

War God 2251

Chapter 2251 - The appearance of the Emperor Jun

In the eyes of ordinary people, the City Lord of Di Jun was already the ruler of the world. In the eyes of ordinary people, even the Fire Emperor might not be as famous as the City Lord of Di Jun.

Even more so, it couldn't compare to the position of City Lord Di Jun in the hearts of the humankind.

On the way, Long Chen rebelled, but it was also good and evil, and Governor Di Jun was an absolutely positive person. When he revealed his spirit and told everyone that Mayor Di Jun had been killed by Long Chen, who among the audience heard the news that Long Chen had defeated Mayor Di Jun, were they not resentful?

So now, the whole world was discussing this matter.

These people had long been his opponent, so of course they could not do anything to Long Chen. The fifteen Dragon Emperors knew the truth as well as the fact that they would not judge Long Chen, but they could not deny that they would bring Long Chen a lot of trouble. For example, if Long Chen wanted to make the people of the world to believe that Long Qinglan was innocent, that would be impossible.

Public opinion wasn't something that could be grasped with a fist.

But now that they had forced the truth onto his doorstep, there would be a day when he would still be able to open his eyes in front of everyone. At that time, Long Chen would not be able to explain even more.

I might as well admit it straightforwardly.

He believed that one day, when the truth arrived, everyone would understand Long Qinglan. Even though he had to painstakingly recover today, it might not have any effect.

Therefore, when everyone shifted their gaze onto him, half of them cursed in anger and the other half felt nothing to be amiss. Long Chen was neither servile nor overbearing, he surveyed the crowd and said: "That's right, I killed him."

Personally admitting to it would surely cause a huge commotion.

To the people of the seventy-two Shencheng s, this was simply joy. Long Chen had finally admitted that they had even more of a chance to take revenge, and would definitely not let things rest just like that.

As for the Everlasting Dragon City, in reality, they did not hold the 72 - The Ancient City of God's descendants and City Lord Di Jun in high regard. Since City Lord Di Jun did not have any status here, they admired Long Chen's growth even more. Of course, killing a person who was in control of the Dragon God Domain's mortal world was not right.

Suddenly, those hundreds of people from the God's ancient city started cursing.

"Bastard, do you think that the people from my 72 Shencheng can be killed so easily? "Even if your status is high now, so be it!"

If you become strong, sooner or later, you will be the same as Long Qinglan, bringing about a disaster to our human race. You should be executed for that, don't you think the Everlasting Dragon City people should hurry up and take action?

"If you do not act, then we will bring him back to the mountain and let us, the gods, punish him!"

"Everyone in the Everlasting Dragon City, Mayor Di Jun is your representative in the Dragon God Domain. All these years, you have been very dedicated and diligent. If not for us, the 72 Shencheng, how much trouble would the human race be in now? Our City Lord, our leader was killed just like that. Are we not qualified to seek justice? "

In that moment, almost everyone started to argue, and it became extremely noisy. The eyes of the people from the Shencheng were all bloodshot, and they scolded with all their might, wanting the Everlasting Dragon City to punish Long Chen due to the pressure.

But how would they know that even if it was the Bluefire Emperor, he wasn't qualified to be Long Chen's opponent. In truth, the Bluefire Emperor also knew that Long Chen had killed Di Jun City Lord.

"Solve the problem that you've caused yourself."

The Bluefire Emperor said in a low voice.

For a moment, all the lances were pointed at Long Chen.

"He personally admitted that he had killed my City Lord, and his arrogance and domineering attitude completely reflected his inhumane nature. This kind of person would betray us sooner or later. Have you forgotten how his father brought us disaster? "

That's right, you can rely on your strength to get away unscathed, but we, the 72 Shencheng, can also rely on our authority, and will no longer listen to Five Dragon Cities's commands. We will make everyone understand, the Five Dragon Cities is actually protecting someone like Long Chen, everybody, please don't let us feel disheartened, our 72 - The Ancient City of God's descendants has been loyal to the Five Dragon Cities for thousands of years, but don't let this brat ruin our loyalty and enthusiasm!

It was obvious that they had been forced into a corner and had braced themselves to come here.

The human race was a fair race. Without absolute power suppression, they believed that the Five Dragon Cities would not do such a thing that would disappoint the people of the world. There seemed to be countless people waiting for their revenge.

"Even if you don't punish him and kill him, you must at least help us push him to our mountain and make our human race's number one divine god, the ancient god Jun, punish him. I hope everyone in the Everlasting Dragon City can help."

For a moment, everyone was waiting for Everlasting Dragon City's decision.

Long Chen asked curiously: "You guys say that when I go to Di Jun Mountain, your Gods will punish me?"

What he was most curious about was what exactly were the 72 Gods and the battlefield of the gods.

"That's right, he will definitely do so. He has already revealed himself to us, and told us that you are the murderer, so if you are escorted by us to that place, I believe that our ancestors will uphold justice for us!" An old man from the Di Jun Divine City said angrily.

"Will he reveal his real body and kill me?"

Long Chen could not help but ask.

"Of course, don't doubt the power of our gods. You committed a great sin and yet you still refuse to repent. We, the gods, will definitely not let you off this easily. If it wasn't for his reminder, how do we all know that you are the murderer?"

Long Chen turned around and saw Dragon Emperor Yongye in the crowd. As expected, she was still worried about himself, so Long Chen asked, "Tell me, if I go over, would Di Jun appear? If there's a reaction, it might help us figure out the situation in the God's battlefield. After all, the five Dragon Emperor have all been gone for almost a month, but there's still no news about them. "

"Fine, I'll go with you. Since this matter has already been spread, it's not easy to resolve. I might as well go to the Di Jun Mountain and see if there are any opportunities there." Dragon Emperor Yongye said gently.

With her words, Long Chen felt at ease.

Now that the seventy-two Shencheng s had given their pressure to the Everlasting Dragon City, Long Chen stopped them all alone. Extremely straightforward, he said: "Alright, this matter was indeed done by me. Let's see if your gods can do anything to me. "

"This is outrageous, outrageous!"

Many of the elders were so angry that their hair were standing on end. Of course, they were very excited that Long Chen was able to turn himself in.

"This brat thinks he's powerful, but he doesn't know the might of gods. This is the perfect opportunity to teach him a lesson, and even eliminate this demon!"

Everyone could not help but feel satisfied, they stared straight at Long Chen.

"Brat, let's go!"

The whole team was shouting.

Long Chen was extremely straightforward, and wasn't the least bit nervous. He held Li Xuanji's slender jade hand and walked towards the direction of the Di Jun Mountain, while the City Lords of the seventy-

two Shencheng s hurriedly followed behind. As for the Everlasting Dragon City, Eternal Night Dragon Emperor gave some instructions, and the Bluefire Emperor brought a group of people to follow Long Chen in the open while Dragon Emperor Eternal Night hid in the shadows.

Of course, she was not at ease with Long Chen's journey. Even if that Di Jun revealing her spirit was a little absurd, the Black Hell King could appear beside Long Chen at any time, and she could not be careless. Right now, Dragon Emperor Yongye can be considered a professional bodyguard for Long Chen.

This squad is not fast, and will probably take some time to reach the mountain.

The Bluefire Emperor's face was sullen, he followed behind the group along with a few other experts from the Everlasting Dragon City. There were a few city lords surrounding him to flatter and scold Long Chen in front of him.

"I believe that for someone like him who has done such heinous things, even if he doesn't dare to go to the mountain to receive the punishment of the gods, the Azure Fire Emperor will definitely punish him."

"Yeah, although his potential and talent are terrifying, the most important thing is his kind heart. This Long Chen is too sinister, he will definitely cause a great disaster in the future. I truly look forward to my ancestor's true appearance, and how he will be killed in one go! "

Their incessant clamoring caused the Bluefire Emperor to feel somewhat annoyed.

Up to a kilometer in front of him, Long Chen was walking at the very front and not a single person dared to approach him. However, the concealed Dragon Emperor of Eternal Night was right beside him and seemed to be conversing with him.

Even my father was able to let go of his anger towards Long Qinglan and no longer target this fellow. Given enough time, if he truly became a Dragon Emperor, even I could only swallow my anger in front of him, just like how I did when I faced Long Qinglan back then. "

He was an extremely proud person, yet he encountered such a monstrous existence for the second time in a row. Naturally, his mood was extremely terrible. Even Dragon Emperor Yongye had never spoken to his so intimately before.

"Forget it, whatever you want. Now that such a great change has occurred in the battlefield of the Gods and the Black Hell King's change is so shocking, the fifteen Dragon Emperor are simply too scared. They always have a feeling that a great catastrophe is about to befall them and they are under too much pressure."

The Bluefire Emperor sighed to himself.

He continued to advance. At this moment, something strange caught his attention. Someone called out to him, and the Azure Fire Emperor said to the people next to him, "You guys leave first. I'll catch up in a bit to take care of some matters."

After he finished speaking, he left the group and headed towards the back. When he looked back, Dragon Emperor Yongye did not notice him either.

The Azure Flame Emperor traversed several mountain peaks before arriving at a deep gorge. He walked towards the depths of the gorge. Although she didn't reveal it, wherever she went, the plants and flowers around him would still wither.

He stopped at the deepest part of the cave and said in a deep voice, "I'm here. Come out. No matter who you are, don't hide your face."

Just as he finished speaking, a black figure appeared in front of him. The black figure spoke, "Big Brother, it's me. "Chen Ting."

Upon hearing this sound and seeing this black shadow, the Bluefire Emperor's eyes instantly blazed with azure divine fire!

Chapter 2252 - Enchantment

Chen Ting, the Black Hades Emperor.

What was certain was that he was the one who caused the disaster in the Everlasting Dragon City. He was closely related to the Black Demon Beast, and the changes in Long Qingyue were caused by him.

Back then when he took the title of Black Hell King, he was actually the one who proposed it to the three of them in Dragon Devouring City. When the title was officially conferred, the three Dragon Emperor s declared to the world.

Currently, there were still quite a few Dragon Emperor who were searching for him throughout the world ...

And he actually summoned her, and she appeared in front of him!

The Bluefire Emperor never imagined he would have such courage! He believed that Long Qingyue was the cause of Chen Ting's death, and the disaster in Everlasting Dragon City was caused by him as well. He was the enemy, so the moment he saw it, the Azure Fire Emperor was already prepared for battle.

"Don't attack yet. This is the moment that will change your fate." The Black Hell King was extremely calm. Her black, ghost-like eyes looked at the Azure Fire Emperor as she spoke faintly.

"Bullshit!" Dragon Emperor Yongye is just around the corner, I don't believe that I can't take care of you!
" The group in front of them weren't far away. As long as the Azure Fire Emperor made a bit of a noise and called out, the Eternal Night Dragon Emperor would be able to hear him. It was precisely because of this that the Bluefire Emperor didn't feel any fear.

At this point, the Black King was still unafraid. Instead, he was full of smiles.

This was because the Bluefire Emperor was threatening him. If he truly was going to make a move and destroy him, then he would have shouted out directly. Black Hell Emperor was someone who understood him, that's why he had the confidence.

He said, "Big Brother, you don't understand the truth at all. Please give me a short period of time, I will definitely give you an answer that is very satisfactory."

Rage burned in the Bluefire Emperor's eyes as he said, "It's fine, you just stand there and don't move. Just wait for Yongye to come!"

Originally, the Emperor had been slightly more powerful than him. But now, with his strange identity and unknown strength, the Azure Fire Emperor didn't act rashly.

