually not enormous and was about the same as the City Lord of Emperor Jun. However, the important thing was that he could display a truly profound might of the Heavenly Dao.

The rules of the Martial Dao!

From the martial dao to the heavenly dao, there were rules!

The laws of this world were the most profound of the world's powers. It was as though the ruler of this world controlled one of the laws of this world.

"Two thousand sword strikes!"

The Sword Qi around Long Chen soared to the sky, the Devouring Sword Qi shot out and all of them struck the body of the Spirit of Martialism. The two thousand swords that had broken through their limits released terrifying power that had never been seen before.

"Bang!"

At this time, the God of Martialism calmly reached out and swiped her golden halberd. A deep and profound character appeared on that golden halberd, it was an incomparably profound character that carried the might of heaven and earth, and every word and gesture seemed to contain destructive strength and supreme laws!

The golden halberd and Long Chen's God Slaying Sword clashed!

Long Chen suddenly had a bad premonition!

This showed that the person in front of him was not a real god, but he was able to use some of the highest level of power. For example, in this clash, when Long Chen had clearly pushed his opponent back, he suddenly felt an indescribable force acting on his body, causing him to be unable to resist!

At that moment, even the small skeleton cried out in pain, as though the God Slaying Sword was about to break.

Long Chen was in an even more miserable state. Large and small cracks suddenly appeared on his body, as though his entire body was going to explode. Then, he would be dead for sure, even his head would crack, and that kind of feeling was undoubtedly painful to the extreme.

He understood that this was probably the power of the gods, the power of the laws.

Under the laws of nature, his body was on the verge of collapsing under the effect of the word 'collapse'!

In that moment of life and death, Long Chen transferred the fire into his own body. In that instant, his entire body was ignited with the emerald green flames, a huge amount of life force pierced through his body, and in that short period of time, suppressed the attack of the law of the martial way!

In truth, ordinary divine abilities weren't capable of blocking an attack from a natural law at all.

Even in the eyes of the Martial Spirit, Long Chen was undoubtedly dead.

Although it was just an elementary form, in terms of essence, it stood above the rules of the gods. There were two types of rules, one was a rule that was controlled by the gods, there were strong and weak, and the other was the origin rules of the entire world, such as fate, the birth of life, and so on.

The fire of life was currently only a divine ability, but it would inevitably grow into a supreme origin law in the future.

Therefore, with the burning of his life force, Long Chen was able to dissolve the power of the rules of the martial way. He was acutely aware that the God of Martialism itself was not strong and only had rules, so he had to finish this battle quickly!

#### Chapter 2237 - Three Lives

It was a good thing that the Nine Colors Palace had the Fire of Life, otherwise, Long Chen would have to use Dream Return to Origin to recover. There was a 'degree' to the origin of Dreamscape. The more severe the injury, the more energy would be needed to reverse time and recover. However, the flame of life ...

It was a type of life force bestowed upon him.

The power of life, on the road of restoration and restoration, was more perfect than the reverse flow of time.

This was the fires of life. The power of the rules of the martial way, it could easily dissolve invisibility.

This point was something that even that Martial Spirit had not thought clearly about, right?

He quickly got up, his eyes full of suspicion, but also rage and brutality. The battle once again started, then this time, although the opponent constantly used the power of laws, Long Chen was basically able to handle it with ease!

However, what he did not know was that during his intense battle with the Divine Spirit of Martialism, there was a pair of eyes outside that was staring at the scene in the palace in astonishment.

After the deep battle with the Martial Spirit, Long Chen gradually understood the opponent's background. At this time, the Killing Sword Technique had already reached an extremely terrifying level of around 3000 swords.

Therefore, it was basically Long Chen suppressing the other party!

The suppression was getting stronger and stronger!

The God of Martialism could not help but shout in anger: "You dare to act so recklessly! Escape from judgement! If this goes on, you will die miserably! "

Long Chen was too lazy to listen to what he had to say. The other party was undoubtedly in danger, and after gaining the upper hand at this moment, he could not help but use his killing move!

"Eye of Hell!"

It had been a long time since he used this move, but Long Chen didn't know if it had any effect on the mortal body of this so-called Martial Spirit. That pair of green eyes that seemed to be shrouded in clouds was something Long Chen himself couldn't see, but the Martial God seemed to be able to see it!

The power of the Eye of Hell was in its ability to intimidate and intimidate opponents, it was a kind of tyrannical soul deterrence, or maybe it was even more mysterious, so when Long Chen used this move on the Martial Spirit, it actually succeeded!

Even if it was a Martial Spirit, the golden halberd in his hand almost fell to the ground.

He directly condensed a golden brilliance on his left hand, turned it into a Dragon Binding Bow, and coalesced a Dragon Prison Arrow on his right hand. Two tools with 700 lines on them instantly formed together, and within the time it took the Eye of Hell to take effect, Long Chen no longer had any hint of strength left in him.

Yu, shoot out the sword in your hand!

Burst!

This was also a type of rule.

