

War God 261

Chapter 261 - Primordial Beast

With regards to Long Chen, everyone was simply speechless. After Long Chen entered the sea of flames for half a day, everyone thought that he had already died.

"You don't even put me in your eyes after defeating Li Ziling?" As the biggest winner of the Burning Sky Secret Realm trip, she was publicly recognized as the strongest warrior among the young generation. To think that Long Chen would actually point the green dragon halberd at him, he sneered repeatedly in his heart.

Long Chen turned a blind eye to his taunts. He walked to the center of the plaza, used a provocative gaze to look at Yan Danqing and coldly said. "Yan Danqing, get over here.

"Your things?" Towards this brat's provocation, Yan Danqing knew that if he did not use some tricks and properly establish his might, this time, he would lose a lot of face.

Step by step, he walked to a spot around ten meters in front of Long Chen. He looked at Long Chen with a smile that was not a smile and said: "Brat, what you mean is, the Mysterious Iron Plate and the inheritance of the The Devil Emperor of the Burning Heaven, belongs to you?"

His Mysterious Iron Plate was taken from the mouth of a Sun Devouring Demonic Wolf.

"Of course." The Mysterious Iron Plate was originally prepared for Long Chen by the wolf cub, but this guy took the opportunity to snatch it.

Only the disciples of Lingwu Family had ashen faces, Long Chen's words, were simply throwing away the face of the Lingwu Family. Dongfang Tianxuan and Ximen Xiaoji looked at each other and shook their heads helplessly, while the Ximen Xiaoji spat on the ground.

"I really don't know if this Long Chen's brain is broken or not. Now that Yan Danqing has already become the successor of the The Devil Emperor of the Burning Heaven, he has to wait for the Ninth Prince to open up the passage. At this juncture, he actually has the mood to cause trouble."

Most of the thoughts in the Lingwu Family disciples' minds were like this.

As for the Beast Soul Hall, the majority of them were men. At this time, they were all jeering, wanting Yan Danqing to beat them up into a pile of dog shit.

"Look, they want me to beat you up into dog shit, so I won't be polite." With that, Yan Danqing's Zhen Qi surged, he roared out, and his entire body transformed into a gust of wind, rushing towards Long Chen at an extremely fast speed, in an instant, his figure could no longer be seen!

"One Yuan Heavy Fist!"

A vast fist force rushed towards Long Chen. Although this punch looked simple and ordinary, it contained an incomparably powerful strength!

"Azure Dragon Battle Method, broken yellow spring, Azur!"

Long Chen danced with his green dragon halberd, and in the two consecutive moves, not only had he blocked the opponent's punch, he had also sent the opponent flying with the last move. Of course, Yan Danqing would not be harmed, but he was still sent flying after the exchange, which was rather embarrassing. This also made Yan Danqing, who had always been high and mighty, angry.

"You still have some tricks up your sleeve, but your brain isn't good enough. If you want to court death, I can grant you that wish!" Long Chen, before you died, you were still able to witness the power of the Primordial Beast. He was pushed back by Long Chen the first time, which made Yan Danqing realize that Long Chen was not easy to deal with, so he planned to use his strongest state to deal with Long Chen!

"Primordial Beast, beast spirit transformation!"

As Yan Danqing's words fell, his body rapidly swelled up as his muscles stood up. Pale white short hair started to appear all over his body, and sharp claws and thick four limbs appeared one after another.

Looking at this gigantic humanoid beast that was almost three meters tall, Long Chen was a little dazed. From Yan Danqing's current appearance, he could guess that the so called Primordial Beast should be a type of white ape type Goblin Beast. Just by looking at Yan Danqing's current body, one could guess that whether it was in attack, speed or defense, Primordial Beast were all first-rate existences.

After the beast spirit transformation was completed, Yan Danqing was now staring straight at Long Chen with his emerald eyes. His heavy breathing turned into a stream of white mist as he breathed out from his nostrils. From an elegant young master, Yan Danqing transformed into the appearance of a muscular white ape. Long Chen was really unable to react in time, and immediately after, he erupted in laughter.

"Is this your Primordial Beast transformation? From a human to a gorilla? Why do I feel a little ugly? "

Long Chen's ear-piercing laughter, caused Yan Danqing's eyes to gradually be filled with blood color. This was the first time in his life that someone had called him ugly. In the eyes of others, at this juncture, Long Chen actually dared to mock Yan Danqing's outer appearance;

"You're courting death!" Yan Danqing let out an angry roar, and stepped on the ground. Immediately, the entire plaza shook, showing just how powerful this Primordial Beast was.

Although it was a bit ugly, it was very terrifying! At this moment, Yan Danqing crazily rushed towards Long Chen. The earth was trembling and with heavy breathing, he quickly pounced in front of Long Chen. His opponent's three-meter tall body and arms that were thicker than his waist gave him a sufficient level of deterrence!

"Beast Soul Transformation? Are you the only one allowed to transform? " Long Chen smiled faintly in his heart. While he was thinking about this, he had already completed Dragonsoul Transformation and the blood-red scales were gradually covering his entire body. That sharp and sharp bone spike definitely looked a lot better than Yan Danqing's beast spirit transformation.

This also made Long Chen ridicule Yan Danqing's ability somewhat.

"He used a low quality demon beast to transform into a beast spirit and he actually dares to shine in front of the Primordial Beast? How ridiculous! " Yan Danqing burst out in laughter. At this time, he punched towards Long Chen once again, still a one Yuan heavy punch, but compared to before, this punch was much stronger. For a moment, the earth shook, and strong gales howled.

"Poor quality?" You will realize that, in front of it, the Primordial Beast is nothing more than an ant, small to the point that it can't be any smaller. " Long Chen laughed in his heart, using the True Dragon Nine Flashes, he quickly transformed himself. After transforming nine times in a row, he once again used the broken yellow spring and the Azur.

"Two-Yuan Heavy Leg!" Yan Danqing's One Yuan heavy punch missed, but he did not panic, he immediately erupted and kicked towards Long Chen's green dragon halberd s. Immediately, a strong gust of wind swept towards Long Chen and blew his green dragon halberd away, and at this time, Yan

Danqing, who had completely suppressed Long Chen in terms of strength, once again threw a punch towards Long Chen's chest!

"Spirit Devil Sword Finger!" Long Chen was not anxious, with a move of his fingers, the bright and resplendent sword light suddenly pierced towards Yan Danqing's eyes. Yan Danqing's current punch, could easily hit him at this rate, but his eyes must be destroyed.

Towards this kind of method where Long Chen fought to the death, Yan Danqing was truly a little speechless. He did not want to pay with just one eye to defeat Long Chen, so he quickly withdrew his One Yuan heavy punch!

"Does he only use this method of risking his life? Long Chen, have you run out of tricks?" Yan Danqing laughed out loud.

In actuality, Long Chen should be fighting with Yan Danqing frequently at the moment, and had not been taken advantage of even now by Yan Danqing. This already caused everyone's impression of him to change a little. Dongfang Tianxuan thought of the miracle Long Chen had once created, and this thought suddenly appeared in his mind: Could it be that Long Chen has the chance to become the number one genius in the Source Spirit City?

From an insignificant ant, how did he manage to climb to such a position?

Dongfang Tianxuan felt that even if Long Chen lost miserably to Yan Danqing, he was still worthy of respect. This was because his story, from zero onwards, was simply a legend, a legend of a small character rising to greatness!

Thinking of this, her disgust towards Long Chen somewhat dissipated.

And Long Chen, had once again started a battle with Yan Danqing.

"This big guy's strength is really great. His speed and defense are pretty good. He's basically no different from a real demon beast." Long Chen thought in his heart.

"However, no matter how hard your skin is, can it defend against my green dragon halberd?" Long Chen sneered. Having made up his mind, he no longer continued to play with Yan Danqing, and at this moment, he turned into a mirage as he charged towards Yan Danqing. The green dragon halberd in his

hands, was instantly danced by him and turned into countless roaring divine dragons that surged towards Yan Danqing! It was like the waves of the sea!

"Azure Dragon Battle Method, Dragon Battle Star Field!"

Seeing Long Chen use his strongest move again, even if it was Yan Danqing, he had no choice but to concentrate on fighting. He bellowed, and with a loud punch, all the True Qi in his body surged!

"Nine Elements Shattering the Sky!"

This move, was obviously Earth Tier Battle Skills, if the One Yuan heavy punch just now was not weak, then the current Nine Yuan Sky Shattering Fist was simply the combination of nine one Yuan heavy punches. The nine combined attack, the attack instantly rose by more than ten times, and it still looked like a simple nine fists, entangled together, and clashed with Long Chen's Dragon Battle Star Field!

Hiss! BOOM!

The air exploded and streams of power scattered in all directions! Everyone could only hear the clashing sound of the halberd and fist. After a total of nine clicks, the two of them were blasted away!

This time, it was a true contest.

"For a more genuine power, Long Chen is definitely inferior to Yan Danqing who has undergone the Primordial Beast transformation." Dongfang Tianxuan frowned, he thought as he stared at the competition grounds.

"How is this possible?" When she saw the situation clearly, her pink, sparkling lips slightly widened. From her bright eyes, one could see the shock in her eyes.

Not only her, practically everyone present could not react at all, because this time, Long Chen landed confidently and unrestrainedly on the ground, while Yan Danqing directly rolled a few times on the ground, causing his face to turn gray and his blood and Qi to surge!

How was this possible? Could it be that the Primordial Beast that grew in strength was actually inferior to Long Chen's third-rate beast?

Even Yan Danqing himself, was filled with disbelief. At the same time, he was also feeling endless humiliation.

He suddenly exploded forth, once again charging towards Long Chen!

"Long Chen, what evil methods did you use!"

"Means?" Long Chen laughed, and said: "I wasn't able to kill you with that last move, I can only try this move."

Chapter 262 - Soaring Dragon Nine Heavens

"There's another move?" Yan Danqing was shocked. In fact, he still had another move, and was just about to use it to completely destroy Long Chen and regain his dignity. He did not expect Long Chen to have another move.

"How can such insignificant skills compare to my Beast Soul Hall's highest secret manual!" Thinking up to here, Yan Danqing's heart finally relaxed a little. He sneered, and in the process of charging towards Long Chen, his true qi surged non-stop, forming a huge true balloon around him, and wrapped itself around him!

"Long Chen, let's fight to the death! Who is the strongest, we will soon know!" Yan Danqing shouted frantically. Originally, he was only afraid of Mo Xiaolang, he was not considered his, but before the battle, he did not expect that he would actually go all out against her!

Yan Danqing seemed to have gone crazy, but Long Chen was extremely calm. He slowly placed the green dragon halberd's halberd tip on the ground, using a calm gaze to look at Yan Danqing who was crazily rushing over.

"Yuan Ji strangling fist!"

When he was almost close to Long Chen, Yan Danqing let out a loud shout, and waved his huge fist. Immediately, a surge of immense aura pounced towards Long Chen, and the current Yan Danqing, completely transformed into the shadow of a Primordial Beast, pouncing towards Long Chen with all four limbs on the ground!

The entire ground was trembling. Without a doubt, even if it was a mountain, it would have collapsed from the Yuan Ji Murderous Fist, let alone Long Chen.

Just now, Long Chen had forced Yan Danqing to retreat, they had thought that he would be able to fight against Yan Danqing, but when Yan Danqing had truly used his ultimate killing technique, Long Chen was obviously not his opponent. Right now, Long Chen had a completely lifeless look on his face.

But is that so?

Raising his head, he looked at the Primordial Beast's figure which seemed to cover the sky and earth, nearing him. The corner of Long Chen's mouth hooked into a light smile, and then, he moved.

"I wonder what will happen to the battle skills of the Earth Stage Medium?"

What he could see was that from when Long Chen was waving his green dragon halberd since young, a strong light suddenly exploded forth. There seemed to be tiny light particles in the air that were being absorbed by the green dragon halberd.

Long Chen's actions should have been considered picking, but this picking was not an ordinary picking. Just as Long Chen was about to pick up the green dragon halberd, a gigantic green dragon soul surged out of the battle skill like crazy and soared into the sky!

In fact, it was the green dragon halberd that had turned into the gigantic and dazzling Azure Dragon's soul!

"Azure Dragon Battle Method — — Soaring Dragon of the Nine Heavens!"

Accompanied by a light shout, a huge dragon image soared into the sky, baring its fangs and brandishing its claws as it pounced towards Yan Danqing! The two attacks clashed in midair with a loud bang. Instantly, a shock that was ten times more shocking than before was produced!

