

## War God 2401

### Chapter 2401 - Zhuge Cat

The battle between Long Chen and the Ancient Giant Demon could only be described as tragic. Although he had forced the other party to force himself out, he had actually suffered a lot of injuries before this. He had just persisted on.

When his willpower returned to his body, he could already feel the world spinning around him.

This was a troublesome matter. He had been pierced by the will of an ancient Giant Demon. This type of injury was extremely difficult to recover from. It was even possible that he would enter this slumbering state!

After he lost consciousness, he heard the last sentence, 'Someone is coming, but I don't know who it is ...'

Long Chen didn't want to feel like he was going to die just like that, but he was powerless to stop it.

The two Dragon Emperor s' faces were ugly, and there was even less of a need to talk about Yang You.

"The two Dragon Emperor s, go out and see who has come here. In case something big happens, I'll watch over him and think of a way to let him recover."

At least she knew now that Long Chen was not dead yet. With this child's tenacity, as long as he was not dead, he would be able to wake up and become even more tenacious.

Although he felt sorry for her, it had always been like this.

This time, seeing Long Chen encounter such a crisis with his own eyes, Yang You's heart was still like a volcano that could erupt at any time.

The Ten Thousand Killing Dragon Emperor said: "I'll go out and see. Big Brother, you think of a way too."

He was worried that if the two of them leave, Yang You would be too angry and hateful and directly kill the Sea Divine Emperor.

"Alright."

The Ten Thousand Killing Dragon Emperor then quickly left.

At this time, Yang You had already placed Long Chen steadily on the ground, and said with a frown: "The injuries of this kind of spirit, will, and thought cannot be healed with time. They must be healed with some kind of strange and precious heavenly treasure.

"We can give it a try."

Out of the fifteen Dragon Emperor s in Five Dragon Cities, there were still many good things. The Blood Tyrant Dragon Emperor immediately told the other Dragon Emperor about what had happened, and the other Dragon Emperor also sent people to deliver some good things from Five Dragon Cities.

However, Yang You was still not optimistic. She was patiently enduring; otherwise, with her temper from before, she would definitely chop off the head of the Sea Divine Emperor in an instant.

"Aunt You, he'll be fine. "I have thought it through with him, and now he is trying really hard to wake up."

At this time, Ling Xi was actually much calmer than she was. After all, she was more familiar with Long Chen's body.

"Hopefully."

In their eyes, Long Chen had always been a huge hope for them. If he hadn't recovered, then Yang You definitely wouldn't have the mood to fight anymore.

The Dragon Emperor himself was looking for a way to cure the most terrifying injury. He needed to use the most precious thing he had in this world in order to do so.

At least, so far, there was nothing suitable.

"Oh right, why haven't the Emperor Blood and Wan Sha received any news yet?"

The Dragon Emperor was startled for a moment. Just now, they said that someone was approaching and did not know who it was. Should I at least use an astral rune?

It has already been a few days, and the demon clan sea witches are still not moving. They might be gathering their strength for the next attack.

"I'll take a look outside!"

Just as he was about to leave, three people walked in, two of them being the Thousand Slaughter Dragon Emperor and the Emperor Blood Dragon Emperor. Yang You looked behind them, and saw that the third person was actually a young man with greasy hair and powdered cheeks, who had a pair of sneaky eyes looking around.

"Monster? A demon that wasn't under control? Are you really a demi-human? " Yang You protected Long Chen as he narrowed his eyes. This young man gave her a feeling that was difficult to see through.

"This young man said he is Long Chen's good brother."

The Emperor Blood Dragon Emperor naturally knew of his strangeness, so he brought him here. The number two expert of the Immortal God Realm, Yang You, wasn't afraid of this young man's reckless actions.

His eyes finally landed on Long Chen who was in Yang You's arms. He immediately giggled and ran over, looked at the unconscious Long Chen, then looked at Yang You and laughed out loud: "Boss, I've come here with great difficulty to see you, and you're actually pretending to be unconscious! Aiyo, why is Sister Ling Xi not here anymore? Why didn't you tell me when you changed your new partner?"

As he spoke, he danced like a monkey.

Hearing this, he seemed to be quite familiar with Long Chen, it was just that his personality was far inferior to Long Chen's, and his taste was also much worse.

"Wait!"

He carefully looked at Yang You twice, and exclaimed: "Damn, Yang Xueqing, why are you here!"

He had set off for Canyang Kingdom with Long Chen at least, and after Long Chen had dominated the Three Great Imperial Domains and returned to White Yang Town, Cat naturally still remembered the woman's appearance.

The person in front of her, although her temperament was far, far worse, and her cultivation was even scarier than the surrounding Dragon Emperor, why did she have the appearance of Yang Xueqing? Earlier, Cat had thought that she was Long Chen's new lover.

"Don't speak nonsense, this is Long Chen's mother."

Dragon Emperor didn't like this babbling kid, so he warned him. After all, they didn't know Cat's identity.

To call another lady a newlyweds would be too embarrassing. Although Cat was full of doubts, he still smiled awkwardly and said, "Ah, sorry, I guessed wrong. I'm really sorry. So it's auntie. Yes, it's Aunt. "Hello."

Yang You knew who he was.

"You have been with Long Chen since the Dragon Sacrifice Continent, Little Cat, right?"

"It's not Cat, it's Zhuge Liuyun. I found my previous family name recently. Zhuge Liuyun, doesn't it sound like you're very knowledgeable?"

The kitten pretended to be deep in thought as it spoke.

"So that's how it is."

Hearing Yang You's words, the three Dragon Emperor s immediately knew who he was. They were at least close to Long Chen, and they also knew that Long Chen had another brother.

Since they knew each other, they were relieved. The Dragon Emperor had quickly gone out to guard the Slaughter Heavenly Diagram again, and everyone's attention was focused back on Long Chen's injuries.

"Did my boss fall for it?"

Cat stopped smiling and looked at him for a while. Then, she suddenly laughed out loud, "Haha! How cowardly! It was hard for me to come here, but you got ravaged like this and you have to let me save you. In the future, just be my boss."

Initially, Yang You and the others did not pay much attention to him. After all, they were more concerned about Long Chen's injuries.

Hearing this, Yang You looked up and asked, "Cat, do you have a plan?"

Cat chuckled and said, "Erm, can you call me Zhuge Cat? I think it's a bit more domineering like this."

His personality was miles away from Long Chen's, so Yang You still wasn't used to it. However, he was Long Chen's friend, so she liked him a lot.

"About that, he must have been injured by the will of the Ancient Giant Demon, right? I just happen to have something here that will allow him to recover from the stabbing of his mental will. He'll be able to recover very soon, but for the sake of secrecy, I hope the three of you can leave first. Just go outside and hide for a bit. "

This request, Yang You did not want to agree. No matter how much she trusted this person in front of her, she was worried something might happen to Long Chen.

However, it seemed that Ling Xi was still here, and she had only been gone for a short while. Maybe the other party really did have some precious things that couldn't be seen by too many people.

"Alright."

Yang You, the Dragon Emperor and the others walked outside, and at the same time, warned Ling Xi to quickly tell them everything that had happened.

After they left, Little Cat looked at Long Chen and sighed, saying: "You have been such a long time, this dog shit character of yours won't change at all. I've finally gotten a few 'pronucleus' I want to waste one on you, it's so infuriating!"

"Cat, what is a pronucleus?" Ling Xi suddenly said.

"Holy sh \* t!"

The kitten was startled and said excitedly, "Sister Ling Xi, why didn't you say you were here earlier? It's over, I have no secrets now, you have to compensate me."

Ling Xi curled her lips and said: "Hurry up and make him better off. If you keep on nagging, I'll go out and pull your ears."

This pronucleus is the most important thing to me right now. If I lose all these pronucleus s, I will also run out of energy, but for the sake of boss, I will just treat it as a waste! "Su Yun said in a loud voice.

He sneakily took out a white crystal.

It was an extremely pure crystal, and its surroundings were filled with white mist. It had a refreshing fragrance, and it vaguely controlled the entire world, as if it was the core of the world.

The kitten looked extremely pained as it fused the pronucleus into the center of Long Chen's brows. The small little crystal really brought a huge amount of nourishment to Long Chen, allowing his mind and will to quickly recover. It was comparable to the effects of his life's fire on his body.

"You two, you can come in now."

Cat waved her hand, proudly showing off her achievements, and directly asked: "My boss can wake up in a quarter of an hour at the least, and completely recover. How about it? Do you think I'm awesome? Haha, it's actually very ordinary, but you must tell him that I sacrificed a lot to make him recover. "

"Of course, of course."

The Blood Tyrant Dragon Emperor laughed, this young man was actually quite adorable as well.

Chapter 2402 - Reviving the Earth

Just like how the hungriest person suddenly received the purest sweet rain in the world, bringing hope for Long Chen's rebirth.

His mind and will were greedily absorbing and recovering. The wounds caused by the ancient Giant Demons were gradually recovering.

Although he had suffered a heavy blow this time, there were undoubtedly benefits to this experience. The advantage was that as he recovered, his Mental Energy grew stronger and he felt as if he had been reborn.

Part of it was because the pronucleus that Cat had brought along was something that could help him grow. The other part was that while he was fighting the Ancient Giant Demons, it was also an invisible boost that made his willpower even stronger!

The more time passed, the faster Long Chen would grow and the more stable he would become. His inner world was erupting with a tyrannical wave of spiritual energy.

The seven aperture Karma Heart constantly emitted a powerful heartbeat. Layers of golden and black light surrounded it, gradually revealing itself.

Although Long Chen had inherited all of the inherited blood essence, what he had comprehended, was only a drop in the ocean that he had learned before.

In this situation, he had completed a rebirth. He suddenly opened his eyes, and two rays of light burst out. One of them was golden, while the other was black, with the power to pierce through the sky!

The people beside him could already feel that he looked even more terrifying. This was the power of the mind. A single glance was enough to scare away a majority of people.

The first moment he opened his eyes, the first thing he saw was a face that he could not recognize at first. Long Chen's first reaction was to kick this smiling guy away, but at this time, a big headed kid appeared in his mind.

"Cat?"

Hearing these two words, Cat immediately started laughing so hard that she started drooling. "You really are my boss. You could recognize me with a single glance."

Long Chen stood up. He was now full of energy, and had reached a realm that had never been seen before. He scanned the surroundings with excitement on their faces. Yang You smiled at him casually, but Long Chen could still see her bloodshot eyes. It seemed that this time, being killed in front of her eyes was a kind of torture to her.

How much torture was it?

If she were in front of him now, he could imagine what he would feel.

Unknowingly, this woman had already secretly become as important as Long Qinglan, Ling Xi, Mo Xiaolang and the rest in his life.

Long Chen had acknowledged her from the beginning.

He couldn't help smiling back at her. This seemingly ordinary smile actually carried a lot of feelings with it. She would understand.

"Boss, haha! Long time no see! Did you miss me!"

The kitten was like a frog as it hung onto his body, saliva flying everywhere.

"You saved me?"

