

War God 2411

Chapter 2411 - Death Crisis

If it was only the Tyrant Divine Emperor and Tengu's attacks, Long Chen estimated that with so many strong and elite people present, even if the opponent used all of his strength and used all of his ultimate abilities, he might not be able to break through Dragon City within a day!

The Celestial Slaughter Map was the enemy's most important target.

As long as the Celestial Slaughter Art was not broken, no matter how the battle outside, the human race would not lose, nor would they suffer any losses. After all, in this one on one situation, the opposing three clans experts could not do anything to the fifteen Dragon Emperor s.

Although Yang You failed to win, it was still rather difficult for these people to harm her!

Therefore, the turning point in this battle would always be the Dragon City that Long Chen was leading.

If it was only Tyrant Divine Emperor and Tengu alone, there naturally wouldn't be any problems.

However, after listening to the introductions of the elders, Long Chen understood that there was definitely a reason why Yi Xue had arranged this evil spirit beast here. He was of a different type than Tyrant Divine Emperor and Tengu.

In the black mist, the appearance of the Evil Spirit Beast gradually revealed itself. It was actually a purple bat with two heads. Its appearance was proof that the two heads were not the same size. One big and one small, one up and down.

"The Celestial Slaughter Map. Haha, it can stop everyone, but it can't stop us. "Sweetheart, don't you think so?"

The larger head let out a female voice as it giggled. The voice penetrated the Slaughter Heavenly Diagram and entered the Slaughter Dragon City. Although it was greatly reduced, the disgusting voice still made everyone feel uncomfortable.

"Yes, to us, the Celestial Slaughter Map is just an illusion. Originally, we had given you a chance, but you didn't know how to cherish it, and yet you still tried to resist us. That's why we had no choice but to follow the orders and grant you so many deaths."

This was a relatively small head, but its eyes were especially sharp.

Although it was one body, it actually had two minds and two primordial spirits!

This was one of the peak bloodline of the Monster race, the Evil Spirit Beast. To the vast majority of demon beasts, they were all nightmares.

In actuality, this body had a magnetic head to control it. It had a powerful physical body, and was no weaker than a Demon Lord like Tengu. As for the male's head, it was better at using techniques similar to the ancient Giant Demons. It's control over sound, primordial spirit, and other attacks!

They were specially sent by Yi Xue to attack the Celestial Slaughter Diagram, and they were the key to this battle!

Right now, the fifteen Dragon Emperor s were in an emergency battle. They wanted to take care of the other party and come back to help. In reality, everyone knew a little about the evil spirit beasts. Only when the purple two-headed bat appeared in front of everyone did they feel a sense of foreboding!

"This is bad!"

The moment he saw the change in the eyes of the male evil spirit beast, he knew that it had come prepared to destroy the Celestial Slaughter Art. Since they had already made such a plan, there was a high chance of success. Furthermore, at this time, Tengu and Tyrant Divine Emperor had an expression of anticipation.

They were all prepared!

Long Chen was still inside the Slaughter Heavenly Diagram, he could not resist at all for a short period of time!

"Everyone, defend!"

At this moment, the evil spirit beast charged forward. The female evil spirit beast controlled a pair of blade-like flesh wings, and the edge of the wings erupted with a purple blade light that slashed towards the Celestial Slaughter Diagram!

At the same time, the male evil spirit took a deep breath with a playful look in its eyes. Suddenly, it opened its mouth and let out a world-shaking screech!

This was an extremely sharp scream.

The sharp blade seemed to have become a blade that pierced through everything, even spreading throughout the entire Dragon God Domain. The other four Dragon Cities could basically hear this terrifying piercing cry!

The Dragon City, which was under the influence of the demonic beasts, suffered the most of the damage!

Although they had used all their might to block out more than 90% of the sounds with the Heaven Slaughter Diagram, the remaining 10% of the sound still pierced in. For most of the warriors who were only at Nirvana Tribulation Realm, this was a disaster!

Puff!

Countless people spat out blood from the shockwave of the sound and fell to the ground. Although they didn't die, they still suffered some injuries!

Half of the entire Dragon Slayer City had collapsed!

The remaining half also felt quite uncomfortable under the piercing sound. They couldn't display their true strength and sent their strength to the Celestial Slaughter Map!

Because of the existence of the evil spirit beasts, just the Demon Lord had caused severe damage to the entire Dragon City. This was not just a matter of injuries, but a serious blow to their confidence!

Under the barrage of the male evil spirit beasts and the attack of the female evil spirit beast's fleshy wings, the Celestial Slaughter Art was almost torn apart this time. The entire Celestial Slaughter Art had almost been completely shattered!

This was a terrifying reversal!

All of the humans were stunned. Even the fifteen Dragon Emperor s did not expect that this low profile Evil Spirit Beast would have such a special power!

The strongest defense line, if everyone still hadn't been able to stand up, would have nearly collapsed.

At this time, the evil spirit beasts were already preparing their next attack, while Tyrant Divine Emperor and Tengu were also preparing to attack. If there were no other changes, the Dragon City would be destroyed, countless humans would be killed, and today's battle was about to end!

Long Chen swept his gaze across them. Many people no longer had confidence!

In this critical moment, he would do his best to use the flame of his life to sweep through the entire city. He would help as many people as he could!

Everyone felt that their injuries were healing very quickly.

This was the godly effect of the Flame of Life.

Under the descent of the life flame, it was even easier for everyone to see Long Chen clearly. What they saw was that right now, Long Chen was looking at the sky, his burning hot eyes were looking at the Evil Spirit Beast!

So hot, so full of hatred! Such brutality!

This was an anger that he had hidden for a long time. It had erupted today. His heart had been filled with depression ever since he returned from the Sea God's Realm.

He saw the corpses and sea of blood that covered the sky. He saw his home destroyed, and he saw everyone leave their homes and come to this place.

What he wanted was nothing but peace in this world.

However, the archaic Giant Demons changed everything. They brought chaos to this world.

Wasn't the evil spirit in front of him a part of the ancient Giant Demons? In fact, all of their opponents were merely puppets.

They brought despair to the humankind time and time again.

Long Chen did not dare to say how much he loved this race. He only knew that, but when they met with a calamity, any ranker would have to step forward and bear this responsibility. This was also what his father expected of him!

Everyone could see the look in his eyes as if he was about to die!

Then, what everyone saw was him holding onto the hand of the woman beside him without any hesitation. As the opponent was preparing to continue his attack, he rushed out of the Celestial Slaughter Map!

His target was a terrifying evil spirit beast!

"Stand up, I'll block him!"

After the fire of life swept over, Long Chen's voice resonated in everyone's ears.

It was impossible to imagine just how powerful this voice was. Even though they knew that what Long Chen treasured the most was not his combat power but his potential for the future, they still incomparably trusted him and placed all their hopes on him.

That's right, as long as Long Chen could stop the evil spirit beasts, they would be able to recover more or less.

"Stand up! "Stand up!"

"Fight!" "Fight!"

It was as if everyone had awakened. They let out crazy roars as they once again channeled all of their power into the Celestial Slaughter Map at the first possible moment. The dark and dim Celestial Slaughter Map once again lit up under their violent support.

Then, with tears flowing down their faces and their blood boiling, they went to watch the fight between the two men! Just like last time, he went against the Sea Divine Emperor without hesitation in exchange for almost being killed. He was brave, but could he really block the evil spirit beasts?

Fortunately, at this time, Long Chen had decided to leave the protection of the Slaughter Heavenly Diagram, and contributed his life and all of his hot blood to the beast, blocking its path.

The most precious thing was that Ling Xi actually came out with him.

Hand in hand, they were a pair of lovers. There was no need to be brave. That scene had inspired countless people and was deeply rooted in the minds of many.

They didn't know whether Long Chen would be able to survive or not.

They only knew that if Long Chen were to stop the Evil Spirit Beast for a period of time, even the Celestial Slaughter Art would be breached, then they would have let Long Chen down.

"So it's you little thing!"

The female evil spirit couldn't help but laugh.

"How interesting, you two, do you want to deal with us?" Seeing that you two are a pair, let me give you one last piece of advice. Get out of the way, or else, you will die! "

Tyrant Divine Emperor and Tengu didn't think that Long Chen could stop the evil spirit beasts. They went ahead and attacked the Slaughter Heavenly Map themselves, since they believed that these humans were more or less capable of doing so after receiving such a heavy blow.

However, what left them speechless was that these fellows were actually so tough, so tough that they could make people explode!

"Evil spirit beasts, stop messing around. Don't forget your mission!"

Tengu turned back and bellowed.

The evil spirit beasts weren't stronger than them. They just happened to restrain the Celestial Slaughter Art.

"Alright, I'll send them back to the West."

The female Evil Spirit Beast's huge body charged forward, completely ignoring Long Chen.

"Xiao Xi."

At this time, Long Chen had already used three lifetimes of love to connect with her. From now on, they were one entity. The connection between them was even closer than that of the male and female evil spirit beasts!

Ling Xi's eyes were also filled with hatred!

"Revolving Star Passage Technique!"

Chapter 2412 - Regenerative Shock

Moreover, the Evil Spirit Beast had never placed Long Chen and Yue Yang in their eyes before. The only one who had suffered three life and death situations was Sea Divine Emperor, but he was still clear-headed now.

When the evil spirit beasts attacked, a circular array appeared in front of them. They crashed into the vortex of the array and disappeared in the blink of an eye.

For a moment, everyone was stunned beyond belief.

What he did not expect was that before it had even begun, Ling Xi had already taken him away. Although it was not very far, at least the Evil Spirit Beasts were not able to threaten Dragon City right now!

A hissing sound could be heard from the distance. It was obvious that the evil spirit beast was returning in a fit of rage!

The people of Dragon City were cheering, they had greater fighting spirit, it was all for the sake of Long Chen and Yue Yang! From a certain perspective, at least this time, they had saved the entire human race!

Without them, the killing dragon Brother Chen would have already been broken, and everyone would have died!

"Killing the Dragon Emperor! Killing Dragon Emperor! "

The entire Slaughter Dragon City was shouting for Long Chen, they were shouting and contributing their strength, no one would want to rest, they were using their greatest strength to resist the Tyrant Divine Emperor and Tengu!

Of course, the evil spirit beasts will return!

Therefore, the situation was still critical.

At this time, Long Chen made a bold and crazy decision once again.

Long Chen realized that he had received an unprecedented increase in power, his strength was now infinitely nearing the level of the Dragon Emperor, and with Ling Xi's recovery and help, it was even more majestic!

At this moment, he was at his strongest!

Now, each of the Dragon Emperor s only needed to deal with one opponent, they did not need the power of the Killing Heaven Diagram, but Long Chen. Under the channeling of this power, coupled with Ling Xi, they had truly reached the level of being able to resist peak rankers!

Of course, there was also the elusive kitten that had come out.

Without a second word, Long Chen and Ling Xi had an even more limitless amount of power under the strongest supply from the Massacre Sky Diagram. They weren't afraid of being exhausted or exhausted at all.

In the distance, the female and male evil spirit beasts were already attacking in fury!

Long Chen had reached the limit of what the Celestial Slaughter Art could bring him, and was waiting for the arrival of the evil spirit beast. Right now, he was holding one hand with Ling Xi and the other hand with the berserk God Slaying Sword!

Similarly, Ling Xi was also holding onto the Butterfly Illusory Sword!

They looked at each other. They could already see the determination and determination in each other's eyes. That deep feeling was boiling hot at this moment!

"Kill!"

Long Chen almost roared.

The evil spirit beast was extremely fast, and in the blink of an eye, it had returned!

The fifteen Dragon Emperor s felt the explosive increase in power of Long Chen under the effects of the Slaughtering Sky Diagram and the Three Lives Love Silk. They had a new hope, and it was very likely that Long Chen's actions would bring a new turning point for the entire human race!

The outcome would depend on the battle between him and the evil spirit beast!

Everyone was waiting and anticipating.

In the endless sandstorm, these two young lives carried an incomparably important mission.

