

## War God 2361

### Chapter 2361 - God Eroding Poison

When the Three Lives Secret Realm opened, the six great Ocean Emperors brought dozens of people in, went through a series of past lives and current lives' worth of stones before finally arriving at this ice palace. After going through layers and layers of elimination, in the end, it became a showdown between Long Chen and Liu Ji.

This time, Long Chen would naturally try his best to defeat the opponent.

Firstly, she had blocked his path of obtaining the divine way's heart dragon essence blood. This was the last enemy he would face on this trip to the Sea God's Domain.

Secondly, it was because of Liu Ji's instigation that the Sea Divine Emperor had resolved to kill him. That time, Long Chen had almost fallen into an irreparable situation.

A woman like Liu Ji, being able to kill her own mother, Emperor Xi Yao, and Divine Emperor Hai, now that Long Chen had seen her have three lifetimes of love, she would definitely not let Long Chen live.

Therefore, it was not over until one of them died.

Very few women were able to reach Liu Ji's level!

She had attacked viciously, to the point where she had surpassed the majority of men. In the end, even the Sea Divine Emperor had been tricked by her, showing just how terrifying she was.

At first, Long Chen never thought that she would be the last enemy.

Perhaps Liu Ji did not know that Long Chen had already become different from the last time they fought. The Three Lives Secret Realm gave him a gift at the critical moment, and that the Sky Origin Qi allowed him to quickly reach the late stage of the Six Paths of Reincarnation, nearing the Seven Stars Tribulation.

Although he was not at the peak of Dragon Emperor and the Ocean Emperor, he was very confident that he could take care of Liu Ji.

The only thing she was afraid of was her poison and her love for three lifetimes!

Right at this moment, Liu Ji had turned into her original form in front of him in this ice hall. At this moment, Liu Ji had turned into her original form in this ice hall in front of him in this ice hall.

Facing a woman like Liu Ji, who did not do anything, Long Chen still had to protect Ling Xi. Therefore, when the other party activated the dragon pattern, he also turned into a dragon. The Primordial Blood Spirit Dragon's body was also around the same size as the other party's.

Ling Xi was at the side of his dragon head, the fire of her life surrounded her, preventing her from being affected by the poison mist. This was the safest place on Long Chen's body.

The divine dragon was soaring through the ice palace!

Long Chen's transformation into a dragon caused the golden and black colored 'egg' on the Causality Holy Stone to tremble slightly. It was obvious that this egg was related to dragons!

This sea serpent was extremely slender, there were two different colors on its body, black and blue. The two colors were ringed, blue and black, and from its head to its tail, they were linked with each other, looking extremely magnificent. From start to end, every part of its body seemed perfect.

The majority of the Magic Blue Tribes were beauties, and Liu Ji was the pinnacle of beauty.

Of course, it was the most poisonous one.

When facing Long Chen's Primordial Blood Spirit Dragon, the Magic Blue Snake could still use that sinister gaze to face it without the slightest trace of fear!

On the contrary, it gave Long Chen a cold and gloomy feeling.

The two giant beasts quickly began their final battle within the ice palace!

Now, in terms of power, Long Chen should be stronger than her. From the very beginning, he had already suppressed Liu Ji's Magic Blue Snake.

However, Liu Ji was not good at strength.

What she was good at was poison!

In the midst of their confrontation, a blue ray of light attacked from the darkness, drilling into Long Chen's body.

It was Blue Demon!

Once a Blue Demon entered her body, her life would basically have to be controlled by Liu Ji. This Blue Demon was one of her killing moves. However, she was able to directly display it at the start of the battle!

"Be careful!"

Ling Xi discovered that tiny Blue Demon.

Long Chen had also discovered it. Dozens of Blood Weeping Dragon souls suddenly shot out from his body, rushing down towards the massacring dragon. Lan Mei did not have much strength to resist outside of her body, and was directly torn to shreds by the Blood Weeping Dragon's soul!

However, from the beginning to end, Liu Ji's expression did not change!

At this time, the blue ghost exploded, filling the sky with a blood-red light. As the surrounding slaughter dragons were touched by the blue blood, their flesh and blood was instantly incinerated, turning into ashes!

The blue blood was surprisingly much thicker as it came gushing towards Long Chen like a torrential downpour.

Just as all the blue colored rain was about to fall on Long Chen's body.

The Magic Blue Clan's killing move was like this. Poison was what they excelled in the most!

However, it was merely a Blue Demon, Long Chen had many ways to deal with it. He couldn't dodge it, and he couldn't dodge it either, but he could use one of them to force the blue rain of blood back, and even fall towards Liu Ji!

All the poison that had appeared in front of him had returned!

The Magic Blue Serpent let out a series of sharp hisses, its bright red tongue kept on extending, piercing towards Long Chen like a blade!

In a fight with such an opponent, Long Chen had no way to fight head on with him, he could only be cautious and look for an opportunity to kill his opponent!

"Are you afraid? The poison of the Blue Demon was only child's play. Next, I'll show you the true poison of my Magic Blue Race! Soul Corrosion! "

This was the God Eroding Poison!

This kind of poison came from the black part of her body which was one of the two colors on her body. Right at this moment, the black color on her body suddenly turned into liquid, surrounding the blue part completely, turning the entire magic blue snake into a pure 'poisonous snake' in front of Long Chen's eyes!

There was only black poison left all over his body!

He could freely change any shape of his body. Beneath him, even the ice palace within the Three Lives Secret Realm emitted a sizzling sound, emitting endless smoke!

When the Magic Blue Clan unleashed the two great poisons known as the 'God Slaughtering Poison', especially Liu Ji, even the six great Ocean Emperors didn't dare to get close to them. This was because

even the six great Ocean Emperors wouldn't be able to completely resist the poison once they came into contact with it, let alone cause their flesh and blood to be corroded!

It was said that the God Eroding Poison could corrode all living beings. If one was poisoned with enough God Eroding Poison, even Spirit King would die.

The God Eroding Poison was aimed at the body, and was sufficient to cause the body to be destroyed.

The venom had converged into a snake because of Liu Ji's body. She wandered around in the middle of the ice palace, surrounded Long Chen, and then quickly attacked without mercy.

Even from a distance, the smell of the God Eroding Poison was enough to make Long Chen feel uncomfortable.

However, he had the fire of life.

The flame of life could allow him to isolate these things.

When the God Eroding Poison came crashing over, the flames of life ignited on Long Chen's body. In reality, in the face of the venom, as long as he could resist the flames of life, there wouldn't be any problems at all.

Of course, there was also a counterattack!

**BOOM!**

The venom that filled the air struck Long Chen's body, as though countless black blades were about to break through the flames of life and drilled into his body, it was extremely berserk!

This was the first time the Magic Blue Snake had attacked him. Although Long Chen had been hit, he quickly stabilized.

"Go to hell!"

Liu Ji's entire body was entangled with his, countless God Eroding Poison surging towards his body!

"Is that all?"

To Liu Ji, the attribute of the fire of life was like a bane. As long as he could block her poison, it wouldn't be difficult for him to defeat her.

Long Chen released the power of fourteen sacrifices from his dragon claws and mouth. The sun, moon, stars, and wind, thunder and lightning all exploded together, blasting the body of the Magic Blue Snake in such a close distance, and sent it flying!

Liu Ji screamed miserably and crashed into the ground, restoring her blue and black snake form.

A large amount of God Eroding Poison still stuck onto Long Chen's body, turning into countless little black snakes that drilled into Long Chen's body without care for his life. Some of them even broke through the flames of life and charged into Long Chen's body, the poison that could directly penetrate his scales and corrode his flesh!

The God Eroding Poison was indeed extraordinary.

If there was no fire of life, it would not be easy to deal with Liu Ji.

After all, there was a small amount of God Eroding Poison that had entered his body today. Under the internal burning of the life flame, it was quickly cleansed, and the other God Eroding Poison outside his body was also extinguished by Long Chen!

Liu Ji's venom attack this time, could be considered a complete failure. Under Long Chen's Fourteenth Sacrifice, she too suffered a certain amount of injuries.

When Long Chen finished curing the God Eroding Poison, the Magic Blue Snake was scared. It stared at Long Chen with its sinister eyes, but there was only killing intent.

"Your flame is truly marvelous. If you didn't have it, ten thousand of you wouldn't even be a match for me."

Liu Ji said with incomparable confidence.

"So you're out of tricks, aren't you?"

Long Chen approached her again. In reality, as long as he could resist her poison, he had the absolute advantage. However, he did not dare to attack her, because his Three Lives Love Threads were indeed something that made people worry. If not for the God Realm's Heart Refining Dragon's inherited blood essence, Long Chen reckoned that all of his attention would have been on this Three Lives Silk.

The devilish blue snake lowered its head. Its body was coiled up and its flesh was taut. It was most likely preparing a new attack.

"Flame?"

When the God Eroding Poison couldn't be used as it should have been, Liu Ji wasn't scared. Although she had suffered a certain amount of injuries, she still had a greater chance of winning!

That was an even stronger poison than the Corrosive God's poison!

The magic blue snake had the water and fire poisons that could kill gods.

The water poison was called 'Spirit Corrosion'.

As for fire poison, it was called Soul Igniting!

Soul Igniting! It was the blue color that came from her body!

Right at this moment, her bent body shot towards Long Chen like an arrow that had just left the bow!

The blue colored snake of poison that was previously black turned into a blue colored flame serpent in the blink of an eye. That deep blue colored snake of flame looked extremely similar to the flames of life on Long Chen's body!

However, they were both life forms and deadly poisons!

Water poison corrodes the god, corrodes the body.

Fire Poison Soul Ignition, Burning Primordial Spirit!

This giant flaming snake gave Long Chen the feeling that a Great Void Cosmic Dragon could directly face it, and even fire of his life might not be able to block it!

Chapter 2362 - Soul Igniting Poison

It was obvious that the Soul Igniting Poison was aimed at the primordial spirit. Moreover, the resistance that the life flame could provide should not be too great.

To Long Chen, the Soul Igniting Poison should be countless times more difficult to deal with than the Soul Corroding Poison. After all, this type of poisonous flame was rather special. It wasn't the body that was affected, but the Primal.

In fact, to use these two God Slaughtering Poison to this degree, in the entire demon clan, only Liu Ji could do it.

Weng! \*

At this moment, the huge snake with blue flames and the divine dragon with green flames collided with each other.

Swoosh swoosh!

The two types of flames didn't create too much noise when they collided with each other. This was because these two types of flames didn't have a scorching or offensive nature. The flame of the Life Fire was only a manifestation of time and could transform into water, wind, and so on.

The Soul Igniting Poison was only a type of poison.

The blue and green flames blended together, colliding with each other!

Compared to the Corrosive God's Poison, the Soul Burning Poison easily seeped into Long Chen's body and directly pounced towards Long Chen's primordial spirit. After the flames entered Long Chen's

consciousness, they turned into millions upon millions of blue poisonous snakes, tearing towards the Great Void Cosmic Dragon's primordial spirit to bite it!

As for the others, even if they had the same strength as Long Chen, there was basically no way for them to survive after their sea of consciousness was invaded by the Soul Burning Poison. The Soul Burning Poison could consume their primordial spirit in a short period of time, causing them to die.

Over the years, Liu Ji had reaped countless lives with this Soul Igniting Poison.

Until today, there weren't many people who could make her use this Soul Igniting Poison.

From the looks of this battle, she did not use her true strength back then. If that was the case, Long Chen might not have been able to win.

But it was different now, he had already reached the late stage of six tribulation of reincarnation.

The increase in realm had spurred the growth of three kinds of Ancestral Dragons, including the growth of the Great Void Cosmic Dragon Primordial Spirit.

This was a battle of wills!

When the Soul Igniting Poison had invaded Long Chen's sea of consciousness, Long Chen's Ten Thousand Deadly Claw had also pierced into his body. Although she looked like a giant flaming snake on the outside, and seemed like his body was covered in flames, in reality, her flesh and blood was still there.

As long as it existed, the Myriad Death Claw would be able to display its terrifying effects.

