

War God 2611

Chapter 2611 - The Celestial Pole of the Martial Way

In actuality, out of the several tens of divine gods present, all of them had some doubts about Long Chen's fighting strength, and they all wanted to know, what his true level was. Even the Infernal King himself wanted to know.

Long Chen was different from Mo Xiaolang, so it was very easy for him to understand Mo Xiaolang's realm. Moreover, he even cultivated the Infinite Divine Art, which shockingly achieved the divine power called Genesis, and was even superior to the numerous Divine Monarchs present here. Most Divine Monarchs did not have the qualifications to obtain the 'Genesis' Infinite Divine Art.

Mo Xiaolang being able to obtain Yan Jun's Infinite Divine Art was also considered luck, after all, other than the Pure Sea Realm, this was one of the biggest treasures in the Lingsu Star Sea.

After more than two years of training, as long as Mo Xiaolang managed to gather more than ten types of divine flames, he would probably be able to complete all of these nine sets of secret arts.

Right now, this Martial God whose cultivation was on par with the Sacred Masters and Yan Jun, who could have been even stronger than him, was standing right in front of him.

When Long Chen was still in the Three Great Imperial Domains, he knew that this divine being was related to the True Martial Imperial Palace. He never would have thought that one day, he would have such a chance to battle against an existence that seemed like the heavens and the earth.

At this moment, almost all the divine beings were looking at him, their eyes flashing with an unfathomable light. To defeat the Heavenly Demon Ji was something Long Chen had said himself, if he did not personally prove that he had the power, then the number of divine beings he truly believed in would be few and far in between.

A rising junior should have a sense of crisis in his heart after they returned.

Thus, the War God's attack represented the will of all the divine beings present, including even the Infernal King.

"No, no. As an elder, how could you bully the young?" Long Chen is the only divine being that has been born in the history of our human race for tens of thousands of years. The Infernal King said with a straight face.

Even if the Infernal King had helped them today, the gods would not be so easily convinced. They actually wanted to see just how strong he was, being able to defeat the prodigy of the Heavenly Demon Age in his weakened state. After all, it seemed that he did not even have the ability to become a true god.

It's just a spar, obviously I won't be injured. Furthermore, I have admired the Martial God for a long time, so having the chance to communicate with him today is a great surprise to me. Since that's the case, I must seize this opportunity and ask the Martial God for guidance. "

The Gods never thought that Long Chen would be so brave and straightforward.

In reality, Long Chen was really grateful to them. At least they were unable to find a Divine Monarch with Perfection, or even stronger. Although the War God was a fairly important deity in his life, when he truly reached this level, this guy who had become a Deity tens of thousands of years ago was nothing more than that.

The Infernal King clapped. "Indeed, you are worthy of being a young person. You have great courage. Not bad, you really suit my taste. Since that's the case, then enjoy your battle. Remember, don't lose face."

The last few words were said to the War God.

When the Infernal King and the two of them agreed, the crowd dispersed. Right above the Dragon Sacrifice Continent, the Martial God had already locked onto Long Chen. At this moment, Long Chen was facing a Divine Monarch.

When a Divine Lord at his peak condition was at his most powerful, naturally it would be extraordinary. The War God was a Deity, after all. As far as he was concerned, he was quite powerful.

At this moment, the War God stood horizontally in the air. Golden light covered his body, and it was as if a golden sun were erupting with layer upon layer of dazzling light.

It was as if the other gods had hidden themselves, and the only thing that remained in Long Chen's eyes was the Martial God.

Mo Xiaolang also retreated. He knew that since Long Chen had agreed to it, he must be confident. The current situation was different. A mere Martial God should not pose any threat to Long Chen. The greater reason for this battle was to stabilize Long Chen's position among all the Gods here!

Integrate with them! Become one of them!

The premise must be a strong power!

Everyone in the Dragon Sacrifice Continent could feel the will of this warrior, and they deeply bowed down to it. With the display of the might of the gods, instantly, countless people kneeled on the ground, continuously shouting and kowtowing.

Any one of them could influence the gods of life.

The War God's voice was like Hong Zhong as he said: "I have been a god for eighteen million and five hundred thousand years. Now that I have cultivated the 'Sacred Martial Sovereign's true scripture', I can cultivate the divine origin energy of the prehistoric level! It possesses the power of 38 different laws and possesses several Divine Monarchs' rules. Are you ready? "

After all, it was just a spar, and the other party was extremely polite.

Long Chen should also be introducing him like that, but he really had nothing else to say, so he could only say: "I have not cultivated the Infinite Divine Art, and only possess the Divine Source Power."

"Although I have gained a great advantage, those who can defeat Ji Yuan Sky Demon must have amazing abilities. Therefore, I will not be polite."

The War God's sonorous voice rang out in all directions.

Everyone seemed to understand that he actually wanted to exchange pointers with Long Chen! To most of the people in the Dragon Sacrifice Continent, they knew Long Chen. They knew that he was an existence that had saved the entire world and was also one of the returning gods.

Right now, it was an era where the gods ruled. The gods were no longer as mysterious as before, but even more majestic!

Weng! *

The War God attacked.

Because it was of such a high quality, it was completely suppressed above Long Chen's Divine Source Power. In terms of the number of strengths, the difference between the two wasn't really that great, but the difference in the quality was just too great, so on this level, Long Chen was completely unable to compare to him.

"Heavenly Mystery Realm!"

When the War God made his move, he immediately used a Divine Lord level rule to test Long Chen's strength, at the same time, he was also taking the initiative to gain the upper hand. When he activated the Heavenly Comet of the Martial Arts realm, all the places that were covered by his divine Martial Arts Origin Energy underwent an astonishing change.

To Long Chen, every single place he could reach was all within the Heavenly Marking Realm.

BOOM!

Long Chen came to another world. The entire world was filled with golden words, the words were not big, they were densely packed, and the entire Heavenly Comet of the Martial Arts Realm was filled with these golden words. Every word was like a golden little person practicing martial arts, different ancient characters were all demonstrating the same kind of martial arts.

Ha! Heh!

A voice as strong as Hong Zhong's echoed throughout the entire Heavenly Comet of Martial Arts.

Every time he released an attack, the world would shake, and the limitless power released by the attack would cause Long Chen to tremble violently. Of course, this was only the beginning!

Long Chen quickly moved, but he was still unable to leave the Heavenly End of the Martial Arts realm in a short period of time, so he seemed to have nowhere to run.

"The War God is indeed quite interesting."

He couldn't help but sigh.

Indeed, none of the seventy-two Divine Spirits were weak.

Right at this moment, within the Martial Extreme Heaven Realm, tens of billions of words quickly gathered and formed a gigantic and boundless character giant in the sky. It looked like a Martial God, opening its enormous palm and slapping it towards Long Chen!

This was a fatal rule!

Although it hadn't arrived yet, it had already sealed almost all of Long Chen's space. It was to the extent that if he were to escape, the attack of the Heaven's Extreme Martial Stage would land on the Dragon Sacrifice Continent, and that would definitely cause incomparable damage!

Even the world that he had painstakingly restored might be destroyed.

"I can only take it head-on?"

In that short moment, Long Chen had such a thought flashing through his mind.

The might of a Divine Lord was extraordinary. The War God was a divine being that could be learned a lot, so Long Chen naturally did not want to end the battle so quickly.

He closed his eyes, and suddenly rushed towards the giant palm formed by the golden characters without any reason. In the instant he made his move, the plain sword already appeared, before he had become a god, Long Chen's biggest reliance was on these two weapons!

Su Jian slashed out!

The Sword Qi tore apart the most stable space and collided with the huge palm. This was the sharpest, most berserk sword aura Long Chen had ever seen, it had the power of a god of slaughter, and was even more direct and brutal than wargods.

"Break!"

With another sword strike, the Heavenly Comet of the Martial Arts Realm shattered and completely disappeared.

The entire world filled with pressure was torn apart by Long Chen!

"This seems to be a Creation Divine Equipment with Genesis above that level, maybe even higher! How could he have such a thing! "

The eyes of the gods were so sinister, they were able to see the plain sword in Long Chen's hands.

However, they probably did not know of the Su Sword's origins.

Furthermore, they were also very curious about why Long Chen was able to use such a divine weapon with his current strength.

In reality, Long Chen had borrowed Ling Xi's blood, otherwise, he would not have been able to relax. The most terrifying thing was that both the spirit sword and the plain sword had appeared together, but without the power of the masses to support him, he was unable to do so for the time being.

However, he was confident he could defeat the War God if it were only the Light Sword!

BOOM!

The two of them separated. In their first clash, Long Chen had the upper hand.

"Good sword!"

The War God couldn't help but sigh, but he didn't panic.

The nearby gods were all incomparably envious, and even the Infernal King felt a bit oppressed.

"It seems like the reason why this boy is so mystical is because of this sword."

Although the Martial God did not succeed in his first attack, it had successfully triggered his desire to fight. He was someone who would become stronger if he met a strong opponent. The failure of the Heavenly Comet of the Martial Immortal Realm had caused his desire to fight to increase!

Chapter 2612 - Little Divine Emperor

At this moment, the War God's body erupted with an even stronger light. A grand, imposing, domineering, and full of shocking armor, it enveloped his entire body, the golden armor was naturally a Creation God Equipment, with a golden lion head on each of his shoulders and chest. The golden eyes were extremely lifelike, with the power to swallow the world, dominating the myriad worlds, much more terrifying than the half of the Divine General's armor, and it was even more tyrannical and violent than Yan Jun's Flame God's armor!

The War God had begun to fight.

"This fellow's fighting spirit is truly terrifying, in terms of his obsession with martial arts, he surpasses all other gods. In a lifetime of fighting, he lives a life of martial arts, and is one of the most obsessed with martial arts. Now that he has used the 'Three-Headed Lion God Armor', I believe he will also need to use the 'Three-Headed Twin Blade Divine Halberd'!"

Although the level of the Three-edged and Two-Edge Divine Trident is inferior to Long Chen's sword, the War God has already become familiar with it since it has been in his possession for ten million years. He was able to unleash two hundred percent of its power, and also have the 'Three-Headed Lion God Armor' as a guard, to fend off the enemy's sword beams.

Before continuing to fight, the eyes of the Gods had already roughly guessed the outcome of the battle.

It had to be said that the War God, together with these two Divine Creation Equipment, was much stronger than Yan Jun. Back then, the three devils had combined their powers to deal with Yan Jun.

Long Chen also saw that the Three-edged Twin Bladed Divine Halberd was similar to the Supreme Divine Emperor Halberd. The Good Fortune Heroic Spirit was a three-headed golden lion, it was obvious that the two Dao Artifacts shared the same origin as each other and could unleash an even stronger power!

In the blink of an eye, he had already traversed hundreds of miles to reach Long Chen. With his armor protecting his body, he struck with his halberd, and the War God was skilled in close combat. Under the barrage of attacks, Long Chen was simply dazzled.

"Paragon martial arts extermination technique!"

This time, it was bestowed upon the three-pointed, two-edged halberd. The three golden lions roared together, appearing exceptionally tyrannical, and with each roar, they intimidated Long Chen's primordial spirit. The three-pointed, two-edged halberd was like a lion as it continuously bit at him.

The combination of these two creation artifacts was truly a great blow!

"The Sea of Chaos!"

Therefore, although the War God's attack was fierce, it was completely blocked by. It was just that under the opponent's extreme close-combat strength, he was constantly being suppressed, and did not even have the chance to retaliate!

After all, the consumption of the Pure Sword was too great.

The War God's fierce attacks continued for a full fifteen minutes. From the extreme east side, he forced Long Chen to head west, and wherever he went, the world, which had become stable, still trembled violently. The impact of the battle was growing greater and greater, until it shocked almost all the living beings in Dragon Sacrifice Continent!

One could tell that most of the gods had thought that he was only hanging on with his last breath, that he was about to be defeated.

"Just relying on the strength of a Divine Weapon once or twice is indeed effective, but in the end, it's not my true strength. If I want to use it to the point where it's invulnerable, it won't be easy."

"It seems that after the Heavenly Demon has been imprisoned for tens of millions of years, he really won't be able to do anything. It's truly laughable that he would be doomed to die with such a divine creation."

