

## War God 2431

Chapter 2431 - March

Spirit King had followed them for so long just for this child's sake.

Now that the fetus had gone through a transformation and started to grow, he couldn't wait to appear.

Perhaps to him, he thought that it wouldn't be hard for him to get ahold of this child. He knew that it was the psionic inheritance that gave him such a status and position. This was the title of the world's most powerful person.

But he was once the strongest person in the world, and he was once given to someone else. That person was the Eternal Dragon Emperor. After that, the Eternal Dragon Emperor rose dramatically in power. He was unable to resist at all, and could not even be a match for a single strike.

Therefore, the name Eternal Dragon Emperor was simply a lifelong nightmare for the Spirit King.

This was also the only time he had doubted the psionic inheritance.

Now, Long Chen's attitude was so resolute, asking him this question.

This was something that only Long Chen could decide, so the Dragon Emperor would not say much. But in reality, they understood Long Chen, and knew that even if he was killed, he would not send his child out. He was still young, and this first child was too important to him.

Spirit King paused for a moment, then said: "Just tell me what you decide."

Ling Xi was not nervous at all. She had ten thousand trust in Long Chen, and knew that he would definitely not send his son out to inherit some psionic inheritance. He didn't need this at all.

"This means that his inheritance, my inheritance, is stronger than your psionic inheritance. Perhaps he cannot soar into the sky in a single step, but there is still a future that you cannot imagine, and our parents will properly teach him how to be a human, not to be your puppet and do things according to

your will. This is our first child, the most important thing in our lives. So, I am sorry, but no matter what price you have to offer, I will never agree to your request! "

He also wouldn't beat around the bush. If he said it directly, it would also save the Spirit King a lot of hassle.

"Heh heh."

Hearing this, the Dragon Emperor and Yang You relaxed, and only Spirit King suddenly laughed softly, and said: "You sound so nice, but who doesn't want to have a dream of taking a step into the sky. You are rejecting it now, it's just that you don't understand the true meaning of psionic inheritance. But one day, when you see your child instantly surpass you and become the strongest in the world, you will understand! "

This was a question of ideas.

Long Chen was too lazy to say more, and he shook his head: "My thoughts are different from yours. My father never allowed me to ascend to the heavens in a single step, but rather allowed me to slowly climb up from the lowest level of cultivation, allowed me to experience all sorts of things that others have never experienced, and instilled great power in my heart. When I say this, someone like you who has obtained the inheritance can't understand it. All I can say is that when we see each other in the future, it will be fine. However, my child, I will still say that even if you kill yourself here, I will not give it to you. "Because we don't need it."

He had already made it clear that with such a resolute attitude, even if Spirit King persisted, it would be useless.

Yang You also said, "Spirit King, please go back. Not only will he not agree to it, neither will I, Ling Xi, and the fifteen of us Dragon Emperor s will not agree to it. This child is too important to us for any of us to lose him. As for the psionic inheritance, I can only thank you for your good intentions. Now, I can only hope that you can find a better inheritor. "

The Dragon Emperor began talking at once.

In the end, he waved his hand, and laughed: "But Yang You, I can use ten thousand of my confidence to believe that the most suitable successor to my psionic inheritance is this child. No matter how good his other talents are, compared to him, they are still nothing more than a bad apple, a bad apple."

As he spoke, he was filled with emotion. He turned around and walked out of this place step by step. In the blink of an eye, he disappeared from everyone's sight.

"He's gone."

Yang You confirmed.

Everyone heaved a sigh of relief. After all, this was the highest under the heavens right now, and he possessed countless methods. Who knew what kind of losses he would bring to the human race if he went crazy?

They were afraid that he would fall out with them.

"Brother Chen, from the way he said it, I keep having the feeling that he won't let this go easily."

Ling Xi said bitterly.

She cared more about the child in her arms than anyone else. After all, she was the child's mother. Thus, she had always been thinking about him.

Long Chen felt the same way.

The Dragon Emperor discussed for a while, then said: "Actually, there is no need to worry too much. We are unwilling, and the Spirit King has no other choice, unless he is crazy to the point that the entire Spirit Race doesn't want him, we are not easy to deal with. If he really dares to mess around at this kind of juncture, then he will have to pay the price."

After experiencing the ancient Giant Demon War, everyone was now filled with murderous intent.

The appearance and requirements of the Spirit King was just an interlude. In reality, the most important matter for everyone was still the matters of the Demon Star. After discussing for a while, everyone decided to inform the peak experts of the Demon Clan, the Sea Clan and the Witch Clan about this matter.

Then, the entire central palace started to construct countless Star Symbols, connecting all the powerhouses together through these Star Symbols. Very quickly, everyone was gathered. These Demon Lords, Saint Mages, and Ocean Emperors, some of them had yet to return to their respective places and were still on their way back.

"Dragon Emperor, what on earth did you want to do to make you so grand? We're still busy."

One of the Demon Lords bellowed.

It could be seen that his inner heart had already relaxed.

Long Chen did not have the heart to let them know about this.

But he had to.

So, after gathering everyone together, he started to say, "Seniors, please calm down. There is an extremely important matter that I must inform you of."

Afterwards, he used the Star Talisman to explain everything that had happened. At the beginning, the Demon Lord, the Ocean Emperor and the Holy Mage were still quarreling, asking him what had happened. In the end, everyone was silent.

Their mood must be as bad as the Dragon Emperor's right now.

Compared to this crisis, the last time was like a small fight. If the Immortals really did come out of the demon star, then the Eternal Realm of the Gods would be finished. There was simply no room for negotiation, they would die without a doubt!

Moreover, they had just destroyed the avatar of the ancient Giant Demon. If they met him again, they would definitely lose their lives.

After a long while, no one spoke. It was obvious that they were all in a heavy mood.

"Sigh, it seems like we're dead for sure. If I had known earlier, I wouldn't have expended so much effort just to extend my survival time!"

"That's right, I never thought that it would be this kind of Devouring Demon. It's just too hateful!"

In that moment, everyone was filled with indignation. They were different from the Dragon Emperor, although they knew the relationship between Mo Xiaolang and him, they couldn't help but feel resentment.

"I feel that the only way for us to do this is for someone to be willing to sacrifice themselves. Then, before that Devouring Demon can destroy the Magic Star Seals, we will enter the devil star and try to make this Devouring Demon unable to complete its mission!"

"Yes, this is the only way to save the common people, as long as we can kill this Devouring Demon, we will definitely kill him." Yes, this is the only way to save the common people, as long as we can kill this Devouring Demon, we will definitely kill him.

"That's right, we can only do that. Wait for everyone to settle down and settle down, then we can start planning to enter the demon star realm. History will remember this great feat."

Facing these words, Long Chen's heart was also extremely bitter, and he didn't know what to say. Yang You patted his shoulder and said, "If you want to say it, then say it."

Long Chen nodded, and interrupted everyone's words, and said: "Everyone, can you listen to my words?"

"Of course, go ahead."

Long Chen's words now had a lot of weight to them.

Long Chen said: "The relationship between me and Little Wolf, you may have heard that the brothers who have been fighting side by side with him since a long time ago, to the point where he finally became bewitched and was sent to the Demon Star, it is all because of me, so I hope that I can resolve this issue. In the future, I will enter the Demon Star, but I still hope that everyone can give me a period of time, to make me stronger, to let me become more powerful, and to be able to face the four words, Dragon

Emperor's, with that in mind, I have a great chance of preventing him from entering the Demon Star, and because of the two of them, maybe he can still listen to me."

In this matter, the most suitable person to enter was Long Chen, and the most unsuitable person to enter was him.

The most suitable way to enter was naturally because of the various factors that Long Chen had mentioned before, and the most suitable was because after entering the Demon Star, even if one could stop the other party, if one were to meet the Primordial Giant Demon directly, and even if one were to come out of it, they would basically die. And Long Chen possessed enormous potential, so he shouldn't die like this.

Hearing this, the Dragon Emperor would definitely not be willing.

However, the rulers of every clan would think for their own race. Hence, the Spirit Demon Race, Sea Clan and Witch Clan did not speak up when they heard Long Chen's words.

Finally, the Demon Lord Jiuhuang said, "Perhaps within a year, the Demon Star's seal will be broken. If you truly decide to enter, we can only give you three months. Your rate of progress is extraordinary, perhaps you can change quite a bit in three months. "Also, if there's no other way, you must kill the Devouring Demon. If you don't kill him, the ones who die will be all the people in the Immortal God Realm. If you decide to enter, we still hope that you can have such awareness!"

This was what everyone was thinking in their hearts.

"Then, three months."

In the end, everyone agreed on this.

At the same time, every clan would send people to planet Tian Long with Yang You to observe the movements of the devil planet.

They finally decided to give Long Chen three months of time.

In reality, this was not really an overbearing request from the other party. From these three months, everyone already had enough respect for Long Chen. If not for Long Chen, who would have allowed so many people to live and die, and even the future of the entire Divine Realm and the Dragon Sacrifice Continent of the lower realms, no one would have allowed one person to waste three months of time.

But they trusted Long Chen, so they gave him three months of chance to grow.

Based on the degree of power Long Chen had displayed in the past year, it was simply frightening to the extreme. Perhaps he really could change anything in three months, and he was unsure of what exactly that would mean.

Long Chen was the most suitable person to enter the Demon Star. Of course, if Yang You chose to enter, the benefits would be greater. But Long Chen was definitely someone who was easily emotional, so no one was in a hurry to make a decision.

But in Long Chen's heart, he had already made a decision.

For Mo Xiaolang's sake, he had to go in.

On one side was the common man, while the other side was his own brother. It was very likely that he would have to choose between one of the two, which was undoubtedly the most difficult choice for him to make, so he had to meet Mo Xiaolang. He had to make him stop his actions in safety, and then think of a way to escape from the place where the devil star was located.

After all, Long Qinglan had entered the Demon Star before, and even came out of it, hadn't he?

Therefore, he would target his own father.

After a while, the experts discussed a few details and dispersed. From now on, they would take turns sending people to Sky Dragon Star, and they had even decided to send a few people, so that once the Magic Star Seal disappeared in advance, they would still be able to protect themselves.

They were in a hurry, but before they had a chance to calm down, they started a new battle arrangement. On the human side of the Five Dragon Cities, the Dragon Emperor began to arrange a new round of defense. Of course, the news couldn't spread out yet, otherwise, it would attract a lot of panic.

Therefore, many of the arrangements were secretly made. The moment there was any movement on the side of the Demon Star, they would be able to react to it.

Long Chen only had three months.

Yang You left for Heavenly Dragon Star. She had to protect that place and observe the movements of the devil at the same time. For this reason, she definitely had to bid farewell.

"Take good care of Xiao Xi, she's the most important one, do you understand?"

Although Yang You had an indifferent personality, he still warned her a million times at this moment.

