

War God 2451

Chapter 2451 - Undead Race

When Long Chen arrived at the wet Death Cave, Spirit King had already informed the people outside that Long Chen had passed the second checkpoint.

The second test was extremely fast and was completed in less than two hours. Previously, the Ten Thousand Layers Spiritual Array had consumed several days' worth of time, so this time around, it was somewhat out of everyone's expectations.

After all, their attacks on Long Chen were far less powerful than before, so it was somewhat hard for them to believe it now. Of course, to humans, this news was still extremely exciting, and they began to gain a lot of courage. When they thought about the resolute look in Long Chen's eyes earlier, they were deeply affected.

"Perhaps, by relying on his will, he will be able to charge through this Spiritual Lord's Mansion."

"It's still too early to say all this now. Perhaps I just happened to meet an opponent I've suppressed. I was just lucky. It won't be so easy after this. Let's just wait and see. "

No matter what, the entire world was worried about this matter. This was an unprecedented event.

Under their watch, Long Chen advanced inside the Death Cave, endured the test of exhaustion, and finally met a little girl.

This grey skinned little girl's body looked weak and didn't have any offensive abilities, unlike the Soul Puppet divine servant that was frightening the moment it was released. Long Chen was even confident that he could kill the little girl easily. Now that she had just appeared, his eyes widened as he looked at Long Chen with that timid gaze. Both of his hands were clasped together as he asked a little nervously: "Uncle, who are you?"

Long Chen's eyes swept across her fingers and toes. That's right, there were six fingers on one of her palms, and it was the same for her feet. It was the same as the billions of corpses, which proved that they were in the same group.

Or, they could form the third checkpoint together.

If Long Chen did not have a strong resistance, he would not be able to survive until now. He did not have much energy left, and with Ling Xi's protection using the Spiritualism, he would still be able to wield the majority of his strength.

He naturally didn't dare to be careless when facing this little girl.

He was calm and collected. Instead, he asked, "If you ask me who I am, why don't you tell me who you are first?"

The little girl was a bit timid. She pursed her lips and carefully said, "My name is Ling Er, I'm from the Dead Spirit Clan. I just felt someone moved the bones and I showed up ..."

"Undead race?"

This name was unfamiliar to Long Chen. He looked at the little girl for a while, and found that she had a lot of similarities with the spirit race, so he asked: "Undead race, is it a type of spirit race?"

Just like the Blood Spirit Clan, Dark Spirit Clan, and so on, it's just that our ancestors made a mistake. Under the search of several generations of Spirit King, all of the Undead Spirits were imprisoned in this palace, and among them, hundreds of millions of their clansmen were killed, while a small portion of our clansmen have continued to reproduce until now. But even so, the number of Undead Spirits is not that great.

Speaking of that, the little girl had a very sad expression. She seemed to describe this matter very plainly, but it was the death of hundreds of millions of people. Spirit King had really done it, they had actually almost exterminated the entire undead race.

If it was the truth, then this was way too sinister.

If this little girl had lived in this cave since she was young, she might have never seen the sun in the sky.

Of course, the reason for their extermination was definitely because of the threat the Undead race posed to the Spirit King, or to the other Spirit Clans. Listening to the name, they did not seem to be a kind race, of course, it had already been such a long time, Long Chen did not know how the Undead race had changed, but at least the little girl in front of him was not a problem at all!

Of course, Long Chen always remembered an extremely important question!

This is the Psionic Imperial Mansion!

Although this little girl appeared in such a way, making her appear weak and weak, she had to be on guard. After all, she was in a state of exhaustion, and if she could not find a way out of here, then she would be imprisoned here for all her life.

He didn't have the time to waste here.

At this time, the little girl saw his vigilance and asked softly, "Uncle, are you an expert from the outside world that came to visit the Ling Residence? I heard from my mother that you two are one of the most powerful people in the outside world. Legend has it that there is a power that can reverse the heavens and earth, that can knock down the stars, that Ling'er worships you all since she was young, and also really wants to go out and take a look. It's just that we don't have the chance to do that.

Long Chen once again directed his gaze onto the little girl.

Perhaps she was one of the tests in this test, but it seemed that there was a lot to be found on her body. At least, it was much better than him bumping around like a headless fly in this maze. Moreover, this undead race could be said to be rather weak. They shouldn't be the greatest threat to this hurdle.

"That's right, I really need to find a way to leave this place. Do you know where I can leave from?" Long Chen looked at the little girl and asked cautiously.

The little girl nodded, then shook her head and said, "I don't know, if I did, we Death Spirit Race wouldn't be trapped here for life, but we are very familiar with this 'Death Spirit Cave', and we also know some special places, my seniors know even more, uncle, you are so strong, why not I bring you to meet my clan members, maybe they can help you find a way to leave this place, after all you are different from us, you are strong, there are many places that we cannot break into, maybe you can break through. I heard my mother say, the longer you stay here, the more exhausted you will become."

Originally, this place was called the 'Death Spirit Cave'.

The Dead Spirit Cave was a race abandoned by the spirit race. They lived and reared in this dark place. They would never be able to see the sunlight outside for all their lives. This was something that could drive people insane.

Long Chen thought that it would always be a difficult battle, but this Death Spirit Cave was different from the Ten Thousand Layered Spiritual Array and the Divine Puppet. Other than the fact that his strength was depleted, Long Chen did not feel any other killing intent. At the very least, the little girl in front of him couldn't see anything that was scary. He needed to be on guard against her.

He thought to himself, "There are two possibilities. First, if what she says is true, then I really should go with her, so that I can find the exit faster and get out of here." He didn't want to die from exhaustion. Secondly, she was the killing intent of the third test. Everything she talked about was a trap, the Undead race, and other things were all fabricated. "There's no such thing. Her goal is to kill me."

At the moment, the probability of the first stage seemed to be higher.

"It doesn't matter if this little girl is being tested, I still have to welcome her. Understood, hiding is not the way. I don't have much time left, so I can't waste it here any longer. "

Thinking about it here, Long Chen had already made his decision.

He suddenly said, "Ling'er, lead the way. I want to meet the elders of the Death Spirit Clan."

"Really? That's great. "

Ling'er's eyes lit up, they were the window to her soul. When Long Chen stared into her eyes, the expression in his little girl's eyes was extremely pure and natural.

"Uncle, you should follow Ling'er."

The little girl reached out her small grey hand, and waved towards Long Chen.

Long Chen made a sound of acknowledgement as he began to walk shoulder to shoulder with her. Of course, he was paying full attention to the little girl while also observing his surroundings.

"Follow this direction and the array will become stronger." Ling Xi didn't understand the situation, so she reminded Long Chen.

"It's not a big deal. It won't affect us for now."

Long Chen's body and resistance towards physical attacks was too strong, so he was not worried for now. He focused even more on the little girl and decided to see if she had any flaws.

"Ling'er, tell me about your Death Spirit Clan. What caused your clan to be exterminated and then you to be imprisoned here?"

Hearing this, the little girl was startled, but she shook her head and said, "Mother, they did not explain it to me, but I seem to know, that we Death Spirit Race cultivate Spiritualism related to corpses, and are good at controlling and absorbing the power of corpses, moreover, we are very strong, and threaten the position of the Holy Spirit Race, making them feel disgusted and humiliated. That's why those generations of Spirit King decided to exterminate us, and we also had an expert that threatened the position of the Spirit King before. That should be the fuse."

There was nothing wrong with these words, so Long Chen continued to ask, "What is the name of that expert, and how many years ago was he?"

The little girl replied, "It seems a long time ago, a million years ago. I don't know his name, but we called him the Spirit King. Maybe it's because of this that I was killed by the Spirit King. "

Long Chen continued to ask a few questions about the Undead race. The little girl replied very quickly, not allowing Long Chen to find any flaws. Although the array had been constantly strengthening, it was not a big danger for the time being.

Long Chen had an idea and asked: "Ling'er, do you want to leave this place?"

Chapter 2452 - Death Spirit Void Array

At this point, Ling'er stopped walking. Her body lightly trembled as she nervously asked, "Uncle, are you a human?"

Long Chen nodded.

The little girl quickly said, "The human and spirit race all have a divine country. If you are willing, you should be able to secretly bring us away right? With your divine country, you can easily accomplish this. And your strength, so what if you can compete with the Spirit King? "

Long Chen replied, "He should be slightly weaker than me."

She stretched out her fingers and pulled at Long Chen's pants, kneeling on the ground, begging him, "Uncle, please save us. Our Dead Spirit Clan has been reproducing in this dark place for millions of years, and we have been tormented by pain and suffering, and have never seen the outside world. I have many uncles, and they are all crazy. This is a nightmare for generations after. Uncle, if you are able to do it, Ling'er will beg you for your help. We are definitely willing to have everyone work hard to find a place to leave this place! "

She was suddenly so excited because she had been enduring for a long time. Only this time, when Long Chen lifted up his hand, she dared to speak.

Long Chen quietly looked at her. Honestly speaking, he was a bit softhearted right now, but he was still very cautious, because up until now, he still could not tell if it was the first or the second possibility. Killing any race and capturing them for such a long time was not the right choice. It would be best if he could help, but the problem was that he knew from start to finish, this was a test for himself. Since this was the Psionic Imperial Mansion, the little girl in front of him also had a chance of being a trap, a trap of kindness.

If it was a trap, then it could only be said that this child's acting skills were too high. Her current cowardice and her crying and begging came from the bottom of her heart, her red eyes made people's heart ache. Her weak body trembled continuously because of nervousness, and all her hope fell onto Long Chen.

Long Chen gently pulled her up, and said: "Ling'er, about this matter, it's best to explain in detail after I meet your elders. I can't promise you anything now, and the Spirit King here is watching me at all times. What do you think of his expression now? Is it a triumphant laugh, or is it a sneer at your request? "

If this girl was a trap, then Spirit King would definitely laugh complacently. However, if this wasn't the case, he would definitely mock this little girl's naivety.

Ling'er didn't seem to understand her words. She was a bit confused. "Is he looking at us? Then we can't leave. I ..."

At this point, she actually began to cry, tears rolling down her face. He kept wiping away his tears, looking pitiful.

"Enough, don't cry. Let's go see your elders first."

Long Chen lightly patted her shoulders as he took the chance to use the Primordial Power of Reincarnation to check his. That's right, this girl only had the strength of Divine Martial Stage, he was a weak child that Long Chen could kill easily. There was nothing strange about him.

The little girl looked at Long Chen with tears in her eyes as she held onto the corner of Long Chen's clothes and sobbed, "Uncle, I want to go out. I don't want to stay here any longer, I heard from my elders that the outside world is very big, there's a sun, a moon, a sky full of stars, flowers and trees. I heard them describe it as very moving, but I don't know what those things are like.

