

War God 2261

Chapter 2261 - Archaic Divine Conjunction

It seemed as if the entire world was collapsing, and all that could be seen was an endless storm and a sky full of God's blood. As the God's blood splattered, it formed the picture of an ancient god's battle, the stench of blood filled the entire place, the battle song was loud, and the world seemed to shatter as everything turned to dust in the midst of the battle.

In this storm, all fifteen Dragon Emperor were drowned, they were too big, they were endless, filled with scarlet god blood, and now the storm was even stronger, other than the small Twilight Zone, most of the Divine Desolation Ancient Earth area was torn apart.

Honestly speaking, even Long Chen himself was a little nervous, but what kind of outcome would the five Dragon Emperor s have if they were to attack the Spirit Sea crazily? No one knew. Now that everyone was standing in the midst of the God Realm of Life, they were all terrified in their hearts. They were worried that the actions of the five Dragon Emperor s today would cause the Dragon God Domain to become even more chaotic.

If not for the All Living Gods God Realm, the Twilight Zone would have been torn apart.

The other ten Dragon Emperor s also followed him in.

This was a storm in his heart!

Long Chen held Li Xuanji's hand, and as a result, the other party's palm also broke out in sweat. The two of them looked each other in the eye, both worried and nervous about this historic moment.

"What's going on? Fifteen Dragon Emperor s won't have any problems, right? "

"I don't know, the war of gods is the tomb of the Archaic Gods, an ancestor of the human race. Although we are the Dragon Fighter, we can't destroy this place."

"Just what exactly did those five Dragon Emperor s encounter in the depths of the Spirit Sea?"

Tens of thousands of experts were gathered together, and it became extremely chaotic. Even Long Chen, the Azure Fire Emperor, and the other few hundred thousand Emperor level Overlords were feeling very chaotic right now. They did not have the strength to stop any movements, so they could only watch obediently!

It was as if there were countless gigantic beasts hiding within them, riding on clouds while battling with the fifteen Dragon Emperor s. In front of these gigantic beasts, even the fifteen Dragon Emperor s were only the size of earthworms.

From within the sanguine storm of the Spirit Sea came waves of roars of divine dragons.

The sky tore, the earth trembled, and earthquakes occurred wave after wave. Even though there was a long distance between them, the God Realm of All Living Things was almost torn apart. Once they were torn apart, the tens of thousands of warriors present would probably suffer the disaster, and be annihilated by the Spirit Sea's storm!

"Oh my god!"

"Sky Disaster!" Will we be able to live after today? If the Dragon God Domain lost us. Wouldn't that mean that we, the human race, will be completely annihilated? "

Many people even began to cry and howl. After all, this scene was simply too terrifying.

Many years ago, when Long Qinglan wanted to destroy the God Realm, the fifteen Dragon Emperor tried to stop him with all their might and attacked together.

Today, fifteen Dragon Emperor s attacked at the same time, wanting to destroy the entire Spirit Sea.

However, it might not be difficult to destroy the gods' battlefield, but Spirit Sea was countless times more difficult. He was simply too big.

RUU...!

Just when everyone was feeling nervous, several rays of light shot out from the Spirit Sea s and rolled onto the ground of the Twilight Zone. Since the first figure had emerged from the Spirit Sea, more and more people appeared and soon, fifteen Dragon Emperor s were shaken out of their seats.

Their faces were all pale and there were faint traces of blood on the corners of their mouths and bodies. It was clear that they were at a disadvantage in this battle and had been expelled by the Spirit Sea.

Fortunately, none of the fifteen Dragon Emperor s died because of this.

What was even more surprising was that the previously crazy five Dragon Emperor s now stood up with difficulty with the support of the other Dragon Emperor s. Their eyes changed, returning to their original state, and their pupils that had disappeared also returned.

This proved that they had recovered!

This could be considered a huge gain. It must have been due to the huge impact they had suffered in the battle with Spirit Sea, which caused them to wake up.

The fifteen Dragon Emperor s looked at each other. Meanwhile, Long Chen and the others were headed towards the Dragon Emperor s.

When the fifteen Dragon Emperor s came out from the Spirit Sea, the brutal storm in the Spirit Sea started to subside and return to its original state.

"Father!" When the Bluefire Emperor saw that the Immortal Dragon Emperor had recovered, he was extremely excited. There were many people like him.

At this time, the life and death of the God Realm had already been dissolved. Several tens of thousands of Dragon City's warriors had already come forward, excitedly guarding the fifteen Dragon Emperor s in the middle.

"How do you feel now?" The Eternal Dragon Emperor couldn't help but ask.

The Immortal Dragon Emperor shook his headache and said, "I'm almost done. "It's fine now."

It seemed like he had already recalled the events that had occurred during this period of time. It was obvious that the five of them had a headache.

He originally thought that today would be the day of great calamity, but he never expected that the five Dragon Emperor s would actually be able to resolve this crisis. But what exactly happened? Everyone was curious and looked at the five Dragon Emperor s.

Now, the Spirit Sea had completely recovered.

The Immortal Dragon Emperor, Blood Tyrant Dragon Emperor and the other three of them stood in front, gave way to each other, and let the Immortal Dragon Emperor come here to shake the field. His gaze was a little heavy, suddenly sweeping across Long Chen in the crowd, and he immediately dodged to the side.

"He feels sorry for me?" In the eyes of the Immortal Dragon Emperor, Long Chen clearly noticed this.

He did not pursue the matter further.

At this time, the Immortal Dragon Emperor began to narrate what happened to them in the Spirit Sea. Previously, they had communicated with the Eternal Night Dragon Emperor a little and gained a certain understanding of what happened in the outside world while they were in a state of chaos. This time, the five of them behaved in such a strange manner that they had to explain everything clearly to everyone.

Now, all of you seem to know, the five of us precisely have the same suspicions as the two of them, which is why we came to the God Battle to investigate. It took us about a month to find the location of the God Battle, and we have searched almost the entire Spirit Sea. "

Saying this, his voice also became gloomy and cold.

Everyone looked at him eagerly. Naturally, they did not dare to blame the five Dragon Emperor s, because they knew that all of their actions earlier were not voluntary.

The Immortal Dragon Emperor continued, "Finally, because Long Chen mentioned about the War God's Corpse, we decided to sneak into the Spirit Sea to take a look and find out what happened. When we entered deeper into the Spirit Sea to resist those deadly threats, what did everyone guess we saw?"

Speaking till here, everyone stretched their necks, as though they were worried that they did not hear the words of the Immortal Dragon Emperor, and Long Chen was even more so, the secret of all of this was too crucial for him.

The Immortal Dragon Emperor did not hide anything from everyone, he said straightforwardly, "What we see is a dozen or so giant god corpses, and they are sealed at the very bottom of the Spirit Sea, unable to move. The blood of the entire Spirit Sea, is all from them, and according to our estimates, the Spirit Sea is so huge, there's definitely more than just a dozen god corpses.

Hearing this, the crowd burst into an uproar.

There was actually a god corpse?

The corpse of the seventy-two ancient deities? Could it be that the God's Battlefield, the God's Tomb, was actually real? Those gods who had achieved eternal immortality were now truly dead, and their bodies were sealed within the Spirit Sea?

Although this conflict existed between Long Chen and the White Bone Divine Palace, it was personally witnessed by the Immortal Dragon Emperor and others and should not be fake. The Martial God Corpse that Long Chen had seen earlier also clashed with everything he had encountered in the White Bone Divine Palace. He had guessed that there were other god corpses still below, but he hadn't expected that this would be the case.

For a time, the crowd was in an uproar, most of them still in a state of confusion.

The Immortal Dragon Emperor gestured for everyone to be quiet. He continued to speak in a low voice, "We wanted to learn more and see more god corpses, but unfortunately, we don't know when we were struck by the Primordial Divine Conducting Technique. This is a secret method that can only be used by the various gods that were born in the Archeozoic era. It has long been lost, but we didn't expect that there would still be such a thing like an existence in the Spirit Sea, with the Primordial Spirit Calming Technique, all of our actions and words will basically not be controlled by us. Our bodies seem to have gone crazy, and we do many baffling things, but they are the goal of the caster. is the state I saw us in before. "

That was the real reason.

As expected, they were attacked.

The fact that they were able to wake up from the Ancient Divine Conducting Technique showed that they were very lucky.

However, after hearing all these discoveries, everyone became even more confused, even the Bluefire Emperor did not understand. He hurriedly asked, "If these god corpses are really the Archaic Gods, then who set up the archaic divine art? If it was them, why did they need us to help them destroy the World of Gods? Isn't that their own mausoleum? Other than that, how can the words of the Yongye and Long Chen, who met with the Divine General in the God Battlefield, and the Divine General of the White Bone Dao Palace, be explained? "

Their discovery not only didn't solve the problem, but instead made the matter even more complicated. Everyone was even more confused. Until now, they were still unsure of the outcome of the war. The only thing they could be sure of was that the person who laid down the Archaic divine ability wanted them to destroy the war.

For a time, many people raised their doubts.

The Dragon Emperor stood out and waved his hand, interrupting the discussion, "Everyone, calm down. We would like to know the answer you all want, but in light of the current situation, with the disappearance of the gods, and the existence of the Primordial Divine Conducting Technique under the Spirit Sea, we are even more unable to enter, so we are currently unable to ascertain anything. So much so that Spirit Sea is an extremely dangerous place. Let's just go back to our respective Shencheng s first. "

What he said made sense.

Now, the clues had been broken, and the truth was even more confusing.

Therefore, they had no choice but to return. However, right at this moment, the Old Man of the Immortal Dragon Emperor suddenly said, "Everyone, wait."

Chapter 2262 - They

Spirit Sea's Storm was so terrifying, but the things that they wanted to understand had no clues at all. Everyone just wanted to leave immediately.

Now that the Immortal Dragon Emperor had spoken, everyone could only look at this stern-looking old man. However, at this time, his eyes seemed to waver a little, and at the end, he coughed twice, and said to everyone in a clear voice: "We have personally experienced the Primordial Godly Absorbing Technique, and know the details of it. Many years ago, we had worked together to force Long Qinglan to retreat, and maybe everyone did not know, but we fifteen of us knew it very well, and at that time, his performance was the same as ours. Back then, he had already entered the Spirit Sea as well. "

When he said these words, he deliberately avoided looking at Long Chen.

Honestly speaking, regarding all that Long Qinglan had done, those that were called crimes, he was always the one who disdained the most and cursed the most. Everyone knew about the obstinate and heartless name of the Immortal Dragon Emperor. No matter what happened, this fellow only cared about his face, so when Long Qinglan came out, he immediately announced to expel him from the Everlasting Dragon City.

But now, for him to stand out and speak up for Long Qinglan, it could be considered to be extremely rare, and almost impossible.

There was almost no doubt about what he said.

Long Qinglan must have been struck by the Primordial Divine Conducting Technique.

Hearing this, Long Chen felt that he had misheard. This stubborn, ill-tempered old fellow, would he really lower his head and speak up for Long Qinglan?

If it was before, this would have been impossible.

But Long Chen did hear it.

Originally, Long Chen did not have a good impression of this old fellow, and was even disgusted. If he had the chance, he would certainly take revenge, but now that he was able to speak of this matter honestly, the words that he said with his status was much more convincing than Long Chen's. It could be considered as a great help to Long Chen, which eased the disgust in Long Chen's heart slightly.

Hearing the Immortal Dragon Emperor's words, everyone fell silent.

The majority of the warriors present were all older than him, and the majority of them had personally witnessed the era where Long Qinglan had risen to power. He was just like the Long Chen of today, unstoppable and unstoppable until he surpassed everyone else, was bestowed the title of Eternal Dragon Emperor, was the commander of the human race, and was unrivalled in the world.

