

War God 2531

Chapter 2531 - Heaven and Earth Apocalypse

If they fought over the flames like this, perhaps it would be impossible for them to win. The boundless flames came from the mouth of the Magic Star Seal, and in the end, only caused the Magic Star Seal to collapse.

However, at this time, because of Long Chen's injury, Mo Xiaolang had already lost some of his consciousness. Even if he wasn't controlled, he was still a demon. As long as he was a demon, he would fall into this crazed state.

He could not bear Long Chen's severe injuries in order to protect himself!

At the moment, in his eyes, the explosive flame devil was as hateful as one could imagine.

If possible, he was willing to pay the price of his life to kill this Explosive Flame Demon. But the problem was that even so, the difference in strength was still quite large, and if not for the Magic Star Seal, it would have been completely annihilated by the Explosive Flame Demon's attack!

Long Chen had still not recovered, his footsteps were still very heavy, his entire body in a state of exhaustion and serious injury. The Explosive Flame Demon in front of him was extremely berserk. Under his bombardment and inhalation, the entire Magic Star Seal continued to tremble, and before long, it would completely collapse!

"Chen Er, Xi Er said you are heavily injured, what happened!"

Inside the Divine Palace, the creature that looked like Yang You asked Long Chen anxiously.

"You guys retreat first. Hiding is a bit difficult!"

Long Chen could only let them be at ease, but in reality, it was more than difficult to deal with. At the very least, until now, Long Chen could no longer see any hope!

The battle between the Sun Devouring Demonic Wolf and the Explosive Flame Devil was very chaotic. The flames engulfed the heaven and earth, and leaked out from the Magic Star Seal, completely blocking Long Chen's line of sight. He did not know what had happened to Mo Xiaolang at all.

In the sky, the entire Magic Star Seal was violently trembling, and crumbling apart!

BOOM!

In one area, the black vortex was like a piece of glass, with a huge crack appearing on its surface.

"You're not dead yet? Let me show you personally how the Magic Star Seal collapsed. Our Primordial Demons, in order to wait for this moment, has already waited for ten million years, a hatred of ten million years! "

They wanted revenge!

Revenge against the gods!

Long Chen didn't know where the gods were, but with this mission of the Ancient Giant Demons, before they destroyed the Dragon Sacrifice Continent, they definitely wouldn't let the gods know that they had awoken and escaped. So praying for the gods to come back and help wasn't a very likely possibility.

The Ancient Giant Demons never treated Long Chen and all the mortal spirits as their opponents, and in the eyes of the Primordial Demons, they were just two ants obstructing the way. In the eyes of the Explosive Flame Demon, they were also no different from ants, so he was too lazy to control Long Chen at this moment.

"It's a pity that you can't see the moment of our revenge! That was the moment we longed for thousands of years! "

The Explosive Blaze Demon laughed sinisterly.

At this time, he had already engulfed many of the Magic Star Seal's flames, Long Chen did not know how Mo Xiaolang was doing right now. He really wanted to defeat the Explosive Blaze Demon at this moment, and control him like how the Silent Demon controls him, but the Explosive Flame Demon had already reached Perfection!

His desire to fight more than 10,000 times was firmly suppressed by the Explosive Blazing Demon Flames. In the midst of it all, the immense destructive devil fire elemental energy was suppressed, and

after the Explosive Flame Demon devoured the flames, it covered the sky and covered the earth, unable to resist!

RUU...!

Long Chen didn't even know where Mo Xiaolang had gone to!

It was very possible that he had already been killed by the Explosive Blaze Demon!

"Damn it!"

Even when he was facing Spirit King and soul-controlling demon, he had never been in such a sorry state. Not only was his body defeated, his heart was also in a state of defeat.

The Magic Star Seal was about to break!

Long Chen clearly knew what would happen. He had imagined that scene millions of times in his heart.

"Heh heh!"

At this time, even his breathing was so heavy. Although he didn't have any hope, he still carried his heavily injured body and rushed towards the Explosive Flame Demon!

"Too late."

One of them charged towards Long Chen while the others charged towards the Magic Star Seal in the sky. This was the Fire Seed condensed after he had devoured the flames of the Magic Star Seal, which was one of the abilities of the Explosive Flame Demon.

Long Chen could only fight against the speed of the explosive spark.

Because there was a certain distance between the two of them, when Long Chen was in a state of chaos, he was able to dodge the explosive spark. However, the shockwave from the explosion still caused him to lose his balance, and he crashed to the ground! At this moment, unless he had the ability to resist the explosions of dozens of Fire Elementals, this would be impossible!

Even if they were both Divine Spirit Realm beings, it was probably impossible for them to do this.

Primordial Demons had been preparing for too long for this moment. It wasn't because Long Chen was too weak, but because their strength had reached a level that far surpassed Long Chen's. If Long Chen was given a certain time, he definitely would not be like this.

Dozens of fire seeds that could not be stopped struck the Magic Star Seal!

At that moment, an unprecedented explosion and shockwave occurred, and Long Chen was almost blown away by the shockwave. It was possible that at this time, the super planet closest to the devil star in the entire chaotic star field had exploded, and other than the Star of Destiny, the explosion of the Magic Star Seal caused the entire chaotic star field to be completely destroyed!

The loud explosion and the terrifying aftermath directly threw Long Chen into the Demon Star, causing him to be drenched in blood. He ignored his injuries and stared wide-eyed, as he clearly understood that the Magic Star Seal s had been broken!

Ancient Giant Demon, break free!

Millions of lives would immediately become their food. The entire Dragon Sacrifice World, which had existed for countless years, Long Chen's homeland, and all the people he loved and protected would be destroyed!

Destruction, destruction!

A hopeless destruction!

The only possibility was that the disappeared gods had descended. However, this was simply an impossible task, and Long Chen had never expected such an outcome.

"Should I give up like this?"

Long Chen rolled over his bloodied body. He saw that pitch-black vortex — — The Magic Star Seal had shattered, and the entire world was collapsing. He heard the Explosive Flame Demon's excited breathing and its howls, and he heard the entire Demon Star Ocean trembling!

From today onwards, they would be completely free.

The revenge they had been imprisoned for thousands of years would definitely be incomparably fierce and brutal. They would not show any mercy to any living creature.

RUU...!

In that moment, Long Chen took a deep breath. Even if he was unwilling to, even if he was unwilling, but he had no choice but to admit that this time, he had really lost.

So thorough.

This feeling was simply tearing his heart out, but Long Chen knew that what he had to endure now was only the beginning. Once he witnessed the destruction of everything, as long as he lived for a long period of time, his pain would be immense.

This explosion was simply too big.

Following Long Chen's instructions, Yang You brought everyone and left chaotic star field far away. The explosion had followed after them, causing everyone to turn pale in fright. They watched helplessly as planets were engulfed one after another.

"The seal has been broken!"

When everyone stood at the outskirts of chaotic star field and saw that the ten great super planets were almost destroyed, their bodies stiffened as if they had died. Everyone was trembling, their minds a blank.

"Brother Chen!"

She knew that Long Chen was not dead yet, but now that the seal on the devil star had been broken, and all hope had been lost, even if Long Chen was still alive, what could he possibly do?

At the same time as she controlled Ling Xi, she was also controlling herself. She knew that at this terrifying moment, if she were to bring Ling Xi in again, she would only be adding to the chaos.

"Aunt You!"

If it was in the past, she would definitely cry to see Long Chen for the last time. But now, she knew that she could not do this, and a person has to mature somehow, she was also about to become a mother, and now, her lower abdomen was bulging slightly, proving that she was no longer the innocent little girl.

"Persist." Yang You only said two words.

Everyone stared at the depths of the devil star with widened eyes. In their imaginations, perhaps in the next moment, dozens of Immemorial Giant Demons would rush out and completely drown them!

"Our Immortal God Realm and Dragon Sacrifice Continent, legacies that have existed for countless years, are about to be destroyed today."

"Today, we will lose everything — our homes, our legacies, our loved ones."

"I'm afraid that Dragon Sacrifice World will not be able to escape this calamity. "A calamity ... the heavens are trying to destroy us!"

The supreme experts murmured to themselves, and they couldn't help but feel pain. However, even though this was the case, they did not leave this place. To them, they were still old. Sooner or later, they would all die here.

Despair filled the world at this moment.

Not only was the Immortal God Realm, even the Dragon Sacrifice Continent was affected by the explosion. Even the outermost land of the Dragon Sacrifice Continent was extremely weak, and had even began to accelerate, causing hundreds of millions of lives to be destroyed. However, they did not even know why they died.

A large amount of land and space collapsed, flesh and blood was torn apart, miserable cries resounded in the air. To the people at the lowest level of Dragon Sacrifice Continent, this was equivalent to the arrival of doomsday. Even Long Chen's hometown, the Divine Dragon Nation he founded, suffered a natural disaster that caused hundreds of millions to lose their lives in the process.

Meanwhile, Long Chen who was still in the Demon Star, stood up in despair and rushed into the sky.

Chapter 2532 - Sovereign Divine Emperor Halberd

With the Magic Star Seal broken, Mo Xiaolang was at a loss of what to do. The Primordial Demons was about to be born, and all the living beings in the world were about to be reduced to food in their stomachs.

Long Chen who was still on Demon Star seemed to not be able to do it.

Even if he could kill the Explosive Flame Devil, he would be unable to do anything right now. His best option was to secretly escape. Once he became strong in the future, he would have the opportunity to take revenge.

But it wasn't him.

In his dictionary, there had never been a word like life. If he couldn't protect so many lives and this world, then even if he succeeded in his revenge, it would be meaningless.

Naturally, there would be people who would continue the inheritance. There was no need for him to do so.

His mission was to die in battle here. If Mo Xiaolang died now, he definitely could not leave him alone.

His serious injury had caused him to be unable to maintain his Divine Dragon Body and now that he had transformed into his human form, he looked even smaller compared to before on this demon planet.

At this moment, many memories flashed through his mind. Starting from the journey to White Yang Town, after knowing so many cute people, this one trillion was not just a number. Every single one of them was real, and Long Chen could clearly feel their lives and thoughts.

It was a wonderful feeling, as if he were possessed by a trillion people, experiencing their lives, their emotions, and their imaginative thoughts. Everyone is special and unique. Regardless of good or evil, they all have their own thoughts and thoughts. It is very wonderful.

In Long Chen's opinion, these one trillion had never been a number, but real lives. Each of their lives, were precious and natural enough to move Long Chen.

He had walked a small path, but it was as if he had completed the lives of a trillion people. This caused his soul to transcend the realm of Transcendence, reaching a whole new level.

"These people, this world, should not be destroyed."

"Destroyer should be punished severely."

This was the belief that he held in his heart.

At this moment, he felt two strong powers, one from Yang You and the other from Ling Xi. This made Long Chen unable to restrain his tears. If Long Chen was going to be destroyed, they would follow as well.

"If the heavens can give me a little bit of hope, I will definitely use 10,000 points of effort to fight for it!"

This was Long Chen's desire. He was currently standing in a completely dark world and he only needed that bit of light before he would use all of his strength. Even if he had to give up his life!

He was not afraid of death, but before he died, he would not be able to do anything. If that was the case, then after he died, he would no longer have the face to see his father.

Perhaps it was because of a strong desire, or perhaps the truth should have been like this. After the Magic Star Seal broke, the Explosive Flame Demon did not have the Magic Star Seal's suppression, and had already broken free from the magic star's internal seal. From there, it rushed out, opened its huge wings, and violently danced above the magic star!

He had created the Magic Star Seal's collapse with his own hands!

Right at this moment, something happened. It was just a small glimmer of light.

BOOM!

Suddenly, golden rays of light enveloped the ground, and in the place where the Magic Star Seal was originally at, the greatest power suddenly appeared. The rays of light engulfed everything, forming a gigantic A web of gold and steel that once again surrounded the entire Demon Star!

On the A web of gold and steel, raging golden flames burned!

Regardless of whether it was the A web of gold and steel or the golden flames, they were both godly beings that only the gods and devils could control! It was even more terrifying than the flame that ignited the flame. Under the suppression of the gold and flames, the excited flame demon suddenly fell to the ground!

