

War God 2581

Chapter 2581 - The Nine-Nine Sky Burning Secret Art

Hearing those three words, Long Chen was stunned.

At such a critical juncture, this Yan Jun still dared to fuss about these small matters with him? Or was he still the same as before, not believing in him at all?

Sure enough, Long Chen's guess came true.

Yan Jun was enraged, and said: "You are always in the same group, right! If I let you out, I'll let you five team up against me. Don't even think about it! "Don't think that I'm so easy to fool. You guys just act to save the Nuwa, or do you think I'll believe you just because you made up some sort of excuse?"

Even until now, the flames in the Flame God's bottle gourd were still pouncing towards Long Chen.

After such a long time had passed, Long Chen was still safe and sound. Yan Jun had already suspected something, but he had a strong feeling that Mo Xiaolang, who was by his side, had restrained him.

"Yan Jun, think it over clearly, I don't have the time nor am I in the mood to argue with you. If I was on the same side as them, I wouldn't have needed to remind you from the beginning. "Right now, we're trapped in the era ship, and the only way for us to survive is to fight side by side. Only then can we have a sliver of hope, if you continue to be stubborn, the first one to die will be you!"

"Bullshit!" I'd like to see how these three guys, who only know how to play tricks, can kill me. You better shut up or I'll use the Flame God's Gourd and refine you! "

Long Chen was speechless.

However, everyone in the Lingsu Star Sea knew that this had always been Yan Jun's personality, it was just that he was extremely talented and lucky. He was now one of the three mighty Divine Lords, and had never been stepped upon in his entire life.

Furthermore, the two gods' deaths, the destruction of seven stars, the death of seventy million lives, and the heavy losses, as well as the heavy pressure and immense rage, had caused him to be unable to calm down and think about it. He only remembered one thing, and that was that Mo Xiaolang had stopped them when they were trying to kill the Nuwa Devils in the end.

Hatred and anger drowned out his rationality!

Therefore, it was impossible for him to release Long Chen here. He would rather believe in himself than believe in Long Chen. It was precisely because of being tricked by the Ancient Giant Demons that Lingsu Star Sea suffered such heavy losses!

"Daring to kill two of our compatriots, seventy million citizens, no matter who you are, you are destined to suffer for eternity! I can't reincarnate! "

Yan Jun shouted out. Amongst the three demons, he had acted even faster than them.

Long Chen couldn't see the situation outside clearly, but he knew that Yan Jun was dead for sure. His temper was as explosive as the laws of fire that he trained in. This kind of person could easily die in battle if they were angry.

"Flame God's Armor!"

On Yan Jun's body, a gorgeous set of fiery red armor formed. This pair of armor covered his entire body, it was magnificent and domineering as it shone with an endless radiance.

"This is the same as the 'Flame God's Gourd'; it's a Creation Divine artifact of the 'prehistoric level'. it seems to be the Flame God Gourd coming from the same place. " Old Long could understand it at a glance.

He was a creation divine artifact of the death grade, and there was a certain difference between him and the prehistoric level. In front of this kind of artifact, he was indeed rather respectful.

was currently like a flame god, and the heat was surging, causing the pitch-black Primal Ship to be burned into a fiery red. The space inside had basically become the world he controlled.

"Die!"

Yan Jun ignored everything else and attacked! He had sparred with these three before, and he wasn't that strong. Even though defeating them might be difficult, he believed that as long as he had enough time, it wasn't impossible! As for his opponent's small amount of strength, it was impossible for him to defeat him.

"Yan Jun!"

Long Chen made his final effort and explained a lot of things to him once again. However, Yan Jun was currently immersed in battle and didn't pay attention to Long Chen at all.

"Forget it Long Chen, think carefully. If he dies in battle, what will you do?"

Old Dragon said.

He had told the truth. If it was the Sacred Master or the Dark Monarch, they would definitely believe in Long Chen.

"Yes." Long Chen did not speak further.

Through the Flame God's bottle gourd, one could vaguely see that in the small space inside this Primal Divine ship, a fierce battle was occurring.

"God Fire Emperor Fist!"

Yan Jun's fists were condensed with divine fire, he controlled a large amount of divine fire in his body. With every punch, the divine fire condensed on the fist imprint would be different, converging together again and again, and under the clash, it would produce a terrifying power. When he used this set of fist techniques, it created a huge storm, completely submerging the Three Devils!

The rule of the God Fire Emperor Fist was that the God Fire and Fist Art were perfectly combined to achieve the highest effect. God Fire was Fist Dao, and Fist Dao was God Fire!

"Disappeared? Or is he dead? "

Yan Jun was extremely shocked. He knew that just with his current strength, he shouldn't be able to kill three of them!

BOOM!

Under the bombardment of his fist, the Primordial Divine Battleship shook once again and the flames were instantly absorbed back into his body. In front of him, three Primordial Demons appeared unscathed and unharmed.

"What a miraculous fist technique. If it was outside of the Primal Chaos Fire God Ship and fought alone, none of the three of us would be your match. After all, we've been imprisoned for tens of thousands of years. We've consumed too much of our strength."

Lan Yan's face was still full of smiles as she spoke in a delicate voice.

This woman's charm made Yan Jun's heart heat up, but when he thought of his deep blood feud, his eyes immediately turned blood-red. He did not expect that his opponent could actually dodge the God Fire Emperor Fist with ease.

However, he had the Flame God Armor, so he was very much at ease.

Without a second word, he unleashed a boundless power like a cannonball. The power produced by his Divine Source Power fused together with the flames, and he possessed dozens of different types of divine flames.

Under his suppression, the three Devils seemed to retreat step by step!

"Using all living things as food is actually despicable, disgusting reptiles. I'll send you three to hell today!"

BOOM!

Yan Jun directly clashed with the Hun Yuan class Manifestation Divine Artifact, causing an incomparably intense explosion and upheaval to occur to the entire Creation God Manifestation Artifact. If the God Spirit of initial state was here, it would probably be injured by his powerful vibration!

A terrifying force exploding in such a narrow space was quite terrifying!

"Nine-Nine Sky Burning Formation!"

Yan Jun roared, his voice was cruel!

The Infinite Divine Art that he cultivates is the most precious thing on his body, it's called the 'Nine-Nine Burning Heaven Secret Technique'. It was the fourth stage, Infinite Divine Art. This was one of the most precious things in the entire Lingsu Star Sea. In the entire Lingsu Star Sea, there were only two types of Genesis and one was in the hands of a Sacred Master.

The ninety-nine Burning Heaven Secret Arts could allow Yan Jun to open ninety-nine eighty-one 'divine fire cavities' within his body, and could absorb and impregnate spirit nourishing fire. After many years of collection, Yan Jun had a total of more than fifty seeds of Divine Flame on him, and the Nine-Nine Burning Heaven Secret Technique was able to completely fuse his Divine Source Power and Divine Flame, forming the 'Nine-Nine Burning Heaven Source Energy' of Genesis.

The Nine-Nine Heaven Burning Formation that Yan Jun was using was the deepest formation recorded within the Nine-Nine Heaven Burning Secret Technique. Using the projection of the body as the formation diagram, he used all of the divine flames, and then with the Flame God's gourd as the center, he swallowed and spat out flames, forming a terrifying formation diagram that could burn the heavens and the earth!

Previously during the free-for-all, Yan Jun not being able to remember to use this move was his greatest regret.

"Otherwise, they wouldn't have died!"

Yan Jun's face was covered in tears. Amongst the two dead gods, one of them was his own brother. He was the one who created the deity, so his foundation wasn't too stable, and he couldn't escape the black hole's attraction!

Hatred!

"All of you, die!"

BOOM!

Beneath his feet, a massive formation appeared, covering the entirety of the Primal Divine ship. He placed the Flame God's gourd at the center of the formation and activated the formation. On his body, there were 981 'Divine Flame Caves'.

The Nine-Nine Sky Burning Formation was about to activate!

Following that, the Flame God Gourd began to violently move, and the flames inside became chaotic as well. It was impossible to clearly see what was happening.

RUU...!

There should be a huge battle going on outside, and it was three against one. It had to be said that Yan Jun was quite capable, and at least this battle had lasted for an entire hour, and it did not seem to be over yet.

BOOM!

The Flame God's calabash seemed to have fallen to the ground.

"Big brother, will he die?"

Mo Xiaolang asked.

Long Chen thought for a bit, the Heavenly Demon Ji Realm would not drag him in for no reason, and although Yan Jun was powerful, his eyes were already blinded by hatred. The possibility of him being able to win or escape should be very low.

"I think so." Long Chen replied.

It was a good thing that they had Mo Xiaolang's protection. Otherwise, Long Chen would have been burnt to a crisp.

"Didn't he have the Flame God's armor?" That was indeed a good thing.

However, at this time, a voice suddenly sounded out. "The Flame God Armor has already been destroyed and the Creation Heroic Spirit has died. As for Yan Jun, he has already been swallowed by the Heavenly Demon Ji Realm."

This voice was very young and tender, when she was speaking, a red-skinned child who was covered in flames appeared in front of Long Chen and Mo Xiaolang's eyes.

Long Chen realized that this was the Good Fortune Heroic Spirit of the Flame God's Gourd.

It all happened in the form of

"Is Yan Jun still dead?"

This guy, even at death's door, didn't let Long Chen go. He really was stubborn.

After fighting for an hour, it had completely surpassed Long Chen's expectations. He was very clear in his heart that even though the Three Demons were exhausted, they were at least once the Demon Emperor and the Demon King. It was normal to die in battle.

However, if a Heavenly Demon devoured him, it would be unimaginably powerful.

Chapter 2582 - Extreme Demon Spirit

To Long Chen, the deaths of Yan Jun and the others from the Taiyu Deity made them, who were inside the Primal Chaos Battleship, even more dangerous.

For the time being, the Heavenly Demon Primordial Flame and the Flame God's bottle gourd had yet to discover them, but if this Creation God Creation Artifact was placed here, and it was also the God Creation Artifact of the 'prehistoric level', then to the current them, they would definitely not lose it.

Anyway, it's still very troublesome.

In front of him was the little red flame child, the God of Creation's Heroic Spirit of the Flame God's Gourd. At this moment, the Flame God's Gourd had been released from its restraints on Long Chen and the others, allowing Long Chen to clearly see the situation outside.

Inside the Primal Divine Ship, the Three Devils stood side by side. The Heavenly Demon Primal Heavenly Primal closed his eyes, probably trying to digest Yan Jun. To the current him, Yan Jun should be considered to be a huge force that would take some time to digest. After it was completely digested, there would probably be ...

Long Chen simply could not imagine.

After having devoured two gods and five stars and tens of millions of lives, he was also in a state of recuperation and digestion after jointly defeating Yan Jun.

Once they succeeded, it would undoubtedly be the end of the world.

"Lan Yan, let's rest for a few days. Help me manage the Primal Godship, don't let those guys outside discover us."

Heavenly Demon Primal Daoist.

"Got it, big brother. This Flame God Gourd belongs to me. I'm going to feed it to my 'Shakya Emperor's Prison Sword'."

Aqua Smoke said charmingly.

"Yes."

The Diremonster nodded and gave his permission.

It seemed that Shui Lan would use the same method Long Chen did before to restore the might of her Order-level. The fifth stage of Order-level exceeded the third stage of prehistoric level. When the true

recovery of the Heaven Punishing Divine Sword came, the Flame God's Gourd would be nothing more than a piece of cake.

Long Chen roughly knew the current situation.

At this time, under the control of the Creation Heroic Spirit, the Flame God Gourd absorbed all of the fifty or so types of Divine Flames that Yan Jun had previously controlled into the Flame God's Gourd. In an instant, the fire energy within the Flame God's gourd increased by a great deal. These fifty odd types of Divine Flames were Yan Jun's escape before his death

Those who had escaped had been hovering in the air all this time.

"Hey, you still dare to act without permission?" Aqua Blue Smoke walked over with her slim waist, her long blue hair fluttering in the air, sexy and alluring.

