Chapter 241 - Scarlet Flame Symbol

"Five Scarlet Flame Symbol, worth more than ten million divine jade, even if it's Great Perfection of the Heavenly Core, you will still have to die under this Scarlet Flame Symbol. Long Chen, let's see how you can dodge it." Chu Tianxiong let out a wild laugh. At this moment, his heart was completely filled with hatred. In the next moment, he used the five Scarlet Flame Symbols on Long Chen.

The last time he had faced the Lightning Symbol was undoubtedly an emergency, but at that time, Long Chen's heart was very calm, because he knew that he could survive this. He did not know if he could withstand the might of these five Scarlet Flame Symbols! Even if he didn't die, if he was severely injured, it would definitely have a huge impact on the battle more than ten days later.

"Big brother!" When Mo Xiaolang saw the scene before him, his eyes were immediately bloodshot.

Long Chen had defeated Dongfang Xuanyu before, so he was very confident in Long Chen, but he never thought that he would actually make such a request. And when he found out, even if he could get rid of Jin Luan easily, it would be too late to save him!

"Your father is going to die at the hands of this old fogey?" Long Chen was a little speechless, just now, he had stolen the Thunder Flame Crystal Soul from Li Ziling's hands, and had not had the chance to enjoy it yet. Therefore, when the five Scarlet Flame Symbols rapidly flew towards him and exploded in front of his eyes, Long Chen's face revealed extreme unwillingness!

The five Scarlet Flame Symbols exploded, and every single Scarlet Flame Symbol turned into a huge fireball. They looked like five suns, hanging above Long Chen's head, spitting out blazing flames.

"Crap!" Long Chen's face changed greatly. The Scarlet Flame Symbol's big fireball had already started to explode explosively, the five fireballs exploded together, and with this level of power, it would probably raze an area of twenty meters around it to the ground. And Long Chen was right in the center of the explosion, how could he safely escape?

Chu Tianxiong said that these five Scarlet Flame Symbols could easily take the lives of Great Perfection of the Heavenly Core Warriors, and did not need to brag about it. If Dongfang Xuanyu wanted to kill Long Chen, naturally, he would be prepared for it.

"That stinking woman, I had good intentions to spare her life, but she sent people to assassinate me, and even used such despicable methods. Dongfang Xuanyu, don't let me have the chance to kill you again!" Seeing that the Scarlet Flame Symbol was about to explode right in front of his eyes, all Long Chen could do was to use the Nine Flashes of the True Dragon to the maximum extent possible in order to move twenty meters within this short period of time.

However, Long Chen knew in his heart, he could only dodge ten metres.

"Am I really going to die here?" Long Chen was extremely furious in his heart. Just as he was feeling helpless, he suddenly felt that there was something strange that was shaking quickly in his Qiankun bag. At this time, Long Chen did not care about anything else, he knew that there was nothing magical in his Qiankun bag, but there was some kind of miraculous reaction, so there must be a turning point!

Therefore, in that instant, Long Chen dodged while taking out the thing that was trembling. Immediately, Long Chen screamed out and threw out the thing that seemed to be a brand in his hands, because this brand was simply too hot. In just a moment, it burnt Long Chen's hand red, and was even a little burnt black.

took a glance at this trembling object. It was the Mysterious Iron Plate he had once acquired from the Burning Sky Mountain Range of the Desolate Beast Region. Long Chen remembered that he had even comprehended the Burning Heaven Devil Yang Fist from this metal plate.

The moment the iron medallion was revealed, Long Chen saw a scene that surprised him. It was that the Scarlet Flame Symbol's big fireball that was about to explode, stopped exploding, started to melt, and turned into a river of flames. After that, the Mysterious Iron Plate absorbed all of the fire energy within the ball of fire, and very quickly, not even a little bit of the Mysterious Iron Plate remained!

Looking at the empty sky, Long Chen knew that he was saved.

"What is this?" How is that possible? " Just as he was about to kill Long Chen and take revenge for that blood sea, a Mysterious Iron Plate suddenly appeared at this time. It actually swallowed the Scarlet Flame Symbol's strength, causing Chu Tianxiong to immediately have a face of disbelief! He felt like he had just entered heaven, only to suddenly fall into hell!

"Go to hell!" Long Chen reacted very quickly. This time, he did not hold back, the green dragon halberd in his hand suddenly turned into a tornado.

"Azure Dragon Battle Method, broken yellow spring, Azur!"

did not give him the chance. The second move, Azur, directly stabbed into Chu Tianxiong's abdomen, piercing through it! Chu Tianxiong's chest and abdomen!

Fresh blood dripped down.

"Long Chen, what's that?" Chu Tianxiong asked as he held onto his blood, his face pale white.

"I randomly picked up a metal plate. I don't know what it is either, haha." Long Chen knew that although Chu Tianxiong could still speak, he wasn't too far away from death.

After pulling the green dragon halberd out from his chest, Chu Tianxiong fell on his back onto the ground. His eyes were opened wide as he stared at the sky, but his body was no longer moving.

"You died with grievances?" Long Chen did not pity him. This world was a world where the strong preyed on the weak. If Long Chen did not kill him, he would die.

At this time, Mo Xiaolang also let out a miserable scream from the side. When Long Chen looked over, he realized that Jin Luan had also died in Mo Xiaolang's hands. Mo Xiaolang was already much stronger than him, he had only sent them here to send them to their deaths.

"Big brother, what happened just now?" Just as Long Chen was about to face a great calamity, a strange metal tablet suddenly appeared and saved him.

Mo Xiaolang was so scared that he broke out in cold sweat.

"I don't know either. This thing is extremely mysterious. I had previously picked it up at a place called Burning Sky Mountain Range. When the Scarlet Flame Symbol appeared, I realized that it was trembling, so I took it out. At this time, the Mysterious Iron Plate had already fallen to the ground, it had once again returned to its normal look, Long Chen walked over. If one looked carefully, he would be able to tell that the current Mysterious Iron Plate did not have much temperature, so it would not burn him anymore.

"Burning Sky Mountain Range? Isn't that a piece of the Desolate Beast Domain?" Mo Xiaolang tilted his head and thought.

"Right." Long Chen held the Mysterious Iron Plate in his hands and examined it closely, then said: "I don't know what secrets this thing has, I can't figure it out either, so let's put it away first."

After collecting the Mysterious Iron Plate s, Long Chen took a look at Chu Tianxiong's and Jin Luan's corpses.

"Are they really sent by Dongfang Xuanyu?" Mo Xiaolang was a little angry. This woman almost took Long Chen's life this time.

"It's definitely her. It's absolutely true." Long Chen said indifferently.

"Then should we attack the Lingwu Family and let her give us an explanation?" Mo Xiaolang suggested.

"There's no rush about that. The battle of the Ancient Era's Remnants is about to begin. Please spare her first. We still have a more suitable location to go to that will allow us to increase our strength. This is pretty good for you as well." Long Chen smiled mysteriously.

"Where?"

"Desolate Beast Domain, Burning Sky Mountain Range." Long Chen said.

There were several reasons for him to visit that place. Firstly, there were very few people in the Barren Beast Domain, so he would not be disturbed and could concentrate on his cultivation. Secondly, there were many demon beasts in the Desolate Beast Domain, so Long Chen could use them to increase his cultivation.

"I'll listen to you, big brother." Mo Xiaolang laughed simple-mindedly.

They had already decided where they would go, so they quickly left this place.

When Long Chen and Yue Yang had walked far away, the one who had already chased all the way to Morning Star Merchant Union was finally here. In reality, the fight between Long Chen and Long Chen did not take too long.

Seeing the corpses of the two black-robed men, everyone was stunned. Li Ziling, who had gradually recovered, walked forward and pulled away the black cloth from their faces.

"The two great elders from the other clans in Lingwu Family, Chu Tianxiong and Jin Luan, how did they die here?" Li Ziling was a little depressed.

"Miss, I have a guess." One of the foreign delegates said.

"Go ahead." Li Ziling calmed her anger towards Long Chen.

This time, Long Chen came to Thunder Fire Town, so they must have become black-clothed men and followed him here. When Long Chen obtained the Thunder Flame Crystal Soul, they started attacking and killing him, but they were no match for Long Chen and Mo Xiaolang, so they died here. "

"Right, right. That should be it." The other guests also felt that the truth was about right.

"Long Chen killed the two great elders from the other clans?" Li Ziling frowned, remembering this matter. At this time, Long Chen had already left in a cloud of dust. As a result, the Thunder Flame Crystal Soul no longer had any hope.

"Long Chen, there will be a day when you pay a heavy price for your actions today." Li Ziling swore fiercely in her heart.

Riding on the The Great Roc of the Gale, it didn't take long to go from Thunderfire Mountain Range to White Yang Town.

Long Chen did not enter White Yang Town. Looking at it from afar, he realized that everything was peaceful and peaceful, and he and Mo Xiaolang immediately headed towards Great Desolate Mountain. Their destination was the Desolate Beast Region.

"The last time I was here was when your clan was hunting. I never thought that time would pass so quickly. Today, you have already achieved such a heaven-defying feat." Mo Xiaolang lamented.

"At such a young age, don't pretend to be mature in front of Big Bro. From Dragon-Meridian Realm to Heavenly Core isn't really a big deal. "In this world, there are many strong warriors," Long Chen thought of Li Xuanji after he finished speaking, feeling a little depressed.

"Of course not, I am known as a genius in the Source Spirit City, and in the Biyang Royal City, many are much stronger than me." Thinking of this, Mo Xiaolang felt a little powerless.

"What's there to worry about? It's only right that we arrive at the end of the bridge. If you can't do it, then brother will definitely pull you out." Long Chen looked fearless.

"The heart of the strong." Regarding this, Mo Xiaolang understood it this way.

Very quickly, they entered the Desolate Beast Domain, where there were countless caves. Long Chen quickly found an encampment spot at the outskirts of the Burning Sky Mountain Range.

"In the next few days, I will fuse with the Thunder Flame Crystal Soul first!"

Chapter 242 - Level Three Thunder Flame Battle Body

When Ling Xi wasn't there, when she took out the Thunder Flame Crystal Soul, there was always an empty feeling in her heart.

In the past, whenever Long Chen cultivated, Ling Xi would always be by his side, and even that enormous number of raiding crystal was obtained for him the first time. But now that he had obtained the Thunder Flame Crystal Soul, there was no one to guide him.

"Fusing with a raiding crystal, requires one to go through such terrifying torture. Presumably, this Thunder Flame Crystal Soul, would be even more terrifying." Thinking to this point, Long Chen looked at the Thunder Flame Crystal Soul in his hand that had already been suppressed, and could not quite put it aside.

"Thunder Flame Crystal Soul, I think it will be very scary. Big Brother, you better be mentally prepared." Mo Xiaolang suggested with some worry.

"If even that bitch Li Ziling could succeed, then what would I have to worry about?" Thinking of this, Long Chen was once again filled with confidence.

"When Li Ziling was fusing with the Thunder Flame Crystal Soul, she must have had a Milky Way Realm expert instructing him. This is different." Mo Xiaolang said.

"It's fine. I've worked so hard to obtain this, how can I not fuse with it?" Long Chen raised the Thunder Flame Crystal Soul before his eyes and took a deep breath. Actually, he had already made his preparations.

There were two kinds of magic treasures for fusing with the raiding crystal. One was the Dragon Soul Transformation and the other was the Gui Yuan Battle Skill. And right now, Long Chen had already activated the Dragonsoul Transformation.

"Then be careful. I'll watch from the side." Mo Xiaolang nodded and leaned on the cave wall.

Long Chen studied the Thunder Flame Crystal Soul and tried his best to calm himself down. Then, he took a deep breath, and the blood red Innate Qi in his dantian swept out and spread towards the Thunder Flame Crystal Soul.

"The strength of Thunder Flame Crystal Soul is indeed much stronger than that of raiding crystal! This current of lightning and flames is countless times stronger than the raiding crystal! "

From the very start, Long Chen was shocked, and then, he felt waves of pain engulfing his body from young until now. Even though he had already transformed into the Dragon Soul, it was still very difficult to endure!

These Power of Thunderflame were constantly damaging the structure of his body. This kind of destruction completely exceeded the speed of his reconstruction, so not long later, Long Chen felt pain that was even worse than the fusion of raiding crystal s. It appeared and tore from every corner of his body, as if there were countless small blades hidden in every corner of his body.