Even now, the Black Hell King was not flustered. He smirked at the Azure Fire Emperor and said, "Big brother, I am the one who understands you the best, right? I know what you hate. But now, a heavenly great opportunity is right in front of you, as long as you know how to cherish it, then it will cause a terrible transformation in your life. Now, your potential has already reached a certain level, and you will never be able to reach the nine palaces' tribulation of reincarnation. But, I have a way to save you! "

His voice was like a ghost.

The Bluefire Emperor gave a cold snort and said, "Don't think that I am a three year old child. I am familiar with life and death, so there is nothing to worry about. On the other hand, you, since fifteen of them are looking for you now, you should obediently surrender yourself and follow me to see the Eternal Night Dragon Emperor or let her come find you. "

Of course, the moment he shouted Dragon Emperor Yongye, it was very likely that he would make his move immediately. Therefore, he was still waiting for this fellow to find him, so that he could come up with an idea.

Black Hell King's voice was soft, as if she was talking in the dark. She said sorrowfully: "Is that so? Don't you want to become the new Dragon Emperor? Don't you want to become the ruler of the Everlasting Dragon City? You must definitely realize that you don't have the courage to face Nine Palace Calamity anymore. However, I have this method that can help you become a new Dragon Emperor. Furthermore, it's extremely easy, and I can fulfill your wish for your entire life. "

The Azure Fire Emperor looked at him coldly. The Primal Chaos Blue Flame in his hand was still fiercely burning, and it was releasing a rare, scorching energy.

The Black King continued, "This is not the end. I can make you the new Eternal Dragon Emperor, and let you take control of this world. This is all of Long Qinglan's power when he was alive, and all of it is with me. If you have power that is around his, or even more powerful, then no one in the world would be stronger than you. Even Long Chen would not be able to do it, and even Long Qinglan would not be able to, so your father would have a whole new level of respect for you, allowing everyone in the world to help you improve. "

He stretched out his hand and grabbed a black ball, indicating that it was what he was talking about. Then, he quickly tidied it up.

The Bluefire Emperor silently looked at him, not saying a word. However, after glancing at the black sphere once more, his eyes were filled with blue flames. It was hard to tell what he was thinking.

The Black King laughed in satisfaction, "And what do I need you to do? Help me kill that Long Chen, I can't get close to him, I can only rely on you, big brother. You should know how great our power is. The matter of the Everlasting Dragon City is just a small game that I am playing. "

"There's no rush. As long as you complete the mission, I will bring this thing to you. We were once good brothers, right? And now, of course. And everything that happens behind me and I, is something that you will never be able to imagine. This is the only life that you will live, the only chance that others will think highly of you, the only chance to become a king!

After saying that, he suddenly turned around and left, saying, "Thank you for not killing me today, big brother. As long as you are willing to complete the mission, there will be endless benefits in the future. You will be very happy!"

After he finished speaking, his body quickly disappeared before the eyes of the Bluefire Emperor. Although it had only been a very short period of time since he appeared until now, the problem was that the Bluefire Emperor did not have the intention of calling for Dragon Emperor Yongye from start to finish.

He stood dumbly on the spot, looking in the direction of the disappearance of the Black King, thinking about everything he had said.

"All of Long Qinglan's strength? I can become a Dragon Emperor, or even become him? " He knew how terrifying the Black Hell King was right now, to the point where fifteen Dragon Emperors were looking for him. There seemed to be some mysterious existence behind him and they were making a deal with him.

If everything be true, that be all right

But suddenly, he slapped himself and muttered, "Chen Ting is now the enemy of the entire human race. If I were to help him, wouldn't that mean that he would abandon his clan and become the target of the assassination attempt?!"

Thinking up to here, he was about to call Dragon Emperor Yongye, but then he thought that since he had already left, even if Dragon Emperor Yongye came, he might not be able to catch him. Besides, he had been here for such a long time and it wouldn't make sense if he didn't notify her.

"Forget it. Seeing as we have been on good terms before, I will let him off this time. However, I will not show mercy the next time." Thinking of this, he looked around once more before turning around and leaving. Although his heart was still filled with hatred towards the Black King, his words would appear in his mind from time to time.

Especially after he saw Long Chen.

"If what Chen Ting said is true, we really should take the risk. However, I can't deal with him. I even have to hunt him down and kill him!"

It could be said that he was extremely conflicted.

He was afraid of death, extremely afraid of death, but only a few thousand years remained, and he still did not have the courage to face Nine Palace Calamity. If he failed, then even if he was the son of the Immortal Dragon Emperor, Nine Palace Calamity would not show him any mercy.

The Black Hell King's words seemed to give him new hope.

This was something moral and experience told him, he believed that the Black Hell King would definitely not have any good intentions, and right now, he was the target of fifteen Dragon Emperor s!

But in reality, he was still a bit defeated.

That was because he did not tell the Dragon Emperor about Black Hell King's appearance!

The group was in an orderly manner. As Long Chen advanced, the 72 Shencheng s were trying their best to catch up to him, afraid that he would escape. They didn't know where they would find Long Chen and give him a revenge.

After a period of trekking, they would always be at the center of the central region. The mountain was at the center of the central region, and it was like a long sword that stood tall between the heavens and earth, piercing straight into the heavens!

The highest point of the sky was already above the starry sky, and even the mountainside itself was covered in clouds.

The entire team had already arrived.

Long Chen came here to see how the Di Jun God Sculpture would show its spirit and punish him. In fact, even the people of the Di Jun Divine City wouldn't be able to explain it clearly, but they firmly believed in their own beliefs and firmly believed that for such a heinous person like Long Chen, Di Jun would make their own judgement and judgement!

From the looks of it, he had wasted his time here.

Of course, it could make these seventy-two Shencheng s understand that even their divine gods could not do anything to them.

They were furious, and cursed as Long Chen flew up into the sky. Of course, they could not go up to the Emperor Jun Divine Palace, ordinary people did not have the qualifications, the only ones who could go up were the City Lords of the 72 Shencheng. Although some of them were not strong, at least they had the identity of a City Lord, and could directly pay respects to the gods.

He saw Di Jun's statue again.

Currently, Long Chen, the City Lord of the seventy-two Shencheng s and a portion of the Everlasting Dragon City s were standing at the entrance of the Emperor Jun Shrine. Behind them was the Emperor Jun God Sculpture that was hundreds of meters tall.

Dragon Emperor Yongye was right beside Long Chen.

At this time, a few elders from the Di Jun Divine City walked over and berated Long Chen: "Son, if you see the God of Heaven, kneel down and accept your death!"

"He is your ancestor, not mine, so I don't need to kneel. Also, aren't you asking him to judge me? Let him quickly make his move. "

Long Chen said with anger that could drive a person to death.

"You!"

A few elders angrily puffed their beard and glared at him.

They quickly began to sneer, saying, "You can be arrogant now, but once my god shows his might, you'll know how foolish and overconfident you are. You're just a mere mortal, yet you're actually fighting against a deity!"

They were all busy kneeling in front of the statue.

All of the city lords of the 72 - The Ancient City of God's descendants, as well as some of the stronger warriors of the various Shencheng s, kneeled down as well, as they chanted the divine prayer with incomparable piety. Aside from the Eternal Night Dragon Emperor, everyone else from the Everlasting Dragon City stood at a distance, looking like only Long Chen stood proudly in the middle of the crowd without kneeling.

He was waiting, waiting for the moment Di Jun.

Chapter 2253 - Deity Statue Fragmentation

"I am the Divine Emperor!" The thief Long Chen, has no sense of justice, his personality is ruthless and brutal, he dared to attack my City Lord Di Jun, the evidence is clear! The eyes of the gods can see that the thief is now under divine force and is willing to surrender. I hope that the ancestor can punish him and use the righteous way and the humane way! "

"I, the God Emperor, will definitely descend upon you and skin you, pull out your tendons, peel your bones, and tear your corpse apart! Revenge for my city lord, petition for all the people in the world, the thief is arrogant, he has no eyes for the gods, he is unscrupulous and dares to kill the leaders of my 72 Shencheng, the leaders of my various gods in Dragon God Domain. I implore the Gods to use their divine might to intimidate him, to prevent him from reincarnating forever, and to turn him into dust and ashes!
"

They firmly believed that since their ancestor had reminded them that City Master Di Jun had already been killed by Long Chen, then when Long Chen arrived here, their ancestor would definitely send down the divine tribulation to use the power of the gods to kill Long Chen!

The seventy-two Archaic Gods were their belief and life.

They had sacrificed their entire lives for the gods, and now that City Lord Di Jun had died so miserably, they would never stop.

Not only was the Di Jun Divine City kneeling down in front of Di Jun Mountain, thousands of them, as well as the hundreds of thousands of people in the outer city, started to recite the words of the two old men. Their voices shook the entire Di Jun Mountain, causing the entire Di Jun Mountain to tremble.

"I hope that ancestor can punish him with the righteous path and the human path!"

"I will make sure that he will never be reincarnated, and will be reduced to nothing but ashes and ashes!"

The entire Di Jun Mountain was filled with such shouts.

For a time, the sound was endless, the scene was huge and vast!

All of the living beings placed their wishes on the Divine Spirit, and all of them looked at the Emperor Jun God Sculpture with their most sincere gazes, filled with hatred towards Long Chen and their piety towards the statue, as though it was really a trial. As a result, even Long Chen himself was a little nervous when facing the Emperor Jun God Sculpture.

After all, the other side was the number one Archaic deity.

It was indeed strange that the news of the City Lord's death had spread out. Long Chen had come for the Spirit Demon Emperor, and beside him was Dragon Emperor Yongye, he was not afraid. What he wanted to know was, did the 72 Archaic Gods really exist?

Perhaps in the next moment, he would know.

Unfortunately, amidst the pious shouts and screams of countless people, the highest statue of the Emperor Jun did not react at all. From the start to a quarter of an hour later, there was no reaction at all, and everyone's throats were turning hoarse from shouting.

They had been furious from the start, but now they were all dumbfounded, their eyes filled with defeat and disappointment.

Long Chen was completely relaxed and couldn't help but laugh, "Everyone, it seems like your ancestors haven't heard what you all said yet. Why not raise your voice a little more?"

It was obvious that they were teasing, but they still firmly believed in Di Jun's ability to manifest his spirit, to the point that they could shout louder, almost to the point of their internal organs shouting out loud. However, Di Jun Divine City still did not make a move.

Ancestor, please kill this thief. Right now, he is mocking your descendants and your people.

The few elders were in tears, feeling extremely aggrieved in their hearts. The thing they did not expect the most to happen had actually happened, and that was, Di Jun really did not reveal her true spirit and did not punish Long Chen.

Only Long Chen knew that the Divine Spirit would not appear again, because they had countless secrets, it was not as simple as just the ancestors of the people in front of them. Moreover, it was the number one primordial god emperor!

He stood at the top, and watched as all the people looked at the Emperor Jun God Statue with incomparable sincerity. That was their belief, and in Long Chen's opinion, it was even a poison, urging them to contribute their power.

The people of Di Jun Divine City were afraid that they were going crazy.

To Long Chen, this journey had further confirmed one of his thoughts.

He suddenly had a new idea.

Just as the people from the Di Jun Divine City and the seventy-two Shencheng s were still kneeling and bowing, Long Chen suddenly said in a clear voice, "Everyone, your divine spirit may still be asleep.

What was he going to do!

Everyone raised their heads and looked at Long Chen in shock. Did he really want to die?

Right at this moment, they saw that Long Chen had taken out a golden bow and arrows, casually raising it into a full moon. It looked simple, but when everyone saw the densely packed Dao patterns on the Dragon Confining Bow and remembered that it was what Long Chen had defeated City Lord Di Jun with, they were stunned.