Long Chen pulled him down, he had never seen this guy grow so big in the past few years. However, his personality did not change, and he was still as noisy as before.

"Of course, if Young Master doesn't come this time, you, this pitiful kid, will lose your life."

The kitten said proudly.

Long Chen patted his shoulder, and laughed: "Done, blood brother, let's not say anymore words of thanks. Worse comes to worse, if you lose your life in the future, I will save you once too."

"Boss, you're being too kind, aren't you? How can you treat him like this?" The kitten pretended to be bashful as it spoke.

Long Chen was speechless towards the child, but it was good.

He also told Ling Xi to come out from the Divine Kingdom, she would definitely be scared this time.

"I'm sorry."

Letting so many people who cared about themselves be afraid was a huge mistake.

"It's okay, you're safe. I'll go talk to Aunt You. You and Cat can have a nice chat."

There was nothing left to do now, so everyone was completely at ease. Ling Xi understood Yang You better than Long Chen. With her to help Yang You relieve his boredom, Yang You's heart relaxed a little. Long Chen also felt at ease.

As for the two Dragon Emperor s, seeing that he had nothing to do, they left first. Right now, everyone was overjoyed. The matters regarding the Sea Divine Emperor and the Ancient Giant Demons could be discussed later.

Long Chen sized up the kitten and said, "You have mutated quite a bit. Have you found the memories you want to find?"

Cat said, "About that, it should be broken. There are many things that are contradictory to each other, so I don't know much about it. There seems to be two of me? "Anyway, it's very strange. However, I have a surname. My surname is Zhuge. How about it? Isn't it awesome?"

"What dog?" Do pigs, dogs, and kittens sound like such a thing? "

Long Chen couldn't help but joke around with him.

"Oh my god, boss, you actually dared to insult me! See if I castrate you or not!"

The kitten bared its fangs and brandished its claws.

"Stop messing around. Let's get down to business. What happened after such a long time?"

Long Chen said in a serious tone.

"It's just a trivial matter. It's a long story, so there's no point. However, there's one thing that I can advise you on first?"

"What is it?"

The little kitten sneakily whispered to him, "Your mind and will had suffered a heavy injury from the Ancient Giant Demons earlier, so you should use a rare treasure to save them. Now, there is still a large amount of energy left in your mind and will allow your mind to be in a very vigorous state, to the point where it can even recover on its own. If you are confident, you can try fighting the ancient Giant Demon right now. After all, this is a huge opportunity. "

Yang You and the others hadn't gone far, and now they heard these words.

Instantly, Yang You's hands clasped together and then released.

Because at this time, Long Chen looked over.

What Cat said, Long Chen had actually felt it. He seemed to be in a state where he had just eaten his fill, his entire being was filled with energy and excitement, he was much stronger than his previous mental state. He even estimated that he had reached the next stage, and that was his current level.

Furthermore, he could feel that this residual energy was slowly dissipating. He estimated that it would return to its original state in a day, and it would be difficult for him to defeat the Primordial Giant Demon back then.

"He's right. He's about twice as strong as he was when I was at his peak." Long Chen told Yang You and the others.

To be honest, logically speaking, this was the time to give it a try.

However, the scene just now had truly frightened Yang You and the others. They naturally didn't want such a thing to happen again.

Yang You was not a hesitant person. She was decisive in everything she did, swift and decisive in everything she did.

The two Dragon Emperors were also waiting for Yang You's decision.

If it was really like Long Chen had said, they would naturally support Long Chen.

Long Chen took a deep breath and said, "Aunt You, I am shouldering these responsibilities. Only I can do it. Last time, I was too careless. This time, I learnt my lesson and I will definitely kill the other party. If I don't have a chance, I will immediately withdraw. Please trust me. "

Now, the longer it dragged on, the weaker the pronucleus's power would be.

"Alright."

Yang You had only said one word, but it had given Long Chen a lot of power.

"Brother Chen, you must remember that we were waiting for your safe return."

Ling Xi smiled slightly, she trusted Long Chen more than anyone else. Just like a moment ago, she also knew that Long Chen would definitely not die like that.

These two women were now really the strongest backing Long Chen!

For them, Long Chen could not be a coward, nor could he not fight!

When Long Chen's courage reached its peak, it would be extremely terrifying. At this time, he was the true king, the true killer!

At that moment, he didn't think about anything else and only had boundless fighting spirit in his heart. He resolutely turned around, covered in dragon scales, and extended his claw of death, thrusting towards the head of the Sea Divine Emperor without hesitation!

"Die!"

He turned into a furious dragon, its size becoming much larger than before. The pronucleus's power had turned into thick smoke around him, forming a form of defense and recovery. This time, it aggressively rushed over, it was much more terrifying than last time!

"Ancient Giant Demon, Qu, come out and die!"

The divine dragon let out a furious roar that swept across the entire world in the blink of an eye, causing the entire world to tremble and rumble.

"You actually didn't die!"

BOOM!

The blood mist roiled as the ancient Giant Demon with dragon's scale covering his head and mantis like body rushed towards Long Chen like a beast from the sea of blood.

The Primordial Giant Demon's bloody eyes were filled with endless shock when he saw the Long Chen who had become even stronger. Last time, he had shaken it out almost before Long Chen died.

But he was sure that Long Chen would definitely need a few months to recuperate.

He didn't expect that not only did he recover, but that he was even tougher and more terrifying than before!

In this sort of duel of wills, the greatest taboo was having one's heart waver. The dignified Ancient Giant Demon was shaken because of the previous battle, and now that he saw Long Chen's powerful return, his heart had been shaken!

"This time, if I don't kill you, I won't leave this place!"

Although Long Chen had told them that if they were no match for him, he would retreat.

But after entering, he actually didn't give himself any path of retreat. The path of retreat would affect his courage. What he wanted was a fight to the death!

As a result, he threw everything to the back of his mind. Without any hesitation, he used his craziest posture and continued the slaughter, pouncing towards the Archaic Giant Demon!

"Damn it, you're looking down on me!" Lowly creature, lowly life, what qualifications do you have to compare with me! "This is only one percent of my will. If you really go against me, I can kill you with just a glance!"

"Let's talk about it when you kill me."

Long Chen laughed coldly and began his slaughter.

This time, he wanted a massacre.

#### Chapter 2403 - Devouring of Fragments

The two Dragon Emperor s, Yang You, Ling Xi and Cat were all guarding beside Long Chen. Compared to the other people's nervousness, only Cat had a relaxed expression, and she chuckled. "Don't worry, don't worry. "It's just the will to deal with an ancient Giant Demon. With my help, it'll definitely be easy to capture. If you don't believe me then just watch."

Indeed, it was as he said. At least until now, Long Chen had not shown any signs of abnormality, and his entire person was still in a very good state. It was just that this time, his killing intent was too strong.

On the contrary, Long Chen had grabbed onto the head of the truly uncomfortable Sea Divine Emperor, who was crying out in pain and looking very sinister right now. However, Long Chen still held him down tightly.

At present, the other Dragon Emperors were also waiting for news from Slaughter Dragon City. Some of them even couldn't help but want to come over to take a look.

After a period of time, when she saw that Long Chen did not have his previous abnormal state, Yang You finally calmed down. She also had a premonition that Long Chen was going to succeed this time around.

In actuality, Long Chen was currently engaged in a fiery hot battle with the other party. It was said that once they met on a narrow path, the courageous would win, and with the support of the remaining power of the pronucleus, coupled with Long Chen's peak Ancestral Dragon's Will, it was simply a nightmare for the Primordial Giant Demon. Last time when Long Chen was completely suppressed by him, it was the complete opposite.

The Ancient Giant Demons, one dragon and one ancient monster, rolled in this world within the Sea Divine Emperor's consciousness. The Ancient Giant Demons repeatedly made mistakes and were no longer able to completely control the Sea Divine Emperor. At this time, the Sea Divine Emperor's own consciousness was gradually awakening!

The will of the Sea Divine Emperor was actually inside the body of the Ancient Giant Demon!

Every time Long Chen tore a bite, a large chunk of flesh and blood would be torn from the opponent's body. What actually appeared was the primordial spirit of the Sea Divine Emperor, no wonder they were tightly controlled, it was because their primordial spirit was eaten by the Ancient Giant Demons' will.

It was this fellow that caused this riot in the Immortal God Region!

Now that he had the upper hand, of course Long Chen would not spare him! And for this battle, he had exhausted a lot of the pronucleus's strength!

What he wanted was to end this quickly!

The Sea Divine Emperor itself was also shouting and waking up. Under this double attack, the power of the Ancient Giant Demons was already gone, and they did not have much of an advantage!

"Damned little thing! Just what did you absorb!? It's actually able to fight against me! You did succeed this time, but don't be too happy too early. Ten thousand of you are not my match.

During the battle between Long Chen's battle and the Ocean Divine Emperor's awakening, the Ancient Giant Demon was torn apart and smashed into pieces, completely disappearing from the Sea Divine Emperor's spiritual world. The surrounding blood mist started to dissipate and the sea of blood turned into an azure sea.

Long Chen discovered that the Ancient Giant Demon's mental will had been shattered and turned into blood mist. This blood mist was a great tonic for him, the Primordial Blood Spirit Dragon could absorb the remaining fragments of his opponent's mental will and even completely digest them.

Therefore, the majority of the disappearing blood mist was absorbed by Long Chen.

In this battle, Long Chen had used almost half of the remaining pronucleus's power that Cat had brought him. However, after the Ancient Giant Demons had been destroyed, the fragments made Long Chen's mental strength become even stronger, because the killing intent of the Ancient Giant Demon was actually very similar to that of the Primordial Blood Spirit Dragon.

When he exited the Sea Divine Emperor's body, he was even more energetic than when he went in. At this time, perhaps even dealing with an ancient Giant Demon's spiritual will wouldn't be a problem.

Furthermore, what was even more amazing was that this time, he had improved on his own, and did not rely entirely on the strength of the pronucleus.

"Haha, didn't I already say I would succeed? I'm too awesome! Boss, without my help, you're not even a fart!"

Seeing that Long Chen had returned without a hitch, the little kitten immediately laughed arrogantly. They did not care about the two Dragon Emperor s and Yang You.

Long Chen opened his eyes and the Ten Thousand Claws left the Sea Divine Emperor's head. When he turned around, he saw the two Dragon Emperors and Yang You and the others looking at him in shock.

"What's wrong?"

Long Chen was startled.

"Compared to before, you are much more imposing and tyrannical. Your spiritual will is even stronger now. To be honest, the few of us who saw it also felt that it was a little scary. "

The Bloody Dragon Emperor could not help but say.

Although in terms of strength, Long Chen could not be compared to them, but in terms of willpower and the might of the divine dragon, Long Chen had already surpassed them.

As expected, after the Ancient Giant Demon's willpower was destroyed, it was simply a great supplement for Long Chen.

Moreover, there was still a portion of the pronucleus's power remaining.

However, it had taken a lot of effort to awaken the Sea Divine Emperor. Now, he still had to see what kind of state he was in.

