

War God 251

Chapter 251 - Heaven defying demon beasts

This basin, or rather, a huge crater, was a rare place without scarlet flames. However, the temperature here was even higher, purely because of the black beast that was being worshipped by all the wolves, standing proudly on the most important demon beast.

It was a giant demon wolf, even bigger than Moon Devouring Demonic Wolf s by several times. Its size was basically similar to Moon Devouring Demonic Wolf s, and other than its size, there were two other differences, one was that its fur was a deep black, and the other one was that on its forehead, there was a circular golden imprint.

This golden imprint emitted a blazing light, as if there was a small sun in this basin.

Sharp claws, sharp teeth, and ice-cold, bloodthirsty, pitch-black eyes; the heavy, heavy aura that he emitted in his breath made Long Chen feel fear from the bottom of his heart. It could be seen just how terrifying this Sun Devouring Demonic Wolf was.

The black fur all over the Sun Devouring Demonic Wolf gave Long Chen an illusion. It was as if the fur was a black whirlpool that was devouring light and heat, hiding it within the Sun Devouring Demonic Wolf's body.

Compared to Li Xuanji, the beasts of the Milky Way Realm should not be that powerful. However, Long Chen strangely felt that this Sun Devouring Demonic Wolf, because of its devouring ability, was evidently very terrifying.

Long Chen even felt that if it was allowed to grow, would one day, even the sun be swallowed by it?

If one looked carefully, one could see that on the black fur, there would occasionally be pitch-black flames. The flames were like a whirlwind, revolving on the surface of the Sun Devouring Demonic Wolf, causing its body to appear as though it was covered by a layer of black flames.

"Little Wolf, are you sure it's the Sun Devouring Demonic Wolf?" Long Chen asked in a low voice.

"Black fur and the golden sun's imprint in the middle, there's no doubt that it's the legendary Sun Devouring Demonic Wolf, and I can also feel that its strength is more than just at the first rank of Earth Stage." Mo Xiaolang's voice trembled slightly.

"More than the first rank of Earth Stage? This will be troublesome. Honestly speaking, if you want to refine the soul of an Earth Ranked Spirit Beast, is this Sun Devouring Demonic Wolf most suitable for you? " When Mo Xiaolang mentioned the Sun Devouring Demonic Wolf, Long Chen could roughly guess that Mo Xiaolang really liked it.

"Yes." I don't have any elders capable of obtaining the beast spirit for me, so if I kill them myself, I can only find the first or second stage of the Earth Stage. But to me, a first or second stage of the Earth Stage beast spirit is of no great use, just like the Moon Devouring Demonic Wolf. When I reach the first or second stage of the Milky Way Realm, I can still unleash my powers.

"But Sun Devouring Demonic Wolf are different. On one hand, the Sun Devouring Demonic Wolf's devouring ability is very heaven-defying, and on the other hand, because I once thought of the Moon Devouring Demonic Wolf as a Profound Ranked beast spirit, the beast spirit of this Sun Devouring Demonic Wolf is extremely compatible with me. It could even allow me to unleash 200% of my combat strength. It was a pity that this Sun Devouring Demonic Wolf at least had Earth Grade Three. Even stronger than the Primordial Emperor s of the Yuandi City s, we will not be his match even if we were to die from exhaustion. "

"Above Earth Grade Three?" Long Chen felt powerless in his heart. To them, even a first rank Earth Stage martial artist would be difficult to kill, let alone someone with Earth Grade Three of a higher level.

"Big brother, what should we do?" Mo Xiaolang asked.

"There are still so many Moon Devouring Demonic Wolf here, and so many powerful Sun Devouring Demonic Wolf, we have no way of fighting them here, and Earth Grade Three are not something we can handle, since this matter of the Burning Sky Secret Realm has only just begun, we should give up on it, and look for the The Devil Emperor of the Burning Heaven's legacy. Once we obtain the inheritance, there might be a change in the situation." Long Chen analyzed calmly.

"Looks like this is the only way." It could be seen that he really liked the beast spirit of the Sun Devouring Demonic Wolf.

This was a once in a lifetime opportunity. If he missed this opportunity, it would be very difficult for him to find a suitable beast spirit.

To a large extent, the cultivation of the Beast Fighters was based on the cultivation of its elders. With a strong elder, he could give a high level beast spirit at will. As long as he succeeded in fusing with it, he would gain a strong talent out of thin air. Without a senior, it would be difficult to achieve great things on the road to cultivation in the Beast Fighters.

At this time, the Sun Devouring Demonic Wolf released a burst of desolate howls, as if it received a signal. All the wolves stood up and started howling, looking up at the sky. Long Chen even felt that the entire ground was trembling.

"How terrifying." Mo Xiaolang said powerlessly.

"Let's leave this place first, if we are discovered, we will die for sure, not to mention the inheritance of the The Devil Emperor of the Burning Heaven." Long Chen said.

Mo Xiaolang nodded.

The two of them carefully left until they could no longer hear the howls of the pack of wolves. Only then did Long Chen start to wonder where he should go. This Burning Sky Secret Realm seemed to be too big.

"Forget it, looks like I can only rely on luck." After about half a day, Long Chen finally discovered something strange in front of him. He immediately rushed over and discovered that there were six people hiding underneath a mountain wall, healing their injuries. These six people were obviously the six people from Lingwu Family.

They were actually injured?

Long Chen walked forward.

When they saw Long Chen arriving, they were all shocked. They immediately huddled together and looked at Long Chen with hostility.

They had all suffered from different degrees of injuries, and the strongest two of them, Ximen Xiaoji and Nangong Huang, were injured to the end. Their faces were pale, and they could only sit down to recuperate, not having time to deal with Long Chen.

"What's going on? Who injured you?" Long Chen asked coldly.

"Are you here to gloat?" Now that Dongfang Tianxuan had become the strongest warrior amongst them, she stood in front of him and blocked his path.

"If you don't want the Lingwu Family to lose her position in the City Lord's Mansion, then obediently tell me what happened here." Long Chen was too lazy to bother with him, and said indifferently.

Speaking about the City Lord's Mansion, Dongfang Tianxuan clenched his teeth and said, "Let me tell you some unlucky news, the Morning Star Merchant Union and the Beast Soul Hall's people have teamed up. They were looking everywhere for you previously, but they are already heading towards the center of the ruins."

"How do they know the way?" Long Chen turned around for a long time, but still did not know where he should go.

"We had previously obtained a map and were heading towards the center, but we didn't expect to meet them. Now, the map has been snatched by them!" Dongfang Tianxuan said in embarrassment.

As the biggest Lingwu Family, he had been humiliated several times upon entering the Burning Sky Secret Realm. This made her feel extremely embarrassed and embarrassed.

"Do you remember the location of the center?" Long Chen was a little anxious, the inheritance was something he needed to obtain, he definitely could not let them obtain it first.

"I remember the direction." Dongfang Tianxuan thought about it, then decided to tell Long Chen.

After all, there was no hope for them now, and the Lingwu Family's hope was with Long Chen and Mo Xiaolang. This was something that they could never have imagined from the very beginning. Even though they were extremely unwilling in their hearts, this was fate.

He had to admit that Long Chen and Mo Xiaolang were much stronger than him.

After knowing the direction, Long Chen could no longer wait. They bid farewell to the disciples of the Lingwu Family, and rushed frantically towards the center of the Burning Sky Secret Realm.

Many of the flames in the middle had wrapped their bodies in their true qi in order to avoid confusion in the direction that they were going in.

Long Chen now had a Level Three Thunder Flame Battle Body that contained the power of flames, so the flames that were present everywhere in the Burning Sky Secret Realm didn't harm him much. Basically, Long Chen could tread on flat ground.

Time was of the essence, and without a word, the two of them sped up. After an hour, something different from the other places appeared in front of them.

Long Chen first charged into a light curtain, then arrived at the entrance of the mausoleum. Inside the entrance was a huge plaza, and in the middle of the plaza, there were no scattered flames, but on the right side was an enormous sea of fire.

The sea of fire was not the key, what was important was that Long Chen had already seen the main entrance of the mausoleum from this position, while a group of people was waiting outside the main entrance. These people had also just arrived, so there was no doubt that they were the two groups of people from Morning Star Merchant Union and Morning Star Merchant Union.

At this moment, they were on guard against each other. They were separated by more than ten meters, and seeing that they were about to approach the main entrance of the mausoleum, their hearts were all burning with passion.

This meant that they had not obtained the inheritance. Long Chen heaved a sigh of relief.

At this time, he saw that at the entrance of the mausoleum, there was actually a seven colored transparent film. This film of light had a strange and tenacious power, Long Chen knew, if he wanted to enter the mausoleum, it would probably take a lot of thought.

It was very possible that whoever could break through this barrier and enter the mausoleum would become the successor.

The cooperation between Morning Star Merchant Union and the Beast Soul Hall was purely built on the basis of dealing with Long Chen and Mo Xiaolang. And right now, Long Chen and Yue Shan didn't have any good luck to find the tomb, so there was no need for them to cooperate.

At this moment, both sides were quietly staring at each other without making any movements. It was obvious that there were undercurrents raging each other.

Just as they were at loggerheads, Long Chen and Mo Xiaolang rushed into the plaza, instantly attracting everyone's attention. When they saw Long Chen and Mo Xiaolang's appearances, both of them laughed. This means that they can continue to cooperate.

The most excited one of them was Li Ziling, because she could finally take revenge.

"Wow, there are so many people greeting me. It really surprises me." Long Chen was not the least bit nervous, and directly walked to the front of the two teams.

"I thought you wouldn't be able to find me, but you still came to throw away your life." Li Ziling sneered, then looked towards the Beast Soul Hall's Monarch Yan Danqing and said: "I'll let you handle that Mo Xiaolang, I'll kill this Long Chen, how about it?"

You want to easily kill me, then enter the mausoleum. As for Little Wolf and Yan Danqing, it's hard to determine the victor in a short period of time, even if you defeat Little Wolf, his vitality will be greatly damaged, and he won't be your opponent, right? " Long Chen squared off the relationship between the two of them.

However, Li Ziling did indeed have this level of intention, she never expected that Long Chen would be able to see through it.

"No matter what, I will kill you!" Finished, Li Ziling rushed towards Long Chen!

Chapter 252 - Reappearance of the Mysterious Iron Plate

Li Ziling was of the Great Perfection of the Heavenly Core, her true qi was dense, and was even stronger than Long Chen who used the Dragonsoul Transformation. Furthermore, she still had her third stage Thunder Flame Battle Body. In the direction of her battle body, she was on par with Long Chen.

However, Long Chen had his own green dragon halberd, which could increase his fighting strength by a lot.

Long Chen had stolen her Thunder Flame Crystal Soul, and had even humiliated her in public. For Li Ziling, who had always accepted her treatment as a princess, if Long Chen did not die, she would never be able to suppress this anger in her entire life.

Therefore, at this time, she could not care about any schemes, and directly rushed towards Long Chen to kill him.

"Big brother? Do you need me to do it?" Mo Xiaolang whispered into Long Chen's ear.

"Forget it, I will make this little girl give up. Just look at Yan Danqing and let him obtain his inheritance first." Long Chen said indifferently. After he finished speaking, he retreated to the left. On the right side of the square, there were raging flames. Fighting on the left was much more convenient.

"You're courting death!" Li Ziling chased after Long Chen.

The battle between them instantly attracted everyone's attention.

As for Mo Xiaolang and Yan Danqing, they did not start fighting as Li Ziling had wished. Yan Danqing was not stupid, now was the time to conserve his strength, he could not make a move if possible.

He led the warriors of the Beast Soul Hall in watching the situation unfold, without any intention to attack, and without any intention to rush in and fight over the inheritance. He knew, that if he made a move, Mo Xiaolang would definitely fight him at the first possible moment.

In addition, a tremendous amount of energy circulated within that layer of light. Yan Danqing didn't know how to break this rule either.

Thus, everyone was paying attention to the battle between Long Chen and the Ancient Slaughterer.

"Brother Qing Ling, do you think Miss Zi Ling will win?" A young lady in the Morning Star Merchant Union asked.

"My sister has Great Perfection of the Heavenly Core, and also has the third level Thunder Flame Battle Physique. Long Chen has only just entered the Heavenly Core, the difference in his true qi is countless times, how can he be a match for my sister?" Li Qingling said proudly.

Right after he finished speaking, Long Chen was flung out of the way by Li Ziling.