Its explosion contained a frightening power that could destroy others. It also brought along the fear and the explosive power of the Martial Spirit. With a muffled grunt, the Martial Spirit turned into pieces in front of Long Chen's eyes!

That fragment turned into golden colored sand and spread into the sky. Finally, it rushed back into the clouds and stood together with the other seventy-one Archaic Gods.

Long Chen had thought that they would continue fighting without end, and then he heaved a sigh of relief.

Even if he didn't move now, he didn't know if he would move later or if he would attack again. The Divinities Palace was an extremely dangerous place, it was better to leave this place as soon as possible.

Just as he was preparing to leave this place, he was surprised to find a person walking in from outside.

To him, there was no one else that could appear in the entire White Bone Divine Palace, or in other words in the battlefield of the gods.

But now, this person was standing right in front of him, cold and excited, his eyes staring straight at Long Chen, filled with intense excitement, and so much that he was almost going crazy with emotion.

This person had snow-white hair, and he wore a silver dragon robe. Suddenly, it was the City Lord, Di Yao!

Long Chen had just fought two rounds with him, so he was naturally very familiar with him.

Previously, it was Long Chen who had defeated him, which was why he had borrowed the Tyrant Lord Divine Boat.

However, no matter how rich his imagination was, he never expected this person to come here. Therefore, the moment Long Chen saw him, she simply thought that she had seen the wrong person.

If he looked carefully, it was true. It was him. That deep-seated hatred was not something that could be faked.

Originally, he wanted to escape, but the other party had already blocked the door, so Long Chen lost this chance temporarily. He was very curious why this fellow was so excited right now, why did he do this?

"You must be very curious, how did I get here. That's right, there is only one of those Di Jun Divine Boat."

Di Yao blocked the door and was not in a hurry to enter. He knew very well that Long Chen wanted to quickly leave this place.

Saying that, he temporarily concealed his anger and looked at the idols in the clouds with fanaticism, sighing with emotion, "How spectacular! I, Emphyrean God Di Jun, am the leader of the 72 Archaic Gods s. Me

Di Yao was truly fortunate to be able to witness such a scene in his life. Even though he died, he had no regrets! "

Obviously, since he had come here, he was very surprised to see that this wasn't the battlefield of the gods but the White Bone Divine Palace. However, he was too deeply engrossed. His entire life was devoted to the emperor, so of course he held absolute trust. So, even though it was such a scene, he still firmly believed it. Especially so ...

When he saw the seventy-two lifelike statues within the clouds, or rather, the mortal mortal bodies of the gods, he couldn't help but sigh.

"If we don't leave now, when they come back to life, we'll all die here." Long Chen reminded her. He wasn't too sure about the purpose and method of coming here, but he knew that it would be best for him to leave this place.

"Hmm?" He said, "What kind of joke is this, my Di Jun Divine City is the descendant of the Emperor Jun's Divine Spirit, I am also the strongest amongst his living descendants. All the Archaic Gods here have to listen to his orders in order to kill me.

It's you, you still don't understand, what's my real purpose in coming to the World of Gods? "

Long Chen became cautious and asked: "Are you following me to kill me?"

"That's right!"

He was insane, as if he had been suppressed for a long time. He held onto his chest, and said in a shrill voice, "Don't you know how much I hate you?! That's my baby, I grew up

Protect him grow up, teach him everything, I am willing to give him everything, and yet you took everything from him! From that day onwards, I wanted to kill you! Only, you're too shrewd and then you're too heaven defying. Until now, you even defeated me and completely took me away ...

My chance! "

He could not help but laugh as his eyes reddened, "Fortunately, the heavens gave me another chance."

Long Chen couldn't help but think: Was it because he had already planned this long ago? However, he clearly knew that he was no longer a match for her, yet he still followed her. Why was he still so proud of himself now?

The Di Jun Divine City was the number one Shencheng, he was the number one city lord of the ancient city. This was the battlefield of the gods, it was the territory of her ancestor, Di Jun.

No matter what, this was a crisis, an unexpected crisis. He had to be careful, so he was prepared for battle. Although he had defeated Di Jun once before, he had no choice but to admit that he was extremely tyrannical.

His opponent, back then, was also defeated by Long Chen using the combination of two Dao artifacts.

"Today is the day you die. You must have a lot of things you don't understand, but I'm not going to tell you. You only need to know that I won't be able to kill you outside, but no one will know if you die in the World of Gods. "

If it was outside, Long Chen would definitely not have died, and it was clear that all fifteen Dragon Emperor were protecting him.

"If that's the case, then cut the crap."

Long Chen squinted as he looked at him, staring at the seventy-two god statues on the clouds at the same time. To him, both sides were filled with killing intent.

Ruoxi's Divine Sword once again appeared in his right hand, like the phoenix feather plume. The seven hundred lines of patterns were burning fiercely, and she was extremely beautiful, but the Infinity Roulette on his left hand was not shattered, it was merely neutralized by Long Chen.

On the Everlasting Wheel, tens of thousands of small crystal balls were spinning. Each crystal ball had a world within it.

