

War God 2681

Chapter 2681 - Infatuation Curse

Because of Di Yao's sudden attack, he could be considered to be more forceful.

With a cracking sound, Di Yao's wrist was almost twisted off by him.

However after that, Di Yao didn't make any movements nor did she reply, causing the secret chamber to abruptly become quiet.

The beauty in front of him had snow-white skin and peerless grace, but she was staring at Long Chen in a daze. Tears faintly appeared in her eyes, and when the crystal teardrops appeared, anyone would be nervous.

"Sorry." Long Chen immediately used his fire of life to grab her wrist and help her recover from her injuries. Of course, this was only for an hour.

Di Yao's heart was broken. With tears in her eyes, she stared at Long Chen and said: "Even after a year has passed, you still haven't changed one bit. You still haven't forgotten her? Haven't you come out of your so-called pain? "

Long Chen knew that if he let her stare at him blankly for an entire year, with her princess's temper, he definitely wouldn't be able to hold it in. However, this Princess of the Divine Emperor was not easy to mess with, and he seemed to treat him sincerely as well. She had been obediently staying for a year, and looking at him in this manner could be considered proof of her determination.

He said, "Princess, there are some things that are very difficult to explain to you. But I can't procrastinate with you now. I will be honest, it is impossible for me to love you, I only have one goal now, and that is revenge. But even if I succeed in my revenge, it will be difficult for me to stay together with you, not because it is not good for you. It is just that ever since Ling Xi's incident, I have confirmed my own thoughts.

After listening to this part, Di Yao found it even harder to accept. In the past year, she had been very gentle, but this time Long Chen saw the anger in her eyes, it was clear that she was collapsing.

After carefully thinking about it, he realized that it would be hard for the Daughter of the Divine Emperor to please him and moreover, she had done a lot for him. Long Chen was not at ease, but in order to prevent his from sinking deeper and deeper into the ground, he had to make a prompt decision.

At that moment, she was staring at Long Chen with a fiery gaze, with tears flowing profusely, she said with a choked voice: "Is that so? I said, I can wait for you, can move you, can make you change your mind, can't I? You are the first person I like, and I'm chasing after the one I like. Haven't I proven it to you in this one year? I don't need you to answer me. There's still a long way to go, but you have to treat me better, don't you? "

It had been a year, and with her personality, it had indeed been a test.

He probably wouldn't even be able to make Long Chen stare blankly at Ling Xi for a year.

Although seeing her pitiful crying and helpless look, Long Chen now understood clearly that this kind of thing could not be avoided. He supported Di Yao and solemnly said: "I cannot, I already have someone that I love, and even if I'm not here, this kind of love will not cool down along with the passage of time, nor will it be transferred to anyone else. You don't understand how much life and death we have gone through to come to this day. Princess, I am very grateful to you and am also very guilty towards you. You can make me do anything, but I really cannot do it in this aspect.

Long Chen hoped that she would understand.

Sometimes true love can be fulfilled.

For example, Li Xuanji, she would have easily agreed to it. If she were to leave by herself, who knew what she would have to endure if she were to leave alone?

But obviously, Di Yao was different.

This made Long Chen see it very clearly. In fact, her love for him, was even more of a plundering, a possession. It was as if she was looking at his own prey. When she realized that he was destined not to be able to obtain Long Chen even after giving his so much, she underwent some changes.

Bathed in golden flames, she was tyrannical, cold, and had a strong desire to control herself. This was the real her, she stared straight at Long Chen, her tears had long been burnt away by the flames, holding onto her fists, her nails piercing into her flesh, her voice was much colder than before, almost trembling as she said, "No! I can't forgive you! If I want to obtain you, this is your responsibility. Don't forget about what happened in Dreamscape. If you had the guts to do that to me, why can't you admit it now? I've done so much for you, why can't you just look at me! "

At the end of her sentence, she almost roared, and at this moment, she became exceptionally fiendish.

