

War God 2271

Chapter 2271 - The Calamity of Dragon City

How could Long Chen, who was engaged in a final confrontation with the Primordial Yellow Sand, not know of such a scene?

He could clearly see all of this.

It could only be said that it was completely unexpected.

He had suspected since a long time ago that the Heavenly Blood Hell was a member of the Heaven-Devouring Tribe. He never thought that it was actually true.

Tianmu Huang had long since gone mad.

Now, it was his only chance to vent and seek revenge.

From the appearance of the Black Hell Beast, to the luring away of three Dragon Emperor s, to the appearance of the Sky Curtain Emperor with the forbidden star stone in his hand, to the appearance of the Heavenly Blood Hell, this series of plans had clearly been prepared long ago. Even the master of the Emperor Jun City was taken advantage of by the Black Hell Emperor, why couldn't this Sky Curtain Emperor do the same?

He was the same as City Lord Di Jun, they were both people who wished that he could cut Long Chen into pieces.

He knew that the three Dragon Emperor s would want to kill him immediately, so he was confident that he could lure the three Dragon Emperor s out. At the start, he was very disappointed, thinking that the Dragon Emperor would not come out, so his plan had failed.

Later on, the Dragon Emperor couldn't hold it in any longer.

At that time, he finally smiled, and at the same time, he was extremely excited about Tianmu Emperor. He clenched his fists and endured, waiting, it was finally about time for him to take action!

And now, an even more terrifying scene had occurred!

"These people!"

These were all prisoners of the Heavenly Blood Hell. When Long Huazhen had first entered the Heavenly Blood Hell, he had seen one. However, compared to them, who were on the verge of death and in extreme pain, it was obvious that the hundreds of thousands of people that appeared in the eyes of the Heavenly Blood Hell were puppets.

They had sallow yellow bodies and appearances that were miserable to the extreme. There were even holes in their bodies that had been penetrated by the blood vessels of the Heavenly Blood Hell! Their eyes were empty, and their bodies were thin to the point where only their skin and bones remained. Each and every one of them looked miserable and hideous. However, when their lifeless gazes fell onto the members of Slaughter Dragon City, they emitted a dark green light!

Hundreds of thousands of skinny martial artists walked out from the eyes of the Heavenly Blood Hell. That scene had scared many people out of their wits. Anyone who understood that disaster and revenge had arrived!

It was the Slaughter Dragon City people who had imprisoned them in the Heavenly Blood Hell. They would definitely be filled with even more hatred.

It was so densely packed that they had to flee hundreds of thousands of meters away in order to spread the news to the three Dragon Emperor s!

However, the enemy's Heavenly Blood Hell and the hundreds of thousands of skinny warriors had already surrounded the area. With the Tianmu Emperor controlling the entire area, who would be able to leave?

The revenge of the Tianmu Emperor was not as simple as that of Long Chen alone.

Long Chen was his main goal, but not everyone!

Currently, Long Chen was still fighting against the calamity, so he was not in a hurry. He was also filled with resentment towards the Slaughter Dragon City.

The trouble this time, was not inferior to the time in Everlasting Dragon City!

A crisis was approaching!

They were urgently giving out orders and making arrangements for a portion of the experts to protect the majority of the young dragons and bring them into the Divine Kingdom. Then, they quickly found a few people and had them break out to inform the three Dragon Emperor s.

As long as he got his Forbidden Star Stone, there would be no problem.

There were still a portion of experts who had to face the Heavenly Blood Hell. At the very least, from the looks of it, the Heavenly Blood Hell should be very lethal!

They had originally been in a state of chaos, but now that they were under the control of a few powerful experts, they were able to stabilize themselves.

At this time, the Emperor of the Sword Rivers began to lead his subordinates to break out of the encirclement. His attacks were tyrannical and his speed was extraordinary. He was the most suitable person to complete this mission!

"Emperor Tianmu! You better think carefully about what you are doing right now. As a human, yet you betray the human race. The three Dragon Emperor s are not so easily deceived. When they return, you will definitely die! "

Bloodlust couldn't understand what this fellow was thinking.

"I'm not afraid of death at all. What I'm afraid of is that if I'm not comfortable enough, my blood will boil. You dog slave that only knows how to work, you will never understand me. Haha, today I'll give you guys a grand feast to slaughter the Dragon City. Other than that, no one can escape the encirclement of the Heavenly Blood Hell! "

The Tianmu Emperor flew up into the sky. There were several heads of the Heavenly Blood Hell standing horizontally above him, protecting the Tianmu Emperor in the middle.

"Attack!"

Under the order of the Emperor of Heaven's orders, hundreds of thousands of warriors moved like locusts, heading towards the entire Dragon Slayer City.

In the entire Slaughter Dragon City, there were only a few hundred thousand Dragon Fighter and a large portion of them were young dragons. There were also some elderly, weak, women, and children. The number of people who could fight were only a few hundred thousand!

Therefore, in this battle, the Slaughter Dragon City didn't have an advantage at all.

Their opponents were simply not normal martial artists, they couldn't even be considered human. They were simply a part of the Heavenly Blood Hell, a weapon controlled by the Heavenly Blood Hell. They simply had no fear.

Each of their bodies still retained their martial arts insights and their Heavenly Dao insights from when they were alive. They could use a portion of their strength, but most of it came from a type of death energy that was extremely corrosive!

The Blood Dragon Army, Dragon Tomb Army, Wind Moon Army, and so on, all displayed their great utility at this time. The Blood Dragon Army, Dragon Tomb Army, and Wind Moon Army, all displayed their great utility at this time,

Aside from the power of death, the physical strength of those seemingly skinny martial practitioners was also quite terrifying.

They weren't able to turn into dragons, but they could use the power of their mortal body to directly tear apart that divine dragon!

Of course, the vast majority of Dragon Fighter could block these skinny warriors, but even so, they could not avoid the chaos and the deaths of the people. Those skinny warriors had already died long ago, and now, they were no longer living creatures.

Moreover, there were quite a few of them.

After all, not everyone could defeat their opponent.

More importantly, it was an attack from the Heavenly Blood Hell!

Each eye began to contract and tens of thousands of blood vessels were stretched out, and the head had some sharp mouthparts!

Every single Heavenly Blood Hell had tens of thousands of eyes.

There were more than ten Heavenly Blood Infernal Realm.

It could not be described with words how terrifying the war between the Eclipse Tribes was. When tens of thousands of blood vessels emerged from the Heavenly Blood Hell, the first portion became a dense net of blood, completely blocking off all the martial artists' escape routes. It even blocked off the path of the Sword River Emperor!

There was one in Skyblood Infernal Realm that was meant to block the Sword River Emperor!

The remaining blood vessels with mouthparts covered the sky, extending towards Dragon City!

Long Chen saw with his own eyes that one of the fighting Divine Dragons was suddenly pierced by the blood vessels coming from all directions. In that instant, it was sucked into a dried corpse!

Similar scenes were happening in every corner!

Although the Dragon Fighter was powerful, and was able to fend off the skinny warriors, he was still unable to fend off the Heavenly Blood Hell!

The pressure that this placed on the burning blood was undoubtedly terrifying.

It didn't matter that he had been scolded by everyone, or that he had let down three Dragon Emperors, or that the important thing was that he had let down all the dead people. If there was nothing he could do about it, then he could only apologize with his life on the line!

Currently, the Thousand Snow Emperor and other experts were all fighting against Heavenly Blood Hell and the Sword River Emperor were also working hard to break through, while he himself was facing the Four-headed Heaven Blood Hell and the Heavenly Curtain Emperor. He knew that the only thing he needed to do was to kill the Heavenly Curtain Emperor and take the Star Sealing Stone!

As long as the three Dragon Emperor s return, nothing will happen!

The Slaughter Dragon City instantly became hell on earth! This time, the damage was completely beyond Everlasting Dragon City's previous experience, because although Everlasting Dragon City's damage was great, not a single person died, and now, who knows how many people would die in a single breath's time!

Above his head, the Tianmu Emperor's sinister laughter resounded.

"Who would have thought that this would happen? Thousands of years ago, I wouldn't have believed it even if I had died! However, this feeling was truly refreshing! Aren't you looking down on me? I worked hard for so many years, contributing my entire life to the Slaughter Dragon City. In the end, my status and dignity would be inferior to a little fellow's. How unfair! However, there was no fairness in this world! Then go to hell! You must be very nervous right now, Fiery Blaze, right? Today, the entire Dragon Slayer City will no longer exist, so come and kill me, haha! "

He headed towards the back, squeezed himself into the middle of the four Heavenly Blood Hells, and soon disappeared without a trace.

"Brothers and sisters, inform the three Dragon Emperor s as soon as possible if anyone manages to get out! I'll wait for your good news! " He placed all his hopes on the Sword and River Emperor, the Thousand Snow Emperor and the others.

However, the Heavenly Blood Hell knew exactly what they were planning, and their main goal was to stop them!

Blood Blaze disregarded his own safety and rushed towards the four Heavenly Blood Hells!

Everything was in chaos!

Long Chen was still resisting the Primordial Yellow Sand.

He had the deepest feelings for Dragon City, and among them were many of his companions, as well as the little fellows of the War Dragon Clan. Now that the entire Dragon City was facing such a situation, it was all because of him.

"Damn it!"

For a moment, his anger made him almost unable to control himself!

The ancient yellow sand was still raging!

"Charge!"

Long Chen came to his senses and rushed towards the Heavenly Blood Hell, of course, the Primordial Yellow Sands were tightly wrapped around him. When he approached the Heavenly Blood Hell, a large portion of the Primordial Yellow Sands rushed onto the body of the Heavenly Blood Hell, ripping off a large chunk of its flesh!

Long Chen finally saw hope!

Chapter 2272 - Fragmentation

However, it had to be said that the regeneration ability of the Heavenly Blood Hell was quite tyrannical, and they couldn't completely control the Primordial Yellow Sand. After all, the main target of the Primordial Yellow Sand was him.

In just a short quarter of an hour, the main army that had massacred several hundred thousand troops of Dragon City had lost almost ten thousand people. Although even more skinny martial artists had died from the Heavenly Blood Hell, the problem was that they had already lost their lives. For the Heavenly Blood Hell, this wasn't considered a loss at all!

That was why Bloodblaze and the others had focused all of their energy on battling the Heavenly Blood Hell. As long as one of them managed to break through the encirclement, they would be done for!

However, who knew how far away the three Dragon Emperor s were? Even if they knew, it would be too late!

The entire Slaughter Dragon City was filled with the sounds of killing and miserable cries. Bloody scenes could be seen everywhere, and the sea of blood had almost completely submerged the Slaughter Dragon City. Monstrous amounts of blood filled the palaces and streets, and then all sorts of bones floated within the sea of blood.

It would not be an exaggeration to say that it was as bad as being burnt to ashes!

Bloody Blaze clenched his fists. At this point, the situation was already so serious that it was unimaginable. He gritted his teeth and said to the Thousand Snow Emperor who was fighting the Heavenly Blood Hell, "Qianxue! Go wake up the old ancestor! "

"Yes sir!" The Thousand Snow Emperor seemed to have been waiting for this command for a long time. She quickly took human form and rushed into the depths of the Dragon Slayer City!

"It's useless. The old ancestors are going to wake up. They will need some time anyway. When that time comes, the Dragon Slayer City will no longer exist!" The Tianmu Emperor seemed to have already predicted this. In the sky, Heavenly Blood Hell's encirclement laughed loudly.