Theoretically speaking, if she was just a trap, then it should be that the more she talked, the easier it would be for her to be exposed. But there was nothing like it so far, everything seemed to be very true, causing Long Chen to temporarily not have an answer in his heart.

He chatted with the little girl all the way, advancing forward. The little girl had indeed walked a different path, going around and around, but it was precisely this way, that Long Chen realized that he never went back to the path he came from before.

At the same time, Long Chen also sensed the auras of the other undeads. There were indeed about a few hundred or so people scattered around, and in the area in front of them, there should be a relatively large space, where the majority of the undeads resided.

"Uncle, this is our home."

The little girl pointed to the depths ahead.

This was a hemispherical space, the ground was flat, and there was a spherical arch above his head, making it look darker and darker. But with Long Chen's eyesight, he could see the end of it with a single glance, and he could see hundreds of spirit race races here.

There were both young and old; none of them were strong, and even the strongest among them had yet to reach the tribulation of reincarnation. It was really a wonder how they were able to undergo tribulation in the depths of this place.

These people were all rather skinny. Their eyes were gray, lost, and listless. There were very few who were as lively as the little girl beside them. They were all in low spirits, and only a few children were more lively. They just didn't understand how terrible it was to be here all their lives.

The moment Long Chen appeared, all the Undead Spirits focused on him. Their grey and white eyes flashed with fear, but only after seeing the little girl beside Long Chen and that Long Chen was friendly did they heave a sigh of relief.

Everyone surrounded Long Chen, and then kneeled on the ground respectfully. Some of the elderly people were actually extremely afraid.

They didn't even dare to raise their heads. They were practically prostrated on all fours.

"Ling'er, come here quickly!"

A thin woman beside her quickly waved her hand.

The others successively shouted out, "We, the Undead Spirit Race, pay our respects to Lord Powerful Berserker. We have only remained in this world, and the last few bloodlines of the Undead Spirit Race are not a test of the Spiritual Lord's Mansion. Lord Experts, please do not kill us by accident.

Other than the few children who watched curiously, the others were all trembling and kneeling.

Long Chen's eyes swept across them and asked, "In the past, did someone intrude the Ling Residence and kill you?"

At this time, an old man shakily raised his head. His eyes were deep and excited as he said, "Yes, my lord. Every time we were killed by accident, we were almost wiped out several times. "We understand that those who barge into the manor are peerless experts, however, they are too cautious. They do not know that we, the Undead race, are just puppets imprisoned here, and think that we are the trial of the manor, so they killed many of us. We do not have any strength to fight back."

was even more confused. Could it be that the Undead race were really just imprisoned here?

The old man quickly explained, "The test of the Death Spirit Cave is a 'Death Spirit Void Array' constructed using the remains of billions of my clansmen. The Death Spirit Void Array is very scary, only us, the Death Spirit Clan, are not affected, so any clansmen who enter this place will have to undergo a terrifying test. According to our ancestors, there are many strong warriors who were unable to find an exit in the Death Spirit Cave for dozens of days, and died due to exhaustion. This is the most frightening part of the Death Spirit Cave, but it has nothing to do with the hundreds of Death Spirit Formations we have here. We hope that the Lord Warriors will not hurt us, and if there is anything that we can help with, we, the Death Spirit Clan, will do our best to help you. "

"So that's how it is!"

Long Chen suddenly sneered, and said: "Your acting is rather realistic, but only a fool would believe you, go and die!"

His movements were very fast. As soon as the God-Slaying Sword appeared, a sword light that could kill this old man countless times pierced the old man's body. The sword light flashed once, and before anyone could react, the old man's head was sent flying!

This time, it was Long Chen's turn to be stunned. In reality, the attack he had unleashed was not very strong, as long as it was a tribulation of reincarnation Ranker, they could easily avoid it, the old man was extremely weak, and did not seem to even have the strength of a Nirvana Tribulation Realm. Long Chen thought like this, if he was in a life-threatening danger, the majority of people would subconsciously use their true strength to protect themselves.

Was he really an old man who didn't have much fighting strength?

The flying head frightened many people, and at the moment, everyone was crawling backwards in panic. Ling'er did not believe that Long Chen would do such a thing, and her eyes widened for a moment.

However, Long Chen was quick, in the blink of an eye, the other party's head had already reached his hands. The flame of his life force ignited, and with the low level of this old man's body, it would take less than a breath's time to completely recover.

He didn't mean to kill, he just wanted to test his strength.

The result was just as he had seen, this group of Undead race members were indeed very weak.

From the time he was beheaded to the time he was regenerated, it had all been a blink of an eye. Before anyone could even react, the old man was already standing in front of them.

For a moment, everyone was stunned.

"Master!"

The old man had a life or death situation, and he didn't know what to say.

Long Chen looked at the little girl only to see her looking at him curiously. "Uncle, was this just a deceptive trick?"

Everyone knew that this was definitely not the case, because the old man's original body had just fallen to the ground.

Long Chen laughed, patted her head and said: "Ling'er, tell everyone the reason why you begged me to just now."

Ling'er was very excited as she said to everyone, "Elders, I was begging this uncle to bring us out, so uncle told me to bring him to see you. He won't harm us."

Chapter 2453 - Astonishment

Hearing the little girl's words, all of the Undead race members found it hard to believe. To them, this was impossible.

Who would barge through this manor and treat them as though they were nothing? Not to mention saving them. Their lifelong wish was to leave this place, but that was an extravagant hope that was impossible.

Now, it was as if a lifetime's dream was right in front of his eyes.

Long Chen swept his eyes across every single one of their expressions. They were all real, natural, grateful, and excited, and he also felt a tinge of fear towards himself. From their trembling expression and their shallow strength, Long Chen gradually believed in them.

He asked Ling Xi and Little Cat, saying, "Do you think they are a part of this third level of disaster, or are they really pitiful people who were imprisoned here?"

Ling Xi and Cat looked at each other, shook their heads, indicating that they didn't know either.

"Am I being too cautious? For a place like the Spiritual Lord's Mansion, they would definitely not use lies to deal with me, but a true calamity, right? "

If it was a scam, it would be boring.

They are indeed imprisoned here, but I still have a bad feeling about this. I keep having the feeling that if these guys can survive here, it's not that simple, and as long as you are careful, boss, it's not a bad idea to let them find an exit together. After all, they are very familiar with this place.

Long Chen had the same thoughts as Little Cat.

Towards this undead race, even though what they displayed was basically true, they still had to be on guard and cooperate with them.

Therefore, Long Chen said: "Everyone, I have indeed told this young lady, after seeing all of you, I have made up my mind, but I have a condition. Everyone knows what reason someone like me is here for, I must definitely be thinking of leaving this place and going deeper, so I need everyone's help, if my friends from the Death Spirit Clan can help me find a way out, I will fulfill my promise and bring all of you out. Everyone should be aware that under this Death Spirit Void Array, I will not be able to hold on for long. If we cannot find the exit within these few days, it would be difficult for us to leave this place. "

Hearing Long Chen's words, the Death Spirit Clan's clansmen were naturally extremely excited. They could not help but laugh, and hoped that they could get so close to him.

"Alright!" We will all act together and search with our benefactors! "

Everyone couldn't help but cheer. That genuine smile didn't seem fake at all.

A few of the elders were rather bitter, they had temporarily let their clan members be cheered up, and said to Long Chen: "Benefactor, although we also have the same intentions, and work hard for the sake of getting out, but we are all weak. After all these years, we do not know what we can say, the only

thing we can do is to lead the way, or search for a relatively strange place since ancient times, and let your benefactor see what kind of trick you have."

If they knew about the exit, they would have definitely brought Long Chen there from the very beginning. Thus, what the old man said was very normal.

Long Chen nodded his head: "Alright, since it's like this, everyone can begin to move. As long as there's anything that seems strange, you can bring me over to take a look."

"Yes sir!"

At this moment, everyone from the Undead Spirit Race began to boil with excitement. Regardless of whether they were old, weak, or women, everyone stood up. They spread out and set up their own groups.

Long Chen could only trust them, but he was also prepared.

Of course, he had to find the exit himself.

"In all these years, there should have been people that have charged through this place. Didn't your ancestors tell you where they left from?"

Long Chen walked with a few elders and asked.

One of the old men said regretfully, "How would we know? In the past, the strong ones either killed us or didn't dare to come close to us. If they really passed through here, we don't know where they came from. Great benefactor, we do know a few places that we can't normally go near, so we'll take you there right now. "

"Yes."

Long Chen nodded.

The little girl called Ling'er was also following him, she was extremely excited, and was extremely spirited as well. From time to time, she would pester Long Chen and ask him various questions.

"Uncle, what color is the moon? Some people say it's purple, some say it's green, but I've never seen purple or green before. I've only heard my mother say that some of the soil is purple, while some is green. "

Of course she was curious about the outside world.

Even if Long Chen had thousands of doubts in his heart, this Undead race's everything was actually so real. With his strength being the third strongest in the world, there really wasn't much he couldn't see through, so he gradually chose to trust them. After all, they were a group of pitiful people.

"In front of us, there is a very dark place. If we go in, we can't even see our fingers, so we normally don't dare to go in. In the past, some clansmen went in, but we never came back, so we probably died inside."
"Benefactor, do you dare to enter this place?"

An old man asked in a low voice.

"Let's go closer and take a look."

Long Chen looked towards the depths of the cave. It was indeed more profound, and it was hard to tell what was inside.

Cold air pressed in from the front.

It was fortunate that the Undead race was leading the way. Otherwise, regardless of how long he wandered in the maze, he probably wouldn't be able to reach this sort of special place.

Long Chen quickly reached his destination.

Even Long Chen could not see clearly what was inside, and only waves of Yin Qi were pressuring him, causing his hair to stand on end. The few elders did not dare to approach, and watched from afar with pale faces, while the little girl, Ling'er, also hid behind Long Chen, timidly watched the dark cave in front of them.

Long Chen and Ling Xi were currently discussing.

"Can you see what's inside?"

"It seems to be the center of the Death Spirit Void Array. Didn't you notice it? Now that the power of the Void Death Spirit Array has increased by a lot, reaching an unprecedented level, your energy consumption is already quite large. If they continued to move forward, they would definitely be even more exhausted. "Brother Chen."

Long Chen naturally knew that it was like that, but according to the logic of the Psionic Imperial Manor, the more dangerous the place, the more likely it was that it was an exit. If Long Chen wanted to leave this place, perhaps there was only one way, and that was to break into the core of this kind of undead array.

