

War God 2601

Chapter 2601 - Era Annihilation

In reality, this was the ability that the Great Void Cosmic Dragon had inherited, and it was different from the power of laws. That was why he could not understand!

The first was to cover his own wings with them, forming an illusionary barrier above his wings. This was the use of his Time Laws, a type of time shield, and the second was to throw Cat out, throwing it in front of the time-breaking sword aura!

The most appropriate response.

If the sword qi had not broken open the time column and made him feel that something was amiss, he would not have made such a huge reaction. After all, he was the Demon Emperor, a Heavenly Demon of the age!

What choice would Long Chen make when the kitten blocked the terrifying attack?

This short moment had turned into the most frightening moment for all living beings. They could roughly see this change clearly ...

No matter what, Long Chen appearing had already become their greatest surprise, and made them understand that they had not completely lost hope yet! But as for whether they could still turn that hope into reality, they did not know.

This was Long Chen's strongest moment!

"Boss, it's me!"

The little kitten secretly cursed that the Heavenly Demon is despicable, he actually used me to block Long Chen's attack!

Of course, he still believed that Long Chen would retreat and attack him.

"In my boss' eyes, I must be more important than these damn people!"

Cat thought.

Long Chen would never give up on him, although it would be risky to take away this extremely rare attack ...

However, what he could not believe was that even though Long Chen had clearly seen it, he did not give up at all. This was something that happened in a split-second, and the little kitten was instantly shocked, cursing in its heart, "Aiya, you slut!"

Before he could even curse, the two bursts of sword Qis had already landed on his body!

"Damn, this young master is dead for sure!"

The kitten cried into the sky.

However, what shocked him was that the sword energy had already passed through his body like an illusion and headed towards the Heavenly Demon. That feeling was as if he was a ball, a ball that was leaking air!

He was sure that he was not dead or injured!

However ...

"My hard-earned power!"

Cat wanted to cry but had no tears. Right now, his body felt as if it was leaking air, and he could not move at all. It was only for the space of three breaths. Half of the remaining strength in his body was gone!

"Boss, what kind of power is this? Not a single hair on my body is hurt! " The kitten was puzzled, but he suddenly thought of something and looked behind him in shock ...

In actuality, before this, the sword qi that had broken apart in time had clashed with the Heavenly Demon Ji Yuan!

The two sword energies landed on the time shield.

"Boom!"

The shield was easily disintegrated.

The two layers of defense set up by the Heavenly Demon was instantly broken through by Long Chen. At this moment, the kitten had just been hit by the sword qi and was unable to move. The Heavenly Demon Primordius suffered the same attack. However, the two sword qi did not pass through him and instead stopped on the Heavenly Demon Primordius' body.

It should be said that it was completely used up ...

For a moment, the entire world seemed to have come to a standstill ...

Everyone looked at the sky in shock, it was as if nothing had happened to Long Chen's astonishing sword strike ...

That was their first thought.

What followed was a type of subversion.

In these three breaths of time, he basically did not have much strength left, so he used a terrifying speed to escape. After three breaths of time passed, when he was able to move again, his ghost-like body had less than half of its original strength left, and his body's strength was also less than half of his original strength.

One had to know that he himself lacked power!

At that moment, he lost all time. He only had three breaths of time, and was like a dead man that couldn't retain her strength, scattering through the world ...

The power of this move was that it was impossible to defend against it at all. The moment one was struck, at least half of one's strength would instantly be taken away. Whether it was the Divine Source Power of the 'Genesis' or the 'Order-level', both were like this.

But now, strength was the greatest weakness of the Heavenly Demon.

If Long Chen could defeat the Ji Yuan Sky Demon, then this strike, would be an absolute reversal. It was this strike that broke through the time column and truly injured the Ji Yuan Sky Demon, not only in terms of body, but also in terms of spirit, and shocked the Ji Yuan Sky Demon!

This was the first time that an existence who had achieved the peak of his attainments in the Rules of Time and was unrivalled in the entire world had encountered a world's rule that he was unable to comprehend. Everything he comprehended was built on the foundation of 'having time', yet Long Chen actually used 'lack of time' to temporarily turn him into a dead person.

There were even complex applications similar to the Sand of Time and Time Heart.

Obviously, Long Chen had secretly learned of him.

This was the most difficult pain to deal with. The current Heavenly Demon Ji was like this, when half of his energy was lost, the current him was not even at the same level as when he came out of the crystal coffin. And when Long Chen threw the kitten into the God Kingdom, he brought the Twin Swords of Time to him, which made the Heavenly Demon Ji believe in fate, and at the same time, he believed in karma.

"Your destiny is to arrange for a retribution!"

Inside the body of the Heavenly Demon Ji Yuan, his eyes were actually blood-red, and even his voice was trembling.

Buzz.

In front of Long Chen, he had turned into a Heavenly Demon.

"From the soul-controlling demon until now, I, the Immemorial Giant Demons, have disappeared from your hands one by one, until I, Blue Smoke and Purple Sound!"

The Heavenly Demon Ji Yuan believed that this was fate!

The current Long Chen had the qualifications.

Long Chen did not dare relax even a little. The Heavenly Demon Ji was still terrifyingly dangerous, he did not know that his move of Breaking Time had given this time overlord a huge blow. Without saying a word, he brandished his twin swords once more.

Time once again ruptured!

This time, the Heavenly Demon Primordial Era did not even bother to dodge. The power in his body had once again dissipated by more than half. At this moment, he was already in a weakened state. Long Chen never thought that there would come a day where he was so close to victory!

He didn't dare to think about why the Heavenly Demon Ji stopped his attack and stopped dodging.

Because he had entered the time prison, millions more had died.

The responsibility he bore, the rage he felt, were all urging him to not show mercy and not waste time. He had to seize the opportunity to kill as quickly as possible!

"Death Realm's Dragon Gate!"

He decided to give Ji Yuan Sky Demon a fatal blow!

He had placed all his hope on this attack!

His transformation into an Archaic Blood Spirit Dragon and Divine Dragon Body caused all living beings with spirit essence to become even more shocked and prostrated! At this moment, everyone was kneeling on the ground in respect of him, their mouths wide open as they watched his attack!

The Death Realm's Dragon Gate appeared above the Primal Heavenly Demon. The Dragon Gate opened wide, and the deathly aura surged as ten Unparalleled Dragon descended from the sky, locking down the one who was at the moment extremely weak, the Primal Heavenly Demon, who looked even weaker than Shui Lan Yan!

"Enter!"

Long Chen's eyes were bloodshot as he used all of his strength.

The Unparalleled Dragon was doing its best!

"The amazing power of time has defeated me like an epic at the very last moment. It has made me lose my confidence. " Sky Demon Ji Yuan did not seem to resist as he looked at Long Chen with his scarlet red eyes, with a smile on his lips.

"Lan Yan, Zi Yin, in the end, it came to me. Although we traversed the tens of thousands of years ago, and a small fry like you could not even compare to our weakest brothers, I have to admit that you are the fated one who started this new era. You will change the fates of tens of thousands of worlds.

"Today, you have dealt with us. This is the beginning of your rise to prominence in the Myriad Worlds. I am honoured to be your stepping stone."

At this time, he should be like the Nuwa Demons and the Aqua Blue Smoke, either furious or howling in despair and anger, but he wasn't. His face was full of smiles, and he seemed extremely satisfied.

At this moment, he had already reached the Death Realm's Dragon Gate.

Long Chen still did not understand, the Ancient Giant Demons had always looked down on him, and Shui Lanyan had never taken him seriously either. But why would the Heavenly Demon Era view him so highly at this moment, and even say that he was honored to be the stepping stone for Long Chen?

Furthermore, ever since he was struck by the Time Break, he did not resist at all, allowing Long Chen to do as he pleased!

"What are you trying to say!"

Long Chen clenched his teeth, he still did not believe that he could defeat the Primal Heavenly Demon.

At this moment, the Heavenly Demon Ji had already entered the Death Realm, and half of his body had already been submerged by the Death Realm.

However, his smile became even weirder as he said, "I'm saying that if you grow up properly, I will come back to find you." "Our grudges will never fade in the future!"

BOOM!

The Death Realm's Dragon Gate was closed!

Long Chen closed it tightly, worried that it might not be right, and allowed him to slip out like water and blue smoke. It was only when he was certain that the Death Realm's Dragon Gate had disappeared that he could finally heave a sigh of relief, but his heart was filled with doubts.

"If he enters the Death Realm, how can he return? It must be unwillingness, it must be trying to scare me off. It should be the case! "

Long Chen reminded himself!

He suddenly froze for a moment, then remembered that he had already sent the Heavenly Demon Ji Yuan into the Death Realm. He stared blankly at the two swords in his hands as if he was in a dream.

In the end, he even defeated the Nothingness Demon and the Battle Demon. Now that the blue smoke was close to death and the Nuwa Demon God's soul was extinct, the Sky Demon, Ji Yuan, was sent to the Death Realm.

None of them seemed like a human or something that a god could accomplish ...

Therefore, he estimated that it would take a long time before he could accept this fact.

Even he himself couldn't believe it, much less anyone. Even within the Dragon Sacrifice Continent, everyone was still reminiscing about him, yet they never thought that such a situation would happen, let alone believing it ...

It was only until the deafening cheers of the entire Lingsu Star Sea and her hoarse voice that Long Chen truly believed that he had actually killed the Primal Heavenly Demon!

"Oh my god!" "Oh my god!"

Long Chen himself found it hard to breathe.

Although he had borrowed the strength of the psionic sword and made it so that he had the qualifications to use the psionic sword, it was still inseparable from his own strength. He did it!

At this moment, he was destined to be the Dragon-Blooded Battle God that illuminated the world!

Chapter 2602 - Lunar god ship

He didn't know how long he had been cheering at the top of his lungs.

Long Chen could only let go of the sword and spirit sword. Previously, when they were fighting, with the support of so many living beings, he was able to barely unleash the two Creation God Equipment that were above Genesis. But now, the battle had ended, and even if his power was still surging, he was already tired in his heart.

The Lingxiang's twin swords floated around him, and two Rainbow Butterflies flew out, staring at each other. Ling Xi's little butterfly was still completely confused, and did not know what had happened, but it had already become Ling Xi's Destiny's Heroic Spirit.

This victory was truly unbelievable. It was terrifying!

Even now, there were still a lot of people who were in a state of disbelief.

"Big brother!"

At this time, Long Chen heard Mo Xiaolang's voice. He turned around and saw Su Yan and him walking over from the starry sky. Mo Xiaolang held Su Yan's hand tightly, as if he was afraid that he would lose her again.

Finally, they were reunited.

"Damn, doesn't that mean I'm left alone?" The kitten was stunned for a moment in the Divine Kingdom.

Long Chen swept up two flames of life, igniting them within his body. Although it was not possible for them to recover completely in an instant, the significance of the fire of life was in their health and he believed that it would not be long before they could recover to their perfect condition.

Long Chen could tell that her body had been transformed by the devils, and he had already become one of the Immemorial Giant Demons, but it was different. He had heard Mo Xiaolang talk about him devouring the stone tablet before, and he had also seen a stone tablet in the body of the soul-controlling demon. It was obvious that this stone tablet was the greatest secret of the Immemorial Giant Demon.

This was all given to her by the Demon Lord out of carelessness. Of course, as long as she continued forward carefully, without needing to consume it, she would be able to recover back to her peak state as a Demon King in the future.

Long Chen was genuinely happy for Su Yan.

Like this, in the future, Mo Xiaolang would not have to worry too much about her.

This wasn't luck. She had painstakingly acquired it, but during this period of time when she was under the control of the neo-demons, who knew how much suffering she had suffered, or how much struggle she had to put up in her heart!

Therefore, all of this was what she deserved.

Long Chen couldn't help but smile at them.

Everything seemed to be over, and now they had to return to their hometown, the Dragon Sacrifice Continent. The people there probably thought that Long Chen and Mo Xiaolang had transformed into the Ancient Giant Demons!