Very quickly, the corner of Long Chen's mouth revealed traces of blood.

However, it could be seen that he was still clenching his teeth and persevering on.

The lightning and flames constantly twisted around his body. As they passed through his body, even the dragon scales suffered a certain degree of damage!

"My body has already reached the point of great destruction. Under the tempering and tempering of thunder and fire, I think I've already exceeded the limits of what I can bear!"

Right now, it was just the beginning, but Long Chen's body was already a little incomplete. He had no choice but to use the Gui Yuan Sect just like before.

Threads of warmth began to flow between the cracks of the lightning and the flames and slowly swam within Long Chen's body. Everywhere he went, his bones and muscles seemed to be nourished as they slowly recovered.

However, the strength of the Thunder Flame Crystal Soul still surpassed Long Chen's imagination. Even if it was the Dragon Soul Transformation skill, even if it used the Gui Yuan Battle Skill, the destructive power was still in his body. It raged and even used the power of all the raiding crystal that Long Chen had absorbed before.

Long Chen originally thought that he wouldn't be able to make it, but he carefully discovered that after the Power of Thunderflame destroyed his muscles and muscles, there was actually a small symbol formed from thunder and flames in the reconstruction area. This symbol was entirely made up of lightning and flames, and very quickly it covered Long Chen's body.

Mo Xiaolang could also see that on the scales on Long Chen's body, signs of thunder and flames had appeared on almost every piece. These runes combined together, had become a strange array, and the Thunder Flame Crystal Soul's absorption, was the complete process of the array.

"This is the complete state of the Thunder Flame Battle Body? In the beginning, Big Brother seemed to not be able to hold on, but now, he seems to be feeling better. It seems like the Thunder Flame Crystal Soul's use was mostly to form this formation, and the raiding crystal's use was to destroy and rebuild their body, tempering their body so that their physical body could strengthen. Mo Xiaolang muttered. He had been nervous before, but now he was much better.

Long Chen also realized that the moment that the lightning and flames appeared, the pain on his body had lessened by a lot. With the recovery of the Gui Yuan War Skill, his body was finally moving in a good direction. The formation on his body was gradually increasing in strength as it headed towards the third grade Thunder Flame Battle Body.

"The difference between the Level 2 Thunder Flame Battle Body and the Level 3 Thunder Flame Battle Body is indeed huge. No wonder that girl Li Ziling valued this thing so highly and hated me so much. Thinking about it, Long Chen was extremely pleased.

The Thunder Flame Battle Body Rune and formation of the array would need a long period of time to reform and perfect. The pain that accompanied it was not as intense as it was in the beginning, so Long Chen was much more at ease now, patiently waiting for the successful moment to come.

When Mo Xiaolang saw that Long Chen was no longer in danger, he started to cultivate. He was only a short distance away from the Milky Way Realm. If he was able to break through to the Milky Way Realm within a short period of time, there would be no suspense at all during the battle within the ancient ruins.

Time slowly passed. In the blink of an eye, five days had passed.

In the cave, there was a lot of light, and Long Chen was the light. At this time, the scales all over his body lit up with thunder and fire runes. These runes were densely packed, and formed a complex yet beautiful array formation on his body.

This was the third grade Thunder Flame Battle Body, the complete Thunder Flame Battle Body.

"I've finally succeeded." After an entire five days of time, Long Chen was somewhat unable to suppress his joy. Within these five days, the Thunder Flame Crystal Soul had finally completed all of its functions and disappeared within Long Chen's body.

But now, when Long Chen stood up, he could feel an explosive force filling his entire body. The benefits that the Thunder Flame Battle Physique, which was equivalent to the Earth Stage Medium and body tempering technique, brought to Long Chen was simply indescribable. At the very least, Long Chen could feel that his own speed had increased by several times.

body tempering technique was able to temper the body and strengthen the legs. It was also able to increase one's speed by a large amount. It could be said that the body tempering technique was actually an additional offensive, offensive, agility, and defense battle skill. Most of the time, body tempering technique was the important criterion for determining the victor between two people with similar strength.

The current Long Chen could feel the explosive strength in his body. He felt that he already had the strength to fight against Mo Xiaolang. Although there was a difference of two levels between his Innate Qi, with Long Chen's Dragon Soul Transformation skill, he could make up for the difference of one level. With a level 3 Thunder Flame Battle Physique, he could make up for half a level.

"Wolf, go out and fight!" Long Chen said excitedly as soon as he succeeded.

There was nothing unreasonable between him and Mo Xiaolang, as Long Chen would always say whatever he wanted to say. On this point, Mo Xiaolang really liked his straightforward character.

"You just finished your training and you're already in a hurry to show off your strength to me?" Mo Xiaolang was a little speechless. When he said that, he had already stood up, and seemed to have agreed to Long Chen's request.

"Of course, I'll show you how strong I am now!" Long Chen walked out of the cave first. The Desolate Beast Domain was incomparably wide, and fighting here, in Long Chen's words, was simply satisfying.

"Big brother, you are bragging again." Just as he walked out of the cave, a charred empty land was in front of him, looking around him, Mo Xiaolang chuckled and said.

"Nonsense, hand over your life." Even though he was looked down by this brat, Long Chen's heart was filled with fighting spirit. He was still in the state of Dragon Soul Transformation and he had even used a green dragon halberd.

Facing the current Long Chen, Mo Xiaolang did not dare be negligent. He took out the Sky Wolf Blade, and the two gem-like wolf eyes on the demon blade released a beautiful glow in the dark night. Following Mo Xiaolang's actions, beams of light formed in the darkness.

Long Chen knew that the strength of Sky Wolf Blade was in no way inferior to that of green dragon halberd.

"Be careful, Phantom Shadow Steps!" Just as Mo Xiaolang's voice fell, his entire body turned into a blur, and instantly appeared in front of Long Chen. This Phantom God Steps was a skill that Mo Xiaolang used when he was at death's door. Different from Long Chen's Nine Flashes of the True Dragon, this movement skill was specialized in speed, while the Nine Flashes of the True Dragon focused on agility.

excelled in close combat with his sharp short blade and extremely fast speed, but he was relatively more average with regards to close quarters combat. But he knew, if Mo Xiaolang got close, he would be done for.

"You want to get close to me? You wish? " Long Chen laughed out loud and used Nine Dragons Flash, causing his own body to pass by Mo Xiaolang's shoulder and causing him to fall empty air.

"Little Wolf, I'll let you experience the pure strength of my Thunder Flame Battle Body!" With an explosive shout, Long Chen suddenly turned his head around, and the green dragon halberd in his hands swept towards Mo Xiaolang's waist with a loud bang!

When he used his full strength, the Thunder Flame Rune that had been hidden on Long Chen's body revealed itself once again. The power of thunder and lightning instantly climbed up to the middle of the green dragon halberd s!

Merely by sweeping with force, he did not even use true energy, and had created a destructive force. It was already close to that of the strongest move from the initial stage of Heavenly Core. Mo Xiaolang quickly used his Sky Wolf Blade to block it!

Clang!

With an ear-piercing explosion, the two divine weapons clashed against each other, causing Mo Xiaolang to be sent flying backwards. Shock appeared on his face as he said in a speechless manner, "Such powerful strength! Big brother, your Thunder Flame Battle Physique is indeed very powerful!"

Chapter 243 - Shocking Tianhe Dan

Although he was shocked by the strength of Long Chen's Thunder Flame Battle Body, Mo Xiaolang was not someone who was easy to deal with. After being blasted away by Long Chen, he turned his body in midair, and then, with an agile speed like a wild wolf, pounced towards Long Chen once again.

"Demonic Wolf Battle Technique, Shadow of Death!"

After using this move, Mo Xiaolang abruptly turned into a blurry shadow, and disappeared from this world. The only thing Long Chen could see was the bloody, cold light that came from the Sky Wolf Blade.

"With the Sky Wolf Blade, the wolf cub is a natural born killer." Long Chen was a little emotional. Mo Xiaolang's speed was simply too fast, and it was even faster than his, who was at the third stage of the Thunder Flame Battle Physique.

"There he is!" Grasping Mo Xiaolang's position, a cold light flashed in Long Chen's eyes, and the green dragon halberd in his hand soared into the sky, flying towards Mo Xiaolang with a loud bang!

"Azure Dragon Battle Method, broken yellow spring!"

The moves of the same level began to fight fiercely with the support of the true energy of the two. What surprised Mo Xiaolang was that this was almost an evenly matched battle. Among Long Chen's green dragon halberd, the strength that was being transmitted over and over again made his arms go numb.

"Demonic Wolf Battle Art, Berserk Kill!"

"Azure Dragon Battle Method, Azur!"

One strike after another made Mo Xiaolang more and more anxious. He admitted that the current Long Chen already had the strength to fight him head on. Of course, they were sparring now. If it was a real fight to the death, Mo Xiaolang had the confidence to kill Long Chen, but he knew that even if it was Great Perfection of the Heavenly Core or he had Sky Wolf Blade s, he would have to pay a heavy price!

Big Brother, have you mastered Earth Tier Battle Skills yet? Don't waste your time.

Mo Xiaolang suddenly said while they were fighting.

"You know all this?" Long Chen was a little depressed.

"Of course I know. In the entire Source Spirit City, there is no one who can match your talent in training. After obtaining the Dragon Battle Star Field for so long, to this day, do you still not need it? " Mo Xiaolang laughed.

"I had originally decided to show my face again in the battle of the ancient ruins, but you actually demanded that I risk my life to accompany you today. Little Wolf, be careful!"

At this time, Long Chen had become extremely serious. This was, after all, the first time he had ever used an Earth Ranked battle skill, so he was afraid that he might not be able to grasp it well.

"Don't worry, I'm not a vegetarian either!" Mo Xiaolang quickly retreated, and when the two people clashed again, they had already used their Earth Tier Battle Skills!

Long Chen's green dragon halberd danced crazily and gradually disappeared from sight. All that could be seen was that countless green colored small dragons seemed to circle around him at high speeds, and an enormous pressure swept towards Mo Xiaolang.

"It really is the Earth Tier Battle Skills!" Mo Xiaolang also did not show any weakness. Holding the Sky Wolf Blade in his hand, his speed increased yet again, and in his hands, the Sky Wolf Blade seemed to gradually melt and fuse into his arm, transforming his entire arm into a sharp and terrifying long fang!

"Demonic Wolf Battle Technique, Heavenly Wolf Fang!"

When he used this move, the air whistled, as if Mo Xiaolang had pierced through space.

"Azure Dragon Battle Method, Dragon Battle Star Field —!"

Facing Mo Xiaolang's Heavenly Wolf Fang, Long Chen suddenly erupted with the same move Dongfang Xuanxiao had used before. The Earth Tier Battle Skills, in an instant, countless green dragons swarmed towards Mo Xiaolang.

The two Earth Tier Battle Skills engaged in a frenzied short battle!

Rumble rumble rumble!

The surrounding sand and dust were sent flying. Even the ground had cracks in it. For a moment, the entire battlefield had turned into a mess!

And at this time, both Long Chen and Long Chen flew out!

Long Chen admitted that he had even used the greatest degree of Power of Thunderflame. As he used this move, Long Chen believed that he would be able to kill a lot of the people in the Great Perfection of the Heavenly Core with a single blow. But to deal with Mo Xiaolang, he was still lacking a little.

Mo Xiaolang was also sent flying. His expression was not well, but he was able to land steadily on the ground. On the other hand, Long Chen was in a much more sorry state. From the looks of it, Long Chen had still lost. However, there was only the slightest difference between the two, and in an official battle, this little gap could be reversed.

This time, it could be said that Long Chen lost to him once again, but he was not discouraged.

"Are you alright?" He was a little worried as he walked over to Long Chen's side. Although Long Chen's face was a little pale, he discovered that nothing had happened to him. This made Mo Xiaolang even more shocked.

"Big brother, you've already reached a draw with me. Your improvement is simply too fast. I'm going to be left far behind by you in just a few days. "

"Come on, stop flattering me. It's very easy for me to be coaxed into the sky by your temper, haha." Long Chen said.

Mo Xiaolang laughed awkwardly, he knew that he was not flattering his, but speaking the truth.

"Big brother, with your strength, you should be about the same as Li Ziling. When us brothers join hands in that battle in the Ancient Era's Remnants, unless Yan Danqing and Li Ziling join hands, no one else could pose a threat to us." Mo Xiaolang said.

