

War God 2281

Chapter 2281 - Pursuing

Right now, Long Chen saw that the three Dragon Emperor s had already been completely immersed in the battle. Countless bloody threads extended from their bodies and converged together with the Dragon Sword Diagram, which belonged to the three Dragon Emperor s. It was a wave of energy that could easily destroy heaven and earth, or even the entire Everlasting Dragon City!

Right now, they were all trying their best to channel the reincarnation power of the nine palaces into their Primordial Dragon Swords and instigate an even more powerful divine power in them. They already had the complete World Tree, and Heart of Rules was shining brightly, there were even nearly a hundred million Divine Palaces on it. There were countless creatures within.

This was the huge difference between Dragon Emperor s and Bloody Skylight Emperor and the rest.

The three Dragon Emperor s had completely revived the Dragon Sword Formation from its slumber. The dragon-shaped symbols on it grew brighter and brighter, until it completely engulfed the surroundings in a blood-red glow.

Long Chen felt like he was in a sea of energy. In front of the three Dragon Emperor s, he was as minuscule as a small boat, moving forward in this sea of storm. If it wasn't for the three Dragon Emperor s not wanting to harm him, this small boat would probably have been torn apart.

BOOM!

When the sharp cry was released from the sword tip, Long Chen knew that the sword tip had already been completely activated! This

As for the other four Dragon Cities, all the other parts of the Dragon Sword had been prepared.

"Attack!" "Dragon Sword!"

The three Dragon Emperor s shouted at the same time.

In that instant, the Primordial Dragon Sword trembled violently. Then, it began to move in that instant, and under the joint control of the three Dragon Emperor s, the Primordial Dragon Sword burst out with unparalleled speed, and in that instant, it passed through countless barriers, appearing in the air above Slaughter Dragon City.

All of a sudden, it was as if a blood-red sun had appeared over the head of Slaughter Dragon City, causing the entire city to be enveloped in a blood-red light. Previously, they had experienced the turmoil of the Emperor Tianmu, but now, they were like birds frightened out of their wits.

However, in that split-second, not even a powerhouse at the level of Bloodlust could react. The tip of the Dragon Sword disappeared before their eyes. Countless people stared blankly at the shining sky, some even thinking that they had seen wrongly.

"This is?"

For a time, everyone started to argue.

"If there's nothing else, go back."

Bloodlust ordered from above.

Bloody Blaze's position in the Slaughter Dragon City was similar to the Azure Fire Emperor's position in the Everlasting Dragon City. She was slightly higher than a normal Overlord.

Hearing his words, everyone was relieved. However, they were still discussing in private about what had just happened in the air above the Dragon Slayer City.

In actuality, the same thing happened in Five Dragon Cities just now.

The reason the blood flame had cried out was obviously because of the three Dragon Emperor s. Let him stabilize the Dragon City. Even though Bloodlust didn't know what the three Dragon Emperor s were doing, he was looking forward to it.

During this process, Long Chen discovered something strange.

He had already traveled several tens of thousands of kilometers by now, but he was still connected to it, as if it was one entity. could even see through the Dragon Sword and see everything around it, which was something that not even fifteen Dragon Emperor were able to accomplish. The fifteen Dragon Emperor only needed to tell the Dragon Sword who it needed to kill, and the Dragon Sword would find its own target to make a move. The only thing the fifteen Dragon Emperor could do was to supply them with energy.

However, Long Chen was actually able to see everything that the Primordial Dragon Sword saw.

Because the sword tip was extremely fast, Long Chen could not see it clearly. However, he could confirm that the sword tip was heading towards the south at a terrifying speed. He estimated that it would not even take an hour to reach the central core.

He told his discovery to the three Dragon Emperor s.

When they found out about this news, the three Dragon Emperor s were extremely shocked.

"Just nice, we can know the result and learn more about the Black Emperor's secrets."

Slaughter Dragon City told the other Dragon Emperor about this news too. Everyone was excited, in their eyes, Long Chen was becoming more and more important.

It was only at this time that he finally slowed down his speed, allowing Long Chen to better observe his surroundings. In the distance, four terrifying rays of light were converging towards the same direction, and the tip of the Dragon Sword was also converging towards that same point!

"It's time to combine!"

It was obviously a part of the other four Dragon Cities' Dragon Swords.

It seemed very far away, but in the blink of an eye.

It had to be said that this was an extremely spectacular combination.

The blood colored sword blade first reached above, followed by two parts of the sword blade coming under the sword tip, fusing together, and then the fifteen colors of the sword hilt, coming from the Life Dragon City. In the end, at the core of the Dragon City, the sword soul of the Dragon Sword had merged with it.

Only when the five parts truly merged into one did the Sublime Dragon Sword truly appear!

All colors blended together.

Then, it began to shrink, becoming around two meters long.

The color turned into nothingness, and the shape also changed. In the end, it turned into a dragon sword, completely black, ancient and deep, the blade covered in dragon scales, the hilt a lifelike dragon's head, the tip of the sword the sharpest dragon claw.

BOOM!

The Great Ancestor Dragon Sword was formed!

When a true Limitless Dao weapon appears, its power will definitely be ten times more powerful than any other part of the Primordial Dragon Sword!

Even the pressure was at least ten times stronger.

Long Chen was still connected to the Primordial Dragon Sword, but even if the other party didn't come to suppress him, he still felt extremely uncomfortable.

The Dragon Sword was not controlled by the fifteen Dragon Emperor s.

When it was formed, a roar sounded out and it seemed to resonate throughout the entire Dragon God Domain. From this, it could be seen how loud this roar was. At least with a sound, the mountain peaks with a radius of over 10,000 miles were flattened by the violent winds!

The power of anger!

There were fifteen Dragon Emperor s who were furious, as well as Long Chen.

At the same time, it was also a power that was provoked with respect. The attack of the Dragon King's Sword this time was for dignity!

The black dragon's scales were filled with killing intent and in that instant, its speed had increased by countless times. From now on, it would search for the Black Hell King with the support of the fifteen Dragon Emperor s!

Long Chen looked ahead. The three Dragon Emperor s had already closed their eyes, and were focused on channeling energy into them, activating the Primordial Dragon Sword. The other twelve Dragon Emperor s were doing the same as well, using all of their skills.

Searching on its own, this was the most heaven defying aspect of the sword!

Even if it were to search the entire Dragon God Domain, it would not take too much time. Especially since the Black Emperor was so powerful, it would not be difficult for the Dragon King's Ancestral Sword to find him.

Long Chen's gaze followed the Tai Zu Dragon Sword as it moved at high speed.

At the moment, the Great Zu Dragon Sword was like a living divine dragon, swiftly searching, stopping occasionally to search slowly. Initially, it would search in the central region, then it would go to the southern region, and it would even fly over the Everlasting Dragon City.

"What a huge consumption."

The Dragon Emperor couldn't help but sigh. He had not found the Emperor of Black Underworld yet, but just searching had consumed the vast power of the Dragon Emperor s. Fortunately, the Dragon Emperor s were behind their cultivation, otherwise, they would have been sucked into smithereens sooner or later!

From the southern region to the western region.

This was the direction of the Spiritual God Realm.

However, the Black King was still not here.

Could it be that even the Dragon Sword couldn't find the Black Emperor?

A few hours later, the Dragon Sword began flying towards the northern region, where the slaying of the Dragon City Lord was located. When they reached there, everyone's hearts could not help but rise. It was Long Chen who told them that they were already in the northern region.

This was the most promising area.

This was because Long Chen was here, and was also where the Black King had appeared last. Thus, the chances of him still hiding here was extremely high.

Even the Great Ancestor Dragon Sword seemed to have sensed Long Chen's thoughts, as its speed of searching became slower and it searched even more seriously, flying above one Shencheng after another.

"Are you there?" Long Chen was also looking forward to it.

He could roughly feel the power of the Primordial Dragon Sword, which was a peak level that he had never seen before. It could be said that none of the Dragon Emperor could block the Primordial Dragon Sword, and they might even be instantly killed.

If he could find Black Hell King, Long Chen didn't believe that he could escape.

After all, in terms of speed, all the Dragon Swords were more than ten times faster than the fifteen Dragon Emperor s, or at least fifteen times faster.

"Emperor of Black Underworld, Chen Ting!"

When she first saw him, she had not expected such a confrontation.

Long Chen patiently followed the Primordial Dragon Sword.

He even had a premonition that the Dragon Sword had found some clues. Its speed began to slow down, and it was extremely slow as it dived towards a certain direction.

"Everyone, be careful. It might have discovered something."

Long Chen reminded her.

Hearing this, the fifteen Dragon Emperor s all had solemn expressions. It could be seen that after being activated for such a long time, the fifteen of them had almost reached their limit, and most of them were already sweating profusely.

If they could control the Dragon Sword, they would definitely have it search the north first. After all, it was most likely that the Black Hell King was here.

But there was no other way!

He could only do it in one go!

Long Chen held his breath and waited for that moment to happen.

The Great Zu Dragon Sword flew across the Dragon Slaying City and headed towards the north. If they left the continent, they would reach the stars, and if they went towards the northwest, they would reach the chaotic star field.

The position of the Black Demon Emperor was still within the Immortal God Region.

The speed of the Primordial Dragon Sword became even slower. Long Chen had a premonition that the Black Hell King was definitely in the vicinity of this stretch of black mountains and he could even smell the Black Hell Beast's scent.

Of course, it wasn't that he sensed it, but the Sublime Dragon Sword sensed it.

"I've found it. Prepare to attack!"

Long Chen whispered to everyone.

Whoosh!

As the Dragon Sword passed through several mountain peaks, a black lake appeared below it. Ripples appeared in the lake as black tentacles swayed in the air ...

Chapter 2282 - Unforeseen

Long Chen was naturally sure that the monster in the middle of the black lake was the Black Hell King.

He seemed to be resting while hiding in the mountains. It was likely that he had expended a lot of effort while being chased by the three Dragon Emperor s the last time.

Right now, the three Dragon Emperor s in front of Long Chen were all trembling a little and their faces had turned pale white. However, they had finally waited for this moment, they gritted their teeth, and were prepared to not stop until they died!

All of his hard work depended on this moment!

"We must kill him!"

Otherwise, he would bring endless troubles and disasters.

At this point in time, no one knew what exactly this Black Demon Beast was, but that was no longer important. He was already too difficult to deal with, so they could only let him die cleanly.

All the wills had been gathered together.

It shifted its direction slightly, but this time it was facing Black Hell King who was in the middle of the black lake!

In that instant, his speed increased by tens of thousands of times, that was the final sprint of the Dragon King's Sword. This time, the sprint tore through space, and it even completely destroyed the surrounding mountains and lakes, turning them into powder. When the Dragon King's Sword arrived, a

huge crater appeared within a radius of a hundred thousand meters, and the Black Emperor was almost floating above the crater!

This was the power of the Dragon King's Sword! Of course, this was just the beginning!

The Ancestral Dragon Sword was a sword of fury, and a sword of annihilation!

The leisurely looking Black Hell King would never have thought that such a Dao item would suddenly appear. He didn't even know that such a Dao item existed in the Five Dragon Cities, and such a Dao item existed. The might of a Limitless Dao Artifact far exceeded that of an ordinary archaic instrument.

The moment when all the Chen Ting figures on the black ball of flesh opened their eyes in shock, the sword became like a ray of black light and instantly pierced into the body of the Black Demon Beast. The black tentacles that suddenly came to block them all shattered into pieces and scattered into the air!

The ancestor dragon sword rushed out from the other side of the Black Hell King's body. The huge destructive force directly ripped the Black Hell Beast into two, a large amount of black liquid exploded out and countless of Chen Ting's bodies were torn apart. Under the situation where the Tai Zu dragon sword and fifteen Dragon Emperor s worked together and consumed a huge amount of energy, the Black Hell King had no way to resist!