Right now, the dragon and snake were entangled together. They were gambling, betting on who could last longer, on who would die first!

Now, tens of thousands of small blue snakes directly collided with the Great Void Cosmic Dragon's primordial spirit. This Soul Igniting Poison was extremely brutal, as it bit into the Great Void Cosmic Dragon's primordial spirit, causing Long Chen a certain degree of injury!

The pain of a Primal was even more unbearable than the pain of a physical body.

The poison of the Burning Soul, directly injured Long Chen's primordial spirit, and his entire being was in an almost dazed state.

However, his Ten Thousand Deadly Claw had also pierced into the opponent's body.

If he wanted to win, he had to be more patient and ruthless than the other party!

Liu Ji was a very fierce woman. She was not as good as Emperor Xlao Yao and Divine Emperor Hai, but she killed both of them.

But Long Chen was also one of the best.

However, he never expected that Ling Xi, who had always been ignored, would actually help out at this time. She used the Imperial Sword Technique and pierced her butterfly illusion sword into the eyes of the Magic Blue Snake, who was just inches away from her. This accident made the Magic Blue Snake let out a cry of pain.

At this time, Long Chen held back the pain in his Primordial Spirit and used a lot of strength in his body. The Ten Thousand Deadly Claw almost tore the Magic Blue Snake into two!

Rip!

Long Chen threw the magic blue snake flying, and smashed it ruthlessly onto the ground.

The Soul Igniting Poison did not leave with them, but the primordial spirit of the Great Void Cosmic Dragon was not weak either. Without any supply, those little blue snakes were quickly annihilated.

However, Liu Ji wouldn't be so lucky after being hit by the Myriad Death Claw. The power of the Primordial Blood Spirit Dragon's Fury of the Myriad Death Claw was hidden within her body, bringing her serious injuries and pain!

This attack, was practically torn apart by Long Chen.

Right now she was sprawled on the ground, her entire body drenched in blood, her huge snake tail wriggling, one eye bleeding, the other eye staring straight at Long Chen, the wounds caused by Death Claw were not going to be healed that easily.

To be honest, the soul immolation poison had also caused Long Chen to still be in a slightly unconscious state, but it couldn't be denied that his primordial spirit was extremely strong, and the other party's soul immolation poison had a limited effect, making it difficult to actually kill him.

In the end, Liu Ji fell onto the ground and struggled. On the other hand, Long Chen still had his full strength, the difference between the two was extremely obvious.

To Liu Ji, Long Chen was his nemesis!

In any aspect, he was superior to her. At the same time, he was also able to resist her two lethal poisons!

She lost!

When Long Chen's Divine Dragon Body descended on his opponent's head, he was naturally afraid of her, so he did not go too close. Liu Ji was a crafty and insidious person, and only by killing her would Long Chen be able to peacefully look at the Causative Holy Stone.

"Heh heh."

At this time, the Magic Blue Snake's blood had already dyed the ground, but she couldn't help but laugh, her voice was somewhat hair-raising.

"I am truly laughable. Okay, undeniably, I don't seem to be a match for you anymore. It seems that in this little period of time since you disappeared, your strength has once again made a great breakthrough."

Before the battle, Liu Ji didn't believe that she would lose to him even if she had to use her poison arts.

"Now that I believe you, it's no wonder that Silverymoon is so afraid of you." He really deserves to be afraid. "

She once again transformed from a Magic Blue Snake into a human, lying at Long Chen's feet. Similarly, her entire body was covered in blood, and the Ten Thousand Deadly Claw was still destroying her body.

"It's very scary! But I don't feel like you're that noble. You look perfect right now, but there will be a day when you become like Silver Crescent and become like any other man. It'll be no different from being a normal man in this world, or just Chen Xingyao. "

It seemed that she rather acknowledged Chen Xingyao.

Of course, this sort of approval wouldn't let her spare Chen Xingyao's life.

"But you killed him!"

Long Chen had also transformed into his human form, if the other party had not mentioned this, he would not be so angry, the death of Chen Xingyao and his wife was closely related to her!

"Long Chen, it's a pity that you came here!"

As expected, she had not admitted defeat. From start to finish, she did not feel that if she defeated Emperor Xi Yao and the Sea Divine Emperor, she would fall on Long Chen's hands.

"Your mistake was that you were a step too slow. You didn't manage to get your Three Lives Love Silk first! You simply cannot imagine just how powerful it is! "

Liu Ji's eyes were bloodshot as she giggled, appearing to be crazy.

Long Chen watched with his own eyes as it imprisoned the Sea Divine Emperor and even the Sea Divine Emperor was unable to move. If he was imprisoned, Liu Ji would probably be able to easily throw him into the bottomless pit.

At this time, he took on the shape of a human and stood together with Ling Xi. Facing Liu Ji and his Three Lives Love Silk, he did not have a single trace of fear on his face. Let me see the power of Three Lives Love Silk! "

Liu Ji's eyes were blood-red as she stared at the Three Lives Love Silk in her hands. She was trying to channel her power into the love of three lifetimes. She had succeeded, and it seemed as if the Three Lives Love Silk was being controlled by her. It was as if she herself, like a snake, was gently swaying in her hands.

It drew a perfect curve.

's contempt caused her to feel even more resentment. She finally realized that she could communicate with her love for three lifetimes.

"You will regret it!"

Liu Ji could not help but sneer.

A woman as beautiful as her was like a sneer. She was also so moving and filled with boundless temptation.

She wanted to see even that little bit of daydreaming about herself in Long Chen's eyes.

However, it did not exist.

"Be obedient and let these Three Lives Silk take control of you!"

She activated the Three Lives Love Thread and continuously urged it to trap Long Chen. The Three Lives Love Thread really moved and shot towards Long Chen, and finally landed in Long Chen's hands.

That was Liu Ji's last resort.

However, when she saw that Three Lives Love Threads finally land in Long Chen's hands and weakly hang down, her eyes went round, as if the entire world had collapsed. At that time, her mind was blank, and the sneer on her lips was frozen in place, making her look like a perfect joke.

Finally, she fell to her knees, hands on her hips, trembling all over. He mumbled, "Why? "Why?"

Three Lives Love Silk was such a terrifying thing, why was Long Chen not doing anything? Not afraid at all?

From this name, even though it did not belong to the Sea Divine Emperor, it did not belong to Liu Ji either. Instead, it belonged to two people.

Two people who had passed all the tests.

When Liu Ji had taken out her Three Lives Love Silk, he had felt the kindness of this thing towards him. At that time, he knew that this thing belonged to him, but Liu Ji had temporarily taken over it. Let it think that Liu Ji was the one it had to wait for.

When someone more suitable appears, it returns to the real owner.

All of this was what Liu Ji wanted to know.

But Long Chen would not tell her.

She didn't deserve to know.

"The Sea Divine Emperor is waiting for you!"

Long Chen was still unable to use these Three Lives Love Silk, so its uses shouldn't be to imprison him.

Having lost her love for him for three lifetimes, Liu Ji no longer had the power to resist in front of Long Chen.

When Long Chen threw her towards the disc, it cracked open. Seeing that she was about to fall down, she suddenly woke up and begged, "You should just kill me."

Going down would be a terrifying torture.

But Long Chen was a person who was different from her. He hated this woman, but he did not have any interest in torturing her.

Therefore, the God-Slaying Sword appeared in her hands.

Liu Ji was still heavily injured. She closed her eyes, but when Long Chen made his move, she immediately opened it and asked anxiously: "I want to know, why did I lose?"

"You lost to yourself."

If she hadn't turned herself into this, no family, no love, only desire and madness, her fate wouldn't have been like this today.

Thus, she lost to him.

Those that should be killed, Long Chen would not forgive them because of her pity.

There were so many people in this world, there was no lack of Liu Ji.

Chapter 2363 - The Wonderful Use of Three Lives of Silk of Love

Liu Ji calculated everything but missed out Long Chen.

Just as Long Chen had said, even if the little snake in the middle of the ice palace was the ancestor of her Demon Blue Clan, she would only take some advantage of it.

Because the Three Lives Secret Realm was a loyal, passionate, and tenacious person, Liu Ji and the Sea Divine Emperor were not such people. Therefore, they were destined to fail from the very beginning.

It was because of these that she had lost, lost, lost all hope, and been killed by Long Chen.

She was once one of the most talented experts in Long Chen's father's generation that was closest to the Eternal Dragon Emperor.

When Liu Ji died in pain and despair, the ice palace could be said to have completely quieted down.

To Long Chen and Yue Yang, reaching the end was just like a dream. There were six great Ocean Emperors who had completely suppressed him from the start, and this place was indeed under the control of their Sea Clan.

Of course, the most precious person was still the woman holding his hand.

After experiencing this, they understood even more clearly what life and death were together.

The two of them looked at each other and smiled. Their smiles were filled with deep feelings and a thousand words. Just a glance was enough.

"Come here and take a look at the Causality Holy Stone."

Long Chen held those Three Lives Love Threads in his hands. There were three of them in total, and they represented his previous life, his current life, and his next life. He walked up to the Causality Holy Stone, and when he got closer, even the Dragon Jade Dao Seal above the Great Void Cosmic Dragon Primordial Spirit seemed to have reacted, revealing black and gold light, just like the light emitted by the dragon egg inside the Causality Holy Stone.

The Karma Stone seemed to have come to life.

As expected, there should be the fourth kind of ancestral dragon's inherited blood essence that Long Chen had seen hidden here.

Every time he inherited the ancestral dragon's blood essence, it would bring him a huge transformation.

The Primordial Blood Spirit Dragon, Great Void Cosmic Dragon, and Taiji Creature Dragon had arrived at the God Dao's Heart Refining Dragon.

An ordinary person could only inherit one kind of inherited blood essence, but with the suppression from the Dragon Jade Dao Seal, he had already inherited the blood essence of three kinds of Ancestral Dragons, so there were no conflicts right now.

Instead, they blended together and blended together in bliss.

From this, it could be seen just how terrifying this Mysterious Dragon Jade was. Even after obtaining the inheritance blood essence of the Enlightenment God Dao's Heart Refining Dragon, Long Chen knew clearly in his heart that the most precious thing in his possession was still this Dragon Jade Dao Seal. In the future, he believed that he would one day uncover this thing's mysterious veil.

That must be the most precious thing in the entire Dragon Sacrifice World.

The slaughter of the body, the primordial spirit and the Great Void, as well as the life forms of the Divine Kingdom, where would this heart dragon inherit his inherited blood essence to?

Other than his physical body, Primordial Spirit and Divine Kingdom, Long Chen could no longer imagine that there was anything else on his body.

But now, he could roughly guess that it was actually related to Long Qinglan's plans. He also wanted to see, if the day came when he gathered the inherited blood of ten Ancestral Dragons, what kind of miraculous thing would happen?

However, the problem now was how to break through this ice stone in order to obtain the divine way heart dragon's inherited blood essence.

Previously, Liu Ji didn't seem to have found a way either.

Of course, she thought this was a way out.

Long Chen stretched out a hand and placed it lightly on the ice stone. He did not feel cold, but warm, but what he couldn't deny was that if he used force, it would be impossible to break this thing apart.

"Would it be necessary to use these Three Lives Silk? According to the rules of the Three Lives Secret Realm, only those who have obtained Three Lives Love Silk should be able to make it to this place. "

Ling Xi stood at the side, her big intelligent eyes examining the Causative Holy Stone.

"That makes sense."

Although it was not a Dao item, it should be worth more than many other Dao items. After all, this was something left behind by the Dao of the Gods, the Heart Refining Dragon.

He held the Three Lives Love Silk in his hand, and his mind was all-pervasive. He wanted to see if he could make contact with it. It was a mysterious thing, unlike a Dao Artifact that could recognize its master. Whether it could be moved or not would depend on its mood ...

However, what surprised Long Chen was that, the first time he touched these Three Lives Love Silk, he already obtained one of its uses. It should be the first usage method, but what surprised him was that these Three Lives Silk actually did not belong to him.

and instead belonged to both him and Ling Xi.

He needed two people to be able to display the true power of Three Lives Silk.

