

War God 2391

Chapter 2391 - Everlasting Ling Xi Formation

In fact, the Everlasting Dragon City was also very dangerous.

The Everlasting Dragon City is in the south, so demons and Sea Clan are not enough for us, we will need a long time to get here. Generally speaking, the Spirit Demon race and the Sea Clan are either in the west or the north, they haven't even arrived at the Dragon City of Destiny yet.

However, in the southern starry sky, from the very beginning, a portion of the Witch clan had come to attack. The Witch clan was more tyrannical than the Sea Clan. They had powerful combat abilities and a tyrannical body. They were born to fight.

During the battle in the southern star field, because the Immortal and Sky Dragon Emperor were in charge, and because the Witch Clan's Holy Mage did not appear, there were not many casualties among the human race. However, the Everlasting Dragon City had also brought everyone from the Southern Domain into the Everlasting Dragon City. Even Qing Lan Hall was now filled with people.

Why is the Everlasting Dragon City in danger?

This was because this was the attack point of the eight Great Saint Masters, but he didn't know if the eight of them had gathered together or not. If eight of them had appeared at the same time, then the Everlasting Dragon City would definitely collapse at a very fast speed, leaving no traces of damage behind.

This was the place Long Qinglan was born in, so no matter if it was Yang You or Long Chen, nothing bad would happen to this place.

Thus, on top of the silver bird, Long Chen was still quite nervous, worrying that the Everlasting Dragon City would be attacked by the eight Holy Mages. It would take at least a day to travel from Dragon Devouring City to Everlasting Dragon City. At least before Yang You got close to Everlasting Dragon City, the eight holy witches would have to come.

It was a race against time.

To be honest, this was simply torture.

As he got closer and closer to the Everlasting Dragon City, Long Chen became more and more assured. Very soon, he would arrive at the Everlasting Dragon City in roughly two hours.

"It's a good thing that the eight holy wizards haven't appeared yet."

he said fearfully.

When the Everlasting Dragon City's Heaven and Earth Transference Array is ready, the three Dragon Cities will join forces. Once the eight Great Saint Masters attack, the other two Dragon Cities can let the four Dragon Emperor s come. With a total of seven Dragon Emperor s, it would be enough to deal with them.

Yang You said.

However, before that, there would be a total of eight people. Including Yang You, it might be a battle to the death. At that time, Yang You could only use killing to intimidate them and force them back. After all, it was not easy to scare them off.

Therefore, this trip to the Everlasting Dragon City, at least, would be on tenterhooks before Ling Xi completed her Heaven and Earth Transference Array.

"Xiao Xi, how's your recovery going?"

Long Chen hugged the woman in his arms and whispered into her ear.

"Yes, it's as good as new. It's ready."

Ling Xi said gently.

"After we finish the Everlasting Dragon City's side, we'll arrive at the Destiny Dragon City and let you have a good rest. The last two Dragon Cities are not too anxious, because they themselves are in a relatively safe location."

"Alright."

The most important thing right now was the Everlasting Dragon City.

After an hour, the Everlasting Dragon City was still calm and Long Chen was completely at ease. At least this place had not been destroyed, and as long as Yang You arrived and the other party didn't send out too many people, there shouldn't be a big problem.

The sea of time was right in front of them.

It seemed like he hadn't been back for a while.

It was still very peaceful here, there weren't even witches, demons, or the Sea race in the area. However, looking from afar, it seemed that the eternal sky map had been prepared.

Looking into the distance, there were still no enemies.

On the Eternal Heaven Diagram, two men and one woman, the three Dragon Emperors were already waiting for Yang You's arrival.

This was where Yang You grew up.

When Yang You appeared in front of them along with Long Chen and, the Immortal Dragon Emperor and Eternal Night Dragon Emperor didn't know what to say.

"It's good that you're back, it's good that you're back!"

The Immortal Dragon Emperor was already old and not as stubborn as he was in the past. He was already very satisfied to be able to see Yang You and Long Chen.

"Yes, let's settle the Heaven and Earth Transference Array first."

Yang You directly said.

"Alright, follow me. I'll lead the way."

She had not seen Ling Xi before, and at this time, she could not help but size him up, praising him: "As expected, you are a good child who isn't hard to come by. A perfect couple is the best pair I have ever seen."

"Thank you."

Ling Xi knew that this was the only woman amongst the fifteen Dragon Emperors and admired her greatly.

"I'm speaking the truth, no need to be polite."

Yong Ye very quickly brought everyone to a quiet place. She seemed to have a kind of unrelenting love for Ling Xi, and asked warmly, "You consecutively set up two Heaven and Earth Transference Arrays, you must be very tired. Do you want to rest for a while?"

"After this is over, let's rest for a while longer. This place is worried that the witch clan guy will come over. They're hard to deal with." Yang You took over from the words of the Eternal Night Dragon Emperor.

Dragon Emperor Yongye nodded and said, "That's fine, you must pay attention to your body. You can't force yourself."

The two women stared at Ling Xi's lower abdomen, their eyes surprisingly having similar expressions.

"Cough, cough."

The Immortal Dragon Emperor coughed and said, "What are you so anxious about. It looks like it will take a long time until it is born. It's more important to be serious."

To everyone, this new life seemed to be a new successor. It held a very important meaning. When he or she is born, he or she will be everyone's treasure.

This kind of spoiled look made Ling Xi feel a little overwhelmed, but it also made him incredibly happy.

With so many seniors present, she felt a little embarrassed.

"Let's begin."

Everyone waited outside without disturbing Ling Xi. The hundreds of millions of people in the entire Everlasting Dragon City, and even the hundreds of millions of humans in the Divine Kingdom, were all waiting for Ling Xi's success.

"She looks like a weak little girl, but she can change history."

The Eternal Dragon Emperor took a deep breath, feeling that everything that was happening right now was just too unbelievable.

"Yang You, my old man, I don't know what to say. I was very impulsive in what happened that year, and now I know my mistake. I'm truly sorry."

For the Immortal Dragon Emperor to be able to say such words, if it was before, it would be a miracle.

Yang You shook his head, his gaze was fixated on Ling Xi, and said: "This is all a matter of the past, even if he doesn't mind, I won't mind. The future is more important than anything. "

In her eyes, Long Chen and Ling Xi were the future.

To be able to hear these words, the Immortal Dragon Emperor was already on the verge of tears. This kind of forgiveness was simply too hard to come by. It removed the knot in his heart that he had been hiding for a long time.

"You're right. The future is more important than anything. I am also very grateful to you for leaving Qinglan her flesh and blood. "

In the hearts of the fifteen Dragon Emperor s and even the people of the world, Yang You already had such an identity.

She was just about to say that Long Chen was not her child at this time, but Long Chen suddenly interrupted her first. "What's there to thank me for?"

There were many stories between Long Qinglan and Yang You, which Long Chen suppressed with a few sentences.

This made Yang You startled, and the expression in his eyes when he looked at Long Chen became much gentler. This was Long Chen proving to her that even if there was a little hesitation, a relationship was still a relationship. Love was love and it would not change.

Everyone laughed. The young people these days were too shameless.

"Back then, there were many girls who loved Qinglan and some even went crazy in their pursuit, wanting to make her fall in love with him. But he has never had any relationship with any girl and I thought he was just cultivating with all his heart. It turns out it's just because you're by his side, that's all."

Indeed, Yang You had grown up with him.

In front of the other Dragon Emperors, Yang You made them feel very fearful, but the three people in front of them were the ones who truly watched her grow up. They arranged for her to stand by Long Qinglan's side, even with the intentions of Dragon Emperor Yongye.

"It is said that you have captured the Sea Divine Emperor. When the matter with the Heaven and Earth Transference Array is settled and there is still time, you must use this time to carefully study it and see if there is any method to wake them up. I have also captured quite a few witches."

The Immortal Dragon Emperor finally got back to the main topic.

"Mm. This is a rather urgent matter. If we don't have a complete solution to this, then the thirty experts from the other side will charge at us at the same time. We'll be finished no matter what."

Yang You also said.

The only one who could clear their minds was Long Chen.

He said, "If I can quickly enter the Seven Stars tribulation of reincarnation, I will be able to fight against these thirty. At that time, I will first awaken these thirty. However, I just stepped into the sixth tribulation, so I might need at least two months. Time is running out right now, so I'm afraid I won't make it in time. "

Some people had seen the fifteen Dragon Emperor before. It was the same for Yi Xue and Meng Hen back then when Long Chen woke them up.

"How did you do it?"

Long Chen shook his head and said, "The reason for the bloodline is something only I can do. It cannot be replicated."

"As soon as possible, we can help you persevere. If you awaken one, we will have another helper."

Although it was not easy, everyone still had hope for Long Chen.

After half a day, Ling Xi completed her mission, and when the news spread out, the entire Everlasting Dragon City was in an uproar.

Ling Xi was more exhausted this time. After all, she had been working three times consecutively, so Long Chen didn't say too much and just brought her to a good rest. The only thing she could do now was to let her rest for a while. In any case, Fate Dragon City and the Life Dragon City were not in a rush.

The Immortal Dragon Emperor and the Sky Dragon Emperor had respectively gone to the Dragon Devouring City and the Dragon Slayer City, and then returned with the Thousand Slaughter Dragon Emperor and the Emperor Blood Dragon Emperor.

The Immortal Dragon Emperor was overjoyed, and said: "This is a historic breakthrough, because this was built by Ling Xi, why not name it the 'Eternal Ling Xi Formation'. What you guys can call are 'Devouring Ling Xi Array' and 'Killing Ling Xi Array'. And in the future, the 'Fate Ling Xi Formation' and the 'Life Ling Xi Formation'!"

It could be seen that he had really been excited to be able to come up with such a vulgar name.

Chapter 2392 - Eternal Life Demon Ancestor City

After the Ten Thousand Killing Dragon Emperor came over, and saw that the immortal Dragon Emperor was so arrogant, he immediately laughed: "Old bastard, don't get happy too early, because Ling Xi is your family's, and he joined our Dragon Slayer City, why are you so happy? This is my Dragon Slayer City's daughter-in-law, why are you so happy?"

The Eternal Dragon Emperor froze, wishing that he could snatch Long Chen back to the Eternal Dragon Emperor s on the spot.

However, he was satisfied that the Everlasting Dragon City had an Eternal Dragon Emperor.

"What are you so proud of, he's still not from my Everlasting Dragon City."

he said, laughing.

At this time, Yang You had already wanted to leave with Long Chen and Ling Xi. Dragon Emperor Yongye was also warning his repeatedly to be careful so that he would not let Ling Xi harm her womb and to go to Fate Dragon City.

After all, Destiny Dragon City and the Life Dragon City were relatively safer.

And the three Dragon Cities that were now connected were almost equivalent to nine Dragon Emperor s being able to move at the same time.

After bidding farewell to everyone in Everlasting Dragon City, Yang You sat on the little silver bird and sped away, disappearing from everyone's field of vision.

"Xiao Xi, are you alright?"

It had to be said that this extremely large Heaven and Earth Transference Array truly consumed a lot of energy.

However, Ling Xi had earned it, because the Immortal Dragon Emperor was named, and no one objected, all of these Heaven and Earth Transference Array were turned into a Ling Xi Formation, branded with her name, it was estimated that she would be able to pass on her legacy for at least a million years.

"Killing Ling Xi Formation? It sounds weird, but the Everlasting Ling Xi Formation still sounds better. "

Ling Xi pouted, but continued to ponder over this problem.

Seeing the sternness in Long Chen's eyes, he laughed and said, "Alright, you are currently recuperating properly. I think that you will be able to recover once you reach the Dragon City. "There are only two left. With my current experience, I'll be fine with a few minutes."

In truth, the distance from that place to Fate Dragon City was about the same, so they left from Everlasting Dragon City and did not move to Swallowing Dragon City or Slaughter Dragon City.

Now that there were a few Ling Xi Arrays, moving them was already very convenient.