"That's true. We shouldn't have to be too careful. We still have time. I will first familiarize myself with this Thunder Flame Battle Physique for a few days, and when the time is up, we will return to the Source Spirit City. "

After arranging the time, the two chatted for a while longer before they prepared to cultivate. However, at this time, Long Chen and Mo Xiaolang both saw that in the direction of the Burning Sky Mountain Range, a magnificent ray of multicolored light had actually appeared, surging up into the sky and illuminating the night sky of the Desolate Beast Region.

The rainbow light quickly disappeared without a sound. If not for the fact that Long Chen and the others were here, they would not have noticed the multicolored light.

"What's going on?" Mo Xiaolang looked at Long Chen.

"If there is such a phenomenon, it should be related to treasures. Burning Sky Mountain Range seems to have some good stuff. Wolf, let's go in and search. "If we're lucky, haha, won't we brothers get rich?"

Since Long Chen had made this suggestion, Mo Xiaolang did not want to miss this rare opportunity, so he nodded his head.

"Burning Sky Mountain Range is very big, but I still remember the direction of the multicolored light just now. When we were almost there, we started searching." Long Chen walked in front.

"Big brother, do you think there will be any danger? I'm worried that the Ancient Era's Remnants will be delayed." Mo Xiaolang frowned.

"Wealth comes from danger. Be careful, it's fine." Long Chen laughed.

Mo Xiaolang nodded. In fact, he had a lot of adventurous thoughts in his head.

Very quickly, the two of them entered the pitch black Burning Sky Mountain Range. Compared to the last time they came here, the temperature inside the Burning Sky Mountain Range was much lower.

There was something strange going on in the Burning Sky Mountain Range, so Long Chen did not dare to be careless.

They weren't able to keep up with their speed at all. Soon, they arrived at the place where the multicolored light had just appeared. Long Chen could only confirm that it was this area, so he had no choice but to search carefully.

However, after searching for a while, Long Chen smelt a trace of the smell of the medicinal pellet.

"Big Brother, I think I know what's there now." Mo Xiaolang's face revealed an excited smile.

"Over here." His nose was more flexible. Long Chen followed him, and went in another direction. After walking quickly for a short while, Long Chen saw a patch of white light in front of him. Opening his eyes, he discovered that on the ground in front of him, there were actually two pellets.

On this pill, there was a power that Long Chen felt was familiar with. He recalled and immediately remembered that it was a power that belonged solely to the stars.

"It really is a Tianhe Dan!" Mo Xiaolang was pleasantly surprised.

"What is a Tianhe Dan?" Long Chen asked.

"Tianhe Dan is a strong practitioner of Milky Way Realm. They absorb the power of the stars and condense it into pills. Big brother, you probably don't know the cultivation process of the Milky Way Realm warriors, right? Because of this, it can increase the more tame star power. So, this Tianhe Dan, not only is it important to us Milky Way Realm practitioners, but it is even more important to us Profound Practitioners who are about to reach the Milky Way Realm. With the help of the Tianhe Dan, it is easier for us to reach the Milky Way Realm! "

"There's actually such a thing?" Long Chen was very unfamiliar with cultivating Milky Way Realm.

"Mn, a warrior of First level of the Milky Way Realm, with a month's time, can condense one Tianhe Dan, there are two Tianhe Dan here! There was also one more point, in fact, in the Biyang Royal City, the general currency was more Tianhe Dan, and divine jade were only the inferior cheap currency. So, you should know how important Tianhe Dan are right? "

How could Long Chen not know how important he was when he had already become a currency?

"Little Wolf, hurry up and bring these two Tianhe Dan to Milky Way Realm. We need to leave this place." Long Chen said decisively.

"No, we can share good and bad things together. I just need one, brother, your cultivation speed is fast, and your Milky Way Realm is just around the corner, even Tianhe Dan s are useful. " Mo Xiaolang insisted.

"Alright, let's put it away first." Long Chen knew that he was being stubborn. If he did not agree, he would not touch the Tianhe Dan. This Burning Sky Mountain Range was very strange, it would not be good if he delayed.

heaved a sigh of relief and kept the Tianhe Dan. While Long Chen was observing his surroundings, he acutely discovered that on the ground, there was actually a crack. This crack was extremely small, and if not for Long Chen deliberately searching for it, he would not have been discovered.

"Could it be that this Tianhe Dan flew out from the crevice, and the multicolored light just now also came out from the crevice, and now the crevice has closed again?" Long Chen thought.

He stomped his feet a few times and realized that the ground beneath him was extremely hard. It was even as hard as steel. It was impossible for it to be hollow.

"Big brother, what's wrong?" Mo Xiaolang felt that he was strange and asked.

Chapter 244 - Return of the King

"I think the Tianhe Dan and that multicolored light just now should have come out of this crevice. However, there are no movements in this crevice right now." Long Chen said, as he took out the green dragon halberd. The green dragon halberd contained a lot of power, and its material was also extremely sharp and sharp.

With a clank, Long Chen stabbed the green dragon halberd into the crevice. The ground here was actually as hard as steel, and although Long Chen did not use much strength, he could only pierce about twenty centimeters into the ground.

"Crack?" Mo Xiaolang also came over.

"From the sound of it, it seems like at least a hundred meters below the ground, there is this kind of hard soil. Just by using green dragon halberd s, he should not be able to dig much. However, I don't know if the sound will come again, but let's stay here for a while and see if we can find anything. " Long Chen said.

"Alright." Mo Xiaolang nodded.

They had originally planned to leave immediately after obtaining the items, but it was likely that there would be more Tianhe Dan s here. Therefore, even if Burning Sky Mountain Range was a little dangerous, Long Chen and Yue Yang decided to stay.

However, after an hour had passed, Mo Xiaolang suddenly let out a low cry, and hurriedly went over and asked: "What happened?"

"The crack just now has completely disappeared!" Mo Xiaolang said seriously.

Long Chen also looked carefully for a while, and sure enough, he had already disappeared. In other words, the ground here was constantly moving.

"Do you want to leave?" Mo Xiaolang asked.

"Let's wait and see." Long Chen thought about it and decided to do it.

Thus, they stayed in the Burning Sky Mountain Range for a while longer. By this time, Long Chen was already prepared to leave, but for him, the unexpected harvest of Tianhe Dan was considered a pleasant surprise.

However, just at this moment, another multicolored light appeared out of nowhere and disappeared in a flash.

The multicolored light appeared somewhere else, but it was still in the middle of Burning Sky Mountain Range. Long Chen and Mo Xiaolang looked at each other, then activated their speed and rushed towards the direction of the multicolored light. This time, they arrived much earlier, and when they arrived at their destination, the first thing they saw were three Tianhe Dan s glowing with a misty white light.

The crevice was right beside the Tianhe Dan, and when Long Chen saw it, it was still as wide as a palm. From the crevice, he could see that it was pitch black inside, and nothing could be seen.

However, Long Chen could feel that the crack continued to shrink at a speed visible to the naked eye. The speed at which it was shrinking was getting slower and slower, until it was only the size of a crack on his finger, he was no longer able to tell that the ground was actually shaking.

This time, other than obtaining three more Tianhe Dan, there were no other gains.

"Big Brother, do you think that there will be a lot of Tianhe Dan in that crevice?" Mo Xiaolang said.

"There should be a lot, but there is absolutely no other way. "This crack has already shrunk to the point where it's no longer there. Let's wait here and see if there's any more multicolored clouds." Long Chen said.

The Tianhe Dan must have come out from here, two just appeared, and now there are three. In other words, maybe there are an endless number of Tianhe Dan here, what kind of concept is that? As long as there were enough Tianhe Dan s, the two of them would definitely be able to cultivate their Milky Way Realm without any hindrance.

This was a huge opportunity, so Long Chen did not dare be negligent.

Just like this, they stayed in the Burning Sky Mountain Range for a total of ten days. Within ten days, they obtained a total of thirty-four Tianhe Dan. Tianhe Dan s were much more valuable than divine jade s. Even if there were only seventeen of them, in Source Spirit City, there were very few that were richer than Long Chen.

It must be known that even in the Azure Dragon Ancestor, it would take at least a year and a half to condense seventeen Tianhe Dan. Moreover, he still needed to cultivate using these Tianhe Dan, so it was possible that he wouldn't even have seventeen Tianhe Dan living.

He knew that there must be a lot more of these things inside the crevice of Burning Sky Mountain Range. But Long Chen had already tried several times, no matter what, he could not take out the Tianhe Dan from the crevice. Thus, he had no choice but to give up.

The multicolored light rays appeared more frequently a few days ago, but in the last few days, it would only appear once every two days. Furthermore, the number of Tianhe Dan that came out had greatly decreased, so on the tenth day, Long Chen decided to temporarily leave this place.

The battle in the Ancient Era's Remnants was about to begin, because they had already delayed too long on the matter of the Tianhe Dan. If they still did not return now, it would be a mistake, and for Long Chen, becoming a fairyland godly guard and obtaining the Nine Celestial Spirit Fruit was more important than anything.

"The secret of the Burning Sky Mountain Range can only be investigated after the Ancient Era's Remnants is finished. Hopefully, we won't be playing then. Wolf, let's go. " Long Chen said.

The two of them then headed towards the Great Desolate Mountain, where Long Chen's borrowed The Great Roc of the Gale was located.

"Oh, that's right. Do you know where that Ancient Era's Remnants are?" Long Chen asked as they were walking out of the Desolate Beast Domain.

"I don't know either. This ruin was discovered by the royal family and is temporarily kept a secret." is that they're afraid of people going there first to find out more information. " Mo Xiaolang said.

The The Great Roc of the Gale rose, and in the midst of the raging winds, Long Chen and Mo Xiaolang rose from the ground, heading straight in the direction of the Source Spirit City.

This time, there were two harvests. The first was naturally the Tianhe Dan, as it was extremely useful in entering Milky Way Realm. As for the other parts, they were Long Chen's level three Thunder Flame Battle Physique.

"Dongfang Xuanyu, you stinking woman, don't let this daddy catch you again, otherwise I will make you wish you were dead." Because of Dongfang Xuanyu, Long Chen almost lost his life, and this grievance was hidden deep in his heart.

"That's right, Little Wolf, how strong is that Ninth Prince?" Long Chen suddenly remembered.

"The princes of the imperial family usually have Milky Way Realm s and above. Although the Ninth Prince's reputation is not great, but in this insignificant Source Spirit City, there should be no one who is his match. His mission in coming to the Source Spirit City to recruit fairyland godly guard is actually not his main mission. Regarding this, Mo Xiaolang had analysed it thoroughly.

Long Chen was lost in thought as he looked at the white jade-like city in the sky. What kind of storm was waiting for him in such a beautiful city?

Riding on the The Great Roc of the Gale, Long Chen and Mo Xiaolang returned to the silver group. As soon as they returned, a cold girl smiled at them, her eyes full of concern.

"Xiao Lang, Long Chen, you're finally back. The ancestors have come by several times these few days, I can see that they are so anxious that their beards are raised." Yin Mengyao smiled faintly.

"Sister Meng Yao, what's the situation in Source Spirit City?" After sitting down in the pavilion, Long Chen asked directly.

"This morning, the patriarch of the clan, a few big mysterious elders, and outstanding disciples all went to welcome the arrival of the Ninth Prince. However, I heard that there will be a banquet tonight. Azure Dragon Ancestor said that you all will go look for him as soon as you come back, and you must also attend this banquet. "

"Imperial Jade Palace?" Long Chen and Mo Xiaolang only knew where the Imperial Jade Palace was.

"One month ago, the three powers of the Source Spirit City formed a joint venture to build this palace specifically for the Ninth Prince. I heard that the Imperial Jade Palace is filled with divine jade and jewels, and is much more luxurious than the buildings of our Lingwu Family. In order to please the Ninth Prince, the three great powers have paid a huge price this time, but, I heard that the Ninth Prince really likes this palace, and promised to come visit us often in the future. "

In less than a month, the Ninth Prince had come to the Source Spirit City and built a palace for him. It could be seen that even in a city far away from the Biyang Royal City, they were still intimidated by the royal family.

"This royal clan looks very scary. This enmity between the wolf cub and himself is not something that can be avenged easily." Long Chen thought of this.

"It's almost evening, you all better hurry up and go find Azure Dragon Ancestor. I can tell that your disappearance has caused him to become extremely nervous and his temper to become unstable." Yin Mengyao said worriedly.