"What is this!"

Long Chen saw the light of hope!

It must have been because the gods sealed the Ancient Giant Demons, that there were other arrangements on the Magic Star Seal. Now that the Magic Star Seal had disappeared, the A web of gold and steel and the golden flames appeared, and under the siege of the network and flames, it seemed like a new restriction. Furthermore, Long Chen could feel that the Explosive Flame Demon seemed to have been restrained by something like that!

"Damn it!" It is the Eternal Divine Emperor's — the thing that Di Jun left behind, is the 'Supreme Divine Emperor Halberd'! The Creation Divine Artifact of the death grade! So this is the core of the Magic Star Seal, no wonder it could give us such a huge pressure! But millions of years later, the Magic Star Seal's have all been destroyed, so how could this Creation Divine Weapon suppress me? "

With the divine might of the Infinite Flame Rules, it was able to fight against the A web of gold and steel in the sky. Under the attacks of the Explosive Flame Demons, the A web of gold and steel was only the core of the Magic Star Seal in the past.

Moreover, at this time, the seal within the Demon Star was quickly collapsing. The other ancient Giant Demons were about to appear!

In that short moment, Long Chen's mind quickly turned.

"Supreme Divine Emperor Halberd?" The Creation Divine Artifact of the death grade? death grade, seemed to be the second stage. Compared to the previous Eternal Demon City, it was much stronger. There were nine levels of Creation Divine Equipment. In that case, even a peak Taiji Realm Divine Demon wouldn't necessarily be able to use one of this kind. Furthermore, it is different from the Ancient Devil City. The supreme Divine Emperor Halberd is still in peak condition. "

Of course, this was impossible for it to be his strongest Creation God Equipment. After all, even the God Creation God Equipment of the Demonic God of Shakya was once at the fifth stage of Order-level.

Under the berserk attack of the Explosive Flame Devil, the A web of gold and steel began to crumble. After all, it was only the core of the Magic Star Seal and no one could control it.

BOOM!

Just at this moment, a gigantic divine dragon appeared on the A web of gold and steel. Its body was huge, ten times bigger than Long Chen, its body was wrapped around the entire A web of gold and steel, it was a pure divine dragon, possessing the 'Gold and Fire' attributes, its body burned with a blazing gold divine flame!

This was the Creation Heroic Spirit of the Supreme Divine Emperor Halberd!

What caused Long Chen to be incomparably shocked, was that this was actually a complete dragon soul!

He had seen too many fragments of the Dragon Soul. For example, the green dragon halberd only had a sliver of the Azure Dragon. Dragon Bow and Dragon Bolt also had a portion of Unparalleled Dragon's dragon soul, but they were all broken, incomplete, and basically unconscious. It was impossible for a complete dragon soul to exist in the entire Dragon Sacrifice Continent and the Immortal God Realm!

But now, it had actually appeared in front of Long Chen!

This was a super dragon!

Although they were far from being comparable to Ultimate Dragon and Unparalleled Dragon, in reality, in the The Age of Dragons, super divine dragons generally all had the strength of at least Taiyu Deity.

Terrible. If the Dragon Soul in front of him had a complete physical body, then he would be able to suppress all the powerful divine dragons in the Demon Star.

There was a difference from Dragon Fighter like Long Chen.

The biggest difference should be the source of the dragon souls that the ancient Giant Demons spoke of. Long Chen naturally did not know what the Origin Dragon Soul was.

The appearance of this Divine Dragon made him extremely excited, right now this halberd of the Divine Emperor had no master, he possessed the bloodline of the Ancestral Dragon, so he might have a huge chance of controlling him, and he might even be able to obtain everything he wanted from the clear and complete Dragon Soul!

He saw the birth of a true dawn!

When the Explosive Flames Demon and the supreme Divine Emperor's halberd clashed, he secretly rose into the sky from another direction. If he remembered correctly, this divine dragon had frequently appeared in the records.

Jin and Huo were the rules that he controlled.

At the very least, until now, the Explosive Flame Demon had not been able to destroy the Supreme Divine Emperor Halberd. If not for the special characteristic of the Supreme Divine Emperor Halberd, the gods would not have used it to suppress the Primordial Demons!

Gold, was the momentary ancient gold that was born in the The Age of Dragons. Fire was also a divine object that was born in the The Age of Dragons — — Blazing Wind Golden Flame.

The entangling of the flames, formed a terrifying pressure from the Creation God Equipment, the power of the death grade had descended. Although the Magic Star Seal was broken, the supreme Divine Emperor Halberd was still suppressing the devil star, causing the Primordial Demons to have to take time to climb out from the seal.

This was a golden opportunity!

Long Chen calmed down, even though his heart was shaking, he still stabilized. Very quickly, he found the true God Creation Art!

On top of Zhi Zunxinyanshenglong's head, there was a small dot of light, upon closer look, it was a pure gold halberd, looking extremely tyrannical. This was a double-edged halberd, with a sharp tip, the two blades below were like dragon teeth, the long halberd body was completely gold, like a divine dragon covered in dense gold dragon scales!

Indeed, it had inherited the Emperor's will. It was domineering, unstoppable, and it also inherited the majesty of a divine dragon. The might of a dragon, when combined with the will of a divine dragon and the will of a Divine Emperor, would form the supreme spirit will of the supreme Divine Emperor's halberd!

death grade Creation Divine Artifact, Perfection's Explosive Flame Devil. Even after using all sorts of powers, it was still unable to defeat the opponent!

Long Chen quietly rose up and left from another direction. The Supreme Divine Emperor Halberd did not stop him, but at this time, after Long Chen left the A web of gold and steel, he started heading towards the Supreme Divine Emperor Halberd. His only hope was to control the Supreme Divine Emperor Halberd, otherwise, he would completely lose all hope.

It was the only hope.

Chapter 2533 - Zhi Zunxinyanshenglong

Other than regaining his mind and willpower, his body was still weak. The Explosive Flame Demons had used their flames to attack the Heroic Spirit of the Supreme Divine Emperor Halberd, but had actually forgotten about Long Chen.

Long Chen looked around but did not see Mo Xiaolang. He could not help but feel even more hatred in his heart. It was just that at this time, he could only remain calm, everything was in order to snatch the's halberd away!

He had to endure!

"Bone Devil Flame!"

The Explosive Blaze Demon was still using the power of the laws to fight the Creation Spirit of Creation to the death, wanting to tear apart this Creation God Creation Artifact.

RUU...!

momentary ancient gold s were Zhi Zunxinyanshenglong's bones, thus turning into the Bone Enchantment Devil Flame and the Flaming Wind Golden Flame. But obviously, in the territory of the Supreme Divine Emperor Halberd, the God of Creation was incomparably majestic, and the Bone Enchantment Devil Flame was completely suppressed.

Even the Explosive Flames Demon did not dare to absorb this kind of Flaming Wind Golden Flame.

This was the difference between him and Mo Xiaolang. He had a choice in devouring flames, unlike Mo Xiaolang, and as long as it was a flame, as long as he could endure it, he could digest it!

While the Explosive Blaze Demon was fighting to the death with the supreme Divine Emperor, Long Chen had quietly approached.

"Although the halberd of the is a little more powerful, it is still a Creation God Creation Art after all, and not a real god. If this goes on, I will eventually lose to the Explosive Flame Demon. Currently, the Supreme Divine Emperor Halberd still has the power of many Magic Star Seal remaining. If I use it, I might be able to kill you, Flame Explosion Devil! "

Even if he could not kill it, he had to pull it towards the Death Realm!

From the dragon's tail to the front, they had finally approached Long Chen. This was the most chaotic place of the battle, because the waves generated here were enough to sweep to the outskirts of chaotic star field!

Roar! Roar!

With the Dragon Claw, Dragon Tooth, and Firestorm Golden Flame, combined with the power of a portion of the Magic Star Seal, no matter how many times the Explosive Flame Demon attacked, Zhi Zunxinyanshenglong was completely suppressed by it!

Long Chen hid in the surroundings using the Time Traversing Dragon, waiting for an opportunity!

Just at this moment, Zhi Zunxinyanshenglong's momentary ancient gold's claw directly pierced into the Explosive Flame Demon's throat and tore off a piece of flesh. The other palm directly struck the Explosive Flame Demon, causing it to fall onto the Demon Star, and fresh blood splashed everywhere!

Of course, the Explosive Flame Demon did not die. Instead, he was extremely excited as he roared, "The Creation Heroic Spirit is the Creation Spirit. You don't have a master, so your strength is limited. Now you don't have any strength left!"

Although he was still exhausted, it wouldn't be long before he would be able to recover. Not just that, but at this time, but the fourth ancient Giant Demon had already squeezed his way out of the Demon Star.

"An opportunity!"

At this moment, Long Chen's heart trembled the most.

This was the time when he needed courage the most.

Everything he had to do now was like walking on a tightrope. If he was even the slightest bit careless and made a mistake, he could fall down. Falling to his own death was a small matter.

Without enough courage, ordinary people would not be able to treat him with such calmness.

Weng! *

At this time, Long Chen rushed up to the top of Zhi Zunxinyanshenglong, and it was as if the gigantic dragon soul did not see him, and only until the incomparably majestic, domineering, and intense second stage, the miraculous' death grade 'and supreme Divine Emperor Halberd of Creation, appeared under

Long Chen's feet, did the divine dragon use its enormous might and rumbling voice to speak to Long Chen, "Dragon Fighter, may I ask, what kind of inherited dragon essence blood do you inherit?!"

Long Chen was pleasantly surprised. With incomparable passion, he pleaded, "Senior, the Ancient Giant Demons have already destroyed the Magic Star Seal, the Dragon Sacrifice Continent's one trillion living creatures, the immortal realms ten billion living beings, and the majority of them are descendants of the Divine Dragon. In order to recover their strength, the Ancient Giant Demons must devour all of the Gods, and destroy this world! It is a pity that I am not strong enough, Senior's appearance is the best hope for me. Junior humbly requests that Senior, you can fight alongside me in order to save the life of the people, and protect the inheritance! "

Long Chen thought that he would need to use the Ancestral Dragon Inheritance to suppress him, but now, it seemed that it would be best if he could convince the other party.

Zhi Zunxinyanshenglong's eyes were like a golden sun, emitting a brilliant light. It burned on Long Chen's body, bringing about a terrifying high temperature.

Waves after waves of extremely strong heat waves pounced towards Long Chen.

He did not intend to hurt Long Chen, but rather, he was familiarizing with him.

Zhi Zunxinyanshenglong observed for a while, and said: "That's right, he is very young, his cultivation is not high, but he is actually able to condense a Divine Source Power, possessing the power of faith and will of all living beings, so the level of the inherited blood essence must be far above mine. Furthermore, to be able to obtain the faith of all living beings, his prestige and character must be unparalleled, to be able to defeat the soul-controlling demon and the Silent Demon, his strength is unquestionable, moreover, as a strong warrior, he is brave enough to take risks, this is the most precious quality of my Divine Dragon descendants, but in the end I still have to ask clearly, what kind of inherited blood essence you have inherited."

Hearing his words, Long Chen was ecstatic, he knew that he would be able to get help from the other party if he did not use his true strength to subdue the other party.

He had taken the human form of a heart tempering dragon of the divine way. This was the divine dragon of justice and order. He believed that the other party would approve of it even more. He released the blood and aura of the God Realm's Heart Refining Dragon, allowing Zhi Zunxinyanshenglong to feel it!

"Ugh ..."

This aura caused Zhi Zunxinyanshenglong's expression to suddenly change. He hurriedly retreated, crawled on the ground in front of Long Chen, and said in fear: "So what I inherited was the legacy of the Unparalleled Dragon's blood essence, no wonder it's so strong and flourishing! Although I do not know what kind of divine dragon it is, it is qualified to control me! "

His situation, however, stunned Long Chen for a moment. As a complete dragon soul, he was actually unable to sense the aura of an Ancestral Dragon, and even didn't recognize an Ancestral Dragon?

"Senior, do you remember the matters regarding The Age of Dragons? For example, why did the divine dragon go extinct? Why is the Dragon Sacrifice World collapsing more and more? "

he asked, almost trembling.