"Damn it!" Damn it! "Damn it!"

The Evil Spirit Beast being moved away was a humiliation. Thus, they were extremely enraged. Right after they returned, they both attacked. The male Evil Spirit Beast was already unable to contain itself and started to attack with its voice.

This was outside of the Celestial Slaughter Map. If they didn't have enough ability, then under the sound of the enemy's all-pervasive voice, the two youths would most likely die in battle.

But Long Chen had an unimaginable ability to remain calm.

He waited until the other party opened his mouth to make a sound. Then, he used the God Slaying Sword's Eye of Hell.

The Eye of Hell was no ordinary item.

The God-Slaying Sword was also very mysterious.

In the eyes of the Evil Spirit Beast, what appeared behind Long Chen were terrifying green eyes that were filled with deep fear. The male Evil Spirit Beast was immediately scared stiff, and didn't even have the chance to attack!

"Three Tribulations of Life and Death!"

The Eye of Hell was about to face three trials of life and death.

At least, until now, the joint attack of Ling Xi and this was his deadliest move. Back then, even the Sea Divine Emperor was injured by this kind of move, let alone Long Chen who had the support of the Killing Heaven Diagram.

Three lifetimes of love, two swords in unison.

Only when one was deeply in love would one be able to unleash the most perfect attack.

The sword thrust out, the two swords intertwined, the sword images formed layers of images, it seemed slow but it was simply impossible to resist, and this evil spirit beast was still under the effects of the Eye of Hell, it didn't even have enough time to dodge, it was directly struck by Long Chen!

Next, they let out cries of pain, not hisses of attack!

Long Chen was certain that the tribulation of three lives had shattered their internal organs, penetrated their spines and bones, shaken their primordial spirits and caused serious damage to them!

This was the result of being careless and not putting Long Chen in his eyes at all!

A whole Demon Lord was actually injured by Long Chen, this was practically a miracle!

But it was true, even if he couldn't imagine it.

Perhaps it had injured the spiritual world, causing the ancient Giant Demon's will inside to be damaged. For a moment, it was in complete chaos, so it actually flapped its enormous wings and quickly turned around to flee!

Once they were too far away, Long Chen would lose the power to slaughter the heavenly diagrams. Furthermore, there was a certain amount of luck in being able to defeat the evil spirit beasts, so at this time, he absolutely could not give chase!

Each tribulation of three lives was enough to suck them dry.

Fortunately, the Three Lives Love Silk had been restored quickly, and they also had the Celestial Slaughter Diagram. After stabilizing for a while, the two of them returned to fighting strength.

Fortunately, after using the Three Lives Calamity, Tyrant Divine Emperor and Tengu did not attack him. Otherwise, he would have simply been killed by them.

The evil spirit has fled!

At the very least, until the evil spirit beasts recovered and returned, the Celestial Slaughter Art would no longer feel any pressure.

Long Chen quickly returned to the Slaughter Heavenly Diagram.

After he returned, what he received was the cheers of the entire human race. It was difficult to imagine that he actually completed such a thing; this was a grand miracle.

This was also the birth of a hero.

From now on, this young man, and even many other elders, were blindly worshipping him.

In reality, even Long Qinglan back then did not have the power to turn the tide and pull the entire human race out of the gates of hell, other than intimidating the non-humankind.

They truly viewed Long Chen as a believer, an absolute leader.

After the evil spirit beast left, everyone felt a rare sense of relaxation.

In the beginning, everyone was afraid of all the strong warriors at the peak of the realm, afraid that they would break the Celestial Slaughter Art. But now, Tyrant Divine Emperor and Tengu's attacks had caused a huge shock, but everyone was confident that they would be able to hold it off for at least a day.

Furthermore, with Long Chen here, what was there to be afraid of?

Even Dragon Emperor was relaxed. In a 1v1 battle, their strengths were similar and when they understood each other, it was difficult for them to have a true victory or defeat.

Even if he was injured, it would be difficult for him to defeat it!

Thus, this battle was temporarily in a deadlock.

However, as long as it was not over, no one would feel relieved.

Currently, Tengu and Tyrant Divine Emperor already knew of Long Chen's methods, and it wouldn't be so easy to defeat them using the same method. Long Chen decided to not go out and support the Celestial Slaughter Art with the others. With his participation, it would be even more impossible for the other party to break through.

"Everyone, give up. You can no longer succeed!"

Someone from the Dragon Emperor said with a cold laugh.

"It's still too early to come to a conclusion. The injuries of the evil spirit beast are still too heavy, and he'll return very soon. As long as he doesn't act carelessly, you humans won't have any chance!"

There was still no compromise from the three races.

They were even willing to stay in a stalemate and wait for the return of the evil spirit beasts!

In the Dragon Emperor, the more the old man fought, the fiercer the Immortal Dragon Emperor became. After all, he was the number one Dragon Emperor, and was even more capable.

"Then we'll see. Poor people who are controlled by the Ancient Giant Demons, there will be a day when Long Chen will wake all of you up. When that time comes, I want to see what kind of expression you will have."

He was very proud, after all, the two great demon monsters of the human race, Long Qinglan and Long Chen, could both be considered his descendants.

Of course, this was also a type of pride.

Due to Long Chen's outstanding performance, the pressure on the Dragon Emperor s immediately decreased by a lot.

The Immortality Dragon Emperor's opponent was the Lu Wu Beast that was extremely adept at close combat.

Beside him, the Sea Divine Emperor and the Nine Phoenix were engaged in an intense battle!

As the number one Ocean Emperor of the Sea Clan, his cultivation was also very strong. However, he was not at his best when it came to environment, so he was unable to crush Jiu Huang.

While they were fighting, the Sea Divine Emperor was also watching the movements in the Dragon City.

"He's so young, yet he's able to defy the heavens."

"It's a pity that all of you underestimate me. That's right, I have indeed awakened, and I am very clear-headed. That's why, I know even more what I should do."

He smiled sinisterly, exchanging words with his opponent while fighting.

"I will use my own actions to gain your trust. My respected Ancient Giant Demon, what should I call you?"

He could not help but laugh maniacally.

"If no one can stop them, then why resist in such a pointless manner? I am awake, and the first to seek refuge. Then, do they need a subordinate?"

From the time he woke up until now, he kept thinking.

He watched as the human race refused to hand over the five dragon pearls even after death. He knew exactly how terrifying these Archaic Giant Demons were. They were true deities! Not just a few people would be able to tame it.

What a terrifying existence!

There was actually someone who wanted to fight against them.

If it was the Sea Clan, the Sea Divine Emperor would definitely offer the Five Dragon Orbs to them!

Thus, he set his sights on the Immortal Dragon Emperor.

Just when both sides were about to miss each other, suddenly, Lu Mou, Nine Phoenix and Shanghai Divine Emperor surrounded the Immortal Dragon Emperor at the same time. They activated their most terrifying sacred art, bringing about a fatal attack that exceeded everyone's expectations!

Chapter 2413 - Furious Rising to the Crest

The Immortal Dragon Emperor was not Yang You. Yang You could withstand the attacks of six peak rankers and at least remain undefeated. However, it was impossible for him to fight against three experts of the same level!

When Long Chen returned to the Slaughter Heavenly Diagram, the Slaughter Heavenly Diagram only provided a small portion of power to the immortal Dragon Emperor.

Initially, the Blood Tyrant Dragon Emperor and the rest had occupied a third of the power provided by the Celestial Slaughter Art, but they were still unable to fight against the two of them, needless to say, three of them.

This was only one small factor.

The biggest reason was that no one could have imagined that there would be such a change. This exceeded everyone's expectations, and the Immortal Dragon Emperor naturally did not know that the Sea Divine Emperor, which was focused on dealing with the enemy, would now circle behind him and attack him.

This was a sneak attack!

A fatal sneak attack!

In addition, the Nine Phoenix that was originally restrained by the Sea Divine Emperor was actually also prepared. At the moment when they grabbed the opportunity, they would also attack the surrounding Immortal Dragon Emperor to kill him!

All of this happened in the blink of an eye!

It was so much so that Long Chen simply did not notice the commotion at all, and only when he heard a part of the exclamations did he finally look over in shock. He just so happened to see the scene of the Sea Divine Emperor suddenly changing direction and launching a sneak attack on the Immortal Dragon Emperor!

It was all too sudden, to the point that the Immortal Dragon Emperor was still fighting with the Lurker Beast. Even the Land Ruler himself did not know that such a change would occur, but he was adept at seizing the opportunity!

"Azure light!"

The Sea Divine Emperor happened to be right behind the Immortal Dragon Emperor. The azure light suddenly attacked and the Immortal Dragon Emperor was still entangled by the Lurker Beast.

Under this kind of situation, it could be said that apart from Yang You, no one would be able to dodge an attack from three peak-level powerhouses!

The Immortal Dragon Emperor was no exception, he had been struck by the blue ray of his Ocean Divine Emperor. Although it was not a fatal attack, it was able to turn a small part of the body of the Immortal Dragon Emperor into ice and bind it, creating an opportunity for the other two!

The change occurred in the split-second that the electric stone was ignited in the flame!

Nine Phoenix and Sea Divine Emperor had already discussed and made sufficient preparations.

When the azure light fell upon the Divine Dragon Body of the Immortal Dragon Emperor, her attack also fell.

"Nine Polar Sky Flames!"

In her body, there were a total of nine animal fire s that had been passed down from Primordial Divine Beasts. In order to nurture these nine flames, like the Sun Devouring Demonic Wolf, Jiu Feng had swallowed countless flames throughout his life to feed this Nine Extreme Heaven Flame. At the level of the nine phoenix beasts, the Nine Extreme Heaven Flame had already reached a point where it could destroy the world!

How could the Immortal Dragon Emperor defend against the sudden, absolutely unexpected blue light? The Nine Extreme Heaven Fire was like a sharp sword that pierced into his body, instantly splitting into nine different types, rushing towards all parts of his body, enveloping all of his flesh, bones, bloodline, the World Tree of the Immortal Dragon Emperor within her extremely hot Nine Extreme Heaven Fire!

It was so tragic!

In the end, the Lurker Beast made its final strike!

In reality, the combination of the azure light beam and the Nine Extreme Heaven Flames was so perfect that if it were to hit the Immortal Dragon Emperor completely, it would cause the Immortal Dragon Emperor to almost be in a completely crippled state, especially the Nine Extreme Heaven Flame that had pierced into his body!

"Roar!"

Long Chen saw the old dragon let out a painful wail with his own eyes.

Then, the long sharp claws of the Lurker Beast pierced through the dragon head of the Immortal Dragon Emperor and tore it apart!

All of a sudden, his origin soul dispersed!

The Immortal Dragon Emperor was dead!

At that time, everyone who saw it felt as if their heads had been struck by a heavy hammer. Long Chen felt a splitting headache, and his eyes turned completely red in an instant!

From start to finish, there were no more dead people.

He had never imagined that a Dragon Emperor Ranker would be killed in an instant!

Died out of everyone's expectations.

And this person, was so important to Long Qinglan; he could also be considered Long Chen's grandfather. They were his family!

His loved ones had been killed on the spot, and he had witnessed everything. What sort of feeling was that?

Long Chen had no way to think about it, he only knew that his head would instantly turn red and that his body would no longer be under his control.

In his eyes, the corpse of the Immortal Dragon Emperor had turned into dust.

What he saw was that the Sea Divine Emperor did not laugh loudly, but had an evil smile and revealed his sharp teeth.

That was the smile that Long Chen hated the most.

He had clearly awoken, why was he suddenly attacking the Immortal Dragon Emperor? Could it be that he was being controlled again? For a moment, everyone was stupefied.

Even the other Dragon Emperor s did not manage to react in time.

The one who made a move, the one who caused the death of the Immortal Dragon Emperor, was actually the Sea Divine Emperor!

How was this possible!

Didn't Long Chen already wake him up!

Only Long Chen knew what was going on.