Fate Dragon City was as expected, and nothing had happened. Although a portion of the demon race had already attacked here, nothing major had happened yet, and there weren't any peak level experts. This was the center of Dragon God Domain, the second safest place to go. There was a Dragon City surrounding all four sides.

Destiny's Dragon City was built on the Sea of Destiny.

The Sea of Destiny was a white ocean, pure white like diluted milk. It flowed quietly and exuded an enchanting fragrance. Even if blood or corpses entered the Sea of Destiny, they would disappear, unable to tarnish the purity of this place.

Destiny's Dragon City was a large, pure white city. Just like the term 'fate', it was extremely ethereal, faintly discernible in the clouds.

The Heavenly Fate Dragon Emperor and the other two Dragon Emperor were already waiting for Yang You's arrival.

After a day of travel, Yang You finally arrived at this place with Long Chen and Long Chen. From afar, he could see the Dragon City in the Diagram of Destiny.

"I have finally brought you guys here. You can be considered to be relieved."

The Heavenly Fate Dragon Emperor was a short and fat old man. He was very rich, his face was glowing red, and he looked kind and kind. As he welcomed them, Long Chen and the others entered the Dragon City that they had never been to before, and got cheers from all the warriors in the central region. Because it was the central region, there were even more experts.

In terms of the Heaven's Diagram's defensive capabilities, the Dragon City should be the number one city.

Now that the news from the Five Dragon Cities was common, everyone was very clear on the extent of the plan for the 'Ling Xi Formation'.

When they arrived at the location of the set-up, the Heavenly Fate Dragon Emperor said, "The two Dragon Emperor s, Eternal Night, have instructed me to let little miss Ling Xi rest for a while. There is no harm in setting her up again after a day. There was nothing going on at the Life Dragon City. If we are fine here, then even further away from them, there shouldn't be any problems. "

Now that the situation was slightly stable, Yang You was not in a hurry, so she agreed. Furthermore, she knew that Ling Xi would not be able to hold on for much longer and would lie even before he completely recovered.

If she was resting in the Yang Nether Divine Kingdom, she would help to recuperate. This was more than enough.

"I'm going out for a walk."

Long Chen felt a strange movement.

He bid farewell to the three Dragon Emperor s and Yang You. There were too many people in the Fate Dragon City, so in order to avoid being surrounded by everyone, he directly used the Time Traversing Dragon to search through the crowd.

The reason he came out was because there was something moving on his body.

It was a stone key, and on it was written the words Destiny Dragon City, which was what Long Chen had found among the things Long Qinglan had left behind in the Slaughter Dragon Tomb, and also a stone lock with the Star of Destiny carved on it.

Long Chen seemed to understand a little.

"Does it mean that there's something in the Destiny Dragon City, and it's a key, and there's a lock on the Star of Destiny. Do you want to use this key to open that lock?"

That was his guess.

"What's wrong?" The Heavenly Fate Dragon Emperor followed him out. He realized that Long Chen was looking for something and wanted to see if he could help.

"Find something."

Right now, all fifteen of the Dragon Emperor s were on the same side, so there was no need for him to hide too much.

"Sometimes, if you need help, just let me know at any time. This old man might be able to help."

"Thank you, senior."

Long Chen laughed brightly as he walked past many people on the road. After that, he realized that there were a lot of strange little grasses growing on the walls and the underground of Dragon City. The grasses were less than ten centimeters tall with four leaves and the patterns were very beautiful.

Those patterns were all Immortal Mark s, but not many. There were only a dozen or so.

In a place like the Fate Dragon City, the Immortal Mark should be very high, with Celestial Spirits.

"This is the 'Floating Grass', there is only the existence of the Dragon City in the world, it is of no use, but it is a strange immortal spirit, no matter how clean it is, it can still grow, and it will take shape in a few

days. I think that even if the Dragon City turns into ruins, it should at least come out. This is the mystery of fate, which I am unable to understand. "

"Oh, so that's how it is."

The thing that Long Chen was looking for might be this Floating Grass, or it might not be.

It's very similar, but it should be something else.

Following the directions of his key, he slowly crossed the entirety of Dragon City in half a day's time and arrived near the city gates. He was previously at the core of the city.

After arriving here, Long Chen realised that the reaction of the key had become stronger.

"It's nearby."

After searching for a while, he determined the area they were in and started to search carefully once again. There was a time when he lifted up a huge rock, and on the stone ground, there was a small blade of grass that was always pressed under the rock. When Long Chen removed the rock, it proudly straightened its back, and straightened its body.

This was also a Floating Grass.

However, all the Life Floating Grass were green in color. Only this one had a pure white color. There was not even a hint of other colors on it. Even its roots were white.

Of course, although it was white, in the end, it wasn't anything precious.

However, the key carved with the key to the Dragon City was precisely this.

White floating grass.

The Heavenly Fate Dragon Emperor beside him exclaimed and said, "In my tens of thousands of years, I haven't seen such a white floating plant."

"Can I take it?"

Long Chen wanted to bring it to the Divine Kingdom and let it grow. It might be useful to it in the future.

"Of course. Anything can be taken away. " The Heavenly Fate Dragon Emperor laughed, looking extremely cute.

Currently, there were fifteen Dragon Emperor s. Who knew how much they liked the pair of Long Chen and Ling Xi.

"Thank you!"

After Long Chen expressed his thanks, he carefully transferred the white floating grass, that was guided by the key, into the Divine Kingdom so that it could continue growing. Perhaps one day, it would be of great use to him.

Following that, he and the Heavenly Fate Dragon Emperor returned to the core of Dragon City.

"Brother Chen, there's no problem. We can begin."

After half a day had passed, Ling Xi's complexion was now rosy and lively, so there shouldn't be any problems.

"Good luck."

The fourth round officially began.

To be honest, Ling Xi was already so skillful that she only used up time and energy. The pressure on him was not even close to what it was in the past.

As time passed, the Destiny Ling Xi Formation slowly took shape.

After the test, they were able to quickly return to the four Dragon Cities. The Immortal Dragon Emperor s, the Tyrannical Blood Dragon Emperor and the others also came one after another, and then sent Long Chen and the others to the last location, Life Dragon City!

The last place!

However, just at this time, there was a warning from the Dragon Emperor outside, a demon clan was actually rushing over at this time, and from the looks of it, they were not ordinary demon clan!

"Immortality, Baoxue, and the other Dragon Emperor s, please do not appear. Before Life Dragon City's Heaven and Earth Transference Array is completed, it is better to not expose it. We will first see if we can deal with the few experts that have arrived here, and if Fate Dragon City's three Dragon Emperor s and I can do it, it will be fine then."

Yang You said.

The Immortal Dragon Emperor and the others also felt that this made sense, so they hid themselves under the Destiny Celestial Map and did not make a move.

Very quickly, the Dragon Emperor who was supervising from the outside said, "It's the four Great Demon Lords of the Eternal Demon Ancestral City, and the four brothers of the Eternal Demon Beast. No one else. "

There were only four people who came, and they didn't need the Immortal Dragon Emperor and the rest to help them. However, the other Dragon Cities were doing nothing important right now and were still very safe, so they were not in a hurry to leave. Dragon Emperor's patrolling area was still very wide. After being discovered, it would take them at least fifteen minutes to reach Dragon City.

Regarding the Four Great Demon Ancestral Cities, Long Chen knew that there was a city called the "Reincarnation Demon Ancestral City". This was the first time he had heard of the "Eternal Demon Ancestral City".

"There are actually four 'Eternal Life Divine Beasts'. All of them are Greater Demon Lords?"

He was surprised.

One had to know that for example, Jiuhuang, Tengu, Uriah Beast, Wind Demon Beast, and the others would definitely be the clan's only Demon Lord. To be able to become a Demon Lord with four brothers, that was simply a miracle.

"Among the demon clan, only the Eternal Life Divine Beast of the Eternal Demon Ancestral City can become a Demon Master with more than two lives. The others were all alone. Among all Demon Lords, the four of them are not the strongest, but they are very troublesome because every time they work together, the other Demon Lords would not dare to provoke them.

Chapter 2393 - Myriad Lives Godly Beast

Long Chen had a general understanding of the situation. It seemed that in terms of individual combat strength, the Eternal Life Divine Beasts were not the strongest amongst the Great Demon Masters, and were relatively last, but there were too many of them. The four of them directly took over a city of the Demon Ancestors, gaining unique resources.

Fortunately Yang You had rushed over at this time, and Ling Xi had even set up the Destiny Ling Xi Formation. Otherwise, even if these three Dragon Emperor s fought all four of their opponents at once, they might not necessarily be able to hold on even after a long time.

At this moment, the three Dragon Emperor s of Dragon City were already in the air above the diagram, waiting for their opponents to arrive.

This time, they were naturally relieved like never before.

To Long Chen, the thing that weighed the heaviest was the battle in Dragon City. That scared almost everyone.

"The Eternal Life Divine Beasts are actually a type of rat. They have trillions of clones, only one real body, and many miraculous methods to escape. Their ability to escape is almost the best in the world, and

with their suspicious personality, they wouldn't attack unless there's a chance of victory. I think if they had heard of me, they would have run away the moment I came out. "

Yang You said lightly.

"Billions of clones?"

This was truly terrifying.

This time, it was not considered to be a crisis, since the other party was good at escaping. After scaring them for a bit, they would leave, and Yang You would still have to bring Long Chen and the others to the last Life Dragon City.

As long as Life Dragon City's Life Ling Xi Formation was completed, then everything would be settled. At least the fifteen Dragon Emperor would be able to unite to fight their enemies.

It could be said that the Five Dragon Cities still had not been broken through, it was practically a miracle. It was also because the opposing party's thirty elite warriors were doing whatever they wanted, did not cooperate with each other, and did not have a united leader. That was why they gave Long Chen and the others the chance.

If the first seven people who attacked Dragon City were at the peak, then Dragon City would probably be finished by now.

To be able to survive until now could only be described as lucky.

However, the most important thing right now was to find a way to solve this problem.

The warriors of the Dragon City had gathered together and prepared to support the Destiny Sky Diagram.

The three Dragon Emperor s floated above the diagram.

Roughly a quarter of an hour later, everyone saw the countless black shadows attacking from the Sea of Destiny in the Dragon City, covering the sky and covering the earth. They were the countless rat demons. There were hundreds of millions!

It was so dense and endless that it completely surrounded the earth, sky, and sea. It was as if a black curtain had descended, bringing darkness with it.

In the darkness, there were countless red eyes, red dots that made one's hair stand on end.

Of course, there was also that chirping sound. If it was only a mouse, it wouldn't be much. However, when hundreds of millions of mice were chirping, it was like a nightmare.

His voice was so loud that it seemed as if it could fill every inch of the world. If it wasn't blocked by the Destiny Diagram, it would have driven people insane.

However, the expressions of the three Dragon Emperors outside did not change.

At this moment, the hundreds of millions of rats gathered towards the four cores, forming into a cloud of smoke that gathered together and became smaller and smaller. Finally, these hundreds of millions of creatures disappeared in a short amount of time, leaving behind four young men with sharp mouths and monkey cheeks.

It was hard to imagine that the hundreds of millions of clones that had covered the sky just now were merely clones. It wasn't an exaggeration to say that the combined number of their clones was about the same as the number of people in the entire Destiny Dragon City.

No wonder it was called the Eternal Life Divine Beast.

If they wanted to escape, no one would be able to stop them.

The four Eternal Life Divine Beasts took human forms, and they gazed greedily at the Dragon City.

One of them said, "The Dragon City is extremely wonderful. If the three of you can entangle these three Dragon Emperors, I will break through the Destiny Diagram."

"Ah, boss, you're really lazy. Let me break the Heavenly Map of Destiny."

"No, no, I'll do it. I'm the youngest. As your older brother, you should let me do it."

They all started chattering, not giving the three Dragon Emperor s any face at all.