However, there were still a few matters that had yet to be resolved in the Ling Ji Ji Xing.

"Big Brother Long Chen!" Su Yan's eyes were filled with tears. She had always treated Long Chen as her own brother.

"It's over. From now on, we will stand together and not let anyone bully any of us." Long Chen also had many apologies to her, which could be considered as him bringing this girl to the Immortal God Realm.

Fortunately, everything was beautiful.

"En!"

Su Yan nodded heavily.

He and Mo Xiaolang had personally seen Long Chen defeat the Ji Yuan Sky Demon on the battlefield. Of course, their collaboration in this battle with the devils was also very exciting. Under the situation of Su Yan being suppressed, they had revealed a rare wisdom, which was the key to victory.

Nuwa underestimated Su Yan too much. Otherwise, she wouldn't have died.

"We still have to think of a way to go back. After all, the Heavenly Demon Genesis has entered the Death Realm, and the Godship is no longer here." Ling Xi said from within the Divine Kingdom.

Long Chen told everyone to come out from the Divine Kingdom, so it was rare for the five of them to meet again.

In the past, they had gone to the Immortal God Realm, and that had been five people.

Right now, there were five people as well.

What was rare was that even though the five of them experienced many great tribulations, they were all fine and unharmed. Moreover, they climbed to the peak and became Fiendgods. All of these experiences still made people sigh in envy.

"Sphinx!"

But when Ling Xi appeared, the fifteen divine gods who had just recovered a little and were heading towards Long Chen were instantly stunned.

All of them looked at Ling Xi with dumbstruck expressions.

This was the first time he had seen Ling Xi. He shook his head and said: "I'm not from the Sphinx, but my appearance and temperament are quite similar. But she was young. However, all the power that is related to the Sphinx on Long Chen's body comes from her.

Su Jian had already suspected before, Long Chen did not seem to be someone who possessed the power of the spirit essence, why did he suddenly have it? Indeed, there was a shield behind him.

The fifteen divine gods came out from their shock and stood before the five of them. With the Holy Lord at their head, they bowed deeply and said, "The five of us represent all the living beings in the Lingsu Star Sea and deeply thank the five of you. You have helped us to survive through such a great tribulation and save all of you. If any of you have any orders or requests, feel free to tell us! "

Long Chen shook his head, and said: "Everyone, what I have done, is not only for the Lingsu Star Sea, but also for my world. At the same time, the Ancient Giant Demons came to this world because of me, and they caused a certain amount of loss to the Lingsu Star Sea. But I don't think any of you would care about these things. From now on, I would prefer if we could be friends and advance or retreat together. "

The Holy Lord couldn't help but laugh, "There's no problem at all. Two talented youngsters, their accomplishments in the future are limitless. We can't even curry favor with them."

"It's the three young geniuses." The kitten added.

"Right. Right. The three of you." Everyone began to laugh. The solemn atmosphere had finally relaxed.

Su Jian spoke up at this moment, he had been observing Ling Xi the entire time, and said: "Strange, you have the blood of the Sphinx in you, it is extremely dense, but it is split into two parts, and it has not fused with you for the time being. Logically speaking, you should be a person who received the inheritance of the Sphinx, the Sphinx. You brought your spirit sword and left the Lingsu Star Sea.

These things had to be resolved.

Long Chen explained: "In the Dragon Sacrifice Continent, there is a Spirit Race, with a total of about 2 billion people, they are from your Lingsu Star Sea."

Then, he explained the two spirits, the Pure Maiden and the Psionic Imperial, and how Ling Xi had obtained the inheritance of the Pure Maiden and the Psionic Imperial Lord.

"A virgin? Spiritual Saint? "He is not the god of our Lingsu Star Sea. We used to only have one Divine Emperor," the Sacred Monarch muttered.

Everyone was puzzled.

"It was very simple. The Sphinx was split into two, but no one knew what happened next, so it disappeared. left behind the Spirit Race in the Dragon Sacrifice Continent. " The kitten said.

What he said was exactly what the crowd had guessed.

Long Chen said: "It might be so. As for how we obtained the Spirit Sword, that will have to start from the moment Ling Xi and I met. "

Of course, he did not go into details, but simply gave a brief explanation.

"The spirit essence of your Sword Soul Imperial Palace is very likely to be related to the Sphinx. This lady must be a disciple personally chosen by the Sphinx. She still hadn't gotten everything that the real Sphinx had left behind. But he has even more legacies. If he disappeared from the Dragon Sacrifice Continent, then he must still be in the Dragon Sacrifice Continent ... I have to go to the Dragon Sacrifice Continent to find everything he has left behind. " Su Jian suddenly said.

The Lingin Gods was stunned for a moment. The Holy Lord said, "Lord Su Jian, didn't you want to stay in the Lingsu Star Sea to protect us?"

Su Jian said, "Don't worry, no one should know about my appearance this time. After all, Lingsu Star Sea is a remote place. Moreover, I no longer have the power of a 'Hun Yuan Ranked'. Furthermore, my Spirit Sword was severely injured, I must go there and find the reason. "

Lingsu Star Sea had not encountered any problems in the past tens of thousands of years, so this time, it could be considered rather rare.

Long Chen had thought that Su Jian would stay after the battle.

He did not expect it to follow him.

The good thing was that he could still unleash even more power. The bad thing was, without the support of the Lingsu Star Sea, he could only use both swords once or twice. He definitely could not be as strong as he was now, when he had defeated the Heavenly Demon.

Of course, if he could wait until he became a Divine Spirit and had the Infinite Divine Art, then it would definitely be much better.

Since that was the case, Lingin Gods could only agree.

However, Long Chen knew that the most important thing had yet to be resolved, and in fact, this was the crucial point. Therefore, he fearfully asked, "Everyone, we do not have any Creation God Equipment that can travel between planets.

There was a small category of Creation Divine Artifacts, which were specifically used to travel through the starry sky. They were extremely fast, had a stable structure, and contained the power of laws; they could travel through the starry sky.

Although the Primal Godship had declined to its limit, its speed was still very fast.

Hearing this question, the Lingin Gods looked at each other, and they quickly came to a decision. The Holy Lord said, "To tell you the truth, our Lingsu Star Sea does indeed have a Creation God Equipment that can allow everyone to return to the Dragon Sacrificial World. As for borrowing it, I don't think so. It's not something that's too precious, so I'll just give it to you. "

Long Chen was pleasantly surprised.

The issue of returning had finally been resolved!

Roughly fifteen minutes later, the God Creation Art appeared in front of Long Chen.

The third stage was the same as Mo Xiaolang's Fire God's Gourd, but it was not used for combat, but for interstellar travel.

The third stage, would normally require the power of a Divine Monarch to activate. Long Chen had barely reached this stage.

"This Creation God Equipment is called the 'Wind Moon Godship'. It was left behind by the Sphinx and has not been used for tens of thousands of years. I doubt we will ever use it again, so I will give it to you."

The Holy Lord was very generous.

Chapter 2603 - The King's Return

This Windmoon Divine Ship was much more beautiful than the Primal Heavenly Demon's Godship.

It was surrounded by colorful clouds and mist, as if it were an illusion. It was floating like an immortal palace, covered with beautiful patterns and spirit race's unique formation diagram. It was gorgeous and respected, worthy of the name, Wind and Moon Godship.

The interior of the palace was like a palace. It was fully equipped, and no one dared to go in or out.

The purple gems embedded inside were also dreamy grade Chaos Treasures.

The people of the Lingsu Star Sea pursued beauty in terms of vision, and the Wind Moon Godship was also a part of their pursuit of beauty.

The Destiny Heroic Spirit of the Windmoon Godship was a snow-white bird. It was very active, and was probably lonely for too long. Finally, someone was willing to take her away, so she felt extremely happy. The name of this snow-white bird was Feng Yue.

Feng Yue really liked the Sphinx's aura on Ling Xi's body, and was willing to let Ling Xi be her master. In the end, it was still Long Chen's turn. Of course, Feng Yue would not reject him as well, as she knew that Long Chen had defeated the Age Sky Demon.

With the two butterflies from the psionic sword, Feng Yue and the red-skinned child in the Flame God's bottle gourd, their group immediately became lively.

It had been a long time since they had been so reunited.

It was time to say goodbye.

Long Chen couldn't wait to return. He wanted to let everyone in Dragon Sacrifice Continent know that they were not dead yet, and had not become Ancient Giant Demons. They had defeated the Ancient Giant Demons!

He wanted to let the Dragon Emperor know, wanted to let Yang You know!

It was too far away from where they were now, so Long Chen wasn't able to communicate with them.

That was why he was in a hurry to return. He did not want Yang You and the others to worry about him for an extra moment.

When they parted ways, they were sent off by all the living beings in the Lingsu Star Sea. To be able to get so many people to send them off, it could also be considered to be an extraordinary matter.

"If you find any news about Sphinx, please inform us. Also, all of you are welcome to come visit anytime."

"No problem."

After bidding farewell to the Holy Lord and the others, Long Chen and the others entered the Windmoon Divine Ship. After that, they closed the ship and headed towards the endless starry sky.

Behind them, the cheers of the Lingsu Star Sea did not subside for a long time.

Everyone on board the Windmoon Godship had gathered together. It had been a long time since they had had such an exchange.

"Sister Ling Xi, your stomach!"

Su Yan was dumbstruck. She had not seen her for so many years, but she did not expect that Ling Xi would actually become pregnant. Furthermore, it should not be long before the child would be born.

"Haha, that's right, these two are going to be parents. It's hilarious thinking. Hurry up and leave them here, let this young master properly train them, and let her be a good person."

The kitten said seriously.

"If you were to teach her, it would definitely be bad. If it's a girl, I should be the one teaching her." After merging into this large family, Su Yan seemed to have forgotten the suffering he had once endured under the control of the Nuwa Devils. Seeing her smile, and then looking back at the happiness and satisfaction on Mo Xiaolang's face, Long Chen felt incomparably gratified in his heart.

He was the oldest person in the group and was their elder brother. His responsibility was also to allow each of them to reap happiness and happiness. Now it's all over

In his heart, he naturally felt at ease.

As for the rest of the journey, Long Chen did not think too much about it. After more than a year of battle, he was extremely nervous, and after this moment, it was as though he was in a dream, unable to think of his future.

The Dragon Sacrifice Continent still had many mysteries, such as the Spirit Sea, the Black Jade Dragon Head, the Ancestral Dragon Cave, and most importantly, the cause of death of Long Qinglan. These still needed to be pursued by Long Chen.

Inside the Wind Moon Divine Ship, everyone was laughing and talking merrily. At this moment, it had become the most beautiful eternity in Long Chen's heart.

"In the future, if the Dragon Sacrifice Continent is safe and we recover to our best condition, I will use this Divine Wind Moon Ship to bring everyone on journeys to see just how big this ten thousand worlds are and what kind of interesting lives are lived in other worlds." Long Chen laughed.

"This is too f*cking cool, boss, I love you so much, you did kick Ling Xi, I'll marry you!"

The kitten flattered.

The crowd burst into laughter again.

So relaxed, so happy, it was like a dream.

In the corner, the big butterfly of the plain sword circled around the little butterfly of the Spirit Sword Sect, like a big brother, helping the little butterfly regain his memories.

Above his head, the wind and moon continuously danced about as they chirped like ordinary birds.

"Oh yeah, big brother Long Chen, has the baby been named yet?" Su Yan was most concerned about their child, and had basically been staring at Ling Xi from the beginning to the end. Although she was young, like an ordinary girl, she was filled with curiosity about new life forms.

"I don't think so. I'll just take one for you. Just call it Dragon Urine!" "Haha!"

The kitten was no longer serious.

Long Chen had never thought of the name before.

However, he wasn't in a hurry. Who knew when this fellow would be born?!