She had this kind of personality herself.

It was not easy for her to be a fool for a year.

No matter how guilty he was, Long Chen could not retreat. The longer it hurt, the shorter it would be. He took a deep breath and said, "Princess, we are not fated to be together. If you had met me earlier, it might not have been like today. Fate was a very important thing. If you still regard me highly, in the future, we can be very good friends. I will be grateful to you, and I will treat you like my brothers and sisters, and also protect you.

He thought that by saying this, Di Yao would feel better.

However, in the end, Di Yao was still Di Yao. Ever since she was young, she had never come to terms with the things she wanted, much less changing her appearance. What she wanted was not a friend, but Long Chen's love for her, just like Ling Xi. She was no longer clear as to whether it was because of love or not, and what she wanted right now was Long Chen.

However, Long Chen was such a resolute person. Gratitude and love were two different things. Even though Di Yao had become more and more uncontrollable, her anger, anger, and anger were all as overbearing as before, coupled with the anger that she had suppressed for a year, had now erupted and became a sentence. Her entire body was trembling, golden flames were burning, he angrily looked at Long Chen, and said word by word: "I had originally wanted to use a gentle method to succeed and gain a true feeling, but you forced me to walk this path. Don't blame me for what happened next! You have betrayed my love for you! It's you bastard! "

"What do you mean?"

Long Chen took a few steps back. He was a little confused as to what Di Yao was saying, but he understood, it seemed like Di Yao wanted to do something to him. But of course, he couldn't guess. What other method could she use to make him fall in love with her? This sort of thing couldn't be forced.

Long Chen was just worried that if she got angry, he would take the lead and let the gods kill him.

He didn't expect her to have such a huge reaction. He thought she would become a friend or something in the future ...

"What do you mean?" She was still crying, but she couldn't see it. She also retreated a few steps back and leaned against the wall of the secret room face to face with Long Chen. And at this time, her body started to change. Because in this narrow room, Long Chen had no other reactions. He could only ask loudly: "What happened to you? "Don't get angry yet. If there's a problem, we can discuss it."

"There's no chance." Di Yao screamed at him, her voice extremely shrill.

Since that was the case, even though he did not know what Princess of the Divine Emperor was up to, he still remained on guard. He had already become a god, and even condensed a large portion of the power of all living things, attaining the enormous source of power from the primordial divine dragon's heavenly tribulation.

He wasn't too worried. After all, the only people he feared were the two Celestial Kings.

But right at this moment, Di Yao suddenly became extremely dangerous!

In an instant, her goddess' body underwent a bizarre change as her golden energy surged. This was the 'Great Emperor Yang Yuan' formed by the Genesis she cultivated, the 'Heavenly Emperor Ten Thousand Layered Fire Arts'. It was extremely masculine and domineering. But that was not the main point. Instead, it was because in front of her, a golden figure had congealed right in front of her eyes!

This was an unfamiliar woman.

She was not actually here, and her appearance could not be seen clearly, but was able to know how terrifying she was. Almost at the first moment, he guessed that this was most likely Di Yao's mysterious mother!

All this time, he had been paying attention to Di Yao's father, but he had forgotten about her mother. He never would have thought that in this kind of situation where they were at odds, Di Yao would summon her mother, and this woman was also very terrifying.

It would be even more difficult for Long Chen to break out of this place.

However, he thought that if he just rejected her, it would not be a big deal. Although the lady in front of him had already appeared, he could still explain it a little, so he quickly said: "Excuse me, may I ask if you are the princess' mother, the mysterious Divine Emperor?"

The woman's voice was as weak as water, making people feel comfortable listening to it. She said, "Yes, that's right, it's me, you're really heartless. Yao'er has been so good to you, doing things she hasn't done since she was young. She fawned over you, accompanied you, and yet today you've hurt her to such an extent. You've truly done wrong."