He was a member of Slaughter Dragon City, so he naturally knew everything about Slaughter Dragon City, especially the 'Old Ancestor' area. His surprise attack this time was extremely sudden, and the price for waking up the Old Ancestor was simply too great, so under normal circumstances, he would not choose to burn with blood.

The reason for making this decision was to fight without any hesitation!

"My fellow brothers and sisters in the Dragon City, we are currently awakening the Old Ancestor. When he comes out, he will die for sure, as long as we endure!" No one is allowed to die! "

Bloodlust shouted high up in the sky.

Upon hearing these words, the people who had been scared witless by the blood of heaven and hell seemed to see the birth of hope. They believed in the power of their ancestors. All they needed to do was persevere and persevere! When they found out about this news, the Dragon Fighters of the Slaughter Dragon City once again shouted loudly. This time they were fighting for their lives, no one would slack off!

The only thing left was to fight to the death, with his own combat strength, he could share the pressure with everyone. Just like Long Chen, even if he was facing the final calamity, he was still fighting for the sake of killing the Dragon City!

Roar!

Hundreds of thousands of divine dragons roared!

The sanguine flames in the skies angrily coalesced into a dragon. A blood-red dragon shot into the sky, heading in the direction of the Tianmu Emperor. And around him, there were a total of four Heavenly Blood Hells that protected him!

"Emperor Tianmu, die!"

The sea of blood spread wherever the blood flames spread, nearly drowning the four heavenly hell. This gave everyone even more courage. Now, everyone only had to fight. As long as they could last until the High Ancestor came out, they would all have to fight!

"Your opponents are not me, they are them!"

Tianmu Huang laughed. The four heavenly blood hells were also welcoming this attack. They were equally fierce, and the blood vessels in their bodies seemed to have countless tentacles waving towards the blood flames, slicing through them one by one. This was simply a nightmare!

Below, in the midst of tenacious resistance, more warriors had died one by one!

Someone had been killed by that skinny martial artist's all-out attack!

Some people allowed the blood vessels of the Heavenly Blood Hell to be drained, turning them into nourishment for the other party.

No matter the method of death, they all died in a miserable manner, adding to the power of fear. Slaughter Dragon City had never encountered such a disaster. This was a historic moment, and also a disastrous moment!

Or perhaps, this was just the beginning!

When they saw the people around them die one by one, all of them went crazy. They all turned into divine dragons, howling and roaring. They shook the world and fought with all their might. This was the wrath of the divine dragons! Only by becoming this crazy could they block out the opponent's attacks!

KILL, KILL, KILL!

Long Chen clearly saw this scene from high up in the sky.

These were all his compatriots, yet to be killed like this, his heart was dripping with blood. Whether it was the blood of the Primordial Blood Dragon, or the influence of the will of the Three Great Ancestral Dragons, or perhaps it was his own love for the Divine Dragon lineage, he found it difficult to breathe.

RUU...!

A huge boom rumbled through his body, and his eyes instantly turned red. He probably hadn't felt this degree of anger for a long time!

"Emperor of the Heavens, Emperor of the Black Underworld!"

This was their joint plan's attack!

The reason for this had a lot to do with him.

The only way for Long Chen to do so was to pass through the last tribulation as quickly as possible. In the process of going through the five elements tribulation, every time Long Chen endured a tribulation, his ability would rise by a level. The energy of the tribulation would be absorbed by him, absorbed by the seed formed in his body before the origin energy of the five elements!

Right now, the power of the five elements was devouring the power of the four elephants, causing him to be even more powerful. He felt an unprecedented power, and all his previous pity, anger, and roars!

"What an exciting Five Elements tribulation." Right at this moment, the Tianmu Emperor appeared before his eyes. With a withered yellow body, he looked at Long Chen with a ridiculing smile in his lifeless eyes.

He was the main culprit of this disaster!

"Bastard!"

As a member of Slaughter Dragon City, yet betraying his own kind and race, this kind of person should truly be despised, and not Long Qinglan.

"Yes, I am an animal." Tianmu Emperor laughed cruelly, opened his arms wide and said: "But so what? History will only remember that I was the one who destroyed Slaughter Dragon City, and the one who caused the destruction of Slaughter Dragon City today is you. "You are the true sinner of the ages, even more despicable than your father!"

He was so excited that he could not control his laughter. He continued to ask, "Genius? To be able to become an expert with the body of a demigod, who wasn't said to be a peerless genius? But in this world, there have only ever been two geniuses that truly made people feel fear and respect for them. One was the former Eternal Dragon Emperor, and the other was you, Long Chen. You are father and son. I don't know whose hand the Eternal Dragon Emperor will end up in, but history will remember, and I will definitely end up with you, Long Chen. But it doesn't matter, I have already reached this level. The more people remember my name, the more comfortable I feel in my heart. "

After saying so much, he was actually venting his anger.

He was miserable, depressed, crazy. However, this was not his pitiful reason. Moreover, there must be something hateful about the pitiful person! The hateful aspects of Tianmu Emperor made Long Chen wish he could tear him apart immediately!

He did not know about the ancestor of the Slaughter Dragon City, but judging from the situation with Emperor Tianmu's plan, it should not be possible. In addition, the Heavenly Blood Hell was guarding too tightly. There was no way they could attack at this time!

"How can I break this ancient yellow sand?"

The sand that was circulating at a high speed had the most deadly killing power, so even Long Chen's current body could be directly penetrated.

Even now, the Primordial Yellow Sand was not reduced in the slightest.

"Just wait and see. When you pass through this calamity, most likely everyone in the Slaughter Dragon City will die because of you. They will all be in such a miserable state. "That's right, you are guilty. Who let you offend me?"

The Tianmu Emperor was no longer the him of the past, and was probably influenced by the Heavenly Blood Hell.

The current him was a walking corpse.

However, this did not affect the loathing that Long Chen felt from his bones. When that wave of anger reached its peak, Long Chen did not care about anything else, such a person must be killed, he could not be courteous, he could not hesitate, and at that moment, his eyes turned blood-red. Then, unable to suppress himself any longer, he rushed out, straight towards the Emperor of the Heavens!

The God Slaying Sword unleashed hundreds of millions of sword beams, the flame of his life force completely enveloped him, covering every inch of his body. He was not afraid of death, he was only afraid of the deaths of the people around him.

In that moment, Long Chen used all of his skills, fighting with all he had. He did not know if fighting the Primordial Yellow Sand like this would result in death, he only knew that if he did not come out, he would regret it for the rest of his life!

"Spacetime reversal!"

"Time Tempest!"

The power of time was the most suitable for fighting against the Primordial Yellow Sand, the Killing Sword Technique, and the Flame of Life.

In that instant, he simply did not know how much ancient yellow sand had penetrated his body. He focused on protecting one area, and that was her primordial spirit. As long as her primordial spirit did not die, his fires of life would never let his body die!

As long as his primordial spirit did not die, as long as he rushed out from within, he would succeed.

Even the Tianmu Emperor couldn't understand his actions.

"Is he seeking death?"

This way, breaking out of the encirclement would be courting death. And it was also true that he saw Long Chen very quickly being riddled with thousands of wounds, and his body would explode with countless bloody light. He saw Long Chen's entire body being smashed into smithereens, to the point where not even ashes could be seen.

"Idiot, idiot, haha!"

Tianmu Emperor never thought that Long Chen would die like this.

"He's still too young and impulsive. If it were me, I wouldn't care about these people's lives. "

He couldn't help but sigh.

But what did he see next?

He saw the Long Chen that appeared in front of him.

Even though it was fragmented!

Chapter 2273 - Seamless Soulreaper

To Long Chen, many things were more important than the pain in his body. Of course, he knew that the Primordial Yellow Sand was unable to kill him, which was why he was so bold. He charged straight out.

This time, it caused a large amount of archaic yellow sand to pierce through him. The pain was indescribable.

However, for the sake of the final success, it was worth it.

No one would have thought that while everyone was fighting for the sake of survival, dignity and glory, this Long Chen who was the protagonist at the start and was then forgotten by everyone, would actually rush out from the Primordial Yellow Sand, pass through this calamity, and successfully advance to the Five Element tribulation of reincarnation.

They did not see what was happening in this corner.

The current Long Chen, even though his body was already drenched in blood, the Primordial Yellow Sand had already turned into pure energy and entered his body, filling up the five elements within his body.

The perfect five elements, had allowed his cultivation to once again climb to the top. Adding Li Xuanji's yin devil energy, only Long Chen would know what level he had reached, since he could already be on a stalemate with the Emperor of the Heavens.

Under the burning of the life flame, Long Chen's body recovered at a speed visible to the naked eye, and grew to an even more perfect state. As the powers of the five elements converged, his Primordial Blood Spirit Dragon body continued to grow. Currently, he had already reached the level where he would be able to progress from a young dragon to a young one.

Perhaps after becoming a god, his Primordial Blood Dragon's body would be equivalent to a youth.

At the same time, Great Void Cosmic Dragon s were also improving.

He looked at him as he gradually raised his head and saw his pair of blood-red eyes. To Long Chen, there was not much time left, if he was a step slower, many people would have died under the attacks of the Heavenly Blood Hell!

"He is indeed a proud son of heaven, a peerless genius who is tougher and crueler than your father!"

Of course, so what if Long Chen came out? There were more than a dozen Heavenly Blood Underworld cultivators, so how could he turn the tables? It had to be known that even if the three Dragon Emperor s

were notified, they might not be able to return at the right time. With the cunning Emperor Hei Yan's ability, he would definitely lure them far away!

After all, the three Dragon Emperor s did not know that the Heavenly Blood Hell would appear.

"However, you still have to die!"

Right now, the Tianmu Emperor only wanted to kill Long Chen. This was his most important goal today, and also his most important goal!

The first thing Long Chen did was to let the five clones of the Ancient God's Corpse come out.

Those five clones were formed from the core of the five elements of the world. They were similar to the source palace and the pills, but they were much more precious!

"Go!"

Under Long Chen's control, these five were extremely strong, equivalent to five clones of warriors at the early stage of the SemiGod Realm. Adding them into the battle at the Dragon Slayer City, it was equivalent to five helpers equivalent to the City Lord of Di Jun. The appearance of the five of them brought snow and charcoal to the Dragon Slayer City, allowing the chaotic situation to stabilize once again!

These five identities all had Long Chen's will!

It was because of this that they seemed so terrifying!

In their attacks, they had turned the tide.

"That's Long Chen!"

Although it was a fusion with Li Xuanji, many people still discovered that it was similar to Long Chen. They couldn't help but look for Long Chen's real body, and when they saw that he had passed through

the five element tribulation and was about to fight the Emperor of Heaven's Curtain, the people's morale rose even higher, as if they saw a new hope!

That's right, to them, Long Chen was someone who had created miracles. He was terrifyingly tenacious, even if the entire Slaughter Dragon City had collapsed, he might not fall!

His tenacity and calmness was an inspiration to everyone!

"Brothers, we're saved!"

"Long Chen, you will definitely kill Tianmu Emperor. As long as he dies, we will win!"

They were not aware of Long Chen being able to kill the Emperor of the Heaven, but they were hoping, hoping for victory, hoping for this disaster to come to an end. They were the martial artists from Slaughter Dragon City. They had killed countless people in their lives, so they were not afraid!

People who weren't afraid of death were always the scariest.

Just like Long Chen.

And now, the Tianmu Emperor had treated him as an enemy. In this intense confrontation, the Tianmu Emperor had directly turned into a dragon amidst his laughter!

At that moment, everyone's eyes were no longer focused on fighting the Four Heaven Blood Hells by themselves, but on Long Chen and Tianmu Emperor, they were facing off against each other once again!