"Cat, didn't you take a lot of things when you went to the sea?" Long Chen suddenly remembered.

The kitten paused, then said in a speechless manner: "I have already taken care of quite a number of pronucleus, I have almost used them all, the other ones are all below the third grade 'Chaos Treasures s'

and 'hongmengxinling', and I think that they can still be of some use. As for some that are still powerful, I can't take them away, and I was in a hurry to release you back then, so I didn't get any good stuff."

Long Chen nodded: "This is the thing Sphinx left for us, we cannot touch it."

Long Chen calculated that the speed of the Windmoon Divine Ship was not even half of the original speed of the incomplete Primal Chaos Battleship. In other words, they would need two years to be able to return to the Dragon Sacrifice Continent without encountering the great Starry Sky Calamity.

There was nothing he could do even if he was anxious.

After going through so many battles, Mo Xiaolang and Su Yan still needed to rest. Although Long Chen's body was fine, his mind needed to rest. After a few days, everyone immersed themselves in cultivation, and it was relatively easy to kill time.

The inside of the Windmoon Godship finally quieted down.

Mo Xiaolang had only learned the 'Nine-Nine Burning Heaven Secret Technique' before, and now that he was continuing, he believed that before he reached the Dragon Sacrifice Continent, he would already be able to transform his devil spirit source energy into the true 'Nine-Nine Burning Heaven Source Energy' of Genesis. That was truly terrifying, at least, it was a lot stronger than Long Chen's current most primitive Divine Source Power.

In terms of numbers, Long Chen far surpassed him, but in terms of strength, he was far inferior.

As for Long Chen himself, he was trying his best to break through to the Divine Spirit Realm!

Now, all he had to do was survive the Fiendgod tribulation and become a Deity. That would be the last tribulation of his entire life!

Perhaps, it could also be the most terrifying calamity!

Right now, he could still not be considered a true god. When he truly reaches the Divine Spirit, there will definitely be even greater changes. After all, he was an Ancestral Dragon Fighter.

"It seems like becoming a god means reaching the True Dragon Realm. At that time, I can go to the Origin Dragon Palace. Get to the bottom of things like the Origin Dragon Soul. "

Long Chen was also looking forward to it.

Right now, he was already in a peaceful environment. As long as he had time, he would be able to grow. Although he was no longer facing any threat, he still had a goal. This goal was obviously to one day become a Divine Emperor of the Divine King and become the peak of ten thousand worlds.

"I hope that the Dragon Sacrifice Continent can live in peace for a hundred years."

His only worry was the words spoken by the dragon sacrifice to kill him within the span of a hundred years.

To this day, it had still deeply troubled him, and the closer he got to the Dragon Sacrificial World, the more intense this feeling of crisis became.

A year passed by, and two years passed by. They suffered several great tribulations of the starry sky, but they were able to safely cross it without deviating from their path.

In two years, they had returned to their peak condition.

Mo Xiaolang was now approaching the realm of the Demon Lord, and with the body of the Nuwa Demon, Su Yan was able to display a certain amount of rules as she was gradually becoming more familiar with it. In terms of fighting strength, although she wasn't very proficient in controlling her body, the black hole rules were still extremely powerful, and if used well, it would still be a huge blow to their team.

This was their team's greatest reward.

As for Long Chen himself, he was already extremely close to the Divine Spirit Tribulation. It was just that he did not know when the Divine Spirit Tribulation would come.

It was both a danger and a fortuitous encounter.

If he could cross it, he would probably become much stronger!

Long Chen also wanted to experience the feeling of truly becoming a god. He was looking forward to it.

In the blink of an eye, he seemed to be close to the Dragon Sacrifice Continent.

In the last month or so, no one had the heart to cultivate anymore. They could only look at the approaching Dragon Sacrifice Continent with excitement in their hearts.

He had finally returned to his hometown.

"This divine dragon is really mighty!"

Su Yan pointed to the shape of the Dragon Sacrifice Continent.

"Could it be that this is a dragon?"

Hearing their discussion, Long Chen had actually thought of this before. Obviously, the Dragon Sacrifice Continent had many secrets that they were not familiar with.

It was about time.

Long Chen found Yang You in the ten billion God Kingdom. At this distance, he should be able to contact her.

"Aunt You." "I'm back!"

He sent out this message.

"Chen Er!"

Sure enough, the other party's excited voice could be heard.

Although it was only an exclamation, from this exclamation, Long Chen could hear the deep worry and love in her voice.

He knew how important this news was to a mother.

Although he still used to calling her Aunt You.

"I came back safely." He said quietly.

Everyone quietened down, looking at Long Chen, they were no longer making noise.

"Is he safe? But, where's the Heavenly Demon of Ji ..."

Perhaps, she still couldn't believe it.

After all, the Heavenly Demon Genesis was simply too terrifying.

Long Chen said: "It's a long story, but in short, we killed them all. Now that everyone is safe and we are returning, we should be able to return to the Dragon God Domain in about a month."

"That's good!"

Although he couldn't see her, he could tell that she was crying tears of joy.

Long Chen finally let her know that he was still alive, and let out a deep sigh of relief.

However, at this time, Yang You cautiously said, "Chen Er, you probably never would have thought that Dragon Sacrifice World was different from three years ago. A huge change had occurred. It might shock you, it might even be dangerous for you. "

Chapter 2604 - The dragon sacrifice Cataclysm

Long Chen was stunned.

What could happen in Dragon Sacrifice Continent? It was only for three months, and the biggest threat was — Primordial Demons had already been eliminated by him, what other danger could there be?

Yang You's sudden words completely confused him. He hurriedly asked, "Aunt You, what do you mean by this?"

He carefully said, "One year after you left, the gods of this world, the demon race's divine beasts, human gods, as well as the sea gods and the witch gods have all returned. They used two years' time to build a new world, a completely different Dragon Sacrifice Continent.

"What!"

Long Chen was extremely shocked in his heart.

The gods are back!

Human, seventy-two Archaic Gods! One hundred and eight Diremonster Beasts! The god that existed in the Archeozoic era, after vanishing for millions of years, had actually returned to the Dragon Sacrifice Continent at this time?

First of all, how could such a weak Dragon Sacrifice World bear the arrival of so many divine spirits?

And why had they left, and why had they returned?

Countless questions and shock instantly appeared in his mind!

Honestly speaking, in these two years, Long Chen had already completely relaxed, he never would have thought that such a thing would happen. He thought that once he returned to the Dragon Sacrifice Continent, he would still be the ruler and could live his life in peace.

Although he did not know how the current situation was, he should not be as free as he was in the past.

Are the gods evil or good?

"Don't worry, they should be fine. Their return has brought about a huge change in Dragon Sacrifice Continent. The gods had never killed a single person. It's just that the structure of the Dragon God Domain has changed a bit. Right now, the Five Dragon Cities does not have any authority, and it's very complicated, so we can only wait for you to come back before we can see everything clearly. Just remember, do not ever offend the Gods. "

"Alright." Long Chen nodded.

He needed to calm down before he could clear his mind.

He had seen the Lingin Gods before, there didn't seem to be any big problems.

"Perhaps, it is really because of some reason that they left, and now, they have returned to the Dragon Sacrifice Continent, and rebuilt their homeland. This is a good thing, from now on the Dragon Sacrifice World will become stronger. " Long Chen told himself.

The only thing that puzzled him was that since the gods had returned, what were those god corpses from the Spirit Sea?

"Senior, do you know where the Gods went afterwards?" Long Chen could not help but ask.

The old dragon shook his head, and said: "I was used to seal all the devils too early on, so I am not sure what happened in Archeozoic era afterwards."

Looks like I still have to return before I can understand everything clearly.

Long Chen told the results of his communication with Yang You to Mo Xiaolang and the others.

Everyone was completely shocked, and they were even stunned.

Long Chen said: "First, I have to make some adjustments. The first time I meet them, I will definitely be viewed with hostility or be suspected. First of all, Yan Er's body has been refined into a neo-demon. In order to prevent any accidents, we first need to hide Yan Er. Yan Er, you accompany Ling Xi in the God Kingdom, I will meet them with the little wolf. "

"Alright."

Everyone became serious as well, knowing that this was not something to be trifled with.

They hadn't thought that they would encounter such a situation in such a relaxed manner. Although this should be a heavenly blessing, it was still unknown and they couldn't act rashly.

Long Chen continued: "You still have to be careful. The battle between me, Little Wolf, and the Ancient Giant Demons ... In the end, they should also know about the deal we made with the Ancient Giant Demons. If they were enemies of the Ancient Giant Demons, then we shouldn't be their opponents. So you don't have to worry too much about it. "

Long Chen was curious. If he knew that they were fighting against the Ancient Giant Demons, why didn't the Gods go to the Lingsu Star Sea? They were just allowing the Heavenly Demon Genesis to devour the Lingsu Star Sea?

"Long Chen, according to our understanding, out of the seventy-two divine gods in the human race, more than sixty have returned. It seems the six divine gods in the central region, as well as the northern and eastern purple vein Shencheng, have not returned. The strongest among all the gods that have returned should be from the Western Hell City, and the Divine Light from the Southern Shencheng. As for their strength, we do not understand but it is definitely several times stronger than the weakened Heavenly Demon Ji. "

This was the message that the Blood Evil Dragon Emperor had sent to Long Chen. It seemed like Yang You had already explained the news of Long Chen's return to them clearly.

"Mm, I understand."

Long Chen nodded.

He thought for a while, "A total of six Divine Spirits in the center, including Divine Emperor's Emperor Jun, Dark City's Dark City's and Purple Vine's, have yet to appear. They should be people of the Divine King level and above. The gods of Hell City's and Shencheng's of light at the same level should be the God King. In other words, it is very possible that they have returned to their two Divine Kings, as well as numerous Divine Monarchs and Divine Gods. "

Of course, this was Long Chen's guess.

It was very possible that the gods of the Hell City and the Light Shencheng were at their peak strength when the Nothingness Demon and the Battle Demon were at their peak.

Although it was said that the strongest had yet to return, if there really was a Divine King Taizhen Deity Realm, then that was an existence that Long Chen could only look up to. He was able to defeat the Battle Demon because the Battle Demon didn't even have a thousandth of his strength.

In fact, the Divine Monarchs did not even have the two trillion life's worth of power from Lingsu Star Sea. At most, he could only deal with Divine Monarchs of the same level as Saint Monarchs. As for the Divine Monarchs of Perfection and polar state, as long as they were at their peak, they were still quite terrifying.

"So, Long Chen, you must remember one thing. After you return, you should treat yourself as a descendant of the Primordial Gods, and with this kind of status, they should cultivate you as an outstanding descendant. They should be more interested in and bore no ill intentions towards you, since they also asked me about your matters back then. Remember, don't stand on the opposite side of them. Be obedient, understand? "

This was the warning from the Blood Tyrant Dragon Emperor to Long Chen.

This allowed Long Chen to suddenly understand.

They were the ancestors of the Dragon Emperor, there was no need to oppose them. Instead, it was the duty of the future generation to get along with them and integrate into them; that was the correct way.

"I see."

Right now, he really wanted to know what the human gods were like tens of thousands of years ago!

To integrate with them, not to oppose them.

Now that Di Jun had not appeared, why did they not chase to Lingsu Star Sea? Was it because they were worried that they would not be able to defeat the Heavenly Demon?

Long Chen could only explain.

The Wind Moon Divine Ship continued to head in the direction of the Dragon Sacrifice Continent.

That piece of land gradually grew larger in front of everyone's eyes.

On the continent, there was less than one percent of the Dragon Sacrifice Continent. That was the Immortal God Realm, where the gods were estimated to be.

When he was about ten days away from the Dragon Sacrifice Continent, Long Chen finally felt the difference in the Dragon Sacrifice World. His face was lifeless, although the shape of the continent was still the same, this was not the world he had known before!

"How is this possible!"

Mo Xiaolang's eyes flickered, also in a state of deep shock.