"Yes."

"Also, don't put too much pressure on yourself. We'll deal with it in the future. Just like this time, there is always a way out. There were many opponents in his life that made him feel powerless, no? But in the end, you even surpassed them. "

On the road here, when Long Chen was still very weak, there were many enemies, just like the Ancient Giant Demons today. He was simply an ant in the opponent's eyes, but in the end, he still won and far surpassed them!

This was his ability!

Following that, Yang You left.

The three Dragon Emperor s of the Dragon Slayer City were making emergency arrangements.

Long Chen bid farewell to the three Dragon Emperors, together with Ling Xi and Little Cat.

"Where are you going at this critical moment?" The Blood Tyrant Dragon Emperor said worriedly.

Long Chen said: "Take a walk. See if there are any breakthroughs. There's only three months left. "

The Dragon Emperor pondered for a while and said: "The pressure in your heart is great, it's good for you. If there's anything you need, just say it.

After thanking the Blood Tyrant Dragon Emperor, Long Chen left the Dragon Slaying City. He randomly picked a direction and headed towards the southeast, he was not in a hurry to make his way there, instead he walked on the ground and concentrated on the scenery along the road.

"Boss, what are you doing? Are you so free that your balls are hurting?" Time is running out. How can we walk around here? "

Little Cat also didn't understand. Although Mo Xiaolang was the culprit, he still acknowledged him from the bottom of her heart, and now, she was thinking of how to stop him and bring him out.

Long Chen didn't answer him, but Ling Xi stood beside him and said softly, "He must be thinking about something, no problem. After devouring the will of the Ancient Giant Demon, his comprehension ability has become extremely powerful, and he should be in a certain state now. I think he is activating a new divine ability."

understood Long Chen the best.

Now that he had just stepped into the Seven Star Tribulation realm, it would take him at least a period of time to reach the late Seven Star Tribulation. It would take at least two to three months or at most half a year. During this three-month period, it was important to reach the late stage of the Seven Star Tribulation. However, this was based on accumulation; it couldn't be done overnight.

However, whether or not he could become stronger in three months' time, Long Chen had to become stronger in all aspects. Other than the cultivation of the Primordial Power of Reincarnation on the Seven Stars Calamity, there was another important aspect, and that was the awakening of the Ancestral Dragon Art!

For a very long time, Long Chen had actually neglected this part of the cultivation, which was the Heavenly Dao. From the Heavenly Dao to the Ancestral Dragon Art, so from the Ten Thousand Deadly Claw, the Killing Dao Seal did not progress, nor did the Time Dao Seal.

As for the Dao Seal of Life and the Dao Seal of Karma, they had both just begun.

If he could not slow down his cultivation, then he would have to make up for it.

Right now, his perception was gathering all four of his Ancestral Dragons, making it so that no one in the world could compare to him. At this moment, walking in this river mountain, stepping on the home he was protecting, seemed to have gained a new understanding in the darkness.

In reality, from the moment he entered the Nirvana Tribulation Realm, he had already understood his path of slaughter. The core was to protect, previously only to protect Ling Xi, his lover and brothers, to kill for the sake of protecting him. But this time, the purpose of his protection was even greater!

From an individual, he became tens of millions of people. Billions of people. He became an entire home that protected the bloodline, protected the foundation, and protected the heritage that the human race had passed down for tens of millions of years!

Killing was to protect one's family and protect one's country.

This filled his heart with a sense of grandeur, as if he had been born for this very reason. He had even done all of this without any regrets. He was sure that his father would be very pleased if he knew what happened to him today.

Now that he was slowly walking on this piece of land, traversing through mountains and rivers, feeling the passion this land had towards him, Long Chen could always find a kind of comfort in his heart. He felt that for the sake of this inheritance, for the sake of this divine dragon's final descendant, no matter what price he had to pay, it would all be worth it!

This was his current willpower!

After knowing what he was doing, Cat and Ling Xi obediently followed behind him, not disturbing him at all.

"Cat, look."

Ling Xi pointed to Long Chen in front.

Cat took a look and was startled. "What a cool show," he said in surprise.

At this time, Long Chen's entire body was already enveloped by the red flames. The red flames were formed by a transparent red dragon that was coiled around his body, and the flames were like breathing, it was a little fierce, and a little deep. However, Long Chen knew nothing about all this. He continued to walk, as if he had forgotten about everything else.

After a few days, his speed gradually increased. If it wasn't for the fact that Cat was fast enough, the two of them would not have been able to keep up.

After his speed increased, the fiery red divine dragon that was once wrapped around his body actually reached Long Chen's head. Its head and tail were connected as the dragon head bit on the dragon tail, forming a flaming ring, enveloping Long Chen within it.

At first, Ling Xi and Cat only felt that it was a little strange.

However, upon closer inspection, the ring of flames formed by the Divine Dragon actually contained tiny blood-colored characters and symbols. A small area like this was actually densely packed. It was as if it was connected as a whole, as if it was a flat dragon head.

"Within this circle, a terrifying aura of death is gradually being emitted. It shouldn't be from this world, but from another world. It must also be quite a horrifying world."

Cat said in shock.

"What could it be?"

Ling Xi was also looking forward to it.

Unknowingly, they had already reached the eastern side of Dragon God Domain, the Life Dragon City's land. But Long Chen did not stop, he continued to advance forward, and in the process, the blood red divine dragon above his head formed a larger ring, and the blood red runes on it also increased in number, wriggling like a small dragon!

Within the circle, a boundless death aura came from another world. Wherever Long Chen went, the grass and trees withered, the rivers evaporated, and the ground was charred black. This was not an attack by him, but a terrifying aura that he had unknowingly revealed.

"Within that door is another world."

The kitten said confidently.

"This should be a killing move. It's stronger than the others. The boss probably came out this time just for this move. He's about to succeed."

Ling Xi was filled with anticipation.

She knew just how great of a use this current strength would have on Long Chen. ))

Everything Long Chen anticipated, was what he expected.

In the blink of an eye, they had already left the Immortal Divine Region and arrived at Eastern Star Region.

"I finally know where his target is. So it's the Divine Dragon's Origin, where's Ancestral Dragon Cave?"

Ling Xi said in surprise.

At this time, the ring of fire dragons above Long Chen's head was already fairly large, and it was even more so that they did not dare go near it.

Ahead was the Ancestral Dragon Cave.

So what was he going to do?

#### Chapter 2433 - Death Realm's Dragon Gate

Long Chen felt that the killing intent in his heart was just too strong.

Otherwise, he wouldn't have activated the Archaic Blood Spirit Dragon's bloodline, a divine ability with such a heavy killing intent. At least he knew that this kind of sacred art was one of the famous sacred arts of the Primordial Blood Spirit Dragon. In the The Age of Dragons, countless dragons would tremble in fear when they heard it.

To him, he was completely immersed in this world of slaughter and death, and he did not control himself either. But no matter what, he still arrived in front of the Ancestral Dragon Cave.

That dark cave was filled with innumerable secrets. It was a pity that even the Long Qinglan from back then was unable to go in to investigate, which made it even more impossible for Long Chen.

However, he was more respectful towards this place.

When his mental strength had reached its peak, he had experienced an unprecedented and arduous battle, and had finally obtained victory. It was because of these that he had come to understand the meaning of slaughter. On this path, he and the Primordial Blood Spirit Dragon's cultivation coincided perfectly.

So now, he suddenly turned into an Archaic Blood Spirit Dragon, rolling around in the endless starry sky. The circle formed by the blood colored dragon above his head still existed, and countless blood colored runes twisted and jumped around within it like dragons. Every change was an aura of slaughter, as if billions of troops were rushing through the circle!

This ring seemed more like a door.

The door led to another world that only had death, or was a world controlled by an Primordial Blood Spirit Dragon!

At this time, because Long Chen was temporarily in a dream-like state, Ling Xi and Little Cat did not go too close, but observed from afar. What they saw was that the ring was already extremely huge, and it had enveloped a large area of space underneath the ring.

"Boss' awakening move is probably a bit stronger than the one you guys used together. Of course, it might not be as powerful as your joint attack, but in terms of the final destructive power and deterrence, it would definitely be stronger."

The kitten had a good eye.

At the very least, judging from the current situation, it was definitely much stronger than the Myriad Death Claw. The Myriad Death Claw was known as the Anger of the Archaic Blood Spirit Dragon, but in reality, it was already quite powerful.

However, the true transformation began with this move.

As the two of them were speaking, the Primordial Blood Spirit Dragon that Long Chen had transformed into flew towards the ring in front of the Ancestral Dragon Cave. As it rose up, its dragon head gradually caught up to its own dragon tail, forming a ring!

The ring formed by his body and the ring formed by the flame divine dragon instantly merged together. When they merged together, an earth-shattering change suddenly occurred!

It should be this move, fully formed.

The Divine Dragon Body formed a ring, forming a door. In that moment, the symbols in the center quickly changed, and in a short amount of time, they combined into two doors. The two doors opened from the middle, and instantly, an aura of death that was a hundred times stronger than before surged out from inside the door!

It was a mixture of blood red and grey that flowed out from within the circle formed by Long Chen's body, and instantly filled the entire space below him. Even though there was still a long distance between them, Cat and Ling Xi both paled, and they looked at each other in dismay.

The kitten said, "How exaggerated! Even from so far away, the death aura almost scared me to the point of peeing, haha!"

Ling Xi also nodded her head, but her eyes were filled with joy. Honestly speaking, she thought that the appearance of this Qi was something that everyone in the entire Eastern Region of Dragon God Domain could feel.

Perhaps, those with low cultivation could only hide and tremble.

It was as if the door to true death and slaughter had been opened!

The dragon gate opened, death energy filled the air, and all living things trembled!

It was unimaginable how horrifying it would be if it was enveloped by the pure blood-red gas.

At least in front of Ling Xi and the little kitten's eyes, there was a thick blood-colored ocean rolling around, as if it was a boundless blood-colored ocean!

This ability could be said to be a door in Long Chen's Primordial Blood Spirit Dragon body.

Long Chen was currently in a state of trance and anger. The pressure that was about to appear in the future made him feel an enormous pressure and killing intent, made all the blood in his body burn. It made him feel like he was about to go insane.

This door of death that opened his body, its name was: Death Realm's Dragon Gate.

The so-called Death Realm was the world inside this door. It was a world that was different from the Dragon Sacrifice World, where only death could open this door, and only Primordial Blood Spirit Dragons could!

As long as they entered the Death Realm, no matter who it was, they would die and never come back.

Therefore, when Long Chen activated the Death Realm's Dragon Gate, he would either die or escape.

Right now, the aura of death had filled the air, but the true terror had yet to appear!