The power of both space and fire swept out!

The only thing in Long Chen's hand was the Dragon Binding Bow and the Dragon Binding Arrow. He stood far away, staring at the City Lord Di Jun with narrowed eyes. Although he had won against him this time, the other party was so confident that he would not let his guard down!

The two sides had only been staring at each other for a short period of time before a battle started. This time, it was even more intense than the battle between Long Chen and the Martial God.

"Sword Swallowing Space!"

He started with a killing move, a sword that swallowed the air. It was said that the entire interior of the idol palace was covered in his sword light, and he wasn't afraid of touching the idols. His attacks were extremely fierce, and could be considered to be fighting with his life!

Long Chen aimed at the Ruoxi Sword with 700 lines on it, released it, and the Dragon Binding Arrow transformed into a claw-like prison dragon. The golden light playfully grabbed onto it for tens of thousands of meters, and just as it was about to strike the Ruoxi Sword, the strong vibration caused City Lord Di Jun's Ruoxi sword to be flung out!

At the same time, Long Chen heard a cry of pain from the Ruoxi Sword. It was Di Yao's wife, and for some reason, she had become the sword's dao spirit!

"You are not my opponent, so why force yourself? I told you this long ago, Di Yu's matter is already in the past, if you continue to be stubborn, you will bring about your own death. "

Of course, Long Chen did not regret killing him.

But in the end, she was still his beloved grandson, and he had his own reasons for doing so. Thus, Long Chen forgave him in his heart.

However, the other party was obviously different from what he'd imagined.

"Really?" But am I really stubborn? " The City Lord closed in once again. This time, he used the Everlasting Wheel.

Chapter 2238 - Eclipse Insects

This time, the City Lord was filled with anticipation.

It was as if there was something hidden under the Everlasting Wheel.

Who would know about those countless crystal worlds?

To Long Chen, this was merely twice using the same thing as City Lord Di Jun, the Dragon Binding Arrow had already returned to his hands. He watched as the Everlasting Wheel transformed into a world and shot towards him.

The Everlasting Wheel was instantly released!

Both of them were in the nick of time!

The Dragon Confining Arrow transformed into a golden ray of light, and instantly collided with the Everlasting Wheel that was evolved into a large world. It was also a Dao Artifact with 700 patterns, and the God Power of City Lord Di Jun was a little more terrifying.

With the power of the Absolute Beginning Divine Force, he was about to reach the top, so Long Chen had the advantage in terms of terms of cultivation equipment, because he was using two different types of tools together to attack!

Ding!

The Dragon Confining Arrow released its might once more, nearly shattering the Everlasting Wheel!

Tens of thousands of crystal balls turned into countless crystal fragments in front of Long Chen, like raindrops falling down from the sky, endless!

The power of the Dragon Binding Arrow was simply able to pierce through the Everlasting Wheel!

Long Qinglan was famous for using Dragon Confining Arrows to kill a powerhouse with a body of a demigod.

Now, Long Chen was also able to do this.

He used his own actions to prove that when he had Li Xuanji's help, with the power of the Yin Demons, the City Lord of Di Jun would not be his match. Of course, without the power of the Yin Demons, he wouldn't be able to do this.

There was even a problem in pulling out the Dragon Binding Bow. There were two reasons why he had been able to advance by leaps and bounds in this period of time. One was because of Li Xuanji's help, and the other was because he had broken through to the Four Symbols tribulation of reincarnation.

The Limitless Wheel exploded, causing the crystal to be incomparably brilliant. However, Long Chen, the current City Lord of Di Jun, was not frustrated or sad, but instead filled with anticipation and excitement.

"Is there a problem?"

Long Chen sensed keenly.

At first, he thought that the Divine Spirit of Martialism had appeared again, so he put his vigilance from above the clouds. However, he quickly discovered that it wasn't as good as this, the seventy-two Archaic Gods still hadn't moved!

Then what could it be!

He was very curious.

If he thought about it carefully, the reason why the City Lord came to deal with him was because he was confident!

But? Now that even the Everlasting Wheel had been shattered to pieces, it was difficult for him to reform. Then what was he relying on?

Then, in that instant, Long Chen felt a chill down his spine.

He discovered that there seemed to be something on his neck, even on his arms and body. Lowering his head, he discovered that there were actually quite a few black specks of light attached to his body. This must have come from the world of the Everlasting Wheel, and then followed the appearance of those fragments ...

It descended, hid, and eventually floated onto his body!

This scene reminded him of how he had allowed the Black Hades to invade his body!

At that time, he didn't understand it at all. Today, he knew for sure that it was the larva of that Black Hades beast. It was simply too small, just like the black speck of light in front of his eyes!

In that moment, Long Chen immediately covered his entire body with the Divine Flame Refinement, the blood red flames instantly causing a large number of black dots of light to disappear. It was just that he realised it a little too late, one of the dots on his arm suddenly expanded rapidly, transforming into a crawling bug that was as thick as his arm.