The Tianmu Emperor became three Hell Dragons!

This was a Ultimate Dragon that was almost equivalent to a Grand Creation Yin Yang Dragon, with three dragon heads. What Long Chen saw right now was a three-headed divine dragon with dried up yellow dragon scales that radiated an endless aura of death.

The divine dragon's body was covered with curved thorns, forming a sharp and deadly barb!

The most important thing was three huge dragon heads, one lord and two assistants.

On the left was the fiery red head of the Eight Heats Hell Dragon.

On the right was the icy-blue 'Eight Freezing Hell Dragon Head'.

In the middle was an extremely sturdy man with countless sharp thorns growing on his back. There was also a spiraling dragon head that spun ten rounds around the dragon head. The name of the dragon head was: Seamless Hell Dragon Head!

When the three Hell Dragon appeared, it was almost equivalent to a bloodbath. Their strength was well-known even in the Slaughter Dragon City!

The three dragon heads were filled with a deathly aura as they continued to roar, shaking the world and scaring many people.

For a moment, everyone was panicking.

However, at this time, an ordinary looking blood-colored dragon had already blocked the view of the three Hell Dragon. Although its body wasn't as large as these three Hell Dragon, to be honest, in terms of killing intent and baleful aura, the three Hell Dragon were inferior to Long Chen.

Long Chen's anger had long ago reached its limit!

He had feelings for the Slaughter Dragon City.

It was so much so that he felt like he was protecting all the Dragon Fighter, because he had inherited the legacy of the Divine Dragon's Ancestors.

And Tianmu Emperor was destroying everything.

"Today is the day you die!"

When all of his power was accumulated to the peak, the violence that erupted when would be unimaginable. Long Chen's wild roar had suppressed all other sounds, and let all the Dragon Fighter hear it, so they deeply felt how brutal and powerful he was right now!

Even Bloodlust revealed a look of deep shock.

The Tianmu Emperor was also shocked, what was he facing?

"Did he scare me just like that?" He could not help but sneer. He had already succeeded, as long as he could kill Long Chen, in a hundred thousand years, everyone in Dragon God Domain would remember him!

The feeling made him shiver with excitement.

"Die, die!"

The Eight Heats Hell Dragon on the left began to blaze, and within the dragon's mouth was a dried yellow flame. It was the Hellfire, the famous 'Netherworld Flame' of the three Hell Dragons. The flames from the Infernal Realm possessed the power to exterminate the world!

The Netherworld Flame was a combination of eight types of Hellfire. The world had changed color as soon as it appeared, as if all the heat was being absorbed by the flames.

The Eight Freezing Hell Dragon's head on the right was covered by an icy blue fog. It was extremely cold, and even more sinister. The dragon's mouth had already been covered with the 'Gui Qi'. It was an evil being that was on par with the Netherworld Flame.

The two evil beings were famous techniques controlled by the three Hell Dragon!

But of course, if that was all there was to it, the three Helldragons wouldn't be that terrifying.

What he was most adept at was fusing the Netherworld Flame and the Gui Qi to form a new divine ability!

"Die!"

Right now, Emperor Tianmu's two dragon heads spat out the underworld fire and Gui Qi. The two evil beings that had been embedded in the formation that appeared out of thin air before him, began to fuse together!

"Eight Dark and Eight Cold Hells Gate!"

In that instant, it was as if the entire sea of blood was trembling, the world was trembling, and even Heavenly Blood Hell was affected. The first thing that was born was a huge whirlpool, the whirlpool was filled with blood-red mist and countless corpses. At the core of the whirlpool, a terrifying stone door was born, on it were engravings of divine runes, and the dark yellow door was ajar, as if there was a monster that could destroy the world!

"Spacetime reversal!"

Just as everyone was worrying for Long Chen, Long Chen's expression did not change. When he calmly took action, his seemingly calm attack actually hid the overflowing anger in his heart.

Unexpectedly, the reversal of time and space was so powerful that it caused the stone door to retreat, reversed the vortex, split the Nether Flame and Gui Qi, and then dissipated! This was the power of Long Chen's space-time reversal!

When the deadly attack shattered in front of Long Chen's eyes, the fighting spirit of the entire Slaughter Dragon City surged, producing a shocking uproar. At this moment, Long Chen had become the hero in their hearts, but this was far from over!

Space-time reversal was just a warm-up, what Long Chen was truly prepared for was the Myriad Death Claw!

After completing the reversal of time and space, he also completed the Myriad Death Claw. The Myriad Death Power was born from the dragon claw and became his deadliest weapon. This was a seemingly simple but also the most terrifying attack!

The time and space reversal had just ended, the Primordial Blood Spirit Dragon was advancing furiously. If a blood arrow were to shoot towards the Emperor of the Heavens, Long Chen would use this move to deal with it.

This was a shocking collision!

Honestly speaking, even though he had trained for tens of thousands of years, he was still intimidated by Long Chen's terrifying killing intent. He was born to kill, and no matter what, the Primordial Blood Spirit Dragon was the most suitable for him.

For the first time, the pressure from the ancestor caused the Tianmu Emperor to feel fear. It was as if he was a child who had done something wrong, and he felt a sense of fear.

There was not a single elder who would allow their junior to kill the rest of the juniors, but Tianmu Emperor had done so.

"Seamless Soulreaper!"

The Tianmu Emperor could not help but use the killing move that he was most satisfied with!

Chapter 2274 - Ancestor

The Seamless Ghost was cast using the Seamless Hell Draconic Head in the middle.

This was the most profoundly affecting ability of the three-headed Hell Dragon. The The Age of Dragons, and the three-headed Hell Dragon were famous for their Seamless Soulreaper ability, so they were able to instantly kill countless of his opponents and become a Ultimate Dragon!

With the appearance of the Seamless Soulreaper, the scene seemed to surpass Long Chen's Thousand Death Claw.

That sharp dragon horn immediately grew several times larger, to the point that it was even half of his body. That was simply a weapon. At the same time, it began to spin at high speed, creating a wave of death!

"Go to hell!"

Tianmu Huang roared to cover the nervousness in his heart.

The two blood arrows clashed in the air!

Pch!

The sounds echoed continuously, and it did not seem as if both sides had suffered injuries, as though they had missed their target. Everyone could see that when the Unbroken Soulreaper Skill grazed past Long Chen's dragon scales, it had raised a lot of flesh and blood, but Long Chen's flames of life had quickly recovered him, and Sky Curtain Emperor was not injured at all?

What they saw was the coiling of the sky as it stopped in midair.

His eyes glazed over. The three-headed dragon capital was distorted.

The spiral dragon horn on the head of the Unbroken Hell Dragon seemed to have a few claw marks on it.

At the moment when everything seemed to be frozen, the claws glowed with light, causing the spiral dragon horn to immediately explode and turn into powder! This was the most important attack of the three Hell Dragons. After the draconic horn disappeared, the three Hell Dragons were like wild beasts whose teeth had been pulled out.

However, this was only the beginning. Following that, the eight hot and eight cold hell dragon heads of the three hells exploded as well, filling the sky with blood and gore, accompanied by the cries of Emperor Tianmu!

His bloodied body rolled violently around in the air, struggling, and he screamed out again and again, to the point of making his scalp feel full, while Long Chen turned back and coldly stared at him!

Just one match had resulted in victory and defeat.

This scene nearly caused everyone to suffocate, to the point where even Blood Blaze was stunned. He guessed that Long Chen might be able to kill Sky Emperor, but he never expected it to happen so quickly.

"Forbidden Star Stone!"

The Bloodrinker couldn't help but remind him.

At this time, the forbidden star stone that was protected by Emperor Tianmu also exploded!

The forbidden star stone had to be outside of the Divine Kingdom for it to be effective, so the Emperor Tianmu definitely could not keep it, so he received attention from Long Chen.

He contacted the three Dragon Emperor s. At this time, the Black Hell King was still leading the three Dragon Emperor s by the nose, and it wasn't for a long time. However, they had walked a distance, and upon hearing the news, they were about to rush back!

He thought that Tianmu Emperor's move today would be very difficult to succeed, at least he would not be able to kill Long Chen now!

The current Long Chen was not someone he could kill just because he wanted to!

Long Chen once again returned to the three-headed Hell Dragon's side. This time, he extended his dragon claw, directly pressing down the fiercely struggling three-headed Hell Dragon.

"AHH!"

Once again, the Heavenly Curtain Emperor was controlled by Long Chen's Thousand Death Claw. This time, Long Chen used all of his dragon claws to directly press the opponent to death, controlling his body and preventing the Heavenly Curtain Emperor from moving!

The danger of death was so close!

Killing the Dragon City's people while dealing with the enemy, while watching this scene with tears in their eyes!

"Long Chen, if you have anything to say, we can discuss it. I'll get the Heavenly Blood Hell to stop right now, you can let me go!"

The heart of the Tianmu Emperor was crushed.

Long Chen was a perfect killer, he directly used the crudest method to block his mouth.

If everyone was watching, would Long Chen stop?

After all, even if they killed the Emperor of Heaven's Curtain, it would be difficult for him to deal with so many people from the Heavenly Blood Hell by himself. If they allowed the three Dragon Emperors to return, they would probably lose even more people!

What everyone didn't expect was that Long Chen's answer was very straightforward!

His bloodshot eyes never showed the slightest hesitation. When the Tianmu Emperor was completely in his control, he suddenly opened his dragon teeth, and with a fierce bite, directly bit the head of the Unbroken Hell Dragon into pieces!

Everyone looked at this tragic scene!

Following that, the body of the Tianmu Emperor was also ripped apart by him!

There was nothing left!

Of course, the Ultimate Dragon would reincarnate a second time.

But Long Chen was already prepared, when the opponent's body was still congealed, before he could finish, his Ten Thousand Death Claw had already penetrated the opponent's body, and at the moment when Tianmu Huang was at his most alarmed, he once again tore it apart!

Simple and brutal, just kill him!

"Puchi!"

The bloody lights of the three Hell Dragon filled the sky. They fell from the sky, turned into dust, and fell into the sea of blood.

In the sky, that blood colored divine dragon was incomparably dazzling, to the point that all the Dragon Fighter had almost forgotten to kill.

Killing the Tianmu Emperor, just because Long Chen vented his anger and hatred, the death of the Emperor did not mean that the Dragon Slayer City would be able to save him. The Emperor thought that he had control over the entire Heavenly Blood Hell, but he did not know that it was the Heavenly Blood Hell that had control over him!

The slaughter of the Heavenly Blood Hell continued!

The disaster still continued, it was just the death of Tianmu Emperor.

At this time, the countless dragon scales on Long Chen's body flickered!

This time, another million Blood Weeping Dragon souls were born, with the increase in his personal strength, the individual battle power of the Blood Weeping Dragon souls also increased by a large amount. When the one million Blood Weeping Dragon souls joined in the battle, they helped the Dragon Fighter, making it easier to deal with the skinny warriors.

From now on, these puppets could no longer cause any harm to the warriors of Dragon City.

The rest was Heavenly Blood Hell!

Over a dozen of the Heavenly Blood Hell's executioners were the ones who brought the most damage to Dragon City.

Long Chen hated the Emperor of the Heavens, he hated these monsters even more, the Heaven Devouring Race!

He let out a roar in the air, like a peerless emperor, like a bloody arrow swooping down. The Ten Thousand Deadly Claw was already prepared.

A killing will. Blood-colored flames, storms, thunder, and frost!

Each claw strike contained the ultimate explosive power of the fifth level.