Rumble rumble rumble!

The sound of the explosion shook everyone's eardrums. Some of them even covered their ears in pain and subconsciously retreated!

The ground of the square was already hard enough, but at this time, pieces of limestone began to rise into the air. They were shattered by the battle between the two, turning into powder that filled everyone's vision. All they could see was waves of dragon roars and the roars of demon beasts coming from the dust.

BOOM!

A human figure was sent flying out of the dust and crashed on the ground, spitting out large mouthfuls of blood. His face was pale and his aura was extremely weak, one could tell from his frightened and painful eyes that he had suffered serious internal injuries. Of course, there were also quite a few external injuries. The right arm flew even further than he did, bouncing off the mausoleum. Finally, it tumbled down in front of the wolf cub, who sneezed, sending the arm flying far away.

This man, was actually Yan Danqing!

Seeing his pale white face, everyone's minds went blank, and when the dust completely scattered, Long Chen removed the Dragonsoul Transformation, put away the green dragon halberd, and returned to his original appearance. He smiled faintly and scanned his surroundings. Everyone subconsciously retreated as they were caught in his gaze.

At this time, seeing that Yan Danqing had actually lost an arm due to Long Chen, the people of Beast Soul Hall were simply going crazy, fear and worry flooded into their hearts. They all knew that Yan Danqing was the treasure of the Primordial Emperor, but now, his arm had actually been cut off by Long Chen.

They looked at each other, and immediately rushed towards Yan Danqing. As they healed their injuries, they kept their arms, their faces were pale white. If Yan Danqing died, they would not be able to live.

Yan Danqing did not die, he still had some consciousness left, but without the feeling of his right arm, that burning pain made him convulse non-stop. He forcefully clenched his teeth, endured the pain, and looked in the direction of Long Chen with squinted eyes, only to see this youth smiling at him.

Yan Danqing's heart immediately twitched fiercely. As the number one genius of Source Spirit City, today was the first time he had lost in battle. In his heart, he could not accept this at all! He had a monstrous hatred towards Long Chen. While enduring the pain, he swore that he would take revenge for the loss of his arm and hack Long Chen into a thousand pieces!

However, when he saw Long Chen's devil-like smile, his heart trembled. Fear and hatred intertwined in his heart, causing his blood to attack his heart, and he once again spat out a mouthful of blood!

"Who asked you to use this hand to take away that metal plate, so I can only cut it down. Next time, remember, you can't just randomly touch anything." Long Chen's tone was very calm, but it caused the other party to feel absolutely terrified.

"Long Chen, don't you know my identity? My grandfather is the strongest warrior in Source Spirit City, and I am about to become the fairyland godly guard. This time, you will definitely die!" Yan Danqing clenched his teeth and said it out loud.

"Is that so? So if I kill you and get what you want, wouldn't fairyland godly guard be me, and your grandfather wouldn't dare to touch me, right?" Long Chen said with a smile that was not a smile.

"You can't kill me! I have already obtained the inheritance, the ninth prince will take your life!" Yan Danqing was shocked.

"Long Chen, you can't do this. Yan Danqing has already obtained the inheritance, if you try to steal it, it will break the rules of the Ninth Prince. When the time comes," At this time, the frightened Li Ziling said hurriedly.

Long Chen knew that the Ninth Prince only said that before the competition for the inheritance, everyone could rely on their own methods. Now that the inheritance had already been obtained by Yan Danqing, everyone was waiting for the Ninth Prince to open the doors, which meant that the competition for the inheritance had already ended.

Inheritance, there was the inheritance of true qi, there was even the cultivation technique manual, and there was even the inheritance of bloodlines. Only Long Chen knew what kind of inheritance Yan Danqing had obtained, but the others did not.

Long Chen had already obtained all of Long Chen's things, and he had only been trying to scare him a little just now; he never once thought about taking his things. Furthermore, Long Chen had a nagging feeling that something was amiss with the Ninth Prince's organization of the Burning Sky Secret Realm's experiential learning. Hence, he temporarily didn't want to divulge that he had obtained the complete version of the divine fire clone and that he had two thousand Tianhe Dan.

Long Chen laughed for a few years before he turned around and left, walking towards Xiao Lang.

"Let's go and find a quiet place to stay." There was still a long way to go before the Ninth Prince opened his big door, so Long Chen decided to find a place to digest his gains this time.

Xiao Lang stood up, and followed behind Long Chen, and left the plaza.

Everyone looked at this scene in a daze, especially the disciples of the Lingwu Family, whose shock could no longer be described with words. Long Chen had defeated Yan Danqing and became the number one genius of the Source Spirit City.

What was even more shocking was that the Sun Devouring Demonic Wolf seemed to listen to Long Chen's words?

They did not know how powerful the Sun Devouring Demonic Wolf was, but they guessed that it could be considered an Earth Rank beast. Has an Earth Rank beast as a pet? This meant that although Long Chen couldn't get the inheritance nor become the fairyland godly guard, he could still become the overlord of the Source Spirit City!

"This young man, just how many more secrets does he have on him?" Dongfang Tianxuan muttered.

After bidding farewell to them, Long Chen casually found a place in the Burning Sky Secret Realm to digest his gains this time.

Even Yan Danqing is not my opponent, so under Milky Way Realm, I can be considered to be without an opponent. However, this is still not enough, I don't even have the strength of Milky Way Realm, I still have to be bullied by others, especially the ninth prince's Biyang Royal City s, they all have Milky Way Realm of their own.

Right now, he was only at the initial level of Mortal Core. His first target was still to reach the peak of Mortal Core as soon as possible. Blood Refinement Qi was indeed a good method, but Long Chen did not dare to use it too much. Furthermore, right now, other than Earth Rank Beasts, Profound Rank Beasts were completely useless against him.

"There are still a few days, let me take a look at the Nine Revolving Fire Shield and the divine fire clone. Little Wolf, didn't you say you want to try the divine fire clone? Let's discuss it together. "

Talking to the little wolf was more like Long Chen talking to himself. Right now, he couldn't think of a way to let Mo Xiaolang recover, so Long Chen could only gradually get used to this kind of method. He knew that the little wolf had become a Sun Devouring Demonic Wolf and that Long Chen would get along with him for a very, very long time.

The Nine Revolving Fire Shield's Earth Stage Medium was a very abnormal defensive technique. Through his understanding of it, Long Chen confirmed that if the Nine Revolving Fire Shield was used, his incomplete Soaring Dragon Nine Heavens would definitely be able to block it several times. Therefore, in the Source Spirit City, the Nine Revolving Fire Shield could be considered a high level combat skill.

As for the divine fire clones, there was no need to even mention them.

"This divine fire clone is so magical, if the Ninth Prince doesn't drool, I won't believe it. After we leave this place, I will try my best to keep a low profile."

There was no reason for him to fly back out after getting his hands on it.

Days passed and finally, on this day, Long Chen felt that the Burning Sky Secret Realm had opened once again.

It was five o'clock in the morning. If there were guests, there would be surprises.

A total of 270 thousand words, which was more than most updates for a month. This point was known to those who frequently read the books, as today would be the day of the break out.

Also, this book is updated at 0am every day, which is the earliest time of the day. Please do not think that I am the last to update every day ~

Chapter 263 - Opening of the passageway

After leaving the Burning Sky Secret Realm, one would have to decide who would be the true fairyland godly guard. To Long Chen, this fairyland godly guard was extremely important, but now, he was faced with a difficult problem.

It was true that from the inheritance of the The Devil Emperor of the Burning Heaven, Long Chen had obtained his true inheritance. However, in the eyes of others, the one who obtained the inheritance was Yan Danqing. If Long Chen revealed what he had obtained from the The Devil Emperor of the Burning Heaven, he would very likely suppress Yan Danqing and become the fairyland godly guard. If the Ninth Prince was interested in the divine fire clone, then Long Chen would probably have to bear the pain and give up on him.

Since he had to become a fairyland godly guard, Long Chen pondered whether there were any other ways. His greatest strength was because he was currently stronger than Yan Danqing, so the Ninth Prince's method of recruiting fairyland godly guard should be the strongest, right? Long Chen did not believe that there would be no turning point.

After making up his mind, Long Chen decided not to reveal the news of him obtaining the complete inheritance of the The Devil Emperor of the Burning Heaven at the moment. In the future, when he was forced to use the The Devil Emperor of the Burning Heaven's combat skills, he would be able to explain it to others, because at that time, Long Chen would definitely be even more powerful and would have more authority.

The opening of the Burning Sky Secret Realm's gate also alarmed the rest of the people, as they were afraid that they would be left behind, and they all rushed towards the exit together. These people were divided into three groups, while Long Chen led the little wolf and walked slowly to the back.

At this time, Yan Danqing was in the lead. He did not turn around, but he knew that Long Chen was behind him. At this time, his severed arm was still lying in his Qiankun bag, and only by returning to the Yuandi City can he be perfectly healed. Before this, Yan Danqing was already a cripple.

Thinking about how Long Chen had cut off one of his arms, Yan Danqing became extremely furious.

The group of people did not say anything as they rushed out of Burning Sky Secret Realm and came to this dark Burning Sky Mountain Range. Following them were two rays of light, the higher ups of Lingwu Family were able to see that these two rays of light were Black Tortoise Axe and Sky Wolf Blade respectively. This meant that their master was dead.

Although everyone felt pity for Beitang Mo's death, they were not that shocked. What they were most shocked about was that Mo Xiaolang had actually died. However, Mo Xiaolang didn't have anyone close to him, whereas Beitang Mo's grandfather was standing here.

Three groups of people appeared in the Burning Sky Mountain Range, looking for their seniors. Long Chen carried the little wolf, and with a glance, he could roughly tell how many people were waiting outside. The ninth prince, Lin Cangtian, and the black clothed butler were naturally present there. The chief of the Morning Star Merchant Union s, as well as the Primordial Emperor s and some of the experts beneath them, were also excitedly waiting, and as for the Four Great Ancestor, some of the clan elders had also appeared, while the heads of the clans like Dongfang Xuanfeng stayed behind to take charge of the general situation. Dongfang Xuanfeng's generation did not have many people in the clan, only Dongfang Xuanyu stood beside the Azure Dragon Ancestor.

The moment Long Chen and the others came out, everyone impatiently sized them up. It was easy to tell who was injured and who was dead. Firstly, among the Lingwu Family s, because of the appearance of the Black Tortoise Axe, they could tell with one glance that Beitang was dead and Dongfang Tian Chen had disappeared. As for Li Ziling who was in Morning Star Merchant Union, her expression was also somewhat dispirited. Yan Danqing who was in Beast Soul Hall, had lost an arm!

Amongst the group, if the strongest could be considered, the only one who was not injured would be Long Chen. Seeing Long Chen's current expression, everyone's heart tightened, and thought to themselves: Could it be that he obtained the inheritance? How is this possible?

A storm was brewing in everyone's hearts. They hurriedly called for their clan's younger generation to return, leaving Long Chen alone in the distance. It seemed that he did not belong to any sort of power.

"What's going on?" Azure Dragon Ancestor asked Dongfang Tianxuan and the rest with a pale face.

"Brother Tian Chen and Beitang Mo, both of you have been killed by Long Chen!" Dongfang Tianxuan gritted his teeth.

"What?" The elders of the Lingwu Family were furious. Even the four clan leaders had fierce expressions on their faces as they looked towards Long Chen with cold expressions.

"Long Chen, didn't you promise me that you would fight alongside them?!" Azure Dragon Ancestor's sharp eyes pierced into Long Chen's face.

"I agree, but unfortunately, some people don't have ears. Once they entered the Burning Sky Secret Realm, they tried to steal my green dragon halberd, but in the end, they lost their lives for nothing. If you have to blame me, you can only blame me for being too harsh." Long Chen said indifferently.

"You're courting death!" Listening to Long Chen's words, Azure Dragon Ancestor knew more or less about what had happened. However, knowing the truth did not mean that he would not be angry because he lost his most outstanding descendant! Of course, with Lin Cangtian still here, he did not attack immediately, because he knew what to do.

When Dongfang Xuanyu saw Long Chen's despicable smile, then remembered everything about Dongfang Tian Chen, hatred started to grow in her heart, and in an instant, it spread throughout her entire body. Without saying a word, he charged towards Long Chen!

"He's really courting death." Long Chen had wanted to kill Dongfang Xuanyu since long ago, and wanted to take revenge for his grudge against him. Dongfang Xuanyu had almost taken his life, and now that he was attacking so crazily, he did not even put in his eyes at all. A cold light flashed in Long Chen's eyes, and without saying a word, the sharp sword qi in his hands surged.