It was just that from the moment he removed the Magic Star Seal, his life had instantly fallen to the abyss. Everyone's trust in him had also instantly turned into distrust, and what happened later on in the Wars of Gods had only worsened. Furthermore, a long time after he left the Demon Star, Long Qinglan appeared and disappeared mysteriously as if he was a madman.

Honestly, who didn't admire Long Qinglan before this?

had she ever admired that talented and eternal Dragon Emperor?

However, the change that happened to him later made everyone wring their hands.

Until today, they had discovered that there were truly so many secrets in the God Battlefield. They discovered that Long Qinglan's act of treason from back then was actually the same as the five Dragon Emperors present. That was not his fault at all.

had always been a righteous person, there was absolutely no need for him to do that.

After hearing the words of the Immortal Dragon Emperor today, and adding Long Chen's constant hard work, they couldn't help but reflect upon it. Their thoughts on the Eternal Dragon Emperors had already changed quite a bit. This was the contribution of the Immortal Dragon Emperor.

At this time, the Immortal Dragon Emperor continued, "There were many doubts about what happened back then. When I look back now, I hope you all can think about it and treat the facts fairly. There were still many doubts that would surface one day. Furthermore, ever since Long Chen came to the Dragon God Domain, aside from being young and arrogant and having defeated many people, he had been able to persevere and maintain his tyrannical talent. As long as he treats everyone sincerely, it might not be impossible for him to inherit Qinglan's legacy in the future.

This could be considered compensation to Long Chen from the Immortal Dragon Emperor.

Everyone now knew that he and the Bluefire Emperor did not want to go up or down. If he was given a little more time, wouldn't he be able to surpass the Dragon Emperor and reach Long Qinglan's level back then?

Moreover, all fifteen Dragon Emperor highly valued him.

For a moment, everyone's eyes were filled with envy.

"Alright, all of you, get ready. We'll leave immediately." The Dragon Emperor revealed a knowing smile.

He remembered that when Long Chen had just arrived in the Dragon God Domain a year ago, everyone was his enemy but today, using his strength and personality, he had conquered almost everyone. At least within the Five Dragon Cities, he could already be considered a convincing figure, and had even become a core member.

This youth was a success.

All the Dragon City warriors returned to their own teams. At this time, the Eternal Night Dragon Emperor told the news about the Dual Demons that Yang You had brought. After the five Dragon Emperor s discussed for a while, the Blood Evil Dragon Emperor suddenly waved at Long Chen, and Long Chen walked over.

"Long Chen, there's something that I need you to follow me back to Slaughter Dragon City for first, how about it?"

Dragon Emperor asked cordially.

This matter should be quite important, so Long Chen nodded his head. Beside him was the Eternal Dragon Emperor. However, at this time the old man purposely looked in another direction and didn't pay attention to Long Chen. Seeing this scene, Dragon Emperor Yongye couldn't help but smile. He was someone who was familiar with immortality, and now that he stood up for Long Chen and Long Qinglan, it proved that he understood.

Or perhaps, even he wanted to know, why did Long Qinglan remove the Demon Star's seal back then?

Was there some other secret behind it, just like what had happened in the World of Gods? If it was, then everyone in the world had truly misunderstood Long Qinglan, and had truly let down this Eternal Dragon Emperor!

That was Long Chen's final goal, and it was not enough yet!

Afterwards, the Five Dragon Cities, under the lead of their respective Dragon Emperors, headed towards their respective Dragon City. It had been a long time since Long Chen had returned to Slaughter Dragon City. Li Xuanji's Dark City was right beside the Dragon Slaying City.

Tens of thousands of warriors headed towards the north. Along the way, countless of warriors looked at them with admiration and adoration. Any one of them could command an area the size of a War God's Ancient City. And in every region, there were over a hundred million people!

Unknowingly, Long Chen already stood at the peak of the world.

He was also the only person who had the qualifications to be by the side of the three Dragon Emperors. The others could only look at them in envy as they conversed, but in reality, Long Chen was telling them about his encounters and guesses in the White Bone Divine Palace.

In front of them were the three Dragon Emperors. Behind them were the Emperor Tianmu, the Emperor of the Moon and the Thousand Snow Hands, the Sword River Emperor, and so on. Behind them were the three Dragon Emperors, and behind them were the Heavenly Mage Emperor, the Wind Moon Emperor, the Thousand Snow Emperor, and the Sword River Emperor.

This time, the Blood Tyrant Dragon Emperor had gone back to Slaughter Dragon City to summon and even the Emperor Tian Mu who was guarding the Slaughter Dragon Tomb had followed him. He walked silently at the end of the line, looking at the front with a grim expression.

Beside him, the Thousand Snow Emperor laughed softly. "He's just as dazzling as the Long Qinglan back then, making everyone's eyes focus on him, isn't he?"

Tianmu Huang sneered but did not say anything else.

"Forget your hatred." Thousand Snow Emperor said while looking at him.

Tianmu Huang said warily: "Don't speak nonsense."

"What I said was the truth. A year ago, he was at the same level as Jiang Ming. A few days ago, he was already at a stalemate with the Azure Fire Emperor." This kind of monster is something that would rarely appear even after tens of millions of years. If we were to go against him, it's impossible for us to have a good ending. "

Thousand Snow Emperor said seriously.

"Enough. "I understand." Emperor Tian Mu nodded.

Seeing that he was still sensible, the Thousand Snow Emperor felt relieved.

Just at this time, Tianmu Emperor turned his head to look.

"You guys leave first. I'll be by myself for a moment and then catch up." With a single word, Tianmu Huang turned around and left, quickly disappearing from this world.

Now that Long Chen had risen to prominence, he had completely lost the opportunity to take revenge. The depression in his heart was also very normal, and to his side, the Wind Moon Emperor, Sword River Emperor and the others glanced at his leaving figure without saying a word.

"I hope Elder Meng can understand this time." The Sword and River Emperor yawned, holding the sword in his hand and said.

What they did not know was that this time, Tianmu Emperor had turned back because someone had summoned him, and due to his vigilance, he had walked for a long time, until all the troops from the Dragon Slayer City had left, and he had arrived at a small town. There was a teahouse in the little town, and the Tianmu Emperor was sitting at the window, no one dared to approach him.

After a short while, a handsome middle-aged man in black sat down in front of him.

"Have some tea." Tianmu Huang pushed the other teacup in front of him towards the other party.

"Yes." The man's gaze paused for a moment in the eyes of Tianmu Emperor, then he suddenly laughed: "You seem to know that I would come find you."

Tianmu Huang pointed at his stomach and said, "They are the ones who told me that you are here, Chen Ting."

The person who sat in front of him was none other than the Black Hades Emperor, Chen Ting.

"To be able to come and go as you please under the pursuit of fifteen Dragon Emperor s, I truly admire you." Tianmu Emperor laughed sinisterly.

The Black Demon Emperor looked at his belly and said, "So you're saying, the rumours are that you have all of them missing?"

"Yes, your kind!" Tianmu Emperor said.

Black Hell King laughed and said: "As expected, it's perfect. Then I have a plan. When you go back and make your preparations, I will find a chance to attack Dragon City in a few days and lure out the three Dragon Emperor s. With 'them', you will be able to rule over the Dragon City and no one will be able to stop you if you kill anyone. "

"It's that simple? What kind of meeting. "Wasting time!" Emperor Tianmu stood up, and in the blink of an eye, he disappeared from the sight of the Black Hell King, leaving him with a silly smile as he looked out the window.

Chapter 2263 - Origin palace

Along the way, Long Chen also didn't ask the three Dragon Emperor s what they wanted to ask him.

He understood that once he arrived at the Dragon City, they would tell him everything. In addition, he hadn't returned to Dragon City for a long time. It was unknown how much those young Dragons of the War Dragon Clan missed him. During the time that Long Chen was away from home, news of him encountering danger had come several times;

After the strong warriors returned to the Slaughter Dragon City, they began to return to their positions.

Long Chen floated over the vast sea of blood, and entered the Dragon Slayer City. Following him, the three Dragon Emperor s arrived at the center hall that he frequently visited before.

It was precisely because of the recent events that happened in the Dragon God Domain that the three Dragon Emperor s, who rarely appeared in public in the past few decades, had recently appeared frequently, allowing many warriors to personally witness their true appearances.

Very quickly, Long Chen was standing at the place he had previously stood. In front of him, were the three emperors, who used to be covered in a blood mist, but were now sitting on top of it. They were the famous three Dragon Emperor s of Dragon Slayer City, but were still amiable in front of Long Chen.

It was obvious that the three Dragon Emperor s were about to tell him why they had brought him here.

Right now, the Dragon Emperor sat in the middle of the group. He stared at Long Chen and said: "This time, the first thing I want you to do is to confirm something. Yang You said that there are two 'devils' from the devil star heading towards the Dragon God Domain, intending to snatch the five dragon pearls and break the seal on their devil star. Right? "

"That should be right." Long Chen nodded as he replied.

Of course, Yang You wouldn't joke about such a big event. The arrival of the two devils made the already anxious Dragon Emperor even more agitated. Fortunately, the five Dragon Emperor s managed to recover from the Primordial Divine Conducting Technique at such a critical time.

Right now, the ones they had to deal with were the Black Emperor and these two Fiends.

The Dragon Emperor was sure about this matter, so he quickly went straight to the point: "We will protect the five Dragon Balls. None of the five Dragon Balls are missing, so as long as they don't all fall into their hands, they won't be able to do anything about it. Previously, when you became an Inherited Dragon, you took the Slaughter Dragon Pearl from the Inheritance Dragon Stairway and handed it over to me, right? "

Long Chen was a little stunned, was it not so?

Or was there an accident?

He nodded.

Just at this time, the Dragon Emperor took out a fist-sized bead. It was completely transparent, with nothing inside, it was extremely ordinary.

Dragon Emperor said: "This is the Slaughter Dragon Pearl that you gave me. Did you discover anything strange?"

Long Chen took a closer look and realized that it was indeed different. When he first saw the Slaughter Dragon Pearl, there was a blood-colored divine dragon swimming inside, but why did it disappear now?

Moreover, the Slaughter Dragon Pearl from that time was obviously a peerless treasure, and what was in the hands of the Blood Dragon Emperor at that time, was just a piece of trash.

Seeing Long Chen was a little surprised, the Dragon Emperor said: "You don't have to be nervous, the Slaughter Dragon Pearl has indeed changed. Recall yourself, from the time you took it to when you passed the Slaughter Dragon Pearl on to the Blood Blaze, have there been any special changes?"

By now, the Slaughter Dragon Pearl should have lost its effect.

At that time, something had entered's body from the Slaughter Dragon Pearl, and up until now, Long Chen had not paid attention to this small matter. After all, it had not affected him much. It was as if they were hallucinating at that time, and now, it looked like it was not, and the three Dragon Emperor s had already discovered it.

Right now, Long Chen could be considered to be their friend.

Towards the Slaughter Dragon Pearl, Long Chen did not have any lustful desire, but now that the other party had become suspicious, Long Chen said directly: "At that time, I felt as if something had entered my body, I thought it was my imagination, and even now, it seems like I did not sense anything at all."

The three of them actually felt a sense of relief when they heard this.

Dragon Emperor laughed: "As expected, it's you? That's good. We thought it had run away. Right now, it's equivalent to the Slaughter Dragon Pearl becoming one with you. Among them, the Ancestral Dragon Source Energy will be able to change a lot for you, but it's not fully displayed yet, so this is a good thing."
"

Seeing that they seemed to be very happy, Long Chen asked suspiciously: "You three, this is something from the Slaughter Dragon City, don't tell me that I don't need to give you the Slaughter Dragon Pearl back? What if the people from the demon planet take it away? "

The three Dragon Emperor s looked at each other and laughed.