He had originally thought that since the Primordial Demons knew, this Divine Dragon should know, then the truth would immediately be revealed. This was also the reason why he was so excited before.

However, Zhi Zunxinyanshenglong said, "Child, even though I am a complete dragon soul, my body has been destroyed. Like a lone soul, I was obtained by the Emperor Jun of the Divine Emperor and was refined to become the Creation Spirit of the Supreme Divine Emperor's halberd. Moreover, this mystery is a taboo subject to certain mysterious existences. It would be best if he didn't bring it up too often, otherwise it will lead to a fatal disaster! "

The other party's words caused Long Chen to deeply understand that even though he was already an Innate Ranker of the Dragon Sacrifice World, this part of the starry sky was filled with endless secrets. Just like those mysterious existences that the other party had mentioned, just what were they?

"My father followed the God Dragon Extinction Mystery, but he was suddenly killed. Could it be that mysterious existence he spoke of?"

Long Chen thought in shock.

The divine dragon replied, "I also don't know what this mysterious existence is. Millions of years ago, Di Jun had sealed me in this place. I have already forgotten many things. He didn't use me much, so I don't

know much. "Child, the most important thing right now is for us to join hands. If you continue to hesitate, there will be no chance at all."

Long Chen woke up from his stupor.

Zhi Zunxinyanshenglong was right, now was not the time to pursue these riddles. If the Dragon Sacrifice Continent were destroyed, then even if they knew why the Divine Dragon was extinct and how Long Qinglan died, what use would it be? Now that the Explosive Flame Demon had been restored and the other Primordial Demons were crawling out, there was not much time left!

"Alright!"

He resisted the tyrannical pressure of the's halberd and used his strong willpower to rush down. After breaking through the killing power of the momentary ancient gold and the Flaming Wind Gold Flame, he reached out and grabbed the's halberd!

RUU!

In that instant, it was as if the entire world exploded.

His hands were badly mangled from the explosion, the's halberd was forged from momentary ancient golds, this type of divine object kept releasing an extremely strong Spirit Qi, able to tear through everything in the world, it had a destructive effect on the flesh and blood, and this momentary ancient gold had wind and fire golden flame, combining together, the Spirit Qi and Divine Flame, its power was astonishing!

Long Chen discovered that the God of Creation and the Divine Source Power, which contained the God of Creation's death grade, could actually transform each other! The Divine Source Power was also infused with the God of Creation, the God of Creation could also flow into the body and become the Divine Source Power!

Refining this creation god artifact was basically the same as man becoming one!

He could not deny that, if not for the Creation Spirit admitting that it was Long Chen, it would be impossible for Long Chen to reclaim the death grade and Creation Divine Artifact, because the

opponent's God Power of Creation was even more majestic than his own Divine Source Power. Fortunately, after some communication, the Creation Heroic Spirit did not resist, Long Chen only needed to endure the momentary ancient gold's astral energy and the Wind Flame Golden Flame, and he could successfully control it!

BOOM!

When Zhi Zunxinyanshenglong returned to the Creation God Manifestation Weapon, only the A web of gold and steel still existed, as it enveloped the entire Demon Star!

Long Chen was currently surrounded by golden flames and halberd energy. He seemed to be in an incomparably violent storm, not only did he possess a terrifying destructive power, he also had a feeling of death. He truly could not imagine if he were to forcefully control the supreme Divine Emperor Halberd, then he would have been directly torn apart by the flaming tornado of fire!

The entire world had turned golden!

The astral energy was like sword beams, erupting all over the world, the flames engulfing the world!

Weng! *

A golden divine dragon coiled around the halberd of the, becoming a part of the halberd itself, that was the Creation God Creation Art.

RUU!

In his body, the Divine Source Power and the God Creation God Power combined to form a terrifying power. When this power entered Long Chen's body, it would become the Divine Source Power, and when it reached the Halberd, it would become the God Creation God Power!

It was because of this that his strength had risen and expanded! Because this surge of radiant energy was able to allow Long Chen's previous injuries to quickly recover. As long as the mark of the Explosive Flame Demon was removed, the flame of his life would instantly restore Long Chen to its peak state!

With this Supreme Divine Emperor Halberd, Long Chen could deeply feel that his fighting strength had risen again!

Chapter 2534 - The War of Vengeance

"Is this the feeling of having control over a Manifestation Divine Artifact?"

If one did not have the Divine Source Power, or trained in the power that came from the Infinite Divine Art, one would not be able to use a Creation God Manifestation Weapon.

The so-called Manifestation Divine Artifact was simply like another life form. They were inextricably linked to the entire world and even possessed the power of laws.

Creation artifacts and Fiendgods complemented each other.

Although Long Chen was not a Divine Spirit Demon, he had the Divine Source Power. To the Supreme Divine Emperor Halberd, he was already no different from a Divine Spirit.

It could be said that even if Long Qinglan was here, he wouldn't be able to control this Creation God Creation Artifact.

Long Qinglan had been in and out of the Magic Star Seal before. With his abilities, he should be able to find out about the Supreme Divine Emperor Halberd, but he didn't manage to control it. Perhaps the reason was because he knew that he was unable to control it.

Although Zhi Zunxinyanshenglong had lost the The Age of Dragons's memories, he knew about at least some of the matters from the Primordial Era. Long Chen wanted to clarify a lot of things, but now was not the time.

He had to focus all of his attention on stopping the exploding flame demon and the ancient Giant Demon!

It was the Halberd that gave him the last bit of hope. He no longer had the time to think about other things.

"Half of the Manifestation God Power that I control comes from the Magic Star Seal from before. As you continue to fight, this portion of the power will be used up. If you are able to use it well, using this power to kill the Explosive Flame Demon will not be a problem. But after I use it all up, I will return to the level of a normal 'death grade' divine artifact. Now it can be considered to be close to the 'prehistoric level'."

Inside the Supreme Divine Emperor Halberd, Old Dragon's heart was heavy, he explained everything to Long Chen clearly.

Long Chen could also feel that within the Supreme Divine Emperor Halberd, there was a portion of Creation God Power that could not enter his body and could only be released. That portion of power should belong to the Magic Star Seal's!

Since Old Dragon said that he could kill the Explosive Blaze Demon now, then he definitely could!

Until now, Long Chen still could not see where Mo Xiaolang was. Even though the surroundings were in chaos, it was very possible that he was still alive, but it was also possible that he had already died.

He's not a god or devil. If he wasn't hiding in the Magic Star Seal's, the Explosive Flame Demons could kill him easily. Furthermore, with his 'Extermination Devil Flame Source Energy', even if he was a demon, he would die instantly without a chance for rebirth.

The Magic Star Seal had shattered, Mo Xiaolang's life and death was unclear, and he had suffered a great humiliation and was almost massacred by the Explosive Flame Devil. Now that the world was in danger, the group of devils was reborn, and all of this hatred was about to fall onto the Explosive Flame Demon's body!

"I got it!"

Long Chen held onto the golden halberd, against the halberd, a golden light erupted from his entire body, the momentary ancient gold's astral energy and wind fire engulfed his entire body, causing him to easily tear apart the heaven and earth, becoming even more terrifying!

Now, the entire chaotic star field had truly fallen into endless chaos!

"Aunt You, I obtained one of the Magic Star Seal's divine artifacts, so I still have a certain chance right now. I told Ling Xi not to panic."

He did not dare to speak to Ling Xi directly. Right now, he was vowing to fight to the death!

"Understood. Remember, you have to survive."

Yang You understood Long Chen's current situation very clearly. Even though she had been warned a thousand times, she was still unwilling to speak more with Long Chen at this time, because she knew that the current him must be having the most important battle right now. He needed to be quiet!

The A web of gold and steel was actually the skeleton of the Magic Star Seal, a power created by both the supreme Divine Emperor's halberd and the Magic Star Seal. It could still be used to intercept the A web of gold and steel, but of course, the Explosive Flame Demon Beast would only need half an hour to destroy the A web of gold and steel.

Long Chen would not give him that chance!

Grasping the halberd, he rushed into the range of the steel web. Golden light radiated from his body as the might of the ancient Divine Emperor was displayed on his body.

Previously, the Explosive Flame Demon had been injured by Zhi Zunxinyanshenglong, but it had already completely recovered.

Long Chen only took a very short time to control the Supreme Divine Emperor Halberd, he had always used the Time Traversing Dragon to protect himself before, and the scene was a mess, the Explosive Flame Demon had not realised it.

It was only when Long Chen rushed in with a God Creation Art that the Explosive Flame Demon saw him.

He had just climbed up from the Demon Star, and upon seeing Long Chen, his fiery red eyes immediately widened. He shouted in disbelief, "You're actually still alive!"

In fact, what surprised him was not that Long Chen was still alive, but that he had actually held the Halberd in his hand!

This was a creation god artifact of the death grade!

It was a contest between the god, devil, and heroic spirit of Creation. If he failed, the god and demonic god would be devoured by the Creation God Creation and become a part of the power of the Creation

God Creation. Even if he succeeded, it would basically take years, decades, millenniums, tens of thousands of years of years of struggle.

No matter how strong a god or demon was, it wouldn't be easy for them to completely subdue the Creation Heroic Spirit.

After all, many Good Fortune Heroic Spirits were very independent and basically didn't want to be controlled by anyone. With Long Chen's strength, there could only be one possibility for him to complete it in such a short period of time. That was, the Supreme Divine Emperor Halberd was willing to recognize as its master.

"I didn't expect you to be so capable, to be able to make this Good Fortune Hero submit to you. I admire you!"

The Explosive Blaze Demon sneered. At this moment, his body was burning with blood-red flames that were rolling over and over. The flames that were born in his body were also a divine object of heaven and earth, and were not any weaker than the Firestorm Gold Flame. The two types of flames were divine objects that could destroy a small world with just a bit of fire!

Sssii! *

With the roar of the Explosive Blaze Demon, destructive devil fire elemental energy and blood-red flames engulfed the entire Demon Star within.

"If not for this damned Supreme Divine Emperor Halberd, we brothers would have already come out! "Fine, I'll smash you guys into pieces!"

The Explosive Blaze Demon's voice produced a huge rumbling and shaking sound.

The Primordial Demons that was still in the Demon Star, was actually still restricted by the internal seal. The Supreme Divine Emperor Halberd had also formed a certain suppression effect on them, and the dual suppression effect was much greater for them, moreover, the Supreme Divine Emperor Halberd was a little fiercer than the Magic Star Seal before. Thus, they had not completely climbed out of it for the time being.

But it was going to be soon!

Long Chen looked down and could already see the new Immemorial Giant Demons extending their huge claws from the abyss.

"Quick, attack!"

Old Dragon said in a deep voice.

"Yes."

Without him saying anything, Long Chen was even more clear of this in his heart.

"What? You think you can stop me, the Explosive Flame Devil, with this half a stick of yours?" Feeling the boundless power from the halberd of the, the Explosive Flame Devil King could not help but laugh. At this moment, he suddenly exerted his strength and charged towards the sky with the force that could topple mountains and overturn seas! Annihilating devil fire elemental energy filled the skies with blood-red flames, like a tidal wave!

Now that Long Chen had recovered his peak fighting strength, with the help of the supreme Divine Emperor's halberd, his divine might had already suppressed the Explosive Flame Demon! In his eyes, even if an ant got hold of a large blade, it would still not be able to withstand a single blow from him!

"What a laughable creature. You only possess a portion of power. Do you really think you're a god? In front of us, a lowly person is a lowly person! "

Following the Explosive Flame Demon's howl, flames broke through Long Chen's surroundings and engulfed the A web of gold and steel!

Long Chen did not say much to the Explosive Flame Devil King, but when he was completely prepared, at the moment the opponent attacked, he also attacked. Using his body to control the Halberd, he fell from the sky!

It had been a long time since he had used his halberd.

This was his most beloved weapon. To be honest, he didn't like to use a sword. The halberd was his most beloved weapon.

With this God Creation Art in hand, he had returned to the Emperor!

"Bone Devil Flame!"