Five consecutive Spirit Devil Sword Finger s madly broke through Dongfang Xuanyu's direction, and the last ray of sword qi exploded in front of her, causing the sharp sword qi to blow Dongfang Xuanyu's clothes to pieces, and a snow white body, immediately appeared in front of everyone's eyes. The beautiful curves, instantly attracted the attention of many men, but in the next moment, small wounds appeared on his snow-white skin, densely packed, and was directly covered in blood from her delicate body!

Dongfang Xuanyu let out a blood-curdling scream. The pain in her entire body made her want to die, she wanted to faint right away, but the endless pain caused her to stay awake, feeling as if her entire body was exposed to the onlookers. The secret of her body was exposed to everyone, and in that instant, Dongfang Xuanyu felt as if the entire world had collapsed.

Only now did she remember that she wasn't a person of high status. There were some people that she couldn't afford to offend and trample over.

"Xuan Yu!" The Azure Dragon Ancestor was shocked. He immediately took out a robe and blocked Dongfang Xuanyu, then pushed it into the hands of the Vermillion Bird Ancestor, allowing the Vermillion Bird Ancestor to treat her wounds. At the same time, his cold gaze fell on Long Chen, and without saying a word, the aura belonging to the Milky Way Realm erupted towards Long Chen.

"Stop!" This was clearly Lin Cangtian's voice. No matter how much hatred Azure Dragon Ancestor had in his heart, he could only endure it.

Long Chen had already expected it, so he was not worried about Azure Dragon Ancestor making a move. Honestly speaking, he did not kill Dongfang Xuanyu directly, which was already being lenient. However, Long Chen knew that his deathblow towards Dongfang Xuanyu was still coming up. There was once someone who died in this strike, and that was Yang Zhan.

Of course, even if Azure Dragon Ancestor were to use his killing move, what was there to be afraid of? He still had a second stage Earth Stage Sun Devouring Demonic Wolf in his arms.

At this time, in front of everyone's eyes, Lin Cangtian looked over coldly for a moment, and said indifferently: Do you guys still have me in your eyes when you make a move in front of me?

"Ninth Prince, Your Highness, this old man knows he's wrong!" Azure Dragon Ancestor immediately replied respectfully. He knew that ten years was not too late for a gentleman to take revenge, so he was in no hurry.

"As long as you know your wrongs. From now on, all of you should just stay put. " Lin Cangtian looked around, then looked at the people participating in the competition for the Burning Sky Secret Realm, and asked: "I only have one question, who obtained the The Devil Emperor of the Burning Heaven's inheritance?"

"Crap." Seeing that Long Chen did not have any injuries, it was very likely that he had obtained the inheritance. In that case, after he becomes the fairyland godly guard, it would not be easy for the Lingwu Family to kill him. But the good thing was that Lingwu Family could continue to be the City Lord's Mansion. These two aspects, Azure Dragon Ancestor was also very contradictory.

However, he found himself thinking too much.

At this time, Yan Danqing finally mustered his courage and said: "ing to the Ninth Prince, I have obtained the inheritance of the The Devil Emperor of the Burning Heaven!"

His voice was a little hoarse, and when he spoke, he looked in Long Chen's direction. It could be said that Long Chen had already left a shadow in his heart.

When he said that, the crowd became even noisier, they thought it was Long Chen, they did not expect it to be Yan Danqing. This way, the authority of the Source Spirit City would be handed over to the Beast Soul Hall. This result caused everyone to feel mixed emotions.

"I knew it, how could this kid be so powerful!" "Big Brother, not only did he not fight for our authority, he has also killed Mo'er and Chen Er, and even injured Xuan Yu." Patriarch Xuanwu looked at Azure Dragon Ancestor, his intentions was already clear, and that was: Kill!

Azure Dragon Ancestor nodded with a dark look in his eyes.

In reality, the result still felt strange to everyone. Yan Danqing was clearly heavily injured, and had lost an arm, but the person who obtained the inheritance was actually him?

Lin Cangtian was also startled, then he chuckled. Looking at Yan Danqing's severed arm, he asked. "Then who did this severed arm of yours?"

Honestly speaking, this matter was indeed very embarrassing, but Yan Danqing did not dare to not answer Lin Cangtian's question. Thus, he lowered his head and spat out a single word: "Long Chen!"

Long Chen.

This name was deeply engraved in the hearts of everyone present.

"A frontal battle?" Lin Cangtian seemed to be very interested.

This kind of matter, if he did not admit it, he would make others look down on him. Yan Danqing could only clench his teeth and nod his head.

Chapter 264 - Ten Days

Long Chen had defeated Primordial Beast, who had a ninth level of the Profound Ranked source beast soul, and even lost an arm? Although they had guessed it at the beginning, when they confirmed it, they

felt like they were dreaming. 's improvement was simply too fast. Defeating Yan Danqing already meant that he had become the most monstrous genius in the entire Yuanling County, and his reputation had already surpassed Mo Xiaolang's!

No one could have imagined that the rebellious brat from back then would have grown to such a state.

Towards those gazes of amazement, Long Chen smiled faintly, unfazed by the humiliation. He was still thinking about what to do next. How was he going to charge out of the Lingwu Family and get the approval of the Ninth Prince and become the fairyland godly guard?

Long Chen was a smart person. From the Ninth Prince's attitude and eyes, he could actually guess a few things. That voice just now, stopped just in time. Does this mean that Lin Cangtian is protecting him? Long Chen knew his own limits, so he naturally did not think that the other party was appreciating him. At most, it would just be out of curiosity.

Just curiosity.

Knowing that Yan Danqing had obtained the inheritance, Lin Cangtian nodded and said: "Since you have already obtained the inheritance, then there is no need to say anymore. Go back to the Source Spirit City right now. Regarding the matters of the fairyland godly guard and the City Lord's Mansion, we'll hold a general meeting of the entire city tomorrow.

After he finished speaking, he directly called out to her own Sculptor and lightly mounted its back with the black clothed butler. Then, he called out to Yan Danqing and said, "Come over here, let's go back together."

To be able to share a Sculptor with the Ninth Prince, in the eyes of others, was a special honor. However, Long Chen felt that there might be something fishy about it.

However, most people did not know that Yan Danqing's grandfather, Primordial Emperor, had already blossomed from laughter. He hurriedly sent Yan Danqing to the Ninth Prince's Sculptor, then called for everyone in the Beast Soul Hall.

Lingwu Family did not leave, everyone knew that they had to do something if they were to stay, but that was none of their business. They were even hoping for Long Chen to die quickly.

When the Sculptor was flying away, Lin Cangtian suddenly turned his head and smiled evilly at Long Chen: "Earth Rank demon beast recognizes you as its master. Long Chen, I will wait for your return in Source Spirit City."

His words, were only heard by Long Chen.

"Sure enough, he saw through it. Of course, he does not know that this is a Sun Devouring Demonic Wolf, but if he were to hide the aura of an Earth Rank demon beast, he would be able to see it too. " At this time, Lin Cangtian led the group back to Source Spirit City, leaving Long Chen there, who was dead for sure. However, Long Chen knew that Lin Cangtian seemed to not want him to die. It was because he saw that Xiao Lang was an Earth Rank demon beast that he left in peace, and even told Long Chen to wait for him at Source Spirit City.

"Wait for me in Source Spirit City? For what purpose? Tomorrow, we will announce all the results, and I will make the best use of my time. " Long Chen thought in his heart.

When the Sculptor and The Great Roc of the Gale soared into the sky and disappeared into the horizon, Azure Dragon Ancestor looked at Long Chen with gloomy eyes and said: "Strange, you actually don't know that you were abandoned? You think we won't dare to touch you because of your master? "

"I'm curious too, where did your guts come from?" Before, they were afraid of Li Xuanji, but today, why didn't they seem to be concerned about anything anymore?

"Poor you! Do you really think that we will believe your lies before we die? Long Chen, I will tell you, in the few days since you entered the Burning Sky Secret Realm, I have already investigated this clearly. That mysterious woman is not your master at all, and he brought your sister Yang Lingqing with her. It has been a long time since he left the Bai Yang Town.

"So that's how it is. I even thought you guys ate leopards." Even if they had managed to see through it, the current Long Chen was not the least bit worried.

"You're not afraid of death?" The Azure Dragon Ancestor was curious.

"With just you four old ghosts, you want me to die? Aren't you being too naive?" Long Chen asked.

"What?" At first, they had thought that Long Chen had some sort of backer, but upon careful thought, they realized that Long Chen no longer had any.

"You want to scare us with your bluff? Long Chen, to my Lingwu Family, not only is there no grace in you, you have done quite a bit. You even killed Tian Chen and Beitang Mo! The grudge and hatred between us, even if we let you die, will not be able to dispel it! From now on, a genius like you will slowly suffer the torture of my Lingwu Family! Fourth brother, who's going to fight you and me? "

Patriarch Xuanwu and his grandson had both died, so their hatred for Long Chen was the heaviest.

"Big Brother, let me do it! I promise I won't take his life first! " Patriarch Xuanwu took a few steps forward. His body was much stronger than Azure Dragon Ancestor's, and the pressure he created was even greater! At this time, the Black Tortoise Axe that was flying out of the Burning Sky Secret Realm was already in his hands.

Looking at the ferocious Lingwu Family, Long Chen laughed.

"It seems that this grudge cannot be completely resolved. I have a suggestion. Ten days later, at the city gate of the Source Spirit City, my brother and I will have a decisive battle with you, the Azure Dragon, and the Black Tortoise. How about it?" Long Chen planned for a while, then said.

"What?" Don't joke around, don't talk about ten days later, you'll have to surrender now! " After the Patriarch Xuanwu finished speaking, his body moved. Even though he was tall and sturdy, his speed was not bad, at least ten times faster than Long Chen!

"Wolf." Seeing that the Patriarch Xuanwu was about to kill him, the wind had already caused Long Chen's skin to hurt.

Hearing Long Chen's instructions, the little wolf's eyes flashed with a cold light. He leapt out of Long Chen's embrace, opened his mouth, and instantly a wave of flames swept towards the Patriarch Xuanwu. The appearance of this flame instantly caused the surrounding temperature to drop to the limit.

Sensing that the flames were a deadly threat to him, Patriarch Xuanwu turned pale with fright. He immediately stopped and retreated backwards in a fluster.

When he raised his head, he was shocked to see that the little wolf in Long Chen's embrace had already become extremely big, the Sun Devouring Demonic Wolf's appearance was extremely intimidating, causing Patriarch Xuanwu and the rest to be stunned.

"Earth Rank Demonic Beast!" The people from the Lingwu Family were all shocked. Seeing their elders clashing with Long Chen, Dongfang Tianxuan and the rest had all forgotten about the Sun Devouring Demonic Wolf. Now that the Sun Devouring Demonic Wolf had shown its might, they all turned pale.

"It's good that you know." The current Long Chen, who was sitting on the back of the Sun Devouring Demonic Wolf, looked down at the person from above from the Lingwu Family and said indifferently: "Since our grudge has reached the point where it cannot be resolved, then let's do as I say. We'll meet at the entrance of Source Spirit City ten days from now and see if your Lingwu Family's ancestor really has the guts to do so."

After speaking, the Sun Devouring Demonic Wolf turned into a black shadow and quickly disappeared from everyone's vision. Looking at the black shadow that disappeared into the horizon, the people of Lingwu Family looked at each other in dismay.

"Big Brother, has this Long Chen grown to the point where he can compete with our entire clan?" the Patriarch Xuanwu asked, trembling. The flames just now were simply too terrifying. If he was hit, he had no idea how miserable he would be.

"Wrong!" Ten days later, he will definitely die! " The Azure Dragon Ancestor said sinisterly.

Long Chen rode on the Sun Devouring Demonic Wolf's back, and the direction he headed towards was in the direction in which the Sculptor were headed. The Sun Devouring Demonic Wolf's grade was much higher than the Sculptor's, so even if the Sculptor flew high in the sky, its speed would still be much higher when it sprinted on the ground.

The slight difference in time caused by the delay at Lingwu Family was quickly made up for by the speed. When Long Chen raised his head and saw the Sculptor in the sky, he made the wolf cub slow down, and followed behind the Sculptor.

"Little Wolf, I think that Yan Danqing should have already handed over the divine fire clone. Haha, as for his two hundred or two hundred Tianhe Dan, the Ninth Prince probably doesn't think much of them." Long Chen laughed.

Mo Xiaolang could only nod his head as he could not speak.