"Am I right?" Seeing this scene, Li Qingling looked at Long Chen with an ice-cold gaze. In the Thunderfire Mountain Range, he still remembered the two times Long Chen had humiliated him.

"Elder sister Zi Ling and elder brother Qing Ling are both great."

However, Yan Danqing's view was different. He said: "I heard that Long Chen was able to execute a very powerful beast spirit transformation, and it has only just started. "Just watch."

In the battle, Li Ziling's fist had knocked Long Chen flying. She followed him.

"Long Chen, aren't you Beast Fighters? Quickly use your beast spirit transformation, you are currently no match for me!" Li Ziling punched out once again!

"As you wish." Indeed, in terms of quantity of Innate Qi, Long Chen could only make up for the difference in quality.

The Dragon Soul Transformation was completed very quickly, and Long Chen had reached his strongest state. The blood-red scales and sharp bone spikes all over his body were filled with a visual shock.

"Your beast spirit transformation is truly extraordinary." Although Li Ziling said this, she did not have the slightest intention to praise them. When Long Chen used the Beast Soul Transformation, she also used his full strength.

"Is that so?" Long Chen laughed, with the green dragon halberd in his hand, he started to fight with Li Ziling.

It had to be said that Li Ziling was definitely a powerful opponent. Even when Long Chen used broken yellow spring and Azur repeatedly, and even used Spirit Devil Sword Finger Thrust during that time, it still failed to harm Li Ziling!

Li Ziling executed a seal technique. It was extremely powerful, and the seal technique carried a heavy attack, like numerous mountain peaks, blocking in front of Long Chen, leaving him with no room to unleash her green dragon halberd.

"If the Profound Tier Battle Skills doesn't work, then I'll let you try an Earth Tier Battle Skill." Long Chen used the True Dragon Nine Flashes, continuously changed his body, and quickly arrived not far behind Li Ziling.

In fact, the more Li Ziling fought, the more shocked she was. At the beginning, she had thought that it would be easy to take care of Long Chen, she didn't expect that Long Chen was actually so hard to deal with. Out of the attacks that she had unleashed up till now, most of the Great Perfection of the Heavenly Core s were unable to withstand it, but not only was Long Chen able to withstand it, he was also able to counterattack!

"Mountain and Sea Seal's — Magpie Mountain Seal!"

When Long Chen used the seal technique, a huge storm arose. Without question, this was an Earth Ranked battle skill, but when Long Chen was about to use the Earth Tier Battle Skills, Li Ziling did not hold back, but familiarly used an Earth Ranked battle skill!

Instantly, her arm turned into numerous mountain peaks, smashing towards Long Chen with a loud bang!

"Azure Dragon Battle Method, Dragon Battle Star Field!" Long Chen also did not hesitate and immediately used this move. Immediately, countless halberd tips turned into densely packed little dragons that flew towards their opponent, and the two forces instantly clashed. Boom!

At this critical moment, everyone was staring at the battle with extreme excitement.

Such an intense battle was rarely seen.

Those who had previously denied Long Chen, upon seeing him use this Earth Ranked Battle Technique so well, secretly admired him in their hearts.

Li Qingling's complacent sneer had now disappeared. Her face was filled with nervousness and fear as he looked at the youngster who was evenly matched with his sister genius.

The two types of energy suddenly exploded. After Long Chen used the Dragon Battle Star Field, this was the first time he faced such a strong opponent. He felt that because the Magpie Mountain Seal was equally strong, it did not seem to have caused Li Ziling any harm.

With the attack of the Magpie Mountain Seal, Long Chen twisted his body and blocked it. Then, his entire person landed elegantly on the ground, his feet touched the ground, and his body flew like a swallow, with the green dragon halberd in his hands, he charged towards Li Ziling once again!

In that previous clash of hands, Li Ziling staggered a few steps back, and her hair was in disarray. She instantly became a crazy woman, and compared to the elegant Long Chen, she was much weaker.

She stared at Long Chen with a face filled with disbelief. Her full chest continuously trembled from the pressure, and because of her heavy breathing, a large amount of snow-white color was revealed on her chest.

"Little girl, your breathing is so heavy. Aren't you afraid of a pair of big white rabbits stretching out your sleeves?" Long Chen's eyes burned as he stared at the snow-white chest of Li Ziling, and teased.

"You're courting death!" Li Ziling's face flushed red at his words, she was so angry that she almost flew into a rage. Anger filled her delicate body, she looked at Long Chen's rogue smile, and wished that she could tear her face apart.

Without saying a word, she once again rushed towards Long Chen.

"Has the tigress gone berserk?" Long Chen teased a little bit more before retreating a little bit more to welcome Li Ziling's stormy attacks.

Everyone looked at each other, speechless. If they didn't consider the tone of their voices, it looked more like they were flirting.

At this time, Li Qingling saw that his own sister had been taken advantage of, and even had been taken advantage of in such a vulgar manner, his entire face became purple, and he couldn't help but want to go up and take Li Ziling's place and give him a good beating.

At this point, Long Chen had already understood each other's fighting capabilities very clearly. He knew that it was time to end this.

Just as they were about to finish the battle, the entire mausoleum suddenly shook. In the center of the plaza, a black pillar rose up from the ground and appeared with a loud bang, stirring up countless specks of dust.

"What's with this black pillar?" Everyone was puzzled.

This pillar was not unusual, but the object on top attracted everyone's attention. This was a pitch black Mysterious Iron Plate, at this moment, the metal tablet was covered with scarlet flames, and was burning fiercely.

Looking at this mysterious metal plate, Long Chen's mind shook, because he realized that this metal plate was actually exactly the same as the one he had found in the Burning Sky Mountain Range.

As for why, Long Chen did not have time to think about it, because ever since this metal plate appeared, everyone knew that it was time to fight for it.

Mo Xiaolang and Yan Danqing who were closest to it immediately turned into two blurs, flying towards the black pillar. Because Long Chen and Li Ziling were fighting, they were slower, but in a battle, it did not matter if they were slower!

At this time, he was already very close to the black pillar with Mo Xiaolang and Yan Danqing at the very front. An idea suddenly flashed through Mo Xiaolang's eyes, he turned around and punched towards Yan Danqing!

As a result, their speed had been reduced.

The reason for this was because Mo Xiaolang felt that he might not be stronger than Yan Danqing, but he knew that Long Chen was stronger than him.

And just as expected, it was as he had expected, because of the sudden fist force that had arrived, Yan Danqing had no choice but to intervene to block it, and in this short period of time, Long Chen had already rushed to the very front. As he was rushing forward, he put away the green dragon halberd s, formed two Spirit Devil Sword Finger s, and released them in a flash, bringing them close to Li Ziling's body.

As a result, Long Chen became the person closest to the black pillar.

"It's almost here!" Long Chen's heart relaxed. Being wrapped around by Mo Xiaolang, Li Ziling could only be humiliated behind him. As for the others, they were just there to watch the show.

Seeing that Long Chen was about to obtain the Mysterious Iron Plate, the rest of them were anxious to the point of madness.

At this time, Long Chen could vaguely hear a burst of wolf howls.

Initially, he thought it was just his imagination, but right at this moment, a huge pressure suddenly locked onto him, it was a wave of terrifying killing intent, then thinking about the howl of the wolves just now, an image of a person suddenly surfaced in Long Chen's mind, forcing him to submit. Thinking about it, he did not care about the Mysterious Iron Plate in front of him, and decisively retreated, while shouting at Mo Xiaolang: "Retreat!"

Mo Xiaolang also heard the wolf howl, and even Long Chen retreated. He did not care about Yan Danqing, and directly reunited with him.

Right at this moment, a black figure suddenly rushed in and stopped in front of the black pillar. Long Chen looked carefully and sure enough, it was the Sun Devouring Demonic Wolf.

Following closely behind the Sun Devouring Demonic Wolf, tens of thousands of Moon Devouring Demonic Wolf began to charge into the plaza.

Chapter 253 - Breaking through the heavy encirclement

The appearance of the Sun Devouring Demonic Wolf exceeded Long Chen's expectations. Therefore, he had no choice but to abandon the Mysterious Iron Plate that he was about to get and retreat to the side of the plaza.

Yan Danqing and Li Ziling were not stupid. Seeing that Long Chen had run away and that the demon wolf in front of them was clearly an Earth Rank demon beast, they did not care about the Mysterious Iron Plate and led the rest of the people behind them to hide in the corner.

The demon beast stood there like a black whirlpool, swallowing the surrounding light and heat. This strange feeling made Yan Danqing, Li Ziling and the others a little surprised.

"Big brother, what should we do?" Mo Xiaolang asked softly.

"We are no match for this demon wolf. We can only wait and see what this demon wolf is going to do." Long Chen looked at the Sun Devouring Demonic Wolf, his gaze gloomy.

At this time, thousands of Moon Devouring Demonic Wolf had already gathered in the plaza. Without any orders from the Sun Devouring Demonic Wolf, they obediently lay on the ground, and did not make any moves against Long Chen and the other races.

As for the Sun Devouring Demonic Wolf, its pitch-black eyes were fixated on the Mysterious Iron Plate s on the black pillar. Without saying a word, the Sun Devouring Demonic Wolf held the Mysterious Iron Plate in its mouth.

"What does it want this iron plate for?" Could it be that it wanted to enter the mausoleum? How can a demonic beast obtain the inheritance of a human? " Countless thoughts revolved in Long Chen's mind. In the end, he could only confirm that within this mausoleum, there was definitely something that this Sun Devouring Demonic Wolf was interested in.

Once the Sun Devouring Demonic Wolf was obtained, no one dared to fight for it.

Everyone could only watch as the Sun Devouring Demonic Wolf carried the Mysterious Iron Plate and rushed towards the entrance of the mausoleum with a loud bang. In terms of speed, this black shadow was countless times faster than Long Chen and the others.

Long Chen was incomparably glad for his decision just now. If he had recklessly gone to fight for the Mysterious Iron Plate, he might have been burnt into a crisp by this Sun Devouring Demonic Wolf.

Under everyone's nervous gaze, the Sun Devouring Demonic Wolf was about to enter the mausoleum.

They never thought that this inheritance would be snatched away by a demon wolf that came out of nowhere. The demon wolf obviously could not obtain the inheritance of a human, and that metal tablet was obviously the key to the mausoleum. If the key was brought into the mausoleum, then what else would they steal? Just go home.

However, at this moment, an accident happened.

When the Sun Devouring Demonic Wolf approached the light membrane, a layer of black flames suddenly covered it. The flames emitted a blazing energy, and very quickly, the black flames formed the face of an old man, staring fixedly at the approaching Sun Devouring Demonic Wolf.

Long Chen's body trembled. He had seen this face before, when he had comprehended the Burning Heaven Devil Yang Fist from his own Mysterious Iron Plate, the person that appeared was this old man! At this moment, his face once again appeared in the flames.

"Bastard!" You even want to acquire my legacy precious treasure!?" The old man in the flames emitted a hoarse voice, following that, he spat out a ray of light from his mouth, and with lightning speed, struck the Sun Devouring Demonic Wolf!

This ray of light had caused the Sun Devouring Demonic Wolf to be drenched in blood. Then, it crashed into the sea of fire on the right and was instantly engulfed by the raging flames!

The appearance of the Sun Devouring Demonic Wolf was an accident, and the Sun Devouring Demonic Wolf was heavily injured. At this moment, the mysterious metal plate was still in the Sun Devouring Demonic Wolf's mouth. Seeing that the demon wolf was heavily injured and the face of the Flaming Person at the entrance of the mausoleum had disappeared, everyone immediately reacted and rushed towards the sea of fire.

As for the countless Moon Devouring Demonic Wolf, seeing that their own heads were actually injured, they immediately let out roars, and rushed towards the sea of fire on the right with a speed that surpassed Long Chen and the rest. However, they had obviously underestimated the temperature of the sea of fire, and in that instant, tens of Moon Devouring Demonic Wolf charged into the sea of fire, but in the next moment, they turned into black charcoal!

Upon closer inspection, he saw that within the scarlet flames, there were traces of black flames. It was because of these black flames that the temperature of the sea of flames had become so high that even Profound Rank level one or two Moon Devouring Demonic Wolves were directly burnt to charcoal. Although Long Chen and the rest were strong, they could not stay too long in the sea of fire.

Furthermore, even though the Sun Devouring Demonic Wolf was heavily injured, it was still unknown how severely injured it was!