In truth, the fighting techniques of the Eternal Life Divine Beasts were also rather strong. In the Slaughter Dragon City, with the help of the Slaughter Heavenly Diagram, one Dragon Emperor could restrain two opponents, but against the Eternal Life Divine Beasts, they could not do much.

Let them keep an eye on him. Don't even think about escaping.

As a result, even though there were four of them, it was still the equivalent of seven.

To tell the truth, if Yang You and the others weren't here, then according to the Eternal Life Divine Beast's thoughts, the Destiny Celestial Diagram might very well be broken through!

Then, with the power of the Avatar of Avalon of Five Elements, they could probably kill almost the entire Dragon City in a single breath's worth of time.

This was their terror.

They looked down on everyone and argued with each other for a while, but discovered that the three Dragon Emperor s didn't have the slightest bit of pressure, and had already started to have doubts in their hearts.

"Three Dragon Emperor, you are preparing to give us the Dragon Orb, right? Haha, that's perfect, we definitely won't touch a single hair of the Dragon City, quickly bring it over. "

At this time, a black robed woman appeared from the Destiny Diagram, floating in front of the three Dragon Emperor. The Heavenly God Sword in her hand, Milky Way, was emitting a silver sword beam.

"I'll give it to you. Do you dare to take it?"

Yang You looked at them coldly.

The four Eternal Life Divine Beasts felt a chill in their hearts.

"Didn't you go to the Devouring Dragon City, and then to the Everlasting Dragon City? Why are we here?"

Sure enough, they had already heard about Yang You.

Therefore, at this time, they already had a deep fear. Just as they said those words, they looked at each other and decided to retreat.

Brothers, let's go, her history is very close to the Spirit King, fighting with her is seeking death. She has already traveled to the fourth Dragon City, although I don't know why, but she will definitely go to the Life Dragon City.

"You're right!"

The four Eternal Life Divine Beasts didn't say anything more at this moment. In that instant, they turned into billions of rat type monsters once again and scattered in all directions!

Yang You Yin waved his hand and exploded into hundreds of millions of particles. These particles penetrated the head of every single rat, leaving hundreds of millions of corpses behind and then incinerating them on their own.

The remaining 300 million or so rats started to scream and chatter, and in the blink of an eye, they disappeared from everyone's sight, fleeing far away.

Yang You kept his Heavenly God Sword and Milky Way. This kind of Heavenly God Beast would still be able to live even if it only had one avatar left. This was a rather terrifying Inherent skill; it wouldn't be able to catch them like the Sea Divine Emperor, so she wouldn't pursue them.

"They can at least be considered to be injured, with a quarter of their injuries. With their cautious nature, they wouldn't dare attack until they fully recover, at least two to three days. Of course, they would definitely guess that I would go to the Life Dragon City, which is unavoidable. Therefore, they might come back to attack again after two or three days. At that time, the Heaven and Earth Transference Array of the Life Dragon City would be ready. If I didn't come back and they brought new

helpers, you can get the other Dragon City Dragon Emperor s to help. Right now, there is only one last step. "

Yang You's analysis was very specific.

If the Eternal Life Divine Beast couldn't recover and attacked them, then just the three Dragon Emperor in Dragon City would be able to restrain them.

With the war progressing to this extent, with the human race all at Five Dragon Cities, now was the time to compete with the strongest warriors.

If the ones attacking aren't the Eternal Life Divine Beasts, but the other Great Demon Masters, we can at least send a little more Dragon Emperor s and capture them, or at least imprison them, and that way, we will have fewer opponents. The Eternal Life Divine Beasts are too good at fleeing, we can't even catch them.

"There will be such a chance in the future." Yang You said with certainty.

She called out to Long Chen, then said: "I'll be leaving first. Take note of your surroundings, don't let the Eternal Life Divine Beast know that I've left so quickly."

The three Dragon Emperor s immediately agreed and began to patrol the vicinity, especially towards the east.

Yang You's speed was extraordinary. After making a slight detour from the south, he brought Long Chen and the others and headed towards the last beheading station of the plan, the safest place in the east, the Life Dragon City.

However, the safest place was still the most dangerous place ...

Far to the east of Dragon God Domain, the Black Jade Dragon's Head was located here.

To the east would be the land of origin of the divine dragons.

The Life Dragon City was located in the eastern center of the Dragon God Domain, not far from the position of the Black Jade Dragon's Head. According to the speed of the Dragon Emperor, it would take about half an hour for the Black Jade Dragon to reach the Life Dragon City.

In the entire east of Dragon God Domain, from the start of the war until now, there had never been an attack by fire or battle. Even the Goblin Tribe, Sea Clan and the Shaman Tribe had never seen such a scene, and many people were dissatisfied with the fifteen Dragon Emperor's joining hands to gather all the people in the Life Dragon City. They felt that the Dragon Emperor was making too much of a fuss.

This was basically abandoning all their homes and hiding in the Life Dragon City.

They, who had never personally experienced a battle, did not know how terrifying it was.

"As expected, the people of Dragon City are very comfortable."

"The eight of us will break through this place. It should only be a matter of time."

On the head of the Black Jade Dragon, there were eight muscular, two-meter-tall 'people' who had long fur like that of wild beasts and rock-like skin.

They had strange appearances, thick facial features, and even had fierce teeth of a beast type. Their bodies were covered with parts of their extremely powerful beast type bodies, and their words sounded as if they were chanting.

This was one of the five great races of the Immortal God Region, the Witch clan.

And the Witch Clan that stood on the head of the Black Jade Dragon and was looking at the Life Dragon City was one of the eight Witch Clan members that had received the inheritance of the Sorcerer, a top-notch Saint Magus!

"Attack!"

They prepared to charge towards the Life Dragon City.

Chapter 2394 - The Eight Holy Mages

The eight of them had practically all of the Shamans step foot onto the southern territory and allowed them to attack the Everlasting Dragon City, but the eight of them had actually bypassed the southern territory and moved from the vast southern starry sky to the east. In reality, they had moved all of the Shamans into the southern territory in order to attack the Everlasting Dragon City in a surprise attack and then destroy the entire Life Dragon City!

This was the unexpected method they thought of the moment they found out that the human race had actually taken everyone back to the Five Dragon Cities. They had left the borders of the Sorcerer Region and arrived at the Eastern Star Region in just a few days. Afterwards, they had arrived at the head of the Black Jade Dragon and found the position of the Life Dragon City, preparing to attack!

In front of them was the Life Dragon City's green sea of life.

"This battle, can only be won, not lost! We, eight great holy witches, together, if we cannot even defeat the three Dragon Emperors of our opponent, how can we face others? "

"That's right, we, the Shamans, have at least half of the power of the human race. A mere dragon city must be breached and everyone inside must be killed and the Life Dragon Pearls taken away. That way, we can give them a shock and make them hand over the other five Dragon Pearls!"

"Greatest eight Sorcerer Gods, please bless us and allow us to obtain victory in battle!"

"Let's go!"

The terrifying power of Xiong Ba's Wilderness, as well as the natural born fighting races of the Shaman Tribe, they were much more powerful and ferocious than the Sea Clan. Their style was more brutal and enthusiastic, and they were better at close combat as well, in human form. Their original form was that of a Giant Shaman, but they were much closer to 'Giants', so their movements were much more powerful and ferocious than the rest of the Sea Clan.

If their brutal attacks were to land on the Life Sky Diagram, they would not be able to withstand it with the safety of the Life Dragon City warriors. After all, the Life Dragon City had always loved peace and did not have a strong will to fight.

However, just as the eight Holy Mages were working together and preparing to make their move, in the distance, a silver light rushed into the Life Dragon City!

"Wait, it's Yang You!"

One of the wizards stopped them.

"Yang You? The Yang You who defeated the combined forces of the Ocean Divine Emperor, the Purple-eyed Emperor and the Tyrant Divine Emperor, imprisoned the Sea Divine Emperor, and defeated the combined forces of the Wind Demon Beast and the Lu Shao Beast? The woman who was by the side of the Eternal Dragon Emperor all those years ago had a Limitless Dao Artifact in his hands? "

These past few days, the subordinates of the eight Holy Mages had been sending them information regarding the Dragon God Domain.

Originally, Slaughter Dragon City and Swallowing Dragon City were close to being conquered, but it was this Yang You who came from Sky Dragon Star to save them.

Initially, the eight holy witches were already prepared to attack the Everlasting Dragon City, but Yang You's speed was terrifyingly fast, arriving at the Everlasting Dragon City almost before them.

That was why they chose not to enter the Immortal God Realm and directly went through the Southern Star Region to reach the Northern Star Domain. Right now, they were preparing to attack the Life Dragon City, but Yang You had come again!

"Damn it!"

"How did she get here, as if she knew we were going to attack!"

"Didn't that Primordial Lightning Beast say that with Yang You's strength, if she turns into a Divine Dragon, it would not be a problem to fight against four of us? We need five people to hold her down in order to have a chance of victory, but those three Dragon Emperors also have the support of their Life Heavenly Diagram, so their fighting strength greatly increases.

"Yeah, it's hard to take advantage of them. Wasn't the reason why we ran all this way was for a surprise attack? She's here, how do we make a surprise attack? "

"Everyone, listen to me."

At this time, a slightly skinny Holy Mage with a rough voice probably sounded like a woman. She said, "I can see that this woman is running around the Five Dragon Cities randomly, and even now, she has not discovered us. With her speed, it has basically been a day since she moved between two Dragon Cities. So I reckon she'll be gone in a day. "

"The Rain Witch is right, we will wait one more day, and after she leaves, we will attack." The Rain Witch is right, we will wait one more day, and after she leaves, we will attack.

"That's right. The trash of the Monster race and Sea race, with over twenty people, have yet to take down even the Slaughter Dragon City and Dragon Devouring City. Some of them are even heavily injured and are still recuperating. And all we need to do is wait for one day and we can take down the Life Dragon City as we please. "

"Humans are destined to fall, one day, it will be the era when us Witch Clan will dominate. "Everyone, let's wait, it's only one day. Our Shaman Tribe has been waiting for far more than one day."

"If she doesn't notice us, it will be our greatest opportunity. We can attack her when she's far away and is almost at the other dragon cities!"

The eight holy wizards disappeared.

Finally, safe and sound, they arrived at the last place.

Ling Xi also rested more or less. Last time in Fate Dragon City, she rested quite well, so this time, she rested more or less non-stop. Moreover, there was only one place left.

In order for the Life Dragon City to get involved in the battle as soon as possible, he had to complete the final plan and complete the last 'Life Ling Xi Formation'. That was the most important thing.

As soon as they arrived, the three Dragon Emperor s brought them to this quiet and empty place.

"Thank you for your hard work, little miss Ling Xi. He had already completed four Heaven and Earth Transference Array s consecutively, it was just too amazing. From what I know, you are also around the same age as Long Chen. "

The three Dragon Emperor s were overjoyed and relaxed.

After all, this was the last stop. As long as Ling Xi completed this last step, there would be no problems. The human race could be considered as having completed the first step of their counterattack. The only thing they could do now was to first block the opponent's attack and then figure out a way out.

With the Heaven and Earth Transference Array, the Five Dragon Cities would not be as weak as before. A few of the peak Rankers would be able to take the lives of hundreds of millions of people.

Ling Xi quickly went in to make her last effort.

Long Chen looked at the situation of the Life Dragon City and asked one of them: "On the side of the Life Dragon City, everything has been so peaceful and peaceful, and nothing has happened?"

"This place is quite far from the demon race, sea race and witch race. If they want to come here, it will probably take a very long time. Ordinary demon clan members of the Sea Clan would probably not be able to come either, unless they are at the top. They might only be able to reach there now, since not everyone is as fast as Yang You. "

Long Chen nodded his head and said, "Although the Witch Clan is spread throughout the Southern Star Region, the eight Holy Witch have never appeared. The other four Dragon Cities have already established a connection with each other, all that's left is the Life Dragon City. "I was worried that the eight holy wizards would cross the starry sky and attack us."