"Ten days later, it's time to settle the grudge between us, the Lingwu Family." Long Chen thought about this matter. This matter was not because of impulse, but rather, it was decided after careful deliberation. But before that, he still had one thing to do, and that was to seize the fairyland godly guard's slot from Yan Danqing's hands. From the attitude that the Ninth Prince Lin Cangtian had towards him, Long Chen's sharp senses told him that there was a possibility.

The dignified Ninth Prince, the Primordial Emperor s of the Source Spirit City s were all ants in his eyes. Whoever he wanted to make a fairyland godly guard, would be a fairyland godly guard.

The speed of the Sculptor, in half a day, had already reached the Source Spirit City. In fact, high in the sky, the people above had long discovered Long Chen's existence, so, before arriving at the Source Spirit City, the ninth prince had already controlled the Sculptor, and landed on the ground in front of the Source Spirit City. Long Chen also jumped down from the Sun Devouring Demonic Wolf's body, both of her eyes firmly staring at the laughing Ninth Prince and the somewhat embarrassed Yan Danqing.

"Long Chen, why did you catch up?" The ninth prince lightly said. At this time, the Morning Star Merchant Union and Yuandi City's forces were also looking at Long Chen, and many of their gazes landed on the black colored demon wolf beside Long Chen.

"When the Ninth Prince came to the Source Spirit City to select the fairyland godly guard, he had to choose the strongest youth. When I openly defeated Yan Danqing, it had already proven my strength.

Only when one was in fairyland godly guard could one enter Inverse Wonderland and obtain Nine Celestial Spirit Fruit s for Ling Xi! So if Long Chen wanted to achieve her goal, she had no choice but to bring out the other battle skills like the divine fire clone.

Chapter 265 - Killing Primordial Beast

Once Long Chen said this, the warriors from the Source Spirit City s started to boil, especially the people from the Yuandi City s, Long Chen had cut off Yan Danqing's arm, and they had not caused trouble for him yet. They did not expect Long Chen to come up and cause trouble for himself, even if Long Chen had an Earth Stage cultivator who wanted to lose to him, he could not be so arrogant, right?

The people of the Yuandi City had always been incomparably arrogant, but there was only one reason, and that was that this generation's Primordial Emperor was a practitioner of Second Stage of the Milky Way Realm. In terms of individual combat strength, no one in the Source Spirit City could match up to them!

"Dream on! The Ninth Prince has already explained that the fairyland godly guard belongs to the people who received the The Devil Emperor of the Burning Heaven's inheritance. Although you, Long Chen, defeated Dan Qing, have you ever received the inheritance? Furthermore, who doesn't know if you used some shady method when you defeated Dan Qing? "

"Yes!" "Truly bold and audacious. Ninth Prince, this kid is ruthless, has no sense of justice, and is unruly and unruly. If he were to bring you to the Imperial City, it would only cause you to lose face.

The people of Yuandi City all started to shout.

"Stop talking." The Primordial Emperor saw that the Ninth Prince was frowning, and immediately shouted to stop him, while the others quickly did not dare to say anything.

Just then, the Ninth Prince looked at Long Chen with interest. Seeing that Long Chen was neither humble nor arrogant, he said: "Do you think you're strong? However, I don't think so. Without the ability to amaze me, I can only follow the rules. "

"I wonder if defeating Azure Dragon Ancestor is considered stunning?" Long Chen said directly.

When these words came out, the others wanted to laugh, but because of the existence of the Ninth Prince, they didn't dare to express their ridicule too clearly. Long Chen was really too ignorant of how high the sky was and how deep the earth was. Defeating Yan Danqing, could only mean that he could dominate the younger generation. But if he defeated Azure Dragon Ancestor, that would mean he could dominate the entire Source Spirit City!

"If you do not count this Earth Ranked Beast, it would be surprising for you to have such strength in a small place like Source Spirit City. However, I can't see anything from you right now. You have such a realm." The Ninth Prince seemed to be very interested in Long Chen.

"Ten days later, at this place, I have already made an agreement with the Lingwu Family. At that time, our brothers will have the final battle with the Azure Dragon and Black Tortoise! At that time, we will naturally be able to see the outcome of the battle! " Long Chen released the news.

Towards Long Chen's boldness, everyone was simply speechless. At this point, they were looking at each other, and from Long Chen's words, they could not tell that he was joking.

In ten days, Long Chen and the Lingwu Family's ancestor will fight their way to the Source Spirit City's gate, and this news will spread through the entire Source Spirit City through their mouths.

Looking at the young man in front of them, everyone did not know how to mock him.

"Since that's the case, let's postpone the matters of the City Lord's Mansion and the fairyland godly guard for another ten days. Long Chen, at that time, we'll have to see how you perform. "Haha." To everyone's surprise, the Ninth Prince actually agreed. After he finished speaking, he led the black clothed butler on a Sculptor and headed in the direction of the Imperial Jade Palace.

Right now, standing in front of Long Chen was the legendary number one expert, Primordial Emperor, as well as his most proud grandson, Yan Danqing. At this time, Yan Danqing looked at Long Chen with a malicious gaze, while Primordial Emperor's gaze was extremely cold.

"I'm sorry, it seems like the position of the fairyland godly guard is not yours anymore." To be able to obtain the chance to compete for the fairyland godly guard so easily, Long Chen's mood was extremely good.

"Long Chen, stop daydreaming. Ten days later, I'll see how you die by the Azure Dragon Ancestor's hands!" Yan Danqing gritted his teeth.

"Is that so? "Haha, I'm not talking nonsense with you. It seems like it's getting late, let's hurry up and go back so that we don't delay the recovery of our right arm." Long Chen said.

"You ..." The matter of his right arm was the biggest disgrace to Yan Danqing.

"Long Chen?" At this time, the Primordial Emperor at the side looked at Long Chen and said: "I still have a grandson.

Yan Chixie, the High Priestess of the Red Blood Church. Long Chen never thought that this old fellow would actually remember it.

"You killed one of my grandchildren, and cut off my other grandson's arm. All these years, there has never been a person from the Source Spirit City that dared to provoke me like this." Primordial

Emperor's eyes were calm as he said indifferently: "Remember, restrain yourself and don't make me angry. Compared to the people in the Imperial City, I am indeed weak, but even if the Ninth Prince chooses you in the end, I will still make you feel worse than death. Don't underestimate the means of an old man. "

After he finished speaking, the Primordial Emperor called out to the others and slowly left.

Primordial Emperor's words caused Long Chen to sink into deep thought.

"Looks like this Primordial Emperor is even more difficult to deal with than Azure Dragon Ancestor and the others. I should still be more careful."

After everyone had left, Long Chen brought the small wolf cub and walked into the Source Spirit City. He did not want to stay here, so he wrote a letter and secretly snuck into the Lingwu Family after covering his face with a mask. He came to the silver group and passed the letter to Yin Mengyao.

Instead, he had to go to a place far away. If he heard the news of Mo Xiaolang's death, there was no need to be sad, nor was there a need to spread the news that he had not died.

Yin Mengyao could be considered the only worry that Mo Xiaolang had in the Source Spirit City. After dealing with this matter, Long Chen and the little wolf left the Source Spirit City, and this time, they once again headed towards the direction of White Yang Town.

"Little Wolf, are you sure that there's an Earth Stage demon beast in the depths of the Desolate Beast Domain?" Long Chen asked.

The wolf cub nodded.

When they entered the Burning Sky Secret Realm, Mo Xiaolang had once mentioned that deep within the Desolate Beast Region, there was one of the strongest demon beasts, a first rank Earth Stage. Because it was not suitable, Mo Xiaolang did not try to capture the source beast spirit.

There was a reason why he was interested in this Earth Rank demonic beast. In ten days, the only thing that could greatly increase Long Chen's strength was his blood refinement and Qi refinement. In the Yuanling County area, there was already very little blood essence that could help Long Chen progress, so Long Chen could only search for Earth Rank beasts.

Ten days later, he and the Lingwu Family would completely settle the grudge between them. Furthermore, Long Chen had still yet to take revenge for his coma. It was precisely because of the Azure Dragon Ancestor that Ling Xi's life and death was unclear.

The Sun Devouring Demonic Wolf was running very fast on the ground. In half a day's time, Long Chen had already circled around the peaceful White Yang Town and rushed into the Desolate Beast Region. This time, he did not stop and directly rushed towards the deepest part of the Desolate Beast Region.

Mo Xiaolang had once entered deeper into the Desolate Beast Domain and seen the location of the Earth Rank Demonic Beast. Thus, it was very easy to find them. The surrounding gray miasma grew thicker and thicker, a suffocating aura filled the air, and the surroundings were completely barren. It was at this time that Long Chen sensed a strong aura in front of him.

The wolf cub immediately rushed towards that beast.

Long Chen was not able to hunt demon beasts this time, as they were an Earth Rank demon beast after all, and he was not its match. So the main force was from the Sun Devouring Demonic Wolf, and the Sun Devouring Demonic Wolf was very strong, so Long Chen decided to not use it for free and let Xiao Lang do it right away.

What appeared in front of them, was an equally gigantic demon beast. Its figure was about the same as the Sun Devouring Demonic Wolf, but of course, this was only its bent body. If it were to stand up, it would definitely be much taller than the Sun Devouring Demonic Wolf.

"Primordial Beast?" Long Chen was shocked. He did not expect that the Earth Rank Beast that Mo Xiaolang spoke of was actually a Primordial Beast. Primordial Beasts were considered to be demon beasts with a relatively large amount of evolution. When they matured, they were usually at the ninth level of the Profound Ranked. However, there were also a few Primordial Beasts who had great innate abilities since young, and directly reached the Earth Ranked Realm when they grew up.

Long Chen knew that the source beast soul of the Primordial Emperor's Milky Way Realm was a first level Earth Rank Primordial Beast. Primordial Emperor was able to find Profound Rank level nine Primordial Beast for his grandson, but was unable to find Ninth Grade Earth Grades of his own as the source beast spirit. To the people of Source Spirit City, Ninth Grade Earth Grades were unimaginable existences.

Of course, although the Primordial Emperor's Milky Way Realm Source Spirit was a first grade Earth Rank Primordial Beast, but because his Profound Rank Source Spirit was also a Primordial Beast, the speed of integration was extremely high. This also caused the Primordial Emperor's fighting strength to

surpass that of Azure Dragon Ancestor and the others, who possessed the Earth Stage Medium Divine Weapon!

What appeared in front of Long Chen was a huge white ape. When it saw the Sun Devouring Demonic Wolf, it suddenly stood up and roared crazily, and rushed towards the Sun Devouring Demonic Wolf.

"Wolf, it's your turn." Long Chen laughed as he rolled down from the Sun Devouring Demonic Wolf's body, but at this time, the little wolf grinned, as if it felt extremely disdainful towards this Primordial Beast.

A first grade earth-step martial artist against a second grade earth-step martial artist. Not only that, but the wolf cub also had the terrifying Ancestral Fire of the Tartarus Devil Ancestor. Previously, he did not test out the power of the Ancestral Fire, but now, every time he met the Primordial Beast, he madly rushed forward.

The black flames were like tentacles that instantly climbed onto the snowy white head of the Primordial Beast, and then enveloped it. Long Chen heard the crackling sound of ice freezing, and then, the Primordial Beast crashed onto the ground.

As for the little wolf, it steadily landed on the ground and indicated towards Long Chen.

"So fast?" was a little speechless. Killing a Earth Stage Level 1 demon beast this quickly, could only mean that the Sun Devouring Demonic Wolf was really too terrifying. Of course, Long Chen knew that the most terrifying thing was still the Nine Hell Devil Ancestral Fire that he had controlled.

Long Chen walked over and saw that the Primordial Beast's head had been frozen in solid black ice. When Long Chen touched the ice a little, the Primordial Beast's head was instantly turned into ice and fell down. A headless body was left behind.

"My Demonic Core!" Long Chen groaned. The Primordial Beast's head was completely burnt into pieces, which meant that the Earth Rank Demonic Core was gone.

Chapter 266 - Great Perfection of the Heavenly Core

Long Chen now had two thousand Tianhe Dan, so he wouldn't be able to sell this beast core for much money.

After killing the Primordial Beast, the wolf cub retreated to the side, quietly staying there, probably researching the divine fire clone.

"I wonder if the little wolf, as a demon beast, can figure out the divine fire clone?" Long Chen thought about this idea. In the process, he would use the Dragonsoul Transformation.

