

War God 2381

Chapter 2381 - The Calamity Beast

Now, even the Five Dragon Cities knew about Ling Xi.

They were also shocked by the sudden surprise. If he could succeed, it meant that he wouldn't have been able to cross this tribulation before. There would be a certain amount of hope.

This was a huge turning point.

The arrival of dawn and the hope for survival spread across the entire Five Dragon Cities in an instant. There weren't many people who knew Ling Xi in the beginning, but now, practically everyone in the entire Dragon God Domain saw her as their savior.

Most importantly, she was still Long Chen's woman.

As of now, he had not completely succeeded, so the pressure on Ling Xi was becoming increasingly large, to the point that it was terrifying. The responsibility that she was shouldering now was even greater than the responsibility that Long Chen had shouldered in the past. If not for Long Chen's constant protection by her side, she probably wouldn't have been able to endure it.

The Blood Red Dragon Emperor quickly prepared the necessary ingredients and sent them to the central palace.

In the past, the central palace was a forbidden area. Not many people came here, but now it was different. Even though it was empty and not many people came in, there was a sea of people outside.

When everyone was activating the Celestial Slaughter Map, they also cast their eyes towards the central palace. The Celestial Slaughter Map and this gigantic Heaven and Earth Transference Array was the only chance for the entire human race to survive!

Missing one would result in certain death.

It was already the second day. During this period of time, many demon clan members had come to the Blood Sea, but they were easily killed. There was only a little bit of the Celestial Slaughter Map left and it

would require the three Dragon Emperors to be in charge in order for it to truly be activated. Now they were preparing.

Ling Xi was busy working in the center of the palace, she was not tired at all, her entire body was glowing with a white light, like a goddess, she danced and set up array formations. Along with her hard work, one rune after another was being set up by her, many ingredients were changing their appearances, and they were being incorporated into the array.

This extremely large Heaven and Earth Transference Array was hundreds of meters in diameter, much larger than the arrangement set up by the Goddess Heart. Long Chen clearly knew how difficult this was, especially under such pressure, Ling Xi had not rested at all. He had spent a great deal of time and energy to set it up for this one day, which was why Long Chen had consumed such a large amount of energy.

However, as long as he succeeded, all of this would be for naught.

When Ling Xi was tired, as long as she raised her head, she would be able to see Long Chen, who was constantly looking at her at the door. This way, she would be at ease and forget about everything else.

"Master, Mistress is really too beautiful. You really are lucky."

Luo Yan, Pang Hong, and Liang Teng, who had been standing beside Long Chen for a long time, spoke out those words.

"Of course, she is a hundred times prettier than Sister Luo Yan." Some people outside shouted. They were also members of the Dragon-Battling clan. They were Li Shuangyu.

"You're asking for a beating." Luo Yan glared at him angrily. When he looked out, he could see crowds of people, all of them looking up into the sky. A curtain of blood was slowly forming in the sky.

That was the Celestial Slaughter Map.

"What do you think?" This was the first time Long Chen had turned his head around. Although the three of them looked to be about the same age as him and even a little older than him, they seemed like three of the younger generation in front of him.

Pang Hong pursed his lips, shook his head, and said: "Basically, it's two against one, and everyone needs to face two opponents of equal level, especially the Dragon Emperor's battle, which is even more crucial. Although the Celestial Slaughter Art is about to be completed, there's hope for the Heaven and Earth Transference Array, but I feel that it's not that easy to fight them, no matter what, there's still two times the opponent's number, so once the Celestial Slaughter Art is broken, the Heaven and Earth Transference Array will no longer be of use."

Liang Teng said, "Moreover, with the speed of the demons, plus the arrival of the Shanghai and Witch Tribes, whether you guys can quickly lay down the Heaven and Earth Transference Array in all five Dragon Cities is also a troublesome question."

Luo Yan said, "Don't be too pessimistic. He can do a lot of things without Master. As long as we are willing, there will be hope. Master, what do you say? "

Long Chen laughed helplessly, and said: "No matter what, a death match is fine. You're right. No matter how cruel reality is and how terrifying the opponent is, as long as we all work together and work together, there will be hope for us no matter what. People would always die. Wouldn't it make more sense to die at this moment? "At least they won't die alone."

"En!"

Everyone agreed with his words.

However, for the hundreds of millions of people outside, although the Heaven and Earth Transference Array brought new hope, once they thought of the thirty powerful enemies at the peak of the realm, their hearts felt as if they had a thorn in their side.

This thorn was truly terrifying, terrifying, and filled with despair.

A desolate aura swept through the entire Dragon City. The strong smell of blood did not only come from the sea of blood, but also from the Dragon God Domain that was currently occupied by the demons, sea races, and witches!

On this day, they abandoned all their homes and gathered together.

On this day, they clenched their teeth tightly as tears welled up in their eyes. They went to face this sudden and rarely seen calamity.

When Long Chen looked at those terrified faces, he couldn't help but recall that terrifying sentence.

"Within a hundred years, dragon sacrifice will be destroyed."

extermination

With the disappearance of the entire world, no one could survive. This beautiful world would forever disappear, this place that contained countless memories and countless hopes. This was the home of all the people, the last legacy of the divine dragon. Long Chen's entire body felt as if it was burning up.

He wasn't afraid of death.

Now that he found a new value in the world, he was not afraid of death. He wanted to fight, he wanted to protect, and he wanted to shoulder all these responsibilities. It was not for the sake of greatness, but for the sake of dignity, for the sake of obsession, for the sake of his love for this world.

Turning his head back, Ling Xi saw that she was busy giving him a sweet smile. Her support and affirmation gave him the greatest strength!

The entire stretch of land was dyed with the color of blood.

This was a place where it was impossible for a demon to appear, but now, thousands of beasts were charging in. The gigantic beasts that came from the demon race and the sea race charged into this land without any obstructions!

Tens of millions of demon clan members were wreaking havoc in the Dragon God Domain. Even if they could not touch the human race, they had to destroy them.

"Something's not right. There's no one here. "Where did you go?"

Hidden within the nine colored light was a beautiful woman. Her figure was beautiful, her skin was snow-white, and her long hair had nine colors. This was one of the Demon race's Demon Lords, Jiuhuang.

Beside him was a black-haired man with a tall and thin body. His face was as pale as paper and his fingers were long and slender with sharp nails.

"There aren't so many places here. It seems like the humans gathered everyone here early on. Where did they go?" They are small and have a divine country, so they can do this. "

"Five Dragon Cities."

Right at this time, another powerhouse came from other directions. Originally, it was quite far away, but after a flash, it arrived in front of Jiu Huang and the heavenly dog.

There were four of them.

Among them, Long Chen was perhaps very familiar with three of them. They were the Ocean Divine Emperor, the Tyrant Divine Emperor and the Purple-eyed Emperor. Three of the six emperors of the Sea Clan. The last one was a woman shrouded in black fog. She was very skinny and looked very scary. Her body gave off a very uncomfortable feeling, which was why the other five people didn't dare to get too close to her.

Just now, the four words Five Dragon Cities was spoken by this skinny woman.

"How do you know, Uriah?"

Jiuhuang asked directly.

Judging from the address, this should be one of the Demon race's Demon Lords, the 'Nefarious Almighty Beast'. It was also an extremely high level bloodline, and it was also a symbol of misfortune. It was said that those who were close to the Woeful Beast would not have a good ending in the end. It was said that the Woeful Beast could absorb the fate of others and transfer its fate to one's own body.

First Ocean Emperor, the Ocean Divine Emperor said.

Chapter 2382 - Monster blood essence spirit dragon

Ling Xi was still working hard to set it up.

Long Chen on the other hand, looked outside. Now that the Slaughter Heavenly Diagram had been formed, the entire Dragon City was under the protection of the Slaughter Heavenly Diagram.

When necessary, he could even activate the Celestial Slaughter Map, escape, and take away the entire Dragon Slayer City. Of course, that was a last resort.

As long as it was a human, they would be able to gather their power together. Now, it was a spectacular sight, with countless dragon heads on the blood screen. Each dragon head connected to a long, blood-red line that floated down.

Over a hundred million martial artists, none of them could hold onto a long line. That long line was directly connected to their arms, connecting them to their meridians.

Everyone was now able to contribute their energy to the slaughter of the Heaven Slaughter Diagram.

They were protecting themselves!

In Long Chen's hands, there was also a long red line. Indeed, the three Dragon Emperor s did not want him to participate in the battle directly, but wanted him to become a part of the Slaughter Heavenly Diagram.

Of course, before Ling Xi succeeded, she wouldn't be able to do anything. After all, Ling Xi's side required a lot of energy.

Turning around, he saw that the beautiful and gentle woman's face was slightly pale. Her continuous work had caused her to be absent-minded, and fine beads of sweat could be seen on her forehead.

However, when people were pleasantly surprised, the entire super large Heaven and Earth Transference Array had been set up to the point where it was almost ready. Now, the light shone and continuously spun, causing the surrounding space to fluctuate intensely. The weak practitioners who stood there could very well be sucked into the spatial cracks, so Long Chen let Liang Teng and the others out.

Time passed silently, quiet as water.

And then, at a certain moment, it suddenly exploded.

"The demon clan army is here!"

"Inexhaustible! I'm afraid there are tens of millions, or even hundreds of millions! There are even Sea Tribes!"

After a day of fighting, the six experts gathered a large number of demon clan experts to assist in the attack. Although there were many of them, this portion of the sea race's demon race's power was to harass and resist the Slaughter Heavenly Diagram to wear down the power of the Slaughter Heavenly Diagram. Even with so many armies, they were still of great use.

As long as they could destroy the Celestial Slaughter Map, they would win.

The people below couldn't see far, and only the elites flying below the Celestial Slaughter Diagram could see. Although he didn't know how many opponents had arrived, judging from the energy fluctuations in the air, the roars that filled the sky meant that there were definitely a lot of them.

"Prepare to fight!"

This was the voice of the Blood Tyrant Dragon Emperor, which spread throughout the entire Dragon Slaying City. The people who were originally still somewhat afraid couldn't help but feel their hearts tremble at this moment!

They had hope of victory, and the Celestial Slaughter Map wouldn't be destroyed that easily. As long as they persevered, they would be able to survive!

"Fight!"

In a moment, everyone followed suit and roared.

Long Chen was standing at the entrance of the Central Palace. Since Ling Xi had not succeeded, he could not help him out yet.

However, he was also getting nervous.

Today, it was the Monster race that started it all. Just how many of the top powerhouses had arrived? Could they still hold on? After today, would everyone die!

It was all a question.

"Brother Chen, don't worry, I'll be there soon."

Their hearts were intertwined, so Ling Xi was definitely clear about what was on her mind.

"En!"

Long Chen could still endure it.

He looked over, and at this time, countless people's fearful eyes became firm, and people began to cheer for them.

"Don't worry, it's just a small matter. No Demon Lord or the Ocean Emperor appeared." The people at the top looked at the densely packed Demon Sea Legion and said.

Just with these, they will be unable to kill us for ten days and ten nights. Everyone need not panic, the Celestial Slaughter Art was left behind by our ancestors when they were building the Five Dragon Cities tens of millions of years ago, and they can gather all of everyone's power. With over a hundred million people supporting us, it is unheard-of, and as long as everyone is confident and hot-blooded, we will not lose!

For a time, the hundreds of millions of people clenched their teeth as they heard these words. It was time to test out just how amazing the slaughter diagram was.

Everyone could see that the three Dragon Emperors had passed through the Slaughter Heavenly Diagram and were outside. When they arrived outside, their bodies were actually connected to the Slaughter Heavenly Diagram, and they could also provide power for the Slaughter Heavenly Diagram.