At this time, the Sea Divine Emperor who was in incomparable pain finally opened his eyes. His eyes were dim, his vision a little blurry, his primordial spirit had been controlled for too long, causing him to be somewhat delirious right now.

", please make contact with the seal."

Long Chen and the Sea Divine Emperor were at odds with each other, but right now, they were in a moment of chaos. The Sea Clan had also encountered such a disaster, he only needed to wake up and know what happened.

With Yang You present, the two Dragon Emperor s were not afraid of the Sea Divine Emperor suddenly falling out with him.

When they removed the seal on the Sea Divine Emperor, the Sea Divine Emperor had already gradually regained his senses. Seeing Yang You and the others, he reckoned that he had thought everything through.

"Long Chen, it looks like you saved me. Did I see you earlier?"

The Sea Divine Emperor said in a somewhat weak voice.

From the looks of it, this fellow should be normal, so Long Chen ignited his life flame and threw it onto his body. Because of his severe injuries, he had lost too much of his life force. The fire of his life had coincidentally provided coal in the snow, greatly restoring his body. After about a quarter of an hour, his torso, and his four limbs had regrown.

The expression on the face of the First Ocean Emperor was very bleak. Clearly, he was still in shock and in grief that he could not recover.

"Thank you."

He said this to Long Chen with extreme sincerity.

"No need to thank me, Ocean Divine Emperor. Before, there were some grudges between us, and you almost let me die, but now that the world is in chaos, your Sea Clan is in a state of deep chaos, being controlled by the Ancient Giant Demons, we have suffered countless casualties. Now is the time to forget about personal and personal grudges, as the supreme ruler, I think you understand what we should do next, right?"

Long Chen went straight to the point.

Around him, Yang You and the two Dragon Emperor were also waiting for his answer.

"What else can we do? Our Sea Clan has already reached such a level, but you all, I naturally know what I have to do and will cooperate with you all to rescue us. But, is it possible for us to succeed?" How many experts do we have? Although you do have five Skysplit Towers, once ten or more of them come to your Dragon City, wouldn't they be destroyed? "

the Sea Divine Emperor asked doubtfully.

As long as you are willing to shoulder this responsibility in your heart, wanting to save the Sea Clan, saving the world, so that this place will not become a pasture of the Ancient Giant Demons, and you don't want to lose your consciousness and allow others to take control of you, since that is the case, we have no choice but to retaliate. "Ling Chen:" ... "

Long Chen said solemnly.

At this time, no one had a way out. Although the Ocean Divine Emperor was of average character, as the first Ocean Emperor, he should have this bit of fighting spirit.

He gritted his teeth and said, "Sure, as long as it can save the Seafolk. No matter what, I will cooperate with you and contribute my strength."

The Ten Thousand Killing Dragon Emperor called him to the side and explained the situation of the current Five Dragon Cities, including the matter regarding the Heaven and Earth Transference Array. After hearing this news, the Divine Emperor's dull eyes finally lit up as he said, "That's right, these five Heaven and Earth Transference Array s can definitely give us hope! Since Long Chen is able to wake me up, then I can definitely wake up the rest. As long as the powerful people at the peak of the realm wake up, then this battle can be slowly resolved. "

These results gave him a certain level of confidence.

"We still have two prisoners." The Ten Thousand Killing Dragon Emperor said mysteriously.

"Hmm?"

The Sea Divine Emperor looked in their direction. At this time, the Blood Tyrant Dragon Emperor and Yang You had the Rock Witch under their control and were firmly locked in place. That was where the Sea Divine Emperor was before.

"Was this how I was imprisoned before?" The Sea Divine Emperor's voice suddenly became somewhat cold.

"If you don't, then the ancient Giant Demons will control your bodies and cause trouble." The Ten Thousand Killing Dragon Emperor explained.

"Oh, oh." He suddenly laughed and said, "That's right, we can only do that. It looks like Long Chen wants to wake up the Rock Witch out of the eight Holy Mages? Then our chances of winning will become greater and greater. "

"Of course." The Ten Thousand Killing Dragon Emperor was also filled with confidence in Long Chen. It was just that the way they looked at Long Chen was different.

"Are you sure you want to continue?"

Yang You couldn't help but ask again.

"I can take this opportunity to become stronger, and the power brought by the kitten is only half left. It's even stronger now than last time. You can try. Don't worry, I know what I'm doing. "

Long Chen's current state of mind was very good, and his willpower was strong.

"As he wakes up more and more people, it will become easier and easier." Cat chuckled.

"Thank you very much this time." Indeed, this fellow had brought him hope.

"Don't just say it. I'll feel even better if you call me a few times to listen." The kitten was pleased with itself.

Long Chen was too lazy to bother with him. What he was going to fight against was the Ancient Giant Demon Will that controlled the Stone Witch!

When he entered the world of consciousness of the Voodoo Progenitor, it was an endless bloody land. He used his powerful will to shake the land, forcing the ancient Giant Demon out once again!

"It's you again!"

The ancient Giant Demon was going crazy with anger. "Aoo ..."

Chapter 2404 - Triads

He was very angry, but Long Chen was very calm.

Right now, he was standing at the absolute pinnacle, looking down on his opponent.

"Thank you for your nourishment, which has made me even stronger."

The dragon and ancient Giant Demon collided again!

Compared to his opponent, Long Chen was even stronger by a little. Although the pronucleus's power was continuously being consumed, until the late stage of the battle, when it no longer had any strength left, Long Chen had relied on the last explosive increase of his willpower to still crush his opponent, and tear his opponent apart!

It was only now that the lynx's primordial spirit appeared.

The blood-colored ground and fragments of will were once again swallowed by the Primordial Blood Dragon. This battle was not easy and lasted for a long time, but Long Chen had finally settled it. Of course, this was all built on the premise that the Rock Witch was heavily injured and sealed. Otherwise, in this whole hour, who would let him stab the Myriad Death Claw on his head?

If he were to meet other powerhouses at the peak of control, Long Chen would only be courting death if he wanted to wake them up like he did with the rest of the Spirit Demon beings.

This was unless his will was tyrannical to the point that it could directly exterminate the will of an ancient Giant Demon in a very short period of time.

This time, his mental will had improved, becoming more stable and more bloodthirsty. It could be said that after killing the will of the two Ancient Giant Demons, even though he no longer had the remaining strength of the pronucleus, his current state was even more tyrannical than the last two times!

That strong willpower was even more threatening!

This caused Long Chen to withdraw from the battle. Before the Stone Shaman's body could recover, Long Chen had already gone to fight against the Ancient Giant Demons in the Iron Witch Space of Consciousness.

It was an endless world of steel!

"It's you again!"

When the Ancient Giant Demons went berserk, it was also quite scary, but he simply could not stop Long Chen from growing up. Furthermore, this was only a small part of his will, it had crossed the seal of the devil star and was sent to the Immortal God Realm. He had even divided it into thirty portions.

Actually, it wasn't too heaven-defying for Long Chen to be able to fight against him now.

Of course, it was already a miracle that a mere mortal could force an ancient Giant Demon to this degree.

In the end, after about three-quarters of an hour, the broken pieces of the Ancient Giant Demon's mental will still benefited Long Chen, allowing him to become even stronger. The next time he would face an ancient Giant Demon, it would only take less than half an hour or even a quarter of an hour.

If Yang You could still catch two or three Peak Rankers and have Long Chen come to train, it would be great. When his spirit and will were strong enough, he might really be able to fight in the battlefield and kill every one of them together with Yang You.

But unfortunately, there were only three.

After withdrawing from their conscient, the Iron Magi and Rock Magi in front of them had gradually awakened. They now had a general idea of what had happened. Long Chen kindly used the flame of his life to let them recover.

"Get out of my way, you damned human!"

The two mages' tempers were very fiery. As their bodies gradually grew out, they recovered a bit. Although they were still very weak, they still stood up with cold faces, ready to leave this place.

Yang You, as well as two Dragon Emperor s and Sea Divine Emperor s, stopped the two of them. Long Chen thought that these two were even harder to deal with than the Sea Divine Emperor.

He had to keep them to help him.

Not only to help himself, but to help all living beings.

"I rescued you two out of the Ancient Giant Demons' control and helped you two recover from your injuries. You two don't even say a word of thanks, yet you want to leave like this? It's alright to thank you, but at this critical moment, I would like to ask you two to cooperate a little. What do you guys want to do if you go out now? "

However, they did know that Long Chen had saved them. The two of them looked at each other, and the Rock Witch said, "Now that all the Witch Clan's people are controlled by that damned Ancient Giant Demon, I naturally want to save them. I want to let the others escape from my grasp and return to the Sorcerer Domain.

"What method do you have to let the others escape the clutches of the devils? Can you rouse the six wizards? Can you two Sage Mages not be so naive? How could you not know about them? Don't expect them to approve of you based on past relationships. Now that you're a beast race among them, do you believe that if you appear before the six of them, they will immediately kill you? "

What Long Chen said was the truth.

These two Saint-level magi were too impulsive and naive.

The Iron Witch said with a cold voice as cold as steel, "So what? Better than waiting to die here? You saved me, yes. But I know that you want to use us, so we won't thank you. What we plan to do is our own business. "Anyway, we will stop the Witch clan from continuing to throw their lives away, I want to help my brothers get out of the clutches of the devils."

Long Chen was truly speechless.

"Use? Brothers, let me say a few words. "

The Sea Divine Emperor stood up at this moment.

Seeing that they were not humans, but the First Ocean Emperor, the two holy witches were slightly less cautious.

I was saved by Long Chen before, and was awoken by him. Even though there was some conflict between him and I before, I still had to thank him for saving me, even though the two of you clearly understood the current situation, but we did not fail. This time, all the people who are still conscious stand here, and want to fight the Ancient Giant Demons. Right now, they are unable to take care of themselves. Their camp needs helpers, and victory for them is the true victory for our entire Immortal God Realm. Do you two not understand? "

With the Ocean Divine Emperor's words, these two could somewhat listen in.

"You mean counterattack? Is there any way to stop this riot? "I think that this world is doomed to fall. I just want to let a few more of my Shaman Tribe members live."

The lich said in a deep voice.

"You two are too pessimistic."

He had to tell them that the Heaven and Earth Transference Array had already linked the Five Dragon Cities together and only then would they believe it.

Long Chen spoke at this time: "Currently, there are a total of twenty-seven people at the peak of being controlled, but we have fifteen Dragon Emperor s on our side. If all three of them can join, then there would be eighteen of them. In addition, as long as we can catch them and give me half an hour, I can wake them up. Furthermore, none of the twenty-seven of them is a commander, so it's very difficult to get everyone together. As long as we can turn all of them into our own people, the humans, demons, Sea Clan, and witches would all be of one mind. We might be able to defeat the Ancient Giant Demons, and think of a way to wake everyone up. It was to make the disturbance in the Immortal God Realm come to an end. It's good for everyone, not for us to use you. "

With the Five Great Heavenly Diagram and the Heaven and Earth Transference Array, it was indeed quite convenient.