Diremonster and Nuwa had both entered their meditative state.

The Flame God's Gourd would inevitably fall into the hands of Aqua Blue Smoke.

Inside the Flame God's bottle gourd, the Creation Heroic Spirit finally spoke to Long Chen, and the fire-red child said, "You two, can I make a deal with you? It's also of countless benefits to you guys. "

"Go ahead." Long Chen was currently at a loss of what to do. The only good thing about it was that if Mo Xiaolang were to swallow all the flames in the Flame God Gourd, he would definitely be able to grow to the level of the Tai Chi Demon Realm. He was afraid that he would catch up with Long Chen again and become one with him.

Strong. If the two were to cooperate, they might even be able to unleash Yan Jun's strength.

They were no longer ordinary people.

Seeing that Long Chen was so straightforward, the fire-red child did not hold back and said: "My master has already died, and I am in a state of no master, I am willing to be loyal to one of you, but you all must ensure my safety. I do not wish to die in battle like the Flame God Armor. At the same time ...

In order to help you, you can use all of the flames here. At the same time, I also have the 'Nine-Nine Burning Heaven Secret Technique' of Yan Jun's 'Genesis', which is one of the most precious Grimoires in the Lingsu Star Sea.

I'll pass the Heaven Secret Technique to you. Of course, you can learn them, but you must return them back to the people of Lingsu Star Sea. "

This was not a deal at all, but a huge benefit.

"There's no problem at all. This brother of mine is someone who trains in the laws of fire. If you cooperate with him, it would definitely be even more perfect." Long Chen naturally understood that Mo Xiaolang was the truly suitable person.

The Flame God's Gourd had yet to see Mo Xiaolang's abilities, but to be able to remain unharmed after being imprisoned in the Flame God's Gourd for such a long time, definitely showed that he was talented.

"Since that's the case, let's begin!"

The fire-red child rushed towards Mo Xiaolang, not much time left. With the help of the fire-red child, Mo Xiaolang had an extraordinary talent, he could definitely control the Flame God's Gourd quickly. At the same time, it could devour all of the divine flames in the surrounding area.

Mo Xiaolang himself, had already mastered many types of Divine Flames.

This process was extremely quick, but when Mo Xiaolang revealed that he had engulfed Divine Flame and was able to completely digest it, and even become stronger because of it, the Flame God's calabash was simply shocked.

At this moment, Aqua Blue Smoke cast a secret technique, locking down the Flame God's calabash.

"You're mine now, you better not resist. Otherwise, the outcome will be even worse! "

She had the Flame God's Gourd under her control, so naturally, the Flame God's Gourd had to resist with all its might. However, even though a Creation Divine artifact with prehistoric level possessed a vast amount of Creation God Power, it was still slightly inferior to Aqua Blue Smoke.

Whoosh.

Aqua Blue Smoke moved to another location on the warship.

Now, Mo Xiaolang was nervously devouring flames and controlling the Flame God's gourd. Long Chen was, however, thinking of a way to escape.

"Now that Aqua Blue Smoke controls this warship, he is the weakest of the three and there won't be any major gains this time. If the wolf cub succeeds, we can appear within the Fire God's Gourd unexpectedly and choose a forceful attack method."

Knock her down and charge out shouldn't be a problem! But there is only one chance! "

He had already reached the level of Nine Palace Calamity, and was vastly different from before.

He believed that Mo Xiaolang would also be far stronger than when he was dealing with Nothingness Demon s.

Weng! *

Aqua Blue Smoke placed the Flame God's Gourd on the ground. In her hand, the God Slaying Sword that had once disappeared from Long Chen's hands once again appeared.

The aura of slaughter had completely surpassed Long Chen's control.

Aqua Blue Smoke couldn't see how evil it was, but this God-Slaying Sword was the core of this evil aura.

"Darling, your big meal is here. Have a good meal!"

Aqua Blue Smoke giggled.

The God-Slaying Sword began to tremble as it let out sharp screeches. The green eyes of the skeleton on the hilt became even brighter.

As she spoke, she raised her sword and prepared to attack.

Inside the Flame God's bottle gourd, even though Mo Xiaolang's speed was so fast that it caused fire-red child to be stunned, the God Slaying Sword had already begun its attack. He could only continue to shout for Mo Xiaolang to speed up!

"Hurry up!"

"Inhale!"

Over fifty divine flames, in addition to a portion of the flame god's gourd's purple divine flame, were all swallowed by Mo Xiaolang. The fur on his body burned with various types of flames, his eyes did the same, an incomparably terrifying and scorching aura was released from his body.

Right now, the flames in the entire Flame God Gourd were not even as terrifying as Mo Xiaolang's.

RUU...!

The Flame God's gourd lit up, and more than fifty divine flames shined, constantly trembling. The overflowing aura caused the God Slaying Sword to freeze in fear, not daring to slash down. After all, the God Slaying Sword only had dreamy grade.

"Darling, don't be afraid. Isn't it just a smelly gourd? "I believe that you can definitely eat it. If one day doesn't work, then ten days. If ten days doesn't work, then a hundred days does."

The blue smoke consoled her Sakyamuni Prison Sword as though it was comforting a child.

Inside the Flame God's bottle gourd, Mo Xiaolang's strengthening continued in an incomparably tense atmosphere.

Currently, under the encirclement of countless Divine Flames, Mo Xiaolang was simply defying the heavens, his devil energy was constantly rising, and the pressure on his body was also increasing. He was becoming more and more like the other Divine Demons.

RUU...!

Endless flames exploded on his body.

"Clang!"

The God-Slaying Sword finally slashed down for the first time.

"Ugh."

The fire-red child cried out in pain. Although the God Slaying Sword was still only a dreamy grade now, with the help of Shui Lanyan's high level of power, her power merged with the God of Creation Divine Slaying Sword's power and caused some damage to the Flame God Gourd.

This feeling was like an elephant being torn apart by an eagle.

Time was running out.

Long Chen was at the entrance of the Flame God's Gourd, and if Mo Xiaolang did not succeed, the Flame God's Gourd would not be able to hold on.

But now, he could only wait!

Mo Xiaolang had already finished devouring the flames and was in the process of digesting them. His strength was also increasing at a terrifying speed. Other gods would need to spend thousands of years, or even tens of thousands, or even tens of thousands of years to achieve an increase in just a single breath of time!

"What a miracle!"

fire-red child could not help but say.

The path of the gods was even more difficult. It took tens of thousands of years, hundreds of thousands of years, and even forever to advance on a single level. It was normal.

Bang!

Another sword.

Another piece of the Flame God's gourd was torn off.

Now that he had become the Flame God's Master, and was connected to the Fire God's Gourd's Creation Divine Power, when the Flame God's Gourd was harmed, Mo Xiaolang was especially furious in his heart!

The wrath of the Sun Devouring Demonic Wolf!

In his heart, there was deep hatred for Su Yan; it was only because he didn't express it.

However, all of this was rapidly changing within his body!

BOOM! It seemed like a barrier had been broken.

Because of the law of devouring, he had mastered many different Laws, and even possessed the 'Divine Lord's Law'. As a result, as long as he grew in strength, his level of cultivation would soar.

"Done!"

The most critical moment had finally arrived.

Mo Xiaolang turned into a Sun Devouring Demonic Wolf, the hair on his body entwined with endless flames, and amidst the roiling sea of flames, he arrived in front of Long Chen.

Outside of the Flame God's Gourd, Aqua Blue Smoke was chopping down on the Flame God's Gourd in a satisfied manner. Every attack would cause a great deal of damage to the Flame God's Gourd.

"I never thought that what used to be a weapon would now become an opponent!"

Long Chen's emotions were complicated.

Whether he could survive this ordeal depended on this move.

Bathing in the myriad of divine flames, Mo Xiaolang had already climbed to the peak of the Taiji Realm.

"Big brother, what should we do!"

Long Chen thought for a moment, then said: "After you leave, use your strongest attack to attack her. You must cause her harm, and I will think of a way to tear apart this era's divine ship.

Having stayed in this era warship for over a year, he was quite familiar with the structure of this place.

Chapter 2583 - Escaping from Life

When he was under the control of the Heavenly Demon, Yan Jun probably wanted to rush out of the ship as well, but he did not succeed.

Although the Primordial Divine Battleship was once a Hun Yuan's terrifying Creation Divine Artifact, it was now like the Primordial Heavenly Demon, completely oil dried up and in ruins. It probably even had lost track of the Creation Heroic Spirit.

"The reason why we have to be fast is because we are worried that it will alarm the Diremonster and the Nuwa Alliance. That's why we only have one chance."

Long Chen said calmly.

"I'm ready." Mo Xiaolang nodded.

In the middle of all the divine flames, the Nether Demon Ancestral Fire burned like a king. Adding the eight types of divine flames Mo Xiaolang had absorbed from the Infinite Fire Devil, there were also the Explosive Flame Devil, the Purple Flame Devil, and more, he now possessed a total of nearly seventy types of divine flames.

Presumably, he was trying to use the move that he had once used to devour the Nothingness Demon.

Even if he couldn't absorb the blue smoke, it would at least deal her the greatest amount of damage.

"All of our paths of survival are up to you." The fire-red child said.

"Don't worry, I'll get the 99 Burning Sky Array." Mo Xiaolang said seriously. According to the previous transaction, they had to leave the Primordial Divine Battleship before the fire-red child would hand over the Nine-Nine Burning Heaven Secret Formation to them.

He made an agreement with Mo Xiaolang about the time to make his move.

Just as the blue smoke cleaved down and struck the Flame God's calabash, and Long Chen charged out of the Flame God's calabash.

Now that Mo Xiaolang had become the master of the Flame God's Gourd, he could naturally control the Flame God's Gourd at any time.

For Team Blue Smoke, this was probably the time to relax.

She did not see Mo Xiaolang at all. To her, what she saw were suddenly dozens of types of divine flames, erupting from the Flame God's Gourd. The flames instantly engulfed the entire Primordial Divine Battleship's interior, of course, with the exception of the Heavenly Demon God.

"Forbidden Land of Fire!"

Within the Forbidden Land of Fire, there were dozens of types of divine flames. Adding Mo Xiaolang's, the time spent on dealing with the Nothingness Demon this time, simply became more than a little more than just a little stronger!

After reaching the Nine Palace Calamity realm, this was the first time he had exhausted all of his strength to use this move. Above his head, the Death Realm's dragon door opened and the origin of the eight Unparalleled Dragon, the dragon souls, rushed out with an endless deathly aura!

The target was the door to the warship.

The water blue smoke that was controlling the Primal Godship was completely focused on resisting Mo Xiaolang's Forbidden Land of Fire. It was very difficult to care about the Primal Godship!

As for the two of them, the reason why Aqua Blue Smoke was able to control the Primal Ship was because they themselves were currently having a hard time being distracted.

In that short moment, Long Chen's eight Unparalleled Dragon s used all their might and used their most explosive strength to tear open the door, causing the entire Primal Ship to tremble. The Heavenly Demon must have sensed such a huge commotion!

"Let's go!"

Mo Xiaolang held the upper hand and was almost able to swallow the blue smoke.

Perhaps after a few more breaths of time, he might succeed.

However, Long Chen still urged him with no hesitation. He had already sensed that the Primal Heavenly Demon had awoken, if he were to take control of it, the gates of the Primal Godship would definitely be closed and it would be impossible to open it again. It would then truly be impossible to leave this place.

He had fooled the Heavenly Demon Genesis. He hated himself to the extreme.

Although Mo Xiaolang was unwilling, he still gave up. He released the restraint on the blue water smoke, turned into a ball of divine fire, and followed Long Chen out of the divine ship. Without Long Chen's support, the divine ship instantly closed and the blue water smoke tried to charge out, but was slightly obstructed.

"Stop chasing, are you alright?" At this moment, the Diremonster of the Era and the Demonic Nuwa appeared next to Aqua Blue Smoke.

"This is so infuriating, I didn't expect them to be hiding here. This was the best opportunity to teach them a lesson. I'm afraid they've gotten stronger again. " Shui Lanyan said angrily.