"Three lifetimes of love, two swords in unison. So that's what it means."

These were the words he had seen under the ice sculptures before. It was only after he had obtained the new secret method that Long Chen remembered these words. Liu Ji and the others had probably forgotten about it long ago.

"What do you mean?"

Ling Xi asked curiously.

Long Chen said: "In short, these Three Lives Love Threads are able to link us all together, and all of our powers converge and fuse together. Although you are currently much weaker than me, when you use the Three Lives Love Silk to communicate with me, the fact that you are able to unleash the power that we have in common is almost equivalent to me having a tyrannical doppelgänger, and the Three Lives

Love Silk is also able to accelerate the recovery of our powers through the reconciliation of Yin and Yang."

This was already quite heaven defying.

Long Chen knew that this kind of thing, its function was not just simply to bind people.

"You must be joking!"

Ling Xi was a little taken aback. Although Long Chen spoke simply, she could more or less understand that her Goddess Su's blood itself had the ability to reconcile the Yin and Yang with Long Chen, and could complement each other. Furthermore, Three Lives Love Silk had linked them together, enlarging this effect, allowing them to complement each other even faster.

To be honest, Long Chen found it hard to believe from the beginning.

Li Xuanji turned into a Yin Mo and became a part of his body. This was born from a miracle, but the Three Lives Love Silk was clearly stronger. It was able to allow Long Chen and Ling Xi to fuse together to an even higher degree, allowing them to unleash a common power.

Of course, only when all three of his emotions were linked together would there be such an effect.

"Do you know how these Three Lives Silk came about?"

Long Chen's heart was still in deep shock.

Ling Xi shook her head.

He should have been able to connect it with another weak creature, allowing it to use its own strength. Such a weak creature should be the ancestor of the Demon Blue Clan, or perhaps that high and mighty Ancestral Dragon fell in love with a weak and insignificant little snake, which is why the Three Lives God Stone was born. Although I don't know what exactly happened to the Three Lives Secret Realm, it should be a beautiful love story, what do you think?

"So romantic?"

As a woman, Ling Xi liked to hear stories like this the most.

Of course, most of these were just Long Chen's guesses.

Judging from the way the dragon and snake snuggled together on the ice sculpture, it should be pretty close.

At this time, Long Chen's gaze fell onto the ice rock from the Three Lives Love Threads, and said: "We must first use these Three Lives Love Threads to link us together, and then display an attack called the 'Three Lives Calamity', and break this ice rock apart to obtain the thing inside — — the divine way's Heart Refining Dragon's inherited blood essence."

"Three Tribulations of Life and Death?" "Is it very strong?"

Long Chen laughed and said: "Think about it, Three Lives Love Silk has gathered all of our powers together, making us use the same level of strength. After that, the two of us will work together to complete this move that came from the Ancestral Dragon, I think the power it produces will definitely be much stronger than my Ten Thousand Deadly Claws. Perhaps from today onwards, this 'Three Lives Calamity' will become the strongest killing move of our generation, and with our current level, even the Ocean Emperor and the Dragon Emperor would be afraid of it!"

"So powerful!"

Ling Xi had long wanted to help Long Chen.

Sansheng's clarity gave her hope.

It was so much so that when she became even more powerful in the future, the power she brought to both of them would increase by leaps and bounds. Just imagine, if Ling Xi was already not too far away from Long Chen at this time, and if they used three lifetimes of love, how terrifying would it be?

The two of them couldn't wait to try.

By connecting the two of them together, the two of them became one.

A person, yet he had two methods of attack. This was the true combination of two swords. Ling Xi had a strong power to support him, and she could even perform the unimaginable Sector lord Divine Arts.

Currently, they were sitting cross-legged on the ground, facing each other. There was a distance of five meters between them.

Under Long Chen's control, the three silk threads floated in the air. First, one end extended towards Long Chen, aiming at his chest and heart.

After that, at a certain moment, it emitted a faint radiance and instantly pierced Long Chen's body, and stabbed into his heart, entangled him. This process had a bit of numbness and a bit of pain, but it was like love, both bitter and sweet.

Long Chen realized that he seemed to have been grabbed by a single hand.

Then, the other side of the Three Lives Love Silk extended towards Ling Xi, who had already made her preparations.

"Whiz!"

Three Lives Silk pierced in and completely entangled the two of them. After that, it turned into a faint ray of light and disappeared. But it was still there. Long Chen could clearly feel its existence, it was just that no one could see it.

At this moment, there were many miraculous changes.

He had already thoroughly connected himself with Ling Xi, and compared to the fusion on the bed, this type of fusion was even deeper.

At this moment, he realized that Ling Xi's body, was just like his own ...

He could even manipulate his emotions to a certain degree through his Three Lives Love Silk.

For Ling Xi, it was the same.

Under the link of three lifetimes of love, they had truly reached a state where they could not distinguish each other.

After that, it was a fusion of power.

In terms of power, Ling Xi was a lot weaker than her, but she had made use of the goddess' blood when she made use of the Three Lives Love Silk. The Three Lives Love Silk was like the meridians in their bodies, being able to directly transfer the power of both of them from Long Chen's body to Ling Xi's body, allowing the power of both of them to completely fuse together, causing the power in Long Chen's body to become even more majestic, and also allowing Ling Xi to possess an unprecedented terrifying power!

At this moment, they were one entity!

#### Chapter 2364 - The Good and the Bad

Overall, there was no change in the amount of power the two of them had. It was just that they blended and complemented each other.

However, due to the relationship between him and the blood of the Goddess, every time he exhausted his energy, his recovery would be much faster than when he was by himself. As a result, one power could easily be used by two people. Although Ling Xi would be in a state of confusion for a period of time, with problems in control, as long as she could do it well, the help that she could provide Long Chen would be hard to imagine.

Three Lives Love had actually already fused them together into one person, and it was a perfect fusion. That was something personally made by the God Realm's Heart Refining Dragon. The Heart Refining Dragon of the God Dao could make the ancestor of the Demon Blue Clan use his power, so Ling Xi could use Long Chen's power.

The difference between a 'heart dragon' of the Dao of the Gods and a 'little snake' was definitely even greater.

The Three Lives Love Silk was something that no outsider could sense. In fact, other people couldn't even sense the existence of the Three Lives Love Silk, and didn't know that they were already connected. In the eyes of outsiders, they were sitting facing each other, as if there were no problems.

Those with higher cultivation bases might be able to sense that they all had the same level of strength.

However, the connection between the Three Lives Love Silk and the Three Lives Love Silk was a drain on his spirit. He should only use it during combat. Ling Xi did not soar to the skies in a single leap either, as he needed to improve himself even more. Only by doing so would he be able to borrow the strength of three lifetimes of love to help Long Chen to a greater extent.

Of course, she could learn even more advanced Sector lord Divine Arts in advance.

However, the most important thing right now was still to train in the Three Lives Calamity.

The Tribulations of Life and Death could be formed from fists, palms, or fingers, or from swords, spears, swords, or halberds. Three lifetimes of love gave the original form of the sword, which was probably related to the sword on the forehead of the heart dragon of the divine way.

Coincidentally, Long Chen had a God-Slaying Sword, while Ling Xi had a Butterfly Illusory Sword made from the fusion of two new and old stellar nucleus. There were also more than seven hundred Dao patterns. When the Three Lives Silk was entangled, Ling Xi could basically use all of the strength of the stellar nucleus.

Eighty percent of the Su Goddess' blood and Long Chen's usual nourishment allowed her body to be strong enough to withstand the power.

Of course, it was also because the power itself was no different from her own. With Long Chen's control, there wouldn't be any riots, which was why she could freely control it now.

Long Chen gave her a period of time to get used to it.

Ling Xi was a very perceptive person, with Long Chen's help to control her, she could roughly use them before long. It was obvious that she was extremely happy. She had always hoped to be able to help Long Chen, and these three lifetimes of love had helped her a lot.

Thus, the two of them had studied the Three Lives Calamity, and it seemed to them that they were exceptionally passionate.

Of course Long Chen was excited, because the God Realm's Heart Refining Dragon's Inherited Blood was right in front of him!

Three lifetimes of love, two swords in unison.

They used the grey God Slaying Sword and the butterfly pattern on the Illusory Butterfly Sword as the dual swords, transforming the 'Tribulations of Life and Death' into a sword summoning technique.

The three elements of the life and death tribulation were related to the emotions that the two of them had mixed together. It would be better to call them love, but there was another attribute to it.

Three lifetimes was a time of mutual love.

Deadly tribulation was the punishment of the heavens. It was the punishment of evil, the judgement of morality, and the retribution of karma.

He had to use the Three Lives Silk and fuse it with each other. The two of them were connected in their hearts, and they could not differentiate between each other. They had a mutual understanding in their hearts, and only then would they be able to perfectly use this move.

This portion of 'Three Lives', was not difficult for Long Chen and Ling Xi; it was very easy for them to comprehend this dao. As for the 'death trap' part, that would require time. Especially for Long Chen, at this time, he was the one who needed to understand the cause and effect the most.

The dragon of morality and karma, the dragon of retribution, the strict overseer, and the enforcer. What would the highest rules he controlled be like?

He controls moral judgment, distinguishes right from wrong, what causes he has planted and what consequences he has brought about. Everything had its retribution.

What he represented was different from the Primordial Blood Spirit Dragon. He represented justice and order.

In this world, many people carried such a role, such as the fifteen Dragon Emperor s who held the justice and order within the Dragon God Domain.

Even if it was just a small place, a small town, for example, why did the Bai Yang Town set up a Lord's Mansion? He also wanted to establish order.

The heart dragon of the Path of God was the incarnation of justice and the guardian of order.

In that The Age of Dragons, there were trillions upon trillions of divine dragons, existing in worlds that were countless times larger than the ones in the Dragon Sacrifice Continent today. In that flourishing era, there were also countless chaos, with countless evil dragons wreaking havoc.

And the Conclave of the Divine Path was one such character.

The other Ancestral Dragons, in truth, rarely made such an appearance. For example, Great Void Cosmic Dragon s rarely appeared in the eyes of the Dragon race.

Long Chen had also protected order before, and in his heart, he was righteous. Even though he was the embodiment of slaughter, he did not kill without thinking, he was not a demon that killed people.

The core of his path of slaughter was to protect.

Thus, he was able to comprehend this feeling.

He could imagine how different the Dao of the Gods, the Heartdragon, was from the other Ancestral Dragons.

The so-called tribulation should be a trial of evil, a trial of those who break order. This is the power of justice, the power of suppression.

With this important prerequisite, Long Chen explained to Ling Xi once more. The two of them walked further and further on this road, and time flew by quickly. In the blink of an eye, a month had already passed in this Three Lives Secret Realm.

The changes in the Three Lives Secret Realm had also spread to the outside world.

The fifteen Dragon Emperor s were unable to contact Long Chen, but a month's time was not too long. This matter was decided by Long Chen himself, so they could only wait and see.

Because of the orders from the six great Ocean Emperors, no one among the current Sea Clan would dare to barge into the forbidden region and take a look at the situation. Currently, the Three Lives Divine Stone and the Causality Holy Stone were extremely quiet.

And on this day, Long Chen and Ling Xi had basically passed through all three trials of life and death.

Now that they had stood up, they looked at each other and smiled. Because their hearts were interconnected, they had a tacit understanding with each other, just like Long Chen and Li Xuanji. He similarly didn't need to speak, and when called out in his heart, Ling Xi would be able to hear everything he said.

Long Chen was already impatient to break this ice stone.

He and Ling Xi stood in front of the ice rock, turned sideways, and leaned against each other's backs.

"Rise!"

Three Tribulations of Life and Death!

It was a terrifying power that Long Chen had never seen before. The tribulation of three lives in one go had almost sucked both him and Ling Xi out of existence. From this, one could see how terrifying the attack would be if it was directed at any other opponent.

The invisible sword beam shot towards the ice rock!

This was a sword of judgement, there was no way to dodge it. It was the punishment for sin. The two swords combined into one, the sword pierced through the heart. This was not Sword Truth, but will!