At this very moment, he had not been controlled by the Ancient Giant Demons at all. Everything he had done, had been done from the bottom of his heart and he had made such a decision. He was very clear-headed, very clear-headed, and he had killed the Immortal Dragon Emperor!

Of course, the Immortal Dragon Emperor would revive him.

Only, this was equivalent to the other party suddenly gaining another two experts, causing Long Chen to beat back the evil spirit beast with much difficulty.

Even if the Immortal Dragon Emperor was revived, if the three of them attacked together again, then they could truly kill the Immortal Dragon Emperor!

"He actually did such a thing. This is unforgivable!"

He had personally witnessed the death of the Immortal Dragon Emperor, and this had caused his terrifying hatred to rise. Even before the Immortal Dragon Emperor died, he did not know what had happened!

Long Chen did not care about anything as he immediately flashed past two of the peak Rankers who were still attacking Dragon City and headed towards the Sea Divine Emperor!

"Protect yourself well!"

These were the last words he said to the crowd.

"Yes sir!"

Everyone was completely obedient to his words.

Now that such a change had occurred, only Long Chen could substitute him in order to resolve this deadlock.

Of course, Ling Xi was also beside him, and although Cat was gone without a trace, he was also there!

Amidst the encirclement of the Sea Divine Emperor, the Land Ruler Beast and the Nine Phoenix, the Immortal Dragon Emperor was reborn!

He had fully recovered and used his second life. But the problem was, even if he wasn't ambushed, he would be surrounded and killed within a short period of time!

However, he did not understand!

The feeling of death just now was still fresh in his mind. How terrifying!

"Sea Divine Emperor, Silver Crescent, what are you doing?" He saw that the Sea Divine Emperor was awake and the corner of his mouth curled into an evil smile.

"Me? I am working for my future master. That's right, he is the Ancient Giant Demon. Even if he does not have control over me now, I feel that I should stand on his side. "

Sea Divine Emperor laughed.

His mysterious thought had aroused the anger of everyone, especially the Rock Mage and Iron Mage. Back then, it was the Ocean Divine Emperor who had persuaded them to fight together with him, but he never expected that this guy would actually choose to rebel at this time. Who would have known that the Ocean Divine Emperor would have such a terrifying thought?

At this time, the Stone Voodoo and the iron witch were fighting with their brothers and sisters until they were half dead. Seeing that victory was in sight, they didn't have any thoughts about the Sea Divine Emperor at all.

"What did you say?"

The Eternal Dragon Emperor was stunned.

"Isn't that clear enough? You laughable fellows, don't you know how powerful these ancient Giant Demons are? With just one roar, he could control thirty experts of his level, and he could also cause chaos in the entire Immortal God Realm. It's true that you humans are the victims this time around, but, your counterattack is quite successful, at least for now, but haha, can you guys fight against gods? So what if you win this time? "As long as an ancient Giant Demon exists, you will always be killed. If he really goes crazy, then the human race will be casually destroyed. You really are fools. If I had five dragon pearls, I would immediately send it to the demon star."

He looked at the Immortal Dragon Emperor with disdain and mocked, "However, the result is about the same now. I withdrew from your foolish team at the right time, and even made a meritorious deed, the evil spirit beast is really disappointing, so you can rely on me to reverse the situation. You humans are really a hindrance, but you guys still have to die twice. But this time, you're really going to die, you eternal ghost. As for me, if I submit to the Ancient Giant Demon, even if I am enslaved, even if the entire Immortal God Region becomes the Ancient Giant Demon's livestock farm, so what? They must need a manager who will turn to them, two beautiful girls, am I right? "

Sea Divine Emperor looked at Yi Xue and Meng Hen.

"That's right, you did indeed bring a turning point. Once my Demon Star occupies the Immortal God Realm, you will definitely have your advantage."

Yi Xue said with a smile.

"Look at how wise I am and how stupid you are! Obediently accept your death, starting from your Immortal Dragon Emperor, if not one of you died, then my team would have one more person, now it's three against one, and when you die later on, it's four against one, and then it's five against one. There will be a moment when you all will die, right? "

The Sea Divine Emperor jeered nonstop.

There was no one who didn't hate this traitor to the extreme.

Under this kind of disturbance, the other strong warriors were controlled. Only the Sea Divine Emperor was the real traitor!

He had betrayed the entire Divine Realm of Immortality!

He made all the Dragon Emperor s tremble in anger.

Perhaps, in the eyes of the Sea Divine Emperor, the reason he made such a choice was even more so because of a young man who made him feel powerless.

That person was Long Chen.

"Are you done talking?"

Suddenly, a familiar voice came from behind him. The Sea Divine Emperor turned around and looked back, that's right, it was Long Chen. He actually had the guts to come here.

He shook his head and said, "It's such a pity, it's such a pity that you are too brave. It's been a few times since I have been able to kill you, it's truly my greatest regret. I have been thinking about one question, if not for you being killed by me today, what would the world be like in the future? If I kill you, then what is the pattern? If I am not careful, it seems like I have become someone who can change the world. "

Chapter 2414 - Shadow Divine Art

The puppets that were controlled wouldn't be too annoying. The real traitors would be the ones that truly angered them!

Especially because of his betrayal, the human race was stuck in a deadlock. As long as the Immortal Dragon Emperor died again, it would be difficult to deal with them.

Fortunately, at this time, Long Chen had once again stepped forward to face the Sea Divine Emperor!

As long as he could help the Immortal Dragon Emperor share of the pressure, the Immortal Dragon Emperor would not be killed even if they had to struggle to fight against the Lu Wu Beast and Jiu Huang.

At this time, all of the power from the Slaughter Heavenly Diagram, other than resisting the attacks of the Tyrant Divine Emperor and Tengu, was channeled into Long Chen and the Immortal Dragon Emperor.

This was a power that the other Dragon Emperors had given him!

With this support, both Long Chen and the Immortal Dragon Emperor felt the energy in their bodies become even more majestic!

Of course, they were also even more furious. Anger, to Long Chen, was similarly a type of power!

Everyone hated this Ocean Divine Emperor to the bone!

Everything he said was so shameless.

"You want to be loyal to an ancient Giant Demon? Wait until you reach hell, then you can go and be loyal to him."

Every word that Long Chen said contained a huge amount of anger. This battle was unavoidable, what he was bearing was not only his anger, but the anger of more than half of the Slaughter Dragon City humans. Now, they had instigated all their power into him, hoping that he would be able to kill this fellow!

"Kill him!"

Slaughter Dragon City's countless people were shouting for Long Chen.

It was already a miracle that Long Chen could heavily injure the evil spirit beasts before, but everyone believed that with the support of the Slaughter Heavenly Diagram, he would definitely be able to do better.

At this time, the Immortal Dragon Emperor had received the power of the Massacre Sky Diagram and was already fighting with the Land Ruler Beast and the Nine Phoenix. Even though it was difficult, but in a situation like this where he was not ambushed, it would not be easy for the opponent to kill him. After all, the Immortal Dragon Emperor wasn't someone to be trifled with!

The battle became more and more intense. At the beginning, everyone had been fighting more carefully, but after the Immortal Dragon Emperor died first, it ignited the anger in everyone's hearts. In

their eyes, Long Chen was undoubtedly the most important person, they were truly worried that Long Chen would lose!

The Sea Divine Emperor knew that if he wanted to kill Long Chen, he had to do it as soon as possible!

He saw that Long Chen and Ling Xi were still in human form and had morphed into a human form. He was an extremely tall and sturdy man who held onto the peak of the Sea Clan, Sea Calming Divine Needle, in one hand. His entire body had a tyrannical force as he looked at Long Chen with an insidious smile and said: "First of all, will you be heartbroken to kill this woman of yours?"

He naturally did not understand why Ling Xi was standing here.

Long Chen suddenly laughed coldly. He knew that almost everyone was paying attention to this battle and had high hopes for him. Carrying the hopes of so many people, even if Long Chen were to die, he had to save this situation. He could not let the Sea Divine Emperor deal with the Immortal Dragon Emperor!

He said, "Since you are awake, there is no harm in me telling you one thing. Do you know where Sansheng's love life is now? "

"Hmm?"

The Sea Divine Emperor's body trembled as he stared at Long Chen in a daze.

Under Long Chen's control, the love between him and Ling Xi for three lifetimes started to shine, allowing Sea Divine Emperor to see it.

"In the end, the one who obtained it was me. It has many miraculous uses that you can't imagine, such as letting the two of us share power, such as killing you and Liu Ji, why didn't she come out of the Three Lives Secret Realm, because I killed her."

At this point, Three Lives Love Silk concealed itself and disappeared without a trace.

Sea Divine Emperor was startled for a good while, then he said while gnashing his teeth: "Originally, the final winner was you, detestable!"

Long Chen said: "My hatred is not even a tenth of yours, despicable traitor. Since you chose to betray the entire Immortal God Realm, then you must have the will to die!"

"Then let's see who actually died!"

Finally, the Sea Divine Emperor let out a roar. He was no longer as complacent and at ease as he was before, he had lost his reason, he could not bear it anymore. So many Sea Clan Rankers and Long Chen entered the Three Lives Secret Realm, but the last treasure was taken away by Long Chen!

Just as the last sentence was spoken, the battle that everyone was paying attention to began!

Long Chen had to stall this opponent, even if he could not defeat him, he could not let him go, and let him ambush and deal with the others.

Right now, Tyrant Divine Emperor and Tengu were still insisting on destroying the Slaughter Heavenly Diagram. If they found out that they could not break through it within a short period of time, they would very likely fight their way back. At that time, the Dragon Emperor would be in danger instead.

So if he couldn't turn the tide, the situation was still very critical!

Fortunately, the entire human race stood behind him and provided him with an unending stream of power, giving him boundless confidence and fighting spirit. The greater the power, the greater the confidence that came from Ling Xi.

Of course, the first attack of the Sea Divine Emperor, who was wielding the Immovable Sea Needle, was aimed at Ling Xi!

That one swing of the rod against the sky caused everyone to be worried. The noise made it seem as if Ling Xi could be smashed into a meat patty at any time!

"Isn't it just a dead woman? "Haha, no matter how much you love each other in time, there will always be a day when you become enemies. Believe me!"

The Sea Divine Emperor could not help but sneer.

Facing such an attack, Ling Xi remained calm and unhurried. After a very long time of learning, she already had an extremely strong combat ability, and the Sector lord Divine Arts already had a godly ability to transcend the heavens.

They formed a seal with one hand, and the speed at which their fingers transformed was even faster than when Sea Divine Emperor used the Sea Freezing Divine Needle.

Long Chen was completely at ease with her.

"Mirage!"

This was a Sector lord Divine Arts that he had never seen before. When Ling Xi quickly finished this technique, Long Chen knew that she had already arrived behind him.

In the middle of the Void Illusionary Divine Technique, Ling Xi had already moved behind Long Chen.

In her original position, there was still the clear and distinct her that had the effect of faking the truth.

Just then, in the midst of the firelight and lightning stone, Ling Xi was actually torn apart by the Sea Freezing divine needle!

In that moment, Sea Divine Emperor laughed heartily, but the hearts of everyone present had become completely cold. It could be said that Ling Xi's Heaven and Earth Transference Array had also saved humans.

However, everyone's sadness only lasted for a split-second.

Because what they saw was Ling Xi appearing behind Long Chen, safe and sound.

To be honest, with this Broken Shadow Divine Technique, Long Chen already felt at ease enough to let Ling Xi fight on her own, because no matter what, it would be difficult for her to be hit by the enemy's attack. The speed of this transformation was even faster than the instantaneous movement of the Di Jun Divine City!

"What's going on!"

The Sea Divine Emperor watched Ling Xi being torn apart with his own eyes!

"Damn it!"

His shocked expression almost made everyone burst out in laughter.

Although the Sea Divine Emperor was distressed, Long Chen did not think that this fellow would be easy to deal with.

The real battle had just begun!

Long Chen knew that Three Lives Sentiment Silk was something he had to kill. Sea Divine Emperor knew that the two of them had this kind of power, so he had to be extremely cautious.