It was very similar to a Gu, but it actually had wings and teeth as hard as a shark's. It had a very thick hole in an instant, like a leech's mouth, extremely ugly!

Long Chen then mentioned that the Dragon Binding Bow in his hand had turned into a golden spear and was thrusting towards the damned thing in front of him. At this time, he was already sure that the master of the Emperor Jun City had some sort of connection with the Black Hell King, because this was a type of spear.

The item obviously came from the Black King!

However, the reason why City Lord Di Jun was so at ease was definitely because he knew how terrifying this thing was. Just as Long Chen was about to deal with the items on his body, City Lord Di Jun laughed sinisterly and instantly flashed across the sky, appearing before Long Chen in an instant.

It was crooked!

Following that, he activated the Ruoxi Sword Dao, using the blazing sword light, he drew countless diagrams that surrounded Long Chen, causing thousands of sword lights to shoot out, which had a huge impact on Long Chen.

After being unable to do anything to it once or twice, an extremely terrifying suction force suddenly acted on his body. This insect was actually absorbing Long Chen's power, not the Four Symbols Power of Reincarnation nor the Mysterious God Force, but rather the Demonic Yin Force that belonged to Li Xuanji!

During this devouring, Li Xuanji suffered from a huge impact. There was still a gap between her and the true strength in Long Chen's body. Like this, it was as if Li Xuanji was being pulled out from Long Chen's body by a bug!

All of this happened in the nick of time!

"Haha, the Yin Swallowing Worm will dissipate your power. "Don't think that I don't know. If it wasn't for that girl, how could you be so powerful?"

During the process of the defense, the City Lord was already laughing out loud.

These insects had steel teeth, flesh wings, and many other holes. They were called Yin Swallowing Worms.

This was obviously not something that originally existed in the Dragon Sacrifice Continent, because no one had heard of it before, and it definitely came from the Black Hell King. And its ability was extremely obvious, it could devour the power of Yin. For the current Long Chen, it could simply suck out Li Xuanji's body!

Not simply, but reality.

Since the Black Hell King said that she would give the 'Eclipse Insect' to the City Lord, it must be because this thing could definitely work, and it just so happened that it could deal with Long Chen. Furthermore, there was a warrior on the level of City Lord Di Jun who was affecting Long Chen in the chaos.

He had succeeded!

The countless holes erupted with countless suction power, pulling Li Xuanji's power, including her own, out of Long Chen's body. If she did not see it with her own eyes, Long Chen would definitely be inconceivable!

Of course, the fact that Li Xuanji could become his Yin Mo was also an inconceivable matter.

In this life or death moment, the two of them separated, and the 'Eclipse Insect' stuck onto Li Xuanji's back, pulling him away.

"Sword Swallowing Space!"

The Ruoxi Sword swept out in all directions, transforming into the Devouring God's Sword. It swallowed the space and came towards Long Chen, but after losing the power of the Yin Demons, the fighting strength in Long Chen's body instantly dropped by a lot, and after that,

It was under this kind of coercion that he had completely fallen below, causing Li Xuanji to be completely out of his control, and allowing the City Lord of Di Jun to condense the Everlasting Wheel!

Success!

With the help of the Black Hell Emperor, he had finally arrived at this moment!

He was trembling so much that he used his Infinity Roulette to control Li Xuanji, and at the same time, he used the Sword Qi Devouring Divine Air to soar into the sky. Long Chen had only managed to pull away half of the Dragon Binding Bow, but he was sent flying, almost having his body destroyed by the Sword Qi!

However, this timely reaction also created a very huge shock.

When Long Chen regained his balance and everything stopped, City Lord Di Jun had a cold smile on his face. Standing before him, he held a crystal ball in his hand and Li Xuanji was inside, even behind her, the 'Eclipse Insect' was still attached there, devouring her.

The strength of her body brought her extreme pain!

This scene immediately made Long Chen's eyes red.

To be honest, he really didn't expect it to be like this.

He could merge with Li Xuanji, so how could he have thought of having a Yin Swallowing Worm to separate them? Even if he had suspected from the very beginning that the City Lord would have some tricks up his sleeves, he was still forced into a trap because of the Black Hades Emperor's sinister plot.

But now, with City Lord Di Jun controlling Li Xuanji, Long Chen's strength had weakened and everything was within his control. He could not help but burst out laughing, even bursting into tears as he cried out, "Yu'er, it's finally time to give you an explanation!"

Long Chen, on the other hand, was stupefied when he saw Li Xuanji's appearance.

"Don't worry, I might not lose to this disgusting thing!"

At this time, Li Xuanji's voice sounded in her heart.

Their hearts were connected, even across the world.

These words pulled Long Chen back from his instantaneous despair.

Honestly speaking, anyone would lose, and Long Chen was no exception. In Everlasting Dragon City time, even he himself would have encountered great danger, let alone now.

Fortunately, Li Xuanji was not a simple woman either. She would not become Long Chen's problem.

Just like now, she was also fighting with the Eclipse Insect.