This scene made Long Chen extremely excited!

"He's already been torn in half, but he's not dead yet. Continue!"

He informed the Dragon Emperor s.

"Great!"

The three Dragon Emperor s immediately told the other Dragon Emperor this information. Although they were already exhausted, but at this moment, they had to completely exhaust their strength and even tire themselves to death, not to mention that they could still hold on for so long!

"Everyone, we won't rest until we die!"

The Blood Tyrant Dragon Emperor roared.

What Long Chen could see was that, in the face of this sudden attack, the Black Hell King was scared, his torn body immediately stuck together. Although it was a little out of place, he still fled while screaming.

"What is this? What is this? The power of the Dragon Emperor? It's them! "

No matter how well the Black Hell King planned, when she encountered the Dragon's Ancestral Sword, she would still have to retreat. The current him was in an extremely sorry state. She cried out miserably as he ran!

"You dare to kill me, you have guts! "Tell us, once I die, thousands and thousands of me will appear, each one stronger than me. At that time, it will be your doomsday!"

"You bunch of idiots, you're all courting death!"

In the blink of an eye, he had already moved more than a million meters away!

But under these circumstances, who would believe him?

In any case, the fifteen Dragon Emperor s had already given their all and it was impossible for them to stop when they had not been able to activate the Tai Zu Dragon Sword for hundreds of thousands of years!

"Kill!"

Fifteen Dragon Emperor s exhausted all their energy.

This was the fastest speed that Long Chen had ever seen, much faster than even the Dragon Emperor s. No matter how far the Black King escaped, in just an instant, the dragon sword caught up to him. In the midst of his miserable cries, it tore him apart once again, but this time, the dragon sword was even more ruthless!

Rip!

The Black Hell King had been reduced to nothing!

The Great Zu Dragon Sword pierced through the front of his body.

However, the broken pieces of his body quickly merged together to form a new Black Hell King. It was just that its size had been reduced by one fold, and its vitality was greatly damaged. It was not far from death.

"His life force is really strong!"

Long Chen could not help but marvel at the Black Underworld Emperor's ability. He was certain that it was this Black Underworld Emperor who had planted a Black Underworld Beast seed on him back then in the Time Sea.

"Kill again!"

After the fifteen Dragon Emperor s received Long Chen's feedback, they roared in unison once again to encourage the crowd. Very few people in the entire Dragon God Domain knew that such a thing was happening in the northernmost area of the Dragon God Domain.

"Human beings, human beings, haha! It seems you really want to die, then don't blame me for this!" It's best to think it through. Your world is already at the end of its tether. What's the use of trying to be strong? I might as well just die obediently! "

The Black Hell King was still as dead as she was before as she laughed heartily.

What he said, Long Chen indeed had a bit of worry, but he wanted to use his own hard work to investigate all of this. As for the Black Hell King, Long Chen didn't really have any hopes of knowing anything from him, he guessed that this Black Hell Emperor herself was probably just a wandering Black Hell Beast, which was no different from the Heavenly Blood Hell and the Dragon Devouring Beast. It was just that he knew a little more.

Otherwise, he wouldn't need to use this kind of intimidation to scare the fifteen Dragon Emperor s.

If he had so many experts by his side, he could just call them over. There was no need to scare them.

This third attack gathered almost all of the last remaining strength of all the Dragon Emperor s, and was also the most violent one. The Primordial Dragon Sword transformed into a huge black dragon, controlling the Black Hell Beast under its claws, and made a berserk attack. This time, the Black Hell Beast was even more reduced to real fragments!

Rip!

A large amount of fragments disintegrated under the destructive power of the Dragon Sword. Only a small portion of them were able to survive, once again forming a Black Hell Beast with a diameter of ten meters. Its tentacles were only a few dozen meters away. Compared to the previous Black Hell King, this was simply not worth mentioning. Even Long Chen was able to defeat him, it was about the same as Long Qingyue back then.

"One more time and it's over!"

Using the Dragon King's Sword to this extent, it was impossible for it to not consume energy. Amongst the fifteen of them, a portion of the Dragon Emperor s almost fell.

This time, they had accumulated their final bit of power. The Dragon King's Sword once again radiated a peerless killing intent, stabbing towards the Black Hell King!

"Ha ha!"

On the contrary, this made the Dragon Emperor a little flustered. It was just that they could not care about anything else, for the last time, they gathered their strength and allowed the Primordial Dragon Sword to tear apart the Black Hell Emperor for the last time!

Weng! *

Only a very small part of his body remained, turning into Chen Ting's human form. His entire body was pale, and he was trembling nonstop. Then, before the eyes of the Dragon Sword, he opened his eyes.

"Me!"

Chen Ting stood up in panic, staring blankly at the Dragon Sword. He then said in fear, "Don't kill me! Dragon Emperor, please don't kill me! I'm Chen Ting!"

He was indeed Chen Ting, but at the same time, he was also the Black Hades Emperor.

The Dragon Emperor had thought that it was a success, but they did not expect that there would still be a small chance of survival. Indeed, the life force of this Black Hell Beast was terrifyingly tyrannical, and at this time, a few of the Dragon Emperor's had already fallen to the ground, but they still tenaciously crawled up and shouted angrily, "Kill the evil spirit, cut the grass off its roots!"

This was their will.

Today, they were here to kill the Black Hell King, and at this time, they couldn't afford to give up halfway. When they channeled their final energies and were going all out to kill the Black Hell Emperor, the Dragon Sword once again exploded with killing intent, giving the Black Hell Emperor a look of despair!

"You've let me down! If I have the chance, I will destroy the entire human race as revenge against you! "

Chen Ting's face was hideous and red as he miserably roared out these words.

The Great Ancestor Dragon Sword turned around without hesitation. It represented the will of the Dragon Emperor to kill, and in the end, pierced towards the Black Hell King!

This was the end!

Long Chen was also filled with anticipation. As long as he could get rid of Black Hell King and then get rid of the two evil women, the world would be at peace. There was no need to worry so much.

However, at this time, something unexpected occurred.

When the sword finally began to move, a black vortex appeared behind the Black Demon Emperor and two women emerged from the vortex. The two of them were very fast and fast, and Meng Hen had already grabbed the Black Demon Emperor by the neck and pulled him into the black vortex. In the blink of an eye, the black vortex shattered into pieces, and at this moment, the dragon sword had just brushed past the spot where the Black Demon Emperor had been standing.

Just a little bit more!

Long Chen and the fifteen Dragon Emperor s did not expect these two evil women to appear at this time, and even brought the Black Hell King away!

When they heard the news that Long Chen had ed, the fifteen Dragon Emperor s were simply so angry that they were about to faint. The two devils had the terrifying power to escape, and in that instant, they had already run far away, and this time, in order to kill the fifteen Dragon Emperor s of the Black Hell King, they had already exhausted all their energy.

Their only goal was to kill him!

Chapter 2283 - Sea God Tooth

"I failed."

The fifteen Dragon Emperor s could not help but feel extremely dejected.

Now that they no longer had the strength, and needed to supply the Great Ancestor Dragon Sword with the strength to once again search for them, and also with the two Evil Woman's help, they could simply move around.

"If I had known this would happen, I would have controlled the Primordial Dragon Sword and killed the two Evil Woman first. They are from the devil star, why would they come to help the Black Emperor? "

"The enemy of the enemy is their friend. The people of the devil are always cunning. This is their style of doing things. If we were to let these three guys meet, it would probably bring us even more trouble. "

If he wants to recover, if he wants to continue wreaking havoc, he'll need at least a hundred years. In a thousand years, in another year or two, we'll probably be able to try the Great Zu Dragon Sword again, see if we can activate it, and kill it thoroughly. "

"That's the only way."

The fifteen Dragon Emperor were not in a good mood.

Using the Limitless Dao-item once had caused them a lot of energy. Of course, the key thing was not them, they would be able to recover in a short period of time after resting, but it was impossible for the Primordial Dragon Sword to activate again in a short period of time. He also needed to rest in deep sleep.

Thus, the fifteen Dragon Emperor s could only stop this time.

At the northernmost area of the Dragon God Domain, the Great Ancestor Dragon Sword stopped in its tracks. When the fifteen Dragon Emperor s had lost their energy supply, it let out a sorrowful cry and suddenly scattered into five pieces that headed back to the Five Dragon Cities.

The ancient dragon sword disintegrated.

Amongst them, the tip of the sword was still contacting Long Chen and they were back in the Dragon Slayer City.

"It actually didn't succeed. Those two women are really cunning. I wonder what kind of strange plots the Black King would come up with when he collides with them."

This was the thing that Long Chen was most worried about.

Inside the underground palace, the blood red light had already disappeared and the Great Ancestor Dragon Sword Formation had also disappeared. The place had once again become a dilapidated ruin.

Very quickly, the tip of the Dragon Sword returned to its original position in the underground palace. A new stone started to form on the sword, and in the blink of an eye, the sword tip turned into the stone tablet from before.

It was over.

Long Chen could only smile bitterly.

The Black Demon Beast was the type of beast that could create an even greater disaster as long as it didn't die. Therefore, even though it had severely injured him, he believed that it would definitely recover.

He stood there and waited for the three Dragon Emperor s before leaving the place together.

However, at this time, the tip of the Dragon Sword behind him suddenly changed. This change was extremely minute, and not even the three Dragon Emperor s were aware of it.

The voice said: "Quickly give up on the Demon's Sword and take control of me."

The sound disappeared the moment it appeared.

This was the voice of the dragon sword!

"Evil Demon Sword!"

What it meant was definitely to make Long Chen give up on the divine slaying sword and control the Primordial Dragon Slaying Sword!

This was its acknowledgement of him. In the future, when he became stronger, it would allow him to take control of it and become its master.

Long Chen was thrown into chaos for a moment.

In any case, the God-Slaying Sword had been with him for a long time, and he had been looking forward to it becoming even more powerful, breaking through 800 dao traces, or even 900 dao traces!

In fact, after becoming a Limitless Dao-item, one would be able to obtain the limit of a Dao item, the 999 Dao patterns.

Furthermore, the spirit of the God Slaying Sword, the small skeleton, had completely listened to Long Chen's orders. The huge skeleton formed by the slaughter sword qi was already dead.

Thus, he still believed that the God-Slaying Sword would temporarily be fine.

The Sublime Dragon Sword stopped moving after that.

Just as Long Chen's heart was still tangled with the God Slaying Sword and the Great Ancestor Dragon Sword, the three Dragon Emperor s calmed down and stood up. Among them, the Bloody Dragon Emperor shook his head helplessly and said, "Let this guy escape. This time, everyone has consumed a lot of energy.

"Yes."

Everyone nodded.

Leaving the underground palace, Long Chen was prepared to think about what he had said today regarding the Dragon's Ancestral Sword.

After all, he had personally witnessed the might of the Dragon Sword. The nine hundred and fifty dao runes were definitely a heaven-defying weapon.

It was just that there were no chaotic star field s, but a vast expanse of starry sky. It was from here that Long Chen had charged into the Immortal God Realm and come to the War God's Ancient City Realm, starting his own journey to the Immortal God Realm.

Astral Soul Supervisor from the Everlasting Dragon City were dividing into three thousand clones and moving around everywhere to prevent some small fries from entering the Dragon Sacrifice Continent. In actuality, the strong ones from the tribulation of reincarnation simply did not want to go down. Although there were a lot of Dragon Sacrifice Continent s and their overall strength was weak, the level of the world was too low.

So no one wants to go down.

There were only some practitioners around the Seven stages of Nirvana Tribulation who wanted to go down and dominate the common people, but they had to go through the Astral Soul Supervisor first.

However, Astral Soul Supervisor would never be able to discover a few of them.