Just as expected, Long Chen aimed the arrow from the Dragon Confining Arrow at the head of the Emperor Jun God Sculpting Sculpture.

His movements were extremely fast, and before anyone could react, the Dragon Confining Arrow was already shot out, turning into a golden ray of light, and then it transformed into a divine dragon. It crashed onto the head of the emperor Jun Shen Zhui, instantly causing the entire mountain to shake even more violently.

Bang!

A loud sound echoed out!

What surprised Long Chen was that he did not expect the Di Jun Deity Statue to be so hard. When he shot out the arrow, the other party actually shot out a Dragon Confining Arrow, completely unharmed. It was as if there was a layer of golden light enveloping the Di Jun Deity Statue. The deity statue was actually being protected.

In the blink of an eye, the Dragon Confining Arrow returned to his hands and the idol was completely fine. Of course, there was no sign of the awakening of a divine spirit either.

That was a godly figure that even the City Lord of Di Jun didn't dare to touch!

For a moment, the entire Di Jun Divine City was boiling.

"Desecration of the gods, damn it, damn it!"

"To actually use such a dirty bow and arrow, what a shame!" Thief Long Chen, you have triggered your god's wrath, you will definitely die, you will definitely die! "

They began to clamor like madmen, most of them going crazy.

There were even some who could not resist and pounced towards Long Chen. It was just that even current Seven Star tribulation of reincarnation warriors were unable to do anything to Long Chen in the slightest. In the entirety of the seventy-two Shencheng s, no one could stop his power of time.

"Did you see that? Divine beings don't even exist. When I used my Dao Artifact to injure him, he didn't even resist." Long Chen sneered as he faced them.

Although destroying other people's faith was not a good thing, it was mainly because their faith was too blind. After experiencing the events of the war of gods, Long Chen did not have a good impression of the so-called 72 Archaic Gods, and had even reached a state of extreme disgust. That was why he was so daring today.

When he said those words, it touched the bottom line of all the warriors in Shencheng.

was too lazy to deal with these brainless guys. Honestly speaking, he was already sure that the Emperor Jun God Sculpting Art wouldn't have any reaction, so it was quite a waste of time this time.

As for the matter of reputation, he did not want to bother about it anymore. These people were like flies, and now that they had made such a big fuss out of it by seizing Long Chen and killing Di Jun. Long Chen did not do anything to them either.

At this moment, something unexpected happened.

Even Dragon Emperor Yongye did not think of that.

Suddenly, the head of the statue exploded.

Then, his body exploded.

Countless cracks were clearly visible. It was shocking, as if countless spiderwebs had suddenly appeared on his body. Of course, this was just the beginning.

In the next moment, the entire Emperor's Jun statue that was hundreds of meters tall exploded and turned into dust. It was blown away by the violent wind and disappeared into the sky.

At that time, everyone was simply stunned, no one could react, even Long Chen's mind was a little blank, he knew that the arrow just now would not be able to destroy the Emperor Jun God Sculpture.

Of course, he wasn't the one who destroyed the statue.

When everyone raised their heads in a daze, they saw an old man floating above the head of the statue. Most people might not know who this old man was, but he, Eternal Night Dragon Emperor and the Bluefire Emperor were absolutely clear!

That was the Immortal Dragon Emperor!

The Immortal Dragon Emperor had destroyed the statue of the Emperor Jun!

"Who are you!" Within the Di Jun Divine City, countless people stared at this old man with trembling eyes. That was the Emperor Jun God Sculpture, he was actually destroyed, no one dared to provoke him, they believed that the gods would definitely punish him, and they also knew that the person who could destroy the Emperor Jun God Sculpture, should be someone they cannot defeat.

Of course, there were still a few blind people who attacked the Immortal Dragon Emperor. With someone taking the lead, there were immediately dozens of people following them, and there were even experts with Seven Star tribulation of reincarnation charging up!

"You're courting death, you're courting death!"

The people of Di Jun Divine City were about to go crazy.

The Immortal Dragon Emperor lowered his head. When everyone was near him, he casually waved his hand, and over forty people instantly turned into ashes, with not even a speck of powder remaining. The people who were preparing to attack were so scared that they almost fainted.

The Immortal Dragon Emperor, like the other four Dragon Emperor, should be searching for secrets and answers! But now, he had suddenly appeared here. Although the distance wasn't too far, the problem was, why did he want to destroy the Emperor Devil God Sculpture?

If he found something similar to what Long Qinglan found in the Spirit Sea, then why would he kill?

In Long Chen's impression, the Immortal Dragon Emperor wouldn't kill innocents like that, right? These people were things that even Long Chen did not dare kill. After all, killing them would be troublesome.

Turning around to look, the eyes of Eternal Night Dragon Emperor, the Azure Fire Emperor and the others were filled with shock.

Long Chen once again looked at the Immortal Dragon Emperor. When he raised his head, Long Chen discovered that his eyes had already disappeared, and there were only parts of his eyes that looked sinister and scary. At this moment, he was smiling cruelly, and after sneering, he turned around and was about to leave!

"Eternal life, stop!"

Dragon Emperor Yongye instantly appeared in front of him and blocked his eyes. Now that she had revealed her body and even called out to them, it seemed like a portion of the experts remembered their identities.

He used his strange eyes to look at Dragon Emperor Yongye and said, "Junior Sister, don't stop me. I'm going to do something big, get out of the way!"

Ordinary Immortal Dragon Emperor s would definitely not be like this.

Chapter 2254 - Tide Surge

As everyone secretly spread the news, they actually knew that these two were the first and third Dragon Emperor of the Everlasting Dragon City. He was a legendary figure that many people would never be able to meet in their entire lives.

They were all the masters of the, so they clearly knew that any single dragon city in the Five Dragon Cities was much more powerful than the combined forces of their 72 - The Ancient City of God's descendants. Even a single Dragon Emperor could sweep through seventy-two Shencheng.

In their eyes, the Dragon Emperor was a high and mighty existence, only second to the gods.

But the scene right now was the appearance of the Immortal Dragon Emperor, and the destruction of the Emperor Devil God Sculpture! He had even killed close to forty warriors in an instant, including a few very important people from the Di Jun Divine City!

Shock, numbness, and disbelief.

This matter was too unexpected, to the point that everyone was suffocated. Their minds were blank as they watched this scene unfold, watching the confrontation between the Eternal Night Dragon Emperor and the Immortal Dragon Emperor.

When the Eternal Night Dragon Emperor had finished speaking, he had actually circled around the Dragon Emperor. Under his full strength, how could the surrounding commoners see his speed? It was only for an instant, but the Eternal Night Dragon Emperor had already disappeared before their eyes.

All of the 72 - The Ancient City of God's descendants's City Lords were still unable to wake up. If it was Long Chen, they would still have tried to put some pressure on him in order to punish him.

There was no way.

"Eternal life!"

At this time, the Azure Fire Emperor had already arrived by her side and his face was filled with shock and panic as she watched the Eternal Dragon Emperor leave. She asked in shock, "What happened to my father? How could this be? "

This was not his own question, but the question of everyone else.

"Looking at his appearance, he seems to be the Long Qinglan from back then. He wants to go to the battlefield of gods and destroy them.

Dragon Emperor Yongye seemed to have thought of something in the end and said with absolute certainty.

That's right, it was the eyes. Even though they couldn't see the pupils, it was as if they had gone crazy. However, they didn't think that they were going crazy.

"They should be in the Spirit Sea. They said before that they would try to infiltrate the Spirit Sea, but now they're here, and they turned out like this ..." Long Chen explained the various clues. To be able to cause such an unforeseen event must be because of something they encountered while they were infiltrating the Spirit Sea!

Furthermore, from what Dragon Emperor Yongye said, he was actually the same as Long Qinglan back then. From the way they acted just now, the Immortal Dragon Emperor didn't care about strangers at all. As long as they stopped him, he would kill mercilessly!

Long Chen's heart was in a mess. If something like this were to happen, he could only rely on Dragon Emperor Yongye and the others who were at the same level as them.

Right at this moment, the Eternal Night Dragon Emperor seemed to be communicating with another person using his Star Talisman. Long Chen hurriedly stepped forward, but he heard such news.

The five Dragon Emperor s who had infiltrated the Spirit Sea, from the central region onwards, each Shencheng would advance, destroying the idols of the gods they worshipped. The Di Jun Divine City was not the first one, and there were already five or six of them that had been destroyed!

They were still continuing!

Behind Long Chen, Shencheng Yuan Shi, the Void Shencheng and the other City Lords also received the news, that their Shencheng Divine Statue had already been destroyed, and like the Di Jun Divine City, they could not stop it, furthermore, they could not do anything. Once they stopped them, they would instantly die, but fortunately for the strongest warriors of the Shencheng s, they were all gathered here, otherwise, if they did not recognize the five Dragon Emperor s, they would definitely die!

For a moment, the entire scene was noisy.

It was only after a while did she come back to her senses. She said to the Bluefire Emperor and Long Chen, "Something must have happened to the five of them, and they are currently being affected and confused. At this rate, they would definitely begin to destroy the deities of all the Shencheng, and the other nine Dragon Emperor s have already moved out to stop them. "Bluefire, I'll leave this to you, intimidate them and don't let these city lords run around. If necessary, you can also intimidate them, but right now, it's an extraordinary time, and there's no mercy."

The Bluefire Emperor stared blankly in the direction the Eternal Dragon Emperor left in, then nodded with great difficulty.

Dragon Emperor Eternal Night looked at Long Chen again and said, "Pay attention to your safety. Once you stabilize these people, let Bluefire protect you again. Furthermore, these five Dragon Emperor s are very likely to be the same as your father back then. However, we are still confused. If there's any news, I will inform you in time! "

After she finished speaking, she said to the rest of the people, "Everyone, something big has happened. Please do not panic, and stay here and wait for my orders. I will chase after the Immortal Dragon Emperor.

After saying that, she turned into a silver ray of light and instantly disappeared from everyone's sight.

Although it was not a good thing for the five Dragon Emperor to become like this, at least Long Chen was getting closer to the truth! He was extremely excited in his heart, while the Bluefire Emperor was immersed in his father's shock. The rest of the Everlasting Dragon City were not as famous as the Bluefire Emperor.

At this time, countless people from the Di Jun Divine City rushed over and started discussing with the 72 city lords. Currently, their respective god statues were being destroyed, but there were actually 5 Dragon Emperor s doing such a thing, although there seemed to be other Dragon Emperor s stopping them, they were also worried, what kind of divine thing was a god's statue, how could it be broken so easily?

But, the ones who did it were the Dragon Emperor!

"What exactly happened!?" How could the Immortal Dragon Emperor destroy the statue, and kill so many people?! "

The people in the discussion were almost on the verge of tears. At this time, everyone had long forgotten what Long Chen had done.

"And also the Blood Tyrant Dragon Emperor that massacred the Dragon City. Our Void Illusionary Divine Statue was also destroyed by him."

"There's also the Nether Dragon Emperor who devoured Dragon City, the Heavenly Fate Dragon Emperor of the Fate Dragon City, and the Boundless Dragon Emperor of the Life Dragon City!"

"Why did you destroy the deity statue!? Was it because we, the Five Dragon Cities, were going to abandon us? This was too much! Could it be that the position of our Seventy-two Shencheng s in the eyes of the Five Dragon Cities is not as good as that of a single Long Chen? "

The entire Di Jun Mountain was like boiling water as more and more information came in, more and more deities were destroyed, and there were even news of the war between the Dragon Emperor s! Sure enough, there was a fight.