The two holy witches, who had originally wanted to leave more witches behind, fell silent, then looked at each other, and said seriously, "Okay, I will believe you humans for now, and fight for my last hope. I hope you won't lie to us, and once we find out that you have other motives, we will fall out!"

Yang You really couldn't stand these two cowardly and cautious guys.

The Witch clan was like this, everyone was in danger and it was hard for them to trust others.

"The world is in chaos, countless people have died. We spent so much effort to wake you all up for the same purpose, to quell this rebellion. Who else could have any other purpose? Do you have anything else worth making us envious?"

With this said, the two mages had no way of refuting it.

Moreover, they were afraid of Yang You, especially the Rock Witch. He clearly remembered how he was defeated by this woman.

"Yes, we thought too much before and offended you."

They were quite straightforward, and knowing that their words weren't right, they immediately apologized.

"Everyone knows the situation now. The three of you, stay in the Slaughter Dragon City. If anything happens to the other Dragon Cities, we have to reinforce them. Right now, we have to guard the Five Dragon Cities well, and if we can capture one or two of our opponents when the enemy attacks us, we can wake them up and strengthen our team. Don't worry too much. After we brought all of them to the Five Dragon Cities, the Ancient Giant Demons didn't control the normal demons, Sea Clan and Witch Clan to attack us. They are currently wandering around the Dragon God Domain, so nothing will happen to them. We only defend, not attack. "

Yang You explained the situation to them word for word.

"You are one of the people by Long Qinglan's side, you have a lot to say. We trust you, you can do whatever you want next." The lich said straightforwardly.

"Thank you very much."

Yang You was also speaking the truth.

In reality, most of the Sea race's demon clan members were killed in the aftermath of the battle. Many of them were killed by the powerful people who controlled them. The humans never took the initiative to kill them, unless they were forced into a corner.

The decision of the fifteen Dragon Emperor s withdrawing everyone back then was truly the most wise one. If not, by today, the number of deaths and injuries would definitely exceed one billion!

When they were preparing, investigating, and waiting for the opponent to attack, Long Chen finally had a break and went to find Cat to reminisce.

"Aiya, in the blink of an eye, a few years have passed. You are truly outrageous. When I was with the Monster race, I even heard the rumors."

"What about you?"

Long Chen was actually very curious, just what other changes had this shameless little fellow experienced in the past few years.

Chapter 2405 - Arrival of the final battle

"I only know that I am related to that city, the Reincarnation Demon Ancestral City. However, in the short span of a few years, I did not find anything useful. The only thing I know is that I seemed to have the surname 'Zhuge' before. Furthermore, a type of power has been awakened. "

At this point, the kitten raised its right hand. An invisible force rotated on its palm, forming a vortex, a ring, and a complete reincarnation. This was a very ancient power, and it definitely had a long history. What was certain was that this power was a type of Power of Reincarnation, and it was very powerful.

tribulation of reincarnation, after passing through the Seven Stars Tribulation, became divine power, and then the Eight Tribulations, became the divine power of all living things. It was no longer the Power of Reincarnation. But a Power of Reincarnation like the little kitten's could compare to the divine power of all living things.

"However, what's laughable is that I am simply unable to grasp this kind of power. My current body is just like a container, able to only be stored, released, and cannot be regenerated, which is to say, although I am in my best condition right now, perhaps I can fight with strong experts for a bit, but as time goes on, it will decrease in a straight line. I can only rely on the 'pronucleus' to replenish my energy to my complete form. However, pronucleus s were something rarely seen in the world, so it was considered lucky for me to be able to find a few of them. It is said that these are things that even the gods often use. "

"So that's how it is."

In this situation, he could still bring out a pronucleus to save him without hesitation. This showed how much he valued him.

"Haha, I have named this power Primordial Power of Reincarnation. What do you think, does it look very awe-inspiring and domineering, like you have no shame?"

He was proud again.

In truth, Long Chen was already very satisfied with seeing that he was still healthy and healthy.

"If we can pass this matter, I don't think I'll have any major matters to attend to for now. When the time comes, we'll go to the Monster race and clear up these matters for you."

Long Chen said solemnly.

"Well, if you are not attentive, do you have any bad intentions? Let me tell you this, if you dare to disobey me, I will tell this little beauty Ling Xi. "

"Die!"

This cat, if he didn't get beat up, his skin would itch.

Standing at this high place, he looked at the entire Dragon City. After such a long stalemate, everyone was tired and resting. However, they did not dare to leave their original spot. Monster, Sea Clan and

Witch Clan had already stopped attacking for a short period of time, and the longer the time, the longer they were prepared. It meant that they were in danger.

Therefore, the fifteen Dragon Emperor s and Yang You were guessing too. They hadn't attacked for such a long time, so they must have known that the human Five Dragon Cities s had established the Heaven and Earth Transference Array, and that Yang You could appear anywhere at any time.

As long as there weren't too many enemies, she was confident that she could capture one more. As long as she captured one more, with Long Chen, her side would have one more pinnacle Ranker, and the opponent would lose one, and the distance between the two would get closer and closer.

These few days, the Sea Divine Emperor and the two Holy Mages had joined them and participated in the deployment.

In the northern starry sky, an unexpected gathering was being held here.

With two beautiful women as the center, all the strongest demons, Sea Clan and Witch Clan experts gathered there to recuperate.

Among these two beautiful women, one of them was lively and mysterious. Her mood was volatile and her eyes had a faint dark red color. If one were to be stared at, it would definitely cause one's hair to stand on end.

The other was as cold as steel, like a divine weapon. Her entire person was like a weapon that had just been unsheathed, exuding boundless pressure and killing intent. She rarely spoke, and most of the time, it was the other who spoke.

Upon closer inspection, one would realize that they looked exactly the same.

These two were Yi Xue and Meng Hen from the Demonic Star.

After almost ten days of summoning and gathering, all the top-notch experts had arrived beside them within this period of time. Among them, there were sixteen Demon Lords from the demon race who had appeared before them before, or had not appeared before them. They stood respectfully in front of Yi Xue and Meng Hen.

After that, the remaining five Ocean Emperors and the six Saint Masters from far away, a total of twenty-seven people, all gathered together on this day.

This was the highest level of power in the Divine Realm of Immortality!

Over half of the experts here had already reached the pinnacle!

With so many people, it was enough to destroy the entire Immortal God Realm.

"My Lord!"

Something completely unimaginable happened. These twenty-seven top-notch hegemony of the Immortal Divine Region, one after the other, knelt down towards the two girls. Their expressions were respectful and fanatical, not daring to slack off in the slightest.

They were all people that had the Ancient Giant Demons personally invade with their complete wills. They were the ones that were the most poisoned, as if they were expressing their own wills. But what they didn't know was that they were completely controlled and influenced by the Ancient Giant Demons.

They called the two young girls their masters.

Sure enough, the thing that Long Chen and the others were most worried about had happened.

Long Chen was worried that these twenty-seven Dragon Emperors would be gathered together by one core. If they dispersed their attacks, it would be very difficult for them to deal fatal damage to the human race. However, if all twenty-seven of their opponents gathered together and attacked one Dragon City, it would be extremely terrifying.

Firstly, he had to at least transfer all the Dragon Emperor over.

Even so, if the eighteen Dragon Emperor s and Yang You were to fight next to the Dragon City, it would definitely be extremely chaotic. The warriors of one Dragon City, such as the Slaughter Dragon City, could only increase the power of three to four Dragon Emperor s at most with a supply of one hundred million warriors.

Other Dragon Emperor could only fight at their original levels, that way, fighting two against one would be extremely difficult. After all, the advantage was no longer there.

Moreover, to more than twenty opponents, a mere Slaughter Heavenly Diagram could be considered very weak. Unless the most elite parts of the Five Dragon Cities, the entire human race would be transferred to Slaughter Dragon City.

However, this also meant that they would have to give up on the other dragon cities in a short period of time.

No matter what, when twenty-seven peak experts gathered together, it would be the beginning of a great disaster.

"Everyone, everyone heard what the Eternal Life Divine Beast said. When the human Yang You left the Life Dragon City for Dragon City, he only used less than a quarter of an hour. This means that the human race has a high chance of obtaining the Heaven and Earth Transference Array of the Spirit Race, and it is even more profound. From how Yang You is running around the Five Dragon Cities and every place he is staying for a day, they must have set up this thing here in the Five Dragon Cities. Which is to say, we should either split up our forces and attack the Five Dragon Cities at the same time, or focus our forces to attack a Dragon City. Otherwise, they will be able to move all the Dragon Emperor warriors here and there to fight us! "

"Humans are really disgusting to be able to arrange such a thing at this time!"

"They're just struggling in death. If not for the sudden appearance of Yang You, they would have been annihilated by now."

"Therefore, we must not recklessly attack anymore. There should be organized attacks."

Yi Xue was very satisfied with their discussion.

She smiled and said, "In terms of fighting, we have the absolute advantage, so we don't need to worry at all. I already have a plan. It was actually very simple, didn't they have the ability to transfer fifteen Dragon Emperor to one place? If we were to clash head on, then they will never be able to match us. That way, if we can break one of the dragon cities, it would be equivalent to breaking five of the dragon cities, allowing us to get five dragon pearls in one go, and then we can live forever! "

"Fine, that's it!"

"Humans, these guys who only know how to be sneaky, they just don't have the courage to fight us head on!"

"I'd like to see if they're scared shitless when we all attack together."

"Anyway, this time, if they don't hand over the five dragon pearls, we will destroy the entire humankind together!"

"That's right, let's have a final battle. It's useless to let them use any of their Heaven and Earth Transference Arrays. It's been such a long time, and yet they still haven't wiped out the human race.

Yi Xue and Meng Hen were very satisfied with their high morale.

"My lord, let's attack right now and kill him without leaving a single armor behind!"

Yi Xue shook her head and said, "Not now. Ten days later, I will send someone to deliver a letter to them. I will tell them that the twenty-seven of you will descend upon Dragon City in ten days for the final battle." When their fighting spirit is almost exhausted, we can attack again. In addition, you still have people who have not recovered to their peak condition, and can take advantage of these ten days to adjust yourselves. At that time, you must attack Dragon City in one go and obtain the five Dragon Balls. "

"Master is wise!"

Everyone cheered as they looked forward to the final battle!

This was when Long Chen and Cat were chatting.

What they didn't know was that in the northern starry sky, the biggest danger was about to arrive at Dragon City. Long Chen and the others could only hope to catch one or two more Peak Rankers to wake them up.

It was very common for a tribulation monster to appear in the sky above the Slaughter Heavenly Diagram. If there was no one leading them, then there would be many of them rushing towards him. However, none of them had succeeded.

"Listen up, everyone!"

He did not attack, but began to speak.

"Our master said that ten days later at this time, the sixteen great demon lords, five Ocean Emperors and six Saint-level Magi will all arrive here. They will attack Dragon City and slaughter the entire city, not leaving a single one behind, unless you are willing to hand over the five Dragon Balls!"

Chapter 2406 - Panic

After a few days of peace and quiet, Long Chen and the others had already predicted that something would happen.