Among them, the Dragon Emperor Emperor said: "Of course there's no need to return it, it belongs to you. It is your good fortune. Besides, we don't have the luck to enjoy this Slaughter Dragon Pearl in our hands. Other than that, the people from the demon planet must think that the five Dragon Pearls are in the hands of the fifteen of us Dragon Emperor s, if the people from the demon planet are very powerful, they can snatch the other four Dragon Pearls, and even we can handle them, but they definitely won't be able to get the Slaughter Dragon Pearls, because they definitely wouldn't have thought that the Slaughter Dragon Pearls were on you, and if we didn't know that you were an inherited dragon, and that we had dealings with the Slaughter Dragon Pearls before us, we wouldn't have thought that the Slaughter Dragon Pearls were on you. "

The Ten Thousand Killing Dragon Emperor also laughed: "We are being extra cautious, although the strength of the people from the demon star isn't that scary, and you can probably handle them yourself, but it's still better to be careful, otherwise, if they take away the five dragon pearls, then we would really be terrifying. Once the devil star is unsealed, without a powerhouse like Qing Lan suppressing them, the entire Immortal Divine Region would probably be finished."

In that case, there seemed to be some truth to it.

Furthermore, the Slaughter Dragon Pearl had entered his body on its own, Long Chen did not know how to take it out, so he could just leave it there. At that time, it might really become a form of defense against the devil star, since no one would have thought that the Slaughter Dragon Pearl, which was such an important object, would actually be in Long Chen's body, and even be fused into his body. If he didn't know much about the Five Dragon Orbs, he probably wouldn't even know about the magic of the demon star.

"There's a bit of chaos right now. You should raise your strength properly in the Slaughter Dragon City. We fifteen old fellows should gather together and discuss how to deal with the Demon Emperor and the Demon Star's Twin Demons." Emperor Blood Dragon Emperor who looked slightly old laughed and said. In reality, he was the senior brother of the Dragon Emperor, but because the Dragon Emperor was stronger, she became the first Dragon Emperor.

Just as Long Chen was about to leave, the Blood Tyrant Dragon Emperor suddenly said, "Long Chen, with your current realm, you should be close to the tribulation of reincarnation of the Five Elements."

Long Chen nodded. "Yes."

The Dragon Emperor exclaimed, "Being able to have such a fighting strength at such a level is already several times stronger than your father. However, because of this, I think we still have some areas that can help you, our Slaughter Dragon Pearl has a Source Palace, and inside the Source Palace, there is a 'core' formed from the five types of 'Metal, Wood, Water, Fire and Earth' source energy. The Source Palace is the key to harmonizing the five types of source energy in Slaughter Dragon City, so forming these five types of Source Energy can be considered a small miracle.

Of course, Long Chen would not reject anything that was useful in cultivation.

Right now, he needed to integrate with Li Xuanji's yin devil energy in order to be able to fight against the Bluefire Emperor, Bloody Blaze and other strong beings. If he could step into the Five Elements tribulation of reincarnation, coupled with Li Xuanji's help, he might be able to defeat them, just like how he had defeated City Lord Di Jun, and even be able to approach the nine palace's tribulation of reincarnation.

At that time, perhaps only fifteen Dragon Emperor would be able to suppress him.

The three Dragon Emperor s also felt that his progress was extremely inconceivable. Of course, they were even more willing to make Long Chen even more heaven defying!

After obtaining Long Chen's consent, the Bloody Dragon Emperor smiled and said: "Follow me."

He brought Long Chen out from the palace in the center, and advanced in the vast Dragon City. With their speed, they covered thousands of miles in an instant, and quickly reached the so called Source Palace.

This place was also one of the core of Dragon Slaying City. From a distance, Long Chen could see the five types of Source Energy condensing into substance, gathering here, it was just like the Four Pole Energy. However, the Four Pole Energy was mixed, and the Source Energy of the Five Elements was the purest form of energy, and it was also the foundation to construct this world.

Within the vortex of the five powers, the Source Palace was an extremely beautiful palace.

Usually, there would be many Dragon Fighter that would come to the Source Palace to cultivate.

When the Dragon Emperor and Long Chen landed in front of the big gate, many people saw them and immediately knelt down.

The Dragon Emperor said, "The pill formed by the origin energy is inside this palace. "You have to stand in the middle of the Five Great Pills, and only then will it be effective. Although the pressure there is great, with your ability, there shouldn't be any problem."

"Thank you, Dragon Emperor!"

's eyes started to shine. His cultivation had been extremely smooth recently, and after continuously breaking through, his fighting strength was about to close in on the fifteen Dragon Emperor s.

Of course, it was also because of Li Xuanji's help.

The Dragon Emperor pursed his lips and patted his shoulder: "We have our own selfish motives as well. I'm afraid that in the future, there will be difficulties that we cannot resist. We need a new Eternal Dragon Emperor to lead us. Of course, he can also kill Dragon Emperor s, as long as their strengths are similar. "

All fifteen of them now had deep hopes for Long Chen.

Long Chen did not say anything, but his heart was already firm. He definitely could not disappoint them.

After saying a few more words, he headed towards the Source Palace. Right at this time, a Middle-aged Fighter walked out from the Source Palace.

Chapter 2264 - Three-headed Hell Dragon

There were simply too many people on the side of the Divine Desolation Ancient Earth's war of gods. Long Chen could only see the color of blood but not the Tianmu Emperor.

At that time, he claimed that it would take at least ten years for Long Chen to catch up to him. But in the blink of an eye, that time where Long Chen went up against the Azure Fire Emperor, that time, it completely displayed the strength that he could already fight a late stage Half God Body warrior!

This was like a slap on the face of Tianmu Emperor.

Also, because he had killed Meng Qingqiu, it seemed like he was seeking revenge at any time and place. But it was obvious that he couldn't do it now, because if he was like the Azure Fire Emperor, it would be impossible to kill Long Chen.

When Tianmu Emperor just came out of the Source Palace, his gaze was not on Long Chen but instead, it was a sign of shock and curiosity at the Blood Dragon Emperor appearing in such a place. He immediately said, "Greetings, Blood Tyrant Dragon Emperor."

He naturally knew of the conflict between Long Chen and Tianmu Emperor, but now that Long Chen had already flown away, he believed that the Tianmu Emperor could clearly balance this hatred, so there was no need for him to say anything.

Just then, Tianmu Emperor suddenly spoke: "Can I interrupt?"

Hearing this, Long Chen and the Blood Tyrant Dragon Emperor turned around, only to see Tianmu Emperor looking at the two of them with an agitated and furious expression.

"What do you want to do?" Dragon Emperor asked.

Originally, everyone's attention was on the First Dragon Emperor, but at this time, even more people looked over.

He stared intently at Long Chen and said: "Dragon Emperor, rumors say that Long Chen is already able to fight with the Bluefire Emperor, and is not at a disadvantage at all. In a short year's time, his progress has gone against the heavens, and he can be said to be the strongest person in history, but after his battle with the Bluefire Emperor, he does not see many people. Today is a rare opportunity, can I exchange some pointers with Long Chen, and let us see what kind of terrifying realm this young genius has reached?"

It was actually a challenge.

With his hatred for Long Chen, he should have wanted to kill Long Chen. In this kind of sparring session that was under his supervision, he had no way of killing Long Chen, and he couldn't even get seriously injured, as it would have no effect on the Emperor of the sky.

The only effect would probably be to vent his anger.

For the sake of understanding qi, they were going to have such a heavyweight duel? Dragon Emperor felt that this was a little too ridiculous.

He waved his hand and said, "Next time, there's no point. Also, we need his consent."

When everyone heard Tianmu Emperor's words, they immediately boiled with excitement, and even more people stopped their cultivation and came to the surroundings, full of anticipation for Dragon Emperor's reply. They did not expect that this battle would not be successful, so everyone was disappointed, and some people helped Emperor Tianmu speak up.

"It's just a spar anyway. It's harmless, so I won't be injured."

"Yeah, their battle is really too exciting. Who exactly is stronger?" Tianmu Emperor is a top Ranker with over ten thousand years of fame, his achievements are brilliant, while Long Chen is fast growing and is unrivalled in the world. I truly want to personally see just what degree he has reached! "

With everyone's help, the Tianmu Emperor was like a fish in water. He sincerely said: "Please fulfill this wish of mine. With his abilities, I think that if he misses this opportunity, I won't have another chance in my life. Of course, I know my limits and won't hurt him. "

As a father, he was unable to take revenge for his son, but now he had lost the chance to do so. He could only beg for an opportunity to exchange pointers in front of the Berserk Blood Dragon Emperor, as the commander of the Dragon Slayer City's Dragon Tomb Army. In truth, he did not need such a pitiful request!

All of this was because Long Chen had already rushed up to the clouds. His status was noble and his potential was great, making it difficult for him to come into contact with him!

No matter what, he is an extremely important subordinate, so of course the Dragon Emperor wouldn't let him lose too much face in such a public place like this. Therefore, he passed the decision to Long Chen and asked: "Of course it's just a casual exchange of pointers, it's up to you whether or not you want to continue."

Agree? Or not to agree?

In actuality, Long Chen was suspecting that fellow's deeper motive. What exactly did he seek him out for today, to invite me to a fight? In order to complete his only chance to defeat his before his next breakthrough? If it was for revenge, defeating him alone would have no effect!

Thus, he was truly puzzled ...

But at this time, a large number of people had already surrounded him, and the majority of them were people who admired Long Chen and Tianmu Emperor, so they were naturally looking forward to their battle. In an instant, everyone started shouting, interfering with Long Chen's decision, as they wanted to see an extremely intense, high-level battle!

There were even more people who heard the summons and were rushing over to watch the commotion!

Long Chen originally did not want to care about it, but now, he felt that he was being forced into a corner.

Although Meng Qingqiu had killed Su Muchen, he had to give him an explanation. He was his son after all, and thus, he had the right to seek revenge on him. Today, he was only looking for an opportunity to exchange pointers under these circumstances, so he should agree to his request.

In the end, he still possessed a kind heart.

The last battle against the Bluefire Emperor had been evenly matched.

With everyone looking forward to it, Long Chen did not have much hesitation and directly said: "Since you all are sincere in inviting me, then I can only accept."

When they heard this news, the surrounding people immediately burst into an uproar. Soon, they would have an extreme battle to watch! They spread this news to even more people, and the Dragon City that had been silent for a while, started to boil again. Roughly a year ago, Long Chen came to Dragon Slaying

City. At that time, his opponent was Jiang Ming, and he had caused a similar commotion, but it was completely different from this time!

The Tianmu Emperor, that was the level of being on fire with blood!

He is one of the top Rankers in the Slaughter Dragon City, one of the strongest Rankers under the Dragon Emperor!

Hearing Long Chen's resolute reply, Tianmu Emperor's eyes lit up. Before giving Long Chen a chance to go back on his words, he directly said: "Since that's the case, then let's head out to the sea of blood!"

After which, he turned and left. The spectators were also looking on in awe as they walked towards Spirit Sea. Such a powerful fighter was filled with passion and suspense, who wouldn't want to see it?

Dragon Emperor asked: "You really agreed to it? Aren't you afraid of trouble? "

Long Chen said: Firstly, I want to find out what he wants to do, and secondly, I also want to end things here. After all, the situation is chaotic, and there is an enemy in the Dragon Slayer City, and he will not do anything bad.

Long Chen's way of thinking made the Blood Red Dragon Emperor praise him more.

He said, "Since that's the case, then let's go. With me secretly watching you, it's impossible for him to kill you."

Long Chen thanked the Dragon Emperor and then headed outside to the sea of blood. The Dragon Emperor was also in the crowd, but no one could see him.

Bloody Blaze, Thousand Snow Emperor, and the young Dragons of the War Dragon Clan also heard the news and sneaked out from the young Dragon Palace into the sea of blood to watch the battle between Long Chen, whom they admired the most, and the legendary Emperor Tianmu.

Along the way, they arrived at the vast sea of blood. Only then did they realize that there was a sea of people on this side, and at least a hundred thousand of them had already gathered.