Seeing the War God display his might, they chatted and laughed merrily. They were extremely relaxed, and the more they watched, the more they realized that the War God had almost locked down the entire battle.

In this battle, Long Chen learned a lot of things from the Martial God. The cultivation paths of the two were similar, the Martial God and the Battle Demon were different, the Battle Demon was ruthless and brutal, but the Martial God was open and upright, imposing and grand. He cultivated the purest of martial arts, although the Battle Demon was stronger when they were at their peak, the Martial God's positive influence on Long Chen was even greater.

At this point in the battle, he had a basic understanding of the War God's battle-style.

From his words, they could tell that Long Chen no longer had any mysterious feeling in their hearts. He was just a lucky person who was lucky enough to get such a terrifying God Creation Art.

"If he were to leave that Creation God Creation Artifact, he might not be anything at all."

Just as the Titan God General finished speaking, Long Chen blocked one of the Martial God's attacks and was blasted flying, instantly flying over five hundred kilometers!

The War God appeared in front of him in a flash.

Long Chen closed his eyes, with the plain sword in front, he activated the power of time. This was a power that he had accumulated for a long time, it was channeled into the plain sword, and it could be considered to be the greatest primordial force of the plain sword, causing the fusion between the two to release the strongest power of the plain sword!

"Time Breaks!"

In that moment, Long Chen opened his eyes.

The strange power of Time Break had transformed the plain sword, the Sword Qi, and even raised the incomparably ferocious Sword Qi to a whole new level. In the midst of its formlessness, it magnified Long Chen's power of Time Break!

This power, under Long Chen's sweep of the sword, surged out from the white sword. It was not strange at all for the energy to break through time, to the extent that even the gods were not aware of it. Only the Martial God in close proximity could feel this extremely majestic power of time!

This strength made him suspicious. With victory in his hands, he obviously didn't want to capsize in the sewers. He quickly used his armor and the trident to resist at the same time!

In that instant, time itself ruptured and the War God encountered!

Weng! *

The power of the sword penetrated through the trident and the three Royal Lion Divine Armor, shaking the power of the Martial God. In the three breaths of time that he lost time, he had lost most of his divine martial arts source energy! That was his foundation, but it was gone!

In that instant, the War God's expression changed. From an incomparably domineering air to a pained pallor!

Swish!

When he recovered from the three breaths of time, Long Chen had already pointed his simple sword at the center of his brows. He could have activated the Sword Qi, or at least heavily injured the Martial God, but he did not do so.

When he slowly lowered his plain sword, packed it up, and said "Yes", not even the other gods were able to recover from that split-second, because Long Chen was just too fast at that time, and did not seem to be real at all.

However, since everyone present was strong, they could tell with a single glance that Long Chen had scattered more than half of the Martial God's divine martial arts source energy through the use of time energy. In a situation where he lacked power, it was no longer possible for him to defeat Long Chen!

The truth was, Long Chen had won!

However, turning a defeat into a victory in an instant was indeed hard to accept. The Gods were previously smiling, but now their smiles froze. Everyone was extremely embarrassed.

Especially for the Giant Spirit God that had just finished speaking, it was as if he had been slapped in the face.

After a long period of silence, applause rang out. The Infernal King grinned with his pure white teeth and clapped: "Very beautiful, very wonderful, the Time Rules of one move is unprecedented, world-shaking. Just this one move alone is enough to suppress all of the War God's Divine Monarch's rules, the perfect use of the Time Rules and Creation God Equipment, and reach the peak of perfection. Everyone, now do you understand how Long Chen defeated the Primal Heavenly Demon?"

The Infernal King swept the Gods with his gaze.

The War God came to his senses in the air and said solemnly: "I have lost this battle without any complaints. Since ancient times, a young hero has appeared out of nowhere, but this young man dared to rush into a devil star and fight against a group of devils, and he defeated them one after the other. He was even able to sacrifice himself for the sake of righteousness, to protect all living beings and to become a Primordial Demons at all costs. Next time, if there's someone who encourages you, I won't challenge you. "

With that, he returned to his seat.

All living beings could hear his words.

Before, he had heard the other Gods talking loudly, claiming that Long Chen was going to lose, so now, all living beings were confused, was this Long Chen that powerful? Not only did the War God admit defeat, he even accepted his defeat wholeheartedly?

After experiencing the deathly silence, the people living within the divine realm began to cheer for Long Chen. Although the gods were strong and had changed the world, in their hearts, Long Chen was still closer to them.

From the looks of it, they were convinced. At least, those whose strength was not even comparable to the Martial God would not dare to take an elder's stance when they were looking at Long Chen, taking advantage of their age and age.

This was the reason why Long Chen welcomed this battle.

Prestige.

If one wanted to integrate with them, they could not be insulted. They should be strong at the right time in order to gain the respect of others. He believed that after this battle, his status would only be higher.

The Infernal King seemed to be more satisfied with himself.

"Alright, the sparring is done. Go back."

Just as he said this, the Infernal King was stunned and changed his tone, "Don't be in such a hurry to leave, come with me back to the Hell City." Little Divine Emperor summoned us. "

"Little Divine Emperor?" Everyone's face immediately turned pale, feeling somewhat unnatural.

"Long Chen, for us, this is considered your first time here. Since little Divine Emperor is here, you must go and see him." The Infernal King said.

Although Long Chen was puzzled, he nodded.

"Aren't the Inferno Divine Kings and Divine King of Light the only two that have returned? Who is this little Divine Emperor? Looking at the Infernal King's respectful and somewhat helpless tone, it couldn't be that the little Divine Emperor's status was higher than his? Amongst the returned gods, this little Divine Emperor is the scariest? "

Long Chen could not help but guess.

As for who exactly this little Divine Emperor was, it was actually very easy to guess. It should be an existence that was related to the number one Primordial God, the Eternal Divine Emperor's Emperor. It could be his son or something. Not among the seventy-two, but strong.

The gods were on their way back.

The Infernal King said, "Little Divine Emperor has a bad temper. You must be polite when you see him. Don't go back on your words, or even I won't be able to save you."

Long Chen naturally understood, and said: "Don't worry, I won't be reckless. But, who exactly is this little Divine Emperor? "

The Infernal King said, "What do you think?"

"Son of the Divine Emperor?"

"Wrong, it's his daughter." The Infernal King grinned.

Chapter 2613 - Di Yao

"Daughter?"

Long Chen heaved a sigh of relief. No matter what, if this proud son of heaven was a man, then there was a possibility that he would feel hostile towards his. It would be better if he was a woman. There shouldn't be any big problems. After all, he wasn't the type of person who liked to cause trouble.

To him, the most important thing right now was to truly become a Deity.

Just like Mo Xiaolang, he had survived the calamity of the Gods and Demons.

Otherwise, in this era of gods, he had always felt that he was missing something, and now he understood that what he lacked was a sense of security. Although the Gods were very friendly, and when he displayed his strength, there weren't many people who were hostile towards him anymore. However, he did not feel safe because of this, but instead felt a strong sense of crisis.

Thus ... he desired to become a Deity at all times. He was always preparing for the final, final, Fiendgod tribulation to descend.

Perhaps, only by passing through the Great Demonic God Calamity and becoming stronger, would one be able to control the Spirit Sword and the Pure Sword, and be able to find the remnants left behind by the Sphinx for the two swords. As for now, Long Chen didn't dare act rashly.

The group hurriedly returned to the Infernal King. Originally, the gods were high and mighty, looking down on all beings from above while accepting the worship of all beings. However, their expressions were now filled with worry and fear. Even some powerful Divine Monarchs were the same.

"It looks like it's as the Infernal King said, this little Divine Emperor does have a bad temper. It's best if I don't stick out for fear of angering her."

Since a young age, Long Chen had always been proud even among the descendants of the warriors and families of small regions, not to mention this kind of daughter of the Zhi Zun. If one lacked discipline and grew up with a pampered personality, then it would be a disaster for anyone. After all, Di Jun was the leader of the dragon sacrifice's Gods, no one dared to go against him.

Thus, even the Infernal King was smiling helplessly.

Before long, they had returned to the Hell City. Before they could even get close, a few of the Hell City's Divine Generals were thrown out, their faces and bodies bruised and battered.

"Celestial King!" Upon seeing the Infernal King, it was as if the Divine Generals saw their savior. They hurriedly hid behind the Infernal King, and upon seeing their appearance, the gods couldn't help but shiver and take a few steps back, leaving the Infernal King at the forefront.

Long Chen also retreated a few steps, hiding in the crowd, using the attitude of watching a show, these gods were previously noble and proud, but now they were cowering and cowering, the gap between them was too big, it was extremely funny.

He and Mo Xiaolang looked at each other. Both of them understood that this kind of woman was the one that would be the most difficult to offend.

"The Infernal King!"

Suddenly, a crisp voice came from within the Hell City. It was easy to tell that the woman was very angry, and had been in a high position for a long time. Just saying these four words would make people feel like they were in hell, and a golden light would appear in front of everyone's eyes!

All the gods retreated in unison, lowering their heads in fear and trepidation. The dignity in front of all the living beings was swept away, and all the arrogance belonging to a divine being was suppressed by the young girl in front of them!

Long Chen did not know much about this Daughter of the Divine Emperor, so he did not feel much of it. He secretly took a glance at it and became somewhat shocked.

Honestly speaking, when a person's appearance is considered to be at the level of perfection, it would be difficult to differentiate between the two. However, there were some people who were different; they clearly had the same appearance, yet because of their identity, status, temperament, and other factors, they forged different kinds of beauty. It was an unforgettable experience, so much so that one would think about it day in and day out.

Ling Xi, Li Xuanji, Shui Lan Yan, and the others were all peerless beauties, bewitching people in the world. Being lucky the first time was already an astonishing amount of luck.

And the daughter of the Di Jun Divine Emperor, this position and bloodline, was destined to be the most unique and enchanting person in the entire world. However, unlike Ling Xi's ethereal, quiet beauty, Li Xuanji's cold and enchanting beauty, and Shui Lanyan's charming beauty, the girl in front of him was a noble beauty. And within this nobleness, there was power, dominance, sharpness, it caused others to feel reverence for her, and they did not have the guts to look her straight in the eye, let alone size her up.

Long Chen only took a glance and was shocked for a moment. He also lowered his head silently. From the first time he saw her, Long Chen knew that his imagination was too perfect. Although he was Di Jun's daughter, he would definitely not be easy to deal with.

In his memory, this girl was dressed in a golden cheongsam that fluttered in the wind. On her body were many jewels, all of them made by Chaos Treasures, and just her long skirt alone was already priceless. Both her appearance and figure were perfect. She still looked young, but her figure was impeccably beautiful. The most memorable were her pair of eyes burning with golden flames and her long golden hair, as well as the golden mark of a little bird on her forehead.

Even though she was wearing a golden color, her appearance was not grand at all. Instead, she was as delicate and beautiful as Ling Xi.

As for strength ...

This was the only thing that made Long Chen heave a sigh of relief. It seemed like this little Divine Emperor scared even the Infernal King, not because of her strength but because of her position and temper. Even though she was Di Jun's daughter, she should be around Taiyu Deity now. In other words, the Divine Monarch of the Perfection.

There were many amongst the various Deities present who were more powerful than her.

The moment this girl appeared, the gods all greeted her.

The little Divine Emperor aggressively arrived in front of the Infernal King and pouted, "I'm going crazy! This crappy place isn't fun at all. It's so big coming and going, and in less than two years, I've finished playing all over. I'm going to leave this place and hand my 'Golden Phoenix Divine Ship' over to me! "Hurry up!"

Judging from her voice and words, she should still have a childish personality. Even after becoming a Deity, she still had such a strong sense of playfulness. This was indeed rare. Long Chen raised his head and looked at her a few times. The biggest feeling in his heart was that regardless of whether it was her appearance, status, or temperament, this girl was the most superior woman in all of the Myriad Realms and was the desire of countless people.

The Hell God King gave an awkward laugh and said: "Ingrate Divine Emperor, I, Little Divine Emperor, have instructed me before he returns that you absolutely cannot leave this place. I also listen to Divine Emperor's orders, or else I would not dare to stop you.