His hand swept out, and the destructive devil flame spirit energy surged, transforming into energy of laws that covered everything. The crimson colored flame that suddenly appeared on the bones of Long Chen's body, burning away his flesh, even an ordinary opponent would not be able to block this move of the Explosive Flame Demon's!

"Just burn yourself to death." The Explosive Blaze Demon laughed.

Both of Long Chen's hands gripped the Supreme Divine Emperor Halberd, without a hint of pain on his face, but on the contrary he smiled, in the process, his bones suddenly turned gold, and transformed into the momentary ancient gold.

This was the territory of the Supreme Divine Emperor Halberd, the Bone Enchantment Devil Flame had no place to stand.

The Explosive Flame Devil watched as the Bone Enchantment Inferno was completely engulfed by Long Chen, and did not make a sound. There seemed to be no reaction at all from the move that could cause huge injuries to Long Chen previously.

"How is this possible!?"

The Explosive Blaze Demon was stunned for a moment, and its heart shook violently.

He could not believe that a mere human being could use the supreme Divine Emperor Halberd to this extent in such a short amount of time!

"I thought that a few swings would be your limit. I underestimated you! "However, you should still die!"

After pausing for a moment, the Explosive Flame Demon did not dare to underestimate it this time. It had already activated the most powerful energy in its body, and from below, it released its strongest roar, forming a terrifying vibration.

"Hah!"

Long Chen waved the halberd of the Divine Emperor, and it descended like a golden comet!

Whoosh!

The Explosive Flame Demon opened its mouth and spat, a total of three Fire Elementals. They rushed towards Long Chen from three different directions at a breakneck speed!

This was the explosive flame seed that had previously heavily injured Long Chen. It possessed a destructive explosive power, and any one of them could destroy half of the Sea God's Realm!

To Long Chen, this thing had a shadow.

But now, tens of billions of lives and the Supreme Divine Emperor Halberd had given him courage and confidence, as well as the power of most of the Magic Star Seal!

This time, he was determined to kill the Explosive Blaze Demon in one go!

Right now in his hands, the Spirit Qi of the momentary ancient gold radiated from the halberd of the, the wind flame and golden flame burned fiercely. With the God Creation Art in hand, Long Chen rushed towards the exploding flame seed, without any need to do so!

Chapter 2535 - Inborn Decide

"You're courting death!"

The Explosive Flaming Demon could not help but snort. This was his most powerful attack, combining his sacred art with the laws. This was also the origin of the name of the Explosive Flaming Demon, and its' explosive 'was the supreme rule.

The path they took was different, but according to Long Chen's estimation, these three types of fire elements would definitely arrive at the same time. If they exploded at the same time, then the resulting force would be too great. It was true that with the protection of the supreme Divine Emperor's halberd, he would definitely die without a complete corpse!

That was not what he was after.

Weng! *

With the support of the God of Creation, the sea erupted with even more power during the time of chaos. To a high degree, it disturbed the time of the three fire elements, sped up one of them, slowed down one of them, and completely missed the three fire elements!

All of this was done in a split-second.

In that instant, Long Chen violently struck his first spark of fire!

The Supreme Divine Emperor Halberd slashed across the golden rules, passing through even faster than the Fire Elemental. Before the Fire Elemental could even approach Long Chen, the Supreme Divine Emperor Halberd had already struck it!

BOOM!

The halberd rotated and the vast divine power surged, pushing back most of the explosive power of the explosive flame spark. To be able to complete this step was already considered heaven-defying.

But even so, a large amount of explosive power still surged towards Long Chen, but at the same time, Long Chen roared out loud. Without even looking, the supreme Divine Emperor Halberd had formed a shield of fire around his body, blocking the attack of the Fire Elemental!

BOOM!

The first time they collided, Long Chen was completely unharmed. His speed did not have any effect as he passed through the center of the explosion of the Fire Seed!

From a complete defeat to a complete victory, it was Long Chen's first time breaking through the imagination of the Explosive Flame Devil. This time, the Explosive Flame Devil was truly stunned, and this was already not as simple as disbelief, but instead carried a hint of fear. He looked down on the soul-controlling demon and Silent Demon that had been forced to that extent by Long Chen, but only now did he finally understand just how frightening this youth was.

He understood that there wasn't that much of a gap between him and himself.

But it seemed too late now.

BOOM! BOOM!

The next two Fire Elementals were chopped into pieces by Long Chen's Halberd once again, completely annihilated. Although the power of the explosion did not decrease, it actually did not harm Long Chen.

The Explosive Flames Demon had never seen anyone who could use a Creation God Creation Tool that was even more powerful than his own so quickly.

Even a natural Fiendgod wouldn't be able to do it.

"Unbroken Fire World!"

The Explosive Flame Devil was startled for a moment. It did not expect that Long Chen had already rushed in front of it like a falling star, and fiercely swung down the supreme Divine Emperor Halberd! Endless amounts of astral energy shot out. The Firestorm of Golden Flames formed a storm of fire that swept over in a heaven-defying posture, causing the entire demonic planet to violently tremble!

If it was any other planet, it would have shattered countless times already.

The Unbroken Fire Realm blocked in front of Long Chen. If it was before, this would have definitely trapped Long Chen.

"Rip!"

But this time, Long Chen used the sharpest tip of the Supreme Divine Emperor Halberd and pierced through the Flawless Fire World, through the cave entrance and instantly arrived in front of the Explosive Flame Demon!

The halberd was made up of a spear and two blades on the left and right of the spearpoint. The twin blades were used to chop and the spearpoint was used to stab!

Along the way, they had to go through many difficulties and dangers before finally breaking through the encirclement. They finally got close to the Explosive Blaze Demon!

At this time, the human-shaped Long Chen appeared to be incomparably small in front of the Explosive Flame Devil. He was not as big as the Flame Devil, but at this time, he had completely destroyed the internal defenses of the Explosive Flame Devil, and actually made the other party have the thought of fleeing!

All of these, naturally had to be thanked for the remnants of the Magic Star Seal's power. Along the way Long Chen had charged all the way, but he had actually pretty much used most of them!

The Explosive Flame Demon did not dare to fight in a frontal battle, and it was naturally because he was afraid. He needed to slow down a little, so that he could easily destroy Long Chen together with the other Primordial Giant Demons.

But now, Mo Xiaolang did not know whether he was dead or alive, and the world was about to be destroyed, so Long Chen had no reason not to kill him with the fastest speed possible!

Even if he had to put everything on the line, Long Chen would definitely not give him the chance to recuperate!

"Supreme Divine Emperor Halberd, spin!"

From the moment he held onto the God Manifestation Art, Long Chen's spirit had quickly invaded, obtaining the method to use the God Creation God Manifestation Art. He was a peerless genius in this area, surpassing gods and devils, this technique was one of its profound mysteries!

With the wave of his hands, the halberd suddenly spun in his hand, the two blades danced, the momentary ancient gold and the flaming golden flame also swirled, and in that moment, the qi was like

a sword qi, forming a storm of sword qi, the flames swept and formed a tornado. In that moment, Long Chen seemed to be holding onto a tornado, which instantly tore apart the heaven and earth, and under his violent speed, it instantly pierced through the Explosive Flame Devil!

That's right, it went straight through his chest!

This move contained all of Long Chen's anger and hatred. This was his revenge, he had not let his opponent beat him up so badly for a long time. Although the enemy was a terrifying Fiendgod, he still wanted revenge!

The 'Revolving Technique' spun around and tore apart the Demon's chest, creating a massive cave of flesh and blood.

In that instant, blood spurted out.

Long Chen was regretful, but he did not have the chance to save them. Currently, the entire people of Demon Star, including Lin Mo, Tao Li and the others, were all killed by the remnant shockwaves from the battle.

Demon who was known as the immortal devil, in front of a real Primordial Demons, a single touch would result in death.

At the moment, Long Chen's eyes were blood-red, while the Explosive Flame Demon's eyes were in agony and shock. It wasn't until he saw Long Chen and the Supreme Divine Emperor's halberd piercing through his chest, saw the momentary ancient gold's astral energy and the flaming golden flames explode and destroy his wounds, that he couldn't help but admit that he had lost.

Even though it had happened, the truth was still so hard to accept!

"A mere ant actually went through me, a Primordial Demons who had already recovered my Perfection? Although I borrowed the power of the Magic Star Seal, I still ..."

He still shook his head. Compared to the soul-controlling demon and the Silent Demon, he did not even place ordinary life forms in his eyes. In the previous battle, he had also crushed Long Chen and controlled his life and death.

Swish!

Long Chen suddenly turned his head after passing through the Explosive Blazing Demon Empress, and his blood-red eyes contained a heaven-shaking and earth-shattering killing intent. The Explosive Flame Demon must admit, this was the most frightening killing intent that he had ever endured, and this young man had been enduring patiently until now. Only now did he finally release all of his anger!

At this moment, he was even more ferocious than a wild beast.

Even an ancient Giant Demon was unworthy of becoming a demon in front of him!

Under this gaze, the Explosive Flame Demon's heart completely collapsed. He could only admit that he had encountered an opponent that looked like a monster.

"Stop, join my Primordial Demons. You can become our brother, and rule over everyone else!"

Seeing that the fourth Ancient Giant Demon had not appeared yet, the Explosive Flame Demon could only say it in a sorry state. Honestly speaking, he was still a little unwilling in his heart, but the severe injuries told him that if he did not stall Long Chen soon, he would definitely die!

Whoosh!

In this silence, Long Chen's breathing was so obvious.

Swish!

The Supreme Divine Emperor Halberd appeared in front of them once more!

BOOM!

At this time, he, who was the most brutal, rushed into the sky. The supreme Divine Emperor Halberd erupted with an incomparably bright light, and a golden flaming sun that was even bigger than a Demon Star appeared above the Explosive Blazing Demon King. In an instant, with the power of a giant star, it smashed downwards in a shocking manner!

"Kill!"

This was the second profound mystery.

Spinning, slashing!

Simple words, yet terrifyingly powerful.

This time, Long Chen used all of the Magic Star Seal's power. He only had one last chance to kill the other party!

He did not say a word more to the Explosive Flame Demon.

In the eyes of the Explosive Flame Demon Clan, the golden sun had exploded, the Supreme Divine Emperor Halberd had formed a terrifying blade aura, in the midst of the falling lightning fire light, the heaven and earth had been torn apart, and down below him, this move was even more terrifying than a 'spin', it was even more irresistible! At that moment, Long Chen was like a king descending on the world, the Explosive Flame Demon suddenly knelt onto the ground, trembling in fear, he spat out two Fire Elementals in his panic, but was repelled back by the great might of the Supreme Divine Emperor Halberd and exploded at the corner of his mouth!

BOOM! BOOM!

Two consecutive explosions rang, and the Explosive Flame Demon did not even have the chance to scream. The end of the golden flaming astral blade was held by Long Chen with both hands, and with a ripping sound, it was chopped off from the Explosive Flame Demon's mouth, from its head to its abdomen!

Crash! *

Crimson flames and fresh blood shot out!

The Explosive Flame Demon knelt on the ground, his lower abdomen was split in half, falling towards both the left and right directions. At this time, his mouth could no longer make any sound, what replaced it was a blood-curdling scream!

This kind of miserable shriek stunned all of the ancient Giant Demons that had just crawled out of the Demon Star Abyss. Fiendgods were extremely difficult to kill, and it was even harder to injure to such a miserable state. The body of the Explosive Flame Devil was convulsing and convulsing. From this it could be seen how terrifying the attacks it received were.

At this moment, Long Chen was right in front of the Explosive Flame Devil King, both of his hands that were holding onto the supreme Divine Emperor Halberd were trembling, and his heart was gradually calming down, his eyes were cold and bloody. Under his watch, the Explosive Flame Demon Beast was almost crippled, but it was not dead yet, the death that Long Chen had bestowed to him was the Death Realm's dragon gate!

Before this battle, Zhi Zunxinyanshenglong had never thought that he was this kind of person.

"You must have other inherited blood essences. What you showed me at the beginning was only a very small side of you. Killing is the bigger side of you. However, the justice in your heart is more violent than anyone else. I chose you, you're countless times more correct than I thought you were. "

This was Old Dragon's affirmation of him.

"Thank you, senior."