The Dragon Fighters of the Slaughter Dragon City were very aggressive. In the face of such a peak battle, even if they had matters of life or death, they would still come here, especially when the main characters of the story today were all absolute heavyweights. It was also the battle that they were looking forward to the most!

In the blink of an eye, under the encirclement of over a hundred thousand warriors, Long Chen and the Emperor Tianmu had arrived at the blood ocean.

This battle, countless of people started to shout, they worshipped Long Chen, and also revered Tianmu Emperor, instantly their shouts rose and fell one after another!

The two of them were a kilometer apart.

Now that Tianmu Huang had changed, he no longer looked pitiful like before, but was instead filled with gloom and killing intent, his entire being seemed to be releasing the scent of death, his withered yellow hair and wrinkled skin looked especially strange, the sense of crisis in his heart was getting stronger and stronger, it seemed like he couldn't underestimate his opponent at all!

Perhaps, he might even be stronger than the Bluefire Emperor!

Tianmu Emperor, was a Ultimate Dragon — — Three Hell Dragons. The Good Fortune Yin-Yang Dragons had two dragon heads, while the three Hell Dragons had three. They were the Eight Heated Hell Dragon Head on the left, the Eight Freezing Hell Dragon Head on the right, and the Seamless Hell Dragon Head in the center. The three draconic heads had some terrifying power to them, especially the one in the center, the Seamless Hell Draconic Head. It was the ultimate killing blow of the three Hell Dragons.

The three Hell Dragon came from the abyss inside the The Age of Dragons, and were similarly the masters of death. Compared to the Eternal Blood Prison Dragon, they were all cowardly, and the divine dragons that it targeted, without exception, all became corpses. Back then, Tianmu Emperor had obtained the inherited blood of the three-headed Hell Dragon, which could be considered a great stroke of luck.

However, in the beginning of the battle, Emperor Tian Mu did not transform into a dragon. When almost all of the observers arrived, their shouts turned into a huge wave, causing the sea of blood to churn, smashing onto Long Chen and the Emperor Tian Mu.

At this time, Tianmu Emperor could no longer hold himself back. He pointed at Long Chen with his trembling hands, and said with a voice as hoarse as a corpse: "It's time to make a move."

It was actually a very old and worn out iron chain, about two meters long. It looked rusty and looked as if it could break at any time, and wasn't the least bit eye-catching at all.

However, those familiar with the Tianmu Emperor knew that this was his most powerful Dao Artifact. It had a total of 800 dao patterns — Bridge of Hell.

Chapter 2265 - Bridge of Hell

When the Dao tools reached the 800 dao patterns, it seemed that they had reached the peak of all archaic instrument. Every single one of them was a world-famous supreme Dao item, such as Tianmu Emperor's Bridge of Hell, which was one of the supreme Dao items.

Of course, the appearance of the Hell's Bridge wasn't only limited to that. As one of the archaic super Dao Artifacts, the energy that the 'Hell's Bridge' possessed surpassed Long Chen's imagination, and only warriors with peak body of a half-god could control such a Dao Artifact.

Long Chen was only a Dao Artifact that had mastered two to seven hundred Dao patterns before.

Of course, the current God-Slaying Sword was close to seven hundred runes. In the future, the potential of the God-Slaying Sword was greater than that of the Dragon Confining Bow.

When the Bridge of Hell appeared, everyone became even more excited.

Right at this moment, the Tianmu Emperor swung his hand, and the withered yellow iron chain in his hand underwent a huge change. An intense dark yellow light erupted from it, which transformed into a dark yellow trillions of electric snakes that moved above the iron chain, and in the process, the number of sections of the iron chain continued to increase until there were a total of 800 sections!

Each metal ring had a pattern on it. Eight hundred lines, that was eight hundred lines.

When the Underworld Bridge displayed its full might, Long Chen felt that it was a divine tool that could split heaven and earth apart, and it was also the strongest dao tool that Long Chen had ever seen.

The Bridge of Hell had extremely negative energy such as ' death ', ' decay ', and so on. It was like a demon from hell, and each of the iron hoops looked like a skull, swallowing and releasing electric serpents. When all of the electric serpents converged together, that was the spirit of the ' Bridge of Hell '.

No matter if it was a person or a Dao artifact, both revealed a frightening killing intent, but it was still evident that he was being suppressed. After all, with three Dragon Emperor s present, no matter how heaven-defying he was, it was likely that he would not be able to kill Long Chen.

Long Chen's God-Slaying Sword, which already had 680 marks on it, released a tyrannical power. In terms of attributes, the God-Slaying Sword was similar to the Bridge of Hell, but it was sharper, not sinister like the Bridge of Hell.

The nature of the God-Slaying Sword was just like its name: War God, kill the god of war! He looked down upon others with disdain, sharpness, and fearlessness, just like the current Long Chen!

The Dao Artifact being was like a human, to Long Chen, and to Tianmu Emperor!

If it wasn't for the fact that the Dao patterns were a bit inferior, the God-Slaying Sword would still be stronger!

Now that Long Chen had integrated with Li Xuanji's power, and returned from the Slaughter Dragon City, Li Xuanji started to cultivate in his God Kingdom's new world. Now, she had easily fused with's body and became his demon spirit.

And then, in that instant, Tianmu Emperor controlled the Hell's Bridge to attack!

At that moment, the decisive battle began. Everyone's blood boiled as they cheered!

It was for the power of the Emperor of the Heavens, and also for Long Chen's chance to defy the heavens!

The Bridge of Hell carried the immense power of death and tore through countless spaces. It was like a needle drawing a thread as it pierced through the surrounding space, spiraling like a divine dragon. Countless withered yellow electric snakes danced in the air, bringing about fatal strength!

Tianmu Emperor was not in a hurry to kill, he was testing the waters first!

The bridge of Hell was like a whip as it lashed towards Long Chen. For a moment, it was as if hell had descended below, the ground was filled with a sea of blood, the sky was covered in grey, and there were countless vengeful spirits that were tied to the bridge of hell.

Without saying a word, Long Chen unleashed his Heaven Slaying Sword and rushed forward!

It was the same unstoppable Sword Art!

For any Dao weapon, no matter how fierce, the God-Slaying Sword was their nemesis. As long as they did not destroy the God-Slaying Sword, the God-Slaying Sword could devour them!

As soon as the Killing Sword Technique was released, millions of sword qi instantly swept across, and the entire blood ocean was covered by this wave of God Slaying Sword Qi which was even more tyrannical than the previous wave. In a short period of time, Long Chen had waved out countless of swords, clashing continuously with the Bridge of Hell, and released an incomparably ear-piercing screech!

Those were the screams of those vengeful souls!

Tianmu Huang was extremely calm, he had long seen Long Chen's Slaying Sword Technique, it was just that he found it a little strange, that God Slaying Sword did not have such power before, why does it look like the same sword, but was actually so much stronger than before!

Up until now, no one had studied Long Chen's God Slaying Sword. He had left batch after batch of his opponents behind, and the crowd's attention towards him far exceeded that of the God Slaying Sword. This caused Long Chen to be so tyrannical, and only then did people suspect the secret of his God Slaying Sword!

However, under this kind of intense battle, Tianmu Emperor was only suspicious for a little while, and did not continue to analyze it in detail. Right now, his and Long Chen's fight had reached its climax! It was within everyone's expectations, however, Long Chen had actually relied on the God Slaying Sword and the Killing Sword Technique to block his Hell's Bridge!

RUU...!

Sometimes, it would turn into a long whip, sometimes it would turn into a steel spear, sometimes it would look like a sharp thorn, sometimes it would even be like a winding rope, in any case, it had endless changes to it, and Long Chen was purely relying on his sword to clash with the opponent head on, every time they clashed, it would produce a huge shock, causing the blood sea to erupt, forming a huge blood storm that swept towards its surroundings!

This exchange dazzled everyone!

The only thing he was certain of was that Long Chen's strength had already reached a point where he could fight against an expert like the Heavenly Mystery Emperor.

Furthermore, with the enhancement of the Slaughter Sword Art's wave after wave of power, it seemed like the Bridge of Hell had besieged Long Chen at the beginning, but now, the Bridge of Hell had been pushed back by the God Slaying Sword! It was soon time for Long Chen to reverse the suppression!

He wielded the God-Slaying Sword in his hands, and he repeatedly struck out with it. Right now, he had nearly four thousand swords!

If he went higher, he would once again break through his own limits and reach the level of 5000 sword strikes! At the late stage, the Killing Sword Technique was already unimaginably ferocious. Every single sword qi was over a thousand meters long, and they had the power and power to destroy mountains and rivers!

"Eye of Hell!"

This was the ability of the God Slaying Sword, it was extremely similar to the Bridge of Hell, but now, Long Chen was using it to fight against the Heavenly Curtain Emperor, in the gap between the Slaying Sword Technique and the Eye of Hell. The kind of berserking and intimidating power had successfully caused the Heavenly Curtain Emperor to pause in his movements, and Long Chen was even more so using that moment of eternal power to freeze the opponent's time!

"Five thousand sword strikes!"

The Killing Sword Technique had a total of more than ten thousand swords, Long Chen had already completed half of them.

Of course, the truth was that it wasn't just half the time. Because of the difficulty of the early stage of cultivation, he was able to display over a thousand swords at any given time, displaying a terrifying strength. He believed that he would be able to reach the limit of the Sword Slaughter Art before long!

The five thousand swords, under the assistance of the Eye of Hell, successfully unleashed their terrifying might. The sword light that was more than ten thousand meters in length shot out, shining the sky and earth, and meeting once again, ruthlessly smashed apart the bridges that were attacking Long Chen!

This was the first time Long Chen escaped the control of the Bridge of Hell!

The Hell's Bridge was flung outwards, and it almost crashed into the body of the Emperor Tianmu. It fell into his hands somewhat dispiritedly, but the eight hundred dao tools were now pushed back by Long Chen, which was a little disgraceful. But this showed even more clearly that Long Chen was not someone that could be easily dealt with if he was young!

That extremely strong and disdainful five thousand swords, was just like Long Chen's personality. He would not stop until he was dead, and his strong fighting will was not something that ordinary people could learn.

So when the sword was unleashed, everyone could not help but cheer for Long Chen!

Emperor Tianmu's face was as yellow as a corpse. His eyes were sunken in, and he looked extremely lifeless. However, the hands that held onto the Bridge of Hell were still as terrifying as ever.

"The warm-up is over. I'll give you a little more questions."

Tianmu Emperor suddenly laughed sinisterly.

At this moment, he suddenly threw the iron chain that was the Bridge of Hell into the air. In the air, the bridge of hell had undergone a huge change, and in the blink of an eye, it had actually weaved into a huge net, with countless withered yellow electric snakes moving above it. They flicked their tongues, and a picture of a green face with fangs appeared on the huge net, with a huge mouth!

"Eternal Hell!"

In the blink of an eye, it had already spread out, dropping from the sky as it swept through the heaven and earth, as though it was enveloping the entire blood ocean. In that instant, it had actually surrounded Long Chen, forming an eternal hell!

Then, the Eternal Hell began to shrink.

"Die!" "Die!"

The skulls on the metal hoops of the Hell's Bridge screamed at Long Chen. The wilted yellow electric snake looked at Long Chen with its sinister eyes, and was about to pounce on him at any moment!

The attack of the Eternal Hell was simply too fast, and its speed was extremely fast as well. In the blink of an eye, it had already approached Long Chen, pressing him down to the point that he was about to become a meat patty!

They were even torn into countless pieces!

By that time, even if there was a fire of life it would probably be hard to survive.

In that moment, everyone started to shout and worry for Long Chen. Many people who were familiar with Emperor of Heaven's Curtain knew that with his attacks using the Bridge of Hell, he had already killed a lot of experts and some of them were even on par with him.