What they didn't expect was that the worst situation would happen.

In the beginning, they truly did think that the 27 peak powerhouses weren't led by anyone, and that it would be difficult for them to gather together. After all, the Ancient Giant Demons only affected them, and not take over their bodies. Thus, every single peak expert still had their own nature. They were more proud than anyone else and would not obey the management of others.

Unless there was someone capable of disciplining them.

And from this demon clan's mouth, the word 'lord' could be heard.

Let's not even talk about who the leader was, at least if all twenty-seven rankers were to join hands and attack the same place, then even with the Heaven and Earth Transference Array, the final battle ten days later would be extremely difficult to endure.

In fact, there was a high possibility that the Celestial Slaughter Art would be breached in this kind of chaotic battle.

A mere Celestial Slaughter Art could not even increase the strength of fifteen Dragon Emperor s.

However, when the three races combined their powers, they were equivalent to two humans. If not for the existence of Yang You, Long Chen and Ling Xi, the human race would have long been in a bad state.

But even so, they might not be able to block the joint attack of the three races!

"Remember, you only have ten days to think. If you do not want the entire human race to be destroyed, you can also choose to send the five dragon pearls to the northern stars within ten days. That way, all demons, Sea Tribes, and witches will immediately leave the Dragon God Domain. If all of us want to die, then we have a total of twenty-seven peak-level powerhouses that will thoroughly crush this place, and completely annihilate your human race in the Immortal God Realm! Let this race of yours be completely wiped out in the river of history! "

The other party was very pleased to see everyone staring at him blankly, and he added.

Suddenly, Long Chen appeared by his side.

The other party panicked, "What are you doing? If I don't kill you in the clash between the two countries, do you still want to kill me?"

"Who wants to kill you?"

Long Chen's Ten Thousand Claws pressed down on the opponent's head, using a bit of strength, the opponent cried out in pain, but the bloody look in his eyes slowly calmed down.

"What, what am I doing?"

The other party looked at his surroundings in a daze and grief.

"Now, do you still think that our race will be destroyed by you?"

Long Chen said to him one last time before he returned back to the Slaughter Dragon City. His voice was rather heavy, because it seemed that he didn't even have the chance to add a few helpers. With twenty-seven people gathered together, no matter how heaven-defying Yang You's words were, it was impossible to snatch the person away from them.

You cannot win, there is simply no such possibility. Indeed, maybe the Archaic Giant Demons will come out from the Demon Star and all of us will be enslaved, but at the very least, we will still be alive. But if you guys continue to resist like this, then we will really be exterminated!

Although that demon clan was clear-headed, he knew how terrifying this was. Therefore, he still thought this way in despair. Even his emotions affected many humans.

"Scram!"

Long Chen was too lazy to say another word to him.

"I don't want to say that. I just want you to think about it and give some young people a chance to live."

The demon clan member said one sentence and left sadly.

After he left, all 100 million people in Slaughter Dragon City and even 500 to 600 billion people in the Divine Kingdom sank into deep thought. The day of the final battle would arrive in ten days. Although the humans had reached an unprecedented level, it was as the Monster race had said, they were still at an absolute disadvantage.

If they wanted to survive this disaster, it could only be said to be rather difficult.

Originally, Long Chen thought that as long as he stole a few more people from the opponents's lineup and had a bit more time, he would be able to continuously increase the number of helpers on his side.

But the other side did not give them the chance.

The decision to duel ten days later directly forced the human race into the abyss of despair.

A total of twenty-seven peak-level powerhouses!

Fifteen Dragon Emperors, sixteen Grand Demon Lords, eight Saint Magi, and six great Ocean Emperors. These were basically the ninety percent or more of the strongest experts in the entire Immortal Divine Region, the leaders of the tens of billions of lives. They were even the dozens of strongest people in the entire Dragon Sacrifice Continent.

Out of a trillion, only a few dozen would be born.

Out of tens of billions, only one can appear!

It could be said that in the last tens of thousands of years, apart from the era of gods, there had never been such a terrifying battle between so many peak-level powerhouses gathered in one place!

This era was destined to be an era of rebellion. People who lived for tens of thousands of years would be able to deeply remember today's war!

If they truly gathered together, perhaps the entire northern territories of Dragon God Domain would be destroyed.

If the Celestial Slaughter Map was broken, then it could be said that in just a split-second, the hundreds of millions of people here would be instantly lost. Under the encirclement of so many peak level powerhouses, it was clear that not many would survive!

Everyone had to die.

They didn't dare to be a human, a demon, or anything else.

However, they were controlled by the ancient Giant Demons, so they didn't care whether they died or not.

Obviously, this challenge put the humankind at an absolute disadvantage.

This news quickly spread to other dragon cities and reached the ears of the entire human race. It could not be concealed at all when everyone was gathered together.

Even without the three Dragon Emperor s informing them, the other four Dragon City Dragon Emperor s had already received the news.

It was obvious that to most humans, this news was like death. Everyone was terrified. Yi Xue and Meng Hen's scheme had the greatest effect. In these ten days, most of the human race could truly lose their will to fight before the true battle. They would rather die than let the majority of the human race suffer a fate worse than to die!

In that case, the Celestial Slaughter Map would be even easier to destroy!

There were only ten days left. The fifteen Dragon Emperor s had to be prepared strictly so that they would have the qualification to resist!

Surrender, obediently sending the five dragon pearls out was an impossibility, the fifteen Dragon Emperor would definitely not do such a thing. They are not certain to die. As long as there was a ray of hope, they would risk their lives for it!

However, they were temporarily unable to save the people who were panicking.

"We're finished. Although we've endured for such a long time, when the twenty-seven experts arrive, the entire northern territories will probably be destroyed. We can't compare to them in terms of power, so we'll all die sooner or later."

"I estimate that the Dragon Emperor would not hand over the five dragon pearls, especially Long Chen, he is not that easy to surrender to."

"If he doesn't give in, all he gets in return is the deaths of us small fries."

"Don't talk too much. In the remaining ten days, you should properly meet up with your family and friends. After ten days, blood will flow like rivers, grief will spread through the lands, and countless corpses will be buried. Do you have any time to complain or to feel sad?" When encountering a world like this, you can only blame your bad luck. "

This news quickly spread throughout the Five Dragon Cities, causing panic among the entire human race.

The other four Dragon Cities weren't that afraid. After all, the battlefield was the Slaughter Dragon City, but as long as the Slaughter Dragon City was destroyed, the other Dragon Cities would definitely perish. It was just a matter of time.

Facing this final battle in such a manner had become the biggest headache for Long Chen, Yang You and the fifteen Dragon Emperor. Currently, they were either using star symbols or coming over personally to gather in a palace to discuss with each other. As for how to motivate people, they could only wait until a concrete plan was discussed before proceeding.

At the very least, they were incomparably tenacious. They knew that this was a battle they could not compromise with!

Long Chen said: "As expected, the worst thing ever happened, and this matter is also related to me, right? I roughly know who the 'Master' they are referring to is."

Everyone looked over, waiting for Long Chen's answer.

It's the two from the Demon Star, Yi Xue and Meng Hen. When I was at the Ancestral Dragon Cave, I let them recover, but they were already people of the Demon Star, and even the Demon Lord, the Sovereign of the Seas, and the Holy Witch were controlled, so they must be completely controlled and able to carry out the will of the Ancient Giant Demons. Therefore, the ones who gathered all the top experts are the two, Yi Xue and Meng Hen.

Everyone was well aware of the scariness of an ancient Giant Demon. If they let him out, it would be as simple as death.

Thus, they could only fight.

The Blood said: "We have no choice but to meet them and assault them, we have to do it, but there is one thing that we need to do, whether or not they will play any tricks, for example, by attacking our Dragon City, they will send four of them to attack the other dragon cities, they know that we will definitely gather all of the Dragon Emperor and the elites there, the moment one of them goes to the other Dragon City, I reckon that the entire Dragon City will be done for, after all, if the enemy is

attacking us, we will need fifteen minutes more time before we can rush back, and our numbers are not as good as theirs."

What he said was indeed a big trouble.

If the other party did this, the efficiency would definitely be even higher. At least the four peak rankers could restrain the four Dragon Emperors and also prevent most of the elites from the other Dragon Cities from gathering in Dragon City.

Yang You said: "That's easy. I can go and keep an eye on them now, since they can't catch up to me, I'll just stay by their side. As long as we don't attack and get surrounded, nothing will happen." If they dare to split up, I'll just bring them back. "

Reddit

Chapter 2407 - Guardian you

What Yang You said was the best way to solve this problem.

"Although I feel that Yi Xue and Meng Hen definitely wouldn't do this and would have the twenty-seven of them attack together, I think it's better to be safe. Aunt You, you should head there now and see if there are any openings that can deal with one or two of our opponents. Bring them back so that I can turn them into our helpers." Leave Five Dragon Cities's side to us. "

Yang You nodded. Only she could accomplish this.

"Yang You, be careful. You are our greatest hope."

Several Dragon Emperors looked at her with sincere gazes.

Their gratitude towards Yang You truly came from the bottom of their hearts, especially towards Long Chen's family. They felt too much guilt, but now, they did not care about anything and participated in this battle.

"A small matter."

Yang You gave one last intimate glance at Long Chen, then turned around very straightforwardly and headed towards the northern sky. Long Chen originally wanted to be careful, but Yang You had already disappeared in the blink of an eye.

Everyone was waiting for her news. If she was sure that the 27 peak rankers were all gathered together, then the 15 Dragon Emperor s could begin to deploy and send all of them to the Slaughter Dragon City. After that, they could transfer most of the elites to the Slaughter Dragon City to strengthen the Slaughter Heavenly Diagram to its strongest state.

About half a day later, Yang You sent him a message.

Just as Long Chen had expected, the ones who had gathered the twenty-seven experts were Yi Xue and Meng Hen. At the same time, the twenty-seven experts were all by their sides and did not move.

Then, basically all fifteen Dragon Emperor s would have arrived at the Dragon City. Adding the Shanghai Divine Emperor, the Rock Witch and Iron Witch, there was a total of eighteen pinnacle experts.

After that, they spent a day to adjust the elite structure of the Dragon City and strengthen the Celestial Slaughter Map to its most tyrannical level. Even if they moved to attack other Dragon Cities, with their speed, the human race would still be able to move everything to other Dragon Cities to ensure that the battle would be foolproof.

Such a tight arrangement had indeed brought a certain amount of hope to the humankind.

Long Chen was involved.

The fifteen Dragon Emperor s carefully selected the fifty thousand most outstanding youths and let Long Chen lead them there. If the war were to fail, Long Chen would need to bring them out of this place and find a place to continue the human inheritance. At the same time, he also gave a total of more than a hundred thousand Divine Dragon Inherited Blood to Long Chen.

His mission was to let the human race be reborn.

But Long Chen rejected it, he wanted to participate in the battle.

No matter who it was, it couldn't make him change his mind.

The fifteen Dragon Emperor s looked at him as their greatest hope for the future, but this was different from what he was thinking. He did not want to become a hope in the future, and he also could not sit by and watch as everything was consumed.