"Protect yourself first. I don't need to worry. Give me fifteen minutes, and I can take care of this!"

If the Eclipse Insects were not able to absorb the cold energy, they would not pose a threat to Long Chen at all, especially to those who did not have the cold energy at all. It was just that Long Chen had been hit by the cold energy this time.

Fortunately, Li Xuanji was able to deal with it.

He could be considered to be completely relieved. His anger caused his heart to burn. Initially, he didn't plan on doing anything to the City Lord, but now, he had thoughts of killing him. Not only that, it was extremely intense.

"Long Chen, you still haven't seen the reality? I only need to gently squeeze and your woman will be smashed into pieces. Moreover, if this goes on, the Yin Swallowing Worm will sooner or later make her completely lose her strength. Haha, half an hour later ....

she would have nothing, she would have become a cripple. "

The current Emperor Jun City Lord could be considered to have achieved a complete victory.

Since he had weakened Long Chen's power and also grasped control of Long Chen's weakness, he naturally understood that this woman was extremely important to Long Chen. He understood that kind of love in his youth, he understood that, just like how he treated Ruoxi.

That was the most deadly.

He held onto the most lethal weapon that Long Chen could use.

All of the gloom and suppression burst out at this moment. Wielding the Ruoxi Sword, he walked towards Long Chen step by step and said, "You must be obedient and not move. You only have one choice, and that is to die in front of me within half an hour.

I can keep a promise to keep her alive and get her out of here. "

## Chapter 2239 - Struggle

From time to time, Flaming Phoenix would fly out from the Ruoxi Sword and swirl in front of Long Chen's eyes. The terrifying heat wave almost struck his face, hitting him right in the face.

It was a small part of the Everlasting Wheel, and now that Li Xuanji was inside the crystal ball, her face was pale white, her brows furrowed, she sat on the floor and trembled slightly, and the Yin Swallowing Worm on her body was like a deadly poison, adsorbing onto her body, growing stronger and stronger.

If not for the fact that he could communicate with Li Xuanji in secret, he would have been scared to the point that his face was drained of color. Even though he had already fallen into an absolute disadvantage, allowing the crazy City Lord Di Jun to find the chance, Long Chen was still very calm in his heart.

During the fifteen minutes that Li Xuanji was free, she had to pay a certain amount of effort.

"Do you understand what I'm saying? Long Chen. " The City Lord was unable to conceal the excitement in his heart as he walked towards Long Chen, step by step.

"Remember. Don't move. I believe that you love her. If you were a man, you wouldn't have made her suffer. " Although City Master Di Jun's strength was currently suppressing Long Chen, he still believed that Long Chen was not an easy target!

Therefore, he chose the safer method.

"Then you're a man?"

Long Chen had no choice but to stall for time secretly to divert his attention.

He was referring to the Ruoxi Sword. If City Lord Di Jun liked this Ruoxi and was able to protect her, how could he allow her to live within the sword? Just like Long Chen, back then he had to fight for the sake of getting Ling Xi to come out.

Of course, when Ling Xi first came to Dragon Sacrifice Continent, he naturally could not be considered as a primordial spirit at all.

"How dare you!"

The City Lord was furious, holding onto the Ruoxi Sword, he unleashed the Ruoxi Sword Dao, instantly releasing a monstrous sword aura, the flames instantly surrounding Long Chen, the killing intent piercing through the heavens, the small deity statue palace was unable to stop it!

"Don't move, or I'll crush it! "Besides, she doesn't have much time left!"

Now, after losing Li Xuanji, City Lord Di Jun understood that as long as he worked hard, he wouldn't lose to Long Chen in a direct battle. But he wanted to kill Long Chen, so he used Li Xuanji as a threat.

At that time, even if Li Xuanji could fight against the Eclipse Insect, it would be useless.

Honestly speaking, if he could dodge, who would be willing to be hacked apart?

But City Lord Di Jun had already made his decision, once Long Chen resisted, he would take action, and Long Chen could see through it with his eyes, thus after hesitating for a moment, the Ruoxi Sword's sharp sword beam swept past his right arm, and the berserk scorching sun Qi instantly tore apart Long Chen's arm!

Disperse into ashes!

If Long Chen used his fire of life, his arm would definitely be able to quickly recover, but he had to paralyze his opponent, so he gave up this chance.

But that meant terrible pain.

But he endured it!

Even though he had lost an arm, he remained silent. He didn't even make a sound as he stared at the City Lord.

"He really is a man of his word." "She's very deep in love and very stubborn. Just because of this point, after you die, I promised to give her away. Of course, I will erase this part of her memories." Di Jun laughed coldly.

Within the small crystal ball in his hand, the girl with black hair as black as night was staring at him. She couldn't help but tear up; perhaps this was something that hadn't appeared for a long time.

"Don't worry, I am only numbing him. Once you defeat that insect, everything will be fine. "Work hard." Long Chen was afraid that she would think too much and immediately told her that he obviously did not want to do this. It was the pain of losing an arm, but in order to endure through the killing intent created for him by the Black Underworld Emperor, he could only endure!