He thought for a while and decided to go in.

Even if the undead race didn't bring him here, since he found this place, he wouldn't hesitate to go in and take a look. After all, he came here for a challenge, and only a challenge has a way out.

"Uncle, let's not go in. This place is too scary."

Ling'er said with a trembling body.

"You guys wait inside, I'll go in and take a look."

Long Chen looked at the chaotic cave entrance and said resolutely.

"Don't!"

Ling'er said nervously.

The other elders were also very nervous.

Long Chen smiled faintly, maybe it was truly dangerous inside, but he would eventually come here. The challenge of the Ling Residence, was definitely for him to go to this most dangerous place.

He suddenly understood.

Honestly speaking, the other party had already done quite well, there were no flaws at all. However, standing in front of this cave, Long Chen had a kind of intuition.

He turned around and suddenly asked Ling'er, "A person like Long Qinglan was able to easily pass through the Ling Residence. When he arrived, all of you elders should have been there as well.

Who is Long Qinglan? The few elders were stunned.

They seemed more nervous.

Long Chen laughed, and said: "It's my father, I have a question for you. Since you guys are in such a miserable place, why didn't he bring you guys along? He's the last person to go in here. "

When he asked for Long Qinglan's name, he finally saw a trace of panic in Ling'er's flawless and innocent eyes.

The slightest change was enough.

Long Chen had also suddenly thought of Long Qinglan's situation, and only after that did he turn his head to ask. He did not expect that these few fellows would finally reveal a flaw, they had long ago planned to bring Long Chen to this place!

Even though everything that had happened before was so real, perhaps this was the result of their countless practice sessions.

In fact, everyone who came here experienced this process.

Long Chen laughed and said, "Spirit King can control this undead cave and let me go straight to the passageway in front of me, but you guys have to go through an additional process just to make me think that I'm extremely smart. However, I was suddenly deceived and my heart became flustered, my performance became unstable, which would cause my heart to collapse, and then be destroyed by the calamity here.

He clearly understood the Spirit King's goal.

If he were to directly use the second layer to the third layer and place it at the core of the Death Spirit Void Array, then Long Chen would be at the time when his mind was the most cautious and sturdy, thus breaking through would be difficult. However, it was different with the Undead Clan as Long Chen believed that they could, but in the end, they discovered that their trust had been used.

Spirit King liked to play with these arrogant little tricks.

However, such a method had an unexpected effect in the Residence of the Spirit Master. Many people who had entered here had died here.

However, Long Chen had discovered everything in time.

In front of their eyes, the elders suddenly became expressionless. Only Ling'er had calmed down, and a trace of coldness could be seen in her eyes.

"You are right, you are the last one. As long as I stop your advance and gather ten people, I will regain my freedom. Freedom, how important it is to me! "

Although the Undead race had been imprisoned here for close to a million years, and during this period of time, although there were many people who had ventured into the Supreme Spirit Manor, only a few had truly broken through the Ten Thousand Layered Spiritual Array and the Puppet God Cave. There were some who truly had great ability who had passed through the Death Spirit Cave and even reached the deepest part of it.

"Ten? Am I tenth? "

Long Chen frowned, and looked at the little girl in fear. He realized that this little girl was the core of this group of undead race, and when she revealed her true appearance, Long Chen actually felt a terrifying feeling from her body.

The little girl's grey eyes became indifferent, but a smile still hung on her lips, and she said: "That's right, the Spirit King killed almost all of my predecessors and piled up a Death Spirit Void Formation, at the same time, sealed all of my remaining clansmen in this place, and prevented them from leaving for all eternity. After that, roughly a few hundred thousand years ago, he forgave the punishment, allowing us Death Spirit Clan members to stop ten of the experts from barging in, allowing us to leave this place and regain our freedom. This is the agreement between us and the Spirit King. "

At this time, her voice was much more mature than the innocent child from before. Her every move was strange, and the sense of danger she gave was getting stronger and stronger.

Long Chen didn't think that the Undead race's story was actually true. When he realised that the Undead race was indeed strange, he had actually already denied everything that they had said before.

"At that time, we knew that the number ten was not very high, but today, we know how difficult it is. There are too few people who can make it to the Death Spirit Cave, and there will only be one who can do so once every tens of thousands of years, and many of our clansmen have not been able to see a single expert who has charged in, moreover, they have made it all their lives, and some of them are really very strong. If we want to be able to stop them here, or even kill them, it will be even more difficult.

Long Chen was quiet for a moment, he thought carefully about the words of the other party. The last sentence was very interesting. She said that it wasn't us, but himself.

Long Chen squinted his eyes and asked again: "In truth, there is no need to go through so much trouble. Are you afraid of the Spirit King? "

They had chosen to be decided between the Spirit King s and had refused to let himself take them away. There must be a reason why they were so determined.

In other words, for countless of years, only three people will be able to charge through the Spirit Master Mansion. In the end, not only will we be thrown back by the Spirit King, we will be ruthlessly punished, and our clan will almost be exterminated, so the Ancestor has instructed us that if we want to obtain our freedom, the only way is to follow the agreement he made with the Spirit King, so I am your enemy, so I will not be able to help you.

What she said wasn't unreasonable; it was very difficult in the Psionic Imperial Mansion, and there weren't many people who could pass through. Furthermore, even if he brought her out, he wouldn't be able to protect this undead race for life, and would even offend the Spirit King. There would be a day when they would be brought back by the Spirit King, so it wasn't realistic to want to bring them out of here.

Of course, Long Chen was an exception.

He knew that the real calamity was coming, so he wanted to fight for a little more, and said: "Perhaps you do not know, I entered the Psionic Imperial Mansion to make a bet with the Spirit King. If I can pass through the Psionic Imperial Mansion, I will have another bet with him, and that is the duel between the two. "That's why I only had a conflict with him before. If I can win, all of you can be carefree once you leave this place."

Hearing that, the little girl looked at Long Chen in disbelief, and said: "You sure are bold, but don't try to convince me, I am not stupid, you are so young, it is impossible for you to defeat the Spirit King. I only believe in myself, as long as you stop me from going out, there is no need to accompany you in your adventure."

didn't dare make a move for the moment. At this time, the little girl smiled at Long Chen and said: "In my entire life, I have seen a total of two warriors who managed to charge in, and the other one is your father, he is really amazing, it was so easy for him to get through this place, and I am unable to do anything to him. It was said that later on he even defeated Spirit King, and became the world's strongest person, do you want to follow your father? "After I was born, I was told that as long as one more person is stopped, the Undead race will be freed. His arrival originally gave me the greatest hope, but because he was too strong and gave me a disappointment, today, you are my greatest hope. After all, we Undead race cannot afford to wait any longer."

At this point, her eyes flashed with tears.

All of my clansmen are waiting for my freedom together with me. It's a pity that we're all too weak and that we don't have a long lifespan in this place, so they are all dead and wounded, and today, in the entire Death Spirit Clan, only I am left. You can see that they are all illusions of the Void Death Spirit Formation.

Hearing her words, Long Chen turned to look, only to see that the few elders who had escorted him here just now had vanished into thin air. The entire Death Spirit Cave had become empty, other than Long Chen and the little girl.

"This Void Death Spirit Array is able to trick my eyes and think. It is indeed very terrifying, after all, it is made from so many corpses and their auras. "This is a terrifying formation with over a hundred million dead spirits gathered here. It looks like the third level of tribulation is indeed much more terrifying than the second ..."

Long Chen had a rough idea of what to do.

Only now did he realize that this little girl was connected to the entire Death Spirit Void Array. Or rather, she was a part of the array itself, and all the strength she had displayed just now was actually just an illusion of the Void Death Spirit Array's confusion.

One expert after another arrived, the Death Spirit Void Array used these illusions to confuse them, deceiving them into coming here. As long as they stepped into the chaos in front of them, they would be at their mercy.

The little girl stared at Long Chen with her big eyes, and said with a cold voice: "Let me introduce myself again, I am the last surviving member of the Undead Spirit Race. My name is Shi Jiangling. The one who stopped you from going forward and even allowed you to be killed. Out of the nine warriors in front, six of them were killed by us. "

Speaking to here, her lips curved up in a strange way, and she laughed softly: "However, you are the first one to see through the lies between us, the Void Death Spirit Formation, and the people who saw through us before we reached the 'heart of the formation'. It's just that you mustn't be too complacent. If you want to leave this place, there are only two methods, the first is to admit defeat, the Spirit King will take you away, this way I can be considered as stopping you. Secondly, we need to break into the core of the formation and defeat me and the Death Spirit Void Array in order to be able to leave this place. The only thing you need to know whether or not you have seen through me is that you won't panic in the face of sudden betrayal. In fact, you can't change the result, unless you're willing to admit defeat at this time, then, I'll wait for you inside. "

Perhaps she was afraid that Long Chen would attack her now, but halfway through her words, she instantly entered the heart of the array with an extremely quick speed. Because of that, Long Chen was no longer able to find her figure. The surroundings became incomparably quiet, and only the Death Spirit Void Formation was still active, causing Long Chen's strength to gradually decline.

"Brother Chen, do you still believe this guy? Perhaps she is just lying to you, in order to pass through this place, you do not have to pass through this array core, this is the core position of the entire Death Spirit Void Array. If you enter, I'm afraid that the rate of exhaustion will increase by at least ten times, that way, even you will not be able to stay here for long.

Ling Xi studied formations, so she knew more clearly how terrifying the Death Spirit Void Array was. After all, it contained far too many things. A hundred million corpses of the Undead race was truly terrifying, it was simply a confrontation between Long Chen and the hundred million people.

Long Chen said: "This time it's true, the so-called test of the Spiritual Lord's Mansion, Spirit King naturally placed the most important passage into the most difficult place. This is not some other secret realm, there are no shortcuts, Spirit King is gambling with me, so how could I have any shortcuts? Shi Jangling was right, the only use of this is for me to find out the truth before going in, and the only thing I can do is to not panic when suddenly getting betrayed."

Long Chen explained very clearly, Ling Xi knew that it was true. Although she was worried, she was still willing to believe in Long Chen.

Lost the Spiritual Array.

Although Long Chen would not make a move now, there would be a day when he would make the other party pay the price. Now, he had come here for Ling Xi, for his own child, for the sake of this new family and for his own as well.

Ling Xi understood him, understood him, and loved him even more.

"Boss, I have a question I don't understand."

The kitten suddenly said.

"What problem?"

Long Chen asked.

He laughed and said, "This undead race only has her. What's the use of her going out? Could she have children of her own? "

In this kind of situation, only kittens would be able to think of such a boring question ...