Long Chen laughed coldly in his heart. This old fellow must not know that her daughter had already ordered someone to assassinate Long Chen. If she succeeded, Long Chen would never come back, and as for Mo Xiaolang, he would probably come back to kill.

"Little Wolf, let's go. Let's see what kind of tricks the ninth prince has that would actually cause the three great powers to bow and bow before him, as if they had seen their father." Long Chen mocked.

"Long Chen, you cannot speak carelessly in front of them." Yin Mengyao frowned.

"Don't worry, I know my limits."

After saying that, Long Chen and Mo Xiaolang went to the Dongfang family. However, Long Chen didn't go to the main hall, the Profound Wind Pavilion, but instead went straight to the Mysterious Rain

Pavilion. Right now, the Ancient Era's Remnants were about to open. The other members of the younger generation also stopped their training.

Here, Long Chen could feel Dongfang Xuanyu's aura, and when Long Chen entered, he suddenly rushed out, and upon seeing Long Chen, his face instantly changed greatly.

"What are you afraid of? Could it be that you have done something shameful?" Long Chen took a few steps forward, and said gloomily.

"What do you mean?" At the same time, she also knew that Long Chen had really taken away the Thunder Flame Crystal Soul. In the past, she wasn't a match for Long Chen, and now, she was even more so.

However, this was the Lingwu Family. She had someone to rely on, so she dared to not admit it.

"Don't play dumb in front of laozi, Dongfang Xuanyu, I spared you once, but you killed me completely, and that's what you found. I don't want to kill you right now, because I have more important things to do, but you better not let me grab the chance, otherwise, laozi will definitely make you regret coming to this world."

With that, Long Chen left.

Dongfang Xuanyu trembled as though he had fallen into an ice cave.

Chapter 245 - Primordial Emperor and Alliance Head Chen Xi

When Long Chen and Mo Xiaolang entered the Eastern Family household, Azure Dragon Ancestor quickly found out. The moment Long Chen walked out of the Mysterious Rain Pavilion, Azure Dragon Ancestor came right in front of him with a swoosh, looked at him with ice-cold eyes, and said: "What happened to Xuan Yu?"

"She's your daughter. What can I do to her?" Long Chen asked. In the Eastern Family, if he made a move on Dongfang Xuanyu, it was inevitable that he would lose all decorum with him. Therefore, for the sake of his next big plan, he decided to hold back.

"That's good. I heard you stole Li Ziling's Thunder Flame Crystal Soul? Long Chen, this time, because of your own selfish desire, you have ruined the good news for my Lingwu Family! " Azure Dragon Ancestor was very displeased with Long Chen's actions.

"Could it be that the Lingwu Family wanted to form an alliance with the Morning Star Merchant Union, but became hostile because of my relationship with him?" Long Chen could guess what Azure Dragon Ancestor was going to say.

"Your guess is right. For the sake of this alliance, the four of us made ample preparations, but in the end, you were the one who messed things up!" Azure Dragon Ancestor said.

It was she who told me that there were Thunder Flame Crystal Soul in Thunderfire Mountain Range, and she even sent people to assassinate me. If it wasn't for my presence of mind, I wouldn't be standing in front of you right now! Old ghost, let me tell you, if anything happens to me, my Master will definitely destroy your family at the first possible moment! "

When he talked about Li Xuanji, Azure Dragon Ancestor's face changed. Even when Long Chen called him an old ghost, he did not get angry.

After being silent for a while, he changed the topic and said: "Tonight, we are going to receive the Ninth Prince in the Imperial Jade Palace, and at the same time, all the young disciples that are going to enter the Ancient Era's Remnants are also going to attend. You guys stay here, and when the time comes, I will naturally come to receive you.

With that, Azure Dragon Ancestor left.

Long Chen and Mo Xiaolang looked at each other and nodded.

"I haven't seen anyone from the Imperial City in a long time." Mo Xiaolang lamented.

The night came quickly.

At this time, the most bustling place in the Source Spirit City was the newly established Imperial Jade Palace. It was extremely luxurious, and was the most expensive place in the entire Source Spirit City. However, the three powers did not even bat an eyelid when it came to spending money.

Source Spirit City was a remote power after all. Normally, very few people from the Imperial City would come here, but at this time, it was a good time to rope him in.

Inside Imperial Jade Palace, there were lanterns and festoons everywhere, the majority of the lights were from divine jade and precious stones. These lights were a little hazy, but it was filled with the concept of conception.

In the largest hall of the Imperial Jade Palace — Jade Emperor Hall — at this time, the three great forces were all gathered here. Long Chen and Mo Xiaolang stayed in the corner of the Lingwu Family's banquet, keeping a very low profile. To them, this banquet had no benefits other than meeting many legendary people.

Long Chen recognized most of the people on the side of the Lingwu Family. These two elders were seated at the same level as Azure Dragon Ancestor, and should be the legendary Vermillion Bird Ancestor and the White Tiger Ancestor. What was worth mentioning was that Vermillion Bird Ancestor was actually a girl, in terms of age, he was around the same age as Azure Dragon Ancestor and the rest, but because the girl paid more attention to the maintenance of his appearance, Vermillion Bird Ancestor's hair was black, his face was delicate, and he looked to be in his forties.

On the Morning Star Merchant Union's side, the leader was a stout old man. This old man's face was completely red, and his body was covered in round, plump flesh, looking as if he could fall with a single kick. However, Long Chen knew that this old fatty was also a Milky Way Realm warrior, and the leader of the Morning Star Merchant Union s at that. Morning Star Merchant Union had a total of two Milky Way Realm warriors, and one of them was the chief guest of the Merchant Union, who was also the old fatty's good friend for many years.

Long Chen and Li Qingling who Long Chen had seen before were both in the Morning Star Merchant Union.

On the other hand, Long Chen was more concerned with the Yuandi City. It could be said that they were the first Beast Fighters that Long Chen had ever truly seen, and they were even a group of people. From this group of people, one could see that they emitted a baleful aura and fierceness that belonged solely to demon beasts. When this group of people gathered together, it was like a group of demonic beasts were hibernating there. It caused one's scalp to go slightly numb, and one's eyes couldn't help but look over there obediently.

Long Chen knew that the number one ranker in the rumors in the Yuandi City was not the Four Ancestors of the Lingwu Family, nor was it the old fatty and the chief guest who were busy at dawn. The Primordial Emperor, this was the title of the boss of every Beast Soul Hall.

Long Chen saw this old man immediately. If the Beast Soul Hall was like a group of demonic beasts, then the Primordial Emperor was the leader of the demonic beasts. It instantly attracted the gazes of the others. This generation's Primordial Emperor was around the same age as the Azure Dragon Ancestor and the rest, but in reality, he looked just like Azure Dragon Ancestor's son, Dongfang Xuanfeng. His black hair, pitch-black eyes, and wrinkled face all showed that he still had a majestic life force.

"This person is indeed very strong. Even the aura of the Azure Dragon Ancestor cannot compare to his." When Long Chen first saw Primordial Emperor, his eyes seemed to have been pierced by the other party. He immediately turned his head away, not daring to look anymore.

"In Beast Soul Hall, there are usually three generations of people. The strongest in every generation would have their own titles, namely Primordial Emperor, King Yuan and Lord Yuan. The person who will be participating in the Ancient Era's Remnants with us this time around is none other than the Yuan Lord, Yan Danqing. Mo Xiaolang explained as he stood beside Long Chen's ear.

Only now did Long Chen notice the young man below Primordial Emperor. This young man was simply a young Primordial Emperor, he reckoned that after a few more days, he would be able to become an existence like the Primordial Emperor, but even now, he was already very terrifying, at least amongst the young generation of the Source Spirit City, he was ahead of everyone else.

When Long Chen looked at this Yuan Lord, the other party's gaze also turned in his direction, but in the end, it stopped on Mo Xiaolang's body. After meeting eyes with Mo Xiaolang for a while, his eyes flashed with a cold and fierce light. When the elders started to exchange greetings, he turned his head away, no longer looking at them.

"Little Wolf, it seems that he views you as his only opponent." Long Chen laughed.

"That's because he doesn't know how powerful my big brother is." Mo Xiaolang said.

"Incredible, you've only learned to flatter after following me for so long?" Long Chen mocked.

Mo Xiaolang was embarrassed, he did not know what to say. At this time, the heads of the Four Ancestor, the Azure Dragon Ancestor, the old fatty Li Wudi and the three people of Morning Star Merchant Union had already started fighting openly and secretly, opposing each other tit for tat.

"Brother Dongfang, I heard that a disciple called Long Chen came from your sect, and he's quite impressive. He directly snatched the Thunder Flame Crystal Soul away from me and Zi Ling'er's hands, and even injured Qing Ling?" The old fatty Li Wudi squinted his eyes, and immediately attacked the Azure Dragon Ancestor.

Not many people knew about this matter, so when Li Wudi said it out, everyone used surprised gazes to search for Long Chen who was in the corner. Some experts, upon discovering that Long Chen had only just entered Heavenly Core, were immediately speechless, even Primordial Emperor had been scrutinizing Long Chen for a while.

With Long Chen's mess, the Azure Dragon Ancestor was truly not easy to deal with. Without any pressure, Long Chen directly answered in place of the Azure Dragon Ancestor: "A genius' treasure naturally belongs to the skilled, so as to not disgrace its value. With this, the Alliance Master should know more about this simple truth than me, even if it is the inheritance of the Ancient Era's Remnants, isn't it still a skill expert right?"

Long Chen was extremely daring, it was not his turn to speak on this occasion. Not only did he say it, he said it so boldly and righteously, to the point that Li Wudi did not know how to reply. He could only laugh, and his fat twitched as he said, "What a sharp tongued kid. His brain is extremely sharp, and yet he knows the true skills in his hands?"

"Not bad." Long Chen said humbly.

His decisive reply truly made people vomit blood.

At this time, Li Ziling finally could not take it anymore. With a whoa, she stood up from her seat, pointed at Long Chen and said, "Bastard! Furthermore, you sneaked an attack on my brother to threaten me. You did such a despicable and shameless thing, and you actually dare to act so brazenly, it is truly excessive. If you have the guts, then fight with me right now, and see who the true expert is! "

Li Ziling's personality was always more direct, and these words made everyone look at Long Chen, wanting to know how he would respond. It had to be known that it was quite embarrassing for a man to be called a coward by a woman.

However, Long Chen was completely unafraid, and laughed loudly: "Miss Zi Ling, your words are strange, do I have any seed? I can't test it out here, but I can only test it if I go to bed. Could it be that the young lady wants to give the young one a chance to get intimate with him? "

With just one sentence, Long Chen was able to easily avoid Li Ziling's question, and at the same time, teased the other party. Everyone truly admired him to the extreme. However, this sentence angered the people of Morning Star Merchant Union.

"Shut up, Long Chen!" Before the people of Morning Star Merchant Union had erupted into rage, the Azure Dragon Ancestor had already shouted at Long Chen. Long Chen laughed indifferently, then sat down. At this time, other than Li Wudi, many other people from the Morning Star Merchant Union stood up and looked in the direction of the Lingwu Family with ice-cold eyes. Everyone knew that the relationship that Lingwu Family and her group had painstakingly built had completely broken apart.

"Long Chen." Li Ziling was so angry that her face turned green, her entire body trembled. She stared at Long Chen and gnashed her teeth: "You humiliated me today, I will definitely kill you in the future. With your blood and flesh, I will wash away the humiliation you gave me today!"

The killing intent in her eyes silenced the others when they saw it.

"No matter how big it is, it wasn't publicly raping you." Long Chen rolled his eyes and muttered. This woman was too arrogant.

Seeing that the conflict was still continuing, Mo Xiaolang pulled Long Chen and whispered: "Don't talk, the ninth prince is here."

Chapter 246 - Ninth Prince

Hearing the Ninth Prince's arrival, Long Chen, who was cursing happily, shut his mouth. He was a smart guy, and knew who he could afford to offend now. Who couldn't afford to offend him, with the Lingwu Family supporting him, Long Chen could be proud of Li Ziling, but he didn't dare to offend the Ninth Prince, who was the big shot of Biyang Royal City.