"No, we can't stay here. I need to return and protect my Shencheng to seek justice for my ancestors!"

"Since the Five Dragon Cities is so against us, we will sever all ties with him!"

They were in an uproar.

"All of you, stop!" Seeing that his father was actually like Long Qinglan back then, the emperor was not in a good mood. His shout immediately suppressed everyone's words, causing them to become deafening!

In such a scorching heat, many people could not withstand it and their faces turned pale from fright. Only then did they remember that there was still the Azure Fire Emperor who was stronger than Di Jun, the City Lord of the Everlasting Dragon City.

"Before this matter is over, no one is allowed to leave this place. I am taking responsibility for your lives, and the deities' statues of the Shencheng have not been destroyed. Hurry and inform your people, do not confront the Dragon Emperor, they will definitely die, do you understand?"

The Bluefire Emperor was extremely irritable right now, with just a few words to scare the crowd, he made everyone extremely unhappy as well. Of course, he was right, fighting against the Dragon Emperor was simply courting death, so everyone started to inform him.

In a short moment, the entire Dragon God Domain was in an uproar. The great battle between the Everlasting Dragon City last time had no effect on the Shencheng, but this time, it had completely terrified them.

Although they were still here, everyone was still furious. They were the victims, the ones being suppressed, and although they were small and weak, the deity statue had an extraordinary significance to them. This was their faith!

"Everyone, there's still a long period of time left. Why don't you listen to a few stories from me?" At this time, Long Chen suddenly stood in front of the Bluefire Emperor and once again appeared in everyone's field of vision.

Now that everyone's eyes were focused on him, of course, there would be a lot of hate towards him. Long Chen did not panic, and said: "These stories, of course, started from when I borrowed the Emperor's Jun Divine Boat from City Lord Di Jun, why do I need to borrow the Emperor's Jun Divine Boat? Of course it's to go to the God Battlefield, and why would I go to the God Battlefield? Of course it's to solve a mystery, and that is, what kind of place would the Gods Battlefield be when it wasn't opened? How did your City Lord Di Jun die? "

That's right, they did not know how City Lord Di Jun had died, nor did they know where Long Chen had killed him.

Previously, Long Chen indeed did not know how to prove Long Qinglan's matter.

But when the change happened to the five Dragon Emperor s, it was a good opportunity for him to make his discoveries known to the world, to such an extent that Long Chen believed that a lot of things would happen in the future.

Then, he went to the White Bone Divine Palace and started to enter the first palace, which was called the Nine Colors Palace. Then, he went to the Palace of Divine Spirits and fought against the Martial God himself.

From the battle to the escape to the appearance of the Godly General, he had gone through every detail. Of course, he also clearly explained how he killed the City Lord of Di Jun. He wanted these guys to understand that the story was definitely not fabricated!

Chapter 2255 - Conflict of Faith

Afterwards, he had comprehended a new attack, tore apart the dragon tempering pot, defeated the Divine General, and then the Divine General turned into dust, saying that his true body had arrived.

From the very beginning, Long Chen had only concealed some details which were related to his secret.

At first, no one wanted to hear his' story 'at all. But later on, they were attracted by the details he recounted, and no one interrupted them as they listened.

"After I left the battlefield of the gods, I went to the Everlasting Dragon City and told the rest of the Dragon Emperor about my discovery in the battlefield of the gods. Among them, five of the Dragon Emperor s decided to personally explore the battlefield of the gods, namely the Everlasting Dragon Emperor, the Tyrannical Blood Dragon Emperor and the other five Dragon Emperor s. I can boldly tell everyone, the reason they did this just now, was definitely because they met with a problem during their infiltration into the Spirit Sea, and their will was disturbed. This is definitely not their intention, there must be a problem in your World of Gods, I wonder if everyone noticed the eyes of the Immortal Dragon Emperor? Back then, my father had this kind of state as well, when he was preparing to destroy the World of Gods and start a massacre! "

The last sentence was the most important.

Every time the Spirit Sea was at peace, when the God Realm opened, they would all go in with utmost piety. They would let the young warriors bathe in the divine rain, and then offer sacrifices to their ancestors in order to receive a gift from their ancestors.

But in Long Chen's mouth, it had become a Shencheng of bones.

The Nine-colored fog was a type of insect.

The rain of deities had actually transformed into a type of Golden Spider, possessing an extremely strong destructive power.

In fact, there were even Godly Generals that appeared, wanting to turn City Lord Emperor Jun into one of his divine palaces, imprisoning him for thirty thousand years. In the end, the statue turned to dust and the giant golden ball disappeared.

So wonderful ...

"Even though I definitely understand that your faith in your ancestors has gone through everything, I can swear with my life that everything I say today is true. Of course, in the future, Dragon Emperor Yongye will also prove everything I say for me. Of course, all of you have the right to continue worshipping the World of Gods. It doesn't matter if you let your descendants enter a thousand years later, I'm just telling you otherwise. Other than that, the matter of my father wanting to destroy the war of gods was now laid before you all. Whether or not you believe me will depend on you, he is not a madman, but a person who wants the truth but is controlled by that kind of terrifying power. Today, the person who destroys is only the first step, there will be a day when an even bigger truth will emerge from the surface! "

It was as if all these years had been for this moment.

Completing his last wish allowed the world to truly understand and understand him, and not to despise him. Even his son.

This was his wish and desire, and even more so the pursuit and fate of Long Chen.

Today, he spoke carefreely. Although he knew it wasn't easy to destroy their faith in their ancestors, he had already done his best. As time passed, he believed that everything he said today would be verified by his words.

"Your gods did not punish me. That is because they are not here at all, or they do not even think of you as the same thing. And what exactly is underneath the Spirit Sea? Very few people, I believe. Maybe the five Dragon Emperor s know about it, but how can we let them recover normally now, it is an unknown problem! "

After hearing all that he had said, the people below fell into a deathly silence. They couldn't even accept the destruction of the statue, much less accept the inconceivable truth ...

"Um, Long Chen, everything you've said, could it be that you made it up to help your father wash away his sins?"

In reality, everyone could hear that it was impossible to fabricate such details on the spot, and it even involved Dragon Emperor Eternal Night. But since ancient times, the battlefield of the gods had always been a sacred ground, how could they believe that? The one thing that was the most resolute in their hearts was very difficult to shake. Thus, the majority of them actually had a conflict in their hearts.

Of course, after knowing what exactly happened, they felt a little better, but they also panicked a little. If what Long Chen said was true, then, what would happen next?

For a moment, everyone became miserable.

"Whether or not I am making it up, everyone's brains should be put to good use. Think carefully and you will know." Time will explain everything. " Long Chen said.

He was very calm. There were some things he could not rush for. All he needed to do was plant this seed, and one day, it would take root.

Everyone quieted down and began to discuss quietly.

As time passed, more and more Shencheng Divine Statues were destroyed. To the various City Lords, this was within their expectations.

A few days later, all the idols were gone.

It was not that the interception of the ten Dragon Emperor s was ineffective, but that once they were stopped, they were practically fighting with their lives on the line. Even if two people intercepted one person, it might not be possible, so the ten Dragon Emperor s could only give up.

Yongye sent over some news.

"Now that they destroyed all of the idols and started moving around randomly, Dragon Emperor and I will live on for all eternity. You guys talk to those city lords clearly, then send them back to their respective Shencheng s."

This is what the Eternal Night Dragon Emperor said to the Bluefire Emperor.

"What happened to my father?" The Bluefire Emperor asked solemnly.

"There's no big problem. Rest assured, Dragon Emperor and I will always be following him. at least I won't let him go to Spirit Sea again. " Dragon Emperor Yongye said.

"Yes." The Bluefire Emperor could tell that he was enraged. It was clear that the Eternal Dragon Emperor held a deep place in his heart. Otherwise, how could he be jealous of Long Qinglan?

"Protect Long Chen and bring him back to the Eternal Dragon Emperor first. We'll try our best to bring him back with us." After he finished speaking, Dragon Emperor Yongye cut off the star talisman.

After that, he chased everyone back, warning them to obediently return to their respective Shencheng and not to cause any trouble. At a time like this, they shouldn't walk around either.

When everyone was feeling anxious for their respective Shencheng, they immediately scattered. With their speed, they would need a certain amount of time to return.

Now that Long Chen had planted a seed in their hearts, they would pass this seed on to even more people. This would continue until the entire Dragon God Domain knew of the story that Long Chen had told them today, and then, Long Chen would succeed.

He fulfilled the most important step towards Long Qinglan's final wish.

Then, he, the Azure Fire Emperor and a dozen or so Everlasting Dragon City warriors returned to the Everlasting Dragon City.

The face of the Bluefire Emperor was extremely sullen and irritable, no one dared to approach him, silently moving towards the Everlasting Dragon City on the way.

And Long Chen was with Li Xuanji.

"You've worked hard." Li Xuanji felt heartache for everything he had suffered in her heart.

"It's not hard. The real trouble probably hasn't come yet. I have to know who killed my father, and I haven't gotten my revenge yet. I hope that one day, I know who this enemy is! "

Long Chen clenched his teeth and said.

Right now was the time of the storm, he felt that the day was coming soon, at least the Dragon God Domain was in chaos!

They didn't say anything along the way.

As they approached the time ocean, the Immortal Dragon Emperor and the other four Dragon Emperors were still wandering around the entire Dragon God Domain, making it difficult to communicate with them. The Sky Dragon Emperor and the Eternal Night Dragon Emperor were still following him closely.

The Bluefire Emperor, in particular.

When he saw Long Chen, a terrifying flame flashed in his eyes.

"If it wasn't for you, my father wouldn't have gone to that place. Long Chen, let me tell you, if something were to happen to him, I definitely wouldn't have let you off!"

Finally, the time had come. The Bluefire Emperor couldn't help but roar out from beside him.

Indeed, when the five of them went to Spirit Sea, Long Chen was the direct reason.

Long Chen did understand what kind of person the Bluefire Emperor was. He definitely worshipped the Immortal Dragon Emperor, but it was possible that Long Qinglan had stolen all the limelight when he was young, and the Immortal Dragon Emperor was a strict person. To be honest, he did wish to receive the acknowledgement and appreciation of the Immortal Dragon Emperor more than anyone else, which meant that the father's position in his eyes was extremely important.

Long Chen retorted, "Do you understand that the matter of the God's battlefield is always a poisonous tumor? If we don't solve it, there will be a day when we will be in danger. What I have done, first, was for my father, and secondly, for the future of all the people in the world.

Seeing him refute his words, the Azure Fire Emperor was even more furious. He stopped his steps, gritted his teeth and said: "Long Chen, how are you so sure that the battle between the gods will bring us danger? It has existed for tens of thousands of years, so why is there no problem with it? Even if there are gods, even if they are enslaving us, so what? Every single one of us is living well, yet you are fighting against the gods, leading to the suffering of the people. You are carefully seeking your own death, yet, you are dragging everyone down with you.

He could not help but feel angry.

It's a question of ideas.

Long Chen took a deep breath. He was still young, so naturally, he could not agree with what the other party had said. He calmed down and said, word for word, "I think very clearly, I want to be someone like my father. If we are enslaved, then I will resist. Even if he had to sacrifice his life, so what? If I'm as afraid as you are, then I feel sorry for you. "Now that nothing has appeared, it's best not to make any definite conclusions. Time will prove everything."

"Time, you fart!" Since my father has become like this, you are the main culprit! You are courting death, don't harm others, if you continue to be so stubborn like this, I will teach you a lesson in place of your father! " The Bluefire Emperor simply made him angry.