This little Divine Emperor was called Di Yao, and seemed to be the daughter of Di Jun and the other mysterious Divine Emperor. This was what the Infernal King had told Long Chen before, but of course, even the Infernal King himself didn't know who the other Divine Emperor was.

Hearing the Infernal King's words, Di Yao was indeed furious. She raised her eyes as if she was about to spit fire, and angrily said: "You are afraid that he will kill you, aren't you afraid that I will kill you!? Accept your death! "

As she spoke, she really did make a move.

Long Chen also took the chance to escape. Raising his head, he saw that the little Divine Emperor in the sky had already started to attack, and as expected, he was worthy of being called the Daughter of the Divine Emperor. Long Chen couldn't even clearly see the rules he had set for the time being, since he was very strong, she would definitely possess countless of superior resources compared to the other gods.

After all, her parents were not only Di Jun, even the other person was the sole ruler of ten thousand realms.

Although this little Divine Emperor's beauty could topple all living creatures and his status was extremely high, making them desire his. If they could get her love, then they would definitely be destined to soar into greatness, but her tyrannical, powerful and unruly attitude caused the Gods to completely lose their heart. Even in the Ten Thousand Worlds, there weren't many people who would dare to show love to Di Yao.

The Gods could only protect the living beings below, while the Hell God King had immediately shrunk into a turtle. Without any retaliation, this battle had lasted for a short while before Di Yao stopped, her face full of spirit energy as she sneered, "I can't kill you, but I can destroy this broken world you built. I want to see if you will take out the Golden Luan Godship or not!"

Upon hearing these words, the Gods, who were initially protecting the living beings near the Hell City, suddenly scattered in a frenzy, not daring to stand in her way.

Di Yao sneered, her long skirt danced, faintly revealing her enchanting body. She descended from the sky, her hand was already holding on to the sun-like flame, smashing it towards the ground. If no one stopped her, then hundreds of thousands of people would die in her attack!

In the beginning, Long Chen did not really care about it, but now, she was actually going too far, these people were all followers of Long Chen's Divine Palace and were all his compatriots. In Long Chen's eyes, everyone was equal to him, he had never had the thought of the gods standing on top of him, and Di Yao clearly did not understand this point.

That was why when all the gods were fleeing in panic and looked extremely miserable, he couldn't help but charge a few steps forward. However, he quickly discovered that his movements were unnecessary as it was obvious that the Infernal King wouldn't allow the little Divine Emperor to do so.

"Whiz!"

He blocked in front of Di Yao, with a move of the power of laws, the little Divine Emperor seemed to have lost all of her power, the sun-like flame on her hands was also engulfed by the gray Qi.

It was a breathtaking moment.

Long Chen felt very uncomfortable in his heart. Honestly speaking, the return of the gods might be able to protect this world, but it also seemed that they would not be able to control their own destinies. The gods were simply too strong, and in their eyes, life was only a number.

"Little Divine Emperor, I think you will do this, so he told me to lock you up until he returns. But to be honest, I don't want to offend you at all, so I hope little Divine Emperor won't make things difficult for you, what about that?"

"Is that so?" Di Yao was probably mad with anger, instead of going berserk like before. Her smile turned extremely gloomy and cold, "Impossible, there will be a day when I will definitely not let you go." "Let me go."

The last three words were practically word for word.

The Infernal King felt helpless. After Di Jun had asked him to take care of this small problem, it was already a rather troublesome matter.

He had to let her go.

But this time, she did not continue to cause trouble, but had calmed down instead. Those fiery eyes of hers had already swept a circle around everyone, and all the gods lowered their heads, not daring to look her in the eye. Long Chen was the same, even the Infernal King had been forced to such a state by her.

However, the other party still noticed it.

In the blink of an eye, even though Long Chen's head was lowered, he was still able to see the long golden skirt full of Chaos Treasures dancing in front of his eyes. The opponent extended a finger and touched Long Chen's chin with his fiery hot finger.

"Raise your head."

Di Yao said as she lifted Long Chen's head.

Chapter 2614 - Indigenous

Long Chen simply lifted his head and looked the young lady straight in the eye. When he went closer to look, he saw that the other party did indeed have a suffocating beauty with flawless facial features. When combined together, it was even more miraculous and captivating, causing him to feel an intense desire to conquer his heart. That's right, she had this kind of temperament. The more noble and proud she was, the more people would want to slap her.

Long Chen's disgust towards this woman came from the fact that she was trying to force the Infernal King to attack the masses. This meant that in her eyes, the masses were like grass ants, and if that were to happen, then what difference was there between this kind of woman and the Primordial Giants?

On one hand, Long Chen did not want to cause trouble, but it seemed like trouble had already arrived.

The main reason was because when Di Yao made her move, Long Chen subconsciously wanted to stop her, but it was too late for other gods to hide.

His opponent's flaming eyes were looking at Long Chen and it made the skin on Long Chen's body turn black. His opponent possessed the purest power of a god, and was probably proficient in many different types of rules.

She used a clear yet cold voice to speak. "Who are you? I've never seen you before. Also, did you want to stop me just now? "

At this time, the Infernal King had already arrived beside them. In his heart, he should be very afraid of this little Divine Emperor, so he didn't dare to stand in front of Long Chen and asked, "Little Divine Emperor, he ..."

"Scram for me." Di Yao interrupted him, her eyes burning with passion. Although her strength was inferior to the Infernal King, that Daughter of the Divine Emperor's aura and respect had truly suppressed the Infernal King, causing him to shut her mouth.

"I'll let you say it yourself."

Di Yao looked at Long Chen.

Long Chen naturally understood that this woman was extremely angry. He had coincidentally bumped into her, so he reckoned that he would be in trouble this time ...

However, if the other party really were to make a move on all living things and the Infernal King did not stop him, he would not be able to continue watching. This was a matter of principle. Therefore, he had never regretted it.

With things having progressed to this point, Prometheus would instead be looked down upon by this woman. Long Chen on the other hand, was straightforward and directly said: "My name is Long Chen. As for all the living beings here, they are my targets and I do not wish for them to be killed innocently. "

Di Yao's head tilted, her killing intent decreased by quite a bit, she asked suspiciously: "Long Chen? Such a familiar name. You must be a native of this place! "Oh yeah, I remember now. Previously, they said that the person who defeated 40 Archaic Giant Demons, and even the Primal Heavenly Demon that was once as strong as my father, should be you!"

The aboriginals!

This form of address really made Long Chen uncomfortable.

He didn't think too much about it. Di Yao seemed to no longer care about him trying to stop her. Instead, she was very curious about his identity. "Indeed, it's me." I grew up here. All living things here are my compatriots. Just a moment ago, due to my anxiety, I didn't think it through clearly. This little Divine Emperor definitely only wanted to scare the Infernal King, so naturally, she wouldn't make a move against the masses.

Hearing Long Chen's words, Di Yao started to feel a bit embarrassed. He said, "You are right, I am not a cruel and merciless person. Since you are a native of this place, you should be very familiar with it. Come and play with me and show me if there are any other interesting places in this crappy place. "

Long Chen never thought that he would encounter such a thing.

Indigenous people? Take her to play?

This was a very dangerous person, the closer he got, the more dangerous it would be. Although her beauty would make many deities fall for her, her danger made all the other deities even more afraid.

"What? You still dare to refuse?" The fire in Di Yao's eyes started burning once again.

The Hell God King quickly reminded Long Chen. If Long Chen objected at this moment and her anger ignited, it would definitely be even more troublesome. If he could make his happy after playing with her for a few days, then it would be considered a merit.

Long Chen then nodded: "It is indeed my honor to be fortunate enough to be able to introduce the little Divine Emperor to my clan." That being said, he had a terrible headache.

"If that's the case, then come with me!"

However, very quickly, Di Yao heard it and frowned: "There are other people in your God Kingdom, let them go, I don't like it when others follow them!"

Mo Xiaolang had already followed him at this time, giving him a headache.

Long Chen opened his Divine Kingdom, allowing Su Yan to follow behind him. He said to them, "Go back and slaughter the Dragon City first. I'll be back in a few days. "

Although Mo Xiaolang was worried about Long Chen, Di Yao's temper was really bad, she should not be someone that could be discussed. He could only listen to Long Chen's words. Even though this girl's temper was bad, he could tell that she was only a little girl. Long Chen should be able to take care of her.

"One more!"

Di Yao looked at Long Chen angrily.

Ling Xi was pregnant so Long Chen had to let her stay by his side in order to feel at ease. He insisted, "Don't worry, she's very tired.

Little Divine Emperor said, "Alright, alright, stop spouting nonsense. Also, don't call me little Divine Emperor. It's so unpleasant to the ear, call me princess."

She did not continue to quibble with Ling Xi, but was relieved instead. Otherwise, if she insisted on it and insisted on it, it would be troublesome without end.

Looking at Long Chen and Di Yao getting further away, he shook his head and said: "It's been hard on Long Chen, this brat has a temper too. If the two of them were to get into a fight, it would be troublesome. Otherwise, it will be another disaster. "

The Infernal King clearly remembered the time when the little Divine Emperor was enraged. He still vividly remembered the disaster that happened back then.

Turning his head, Mo Xiaolang had already brought Su Yan and left the place.

"He really runs as fast as the Nuwa devils?" "Hehe."

To be honest, Long Chen really didn't know what Di Yao liked to play. Even though he grew up in Dragon Sacrifice Continent, he was only rather familiar with the Immortal God Realm and the Three Great Imperial Domains.

"Long Chen, where are you bringing me? Is it fun?"

After leaving the Hell City, the two of them headed towards the east. Di Yao welcomed the scorching sun and asked with excitement in her heart.

"Follow me and you'll know when you get there."

Long Chen could only say that, he was now thinking of a way, and Ling Xi in the God Nation was thinking the same thing, Ling Xi said: "This girl is truly annoying."

Long Chen said: "There's no helping it, right now we can only let her have fun, only then will we be able to escape, I will think of a way to tease her."

Not to mention that her own strength was enough to crush Long Chen, the power behind her was even more unreachable to Long Chen. Honestly speaking, before the return of the gods, Long Chen was already a great figure in the world.

To this little Divine Emperor, he was just an aboriginal.

Long Chen did not expect him to say this, causing Di Yao to become even more interested. Her eyes blossomed with a charming light, full of excitement as she said: "Really! I'm really looking forward to it. Just where are you bringing me to? If it's not fun, then I'll take your head off! "

She was just like a playful child, cheerfully dancing in the air, and she was especially bright under the sunlight. If you ignored her pampered personality, she was indeed an enchanting woman, and the aura around her that was similar to Ling Xi's was the purity she currently possessed.

But this was only a part of Di Yao.

Her mind and body were dominated to a certain extent by another kind of personality, and that was the tyranny and power that her status and position had fostered.

Long Chen could not help but have a headache. She was already looking forward to this, how was he going to deal with her?

"La !"

The girl shrouded in gold was just like a little golden bird under the sun, happy and simple.

Huala!

A pair of golden wings actually appeared behind her back. Compared to these wings, her body could be considered quite petite.

Those golden wings gave Long Chen a huge sense of danger. It was obvious that this was not Di Jun's bloodline, but another Divine Emperor!

"Long Chen, let's see who's faster! If you lose, I'll break one of your arms! "

She suddenly turned around and excitedly said to Long Chen.

"I'll go!"

A match was a match, and he also had to bet an arm. From this, it could be seen how cruel her character was. Perhaps, it was normal for her to mistreat others.

Long Chen did not speak anymore, and immediately used his fastest speed to charge towards the east. Seeing Long Chen's desperate look, Di Yao couldn't help but laugh like a silver bell. With a flap of his golden wings, he quickly surpassed Long Chen.

"Little aboriginal, you're too slow. Come and chase me!"

The golden light flashed for a moment, and then Di Yao disappeared in the blink of an eye.

Long Chen had risked his life for this woman, she was too crazy, he had no choice but to use all of his techniques to speed up, only then did he gradually catch up to her, but she was also deliberately slowing him down.

She flapped her golden wings, flying around Long Chen. She was extremely excited by Long Chen's serious look, and she enjoyed the feeling of this teasing. Under the situation where she was going to suppress Long Chen with absolute speed, she continuously said, "You are really slow, be careful of your arm.

