

## War God 2311

### Chapter 2311 - Mysterious Path of the Heart Refining Dragon

The Ten Great Ancestor Dragon were all existences at the peak of the age of the Ancient Dragon God, the ten strongest existences that had existed in the past. Compared to the strongest gods, it was unknown just how many times stronger they were. They were a group of existences that had truly touched the laws of the world.

It was as if they were the rulers, controlling that incomparably huge era with billions of divine dragons, unable to imagine how terrifying the Dragon Sacrifice Continent of that era was, they were equivalent to gods, which was also the so-called True Dragon Realm. There were simply everywhere, and the weakest red dragon could probably fight against the tribulation of reincarnation warriors of today!

He could imagine that in the countless territories of the Dragon Sacrifice Continent, even the weakest could compare to the current tribulation of reincarnation. What kind of concept was that?

Amongst them, the Primordial Blood Spirit Dragon Lord had slaughtered!

Great Void Cosmic Dragon controlled the time and order, and could reverse time and travel through time and space.

Taiji Creature Dragon controlled life and created two divine Daos, and there were fourteen types of attribute rules in the creation. The sun, moon, and stars, as well as the mountains and rivers, were all within his control.

And this Celestial Way Heart Refining Dragon used morality as its blade, karma as its sword, and punishment as its master. It was able to suppress evil and maintain the stability of billions of divine dragons in the ancient era.

In that era, he should have been the most close to all the Divine Dragons. Naturally, he was also the target of fear for all the Divine Dragons.

But right now, he didn't even leave behind his name, much less the 'Karma Dragon City' which existed specifically for him.

"The Dao of Karma is a Heavenly Dao that is as mysterious and complex as the Dao of Time and the Dao of Life. In fact, it is even more complex than all of these." There was a divine will in the underworld. This divine will was the will of the God Path's Heart Refining Dragon. It was something that hung in everyone's mind. Just pay attention to the word 'heart refining'. In reality, this ancestral dragon has also experienced the trials of the mortal world to strengthen its heart and thus achieve greater Transcendence. As for the so-called 'Path of Gods', it was actually another name for the 'Way of Punishment'. To use the punishment of heaven and earth to refine the heart, to distinguish between good and evil, to pursue a kind of inner and spiritual strength. At the same time, to grasp the cycle of karma, this was the Path of God, the Heart Refining Dragon. is the dragon of morality and karma. "

Long Qinglan had clearly told this to Yang You.

Even if Yang You didn't introduce him, as long as he told Long Chen that this was an Ancestral Dragon, he would know the meaning behind it. Ancestral Dragon means the number one treasure in the world, irreplaceable. Whether it's cause and effect, devour, or fate, Long Chen will look for it and obtain it!

In truth, Karma was similar to destiny. However, fate had no rules, only a straight line that stretched from beginning to end. Karma, on the other hand, intertwined together like a thread. Both of them were extremely profound Dao of the Heavens.

"Then, do you know where the legacy blood essence of the 'heart dragon' of the Dao of the Gods is located?"

This was still the question that Long Chen was most concerned about.

As for the ancestral dragon blood, because they were suppressed by the Dragon Jade and because this was even a clue provided by Long Qinglan, Long Chen knew that he had to immediately act and complete it as his new goal, and not let anyone else snatch it away first. The reason why he could become so powerful was mainly because of the ancestral dragon's inherited blood. Therefore, he could not be too confident in this aspect.

Now that they talked about this ancestral dragon-inherited blood, the two of them had basically let go of all the stories they had just heard about the relationship between Yang You and Long Qinglan. Yang You had also blended into her role and narrated in detail to Long Chen, "He once told me that he should be at the very center of the Sea God Region. In the Ocean God Realm's holy land, 'Hanhai Imperial City', it is said that there are two Divine Stones that suppress the entire Sea God Realm. These two Divine Stones are respectively the 'Three Life Divine Stones' and the 'Causality Holy Stones'. The Threelives Shrine symbolized love, while the Causality Shrine symbolized rules and morals. The legacy blood essence of the 'Heartdragon' of the Dao of the Gods was contained within this' Causation Holy Stone '. That's all your father told me, and how to get it. I don't know. That's all I know. "

"A lot."

Long Chen was extremely satisfied, he already knew where it was. He had the Mysterious Dragon Jade, three similar divine objects like the ancestral dragon-inherited blood, and it was not impossible for him to create the divine way's heart dragon's inherited blood.

These two Divine Stones have existed since the weak days of the Sea Clan tens of millions of years ago. They are their birthplace, and after reproducing for so many years, they are the most sacred object in their hearts, so the entire Hanhai Imperial City was built around these two Divine Stones that represent love and rules. If your father did not say anything, I would not have guessed that the ancestral dragon's inherited blood would be hidden within this 'Causality Holy Stone'.

Yang You sighed with emotion.

Although the Karma Holy Stone was important, the sea race's imagination wasn't that heaven-defying. Moreover, they were definitely protecting the Divine Stone, so for all these years, no one was able to take away the inherited blood essence. This was also very normal.

"Chen Er, are you sure you want to take it?" Looking at the expression in his eyes, Yang You could probably guess what was going on. In reality, she had told Long Chen that she was prepared for it.

Long Chen nodded his head and said: "Hmm, after all, such a precious thing was given to me by father, I have to at least go and take a look, but of course I won't be reckless, if I don't have confidence, I also won't rush in recklessly, since the Sea Clan is also one of the Five Great Clans, and my power cannot be underestimated."

Yang You nodded and said, "Then let me tell you about the Seafolk. How much do you know about the Sea Clan? "

Long Chen shook his head. He had never been there before.

"Actually, the Sea Clan was separated from the Goblin Tribe. They are actually the Sea Race. They were not much different from the demon clan. In fact, they were basically underwater demon beasts. Most of them were specialized in water battles. Most of them were water-attributed. Of course, there were also some special ones, such as the Draconians, which were actually all members of the Sea Demons. As of now, the power of the Sea Clan has developed quite a bit. It is estimated that it is equivalent to one-

third of the Dragon God Domain s. They have the 'Six Great Ocean Sovereigns' and their strengths are basically on the same level as the fifteen Dragon Emperor s. "

"Oh, looks like this Sea Clan is not weak after all. Although they are at the bottom of the Five Great Clans ... "

Amongst the Five Great Clans, the human demon race was the strongest and had almost the same strength. Next was the Spirit God Realm, which was ruled by the Spirit King.

"In the Sea Clan, there is a strict system of monarchs. The six great emperors are the rulers of all things, and in the entire Sea God Domain, the more powerful a person is, the closer they come to the core of the five clans, 'Hanhai Imperial City'. This is the most strict clan amongst the Five Great Clans. As for the Imperial City of Hanhai, it had gathered all of the power of the Sea race. A single Hanhai Imperial City was actually equivalent to two Dragon Cities gathering together. They had the First Ocean Emperor, the Second Ocean Emperor, and all the way to the Sixth Ocean Emperor. Every single Ocean Emperor basically comes from the strongest of the six great peak blood lineages of the Sea Clan. "

"This way, entering Hanhai Imperial City is a very troublesome matter, isn't it?"

After all, Long Chen was a human, and there was a huge difference between him and the Sea Clan.

The Sea God's Realm may seem beautiful and beautiful, but in reality, it is a cruel and merciless world. Compared to the Monster race, they are more like wild beasts, and this place has no rules or principles, only a single word — rank. And rank comes from strength, connections, origin, and race. They had no love, only the possession of flesh. The strong could be used by several thousand or tens of thousands of females, while the weak were not worthy of reproducing. They also had no rules, only having one expert as the ruler, and their experts could easily kill those weaker than them without encountering any kind of punishment. The entire Sea God's region is in chaos. "

"Huh?" Long Chen had never paid attention to the Sea Clan before. He really didn't know that there could actually be such a society.

For example, the Dragon God Domain controlled the overall situation of the world while the 72 Shencheng controlled the small affairs of the world with clear levels and distinct rewards and punishments. The Demon God Area was actually similar to the Dragon God Domain, but the Spirit King s of the Spirit God Realm ruled over the masses, and each person held power. However, the Spirit Race were races that pursued beauties, and they were intimidated by the strongest warriors, making everything extremely stable.

However, Sea God's Domain was a world where violence was sought after. The most primitive rule.

"The Seafolk have a huge advantage over the five great clans. That is, their ability to reproduce is very strong and they are able to produce large amounts of descendants. Originally, after being passed down for so many years, their numbers should have long surpassed the humans and demi-humans. But now, they are no longer like that, do you know why? "

Yang You quietly asked.

Long Chen shook his head.

She explained, "Every member of the Sea Clan, in addition to their physical body and primordial spirit, will also possess a piece of 'blue crystal'. This blue crystal is their core of power, and for the other Sea Clan, it is a type of extremely delicious delicacy, devouring large amounts of blue crystals can increase their cultivation, so in the Sea Clan, there is a rule of 'big fish eating small fish'. That is to say, their experts eat countless of weak people every day, eating their blue crystal to strengthen themselves. For the Aquamarine, the entire Sea Clan had always been in the midst of a battle within their race. Although the strong ones were stronger, they had lost their fair and square advantage, so even though the Sea Clan was ferocious, they were born and bred in the Sea Clan. If they were not a powerful race, they would not be able to escape their fate of being devoured. I heard that the six Ocean Emperors have to eat tens of thousands of blue crystals every day. And all of them are from Aquamarine. "

This was a completely naked beast society.

Long Chen couldn't help but be dumbstruck for a moment, he didn't think that he would actually be going to a place like this. Although he didn't grow a blue crystal, it looks like there would be a lot of challenges, at least the six great Ocean Emperors wouldn't let him get close to their two divine stones so easily.

He thought for a moment and said, "There's still plenty of time. I'll look for more information on the Sea race in this period of time and then make a plan to look for the Legacy Essence Blood of the Heart Refining Dragon of the Divine Path."

Chapter 2312 - Departure

These days, even though the weather was calm and tranquil, because of that conversation with Yang You, Long Chen had re-established his new goal.

The news that came from the fifteen Dragon Emperors, had now come to an end. Long Qinglan's last wish had been completely fulfilled, he was still the eternal Dragon Emperor, still the peerless emperor of the Dragon God Domain.

This news was extremely joyous news for the entire Sky Dragon Star. After a few days of wild celebration, the entire Sky Dragon Star was brimming with joy, and because of Long Chen's existence, the Sky Dragon Star Realm was bustling with noise, and a hundred thousand divine dragons were dancing in the middle.

As for Yang You, she was not willing to announce his relationship with her, so Long Chen could only tell Ling Xi about this matter. From his point of view, whether or not it was announced was not important. In Yang You's eyes, ever since he had appeared, it was an inseparable part of her life. And now, she was the same to Long Chen.

When Long Chen told Ling Xi of this news, she did not expect him to smile and said: "Brother Chen, I actually guessed it earlier, it's just a little bit of uncertainty. You never thought about it, right?"

Long Chen asked in shock, "Really? I really didn't think of that. How did you guess it?"

Ling Xi said imposingly: "I have been together with her for two years, and am now a woman. I understand women well, and from the way she speaks and the look in her eyes, I can tell that although she has a cold personality, I can still guess."

Long Chen started to sweat a little.

"I feel that she is a very good mother. You must cherish her well, and don't let her suffer any grievances. Otherwise, I will ignore you!"

Ling Xi threatened him.

Ling Xi didn't need Ling Xi to say this; Long Chen had deeply understood this in his heart. Ling Xi was someone who accompanied him in White Yang Town, and encountered the conflict between him and

Yang Xueqing in the beginning. He knew that Long Chen had always had a regret in this regard, and now he finally knew the truth.