In this situation, Long Chen's reaction speed and movements were extremely fast!

Even faster than the Bridge of Hell, he quickly changed the Dao item in his hand into a Dragon Confining Arrow. When the Eternal Hell descended, he combined the Dragon Confinement Bow into a full moon, instilled the greatest amount of power, and quickly shot it out!

Although the hole was not too big, the Dragon Binding Arrow could tear through and rush out. The target of the Dragon Imprisoning Arrow was the Heavenly Emperor, and with the speed of the Dragon Imprisoning Arrow, even if the Heavenly Emperor wanted to resist, it would be difficult under such circumstances!

Therefore, he had no choice but to divert his attention to defend against the Dragon Confining Arrow!

And Long Chen took this opportunity, to take advantage of the other party's distraction, to prepare to destroy the life and death net, and to tear this Underworld Bridge apart!

Chapter 2266 - Dragons Shattered

Right now, there were more and more warriors watching the battle between Long Chen and Tianmu Emperor. From the start till now, no one had been able to gain the upper hand, which made this battle a little more interesting.

Just as Tianmu Emperor used the Hell Bridge to construct the Eternal Hell and was about to mince Long Chen into pieces, Long Chen shot out a Dragon Binding Arrow, passing through the small hole in the Hell Bridge. The seven hundred Dao-seals were filled with killing intent, instantly arriving in front of the Tianmu Emperor!

It was also a Dao item and was filled with Dao patterns. However, the moment it appeared, it was immediately torn into pieces by Long Chen's Dragon Confining Arrow, and the Heavenly Curtain Emperor was also sent flying!

Of course, under this situation, his control over the Bridge of Hell, would definitely become weaker, while Long Chen's other hand was holding onto the Heaven Smiting Sword, he fought yet again. Countless sword lights struck onto the web formed by the iron chain, quickly opening a gap, rushing out from within, causing Tianmu Huang's attack to miss!

Now, the two were once again in a confrontation.

They naturally knew of the tyrannical power of the Emperor of Heaven's Hall, but after the battles from before, they deeply understood that Long Chen truly had the same ability, and adding the fact that he was still young, it was extremely terrifying. In their hearts, Long Chen had already risen to a position even higher than the Emperor of Heaven's Hall.

When Jiang Ming and the others saw this, they were even more astonished. A year ago, his opponent was himself, but today, his opponent had actually changed to a Master that they would probably never be able to surpass in their entire lives!

An intense shock!

Back then, he had even told Long Chen that the body of a half god was not easy to deal with, but Long Chen's actual actions proved that no matter how strong he was, there would be a day when he could catch up to Long Chen. And now, only a few months had passed!

This made Tianmu Emperor's heart tremble.

In reality, today's challenge was his own decision and was not part of his plan.

Why did he want to fight?

Because he didn't believe it, he saw that Long Chen had already become intimate with the three Dragon Emperor s, saw that they were getting further and further apart, and that there would be a day when they would be surpassed. He felt extremely depressed in his heart, and before the true plan was carried out, he couldn't help but use this last chance to teach him a lesson!

Unexpectedly, this hope of his failed. Indeed, it was terrifyingly tough!

There had never been a martial artist so young who could complete this step!

If it were not for the public, he would have killed them all. Now that he had kept the Hell's Bridge, he placed it back into his own hands, and the deathly aura that was filled with the withering yellow lightning danced in his hands. At this time, all the warriors were cheering for Long Chen for being able to block the Emperor's Eternal Hell!

Although there were no real dragons fighting, but with this level of sparring, it could more or less be seen that the battle strength of the two of them were comparable to each other, and it was also very interesting. If they became dragons, it would basically involve a life and death battle, and that was the last resort of the Dragon Fighter!

"Today's spar has truly broadened my horizons. However, there is still the final hurdle. If you can pass, I will be completely convinced by you." Long Chen! "

Tianmu Emperor held onto the head of the Bridge of Hell and pointed at Long Chen. In that short moment, he seemed to have merged with the Bridge of Hell, and he could no longer differentiate between the two. The Hell's Bridge suddenly went berserk in his hands, rolling around like a giant dragon!

In an instant, a gigantic blood yellow vortex appeared behind the Tianmu Emperor's back. It seemed to be a door to hell, and countless vengeful spirits screamed miserably, being sucked into the vortex, the blood yellow vortex continued to expand, and at this time, the Tianmu Emperor's eyes were filled with divinity. He connected one section of the bridge of hell to the blood yellow vortex, while the other end was aimed at Long Chen!

In that moment, Long Chen felt as if he was being stared at by a venomous snake, and it became even more terrifying. His hands were already holding the Dragon Confining Arrows, and the sharp arrows were also aimed at the Tianmu Emperor.

Long Chen had now reached his limit, and the spirit refining flame on his body was igniting it, encouraging his power. Regardless of whether it was the four images of reincarnation energy, Taishang divine power, or the power of yin demons, all of it had been channeled into the bow and arrow!

"Go, Bridge of Helplessness!"

One end of the bridge was connected to the blood yellow whirlpool, while the other end was headed towards Long Chen. The Hell's Bridge was a constructed bridge, called the Bridge of Helplessness, connecting Long Chen to the blood yellow whirlpool, or more accurately speaking, was extradited to the other side of the bridge!

He had constructed a path to death for him!

For a moment, it was as if the entire world had turned into hell, and the Bridge of Hell had unleashed all of its power as one of the 800 Dao Rune Circles, turning it into a path that led to hell. As long as Long Chen climbed onto this bridge, it was basically impossible for him to return.

"Come up, come up!"

As if waves of dreamy chatter were coming from the Heavenly Mystery Emperor, unceasingly rang in Long Chen's ears. He was a little confused, but he was sure that this was an attack from the power of the primordial spirit!

Long Chen had the will to kill, so of course he could stop them!

He gripped the Dragon Confining Arrow tightly, and it had already turned into a full moon.

The Bridge of Hell was right in front of his eyes. It was about to pierce his head.

If that happened, Long Chen was basically finished.

But he could still maintain his will!

Everyone held their breaths as they watched the showdown between the most powerful of Dao-artifacts!

Long Chen's entire body's attention was focused on one point, he had gathered all of his strength, and at the most accurate moment, he released the Dragon Confining Arrow!

In the next moment, the tip of the Dragon Confining Arrow collided with the end of the Hell's Bridge!

Both were extremely sharp!

However, the Dragon Binding Arrow had the Dragon Bow behind it. With its surging strength, in this short period of time, it didn't lose to the Bridge of Hell!

This was a confrontation between a golden dragon god and a withered yellow dead electric snake!

Naturally, when the two great dao spirits clashed, the dragon would have an overwhelming advantage!

And the opponent had the advantage of Dao patterns, so his power was even more powerful!

Ding!

In order to win, both of them had already been vented to the extreme, especially the Tianmu Emperor. He already had a certain goal, and that was to destroy Long Chen's Dao Artifact!

The tip of the Bridge of Hell had already displayed this intention.

Long Chen could naturally feel the other party's intention. Now that the Dragon Confining Arrow was resisting the frightening pressure, the electric snakes had already coiled around the Dragon Confining Arrow's body.

In that instant, his gaze collided with Tianmu Emperor's, his eyes were filled with a repressed killing intent, filled with hatred, it was an explosive state, Long Chen was sure that Tianmu Emperor did not give up, he definitely wanted to kill him, of course it was not now.

In this kind of confrontation, if Long Chen retreated, then he would not be able to take back the Dragon Confining Arrow!

The two Dao weapons clashed in midair. This was a shocking battle, causing the commotion in the sea of blood to become even more intense. The three Dragon Emperor s had to protect the Dragon City, otherwise, the Dragon City might be drowned in the roaring sea of blood!

Dao Protector!

The Dao Artifact had also inherited its owner's meaning.

The Bridge of Hell wanted to kill, but the Dragon-Confining Arrow and the Dragon Bow wanted to fight back!

The two were in a deadlock!

"I heard that your father left you these two Dao-seals. What a pity." Right now, the Bridge of Hell already had an overwhelming victory, because he now had over a hundred Dao Inscriptions.

In addition, the death tome was full of destruction.

Ding!

At this moment, a crack appeared on the Dragon Confining Arrow!

The crack instantly widened, and an explosion occurred. The Dragon Confining Arrow had already shattered!

In that moment, a huge change happened in Long Chen's eyes. From doubt, to killing intent!

Everyone could not help but clamor, was Long Chen about to lose?

Even the Dragon Confining Arrow had exploded. He no longer had anything left to block it!

The Hell's Bridge extended towards him. The hideous head was like a snake's head. Under the control of this snake head, it basically stepped onto the Hell's Bridge, leading to hell!

Right at the moment when everyone was at their most anxious, a dragon roar came out, and the Dragon Confining Bow in Long Chen's hand released a terrifying roar, shaking the entire world. The Dragon Confining Bow turned into a prison dragon, and in that instant, it crashed into the Hell's Bridge.

Although they were not complete captives, they all had their own will. They loved each other, and it was impossible for them to let any single one of them exist in this world.

This accident was out of everyone's expectations.

Of course, this also resulted in an unexpected result. That was, the Hell's Bridge had shattered!

After shattering the Dragon Confining Arrow, the eight hundred dao tools with Dao patterns were actually shattered by the Dragon Bow's counterattack. Of course, they weren't completely destroyed, but rather had produced enormous cracks!

However, their dragon souls intertwined together, as if they were in a deep sleep. They closed their eyes, and gradually dissipated in this world, but just in time, a smile actually appeared on their faces.

Long Chen's mind could be said to be blank.

He hadn't thought that this would be the end of the line. He just wanted to do his best to resist.

It was impossible for him to not be angry and hurt, but the other party's strength was indeed very strong, and the Hell's Bridge also had the special characteristic of a destructive dao tool!

In the end, the nearly torn Hell's Bridge was still headed towards Long Chen. Long Chen took out the God Slaying Sword, and it was time to completely destroy the opponent!

Chapter 2267 - The Great Apocalypse of Origin

God Slaying Sword has the characteristic of devouring and leveling up. It is something that no other Dao Artifact would possess. So all this time, Long Chen had always been using the God Slaying Sword as the main sword.

However, after Prison Dragon Bow appeared, for a period of time, Long Chen was even more reliant on these two Dao Artifacts, and treasured them greatly. The most important reason was because this was something that Long Qinglan had left for him, and so he cherished it even more. Even when the Dragon Bow no longer had any effect on him, he would carefully store it away.

This was something that Long Chen did not wish to see. If it was said that he was somewhat guilty towards the Tianmu Emperor in the beginning, after all, there was a feud between the two of them over the death of their son. However, when he saw with his own eyes that the two Dao weapons his father had left for him had shattered, the guilt completely disappeared and was replaced with anger and even hatred!

The loss of the Dragon Confining Arrows had given the God Slaying Sword a chance. Right now, the God Slaying Sword already had 680 runes, facing the nearly destroyed Hell's Bridge, the God Slaying Sword opened its fangs and bit into the bridge of Hell like a wild wolf facing an injured tiger, tearing off pieces of flesh and blood!

Kcha! *

Long Chen froze the bridge of Hell in an instant, then used the God-Slaying Sword to attack and kill them. Finally, he broke through the bridge of Hell, and with the destruction of the Dragon Bow, the bridge of Hell also broke as the three major artifacts were almost annihilated at the same time. The

resulting shock caused the sea of blood to be overshadowed, and the turbulent sea water spanned across the entire Dragon City, completely submerging the Dragon City!

Rumble rumble rumble!

Endless sounds seemed to drown out the surroundings.

At the same time, the sound of Emperor Tianmu's regretful sigh resounded. The Hell's Bridge was the dao tool that had accompanied him for the longest period of time in his life, and was personally bestowed upon him by the Blood Tyrant Dragon Emperor when he was appointed as the commander of the Dragon Tomb Army. Now, all of them had shattered.