However, Long Chen was different. He was like a blood arrow, piercing deeply into the opponent's body, and then ripping it apart with his Ten Thousand Deadly Claw!

Hu hu hu hu!

Everyone saw that one of the Heavenly Blood Infernal Realm began to shake violently. Then, in a flash, it suddenly exploded into countless fragments. However, even these fragments were turned into nothingness by the crimson flames, frost, and the like during the process.

It was such a destructive attack that the opponent had no chance of rebirth!

A Heavenly Blood Hell. Completely dead. Disappeared!

This was just the beginning.

Everyone finally saw the light of hope.

RUU...!

"Long Chen, he did it!"

For a moment, everyone who was seemingly safe and sound stopped their movements. With incomparably respectful eyes, they looked at Long Chen, who had turned the tide all by himself!

He once again entered the body of the second Heavenly Blood Hell.

Ten Thousand Deadly Claw!

The second Heavenly Blood Hell was once again torn to shreds!

Especially since Long Chen's five clones were still controlling other Heavenly Blood Hells. In an instant, they changed the way they battled and stabilized Heavenly Blood Hell, waiting for Long Chen to kill them!

This was a massacre!

It was as if Long Chen had been sucked into the Heavenly Blood Hell, causing them to tremble under Long Chen's attack. It was obvious that the intelligence of Heavenly Blood Hell was no match for that of Black Hell Beast, or even a lot weaker.

There were Blood Weeping Dragons, and most of them joined the crowd who were anxious to watch the show.

The current Long Chen was like a god, countless people worshipped him.

His 10,000 Death Claw swept across the bodies of every single Heavenly Blood Hell, tearing them to pieces!

Time slowly passed, and Long Chen was the only one fighting. There were no longer any casualties in the entire Slaughter Dragon City.

It was hard to imagine that this could actually be done by a single person!

It was simply a miracle!

When close to ten Heavenly Blood Hells were destroyed, the Thousand Snow Emperor had already brought out a few elders. The blood heat hurried over to pay respects to the elders, and then introduce Long Chen, but when it saw that everything was under control, the elders were also extremely shocked and looked at Long Chen in a daze.

"This is, Long Qinglan's son?"

"So many things have happened while we were 'sleeping'?"

The elders were all filled with astonishment and shock. They had seen through Long Chen's strength. He was definitely at the heaven-defying level.

They were even closing in on them.

So they used a secret technique to freeze their own bodies, allowing them to enter a half-dead state to escape this calamity. Most of them had already reached the early stages of the Nine Palace Calamity, while the fifteen Dragon Emperors were basically at the late stage of the Nine Palace Calamity, and were close to becoming a god.

However, there was still one more obstacle to becoming a Deity, and that was the divine tribulation.

True God tribulation.

That was the final conclusion after Eighteen Major Tribulations. Generally speaking, they would descend ten thousand years after the end of the Nine Palace Calamity. However, if the divine tribulation was triggered in advance, it was still possible.

These elders understood that they would not even be able to reach the late stage of the Nine Palace Calamity, let alone the Divine Tribulation Realm. To them, it was as if they were in a deep slumber. This could delay the arrival of death, and at the most critical moment, they could serve the Five Dragon Cities and contribute their power.

Just like in the True Martial Imperial Palace, for the True Martial Emperor to hide within a Dao Artifact was the same.

However, they were facing a divine tribulation, so they had to be even more hidden.

Even sleeping would only give them one chance. That is to say, if they were awakened, it would be difficult for them to enter that state again.

This was the price.

The method that the Blood Ember used was correct. In that situation just now, the Dragon Slaying City was in a critical situation. He could only wake up the old ancestors. It was just that they did not expect an accident like Long Chen to happen. He immediately turned the tides and ended the battle so that the old ancestors did not have the chance to take action.

This was a disaster, so the elders did not blame the bloodlust.

They were even more curious about Long Chen, the person who was a complete hero in this battle.

Chapter 2275 - Terminator

The Heavenly Blood Hell was originally a place used to slaughter the dragon city and imprison the Dragon God Domain, with many extremely vicious people. After being under the sea of blood for so many years, even the previous Dragon Emperor only felt that this thing was strange. However, they did not take it to heart. The Heavenly Blood Hell could produce terrifying punishments, causing people to tremble in fear. This caused the hearts of all the living beings in Dragon God Domain to be filled with fear, and they did not even dare to commit heinous acts.

For all these years, Heaven's Blood Earth had been of help to the Dragon God Domain.

It was just that during the chaos of the Everlasting Dragon City's Black Underworld Beast, Heavenly Blood Hell had disappeared in time. When they reappeared again, it was as if everything had been returned to Slaughter Dragon City. From today onwards, all the martial practitioners of Dragon City would completely remember the terror of the Heavenly Blood Hell!

Even if Long Chen turned the tide in the end, the number of people who died would exceed twenty thousand, which was much more serious than the Black Underworld Beast's chaos in Everlasting Dragon City.

At this moment, the skinny martial practitioners controlled by Heavenly Blood Hell had all turned to ash and dissipated into the air. They could be considered to be at peace once Heavenly Blood Hell died.

At least, not anymore.

Now that the entire sea of blood had gradually quietened down, but the battle was not over. The 'old ancestors' came out from their self-seal and helped Long Chen, who had great destructive powers towards the Heavenly Blood Hell, to massacre the entire Heavenly Blood Hell. But in the end, Long Chen left two Heavenly Blood Hells, and these two Heavenly Blood Hells could no longer create any waves!

All the experts surrounded them.

"How do we capture them alive?" Long Chen turned his head and asked. He had a rough understanding of these new elders, and he was certain that they were all experts from the older generation that had

gone into closed-door training in Dragon City. Their strength was only second to the three Dragon Emperor s, and there were even more that were stronger than the Blood Blaze.

"Use my 'Yiyuan Pagoda'."

An old man walked forward, preparing to suppress this Heavenly Blood Hell.

At this moment, the remaining two Heavenly Blood Hells suddenly wailed. Crimson flames ignited from their bodies, engulfing their entire bodies in flames and turning their bodies into ashes as they dissipated into the air.

They kill themselves!

This kind of suicide, even if Long Chen had known about it already, he probably wouldn't be able to stop it. This was an extremely strange creature, at least all of them had disappeared from Long Chen's sight. Even if Long Chen had stabbed into their bodies and killed more than ten of them, he still wouldn't know anything about this monster.

When the last two Heavenly Blood Hell's forces disappeared, the entire Blood Sea and the Dragon Slayer City finally quietened down.

He had wanted to keep the two of them.

Right now, although the Dragon City was in a state of devastation and many people had been killed without leaving a single corpse behind, such a disaster wasn't enough to defeat them.

Many people went to search for their friends and relatives. There were many whimpering and crying, and even more people were silent. They were in a trance, but no one expected such a thing to happen today.

He could only wait for the three Dragon Emperor s to return. According to the time, the blood fever had already told them what was happening, so the three Dragon Emperor s were not as anxious as they were before.

As for Long Chen, he was standing in the middle of Bloody Blaze and the others, having experienced such an exhausting battle. Now, both he and Li Xuanji were extremely exhausted.

But no matter what, Long Chen still used his own strength to conquer his opponent, and obtained everyone's trust and respect. Although the main goal of the Heavenly Mystery Emperor was to kill Long Chen, if he did not come here, then these tens of thousands of people would not have died, but that was a matter of life and death, and not something Long Chen could do anything to.

Furthermore, if they did not kill the Tianmu Emperor and all this Heavenly Blood Hell, they would have brought a great calamity upon Dragon City one day. If not for Long Chen turning the tide at such a crucial moment today, the losses would have been even more severe.

Killing the Tianmu Emperor alone meant that he had already reached the peak of the body of a demigod. Their sleeping time was different from each other, and there were even some that appeared before Long Qinglan was born. Now that they heard about it, they knew that so many things had actually happened in all these years.

"A miracle, a miracle!"

The elders were all sighing.

Long Chen was now on top of the heads of all the warriors in the Dragon City. He felt that he had caused all of the casualties, so he felt extremely guilty, but the Dragon Fighter obviously did not think that way. When Long Chen appeared in this position, many of them were still crying, but they cheered.

they were cheering for Long Chen!

He had turned the tide for his strength, for his strength. Now that he had grown to such a stage, in addition to the fact that everyone already completely understood him, knew his nature, and knew his personality. A person like him would not be betrayed like Emperor Tianmu.

Just like today, when he was facing a true traitor, he didn't hold back in the slightest.

"Long Chen! Long Chen! " They shouted Long Chen's name.

Right at this time, the three Dragon Emperor s finally returned.

From this, it could be seen just how far they had chased. They had decided to eliminate the Black Hell King, the monster of a genius, and the Black Hell King had decided to lure them away. In this way, it would be difficult for them to not fall into her trap, and the Black Hell King had grasped onto their minds and deceived the three Dragon Emperor s.

The three Dragon Emperor s looked at the scene below them. Although their expressions were calm, only they themselves knew just how much killing intent they had in their hearts.

Everyone paid their respects to Dragon Emperor.

"Today, the three of us made a mistake, were used, fell into someone else's trap, and caused the Dragon City to suffer a loss that hasn't occurred for tens of thousands of years. This is the fault of the three of us."

The Blood Tyrant Dragon Emperor admitted it very straightforwardly and apologized to all the Slaughter Dragon City Warriors.

Of course they wouldn't blame the three Dragon Emperor s, this matter had happened too suddenly, no one would have thought that the one everyone hated would be the Tianmu Emperor, and now that the Tianmu Emperor was dead, it was no different.

"Bloodlust, take care of it." Long Chen, and many other elders who have just woken up, please follow us.

"

The Blood Tyrant Dragon Emperor gave the order for Blood Blaze to lead the people to organize the rest of the battle. They entered the central palace along with a few emperors.

Three Dragon Emperor s sat in the seat of honor.

They looked at Long Chen and were very surprised and satisfied with his performance today.

The Bloody Dragon Emperor continued: "The Black Hell Emperor's origins are unknown, the Heavenly Emperor was used to her advantage, and so she has already suffered a terrible outcome. The previously disappearing Heavenly Blood Hell has also become extinct. So from today onwards, our Five Dragon Cities will have to be on full alert to prevent the events of today from happening again. At the same time, the most important thing is to find the Black Emperor and kill him. "

As for the method, they were sure that they did not have it at the moment, and would need fifteen Dragon Emperor to discuss it at the same time.

The news of the massacre of the Dragon City had already spread throughout the Five Dragon Cities, and was even about to spread to the 72 - The Ancient City of God's descendants. If things continued like this, the entire Dragon God Domain would know in a few days that the slaughter of the Dragon City was going to be difficult. However, up until now, the Heavenly Blood Hell and the Black Demon Beast had indeed been a mystery.

"I can't underestimate Emperor Blackpeak. From today onwards, I'll probably have to go all out to deal with him." The Ten Thousand Killing Dragon Emperor said seriously.

Next, the elders began to understand what had happened.

The three Dragon Emperor s had assigned them to guard the Slaughter Dragon City. If something similar happened to them this time, they would be able to stop them immediately and reduce their losses.

Then, it was left to Long Chen himself.

"Sure enough, you completed the mission much faster than we expected. If we were to go even higher now, I'm guessing that there are already many people in this world who can defeat you. We fifteen Dragon Emperor are only a bit stronger than you. "

In fact, it was largely thanks to Li Xuanji.

For example, right now, although he had raised his tribulation of reincarnation to the Five Elements, without Li Xuanji's help, Long Chen would at most be at a stalemate with Emperor Tianmu. This was his true strength, so defeating him would probably be very difficult. It was definitely not as easy as it was today.