"Is it really that fast?" The Heavenly Demon Ji Yuan muttered to himself, "Just nice, after we destroy this Lingsu Star Sea, I will force them to sign a contract. As punishment this time, the Dragon Sacrifice Continent cannot continue existing.

Shui Lanyan's eyes lit up, and she said tenderly, "What a good idea, they still dare to be mischievous. Didn't they want to protect the ruined Dragon Sacrifice World? Let them swallow what they want to protect. Look at these two little fellows, do they still dare to act recklessly? "

Nuwa said, "It would be better to just kill him. It will save us more trouble." If these two people are not killed directly, there will be no peace at all. "

Lan Yan smiled. "Are you worried about this body?" This is already yours. From head to toe, there's no trace of that little girl anymore. "

With a cold snort, he no longer said anything.

"Alright, let them cause a ruckus. This time, when we have completely digested the power we have gained, we can play a game with them. One God Lord at a time, after we destroy all three of them, won't this become our playground?" The Heavenly Demon Ji Yuan said.

Even though she said this, she still gritted her teeth. Being humiliated by these two for the second time in a row was not a pleasant feeling!

"Don't let me catch you next time."

BOOM!

Just as he came out of the Primordial Divine ship, it seemed that the Heavenly Demon have already taken control of it. The opened door rumbled as it closed, and in that instant, the Primal Divine ship disappeared from Long Chen's sight.

There was no one else in the entire Lingsu Star Sea.

They were currently at the edge of the Lingsu Star Sea.

After they appeared, they created some noise, and the Lingin Gods immediately rushed over. Out of the original eighteen Divine Spirit, there were now fifteen left.

With Sacred Masters and Dark Monarch as the leaders.

The defenses of the entire Lingsu Star Sea became even more stable. With the efforts of the gods, they shouldn't be able to let the three devils break through as easily as last time.

However, the news couldn't be concealed at all. The news of the deaths of two divine gods was spread throughout the world, causing a large portion of the people to be terrified.

Fifteen divine beings, their faces were also quite ugly.

"Why is it you guys!" Where's Yan Jun! "

With the appearance of the era's divine ship, some people came out. The various gods rushed over excitedly, only to discover that it was only Long Chen and Mo Xiaolang.

Some people could not resist their impulse and wanted to attack.

The Sacred Master stopped them, his eyes carried boundless dignity, and asked: "Long Chen, what exactly happened? I'll give you a period of time to explain everything to us! Why are you helping the Nuwa? Right now, why are you the only ones coming out! "

Seeing the strong suspicion and hatred in their eyes, Long Chen understood that this matter was rather difficult to deal with. He first explained the reason why Mo Xiaolang had gone to help the Nuwa Devils, then said, "Everyone, they clearly knew that Mo Xiaolang would do this, so they lured him to attack us, causing an internal conflict. At that time, the situation was critical, and in order to prevent me from fighting with Yan Jun and allowing them to get lucky, the two of us voluntarily entered the Flame God's Gourd to help out.

Chapter 2584 - Trust or not

"Yan Jun was swallowed by the Heavenly Demon Ji?"

All the Gods turned pale, their entire bodies trembling as they looked at Long Chen. They were wondering if they had heard wrongly.

When they saw that even the Flame God's Gourd was here, they helplessly accepted this fact. However, this only served to arouse their greatest anger!

Yan Jun was the second strongest Ranker in the Lingsu Star Sea, the Grandmaster of the super great sect of the Lingsu Star Sea, the 'Flame God Palace'. There was still room for growth and talent. Although he had a violent personality, a short temper and countless lives on his hands, his status in the Lingsu Star Sea was still extraordinary.

Even the Sacred Monarch who was several times older than Yan Jun was unable to cure him.

In the knowledge of the two trillion people in Lingsu Star Sea, he was the invincible Flame God Realm! The people had countless of legends about him, countless of temples, and everyone had grown up listening to Yan Jun's stories.

And now, Long Chen had told them that the Yan Jun of their Lingsu Star Sea had been devoured by the Heavenly Demon Ji Yuan.

If the people of Lingsu Star Sea were to hear of this, it would probably cause a huge commotion.

"Long Chen!"

The Holy Lord shouted!

He said angrily, "Explain to me clearly why when Yan Jun died in battle, you were able to come out alive! If the answer doesn't satisfy us, then we won't be able to dispel the suspicion that you are basically in cahoots with the Heavenly Demon Ji! Then, we will really be impolite! If that's really the case, then I can only blame myself for making a mistake! "

If it wasn't for the presence of the Sacred Master, the other Gods would have already made their move against Long Chen. Especially when they saw that Long Chen had actually left the Primordial Divine ship alive, they found it even more unbelievable.

Although Long Chen was helpless, if he did not find out about this matter and had a huge conflict with them, they wouldn't even need to fight against the Heavenly Demon Genesis, and they would lose for sure. Now that Yan Jun had died in battle, the Sky Demons' side had become even more powerful, and the hope for them was already getting slimmer and slimmer. Therefore, for the sake of the survival of the trillions of people, he had to communicate with the Sacred Monarchs.

After all, with Yan Jun's death, Mo Xiaolang would be able to swallow his flames and become stronger. Although it wouldn't be a big deal to Long Chen, to Lingin Gods, whose mental state was currently weak, it would be an enormous hatred.

"If it wasn't for the Aqua Blue Smoke controlling the Primal Godship, we wouldn't have been able to escape. When Yan Jun took action, we did not help. I am truly sorry, but Yan Jun did not believe what I said at all.

"I can testify to that." At this time, the Blazing Flame God Gourd's Heroic Spirit solemnly said.

He continued, "From the moment Yan Jun was pulled into the era's divine ship, I have seen through all of this. I once advised him to ask these two to help him, but he didn't listen to me and eventually died in battle. The three of them together were indeed powerful. After that, I discussed with the two of them and finally managed to escape. Everything they say is true. "

fire-red child was loyal, of course he did not talk about the details of the deal.

After it had finished speaking, the Lingin Gods finally did not vent all of her hatred and anger on Long Chen.

There was a moment of silence.

Immediately, a divine spirit beneath Yan Jun spoke out in anger, "Long Chen, Mo Xiaolang, the Flame God Gourd is the Creation Divine Artifact of my Lingsu Star Sea. How can we believe that you actually possess his Creation Divine Artifact after Yan Jun's fall? If you are our allies, then why would you steal our Creation God Equipment? No matter what, at the very least, you must immediately return the Flame God's Gourd! "

These words filled Lingin Gods with enmity.

Yan Jun is dead, so no matter what, his Creation Deity Equipment is from the Lingsu Star Sea, how can it be given to outsiders?

fire-red child said, "You all do not have to worry about this point, this is a deal I made on my own accord. At that time, Shui Lan was using a Creation Equipment to destroy me and swallow me up, and the content of the deal with them was: They brought me out seatbelt, I can recognize one of them as my master. Although I was born in Lingsu Star Sea, I have the power to choose my master. "

The other party was even more infuriated.

A god said: "I actually understand, now no wonder you have been speaking up for them the entire time. Flame God's Gourd, I think you have already been bribed by them! He is currently facing them. You might be on the same side as the Heavenly Demon, so how do you expect us to trust you?! Maybe Yan Jun was killed by your team! Now you want to get close to us, and kill us one by one too? "

As soon as these words were spoken, the gods retreated, and their killing intent became even more majestic, now they were going to fight and kill. It was obvious that they didn't even trust the Flame God's Gourd anymore.

To be honest, once Yan Jun died, the moment they thought of their possible defeat, they, who had been at peace for too long, felt too anxious and panicked in their hearts. Hence, it was very difficult to calm their hearts and carefully think about it. After all, if they were to be defeated, it would not just be a simple matter of their deaths.

"Shut up!"

Fortunately, the Holy Lord was still conscious.

He stopped them all.

Long Chen's eyes were sharp like a torch, he said in a clear voice: "Everyone, let me end my explanation, I have a clear conscience, from the moment I announced this to everyone, with Yan Jun as the leader, many people already harbored deep suspicions towards me, causing the situation today to be greatly affected by distrust. Now that things have reached this stage, I do not know how to prove my innocence.

But, I still want everyone to watch carefully, if the Heavenly Demon Genesis appears next time, I will be the first to fight. I do not know if everyone will be convinced by me! "

They wanted to get back the Flame God's Gourd, but the Flame God's Gourd made its own choice. He was shocked by Mo Xiaolang's innate talent and wanted his new master even more. So this cannot be discussed. The Flame God Gourd couldn't even return it to them.

As for the ninety-nine Burning Heaven Secret Arts, the Flame God Gourd would be returned to the Flame God Palace and handed over to Yan Jun's descendant to control.

In fact, the Lingin Gods was struggling quite a bit.

It was not on purpose that they did not believe Long Chen, but the current situation was too confusing, and the price was too big. They could not afford to pay such a price, so they were too nervous!

If Long Chen was the first one to fight, and prove himself, then this would probably be a way to prove himself. After all, even if they thought about it carefully, they did not seem to have seen him do anything from the start, other than the time Mo Xiaolang saved the Nuwa Demon, and the subsequent battles had also proven that she was not that weak when the Nuwa Demon was suppressed that time. She was way stronger than they had imagined, and she did not even need Mo Xiaolang to save her.

No matter what kind of alliance the two of you have with us, I must make such a decision, and that is to send the two of you out of Lingsu Star Sea. If the battle ends and there is a good ending, I would welcome the two of you to continue on your way. If my Lingsu Star Sea is destroyed, the two of you can find a way to leave. "

They never thought that he would make such a decision. Although he had sent Long Chen away, allowing them to focus on battle, they did not need to be on guard against him, and with their strength, Long Chen did not believe that they could handle the situation on their own.

Therefore, he shook his head and said, "It cannot be like this, the Lingsu Star Sea's calamity was brought about by me, and with my responsibility, how can I not watch the death of all of you against this? This cannot do, Holy Lord, you can make other requests, as long as it proves that I am truly determined to ally with all of you to fight against the enemy, I will do it myself."

The Sacred Master became even more determined and said: "To be honest, I believe in you two, but I do not have time, nor do I have the guts to be entangled in this matter for too long, it is a very important

matter, if you are truly willing to cooperate, then please do not distract us, as to how to deal with the Heavenly Demon Era, don't worry, our Lingsu Star Sea's legacy has been around for billions of years, it will not be so easy to destroy it! We have a way to deal with them! "

He had decided.

Since it had already reached this extent, and he had already ordered them to leave, Long Chen could only compromise temporarily.

He said: "Since that's the case, I will watch from the outside. If there is anything that I can help with, I hope that Sacred Monarch will not repeat what happened to Yan Jun."

He did not want to be polite.

Yan Jun was sick, he deserved to die.

He did not mind waiting outside the Lingsu Star Sea, because he believed in the Holy Lord and this Dark Monarch. Although she had not spoken up until now, the Dark Monarch should know better that she was the only one who did not hold any hostility towards Long Chen.

"Don't worry, I understand." The Holy Lord nodded. The old man's face was filled with the vicissitudes of life.

It had been millions of years. After today's calamity, he had to take on all responsibilities.

This was because he was the strongest.

Under their 'protection', Long Chen arrived at the outermost layer of the formation. This formation was the toughest and was truly used to defend against the entire Lingsu Star Sea, but unfortunately, it was started a little too slowly. If it was activated before the Primal Heavenly Demon arrived, they might not have been able to enter the Lingsu Star Sea.

Under their manipulation, he sent the two of them out of the array.

"I wish you all success!"

Long Chen said to the Sacred Monarch.

"Yes." Actually, I understand Yan Jun, so I trust you. If we can't do it, we won't let you roam around outside. " Yan Jun suddenly said.

In that case, Long Chen had nothing to worry about.

Indeed, a rational leader could determine the future of a world. Although he was brave and fierce, he was not scheming and was not a qualified god.

Then, the Lingin Gods left. It seemed like they had returned to the Lingsu Star Sea.