Right at that moment, a rumbling sound came out, and a huge arm stretched out from within the Death Realm's Dragon Gate. It was an arm covered in blood-red dragon scales, looking exactly the same as the Primordial Blood Spirit Dragon's arm, but a hundred times thicker arm compared to Long Chen's! That was the dragon claw of the Primordial Blood Spirit Dragon. Surrounded by the death aura, it extended out from the Death Realm's Dragon Gate and grabbed towards the ground.

This monstrous claw was the true attack of the Death Realm's Dragon Gate!

Either get crushed by the Death Realm's dragon claw, or be caught and brought back to Death Realm, never to return, it would be the same as dying.

"Die!" "Die!"

Long Chen was extremely excited in his heart. After being suppressed for such a long time, he finally had a new breakthrough.

To him, the archaic Giant Demons were truly hateful. He was an existence that wanted to destroy everything. Compared to the previous City Lord, he was even more terrifying. Even the City Lord who had died in vain was a demon.

What Long Chen wanted to do was use this Death Realm dragon claw and capture them in the Death Realm, so that they would never be able to return, or even directly crush them!

Roar!

An angry roar spread throughout the Eastern Region, causing all the experts of the Life Dragon City to look towards the east in alarm.

In their eyes, the east was filled with thick blood.

The closest Ling Xi and Little Cat could feel the depression in Long Chen's heart, and her current state seemed to be unstable. Maybe the pressure brought by the Ancient Giant Demons was too great, causing him to be confused, the Death Realm Dragon Claw had stretched out from the Death Realm Dragon Gate and was swinging everywhere, ripping everything apart wherever it went!

"Sister Ling Xi, boss's situation isn't right. Let's move back a little!"

Cat glared at him and said worriedly.

"Will something happen to him?"

Ling Xi's face was filled with panic. She was extremely worried for Long Chen and now that she saw the berserk Death Realm Dragon Claw, her heart raced. She was extremely nervous.

Just as she said that, the Death Realm Dragon Claw tore open countless stars, and came towards her and Cat. Along with the Death Realm Dragon Claw, countless death auras swept towards the two of them.

In the blink of an eye, both of their faces turned completely pale.

At this moment, they were completely surrounded by death. Even though they had the power, their bodies were trembling, as if death was right in front of them. Even if they had the power, they would still be so scared by this aura of death that they would have no thoughts of resisting!

"It's over!"

The little kitten certainly had the same Ancient Power of Reincarnation as Long Chen, but it was being suppressed by the deathly aura until its entire body trembled. It could control the power of a Demon Lord, and it actually could not escape from the fear of death!

In this Death Realm's Gate of Dragon, just the countless aura of death was an extremely powerful attack, and the Death Realm's dragon claw was only the fiercest of all attacks!

If the Death Realm Dragon Claw attacked them, both of them would be easily torn apart!

"Brother Chen!"

Ling Xi wasn't afraid. She still believed in Long Chen that much, but at this time, Long Chen didn't see who it was clearly and thought that they were his enemies.

Ling Xi's voice was extremely penetrating and through the endless rolling death aura, it still reached Long Chen's ears.

"Ugh ..."

Just a moment ago, he was blinded by the slaughter and thought of everything as an Ancient Giant Demon. Now that the Death Realm dragon claw was extremely close to Ling Xi and the others, Long Chen was so scared that he broke out in a cold sweat and removed the connection between his head and tail in an instant.

When he lifted it up, the Death Realm's Dragon Door had also disappeared. When the Death Realm's Dragon Door disappeared, whether it was the aura of death or the Death Realm's dragon claws, everything disappeared in an instant. The entire Ancestral Dragon Cave was previously empty, as if nothing had ever happened before.

This was the feeling of suddenly entering heaven from hell.

Long Chen transformed into his human form, impatiently appearing in front of the two. At this time, even though their faces were still pale, they had finally recovered.

"Boss, boss, you almost tore the two of us apart, I don't care, this time you have to calm me down, say, how about you owe me those five pronucleus?"

The kitten had just reacted when it rolled its eyes and started extorting again.

Long Chen stared: "If I had known earlier, I would have ripped you apart immediately."

But when his eyes turned towards Ling Xi, it had turned into an extremely gentle and apologetic look. He said, "Sorry, I was so engrossed just now that I almost lost myself.

"It doesn't matter. It's just that three months is too short, so the pressure on you is too great. But now that you've succeeded, you should be able to relax a bit, right?"

Ling Xi knew why Long Chen was like this.

What he faced was a dilemma that made him feel very miserable. He had to have even more strength!

Cat shook her head and said, "I have to say, that move of yours just now could probably instantly kill a Demon Lord."

Chapter 2434 - Killing ability

The might of the Death Realm's Dragon Gate was unquestionable.

If it was said that the Murderous Dragon Claw, the Celestial Slaughter Blood Sword, the Blood Spirit Spikes and the Myriad Death Claw were all on the same level, then the Death Realm's Dragon Gate had simply reached a whole new level. On the previous level, most of the things used were divine dragon body abilities, and from the Death Realm's Dragon Gate, it did not have much to do with the body, it was purely a spiritual ability.

Death Realm's Dragon Gate.

In order to understand this new sacred art, he had almost paid a heavy price. However, at least the end result was good. This allowed him to truly relax in his heart.

With the Death Realm and the Dragon Gate, he would at least have some strength to rely on.

Because he did not want to bring Ling Xi into the devil star, he could not use the Three Lives Calamity. He needed other powerful abilities, and the Death Realm's Dragon Gate just happened to appear.

Of course, this matter could not be told to Ling Xi first.

Very soon, a few Dragon Emperor s came over to ask Long Chen what had happened. When Long Chen had awakened the Death Realm's Dragon Gate, even the people from the Fate Dragon City had noticed the commotion.

"He really is a genius."

The Dragon Emperor knew of course how terrifying that move was.

Long Chen was even confident that if he used all of his power, would be able to instantly kill his opponent, who was at the level of Dragon Emperor and Great Demon Lord. For example, the former Ocean Divine Emperor.

The Death Realm's Dragon Gate was a sacred art that was specially created to kill.

With this ultimate skill, he felt much more relaxed and not as depressed as before.

"What are we going to do next?" Do you have any plans to save the little black dog? "

On the way back, Cat couldn't help but ask.

Long Chen shook his head, and said: "There's no plan, and I can't contact him either. "Right now, there is still a bit of time. We can only wait and see if we can break through again."

In reality, not only was it the Primordial Blood Spirit Dragon, there were also Great Void Cosmic Dragons, Taiji Creature Dragon's life seals, and also the heart dragon's karma seals. These were all directions for his progress, and at the same time, he was also moving towards the late stage of the Seven Stars Tribulation.

Next, he turned his attention to the Time Dao Seals.

To be honest, it had been a long time since he had improved in terms of Time Dao Seals since he had learned about space-time reversal. In fact, it was very likely that he improved even more in this area than the Primordial Blood Spirit Dragon, but Long Chen had just experienced a battle and was facing a new pressure, so he awakened the Death Realm Dragon Gate first.

He was not in a hurry at the moment. His only hope was to pass the time slowly.

This way, he would have a greater breakthrough in the next three months.

In actuality, there were only two and a half months left.

The Death Realm's Dragon Gate had already taken half a month for Long Chen.

Because of the impending disaster, their hearts were still heavy. They could no longer be as happy as they were before.

"I remember back then, the five of us came to the Immortal God Realm, it's only the Little Wolf and Su Yan that aren't back yet. It's truly a pity, boss, how could we say it like this, we're partners, so no matter what, we can't let the Little Wolf be left behind, much less others who kill him! There must be a better way! "

Long Chen stopped in his tracks.

The kitten thought so too.

As a result, he felt more at ease. At least for now, the three of them shared the same intentions.

"Therefore, I wanted to give myself three months of time to have even stronger strength, and maybe I could save that. I won't watch him die, and I won't watch the Magic Star Seal get destroyed either. The person he needs the most right now is me, as his big brother."

Long Chen felt very regretful that he did not protect the little wolf well enough, which was why he was in such a predicament, especially that time with the martial magic seed!

Cat suddenly said, "Of course I know what you are thinking. Honestly speaking, I respect you, but I think I can help you with this matter. When you enter the demon star, I want to go as well. You're working so hard right now, but all you're emphasizing is yourself. I know you haven't considered me and Sister Ling Xi at all. Of course, Sister Ling Xi's current situation is different. I don't agree with her going in, but I must do this. "

He had endured these words for a long time, and now, he finally said them out loud.

What he said was right, Long Chen never considered bringing them along, especially Ling Xi. The reason why he wanted to go in was because he was worried that if others went in, they might harm the wolf cub, or they might not show any mercy at all. That was why he wanted to take the initiative to take on the mission that left little hope for survival.

However, he did not want Cat and Ling Xi to risk their lives with him. As a decision maker and a big brother, he should take on this responsibility.

But the kitten didn't think so.

"The reason I came back this time was to contribute my own strength. Even if it is a lowly thing to you, you cannot take away my power, if you still regard me as a brother."

It was rare for him to be this serious as he stared straight at Long Chen.

Perhaps this was a person's obsession.

Long Chen also had his own obsession, so he could understand that this little fellow could not be refused, so he could only bitterly smile and said: "What's the point of it? Do you not want to know about your past and your background?"

Cat suddenly laughed casually and said, "Forget it, it's just some boring stuff. It's useless to know about it. It took me so much effort to obtain my second life. I better go through with it now." At least I have no regrets. "

Long Chen did not reject, but in reality, he had already tacitly agreed to it.

When she turned around, Ling Xi's eyes were filled with tears. She choked and asked softly: "Can't I go in and help? I don't want to part with you at any time, and then it's time to never see each other again. I don't want to do this! "

Seeing her current state, Long Chen's heart was undoubtedly broken.

"Xiao Xi, we are no longer as young as we were before. We have to bear responsibility for our lives. We cannot only think about two people. As their mothers, you must also take responsibility for their lives."

The so called him, was naturally Ling Xi's child in her womb.

At that time, he could have worked hard for ten years on end. No matter what, she could have escaped from the Sword Soul Imperial Palace to find him, but at the same time, she could not care about everything. But now, she had shouldered too many things.

"Relax, there's still two more months. Who knows what will happen? Maybe when the time comes, there will be new changes. "

Long Chen lightly patted her shoulders to make her feel less hurt.

"Alright."

"Besides, who said I would not meet after going to the Demon Star? I will come back alive. This is my promise. "

Long Chen's eyes flashed, and said resolutely.

"I believe you."

Ling Xi said without hesitation.

These were the words that moved Long Chen the most. No matter how much of a risk he took, with Ling Xi's words, he would be filled with power.

He was filled with confidence.

Although the Demon Star was in danger, Long Chen was suddenly not afraid.