This caused everyone to stop. As for those Moon Devouring Demonic Wolves, because of the deaths of their several tens of companions, they also knew the danger of this sea of fire and stopped in their tracks, crawling on the ground while wailing.

As for Long Chen and his men, they could only look at each other in dismay. Even Yan Danqing and Li Ziling did not dare to take such a huge risk and rush into the sea of flames.

"Big brother!" Mo Xiaolang's expression was urgent.

"What?"

"I want to go in!" This is a golden opportunity, the person that appeared in the flames just now was obviously trying to kill this demon wolf, which is why he fell into the sea of fire. The Sun Devouring Demonic Wolf is heavily injured, and might not be able to move at all, within the sea of fire, it will be burnt to death very quickly. And I can even help you find that Mysterious Iron Plate!" Mo Xiaolang said somewhat excitedly.

"How long can you hold out in this flame?" Long Chen frowned and asked.

"I don't know, but at least a quarter of an hour." Mo Xiaolang said anxiously. Then, without another word, he condensed his true qi outside his own body, protecting it, and then rushed into the sea of fire.

For the sake of the Sun Devouring Demonic Wolf's beast spirit, this was the first time Mo Xiaolang had made a decision on his own. Without Long Chen's consent, Long Chen could tell that the Sun Devouring Demonic Wolf's beast spirit was extremely attractive to him, and was also the key to his revenge in the future.

Seeing Mo Xiaolang rushing into the flames first, he was also prepared to go in, but right at this moment, Li Ziling appeared in front of him in an instant and sneered: "Bastard! The battle between us is not over yet. What are you trying to do? "

"Get out of my way!" Long Chen didn't have time to waste with her right now. He was worried about Mo Xiaolang's safety and couldn't be at ease to let him enter this sea of fire alone.

Seeing him so anxious, Li Ziling felt even more proud in her heart. She didn't want to let him go in the slightest, so she said to Yan Danqing: "Right now is the best chance to kill Long Chen.

At this time, Mo Xiaolang had entered the sea of flames, leaving behind only Long Chen.

Honestly speaking, Yan Danqing also felt that Long Chen and Mo Xiaolang were a great threat, so he did not hesitate and directly agreed to Li Ziling's request, and put himself behind Long Chen to block him.

Previously, it was all because of Long Chen that he got angry, but this time, Long Chen got angry.

At the edge of the sea of flames, without saying a word, Li Ziling sent another Earth Tier Battle Skills Mountain Magpie towards Long Chen!

This vast attack directly avoided the sea of fire around Long Chen! And from behind, came Yan Danqing's attacks!

Yan Danqing was only helping Li Ziling with the suppression, so he did not have the beast spirit transformation. Even though he did not have the beast spirit transformation, he was still very strong! With a casual punch, a gust of wind blew and the huge force of the punch directly suppressed Long Chen's body!

"You're courting death!" Long Chen used the True Dragon Nine Flashes, and fought the two of them to the death. This delay caused Long Chen to lose track of his whereabouts, and now, even if he rushed into the sea of fire, he might not be able to immediately find Mo Xiaolang!

This matter was related to the life and death of his best brother, so Li Ziling's actions had successfully incited Long Chen's anger!

Yan Danqing did not use his all in battle, but with a powerful expert like him lying in wait by the side, Long Chen did not dare to be negligent at all. Holding onto the green dragon halberd, he placed his focus on the battle Li Ziling who hated him.

At this time, Li Ziling was frantically attacking. This was the only chance she had to defeat Long Chen and wash away her shame.

Towards such a hot and crazy woman, Long Chen really didn't know what to say.

"F * ck, you actually want to die, your father will send you off!" Long Chen cursed loudly, the green dragon halberd in his hands danced crazily, and instantly turned into a blurry illusion. A wave of powerful aura exploded from Long Chen's body.

"And it's even a Dragon Battle Star Field?" Yan Danqing and Li Ziling could both see the might of Long Chen's Dragon Battle Star Field. They knew clearly that Li Ziling's Magpie Mountain Seal could completely block it.

Thinking about it, Yan Danqing did not care anymore, he still had to save his strength to deal with Mo Xiaolang who might come out alive.

"A mere Dragon Battle Star Field wants to defeat me?" Li Ziling was not afraid in the slightest as she unleashed the Magpie Mountain Seal once again.

"It's not as simple as you think," At this moment, Long Chen used the Nine Flashes of the True Dragon and unfurled Yan Danqing as he pounced towards him. The Azure Dragon Battle Method in his hands expanded and rays of sharp halberd light shot towards Li Ziling!

"Dragon Battle Star Field!"

In an instant, countless of small dragons intertwined with Li Ziling.

"It's just a small trick." Li Ziling did not panic. She looked at Long Chen and knew that Long Chen's Dragon Battle Star Field was not enough to kill her.

It was at this moment that she saw Long Chen's eyes. This strange feeling that suddenly appeared had shocked her heart. At this moment, she seemed to be completely captivated by those beautiful eyes. Long Chen's figure became illusory, and he felt as if he was sleeping on a large soft bed with his head resting on a sturdy and powerful arm ...

"How could this be?" Li Ziling suddenly regained her senses, and then her face was filled with shock.

Being absent-minded during battle was a huge taboo, but at this critical moment, Li Ziling had violated such a huge taboo. It was precisely because of this moment of absent-mindedness that Long Chen's Dragon Battle Star Field broke through her attack, and the sharp tip of the halberd directly landed on her body!

At such a critical juncture, Li Ziling could only escape in a sorry state. However, she was completely unable to escape from Long Chen's attack.

Fortunately, due to the power behind her, Long Chen didn't have the intention to kill her yet. He slammed his halberd against Li Ziling's chest heavily, directly knocking her flying, and in the air, she spat out a mouthful of fresh blood.

By the time she landed on the ground, she had completely lost all ability to fight.

"So, Spirit Devouring Demon Pupil were actually this useful?" Long Chen muttered.

Chapter 254 - The Little Wolf's Death

Long Chen suddenly exploded forth, and with the speed of lightning, he instantly defeated Li Ziling. When they saw Li Ziling spurt out blood and his complexion turn pale, everyone was stunned. Even Li Qingling was stunned for a moment and forgot that he should have gone to save Li Ziling right now.

As for Yan Danqing, after Long Chen got rid of him, he stopped. In the next moment, Long Chen defeated Li Ziling, and even he himself could not react in time.

After directly defeating Li Ziling, Long Chen looked at him with a warning gaze, then rushed into the sea of flames, leaving the others to look at each other in dismay. Only now did Li Qingling realize that his sister was severely injured. He let out a scream and rushed towards his sister.

"You want to brag to me?" Yan Danqing laughed, in the end, he was still very calm, and even if Long Chen defeated Li Ziling, he was only slightly surprised.

, at that time, I will let you have a look at my Hidden Dragon Rank's number one strength, and see exactly what realm I am in. "" So what?

Because Long Chen had reached the third level of the Thunder Flame Battle Physique, he had a relatively high degree of resistance towards these flames. Adding the protection of his Innate Qi, he estimated that he would be able to endure for around an hour in this sea of flames, which was a bit longer than Mo Xiaolang.

In this sea of fire, his eyes no longer had any use. Long Chen could only rely on his memories, the place where the Sun Devouring Demonic Wolf had fallen, to chase in that direction.

His heart was slightly uneasy. The surroundings were truly too quiet. The only thing that could be heard was the sound of flames exploding. As for the Sun Devouring Demonic Wolf and Mo Xiaolang, they did not make a sound.

"Did something happen to the wolf cub?" Long Chen's heart turned cold.

Earlier, Mo Xiaolang had anxiously entered the room, but Long Chen had been too late to stop him. He had wanted to follow him in, but he did not expect that this blind fellow would actually call Yan Danqing to stop him, delaying him.

Long Chen increased his pace and walked forward. At the same time, he took out his green dragon halberd, preparing himself for any danger that might occur at any time.

This was a hell of flames. Even though Long Chen had the third grade Thunder Flame Battle Body, he still felt somewhat uncomfortable with the blazing flames.

After quickly walking forward for around a hundred meters within this sea of flames, Long Chen suddenly felt heavy breathing coming from ahead, which sounded like the breathing of a Sun Devouring Demonic Wolf. Long Chen's heart trembled, and his right hand tightly gripped the green dragon halberd in his hand, ready to attack at any moment.

"Little Wolf, you must survive!" This was the only wish in Long Chen's heart.

In the instant of charging forward, Long Chen suddenly realized that the flames surrounding him had disappeared, giving him a shock. Looking around, he realized that he was in a circular, flameless region, with a diameter of only around twenty meters.

Just as he arrived, killing intent exploded out from Long Chen's body, because he saw that the gigantic Sun Devouring Demonic Wolf was right in front of his eyes. At this time, the Sun Devouring Demonic Wolf's body was filled with tiny scars, and its entire body was dripping with fresh blood.

Long Chen could sense that it was him who had forced the surrounding flames away, forming this area without flames.

"Little Wolf!" Long Chen released a loud roar, after rushing into the circular area, the first thing he saw was the heavily injured Sun Devouring Demonic Wolf, and the second time was Mo Xiaolang lying on the ground. At this moment, the Sun Devouring Demonic Wolf was circling around Mo Xiaolang, licking his wide and red tongue on Mo Xiaolang's body.

Looking at this scene, it was as if Long Chen was struck by lightning, and his entire person froze in place.

"Wolf cub is dead?!" This was the first thought that emerged into his mind. When he confirmed that there were indeed no sounds coming from Mo Xiaolang's body, the grief and anger were like a tidal wave, completely submerging him. His eyes turned blood-red, veins on his entire body popped out, and his hands tightly gripped onto the green dragon halberd.

After being together with Mo Xiaolang for the past few days, Long Chen really liked this youth. Honestly speaking, other than his family, Mo Xiaolang had become the most important person to Long Chen other than Ling Xi. He was the only one that could be called a brother, but now, his only brother was lying there in a deathly silence.

Long Chen could feel that the hidden craziness and savagery deep within his body was completely released after seeing this scene!

"Bastard!" "You killed the wolf cub!" Long Chen roared out, his face that was covered with red scales, turned terrifying and sinister!

By this point, he had almost lost all reason, why would he care how strong the Sun Devouring Demonic Wolf was!

After roaring, Long Chen waved his green dragon halberd and rushed towards the Sun Devouring Demonic Wolf without a second word!

The heavily injured didn't immediately come to kill Long Chen. Instead, it took a few steps back and brought Mo Xiaolang's corpse before Long Chen's eyes.

From the Sun Devouring Demonic Wolf's eyes, Long Chen could actually see many emotions, such as doubt, pain, grief, and all kinds of emotions. It was as if there were a lot of things that he wanted to tell Long Chen.

In this strange situation, Long Chen did not care. What he cared about was Mo Xiaolang's life and death!

As he held Mo Xiaolang's icy cold hand, his body had already completely lost its heat, and his heart was no longer beating. His true energy was slowly flowing out, and by this point, he probably did not even have the level of Dragon-Meridian Realm.

Without a doubt, Mo Xiaolang was already dead!

To Long Chen, this was like a bolt from the blue. In this past month, his days together with Mo Xiaolang, unceasingly surfaced in his mind. This somewhat bashful, somewhat kind, but tenacious youth who carried a sea of blood as his own enemy, was the only brother that Long Chen had admitted to be. But now, he had died in front of him!

Long Chen felt his blood boiling, his chest felt like it was about to explode.

"Bastard, you must pay for the wolf cub's death!" Long Chen silently kept Mo Xiaolang's corpse into his Qiankun bag, he lowered his head, and with a gloomy face, he stood up, as a berserk killing intent exploded from his body.

He immediately rushed towards the Sun Devouring Demonic Wolf to kill it. This time, even if he had to die, he had to kill the severely injured Sun Devouring Demonic Wolf and take revenge for Mo Xiaolang!

Long Chen thought that the Sun Devouring Demonic Wolf would fight with him to the death in this sea of fire, but unexpectedly, it picked up a mysterious metal plate on the ground and immediately turned around and ran away. The direction he was escaping in was actually towards the outside of the sea of fire!

Once the Sun Devouring Demonic Wolf left, the sea of flames once again engulfed Long Chen's body.

"Do you want to leave?" Without saying a word, Long Chen rushed towards the Sun Devouring Demonic Wolf!

His purpose for coming to the Burning Sky Secret Realm was originally to obtain the inheritance of the The Devil Emperor of the Burning Heaven, but now, the only thing he wanted to do was to hack this Sun Devouring Demonic Wolf into a thousand pieces to comfort Mo Xiaolang's soul in the heavens!