"The Sky Demons should be digesting their energy. They shouldn't appear so soon." Long Chen pondered.

"Brother Chen, do you want to go in? I can let all of you enter the Lingsu Star Sea without anyone noticing. " Ling Xi finally spoke out.

"That's good." Long Chen didn't want to be in a passive position. Therefore, he asked Ling Xi for help so that she could slowly study it. As for Little Wolf, he could not wait and wanted to cultivate the 'Nine-Nine Burning Heaven Secret Technique'.

To them, any point of improvement was important!

Chapter 2585 - Plain Sword

"Have you decided?" lowered his head and asked.

The Holy Lord turned his head to look at the starry sky, saying, "There's no other choice. Yan Jun's death made me understand, we underestimated this crisis. This is the most frightening crisis my Lingsu Star Sea has faced in the past ten million years. Right now, we might only have a sliver of hope.

The world is not destroyed. "

Behind him, the fourteen gods were equally decisive. They wanted to use that divine object more than the Holy Lord, and they couldn't wait to get their revenge! The death of their companions was the greatest hatred in their hearts.

What every god shouldered today was the life and death mission of the common people!

"Actually, if you carefully push forward, no one has used this divine artifact in the past ten million years. Firstly, we are worried that a leak to the ten thousand realms will bring about a calamity to our Lingsu Star Sea, and secondly, after all these years, our Lingsu Star Sea has been completely at peace, and there simply won't be the situation we are in today. If ...

Tens of millions of years ago, the 'Sphinx' still existed!

"Yeah, this is the only Divine Emperor that was born in my Lingsu Star Sea in countless of eras, but he mysteriously disappeared and even took away the 'spirit sword', leaving only the 'plain sword'. If he was here, even a peak Heavenly Demon might not be his match. He exists

Furthermore, during that period of time, I never would have thought that my Lingsu Star Sea would suffer such a calamity today. "

The reason why the Sacred Masters did not need Long Chen's help was because they had the 'Pure Sword'.

"The Pure Sword follows the orders of the Sphinx, and protects our Lingsu Star Sea for tens of thousands of years. With the divine might of a true 'Hun Yuan', there is no Creation God Equipment in this world that can compare to it. We only need to awaken the 'Light Sword' and tell it of the situation. However, if the Pure Sword is born, then ...

If word of this gets out, this ownerless' Hun Yuan Ranked 'Creation God Equipment will definitely be snatched away. "

"This is the sixth tier! In all of the realms, only the great Divine Emperor s can truly use it! "

In truth, none of them had ever seen the Pure Sword before.

This was a legend passed down by our elders. The Pure Sword exists in the 'Su Hai' and the 'Su Hai' is in the Ling Ji Ji Xing. The first level of the forbidden grounds means that even the three Divine Monarchs have no right to approach it.

Even the sea would be granted death.

In the entire Lingsu Star Sea, the two most precious things were the 'Nine-Nine Burning Heaven Secret Technique' and the Heavenly Treasures of the Holy Lord, but they had still barely reached the Genesis. Only the level of the Infernal King could possess something of ordinary Genesis.

This time, the Lingin Gods quickly landed on the Ling Ji Ji Xing. Since there were no Heaven and Earth Transference Array at the place which led to 'Pure Sea', they quickly rushed in that direction.

There were terrifying Inhibition Formations around the Sea of Su, and it required at least ten Elemental Gods to personally use their bloodlines to dissolve it, only then could they open the door to the Sea of Su. To everyone in Lingsu Star Sea, the Sea of Su was a paradise that no one could enter.

The Holy Lord believed that he wasn't wrong this time when he went to the sea of Susu. If his ancestors still existed in this world, or if they still had consciousness, then they definitely wouldn't blame him!

In the blink of an eye, it was the entrance to the sea of white.

Of course, what they saw was an endless wilderness. Birds were singing and flowers were fragrant; it was extremely beautiful. This was not a real sea of nothingness.

"Are the Lords ready?"

the Holy Lord asked.

"It's done."

The gods nodded.

Under the control of the Holy Lord, the ground split open, and a circular platform appeared. It was pure black, rotting and mottled. It was obvious that this platform had existed underground for at least several million years.

The fifteen Divine Spirits stepped onto this platform.

"I need the ten divine gods to drop the divine blood into the 'divine nest'." The Holy Lord said.

The so-called god's nest was actually the ten meter tall black pillars on the platform. On the surface of the pillars, there was a hemispherical depression.

Ten of the Divine Spirits stood out, and everyone held their breaths.

In their entire lives, they had never seen what a true 'Hun Yuan level' Creation God Equipment looked like!

That was Hun Yuan's level!

At the same time, the gods put their divine drops into the divine nest.

The Divine blood quickly fused into the black pillar. The black pillar radiated with a hazy black light, and then it began to tremble. The black light twisted in the air, forming a line of text.

"If there is no danger of annihilating the entire clan, those who enter the 'sea of nothingness' will be punished by death!"

This was the warning of their ancestors.

Only when the whole clan was annihilated would Hun Yuan be able to activate the simple sword.

"Enter!"

The Holy Lord shouted. They had to end this battle as soon as possible. After all, this was an opportunity. Once the Primordial Heavenly Demon came out early and they were still in the Pure Sea, it would be even more troublesome.

Su Hai opened up.

They disappeared on the black platform.

The world was always peaceful.

In the blink of an eye, they had already arrived at Su Hai.

"This place is really beautiful!"

Everyone was dumbstruck. In front of them was an extremely wonderful place. This was the Sea of Su. The Sea of Su was not big, just like a lake. Around the lake was a small piece of land.

This was the most precious land, every single item inside was a treasure. The ones that released the dense immortal Qi were all at the hongmengxinling, and the ones on the ground were like gems and pearls, with most of them being the treasures of Primal Chaos.

Treasure.

The entire Pure Sea was filled with such treasures.

Even the white crystals on the surface of the lake released a boundless power.

"This is one of the pronucleus. These pronucleus, some have 'death grade', some have 'dreamy grade'."

Although the gods were very knowledgeable, their first time in this sea of nothingness was still stunned. This place was simply heaven for gods, even they were moved by the sight of so many treasures, especially those hongmengxinling, whose value was comparable to theirs

A Creation God Creation Artifact!

"Don't forget our mission, don't be greedy!"

The Holy Lord warned.

Honestly speaking, even he was tempted by so many good things. Legend has it that 'Pure Sea' was a treasure trove left behind by the only Lingsu Star Sea that was born tens of millions of years ago. There were even many things hidden underground ...

Mima, it's almost maddening.

The gods were breathing heavily.

They were influenced by their ancestor's teachings and knew that these were all things that belonged to the Sphinx. The Sphinx did not know where they went right now and had strict clan rules, so no one dared to use them, especially the Holy Lord.

This was because the endless treasures of the Elemental Sea would cause the Lingsu Star Sea to fall into a state of internal strife and war. If this news were to spread out, it would attract a loot from other worlds!

That would be even more terrifying!

"Remember, all of you, don't forget your first thoughts. All of these are things that we cannot control, they are the possessions of our ancestor, the 'Sphinx'. Now that the Lingsu Star Sea is about to be destroyed, we need to know just how powerful we are, we do not have the capability to own these things!

So, please calm down. "

The Holy Lord had to remind him of this.

Because seeing so many treasures right in front of his eyes, to be honest, even he couldn't keep his cool. But he knew that before he had the capital, these were not treasures, but disasters.

"Understood!"

The gods were still calm as they took a deep breath.

The Holy Lord now understood the reason behind the teachings of his ancestors. If he had entered the sea of nothingness before a disaster had occurred, blood would probably have been spilled all over the place.

They only told the later generations that there was a Hun Yuan Ranked Su Jian that had been left behind by the Sphinx in Su Hai.

Now, the Gods were standing in front of the lake and were extremely pious. They bowed and said with the Holy Lord in the lead, "The Heavenly Demon of the age that was sealed millions of years ago has come to the Lingsu Star Sea to try to devour the lives of all the people in the Lingsu Star Sea to restore your strength. Now that the apocalypse has begun, we

Three gods have already fallen, including one Monarch. It is simply impossible to resist. I hope that the Pure Sword will appear to save the world! "

With that, he led the way and knelt on the ground.

Millions of years, all living beings had knelt before him, but he had never knelt before anyone else.

The Gods held their breath, waiting for the Light Sword to descend.

In the blink of an eye, the entire sea turned milky white, like milk. It was round, smooth, natural, and tranquil.

Very soon, before the excited hearts of the Gods, Su Hai spread out and a colorful light spread out. In a trance, the Gods saw a colorful butterfly breaking out of its cocoon and spreading its rainbow wings. Its beauty could not be described with words.

The butterfly was shrouded in a colorful halo of light, looking like a dream.

At this moment, the tender voice of a youth came from the ball of light. Although his voice was tender, like a eight or nine-year-old child, his tone was very mature.

"Everyone, tell me in detail what happened at Lingsu Star Sea."

Everyone understood, this must be the Innate Heroic Spirit from the Hun Yuan level 'Pure Sword'!

He was the plain sword, and the plain sword was him.

The Saint Lord was extremely respectful. Lowering his head, he quickly told the butterfly everything that had happened. After he had finished speaking, the Holy Lord added, "Senior Su Jian, the Heavenly Demon Ji is very powerful. I believe you have heard that when we ventured into the sea of Su Hai, we were able to obtain victory ..."

I hope that senior will appear and help us solve this crisis! "Although it is risky, the lives of the people are important. I hope senior can agree!"

Above the sea of vegetations, the butterfly didn't reply for a long time.

Only when the gods started getting anxious did Butterfly say, "The reason the Sphinx made me guard this place was to protect you and others. Now that the Sphinx is dead and my inheritance is scattered, my power is not as strong as before, but, since the Lingsu Star Sea is in trouble, I will naturally come out as a substitute. "

Hearing this, the gods finally felt relieved.

However, what made them depressed was that they never thought that Sphinx would actually be dead! The Divine Emperor did not have divine tribulation, but its cultivation was pained to the extreme, and it actually died! It was unbelievable!

Just as Lingin Gods requested for the Suyuan Sword to be drawn, Ling Xi also broke a small hole in the outermost array, allowing Long Chen and the others to return to the Lingsu Star Sea.

Chapter 2586 - The Birth of a Great Treasure

There were already records of the outermost layer of array within the Sector lord Divine Arts, so Ling Xi was naturally unable to lay down such a terrifying array. However, she knew the details, so it was pretty simple to let Long Chen and the others pass.

Currently, Mo Xiaolang was cultivating the Nine-Nine Burning Heaven Secret Technique in the Divine Kingdom of Long Chen.

It had to be said that this was a 'Infinite Divine Art' that was quite suitable for him.

In the entire Ten Thousand Worlds, there were very few people whose first Infinite Divine Art would be Genesis.

After all, most Divine Spirits would cultivate their Infinite Divine Art after becoming a Divine Spirit and when using Taiji Realm. At that time, he was still unable to control the Genesis and could at most cultivate them.

Mo Xiaolang had now reached the level of the polar state of the Supreme Demon Realm, and was nearing the level of the Taisu Demon Realm — Demon Lord. Furthermore, he had a huge advantage over anything of the fire attribute. Therefore, the Infinite Divine Art he cultivated in was actually a success.

The Nine-Nine Burning Heaven Secret Technique created ninety-one 'God Fire Caves' in his body. Each type of God Fire was placed inside to nourish and nurture it. As long as eighty-one God Flames were gathered within his body, he would be able to attain mastery. The heaven defying thing about this secret technique was that it could completely fuse the divine flame into the cultivator's devil spirit source energy. When the two fused, it could give birth to a type of 'Genesis' of divine spirit energy!

It was able to cause an earth-shattering change to the level of Mo Xiaolang's strength.

In reality, the Infinite Divine Art of the blue smoke was only a Genesis and its power was also only the strength of a Genesis.

The benefits of a change in nature were considerable.