"Go, go back!" Wasn't it just an ancient Giant Demon? I've already killed him once, are you afraid of a second time? "

Long Chen laughed loudly, bringing his younger brother and his lover to the Life Dragon City. As long as he entered the Life Dragon City, he would be able to move around there. This time, Long Chen wanted to go to the Everlasting Dragon City to research on the methods of time. Perhaps, the Eternal Night Dragon Emperor and the Eternal Night Dragon Emperor could also help Long Chen a little.

The ocean of time there still existed, and time would flow chaotically at different speeds, which would also help Long Chen.

By chance, they passed by the Black Jade Dragon.

A huge black dragon's head was looking eastward with a respectful and solemn expression.

This was a place that told Long Chen that the dragon sacrifice would be annihilated within a hundred years.

A hundred years ... To cultivators, a hundred years would only seem long and fleeting when it came to Long Chen.

"Wait a moment."

Long Chen once again appeared before the eyes of the Black Jade Dragon Head, and came to his mouth. However, at this time, everything seemed to be old, and there was nothing mystical about it.

After staying here for an entire day, Long Chen did not discover anything.

He lay on the dragon's head, looking up at the sky, but his mind was filled with countless thoughts.

"Actually, I can relax a bit."

To be honest, a large part of the reason why he was nervous was because of what the Black Jade Dragon Head had said back then. This sentence had simply become Long Chen's nightmare and caused him to remember it all of the time, as if it was hanging on top of his head like a blade.

"Since there is such a prophecy for me to know, there must be hope. Furthermore, I have reached my current state in less than a hundred years. There is still a hundred years left. And other than me, who else could have four Ancestral Dragons? "

As he thought of this, his heroic spirit suddenly rose. He thought about how he was the one who had changed this era. It was already a miracle that his life could be so magnificent.

"Father, I definitely wish that I could use my best state of mind to face all of this."

At least until now, everything that he had on him, was given to him by him, and there would be a day when Long Chen would solve this man's riddle.

"Go, let's go to Everlasting Dragon City!"

At this moment, he was suddenly filled with confidence.

After going to the Life Dragon City to greet the three Dragon Emperor s, and explaining some things about the Death Realm's Dragon Gate, Long Chen headed over to the Everlasting Dragon City to train in the way of time. When he arrived there, it naturally caused a huge commotion, because the current Long Chen was the hero of the entire human race.

Many people from the Everlasting Dragon City were not convinced. Obviously, Long Chen was the new Eternal Dragon Emperor! How could it be killing Dragon Emperor?

However, thinking that Long Qinglan might still have a way to survive, and that two Everlasting Dragon Emperor might appear later on, most people did not bother about it anymore.

Chapter 2435 - The Sea of Chaos

The three Dragon Emperor s still didn't know why Long Chen had come here.

Dragon Emperor Yongye cordially asked, "I heard that you made some movements before Ancestral Dragon Cave because you learned something new?"

Although the Everlasting Dragon City was quite far from the Eastern Star Region, he could vaguely see the blood-red sky over there. He could also feel the terrifying killing intent.

Long Chen nodded his head, he was no longer as gloomy as before, but more at ease, and said while smiling: "After accumulating for a long time, he has finally made some changes. The truth is that I came to the Everlasting Dragon City this time to make use of the time ocean, to see if I can make some progress in my path of time."

If he wanted to become strong, he had to hurry, so he didn't stop for even a second.

After listening, the three Dragon Emperor s looked at each other, then looked at Long Chen with a emotional expression. One of them, the Immortal Dragon Emperor, shook his head and laughed, "This is the disparity, ah, between us. Before your father was even born, we already possess the strength we have now.

The others began to laugh as well.

However, they did admit that Long Chen was formidable at this time.

"Now, you have your reputation, prestige and achievements. As long as you can defeat the fifteen of us Dragon Emperor s joining hands, you will be killing Dragon Emperor. It was our Paragon. Hurry up and go to the Sea of Time. If you succeed, the three of us will join hands to spar with you. "

Long Chen was startled for a moment, then said: "Are the three Dragon Emperor s prepared to spar with me?"

The Immortal Dragon Emperor face stiffened, and said: "Of course, we also want to sharpen you, so that you will become more and more suitable for us to fight. From three to six, to nine, the last fifteen will work together to fight you, and help you reach the top! At first, your father came back and defeated fifteen of our Dragon Emperor s after he defeated the Spirit King s. Only then did he become an Eternal Dragon Emperor. "

Long Chen's heart could not help but become passionate.

Right now, Yang You had already gone to Heavenly Dragon Star, and there were very few people in Dragon God Domain who could compete with him, so he already had no opponents. However, the combination of all the Dragon Emperor s was a huge challenge for him, and was also the way for him to become a slaughter Dragon Emperor.

At this time, he had a desire to kill the Dragon Emperor, because that would mean he would have a greater power, meaning he would have to directly command the fifteen Dragon Emperor s, and not discuss it with them with the identity of a junior. Long Chen did not have his own selfish thoughts, he only wanted to have a greater power, he just wanted to rely on his own will, so it would be easier to fight for his own opportunity.

This time, if he wanted to enter the demon star in place of everyone, he would also need an identity that no one could resist.

"Alright, I will work hard!"

He was full of passion and fighting spirit.

And these words were heard by many people, as they were spread out. Knowing that Long Chen was about to fight the three Dragon Emperor s, everyone immediately cheered, their hearts filled with boundless anticipation, and even after the news spread throughout the Five Dragon Cities, there were already many people who were prepared to come over to watch.

Of course, not now.

There was no problem for Ling Xi to stay in the Everlasting Dragon City with the Eternal Night Dragon Emperor to take care of him. As for the kitten, it had suddenly appeared out of nowhere and had already run off to who knows where. Under the anticipation of tens of thousands of people, Long Chen left the Everlasting Dragon City and landed in the boundless ocean in front of him.

This was the sea of time.

To tell the truth, this place had been destroyed several times before, and the seawater had also disappeared many times before. However, the most important thing here was not the seawater, but the laws of time.

"I remember the last time I cultivated in this sea of time and comprehended the reversal of time and space. However, I encountered the Emperor of Black Underworld, which resulted in the planting of a Black Underworld Beast within my body!"

Although some time had passed, the memories were still vivid.

was not in a hurry right now. Time had allowed him to enter a rather calm state, and his body was in a unconscious state, sinking into the depths of the ocean of time. He went downwards, all the way until the sea had turned pitch-black and his surroundings pitch-black.

During the process of sinking, he could clearly feel the changes in time. Sometimes fast, sometimes slow. The current was somewhat turbulent and sometimes slow. The entire time in the time sea was in chaos.

Sometimes, the head time would even flow differently than the legs.

This was a miraculous change.

Time seemed to transcend everything, but it was also something that ruled over everything. If there was no time, then everything would be still. Life could not grow, the energy of heaven and earth could not flow, and although the entire world might exist, it could only be a fixed picture.

From this, one could see the importance of time.

There was a reason why Great Void Cosmic Dragon were ranked so high.

This was a rule that was even more mysterious than cause and effect, or even life.

In the depths of cultivation, one could even travel through time and space, reversing yin and yang.

Long Chen felt excited because of the power of time.

His body floated with the sea water, and in some places, it was two times the normal amount of time. It was even three times, or even four times, and the highest possibility was ten times. This meant that Long Chen's speed in these places could be increased by several times.

However, there were some places that only had a few minutes of normal time, even reaching a tenth of the hidden areas. In a mere ocean of time, there was actually a difference of over a hundred times.

At a time where time was slow, Long Chen was like he was trapped in a swamp and could only move according to the rules of time, his speed dropping by ten times.

This kind of disorder was very troublesome at times.

When he arrived at this environment, Long Chen's heart became extremely peaceful. It was as if he had forgotten that he was here to learn, and was drifting with the sea water. He closed his eyes, and used his body to feel the power of time, which caused him to completely forget about the passage of time.

In the endless drifting, one day had passed, two days had passed, and finally, Long Chen had forgotten how many days had passed. If he was awake, he would definitely be very anxious, after all, the peak rankers had agreed to give him three months of preparation time.

It was this dazed state that allowed his entire body to melt into the sea of time.

Time was like the sea water rushing toward one's face, flowing from one's body and never to return. The difference between cultivators of the Way of Time and ordinary people was that they could see this time and even manipulate it, causing a portion of it to become chaotic, motionless, or even reversed.

Of course, there were also advanced manipulations such as traversing time and space.

It was just that Long Chen had not touched these yet.

Right now, he wanted to thoroughly study this ocean of time, so he could sense it step by step. He even turned into that illusory Great Void Cosmic Dragon and merged with the sea of time.

Comprehension was just a key for Long Chen.

He needed this key to open the door of the Great Void Cosmic Dragon's sacred art, so he himself had those sacred art. Right now, he only needed to use the key to open the door, so compared to other people, it was much simpler.

As time passed, his body gradually spread towards the entire time sea, countless amounts of different time seemed to have merged into his body, some places were fast, some places were slow, it was as if there were countless time users in the sea of time. Some of them pushed the time away, while others blocked the flow of time!

Long Chen clearly saw those hands ...

He suddenly recalled that during his previous cultivation, he only had one hand controlling time. However, in order to form a chaotic sea of time, he needed many hands controlling time!

This was the only way to cause chaos under his control!

Once he found an idea, he began to advance nonstop. There seemed to be some sleeping memories that were gradually awakening within the Time Dao Seal, allowing Long Chen, who had merged with the ocean of time, to obtain the most crucial things.

That's right, he had already found the key to triggering the sacred art.

When he suddenly woke up, he realized that his body had already merged into the entire time sea, and his hands that were controlling time had covered the entire time sea. Under his willpower, these hands were constantly controlling time, causing the entire time sea to become even more chaotic than before!

Weng! \*

Long Chen's mind shook!

"That's right, just like that! I can copy the Time Sea!

During these few days of cultivation, he found the final secret of the Sea of Time, and then, he found the method to use it on the Time Dao Seal.

Under Long Chen's control, there were places that were fast, some that were slow, some that were ten times faster, and some that were even slower, that were ten times slower! And all of the changes were completely controlled by Long Chen himself!

As his strength increased, so would the scope of the sea. But for now, the scope of this domain was almost the same as the ocean of time.

From now on, he could create an artificial time sea, and could even control it completely. That was because he had countless hands that could control time, and could make an entire region exist for tens of thousands of years!

To his opponent, this was actually a very terrifying matter. Because in the range of these two battles, the time required to be ten times faster or ten times slower was completely controlled by Long Chen. In such a battle, no matter how strong one was, their power would be greatly reduced.

#### Chapter 2436 - Dragon of Eternal Time

If Death Realm's Dragon Gate was a terrifying killing technique, then this sea of chaos might actually give the enemy a greater headache. The terrifying power of the Time Controller was completely unleashed at this time, forming Long Chen's Fighting Master Area!

Amongst the Time field he controlled, who could fight as they wished?