Those were the two evil women from the Dark Star.

Currently, one on the left and one on the right, they were standing in front of a man. That man wore a black robe.

He was holding a weak black octopus in his hand. At this moment, it was weakly waving its black tentacles. There were lumps of flesh on its black head.

"What a magical creature." Yi Xue giggled. Her crafty expression had a playful beauty that could captivate the world.

Emperor Hei Yan's eyes darkened. His gaze wandered over the two women. Compared to Yi Xue, he was more wary of Meng Hen, the woman brimming with killing intent. She could kill him at any moment.

"Who are you? Why did you save me?" The Black Hell King looked at them with her deep eyes. The black octopus in his hand continued to sway back and forth powerlessly. Occasionally, he would open her mouth and reveal a set of sharp teeth.

Yi Xue smiled mysteriously and said tenderly, "As for us? We are the people of the Devil. You must know about the Dark Star. "

"Devil?"

In truth, the Black Demon Emperor had expected this. He had been in the human race for so many years, and when a large number of Devil Star Demons came to the Dragon God Domain, he had definitely seen them before. Even though these two women appeared to be beautiful, they had actually already been possessed by the devil. When they truly went berserk, they were more frightening than anyone else.

"Only people can go in and out of the demon star realm. Didn't Long Qinglan re-establish the seal on it? How did you guys get out?" the Black Hell King asked coldly.

"Don't worry about that, it has nothing to do with you. How many creatures like you are still in this world?" Yi Xue asked.

The Black Hell King was silent for a moment, then suddenly laughed, "Even the devil planet is just a frog in a well. Even if I told you how vast the real world is, you wouldn't understand. "

Yi Xue and Meng Hen looked at each other in confusion. However, Yi Xue quickly said with a smile, "The starry sky is endless, so of course we understand." That is to say that you are considered creatures outside of the dragon sacrifice? It's not easy to be here, but you want to take over our world? What a wishful thinking, I think you are a wanderer here. What a pity. "

Emperor Hei Yan laughed, too lazy to explain. He asked back, "Just say it directly. Just what do you want me to do after you saved me?"

He was well aware that they must have an intention to risk bringing him here.

Yi Xue chuckled and said, "Looks like you are quite anxious, you foreign creature." "Since this is the case, I will directly order it. We want to make a fair deal with you, and upon hearing our conditions, you will definitely be tempted."

Her eyes were sparkling, her eyelashes were very long, and her quivering look was wonderful.

Emperor Blacknether, however, remained unmoved. He said, "Speak."

Yi Xue said, "It's simple. Your current situation isn't too far from death. I can see that your recovery ability is not bad. Normally, it would take hundreds of years to recover to your previous state. As for us, we can make you return to your original state within ten days."

Hearing this, the Black Hell King's eyes narrowed as she looked at the two girls in shock. The people from the demon planet were indeed not simple. Just a simple condition was enough to tempt the Black Hell King.

The Black Hell King was still very careful as she asked, "Words have no basis. Tell me how to make me recover." Furthermore, I have already separated myself from the Black Demon Beast, but I am still controlling it.

The Dragon Sword tore the Black Hell Beast out of his body. Honestly speaking, Chen Ting had already returned to his original appearance. Just like Long Chen right now, his body had only been alive once by the Black Hell Beast, but he was different from Long Chen. Now, he was still in control of the Black Hell Beast.

Especially after the fifteen Dragon Emperor s mercilessly killed him, they brought him extreme fury and hatred.

"Of course it's him. Otherwise, with your body's strength as a demigod, what use would it be?" She raised her pure white arm with a black bracelet and said, "There should be several corpses of the Sea race's' Sea God's Fang 'inside here. The Sea God's Fang is one of the top bloodlines in the Sea race and its growth is close to that of a god. Their strength when they were alive is equivalent to that of a human's Dragon Emperor.

"Sea God's Tooth!"

The eyes of the Black Hell King narrowed. He didn't expect them to even have Sea God's Tooth. The people of the Devil world were truly powerful and resourceful.

He could not suppress the excitement in his heart and said: "If there are three corpses, I can recover. If there are five Sea God's Tooth corpses, I can surpass the past and give the Black Demon Beast the power to fight against fifteen Dragon Emperor!"

All of this caused his eyes to burn with fervor.

Chapter 2284 - The Water of Heaven

"It just so happens that we have five corpses of the Sea God's Teeth."

Yi Xue smiled in satisfaction. Of course, she knew that for the current Emperor of Black Underworld, this condition had a fatal attraction.

Now, although Chen Ting had been separated from the Black Hades Beast, as long as he was willing, he could let the Black Hades Beast enter his body at any time, allowing him to once again become a part of it. However, they were unable to separate again. It was not easy for them to return to their human

forms. The Black Hell King struggled in her heart, but she still resisted the urge to let the Black Hell Beast into her body.

At least for now, as long as he could control the Black Demon Beast, he was in no hurry to merge with it.

He took a deep breath and said, "Words have no basis. Let me see."

Yi Xue knitted her brows slightly as she puffed her cheeks and said, "What a timid man."

It was an azure colored sea monster, a shark, the pinnacle of the Sea Clan's bloodline. Legend has it that it is the direct descendant of the Sea God, one of the top bloodlines in the Sea Clan. If it could grow to its peak, it would be at the Dragon Emperor's level of strength!

Yi Xue quickly kept the corpse of the 'Sea God's Tooth' and said, "Now do you believe!"

Emperor Hei Yan's eyes were still filled with shock. The Black Demon Beast in his hand came to life as it stared greedily at Yi Xue with a strange glint in its eyes.

"Enough, tell me your conditions."

the Black King asked seriously.

The temptation of this transaction was undoubtedly enormous, so it was obvious that the conditions would also be very harsh.

Yi Xue smiled slightly and said, "Actually, you must understand that our targets are the same opponents. We are the fifteen Dragon Emperor s and you are also one of the fifteen Dragon Emperor s, so this is a collaboration and not just a simple deal. As for the Sea God's Fang, just consider it our gift to your ally."

Emperor of Black Underworld narrowed his eyes and said, "The only goal of the people of the Demon Star is to remove the Magic Star Seal. It looks like you want the five dragon pearls, right? Hehe, you guys are coveting this Immortal God Realm, right?"

"You're wrong. We want freedom, not the prison known as the magic star." Meng Hen suddenly said resolutely, interrupting the Black Yama Emperor's words.

The Black King rolled his eyes and did not argue about this topic.

Yi Xue said, "Alright, we are allies now. Our plan is actually very simple. Black King, listen carefully."

She turned serious and continued, "In our hands, there is something called 'Water Without Heaven'. This is the dirtiest water in the world, it stinks the heavens and is incomparably poisonous. Be it the strong or the weak, they won't be able to endure it, the weak will directly die, and the strong will be driven mad by this stench and dirt. This is a terrifying thing that was born from the demon star, only we have it."

She couldn't help but frown when she mentioned this 'Water of No Heaven'. Obviously, this thing was too terrifying.

"Then, you want me to release this 'Heaven's End Water' in one of the Five Dragon Cities? Causing a disaster?"

The Black Hell King answered.

"It's only half right. It's indeed up to you to release it, but not in the Five Dragon Cities, but in their Sacred Grounds — — Ancestral Dragon Caves!"

Yi Xue chuckled as though she was talking about something insignificant.

"Ancestral Dragon Cave?" The Black Hell King's eyes narrowed. She had to admit that the two girls were terrifyingly bold, but their thoughts were brilliant.

"The 'Heavenly Water without Heaven' is actually the extremely dirty water. If it is sprinkled on the Ancestral Dragon Cave, it will certainly make that group of old fellows go crazy even more than it would on the Five Dragon Cities, to the point where the entire Dragon God Domain would go crazy. "Then what should we do next?"

Black Hell King asked.

Yi Xue arranged the plan and said, "When your Black Hell Beast absorbs the five corpses of the Sea God's Teeth, as long as it can restrain fifteen of the Dragon Emperor s, who will be contaminated by the water from heaven and then you will wreak havoc in the vicinity, they won't show up. As long as you fight with them and restrain them, the two of us will have a way to prevent the fifteen Dragon Emperor s from moving, and take away their five Dragon Pearls.

Upon hearing these words, Emperor Blacknether was stunned. He was silent for a long time.

He could have no problem with that, but how could they do it so that the fifteen Dragon Emperor s would be unable to move, and then take away the five dragon pearls? To be honest, the Black Hell King doesn't care about the Demon Star being unsealed.

Therefore, he raised his doubts.

"You don't need to worry about that. We must be confident to carry out this plan." Meng Hen coldly refused.

"What if I have to know?" The Black King said forcefully.

Meng Hen was a little angry, but Yi Xue stopped her and giggled, "This is not a big deal. You can be at ease, we have something on us that can open up a path, allowing all the experts on the Demon Star to release the 'Demon Suppressing Formation' to the Ancestral Dragon Cave. It is more than enough to imprison these fifteen Dragon Emperor s. In addition, we can use the 'World Splitting Hand' to invade their divine realm and take away the five dragon pearls! "

After hearing this, the Emperor was even more shocked.

The demonic star was truly terrifying. It was actually able to transfer such power.

In actuality, all fifteen Dragon Emperor s could predict that the Demon Star wouldn't let these two people compete for the Five Dragon Orbs for no reason. The ones they were facing were fifteen Dragon Emperor s, so they definitely had some sort of special method.

"I've already told you the detailed plan. If you don't agree, then we'll have to kill you." Meng Hen was not as polite as Yi Xue.

A strange smile suddenly appeared on his face, it was almost identical to the Black Demon Beast in his hand. He said, "You're right, this is not a deal, but a cooperation. As for those Sea God's Fang, just treat it as your gift."

He actually didn't have the right to refuse.

Especially since he thirsted for power so much, he simply could not wait for a hundred years. At that time, Long Chen would definitely be at the heaven defying level, and no one would be able to kill him.

The Sea God's Tooth could bring unprecedented power to the Black Demon Beast, and could rejuvenate the heavily injured Black Demon Beast at this time. When it returned, it could bring shock to the fifteen Dragon Emperor and bring disaster to them.

Of course he couldn't forget that fifteen Dragon Emperor had joined hands to strangle him.

He almost died.

Yi Xue and Meng Hen exchanged a glance when they heard the Emperor's reply. Yi Xue had a sweet smile on her face. Although Meng Hen was not smiling, his dark red eyes were dazzling.

"It's rare for us to have a common goal, so I want to know more details." The Black King said.

"No problem."

Amongst the Five Dragon Cities, no matter if it was Long Chen or the fifteen Dragon Emperor, of course they couldn't guess what methods they had. The fifteen Dragon Emperor only knew that the person from the Demon Star would definitely not be easy to deal with.

Currently, the Dragon God Domain was extremely calm. The shock caused by the Great Ancestor Dragon Sword the last time had gradually faded away, and most people did not know what it was.

However, this tranquility was seen by everyone as the calm before the storm. There would always be a moment when a new calamity might erupt.

Long Chen, on the other hand, was cultivating peacefully in the Scarlet Dragon Palace.

His only goal was to reach the late stage of the Five Elements tribulation of reincarnation as soon as possible so that he would be able to quickly catch up to the him at the time of his fusion with Li Xuanji. Now that Li Xuanji was no longer here, he could only rely on herself.

However, at this time, Ling Xi had already stepped into the final stage.

"Brother Chen, in about ten more days, I'll have succeeded." Through the star runes, Ling Xi told him this.

In the blink of an eye, a year had already passed. During this year, too many things had happened, causing Long Chen to no longer have the time to pay attention to Ling Xi. Back then, when he was on Heavenly Dragon Star for a year, he had only stepped past a single level and entered the tribulation of reincarnation. But after a year had passed, his gains were huge, and he directly rushed into the tribulation of reincarnation of the five elements.