"With so many demi-humans and Sea Tribes here, it's impossible that no one will be able to command them."

Dragon Emperor looked into the distance. He knew that his opponent was about to appear!

Indeed, at this moment, six specks of light appeared in their field of vision.

"Six!"

The faces of the three people changed.

As long as this number exceeded three, today would be a terrifying battle to the death. Now, Ling Xi had only set up a Heaven and Earth Transference Array, and had not even succeeded yet, so at least today, no matter what price she had to pay, she could not lose!

However, even with the support of the Celestial Slaughter Diagram, it was still too difficult to force back six martial practitioners of the same level.

Nine Phoenix, Tiangou, Devil Beast, Sea Divine Emperor, Tyrant Divine Emperor, and Purple Eyed Emperor!

The arrival of the six peak experts brought a fatal pressure to everyone within the human race, making it difficult for them to breathe. They knew that their own life and death was currently grasped within this thin layer of blood.

At this time, everyone had already begun channeling power into the Slaughter Heavenly Diagram. The entire diagram lit up with the roar of billions of dragons. The killing intent immediately scared away a portion of the unranked demons.

The demonic clan's army was a mixture of good and bad. They even had young magical beasts that had just been born.

"There are six of them!"

"Can we win? Today, will all of us die here? "

"With such a resistance, there is no chance of winning at all. If the three Dragon Emperor s are defeated, the consequences will be unimaginable!"

Just as he mustered his courage, a different voice sounded in his heart.

This caused their hearts to tremble.

If he was afraid for a long time, then nothing good would happen.

In the sky, six experts broke through the sea of blood and wind as they charged forward, appearing before the three Dragon Emperor s.

"Six against three, two against one. How wonderful!"

The Sea Divine Emperor was the number one Ocean Emperor of the Sea Clan, and might actually be the strongest amongst the six. When he just arrived, he seemed to have forgotten the pain Long Chen brought him as he laughed loudly.

Nine Phoenix's flaming eyes flashed, and she said coldly: "Three Dragon Emperor s, I will give you one last chance. Hand over the Slaughter Dragon Pearl, and we will leave immediately. This is not a big loss for you guys, I suggest you listen to me obediently. "

Dragon Emperor asked in a deep voice: "No losses? Once you hand the five dragon pearls to the devil star and open the Magic Star Seal, then the entire Immortal God Realm will be under the control of the Immemorial Troll, and all of us will be his slaves! "

This was the reason why he couldn't hand over the five dragon pearls no matter what price he had to pay.

Ancient Giant Demons, that was truly terrifying.

These four words, to these peak rankers, was in fact a signal to make them take action. They could not hear the words of the Blood Tyrant Dragon Emperor at all, and the thought force in their minds urged them to immediately attack!

"Looks like you guys are tired of living. Jiu Huang, how about we work together to deal with this Blood Tyrant Dragon Emperor? " The Sea Divine Emperor said imposingly.

"Fine, let's see who will kill him first!"

Nine Phoenix and Sea Divine Emperor joined hands to deal with the Blood Tyrant Dragon Emperor first.

Then, the Woeful Beast and the Ocean Emperor targeted the Ten Thousand Killing Dragon Emperor.

Tengu and the Sea Race's Tyrant Divine Emperor versus Blood Dragon Emperor!

At the same time the three great battles began, hundreds of millions of demon clan members began to violently charge towards the Celestial Slaughter Map. At the same time the three great battles began, hundreds of millions of demon clan experts began to fiercely charge toward the Celestial Slaughter Map.

In the sky, at the same time the six peak rankers displayed their true forms, the three Dragon Emperor s turned into dragons as if they were dead. In this battle, they had long decided that even if they had to die, they would stop them and give Ling Xi the chance to win!

In the sky, there was a nine-coloured phoenix sweeping across the world. There were huge Spirit Sea sharks that treated the starry sky as an ocean, causing tsunamis.

There were endless black shadows, and a gigantic turtle that looked like a mountain was flying through the starry sky. There was a purple-eyed emperor crab that opened its gigantic claws, tearing apart the starry sky and shattering the stars.

Of course, there were also the three most dazzling divine dragons!

They are all the most pinnacle Ultimate Dragon!

The Blood Tyrant Dragon Emperor was the 'Spirit Dragon of Demonic Blood'. Legend has it that it was formed from a drop of fresh blood from the Ancestral Dragon that was slaughtered. It had power, and was at the top of the Ultimate Dragon s, nearing the Unparalleled Dragon.

The Emperor Blood Dragon Emperor was formed from a single drop of the Primordial Blood Spirit Dragon's blood. However, it wasn't the 'Heavenly Blood' because of it, but rather because of the 'Heavenly Burying Blood'.

The Thousand Slaughter Dragon Emperor was a trillion Godslayer Dragons. It was a true killing dragon with a ruthless temperament who had once committed a grave mistake in the The Age of Dragons.

If they were in another place, the three Dragon Emperor s would definitely not be able to fight one against two.

But now they could just barely do so, because the Celestial Slaughter Map had brought them the strength and courage to fight to the death.

Within the Celestial Slaughter Diagram, everyone seemed to close their eyes as they used their powers to resist the impact of the billions of demons!

In the middle of the Central Palace, Ling Xi was completely focused.

Long Chen closed his eyes, he did not want to see everything, the blood in his body was ignited, he wanted to participate in the battle, but he was not able to.

Therefore, he could only endure and endure it, not affecting Ling Xi's final preparations.

He heard countless heartbeats. Even if he closed his eyes, he could still see the struggles of his people. This disaster had suddenly occurred, and many people hadn't even reacted yet!

As they replenished their energy, they stared blankly at the terrifying battle taking place in the sky. The aftermath of their battle had caused the deaths and injuries of countless members of the Monster race, the Sea race.

Chapter 2383 - Myriad Blood Prison

The Celestial Slaughter Map was a unique advantage that allowed the most powerful warriors in the northern territories to gather all of their power. It was impossible to destroy the Celestial Slaughter Map with just the random assaults of the hundred million demons and the sea race.

After withstanding the initial impact, everyone was relieved.

Other than the six peak-level experts, these motley group of people would have to break the Celestial Slaughter Map unless they were able to gather their strength at a single point.

"Brothers and sisters, we can rest assured. Other than the six great demon lords and the Ocean Emperor, these demon clan and Sea clan members simply don't have the ability to break the Celestial Slaughter Art!"

"Victory will definitely belong to us. We just need to persevere bravely and persevere on!"

"No one wants to die. The only way to not die is to persevere. We cannot give up. It's just that I'm sorry for the blood flow to your bodies! "

"Fight!"

Over a hundred million people roared out again and again. In the beginning, they didn't care what kind of impact the outside world was going through. All they cared about was blocking everything. Their faith ... was now the Celestial Slaughter Diagram!

But in reality, the true victory and defeat in this battle was determined by the battle between the three Dragon Emperor s and the six peak rankers.

Long Chen was actually not worried about the weak crowd, he was similarly worried about the situation of the three Dragon Emperors, with the same strength, but facing two of them head to head. This was simply too difficult, the other side wouldn't be weaker than him, not to mention repelling them, even protecting their lives would be a problem.

For example, in the eyes of Long Chen, the first Dragon Emperor Demon Blood Essences spirit dragon was currently fighting against the Nine Phoenix and the deep ocean behemoth Sea God Teeth. On one side was a nine-colored sea of flames and on the other was an endless ocean storm.

This demon blood spirit dragon had a pair of bloody wings that were as sharp as knives. It was a powerful weapon.

"Bloody Blood, take out the Slaughter Dragon Pearl, don't force us to use any tricks!"

A blue light burst out of his eyes as he shot forward. Even though the Goblin Dragon had dodged very quickly, a portion of the blue light had still struck his bloody wings!

Ding!

In just an instant, the frozen portion was shattered by the Blood Tyrant Dragon Emperor.

"Don't even think about it!"

The divine dragon's massive body swept out, brimming with a monstrous blood-red light as it charged towards the Sea Divine Emperor.

"Ten Thousand Layers Blood Prison!"

A pair of gigantic blood-colored wings flapped, forming a majestic blood-colored tornado that tore through the countless stars, breaking through the endless sea created by the Sea Divine Emperor. The wriggling blood-colored light had a terrifying power, as it landed on the ground, and was able to destroy the entire mountain range that spanned millions of meters!

The ten thousand layers of the Blood Prison, one followed by the other.

"Forgot me?"

At this time, the Nine Phoenix had already rushed up to the heavens. When the Blood Tyrant Dragon Emperor was attacking the Ocean Divine Emperor, she opened his nine-colored wings and released countless divine flames, sealing off all directions of the Blood Tyrant Dragon Emperor!

When the nine phoenixes attacked, the Sea Divine Emperor seized the opportunity to counterattack. It was also the most difficult double attack!

"Immersion Needle!"

The gigantic Sky Bearing Pillar swept towards the Blood Tyrant Dragon Emperor, but he actually used his teeth to attack, and he was even able to unleash such a violent attack!

The attacks of an expert of this level would cause the heavens and the earth to shatter.

If the Slaughter Dragon City didn't have the Slaughter Heavenly Diagram, they would have been destroyed long ago.

The surrounding sea of blood exploded, turning into ashes!

To the Sea Divine Emperor, resisting two kinds of attacks at once was naturally extremely difficult, but he had to rely on it to fight it out. Only by putting his life on the line would he be able to obtain the only chance!

He did his best to resist and split the Ten Thousand Blood Prison into two parts to deal with two opponents.

As a result, he wasn't able to completely block the two attacks. Most of them struck his body, and the dragon scales on his body exploded. Fresh blood splattered, and he was sent flying far away!

"Ugh!"

The Blood Tyrant Dragon Emperor endured the pain and used the power of the Slaughter Heavenly Diagram to heal his body. Gritting his teeth, he pounced once again! That murderous look in his eyes told his enemy that even if he died today, he wouldn't retreat, and he wouldn't fall.

The condition of the other two Dragon Emperor s was actually more or less the same as the Blood Evil Dragon Emperor.

"Stop him, I'm going to have a good show."

The Sea Divine Emperor's huge shark mouth revealed a brand like evil smile.

"Go!"

The nine phoenix spread out its nine colored wings, scattering out rays of multicolored light that covered the sky in a majestic manner. She blocked the path of the Demon Blood Essences spirit dragon, and right at this moment, the Sea Divine Emperor behind her suddenly enlarged the Sea Freezing Divine Needle infinitely. Then, she flung it out of her dream and the gigantic Dao Artifact descended from the sky!

His goal was the Celestial Slaughter Art!

This unexpected event was very sudden and fast. Everyone was still resisting the attacks of the Sea Race. The Immobilize Sea Needle pierced through a few of the demon beasts and ferociously smashed into the Celestial Slaughter Map!

"Boom!"

In that moment, a huge tremor occurred on the Celestial Slaughter Map. A terrifying explosion sounded out, causing most of the warriors to immediately kneel on the ground. They almost vomited a mouthful of blood.

"What's going on!"

"Are we finished!?"

"It's over, it's all over. We can't hold on any longer!"

In a moment of despair, countless cries of agony rang out. Some people were injured and fell to the ground. After all, the tremors caused by the attack of the Sea Divine Emperor was just too strong.

Long Chen had also personally witnessed it himself.

"Damn it!"

An expert at the level of the Sea Divine Emperor was extremely concentrated. However, everyone had suffered such an attack without any preparation, which could only mean that the other party was extremely crafty.