No matter how fast his attack was, Long Chen could still slow him down by ten times!

Moreover, in this kind of Domain that was entirely under Long Chen's control, who would be able to adapt to it while it moved? It was a feeling of sometimes being extremely fast, and sometimes also being stuck in a quagmire. Wasn't this simply driving everyone crazy?

This way, their true combat strength would be greatly reduced.

Unless the other party had a power that far exceeded Long Chen's, and was able to temporarily tear apart the ocean during times of chaos. But to do this, perhaps the Immortal God Realm wouldn't have it right now, or the Spirit King might have such a level of strength!

It had to be said that this ability and the Death Realm's Dragon Gate had formed an ingenious coordination. The combination of the two would undoubtedly produce a terrifying combat strength.

Now, Long Chen had returned to his human form, gradually rising up from the ocean of time.

His eyes were still closed, and countless hands that were controlling time rose up with him. Very quickly, he appeared near the Everlasting Dragon City, and the chaotic sea he controlled emerged from the sea of time!

**BOOM!**

When chaos broke out, the Sea Domain was born!

The entire space and time was under the control of Long Chen's domain during this time of chaos. Of course, the entire Everlasting Dragon City was also under the control of this domain!

Just like that, Long Chen rushed up into the sky with the anticipation of tens of thousands of people watching him!

Everyone could not help but cheer as they stared at Long Chen in anticipation.

At this moment, Long Chen opened his eyes. Both of his eyes had completely disappeared, and what replaced them were dense fog, as if they were two illusory worlds!

Even his whole body seemed to have turned illusory.

Everyone was stunned, 10 days or so had passed. Long Chen previously said that he used the time sea to cultivate, but did he manage to comprehend a new breakthrough?

The three Dragon Emperors and Ling Xi stood at a high place. Looking at the current Long Chen, they felt a little nervous in their hearts.

"What a great power of time. The entire sea and air have been enveloped by it. Perhaps he has already succeeded." The Immortal Dragon Emperor was very satisfied, and laughed as he stroked his long beard.

"But what kind of power would it be? Why do I feel like it's similar to time? "

Dragon Emperor Yongye asked softly.

"We'll know soon." The Dragon Emperor said.

Sure enough, Long Chen had already started. It was just a change in his eyes, but it caused a change in the entire domain. In short, it was a mess.

All of a sudden, everyone in the Everlasting Dragon City was stunned.

Everyone here had entered the sea of time before, so they knew how chaotic it was. Sometimes it was fast, sometimes it was slow, but the sea of time was the sea of time, so it would never affect the Everlasting Dragon City here.

Moreover, this feeling was even stronger than the ocean of time!

It was even more of a headache.

For example, there were places that would maintain a speed of around two times of what they usually did, but due to Long Chen controlling the situation personally, the time at every place in the Sea Domain would change very quickly. Sometimes, it would speed up a lot, and sometimes it would instantly slow down, causing him to be so depressed that he almost vomited blood.

"What's going on?"

Some people spoke the same way. At the beginning, it was very slow, but he used his original speed, causing him to speak for a long time. However, later on, time instantly accelerated, and the four words were finished in an instant; it was impossible to clearly hear what he was saying.

This scene occurred in the entire Everlasting Dragon City.

Everyone was talking, but it was a complete mess. For a moment, no one could clearly hear what the others were saying.

They felt shocked and stunned.

Of course, this ability was different from the Tempest of Time. It could be said that it did not have any offensive power, but it was actually an extremely powerful supporting ability. It was a heaven-defying technique, and its value was no less than the Death Realm's dragon gate!

Amongst them, the three Dragon Emperors had the deepest impression.

He was also the one who praised the most.

The three of them had very interesting looks on their faces, especially the Immortal Dragon Emperor. He was full of pride and laughed in disbelief: "He actually copied a time-sea that could be controlled, controlling a large time-changing domain, and in his battlefield, it's simply his world. How is anyone else going to fight him?"

He was probably able to adapt to the changes in time. When time was fast, he spoke slower. When time was slow, he spoke faster. Thus, when he said it, the people around him could still speak clearly.

After all, besides Long Chen, he was the only one with the highest attainments in time.

"This is a miracle." Dragon Emperor Yongye opened up his arms and felt the changes in time around him and was equally shocked. Only the way of cultivation time, would one know how heaven-defying the power of this ability was.

Ling Xi, who was at the side, was also excited. Of course, she was happy for Long Chen.

More than 20 days had passed, and it had been almost a month. He had finally succeeded. The great progress in the path of slaughter and the path of time had brought him great changes. At the very least, it had given him more confidence to solve the problems of the demon star!

Regardless of whether it was the Death Realm's Dragon Gate or when in chaos, they were both terrifying supernatural abilities! They were all transformations!

The news of Long Chen's success had already spread throughout the other four Dragon Cities. When they heard the news that the three Dragon Emperor s of the Eternal Dragon Emperor s were about to fight with Long Chen, a portion of the experts had already rushed over here. For example, other Dragon Emperor s who were interested.

The Dragon Emperor said: "He has already succeeded, let him try his luck, shall we?"

The Immortal Dragon Emperor and Eternal Night Dragon Emperor both nodded.

To be honest, when faced with such an opponent, shuttling back and forth in the ever-changing space, it was truly a disgusting matter that made one want to vomit blood. The three Dragon Emperor s were like this, although they thought that they could maintain the same speed, but in the eyes of the crowd, it was sometimes fast and sometimes slow, which was extremely funny.

"These bastards."

The Immortal Dragon Emperor was immediately enraged.

However, the three of them still surrounded Long Chen.

"Kid, are you ready?"

The Immortal Dragon Emperor reminded.

"It's done."

Long Chen was also waiting for a moment, waiting for this chaotic moment, to show just what kind of godly might he could. The alliance of the three Dragon Emperor s was an important challenge. If he could defeat them, it would mean that he was very close to Yang You and Spirit King.

At this time, a few other Dragon Emperor s had already arrived. The Blood Tyrant Dragon Emperor and the Ten Thousand Killing Dragon Emperor were also present.

Of course, everyone else's hearts were already burning with passion.

This was destined to be a historic battle!

On the contrary, they cheered for Long Chen, because the one doing the creation was Long Chen himself!

"Slaughter the Dragon Emperor!"

Under the frenzied shouts of countless people, Long Chen's blood also started to boil.

However, he knew that in order to test his strength, the three Dragon Emperors wouldn't be polite either.

The first was the narrowed eyed Immortal Dragon Emperor, Long Qinglan's foster father, who could be considered his own grandfather. This old man first turned into a divine dragon, a Ultimate Dragon — an eternal dragon!

Legend has it that in the The Age of Dragons, there is a mystical time tunnel, and this is the territory of the Great Void Cosmic Dragon. The time tunnel is filled with innumerable secrets, and one of the Great Void Cosmic Dragon, the 'Year Dragon', is guarding this place.

His body was made up of countless stars, and had a variety of colors. His physical strength was quite tyrannical, and his body was like a sword, ripping apart countless of stars. He was one of the hegemony of the Star Dragon Tribe.

And lastly, the Eternal Night Dragon of the Eternal Night Dragon Emperor. In reality, it was a kind of Ultimate Dragon that was loyal to Yang You's' Netherwyrms'. When there was no light, he would display even more power, and could even bring about endless darkness. He was also the most famous Ultimate Dragon in the The Age of Dragons.

The three divine dragons surrounded Long Chen.

The most exciting battle was about to begin!

The three Dragon Emperor s had not moved. Only by staying in place would they not be affected too much. As long as they displayed their speed, there would be time for the change!

Long Chen did not dare to be careless, his whole body had changed and became the Primordial Blood Spirit Dragon he was most proficient in. It was just that his eyes were no longer blood red, but an illusionary mist.

The battle that filled everyone with anticipation had begun!

The moment the three Dragon Emperor s moved, the ocean exploded with powerful energy. Long Chen was not affected by the chaos, but was able to control the time of others!

The three Dragon Emperor s already knew that it would be difficult to fight in this domain, but they didn't expect it to be so troublesome. They were familiar with the normal situation, but they suddenly encountered such a change.

For example, the Sky had suddenly fallen into a quagmire. He immediately suppressed his strength and tore off the shackles, but he didn't expect that his speed would instantly increase by countless times, which resulted in him instantly charging towards Long Chen. Long Chen used the Thousand Claws of Death to add a claw to his back, and in that instant, he sent the billions of star realm dragons flying out, smashing into the ocean of time, causing the sea of water in the sky to rise!

With Dragon Emperor in the sky as a lesson, the Eternal Time Dragon and Eternal Night Dragon, who were the most familiar with the way of time, had no choice but to slow down. They looked at each other and slowly approached Long Chen, prepared to launch an attack that Long Chen could not dodge!

But how could Long Chen let them succeed?

In fact, Long Chen himself was also adapting to the chaos. Maybe he could create an ingenious battle art!

It was very possible that even without using too much strength, one could still deal with their opponent.

Chapter 2437 - Solitary War Three Dragon Emperor s

Long Chen fighting against the three Dragon Emperor s alone, seemed to mean that from today onwards, he would embark on the road of pursuing the qualification to kill Dragon Emperor. From now

on, the number of Dragon Emperor he would have to fight against would increase, and the three Dragon Emperor s in front of him would be a hurdle!

After passing this barrier, he would have the qualifications to truly pursue and kill the Dragon Emperor in terms of strength. Currently, in the entire Dragon God Domain, there were basically no objections. The fifteen Dragon Emperor s were also quite supportive of him.

Therefore, at this time, the three Dragon Emperor s, the immortal, the firmament and the eternal night, were completely on guard as they surrounded and attacked Long Chen! What they were sure of was that if not for the sea during this period of chaos, the three of them would be surrounding Long Chen and attacking him violently. But during this period of chaos, the sea had turned this entire space into Long Chen's world!

This made the siege rather difficult!

Now, the first attack of the Sky Dragon Emperor allowed Long Chen to gain control of the sea during times of chaos, causing him to be injured by the Myriad Death Claw. Of course, the Sky Dragon Emperor was also able to defend, so the Myriad Death Claw wasn't too harmful to him!

After falling into the ocean of time, he instantly arrived below Long Chen, and rushed out once again. The divine dragon that was covered in star light, suddenly scattered countless starlight, forming a sharp sword blade that swept across the sky and earth, rushing towards Long Chen with killing intent.

Without saying a word, Long Chen rushed up to the endless space of the starry sky with his overturning sea domain, while the three Dragon Emperor s knew his meaning and followed along. If they stayed where they were and fought, the newly rebuilt Everlasting Dragon City might be destroyed.

In front of their eyes, the four divine dragons seemed to have become extremely small and insignificant. Now that Long Chen had left, they were finally able to escape from the realm of chaos and could cheer and speak normally!

"Cracks in the starry sky!"