To be honest, Long Chen did not really hate him.

But now he was saying it to such an extent, to take the place of his father to teach him a lesson? He couldn't help but laugh, "You don't need to take my father's place. My father won't teach me a lesson. You're going to teach me a lesson yourself, aren't you?"

Chapter 2256 - Green Hellfire Dragon Array

The two didn't give in, giving everyone a headache. Those who had followed him to the Di Jun Divine City before, were mostly Seven Star tribulation of reincarnation and above. They could be considered to be the top power of the Everlasting Dragon City, but there were still those whose strength and status exceeded the Azure Fire Emperor, so there was no one able to suppress him.

Now that the Azure Fire Emperor was angered to the point of being half-dead, and Long Chen did not give him a single inch, not giving him any face at all, under the situation where the two of them were quarreling, he was truly infuriated!

Rage burned in his heart.

From the first time he saw Long Chen, he did not like the sharpness of this young man. It was even more unbearable than the previous Long Qinglan, and that was less than a year ago.

At that time, in his eyes, Long Chen was his son's opponent. He already felt that it was inconceivable for Long Chen to defeat Long Haoge, after all, he was a lot older.

After that, he started to grow like a madman, defeating Long Qingyue and even the City Lord of Emperor Jun.

In the blink of an eye, he was actually able to fight against a practitioner with the body of a half god, and could even approach infinitely.

Compared to Long Chen, he was practically useless.

But, he still had the airs and dignity of an elder, and especially this time, something had happened to the Immortal Dragon Emperor because of him! Despite his venting of his emotions, he was met with an extremely rude resistance.

The moment Long Chen finished speaking, the Bluefire Emperor could no longer hold himself back.

Starting from the Eight Trigrams tribulation of reincarnation, even if there was a difference between the early stage and the late stage, the difference might be a few thousand years of cultivation.

Furthermore, Long Chen seemed to have just reached the level of City Lord Di Jun.

In the eyes of the crowd, the Bluefire Emperor was a king of Everlasting Dragon City other than the three great Dragon Emperors, and was ranked in the top ten of their Dragon City just like Bloodlust. He was also a terrifying existence similar to the chaotic star field's Chaotic Star Lord and Yang You. Back then in the chaotic star field, how terrifying was the Chaotic Star Lord? How terrifying was Yang You?

Now, what Long Chen was facing was precisely that level of Zhi Zun, the emperor level overlord of the Immortal God Realm, and the fifteen strong people below Dragon Emperor.

However, he didn't feel that it was that powerful.

Especially after he had entered the late stage of the Four Symbols tribulation of reincarnation.

"Bastard!"

The Bluefire Emperor let out a furious roar, then sent a palm flying.

At that time, Li Xuanji was still by Long Chen's side and the crowd nervously watched their argument. They never thought that the Azure Fire Emperor would actually make a move, after all, the Eternal Night Dragon Emperor had ordered the Azure Fire Emperor to escort Long Chen back.

Only Long Chen knew that he had long wanted to take action against him. From the battle between Black Hell Beast and the Dragon Emperor, he had always wanted to kill him. Of course, that had to do with him having been the Black Hell Beast's host body back then, but in the end, he believed himself to be an elder and thought that he could teach Long Chen a lesson!

In the blink of an eye, it had already moved more than a hundred meters away, causing the Bluefire Emperor's palm to slap into the air. The power that the Bluefire Emperor had directly torn apart became static, although it was just a casual release, but Long Chen could feel that its power was boundless, compared to the power in Di Jun City, it was at a very strong level. With just a slap, a mountain range below was turned into dust, and rolled away like a sandstorm!

"Bluefire Emperor!"

Everyone wanted to stop him and stop him.

"Don't stand in my way, or else you will be injured. Today, I will definitely teach this stubborn and hateful prick a lesson!" Let him know what it means to be well-mannered! "

Everyone could not help but look at Long Chen with pitiful eyes as they said loudly, "Long Chen, just apologize to the Bluefire Emperor. After all, he is still your uncle."

Now, in the eyes of the rest of the Everlasting Dragon City, Long Chen was treated as Long Qinglan's son, the grandson of the Immortal Dragon Emperor.

"I'm sorry, I don't have that kind of relationship with him."

If he had this kind of relationship, Long Chen would never admit to it even if he looked at with this kind of expression. It was because the Azure Fire Emperor's eyes were ruthless, filled with hatred, just like how he did not listen to other people's advice, he continued to attack Long Chen.

Even Li Xuanji couldn't stand it anymore, she seemed to have sensed what Long Chen was planning to do. Needless to say more, she immediately turned into a Yin devil behind Long Chen, and rushed into Long Chen's body, transforming into Long Chen's Yin devil power. Now that Long Chen had truly reached the pinnacle, honestly speaking, she was unable to kill the Azure Fire Emperor in time like how she killed City Lord Di Jun.

"As expected, he's not afraid of death. Do you think that even I can take care of him?" In the blink of an eye, the emperor had already charged directly towards Long Chen to kill him. When everyone was about to inform Dragon Emperor, Long Chen interrupted them and said: "There is no need to tell them, since the emperor wants to test my strength, then I will accompany him, it is just a spar, it is not something that the Dragon Emperor need to worry about, they have more important things."

They were afraid that the Green Fire Emperor would say that Long Chen had been injured, hence they were prepared to inform Dragon Emperor Yongye. Since that was the case, they only needed to give up and stop to watch helplessly.

"You're quite bold. Then I'll give you a chance to challenge me. However, I won't show you the slightest bit of mercy."

The Azure Fire Emperor was so angry that she laughed instead. Right now, he was truly displaying the power that belonged to his late stage demigod body. Heat was emitted from his body, forming a terrifying wave that swept through the world.

He reached out his hands, and using his forefinger as a brush, he quickly described the fire array diagram. The strokes were extremely quick, and in the blink of an eye, a huge fire array diagram appeared before his eyes. Countless fire symbols took the shape of divine dragons, and he began to move about among them!

This was the power of both fire and time!

This was the fusion of the 'Obscure Whip' and the 'Primordial Bluefire'!

According to legend, once you were whipped, you will age by ten years. But when the Azure Fire Emperor fused this sort of time energy into the primordial flames, when the power of aging and the power of fire combined, the destructive power was evident!

"Green Hellish Fire Dragon Formation!"

Both of his hands transformed into swords, controlling the flame diagrams. The Green Fire Emperor's face was cold, without saying a word, he punched his fist at the back of the array diagram, and when his fist came into contact with the array diagram, it produced a rumbling sound.

Every single divine dragon was like an azure whip, possessing the power of aging time. At the same time, they also possessed the power of the azure flame of primordial chaos!

After the array had locked down Long Chen, Long Chen was instantly trapped inside, unable to resist at all. It seemed that under this kind of attack, he was very pitiful, as the few Everlasting Dragon City warriors were already hesitating on whether or not they should make a move and take the risk to protect Long Chen.

He had never been afraid of the power of time. At this time, he gently pushed out his palm, and like a ripple on the surface of the lake, it vibrated outwards. It was also the power of time.

"Spacetime reversal!"

After a period of time of experimentation, cultivation, and battle, Long Chen had already used the power of Time Reversal to its peak. The ripple spread out, continuously expanding, and very quickly, it completely came into contact with the opponent's Netherworld Flame Dragon Formation.

In terms of attainments in the way of time, the Azure Fire Emperor was not as good as Long Chen.

The acceleration of time met with the reverse flow of time, and the reverse effect was that time accelerated. This increased Long Chen's ability to reverse space-time, causing the Primal Chaos Blue Fire to be compressed to the limit and retreat, and under the shocked eyes of the Bluefire Emperor and the rest, it was directly extinguished right in front of the Bluefire Emperor's eyes!

This scene ...

The attack which the Bluefire Emperor used up all his strength with, was as if he had been pushed by Long Chen, and it was instantly destroyed.

At first, the scene was quiet and quiet.

The emperor stared at his hands in a daze. After a while, his face twitched, and he said: "The power of time is indeed very profound. If you can block my attack, then forget about anything else, I, Bluefire, will submit to you first!"

When he finished his last sentence, a massive amount of chaotic blue fire surged up from his body. It was hundreds of meters high, and instantly turned into a giant fireball, its brightness even surpassing that of the sun. For a moment, the entire world that everyone could see was scorched black!

Roar!

The Bluefire Emperor had actually transformed into a dragon.

A draconic roar rang out.

His Inherited Divine Dragon was the same as his son, the Primal Chaos Blue Fire Dragon born next to the Primal Chaos Blue Flames. It had once absorbed a portion of the Primal Chaos Blue Flames and grew up under the stimulation and nourishment of the Primal Chaos Blue Flames.

A cyan fire dragon, on the other hand, was much more tyrannical than the Sky Profound Jade Fire Dragon, and its aura was many times more imposing. It appeared coiled in front of Long Chen in the midst of the chaotic cyan flames, and it exhibited a peerless heroic demeanor with the supreme might of a dragon. Its pair of eyes were like fireballs, and each piece of cyan dragon scales had a flame.

On each of its dragon claws, there was a green fireball, emitting scorching heat as it looked at Long Chen.

The Primal Chaos Blue Fire Dragon gave Long Chen a fatal oppression, but on this level, there would never be a divine dragon that could suppress him, because he was the ancestor of ten thousand dragons!

In front of everyone's glazed eyes, the Primordial Blood Dragon was born. It was covered in a bloody mist, and although it didn't look as large as the Primal Chaos Blue Fire Dragon, but in terms of its might, its ferocity and ferocity was enough to suppress the Primal Chaos Green Fire Dragon!

One move to determine the victor!

Chapter 2257 - Long Chen VS Bluefire

The surrounding people didn't expect that they would fight, and even turn into dragons to fight.

To Dragon Fighter, when it came to Dragonforming, it was basically a life and death struggle.

However, what shocked them was that Long Chen actually blocked an attack from the opposing time and Primal Chaos Blue Fire while using the full power of the Azure Fire Emperor. To be honest, when such an attack was unleashed, there were basically one or two warriors with early stage SemiGod bodies who might not even be able to withstand it. Even if they could, they wouldn't be able to perfectly withstand it.

"He just came back from the war of gods, and at that time, he was only stronger than City Lord Di Jun, and now, he even went up a level, and could fight against the Azure Fire Emperor. This kind of progress, is simply terrifying, doesn't that mean within three to five years, he can reach the level of the Dragon Emperor?"

This was too scary!

Long Chen's speed was unheard-of.

If his talent was tyrannical, then the early stages of progress would be normal. But at the late stage, for others, even if it was just a little progress, it would still be a few thousand years of progress. How could they achieve such a speed as fast as Long Chen's?

Thus, to them, such a monstrous genius had already almost suffocated from shock.

Furthermore, even if it was a dragon transformation battle, Long Chen wouldn't be at a disadvantage in front of the Azure Fire Emperor, right?

The Primordial Blood Spirit Dragon and the Primal Chaos Blue Fire Dragon had yet to begin a divine ability competition, but the appearance of the two divine dragons created a huge commotion, and approximately a thousand miles away, there was already a Shencheng. But now that the people of the Shencheng could feel the commotion here, they could look up and see the battle between the divine dragons.

Of course, they didn't know who the two divine dragons were.

Only warriors with six tribulation of reincarnation and above could guess it!

He only wanted to use one move to determine victory or defeat. And the move he used, was naturally the one he was the most proficient in, the most fearsome attack, he was not worried that he would accidentally kill Long Chen. If Long Chen died so easily, he would not have lived until now.