Hearing the sound, Li Ziling, who had been angered to the point that his face turned green by Long Chen, was also pulled down by Li Wudi who was sitting beside him. Seeing that Li Ziling was still angry, he said softly, "Zi Ling'er, you have to learn how to endure. Rather than bickering here, it would be better to plot how one would end up in such a state in the Ancient Era's Remnants. "

"Grandfather, I understand, I want to kill him there. If not for the fact that my Zhen Qi is exhausted, even a hundred Long Chen's wouldn't be my opponent." Li Ziling calmed his mood and said.

"You are one of the top three rankings among the young generation of Source Spirit City, why do you keep getting angry at small fries? Remember, Yan Danqing and that Mo Xiaolang are your match, don't give up on the basics." Li Wudi said.

"Yes, father taught him a lesson."

Hearing that, Li Wudi laughed with gratitude, then followed the crowd's gaze, and looked in the direction of the Jade Emperor Hall. At this time, two human figures were already walking in from the depths of the hall, and the Imperial Jade Palace was brightly lit, so everyone could very quickly see the appearance of the person.

Long Chen also carefully sized up the two people. The person behind him was completely cloaked in black. His black hair, mixed with his white hair, was neatly combed and tied into a bundle. He was walking behind with a bowed body, obviously showing off the identity of the person in front. Long Chen guessed that the black-robed old man should be someone like a butler.

And the man in front of Long Chen, shocked him. It was a man around twenty years old, dressed in luxurious black and white silk clothing. He had a tall nose and eyebrows that were like swords, and a face like white jade. He looked dignified and handsome, and his appearance was not one bit inferior to Dongfang Xuanxiao's.

Long Chen was unable to describe his temperament. In his eyes, in his fingers, and in Long Chen's eyes, there was one thing that he could see, and that was the sword. This man was like a sharp sword that revealed its edge. As he walked over from afar, even though he was restraining himself, the sword Qis were still shooting out in all directions, causing everyone to feel a little numb on their skin.

"Sword Qi, he looks like a person formed from sword Qi." Long Chen's heart was filled with shock. It was obvious that this Ninth Prince was definitely an expert in Milky Way Realm, and she wasn't any weaker than the strongest Primordial Emperor present.

"They are indeed people from the Biyang Royal City. Compared to the Source Spirit City, they are on a higher level." Long Chen thought. The feeling he had when facing the Ninth Prince was just like when Long Chen was facing the strong warriors of the Source Spirit City back in White Yang Town. This filled his heart with reverence. Before he had enough power to stand on equal footing with the other, he chose to keep a low profile.

As soon as the ninth prince arrived, he sat down in his seat of honor. He maintained a smile on his face the entire time as he glanced at the crowd. At this time, he completely retracted the sword qi on his

body, making his gaze seem as harmonious as spring. Those two eyes were like the most beautiful stars in the night sky. Some of the young girls felt like they were floating when they were gazed upon.

"We greet the ninth prince!"

Everyone reacted and quickly left their seats, saluting the Ninth Prince while lowering their heads and shouting.

In the midst of the crowd, Long Chen also mimicked his movements, he was extremely proficient, but he realized that Mo Xiaolang, who was beside him, had become somewhat stiff. It seemed that he had a grudge against anyone in the royal family. Although this ninth prince had nothing to do with the destruction of his family, the royal bloodline still flowed through him.

"Everyone, please take your seats. There is no need to be courteous to me." The ninth prince looked around and said with a smile. His smile was like the spring wind, causing others to feel a sense of familiarity with him.

At the same time Long Chen sat down, he secretly sized up the Ninth Prince.

"When this guy first came here, he intentionally revealed a bit of his strength to intimidate us. Now, however, he is so intimate with us." When this guy first came here, he intentionally revealed a bit of his strength to intimidate us. I want to become the fairyland godly guard, so I have the greatest relationship with him. So no matter what, I have to pretend to be his grandson and build a good relationship with him. " Long Chen planned in his heart.

Even if it was in the face of Mo Xiaolang, Long Chen still did not have such a cautious feeling. The pressure the other party was giving him was simply too great.

"Little Wolf was also much stronger than me in the past, and now he is my best brother. If this Ninth Prince is not a heartless person, I can try to climb this big backer mountain."

While Long Chen was secretly calculating these things in his heart, Azure Dragon Ancestor and the rest had already begun greeting the Ninth Prince. The grand banquet officially began, and countless of fine delicacies were placed in front of them, but they were not used to it, as they watched the big heads of the three forces happily chatting and drinking with the Ninth Prince.

As everyone forced a smile on their faces and looked at the ninth prince, time slowly passed. At this time, Azure Dragon Ancestor and the Ninth Prince were happily chatting, regardless of whether it was

Azure Dragon Ancestor, Li Wudi, or even Primordial Emperor, when they called him Ninth Prince, they all called him Your Highness. At this time, the Ninth Prince was displeased, and said: "You three, in terms of age, you are all my seniors, and this place is also not Biyang Royal City.

"No, no, the etiquette cannot be wasted. Ninth Prince, if Sword Emperor knows that we are calling you by that, we will definitely lose our heads." Azure Dragon Ancestor hurriedly said.

"Brother Dongfang is right. This is far from appropriate." Li Wudi said quickly.

"Since both of you have said so, I will not force you. Hur Hur, it is already late, and the banquet should be over. I am very satisfied with your hospitality today." Lin Cangtian laughed faintly.

"Source Spirit City, this poor place, simply doesn't have anything good to offer. I just don't think that I would be able to receive enough guests." Li Wudi from the Morning Star Merchant Union said while laughing.

"Chief Li is being modest." At this time, he suddenly thought of something and asked the Azure Dragon Ancestor: "Dongfang family head, when I was young, I came to Source Spirit City once. At that time, there seemed to be a guy called Jin something, it is very pleasing, I wonder where he is now?"

When he had come to the Source Spirit City, Ninth Prince Lin Cangtian had purely come to seek refuge. At that time, he was still a relatively destitute prince, but it was different now. Even though it couldn't be considered as peak, Lin Cangtian still had some power in the Biyang Royal City.

This was the first time Lin Cangtian tasted a woman, so of course he had some feelings towards her. However, after he went back to the Biyang Royal City, he gradually grew older and forgot about this small matter. This time, when he came to the Source Spirit City, he suddenly remembered and casually asked.

The people of the Dongfang family knew a lot about this matter, but they didn't take it seriously. And this time, when Long Chen was going to the Thunderfire Mountain Range, Dongfang Xuanyu suddenly remembered something. She called Jin Luan and Chu Tianxiong over, precisely thinking, if they can't even kill Long Chen with that Scarlet Flame Symbol, then let the Ninth Prince deal with him. This way, wouldn't Long Chen die?

Very few people knew what happened, but everyone present knew that Long Chen had already killed Jin Luan.

Ninth Prince Lin Cangtian asked casually, only to find that it was completely silent. Everyone looked at each other, and he lost all interest as he said: "Do you all not know? "I think I remember wrongly. Maybe he died." After he finished speaking, he didn't care about it anymore.

However, when Long Chen became alert, he felt that something was amiss. Because just now, Azure Dragon Ancestor and the others had all glanced at him. And at this time, Li Ziling, who was facing him, had a surprised look in her eyes, and hurriedly said to the Ninth Prince: "Your Highness, I know who you're talking about. He's Jin Luan, the Supreme Elder of Lingwu Family.

When Li Ziling's words came out, everyone inhaled a breath of cold air and looked at Long Chen with eyes of pity. In their opinion, the people who knew of the existence of the Ninth Prince in her memories were actually killed by Long Chen, and this time, Long Chen was definitely going to die.

Long Chen was baffled at first, but he quickly realized that the person the Ninth Prince was talking about was Jin Luan. This matter was far beyond his expectations, he never thought that Jin Luan would actually have a relationship with the Ninth Prince. This matter was not good ...

Seeing everyone's strange expressions, Mo Xiaolang knew that something was wrong. On the table, he had only grabbed Long Chen's arm, and it was obvious that he was also very nervous. If the ninth prince were to make his move, then tonight would be a life and death battle for them.

It was very likely that he would just die.

After Li Ziling finished speaking, she looked coldly at Long Chen with a vengeful smile.

Everyone was looking at Long Chen. This time, the Ninth Prince did not need to ask to know who Long Chen was.

Long Chen's heart rose to his throat, waiting for this man who was looking at him with interest to give him the final judgement. He thought that he had already dealt with the killing intent Dongfang Xuanyu gave him. He never thought that this woman would have such a killing move, hiding in the back.

"Haha ..." The Ninth Prince suddenly laughed, patted on the armrest of his chair, and said: "You were able to kill Great Perfection of the Heavenly Core when you just entered the Heavenly Core. This kid is not bad, I'm looking forward to your performance in Burning Sky Secret Realm."

After which, he stood up, turned around gracefully, and with a slight movement of his feet, disappeared from the Jade Emperor Palace.

Everyone looked at each other, sighing at Long Chen's good luck. Long Chen had survived the disaster, there were few who were happy for him, but they were very dejected and even more angry. Li Ziling originally thought that Long Chen was definitely going to die, but she did not expect that his fist would hit empty air, which made her very upset.

After easily overcoming this hurdle, countless questions remained in Long Chen's heart. Logically speaking, he should've been an ant in his eyes, so why didn't he kill him?

Also, Burning Sky Secret Realm, is this the name of the Ancient Era's Remnants?

Chapter 247 - Burning Sky Secret Realm

The banquet to entertain the Ninth Prince ended after the Ninth Prince left. Long Chen returned to the Lingwu Family with an apprehensive mood. As for the question as to why the Ninth Prince didn't attack him, he had thought it through. This Ninth Prince should be taking the pro-He route, since he had just arrived in Source Spirit City, he was not suitable to kill anyone, which was why Long Chen was able to escape this calamity.

However, Long Chen had already made a decision on how to deal with the Dongfang Xuanyu who was plotting against him, it was just that the Burning Sky Secret Realm was about to open the day after tomorrow, so Long Chen knew what was important and what was not, thus he decided to put this hatred aside for the time being and concentrate on the fight for the Burning Sky Secret Realm's inheritance.

However, the name Burning Sky Secret Realm made Long Chen a little suspicious.

"Burning Sky Secret Realm, do you know where it is?" On the way back to the Lingwu Family, Long Chen asked.

"The name of this Ancient Era's Remnants was only publicly announced earlier. How would I know where it is?" Azure Dragon Ancestor said. Looking at Long Chen, he thought about Dongfang Xuanyu's

matter and frowned: "Long Chen, I know that Xuan Yu has gone too far this time, but you are fine. On the account that Lingwu Family is still treating you well, can you spare her?"

"How can a man care about such a thing?" Long Chen laughed heartily, then called out to Mo Xiaolang and headed in the direction of silver group, leaving the rest of the Lingwu Family people behind.

Long Chen agreed so readily, which surprised everyone else. Patriarch Xuanwu frowned, and said: "Big bro, I don't think this brat is that magnanimous. I think he is trying to find an opportunity to make a move."

"So what? He is protected by that mysterious woman, and Mo Xiaolang seems to be the leader as well. How can we deal with him? " Azure Dragon Ancestor was a little helpless.

When that mysterious woman was mentioned, the crowd felt a little helpless.

At this time, Beitang Mo asked, "What woman? It should have been a long time since he appeared. Long Chen had said that she was his master, so he should be his master right? Grandfather, maybe he's trying to trick us again? "

When Beitang Mo said this, everyone thought that it was possible. However, before Burning Sky Secret Realm opened, they did not have the guts to try and see if it was true.

"We will not deal with Long Chen first, let him work for us in the Burning Sky Secret Realm. If you want to kill him, go ahead and kill him for the Beast Soul Hall and the people in the Morning Star Merchant Union. To use a blade to kill a person, that is the highest level of cultivation. " The Azure Dragon Ancestor said meaningfully.

Beitang Mo and Dongfang Tian Chen who were at the side looked at each other. They felt a little helpless towards their elders' caution.

"The day after tomorrow, the Burning Sky Secret Realm will begin. At that time, it will be filled with countless exciting battles, and if I go back, I will have a good rest, recover my strength, and bring glory to my Lingwu Family!"

"Big Brother, I feel that there's something familiar about this Burning Sky Secret Realm." In the residence of the silver group, Mo Xiaolang rubbed his head as he asked puzzledly.

I have a middle grade Profound Rank offensive skill — — Burning Heaven Devil Yang Fist, obtained from the Burning Sky Mountain Range. Both the battle skill and the mountain range have the word 'Burning Heaven'. And a few days ago, we discovered an anomaly in the Burning Sky Mountain Range, so I speculated that this Burning Sky Secret Realm was obviously related to the Burning Sky Mountain Range. Long Chen said with a stern expression.