Now they were the only two remaining on the ship, the rest had entered the Divine Kingdom.

The Dragon Sacrifice Continent in front of Long Chen gave him a very stable feeling. Its vitality was extremely vigorous and boundless, completely different from the previous broken world.

Originally, the Lingsu Star Sea had far surpassed the Dragon Sacrifice Continent.

This meant that Long Chen could even descend to the Dragon Sacrifice Continent now.

In the past, it was likely that even tribulation of reincarnation warriors would cause the Dragon Sacrifice Continent to collapse!

Even the borderlands, such as Long Chen's hometown, had become incomparably stable. That kind of stability, was probably enough to support the gods in their battle!

This kind of change could only be described as shocking to the world and shocking to the gods.

It was as if a dead world had suddenly come to life.

A wave of pure, rich, and purer Qi that was even more pure than the spirit energy of the Lingsu Star Sea enveloped the entire Dragon Sacrifice World. This aura filled the entire world, and it was hard to imagine what kind of realm the people of White Yang Town would reach if they lived in this kind of spirit energy.

This was an increase in power for the entire world.

and a world-class change would inevitably lead to a change in the power and resources of the cultivator on top of it

Long Chen completely believed that under this kind of spirit energy, even the Chaos Treasures in the Dragon Sacrifice Continent would grow out.

If he hadn't told Yang You clearly that the gods had come and suddenly saw this world, Long Chen probably wouldn't have believed that it was actually the Dragon Sacrifice Continent.

"This is too amazing!"

Everyone sighed.

Long Chen seemed to have seen the reason behind this change.

In the very center of the Immortal God Realm, there was a speck of light. That speck of light was pouring down countless amounts of spiritual energy and meridians, transforming the entire world. It was hard to imagine just what that speck of light was.

Only when he returned to the Immortal God Realm would he be able to see it.

"Get ready, we're going back!"

The ship sped up.

Day by day, they drew closer to the Immortal God Realm. The closer they got, the more clearly Long Chen could see that light spot. It seemed to be a rock, and if he were to look up from the Immortal God Realm, it would look like a sun.

A single bright stone had changed the entire world.

Under the protection of the stone, the Dragon Sacrificial World was reborn. The brilliance of the stone covered every corner of the world. Many of the worlds that were collapsing became extremely stable. And all the rich spiritual energy in the world came from this stone.

When Long Chen approached the Immortal God Realm, he removed the Windmoon Divine Ship and prepared to descend. The bright stone was currently right above his head, it was no different from the sun.

Right at this moment, countless divine auras rushed over from the sky above the Immortal God Realm. Their target was Long Chen and the others.

"What are you talking about! How dare you barge into my Dragon Sacrifice World! "

Swish!

A total of five Divine Spirits appeared in front of Long Chen.

Chapter 2605 - Eternal Rocks

Now, Long Chen had already put away the Windmoon Divine Ship, and had let Ling Xi, Su Yan, Little Cat and the others hide inside the Divine Kingdom.

Although the situation they encountered when they returned was far from what they expected, they had already accepted the changes in their hearts. At least, under the illumination of the stone, the Dragon Sacrificial World had become stable and strong.

The Ten Thousand Worlds were roughly divided into five levels. If the Lingsu Star Sea was considered as a fourth level, then the stability of the Dragon Sacrifice World was about third level and could be considered as medium level. Amongst the ten thousand realms, the middle level worlds were the most numerous. It was actually difficult to find a world as weak as the Dragon Sacrifice Continent's had been in the past.

Whether it was the stability of the world, or the spiritual energy that filled the world, they were all at the medium world level.

Of course, these five gods were very aggressive towards them.

Long Chen took a glance around, this should be a human god. The five people in front of him wore thick and magnificent golden armor, and wielded divine weapons like halberds in their hands. Whether it was the golden armor or the golden halberd of the Divine Emperor, they were both Creation Gods.

However, it was dreamy grade, the first stage.

Of the five divine beings in front of him, four of them were at the Taiji Realm realm and one of them was the Taiji Realm of their leader. Those four divine beings with initial state didn't seem like divine beings with ten million years of lifespan, but rather looked like new generations who had just become divine.

He should be younger.

"They actually used a unified Creation God Equipment? They shouldn't be one of the seventy-two Spirits of the human race, right?" Long Chen guessed.

After all, within those seventy-two Divine Spirits, the rules that they trained in were basically different, and from the deity statues, there were also large differences, and the few in front of them all had similar appearances.

Under the golden helmet was a pitch black stubble. Currently, his almost golden eyes were staring coldly at Long Chen, and he said angrily: "I'm asking you guys a question, who are you guys! You dare to barge into my Dragon Sacrifice World! "

"And who are you?" Long Chen asked.

"Us? We are the Divine Soldiers and Generals of the dragon sacrifice! This is the Divine General of the Divine Spirit Lord, and we are the Divine Weapons of the Divine Spirit Lord! "

One of the Golden Gods said arrogantly.

Sure enough ...

The ones who had returned weren't just the seventy-two Archaic Gods s, they were also the Divine Generals! The scariest thing was that even these Divine Generals were all in the Divine Spirit Realm. There were probably more than sixty Divine Spirits in the entire Dragon God Domain, and if every Divine Spirit had four to five Divine Generals, then there would be at least two hundred Divine Spirits.

Although Long Chen was already a little numb to it, this number still shook him a little. In the entire Lingsu Star Sea, there were only eighteen Divine Spirits left, and that meant there were only fifteen left. And the number two hundred was only from Dragon God Domain.

Probably because he had just become a god, his Taiji Realm s were already considered divine weapons.

Taiji Realm, can become a Divine General.

At this moment, the Divine General stopped him from speaking and asked him to stop talking. Then, he raised the golden halberd in his hand and said to Long Chen: "Once again, state your identity and goal, or else we will make our move!"

"I remember you, but don't you remember me?"

Long Chen suddenly said.

The Divine General was stunned.

He widened his eyes, looked at Long Chen, and suddenly said in disbelief with a dull expression: "Why is it you!"

That's right, this was the Divine General that Long Chen had killed in the White Bone Divine Palace. Of course, that wasn't his true god.

At that time, Long Chen already knew that he was a Divine General, but he never thought that his True God was actually a true Divine Spirit. Luckily, his Perfection had surpassed his own, otherwise, he would definitely be killed.

It was a close call.

The reason why the Divine General was shocked was because he knew that Long Chen's strength at that time was like the difference between heaven and earth when compared to now. Long Chen's current performance was extremely strange.

"So it's you!" I already said before that I would personally teach you a lesson. Now that you've met me, you can only blame your bad luck. "

The Divine General sneered.

Although the other four Divine Weapons did not know the truth, the Divine Generals still prepared to take action, and they were all prepared. Even though they were Divine Spirit beings of initial state, they had already cultivated the Infinite Divine Art, so even the first level of dreamy grade would have to suppress Long Chen in terms of the nature of power.

"I'll personally do it and play with this little fellow." The Divine General laughed coldly and stretched his muscles. He retracted his halberd, leaving only his divine armor, and rushed towards Long Chen. His eyes were like a scorching sun, burning with golden flames.

"Be still." The Divine General could not help but laugh out loud. The last time he was tricked by Long Chen, he was extremely aggrieved, and now the chance had come.

If it was before, this kind of Spirit Soul Cultivator from Taiji Realm would be able to destroy the entire weak Dragon Sacrifice Continent, but now with the rock protecting him, his battle prowess wasn't too great.

The divine power condensed into two giant palms, pressing down like two golden mountains.

"Giant Spirit Power!"

The Divine Spirit Lord was the God of Strength, and had innately innumerable divine powers. This Divine General seemed to have passed down his laws and possessed a strength nearing the Taiji Realm. That was Mo Xiaolang's realm.

However, Long Chen was the person who defeated the Heavenly Demon.

He smiled faintly. The Divine General in front of him was no longer a match for him, so he was not interested. He stretched out his hand and flicked.

"Ugh ..."

In that instant, the Divine General's power was completely gone. He did not move for at least three breaths of time, and after three breaths of time, his attacks were all dispersed.

With this change, the face of the Divine General turned pale. He staggered a bit, stared straight at Long Chen, and said in disbelief: "Who! Who's helping you? What kind of terrifying rule is this? "

"Who do you think?" Long Chen laughed.

To be honest, it was fortunate that he had gotten stronger. Otherwise, if he met this godly general when he was not his opponent, he would definitely lose his life.

"Die!"

The Divine General wasn't scared.

His golden divine power condensed on his fist, expanding the body of the god, instantly reaching a height of a few hundred meters, he punched towards Long Chen, that terrifying power, was oppressing towards Long Chen!

The Divine Weapons also surrounded him, with the Creation God Equipment in his hand, he was ready.

However, what they saw, was that without saying a word, Long Chen had also punched out. He, who was incomparably tiny, could not even be compared with the Divine General in terms of body and power!

BOOM!

The two fists collided.

They thought that Long Chen would be crushed by the Divine General, but they never thought that the image they saw would actually be the Divine General's arm exploding, and completely dissipating into Heaven and Earth!

It was actually shattered!

The difference between the two was very clear at this moment.

The Godly General's face was as white as paper, his figure had returned to normal, he retreated dozens of steps and his entire body was trembling as he looked at Long Chen, unable to use words to describe the shock in his heart. This scene also made it so that the other Godly Weapons didn't dare to attack!

"How could you be so strong!" There must be something fishy! " The Divine General could not believe this truth.

The nearby soldier said, "Chief, this kid is too strong. We should hurry up and this to the Godking and have him take control."

The Divine General straightened his back and gradually recovered his arms. He snorted and shouted angrily, "Don't think that defeating me is enough, Dragon Sacrificial World is different now. What is brought here is a new century. This is our world, just you wait! "

They were already once, not Long Chen's match.

Therefore, all of them retreated, waiting for the arrival of an even more powerful expert. For instance, the Divine Lord that they had spoken of.

"Remember to tell them my name, is Long Chen."

When a Divine General brought along four Divine Weapons to flee, Long Chen smiled faintly, and said from behind them. Of course he didn't want to offend them, but this former enemy of his was a completely different story. Of course, those seventy-two Divine Spirits would not become enemies with him just because of a Divine General and his enmity.

After they left, Long Chen also descended upon the familiar with the Dragon God Domain.

"The Divine General of the White Bone Divine Palace is one of the Divine Spirits that have descended upon the Dragon God Domain. That is to say, all the Divine Spirits that have descended are related to the White Bone Divine Palace. For example, the deity statues in the palace should be one of them, but who are the god corpses in the Spirit Sea? "

Long Chen took this opportunity when no one was around to get close to him to head towards Spirit Sea. At this time, he was very close to Spirit Sea.

Only by personally standing on top of the Dragon God Domain did Long Chen have this unimaginable feeling. The Dragon Sacrifice Continent had truly changed, the Immortal God Realm was filled with this boundless spiritual energy.

"I'm afraid within a hundred years, there will be countless people who will be promoted and reach an extremely strong level. They might even become Gods in the Dragon Sacrifice Continent below. Under such a dense and high level of spiritual energy, it might not even be a problem for them to reach the level of Dragon Emperor."

Just as the Divine General had said, the thing in the sky called the 'Eternal Harmony Stone' had created a new century for the Dragon Sacrifice Continent. Through the relationship that Long Chen had with the people of Dragon Sacrifice Continent, he could easily see that countless of people were making breakthroughs. At the very least, for now, Long Chen could roughly see that in the entire Dragon Sacrifice Continent, there were a few million profound practitioners that had already appeared.

But before he left, there wasn't a single person in Dragon Sacrifice Continent.

And for the Dragon God Domain s, there was no need to even mention the eight trigrams tribulation of reincarnation and nine palace tribulation of reincarnation. This speed was simply impossible to describe with common sense.

This was a miracle!

It was unimaginable how a single stone could change the entire world.