The Sun Devouring Demonic Wolf's body was huge, upon nearing the outer ring, the people outside knew that this terrifying demon beast was about to come out. However, when they saw the blood dripping from its body and its dull eyes, as well as its staggering body while running, a cold light flashed across Yan Danqing's eyes.

When the Sun Devouring Demonic Wolf came out, Yan Danqing saw with shock that the Sun Devouring Demonic Wolf's mouth was still holding the Mysterious Iron Plate. He gritted his teeth and in a flash, he appeared next to the Sun Devouring Demonic Wolf's mouth and punched towards the corner of its mouth!

This time, he made the right bet. The Sun Devouring Demonic Wolf's injuries were just too severe, and just as it rushed out of the sea of flames, before it could even clearly see the outside environment, it was struck on the corner of its mouth by Yan Danqing's fist. The Mysterious Iron Plate that was still in its mouth, was sent flying!

"The heavens are truly helping me!" Yan Danqing let out a loud laugh. Without saying a word, he grabbed his metal plate and rushed towards the entrance of the mausoleum!

"What?" Long Chen had just rushed out of the sea of fire when he saw this scene. The Sun Devouring Demonic Wolf had been punched to the corner of the mausoleum, and this punch from the Great Perfection of the Heavenly Core Beast Fighters had directly expanded its injuries once again.

At this time, Yan Danqing carried the Mysterious Iron Plate and had already arrived at the entrance of the mausoleum.

Long Chen watched as Yan Danqing charged through the light barrier and into the mausoleum. If it was before, he would definitely chase and kill Yan Danqing crazily, but right now, he was completely focused on taking revenge for Mo Xiaolang, so he had already thrown the The Devil Emperor of the Burning Heaven's inheritance to the side.

Once again locking onto the Sun Devouring Demonic Wolf's position, Long Chen roared out explosively. The green dragon halberd danced crazily, and with another Dragon Battle Star Field, it charged towards it!

The others all looked at this scene. From start to finish, too many changes had occurred, making it difficult for them to react!

"Long Chen defeated Li Ziling, rushed into the sea of fire, and then the demon beast came out from the sea of fire. The Mysterious Iron Plate was taken by Big Brother Yan Danqing, and Yan Danqing successfully obtained the inheritance, but Long Chen completely ignored it and went to kill the demon beast?"

They didn't know that Mo Xiaolang had died, so they couldn't figure it out for a while.

Seeing the Dragon Battle Star Field closing in on the Sun Devouring Demonic Wolf, a look of pain flashed past the heavily injured Sun Devouring Demonic Wolf's eyes. It finally made a move and forcefully lifted its head, waving its thick claws at Long Chen.

BOOM!

With an explosive sound, Long Chen was blasted flying backwards by the Sun Devouring Demonic Wolf's immense force! He crashed to the ground!

"Earth Stage Demonic Beast, extraordinary indeed!" Long Chen jumped up and exchanged a few blows with the Sun Devouring Demonic Wolf, but he already felt that his arm was a little numb.

In this world, thousands of Moon Devouring Demonic Wolf saw that Long Chen actually dared to make a move on their own heads, and when Long Chen landed, they all rushed towards him.

"It's been a long time since I've used this move." Among the pack of wolves, Long Chen's eyes flashed with a bloody light.

Chapter 255 - Heavenly Core Small Success

"Devouring Blood Realm!"

In that instant, a bloody shadow swept across the entire pack of wolves. Thousands and thousands of Moon Devouring Demonic Wolf were covered by this bloody barrier wall.

This was a strange space.

Hiss!

Aooo!

Under the immense devouring force, the Moon Devouring Demonic Wolf slowly let out a series of screams. It could be seen that the wolves closest to Long Chen were instantly covered in blood. Then, a huge ball of blood madly rushed toward Long Chen! Like a cannonball, it collided with Long Chen's body. Then, it instantly turned into gas, and filled the air. The essence within, had already been intercepted by Long Chen!

"Moon Devouring Demonic Wolf are not weak, the speed of their devouring is just too slow!" A cold light flashed in Long Chen's eyes. He waved the green dragon halberd, crazily advancing amidst the Moon Devouring Demonic Wolf's pack of wolves, and as long as the green dragon halberd stabbed the Moon Devouring Demonic Wolf a little, endless blood would gush out of the other party's body, and they would all be engulfed by Long Chen. Everywhere Long Chen went, there would be a ball of blood with a diameter of more than three meters, and the ball of blood would constantly be absorbed and refined by Long Chen.

The hatred Long Chen had for the Sun Devouring Demonic Wolf was now completely vented onto the Moon Devouring Demonic Wolf. This speed was practically the speed of a cutting machine, and one after another, the Moon Devouring Demonic Wolf cried out as they died under his green dragon halberd and Devouring Blood Realm!

Under the Devouring Blood Realm's huge devouring ability, Moon Devouring Demonic Wolf whose strength was completely inferior to Long Chen's, had no ability to withstand his attack at all. In fact, even running away was impossible, and wherever Long Chen went, a large group of Moon Devouring Demonic Wolf had turned into a dried corpse without blood!

Regarding this, what Long Chen found strange was that the Sun Devouring Demonic Wolf's eyes were lifeless, and did not react.

To others, this kind of bloody scene was enough to send chills down their spines. They had never seen such a bloody method of slaughter. The current Long Chen had completely turned into the reaper, and one by one, Moon Devouring Demonic Wolf died in his hands. It should have been a scene of blood flowing like a river, but there wasn't anything here, because all of their blood had been swallowed by Long Chen.

The remaining people all started to tremble, especially Li Ziling who was still heavily injured. Just a moment ago, she was unconvinced that Long Chen had actually defeated her. But now, she was completely terrified. She had never seen such a terrifying person. When she recalled that she had actually made an enemy out of him, her legs began to tremble.

"Long Chen, what exactly is he?" In the minds of the crowd, this thought continued to echo.

When they were slaughtering the Moon Devouring Demonic Wolf, Long Chen had thought that the Sun Devouring Demonic Wolf would take action against him. After all, no one could watch as their own little brother was slaughtered like that.

"Is the Sun Devouring Demonic Wolf retarded?" Long Chen secretly cursed in his heart, but his hands did not stop moving! This time, he had to take advantage of the Sun Devouring Demonic Wolf's injuries and take revenge for Mo Xiaolang. Otherwise, he wouldn't have this chance in the future.

Having just entered the Heavenly Core, he was still not a match for the Sun Devouring Demonic Wolf, so he needed to become stronger, and the opportunity lay with these Moon Devouring Demonic Wolf. Long Chen constantly used Blood Refinement Qi, and felt his own Innate Qi rapidly expanding. After massacring almost half of the Moon Devouring Demonic Wolf, his Innate Qi had finally reached a peak!

"One more step, and my Heavenly Core has reached the small success stage."

When it reached the peak, the vigorous Zhen Qi inside his body suddenly erupted and rushed towards Long Chen's limbs and bones. Then, it immediately started to flow back, and when all the Zhen Qi had entered Long Chen's Dantian once again, it released a vibration, and condensed into an even smaller Heaven Pellet, which was only the size of a soybean, and stopped in Long Chen's Dantian.

Powerful true energy undulations emanated from within the elixir, which also contained the large success stage Power of Thunderflame, as well as the green dragon energy formed from the Azure Dragon Battle Method. Beside it was a faintly discernable blood-red fog.

In addition to the Dragon Soul Transformation which was ten times stronger, Long Chen's true qi was already on par with, and had even surpassed many of the Great Perfection of the Heavenly Core!

When he finally arrived at the Heavenly Core, Long Chen dispelled the Devouring Blood Realm and appeared before the crowd. At this time, he was still in the form of the Dragon Soul Transformation, but the blood Qi and killing intent on his body was even denser. Those ice-cold blood-red eyes made everyone retreat a few steps, his face was pale white, and was as quiet as a cicada.

Although Li Qingling, who was supporting Li Ziling, really wanted to beat him up, the current him, under the suppression from Long Chen's eyes, had already lost all courage.

It was the first time in his life that he had seen such a terrifying person!

"Sun Devouring Demonic Wolf!" Long Chen's face was gloomy, after his strength had increased, he held the green dragon halberd in his hand, and with a stomp on it, he frantically rushed towards it!

"Die!" Little Wolf, I want to take this beast's life as a sacrifice for your soul in heaven! " The green dragon halberd turned into a fierce wind as countless dragon shadows charged towards the Sun Devouring Demonic Wolf! could not believe that an attack that was suddenly several times stronger could not take the life of a Sun Devouring Demonic Wolf even like this!

The Dragon Battle Star Field moved once again, pressing towards the Sun Devouring Demonic Wolf, instantly arriving in front of it.

Long Chen was extremely careful. He had fought against the Sun Devouring Demonic Wolf once, so he was carefully considering the other party's next move, but what made him suspicious was that the Sun Devouring Demonic Wolf didn't move at all this time. It stood up from its crawling position and forced its body to move.

When he saw this gaze, he suddenly felt that the Sun Devouring Demonic Wolf before his eyes had actually given him a familiar feeling. Only when he carefully recalled, when the green dragon halberd was about to directly stab the Sun Devouring Demonic Wolf, did he realize that this kind of gaze, was it really Mo Xiaolang's.

Long Chen felt that this idea was absurd, but because of this absurd idea, he stopped his attack.

Long Chen believed that if he had not withdrawn his attack, the Sun Devouring Demonic Wolf would have been killed by him in one move. Even Mo Xiaolang was not necessarily his match, let alone a Sun Devouring Demonic Wolf who would not resist after reaching the initial stage of Heavenly Core.

Long Chen looked at the Sun Devouring Demonic Wolf strangely. At this time, when the Sun Devouring Demonic Wolf saw that he had stopped attacking, its face actually revealed an expression of joy. It twisted its body, and that huge body started to shrink until it was similar to a normal puppy before it stopped changing.

At the moment, the Sun Devouring Demonic Wolf's entire body was covered with black fur, on its forehead, there was a circular shaped sun pattern, its teeth and claws were no longer sharp, but rather small sized.

Long Chen watched this scene in a daze.

From the Sun Devouring Demonic Wolf's eyes, Long Chen could see its human side. Honestly speaking, but from the eyes, this Sun Devouring Demonic Wolf was a person, and a living person at that.

Long Chen squatted down and stretched his head out, stroking the head of the Sun Devouring Demonic Wolf. The other party did not resist, but enjoyed it very comfortably, with two crescent moon-like canines baring outside, looking very cute.

Because of the previous injury, the Sun Devouring Demonic Wolf had become smaller, but there were still some traces of blood on its body. At this moment, the Sun Devouring Demonic Wolf stretched out its claws and wrote a word crookedly on the ground.

Mo.

Long Chen's mind shook, and he blurted out: "You are Mo Xiaolang?"

The Sun Devouring Demonic Wolf hurriedly nodded. Perhaps it was because Long Chen had recognized his identity, but the confused and pained expression in his eyes had finally lessened a little.

Long Chen swallowed his saliva, and started to carefully size up the Sun Devouring Demonic Wolf.

"Isn't the wolf cub dead? Why did the Sun Devouring Demonic Wolf say it was Mo Xiaolang? The current Sun Devouring Demonic Wolf is completely different from its previous fearsome appearance. Could it be that it is really as it says? " Long Chen's heart was in a mess.

The only thing that made him happy was that he originally thought that Mo Xiaolang was dead, and that he even had the little wolf's corpse hidden inside his Qiankun bag. However, looking at the strange change in the Sun Devouring Demonic Wolf, could it be that Mo Xiaolang was still alive?

The only explanation, was that Mo Xiaolang's soul had entered the Sun Devouring Demonic Wolf's body and even controlled it!

Long Chen didn't know why such a change occurred either. He only knew that when Mo Xiaolang chased after the Sun Devouring Demonic Wolf, he wanted to hunt for the Sun Devouring Demonic Wolf's beast spirit. Naturally, it was during the refinement of the beast spirit that an unexpected event occurred, causing Mo Xiaolang to have no choice but to give up his body and snatch the Moon Devouring Demonic Wolf's body.

Mo Xiaolang's corpse did not have any trace of injury. From this, Long Chen could confirm that the matter was very likely as he had imagined, and the one currently occupying the body of the Sun Devouring Demonic Wolf was Mo Xiaolang. In other words, Mo Xiaolang had become a Sun Devouring Demonic Wolf!