Before that opportunity arrived, he and Ling Xi could only fight to the death with this pinnacle Ranker!

Long Chen relied on powerful attacks, and with Ling Xi at the side using a few small tricks of the Sector lord Divine Arts, he could often bring about a revival of the dead, allowing Long Chen to take the initiative and be the most outstanding support. For example, when the Sea Divine Emperor used the Great Ocean Emperor Fist to prepare to kill both Long Chen and Ling Xi, Ling Xi was able to use the Revolving Star Passage Technique to teleport both and her opponent out!

Although it was not far, it completely resolved the crisis!

Long Chen then used the Killing Sword Technique to clash head on with the Sea Freezing Divine Needle!

With his current strength, the Killing Sword Technique could still release such a terrifying power, because the Killing Sword Technique had a total of ten thousand swords, while Long Chen's limit was around eight thousand swords, which was almost at the peak of the Killing Sword Technique!

He quickly completed the first six thousand swords with a terrifying speed, condensing six thousand sword qi that blotted out the sky and covered the earth, rushing towards the Ocean Divine Emperor to kill him. This was due to his extreme anger.

What was difficult for the Sea Divine Emperor to deal with was not Long Chen's Killing Sword Technique, but Ling Xi's Divine Arts that appeared from time to time. This made his every attack seem to hit empty air, and the feeling of having countless of uses and power really made him vomit blood from anger!

At this moment, his heart was trembling with anger!

Especially the Killing Sword Technique, the more powerful it was, the harder it was to defend against it!

"Seven thousand eight hundred!"

That resplendent sword Qi attacked in a shocking manner. The gray sword light was filled with negative energy and it stabbed at the Sea Divine Emperor but was blocked by the Sea Freezing Deity Needle!

However, even so, the Sea Divine Emperor was still pushed back!

Following that, he unleashed twenty consecutive strikes, causing the Sea Divine Emperor to retreat step by step!

"The Tempest of Time!"

The final strike was unleashed under the power of the Tempest of Time!

The power of the Time Disorder from the Time Storm immediately tore the skin of the Sea Divine Emperor and splashed out a large amount of blood!

"Shadow Binding Spell!"

Just at this moment, Ling Xi very properly performed the Sector lord Divine Technique, the Shadow Binding Technique was similar to the attacks of a heavenly dog, but it was even more exquisite. The Sea

Divine Emperor, under the Shadow Binding Technique, was entangled by the shadow, even if it was just for a moment, and Long Chen's sword directly slashed onto the Sea Divine Emperor's shoulder, chopping off one of his arms!

This was tacit understanding.

When Ling Xi used the Sector lord Divine Arts to assist Long Chen in battle, she would usually be able to achieve such a miraculous effect.

Of course, this time, his injuries had also driven the Sea Divine Emperor mad.

Chapter 2415 - Tianhong Barrier

Almost everyone saw his arm fly out.

The great number one Ocean Emperor, was actually injured by the cooperation of two young men. Although it wasn't a fatal blow, it was enough to cause him to lose face.

"Hahaha!"

The Sea Divine Emperor had instantly broken free from the Shadow Binding Spell and his severed arm was quickly growing back. He could not help but laugh loudly as his expression became extremely sinister.

"Long Chen, be careful. He might be consuming his life force to use the Sea Clan's secret technique."

This was Yang You's reminder.

With her reminder, Long Chen immediately summoned Ling Xi to his side without a second word.

As expected, the Sea Divine Emperor was no longer the same at this time. His body was ignited with blue flames, which seemed like fire and water at the same time. One could sense that the strength of his body was constantly expanding, reaching an extremely terrifying level!

"Using two hundred years of my life in exchange for your lives is also quite worth it."

When Sea Divine Emperor finished speaking, his eyes were gloomy as he started to move.

A fist gathered in his right hand. It was a punch that gathered all the power in his body and burned with a blue and strange flame. This was a punch that was more profound than the Divine Boxing of Hanhai, a punch that had a higher level of Heavenly Energy. It was an attack that the Sea Divine Emperor had to pay the price of two hundred years of his life!

When this punch was condensed, all the surrounding ground was immediately crushed by that huge power. At this time, everyone had already rushed out of the northern starry sky, and even the Slaughter Dragon City had been moved to this place. This showed just how intense this battle was!

Under this punch, the starry sky was torn apart, and land collapsed into pieces, turning into endless mud that scattered into the starry sky. The northern territories north of Slaughter Dragon City were all nearly torn apart!

In the midst of the blue light, the Sea Divine Emperor's expression was extremely gloomy. Suddenly, he revealed his sharp teeth and revealed a trace of an evil smile.

This was the smile that Long Chen hated the most, the smile that he hated the most.

"Die."

He gently pushed that fist out, and in that instant, Long Chen saw that the entire world had turned into a sea, and the boiling sea created an endless storm!

"Xiao Xi, use the Mirage to dodge it. I'll block it!"

This time, the Revolving Star Passage Technique could not move the opponent, which showed how much power the Sea Divine Emperor had put in order to kill Long Chen and the others.

"No, we can resist together. I can do it."

Ling Xi firmly opposed.

Long Chen's idea was that he would not know whether he would die or not, but he had to at least ensure that Ling Xi lived on and not let her bear this level of attack.

But he knew that Ling Xi would not agree to it.

What he was worried about was Yang You's words. He couldn't let anything happen to the child in Ling Xi's womb, but at a time like this, the two adults would forever be more important than the soul in his embrace. Therefore, Long Chen did not force her. He knew that if she were to lose him, even if she were to leave behind her child, he would not make her happy.

That punch was coming!

Everyone knew the terror of the Sea Divine Emperor this time!

At this time, the immortal Dragon Emperor transferred all of the power that the Slaughter Heavenly Map transferred to him over to Long Chen, and all of the power was given to Long Chen.

All of this, Three Lives Love was the closest link. The two of them were recovering their strength at a high speed, reaching a perfect cycle. This was because at this time, both of them were of the same mind!

Being one with the heart, it was almost like they were one!

It was because of this that they were able to unleash an unprecedented power!

At that moment, Long Chen used his fire of life to surround the two of them and then used the space-time reversal!

He used the Great Void Cosmic Dragon's greatest strength, and used the space-time reversal to attack his opponent!

"Hongtian barrier!"

As for Ling Xi, she was also using the Sector lord Divine Arts, so her defense was behind Long Chen. This was a dark red barrier that looked simple, but in reality, it was already the highest level that Ling Xi could use the Sector lord Divine Arts.

The fist of the Sea Divine Emperor, which shocked the heavens and earth, collided with Long Chen's Space-Time Reversal power first. With such a huge attack, Long Chen was obviously unable to reverse the opponent completely, but he could reduce the impact of it!

In that moment, Long Chen was completely confused by the impact, his vital energy and blood tumbled, and his internal organs shook, but if such a huge force were to crash into the barrier, it would have caused Ling Xi severe injuries, thus he gritted her teeth and persevered.

At that moment, all the scenes appeared in front of his eyes.

In the Three Lives Secret Realm, he had almost been killed by his enemies!

Just now, because of him suddenly being by his side, the Eternal Dragon Emperor died in his hands.

And everything he said was so disgusting!

Such a scum, what qualifications did he have to defeat him?

Long Chen was proud, even if he were to die, he would die in the hands of someone he admired, and in his eyes, Sea Divine Emperor was nothing more than a pile of dog shit!

"Reverse!"

In that instant, he had gained the greatest control over time.

He did not manage to completely reverse the opponent's attack, but he managed to reduce its power by at least half, blocking the ferocious punch of the stone!

In the time it took for a thunderstone to ignite in flames, that fist had already struck the barrier!

Weng! *

Ling Xi's body was shattered and her face turned ghastly pale. However, being held by Long Chen and the burning of their life force, the injuries sustained by the two were negligible, unless the Sea Divine Emperor could instantly kill them. Otherwise, with the existence of the life force, he wouldn't even be able to receive heavy injuries!

The moment the Heaven-Illuminating Divine Barrier shattered, there was only a tiny bit of power left in that punch.

At this time, Long Chen was standing in front of Ling Xi, blocking his attack. Under the burning of his life force, he quickly recovered!

The two hundred years of lifespan of the Sea Divine Emperor was unable to injure these two youngsters!

When the Sea Divine Emperor saw that they were unharmed, this was the real blow!

At that moment, his smile completely froze, and his entire person was in a dazed state!

At that moment, when they saw that Long Chen and Yue Yang were safe and sound, everyone cheered. They knew that Long Chen was someone that could defy the heavens!

Of course, this was also because they had provided the power to the Slaughter Heavenly Diagram. It was their power of over a hundred million that allowed Long Chen to have the basis to block his opponent's fist!

This battle was quite exciting.

After receiving such an attack, Long Chen was indeed exhausted, but he believed that the impact on the Sea Divine Emperor would be even greater.

However, because of a certain person's appearance, it gave Long Chen a greater opportunity!

At this moment, a grinning young man seized the best opportunity to suddenly appear behind the Ocean Divine Emperor. This was absolutely out of everyone's expectations!

"Boss, it's up to you."

Before this, Long Chen had already heard the kitten's voice.

After hiding for so long, he finally appeared at this time.

Perhaps, he had already been waiting for the most lifeless moment of the Sea Divine Emperor!

Long Chen also felt that this would be a chance, but this chance wasn't particularly big. There was only one chance for three life and death situations, and he was worried that after it was used, there wouldn't be any more chances in the future.

At this moment, the kitten appeared!

He had the pronucleus, he had his Primordial Power of Reincarnation!

Right at the moment when the kitten appeared, white ribbons appeared on his ten fingers, formed from his Power of Reincarnation. He held onto the best moment, and quickly wrapped the white ribbons around the Sea Divine Emperor's body.

In an instant, the dumbest of all, Sea Divine Emperor, was tied up!

But before this, Long Chen had always believed in Cat. He knew that the moment Cat appeared, the three life and death chances would come!

"Kill!"

He didn't need to elaborate to Ling Xi at all. The two of them thought of the same thing, but the moment Long Chen made the first move, Ling Xi also made the first move. The two instantly leaped to the front of the Ocean Divine Emperor and used three life and death tribulations!

The ribbon that appeared soundlessly on his body once again stunned the Sea Divine Emperor.

What is this?

He had just lost 200 years of his life, but he was still a bit tired. This was his first time struggling against something, but he was actually unable to do so. And at this time, the most terrifying tribulation of three lives had already arrived in front of his eyes!

"How is this possible!"

The Sea Divine Emperor never thought that there would be such a moment of despair!

This moment came so suddenly. When he failed the first time he tried to break free, he was terrified. He tried his best the second time, but he still could not break free!

At this time, he had already lost all his opportunities!

That was because the Three Lives Calamity had already struck his chest!

The third time he managed to struggle free, he succeeded. The kitten was sent flying and he had reached his limit as well. After all, the Sea Divine Emperor was too strong for him.

However, the power of the Three Lives Calamity was wreaking havoc in the body of the Sea Divine Emperor without any resistance!

Last time, he had been struck by three deadly tribulations, but he hadn't suffered such heavy injuries!

The insides of his body were almost destroyed, and he couldn't even lift his arm!

His origin soul suffered an even more intense blow, causing it to spin causing him to feel dizzy.

And in this most dizzy situation, he could only squint his eyes ...

What did he see?

A huge divine dragon, with both gold and black colors. The most dazzling thing was that sword, and the Sword of Judgment on its forehead.

He realized that it was Long Chen.

"No, I can't die!"

The Sea Divine Emperor cried. He had never thought that he would die, but what was this feeling of reality he was experiencing right now? The guy who just appeared, who was he!

If not for him, Long Chen would never have been able to defeat him!

The Sea Divine Emperor was in absolute despair. He could not help but cry, and could not help but tremble!

In reality, no one had expected the reversal that would happen. Even the people from Dragon City were still in a daze.

When they saw Cat, they naturally knew that he was the one who had caused this monumental reversal!