Ding!

A soft sound rang out!

Three Life and Death Tribulations crashed into the ice, disappearing without a trace, as if nothing had happened.

"Did it fail?"

The two of them watched wide-eyed, as Long Chen held the longsword in one hand and Ling Xi's palm in the other.

Numerous cracks suddenly appeared on the Causality Saint Stone. In an instant, it shattered and turned into dust. Then, it completely disappeared from the ice palace. This was the destructive power of the Three Lives Calamity!

The only thing that was alright was that black and yellow dragon egg. The dragon egg gently fell, and before it could land, Long Chen had caught it!

The fourth type of ancestral dragon-inherited blood!

Receiving the dragon egg, Long Chen felt like he was in a dream.

At that time, when he was still fooling around in White Poplar Town, he would never have imagined that there would be such a day. The current him was a super divine being that was unimaginable at that time.

It was as if Ling Xi was accompanying him every single time.

It was Ling Xi who removed the restrictions on the Dragon Seal, allowing Long Chen to obtain the Primordial Blood Spirit Dragon's inherited blood essence.

When she gave the Great Void Cosmic Dragon's Inherited Blood Essence to Long Chen, Ling Xi was also by her side.

chaotic star field, Ten Star Chain Pearl, the birth of the blood essence of the Taiji Creature Dragon Inheritance. At that time she was still by her side.

This time, she had bravely entered the Three Lives Secret Realm. She had shared life and death with him, and had finally obtained the divine way's heart dragon blood essence.

Long Chen was happy, Ling Xi's face was also brimming with a happy smile, this was their common achievement. The rewards from the Three Lives Secret Realm were given to the two of them.

"Come, let me give you a hug!"

Long Chen couldn't help but laugh.

"No, I turned into a Dragon Fighter, what should I do? I don't want to be like you." Ling Xi weirdly dodged it.

Right now, the Three Lives Secret Realm seemed to be the same as before. There were two problems that Long Chen had thought of when he obtained the black and yellow dragon egg.

How to fuse them? Where should he merge with it?

Secondly, how was he to leave the Three Lives Secret Realm?

At this time, without giving him time to think, the black and yellow dragon egg in his hand underwent a change. It turned into two lights, gold and black, gradually melting away. From a dragon egg, it turned into a drop of golden and black blood essence.

It was the legacy blood essence of a 'heart dragon' of the divine way!

It finally appeared!

It seemed he had to fuse them himself at high speed.

Long Chen had originally planned to leave the Three Lives Secret Realm to study this dragon egg if it could stabilize. Now, he didn't have the time to do so.

However, what he was depressed about was that his physical body, origin soul, and Divine Kingdom had all been occupied.

Suddenly, the black and yellow legacy blood essence headed for his heart.

"Good and evil come from the heart."

These were the four words that he suddenly felt when he was in the dark.

At this time, Ling Xi had already pulled apart the Three Lives Love Silk, she knew, that the inheritance of the fourth type of Inherited Blood was in Long Chen's heart.

This was what she thought, "The heart dragon of the divine way is obviously a heart dragon!"

In fact, it was the same.

The slaughter of the body, the Great Void of the primordial spirit, the creatures of the Divine Kingdom, the good and the evil coming from the heart!

#### Chapter 2365 - Heart of the Seven Apertures

The so-called good and evil did not have the strictest line of demarcation, nor did the so-called morality. As a Paragon, how was he supposed to distinguish between good and bad? It was all up to the heart.

However, the most important part was whether this heart was good or evil.

If it was evil, then good and evil came from the heart. Many evil could be classified as good.

In the The Age of Dragons, all good and evil were judged by the divine way's heart dragon itself. One could find the truth from his name.

The Dao of the God, Heartdragon.

The Dao of Punishment. The Dao of Good and Evil. The Dao of Karma. As a Paragon, Lan Jue also tread the same path. He sought to temper himself. He sought no justice, no guilt, but a clear conscience. This was the heart of good and evil.

And the legacy blood essence of a 'heart dragon' of the Divine Path was a tempering of the heart.

Therefore, the place it was heading to, was in Long Chen's heart.

During this entire process, the most useful thing was still the Mysterious Dragon Jade, it should be controlling everything, allowing Long Chen to inherit the divine way's heart dragon.

In fact, from the very beginning, the heart was a part of the body.

However, at this time, the Primordial Blood Dragon's bloodline had safely withdrawn.

In his heart, he had already transcended the physical body and became an existence that was as independent of the physical body as his God Kingdom and Primordial Spirit. He was a fusion of Long Chen's thoughts, emotions, knowledge, good and evil, and was no longer a part of his physical body. However, it had a lot to do with the physical body.

This was because the blood vessels of his heart were connecting to every part of his body, vaguely controlling and restricting his physical body. The Divine Path's Heart Refining Dragon was also restraining the Archaic Blood Spirit Dragon.

The most useful thing that was displayed on Long Chen today was still the Primordial Blood Spirit Dragon.

However, when the righteous leader of the Path of God, the Heart Refining Dragon appeared, everything would probably change. It would also be a new transformation for Long Chen.

That drop of inherited blood essence had fused with his blood-red heart.

Pop!

The heart began to transform, transforming into gold and black. Gold and black intertwined.

Golden black dragon scales actually appeared on his heart. There was a huge change on the inside as it evolved into seven chambers.

This was the Heart of Seven Apertures and Karma.

Currently, Long Chen had only inherited his Inherited Bloodline in the initial stages, it was still not fully effective. Therefore, he had no idea what the seven aperture heart of Karma was thinking.

Next was the formation of the new Dao Seal.

It was a Karma Dao Seal, condensing within his sea of consciousness, finally landing beside the Time Dao Seal. The color of the Karma Dao Seal was also dark yellow, constantly changing.

When inheriting the Great Void Cosmic Dragon and the Taiji Creature Dragon's inherited blood essence, Long Chen's body would not experience any changes, but this time was different. He felt that with his heart as the core, the power of the God Realm's Heart Refining Dragon surging through his entire body, bringing him a new transformation.

Finally, a new dragon scale appeared on his body!

The divine path's heart dragon used the sword as the dragon horn, the saber as the dragon claw, the spear as the dragon tail, and the shield as the dragon scales!

Now, the dragon scales that appeared were fine, detailed, rules, domineering, golden light shone, black light shone, and a mysterious and powerful defensive power. Every dragon scale was like a shield, and they were like a Dao item, evenly and completely arranged in golden and black.

Compared to the ancient Blood Spirit Dragon's draconic scales, these black and yellow scales were even more dazzling and cool!

However, these weren't the key points. The key point was that there were other changes!

His nails suddenly turned into blades, about twenty centimeters long. The sharpness should be around the same as the sword, and this was a part of Long Chen's body. As he grew, it became even more resilient!

And then the tail

Even in the human form, there was still a dragon tail that pierced through. It was slender, tough, and tough. The tip was the sharpest spear, and the dragon tail itself was like a long whip!

Next, a longsword appeared on his forehead that was covered with dragon scales.

Black in the middle, gold as the edge of the blade, the brilliance revolving, full of penetrating power!

The transformation of the body created by the Archaic Blood Spirit Dragon was similarly a killing machine, but it was also a type of killing machine. In terms of appearance, it was not just killing, but also a type of killing machine.

However, the might of the Divine Path's Heart Refining Dragon lies in its majesty and its righteousness. This was a power that was the opposite of the Primordial Blood Soul Dragon, a power that could make even evil beings fear it!

Because it was rooted in the heart, when Long Chen turned into a dragon, he could also transform into a divine way, the Heart Refining Dragon.

In reality, Long Chen could also transform into a Great Void Cosmic Dragon. However, due to the appearance of the Taiji Creature Dragon being too obvious, it was easy for people to guess who it was.

As for the God Realm's Heart Refining Dragon, the history of the entire Dragon God Domain did not record it, nor did they establish the Karma Dragon City for it.

The initial fusion had now come to an end.

Long Chen let the dragon scales hide themselves and stood up. Now that he had formed the Seven Apertures Karmic Heart and the Karma Seal, he had completely inherited the Karmic Dragon's legacy and blood essence. However, the true Karma Dao belonged to the divine abilities of the Karmic Karma Dragon, which needed to be slowly unearthed and trained.

To be honest, he had already inherited a lot of things, and he needed even more time to make a joke. His current understanding of Taiji Creature Dragon was very average, so he still had a long way to go.

The Path of Life and the Path of Karma were both at the entry level.

However, the inheriting of the dragon's blood essence had caused his body to experience a qualitative leap. If it was said that he was an unprecedented genius before, now he had surpassed his previous self and had reached an even more terrifying level.

In the past ten million years, it was probably only Long Qinglan who had inherited a Great Void Cosmic Dragon's Inherited Blood Essence that could barely stand shoulder to shoulder with him. However, after this event, he would surpass even her father.

When Long Chen digested the divine way's Heart Refining Dragon's power and stood up, Ling Xi was looking at her with his big watery eyes and said in shock, "Brother Chen, you're a little different ..."

Long Chen was startled, he looked at the ground, and on the ground, he saw the change in his appearance. In the past, he was affected too much by the Primordial Blood Spirit Dragon, so his eyes were slightly red, his temperament was sinister, and there was a dense killing intent between his brows.

However, this time the killing intent was less, but it had an additional dignity and a feeling of having experienced the vicissitudes of life.

These were all brought here by the heart dragon of the Dao of the Gods.

He smiled. From the time he had inherited the Archaic Blood Spirit Dragon's blood essence until now, regardless of whether it was his will or personality, he had been greatly influenced by the Archaic Blood Spirit Dragon. Now that his heart had become the body of the God way's heart dragon, he would have even more of his own will to persevere and shoulder the responsibility with the God way's heart dragon.

To distinguish between good and evil and to guard the order of time.

"Let's think of a way to leave this place first."

Even though he had obtained the blood essence of the divine way's heart dragon, there didn't seem to be any major changes here.

"You're not going back from where you came from, are you?"

Ling Xi was a little worried.

"Probably not."

Long Chen thought, perhaps this Three Lives Secret Realm was waiting for him to inherit the inherited blood essence?

He only thought about it and didn't expect it to be true ...

Suddenly, the entire Three Lives Secret Realm exploded.

Long Chen, in that instant, had hurriedly saved Ling Xi. In the next instant, countless sounds of explosions rang out, and the entire ice hall was turned into ashes. At this moment, he could only do his best to protect the two of them.

Then the force of the explosion pushed him out.

It was like a charging cloud!

RUU...!

Although it exploded violently, it did not last long. In fact, in just a short moment, Long Chen could feel the existence of seawater.

"Sea water?"

He looked around and discovered that he was already in the Sea God's Domain. The violent tremors continued behind him. Turning around, he saw that the Three Lives Holy Stone and the Causality Holy Stone had both turned to ash and disappeared forever.

Just now was the explosion of the Three Lives Secret Realm. It was also the explosion of the Three Lives Holy Stone and the Causality Holy Stone.

Just like when he was attacked by the Three Lives Calamity, not a single speck of powder remained.

However, in this explosion, not only Long Chen and Long Chen, other people were also blasted out one after another. Long Chen looked around, and noticed that they had all fallen into the sea from his previous life.

If they were all dead, then the Seafolk would really be finished.

"Explosion?"

Long Chen was shocked. Since Xiao Yao and Sea Divine Emperor were imprisoned by the God's Heart Flame, and even the God's Heart Flame had disappeared, then what about them?

Sure enough, from the dozens of people that came out.

Long Chen saw four Ocean Emperors who had already fallen into the water in his previous life.

Then, he saw the Sea Divine Emperor and Emperor Xi Yao, who were still possibly struggling with the Heaven's Heart Flame a moment ago. When they first came out, they were still in their original forms. It was just that at this time, they came back to their senses and had already stabilized. They took human forms as they blankly stared at their surroundings.

Everyone's mind was blank.