The more people grew, the slower their speed became, and yet, he was actually faster.

Of course Long Chen missed her very much. It had already been a year since they last met.

"I'll talk to the various Dragon Emperor s, since there's only a bit of time left, I'll go back to Sky Dragon Star to wait for you." Long Chen immediately stood up. In this year, he had always been pressured by a rock in his heart, and it was about time he released it. Thinking about how he would be able to see her soon, his heart was of course very excited.

"Really? That's great! "

Ling Xi was filled with surprise and joy. Of course she wanted to see Long Chen as soon as possible, for the past year on Sky Dragon Star, he had been missing Long Chen every single moment and they were all worried about him. So many things had happened in Dragon God Domain during this year, how could she not be anxious?

"Give me a moment."

Long Chen did not care about rushing to the late stage of the Five Elements tribulation of reincarnation anymore. He immediately went to find the Blood Tyrant Dragon Emperor, and coincidentally, the other two Dragon Emperor s were there as well.

"Go back to Heavenly Dragon Star? Of course there's no problem, you just need to be careful. Recently, the Demon Queen Mother and the Black Hell King have disappeared, and I'm afraid they will notice you. We have searched the entire world for them these days, but to no avail. " The Emperor Blood Dragon Emperor said helplessly.

At this time, the Dragon Emperor said: "I do have a method that I can try."

Long Chen asked: "What method?"

The other side said, "Since we are looking for them and you are also afraid that they will target you on this road, that just happens to be the case. We will send a few of them to hide in your Divine Kingdom. After that, you will return to Heavenly Dragon Star, and once they intercept you, we will find them. Didn't the Black Hell King start plotting against you time and time again? "

Chapter 2285 - Chaotic Sea

Just when Long Chen was about to return to Heavenly Dragon Star and bring Ling Xi to his side, in the distant chaotic star field, on the Primal Chaos Emperor Star, the Primal Chaos Star Lord was sleeping in a place called the 'Chaotic Sea'. He focused on improving himself, wanting to enter a deeper level to face the terrifying Nine Palace Calamity of the future.

Once he reached that level, he would have the power to challenge others.

He transformed into a Chaos beast, floating leisurely on the sea of chaos.

However, the Chaotic Star Lord had discovered it. He instantly transformed into a black-haired Middle-aged Fighter, because he knew that the person who could quietly enter the Primal chaos planet and also escape his senses, was definitely a strong warrior.

What appeared in front of him was an enchanting looking man. His eyebrows were furrowed as they flew into his temples. A pair of phoenix eyes that were raised at the ends of his horns flowed with a glimmer. He looked really charming and charming. Her red lips lightly pursed into a faint smile. Her skin was whiter than snow, and it seemed to be slightly emitting a silvery white light. Her eyes were as clear as crystals in water, but the corners of her eyes were slightly raised, making her seem very charming. Her pure pupils and alluring eyes blended into an extremely beautiful charm.

With white hair and white eyebrows, he wore a long black and white robe that billowed along with the wind, crashing into the Chaotic Star Lord. Such a beautiful man was simply suffocating. Honestly speaking, in terms of beauty, this man was stronger than countless women. At the very least, he surpassed all the women that the Primal Chaos Star Lord had seen.

In fact, a few moments later, if it wasn't for that inherently dignified gaze, the Primal Chaos Star Lord would have thought that he was a woman.

But then there was fear.

The person in front of him had a supreme pressure, only natural born emperors could have that, which meant that he was truly a person at the highest level. His seemingly calm eyes looked at the Chaotic Star Lord, yet they carried a kind of fatal oppression, making the Chaotic Star Lord's hair stand on end when he saw him, and he didn't even dare to breathe too loudly.

"Oh, you are the owner of this planet?"

At that moment, the white-haired man said something in a soft but unforgettable voice.

"Yes, may I ask who Senior is?"

The Chaotic Star Lord believed in his intuition that he would definitely be able to control his own life, so he used the word 'senior' to refer to himself.

"What do you think?" The man's eyes sparkled like the stars in the sky.

Although the Chaotic Star Lord had a candidate in his heart, he didn't dare to say it out loud. He was afraid that if he said something wrong, the other party would be angry and casually kill him.

"Junior cannot guess." The Starlord said nervously. Even the people of the entire Primal chaos planet would not dare to believe that their Chaos royal clan's Patriarch would be in such a mess in front of this person.

"Oh, that actually isn't important. I've been wandering around your Primal chaos planet for a while. You don't object, do you?" The white-haired and enchanting man said.

"Welcome, absolutely welcome. I will immediately order for everyone in Chaos royal clan to welcome Senior." The primal chaos star lord hurriedly said.

"That won't be necessary. You're the only one who can see me. Just don't be blind."

In the blink of an eye after he finished speaking, he disappeared. The Starlord, who was left behind, broke out in a cold sweat.

"At that time, even those fifteen Dragon Emperor s didn't give me such a feeling. Could it be the Spirit Race Emperor? But for a dignified Spirit King, the current number one Zhi Zun, what does he want to come to my chaotic star field for? "

This appearance was indeed similar to the legendary Spirit King, and only he could be so shocking.

However, the Starlord couldn't figure it out.

"Don't tell me that they are here for the Demon Star and the Star of Destiny? It can't be Sky Dragon Star, right? After all, Sky Dragon Star is just a group of exiled Dragon Fighter. "

Long Chen and the others on Sky Dragon Star did not know about this insignificant change.

And now, Long Chen was ready, among the Five Dragon Cities, there were a total of five Dragon Emperor s to protect and escort him, among them the Eternal Night Dragon Emperor of the Everlasting Dragon City, and the other Dragon Emperor s would continue to guard the Five Dragon Cities.

Since they were going to hide in their own God Kingdom, Long Chen could only let them see his own God Kingdom.

The Dragon Emperor's Divine Kingdom was incomparably vast, but it wasn't as agile as Long Chen's.

"This Divine Kingdom is exactly the same as the outside world. It's truly stealing the fortune of this world!"

After entering the Divine Kingdom, Long Chen, the five Dragon Emperor s all sighed.

The Dragon Emperor from the Life Dragon City said: "My clan has a legend, and for countless years, the Dragon Sacrifice World grew up from a small world, and in the end, it was able to become this vast. Long Chen's Divine Kingdom, is exactly the same as the legend, and this should be Long Qinglan's credit, right?"

"Legends are legends. Of course, we cannot believe everything that's said and done. But to have such a divine country, it is truly marvelous."

"Long Qinglan is unparalleled in the world. Back then, we misunderstood him so deeply, and we are truly ashamed. If he is still alive, then today's calamity was simply a small matter to him."

Until now, the fifteen Dragon Emperor s clearly understood that what happened back then wasn't as simple as they had imagined. Even the Immortal Dragon Emperor had changed his mind, so there was no need to mention the others.

Only the matter of the Demon Star was still a mystery, but even if they didn't know the truth, there was already no resentment in their hearts.

"Everyone, let's go."

Long Chen seemed to be heading to Sky Dragon Star by himself, but in reality, there were five Dragon Emperor s hidden in the God Kingdom. The moment Black Hell King appeared, the five Dragon Emperor s could seize the opportunity to kill him or the two devils from the devil star would appear and attack. But if they still did not appear, he could just bring Ling Xi back along with him.

He wouldn't be at a disadvantage anyway.

did not believe that the Black King, who was heavily injured the last time, would come and find trouble with him again. So his main goal, was still to reunite with Ling Xi. Currently, Ling Xi was already at the final stage, and after ten days, she would roughly be able to fuse with the stellar nucleus.

From Slaughter Dragon City to chaotic star field, the majority of the journey was through the endless stars. Very quickly, Long Chen and the five Dragon Emperor were nearing the northern border of Dragon God Domain.

's heart was currently filled with Ling Xi's shadows. To think about it so much after not seeing him for a year, proved even more the deep love in his heart.

However, no one would have thought that the movements of the two evil women would begin at this moment.

To the east of the Immortal God Realm was an endless starry sky.

Walk in the direction of the Black Jade Dragon's head and you will be able to find the Ancestral Dragon Cave. No matter who it was, they would not be able to destroy the Black Jade Dragon Head, and they would also not be able to enter the Ancestral Dragon Cave.

Currently, the Ancestral Dragon Cave was guarded by a few Dragon Fighters. Of course, no one would be stupid enough to challenge the Ancestral Dragon Cave, so no one would have the ability to do so. Occasionally, there would be some hotheaded youths who would come over. Their mission was to chase these types of people away.

But this time, the one that appeared before them was the Black Hell King.

As soon as this man appeared, he looked at the dream-like Ancestral Dragon Cave behind them with his incomparably deep eyes. He was looking at the 'Genesis Lands' of the Divine Dragons!

The gatekeepers naturally knew who the Black Yama was!

They were immediately scared silly. When they reacted, the majority of them stood in front of Black Hell King, while the rest immediately informed Five Dragon Cities!

With an astral rune, this was a split-second.

"Black Hell Emperor! You are not allowed to go near the Ancestral Dragon Cave, and right now, you are no longer a human being, nor are you allowed to go near the Dragon Fighter.

Although the people of Five Dragon Cities hated him very much, and they knew that he was very scary, the guards were not afraid. Furthermore, at this time, they had already sent back the news, and the only thing they had to do now was to delay him for a while.

Yet, it was as though Emperor Blacknether seemed to hear every single word they said.

Everyone noticed that he was holding a black bottle in his hand. There were some black liquid patterns on the bottle, but the patterns were changing. It seemed like the black liquid was flowing.

Of course, they didn't know that this was the most filthy thing in the legends — 'Water without Heaven'.

"Black Emperor, we have already informed the Five Dragon Cities. If you understand what we're saying, you should hurry up and leave. The Dragon Emperor will be here very soon. You are not from my clan, so you do not have the qualifications to be near the Divine Dragon's Origin! "

The guards were extremely nervous.

"Oh? Am I no longer a human? That's even better. Without this identity, killing you is no different from killing a dog. "

The Black Hell King suddenly laughed out loud. He opened her palm and a powerful suction force landed on the guards, causing them, who had a maximum of six tribulation of reincarnation, to crumble into dust and dissipate into the air.

All of the guards were turned into ashes, and only the mysterious Ancestral Dragon Cave was left in front of him.

"Land of the origin of the divine dragons?" The Black Emperor couldn't help but sneer.

When he was very young, he was very proud of this. Carrying on his back the dream of reviving the descendants of the Divine Dragon, he had once wanted to find those lost Divine Dragons, but that incident had completely destroyed him. He believed in power.

"Let's lay down the Aurora Arts first, then you can start." Yi Xue and Meng Hen emerged from the black vortex.

Today, they had to take away the five dragon pearls and break the Magic Star Seal!

"Let's begin!"

The Black Hell King looked at the Ancestral Dragon Cave in a daze.

Behind him, the two Evil Woman began to set up array formations. The first was using the Aurora technique, and the next was a killing move, they were about to open a 'Heavenly Demon Road', connecting them to the surface of the Demon Star, and let the Demon Star's Rankers combine together, transferring their power out, forming a 'Demon Seeking Array', using it to imprison the fifteen Dragon Emperor s!

This was the last struggle of the demonic horde. Success was not allowed, and failure was not allowed!

The two girls also carried a huge amount of courage on their backs.

And the effect of the Aurora Technique was ...

Currently, the Five Dragon Cities had already heard the news that the Black King had appeared in the Ancestral Dragon Cave. The Dragon Emperor that were still guarding the Five Dragon Cities naturally knew as well.

Chapter 2286 - Aurora Arts

When they heard the news that the Black Hell King had appeared in the Ancestral Dragon Cave, they quickly saw that at that moment, many people had walked out. The unusual movement in the sky made them quickly notice the commotion above.