To Long Chen, who possessed the heaven defying skill of Blood Refinement Qi, the corpse of an Earth Ranked Spirit Beast could be encountered but not sought after. Now that the blood of the Primordial Beast had started to flow, Long Chen quickly used the Blood Refinement Qi on the corpse.

The blood essence of an Earth Rank Beast contained a tremendous amount of power, so Long Chen did not dare to be too hasty. The corpse of the Primordial Beast was so big, it had several tons of blood in it. In any case, no one would disturb them here, so Long Chen slowed down his pace and continued to absorb and refine the blood.

The dantian was the basis of the human body's cultivation, and there was a limit to what it could bear. The blood and qi of an Earth Rank Demon Beast was incomparably huge, and if Long Chen were to absorb it, it was very likely to harm the dantian.

During the slow refining process, his true qi was also slowly increasing. As time slowly passed, the Primordial Beast's blood aura became less and less. More and more blood was converted into true energy by Long Chen, gushing into his dantian and fusing into the Heaven Pellet.

This entire process took a total of half a day. Finally, when the Primordial Beast's corpse was almost dried up, Long Chen stopped his Blood Refinement Qi because he could already feel that the true qi in his dantian had completely exploded. And next, he was going to use this enormous amount of true energy to charge into the Great Perfection of the Heavenly Core realm.

With the support of such a huge amount of Innate Qi, everything went smoothly. When all of the Innate Qi was channeled into the Dantian, under Long Chen's control, the peaceful True Qi started to fuse together again, finally fusing into a green bean sized, blood-red Sky Pill, floating in the center of Long Chen's Dantian.

It was unimaginable that this thing that was the size of a mung bean was the source of all of Long Chen's strength.

Of course, this didn't include the power of a Level 3 Thunder Flame Battle Body.

After standing up and sensing his own strength, Long Chen once again, he had already taken another step forward towards the realm of peerless experts.

When I first arrived at Mortal Core, my Mortal Core was as big as an egg. But now, my Heaven Core in Great Perfection of the Heavenly Core is only the size of a mung bean, but it's countless times stronger than this. Long Chen lamented.

"The cultivation of Divine Pill Realm, has already been completely completed. In the following days, I will need to attack Milky Way Realm. With two thousand Tianhe Dan, it should be much more convenient for me to break through Milky Way Realm than it is for others. royal father was once the strongest under the Milky Way Realm, but did not reach the Milky Way Realm, purely because, he already has the qualifications to attack the Milky Way Realm, and does not have any Tianhe Dan s! "

With the Tianhe Dan, Long Chen finally understood the importance of Tianhe Dan.

There were still nine days until the final battle. The little wolf was still pondering over the matter of the divine fire clone. Although Long Chen had a certain amount of confidence in his ability to win the final battle, he did not dare to be negligent.

In the remaining nine days, he consolidated his Great Perfection of the Heavenly Core cultivation and studied the Nine Revolving Fire Shield and the divine fire clone. For his extraordinary comprehension ability, the Nine Revolving Fire Shield was not difficult, but the divine fire clone was relatively harder to cultivate. After Long Chen and the little wolf had discussed this issue for a while, he had gained quite a bit.

"There are a total of four stages of divine fire clone. When can I complete the fourth stage?" Long Chen thought to himself, for a fourth stage divine fire clone to have a hundred and twenty-five of them, it must be very abnormal. However, so many divine fire clone still needed a huge amount of Innate Qi to support it. With Long Chen's current Innate Qi, he could use high-rank earth class to create a divine fire clone and it would already be considered good.

There was still a day until the decisive battle, so Long Chen and Mo Xiaolang had embarked on the road back to the Source Spirit City. This would be the most critical battle for Long Chen. On one hand, it would settle the grudges between both sides, and on the other hand, it would be to become a fairyland godly guard. He did not want the Ninth Prince to know that he had a divine fire clone, especially a full version, so he could only rely on his own hard work.

During the Vietnam War, Long Chen deliberately added the Patriarch Xuanwu s in so that he could end all the enemies he had with the people in the Lingwu Family without a single one remaining. The

Patriarch Xuanwu was obviously being dealt with by the little wolf. Long Chen was originally a little worried, but after seeing how cleanly the little wolf killed the Primordial Beast, he was completely at ease.

The first time he entered the Source Spirit City, he was still just a small figure in The eighth level of the Dragon Meridian Realm. In less than a year, he had already advanced to the Source Spirit City as a big shot.

Due to the deliberate promotion by the Morning Star Merchant Union and the Beast Soul Hall, news of Long Chen and the Lingwu Family had already spread throughout the entire Source Spirit City. This early in the morning, countless people had rushed up the walls of the Source Spirit City because this was the best place to spectate the battle.

On a long stretch of city wall, there was a crowd of people swarming everywhere. Everyone was rubbing their shoulders and cursing non-stop.

To these commoners at the bottom level, the Lingwu Family was a super huge monster. As for Long Chen, he seemed to have heard of it before, but it seemed that he had occupied an inconspicuous position in the Hidden Dragon Rank. It was precisely this kind of person, why did he have the strength to fight against the Lingwu Family?

"Who exactly is this Long Chen? Lingwu Family had dominated Source Spirit City for countless of years, and the only person who could stand up against Lingwu Family was him. Could it be that Long Chen was even stronger than him? Impossible, Lord Primordial Emperor is the strongest warrior in Source Spirit City! "

"I heard that it was Long Chen who challenged the Lingwu Family! Azure Dragon Ancestor is also a top Ranker in the Source Spirit City, I heard that Long Chen is not even twenty yet, so I've never heard of his name before, is there really such a monster? "

"Fighting with the Azure Dragon Ancestor at the age of twenty, even if Long Chen loses in battle, his name would still be forever famous."

"Wrong!" In fact, you guys didn't know, but I heard that Long Chen had a demon beast that was extremely powerful. What Lingwu Family was really afraid of was this demon beast, which was why he

agreed to Long Chen's provocation! Without this demon beast, I think that Long Chen would not even be considered a fart! "

"It's not that exaggerated. I heard that he even cut off one of Yan Danqing's arms. Someone with such a result must definitely be an unrivalled existence in the younger generation. We can only look up to him."

This kind of conversation filled the entire city wall. The Source Spirit City had not been so lively for a long time. The sound of the commotion was so loud that it seemed as if a hole was about to be pierced through in the sky.

On the tower of the Source Spirit City, there was the Ninth Prince, as well as the positions of the great powers of the Source Spirit City. The participants of the Lingwu Family were among them, and they continued to discuss as they looked in the direction of the highest point.

"Everyone, I presume you don't know about this tragic event?" One of them, a middle-aged man with a sharp mouth and monkey cheeks, said mysteriously.

"What is it?" "Speak!"

"Faster!"

"Don't be anxious, this is the latest news right? The Lingwu Family has already sealed off this matter, if I wasn't well-informed, you wouldn't have known either!"

"Are you trying to say that Dongfang Xuanyu committed suicide?" The man frowned and said in a clear voice.

"How do you know?" The middle-aged man was shocked!

"Die!" I already knew about this matter a few days ago, and there are a few people in the entire Source Spirit City who don't know about it.

"I heard that it was at Burning Sky Secret Realm's exit. Dongfang Xuanyu's clothes were torn off by Long Chen, and after returning, he didn't have the face to look anyone in the eye, which is why he committed suicide."

"Then Long Chen is truly bold! This time, the enmity between him and the Lingwu Family is really huge, and it seems like there are still people in the Lingwu Family who died in his hands. "

"Wasn't Long Chen from the Lingwu Family before? Why would they have such a conflict with them? "

"I heard that they are here to duel and settle their grudges. Let's just watch on!" Long Chen is a mule or a horse, wouldn't we know if he takes it out to play? "

Everyone's eyes were on the horizon outside of Source Spirit City. They knew that Long Chen would appear there.

Or would he let everyone's pigeons go?

At this time, in the vast city hall of Source Spirit City, the Ninth Prince was sitting on a white jade recliner. This recliner was extremely tall, even if he was lying down, the Ninth Prince would be able to see the situation under the city walls.

And the three big powers of the Source Spirit City were scattered around the Ninth Prince, Beast Soul Hall and Morning Star Merchant Union weren't the main characters, so they were relatively quiet and low-key. As for the people of the Lingwu Family, almost all of them had come. Aside from the Four Great Patriarchs, there were also a dozen or so Profound Elders, four Lingwu Family s in charge, etc.

The faces of everyone present were ashen.

This time, it could be considered the most miserable of times for Lingwu Family, especially since it was at this time that Dongfang Xuanyu died. This grudge had already reached the point where they had no other choice but to settle it.

At this time, Dongfang Xuanfeng looked at the empty horizon, and then went close to the Azure Dragon Ancestor's ear and asked: "Father, does this boy have the guts to come?"

"I heard that he is from fairyland godly guard. He should be here." Azure Dragon Ancestor looked into the distance, his eyes calm. Only by looking carefully, would one be able to see the craziest hidden killing intent in the deepest part of his eyes.

"This time, if he doesn't die, the reputation of our Lingwu Family will fall into an endless abyss. Furthermore, if we add on the fact that we have lost the position of City Lord Palace, when will we have the chance to make a comeback?" Dongfang Xuanfeng lamented.

The death of his most proud son had filled his heart with rage.

"Rest assured, he will definitely come and he will definitely die. Our Spiritual Force will never lose!" The Azure Dragon Ancestor remained silent for a while, before saying decisively.

"There is no right or wrong in this conflict. We can only blame ourselves for not winning over this monstrous genius and underestimating him, for not looking down on young people's poverty, but I never thought that at my age, I would truly understand that our current plan can only be completed by eliminating him. Only then will our clan be able to recover its former reputation and status." Dongfang Xuanfeng said.

"He's here." Azure Dragon Ancestor heaved a sigh of relief.

Sure enough, what caused everyone to be excited was that on the horizon, a lone wolf was madly rushing over!

Chapter 267 - The eve of the final battle

"He actually came?" When the man and wolf slowly appeared from the horizon, everyone couldn't help but to sincerely admire Long Chen's courage. One had to know that what he had to do, was to under the gaze of tens of thousands of people, engage in a life and death battle with the top experts of the Source Spirit City!

Was this something that a young man that wasn't even twenty could do?

The tens of thousands of people on the city wall stared fixedly at the legendary Long Chen.

"This Long Chen doesn't look that special, but I never thought that such a young man would actually be able to survive to this extent. Even if he were to die in the hands of the Azure Dragon Ancestor this time, he would be able to leave a deep mark in the history of the Source Spirit City!"

At this time, when they saw Long Chen appearing, the eyes of Lingwu Family and the rest started to shine with a light of hatred.

"You really dare to come? "This kid really has quite the guts." Patriarch Xuanwu was about to participate in the battle. He stood beside Azure Dragon Ancestor and looked at Long Chen and Little Wolf with a gloomy gaze.

"Fourth brother, that beast is not simple, the Burning Sky Secret Realm's beast is definitely a little strange. When the time comes for us to fight, you just have to restrain it as much as possible, wait until I quickly take care of Long Chen, then we can meet up again to deal with that beast." Azure Dragon Ancestor said.

"I understand." The Patriarch Xuanwu nodded.

The entire road was covered in smoke.

Long Chen looked at the Source Spirit City wall that was not far away, which was filled with so many people that stood around to watch, he knew that all of this was caused by himself, from a nameless newbie to possessing such a huge amount of energy today, he had walked through many difficulties, went through many life and death experiences, and when he thought about his own experience, he sighed endlessly, and the last trial left was to defeat the Azure Dragon Ancestor, win the hearts of the Ninth Prince, and become the fairyland godly guard!

"Wolf, go all out and start a new journey for us brothers!" Long Chen was full of fighting spirit.

In response to his question, the wolf cub also let out a wolf howl, his voice was filled with power, and instantly transmitted through the entire Source Spirit City. The aura of an Earth Rank demon beast, caused all of the beasts and beasts in the Source Spirit City to tremble.

Long Chen and the Little Wolf stopped outside the gates of Source Spirit City in an extremely cool manner.

"Ninth Prince, Your Highness, I'm coming to meet the challenge!" Long Chen raised his head and shouted to the people inside the city gate tower.

"Very good." The ninth prince smiled faintly. He looked at Long Chen with a bit of admiration, as if he felt that it was odd that a person like Long Chen could appear in a place like Source Spirit City.

Receiving the Ninth Prince's response, Long Chen jumped down from the small wolf's back. From his eyes, one could see his fighting spirit and thick killing intent, and the corner of his mouth hung with a cold smile. Looking in the direction of the city gate tower, he suddenly shouted, "Azure Dragon Ancestor, Patriarch Xuanwu, get the hell down here!"