"En!"

Li Xuanji did not speak further, she extended her pure white and slender fingers and wiped away the tear stains at the corner of her eyes. She was dealing with the Eclipse Insects, they seemed to be her natural enemy, but in reality, they were just competitors. But Li Xuanji had her own fortuitous encounters, so Long Chen could imagine that she was capable of doing so!

"Fight to the death?" The City Lord couldn't help but feel hatred in his heart. He wanted to kill Long Chen at all times to avenge his grandson. But now, he pressed his way towards Long Chen again and said, "I have made it clear to you. Now that your strength is inferior to mine, I simply want you to die, not her to die. My enemy is you, not her. But if you resist, if you don't want to die, even if it's just a resistance, I can't resist and deal with you first. Don't push me. You are a smart person, so you must admit that you only have two choices. The first is to die by yourself, and the second is, both of you die together. You must make a good choice! "

That was the Sun God's Art. His entire body was like molten steel, filled with endless heat and violent killing intent, just like a furnace that was brimming with molten metal. Wielding the Ruoxi Sword that resembled phoenix feathers, he once again attacked!

This time, he gave Long Chen a deep warning.

As he attacked, he also held the crystal ball in his hand right in front of him, warning Long Chen not to attack!

At this point, Li Xuanji could clearly see everything. She had originally thought that it would be enough if she could hold on until she succeeded, but seeing Long Chen being attacked without being able to retaliate at all was a heart-tearing and lung-splitting feeling. It made her feel extremely painful.

"Block it now! I'm not afraid of death!"

She could not resist using a shrill tone of voice to speak in Long Chen's heart, and her eyes that had just been wiped away could not help but flow out.

But in time, Long Chen remained indifferent.

She wanted to tell Long Chen that it was simply not worth it for her to do this. He should be concerned about Ling Xi and their child, and live on for them, but in such a short period of time, she could not say anything.

Everything was done in a split-second!

Long Chen naturally saw her.

She was only here to help. If not for her, Long Chen would not have been able to come here now. The only one who wanted to take the risk and find the truth was Long Chen herself.

She was indeed a good girl, quiet, tranquil, yet she had her own principles and perseverance. Long Chen absolutely could not let her down.

However, did he lose today?

No!

"Don't be naughty, I'm waiting for you!"

He could only remind her through reprimanding. If he did not die at the final moment, then it would not be considered as a true victory. For example, did City Lord Di Jun lose to Long Chen before, did he really lose? No, he was not dead yet. That was why his counterattack was so ferocious!

Facing this attack, Long Chen could only do what was appropriate to block it.

In the end, City Lord Di Jun still completed his objective, allowing the Ruoxi Sword to pierce through Long Chen's chest and pierce through him. The surging fire energy burned his body, practically burning his entire body black, and brought him terrifying pain. Long Chen gathered his power and pushed the Ruoxi Sword back, he retreated awkwardly and almost fell to the ground.

But from the beginning to the end, there was no change in his eyes, it was still intense, tough, silent, and he did not even frown. Such great perseverance, even the City Lord of Di Jun admired him!

"Yes, I can see you're very fond of this girl. At the same time, you have explained to me that you, Long Chen, are truly the most fearsome person in the world.

Although City Master Di Jun felt extreme hatred and viciousness, he had to admit that Long Chen was much more excellent than him. If Di Yu faced such a difficult problem, he would definitely not be able to neither retaliate nor resist. After all, the most important thing to him was his life!

Li Xuanji naturally saw that gaze.

Firm, persistent, without the slightest bit of change or wavering, this was Long Chen!

Of course, the injuries he had suffered today were just a small matter to him.

"It's almost half the time, don't delay any longer." At this time, Long Chen could only scare her with a fierce attitude, if not she would not concentrate on doing what she needed to do.

Of course, Li Xuanji was a smart guy. Until now, she had deeply experienced Long Chen's power to resist. Is there no third option? Yes, the opportunity was on her body. The faster she moved, the faster the third choice would appear!

Now, with tears in her eyes, she closed her eyes and did her best to resist the Eclipse Insect. In this state, she finally displayed her potential!

Seeing this scene, Long Chen was finally relieved. Now that he had arrived, he only needed to coax this old fellow for a short period of time.

"I suddenly want to see how much you love her."

City Lord Di Jun is someone who believes in love, so under the condition of absolute suppression towards Long Chen, he raised up the crystal ball and said: "Break one of your legs for me to see, I will count to three, and after three times, if you fail to complete the mission, she will be dead. "Also, you better pay attention to the time. After half an hour, even if you are still alive, she will be gone."

From the beginning to the end, his tone was indifferent and calm.

But terrible.

"One."

He began to count.

And now, even though Li Xuanji was crying in her heart, it would not affect her progress either.

As time passed, City Lord Di Jun's fingers that were holding onto the crystal ball became tighter and tighter, until he had counted to almost three. Long Chen's expression did not change, and according to his request, he used his remaining arm to finish off one of his legs. To him, this seemed like a trivial matter.