Initially, Long Chen's cultivation speed was considered fast, but now, countless creatures had surpassed him. I can't imagine.

That Eternal Razorstone definitely had some great secret.

Long Chen had truly witnessed the methods of the high level divine gods.

Chapter 2606 - Celestial King of Hell

There was also one more point, the ten billion God Palace in Long Chen's body came from the faith of all living beings in the Immortal God Realm. However, it was missing a portion of the demon race, Sea Clan and Witch Clan. Only the human and spirit race people still firmly believed in him. Although it wouldn't affect his fighting strength, his recovery ability was most likely not as strong as before.

This could be the result of the return of the spirits of other races.

Of course, this sort of thing didn't matter anymore.

The Primordial Heavenly Demon had said some weird things, such as the new and old rules, such as the Lingsu Star Sea, they were all still in the old rules. Those Gods all relied on the faith to become gods.

Furthermore, he said that the Dragon Sacrifice Continent was the new rule, and even the source of the new rule. The Eighteen Major Tribulations, was the standard feature of the new rule.

Under the new rules, it was hard to believe in becoming a Deity.

Then were the humans' deities from tens of millions of years ago due to faith or talent? If humans did not have too many advantages, they should not have many Talent to become a god. From the looks of the five gods just now, the power they possessed shouldn't have anything to do with their faith. At least, the people of the Immortal God Realm and Dragon Sacrifice Continent don't believe in them right now.

He was puzzled by the many mysteries involved.

"Senior, tens of thousands of years ago, those deities all relied on their faith to achieve their feats, right?" He asked the's halberd.

"That's right, this is how all the Divine Spirits in the Archeozoic era are. They seem to know more. Of course, the Dragon Sacrifice Continent now was indeed a little different from before. It should be the new rule. Of course, faith is just a method to become a god. Once you become a god, you no longer need to rely on the wishful thinking of the masses. Of course, if you can get the support of the wishful thinking of the masses, you will naturally become even more powerful. "

Just as Long Chen thought of this, the position of the Spirit Sea arrived.

However ...

"The Spirit Sea has disappeared. Even the World of Gods and the Divine Desolation Ancient Earth have disappeared."

What appeared before his eyes was a field of green with countless immortal spirits growing on it. There were even hundreds of dao markings. Many cultivators cultivated here, and with the nourishment of the world's energy, these immortal spirits grew extremely fast.

He was even more confused.

Who would have thought that even the Spirit Sea would have disappeared, and so would those god corpses.

This made him feel as if he had fallen into a mysterious whirlpool.

"The Spirit Sea you mentioned has also lost Long Chen. Could you guys have seen wrongly regarding the god corpses? The Primordial Gods didn't have any opponents and had only left, how could they have been killed in unison?" Old Long was puzzled.

"Maybe."

Long Chen laughed awkwardly.

He knew in his heart that at this time, he should pretend that he did not know everything and bury all his doubts so that he would be able to live peacefully. If not, there would be endless trouble.

At this time, he and Mo Xiaolang looked around.

Around him, a hundred beams of light descended! Sensing these rays of light, all the cultivators below knelt on the ground, calling out the names of the gods.

Two years could bring about great changes.

"Phew ..."

In the blink of an eye, countless clouds descended. Standing above these clouds were divine gods. Compared to the previous five, these divine gods were far more powerful!

Over a hundred divine gods surrounded Long Chen and Mo Xiaolang.

"That's them!"

The Divine General, who was defeated by Long Chen, pointed at the two of them and shouted angrily.

He never thought that almost half of the divine beings in the Dragon God Domain would be here, and most of them were Divine Weapons. To be able to become one of the seventy-two Divine Spirits, all of them had Taiji Realm up to the level of Mo Xiaolang's current realm. There were also some Divine Monarchs.

But there were existences within Divine Monarchs who were even more terrifying than Sacred Masters. It was likely that Divine Monarchs with Perfection and polar state existed as well.

These two were the ones that Long Chen found difficult to deal with.

If not for the Everlasting Stone, which raised the level of the entire world, when the hundred Divine Spirits descended upon this world, the entire Dragon Sacrifice Continent would have collapsed.

Long Chen's eyes swept across every single god.

There were roughly thirty or so Gods here, and they were one of the seventy-two Gods. There was a divine ancient city built especially for them. Every single one of them was at least at the Taiji Realm. These were all gods from millions of years ago, and their might was greatly different from those Divine Generals. Their eyes were calm as they looked at Long Chen.

An ordinary person wouldn't be able to withstand such a gaze.

Of course, Long Chen had defeated a Heavenly Demon, so he was naturally not an ordinary person. He and Mo Xiaolang could at least calmly face the might of these divine beings.

Even if one of them was a Divine Monarch who was even stronger than a Holy Lord.

At this time, the Gods had opened up a path for a god to pass through. When this god arrived, even Long Chen couldn't help but suffocate, not daring to even breathe loudly. It was the feeling of extreme danger.

Sky Demon, on the other hand, could not use the power of Taiji Realm. Using terrifying comprehension of laws, he displayed the same level of destructive power as a A master-class Empyrean God or even a Divine Lord of polar state.

However, the person in front of him was the God King who possessed true power!

If Long Chen's guess was right, the person in front of him was a danger to him. If the person in front of him wanted to kill him, the person who would only need a thought to do so would be the Hell God King.

After all, in the Dragon God Domain, there were only two Divine Kings present.

He hadn't expected that upon his return, the Infernal King would personally come as well.

The surrounding Divine Spirit beings all stepped aside to make way for the black-haired and disheveled man. They even treated him with respect, and even the Divine Monarchs of Perfection and polar state did not speak out in front of the Divine King.

Long Chen habitually estimated.

"Over here, there are more than ten Divine Monarchs who are not too far away from me. Among them, there are seven to eight Divine Monarchs whom I am unable to contend against and one Divine King. "As for the others, I think I can defeat them easily."

Now that he wasn't even at the Divine Lord level, he simply wasn't a match for Lin Ming. This was true even for one of the 72 Gods.

Therefore, what Long Chen was truly afraid of, were the Divine King and a portion of the Divine Monarchs.

"Child, are you the Long Chen who killed all of Primordial Demons's subordinates?"

The terrifying Infernal King appeared before Long Chen and said those words with a slight smile. Of course, with his outer appearance and disposition, no matter what he said, he would still cause others to feel fear.

Long Chen didn't know that although the Infernal King wasn't the strongest one among the Celestial Kings, he was the most brutal.

Long Chen could roughly feel his meridians, he was very calm, retracted his reverence, and spoke without feeling humbled: "Not only me, but my brother, we are the ones who dealt with the weak Primordial Giants after being imprisoned for tens of thousands of years."

Clap clap.

The Infernal King began to clap.

After a few light slaps, everyone's scalp tingled with numbness.

"Eh? Why aren't all of you clapping? Is this not good enough?" The Infernal King turned to look at the gods.

Immediately, applause rang out.

The group of divine gods applauded under the command of the Infernal King. This scene was rather strange ...

However, Long Chen finally understood the temper of the Infernal King.

As expected, the Infernal King turned his head to look at Long Chen. Those grey eyes were extremely terrifying.

"But, I heard that you were preparing to make a deal with the Heavenly Demon Ji Yuan to become an Ancient Giant Demon in exchange for the lives of everyone in Dragon Sacrifice Continent. Right? "

Long Chen suppressed the instinctive fear in his heart. He knew that the person in front of him was a character comparable to a demon at his peak, capable of crushing him to death with a single hand.

So Long Chen dared to say: "That's right."

The Infernal King cried out like a maniac, then clapped once more. "Shocking! It was worthy of respect! It was truly admirable! You dare to abandon yourself to save the common people, we must admire you greatly! Although you are a junior, you are also an example to us. What do you think? "

His voice was just too strange, so even though it sounded like he was praising Long Chen, it made people uncomfortable.

"Yes!"

The Gods were scattered, but they all expressed their opinions. However, their expressions were all frozen, making it hard for them to laugh out loud.

At this time, the Infernal King circled around Long Chen and Yue Yang, and asked suspiciously, "So, you guys have become Immemorial Giant Demons?"

At this time, all the divine gods looked over. Among them, there was a faint killing intent, they had indeed surrounded Long Chen.

Even the Infernal King was waiting for Long Chen's answer.

Long Chen welcomed the gaze of the gods. He suddenly smiled and said, "ing to the Infernal King, we have also protected the Lingsu Star Sea, killing the Prison Emperor Shakya, the Nuwa Devils, and the Primal Sky Demons. Now, we have returned to our homeland, the Dragon Sacrifice Continent. "

After he finished his sentence, there was no sound around him.

This was the first time the Gods looked at each other. Their previous stiff faces revealed faint shock. Indeed, after hearing such news, they were still deeply shocked by these two teenagers.

"Really?" The Infernal King smirked as he asked.

"You must have been exaggerating a little. The Prison Demon God Sakyamuni managed to escape, but only a remnant soul escaped." Long Chen said.

"It's really unbelievable. You are the pride of our Dragon Sacrifice Continent's human race, the heroes in our hearts! This is our biggest gain from coming back! My Lord of Hell is proud of your brilliant achievements! "

The Infernal King laughed loudly.

He suddenly hugged Long Chen and patted his shoulders, making Long Chen's hair stand on end.

"Relax, child. Since you have returned home, let me properly introduce you all to the great changes that has occurred in Dragon Sacrifice Continent! That's right, the lost gods are us. We have returned! Everything was different! "Of course, before that, I have to announce some things."

The Infernal King wrapped his arm around Long Chen's shoulder like a scoundrel and said to the gods, "Everyone has seen their achievements, they are absolutely a hero, a savior. Without them, the moment they returned, it would be impossible to rebuild the Dragon Sacrificial World. So, I declare that from today onwards, without my order, the Gods will treat them with respect. If anyone dares to bully them based on their identity, strength, or even their status, that's the outcome! "

Swish!

He reached out his hand, and the Godly General charged towards him.

The Divine General was scared to the point of shitting his pants as he shouted, "Divine King, save me!"

The various gods looked towards a black-faced giant god. The giant god's face didn't change, and he immediately closed his eyes.

The closer the Divine General was to the Infernal King, the smaller he became. In the hands of the Infernal King, the Divine General was only the size of a thumb.

Chapter 2607 - Eternity

Originally, the Divine General had come to and the gods had heard Long Chen's name, which was why they had come here together. Now that such a reversal had occurred, the Infernal King had casually killed the Divine General without leaving any trace.

With a single sentence from the Infernal King, the gods understood that from today onwards, the status of this newborn deity would be very high.

Ordinary Divine Generals didn't have the qualifications to bully him. Even if he was one of the seventy-two Divine Spirits, they would still have to see the expression of the Infernal King.

Although Long Chen didn't understand why the Infernal King would treat him in such a way, was it really because he had settled the Primordial Demons and that he was the hero?

At least for now.

At least for now, Long Chen understood that he didn't have to worry about enmity with the gods. Just like what the Blood Tyrant Dragon Emperor had told him, he wanted to integrate with them and not oppose them.

"Thank you, Infernal King."

Therefore, he hurriedly thanked her. This massacre by the Infernal King had solidified his status. With this, the eyes of the seventy-two Divine Spirits turned gentle. The originally solemn atmosphere soon became harmonious.

If not for the two of them, the entire Dragon Sacrifice Continent would have been swallowed by the Primordial Demons. We wouldn't have been able to construct this new world, and although the current world isn't as vast as the one in the Archeozoic era, it would have at least restrained the world from collapsing. "

"These two new Gods are truly not bad. From today onwards, you are a member of the human gods in our dragon sacrifice. We are your elders, if you have any needs, you can tell us."

Of course, they could tell that Mo Xiaolang cultivated the Devil Dao, but that didn't matter. There were many Devil Dao in the boundless universe, and the Devil Dao wasn't equal to the Primordial Demons either.