"Get the fuck down!"

His explosive shout, which contained true energy from Long Chen's Great Perfection of the Heavenly Core, immediately caused the entire city wall to tremble, and the rumbling sound caused the spectators to feel faint. Previously, they had thought that since Long Chen was young, he wouldn't have much combat power, but from his explosive shout, they could tell that Long Chen was definitely not simple!

However, Long Chen was too rude, he actually said "scram" to the two great Patriarchs in front of so many people, this courage was truly amazing. At least, here, there were not many people who could say the word "scram" to the Azure Dragon Ancestor, and still live!

"Thief, you're courting death!" When their own father was humiliated by Long Chen, Dongfang Xuanfeng and the others could not endure it any longer and was about to impulsively rush down the city gate tower when Azure Dragon Ancestor lightly stopped him and said: "A battle of life and death, why do you still care about these unrelated words? No matter how much humiliation he gives me, I will give him the greatest amount of pain."

"Yes, father!" Towards his own father, Dongfang Xuanfeng truly admired him from the bottom of his heart.

Azure Dragon Ancestor and Patriarch Xuanwu looked at each other, informed the Ninth Prince and then jumped down from the city gate tower. They stood about thirty meters away from Long Chen and faced him from afar.

"Kid, if there's no other nonsense, then die." Azure Dragon Ancestor said with a gloomy look in his eyes.

"Of course!" Long Chen smiled faintly, then said in a clear voice: "I need to first make a declaration, today's arranged battle is mainly for the sake of resolving the conflict, after this battle, no matter who wins, it will have nothing to do with who wins, my family, friends, and family will not find Lingwu Family to seek revenge, and Lingwu Family will also not be able to deal with my family, even if she secretly used methods to suppress them, it won't work! I wonder if the forefathers would dare to agree to it? "

To the Azure Dragon Ancestor, these were all insignificant matters. Furthermore, he did not think that he would lose to Long Chen, nor did he believe that Long Chen's family would bring trouble to the enormous Lingwu Family.

The Azure Dragon Ancestor knew that this was because Long Chen was worried that she would not let his family off after he killed his, which was why he said that. Honestly speaking, the only person that Azure Dragon Ancestor wanted to kill was Long Chen.

I promise that after this battle, regardless of victory or defeat, our two families will no longer have any grudges against each other. However, this battle does not care about life and death. Azure Dragon Ancestor said.

"Since the ancestor has agreed, Your Highness, please bear witness for us!" Long Chen said halfway through his sentence, then looked up towards the city gate tower. At this time, the Ninth Prince's indifferent voice came out, and said: "I have already written down this matter, if anyone violates their promise, I will personally kill them, you can rest assured."

With the Ninth Prince's words and the witness of many others, Long Chen finally relaxed.

"Wolf, be careful. Don't underestimate that big guy. Of course, the Nine Hell Devil Ancestral Fire is your trump card, so do not easily show it to others. "

Xiao Lang understood what Long Chen said, so he nodded.

Only then did Long Chen raise his head and speak to the Azure Dragon Ancestor. "Since it's already been agreed upon, let's start the battle, old green dragon dog! "Follow me!"

Finishing his words, he left the wolf cub and headed towards the left. He wanted to leave enough space for the two parties to battle each other!

That sound of "Old Azure Dragon Dog" made Azure Dragon Ancestor's heart completely burn with anger. Without saying a word, he chased after Long Chen, and that explosive speed of his Milky Way Realm immediately caused the people on the city gate tower to exclaim in admiration!

And the Patriarch Xuanwu, had his eyes on Mo Xiaolang.

"You demon beast, you are similar to the Moon Devouring Demonic Wolf, but your strength is much stronger than it. I know my own limitations and have never seen a demon beast like you!"

The Patriarch Xuanwu obviously didn't know that, in fact, the Sun Devouring Demonic Wolf had already become extinct. Back then, it was also because Mo Xiaolang was very interested in wolf-type beasts that he was able to find out about the Sun Devouring Demonic Wolf's information from an ancient book. Even the Ninth Prince did not know about Sun Devouring Demonic Wolf. He now believed that it was only a mutated Moon Devouring Demonic Wolf.

The little wolf couldn't speak, it could only look at the opponent with its gloomy eyes. It lowered its head and roared, then its entire body turned into a black tornado as it charged towards Patriarch Xuanwu.

"Truly worthy of being a legendary Earth Rank demon beast. However, without the wisdom of humans, how could you fight against them?" Patriarch Xuanwu laughed out loud, with Black Tortoise Axe in hand, he slashed towards the wolf cub!

In fact, compared to the Azure Dragon Ancestor, the current Patriarch Xuanwu was more powerful. However, even if the two people who were fighting were stronger, they were not the main characters today. Today's main characters were Long Chen and Azure Dragon Ancestor, when Patriarch Xuanwu and the little wolf were fighting, Long Chen had already been in the process of charging forward, using the Dragonsoul Transformation.

However, without the power of the stars, there was still a gap between his true qi and the Azure Dragon Ancestor's!

The green dragon halberd was originally a weapon that the Azure Dragon Ancestor had used for more than ten years, but now, it was held in Long Chen's hands. This was rather ironic, so when he saw Long Chen use the green dragon halberd to deal with him, Azure Dragon Ancestor's eyes were completely covered with a layer of blood!

The halberd in his hands was merely a high grade Profound Rank combat skill. As the person with the highest status in Lingwu Family, she had used this high grade Profound Rank halberd. This was truly a little too embarrassing!

"I heard that Long Chen even managed to cultivate an Earth Tier Battle Skill like the Dragon Battle Star Field! But, against my trump card, what is the Dragon Battle Star Field worth?" Azure Dragon Ancestor thought.

In fact, from the outburst of Innate Qi in Long Chen's body, Azure Dragon Ancestor could feel that he seemed to have Innate Qi close to the Milky Way Realm. Moreover, those blood-red scales appeared somewhat sinister and terrifying!

"No wonder this kid can surpass Yan Danqing and become the strongest warrior among the young generation!"

Beneath the sunlight, a blood-colored Long Chen, holding a green dragon halberd covered in green dragon scales, was charging towards Azure Dragon Ancestor with a loud bang. In that instant, it was as if Azure Dragon Ancestor was in a trance seeing a blood-colored dragon that could destroy the heavens and the earth!

"Impossible, an illusion appeared!"

Dragon only existed in legends. Azure Dragon Ancestor shook his head, shaking off this ridiculous thought, then he would deal with Long Chen's attack!

The sunlight today was especially intense, it even made one's vision blurry. Long Chen had his back facing the sun and the Azure Dragon Ancestor was facing the sun, so he was unable to open his eyes!

"Spirit Devil Sword Finger!"

In the process of charging forward, two streams of resplendent Sword Qi hacked towards Azure Dragon Ancestor. After releasing the Sword Qi, Long Chen suddenly swung the green dragon halberd in a huge circle, spinning and slashing out. Immediately, the howling green dragon image hacked towards Azure Dragon Ancestor!

"Azure Dragon Battle Method, broken yellow spring, Azur!"

Under the Spirit Devil Sword Finger's cover, the green dragon halberd was the main attack, and in that instant, the Azure Dragon Ancestor was facing such a huge attack!

Before, they only thought that Long Chen was someone who dared to try his best, but from the looks of this battle, they could see that Long Chen seemed to be very violent!

"Azure Dragon Battle Method, do you think that only you know it?" The Azure Dragon Ancestor sneered.

Chapter 268 - Nine Revolving Fire Shield

As Long Chen used the green dragon battle skill to rush towards Azure Dragon Ancestor, the battle skill in Azure Dragon Ancestor's hands danced crazily, the true qi belonging to Milky Way Realm also erupted loudly. Immediately, a huge wave from the galaxy surged towards Long Chen, almost knocking Long Chen away!

"Not good, I've still underestimated the power of Milky Way Realm!" This majestic energy, seemed to carry the power of the heavens and earth, it was sharp and vast. Just the impact itself made Long Chen unsteady on his feet, the attack in his hands was also affected!

Indeed, the difference between the big realm was much larger than the small realm. It could be said that Long Chen had caught up to the Azure Dragon Ancestor in terms of Innate Qi, but there was still a huge gap in terms of realm!

"Azure Dragon Battle Method, broken yellow spring, Azur, Break!" At this time, the Azure Dragon Ancestor also crazily danced with her green dragon halberd. Streams of star power were continuously channeled into the halberd in his hands. After that, he let out an explosive shout, and faced Long Chen's attack, and loudly attacked!

"Die!"

Rumble rumble rumble!

The moment their weapons clashed, a series of explosive sounds rang out! Suddenly, outside Source Spirit City, yellow sand flew! The crowd on top of the city wall stretched out their necks to look. There were curses made by the crowd everywhere. The city wall was only a tiny part of it, and only a few people could be seen clearly.

"How is it? Is anyone dead? Then was Long Chen hacked to death? "

"You're the one who got hacked to death! Squeeze your mother! "Damn, who stole my Cosmic Bag!?"

"What?" Long Chen was already dead? "So fast!"

The noise and liveliness on top of the city walls were even more intense than those below the city walls.

At this time, Long Chen was facing Azure Dragon Ancestor's storm-like attacks, and he had to admit, Azure Dragon Ancestor was indeed an extremely difficult opponent to deal with.

"This kid, how can he understand the power of Milky Way Realm?" Inside the city gate tower, many people were sneering, and Dongfang Xuanfeng's face was also full of joy, of course, this was also within his expectations!

However, even though Long Chen was being suppressed, he was not afraid.

The True Dragon Nine Flashes beneath his feet continued to move crazily. In fact, Long Chen had continuously used the True Dragon Nine Flashes twice, and had already moved eighteen positions. To be able to use the True Dragon Nine Flashes to such a degree, showed his exceptional talent!

In the last flash, Long Chen blocked the attack of the Azure Dragon Ancestor and rushed to the side of the Azure Dragon Ancestor.

"An insignificant skill!" The Azure Dragon Ancestor sneered. Although the battle skill in his hands was ordinary, after imbuing his Milky Way Realm with power, it actually erupted with a light more violent than a green dragon halberd's. Every time it clashed with a weapon, it would be able to shatter the green dragon halberd!

"The outcome isn't certain yet, you old ghost young master is bragging in front of me!" Long Chen bellowed, the battle skill in his hands danced crazily, at the same time, he kept on using the Nine

Dragons Flash under his feet, changing his figure. With such an unpredictable attack, even the Azure Dragon Ancestor had to deal with it seriously!

Time gradually passed by. The battle that everyone thought would instantly determine the victor had actually lasted for a very long time. This caused their hearts to become even more shocked.

It must be known that Long Chen was not even twenty years old but he was only seventeen years old today. Yet, he was able to endure for so long in front of an expert like the Azure Dragon Ancestor, and even counterattacked. From this, it could be seen how monstrous Long Chen was.

"This Long Chen is truly heaven defying. It has been a long time since a genius like him appeared in the Source Spirit City?" From today onwards, Long Chen's name would spread throughout the entire Yuanling County. He would soon replace Yan Danqing as the number one genius, and everyone would remember him!

However, everyone had a trace of fantasies in their hearts. Would Long Chen really defeat Azure Dragon Ancestor? It was just like the black colored demon wolf that was under his command. At this time, even if Patriarch Xuanwu had a Black Tortoise Axe in his possession, it would still be in danger under the attack of the black coloured demon wolf.

He did not even use the mysterious Nine Hell Devil Ancestral Fire, and only relied on his demon power and Sun Devouring Demonic Wolf combat skills to wear down the Patriarch Xuanwu's battle power. In terms of demon power, he was a level higher than the Patriarch Xuanwu, so naturally he could suppress it.

On the other hand, Long Chen was much more intense.

"Dragon Battle Star Field!" The Earth Rank offensive skill, under Long Chen's crazy dance, smashed towards Azure Dragon Ancestor. In an instant, the tip of the halberd turned into tens of thousands of dragon silhouettes, enveloping Azure Dragon Ancestor!

"Dragon Battle Star Field, I have used it for more than ten years, and you are actually putting on an act in front of me?" Azure Dragon Ancestor laughed out loud, his movements were exactly the same as Long Chen's. He also used Dragon Battle Star Field, and everyone could see, Azure Dragon Ancestor's Dragon Battle Star Field, seemed to be more powerful in attack, possessing lethality!

Dang, dang, dang!

The clashing of weapons produced an ear-piercing sound of friction! The sharp voices made everyone cover their own ears, and they frowned as they watched the battle between Long Chen and Yue Yang!