Until now, City Lord Di Jun truly understood how terrifying this young man was.

Not only was it his potential, the sacred art was also his will. That was the truly indestructible thing!

"So, if I don't end your life soon, I'm really scared. So get ready. I'll kill you this time, so you'd better not resist. If you resist, you might survive, but she is gone. There aren't many women like you in this world. "

The City Lord finally went crazy.

#### Chapter 2240 - Mystery of the Rain of Gods

He might really have gone mad with depression.

In the outside world, he no longer had the ability to kill Long Chen.

It was the most important moment and the only moment for him to take revenge for his hard work.

He was extremely grateful to the Black Emperor for giving him this chance.

The reason he had agreed wasn't because of how attractive the tyrannical side of the Black Hell King was to him, but because of his revenge. It was the opportunity for revenge that appealed to him.

Therefore, he took the risk and came to the battlefield of the gods.

He had also seen something miraculous, but he did not care.

What he cared about was Long Chen's tracks.

And now, victory was within his grasp.

Honestly speaking, he really did admire Long Chen. He did not frown when he lost an arm, and instead pierced his own chest. He did not frown when asked to break his own leg. Thus, the City Lord understood that for the sake of her life, he had already given up his life. As expected of a natural born hero!

The Ruoxi Sword this time was aimed at Long Chen's head.

If he strangled his Primal, he would definitely die.

And what made him extremely satisfied was that Long Chen had actually closed his eyes, waiting for this moment of death.

What the Mayor didn't notice was that he had one hand behind his back, and the other was holding a green flame. Although it was small, but it was the flame of life, able to give birth to endless life force, eternal and indestructible!

Piercing with a sword, swift and ruthless, this was the way of the Emperor. The Sword of Ruoxi was a sword of love, filled with a poetic feeling, exuding the love between the husband and wife. But now, this sword was ruthless to the extreme.

At this time, Long Chen already felt the danger of death.

This was a danger that he had faced many times before.

He was waiting, waiting for Li Xuanji to succeed, she never let Long Chen down, even more so, it was a pleasant surprise. Just as City Lord Di Jun made his move, the Eclipse Insect behind her screamed, and a black divine needle shot out from Li Xuanji's smooth back, piercing right through the Eclipse Insect, it shouldn't be Li Xuanji's own power, because this power was too strong. Not only did the Eclipse Insect perish, it even pierced through the small crystal ball in Di Jun City Lord's hands!

Of course, this was not the Everlasting Wheel.

The Limitless Wheel had tens of thousands of levels, but it had already been broken by Long Chen just now. City Lord Di Jun had only agglomerated another level, but of course, in his eyes, he had complete control of Li Xuanji who was subdued by the Eclipse Insects.

He did not expect that Li Xuanji also possessed miracles and secrets.

When he realised it, the divine needle had already pierced through the crystal ball, and suddenly shot towards his eyes. Its speed and power was extremely heaven-defying, and it definitely did not come from Li Xuanji's own strength, but now that City Lord Di Jun was killing Long Chen, he could only dodge and retreat!

In the process, Li Xuanji had already exited the crystal ball. Her only mission was to return to Long Chen's side and return to his body. That way, Long Chen would have enough strength to fight.

However, Li Xuanji, who had avoided City Lord Di Jun with a black needle, took the opportunity to crash into Long Chen's body. There was no time for her to entangle him, nor was there any time for her to complain, she only wanted Long Chen to have the power to defeat City Lord Di Jun. Then, she did not want him to lose, and she did not want him to die!

Instant reversal!

It was extremely thrilling!

However, a miracle had finally happened. With mutual trust and cooperation, this moment had finally arrived. If it was any two of them, they might not be able to complete this collaboration and turn it around!

It was not that Long Chen would not be angry, but since the other party had already brought fatal killing intent upon him, then there was no need to explain further. Now that the power of the Yin Demon had returned to his body, the only thing he could think of was revenge!

Dragon Confining Bow and Dragon Confining Arrow, instantly appeared in his hand. Under the surging force, the arrow aimed straight at City Lord Di Jun, all of these were at stake, Long Chen was already unable to endure it!

Perhaps to the City Lord, this was another huge blow.

The blow had cost him everything, and he was back where he started.

Last time, he was precisely defeated by this Dragon Binding Bow and Dragon Binding Arrow, so in his moment of extreme surprise, he thought of escape. For him who had the Instantaneous Flashing Heaven and Earth ability, escaping was easy for him!

He was fast, but Long Chen's arrow was even faster!

Close at hand!

In that moment, Long Chen's Dragon Confining Arrow turned into a ray of golden light, piercing through the space and appearing in front of City Lord Di Jun. Just as he was about to say something, City Lord Di Jun's head was pierced through, and he was about to use the Instantaneous Flashing Heavens and Earth, but his speed was obviously slower than the Dragon Confining Arrow!

Ding!

An incomparably piercing sound rang out!