Hearing the name Burning Sky Secret Realm, Long Chen guessed it right.

"Hearing what you said, this Burning Sky Secret Realm should not be so simple. Even if we did not enter, we have already obtained thirty-four Tianhe Dan, not to mention how many are inside. " Mo Xiaolang's eyes revealed a look of reverence.

Just like Long Chen, he also urgently wished to be strong.

"En, you are right. Little Wolf, how do you feel after using this Tianhe Dan for the past few days?" Long Chen asked.

"I used one, it contained a lot of star power, but it was unable to help me open up the inner space of my body. I probably need a lot of Tianhe Dan to do it." Mo Xiaolang frowned.

"Alright, then we'll do our best to collect Tianhe Dan s and help you break through your Milky Way Realm!" Long Chen laughed.

"What about you?" Mo Xiaolang asked.

"Idiot, once you reach the Milky Way Realm, who could win against you? It was an easy task. I'll have as much as I want when the time comes. " Long Chen laughed.

After he finished speaking, he looked towards the direction of the White Poplar Town's Great Desolate Mountain.

The true great battle was about to begin.

Two days of time passed quickly. This morning, Long Chen and the other people who wanted to enter the Burning Sky Secret Realm were already arranged outside of the Imperial Jade Palace. The group was led by the Four Great Ancestor, while on the Morning Star Merchant Union's side, Li Wudi and the chief guest led the five young men and women to stand, and in the end, the Primordial Emperor led the eight young men and women to stand.

There were a total of 23 people, the Lingwu Family took 10 places, the Beast Soul Hall had 8, and the Morning Star Merchant Union had 5. This was also the difference in strength between the three great powers.

The battle was about to begin, and everyone's expression was solemn.

Long Chen could vaguely feel that there were two groups of people who hated him very much: Lingwu Family's Beitang Mo and Dongfang Tianchen. Other than them, there were also the five people from Morning Star Merchant Union.

"Looks like I'll have to fight them in the Burning Sky Secret Realm." Long Chen thought. After fusing with the Thunder Flame Crystal Soul, his strength had improved greatly. Compared to them, it would not be long before he would know who was stronger and who was weaker.

At this time, the Imperial Jade Palace suddenly let out a sharp cry from a demon beast. This sharp cry caused everyone to hear it and feel a sharp pain in their ears. All of them frowned. Just the sound of its roars was enough to make people feel uncomfortable. It was evident that this demonic beast was not weak.

This was not a Peng type demon beast, but its size was not much different from The Great Roc of the Gale. It had sharp claws, sharp teeth, and a body covered in scales. All of these indicated that this was a rather ferocious demon beast, who knows how many times stronger than the tame The Great Roc of the Gale.

"This Sculptor is at the ninth level of the Profound Ranked, it's extremely difficult to deal with. Even if it's me, it's extremely difficult to kill it." Mo Xiaolang frowned.

"This is the ninth prince's mount?" Long Chen asked.

"Probably."

To be able to tame a ninth level mystical beast as a mount, it could be seen how powerful the Ninth Prince was. This kind of person was something the current Long Chen could only look up to.

While they were talking, the Sculptor had already flown above them, releasing a series of roars from below, lowering its The Great Roc of the Gale, immediately trembling in fear. She didn't dare to move.

"Everyone, follow your destination in the Desolate Beast Domain." The ninth prince's clear voice resounded from the sky above.

"Yes sir!" The people from the three great forces immediately replied, then quickly sat on the back of The Great Roc of the Gale. Unfortunately, due to the Sculptor above, The Great Roc of the Gale simply did not dare to move.

"Useless trash." Azure Dragon Ancestor was so angry that he became anxious.

Seeing this scene, the Ninth Prince smiled lightly, then controlled the Sculptor and increased her speed. The The Great Roc of the Gale could finally linger far behind him.

In the midst of the howling winds, Long Chen patted Mo Xiaolang's shoulders and said: "Seems like our estimation was not wrong, Burning Sky Secret Realm is at Burning Sky Mountain Range."

Mo Xiaolang nodded.

"This is the opportunity for us brothers to rise up. Let's work hard and fight side by side!" Long Chen was filled with confidence.

"Yes, big brother."

As the wind howled, time slowly passed. The group of people were no longer at ease.

Hatred, competition, restlessness, etc. continued to surge within his heart.

Following the Sculptor in front of him, Long Chen indeed entered the Desolate Beast Domain. To the current Long Chen, this vast land no longer posed much of a threat.

"The Desolate Beast Region is the border of Canyang Kingdom. The demon beasts inside ranged from Yellow Rank Level One to Profound Rank Level Nine. At that time, I was alone and could only kill beasts one level higher than me. If I had an elder, I could also use a profound level nine demon beast as the source of a beast's soul, and was like Yan Danqing, who was able to truly use the abilities of the Beast Fighters. It was not like how I am now, even though I was only in the Beast Fighters, but was also able to fight like an ordinary warrior. " Mo Xiaolang laughed bitterly.

Long Chen thought of the first time he had entered the Desolate Beast Domain and how he was still scared to death. A Moon Devouring Demonic Wolf gave him goosebumps, but now, there were countless of beasts that were stronger than the Moon Devouring Demonic Wolf, he was no longer afraid.

"Burning Sky Secret Realm, you have two missions, which are actually to gather Tianhe Dan s and break through Milky Way Realm. The other mission is to condense the beast spirit of an Earth Rank beast?" Long Chen asked.

"Right." Mo Xiaolang nodded.

"If we can't get the soul of a high-rank earth class demon beast, even if you enter the Milky Way Realm, you will only be able to obtain a first rank Earth Stage demon beast if you die. Isn't that the same as now?" Long Chen frowned and asked.

"I have no other choice. Who is going to kill a demon beast of the eighth stage of Earth Stage Seven? However, if it is an Earth Rank Level 1 beast spirit, then I know that there is an Earth Rank Level 1 beast in the depths of this Desolate Beast Region, but it is not suitable for me. " Mo Xiaolang was a little troubled.

"Then let's go to the Burning Sky Secret Realm to try our luck. Maybe those beasts with high-rank earth class would suddenly die suddenly and be taken advantage of by us." Long Chen laughed.

"Looks like this is the only way." Mo Xiaolang laughed bitterly.

Just as he finished, the Burning Sky Mountain Range arrived.

Everyone dismounted from their mounts and looked at the black barren mountain range.

"This is the Burning Sky Secret Realm?" Everyone was at a loss.

"This is just the entrance." The Ninth Prince turned around and swept his eyes across the crowd, and said: "This Burning Sky Secret Realm, is the tomb of one of the strongest people in the The Devil Emperor of the Burning Heaven, and left behind his inheritance, whoever can obtain his inheritance, will be the victor, and the other will be the fairyland godly guard. "So, work hard!"

"Yes, ninth prince!" Everyone shouted in unison.

"The Devil Emperor of the Burning Heaven?" Long Chen thought, there must be some connection between the Burning Sky Secret Realm and the Mysterious Iron Plate. When he had comprehended the Burning Heaven Devil Yang Fist, the human face that had appeared on the flames, wouldn't that be the The Devil Emperor of the Burning Heaven?

Long Chen faintly felt that with that metal plate, he would have some advantages.

Chapter 248 - Perception

When Long Chen was searching for Tianhe Dan in the Burning Sky Mountain Range, he had already thought of all sorts of methods, but he was still unable to find the secret manual in the depths of the Burning Sky Mountain Range. And now, amidst everyone's anticipating gaze, the Ninth Prince, Lin Cangtian, was finally about to open the passage to the Burning Sky Secret Realm.

"This Burning Sky Secret Realm is a small Qiankun world, and the entrance is right in the middle of this Burning Sky Mountain Range. It requires a powerful attack to break open this entrance, so all of you should retreat." Lin Cangtian's clear and cold voice faintly resounded.

Hearing that, everyone retreated until they left Burning Sky Mountain Range. Long Chen was also in the crowd, he originally thought that the Ninth Prince would personally take action, but he didn't expect that the only person that would stay in Burning Sky Mountain Range would be the black-robed old man beside Lin Cangtian. From this, it could be seen that the black-robed old man was also a master with extraordinary cultivation, or at least his Milky Way Realm.

After everyone had retreated, they used their eyes to stare at the distant black-clothed old man. Although they were very far away, Long Chen could still feel the strong energy undulations from the old man's body. Long Chen believed that if he got any closer, he would be directly crushed to death by the pressure.

All of a sudden, a dark ray of light appeared in the old man's fist. This ray of light only flickered slightly at the start, and following the old man's movement, the black light suddenly exploded out, turning into a huge fist shadow and striking the ground with a speed that left no time for one to cover one's ears.

Rumble rumble rumble!

Suddenly, the entire ground started to tremble violently. The ground started to shake and huge rocks rolled everywhere, causing Long Chen and the others to almost lose their balance. In front of them, there was a thick cloud of dust that had instantly covered the area, drowning the old man in black. However, his powerful punch still caused the ground to tremble.

"It can actually shake the ground with a single punch!" Long Chen and Mo Xiaolang looked at each other, their hearts filled with shock. It was only from his actions that Long Chen truly felt the power of the Biyang Royal City.

"Little Wolf, what level do you think the black-clothed old man's strength is at?" Long Chen asked in a low voice.

"At least, my 4th level of the Milky Way Realm." Mo Xiaolang said powerlessly.

For the current him, if he wanted to take revenge against the Biyang Royal City's most powerful royal family, the difficulty could be imagined.

At this time, the dust had already completely dispersed and the black-robed old man had already appeared in front of Lin Cangtian, bowing as he said, "Your Highness, the Burning Sky Secret Realm's passageway has already been opened."

"Mm, well done." Lin Cangtian nodded, then turned to look at the strongest experts of the three great forces, and the twenty-three youths who were about to enter Burning Sky Secret Realm, and laughed: "Time's up, I won't waste time. This competition, we'll just treat it as an experiential learning, and the rules for this experiential learning is: There are no rules! You all can kill to your heart's content, fight to

their hearts' content. If I can see the result, it would be, whoever obtains the The Devil Emperor of the Burning Heaven's inheritance! "

"Yes sir!"

Under Lin Cangtian's lead, Long Chen and the others once again entered the Burning Sky Mountain Range. When they arrived at the place where the black clad old man had punched out earlier, they were shocked to discover that a vortex with a diameter of two meters had appeared on the ground in front of them. This vortex was entirely black, like a black lake.

No one would have thought that the entrance would turn out to be like this.

"The three big powers will split into three groups and enter the Burning Sky Secret Realm. This Burning Sky Secret Realm will send you to different places. After that, the entrance will close, and you all will have a total of ten days. After ten days, I will open the entrance again, and you will be able to feel the exit. So, you all have a total of ten days. If after ten days no one obtains the inheritance, then unfortunately, you all don't have a share of the fairyland godly guard spots. As for the struggle for the City Lord's Mansion, I'll think of another way. "

Long Chen secretly noted down Lin Cangtian's words.

Firstly, the first to enter the Burning Sky Secret Realm were the least number of Morning Star Merchant Union s, and under the escort of the Alliance Master Li Wudi, Li Ziling and the rest jumped into the vortex with red flames. From start to finish, Li Ziling did not even glance at Long Chen, but her expression remained ice-cold.

The second group were naturally the people from the Beast Soul Hall, and all eight disciples of the Beast Soul Hall were all from the Beast Fighters. However, other than Yan Danqing, the other people's cultivations were all relatively ordinary. However, it could be because of the demon beast's soul. Their auras were very violent, which showed that their combat strength was not low.

The Lingwu Family had the most people, and was ranked last, entering the Burning Sky Secret Realm. Amongst the ten people, they were split into two groups. Long Chen and Mo Xiaolang stood together and the others stood together, with no intention of walking together with Long Chen at all.

"Long Chen, Mo Xiaolang, don't forget what you two should do. After entering the Burning Sky Secret Realm, you must cooperate with the actions of Tian Chen!" Before entering the Burning Sky Secret Realm, the Azure Dragon Ancestor reminded him with a cold voice.

"I would like to, but your grandsons rather despise us." Long Chen said in a strange tone.

"Don't worry about that, I've already spoken to them about it. Let's move out together and take care of each other." Azure Dragon Ancestor said.