Chapter 2455 - Black Mud

Now, Long Chen took a deep breath, holding the Heaven Smiting Sword, he controlled the flow of his energy to prevent it from failing any further. Now that he had regained his determination from entering the array, he had a decisive and determined spirit and will. Without saying anything further, he directly stepped towards the center of the array formation!

Since it was unavoidable, he would accept the challenge!

Just like how he fearlessly made two bets with the Spirit King.

Just like how he charged into the Ten Thousand Layered Spiritual Array, defeating the Soul Puppet godly servant!

He was so determined to endure so many unendurable trials and tribulations, but he was also not afraid of challenging this Deathly Spiritual Void Array. He came to the House of the Spirit Master to accept the challenge, but the Ten Thousand Layered Spiritual Array had already forced the God Slaying Sword out.

Only forward!

The moment Long Chen stepped in, it was as if he had entered a world of viscous liquid. It seemed soft on the outside, but it had a nauseating pressure and the entire world was undergoing a tremendous change. Yet Long Chen himself discovered that in this dark world, his strength was bound to be greatly weakened, and even using the strength of his fleshly body to make a move was extremely difficult!

This was the core of the Death Spirit Void Formation, the core of over a hundred million corpses. To have such a hard to deal with binding power, it was like a swamp, similar to Long Chen's speed that was slowed down by ten times during times of chaos.

And this was not the most terrifying part. The most terrifying part was naturally the exhaustion of power. It was just as Ling Xi had said, after entering, the speed at which the Primordial Power of Reincarnation failed greatly increased, and in a short period of time, it had reached several times the speed of the exterior. This was also the reason why Long Chen's physique was so special, if it was anyone else, they would definitely be exhausted within a short period of time!

But even if it was Long Chen, under the effects of the 'Black Mud' and 'Strength Deficiency', he would definitely not be able to hold on for long. Under such a troublesome situation, wanting to break the Death Spirit Void Array and leave, was even more difficult. Even becoming a dragon would be a problem. After all, becoming a dragon consumed a great deal of strength and it would only cause one's strength to fail. By then, even if one didn't die, it would still be considered a loss!

As long as he lost, he would lose, losing all of his children.

Although it was not his choice, but since he had already accepted the bet, Long Chen would definitely not give up. There were some things in life that he could not lose, such as right now.

His surroundings were changing, as if all the caves and soil were disappearing. Right at this moment, Long Chen seemed to have arrived at another world as his surroundings were filled with an endless darkness and mud, making it difficult for him to move. These lights surrounded Long Chen, similarly, they were endless, as if they were dark stars in the night sky. However, when Long Chen took a closer look, these gray lights were actually the corpses that were originally buried in the soil of the Death Spirit Cave.

With Long Chen as the center, the hundreds of millions of corpses of the Undead Spirits were encircling him, and all of the bones seemed to be connected to each other. With the dark gray threads connecting the bones, they formed an unfathomable Death Spirit Void Array.

"Congratulations, you have truly seen the Death Spirit Void Array."

At this moment, the grey little girl appeared once more in the darkness. Half of her body was hidden in the darkness, although her appearance was no different from before, her eyes were cold and indifferent, there was a chill in them, and an extreme excitement and craziness could be felt. Her entire body was covered with countless tiny lines of sight, linked with many corpses, which meant the entire

Death Spirit Void Formation was filled with terrifying power, and what surprised Long Chen was that the little girl in front of Long Chen, Shi Jiang Ling, seemed to be able to summon this kind of power.

The strength of over a hundred million corpses!

This was probably the source of Shi Jiangling's terror.

However, the problem was that ever since he came here, not only had he been restricted greatly in terms of his body, his strength had been depleted greatly as well. He did not have much time to think about it, and if he continued talking with Shi Jiang Ling, he would be able to exhaust himself to death just by talking with Long Chen!

Therefore, to the current him, time was equivalent to his life.

However, he knew that he couldn't panic. The more anxious he was, the more likely he would be killed. Calm was always the key to victory.

"The Death Spirit Void Array is indeed terrifying. The remaining two tribulations must be even more terrifying. No wonder no one has been able to pass through this Spiritual Lord's Mansion for a million years!"

With the hundred million corpses forming the array, they were gradually plundering Long Chen's power. The more they plundered, the stronger the Death Spirit Void Array felt.

Thus, at this time, it all depended on decisiveness.

Long Chen did not speak to Shi Jiang Ling, and instead used the God Slaying Sword with great difficulty. God Slaying Sword's control over one's energy was extremely precise, which allowed Long Chen to control his own energy consumption.

In the blink of an eye, over a hundred sword lights flew out and shattered the hundred skeletons around Long Chen. The attack did have an effect this time, but to the hundred million corpses, the effects of the hundred skeletons were basically not affected at all. Furthermore, Long Chen found out that after the skeletons were shattered, they were still recovering.

This meant that unless he could destroy all the corpses within two hours, it would be extremely difficult to destroy this place.

Moreover, this time, the power released by the God-Slaying Sword was far greater than usual. It was as if it was being drawn out.

This was the supreme evil Spiritualism of the Spirit Race a million years ago. There were basically no records of today, so she could only rely on her own understanding of formations to think of a way. The one who was currently exhausted outside was Long Chen, but compared to Long Chen, she was much more nervous.

Only the kitten acted as if nothing had happened.

To put it in his words, he believed that Long Chen would never die, so he was too lazy to be nervous.

"Hehe, to tell you the truth, the Death Spirit Void Array only has one way to destroy it, and that is to destroy all the corpses within two hours and defeat me at the same time. Without this power, no matter how many corpses you break, it won't be enough to stop them from recovering. "

When Long Chen made his move, Shi Jiangling continued to fly beside him and spoke faintly.

Regardless if what she said was true or not, it was still a psychological pressure on Long Chen.

Black swamp, power exhaustion, over a hundred million corpses, this kind of environment, no doubt made people feel no sense of security, even with a powerful force it would be greatly reduced. If he was tricked into this, and suddenly encountered a betrayal, then he would be even more terrified.

Although the third level of difficulty had led to the exhaustion of one's strength, from beginning to end, the more terrifying attacks had come from the psychological direction!

Long Chen, who had always been calm, could not help but be extremely anxious at this moment.

Now, he had already become the third strongest warrior in the world, but this Void Dead Spirit Formation was too terrifying. Even Yang You and the Spirit King probably wouldn't be able to break these hundred million corpses within two hours!

Long Chen could only do it once!

Dragon Transformation!

He would use his Dragon Transformation maximum strength, but at the same time, he would also use up a large amount of energy. If he failed to break through these skeletons before his strength was completely depleted, then he would be completely defeated!

However, the more he hesitated, the less time he had, and the more he would suffer!

This time, Long Chen turned into an Primordial Blood Spirit Dragon. Ignoring the huge amount of energy that he had expended, he summoned three million Blood Weeping Dragons, and countless slaughter dragons rushed out of the black swamp towards the Sea of Consciousness. These slaughter dragons were simply like a red ocean, dyeing half of the Death Spirit Void Formation red!

Long Chen was quite satisfied with the effect of consuming such a huge amount of energy. This Sobbing Blood Dragon Soul was a group attack, the effect was very good. If the Death Spirit Void Array did not have the two terrifying powers of darkness and energy depletion, Long Chen could easily exterminate these corpses within two hours.

Right now, the speed of the Blood Weeping Dragon's soul in this swamp greatly slowed down. Its attack and bite were not as tyrannical as before. To destroy a small dragon's sea of consciousness, it would take a long time!

A hundred million corpses, three million little dragons, and every little dragon would need at least two hours to break through thirty of these corpses. According to their current speed, there was a possibility of success, and just the continuous appearance of the killed dragons was a huge consumption of energy. Whether or not Long Chen could last for another two hours, it would only be up to fate.

Now it was all about luck.

He was highly focused and did not waste any time. He let the killing dragon rip apart one corpse and immediately moved on to the next.

As time nervously passed by, Long Chen's heart had also become tense. The entire world was now black and red, and his own strength had simply plummeted. Who knew if he could hold on until then?

"Brother Chen, don't worry. There's still Three Lives Love Silk. I can help too." Ling Xi said.

"Let's wait first."

It was not the time for him to be exhausted yet, so Long Chen was not anxious, he only felt that if he were to so easily break the Death Spirit Void Array, would it be harder than the Spirit Puppet God Slave? One must know, for other people without Ancestral Dragon Art to pass the trial of the Soul Puppet Divine Servant, the difficulty was extremely high!

This place must be even more dangerous!

Sure enough, at this time, Shi Jiang Ling floated in front of him and said with a cold smile: "You forgot about me, I'm the attack controller of the Void Dead Spirit Formation."

Chapter 2456 - Impassable

Sure enough, what he expected happened.

Shi Jiang Ling had said from the beginning that they had to defeat the Death Spirit Void Array and defeat her in order to get out of here.

Long Chen's heart thirsted for a chance to break through the Supreme Spirit Palace. Since he was here, he was prepared to put his life on the line, so he was not afraid in the slightest. All he had was hatred, hatred towards the number one person in the world, Spirit King. This was truly a despicable person. Using two months of hiding time to create the Lost Spirit Formation, was precisely for the sake of getting Long Chen's child!

Here, Long Chen was constantly thinking of defeating your Spirit King, this was the strongest desire he had at the moment. For Ling Xi and the child, and also for his own dignity, he had to chase after his father's footsteps!

He once easily passed through here, defeated the Spirit King, and created a legend.

But now, Long Chen was in the same place, facing a life and death crisis. It wasn't because he was too far away from Long Qinglan, but because the age at which he came here, wasn't even one tenth of Long Qinglan's age.

But these were not excuses to fail!

In just an hour, he had almost crushed all of the fifty million corpses, and the corpses were slowly recovering. But Long Chen's exhausted energy in the Death Spirit Void Array was unable to recover, so continuing like this was already very bad, the chances of winning was very slim, needless to say, at this time, Shi Jiang Ling had actually launched an attack on him!

Honestly speaking, her own strength was extremely weak. Only around Divine Martial Stage, she was no different from a newborn infant in the Immortal God Realm. But because of her bloodline, she was able to integrate with the entire Death Spirit Void Array and use the power of over a hundred million clan members' skeletons. When she possessed this power, she was basically no different from a Dragon Emperor, at least in the Death Spirit Void Array.

If the Void Death Spirit Array didn't have the ability to seize the fortune of the world, it wouldn't be placed in the center of the Death Spirit Cave.