"Do you miss your parents?"

Long Chen saw that her eyes were suddenly a little unfocused, and a little worried, and said.

Ling Xi nodded heavily.

Long Chen was only able to see her parents' current condition, and it had actually only been a few years. They were currently very fortunate, the Three Great Imperial Domains was fine.

"They are doing very well. Wait a few days, and then we'll see if we can find a way to go back and reunite with them." Long Chen said.

Ling Xi hurriedly said, "There's no need for Brother Chen. It's only a few years, and it's still very early. Furthermore, the Immortal God Realm is still not peaceful right now.

"Okay, then we'll talk about it in a few years." Long Chen paused here for a moment before continuing, "As for the God Dao's Heart Refining Dragon, I have already made my preparations. I will head straight to the Sea God Region in a few days. But before that, I need to talk to the fifteen Dragon Emperor s. "

"I want to go too!"

Ling Xi opened her eyes wide and looked at him in anticipation.

"Of course, I don't want to leave you." Long Chen pulled her face and laughed.

After a few days of collecting information, Long Chen had a rough understanding of what kind of place the Sea God Region was. It should be considered the most chaotic clan within the Immortal God Realm, even more chaotic than the ten thousand races of the chaotic star field. It was a place where the truly strong preyed on the weak, and wasn't very friendly to humans.

The level of the imperial city was strict, so there should not be anyone inside other than the Sea Clan.

The six great ocean emperors could kill as they pleased. In the Sea God's Domain, they were the rules, and they were the Heavenly Dao. Long Chen had to go to the Sea God Realm in an official identity. Otherwise, there would probably be many people who would make their move against him before he reached the Realm of the Gods.

The reason why they wanted to see the fifteen Dragon Emperor s was because Long Chen wanted to discuss this with them.

After roughly half a month, Long Chen bid farewell to Yang You, and began to set off with Ling Xi. This matter was not urgent, so they spent the entire trip sightseeing. This rare tranquility and peace, the warmth brought by Ling Xi made Long Chen feel extremely comfortable.

She was a person who could calm a person down completely.

As for Yang You, he still needed to protect Heavenly Dragon Star for Long Chen, so he wouldn't be able to go to the Sea God Realm with him. Heart Refining Dragon required intelligence, so if Yang You were to go, it would instead attract the attention of the six Ocean Emperors, which would not be of much help to Long Chen.

However, what Long Chen did not know was that when he was heading towards the Dragon God Domain, a white-haired, seductive man had been following him and Ling Xi's footsteps, and just did not show himself.

Only when Long Chen stepped into Dragon City did the man not go in. He stood at the edge of the sea of blood and looked at Dragon City with deep and profound eyes.

"Continuously rising to prominence! A new legend! He's practically the same kind of monster as his father! It was enviable, but deep down he was too violent. He didn't have his father's temperament. Should I do it? This sort of genius really makes people look forward to him. Exactly what level will he reach within a period of time? Will he become stronger than me? "

In this world, there was no one who was stronger than this man. The person who had once surpassed him was no longer here.

In fact, he had already discussed the details of the Dragon Slayer City with the other Dragon Emperor s using the star runes. The reason he had come to Dragon Slayer City was to use this place as his starting point.

"We have already informed the six Ocean Emperors of the Sea God Realm that we will use you as an emissary to send the blessings and gifts to the humans during this Sea race's great ceremony. The Sea race is far inferior to us, and is also shameless to the four great clans. This time, we took the initiative to give them gifts, and even got you to give them to us. When the other three races heard this news, they probably thought that the humans wanted to ally with the despicable Sea race. After all, the Sea race is being excluded by the Monster race and no one likes them. "

When Long Chen was flipping through the information, he happened to see that the Sea Clan would hold their five-year 'Ocean Sacrifice' in the coming month. Using this as an opportunity, he thought of a way to let fifteen Dragon Emperor s deliver gifts on behalf of the human race.

Speaking up to here, the Blood Tyrant Dragon Emperor was somewhat suspicious, and asked: "Long Chen, why did you go to the Imperial Palace of Hanhai? "Forgive me for being blunt, but the Sea God's Realm is not a good place. You should know that our human race has always been a righteous race, a righteous race, but we gave them gifts because of that. When the spirit race, witch clan, and demon clan hear of this, they will definitely laugh at us."

This was inevitable.

Long Chen could only say, "I'm sorry, I can't explain it to the three of you right now, but I can guarantee that there will be something important. It concerns an order from my father before his death, so I must go to the Sea God Realm to complete it.

Hearing this, the three Dragon Emperor s looked at each other.

The Dragon Emperor nodded: "Since it's Qinglan's orders, there shouldn't be any problems, you just have to be careful. After all, the six great Ocean Emperors are not easy opponents to deal with. Even I am unwilling to go to Imperial Palace Hanhai's place. Your safety is the most important thing. In addition, we humans have taken the initiative to send you gifts this time, so we are a little baffled. I think the Sea Clan would probably be on guard too, so no matter what you do, you have to be careful. "

This was an order from the Dragon Emperor, but it was also one that the fifteen Dragon Emperor s had discussed and entrusted to him.

Thank you Dragon Emperor for your help. I will put safety first, don't worry. Long Chen nodded heavily.

After that, he bid farewell to the three Dragon Emperors and left the Dragon Slaying City, embarking on his journey to the Sea God's Realm.

The Sea God's Domain was a vast ocean within the Immortal God Realm. It was around one third the size of a Demon God Area and was still a part of the Demon God Area millions of years ago.

The Demon God Area was located between the Sea God Realm and the Dragon God Domain, so of course Long Chen couldn't travel through the Demon God Area. Therefore, he had directly crossed the border of the Demon God Area from the northern starfield and returned to the enormous land of the Immortal God Realm.

A new journey, a new trial. Begin!

Spirit Realm.

There were hundreds of rainbows in the sky at the foot of the mountains, and there were two peerless beauties standing in the wind.

"How beautiful, the human world." Yi Xue spread her arms and looked up at the sky as she said that with great satisfaction.

"Yes, the magic star never had a rainbow."

Meng Hen's eyes flashed.

"I don't want to return to the devil star anymore. In this lifetime, I must escape from there! "Of course!"

Yi Xue jumped up and down excitedly.

"Yi Xue, do you think that if the Archaic Giant Demon 'Qu' wakes up again, will we be controlled and become its puppet again?"

Meng Hen suddenly said.

"Ugh." Yi Xue's expression turned ugly. She said angrily, "Stinky Dream Scar, don't say such things and ruin our mood, alright?"

"Yes." Meng Hen lowered his head.

Under the rainbow, in the past, when the two peerless beauties were about to leave, the two of them suddenly stopped in their tracks at the same time. Their faces turned deathly pale, and no one could hear what they were hearing.

Deep, tyrannical, nightmare-like deep inside their bodies, they were like countless reptiles drilling holes in their bodies, controlling their pulses. Although this roar only lasted for a split-second, their bodies were covered in sweat, as if they had just experienced a great battle.

The two of them collapsed in exhaustion, hugging each other.

We held each other tightly, water flowing from our eyes.

"What's going on? "Why is it showing signs of awakening?"

"I don't know, I don't know. It's only been a while, how could it be?"

"It is calling out to us. When it truly wakes up, we won't be able to hold it back and will be controlled again. What should he do? Tell Long Chen! "

Yi Xue said nervously.

"No, tell him, he will restrict our freedom." Meng Hen said coldly.

"Freedom!"

That was what they longed for the most.

## Chapter 2313 - Sea God's Domain

Long Chen was not in a hurry. He and Ling Xi traveled through the vast starry sky, heading towards the west from the east. Dragon God Domain should be at the easternmost area of the Immortal God Realm.

In this endless starry sky, the sky was filled with fragmented and shining stars. Sometimes, when passing through these fragmentary stars, it would be extremely beautiful.

After fusing with the stellar nucleus, Ling Xi still possessed a part of the power of the stars. In reality, she was now the owner of the resplendent stars. On top of the resplendent star, if the Illusory Immortal Clan, Nightmare Clan, Golden War God Clan and the other three great races wanted to continue to stay, they had to actually obtain Ling Xi's consent. But although Ling Xi had refined the resplendent star, all of her thoughts were still on Long Chen.

Her long skirt fluttered in the wind.

The two of them cut through the starry sky and headed west, lingering in the starry sky until they finally crossed over the territory of the Demon God Area and arrived at the Sea God's Realm.

The Sea God Realm was naturally arranged to be guarded at the border as well. However, Long Chen entered it easily, and just as he arrived at the mainland, he saw the ocean in front of him before long. The vast and boundless Sea God Realm appeared in front of Long Chen and Ling Xi's eyes, the endless ocean water was countless times more profound than the Spirit Sea's and it wasn't as wild and violent as it was peaceful, but it was actually much deeper.

"This is the Sea God's Domain."

Facing the sea breeze, a fresh smell of the sea assaulted his nose.

"Were those the Seafolk just now? They have transformed into human forms just like the demons. "

Ling Xi asked somewhat curiously.

"Yeah, it is said that they are originally a part of the demon clan. However, since the Seafolk are separated from the sea, their fighting prowess will drop significantly. Thus, they are unwilling to come to the surface. He was basically in his human form. Let's go in. "

Long Chen pulled her slender hand and the two of them passed through the clean beach and entered the true Sea God's Domain amidst the waves. This was the first time they had come here, and it was unavoidably fresh.

The Sea Clan has strict rules.

The Oceanic Imperial Palace was located at the core of the Sea Clan. It was at the center, and the closer one was to the center, the more powerful the energy of heaven and earth would be.

The weaker the race was, the further away they would be from the Imperial Palace.

When Long Chen had just entered the Sea God's Realm, he had actually entered the weakest region.

The people in the core area could go out, but they could not go into the outer area. Otherwise, if they were found out, they would be killed on the spot, or even have nine other races in the core area.

The higher the rank of the Sea race, the stronger the ring is, and because every Sea Race condenses a Aquamarine, even though the races in the outer ring are huge and have a strong reproductive ability, in reality, they are just like the livestock they raise, most of them unable to escape the fate of being eaten.

To Long Chen, to accomplish his objective this time, to obtain the inherited blood essence of the God Realm's Heart Refining Dragon, it was actually not easy. It could even be said that it was very difficult!

After all, there should at least be close to twenty experts in Hanhai Imperial City that could defeat him. As long as one had Nine Palace Calamity s and above, Long Chen did not have any confidence.

He and Ling Xi were playing in the water, advancing forward.

"The bottom of the sea is actually quite beautiful. What a weird Sea Race. "

On the way, Long Chen saw many huge beasts in the sea, all of which were Sea Clan. On the sea, they liked to maintain their original appearance as Sea Clan, including various fish, shrimp, crab, jellyfish, coral, seal sea lions, etc. There were even many strange looking Sea Clan people, all of them were very huge, as long as they were adults, they were basically huge monsters, and were not much different from the Goblin Tribe.

There were even some of the Seafolk who were extremely beautiful and colourful.

"The whole of Sea God's Domain actually reeks of blood."

Long Chen frowned and told her.

"That's right. This was originally a beautiful place, but the Sea Clan really didn't know how to cherish it."  
Ling Xi said somewhat regretfully.

However, Long Chen did not bother with them and continued to travel deeper. In the blink of an eye, after a few days of travel, he discovered that the surrounding Sea Clan was at least ten times stronger than the first time he had come in, and Long Chen knew that their journey within the Sea God Realm was at most one third of the way down.

Reaching here, Ling Xi already deeply detested this place.

There were too many phenomena of killing and devouring here. They had personally witnessed how a giant beast could open its mouth and swallow dozens of sea fishes. In the blink of an eye, the rest of its body was expelled, leaving only the blue crystal to devour.