After hearing what Long Chen said, the three Dragon Emperor s looked at each other with serious expressions.

"According to what you said, it really is possible. With their speed, they should arrive today." But it's different now, with Yang You here, adding the fact that after a period of time, this last Heaven and Earth Transference Array will also succeed, I don't think we need to be afraid of these eight Saint Mages anymore? "

At this time, the silent Yang You spoke.

She said, "Just now, when I entered, 'Milky Way' felt a very strong fluctuation coming from the head of the Black Jade Dragon. I originally thought that it was a change in the Black Jade Dragon's head, and decided to go take a look once the Heaven and Earth Transference Array was completed.

"They really want to ambush the Life Dragon City? "I saw that they were controlled by the Ancient Giant Demons and thought that they wouldn't think of so many ways. Now, aren't the Demon and Sea Tribes the same? If they had gathered everyone together, the Dragon Slayer City and the Dragon Devouring City would have been destroyed long ago."

Yang You nodded, and said, "That's true, but the eight Great Saint Magi of the Witch Clan are more united, so it's normal for them to act in unison. Of course, they might have also seen me here, so they weren't in a rush to attack. Life Dragon City had escaped this calamity. If we come a little late, the consequences will be unthinkable. "

The three Dragon Emperor s also took in a breath of cold air.

They never thought that in the entire Life Dragon City, they would actually walk before the gates to hell.

"It's really lucky to have you back to help us."

Dragon Emperor could not help but sigh.

"What I should do."

Yang You faintly said.

Long Chen pondered for a moment, and said: "If they saw Aunt You, then they probably wouldn't attack us before we leave. Of the eight opponents, we'll think of a way to gather all our strength. It would be best if we can capture them alive. Once Ling Xi succeeds this time, Aunt You can pretend to leave, and then they will attack us. After that, we will add a few more Dragon Emperor s here, and we won't need to capture all of them.

There were a total of thirty of them, with the Sea Divine Emperor being controlled, there were only twenty-nine remaining.

Now was the time to fight with all their might.

On the human side, there were fifteen Dragon Emperors. Including Yang You, there were around twenty people. Although they were still lacking in numbers, the most important thing was that everyone was united to be able to appear in one place at the same time.

If the other side was also united, then even if there was a Heaven and Earth Transference Array, it would still be a huge problem.

"When I fight against the three of you, I have the confidence to capture one of the opponents, so the remaining five people will need to be restrained by the other five. At that time, the Everlasting Dragon City and the Slaughter Dragon City can just send one Dragon Emperor over. After all, the east side is still quite dangerous. There are still many Divine Beasts left in the Dragon City who are plaguing us, so we shouldn't use too many of them." Yang You said.

"Alright, then I'll talk to the others first."

The three Dragon Emperors of the Life Dragon City communicated with the other Dragon Emperors and also asked about the situation over at their side. As for Long Chen and Yang You, they waited for Ling Xi's success.

This was their first counterattack against the eight holy wizards.

In this sort of battle between peak powerhouses, it was best to solve one more problem in order to allow the entire human race to survive. As for the final solution to the ancient Giant Demons, that was something that could only be studied later.

Chapter 2395 - Setting the Trap

Temporarily speaking, the top experts of the Monster race had already sent out ten of them. It was unknown where the other six had been dispersed to. They did not have a unified relationship with each other, so their distribution was very scattered. That was the reason why it provided the humankind the opportunity to establish the Heaven and Earth Transference Array.

Five members of the Sea Clan were present, and the First Ocean Emperor, Sea Divine Emperor, was already imprisoned.

The eight holy witches of the Witch clan also appeared.

The dozen or so demon clan and Sea Clan experts that appeared had sustained some damage and were still recovering. For the time being, it would be very difficult to pose a threat to the Five Dragon Cities before they gather together.

When the Ancient Giant Demons woke up, the Demon Masters were not in the same place. They had basically attacked the Dragon God Domain from their own places. Perhaps to an ancient Giant Demon, controlling demons, sea races, and witches to destroy humans was an easy task, but what he didn't expect was that he would actually encounter such a great resistance!

At the very least, many demons and marine tribes had died, but other than the territories and lands, the losses sustained by the human race was not much. They were still far from being able to force the human race to hand over their Five Dragon Cities.

In fact, their surprise attack on the eight Great Saint Masters had actually stopped a counterattack.

The Life Dragon City was lucky this time, and managed to escape from a great calamity. Fortunately, Yang You was able to make it in time to intimidate the eight holy witches who were about to take action.

After approximately an entire day, Ling Xi used all her strength to finally finish the last 'Life Ling Xi Formation'. After completing two of them consecutively, she seemed to be very tired. However, after everything was over, she was filled with unprecedented happiness.

"Brother Chen, I finally succeeded!"

Long Chen hugged her in pain.

"You're too persistent with everything, always ignoring yourself. This place is an exception, we can't have the same thing happening in the future."

"I know, from now on, won't I be able to rest for a long time?"

Long Chen used his fire of life to help her recuperate, and then let Yang You take care of her. Under Yang You's protection, she was the safest.

"Good child, if we, the humankind, are able to survive this ordeal, you will be the biggest contributor."

Yang You was the only one who had endless love and gentleness towards her.

"Aunt You, this is what I should do." Ling Xi did not care about her contribution. She only wanted to help and she would not depend on Long Chen for everything.

But since it was this timely, not only the fifteen Dragon Emperor s, the entire human race was extremely grateful to Ling Xi. Thank you so much for this pure and kind woman.

"Brother Chen, there might be a period of time where I won't be able to face the enemy together with you."

If she wanted to recover to the point where she could use her Three Lives Love Silk to fight, she would probably need at least a few days. Furthermore, with her current physical condition, Yang You wouldn't allow her to join the battle.

"Don't worry, everything will be fine when you get better."

After Ling Xi had a rest, the three Dragon Emperor s informed the entire city and prepared to fight.

Right now, within the Everlasting Dragon City s, the Dragon Emperor of the firmament had come to provide support. In the Dragon City, the Ten Thousand Killing Dragon Emperor had come to provide support. They were all people that Long Chen was familiar with from the second Dragon Emperor.

This way, they would have a total of five Dragon Emperor s.

The two Dragon Emperor s had brought along a few elites as well, such as the Azure Fire Emperor and the Blood Blaze. Their role was obviously to strengthen the Life Sky Diagram.

The other Dragon Emperor s were still supervising near their respective Dragon Cities, preventing them from receiving any attacks from the other Dragon Cities when they counterattacked!

Now that the Five Dragon Cities was completely connected, it was as if there was only one Dragon City. Everyone was united.

"This is our first counterattack. Your mission is to guard the Destiny Celestial Diagram well. Don't worry, we won't let the eight sage Magi have the chance to attack the Destiny Celestial Diagram!"

The five Dragon Emperor s were lecturing.

Of course, the Heavenly Dragon Emperor and the Ten Thousand Killing Dragon Emperor were still hiding, and he couldn't let the eight holy witches find them first.

"In a while, I will leave first and then wait in the distance. If there is a fight, inform me and I will return as soon as possible. They will definitely be very careful and wait for me to leave far away, so they will probably wait for a few hours or even half a day.

Yang You said to Long Chen.

"Alright."

Long Chen would still stay here.

Now, everyone was prepared. In order to ensure that there were no mistakes, even the Diagram of Life had been reinforced. Other Dragon Cities had many early stage Nine Palace Calamity seniors, who contributed even more.

The other people of the Dragon City were now all connected together. They were all waiting for the Life Dragon City's counterattack!

The success of the Universe Teleportation Formations was like a carnival to them.

The counterattack began!

Yang You steered the silver bird and left Life Dragon City in a very low profile, heading in the direction of the Dragon Slayer City. Just as the eight Saint-level magi had expected.

"As expected, he went to the Slaughter Dragon City." From killing to devouring, to eternity, fate, finally to the Life Dragon City, and now back to the Dragon Slayer City, what exactly was Yang You doing? It can't be that she went to the Dragon City one day after returning to the Dragon City and went back to the Swallowing City, so she went back to circulate more and more, right? "

"That's what other people should do. Yang You hasn't gone far yet, so they will be able to get her back soon." Although we have eighteen people who are confident that we can completely destroy the Heavenly Map within an hour, for the sake of safety and safety, we should wait for six hours. She walked for six hours before she received news that it would take her at least six hours to return. When she returns, there will be no Life Dragon City left. "

"You're right. Six hours is the best time. If you're late, I'm afraid there might be other mistakes."

"Prepare everything, you must succeed at once!" Right now, the demon clan and Sea Clan's trash haven't gotten anything. "We want to obtain the first Pearl of Life, we offer it to you!"

Saying this, he was stunned for a moment. The Life Dragon Pearl, to whom should it be dedicated? There was no answer in his mind.

"Right." He suddenly remembered that two girls had already appeared in his mind. He said, "That's right, we should dedicate it to these two girls. That way, we would have completed our mission."

Time passed silently.

The entire human race was waiting. The eight Saint-level magi were waiting as well.

"It's been almost six hours. The eight Saint-level magi can still endure it." Long Chen was right under the Life Heaven Diagram, looking at the direction of the Black Jade Dragon's head.

All of a sudden, he saw eight points, and he could vaguely feel the vibrations of heaven and earth.

"Here it comes. Eight, yes. "

Outside the Life Heavenly Diagram, a Dragon Emperor quickly informed Long Chen.

Long Chen hurriedly reminded Yang You with his Star Rune.

"Alright, hold on. I'll be there in fifteen minutes."

In order to avoid being discovered by the eight holy witches, she would naturally avoid them a little.

At this time, in order to avoid the suspicion of the eight Great Saint Masters, the Sky Dragon Emperor and the Ten Thousand Killing Dragon Emperor were still mixed in the crowd. They were going to stall them before Yang You returned.

Because there were so many Rankers supporting the Life Skysplit Diagram, the power of the Dragon Emperor of the three Life Dragon City s rose sharply, their bodies surging with energy.

They gritted their teeth as they looked to the east. At this time, those eight light spots were quickly growing larger in front of their eyes!

"Eight Great Saint Magi!"

One of the Dragon Emperor shouted with an exaggerated posture.

"Why did you guys come here!"

A total of eight tall and muscular Shamans with strange appearances and skin as hard as rocks appeared in front of everyone's eyes. Their Shaman Tribe had the most powerful will to fight and a shocking body; they sealed the Sorcerer's body and inherited the Sorcerer's legacy, possessing the power to control the world!

"Roar!"

Coming here and seeing the three Dragon Emperor s, they could no longer hold back their urge to kill and emit excited roars!

"Human, I would like to ask you this once. The eight great liches of the Great Witch Clan, we give you two choices, they can only choose one of them. One, quickly hand over the Life Dragon Pearl to us! Second, if the Life Dragon City is destroyed, all of you must die! "

Now that they were all here, all they had to do was endure until Yang You arrived.

One of the Dragon Emperor said, "Respected Holy Mage, our human race has never had any conflicts with you, so why do you insist on obtaining the Life Dragon Pearl? If we can believe the reason given, of course we can give you the Life Dragon Pearl, this way it won't hurt our relationship, right?"

"Hmm?" The eight Saint Mages didn't expect the other party to be so afraid.

"They are very smart, our surprise attack this time was extremely successful, there were only three of them, and there were eight of us. If any two of us were to go break through the Life Dragon City, they would all die, so they directly chose to surrender."

"So boring. I thought I could kill a few people."

After some internal discussion, one of the tallest and strongest guys said, "The reason is simple. We have eight of you and you only have three of us. If you don't give us three, you will die. This is a sufficient reason!"

They had already spread out. Eight against three, the humankind had no chance of winning at all.

"Don't blame us for not giving you the chance. Right now, I will count from one to ten. If you still don't have any Life Dragon Pearls, we will immediately act."

Each of them was well-prepared to fight in eight different directions.