From generation to generation, it had been passed down, and the chaos green fire seed still existed within the forehead of the azure fire dragon. Only someone at the level of the Bluefire Emperor would be able to use the chaos blue fire seed for battle!

The seed was the core of the azure flame seed. The chaos azure flame which the Bluefire Emperor was using came from that seed! Now that he was flying up and down, his abdomen suddenly swelled up as he opened his mouth and spat out, instantly, it was as if ten times the light of the sun appeared in front of Long Chen's eyes. That was a chaotic blue fire seed, just like an egg, it burned with a terrifying flame that was even darker, and there seemed to be millions of small dragons moving within the chaotic blue fire seed.

"If you can get away unscathed, I'll admire you!"

The Azure Fire Emperor roared angrily and used all her might to spit out the chaotic blue fire seed. The blue fire seed cut through the heaven and earth and rushed towards Long Chen, trying to kill him.

In the distant Shencheng, everyone saw a green sun appear in the sky. Its radiance was more than ten times stronger than the real sun, and even at such a distant place, there were people who had their bodies ignited in flames.

Those warriors of the Everlasting Dragon City even ran far away, afraid that they would be affected.

In that moment, when Long Chen moved against such an attack, it had to be said that even City Lord Di Jun could not unleash such an attack, it was at least several times stronger than normal. It was enough to instantly kill many experts at the early stage of the SemiGod body!

But what about Long Chen!

On his dragon claw, the killing aura will, blood colored flames, and so on suddenly appeared. This was the ancient blood spirit dragon's wrath, Myriad Death Claw!

A strike that was even more terrifying than the Blood Spirit Spikes!

Long Chen rose into the air, and instead of retreating, advanced forward like a moth rushing towards the fireball. His courage was evident, and what attracted even more attention was his death god's dragon claw.

The Primordial Blood Spirit Dragon's Fury!

Long Chen's four claws stretched out like a phantom, almost colliding with the chaos green fire seed, the four claws swept past it, causing everyone to be shocked that even this chaos green fire seed was unable to truly harm him! Previously, when he was so close to it, the scorching flames had almost burnt his entire body black, but when a ray of flames of life crashed into him, Long Chen was reborn, his body under the protection of the flames of his life, possessed an incomparable regenerative ability!

He was completely unharmed!

As for the chaos green fire seed, it was currently surrounded by a blood-red energy. This was the will of slaughter that was carrying the four types of quadrupole energy that was born in the body of the Archaic Blood Spirit Dragon. Under this entanglement, even the chaos green fire seed couldn't help but tremble, powerless to roar!

Several rays of light exploded, and the chaos azure fire seed was shaken off from the Ten Thousand Deathclaw's power, turning into fragments of flame. At this time, the chaos azure fire dragon charged forward, swallowing the chaos azure fire seed back into its stomach.

This time, Long Chen's attack could be considered to have been perfectly neutralized.

The chaos green fire dragon turned its head with difficulty. He had already said he would determine the victor with a single move, and now that it was over, he naturally couldn't make another move.

Only, of course he never would have thought that his true killing move, the Primal Chaos Azure Fire Seed, which had already helped him countless times over the years, would actually be broken by a junior, so easily by Long Qinglan's son. He was an existence at the pinnacle of the Overlord level, a figure only second to the Dragon Emperor s!

Could it be that there was truly no one in this world who could stop this terrifying genius?

As for the rest of the Everlasting Dragon City, they were almost suffocating as they stared blankly at this moment.

Long Chen was the first to turn into a human. After going through a battle, the Qi in his opponent's stomach should have disappeared. Perhaps, he could give the opponent a kind of shock and fear. The Bluefire Emperor had no choice but to admit that after a period of time, Long Chen could truly kill him.

He was catching up with them at an absolutely terrifying speed.

The surroundings were scorched black, a thousand miles of black soil.

He looked at Long Chen with a complicated expression. Although both sides were not injured and the victor had not been decided, it was no longer important.

This battle had already proven that from today onwards, Long Chen was the Primal Chaos Star Lord, Yang You and Bloody Blaze, these sorts of people.

The warriors of the Everlasting Dragon City were even more respectful towards him.

"Long Qinglan created you, I'm afraid that it's something even more proud than becoming an Eternal Dragon Emperor! If you have a high moral character and work hard for the sake of the human race, you might be able to become a new Eternal Dragon Emperor. Oh, right now, you can be considered as a member of the Slaughter Dragon City, a Slaughter Dragon Emperor that never appeared before. "

The Bluefire Emperor gnashed his teeth as he spoke these words. Then, without wasting any more time, he turned around and left in the direction of the Everlasting Dragon City.

As for what he said, Long Chen didn't really think about it. What he wanted was to complete his last wish for Long Qinglan and let the people around him live a carefree life. If someone wanted to ruin this tranquility and happiness, he would go all out.

"Long Chen, let's go."

The people of the Everlasting Dragon City treated him extremely respectfully, and considered him to be truly a top Ranker. Currently, there was no problem with the prestige and position of Long Chen in the Dragon God Domain at all. It was like the sun in the sky.

Especially when he was in the Di Jun Divine City, he had announced the news of the war of gods. Now, this story was spreading at an alarming rate throughout the entire Dragon God Domain, and although the majority of the people still did not believe it, they all knew of this story.

When more and more people found out about this, Long Chen knew that he had achieved his goal.

Very quickly, he returned to the Everlasting Dragon City.

Currently, there were also many people who knew of the current situation of the five Dragon Emperors. The hearts of everyone in the world tightened as they waited for the results of the competition.

They linked the current situation of the five Dragon Emperors with Long Qinglan's actions back then. Back then, Long Qinglan was really unfathomable, he actually wanted to destroy the God Realm. Although he did not succeed, he could not be forgiven either.

Judging from Long Chen's words, they had been affected by some sort of terrifying force and were unable to control themselves. If everyone wanted to believe that it was true, they would have to believe that Long Qinglan had not made a mistake in the fight against the gods at the very least.

Therefore, many people were feeling conflicted.

The entire Dragon God Domain seemed to be in chaos.

However, news of Long Chen's battle with the Bluefire Emperor had also spread across the world through the nearby Shencheng. Even the truly strong ones knew the Azure Fire Emperor's position, he was one of the strongest warriors under the fifteen Dragon Emperor, and Long Chen was actually able to tie with him. This meant that this young man had already entered the ranks of the most fearsome warriors in the entire Dragon God Domain in a short amount of time!

What sort of speed was that? What terrifying power!

They admired Long Chen's speed of growth. If not for the fact that it was extremely difficult for the Dragon Fighter to become a Divine Spirit and even Long Qinglan was unable to do it, they would have claimed that Long Chen would have definitely become a new Divine Spirit!

With his current speed, becoming the next Long Qinglan shouldn't be a problem.

If he was truly righteous and had the awareness to lead the human race and fight for them, then becoming the new Dragon Emperor of slaughter, the number one leader of the human race might not be a problem. As long as a Ranker had a proper and upright character, they would definitely be respected. Although Long Chen was young and vigorous, at least on the side of the Five Dragon Cities, he had already earned the praise of many people.

The days were peaceful for a few days.

A few days later, news came from Dragon Emperor Yongye that those five Dragon Emperor s had actually gone missing again.

Chapter 2258 - The Metamorphosis

Originally, those ten Dragon Emperor s were closely following the five Dragon Emperor s who had entered the Spirit Sea before. After destroying all the idols in the ancient city, the five Dragon Emperor s wandered around the Dragon God Domain while the other ten Dragon Emperor s followed closely behind them. In the beginning, the five Dragon Emperor s didn't care about them at all.

After a few days, at a certain time, they began to flee and dodge at their highest speed. With their abilities, although the other ten were not much weaker than them, it would not be easy for them to stop them if they truly wanted to escape.

Afterwards, the ten Dragon Emperor s basically lost them all.

They continued to search for a few days, but were unable to find the figures of the five Dragon Emperor s. They had also been to Spirit Sea, but were unable to find them.

To be honest, Dragon Emperor Eternal Night had followed the Immortal Dragon Emperor for such a long time, and she had thought of all sorts of methods, but even then, she still couldn't wake the five Dragon Emperor up. After they went missing again, it would be useless to search for them.

After the five Dragon Emperor s disappeared, there was a period of time when they did not come out. It was as if the world was at peace for a moment, but no matter who it was, they were all depressed in their hearts.

Long Chen continued to cultivate quietly during this period of time.

Ling Xi had also entered the final stage on the other side, and was about to merge with the stellar nucleus s that were shining with bright stars. In this span of one year, she had made some progress in her strength, but unfortunately, Long Chen's progress was too terrifying.

In the distance, Sky Dragon Star was in a state of peace. Sky Dragon Star was filled with divine dragons dancing in the wind. Life was carefree and carefree. This place was filled with laughter all day long.

The night sky was full of stars, glimmering brilliantly.

A thousand miles of land on Sky Dragon Star shone under the starlight, as beautiful as a dream.

A girl in white appeared in the middle of a tranquil lake that was covered in stars. Her black hair was like a waterfall and her skin was like snow. Her sparkling eyes were like gems and her red lips were beautiful. Her every frown and smile was perfect like a goddess under the starry sky.

Ling Xi came out of the lake, dancing with her snow-white skirt, she landed on the shore. On the shore stood a cold woman wearing a veil. It was Yang You.

"Aunt You, you came looking for me." Ling Xi swayed her beautiful figure, and walked in front of Yang You.

"Let's walk together." It was rare for Yang You to be kind.

After chatting for a while, Yang You told Ling Xi to stand still. She stood in front of Ling Xi and gently reached out her hand. Her eyes were extremely calm as she caressed Ling Xi's smooth lower abdomen, and said. "There's a little life here."

"AHH!"

Although Ling Xi had already felt it and anticipated it, she was pleasantly surprised by Yang You's confirmation. However, she was also extremely shy as she bashfully asked: "Aunt You, is it true?"

Even though Yang You was covered by a veil, the doting look in his eyes was rarely seen. She gently caressed Ling Xi's long hair and head, and said: "Mn, it shouldn't be wrong. Take good care of him and let him come to this world safely. Long Chen is a bit special, so this child should also be a bit special. "

"Okay, I will be careful." Ling Xi immediately nodded her head like a chick pecking rice grains. Honestly speaking, she wasn't prepared at all, it was as if she was suddenly about to become a mother. That kind of feeling was really strange, but it made her feel sincerely happy.

It was as if something even more important had occurred in her life from today onwards.

"In a month or two, after you finish fusing with the stellar nucleus, he should be back to pick you up. I heard that right now, his strength is similar to that of the Bluefire Emperor. The Bluefire Emperor is his father's sworn brother, and his cultivation is the same as mine. "With him protecting you, I can rest assured. It's just that this child has been through many calamities. When the time comes, I have to give him a good warning." Yang You said.

"Aunt You, he knows his limits." Ling Xi's eyes flashed with happiness.

He hadn't seen her for a year, so he only had this little time left.

This year, Long Chen encountered many dangers. If Ling Xi had followed him to the Dragon God Domain at that time, she would also be in danger. However, under Yang You's protection, she was living an extremely safe life.

Yang You shook his head and said, "The world is different now. He carries a lot of things. But men should be like that. Now we can only look forward to the future. "

"Yes." Ling Xi nodded obediently.

Her bright eyes looked at Yang You's veil and said, "Aunt You, why are you wearing a veil?"

"Oh, that's because I'm so ugly." Yang You said without any care.

Of course Ling Xi would not believe it. From her figure and temperament, it could be seen that she was a woman that could shake the masses and would definitely be a peerless beauty.