Of course, in such a short period of time, less than half of the Divine Flames he successfully fused were still working hard. As the divine fire increased, the nature of his strength would also gradually increase. Only when all 981 types of divine fire were fused together would he be able to achieve perfection.

Now, he was still lacking more than 10 ways.

However, Mo Xiaolang planned to merge the Nine Serenities Devil Ancestral Fire into it at the last moment as well. At that time, the 'Nine-Nine Burning Heaven Source Energy' would definitely reach a higher level than Yan Jun.

But of course, that was only if they could survive this trial.

In fact, his speed was already heaven-defying. The time it took for Yan Jun to absorb the divine flame and Divine Source Power was countless times more than what he had right now.

He was like a natural born lord of flames. Even the divine flames were completely digested and at his command.

As Mo Xiaolang was in a state of cultivation, the little kitten who had helped him out from slumber on the Demon Star, finally woke up from its slumber. When it blurrily looked through the God Kingdom and saw the huge Lingsu Star Sea outside, its eyes immediately widened. I'm dreaming! "

He jumped up, trembling all over, and said lifelessly, "What place is this? Dragon Sacrifice Continent turned into this? "

"This is the Lingsu Star Sea." Long Chen looked at this world and replied. Right now, his mood was still rather heavy. Lingin Gods didn't know what to do, he was worried that the Heavenly Demon Ji would appear at this time.

"Where?" What happened? Boss, you did not manage to take care of that soul-controlling demon, right? Damn it, Little Wolf, why are you here? "

He started to ramble on and on, until Ling Xi told him everything that had happened. Only then did Cat quieten down.

"I actually came to another world? This is too crazy. Haha, there are more people in this world, and aren't all the Spiritual Clans pretty beautiful? "

Long Chen used the Time Traversing Dragon to hide at the periphery of Lingsu Star Sea. Right now, he could not be discovered by the Heavenly Demon Ji Yuan and the others, nor could he be discovered by the Lingin Gods.

Suddenly, he felt movement on the Ling Ji Ji Xing.

It was a place shrouded in colorful clouds. Below was a field.

Not only did Long Chen notice it, even Cat and Ling Xi noticed it. The kitten laughed, and started salivating in a daze, and the reason Ling Xi noticed it was because Ling Xi's sword was moving.

Long Chen had not used Ling Xi's sword since a long time ago, although it was made of a unique material, it did not seem to have any power when fighting with a Dao Artifact.

The most useful thing was that it would be able to injure the soul.

Who would have thought that at this time, in this unfamiliar place like the Lingsu Star Sea, it would actually flutter like a cicada's wings, and let out a soft cry. Other than that, Long Chen did not discover anything else.

"What happened to Ling Xi?" Ling Xi asked blankly.

"I don't know."

It was a mysterious sword, a bridge linking Long Chen and Ling Xi, the most precious thing between them, to this day, Long Chen still could not see through the secrets of Ling Xi's sword, so he had kept it, and according to his estimations, Ling Xi's sword might not belong to the Dragon Sacrifice Continent.

However, there didn't seem to be any traces of a Creation God Equipment on it either.

Right now, he was gently trembling, perhaps because he felt something.

"What is the Lingin Gods doing?" The disturbance in that direction was already getting bigger and bigger. Faintly, Long Chen felt that there seemed to be something terrifying going on.

"The Holy Lord did not need my help before, so he probably had a method to completely exterminate the Heavenly Demons! Maybe this killing intent is their final killing move! "

Long Chen was certain.

"This is the aura of a Creation Divine Artifact, and its level is very high as well. I estimate that it is at least higher than Genesis! and maybe in a more complete state. "

The most terrifying Creation Divine Artifact that Long Chen had ever seen was obviously the Primordial Divine Battleship, followed by the God-Slaying Sword. But they had only been strong. Now that they were all spent, they were no different from the Heavenly Demons of the Era. Thus, the most powerful creation artifact was the Flame God's gourd.

The Flame God's calabash was covered in a layer of thick flames that could burn the world. It was already quite powerful.

There was no need to even mention true divine artifacts of the Genesis.

But the terrifying divine might in front of him, gave Long Chen the feeling that it was something that was even more powerful than that!

There were only nine levels to a Manifestation Divine Weapon. Normally, only Divine Emperor would be able to control a sixth grade artifact!

The Ten Thousand Sector lords were terrifying people with Taiyuan Deity Realm.

"So many pronucleus! Compared to what I got before, the quality is much higher! " Just as Long Chen and the others were shocked by the might of the Creation God Equipment that was about to appear, Little Cat's eyes were filled with stars as her saliva dripped all over the ground.

"pronucleus?"

It looks like that place should be an important treasury of the Lingsu Star Sea. That terrifying Creation God Weapon was born in that place.

When this thing was born, Long Chen had already forgotten about the trembling of Ling Xi's sword.

"Big brother!"

At this time, Mo Xiaolang opened his eyes and came out of the Divine Kingdom. He had a rough idea that something big was about to happen and had no choice but to stop cultivating the Nine-Nine Burning Heaven Secret Technique.

"To what extent?"

"Close to half."

Long Chen could roughly feel that, compared to before, when he had already achieved half of the 'Nine-Nine Burning Heaven Source Energy', his strength had increased by leaps and bounds. The benefits of Infinite Divine Art were indeed great, especially the 'Nine-Nine Burning Heaven Source Energy' of Genesis.

It had already surpassed the ones cultivated by ordinary ancient Giant Demons. That yin devouring demon at the peak of the Demon Lord Realm only had the Infinite Divine Art.

"Emerge!"

Just as they finished their conversation, an extremely terrifying aura rushed out from the Ling Ji Ji Xing! When this Creation God Creation Artifact was used, two trillion lives of the Lingsu Star Sea s all kneeled on the ground, prostrating themselves in worship!

Long Chen saw it clearly, it was a gigantic snow white sword that had been stabbed out from the Ling Ji Ji Xing, releasing an endless pure white astral sword aura. The might of the astral sword was terrifying, and even the stable space of the Lingsu Star Sea was caved in, being torn apart.

"This sword aura is sharp and forceful. Although it is beautiful, it is destructive! The moment it was born, it shook an area that is as large as a hundred Lingsu Star Sea s! "

Long Chen could not help but be shocked.

He only thought that Lingin Gods would take out a good Creation God Weapon, but he never thought that it would be good to this extent!

In the God Kingdom, the supreme Divine Emperor's halberd studied it for a while, and said in disbelief: "Long Chen, this is probably the equivalent of a ancient god ship's' Hun Yuan's' Creation God Manifestation Weapon! The sixth level was impossible! How could the Lingsu Star Sea possess such a Creation Divine Equipment? If this were to spread, this place would have been destroyed long ago, how could they let them keep it! "

"Hun Yuan?"

Long Chen reckoned that it was Order-level, the same as the God Slaying Sword from the beginning. He thought that Order-level was the limit of the Lingsu Star Sea s, but he never thought that it would actually be at Hun Yuan's level.

The old dragon said, "That's right, it's a Hun Yuan level God Creation Art. I can still distinguish between him and his Order-level. But that's not right! However, the person controlling it was simply too weak, and it was not enough for him to use it. Therefore, even with such a divine creation, the strength it could unleash would probably not be too heaven-defying. I think the effect might not even be as good as if they had a Creation Divine Artifact of the same Order-level. "

Long Chen also saw it.

Behind the snow-white greatsword, there were fifteen spirits controlling it, all of them holding onto the hilt of the white greatsword with their hands, with the Saint Lord at the forefront, all of them working together to control the white greatsword. Of course, they were too far away from the white greatsword, so it was impossible for them to recognize it as master!

Fifteen Divine Spirits, holding this Hun Yuan class God Manifestation Weapon, had not even made a move and their faces were already very pale. Today's battle was destined to be a huge drain on them.

"They are going to fight to the death. The reason why Hun Yuan's Creation God Equipment was able to exist to this day is because they have never used it before. They have buried it deep in the ground and were born today to kill Ji Yuan Sky Demons, so the danger has already reached a point where they are no longer afraid of snatching away Hun Yuan's God Creation Artifact in the future. "

Given their power, they definitely wouldn't be able to hold onto this sort of heaven-defying creature.

Even if they were to use it, Long Chen was still deeply shocked, as if he could be killed by this sword at any moment. Perhaps when this sword appeared, even the Dragon Sacrifice Continent could feel the killing intent!

"Senior Su Jian, may I trouble you to lead us to decapitate this ancient god ship!"

The Saint Lord's shout shook the world!

The fifteen divine gods worked together, and the gigantic snow-white sword danced in their hands, displaying peerless killing intent!

Chapter 2587 - Battling to the death

"Ready!"

Long Chen said to Mo Xiaolang.

Although he did not expect this at the start, the situation was indeed like this. The most critical battle would probably erupt soon. This battle could very well be the final one! It could be the doomsday for the Lingsu Star Sea and the Dragon Sacrifice Continent, or it could also be the doomsday for the Heavenly Demon!

Yan Jun died in battle, allowing the Lingin Gods to put aside everything. He exploded with all of his anger, ignoring everything else, he used all of his Creation God Equipment, just so that he could take revenge and save the world!

Needless to say, they were a group of people that deserved respect!

It was precisely because of this that Long Chen had always been extremely courteous to the Sacred Master. Even though the other party did not trust him, he had the patience to converse with him.

Perhaps even the Heavenly Demon God didn't think that they would launch an attack at this time!

This was the final battle!

It was fast, but it had to be fierce! This time, Lingin Gods was the one who launched the attack, and currently, Long Chen was not of much help, so what would happen to him?

Because of the Nuwa Devils, this battle between him and Mo Xiaolang would be even more difficult.

At this moment, Hun Yuan's gigantic snow-white sword passed the hundred thousand stars, and rushed into the starry sky. Most of the people on the Lingsu Star Sea could see this gigantic sword. Although they did not know what this sword was, they were very clear that it was a divine object even more sacred than the gods! It was the most revered thing in the entire Lingsu Star Sea!

They were kowtowing. They were kowtowing to this giant snow-white sword!

A sword cut through the air!

The group of Saints shouted out, using all their strength to instantly send the snow-white greatsword soaring thousands of miles away.

The Suspending Sword was able to find the hidden Primitive Godship!

They were all Hun Yuan's Creation Divine Artifacts, and the Primal Heavenly Ship was dried up in oil, the Pure Sword had gained a lot of advantage. It was just that they did not know how strong the Primal Heavenly Demons would become after devouring Yan Jun.

Thousands of miles in an instant!

A sword slashed down!

Brilliant and magnificent!

On top of the snow-white greatsword, a pure white sword aura hacked out, ripping everything apart in an instant. That sword aura had an supreme rule, and it was filled with a ripping power that Long Chen couldn't fathom, and that should be the power of the laws of Divine Emperor and above!

BOOM!

Where the plain sword had cut down, the Primal Godship had suddenly appeared and was almost torn into two halves. The sound of the huge collision created terrifying sound waves, shaking everything in the area. Even the ten thousand constellations were trembling in fear as earthquakes and tsunamis rocked the area.

The Primal Godship had actually been found!

This Susu Sword was actually this powerful!

However, Long Chen saw that after swinging their swords, the fifteen Divine Spirit Realm cultivators were all gasping for breath. Indeed, they were risking their lives to use their simple swords, although they could unleash their great strength, how long they could hold out for, was indeed a big problem!

"Hun Yuan class!"

In Long Chen's vision, the three Devils were forced to descend. This time, it would be difficult for them to escape the Lingin Gods!

... .. Within the center of the Primal Diremonster. Waterblue Smoke and Nuwa were standing guard by the side. The flames of battle were blazing brightly as they swept across the world! Although they did not participate in the battle, every creature was roaring and shouting at the top of their lungs! Only with the support of their life force, the fifteen Divine Spirits were able to barely support it.

The advantage was that more and more people believed in them, and they became more and more powerful, and their strength never stopped.

The heaven and earth roared!

Yan Jun had died in battle. Upon seeing the Heavenly Demon, every single one of the Gods had bloodshot eyes. The time they had on their bare swords had worked, so without a word, they started to kill! As of this moment, fifteen of them were completely focused!