Just like how Sea Divine Emperor ambushed the Immortal Dragon Emperor earlier, he killed the Immortal Dragon Emperor cleanly. This time, Long Chen turned into a dragon and the Sword of Judgment passed through the severely injured Sea Divine Emperor, completely ripping it to pieces!

Sea Divine Emperor, dead!

Chapter 2416 - Restatement of Struggle

The Immortal Dragon Emperor was a Ultimate Dragon.

But the Sea Divine Emperor didn't have that capability. When he used his lifespan of two hundred years and wasn't able to defeat Long Chen, he let Little Cat find a chance to use her entire strength to bind him up. By then, he would already be doomed to die.

In the end, Long Chen used the Tribulations of Life and Death and the Blade Sword God Prison to cleanly kill him.

If it was anyone else, Long Chen would definitely not use such a method to kill them. However, the Sea Divine Emperor was different. He was not being controlled, but had already become a traitor, because everyone would despise someone like him. Therefore, if the calamity were to end, and all the powerful warriors at the pinnacle recovered their wits, the insignificant Sea Clan would not cause trouble for Long Chen just because of the death of the Sea Divine Emperor.

On the other hand, those that were controlled by the ancient Giant Demons didn't deserve to die.

It was also because of this that Yang You was particularly conflicted when fighting. If she could use her killing move, she might have already killed him instead of still being entangled.

When the Sea Divine Emperor disappeared into thin air, the entire battlefield became deathly silent for a period of time. The peak rankers of the opposing forces could still clearly feel the death of the Sea Divine Emperor!

This was the first time since the Eternal Rebellion that a powerful warrior had died!

He actually died in Long Chen's hands, this was truly unbelievable.

Of course, it was not only Long Chen. This time, the reason he wanted to kill them was because the dormant kitten had found an excellent opportunity.

"Haha, I'm the most amazing one. This grandson dares to betray everyone in front of me, he really doesn't put me in his eyes!" This is what a lesson is! "

He put his hands on his hips and laughed out loud, looking like a lowly person who had just achieved his goal.

However, everyone still worshipped Long Chen, because the ones who directly caused the death of the Sea Divine Emperor were still his two attacks. Three trials of life and death had left him half dead, and the God of Blades and Swords Prison had taken his life.

He showed no mercy at all.

Everyone was looking at this young man, unable to imagine that he had this kind of ability.

When Long Chen quickly returned to the Slaughter Heavenly Diagram to rest, everyone still could not react.

"Everyone, give your power to the Immortal Dragon Emperor!"

Because right now, out of the fifteen Dragon Emperor, only two of them were facing the Immortal Dragon Emperor, and one of them had already died.

His words at the moment were as good as gold. He could mobilize everyone with his words.

"Yes sir!"

Many times, they were clearly on the verge of tearing the Celestial Slaughter Art to pieces. However, these people had gathered courage from somewhere, and were actually not afraid at all. Every time they were about to die, they would once again stand up.

If this continued, they would almost give up on the Celestial Slaughter Map.

But no matter what, tearing apart the Celestial Slaughter Map was the fastest way to win!

It was even more valuable than killing a Dragon Emperor.

If the Celestial Slaughter Map was broken, the hundred million people would die. With the lives of the hundred million people in his grasp, he did not need to worry that the Dragon Emperor would not hand over the five Dragon Beads.

The battle had reached an even hotter stage. Although they were in the starry sky now, the surroundings were still filled with smoke and dust. These were once lands of the Immortal God Realm, but now, they had become dust floating in the starry sky!

The Divine Dragon, Goblin, Sea Race, Giant Witch, countless of huge existences were fighting at the side of the Dragon City. The Tyrant Divine Emperor and Tengu had almost learned from the Sea Divine Emperor and didn't even care about their lives.

However, if the Immortal Dragon Emperor fought one on two, it would still be very dangerous, and once they lost, they would die.

The reason why Long Chen returned to Slaughter Dragon City was naturally to recover his strength. He had exhausted too much of his strength by using the Tribulations of Life and Death. However, with the connection between them, they could quickly restore themselves to their peak state.

"Boss, should we risk it all again?"

The kitten suddenly said in a sneaky manner.

"How are we going to fight?"

The huge contribution just now made Long Chen extremely confident in the kitten.

"Think about it, when you woke up the last Iron Magus, wasn't it going to take a very short time? Your current willpower is strong enough. "

Long Chen was stunned as he said, "You want me to defeat the will of the Ancient Giant Demon in battle and wake the opponent up? I can't do that. After all, it will take at least fifteen minutes, and even if you

and Little Xi add all of them together, it would be impossible to lock a peak-level powerhouse down for that long.

Of course, even though he said so, the other party is innocent as well. For the time being, he can't be killed.

The kitten said painfully, "Don't worry, this brother is here to help you. Of course he wouldn't give me any rotten ideas. Right now, none of you are able to win, continuing to attack will not solve the problem, and it will not benefit either of you, if you attack the two men from the Dragon Slayer City and deal with the Dragon Emperor, then you will be in danger. What I mean is that I plan to use my own precious pronucleus s to instantly increase my strength when fighting against the ancient Giant Demon's will and defeat the opponent as fast as possible. "

Long Chen was startled.

This guy used to be quite stingy.

"Are you really willing to take out your good stuff?"

Long Chen asked seriously.

The kitten angrily said, "Aiyo, what the hell, how did you become the boss? It took me so long to make up my mind, yet you doubt me, forget it, just pretend I didn't say anything, I only have four left, I have to keep at least one, and the other three I wanted to give up on."

Long Chen laughed and said: "Alright, let's give it a try. If it succeeds, I will not mistreat you in the future. If I am able to have it in the future, you will definitely have to take it. No matter how many things I had back then, you ate them all! "

Cat suddenly laughed slyly, "Haha, do you really think I'm that generous? I was waiting for you to say that. You said that when you have more pronucleus, you will give me at least thirty of them!"

He knew that Long Chen would not stop at the realm right in front of him until he was sure that there would be more things in the future. So right now, he had taken out three pronucleus s, which was also considered an investment.

Although she really wanted to beat him up, she couldn't deny that this was a kitten that Long Chen knew.

"In that case, let's do it."

Three pronucleus s, Little Cat needed to bind the other party and would probably need one. If Long Chen swallowed two pronucleus s and added to his current strength, he could probably take a risk to wake up a Demon Lord. The current situation was that as long as there was one more helper, it would be much better!

Who knows, maybe the remaining strength of the pronucleus could even make a move against the next person!

At this time, the kitten placed the two pronucleus s onto Long Chen's body.

"Xiao Xi."

Long Chen also held her hand.

"I will help too. After all, the Sector lord Divine Arts have many restrictions."

"Alright!"

Long Chen was ready to set off again.

He had helped greatly in this battle. The two calamities caused by the evil spirit beasts and the Sea Divine Emperor had basically been resolved by his hard work. This caused the Dragon Emperor s to be unable to resist feeling ashamed. They had initially wanted Long Chen to take the young man and leave first ...

However, the other side already had a lot of people. Without enough opportunities, it would be difficult to severely injure the other side. However, if he wanted to kill the other side, it would be easier. Therefore, if they didn't kill them, those opponents would continue to pester them!

The kitten hid itself again. It came and went without a trace.

Long Chen instantly travelled a thousand miles. At this time, he had already arrived beside the Immortal Dragon Emperor, who was currently fighting against Lu Wu Beast and Nine Phoenix. When Long Chen appeared again, Nine Phoenix turned her head and stared at Long Chen with her blazing eyes.

The Nine Phoenix did not make a move, and gave the Immortal Dragon Emperor a chance to rest.

That was the power of over a hundred million elites. In order for Long Chen to be able to repel evil spirit beasts and kill the Sea Divine Emperor, half of the credit went to him!

Otherwise, given his current level of power, he wouldn't have been able to deal with three deadly tribulations at such a terrifying level.

When Long Chen appeared, the battle was completely balanced.

"Everyone, I will make an attempt to awaken the nine phoenixes. Regardless of whether or not it will succeed, please do not panic."

This was just a test between him and Cat. Honestly speaking, he did not know if there was any chance of success. Jiu Huang was not an idiot, and would obediently let him control it for such a long time!

This was a peerless vicious bird!

Within her body, there were nine types of terrifying flames!

Now, she released a world-shaking scream, flapped her flaming wings, and charged towards Long Chen, in a blink of an eye travelling millions of miles!

According to his plan, Long Chen would fight head on with an expert of this level this time!

The God-Slaying Sword continued to transform. Now, he had a chance to use the Eye of Hell a second time!

Just now, Long Chen had already obtained the Ocean Divine Emperor's Divine Needle, so he estimated that he would be able to slash the divine sword to 900 lines. It was just that Long Chen had not destroyed the Divine Needle in time, so the Sea Clan would definitely want it back.

When the nine phoenixes rushed over, he brought Ling Xi, and the two of them moved at almost the same time!

It was as if this was the first time he was facing a demonic beast!

Of course, the evil spirit beasts despised Long Chen completely, but right now, it was different for Jiu Huang as she was completely prepared for it!

Her movements were extremely fast, and before she could even get close to Long Chen, she spat out the Nine Ultimate Heavenly Flames. The nine types of flames were like steel needles, they condensed together and pierced towards Long Chen!

"Eye of Hell!"

This move of the God Slaying Sword, when used once again, had also brought the same impact to the nine phoenixes!

However, this time, the impact that the Nine Phoenix received was not that great. At most, the position of the fire steel needle that included the Nine Extreme Heaven Flame was slightly off!

But because of this, the Nine Extreme Heaven Fire could not hit Long Chen!

And at the same time, Long Chen and Ling Xi executed the Tribulations of Life and Death together!

This was the third time they had used it in their collective year!

Three Life and Death Tribulations, and the light of the Nine Extreme Heaven Flames, simply intersected each other!

However, Jiuhuang's body was enormous, making it impossible to dodge.

Long Chen happened to dodge the fire steel needle, but just as the steel needle passed by his shoulder, it suddenly exploded. The resulting Nine Extreme Heaven Fire swept towards Long Chen and Ling Xi!

Chapter 2417 - Nine Phoenix Awakening

The Nine Ultimate Heavenly Flames, these were the nine types of flames that caused severe injuries to the Immortal Dragon Emperor previously, and were killed by the Lu Wu Beast.

These nine types of flames contained all kinds of attributes and had nine different colors. At this moment, the Nine Extreme Heaven Fire had actually turned into nine heads of burning madness, rushing straight towards Long Chen and Ling Xi!

With the support of the Celestial Slaughter Map, the power of the Triple Death Tribulations had already reached a level that even Dragon Emperor s would fear. Naturally, the direct attack on the Nine Phoenix this time around had resulted in severe injuries, but of course, none of the Evil Spirit Beasts and Sea Divine Emperor s had been struck by the tribulation!

Furthermore, the Nine Phoenix Empire has a rather strong Nirvana Rebirth. She can probably recover almost within fifteen minutes. Although it is not as good as Long Chen's Fire of Life, but to this extent, she can almost be considered one of the top five in the Immortal God Region!

This time, things did not go smoothly. At least, Long Chen was now engulfed by the Nine Extreme Heaven Fire!

However, he and Ling Xi continued to rush forward!

"This chance cannot be wasted!"

This was the great chance for Nine Phoenix to be injured!

Although the Nine Ultimate Heavenly Flames had been deceived, it still brought them a fatal danger. However, their tacit understanding was astonishing. They did not even need to discuss before they found a breakthrough point!

"Spacetime reversal!"

"Revolving Star Passage Technique!"

First of all, Ling Xi had transferred part of the Nine Extreme Heaven Fire in front of her. She had only completed a portion of it.

Just as they moved that portion out, they crashed into the wall. The extremely hot flames around them surged out, nearly burning the two of them to ash!

Fortunately, Long Chen had used Space and Time to reverse the situation and sent a portion of the flames flying, they found a way out, and rushed out from the flames, their bodies were completely red, and because of the burn, they were injured, but the two of them were covered with fire of life, and the parts of their bodies that died, under the powerful vitality, they were reborn!