The opposing elder had appeared, although the mother had a gentle voice, so it was not clear that she was scolding others, but this was the Divine Emperor! Sure enough, Di Yao could not be provoked. He hurriedly said, "Senior Divine Emperor might have heard what I said before, I really have no intention of harming her. It's just that there are some things that I really cannot change, I hope that you can understand."

The woman giggled and said: "You are really interesting. You have taken my daughter's body, yet you have so many excuses to not be responsible, and even hurt her so much. Do you still want me to understand you? Today, Yao'er let me appear, so she has already made her decision. We have already prepared this gift for a year, and we have finally decided to give it to you today. You will definitely be very surprised. "

Long Chen looked at Di Yao, she was still angry and trembling, her fists were clenched, and there were tears in her eyes as she endured.

"What gift?" Long Chen asked calmly. Divine Emperor was already on the scene, they did not think too much into it at the start, but things might not turn out well for them now.

The woman didn't mind in the slightest when she mentioned it to Long Chen. She carefully described: "This thing is called the 'Infatuation Curse', it is one of the more powerful rules of the Divine Emperor, although it has never succeeded, Yao'er only has one chance to display it. Furthermore, she will also pay a price that you can't imagine, and will even waste a lot of treasures. "The purpose is to make you fall in

love with her. To make you completely and wholeheartedly give up. From now on, she is the only person in your entire world."

Chapter 2682 - Love and hate

Infatuation Curse!

This was the rule of the Divine Emperor, and the Divine Emperor was the Taiyuan Deity Realm. From the primal chaos to the primal chaos, there was a huge gap. This difference was similar to the difference in strength between Divine Weapons and Divine Emperor!

Right now, Long Chen had dealt with the strongest rules before, and that should be done when the Heavenly Demon Ji was in a very weak state. Di Yao and her mother's cooperation, after a year of preparation, was all for the sake of taking care of him!

"Infatuation Curse, what exactly is it!?"

This time, Long Chen coldly stared at Di Yao. Originally, he had some good feelings towards Di Yao, after all, she had never harmed him before.

But if she chose to do this, Long Chen would not forgive her.

Facing Long Chen's questioning, Di Yao mustered up his courage, but he still trembled a little: "It's simple. If you get struck by the Infatuation Curse, you will forget about all the love you have in your heart, whether it's for Ling Xi, your brother and sister, your mother, the Five Dragon Cities, or even the entire world. You will forget about all those when he opens his eyes, and the first person he sees, which is me, will receive all of your love, not just for Ling Xi, but for all of you. In the future, I will be your entire life. "

Di Yao insisted. Under Long Chen's look of disbelief, she finished speaking.

"Many people know that my mother is a Divine Emperor, but they don't know which one. Her Infatuation Curse, without a doubt, can make you completely fall in love with me. Long Chen, don't blame me. You're the one who made me despair, and I won't be afraid to blame you, because when you wake up again, you'll forget about everything. "

She mustered her courage and recovered her personality. She was no longer afraid of Long Chen's gaze.

After hearing all of this, Long Chen's heart was in a mess. He obviously did not doubt the might of this Infatuation Curse, as it was clearly a terrifying rule that was not inferior to the era of Sky Demons. This The God Emperor of Forgetfulness, her rule was probably love, forgetting love was one of the laws of the world.

A rule that could make a person forget their love for everything and transfer it onto another person would cause them to fight for the sake of loving that person for all eternity. This was much more terrifying than even controlling their soul. There was no way to recover it, no way to collapse it.

Towards this Infatuation Curse, of course he was afraid!

If the opponent could really execute it successfully, then it would be even more terrifying than the Infernal King. The most precious thing to him would be his emotions and memories, and if he could forget everything and only love Di Yao, then what was the difference between that and death?