"I did not expect that the Three Lives Secret Realm did not kill them ... It is fortunate that I did not throw Liu Ji into the bottomless pit and killed her ... Emperor Xi Yao should not have died. It is a pity that this Sea Divine Emperor did not die ... but they did not know that the Three Lives Sentimental Thread had fallen into my hands. As for the divine way's Heart Refining Dragon's inherited blood essence, I am even more unaware of it ..."

Long Chen was still relieved.

As for the Sea Divine Emperor, would he still be dealing with him?

This was outside the Three Lives Secret Realm, and even if he had ten times the guts, he wouldn't dare to make a move. At this time, if he saw that Long Chen was still alive, he should be the first to be afraid!

Long Chen scanned his surroundings and suddenly saw something else. It was two ice sculptures. They were precisely Chen Xingyao and his wife. They were frozen by the Sea Divine Emperor and had already lost their life force.

"The Three Lives Holy Stone. The Causality Holy Stone has exploded!"

A divine item that had existed for thousands of years suddenly disappeared just like that. The Sea Race found it hard to believe.

### Chapter 2366 - Resurrection

The disappearance of these two sacred objects would definitely bring about great turmoil to the entire Sea Clan. It would also cause unimaginable panic. It will affect the entire Sea Clan for a long time.

Most of the Sea Clan members were grieving and suffering because of this. However, for the six great Ocean Emperors, four of them had already been eliminated from the seas in their past life, and all set their sights on Ximen Yao Emperor and Sea Divine Emperor.

Meanwhile, Empress Xi Yao's cold gaze fell on the Ocean Divine Emperor.

He suddenly remembered that he should look for Liu Ji. However, with so many people present, it was obvious that everyone had come out except Liu Ji.

"She must have taken something good and escaped!"

The Sea Divine Emperor clenched his fists as his heart was filled with killing intent. He had never been in such a sorry state in his entire life, he was played by a woman, and she even lost so miserably!

If word of this got out, people would probably laugh their teeth out.

His Divine Emperor's prestige and reputation would basically be completely destroyed.

"Liu Ji, no matter where you escape to, I will still find you! If I don't give you an eternal torment, how can I be willing to let you die a miserable death! "

The Sea Divine Emperor was almost mad with rage.

Three Lives Love Silk was such a precious item, yet it was actually lost and taken away by Liu Ji.

And ... how much pain had that month been from the burning of the Celestial Heart Flame? When had he ever suffered such a terrible torment?!

All of this was thanks to Liu Ji.

"I gave up Yao Ling's life for her!"

"Yao Ling!"

When he thought about this name, Sea Divine Emperor felt a bone-chilling gaze land on his back. When he turned around, he realized that it was his wife, Emperor Xi Yao!

At that moment, the Sea Divine Emperor was in deep pain. He simply didn't have the face to face this woman. He could still remember the look of despair on Emperor Xlao's face when he was deceived and abandoned. To a woman, perhaps there was nothing worse than this.

What made him even more worried was that Emperor Xlao Yao did not attack him. As if nothing had happened, she gave him a faint smile, but it was a type of cold indifference that seeped into his bones. The current Emperor Xlao Yao had already completely changed, even though the Ocean Divine Emperor felt that his fighting strength was not inferior to his, he still felt a deep sense of fear.

The other four Ocean Emperors obviously did not know what had happened between them. They surrounded them, and the second Ocean Emperor asked: "Big Brother, what exactly happened? Why did the Three Lives Secret Realm explode? "What happened to you guys after that?"

He took a deep breath and thought for a moment, then said: "Maybe you do not believe, that Liu Ji deceived me and Yao Ling, and made us fall into that Three Lives Secret Realm's' Heavenly God's Heart Flame ', which burned us for a month. I think that in the end, she must have obtained that treasure, since all of us are here, but she isn't.

"What!"

Everyone was dumbfounded.

"This Three Lives Secret Realm was opened by Liu Ji. This woman has a treacherous personality. She definitely knows many secrets of the Three Lives Secret Realm, but she didn't tell us!"

"Big brother, you guys were too careless. You actually fell into her trap. It seems that we'll have to pass down the order that Liu Ji is wanted by the entire Sea God Realm!"

In truth, they were half believing and half doubting the words of the Sea Divine Emperor.

They also suspected that it was the Sea Divine Emperor who took the thing away and framed Liu Ji after killing her. Of course, no one dared to be sure.

However, the hatred and thick killing intent of the Sea Divine Emperor was hard to hide. If it were not for what he had described, the usually mature and domineering Sea Divine Emperor would not have lost his composure like this.

"Heh heh."

Hearing Divine Emperor Hai's words, Emperor Xi Yao could not help but laugh.

She did not know the truth. Now that she found out that the Sea Divine Emperor was tricked by Liu Ji, she just wanted to laugh. This was too ironic.

"Yao Ling, can you forgive me? One day, I will grab onto her and make her suffer a fate worse than death. In the following days, I will make you atone for your sins, I am willing to accept your punishment, and only hope that you do not spread the news! "

In the dark, the Sea Divine Emperor had no choice but to beg this woman. Right now, what he feared the most was that Ximen Yao would tell him about this life stone. If that happened, even the four great Ocean Emperors would abandon him, and at that time, he would lose all face.

As if she didn't hear his words, she turned around and left, heading towards her palace. No one knew what kind of hatred she harbored in her heart, but today was not the time to erupt.

The look in her eyes before she left gave the Sea Divine Emperor a creepy feeling.

Fortunately, she did not mention the matter regarding the Life Stone.

"Regarding the details, I will tell my four brothers in detail. Don't worry, every word that I, Silverymoon, said is the truth. I swear it in the name of the First Ocean Emperor. If there really is something, I will definitely share it with you all. Right now, the most important thing is to find Liu Ji! "

Other than that, the four Ocean Emperors had no other way. They couldn't search the Sea Divine Emperor either, they had been eliminated from the start so they couldn't blame anyone else.

Long Chen watched all these as if he was watching a play.

Right now, he was most thankful that he had killed Liu Ji. Now that the Sea Divine Emperor had shifted the blame to her, he was perfectly safe. No one knew what he had obtained from the Three Lives Secret Realm.

Sea Divine Emperor had originally thought that no one would ever know about the matter regarding the Life Stone until he saw Long Chen. There were simply too many people around. Previously, he was only concerned with finding Liu Ji, so it was hard to avoid missing something out.

He firmly believed that with the Great Sea Emperor Fist Technique and the Sea Freezing Divine Needle, Long Chen would die.

However, the young man in front of him was completely unharmed. His temperament had even changed. He was even more tyrannical than before, reaching a more perfect state.

"You!"

The Sea Divine Emperor was panicking in his heart.

It was clear that even though Long Chen had fallen into the Heavenly God's Heart Flame, he did not actually die.

Long Chen smiled faintly and said, "Divine Emperor Hai, you don't need to be so surprised. Nothing special happened between the two of us? "

The reason the Sea Divine Emperor dared to kill Long Chen, was because he felt that he would be able to obtain a huge harvest in the Three Lives Secret Realm. Besides Liu Ji, no one else knew.

However, he did not expect Long Chen to be standing in front of him at this time.

Then, the matter of him almost being beaten to death would definitely spread to the ears of the fifteen Dragon Emperor s. The most important thing was that he had grown up to the point of defying all common sense.

Compared to Emperor Xi Yao, Long Chen caused the Ocean Divine Emperor to feel even more horrified.

Long Chen even knew about the Life Stone, which was enough to ruin the reputation of the Sea Divine Emperor.

"It's all because of that bitch Liu Ji that caused Little Brother Long Chen to suffer. Please stay in our Sea Clan for a while longer and let this old man properly express our apologies."

Although she said that on the surface, she was secretly trying to communicate with Long Chen: "Long Chen, do you know whether or not there is still a way to save them? At that time, I was bewitched by Liu Ji, but in reality, I did not want to kill you at all.

The dignified number one Ocean Emperor, who was stronger than Long Chen, could only beg Long Chen at this time, speaking in a humble tone.

He had to do this, or else he would never have a good life ahead of him.

"How can you repay me for forgetting? the Sea Divine Emperor. "

Long Chen sneered coldly.

This was a life and death situation, although it was not yet a matter of revenge, it would not be that easy for Long Chen to forget.

The Sea Divine Emperor was anxious.

He wasn't willing to give away his most precious things. For example, the Steady Sea God Needle is a precious treasure that has been passed down by the Sea Clan for millions of years.

Something that was not precious, Long Chen definitely did not like.

In a moment of desperation, he saw the two ice sculptures of the divine dragons and finally let out a sigh of relief. I used the Sea God's Tooth's secret technique, 'Azure Light', to seal their lives and temporarily stopped their life from passing away. They did not die completely. In this world, only I can bring them back to life, so we will make a deal. I will let them come back alive in one piece.

"Is this a deal?"

Long Chen was indeed very satisfied and happy. He had originally thought that Chen Xing Yao had died, but no matter what he did, he still felt a great regret that he was unable to bring him back to the Dragon God Domain alive.

Now that they heard the hope of reviving, their hearts were filled with pleasant surprise.

Sea Divine Emperor said: "No, consider it as me begging you. I apologize to you."

In order to survive, the Sea Divine Emperor was willing to say anything. He understood that after going through the tribulation of the Three Lives Secret Realm, Long Chen would definitely become even more frightening. For example, right now, his strength must be extremely close to his own.

"Enough, I want to see them alive first."

Long Chen said as he nodded his head.

He wanted to teach this guy a lesson, but he didn't have the ability to do so yet. However, there would be a lot of changes in the future, and who could say for sure? Even though it could be said that it would be written off in one stroke, there would still be a lot of variables in the future.

"Sure!"

The Sea Divine Emperor revealed a smile.

On the surface, the two of them spoke politely.

To the Sea Divine Emperor, dissolving the blue light beam was actually a very simple task. Long Chen was already impatient. While he was waiting, the bodies of Chen Xingyao and his woman gradually turned into flesh and blood, and their lifeless bodies gradually appeared.

If not for the fact that their life force had completely disappeared, Long Chen would not have thought that they were dead.

However, he was still injured.

He quickly used the fires of his life to boost their vitality and hasten their recovery. In fact, there were many people who didn't understand what was going on. Who was that divine dragon beside Chen Xingyao?

Finally, Chen Xing woke up.

Chapter 2367 - Troll Awakening

Sure enough, he did not actually die.

Seeing that he and his wife had woken up peacefully, Long Chen felt much more at ease. Their relationship was stronger than Jin Jian's, so they should have a perfect ending.

He had just woken up and saw that all of the Seafolk were surrounding the two of them. Naturally, Chen Xingyao was on high alert and in shock. He knew where he was in that instant. He thought he was dead, but from the looks of things, he was still alive?

"Uncle Chen."

It was at this time that Long Chen and Ling Xi came before him. Seeing Long Chen, his restless heart finally calmed down.

"It has been a month. I will explain it to you in detail when we leave this place."

Chen Xingyao had many doubts in his heart, but with so many Seafolk surrounding him, he nodded his head. The two of them snuggled up to each other. No matter what, they were sure that they had survived the battle and the two of them had not died. This was enough to make them overjoyed.

The previous encounter had been like a dream.

Divine Emperor said to himself, "Brother Long Chen, I have already revived him. I hope you can keep your promise. "

His heart was still trembling as he said this.

The relationship between the Sea Clan and the Goblin Tribe was very bad, and the Immortality Divine Realm human Goblin Tribe was the strongest. The Sea Divine Emperor was also worried about the human race's revenge after Long Chen became strong, and worried that Long Chen wouldn't be able to resist them after he became strong. Other than Long Chen, there were not many people in this world who could cause him so much fear.

"Alright, this year's Ocean Sacrifice ceremony is very exciting, but it's already over, I should return to the Dragon God Domain. It's just that you won't have a problem with me taking Chen Xingyao away from the Sea Divine Emperor, right? "

"No objections, no objections."

Divine Emperor Hai said with an embarrassed smile.

"Goodbye."

He had already obtained what he wanted. Long Chen naturally did not want to stay for long. Once Sea Divine Emperor knew that the love for Three Lives was in his hands, he would still be able to fight again. At that time, he would still be able to bring danger to Long Chen.