When the sea of blood began to fall, the crowd watched on dumbfoundedly. The battle was over, and it was only a sparring. By now, both of their most important Dao artifacts had been destroyed. If they continued to fight, they would be engaged in a fierce battle.

The two of them appeared in the air.

Long Chen was still holding onto the God Slaying Sword, which had torn apart the bridge of hell, and after devouring it, the God Slaying Sword once again evolved, the dao patterns once again soared, now reaching the level of 730 dao runes, which actually surpassed the Dragon Confining Arrows. The power of the God Slaying Sword now, was probably even stronger than when the Dragon Confining Arrows combined.

This was the true heaven-defying aspect of the God-Slaying Sword.

Long Chen was very curious. If the God Slaying Sword could reach 999 Dao patterns in the future, would it be able to continue forward?

If a person could continue forward, what would become of him in the end?

But now, no matter how many runes the Dragon Slaying Sword reaches, it is unable to save the Dragon Confining Arrows. The Dragon Confining Arrows have already turned into specks of golden light surrounding him, and originally, the Dragon Confining Bow would not have been destroyed.

"Perhaps, to these two Unparalleled Dragon, being able to cause the final Dragon Soul and back to die together is also a happy ending."

Long Qinglan would definitely not blame himself for this either.

Long Chen had thought it through. With regards to Emperor Tianmu, he reckoned that there would no longer be any conflict between him and Emperor Tian Mu, nor would he feel any guilt or ridicule. Meng Qing Qiu deserved to die, so if there was a chance to fight, Long Chen would not show any mercy, which would lead to the loss of Dragon Confining Arrows.

He took a deep look at the Emperor of Heaven and then, without saying a word, headed in the direction of the Slaughter Dragon City, landed inside the Slaughter Dragon City, and then headed towards the Origin Palace. This time, the battle was even more determined to Long Chen's ability to improve his fighting capabilities as soon as possible, and it was already an extremely critical moment.

In the Dragon Slayer City, everyone looked at each other, and only when they received news about Long Chen, did they start discussing. As for the destroyed Heavenly Emperor of the Slaughter Dragon City, no one paid attention to him, because even though they did not win the battle, the entire Dragon Slayer City was able to witness Long Chen's growth and power.

The vast majority of the people had already begun to admire him from the bottom of their hearts.

Emperor Tianmu's expression was strange. He was startled for a moment before turning around and leaving. He had entered the sea of blood. It should be his place to return and kill the dragon tomb. Most of the time, he would stay in the dragon slaughtering tomb.

After a long while, the crowd slowly dispersed from the discussion. They could smell the scent of gunpowder that was almost a fight to the death. It seemed that the exchange between these two was not as simple as just exchanging pointers. Obviously, the Tianmu Emperor was the first to have the intent to kill, resulting in the destruction of their most important Dao Artifact.

It was very likely that the two of them would have other battles in the future.

However, they were not worried about Long Chen. With Long Chen's current speed, to be honest, after a while, it would be difficult for Tianmu Emperor to have the upper hand.

Of course Long Chen had returned to the Origin Palace.

"It seems like this fellow, the Heavenly Mystery Emperor, is still unable to let go of the hatred in his heart." The Blood Red Dragon Emperor said.

"Don't worry, once I pass this stage, he won't be able to do anything to me." Long Chen said quietly. The loss of the Dragon Bow made him in a bad mood.

The battle with the Tianmu Emperor could be considered as an interlude.

"Alright, then you can go in and try it out slowly and wait for your good news." The Blood Red Dragon Emperor left immediately. It was only then that Long Chen and Li Xuanji finally separated. In Slaughter Dragon City, Li Xuanji didn't want to go anywhere, so staying in the Divine Kingdom was pretty good. It would also not disturb Long Chen's cultivation.

With the orders from the Blood Tyrant Dragon Emperor, at least during the time that Long Chen was trying to make a breakthrough, no one else was able to enter the Origin Palace.

Long Chen welcomed the purest of the five elements and entered the Origin Palace.

Every Dragon City actually had a Source Palace, which was used to reconcile the powers of the five elements. Every Shencheng even had one, but on a different scale.

Vast amounts of source energy came from heaven and earth and entered the origin palace, condensing into a pure source energy pill with a diameter of 100 meters. After that, it was sent out by the Source Palace and spread throughout the entire Slaughter Dragon City.

The origin palace could be considered a transfer point.

Right now, there were five Source Pills placed in front of Long Chen. In each of the five positions of the origin palace, there was a golden metal liquid that rolled into a golden ball; the wood elemental energy formed a 'tree ball'; there was also a huge spinning water ball, a burning fireball, and finally, an earthen-yellow 'earth ball'.

This was the pure power of the five elements, without a single magazine.

The Source Pill was connected to the heaven and earth, connecting the entire Slaughter Dragon City, then to each other, they seemed to form a web, and Long Chen's current destination was the core of the Source Palace, which was also the center of the web.

This was one of the most balanced points between the five elements in the world, and was also the place that the three Dragon Emperor s had chosen for Long Chen. This origin palace could not be like the heaven and earth which could be awakened by direct stimulation of the Four Symbols Heavenly Emperor, like the Four Extreme Chaos Grounds, but it could help Long Chen get closer to the origin of nature, and could help him get more familiar with the powers of the five elements.

He forgot all his troubles as he sat cross-legged on the ground. Currently, the five types of source energy were completely surrounding him, and in his world, the outside world had changed, the palace, the sea of blood, and so on had all disappeared, even the air had disappeared. What he saw was the entire world turning into the first five types of energy, source materials, and even his own body, was formed from these five types of materials.

Metal, wood, water, fire, earth. They were all things that existed in this world.

This was a marvelous world. Long Chen was immersed in this world as if he was intoxicated by it. He had a very terrifying perception, able to quickly comprehend these things.

Transforming the Four Symbols Power of Reincarnation into the source energy of the five elements required one to go through a tribulation of the five elements. The condition to trigger a tribulation of the five elements was that one must comprehend the source energy to a certain level.

In truth, this Source Palace had truly helped Long Chen a lot. If it was outside, it would not be easy to detect the source of energy, but here, all of it were the five types of power, and they were very balanced.

When Long Chen did things seriously, he would usually pay attention to them.

As time passed, he had already sensed a certain amount of change. If he was able to cross this hurdle, then there would be fewer people in this world who could restrict him, and now, there were more and more people who believed in him. There were even more people who believed in Long Qinglan.

That was his long-cherished wish!

Continue, work hard, calm, and meditate.

Li Xuanji had also just passed through the Five Elements Tribulations, but she was prompted by the Reincarnation Poison, so she was of no help to Long Chen.

Days passed, and before the fifteen could find Black Hell Emperor, Long Chen had already made new breakthroughs.

If he did not have the Origin Palace, it would probably take him a few months or even half a year to cross this realm. But now, in less than half a month, Long Chen had already merged with these five energies, forming a balance between the five elements in his body, and then gave birth to the first of the five elements, the Power of Reincarnation.

This first power was the trigger for the Origin Calamity. Everyone was delaying the arrival of the Reincarnation Tribulation, but he was still putting in all his effort to obtain it.

But suddenly, it was as if the sky split apart, and a suppressive force descended from the sky, surrounding the entire Dragon Slayer City. At the beginning, no one knew what had happened, but the experienced elders could tell that this was a great origin calamity, but was there really such a great origin calamity?

Chapter 2268 - Celestial Golden Sword

Weng! *

Long Chen had a feeling in his heart that he probably succeeded.

It was the pure source energy of the origin palace that had helped him.

Of course, this was just the beginning. The real Five Elements tribulation came from the origin laws. The Origin Calamity was different from the One and Two Elements Calamity. It was similar to the Nirvana Tribulation because the Origin Calamity came from the heaven and earth, and was the most violent attack!

If he wasn't able to resist, then he would be destroyed in the form of a true Deity!

The origin tribulation was countless times larger than the Nirvana tribulation.

The origin level calamity was formed from metal, wood, water, fire, and earth. It was divided into five levels, hence the origin level calamity was also known as the five levels.

If the Source Calamity was the amplification of the Nirvana Tribulation, then Long Chen's Source Calamity was the amplification of the other Source Calamity.

That's why when his origin ability calamity descended, it caused another commotion in the city, and even alarmed the city.

At this time, Long Chen stood up and walked out of the Origin Palace. It was as if the entire Slaughter Dragon City was trembling, and the ground was shaking, and after he left the gates, he raised his head and saw that the sky, which was bright and bright just moments ago, had instantly turned into night. A terrifying pressure, like the appearance of gods, was pressing down on the top of everyone's heads.

Generally speaking, the Slaughter Dragon City would have people who go through the great origin calamity every few days. That kind of level did not have any effect on the city, and it was even more impossible for it to turn day into night.

"Be careful, this level has never appeared before in history." He stood in front of Long Chen and warned in a low voice.

"Thank you!"

No matter what, this Raging Blood fellow was a decent fellow. At the very least, for such a long period of time, even when he could completely crush Lin Ming, he hadn't done him any harm.

"Alright, after this, I won't be a match for you anymore." I really want to beat you up right now! " Fiery Blaze chuckled.

Long Chen had already felt that he was already locked on by a destructive power, as if he was being stared at by a god. That kind of terrifying feeling caused his hair to stand on end, and as expected, signs began to appear.

"No matter what, although it is terrifying, I still feel that I might not necessarily be able to make it in time. You better take it easy, don't get ahead of yourself with the Five Element Tribulation." When Xue Hongyi finished laughing, his expression suddenly turned serious.

He was also shocked by how terrifying this calamity was.

At this time, the people of Dragon City were once again shocked. Upon hearing that this was Long Chen's origin calamity, their faces turned out to be extremely exaggerated, how could this be an Five Elements calamity? It was comparable to the tribulation of the Eight Tribulations. It was even more terrifying than the tribulation of the Eight Tribulations.

The three Dragon Emperor s were the ones who felt it the fastest, but in this kind of situation where they were faced with a world calamity, they could not help. In their current situation, they had to leave this calamity, otherwise, if it affected them, they would be done for.

Thus, they did not appear.

The only person that could help Long Chen was Li Xuanji. Last time, when he was facing the Four Symbols Tribulation, Long Chen had discovered that Li Xuanji was only a part of him in the eyes of the heavenly tribulation.

In the God Nation, Li Xuanji had turned into yin devil energy and entered his body.

Long Chen had already made his preparations, in front of the eyes of countless people, he had distanced himself from the Slaughter Dragon City, and arrived above the sea of blood. It was obvious that his origin calamity was too huge, if he could not block it, it might affect the Slaughter Dragon City, and if no one could resist, it would at least cause thousands of people to die.

Of course he didn't want to see that kind of tragedy.

Honestly speaking, looking at the current depressing situation, he was still a little nervous.

On the other side of the sea of blood, Emperor Tianmu emerged with the commander of the Dragon Tomb Army. Emperor Tianmu didn't expect this day to come so soon.

"I thought even if there was a Source Palace, it would still take at least a month." "In that case, let's have that guy come up quickly and start his plan. This is a golden opportunity."

In the shadows of the night, he revealed a cold smile.

Thick veins began to bulge out of his sallow yellow skin, moving about like snakes on the surface of his body. For a moment, it was densely packed, as if all his blood vessels were wrapped around his body. In the darkness of the night, even on his sallow yellow skin, eyes appeared one after another, coldly and bloodthirsty as they stared at Long Chen, who was about to face his terrifying origin laws tribulation!

Suddenly, a vein tore through his skin and rushed out, screaming as it looked at Long Chen who was in the sky.

However, there were too many people around, and the blood vessel quickly disappeared.

Tianmu Huang stuck out his dry tongue and let out a comfortable cry. He stretched out his waist with a sneer on his face. However, the world was dark and no one noticed him.