Long Chen knew that she would definitely be faster, and said: "We must have an end point before we can compete!"

"You're talking about an end point." Di Yao said.

"There is a Black Jade Dragon's head in the east. That is the end of it."

"Alright!" The lady was like a bird flying beside Long Chen, laughing non-stop, just looking at her, she was still quite beautiful. Free and pure.

"If only she could be like this forever." Ling Xi said with a headache.

"Don't think too much. All of her personalities were cultivated from countless habits. Her status was so lofty that no one could affect her. The main thing is that there's no way she can change the existence of Di Jun. " Long Chen was very clear about this.

So facing this woman, he had to be very careful, and not let the current facade confuse him. What she said was true, if Long Chen lost to her, she would definitely make a move.

To them, it would not take long to go from the westernmost to the easternmost region of Dragon God Domain. Di Yao did not unleash her maximum speed, but had always been rolling around beside Long Chen, teasing him and laughing happily at the same time. To her, it was truly funny that Long Chen could not even compare to her appearance after using all his strength.

"I saw that Black Jade Dragon Head! "Goodbye, prepare an arm!"

She was prepared to increase her speed, surpass Long Chen, and win. Ever since she was young, she had never lost, and never thought that she would lose.

However, at this time, Long Chen had also suppressed it for a long time, and in just an instant, he had activated the sea during times of chaos to his greatest limit, instantly turning into a dragon. As he suppressed the speed of his opponent, the Divine Dragon Body grew bigger, and in an instant, reached the head of the Black Jade Dragon.

Chapter 2615 - Sick Treatment

When the Divine Dragon Body disappeared again and turned into Long Chen, he was already standing on top of the Black Jade Dragon. At this time, Di Yao had also just arrived, although the two of them had almost reached, but if there was a word between the front and the back, then Long Chen should have arrived first.

He turned around and cupped his hands. "I'm sorry, Princess. It seems that you can't take one of my arms."

Di Yao stood behind him, her anger soaring to the skies. Her powerful aura of a Divine Lord erupted forth as she spread her pair of golden wings, each of them flickering with a blade-like light. They were extremely sharp and lacerating.

"You cheated! You clearly should have arrived before me. Your speed is inferior to mine! You dare to tease me! You sure are bold! "

Di Yao was so angry that she was trembling. The twin peaks on her chest were also trembling. If one ignored the murderous intent that could burst out at any moment, she would look really adorable.

Long Chen had already expected that she would be difficult to deal with, and said: "Princess, you only said before who was faster, and who was the first to reach the head of the Black Jade Dragon. However, there isn't any limit. "Since we've already made the rules, we should play the game according to the rules. If we don't obey the rules, then the game will become boring."

To be honest, the other gods simply did not dare to reason with this little Divine Emperor, and only Long Chen was able to calmly face her. After hearing Long Chen's explanation, Di Yao was startled, and suddenly felt that it was very interesting, she did not expect Long Chen to be so daring, unlike the other gods who were only obedient in front of her. If Long Chen was also like that, she would have felt that it was completely meaningless.

However, her anger could not be avoided. She said, "Even if you know how to speak, it's not right to offend me. You have to slap yourself and admit your wrongs. "Forget about the arm, today's your win."

It had to be said that this fellow was truly difficult to deal with.

At this time, she was truly loathsome to Long Chen. She was self-righteous, unreasonable, and unreasonable, making it hard for Long Chen to communicate with her. However, if he continued to go against her, it would only become even more troublesome. Long Chen knew clearly in her heart that this was already the bottom line she could bear.

Ling Xi had no other choice. She was very angry, of course she did not like the man she liked.

"Hurry up and fight!"

Di Yao was impatient, Long Chen was too stubborn, causing her noble heart to feel uncomfortable.

In reality, it could be solved by a roundabout way. For example, at this moment, Long Chen had lightly touched his face with his palm, and said: "Sorry, it won't happen again."

Seeing that he had completed the task with a smile on his face, although he had only pretended to hit him once, at least Di Yao had a way to beat him up. She giggled and said, "You are really interesting. I let other people slap themselves, and they all want to beat themselves to death.

"This girl is too pampered and lacks discipline. If there was a father of the Divine Emperor, he would have been killed by her sooner or later. He would have probably received the appropriate lesson for his pampered and domineering nature."

In Long Chen's eyes, she was just a child. Since she was young, no one had dared to go against his, which was why she was like this. The only reason she didn't pursue the matter with Long Chen was because he found Long Chen to be interesting.

At this time, she sat down on the Black Jade Dragon's head, swinging her feet and humming a little tune. Her bright golden eyes looked to the east, and under the sunlight, her skin was filled with a charming luster.

"If this girl is like this, she would be rather cute." Ling Xi had a lot of enmity towards her. Firstly, it was because she was beautiful, and secondly, it was because she was bullying Long Chen.

"Indigenous, come here!"

After being quiet for a while, she waved her hand, looking down on Long Chen's name.

Unfortunately, whenever she thought of her father, everyone in the entire Allworld would be terrified.

Long Chen sat down beside her.

"You said you would take me to a wonderful place. Where exactly is it? Could it be here? This is the crappy thing?" She pointed at the head of the Black Jade Dragon and said.

Long Chen said: "This is not a simple thing, it is filled with secrets. From the time it was passed down in the The Age of Dragons until today, no one has been able to destroy it, and no one knows what it actually is. Don't you think it's funny? How about, you try it? "

Hearing Long Chen's words, Di Yao's eyes immediately flashed with a curious light. Without saying a word, she soared into the air and floated in front of the black jade dragon's eyes, releasing the divine power from his body once again. Long Chen dodged it, he also wanted to know what secrets the black jade dragon had, Di Yao was currently very excited, it could be said that he had completed his mission.

However, in this Dragon Sacrifice Continent, the existence of such a little demoness was a rather troublesome matter.

"If I can become a Deity, at least I won't have to worry about being suppressed by her." Meeting this fellow made Long Chen desire to become a god even more.

At this time, Di Yao had already started her attacks on the Black Jade Dragon's head. Her attacks were endless, Long Chen was dazzled by the scene before him.

"What are the rules of space, of raging flames, and why are they so mystical?"

Under Di Yao's continuous attacks, when she displayed the third set of rules, Long Chen was slightly stunned. That third set of rules was extremely mysterious, so much so that even he could not see clearly what it was. But terrible. It must have come from her mysterious mother.

"I refuse to believe that this broken world that requires the support of an eternal stone is actually something that I cannot destroy! "Break!"

After attacking continuously for nearly an hour, Di Yao used all of her abilities, causing a huge disturbance that caused the land within a thousand miles radius to collapse. She even took out a Creation God Equipment, but was unable to move the Black Jade Dragon even the slightest bit, which allowed Long Chen to understand more about the mysteriousness of the Black Jade Dragon's head.

The current Di Yao was undoubtedly stronger than Long Qinglan.

There was no way for Long Qinglan to destroy it, nor was there any way for Di Yao to destroy it.

This was already the limit of her current strength. It was a golden colored sword, seemingly made up of nine suns, and when Di Yao used it, the flames that soared to the sky simply couldn't be seen clearly.

After continuously attacking for a long time, she finally stopped. What made Long Chen breathe a sigh of relief was that although she was panting, her face was still extremely excited. Obviously, she was very interested in the interesting place that Long Chen was talking about.

"How fun! I never thought that there would be such a strange thing in this place. I must break it open and see what's inside! "

Having been out for such a long time, she felt a little tired. She landed on the head of the Black Jade Dragon.

Long Chen came to her side and said: "Princess, I should have completed my mission, can you let me leave first?"

Di Yao glared at him and said, "Why are you in such a hurry to leave? Don't you like being with me?" Aren't you different from others? Weren't you not afraid of me at all? I don't have anyone else with me, so you can't leave. And I also want you to accompany me to other places, at least until I finish this crappy place. "

Long Chen could not help but feel a headache coming on. Initially, he had only come here to complete his mission, but now that this fellow had gotten used to it, he actually did not want Long Chen to leave.

"So tired!"

After Di Yao finished scolding, she said, "Sit down, I have something to tell you."

Although Long Chen was not in the mood to accompany this princess who lived like a prince, he still had to think about the big situation, and had no choice. He clenched his teeth, sat next to Di Yao and said: "Princess, if you have any orders, please speak."

Di Yao stared at him. From her eyes, he could tell that she was still high and mighty, treating Long Chen as an 'aborigine' who was playing around with her. She suddenly said, "I saw you defeat the War God. I want you to help me with something."

She actually wanted his help?

Long Chen had a bad premonition in his heart, and said: "What does the princess want me to do?"

Di Yao's eyes were vicious as she gnashed her teeth and said: "I want you to help me kill someone. She's the goddess Xuan Bing, and her looks are not bad. She's pretty and seducing men everywhere, and she's very scheming. She only has the strength of the Lord of the initial state, you can kill her."

Long Chen was very surprised. She was so arrogant, yet he still wanted him to help her kill someone. They were obviously using him as a gun. If he had followed her instructions and killed the Black Ice Goddess, the Divine King of Light would definitely not let him off. In her eyes, he was just a country bumpkin.

Long Chen pondered in his heart, then asked: "If it's only the initial state, with the Princess' strength and status, killing her would be as easy as flipping his palm, why would I need to do it?"

She didn't really like Long Chen asking too many questions, but since she wanted to submit to Long Chen, she continued: "Don't worry about it too much. If you can complete the mission, you will be my man in the future. You can rest assured. "

Long Chen thought for a bit, this guy should not want others to know that she killed him, so naturally, after he kills the Ice Goddess, she would definitely separate herself from him. If she protected him instead, then everyone would know that she was the one who ordered it, so she wouldn't waste her efforts today.

Long Chen already could not understand such a simple logic.

Although he didn't understand the reason why she hated the Ice Goddess, it was normal for her to view human lives like grass.

"Long Chen, are you willing to be loyal to me? I am very satisfied with you right now. As long as you are loyal to me, there will be endless benefits in the future. " Di Yao had always been kind to him.

Long Chen thought about it carefully. If he agreed to it, then he would be an idiot, and when he had completed the mission and was killed by the Gods, who knows if she would kill him first?

If he didn't agree, then he would naturally anger this guy.

Both of these results were rather troublesome.

But Long Chen definitely would not choose to kill someone for no reason at all. Honestly speaking, he had already endured this fellow for a very long time, and just giving him a light slap a moment ago was already the biggest concession he had made. Long Chen had always been patiently enduring when the two of them were at odds, but this made this woman even more patient.

This woman had to be cured!

Therefore, at this time, his expression suddenly changed, and he solemnly said: "Princess, you can let me play around with you, but I can forget about killing people, I'm not a fool, and even more so don't want to be used as a gun."

"What!"

She felt that even if Long Chen refused, he wouldn't have such a strong reaction. She had never met someone who went against her wishes before, hence, she was instantly enraged. Her entire body was instantly submerged in killing intent as she stared at Long Chen who was just inches away, and said: "What did you say, say it again."

After Long Chen had had enough, he stood up and said: "I said, I refuse your request, and I'm too lazy to play with you anymore."

Chapter 2616 - Nine Star Emperor Sword

Di Yao's beautiful eyes were gradually filled with anger. Her snow-white face slightly trembled, her red lips revealed her white teeth as she angrily whispered, "You, sit down!"

Being played by Long Chen like this, she was so angry that she almost cried. This feeling of burning heart, she had really never tried it before.

Long Chen was too lazy to bother with her. Although he couldn't deal with her right now, but at the very least, it wouldn't be that easy for her to kill him. As for the Infernal King, he had a way to explain it to him. If the Infernal King asked him why he angered Di Yao, he would tell him about Di Yao telling him to kill the Ice Goddess. He believed the Infernal King would make a decision.

"Whiz!"

She grabbed onto Long Chen's hands and pressed him onto the head of the Black Jade Dragon. Her delicate body rode on top of Long Chen's body and the immense power of his Divine Monarch's body suppressed down, causing an immense force to tear apart the mountains and rivers, the heavens and the earth, making Long Chen unable to move!

"I told you to sit down, did you hear me?"