This frightened everyone.

In the eyes of an outsider, Long Chen and Ling Xi had already been surrounded by the Nine Extreme Heaven Fire. They never thought that they would be able to rush out so quickly!

At this time, Ling Xi was already exhausted.

But Long Chen could not retreat!

Even though he was tired, the injured Jiuhuang was already right in front of him. It was true that he didn't have the power to kill her right now, but he did have the power to wake her up!

The divine bird in the flames let out a shrill cry of pain!

Long Chen let Ling Xi return back to the Divine Kingdom, then rushed forward alone, causing waves of noise!

In fact, he was not alone!

When the nine phoenixes were struck by the three life and death situations, the kitten appeared on top of her head!

He had already consumed the pronucleus and made all the necessary preparations. The Power of Reincarnation on his finger erupted and formed a thousand-meter-long white ribbon, wrapping around the head of Jiu Feng who had just been struck by the Three Lives Calamity!

"You're courting death!"

Although Jiu Huang was injured, the dead camel was bigger than a horse, how could he let the kitten succeed!

However, Jiu Huang quickly discovered that this fellow was actually very difficult to deal with. If it wasn't for the fact that he was injured, he could have torn this fellow apart, but right now, he was probably going to have to spend a lot of effort!

After all, compared to before, the kitten had eaten a pronucleus!

She could understand with a glance, that Long Chen, who was rushing over right now, did not have the ability to kill her.

But she was wrong, Long Chen did not actually want to kill her.

He immediately swallowed the two pronucleus s, and the pronucleus quickly started to emit from his body. He did not have the primitive Power of Reincarnation like the kitten, so the pronucleus gave him the strength of his mental strength!

He already had enough strength to suppress the will of the Ancient Giant Demons. This time, he was even more formidable!

In that instant, he turned into the Primordial Blood Spirit Dragon. In the moment that Little Cat took control of the opponent, the Myriad Death Claw pierced into Jiu Huang's head, and in that instant, he let out an even sharper scream!

Long Chen had directly invaded her consciousness!

His other dragon claws, his entire body, were tightly wrapped around the body of the Nine Phoenix. Even if the opponent was having fire from his entire body, causing Long Chen to be burned in pain, he did not retreat even half a step. Right now, Cat was also enduring the fire with him, so he did not have much time!

It was actually Long Chen who was constantly using his own fire of life to protect himself and Little Cat with all his might. At least until now, the speed at which the Nine Extreme Heaven Flame burned was around the same as the speed at which his fire of life healed Long Chen!

There wasn't much time!

Now, because of the relationship between the two pronucleus, his mental will had been expanded to an unprecedented level. He had entered a world of flames and the blood-red divine dragon let out an earthshaking roar, scaring out the will of the ancient Giant Demons!

"It's you again! No, that's not right. How could you be so strong! "

The ancient Giant Demon was somewhat shocked!

Long Chen didn't say a word as he directly pounced forward. Right now, his plan was already halfway successful, and at the most critical moment, time would be his and Cat's lives. Especially Cat, who was weaker than him, if he didn't quickly succeed, this little guy would probably die.

At the same time, he was also shouldering a huge responsibility!

The responsibility to save the common people!

Everyone's hopes and expectations were placed on him.

Now, everyone saw that Long Chen had used a Divine Dragon Body to tightly bind the nine phoenix beasts, and was deeply stuck inside. However, the Nine Extreme Heaven Fire in the midst of the nine

phoenix's screams was also extremely dreadful, so if it was not for the flame of life, Long Chen would have been burnt to death by now!

This was a stalemate!

It all depended on who could win!

At this time, Long Chen released all of his resentment onto the Ancient Giant Demon in one go. After all, he was the true creator.

The Primordial Giant Demon tried a few times, but to no avail against Long Chen, he had to be afraid!

"Offending me will not end well for you. Let me tell you, I'm angry. Just wait for me to appear and kill all of you!"

The ancient Giant Demon angrily said.

Every time Long Chen came in, she would kill him. This kind of anger made him lose his patience.

Perhaps he still had some extreme methods, but Long Chen didn't care so much, he only had one belief in one thing, and that was to use the fastest speed possible to tear his opponent into pieces!

In the end, he succeeded!

He forgot how much time had passed, he only knew that the other party was constantly clamoring, and that Long Chen had immediately filtered out everything he said, not wasting any time, and shattered the other party into pieces!

He quickly withdrew and left the Nine Phoenix City.

Right now, his entire body was covered in burn marks, and he was extremely weak. Fortunately, the ancient Giant Demon's soul fragment was able to mend his body, allowing him to reach the peak of spiritual will and everything else!

This time, it would at most take a few dozen breaths of time!

In a few dozen breaths, he had succeeded!

Seeing him move, Cat had already returned to his side, causing him to pant heavily. If not for Long Chen's Fire of Life, he would have been burnt to ashes by now.

Everyone was nervously observing the state of the nine phoenixes.

Would she be the same as the Rock witch or the Ocean Divine Emperor?

When the peerless ferocious bird opened its eyes again, Long Chen saw tears in her eyes. She looked around in a daze, and in the end, he saw Long Chen as she shook his head and said, "I'm sorry."

"It's useless to say it, let's fight together!" Now that you have awoken, our chances of victory are even greater! "

Long Chen had transformed into human form, although he was weak, his soul force was surging, at this time, he had the power of the Celestial Slaughter Art to help him recover quickly!

Long Chen used the flame of his life, allowing the Nine Phoenix to return to its perfect battle state.

"Rest assured, I will not make the Sea Divine Emperor's mistake. I, Jiu Huang, have my principles. This time, I am willing to fight with all those who are awake. "

In reality, the reason why the Sea Divine Emperor had betrayed them was because of Long Chen. He had once wanted to kill Long Chen, and even though Long Chen did not make a fuss about it, he still felt a heavy pressure in his heart.

But Jiu Huang was different. Her reputation within the demon race was still good, and even though she was ruthless, she still had her principles. She was a remarkable woman.

"Many thanks!"

After completing this mission, Long Chen finally heaved a sigh of relief.

The others let out sighs of relief.

"Next, let's work together and see if we can awaken more of the Demon Lords, Ocean Emperors and Saint Magi to join us."

Long Chen said.

If he had Nine Phoenix to help him, with his current mental state, the chances of success were even higher. Right now, every Dragon Emperor had an opponent, and if Tyrant Divine Emperor and Tengu still did not return, that would be two against one!

"Alright, I'll do my best to help you!"

Jiuhuang said seriously.

Long Chen was already prepared. Taking advantage that the Tyrant Divine Emperor and Tengu still hadn't given up on their seemingly crumbling Slaughter Heavenly Diagram, he, along with Jiu Huang and Little Cat, were prepared to launch an attack on the Lurker Beast. The Immortal Dragon Emperor would also be able to help them.

However, at this time, an accident happened.

As Long Chen was attacking, he suddenly stopped in his tracks.

"What's wrong, boss?"

"Long Chen, you?" The expression on Jiuhuang's face changed.

Long Chen was also extremely shocked, probably because he had once again defeated the Ancient Giant Demons, causing his willpower to become even stronger. At this time, at this crucial moment, he actually triggered something!

He said in astonishment, "My Seven Stars Tribulation is about to arrive!"

Hearing this, the fifteen Dragon Emperor s were stunned. This was too much of a coincidence, right now was the moment when they needed Long Chen to turn the tide, and the Seven Stars Calamity had actually arrived at this dangerous time.

Above the Seven Star Tribulation, just the tribulation alone was already quite dangerous.

"You can only try to survive this tribulation. I'll protect you." The nine phoenixes were the closest to him and could already feel the thick aura of calamity emitting from his body.

"Thank you."

Long Chen calmed down. Since the Seven Stars Tribulation had arrived, he would wholeheartedly pass the tribulation!

This was not necessarily a disaster. If he could successfully pass through it, his strength would definitely increase by leaps and bounds, reaching the point where he could fight against the Dragon Emperor head on. At that time, his mental will would once again surge, and he could even instantly awaken a Demon Lord!

As long as he can get through it safely ...

Chapter 2418 - Seven Stars Ancient God

Even Long Chen himself never imagined that his Seven Stars Tribulation would occur after he awakened the Nine Phoenix City and swallowed the fragments of the Primordial Giant Demon.

Now was the time to need him. Although the Sky Street's power was terrifying at the time of the tribulation, without Long Chen, the battle could only continue in a deadlock.

And only Long Chen was able to wake up one peak ranker after another.

Furthermore, the Seven Stars Tribulation was an important tribulation, and it was nothing much to the peak experts present. However, Long Chen's tribulation had always been terrifying, and the last six tribulations were about the same as his Nine Palace Calamity.

Of course, there were also benefits.

If Long Chen was able to overcome this calamity and no accidents happened, his strength would definitely increase by leaps and bounds. At that time, with his abilities, he would definitely be able to produce a terrifying effect, and might even cause the entire battle to win!

Therefore, Yang You said: "Before Long Chen's tribulation is completed, we will use all our power to protect him and not give him any chance!"

"Yes sir!"

Everyone knew the importance of Long Chen's tribulation this time.

So they were all ready.

Right now, the only danger was on the side of the Celestial Slaughter Art. The Tyrant Divine Emperor and Tengu viewed this place as their only hope, and thus used all their might to attack, while the human elites placed all their hopes on Long Chen!

Every battle was destined to be a contest of willpower.

Whoever could last until the end would be the victor.

Looking at the situation now, they believed that the hundreds of millions of elites in the human race could restrain Divine Emperor and Tengu. All they had to do was hold them back.

The reason why Jiu Huang did not make a move was partly because he wanted to protect Long Chen, but also because he was worried about the return of the severely injured Evil Spirit Beast from before. He would definitely return, but the question was when.

When everyone was ready, Long Chen had already prepared.

"Boss, I'll head back to the Slaughter Heavenly Diagram first."

The kitten couldn't help, so he went straight back.

Crossing tribulation with only Long Chen and Ling Xi was one person, so Ling Xi was unable to help. Everything depended on Long Chen.

"Brother Chen, everyone is waiting for your victory. Me too, I believe that the miracle you did so, can definitely be done this time!"

No matter what, Ling Xi would always give him a hundred support.

"I don't know what will happen, but you can rest assured."

Long Chen could roughly feel a terrifying pressure coming from the depths of the starry sky. This calamity was even more terrifying than his last six tribulations, if he could pass through it, he would definitely be able to suppress the strong experts of Dragon Emperor level, and might even become the third in the world.

Only second to Spirit King and Yang You!

If there was an enormous leap forward, then this tribulation would prove to be extremely difficult, even starting from the Seven Star Tribulation. His Eight Trigrams Calamity and Nine Palace Calamity, were most likely something that came from the premise of rushing to kill him!

Just when his world was at its quietest, he had arrived!

Long Chen was currently in this starry sky, but under the gaze of everyone, he suddenly disappeared from his original location, leaving behind a lump of bloody mist. That could be considered a type of location.

If he failed, he would never come back.

This ball of blood fog could not be destroyed by other people. If someone else moved, that person would very likely die from the backlash from the heavenly tribulation. However, Long Chen did not care if he survived the Seven Stars Calamity or not, he would never be able to come back.

Now that the Great Demon Lord, the Sovereign of the Seas and the Holy Witch were under the control of the Ancient Giant Demons, it was inevitable that someone would throw away their life just for the sake of killing Long Chen.

When Long Chen left, the battle became even more intense.

The human race members used their passion and perseverance to launch an unprecedented counterattack. They wanted to at least hold on while Long Chen disappears and wait for his return!

Regardless of whether they were strong or weak, all of them were participating in the battle at this time. They all shared the same conviction and expectation!

Long Chen himself never thought that the situation would evolve to this extent. He had already become everyone's last hope.

If he didn't return alive, then all of his dreams and goals would be destroyed! Because of him, the human race would also eventually fall into a situation where they would never be able to return!