Unknowingly, Long Chen had not thought that he was already standing in such an important position.

"Come and chat Long Chen. Do you think we'll face a similar crisis in the future?" The Blood Red Dragon Emperor was talking to him from the perspective of a friend.

He was so courteous, Long Chen immediately expressed his thoughts. He said: "Now that the Black Hell King is in trouble and is living amongst his close friends, who else would know of anyone else besides the Heavenly Blood Hell? Therefore, we must not underestimate this person. He will definitely bring us new troubles. So the situation is not looking good. "

Speaking to this point, he paused for a moment before continuing, "Also, the two people from the demon star have come here, their goal is to snatch the five dragon pearls, remove the Magic Star Seal, and let the demon horde enter the Immortal God Realm. That isn't a problem for the Dragon God Domain, but rather, it's the entire Immortal God Realm's crisis, so these two people have to be extra careful.

The three Dragon Emperor s only acknowledged the two dangers. They were not frightened birds, but their enemy's attack was just too fierce.

"What's the third one?"

The three Dragon Emperor s immediately asked.

"The War of the Gods." Long Chen replied.

He and Yongye had been to the White Bone God Palace, and the five Dragon Emperor s had been to the Spirit Sea, especially the Blood Tyrant Dragon Emperor. He had a deep impression of them, and when he heard Long Chen's words, his body trembled and he nodded, saying, "That's right, the God's battlefield is indeed the biggest bomb in the world. It seems like if these old ghosts are to wake up, they will definitely be of great use in the future.

Of course, they did not give in.

After that, they would have to fight back. Their first target would still be to kill the Black King.

However, Li Xuanji seemed to have her own thoughts.

Chapter 2276 - Waiting for you to return

The slaying of the dragon city was currently being reorganized under the blood-lust arrangements. The three Dragon Emperor s were also in a terrible state of anxiety as they discussed with the other Dragon Emperor about the three problems that had come from the Black Underworld Emperor, the two devils, and the battlefield of the gods. The other side was in the dark while the human side was in the light. This was especially true for the Black Hell Emperor, who had appeared multiple times and caused great trouble for everyone. But the strange thing was, no one knew what his true level of combat strength was right now.

However, since he was able to shake off the pursuers of the three Dragon Emperor s and play around with the three Dragon Emperor s of Dragon City, it proved that he still possessed a terrifying ability.

The less you look down on him, the more you will suffer. For example, this time.

In terms of concealment and appearing and disappearing, no one in this world could compare to him.

The Black Hell King was a terrifying enemy that had entered the field of vision of all the humans. Even the ordinary people knew that he was a strange creature called the Black Hell Beast, not a demon from the desolate beasts, but she was even more terrifying than a demon from the desolate beasts.

For a time, even the entire human race was panicking.

Under this situation, Long Chen returned to the Scarlet Dragon Palace in the Dragon Slaying City.

Previously, when he went to the young dragon palace to take a look, the martial practitioners of the palace had been protected from the very start of the battle.

Of course, they were very clear about Long Chen's performance before. They had a deeper understanding of Long Chen's terror, because they knew that when Long Chen first met them, he was far from having this level of strength.

But now, he is the strongest person under the body of a demigod.

In the entire Immortal God Realm, he was ranked in the top 100.

There were tens of billions of life forms in the Immortal God Realm. To be able to rush to such a level was already the peak of all life.

As for the trillions of lives in Dragon Sacrifice Continent, Long Chen had long ago surpassed them.

The reason he came to the Scarlet Dragon Palace was because Li Xuanji had asked him a question.

At this time, they were standing on the glazed roof of the Crimson Dragon Palace, facing the bloody wind that blew from the sea of blood. Their long hair and clothes fluttered in the wind. After Long Chen's Five Elements Tribulation, he showed himself again during the day. However, now that he was in darkness again, it was time for the true night to come.

Streaks of blood-red starlight flickered in the sky.

In today's battle, Long Chen had killed the Tianmu Emperor and over a dozen of the Heaven Blood Infernal Realm, and used a large number of claws to attack. He had just reached the five element tribulation of reincarnation, but he had already expended a large amount of his energy.

It seemed that letting Li Xuanji turn into a Yin Mo and become her own power was not all a good thing. At the very least, it would be a burden to her, unlike Ling Xi and Su Su's blood, where the two of them could fuse and improve together.

Under the darkness of the night, Li Xuanji's fair and tender face that shone under the starlight appeared to be a little depressed.

"I may have to leave you."

She bit her lips and spoke in a slightly cold and choked voice.

When she came out of the palace, she had said this to Long Chen.

"This was requested by my Master. She said it was for my own good and he was very unyielding.

"Therefore ..."

She sat on the eaves, hugging her bare calves. Her head was lowered, and her long hair cascaded to the ground.

Long Chen thought for a moment, then said: "It might be because you have become a Yin Demon, so participating in my battle is too much of a burden for you. However, he could avoid this kind of situation later on. You don't have to leave me, do you? "

After going through a journey in the World of Gods, he finally managed to get her to agree to stay by his side.

She shook her head and said: "Not only that, she said, if I don't leave you, I won't have my own life. Actually, no matter what, I feel that I can still enjoy this kind of time, but she is unwilling to let me do this, I have disappointed her."

There was no part of his life?

The same question?

She was precisely this kind of woman. As long as she was with Long Chen, the core of the world would be him. She wasn't good with words, she would only stand firmly by Long Chen's side and become a part of his strength. Her person was the same as her identity as Long Chen's Yin Mo.

Long Chen could imagine the thoughts of her master.

Li Xuanji was someone that she had entrusted everything to, but she was willing to sacrifice everything for Long Chen to follow him into the world and fight alongside him. If Long Chen could focus all his attention on her, that would not be too much of a problem. But in the end, she was still like the third person between him and Ling Xi, and now, Ling Xi even had a new life in his womb.

Emotion was never that pure.

He took a deep breath and faced the bloody night wind. As a man, he felt that he should give her a little more time, give her a little more freedom, and let her live a peaceful life, live the life she wanted, and not leave her in a dilemma.

Therefore, he sat down beside Li Xuanji and lightly patted her shoulders. The surroundings were filled with the intoxicating fragrance of the woman, and Long Chen smiled: "Don't be too sad, it's actually nothing much. No matter where you go, our hearts, won't we still be linked together?"

Today, they were more like one person, the relationship between Yin Mo and himself was such that they would never be able to separate forever.

Li Xuanji raised her head in a daze, looked at the nearby him, and said with a trembling voice: "If I leave, would you really not blame me?"

"No wonder, no matter where you run, you will never escape from me." Long Chen stretched out his hand and pinched it, and said with a smile.

To be honest, he had met a lot of women, and there were also many who admired him, such as Pure Snow and Liu Yiyi. However, Long Chen was not really tempted by them. However, Li Xuanji was different. It was as if she would definitely appear in his life and be entangled with him non-stop. This was why they had come to the Immortal God Realm from different paths, and still met each other in the end.

From the moment Grand Moon Demon World met and accompanied her, it proved that he would never be able to part with this woman who was as beautiful as night. She was a part of Long Chen's body.

Of course, this did not mean he did not love Ling Xi enough. It was another kind of unforgettable love, a love that was to be cherished in the bones, a love that was to be pursued and to be kept together. On the other hand, what Li Xuanji brought was another type of thorough understanding of her heart.

What he said was a joke, but it was the voice that truly represented his heart.

No matter where you run, you can't escape from me.

There was still a long way to go in life, and in the future, there would be countless unknowns.

Hearing this, Li Xuanji was stunned for a moment, then started to blush slightly, as if he had never seen her like this before.

"Well, I'll look around. I'll be back in a while, okay? " She quickly changed the subject.

He had originally thought that it would be a very difficult matter to deal with, but with a few words from Long Chen, with his tolerance and understanding, he easily settled it.

"You only need to agree to one condition." Long Chen said with a straight face.

"Go ahead."

"Protect yourself well, don't let yourself get hurt, and don't be happy." Long Chen said seriously.

His burning gaze burned Li Xuanji's cold heart.

"Yes." She nodded. There were no longer any faint tears in her eyes. She gently took out the blue Heart of Eternity from her white and tender skin, placed it on her palm, and seriously looked at Long Chen. "I swear on it, I will definitely take good care of myself. You too, cannot go overboard. "

What he regretted the most was Long Chen's personality.

Although he had never really lost before, every time he came close to rebirth, or even losing his life, which person who truly cared about him would not feel heartache?

She just didn't say it out loud.

It was just like this time, when he rushed out from the ancient yellow sand, it was also because he was fighting against death that he completed the final step.

"Don't worry, I won't die. My father's final wish has yet to be fulfilled! "

After he finished his last wish, he would kill the Black Hell King, chase those two demon star fellows back or kill them. After that, he would clear up the matters of the war of gods, and he would have nothing else to do, and then, he would have no choice but to bring Ling Xi to find her, Mo Xiaolang, and look for Mo Xiaolang and the little kitten.

"I'm leaving."

Li Xuanji stood up, under the moonlight, her graceful figure was like a goddess, filled with extreme temptation.

"Aren't you going to give me a present?"

Long Chen's eyes lit up as he stared at her curvy body. He did not know why, but he suddenly thought of the time when he had been obsessed with Li Xuanji that he had conjured up in the god of tai-su.

Li Xuanji found it hard to resist. She pursed her lips and shook her head, then said with a trembling voice, "About that, my master said that before I become a god, I cannot lose my virginity."

In fact, Long Chen was just casually saying it.

Unexpectedly, from her words, her heart seemed to be willing. When a girl loved enough to contribute her precious first night to him, it meant that she really loved him deeply and was willing to give up everything. This filled Long Chen's heart with countless of emotions. It was just like a long, long time ago, when Ling Xi left White Yang Town, she was also willing to give him everything.

In truth, he was already very satisfied with just doing this. Facing the night wind, he gently caressed her long hair, which Li Xuanji was still a little unaccustomed to, so she was a little nervous, but Long Chen would not violate her.

He lightly kissed the roots of her hair and said: "I, Long Chen, will wait for your return."

Chapter 2277 - Evil Woman

The next step was to send her away.

The God of Darkness behind her was even more mysterious. However, Li Xuanji believed in her, and Long Chen also believed in her judgement. At least for now, she would wholeheartedly help Li Xuanji. Of course, maybe this god knew everything about the God Battle Battlefield, but she was unwilling to tell Li Xuanji about this.

She rarely appeared, but when she suddenly appeared, it could be considered an unprecedented event for Li Xuanji to leave Long Chen's side.

The source of this dark divine spirit was the black colored needle that Long Chen had found in the Everlasting City. At that time, Long Chen had never thought that there would actually be such a terrifying thing inside, so he gifted it to Li Xuanji, bringing a great fortune to him.

Otherwise, Li Xuanji would probably still be in Dragon Sacrifice Continent.

Long Chen did not tell anyone about the trip this time, in fact, it was just sending the sea of blood. With the protection of her master, she should be fine. Furthermore, since their hearts were interconnected, she should be able to talk to Long Chen anytime.

Even when they reached the ends of the earth, it was as if the two of them were not separated at all.

Carrying her, Long Chen left the sea of blood. In front of them was a long stretch of yellow sand, she had already explained everything that they had to each other along the way. Right now, there was nothing to say. However, when she was really about to step onto this road, she couldn't help but shed two streams of tears.

The two of them tightly embraced in the yellow sand.

"Thank Fate for letting me meet you." Li Xuanji choked with emotions as he said this.

Long Chen patted her back and said: "Go."