Di Yao pressed down on his body like an incomparably huge mountain, the terrifying weight almost caused his body to become deformed, both of her hands were tightly clamped down by her, and the most important part was that the divine power of her Genesis had completely suppressed Long Chen's Divine Source Power. For a moment, Long Chen was truly controlled.

Long Chen's resistance caused her mind to be in a mess for a moment, he did not know what to do, and said: "I already told you about the Profound Ice Goddess, and you already knew about it. So you had to kill her, or else I will definitely reveal it to you, I will definitely kill you! Either die or choose to kill her.

With that, she increased her strength. Although there was a beautiful woman riding on her body with an ambiguous posture and her plump butt was close to his body, Long Chen could still feel the threat of death. If not for her life force, both of her hands would have been broken by this violent woman.

Facing Di Yao's pressure, he couldn't help but sneer. This woman could not hide the fact that she was just a little girl, although she had her strength and background, but Long Chen had the confidence to restrain her. He didn't answer her, but only coldly looked at Di Yao.

"Don't even think about moving!"

Di Yao increased her strength, although there was life fire, she still broke both of Long Chen's hands, but this did not stop Long Chen from straightening his chest, his eyes getting closer and closer to Di Yao's eyes. In the blink of an eye, in front of Di Yao, they met eyes.

"You want to hit me with your head? I'll smash you to death! "

Di Yao's eyes opened wide, she flung her head, and ruthlessly smashed into Long Chen's head. In this kind of situation, what was competing was just physical strength, Di Yao's Divine Monarch's body was extremely sturdy, to a degree that was even stronger than Long Chen's.

"Hurry up and accept. I'll give you one last chance, or your hands will leave your body!"

Di Yao's eyes shot out two golden flames, which burned on Long Chen's body. Her waist strength was enormous, and her legs clamped down on Long Chen's waist, locking him firmly onto the Black Jade Dragon's head.

What answered her was Long Chen raising his upper body once again. From Long Chen's gaze, she saw that he was not yielding, but was unyielding, and was looking down on her. He actually dared to look down on her, and this made Di Yao completely angry.

But who would have thought that this time, Long Chen's speed would be so fast, that he would knock his head over, and it would be as if he had bumped into him.

"Do you still want to test whose head is tougher?" Di Yao sneered, she was amused by Long Chen's foolish actions. Under his own imprisonment, he could only give in and not break free.

The two heads bumped into each other again. Di Yao never thought that things would turn out like this.

Long Chen stuck out his chin, not even hitting her head, but his lips had touched. Although they had bumped into each other intensely for a split-second, with blood flowing from her head, he felt that Di Yao was still able to experience something that made her tremble and lose all of his strength.

"Whiz!"

Taking advantage of the moment that she was distracted, Long Chen threw her aside and escaped towards the east. This time, he had angered this fellow, so it seemed that he wouldn't have much time left. The most important thing right now was not to confront her head on. As for that last move, he had no other choice. If he did not do this, then even the Divine Source Power would be imprisoned by that person, unable to escape from his control.

Although it was in front of Ling Xi ...

"What does it feel like?" Ling Xi asked angrily.

"I grit my teeth in pain." Long Chen's teeth were almost knocked off, but to him, this was not a kiss, but a life. He escaped to the Eastern Star Region, turned his head, and sure enough, Di Yao was chasing after him.

Even in Eastern Star Region, there seemed to be nowhere to run.

"Whatever, it's best not to let them catch up for now."

After all, she hadn't become a god yet, so even if she used all of her powers, she probably wouldn't be able to deal with this A master-class Empyrean God.

In a blink of an eye, it had already caught up to Long Chen. With a swoosh, it stopped, and the threat of death engulfed Long Chen's body. When he raised his head, he saw that Di Yao's eyes were bloodshot, the corner of his mouth had been broken because of the intense impact just now.

She was probably extremely angry, which was why she was in such a deathly silent state right now.

Seeing her like this, Long Chen suddenly remembered that this was definitely not this guy's first kiss, right? Hopefully it wasn't like this, otherwise, she would probably never be able to get rid of this guy. In order to escape from this predicament, he didn't think too much about it.

She was standing still before Long Chen's eyes, filled with killing intent.

She flapped her golden wings, and in both hands, she held the greatsword. The blade of the sword was made up of countless stars, and there were nine blazing fireballs on it. The amount of heat that exploded from it was no different from the sun in the sky.

The nine suns of the scorching Burning Sun Sword overturned inside the sword. She raised both of her swords up, illuminating the entire Eastern Star Region. Under the light, even the Immortal God Realm was trembling.

"You will pay the heaviest price for today's crimes!" Di Yao's voice was full of viciousness and ruthlessness, while her voice was full of negative emotions. Her hands, which were holding that God Creation Artifact, were trembling.

The killing intent of death, firmly locked onto Long Chen.

The trouble was that he was always unable to avoid it. Long Chen had finally acknowledged it, if he did not act now, he would really be killed.

He even came to the trial of the Heavenly Demon. He wasn't worried about a mere Di Yao, he just didn't want to face Di Jun who was standing behind her.

But there was no retreat.

"Little Xi, lend me a hand."

The black spirit sword in his left hand and the white plain sword in his right hand appeared in his hands. This was the peak state when he was facing the Heavenly Demon of the Era, but without the support of the living beings' will, he was unable to release the power he had at that time, but perhaps there was a chance where he could fight against Di Yao head on!

In terms of might, no matter if it was a spirit sword or plain sword, they would both be above the opponent's Genesis, the Manifestation Divine Artifact! This was Long Chen's advantage, and the disadvantage would naturally be his Divine Source Power. He would be miles and far away from his opponent, and only by truly becoming a god and cultivating the Infinite Divine Art would he be able to make up for such a disparity!

Long Chen would not hesitate to make his move when it was time to do so.

The power in his body started to move, half of it went into the Spirit Sword and the other half into the white sword. The power of time began to move, and just like the opponent's Creation God Equipment, it swept through the entire world, and it was even faster and fiercer! At the moment, Long Chen's eyes were illusionary, but he was serious and persistent, without a trace of reverence, and there was not even a hint of flattery.

This was a pair of eyes that could shock her.

Her experience of slaughter and death-like challenges were far inferior to Long Chen's. Only someone like Long Chen, who had struggled countless times on the brink of death but had come back to life, would have such an astonishing will. It was as if in front of him, even death was nothing!

Before the opposing 'Nine Star Emperor Sword' could even make its move, Long Chen's two swords exploded forth with the power of time break, perfectly merging with the Sword Qi and Shattered Soul Sword Qi, forming two sword Qis that soared to the sky from the front and back, rushing over! Instantly, the sky exploded!

Di Yao was shocked. She swept her sword horizontally, and the scorching sun of the nine star Emperor Sword erupted as the nine golden divine bird rushed out, covering the sky and blocking out the sun. It protected her from the front and at the same time, advanced towards Long Chen's direction!

Once the sword came out, Long Chen was exhausted.

All life's willingness was still crazily filling the gap, but it was difficult for him to recover in a short period of time. He had yet to become a deity, and using the dual swords at this moment was simply too difficult.

Of course, the break of time still played a huge role.

That was Long Chen's full strength!

The Nine-headed Divine Bird, it had been destroyed by the passage of time and had lost a portion of its power when it connected with Di Yao. The Nine-headed Divine Bird, had lost a portion of its power when it connected with Di Yao, and the Nine-Star Emperor Sword had escaped.

The only thing that Long Chen lacked now was strength. He needed to become a god in order to defeat Di Yao.

Now, it seemed that he couldn't ...

She had never witnessed such a terrifying power in time and was unable to resist, directly changing her from her peak state to her weak state. At this time, even if there was another Mo Xiaolang beside Long Chen, she would probably not be able to hold on.

In this world, who would dare to attack her?

So today, she had tried two times in her life that she had never experienced before. One was when she was kissed roughly, the other was when she was attacked roughly.

Long Chen kept his two swords and took a deep breath, pretending to be calm and composed, he stared at Di Yao, if she attacked right now, he would be finished.

Luckily, Di Yao was scared witless by him. She looked lifeless as she looked at Long Chen with a complicated expression, as if she hated him a lot, and had a trace of reverence in her eyes. Her previous scorn towards him had disappeared without a trace, and Long Chen still remembered when she called him a natives, it was so casual and disdainful.

Seizing this opportunity, Long Chen said: "Princess, I initially didn't want to have any conflicts with you, but with regards to the Profound Ice Goddess, I really can't do it, please forgive me for not doing it earlier, but I apologize to you now, can we get back on track? If possible, I am still willing to bring you out to visit this Dragon Sacrifice Continent to show you around as a host."

Seeing the expression on Di Yao's face, he guessed that this was all nonsense. She should be thinking of a way to kill him right now! 'I wonder if the Infernal King will listen to my orders ... '

Chapter 2617 - Ancient Secret Realm

Fortunately, Di Yao never took any follow-up actions.

In the end, she said, "This will be the last time. Don't enrage me or else, even if the Infernal King doesn't kill you, my father will personally take your life. "If he knew what you just did!"

After she finished speaking, she withdrew the Nine Star Emperor Sword, passed Long Chen, turned into a ray of golden light, and instantly disappeared from Long Chen's field of vision.

Long Chen never thought that she would actually let him off so easily.

Being caught by this woman today was a disaster in itself. Being able to survive like this was already a stroke of luck. At least he was unharmed. That was a good thing. After all, not just anyone could endure such a woman.

After giving it some careful thought, it seemed that Zhang Xuan's action of escaping was indeed a little reckless.

However, this was the only way to cure her, and he was not worried about getting into a love debt. He would not fall for someone like Princess of the Divine Emperor, and he did not want to let anyone know after suffering a loss, but he had to be careful of her in the future.

"I still have to become a god as soon as possible. Otherwise, she would be able to kill me without anyone noticing."

Although the return of the gods brought stability to the world and to all living things, there were more and more factors that made Long Chen uneasy.

"I've still underestimated you."

At this moment, a voice suddenly came from behind him.

Long Chen really didn't know that this Infernal God King had been following him this entire time. When Long Chen turned around, he saw that the other party was smiling at him.

"Greetings, Godking."

The person in front of him was a person who was even more terrifying than Di Yao. Long Chen had no way of knowing what was on his mind, for example, that this person regarded him more highly than others, so why?

I have also seen what happened today. Although you did it out of helplessness, you did it on purpose, and it was just as the little Divine Emperor said, if her father were to know about this matter, then you would definitely lose your life. "

Long Chen did not speak, and silence was his best response at the moment.

The Infernal King continued, "However, you were able to deduce her thoughts, so you knew that she would definitely not say much. You are actually quite intelligent, for you, today is indeed a calamity, and if you do something that she is not satisfied with, she might kill you. But your final move was very decisive and decisive. Long Chen, tell me, you can't be thinking of using some methods to get this little girl's love and become the son-in-law of the Divine Emperor, can you? "

Long Chen knew that he would say something like that, so he quickly replied: "The Divine King is overthinking it. Today, I only want to stay alive, not to mention that I already have a family background, and a wife and children. Furthermore, in my eyes, all beings are equal, and gods are the same. I will naturally respect the strong, but I am not a slave, so I do not need to kowtow, and just as you have said, little Divine Emperor is just a willful little girl. In my eyes, she is the same. "

After hearing that, the Infernal King laughed and said, "Alright, don't worry. The reason she didn't personally kill the Ice Goddess was because she had previously killed Divine Emperor's subordinates. As a result, she was imprisoned by the Divine Emperor for many years, so she naturally doesn't dare to do it herself now. You are a member of the dragon sacrifice's Gods and Gods, and she cannot kill you, she has only offended the little Divine Emperor. From now on, you will have some troubles, she is the most noisy person in the world, even if she does not kill you, you will never be at peace for the rest of your life. "

Long Chen laughed, he was not even afraid of the Heavenly Demon Genesis. He might not be afraid of a little girl.

At this moment, the Infernal King was about to leave when he suddenly stopped and said, "I just remembered something."

"Please speak, Godking." Long Chen said.