Now, with Long Chen's anger completely vented, he should think carefully about how to block these Primordial Giant Demons that appeared one after another under a situation where their fighting strength was not as good as before!

First of all, it was naturally to give the Explosive Blaze Demon's death.

"Death Realm's Dragon Gate!"

Reddit

Chapter 2536 - Demon and God Tribulations

Not killing him was not enough to vent the hatred in Long Chen's heart.

It was not enough to avenge the wolf cub!

Right now, the Explosive Flame Devil was in a miserable state due to the berserk state of the Supreme Divine Emperor Halberd's power. It had only recovered a little at first, but it had almost used up all of its strength now, and was retreating back to the initial state.

Long Chen turned and slashed, almost taking the life of the Explosive Flame Demon.

Even though gods and devils were immortal, they would still disappear forever after receiving such a devastating blow.

Even though it was tragic, this was not the final result, because at this moment, Long Chen had transformed into the Primordial Blood Dragon, enveloping the Erupting Flame Demon that was split into two halves. Before the other Ancient Giant Demons had arrived, Long Chen had already opened the Death Realm's dragon gate, summoned the Death Realm dragon claws, and held onto the body of the Erupting Flame Demon!

"No!"

This was the end of the soul-controlling demon. The Explosive Blaze Demon never thought that it would be like this.

He struggled in pain, but to no avail. He could only roar miserably, "Come and save me!"

On the other side, a few Ancient Giant Demons were already charging over. If Long Chen was slightly slower, he would have lost the chance to take revenge.

At this critical moment, there was absolutely no mistake in his actions!

However, something unexpected still happened. The Explosive Flame Demon had not been swallowed by the Death Realm.

In front of Long Chen's extremely shocked eyes, flesh rolled about the stomach of the Explosive Flame Devil, and suddenly, a black-robed youth rushed out. Although his body was stained with flesh, Long Chen could recognize him with a single glance.

"Little Wolf!"

No wonder I couldn't find him. So he was inside the stomach of the Explosive Flame Demon, and now that he had broken through the body of the Explosive Flame Demon, I coincidentally found him.

"Hu!"

Mo Xiaolang was still in his Demonified state, he instantly turned into a Sun Devouring Demonic Wolf whose entire body was covered in blood threads, trying his best to expand his own body, making him look even bigger than the Explosive Blazing Demon. All of this happened in a split-second, just as Long Chen was about to throw the Explosive Flame Demon into the Death Realm, Mo Xiaolang opened his mouth, and started to bite!

RUU...!

The Explosive Flame Demon was as if it was trapped in a prison, the flesh all over Mo Xiaolang's body started to transform, transforming into a pure blood flame, which Mo Xiaolang swallowed!

"He wants to devour this Explosive Blazing Demon?"

Right now, the Explosive Flame Demon was in need of a situation, but Mo Xiaolang had undergone a huge change. He might already be very close to his goal, so Long Chen immediately pulled back the Death Realm's dragon door, pulled the Explosive Flame Demon back, and threw it out of the A web of gold and steel!

Whoosh!

Without saying a word, Mo Xiaolang chased after him. He turned into a ball of black flames, and in a short span of time, enveloped the entire Explosive Blaze Demon within. At the start, the flames screamed even more miserably, but the sound was quickly isolated from the rest of the flames, and the black flames continuously wiggled while the flames in the center continuously shrank.

"He can actually swallow the Explosive Flame Devil! "After I succeed, my strength will definitely increase greatly, and I can also help me!"

Long Chen was finally a little excited in his heart. He saw an even greater hope. To be devoured to death, this was perhaps the most miserable ending. The hatred that had been ravaged earlier was now completely avenged.

Forget about Mo Xiaolang becoming stronger, just his being alive was already a pretty good piece of news to Long Chen.

RUU...!

At this time, a few terrifying Archaic Giant Demons had already rushed over, and many Primordial Demons appeared from the abyss. Although they had defeated the Explosive Blaze Demon, Long Chen was soon facing an even bigger problem!

"First, let's borrow strength from the A web of gold and steel and not waste time here. You can't beat them. "

Old Dragon carefully analyzed.

"Alright!"

Long Chen increased his speed against the chaos and rushed out of the A web of gold and steel. This was the skeleton of the Magic Star Seal before, but it still had a use.

After rushing out, Long Chen glanced at Mo Xiaolang. At this time, he was quickly devouring the Explosive Flame Devil, and his speed was rather quick.

"This beast has already escaped part of the laws of the world. It is truly shocking. This time, it's going to devour the flames and become a 'Talent to become a god'."

"What is Talent to become a god?"

Long Chen could not help but ask.

The old dragon quickly said, "In Archeozoic era, there are two types of Deities. The most normal and orthodox are naturally the 'Deities Become Deities'. It was the same as before. To gather the will of all living things, to make them what they wished to become, to become true deities. Talent to become a god relies on his own innate talent to become a god, so there is no need for him to believe in anyone. In fact, I guess that the Divine Dragon of our The Age of Dragons belongs to the Talent to become a god as well, but the Ancient Giant Demons in front of us are actually the same. From the moment they were born, they might have been fated to be Fiendgods. "

The old dragon's words were spoken extremely quickly, but Mo Xiaolang had also changed very quickly. He was definitely undergoing some sort of change inside the explosive flame demon's stomach, which resulted in him being able to directly devour the explosive flame devil that was in such a heavily injured state.

Long Chen understood.

"Conviction to become a god is the way for mortals to transform into devils and gods. However, the Talent to become a god only means that this group of existences are destined to become devils and gods. The decision made by the innate bloodline is to reach a different level of existence compared to us. However, the wolf cub himself does not have this talent. Relying on swallowing flames to grow and avoiding Eighteen Major Tribulations, he has indeed become the only exception to this world, and is no longer part of the rules. "

"He has only partially escaped the laws of heaven and earth, but he still has to pass through a hurdle in order to enter Talent to become a god. That is, 'Devil Tribulation'. His' Devil Tribulation 'will descend soon."

The moment the old dragon spoke to this point, the blood-red flames of the Explosive Blaze Demon had already been melted away by the black flames. In the midst of the black flames, a pure black demon wolf woke up from its slumber.

Weng! *

The demonic tribulation had arrived at this time.

Long Chen felt a terrifying pressure, he had no choice but to dodge. Although his Eight Tribulations were already comparable to the Divine Demon Tribulation, besides its destructive power, there was still another thing which he was wary of. That was the majesty of the rules!

In front of this Divine Demon Tribulation, Long Chen only now felt that he was still a mortal.

He had to avoid it a little.

"The black world tree has appeared."

Following the old dragon's calm voice, a gigantic illusory figure suddenly appeared outside of Mo Xiaolang's body. This was a gigantic black tree that was boundless without boundaries for a moment, and suddenly appeared. Beside this black world tree, the entire devil planet was as minuscule as a fruit, and the scope of the black world tree instantly surpassed the entire chaotic star field!

This was the biggest tree that Long Chen had ever seen.

Even though it was only an illusion, he was still deeply shocked by the wondrous and infinitely mysterious feeling. This was not the World Tree in the Fiendgod Body, but a tree that belonged to heaven and earth. It was a part of the Fiendgod Tribulation, but it was also very similar to the World Tree in his body. If one were to say that the World Tree in one's body was connected to any part of the body, then the World Tree in front of him was connected to the surrounding world!

Mo Xiaolang disappeared into the mysterious World Tree.

BOOM!

A loud sound that could shake the soul came from above his head. Long Chen raised his head and saw that the black World Tree's gigantic crown had actually turned into a whirlpool, revolving around the World Tree's trunk as it let out a huge rumbling sound.

"This is a torrent of rules. If your brother was able to acquire a single drop of wine from this flood of laws, he would become a Fiendgod. "

Beneath the black world tree and surging flow of laws, the devil star and the archaic Giant Demon instantly appeared to be extremely small, while Long Chen appeared to be even more insignificant by a tiny bit.

was not someone who would go through tribulations, so when he saw the torrent of rules and regulations, the energy in his body collapsed immediately. If he looked at it any longer, he would probably not be able to live.

"Since the wolf cub is undergoing his tribulation, I will do my best to stop him!"

Long Chen's eyes became dark red. He had already rushed out of the A web of gold and steel, and standing on it, after controlling the Halberd, the A web of gold and steel's power was also under his control.

So far, a total of seven ancient Giant Demons had appeared!

However, Long Chen was slightly relieved that before they had devoured their companions, these seven Ancient Giant Demons had experienced thousands of years of suppression and self-exhaustion, and only had the power of initial state. Unless they reached the Dragon Sacrifice Continent, they would only be able to maintain this power for the time being.

To be honest, the Immemorial Giant Demons never thought that on the day after they destroyed the Magic Star Seal s, they would actually be intercepted by a human mortal spirit in front of their doorsteps. To them, the road from the devil star to the Dragon Sacrifice Continent was practically negligible, but they never thought that there would be such an obstacle here, which would damage their three brothers!

Long Chen understood that there were definitely stronger existences deeper in the ocean, especially those in the middle. Including the Demonic God Sakyamuni, the Creation God Equipment before the Demonic God Sakyamuni was a fifth stage Order-level, which meant that her original strength was at least at the Primal Chaos Realm or above! At the very least, he should be able to fight with the polar state of the Supreme Demon Realm!

Maybe it was enough to instantly kill Long Chen!

In the end, the danger of the devil star could only be considered to have just begun. There was not much hope for Long Chen to save the common people right now, the greatest possibility was that he had killed a few Immemorial Giant Demons and died in battle here.

The only thing that could be relieved was that the strongest of the Ancient Giant Demons might have suffered the heaviest internal seal of the Demon Star. They could only pray that even if they managed to escape, they would face some trouble.

At least for now, the eighth Ancient Giant Demon was trying its best to squeeze out.

"These seven Primordial Demons, when they were at their peak, were basically at the Tai Chi Demon Realm to Taiyu Deity. However, after experiencing millions of years of suppression and sealing, all of them have been completely exhausted to the strength of the Primal Chaos Devil Realm. If it were tens of millions of years ago, any one of them could have blown you to death in one breath. "

Old Dragon said helplessly.

In reality, when Long Chen had used up all of the Magic Star Seal's power, he was no longer as strong as the Explosive Flame Demons. Only now could he be considered to have grasped the normal state of the 'death grade' divine artifact.

"These are: Earth Fiend, Heavenly Dipper, Five Elements Demons, Burning Heaven Demons, Avatar Demons, Death Demons, and Ghost Devils!"

Chapter 2537 - Fighting the Demons

The seven of them were all different, but every single one of them were definitely stronger than the Silent Demons. Primordial Demons who controlled all sorts of mystical rules were born from the Demon Star!

If not for the Silent Demon, the Explosive Flame Demon would not have been stronger than them. It was precisely because of the ten million years of Demon Star's seal that every single one of them had been exhausted to the extreme. Only the battle strength of their initial state was left, but even so, these old monsters who had grasped terrifying rules and heaven defying abilities, were even harder to deal with than the true divine dragons of the The Age of Dragons!

Currently, Mo Xiaolang was surrounded by the black world's trees and a torrent of laws. He didn't know whether he would succeed or not, and also didn't know when he would succeed.

The A web of gold and steel s, he didn't know how long it could last.

With Long Chen's strength, he could at most only surpass the initial state. Fighting against the Primordial Demons of the Perfection, there was bound to be no hope, if he was born with the Perfection, everything would be over for now!

The eighth Purple Flame Demon had already crawled out of the abyss of the devil planet. This one was very similar to the Explosive Flame Demon, but the flames surrounding its body were dark purple in color, and it was obvious that the Purple Flame Demon would definitely be much stronger than the Explosive Flame Demon in terms of raw cultivation.

"Under normal circumstances, they would have the confidence to take me down and charge out, so they wouldn't even sacrifice a Primordial Demons. But if I killed them and let them feel the danger, maybe they would forcefully devour their comrades?"

Right now, Long Chen was worried about two things. The first thing he was worried about was if they continued to devour their comrades and gave birth to existences like the Explosive Flame Demons.