Di Yao, I originally believed that you might like me, but I was wrong. You've never had this kind of thought, and your so-called "sacrifice" is just a method of plundering. You don't know what love and emotion is, that's not plundering! "

However, he soon understood that Di Yao would not change her mind. She angrily said, "Now it's too late to say anything, no matter if you are robbing or paying, I only want one result, and that is that you are dead set on following me, and that's enough. I don't need anything else, even if you are dead, I don't care!"

At this time, the woman in front of her was still smiling with satisfaction. At this time, she had returned to Di Yao's body, and after the two had fused, even though Di Yao was still Di Yao, she was no longer the same Di Yao as before. Instead, she was now preparing to use her Infatuation Curse!

Long Chen completely understood now.

So it turned out that everything before was not true. Di Yao had never changed. It was just as she had said now, as long as she could obtain him, regardless of whether he was alive or dead. Such a terrifying woman was fundamentally unworthy of Long Chen having any sympathy and sympathy for her, and even less worthy of any guilt. Like this, Long Chen's thoughts became clear inside his heart.

He wasn't afraid of having more enemies, but he was afraid of having another woman that he felt guilty for.

Since she placed herself in the enemy's position, then there was no need to be lenient, nor was there any need for a headache. He was not good at talking about emotions, but he was good at fighting.

Di Yao showed no mercy.

She had made her move, but the one controlling her body was not herself, but the The God Emperor of Forgetfulness. The current Di Yao had already changed her appearance, calm and strange, with a faint smile on her face, causing Long Chen to be wary, this was the The God Emperor of Forgetfulness attacking him!

The Infatuation Curse had already been activated, to the point that she did not even want Long Chen to come close. In the process of forming the Infatuation Curse, the power of the Rules of Forgetfulness had already protected her, suppressing Long Chen.

"The Sea of Chaos!"

Long Chen had to retaliate!

This battle had happened too suddenly, but if the other party succeeded, then it would be even worse than death. He could not imagine how he would face and the others when she returned in the future, nor could he imagine how he would face them. At that time, he simply became Di Yao's puppet, even more painful than a puppet!

Therefore, he had no reason to fail.

However, the rules of time had been blocked out by Forgotten Rules.

For this moment, The God Emperor of Forgetfulness had prepared for a long time, to the point where he was extremely familiar with Long Chen's level of power.

The next moment, it was time for the peerless Dragon Slaying Sabre to break! This was the strongest attack that Long Chen could muster in this narrow space. If he could hit Di Yao and dissipate her power, the other party would be unable to succeed and he would be able to resolve this crisis!

One slash to slay a dragon!

Bang!

The power of the break in time continued to clash with the blade aura and struck against the enemy's protection. In that moment, Long Chen had swung his sword once again, and even though he did not manage to injure Di Yao, his slash still managed to cut through time!

Nervous, stimulating!

He always knew that Di Yao was trouble, but he never thought that it would be to this extent. This was the peerless Dragon Slaying Sabre that Di Yao gave him, Long Chen never thought that he would use it to deal with her!

"Remember, I will never love you. I will only hate you!"

He was very angry.

The only thing left was anger and hatred. That blade was more tyrannical, but in the end, he could not win against the The God Emperor of Forgetfulness who had been staring at him for a long time, and had long been prepared for it. Although the The God Emperor of Forgetfulness was not nearby, but she was young, how could he fight against the The God Emperor of Forgetfulness?

The second slash had not succeeded, the Infatuation Curse of the The God Emperor of Forgetfulness was enough. Following her soft activation of her lips, Long Chen heard countless of murmurs, which could not be disappeared or blocked no matter what she did. This was a type of stimulation from an incantation, and within the encirclement of the incantation, Long Chen was suppressed.

This was a Divine Emperor that had made many preparations to attack him.

The Infatuation Curse was extremely swift and fierce. When Long Chen's peerless dragon slaying blade landed on the ground, the light golden hair on Di Yao's head suddenly expanded and instantly covered the entire secret room, surrounding Long Chen.'s long golden hair was like a snake grabbing onto her, there was nowhere for her to escape!