It was as if the entire sky of the Dragon God Domain had been controlled.

The billions of people in the Dragon God Domain raised their heads and saw the clouds and light rapidly changing in the sky. Then, a scene actually appeared in front of them.

In the entire Dragon God Domain, everyone could see the Ancestral Dragon Cave and the Black Hell King from the images in the sky!

This was the Aurora Art!

This caused everyone in the Dragon God Domain to see the Aurora Arts of the Ancestral Dragon Cave and the Black Emperor of Hell. This technique had been cut off from their heritage for countless years, but they never expected it to appear again today.

The billions of people raised their heads, all of them could see the emperor. See his crazy eyes.

The entire Dragon God Domain was filled with countless of panic and discussions. For most of the warriors, they definitely didn't know about the Aurora Art, so they were even more panicking in their hearts. Now, the evil reputation of the Black Hell King had already spread throughout the entire world, not only the people from the Five Dragon Cities were afraid of him, the people from the seventy-two Shencheng s were even more so.

Naturally, the people of the seventy-two Shencheng knew that the Black Demon Emperor was in fact a Black Demon Beast.

Now, he appeared once again, shaking the world!

Very few people paid attention to why everyone was able to see the Black Hell King in the sky, and what most people were paying more attention to, was what this terrifying Black Hell Emperor wanted to do in the Ancestral Dragon Cave!

That was a sacred place of the Dragon Fighter!

Especially the people of the Five Dragon Cities, in a short moment, they were boiling over!

It had not been a long time since the time the Black Hell King appeared in Ancestral Dragon Cave and the Aurora Arts was displayed. At this time, the various Dragon Emperor s had just come out of Five Dragon Cities and were preparing to head to Ancestral Dragon Cave!

For example, Slaughter Dragon City, the Ten Thousand Killing Dragon Emperor and the Emperor Blood Dragon Emperor were all shocked beyond belief.

"It's actually the Aurora Art!"

"What exactly is he doing in Ancestral Dragon Cave? Judging from his complexion, it seems like he has already recovered? "

The two Dragon Emperor s had no choice but to instruct the six Nine Palace Calamity Elders, who were already awake. Their strength far exceeded that of a Blood Blaze, but they were still beneath the Dragon Emperor.

The ten Dragon Emperor s that were stationed around were nervously conversing with each other.

Life Dragon City is in the east, so the two Dragon Emperor there said: "Let's go there first, no matter what he does, we will stop him. "However, this guy is very scheming, and is afraid that we don't have enough power."

The Ten Thousand Killing Dragon Emperor said, "The two of us will also immediately rush over. This time, we can't let him leave. Other than that, you had better wake up one or two of the elders who are slumbering in the Dragon City to guard Dragon City. Now that the two evil women do not know where they are, you can't let them take the chance and enter, maybe this is their plan to lure them out.

"Sure!"

Since it had already come to this, the other Dragon Emperor s no longer had anything to hesitate about. This time, they were determined to eliminate the Black Hell Emperor and not allow him to cause trouble again.

The Five Dragon Cities were all preparing to wake up some of the sleeping elders. Furthermore, the Evil Woman's goal was the Five Great Dragon Balls. Now that all five of the Dragon Balls were with the Dragon Emperor, they could take them away with them.

After dealing with the shield, they headed towards the Ancestral Dragon Cave.

Other than the Dragon Emperor, everyone else was left in their respective Dragon City. Now, as they looked nervously at the sky, they saw the Black Hell King holding a black bottle in her hands. He suddenly spoke and her voice spread through the entire Dragon God Domain through her Aurora technique.

"My former compatriots, you must be very nervous when you see me, right?"

The corners of his mouth revealed a strange smile as he continued, "In the blink of an eye, so many years have passed. I have already embarked on a different path from all of you, but who can we blame for that? I feel that Long Qinglan has to be blamed for this, because he was the one who ruined my life. "

It was a rare opportunity to face all the living creatures in the world in this way.

Long Qinglan?

For a time, everyone was confused.

How could there be a grudge between the two of them? Even the fifteen Dragon Emperors didn't know that there were a lot of people in the world who had been defeated by Long Qinglan. Black Hell King was one of them, but he wasn't special at all.

"It's all ancient times, and he's already dead today. It was only recently that I realized that my life wasn't really ruined, and I received an unprecedented transformation and rebirth. This is a level of life that none of you are able to touch! In front of us, even if you are a god, what are you? You will not understand, but one day, you will understand! "

He held the bottle in his hand as he laughed with incomparable excitement, causing everyone in the world to hear his voice and see his current appearance.

"Yes, back then I was extremely laughable. At that time, I was still young, so I thought that I was the best in the Dragon-Devouring City, and was also the best in the world. I heard that he was very powerful, and I went to challenge him, and perhaps you all have forgotten about that. Even the humiliation of defeat was so insignificant. But for me at that time, it was a fatal blow! "

Speaking of this matter, he had already entered a crazed state, unable to release all the depression he had accumulated for many years. Finally, when the Aurora Arts made him see everyone in the world, he freely vented it out.

"You should not remember the bet from the beginning, who was the one who lost and ate a dirty creature from a dirty pond in front of everyone. I lost and I kept my promise and swallowed the creature that I thought was a poisonous frog in one gulp. But what was that? That's right, that was a juvenile Black Hell Beast! This is it! "

Speaking of this, through the Aurora Arts, everyone could see that in the endless starry sky, there was a giant beast waving its black tentacles that were tens of thousands of meters long, swaying in the starry sky. The Black Hell Beast clearly appeared in front of everyone, and those that hadn't seen it before were all terrified.

Even the fifteen Dragon Emperor knew the true reason, and also knew the depression and pain in the Black Hell Emperor's heart for countless of years.

At that time, both sides were still young, and neither of them were willing to admit defeat. Neither of them had expected that the poisonous frog that they had swallowed on the spot would actually be a gigantic Black Hell Beast today.

"At that time, the weak Black Hades Beast had almost died on the body of the poisonous frog. It was I who saved it, and it was also it who saved me. It's just that at that time I didn't admit it, none of you could understand how painful it was for me. A Black Hell Beast has lived in my body for so many years, it's absorbing the fruits of my training, controlling my life, and every night I can see its black tentacles growing out of my body and swaying in the air. Maybe Long Chen understood that because he had also experienced something like this before, but at that time, I didn't have his ability or will to do what he did, and couldn't just directly drag out Black Hell Beast like he did! But from today's perspective, this is a completely wrong approach. "

At this moment, everyone in the world could hear what he said.

Perhaps, this was the reason why he wanted to kill Long Chen every single time. Of course it was because of Long Qinglan, who had changed his life. had personally experienced it. He knew how terrifying this would be for a young martial artist, but he was also afraid, and did not dare to tell others about his special situation. Until today, he was afraid that only he would understand how much pain he had endured!

"In the past, I've suffered for my entire life, but it's different now. I understand its power, know its background, know how great I am, how strong I am, how lucky I am, but I can't forget the pain I've suffered for all these years. I have to take revenge, but where is Long Qinglan? I don't know, but his son is still alive and very powerful. Then, Long Chen, I know you saw me.

Was this his inner world?

Although it was quite exciting.

However, Long Chen was about to be disappointed. He had initially thought that he was a member of the Heaven-Devouring Clan and knew a lot about them. Turns out that he was also a lonely creature, and the things he knew shouldn't be as vast as he had imagined.

Now, the Black Demon Emperor laughed. Holding the bottle in her hand, she said: "In order to welcome you all, I will sprinkle the most filthless water in this world in front of your Ancestral Dragon Cave, so that your proud Dragon God, this lowly being's origin, will be shrouded in the most misunderstood water. Consider this my repayment for all these years of being nurtured by your Dragon Emperor, and consider this my final baptism after leaving the human race.

To everyone, the Ancestral Dragon Cave was sacred. Especially for Dragon Fighter.

This place was known as the Dragon God Domain, not the Human God Realm. Naturally, it referred to the divine dragon as the most ancient ancestor, and the seventy-two divine gods were inherited later.

Therefore, the position of the Ancestral Dragon Cave was larger than the battlefield of the gods!

Now, the Black Demon Emperor wanted to use the filthiest water of the heavens to taint it. In the entire Dragon God Domain, who could endure that?

Especially the fifteen Dragon Emperor s, they were almost driven mad with rage.

When the Aurora Arts was displayed, Long Chen and the rest were about to leave Dragon God Domain, but at this time, Long Chen understood that this trip to Sky Dragon Star would be delayed, so the five Dragon Emperor s had to change their itineraries and head towards Ancestral Dragon Cave. As for him, because the Black Hell King's real goal was to kill him, if he did not come, who knew what kind of changes would occur in the Ancestral Dragon Cave?

Chapter 2287 - Lower Creatures

It was too late.

The first to enter the Ancestral Dragon Cave were the two Dragon Emperors, and theirs were the closest. The remaining eight Dragon Emperors of the other four great dragon cities all moved out, heading in the direction of the Ancestral Dragon Cave. And at the northernmost area of the Dragon God Domain, the five Dragon Emperors and Long Chen were still discussing.

"Now that the Black Hell King has confirmed that the two devils are in Ancestral Dragon Cave and their target is not you, you can go to the Heavenly Dragon Star in peace. We will settle the matters in the Ancestral Dragon Cave."

Of course, Long Chen wanted to see Ling Xi. The problem was that the Black Hell King's target was him, if he did not go, then there might be more troublesome things that would happen. Furthermore, in his opinion, this matter was not that simple. There must be something fishy about this.

On Ling Xi's side, with Yang You's protection, it had always been fine. He was also completely at ease, so she told the five Dragon Emperors of her thoughts.

"Since that's the case, then come with us to the Ancestral Dragon Cave. When this matter is settled, we will personally send you to the Heavenly Dragon Star. Time is of the essence, let's talk on the way! "

Now, the Black King was about to release the Water of Heaven.

With the five Dragon Emperors rushing, Long Chen could just follow them. After reaching one of the Dragon Emperors' Divine Kingdoms, he quickly moved towards the east.

He began to say doubtfully, "The Dragon Sword had once killed this Black Hell Emperor, severely injuring him and forcing him to her death. More importantly, he had met the Demon Star and the other two in the past, which was why he was so sure that the Demon Star and the other two had joined hands with him to do such a thing. There must be a conspiracy. "

Dragon Emperor Yongye said thoughtfully, "That is indeed the case. Then, what is their goal? The Aurora Art is a lost art, and Black King shouldn't know it. It should have been set up by the two witch. "

The other four Dragon Emperor s also frowned.

Long Chen thought for a while, "Black King Yan's target should be me. He really hated me and my father. And the targets of the two witch are obviously the five dragon pearls. They are naturally using the water from heaven to force you to go over and steal your five dragon pearls. Since they have the confidence to let you go, they must have a way to deal with you too. Although this method is hard to guess, but once you go, there will definitely be an accident. Perhaps, one of the Dragon Emperor s should take their dragon pearl and leave, this is more appropriate. "

After all, Long Chen understood that the two Evil Woman had grabbed the fatal spots of fifteen Dragon Emperor s. Who knew that they were setting up a trap for the Dragon Emperor s to pass through, and even if they might not have much luck in the future, the Dragon Emperor s still had to go. That was because the Ancestral Dragon Cave s were the Ancestral Dragon Cave s, the land of origin of the Divine Dragons, the holy land of all Dragon Fighter s.

The words Long Chen had said, for one of the Dragon Emperor s to bring one of the dragon pearls without going to the Ancestral Dragon Cave, should not have much of an impact.

"The Eternal Dragon Pearl is actually with me." Dragon Emperor Yongye suddenly said.