He was at a stalemate with fifteen Dragon Emperor s.

Long Chen looked at them and said, "There is no exception to this rule, and it is even more impossible for me. I have the ability. At least I can block one opponent and ease everyone's pressure. What you have done is indeed reasonable, but I do not wish for this person to be me, because I am different. I came to this world to fight, and this is my most important battle, and I cannot miss it! No one can stop me. The only thing I can assure you all is that I won't die! "

On any matter, Long Chen would definitely respect the requests of these fifteen seniors.

However, there was no way to discuss this matter.

The Immortal Dragon Emperor shook his head in pain and said, "We have already let your father down. Do you still want us to let you down?"

Long Chen said very straightforwardly: "That's not the same. If you don't let me participate in the battle and I can't stop you all watching, then I will truly let me down. Everyone's fate and goals are different, what I pursue can never be retreat, then it's not me! "

After entangling themselves for a long time, the fifteen Dragon Emperor s finally came to a decision.

"You have two lives. You must promise us that if you die once, you will immediately leave with the other young men and the rest of our inherited blood."

This was their last concession.

If Long Chen didn't agree, they could only choose to imprison him.

"Sure."

Long Chen could only guarantee that he wouldn't die. In any case, he had never died before, so he didn't know what it felt like.

In the end, the most elite of young people, as well as many of the most precious things for the entire human race, still arrived at Long Chen's Divine Kingdom. In reality, with his current words, as long as he wanted to leave, he would not be stopped by too many people.

I'm just afraid that he won't leave.

Currently, the entire Slaughter Dragon City was working hard for the final battle!

Those who were sad, worried and afraid were all moved to other Dragon Cities.

The one hundred million people left behind, no matter what, were all elites. But even so, facing a battle with a very low winning chance, many people were very frightened. Even though they appeared very calm on the surface, the fear and trembling in their hearts and the nervousness in their hearts could not be concealed.

Everyone was standing in a very crowded place, and there wasn't even room for them to sit down. There were so many people, but every time they looked at each other, they would all have bitter smiles on their faces.

They could not think of any other smiles to express their current feelings.

There were only a few places, and not that many people.

Long Chen, Ling Xi and Cat were sitting on the roof of the central palace, looking down at the people below.

"Aiya, how could these little unlucky fellows be so dejected? It's only twenty or so old fellows. With this young lord here, it'll only take a few minutes to take care of them."

The kitten pouted and said in disdain.

"Cat, you dare to say something like that? Weren't you the one who was anxious to escape in the past?" Ling Xi said.

"Ah?" Is that so? How could such a thing happen? I am so wise and powerful, a mere Demon Lord, what kind of Ocean Emperor could I be?

With this bored guy around, it seemed like the atmosphere wasn't as serious in the face of a decisive battle.

After chatting for a long while, Ling Xi suddenly said to Long Chen: "Brother Chen, when the time comes, use the Three Lives Love Silk. We'll attack together and I'll be able to help.

In actuality, Long Chen's strength was only slightly weaker than the Dragon Emperor s.

"That won't do, Aunt Su said I'll let you rest in peace."

Long Chen looked forward and gently shook his head.

"Do you remember what you said to the Dragon Emperor s?"

Ling Xi said somewhat angrily.

"What?"

Long Chen never thought that she would be so resistant.

"You have your goals. Your goals are to fight, to protect, and to have a clear conscience. But I also have my goals. I will also for my pursuit of tireless efforts, I can also pay a lot of! This is my life. "

Her pair of ethereal eyes looked at Long Chen with unprecedented seriousness.

"Then what is your goal?" Long Chen more or less understood that, at the same time he earned the respect of others, he should also respect the people around him, and not rely on his own will to influence everything.

"Protect you."

Ling Xi gritted her teeth and said two words.

Long Chen was a little dumbstruck. He didn't know what he should say, he had always been the one protecting Ling Xi, and never thought that she would also protect him. But she had thought like this from the beginning to the end.

"I'm sorry."

Long Chen knew he was wrong, he should have given Ling Xi this chance. Although he had to take responsibility for it, but there was nothing he could do.

"Aiya, my mother! This is too emotional. Haha, you two shouldn't be so vulgar, okay?" It's just a fight, like we're leaving each other forever. When that day comes, I'll just follow behind you two to look for an opening, and that can be counted as a bit of a help, right? "

"Alright."

For example, Mo Xiaolang and Ling Xi, the two of them did not have any sense of propriety and did not have any thoughts of protecting him. If nothing could be done, they would be the same as Long Chen, and would not even want their lives, but Cat was not such a person, he would do everything in his power to protect himself. This was the precondition, under which he would attack the other party.

With someone he loved fighting alongside with him, Long Chen suddenly felt a power that filled him up. It made him feel even more that he had no regrets in this decisive battle.

Looking back, all fifteen Dragon Emperor s had set up their formations, encouraging everyone. All of them furiously roared their oaths, their fighting spirit filling the heavens.

"Battling is our only choice, because we are the descendants of Divine Dragons, we were the greatest rulers of this land, and this is our world. We only have one path, and that is to fight to the death, because we can only die, but not be slaves or puppets! There are many things in this world that are more important than life, and that is our pride, our pride, and our glory! "

"Remember, the Immortal God Realm is also a part of the Dragon Sacrifice Continent. This used to be the world of the Dragon Lord, and it was also the world that we controlled! That is our greatest pride, so, in a few days, no matter what the result is, we will do our best to not let the demons, the witches, and the Sea Clan understand us, but to let the ancient Giant Demons understand that getting the five dragon pearls is simply impossible! This Dragon Sacrifice Continent is not a world that they, who have been imprisoned in for tens of thousands of years, can possess! "

The desolate wind blew from the northern skies all the way to Dragon City.

Through the diagram, everyone could smell the stench of blood.

He didn't know when, but the fifteen Dragon Emperor s, the Shanghai Divine Emperor s, the Rock Mage and the Iron Mage had all sat down on the slaughter map, waiting for the decisive battle to start!

One day, the light of dawn would once again descend!

#### Chapter 2408 - Nightmare Descends

Ten days was actually very short. It could be said that in just a blink of an eye, the appointed time was getting closer and closer.

In this period of time, for any human, it was an endless suffering. It was the same for the fifteen Dragon Emperor s. They had to shoulder a lot more than ordinary people.

How many lives had now been handed over to them?

They were the ones who wanted to truly participate in the battle. Whether or not the human race could persevere depended on them. If they failed, they would at least be condemned by the ages. Even if no one judges them, they will judge themselves in their hearts!

There were not many people who could use their most boundless willpower without hesitation to welcome this battle. Most of them were clenching their teeth and stubbornly persisting on the spot.

Last time, it was also during the battle at Dragon Slaying City, when the six of them fought against the three human Dragon Emperor s. In the end, Long Chen gave them great courage, letting them understand that no matter who it was, other than fighting and dying, there was no other way to retreat.

Last time, Slaughter Dragon City almost fell apart and Long Chen also almost died on the spot.

But then, Yang You came and saved everything.

After all, the opponents were not idiots. Their sole goal was not to kill as many Dragon Emperor s as they could, but to break the Celestial Slaughter Art and slaughter them. That was the only way to force fifteen Dragon Emperor s to hand over the five Dragon Balls.

That was why, in truth, everyone was under a lot of pressure. Because they were connected to the Celestial Slaughter Map, everyone had to contribute their lives and strength in order to preserve their own lives!

In the past few days, Long Chen had been walking among them.

His personal strength was insignificant in the face of this battle. No one could turn the tide. Even if he could awaken his opponent's peak powerhouse, it would still be a peaceful environment, and his opponent would be completely under his control. Therefore, the effect that he was able to bring out was not very great.

However, he hoped that his heart would bring strength to everyone!

He wanted everyone to understand that fighting wasn't just about him.

Currently, he was the core of the entire human race's new generation. He was the target of the crazy worship of billions of people. His every word and gesture, every word he said, had great influence.

"Since there's still a long period of time, I might as well chat with everyone for a while. First, let's talk about my matter. I'm sure everyone is clear about what abilities I have and what potential I have."

At this moment, practically everyone in the Dragon Slaying City had their eyes on him. This was the strongest elites in the whole of the human race. Although Long Chen was pressured by them, he was used to it.

He couldn't yell or shout. He only wanted to talk about himself in this way.

"Before, the fifteen Dragon Emperors wanted me to bring the elites of the human race and the treasures that would allow us to inherit blood essence out of this place in the future. The hope for me to be reborn as a human seems to be something that everyone feels I should do. After all, I am still young, and my value shouldn't be lost in this battle. "

This was the truth, and no one thought that Long Chen would go out and fight with those strong warriors who were the masters of the masses. If he died in battle, it would be too much of a pity.

Speaking to here, Long Chen's gaze was like a torch, he said: "However, I rejected. If there really is a reason, I think it should be, when a person is alive, he must be brave. "

"Perhaps, everyone will feel that among many personalities and qualities, courage and bravery seem insignificant. Relying on my courage, I walked all the way from a lowly being in the Dragon Sacrifice Continent to this moment. Although there is a large part of it that is due to my good luck, having a good father, but I clearly understand that if it wasn't for my personality, no matter how good everything was, I would still be unable to leave the Dragon Sacrifice Continent, or if I had already died in a certain corner, my everything would have been the same as everyone else's. "

"Death is very possible. Everyone is afraid. However, if no one was able to become a Deity, then no one would be able to avoid it. Now we have no way out. We have to die or fight. No one would choose to commit suicide directly. Therefore, our only choice is to fight with unwavering determination. However, fighting was not such an easy thing, unless they mustered all of their courage and courage to do so. Use your courage to fight! "

Brave, but not proud.

At least until now, we still have at least half a chance. If we truly lose, then I can guarantee to all of you that I, Long Chen, will definitely die in front of you. "

For many people, the last sentence was enough.

Of the billions of humans, who would die the most unfortunate death?

It was undoubtedly the Long Chen at this time, as he was already approaching the peak of the world.

However, he said that he would definitely die in front of everyone. As long as he didn't die, no one would be hurt.

When he thought back to the battle at Dragon City, when Long Chen went to fight the Sea Divine Emperor alone in order to protect the Slaughter Heavenly Diagram, it proved his courage!

That was enough!

Now that he was a leader, all he had to do was use himself as a role model and lead the way!

The Dragon City which was a very quiet place, suddenly started to boil. Seeing Long Chen, for some reason, the hearts of everyone present were burning hot, as if there was a ball of flame burning fiercely. What they saw was the birth of a new emperor.

For everyone, his original name was no longer important.

"Slaughter the Dragon Emperor!"

Everyone was shouting at him like that!

This was recognition given to him by the entire human race before the final battle. Even the fifteen Dragon Emperors shouted this out in the end. To this day, other than the fact that Long Chen's strength had not yet reached the standard, he was no different from a Dragon Emperor killer.

To Long Chen, that realm was actually around a year or so!