The Divine Sovereigns among the Gods had more authority. At this moment, they all conversed with Long Chen, their tone of voice softening too, and some even had smiles on their faces.

The Infernal King said, "Since that's the case, I think it's better if I explain it to him. Otherwise, these two brats won't know anything about our disappearance back then or our return."

Long Chen pricked up his ears. He wanted to hear what they had said about his former disappearance and his return.

In reality, if not for the Spirit Sea's Divine Corpses, Long Chen would have completely trusted them and treated them as his own possessions. However, because of the existence of the Spirit Sea's Divine Corpses, he still had some goosebumps in his heart, preventing him from getting close to these Gods.

The Infernal King looked up into the sky and sighed, "There are many things that a newly born deity like you wouldn't understand. After the extinction of the Divine Dragon, we, the Primordial Gods, gradually rose up in this world, protecting this land, but perhaps it was because of the injuries left behind by the The Age of Dragons, which was gradually collapsing. Just the size of the land itself has decreased by a full 99% since we left this place! In other words, the Dragon Sacrifice Continent s of the Archeozoic era

were a hundred times larger than they were today. You all have never lived in that era, so you don't know the real numbers! "

Long Chen had thought that it would only be several times, or even more than a dozen times. I didn't expect it to be a hundred times. It was obvious that the original Dragon Sacrifice Continent was tens of times larger than the one he used.

The Infernal King continued, "Facing this world that was gradually destroying and the loss of life, we had no choice but to leave this place, because the existence of our gods could not withstand our power and would cause this world to collapse even faster. So we left, went to the myriad worlds, and went to other worlds that roamed about in the myriad worlds.

The Infernal King's expression was solemn, serious and passionate. He shook his long hair like a madman, pointed towards the eternal Haoyue in the sky and said, "Our goal is to find a treasure that will allow us to rebuild our home and stabilize this world once more! We have been pursuing it for a full ten million years, and have been scattered throughout the myriad worlds. But today, we have finally succeeded. As you have seen, his radiance and the 'Creation Spirit Qi' he released already engulfed the entire world, turning the Dragon Sacrificial World into a middle realm! "

Listening to him speak, Long Chen did not feel that there was any falsehood in his words, and not only was Long Chen confused, could it be that the Spirit Sea was not real?

"There can't be two groups of gods or the god corpses. Is there some other reason?" Long Chen really couldn't think of a reason to doubt them.

The Everlasting Stone truly did let the Dragon Sacrifice Continent come back to life. After they returned, they did not hurt any living beings, and gave everyone strength. From this point of view, their merits were great.

The Infernal King spoke in a passionate and generous manner, and then said, "You definitely don't know this, Everlasting Skystone! This is the Chaos Treasures of the seventh stage of 'Eternity'! This is the hardest thing to come by. Only the highest level of the world can possibly have such a thing. It took us tens of millions of years to finally find something that can save our world. Divine Emperor Di Jun brought us to kill in great numbers, and thus obtained the Eternal Rocks! Now, we have used him to save the Dragon Sacrifice Continent that is being destroyed and built a new world. These two years, it is the time for history to be rewritten.

At this point, the eyes of all the gods almost filled with tears.

The Infernal King told Long Chen everything that happened and it was very difficult for Long Chen to suspect them after hearing his explanation. In his heart, he only retained a tiny bit of suspicion.

"You've worked hard." That was all he could say.

The Hell God King laughed and said, "That wasn't too hard. In fact, we could have stayed in another world and not returned, but since Divine Emperor Di Jun and the rest of the Divine Emperor could not release this land, he summoned us to return. He and the other Divine Emperor are also on the way, and I believe that before long, we will be able to descend once more.

"Of course, what surprises us the most is that in ten million years, in this barren land, you all were born, and you even solved the dangers of the Primordial Demons. The reason why we did not chase after the Heavenly Demon Era was partly because we were worried that they would return to their peak, and partly because we were worried that if they went there, they would just be sending themselves to their deaths. Secondly, we had to quickly prevent the Dragon Sacrifice World from getting damaged, and with the existence of the Everlasting Stone, even if the Heavenly Demon Era were to attack us at their peak, it might not be able to hurt the entire world. "Unbelievable!"

The Infernal King sighed with emotion.

Long Chen looked around him. Indeed, his hometown had changed from the current world, and it was now like heaven. He could go to the Dragon Sacrifice Continent at any time to meet Ling Qing and the others. Having not seen each other for so many years, he really did miss him. Perhaps within a hundred years, the Dragon Sacrifice Continent would be able to catch up to the Immortal God Realm. Of course, the Immortal God Realm was the closest to the everlasting Haoyue Stone and the closest to the 'Creation Spiritual Energy'.

Long Chen swept his eyes across the place. Right now, many of the city lords of Shencheng were approaching the level of Eight Tribulations and Nine Palace Calamity.

It's just that their nine palaces were different from Long Chen's nine palaces.

At this moment, the Infernal King clapped him on the shoulder and suddenly announced loudly, "Everyone, I am the Infernal King!"

His voice swept through the entire Immortal God Realm and the Dragon Sacrifice Continent and reached everyone's ears. By the time they returned, there was already quite a commotion. By now, the entire Dragon Sacrifice Continent already knew that the gods had truly lived in this world.

They believed in God.

The Infernal King continued, "Today, there is an enormous piece of good news that I want to tell you all. Everyone still remembered three years ago, there were two young heroes who were willing to trade with the Primordial Demons in order to save the lives of the people, and they were taken away after giving up their bodies and souls. But today, they had returned safely and brought good news. They had exterminated the Primordial Demons! They are Long Chen, Mo Xiaolang! From today onwards, they are a member of the dragon sacrifice's Gods! "

After hearing these words, the crowd was stunned for a moment before they began cheering in a heart-wrenching manner.

In that battle three years ago, no one was able to forget that it was Long Chen and Mo Xiaolang who turned the tide and saved everyone's lives.

Their deeds had already spread to the Dragon Sacrifice Continent, and let the people of the Dragon Sacrifice Continent know that they were once protected. That period of time was a disaster for them. Due to the effects of the battle, too many natural disasters happened, and too many people died.

The communication between the Dragon Sacrifice Continent and the Immortal God Realm was already quite frequent, and people could be seen travelling to and from these two places at any time.

The ones who reacted the most were the living beings of the Immortal God Realm.

Even after the return of the gods, they still deeply believed in Long Chen. Long Chen realized that even the majority of the demons, Sea Clan and Witch Clan creatures had brought back their will to him.

"Brothers and sisters, I, Long Chen have returned safely"

On the Dragon Sacrifice Continent, those who were familiar with him would heave a sigh of relief when they heard his voice.

The Infernal King was extremely satisfied and said to Long Chen, "Long Chen, you have just returned. Do you have any plans?"

Long Chen said: "I want to go back and visit my family and friends. It's been a while since I've seen them. They must be worried about me. "

The Infernal King laughed. "No problem. There will be a long period of time in the future. Everyone, disperse. Stop surrounding us." In addition, in a few days, I will set up a banquet in the Western Hell City and invite the two of you to be my guests. "How about it?"

"Since the Godking has invited you, of course we have to accept." Long Chen nodded.

If everything the Infernal King said was true, then they were indeed senior worthy of respect. Long Chen would never be stingy about his respect for his senior.

"Very good, very good. "Then we'll be leaving first!"

The Hell God King didn't speak anymore and immediately brought his people back to the Hell City. After the other gods bid farewell to Long Chen, they left as well.

Chapter 2608 - Women's Green

Long Chen asked Mo Xiaolang, and said: "Do you think that some of what he said was true, and some of it was false?"

Mo Xiaolang shook his head and said, "I don't understand. I've never seen the god corpse that you're talking about.

Mo Xiaolang thought the same as Long Chen.

At this time, the old dragon said, "Millions of years ago, I had met this Infernal King. It is almost the same as it is now. At that time, he believed in becoming a god, but today, all of his believers had died, so it was normal for him to not have any signs of the Desire of All Living Things on him. As for the god corpses you speak of, that's unbelievable. How could there be two divine gods? Could it be that all of these are fake? "

Long Chen continued, "Di Jun is your master. Wait until Di Jun returns, or you can tell who he is. Anything is possible now, but we'll just wait and see. "

While hurrying on their way, they headed towards the Dragon City in the center, which was the closest one. At this time, the fifteen Dragon Emperor s and Long Chen's familiar friends were already waiting for Long Chen in the Dragon City. Fortunately, Ling Xi's Heaven and Earth Transference Array was well-established and was able to be teleported. As for the Dragon Sacrifice Continent's weak teleportation formations, they had basically all collapsed under the pressure of the new world.

With Long Chen's current speed, it didn't even take fifteen minutes to reach Dragon City.

The familiar people were all here. Fifteen Dragon Emperor s and Yang You were all smiling and crying as they looked at them. Being with them felt different from the previous gods. He was especially free.

Ling Xi also came out of the Divine Kingdom, but as for Su Yan, she would better not take any risks before communicating with the Infernal King.

"Aunt You!"

The two of them naturally embraced their closest elder.

"Child, you've suffered!"

Yang You felt very sorry for them.

"It's good that you're back, it's good that you're back."

The entire Fate Dragon City was cheering for their return. The fifteen Dragon Emperor s' eyes were brimming with tears. They were all excited and were unable to even speak clearly.

The joy of reuniting was like this.

After a moment of warmth, Yang You smiled and said, "Okay, everything is fine now. Peace is the greatest happiness, everyone should be happy, stop crying. Come to Chen Er, let me show you a pleasant surprise. "

Surprise?

Just by being immersed in the joy of reuniting, Long Chen did not notice any surprise.

At this time, a young girl came out from Yang You's Divine Kingdom. She was clad in green clothes, and was tall and straight, yet she did not lose in terms of feminine charm. Her long hair was tied into a bundle; this was Yang Lingqing.

"Brother!"

Before she could come out, her eyes had already turned red from crying.

It had been at least seven to eight years since Long Chen had gone to the Immortal God Realm.

For Long Chen, this surprise was indeed too great. He had originally planned to find some time to see how she was doing, but didn't expect Yang You to bring her up here first.

The two of them embraced.

"You bastard. After leaving for so long, you've never given me any information. Do you still have this little sister in your eyes?"

Yang Lingqing was so angry that she could only pinch the flesh of his arm. Unfortunately, she could not pinch it.

"I'm sorry."

Long Chen was so excited that he found it hard to calm down. He was indeed full of guilt, but ever since he entered the Immortal God Realm, he seemed to have never felt at ease.

"It's good that you can say you're sorry. Then, I'll forgive you!" Yang Lingqing did not make a fuss, but smiled slyly and stepped out from Long Chen's embrace, immediately seeing him.

"Sister Ling Xi, you already have a baby." The two of them stood together. With Ling Xi talking to her, Long Chen felt more at ease. He looked around, Yang Lingqing had already entered the tribulation of reincarnation, and could be considered a group of people who had undergone the biggest changes in this new world. Little Cat had brought back a lot of good stuff in Lingsu Star Sea, and it was time for him to bleed properly for his little sister.

"Chen Er, let's have a good chat."

Yang You brought Long Chen and the fifteen Dragon Emperor to a quiet place.

Everyone's emotions had stabilized now.

"After you came back, you had also seen the changes in this world. The Everlasting Stone had changed this world, and the return of the gods had also changed people's mindset. The current Dragon Sacrifice Continent is an era ruled by gods, it is like returning to the Archeozoic era, it is no longer the world of the past."

Long Chen nodded, and said: "Mn, I have already seen the Infernal King earlier, and he even invited me to the Hell City in a few days."