In reality, although he had killed the Explosive Flame Demon, he had not been able to save anything. The Magic Star Seal had already been broken, and once the core Primordial Demons came out, there would be no hope at all.

Almost all living beings in the current Immortal God Realm and Dragon Sacrifice Continent felt this thick sense of impending doom.

BOOM!

Although the eight Ancient Giant Demons were using initial state, under the circumstance of large numbers, they did not place Long Chen in their eyes at all. Currently, the eight Ancient Giant Demons were roaring, and were charging towards Long Chen at the same time!

"You may choose to kidnap them. That way, you may be able to threaten them. After all, they are few in number. Of course, this could only be eased, but not resolved. All of this will depend on your life. "

Old Dragon saw everything very clearly.

"Thank you, senior."

Long Chen nodded, he stepped past the A web of gold and steel and rushed towards the eight Ancient Giant Demons with a cold look in his eyes. By this time, these eight Ancient Giant Demons had already stopped caring about anything, Long Chen killing their brothers, was their mortal enemy, the eight of them had released their attacks at the same time!

"The Sea of Chaos!"

Long Chen was fearless, his life and death was long gone, he had charged into the encirclement of the Ancient Giant Demons, using the Great Void Cosmic Dragon's ability, he caused the sea of time to turn upside down, causing the eight Ancient Giant Demons to sink into his sea of time, whether it was in attack, movement, or speed, all of them were affected greatly!

"We definitely can't let them surround us!"

This was the clearest thought in Long Chen's heart!

Whoosh!

He passed through the two Immemorial Giants and escaped to the other side of the Demon Star. The entire world was currently weak against Long Chen and the Immemorial Giant Demons, and only the surroundings of the Demon Star could be considered stable!

Four of the Ancient Giant Demons came to chase after Long Chen, while the other four went to destroy the A web of gold and steel.

"If four of them attack together, the A web of gold and steel won't be able to hold on for long. If you can't stop them, they can rush to the Immortal God Realm. You can't stop them by yourself."

Old Dragon said.

"I know!"

At this time, Long Chen suddenly turned around and rushed towards the four Ancient Giant Demons. In his panic, Long Chen did not know what the Ancient Giant Demons were that the four of them were looking at.

"This is a Heavenly Demon!" He was proficient in the laws of the stars, and his physical body was incomparably hard. I wonder what will happen tens of thousands of years from now? "

Long Chen did not listen to the Old Dragon's analysis at all. The situation was urgent and he did not even have the chance to stay, he gripped the Supreme Divine Emperor Halberd tightly.

"Swoosh!"

Although it was not as strong as the last time he attacked the Explosive Blazing Demon, the current Heavenly Dipper Demon was still not as powerful as the Explosive Blaze Demon. Long Chen was currently crazier than anyone else!

Whoosh!

In the blink of an eye, the entire Heavenly Dipper Demon turned into a deep blue colored star, like the most solid piece of meteorite, it collided with Long Chen's supreme Divine Emperor Halberd!

Hiss!

An extremely miserable screeching sound pierced through the heavens.

"Break!"

The tip of the spear and the two blades of the Supreme Divine Emperor Halberd were activated at the same time, releasing a tyrannical power. Under such a ferocious attack from Long Chen, even with the power of the stars, the Heavenly Dipper Demon was still pierced through with a huge hole in the ground by Long Chen. The Supreme Divine Emperor Halberd was almost pierced through!

This action also brought a deep shock to the other Ancient Giant Demons!

In other words, the toughness of the Supreme Divine Emperor Halberd now was not even comparable to the toughness of his own body back then.

Of course, he could not do it now, otherwise Long Chen would not be able to tear him apart.

However, the moment he goes to the Dragon Sacrifice Continent and devours tens of billions of lives, he would be able to recover to his most powerful state!

Roar!

The other three ancient Giant Demons roared as they attacked!

Long Chen's attack succeeded, but he did not have the time to grab hold of the Heavenly Dipper Demon, the Heavenly Dipper Demon's body was too strong, the amount of injuries this time was not to the point of being unable to retaliate, it was not suitable for him to grab ahold of. He quickly escaped from the encirclement due to the overwhelming chaos.

On the other side, the four Ancient Giant Demons who were destroying the A web of gold and steel and causing great tremors saw the situation on the other side.

Long Chen was their great enemy now, so they didn't say anything more. In order to reduce the number of casualties, another two Ancient Giant Demons came forward, a total of five of them combined with the injured Heavenly Dipper Demons to attack Long Chen together!

This kind of battle was even more intense than the battle against the Explosive Blaze Demon!

Long Chen could only constantly evade the frightening power of the laws. If it were only one or two opponents, he would naturally crush them. However, there were simply too many opponents at the moment, so finding a chance was really too difficult!

Weng! *

One of the clone devils instantly divided into a thousand ancient Giant Demon avatars. Every one of them was extremely similar and didn't have any flaws. This gave Long Chen an even greater headache.

"Kid, you originally had a chance to live, but you loved to go against us."

"Now, you can only choose death."

"Of course, once we break through that damned thing and head to the Immortal God Realm, if you hadn't died in battle then, you can take a look and see how we ate."

"Yes, yes, your kind, including yourself, are our food. This was fate, and you had to accept it. Why are you doing so much to resist? "You only have one 'ability, but it's very difficult for you to complete the 'hundred '. Even if you've already reached the 'three 'level, what can you do about it?"

"Resist stubbornly and destroy everything that you have. Since you are the strongest among these mortal spirits, you should feed it to our boss. We, the supreme elites of the Ancient Giant Demons, were once comparable to the God King, or even the Divine Emperor, in terms of might! This mortal spirit of yours will never understand. "

Over a thousand doppelgangers chattered nonstop in front of Long Chen.

What he said was a form of mental suppression. If it was an ordinary person, they would have already collapsed from his words.

What the doppelganger demons had given him was naturally similar to what he had given them. At this time, other than him, the other Archaic Giant Demons had all gone to destroy the A web of gold and steel. They knew that this was the key.

Once it was broken, Long Chen would be unable to save anything!

In his fury, Long Chen held the halberd of the and rushed towards that direction. The doppelganger of the doppelgänger could not stop him, the doppelganger of the doppelgänger was too weak, if not, the doppelganger would have the fighting strength of an ordinary Divine Spirit!

Long Chen had set his sights on a genuine Ancient Giant Demon!

They believed too much in the doppelganger demons, so they split up to destroy the A web of gold and steel.

At this time, Long Chen, like a ray of golden light, had arrived in front of him!

This was a Five Elements Demon with five eyes on its head, arranged in a ring shape. Its back was facing Long Chen, and it was attacking a A web of gold and steel!

"Swoosh!"

The astral energy and the flaming tornado tore apart a few doppelgangers' doppelgänger demons and attacked once again. The Five Element Demon turned his head in shock, but was unable to stop Long Chen's overflowing determination and will to fight. Like a flaming demon, the supreme Divine Emperor's halberd pierced through his chest and nailed him onto the A web of gold and steel!

Roar!

The Five Element Demon screamed again and again!

After the other Ancient Giant Demons found out, they had all given up on their A web of gold and steel s and decided to work together to kill Long Chen!

The Earth Fiend demon closest to Long Chen had arrived!

He wanted to save the Five Element Demon, but in reality, Long Chen was also targeting him.

By controlling the time and the sea while he was in chaos, the two of them encountered each other much faster than they had imagined!

"Kill!"

The golden sun blazed fiercely and exploded, forming a force that swept through the heaven and earth, enveloping the Earth Demon. An incomparably huge astral blade sped up by ten times when the sea was in chaos, slashing the Earth Demon's shoulder, similarly slashing all the way to her abdomen!

At this time, the other ancient Giant Demons had already arrived.

"Save me!"

The Five Element Demons and Earth Fiend Demons spoke at the same time.

Long Chen's movements became extremely quick and violent, instantly transforming into an Primordial Blood Spirit Dragon.

"Death Realm's Dragon Gate!"

BOOM!

When his body turned into a door, the Death Realm's dragon gate opened wide. This time, two arms shot out from the Death Realm's dragon gate, grabbing the Five Element Demon and Earth Terminus Devil and dragging them towards the Death Realm!

Chapter 2538 - The Devil Nuwa

When his strength had reached a certain level, when Long Chen unleashed the Death Realm's Dragon Gate, he could definitely summon two Death Realm Dragon Claws.

The two Death Realm dragon claws held the severely injured Five Elements Demons and Earth Fiend Demons. Amongst the eight devils that had appeared, the Sky Demon had been severely injured, and two of the eight were under Long Chen's control. The rest of the five Primordial Demons had rushed out, but when they saw that the Five Element Demons and the Earth Fiend Demons were both hovering in front of the Death Realm's dragon door and that they could be left behind by Long Chen at any time, they had no choice but to stop in front of Long Chen's threatening eyes.

Other than the heavily injured Heavenly Dipper Demon, the five Giant Demons surrounded him, staring at Long Chen with bloodshot eyes!

The doppelganger summoning all his clones, and the previously chaotic situation finally quieted down. But wasn't this silence the eve of a storm?

At least, the five ancient Giant Demons in front of him were incomparably angry. As the ones in power, they simply couldn't endure this kind of defeat, and even more so couldn't endure the fact that they were being restricted by their opponents. They were originally cruel and evil spirits to begin with, so if there was a chance, they would definitely use the most brutal way to kill Long Chen.

They swore deeply in their hearts!

"Let go of us brothers! Otherwise, you will receive the most fearsome punishment from our Primordial Demons! "When our boss and the rest come out from the demon star, you'll know what the most terrifying thing in the world is."

"We can see the most important thing in your heart! Family? Love? Brother? We can make you lose it all in the most painful way! Don't doubt our strength! You just happened to restrict us now! We may not let you die, but we will make you suffer eternal pain, just like how we have imprisoned you for thousands of years, and it will be countless times more miserable than this! "

"Bastard, you better think carefully! If you let go of those two, perhaps our Primordial Demons will give you a quick death. To die happily without being tied up, what kind of beautiful ending is this? "

As he said that, the group of Devil Tigers closed in, eyeing him covetously.

They seemed to be able to easily do what they wanted to do, but they could not intimidate Long Chen. Since Long Chen had the guts to face them here, in his heart, he already stopped feeling any fear.

The only thing he could do was to persevere.

"Let me remind you, one more step and the left side will be the first to enter the Death Realm."

He controlled the Five Element Demons, placing them at the edge of Death Realm!

"Damn it!"

The Five Giant Demons were enraged. They had already opened their mouths to scare Long Chen, but they did not expect this guy to remain calm and collected. The torture they talked about, was something even they, who had been imprisoned for tens of thousands of years, were extremely afraid of!

BOOM!

They had already experienced tens of millions of years of imprisonment, and now that they had escaped, they were the most agitated. They were on the verge of exploding, but they were blocked by someone right in front of their door. This kind of feeling was incomparably sullen and anyone with such a violent temper would not be able to resist it!

So they moved!

They thought that if they moved, Long Chen would be scared off!

However, they would never have imagined that a mere mortal spirit would have such courage and boldness. Seeing the group of demons move, he immediately took action and threw the Five Elements Devils into the Death Realm in an instant.

BOOM!

The tearing screams of the Five Element Demons gradually disappeared! After being imprisoned for tens of thousands of years, he finally had the chance to be reborn. He actually ended up with such a miserable ending.

"Halt!"

He understood that the reason Long Chen had kept him was to continue intimidate them. Now that the Five Element Demons were gone, the others were still not aware of the fact that they could not scare Long Chen, and that even the Earth Fiend Demon would be thrown in.

Long Chen was such a person.

"Don't you understand?"

He smiled coldly.

The five Giant Demons immediately retreated, and watched as the Five Element Demons were pulled into the Death Realm. Each and every one of them were enraged, in pain, and shrieked viciously, but to

no avail. Even if they put on their most vicious and cruel appearances, they were completely unable to scare Long Chen at all.

"Kid, what do you want!"

One of the Giant Demons roared.

Although everyone knew that the Magic Star Seal s had been destroyed, there were still no Ancient Giant Demons that had come to the Immortal God Realm. From time to time, shocking battle sounds and roars would come out to prove that Long Chen was still fighting them!