Thus, he could only live on!

Regardless of what tribulations there were, there was only one thing in his heart, and that was to kill!

He had never had a good impression of Eighteen Major Tribulations. Although their existence gave people power, it also created countless deaths. In the entire history of the Immortal God Realm, at least half of the people died from Eighteen Major Tribulations!

Everyone wanted to become a god, but no one had ever succeeded.

Long Qinglan also wanted to become a god, but in the end, he failed. Long Chen was his hope!

He didn't know how far away this place was from the Dragon Sacrifice Continent. He couldn't even see any continents around him, and only saw stars the size of ten of chaotic star field's planets. However, these stars were completely empty.

After arriving here, Long Chen finally realized just how enormous this entire world was.

In the past, he had thought that the Dragon Sacrifice Continent was the entire world. But now, he realized that he was wrong.

At least in this place, he couldn't see the Dragon Sacrifice Continent.

He suddenly remembered that when he had entered the War God's War God's Tomb, he had moved from that mural to a place like this one. However, at that time, a strange beast that was as large as a continent appeared, and the reason why he could see its true appearance was because Long Chen was actually very far away from this beast. It was as if he had lowered his head to look at Dragon Sacrifice Continent when he was almost at the Immortal God Realm.

Of course, there were no giant beasts here, only countless empty planets!

But Long Chen knew that the Seven Stars Tribulation was about to descend!

The terrifying pressure that came from the gods was even more terrifying than the Ancient Giant Demons. Of course, Long Chen had not truly met the Ancient Giant Demons, but he was sure that this was the power of gods!

The Seven Star Tribulation came from the ancient seven star ancient god!

Who exactly is this Seven Stars Ancient God? No one knew that they would never appear. Only when a warrior reached the six tribulation of reincarnation and was about to cross over to the Seven Star tribulation of reincarnation, they would appear!

Everyone would suddenly come to a vast starry sky and see them without any emotions. These were the seven true gods that possessed god-like strength, but they seemed to have no mind, no thoughts, and only the desire to kill. In reality, compared to the Demon Lords who were currently fighting, this Seven Stars Ancient God was more like a puppet.

A puppet on a mission.

So, people believed that they were not true deities. They were only a part of the laws of the world. They weren't even living beings, and were only rules. Just like the Purgatory Flame Star Beast and the Giant Thunder Beast of the Ninth Heaven in the Nirvana Tribulation.

Now, when Long Chen raised his head, he could see that in this boundless starry sky, there were actually seven stars that were incomparably bright.

This was the ancient seven star ancient god!

Their light grew more and more intense, and also more and more intense. The direction they were heading in, was obviously towards Long Chen!

Until the very end, when even Long Chen was unable to open his eyes, as his entire body was drowned in this incomparably scorching light. Only at this moment, did he truly realize that this calamity might actually be able to kill him.

In actuality, regardless of whether they were Ultimate Dragons or not, if anything in the world were to be destroyed by the Eighteen Major Tribulations, it would be impossible for them to be reborn.

The Eighteen Major Tribulations was above all else.

What Long Chen was facing now was the third to last tribulation!

In his heart, he was deeply shocked. The might and pressure these seven divine beings gave him was simply too terrifying. The tribulations of the other seven stars ancient gods would definitely not be as terrifying as his own.

When he felt that the surrounding light rays had dimmed a bit, but the pressure was even more terrifying, making him want to kneel down, he opened his eyes.

He looked around, only to see that there were seven Divine Spirits, surrounding him, each of them were about tens of thousands of metres away from Long Chen, each of them were more than a kilometer tall, their bodies were glowing with a strong star light!

This is a god!

Long Chen looked carefully, and saw that every single god had a different appearance, but they were all extremely handsome or beautiful. Their skin looked like the purest of jade, without any impurities, like Yang You's dragon's purity. Whether it was the headdress, attire or boots, they were all extremely luxurious and complicated. Faintly revealing a vast power, like a small pendant, giving Long Chen the feeling that even the Limitless Dao Artifact could not compare to them.

Seven Star Ancient Gods, approximately four men and three women. The men were all valiant and the women were devastatingly beautiful. Every minute detail was considered perfect!

Their glass-like eyes were currently staring at Long Chen, and as expected, they were not affected at all. But what was terrifying was that their eyes made Long Chen feel his scalp go numb, and his spine turn cold.

Every single one of them possessed immense power, and they felt that they could easily kill any single Dragon Emperor, or even just think of a way out. However, with how powerful they were, it was clear that when they were attacking him, they would not use their full power. Otherwise, any one of them could tear Long Chen apart!

Without any warning or warning, the Seven Star Tribulation began.

With a casual flick of their hands, streams of starlight that were like swords flashed across thousands of kilometers in the blink of an eye, arriving in front of Long Chen in the blink of an eye, bringing about an almost fatal crisis to him!

Battle, begin!

To Long Chen, this was a battle!

Chapter 2419 - Undying Will

Long Chen didn't know how long this calamity would last, he only knew, that even if it was a god, he wouldn't need to be scared, he only needed to treat his opponent as a normal opponent, and he would just need to fight!

This way, he could reduce some of the pressure.

Otherwise, every time he thought that the deity was trying to kill him, he would be scared to death. How could he possibly succeed?

Just like the seven streaks of starlight that were charging from seven different directions!

Although they looked the same, they were all different. The powers within were all different, but all of them could bring fatal danger to Long Chen, this power was so strong that even the first attack was similar to the first attack of the Dragon Emperor. How could he endure this?

Long Chen did not think so much!

He had turned into a dragon in an instant. If he didn't turn into a dragon in this battle, then he wouldn't be able to block it!

The first beast he transformed into was a Great Void Cosmic Dragon!

This way, he could use the power of time to its fullest!

"Spacetime reversal!"

When the seven rays of starlight ruthlessly rushed towards him, Long Chen chose to reverse space and time. This was his first attempt and he understood at the same time, that if he wanted to be surrounded and attacked like this, he could only wait for death. Maybe many people would only silently endure when facing this Seven Star Ancient God, worried that they would be scared, but Long Chen was not such a person.

He has ideas.

The first time he entered the battlefield of the Gods, the inside had become the White Bone Divine Palace. When he fought with the divine generals inside, Long Chen could more or less understand that his Ancestral Dragon Art was above even the rules of the divine realm.

The most terrifying part of the seven ancient gods' starlight attacks was the power of laws!

But Long Chen was different. His Seven Stars Calamity's strength had already surpassed the level of his Nine Palace Calamity, so at this time, the power of the laws even occupied half of the attacks he was facing!

If he did not have the Ancestral Dragon Art, he would have certainly died in the first round. This was because the power of the rules, was something even the Dragon Emperor and the rest could not withstand!

These were all his guesses.

At that time, air reversal actually truly blocked the seven starlight attacks, and gave him the chance to escape. Only then did Long Chen confirm, that the opponent's attacks indeed possessed quite a terrifying power of laws!

Luckily, this was not the true strength of gods. With this many Seven Star Ancient Gods, if any one of them really wanted to kill him, they would only need a single movement!

After dodging the attack once, Long Chen chose to flee. Of course, it was because of his teleportation, he knew that he could not be surrounded and beaten up again!

He turned into an Archaic Blood Spirit Dragon and disappeared in a flash, dashing through the starry sky!

However, their opponent's speed was even faster. This time, they were not only in pursuit, but they were also in the middle of a chase, directly slaughtering each other!

In the blink of an eye, that extremely terrifying attack had fallen beside Long Chen time and time again!

On the left, countless stars condensed to form a palm that was large enough to match the width of the entire Slaughter Dragon City. That palm that could cover the sky fell from the sky, smashing down towards Long Chen with an incomparably fierce speed.

"Ten Thousand Deadly Claw!"

Long Chen was really crazy, the palm was so huge, he could not even escape, so he immediately used Death Claw and clashed head on with the palm!

Blood exploded all over his body in this terrible injury, and he almost fainted from the impact. However, he still relied on his strong willpower to tear open a path of blood and rush out from the star fragments!

He knew that although the Seven Stars Ancient God was powerful, so many people were waiting for his return. He absolutely could not die here, this was the responsibility that he had to shoulder as a man!

I can't die! I absolutely can't die!

It was these wills that drove him to act like a madman.

For many years, he had never seen any sort of danger. Although he was facing the most terrifying opponent this time, he was not afraid.

In fact, he had already forgotten that there was a very important thing on his body, and that was the God's Mandate Liquid.

This time, the Seven Stars Tribulation had already surpassed the power of the Nine Palace Calamity. Whether or not it could allow him to pass through was hard to say, after all, the god's element liquid was designed for ordinary people.

However, he had never thought of the god's household spirit liquid.

This was his will. He would go against the odds and never retreat. Even if it was possible, he wouldn't use it. Once he used it, it would mean submission!

He could not yield!

Now that the fire of life had surrounded him, as long as he did not die instantly, he would not die!

This was his biggest advantage!

Of course, the Seven Stars Ancient God wasn't someone to be trifled with either. The moment Long Chen escaped from the palm of the stars, even more attacks that covered the sky came straight at him!

Indeed, no matter what happened, the power of laws would always be terrifying. Only the gods could use the power of the Edicts.

Right when Long Chen was about to rush out of the Stellar Palm, a seven star Ancient God who was a thousand meters tall instantly appeared in front of him. He stretched out his hand and clenched it into a fist, and the moment Long Chen appeared, that fist that was shining with a strong light, which could almost blind Long Chen, smashed towards his head!

Within his fist, hid rules that Long Chen was afraid of!

But Long Chen was not scared, in that instant he transformed into the divine way's heart dragon, he unleashed the blade and sword god hell, one million blades and swords rushed out, clashing with his opponent's fists, and at that moment, Long Chen quickly retreated!

The Blade Sword God Prison blocked his punch, but all of them were ripped apart. Of course, Long Chen was able to escape a calamity, if he were to clash head on with the fist, he would definitely be severely injured!

Every single one of the seven star ancient gods had brought a fatal blow.

Long Chen continuously broke through the encirclement, but he did not succeed even once. Under the attacks of the seven ancient gods, he moved around, changing between the four types of Ancestral Dragons, escaping from multiple calamities, but he was already riddled with scars!

Every one of the seven ancient gods were very cold and emotionless. They would only constantly attack, and every one of them would launch a fatal attack.

If he did not have a strong will and conviction, Long Chen would have lost long ago.

However, he was still persisting, because there were so many people who needed him, he knew how important he was. If he died, many people would feel despair, and at least Ling Xi would ignore everything and follow him out of this world!

Therefore, even though he was riddled with scars, he didn't frown at all. Instead, he unleashed his most frenzied stance, even launching a counterattack. He had even forced one or two Seven Star Ancient Gods to retreat!

Just in terms of fighting strength, every single one of the Seven Stars Ancient Gods were comparable to a Dragon Emperor.

This was definitely going to be a calamity that would kill Long Chen. If the Ancestral Dragon Art didn't stand above the rules of the gods, he would have already been massacred long ago.

This battle that had never stopped, he simply did not know when it would end!

Usually, this would be an unimaginable test to the tribulation participants, but Long Chen had long forgotten about everything. He did not care how much time had passed.

This was the difference between him and everyone else.

When he turned into the Primordial Blood Dragon, it was the best time for him to reach his current state of mind. When he fought the Seven Stars Ancient God head on, he constantly changed his Ancestral Dragon Art, and with the combination of many abilities, it even produced a huge effect!

The eyes of the Seven Star Ancient God in front of him suddenly exploded with two rays of destructive starlight. It was simply impossible to guard against as Long Chen was rushing towards him!

He let out a roar, and his body was directly struck by the starlight, his skin and flesh splitting apart, blood shooting out. That was a huge pain, but in order to win, he endured it, using his last bit of strength he had suddenly appeared in front of the Seven Star Ancient God, the Myriad Death Claw directly slashed across his opponent's face, tearing apart a large amount of his flesh and blood!