The Infernal King looked to the east and said, "In the past few days, our human Divine Weapon Divine Generals have found a Ancient Secret Realm in the Eastern Star Region. It seems that the Ancient Secret Realm left this place behind before it was born, and it took tens of millions of years before the entrance was revealed. I was just about to bring a portion of the Gods in, but of course the demon race's Sea Clan and Witch Clan's Gods also received the news, so they will all enter the Ancient Secret Realm together, around 50 Gods.

East!

Ancient Secret Realm!

Long Chen was stunned for a moment, thinking: Could it be the Origin Dragon Palace?

That place should have been the place he discovered himself. Now that the Gods found out, although everyone belonged to the same world, but for him, the secrets of the Divine Dragon were recorded there. If the Gods went there, they would definitely destroy something!

If this was the Origin Dragon Palace, then it could only be described as bad luck. Now, he could only hope that the Ancient Secret Realm they discovered wasn't the Dragon Palace of Origin.

He probed, "God King, may I know where this Ancient Secret Realm is? "What's your name?"

The Infernal King rolled his eyes and said, "No one has entered yet. How would I know? After about ten days, I will call for you to gather and call for your brother as well. After all, you guys are more familiar with this place than me. "Let's go back now."

Long Chen nodded. Now that the Gods have discovered the Ancient Secret Realm, there must be someone guarding there. Even if he went there early, he had no other choice but to go back to prevent Yang You and the others from worrying about him.

"I'll be leaving first. Remember to always be careful of the little Divine Emperor, and in the end, don't make her hate you."

The Hell God King laughed and said, then instantly disappeared. His strength was so strong, Long Chen could only hope to catch him red-handed.

Long Chen headed towards the west, and in the blink of an eye, he had landed in the Life Dragon City. The Life Dragon City in the Sea of Life was previously one of the Five Great Sacred Grounds that everyone yearned for, but now that the gods had returned, the Five Dragon Cities was no longer as attractive. Right now, the place everyone yearned for was the 72 - The Ancient City of God's descendants.

Long Chen was a little annoyed by the matter of the little Divine Emperor and Ancient Secret Realm. After exchanging a few words with the three Dragon Emperor s, he returned to Slaughter Dragon City.

Yang You and the others waited for Long Chen here. Seeing that Long Chen had returned safely, they heaved a sigh of relief.

"Big brother, that woman didn't hurt you, right?" Mo Xiaolang was extremely disgusted with Di Yao.

"Nothing major." Long Chen didn't want everyone to worry about him so he could say a few words to reassure the Dragon Emperor and Yang You.

"Is the return of the gods good or bad for us?" Mo Xiaolang could not help but ask.

This question

The Dragon Emperor laughed: "At least this world has changed, this is a good thing. If the Dragon Sacrifice Continent can become better, what's wrong with us personally suffering and suffering?"

He had spoken Long Chen's inner thoughts and pointed out the direction for Long Chen to go.

That's right, as long as these trillions of lives went better than before, with someone protecting them, his personal grievances would be nothing.

After chatting for a while, Long Chen finally returned to the Scarlet Dragon Palace. Ever since he returned to the Dragon Sacrifice World, Mao Mao couldn't be bothered to stay in his Divine Kingdom, and ran off somewhere else a long time ago.

Mo Xiaolang and Su Yan naturally followed him.

"Big Brother, you are extremely weak. You must have used the spirit sword and the plain sword. You fought with that woman? "

Mo Xiaolang asked.

Long Chen nodded, and said: "She is fine, but there is one more thing."

Long Chen told Mo Xiaolang about the news he had received regarding the Ancient Secret Realm.

Mo Xiaolang nodded and said, "We are still not sure if it is the Origin Dragon Palace yet, so we can only wait and see. When the time comes, just be careful. If you don't get anything, just don't cause any big trouble. However, there are some things that I must say. "

Long Chen saw that he had thought about it, and said: "Go ahead."

Mo Xiaolang and Su Yan looked at each other and said resolutely, "Big Brother, the reason why the present Dragon Sacrifice Continent still exists is because you saved him from the Primordial Giant Demon by risking your life. If they were truly the lords of this place, then they should be grateful towards you and not stay too high up in the sky. Especially that little Divine Emperor, she thinks highly of everyone and doesn't put you in her eyes at all. Now that the 72 Shencheng are so arrogant and despotic, and the experts have already stationed at the Dragon Sacrifice Continent, the numerous Gods have already divided the Dragon Sacrifice Continent up. They're not like you. "

All of the questions that Mo Xiaolang had mentioned, were naturally clear in Long Chen's heart.

He said, "I understand, even though they are seniors, and respect for them is inevitable, but I am not stupid. This is still an era where strength speaks for itself, if I want the right to speak, then we must be stronger than them. So before we surpass them, we must shut our mouths."

"Understood."

Mo Xiaolang was worried that Long Chen was too loyal to them and forgot about himself.

However, Long Chen obviously did not have such thoughts.

At this time, Long Chen squinted: "Besides, whether or not they are our true seniors is still unknown."

He thought of the Spirit Sea's Divine Corpse and the phrase 'native'. If Di Yao was a willful little girl, then her real name wouldn't be fake.

Mo Xiaolang understood.

"It's not easy for you two to meet. It's about time for you two to get married. Do you have any plans?" Long Chen asked. After all, they had paid a near death price to be able to stand together.

Hearing Long Chen's words, the two of them felt embarrassed and slightly flushed. They were probably not prepared at all.

Long Chen laughed and said: "Let's make a plan when we return from that Ancient Secret Realm. Su Yan is my sister, you can't let this go so easily. Yan Er, when you are free, bring your sister and father up here. You must want to reunite with them, right? "

Su Yan's eyes flashed and she could not help but nod her head.

"I'll leave this matter to you." Long Chen said to Mo Xiaolang.

Then, the two of them left. Long Chen closed his eyes to recuperate and began to recover.

"The Great Demonic God Tribulation is just a hair's breadth away. As long as I become a god, I'm afraid that I will be able to use psionic sword s. If I have Infinite Divine Art s with Genesis, my strength would almost double and I would definitely be able to control them more flexibly."

At this moment, he realized that he desperately needed strength!

For the sake of becoming a Deity! Becoming a True Dragon and then going to the Origin Dragon Palace to explore the secrets of the divine dragon!

That was the most intense desire in his heart!

After three days, his strength had fully recovered and there was a slight improvement. When Long Chen stood up, he suddenly heard some noise coming from the three great Dragon Emperor s, so he immediately rushed over. Everyone was here, even Everlasting Dragon City Yongye of the Everlasting Dragon City had come.

Looks like the problem is with Dragon Emperor Yongye.

Right now, Long Chen was their pillar of support. He was the one who had to solve any problems. He asked, "What's wrong?"

Dragon Emperor Yongye was an extremely peaceful person to begin with, but at this moment, she was actually a little angry as she said, "There's a City Lord from Everlasting Dragon City's side. He wants us Everlasting Dragon City to move out of the ocean of time and give our place to him.

"Oh!"

Sure enough, they still bullied him. Five Dragon Cities had withdrawn from his ruling position, but who would have thought that there would even be people who wanted to occupy this place.

Chapter 2618 - Nine Heavens Thunder God

The Southern Everlasting Dragon City's Sea of Time, which had been quiet for a long time for two years, was now bustling with noise and excitement.

After the return of the gods, in the past two years, all the Dragon Fighters had retreated back to their headquarters. Because of the descent of the Creation Stone's spirit energy, although the Dragon Emperors had long been on the verge of becoming Gods and were unable to advance much, the progress of the other Dragon Fighters was extremely quick.

Although the Five Dragon Cities was hidden, but with the nourishment of the creation spirit energy, he could still be considered as extremely strong.

However, aside from the few Shenchengs in the center who were protected by the two Divine Kings, the other Shenchengs all had their own protectors. Occasionally, they would use some treasures from the myriad realms to forcefully raise their descendants, and the results were not bad.

For the gods, this was not a difficult matter.

Of course, they were not able to become gods. All of the Immortal God Realm still remained below the threshold of the gods.

At this time, most of the Dragon Fighters had come out of their secluded cultivation to protect the Everlasting Dragon City. There were roughly a hundred thousand of them and their cultivations were all above the five element tribulation of reincarnation. Compared to two years ago, they were simply too powerful.

Almost all of them had tribulation of reincarnation and their cultivation was not as strong as the Dragon Fighters, but they had the advantage in numbers. It was a tremendous scene. Just from these two groups of people, one could see how the Return of the Gods and the Everlasting Skystone had a huge impact on the entire Dragon Sacrifice Continent.

This group of people were from the 'Nine Thunder Shencheng' in the south. The Nine Thunder Shencheng was a descendant of the 'Nine Heavens Thunder God' to the east of the War God's Ancient City, and was also known as the Nine Thunder Clan. Two years ago, she only had six sets of tribulation of reincarnation. But since the arrival of the Nine Heavenly Thunder God, she had personally made a move, raising Lei Huang's strength to the level of a half-step Divine Spirit, almost to the same level as the Spirit King back then.

Of course, all the Dragon Emperor had also reached this level.

If the Spirit King did not die, he would be stunned, because there were too many people who were as strong as him right now.

Lei Huang led many descendants of the Nine Thunder Shencheng, descending into the Time Sea. In order to enter this wondrous place called the Time Sea, the Time Sea's position was extraordinary, and the creational spirit energy he received was the richest in the entire southern part of the Dragon God Domain. Because of this, even without the help of gods, the Everlasting Dragon City would still be able to make rapid progress!

However, Lei Huang was not concerned about that.

Lei Huang was a bare-chested man covered in purple lightning. He had a coarse appearance and a fierce face, but his eyes were narrow like slits, giving him a sense of shrewdness and insidiousness. He had never thought that he would actually possess such strength one day, and with such a status, falling to this place would be considered a sacred ground for him in the past!

At this moment, he warned them once again in a loud voice, "All Dragon Fighters of the Everlasting Dragon City, let me repeat myself. As the people of the Gods, we should be incomparably grateful to the Gods. They were the ones who changed this world, saved this world, allowed us to have a new home, and brought us powerful strength. It is not that I, Lei Huang, do not give face to the Dragon Fighters, but rather, the Nine Heavens Thunder God truly likes this place. As the citizen of the gods, we cannot let the gods down, right? "

"Dragon Fighter, quickly leave this place. Our world belongs to the gods, how can you occupy their place? "Give me the time."

On the side of the Nine Thunder Shencheng, all the living beings continued to speak.

In their team, there were three lofty existences, all of them were Divine Spirits, one Divine General and two Divine Weapons. These three Divine Spirits were surrounded by violent lightning, pressuring down on the sky above the Everlasting Dragon City, it was the dignity of a True God, even a half-step Divine Spirit would find it difficult to raise their heads in front of this kind of pressure.

At this moment, the faces of the Immortal Dragon Emperor s and Sky Dragon Emperor s were extremely ugly.

If it was only the City Lord of the Nine Thunder Shencheng s, they wouldn't care at all. They didn't expect that the other party would even send out a deity.

"Such a despicable person!" "Back then, he bowed and knelt before me. Now, he is actually so arrogant and despotic, not putting this old man in his eyes. Does he really think that he can go against the rules just because the gods return!"

The Immortal Dragon Emperor was so angry that he almost died. Although the return of the gods did bring about a huge change, even Lei Huang, who he was too lazy to pay attention to before, was now riding on top of him. He wanted to use the God's name to openly occupy the Sea of Time.

The Dragon Emperor replied helplessly: "There's nothing we can do, their spirit energy is naturally on their side, now with the existence of the gods, we have no choice but to admit that the Five Dragon Cities does not have his original position, as long as it is a good thing for the tens of thousands of citizens, we can give up this time sea, but they have only come for the creation of world spirit energy, time and energy are useless to them, occupying it would be such a waste of time."

The Dragon Emperor was speaking the truth, but the Eternal Dragon Emperor was still unwilling. Why would they give up their legacy for tens of millions of years? Although the Archeozoic era Gods were still there and the Five Dragon Cities was still hidden, but they still did not let the ocean of time go, right?

"Let's wait for Long Chen to come over and see what he decides." The Immortal Dragon Emperor gnashed his teeth.

It was just that he didn't know whether or not he would be able to last until Long Chen's arrival in front of these three gods.