Of course, with Long Chen's Three Lives Love Silk and Three Lives Life and Death knots, he wouldn't be as powerless against this guy as before.

"Brothers of the Sea Clan, follow me. We will send the human brothers, Long Chen, away!"

Divine Emperor Hai's face was overflowing with enthusiasm.

Thus, everyone pretended to be concerned about where Liu Ji had gone to.

I believe that after Long Chen leaves, the entire Sea Clan would definitely come looking for her.

All of this had nothing to do with Long Chen. Under the merry escort of the Sea Clan, the four of them left the Hanhai Royal City and headed towards the human race. Of course, it was to bypass the demon clan's border.

"That time, the Azure ray of light from the Sea Divine Emperor did not kill you. After some changes occurred, the Three Lives Secret Realm exploded and you were sent out along with it. The Sea Divine Emperor was worried that I would take revenge on him in the future, so he used saving all of you as a condition of exchanging them with me. "

"Oh!"

Initially, when Chen Xing Yao and Yue Yang used their lives in exchange for to escape, they never thought that they would be able to survive. Now that they knew what had happened, they felt like they had been separated by this world.

"By the way, did you get what you wanted? I heard that they want to capture Liuji, what's going on? "

Chen Xingyao asked.

As long as he left Hanhai Imperial City, Long Chen was not willing to let the news of him obtaining Three Lives Love Silk be leaked out. As for the [Heartdragon] of the Dao of the Gods, no one knew. Furthermore, Chen Xingyao was one of them, so he said, "We already got it. As for Liu Ji, I've already killed her. I've shifted their attention to Liu Ji."

"Huh?"

Chen Xingyao and Zhexiu both had an inconceivable feeling.

Chen Xingyao had interacted with this woman for thousands of years and had been humiliated by her to the extreme. He also knew how frightening she was and that at least no one could defeat her in terms of strength other than the six great Ocean Emperors. For Long Chen to obtain the final victory, kill Liu Ji, and keep Sea Divine Emperor and the rest in the dark, what kind of tyrannical power and luck did he have to be able to achieve such a perfect victory?

In their eyes, Long Chen had already become unfathomable.

"Oh right, what are your plans after returning to the Dragon God Domain?"

Long Chen asked.

"We have already decided. We will first go back and swallow Long Chen and the three Dragon Emperors to apologize before deciding on where to go."

"Fine, then I'll send you to the Dragon Devouring City."

Since the Swallowing Dragon City was in the west, it happened to be on the way.

Following that, Long Chen entrusted his safety to Yang You and the other fifteen Dragon Emperors. During this period of time, they were definitely worried about Long Chen. Even though she would not admit it, in her eyes, Long Chen was undoubtedly the most important person in her life.

The fifteen Dragon Emperor did not inquire about what Long Chen had obtained, but instead congratulated him. During this period of time, the Dragon God Domain was extremely peaceful, but the battlefield between gods was still mysterious.

After hearing the news of Long Chen's success, Yang You said: "He only left me a message, I never thought that you would actually succeed. "It should be very risky."

Long Chen laughed: "Actually it's not too bad, it's more successful. A bit of interlude is not worth mentioning."

Yang You said apologetically, "If I accompany you, it should be safer. It's just that there's been a lot of activity on the planet lately. "It's not peaceful."

Long Chen was still smiling, and said: "Since I was young, what kind of dangers have I not experienced before? You can be at ease with me for a hundred times, but I won't die that easily. "

Their conversation might have seemed somewhat strange, after all, they were not truly familiar with each other.

However, the feeling of blood being thicker than water was not wrong. She was precisely the woman Long Chen had to protect.

Following that, Long Chen's heart was set on returning.

In fact, he wanted to return directly to Heavenly Dragon Star, but he would have to send Chen Xingyao off, and pay his respects to the fifteen Dragon Emperor s.

However, after he left the Sea God's Domain and traversed the starry sky of the Demon God Area, preparing to return to the Dragon God Domain, the peaceful world became tense and chaotic because of something that had awoken.

It was a peaceful night.

On Sky Dragon Star, 100,000 divine dragons were happily living and cultivating. This was their pure land, and under Yang You's management, 100,000 divine dragons lived in perfect order.

When everything was quiet, suddenly, Yang You rushed up to the clouds, looking puzzledly at the vortex in the sky. The Radiant Dragon Emperor and the Dark Dragon Emperor appeared beside her, the three of them seemingly having the same expression.

"There seems to be some movement in the Demon Star. The entire Demon Star seems to be rolling!"

"Fortunately, the seal is still there."

At this moment, Yang You ordered, "Quickly, set up the 'Dark and Light Protection Array'!"

The Glowing Dragon Emperor and the Dark Dragon Emperor did not dare to be negligent.

The two of them turned into dragons in space. The Radiant Saint Dragon and the Dark Emperor Dragon fought in the north and south respectively, forming a dark and light formation that enveloped the entire planet. This change naturally attracted the attention of all the divine dragons.

They knew that something was about to happen, so they quickly protected the juniors.

Without saying a word, Yang You stared at the demon star with serious eyes. She had already landed in the middle of the light and darkness array, and a formless energy was released from her body, extending towards the entire Heavenly Dragon Star. On top of the light and darkness array, there was an additional layer of net.

As the Heavenly Dragon Star was so close to the planet, if anything happened to the planet, the impact on the planet would be the greatest.

When she had just finished preparing, what was supposed to come finally came.

In the midst of the gigantic black vortex in the sky, a blood-red eye suddenly appeared. It was as though it was a rolling sea of blood, and this eye was extremely terrifying, as though it was an unmoving devil eye, or the eye of hell that Long Chen was using.

In the sea of blood, there seemed to be countless souls roiling about. There were billions, or even tens of billions. Countless vengeful spirits formed the pupils of the Blood Sea's eyes.

An earth-shattering baleful aura was released from this eye, rushed past Heavenly Dragon Star, and in that instant, it spread throughout the entire Immortal God Realm, even causing the Dragon Sacrifice Continent to be greatly affected. Although the influence of the aura on the Dragon Sacrifice Continent was rather weak, the Dragon Sacrifice Continent was currently a weak world, with only a few people being present in the Immortal God Realm.

This directly caused the entire world to be thrown into turmoil.

Such a terrifying baleful aura, in everyone's memories, had never appeared before even among the fifteen Dragon Emperors.

This evil aura directly spread to the Immortal God Realm, causing everyone to be shocked, as if their life and death were controlled by someone else. This kind of terrifying feeling caused countless voices to cry, and everyone was stunned, looking towards the north, towards chaotic star field, in the direction of the devil planet!

A blinding red light spread out from that direction, finally forming a blood-red eye in the skies of the entire Immortal God Region. At that moment, the fear of death enveloped the entire Immortal God Region!

And this was not all!

When that roar resounded from the depths of their souls, everyone finally understood that it seemed as if a giant beast had awoken. Everyone in the entire Divine Realm of Immortality heard this voice. That's right, this voice came from the demonic star!

The sound reverberated out, Heavenly Dragon Star was the first to be hit, it was just a sound, the two Dragon Emperors were under immense pressure, but fortunately, they were able to block it, causing the people on Heavenly Dragon Star to feel slightly better.

However, their expressions were already extremely ugly!

That roar resounded through the world, shaking the entire world. Most people might not know what it meant, but some people definitely knew that it meant Yi Xue and Meng Hen who were wandering the Immortal God Realm.

"The ancient Giant Demon, Qu Qi, has awakened!"

Their faces instantly turned pale.

They never thought that this ancient Giant Demon would awaken so quickly.

"How could there be such a huge commotion when I woke up this time!?" We are in the Immortal God Realm! "

The sound was too loud.

However, when that sound came, they no longer had the chance to investigate why it was so loud. Because their consciousness had already been invaded, their expressions gradually changed, and in the end, a cold smile appeared on their faces.

"The era of our devils has finally arrived!"

#### Chapter 2368 - Eternal Change

That piercing red infernal energy, came from the deepest hell and engulfed the entire world. Long Chen and the others who were rushing through the endless stars heard this sound too.

Because Long Chen wanted to return home as soon as possible, Ling Xi and the other two were all in his Divine Kingdom at this time.

This change caused the four of them to be stunned.

"Brother Chen, what's going on?"

Even though Ling Xi was in the God Nation, she could still feel that bone chilling aura. Because this place was relatively close to the devil star, this kind of feeling was very strong.

"There are some changes on the demonic star. It might be an ancient Giant Demon!"

There were only two things that could do such a terrifying change in this world. It was either a demonic star or the battlefield of the gods.

He frowned deeply.

He had been worried about the changes in the Ancient Giant Demon Clan since a long time ago. If that Ancient Giant Demon called Qu had awakened, then it was obvious that Mo Xiaolang would have been affected.

Now that he was very close to the Dragon God Domain, Long Chen continued to move.

However, this huge change did not stop.

Back then, when Long Qinglan had the demons come to the Dragon God Domain, the Immemorial Giant Demons had woken up once. However, compared to this, there was a huge difference in power between the heaven and earth.

At that time, it was as if an ancient Giant Demon had just woken up a little and fell asleep in a daze. However, this time, it was the wolf that had finally woken up. It let out an angry roar.

"Yi Xue and Meng Hen are still in the Immortal God Realm. It seems like they're about to be controlled again."

The seal on the demon star wasn't so easy to break. Although the ancient Giant Demon had awakened, he was sure that it was heavily sealed. For the time being, he didn't need to worry about it escaping. What he needed to worry about was that with this awakening, what sort of changes would happen to the demons on the demonic star?

The scariest thing was that the seal on the Dark Star was removed.

He should hurry back to the Dragon God Domain and discuss the situation with the fifteen Dragon Emperors.

However, Long Chen had actually underestimated the Ancient Giant Demon awakening.

The Spirit Race and Human Race were not affected by it, but the Spirit Race, Witch Race and the Sea Race that Long Chen just left had undergone a tremendous change.

In reality, humans and spirit race were similar, and both had divine kingdoms within them. In the The Age of Dragons, the Spirit Race did not exist. It was unknown when they appeared in the Immortal God Realm, and they began to multiply and grow. The Spirit Race was actually a part of the human race, and they were unable to inherit a portion of the dragon's blood essence.

The Sea race was originally a part of the Monster race.

As for the Witch clan, they were actually closely related to the demon clan. Their original form was that of a 'giant witch' that was as strong as a demon beast and as tall as a mountain.

Monster, Sea Clan and Witch Clan all belonged to the 'Beast Race'.

No one would have thought that the Archaic Giant Demon Qu would have an unprecedented influence on the three beast races. It was something that had never been recorded before in their history.

When that roar reached the side of every Beast Race, they raised their heads and saw an eye formed from a sea of blood in the sky. Countless souls were floating within the eye and then fell from the sky, gushing down.

The entire territory of the three Tribes was covered in blood, including the Sea Tribes who were searching for Liu Ji.

Long Chen could see the Demon God Area not far away from him in the middle of the starry sky, enveloped in red light. It was as if every demon clan was raising their head and staring at the sky in a daze, not moving an inch.

"What's going on?"

After all, one person's vision was limited. He could not see any changes in the entire Demon God Area.

At this time, more than half of all life in the entire Immortal God Realm had fallen into a mystical state.

A full four hours had passed and the red light still did not disappear from the three divine regions. Faintly, Long Chen could already hear the roars from the Demon God Area s.

At this time, he was already far away from the Demon God Area, and had returned within the borders of the Dragon God Domain. Everyone in the Dragon God Domain recognized him, and upon seeing his return, all of the Five Dragon Cities's warriors nervously guarding the territory came out to welcome him.

"What happened over at the Monster race's side?" Amongst them, there were members of the Blood Dragon Army from Slaughter Dragon City. Some of them were more familiar with Long Chen, so they dared to come up and ask.

Long Chen stood on the ground, staring at the direction of the Spirit Demon Race, Ling Xi and the rest stood beside him.

At this time, the red light in the sky had already disappeared, and everything returned to silence.

The movements on the demon star seemed to have disappeared as well.