Right now, when Long Chen had almost no other power to use in battle, Shi Jiang Ling was not courteous at all, she suddenly appeared in front of Long Chen, the entire Death Spirit Void Formation which was moving with her small hands, as she casually waved it, countless of Spirit Qi surged towards her, controlled by her!

Long Chen was controlling the Sobbing Blood Dragon Soul now, so much so that he couldn't bother with her anymore.

Ling Xi definitely could not make a move, otherwise, it would be against the rules. Furthermore, under the situation where Long Chen's power was depleted, Three Lives Love Silk could not help much, since Three Lives Love Silk relied on Long Chen's power!

"It's a good show. It's only starting now."

The power of the Death Spirit Void Array condensed in Shi Jiang Ling's hands. She stretched out her hand, and instantly, countless gray Qi gathered on her arm, turning into a grey claw. It was sharp, sinister, and had the power of the Death Spirit Void Array.

"Don't let me meet you, or I'll cut a hole in you and let your strength drain away."

To Shi Jiang Ling, Long Chen was the last opponent that she needed to stop.

She had been waiting for this moment for countless years, countless years of loneliness, it was not something anyone could endure. Her lifelong wish was to go out once, so right now, she was even more excited, she would definitely not give Long Chen any chance!

Long Chen was doing his best, but wasn't she the same?

It looked simple, but in truth it had already condensed the entire power of the Death Spirit Void Array, and was definitely more terrifying than the Ten Thousand Deadly Claw. If not for this Death Spirit Void Array, Long Chen might have easily destroyed this kind of attack, but now that he was betting on all of his strength, how could he face it?

"Accept your fate."

In the blink of an eye, Shi Jiangling was already in front of him, and her gray claws were thrusting towards Long Chen's chest!

If Long Chen wanted to destroy the Death Spirit Void Array in one go, he simply did not have any extra strength to deal with her. If he gave up on tearing the corpses apart, and waited for them to gradually recover, he would be completely finished. This was not a pressure that an ordinary person could withstand!

"Brother Chen!"

At this time, Ling Xi could only let Long Chen use the power that belonged to him. She used her Three Lives Love Silk to link herself with Long Chen, and using her own strength to fuse with Long Chen's exhausted strength, she brought about a certain amount of help to Long Chen.

"Whiz!"

A sword image flew past, its speed extremely fast, Long Chen was naturally not lenient at this time, and with great difficulty, used Ling Xi's strength to execute One Sword Slash God, he obviously wanted to kill the other party, but regretfully, in this black swamp, Shi Jiang Ling had a very large amount of control over the entire Death Spirit Void Array, so although One Sword Slash was terrifying, she was still able to use her arm to block the attack on her head!

That claw was directly torn apart by Long Chen's Slash God Slaying Sword!

As a result, one of Shi Jiangling's arms was broken.

However, she only frowned slightly. Under the power of the Death Spirit Void Array, her arm gradually recovered and she could very quickly continue to attack.

But Long Chen's situation was not looking good.

Ling Xi wasn't that powerful, even though Three Lives Love Silk was something she had to bear together, but this time, she had almost used up all of her energy. Three Lives Love Silk was originally meant to be used to recover together, but this time, it didn't. So Ling Xi immediately fell into a state of exhaustion, and Long Chen promptly came into contact with her love for three lifetimes.

"Boss, should I help you?"

The kitten asked tentatively.

"According to the rules of the bet, no."

Long Chen frowned as he replied. Right now, he was the same as Little Cat, who had the Primordial Power of Reincarnation on him and could be replenished with pronucleus. However, the problem was

that Little Cat's pronucleus was completely used up in the last battle, he did not have any more, so his current strength was reduced by one point. Long Chen still had to find pronucleus for him.

"It was just a small accident just now. You're not that lucky now, are you?"

Shi Jiangling stepped forward again.

The Sword God did not manage to hurt her, but now she had appeared again to disturb Long Chen. Now that Long Chen's power had been depleted even more, even if he went outside, he would not be able to win against a single Dragon Emperor, not to mention Shi Jiang Ling and the Death Spirit Void Formation.

Long Chen felt despair.

Right now, what lay before his eyes was a dead end. Shi Jiang Ling was the one who urged them on, and now, she attacked again, but it was just as she had said, if Long Chen wanted to fight back, he would have to stop the Blood Weeping Dragon Soul, and if he stopped, he would completely lose hope in winning, and all his previous efforts would come to naught!

If he had just killed this little girl when they first met, things might have been a lot better now.

He saw that Shi Jiangling's frightening claws were once again closing in on him. If his opponent's attack succeeded, then forget about winning, he would instantly be defeated.

Shi Jiang Ling's cold laughter rang out continuously, and now he was certain of his victory.

Long Chen could feel the feeling of being trapped in a desperate situation. Even though he did not give in to the Death Spirit Void Array, but only three people had passed through this place in a million years, which was enough to prove the strength of the threat he was facing!

But once he was defeated, he would lose everything!

He had come here to accept the challenge.

Just as Shi Jiang Ling was about to attack, Long Chen chose to give up attacking the Death Spirit Void Array. His decision was very decisive, with less than half of his power remaining, he was still eager to win and would only lose more miserably, so he found another way, and that was to settle Shi Jiang Ling first!

The killing dragon disappeared one by one.

The human-shaped Long Chen, those bloody eyes and Shi Jiangling's body instantly clashed. Long Chen's current strength was probably enough for one or two attacks, so he especially cherished this opportunity!

In the quagmire, Shi Jiangling's claws were very close to him.

At this time, Long Chen had actually given up hope of victory, which made Shi Jiang Ling shocked. There were very few people who could be so decisive in the face of the temptation of victory!

"Even if you can kill me, so what? You already have no way to destroy the Death Spirit Void Array."

Shi Jiang Ling said coldly.

"At the very least, I have destroyed your hope!"

Long Chen laughed coldly, this smile made Shi Jiang Ling feel terrified. Yes, as long as they could kill her, then she would have nothing left, and there would be no hope of freedom.

Long Chen's actions were swift and decisive!

When Shi Jiang Ling wanted to kill him even more, when those gray sharp claws were about to descend, Long Chen stretched out his hands and held them across his chest. Now, his hands had actually completely turned blood-red, and his eyes were completely bloodshot!

It was the final strike using almost all of his strength!

"Die!"

Shi Jiangling disappeared in a flash and was already in front of him.

At this time, Long Chen drew a semicircle on his left and right hands, combining them, they formed a completely regular blood-colored circle. Within this circle appeared innumerable dragon patterns, forming two semicircular gates!

Seeing this door, Shi Jiangling was still frightened for a moment. She discovered that her entire body was trembling.

"Death Realm Dragon Gate, open!"

It was as if Shi Jiangling had knocked into this door herself. In front of Long Chen, the Death Realm's dragon door opened, and countless death auras rushed over, instantly submerging Shi Jiangling. This death aura was different from the undead spirits, it was a terrifying killing aura, and under the encirclement of this aura, everyone would be terrified and terrified!

At this moment, Shi Jiangling felt an unprecedented sense of danger.

In the dense death aura, she seemed to have not seen anything, but right at this moment, a terrifying dragon claw crushed his claws, instantly grabbing onto her, crushing her body to create a large amount of blood, then pulling her towards Death Realm's dragon gate. If she entered Death Realm, it would be equivalent to her death, and she would never be able to return.

The feeling of death made even Shi Jiangling, as a member of the Death Spirit Clan, absolutely horrified. Her entire body trembled as she felt the approach of death. Everything really was meaningless.

"If I don't have any hope of getting out, and if you don't have a chance to get free, then make your own choice." Before arriving at the Death Realm's Dragon Gate, Long Chen made the Death Realm Dragon Claw pause for a moment. That Death Realm Dragon Claw was like his own claw.

Chapter 2457 - Keys

Unexpectedly, she sneered and said: "Impossible, I am only a part of the Death Spirit Void Array, not all of it. I cannot stop any of the power here, you have already exhausted all of your power, he will still lose in the end."

"If I let you go and don't kill you, you can at least stop attacking me, right?" Long Chen asked calmly.

Shi Jiangling was startled, he felt that the Long Chen right now was about to go crazy, and was about to go berserk. But he did not, he was still very calm, even though he was already destined to fail.

In order to vent his anger, he could have killed himself. That way, he could have taken revenge. Even though he had stopped him, he didn't have any benefits. Humanity was basically like this.

However, Long Chen didn't, and he agreed to it very calmly.

Shi Jiangling shook her head and said, "I say, you've lost all hope."

"If you think so, then so be it. Either die, or stand there and obediently don't move. You choose."

She should be respected. In order to vent her anger, she had killed her, but in reality, it was useless, as everyone was helpless to do anything. From start to finish, Long Chen had never felt that this girl had done anything wrong.

"I choose the latter. Rest assured, I swear by the soul of my Dead Spirit Clan."

Shi Jiang Ling's eyes dimmed for a moment before she said helplessly.

According to their agreement, Long Chen had to let her go immediately. He couldn't maintain the Death Realm's Dragon Gate for long, so when he pulled it down, he almost couldn't stand steadily.

The Death Realm's Gate once again used half of its remaining power. Right now, it was only a quarter of its peak, but the remaining corpses required at least half of its power to shatter.

Fortunately, Shi Jiangling kept her promise and floated in the air. She quietly and curiously looked at him without moving.

Long Chen took a deep breath. The current situation would undoubtedly cause anyone to feel despair, and he felt the same way in his heart, but he was still very calm. Now that he was not in a rush to exhaust his energy, he was carefully thinking about it.

"I say, it's useless. Even if I don't act, the current you can't continue any longer. You are destined to fail. If you dare to make a bet with Spirit King, you must be prepared to lose. "

Shi Jiangling said lightly.

As long as Long Chen lost all his strength, she would succeed.

But Long Chen did not answer her, and began to immerse himself in his own world. Now he was sure that he could no longer rely on the bombardment of energy to break the Death Spirit Void Array. His attacks would only hasten his defeat, so he decided to use the rest of his energy to exchange for a certain amount of time to seek a breakthrough.

He was in the most sealed state, where his strength was at its lowest. This way, he might be able to hold on for a little longer, at least a few hours. If he did not break through within those few hours, then you would definitely lose.

In the previous battle, he had failed.

"He's just sitting there waiting to die? It really is a good way to stall for time, it's just that if you drag your own power out, you will definitely not be able to get rid of the Death Spirit Void Array. " Shi Jiang Ling thought to herself.

What she couldn't understand was that Long Chen actually believed in her.

"Earlier, I lied to him and he saw through me. In this Death Spirit Void Array, I broke his only hope of success, so he should have been able to kill me to vent his anger, but now he remembered that I have been waiting here bitterly for many years for my freedom, which was not easy, so he decided to take the risk and not kill me. "With such character and willpower, he's indeed a good person. However, the manor isn't a place that just a good person can enter. In the end, it still depends on one's strength."