Long Chen was completely unable to react to such an accident.

He composed himself and decided to make his last attempt.

"Back in White Yang Town, you gave me the Stellar Battle Body, right?" Long Chen asked. As long as the Sun Devouring Demonic Wolf could understand his words, then there was no doubt that it was Mo Xiaolang.

Sure enough, the Sun Devouring Demonic Wolf nodded.

Long Chen instantly revealed excited tears.

He held Mo Xiaolang's body in his arms, looking at its current state, he choked with sobs, unable to say a single word.

Seeing Long Chen's pained expression, the little wolf who had already turned into a Sun Devouring Demonic Wolf, also could not bear to see this. Tears started to flicker in its eyes, however, because of the appearance of these tears, its previous perplexity and pain completely disappeared.

Although he had become a Goblin Beast, he knew that at least in front of Long Chen, he was still a brother. That was enough. This meant that he was still not alone.

"Little Wolf, no one could have predicted that there would be such an unexpected turn of events. But I promise you, you will always be my, Long Chen's, brother, and your hatred will always be mine. Your wish will always be my wish. "Although you have become like this now, there will be a day when I will give you a human body. This is my promise to you!"

Chapter 256 - The Devil Emperor of the Burning Heaven

Long Chen knew that the fact that the little wolf had gone from a human to a Sun Devouring Demonic Wolf could not be leaked. Therefore, even if he recognized the wolf cub, he did not reveal his identity.

The others present at the scene were nervously watching Long Chen and the heavily injured Sun Devouring Demonic Wolf determine the victor. They didn't think that Long Chen would actually stop his attack, and what was even more unimaginable was that the Sun Devouring Demonic Wolf had actually shrunk to the size of a cute little black dog. It turned into a little wolf and was hugged in Long Chen's embrace.

What happened today was too much of a challenge to their imagination.

Thus, at this moment, they were all dumbstruck and were unable to say a single word.

Long Chen had just regained his senses regarding the young wolf. Looking at the brother in his arms, his heart was also very bitter. To be able to turn a human into a demonic beast, the wolf cub would definitely feel very uncomfortable.

Ling Xi only has her soul, so she can rely on spirit medicine to recover her body, not to mention the little wolf. I heard that the most extreme level demon beasts possess the ability to transform into a human, while the little wolf is a Sun Devouring Demonic Wolf. It is said that they possess the ability of devouring. Long Chen thought in his heart.

Sun Devouring Demonic Wolf's ability to devour all types of heat and even light was still very powerful.

The current Little Wolf couldn't speak, but from the look in his eyes, Long Chen could roughly guess what he was thinking. From his initial confusion and pain, until now, he had already accepted reality. Since this matter had already become a reality, the only thing he could do in the future was to save her, and not grieve for himself here.

Only now did Long Chen remember about the The Devil Emperor of the Burning Heaven's inheritance.

Because of Mo Xiaolang's death, even Yan Danqing took the opportunity to snatch the Mysterious Iron Plate, but Long Chen did not care about it at all.

Right at this moment, as if the little wolf could guess his thoughts, it used its soft and tender black claws to touch his arm. Then, it jumped out of Long Chen's embrace and headed towards the sea of flames.

"Where is the wolf cub guiding me?" Long Chen knew that the wolf cub would definitely not harm him, so he did not hesitate and followed Mo Xiaolang inside. Originally, he wanted to use his Innate Qi to wrap it up, but he did not expect the wolf cub to not be afraid of the flames at all.

Mo Xiaolang had thought that this flame would burn Sun Devouring Demonic Wolf to death, and had indeed thought too much of it.

Ignoring the gazes of others, Long Chen followed Mo Xiaolang as they walked in the midst of the sea of flames. There was no path within the sea of flames, so it could be seen that the little wolf was only trying to figure it out.

"Maybe it's because the last time the wolf cub came here, he saw something special." Long Chen thought.

As expected, a bizarre fluctuation suddenly appeared in front of him. Long Chen vaguely felt that this fluctuation was a little familiar, and very quickly, the little wolf finally stopped its steps. It turned its head to look at Long Chen and nodded, gesturing for Long Chen to walk forward.

"Is this the entrance to the mausoleum?" Long Chen was shocked. In front of him was the wall of the mausoleum, and a small door appeared on the wall. The shape of the door was about the same as the gate outside, and similarly, there was a transparent membrane of light inside the small door that prevented people from entering.

"Little Wolf, could it be that this is also the entrance to the mausoleum? Moreover, this little gate is so special, it's very likely that there's something special about it," Long Chen said in a low voice.

According to his experience, the more hidden something was, the more important it should be.

Although Mo Xiaolang couldn't speak, he could still nod his head. At this moment, he nodded his head, looking somewhat innocent.

"But how do I get in?" When he thought about this question, Long Chen started to feel distressed. That Mysterious Iron Plate was the entrance to the main entrance, but it had already been snatched away by Yan Danqing. And now that Yan Danqing had already entered the mausoleum, whatever good stuff it had, they should have all been taken by him.

At this time, Mo Xiaolang was in a panic. He really wanted to feel something from Long Chen, but he couldn't say it out loud. He could only tilt his head and use his two front paws to form a rough shape.

"You're talking about the iron plate that I got from the Burning Sky Mountain Range!" Long Chen was pleasantly surprised. He should have thought of this long ago, but he still couldn't calm himself down after what happened to Mo Xiaolang.

"The appearance of this metal tablet in the Burning Sky Mountain Range must be related to this Burning Sky Secret Realm. Furthermore, the iron tablet that Yan Danqing obtained before was now the same as this metal tablet, so it is very likely that I will be able to pass through this membrane using this metal tablet."

Thinking to this point, Long Chen was extremely excited. He carefully held the little wolf in his embrace, then took out a Mysterious Iron Plate from his Qiankun bag, which began to emit waves of trembling the moment it appeared. When Long Chen leaned against the light barrier, a beam of light fell on his body, and Long Chen felt a strong suction force on his body, then, he was sucked in by the energy.

After experiencing a moment of darkness, Long Chen realized that he was standing on a long path. This path was made of earthen yellow bricks, and it was neat and tidy, giving off a solemn and dignified feeling.

Every ten meters or so, there was a hanging lamp on the wall, burning with a small, eternal ball of red flame. It was because of the existence of these flames that this corridor appeared to be incomparably bright.

"This should be the mausoleum, I never thought that I would actually enter the The Devil Emperor of the Burning Heaven's mausoleum." Long Chen carried the little wolf and directly walked forward. Right now, the Sun Devouring Demonic Wolf's body was still severely injured. To prevent it from affecting its injuries, Long Chen could only allow it to move.

Even though it was a bit inappropriate for a grown man to hug another. However, the situation was different now, and the wolf cub needed to be taken care of as well.

"Sun Devouring Demonic Wolf's meridians should be different from a human's meridians. If Little Wolf wants to thoroughly explore this body, it will probably take a lot of time." Long Chen thought.

If the wolf cub wasn't familiar with this body, it meant that he wouldn't be able to refine spiritual medicine. Since he couldn't refine the spirit medicine, his recovery should be much slower.

Fortunately, Mo Xiaolang's body was of the Earth Stage and above, and he didn't know how much combat ability he would have once he recovered.

Right now, Long Chen was equivalent to having an Earth Rank demon beast as a pet. That was to say, with Mo Xiaolang's support, as long as he did not offend someone like the Ninth Prince, Long Chen could definitely do whatever he wanted in Source Spirit City.

Right now, the most important thing to do was to explore the most important thing in Burning Sky Secret Realm. Long Chen had a premonition that he might get something different from Yan Danqing.

Following this path, Long Chen continuously delved deeper. After approximately fifteen minutes, two faint golden colored small doors appeared on the two sides of the wall in front of him. On both sides of the wall, there was one each.

After arriving here, Long Chen was a little excited. If there was any treasure within the mausoleum, it would definitely be within these two small doors.

Long Chen and the little wolf arrived in front of one of the small doors. Long Chen's hand gently covered the inside of the light gold door, and at this moment, he was somewhat excited. An ice-cold feeling came from the door as it swayed slightly, telling Long Chen that the door was ajar.

Without hesitation, Long Chen pushed open the door and a room that was not that big appeared inside. The walls of the room were the same as the outside, the only difference was that the floor was black.

Long Chen's gaze was immediately attracted to a table in the center of the room. Coming in front of the table, he realised that there were two manuals on the table.

These were two battle skills. From the yellowing material of the manual, it could be seen that they had existed for quite some time.

"I have to say, my luck is really good." Long Chen was a little emotional. Since he had also entered the Burning Sky Secret Realm, the little wolf had been a little stronger than Long Chen in the beginning, but now, he had become a Sun Devouring Demonic Wolf while Long Chen obtained the treasures of the The Devil Emperor of the Burning Heaven.

"I don't know, does this count as the inheritance of the The Devil Emperor of the Burning Heaven? Or could it be that Yan Danqing obtained something even better? " Just as he was about to come into contact with the two secret manuals, a raging flame suddenly rose up from the two books. An old face that Long Chen was familiar with, instantly appeared within the flames.

"Little child, your luck is really good to be able to come here." The human face in the flames was filled with the vicissitudes of life.

"Is senior a The Devil Emperor of the Burning Heaven?" Long Chen asked respectfully.

"That's me." At this time, the elderly man known as The Devil Emperor of the Burning Heaven was looking at Long Chen emotionally. When he saw the Sun Devouring Demonic Wolf in Long Chen's embrace, he was shocked.

"I don't know. Anyway, he likes me a lot." Long Chen lied. He did not intend to lie, it was just that the things that happened to Mo Xiaolang were a bit unimaginable, so it was inconvenient for him to say it.

"I don't have much time left, the fact that you are able to come here means that we are fated to be each other. Of these two battle skills, one is the Nine Revolving Fire Shield and the other is my most famous divine fire clone, I gift them all to you. The room across us has Tianhe Dan that I left behind, I'll give it to you as well." The face in the flame said.

To be able to obtain these things, Long Chen became extremely excited. He immediately said: Thank you senior for the gift, junior will never forget it, for the rest of my life, I will definitely bring out these two battle skills to great heights, my name will shake the lands!

"Little baby isn't bad. She's a person with a lot of courage." The The Devil Emperor of the Burning Heaven said with some sentiments.

"Senior, I have another question. Inside the mausoleum, there is still a main entrance. I wonder what that fellow who enters through the main entrance will get?" Regarding the inheritance of the The Devil Emperor of the Burning Heaven, Long Chen was a little doubtful, what exactly was considered to be the inheritance of the The Devil Emperor of the Burning Heaven, and from there, obtained a placing in the fairyland godly guard.

Chapter 257 - Nether Demon Ancestral Fire

"Hehe, that is only a pretense I set up, what he can obtain is a complete Nine Revolving Fire Shield, and also an incomplete divine fire clone. The number of Tianhe Dan he obtains is not even one tenth of yours. Therefore, the person who really obtained my inheritance is you. I don't have much time left, it's just a remnant soul that I've left behind countless years ago. Before it disappears, I'm already very satisfied with my only wish ...

The Devil Emperor of the Burning Heaven was immersed in his memories, and from his eyes, one could tell that the him back then must have had a glorious past.

Immediately after, his gaze fell on the Sun Devouring Demonic Wolf, and he asked doubtfully: "Strange, this Sun Devouring Demonic Wolf has been in this place for countless years with the aim of obtaining the legendary Ancestral Fire. Why did it become so obedient after coming to this place?"

"Ancestral Fire?" Long Chen was in a bit of a daze. Previously, the Sun Devouring Demonic Wolf was rushing towards the mausoleum in a hurry to get something, could it be the Ancestral Fire?

"May I ask senior, what is Ancestral Fire?" Long Chen asked respectfully.

"I don't know much about Ancestral Fire. I've guarded this Ancestral Fire for countless years, but I've never dared to come close to it. I only know that according to the rumors, the Ancestral Fire came from a supreme divine object that was formed following the opening of the heaven and earth. It possesses an unfathomable ability and there aren't many Ancestral Flames in this world. Over the course of countless years, I have seen countless experts trying to reclaim the Ancestral Fire, but none of them succeeded in the end. "

"A divine object that accompanied the opening of the heaven and earth? This thing, could it be that it was similar to ancestral dragon-inherited blood s? They will also carry the word 'ancestor' with them, so no matter what, they will not be too inferior. " Long Chen silently said in his heart.