Long Chen trusted him for now. He looked at Dong Fang Tian Chen, Beitang Mo and the others, only to see them looking at him with cold eyes. Long Chen laughed coldly in his heart, and did not say anymore. As for Dong Fang Tian Chen and the rest, under the urging of their elders, they hurriedly jumped into the Burning Sky Secret Realm.

All the disciples of the younger generation had entered the Burning Sky Secret Realm and the place had instantly become empty. Lin Cangtian waved his hand and said, "Go back first. Ten days later, it will be the time to witness a miracle."

Finishing his words, he called over the Profound Rank level nine beast, Sculptor, and soared into the sky.

On top of the Sculptor, the black clad old man sat next to Lin Cangtian, and said: "Your Highness, isn't this going too far? The Imperial City has never lacked fairyland godly guards and recruiting from this small place is just to increase the enthusiasm of the young disciples that cultivate here.

"You don't understand. Recently, the Imperial City has been in a state of chaos. It is a good thing for me to come here to recuperate and avoid all these troubles." Furthermore, although this Burning Sky Secret Realm is a small ruin, there is one thing that I am more interested in. If I rest here, they can help me get it, wouldn't that be great news?" Lin Cangtian laughed faintly.

"What is it?"

"This Burning Sky Secret Realm was found on a map during one of my training sessions. The map shows that this place is the inheritance of the Middle Paleogene martial artist that left behind, but I think that this guy is at most at the seventh or eighth rank of the Earth Realm. She dares to call herself an Emperor, it is extremely laughable, but, he does have a good thing."

Lin Cangtian paused for a moment, before continuing: "According to the map, the The Devil Emperor of the Burning Heaven's legacy, including a considerable number of Tianhe Dan, will be followed by a defensive combat skill of the same Earth Stage Medium, called the — Nine Revolving Fire Shield."

"These two things alone are probably not enough to make Your Highness interested enough to make a special trip to the Source Spirit City, right? May I know what is the treasure that Your Highness has mentioned before? " The black-clothed old man asked.

"This is a battle skill with the same high-rank earth class, it belongs to the sacred art category, the name is — — divine fire clone. Cultivating this divine fire clone, is able to condense true energy outside of one's body and form a fire clone, the battle power of this fire clone depends on one's own battle strength, the stronger one is, the stronger the condensed divine fire clone, and the number will also increase. If I can get my hands on this divine fire clone, my strength will naturally improve greatly!" Lin Cangtian said with respect.

"Since that's the case, why didn't Your Highness enter the Burning Sky Secret Realm yourself? That way, it would be safer." The old man in black was puzzled.

"I also wanted to, but this The Devil Emperor of the Burning Heaven is probably a powerful being from a small place like the Source Spirit City. He left behind the inheritance, probably to nurture the young generation, when laying down the ruins, he set up the seal of the Middle Paleogene, I am currently in the Milky Way Realm, if I enter this Burning Sky Secret Realm, the secret scripture will definitely crumble, and my plan will fail."

"So that's how it is. Since this is the case, it doesn't take much time to complete the memorial. His Highness' plan is indeed marvelous." Towards this master of his, the black-clothed old man felt sincere satisfaction.

He had been suspicious of the Burning Sky Secret Realm for a long time, but now that Lin Cangtian said it, he finally understood.

"Old Yan, did you discover something?" Lin Cangtian suddenly said.

"What is it?" The black-clothed elder was stunned.

"I lack a trusted aide, a true confidant. A person willing to work hard for me." Lin Cangtian said indifferently.

"Your Highness, I'm willing to go through fire and water for you. Could it be that I'm not considered a trusted aide?" The black-clothed elder said frantically.

"That's not what I meant, you are my most capable left arm and right shoulder, I am referring to my peers." There seem to be quite a few young experts who have gathered around Big Brother and Fourth Brother. Furthermore, none of them are weaker than me. " Lin Cangtian lamented.

"That's true. Your Highness is still young and inexperienced, and has only recently risen to prominence. How about the other two princes, they've already been ingrained in the Imperial City and have established a great power." The black-clothed elder said.

"Old Yan, you should have read about Long Chen. In half a year's time, this guy must be a heaven warping talent to be able to shine with such brilliance when necessary, from the moment he lost all his strength to the time he entered the Heavenly Core. " Lin Cangtian laughed, and a faint smile appeared on his face.

"Long Chen?" The black-clothed elder was a bit dazed, asking, "Is this the reason why His Highness spared him?"

He was talking about Jin Luan.

"Old Yan, are you looking down on me? Jin Luan, such an insignificant character, do you really need me to avenge him? As for Long Chen, let's see how his performance in the Burning Sky Secret Realm is. If he can obtain the inheritance, I don't mind giving him a great fortune! "

Lin Cangtian said as he turned his head to look in the direction of the Burning Sky Secret Realm. In the sky far away, a few The Great Roc of the Gale s were flying at the same time maintaining a distance from the Sculptor.

"I'll also give him a path of no return, haha!" Lin Cangtian added.

Chapter 249 - Killing the Inner Race disciple

Hot.

This was the only feeling that Long Chen had. After entering the black vortex, he could feel a flame wrapped around him. The temperature of this flame was not low. If he had not used his true energy to protect himself in time, he might have been burnt by this flame.

He felt as if he was swimming in a sea of flames. It was a very uncomfortable feeling, but luckily, the burning sensation soon disappeared. However, the temperature around him was still quite high.

When Long Chen opened his eyes, he was shocked to find that he was standing on a piece of black soil. This land looked like charcoal, almost the same as the Burning Sky Mountain Range's land, but it was even harder.

The only difference between this place and the Burning Sky Mountain Range was that the temperature here was several times higher.

When Long Chen opened his eyes, he discovered that he was surrounded by flames. These flames were not only irregular, but also had their own colors, and the most common type was naturally red. Clusters of flames were like flowers blooming on the black ground, and there were even flames connecting together to form a wall of flames, blocking Long Chen and the others' line of sight and path.

Such a dense cluster of flames was basically unable to find any open space within a three meter radius. When each flame was ignited, it basically reached a height of more than two meters. Walking here, everyone had no choice but to be cautious. This was the Burning Sky Secret Realm.

Long Chen first saw these flames, then saw the similarly shocked Mo Xiaolang at the side. In the end, he saw that the other eight people of the Lingwu Family were approximately at the same location as them. As for the Beast Soul Hall and her team, no one knew where they went.

Here, no one had any sense of direction, so for a moment, Long Chen didn't know which direction he should head in.

"Big Brother, we're going to be with them?" Mo Xiaolang tried to test the waters.

"You don't mind the trouble. "Let's go." Long Chen didn't have the slightest intention to fight alongside the Lingwu Family. Thus, after replying Mo Xiaolang, he found a direction and walked ahead by himself.

"Halt!" Just as he took a step forward, he saw eight people from the Lingwu Family had already surrounded him. Very quickly, the eight of them had already sealed off Long Chen and his route.

Amongst the eight of them, the three with earth-step divine weapons were the most powerful. As for Dong Fang Tian Chen and Dongfang Tianxuan, both of them had mastered Heavenly Core at an early stage, and their cultivation was not weak either. As for the rest of the Heavenly Core, they were purely for decoration.

"What do you mean?" Seeing that these fellows actually had the guts to stop him, Long Chen was a little surprised, but at the moment, he looked at them with interest, only to realize that their faces were somewhat gloomy and cold. It seems that the matter of surrounding Long Chen, had already been discussed beforehand before entering the Burning Sky Secret Realm, and it was possible that they did not get the consent of Azure Dragon Ancestor and the others.

"What do we mean? Long Chen, you claim to be extremely clever, but you still can't tell?" Dongfang Tian Chen took a step forward and said coldly.

"I really don't know about that. Could it be that you all want to make a move? You're pretty brave." Long Chen said. Honestly speaking, he really did not think that these fellows would plan to take action right after entering the Burning Sky Secret Realm. In reality, his and Mo Xiaolang's fighting strength, was already apparent to all. Even their Great Perfection of the Heavenly Core s were not a match for Long Chen, so there was no need to even mention Mo Xiaolang.

"Long Chen, others can bear to bear with the insults you have given us these few days, but we can't. Our Lingwu Family is the number one clan of the Source Spirit City, but we were ridden on the head by this scarecrow. Dong Fang Tian Chen said coldly.

"Right." At this moment, Beitang Mo also took a step forward and said: "The green dragon halberd belongs to our Lingwu Family, and only by killing you can Tian Chen obtain the green dragon halberd. We have united the Four Great Divine Weapons, so Yan Danqing and Li Ziling are not our match.

"You can't use it even if you have the green dragon halberd." Long Chen was really unable to understand these idiots.

"You are wrong, we can use it. We have to thank you for letting the green dragon halberd recognize you as master." Dong Fang Tian Chen laughed coldly, "I just happened to know that my halberd's owner's zhenqi would condense into a seed of zhenqi and plant it in my body, allowing me to use the green dragon halberd for at least ten days!"

Only then did Long Chen realize that these people were after the green dragon halberd. As long as they killed Long Chen, not only would they be able to get rid of the hatred in their hearts, they would also be able to rely on the power of the Four Great Divine Weapons to deal with Yan Danqing and Li Ziling. Although their elders forbade them from doing so, this method was very risky, but in order to wash away the shame and get the attention of the elders, they were willing to give it their all!

Long Chen and Mo Xiaolang looked at each other. They knew that the first battle of Burning Sky Secret Realm was about to begin with the young generation of Lingwu Family. Long Chen hated the Beitang Ink Burst into his bones. He had not avenged his grudge with the palm strike, but now was the right time!

"Little Wolf, make your move. Let them see how powerful we, the brothers, are!" Long Chen retreated a few steps, and laughed coldly. There was a creepy smell in the laughter.

"Yes, big brother, we'll fight side by side!" Mo Xiaolang was a little excited.

Seeing that Long Chen and Beitang were actually not afraid of death, Dongfang Tianhe and Beitang Mo looked at each other and shouted coldly: "Everyone else, stop Mo Xiaolang. We only need fifteen minutes to finish him off!"

Finished speaking, the two of them rushed towards Long Chen with killing intent mixed within, while the others rushed towards Mo Xiaolang.

"Wolf, leave some roots for them, don't kill them." Long Chen secretly instructed.

To him, Beitang Mo would definitely die, and because of the conflict with the green dragon halberd, Dongfang Tian Chen would definitely not let go. As for the others, their hatred towards Long Chen was actually relatively light.

After he finished speaking, Long Chen had already gone to face Beitang Mo and Dongfang Tian Chen alone. At this moment, Long Chen's attention was caught by Beitang Mo's weapon. Just the handle of the axe was more than two meters long, it was covered with a black tortoise shell, it looked extremely

hard, and on the head of the axe, there was a sinister looking axe, its sharpness was similar to that of green dragon halberd s.

This was the Beitang family's Earth Ranked Divine Weapon, Black Tortoise Axe. There was no difference in the strength of the Lingwu Family's Five Divine Weapons. When the Black Tortoise Axe was used, it could also increase its strength by almost the same as the green dragon halberd.

"Since you all want to obtain the green dragon halberd, then, I will use the green dragon halberd to show you all." With a flash, the green dragon halberd appeared in his hand.

At this time, the others had already surrounded Mo Xiaolang, so Mo Xiaolang listening to Long Chen was simply playing around with them with an extremely fast speed. If they were to make a move, at least those three fellows who had just entered the Heavenly Core would instantly lose their lives!

This way, Long Chen would be able to handle the two people in front of him with ease.

"Beitang Mo, you once hit me, today I will give you a halberd, you can resist, if you can take it, I will spare your life, as for Dongfang Tian Chen, it's fine if you want to obtain a green dragon halberd, if you can take it, I will give you the green dragon halberd!" Long Chen waved his green dragon halberd and rushed towards the two of them.

"How arrogant!"

"Just bragging!"

Beitang Mo and Dongfang Tian Chen didn't care about what Long Chen said at all. Since Long Chen wanted to decide the victor in one move, they didn't want to waste time either.

At this time, Beitang Mo grabbed onto the Black Tortoise Axe and pounced towards the sky, smashing down with a loud bang. It was as if a tall mountain had been smashed down, causing even the air to tremble, a black light blade suddenly transforming into a monster with a snake head and turtle body, pouncing towards Long Chen!

"Black Tortoise Tactic — Black Tortoise Appearance!"