At this moment, not only did it shock the slaughter map, it also made some of the human beings panic and lose their confidence.

"Everyone, don't be anxious. It's just a small accident and everyone has to concentrate on what's coming next. Even the Ocean Emperor was unable to break through the Slaughter Heavenly Diagram. Please trust me. "

The only thing that Long Chen could do was encourage them with his words. His identity was very persuasive, causing everyone to stand up again and grind their teeth to resist!

The situation for the three Dragon Emperor s was the same. If not for the support of the Celestial Slaughter Art, if not for their unyielding courage, and if not for the responsibility they had in their hearts, they would never have been able to stop the six opponents at the same level for so long!

In the sky, there seemed to be dazzling fireworks.

The sky had been completely shattered and the sea of blood on the ground had disappeared. The Dragon Slayer City was almost suspended in the air, amongst them, tens of millions of demon clan and Sea Clan members had died in the battle of the nine pinnacle warriors.

The six peak experts of the Monster race and the Sea race didn't care at all.

The three Dragon Emperor s could only apologize, they could not even protect their own people, and were even less able to protect the others. At this point, their bodies were practically riddled with holes and full of scars, but they still did not fall down.

However, their opponents were each more cunning than the other.

They were not in a hurry to fight to the death, but were instead exhausting themselves with the three Dragon Emperor s. Other than the fact that they did not seem to know anything about the Ancient Giant Demons, their intelligence was extremely normal.

Their craftiness lay in the fact that after Sea Divine Emperor started, the other five people all learned about it. They all knew that the most nervous of the three Dragon Emperor s was the Slaughter Heavenly Diagram.

Therefore, when the millions of people were fighting against the Monster race and the Sea race, the second wave of attacks would arrive!

"Be careful!"

This time, Long Chen sensed it ahead of time.

His heart was already filled with anxiety, but he still couldn't make a move!

Ling Xi had truly reached the last moment, the moment where she was about to succeed.

This time, it was the Purple Eyed Emperor who found an opportunity. A powerful beam of purple light shot out from his eyes and struck the Celestial Slaughter Diagram!

This time, with Long Chen's warning, everyone used almost all of their strength to resist this time's attack.

"Boom!"

But even so, the purple light still caused a huge shock to the Celestial Slaughter Map. It caused everyone's body to sway for a bit. Their internal organs received a certain amount of impact, and they felt as if their blood was boiling.

But at least he was able to hold on!

However, they were not happy. If this carried on, they would still attack endlessly, and as long as the three Dragon Emperor s did not repel them, death would not be too far away!

"Brothers and sisters, hold on!"

"They can't do anything to us, hold on! We have no way out. Once the Celestial Slaughter Map is broken, everyone will die! "

"We cannot distract the Dragon Emperor!"

At this time, under the encouragement of more and more people, everyone finally had some courage.

However, when the attacks of the six peak level experts descended from time to time, as the injuries on everyone worsened, this bit of courage would eventually be used up. Long Chen could only watch as they consumed more and more energy, the injuries on their bodies became more and more serious, their expressions grew dimmer and dimmer, and their courage also decreased!

The six peak-level experts were all laughing loudly.

"Aiyaya, it seems like the Celestial Slaughter Map is about to be broken."

"Truly useless. I'm merely trying it out a few times. I'm about to lose it. Truly boring."

"Everyone, let's kill these three Dragon Emperor s first. When the time comes, do you think we won't have the Slaughter Dragon Pearl?"

Under the assault of these words, the human race were close to collapse no matter how confident they were.

"Everyone, don't listen to their nonsense. They can't beat you!"

The enemy could not kill them, but they could not stop the two opponents either. If his opponent wanted to destroy the Celestial Slaughter Art, they could only stop one of them.

Even though the three Dragon Emperor s were betting their lives on it, the Celestial Slaughter Art still continued to suffer the attacks of the strong, causing more and more turmoil.

"We're dead meat."

Under the attacks of the six peak level experts, everyone's faces became darker and darker.

Chapter 2384 - Courage to Break the Heavens

"Boom!"

Once again, the Sea Divine Emperor broke through the interception of the Bloody Dragon Emperor, and the gigantic Immortal-Freezing Sea Divine Needle once again swung onto the Slaughtering Sky Diagram. This time, the shockwave was unprecedented, because the courage and power within his body had undergone a large consumption, so his resistance this time was the weakest!

This also directly caused the Sea Divine Emperor's attack, causing everyone the greatest amount of damage. The Sea Freezing Divine Needle shook, causing a large number of warriors to directly spit out a mouthful of blood. Some of the weaker ones even fell to the ground, unconscious!

When this had happened, what had happened was true terror.

"Who's going to give it their last try? Haha, I knew these little guys wouldn't be able to hold on!"
Another time and they'll be finished! "

Their arrogant voices sounded out in the sky.

With World War II's One, they could easily spare one person in a short period of time. No matter how strong the three Dragon Emperor s were, they could not completely suppress two people from the other side!

It was his shamelessness that had caused the destruction of the entire Slaughter Dragon City.

Many people did not retreat. He was still persevering, but he had lost all courage, because this was very scary. If this went on, he would truly suffer heavy injuries, and even the Celestial Slaughter Map would truly be torn apart.

On one hand, he was very angry and wanted to attack immediately. On the other hand, he was also worried that his anxiety had affected Ling Xi, so if he stopped at this moment, then all his work would be for naught.

"Stand up, stand up!"

This time, he seemed to be roaring, the sound producing a loud rumbling that shook the entire Slaughter Heavenly Diagram. Everyone understood that this was Long Chen's voice.

Aside from the fifteen Dragon Emperors, he was the biggest pillar in everyone's hearts.

Hearing his words, the injured people gritted their teeth and stood up.

"Let me tell you, the Celestial Slaughter Map is not that easy to break. What you have lost right now is not strength, but courage! It was the determination to resist this battle! Don't be fooled by them, I, Long Chen, promise you with my brain, even if I were to break the final part of the Celestial Slaughter Art, I will still stand in front of you.

His eyes were filled with rage and he almost roared: "What about death? Everyone had to die, either to be killed or to die in Eighteen Major Tribulations. There would always be a day like this, but what was the point of that! If we want to die, we have to die today. We have to die here for our home, for our dignity, for the blood flowing from our bodies! If you make such a decision, what is there to be afraid of, isn't it death! They said they could break the Celestial Slaughter Map, would that do? Why? Our humankind has been around for thousands of years and is the descendant of a Divine Dragon. Why should we die here? "

"If you don't want to be defeated, if you don't want to be a grandson, if you don't want to be ashamed to face your family and friends, and your home, then use your courage to fight and fight. If you're not even afraid of death, are you afraid of losing?"

He was at a loss for words and did not even know what he had said.

He only knew that everyone should do the same, everyone should bear the responsibility, everyone can die, but at the very least, they should bear the responsibility before dying, such a thing is extremely precious, other than those above Ultimate Dragon s who are being cared for, everyone else could only die once, if they could die valiantly, die at their place, why not choose this way?

To live on, to mediocre and mediocre death, that was the true sorrow.

Long Chen didn't know how many people he could motivate.

He would always have an undefeatable strength in his heart. It was the courage to face difficulties.

Brave, but this is the hardest thing to do.

"Stand up, stand up!"

Many people agreed with what he said and started to roar, countless people started to scream, and when that tragic scream filled the entire Dragon Slayer City, and Long Chen saw their bloody eyes, he knew, he had succeeded. He still couldn't stop the destruction of the Celestial Slaughter Map, but he could at least prolong it.

And then, he was just waiting for Ling Xi.

He almost closed his eyes and heard his own heart pounding.

Finally, at an unknown time, Ling Xi's weak voice came out.

She walked out from inside, and behind her, was a gorgeous Universe Teleportation Formations.

"Success!"

Her lips had even lost all color. It could be seen how exhausted she was today, after all, this was the first time. To construct such a huge Heaven and Earth Transference Array, it truly wasn't easy.

She fell in Long Chen's arms.

"Have a good rest."

Long Chen brought her to the Divine Kingdom.

"No, I have to go with you in order to use the Three Lives Calamity!"

Long Chen shook his head, although Three Lives Love Silk could make the two of them become stronger, and he had even more power, but she had already reached his limit today and could not force himself, so she had to rely on himself.

"Have a good rest."

Long Chen gently caressed her face. There were tens of thousands of emotions in his heart, and the moment his gaze left the room, it turned into thousands of hot blood.

He allowed Ling Xi to return to the Divine Kingdom to rest.

During this period of time, the other party was still non-stop bombarding the Slaughter Heavenly Diagram. Although they had Long Chen's encouragement just now, if this continued, everyone would eventually overdraft their strength, including the three Dragon Emperors. Thus, they did not have any absolute methods to resolve this situation.

The first thing Long Chen did was to fly down to the sky right under the Slaughter Heavenly Diagram.

When the crowd saw him, new hope emerged. They were truly too exhausted, and they also suffered some injuries.

Long Chen's appearance meant that the gigantic Heaven and Earth Transference Array had already succeeded.

As long as he survived this disaster, there would be hope!

Persistence!

Everyone could not help but roar.

It was a deathly pale face, but its eyes were bloodshot and filled with courage!

Courage will bring victory!

The only thing Long Chen could do now was to expand the flames of his life. He couldn't care about anything else and turned into a dragon in the sky.

Taiji Creature Dragon!

The fifteen dragon heads shook the world!

Everyone wiped their eyes and realized that they were not mistaken. The coiling divine dragon actually possessed a terrifying fifteen dragon heads!

"Fire of Life!"

This was the best use of Long Chen's fire of life. Everyone's injuries weren't fatal, just a little of each person's life force would be able to save a lot of things.

The green flames engulfed the entire Slaughter Dragon City. Although it did not bring everyone back to their peak condition, at least it gave them a new chance of survival.

They possessed even more power to resist the onslaught of the six experts and the other demon clan members!

"Slaughter the Dragon Emperor!"

It was unknown who shouted first, but it evolved into a fanaticism of over a hundred million people, which seemed to be a type of faith, allowing Long Chen to have unparalleled and surging power!

Heroes emerged from the chaotic world.

Long Chen's birth could be said to be even more legendary and breathtaking than Long Qinglan's, and when the riot arrived, although he was not at his peak yet, he had already contributed a huge amount of contribution points!

Of course, he was not greedy for the so-called achievement, as any title did not have much meaning to him. What he wanted was to complete his own protection, accomplish his own mission and responsibilities, and be worthy of the heavens and the earth, worthy of his lover, parents and brothers, and be worthy of the lives of billions.

Just by resisting here, there was no hope for the three Dragon Emperor s to fight against the six experts. They would only continue to wear down until the Dragon Slayer City was destroyed.

Long Chen did not feel that he was that strong, but he should do this for the final victory. The only way to win was to use his own courage to contribute his strength.

Thus, he charged out of the Slaughter Heavenly Diagram under the gazes of everyone present!

"Brothers and sisters, cheer for me!"

His actions caused everyone's minds to become bloodshot.

Everyone knew how dangerous it was to go out in front of a place where peak rankers were wreaking havoc. As soon as Long Chen finished his mission, he immediately went out.

This kind of person was not worthy of respect or admiration. Who else could it be?

"Kill!"

Perhaps only this one word could perfectly describe the fervor in their hearts right now!

The three Dragon Emperor s knew what Long Chen was thinking.

They originally wanted to let this child escape and then pass on his power to the humans, but he didn't do so. He chose to do so, and regardless of whether or not there was that kind of power, he wanted to break out of this deadlock and pass this trial, letting these six roll back.