The Witch Clan was barbaric, unreasonable, and murderous, just like the primitive society. The Seafolk will eat their own Aquamarine, and they will devour their own flesh and blood!

They had all sorts of mystical techniques, such as spells, which were somewhat similar to the Spiritualism, but even darker. They were mostly curses, controlling insects, refining their own bodies with everything in the world, etc. And these eight holy wizards in front of him were the best of the best.

"One!"

From the start, every number was like a heavy hammer, causing everyone to be nervous as time slowly passed. Yang You said it was a quarter of an hour, but with her speed, she would arrive very soon.

Another Dragon Emperor said, "Eight Saint Magi, can we discuss it a little? We can loan you our Life Dragon Pearl for now and return it to us one year later. How about it?"

"Lend it to you?"

The eight witch warriors hesitated for a moment. The orders they received were obtained, not borrowed. Although it was the same for them, because of the relationship between them and the Ancient Giant Demons, they couldn't change their minds in this aspect. That was why they refused and continued to count.

In the blink of an eye, he had already counted to 10.

Chapter 2396 - Explosive Slaying of the Witch

Even after counting to ten, the three Dragon Emperor s still did not make a move!

The eight holy witches were enraged.

"Are you kidding us?"

Dragon Emperor said helplessly: "Who dares to play with you two. "Since you guys aren't willing to lend it to us, we have no choice but to make our move."

At this time, Yang You was actually almost there.

Hearing Dragon Emperor's words, the eight Great Saint Masters were enraged!

Because the Shaman Tribe practiced different spells, they were divided into many different tribes. These eight Great Saint Maguspriests were the leaders of the eight most powerful tribes.

These eight tribes were: the Rock Tribe, the Steel Tribe, the Frost Tribe, the Skyfire Tribe, the Myriad Worms Tribe, the Cloud Cloud Tribe, the Rain Snow Tribe, and the Thunderclap Tribe!

Due to the differences in their cultivation magic, the eight Saint-level magi were called the Rock Saint Magus, Steel Saint Magus, Ice Saint, Fire Saint, Insect Saint, Cloud Saint, Snow Saint and Thunder Saint.

Of course, when they addressed each other, they removed the word 'saint'.

Now, the eight holy wizards had turned into their original bodies.

When they moved, the sky would collapse and the earth would shatter. The Rock Witch had the ability to travel through the sky and earth, being able to control the earth, and could even overturn the land. Historically, there had been Rock Saint Witchcraft who was able to turn over the entire land, which was the size of two War God's Ancient City's territories, and play with it in the palm of his hand.

Moreover, it was just a simple iron body. He and Meng Hen shared some similarities, but he also had more iron body and physical body attacks.

The Fire Witch was a fire giant, but it was more like a wild beast. It was burning with raging flames and had no flesh. It was a huge fire in the shape of a human!

Ice Mage was similar to Fire Mage in that it could freeze the entire Sea God's Region for millions of miles!

The Insect Witch was the controller of all the ancient species in the world. Her body was made up of thousands of poisonous insects, corpse insects and Yin insects.

In addition, the Cloud Mage, the Rain Mage and the Thunder Mage all possessed earth-shattering abilities. For example, the Cloud Mage could turn into a cloud without leaving a trace, and as long as the cloud didn't dissipate, they wouldn't be killed.

The eight Holy Mages displayed their true form of a Divine Magus. In their eyes, the gigantic Life Dragon City was just a small one, but one of their punches could shatter the life diagram!

The battle began!

The three Dragon Emperor s waited for a long time, but that was enough. Just as the opponent turned into a Giant Witch, the three Dragon Emperor s transformed into a Divine Dragon, blocking the front of the Destiny Diagram!

To be honest, the appearance of these eight Holy Mages had really made everyone worry, they were worried that the Dragon Emperor would not be able to block them and that if they were to be attacked a few more times, they would be scared to death.

"Haha, with just three Dragon Emperor s, you really want to stop our eight great Saint-level Magi?!" If two of them were to break through the Life Heavenly Diagram, each one of them will tear apart a divine dragon! "

"It's really been a long time since I've tasted this divine dragon's flesh!"

In that instant, the eight Saint Magi took action.

Everyone's hearts leaped into their throats.

Just at this moment, the Sky Dragon Emperor and the Ten Thousand Killing Dragon Emperor rushed out of the Life Sky Diagram, turned into two Ultimate Dragon and accompanied the three Dragon Emperor s. The two Saint Magi who were supposed to take care of the Life Sky Diagram were stopped by the two Dragon Emperor s.

"What's going on!"

The eight holy wizards were stunned for a while.

They knew the Sky Dragon Emperor and the Ten Thousand Killing Dragon Emperor, and they had never seen them come, so why were they here?

"It must be Yang You, using the Divine Kingdom to bring them here! But, if we bring these two here, what about the other Dragon Cities? "

"They want to give up on Slaughter Dragon City and Everlasting Dragon City?"

For a moment, the eight Holy Mages did not attack. They were stunned by the two Dragon Emperor s that had just appeared.

To tell the truth, with the support of the Life Diagram, the fighting capabilities of each Dragon Emperor would be slightly higher than that of a Holy Mage!

"Don't worry about that. Attack! Leave the three of them to attack the Life Diagram with all your might. As for the other Saint Magi, stop one Dragon Emperor. It's time to fight to the death!"

Because of the appearance of the two Dragon Emperor s, they quickly made adjustments.

What they did not know was that the five Dragon Emperor s only wanted to deal with one Saint Magus. That way, they could suppress the other two.

Although Yang You was the main attacker, they still had to try their best to take down the opponent!

In that instant, the Iron Mages, Fire Mages, Ice Mages, Rain Mages and Thunder Mages all started to fight with the five Dragon Emperor s. The five Dragon Emperor s intentionally moved away, charging into the clouds, to prevent the battle from affecting the Life Dragon City.

The battle between the dragon and the giant Magus had instantly reached an earth-shaking level!

RUU...!

Everyone was in a daze as they watched this final battle!

That flaming giant was fighting against the trillions of divine slaying dragons!

The other Giants were also fighting with the Dragon Emperor. The moment they started, both sides used their full strength, using their most powerful spells to fight against the peerless sacred art, causing huge explosions and causing everything around the Life Dragon City to disappear. Only the Diagram of Life remained.

However, the remaining three wizards were still in a daze.

"What's going on with these Dragon Emperor s? He didn't want the Life Diagram? Life Dragon City doesn't want it anymore? "

The cloud Magus, who had merged with the cloud layer, suddenly said, "Not good, this could be the opponent's conspiracy!?"

Just as he finished his sentence, that deadly threat appeared.

When Yang You's world-shaking silver sword qi appeared, everyone in Life Dragon City cheered. Although Long Chen was not needed to participate in this battle, he was still very excited!

Yang You is here!

The most dazzling Sky God Sword, the Milky Way, pierced through the sky and earth, instantly splitting the Cloud Magician into two halves, causing the Cloud Magician to let out a scream and quickly disappear into the clouds.

Around them were the magi and magi!

When the other five Saint-level Magi were suppressed by the five Dragon Emperor s, the three Saint-level magicians became Yang You's opponents.

"Indeed, we fell into a trap. The chances of winning aren't high. Warriors, prepare to retreat!"

The Lich was relatively calm. Upon seeing Yang You, he had already made this decision. The other holy witches were also shocked by Yang You.

The battle had just begun, and they were already hastily fleeing!

With Yang You here, they obviously didn't have the slightest chance of winning, so they decisively gave up on struggling. After all, they knew that the Dragon Emperor would definitely not dare to move too far away from the Dragon City!

They had only fought for a short while.

The Fire Mage, Ice Mage, Iron Mage and the others all gathered together and headed towards the Eastern Star Region. In the face of Yang You's attack, the Bug Magus had transformed into a swarm of bugs, and disappeared into the ground without a trace. As for the Cloud Witch and the cloud in the sky, no one knew where she had gone to hide.

By fleeing, they had almost reached the level of a Eternal Life Divine Beast.

If they were allowed to escape just like this, then their efforts would be in vain. Yang You had long planned to lock onto the two of them. After all of their comrades escaped, the remaining two would undoubtedly be even more miserable!

One of them was a Rock Mage, and the other was an Iron Mage!

Amongst them, when they were escaping, the five Dragon Emperors had a tacit understanding with each other.

As for Yang You, he activated the sword net that covered the entire sky, forcing out the Stone Shaman that was already deep underground!

The six battlefields instantly became two different battlefields!

This was a premeditated counterattack, the eight Great Saint Masters had already realized it. However, at this time, they had split up to escape. Their speed was very fast, and even if they didn't escape, they

had already separated. If they didn't make good contact with each other, returning would simply be suicide!

Therefore, in that short period of time, the scene changed to five Dragon Emperor attacking one, Yang You fighting the Rock Giant alone. Both sides on the battlefield were having an easy time!

Amongst them, five of the Dragon Emperor s immediately began the bombardment of divine powers. They had used this method to fight Black Hell Beast back then, but failed that time because Black Hell Beast was too strong, surpassing the Spirit King. And now, with the support of the Life Diagram, her strength was even more violent!

Under such a violent attack, no matter how stiff and proficient the Iron Magus was, and how many spells he was proficient in, a huge steel fortress was formed to protect him, and in a short period of time, he was blasted away!

The five Dragon Emperor s attacked together, wave after wave!

"Myriad Star Domain Sword!"

Under the cover of the other Dragon Emperor, the Sky Dragon Emperor pierced through the chest of the Iron Armor Mage. The five Dragon Emperor s bombarded him again and again, but in reality, they had already succeeded in killing the opponent, but they only wanted to capture him alive.

In the end, just like the Sea Divine Emperor, the iron witch only had one head left. The five Dragon Emperor had combined five seals, making it impossible for him to recover from his injuries.

At the same time, Yang You and the Rock Witch were also engaged in a heated battle.

It had to be said that the Rock Witch was the greatest leader of the Witch clan, because the land in the Realm of the Sorcerer was filled with rocks and land. As long as he stood on this land, all of the land within a million meter radius was his weapon!

Countless mud rushed up into the sky, burying the entire Life Dragon City deep within the ground. Then, it was shaken towards the heaven and earth, and looking down, the ground that was visible, was

actually as violent as the ocean, with countless heaven defying things surging up into the sky like ocean waves!

The massive land of over a hundred thousand meters in length came crashing down from the sky, burying Yang You deep inside. The tall and big body of the Rock Witch once again burrowed into the ground!

Following that, countless silver sword lights burst out from the ground. They were extremely resplendent!

BOOM!

It turned out that Yang You was holding the head of the Stone Shaman, and under her coercion, the Stone Shaman turned into a human, with only one head. With the help of the five Dragon Emperor Realm warriors, the Stone Shaman received the same treatment as the Iron Shaman, and was sealed with five layers of seals and magic tools.

"There are still twenty-seven opponents left. If we can wake these three up and let them heal their wounds, we should be able to add three helpers. After all, they have woken up and want this battle to end as soon as possible."

Yang You said neatly.

As for the others, they were still in shock and were unable to extricate themselves.

The power of a Lich was terrifying.

However, Yang You's violence was enough to drive people crazy to worship this woman.

Chapter 2397 - Millions of Black Thorns

The two most powerful Saint Magi in the physical battle had been imprisoned by Yang You and the five Dragon Emperor s.

Under the seal of the fifth seal and the Dao item, it was very difficult for them to have any other use for themselves in the short period of time when they were heavily injured. Under the strict watch of the Dragon Emperor, it was not easy to escape.

Right now, the Five Dragon Cities was protected by the Five Great Heaven Diagram and the Heaven and Earth Transference Array. Although the normal Spirit Demon race, Sea Clan and Witch Clan controlled the Dragon God Domain, they couldn't launch a fatal attack on the Five Dragon Cities. Therefore, the ones who would temporarily pose a great threat to the human race would actually still be the thirty supreme experts!

However, it had now become twenty-seven.