Obviously, Lei Huang and the other few Divine Spirits did not have that much patience, at this time, Lei Huang personally came up, he had the strength of a half step Divine Spirit, he was similar to the Dragon Emperor, so he was not worried at all. After nearing the Immortal Dragon Emperor, he said, "Old man, are you still not clear about the current situation? Now, you are no longer the Dragon God Domain s of your Five Dragon Cities, but instead the Dragon God Domain s of your Gods. For your Dragon Fighter s to still be able to survive in the Dragon God Domain, it can already be considered that your Gods have shown great mercy. Let me tell you, the world is different now. Don't play dumb in front of this father. Spirit beings are not as easy to talk to as I, Lei Huang! "

That old man really made the Immortal Dragon Emperor explode in anger.

"When a dog had an owner, does it now ride this old man's head to shit?" The Immortal Dragon Emperor trembled in anger. Now was the time when he longed for Long Qinglan and Long Chen the most. Even though he did do something wrong due to his stubbornness, now that he regretted it, Long Chen had never blamed him either.

Now, he was only an old man.

"What did you say!?" Old bastard! Are you waiting for Long Chen to come? Hehe, looks like you still don't understand! Stupid! Although I also admit that Long Chen saved this world before, but when the gods returned, they changed the world and gave Dragon Sacrifice World a new life, their contributions were even greater. This is no longer the era of Long Chen, he is now just one of the gods, and he has no choice but to kowtow in front of the gods.

The Immortal Dragon Emperor said coldly, "Looks like I have praised you as a dog when I said you are. Dogs are loyal at the very least, they won't be as ungrateful as you. When Long Chen was fighting the Ancient Giant Demons, which corner did you hide in and tremble? "

Lei Huang was furious, he wanted to attack, but he resisted, and laughed out loud instead. "I can only tell the gods, if you don't listen to the will of the gods, it seems like you can only throw out your lousy Everlasting Dragon City and your outdated Dragon Fighter."

Lei Huang turned around and rushed into the sky, towards the three Divine Spirits, and shouted loudly, "Three Divine Gods! The people of Everlasting Dragon City are not obedient at all, they don't even put the three of you in their eyes, and are even scolding me as your lackey, you are truly too arrogant! "

Hearing this, the conflict between the two sides was completely ignited. The Nine Thunder Shencheng s immediately started arguing, and over a hundred thousand people started cursing, as though they were about to pounce on him.

Everyone in Everlasting Dragon City could not stand this.

For a time, the two sides faced off against each other.

Lei Huang continued to shout loudly: "Hurry up and apologize to the three Highgods and then immediately scam. This is my last chance, quickly kneel and beg for forgiveness! "

Following his words, the rest of the Nine Thunder Shencheng s also rushed forward. Each and every one of them was filled with flashing lightning and blazing to the extreme. They were afraid that they would only need to give the order and rush forward.

"Tell me, what is the result?"

At this time, a figure appeared out of nowhere beside Lei Huang. With lightning speed, the figure grabbed onto Lei Huang's thick neck and asked word by word.

Everyone was dumbstruck. Who would be so daring as to actually make a move on the Nine Thunder Shencheng's City Lord in front of the gods?!

Focusing on it, if this young man was not Long Chen, then who else could it be?

Lei Huang was about to curse loudly and attack at the same time, but when he saw Long Chen's cold and bloodthirsty eyes, fear instantly surged into his heart. In reality, before arriving, he had already imagined the situation where he would clash with Long Chen, but when he thought of how he would have the support of the Nine Heavenly Thunder God from the Nine Heavenly Thunder Shencheng s, he felt that he would not be afraid of Long Chen.

Not expecting the other party to pinch him, he immediately began to piss his pants and tremble in fear.

"I, you, I worship the will of the Nine Heavens Thunder God, Long Chen, if you dare to touch me, you will definitely suffer a miserable fate!" Lei Huang wailed like a ghost.

Without saying a word, Long Chen used one hand to forcefully throw the burly guy tens of thousands of meters into the ground. Judging from the toughness of the Immortal God Realm, after Lei Huang was buried deep underground, it was unknown just how long it would take for this guy to recover after losing most of his life.

In any case, everyone's eyes only flashed, and Lei Huang disappeared. A bottomless pit appeared in the distance.

In an instant, the entire area fell into silence, even the Immortal Dragon Emperor and the Sky Dragon Emperor swallowed their saliva. They did not expect that the moment Long Chen arrived, he would directly react like this, with no room for mercy at all.

In reality, they understood how important the Five Dragon Cities was to Long Chen. It was his heart's holy land, the last place where the Divine Dragon passed on its legacy, and in his heart, it could not be polluted. Today, they had even bullied into coming.

He wanted to join the gods, but that didn't mean he didn't have a temper.

A portion of them went to look for Lei Huang, and amongst the living, naturally no one would dare to find trouble with Long Chen anymore. However, those three gods were here to stand guard, so Long Chen's explosive action undoubtedly caused them to lose face, and caused them to feel rather embarrassed.

For a time, the three deities surrounded him with unfriendly eyes. They were the God of Thunder, and their tempers were not good in the first place.

Long Chen laughed and said, "Have the three of you forgotten how one of the Divine Generals of the Giant Spirit God died?"

When these words came out, the three Divine Spirits were immediately frightened and did not dare to make a move. The temper of the Divine General completely disappeared as he trembled and said, "Long Long Chen, you are too bold! This is the city lord of the Nine Thunder Shencheng, how can you kill him just because you say so! You really don't put us, the Nine Heavens Thunder God, in your eyes! "

Chapter 2619 - Divine King of Light

"Your Nine Heavens Thunder God is about to roll over. I'll deal with any problems. As for the three of you, if you don't want to be unlucky, then quickly stay away from me. I don't have the patience you have." I wasn't polite with them when I was dealing with the Ancient Giant Demons. "

Long Chen turned his head to look at the divine general, and with just a glance, he scared the general away by more than a thousand meters, and no longer dared to go forward again. The other two Taiji Realm's divine weapons had already escaped even further, and of course, their faces were still filled with dissatisfaction. We, the Great Assembly, will teach you a lesson that you deserve! "

Among them, nine streaks of lightning tore apart the heaven and earth, explosively shooting over with incomparable domineering might. These were nine types of lightning with different colors, and their nature was extremely high; they were all at least on the level of Divine Flames. Moreover, the destructive power of each bolt of lightning was even greater than that of ordinary Divine Flames.

Of course, divine fire and divine thunder were divided into different levels!

BOOM!

The nine streaks of lightning explosively shot forth, condensing into a youth with short, nine-colored hair in front of Long Chen's eyes. The color of his eyes constantly changed, and his pupils were like balls of lightning. Under his control, the Everlasting Dragon City s had no choice but to retreat, otherwise, they would definitely be harmed by the lightning.

Mo Xiaolang was also there. With his Divine Flame sweeping out, the nine Divine Lightnings would not be able to harm Everlasting Dragon City at all.

He knew that this fellow, who had met the Nine Heavens Thunder God at the banquet of the Infernal King, possessed the initial state of a Divine Lord and was on good terms with the War God. When he saw Long Chen, his eyes immediately shone with hostility and, as he said furiously, "A guy who used a Creation God Equipment to show off his might, actually dares to be so overbearing. As a god, he actually injured my descendants and didn't put me, the Nine Heavens Thunder God, in his eyes. Otherwise, how am I supposed to face my children? "

"F * ck your mother!" Your dog came to my place to shit, can't I chase it away? It's good that you came today, listen clearly, the Five Dragon Cities has been in existence for tens of thousands of years, and has protected the human race for tens of thousands of years. In the era of the disappearance of your gods, they were the ones who protected the human race and protected your so-called descendants, the ones who did so without the Five Dragon Cities, they would have already gone extinct, so we did this without a single thought to show gratitude, because this is our mission.

Long Chen's words revealed the helplessness of the Dragon Fighters. For all these years, the Five Dragon Cities had been doing their best to protect the Dragon God Domain, and the gods had returned to regain control of the world. They could not say anything, but they had to snatch even their homes.

This was determination, as well as willpower.

He did not think that the Everlasting Dragon City would not give him face, nor did he expect that Long Chen would fly into a rage and directly make a move. If he could regret it, he would definitely beat Lei Huang up a bit, but since things had already gotten to this point, it was impossible for him to leave with his tail between his legs, otherwise, he would have lost all his face, and would not be able to face the other gods in the future.

Thunder flashed in Nine Heavens Thunder God's eyes as he said in a deep voice, "Don't try to quibble. When we return, save the Dragon Sacrifice World. Furthermore, even if we were to be rude, you actually killed us directly, completely not putting us, the Nine Heavens Thunder God, in your eyes.

Long Chen laughed, and said in front of everyone: "Don't talk nonsense, aren't you trying to hit me? Just make a move and stop bullshitting so much useless bullshit. You need to understand that if you want to touch Five Dragon Cities, it's as good as killing me. Since you're already like this, I still have to give you face.

Although the Gods did not do anything to Long Chen, but he had suffered a lot at Di Yao's place, and now that the Nine Heavens Thunder God had directly rushed over to him, especially the things that Lei Huang had said, were extremely unpleasant to listen to, causing Long Chen to be unable to hold back.

Ling Xi grasped her sword and rushed forward. To deal with such a Divine Monarch, one must use of time to break this move, Long Chen was too lazy to fight with him, he would just use this method to crush him!

It was a move that he had comprehended from the countless laws of time within the Heavenly Demon, and it was impossible for him to resist it. The Nine Heavens Thunder God did not expect Long Chen to make such a decisive move, and before he could even dodge, he was hit by the broken laws of time. At the same time, the Shattered Soul Sword Qi of Ling Xi also appeared, causing him to scream miserably as he fell from the sky, his soul was heavily injured and he fell into the ocean of time!

"You can't even take a single blow! Take it back!"

Long Chen cursed, and said to the three divine beings.

Seeing that the lightning from the Ninth Heaven had fallen into the sea of time, time seemed to have stopped for everyone. Seeing this scene, their mouths gaped wide open and they couldn't help but swallow their saliva. To them, whether it was Long Chen's courage or strength, both of them had already broken through the sky.

Long Chen reached out his hand and sucked, then threw out the almost unconscious Nine Heavens Thunder God, throwing it towards the three divine beings, allowing them to catch it.

The three Divine Spirits trembled from head to toe as they looked at Long Chen, not daring to even say a single harsh word.

They never thought that Long Chen would be so fast, that he could deal with the Nine Heavens Thunder God in one move.

"All of you, scram."

Ling Xi raised her sword.

The remaining nine thunder Shencheng s did not dare to say a single word. After exchanging a few glances with each other, and seeing that Long Chen was about to go berserk again, they immediately dispersed and rolled back to their Nine thunder Shencheng s in a sorry state.

The people surrounding the Everlasting Dragon City quickly dispersed, leaving not a single trace behind.

"With my strong reaction, the other gods know that as long as there is no deep hatred between us, they would definitely give me face and not bother Five Dragon Cities anymore."

This was the result that Long Chen wanted.

As a person, one must have a bottom line. If one was able to endure the invasion of one's home, then others would be able to advance one step at a time. Only with a bottom line would one be respected and respected. No matter what the consequences would be in the future, he had at least managed to intimidate them today.

That was his goal.

He had originally planned to keep a low profile as much as possible before becoming a Deity, but now ... he clearly couldn't. If he kept a low profile, the Everlasting Dragon City would be gone.

For a time, on the Everlasting Dragon City's side, no one was able to react.

The Immortal Dragon Emperor was relieved and couldn't help but laugh. "It's been a long time since I've felt this refreshed. I'm afraid that if I were to trouble you, it would bring you a lot of trouble."

Long Chen shook his head and said: "There will always be trouble, there's no need to worry."

At the same time, they were also a little worried. When the gods returned, they were more clear-headed, and the Era of the Gods was simply too far away, they were more willing to believe Long Chen who, in order to protect the Dragon Sacrifice Continent, was willing to fight to the death and give up everything.

"All of you, go back and rest. Cultivate properly. Everything is fine now." Long Chen said to the crowd.

At this time, he had a slight feeling that someone was looking at him. Long Chen turned around and headed towards the east while Mo Xiaolang and Su Yan followed behind him. They maintained a distance with Long Chen and probably travelled for a while, but on top of a mountain peak in front of them stood a white-haired old man.