The six of them naturally discovered Long Chen as well.

"Who's going to catch this little guy? If we catch him, these three old fellows will definitely hand over the Slaughter Dragon Pearl. "

Jiuhuang coldly asked, his tone full of disdain.

Both Tyrant Divine Emperor and the Purple Eye Emperor did not make a sound. The Celestial Dog and the Calamity Beast were watching from the sidelines, and only the Ocean Divine Emperor laughed loudly.

"Fate. What fate. You took advantage of my carelessness in the northern starry sky to heavily injure me. Today, I shall return all of this back to you." I think you were injured by me while you were in the Sea God's realm? This was a injustice! Nine Phoenix, you need to be careful when dealing with Blood Berserk by yourself. "

Jiuhuang coldly snorted and said: "Stop wasting time, hurry up and come back."

"Humph!"

The huge body of the Sea Divine Emperor, like a huge rock, descended from the sky, making waves of rumbling sounds as it landed in front of Long Chen.

"Turn into a dragon. Let me see what abilities you have to deal with my number one Ocean Emperor."

Long Chen retreated a distance and became the Primordial Blood Spirit Dragon.

This was also the state he was most used to using. It was the state with the strongest killing intent, and he had to protect it. When fighting, his personality would forever be that of an Archaic Blood Dragon!

"That's right. Your killing intent is very strong. You seem to have more killing intent than the Demon Blood Essences Spiritual Dragon or the Emperor Blood Burying Heavenly Dragon. It's just a pity that you died just like that because you're too young."

The Sea Divine Emperor revealed his signature evil smile again.

In the midst of the blood mist, Long Chen's entire body was coiled up. For the current him, losing was very normal, but he had to persevere, as long as he persisted, the Dragon Emperor would be able to borrow the power of the massacre.

They believed in the Blood Red Dragon Emperor, understood his meaning, and knew of his plan.

As for him, it didn't matter whether he lived or died; he would die too soon.

Chapter 2385 - Canghai's Fang

Without Three Lives Love Silk, he had truly lost his only way to contend against the Sea Divine Emperor.

The current Ling Xi was too tired, it was a type of mental and primordial spirit exhaustion. She was still pregnant, Long Chen could not let her make a move at a time like this.

Despite having said so much, he didn't necessarily believe that he would really die here!

It had only given him a chance to fight back!

The number one beast in the deep sea before him, Long Chen, was like a small snake. Not only was it in terms of its body, it was also in terms of its aura.

The Sea Divine Emperor's body shone with a blue light, transforming into a vast ocean. It covered the skies above Dragon City, the ocean water mighty and flooded Long Chen within. This Overlord of the Seas, had directly turned his surroundings into his own battlefield!

"Killing the Dragon Emperor! Killing Dragon Emperor! "

Within the Dragon City, countless people were shouting for him!

Now, with Long Chen's appearance, the six peak experts finally no longer had the time to manage the Slaughter Heavenly Diagram. Everyone had gotten a good chance to rest, and this was also due to Long Chen's great contribution!

However, at this time, everyone was worried about him. Could he withstand the attack of the Sea Divine Emperor?

It was time to go all out!

Either one would die, or everyone would die together! If a person could save countless of his compatriots, he would definitely die. Everyone knew that doing so was worth it.

So they admired Long Chen, treating him as the dawn of victory, an undefeated faith!

"Hehe, little guy, are you ready to die?"

In the midst of the ocean waves, a gigantic silhouette that covered the sky appeared. As the waves surged, the terrifying ocean waves condensed into a fist that was as big as a mountain and smashed towards Long Chen! This was the Great Sea Emperor Fist!

According to the legends, it was a fist technique that could shake half of the Sea God's Domain.

This was a technique that only the Sea Emperor was able to use!

If the Slaughter Dragon City didn't have the protection of the Slaughter Heavenly Diagram, then this punch alone would probably be able to turn the Slaughter Dragon City into dust!

And now, the only person facing this fist was Long Chen himself!

With the hope of millions of people and with an anger that nearly made him explode, everything in his bloodline was erupting. The spirit refining fire burned fiercely, and every time the blood-red flame burned, it would increase his strength, making him even more limitless!

He was now a fourth layer Ancestral Dragon!

From an Primordial Blood Spirit Dragon to a Great Void Cosmic Dragon that was as illusory as a shadow, this was the highest ranking divine dragon among the four ancestral dragon bloodlines on Long Chen's body, possessing the most mysterious power of time!

"Spacetime reversal!"

With fury in his heart, he used the greatest ability that his Great Void Cosmic Dragon body could muster. Although it was laughable that he could use the reversal of time to fight against the Great Sea Emperor Fist, he could do it. Today was different from the past, it would not be easy for him to be defeated in an instant like before!

His roar, his cry, and his power had succeeded in charging forward. The space-time reversal power collided with the Hanhai Emperor Fist, and a terrifying shock was created momentarily, because the place where they were fighting was the lowest, so the shock wave swept downwards, causing at least a million demon clan members and Sea Clan members to be thrown into the depths of the ground, and their fates unknown.

Slaughtering Dragon City was completely suspended in the air, the low ground had already been completely annihilated!

Time and space reversal, was only one of Long Chen's methods, it was just the beginning. At that time, when Sky Reversal truly managed to stop the Hanhai Emperor Fist, even if there was no true reversal, Long Chen had already escaped out of the opponent's attack range, the Hanhai Emperor Fist brushed past his body and flew out, while Long Chen turned and dove down! At this moment, he had transformed back into the Primordial Blood Spirit Dragon!

"Blood Weeping Dragon Soul!"

This time, a million little slaying dragons swarmed forth, instantly drowning out Sea Divine Emperor's field of vision. This was one of Long Chen's goal, with the strength of the Sobbing Blood Dragon Soul, it could deal a lot of damage to ordinary demon beasts, but against an expert like Sea Divine Emperor, it was still too weak!

Tension, excitement, and shock; everyone clenched their teeth as they watched this soul-stirring battle. Every time Long Chen dodged an opponent's attack, it caused everyone's nerves to tense up, and their hearts to beat intensely.

The only thing they could do was to shout, roar, and loudly shout killing the Dragon Emperor s. This represented their hope and expectations of Long Chen!

Anyone with a discerning eye would be able to tell that Long Chen didn't dare to face him head on, because Long Chen wasn't his match in a direct confrontation.

Therefore, he could only choose to delay, but that didn't mean he couldn't attack!

The best defense was offense!

The risk of death had already sunk deep into Long Chen's bones. With the lives of millions of people on his shoulders, how could he retreat!

"What's the use of these little worms?"

The Sea Divine Emperor sneered, the power on his body vibrated once, and nearly turned the Blood Weeping Dragon Soul into ashes!

"Ten Thousand Deadly Claw!"

Suddenly, a ray of light flashed among the Blood Weeping Dragon souls. It was a deadly red light that rushed over with the speed of a meteorite falling. It instantly stabbed into the back of the Sea Divine Emperor and tore off pieces of his flesh!

There was no anger like this.

The Primordial Blood Spirit Dragon's Fury had unleashed its most shocking power at this moment. Before the Ocean Divine Emperor could even harm him, he had first injured the Ocean Divine Emperor!

This move wasn't in the air above, but in the killing aura willpower. There were also the four types of internal attacks, the power of thunder, storm, fire, and frost. As long as one was attacked, this sort of thing would instantly pierce into one's marrow!

Although the injuries on his body were not serious, the intense pain on his body caused the expression on the Sea Divine Emperor's face to instantly change. He originally wanted to slowly play with Long Chen until he died, but at this time, he was truly infuriated.

I was actually injured by him first?

The heavens couldn't accept this!

In that sea of fury, at some point in time, the Immovable Sea Divine Needle had appeared. It set off a tidal wave that rushed into the sky and arrived before Long Chen before he could escape.

"The Tempest of Time!"

This was the only attack that Long Chen could unleash at this critical moment. The Sea Locking Divine Needle, which was able to make the fatal attack deviate slightly, had a weak effect. When he used the Thousand Death Claw to make the Sea Divine Emperor suffer, he knew that such a fatal attack would land on his body again!

But this time, Long Chen wouldn't lose as badly as he did with the Three Lives Secret Realm!

He knew that everyone was watching. If he were to fall, all of them would fall as well. The entire Dragon Slayer City would truly be destroyed.

"We can't die!"

This was the belief that he was constantly muttering about.

At this time, he suddenly transformed into a fifteen dragon head Taiji Creature Dragon, whose body increased in size by a lot. The most ingenious thing was that he used one of his dragon heads, the brown dragon head representing the power of 'trees', to collide against the Sea Sobering Divine Needle!

With this collision, the draconic head was instantly annihilated.

However, he had successfully deflected the Soul-Fixation Needle!

had almost brushed past Long Chen!

A life dragon's head was the core of a Taiji Creature Dragon's life. As long as the life dragon head did not die, the other dragon heads could be reborn no matter what, especially if there was still life fire.

The exploding dragon head was instantly engulfed by the flames of life. Long Chen entered the thick mist and the injured area quickly recovered!

In this exchange, he basically did not receive any injuries, but the Sea Divine Emperor was hit by the Myriad Death Claw.

His body felt like it was stabbed with a knife. Although it was not fatal, it was still very troublesome.

In this battle, Long Chen had changed the bodies and strengths of the three kinds of Ancestral Dragons, and perfectly combined them together. Even though his strength was not as strong as the other party's, at least he had achieved an undefeatable state!

He noticed that the Blood Tyrant Dragon Emperor had relied on the slaughter heavenly map to completely suppress the Nine Phoenix. Defeating them was only a matter of time, it was also a matter of time, so now it all depended on who could make the best use of their time.

In any case, the Sea Divine Emperor was still in a state of fury!

He was berserk and furious. He stirred up the sea and let out the terrifying roar of the deep sea monster. It spread over five million miles, creating a terrifying vibration and rumbling sound!

Even the demons below were bleeding from their ears.

This time, there were many demi-humans who died. Basically, they were all killed by their own people, but they didn't care about life and death.

This was because the ancient Giant Demons did not care!

"Three Dragon Emperor s, and the human race, are you ready? Are you ready to collect the corpses of your geniuses?"

He had changed. In the blink of an eye, he was a new attack, a new divine ability.

"Tooth of the Vast Ocean!"

If this place was truly the Sea God's Realm, Sea Divine Emperor would definitely be much more powerful than he was today. After leaving the Sea God's Domain, his strength would definitely weaken a little, and the dignified number one Ocean Emperor would be forced to remain in a stalemate with Long Chen for such a long period of time!

The sea was made up of water.

The Water God's Fang was the sharpest weapon in the ocean, and also one of the most frightening abilities of the Sea God's Fang, the pinnacle bloodline. He had already used this technique to fight with the Dragon Emperor before, and even the Bloody Dragon Emperor could only block it.

Everyone had already seen how terrifying the Canghai's Fang was before. At this moment, their hearts rose to their throats. This heroic and useless youth, would he be able to withstand this move and survive?

All of the burdens were placed on the Blood Tyrant Dragon Emperor!

"KILL KILL KILL!"

He launched a completely suicidal attack, wanting to take care of Jiuhuang. However, the nine phoenixes clearly knew that this was the case, and they were stalling for time even more!

Obviously, Long Chen had to resist this himself!

As the sea churned, a sharp thorn suddenly appeared. That was the Canghai's Fang!

It was entirely made of water, but it was tougher and sharper than anything else!