Not only was it the Blood Sea and the Dragon Slayer City, when Long Chen's great origin calamity appeared, the entire Dragon God Domain was equivalent to a huge region of the three War God's Ancient City Realms. During the day, it was all turned into night, and the heaven and earth lost all light, as well as a blank state.

From this, it could be seen just how terrifying the origin laws were!

Presently, hundreds of thousands of people were watching.

Long Chen stood on top of the sea of blood alone, resisting the pressure as he looked up in the sky. The origin calamity's footsteps were drawing closer and closer.

"The Golden Sword of the Heavens!"

Everyone exclaimed.

This was the first of the five great elemental tribulations!

That speed could only be described as terrifying. In the blink of an eye, Long Chen's gaze reached the sky, and all of them were engulfed by the golden tribulation clouds, causing the heaven and earth to light up once again!

This diameter should be at least tens of thousands of meters!

To be honest, a normal great origin tribulation would only happen for a few hundred meters, with the highest being over a thousand meters. A great origin tribulation like the one where not only width and thickness had increased countless times, but also where Long Chen had never experienced such a tribulation!

In fact, the golden cloud was still expanding.

Expansion was the gathering of one's power, the absorption of one's power, and the strengthening of one's body. When it expanded to its limit, it began to shrink back. From its enormous body, it shrank down to become a sword, a golden sword. That was the golden sword of the Heavens!

As expected, when the diameter of the golden tribulation cloud broke through a hundred thousand meters, it began to contract, its shrinking speed was extremely fast, and was even several times faster than before. But the current Long Chen, had already felt that kind of terrifying strength, felt that fatal killing intent, and didn't dare to be careless!

Roar!

In front of everyone's eyes, he had transformed into an Archaic Blood Spirit Dragon. He hovered above the sea of blood. This was his strongest state!

The blood-red scales of the dragon shined with a brilliant light. The Archaic Blood Spirit Dragon had a powerful physical body, and it had a great advantage when resisting this calamity. Even so, it still seemed somewhat insignificant in the face of this great calamity.

RUU...!

When the golden tribulation cloud condensed and shrunk to a diameter of a hundred meters, it began to deform, condense, and godly runes began to appear on it. Long Chen had seen the power of the laws, the golden runes were exactly the same as the ones that appeared in the battlefield of the gods!

He felt that this source energy tribulation was one where he wished for nothing more than to directly kill Long Chen!

That dense killing intent could be felt even by the young dragons.

Now, the golden tribulation cloud began to shrink without end, turning into a giant golden sword that was a hundred meters long, proudly standing in the sky. The giant golden tribulation cloud began to shrink endlessly, turning into a giant golden sword that was a hundred meters long, proud in the sky.

Long Chen was just like that!

Before the golden sword in the sky reached him, the divine pressure had already arrived!

"A mere five element tribulation can actually make things difficult for me!"

To be honest, his progress was too smooth. He had never thought that this origin ability calamity would bring him so much pressure.

Just at that moment, more than ten divine inscriptions lit up, the golden sword in the sky released a sound that pierced the heavens and earth, it was extremely ear-piercing, the golden light emitted was like the sun setting in the world, in that moment, the golden sword in the sky shot towards Long Chen, aimed straight for Long Chen's dragon head!

The great Essence Tribulation had arrived!

Everyone held their breath.

At that moment, Long Chen transformed into a Great Void Cosmic Dragon. Although he knew that there were still four stages of tribulation ahead, he still almost exhausted all of his body's energy and directly used space-time reversal!

This was the power of time that he had at his highest level of strength!

In the blink of an eye, it had already reached the area within which Long Chen could reverse space and time. The divine ability and the energy of heaven and earth were engaged in the most intense battle at this time, and what Long Chen felt was that he was in a complete mess from the collision, the sky golden sword had actually shattered his reversed time and directly pierced into his body!

But of course, spacetime could still be reversed, which would reduce the power of the golden sword in the sky.

The Sky Golden Sword also missed, brushing past Long Chen's head and directly piercing into his neck, instantly causing him to bleed profusely, the Sky Golden Sword stabbing into his body, almost to the point of exploding.

In that moment, Long Chen used his dragon claw to grab the golden sword and pulled it out. Just as he threw it into the sky, the golden sword exploded as a golden light flashed across the sky.

This explosion was not too far away from Long Chen, so the force that was released immediately shattered Long Chen's dragon scales, causing his entire body to be drenched in blood, and even half of his dragon claws had been blown off. If not for the presence of the three Dragon Emperors, more than half of Dragon City would have been destroyed!

Everyone looked at Long Chen who was drenched in blood in shock. This was only the first level of origin laws calamity, if he could control it to such a degree, wouldn't he be dead for sure then?

For a moment, everyone was stunned.

They had already been overestimating the power of the origin tribulation, but they didn't expect to underestimate it.

To be honest, anyone could see that just the golden sword in the sky had brought a great deal of damage to Long Chen. And then there was the fourth level origin ability tribulation.

Could it be that Long Chen will die in this calamity with a heaven defying origin?

Many of the martial artists that had already crossed the origin tribulation didn't know that this tribulation would actually reach such a terrifying state.

To Long Chen, this was somewhat inconceivable. He thought that he would be able to solve the problem with the space-time reversal.

However, just wanting Long Chen to finish things up like that was already too exaggerated, especially when he had already reached a certain level in the way of life.

Now that Long Chen had grasped the flame of life, under his control, the flame of life began to burn on his body and the green flames spread throughout his entire body.

Wherever the fire of life went, Long Chen's body produced terrifying vitality. The injuries he received on the golden sword in the sky all healed at an unparalleled speed, grew, and even the bloody hole that was almost torn by the golden sword in the sky was blocked off in a short moment, and returned to his original appearance.

After the fire of life swept over, Long Chen recovered to his original state.

Everyone was utterly flabbergasted by his ability. It could even be said that he had broadened their horizons, and was an amazing sight to behold.

Of course, the origin ordeal had yet to pass, it was still too early to be happy. But with such a heaven defying ability, Long Chen should not die yet.

Just as Long Chen was recovering, the second stage of the calamity had already begun to form.

The second level of tribulation was called the 'Primeval Tree Tree'. Long Chen had a certain understanding of this Primeval Tree.

He began to be on guard, because the tree was not as powerful as the golden sword, but it had more destructive power!

The world once again fell into darkness. Everyone almost held their breath as they looked at the hundreds of millions of green dots of light in the sky. One of them was a real primitive tree, which was the source of this disaster.

As for the others, they were just a distraction.

No one knew which specks of light were the primitive trees.

For a moment, the surroundings became silent.

The only thing that remained was the sound of the sea of blood.

Just as everyone was holding their breaths, suddenly, countless green specks of light surged towards Long Chen. This was purely light, and could not be stopped at all.

To a normal person, there were only thousands of green dots of light.

But Long Chen had hundreds of millions of them!

This was his heaven defying aspect.

Hundreds of millions of green dots of light were simply incapable of resisting against it. In just that instant, Long Chen felt like the real primitive tree had already entered his body.

"This is ..."

Just as the tree had entered his body, it started to sprout in a crazy manner as it absorbed Long Chen's energy and started to grow at an incredible speed.

"Black Yan Beast?"

Back then, the Black Demon Beast had invaded his body.

Of course, there was a difference between a primitive tree and a Black Demon Beast. The Black Demon Beast hid and hid, but the primitive tree directly took root in Long Chen's body, attracting his life force and instantly growing into a towering tree. The older it grew, the stronger the energy it absorbed would be.

To be honest, after experiencing the great origin tribulation, what made many people's hearts race the most was the primitive tree species. Because there were only primitive tree species, they attacked from within the body, directly sucking people into pieces!

Only, this feeling was far too similar to that of the Black Hades.

This made Long Chen think of a way to deal with it.

At first, when the Black Demon Beast was hiding, Long Chen had still pulled him out. But now, he had already discovered that the stronger that tree was, the faster its body essence absorption speed became. Before anyone could react, Long Chen had already made his move.

And it was a surprising way of doing it.

He directly pierced his dragon claw into its body. The tree trunk did not even bother to hide its position, Long Chen just grabbed one of its first branches and pulled it outwards!

Ordinary people wouldn't dare to do such a thing.

This was because it was bound to be accompanied by unimaginable pain. After all, this tree was rooted in his body!

However, to him, who had once allowed the Black Demon Beast's invasion, this actually wasn't much. He was very clear that he had endured the pain. Before the original tree had grown up, when it was still a sapling, Long Chen had pulled it out.

The fire of life could quickly heal his injured body.

The other dragon claw was already prepared. It was the Ten Thousand Deadly Claw.

The moment the ancient tree came out, the Ten Thousand Deadly Claw tore it apart. The death force cut off the ancient tree's life, causing it to be completely destroyed!

The second calamity had been easily overcome.

Next was the third calamity, the 'Astral River Holy Water'!

The holy water of the Milky Way was pure black and came from the heavens!

In the sky, the tribulation clouds gathered once again, and this time it was black. The black tribulation clouds expanded for another hundred thousand meters, but this time they did not shrink, and instead sprinkled down, and that was the holy water of the Milky Way. So many holy water of the Milky Way came pressing towards Long Chen, forming a huge ball of water which surrounded Long Chen in the middle, leaving him with no chance of escape!

No matter if it was a Dao item or something else, nothing could stop it. If the holy water of the Milky Way was to splash itself onto the Slaughter Dragon City, then in an instant, the entire Slaughter Dragon City would disappear from the face of the earth.

It was also only because of Long Chen's calamity of the Milky Way Holy Water that they would have such a terrifying scale.

Seeing that the Astral River Holy Water was getting closer, Long Chen was not anxious at all. According to the experiences of the other people dealing with the Astral River Holy Water, they only needed to escape the encirclement. He quickly moved and charged out. At the same time, he used space-time reversal to send the holy water of the Milky Way out of his surroundings!

Even if Long Chen was injured, his fires of life would be able to help him recover in a short amount of time.

Once again succeeding. When Long Chen escaped from the encirclement of the Heavenly River Holy Water, the Heavenly River Holy Water condensed into a dot and disappeared from the world.

The final two tribulations were the 'Myriad Realms Flame' and the 'Primordial Yellow Sand'.

It was also a terrifying calamity.

fought against the tens of thousands of Fire Giants right in front of everyone's eyes, until he had completely torn them apart, and took a long time to do so. Long Chen did not dare to do anything about it.

However, it was also very interesting.

Even Long Chen was able to easily pass through the first four origin tribulation. Of course, only he himself knew how difficult it was. Every single one of them was deadly.

"There is only the final level of tribulation left, the Primordial Yellow Sand."

"It's still too early to be happy. From the Four Symbols tribulation of reincarnation to the Five Elements tribulation of reincarnation, the majority of the people have actually died from the Primordial Yellow Sand's tribulation. After all, at this time, everyone will relax a little and then be torn apart by the Primordial Yellow Sand."

Just as everyone was discussing about this, the final calamity arrived.

The blood-red tribulation cloud began to form in the sky. This time, it stretched for two hundred thousand meters, as if the source energy accumulated by the tribulation had been transferred all the remaining energy into this last tribulation of the primordial sand.

The blood-red tribulation cloud rumbled, and there was a rustling sound from within, as if countless amounts of yellow sand were flying about. The thick and heavy tribulation cloud pressed down on the skies, as if the sky itself had become earth, a piece of land!

The tribulation of the primordial yellow sand came from the sharpness, hardness and speed of the primordial yellow sand.

They looked almost transparent, but they were extremely hard and hard, even surpassing most of the Dao artifacts. The most terrifying thing was that their movement speed was extremely fast, even surpassing Long Chen's by ten times. With this degree of rigidity and speed, even if they moved, they would be able to easily pierce through an artifact with hundreds of lines.