After she left, she would need to work even harder, if not, at least until now, it would be difficult for him to defeat someone as strong as the Tianmu Emperor.

The yellow sand was long, and Li Xuanji couldn't help but turn her head back after walking a few steps. Her long hair fluttered in the wind and sand, and a few strands of hair blocked her face, but couldn't block the eyes that were deeply hidden in love with her.

"Hurry up and train, I can't wait any longer." Long Chen suddenly laughed evilly.

"Yes." Of course Li Xuanji knew what he was talking about, she had long ago gotten used to this kind of Long Chen.

Carrying a complex feeling of sweetness and sadness, she gradually disappeared within the yellow sand, disappearing before Long Chen's eyes, disappearing from his world.

Long Chen stood in place for a very long time, his eyes still looking in the direction she left. Honestly speaking, he was extremely unwilling to part with her in his heart, but as a man, he could not say it out loud.

"This old demoness is always looking for trouble with me. The meat in her mouth has been taken away." Long Chen could not help but hold his hand.

From the words of persuading Li Xuanji to leave, to that whatever virgin body, it was all the work of this strange god of darkness. Long Chen didn't have any methods to deal with her, otherwise, he would definitely find out what kind of identity she had.

Is she the goddess of darkness? Or something else?

Below Spirit Sea, there should be the corpse of the Goddess of Darkness, right?

But that palace should also have the mortal body of the Goddess of Darkness, right?

No matter what, right now he still had to deal with the Black Emperor and the two Devils.

"Speaking of those two devils, Yang You said that they looked like two girls?"

Long Chen thought about this matter. After staying in the yellow sand for half a day, Li Xuanji had already left for a long distance.

After crossing the sea of blood, they returned to Slaughter Dragon City.

However, just at this moment, two graceful bodies appeared in the midst of the yellow sand. Their long hair fluttered, and their instincts told them that the two women were extremely dangerous as they had a special kind of aura on their bodies.

If his guess was right, he had actually met those two evil women in this place!

However, because this was the edge of Dragon Slayer City, Long Chen was not nervous. As long as he was willing, or even let out a roar, the three Dragon Emperor s would be able to hear him and come to his rescue.

Moreover, Yang You had already been at a stalemate with them before, so their strengths might not be able to completely suppress him. If Li Xuanji was around, Long Chen wouldn't need to be afraid of them even more.

Very quickly, the two girls that had appeared in the midst of the yellow sand clearly appeared in front of Long Chen's eyes. He didn't think that the so called Evil Woman would actually be two peerless beauties. The most suffocating thing was, although the two women looked exactly the same, their auras were tens of millions of dollars apart, which made it very easy for the two of them to distinguish each other.

She wore a pink cheongsam, a goose yellow muslin around her body, and her smile was like a flower, yet also carried a cunning look, her smile captivating everyone around her. Right now, she was looking at Long Chen with a bewitching gaze, her eyes hiding her mischievous provocation.

As for the other one, he was even more of a killing machine than Long Chen. He was expressionless, but his entire person was like a piece of steel, regardless of whether it was his eyes or actions, he was more terrifying than Long Chen.

In the blink of an eye, these two female demons appeared in front of Long Chen. One was as beautiful as a flower, while the other was as hard as iron.

At the same time they were sizing up Long Chen, they also looked at him from top to bottom.

The pink-robed girl suddenly puffed up her cheeks and angrily said: "You're such a strange person. We're girls, how can you look at us like that? Are you trying to flirt with us because you see us as beautiful?"

As for the other one, his gaze directly went around Long Chen and landed on the Slaughter Dragon City behind him.

"Yi Xue, kill him. He probably knows our identities." The black-robed woman said with her mechanical voice. It was hard to imagine a graceful figure, snow-white skin, or the soft voice of a young girl.

"Hmm?" However, Yi Xue did not immediately do so. She circled around Long Chen and giggled, "Big Brother, why are you not saying anything? Do you really know us?"

Long Chen suddenly laughed, and said: "I know you, you are called Spring Flower, this is called Xia Zhi, last time I went to a house called Jadeite Jade Restaurant, wasn't it you two who served me? They look exactly the same, and the temperature they serve is pretty good too. They're preparing to visit again or something. "

Taking this memory out at this moment was his own bad taste. On the last night he was in the Jadeite Jade Restaurant, more than ten years ago, he had two little girls attending him. However, he did not expect that Long Qinglan's sudden death would cause him to experience a huge turnaround in his life.

"Hmm?" These words made Yi Xue a little confused, but she quickly understood what Long Chen meant. However, she was not angry, but instead giggled and laughed: "You are such an interesting person. Don't you see that we sisters are many times stronger than you, and you still dare to tease us? Do you believe that I won't make you a eunuch? If I were to make a move, your little darling would never grow back. "

It seemed like this evil woman was quite hot.

Long Chen had actually already made the preparations to notify the three Dragon Emperor s.

He lightly activated the Star Talisman with the Blood Tyrant Dragon Emperor, and with a relaxed expression, he said with a smile, "Ladies, please don't joke with me. I have never met the two of you in my life, so how could I know you? I am Dragon Fighter of the Slaughter Dragon City, my name is Yang Chen, have the two of you come to the Slaughter Dragon City? In order to express my apologies, if you two are going to Slaughter Dragon City, I can lead you two there. If there's anything I can help with, just tell me. "

"Oh, oh, so that's how it is." Yi Xue nodded with a smile and suddenly said, "If that's the case, I'll be troubling you then. We want the life of your First Dragon Emperor, the Berserk Blood Dragon Emperor. I wonder if you can help us?"

"AHH!"

Long Chen pretended to be shocked.

Hearing these conversations, the three Dragon Emperor s obviously knew who was coming and would arrive very soon. Long Chen was relieved, he closed the Star Rune and said in a surprised voice, "Miss, please do not make such a joke, this is the most noble senior in our human race, a hero. It's fine to joke around in front of me, but if you speak in front of others, you will probably be punished."

Yi Xue continued to giggle. Her appearance was extremely terrifying, causing one to be tempted to pinch her pink cheeks.

"I'm telling the truth."

Yi Xue said.

At this moment, the black-robed girl called Illusory Scar suddenly pushed Yi Xue behind him.

An intense killing intent was released from her body, targeting Long Chen.

"Meng Hen, do you want to fight with me for a handsome man?" Yi Xue said in a strange tone.

Meng Hen's pair of dark red eyes quickly filled with blood mist and became filled with a metallic luster. The intensity of the gaze was so strong that it could make Long Chen retreat, as she roared out with gritted teeth, "I know him, he is the Eternal Dragon Emperor's son, Long Chen! For the past few days, we have heard of your great name, your name.

"Huh?" Yi Xue did not expect it.

Long Chen didn't know how this woman found out. She reckoned that even though she seemed to have the tribulation of reincarnation of five elements, it was very dangerous, so she had guessed it this way.

However, he didn't have time to think any further. The black-robed girl had actually charged forward in an instant!

She was like a wild leopard, and a steel one at that. In that moment, at least her fingernails had turned into dark red steel, its sharpness had surpassed many other Dao artifacts, and her speed was terrifying. In that instant, she had appeared in front of Long Chen, bringing about a fatal killing intent!

Clang!

A loud sound was extremely ear-piercing!

Her nails grazed Long Chen's Divine Slaying Sword, forcing both parties to retreat.

But Long Chen was even more shocked. Today, the God-Slaying Sword was already a Dao Tool with more than 700 marks on it, it was incomparably sharp, and it actually could not even cut off the fingernail of the other party?

Moreover, in just one exchange, he felt that this woman actually had the strength of a physical body!

Only two words could describe the state one had reached by relying solely on one's physical body. That was: heaven-defying.

Chapter 2278 - King of melee combat

It would not be an exaggeration to call such a body an iron body.

In their first confrontation, Long Chen felt that they were extremely tough, and it was no wonder that Yang You regarded them so highly. Otherwise, how could the people on the demon planet wait for them to snatch the five dragon pearls?

Since they had moved, they must have a certain amount of confidence!

In their first clash, she had been quite surprised by Long Chen, but this did not stop her. When the first attack was completed, in that instant, she pounced at him again!

Long Chen took the chance to counter the Steel Leopard's attack, using the God Slaying Sword to send out tens of thousands of sword beams and rays in a short period of time. The attacks, which had the properties of slaughter and devouring, clashed with Meng Hen's sharp nails time and time again, producing an incomparably ear-piercing sound.

"Meng Hen, you can do it! Beat him!"

While they were fighting ferociously, Yi Xue was cheering loudly on the outside with her sweet voice, not showing any intention of helping Meng Hen at all. Or could it be that she understood that Long Chen was definitely not a match for the perverted fellow beside her?

BOOM!

The two separated again.

They could not help but chirp and shout. Evidently, not only was it unable to gain the upper hand in this kind of battle, it was also extremely painful all over, and the God Slaying Sword was also injured to a certain degree.

There were even several times where the sword landed directly on the opponent's body, but there was no reaction.

With Long Chen's current strength, his sword could break the bright star in half, but he couldn't cut through the opponent. From this, it could be seen how terrifying the strength of this woman's body was.

"He really does have some ability. As expected of his son."

The moment he stopped, Meng Hen suddenly sneered.

Just as she spoke, her graceful and alluring body underwent an unimaginable change. It went from snow-white and smooth to dark red colored steel, and the girl in the black robe was turned into a steel man in a short period of time!

The lines were streamlined, the fists and claws were incomparably hard, and they were extremely hard. Previously, even the God-Slaying Sword wasn't able to cut through her defenses, but now, it was even more impossible. Long Chen had once fought with an Octopus, and was also made of steel, but this Meng Hen was unfathomable.

Such a secret technique had long since been lost in the world, and only the Demon Star could exist!

When that delicate girl's body transformed into steel, she became extremely terrifying, her fighting strength increased by countless of folds, and her speed became extremely terrifying. She was the strongest body that Long Chen had ever seen, and also exceeded Long Chen's own.

"Whiz!"

In that moment, he crossed a thousand meters in an instant, the sharp claws almost ripping Long Chen apart!

"Spacetime reversal!"

Now was not the time to spar slowly. Every single attack of the opponent was fatal, and Long Chen had to persevere until the arrival of the three Dragon Emperors. If Li Xuanji was still around, he would still be more daring, but she did not want the two of them to escape!

Meng Hen was pushed back by the reversal of time.

But in the next moment, she tore apart the power of time. Her cold, dark red metallic eyes stared at Long Chen, and used her pure, terrifying strength to attack him again.

Rigid, fierce, this was the style of this black-robed girl!

In this moment of life and death, Long Chen's body was instantly covered by the blood-red dragon scales. His palm had also turned into dragon claws, and under this kind of situation, no one could hesitate at all, otherwise the opponent would very likely be able to instantly tear them in half!

Ten Thousand Deadly Claw!

On the pair of dragon claws formed from his arms, his thumb was the will to kill, and then there were the four blood-red energies that emerged from the Primordial Blood Spirit Dragon's body. In reality, these weren't flames or storms, but rather the manifestation of his anger.

Under the intense suppression of Meng Hen, Long Chen also transformed into a humanoid monster, and instantly collided with her!

Myriad Death Claw versus her steel body!

This was the first time in a very long time that Long Chen had engaged in such an intense close combat. This kind of close combat was bound to life and death at all times, and even Long Chen had already activated his fire of life, which was the only way to guarantee his life. After all, his opponent now came from the hope of a devil!