The release of Long Chen this time caused great turmoil to appear in her heart. Of course, she would not use his freedom to joke around, the only thing she could do was to keep her promise and not make a move against Long Chen. As for whether Long Chen could leave this place, he could only leave it to the heavens.

Time passed quietly.

She didn't know what meaning Long Chen had for him to just sit there cross-legged.

Although there was a relatively long period of time, it was useless. There would always be a moment when his strength would be depleted and he would not be able to accomplish anything. Shi Jiangling thought that it was almost time.

"What the hell is this guy doing?"

She was even more confused now. Long Chen was a person who did not understand what was happening to her, but when she saw his resolute expression, she had a strange thought. She suddenly looked forward to seeing that in the last moments, Long Chen would do something that would surprise her.

"Strange, what am I thinking? He only spared my life, how could I forget my many years of waiting and yearning for freedom. If we don't go out this time and reproduce, then our Undead race will be completely extinct?" I don't even know if I'll live long enough for the next person to come in. "

In fact, outsiders didn't know that the Dead Spirit Clan possessed a very powerful bloodline. Normally, even if they were combined with other races, they would give birth to extremely pure Undead Spirit Race. Therefore, it was enough for Shi Jiangling to quickly find a man.

Otherwise, their entire clan would have been completely exterminated.

Time seemed to pass by very slowly.

Long Chen gave it a try. If he were to use a small scale Confusion Ocean and reduce the speed of his surroundings by ten times, then the same could be said for his body as well. The rate of exhaustion of his power would be reduced by ten times, but because he was facing a small scale Confusion Sea, even a small scale would consume a lot of energy.

But it is still a short time to think of a solution.

He had placed all of his hope on the path of life. From the moment he completed the sea and turned the tide, he had been researching the path of life, and now that his consciousness was completely focused on this magnificent Divine Kingdom, to be honest, this dragon-shaped continent was getting stronger and more perfect. Perhaps not too long from now, it would be a true new world.

He was trying to figure out what the next level of Taiji Creature Dragon was.

The blood essence he had absorbed had awakened fourteen sacrifices.

He saw the tiny grasses within the White Bone Divine Palace that had awakened the fires of life.

Now, he seemed to have used up all of the power of the fifteen dragon heads.

Long Chen was like this right now, he knew that there was not much time left, there would always be a moment when he would fail, and even his own child would be thrown out. This time, the challenge had come with such excitement and madness, but from the beginning to the end, he was still forced to do so.

If it were not for the missing spirit array, Long Chen would definitely not have chosen these two.

It was precisely because of anger and hatred that he wanted the Spirit King to contribute the most important thing, the psionic inheritance.

Long Chen would be trapped here sooner or later. Since he was young, he had won countless times since young, and there were often no one who was optimistic about his chances of winning, so it was the same for this time, but this time was the most difficult!

Life, creation!

These are the two abilities of Taiji Creature Dragon.

Maybe in battle, Taiji Creature Dragon was not good at fighting, but against him, she created the world, created everything, and that included life.

If all living beings had a common ancestor, then this ancestor would probably be the Taiji Creature Dragon.

"Right, it's creation!"

Taiji Creature Dragon was not only good at life, but also creation. From nothing to something, he created the sun, moon, stars, mountains, rivers, trees, rain, thunder, and even bones, as well as elemental energy. The so-called elemental energy was the energy of the world.

That was why he didn't improve at all. After all, his Life Fire had already been comprehended to an extremely high degree, so he had forgotten about the other attribute of the Taiji Creature Dragon. But now, he saw himself as an entire Divine Kingdom.

The Taiji Creature Dragon's abilities were all imprinted on the way of life. It wasn't difficult for Long Chen to comprehend these, but he needed to find the key to open these abilities.

For example, right now, Long Chen was in a desperate situation, so he could imagine what he needed. Although time was of the essence, he had a feeling that literary thoughts were flowing through him, as if a writer suddenly had countless inspirations.

There were fourteen peaks among them, fire, thunder, sun, moon, and so on. Fourteen peaks supported the entire continent, and each type of power blended and transformed with each other, jointly maintaining the balance of the entire continent.

In truth, there were only fourteen types of power in the entire world.

However, just these fourteen types of powers were enough to transform everything. For example, water could be turned into ice or the four types of energies could be combined to produce new powers.

"That's right, a transformation."

Creation, transformation.

Long Chen understood the meaning of this word, and he was pleasantly surprised to find that in this desperate situation, he had found the key to open the Life Seal. Now, the Life Seal was actually trembling, and countless information was being bestowed to Long Chen.

A key. A treasure trove.

The key to open the Death Realm's Dragon Door was Long Chen's battle with the Ancient Giant Demon's avatar.

The Time Sea was a special environment for Long Chen. It was the key to open up the chaotic situation.

And today, this Void Death Spirit Formation was the key for Long Chen to open up a new path of life. The Ancestral Dragon's sacred art had always been on him, but it needed him to slowly excavate, and now Long Chen realized that he had found a treasure.

Chapter 2458 - Fourteenth Array of Living Beings

At the very least, for someone like him, whose energy was almost depleted, when the new sacred art of the Path of Life descended, he discovered that he might be able to deal with this Void Dead Spirit Formation.

In his eyes, the fourteen peaks of the Divine Kingdom Continent had now turned into fourteen Spiritual Arrays. Everything in the world was formed from these fourteen Spiritual Arrays. The power of the fourteen Spiritual Arrays could be transformed from water into fire, into ice, or they could be combined to give birth to new strength!

Everything in time could be evolved from these fourteen spirit formations.

These fourteen Spirit Circles were not only in Long Chen's Divine Kingdom, but also in his body. Right now, his body was the core of these fourteen Spirit Circles, able to be converted into any Spirit Array, or even expand the Spirit Circles, forming a domain around his body.

The name of this ability was: Fourteenth Life Formation!

Inside Long Chen's Fourteenth Life Formation, everything in the world could be converted, broken down, dissolved, and become his own power. The Fourteenth Life Formation also had endless uses, and now, Long Chen had only comprehended a single hair of it. The only thing he could do for the time being was to transform the energy within the spirit formation, but just this effect was enough to save him, who was almost exhausted.

While he was deep in his thoughts, time passed by very quickly. Although Shi Jiangling did not attack, under the effects of the Death Spirit Void Array, his body's strength had been depleted to the extreme. He was now only one step away from failure.

"If we drag it out to this point, isn't there nothing we can do? What a waste of time. " Shi Jiang Ling could not understand Long Chen, she could not help but be excited inside, because she would soon be able to leave this place to experience the legendary world.

At this time, Long Chen, who had nearly lost all of his power, suddenly opened his eyes. The expression in his eyes kept changing, and quickly changed into fourteen different colors. In the end, his two eyes became two incomparably complex array diagrams.

Upon seeing this pair of eyes, Shi Jiang Ling became slightly dazed. She vaguely felt that this was a somewhat terrifying Diagram Array, and an extremely profound power.

It's a pity that you've already lost almost all of your strength. Just give up, or else you'll die of exhaustion.

"Is that so?"

Long Chen stood up, trembling. He felt that he had already lost all of his power, but the power of the Death Spirit Void Array was even stronger than before. An hour had already passed, and the corpses that were destroyed by him had all been completely recovered.

"Of course, you have exhausted yourself to the limit, and the Death Spirit Void Array is already in its most perfect state. They absorbed your power. "

Shi Jiangling said seriously.

Long Chen could not hold it in anymore, this kind of energy exhaustion, the empty feeling was too unbearable, he wanted to try and stop it.

His eyes kept changing colors until it became an illusion. This was not the illusion of the Great Void Cosmic Dragon, but the illusion of the Elemental Dragon Head of the Fourteenth Dragon Head. This illusory Diagram Array was the Elemental Energy Spiritual Array within the Fourteenth Life Array.

In a short moment, he had laid out a huge Diagram Array. This Diagram Array continuously extended outwards, with a diameter of several thousand meters, like a projection. The Diagram Array in his left eye was projected onto the ground, while the Diagram Array in his right eye was projected into the sky. Right now, it was within his control.

The two Yuan Power Spiritual Arrays emitted a mysterious power.

"What do you want to do?" Shi Jiangling asked with a strange expression.

Long Chen said: "Just watch."

I don't want to see you die from exhaustion, so everyone has to learn to admit defeat. There is no good ending for you if you lose like this, so what if you lose? One day, you will have the chance to make a comeback.

Long Chen glanced at the little girl and said: "Child, you will not understand. This time, I do not have any chances to rise again;

Shi Jiangling was startled and asked angrily, "Who are you calling a child? Do you really think you're an uncle? I'm older than you are. "

Just as he spoke up to here, Long Chen had already activated the spirit energy array within the Fourteen Spirit Formations. The illusory formation diagram in his eyes rotated, causing the huge formation diagram in his surroundings to spin. The space surrounded by the two spirit energy arrays was filled with many corpses.

In the middle of the Spiritual Energy Array, the Spiritual Array emitted a hazy light that enveloped everything in its center. Suddenly, the surrounding energy underwent some changes. Shi Jiangling, who was still in control of the Void Death Array, could clearly feel it.

"What's going on?"

She discovered that a part of the power of the Death Spirit Void Array was actually changing. This was simply inconceivable, she discovered that she was gradually losing control of this part of the array.

She immediately looked over and saw that the two types of power, the black swamp and the energy depletion, were actually transforming in terms of nature. They were broken down into the purest forms of energy and within the range that Long Chen controlled, the exhaustion had already stopped and he was no longer affected by the Death Spirit Void Formation.

What was even more terrifying was that all of the disintegrated and transformed energy had turned into pure elemental energy, which rushed towards Long Chen, and he quickly devoured it, turning it into his own. He even used three lifetimes of love with Ling Xi, and instantly healed the exhausted Ling Xi!

His exhaustion lasted for several hours, but he never had the energy to recover. However, it only lasted for a short period of time because Shi Jiang's mind was blank. While he blankly stared at everything, he had already recovered and became even more vigorous than before.

This was the heaven-defying aspect of the Fourteenth Fiends' formation.

This was only a Yuan Power Spiritual Array.

Perhaps after using his power, Long Chen would be able to hold out even more with his spirit energy array, and dissolve and transform more of the abandoned dead spirits array's power. Under the area that he controlled, all of this would be under Long Chen's control!