He could feel that the Little Wolf in his embrace, upon hearing the words Ancestral Fire, was a little unnatural. The Little Wolf probably did not know about this thing called Ancestral Fire, so it was unnatural.

After the The Devil Emperor of the Burning Heaven finished speaking, he paused for a moment before continuing, "Child, you don't even know how terrifying the existence of the Sun Devouring Demonic Wolf that you are hugging in my era countless years ago was. Perhaps the young Sun Devouring Demonic Wolf is very weak, but when he grows up, and placed in the vast outside world, it will rapidly grow.

"Just like its name, the sun is the biggest fire source in this world. In theory, it can even swallow the sun! Therefore, when Sun Devouring Demonic Wolf appear, I will definitely kill them immediately! At this point, the Dragon Sacrifice Continent no longer has any Sun Devouring Demonic Wolf, and the one in your arms is probably the only one. The current people have long forgotten how terrifying it is, so I beg of you, please kill this Sun Devouring Demonic Wolf. Otherwise, if you allow it to grow freely, it will definitely bring about a calamity so great that it will fill the skies in this world! "

"Back then, I found out that within the Moon Devouring Demonic Wolf's race, there was actually a Sun Devouring Demonic Wolf that had not appeared for a long time. I was slightly worried, but luckily, this Sun Devouring Demonic Wolf will never go to the Dragon Sacrifice Continent, and it's different now. If it is close to you, you will definitely bring it back to the Dragon Sacrifice Continent. At that time, it will bring calamity to this world! "

As he finished speaking, the The Devil Emperor of the Burning Heaven was incomparably excited.

Long Chen was a little taken aback, he had already felt that the Ancestral Fire from before was something powerful, and now that he heard the words of the The Devil Emperor of the Burning Heaven, Long Chen realized, the Sun Devouring Demonic Wolf was actually so powerful, to the point that even the sun could be swallowed by him? What kind of concept was this? This meant that the Sun Devouring Demonic Wolf possessed the ability to destroy the entire world.

How terrifying was this?!

However, The Devil Emperor of the Burning Heaven's current request was for Long Chen to kill the Sun Devouring Demonic Wolf. which also meant that he was the current Mo Xiaolang.

The The Devil Emperor of the Burning Heaven didn't immediately order Long Chen around. Instead, he told him many truths, wanting to make Long Chen accept it wholeheartedly and kill the Sun Devouring Demonic Wolf. That was why he slowly told Long Chen this. He felt that with the Sun Devouring Demonic Wolf as a pet, Long Chen would definitely not be willing to kill such a heaven defying creature.

After all, Long Chen didn't look like an idiot.

However, Long Chen did not agree. He shook his head and said: "Senior, I am disappointing you. I cannot kill him because he is my brother."

"What?" The Devil Emperor of the Burning Heaven was a little angry. He did not understand Long Chen at all as he questioned him, "Do not bring disaster to this world just because of your selfish desire!"

immediately told him: "To be honest, this Sun Devouring Demonic Wolf is close to me for another reason. Senior, when I entered the Burning Sky Secret Realm with my brother Mo Xiaolang, in the competition outside the mausoleum, the Sun Devouring Demonic Wolf received heavy injuries, and my brother Mo Xiaolang wanted to take the opportunity to refine its beast spirit. I never thought that an accident would happen, now, my brother's soul has already taken over the Sun Devouring Demonic Wolf's body.

Long Chen's words caused the The Devil Emperor of the Burning Heaven to be absolutely shocked, and he was unable to recover his senses for a moment. After a long while, he looked at the Sun Devouring Demonic Wolf in disbelief, and said: "You mean to say, the Sun Devouring Demonic Wolf with the ferocious nature of a demon beast is already dead? And the one in front of me right now, is the person who is occupying the body of the Sun Devouring Demonic Wolf?"

"Right." Long Chen said firmly.

"Heavens, I can't believe I actually witnessed such a miraculous thing before my death!" When a human's mind occupied the body of a monstrous demonic beast, what sort of interesting thing would happen? Will the entire Dragon Sacrifice Continent be shaken because of this? " After he finished speaking, the The Devil Emperor of the Burning Heaven's words were already unclear.

"When I was young, for you guys, it should have been at the end of the Middle Paleogene. At that time, the Dragon Sacrifice Continent was not like it is now, separated into many pieces, the news was common, I have heard that the most talented warriors in the world were those who had inherited the's blood essence during the Primordial Era, but these kind of warriors have never appeared! There has never been one, but now I am sure that the little kid who has taken over the body of the Sun Devouring Demonic Wolf definitely possesses a talent close to that of an Ancestral Dragon Fighter! Furthermore, when it can control the Ancestral Fire that is as old as the Ancestral Dragon, could something even more magical have happened? " The Devil Emperor of the Burning Heaven was already excited to the point of incoherent speech, he looked at the wolf cub with burning eyes, listening to his words, it seemed like he no longer had any intention of killing the wolf cub.

Long Chen was slightly relieved.

"The wolf cub unintentionally occupied the body of the Sun Devouring Demonic Wolf, but obtained such a heaven defying talent. And my The Devil Emperor of the Burning Heaven said that no warrior with ancestral dragon-inherited blood ever appeared. Presumably, it wasn't me. "

Thinking about how he wasn't the most heaven defying Dragon Fighter, Long Chen was a little disappointed, but seeing how this fellow's expression was completely dull, Long Chen was also happy for him in his heart.

To be able to meet the Dragon Sacrifice Continent's future peak expert before I die, I feel incomparably excited. Finally, I will tell you all about the matter of the Nine Hell Devil Ancestral Fire under this mausoleum ...

"Nine Hell Devil Ancestral Fire? Senior, feel free to speak. " Long Chen nodded. He knew that this Nine Serenities Devil Ancestral Fire should be something that was rumored to be formed from an ancient flame that was accompanied by the birth of heaven and earth.

"Of course, this Nine Serenities Devil Ancestral Fire isn't its entire being. It's a tiny clone of it. If a complete Nine Serenities Devil Ancestral Fire were to appear here, this Burning Sky Secret Realm would have collapsed long ago. However, even if it is just a tiny clone, it is still enough to kill countless warriors who want to take it back. Among these dead warriors, there are even people who are thousands of times stronger than me. I exist for a long time, so I know more than you guys. In the eastern part of the Dragon Sacrifice Continent, it is called the Realm of Myriad Kingdoms, where tens of thousands of different sized nations exist, and the Canyang Kingdom, is just a drop in the ocean, in the ocean, there are ten extremely huge beings. These ten super nations each lead thousands of small nations, and they are all called Ten Great Saints, what I want to say is, once, the strongest experts in the Ten Great Saints were all killed by the avatar of the Nine Hell Devil Ancestral Fire! "

"So terrifying?" Long Chen inhaled a breath of cold air. Such a terrifying Nine Hell Devil Ancestral Fire, when Long Chen thought about how it was right below him, he felt a little scared. If even that kind of expert died, he was afraid that he would lose his life if he went any closer.

"It really is terrifying. In this world, I'm the only one who knows that the Nefarious Spectral Demon Ancestral Fire has fled to this place." It has a spirit and is sleeping. It won't wake up if no one wakes it, so don't worry. However, little kids, do you want to have a sensational try? " The Devil Emperor of the Burning Heaven said somewhat excitedly.

"Senior, what do you mean?" Long Chen could probably guess what he was thinking.

"The Sun Devouring Demonic Wolf, a flame that is said to be able to swallow everything, before this little kid takes over the Sun Devouring Demonic Wolf's body, it has repeatedly come to me. I believe the scent of the Nine Hell Devil Ancestral Flame is attracting it, do you guys think that if the Sun Devouring Demonic Wolf was able to absorb the Nine Hell Devil Ancestral Flame, it would be a success?"

Long Chen knew that this crazy old man would have this thought.

"The Nether Demon Ancestral Fire is so powerful, shouldn't Little Wolf do the same?" Long Chen said worriedly.

"What are you afraid of? Right now, he is the demon beast with the most time of evolution. " The Devil Emperor of the Burning Heaven said.

Therefore, at this time, he still had to ask for Mo Xiaolang's opinion. When he saw Mo Xiaolang's blazing gaze, Long Chen knew that he had already made a decision in his heart.

Mo Xiaolang was indeed someone as crazy as him.

Chapter 258 - divine fire clone

"Did you agree?" The Devil Emperor of the Burning Heaven said excitedly.

Mo Xiaolang could not speak, and could only nod his head.

Long Chen could only smile bitterly and shake his head. This was Mo Xiaolang's decision towards his own life, and he had no way to stop it.

"It's a pity, I don't have the time to see if you will succeed or not. After talking to you for so long, the soul power that I gathered for so many years has been completely exhausted, and I am about to enter the cycle of reincarnation." The Devil Emperor of the Burning Heaven's heart was filled with bitterness.

"Senior, what unfulfilled wish do you have that us brothers are willing to fulfill for you?" At this point, Long Chen could only say this.

"Wishing? So many years have passed, what other wishes can I possibly have? " The Devil Emperor of the Burning Heaven's eyes swept across Long Chen and the wolf cub. Suddenly, his eyes lit up, and he

said: "Meeting each other at this moment is fate, and being able to meet at this moment, is even more so, an enormous fate. Both of you possess extraordinary talent, and you can both see that your relationship is very good, I don't have any wish, but I have a wish.

"Thank you, senior!" Long Chen and Little Wolf looked at each other and laughed. It seems that this The Devil Emperor of the Burning Heaven is also a man of character.

"He should be thanking all of you for being so calm and for accompanying me through this last part of my life." The Devil Emperor of the Burning Heaven revealed a faint smile.

In the process of waiting, and seeing a life disappear with his own eyes, Long Chen felt a little lost. However, even until his soul completely disappears, the corner of his mouth still maintained a faint smile. Such a happy death should be the most wonderful release for him.

"Wolf, let's go." Long Chen kept the two secret scriptures on the rotten table into his Qiankun bag, then he called out to the little black wolf who was running around on the ground. Right now, Mo Xiaolang was still unable to control the Sun Devouring Demonic Wolf's body well, so when he walked, he looked a little awkward, and even a little funny.

Of course, in the eyes of a girl, this would be moe and cute.

No one would have thought that such a cute little wolf was actually one of those heaven defying demon beasts described by the The Devil Emperor of the Burning Heaven.

After gently closing the door, Long Chen did not rush in, but opened another room's door. The little wolf had already become a Goblin Beast, so he could no longer use the Tianhe Dan. The Tianhe Dan in this room all belonged to Long Chen.

Opening the door, suddenly a vast amount of star power almost flipped Long Chen out. Fortunately, the Tianhe Dan's power was mild. Long Chen steadied himself and looked around, only to see that in the middle of the room, a dense and orderly crowd of Tianhe Dan s were placed. Countless Tianhe Dan s formed together and instantly turned the room into a starry sky.

"I'm going to be rich this time!" Long Chen immediately beamed a bright smile, there was no doubt that this was the most treasures he had at the moment. To him, all the divine jade he had previously acquired, could only be considered fart in front of these Tianhe Dan, and all of the divine jade added together might not even have the price of two Tianhe Dan.

Long Chen knew, that even if it was Azure Dragon Ancestor, he would not have more than ten Tianhe Dan. And all the Tianhe Dan in this room were in a pile

"If Ling Xi was here, she would definitely kiss me a few times. It's such a pity, I don't know when this girl would wake up, but at that time, I'll definitely show her father's wealth right away, haha ... " Thinking to this point, Long Chen was extremely pleased. He counted the Tianhe Dan while putting them away, and it took a total of half an hour before the room became empty. All of the Tianhe Dan had already entered Long Chen's pockets.

"There's a total of more than 2000 Tianhe Dan s. Little Wolf once said, normal 4th level of the Milky Way Realm's wealth is around a thousand or so, wouldn't I be richer than normal 4th level of the Milky Way Realm? With these Tianhe Dan, as long as I enter the Great Perfection of the Heavenly Core, I can definitely advance to the Milky Way Realm in a short amount of time! "

The opportunity to become stronger was right in front of him. Long Chen was extremely excited.

On this trip to Burning Sky Secret Realm, he and Mo Xiaolang had become the biggest winners. Although Mo Xiaolang had lost his physical body and became a Goblin Beast, he still obtained heaven opposing talents, and it was hard to say if this was a blessing or a curse, but Long Chen had obtained an even bigger inheritance from the The Devil Emperor of the Burning Heaven, and he had advanced to the early stage of Heavenly Core. This could only be considered a small matter, but the gains he had gotten, were divided into three types.