The Immortal Dragon Emperor sighed, "That's right. The current situation in the Dragon God Domain no longer has anything to do with us. Aside from the few Shencheng s in the center, the other spirit beings of the Shencheng have all returned. The strength of the city lords have increased explosively, and with the support of the gods, the strength of each and every one of the Shencheng s surpasses that of our Five Dragon Cities s. They have also taken control of the Dragon Sacrifice Continent, so from now on, our Dragon Fighter will enter the hidden realm, just like it has been for tens of thousands of years. "

Yongye, who was at the side, said, "Don't think too much into it. This is at least a good thing. After all, the gods will always be stronger than us, and even though they have ruled this world, they have done everything for the good of this world, and have not looked down on all living beings like the Primordial Giant Demons. Although the status of the Five Dragon Cities is no longer here, we, the Guardian Dragon God Domain, have never done so for the sake of status, but for the inheritance of the human race. "

The Immortal Dragon Emperor laughed helplessly: "Of course I understand. Even though I've been left alone all of a sudden, I still have some goosebumps in my heart. I just have to get used to it since the world has changed. As long as the human race can pass on throughout the ages and remain unharmed,

we Five Dragon Cities have nothing to worry about. It's good that we continue to maintain the inheritance of the Dragon Fighter. Moreover, don't we still have Long Chen? "

Long Chen had a rough understanding of the current situation.

Yang You suddenly said, "Long Chen, you still remember that we saw that god corpse in Spirit Sea, right? Spirit Sea has already disappeared, do you know?"

Long Chen nodded: "I saw it today."

Yang You became a little more serious, and said, "No matter what you think in your heart, from today onwards, you have to forget about the Spirit Sea. If the Gods are worthy of respect, there's no problem at all. If you become one of them, there's no problem at all. After all, our common wish is for the world to be peaceful and strong, right? "

Yang You was right, at least for now, she had to forget about this matter.

"Aunt You, don't worry. I know what I'm doing."

Yang You was still quite confident in Long Chen, as he was able to understand a lot of things.

"These gods are really too strong. They are the ancient gods of the Archeozoic era, and they have already controlled this era just to chase after the Eternal Rock and leave this world. Now that they have returned to rebuild the world, the ruler should be them. They are strong and they have so many people, we can't go against them. "Right now, there are still a few more powerful Gods who have yet to descend. When the time comes, we will have to treat them with even more respect. They are still the gods in the hearts of all living things."

So there was no reason to stand on the other side of their enemies.

In the past, when Long Chen did not have a match in the Dragon Sacrifice Continent, Yang You was more at ease. But now, there were too many strong warriors, and Long Chen's foundation was unstable.

After some discussion, everyone dispersed. Long Chen brought everyone back to the center of Dragon City's Red Dragon Palace. This was where he lived.

The days were calm.

The entire Dragon Sacrificial World, under the radiance of the Eternal Rocks of Radiance, became more and more powerful!

Long Chen would often raise his head to look at the Eternal Rocks in the sky, and those stones that were as bright as the sun, gave him a feeling as if he was dreaming.

Yang Lingqing, Su Yan, Little Cat, Mo Xiaolang and Ling Xi, the most important people in his life, had gathered around him safely. This was already the greatest happiness of his life. Under the rule of the gods, the whole world was at peace.

Long Chen took a few hongmengxinling items that the little kitten stole, along with the god's chosen ones that he left behind before, basically all of them were used on Yang Lingqing, to help her raise her strength. Since he was already by his side, it was even more impossible for Long Chen to let any accidents happen to his sister.

"Ling Qing, is there anyone you like?"

Yang Lingqing shook her head, "It's all your fault. With an older brother like you, where would I be able to see the light from someone else's body?"

Cat called out from the side, "Hey, can you introduce me to you? "It just happens to be a pair."

Long Chen kicked him and sent him flying.

"Brother, I'm going to look for Sister Ling Xi."

Yang Lingqing left very quickly, her realm gradually increasing steadily, Long Chen was very satisfied.

At some point, Yang You had already appeared by his side.

Long Chen thought of something that he would never forget. "Aunt You, who exactly did you say killed my father?"

Yang You shook her head.

Long Chen said: "I didn't understand it in the past, but now I'm guessing that ten thousand worlds is too big, and that there are too many mysterious existences. Maybe it's possible that it's a god from another world? My father was close to the Divine Spirit Realm back then, and his combat power was almost the same as mine right now.

"For the time being, don't suspect anything." Yang You understood what Long Chen meant.

"Yes." Long Chen nodded, she was still more clear-headed than him.

"Regarding Su Yan, I think you shouldn't hide it. If the gods find out, they might attack you first. If there's a chance, you can try the Infernal King's intentions. After all, you can't let a girl hide forever. There are some things that we have to face as soon as possible. " Yang You said.

Long Chen nodded: "I understand."

Just as he said this, a deity came to the skies above Slaughter Dragon City.

The entire Dragon Slaying City quieted down because of this god.

When he found Long Chen's position, he went forward, bowed respectfully, and said, "I have come under the orders of the Infernal King, and sincerely invite Long Chen and Mo Xiaolang to the Hell City. The Infernal King has already prepared a banquet to welcome the two of you back. "

Chapter 2609 - Hell's Dinner

With the arrival of this divine general, the entire Slaughter Dragon City fell completely silent.

If it was a few years ago, when the deities appeared, all living beings would definitely worship them with fear and trepidation. However, it was clear that this was not the case, as everyone was already used to it. In their eyes, Long Chen and Mo Xiaolang were already real gods.

The era was already different.

Moreover, the position of this Divine General was obviously inferior to Long Chen's among the human gods. If they knew that the Infernal King had killed a Divine General in order to intimidate the gods, they would have even less to worry about.

"Wait a moment, let's get ready. We'll be there shortly."

Long Chen said.

"In that case, wait outside." The rules of this Divine General were similar to those of the Infernal King. He had a cold aura and didn't speak much. He moved quickly and cleanly, retreating out of the Slaughter Dragon City. He was very well-mannered. The Infernal King obviously liked Long Chen a lot, and he was a Divine General so he naturally respected and respected Long Chen a lot.

After he left, Long Chen brought Ling Xi along with him. After all, Ling Xi was pregnant, so it was safer for Long Chen to bring her along. Afterwards, Mo Xiaolang and the others respectfully saw them out the door.

It seemed hard to predict what would happen in this banquet.

What would a banquet between the gods be like?

"Please follow me." The gray-armored divine general led the way, bringing Long Chen and the other two through the air as they headed towards the Hell City. To the other gods, the Dragon God Domain was simply too small.

"Senior, how should I address you?"

Even Divine Generals were figures that had lived for millions of years or even tens of millions of years. It wasn't a problem to address them as senior.

The Divine General said fearfully, "Please do not call the two of you Little Gods that way. You two are heroes of the dragon sacrifice and heroes of the Infernal King, so your futures are limitless. Furthermore, between the gods of hell, we do not care about seniority. "You two, just call me Lu Ji."

Long Chen nodded.

From this Godly General's reaction, it seemed that the gods lived in harmony with each other and respected each other. He did not act in a domineering manner.

"Luji, where were you before you came back?"

"When we left the dragon sacrifice, I was still not a god, but a half-step divine spirit. I became a divine being in another world."

Long Chen nodded his head and asked again, "Are they the faith of the people there?"

"With the new rules in place, there has been no faith in becoming a Deity for a long time now. As long as you survive the Fiendgod tribulation, you can easily become a Deity. Under the new rules, the Primordial Gods had changed. Even now, the gods don't need the power of faith, it's a miracle that you believe in and become a god in the Dragon Sacrifice Continent. But in the future, you will also gradually change under the new rules. The power of faith is too restrictive, and the gods under the new rules are more stable and stronger than before. "

"Is that so?"

Long Chen was a little confused, but in reality, the explanation for becoming a god in faith and becoming a Talent to become a god came from the Supreme Divine Emperor Halberd. Old Dragon was stunned after he heard Lu Ji's words. He came to a realization and said, "So that's how it is. Now that everyone has become gods, we don't need to believe in anything anymore? This new rule was miraculous indeed. It does sound better than it used to be. "

This could explain why the gods no longer needed the power of faith.

In the blink of an eye, the Hell City had arrived.

But this was not the Hell City of the past.

Long Chen had been to the War God's Ancient City before, and even the Di Jun Divine City, so he had a general idea of the size of the Shencheng. However, when the gods returned, the 72 - The Ancient City of God's descendants underwent a transformation and not only began to rule over the Dragon God Domain, it even ruled over all the humans in the Dragon Sacrifice Continent. For example, the former Hell City had undergone great changes.

This was a strange city built within the black mountains. It was shrouded in ten thousand layers of black fog, and everything within ten thousand kilometers was covered in a thick black fog.

Through this mist, one could see that the enormous city was actually a Creation Divine Artifact of 'prehistoric level'!

This was the Hell City's all over.

It could change at any time, change size, roam the world, rule the world.

Shui Lanyan was also a Divine King, so she could wield the 'Order-level' of the God Slaying Sword. The Infernal King had not been banned for tens of thousands of years and his wealth was immense. It was also normal for him to have this 'prehistoric level' which was a Creation Divine Weapon to become a Hell City.

Inside Hell City, there were already many divine beings waiting for Long Chen.

"The gods that have returned are the Divine King of Light and the Infernal King. The Divine King of Light and the Infernal King don't have the same ideals, so there was no banquet to invite the Divine King of Light and his troops." The gray-armored Godly General explained.

However, there were at least fifty or so Divine Spirit in the Hell City, and all of them had at least Taiji Realm or higher. As for the Divine Generals of the various Shencheng's, they were naturally still guarding in the Shencheng.

Those who were able to participate in this banquet were all Divine Spirits from tens of thousands of years ago.

"Welcome!"

When Long Chen came closer, the Hell City began to have a thunderous change in expression. A great road extended out, piercing towards Long Chen who was ten kilometers away, causing Long Chen to step on the great road, heading towards the Hell City.

had visited this place before, and hundreds of thousands of people were the descendants of the Infernal King. Within two years, the Infernal King had built his descendants into forces comparable to the power of Dragon City. At the same time, he had also selected the geniuses to join the Hell City.

With a Shencheng, things were indeed different. Compared to the Hell City, the Five Dragon Cities seemed rather pitiful right now.

However, this was a necessary change after the return of the gods.

"You've finally arrived."

The Infernal King's laughter came from the depths of Shencheng.

Long Chen quickened his pace, and before long, he arrived at the center of the Creation Divine Equipment. The inside was brightly lit, and in the middle was a vast hall, at the moment, there were dozens of Divine Gods seated, and the number of Divine Monarchs who posed a threat to Long Chen had already increased to about fifteen.

There were more than ten who were on the same level as the Holy Lord.

It seemed that the main force of the seventy-two divine gods was none other than Divine Monarchs, with only twenty odd profound strength.

With so many experts, any one of them would be enough to sweep through Lingsu Star Sea.

"Young heroes, please take a seat."

At the very top, the Infernal King was dressed in luxurious silk clothing. He was well-dressed and dignified, a huge difference from his previous unkempt head of hair.

Several tens of Archaic Gods s curiously sized up Long Chen and Mu Yurou. They did not have any especially great ill intentions, but they were more curious.

Under the orders of the Infernal King, Long Chen and Yue Yang sat down at a place relatively close to the Infernal King.

The Infernal King smiled slightly and said, "Long Chen, you must be in a good mood to be reunited with your relatives."

Long Chen replied, "Indeed, thank you for your concern, Celestial King."

The Infernal King said, "No need to thank me. It should be us thanking you. But it is all in the past now, we, the dragon sacrifice's Gods, have to look forward. I hope today will be your new beginning. "Serve the dishes!"

The banquet officially began.

What the gods enjoyed were indeed precious treasures. It was either their hongmengxinling or some rare and precious beasts from the myriad worlds that were extremely nourishing.

"Thank you, God King, for your gift."

The gods raised their glasses.

Long Chen noticed that even the fine wine in the cup was brewed with hongmengxinling. A normal person eating a single mouthful would probably be able to directly rush into the tribulation of reincarnation. As for them, after taking a sip, they were brimming with spirit and vigor. They were on the verge of a breakthrough.