This Canghai's Fang was the core of the ocean. Now, with the support of the Sea Divine Emperor, he had created such a terrifying restrictive force that Long Chen was unable to move to withstand such an attack. Even children knew that this was certain death!

Right now, there was only prayer.

Chapter 2386 - Heavenly Sword Milky Way

Everyone has something to protect.

It could be a person, or it could be a matter.

When disaster approaches, can you straighten your back and do these things without any regrets?

The slaughter protection of the Archaic Blood Spirit Dragons and the righteous protection of the God Realm's Heart Refining Dragon were both powers that they loved. The only difference was that they were slightly different. But in the end, they were all part of Long Chen.

It was the most important spirit in his life.

He had pursued love, protected love, pursued the glory of his parents, protected the dignity of his parents. Right now, his world was even larger. What he sought was the integrity of his home, the survival of the human race, and fate! What he was protecting was also none other than this.

This was a land that had been passed down for tens of millions of years, it was Long Chen's home, the enemy wanted to kill his own family, occupy his own home, and enslave his own soul, this was simply intolerable!

Everyone knew that the Canghai's Fang would not be able to hold on.

But was this an excuse not to fight?

Everyone knows you can't do it, but how do you know you can't without trying? Even if he did die, he would die a valiant and glorious death!

Moreover, Long Chen still had a life!

Therefore, in the face of a calamity, he had chosen to face his enemy with even greater courage. He didn't have the strength to crush his enemy, but he did have the will and will to crush his enemy!

In that moment, a raging inferno burned in his chest. His eyes turned blood-red as his blood-red body instantly transformed into a combination of gold and black!

The Dao of the God, Heartdragon!

It disappeared in a flash!

When the Canghai's Fang arrived, he used its fiercest and most tragic form to rush towards the weapon of the sea. He knew that he could not avoid it, so he chose his strongest side to withstand this terrifying attack!

In that instant, in the eyes of the crowd, time seemed to stand still.

The God Realm's Heart Refining Dragon turned into a giant sword, shining with the light of justice, carrying the subtle relationship between morality and karma. It acted as a judge, ignoring everything without any complaints, just to ward off the invasion of evil!

The collision between the gigantic sword and the Canghai Fang was a huge storm that could only be generated by the clash of Dragon Emperor s. Long Chen had done it, although he did not know whether he was dead or not, at the very least he did not retreat, but burned his own life like a moth flying into the fire!

BOOM!

The huge explosion seemed to have spread throughout the entire northern territories, causing the land to shake and crack. The entire northern territories had turned into a mess.

"Is he dead?"

"Is Long Chen dead?"

"He ..."

Tears streamed down the faces of countless people. They had a premonition that they might lose a glimmer of hope today.

At this moment, everyone's heart was trembling and their faces were deathly pale. They were moved by Long Chen's righteousness, but they were even more moved by his defeat and death.

At his age, to be able to fight against the first Ocean Emperor like the Ocean Emperor was already a terrifying miracle that hadn't happened in tens of thousands of years. No one felt that Long Chen couldn't do it, it was just that he was lacking in time!

The waves were still rolling, but the golden and black light had disappeared.

After all, he was a Ranker at the same level as Long Chen, so it was really impossible for him to defeat him like that. Furthermore, Long Chen was even more powerful than him, so being able to defeat him was simply impossible.

The three Dragon Emperors had also done their best today, and currently, they were all struggling in death's door. They did not even have the ability to save Long Chen.

These three old men could not hold back their tears. Humans were really two heroes who could rarely go against the will of the heavens, the Eternal Dragon Emperor and his son. But could it be that they were both short-lived ghosts that could only shine for a short period of time?

That's not right!

Long Chen did not die!

At least, he still had a life.

When everyone's hearts were tightened, they saw a humanoid Long Chen descending from the sky, falling towards the Celestial Slaughter Art. His body was still intact, but he did not recover to his perfect state.

However, the current him was extremely weak. He didn't even have the strength to display the fire of life that he was most proficient in. The flames of life could not help to recover all of his injuries. For example, the Canghai's Fang this time, was an attack against the primordial spirit and so on. It almost caused Long Chen to die.

"Have you tasted death?"

At this time, the Sea Divine Emperor had actually taken human form as well. He descended from the skies and rushed towards the direction where Long Chen had fallen.

"Don't let him get close!"

Everyone was anxious. Long Chen had just avoided a calamity today, and now that the Sea Divine Emperor was here, he could easily take Long Chen's life!

All of a sudden, over a hundred million people were shouting at the top of their lungs!

This was a race against time!

"Die!"

The dragon tail of the Blood Tyrant Dragon Emperor ruthlessly lashed out at the body of the Nine Phoenix, sending it flying. Then, it turned around and chased after Long Chen and the Sea Divine Emperor!

However, he was still a bit too slow with the nine phoenixes entangling him.

Just that little bit was enough for the Sea Divine Emperor to rush in front of Long Chen and end his life.

In his world, time seemed to have slowed down. He narrowed his eyes and looked up to the sky, seeing the Sea Divine Emperor coming towards him with a wicked smile, anxious to kill him with one more slash. And behind him, stood the Blood Tyrant Dragon Emperor, so anxious that his eyes were about to spew fire.

His eyes were filled with endless regret, pain, and self-blame. He had failed to accomplish what Long Chen had hoped for, and was unable to kill Jiuhuang while he was delayed.

Long Chen didn't blame him in the slightest. This had always been a type of experiment that was impossible, if it was him, he wouldn't have been able to do something that exceeded the limits of what he could.

The Sea Divine Emperor would obviously kill him first.

Long Chen saw through it, maybe he had a second life. If he died, he could repeat it, what was there to be afraid of!

Therefore, even though he was injured to this extent, he didn't frown.

He rarely lost battles. This feeling was very strange, but today, at least he had no regrets!

The only annoying thing was that the Sea Divine Emperor's evil smile was filled with pride, making others want to tear his mouth apart.

The first life was taken by such a person. It was a disgrace that no one was willing to accept!

Long Chen clenched his teeth, but he had no choice, no matter how hard he tried to struggle, he could not control his body.

He heard countless sobbing sounds. To be able to cause over a hundred million people to cry for him, this was another realm.

He had no regrets in his current situation.

He knew that his father, Long Qinglan, would definitely be proud of him. His wife, Ling Xi, the woman he loved the most, would also be proud of him.

There was also Yang You, whose identity was unknown.

She had simply used her reincarnated body to give birth to herself.

Yang You

For some reason, when he thought of her, Long Chen felt that she was extremely warm. This woman's personality was different from Long Qinglan's, but Long Qinglan was actually more like a mother, giving him a kind of meticulous feeling. However, Yang You was concealing her love for Long Chen.

In her world, perhaps she was just Long Qinglan's maid.

But in Long Chen's world, she was an elder and perhaps his mother.

He had just thought of Yang You, and it seemed that she said that after the incident on Heavenly Dragon Star ended, she would come over to help. He just didn't know what it would be like for him and the human race after she came over.

In that instant, the Sea Divine Emperor had already appeared in front of him. With a punch, he prepared to smash Long Chen into pieces.

Long Chen gritted his teeth. Damn it, dying in his hands was too disgusting!

He could not stand the sight of Fang Xingjian revealing her sharp teeth while she was laughing!

The Dragon Emperor had come late, and it was not easy for them to fight three against six. The other two Dragon Emperor s were already at the end of their tether!

"Long Chen!"

Countless people were calling out his name.

Until the fist shadows seemed to want to drown him.

Long Chen was already in this state, but at some point in time before this, he suddenly felt a connection between their lives. Then, an incredibly sharp ray of light flashed past his eyes, and actually forced the Sea Divine Emperor away!

That silver sword beam was shockingly fast. Even with Long Chen's current eyesight, he was unable to see it clearly.

In the next moment, he was in the arms of a woman. The previously blood-related feeling came from this woman.

She came.

Without any warning.

It was to the extent that when he raised his head and saw her ice-cold gaze, he had a misconception that everything that happened was not real. This woman's body was simply too cold, and the coldness that came from her heart was not directed at Long Chen, but rather the person who harmed him.

"Who is this?"

When Long Chen recognized Yang You, she did not wear a veil anymore. However, in the entire Dragon City, there were not many people who knew her, only a few old men were stunned for a bit. They asked in surprise, "This was the maid who served beside the Eternal Dragon Emperor, Yang You?"

"It's her! She's brought a hundred thousand divine dragons to guard the planet!"

In the eyes of everyone present, Yang You's strength was at the late stage of the Eight Tribulations, similar to that of Crimson Flame and the others. But what did they see?

It was the woman who was carrying Long Chen facing the Sea Divine Emperor, the sword in her hand.

It was a silver sword with densely packed stripes on its body. The entire blade seemed to be formed from countless silver fingernail-sized blades. Each silver blade could even be split into countless silver grains of sand.

Countless tiny blades spun about on the surface of the sword like water, with a dense cluster of cores within.

"Isn't this Long Qinglan's previous Dao Artifact? The nine hundred sixty dao patterns of the Boundless Heavenly Divine Sword 'Milky Way', forged from a hundred million cores of meteoric iron. It's even scarier than the Grand Ancestor Sword."

In Yang You's hands, the 'Milky Way' was a miracle.

Yang You being able to control it was even more of a miracle.

Then, what would this woman, who was on the verge of erupting, do?

Chapter 2387 - Piercing Heart

Although Long Chen had never heard of the history of the sword in Yang You's hand, he had seen the Limitless Dao Artifact, the Dragon Sword.

The Dragon Sword had 950 dao patterns, and had just passed the threshold of the Limitless Dao Artifact. Moreover, there was a huge problem. After using the Dragon Sword once, a very long period of time would be required before it could be used. In other words, if the Dragon Sword was to be used again, it would need to be used once more.

To the Five Dragon Cities, the Primordial Dragon Sword was a sacred artifact.

However, a few thousand years ago, this weapon that surpassed the divine object in their hearts suddenly appeared in Long Qinglan's hand.

In Long Chen's eyes, this sword seemed to be filled with millions of silver stars, just like a heavenly river made up of stars in the night sky. It was endless and incomparably huge, with only a tiny little sword, made up of hundreds of millions of particles.

No wonder the name of this sword was called the Milky Way.

The 960 Dao marks were truly astonishing.

What was even more surprising was that Yang You was able to control and use it on her own! Long Chen naturally knew that Yang You had surpassed ordinary Dragon Emperor, but had definitely not reached the level where Long Qinglan was when he was fighting together with fifteen Dragon Emperor. The reason why she was able to use the Heavenly Divine Sword Milky Way was partly because the fifteen Dragon Emperor s were not the masters of the Primordial Dragon Sword, so using them was extremely difficult.

The second reason was probably because of Long Qinglan. With his abilities, he could accomplish anything, and letting Yang You grasp this sword, was not a difficult matter.

Even so, to most people, Yang You, who had yet to pass through the Nine Palace Calamity, had already possessed such combat power, which was already shocking enough. At least, many of the older generation had yet to react as they stared dumbly at Yang You, who was protecting Long Chen.

"Yang You!"

Dragon Emperor stopped in his tracks, and his violently thumping heart finally calmed down. When he saw the Heavenly God Sword Milky Way in Yang You's hand, he saw the light of victory. This time, it wasn't just Yang You's arrival simple, it was the former Eternal Dragon Emperor.

The Heavenly God Sword 'Milky Way' used to be Long Qinglan's weapon, and the Blood had personally experienced its terror. Back then, when Long Qinglan held this ' Milky Way ', he could have killed them easily.

The six peak-level experts were stunned for a moment. They glanced at the Dao Artifact in Yang You's hands with great fear.