"The Seafolk have the Three Lives Divine Stone and the Causative Holy Stone to suppress the entire ocean, but they don't have these two items on their own. It is truly strange."

Ling Xi said somewhat displeased.

"Seafolk are coming from up ahead. There are quite a few of them."

Long Chen held her hand. Originally, he wanted to let Ling Xi enter the Divine Kingdom and use the Time Traversing Dragon to go around it, but after thinking about it carefully, since he was here to visit the Sea Clan, there was no need to be so humble.

It was at this moment that the surrounding water started to tremble violently, vaguely forming a storm in the sea. The sea quickly swept and crashed into each other, overturning everything within a million and eight hundred thousand kilometers, of course it was unable to do anything to Long Chen.

In that instant, there were hundreds of fish that were hundreds of meters long and covered in bone spikes that looked like hedgehogs appearing in front of Long Chen. Other than the sharp and hard bone spikes, there was another special characteristic of them, and that was that their eyes were green.

Hundreds of beasts were rolling and churning in the water, the surroundings looked like Spirit Sea.

"Human!"

This group of Blue-Eyed Fish known as the Blue-Eyed Fish clan immediately began to cry out in alarm.

No one from the Four Great Clans wanted to come to the Sea race's place. It was a very rare sight for humans to appear, especially in this region that was close to the core.

"Since humans have come here, it is definitely not easy. However, this is the territory of our Sea race. Today, let me have a taste of the human race!"

Just as she finished speaking, a green-eyed fish suddenly rushed out from the pack into the crowd. It stirred the huge waves as it rushed towards Long Chen with its mouth opened wide like a gigantic whirlpool, completely surrounding Long Chen.

Long Chen could not help but laugh. When the God Slaying Sword appeared in his hand, the Killing Sword Technique danced and instantly, hundreds of sword lights shot out, flashing past the side of the Cyan Eyed Fish.

"Haha, even that didn't hit!"

The Cyan Eyed Fish was shocked at first, but soon after, it discovered that it was fine and laughed out loud. However, it soon discovered that it laughed too early because all of the bone spikes on its body had been cut off.

"Scram?"

Long Chen asked.

"Kill him!"

Long Chen was too lazy to be courteous with them, in that moment, a sword light shot out like a net. In that moment, there were still hundreds of sword lights flying around, but they moved around the Green Eyed Fish in an orderly fashion.

Ding! Ding! Ding!

Tens of millions of bone spikes sunk into the depths of the ocean. In that instant, all that appeared in front of Long Chen were naked green eyed fishes.

"I only need one movement to kill all of you."

Long Chen said in a serious tone.

The green-eyed fishes were all terrified. They looked at each other in dismay.

"Brothers, run!"

All the mackerels turned around and headed back to where they came from. They ran off to who knows where in just a short while.

"They are quite tactful. This is also one of the rules here. Once they discover that their opponent is stronger than them, then they have to run as far away as possible. Otherwise, they will definitely lose their lives. "The Aquamarine on their bodies is a temptation to our other companions."

Long Chen kept his God-Slaying Sword and pulled Ling Xi's hand as he walked forward.

"What a strange place. How could the Three Lives Divine Stone, which symbolizes love, be in this place?"

Three lives were his previous life, this life, and the afterlife.

There were even countless cycles of reincarnation.

A few more steps forward, and the corpses of many Cyan Eyed Fish appeared in the surroundings. All of them had their crystals dug out, and most of them had their bone spikes chopped off by Long Chen.

"Who killed them?"

Ling Xi saw with her own eyes that these Green Eyed Fish died with grievance. She was still a little sad in her heart, the living creatures from before were already dead in the blink of an eye.

Just a bit further ahead, there were already hundreds of corpses around. Not a single one of the Cyan Eyed Fish had escaped. It seemed like they had been hunted by powerful warriors. The Aquamarine was gone from their bodies, leaving behind corpses with empty eyes.

"The main character is coming."

Long Chen looked to the left.

It was an incomparably huge shadow, at least a few thousand meters wide. Even though it is said that the size of the Sea race, Monster race, etc., doesn't mean that the bigger they are, the stronger they become. However, there were some small and powerful exceptions.

Very quickly, two huge black iron pincers appeared in front of Long Chen's eyes. It was more than a thousand meters long, and it was covered with a carapace that was as hard as steel.

And then, what appeared in front of Long Chen was actually a giant prawn.

One of his tentacles was now even thicker than Long Chen's waist by several times. This was an extremely ferocious member of the Sea Clan, and he was the one who killed those Green Eyed Fish.

"Human, state your name!"

The giant black prawn said with a hoarse voice.

His entire body was covered in hard armor, which was why he was so tough. This natural armor had probably been tempered by him countless times.

His strength should be at six levels of tribulation of reincarnation.

To Long Chen, this kind of strength, only meant that it was alright.

"You are not qualified."

Long Chen tapped it with his left hand.

"Sun Sacrifice!"

Chapter 2314 - The Temple of the Hanhai

Using the Sun Sacrifice in the water would also be a challenge.

Of course, to the Sea Clan, this is a terrifying killing power.

With a tap of his hand, a huge fireball with a diameter of a hundred meters appeared in front of Long Chen. It was like the sun, and just as the gigantic black prawn in front of him had yet to react, the Sun Sacrifice smashed into his body!

"Impudent! I'm from the Giant Armored Clan!"

Before he even finished his words, the power of the Sun Sacrifice engulfed his entire body, and instantly enveloped his entire body within the sea of flames. This gigantic beast was actually burning in the sea, and in a short period of time, turned into ashes.

Long Chen was too lazy to even give him a chance to speak.

"Although it is said that the law of the jungle prevails, you can only blame your bad luck for being so impudent in front of me."

When Long Chen saw this gigantic black prawn, he felt a little uncomfortable. The other party's body was filled with killing intent and hostility. If he did not make a move, he would definitely cause trouble for him.

Long Chen suddenly remembered that what he wanted to obtain this time was a dragon of virtue and karma. These are two rather incomprehensible words, what is morality and what is cause and effect?

Morality, if good and evil, what is good and what is evil?

The Giant Armored Race could devour hundreds of other sea races at once. This should be evil, so if he killed them, would he be good?

Was there really a difference between good and evil when it came to killing?

This gave him a headache. Any race would become stronger through competition and mutual killing. With an even stronger resistance, killing was unavoidable for everyone. A truly peaceful region would not be able to withstand a single blow from any external force if they were to invade it.

He would plant a good cause and bear a good fruit.

Then, if he was certain that he had killed this Giant Armored Race, wouldn't that be good? Are there any real differences between the two?

If he didn't understand these questions, Long Chen believed that he wouldn't understand this dragon's morals and karma. His name was the 'Daoist Path of the Heart Refining Dragon'.

The Path of God was the path of punishment. The path of good and evil, the path of heart, it was a method to temper and temper the heart. To temper the heart with the path of punishment ... was this the core of the Path of God's Path of Heartdragon?

"Brother Chen, continue!"

Ling Xi took his arm.

"En!"

He did not want to have any conflicts with the Seafolk, so he was a little careful. He avoided those opponents who were getting stronger and stronger along the way.

However, some news still reached the imperial city of Hanhai.

"The commander guarding the Giant Armored Region was killed. At that time, he was eating, and a few lucky survivors said that they saw a powerful human expert pass by. I think it was that human who killed them."

"Oh, I think that the famous son of the Eternal Dragon Emperor who has shook the world has already gotten close to our Hanhai Imperial Palace."

"What should I do?"

"Activate the Oceanic Temple to welcome this extraordinary person with the greatest scale!"

At that moment, the entire Hanhai Imperial City was prepared for his arrival. Of course, no one knew what their true goal was.

It was obvious that there were more killings here, and all of them were more powerful. The Sea Clan's experts were concentrated, and the Imperial City of Hanhai was equivalent to two Dragon Cities, while Long Chen had already approached the Imperial City of Hanhai at this time. Although he was still a long distance away, he could already see a corner of it.

This was a huge azure city that resided in the deepest center of the Sea God Realm. It was like the most beautiful and biggest sapphire in the world, and when compared to the surrounding one hundred thousand miles, it was a beautiful blue light. It was like a dream or illusion, as if one in a fairyland could ignore the smell of blood.

The Great Sea Imperial City.

In terms of size, this enormous city occupying the mountain range at the bottom of the sea should be around three times the size of the Everlasting Dragon City. It had to be known that the Everlasting Dragon City could hold a city that could hold hundreds of thousands of divine dragons and transform them into dragons at the same time.

From afar, one could roughly feel that the imperial city of Hanhai was bustling with noise and excitement. There were a large number of experts there with soaring auras. The surrounding sea water was actually a light gold color, extremely gorgeous.

"They are preparing for the ocean sacrifice ceremony, is it really so lively?" Ling Xi asked curiously.

"To them, the Ocean Sacrifice Ceremony is only held once every five years. It is not a big deal and will be held half a month later. It's so lively here, you must be welcoming me in. "

Long Chen squinted his eyes and said.

In the entire Hanhai Imperial City, there were roughly six hundred thousand or so Seafolk. They were the most core of all the Sea Tribes, and all of them were estimated to be above tribulation of reincarnation.

Currently, these six hundred thousand Sea Clan members were shouting and clamoring, waiting for the arrival of Long Chen, the son of the Eternal Dragon Emperor!

At the very least, they were well aware of the recent major events that had happened. Although they knew Long Chen was young, they knew that his fighting prowess was sufficient to defeat a half-God like the Black Hell King.

In a few years, he'd achieved countless miracles.

It was a new myth of the human race.

The most important thing was that out of the sacrifices made half a month ago, fifteen Dragon Emperors had announced that they would start Long Chen's test. Once he passed, he would become a killing Dragon Emperor, and would be on the same level as his father, the Eternal Dragon Emperor.

The Eternal Dragon Emperor had once brought about a terrifying suppression on the Sea Clan. The six great Ocean Emperors were once like children in his hands and were defeated so casually.

And what kind of sparks would Long Chen's arrival cause in this cruel and domineering Imperial City where strength was the true rule?

"Xiao Xi, go!"

In the distance, the giant city was waiting for his arrival.

Six hundred thousand Seafolk were preparing a grand battle formation to welcome him. Perhaps it was because they had never thought that a mere ocean offering ceremony would cause the human race to send Long Chen here to deliver gifts!

The closer they got, the more numerous the Sea Tribes they saw.

It was a good thing that they were in human form now. Otherwise, they would have been dazzled by the gathering of so many Seafolk.

Even after turning into humans, they still had the characteristics of the Sea race.

For example, the Sea Serpent Clan in human form would usually keep their snake tails. They were similar to Su Yan in the past and looked very enchanting.

The hands of the Sea Clan, including the Shrimp and Crab, are still used as pincers, which are also deadly weapons.

For example, after the Turtle clan took human form, they would still wear turtle shell armor to protect themselves.

Six hundred thousand people of the Sea Clan, in human form, stood on the two sides of the Sky Road in Hanhai Imperial City. The Sky Road was long, but it was only ten meters wide, meaning that under the gaze of the six hundred thousand people of the Sea Clan, Long Chen would have to cross the long Sky Road and reach the highest peak, the 'Hanhai Divine Palace'.

This was a type of pressure that the Sea Clan was pressuring Long Chen.

Of course, it could also be called welcome.

This time, the adventure would not be easy, so Long Chen was already prepared.