"Di Yao!"

No matter how unwilling he was, the Infatuation Curse was still locked onto him. Other than the layers of illusions and pain brought about by the voice, those strands of hair had even directly stabbed into his

body, connecting with Long Chen's World Tree. A golden shadow passed from Di Yao's body to Long Chen's body, following his World Tree, and headed towards his Heart of Rules!

The appearance of that shadow was exactly the same as Di Yao.

This was the Infatuation Curse that Di Yao had unleashed. In the blink of an eye, it rushed into Long Chen's Heart of Rules and floated in front of his Great Void Cosmic Dragon Primordial Spirit.

"To use a dragon as a primordial spirit is inconceivable. There are also five Dao Seals! What he had learned was so complicated! Unbelievable. "What is this Dao Seal?"

Di Yao's illusion released the voice of the The God Emperor of Forgetfulness. While she was puzzled, she was also corroding Long Chen with her final rules, as long as she could control her primordial spirit and change Long Chen, she could make Long Chen forget everything. The rule of forgetting one's emotions was also one of the extremely rare rules.

She saw Dragon Jade Dao Seal that she did not understand.

This was her first target. The mysterious man turned into a golden mist and tried to entangle the black Dao Seal first. Long Chen was relieved.

No matter if it was the Divine Emperor or something else, encountering the Dragon Jade Dao Seal, the most mysterious and terrifying thing on Long Chen's body, would be a tragedy!

As expected, the touch of the Infatuation Curse met with the Dragon Jade Dao Seal's vibration and counterattacked.

In that instant, a black light wave directly shattered Di Yao's illusory figure, leaving only that brief moment when The God Emperor of Forgetfulness stopped screaming miserably.

Instantly, only Long Chen's primordial spirit existed within the Heart of Rules.

The Infatuation Curse was defeated.

Di Yao took three steps back, crashing into the wall of the secret room. Her entire body became extremely weak, her eyes were bloodshot, and she took out a golden hairpin. However, she didn't expect that the hairpin in her hand turned into powder and completely disappeared.

"Mother!"

Tears rolled down Di Yao's face as she looked around in a daze. However, no matter how hard she tried, she couldn't contact her mother.

But at this time, Long Chen had recovered from the Infatuation Curse's attack. In fact, he had already anticipated this a long time ago, if it was an attack against the primordial spirit, it would be fine not to provoke Dragon Jade Dao Seal s, but if he provoked Dragon Jade Dao Seal s, no matter what it was, he would be courting death.

He had finally escaped a calamity.

And it was a terrifying calamity.

He looked at Di Yao. At this time, Di Yao was in a panic, in pain, searching everywhere, and only when she found that she was completely unable to find the The God Emperor of Forgetfulness did she look at Long Chen with that hateful gaze.

"It's over." Long Chen also hated her because she gave him a rather terrifying possibility.

"Yes, it's over!" Di Yao suddenly burst into tears and laughter. Changing from love to hate was simple, but now she was filled with deep hatred!

Chapter 2683 - Blushing White Hair

This was a complete break.

Long Chen was unable to forgive her, but after the failure of the Infatuation Curse, she couldn't even contact the The God Emperor of Forgetfulness. Similarly, she could not forgive Long Chen.

In over a year of time, she had only done one thing, and that was to make herself fall in love with Long Chen.

When unable to extricate oneself, unable to bear, love the depth, hate the weight. She had been looking forward to obtaining this thing for a long time, but now she had lost all hope. This was a huge blow to her heart. She tightly clenched her teeth, wiping away her tears as she suddenly broke out into laughter.

"If you are so heartless to me, you will regret it!"

Di Yao laughed coldly as tears streamed down her face.

He had even used the Infatuation Curse, then there would be no room for discussion. He had thought that in the future, Di Yao would help him, after all, he was going to deal with the Infernal King. Impossible.