"Aunt You, I'm fine!"

Long Chen had gradually calmed down and started to use his own fire of life to recover. Yang You's arrival made him completely at ease. At least from the look of the sword, 'Milky Way', they would definitely win today.

"The injuries on your body, was it all caused by him?"

Yang You's voice was terrifyingly cold, and from her dead eyes, Long Chen saw overflowing killing intent. It was clear that this woman's body was like a volcano that erupted before now.

Long Chen could only nod his head dumbly.

"Have a good rest."

He stabilized his body in the air, and when he raised his head to look, the crowd had already started to clamor. It was because Yang You had turned into a silver ray of light, and without saying a word, he had already charged towards the Sea Divine Emperor.

This was how resolute and decisive her character was.

"And who are you? If you obstruct us from obtaining the five dragon pearls, you will not have a good ending! Even the Spirit King does not dare to make a move, are you not afraid of death? "

Sea Divine Emperor was still very afraid of the sword in her hand.

It was true that he knew Yang You did not seem to have cultivated Nine Palace Calamity, but being able to wield a Heavenly God Sword like 'Milky Way' caused him to be deeply wary of his.

The answer was the Yin He in Yang You's hands.

With a sweep of his sword, trillions of silver stars burst out, condensing into a sharp, extremely fast sword light. It was like a galaxy in the sky, incomparably resplendent, possessing the world's most terrifying slicing power!

Sea Divine Emperor felt the anger of this woman.

There was no room for discussion. It was as if the female beast was protecting her cub. The hatred that was so deep that it seeped into her bones was present on Yang You's body.

And I could tell she'd been holding back for too long.

From her gaze, Sea Divine Emperor knew that intimidation was useless. There was only one way, and that was to fight to the death!

He was also in his human form. Holding the Immobilize Sea Divine Needle in his hand, he wielded his staff and swung it down violently. In the blink of an eye, the Immobilize Sea Divine Needle and the Heavenly God Sword Yin He collided!

Ding!

An incomparably piercing sound rang out!

This was the first time everyone had seen the Sea Divine Emperor being forced back like this. The furious Yang You thrust his sword out of the way, and with his terrifying strength and unparalleled sword speed, the sword pierced straight through the Sea Divine Emperor's chest!

Pch!

Blood filled the sky!

If not for the Sea Divine Emperor's fast dodging, the sword attack just now would have probably smashed his head apart!

This was the power of the 'Milky Way'. It was Yang You's terror!

Everyone knew the power of Ocean Divine Emperor, the first Ocean Emperor. Even though this was not the environment that he was the most proficient at, he had already done quite a bit. Unexpectedly, under the fury of Yang You, he was defeated in one move.

Until now, when he fought with the Blood Tyrant Dragon Emperor, he had expended a lot and he had underestimated his opponent. These were all the reasons, but in the end, Yang You was still stronger than him!

A sword pierced the heart!

This scene let everyone clearly see that in her hands, even the Sea Divine Emperor had become a pitiful bug!

For a moment, everyone was stunned. They looked at Long Chen and then at Yang You, not knowing what kind of relationship they would have ...

Not only others, but even Long Chen himself was stunned by what he saw. Perhaps in the past, this woman had never seemed to be on the path of his growth, being too much of a bodyguard, or even allowing him to go to the Sea God's Realm alone. But today, it was as if she had a lot of patience and was unable to vent.

Long Chen believed that she deeply loved him. Whether or not he could be considered her son was no longer important, and that kind of relationship wouldn't change because of his identity. If it was, perhaps even she would have accompanied him to the Sea God Realm back then.

But she didn't.

Perhaps, there was another reason.

At least for now, Long Chen felt her deep love.

It could be seen from every time she swung her sword with all her might.

She didn't dare to admit that she was Long Chen's mother because she felt that Long Qinglan had never loved her. But to Long Chen, these were already no longer important. Yang You couldn't lie to him.

The Sea Divine Emperor had not been suppressed like this for countless years.

His blue ray was immediately shattered by the opponent's sword, the speed of the sword was as fast as a meteor, in the blink of an eye, ten thousand meters. With the attack of the sword, even before Sea Divine Emperor could turn its body, one of its legs was actually torn apart!

Tens of thousands of silver, fingernail-sized blades swept across. That was simply a nightmare.

Sea Divine Emperor truly understood that if this carried on, he would really be massacred by this woman after a few moments. With his intuition, he could roughly understand that just this woman, herself, was enough to fight against four powerful warriors at their peak.

Other than the Spirit King, no one knew that there was actually such a woman, who was so powerful.

She could even compare to Spirit King, the number one expert of the Immortal God Realm!

This was because even the Spirit King s could only fight against five Dragon Emperor s at the same time.

In the Immortal God Realm, if Spirit King was number one, then this woman in front of him was number two.

"Save me!"

When he was struggling in a sorry state, he immediately shouted. At this time, the other two Sea Clan members, the Tyrant Divine Emperor and the Purple Eyed Emperor also saw this. They left their opponents and rushed to besiege Yang You!

Right now, the three Dragon Emperor s were fighting against the three Demon Lords. With the support of the Celestial Slaughter Map, their fighting strength had increased by leaps and bounds.

Yang You monopolized three Ocean Emperors with her alone, causing the Sea Divine Emperor to be injured from the start. Although the three Ocean Emperor had joined forces to attack, making it hard to defend, it was only in terms of speed. In terms of speed, Yang You was a heaven defying existence.

BOOM!

Yin He transformed into tens of thousands of blades that swept out, forming a giant silver dragon. It slammed into the claw of the Purple Eyed Emperor Crab, crushing it to pieces!

"It's your turn!"

She was like a fiery female dragon. Tyrant Divine Emperor's tortoise shell was known for being comparable to an Everlasting Dao Artifact's defense, but after being slaughtered by the Milky Way, it directly left a huge bloody wound, causing him to wail in pain.

In the sky, Nine Phoenix, Sky Dog and the Woeful Beast were suffering from the fierce attacks of the three Dragon Emperor s. The six strongest powerhouses were now all defeated miserably, so if they did not retreat now, they would all die here!

"Retreat, retreat!"

Jiuhuang mournfully shouted.

Although they were under control, they were not without intelligence. Ordinary demons and sea races would only attack like they were seeking death, but they were not. The peak of thirty experts was the greatest guarantee for the Ancient Giant Demons.

There was no absolute suppression on this level of expert. If the opponent wanted to escape, capturing him would be even more difficult than killing him!

For a moment, the six pinnacle experts ran away, completely out of breath.

The three Dragon Emperor s were also helpless.

However, they had still underestimated Yang You, and had belittled the heart of the woman. She had completely allowed the Purple Eyed Emperor and Tyrant Divine Emperor to escape, and chased after Sea Divine Emperor. With her speed, it was simply a nightmare for Sea Divine Emperor.

"If you don't want to die, then be obedient."

The Sea Divine Emperor who only had his head left wanted to cry but no tears came out.

"Alright, alright, I'll listen."

As the number one Ocean Emperor, when his life was in the hands of others, he could only be a grandson.

Chapter 2388 - Every second counted

The only thing left of the Sea Divine Emperor was his head, which was still trembling non-stop. The woman in front of him was too terrifying, her expression was extremely calm, as though nothing had happened at all.

From the moment the six peak-level powerhouses ran away, it meant that they had already obtained victory over the Dragon City.

The three Ultimate Dragon had transformed into the Dragon Emperor on the Celestial Slaughter Map. Their faces had already turned pale and they could no longer stand stably. Even with the Celestial Slaughter Map, it would still be difficult to accomplish in a 1v2 situation. For them to be able to persist to such a degree, it could only be said that they almost lost their lives here.

They knew their responsibilities. Once they died, they would be the end of Dragon City.

Looking at the three Dragon Emperor s and then looking at Long Chen who had recovered, everyone went silent for a moment. In a blink of an eye, all that came out was a desperate roar, a roar!

They had really won in a situation where it was impossible for them to win.

It was the three Dragon Emperor s, it was Long Chen, and it was Yang You who saved them.

At the same time, to be able to block so many attacks from the Celestial Slaughter Map, it was all because they had saved their own lives.

This was a victory that belonged to everyone. It had happened so suddenly that everyone had nearly gone mad. They were all laughing and crying. They were hugging each other, roaring as much as they could in order to vent this terrifying pressure.

Several times, they had lost all hope.

But now, everyone was alive and well. In this fight to the death, not a single human had died.

Zero death was simply unimaginable.

Some even shed blood and tears.

There were no words that could describe how they were feeling right now. They had never been able to be so united and in love before. This war had given them a new lease of life.

Although the battle was far from over, at the very least, they had won once. They had seen the light of victory before, and this time, they had won.

Especially when this seemingly delicate woman, Yang You, grabbed onto the Heavenly Divine Sword Milky Way in one hand and the bloody head of the Sea Divine Emperor with the other, came before them.

All of this, including Yang You's arrival, was simply like a dream to Long Chen.

He suddenly had a feeling of being blessed. This was the feeling of being protected. He was protecting his lover, protecting all living things, while Yang You was protecting himself. She was risking her life for him.

"Yang You, imprison him first."

They were glad that Yang You did not kill the Sea Divine Emperor in a fit of rage. After all, the Sea Divine Emperor was in a controlled state, and there was another problem, and that was that they could find a way to wake up all the peak experts through the Sea Divine Emperor.

Yang You had to consider this point, which was why she captured him alive. Otherwise, she would have just killed him.

Yang You didn't say anything more and asked the Sea Divine Emperor to be under the control of the three Dragon Emperor s. Now that the Sea Divine Emperor was heavily injured and the three Dragon Emperor s were imprisoning him, he had no choice but to let out a sigh of relief. After all, he had left Yang You, this terrifying woman.

The three Dragon Emperor s used a Dao Artifact with 900 patterns on it to imprison his head and added several layers of seals. The Blood Evil Dragon Emperor took care of him personally and placed him into his own divine country, causing the Sea Divine Emperor s to completely lose the chance of escape.

They smiled and shook their heads, then said to Yang You, "Time flies, all those years ago you were still a mischievous little girl following beside Qing Lan, and in the blink of an eye, you have already achieved such an achievement. The people who saved the entire human race today all relied on your appearance, we had misunderstood you and Qing Lan, today we are representing the entire human race, apologizing to you, we are truly sorry, and we are grateful for your help today."

Yang You said, "This is all in the past. I am a member of the human race. You know, even if he dies, he will not let this place go. I will return and fulfill his responsibilities for him."

The him that she was talking about, was naturally Long Qinglan.

Hearing this, the three Dragon Emperor s took a deep breath.

From the looks of his rise, they could tell that Long Qinglan was someone they trusted a lot. It was only because he changed too quickly and he had fallen into a strange state that led to so many tragedies.

"Thank him, a great leader."

In front of Long Qinglan, they did not feel like they were seniors.

"During this time, I will be by his side. You can be at ease with his safety." Yang You softly said as he glanced at Long Chen, who was inside the Celestial Slaughter Art.

The three Dragon Emperor s looked at each other, then the Bloody Blood Dragon Emperor looked at Long Chen and asked, "There is something that I don't know whether or not I should ask you."

"Go ahead." Yang You was startled, and looked away from Long Chen.

"Long Chen, he's your and Qinglan's child, right?"

Dragon Emperor asked.

Yang You pursed her lips, not knowing how to reply. At this time, Long Chen had already passed through the Slaughter Heavenly Diagram and arrived here, so Yang You did not say much.