On the human side, there were still fifteen of them plus Yang You. Of course, if there was a way to wake up these three captives, that would be 18 plus Yang You. If there were still the five great heavenly maps, then in reality, the two sides were very close.

His counterattack this time had successfully completed his objective!

At the very least, there wouldn't be any problems with their safety at that time. All they needed to do was to find a way to restore all of the demons, witches, and the Sea Clan to their former glory, to let them leave the Dragon God Domain, and to let the Immortal God Realm return to its former peaceful state.

However, there were definitely not many opportunities like this.

Now that the Life Dragon City had actually sent many people, everyone was crying tears of joy for this victory. He had no hope at all, but now it was a huge hope!

Amongst them, it had always been Yang You who had turned the tide, and then it was Ling Xi who created such a great project!

At the same time, they were even more envious of Long Chen, because Long Chen was the person closest to them, and the news had begun to spread. In actuality, the majority of the power that Ling Xi

had set up for the Heaven and Earth Transference Array came from Long Chen, and this was also the reason why Long Chen had to be nearby every time she set up the formation.

Although they had won, they didn't have much time to celebrate.

"Take care of your defense. Let's go back to the Slaughter Dragon City and research with the Sea Divine Emperor on how to wake up the three of them."

Yang You said to the few Dragon Emperor s.

The s of the firmament and the Ten Thousand Killing Dragon Emperor s also had to return to their respective dragon cities. After all, their dragon cities were more dangerous.

"Right now, there are only six Saint Mages left out of the eight great Saint Mages. They should not dare to attack recklessly after being intimidated once." If you attack, you can temporarily block the six opponents for a short period of time and then let the others come over. "

Just as they were about to leave, a message came from Fate Dragon City.

"The Eternal Life Divine Beast has probably surrounded you after seeing your absence. These four crafty fellows are real villains. They can escape fast and return fast."

Right now, there were only three Dragon Emperor in Dragon City.

"It will be difficult to capture them like these two Holy Mages. I'll chase them away again and see if I can still injure them severely." As for the Sky Dragon Emperor and the Ten Thousand Killing Dragon Emperor, you guys return to your respective dragon cities first, and I will follow you to the Slaughter Dragon City. "

Everyone nodded.

Then he left for three places. Long Chen and Ling Xi were in Yang You's Divine Kingdom, and were headed towards the central Fate Dragon City. In actuality, the transfer was not even fifteen minutes of time, and it was extremely convenient for them to do so.

There was an old man with Nine Palace Calamity welcoming Yang You from beside the Destiny Ling Xi Formation. When Yang You had just arrived, he said, "These four Great Demon Masters are still probing, I think they want to see if you are here or not."

Right now, Fate Dragon City was very quiet. The enemy wasn't able to attack yet.

"Then I shouldn't appear so quickly. I'll wait for them to make a move before I head out."

Yang You quietly waited.

"Aunt You, do you think that the people from the Shaman Tribe will send them the news about you when you were in the Life Dragon City? They were confused at first, but I think they'll end up joining up with just one leader. "

Long Chen said from within the Divine Kingdom.

"None of them are convinced, but it's not easy to lead them. However, if the Witch Clan sends them a message, our Heaven and Earth Transference Array will be exposed, but, there is nothing we can do about it. Last time, when the Heavenly s appeared in the Life Dragon City, they would suspect that I was the one who brought them there, but this time, there's no explanation, they can easily associate it with the Spirit Race. "

Speaking to here, the four Eternal Life Divine Beasts had already approached the three Dragon Emperor s and they suddenly laughed out loud.

Three Dragon Emperor s, don't pretend, I heard that Yang You went to the Life Dragon City, and there was a war just now, and now you guys are in trouble, only the three of you, I want to see who else can save you. Second brother, third brother, fourth brother, stop these three old ghosts, I will instantly break this heavenly map of fate and kill them all!

The boss of the Eternal Life Divine Beast screamed in an extremely mournful tone.

"Attack!"

For a moment, they turned into four giant black rats. This was the original form of the Eternal Life Divine Beast. Although they were rats, they had sharp fangs, sharp claws, needle-like hair, and many other top-notch abilities.

Three of the Eternal Life Divine Beasts pounced towards the three Dragon Emperor s. They had transformed into millions of giant rats, so the three Dragon Emperor s wouldn't be able to kill them all.

"Haha, the so called Destiny Heavenly Diagram cannot protect you anymore. Break for me!"

The boss of the Eternal Life Divine Beast rushed to the sky above Destiny Long Chen, turned into a million body, and then turned into a million black spikes!

With such a terrifying piercing ability, it was hard to imagine how terrifying it would be. If it wasn't for the Heaven Diagram, when this million black spikes pierced down, the entire Destiny Dragon City would probably have been penetrated, and everyone inside would have perished!

The boss of the Eternal Life Divine Beast was incomparably excited and arrogant. All he knew was that although most of the top powerhouses had taken the initiative, at least for now, no one had been able to break through a Dragon City and obtain the Slaughter Dragon City.

"The greatest credit lies with our Eternal Demon Ancestor City!"

He let out a sharp cry that shook the heavens and the earth, spreading over a million miles. If it weren't for the Destiny Diagram blocking them, everyone's eardrums would probably have burst right now!

"Boom!"

A million black spikes shot out like a meteor, piercing downwards!

However, the boss of the Eternal Life Divine Beast didn't notice a single detail.

The detail was that in such a dangerous situation, there was actually no one in the entire Dragon City who was afraid!

No one knew how to perform very well. They knew that Yang You was here, so they were all very relaxed. However, it was impossible for the boss of the Eternal Life Divine Beast to understand this point. The information he received was that a quarter of an hour ago, Yang You was still fighting the eight Holy Mages at Life Dragon City.

In an instant!

Even if he couldn't catch this guy, he would at least injure him heavily and he wouldn't be able to fully recover in a short period of time. Just as the opponent charged down, in that instant, a silver sword light shot up into the sky, and Yang You's entire body rushed up from under the cover of the Destiny Diagram. The silver sword in her hand danced and exploded, turning into a million spinning blades.

Of course, there were a few that were dodged by the Heavenly Beast!

However, at least seventy percent of them had been struck by the silver sword ray!

To the eternal life Divine Beast, this was an incomparably massive number. This was almost equal to 100 million of his body, and 70 million of it had been destroyed!

At that moment, there was no way to describe the miserable cries he let out.

In short, half of the black thorns were directly crushed by Yang You, while the remaining didn't stop. The Eternal Life Divine Beast used the escaping technique that it excelled in, instantly splitting into more than 30 million clones, fleeing in all directions from the sky to the ground.

When they saw the cold Yang You and the ice-cold Heavenly Divine Sword Milky Way in her hands, their first reaction was to be scared out of their wits, and then they turned into trillions of clones, all of them gathering together, instantly fleeing!

This was the case for the Eternal Life Divine Beasts. Once a clone escaped, they might be able to make a comeback.

Therefore, Yang You had no confidence in being able to catch them. If it were any other Demon Lord attacking, she would have thought of ways to capture them long ago.

"Isn't she in Life Dragon City!? Why are we here! "

"Eight Great Saint Magi, they actually lied to us!"

"Impossible, they are deceiving us, there are no benefits at all. Moreover, they say that the Stone Monsters and Iron Monsters have already been imprisoned by the human race!"

"What's going on?!"

In the blink of an eye, the countless rats disappeared in all directions.

In the end, Yang You had managed to leave quite a few wounds on the other three. This time, they would need more time to recover.

It was done.

With another victory, everyone saw even more hope.

The three Dragon Emperor in Dragon City were also very happy.

"These four sneaky guys, I don't think they'll come again in the future. However, Yang You, you were in the Life Dragon City before, and now that you are in the Dragon City, they should be able to guess what's going on if they were to contact the Spirit Race. "

Yang You nodded, "Yes, that's right. Right now, the most important thing is to see if we can awaken the Sea Divine Emperor, Stone Shaman and Iron Mage. Let's go to the Slaughter Dragon City first. If there is anything on this side, inform everyone at any time. If there is any news from the other side, everyone will be notified. Now that they know the truth, they should organize quite a few people for the next attack. "

Chapter 2398 - Match of wills

Although it was very likely that the Universe Teleportation Formations had already been exposed, there was nothing that could be done about it. What should come will eventually come. To rely on the Heaven

and Earth Transference Array to catch even more people was already very difficult. There were many times when there was only one chance.

After bidding farewell to the people of Dragon City, Long Chen and the rest returned back to Dragon Slaying City in a matter of fifteen minutes. On the side of the Dragon City, the three Dragon Emperor were already waiting for them.

, the creator of the Heaven and Earth Transference Array, had also quietly woken up after completing the last Universe Teleportation Formations. Her recovery ability was also very strong, even though she had expended a lot of energy, but with Long Chen and Yang You recuperating together, it was no longer a big problem.

Next, he just needed to rest properly.

Ling Xi hadn't realized how important it was for him to complete this task. In fact, if not for this Heaven and Earth Transference Array, even if Yang You was here, a few Dragon Cities might already have been destroyed. After all, there was only one Yang You. It was impossible for her to run around and save all the dragon cities.

Yang You brought the Rock witch and iron witch back, and with the addition of the Shanghai Divine Emperor, there were a total of three captives.

"Please come with me."

Emperor Blood Dragon Emperor was patrolling outside of the Slaughter Heavenly Diagram to prevent any surprise attacks on, while the Thousand Slaughter Dragon Emperor and Blood Tyrant Dragon Emperor were bringing Yang You and Long Chen through the crowd, while Ling Xi was currently resting in the middle of Long Chen's Divine Kingdom.

In the words of Yang You, it was to prevent pregnancy

Ling Xi said: "Right now, I have already felt that he has slowly started to move, and is starting to grow. Maybe after a while, my stomach will grow bigger."

It had actually been many years since then.

Only now did there be any movement. It was too slow ...

After hearing this news, Long Chen was still a little nervous. He still hadn't thought of how he could be a father ...

Was it a man or a woman? 'It seems like girls are cuter, but girls always have to marry others. It seems like they don't feel well ... If it's a boy, he should be very good at tormenting others, right? '

As they were thinking about this, the two Dragon Emperor s had already brought them to the depths of the underground palace.

Yang You didn't need to bring out the Stone Shaman and Iron Shaman for now. Just by trying, it would be enough for the Sea Divine Emperor. The Sea Divine Emperor was currently in a deep slumber and was heavily injured. Circles of runes were covering his head, preventing him from recovering.

Around him, all the star runes had already been activated and were now connected to all the Dragon Emperor s.

Dragon Emperor said: "Everyone, how should I wake this fellow up? Everyone, think of a way. After all, there is still a certain level of danger."

Everyone was waiting.

They knew that Long Chen could wake up warriors other than this kind of strong, pinnacle warrior, but the Sea Divine Emperor had never tried it before, and it was definitely dangerous. After all, it was against the will of the Ancient Giant Demons, so unless they had no other choice, they would not use Long Chen for the time being.

Yang You said, "Everyone, think about it first. Let me give it a try."

"Be careful."

Everyone reminded him.

If he defeated the Sea Divine Emperor, then his only opponent would be the Sea Divine Emperor. However, if he was to wake up and escape the control of the Ancient Giant Demons, then his opponent would be the Ancient Giant Demon!

If the Ancient Giant Demons didn't put in extra effort, then it would be impossible for them to completely control these 30 peak powerhouses.

While the Dragon Emperor were still discussing the method, the enemy's top Ranker did not attack again. At this time, Yang You had already stepped onto the seal's array.

In her hand, the Heavenly God Sword appeared. The sharpness and sharpness of the sword was terrifying. This was the power that only the Limitless Dao Tool could display.

Yang You's method was actually similar to Long Chen's. She wanted to use her own will to fight against the will of the Ancient Giant Demon, and use the Heavenly God Sword and the Milky Way to strangle this will!