He should be very old. He was here to welcome Long Chen, and before Long Chen even got close, he jogged all the way to Long Chen, opened his toothless mouth, and said excitedly: "Aiya, the legendary most terrifying genius of the human race, the future Dragon Emperor who will kill, this old one has waited for you! Ah! This old one's name is Turtle Spirit Child, and I am the number one Ocean Emperor of our clan, an old servant! You can just call me by my name. Haha, your excellency is truly dignified and handsome. Is this your wife? You are truly as beautiful as a flower, no one can compare to that. Welcome, warmly welcome, follow this old one to my Sea Clan's Hanhai Imperial Palace! "

This old turtle kept on blabbering from the moment he arrived. It was rather interesting to use that toothless mouth to speak, but who knew if there was killing intent in his laughter?

"Sorry for the trouble."

Long Chen replied indifferently.

"Haha!" It's not troublesome at all! This time, we, the Sea Clan, will use the greatest sincerity to open the Oceanic Shrine, bringing all of the strong warriors of the Sea Clan together to welcome you. The last time the Oceanic Shrine opened was tens of thousands of years ago, when your father came to our place, he didn't seem to receive such treatment. From this, you can see how much our Sea Clan worships you! That's right, worship. Now that the six great ocean emperors are waiting for you at the Hanhai Divine Palace, please follow me! "

Gui Ling Zi continued chattering endlessly.

Long Chen followed behind him and stepped onto the Heavenly Road.

From that moment on, he was almost drowned by the Sea Clan, the six hundred thousand Sea Clan members gathered by his side, staring at him with wide eyes. Some were curious, some were expressionless, and some hid in corners and whispered, the Sea Clan was not friendly, this welcome, seemed more like a show of force.

At least, Long Chen could hear some of it from those whispers.

"Aren't humans known as the number one race?" How could he send someone to deliver a gift? Or is it this kid? "

"It's really hard to understand. Let's not talk too much. The higher ups had said before that if he were to hear the plans of our Sea Clan, he will be sentenced to death. "

"Alright."

There were indeed not many whispers, but to Long Chen, those questioning and vigilant eyes of theirs was enough to explain everything.

Along the way, they received the gazes of six hundred thousand people from the Sea Clan. The other side was exerting a large amount of pressure, wanting to use this concentrated pressure to scare Long Chen, which could be considered as one of the things that would happen. But at least for now, other than the turtle beside him, there was no one else who could scare Long Chen.

In the blink of an eye, he was outside the Oceanic Temple.

Inside, there were six great emperors. That was the real test.

However, he was very confident, so he didn't panic. Under the leadership of Gui Ling Zi, he stepped into the Spiritual Temple of Hanhai.

It was one of the tallest places in the imperial city of Hanhai. If it wasn't completely sealed inside, one might be able to see the Three Lives Holy Stone and the Causality Holy Stone from the core just by standing here.

Chapter 2315 - Six Great Ocean Emperors

There were roughly fifty people in the Oceanic Temple.

However, these fifty people are basically the most powerful experts of the Sea Clan. The Oceanic Temple was the most sacred place in the Sea race. Those who had the right to enter would need at least a demigod's strength.

Out of the fifty people present, all of them were above the Eight Trigrams tribulation of reincarnation, with no exceptions.

Even the old turtle beside him was at the early stage of Eight Trigrams tribulation of reincarnation.

Humans and the Sea race were quite far apart, but in actuality, there wasn't much of a collision between them.

Today, Long Chen had stepped into the Oceanic Divine Hall, and this could be considered the second time he had clashed with them in many years. Long Chen had become too famous recently, so the commotion caused when he came to the Sea Clan was unimaginable!

This is almost a historic moment.

However, the Sea Clan had always been suspicious. ever since Long Chen arrived at the Hanhai Imperial City, they had been suspicious of Long Chen's actions. After hearing about Long Chen's deeds, they also had many thoughts of comparing the Sea Clan with the human race.

At the first moment, Long Chen felt the enmity hidden underneath the smiles. He first felt the enmity, then saw the warm smile that the fifty or so people present gave him.

There were many golden seats in the vicinity, and the golden carpet under their feet stretched all the way to the feet of the six Ocean Emperors. There were more than forty Sea Clan Rankers around, who welcomed Long Chen with warm smiles on their faces. As for the old turtle, he led Long Chen and headed towards the six great Ocean Emperors' location.

"Human, son of the Eternal Dragon Emperor, Long Chen has arrived!"

On this official occasion, he did not say anything more about the future killing of Dragon Emperor. This title made Long Chen feel uncomfortable. He was still far from having the ability to do so yet.

"Please come with me again."

Long Chen passed by many Sea Clan Rankers with SemiGod bodies. These Rankers all looked at him with warm smiles on their faces and could not help but praise him, as if they truly felt honored that Long Chen had arrived.

These strong warriors came from various large marine tribe, and all of them were of the best bloodline of the Sea Clan. Some of them were even of the same bloodline as the Six Ocean Emperors, Sea Clan with the best bloodline.

Six Ocean Emperors, the strongest among the six types of bloodline, the emperors of every clan.

Even though the Demigod body experts from the top bloodlines had taken human forms, their appearances were extremely strange. It was obvious what race they belonged to, just like the tail of the Nine-tailed Heavenly Fox.

As for the six great ocean emperors, they were currently sitting on the golden dragon throne, waiting for Long Chen to come closer and pay their respects to them.

Long Chen had interacted with these fifteen Dragon Emperor s before, so even though these six Ocean Emperors were the strongest experts and deities of the Sea Clan, they were not scary for Long Chen. So naturally, he wasn't the least bit nervous in his heart. Leading Ling Xi, he stood in front of the six Ocean Emperors and had been sizing them up the entire time.

The six great pinnacle bloodlines were Sea God's Fang, Tyrant Divine Emperor, Ximen Yao, Chi Dong, Ying Yu and the Purple-eyed Emperor. The six Ocean Emperors were respectively the Ocean Divine Emperor, the Tyrant Divine Emperor, the Xi Yao Emperor, the Scarlet Emperor, the Ying Yu Emperor and the Purple Eyed Emperor. Among them, the Ocean Divine Emperor was the first Ocean Emperor and enjoyed the highest authority in the entire Sea Clan.

With a peak-level bloodline like the Sea God's Tooth, its original appearance was that of a shark.

His entire body was pale white like a greyish white rock. Although he was currently smiling, one could see that his mouth was filled with teeth as sharp as knives, a total of two rows. So, even with a smile, he still looked extremely frightening.

Beside them were Divine Emperor Ba, Emperor Xi Yao and so on.

From the first impression, the Sea Divine Emperor looked more sinister and tyrannical than the other Ocean Emperors. He was the most terrifying Emperor in the sea.

That pale white gaze made eye contact with Long Chen, and it was filled with a strong aura.

At that time, Long Chen was already standing in front of these six Ocean Emperors and he was a little shocked by them. Long Chen gently held her hand and revealed a calm smile as he spoke first, "Junior's Dragon God Domain, Long Chen, greets the other Ocean Emperors' seniors."

For the sake of the legacy blood essence of a 'Heartdragon' of the Dao of the Gods, they would have to give them this little bit of face.

At this time, everyone's gaze turned towards the First Ocean Emperor, the Ocean Divine Emperor.

The Sea Divine Emperor was bald and shiny, had sharp teeth, deep eyes and a burly body. Even when sitting down, he still had the feeling of a terrifying beast.

Facing Long Chen, he suddenly clapped slightly, and said, "As expected of the son of the Eternal Dragon Emperor, the new core of the human race, your bearing is extraordinary, your talent is unmatched. I welcome your arrival on behalf of the Sea Clan."

This Sea Divine Emperor's voice was heavy, imposing, and filled with a sharp hoarseness, full of aggression.

When he started to applaud, the entire Spiritual Hall of Hanhai clapped enthusiastically with a smile plastered all over their faces.

"Please take a seat." The Sea Divine Emperor didn't say much and he made a gesture to invite him in.

Long Chen's position, below and to the right of them, could be considered as the highest position other than the six of them. After Long Chen sat down in this position, he finally no longer needed to face the stares of the strong. When he raised his head, it seemed that other than the empty seat opposite him, the rest were all filled.

After they sat down, Long Chen began to converse with the six great Ocean Emperors. They were really curious about Long Chen, so they kept watching him closely.

The Ocean Divine Emperor was the first Ocean Emperor, but he didn't say much. He was more talkative towards the one and only enchanting woman amongst the six great Ocean Emperors. She still retained her youthful appearance, looked charming and charming, and was exceptionally enchanting. However, of the six great peak-level bloodlines, Ximen Yao was the sovereign of all sea serpents.

Before, when Long Chen flipped through the information regarding the Sea Clan, he knew that Emperor Xi Yao was the Fifth Ocean Emperor. She also had another identity, and that was the First Ocean Emperor, the wife of the Ocean Divine Emperor. In reality, among the pinnacle bloodline, interracial unions basically did not exist, it was just that they were an exception. Long Chen did not know the specifics.

Right now, she was chuckling softly as she conversed with Long Chen: "Over the past few years, the six of us have heard countless of news about you. From defeating that chaotic star field's Primal Chaos Quin, it really is shocking, one after another.

This flattery towards Long Chen was not something that would cause him to faint, so he hurriedly said: "Don't say it like that, Emperor Xlao, it's just a rumor, in truth it is not that exaggerated. Being able to do some things for the human race is mostly because of luck. As for the slaughtering Dragon Emperor, they were merely fifteen people from the Dragon Emperor that had expectations for me, it was hard to say if I could complete it, so please do not use this name to call me, if I cannot do it in the future, wouldn't that be a joke? "

The main task for him today was to stabilize his position in the Hanhai Imperial Palace without causing too much of a commotion.

Hearing this, the crowd laughed, the atmosphere became extremely relaxed, after all, Long Chen did not like to put on airs.

"He is truly a genius of his generation, young and yet he is also humble and cautious. Why is it that our Sea Clan did not produce such a genius? I really envy those fifteen Dragon Emperor s. " Emperor Xi Yao could not help but laugh.

She and Long Chen had the warmest conversation, while the other Ocean Emperor would occasionally interrupt them with a few words. The Ocean Divine Emperor, on the other hand, maintained his smile, revealing his terrifying, sharp teeth.

"Oh yes, I forgot about that. This is a grand occasion for the Sea Clan. In order to wish for the ceremony to be a success, fifteen Dragon Emperor have sent me to present these gifts. I hope that all Dragon Emperor can accept them first. "

The main topic had arrived.

The six great Ocean Emperors slightly rejected the offer, but still accepted it anyway. Among them were a few Dao Artifact Immortals and many secret methods, in order for Long Chen to succeed this time, fifteen of the Dragon Emperor s had put in a lot of effort. The six great Ocean Emperors all smiled after seeing the gift, and from the looks of it, Long Chen was not here to cause trouble, but the move was too baffling.

This was the most puzzling matter for the Sea Race of the Sea God's Domain.

At this time, one of the six great Ocean Emperors, Empress Xi Yao, looked at the bare-chested man standing not far away from Long Chen. That man was also extremely tall and big, his arms were as thick as Long Chen's body, his entire body had purple mysterious stripes, and his eyes were purple in color.

This person was similar to the Purple-eyed Emperor, who was one of the Six Great Ocean Emperors. He should be a member of the Purple-eyed Emperor. is someone who has the potential to become the new Ocean Emperor.

The Purple-eyed Emperor was in fact the most powerful bloodline of all the sea crabs. The fact that he was able to become one of the six great pinnacle bloodlines proved how tyrannical this bloodline was.