At the side, the Bloody Dragon Emperor said: "They won't succeed, at least they definitely won't know that Long Chen has already merged with the Slaughter Dragon Pearl, and without obtaining the five dragon pearls, he simply won't be able to remove the Magic Star Seal. But for insurance, Yongye, you better not go over for now."

"No." Dragon Emperor Yongye shook his head and said, "The Sacred Grounds have been humiliated, how can I possibly hide? I will place the Eternal Dragon Pearl in a secret location before heading to Ancestral Dragon Cave. Rest assured, I can naturally prevent Everlasting Dragon City from being born within a hundred years. "

This way, it should be more secure.

Those two devils thought themselves to be clever, but Long Chen could easily figure out the clues and guess their intentions. As for the fifteen Dragon Emperors, they were anxious and angry, so it was normal for them to not have understood it at the beginning.

Since Dragon Emperor Yongye had made such a decision, no one else had anything to say.

Moreover, with the exception of Long Chen, it was simply impossible for the two from the devil star to gather all five dragon pearls. Although they had set a trap in the Ancestral Dragon Cave, for the sake of honor and dignity, the people of the world had now seen the Ancestral Dragon Cave being polluted, how could they possibly be cowering in fear of it!

Through the Aurora skill, one could see the Black Emperor opening the bottle and pouring down the water. Instantly, the mouth of the bottle was like a river that had burst into a dam, endless black water poured out, and the 'Heaven's Formless Water' quickly rushed out and engulfed Ancestral Dragon Cave. In the blink of an eye, it engulfed everything.

Of course, the Water of Heaven could not get close to the Ancestral Dragon Cave, but even if it was outside, it would be a deep blasphemy.

The corpse liquid, pus, blood, urine, and more were all filthy to the extreme. The stench was strong, and it could spread out for thousands of miles, which meant that if released in the Ancestral Dragon Cave, even a quarter of the entire Dragon God Domain would be covered in this stench.

If a normal person were to hear this, they would be dead without a doubt if their cultivation did not reach Nirvana Tribulation Realm. If not for the fact that the stench would take some time to spread, the fifteen Dragon Emperors would have gone insane from anxiety.

On the way, Dragon Emperor Yongye went to store the Eternal Dragon Pearl.

Long Chen and the four Dragon Emperors increased their speed.

When he looked up, all he could see was the sky and the earth. The water had already flooded over and Ancestral Dragon Cave couldn't see anything anymore. Amongst the Aurora Arts, only the Black Hell King was left in the midst of the light, isolating the Heaven's End Water, and the Black Hell Beast whose tentacles were even tens of thousands of meters long!

"The baptism is over, Long Chen, are you still not here?"

The Black Emperor sneered as he executed the Aurora Art.

In reality, the twin devils definitely had targeted fifteen Dragon Emperor s, but he could not directly say it out loud. Instead, he had targeted Long Chen's body.

Now, the heavenly water had successfully submerged the Ancestral Dragon Cave, and the stench started to spread towards the direction of the Dragon God Domain.

The entire Dragon God Domain was completely dumbfounded. They looked at the sky in a daze, and then they became angry, cried, and cursed. At the same time, they were also praying that the fifteen Dragon Emperor s could truly kill this abnormal demon!

The two Dragon Emperor s were the first to arrive. Through the Aurora technique, they were able to see that they had already rushed into the waters of heaven and earth. The two of them turned into Divine Dragons and fought fiercely with the Black Hell Beast in front of the people, while the Black Hell King watched from the side.

Currently, although the Black Demon Beast had broken away from Chen Ting, it was still using Chen Ting's sacred art, an amplification technique at that. This Black Underworld Beast and Chen Ting had lived together for so many years, and it had absorbed a great amount of energy. Although Chen Ting looked like he was only at the late stage of the SemiGod's body, the Black Underworld Beast had actually already reached the level of a Dragon Emperor.

This time, with the nourishment provided by the five Sea God Fang's corpses, not only did the Black Demon Beast recover, it had even surpassed the previous level. In other words, if it had surpassed the level of the Dragon Emperor, even by just a tiny bit, dealing with two Dragon Emperor s would not be a problem.

"You lowly beings will never understand just how great a life Black Demon Beast is. It doesn't need to cultivate, it only needs to devour. It is the ones who are truly favored by the heavens, and they can rely on their small strength to unleash endless combat strength!"

While Black Hell Beast and the two Dragon Emperor were battling, causing the water to sweep out in all directions and spread even faster, Chen Ting was laughing heartily by the side. Through his Aurora

technique, everyone could vaguely see the two Dragon Emperor s fighting against the Black Hell Beast below.

This Black Hell Beast may not be as strong as the one Long Qinglan had evolved into, but it also possessed an extremely powerful combat ability. Most importantly, it possessed a terrifying regeneration ability, so even if it was injured, it would be difficult for it to revive.

"Chen Ting, hurry up and take away the Emyrean Water. Now that you have broken away from the Black Demon Beast, if you can turn back, we can forgive you too! "

From within the Aurora Art, came the voice of the Life Dragon City.

Chen Ting laughed loudly and said, "Enough, stop threatening me. If I were to believe you, I would truly be a fool." Weren't humans supposed to be arrogant? How can you admit that the Black Demon is millions of times better than you poor bastards? It only needs to absorb the power to become a god, what about you? With the divine tribulation added to the Eighteen Major Tribulations, there is still a thousand years of time. We have to rely on secret techniques to delay the descent of the great tribulation! "

He had the absolute advantage.

For two Dragon Emperor s to be at a disadvantage, it was undoubtedly a great disappointment to everyone.

Only after a while, the two Dragon Emperor s from Dragon City had arrived. Following that, the Dragon Emperor s who had killed Dragon City and Everlasting Dragon City arrived one after another, leaving Long Chen, the five Dragon Emperor s, and the Swallowing Dragon City.

Swallowing Dragon City was quite far away, after all.

With the addition of the six Dragon Emperor s, the reversal of the situation was completed very quickly. Among them, seven of the Dragon Emperor s had surrounded Black Hell Beast and started a fierce battle, while one of the Destiny Dragon City's Dragon Emperor s had set up a restriction to prevent the Sky Water from spreading to the Dragon God Domain. As for how to deal with this, they didn't even have a clue.

First of all, he had to kill the Black Demon Beast in order to deal with the Water of Heaven.

Furthermore, he had to constantly prevent the two demon planet people from messing things up.

"Seven to one? But if you didn't have that sword last time, would you have been able to kill me? " Chen Ting stood on one of the Black Hell Beast's tentacles, not the least bit worried. He was indeed fighting to the death right now, but he was also waiting. When all the Dragon Emperor arrived, he would probably succeed.

The seven Dragon Emperor s were indeed powerful, but they were unable to inflict fatal damage to this Black Hell Beast.

"Chen Ting, turn around and face the shore. "Qingyue has already left, are you still not going to repent?" The Eternal Dragon Emperor was enraged as he roared in the water.

"You mean that poor woman? She's a lot more tactful than you guys. Do you know what she's calling me to do? That's right, it was the master! She is the only woman who believes in the Black Yan Beast, but unfortunately, I did not let her see my grand occasion today! "" No, no!

Chen Ting said brazenly.

"Master?"

The Immortal Dragon Emperor was about to go crazy because that was his daughter.

"Kill!"

To be merciful to him was to be cruel to oneself.

Chapter 2288 - Immovable Devil Eyes

The seven Dragon Emperor s were almost the same as the lineup of the Black Hell Beast that was born from Long Qinglan's body back then.

That Black Underworld Beast was truly unrivalled in this world. The one that Chen Ting was controlling was weaker than that one.

However, the difference wasn't too great. He could at least temporarily block the attacks of the seven Dragon Emperors and guarantee that he wouldn't die in a state of being.

Now, under the light of the Aurora Art, everyone could see the battle between the Black Hell King and the seven Dragon Emperor. In the disgusting and dirty water, the seven huge divine dragons and the strange and eerie Black Hell King not only possessed tyrannical physical strength, but the black tentacles also possessed hundreds of millions of pounds of pounds of strength.

Long Chen knew that this member of the Eclipse Tribe must be a monster. Even if it was a hundred million years ago, the extinction of the Divine Dragon should be related to this mysterious Eclipse clan!

Even though the seven Dragon Emperors could suppress the Black Demon Emperor, they couldn't kill him!

Whether they were male, female or young, all of them were staring at the Aurora Art in the sky without blinking. They were clenching their fists, and their hearts were trembling non-stop.

However, the Black Demon Beast was too terrifying. Everyone was praying for the Dragon Emperor's victory.

"Old guys, it's impossible to kill me. Hurry up and stop the water from being able to pollute your boring Ancestral Dragon Cave and Dragon God Domain!"

Chen Ting stood on the black ball of flesh in the middle of the Black Hades Beast with a mocking smile on his face. In his opinion, these people in front of him were just some laughable people.

"Myriad Star Domain Sword!"

The Dragon Emperor of the firmament summoned billions of star fields, forming a gigantic Xingjian. When it descended from the sky, it looked to be even more terrifying than the golden sword that Long Chen had encountered in the sky!

"The great tribulation of the common people!"

This was the destructive ability used by the Destiny Dragon City's Dragon Emperor.

"Wheel of Destiny!"

The seven Dragon Emperor Dao Artifacts all shot out at the same time, and were basically all nine hundred Dao Inscriptions. Under the continuous attacks, the Black Hell Beast's body was covered in countless bloody holes, as though it was being torn apart. But the seven Dragon Emperor s were certain that he would not be able to hold on for too long. If this continued, he would eventually be found out and killed.

So what was he waiting for?

The seven Dragon Emperor s were still very careful.

"First kill him to prevent future troubles. And then we'll deal with those two evil women together. " The Eternal Dragon Emperor was the most furious of them all. With the power of time, he used that time seal to restrict a large portion of the Black Demon Beast's body. The Sky Dragon Emperor was also equipped with the attacks of billions of star domain swords, directly ripping apart dozens of Black Demon Beasts!

"So what if you kill me? In the end, you all are still unable to escape your fate of being touched. " Even until this moment, Chen Ting still did not have the slightest trace of fear.

And at this time, the four Dragon Emperor s and Long Chen, who had already reached the north earlier, had already rushed over. As for Dragon Emperor Yongye, after hiding the Eternal Dragon Pearl, he sped up his pace to catch up to Long Chen and the others.

Looking at the entire Dragon God Domain through the Aurora technique, everyone could see that the fifteen human Dragon Emperor s had all arrived, and this was a scene that had never happened before in the past thousands of years. It seemed that the Sky Water was too disgusting, and their determination to kill the Black King was also very strong!

As Dragon Emperor s, they had that confidence.

"Let's attack together. Otherwise, we'll be in for too much trouble!"

The fifteen Dragon Emperor s looked at each other and headed towards the Black Hell King at the same time. The Black Hell Emperor couldn't even block the seven Dragon Emperor s and the fifteen Dragon Emperor s appearing together was simply a nightmare for him.

Long Chen was hiding within one of the Dragon Emperor's Divine Kingdoms. When the fifteen Dragon Emperor were preparing to kill the Black Hell King, he was instead searching for the figures of the two people from the Devil Star Palace, and right now, the surroundings were already surrounded by that heaven defying water that was unable to look at it directly. Even within the Divine Kingdom, Long Chen had the urge to puke.

This was also the reason why they were in such a rush. No matter what kind of scheme it was, they had to come and kill the Black Hell Beast and disappear the water of the heavens. This was their responsibility as Dragon Emperor.

As for the consequences, the first target of those two devils was definitely the five dragon pearls and now that Dragon Emperor Yongye had hidden away the Everlasting Dragon City, with her method of sealing time, it was basically impossible for others to find them. Furthermore, it was also impossible for the two devils to know that the Slaughter Dragon Pearls had already merged with Long Chen.