The Infernal King was extremely happy as he said, "These dishes were all specially crafted from the ten thousand worlds, so the Dragon Sacrifice Continent is unable to enjoy them. Especially this wine, I used the hongmengxinling of 'prehistoric level' to brew it, and after hundreds of thousands of years of settling, if there weren't two little heroes today, I wouldn't even have brought it out. "

One of the Gods said, "We have benefited from your blessings. Come, I, Lord Skyfire, offer you a toast."

After the banquet, Long Chen had pretty much gotten to know all the Gods present. After all, he had seen their god statues before.

The purpose of the Infernal King seemed to be to allow Long Chen to blend into them through this banquet.

"From today onwards, Long Chen and Mo Xiaolang are members of the's myriad gods. We are all fellow countrymen, we should take care of each other, and face it together, making our Dragon Sacrifice World even more powerful. to restore its glory to the Archeozoic era! "

As a junior, Long Chen did not say too much. Although the King of Hell emphasized it this way, the other gods were not puppets so they would naturally not listen to him. Long Chen could tell that there were still a portion of people who disagreed with him, such as the Divine Spirit that was about to be killed.

The feast was about to end, and the atmosphere was extremely harmonious. It was a good opportunity, so Long Chen said: "God King, and all seniors, there is something I need to to everyone."

The various gods fell silent. The Infernal King smiled slightly and said, "Speak."

Long Chen said, "Back then when we killed the Nuwa Demons, there was a certain accident, so this matter is a little complicated. Please listen to my explanation from the beginning."

Long Chen then explained the situation to them.

"In short, my sister Su Yan has now inherited the body of the devil. She possesses the laws and powers of the devil itself, but it has nothing to do with the devil at all. She has a kind heart, so naturally, with the two of us watching over her, there won't be any problems. "

After listening to all of this, the Gods fell silent. It could be seen that their expressions had changed.

One of them, who was as black as ink, said, "Primordial Demons is the incarnation of evil, not only is her soul evil, her physical body is also inescapable. Although it is as you said, I suspect that in the future, this woman might bring trouble to our Dragon Sacrifice World. After all, when Nuwa was at his peak, there were only less than four people in our dragon sacrifice who were capable of controlling her. And they haven't even returned yet. I suggest that we at least use some means. "

A bald Deity who was covered in lightning said, "I suggest that that is the case as well. If an accident happens, nether demonic rebirth will result in hundreds of millions of deaths and injuries. The Dragon Sacrifice World is so weak, it is unwise to let such a threat exist."

In that moment, all of the gods gave their opinions. Basically, not many people cared about the relationship between Long Chen and Su Yan. Long Chen had already said that it was his little sister.

It seems like there weren't many who truly acknowledged him ...

Before, it was just a hypocritical exchange under the dignity of the Infernal King.

Chapter 2610 - War God's Invitation

At this time, majority of the Divine Spirit Realm cultivators stood up from their seats and looked at Long Chen with unfriendly eyes. The presence of so many divine beings made the entire Hell City feel stagnant.

Amongst the seventy-two divine gods, there were some that had not yet become Divine Monarchs. Basically, none of them would have any effect on Long Chen, and some Divine Monarchs were not too much of a threat to him. Those who could truly suppress him were those Divine Monarchs with Perfection.

And there were more than one of them.

It seemed as though the only person who was truly friendly towards him was the Infernal King. Everyone even knew that the Infernal King's friendship was real?

Long Chen and Mo Xiaolang also stood up, but of course, he wasn't flustered.

"Long Chen, since you are a member of the dragon sacrifice's Gods, there is no need to protect the Primordial Demons. Our world is still incredibly weak.

"Yes. The god of Nuwa is extremely powerful, and is the number one Fiendgod under the Diremonster of the Era. How can you be certain that she is truly dead?"

Those who said such words basically had a relatively high status.

The gods didn't even need to do anything. Just their threatening gazes were enough to cause any young deity to collapse.

However, it was useless against Long Chen.

Seeing that the conflict was approaching, Long Chen of course remembered the warning from the Dragon Emperor s. He knew what he should do and said, "Everyone is too nervous. Back then when the two of us faced a group of ancient Giant Demons, we still don't have the strength we have today. What I mean is that the Primordial Demons isn't something to be afraid of, not to mention the already dead devil of Nuwa, even if I were to take care of him myself.

To be honest, Mo Xiaolang was already a little nervous. If they had anything to do with Su Yan, he would definitely resist them with his life on the line.

Long Chen pulled him back, letting him calm down.

Long Chen did not go against the Gods, he unknowingly flattered them. After he had finished laughing, the fact that he could be so calm and collected in front of the Gods, showed his courage.

"Clap clap." At this point, the Infernal King finally expressed his stance.

His position was to clap.

When the gods saw him smile and leave, they were very satisfied, and in their hearts, they had an answer.

At this time, the Infernal King smiled and said, "Long Chen is right, you guys are just too cowardly. You guys don't even have this much courage, yet these two can take care of this Ji Yuan Sky Demon. In addition, in the past, even the two of them weren't able to recover any of their power. Right now, it was clear that the Nuwa was completely gone, and the two of them were actually trembling in fear. You really are losing face for me ...

The gods lowered their heads and did not refute.

The Infernal King was in charge here. No matter how many gods there were, it all depended on the Infernal King.

At this time, the Infernal King said to Long Chen, "After all that has been said, Long Chen, show your little sister to everyone. Let us see for ourselves what the former neo-demons were like. "

Hearing this, Mo Xiaolang tensed up again.

This Infernal King seemed to smile strangely all day. No matter how he looked at it, he was someone who harbored ill intentions.

"Of course not."

Long Chen agreed on behalf of Mo Xiaolang.

He had to pass this hurdle or else it would lead to more trouble. Today was the perfect time to settle this matter. The outcome would depend on what sort of a god the Infernal King was.

Long Chen let Su Yan come out of the Divine Kingdom, but when he saw the serious expression of the Gods, Su Yan was so scared that she hid herself beside Long Chen and the others and only dared to peek her head out to look at the Gods.

"Be good, little guy. We are all good people. Don't be afraid of us."

In the blink of an eye, the Infernal King stood right in front of Long Chen and the other two. He was extremely close, and the cold and gloomy aura he emitted made it seem as if he was in hell.

"Yes!"

Su Yan nodded.

"Very well, go back." The Infernal King returned to his seat, waving his hands as he spoke.

This trial was easily over. At least when Su Yan appears in the future, nothing big will happen. Of course, he still had to be careful around things that were hidden.

"There's no problem staying here, but I have a request. That is, if she devours life in order to recover the power of the peak level of the neo-demons, even if it's just one life, as long as I find out, I won't let her off." Every life is important, Long Chen, you should be able to understand this, right? "

The Infernal King said solemnly.

"She would never do that." Long Chen said solemnly.

As he said that, he had already allowed Su Yan to return to the Divine Kingdom. Once he settled this matter, Long Chen heaved a sigh of relief. Upon careful thought, it seemed as though this Infernal King was a bit better than he had imagined.

Next, the gods seemed to have forgotten about this matter.

"Long Chen, after you returned, you still haven't gone down to the Dragon Sacrifice Continent for a walk, right? Let's go down together and take a look at the mountain and river that have undergone such drastic changes. You will definitely be shocked. "

The banquet was already over.

With their speed, it did not take long for them to descend from the Immortal God Region. The current Dragon Sacrifice Continent was several times more stable than the former Immortal God Region, so they did not need to worry about the collapse of this place after the arrival of the gods.

Although the Dragon Sacrifice Continent had lost a large portion of its territory, it was still an incomparably vast place for the rest of them. The lower ranks were all densely packed with life forms. The Gods did not bother hiding their tracks at all. When they flew under the sky, countless were alarmed and immediately knelt to the ground, grateful.

Long Chen was at a loss here. This land had a new life, under the nourishment of the Creation Stone, in a short span of two years, even the normal lands had produced Celestial Spirits. The entire Dragon Sacrifice Continent was now like a fairyland, filled with spirit energy.

Starting from the far west, they moved towards the east. Along the way, many devout beings knelt on the ground, respectfully welcoming the arrival of the gods. They deeply knelt on the ground, thanking the gods for their kindness.

"Fortunately, even if we return, we have finally completed our historic mission and brought new life to the Dragon Sacrificial World, allowing our homeland to be revived!"

The Infernal King faced the wild wind, his long hair fluttering as thousands of creatures began to cry out for him. The gods are centered around him.

Long Chen was more concerned with the changes in the Dragon Sacrifice Continent.

"He seems to have gotten a lot better."

In the past, he was most worried about the words' the dragon sacrifice will perish in a hundred years' time. But now, it seems that he really worried too much.

"Perhaps, at that time, you told me that the Dragon Sacrifice Continent was on the verge of destruction and did not know that all the gods were coming back."

Long Chen thought.

At this time, the Infernal King said to him, "Perhaps you had some doubts about us at the beginning, but after seeing all of this, you should understand now, right? Perhaps it was a hasty departure, but today it is enough to prove that we are right and that we have saved our homeland. Divine Emperor greatly appreciates you, and before long, he will bring back the other powerful Divine Kings. At that time, it will be our Dragon Sacrifice Continent's time to truly reach the peak, and one day, we will achieve the glory of our Archeozoic era. "" No, no ...

"Di Jun, huh?"

This was a Divine Emperor that had a deep connection with him. From the moment Di Yu started, to his conflict with City Lord Di Jun, to his fortuitous encounter with the Emperor Jun God Sculpture, it was extremely complicated. The return of this Divine Emperor caused Long Chen to feel an even greater pressure compared to the Divine King of Hell.

At that level, being the sole ruler of all history, in front of him, even the current Long Chen would likely still be as weak as an ant. This feeling of being unable to control his own destiny made Long Chen feel somewhat uncomfortable.

In three days of time, leisurely advancing from the extreme west to the extreme east, Long Chen saw a completely new world. He saw a completely new Divine Dragon Nation.

"What do you think of the Eternal Rocks' power?" the Infernal King asked.

Long Chen said: "It is vast and limitless, the work of the Gods is truly a treasure that saves the world."

"That's right." The Infernal King was very satisfied with what he had said.

"Let's return to the Immortal God Realm. Next, we gods will work together to protect this world and build a better place."

With the Infernal King in the lead, the group began to return.

Along the way, Long Chen asked probingly: "Why don't you see Divine King of Light?"

The Infernal King chuckled and said, "This guy and I are at odds. His main mission is to supervise me and get used to hiding. However, he should be able to see you."

Although there shouldn't be any conflict between him and this Divine King of Light, since he was the God King, Long Chen had no choice but to take note of it. After all, they were people that could decide his life and death.

However, before he returned to the Immortal God Realm, there was actually a gold-armored divine spirit standing in front of Long Chen, blocking his way. This god's aura soared to the sky, and he had a similar temperament to the Battle Demon, but he was more pure, less ferocious, and more tyrannical. Amongst all the Gods, he had the strongest battle intent, but Long Chen felt that he was a little familiar with him.

"God King, Long Chen's strength is extremely strange, he has a vast Divine Source Power, but he seems to not have completely become a god yet, and I heard that he defeated the Heavenly Demon, Ji Yuan. I think everyone is very curious about his fighting strength, and do not know if I can represent my

brothers and sisters, and have a slight contest with this Sky Sovereign, let us see, what kind of ability does he have to actually defeat the Heavenly Demon, Ji Yuan."

the god said in a heavy, muffled voice.

Long Chen thought for a while and roughly understood that this person should be the Martial God!

which meant that the first deity worshiped by the Shencheng that he had gone to the Immortal God Realm, was the one who became a god from the devil and the one who caused Mo Xiaolang to become a devil ...

Speaking of which, the Martial God was a legend. Long Chen had an extremely deep relationship with him.

He didn't expect that he would represent the gods to challenge him today.