The burly man from the Purple-eyed Emperor Clan understood. While Xi Yao and Long Chen were happily conversing, he whispered to another warrior on the side: "What do you think the humans mean? Weren't they supposed to be the number one race of the Divine Realm of Immortality? Our Sea Clan is holding such a small ceremony to offer us a great sacrifice. Are you trying to please us by giving us so many gifts? "

The person at the side said, "That can't be. Humans are always noble, right? Don't they always look down on being with us, the Sea race? This time, they have come to curry favor with us. I think they might have other plans.

In actuality, even though the Imperial Palace of Hanhai was very big, who wasn't a top-notch figure to be able to come to this place? Absolute upper echelon? Although they were whispering, everyone could hear them. Only they pretended not to be heard.

This was an unbridled slap to the face!

"You think too much. The human race can't do it anymore and is afraid of the Monster race and the Spirit race, that's why they came to curry favor with us, the Sea race. They expect us to join hands with them, what a shameless race, with just a few gifts, to bribe our Sea race?"

Chapter 2316 - Purple Eyed Royal Family

Long Chen could naturally hear everything they were saying.

This must be the intent of the six great Ocean Emperors to test Long Chen and probe him. As the Ocean Emperor, they obviously could not say such harsh words in this kind of situation, so they had arranged for two people to pretend to be talking. In reality, they were deliberately trying to humiliate Long Chen.

Was he here to curry favor with the Seafolk, or was there some other reason?

The burly man from the Purple-eyed King Clan continued, "Don't just look at the humans, this man claims to be the future Dragon Emperor of slaughter, and he looks like he is here for the eternal Dragon Emperor. Let alone whether or not this man can become the Dragon Emperor of slaughter, so what if he is? Wasn't his father unable to die in peace? If this guy did not manage to figure out some secrets and figure out some secrets of the Demon Star Realm, the Eternal Dragon Emperor would probably be in trouble for millions of years. "

"You should be more careful with your words. In a situation like this, if you say something like that, then where's the other party's face? Give this brat some face."

The two of them sang the same tune, as if they were really whispering and didn't know that everyone was listening to them.

Some of them were already laughing, they looked at Long Chen in anticipation, wanting to know if he would stand up and fight back, scold them, throw a tantrum, or pretend not to hear anything, and endure it silently?

"What's wrong? Long Chen? "

Xiao Yao pretended not to hear anything, and saw that Long Chen's expression had turned cold, and asked hurriedly.

This was the Sea God's Realm. With the six of them here, as well as the many Sea Clan's experts present, to suppress this young man who was rising swiftly, the six of them naturally wouldn't think that they wouldn't be able to do it.

After all, this is the territory of the Seafolk!

He had come to the Sea God's Realm alone. Wasn't this purely for mistreatment?

Of course, he still maintained a friendly face on the surface, but before he figured out Long Chen's purpose, this kind of secretly humiliating people, was something that he would often do.

After Long Chen did not speak, everyone quietened down. They looked at Long Chen with a smile that was not a smile.

Should he pretend not to know, or stand up to scold the Seafolk? Any one of them would destroy his current state of calmness.

At this time, Long Chen allowed Ling Xi to sit down obediently, but he himself stood up under the crowd's gaze. He did not speak, and his gaze shifted to the burly man from the Purple-eyed King Clan. The big person had a pair of deep purple-coloured eyes and his pupils were formed by countless purple-coloured rings. The more he looked at his eyes, the more he discovered that the rings were endless. There were over a thousand layers.

There were even tens of thousands of heavy violet rings.

Every single ring was like a lock, locking Long Chen's body.

Under the gazes of everyone present, Long Chen suddenly ignored the fifteen Dragon Emperors and directly walked towards the burly man with purple eyes. Standing in front of him, everyone was a little

confused. If he really had a motive for something like this, he could just pretend that he didn't hear it and submit once. Do you want to fight against the entire Sea Clan?

Although the Sea God Region was publicly recognized as the lowest of the five great clans, they still felt a sense of superiority that they believed to be the highest under the heavens.

The six Ocean Emperors looked at each other secretly, and at the end, Emperor Xi Yao coughed and laughed: "Um, Little Brother Long Chen, Haha, this is a 'Ocean King General' of my clan, you don't have to think too much into it. Please do not argue with him, I will apologize on behalf of him." As she spoke to here, she glared at the large man from the Purple Eyed Royal Family and said, "You, scram out!"

To the Sea Clan, this point of humiliation was good enough. To be able to make Long Chen retreat in the face of difficulties, and to be intimidated once, was enough.

"Hmph! How can a mere human being behave so atrociously in my Hanhai Divine Hall?!" Initially, everyone thought that this matter would end like this, but right at this moment, an unexpected thing happened. That was, Long Chen actually attacked the purple-eyed Royal Family without saying a word!

He turned one hand into a dragon claw, and the blood-red scales of the dragon instantly covered it. The bone spike extended, and his palm quickly turned into a dragon claw, with blood, flames, storm, thunder, and so on.

By the time they realized it, it was already too late. Long Chen's Ten Thousand Deadly Claw had already reached out after his opponent had turned around, and although the purple-eyed Royal Family was only at the late stage of the semi-god body, they quickly reacted. How could he block Long Chen's Ten Thousand Deadly Claw when he was so close to them?

"Whiz!"

In that instant, the purple-eyed emperor had turned his head, but right at that moment, he could only see red rushing towards him, it was a kind of killing intent that instantly filled both of them with fear. The angry power of the Primordial Blood Spirit Dragon cut through the heaven and earth, and even though his purple pupils were spinning, Long Chen's Ten Thousand Deadly Claw had still deeply pierced into his face!

Pch!

It was practically piercing right through!

A sharp claw nearly pierced through the back of his head!

The Myriad Death Claw's most terrifying claw was not only the claw's injury, but also the damage from the power of anger, which quickly spread throughout his body, suppressing the anger of the expert at the late stage of the SemiGod Body. Long Chen forcefully pressed on it, pushing the opponent down to the ground, causing him to lose the ability to resist in front of him, otherwise, the result would be, death!

Of course, it was also because his attack was caught off guard, that the opponent did not expect it, and therefore Long Chen was able to fight so easily, if not, he would still need a lot of time to finish him off.

However, this sudden action had truly stunned the entire scene, causing the entire Sea race to become silent for a moment.

Long Chen had always been the first to strike, and it was no exception this time.

If they wanted to do this, they had to do something that they didn't dare to do!

Of course, the fear in his actions still had to be matched with the shock in his words. Otherwise, he would be a complete fool, and now that he had almost taken control of the lives of the purple-eyed royalty, his eyes were staring straight at the six Ocean Emperors. At this moment, the six Ocean Emperors had already narrowed their eyes, and their faces had become extremely cold.

Long Chen said directly to the six Ocean Emperors: "Seniors, today, I, Long Chen, am here on behalf of the human race. But this brother, who had insulted me verbally and doubted my motives, was disrespectful to me! If I wasn't so enraged, I wouldn't have done this. "

"You dare to harm someone from my Sea God's Domain? You're courting death!"

In that moment, the dozens of SemiGod Realm Rankers were furious. They clenched their fists and waited for the orders from the Six Ocean Emperor. As long as they gave the order, they would definitely take action! And there would be no mercy at all.

The six Sovereign of the Seas did not expect Long Chen to be so tough.

Emperor Xi Yao spoke in a deep voice: "Even though this guy was the one who offended you first, you rashly took action here, you don't seem to take the six of us, the Ocean Emperors, seriously do you?"

Ling Xi was someone who had seen a lot of things, and was still a little afraid at this moment. She did not know what Long Chen would do, but how was he going to settle this?

Long Chen, on the other hand, was unhurried, and spoke with a somewhat exaggerated tone: "What did Xlao Yao say? If I didn't respect the six Ocean Emperors, how could I have personally come from a place far away from the Dragon God Domain to meet the various Ocean Emperors? The reason why I, Long Chen, have such respect for you six, is precisely because I proposed this trip to fifteen Dragon Emperor s. The reason is so that we, the human race, can build good relations with the Sea Clan. For this wish, my personal honor is already a small matter. It is just that this brother of mine kept insulting me, insulting our human race, destroying my wish, and destroying the chance for us to establish a relationship with the Sea Clan, showing his short-sightedness and narrowness, even targeting me. Thus, in my fury, I was unable to control myself, and hoped that the Ocean Emperor would forgive me. "As the saying goes, courtesy is important. We have already given the gift, and this brother here has even insulted us. Could it be that he despises us, the humankind, for our courtesy?"

Long Chen suppressed the others with a single breath and said a lot of things. These words made him stay in a very reasonable position and it sounded like it was just a matter of fact, causing the six Sovereign of the Seas to not know how to refute his words. The truth was that under the pressure of the Sea Clan, Long Chen was able to make a beautiful counterattack.

At this time, Long Chen did not wait for the Ocean Emperors to make any other decisions and directly took out the Ten Thousand Death Claw, igniting the flame of his life, and burned it onto the body of the martial artist from the Purple-eyed Royal Family. He laughed: "Actually, I was just joking with this brother of mine, and I just warned him a little, don't question others, and hurt our human hearts. I, Long Chen, truly hold a sincere emotion in my heart, and truly want to become friends with the Sea Clan members.

As he spoke, he used the flame of his life to restore the large man from the Purple Eyed Royal Family to his former state. From injuring to saving, these two methods were both incredibly ingenious and had great utility. One move was enough to kill, and one move to bring back the dead. It was simply shocking and profound to the extreme; it was simply a miracle!

Although Long Chen's strength was on par with the purple-eyed emperor, he could reverse his life and death!

Whether it was a verbal counterattack or the use of these two methods, all of the Seafolk present were deeply intimidated.

#### Chapter 2317 - Chen Xingyao

After saying that, Long Chen was about to pull Ling Xi along and leave, but just as the Purple Eyed Royal Family which he had controlled had recovered, he was lightly pushed back into his position by Long Chen and sat on the ground. He hurriedly checked his own body, and when he realized that he was actually unharmed and heavily injured, he forgot to take revenge, as his entire person suddenly became stupefied.

"What's going on?"

The feeling Long Chen gave him was not that of an expert of the same level, but one that could control his own life and death, live if he wanted to live, or die if he wanted to die, that would be the type of feeling that made it impossible for him to live!

Long Chen swiftly and quickly cupped his hands towards the six Ocean Emperor and said: "Seniors, since I am not welcomed in the Imperial City of Hanhai, and since the Sea Clan is not interested in establishing a good relationship with the human race and do not wish to advance or retreat together, then I, Long Chen, will have to take my leave first. As for the harm done to this brother of his, I have already allowed him to recover completely. Previously when I attacked too anxiously, perhaps it was because he was young and hot-blooded, and was unable to control himself.

Although Long Chen said that, his tone was still strong, not the least bit intimidated.

In truth, from the beginning to the end, he had been in control of it.

Now, he was even using the ultimate move of goading others into action.

No matter what angle he looked at it from, his performance today was perfect, that was, he responded very well to the other party's humiliation, slapped the other party's face, and caused the six Ocean Emperors to not be able to do anything to him.

Now, Long Chen was even more carefree as he turned around and left.

If word of this got out, it would definitely become a joke of the Sea Clan, and the Sea Clan itself would be looked down upon. If the humans were to establish a good relationship with them, they would not dare to take it on, and that would be even more of a joke.

Under Long Chen's hidden threat, the six Sovereign of the Seas obviously did not want him to leave.

"Wait."

This was actually the First Ocean Emperor, the voice of the Ocean Divine Emperor. Previously, he had only greeted her well and did not say much, but now that he had spoken, it seemed that the person who had the most authority in the Sea Clan was himself.

"Is there anything else, Senior Sea Divine Emperor?"

Long Chen turned his head and asked with a smile.