In that short period of time, he had fought with the Ten Thousand Deadly Claw countless of times, and the two were both extremely brutal and cautious. Long Chen's Death Claw could bring about fatal injuries to the opponent, but if the opponent held him back, Long Chen would also be at risk of being torn apart by the berserk girl!

This was the most unfeminine woman Long Chen had ever seen, with an empty body and beautiful face, like a cheetah or a lion!

Clang clang clang!

In the blink of an eye, the two of them had victory and defeat, Long Chen had gained the upper hand with his Ancestral Dragon Art, while the opponent had the upper hand with regards to the tyrannical strength of her body and the explosive strength of her body, her body was even harder than the weapons with 700 lines and above.

The only thing that could threaten her was the rage of the Myriad Death Claw!

However, it was basically impossible to kill them all.

Swish!

This time, the two of them separated again. The intense close combat and even Long Chen broke out in a cold sweat, amongst which he had been attacked by the opponent several times, but with the flame of his life force, he could still be considered safe and sound at this time. The recovery rate of her opponent was also astonishing, although there were several claw marks on his body, she could still endure it.

It was just that in the midst of this battle, her black robe was practically torn apart by Long Chen and turned into a piece of cloth that hung on her body.

However, in the blink of an eye, the steel had turned into tender flesh and blood. Meng Hen had also changed into a new black robe. Although it was just a glance, he could see a nice curve on his chest.

She remained silent.

However, Yi Xue, who was at the side, laughed incessantly and said, "Long Chen, you have angered Meng Hen, you are dead. From today onwards, you will not even be able to cultivate peacefully.

Long Chen had already informed the three Dragon Emperors, so he was in no hurry, and smiled: "Really? But I'm not dead yet. "It means that she's just average, but there's one thing that I'm curious about. With her body being so tough, would any man like her?"

If these two guys wanted to anger him, then they'd be underestimating him.

Instead, she covered her stomach and laughed until her face turned red. She said while laughing, "Meng Hen, look, even he knows that you are so violent every day and can't find a man. You can't let him look down on you, otherwise, just snatch him away and let him see if you have a gentle side to you."

In the face of her provocation, the black-robed woman's eyes turned blood-red. She did not even spare Long Chen a glance as she berated Yi Xue, "Cut the crap, let's go."

She was really quick and decisive when she did things. She left just like she said.

"The Tempest of Time!"

Long Chen obviously could not let them escape, so he stood in his original spot and swept out the Time Storm, causing all of the surrounding yellow sand to turn into fine powder. But these two girls blocked his attack, and the impact on them wasn't too great, especially that Meng Hen who had a terrifying physique, so he basically did not need to resist.

"Little big brother, I know that you are the son of the Eternal Dragon Emperor. It's ridiculous for you to work for them. However, you actually dare to mock Meng Hen for being unable to find a man. "Hee hee."

It seemed that the Tempest of Time had little effect on them.

Even if they were to escape, Long Chen only needed to chase them down.

But at this moment, unexpectedly, the two girls both ran into the black whirlpool at the same time. Amidst Yi Xue's clear laughter, the black vortex instantly disappeared and the two of them disappeared from Long Chen's sight!

This divine ability was truly heaven-defying!

Long Chen had seen the Spirit Race's Heaven and Earth Teleportation Array before, but it still required a long time to arrange and locate. This kind of thing that could just form a whirlpool and disappear, he had never heard of it before!

In this case, it was better to let these two evil women escape.

"My father was killed by fifteen Dragon Emperors? Although the way the people from Demon Star spoke was definitely biased, but when my father went to Demon Star, they also knew the details of the matter. It's a pity that they escaped! "

In fact, from the time they had met to the time they had fled, it had only been 60 breaths of time. The actual time they had fought was only a few seconds. After all, Meng Hen's speed was just too fast.

In any case, they were still one step away. It could be said that the two evil women knew of the arrival of the Dragon Emperor and thus were in a hurry to leave. Long Chen never thought that they would have such a supernatural ability.

"He escaped?"

Dragon Emperor looked ahead, anger and killing intent hidden in his eyes.

"Yes."

At this time, the Ten Thousand Killing Dragon Emperor and the Emperor Blood Dragon Emperor also came.

"Their auras disappeared all of a sudden. It should be a sacred art unique to the Demon Star that was cast by the woman called Yi Xue. It's even more troublesome now. Unless they meet us head on, we'll control them first. Otherwise, it'll be difficult to restrain them."

The three Dragon Emperor s were a little dejected. In fact, this was an important opportunity to solve the problem.

"Long Chen, tell us what happened. What abilities do you have to deal with the two devils from the Demon Star Realm who came to snatch the Five Dragon Cities? " The Ten Thousand Killing Dragon Emperor asked.

Chapter 2279 - Ancient Giant Demons

Long Chen had only fought with the Evil Woman called Meng Hen.

Although it was just a brief exchange of blows, he still had a basic understanding of her. The enemy's tyrannical body was a rarity in the world.

"Do the three Dragon Emperor s know what the woman is trying to do? "How on earth did you manage to cultivate such a strong body?"

Honestly speaking, even though he was still a young dragon, there were very few people in this world who could surpass him in terms of physical strength. Meng Hen did not even have any power. His pure physical strength was enough to block Long Chen's Ten Thousand Death Claw.

This was simply a person formed from a Dao tool.

The three Dragon Emperor s looked at each other and shook their heads.

The Bloody Dragon Emperor said, "The history of the Demon Star is very long. It has existed since the ancient times, and we don't know much about it. For millions of years, the only contact your father had was the last time the seal on the planet was released. However, according to the legends, the real power of the magic star is not these ordinary magic. "

"What's that?" Long Chen asked curiously.

In the entire world, the only thing that remained of anyone's doubt towards Long Qinglan was the matter of the devil star. Of course he wanted to know.

"This is only a legend. Legend has it that the Demon Star sealed a group of terrifying existences who fought against the Gods and were sealed in the end. They possess the might of gods, and their strength is comparable to gods, capable of destroying the heavens and the earth at any time, and might even be comparable to a portion of the Divine Dragons in the The Age of Dragons. At that time, the chaotic star field was still a part of the Immortal God Realm, but after experiencing a devastating battle in the Archaeozoic era, the chaotic star field became what it is now. Those existences were defeated by the Gods, but they were unable to be killed, so Magic Star Seal formed and they had not come out yet. Of course, this is only a legend. "

Speaking of the Ancient Giant Demons, the three Dragon Emperor s were actually a little fearful in their hearts.

"To be honest, we have also seen the devils on the demon planet. There are indeed many strong warriors, and their overall strength even surpasses the top combat strength of the demon race. They also surpasses the top combat strength of our human race. In other words, without a Divine level powerhouse, their greatest advantage was that they were immortal. If the Ancient Giant Demons really existed, and if they appeared in this world, then there was no doubt that they would dominate the entire Immortal God Realm, including the Dragon Sacrifice Continent. From now on, all races, demon races, spirit races, and the like would become the slaves of the Demon Star. After all, it is impossible for us to fight against enemies at the divine level. "

The Bloody Dragon Emperor said with a serious expression.

"So that's how it is."

Long Chen was deep in thought. In other words, if ancient Giant Demons existed on the demonic star, then that would truly be terrifying.

Then what was the relationship between the battlefield of the gods and this ancient Giant Demon?

"To be honest, with your battle with the two girls, if they were only at this level of strength, then they wouldn't pose a threat to us at all. But why do we value them so highly, and even think that they are more terrifying than the Black Hell King? Because, once they succeed, even if they didn't have the Ancient Giant Demons, the powers on this planet would still be able to sweep us away, unless the entire Immortal God Realm joined forces. "

This was why they had immediately rushed over when they had heard Long Chen's order to escape. With the existence of Yi Xue, their escaping skills would be invincible.

"However, there are so many troubles now. We fifteen Dragon Emperor have discussed and decided to use a Heavenly Sacred Artifact that has been sealed for hundreds of thousands of years to kill the Black King. We already have to do this. "

When Long Chen returned to the Slaughter Dragon City, the Blood Dragon Emperor suddenly said this.

Long Chen was shocked. He naturally knew that the Slaughter Dragon City had a very solid foundation and possessed many miraculous things. But when he took them out, he was still deeply shocked.

"What is it?" Long Chen asked.

The Bloody Dragon Emperor said with a slight smile: "Actually I still need your help, so I told you in advance. This is the core of our Dragon City massacre. But of course, the other four Dragon Cities did too. The entire Dragon Slayer City was built around this core. This core was something that had existed since the birth of Dragon Slayer City, just like the spine of Dragon Slayer City. No one knows where they came from. The ancient books and records from the archaic era are nowhere to be found, but generations of our elders have passed down the warning not to use them unless it's absolutely necessary. Now, in order to kill the Black Hell Emperor first, we have no other choice. "

It sounded like a terrifying thing!

Dragon Emperor gave a cold laugh, and said: "Only us fifteen Dragon Emperor know of the existence of such a thing, the Emperor of Black Hell definitely wouldn't have known. Otherwise, he wouldn't have dared to act so brazenly. It is a Dao Artifact, a total of five parts, and our Dragon Slayer City's core is actually one of the five parts. This is a sword, and our Dragon Slayer City's portion is the sharpest tip of the sword! "

Speaking of which, the three Dragon Emperor s were rather proud.

Because the other four Dragon Cities were respectively sword hilt, sword spirit, and sword blade. The blade of the sword had a total of two parts, two parts.

"What's the name of your Dao item? How many Dao patterns does it have?" Long Chen could not help but ask curiously.

"You might not know this, but nine hundred ninety-nine is the limit of Dao patterns. This number is known as the 'Limitless' number. The closer one got to the number of Dao patterns or Immortal Mark, the more terrifying they were. In this world, there were no such thing as Dao tools. It was said that there were no such thing as Dao tools. Even gods could be killed by them! What kind of power was that? Of course, there are 950 dao patterns on this dao tool that is formed by the core of our Five Dragon Cities! It is one of the most powerful Dao-artifacts of our humankind! is also a Limitless Dao item. "

"999 is an uncountable number. The closer one gets to the uncountable number, the more powerful they become. We will call the more than 950 Dao artifacts the Limitless Dao tools. Our Dao Artifact is called the 'Great Ancestor Dragon Sword'. The Great Zu Dragon Sword is a Limitless Dao Artifact, so if we are to truly activate it, then I reckon that we need to strike at the same time with our fifteen Dragon Emperor s. "

"Dragon Sword?"

Right now, the God-Slaying Sword already had 730 dao runes and was considered one of the top dao tools. However, compared to the Dragon Slaying Sword, it was far inferior. He himself could easily use the God-Slaying Sword, but the Great Ancestor Dragon Sword required fifteen Dragon Emperor to join forces, and it was said that they hadn't used one for hundreds of thousands of years?

It looks like this time, the Black Hell King had caused the death of more than ten thousand people in the Dragon City by allowing the Emperor of Heavenly Curtain to assault the Dragon City. She had truly touched the reverse scale of the five Dragon Emperor s and caused them to become furious.

"As long as we use this Dragon Sword, we can say with certainty that the Black Emperor will definitely die. The reason why the Dragon Sword is so heaven defying is because it can track the whereabouts of its opponent and kill them tens of millions of miles away. No matter where the Black Hell King is, this time, we will be able to catch him and kill him. However, the Dragon Swords need to use the power of five Dragon Pearls, the other four Dragon Cities will place the Dragon Pearls at the core of the Dragon Swords Formation, while we, the Dragon Slayer Pearl, have already merged into one.

"No problem."