Moreover, the amount of primordial sand in the sky should at least be over a hundred million, right?

If they had arrived in an instant, Long Chen would have turned into a sieve.

From this, one could tell how terrifyingly dangerous the final tribulation had been.

Of course, Long Chen had already made sufficient preparations.

Just as everyone was suffocating as they watched, the countless primordial yellow sand was like a locust swarm that covered heaven and earth. The tribulation cloud, which was at least two hundred kilometers in length, started to shrink, forming a gigantic blood yellow ball that once again surrounded Long Chen.

Buzz! Buzz! Buzz!

Everyone could already hear the sound of space being torn apart as the countless sharp and hard Primordial Yellow Sand moved at high speeds. In reality, the space they had walked in before had already been completely shattered, and it would be difficult for Long Chen to escape.

It was clear that the last tribulation was even more difficult than the first four, and this was different from the others'. Others' tribulations were all relatively balanced, but Long Chen seemed to be especially taken care of, and even directly increased the strength of the tribulation, wanting to kill him.

"This Eighteen Major Tribulations, was caused by nature itself?"

Long Chen kept feeling that it was not just that simple.

However, at this time, he could only concentrate on facing it!

The yellow sand attacked!

Countless people held their breaths as they watched this final moment.

The yellow light illuminated the world.

Just as the light flickered, the sea of blood suddenly erupted. Unexpectedly, hundreds of black octopus tentacles tens of thousands of meters long rushed out, and waved towards Huang Sha and Long Chen who were in the sky! Everyone was very surprised and shocked, but they could clearly see that this was the legendary Black Demon Beast!

When Long Chen was resisting the final tribulation, the Black Demon Beast actually appeared!

"Chen Ting!"

The three Dragon Emperor s noticed his existence at the first moment. It was just that it had to be said that the Black Hell King's concealment skills were too good, it was only because he was so close that the three Dragon Emperor s discovered it.

Of course, there were also three Dragon Emperor s who were concerned about Long Chen, and focused on him!

Chapter 2270 - Heavenly Blood Reappearance

The appearance of the Black Demon Beast could be said to have frightened everyone.

Who would have thought that he would appear here at this time? Currently, the fifteen Dragon Emperor were all thinking of ways to find him, and it was as if he had disappeared from this world.

Currently, Long Chen's final calamity had already reached its most critical juncture. Now that he was already surrounded by the Primordial Yellow Sand, the final calamity's destructive power that was doubled still posed a great threat to him!

The appearance of the Black Hell King was undoubtedly a crisis for him!

The appearance of the several hundred tentacles caused a commotion among the crowd. This was their most noisy and also the most terrifying event!

Everyone's heart was in their throats.

Even though there were three Dragon Emperor present, the current Black Hell King still looked very terrifying.

When he just appeared, those several hundred black tentacles actually extended towards Long Chen's direction. He actually wasn't afraid of the punishment of reincarnation, and wanted to disrupt the progress of the reincarnation tribulation. Even the three great Dragon Emperor s didn't dare to do so.

Of course, the three Dragon Emperor s would not let him succeed. Just as he appeared, a ray of blood red light shot out from the Ten Thousand Killing Dragon Emperor's body and struck the Black Demon Beast's tentacles.

Its black tentacles were pushed back!

"Surround him!"

In his entire life, he had been used to all sorts of scenes and encounters all kinds of dangers. In the end, he became the number one Dragon Emperor of the Slaughter Dragon City, so of course he wouldn't be afraid at this time.

The first thing he did was to protect the Slaughter Dragon City, while the Slaughter Dragon City's people were currently retreating, while the Emperor Blood Dragon Emperor and the Ten Thousand Killing Dragon Emperor were directly attacking. The two of them arrived in front of the Black Underworld Emperor in an instant, surrounding him from the front and back!

After the Dragon Emperor had protected the warriors from Dragon City, he rushed up immediately. At this time, the Black Hell King gave up on his attack and started escaping.

"Don't let him escape."

The moment Dragon Emperor finished speaking, his body began to shrink infinitely.

"You're protecting it pretty well, aren't you? Next time, you won't be so lucky! " In the blink of an eye, the Black Hell King had dived into the sea of blood and fled far away. His speed in the water was simply too terrifying, to the point that she couldn't catch up to the three Dragon Emperor s.

He escaped in the sea of time!

"Chase!"

The Ten Thousand Killing Dragon Emperor and the Emperor Blood Dragon Emperor were the first to chase after him. The Black Hell Emperor had not completely escaped, and no matter how fast he was, the two Dragon Emperor s would still be able to catch up to him. Moreover, they were still continuously closing the distance between them.

In the blink of an eye, Black Demon Beast and the two Dragon Emperor disappeared from the eyes of the crowd.

The Dragon Emperor looked at Long Chen who was resisting the Primordial Yellow Sand and then looked into the distance. Until now, they had not been able to fight, which meant that they had yet to catch up to the Black Hell King. The Blood Tyrant Dragon Emperor was a little worried. The Black Hell King was too bizarre. If something were to happen, the two Dragon Emperor would not know ...

Would the Dao be able to block it?

"Bloodlust, protect and kill the Dragon City. If you need anything, inform me quickly." After saying this, he flashed forward, quickly charging toward the direction of the other two Dragon Emperor s. It was not easy for him to obtain the Black Hell King's whereabouts.

If he missed it, it would be even harder to catch him next time.

Currently, the Black Hell King was like a poisonous tumor on their bodies. If it was not eradicated, it would become a disaster!

"Yes."

Of course, there was nothing much to here, and the three Dragon Emperor s were definitely not too far away. If there were any problems, such as Long Chen failing his tribulation and so on, they could be notified as soon as possible.

After the three Dragon Emperor s left, everyone was still trembling in fear. It was only after a long time did they finally focus their attention back on Long Chen, who seemed to be in a stalemate with the Primordial Yellow Sands, not to be defeated instantly. The Primordial Yellow Sands had reached such a scale.

To this day, no one knew whether Long Chen could truly break through and overcome this calamity.

However, as the demon in his body, Li Xuanji believed in Long Chen.

At this moment, the surging sea of blood and the torrential storm carried an endless amount of blood as they sprinkled onto Dragon City. The sky was already covered in yellow sand, and the sharp and strange speed of the ancient sand drew a sinister trajectory.

Basically, all the Primordial Yellow Sand were attacking Long Chen!

Long Chen could only use the abilities of three kinds of Ancestral Dragons to block this Primordial Yellow Sand. He discovered that the larger his body, the greater the attack he would receive.

Using the Killing Sword Technique, it weaved a gray sword net in the air, blocking the countless amounts of ancient yellow sand around him!

The Primordial Yellow Sand would occasionally enter through the cracks of the sword net, and even directly pierce through Long Chen's body. However, right now, the flames of life on his body burned, and he had an eternal life force that constantly generated new life energies, practically placing him in an invincible position!

Next, what would be seen was whether the Primordial Yellow Sand would last longer, or whether Long Chen would last longer!

When everyone saw that the three Dragon Emperor s and the Black Hell King did not come back, their attention was already completely focused on Long Chen. It seemed that the three Dragon Emperor s had already gone far away.

Right at this moment, there seemed to be a person within the yellow sands.

He hovered in the air above the city, holding a star in his hand. At this time, the star was emitting a dazzling light, attracting the attention of countless people.

In the Dragon City, Bloody Blaze, Thousand Snow Emperor, Emperor of the Sword Rivers, Emperor of the Moon, and the others saw this man and were all puzzled. The Bloody Blaze had already rushed forward and blocked him, saying, "Emperor Tianmu, don't disturb this order. What's that in your hand? "

Tianmu Emperor's back was currently facing away from him, as he looked in the direction of Long Chen.

Everyone was also curious, what was Tianmu Emperor trying to do?

Just then, the Thousand Snow Emperor looked at the star pattern on his hand and suddenly said: "I have seen this before. It seems to be made by the Spirit Clan of the Realm of the Gods. can disrupt the stars in the surrounding hundreds of thousands of meters

Power of Awakening, disrupting the transmission of astral runes. This is a special method to crack the starlight transmission. Only the top martial artists of the spirit race are in possession of a small amount. We don't have many of them. "

Everyone looked at each other.

The question was, why did the Emperor take the Star Sealing Stone?

When the Forbidden Star Stone appeared, the astral runes within a radius of hundreds of thousands of meters wouldn't be able to transmit outwards. In other words, no one could contact anyone else here.

What was his purpose?

It was known to all that he had enmity with Long Chen, and in fact, in their last sparring session, he and Long Chen had directly destroyed Dao artifacts together.

This was the most critical moment of Long Chen's tribulation!

His sharp senses sensed that something was amiss, so now that the Blood Tyrant Dragon Emperor had given this place to him, he made a strange move and said directly, "Tianmu Emperor! I'm warning you, go down and put away the Forbidden Star Stone. Otherwise, we'll make our move on you!

"

An extremely terrifying aura emanated from Tianmu Emperor's body, causing his blood to burn with a dangerous scent. As soon as he finished speaking, he signalled to the emperors, preparing to capture this strange fellow first.

The crowd didn't know what was going on as they watched the farce in a daze.

However, someone had already tested it. Under the effects of the Forbidden Star Stone, the talisman had indeed lost all of its utility. And according to the speed of the three Dragon Emperor s, it was unknown just how far they had run.

Bloodfire Attack!

At this moment, the Tianmu Emperor suddenly turned around!

However, what no one expected was that he had actually changed his appearance. His body had become red, skinny, and there seemed to be countless thick long snake lying under his skin.

As he screamed out in pain, his body suddenly split open at least a dozen times!

The place where the wound was made exploded with splashes of blood and bloody holes appeared one after another. In the middle of the holes were a dozen palm-sized meatballs that were beating like hearts. Looking closely, one could see countless eyes on them, numbering in the tens of thousands.

However, the bloody ball was too small these days, making it so that even the eyes could not see it!

After being in Slaughter Dragon City for so many years, it was impossible that Xue Ran and a few other martial artists with the body of a Demigod didn't know the appearance of this ' Heavenly Blood Hell ' .

The Heavenly Blood Hell was very large, and the bloody ball in his bloody hole was very small, but it looked exactly the same!

After the great battle between the Everlasting Dragon City and the seven Dragon Emperor, the Black Demon Beast had disappeared. Now, it actually reappeared again, and it even appeared on the body of the Dragon Tomb Army commander who was in charge of the slaughter of the dragon tomb!

Those who were low basically hadn't seen clearly yet.

However, at this time, the dozen or so wails from the Heavenly Blood Infernal Realm were separated from the Emperor Tianmu's body. During the process of escaping, their speed was incomparably fast. In the blink of an eye, a scene that shocked everyone appeared.

The Heavenly Blood Hell once again appeared in this world as they were before. This time, they were even larger. They landed on the sea of blood and exploded into waves of blood!

They surrounded a circle, surrounding the Celestial Slaughter Dragon City in the center. There was not a drop of water that could leak out! There were even quite a few Heavenly Blood Infernal Realm that piled up in the air, blocking everyone's escape route. The only thing they did not dare touch right now was probably the Huang Xie beside Long Chen.

Sand!

In that instant, everyone realized that they had been surrounded.

They looked around in a daze, unable to react for a moment.

Only someone as experienced as Bloodlust and the others would know that at this time, the Tianmu Emperor had already changed so much they couldn't recognize him anymore. These were all enemies.

"Everyone be careful, prepare for battle. This is a plan to lure the tiger out of the mountain, everyone try to find a way to notify the three Dragon Emperor s!"

Fiery Blaze quickly reminded everyone.

They couldn't help but look at Tianmu Emperor, who was still holding onto the Star Sealing Stone. At this time, he had already gone insane, almost becoming a madman.

He casually waved his hand and the tens of thousands of eyes of the Heavenly Blood Hell suddenly split open, and one martial artist after another walked out.