At this time, the others were still in shock at what kind of method Long Chen had used to revive you from when you were half dead. Through this ingenious method, Long Chen had completely displayed his true strength, causing them to have no choice but to be wary. Everyone knew that Long Chen had not even reached a thousand years old yet, or even a hundred years old.

The bald, pale Sea Divine Emperor waved his hand and said, "Sit down first. We can talk later."

Long Chen said: "Senior, I would actually like to have a pleasant conversation with the Ocean Emperor and listen to your teachings. It's just that these brothers of the Sea Clan beside us do not seem to be willing to do so."

Right now, the half god body experts were still standing around Long Chen.

"Sit down."

The Sea Clan warriors all sat down. They knew in their hearts that Long Chen was very difficult to deal with, not only because his strength was countless times younger, but also because of his will and determination. He was truly a perfect genius.

knew that it was time to end this matter as soon as possible. He smiled and brought Ling Xi back to her seat, then said: "Honestly speaking, I am truly sorry for what I did. I was impulsive just now, and I hope that the Ocean Emperor, for my youth, would not bother with me, haha!"

However, Long Chen's every word and sentence was always brought up to them. He could indeed be impulsive and young, but all of them were old people now, and most of them were seniors who had provoked him before him. Now that he had suffered a loss, he could only swallow it down.

What the six of us are truly interested in are the greetings from the fifteen Dragon Emperor s. We must first thank you, Little Brother Long Chen, for winning this valuable opportunity for our Sea Clan. This way, little brother Long Chen will be the hero of a thousand years. "

This was exactly what Long Chen wanted to hear.

This way, he would be able to stay in the Sea Clan for a longer period of time.

He quickly replied, "There are countless experts in the Sea race. After a thousand years of development, they are already extremely powerful and are almost on par with the demon race. It is also my honor to be able to become friends with you all. If everyone can recognize me as Long Chen, then my wish for this trip of mine can be considered to be complete. "

The Sea Divine Emperor smiled faintly, his gaze deep and profound. Every time he revealed a smile, those two rows of sharp teeth would appear, looking extremely sinister.

I believe that with a person as far-sighted as you as a human, the development of our two races will also be better. Now that the Sea Clan is about to hold its Ocean Rites, I represent the Sea Clan and invite little brother Long Chen to participate in our Sea Clan's Rites, I hope you can show me some respect. "

Hearing that, Long Chen immediately said: "Of course, of course, Long Chen made a mistake before. Senior not arguing with me is already considered my greatest honor, how can you decline this invitation? Although it was just a small dispute between us previously, I believe that this brother of the Sea Clan won't quibble with me, right? I will visit you another day and apologize again to this brother. "

He shifted his gaze onto the burly man from the Purple-eyed King Clan.

It was obvious that his previous actions were directed by the Ocean Emperor. Now that he saw that Long Chen had implicated him, he hurriedly looked towards the Ocean Emperor, only to see that Ximen Yao had glared at him, causing him to hurriedly say: "N-no, I was just spouting nonsense. Everything is wrong, the one who should be apologizing should be me."

The two of them complimented each other a few times.

In reality, Long Chen knew that no matter what, they would still doubt his motives. However, his current goal was to stay here.

He is an important member of our Sea Clan. Along the way, Brother Long Chen, I have arranged for this human to welcome you and give you shelter. You are both members of the same race, and also part of the Dragon Fighter.

Long Chen was pleasantly surprised, there were actually humans here?

"Then I will have to thank Senior Divine Emperor Hai."

Just at this time, someone had already went out and announced that they were entering the Hanhai Divine Palace. Long Chen faintly heard a name, which seemed to be 'Chen Xingyao'.

After a while, a middle-aged scholar wearing a blue robe walked in. This person was very handsome, as if she was a deity. One could tell with a glance that she was someone who had read a lot.

He walked over with large strides, probably because it was his first time coming to this place, so he was not too familiar with the place. After he found the location of the six Ocean Emperors, he walked over with large strides, kowtowing to them and said: "Chen Xingyao greets the six Ocean Emperors."

Among them, Ximen Yao said: "Stand up."

After she finished speaking, she looked at Long Chen and said, "You should have heard that this is the most popular person and genius among the human race right now. You have long heard of him, his name is Long Chen. "

Chen Xingyao would definitely know about Long Chen.

Long Chen took a closer look, his strength was not weak at all, and was actually at the late stage of the SemiGod's body. One must know that there weren't many strong people in the entire Dragon God Domain, so how did he end up as one of the six Ocean Emperor's subordinates? Long Chen was confused.

At this moment, Chen Xingyao saw himself. He was extremely respectful as he said, "I have heard of your fame many times. Today, I see that you are indeed a young hero. You are truly a rare young hero with peerless elegance. I, Chen Xingyao, greet you."

His voice was very respectful, but it didn't fluctuate much.

Long Chen nodded his head, and then asked a good question.

"From today onwards, this genius will be staying in Imperial Palace Hanhai for a short period of time, celebrating the great ceremony of the sea with us. At the same time, he will also work hard for the alliance of our Sea Clan and Human Race. You will be in charge of arranging his residence, itinerary, and if there are any places that are inconvenient for you, I'll let Liu Ji punish you well."

Chen Xingyao hurriedly said, "Don't worry, Xingyao will do his best to satisfy you."

Speaking to here, the Ocean Divine Emperor said to Long Chen: "Since that's the case, then Little Brother Long Chen is probably tired now. Xing Yao, take him to rest first. We'll pay a visit another day. "

"Thank you, thank you."

He knew that after he left, these people would definitely discuss about him, but that did not matter, because he had already achieved his goal. Now, he had a total of half a month's time to get close to the Causality Holy Stone.

Sure enough, as soon as he left, the six Ocean Emperor asked the other warriors to leave. The light of the Oceanic Divine Hall dimmed and the six Ocean Emperors sat there, resting with their eyes closed.

"Human, what are you doing?" Do you really want to ally with us Seafolk? Why doesn't he want the Spirit Race, the Witch Clan? "

The Witch Clan is different from us Sea Clan, we cannot ally with the Goblin Tribe, but maybe the Witch Clan can be like this, but right now, it is a peaceful time, so what's the point of joining hands? We Sea Clan do not need territory. After all, we can only stay in the Sea God's Domain. "

Recently, humans have encountered a lot of things. First, there were problems in the war between the gods, and then there was the incident in the devouring dragon city of a mysterious creature called 'Black Flame Emperor', who possessed the body of a 'Black Flame Beast', and even caused a great disaster for the Everlasting Dragon City and the slaughtering dragon city. Furthermore, everyone knows about what happened on the demon planet.

"But at the end of the day, the alliance is not that useful either. If it is a calamity of destruction, everyone will resist on their own. Furthermore, it is a little strange to send Long Chen here. What is the reason for this? "

#### Chapter 2318 - The Demon Emperor

After descending from the Oceanic Divine Hall, Long Chen had finally entered the Imperial Palace s of the Great Sea. This time, Imperial Palace Hanhai had welcomed Long Chen with such a grand ceremony. No matter what goal he had, at least he had announced it to the world.

After they were done, all the Sea Clan Warriors of the Hanhai Imperial Palace scattered away. Long Chen and Chen Xingyao headed towards the depths of the Hanhai Imperial Palace.

The higher their strength and status were, the farther they could go. Sea Clan members who had just reached the tribulation of reincarnation could only stay at the outskirts of the Hanhai Imperial Palace.

Along the way, Long Chen had seen many different coloured Sea Clan members, and there were even more species of Sea Clan people than Demon Clan members. They were even more mystical.

Long Chen walked while conversing with Chen Xingyao.

He had already been in the Sea Clan for a few thousand years. When he first came here, he did not have the body of a half god, but now, he is already in the late stage of the SemiGod Realm. Even if he were to return to the human race, he would still be considered as the supreme expert.

"Although you are being a bit presumptuous, I still want to ask you this. Since you are a human, why did you stay in the Sea race for such a long time? With your strength, even if you return to the human race, you should have a good treatment and status. But right now, your position among the Sea Clan does not seem to be high. "

From the way they were traveling, it seemed that the Sea Race warriors did not like Chen Xingyao. On the way, no one greeted him.

When he had previously welcomed Long Chen, it was as if this was the first time Chen Xingyao had entered the Oceanic Divine Hall. As a human, it was impossible for him to have a high position in the Sea Clan's territory.

Chen Xingyao faintly smiled, but he remained extremely calm and continued, "That was many years ago. I grew up with Chen Ting and when I was still six streams of tribulation of reincarnation, my cultivation was still around his, so I was one of the top geniuses back then in the Dragon Devouring City. There were many times when the two of us were basically competing with each other, and one time, because of some matters, he became enemies with Chen Ting and lost in battle, so he left the Dragon God Domain and fled here.

Long Chen didn't expect that he was actually related to the Black Hell King.

However, he had no choice but to flee to the Sea race. It seems that this matter was quite big. Long Chen was not sure which side Chen Xingyao was on, so he was a little cautious. Maybe he was sent by the six Ocean Emperors to check his background.

"After spending so many years in the Sea Clan, I have gotten used to it. On top of that, the Black Hell King is still in the Swallowing Dragon City calling the wind and summoning the rain, she is stronger than me so I did not go back, and we even got married in the Sea Clan. So even though the Black Hell King is no longer here, I think I will not go back."

Chen Xingyao narrowed his eyes and said with a very calm tone.

Although he was a middle-aged man, his tone was the same as an old man.

Long Chen had originally wanted to ask him a little about the location of the Causative Holy Stone and the Three Lives Divine Stone, but after careful thought, if he were to suddenly ask about this matter right now, and if he were to reveal it to the six great Ocean Emperors, perhaps his motives would be exposed in advance.

Chen Xingyao still couldn't believe it all.

On the other hand, you, why would fifteen Dragon Emperors want to build a good relationship with the Sea Clan this time?

Chen Xing Yao changed the topic, as if trying to trick Long Chen.

Long Chen said seriously: "Sea Clan is the most suitable clan. Recently, it has not been peaceful and there will definitely be more events in the future. For example, the ancient trolls on the demonic star, that's why I'm here. It's not easy to communicate with the Sea race. You are still of our race, so I think we will need your help for this period of time. "

Ye Zichen just treated it as real, since he couldn't trust this guy right now.

Who knew what kind of changes he had experienced in his thousands of years in the Sea Clan?

Hearing that, Chen Xing Yao suddenly shook his head, and said: "Long Chen, you don't need to lie to me. I understand fifteen Dragon Emperors, they look down on the Sea Clan. They are arrogant people, even if they were to die in battle, they wouldn't seek help from the Sea Clan whom they despise. "

He was quite sure.

"But I'm not, but my thoughts can change the decision of the fifteen Dragon Emperors, do you believe me?" Long Chen stopped in his tracks, stared at the opponent, and said word by word.

If Chen Xingyao hadn't been a little bit firm with his words just now, he would have been able to see through his weak points. Every time they talked or were on the verge of death, Long Chen would basically choose to use his powerful method to break through their defense line.

Just like this time, Chen Xingyao was rendered speechless.

It was clear that he did want to know if Long Chen had another purpose, but Long Chen directly told him in his own way: No.

"We're here."

Chen Xing smiled as he prepared for Long Chen and handed him an Star Rune. "If there's anything you need, you can contact me anytime. I'm not too far away from here. When you want to move about, you better call for me so that no one who doesn't know what to do will provoke you. The six Sovereign of the Seas should also personally come to visit you or call you over. After half a month, the Ocean Sacrifice ceremony will officially begin. If you can attend, it will be a signal to the outside world. a sign that humans and the Sea race are on good terms. "

"No problem."

Long Chen said with a smile.