When the fifteen Dragon Emperor s attacked at the same time, Chen Ting was not afraid, nor was he afraid. In any case, he was very excited, and extremely deranged. I never thought that I would actually have such an honor to have all fifteen of you take action together. In all of history, this seemed to be something that only Long Qinglan had done, right? "It seems that even though I am going to die, I won't have any regrets?"

He unceasingly laughed loudly, and under the attacks of the fifteen Dragon Emperor s, his defensive line quickly collapsed, and very quickly, his life was at stake. Just when he was about to be crushed, he couldn't help but look up at the sky.

He was indeed afraid of death!

"Disperse!" All Dragon Emperor s knew, the hidden Dual Devils were finally about to appear. Although their individual strength was average, they, who represented the Demon Star, would not be easy to deal with.

In the sky was actually extremely thick and thick water, with several layers. At this time, the water in this place was completely dispersed, the sky became transparent, and the horizon became endless. But soon, something that could replace the water in the sky appeared, and it was countless dark stars.

When Long Chen first laid eyes on these countless devil stars, he could tell that in order to obtain the Five Dragons Pearl, the demons on the devil star had definitely used a lot of effort. This could be seen from seeing the countless devil stars.

"Path of the Demonic!"

At this moment, Yi Xue and Meng Hen appeared in the midst of the numerous demonic stars. Their bodies were covered in black light and their expressions were solemn as though they had been waiting for this moment for a long time.

In everyone's vision, each and every demon star was a passageway to the path of the Demonic Lord.

Right at this moment, with these two women at the center, a dark red ripple spread out in all directions. The moment the Demon Star was touched by the dark red ripple, the Heavenly Demon Road would open.

Of course, there were millions of demon stars, but the demon stars that had opened the path, there were also dozens of strong phantoms. These dozens of demon stars were scattered in every corner of the sky, controlling the surrounding tens of thousands of black stars!

"Long time no see, human friends!"

Suddenly, dozens of Demon Star Realm experts spoke out at the same time. Their voices were mighty and not only shook the Ancestral Dragon Cave, they also echoed throughout the entire Dragon God Domain, this voice was extremely ear-piercing and carried a sense of madness, causing one's hair to stand on end, and one's legs to go limp.

These were all devils that had lived for who knew how many years!

The moment the fifteen Dragon Emperor heard these words, they knew that the situation was bad. The danger brought by the magic star was actually even more terrifying than they imagined.

"Attack!"

The fifteen Dragon Emperor s did not have time to worry or be afraid. They had the important mission of protecting the entire human race, and coming to the Ancestral Dragon Cave today was their mission, so they were not afraid of the word. The other party had indeed displayed a terrifying strength, and even made it impossible for them to escape back to the Dragon God Domain.

Out of the fifteen Dragon Emperor s, only two or three of them were still holding back Black Demon Emperor.

These stars were far from the true size of a demonic planet. They were nothing more than a passageway to the Heavenly Demon Road. However, there were millions of them. This was already a terrifying force of sealing!

Even though the fifteen Dragon Emperor s had destroyed tens of thousands of black stars in a short span of time, they were still unable to stop their opponent's arrangement.

The Demon Star was forever a mysterious and heaven defying place. For example, this time, it was actually able to gather the power of all the strong practitioners. This was equivalent to fifteen Dragon Emperor s facing off against all the strong practitioners of the Demon Star!

"Demon Seeking Array!" "Activate!"

All of a sudden, all the Demon Star Realm experts unleashed their powers at the same time, controlling tens of thousands of dark black stars to completely surround the surrounding area. Then, among every dark black star, about ten red lines extended out and connected with the surrounding stars, quickly forming a big net of stars in front of the fifteen Dragon Emperor s!

They were prepared!

The expressions of the fifteen Dragon Emperor s changed, they relied on each other, reunited once again, and tore a gap in the array, ready to rush out, but in terms of absolute strength, the Demon Star Warriors still managed to suppress them, and they quickly formed a new suppressing force, pushing the fifteen Dragon Emperor s out!

"Ridiculous reptiles, don't struggle. Today will be the day you die. "

"Oh no, that's why we can't kill you today, but we can make you all be a little more obedient. In the future, when I, the devil planet, unseal my seal, we will all come to Dragon God Domain to pay our respects to you all!"

"Brothers and sisters, let's begin! Unmoving Devil Eyes! "

Chapter 2289 - Cultivation

Aurora spread throughout the entire Dragon God Domain.

When the millions of black stars appeared, almost everyone in Dragon God Domain could see them completely.

This was a grand occasion that had never happened in many years. Through the route of the Sky Demon, they crossed hundreds of millions of miles and arrived at the east side of Dragon God Domain. They had already laid out the Demon Requesting Array, and under the attacks of the Dragon Emperor, dozens of Demon Star experts released their monstrous power, suppressing the fifteen Dragon Emperors in order to obtain the true key of the Demon Array, which was the 'Immoveable Demon Eye'!

The Immoveable Demon Eye was an ancient technique of the Demon Star. If all the powerful warriors were to use it together, its power could be imagined.

All of a sudden, the entire Dragon God Domain was in an uproar, and was extremely worried. What they saw was that the millions of dark black stars were changing in the sky, and in a short period of time, they had actually formed into an incomparably huge eye!

That was the Immoveable Demon Eye.

The entire scope of the Demon Seeking Array, which was in other words, the entire Star Domain east of the Dragon God Domain, was under the control of the Unmoving Devil Eyes.

Legend has it that the Eye summoned by the Immoveable Demon Pupil was the eye of the Ancient Giant Demon Xiu. 'Xiu' itself only had one eye, but this eye had a terrifying magic, making everything in the world immobile before his eyes. Even if it was the other Ancient Giant Demon, their movements would still be greatly restricted when facing 'Xiu'.

Therefore, the Immoveable Demon Eye was also known as the 'Cultivator's Eye'.

It was just that the people of fifteen Dragon Emperor s, including the entire Dragon God Domain, had very little understanding of the Demon Star, which was why they didn't know that such a secret method would appear.

It was a strange eye that floated in the sky. Currently, it was formed from countless dark stars, and they were circular, the center of the pupil was constantly revolving, the faster it revolved, the more terrifying the laws and energy that belonged to the Immoveable Devil Eye were. When the Immoveable Devil Eye appeared, the fifteen Dragon Emperor s all felt the restriction that came from the rules, and the fear that came from their hearts to this archaic Giant Demon!

However, after their rotation speed increased, they were gradually unable to move!

Fifteen Dragon Emperor s had turned into divine dragons and the gigantic Divine Dragon Body was struggling nonstop. However, they could only move their bodies slightly, and were gradually unable to even blink.

At the core of the Unmoving Devil Eyes, tens of black stars that had opened the path of the heavenly demon gathered together. The dozens of experts were strengthening different demon eyes and channeling their power into the Unmoving Devil Eyes, this was equivalent to fifteen Dragon Emperor s fighting against them at this time.

If the fifteen Dragon Emperor s had overwhelming power, they might be able to break free, but the fact was, the combined power of the enemy's several dozen devils far surpassed these fifteen Dragon Emperor s. If they had not experienced the path of the heavenly devils, but had faced each other head on, the fifteen Dragon Emperor s would not be their match!

Now, the demons only needed to bind the fifteen Dragon Emperor s for a period of time!

Although they were not injured, and could only move, but seeing the failure of the fifteen Dragon Emperor s with their own eyes, everyone in the Dragon God Domain could not help but despair. If they were already under control at this point, then what kind of terrifying thing would happen next?

There were also people who wanted to rush in and save the fifteen Dragon Emperor s, those were Life Dragon City's SemiGod body warriors. However, as long as they entered the range of the Immoveable Devil Eye, they would be controlled.

Chen Ting and Black Hell Beast, who were fighting with fifteen Dragon Emperor s earlier, were also not spared. Chen Ting probably didn't expect the other party to be able to bind him. Judging from his expression, he was extremely shocked and furious. However, now that he was under the Immovable Devil Eyes, he could only be infuriated. There was nothing he could do about Yi Xue and Meng Hen.

Yi Xue and Meng Hen completely ignored Chen Ting's venomous gaze. At this moment, they were already prepared.

"Yi Xue, Meng Hen, use the World Shattering Holy Hand and obtain the five Dragon Orbs!"

The elder commanded as he remained unmoving in his demonic eyes.

"Yes sir!"

The two of them moved quickly and immediately came down to the side of the fifteen Dragon Emperor s.

The entire Dragon God Domain was watching, although the majority of the people did not know what the Five Dragon Orbs were, nor did they know what the people of the Demon Star Realm wanted the Five Dragon Orbs for, but it was obvious that when they used such a large amount of strength, the Five Dragon Orbs were definitely extremely precious! From the resistance of the fifteen Dragon Emperor s, they would definitely suffer a huge loss!

Just from the start, there was a loophole in Mo Xing's plan. Yang You saw them and warned the fifteen Dragon Emperor. If they never showed their faces before, the fifteen Dragon Emperor s would really bring the five dragon pearls to their sides this time. If there wasn't an exception like Long Chen fusing with the Slaughter Dragon Pearl.

This was not a technique used by humans, but rather created by a creature called the 'Flying Sky Tribe'. That's right, they specialized in stealing, specifically aimed at the human spirit race's divine realm. Later on, they offended a great character, and their entire race was exterminated.

However, this World-Splitting Sacred Hand had actually been passed on to the devil star.

Currently, these two women had been cultivating for many years and had even used the World Splitting Holy Hand, which they had practiced countless times on Demon Star, to search through the fifteen divine nations of the Dragon Emperor and find three dragon pearls.

At the same time, they had also discovered Long Chen's whereabouts.

Long Chen was currently in one of the Dragon Emperor's Divine Kingdoms, so he could actually move, but the moment he leaves the Divine Kingdom, he would probably be exposed to the Unmoving Devil Eyes.

Meng Hen ignored Long Chen.

The three Dragon Balls were all in Yi Xue's hands. Their expressions were slightly ugly as they said to the Demon Star experts, "ing to the Demon Masters, there are only three Dragon Balls."

"Search, search carefully, especially the first Dragon Emperor! And there's still a gap between the Slaughter Dragon Pearl and the Everlasting Dragon Pearl! " The Demon Star Warriors urged. They had to expend a lot of energy to fight against the fifteen Dragon Emperor s and the Black Demon Beast!

At this time, the people of the world were burning with anxiety. Long Chen was also burning with anxiety in the Divine Kingdom, but he suddenly heard the small skeleton say, "Daddy, I have the Eye of Hell, I can resist those eyes in the sky. Do you want to go out and try?"

When Yi Xue heard this, she was ing it to the Demon Star.

"Are you sure? "Little devil?" Long Chen said in surprise.

"Hee hee, hee hee hee!"

The small skeleton laughed blankly.

Without saying a word, Long Chen contacted this Dragon Emperor. After giving a brief explanation, the other party immediately opened up the Divine Kingdom, and at this time, Yi Xue and Meng Hen were right in front of Long Chen, and they never would have thought that Long Chen would dare to come out

at this time. After all, the sky above was not moving devil eye, so other than the two of them, anyone who came out would not be able to move!

Taking advantage of this opportunity!

"Eternal!"

The power of Time Freezing, following Long Chen's progress in the path of time, had a huge effect even in a situation like this where he caught Yi Xue and Meng Hen off guard and locked them in place for a short period of time. Long Chen took this opportunity to instantly move forward.

Under his swift and forceful attack, Yi Xue, who was holding the three Dragon Pearls, did not even have the time to react when the light of the God Slaying Sword flashed past her hands. The three Dragon Pearls landed in Long Chen's hands, and Long Chen placed them into his own Divine Kingdom in an instant.

Since the other party wanted to obtain the five dragon pearls, Long Chen would make it impossible for them to obtain even one of them!