It could be said that Beitang Mo, who possessed a Black Tortoise Axe, could completely defeat a warrior of Dongfang Xuanyu's level.

Although Dong Fang Tian Chen did not have any green dragon halberd, the halberd in his hands was also very extraordinary, at least much stronger than the Searing Sun Halberd that Dongfang Tianyu had used before. At this moment, he suddenly pounced towards Long Chen, waving his hand as countless green dragon silhouettes appeared around him. With a loud bellow, countless dragon silhouettes pierced towards Long Chen!

"Azure Dragon Battle Method — — Dragon Battle Star Field!"

This move made the corner of Long Chen's mouth curl into a faint smile.

"Dragon Battle Star Field? Let me show you what a real Dragon Battle Star Field looks like." His words were calm, but as the halberd danced, it caused the wind and clouds to howl, and suddenly rushed forward, even more green dragon silhouettes appeared beside him. The quality of this Dragon Battle Star Field, on the outside, was clearly much higher than the one used by Dongfang Tian Chen.

"How is this possible?" Long Chen did not even have much time to obtain the green dragon halberd, yet today, he had even used the Dragon Battle Star Field. It could be seen how heaven defying his talent in training was.

Furthermore, with this powerful Dragon Battle Star Field, countless halberds flew towards Beitang Mo and Dongfang Tian Chen. The fierce wind howled, and all the scarlet flames around them were extinguished!

Such a huge attack immediately caused everyone's expression to change. And the unexpectedly calm Dongfang Tian Chen and Beitang Mo, before such a suffocating attack, could only desperately push their true qi forward, wanting to fight Long Chen to the death!

"How can the strength of two of our Heavenly Core not be comparable to Long Chen, a mere beginner's Heavenly Core! The outcome was not certain yet! Maybe this guy is just a piece of silver lance wax. Thinking of this, although their hearts were very uneasy, the two of them still held onto hope.

However, when they truly fought with Long Chen, they still realised that they were too naive. The power of Long Chen's Dragon Battle Star Field was not something they could imagine.

Chapter 250 - Legends of Sun Devouring Demonic Wolf

"Brother!"

"Mo!"

"Tianchen!"

The six people who were blocking Mo Xiaolang all let out heart-tearing and lung-splitting screams. At this moment, their hearts were ice-cold, and they no longer cared about Mo Xiaolang, who was playing with them, and rushed towards Beitang Mo and Mo Yu.

In their eyes, Long Chen was like a vast tornado. The green dragon halberd continued to dance about madly, completely crushing Beitang Mo and Dong Fang Tian Chen's attacks, causing their faces to turn deathly pale as they enveloped their own halberds. This violent halberd light revolved around the two of them, and although there were still no bloody scenes occurring, everyone knew, they were not far off.

Sure enough, Long Chen suddenly stopped his attack and retreated a few steps, taking away the green dragon halberd.

From start to finish, he did not even use his most heaven-defying Dragon Soul Transformation skill.

Seeing Long Chen's cold expression, everyone in Lingwu Family knew that the odds were against them. At this time, Dongfang Tianhe and Beitang Mo were blankly standing in the distance. Their eyes were wide open, and their expressions were filled with disbelief.

Boring!

The Black Tortoise Axe fell to the ground and then bounced up quickly. It suddenly disappeared from everyone's field of vision. And because of the Black Tortoise Axe's vibrations, it could be seen that the chests of Dongfang Tianchen and Beitang Mo were gradually dyed with blood. A punctured wound had appeared on their hearts;

Beitang Mo, Dongfang Tianchen, dead!

When he had used the Yin Wind Poison Demon's Palm to beat Long Chen to death, Long Chen had already set a rule for him. As for Dongfang Tian Chen, because of the conflict with the green dragon halberd, as long as he died, Long Chen would be able to be at peace.

The remaining six people of the Lingwu Family watched this scene in a daze. Grief and regret completely submerged them at this moment.

To them, Long Chen was just like a demon. At that time, none of them had ever imagined that the reckless young man who they had just entered would be able to grow to such a terrifying level in such a short amount of time.

They all knew, that today's Long Chen, was not someone they could casually pinch anymore. Long Chen's strength, was completely qualified to press him down above their heads!

At this time, even the Black Tortoise Axe had escaped Beitang Mo's control, which meant that the two of them could not be any more dead.

"Remember, don't provoke me anymore. Otherwise, the two of you will end up like this." Long Chen said indifferently, and then called Mo Xiaolang and left.

Having lost the Beitang's Mo and Dongfang Tian Chen's Lingwu Family's forces, it could be said that they had completely lost their ability to fight for the inheritance. Of course, if Long Chen or Mo Xiaolang won, the City Lord's Mansion would also fall to the Lingwu Family s.

Watching Long Chen leave, their eyes were filled with pain, struggle, and even more so, fear.

"Big brother, if we kill them, aren't you afraid that the ancestor will cause trouble for you?" Mo Xiaolang asked.

"Then what should we do? If you don't intimidate them, they'll keep coming for you. Furthermore, Beitang Mo and I have a huge grudge, so I have no choice but to kill him! " Long Chen laughed bitterly.

"But it's fine, as long as you get the inheritance, you will be the one to be protected by the Ninth Prince. In the Source Spirit City, no one will be able to touch you." Mo Xiaolang said.

Long Chen understood this point. Thus, he knew that obtaining the inheritance was extremely important.

"This Burning Sky Secret Realm has no direction, where should we go?" Looking at this boundless and endless world, Long Chen felt a little depressed. This place was covered in black scorched earth and endless flames. There was no inheritance at all.

Mo Xiaolang also didn't have a way.

"How about this, there seems to be a slight difference in the density of these flames. Let's head towards the place with the densest concentration of flames." Long Chen pondered for a long time before he finally got a clue.

Mo Xiaolang naturally did not object.

Thus, they proceeded for about half an hour. The only thing they gained during this half hour was that they discovered that the degree of the flame's secret scripture had no fixed pattern at all. Some places were many, some places were few. This was normal.

"Looks like I guessed wrong." Long Chen was a little speechless.

"Big Brother, I feel the aura of a Moon Devouring Demonic Wolf." At this time, Mo Xiaolang suddenly said. Then, he began to follow the aura, moving forward through the black mountains.

"Moon Devouring Demonic Wolf? Are there Moon Devouring Demonic Wolf s here? " Finally, he met a living beast, and maybe there was an opportunity for him to do so. Long Chen quickly followed him.

Very quickly, they reached the bottom of the ravine. When the two peeked their heads out, they just happened to see about six demon beasts rushing over at the bottom of the ravine!

It was a tall wolf-shaped demon beast, and its entire body was covered in long silver hair. Under the faint moonlight, it looked very beautiful, and its light silver eyes had a dream-like glow in them, filling

this demon beast with a mysterious aura. However, the sharp fangs on the corner of its mouth, as well as its strong four limbs and sharp teeth, showed that it was also a ferocious creature.

"It really is a Moon Devouring Demonic Wolf." Long Chen and Mo Xiaolang had seen this demon beast before.

"Speaking of which, the Moon Devouring Demonic Wolf is a magical demon beast. Because it belongs to the devouring category of demon beasts, it has some abilities to advance, and the thing that the Moon Devouring Demonic Wolf devours is a bit strange." Mo Xiaolang muttered.

"Strange? Tell me about it?" Long Chen was very interested in this. His Blood Refinement Qi and Devouring Blood Realm were basically devourer type abilities.

"Moon Devouring Demonic Wolf, as its name implies, can swallow the moon, but this is obviously an exaggeration. In reality, Moon Devouring Demonic Wolf can absorb the moonlight very well, and from there, achieve the same goal as human cultivators. Generally speaking, Moon Devouring Demonic Wolf s are first rank Profound Rank when they mature, but as they age, some second or third rank Profound Rank or even fifth rank Moon Devouring Demonic Wolf will appear. This was the difference between them and other demonic beasts. Three Moon Devouring Demonic Wolf s have already reached the second level of the profound stage. " Mo Xiaolang explained.

"The strongest is at the fifth level of the Xuan class. Although it is mysterious, it is nothing to fear. It is a pity that the moonlight is weak. If it could devour something else, perhaps some powerful and heaven-defying existences would be born." Long Chen thought. Swallowing type of demon beasts were originally very rare, maybe in the entire Canyang Kingdom, there was only one kind of Moon Devouring Demonic Wolf.

When Long Chen was in the Desolate Beast Region, he had once killed a Star Demon Wolf, which had also absorbed starlight. However, it was different from the Moon Devouring Demonic Wolf, it devoured the moonlight and turned into demonic energy, whereas the Star Demon Wolf only absorbed starlight to strengthen its fur.

"The demon beast you're talking about isn't non-existent. I've only read about it in the ancient texts. It seems to have been extinct for a long time." Mo Xiaolang said.

"What demonic beast is that?" Long Chen was startled.

"It has a lot to do with the Moon Devouring Demonic Wolf. Its name is — Sun Devouring Demonic Wolf. As the name implies, it can swallow the sun's light. But it's not just that, it can absorb anything related to fire and turn them into its own demonic energy. According to the rumors, the Sun Devouring Demonic Wolf could theoretically grow to be the peak existence and there would be no end to it, but there have never been any records of it. " Speaking of the Sun Devouring Demonic Wolf, Mo Xiaolang was somewhat intrigued.

"Endless?" Long Chen sucked in a breath of cold air. If there really was something that could devour endlessly, then it would truly be heaven-defying. Fortunately, there were rules in this world, and it was impossible for such a heaven-defying existence to appear.

"Oh right, the Moon Devouring Demonic Wolf is at the first level of the profound stage, what level was this Sun Devouring Demonic Wolf at at at at the beginning?" Long Chen asked.

"According to the records, mature Sun Devouring Demonic Wolf should be at the first rank of Earth Stage. However, I heard that it's not impossible for one to grow their Ninth Grade Earth Grade. "

Long Chen nodded.

"Big Brother, that Moon Devouring Demonic Wolf was in a hurry just now. If we follow it, we might be able to discover something." Mo Xiaolang said.

Long Chen thought that it was true as well. Rather than walking around aimlessly here, he might as well try his luck. Thus, in the direction that the Moon Devouring Demonic Wolf disappeared in, Long Chen and Mo Xiaolang carefully chased after it.

They were faster than Moon Devouring Demonic Wolf. Not only was it seven and a half minutes, the butt of Moon Devouring Demonic Wolf appeared in front of them, and Long Chen and Yue Shan were hanging far away. However, not long after, he was shocked to discover that there were more and more Moon Devouring Demonic Wolf that appeared in the surroundings, and they were moving in the same direction.

In order to avoid attracting the attention of these Moon Devouring Demonic Wolf, Long Chen and Mo Xiaolang had no choice but to hide their bodies and carefully move forward.

"Big Brother, why do you say that there are so many Moon Devouring Demonic Wolf heading in the same direction?" Mo Xiaolang asked doubtfully.

"The way you look at them." Long Chen was a little excited when he thought of this possibility.

"What?" Mo Xiaolang could not see through his at all.

"In their eyes, there are two words hidden. Worship." Long Chen said directly without wasting any time. Then he said somewhat excitedly: "Little Wolf, I have a feeling that something that might shock us will appear in front of us and cause us Moon Devouring Demonic Wolf to worship. What do you think it will be?"

Hearing Long Chen's words, Mo Xiaolang's eyes lit up.

They continued to advance cautiously, the Moon Devouring Demonic Wolf in front grew bigger and bigger, at the moment there were already a thousand of them, densely packed and rumbling. They passed through the flames, howling unrestrainedly, rushing forward, grand and terrifying.

After approximately half an hour, Long Chen had already felt an aura that made him feel like he was suffocating.

At this time, all the Moon Devouring Demonic Wolf leapt high into the air and charged into a huge basin. Long Chen and Mo Xiaolang hurriedly hid themselves and carefully poked their heads out of the crevice.

At first glance, they saw that thousands of Moon Devouring Demonic Wolf had gathered in the huge basin. These Moon Devouring Demonic Wolf were lying on their knees on the ground with eyes full of worship and reverence as they looked at the center of the basin.

Long Chen and Mo Xiaolang looked towards the center. That place was the source of the immense pressure. When he saw the gigantic black figure, Mo Xiaolang cried out in alarm. Fortunately, he had covered his mouth in time, so he did not make any noise.

"Big Brother, Sun Devouring Demonic Wolf Devouring!"