The walls were like azure colored glass, as if the entire Hanhai Imperial City was made of a similar type of huge Dao item. It was stable and difficult to destroy, with pearls, gems, agates, shells, and other beautiful decorations all around. Putting aside the faint scent of blood in the air, this was a good place to be.

After Chen Xing Yao left, Long Chen and Ling Xi stayed there peacefully. Of course, he had to in the next fifteen days to obtain the inherited blood essence.

Of course, those six Ocean Emperors would definitely be wary of him, and they might even use other methods to test Long Chen. After all, to them, Long Chen was like a ticking time bomb, and would very likely explode.

Chen Xingyao headed in the direction of the 'Magic Blue Palace'.

Demon Blue Palace was the largest palace outside of the six Ocean Emperor's palaces. It was the seventh largest palace in Hanhai Royal City.

The two words "Magic Blue" came from the Magic Blue Race of the Sea Tribes.

Their overall strength was ranked in the top five among the Sea Clan, making them extremely powerful. Among them, there were two types of bloodlines at their peak, one was the Xi Yao Clan, where the Fifth Ocean Emperor was from, and the other was the Demon Blue Race.

The Magic Blue Clan, compared to the bloodline of Xiao Yao Clan, was slightly weaker. Although it couldn't be considered one of the six great peak-level bloodlines, in reality, the distance between them was not too far. In fact, compared to the Ximen Yao Clan, the terrifying destructive power of the Magic Blue Race was even more terrifying.

Of course, regardless of whether it was the six great peak-level bloodlines or the devilish blue race, their numbers were extremely rare. The six peak-level bloodlines each clan only had around a few dozen or so, and there were even a dozen or so.

Currently, the reason the Demon Blue Race was famous was of course because of the master of the Demon Blue Palace. This person was quite a famous character in the Sea Clan, and in terms of reputation, he wasn't any worse than that Ximen Yao Emperor. He was already the Seventh Emperor of the Sea Clan.

There were even some people who directly called her the Demon Emperor in private.

Of course, in terms of strength, she was not at the level of the Ocean Emperor, but she had already passed through the level of Nine Palace Calamity. However, she had a huge advantage. She was much younger than Xi Yao Emperor, as she was Long Chen's father, a person of the same generation as Long Qinglan.

Other than himself, the only people who had passed through the Nine Palace Calamity were probably only two or three people in the entire Immortal God Realm. There might be one between the Spirit Race and Demon Race, and neither the Human nor the Witch Clan had it yet.

From this, it could be seen that in that era, in the entire Immortal God Region, if not for the Eternal Dragon Emperor, this Demon Emperor would have been the strongest expert of her generation, much more powerful than the Azure Fire Emperor, Bloody Blaze, and Chen Xingyao.

Furthermore, this Demon Emperor was a woman.

Of course, to the sea serpents, having a stronger magnetism than that of a male was a very normal thing.

The Demon Blue Clan was a rare snake of pain, they had over a hundred different kinds of poisons, had different kinds of poisons, and could poison their opponents to death with hundreds of different methods. The Demon Blue Clan's poisons were mixed in with their attacks, and in terms of strength, they had over a thousand different methods to use, and they were truly "poisonous." Their poisons could even defeat opponents who were several times stronger than themselves, such as the Demon Emperor's poisons, the six great Ocean Emperors and fifteen Dragon Emperors were probably all afraid.

Chen Xingyao had entered the Magic Blue Palace.

It was pitch black inside the Magic Blue Palace. Chen Xingyao carefully advanced until they reached a black sea. As he approached, his skin turned pale white and he had no choice but to use the power of reincarnation to protect himself.

He took out some items from the Divine Kingdom. They were actually over a thousand blue crystals. These crystals were filled with tremendous power and were radiating light. It was as if there was a sea beast swimming within them.

This was the Aquamarine of the Sea Clan.

Every member of the Seafolk will have a Aquamarine as the core of their life. Once the Aquamarine is taken away, they will think of themselves as dead.

"Madam, the Aquamarine is here!"

This sentence had just been uttered when the depths of the black sea began to stir. The surging sea water sent Chen Xingyao flying. In that instant, a huge black snake head emerged from the sea water and swallowed all of the thousands of blue crystals in one gulp!

Chen Xingyao retreated a few steps back, looking inside with a bit of worry on his face.

"How dare you!"

Suddenly, a blue crystal flew out and struck Chen Xingyao's body, turning him into powder. Chen Xingyao almost broke out of the palace, and by the time he stabilized his body again, his mouth was already full of blood.

Chapter 2319 - Sea God's Palace

The impact this time was enough to injure Chen Xingyao's internal organs. However, this was something he was used to, so he came back.

Within the black waters of the sea.

"Why is there one with less than three levels of tribulation of reincarnation inside?! How dare you put on an act! Don't you know I can't eat third stage tribulation of reincarnation!?"

A domineering yet beautiful female voice rang out, and from the black sea water, a woman faintly walked out.

It was a beautiful woman, most likely transformed by the Black Sea Snake. Just by looking at her appearance, she was already extremely enchanting, charming to the bone, and when she walked, it was like a snake was twisting around her body. She was extremely flirtatious, and if she did not have a hint of gloominess and brutality between her brows, then she would have been even more captivating.

They were also part of the Sea Serpent Clan, so Emperor Xiyao was dignified and majestic. She was noble and beautiful, but compared to this woman, she was still quite charming and peerless. In fact, the person in front of him is the most beautiful person of his generation, be it in terms of talent or beauty!

However, there had never been anyone who could catch her eyes. Although she was no longer young, in terms of appearance and temperament, especially the temperament unique to the Demon Blue Race, it was something that no one could compare to.

Of course, those who knew of her actions, habits and past deeds would know that this woman was the most fearsome person in the Sea Clan. She was the most suitable person to be called the Snake Scorpion Beauty.

Poison, there was no one who could compare to the Emperor of Magic Blue, Liu Ji.

At this time, the peerless beauty that stood before Chen Xingyao was the Seventh Emperor of the Sea Clan, Liu Ji.

Her face was rosy, and she was brimming with vitality. She even looked a little delicate. Just by looking at her appearance, it was hard to associate her reputation with this.

"Madam. Please forgive my negligence, but I did not check it out properly. Furthermore, I was busy with other matters today, so I was delayed for a while. "

Chen Xingyao said respectfully.

Back then, countless people pursued Liu Ji, but no one was worthy of her. What made everyone depressed and confused was that she actually married a human who appeared out of nowhere and married her. From then on, Chen Xingyao became the person whom all Sea Clan men hated the most. Of course, due to Liu Ji's relationship, no one dared to openly oppose him.

In addition, Chen Xingyao himself was not weak either.

Why did Liu Ji combine with Chen Xingyao? Other than the two of them, no one else knew about this. Everyone only knows that when Chen Xingyao came to Sea Clan, he coincidentally saved Liu Ji once.

Now that the peerless beauty had appeared before Chen Xingyao, a pair of pitch-black eyes stared at him. This woman had a look in her eyes that no one was afraid of, because just by standing with her, even if they looked at each other, they might still be infected by poison.

"Oh? "What's so important about it? Is it more important than your wife's Aquamarine?"

Liu Ji raised her eyebrows, and a wave of black gas that turned into black bugs had already filled the air around Chen Xingyao.

Chen Xing Yao said: "I mentioned to you before that the human race's Eternal Dragon Emperor's son, Long Chen, has arrived. The six Ocean Emperors are welcoming him at the Hanhai Divine Hall and the scene is grand. I remember that the Ocean Divine Emperor has summoned you before, but you did not go. That's why we were delayed for a while. "

Liu Ji's eyes slightly lit up, she extended her pure white hand with jet-black fingernails, supported her chin, and laughed sinisterly: "You're right, where is that guy called Long Chen? Yes, I don't want to go today. No point. However, I never thought that the Ocean Emperor would make such a big fuss out of it.

Chen Xingyao replied, "It's said that he had great courage in the Oceanic Divine Hall. In a short moment, he killed a late-stage Sea King general with a body of a Demigod, and then healed him in an instant. He left him completely unscathed and shocked four of them."

"Oh?"

Liu Ji's eyes lit up, and said: "Is he really the abnormal son of the Eternal Dragon Emperor? Hehe, I hope we won't die that early like the Eternal Dragon Emperor. "It seems a bit interesting, but what about you, Chen Xingyao, have you figured out something?"

Chen Xingyao said regretfully, "No, his mouth is very tight, and he's also very smart and cautious. He's not like Long Qinglan who doesn't eat the common people, who is very tenacious, and his actions are very ruthless."

"You're really trash!"

Liu Ji's slap landed on his face, instantly turning half of Chen Xingyao's face black. Blood and flesh were being burned, and one could almost see his bones.

"Mistress, please calm your anger."

Chen Xingyao's eyes flickered, but he sighed as he spoke.

"I'm not mad at you. This is your punishment. Tomorrow's Aquamarine, if there are any that don't qualify, don't blame me for killing people everywhere."

Liu Ji looked at him coldly before disappearing from his sight.

Chen Xingyao endured the pain on his face and looked at the sky above the ocean. He could not help but sigh, "I really don't know how long I can keep this old life for. My lady? "Hehe."

Deep within the depths of the Sea God's Palace, the sea water began to shudder.

The Sea God Palace was, of course, the most important place in the entire Hanhai Imperial Palace. This was the residence of the first Ocean Emperor, 'Sea Divine Emperor'.

There had once been many people who had thought that their relationship with Sea Divine Emperor was not bad and rashly barged into the Sea God Palace's territory. In the end, no matter who it was, they directly became Sea God's food and were eaten.

As time passed, Sea God's Palace gradually became a forbidden area within the forbidden area.

However, at that time, violent tremors came from the forbidden area. Accompanied by the woman's sweet and gentle voice, it made people's minds tremble. It was extremely numbing, and it was very difficult for a woman to make such uncontrollable sounds for a long time.

After a long time, he gradually calmed down, and the trembling sea recovered its calmness.

Deep within the Sea God Palace, Sea Divine Emperor's tall body was lying on the ground, his thick arms supporting a beautiful snow-white body. The woman sat on his body, her charming eyes filled with boundless gentleness as she stared at Sea Divine Emperor with infatuation.

"Stop pouring your poison into me. Haven't you had enough fun for so many years? You can't kill me." The Sea Divine Emperor said to the woman.

The woman charmingly said, "Of course it's not enough. I haven't killed you yet, so of course I won't stop."

The Sea Divine Emperor slapped her like that huge palm and said with a smile, "Stop messing around, you won't kill me."

The woman said, "You're too confident. I'm telling you the truth, Yao Ling that slut didn't die for a day. I was thinking about how I could torture you to death."

Sea Divine Emperor frowned and said: "My darling, isn't it good that we are like this? After all, she is the Fifth Ocean Emperor, a great pillar of support for our Sea Clan. If not for us six great Ocean Emperors working together, how can we fight against others? "

The girl snorted and said, "I don't care about that. You always use this kind of excuse? I ask you, do you like me, or do you like her? "

The Ocean Divine Emperor chuckled: "Of course it's you. Little demoness, who wants this old witch? You are at least ten thousand times stronger than her. "

She suddenly stabbed a black nail into the Sea Divine Emperor's thick arm and gritted her teeth as she said, "Since you used her strength as an excuse, then you can just wait. On the day I become the new Ocean Emperor, if you don't kill her, then I'll poison you to death. Perhaps, she already knew about it! Which Ocean Emperor didn't have tens of thousands of women? Only you were sick when you were young, and married Yao Ling. Now you must have suffered, hehe! "

Sea Divine Emperor suppressed her and said, "What do you know? Besides, don't I still have you? How useful were women? Of the women in this world, even if there were a million of them, they would still not be as charming as you, Liu Ji. "

"Stop messing around!"