Right at this moment, Di Yao had received a huge shock. She was in incomparable pain, just like a woman who had been abandoned. She looked at Long Chen in despair.

"You've injured me and deceived me. I will definitely make you pay the price."

As she said this, her body underwent a tremendous change!

This was the power of the Emotionless Rules!

Sure enough, Di Yao had inherited her mother's rule. This was her third rule. Outside the rules of space and fire. Perhaps in the past, she was not particularly familiar with the third rule, but at this moment, the stimulation she felt in her heart had successfully pushed her to a higher level!

"A beauty with white hair!"

Suddenly, she stopped in her tracks and looked at Long Chen in a daze.

Suddenly, the light golden hair behind her flew up, dancing in the narrow chamber. The waves were heavy, the surroundings were tranquil, only the long hair rustled, and from its roots onwards, the

incomparably beautiful light gold hair, brimming with luster, actually began to change, directly transforming into a pale white color!

That's right, she had white hair.

Start with the roots and head for the end.

And during this process, there was also a terrifying event, which was the change in Di Yao's body and strength. If one said that the white hair of a beauty was a type of power of laws, then during the process of her long hair turning pale white, her physique, her strength, her world tree, and her divine palace were all undergoing an extreme metamorphosis!

Her 'Great Emperor Yang Yuan' was becoming stronger, and had even added an invisible attribute to it, gradually surpassing the limits of her Genesis. With the power of a Divine Monarch, to be able to use the power of a Divine Spirit that surpassed the Genesis, it truly was a miracle!

Whether it was in terms of its nature or its power, it was transforming. Di Yao was originally weaker than the Divine Monarch of the Netherworld, but in that instant, she had actually crossed a kind of unimaginable gap. Not only was her strength level infinitely close to that of the Order-level, her strength level had even directly stepped into the level of the polar state Divine Monarch!

The power of laws that had forgotten itself had fused into the Great Emperor Yang Yuan.

Whoosh!

In the secret room, a violent gale swirled about. Di Yao already had a head full of white hair, her beautiful light-gold eyes had turned pitch black. Although Great Emperor Yang Yuan was still Great Emperor Yang Yuan, his domineering aura was still scorching hot.

Not to mention the realm of polar state, it had even been strengthened on various levels, causing Di Yao to change her appearance. At this time, in terms of combat strength, the sense of danger that she brought to Long Chen was definitely much stronger than that of Divine Monarch Netherworld!

She should be considered to be infinitely close to the level of the Celestial King!

From her bloodthirsty and cold eyes, it was clear that she had turned all her love for Long Chen into hate. She wanted to kill Long Chen!

Obviously, for a top level power of laws like the beauty of white hair, it required a certain amount of conditions. For example, Di Yao in her normal state, she shouldn't be able to control this kind of power unless she was harmed by Long Chen.

And now, she believed that she had been hurt and abandoned.

Her long white hair fluttered in the wind, coiling around Di Yao. She could vaguely see the extremely cold look in her eyes. She had already said nothing and was about to make her move!

"Princess!"

Di Yao's white hair startled him, and the Infernal King looked at it, immediately becoming stupefied. He had been observing them for the past year, and upon seeing Di Yao acting so sweetly, he couldn't be bothered to observe any further. How could he have thought that Di Yao would suddenly become like this!

"Not good, the princess has entered this state again."

The Infernal King hurriedly withdrew the rules of the secret room. The drastic change that happened in the Hell City alarmed many people.

After the secret chamber split open, the skies appeared above the two of them. If the Infernal King wanted to stop them, he would first have to release them.

Otherwise, with Di Yao's level of strength, if she were to fight with Long Chen in the secret room, it was possible that she would truly destroy the Hell City.

"Come up!"

Di Yao's white hair tumbled around her. With a few words, she rushed up to the sky. At this moment, she was not concealing her strength in the slightest. Her birth had alarmed all the gods in the Immortal God Realm. Whether it was the divine beasts or the Sorcerer Gods, both had felt her presence.