"Long Chen is going to lose!" Someone screamed out when they saw Long Chen had actually been blasted flying.

Hearing the waves of praise, the Azure Dragon Ancestor laughed, holding his battle skill, he rushed towards Long Chen and spoke sinisterly: "Brat, it's time to determine the victor, die!"

At this time, Azure Dragon Ancestor unleashed all of his Zhen Qi. He was like a huge glowing object.

His body turned into a blur as he rushed towards Long Chen. The halberd in his hand dragged on the ground, creating clusters of sparks as it rubbed against the ground.

"Let me show you the strongest move that I have comprehended from the green dragon halberd. This is the strongest move that the previous generation's Patriarch had!"

After he finished speaking, his true qi crazily rushed towards the halberd in his hands, and a dragon's roar sounded out. At this time, the battle skill in his hands suddenly rose up, a huge green dragon soul suddenly rose, and swept towards Long Chen!

"Azure Dragon Battle Method, Soaring Dragon Nine Heavens!"

Long Chen was very familiar with this move, he had used it before too. However, the Soaring Dragon Nine Heavens Azure Dragon Ancestor was at least many times stronger than him, as though his Dragon Battle Star Field was not as strong as his opponent's, this was a pure difference in realms!

When the powerful attack from Soaring Dragon's Nine Heavens was unleashed, the crowd clamored and came over, letting out waves of pity. They knew, under the Azure Dragon Ancestor's powerful technique, Long Chen basically had no chance of surviving!

The Soaring Dragon was extremely terrifying. Even if it wasn't the effect of the battle, everyone felt their scalps go numb!

"Even with the Soaring Dragon Nine Heavens technique, it can be considered a consummate skill?" Long Chen laughed coldly, he knew that the Azure Dragon Battle Method had one final move, although he did not know how to use it, he knew, that was the strongest attack!

However, was this Soaring Dragon Nine Heavens in front of him really going to destroy Long Chen?

When Azure Dragon Ancestor used this move, those who had been to the Burning Sky Secret Realm before knew that Long Chen also knew this move. They thought that Long Chen would fight the Azure Dragon Ancestor head on, but this time, Long Chen chose to retreat!

He knew, even if he used the Soaring Dragon Nine Heavens, he would be blasted away until he vomited blood. Therefore, Long Chen did not hesitate, and when the Soaring Dragon Nine Heavens rushed towards him, he actually put down the green dragon halberd!

"Long Chen is committing suicide!"

Seeing this scene, everyone was stunned. Although they had no way of resisting, shouldn't they try their best?

An even louder noise swept across the city walls. Even the Ninth Prince sat up in his chair, his eyes somewhat puzzled as he watched this scene! When he saw Long Chen's passionate look in his eyes, the Ninth Prince knew that Long Chen definitely had tricks up his sleeve!

Just when everyone thought that Long Chen was courting death, Long Chen suddenly moved. He extended both his hands out, and slowly drew a circle on his chest. Endless zhenqi gushed out from his hands, and under the control of his hands, it began to spin non-stop. Gradually, it turned into a whirlpool of zhenqi!

"Nine Revolving Fire Shield, first round!"

The corner of Long Chen's mouth gently spat out these words, and then, his eyes lit up because at this time, the entire vortex of true energy had already completely formed. Then, with an explosion of true energy, it transformed into a flaming shield that had a diameter of more than two meters, blocking right in front of Long Chen!

"The second rotation!"

The Nine Revolving Fire Shield frantically spun, its speed becoming faster and faster. Every time it completed a rotation, the color of the flames would become much deeper! Before the coming of the Soaring Dragon Nine Heavens, Long Chen gritted his teeth, and finally completed his own limit!

"Nine Revolving Fire Shield, Sixth Cycle!"

During these ten days of cultivation, Long Chen managed to cultivate the Nine Revolving Fire Shield to the Sixth Cycle. However, the Nine Revolving Fire Shield was a battle skill of the Earth Stage Medium, and it was also extremely superior.

However, this Nine Revolving Fire Shield of his was enough to scare the Ninth Prince so much that he stood up. After seeing that it was indeed the Nine Revolving Fire Shield, his eyes narrowed, and no one knew what he was thinking. At the same time, Yan Danqing, who was watching the battle, was also stunned. He looked in the direction of the Ninth Prince, only to see that the Ninth Prince was completely ignoring him, and had no choice but to give up.

"How could Long Chen have a Nine Revolving Fire Shield?" This was the most doubtful point in the hearts of the Ninth Prince and Yan Danqing. Among them, Yan Danqing thought a little deeper, but when he thought of this point, his eyes became bloodshot!

"The Ninth Prince had said before, if Long Chen can defeat the Azure Dragon Ancestor, then give the fairyland godly guard to him. The Ninth Prince was indeed protecting him, and he even took my Nine Revolving Fire Shield, then gave it to Long Chen! Isn't this making it clear that he doesn't want me to become fairyland godly guard! The one who obtained the inheritance is obviously me, why would I let this dog stuff, Long Chen, off the hook! "

At this moment, the flames of hatred had been ignited in Yan Danqing's heart, and the grievances in his heart were already close to the verge of collapse. When he thought of how the results he had painstakingly obtained, were actually being taken advantage of, he wished for nothing more than to kill everyone else!

But, there was nothing he could do about it. The Ninth Prince was the Ninth Prince, and his identity and strength were all there, so what could Yan Danqing do? He could only blame all of the hatred on Long Chen!

And at this moment, an even louder clamor sounded out!

Chapter 269 - Killing the Azure Dragon Ancestor

The noise came from the fact that the Soaring Dragon Nine Heavens and the Nine Revolving Fire Shield had finally come to a head-on, pinnacle fight! Everyone originally thought that Long Chen would definitely die, but when he used the Nine Revolving Fire Shield, they all knew that there was still hope!

The vast dragon soars through the nine heavens, and the dragon image that was close to reality smashed onto Long Chen's Nine Revolving Fire Shield with a loud rumble!

Rumble rumble rumble!

With a series of explosions, a huge crater was formed on the yellow ground. Dust filled the air and flew in all directions, blocking everyone's line of sight!

The yellow sand danced wildly, and one could faintly see that the Nine Revolving Fire Shield was spinning crazily, as though it was grinded, completely dispersing the power of the Dragon Soaring Through Nine Heavens. The berserk energy directly smashed the surrounding ground, creating huge craters and causing more dust to fly into the air!

Although it was heavy, Long Chen was still overjoyed. This was because he realized that the Nine Revolving Fire Shield, which was purely used for defense, had the power to completely block the Soaring Dragon Nine Heavens, and the essence of the Nine Revolving Fire Shield laid in a spiral character. It was not a frontal confrontation, but rather, it used its rotation to pour the power of Soaring Dragon Nine Heavens out!

"How is this possible?" Azure Dragon Ancestor was shocked beyond words when he felt that his attack was completely in the air. His eyes turned blood-red as he howled crazily: "Long Chen, do you think you can block me like this? "Go and die!"

As he said that, he added in the true energy output and almost used all the true energy in his body to stimulate the attack! The rampaging energy directly pushed Long Chen back a few steps!

"Die?" Long Chen gritted his teeth and firmly blocked, not allowing his opponent to break through! When he felt that he was almost done, he actually let go of one of his hands and sucked the green dragon halberd from the ground into his own hands.

"Old bastard!" At this point, do you still not understand who the dead person is? " Long Chen shouted loudly!

When the Nine Revolving Fire Shield blocked the opponent's attack, Long Chen knew that hope was right in front of his eyes. At this moment, his eyes were filled with a cold smile, and that strange little blood-red vortex had appeared on his fine scales! A surge of suction force formed out of thin air.

"Devouring Blood Realm!"

At this time, Long Chen used the ability bestowed to him by the Divine Dragon's Inherited Blood! The blood red fog engulfed the entire Azure Dragon Ancestor, enveloping him within it! This time, Long Chen controlled the range of the Devouring Blood Realm, and only the Azure Dragon Ancestor dealt with him. As a result, the pressure of devouring the blood in the Azure Dragon Ancestor's body surpassed anyone!

"What is this?" Azure Dragon Ancestor, who was unleashing his all out killing technique, saw the surrounding blood red fog, and immediately turned pale from fright, turning pale from fright. At this moment, he suddenly felt as though his entire body's blood was boiling! The blood originally belonged to him, but at this moment, it did not seem to belong to him. It was wildly stirring his body, which was the most vulnerable part of a person's body.

It could even be said that as his vital energy and blood roiled, it had caused a backlash to Azure Dragon Ancestor, injuring his internal organs!

"Why is it like this!? Long Chen! Just what kind of monster are you!?" This sudden development caused the originally calm Azure Dragon Ancestor to let out an extremely shocked and frightened shout, causing the surrounding people's scalps to go numb!

Beneath the blood-red colored fog, they could only vaguely see the location of the Azure Dragon Ancestor!

"Old bastard, I won't say anymore. From the moment you let my darling Ling Xi'er sleep, I have already decided that I will definitely kill you, and the time is now!" Long Chen let out a cold snort. Right at this moment, he withdrew his Nine Revolving Fire Shield, used his body to block the remaining attacks from the Azure Dragon Ancestor, and then, he suddenly erupted with strength. The green dragon halberd in his hands released another wave of dragon soul, charging straight towards Azure Dragon Ancestor with a loud bang!

"Let you die under your most proud of move, Azure Dragon Battle Method, Soaring Dragon Nine Heavens! "Die!"

At this time, Azure Dragon Ancestor had already exhausted all of his true energy, and his entire body was almost imprisoned by Devouring Blood Realm. When he saw the green dragon image below him, he completely crumbled!

"Impossible!" How could I die in your hands! I can't accept this! He couldn't accept it! "Ahhh!"

The frenzied and desperate cries that Azure Dragon Ancestor let out before he died caused everyone to feel cold in their hearts. They could only watch helplessly as the green dragon image directly swallowed Azure Dragon Ancestor up, and then smashed him up into the sky before ruthlessly smashing him down to the ground with a loud bang!

Under the impact of the Soaring Dragon Nine Heavens, all the bones in Azure Dragon Ancestor's body were shattered, his meridians and organs were broken. After falling to the ground and raising a cloud of smoke and dust, he was already dead!

As for Long Chen, he put away his green dragon halberd, withdrew his Dragonsoul Transformation, and stood in front of Azure Dragon Ancestor, looking at him indifferently.

This scene caused the scene to remain silent for a few breaths of time. Afterwards, all sorts of noises and discussions broke out.

The minds of the people on the city wall were blank. Witnessing the birth of this miracle with their own eyes, everyone was somewhat confused. They looked at each other in dismay, and even their voices were trembling.

"Everyone, I'm not seeing things, right? Long Long Chen killed all of the peerless Rankers from Azure Dragon Ancestor?"

"It shouldn't be wrong. There's nothing wrong with my eyes. I saw it too!"

"Don't be silly, this is the truth. Long Chen is really the peerless enchanter of our Source Spirit City! Not even twenty years old, and he killed Milky Way Realm! "What does that mean?"

"A monster is the only word that can describe him!"

On this day, Long Chen officially became an existence which was a super hegemon of the Source Spirit City.

On top of the city gate tower, some were happy while others were sad.

With regards to Long Chen's victory, the Morning Star Merchant Union was the only power that rejoiced. Their opponents were all being weakened, and only they had nothing to do with it, which was also something worth celebrating. As for the Beast Soul Hall, it was very likely that he would lose his position in the fairyland godly guard and the City Lord's Mansion.

At this time, every single person of the Lingwu Family felt as if they had been struck by lightning and could not believe what they had just witnessed. However, the truth was still there!

Even though Azure Dragon Ancestor and Long Chen had an agreement that they would battle to gain understanding of the grudges, regardless of life or death, when Azure Dragon Ancestor died, most of them threw this matter out of the window and headed towards the city gate.

"Lingwu Family, do you want our clan to be exterminated?" At this time, the black clothed butler stood in front of them and said indifferently.

The word "extermination" caused the people of Lingwu Family to feel cold from their toes all the way to their heads. This cold word stopped them in their tracks and forcefully suppressed the anger in their hearts.

"Don't forget the agreement between you and Long Chen. As the number one family of Source Spirit City, you can't even make such a basic promise." The Ninth Prince's voice sounded in their ears.

All of the people from Lingwu Family felt their hairs stand on end.

At this point, although their hearts were filled with rage and hatred, they had no choice but to forcefully endure it. Azure Dragon Ancestor's death would be a huge blow to her.