"There's actually such a Hun Yuan grade Creation God Equipment in Lingsu Star Sea! Let me imagine, it seems like a guy called 'Sphinx' once appeared here! This should be one of his two divine swords, the Susu Sword's simple sword! The Pure Sword exterminated the body, and the Spirit Sword exterminated the soul! " At this moment, the peaceful face of the Celestial Demon Ji Yuan finally turned cold.

In fact, after he devoured Yan Jun, he had already recovered to a certain extent, and was no longer as weak as before. With the Demon Emperor's power, as long as he did not weaken to the limit, he was still terrifying! Right now, he was confident that even if the Sacred Masters, Yan Jun and the Dark Monarch joined forces, they wouldn't be able to stop him.

However, he did not expect the Pure Sword to appear.

However, this did not scare him. At most, it would make him feel that it was a little more difficult, but at the very least, it would give him an additional reward.

The snow-white greatsword attacked!

Because they were worried that the battle would affect the Lingsu Star Sea, the gods forced the three devils towards a direction other than the Lingsu Star Sea!

And then, his speed increased, and he swept out with his sword! The snow-white destructive astral energy erupted once again!

"Don't let the sword Qi touch it, or the body will be destroyed." The Heavenly Demon Ji Yuan reminded.

"Big brother, you guys block it. I'll go to Ling Ji Ji Xing and give them a present."

Aqua Blue Smoke was not the least bit flustered as she smiled.

"Yes."

Of course they could see, right now all the gods were controlling the sword, without any one of them, if the sword's power fell, they would not be able to control it.

If the Three Devils fought together, they would be fools.

This was the style that Aqua Smoke had always had!

Therefore, when the Heavenly Demon Ji Yuan and the Devil Nuwa went to fight the white sword, she turned into a blue light and disappeared in a flash in the direction of the Ling Ji Ji Xing, while the other gods and the white sword were blocked by the Heavenly Demon Ji Yuan, unable to chase! After all, there was only one Pure Sword!

"Time stands still!"

The power of a single attack from a natural law was actually able to withstand the power of the Susu Sword. Behind him, the Netherworld Devil had transformed into an ancient Giant Devil, assisting him in battle.

"Although the Creation God Manifestation Art is not bad, the person who uses it is too weak. We only need to stall for a while and let Lan Yan cause trouble in the Ling Ji Ji Xing. While they are panicking, this sword will break by itself!"

The Heavenly Demon Ji Yuan said in a relaxed tone.

Therefore, bringing the devil with him when facing the powerful attack of Su Jian, he chose to evade. He controlled the power of time, and the power of the sword itself was terrifying. It prevented the enemy from fighting at all, and if they were to stop him, the Holy Lord and the others would have no way to do so in a short period of time!

"Saint! Emperor Shakya's Prison Demon went to the Ling Ji Ji Xing! "

"We have to stop her, otherwise, by the time we kill these two devils, the Ling Ji Ji Xing will be destroyed!"

For a time, the faces of all the Gods were filled with despair.

Even if they had such a godly weapon, the enemy's craftiness brought them danger. It was just as the Heavenly Demon Era said, even if they had destructive power, they would break by themselves! After all, this wasn't their true strength!

"We are your opponents!"

Their teamwork with the devils was flawless. Although all of their attacks were being continuously pushed back by the power of the Pure Sword, it would still take a certain amount of time for them to be injured!

But the Ling Ji Ji Xing did not have the time!

The Holy Lord's expression changed greatly!

He was so angry that he could only roar and kill his enemies. He knew that if he went back to help, he would fall into the trap of the Heavenly Demon.

Although the decisive battle had just begun, they could no longer see the light of dawn. No matter how strong Plain Sword was, it was impossible to kill the former Demon Emperor by itself!

"I will happily accept all the cute creatures in Ling Ji Ji Xing." The laughter of the blue smoke spread throughout the world, causing the fifteen deities to be so angry that they vomited blood.

"Damned devil!" You all view life as ants, killing the innocent and committing heinous crimes. You all will be punished by the heavens! "

The Holy Lord's eyes were bleeding.

"Saint Lord, it's Long Chen and the others." Suddenly, the voice of the Dark Monarch came over. Everyone hurriedly looked over at the moment when they were attacking the Ji Yuan Sky Demon, and they saw that two youths had caught up to Shui Lan Yan, blocking her in front of the Ling Ji Ji Xing!

"It's them!"

Clearly, they were trying to intercept him and not join forces with Aqua Blue Smoke!

It was just as Long Chen had said. He did not need to explain anything, as long as the battle started, the gods would understand whose side he was on.

If he did not stop Shui Lan Yan, the mission Su Jian made would have been for naught.

If he were to use the Pure Sword, he would need tremendous strength. The fifteen Deities were already too few in number. Once they were sent out to deal with Aqua Blue Smoke, perhaps even the Divinities wouldn't be able to deal with them!

"Comrades, let's fight!" The Holy Lord's bones were trembling as he wiped away his bloody tears. His eyes were now filled with only the Diremonster of the Primordial Era and the Nuwa Clan.

As for the blue smoke, he believed that Long Chen could stop it! At least before he kills the Heavenly Demon Ji Yuan, he would have no problem trusting Long Chen! For him to be able to fight against a Heavenly Demon of this degree, he was in itself a miracle!

At that moment, the sword energy shot into the sky!

At that moment, the war song surged!

The Ling Ji Ji Xing, a hundred thousand stars, countless lives all kowtowing to the ground, chanting the war song of the gods, contributing to their power!

The war song of the gods spread throughout the Lingsu Star Sea!

In the starry sky, fifteen divine gods were torn apart, unable to withstand the pressure, yet their eyes were still bloodshot.

Everyone was the same, fighting for survival!

Long Chen was the same!

Seeing Long Chen and Mo Xiaolang again, the smile on Shui Lan Yan's face had already disappeared. The last time Long Chen escaped from her hands, it made her extremely angry.

"It's you guys again! Three Great Imperial Domains, it's you. And now, it's still you guys who are blocking my path. Long Chen, my big brother was not bad to you, but you actually rebelled. Do you really think we can't do anything to you? "Don't piss me off."

When Aqua Blue Smoke turned cold, it was also very scary.

She was truly angry this time.

In truth, she had always treated these two as her little brothers, whom she loved very much from the bottom of her heart. Even when they had killed the Battle Demon and Nothingness Demon, she did not care in the slightest.

Regarding this, Long Chen understood it in his heart.

He could only reply, "The Dao is different. It is not a scheme." If you can give up on devouring to recover your strength and become lifelong friends with you, then I am willing as well. "

Shui Lan Yan laughed and said, "You are right. If you wake me up, you will not do the same to me. That's why my big brother will only use the Giant Demon Contract to control you. Don't worry, you won't die. He said before that he would let you personally destroy Dragon Sacrifice Continent! The day that the Giant Demon Contract is signed is today! "

"Cut the crap!"

Long Chen and separated. Finally, today came when they had a chance to fight alone against the weakest of the three Devils, Water Blue Smoke, who had recovered the least. Their only goal was: to kill!

Chapter 2588 - Shakya Divinity Prison

Before they made their move, the battle between the white sword and the fifteen divine gods, together with the Ji Yuan Sky Demons and the Nuwa Demons, had already reached a rather tragic stage. Because it was a battle outside the Lingsu Star Sea, the sword Qi of the white sword had cut down on the outermost array several times, and the last time, had actually caused the entire array diagram to crumble.

Of course, this was not what the Lingin Gods wanted, it was already extremely difficult for them to control the Susu Sword, and to be able to control it freely was even more difficult!

Not only did the outermost array formation crumble, because the energy centers of the gods were all placed on the plain swords, and they had consumed a huge amount of time every second, even the Lingsu Star Sea Consecutive Array Formation had become illusory.

The Lingin Gods placed all his hope on the white sword.

They couldn't care less how much they would lose.

Their only choice was to injure or even kill the Diremonster and the Nuwa Alliance as soon as possible.

As for Shui Lan Yan, he could only rely on Long Chen and Mo Xiaolang.

At the moment when their blood was boiling, Little Cat sneaked out from Long Chen's Divine Kingdom.

"Where to?" Now was a chaotic time, Long Chen was a little worried about him.

"Don't worry, I'm just going to take a look at that pronucleus." After saying that, she slipped away. Right now, the Lingsu Star Sea Consecutive Array was at her weakest, so he took this opportunity to go in. No matter what, he felt more at ease with her, so Long Chen placed all his killing intent on Shui Lan Yan.

"Prison Demon Sakya?"

"That's right. The name does have a little bit of our fate, but it's really deep. "Tell me, what will the outcome be after today?"

Aqua Blue Smoke laughed coldly.

The Supreme Divine Emperor Halberd appeared in Long Chen's hand, and behind the blue smoke, Mo Xiaolang had already turned into a Sun Devouring Demonic Wolf.

"You are indeed a miracle, otherwise my big brother would not think so highly of you. At this point, it is even more difficult to imagine. However, everything will end here. "

Aqua Blue Smoke was the strangest magic.

Because he had no idea what her strength was at all, and it was even in complete chaos. There was the aura of death similar to that of a god slaying sword, as well as a kind of unbelievable open and great aura.

Just like how, at this moment, she seemed to have walked down from a divine altar. She was an untouchable goddess, yet she was also so wicked and sinister.

The instant Long Chen and Mo Xiaolang looked at each other, the two of them attacked at practically the same time!

He had to test it out, or else he wouldn't even know what ability Aqua Blue Smoke had! Long Chen currently had ten thousand desires in his heart. To kill him, he did not have the time nor the qualifications to be merciful in any way, because a single trace of kindness from him would lead to the death of a large number of beings.

"Unbroken Fire World!"

"Exploding Flame!"

The Sun Devouring Demonic Wolf behind him was the first to unleash the power of the Ancient Code to attack the blue smoke.

What was completely different from the battles on the Demon Star was that what he was using right now, when he was truly at the Large Success Realm, his power was extremely terrifying. If it was a Nothingness Demon, it would not even be able to withstand it!

BOOM!

Unbroken Fire Realm Explosion!

A huge force swept out.

However, Long Chen knew that she probably wasn't injured. Before the flames exploded, Long Chen saw her suddenly materialize countless of real arms, hundreds or even thousands of them. Each of them released a kind of gray power and deflected the power of the flames!

"Kill!"

The supreme Divine Emperor halberd exploded downwards!

Long Chen had already unleashed all of the power of this God Creation Art of the death grade to its limit, so the God Creation Art was not necessarily stronger the better. For example, the Holy Lord and the others were already working hard on it, but Long Chen was able to use the Supreme Divine Emperor Halberd as if it was his arm.

Rip!

The light wave that broke through the explosion instantly appeared in front of Aqua Mist.

The woman smiled sweetly.

The most terrifying thing was that Long Chen saw that she actually had many heavy arms.

When the Supreme Divine Emperor Halberd slashed down, it met with the resistance of her dozens of arms, it was a strong repulsive force. Dozens of light spots gathered together on the palm of his hand, blasting away the Supreme Divine Emperor Halberd and Long Chen's Divine Source Power!

"Isn't it interesting that this is my rule? Any of your attacks can't even get close to me. " Aqua Blue Smoke was still very relaxed.

Of course Long Chen did not stop, this was just the beginning. He had an outstanding close combat ability, even though he was being rejected by the blue smoke again and again, he was still in a state of suppression, causing his opponent to retreat step by step.

The supreme Divine Emperor halberd erupted with a boundless radiance, flames and astral qi were unleashed to the maximum, every attack would cause the Ling Ji Ji Xing below to tremble!

BOOM!

The blue smoke was flung out to Mo Xiaolang's side!

Mo Xiaolang was already prepared!

"Infinite Divine Flame Vortex!"

When he was dealing with the Nothingness Demon, this move was easily dealt with by him.