She knew that there was someone who could pass through the Death Spirit Void Array, but not in such an unbelievable way. For example, that Long Qinglan guy had easily defeated Shi Jiang Ling and the Death Spirit Void Array with his absolute power.

Long Chen was even more exaggerated. At the very last moment, he actually plundered the Death Spirit Void Array's power, causing it to completely lose its effectiveness.

This kind of strange Diagram Array could only be described as miraculous.

Only until he completely recovered did Long Chen finally stop. After all, using this spirit formation source energy was quite taxing, and Taiji Creature Dragon s were not weak. From the Fire of Life to the Fourteen Creatures Formation, were all heaven defying abilities.

In the Fourteenth Life Formation, Long Chen only displayed a hair's breadth of power.

He looked at Shi Jiangling with a trace of a pleased smile on his face, "Child, tell me. Do I need to admit defeat?"

This was exactly what he wanted, because of the nature of the Ancestral Dragon Dao Seal, he needed to transform in a desperate situation. If he did not have the courage and the challenger to enter a desperate situation, then he would not be able to excavate this Fourteenth Life Seal for the rest of his life.

This was also the reason why he dared to challenge Spirit King in such a manner!

And now, he had finally done it. Not everyone could be as determined as he was.

Now that he was completely enlightened, he had even more confidence to face the trials and tribulations ahead of him, and even defeat the Spirit King! This was something that would make his blood boil!

"How did you do it!? If you can do it, why did you act as though you are going to lose? "

Shi Jiangling was extremely angry. She felt that Long Chen was just teasing her, he must have known how to use this ability from the beginning. Under this kind of angry situation, she did not hear Long Chen addressing her as child anymore.

Long Chen said: "If I were to say that before I died, I learned this move, would you believe me?"

His expression was very serious, without a doubt, Shi Jiang Ling looked at the Spirit Array in his eyes, which was extremely terrifying, like a machine that was about to cut everything into pieces, without a single trace of emotion. Long Chen's merciless gaze told her, maybe what he said was true.

That was undoubtedly an even more terrifying thing.

Shi Jiang Ling could not imagine how someone who had almost failed could feel so much peace and confidence in his heart. He had made the right choice several times, and even calmly spared his life as if all these dangers were nothing to him.

When she was in a daze, Long Chen suddenly laughed: "Let me show you what the sun looks like."

At that instant, the spirit diagram in his eyes instantly turned into a fiery hot diagram!

Beneath his feet and in the sky, a scorching flame was ignited, the power of the Death Spirit Void Array suddenly transformed, countless of terrifying powers converged, that was not Long Chen's own power, but the power of the Death Spirit Void Array, but the power that was controlled by Long Chen right now!

BOOM!

Countless forces formed a huge blazing sun in the middle of the Diagram Array. This scorching sun shot out tens of thousands of miles of light, and was the Sun Spirit Formation that had been created using the power of the Void Death Formation. The scorching sun illuminated the entire world, illuminating Shi Jiangling's eyes.

The extreme heat made Shi Jiang Ling feel terrified!

"Is this the sun?"

In the legends, it was said that the thing that brought light to the entire world through the sky was actually this terrifying!

To be honest, the power of the Sun Spirit Formation was already very strong, it was impossible for Long Chen to rely on his own power, and he still had the power of the Death Spirit Void Array. With both of his powers added together, he attacked the Death Spirit Void Array!

BOOM!

Within the Sun Spirit Formation, the power of the sun exploded and the blazing sun rolled across, destroying a large amount of corpses into powder. However, Long Chen did not use up any of it.

"Next, the moon."

Long Chen said indifferently.

The moon was the moon.

His eyes instantly changed from a scorching sun to a pitch-black full moon diagram.

That's the Grand Moon Spiritual Array!

Chapter 2459 - Reproduction

There were a total of fourteen formations formed by fourteen creatures.

The sun, moon and stars, as well as the mountain and river trees, were all very new to her. When she saw all these things appearing in Long Chen's Fourteenth Life Formation, she had even forgotten that Long Chen was his enemy and was deeply immersed in these dreams.

Shi Jiang Ling understood that perhaps this time, she was destined to lose all hope, because at the last moment, Long Chen had learnt such a miraculous ability. It was able to change the power of the Death Spirit Void Array into his own, allowing him to counterattack easily.

The Death Spirit Void Array seemed to have been destroyed by him.

Without the limitation of having his strength depleted, it was actually not that difficult for Long Chen to destroy these hundred million corpses. At the same time he displayed it to Shi Jiangling, it was also because he was intimidated by the Spirit King. He knew that this fellow, Spirit King, was definitely secretly watching him.

Just now, Shi Jiang Ling thought that Long Chen did not have any hope, and believed that the Spirit King was the same. If he could win against Long Chen's son during the bet, then he could avoid a lot of trouble. However, he would never have thought that there would be an accident at the last moment.

In reality, Long Chen had only used a few spirit arrays to completely destroy the Death Spirit Array. With the Fourteenth Life Array, the Void Death Spirit Array could do nothing to him.

At this moment, he was incomparably relaxed. He had defeated the Death Spirit Void Array, and at the same time, he had completely subdued Shi Jiangling. He could have spared Shi Jiang Ling's life before,

but now that the Death Spirit Void Formation had collapsed, Shi Jiang Ling had lost all of her power and turned into a very ordinary Divine Martial Stage warrior.

But now, the entire Death Spirit Void Array had started to change, as though it had sunk into the shadows, and started to heal, and the road to a new world had already appeared in front of Long Chen's eyes. It was a colourful array diagram, with a total of seven colors, red, orange, yellow, green, cyan, cyan, blue, and purple.

This time, the Spirit King did not appear.

However, he still announced the news with a cold tone. In reality, a lot of time had passed since Long Chen had passed the second stage. Everyone was very worried, especially the Dragon Emperor. They were anxious even though they knew that the deeper Long Chen went into the House of the Holy Spirit, the more terrifying the danger would be.

"If I had known earlier, I would have stopped him. Now, I don't need to be this worried and regretful." The Immortal Dragon Emperor said helplessly.

"Don't worry too much, you haven't seen how worried Yang You is right now."

Dragon Emperor Yongye rolled his eyes at him as he said snappily. This old fellow had been muttering to himself the entire time, causing her to be extremely upset.

"Yang You? If anything happens to Long Chen, she will definitely be the first one to kill him. "

The Immortal Dragon Emperor said.

In reality, even the spirit race higher ups did not wish for anything to happen to Long Chen. In the beginning, they did not think that the matter was this serious, but now, the fifteen Dragon Emperor s, the sixteen Great Demon Masters, and the Ocean Emperor's Holy Mage were all guarding this place. Each of them was ferocious, and if they really did not listen to reason, who would stop them?

The Spirit Race does have the number one Spirit King, but no one else can compete with them.

The news of the Magic Star Seal being destroyed was still in the grasp of the higher ups of the various races. Ordinary people did not know about it at all, so they did not understand the importance of Long Chen in the eyes of the leaders of the Goblin Tribe, Sea Clan and the Shaman Tribe. Unless Spirit King was willing to enter the devil star, they would not think Long Chen was that important, but Spirit King obviously would not do such a thing.

However, just when everyone was at their most nervous, the Spirit King's voice sounded out faintly.

"The third trial has been passed."

Hearing that voice, everyone cheered up, and for a moment no one noticed the Spirit King's tone of voice. Previously, it was just teasing, but now it carried a bit of anger, it was good that Long Chen had passed the second round, he had even passed through the Death Spirit Cave, it was truly far beyond his expectations.

"Don't be happy too early, what he is going to face next, is a terrifying opponent that is several times stronger than the Death Spirit Void Array."

Spirit King said coldly once again.

Before, he had also been mocking the common people. But now, the situation was no longer the same.

She did not speak, and she would not affect Long Chen's progress. However, she would take her revenge, as she originally did not have any conflict with the Spirit King, but now, the conflict was huge.

Everyone was too focused on cheering, they did not care about the ugly expression on Spirit King's face.

Anyway, they couldn't see it.

As for this time, Long Chen said to the grey haired child in front of him: "Ling'er, I'm truly sorry. It seems that you can only wait for the next person to come in and come here before you can leave."

Shi Jiangling's face was extremely ugly. She had been happy for a long time, thinking that she could finally be free. Long Chen's final reversal had destroyed her beautiful dream.

She was not angry, but she was very sad. It was as if she was struck by lightning, her entire body gradually became sluggish, and she muttered: "Next? Who knew when the next person would reach this place? Ten thousand years later? By then, I think I will already be dead. My Dead Spirit Clan will also be extinct, and I didn't manage to leave any bloodlines for my Dead Spirit Clan. I really deserve to die! "

When she thought about how she would have to stay here for a few thousand years, and how she would eventually die of loneliness, Long Chen did indeed sympathize with her a little.

He suddenly said, "I have a way to make my undead race's bloodline completely inherit my child. Although it's a hybrid race, it can still give birth to a pure undead race, so you still have time. How about you consummate my marriage and give me a descendant?"

After Long Chen heard these words, he fell into a daze.

The main point wasn't that she was a hybrid, but that she gave birth to a pure undead race. It wasn't that she was so reckless, but that this child that hadn't even started to develop was actually going to give birth to a child with her!

Before Long Chen could even speak, Cat was already laughing out loud. Holding his stomach, he laid on the ground and laughed crazily, saying: "Damn, this is too explosive! Boss, you are truly a sinner!"

Looking at Long Chen's suddenly frightened expression, Shi Jiangling's eyes widened. At this moment, her body started to make popping sounds, and his bones lengthened, her figure changed, and from a little girl in front of Long Chen, he became a woman with a height similar to his. Her figure was incomparably moving, with protruding front and back, alluring gray eyes, graceful light gray skin.

She stared at Long Chen and said: "The previous appearance I had was just to confuse you, that's all. You really believed me, okay, look at me now, I should have enough looks to have children with you, right?"

Just by looking at the looks, it was definitely enough, but Long Chen was obviously unable to accept the words 'having a child'. Furthermore, Ling Xi and the kitten were still there, Shi Jiang Ling had only seen a few people from her youth, and thought it was normal to have a child with Long Chen in order to reproduce, but Long Chen was really scared.

He shook his head: "This method will not work."

Shi Jiang Ling's face was not the least bit red. On the contrary, she said angrily, "You dare to despise me?"

Long Chen slowly came back to his senses and laughed: "You and I are not husband and wife, how can we randomly give birth to children. Although breeding is important, we cannot mess around with this matter.

Seeing that Long Chen's attitude was good, Shi Jiang Ling was no longer angry, and asked: "What method do you have?"