"I don't believe it." Ling Xi said with a smile.

Yang You sighed and said, "What I said was true. Otherwise, how could I stay by his side for so many years? How come he never had any feelings for me?"

Him?

Ling Xi was not stupid. She knew that she was talking about Long Qinglan, Long Chen's father. She said that she was his servant, but Ling Xi felt that she wasn't the only one.

She could not help but ask: "Aunt You, it's definitely not what you said. Do you know who Daochen's mother is?"

Yang You was startled, and then said, "Who knows? Maybe he didn't have a mother to begin with, so he was born from a rock."

"Oh ..." Ling Xi saw from her twinkling eyes that it might not be the way she said it. But she didn't ask. The two continued to walk under the night sky. At this time, Yang You's expression suddenly changed, and she said, "You can go back. The two Dragon Kings will protect you. I have something to do!"

After she finished speaking, she disappeared from Ling Xi's sight in the blink of an eye.

"Someone broke in?" Ling Xi did not dare to be negligent. Following Yang You's instructions, she returned to the center of the lake. In reality, she knew that the Radiant Dragon Emperor and the Dark Dragon Emperor had been guarding the lake and protecting her from the shadows.

Because Long Chen was their Young Master.

Ling Xi did not know what was happening as she obediently stayed within the lake, waiting for time to pass.

If Sky Dragon Star went any deeper, it would become a devil planet!

The devil planet had existed since the ancient times and was a place where demons gathered!

Great Devil has a cruel nature and has committed all sorts of crimes.

Sky Dragon Star faced the devil star, and in the sky was a huge black vortex, just like a devil's mouth, revolving non-stop, producing a terrifying suction force.

Right now, in the center of the black vortex, there was a mass of unfathomable black fog. The black fog covered more than 1,000 meters, making it impossible for one to see inside.

Suddenly, a ray of black light burst out from the center of the black mist. It rushed out and then transformed into two figures in the air. They were two young women.

These two very young girls had the same appearance, without even the slightest difference. However, because their demeanor, eyes, and temperament differed in every direction, there was an obvious difference between the two. People would feel like they didn't even look the same.

These two women were both peerless beauties, their black hair fluttering about. Their eyes were actually dark red, filled with a mysterious allure, as though a world of blood existed within them.

Amongst them, one of them was wrapped in a pale pink dress that revealed her delicate neck and distinct collarbone. Her skirt was pleated like a snowy moon, gently flowing on the ground, making her gait even more graceful and graceful. Her hair was tied up with a ribbon, her head stuck into a butterfly, and a strand of her hair hung down on her chest.

The other one looked similar to her, but had eyes as sharp as knives. She wore a long black robe that captivated the body, and only revealed her snow-white arms and legs, causing one's imagination to run wild. Different from the pink-robed girl beside her, she was more like a killing machine. The first thing she released was not the woman's beauty and temperament, but a bone-piercing killing intent.

The pink-clothed woman had several silver bells in her hands. As her hands danced, a clear ringing sound was emitted, as if a young girl was laughing.

The two of them suddenly appeared in the air above Sky Dragon Star.

"Meng Hen, look, wow, this is the world outside the Demon Star!" The girl looked at him curiously. Her dark red eyes first fell on Sky Dragon Star. Under her curiosity, there was a hint of bloodlust.

The black robed girl was 'Meng Hen'. She was completely expressionless, like a machine. She looked coldly at Heavenly Dragon Star, and said with a hoarse voice that did not match her appearance, "The mission is important. Let's go."

The pink clothed girl looked aggrieved as she said, "No way, we finally made it out. We have to go down to this planet to play, then we'll go to the Dragon God Domain to obtain the Five Dragon Orbs. It won't be too late to obtain Meng Hen and Meng Hen. Just agree to Yi Xue's request once!"

Her eyes flashed with a pitiful light, sparkling tears within, as if she was really going to cry.

The black-clothed girl was like a mechanical machine as she headed straight in the direction of the Immortal God Realm.

At this time, Yang You, who was covered by a veil, appeared in front of them. Yang You had her hands behind her back, and when she saw the two girls, her eyes narrowed cautiously. How did you all get out of the Dark Star? "

Chapter 2259 - Two Devils Arriving

Seeing Yang You, the two girls also changed in an instant. Of course, their reactions were different. The girl called Yi Xue was filled with curiosity, while the other was like an unsheathed sharp sword. Her blood-red eyes stared at Yang You, and the originally dark red color on her finger actually began to lengthen, extending by five centimeters in the blink of an eye, before directly transforming into a metallic glow.

"Who says we are demons? We are only free humans, and you don't understand. " Yi Xue chuckled as she stood side by side with Meng Hen. Although she looked young, her delicate body was well-developed and had a mysterious allure.

Yang You looked behind them and said, "It looks like the two of you are the only ones coming out. Looking for the five dragon pearls to break this seal, right? I reckon it would take a lot of effort to send you out. Who did this?"

Hearing Yang You's words, Meng Hen said in a deep voice, "How do you know all of this? Who are you?"

Yi Xue, the other one, said, "Of course I won't tell you who you are. It seems like you are also from Dragon Fighter. Are you from Dragon God Domain?"

Yang You did not answer.

At this moment, the young girl called Illusory Scar attacked without a second word. Like a battle machine, she transformed into a cold ray of light and instantly appeared in front of Yang You. The pair of steel-like, dark-red claws attacked, tearing space apart!

Yang You disappeared in the blink of an eye, his voice resounding in the ears of the two young girls. "If you want to go to Dragon God Domain, then go.

She did not intercept them.

Or could it be that she felt that the battle power of these two young women, or perhaps it could even be said that they seemed to be young females, was truly tyrannical. Even she didn't dare to face them head on? After all, the other party was a devil from a demonic star, and they seemed to have cultivated for a long time. Or maybe it was just an illusion.

Yi Xue held her delicate face and said daintily, "This woman is really tactful. She knew that she could not defeat us, so she obediently ran away. But she seems to be capable, we should just not provoke her, then go to Dragon God Domain! We have plenty of time anyway. "

Meng Hen looked at Sky Dragon Star and said, "I'm afraid she will inform us and increase the difficulty of our mission. The best way is to kill her."

Yi Xue shook her head and pouted, "Meng Hen, you are too stupid. There are many people on this planet. Wouldn't it be more exposed if we were to fight? I don't care, I'll go to the Dragon God Domain first. I have enough fun now, then I'll finish the mission.

"Let's go."

The sharp dark red fingernail on Meng Hen's hand was taken back. He became a streak of dark red light that disappeared in a flash, from Sky Dragon Star, to Star of Destiny, to Primal Chaos Star. Behind her, a pink light was following, its speed equally unsteady.

"Who is it!"

In the middle of the Primal chaos planet, the Lord of the Chaosworld had extended his enormous head out of a sea of chaos. That was the head of a Chaos beast, but by this time, the person who had flashed past had disappeared.

"An aura comparable to Yang You's or even more terrifying aura, coming from the direction of Heavenly Dragon Star. What's going on?" The Starlord of Primordial Chaos was filled with confusion. He sank into the sea of primordial chaos and continued to train.

On the day that Dragon Emperor Yongye had just returned from outside, his face was filled with exhaustion and depression. It was very difficult to see that she would also have such a state.

"It's a good thing that you told everyone about what happened in the World of Gods. Now that everyone is mentally prepared, it can be explained that there will be other worlds in the future." Dragon Emperor Yongye said somewhat helplessly.

At the same time, they were also waiting for the appearance of the Black Hell King. The Black Hell King was filled with mystery and danger, if they did not remove him one day, the other party would definitely appear one day and cause unpredictable consequences.

However, at this time, Yang You contacted him.

"There is something you have to tell Five Dragon Cities's Dragon Emperor." Yang You suddenly said.

"What?" Now, because of the matter between the five Dragon Emperor s and the Black Hell King, it was already chaotic enough.

Yang You said: "The Magic Star Seal has been broken through from the inside, and two people have already come out. I have just seen them, and their strength is close to the level of the Dragon Emperor s.

"Hmm?" To Long Chen, this was an extremely strange piece of news. However, the other party's strength was close to the level of the Dragon Emperor, which meant that he was really terrifying.

Yang You continued: "Their goal is to obtain the five dragon pearls, then destroy the Magic Star Seal, then expand the gap, and even cause the seal to collapse. The five dragon pearls should be in the hands of the number one Dragon Emperor in each Dragon City right now, so you should remind them, right now they are all heading towards the Dragon God Domain. Of course, they wouldn't fight for it in the open, but the Demon Star has methods that place unimaginable importance on it, so the Five Dragon Cities would need to put in some effort to prepare for it. "

"I know." Currently, even the matter of the war of gods had not been resolved, yet such a huge situation had actually occurred in the Demon Star. Although Long Qinglan was related to both of these places, if any one of them were to make a mistake, it could lead to the destruction of the entire population, leading to an irreparable result.

Compared to these two places, the Black King didn't seem like anything.

Yang You was protecting Heavenly Dragon Star, so after Long Chen asked a bit, and finding out that Ling Xi had nothing to do, she hurriedly went to Dragon Emperor Yongye for this matter.

Eternal Night Dragon Emperor was having a headache about the Immortal Dragon Emperor.

Long Chen told her everything that Yang You had told him.

"What?" At that time, Long Qinglan had used the five dragon pearls of the previous generation to break the seal of the devil star, causing a portion of the devils to follow Long Qinglan to the Dragon God Domain, and caused chaos in the Dragon God Domain in the end with millions of corpses lying around everywhere.

Last time, Long Qinglan finally came to his senses and sealed the group of demons back, but this also caused an irreparable loss to them.

He did not expect that during this period of chaos, there would be someone from the demon star who would open up a part of the gap, allowing the two devils to come out first and let them snatch the Five Dragon Cities. Fortunately, they knew about this beforehand, otherwise, if they were not careful, it would bring about a greater disaster!

"Among the five missing Dragon Emperor, two of them are Dragon Orbs in the hands of eternal life and one of them is in the hands of Berserker Blood. It's more dangerous and it's possible that the other three would be snatched by the other two. The other three are held by the top Dragon Emperor of Life Dragon City, Dragon Devouring City and Dragon City. With her personality and strength, it is impossible for his to lie to us. I will first tell this matter to the other Dragon Emperor. "

It was obvious that although the strength of the two people who came out from the Demon Star were not as strong as the Dragon Emperor, the Dragon Emperor Yongye was still very attentive. After all, since ancient times, the Demon Star had always been terrifying, especially when it came to individual battles.

Very quickly, Dragon Emperor Yongye informed her of this matter once.

All of the Dragon Emperor s were extremely anxious. They had yet to find the five missing Dragon Emperor s, but new opponents had already come from the demon star.

The five Dragon Emperor s, the Black Hell King and the Demon Star Twin Demons

Dragon Emperor Yongye sighed and said, "The three of you will probably take certain measures. We have already agreed that if the five Dragon Emperor s still do not appear, we will first capture the Black Hell King and then deal with the two devils with all our power. Right now, the Dragon God Domain is already in the midst of all these things. You have to be more careful, focus more on cultivation, and without realizing it, you have already become our common hope! "

Her dignified and noble face was now filled with worry.

"Also, regarding your father, I believe that at least fifteen of us have already completely forgiven him. I believe that Qinglan really does know a lot of things that we do not know. The crimes history has given him are very unfair to him. After these things are over, we will work together to give your father some advice so that everyone in the world can understand him. "

With Dragon Emperor Yongye's words, Long Chen was even more at ease.

His father's last wish seemed to have been almost resolved, but the three questions that were laid before his eyes, made Long Chen feel that a storm was coming.