But it was different now. What was condensed behind Mo Xiaolang was not eight pairs of fire wings, but dozens of them. The fire wings swept out, forming a gigantic vortex, entangling the blue smoke within!

The vortex of divine fire began to spin.

Dozens of these Divine Flames were gathered at the core, burning the blue smoke!

Aqua Blue Smoke was not easy. She displayed Thousand Hands and repelled the vast flames like a goddess, but the divine flames were endless.

Under the flames, Lan Yan looked slightly bedraggled.

"Damn it, have I underestimated you?" She was even angrier.

At least from the start, she seemed to not be able to fight against Long Chen with her bare hands. It was as she had said, the Heavenly Demon Primal Era still wanted Long Chen to sign the Giant Demon Contract with him, and it was forced on them.

"There are some changes to her body!"

Long Chen could roughly feel it.

A part of her body's power was evil, but her original stats were as open and honorable as that of a heart dragon in the divine way!

If the gods represented justice, then the blue water vapor would be like a degenerate deity. She used the blood of justice to cultivate the most evil soul.

At this moment, under the suppression of countless divine flames, her righteous and radiant bloodline had condensed into her chest area.

Suddenly, Long Chen saw her smooth back split open as a golden ray of light burst forth from within, charging out of the Infinite Divine Flame Vortex and forming a woman with golden hair and golden pupils. His body was no different from a god's, and what he used, was also the Divine Source Power!

Of course, he had gone through the transformation of the Infinite Divine Art into the power of Genesis.

This was a woman close to the heart dragon of the divine way. Her appearance was the same as Shui Lanyan, her entire body was covered in a majestic energy of metal, the word 'swastika' in between her eyebrows was 'swastika', it was extremely imposing and tyrannical, and the evil energy was constantly retreating in front of her.

"I am Shakya!"

At this moment, Long Chen finally understood the meaning of the Demonic God Shakya.

She had two bodies, one for each Fiendgod body. Or rather, she was a degenerate god.

The golden clone was known as 'Shakya'.

The doppelgänger that was still within the Infinite Divine Flame Vortex instantly turned gray. It was a combination of evil and malevolence, and it released a boundless aura of slaughter. It was the complete opposite of that 'Shakya'; this was the 'Emperor Prison'.

After the separation, Sakyamuni unleashed the Thousand Hands, his entire body shone with a golden light as he rushed towards Mo Xiaolang!

As the fist smashed down, Mo Xiaolang had no choice but to retreat, and thus, was forced to disappear from the face of the Infinite Divine Flame Vortex.

And now, the 'Emperor Prison' had escaped from the Infinite Divine Flame Vortex and was standing in front of Long Chen. At this time, in front of Long Chen was a woman who looked very similar to the previous City Lord Bastard. She was sinister, evil, and filled with a thick aura of slaughter. She did not release her Thousand Hands, but a grey sword suddenly appeared in her hand!

Her eyes were blue before they separated, but after they separated, they turned green!

His green eyes were filled with a terrifying bloodthirsty killing intent.

"I finally understand. Just whose eye is the Eye of Hell?"

So it was the 'Emperor Prison' of Emperor Shakya's Infernal Realm.

"That's right. When I was at my peak state, the power of the laws that I left behind for the sword could be activated by the wielder." Because I'm afraid that someone might have killed you in advance! "

Although the voice of the Emperor Prison was that of a woman, it was gloomy, cold, and dull. It caused one's hair to stand on end. When she opened her mouth, one could even see sharp teeth blooming with an astonishing chilling light.

On the other side, Mo Xiaolang was already fighting a great battle with 'Shakya'!

The original siege had turned into a battle between the two of them.

"But now you have to fight me to the death. I'm sure you have a lot of regrets, right?" Long Chen sneered. He never thought that there would come a day when he would have to use other Godly Creation Weapons to deal with the God Slaying Sword and his real master.

"Yes!"

The Emperor Prison and the God Slaying Sword were almost completely one.

Although the God-Slaying Sword might not even compare to the Supreme Divine Emperor Halberd right now, he, who was once a Order-level Divine Weapon, still had many advantages.

"It has always been you who swallowed other people's weapons. Today, it's my turn." The Emperor Prison stuck out his dark green tongue and licked the God Slaying Sword. That scene was extremely strange!

"Whoosh!"

This was the Sword of Slaughter!

Today, all the battles were extremely intense.

Long Chen understood that they were still very far from victory. Every little bit of breakthrough was very important, if he could defeat the Emperor Prison in advance, it might not be impossible for him to control the other battles.

In his mind, he could still recall the scene of the small skeleton stupidly calling him daddy.

All this is over.

It had returned to its true master!

Long Chen's eyes turned cold. He held the Halberd in his right hand, held it in the air with his left hand, and extended his hand out, forming a sea during times of chaos. The sea expanded in size and even the 'Shakya' who fought against Mo Xiaolang was affected by Long Chen's power of time!

"The same power of time as elder brother?" The attack was greatly affected, but she continued to smile coldly.

"That's right, but there's still a way to win!"

"Whiz!"

It was several times faster, but his opponent was several times slower. In an instant, a huge gap appeared!

Long Chen's supreme Divine Emperor Halberd pierced through the God Slaying Sword and struck onto the body of the Emperor Prison!

The Emperor Prison frowned and used his sword to protect himself, but he was only able to defend a little.

Indeed, she lacked the ability to absorb and recover. In fact, she couldn't compare to the current Diremonster and Nuwa.

Chapter 2589 - Heavily Injured Nuwa

Of course, these injuries weren't particularly severe.

The entire battlefield was extremely intense, and so did Long Chen's. He used the Halberd to fight against the God Slaying Sword in the Emperor Prison, completely close combat, extremely close combat. The Supreme Divine Emperor Halberd could barely suppress the God Slaying Sword!

"Long Chen, I can't go on like this. The sword is absorbing my God Creation Spirit Power to recover, if I continue like this, I might descend into my 'dreamy grade' or even turn into ashes."

Long Chen naturally understood.

In the past, this was how he used the God-Slaying Sword to deal with others.

He didn't expect that it would be the complete opposite today.

However, if you think that he can only do this, then you are wrong. He could see that the Demonic God Sakyamuni has many mystical methods, but she was not an expert in the art of offense. Furthermore, Long Chen was only dealing with half of him, it was a gathering of the evil powers from her body!

"Karma Royal Sword!"

In the past when the God Slaying Sword was in human form, Long Chen used the God Slaying Sword to unleash the Karma Emperor Sword. But now, if it was the supreme Divine Emperor Halberd, he could also do the same, and the supreme Divine Emperor Halberd was even more imposing, able to display the full power of the Karma Emperor Sword's justice!

As for the Emperor Prison, it was a complete embodiment of evil!

In Long Chen's eyes, in the Karma King Realm, all of the Karma in the Emperor's Prison appeared, and he had nowhere to run. Long Chen used the Karma King Sword and hacked down, instantly causing the countless evil forces around him to scream out, and retreat!

Reaching the Nine Palace Calamity, Long Chen's Divine Source Power expanded by a large amount, but the blue smoke was still in his most exhausted state.

However, the Emperor Prison was not afraid of the Karma Emperor Sword. Not only did she not resist, she fought Long Chen head on instead.

"Whiz!"

Long Chen thrust out his supreme Divine Emperor Halberd, and all of the power of the Karma Emperor Sword poured onto the Emperor Prison's body, directly piercing through it!

On the other side, the God Slaying Sword also stabbed at Long Chen, both of them receiving destructive attacks.

However, Long Chen was different from her, he knew the power of Slash God. He was already prepared for it as his fire of life instantly forced out the deathly aura of the Slaying God Sword!

Then, his flesh and blood were reborn, allowing Long Chen to quickly recover.

However, the Emperor Prison was not so lucky.

Being struck by Long Chen's Karmic King Sword was in itself the most effective attack against it. The power of the God Realm's Heart Refining Dragon was not Sakyamuni's power, it was at a higher level, which was why it could completely kill evil!

Aqua Blue Smoke already lacked strength, and this time, Long Chen suffered a serious injury from one blow.

However, Long Chen didn't pause at all. When he used his sea power to control the enemy's movements in the midst of chaos, he rushed forward and flipped out his hands, sketching out the outline of the Death Realm's Dragon Door!

"Let's meet with the Battle Demon!"

The Death Realm's dragon door opened, and death aura surged out, surrounding the heavily injured Emperor Prison. In that blood colored world, a blood-colored dragon rushed out and entangled the Emperor Prison!

Hiss hiss!

The dragon claw deeply stabbed into her flesh!

Long Chen used all of his strength to manipulate the Death Realm's Dragon Door, wanting to swallow the Emperor Prison in.

When Long Chen reached the Nine Palace Calamity, his fighting strength was even more tyrannical than she had imagined. After his clone, it would truly be difficult to defeat him with just half of his power!

At this moment, the Emperor Prison could feel the terror of that world of death.

"NO!" Shakya, save me! "

the grey woman shouted.

On the other side, the golden-haired lady was fighting fiercely with Mo Xiaolang, and the two sides still had not decided on the victor. Without Long Chen's absolute suppression, Mo Xiaolang was still unable to get rid of her, and when the Emperor Prison was trapped, she immediately got rid of her opponent, flashing across and rushed towards Long Chen, attempting to destroy the Death Realm's Dragon Gate from the outside!

"Don't even think about leaving!"

Of course Mo Xiaolang would not let her succeed and chased after her.

Right at this moment, a major event occurred. This event occurred on the battlefield between the Pure Sword, the Diremonster of the Primal Chaos Realm, and the Demonic of Nuwa!

The battle on the other side was even more desperate, the fifteen Divine Spirits were almost sucked into the sword and were still stubbornly persisting at the moment. It was estimated that before the battle was over, they would not be able to recover from today's heavy injuries before tens of thousands of years had passed. But in order to survive, in order to protect them, they had to persevere!

He had always been avoiding a frontal confrontation and was quite smart. It was very likely that at this rate, before Su Jian could kill them all, Lingin Gods would be exhausted to death.

This black hole was even larger than last time, and it had devoured everything. What was terrifying was that the 100,000 stars outside of Ling Ji Ji Xing were once again on the move, with at least dozens of them already heading towards the black hole!

If swallowed, it would result in the deaths of hundreds of millions of people!

Now, countless stars that had been sucked away were instantly sucked into the black hole whirlpool.

Long Chen was just about to pull Di Prison back into the Death Realm, but unfortunately, this kind of power was also being used on him.

At this time, it could be said that countless lives were at stake.

Fiery flames were spewing out of the eyes of the fifteen Deities. Their skin was now completely dry and cracked, and they were completely unable to move under the power of time, so all they could do was join the white sword and be swallowed up by the black hole. Once they were all swallowed up by the

black hole, then perhaps Devil Nuwa would quickly recover to her former peak level, the level of power which she had once possessed!

That was the Grandmaster Demon Realm, polar state!

A crisis suddenly descended upon them!

If he did not remedy this situation, then even if he had the sword, everything would be over. Even those dozens of stars and the hundreds of millions of living creatures were just an appetizer.

"Everyone!"

The Holy Lord's eyes turned bloodshot!

"Attack!"

They were enduring, insisting.

At the same time, they had almost used up all of their strength and channeled all of their power into the sword. They activated the God of Creation and unleashed all of their power, breaking free from the power of time at the very first moment!

And at this moment, they were right before the black hole's vortex.

Behind them were dozens of stars.

If they did not stop him, he would be stronger, and they would be in even worse shape!

"Again!"

They were pouring with the anger of two trillion people. At this moment, it was as if two trillion people held onto this sword and were trying their best to sweep it away. A massive white sword beam rumbled out and instantly cleaved into the black hole!

BOOM!

Under the attack of the Supreme Sword's power, the black hole finally collapsed!

In the blink of an eye, he disappeared from the world. What appeared before everyone was a bloody Nuwa Demon. His body was covered with sword wounds, and his flesh was being destroyed. In the blink of an eye, half of his serpent tail had been cut off!

This was the power of the simple sword!