That was their faith!

Long Chen was their only hope, so at this time, an even more majestic faith power, the power of all living wills, was supporting Long Chen as he continuously advanced.

Behind him were countless shields.

"What do I want?"

Hearing these words, Long Chen couldn't help but laugh. What he wanted was very simple, he just wanted all these Ancient Giant Demons to die! It was just that he couldn't do this step. Up till now, he still held onto the last sliver of hope, but could not see the direction at all.

Now, he had thought of one thing. Perhaps, there was still a huge regret that he was unable to find Su Yan for Mo Xiaolang.

I wonder how Su Yan is doing now.

Long Chen missed her a little. He felt that even if they were going to die, they should see her again. It would be better to perish together with the world.

Of course, he would do his best to kill as many ancient Giant Demons as he could!

This kind of coercion could only stabilize for a short period of time. Once more ancient Giant Demons appeared, it would have no effect at all.

Therefore, he suddenly said: "Now, I have a request. I know that you all definitely know Su Yan, who is used to threaten Mo Xiaolang. I want this little girl to use this Earth Fiend Demon's life in exchange for her life. "

Hearing Long Chen's request, the Immemorial Giant Demons were all stunned.

At this time, a few more Immemorial Giant Demons crawled out and joined them. Fortunately, they weren't Immemorial Giant Demons of Perfection, but even if there was one more, it would still be an enormous pressure.

Their shocked expressions were similar to what Long Chen had guessed. They indeed didn't think that Long Chen would care about Su Yan's life and death. However, after that, they suddenly laughed.

"Brat, it seems like you don't know what's going on."

Under Long Chen's control, the Earth Terminus Demon struggled a little before laughing coldly.

"What do you mean?"

Long Chen didn't really understand. Wasn't Su Yan's purpose in coming here to threaten Mo Xiaolang so she could kill the Magic Star Seal? Could it have other uses?

The Earth Fiend said gloomily, "You definitely don't know who this' Nuwa 'is, right?"

It was a very strange name.

The Earth Fiend Demon continued to speak, "The five strongest Overlords among us, the ones who were once the overlords of the Gods and Demons, are famous Rankers of the Archaeozoic era and the leaders of our Primordial Demons. From the fifth to the first, they are Nothingness Demon, War Demon and Prison Demon Shakya! And the second is Nuwa. "

"Then what about the first place?"

Long Chen asked.

The Earth Fiend was angered and said: "You can't grasp the important part? Nuwa is the second most powerful ruler of our Primordial Demons! High above, below one demon, above all demons! You want to use my life to return the life of the devil? "

"What?"

Long Chen's heart trembled even more.

Su Yan, what does this have to do with the Nuwa Demon who was ranked second in the Primordial Demons?

knew that the Prison Demon God Shakya was that blue haired woman, Shui Bluesmoke, but why was it that Su Yan was a Nuwa Demon?

"What the hell is going on?"

Long Chen held onto him tightly and pulled him back into Death Realm.

Just then, Long Chen heard a familiar voice.

"You don't need to threaten him. Just wait and see!"

This voice seemed to belong to Su Yan ...

Long Chen naturally could not forget her voice. From the sound of it, it was a young girl's voice that was sweet and smooth, as clear as a silver bell.

However, when he heard this familiar voice, it was as if he was separated by heaven and earth!

The sound disappeared as soon as it appeared.

Just when Long Chen was at his most shaken, the entire devil star suddenly exploded!

All the mud, mountains, and rivers on the entire Demon Star turned into powder, and was swallowed up by a newly born vortex, instantly disappearing without a trace. This Demon Star that had existed for tens of millions of years, completely disappeared in the short period of time that it took to reach chaotic star field.

When the demon star exploded, the Great Demon Masters and Little Demon Masters had all died.

Not a single one remained.

Long Chen could only watch as everything disappeared.

BOOM!

Countless black rays of light flickered, and suddenly, numerous terrifying and majestic auras appeared. There were a total of dozens of Ancient Giant Demons, and all of their anger and hatred was concentrated on Long Chen. They had lost four of their brothers to this tiny being!

It became clear in the blink of an eye!

Roughly twenty Ancient Giant Demons appeared in front of him. They all had different appearances, and one of them was soul-controlling demon. They had already escaped from the seal of the demonic star. Every single Ancient Giant Demon was currently in their weakest state, but even in their weakest state, they were still gods and devils.

After being imprisoned for thousands of years without being able to see the light of day, this was naturally the case.

These twenty Primordial Giants were all at the outermost layer. What made Long Chen less nervous was that these twenty of them only had the battle strength of their initial state left, so the difference wasn't too big. It was possible that their initial state were the lowest level of exhaustion, and if they continued to do so, they would probably die.

None of the twenty had Perfection, even though most of their previous true realm might have been the Tassel Demon Realm.

At the very center of the Demon Star, there were still ten ancient Giant Demons that were enveloped by that invisible mucus. At this time, they were slowly struggling to break free, and compared to the others, these ten ancient Giant Demons' bodies and aura were much more powerful, even more terrifying than the explosive Flame Demons!

Every single one of them, even now, was even more astonishing than the Explosive Blaze Demon that had devoured the Silent Demon. The realm of ten million years ago was probably way beyond that of the Explosive Flame Devil and they were able to unleash the strength of their Perfection at least now.

Of course, there was also ...

Chapter 2539 - Heavenly Demons of the Era

Long Chen was not clear on how terrifying and powerful each of the Ancient Giant Demons would be when they recovered their strength. But at least he could now see clearly that after a million years of exhaustion, more than twenty of them had only the battle power of the Taiji Demon Realm, and four of them had been killed by Long Chen. The life and death of the Earth Fiend Demons were still under his control.

Even though the devil star had exploded, it was still binding them. They would need a period of time to break free, but at this time, there were already Archaic Giant Demons helping them tear apart the seals. It wouldn't take long for all of them to come out.

If they were to come out, they would at least have the combat power of Perfection.

But they were not the strongest.

The strongest, the one who brought the most shock to Long Chen!

There were five crystal coffins in the very center of the Demon Star. These weren't simple crystals, but artifacts that could seal the five Devils.

Perhaps these were the five Paragons of the Evil Earth Devil Sect!

Among them, the closer they got to the core, the larger the five crystal coffins became. The one in the middle was much larger than the other four.

Monstrous amounts of demonic energy pressed down like raging waves. In front of the five crystal coffins, even the A web of gold and steel were trembling non-stop!

"These are the five 'Demon Kings' and 'Demon Emperors' of Primordial Demons. They were once comparable to Divine Kings and Divine Emperor. They were the disappeared Nothingness Demon that had never appeared before, the terrifying 'Battle Demon' who used to fight as a devil, Emperor Shakya, Prison Demon God Nuwa, and the leader of the Primordial Demons. He was a Ranker known as the 'Heavenly Devil of the Era', a character who once fought against the ancient Divine Emperor's Emperor Jun. It's in the largest crystal coffin. "

Old Dragon inhaled a breath of cold air and explained to Long Chen.

"There are five levels of the Divine Realm, and the level of the Innate Five Primordial Seeds is the limit. So there were Taiji Realm, Taiyu Deity, Taizhen Deity Realm, and even more, profound Tai Yi Shen Jing! Among them, Taiji Realm control over the rules of ordinary gods, being a normal god, Taiyu Deity control over the Grandmaster God Realm, being called 'Monarch', Taizhen Deity Realm control over the primal chaos spirit, being called 'God King', and Taiyuan Deity Realm control over the primal chaos god, being called 'Divine Emperor', the Emperor Jun of Eternal Divine Emperor, and the Demonic Sky Ji Realm, were all on this level. As for Tai Yi Shen Jing, for the people who grasp it, it would be too easy, but in Archeozoic era, there are no such experts. According to legends, only The Age of Dragons's Unparalleled Dragon are able to reach the Tai Yi Shen Jing! "

Who would have thought, this Heavenly Demon was actually a character that was comparable to Di Jun!

It was just that he didn't know just how much strength he would have left after tens of thousands of years!

When this kind of terrifying existence had awakened, in order to recover his strength, he would definitely swallow down all of the creatures in the Dragon Sacrifice Continent. Long Chen truly did not know how heaven defying he would have to be to be able to defend against such a terrifying existence. It was almost comparable to a real Unparalleled Dragon, a heaven-defying Giant Demon that was nearing on an Ancestral Dragon!

If it were in the past, even thinking about it would make him tremble.

Nothingness Demon, Battle Demon, Prison Demon Sakyamuni, Devil Nuwa, Demonic Genesis

Not to mention them, even the ten Ancient Giant Demons that were still trapped here, Long Chen, who had used all of his imagination, couldn't figure out where he could hope to stop them.

"I'm still standing here today. This is already quite an exaggerated matter. I'm actually going against this kind of god or demon. Thinking about it, it's truly inconceivable."

Long Chen was not afraid, but could not help but laugh bitterly.

This was simply too speechless.

"Lord Nuwa, Diremonster of the Era!"

Just these two names alone were enough to scare Long Chen. This was like the unrivaled Divine Demon of myths, suddenly becoming his opponent. If it was anyone else, he would also feel like he was dreaming in his heart.

Long Chen felt that coming here was just like a praying mantis trying to stop a chariot, he was trying to hit a stone with an egg. However, with his personality, he still stubbornly refused to leave. If it was anyone else, they would have long believed that this was the fate of the Dragon Sacrifice Continent. Now that fate had ended, this world should have disappeared.

"Emperor Jun of the Eternal Divine Emperor?"

The number one divine spirit of the Archeozoic era, whose fame had been around for tens of thousands of years, who would have thought that he would actually block his opponent?

Long Chen's gaze followed the direction of the coffin.

The first was the Nothingness Demon.

There was nothing inside the crystal coffin but Long Chen was able to sense a terrifying devil energy, which surpassed the combined strength of the ten Primordial Giant Demons.

Just like his name, Nothingness Demon almost didn't exist.

Next was the Battle Demon!

believed that this was an Ancient Giant Demon who was extremely similar to him in every aspect. That indestructible will to fight was even scarier than Long Chen's, even though the opponent had been exhausted for millions of years, this will still had not disappeared!

Inside the crystal coffin, Long Chen saw overflowing demonic energy and a black colored body. The body's outline was similar to his, neither too fat nor too thin, it was as if Long Chen could see his own shadow.

Fight!

Battle demon!

These two words were mercilessly attacking the heart.

Right now, she was sitting on her own coffin with the figure of the Blue-haired woman. Inside the crystal coffin, she was exactly the same as the one she saw back then on the Emperor Star Realm, sexy and enchanting, with long blue hair and eyes, fair skin as white as snow, looking pure yet had the charm of a demon. This woman, was born to be pure and sexy.

Behind her, the one mentioned by the earth-fiend, the one named 'Nuwa Devilsnake'.

BOOM!

Long Chen's mind trembled. Through the crystal coffin, he could vaguely see a young lady, with a human on her upper body and a snake tail on her lower body. She looked exactly the same as Su Yan, but was extremely cold.

He had even forgotten about the Heavenly Demon Genesis. His eyes were staring at the penultimate crystal coffin!

Why is it Su Yan!

I forgot to tell you, when the three of us were crippled, my abilities were special. After searching for so many years, I found the most suitable new body for the three of us, and I am indeed a member of the Spirit of Life. As for this Nuwa Demon, her body after her rebirth came from that little girl, because that stinking woman was actually a half-demon and half-snake.

Prison Demon God Shakya raised his slender white legs, sat on top of the crystal coffin, and said with a charming voice.

"Then what about Su Yan?"

Long Chen's heart ached.

He never thought that this woman would bring Su Yan such an ending. It seems like she also brought Su Yan to the Demon Star Realm for a reason, it was just that she was too shrewd, Long Chen could not see through that!

To Aqua Mist, this was just a small matter.

But to Long Chen, this was something that he had betrayed his promise and oath. He had promised Suo Xue to take good care of her little sister, but today, he had caused her to lose even her body!

"She? Naturally, it disappeared forever. "That's good. At least she won't be swallowed by us like you."

Aqua Blue Smoke giggled.