Perhaps, this would fulfill the saying, "100 years from now, dragon sacrifice will perish".

From the words that the Black Jade Dragon head had heard, Long Chen still did not dare to tell them. Right now, there was no such thing as a 'foundation'. It would only cause panic in people's hearts.

At this moment, the Azure Fire Emperor broke into Weiyang Palace.

"My dad is back!"

he said, rushing in.

"What?"

The Eternal Night Dragon Emperor didn't say a word and immediately rushed out. Long Chen couldn't care about anything else and came out with the Blue Fire Emperor. Previously, the Immortal Dragon Emperor had already gone missing, but now that he suddenly appeared, what would happen?

When the three of them came out, the Eternal Dragon Emperor was already floating above the Everlasting Dragon City, with the at his side. It was clear that the Eternal Dragon Emperor still had not woken up from his state of chaos, and only part of his eyes were white.

"The other four Dragon Emperor s seem to have returned to their respective Dragon Cities." The Bluefire Emperor said frantically.

"Yes."

Eternal Night Dragon Emperor directly went up and stood in front of the Eternal Night Dragon Emperor, one on the left and one on the right. Below them, the entire Everlasting Dragon City knew about the news of the Eternal Night Dragon Emperor's return and all of them rushed out, staring blankly at it from below.

This scene reminded people of the Long Qinglan of the past.

Back then, Long Qinglan had immediately become a corpse that fell into the middle of Everlasting Dragon City.

To his relief, the Immortal Dragon Emperor was still alive.

He suddenly opened his arms and shouted loudly, "All human citizens, please follow me. Go to Divine Desolation Ancient Earth, eliminate Yao Xie and return my justice to the universe!"

Chapter 2260 - Spirit Sea Storm

When the five Dragon Emperor s went missing again, no one expected him to reappear at this time, and he even went straight to their respective dragon cities.

Right now, almost everyone in the Everlasting Dragon City was looking at the Immortal Dragon Emperor, feeling both worry and fear. Just as everyone arrived here, the Immortal Dragon Emperor suddenly raised his arms and shouted, actually wanting everyone to follow him to the Divine Desolation Ancient Earth, to the battlefield of the Gods.

After hearing those words, everyone looked at each other, not knowing what to do.

"Eternal life, what do you mean? What did you see in Spirit Sea?" Dragon Emperor Yongye stood in front of him and asked seriously.

It was just that he had lost his usual rationality. If the Eternal Night Dragon Emperor went against him, then he probably would not show any mercy.

"That's not important. What's important is that the greatest moment is about to arrive. We are about to achieve something that no one can do. I need everyone's witness! When we succeed, everyone will understand the truth. Now, all the warriors at the Six Paths of Reincarnation will follow me to Divine Desolation Ancient Earth! We want to save the world! Give me back my Rising Sun! "

The Immortal Dragon Emperor used his majestic voice to sweep through everyone's ears. His voice was deafening.

Even though he had shouted hoarsely and his veins were popping out, there was basically no one who responded to him. Everyone knew that the Immortal Dragon Emperor's mind was no longer clear, and probably was affected by the Spirit Sea, just like how Long Qinglan was back then.

Very quickly, the Immortal Dragon Emperor realized that everyone was not listening to him. In that moment, his eyes were all red and terrifying killing intent erupted from his body. All of the Everlasting Dragon City's warriors almost suffocated, and many of the young dragons were even scared to the point of crying.

The majesty and power belonging to a Dragon Emperor was displayed on his body in a ruthless manner. This was extremely terrifying, even Dragon Emperor Yongye was scared stiff for a moment, but luckily, there was a fighting expert from the Vault of Heavens standing beside the Immortal Dragon Emperor, making her feel a little more at ease.

Of course, if he went crazy here, no one would be able to stop him.

The Eternal Dragon Emperor's eyes were cold as he scanned through the crowd below and roared, "You all actually refused to listen to my commands! Do you want to die? This is the most important moment in history for us humans, a time of glory. Each of us is a savior, and you guys are actually afraid of death, and do not listen to my commands. So cowardly, cowardly, what's the use of living?"

This time, the sound was louder, causing many people in Everlasting Dragon City to faint.

It seemed that he would lose control of himself very soon. If he were to fight crazily, it was likely that not even a few people in the entire Everlasting Dragon City would be able to survive.

Dragon Emperor Yongye was quickly weighing the pros and cons.

"Why don't we go with him? The other four Dragon Emperors are probably looking for people to go with them to the Divine Desolation Ancient Earth to see their intentions. If he doesn't, he'll probably kill people to vent his anger." Long Chen had seen it very clearly, so he had promptly told Dragon Emperor Yongye one sentence at this time.

The current Immortal Dragon Emperor was like a person who had reached the limit of his emotions. It was very likely that his brain would collapse the moment he got hot, which would create an irreparable result. Furthermore, Long Chen reckoned that the situation in the other four Dragon Cities was the same.

After hearing this, Dragon Emperor Yongye and Dragon Emperor of the firmament looked at each other and acknowledged Long Chen's decision.

"All disciples of the Everlasting Dragon City, listen up. Warriors of the sixth cycle of reincarnation and above, follow the Immortal Dragon Emperor.

The Eternal Night Dragon Emperor and the Sky Dragon Emperor announced almost at the same time, that with the two of them making the decision, the mobilization power was still very strong. In an instant, the experts hesitated, but it was to seek for the truth.

This was of course the core of the entire Everlasting Dragon City.

Seeing the actions of these people, the restless heart of the Immortal Dragon Emperor finally calmed down. His expression recovered its seriousness, and he once again spread open his arms, saying, "Everyone Eternal Dragon Emperor, history will remember this moment, everyone will follow me, and fight for justice and survival! "Let's go!"

He turned around and headed towards the Divine Desolation Ancient Earth at a speed that was not too fast. It was to the north of the Everlasting Dragon City. Since they had already decided, Dragon Emperor Yongye and Yue Yang brought all the experts from the Everlasting Dragon City to the north. Of course, Long Chen was also in the crowd, and for a moment, the entire group from the Everlasting Dragon City

was vast and majestic, a sight to behold. To the mortals of the Immortal God Realm, they were practically gods!

In this ancient city of God's descendants, even the Mayor was only a martial artist of the Six Paths of Samsara. But this team of more than 10,000 people, the weakest group was of the Six Paths of Samsara. From this, it could be seen just how terrifying this team was.

Furthermore, Long Chen and the others quickly received the news, and under the request of the other four Dragon Emperor s, the other teams of Five Dragon Cities began to head towards the Divine Desolation Ancient Earth. Like this, the elites of the Five Dragon Cities would meet at the Divine Desolation Ancient Earth, and then head to Spirit Sea together!

This was most likely a battle between experts that had never occurred in tens of thousands of years.

Almost all the Rankers in Five Dragon Cities were gathering towards one direction.

What made everyone puzzled and shocked was that these five Dragon Emperor s had gathered all the heroes of the realm and were heading towards the Spirit Sea. What was their goal? Was he going to do the same thing as Long Qinglan did last time, destroy the battlefield of the Gods? Today, most people could guess that the current five Dragon Emperor s were exactly the same as the situation Long Qinglan was in at the beginning.

Therefore, if the matter regarding the Magic Star Seal was not resolved, Long Qinglan would basically be innocent.

After a few days of trekking, they finally gathered at the Divine Desolation Ancient Earth. The fifteen Dragon Emperor s had also gathered together, this was destined to be the first time that many experts were gathered together in tens of thousands of years, but everyone's thoughts were basically on the five Dragon Emperor s.

"Do you have any good ideas?"

"No, we can only see what the five of them are up to."

"In case of danger, first, protect our Dragon City disciples."

Everyone basically understood each other.

Long Chen, on the other hand, was hiding within the group. Looking at the five Dragon Emperor s at the very front, who seemed as if they were going to their deaths, their eyes were noble and passionate. Now that the World of Gods had turned into a giant golden ball and disappeared, they couldn't find it no matter what. Could they really find the World of Gods and destroy it?

The mystery was soon unraveled.

This troop of almost fifty thousand people passed through the Divine Desolation Ancient Earth and arrived at the Divine Twilight Zone. Almost all the experts of the human race were gathered there.

As a result, the Twilight Zone seemed a little small.

The five Dragon Emperor s stood at the very front of the group, and looked at the Spirit Sea in front who had a windstorm that defied the heavens. Their eyes were filled with a divine mission, and they advanced forward while the others looked at them while suffocating.

When this group of people arrived at Divine Desolation Ancient Earth, the dire beasts were naturally scared to the point of shitting their pants, and they all hid themselves.

When the whole group stabilized, the five Dragon Emperor s turned around and looked down at the various experts below them. Then, one of the Heavenly Fate Dragon City's Dragon Emperor said, "Everyone, for everyone to come here today, we do not need everyone's help. We only need everyone's witness. Don't ask us why we are doing this, we are doing it for the freedom and future of our human race! "

Another Nether Dragon Emperor said, "You're right, this is a historic moment. Everyone, watch carefully. The other ten Dragon Emperor s, if you can, please lend us a helping hand! "

They spoke passionately, but everyone was confused by what they heard.

They want to destroy the Spirit Sea?

The Spirit Sea was so big, and it naturally produced such a terrifying storm, the divine blood surged, who could destroy it?

However, very quickly, that sort of grand occasion appeared.

That was, the five Dragon Emperor s flew up and transformed into a gigantic and terrifying divine dragon!

If not for the fact that they had seen the real bodies of the five Dragon Emperor's Divine Dragons during their battle with the Black Demon Beast, they would definitely have been in an uproar today. That was simply too terrifying, the five giant dragons were the peak of the Dragon Fighter and they flew in the sky, bringing everyone back to the era when the Divine Dragon ruled the world!

Every single one of them was the peak of the human Dragon Fighter!

Any one of them possessed a terrifying destructive ability. Other than Spirit Sea, Black Jade Dragon Head and such places, they could destroy almost any other place in the world. The so called Heavenly Dragon Star and others were actually things that could be destroyed with a single move.

In the next moment, they let out roars that shook the heavens and the earth, charging into the Spirit Sea. Spirit Sea who was already engulfed in tempest, felt as if he was ignited the moment they rushed in, the strength and speed of the tempest also increased by ten times, as countless divine blood shot up into the sky. Everyone could only see a dense patch of blood!

RUU...!

The entire ground trembled non-stop. Divine Desolation Ancient Earth was in a state of collapse, and the other ten Dragon Emperor s were discussing urgently. Should they immediately protect the other disciples, or participate in the operation of the five of them?

This time, the fifteen Dragon Emperor s had all moved out, their momentum was even bigger than the last battle at the Everlasting Dragon City. After a short period of time, the Life Dragon City s made their moves and unleashed the All Living Gods Realm, protecting the fifty thousand or so warriors.

"Let's go in and take a look!"

Amongst the ten Dragon Emperor s, only Dragon Emperor Yongye was left outside. The others all went in.

They were all safe in the God Realm of Life and Death, but they were all staring at the Spirit Sea's rebellion, their hearts hanging high in their chests. Watching the Spirit Sea's rebellion grow more and more terrifying with each passing year, yet it did not seem to disappear at all, this was a sacred ground of the 72 - The Ancient City of God's descendants, would he really be destroyed by the five Dragon Emperor s?

Long Chen thought that it was impossible. This was something that even Long Qinglan failed to do back then.

Back then, the fifteen Dragon Emperor s had joined hands to fight Long Qinglan.

Just at this time, a strong gust of wind swept through Spirit Sea!