The of the firmament was always in the state of heavy attack, while the Immortal Dragon Emperor and the Eternal Night Dragon Emperor were always hidden in the shadows. Until now, only the of the sky had been fighting with him, and his attacks were extremely powerful, his body that was filled with the multi-colored light of the stars was like a blade, sweeping past Long Chen's surroundings. Even though

his speed was affected greatly by Long Chen's counterattack, countless black cracks still appeared on his body.

Facing such an attack, Long Chen remained calm. Using his control of time, he easily passed through the opponent's attack, allowing himself to increase his speed and slow down the enemy's attack, this way, escaping the attack was simple.

When they were in chaos, the sea had endless uses. It gave them enormous limits, and even though they had 100% of their power, they could only use half of it. At this time, this was the case for the three Dragon Emperor s!

They helplessly watched as Long Chen easily dodged from their attacks. Their attacks were constantly changing shape in the midst of a sea of chaos, and had lost their sharpness!

"Time Frenzy!"

When Long Chen left the Sky Dragon Emperor's attack, the Eternal Dragon Emperor advanced with great difficulty amidst the chaos. When he finally arrived in front of Long Chen, he used the divine ability of the Eternal Time Dragon, the Wild Time Tide of Time was a type of use that was very similar to Long Chen's tempest of time. However, the tempest of time was an attacking type of tempest within an area, one that moved like the wild tide of the ocean.

Long Chen raised his head and saw that the vast power of time seemed to occupy almost half of the world. Behind him were the Sky and the Eternal Night Dragon Emperor.

RUUMMBLLLLL!

The entire world seemed to be trembling in front of his eyes, and it was even more powerful than when he was using the Time Storm. The might of the Dragon Emperor was at his limits in this attack, if it was to land on the Everlasting Dragon City, then it would be enough to kill more than half of the people in the Everlasting Dragon City!

However, facing such an attack, Long Chen only smiled slightly.

In terms of attainments in the path of time, he had a treasure like the Great Void Cosmic Dragon's Inherited Blood Essence, which was countless times more valuable than the Immortal Dragon Emperor. Although the Tempest of Time was now powerful, it was not impossible to control!

Therefore, he used his willpower to control the chaotic situation in the sea!

In every tiny place where the Time Frenzy occurred, the flow of time was changing. It was very likely that the left side's flow rate was several times faster than the right side's and the right side was also several times slower. This instantly affected the speed of the Time Frenzy.

If it was a small scale change, it was very likely that the Immortal Dragon Emperor would still be able to control the balance. However, at this time, when the Time Frenzy was split into thousands upon thousands of parts by Long Chen, the Immortal Dragon Emperor could only watch on blankly as his attack, as though it had been split by Long Chen.

This caused the immortal Dragon Emperor's face to flush red. In all these years, he had never been so humiliated before!

Fortunately, the Eternal Night Dragon Emperor had already come from the back to attack them. She and the Immortal Dragon Emperor had always had a tacit understanding, as the Immortal Dragon Emperor specialised in the power of time, while she specialised in two types, one was the dark night, the other was time!

The entire world was changing and it was instantly enveloped by a dark night. This was a strange type of night, it was simply pitch black, and in that instant, the world in Long Chen's vision turned completely dark. He couldn't see anything at all!

"Never sleep!"

This was the ability of the Eternal Night Dragon Emperor.

Until now, when they finally managed to suppress Long Chen a little. In truth, it was not that the world had turned dark, but rather Long Chen himself was enveloped in the darkness.

"This little brat really doesn't give me face!"

Although he was cursing others on the surface, in his heart, he was already very happy and satisfied to see Long Chen becoming so strong.

Very quickly, they were all dumbfounded, because even if they lost their vision, Long Chen was still extremely sharp. This area of the sea was truly under his control during times of chaos, and he could manipulate everything through his perception of time. At the most crucial moment, he would leave the other party helpless while simultaneously unleashing the four divine powers of the Divine Dragons together, rendering the three Dragon Emperor unable to do anything!

The people below watched in a daze, the battle scene was completely shocking, but what caused them to be even more shocked was Long Chen's power, they could roughly feel that Long Chen seemed to be extremely proficient now.

Initially, he still wanted to kill Long Chen. If he really succeeded at that time, he probably wouldn't know where he died at now, and the Dragon God Domain would probably be burnt to ashes.

"No matter what, he deserves the title of slaughtering Dragon Emperor."

Now, he had already admitted it in his heart!

At this time, the Sky Dragon Emperor had gathered millions of stars in his domain and condensed them into an extremely strong giant sword in the starry sky. That was a billions of star domain sword, and that was a giant sword that was ten times bigger than the body of the Sky Dragon Emperor.

Such a tyrannical attack, was actually the first time it had gotten rid of the restraints of the ocean during times of chaos. Although the effects were great and had weakened quite a bit, it was still able to pose a certain threat to Long Chen!

Everyone suddenly became nervous!

However, at this time, Long Chen, who had turned into a dragon of the divine way, activated the Sword God Prison with his Sword of Judgment and turned into a golden greatsword that was black yellow in color. In the midst of the chaos, he clashed head on with the millions of star realm swords, causing huge tremors in the battle.

However, the sea and time had not been protected. In that moment, almost all of the seawater had shot up into the sky and then fell back down, forming a majestic rain that blocked everyone's view!

Rumble rumble rumble!

Everyone anxiously looked up, only to see that the Sky Dragon Emperor had already been forced to retreat, it looked like the Sky Dragon Emperor was at a disadvantage, but Long Chen had immediately encountered a new crisis, which was the cooperation of the Eternal Night Dragon Emperor and the Eternal Night Dragon Emperor, one on the left and one on the right beside Long Chen, activating the 'Eternal Destruction Array'!

Long Chen had seen this move before. It was performed when they were working together to deal with the Black Hell Beast that was born from Long Qinglan's corpse. Of course, the current Long Chen was naturally far from being as powerful as the Black Demon Beast!

Countless white threads appeared on the bodies of the two Dragon Emperors in an instant. They were the energy of time, formed a dense web that covered the entire starry sky, and then rushed towards Long Chen to kill him. In reality, they had already planned for a long time to lay down this Eternal Termination Array.

Although they thought of Long Chen as a treasure, but in this kind of battle, they had to use all their powers to fight Long Chen!

Long Chen had really been tricked by them.

Currently, the Eternal Destruction Array had already formed a network, imprisoning him in the center and then beginning to shrink. This was the power of the time restriction, and in this array, it was like being stuck in a swamp.

In terms of strength, Long Chen was indeed not enough to equal the two of them combined!

That was why he was stuck in a desperate situation. The countless white threads were extremely fast and wrapped around his body in a short period of time, trapping him in the middle. It was clear how many white threads there were!

Everyone could not help but feel regret, it seemed like Long Chen still had some distance to go before he could even defeat the three Dragon Emperor s!

Chapter 2438 - Timing

Every single one of the Dragon Emperor s had an extremely high cultivation level, to ordinary people, they were no different from gods. Furthermore, the joint attack of the Immortal Dragon Emperor s and the Eternal Night Dragon Emperor s were indestructible, so when the two of them joined forces, other than the Spirit King and Yang You, no one else in the world could escape from the shackles of this Eternal Destruction Array!

The two Dragon Emperor s prepared for a long time before finally succeeding and binding Long Chen in the end.

In everyone's eyes, there was a giant white cocoon in the sky. The energy of time was densely packed and intertwined to form this white cocoon. It was, in fact, a gathering of unlimited time binding power!

Now that the three Dragon Emperor s stopped, they could not help but laugh.

"This little guy is indeed very strong, it's just that he's older. We have to work together to suppress him, but what I can't deny is that his fighting strength has long surpassed any of us. Even if the other three Dragon Emperor joined forces, they might not necessarily be his match." The Immortal Dragon Emperor stroked his long beard and laughed.

They had indeed almost lost just now. When her gaze shifted to the gigantic white cocoon before her, she suddenly realized that there was a movement inside.

"Can he even move after being sealed for two times?"

Although Long Chen did not win, it was still enough for him to conquer them. After all, not everyone was qualified to fight against the three Dragon Emperor s, so even if Long Chen did not win, no one could deny that he had become the third strongest person in the world!

Especially after the Confusion of Awakening.

However, everyone quickly stopped cheering and stared blankly at the white cocoon.

In that short period of time, the white cocoon had been dyed red, and its shape started to change, from an oval shape beginning to expand, until it finally turned into a blood colored round cake in the sky. The white cocoon that was originally huge, now that it had been flattened into a round cake, the three Dragon Emperors were still under the protection of the round cake!

The Immortal Dragon Emperor also stopped smiling and felt extremely awkward.

"It seems like he is using the technique that he awakened in the Eastern Star Region. This is what a true offensive divine ability is, right? "

The Dragon Emperor narrowed his eyes and said cautiously.

"Both of you, be careful!"

At this moment, under the anticipation of tens of thousands of people, cracks finally appeared on the blood-red round cake. In that instant, the entire Eternal Destruction Array suddenly shattered, turning into countless dust that vanished from the world!

The destruction of the Eternal Termination Array proved that the combined efforts of the Immortal Dragon Emperor and the Eternal Night Dragon Emperor was not enough to trap Long Chen. They had failed, and the next thing to do was see if Long Chen could succeed or not!

The entire Everlasting Dragon City was currently under the protection of the God Realm of Life and Death, so the deathly aura that suddenly appeared was not as strong as the three Dragon Emperors had felt!

The difference between the inside and outside of the God Realm of Life and Death was no less than ten times!

In that instant, their entire bodies were covered in cold sweat, their complexions were pale, and they blankly stared at the sky. In their trembling eyes, they could see that the Archaic Blood Spirit Dragon had now formed a circle; it was a door!

Death Realm's Dragon Gate!

When the Eternal Termination Array was destroyed, the Death Realm's Dragon Gate would be opened. With a loud bang, a surge of death aura descended, and furiously swept through the world, completely surrounding the three Dragon Emperor s. They could no longer see anything around them except the endless blood-red aura rolling around endlessly!

But the people below could still see clearly that the three Dragon Emperor s were in a passive state. They had a tacit understanding to want to escape, but at this time of chaos, the sea was still in effect, their speed was restricted, messed up, and they were in a sorry state!

And at this time, from the Death Realm's Dragon Gate, the second killing move, the Death Realm's Dragon Claw, was unleashed!

Looking from Everlasting Dragon City's angle, it was even more shocking and creepy. It was as if they were looking at the hands of heaven, and under the Death Realm's dragon claws, the three Dragon Emperor s simply did not have any power to resist!

To the three Dragon Emperor s, this was definitely an unavoidable force!

"Enough, we admit defeat!"

The Immortal Dragon Emperor was very direct. He had tens of thousands of years of experience, so he naturally knew that if the three of them were to fight head on, there was a high chance of death or injury. Of course, Long Chen would not harm them.