Liu Ji kicked him away and said, "That son of the Eternal Dragon Emperor, what do you plan to do?"

"Him?" The Sea Divine Emperor wrinkled his brows and became somewhat angry, "I am afraid of those fifteen Dragon Emperor s, otherwise, I would have killed them a long time ago. This kind of person should have already killed him when he was still young. Otherwise, if you change your appearance into that of a Dragon Emperor warrior, it will be a disaster for other races than the human race. "

Liu Ji chuckled and said: "Is there anyone else who can give you such a headache? I'm getting more and more curious about this little guy."

You better not underestimate him. Also, you are my woman, so don't let me see you touching him! Besides, he has a wife. "

"Oh? Wife? " Liu Ji's beautiful eyes moved as she looked at Sea Divine Emperor and said, "The great Ocean Divine Emperor, the number one Ocean Emperor, actually remembered the wife of another person. It seems like even you, an old fellow, have become interested in sex? "I'd like to see what kind of woman is more charming than me."

"Don't mess around." The Sea Divine Emperor shouted angrily.

Liu Ji giggled and said, "Alright, I only love you one. It's not like you're going to pick a fight, but neither are you! Furthermore, you can't touch Yao Ling. That old woman probably isn't interested in you either. Alright, let me help you on the matter of the Eternal Dragon Emperor's son. I don't want to find out the reason for his visit without offending the humans, right? I, Liu Ji, have over a hundred kinds of poisons, there's always a poison that can make him speak the truth. And it was without knowing. "

The Sea Divine Emperor's eyes lit up. "That's right. How could I have forgotten about you? No one is more suitable to fight than you." With your skills, you are more suitable than us. "

"Alright, who doesn't know that you asked me to come today just to get me to help you? Do you really think I'm that stupid? You're the one who likes to talk in a roundabout way. " Liu Ji charmingly said.

Sea Divine Emperor laughed, "You understand me the best. Alright, we'll start tomorrow. I'll invite him. I have to deal with this little guy once and for all, so that I won't have too much trouble ... Am I really getting old? It's just a little kid, and he's making me so nervous. "

"Yeah, a kid." Liu Ji repeated.

## Chapter 2320 - Blizzard Moon

After Chen Xingyao left, Long Chen used the star talisman to contact the Nether Dragon Emperor of the Swallowing Dragon City. This Dragon Emperor had once used the Ancient God Sizing Technique in the Spirit Sea, so Long Chen had a deeper impression of him.

The question he asked was, of course, Chen Xingyao.

He wanted to know if this person could be used or not.

After hearing Long Chen's question, the Nether Dragon Emperor replied, "Chen Xingyao has been gone for quite some time. If it was before he left Dragon Devouring City, when you really needed help, he would have definitely helped you. But now, you don't know, time can change people a lot, so you should be more careful, and easily tell him your purpose. "

Humans were fickle, so the words of the Nether Dragon Emperor made sense.

Long Chen nodded: "Since that's the case, I guess I'll have to rely on myself."

That woman is called Liu Ji, the strongest of the Mo Lan Clan. She is about the same age as Chen Xingyao, but her cultivation has exceeded the Nine Palace Calamity, and she is one of the only three Nine Palace Calamity warriors of your father's generation in the entire Immortal God Realm. Her talent is limitless, and after marrying her for so many years, even if they are human beings, she should still be on her side.

"Liu Ji?"

Long Chen really did not expect this.

He knew that Liu Ji was the seventh most powerful member of the Sea Clan, an existence that was close to six Ocean Emperors. She was one of the strongest experts of her father's generation, even more tyrannical than the current Jiang Ming and Long Haoge. They were extremely famous in the Sea race.

The Magic Blue Clan's poison tyrant was an extremely dangerous figure.

Chen Xingyao said that he was married here, but he didn't say who his wife was. He didn't expect her to be this Liu Ji. After all, he was an outsider, and Liu Ji's identity was so high, Long Chen never thought that Liu Ji would actually marry him.

If that was the case, then it was even more impossible to get close to Chen Xingyao because he was a human being. In any case, they had to move further away from him.

Now was the time when the Sea Clan was watching him the most closely and Long Chen still hadn't had the chance to attack. He didn't even know where the Three Lives Holy Stone and the Causality Holy Stone were.

The next day, Chen Xingyao came again.

He said: "Long Chen, the number one Ocean Emperor has invited you to the Sea Clan's' Heaven Dance Palace 'for a chat."

"Hmm?"

The Sea Divine Emperor's movements are really fast. It's only the second day, yet he can't help but continue probing? Or perhaps there were other methods.

"Follow me." Chen Xingyao said with a smile.

Just as Long Chen and Ling Xi were ready, Chen Xingyao said: "I don't think we can invite Miss Ling Xi. If you're worried, we can let her enter your Divine Kingdom."

Long Chen's eyes narrowed. He couldn't even do it, it seemed like the other party was going to make a move, he just didn't know what methods they used. However, he would be most at ease if he let Ling Xi stay in the God Kingdom, so he did as Chen Xingyao suggested.

"Please."

Chen Xingyao led the way.

As they walked, Long Chen asked, "What do you mean by that, Sea Divine Emperor? He clearly knows that we are husband and wife, but he has only invited me?"

Chen Xing Yao laughed, "You are nervous too. The Sea Clan loves music and dance, especially dancing to the music. They are a type of training, so this time, the Sea Divine Emperor is inviting you to watch a total of 'Dancing Queen' of the Sea Clan dance. I am afraid it will be more alluring, so I am worried that Miss Ling Xi may not be happy. "

"Emperor Wu?"

Long Chen knew that this was a way for Sea Clan Rankers to play and entertain themselves.

Was it just an invitation to have fun? It definitely won't be that simple.

"Who's this Emperor Wu?"

Chen Xingyao smiled and said, "That's my wife."

It turned out to be the mysterious Liu Ji. The Magic Blue Clan was the sole ruler of the world, and had over a hundred top poisons, which were extremely difficult to deal with. If the opponent had a killing move today, then it should have come from this Liu Ji.

"Her name is Liu Ji, you should know that." Chen Xing said.

He seemed to have long understood that Long Chen would contact Dragon Devouring City and ask about his background.

"To be able to marry such a capable wife, it only proves that you have even more ability." Long Chen complimented. Soon, they arrived at their destination.

When they were nearing their destination, Chen Xingyao suddenly looked forward, and said to Long Chen cautiously and carefully, "Liu Ji wants to use the 'Sky Eye Attacking Heart Poison'. While she's dancing, it's best if you don't look at her carefully."

Long Chen's heart was moved.

If the other party was willing to remind him of this, then wouldn't that mean that he was on his side? Did she want to remember what he said?

If his warning was part of his opponent's trap, what would he do?

At this time, Chen Xingyao no longer had the chance to talk to him, because the location was already here. If he continued to remind him, then maybe he wouldn't be able to escape the ears of the Sea Divine Emperor.

"I wish you a pleasant journey. I'll wait for you outside. "

Chen Xingyao took two steps back.

In front of them was a magnificent palace, called the Dancing Sky Palace.

Long Chen thought: "Whether or not he really wants to help me, we'll know after we enter. the Sky Eye Attack Heart Poison? "

Although they had never heard of it before, their goal was to figure out their purpose for coming here. It should be to cause dizziness or to have their body controlled or some other type of medicine.

The Magic Blue Clan was a poison tyrant of the Sea Clan, especially Liu Ji, who had released a poison that was now known as the number one poison in the world.

Among them, the Sea Divine Emperor was already seated in the most central position, and he was the only person sitting in the entire Tian Wu Palace. When Long Chen was walking, he was completely silent, and very quickly arrived before his eyes.

"Sit." Sea Divine Emperor said to Long Chen as he waved his hands.

"Thank you very much."

Long Chen sat down next to him, extremely close to this Ranker. The Sea Divine Emperor was the strongest amongst the Sea Clan, with extraordinary powers and statuses, and was a true Overlord.

After all, Long Chen was still far from being a match for him.

It was a very dangerous feeling.

The danger came from the Sea Divine Emperor, and it also came from the stage ahead.

What Long Chen saw was that there was an extremely enchanting woman on the stage, covered by a golden cocoon of light. Although it was not clear what she looked like, but this woman's body was

emitting an extreme temptation that could not be described with words, displaying a woman's beauty to the extreme.

"Wearing so little is really annoying. Brother Chen, you are not allowed to look ..."

Ling Xi said angrily.

Long Chen laughed involuntarily, but what she said was right, all the illusions and attacks came from Liu Ji, he had to be extremely careful of her. There was a possibility that Chen Xingyao truly wanted to help him.

"This is the Dancing Emperor of our Sea Clan, Liu Ji. She has a stunning dance that can be called the number one dance in the Immortal God Realm. There is no one else in the world who has a more perfect body and dance than her. She is the number one beauty of our Sea Clan. From the day she was born, no one else has been able to surpass her in terms of looks and figure. "

"For the Sea Divine Emperor to have such praise, he must be the best in the world. It is also my good fortune to be able to see you again today. "

Long Chen said calmly.

"Haha, that's not enough, but even if it's me, it's still very difficult to see her dance. Today, when she heard that the son of the Eternal Dragon Emperor had come to our Sea Clan, she felt reverence for him, so she wanted to give you a dance to show her respect and admiration.

Everyone who was familiar with the Sea Divine Emperor knew that he was actually a cold-faced killer who would usually silently kill people without a sound. There were not many people who would be able to rouse his enthusiasm.

Right at this moment, in a beautiful environment and atmosphere, the golden cocoon of light on the stage gradually split open, as if it was a butterfly breaking out of its cocoon. When the golden light dissipated, a beautiful woman appeared from within.

Her slim waist, thin hands, red lips, eyes, skin, every part of her body, every single part of her body had an extremely fatal magic power, especially her eyes, which contained myriad of flirtatious emotions. No matter how her dancing posture changed, her charming eyes never left Long Chen's.

Long Chen had to admit that to be able to turn dancing into an attack and to use poison, Liu Ji's skills had undoubtedly reached the pinnacle. Perhaps in the entire Immortal God Region, no one could surpass her.

Music, dance posture, the stage seemed to have wind, snow, and moon, while Liu Ji was dancing in the middle, like a dream or fantasy. Her mesmerising eyes, snake like twisting waist, full of allure, like a vortex, all attracted the eyes of the men. There was no doubt that this was the person that was most fitting for her to be called a 'exceptional beauty' that the women of the world would not even be able to compare to.

But with Chen Xingyao's reminder, Long Chen only needed to take a glance before emerging from the whirlpool.

"Don't look! "You're not allowed to look!"

In the God Nation, Ling Xi was also constantly shouting. Firstly, she was afraid that Long Chen would be poisoned, and secondly, she herself was very annoying.

"Wonderful, truly wonderful! I am so envious of Chen Xingyao. To think that he would actually be able to win over such a beauty's heart. " The Sea Divine Emperor's hot eyes continuously swiveled around. Long Chen glanced at him and was a little suspicious in his heart.

He could roughly tell that there was no appreciation in the Sea Divine Emperor's eyes, only lust for possession. However, he was not anxious, as if this woman was already in his grasp.

"With his status, if he really wanted this woman, there shouldn't be a need for him to be envious of Chen Xingyao, right? Furthermore, the combination between Chen Xingyao and Liu Ji was extremely strange. Could it be ...

Sometimes, a single glance could really convey a lot of information.

Therefore, Long Chen was sure that Chen Xingyao had not deceived him this time. Furthermore, in the Sea Clan, Chen Xingyao must not be as good as he appeared to be, to have a wife that everyone admired.