That sound was simply unimaginable. It was accompanied by a woman's scream, ear-piercing, shocking. The collision between gold and red produced a large amount of sparks, and even the entire palace itself began to shake!

It was the Ruoxi Sword that escaped from the hands of City Lord Di Jun, and while he was using the Instantaneous Flashing Universe, it took the initiative to block in front of him and saved his life. But without the support of City Lord Di Jun, the Ruoxi Sword could not even block the combined attack of the two Great Artifacts of Long Chen, let alone the Dao Artifact!

Under the Dragon-Binding Bow's burst attribute, the Ruoxi sword was almost bent out of shape, and there was even a hole in the middle of it. The countless runes on the sword disappeared, turning into an imprint of death, the entire Ruoxi sword was almost wasted!

Of course, Ruoxi, as the spirit of the Ruoxi Sword, bore the brunt of the attack. The power of the Dragon Confining Arrow had almost destroyed her, causing her body to become illusionary, unclear, and even extremely painful!

"Ruoxi!"

The City Lord was simply going crazy. He had just used Instantaneous Flash to escape and then immediately returned. He had never expected that the Ruoxi Sword would defend him. However, if she had not resisted, he would not have been able to escape that arrow.

This is called the cycle of karma!

Right at this moment, Long Chen had already placed the Dragon Binding Arrow on the Dragon Binding Bow for the second time, preparing to kill the other party. Governor Di Jun looked at him with even more resentment, used the spatial teleportation ability, flickered the universe, and rushed out of the idol palace!

He was proficient in spatial abilities, and in terms of escaping, even Long Chen would find it difficult to catch up to him.

"What a pity!"

No matter what, he still hurried to escape the palace.

However, in the blink of an eye, City Lord Di Jun had disappeared. Even after such a long time, he still couldn't kill him. What a pity!

This time, it truly made Long Chen's heart burn with anger. He had tormented Long Chen for such a long time for nothing.

However, City Lord Di Jun's strength was still strong and tough, he was still a half-god warrior after all. If he desperately wanted to escape, Long Chen's strength was not much stronger than him, and he relied more on two Dao Artifacts. Thus, it was normal for him to not be able to kill Di Jun on the spot.

No matter what, it had destroyed his Dao Artifact.

## The Ruoxi Sword

Although the Spirit of the Dao was his woman, but since it hated both parties, there was nothing that could be done. Long Chen had thought that he could kill her, but did not expect that he would be blocked by the Spirit of the Dao.

For such a lady to be willing to die for him, it meant that the luck of the City Lord was simply too good.

He looked at the vast White Bone Divine Palace and saw bones everywhere. Now that he walked out of the second palace, there were still many clouds in front of him. He didn't know where the City Lord of Di Jun had gone to, but he was afraid that he would become a ticking time bomb that would appear anytime.

He didn't know if there were any more Yin Swallowing Worms like before.

Of course, Long Chen would never be careless again, he would give the other party a chance to succeed!

The White Bone Divine Palace was filled with endless mysteries, waiting for him to unearth them.

Li Xuanji took form in front of his eyes, and now that her elegant and peerless appearance was right in front of Long Chen's eyes, the experience this time around had revealed many more problems. There were many times where they lived and died together, and that was not just for show.

"There's no need to say anything, it's all worth it. I won't give up so easily, unless I'm really dead. " Long Chen said softly as he reached out and caressed her hair.

"I should understand. If I have the chance to leave this place and accompany you to the ends of the earth, I will work hard to adapt to these changes. " Her eyes couldn't help but fill with tears, but the feeling of being drenched was even more wonderful.

Long Chen could not hold back his laughter, and said: "Look, even though it's a bit dangerous, at the very least I've earned the heart of beauties, and I've still profited."

A single sentence make the atmosphere of one's expression vulgar

Once, Li Xuanji gave a moving smile, and she helplessly shook her head, transforming into a black colored fog. It revolved around Long Chen's body, and then, it gradually merged into his body, and the two of them merged into one. This kind of feeling was even more thorough and beautiful than when another type of fusion happened.

But it was clear that Li Xuanji liked this kind of dreamy thing.

After speaking a few sentences, Long Chen clenched his fist and fled into the Time Traversing Dragon. In this White Bone Divine Palace which was filled with dangers, with Mayor Di Jun causing trouble, it would not be easy to find the source of the truth. It seemed like this place would become more and more interesting!

Next, an even bigger mystery and doubt would definitely appear before his eyes!

With great difficulty, he finally arrived at this place and could not go back dejectedly. Currently, City Lord Di Jun was no longer a huge threat, but by his side, he was still a dangerous being. Long Chen originally did not want to kill him, but now, he had a blood feud.

He couldn't help but continue to head towards the depths of the White Bone Divine Palace. He now had a rough understanding of the Nine Colors Palace and the Divine Statue Palace, so what would happen next that would be even more terrifying?

He continued along that path, passing through countless skulls. On both sides were black armored generals. Finally, clouds shrouded the road ahead, and another palace appeared!

What was it this time?

Long Chen walked forward and saw three words.

"Divine Rain?"