The first, was Earth Stage Medium's defensive technique, Nine Revolving Fire Shield. Defensive techniques were relatively rare, even rarer than movement techniques. Normal defensive techniques were of a higher level, such as this Nine Revolving Fire Shield. The battle skills of the Earth Stage Medium were on the same level as the last two moves of the Azure Dragon Battle Method.

The second, was obviously these two thousand Tianhe Dan. Ordinary 4th level of the Milky Way Realm, wouldn't have such wealth. With these two thousand Tianhe Dan, not only would Long Chen be able to steadily enter the Milky Way Realm, he would also be able to forget about wealth for a long period of time.

The third, was divine fire clone. Long Chen shockingly discovered that this was actually an even rarer battle skill. The rarity of it was even higher than that of the life combat technique, so much so that many people had never heard of this kind of battle skill. And divine fire clone, was the ability of high-rank earth class!

This was the highest level battle skill that Long Chen possessed, and it was even higher than the Azure Dragon Battle Method.

Long Chen had a rough look at the usage of divine fire clone. While he was training, he could condense his Innate Qi into a fire seed and store it in his acupuncture points. When he met an enemy, he could release the fire seed and create a clone made of flames.

This clone was completely controlled by Long Chen's will and could assist him in his attacks. The strength of divine fire clone was a fifth of Long Chen's strength, so of course the direction of his endurance was a lot weaker than a real warrior. On the other hand, the number of divine fire clone that formed in the quantity direction was related to the level of cultivation method and Innate Qi.

After mastering the first stage, he would be able to get one clone. After mastering the second stage, he would be able to get five clones, and the third stage would have twenty-five clones. And at the last stage, a total of one hundred and twenty-five divine fire clone could be formed!

Long Chen reckoned that the divine fire clone that Yan Danqing obtained could at most cultivate to the third stage! The third stage was still alright, as there were twenty-five divine fire clone with a fifth of their combat power. Although they were heaven defying, they were still in the range to bear it.

After taking care of the Tianhe Dan, Long Chen flipped through the pages of the divine fire clone. At this time, the little wolf was lying on his chest, carefully reading the secret manual.

"Little Wolf, you can cultivate too?" Long Chen casually asked.

He did not expect Mo Xiaolang to actually nod his head, and then shake it, revealing a vexed expression.

"You mean you can't be sure, but it's possible?" Long Chen said in surprise.

Mo Xiaolang nodded.

"This will be interesting. When the time comes, let's see who among us brothers can cultivate faster." Long Chen laughed.

The divine fire clones, this sacred art was indeed a good thing. Long Chen believed that if he could use all of the divine fire clone's strength, it would definitely be extremely terrifying.

With one hundred and twenty-five divine fire clones attacking at once, who could stop them?

Overall, Long Chen's harvest this time, was extremely huge!

Now, there was only one thing left to do.

After Long Chen collected the Tianhe Dan, and casually swept through them, he placed the secret scripture into his Qiankun bag. Then, he looked at Mo Xiaolang seriously and asked: "Little wolf, are you sure you want to try the Nine Hell Devil Ancestral Flame? You know, this might very well take your life. "

The wolf cub hesitated for a moment, but still nodded his head. He understood that this was a great opportunity for him. Whether he could grasp onto it or not would be up to him.

The little wolf was controlling the Sun Devouring Demonic Wolf's body now, so it must understand the Sun Devouring Demonic Wolf's abilities even more. Long Chen saw that he was insisting and did not say anymore. He pushed open the small, light-gold door of the room and headed deeper into the passageway.

The Devil Emperor of the Burning Heaven had said that the deepest part of this path was the Nine Hell Devil Ancestral Fire.

Amongst all the Ancestral Flames, the Nine Hell Devil Ancestral Fire was also a very special existence. It was also known as the Hellfire! The Nine Netherworld was hell, and it was cold to the extreme, so even when the Nine Netherworld Devil Ancestral Fire looked at it, it felt like it was extremely cold. However, if one looked at it from the outside, then they would be completely wrong. If one were to talk about the power of incineration, then amongst all the Ancestral Flames, the Nine Hell Devil Ancestral Flame was definitely an existence at the very top!

Of course, what the wolf cub was currently devouring was only a clone of the Nether Demon Ancestral Fire, which was only a few parts of it.

The further he went in, the colder he felt. He knew that this was the appearance of the Nine Hell Devil Ancestral Fire's cold exterior, and in reality, this cold was caused by the heat in the air, and had already been completely absorbed by the Nine Hell Devil Ancestral Flame.

The current Nine Serenities Demon Ancestral Fire should still be in deep sleep, and Long Chen possessed a third level Thunder Flame Battle Physique, which was why he was able to go so far. After following the wolf cub for a while, the tunnel disappeared and a cave appeared in front of them. Long Chen looked carefully and noticed that the cave was covered with a thick layer of black ice. Everywhere he looked, it was dark and dark, and the entire place was covered with black ice.

A gust of cold air pounced towards Long Chen, causing him to shiver from the cold. He had no choice but to circulate his true energy throughout his entire body, causing him to feel slightly better.

"Fuck, what kind of Ancestral Fire is this?! It's actually so cold!"

Although he knew that being cold was just an illusion, Long Chen still complained.

"Black ice?" Long Chen stomped his foot lightly on the black ice, discovering that it was extremely hard. It must be very thick, and had existed for a long time.

"The Nine Serenities Demon Ancestral Fire is in front of us?"

Chapter 259 - Devouring Ancestral Fire

With regards to devouring the Netherworld Devil Ancestral Flame, Long Chen was unable to help. All he could do was rely on Little Wolf himself. Even if it was only the little wolf's own matters, Long Chen was still a little nervous. After all, this concerned the little wolf's life.

The Devil Emperor of the Burning Heaven said that even the strongest experts of the Ten Great Saints had died under the backlash of the Nefarious Spectral Primordial Fire. The little wolf was currently only at the Earth Rank and if not for the bizarre talent of the Sun Devouring Demonic Wolf, it would be impossible to deal with the Nefarious Spectral Demon Ancestral Fire.

At this time, the little wolf jumped out of Long Chen's embrace and landed on the ground. It turned around and glanced at Long Chen, revealing a resolute expression.

Long Chen also followed along. Even if he couldn't help anything, he had to watch the little wolf devour him first before he felt more at ease.

After walking for about a hundred meters, Long Chen could feel that his body was already covered with a layer of frost. If not for the True Qi beneath his body, he would have been frozen stiff by now.

Long Chen's physique was much stronger than ordinary people, and even with this kind of physique, there was no need to talk about other people.

"Ancestral Fire, Ancestral Dragon, these are all the most ancient and most terrifying things. That drop of inherited blood essence of mine, if it's an Primordial Blood Spirit Beast ..." Long Chen thought of the heaven defying abilities of Blood Refinement, Dragon Soul Transformation, and the intense feeling in his head. He also started to believe that what he had in his sea of consciousness, should be the Primordial Blood Spirit Dragon, the Slaughter and Bloody Ancestral Dragon!

"That's right, if Little Wolf can obtain the Ancestral Fire, then I should have a ancestral dragon blood. Only then, would I be able to compare to him. Furthermore, Ten Great Ancestor Dragon, would I be able to obtain even more ancestral dragon-inherited blood?" Long Chen thought excitedly in his heart. In fact, he knew that if the ancestral dragon blood was very powerful, then he had something even more powerful, and that was the Mysterious Dragon Jade. This was because it had suppressed the ancestral dragon's blood essence.

Just as Long Chen was deep in thought, there was suddenly an opening in front of him. This was a subterranean space with a diameter of around a hundred meters, and its surroundings were thick and solid black colored ice. In the center of subterranean space, there was a platform that looked like an altar. The platform was pitch-black and there were many strange symbols on it.

About two meters above the altar floated a flame about the size of a palm. It was a mass of pitch-black flames, calmly burning just like the flames in a kerosene lamp. The flames pulsed very slowly.

Long Chen had already seen quite a bit of the pitch-black flames in the outside world, but he couldn't feel the flames in front of him at all. It was just like when he was facing the blood essence of an Primordial Blood Spirit Dragon back then, a wave of desolate and heavy ancient aura covered the area, and Long Chen's gaze sank deeply into the black flames. In that instant, he felt as if he could see a world that had just opened from the flames.

Long Chen seemed to see a hell, with corpses everywhere, and blood everywhere. This was the scene of a hell, and in the sky above this hell, a demonic black flame was blazing. This flame was incomparably huge, and instantly filled the entire sky, turning the sky into an inverted black flame. Countless tiny flames, like rain, filled the entire world, and then, it completely destroyed it.

"This is the Nine Serenities Demon Ancestral Fire?" Long Chen suddenly regained his senses, and looked at the black flames above the altar in shock. The black coloured flames appeared ordinary, but they were also not ordinary.

His breathing gradually grew heavier, and his body also slowly expanded. Very quickly, he regained his battle status as a Moon Devouring Demonic Wolf, with his four limbs on the ground. He stood beside the Nine Hell Devil Ancestral Flame, his tall back almost reaching the top of the cave.

From the moment he entered, Long Chen had roughly known from the speed of the flames jumping about the Nether Demon Ancestral Fire that it was sleeping, but the little wolf's approach ought to have awakened it. At this moment, the flames jumping about in the Nether Demon Ancestral Fire was actually slowly increasing in speed, and Long Chen had also felt that his surroundings had become even colder.

"Little Wolf, hurry up and make your move." Long Chen knew that the more the opponent slept, the greater the chances of success.

He did not hesitate and directly opened his mouth, then, a strange feeling immediately appeared in the vicinity of Long Chen. Long Chen was very familiar with this feeling, even when the Devouring Blood Realm and Spirit Devouring Demon Pupil were in use, he still felt this feeling more or less like this.

A black whirlpool the size of a face appeared in the Sun Devouring Demonic Wolf's mouth, suddenly a strange suction force acted on the subterranean space. This should be the Sun Devouring Demonic Wolf's powerful innate skill of devouring. It was similarly Devouring, but it was different from the path Long Chen took, however, it had the same effect. What Long Chen swallowed was blood, thus refining blood into Qi, but Mo Xiaolang was able to devour flames, and even all of the fire-related things, for his own use.

When this black vortex appeared, the Nefarious Spectral Devil Ancestral Fire shook for a moment and then headed towards the Sun Devouring Demonic Wolf s. During the process, the black flames jumped even faster and faster, and when it approached the little wolf's snout, the Nefarious Spectral Devil Ancestral Fire seemed to completely wake up!

Instantly, a sharp cry that pierced the soul rang out in Long Chen's sea of consciousness, directly affecting his soul, causing Long Chen to feel a sharp pain in his head. What he did not expect was that the Nether Demon Ancestral Flame was actually like a real person, and even had the power to frighten the soul.

At the same time, the temperature in the surrounding area plummeted.

Under such circumstances, Long Chen could only retreat. He was worried for the wolf cub's safety, but he was powerless. Thus, he could only shout at the wolf cub: "You must not show off!"

He knew that it was impossible for the little wolf to retreat. This was a matter that would determine his own fate, and it was inconvenient for Long Chen to interfere. He knew that if he hadn't escaped in time, he would have been frozen to death.

Although it was just a clone, the Netherworld Devil Ancestral Fire was still quite terrifying. The extreme was the opposite, as it was extremely cold. If one did not touch it, ordinary people would feel that the Nether Demon Ancestral Fire was cold. If they did touch it, they would definitely be burned to death in the blink of an eye!

"Little Wolf, I can only let this little b * stard protect you."

Long Chen sighed, he forcefully channeled his Innate Qi and waited in the distance. If Mo Xiaolang succeeded, he would give him a pleasant surprise.

In fact, Long Chen felt that the chances of success for something that even the The Devil Emperor of the Burning Heaven would support was very high. After all, Sun Devouring Demonic Wolf was a terrifying demon beast that even the The Devil Emperor of the Burning Heaven would think of as.

In the beginning, Long Chen was still very nervous, but after two hours, he found that the temperature of the air had started to rise. This was a great omen.

He quickly rushed into the depths of the cave, and when he looked closer, he saw that the Nine Serenities Demon Ancestral Fire had disappeared, while the little wolf was lying cross-legged in the middle of the black ice with its eyes closed. At this time, its body was covered in burning black flames, and the flames looked very cold, a chill was emitting from them, and there was no doubt that this was the Nine Serenities Demon Ancestral Flame.