Long Chen said: "It's not a big deal. He would be able to fully recover in a day or two. Aunt You, thank you so much for today. "

The three Dragon Emperor s looked on with doubt in their hearts, but they did not say anything. However, they were people who had lived for tens of thousands of years. With a single glance, they could tell that Yang You's love for Long Chen was that of a mother's.

"What about Ling Xi, how is she?"

Yang You asked again.

Long Chen said: "She has built an extremely large Heaven and Earth Transference Array and is connected to the Five Dragon Cities. He can transfer everyone within fifteen minutes.

At this point, Yang You became slightly angry and said, "Didn't I tell you that she is pregnant and cannot be tired?"

Long Chen didn't know how to answer. Of course, he loved Ling Xi dearly, even ten thousand of them, but the Heaven and Earth Transference Array was something that concerned the life and death of the entire human race. Even if he was against it, Ling Xi would definitely insist on it.

"You said just now, Heaven and Earth Transference Array?"

Yang You recalled her previous words.

"Yes."

"Let's go take a look."

Thus, the five of them passed through the cheering crowd and arrived at the center of the central palace. After seeing the extremely gorgeous Heaven and Earth Transference Array, Yang You had no choice but to say: "The importance of stealing the good fortune of heaven and earth is comparable to the slaughter of the heavens. I was wrong just blaming you a moment ago, but leave Xiao Xi to me, I'll help him recuperate."

"Alright."

With her helping hand, she understood better, so Long Chen naturally felt more at ease. Now that Ling Xi was still sleeping, Long Chen passed her over to Yang You for her to bring into the God Nation to take care of.

"I should be able to recover in half a day. Although it's best if she doesn't overwork herself, she can't talk about matters like the Heaven and Earth Transference Array ...

Yang You loved Ling Xi a lot more than she cared about Long Chen. She was a woman, so she knew and cared more about women. In these few years on Sky Dragon Star, she clearly knew the character of this foolish child Ling Xi, so she felt even more pity for her.

With the five of them standing together, they should be able to discuss what to do next.

"There are still four Dragon City's Universe Teleportation Formations s. Once they are complete, we will be able to take the initiative. At least the chances of victory were relatively high. My speed will allow me to move among the Five Dragon Cities s within a day. Next, I will bring the two of them, go to the other Long Chen s, and the three Dragon Emperor s will rest first to protect the Dragon City.

Yang You was a decisive person. Her speed was swift like hers. To be able to go from one dragon city to another in a single day, that was simply too terrifying. It was probably the speed of the Heavenly God Sword, Yin He.

This decision was extremely reasonable.

The three Dragon Emperor s needed to rest, as did the people from Slaughter Dragon City. Currently, the six strongest people in the vicinity all needed to rest, as with Yang You here, they would not dare to come back again for a hundred years, and as long as Ling Xi went to the next dragon city and succeeded in setting up a connection with them, Slaughter Dragon City would be able to establish a connection with them. At that time, Yang You would need to return for fifteen minutes.

So now, they had to take advantage of the safe period of Dragon City's massacre, fighting for every second. As for Ling Xi, he could only let her recuperate on the way there.

Everyone agreed with Yang You's decision.

Long Chen said: The Swallowing Dragon City is at the furthest west side, which is currently the most dangerous place, so I have to go and support them. Although they are fine now, but I think there will be peak Spirit Demon beings and Sea Clan experts attacking us soon, so I have to go to the Swallowing Dragon City first. Aunt You can help out too. Then, they could go to the Southern Everlasting Dragon City. After all, the Witch Clan would most likely attack this place. Once he finishes dealing with these three, the Destiny Dragon City in the center and the Life Dragon City in the east will be able to take things slow. First, we'll go to the Destiny Dragon City, then we'll go to the safest Life Dragon City.

"This route is good."

Long Chen's thoughts were also very clear.

"Then, I'll leave it all to you." The Blood Tyrant Dragon Emperor said gratefully.

Yang You and Long Chen glanced at each other, and then stepped onto the journey amidst the jubilant greetings from the three Dragon Emperor s. They left in a relatively low-key manner, and then created an illusion that Yang You had been slaughtering the Dragon City the entire time. This way, at least Slaughter Dragon City would be safe for a very long time.

What followed next was a true race against time!

Any kind of time wasted could cause this plan to fail. Long Chen, Ling Xi, Yang You, and the fifteen Dragon Emperors all shouldered a huge responsibility.

Outside, Long Chen directly entered Yang You's Divine Kingdom.

Then, Yang You's Heavenly Sword Milky Way transformed into a silver bird. Sitting on its back, Yang You disappeared in a flash, heading towards Dragon City at high speed!

Chapter 2389 - Grandmist Thunder Beast

This silver bird was made up of tens of thousands of silver blades, and each blade piece was made up of tens of thousands of silver Meteorite stellar nucleus. It was the hardest Dao Artifact Long Chen had ever seen.

At the same time, this silver bird was also the dao spirit of the 'Milky Way'. In fact, Long Chen had once seen a silver little bird accompanying him at Yang You's side.

Yin He's speed was extremely fast, much faster than Long Chen's and Yang You's. The reason Yang You was able to completely crush the Ocean Emperor's speed was because of the 'Milky Way'.

Now, amidst the raging wind, his speed seemed to have broken through everything. This terrifying speed made it impossible to see anything around them. It was like a tunnel, allowing them to move forward.

This was the Immortal God Realm.

To be able to create such a perfect world in the Immortal God Realm was already an exaggeration.

Using the time spent on the journey, Ling Xi and Long Chen had already recovered within Yang You's Divine Kingdom. Long Chen's resting speed was very fast, and it was estimated that he would completely recover in half a day. Furthermore, Ling Xi's life force and Yang You's special recuperation, would probably be able to recover within a day.

"After completing these five Heaven and Earth Transference Arrays, she can be considered to have achieved perfection. From now on, she cannot be tired anymore, no matter what happens, understand?"

Long Chen nodded, and said: "Don't worry, I will cherish her."

His love for Ling Xi, was even deeper and more passionate. If not for the fact that their relationship had grown to this extent, he would not even be willing to allow Ling Xi to make a move.

In order to get to the Dragon Devouring City earlier, the two of them rarely spoke.

"This sword is called Yin He. Your father used it before and gave it to me."

Yang You suddenly recalled this matter.

Long Chen naturally had guessed it.

"This means that he still has you in his heart." Long Chen smiled.

"Is it like that? There's no meaning to it anymore. I will finish what he didn't do. I won't let you guys get bullied."

Thus, she came to Dragon God Domain.

This was a place she probably hated.

Silver birds flew in the sky and emitted ear-piercing shrieks. There were trillions of fertile grounds in Dragon God Domain, but they were currently filled with demons. The Sea race did not have a single human.

This vast piece of land had already been occupied by other races. If those ancestors of those dead saw this scene, they would probably be angered to death.

The Primordial Giant Demons were items on the same level as the gods. Currently, Long Chen and the others were fighting with the gods!

In the blink of an eye, Long Chen had already completely recovered and was brimming with vitality. As for Ling Xi, he seemed to be more or less done for as well. It was a gigantic black whirlpool that revolved around it all year round. The Dragon Devouring City was above this black whirlpool.

The westernmost Dragon City had already prepared the 'Heaven Devouring Diagram'. Although it was in a dangerous location, it was luckier than the Dragon Slayer City. At least for now, he had not been attacked.

It was all because of the human race's fast reaction that they had instantly recovered and set up the five heavenly maps. There was still a portion of Great Demon Lords remaining, but the Ocean Emperor did not come over.

Just as Long Chen was thinking about how lucky he was to have devoured the Dragon City, he received a message from the Slaughter Dragon City.

"Long Chen, are you almost there? There are three Demon Masters and two Ocean Emperors who are currently attacking Dragon City at the same time. The pressure and attacks they face are not any worse than the ones we faced before! "

"We still have about two hours before they can hold on."

There were a total of five peak-level powerhouses. If Yang You went, she would be able to turn the tide. But even so, Long Chen was still very anxious. He had personally witnessed the battle that was happening in Dragon City and knew how terrifying the other party was.

"Then I'll increase my speed!"

Yang You sped up once again. She had already reached the final step of her sprint.

His speed was even faster, so Long Chen was more at ease. After all, he was facing five opponents, not six, and if he could even hold on for that long in Dragon City, he believed that the three Dragon Emperors of Dragon City could do it as well!

At this time, the Blood Tyrant Dragon Emperor explained to Long Chen who his opponent was.

"You should have met the two Ocean Emperors from the Sea Clan before. On the Demon race's side, there were also three extremely powerful Demon Lords, namely the grandmist Thunder Beast, the Wind Demon Beast, and the Lu Shao Beast. Yang You knows them. "

"Alright."

"Be careful in everything you do. If you solve this problem, just let us know. This way, we can feel at ease."

Right now in the Five Dragon Cities, only the Swallowing Dragon City was under attack.

At the current location of the Slaughter Dragon City, no one knew that Yang You had come out, so nothing major would happen.

At this time, Ling Xi had more or less recovered and reached a state of perfection.

Seeing that Long Chen was worried about her, she smiled: "Brother Chen, you don't have to worry, the first time was because I was too inexperienced, and I was too nervous, which was why I am so tired. The second time, it was because there was less pressure, and also because I had Aunt You helping us, I can easily complete the mission."

Hearing her words, Long Chen felt relieved that it was true.

His thoughts were now on the Dragon Devouring City.

"I hope that their Heaven Devouring Diagram isn't broken, otherwise it will be troublesome. Restarting it will take a few days, and even if a city is destroyed, the losses would be unimaginable."

They had to endure for nearly two hours.

Time seemed to be short, but if the opponent was terrifying, the Swallowing Dragon City might very well be destroyed.

After about an hour, there were already a lot of demons and marine tribes below. This was the first time Long Chen came to the Swallowing Sea, he did not expect it to be like this.

In the distant starry sky, the three-headed divine dragon was battling with five super huge beasts!

The scene and sounds of the battle were almost no different from the ones in the Dragon City. It was even more intense, and the entire sky was covered in black as flesh and blood flew in the air.

Seeing this scene, Long Chen finally heaved a sigh of relief. With Yang You at the very least, the Swallowing Dragon City would be fine.

Without a doubt, the current Yang You was the strongest person in the entire human race.

She had saved the killing of the Dragon City, and by now, the Five Dragon Cities already knew about it. Now, it could be said that the entire Swallowing Dragon City was filled with hope, waiting for the arrival of Yang You!

Compared to the last time they had fought in the Dragon Slayer City, they had much more hope, so the fighting spirit they displayed was also much more terrifying. They had the confidence that they would definitely win. This was extremely important!

Therefore, even if the Ocean Emperor or the Demon Lord were to attack the Heaven Devouring Diagram, even if they received a certain amount of injuries, they would still be able to resist it.

Right now in the sky, there was a huge blue sea serpent, incomparably gorgeous, that was Emperor Xi Yao, and a strange looking fish. It had the face of an old man, and sharp claws on both sides, this was a demon clan that had existed for a long time, it came from an ancient era, and was one of the top bloodlines of the Sea Clan.

In addition, there was also a grandmist Thunder Beast that was even more terrifying than the Thunder Qilin. The grandmist Thunder Beast's body wasn't too large, just like a ball, but it had arms and four short limbs. It looked very cute, but in truth it was very terrifying.

As for the wind devil beast, it simply couldn't be seen at all. It blended into the wind, possessing a great destructive power that was extremely difficult to deal with. It was also one of the peak demonic bloodline inherited from an Archaic divine beast.

The last one was the Land Ruler Beast.