He had used his courage, courage, and spirit to convince everyone. He was supposed to lead the young experts and move him away at this time. He swore with his own life that if the human race lost the war, he would die here!

This was the difference between Long Chen and his father. To everyone present, the Everlasting Dragon Emperor was mysterious, indistinct, and untouchable, but when Long Chen was so close to them, he was just a righteous, responsible, tenacious, hot-blooded youth!

This battle was destined to be his true battle of the Peerless Emperors!

The winner was the king while the loser was the thief.

Everyone's blood boiled when they saw him.

Legend that rose in a few years.

His heaven defying father might cause everyone to be envious and jealous, but Long Chen had used his own actions and character to tell them that other than those, he also had the most revering thing, and that was his determination to not let go until he was dead!

The Slaughter Dragon City was magnificent, and even the entire humankind was in high spirits.

Fifteen Dragon Emperor were also infected. There was a relaxed smile on their faces.

"If he is able to survive this tribulation, this young man would definitely be the most terrifying person in the entire world in the future. He would be even more shocking than the Eternal Dragon Emperor." The Lich said in envy.

"Yeah, you humans are really too lucky. Lucky enough to make people jealous. There has never been such a heaven-defying genius in our Shaman Tribe."

The iron witch also sighed.

Only Sea Divine Emperor gazed at Long Chen, the core of tens of thousands of people, without saying a single word. He played back an image in his mind, which was the moment when he almost smashed Long Chen to death with the Sea Freezing Divine Needle.

"If I were to completely destroy him in the Three Lives Secret Realm, how would this world change?"

Naturally, no one could answer his inner question.

When there were only three days left, Yang You received news that they were already heading towards the Dragon City, with twenty-seven experts coming together!

At that moment, everyone was in an uproar.

His blood was boiling!

In the remaining two days, Yang You had already returned because their opponent had arrived. Everyone looked into the distance. A total of nearly 30 people were rushing towards them from the horizon. Because they were advancing, the earth trembled, the rivers reversed, and even the sun, moon, and stars began to crumble!

Close to thirty people, yet they affected the entire world!

Sixteen Demon Lords, five Ocean Emperors, and six Saint-level Magi!

There were only 27 top martial artists that could appear with 10 billion lives in total. As the vast and boundless world descended, they didn't need to speak or move, but they could still shock the hearts and souls of others!

The great demon lords, the Ocean Emperor and the Saint-rank all revealed cruel smiles. They stopped a distance away from Slaughter Dragon City. The 27 of them protected two girls who looked almost the same. They were Yi Xue and Meng Hen!

At that moment, everyone stood up.

No matter what the outcome would be, there was no need to think about anything. The fear originated from the imagination of what could happen in the future, but it did not necessarily happen. Everyone only needed to use their own courage and determination to instill their will into the Celestial Slaughter Diagram and block everything!

Yang You, the fifteen Dragon Emperors, the Sea Divine Emperors, and the two Saint-level Magi were all standing proudly!

This would happen countless of years from now, and history would remember this moment. The most powerful warriors in the entire Dragon Sacrifice World would gather together, and prepare for battle!

"What's the rush? There are still two days left."

At this moment, Yi Xue's delicate laughter resounded through the night sky.

There are still two days left. If you give us the Five Dragons Pearls within these two days, then I will immediately bring all demon race, Sea Clan and Witch Clan out of Dragon God Domain. He would definitely do as he said. But, if two days time is up, and the last moment is when you failed to wisely and wisely place the five dragon pearls in our hands, and that moment is the beginning of the war, let me remind you, once you start, even if you send the five dragon pearls up, we will still exterminate the human race. This is a matter of principle, so please think carefully, you only have two days! "

Chapter 2409 - Peak decisive battles

Arriving earlier meant that they wanted everyone to accept their oppression and torture. Even if one had the courage to fight, enduring for two days in such an atmosphere would make one feel dejected!

As the saying goes, once you push forward, you will decline. This was the logic behind this.

Last time, there were only six powerful warriors, and the impact almost caused the destruction of the city. In reality, without the Celestial Slaughter Diagram, any pinnacle expert would be able to tear the city apart!

And now, there were a total of 27 of them!

This level of suppression was not something that an ordinary person could withstand.

What Yi Xue and Meng Hen wanted to see was their increasingly flustered expressions and increasingly low confidence under the pressure!

"Two days? "Hehe, even if you have the courage to not hand over the five dragon pearls, the twenty-seven of us surrounding this place will make you collapse."

Yi Xue sneered coldly in her heart. Her gaze swept across everyone and she saw a special person under the Killing Diagram. That person made her scalp tingle with fear, especially his eyes. She never expected that there was someone within the human race that she was afraid of!

"Who is he!"

For a moment, she had lost that part of her memory.

Although she did not know who he was, Yi Xue subconsciously avoided his gaze.

"There's no need to wait for two days!"

In the Slaughter Heavenly Diagram, Long Chen looked at the two women coldly. His loud roar suddenly shook the entire Slaughter Dragon City.

"Five Dragon Orbs, that's a sacred artifact of the human race. Your dirty hands don't even have the right to touch it, don't think that staying here for two days can scare us. Let's see, aren't there just 27 puppets controlled by an ancient Giant Demon! What kind of waves can they cause? "

"Let's go to war!"

From the moment they had arrived, everyone had been prepared for battle. They had already adjusted themselves to their best condition!

This was the time to be full of courage and fighting spirit. If he didn't fight now, then what was there to wait for!

War!

It went from yelling at several people to thousands of people, tens of thousands, hundreds of thousands, and millions!

Then, everyone roared in anger. The entire Slaughter Dragon City was like a giant beast, letting out roars that pierced the heavens and earth. This countless of roars could even be heard by the entire Dragon God Domain!

The clouds in the sky were roiling!

The ground quaked!

The stars trembled, and the world trembled!

There was no calamity that could stop their determination to win!

What Long Chen said was right, it was just a group of controlled puppets, right?

Could the will of an ancient Giant Demon that descended upon the Immortal God Region really be able to defy the heavens?

Passion, excitement, and infection!

When all eyes were focused on battle and slaughter, the amount of power they could unleash was terrifying. They were men and women, descendants of the former Paragons of this world!

They had already made their preparations long ago, and when the opposing side appeared, they had already pushed themselves to the brink of death. They did not need to wait for two days, they did not need the opponent to give them a chance, what they needed now was battle!

"Fight!" "Fight!"

The wind rolled, lightning flashed, thunder boomed!

The battle between hundreds of thousands of peak-level powerhouses was about to begin!

Yi Xue had lost two.

The first to lose, was when he saw Long Chen, who he was afraid of.

The second defeat was due to her underestimating the determination of the human race to resist. She thought that they would be able to oppress the human race for two days and make them lose their courage in front of strong enemies. But she had done it.

Only they thought that it would be two days before the battle would begin!

The ones who were really not ready were them.

Fortunately, they were surrounded by controlled puppets, so they wouldn't be in too much of a state of mind.

Yi Xue and Meng Hen could only order, "They don't need us to give them the chance to fight! Then, let's not be polite and tear everyone apart! First, tear down the Slaughter Dragon City! "

Before this, Yi Xue had already given them a plan to fight.

They knew how terrifying Yang You was, so against Yang You, they had sent out six experts to completely restrict Yang You and truly kill her. They knew how terrifying Yang You was, so against Yang You, they had sent out six experts to completely restrict Yang You and truly kill her.

There were still twenty-one remaining, eighteen of which were fighting against the eighteen present members of the human race.

In a situation where the Celestial Slaughter Map was unable to supply all the Dragon Emperor, there was no problem at least delaying them with eighteen peak rankers. In their battle, no one could do anything to them.

In that case, there were still three supreme experts remaining.

It was equivalent to three Dragon Emperor s!

They were going to attack and kill the Dragon City with all their might, trying to tear the Dragon City apart in the shortest time possible. In that case, regardless of what happens to the human experts, they would win, because so many human lives were captured by them!

Once the Celestial Slaughter Diagram was broken, the human race would definitely collapse!

"If that's the case, then let's follow the battle plan!"

After Yi Xue and Meng Hen finished their conversation, they left the place holding hands. In reality, their mission was just to organize the group. It was fine with them now. Even if they were killed, the huge attack would not stop just because of that.

After receiving the order, the 27 peak powerhouses all turned into their true forms. In the process, they all let out roars that shook the heavens and the earth. Their roars could even suppress the sound that came from the entire Dragon Slayer City!

BOOM!

The ground had caved in for more than a hundred meters, and the entire northern region had cracked open!

Clouds were rolling in the sky and the sky was covered by dark clouds. The night had turned into night!

War, burn!

Many huge beasts appeared around Dragon City!

The sixteen Diremonster Lords were all monstrous beasts that could blot out the sky.

There were also five other Ocean Emperors, all of whom had revealed their true forms in front of Long Chen!

And those six Giants!

The 27 tyrannical pinnacle experts surrounded the Slaughter Dragon City. The current Slaughter Dragon City before their eyes was simply like a toy.

"Kill!"

At that moment, both sides roared together!

They gathered all of their power into the Celestial Slaughter Map to protect themselves. In that moment, the entire Celestial Slaughter Map lit up, and hundreds of millions of dragon heads exploded with incredible power, causing strong tremors and causing all the surrounding land to crumble into dust!

The Slaughter Dragon City floated above the ground, surrounded by the Slaughter Heavenly Diagram!

This was a battle between a dragon and a beast!

At that moment, fifteen human Dragon Emperor s transformed into Ultimate Dragon at the same time and soared into the sky!

Beside them, the Ocean Divine Emperor, Rock Mages and Iron Mages were also not idle. Although they couldn't kill their own people, they could at least contribute their power to keep them busy.

The one that everyone looked forward to the most was, without a doubt, Yang You.

This time, Yang You didn't take out her Everlasting Dao Artifact. Facing so many opponents, she chose to transform into a dragon!

She was the Unparalleled Dragon, her name was the Netherwyrn!

Actually, just like Prison Dragon and Nether Dragon, all Unparalleled Dragon s and Ancestral Dragon's concomitant dragon only had one name.

Just the word 'underworld' was enough to describe this divine dragon.

The Unparalleled Dragon that was displayed in front of Long Chen and the others right now wasn't big, but it was definitely the most beautiful Divine Dragon that Long Chen had ever seen.

It was a divine dragon that was like an inky jade, shining in the night sky with a misty glow. It was empty and quiet, like a star in the night sky, clear and bright, with dragon scales like the clearest crystal, dragon claws like the brightest glazed glass, and eyes like the purest gemstone.

Beautiful and noble, this was synonymous with a hidden dragon.

But in this way, she was synonymous with killing.

The Netherwurm was the concomitant dragon of the Dragon of Time and Eternity. This was a gift that Long Qinglan had given to Yang You before, a gift that was even more precious than the Heavenly God Sword Milky Way.

Yang You always said that Long Qinglan did not love her at all, but no matter if it was the Unparalleled Dragon's Inherited Blood or the Heavenly God Sword's Milky Way, they were both the most precious things he had inherited from Long Chen. Long Chen was an exception because he wanted to borrow his power to accomplish something extremely important.