Everyone seemed to have calmed down, but they still had an uncomfortable feeling. It was as if there was something disgusting in this world that they couldn't see.

It was just like the calm before a storm.

"I don't know either. Let's just wait and see."

At this time, Long Chen connected the Star Symbols to the three Dragon Emperor s of Dragon City.

The three Dragon Emperor s were also communicating with other Dragon Emperor s, while the fifteen Dragon Emperor s were basically linked together using a large number of star runes.

"I am now at the border of Dragon God Domain."

Long Chen explained his location.

Fifteen Dragon Emperor s were discussing.

"Long Chen, the Ancient Giant Demon has awakened. Although the Magic Star Seal is still alive, its awakening this time is more than ten times more serious than last time. There might be new changes to it, and even though it has disappeared now, it might still appear again. Furthermore, it seems that the Spirit Demon Race, Sea Clan and Witch Clan have changed greatly due to the awakening of the Ancient Giant Demons. You just returned from Demon God Area, what can you see? "

Long Chen told them everything he had seen and heard.

"You guys said that the ancient Giant Demon 'Qu' can control the demons on the Demon Star. Then, will he be able to control the Monster race, Sea race, and Witch race?"

Dragon Emperor Yongye guessed.

"That shouldn't be possible right? It's not like these three races have any sort of connection with the Archaic Giant Demons. Moreover, these three clans also have many experts. The Four Great Demon Ancestor's city is also extremely deep. "

The Ten Thousand Killing Dragon Emperor shook his head.

"However, an archaic Giant Demon is an existence equivalent to a deity. If he were to appear outside, no one in the entire Immortal God Region would be able to stop him."

Dragon Emperor Yongye said with his intuition.

Listening to their conversation, Long Chen had a bad premonition in his heart.

"We are at the border with the demon race, we don't have the witch clan nor the sea clan, but the witches and the sea clan can all come around from the starry sky. The parts that connected to the

demon race were separated by the Sky Fire Abyss, so they only needed to defend a few cities. However, if there's really trouble, that part will still be coming from the starry sky. "

The Dragon God Domain was in the east, and most of its borders were in the starry sky. In such a long domain, as long as one was a strong Ranker, they could charge in from any direction.

"You're thinking too much."

Now that he said these things, he was indeed worrying about nothing.

While listening to their conversation, Long Chen did not stay idle. Currently, the majority of the people on the defensive line were the same as him.

Normally speaking, not many demi-humans would barge in like this.

Their lives were also more peaceful.

However, this time, everyone was more cautious. This was because at this time, they seemed to have heard the roars of several giant beasts.

The roars were thousands and thousands of them, one after another.

Long Chen's gaze swept towards the depths of the starry sky. He had discovered countless specks of light at that place, which was where he had just come from.

"Something is coming!"

Many of the Dragon Fighters and warriors from the seventy-two Shenchengs that were guarding the place shouted in shock.

The warriors of the seventy-two Shenchengs were the foundation, and most of their strengths were Nirvana Tribulation Realm s. Dragon Fighter, on the other hand, was basically an elite troop, and their strengths were basically tribulation of reincarnation.

Those that covered the sky and quickly rushed towards the Dragon God Domain. If Long Chen could not see through them, then it must be the Spirit Demon Race!

Countless demons roared and rushed towards the direction of the Dragon God Domain. With a sweep of their eyes, they saw that there were no less than one hundred thousand of them, and their numbers even surpassed the human warriors who were guarding this place.

This was the place closest to the Monster race.

"Monster, Monster!"

The human warriors had already felt the other party's killing intent and were all prepared for it. With such a strong Ranker like Long Chen by their side, their hearts were relatively at ease.

At this time, the fifteen Dragon Emperor s still didn't know.

", what you have guessed has happened!"

Long Chen looked at the incoming demons while talking, and what he could see was, each of the demons' eyes were actually blood-red, and there were ghosts wandering amongst them. Their bodies were covered in a light red light, and were filled with a bloody aura, their killing intent was extremely similar to that of the Primordial Giant Demons!

"What!"

The fifteen Dragon Emperor s were all stunned for a moment.

Just now, Dragon Emperor Yongye was only casually saying that, he did not expect that his guess would actually turn out to be true.

"There's been some changes on their bodies. They have the aura of a demon, and if I'm not guessing wrong, it should be under the influence of the ancient Giant Demons. At least a hundred thousand demon race are currently attacking us, and the only thing we don't know is how many of them are already under the control of the ancient Giant Demons!"

Long Chen's heart was a little cold.

He had a premonition that a battle that could engulf the entire Immortal God Region might soon happen. This was a riot that hadn't occurred in the Immortal God Realm for a million years.

Today, the attacks from the hundred thousand demons were only the beginning!

Fifteen Dragon Emperors were located in the Five Dragon Cities. The Five Dragon Cities had a huge system that governed the world. Hearing Long Chen's reminder, they instantly became serious.

"Long Chen, you first figure it out, then block it.

"Alright."

The demon clan in front of him, to Long Chen, wasn't too big of a problem. He could settle it all by himself.

Killing, however, did not solve the problem.

A hundred thousand demons rushed over, blotting out the sky. Their actions were similar to that of the devils. Their eyes could no longer see any emotion, only murderous intent.

The fifteen Dragon Emperors should be controlling the Five Dragon Cities and contacting the warriors at the borders of the world to figure out the situation. At the same time, there were also Dragon Emperors who had already set off towards the border.

Chapter 2369 - Subjugation of the Army

Staring at the starry sky, the majestic demon clan army attacked with shocking power!

A hundred thousand demi-humans!

Because the humans and demons had their own experts to suppress them, nothing like this had actually happened in the past few years. The majority of the demons that had come were the enemy soldiers stationed at the border, and of course, there were also some that had joined temporarily.

They didn't have a plan at the moment. All of them had already revealed their true forms. A hundred thousand was not a very high number. In fact, the number of guards that the Dragon God Domain was guarding was about this number.

However, the opponent was like a crazed demon with a murderous aura. Most of the human soldiers weren't able to figure out what was going on and weren't prepared to fight to the death. If they collided at this time, they would surely suffer a loss!

After all, who would have thought that such a battle would occur?

"The Monster race is approaching in full fury, how can we withstand them?"

"What exactly is going on? From the looks of it, they have already gone mad. If all of the demon race members become like that, how will we be able to stop them? "

"Is there really going to be a great war that hasn't happened for a million years?"

In an ordinary battle, the victor would be decided by the strong, and both sides would have a choice.

However, this time was different. The entire Demon race was on the battlefield, and there were even many young demonic beasts among them. They didn't have much combat strength, and their eyes were bloodshot as they charged into the battlefield like they didn't care for their lives!

"We're doomed!"

Some martial artists who hadn't experienced such a massive battle formation began to feel nervous. Demons were approaching aggressively, while the human army was in a fog of worry.

Before the fifteen Dragon Emperors could begin their preparation, Long Chen had to hold on here. Fortunately, Long Chen had returned to this place, otherwise, it would be a battle of life and death.

When the hundred thousand Spirit Demon beings blotted out the sky and covered the earth, Long Chen rushed out alone. He would face the hundred thousand Demonkind Tribe members. "Kill them all!" "" "BOOM!" "BOOM!" Ling Xi and the others were not worried, after all, in Long Chen's eyes, most of these demons were from the Nirvana Tribulation Realm, but they were just small fries.

"It's Long Chen!"

Yes, with him here, we will definitely be fine. Everyone be careful, don't put the Spirit Demon Race into our Dragon God Domain to protect our home!

"Heroic killing, defending our homeland!"

The generals of Guard found the chance to use Long Chen to boost their morale.

Here in the Dragon God Domain, Long Chen had long been a symbol of miracles. It was even rumored that fifteen Dragon Emperor had forcefully supported him to become a new slaughter Dragon Emperor and become the supreme ruler of the entire human race. Because of many misunderstandings in the past, they were very disdainful towards Long Chen, but now, Long Chen was the person they respected the most!

Long Chen did not think too much about it.

He needed to confirm the same thing.

"Friends of the Spirit Demon Race, you guys are approaching with all you've got, what is going on with you approaching my Dragon God Domain, could it be that there is going to be a war between the two races!?"

Long Chen's incomparably loud voice swept out, forming a sound wave like wave, causing a large portion of the nearby demon clan members to be pushed back, this was the power of a true expert!

RUU...!

At least 70,000 demon clan members stopped attacking!

Their blood-red eyes stared at Long Chen. Long Chen was in his human form now, but to them, he was definitely insignificant.

Just at this time, the blood mist spread out, and Long Chen transformed into the Primordial Blood Spirit Dragon. The huge Divine Dragon Body blocked in front of them, so he would not be disadvantaged when it came to size.

This time, his transformation into a dragon had also given the demons an even greater deterrence.

On the side of the Goblin Tribe, countless beasts were roaring at Long Chen. The Goblin Tribe had countless of races, just the Wolf Tribe alone had thousands of species, and these hundred thousand Goblin Tribe were just a hair's breadth away.

However, there were experts amongst them.

When the weak were still roaring, a few Goblin Rankers had already opened a path and walked in front of Long Chen. Amongst them was a Goblin Beast that had already passed through the Eight Trigrams Calamity.

This was a pitch black Divine Ape. In the pitch-black starry sky, it was as if he was hiding in darkness, but the most obvious thing was that he actually had eight blood-red eyes on his face. There were four pairs of eyes, up and down, looking ferocious as they looked at Long Chen.

On both sides of his torso, there were a total of eight incomparably thick arms. Endless power exploded from his flesh, as if it could easily crush heaven and earth. His willpower was extremely berserk.

His voice also had an explosive feeling!

"Human, hand over the five dragon pearls!" Otherwise, our demon clan will have ten billion lives! All brothers of the Shanghai clan and the Witch clan will trample the entire Dragon God Domain, turning the Dragon God Domain into ashes, and the human race will be completely exterminated! "

This demonic beast's name should be the 'Eight-Armed Eight-Eyed Godly Ape'. It belonged to the same bloodline as the Haotian Wolf pack. It was obvious that this guy was much more powerful than the Haotian Wolf Lord.

The Eight-Eyed Eight-Eyed Ape had immense strength. It could move mountains and fill the seas, crush the stars, and had eyes that spanned a thousand miles. It had ten million years of demon clan history and was a well-known war god of demons!

His first sentence, allowed Long Chen to thoroughly understand the truth.

Sure enough, they wanted the five dragon pearls.

The Five Great Dragon Pearls were of no use to the demon race. Only the ancient Giant Demons needed the Five Great Dragon Pearls to break the seal on the demon star. There was no doubt that the ancient Giant Demons controlled the demon race, Sea race, and Witch race. Regardless of whether it was the number of clansmen or experts, the total number of these three clans was two times that of the human race!

If the Ancient Giant Demons were able to affect even the Great Demon Lord, the Ocean Emperor, and the Witch clan's Saint Witch, then the entire human race would face a terrifying test, even if it was truly a threat of clan extermination. Even if the race wasn't exterminated, it would at least suffer millions, tens of millions, or even over a hundred million casualties!

None of this was a joke.

Once the entire Goblin Tribe, Sea Clan and Witch Clan rushed into the Dragon God Domain, even if Long Chen had the ability to transcend the heavens, he would still be unable to stop them. Furthermore, he would be under the control of the Ancient Giant Demons.

Moreover, they had no way out at all.

Once they obtained it, the seal of the devil star would be broken. With the number of experts in the devil star and the Ancient Giant Demon, not only the Dragon God Domain, but the entire Immortal God Region would be completely destroyed as well!

Right now, Long Chen could only pray that not all of the members of the three great clans were controlled by the Ancient Giant Demons. Once the Demon Lord and the others still retained consciousness, he would definitely not wish for his clansmen to die in such a manner.

It was just that this possibility was not high. Clearly, there were many experts on the Demon Star that were comparable to Dragon Emperor. An ancient Giant Demon was basically the equivalent of a living god.