Compared to Long Chen, she was only a Unparalleled Dragon. Although it wasn't as strong as the will of the Ancestral Dragon, it was still thicker and his will was stronger.

Without another word, Yang You stood before the Sea Divine Emperor, who had his eyes closed, and stabbed the Sky God Sword into the center of his brows. Her will followed the Sky God Sword Milky Way and entered the Sea Divine Emperor's world of consciousness, turning into a dark divine dragon that charged straight into the depths!

"Humph!"

At that moment, the Sea Divine Emperor suddenly opened his eyes. His eyes were bloodshot and he struggled furiously, letting out a tragic roar that did not seem to belong to him.

"You all are courting death!"

The Sea Divine Emperor continued to struggle, but it was useless as he was unable to break the seal due to his own strength.

And Yang You was still fighting him!

Long Chen looked closer and Yang You bit his lips tightly. Clenching his teeth and closing his eyes, her face was slightly pale, it was obvious that he was in the midst of an intense battle with the opponent. Her opponent was the Ancient Giant Demon's will in the body of the Sea Divine Emperor!

It seemed simple, but he didn't know how long Yang You had been fighting.

Being able to last until now, her willpower was considered very strong. After all, even though she was a Unparalleled Dragon, she had not reached the True Dragon Realm mentioned by the Origin Dragon Palace.

Seeing Yang You's efforts, everyone's heart almost leaped to their throats.

After all, Yang You was now the greatest hope of the human race, and she really couldn't afford to let anything happen to him. Otherwise, the human race would definitely perish!

Pop!

Finally, at some point in time, Yang You was pushed back by the impact. The Heavenly God Sword, Yin He, left the Sea Divine Emperor and staggered a few steps back. Long Chen supported her from behind.

This was the result of a battle of wills, and the fire of life was of little use.

"As expected, the Ancient Giant Demons have spent a great deal of effort on these thirty. They should be the ones to take control of these thirty first and focus on controlling them. Thus, the will that remains in their bodies is extremely strong, completely suppressing their original consciousness. If they cannot be dealt with, they may even be controlled by an ancient Giant Demon for their entire lives. "

Yang You took a deep breath.

In fact, if they couldn't be awakened, their imprisonment would be useless. The imprisonment would only be a temporary seal, and one day, they might even be able to come out of it. If they were killed, they could kill all thirty of them.

"I've fought against it before, the opponent is extremely brutal, I can't hold on much longer, if everyone uses the same method, other than Long Chen, the others won't be able to."

Yang You said.

The Blood Red Dragon Emperor still held Long Chen's greatest hope. He wasn't willing to let Long Chen take the risk, and in fact, Yang You wasn't willing to either. Therefore, the Dragon Emperor said: "Don't let Long Chen go up first, we have a dozen or so Dragon Emperor s, then we can think of any other ways. Thousand Slaughter, go to the 'Holy Grimoire Palace' and check if there are any corresponding records or introductions in the history regarding the Ancient Giant Demons!"

The Ten Thousand Killing Dragon Emperor had gone, other dragon cities also had Dragon Emperor searching for information, and it was not just him, almost all the Seven Star Calamity and above warriors had gone to look for information. The words also went on, whoever had a good idea could bring it up right away, and if it was reasonable, there would be a reward.

At this time, it could be said that everyone was determined. Even if there weren't any rewards, everyone would still think of something.

It meant that they already knew about the Heaven and Earth Transference Array, and it was very likely that they were preparing a terrifying attack. As a result, when the fifteen Dragon Emperor s were trying to think of a way to wake the Sea Divine Emperor up, they also increased their defenses, and allowed some of their strongest warriors to leave the Five Dragon Cities to investigate the situation. As long as they did not meet the peak expert of the other party, they would be able to survive.

These people are voluntary.

They were willing to contribute their lives to the survival of the human race. There were too many of them.

As of now, the entire Dragon God Domain was riddled with holes due to the havoc caused by the demon race, sea race and witch race.

After a few days, the Dragon Emperor tried all sorts of methods, but none of them succeeded. The will of an ancient Giant Demon was simply too difficult to deal with.

The only way was to use the will of an Ancestral Dragon to strangle and kill it, just like Long Chen did.

If Long Chen's primordial spirit was a little stronger, it would probably be enough even if he did not have to match up to Yang You's level. It's just that right now, he was still a little far from reaching Seven Star tribulation of reincarnation.

At this point, the Dragon Emperor s could not help him anymore.

He could only rely on himself.

In the end, Long Chen still said: "There isn't much time left, let me give it a try. After all, delaying like this isn't a solution, and if we can't completely solve it, we'll continue to this point. When the other party suddenly launched a huge attack, we weren't prepared for it."

Honestly speaking, the Dragon Emperor and Yang You had already exhausted all their abilities.

He had tried all the methods, but none of them worked!

All the information had been investigated but not recorded!

Everyone's idea was too childish!

If they couldn't recover, the humankind would lack a way to completely solve this crisis. The only thing they could do was to fight. If that happened, one day, everyone would die!

"Relax, I have a lot of success experiences. Previously, I was unable to deal with the Sea Divine Emperor because I couldn't capture him. Now, he is unable to move.

Long Chen was filled with confidence.

This was the time when he needed it. He would not retreat. Wasn't life for this kind of purpose?

The Dragon Emperor s and Yang You did not speak.

Finally, Yang You said, "Okay, try it out. Your father will also hope that you can take on this responsibility."

"Aunt You, I won't let him down." "Also, I want to be a father, so I won't give in!"

Of course he knew that the ancient Giant Demons were terrifying.

However, would he be afraid because of this?

No, he never did.

He walked forward step by step until he arrived in front of the Sea Divine Emperor's head. This familiar head made Long Chen want to laugh. To be honest, even if he was awakened, this guy was not a good person. He hoped that Su Hao could clearly see the situation that he was in today.

Chapter 2399 - Giant Demon Will

In reality, on this path of cultivation, there were far too many uncertainties. There were many things that he was unsure of, and unsure of whether he would succeed.

However, Long Chen succeeded time and time again.

That was because even though he clearly knew how difficult it was to accomplish something, he would adjust himself to the best of his abilities and face it bravely. Of course, this also had to do with his deep hidden cards. Currently, he had already inherited about half of the ancestral dragon-inherited blood s. It would be really difficult for him to be killed.

However, most of the victories were due to his strong fighting spirit!

Just like now, it was also the same. He had this brave and strong heart to withstand the pressure and fight against the Sea Divine Emperor!

At this time, he was standing in front of the Sea Divine Emperor.

Although he was in human form, he was covered in blood-red dragon scales and the Ten Thousand Deadly Claw was already prepared. Whether it was the killing will of the Archaic Blood Spirit Dragon or the righteous will of the Divine Path Heart Refining Dragon, they were both his powerful weapons.

Everyone held their breath, allowing Long Chen to feel at ease to try.

After all, it was very difficult for even Yang You to use this kind of method to block his opponent. If Long Chen was not careful, he might suffer the opponent's counterattack and lose his primordial spirit!

That would be death.

Everyone was even waiting for him to bring them good news.

On his left hand, the four types of angry powers and killing intent continuously circulated. At a certain moment, Long Chen had already pressed down on the head of the Sea Divine Emperor, and deeply stabbed in!

Five claws deep!

There was no blood, only a bloody red glow shining from the wound.

"Hmm."

The Sea Divine Emperor opened his bloody eyes once again and looked at Long Chen with a smile that was not a smile. His expression was ferocious as he let out a miserable laugh, "Are you here to throw away your life?"

They were truly worried for Long Chen's safety. In Long Chen's Divine Kingdom, Ling Xi was also very nervous, and every time Long Chen took a risk, she would be on tenterhooks.

Facing the threat of the Sea Divine Emperor, Long Chen did not respond. The fighting spirit and anger in his eyes had never changed.

BOOM!

Long Chen's will transformed into a divine dragon. The Primordial Blood Spirit Dragon penetrated deep into the other party's consciousness, and this was where Yang You had come from before. In order to truly engage in battle with the Primordial Giant Demon, Long Chen had to come here personally!

This was the cause of the Eternal Rebellion!

It was this Archaic Giant Demon, Qu, that led to the disaster of the entire Divine Realm of Immortality!

This was the reason why the human race had fallen into such a predicament!

This led to their loss of countless lands!

That was why Long Chen was so furious. His bloodied body was moving around in this world of his consciousness, searching for his opponent. Using the Primordial Blood Spirit Dragon's will, he tore it apart!

This was a world of blood. Below him was a thick bloody mist, and below that was a sea of blood. However, it was completely different from the sea of blood in the Slaughter Dragon City.

RUU...!

It was as if countless creatures were raging, causing the entire world to tremble.

"Another lowly life has come to challenge my dignity?"

This voice filled the entire world and continuously reverberated in front of Long Chen, producing an intense rumbling sound. This was an ancient and hoarse voice, and every single word was written on Long Chen's body. When one heard the other party's words, they would feel fear in their heart.

"In front of the divine dragon, things like you who hide your head and hide your tail are the truly pitiful and lowly."

Long Chen had always thought that, in the history of the entire Dragon Sacrifice Continent, the most noble creatures would always be dragons.

"Ridiculous, laughable. It is only a pseudo-dragon that has inherited blood essence. It doesn't even have a thousandth of a True Dragon's strength, yet it dares to call itself a divine dragon!" "Fine, since you want to die, then die!"

These words caused Long Chen to be deeply shocked.

He had always been suspicious. In the The Age of Dragons, a high level divine dragon could reach the Divine Dragon Realm. A super divine dragon could be comparable to the Primordial Divine Emperor Jun, and Ultimate Dragon was even more tyrannical. However, there were people who had inherited the Unparalleled Dragon's blood essence. According to the rules, even if they couldn't reach the Unparalleled Dragon's realm, they should at least be comparable to Di Jun, right?

However, not a single one had reached the so-called True Dragon Realm.

There must be a reason, then.

The reason for that was because they were still Dragon Fighter and not real divine dragons.

For example, Long Chen, he was only an Ancestral Dragon Fighter and not a real Ancestral Dragon. Even if it was a young child, a real Ancestral Dragon would still be comparable to Ultimate Dragon and even Unparalleled Dragon. How could it be possible for it to be as weak as Long Chen?

What exactly was missing from the entire Dragon God Domain?

Why did he inherit an inherited blood essence and become a fake dragon?

The ancient Giant Demons knew this.

"Don't ask me to tell you the truth. That's impossible. Besides, a dead man doesn't need to know the truth."

The voice of the ancient Giant Demon came from all directions.

BOOM!

He appeared!

It burst out from the sea of blood!

It had thick, thick lower limbs, and an equally thick upper body that had sharp claws that were as sharp as a dragon's. Its head was an inverted triangle, and it looked a bit like a mantis, but it had sharp fangs, and behind its back was a pair of extremely thick and wide bat wings that were as sharp as the blade!

There was also a tail as long and as vicious as a scorpion's.

The densely packed blood strings formed a network that covered his entire body, and countless amounts of blood flowed on it.

This was Long Chen's first time seeing an Ancient Giant Demon!

Of course, it was not the actual body, but something formed by his will. The real body was comparable to a god, and was definitely tens of thousands of times scarier than it was right now. He had truly realized that this was a creature that was much more terrifying than all of the peak blood of the Monster race's Sea race, or even the Saint-rank!

They were really devils!

That pair of blood-colored eyes had a ghostly power within them. That was a violent sea of blood, and it was not as simple as just looking at the sea of blood, the Ancient Giant Demons' most terrifying aspect was their will, it was too strong, too powerful, especially the one controlling the demons, the Sea Tribes, and the Witch Tribes. Their will also affected the lives of billions of lives.

His soul shook and his entire body trembled!

This was the real demon, the Giant Demon!

Long Chen had seen this kind of frenzied, crushed, and violent obsession on Mo Xiaolang's body, but compared to the Primordial Giant Demon's image, Mo Xiaolang's was really tens of thousands of times weaker. Moreover, this was only a body formed from the opponent's will, not a real Primordial Giant Demon!