They had succeeded. During the most dangerous period of time, they had heavily injured the Nuwa Devils, allowing the Lingsu Star Sea to escape from a major calamity.

As long as he killed the Heavenly Demon Ji Yuan!

Although they were almost dried up like the Heavenly Demons of the era, they still had courage, faith, and determination to not fear death. Any nation facing a calamity of destruction should have this kind of courage!

Seeing that the deities were about to once again use Susu's sword to slay her, the Nuwa Devils, having received the approval of the Diremonster, began to flee!

He was probably going somewhere else to recuperate. Once he recovered, he would return to the battlefield!

When the other gods were about to give chase, Sky Devil Ji had stopped them. The injuries of the Nuwa Demon were too severe. If they didn't resist the sword energy of the plain sword in their bodies now, their new body might be destroyed!

Mo Xiaolang watched her leave with his own eyes.

"Big brother!"

His entire body was trembling, seeing such an injury, he was more worried than anyone else, Su Yan's body, was his only hope.

Perhaps this was a good opportunity!

If it was only against the Emperor Prison, Long Chen would have the upper hand, but if the Shakya Emperor were to reunite with his Prison Demon King, it would bring about a serious disaster to Long Chen. At that moment, Mo Xiaolang's eyes were filled with pain.

Of the two options, he could only choose one.

"Hurry up and go. I can handle it here. " Long Chen understood his thoughts. Of course, he did not know whether or not Su Yan still existed, but Mo Xiaolang firmly believed in that.

"No." Mo Xiaolang shook his head. He could not let Long Chen go and face the danger alone.

"Go quickly and do what you want. Help her, get her back to us! I can take care of this place, but you don't even trust me? "

Long Chen could not help but berate him.

The chance only lasted for an instant, if he did not grab hold of it, he would not be able to save Su Yan.

Mo Xiaolang looked at Long Chen with bloodshot eyes. He wanted to say thank you, but felt that it was inappropriate.

"Let's go all out!" I'll go all out! Look at us brothers, whoever finishes this impossible mission first! Go!
"Go quickly!"

Long Chen's voice was like the rumbling of thunder!

"Alright!"

With this encouragement, he could let go of everything and pursue his love. At that moment, Mo Xiaolang had already dispelled all of his concerns and chased after the Nuwa Demons without any hesitation. Long Chen knew that his trip this time would be dangerous, but at this point, who wouldn't be in danger?

For example, he. At this time, Shakya and the Emperor Prison had already surrounded him.

And facing a group of gods that were exhausted to the extreme, it seemed that the Heavenly Demon Genesis had yet to display the true ability that he possessed, even though he was the Demon Emperor.

But the injuries he received caused him to be enraged and furious. He believed that his next move would bring despair to the Lingsu Star Sea again!

"Truly touching. What an infatuated seed. What a bold man. It's not easy for you to face both of us alone! "

Di Prison laughed sinisterly.

On the other side, Shakya was shining with a golden light. Her massive strength was no weaker than an expert approaching the Divine Lord realm!

The great war had begun once again!

Chapter 2590 - Azure Lake

Long Chen knew that he would have to face the pressure of the Demonic God Sakyamuni head-on.

The opposing side had two bodies that were opposites, and among them, Shakya was even able to fight with Mo Xiaolang for a long time without being harmed in the slightest. It could be seen that these two who were originally one body were extremely difficult to deal with!

But, Mo Xiaolang needed to find and save, so he had to take on this opponent! At the same time, he was also helping the Lingin Gods to share the pressure. They were miserable enough.

At present, on the Lingsu Star Sea, none of the living creatures were shocked. Over the past few days, they gradually understood how powerful these three demon gods were.

They firmly believed that their divine beings could defeat the evil demons and save the common people!

Therefore, many people who did not believe in gods also joined this group. To provide the Gods with the will to persevere!

However, under the suppression of the blue smoke, Long Chen could only have this one opponent in the entire world. He could no longer see the battle between the Sacred Masters, but he could feel the gratitude in the eyes of the Lingin Gods. At this moment, they no longer held even a trace of doubt towards Long Chen.

Trust was also a type of power to Long Chen.

He was the one who brought disaster to this world. No matter what, he had to shoulder the responsibility of protecting this world!

"Unfortunately, I don't want to waste any more time with you." At this time, Shakya and Emperor Prison spoke out at the same time. One of them spoke out with a solemn and imposing voice, while the other spoke sinisterly.

Then, they fused back into one in front of Long Chen, returning to their sexy and enchanting appearance of blue smoke. Blue hair, blue eyes, snow-white skin, it was just like when Long Chen first saw her in the crystal coffin in the depths of the Emperor Star.

"When you wake up, perhaps by that time, we would already be at Dragon Sacrifice Continent. You know that your God Kingdom still has your beloved women and your unborn children. I think that they might be your most important guardians, but unfortunately, you betrayed the Heavenly Demon Ji and you have to destroy the thing you were protecting with your own hands. "

Aqua Blue Smoke licked her tender lower lip and smiled coquettishly as she spoke.

"You want me to become an Ancient Giant Demon and kill Ling Xi and her daughter?" Long Chen didn't think that she would be crazy to this extent.

This kind of opponent had already angered Long Chen to the extreme. He hated this fellow just as he hated the City Master of Bastard to death.

"In Three Great Imperial Domains, am I considered to have defeated you?"

"There's no second chance." It was just a little game I played with you. "

As she spoke to here, her enchanting body began to change. It lost its aesthetic beauty, and became a blue, archaic Giant Demon. Compared to the other Ancient Giant Demons, she looked a little cuter and cuter. From the outside, she did not seem to have much power, like a sparkling and translucent blue gem that shined with the starry sky. She spread her glass-like wings as she faced Long Chen!

"You will sleep." Shui Lanyan's seductive voice came from the blue ancient Giant Demon's mouth.

As the Primordial Blood Spirit Dragon, Long Chen confronted the Ancient Giant Demon, causing the Dragon Demons to resist once again. Many people from the Spiritual Beings also set their gazes on Long Chen. Although they knew who he was, they knew that Long Chen was helping them!

Even when using the Primordial Blood Spirit Dragon's body to face off against the blue smoke, it was still unable to eliminate the sense of danger the blue smoke brought. Towards defeating Long Chen in this way, perhaps she had already made a plan in his heart.

I and Mo Xiaolang are the same, able to steal the rules of others, but it's not as exaggerated as him. Even now, I am still very exhausted, and this was all bestowed to me by you. However, all of this ends here. The good and evil body, these are my rules. However, I am unable to subdue you. I will allow you to choose all the power that I have left, and I will also be able to control your power of laws. Enjoy it! "

As she spoke to here, she cackled eerily.

Although it was soundless and formless, it was as if Long Chen was in a narrow space at the moment. He deeply understood that the blue smoke had already reached the point where he wanted to settle down and then engulf him!

For this moment, Long Chen had to endure for more than a year!

"Azure Lake!"

A few elegant words came out of Lan Yan's mouth. It was impossible to tell what kind of powerful attack it was.

In reality, this was not an attack.

Like a sapphire, the blue smoke from the Immemorial Demon Body suddenly turned into powder in front of Long Chen. A gigantic beast transformed into billions of sapphire powder that swept around Long Chen, and in the process, all of the powder turned into droplets, and the droplets fused together to form a lake!

It was a lake that trapped the Primordial Blood Spirit Dragon in the center.

This was the power of the Code. Long Chen's surroundings were covered, and for the time being he did not feel any killing intent from the blue colored lake, this rule itself did not have any offensive power!

However, it was true that Aqua Blue Smoke had defeated his trump card!

If he lost beyond imagination, all his hard work from the moment he entered the Demon Star till now should have all been for naught!

"This is a sleeping spell!"

Her following words were like needles piercing Long Chen's head!

Long Chen felt that this was a type of sleeping rule!

These lakes were terrifyingly tough and durable; it was not a simple lake water, but a manifestation of the power of laws, and had even entrusted the entirety of the blue smoke's power. The entire blue lake was so powerful that it drowned Long Chen within it!

With the body of an Primordial Blood Spirit Dragon, Long Chen struggled in the middle of the lake!

At first, the lake was very viscous. No matter how Long Chen struck it, the liquid would cover everything and break through everything. If Mo Xiaolang was here, even if he used his Unbroken Fire Realm, he probably wouldn't be able to stop the lake water.

Then, Long Chen felt it was quiet.

Raising his head, he saw that it was an azure world. It was completely tranquil. His entire body did not feel murderous intent, but rather an extremely relaxing and refreshing feeling, making him feel incomparably comfortable and comfortable.

"Go to sleep. When you wake up, everything will be as beautiful as you imagined. Everything you want will appear before your eyes and under your feet."

That formless and gentle voice was like a spell, resonating in the blue tranquil lake, as though someone was actually speaking right beside Long Chen's ear.

From the battle until now, his nerves had been stretched to the limit.

He knew that this was the magic that caused him to fall asleep, but under the impact of the azure lake, he gradually forgot. This was the most famous law of water blue smoke, and also the origin of her name. Underneath her blue lake, countless deities had fallen into a deep slumber, not even having the chance to awaken.

Therefore, she was the Prison Demon God Shakya, and also the sleeping Evil Woman!

That gentle and serene voice continuously resounded in Long Chen's ears, and it was like a gentle place that allowed the most exhausted people to completely relax.

The power of this slumber was an extremely complicated rule.

Long Chen had already encountered methods similar to hallucinations before, but these and the rules were two completely different things, they were simply not on the same level. For example, water blue smoke. If this blue lake was placed on the Ling Ji Ji Xing, whoever touched it would sleep for eternity, until their death.

These were the God's rules that mortals simply could not resist.

She was able to cause the entire world to enter a state of deep sleep.

Illusion techniques were far from this level.

Long Chen was also being affected by this extreme rule, causing the sky and earth to spin.

"Where am I?"

He was incomparably exhausted, and wanted to rest. He wanted to sleep, but he also had some internal struggles. He felt that there were some things that were still holding him back, and he couldn't just fall asleep like this.

"Sleep, everything will be fine."

Behind her, there was a woman without a single strand of hair. She reached out to hug herself, that soft elasticity bringing with it an unimaginable binding. Her legs were wrapped around her legs, slender like a snake, pure white like snow, perfectly round and powerful, intoxicating!

"This is not Ling Xi."

But Long Chen couldn't remember who this was.

"There's no such person, only me ... You're too tired. You want to sleep in peace with me? When we wake up, we'll naturally see a beautiful world. Be good ..."

That girl was too gentle. Her skin was as smooth as water, as if it could be broken by the wind.

"Then, let's not worry about anything and take a rest first!"

Faintly, he had such a thought.

Once he fell asleep, he would only be able to wake up if Shui Lanyan personally woke him up. By then, the Lingsu Star Sea would probably no longer exist.

However, what Long Chen did not know was that in the vortex of laws, any will was suppressed by the law of slumber.

Under her sleeping spell, not many people could endure it, especially someone like Long Chen who needed to rest. He could not withstand her gentle strength.

However, things were always unpredictable.

"Whew."

Long Chen suddenly felt a wave of pain.

"What are these?" He was curious, and his sleepiness had disappeared.

"Brother Chen, this is Three Lives Love Thread. You were struck by her rule and are about to fall into a deep sleep!" Ling Xi's cold voice pierced his ears like thunder!

He finally remembered something that he couldn't remember!

So!

His eyes instantly opened and blood-red light shot out. He was still an Archaic Blood Dragon, but he was trapped by a blue lake and was about to sink to the bottom!

This was the best time to counterattack!

"Aqua Blue Smoke!"

This woman was truly destined to meet him. Since the time of the City Lord's death.

At this moment, she had almost let herself fall asleep. Once she fell asleep, that would be the end of her life.

Fortunately, he had managed to survive the ordeal. At this time, Aqua Smoke was still doing its best to lure him into a deep sleep. Just as he was about to succeed, he suddenly woke up.

In order for Long Chen to fall asleep, she had already used all of his power into the azure lake.

To Long Chen, he might take this chance to kill his enemy!