"Hand over the five dragon pearls, or else we will be the first to flatten the human race. We swear that as long as the human race does not hand over the five dragon pearls, we will kill every single one of them. We will make the Dragon God Domain have billions of corpses lying all over the ground, and rivers of blood will flow!" Regardless of the old, weak, or children, we will still kill them all! "

Under the influence of the ancient Giant Demon's will, all of the demon race members had lost their conscience. The only thought in their mind was that they would pay any price, even if it meant killing all of the humans, raping and plundering everything!

For a time, the deafening roar shook the heaven and earth. The demonic aura was irresistible, and that was the power bestowed to them by the archaic Giant Demons. They did not fear death at all.

At least, in terms of aura, they had completely suppressed the humankind.

Hearing this news, the soldiers of the human army all had a bad look on their faces. Whether the three clans combined had the number of powerful warriors or the total number of human warriors, everything was double that of the human race. With such fearless wills, it was very possible that they could destroy the human race!

These words truly meant that under the control of the ancient Giant Demons, besides the Spirit God Realm, the entire Immortal God Realm would enter a state of chaos!

"Kill!"

The Eight-armed Eight-Eyed Ape didn't continue to talk nonsense with Long Chen. He didn't care how strong Long Chen was, he only knew how to force humans and hand over the Five Dragon Orbs.

Die?

They had no idea about their own deaths.

This was because at this time, they were just puppets.

It was not that they did not live up to expectations, it was just that this matter was too sudden and the demons were not afraid of death. The three clans had so many people, once all of their top rankers were gathered together, how could they win against fifteen Dragon Emperors against two?

It was very possible that the fifteen Dragon Emperors would be killed.

Many of the people present were only Nirvana Tribulation Realm. In the Immortal God Realm, they could be considered ordinary people, but of course, they would feel fear, fear, and despair.

After all, this was not a fair battle at all.

During the demon clan's assault, not many people had the courage to fight them; what they faced was a group of crazy devils that did not care for their lives.

However, everyone seemed to have forgotten that there was still Long Chen in front of them.

Long Chen had hidden himself in the blood colored clouds, and he watched their arrival with narrowed eyes.

Perhaps the only way was to get them out of the control of the Ancient Giant Demons. Otherwise, no matter what method one used, no matter how much he tried to persuade them and intimidate them, it would all be useless.

But now, at least, he couldn't let them hurt any of the humans.

"Blood Weeping Dragon Soul!"

Facing such a huge army of 100,000 demons, the dragon scales on Long Chen's body flickered, and a blood-red light erupted. A million Blood Weeping Dragon souls rushed out, instantly submerging Long Chen!

Although the size of the flood dragon was small, its killing ability was comparable to that of a tribulation of reincarnation warrior. Under Long Chen's control, a million of Blood Weeping Dragon souls rushed out and collided fiercely with the hundred thousand demons.

#### Chapter 2370 - New Mandate

It was simply impossible for a mere one hundred thousand normal Spirit Demon beings to break through Long Chen's defensive line.

Let alone a million Blood Weeping Dragons, even a hundred thousand Blood Weeping Dragons might not be enough to stop them. As Long Chen's strength increased, any slaughter dragon, although small, would not be a problem against giant beasts of the tribulation of reincarnation.

With just a single charge, almost every single beast was blocked. Only a few experts like the Eight-armed Eight-Eyed God Ape were able to break through the line of defense of the Sobbing Blood Dragon Soul and rush to Long Chen's front!

This scene first caused everyone to be astonished, then it was filled with joy. They had realized that with Long Chen here, at least they wouldn't have anything happen for a long time.

"Brothers!" Don't worry, everyone. We humans are the greatest clans in the Immortal God Realm, and have been around the world for tens of millions of years. In these tens of thousands of years, we have never lost. With the Eternal Dragon Emperor, we are unrivalled in the world. We are stronger than others, there is nothing to be afraid of! "

"We have fifteen invincible Dragon Emperor, numerous strong warriors, and a rare super genius. In the future, we will have Long Chen! With them here, what are we afraid of? "

"If you are a man, then don't be a coward. Come up with your courage and think about what blood you have left. We are the descendants of the Divine Dragon and our ancestors once ruled the world. How could we let the demons and the Sea Tribes scare us?"

"No one needs to participate in the battle today, but everyone can see how our peerless genius will defeat the enemy! But everyone still needs to be prepared for battle! "

"We will not lose! The time has come to defend our homeland, to throw away our heads and shed blood! "

They were extremely grateful to Long Chen, and it was because of his bravery now that the people of the human race had gained new pride, and mustered the courage to fight!

However, Long Chen encountered a troublesome matter.

Kill, or not kill?

If he started this massacre himself, then the Immortal God Realm would be in even more chaos. If this matter ever came to an end, then the demon race would definitely have heavy casualties. When that time came, even if there were no ancient Giant Demons, the hatred would still be deep.

To Long Chen, killing a hundred thousand was not a small number.

But the trouble was, if they weren't killed, then even if they were injured, they would continue to fight without caring for their lives. Under the control of the ancient Giant Demons, even if they were severely injured, they would still get up and continue fighting.

Letting them go was tantamount to torturing himself.

This was a huge problem.

Fortunately, there were only a hundred thousand demons this time. Even though they were packed in dense numbers and blotted out the sky, they were still within Long Chen's control.

Although a million Blood Weeping Dragon souls would not kill them, it would at least make it difficult for them to move an inch.

But at this time, the Eight-armed Eight-Eyed God Ape led a group of demons that had gone through at least the Six Paths of Reincarnation and charged towards Long Chen explosively.

Long Chen had already prepared the Thousand Death Claw.

The Eight-armed Eight-Eyed God Ape was unable to withstand a single blow to the current him. It transformed into a bloody dragon shadow that swept across, and all the demonic beasts that pounced at him were struck in the head with Ten Thousand Deadly Claws, just like how Long Chen was against Yi Xue and Meng Hen back then.

He quickly turned his head to look. As he expected, the Myriad Death Claw's lethality really did have the ability to suppress the ancient Giant Demons. The dozen or so demon clan experts were trembling all over. However, the bloodlust in their eyes gradually disappeared and their consciousness gradually returned to normal.

They knew what had happened when they were being manipulated. It was just that when they were affected by the ancient Giant Demon's will, they believed that everything they had done was right!

"How did this happen? How did this happen?"

The eight-eyed, eight-eyed, and several others stared blankly at the battle between the hundred thousand demons and the Blood Crying Dragon Soul. Their eyes glazed over, and they could not help but shed tears.

"Just what is this ancient Giant Demon from the demon planet? His awakening is actually able to make my entire demon clan be in control!"

"Is this the end of the world?!"

Even if Long Chen had a million clones, he wouldn't be able to save the situation. Furthermore, the Great Demon Lord, the Holy Mage and the Ocean Emperor, the other strong beings, would definitely receive the greatest attention and control from the Ancient Giant Demons. As of now, Long Chen was not their match, he had no way of recovering them.

The Ten Thousand Deadly Claw was ultimately unable to completely resolve this terrifying crisis.

He now deeply understood that this would be an unprecedented upheaval in the Immortal God Realm.

"You are Long Chen? What do you think we should do? "

The eight-armed Eight-Eyed Ape came to his side and asked in a daze.

"The Ancient Giant Demons are this scary, and no one can save the situation. Right now, it is very likely that the Demon, Sea and Witch races are all coming out to attack the human race. What do you think I should do?" I have to ask you what to do. "

He couldn't kill all of these hundred thousand demons.

"Try it. Can you order them?"

The Eight-Armed Eight-Eyed Ape nodded. He brought a few experts with him. They were the strongest out of the one hundred thousand demons.

"Everyone, we have lost today. Follow me back!"

The eight-armed eight-eyed divine ape roared loudly.

100,000 demons were now severely injured. When they heard this sound, they were puzzled for a moment. However, the baleful aura in their eyes did not disappear. Instead, it became even more fiendish!

The Eight-Eyed Eight-Eyed Eight-Eyed Ape told them to do whatever they wanted, but they couldn't make them retreat!

Seeing this situation, Long Chen said helplessly: "I will first control all of them, then bring them back. This battle must be stopped, all of you must do your best to stop it as much as possible."

The Eight-Eyed Eight-Eyed Ape nodded and said, "I understand. There won't be any victors in a battle like this. There will only be countless casualties on both sides and the only victor will be the Demon Star. Once we get our hands on the Five Dragons Pearl, we will be able to untie the Magic Star Seal and the one to suffer the consequences would be our Immortal God Realm. "

At least they could understand what was going on.

With the power of the Eight-Eyed Eight-Eyed Ape, it shouldn't be a problem to control these demons. When Long Chen pretty much injured them, the Eight Armed Eight-Eyed Ape said, "Let's go!"

A dozen of them released a huge wave of demonic energy that formed a network, enveloping around ten thousand people each and surrounding the rioting demons.

"With the arrival of the natural disaster, we demi-humans have no other choice. If we attack again, please show mercy to us demi-humans. If we can survive this disaster, I think the great demon lords will personally come to atone for it."

The Eight-Armed Eight-Eyed Ape sighed as he spoke.

"Hopefully, I will be able to pass this trial!"

Long Chen actually didn't have any confidence at all. He knew better than anyone that the sixteen Demon Masters, the eight Saints, and the six Ocean Emperors only had fifteen Dragon Emperors on his side. This enormous gap was enough for the human race to truly be annihilated.

Normally, this would not happen, because whether it was the Demon Lord, the Saint Mage, or the Ocean Emperor, they would all treasure their own lives.

Both sides were miserable.

But at least, Long Chen was able to block their first attack. Now that the demons had left, the soldiers at the border were finally relieved.

It was just that the crisis had just begun.

Turning his head back, Long Chen saw countless people looking at him with gazes of admiration. Perhaps in their hearts, he was already a god.

But Long Chen's heart was trembling.

He remembered the words, within a hundred years, the entire dragon sacrifice was annihilated.

And now, under the control of the ancient Giant Demons, there was an eternal rebellion. Was this the prelude?!

Not to mention the mysteriousness of the war of gods, not to mention the might and terror of the Ancient Giant Demons, not to mention the opponents that were involved in Long Qinglan's death, just how many people in the entire Dragon God Domain would have lost to the three races in this desperate attack? How many lives would be destroyed in the Immortal God Realm?

Long Chen was only one person, facing these tens of billions of lives, he had no way of saving so much.

But, no matter what, this was still his home. It was the last inheritance of the Divine Dragon, and was even the place his father guarded.

The people Long Chen loved, protected, and valued were all here.

As a powerful expert, he had to shoulder a great responsibility.

Especially after Long Chen had inherited the Legacy of the God Realm's Heart Refining Dragon's blood essence, the word "responsibility" had grown even stronger in his eyes.

His four divine dragon bloodlines gave him an incomparable desire. This was the mission that the Ancestral Dragon had entrusted to him, to protect this place, their final home, and to save this crumbling world!

This was his supreme mission.

At this moment, Long Chen had already realized it clearly.

The world was in chaos. As the successor of the Ancestral Dragon and the guardian of this world, what did he need to do?

Protecting this homeland was the deepest desire in his heart!

But how could it be easy to protect?

There were a total of twenty-eight experts comparable to Dragon Emperor. If they gathered together, even if fifteen of them went all out, and fought a battle to the death against each other, without question, there would still be some casualties on the enemy side. However, there wouldn't be many that could survive against fifteen Dragon Emperor.

Countless people looked at him.

However, there was still a deep fear in their eyes, as if they had yet to truly react to this matter.

Long Chen returned to their surroundings, and without a word, everyone stared at him.

Long Chen clenched his teeth. From today onwards, he would have a new mission. This was the mission given to him by his bloodline, and he would protect this place.

The cold wind from South Wind continuously blew towards the starry sky, making everyone's long hair and clothes fly up in the air. The smell of blood in the air was growing stronger and stronger.

At that moment, Long Chen stood at the highest position.

He looked to the west, where the three clans were already gathering. Five billion of them were preparing to attack.

"Everyone, although it is very helpless, the war has already arrived. No one can escape from it. We cannot retreat because our territory lies behind us. I do not care what happens to everyone here. I will protect this place and do my best to protect my home. "