In this urgent situation, he had only made a bold attempt. He hadn't thought that he would actually succeed. The God Slaying Sword's origin was the most mysterious, the Eye of Hell was actually similar to the different Demon Eyes, it seemed to be of the same nature. The moment Long Chen came out from the God Kingdom, the different Demon Eyes made him unable to move for a moment, but the two green eyes on the Skeleton Sword's hilt flickered, helping Long Chen to break through the shackles.

"Eye of Hell, Immovable Devil Eye? Could it be that this God Slaying Sword is related to an ancient Giant Demon?" This thought flashed through Long Chen's mind.

Now was not the time to study this. Taking advantage of this unexpected opportunity, he tried his best to snatch the three Dragon Pearls.

Forget about Yi Xue Meng Hen, even the other fourteen Dragon Emperors did not expect such a change. They were all bound to by the Unmoving Devil Eyes, but they never thought that Long Chen would actually be safe and sound!

His appearance caused the people of Dragon God Domain who were already very disappointed to see a new hope, a new legend.

"He's moving!"

"He actually wasn't restrained!"

"Ah, he actually snatched back those three dragon pearls!"

For a moment, the eyes of everyone in the Dragon God Domain focused on Long Chen!

To the Five Dragon Cities, he was obviously the leader of the next generation that was recognized long ago. The ones who were still complaining about him were the 72 - The Ancient City of God's descendants and the living beings of the world, but this time, he appeared and performed miraculously, causing everyone to be greatly shocked, and the misunderstanding towards Long Chen in their hearts started to waver.

They were so nervous that they held their breaths as they watched what was going to happen next. Although the majority of the people did not know what the Demon Star wanted the Five Dragon Orbs for, they knew that this must be very critical and could even affect everyone's lives.

Long Chen knew of the existence of the Aurora Art.

But now, he raised the God Slaying Sword and spoke in a heavy tone, "Members of the Devil Star Region, it's better for you to stop. We already knew that your plan today was to obtain the five dragon pearls, open the Magic Star Seal, and let your group of demons break the seal, wreaking havoc among the common people. Don't waste your energy. "

He wanted the people of the Dragon God Domain to understand just how crucial today's matter was!

After experiencing Long Qinglan's incident, they obviously knew how terrifying the people on the Demon Star would be if they were to come out. Last time, Long Qinglan had sealed them back, so no one could stop them this time!

It was just that the weird thing was that the last time Demon Star was in chaos, it was caused by Long Qinglan. But this time, it was actually his son who stopped everything from happening.

He seems to be different from Long Qinglan!

Of course, Yi Xue and Meng Hen had lost the three Dragon Pearls that they had just obtained. Their plans had failed, and even if there were only three Dragon Pearls, it was not much better than one Dragon Pearl.

Chapter 2290 - Sky Piercing Blade

Long Chen's appearance caused a change in the situation and allowed everyone to understand the importance of what was happening before their eyes.

This was a moment that caused everyone to feel suffocated. Currently, the Immoveable Demon Eye was revolving in the starry sky, and even the fifteen Dragon Emperors and Black Hell Beasts were unable to move.

The only thing that lost its effectiveness in the Immoveable Demon Eye was Long Chen!

When he suddenly appeared and snatched away the three dragon pearls, everyone's hopes were placed on him. Even though those two devils looked like girls, they were currently in a state of rage and coldness. The battle between them had already begun the moment the battle between them was about to erupt, and the hopes of the entire Dragon God Domain had suddenly fallen on Long Chen!

This led many people to admit that he was sincere, hot-blooded, persistent, tough, and powerful!

The Dragon God Domain had been through a lot of calamities recently, but many times, it was because of Long Chen that everyone had been able to get past all of them.

He did not do it on purpose, he only did what he was supposed to do. And everyone's acknowledgement and following was the best reward he could think of. The reason he came to the Dragon God Domain was to achieve this goal, and the larger goal was obviously to solve the final riddle for his father. He who had been despised for thousands of years would have a fair treatment and would be able to gain the approval of his former citizens.

After all, everyone was from the same side, and this Dragon God Domain was the place that raised him.

Now that they were once again in a confrontation, because Long Chen had destroyed the most crucial part of their plan, he suddenly appeared and snatched away the three dragon pearls. Even the previously mischievous Yi Xue's dark red eyes were now shining with a bloody light.

Although they were beautiful on the outside, it didn't cover up their demonic nature, especially when they were engaged in combat.

The girl dressed in the black robe, Meng Hen, had already turned into a steel body, the dark red metal in the sky flickered with light, this appearance, in front of the people of the world, immediately caused a commotion, worried about Long Chen's fate. As for Yi Xue, she did not have much of a change, but as though she was enveloped in a black mist, she looked extremely satisfied, her face was as pale as a sheet, dull and her eyes became more and more scarlet.

This was also her terror.

Although Li Xuanji did not help them, Long Chen was not afraid of the two of them in his heart. He placed the God Slaying Sword horizontally in his hand and said: "It is impossible for the Magic Star Seal to be opened, and the Five Dragon Pearls also cannot fall into your hands. If you want to obtain the three Dragon Pearls by the side of the Japanese, you two must first know what capabilities the two ladies have."

After saying that last word, the steel-like girl, Meng Hen, drew a shining arc in the air. For a moment, everyone's eyes were glazed over. The light flashed and disappeared, bringing with it a peerless and terrifying killing intent!

Clang!

Long Chen had used the God Slaying Sword to sweep his away, but he was still blown away by Meng Hen. From this, it could be seen how terrifying the power of his body was!

Of course Long Chen was not anxious, the people of the Demon Star Realm were using Immoveable Demon Eye, exhausting their energy, there was always a limit, as long as they could last until the fifteen Dragon Emperor s were free, the two people in front of them would be done for, and the Black Hell King would be done for too!

Therefore, he was not prepared to fight to the death. That would be useless.

He used his power to protect his body and dove head first into the Sky Water. Although this thing is disgusting, but he's a man after all, he had seen the Corpse Mountain and Sea before, how could he be scared by the Sky Water?

Unexpectedly, the two girls also followed him into the waters of heaven, disappearing from everyone's sight.

"What's the situation!"

Everyone could not help but stare at the Aurora Art.

At this moment, the Heavenly Water began to shake violently. The Unmoving Devil Eyes did not move at all, but the Heavenly Water was able to flood the world. It created huge waves in the battle between the two sides, and this battle was extremely tragic!

Of course, the most difficult thing to deal with was Meng Hen. Her steel body was simply abnormal, and Long Chen could only fight against her with his Ten Thousand Claws, but he had to use one hand to hold the Heaven Smiting Sword in order to not be affected by the pressure of the Devil Eyes, so his fighting strength was slightly reduced!

And Yi Xue's power was the control of her primordial spirit!

She was hiding in the darkness, and all her attacks were aimed at his primordial spirit, which was even more terrifying. If she was not careful, and his primordial spirit was hit, she would have immediately died, luckily Long Chen's primordial spirit was a Great Void Cosmic Dragon, the more powerful it was the, and it had an extremely strong resistance, thus it was able to hold its ground under their siege!

RUU...!

Long Chen and the two witch would rush out of the Sky Formless Water from time to time, and upon seeing that Long Chen was safe and sound, the crowd gradually relaxed. In this way, Long Chen's position in their hearts became even higher, and if not for him, what would the situation be now?

Chen Ting could only wait for the worst, for fear that he had scolded the people of the devil star a thousand times over. If it wasn't for him risking his life to restrict the fifteen Dragon Emperor s, how could they have succeeded?

Now that Long Chen had stopped the two devils, they were completely assured that the power of the Heavenly Demon Road would not be able to sustain itself. As long as the people of the Devil Star Realm could exhaust all of their power, they would be able to escape, and at that time, they would be able to control the entire situation.

The fifteen Dragon Emperor were already fully prepared, and were fighting against the Demon Star Warriors!

It had to be said that since all fifteen of them came here today, they were very reckless, but their mission was even more unavoidable. Furthermore, with the exception of Long Chen, they only managed to come here today and dare to challenge him.

BOOM!

Several more bombardments of the unparalleled waters.

During this period of time, Long Chen resisted Yi Xue's soul attack, and at the same time, engaged in close combat with Meng Hen. Under the suppression of the two, of course he was at the bottom, with scars on his body from time to time, and even with Meng Hen's blade-like claws.

However, Yi Xue and Meng Hen could not do anything to him.

Because, in terms of the primordial spirit, Long Chen's primordial spirit was stable and unaffected, it could only affect him to a certain extent. And on the flesh, there was the fire of life, which was basically an indestructible body.

Every time he saw them charge out of the Heavenly Water without a single scratch, Long Chen would be completely unscathed, and the entire Dragon God Domain would be shouting and shouting. At this moment, their hearts and Long Chen had become one, as if they were fighting shoulder to shoulder!

"Long Chen wants to go all out and kill these two devils!"

"We can't give them a chance to breathe. Kill them!"

Everyone in the world was shouting.

Their voices converged together, and they rushed back to the Eastern Star Region. Let Yi Xue and Meng Hen hear it.

"Damn it!"

During one of her attacks, a steel knife appeared in her right hand. The color of the knife was dark red and it was similar to the color of her eyes. The knife was less than half a meter long, and it was spinning very fast in her hand.

As the blade flew out, Long Chen looked back. It was as if a gargantuan blood beast was staring at him with its bloody eyes, that was the blade's dao spirit!

"Eight hundred and thirty Dao-seals."

With a single glance, he discovered that this short blade had more than 100 Dao patterns on it compared to the God-Slaying Sword. In addition to Meng Hen's terrifying physical body, he could imagine just how powerful it would be!

"Sky Piercing Blade!"

The name of the Dao artifact was just like the Dao artifact itself. As Meng Hen wielded it, he casually waved it, causing the world to tear. She broke through many spaces, and in the blink of an eye, she was right in front of Long Chen, stabbing towards the center of Long Chen's brows with her blade!

As the God Slaying Sword danced in the air, a vast amount of power slashed down on the opponent's blade.

"AHH!" "So cool!"

The small skeleton cried out in pain before it started shouting again. It was really bold, to actually dare to open its mouth when faced with such a terrifyingly destructive Dao Artifact.

He was lucky that his teeth had not been knocked out.

After using a trick, Long Chen quickly returned to the Heavenly Water without Yin, it was easy to stall for time inside, currently, the fifteen Dragon Emperor could very well hold on to the limits of the Demon Star Rankers, he could see it with their eyes.

"Son of the Eternal Dragon Emperor, you are really annoying. Why are you messing with our plans? The people of our demon star world only do this for freedom, we won't hurt you. "

Her face was lifeless. Only Yi Xue, who had blood-red eyes, spoke out from behind Long Chen.

"Your freedom is a disaster for others. I don't believe you. "

Long Chen used space-time reversal to escape from her and Meng Hen's pincer attack, and once again, they headed in the direction of Ancestral Dragon Cave. Meng Hen caught up, and slashed across Long Chen's back with the short blade in his hand!

Suddenly, a golden rift opened in the space. It was as though a huge mouth had swallowed up Meng Hen and Yi Xue who had chased after him. In the blink of an eye, it disappeared.

"What's going on!"

Long Chen stopped. Right at this moment, the golden fissure expanded, and in an instant, it produced a strong suction force that pulled Long Chen towards it as well. Long Chen resisted, of course, he thought that it was a type of attack from Meng Hen, but he quickly realized that it wasn't, because he saw another patch of starry sky in the fissure, and saw Yi Xue and Meng Hen miserably devoured.

"Let's go!"

The moment he thought of going, it was already too late. The power suddenly increased and swallowed Long Chen in an instant, causing Long Chen to see for the last time that there was no water in the heavens. In the depths of the starry sky, the Ancestral Dragon Cave quietly existed there, unchanging since time immemorial!