Of course, Long Chen wouldn't let him off the hook for something that could help him kill the Black Underworld Emperor. The Black Hell Emperor caused chaos in the Everlasting Dragon City and the Slaughter Dragon City, Long Chen had long wished for nothing more than to immediately kill him.

"Killing people thousands of miles away is truly heaven-defying. For such a Dao item to be able to see it for itself is a type of luck. "

He couldn't wait to make his move.

Thus, he asked, "When will the three of you make your move?"

Dragon Emperor said: "The fifteen of us have already agreed that they can make their move in their respective Dragon Cities at any time. Therefore, we need you to try and see if you can provide the power of the Slaughter Dragon Pearl to the sword tip of the Great Zu Dragon Sword. If you succeed, we can even start right away. "

They similarly didn't have the slightest bit of patience towards the Black Hell Emperor.

The fifteen Dragon Emperor s had all realized that this was not a peaceful time. Various tests were occurring one after another, and if they did not harden their hearts, the entire human race could be destroyed in the future. This was not impossible. For example, if the Archaic Giant Demons truly existed and awakened, then their divine region would inevitably be ruled by them.

"Then go and give it a try."

Long Chen's blood started to boil.

Now that Li Xuanji had already left, he didn't have anything else to ask for, he only wanted to complete the last step for Long Qinglan while taking care of this damned Black Hell King at the same time.

Back then when he had killed the Black Yan Beast Seed in Long Chen's body, that kind of pain, was etched deeply in Long Chen's heart!

"Alright!"

This was a grand occasion that hadn't been used for hundreds of thousands of years. Today was finally going to be used, and it was also the first time the Dragon Emperor present had come into contact with one of them. Even they couldn't help but be nervous.

The tip of the Dragon Slayer Sword was located under the central palace, deep underground of the Dragon Slayer City, and was protected by layers and arrays. It was the toughest place in the entire Dragon Slayer City.

Before reaching there, the Dragon Emperor had already made contact with the other Dragon Emperor, preparing to kill the Black Hell King. There was no need for them to put in so much effort. As long as they used the Dragon Sword, the Dragon Sword would be able to find him and kill him.

Now, Long Chen and the three Dragon Emperors headed towards the depths of the underground palace. It had been countless years since anyone had come, and the place was in ruins as they walked into the underground palace.

In that era, the divine dragons had just disappeared and the gods had risen together!

After walking for a distance, in an area that was practically in ruins, Long Chen began to feel the existence of the Primordial Dragon Sword.

Chapter 2280 - Taizu Dragon Sword

No one had used it for hundreds of thousands of years.

For at least a million years, the world had been peaceful without any major disasters occurring. There had also never been an existence more powerful than Long Qinglan.

The ruins in front of him had a very long history. Many of them were ancient buildings that were filled with the traces of time. If it wasn't for the formation protecting the place, it would have already been covered in dust.

As the four of them walked forward, Long Chen's eyes were attracted to the area ahead of them. This piece of ruins was not high, so Long Chen could quickly see a stone tablet rising into the sky at the center of the ruins, which was about ten meters or so, but if he looked carefully, he would realize that this was not a stone tablet, but a sword tip!

However, right now, it looked just like a decaying stone stele.

"I haven't been here for many years. The last time I was here, was when I was just a disciple in Dragon Emperor. Second Brother brought me here." The third Dragon Emperor, the Bloody Dragon Emperor said with a sigh.

This was a short and stout middle-aged man. Although he looked kind and amiable, but everyone who was truly familiar with him knew that his life was also the road of rise for a legend. He went from unknown to shocking, finally becoming a Dragon Emperor.

The second brother he was talking about was naturally the Ten Thousand Killing Dragon Emperor. The Thousand Killing Dragon Emperor was a tall and thin old man with white eyebrows, white hair and sharp eyes. He was the most famous God of Slaughter in the Dragon City, but now that he was in the Dragon Emperor, he became older and had fewer opponents.

The four of them gradually walked to the sword tip of the Sublime Dragon Sword.

"Let's start the array first. You stand in this position. "

The Blood Tyrant Dragon Emperor started to arrange everything. This entire stretch of ruins actually formed the formation diagram of a Dragon Slayer Array. Because Long Chen had already merged with the Slaughter Dragon Pearl, he was currently undertaking the mission of killing the dragon pearl. He was standing at the eye of the formation, where the other four dragon pearls were embedded.

There was a stone pillar here, and on the stone pillar, there was a semicircular groove, where Long Chen was currently standing. When he raised his head, he was facing the tip of the Dragon Slaying Sword. Even now, the tip of the Dragon Sword still looked like a stone tablet with no Dao item in sight. Even the God-Slaying Sword was not interested in this piece of beautiful meat.

The other three Dragon Emperor s also started to take their positions. They also needed to supply their power, so the function of the five Dragon Balls was actually to activate the Grandmaster Dragon Sword. And the true burden of power was on them!

They stood in the other three positions and protected the sword.

"Long Chen, try communicating with the Grandmaster Dragon Sword through the stone pillar. If you succeed and are able to activate the sword, we can use it. I will first try to succeed, then make an agreement with the other Dragon Emperor s to activate it at the same time. Because of your fusion with the Slaughter Dragon Pearl, everything will depend on you now. "

"No problem."

Long Chen began to concentrate.

In order to kill the Black Hell King, he didn't mind doing such a small thing. Furthermore, Long Chen was also very curious, what would happen when a part of the 950 Dao Inscriptions were activated? He had spent fifteen Dragon Emperor s of such immense power, but in the end, they were still able to kill the Black Hell King?

All of this was filled with suspense.

He closed his eyes. In truth, he did not know anything about the Slaughter Dragon Pearl. Back then, he had indeed felt something enter his body, but it was just that he did not think too much about it. Now that he was going to use the power of the Dragon Slayer Bead, to be honest, he really didn't know what to do.

Since it was a fusion, then in reality, he was using the Slaughter Dragon Pearl.

Therefore, he didn't need to do anything.

When he stood at this position on the stone pillar, it was as if the stone pillar had connected him to the Primordial Dragon Sword. At this moment, a trace of power surged from below, as if a few claws had grabbed onto Long Chen's leg and stabbed into his flesh, without the slightest bit of pain.

This was a form of connection.

These specks of light passed through the stone pillars and began to gather towards the Primordial Dragon Sword. In fact, more and more of them appeared, and when they saw this blood-red speck of light, the three Dragon Emperor s were extremely happy. They were roughly clear about it, and they reckoned that there should be no problem at all.

Seeing that the blood colored light spots were increasing in number, the Dragon Emperor indicated that Long Chen could stop. Hearing this, Long Chen jumped down from the stone pillar and the three Dragon Emperor s quickly surrounded him. If he had a plan, he could contact the other four great dragon cities and activate the Dragon Swords at the same time to kill the Black Hell King. In order to avoid any unexpected incidents, let's really start now! "

The Dragon Emperor nodded his head and said to Long Chen: "Activating the Dragon King's Sword shouldn't exhaust you, but we don't know what's going on with your fusion with the Slaughter Dragon Pearl. I'm not sure if something bad will happen, but you have to be prepared! "

Long Chen shook his head and laughed: "I feel it, this Dao Artifact is extremely friendly to me, it just views me as a Slaughter Dragon Pearl. There should be no problem. "Let's begin!"

On this point, he was quite confident.

Hearing this, the three Dragon Emperor s were very satisfied and informed the other Dragon Emperor s.

"Now, when they are ready, we can begin."

After all, they were all heading to the place where the parts of the Dragon Sword were placed. I also need to try starting it. It didn't take long.

After about a quarter of an hour, everyone was ready. The tense moment had finally arrived.

This was convenient for them to communicate with all the Dragon Emperor s at any time and to make certain adjustments. After all, this was the first time they had used the Primordial Dragon Sword, so they were not familiar with it, and they were even a little nervous. After all, there were not many opportunities to use the Primordial Dragon Sword, and if they failed, it was very possible that they would not be able to use it again in a short period of time. It would even cause a lot of consumption to the fifteen Dragon Emperor s.

There was a risk in choosing to use the Dragon's Ancestral Sword.

Of course, this was much better than staying in the Dragon City and waiting for the appearance of the Black Yama Emperor.

"Ready!"

From the moment when it was truly exciting, Long Chen took a deep breath.

"Begin!"

As for the other four Dragon Cities, they each placed their dragon pearls in the grooves of the stone pillars, while Long Chen stood directly on the stone pillars. Following that, the fifteen Dragon Emperors all took their positions and made their preparations!

"Activate the Primordial Dragon Sword!"

The feeling he had when he appeared earlier appeared once again as the blood-colored light started to spread and cover the sword tip of the Primordial Dragon Sword once again. In the midst of the darkness, Long Chen seemed to be connected to the Dragon Sword, as if they were connected through a vein. He felt that this was like a strange beast that was gradually awakening under his call.

It had awoken from hundreds of thousands of years of long broken moon!

Whoosh!

At that moment, the ruins started to shake violently. Countless stones, ruins, and other structures started to tremble, and on every tiny stone, blood-red symbols appeared. The symbols were twisted, twined, and moved about, as if they were blood-colored dragons!

The original ruins had suddenly turned into a huge, blood-red array formation!

"The Grand Dragon Sword Formation has appeared." Dragon Emperor immediately communicated with the other Dragon Emperor.

Basically, all five Dragon Sword Formations appeared at the same time. The five Dragon Sword Formations each had five different attributes, which were of course slaughter, time, destiny, devouring, and life.

It was as if he had already turned into this diagram. Even if he closed his eyes and closed all his senses, he could clearly feel the complicated veins of the entire diagram and feel a spiritual resonance!

This was the power that came from the ancestor's divine dragon!

It was as if Long Chen had already lost himself and blended into this diagram. He felt an archaic and mysterious power that surpassed everything he had comprehended.

Weng! *

In the next moment, a change occurred to the real Dragon King's Sword.

The stone tablet like Dragon Sword suddenly trembled inside the formation diagram. In the middle of the formation diagram, the stone blocks all turned into ashes, and in that instant, what appeared in front of Long Chen was the real Dragon Sword!

It was only the tip of a sword!

The sword tip was entirely red, it was made from unknown metal and was covered with blood-colored dragon runes. On the tip of the sword, there were tens of thousands of dragons roaming about, howling in anger. The moment the tip of the sword appeared, it gave Long Chen a strong impact. It had to be said that this was the most terrifying Dao Artifact he had ever seen, and what was scarier was that even though he was a part of this Dao Artifact, he still felt this peerless killing intent. If it had nothing to do with this Primordial Dragon Sword, then it must be even scarier.

Looking at the flushed faces of the three Dragon Emperor s, one could tell how terrified and miserable they must be to be in the middle of this Dragon Sword Diagram.

Of course, one could also see the pleasant surprise in their eyes.

They were very satisfied with the terrifying power of the Dragon's Ancestral Sword!

"Get ready to start!"

The fifteen of them merged into the formation and began to use their power to control this peerless Dao-item. This was a Limitless Dao-item.

The Limitless Dao Artifact was the peak part of the archaic instrument.

What appeared before his eyes was a boundless sea of blood. It was a sea of blood that was even greater than the entire Immortal God Realm, a sea of blood that was boiling with boiling blood, and there seemed to be countless huge beasts rolling about within it, bursting out with peerless sharpness!

The other four dragon cities were also in a similar situation.

The Dragon Sword had truly awakened.

Next, were the fifteen Dragon Emperor s who collectively controlled the Primordial Dragon Sword. The first thing they had to do was to let the Primordial Dragon Sword combine, and the location of the combination was in the middle of the entire Dragon God Domain, which was in the skies above the Dragon City!