With just a glance, Long Chen understood that if this Immemorial Giant Demon truly came to the Immortal God Realm, they would be able to kill ten billion living creatures with just this one Immemorial Giant Demon!

Needless to say, there were so many ancient trolls on the demonic star.

Their existence was the nightmare of the entire world, because they were existences comparable to gods. In other words, they were gods. They weren't gods of the Divine Realm, but gods of the demonic star!

There was even the aura of a dragon emanating from them.

Long Chen could feel that there were many parts of their bodies that were similar to dragons. For example, their dragon scales, their spine, and their sharp claws. However, they were standing beasts.

This kind of dragon's aura was extremely violent, just as he had said. Compared to Long Chen, this was the difference between a real dragon and a fake dragon!

BOOM!

Even a small movement from the other party was a huge blow to Long Chen!

This is Qu.

On the demonic planet, there were at least some cultivators who could not use their demonic pupils.

It was obvious that since they were all Archaic Giant Demons, they would definitely be just as terrifying. Cultivating the Unmoving Devil Pupils would be enough to cause everyone to be unable to move.

Right now, the Ancient Giant Demons did not hold back at all. They used their terrifying willpower to attack Long Chen's willpower. If Long Chen lost in this battle, he would turn to dust!

"We can't lose!"

He knew how terrifying the other party was, and even more so, everyone knew that this was not the reason why he was frightened. He had too many protectors in his heart, so he needed to chase after his father's footsteps and understand what had happened from the The Age of Dragons all the way to now.

Just what kind of role did the Heaven-Devouring Race, the Ancient Giant Demons, and the Primordial Gods play?

He desperately wanted to know all of this!

He was even more terrifying, allowing the rioting Immortal God Realm to return to its former tranquility.

This was destined to be a difficult and even impossible task.

But he wasn't afraid!

This was his enemy, and he was also his enemy. He would use all of his strength to deal the biggest blow to his opponent!

In truth, his willpower was far weaker than his opponent's!

However, this was a ancestral dragon, and it wouldn't be easy for the other party to destroy it!

"Damn it!"

The battle of wills between Long Chen and the Ancient Giant Demon in this world of consciousness, manifested as a true battle between Long Chen and the Ancient Giant Demon!

Their bodies were incomparably perfect. No matter which part they were in, they would be able to unleash fatal attacks.

In the midst of this battle, Long Chen had no choice but to transform into a divine way's Heart Refining Dragon, fighting against his opponent!

Every clash was a fatal pain!

Claws, tail, wings, fangs, these were all his sharp weapons. Although Long Chen would not lose to him in terms of battle methods, the opponent's willpower was too terrifying.

Every time he fought with the other, his entire body would tremble in pain, as if he had been stabbed in the head. That feeling was even more terrifying than the injuries to his physical body!

"This pseudo-dragon of yours is quite capable!"

The Ancient Giant Demon flapped its huge wings, forming a storm of will that swept Long Chen away and made him dizzy.

"But, it is also over. Last time, you let that pseudo-dragon slip away, so don't even think about escaping. The seal on the demon star can't trap me, so take out the five dragon pearls as soon as possible so that you don't have to die. We have dozens of brothers and sisters who are about to return to the human world! "

"So, it's better if you die."

Chapter 2400 - Wake Up Millions of Years Later

The ancient Giant Demons had been imprisoned for tens of millions of years.

Maybe, it was exactly ten million years.

Nothing had happened in the past ten million years. They had always been sealed, always in deep sleep.

Even if he were to awaken, it would only take him a split-second. This wasn't like this time. For instance, this ancient Giant Demon in front of him was so clear-headed, and even created an eternal riot!

This meant that they had already entered a new stage after tens of millions of years. Perhaps all of the ancient Giant Demons would wake up one after another and leave the demonic star, returning to this world's era!

So, was this the reason why the head of the Black Jade Dragon told him that within a hundred years, the dragon sacrifice had perished?

The one who destroyed this world was an ancient Giant Demon?

For now, at least.

"Everything about me, my loved ones, my brothers, my beliefs, everything is in this world. This place bears the burden of everyone, and cannot be destroyed! "

Long Chen roared in his heart!

His dragon claw that was as sharp as a blade, the Sword of Judgment in the center of his brows, and his dragon tail that was as long and long as a whip, were currently fighting intensely with. Most of the time, Long Chen would hit his opponent, but what he discovered was that with his current level of willpower, it was extremely high, only that it was too weak.

Therefore, even if his attacks were fiercer and hit each other once, his own injuries were worse!

There was too much hatred and too much anger in his heart. He used them all in every attack and close quarters combat, but his opponent could easily tear off pieces of flesh and blood!

But he couldn't!

Even if he used all his strength, he could only injure the skin of this terrifying beast.

"Give up, lowly life. This is not your world, it is the time for us Immemorial Giant Demons to take revenge." Today, we have been involved in the revival. No one can stop us! "

"Who are you enemies!"

Long Chen nearly roared.

The people outside looked at him, and the situation seemed to be even more miserable than when Yang You had escaped. Yang You had found a way to escape in time, but Long Chen did not want to escape.

"You won't understand even if you say it. All of this has nothing to do with you bunch of weak ants. Millions of years ago, this was no longer your world. In other words, when you were here, you were no longer the masters of this world. "

He had always been concealing it, but he had also always been scaring Long Chen.

To him, this was just a game. He was like a cat trying to catch a mouse, wanting to slowly play Long Chen to death before swallowing him down. This was his bad taste.

"Don't be sad, don't be sad. They gave you some room to live, which is good for you. At least you can live, and you don't know how you died, do you? "

Long Chen's body trembled.

He seemed to have thought of something.

Who exactly were the Ancient Giant Demons speaking of?

That sentence, they gave you some space to live. At the very least, it allowed you to live. Furthermore, you didn't even know how you died ...

Why would there be a Eighteen Major Tribulations?

How could no one become a god? Will he always die?

Could it be that it was as the Ancient Giant Demon had said, that someone was truly controlling everything?

And his father, who killed him? Other than the gods that didn't know whether they existed or the ancient Giant Demons or the Heaven-Devouring Tribe that didn't know whether they existed, there shouldn't be anything else, right?

"AHH!"

As he was thinking about these things and losing his focus, Long Chen received a heavy blow from the other party. The scorpion-like tail pierced through his body, bringing him an unprecedented sense of pain!

Outside.

"Long Chen!"

Yang You and a few other Dragon Emperor s were completely terrified. Surrounding Long Chen, their faces were extremely nervous, and their eyes were completely red. In front of them, Long Chen's entire body was trembling, and both of his eyes were white.

However, he did not pull out his own hand, and continued to stab himself into the Sea Divine Emperor's head. It was impossible to pull him away, or else, his will would remain there, and he would have to come back by himself and leave the Sea Divine Emperor.

The two Dragon Emperor s and Yang You were so anxious that they didn't know what to do.

Yang You had never been this nervous before, so she firmly held onto both of her hands. Her eyes, which had never been filled with tears before, were now red, and her tears could not help but flow.

She was the one who agreed to let Long Chen give it a try.

Now something has happened

Because of Long Qinglan's orders, she was unable to take care of him as he grew up. He allowed him to experience so many dangers, letting him experience life and death battles on his own. She owed Long Chen too much.

To a woman, almost no one could bear to go and take a look at their own child. She had told herself countless times that Long Chen wasn't her child, and that it had nothing to do with her.

But now, he was by her side, yet she wasn't able to protect him ...

That kind of feeling was even more terrifying than the feeling of having her heart twisted by a blade. She was even unable to breathe and had even forgotten about everything. There was only killing intent.

"Yang You, calm down."

The Blood Tyrant Dragon Emperor sensed her movements.

He said, "Don't worry, he doesn't think he will lose that easily. He's very smart. If he knows it won't work, he will choose to let go."

Although he said it like that, the scene was truly heart-wrenching.

Ling Xi was still in the middle of Long Chen's Divine Kingdom and even if she did not have consciousness, she still could not come out. However, she was actually a little calmer than Yang You, because Long Chen had risked his life countless times in order to pursue, defend and dream. Ling Xi was always by her side.

"Aunt You, he will succeed. I believe him. "

Ling Xi could only console her.

"Yes!"

When even Ling Xi said this, Yang You finally calmed down a little. She, who was previously unable to control herself.

Long Chen was indeed in danger now!

That piercing pain had let him experience what it meant to live a life worse than death.

Too cruel, too fierce!

He remembered what the other party had said, and no longer dared to think about it. He only knew that the Archaic Giant Demon would destroy his everything in the future, and that was enough.

Fight!

Enduring that terrible pain, he was even crazier than his opponent. Even though his body had already been torn to pieces, he didn't retreat, nor did he give up.

"I have to say, you're a monster."

The ancient Giant Demon still smiled.

He flapped his massive wings and swooped down. Suddenly, his mouth opened wide as he let out an extremely sharp roar. That was the roar he made on the demonic planet, a sound that would affect the Immortal God Region!

Perhaps, this is the biggest impact of Qu!

It was a kind of soul shock, and under this kind of shock, Long Chen's body broke into pieces once again. That divine way's heart dragon's appearance had already become more and more blurry.

"I can't lose. I can't die."

He continued to grit his teeth. Although this storm was powerful, it was nothing. It could destroy the will of his ancestor, the pride of his ancestor!

His core would never be destroyed!

"He's not dead yet?"

The Ancient Giant Demon was a bit surprised. Just now, this was his will; he had used the strongest method he could muster. But now, at this point, the other party was still tenacious and unyielding; this had a great deal to do with the other party's bloodline, but it also had to do with his character and his own will!

"If you don't die, how can I die?!"

BOOM!

Long Chen endured the pain that made him crumble as he rushed out from the other party's voice. Although his will was no longer formed, his will to fight had never weakened!

Only now did the ancient Giant Demon realize just how terrifying this youth was.

No matter how much they ravaged him, he wouldn't die. Not only that, he was actually much stronger than before! This was simply inconceivable!

In the battles that followed, he was even more shocked. The ancient Giant Demons were the most crazy creatures in the world, but now, there were creatures that were even crazier than them.

Continuously advancing and continuously attacking, immortal and indestructible!

Even though it was extremely painful, it was still able to move smoothly. It was still able to bring about a huge threat to the Ancient Giant Demons and even the Ancient Giant Demons themselves could feel that Long Chen's will could defeat him!

Although its strength was very weak, it was still very difficult to deal with. Every time it was able to destroy a part of one's body, and it was also extremely difficult to recover it!

"Damn it!"

In the end, the Primordial Giant Demon had no choice but to make a decision when facing the crazy Long Chen.

That was, kick Long Chen out!

This was his territory, and he could do it easily.

In the beginning, he was indeed a cat capturing a mouse, playing with his life. But now, he realized that this rat was simply impossible to play with. His teeth were very small, but he was still fighting with his life on the line!

The eyes of an ancient Giant Demon were the scariest eyes in the world.

But Long Chen's eyes were even more frightening!

BOOM!

During his last attack, he was sent flying. All his senses returned to his body, and the Ten Thousand Deadly Claw also came out from his opponent's head.

Long Chen fell heavily onto the ground, his eyes tightly shut.

"Chen Er!"

In the midst of her panic, Yang You carried him. Although she did not participate in the battle, her face was paler than Yang You's.

"Don't worry about Yang You. She has suffered some injuries, but she should be able to recover in a few months. She won't die." The Blood Red Dragon Emperor could only tell her quickly to prevent this woman from going crazy ...

That might be even more frightening.

Yang You was also scared, which was why she was like this. Looking at the child in her arms at this time, her heart was filled with endless bitterness. She couldn't say anything, but tears kept flowing out of her eyes.

Just at this time, the Emperor Blood Dragon Emperor ed.

"Big brother, someone has come. I wonder who it is!" Not someone I know. "

At this time, the Dragon Emperor was observing the surroundings.