Long Chen said: "Do you know my purpose in coming here? I am here to fight with the Spirit King, as I have already told you before. Now that I have broken through the Death Spirit Void Array, I am about to go deeper. If you trust me and think that I have the ability to do so, I can take you away from here and let your Undead Spirit Clan see the light of day once again. You can rest assured that the strong ones of our human race are all outside, even if we have lost the final battle, it would be more than enough to protect you alone. "

Shi Jiang Ling looked at him absentmindedly.

She remembered that Long Chen had first discussed about bringing her out directly from the beginning. He never expected that after losing, he would still suggest this, and he didn't hate her at all.

If it was as Long Chen had said, with his character, if he trusted him, he might really be able to leave this place. Shi Jiangling longed to leave this place. She had been here for too long, and the entire Undead Spirit Race had been here for close to a million years. This was just too terrifying.

She could not wait for the next person to arrive. She was not sure if she would go crazy by the time she got there alone, so Long Chen's suggestion was extremely attractive to her.

"Why did you help me? I wanted to harm you."

Shi Jiangling still couldn't believe it.

Long Chen said: Don't think too much into it, I'm just looking at you pitifully, lifting a single finger is your lifelong dream, I'm not an unforgivable person, why wouldn't I help you? I don't have much time, so don't waste it.

Even though her words were genuine and did not give Shi Jiangling any face, for some reason, she burst into tears after hearing his words.

Long Chen then threw her into the God Kingdom.

At least, he had done a good deed.

Presumably, the Spirit King would also become more furious.

This time, Long Chen had come to challenge his dignity and dignity!

Without a word, he rushed into the seven-colored formation.

Chapter 2460 - Seven Ultimate Spirit Lady

In the Divine Kingdom, Cat was still rolling with laughter. She raised her head and saw a sexy beauty standing in front of her, looking at this young man in confusion.

"Who are you and how did you get in?"

The kitten trembled as it stood up.

"You look pretty good. The one outside is not willing to give birth to my child, so you and I will give birth. I'm in a hurry to reproduce. You might be a bit lacking, but I can draw your blood at the same time."

She was a little girl before, but now she was a beauty. Cat only smiled awkwardly and said, "That shouldn't be too good. In my boss' divine country, he can see everything we do. My boss' girl is also here."

It was only then that Shi Jiang Ling saw Ling Xi sitting on the cyan stone. Such a fresh and beautiful woman was a treasure to Shi Jiang Ling, who rarely saw anyone else.

"Forget it, I'm not going to give birth to you anymore."

She walked towards Ling Xi and stood in front of him nervously. She couldn't help but size him up, and when she saw her ankles from her eyes, she couldn't help but say: "You're so beautiful.

Ling Xi couldn't help but burst out laughing. This girl had been alone for too long, she lacked communication, so she didn't understand many things. This made her look very cute.

When they started to speak, Long Chen had already arrived at a new place and started his new challenge.

In the legends, this place was even scarier than the Void Death Spirit Formation.

After exiting the seven-colored Spiritual Array, he stood in the boundless sky. There was no land beneath the ground, and his surroundings were filled with fragmented clouds. There was no end to it.

The place he was standing at right now was actually a seven-coloured rainbow, that was right, this was a rainbow bridge, extending from the endless sky behind him, but in front of him was a distant horizon, forming a gigantic bridge. Although it was a rainbow, it was extremely strong and terrifying, Long Chen tried it out, and surprisingly, he was unable to break it.

A rainbow bridge spanned the sky.

Long Chen should be close to one side, and since he faced the other the moment he appeared, he wanted to make him walk forward.

"As long as you can safely pass through the Rainbow Bridge, you will be able to arrive at the Spiritual Sovereign's Heavenly Palace at the end of the Rainbow Bridge. As long as you are able to pass through the Spiritual Sovereign's Heavenly Palace, then even if you are able to pass through the Spiritual Lord's Mansion, I will naturally appear and bring you out for the final battle. "

Spirit King did not appear, but his voice resounded in Long Chen's ears.

"Ten Thousand Layered Spiritual Array, Divine Soul Puppet servant, Death Spirit Cave, Rainbow Bridge, and the Heaven's Psionic Imperial Palace. Is this the five hurdles of the Psionic Imperial Mansion? It seems like the Rainbow Bridge and the Spiritual Sovereign's Heavenly Palace are both places that are more dangerous than the Death Spirit Cave. "

Although the Rainbow Bridge looked extremely beautiful, as though it was the most beautiful good fortune in the world, Long Chen knew that as long as he continued to walk deeper, he would definitely meet with the most difficult of obstructions. Or perhaps it was a shocking battle.

Now that he was here, of course he wouldn't lose heart.

"Be careful, I don't mind telling you that you will lose without a doubt at the Rainbow Bridge." Back then, even if it was your father, it wasn't easy to cross over here. There is no need to even mention the Heaven Palace. If you cannot pass the Rainbow Bridge, you might not even be able to see the Heaven Palace. "

Spirit King said again.

"Can you stop talking nonsense? When I first came here, didn't you say that I couldn't even pass the Ten Thousand Layers Spiritual Array? It's not here yet. "Therefore, please don't just stand to the side and scream, get ready. It will be your turn soon."

"Hur hur, then I can only say that I'm looking forward to it."

Saying that, the Spirit King seemed to have disappeared. Of course, he would still be monitoring the place from time to time.

Long Chen stepped on the rainbow bridge and walked forward. This place wasn't as mysterious as the Death Spirit Cave. If there was any attack, he would have definitely directly come here.

"Even though I've been at the Psionic Imperial Mansion for a long time, I don't know anything about this place." Shi Jiangling looked around curiously and said.

Everyone focused their attention on what was happening in front of them.

Long Chen was slow in the beginning, but he gradually increased his speed because he realized that this rainbow bridge was simply too long. If he did not accelerate, he would not be able to reach the other end within ten to fifteen days.

Even if he increased his speed, it wouldn't affect her at the moment, and there wasn't any danger appearing. Now that Ling Xi was helping her watch, if there was any trap, she could see ahead of time.

In the blink of an eye, two hours had passed. The rainbow bridge was still extremely far away from its end, and just as Spirit King had said, the Psionic Imperial Palace was nowhere to be seen.

Long Chen increased his speed again and continued forward.

He became more and more relaxed because a full day had passed, but he never thought he would encounter any danger. Looking back, he saw that he had walked a long way, and with his speed, he had almost arrived at the end of the Rainbow Bridge.

Roughly half a day ago, Long Chen had already stopped rising, and the ground began to drop. Right now, it had already fallen for half a day, and was probably at the end of the line.

"Brother Chen, right now is the time that we need to be cautious the most. It's best to slow down a little. The other party will most likely take advantage of your moment of relaxation to take action." Ling Xi explained her thoughts.

Long Chen nodded his head, since it was already this far, he was not in a rush. The rainbow in front rushed into the dense clouds, and it felt like the end was not far.

"Is the so-called danger at the last point of the Rainbow Bridge?"

Just as this thought surfaced in Long Chen's mind, he suddenly stopped in his tracks.

First of all, he felt a wave of killing intent. This killing intent appeared out of nowhere, but it quickly locked onto him. He must have entered a certain area, because he knew that this area was dangerous.

Compared to the Death Spirit Void Array, it was much more dangerous.

Ling Xi checked that there were no arrays around him, so she did not need to worry about the same situation as the Death Spirit Void Array.

"This should be the place to fight."

Long Chen had this intuition.

The deeper they went, the more terrifying they felt, the thicker the feeling became, it was not the death aura of the Undead race, but an open and aboveboard aura, causing people to be unable to resist kneeling and worshipping. Long Chen had guessed right, the danger on the Rainbow Bridge must be related to the God called Spirit Lord.

Sure enough, when he arrived at a place that made people shiver uncontrollably, he saw the danger they were in.

In front of them was the end of the Rainbow Bridge. In the middle of the rainbow-colored light, there were seven coffins floating above the Rainbow Bridge. These were seven extremely gorgeous coffins, shining with a peerless radiance, corresponding to the colors of the rainbow bridge, red, orange, yellow, green, cyan, blue, purple. Other than the dazzling radiance, these seven coffins also had extremely complicated but gorgeous carvings on them.

Those were the enemies that Long Chen had to deal with while he was at the Rainbow Bridge. It was obvious that only by defeating them, would he be able to rush to the deepest region of the Psionic Imperial Palace!

The seven coffins shone even brighter, and the carvings on them also lit up, making the flowers, colored calligraphy, and the crowd appear even more lifelike. As the coffins shook, the entire enormous rainbow bridge connected to them, also trembling.

Long Chen retreated a distance and made his preparations. Looking at the coffins coldly, the three people in the Divine Kingdom were frightened, their instincts told them that this time, the opponent was even more difficult to deal with than the Soul Puppet divine servant.

"I seem to know the carvings of these coffins."

Shi Jiang Ling suddenly asked with a trembling face.

Long Chen was still relatively quiet as he replied, "Tell me about it."

"These should be the seven peerless beauties that served the spiritual sovereign in the legends of the Seven Ascension Souls. They were nourished by the spiritual sovereign and eventually became divine spirits, serving the spiritual sovereign and following the spiritual ruler to disappear the Seven Ascension Sect's spiritual maiden. This is one of the colors. I don't know what relation between the coffin and them. They are all true gods ..."

The kitten said in surprise, "It can't be, right? That Spirit King's rendering is so terrifying, could it be a real god inside?"

Long Chen shook his head: "It's absolutely impossible. If it's a god, then even my father would not have been able to rush over there. Moreover, gods no longer exist in this world, but according to what Shi Jiangling said, maybe this coffin is related to the Seven Ultimate Spirit Lady."

Speaking to here, Long Chen remembered the scene at the White Bone God Palace in the God Battlefield. In the middle of the palace, one of the statues of the War God suddenly woke up.

The deity statue used the power of a god, but it was very weak, far inferior to the current Long Chen.

He was thinking, if he was really related to the Seven Ultimate, then would it be similar to the idol in the palace?

There was no point in guessing now, so he could only wait carefully.

He first gripped the God-Slaying Sword, ready to fight.

The three people in the Divine Kingdom were incomparably nervous.

They had already felt the power that belonged to a god. To them, this was a terrifying suppression, and only Long Chen could endure this kind of power.

Finally, it erupted at one of the times. What Long Chen saw was that all seven coffins had their lids shaken open at almost the same time, and a rainbow colored smoke rose from the coffins in spirals. When the coffin was opened, the suffocating aura of a divine spirit truly descended.

In Long Chen's cold eyes, in the midst of the seven coffins, a total of seven peerless beauties who had hidden themselves in the clouds sat up. That was the majesty that came from a god!