Long Chen walked in front of the old man and said: "Long Chen greets Divine King of Light!"

The Divine King of Light was located at the largest Radiant Shencheng in the south. He would definitely be aware of the incident that had happened to Long Chen, but this old man was extremely terrifying. It was likely that among all the gods that had returned, only the King of Hell could be compared with him, so Long Chen guessed that he was the Divine King of Light.

The other party's eyes were deep and profound. He nodded slightly and said, "The human gods should be united. You are dealing with things too sharply. You need to slow down a bit. Otherwise, the road ahead will be a mess."

After injuring the Nine Heavens Thunder God, he did not do anything to him on the spot. This could already be considered benevolent, so Long Chen nodded and said, "If it was anything else, I would definitely be able to endure for a bit, but today's matter is extremely important, and is unable to endure it for long. I hope the God King would forgive me. Of course, I will pay great attention to it in the future."
"

Divine King of Light said: "That's good."

He should have appeared just to meet Long Chen, to get to know him a little. Just as Long Chen finished speaking, a white light flashed before his eyes, and the Divine King of Light disappeared.

"Compared to the Infernal King, this Celestial King is even more mysterious."

This was a character that was equal to a complete battle demon; it was a terrifying existence. He just did not know how powerful the God King, who had yet to return, was.

"He's gone."

Mo Xiaolang and Yue Yang also followed him.

The three of them looked at each other, and finally returned to Everlasting Dragon City. Several Dragon Emperors were still waiting for them, and Yang You had also come over.

The Immortal Dragon Emperor said, "It feels terrible to have someone suppress me. I wonder how long this day will last. "

The Dragon Emperor also came over. He smiled and said: "Let nature take its course. In any case, I'm happy to be free now, our divine tribulation is more or less over. Since I have no chance of becoming a god, I will just properly pass through these few days.

The other Dragon Emperors all thought the same.

Long Chen said: "Everyone, don't worry. With me here, nothing will happen to Five Dragon Cities. "It's just that I need to go to Ancient Secret Realm with the Gods a few days later. I don't think the Nine Heavens Thunder God will go when he's injured, so everyone still needs to be on guard."

He thought about it, but he still had to find the Infernal King and explain what had happened today clearly. It was best to hope that he could stand up for himself and prevent the other gods from harassing Five Dragon Cities.

He would have to wait until that day arrived before he could discuss this with the Infernal King.

"Then I won't go. Stay here. Big Brother, go in by yourself. Be careful." Mo Xiaolang suggested.

Long Chen thought about it carefully, and decided that it would be safer this way. As for entering the Ancient Secret Realm, who knew what would happen? Whether or not it was the origin of the Dragon Palace was unknown.

Chapter 2620 - Space Flood Dragon

When he entered the Ancient Secret Realm, if the Nine Heavens Thunder God came to look for trouble with hatred, and if the Five Dragon Cities did not have a Divine Spirit protecting it, there was a certain chance of something happening.

As the pillar of all the Dragon Fighter, he had to carefully consider and consider about many aspects in order to protect those who followed him.

When the gods returned, they were still the most determined ones to stand by Long Chen's side.

Right now, Long Chen needed to rely on Ling Xi in order to display the full extent of his Lingxiang's twin swords. Therefore, he only needed to go in with Ling Xi. His Divine Kingdom had also sucked in a vast amount of creational spirit energy. Under this level of spirit energy, the shape of Ling Xi's abdomen was extremely obvious.

But in Long Chen's eyes, the maternal her was even more beautiful.

After the upheaval of the Nine Heavens Thunder God, there were indeed no other divine beings who came to find trouble with the Five Dragon Cities, as the Five Dragon Cities occupied the best territories of each of the five areas of the Dragon God Domain, suffering from the radiance of the eternal stone. Long Chen understood in his heart that he had to become a divine being as soon as possible, otherwise, there would still be trouble.

Roughly six or seven days later, when Long Chen was meditating in the Scarlet Dragon Palace, the voice of the Infernal King transmitted and told Long Chen to gather at the middle part of Dragon God Domain, near the Dragon City. Evidently, the Goblin Tribe's Sea Tribe Divine Beast and the Shaman Divine Spirit had already arrived.

For example, the human race and Long Chen only had around thirty or so people, and their strength needed to be balanced. From the Taiji Realm to the Divine King, they had to use half of their power, while the other half protected the Dragon Sacrifice Continent.

The demon race and the sea race were one and the same, so there were more divine beasts. There were probably more than forty of them, and there were a total of eight Sorcerer Gods. Four of them should be coming this time.

After Long Chen returned to the Dragon Sacrifice Continent, he hadn't seen any Divine Beasts or Divine Magi yet.

"Be careful. "Be careful."

Yang You reminded.

The times were different, and he had to adapt.

Long Chen bid his farewell to everyone, and instructed Mo Xiaolang and to protect the Five Dragon Cities. After passing through the Heaven and Earth Transference Array, they arrived at the central Dragon City, and then headed towards the meeting point set by the Infernal King.

There weren't many people here yet, only a dozen or so human Gods. Of course, the Infernal King was here, and he was the leader of the human race, but of the ten or so gods, Long Chen also saw someone he did not want to see. It was the little Divine Emperor, Di Yao.

"Long Chen, I heard that you beat up the Nine Heavens Thunder God. I originally planned to let him join in. The Infernal King smiled strangely.

Long Chen had known that he would ask, so he replied: "It's not what I wanted, it's just that the Nine Heavens Thunder God has gone too far in bullying me. To me, the Five Dragon Cities is of great importance, it's no different from my home.

The Infernal King chuckled and said, "You've met the Divine King of Light, right?"

They had thought that he would punish them, but unexpectedly, he changed the topic, causing Long Chen to nod his head.

However, I still have to warn you that the thing that the Divine Emperor hates the most is killing each other. In the future, you should be more cautious. If he returns and something like that happens again, I won't be able to protect you. "

Sure enough, he still gave her a warning.

Long Chen knew what to do. He might be able to establish his might, but he only had one chance. Of course, there was no need for him to fight to the death with others after this. As long as his ruthless personality was spread out, there would be fewer people who would cause trouble for him in the future.

Speaking of Divine Emperor, Long Chen couldn't help but look at Di Yao. She closed her eyes to rest, and the surrounding gods didn't dare to approach, nor did they change because of Long Chen's arrival.

"It seems that this high and mighty princess might not even place me in her eyes."

Long Chen was too lazy to bother with her either.

The next step was to wait for the arrival of the other deities. In the process, the human deities gradually arrived, and not long after, a total of thirty or so people arrived. In fact, what Long Chen was most worried about was whether or not his destination was the Origin Dragon Palace.

But it was inconvenient for him to ask, otherwise he might expose himself.

So he was still nervous.

About half a day later, a huge group of forty plus people came from the west. Each of them had a wild and tyrannical beast-like aura on their bodies, and they were more barbaric than the human gods.

Even though they were in human forms, it was easy to tell that they were beast type creatures.

Ancient Divine Beast! Just like the Archaic Gods, they were all terrifying existences who had left behind countless legends.

Once they become Gods, it would be very difficult to increase their cultivation unless they obtained natural treasures. On the other hand, the Divine Spirit Realm is very slow, it is very difficult to become a Divine Spirit Realm, but even after becoming a Divine Spirit Realm, there is still a portion of space for them to advance. Thus, after millions of years, many Divine Beasts still remain in the Taiji Realm, but the Divine Spirits have become stronger.

This time, the most powerful ones were still the human gods, and the most numerous ones were still the human gods. This was because many godly beasts that had existed for tens of millions of years still had battle prowess comparable to godly soldiers and divine generals. Moreover, ten million years was not enough for them to have many descendants.

This time, although the Monster race had the most people, their overall strength was slightly below that of the human race. Even the Shanghai deity was the same.

Of course, among the demons, there was also a leader who was comparable to the Infernal King.

The majestic team of divine beasts instantly arrived in front of him. The Infernal King welcomed them and began exchanging greetings with them. Long Chen swept his gaze across them and discovered that there were quite a few amongst the demons who still sensed danger. One of the divine beasts, the one who was facing the Infernal King, was dressed in a silver robe that flashed with stars. The other robe looked like an endless starry sky; it was an enormous space that made one feel dizzy just by glancing at it.

On this divine beast's body, there was actually the aura of a divine dragon. However, its bloodline was not pure and it was not a pure divine dragon, yet it was able to reach the realm of a Divine King. Its Taizhen Deity Realm was already considered extraordinary, only superb divine dragons had Taizhen Deity Realm. In other words, this divine beast in front of him was equivalent to a true super divine dragon!

Thinking about it, it was indeed scary.

It could crush him anyway.

Moreover, compared to a Divine Dragon, the most important thing that he lacked the most was the Origin Dragon Soul.

After that, the four Sorcerer Gods had arrived, but they were not the main characters. The protagonists were still the Godbeast and the Infernal King, dressed in their starlight robes.

"This unfamiliar youth, is he the legendary Long Chen? "Nice to meet you."

Who would have thought that the Goblin God King would actually pay attention to her at this time. Accompanied by the Hell God King, she came to Long Chen's side.

The Infernal King introduced the dragon, "Long Chen, this is the Demon God King. His actual body is the 'Star Flood Dragon' that was born among the endless stars, and his true body is as large as the Milky Way. You can just call him Starry Skies Divine King. "

Long Chen slightly bowed, and said: "Junior greets Starry Skies Divine King."

This was the world of the strong, and they had to follow the rules here.

The Starry Skies Divine King was extremely satisfied. He patted Long Chen's shoulder and said, "A hero has a young man. Not bad. "In the future, we will definitely revitalize the human race even more. We are truly envious."

After he finished speaking, he walked past Long Chen, and met up with the Infernal King and the others. It seemed like he had spoken a few more words with Long Chen, which was quite courteous.

Long Chen wished that no one would notice him.

It was about to start.

After all, he was still somewhat worried about this woman. However, he soon relaxed as he didn't expect that on the side of the Demon race, there would actually be a young, handsome Demon God Beast that was pestering her.

If one looked carefully, that young divine beast actually had the same bloodline as the Starry Skies Divine King, and should be from the same race as him, it was also a Winged Flood Dragon. It was no wonder that even though Di Yao was impatient, she did not shake him off. It was also no wonder that he had the guts to pursue her, since he was a human Daughter of the Divine Emperor!

Under the lead of the Infernal King and the Starry Skies Divine King, the group of gods started heading towards the east. Long Chen mixed into the crowd.

Along the way, everyone was conversing with each other. No one paid much attention to him.

On the other side, Long Chen had also heard the young space dragon's name. His name was Xing Chen, he had a pretty good concept and his temperament was also very natural and unrestrained.

"I'll say it again, scram." Di Yao couldn't help but to threaten him.

Xing Chen's eyes flickered with bursts of light, and then he laughed and said: "Looks like Princess isn't in a good mood, then Xing Chen won't speak much. If there's a chance in the future, Xing Chen will once again invite the princess out to play. "

When Di Yao heard the two words' play ', her mood worsened.

Very quickly, they left the Immortal God Realm and headed towards the east. Long Chen's heart immediately tensed up.

For now, the direction they were moving in was indeed the direction of the Dragon Palace.

After a quarter of an hour, he let out a sigh of relief. He had already deviated slightly from the Dragon Palace. Obviously, it wasn't the Dragon Palace of origin. A huge stone in his heart finally fell at this moment.

No one noticed the change in his expression.

"Almost there."

After a while, they had already reached the other direction, a little to the southeast. This was a place Long Chen had never come to before. In the void in front of them, there were a few Divine Generals stationed here. When they saw the arrival of the gods, they immediately bowed to the two Divine Kings.

"Here it is. I'll open this door. No one knows what will happen next, so everyone needs to be prepared. The Infernal King warned.

He advanced forward, punching lightly in the air and then immediately retreated to the middle of the crowd. A golden dot of light suddenly flashed in the air, and this dot of light became bigger and bigger, turning into a small golden whirlpool. The whirlpool then immediately expanded, forming a huge golden whirlpool.

The door to the mysterious Ancient Secret Realm!