From beginning to end, they didn't quite believe this truth.

Not to mention them, even the unrelated people would find it hard to accept this.

Everyone atop the city gate tower looked over, to see that the black colored demon wolf was howling towards the sky, and below it, was the Patriarch Xuanwu's unrecognizable corpse. A black ray of light was flying towards the Lingwu Family's direction, it was the Black Tortoise Axe.

"Fourth brother is also dead!"

This thunderbolt caused the people of Lingwu Family to completely lose their souls. Most of their faces were pale as they were supported by the people around them.

Now that the Lingwu Family had lost two of its ancestors, the glory of the number one clan in the Source Spirit City had completely disappeared. Everyone knew that it was the unknown Long Chen that had caused the fall of this colossus.

Shock and shock could no longer describe what everyone was feeling. They all had the absent-minded feeling that everything that had happened today was within their dreams. In their dreams, they witnessed the birth of a miracle.

This youth named Long Chen, from today onwards, his name would shake the entire Yuanling County!

No one had ever been able to rely on their own strength to move the super power of the huge city like the Source Spirit City, but Long Chen had done it!

"Your Highness, us siblings will go down to take my big brother and fourth brother home." The raspy voice of the White Tiger ancestor was a bit old.

"Go." The ninth prince lightly said. Today's Lingwu Family had already been completely defeated, and it was about time for him to leave early. If they stayed here, they would only lose more and more face.

Everyone was looking at the people of the Lingwu Family, silently cleaning up the corpses of the Azure Dragon Ancestor and Patriarch Xuanwu.

and Lingwu Family had long since reached the point where they were either alive or dead. The outcome of today was also only within his expectations. If Long Chen did not have to go all out, he would be the one getting the corpse cleaned up.

Therefore, he didn't have any sympathy in his heart. In this world, it was a very normal thing for the victors to be the kings and losers to be the bandits.

From the very beginning, the people from the Lingwu Family didn't even glance at Long Chen. They were already afraid of the youth's radiance.

Amongst the endless crowd, Yin Mengyao was hidden inside. She had watched this battle from the start till the end and in her hands, she was tightly clutching a piece of paper. This was the piece of paper Long Chen had left her with the news of Mo Xiaolang's survival.

Yin Mengyao had first read this letter, then heard that Mo Xiaolang had died. Today, she mainly came to see Long Chen, and even wanted to find an opportunity to ask about Mo Xiaolang's whereabouts. However, she now discovered that she was fundamentally unable to approach this youth, because his radiance was simply too dazzling.

"This Long Chen, is he the Long Chen who participated in the Inner Race's selection battle with me a few months ago?" Yin Mengyao felt like he was in a dream.

At this time, Yin Mengyao saw the Sun Devouring Demonic Wolf beside Long Chen.

"How can the eyes of this demonic beast be so pure? Why do I feel like I've seen it before?" Yin Mengyao was somewhat shocked to discover that.

Chapter 270 - fairyland godly guard

Yin Mengyao could see Long Chen, but she could not see Yin Mengyao at all. After defeating Azure Dragon Ancestor and killing him, the most important thing to do now was the matter of the fairyland godly guard.

The departure of the Lingwu Family represented the decline of a super power that had dominated the Source Spirit City for many years. But Long Chen was the rising star of the Source Spirit City. Of course, Long Chen would not stay in the Source Spirit City, this place was already not enough for him to grow.

Biyang Royal City should be such a place. The surrounding countries were around the same size as the Canyang Kingdom, and were far from the same size as the Ten Great Saints. However, the current Long Chen, was an unreachable existence, and around the Canyang Kingdom, there weren't any more formidable Demon Beast Mountain Ranges. Only the Biyang Royal City and the Inverse Wonderland were the most suitable places for Long Chen to go to.

Even if he did not become a fairyland godly guard, Long Chen would still return to one. The fairyland godly guard only gave Long Chen a legal status.

At this time, Long Chen had defeated the Azure Dragon Ancestor, and the shock that it brought to everyone still did not go over. Everyone was looking at the young man with calm eyes, and they all sighed in admiration!

In the history of the Source Spirit City, there had never been someone who could reach Long Chen's current level!

At this time, Primordial Emperor led the rest of the Beast Soul Hall to the side of the Ninth Prince. Their eyes were flickering as they looked at the Ninth Prince. They knew that the time for the Ninth Prince to make his decision had come. The most nervous of them all was Yan Danqing. In his opinion, fairyland godly guard had expended a lot of effort to obtain this, but now he actually wanted to give it to Long Chen. How could he be willing?

How could the meat that he had obtained be snatched away just like that, and then given to Long Chen?

At this critical moment, Long Chen raised his head and looked at the Ninth Prince on the city gate tower. He opened his mouth, and said word by word: "Your Highness, I have already defeated Azure Dragon Ancestor.

Before the Ninth Prince could say anything, Yan Danqing was the first to panic as he said with a gloomy face: "Bullshit! The one who received the inheritance of the Burning Sky Secret Realm was me, who do you think you are? "

"Of course I'm not a big deal, but you are my defeated opponent, so who do you think you are? What qualifications do you have to be a fairyland godly guard? Aren't you afraid that you'll embarrass the citizens of Source Spirit City by going to the Biyang Royal City? Everyone, am I right? " Long Chen said with a faint smile, then released his voice to ask everyone.

After defeating the Azure Dragon Ancestor, Long Chen had gained an unprecedented popularity, so when he said those words now, among the Source Spirit City, as long as there were spectators, most of them would cheer: "Right!"

"Make Long Chen a fairyland godly guard!"

Long Chen's current strength far surpassed Yan Danqing's. Even if he went to Biyang Royal City, he would be able to shine even brighter, and as for Yan Danqing, there was a large possibility that he would embarrass everyone there.

This earth-shattering roar caused Yan Danqing's face to turn ashen, and his entire body to tremble. Even the Primordial Emperor beside him had an unsightly expression on his face.

"Prince, since the rules have been set, I hope that you won't break them." "According to the rules, the person who obtains the inheritance of the The Devil Emperor of the Burning Heaven is Dan Qing." The Primordial Emperor said seriously to the Ninth Prince.

"Who said that only Yan Danqing obtained the inheritance?" Then, he turned around, looked at Long Chen with appreciation, and said in a clear voice: "Just now, Long Chen used the Nine Revolving Fire Shield, which was a famous offensive skill that belonged to the The Devil Emperor of the Burning Heaven. This also means that Long Chen also obtained the inheritance of the The Devil Emperor of the Burning Heaven, and Long Chen is stronger than Yan Danqing, so I have decided, the fairyland godly guard, is Long Chen!"

When the Ninth Prince said this, the people of Source Spirit City immediately cheered. Beast Soul Hall and Lingwu Family were the super powers of Source Spirit City, and they normally oppressed these civilians, but Long Chen was closer to them. Naturally, they supported Long Chen.

After finally becoming the fairyland godly guard, Long Chen heaved a sigh of relief. However, the news that the Ninth Prince had said that he had obtained the The Devil Emperor of the Burning Heaven's inheritance had made him a little worried.

"Nonsense, Long Chen didn't even get his hands on the Nine Revolving Fire Shield?" Yan Danqing said anxiously.

"Then where do you think his Nine Revolving Fire Shield came from?" the ninth prince retorted.

"You ..." Yan Danqing originally wanted to say that it was you who gave it to him, but the matter of the Nine Revolving Fire Shield and the other things being in the hands of the Ninth Prince had already been settled.

"Yan Zhibai, it seems like you don't want the City Lord's Mansion's location anymore, right?" He then smiled at Long Chen and said: "Come up, stand below, how are you acting?"

The Ninth Prince's words caused Primordial Emperor to shut his mouth completely. He knew that since the Ninth Prince had even said those words, there was nothing left to discuss about the fairyland godly guard anymore. However, it was a good thing that he still had the position of City Lord's Mansion. Only then did he feel slightly comforted in his heart.

Primordial Emperor had lived for so many years, he naturally knew when to lower his head.

However, Yan Danqing did not know that when he heard about the matter of the fairyland godly guard from his own ears, his breathing had become heavier and heavier, and his eyes were bloodshot. If not for Primordial Emperor stopping him, he would have lost his mind.

"Dan Qing, let's go back." After saying this, the Primordial Emperor cupped his hands towards the Ninth Prince and said: "Your Highness, since this matter is over, we will take our leave first."

"Yes." The ninth prince didn't even look at him and nodded. In the Ninth Prince's eyes, the value of a Primordial Emperor was not even a tenth of Long Chen's.

Primordial Emperor's expression was calm as he led the rest of the Beast Soul Hall to leave. When he turned around, his eyes flashed with hostility and killing intent. Today was the most aggrieved day of his life, and the one who caused it, was Long Chen.

It was only after they had walked down from the city gate tower that Yan Danqing and Primordial Emperor recovered from their anger. Primordial Emperor said with a tinge of emotion: "Danqing, this time it's grandfather who's useless.

"Grandfather, I'm fine." Yan Danqing said in a bland voice. No one knew that under his calm demeanor, he was concealing such a divine rage.

At the very least, we have the authority of the Source Spirit City. From today onwards, our Beast Soul Hall will flourish, and at that time, you will be able to get more resources! Surpassing Long Chen is also not a dream! " Primordial Emperor affirmed.

"I know, grandfather. I want to go and relax by myself to calm my mind. You can go back first." Yan Danqing said.

He nodded and said: "Go, remember to come back early. From today onwards, I will personally guide you on the way, I have already prepared enough Tianhe Dan s to help you break through your Milky Way Realm!"

"Yes!"

It was true that he wanted to find a place to calm down, so that he would have the mood to continue training. In fact, within the entire Source Spirit City, there weren't many people who had seen Yan Danqing's true appearance, so for a moment, no one recognized him.

Suddenly, Yan Danqing saw a beautiful figure within the crowd.

"Before I entered the Burning Sky Secret Realm, I had carefully looked up the information on Long Chen and Mo Xiaolang. Isn't this woman their foster sister, the Yin Mengyao who belongs to the outer clans of the Lingwu Family?" Seeing that this girl was actually alone, the hatred in Yan Danqing's heart started to roll once again, little by little.

"Grandfather gave my sons and mothers Jade Fire Crystal to me. Last time, Burning Sky Secret Realm did not use it, so this time, it should be. Long Chen, you're being ruthless to me, so don't blame me for being ruthless to you!"

After Beast Soul Hall left, the people of Morning Star Merchant Union all knew that it wasn't proper for them to stay here. Then she took her leave. However, their emotions could not calm down for a long time. On the way home, tens of thousands of people were discussing about Long Chen's achievements today, and the battle that happened outside Source Spirit City today, was sweeping across the entire Source Spirit City with a speed that could not be overheard, and then, through the mouths of merchants, it was spread to other places.

At this time, Long Chen was standing in front of the Ninth Prince with the little wolf.

It could be seen that not only was the Ninth Prince's identity and strength, even his brain and intelligence were extremely high. Long Chen admitted that he was no match for him, and his heart was filled with fear, but that did not mean that he was afraid.

"This Ninth Prince is able to make me a fairyland godly guard. He clearly values my potential. However, a place like the palace was a gathering place for conspiracy in this world. People who grew up in this kind of environment were more or less, and their thoughts were more or less difficult to figure out. "Luckily this ninth prince has no enmity towards me." Long Chen thought in his heart.

"Long Chen, I want to ask you a question. Nine Revolving Fire Shield, where did you get it from?" The ninth prince went straight to the point. Seeing that no one was around, he immediately asked this question.

"I discovered this battle skill on the walls of the The Devil Emperor of the Burning Heaven's mausoleum. It was in the sea of fire outside the mausoleum." Long Chen pretended to hesitate before saying it again.

Regarding this, before Long Chen used the Nine Revolving Fire Shield, he had already thought about it. He insisted that it was like this, could the Ninth Prince still search his Cosmic Bag?

"So that's how it is ..." The ninth prince laughed, as if he believed his words. He sized Long Chen up from head to toe, and said: "All kinds of battles are not bad, and the talent to cultivate techniques are also not bad, and your weapons are not bad either. There are also Earth Rank pets, but their Zhen Qi realm is still a little low.

Long Chen secretly remembered, this was the Ninth Prince's evaluation of him.

What I value is your potential, fairyland godly guard belongs to the entire Imperial Family, and belongs to my royal father. However, don't you think that in the fairyland godly guard, there are a few of my

trusted aides who can some small news that would be a very wonderful thing to do? "" Yes, my lord.
The ninth prince smiled faintly.