"The wolf cub succeeded?" Long Chen immediately revealed an excited expression. He still could not confirm it, so he continued to wait.

After another two hours, the surrounding temperature had already dropped to about the same temperature as before. At this time, the black flames on the wolf cub's body had already completely concealed themselves. One could see that the wounds the Sun Devouring Demonic Wolf had received had all disappeared one by one. He seemed to have returned to her original state, becoming even more powerful.

Finally, the little wolf opened its eyes. The instant he opened its eyes, Long Chen saw that black, cold flames were burning within them. He suddenly felt a throbbing in his heart.

After seeing Long Chen, the wolf cub was clearly overjoyed. He probably despised the current form of Long Chen's body, as it was just too big, hence it immediately took the form of a small, cute cub and ran in front of Long Chen. It lifted its head and looked at Long Chen eagerly.

Whether it was his demeanor or actions, he was very cute, practically making Long Chen extremely adorable. However, it was not on purpose for the little wolf to run away happily, it was purely because he was not proficient in controlling his body.

"Let's talk as we walk." Seeing that the little wolf had already recovered, Long Chen didn't hold back at all and directly grabbed him by the neck, before lifting him up and rushing outside. It was obvious that due to the disappearance of the Nether Demon Ancestral Flame, the surrounding temperature had already risen, and the ice that had persisted for countless of years was beginning to melt.

"Little Wolf, have you already consumed the Nine Hell Devil Ancestral Fire?" Long Chen asked somewhat excitedly.

He nodded, then shook his head.

did not know what Xiao Lang meant, so he was speechless in his heart. At this time, he could only rack his brain and guess, if he accidentally got the answer correct, Xiao Lang could confirm it with a nod of his head.

At this moment, the little wolf opened its mouth and could see a cold flame dancing on its tongue. This was the even smaller Nine Hell Devil Ancestral Fire. This flame was completely different from the Nine Serenities Devil Ancestral Flame that had just awoken. The flame from before was violent and cruel, extremely destructive, and now, the Nine Serenities Devil Ancestral Flame was jumping around on the little wolf's tongue, a little mischievous. It was like a newborn child under the control of the wolf cub, moving its body left and right.

The wolf cub closed his mouth, and the Nefarious Spectral Demon Ancestral Fire disappeared.

"I understand now. You didn't devour it, turning it into your own energy, but instead took control of the Nine Hell Devil Ancestral Fire." With the goal of making him recognize me as his master, although I won't be able to increase my strength dramatically in a short period of time, there will be endless benefits in the future. " Long Chen guessed.

The wolf cub nodded, his eyes squinted into the shape of crescent moons.

"F * ck, stop acting cute in front of me!" Long Chen scolded.

Mo Xiaolang's face was immediately filled with innocence.

Chapter 260 - The Losing Dog!

Long Chen's current mood was so good that it could no longer be described with words.

After interacting with Mo Xiaolang for a period of time, Long Chen could roughly guess his intentions from his actions and actions. Although this was very tiring, Long Chen, who was used to living in the midst of hardship, enjoyed it very much.

The matter of him turning into a Sun Devouring Demonic Wolf, to Mo Xiaolang, there were advantages and disadvantages. As for how he would measure it, that would still be up to him. From then on, he lost his human identity, lost his human language. In the world of others, he was as good as dead. However, he had obtained the body of the heaven defying beast called the Sun Devouring Demonic Wolf, and he had even devoured the Ancestral Fire — the Nine Hell Devil Ancestral Flame.

While walking along this long path, Long Chen had already figured out Xiao Lang's current situation through his guesses. The Sun Devouring Demonic Wolf before, should have been around Earth Grade Three, but Mo Xiaolang should have encountered an accident while refining its beast spirit. Adding the injuries on it, it had lost some of its true energy, and it should be around the second level of Earth Stage now, which was equivalent to Second Stage of the Milky Way Realm. In other words, if Long Chen were to fight with Little Wolf now, he would definitely be instantly killed.

The current Little Wolf was in complete control of the Nether Demon Ancestral Fire. It was hard to imagine just how much pain and suffering his opponents would experience.

Of course, the current Little Wolf wasn't completely heaven-defying. He could control the Nine Serenities Demon Ancestral Fire, but he couldn't control it all. More of the Ancestral Fire existed in his body, in his limbs and bones. As for the Nine Serenities Devil Ancestral Fire that the little wolf was currently controlling, it was the equivalent of a diluted version of the Ancestral Fire. Moreover, it was a true clone of the Nine Serenities Devil Ancestral Fire.

At the very least, he was controlling the Sun Devouring Demonic Wolf's body and playing around quite happily. However, Long Chen was still able to notice a look of confusion and pain in his eyes. From man to beast, without personally experiencing it, it was difficult to know what kind of torture one's heart was going to suffer.

"Wolf, let's go. Go out and see exactly how many things Yan Danqing has obtained, haha," Long Chen laughed lightly.

If we do not talk about running away from Xiao Lang, on this trip to Burning Sky Secret Realm, Long Chen will be the biggest winner. Of course, what he won no one could see, in the eyes of others, was Long Chen losing his brother, was purely a tragedy, and Yan Danqing seizing the opportunity to snatch the Mysterious Iron Plate, was the real powerful existence.

After recovering from his injuries, the wolf cub was no longer willing to be carried by Long Chen. His pocket-sized body fell to the ground as he ran at a high speed, following Long Chen's footsteps. Because he was still not familiar with the place, he was still struggling to learn running, causing Long Chen to burst out laughing.

The wolf cub rolled his eyes at him and continued to run around happily ...

Long Chen was a bit speechless. At this time, they had already walked out of the tunnel. He opened his mouth, and the flame in front of his eyes suddenly shook. Then, like a torrent, it rushed towards him and was then swallowed into his mouth. The flame with a radius of several hundred meters was actually almost completely engulfed by him in just a few breaths of time.

"Wolf, leave some flames to block this entrance." Long Chen instructed in a low voice.

He knew Long Chen's goal. This time Long Chen had gained so much, he did not want others to know about it yet.

After swallowing so much flame, the wolf cub merely let out a burp, but his strength didn't seem to have increased by much. Long Chen thought it was strange that the Sun Devouring Demonic Wolf did not engulf the sea of fire earlier.

Even though the temperature of the flame was very high ...

Long Chen had a general understanding of the Sun Devouring Demonic Wolf's strength, and it was not easy to raise. The requirements for fire-type items must be very high.

The sea of fire beside them had suddenly disappeared by half. This caused everyone in the plaza to be stunned.

At this time, in the plaza, there were a total of three groups of people, two of them had their heads down and faces filled with grief. They were the six people from Lingwu Family and the other five from Morning Star Merchant Union. Among them, the people from Lingwu Family were even more miserable. On the other side of the Beast Soul Hall, however, wild laughter rang out from time to time. There were a total of seven people, surrounding Yan Danqing in the middle, constantly praising him and flattering him.

"From today onwards, the number one family in the Source Spirit City is no longer some Lingwu Family, but my Yuandi City! Master Yuan Jun, this was all thanks to you alone. It was precisely because of your intelligence and wisdom, that you received the inheritance of the The Devil Emperor of the Burning Heaven! "

They spoke without restraint, not caring about the ashen expressions of Lingwu Family and the rest.

At this time, Dongfang Tianxuan and Ximen Xiaoji were gathered together. They had at least mastered Heavenly Core and were considered strong, especially the Ximen Xiaoji and the White Tiger Holy Blade, which were not weaker than normal Great Perfection of the Heavenly Core.

"Tianxuan, they've really gone too far. I can't hold it in any longer!" Ximen Xiaoji was almost forced to tears.

"Endure it for a little. There are still a few days before the Burning Sky Secret Realm's gate opens again!"

"Now that Yan Danqing obtained the inheritance, he should be arrogant to begin with. We are dogs who have lost our homes, we can only be humiliated," Dongfang Tianxuan said powerlessly.

"Why? Hadn't our Lingwu Family always been the strongest? Why did you lose so badly this time? " Ximen Xiaoji was a little unwilling.

Take Long Chen for example, we were once much stronger than him, and now he isn't even stronger than us! If he doesn't improve, he will be surpassed by others, and our Lingwu Family has been enjoying too much during this period of time. Dongfang Tianxuan said helplessly.

"Don't mention Long Chen and Mo Xiaolang to me anymore. They had once confidently said that if they could obtain the inheritance, they would definitely lose miserably at Yan Danqing's hands. They didn't know where they were either, yet the forefathers actually trusted these two trash. This was truly unbelievable! Now that's good, there's nothing left, and Lingwu Family is done for too! " Ximen Xiaoji already felt too ashamed to go back to see her own family.

When it came to Long Chen, Dongfang Tianxuan was startled, and said: "I heard that Mo Xiaolang was killed by an Earth Rank demon wolf, and Yan Danqing just took advantage of it. Long Chen even defeated Li Ziling, and they are indeed very powerful, but they do not have Yan Danqing's temperament, so that's why they lost so miserably.

In Dongfang Tianxuan's heart, it seemed that this abnormal guy, Long Chen, had never lost all the way until he rose to power, and now, he had fallen into Yan Danqing's hands.

"I thought he could continue creating miracles," Dongfang Tianxuan said with regret.

Right at this moment, the sea of flames nearby shrunk rapidly. Everyone was alarmed as they all looked over in alert and prepared to do battle.

"Who is it?" Yan Danqing's gaze focused as he pushed away the disciple who was flattering him, and looked towards the direction of the shrinking sea of fire.

In everyone's line of sight, the silhouette of a man and a wolf gradually appeared in the sea of fire. Seeing that it was Long Chen and the Sun Devouring Demonic Wolf, everyone's heart trembled, and immediately retreated a few steps, their faces turning pale white.

They were only slightly shocked that Long Chen could still appear. The problem was, why did the Sun Devouring Demonic Wolf appear together with Long Chen?

A majority of the people knew just how powerful the Sun Devouring Demonic Wolf was. At this moment, when they suddenly saw that the Sun Devouring Demonic Wolf was still here, everyone trembled. Even the strongest Yan Danqing retreated a few steps in panic, as his body released a strong aura.

Seeing their silent expressions, Long Chen laughed in his heart. He said softly, "Little Wolf, go play at the side. Don't let them see that you are related to me."

The little wolf understood what Long Chen meant. Yan Danqing had picked up such a big bargain in front of him, Long Chen would definitely not let him take it for free. Thus, he stopped his steps and directly laid down on the ground at the edge of the mausoleum, closing his eyes and faking sleep. In fact, he also needed time to digest the new Nine Hell Devil Ancestral Fire.

The Sun Devouring Demonic Wolf had been injured before, and other than the people from the Lingwu Family, they had all seen it with their own eyes. Furthermore, the current Sun Devouring Demonic Wolf seemed to have no way to maintain his battle form at all, becoming so pocket-sized.

Although there were few demonic beasts that could change into a human body, they were not none. No one was surprised that the Sun Devouring Demonic Wolf could transform into a human body.

The Sun Devouring Demonic Wolf seemed to not have moved, thus everyone turned to look at Long Chen. After being with the Sun Devouring Demonic Wolf for so long, Long Chen seemed to be fine?

As for Long Chen, everyone was filled with doubts.

To Yan Danqing, Mo Xiaolang was already dead, and Long Chen had defeated Li Ziling, so he could already be considered as the expert closest to him. Towards this kind of warrior who could pose a threat to him, Yan Danqing naturally held hostility.

At this time, Long Chen had arrived at the place where the Lingwu Family was gathered at. Dongfang Tianxuan and the rest sized him up, but because Long Chen did not receive the inheritance, their faces were unfriendly.

"He boasted so much back then, but now he's nothing more than a stray dog." Ximen Xiaoji muttered. As for the others, they didn't dare say anything to Long Chen. After all, to them, the scene of Long Chen killing Dong Fang Tian Chen was still vivid in their minds.

"Who said I'm a stray dog?" Long Chen laughed and said: "The true battle has yet to begin."

After saying that, he took out the green dragon halberd, pointed at Yan Danqing, and said: "This handsome brother, I wonder if you have the guts to fight me once, and draw a perfect end to this trip to Burning Sky Secret Realm?"

Hearing Long Chen's words, the number one expert of the young generation in Source Spirit City, Yan Danqing, smiled lightly.

"How reckless."