It was a white tiger in human form, with a humanoid face, strong body, sharp tiger claws and nine whip-like tails. Its close-combat fighting strength was quite strong, probably no less than that of the Sea Divine Emperor. He was an extremely famous King of melee combat!

They were not like the three killing Dragon Emperor s who could only fight with their lives on the line and quickly resolve the battle. They had Yang You as their hope, so it was obvious that they would fight while retreating, not fighting head on with the opponent. Their goal was to stall for time, as long as they could stall the opponent for time!

In this situation, Yang You rode the little silver bird and rushed in. Her appearance caused the entire Dragon Devouring City to clamor and boil over with excitement.

For a time, the cheers shook the heaven and earth.

To Yang You, time was life. Every bit of time was very important, so when she descended, she immediately launched an attack with the 'Milky Way' divine sword in her hand!

"Who is this?"

Those five peak experts actually didn't know Yang You. It seemed that there was no connection between them at all.

The moment they saw the Limitless Dao Artifact in Yang You's hand, greed filled their hearts.

"Isn't this the Heavenly God Sword 'Milky Way', the former Dao Artifact of the Eternal Dragon Emperor?"

Among them, the Land Ruler quickly recognized it.

Both of them were attacking a Dragon Emperor together. What they needed to do the most was to watch them escape from the encirclement, which moved very quickly. They also abandoned that Dragon Emperor and charged towards Yang You!

The King of Battle and Yang You's Heavenly God Sword Milky Way clashed.

Shua shua shua!

That terrifying silver sword light soared into the sky, tearing through the heavens and the earth, enveloping the entire body of the Lurker Beast. Fighting against Yang You, the Lurker Beast was naturally more and more scared, the woman in front of him was like a monster, her speed was terrifying, it forced the Lurker Beast to take human form, otherwise, it would not be as agile as Yang You!

Ding!

Not long after the start of the battle, Yang You chopped off the palm of the Lurker Beast with an absolutely crushing posture!

"Windfiend, come and help me!"

The Land Ruler Beast was frightened out of its wits and hurriedly retreated. Upon hearing his words, an unparalleled gale swept towards Yang You, obscuring her features.

Chapter 2390 - Demon in the Wind

The Land Ruler Beast specializes in close combat and the Wind Demon Beast specializes in eerie long-range attacks. The two instantly formed a perfect match, the Land Ruler Beast's one claw was able to destroy the entire Dragon Devouring City and its nine tails were able to extend indefinitely, comparable to 900 dao tools!

As for the wind-type magical beasts, they were the devils of the wind, the incarnations of the storm!

The wind magical beast's arrival and the hurricane did not affect Yang You. Instead, it sent many mountain-like demon clan members flying for over a hundred thousand meters.

In any case, they didn't care about the other demon clan's lives.

All of a sudden, all of the strong gales turned into green leaves, which filled the air above the entire Dragon Devouring City with over a hundred million green leaves, dancing in the gale, and finally turning into the sharpest blades. Wherever they went, the ground would be torn apart, hundreds of thousands of holes appeared, and countless Demon Sea Clan members were penetrated!

In the next moment, countless green leaves shot towards Yang You from all directions!

This looked even more powerful than Long Chen's Sword and Saber God Prison. One could imagine that if he did not have the Slaughter Heavenly Diagram, just this Wind Demon Beast alone would be able to kill tens of millions of people in an instant. This was not a joke.

Some experts indeed had this ability!

However, Yang You also had this ability!

All of the powder was infused into the hardest stellar nucleus, instantly scattering the world. In the blink of an eye, it illuminated the world, with a large amount of light flashing, a large number of silver spots of light instantly rushed out, and every silver spot of light was able to find the green leaf very accurately, and then pierce through it!

A completely broken demon's terrifying attack!

Whether it was a melee or a long-range battle, Yang You was the king.

"Come out!"

In the blink of an eye, the sword in her hand slashed down, and immediately, a miserable scream rang out. One could see a blood-stained wing dropping down, smashing to the ground, killing quite a few demons, and from the air came a shrill scream of pain, belonging to the Wind Demon Beast!

The warriors of the Swallowing Dragon City all roared at the top of their lungs. The noise was earth-shaking.

The three Dragon Emperors of Dragon Devouring City gave their support to Dragon Devouring City. With Yang You's encouragement, they shifted from defending to attacking, increasing their strength greatly and quickly suppressing their opponent.

Furthermore, it was impossible for the Luminary and the Wind Demon Beast to defeat Yang You. They would only let Yang You suppress them!

The battle between Yang You and his two opponents continued, but the result of it was that both of the Demon Masters were completely defeated. The other three Dragon Emperor s were also in a state of complete defeat in front of them.

"Let's go!"

"Right, next time, find more people!"

They had come to an agreement in secret.

"This woman is very powerful, she seems to be an Eternal Dragon Emperor's maid. She's almost at the same level as Spirit King! We have to retreat together, we can't let her take advantage of us! "

"Right, gather together before fleeing."

They did not scatter like a swarm of bees, but gradually gathered together in the middle of the battle.

This time, Yang You had no intention of chasing after him.

There was an even more important reason for him to come to the Dragon City.

The three Dragon Emperor s immediately came up to express their gratitude, while the people below cheered for Yang You. In this endless despair, every victory was extremely rare.

It could be said that it was Yang You who saved Slaughter Dragon City and Devouring Dragon City.

Of course, it was Ling Xi who had provided them with the chance to survive. Otherwise, how would Yang You be able to withstand the arrival of thirty experts at the peak of the realm? It was still possible to kill one or two of them, but if five or six of them were to join forces, they would lose without a doubt.

At the very least, right now, there was no one in the Immortal God Realm who could defeat the combined forces of fifteen Dragon Emperor with ease.

"Hurry up and get the Heaven and Earth Transference Array. Are the materials ready?"

Yang You asked.

"Of course I'm ready. Alright, please follow me."

The three Dragon Emperor s personally led the way.

Now that Long Chen and Ling Xi had come out from Yang You's Divine Kingdom, everyone in Dragon Devouring City recognized them. This time, they were cheering for Long Chen and Ling Xi.

Especially Ling Xi, whose name used to be unknown, had now become the new hope of the entire human race.

The three Dragon Emperor s chose an important and spacious place to sit. As the location of the Heaven and Earth Transference Array, they were all guarding outside the door, allowing Ling Xi to enter by herself. Under the orders of the three Dragon Emperor s, the people outside also quieted down, worried that they would affect Ling Xi.

Whether it was his environment, experience, or mood, it was all much easier than last time. Ling Xi was very confident, and Long Chen was also very confident in her. Everyone had very tacit understanding to not say a word, and waited for her to complete this historic event!

If it was successful, the Five Dragon Cities would basically become a dragon city!

The Five Dragon Cities can always be linked together!

Everyone was anticipating and waiting.

They sat cross-legged on the ground. Some of them were recuperating, while others were chatting in low voices. Although this riot had yet to be completely resolved, at least for now, their hopes were growing greater and greater.

Due to the location of the Slaughter Dragon City and the Devouring Dragon City, they were the two most dangerous Dragon City. Connecting the two cities together could help each other and solve a lot of problems.

The transfer time was only for a quarter of an hour or less.

Time quietly passed.

Long Chen quietly watched his own woman busy, even if she was busy, she was still beautiful, her every movement was enticing to him, causing him to forget about the Heaven and Earth Transference Array, and focused on Ling Xi.

With a single glance, he saw that it had been half a day.

Ling Xi was even more beautiful here. The intense spatial ripples that appeared around her indicated that the Universe Teleportation Formations was about to be completed.

"Alright."

This time, Ling Xi took a deep breath, and looked at Long Chen with a look full of anticipation. Even though his face was slightly pale, and his steps were also a little light, at the very least, it was several times better than last time. It did not have much of an impact on her body. Just by using Long Chen's fire of life, she was able to recover quite a bit.

In front of him was a Heaven and Earth Transference Array.

"Let me give it a try first."

Yang You stepped forward.

"Let me do it."

Amongst the three Dragon Emperor s, the Nether Dragon Emperor was still worried that something might have gone wrong. After all, no one had ever seen Ling Xi use such a method before.

"Allow me."

Not giving the three Dragon Emperor s a chance to persevere any longer, she turned around to look at Ling Xi, and said, "Child, I believe in you for ten thousand times."

"Yes."

Ling Xi was so moved that she almost burst into tears.

She knew about the relationship between Long Chen and Yang You, and knew how much this woman doted on her. This was the most critical step she had taken, but she believed in herself deeply.

Although she looked very cold, she was very careful and very gentle.

The three Dragon Emperors could not help but sigh. This Yang You was a troublemaker back then, playing tricks behind Long Qinglan every day. After so many years, he actually became like this.

It could only be said that things were unpredictable ...

Yang You did not even turn around, directly stepping into the Heaven and Earth Transference Array. In the blink of an eye, she had already disappeared, and going back and forth would take around half an hour.

If he succeeded, it meant that his final hope had been born!

If you fail, then you'll be in trouble. Even with Yang You, I'm afraid you won't be able to turn the tide in the end.

Thus, they were unable to use words to describe their current nervousness.

Long Chen held both of Ling Xi's hands tightly. Although Ling Xi knew that this kind of thing was very perfect for her, but before she succeeded in her experiment, she was still very nervous.

In less than a quarter of an hour, there was some movement from the star token. It was Yang You.

"We've reached the Slaughter Dragon City. Don't worry, we'll head over with the Blood Tyrant Dragon Emperor now."

Hearing that, everyone could not help but cheer, even the three Dragon Emperors had excited smiles plastered on their faces, their eyes were red, and they were close to tears.

At least, more than half of them had succeeded!

If there were no more problems coming from that side, then it would be a complete success!

"Congratulations, great savior."

Long Chen pinched Ling Xi's face and laughed.

Ling Xi stared at Long Chen in a daze, and then, even the three Dragon Emperors spoke to her with incomparable gratitude.

After the news was spread out, the people outside began to seethe with excitement. Everyone struggled to shout as they witnessed this miracle with their own eyes.

After less than a quarter of an hour, two people appeared in this place. They were Yang You and the Blood Tyrant Dragon Emperor.

"You guys go ahead, we'll go to the Everlasting Dragon City first."

The moment Yang You came out, he signaled to Long Chen and Ling Xi.

Although everyone wanted to leave them here to thank them, or perhaps say a few more words, they all knew that the most important part of the job was not finished yet. The Everlasting Dragon City, the Fate Dragon City, and the Life Dragon City were waiting for them.

"You've worked hard."

Everyone said in unison.

These three people were deeply connected to Long Qinglan. After they left, the Bloody Dragon Emperor and the three Dragon Emperor s sighed deeply and said, "Heaven's will didn't just mess with them, it was Long Qinglan who saved us."

"We didn't figure out what happened back then. We did it too hastily."

"That's right, our mistake. However, now is not the time to talk about this. Make more preparations for the upcoming battle."

"It's best if we keep an eye out. We'll stay outside the Skysplit Diagram ourselves and keep an eye on the surrounding area. As soon as any enemy powerhouses get near, we'll have to inform them immediately. After all, from here to there, we'll need fifteen minutes. Fifteen minutes can change a lot of things."

After a while of discussion, the Blood Tyrant Dragon Emperor returned to the Slaughter Dragon City.

They had tried using martial artists at every level, even trying to pass several hundred people at once. There was no problem at all.

This forced them to sigh with emotion, Ling Xi was really too heaven-defying.

At this time, the silver bird had already rushed to the southernmost Everlasting Dragon City.