So when Long Chen directly removed the Death Realm's Dragon Door, and removed the connection from its tail, the Death Realm's Dragon Door disappeared. The countless deathly auras also disappeared, and the most terrifying Death Realm's Dragon Claw disappeared as well.

The sky was clear.

The three Dragon Emperor s had not gotten used to the change, but their faces were still a little stunned.

Long Chen had already transformed into his human form, descending from the starry sky and slowly landing beside them. He had won.

Honestly speaking, a killing move with such a strong killing intent like the Death Realm's Dragon Gate could only be used on the enemy. Long Chen was also prepared to not use it in the beginning, and directly used it to challenge the three Dragon Emperor s when they were in a state of chaos. However, he had still underestimated the strength of the three Dragon Emperor s, so he had no choice but to use the Death Realm's Dragon Gate in the end.

And now, everyone was still immersed in the killing intent of the Death Realm's Dragon Gate. Even though everything has disappeared, everyone was still unable to forget the scene just now.

However, for the other Dragon Emperor, this battle was undoubtedly quite exciting.

The most interesting things were naturally the two great abilities, Sea and Death Realm's Dragon Gate, during times of chaos.

They could not help but cheer for Long Chen, causing even more people to wake up, and cheered for the man in the sky who had obtained victory. This wave of heat gradually affected everyone, causing them to gradually forget how terrifying he was just now, as they threw themselves into the great cheers!

At this time, the three Dragon Emperor s who had personally experienced the Death Realm's Dragon Gate and the sea during the chaos had also transformed into human figures. The three of them couldn't help but look at each other in dismay.

"This time, we are convinced of our defeat!" The Immortal Dragon Emperor used his loudest voice to proclaim his defeat, but even though it was a defeat, he was still the most proud of it!

There was no need to mention the Eternal Night Dragon Emperor. She had always valued Long Chen, and from the very beginning, he was a very respectable senior.

"Long Chen, he definitely has the ability to fight against the three Dragon Emperor s, or even the four of them, and there will definitely be more of them in the future. I dare to say, his time to kill the Dragon Emperor is not far, let's all wait for a miracle to happen! "Our human race will soon have an Innate Ranker on the level of the Eternal Dragon Emperor. A new Paragon!"

Below, the Blood Tyrant Dragon Emperor of the Slaughter Dragon City could not help but cheer. Regarding the slaughter of the Dragon Emperor, it was the desire of the masses. As long as Long Chen fulfilled the requirements in terms of strength, there would be no suspense.

The cheers lasted for a long time.

Seeing so many people support him from the bottom of their hearts, Long Chen was actually still very moved. He remembered that when he first arrived at this place, he was still like a tortoise who had lost its head, but now that he had finally succeeded, he allowed himself and his father to obtain the respect and support of everyone, and became their new faith.

Everyone treated themselves with the most sincere of their hearts. This was indeed their new home, just like the former White Yang Town, and the former Three Great Imperial Domains. It became the most important place in Long Chen's life. No matter what, he had to protect this place, and protect the divine dragon's final home.

After a long while, the cheers finally calmed down.

However, the news of Long Chen defeating the three Dragon Emperors of the Everlasting Dragon City on his own had already spread across the entire continent, covering the entire Immortal God Realm. Presumably, the great Demon Masters, Sovereign of the Seas and Holy Mages had also seen Long Chen's hard work and growth. Like this, there was no one more suitable than him to enter Demon Star.

To accomplish a task that no one else could.

But for Long Chen, his current achievements were not the end.

He still had two months, so he needed to continue working hard. The current results were in line with his expectations, but he still had two more months before he would need to grow even more.

First was the Dao of Life Seal and Dao of Karma Seal, both of which were still confused.

And then there was the late Seven Star Tribulation.

In fact, he had already devoured the avatar of the Ancient Giant Demon's will. The strength of his will had also caused the growth of the to be extremely fast, and it would increase greatly every day. However, to reach the late stage of the Seven Star Tribulation within two months, there was still quite a bit of pressure, and it might be difficult to complete it.

But no matter what, he would do his best to grow!

However, he quickly discovered that life and karma were very different from the time he spent slaughtering people. Life and karma were not that easy, and even though he had expended a great deal of effort, he still lacked an epiphany.

As a result, time continued to fly by, but the result was nothing. On the contrary, his cultivation realm had been improving by leaps and bounds, approaching the late stage of the Seven Star Tribulation at a speed several thousand times faster than an ordinary genius.

As a result, after a month had passed, besides the fact that he was close to the late stage of the Seven Star Tribulation, his Dao of Life and Dao of Karma still hadn't grown at all.

There was only a month left.

Long Chen was troubled, time was of the essence. It seemed like he needed to give up his life and karma, and focus on his cultivation to level up to the late stage of the Seven Stars Tribulation. To him, this level of improvement was the most important thing right now.

During this period of time, Yang You had received news from the side of Heavenly Dragon Star. It seemed like the change in the Magic Star Seal was very fast, and time was extremely tight, so in less than a few months, the entire Magic Star Seal would probably collapse, so the Demon Lord, the Ocean Emperor and the Holy Mage were all extremely anxious, and they even hoped that Long Chen could enter the Demon Star in advance.

After all, no one would dare to joke about such a thing.

Chapter 2439 - Separated Spiritual Array

Of course, from now on, there were roughly a few months until the removal of the Magic Star Seal, and there was still one month left to the agreement with Long Chen. When they heard that Long Chen had defeated three Dragon Emperor s jointly, the Great Demon Masters were still willing to trust him.

In reality, the entire Spirit Race was very nervous, but the Spirit Race was controlled by the will of the Spirit King alone. Before the Spirit King gave the order, the entire Spirit Race would not participate.

And most importantly, no one could find the Spirit King.

Even the Dragon Emperor s would not be able to pass the message to the Spirit King, especially when the last time the Spirit King came to beg for Long Chen's child, he did not succeed. It was as if he had suddenly disappeared and not even the Spirit Race higher-ups could find him.

Therefore, right now, the Great Demon Lord, the Ocean Emperor, the Holy Mage and the Dragon Emperor basically did not care about the Spirit King anymore. In fact, the only thing they could do was to enter the Demon Star before Long Chen could lose and the Magic Star Seal would disappear. Then, they would have to do their best to defend themselves. If the Ancient Giant Demons really did descend, they would have no other choice.

Of course, the first huge hope was still Long Chen.

It was impossible to imagine what kind of pressure this young man was shouldering at this moment. Whether he succeeded or not would affect the life and death of the entire Immortal God Realm, and he was even facing the best of brothers. But there was no other way. This was fate.

The current him was facing the decision of fate.

Right now, the Dragon Emperor still had information about the Demon Star and had not revealed it yet. However, if this information was leaked, it would cause a huge panic.

The progress on the path of life and karma was not going well, and in this one month's time, he had not achieved much. In front of him, there was only a month left, and the degree to which he could reach in this one month was directly related to too many things.

To say that there was no pressure was impossible!

In the dead of night.

He and Ling Xi sat on the roof of one of the palaces in Qinglan Palace. They tightly held each other's hands as they stared at the starry sky.

"As far as the eye can see, there are countless stars. I wonder just how big this world is."

Long Chen said somewhat sorrowfully.

Ling Xi looked at him with a pained expression and asked: "Brother Chen, after a month, do you really not bring me in? Maybe I can help a lot. "

In this matter, Long Chen was still rather resolute, maybe Yang You would not agree, so he shook his head helplessly. He smiled as he looked at Ling Xi, and said: "Do you think that I will fail? When have I ever failed before in front of you? "

This time, the stakes were high, even Ling Xi did not have much confidence in Long Chen.

Seeing his determined gaze, Ling Xi was startled, and shook his head: "No, I think you will definitely succeed. It's just like back when we were facing the City Lord. Everyone thought that you all had died in the city, but didn't you still come back and defeat the City Lord? "

With her words, the pressure in Long Chen's heart was too great, and was finally released.

He reached out and hugged Ling Xi in her embrace, and said with a smile: "Xiao Xi, meeting and knowing you in this life is my greatest fortune, and is more important than any inherited blood essence. No matter what happens, you are my most important treasure. If I can have you as my companion in this life, I will have no regrets, no matter if it is a short or eternal life. "

Speaking till this point, Ling Xi's eyes were already a little red. She could feel the deep love he had for her, more than anything else. All the efforts she had made had proven this point.

"Don't speak nonsense. If you can become a Deity and possess eternal life, I will as well. I believe in you, and I believe in myself. As long as my heart is strong, no one can defeat us."

Ling Xi slightly raised the corner of her mouth, her eyes similarly brimming with determination.

Long Chen suddenly had a lot of confidence.

It was just that he did not expect that at this quiet moment, something unexpected would happen. This small incident quickly became a major event.

A speck of color appeared in the night sky. They didn't notice this speck of color because it was too hidden. Currently, at Long Chen's current level, there were very few people in the world who were a match for him. There were only a few who could suppress him with their acute perception.

That colored dot was extremely small, and it floated over from afar before suddenly landing on Ling Xi's fair finger. It looked like a little bug, but compared to the insect, it was even more silent.

The moment it touched Ling Xi, the colorful light dot disappeared.

Ling Xi's finger lightly trembled, she immediately sat up and said: "It seems that something entered my body."

Long Chen instantly became alert.

At the very least, the entire Everlasting Dragon City was under his control, and he knew even the slightest movement of the grass and trees like the back of her hand. Everything around him was also under his control, so it was impossible for something to enter Ling Xi's body, and he had not sensed that it was real.

He picked up Ling Xi's palm and the Primal Power of Reincarnation instantly seeped inside, finding the colorful little dot. This was indeed a very strange thing, as if it didn't even exist in this world.

There was countless information inside. When Long Chen's power surrounded it, he felt that it was a power similar to the Sector lord Divine Arts. It should be a very complicated Spiritualism! There was only one person in this world who could use such a method to this extent, and that was the Spirit King!

"He hasn't given up yet!"

To actually make a move against Ling Xi, Long Chen was instantly enraged. Of course, before she resolved the crisis, he could only suppress it, and first force the multicolored light spots out!

Originally, he thought that he could tear apart this colorful little dot and crush it into pieces. He never thought that this would be like a sharp needle, breaking through Long Chen's power, and then instantly disappearing without a trace, as if it had never appeared before.

Ling Xi did not have any discomfort for the time being.

Long Chen did not give up. He instantly linked the Three Lives Love Silk with Ling Xi and the two of them used the same strength to search for it. Ling Xi was more familiar with her own body, but no matter what, the colored dot had disappeared.

However, Ling Xi's face suddenly changed, her entire body shivered, and anxiously said to Long Chen: "This is a 'lost spirit array'."