Weng! *

Suddenly, that Seven Stars Ancient God turned into powder and disappeared before his eyes!

As long as they were attacked, would they disappear?

Long Chen could not help but sneer.

After being ravaged for nearly an hour, his chance had finally arrived! In this hour, he had nearly lost his life countless times. It was the flame of his life that had allowed him to persevere and survive. He had been wounded countless times, and he was gritting his teeth to persevere. He had been waiting for this moment!

From the beginning to the end, he didn't obediently endure the attacks. Instead, he unceasingly countered. This was his style!

"Next, you!"

Long Chen had set his eyes on a thousand meters tall perfect goddess. Her appearance was simply enough to make everyone intoxicated, but in front of Long Chen, he was just a prey.

Long Chen could endure the pain of almost being killed by the opponent, but the opponent could only endure one of his attacks. Long Chen's Ten Thousand Deadly Claw time and time again tore away at the Seven Stars Ancient God's face, tearing their almost perfect faces into a bloody mess!

"Heh heh."

In the end, his entire body was filled with pain and he was panting heavily. However, his opponents were becoming fewer and fewer.

Perhaps, even if the Seven Stars Ancient God had mental fortitude, he would only be able to admit defeat when facing such a suicidal opponent like Long Chen!

He was different from other people. In these countless years, this was the first time he defeated all the Seven Stars Ancient Gods!

The others were still holding on. If they could hang on for too long, then it would count as their victory.

Until finally, when the last Seven Star Ancient God dissipated under the Thousand Death Claw, Long Chen finally obtained complete victory. In that instant, he felt as if he was in another world.

It wasn't that he was insistent. If he wasn't working so hard, he would have died long ago.

However, he did not heave a sigh of relief. This victory was not easy to achieve and the Seven Star Ancient Gods were also full of strangeness. The future Eight Trigrams Calamity and Nine Palace Calamity would definitely be even more difficult.

Today, he had nearly lost his life, which was why he had barely made it through.

At this time, the starry sky suddenly rotated, as if the entire world was being compressed. Then, a mystical force entered Long Chen's body.

"Is this the power of divinity used by the Seven Stars tribulation of reincarnation? The power that leads to the gods! "

Chapter 2420 - Singular Fusion

Generally speaking, for warriors who had been killed by the Seven Star Ancient Gods, a great change would occur after they had transformed into Seven Star tribulation of reincarnation, and that was when they had received the seed for the power of divinity from the Seven Star Ancient God.

Then, the seed of the power of the God Realm would take root and sprout, transforming the power of the six paths of reincarnation into the power of the God Realm. It caused his seven star tribulation of reincarnation to soar.

Generally speaking, the reason why a Seven Star tribulation of reincarnation martial practitioner could crush six tribulation of reincarnation martial practitioners was because this kind of power that connected to the gods, as its name implied, was the power that led to the gods.

When Long Chen was still in the chaotic star field, he could only fight against people like the Primal Chaos Kurlun. He was not a match for the Seven Stars tribulation of reincarnation who had the power of the gods, but because he inherited the power of the Primal Beginning Divine Powers, he was able to fight against the warriors who had the power of the gods!

But of course, divine power from the Grand Beginning had basically lost all of its effectiveness.

The real seed of the Power of God had fused deeply with his six paths of reincarnation and began to transform greatly, transforming all the power of reincarnation into the Power of God!

Compared to the Power of Samsara, the power of divinity was much stronger!

From the sixth tribulation to the seventh tribulation, it meant that a martial artist had completed their reincarnation cycle and was beginning to embark on the road to becoming a god. Thus, in reality, starting from the seventh tribulation was no longer considered tribulation of reincarnation.

Seven Star Tribulation, Eight Tribulations and Nine Palace Calamity were the first three trials of the final divine tribulation.

However, in order to conveniently correspond to the Nirvana Tribulation Realm, people still used the last three calamities as tribulation of reincarnation. But in reality, the meaning was already different. Furthermore, it would become even stronger and achieve a transmogrifying effect.

Long Chen was already undergoing a transformation at the level of his strength.

At the same time, the body of the Four-Layered Ancestral Dragon was also growing together, moving towards adulthood. But Long Chen knew, even though he had inherited the ancestral dragon-inherited blood, he still lacked one thing, something that could make all the Dragon Fighter truly become True Dragons.

This was deduced from the language of the ancient Giant Demons.

It was a pity that Long Chen didn't have the power to make the Ancient Giant Demon tell him the truth.

However, he was not discouraged. It was precisely because he had a problem to solve and a goal that he was filled with fighting spirit. That was the direction in which he lived.

However, Long Chen felt that this power of the gods was a little strange.

Was this a power bestowed by the heavens to the gods?

Although he didn't appear to be much, he still felt that something was off. It was as if his Primordial Blood Spirit Dragon body was somewhat rejecting him.

However, it was true that he had already grasped the current surging power!

The power of the Penetrating God was his own energy transformation, and he could use it as he wished.

But just at this time, the Absolute Beginning Divine Spirit that was previously left behind by the Primal Beginning Divine Spirit was suddenly outside of Long Chen's control. He made a new move, and when the power of the God Realm converted all the six paths of reincarnation into the power of the God Realm, the God Realm power actually pounced on him!

The difference between them was like the difference between the physique of a mouse and an elephant.

However, it seemed as if the power of opening the mind didn't have much resistance. The power of the Absolute Beginning Divine Force simply tore it apart and poured all of it into it. The moment the power of opening the spirit was completely poured into it, a new round of transformations happened to his entire body's strength!

When the surging energy circulated, rolled, and fused within his body, it finally formed a brand-new energy. This kind of energy was tougher and more powerful than his divine power and divine power, or even his divine power of the Absolute Beginner Divine Spirit! With an even more violent and explosive divine might, Long Chen's strength was once again raised to another level!

Moreover, this was a kind of power that Long Chen was somewhat familiar with.

It was primal and vast, as if it came from a distant The Age of Dragons. It was incomparably desolate, but it also had the purest of powers, with not the slightest bit of impurities.

"This is the Primordial Power of Reincarnation?"

He did not expect that after seeing this power in Cat's body, the fusion of the power of the Primal Beginning Divine Powers and the power of the Divine Path would also give birth to this kind of power!

Although it was also from the Primordial Power of Reincarnation, which made the kitten's power appear softer, Long Chen's power was still very strong!

It was not white, but changed color as Long Chen turned his body.

To Long Chen, this was a very unexpected gain. When he finally reacted, he was even a little wildly overjoyed, because he had finally succeeded!

He had actually succeeded at this last moment!

Although it was very difficult, he had indeed crossed the Seven Stars Tribulation and defeated the Seven Stars Ancient God! In terms of strength, he had improved by leaps and bounds! From now on, Long Chen could confirm that he was truly at the peak of the Immortal God Realm, comparable to a Dragon Emperor or even surpassing one!

The only two people who were unsure of themselves were probably Spirit King and Yang You.

But even so, he still stood at the peak. Long Qinglan's expectations for him, were more or less fulfilled! He finally possessed the power of a ruler!

It wouldn't be wrong to describe the current him with ecstasy.

During this period of time, there had been eternal chaos. Everyone around them had lived in the midst of grief and chaos, fighting to the death every single time. But before Long Chen, he did not have the ability to completely reverse the situation and help everyone. His heart was full of depression, and he was very disappointed in himself!

But now, the light of hope had finally become so strong!

His mental strength had also increased by a lot. Right now, his willpower was stronger than when he had consumed the two pronucleus. With his mental strength now, he could kill the ancient Giant Demons in an instant!

"Brother Chen, congratulations."

Ling Xi was the one who had witnessed everything and she had been extremely worried before this moment. It was only at this moment that she finally let out a sigh of relief.

With the Three Lives Silk, you can now unleash even more power. You can learn the later parts of the Sector lord Divine Arts. "

Long Chen felt a sense of accomplishment.

"Yeah, why didn't I think of that!"

Ling Xi couldn't help but laugh. Having three years of love, even if Long Chen was strong, she was also strong.

At this time, the power that brought Long Chen back had descended.

Long Chen was still a little worried. After an hour had passed, what was the situation there?

The bitter battles continued without end.

In fact, the human race had truly endured. Tyrant Divine Emperor and Tengu finally realized that the people hiding in the Dragon Slaying City were just too tenacious, they did not even know where they had come from, and every time they saw that they were going to succeed, the other side would stand up once more. Even if they were severely injured and dying, they would still persevere.

This will was truly terrifying.

Therefore, under Yi Xue and Meng Hen's orders, they had given up on the easiest way to succeed and had directed their bloodthirsty gazes to the Dragon Emperor s.

What was even worse was that the evil spirit beast had recovered from its injuries and returned!

They had actually given up on slaughtering the Dragon City. This was truly unbelievable. After all, the human elites were on the verge of collapse.

The return of the evil spirit beasts had given them new nightmares!

At this time, Nine Phoenix had no choice but to leave Long Chen and fight three opponents alone!

Fortunately, Jiuhuang had received sufficient rest, while Tyrant Divine Emperor and Tengu were both very tired and exhausted. The evil spirit beasts could not recover much from their severe injuries, so in this situation, Jiuhuang relied on his superb speed to deal with them, and he was actually able to persevere!

However, this state would definitely not last long!

Tyrant Divine Emperor and Tengu only needed to rest for a short period of time before they would have the power to attack again. Furthermore, the evil spirit beasts would often seize the opportunity to sneak attacks on the Celestial Slaughter Art, and with the ability of the evil spirit beasts, they had almost caused the Celestial Slaughter Art to collapse several times!

Even so, no one would be able to hold on for long under the attacks of the voice of the evil spirit beast.

Fortunately, at this time, Yang You and a few Dragon Emperor had heavily injured an opponent and returned to the Slaughter Dragon City. They had temporarily resolved the crisis, especially Yang You, who had escaped the moment she had arrived.

The battle entered a state of chaos.

Everyone was exhausted!

However, under the control of the ancient Giant Demons, the enemies became more and more crazy, and the color of their eyes became more and more intense.

At this rate, with the evil spirit beasts, the Celestial Slaughter Art could still collapse.

"How long did Long Chen take the tribulation?"

Yang You was also panting for breath. In reality, it was easier for her to kill people than to seriously injure them. This level of injury was too difficult to grasp, it was too light for her to deal with, but too

heavy for her to die. At the very least, Jiu Huang and the two holy witches wouldn't want their own people to die.

"It's been over an hour."

"Will he ..."

Yang You shook his head and said, "Impossible. If even the Seven Stars Tribulation can't endure, how can Nine Palace Calamity endure the Eight Tribulations in the future?"

"Everyone, hang on for a while longer. When Long Chen returns, it will be time for us to win!"

At this time, someone in the Slaughter Dragon City shouted.

Everyone was greatly encouraged. Since no one attacked Dragon City, they would support the Dragon Emperor and help them replenish their strength.

Although it was not a big deal right now, the opponent would not retreat at all. If they continued to fight, more people would die.

After exchanging blows over and over again, everyone was exhausted to the extreme.

Their blood and tears were mixed together as they forcefully endured it. Their eyes looked towards the direction that Long Chen disappeared in as if they were on a pilgrimage.

Right at this moment, the evil spirit beast actually charged in that direction!

As long as he destroyed what Long Chen left behind, Long Chen would not be able to come back. Of course, he would be punished by the reincarnation tribulation, and it was very likely for him to die.

"Damn it!"

At this time, Yang You and the Dragon Emperor had no choice but to give up their opponents and chased after the evil spirit beasts.

"Stop them!"

Yi Xue smiled as she gave the Demon Lords an order.

Those Demon Lords, the Sovereign of the Seas, and the Holy Mage immediately gave up all hope. They firmly entangled Yang You and the others, preventing them from intercepting the demonic beasts!

The two heads of the evil spirit beast let out a cold laugh. The female evil spirit beast controlled her body, and her blade-like flesh wings slashed towards the blood mist!

Just at this moment, there was a loud rumble as a person appeared under the evil spirit beast's killing move!