The five crystal coffins were still shaking as if they could come out at any time.

The blood aura in Long Chen's body was roiling. He could no longer see Su Yan clearly, but he could not imagine what Mo Xiaolang would do if he came out from the black world tree and saw his current appearance.

"You did it on purpose because she was related to me and the wolf cub, right?" Long Chen clenched his teeth and asked. He already hated this blue haired woman, she was evil, always was, it was just that Long Chen did not realise it!

Lan Yan shook his head. "You're overthinking it. She really is a good fit for you. Nuwa likes her."

Right now, Long Chen was still holding the Earth Fiend Demon hostage, but he didn't know what he should do.

"Don't be anxious, they're obviously still not free. I think that if the other Ancient Giant Demons don't go to the Dragon Sacrifice Continent and recover to their peak state, they won't be able to destroy this Heavenly Tomb Crystal Coffin'. Their original plan was to first send out the Ancient Giant Demons other than the five of them so that they could recover and then come back to destroy the Heavenly Tomb Crystal Coffin! "It's just that you're part of their plan now!"

Long Chen asked: "So you're saying, as long as I stop all of the Primordial Giant Demons other than the five of them, they will never come out, right?"

The old dragon said, "That is indeed the case, but in reality, are you able to stop these thirty ancient Giant Demons? Those ten were in the process of escaping. Each of them was more difficult to deal with than the Explosive Blaze Demon! "

At least there was still a glimmer of hope.

He took a deep breath, then took a final glance at Emperor Shakya, as well as at the Nuwa behind him. Su Yan also seemed to be in deep sleep, among the Five Devils, only Prison Demon God Shakya was able to communicate with Long Chen and the other Ancient Giant Demons. Perhaps all this time, Prison Demon God Shakya was the biggest decision maker and planner on how to get out of their predicament.

"Enough, I won't be entangled with you anymore." Let's first release the god-walking demon and deal with him. "

They had joined hands to destroy the seal of the Ancient Giant Demon together. Long Chen was also unable to stop it, and in that short period of time, an Ancient Giant Demon that surpassed the Explosive Flame Demon was born!

This was an extremely long and ancient Giant Demon. Its wings were spread to cover the heaven and earth like a black line, and its head was like a hawk's. It had sharp peck, sharp claws, and its entire body was covered in black dragon scales.

Whoosh!

Extreme speed.

"Be careful, the speed of this god-walking demon is extremely terrifying. Even your power of time may not be able to affect him. "

It was precisely because of this that Aqua Blue Smoke allowed him to deal with Long Chen, making the final decision. With this woman here, Long Chen reckoned that he would never be able to obtain any victories in terms of intelligence.

Chapter 2540 - god-walking demon

god-walking demon was like a gecko with a cheetah's body, but he was covered in dragon scales, and had huge wings of flesh. His eyes were like thin lines, showing off a sinister blood light!

Currently, none of the other Archaic Giant Demons dared to approach his location.

Long Chen naturally did not know what realm this god-walking demon used to be in, but now, he was at least stronger than the Flame Devil!

Long Chen had now experienced numerous life-and-death battles. Even though he wasn't exhausted, his current combat strength was naturally inferior to when he was fighting the Explosive Blaze Demon.

What the god-walking demon was adept at should be extremely fast rules. Looking at the space beside him, he might even be adept at the rules of space.

When he stared at the god-walking demon, he felt a sense of extreme danger. The reason why the Demonic God Sakyamuni allowed him to escape first was so that he could restrain himself!

Long Chen even strongly felt in his heart that with this god-walking demon's speed, once this A web of gold and steel broke, he would probably only need a few breaths of time to rush into the Immortal God Realm! This was true speed! Even if the chaotic star field were to go to the Immortal God Realm from the periphery, it would still take a long time!

"Phew ..."

god-walking demon, amidst the howls of the crowd of demons, came out from the crowd and arrived in front of the demons. He had a rather long tail, which looked like a whip as he swayed in the air.

At the same time, there was a pair of blood red eyes staring straight at Long Chen.

"Is this the Mortal Spirit?" Or is it the Dragon Fighter? "

The god-walking demon had an innate domineering aura. That sharp voice also made the other Ancient Giant Demons not dare to approach him!

Long Chen never thought that at this time, he would actually have to fight with the core Rankers of the Ancient Giant Demons! His purpose for coming to the Demon Star was only to stop Mo Xiaolang, to save him from leaving. He never thought that the Demon Star would explode, and never thought that after the Magic Star Seal shattered, he would actually be able to stop the horde of demons.

These were all illusions.

However, all of these illusions seemed to have reached their limits when the god-walking demon appeared.

"He actually made our Primordial Demons lose four brothers!"

god-walking demon stuck out his snake-like tongue from the sharp bird peck, licking the surroundings and letting out a cold sneer.

"Whoosh!"

Long Chen only heard this one voice before god-walking demon had already disappeared from his original position. That wave of fatal danger approached with a frightening speed, and in the midst of the lightning and fire, it brought about a danger to Long Chen!

"The Sea of Chaos!"

However, he had discovered a problem, and had still underestimated his opponent. This caused his opponent's speed to actually reach before he had even used the Sea of Chaos to rush to his front, and by this time, Long Chen was already unable to stop him.

In space, an unprecedented pressure of laws was approaching!

Long Chen was very sure that if he still held the Earth Fiend Demon hostage, it was very likely that he would be killed by the god-walking demon before he could throw the Earth Fiend Demon into the Death Realm.

Therefore, he made a prompt decision, and threw the Earth Fiend Demon in the direction of the god-walking demon's attack.

All of these happened in an instant. For the current Long Chen, he could temporarily rely on the Halberd to display a great amount of battle power, so he did not need to transform into a dragon. In his human form, he could even more easily and nimbly control the Halberd!

Naturally, this also reduced the number of attacks he had to take!

Instant transformation!

Sou sou!

Only when Long Chen controlled the sea and escaped for a distance did god-walking demon stop chasing him. When he turned around, he had already held onto the Earth Fiend Demon and was throwing it towards the Primordial Demons.

"Trash!"

god-walking demon scolded. When he looked at Long Chen again, a strange smile had already appeared on his face.

Long Chen did not answer. Holding the Halberd, the power in his body increased rapidly as the billions of lives supported him in his battle to this point. In this battle, he had become more and more courageous as each victory brought about a large degree of improvement!

The old dragon said: "The moment god-walking demon appears, the other nine will also gradually come out. Long Chen, you can resign yourself to your fate."

It was the Supreme Divine Emperor Halberd that had given Long Chen hope previously.

And now, it was also him who was advising Long Chen. This was already the end, at least in terms of the current situation, even if the five most terrifying Primordial Demons did not appear, the thirty Primordial Giant Demons in front of Long Chen still had no chance of defeating them!

Right now, the rest of the Ancient Giant Demons were helping the remaining people escape, and only the god-walking demon was busy killing Long Chen.

"No."

Long Chen only replied coldly. The moment she saw Su Yan, it meant that he could not leave this place, and she could not give up either. She couldn't accept her fate. He didn't have the qualifications.

Whoosh!

This time, it was the god-walking demon who was going to attack! The god-walking demon had received the orders from the Demonic God Sakyamuni. Therefore, he would definitely give his best to settle this mission, the fastest would be Long Chen! If he was a little bit late, he would lose face!

"Such a fast speed!"

Now, Long Chen had already controlled the sea to the limit during times of chaos to go against his will. He was messing with his opponent's speed, but since it was so timely, the other party could also control it to the extreme. When Long Chen increased his speed, he slowed down, and when Long Chen weakened the flow of time, he increased his speed.

Being close to Long Chen, was also only for a split-second!

Swish!

In the blink of an eye, the gigantic beast was right in front of him, laughing coldly.

"Go to hell."

Before the sound of the explosion could be heard, the attack had already arrived.

Rip!

The surrounding space shattered, forming countless of fragments around god-walking demon. Those fragments were moved up by his hands and all gathered under his Demon Claw!

Ding ding ding!

A large area of space shattered as the god-walking demon gathered together, forming two blades with terrifying power. The blades became invisible, and with just a casual sweep, it was possible to cause heaven and earth to fall and earth to shatter! Countless divine inscriptions flashed on the blade. A single character could shatter the world!

"Heaven and Earth Dagger!"

Even if it was just for an instant, under his control, the Heaven and Earth Dagger in his Demon Claw attacked Long Chen tens of thousands of times!

Shua shua shua!

Seemingly all the worlds behind Long Chen had collapsed!

His Supreme Divine Emperor Halberd erupted with a tyrannical light, causing the momentary ancient gold to undergo a huge change. It formed a golden shield to block the enemy's attack, and the flaming wind also surged towards the enemy!

BOOM!

The last time, the Heaven and Earth Blade shattered on Long Chen's Supreme Divine Emperor Halberd!

However, Long Chen was struck by the A web of gold and steel and his internal organs shook, he could only use his fire. In this exchange, he was completely on the passive side and could only defend, which could be considered an absolute disadvantage.

Indeed, even the Explosive Blaze Demon was not enough for god-walking demon to deal with.

"If you did not have the Supreme Divine Emperor Halberd of death grade, you would be dead this time.
"Oh, what a pity, my treasure was taken away by them!"

Having been sealed here, they had all lost their own Creation God Equipment.

The aura on his body gradually became bloodier. This time, he slowly approached Long Chen, but at this time, with the help of the other Ancient Giant Demons, a second Primordial Demons that was comparable to that of the god-walking demon was born!

In Archeozoic era, it should belong to the realm of the 'Demon Lord' Taisui Devil.

A real Demon Lord could currently crush god-walking demon to death with a single hand. This showed just how exhausted the god-walking demon was! The stronger the Primordial Demons, the more severe the treatment they would receive!

At this moment, his eyes were filled with viciousness, he opened his wings and also opened his arms wide, staring at Long Chen. Although he did not say a word, his killing intent had already engulfed the entire world, even the people on the Dragon Sacrifice Continent were trembling because of this god demon!

Weng! *

"World Shattering Storm!"

It was evident just how quick these two words were. Just at that moment, as if the entire world had disappeared, Long Chen fell into a deep darkness, and then, in that instant, with a ding sound, a storm swept across!

The entire space was torn apart into countless fragments, creating an apocalyptic space storm!

RUU...!

The tornado started to engulf everything, the god-walking demon seemed to be controlling within it, as if his figure was everywhere, his sinister gaze and the ferocious snake tail behind him seemed to be everywhere.

Swish swish!

This storm became increasingly large. Besides the place where the Ancient Giant Demons stayed being safe, it was already beginning to spread outwards, even instantly enveloping a portion of the black world tree. Fortunately, the space storm was unable to tear apart this black world tree.

But Long Chen was in danger.

In actuality, what the god-walking demon used was the 'Grandwake Divinity Canon', and in reality, it was the 'Demon Lord's Rule'. Compared to the ordinary Divine Spirit rules, this was a level higher.

He was so exhausted, if it wasn't to kill Long Chen, he wouldn't have used the Grandwake God Technique.

An endless amount of spatial fragments, formed into thousands of Qiankun blades, forming into a spatial storm that engulfed Long Chen's surroundings, gradually shrinking. There seemed to be no gaps in the sky or in the earth, where there were no gaps for Long Chen to escape!

"The only way is to fight our way out of this storm." Old Dragon reminded.

Long Chen had to admit that this was the only way.

Since he had already made up his mind, he couldn't hesitate, and he couldn't be afraid of death! He placed all of his determination into the Supreme Divine Emperor Halberd in his hand, gritted his teeth,

and made his move. The Supreme Divine Emperor Halberd roared like a giant dragon, and followed Long Chen's charge towards the mini world shattering storm!

BOOM!

When the profound meaning of the word whirl collided with the Shattered World Storm, Long Chen felt even more deeply that this storm was terrifying. The rule of this storm was to 'tear through all,' and when Long Chen blocked the power of the laws, the power of all the rules poured towards him!

Explode!

The supreme Divine Emperor Halberd was unable to break through the barrier of this world shattering storm!

Long Chen was quickly submerged, but he had not been torn apart yet. However, at this time, he saw that the black world tree was actually disappearing far away!