After saying these four words, she seemed to have become even more certain of herself. Her complexion had also become much paler, but she did not cry. Instead, she was very angry.

"Not bad, looks like you're quite knowledgeable, you really are worthy of being the successor to the Sector lord's Divine Arts."

Right at this moment, in a distant direction, a voice like that floated into the Everlasting Dragon City. In the distance, a white dot appeared, and this dot quickly enlarged in front of Long Chen. His speed was very fast, almost no different from Yang You's.

Now that the Spirit King had made a sound, the three Dragon Emperors of the Everlasting Dragon City also felt it. They had appeared beside Long Chen before the Spirit King and seeing that the two were still alright, their hearts became a lot more at ease.

At this time, the silver-haired Spirit King had already arrived in front of everyone. His face still had that unchanging elegant smile, but this time his eyes contained an especially oppressive power, which made the three Dragon Emperors understand that he definitely had an important reason for coming here so suddenly!

"Spirit King, what's the matter?"

He knew that this fellow was staring at Long Chen's child, he was waiting for the child to be born.

The Spirit King gave him a light smile, but his eyes looked at the now furious Ling Xi, and said: "I did indeed lose the spirit array. I spent two months, spent countless good things, and experienced more than ten failures before I was able to construct a Primordial spirit diagram.

At this time, Long Chen was already standing up with Ling Xi. He still did not know what use this 'Lost Spirit Formation' had, but after hearing from Spirit King, it was such a difficult thing to succeed, it must definitely be something that defies the heavens. It was very difficult to solve, after Spirit King was rejected last time, he actually did not care about anything else, and actually hated him!

And it was before the Devil Star Tribulation, using such a despicable method. Honestly speaking, compared to his identity, this kind of behavior was simply a humiliation. Long Chen never thought that the number one expert of the Immortal God Realm would actually do such a thing.

"What do you mean by missing a Spiritual Array?"

They had first surrounded the Spirit King and at the same time, waited for the arrival of the other Dragon Emperors. Looking at Long Chen's expression at this moment, it was obvious how angry he was, as the biggest threat of his life was someone else making a move against Ling Xi.

Furthermore, he wasn't worried in the slightest. He started to explain, "A long time ago, our ancestors controlled the lost spirit formation, but in reality, the lost formation was recorded in the Sector lord's divine arts. It was just that because it is too profound, it has to do with the laws. In short, I am the owner of the Lost Spiritual Array, and she was struck by my Lost Spiritual Array. Then, her life and death will be in my hands, and the Lost Spiritual Array will not be able to be cracked, nor will I be able to find out. I set a time of one month, after one month, if I do not remove the Lost Spiritual Array, it will flare up, and then one corpse will die. In this world, I am the only person who can solve this problem, and that is this lost Spiritual Array. "

To control Ling Xi's life and death?

To Long Chen, these were words that practically made it so that he wouldn't even need to take his life for revenge.

Chapter 2440 - The House of the Holy Spirit

Long Chen knew very little about Spiritualism, and the rest of the Dragon Emperor s, Yang You and the others did the same. When Ling Xi, who knew the most about Spiritualism, heard the words "Lost Spirit Formation", from her expression, Long Chen could tell that she did not have any methods!

What the Spirit King said was true, since he dared to do this, there was no need for him to lie in this aspect.

After all, he was not in the Dragon God Domain this time, so he should not be afraid at all. After all, he was the strongest in the Immortal God Realm, and if it was during peaceful times, he might not go all out against the human race. After all, the Spirit race's foundation was not as good as the human race's, especially now that the human race had formed a close relationship with the demon race, witch race, and sea race.

However, it was a mess right now, and there was a possibility of him taking advantage of the chaos to rob them.

When they heard those words, the three Dragon Emperor s were the first to be angered in their hearts. Amongst them, Dragon Emperor Yongye said in a low and angry voice, "Spirit King, I had always felt that you were very despicable, not worthy of your status. I never thought that you were even several times more despicable than what I imagined. You want to initiate a great race war between the spirit race and the human race? "

They were actually still able to speak calmly with this Spirit King, but Long Chen was unable to do so. Even though he knew that this fellow was powerful, since he had done such a thing, no matter what his goal was, Long Chen would not forgive him. What he hated the most in his life was others using Ling Xi to threaten him!

He had a goal, and his goal would definitely be Ling Xi's child. Maybe if Long Chen did not give it to him, he would choose to destroy Ling Xi and the child in his arms.

At his age, Long Chen could indeed restrain himself. If it were in the past, he would not have let the Spirit King say a few more words.

After all, Long Chen knew that he was still one step away to defeating this guy.

He was just a step away from becoming the strongest powerhouse of the entire Immortal God Realm!

At this time, Spirit King had just finished his explanation of the missing spirit array, he immediately said: "Alright, in truth, I do not have much malicious intent, I have come here today to make a bet with you, Long Chen, and it's just a bet. If you accept my bet, no matter who wins or loses, I will remove the missing spirit array for her, this is the promise of my Spirit King, so you do not have to worry about her safety, it's definitely worry-free."

Honestly speaking, even though he said this, the loathing towards him in Long Chen's heart did not decrease at all. One day, when Long Chen reached a new realm, he would fight with the Spirit King, just like how he had fought with the Everlasting Dragon Emperor and became the number one person in the world!

The Immortal Dragon Emperor said, "Spirit King, if you have something to fart then hurry up and fart. I believe you are not an idiot, because this is a critical moment, and everyone will do crazy things, and you are indeed strong, but don't force us into a corner, the rest of the Spirit Clan do not have the ability of yours. If you continue to cause trouble until the end of time, you can protect yourself, but I will make the whole Spirit Race die with you."

Even with the Spirit King, the Spirit Race would not be worthy of the humans, especially now that the other four clans were isolated.

The Dragon Emperor of the firmament also said, "You should know about the matters of the Demon Star as well. Right now, all of us are people who are struggling under the apocalypse and we don't care about their lives, so don't force us any further. When the time comes, I think you should know who the Demon Lord, the Sovereign of the Seas and the Holy Mage will support. But before the Devil Star descended, the Spirit Race was already annihilated! "

These threats weren't unreasonable.

As long as Long Chen is willing to bet with me, I will take back the lost spirit formation in one month. I can swear that as long as the bet is held, my Spirit King will not hurt this woman at all. "

His voice changed as he said, "Ladies and gentlemen, let me first talk about my bet."

The three Dragon Emperor s were still waiting for the arrival of the other Dragon Emperor s, naturally, they could stall for time.

The moment Long Chen's reverse scale was touched, his killing intent filled the sky, but he was already able to hide his killing intent deep in his heart and burst out at the right time!

Now, he wanted to hear what exactly his bet was!

At this time, the Spirit King began to speak slowly, "Do you know about my Spirit Race's' Spirit Master Mansion '?"

"Psionic Imperial Mansion?"

The three Dragon Emperor s naturally knew about it, but Long Chen had never heard of it.

The most important part of the Spirit King was what he told Long Chen, so he continued, "The Ling Residence is a secret realm that my clan's Ancestral God, 'Ling Zun', has personally inherited. Amongst them are all kinds of natural disasters and trials that the Archaeozoic era has left behind, which are extremely difficult to deal with. He will defeat me after he passes through the Spiritual Lord's Mansion. As for him, he was someone from millions of years ago. It can be said that the 'Psionic Imperial Mansion' is the most difficult mystic realm to pass through in the entire Immortal God Realm. Its test of strength is also the highest in the entire Immortal God Realm. "

Saying that, he laughed: "Of course, our Spirit King possesses part of the control of the Spirit Master Mansion and can freely travel back and forth. However, it is only a part of it, there are even places within the Spirit Master Mansion that even I am unable to reach.

In fact, the Dragon Emperor knew all of this too. The Spirit God Realm did indeed exist a sacred place that only Spirit King could go to, and it was also the place where Spirit King would normally stay. As the House of the Holy Spirit was built by the direct disciples of the gods, there were many mysterious and unexplainable places. It was just like the battlefield of gods, full of mystical secrets, where every Spirit King could only control a small portion of the power and freely travel back and forth from one place to another.

"What's your bet?"

After talking about the Psionic Imperial Palace for such a long time, it was time for him to reveal his true burden.

Ling Xi snuggled up to Long Chen. Hearing the words Ling Zun, she seemed to have some impression of it.

At this time, Spirit King stared at Long Chen, and said solemnly: "It's simple, I will wait for you in the depths of the Psionic Imperial Palace. If you are able to reach the deepest part of the Psionic Imperial Palace, I will immediately remove the spirit formation around Ling Xi's body. However, if you fail to break into the Psionic Imperial Mansion or die inside, even if you lose, I will still remove Ling Xi's missing spirit array, but I will not let her leave. After she gives birth to her child, I will take the child with me as the descendant of my Spirit King. Then, send her or you and her out of the Psionic Imperial Mansion. "

Sure enough, what he said was about the same as Long Chen's estimation.

No matter what route he took, his final goal was still Long Chen's child.

Fifteen Dragon Emperor s encircled the Spirit King, and the Eternal Night Dragon Emperor told them briefly what had happened. The fifteen Dragon Emperor s were on guard, and had firmly sealed off Spirit King's path.

Since all the Dragon Emperor s had already arrived, and everyone was confident, they naturally wouldn't be courteous with this Spirit King.

Spirit King, if you really want to bet, you have to first remove this missing spirit array, and then we can continue our discussion. If you are unable to do this, then there is no way we can do anything about it, and today is a mess, but we humans do not mind letting the Spirit Race disappear from the Immortal God Realm forever, at that time, even if you find a successor, it will be useless! "

The fifteen Dragon Emperor s all expressed their own attitudes. Wanting to take such a huge advantage was impossible!

However, the Spirit King had come prepared, his personality was strange, and he was naturally not scared, at this time he actually laughed lightly: "Fellow Dragon Emperor, don't scare me, if you choose to do this, what benefits would there be? I know how much you value these two young people. I don't think anyone wants to see this girl die just like that, one dead and two alive, right? That's why I am here today, and am not that courteous. That's right, you can treat me as a threat, I am using her life to force you guys to submit, to threaten Long Chen to barge into the Ling Zun Manor, so what about that? You can only agree to my conditions or perhaps you can attack my Spirit Race during this period of time. But if you force me into a corner, then I'll let the fish die and the net will break. I have to die anyway, so why should I be afraid of you? "

At this moment, he finally tore off the gentle and refined face from before and spoke out the words in his heart with an unyielding tone. That's right, he had spent two months to prepare the missing spirit array in order to threaten Long Chen. He did not directly make Long Chen surrender, but used the

method of a bet with the Ling Zun Manor, which was enough to make him fear the human race, to think of such a tactful method. After all, this was a chaotic world!

The fifteen Dragon Emperor did indeed think highly of Long Chen and Ling Xi, which was why this matter was so difficult.