To Yang You, perhaps this moment was very touching.

She had given her the most precious thing that Long Qinglan had, at this moment, appeared in front of everyone's eyes, to welcome this historic war!

The decisive battle erupted!

To human experts, they could only try their best to stop their opponents, preventing them from attacking the map.

If he could defeat his opponent, that would be for the best.

If he couldn't defeat him, he had to at least make sure that the other party didn't do anything!

Since the start of the battle, Yi Xue had meticulously chosen six of the best experts to fight Yang You alone. Amongst them was the number one Demon Lord of the four Demon Ancestral Cities!

The other two were the Witch clan's Insect Witch and Cloud Witch, they had great attainments in binding and other types of attacks.

In the beginning, they were worried that Yang You would destroy them one by one, so they quickly surrounded them!

The other experts also stared at one of their opponents. They instantly collided with each other in the air above the Dragon Slayer City. Perhaps it was caused by the humans themselves, but from the very beginning, the slaughter diagram was attacked and sent flying!

The Slaughter Dragon City had instantly moved several tens of thousands of meters away, barely managing to leave the range of the enemy's attacks!

The Dragon Emperor knew after some calculations that at least three people would be coming out to stop the two of them!

They fought with all they had. In the beginning, the Blood Tyrant Dragon Emperor, the Immortal Dragon Emperor and the Heavenly Fate Dragon Emperor had each blocked two opponents, causing the battle to become stable. Although they did not have the support of the Celestial Slaughter Diagram, they could at least persevere on!

After all, they had two lives, so they weren't afraid!

Even if he died, he would still have a chance to be reborn!

But in truth, the difference between each peak level expert was not too big. Sometimes, even if they desperately wanted to stop the two of them, the other side could easily use one person to stop them and have the other one charge towards the Dragon Slayer City!

It was the first time in thousands of years that such a world-shaking and world-shaking battle had occurred!

The entire world's top experts were all gathered here, engaging in close combat! In that short moment, the humans in Dragon City were no longer able to see what was happening outside!

Those divine dragons, demon beasts, marine tribes and giant Magi rushed across the sky and earth, the battle produced a loud rumbling sound that never stopped, and even the entire world was exploding. The earth was completely destroyed in this battle, the sky was also completely torn apart, and the space was shattered!

The world that everyone could see was nothing more than the smoke and dust that came from the collapse of the earth, nothing more than the sky that cracked into an endless network!

It was as if the true end of the world was already beginning to descend upon them!

The Dragon Slayer City was originally fixed in the blood sea. However, the last time it was struck, it had already moved to that direction. From the direction of it, it should be the northern sky.

At this moment, everyone on the Dragon Slayer City seemed to be traveling together with them, as if they were on a boat.

The entire world had turned into a stormy sea!

**BOOM! BOOM! BOOM!**

The surroundings were filled with the most intense vibrations. If not for everyone holding hands and standing in the middle of the Dragon Slayer City, they would have already fallen over by now.

He knew that there would always be a fish that would slip through the net and rush to the Slaughter Heavenly Diagram. According to the plans of the fifteen Dragon Emperors, he could join them in supporting the Slaughter Heavenly Diagram at the start, but if the enemy came to attack him with too many people, and the Slaughter Heavenly Diagram was unable to stop them, then everyone would have to give their power to Long Chen!

This caused Long Chen's strength to greatly increase, causing a disturbance outside of the Slaughter Heavenly Diagram!

In addition to his Three Lives Love Silk, the moment he was injured, he would be able to escape back into the Celestial Slaughter Art, so his danger level wasn't that high!

Long Chen had an outstanding ability to do things.

Beside him was Little Cat, who was still slovenly despite the great disaster, and Ling Xi, who was holding hands with him, slightly nervous.

Below them were tens of thousands of their compatriots who stood together with them!

Through the thick layer of dust on the ground, Long Chen could see the progress of the battle. Yang You had transformed into a Unparalleled Dragon, and was at the same time controlling the Heavenly God Sword and the Milky Way.

It required time and a stronger will!

Meanwhile, the other Dragon Emperor s, including the Sea Divine Emperor and the others, were fighting fiercely with their opponents.

The Nine Phoenix, Heavenly Dog, Woeful Beast, Primordial Lightning Beast, Wind Magical Beast, Lu Wu Beast, and Eternal Life Divine Beast, as well as the original body of the Ocean Emperor and the Giants.

However, there was some distance between them and the Dragon Slayer City. Although the Celestial Slaughter Map still gave them some support, but because it was too scattered, the improvement was not very obvious. At this critical moment, three opponents quickly broke through the Dragon Emperor's encirclement, charging towards the Dragon Slayer City!

Long Chen's responsibility was not just as simple as protecting the Celestial Slaughter Map. He wanted to complete the responsibility of being the leader and make all of them as one.

"The enemy is here, get ready! Previously, the Sea Divine Emperor was unable to break through the Slaughter Heavenly Diagram with all his might. We are the most elite group of the human race, and just the seniors who have gone through the Nine Palace Calamity alone are more than twenty of them.

"Brothers and sisters, let them see, us humans are not as weak as they think!"

Even though all the Dragon Emperor were present, they still had a backbone, a backing, confidence, and courage. With Long Chen here, they would still have strength!

"Fight!"

What they needed to do was to use their most powerful willpower and release their strength to meet the challenge from the enemies!

One of them was the Heavenly Dog of the Goblin Tribe, one was the Tyrant Divine Emperor of the Sea Clan, and the other was a huge beast from the Goblin Tribe. Long Chen did not recognize any of them, but as the Great Demon Lord, he was definitely not much different from the others!

Tyrant Divine Emperor was a Giant Turtle from the deep ocean, and had the most terrifying power. He was an opponent of the heavyweight, and once that huge weight was brought over, it would pose a huge challenge to the Celestial Slaughter Diagram!

A Nine Palace Calamity warrior next to him asked about the last demon clan being called 'Evil Spirit Beasts'. It was said that it could manipulate millions of demons. This was very similar to the Ancient Giant Demons, but even so, the Demon Spirit was still under the control of the Ancient Giant Demons.

The three experts attacked!

Although Tyrant Divine Emperor was a Giant Turtle of the deep ocean, his speed was not slow at all, it was even terrifyingly fast. He spun in the starry sky, and the tortoise shell that was so hard that most of the Daos could not tear apart began to spin, forming a ball that was countless times scarier than a meteorite.

The massacring dragon city could only resist, they had no way of dodging!

After all, Slaughter Dragon City was just a city.

Long Chen could only watch as the other party smashed towards him. Honestly speaking, if he were to go out and resist now, he would definitely be crushed by the other party. Therefore, he chose to join everyone in releasing all of his power to maintain the Celestial Slaughter Diagram!

At this time, under his command, everyone exerted their strength at the same time. In the very first instant that Tyrant Divine Emperor charged over, the Slaughter Heavenly Diagram was opened to an unprecedented level!

BOOM!

This earth-shattering sound.

The entire Slaughter Dragon City was like a ball as it was sent flying. It kept rolling until it finally crashed into the ground. Under the impact, the entire Slaughter Dragon City was thrown upside down, almost falling to the ground.

However, it was fortunate that no one was injured. Soon, everyone stood up.

Nothing happened on the Celestial Slaughter Map.

Although they had encountered a rather heavy collision, they had to admit that they had successfully blocked it. Even if it was a direct attack from a peak expert, it wasn't too frightening!

"Stand up, they can't break us!"

Long Chen's voice had the magic of a king, everyone had their own thoughts, although they fell, everyone still stood up.

At this time, the Giant Turtle in the deep sea appeared in front of everyone's eyes, and on the left, there was a Tengu living in the shadows, and on the right, there was a strange black demon beast shrouded in black clouds.

Indeed, even his appearance was somewhat similar to the Primordial Giant Demons that Long Chen had seen before.

Evil Spirit Beasts' cries were very terrifying, and could affect a person's mental state. Hearing the introduction of the old man beside, Long Chen's heart skipped a beat, the Celestial Slaughter Art was not able to completely block the sound, so if the Evil Spirit Beasts attacked, there might be people who could not take it!

"It's really quite interesting. Do you really think I can't break it?"

The second Sovereign of the Seas, the Tyrant Divine Emperor, had lost roughly ninety percent of his laughter due to the weakening of the Celestial Slaughter Diagram.

"Come together!"

Off to the side, the Demon Lord Tengu snorted coldly.

"Alright."

After that, together with Tengu, they used their methods to directly attack!

"Deep Sea Death Ray!"

With a sharp look in his eyes, Tyrant Divine Emperor opened his mouth slightly as if he was holding onto a gem. A dazzling black light burst out from his mouth like a blade, forming countless sharp thorns that blotted out the sky and covered the earth, shooting towards Slaughter Dragon City like an arrow!

On the other side, the black dog was also moving.

This was a creature that looked like both a wolf and a dog, with a crimson mouth. In his eyes, the Dragon City seemed like a moon in his eyes, and the reason why he was named the sky dog was because of his powerful devouring ability!

Weng! \*

Boundless black mist was ejected from his mouth. Everywhere it went, whether it was the mountains, the trees, the sun, the moon, or the rivers, they all melted and turned into black powder.

And this black fog and Tyrant Divine Emperor's Deep Sea Death Ray brought about an unprecedented crisis for everyone from two different directions!

"Long Chen, hold on, we are thinking of a way!"

At this time, Yang You and the others had placed all their hopes on Long Chen, so he had to take on this important mission.

This was his destiny, his mission!

There was no need for Long Chen to say anything. Just by looking at his eyes, everyone knew what they needed to do.

To defend with all their might, to create an opportunity for the Dragon Emperor, and to make sure that the other side would be at a loss of what to do!

The Dragon City, which had gathered all the elites of the humankind, was not something that the enemies could break just because they wanted to.

"We've said so many deaths, and now everyone knows that we're not going to die. What we want is a complete victory!"

The two peak ranker used all their might to attack Long Chen and the others when they were at their peak condition, and released their attacks onto the Slaughter Heavenly Diagram. ))))

At that moment, everyone's eyes were wide open.

They could see that the Celestial Slaughter Map had already been submerged by the enemy's power, and that everyone had been surrounded, but they did not feel disheartened because even though there was pressure, at least they could sense that when everyone was facing it with unimaginable passion and hot-bloodedness, the two opponents would not be able to break through the Celestial Slaughter Map!

RUU...!

The light and fog should have been able to kill 99% of the people here, but now they were blocked by the Celestial Slaughter Diagram. Although it had caused a great impact to the crowd, it hadn't been able to injure them at all!

This gave everyone a huge amount of courage!

The courage to win.

As it turned out, it was not the one-sided battle that everyone had imagined.

They had succeeded.

Although it was just the beginning, it was the beginning that gave them endless hope and courage!

Next, continue the battle!

Under the onslaught of the two peak-level powerhouses, the Dragon Slaying City was in a mess, but it had never been broken!

"I'll do it!"

At this moment, the evil spirit beast at the side finally let out a faint voice.