"So powerful, it is close to the power of the Celestial King! "Who is this!?"

"I don't know. It seems to be in the direction of the Hell City. Hurry and take a look."

The Gods would usually stay in the Immortal God Realm. The Immortal God Realm was very small to them, and for a moment, almost all the Divine Spirit and Divine Beasts were heading towards the Hell City. They had a faint guess that something big was about to happen.

Of course, Mo Xiaolang and the others had also felt it. That was where Long Chen was, so they were a little more nervous.

In an instant, the Dragon Sacrifice Continent which had been quiet for a year exploded once again. Maybe it was because of Long Chen, but the focus of attention once again fell onto the Hell City, and everyone almost guessed that this matter was definitely still related to Long Chen, or maybe it was also related to Di Yao!

Some of the Divine Inscriptionists had already discovered that this unbridled and tyrannical power was extremely similar to Di Yao's.

It is now inevitable.

Long Chen followed closely behind Di Yao. Wherever she went, he would follow. He roughly understood that Di Yao wanted to fight a decisive battle with him!

However, the Hell God King had already appeared at this time. He was standing right in front of Long Chen and Di Yao, and could see the clues at a glance. In the past, only Di Yao was there to protect Long Chen, but now the situation had reversed. Long Chen was someone who the Infernal King was somewhat wary of, and now, with an excuse, the Infernal King hurriedly asked, "Princess, did he offend you? If he doesn't know how to repent and is so self-righteous, then I shall take care of him on behalf of the princess.

His tone naturally did not place Long Chen in his eyes at all.

Although Long Chen had defeated the Divine Monarch of the Yellow Springs, the difference between a Divine Monarch and a Divine King was like a huge gulf.

Di Yao coldly scolded, "Scram, I will do it myself!"

The Infernal King froze. It seemed that Di Yao still wasn't giving him face. But from this, it could be seen that since she wanted to do it herself, she hated him to the extreme. This was also a good thing. After all, he was the one who killed Ling Xi. Although he was confident that he did not let Long Chen find out, he was still a little worried after seeing how fast Long Chen's cultivation was.

After passing by him, Di Yao flew up into the starry sky. This was the place where gods fought their battles. If she fought on land, she would definitely suffer hundreds of millions of casualties.

Currently, there were already quite a few deities that rushed over, and were watching this scene in disbelief.

One year ago, Di Yao was in love with Long Chen, but now ...

And also, Di Yao was so powerful at this moment. What was with that head of white hair?

"Today might be the end of you. Enjoy it." When Long Chen passed by the Infernal King, the strange man mocked him with a smile.

Long Chen gave him a bland look, and had already retracted his anger. This was because he was very clear that day was not far away.

In the blink of an eye, he and Di Yao confronted each other in the endless space.

There were more and more Demigods, and many divine beasts had arrived as well. They were all discussing amongst themselves. At this time, Divine King of Light appeared by the side of the Infernal King and said with a hint of shock, "Why has the princess entered such a state yet again? I remember once, only once or twice, when she was very angry. "

"Yes, it's not just because she's angry. For example, last time in the Incantation, even if she died, she was unable to do such a thing. It should have something to do with her relationship with him. This is her third rule, and it should come from another Divine Emperor. "

"What kind of rule can turn a beauty into a white hair?" Divine King of Light wasn't asking a question, but mumbling to himself. He didn't know the details between Long Chen and Di Yao, but right now, they might have a victor.

As the Gods gathered, they couldn't help but make a ruckus.

Mo Xiaolang and Su Yan were a little further away from each other, and when Long Chen saw them, he said, "Don't worry, you guys are a little further away. Now that Di Yao is no longer protecting me, the gods might attack us."

"Big Brother, no matter what, we will fight to the death with you."

Mo Xiaolang said seriously before retreating. But not too far.

On the other side, Di Yao's white hair was fluttering in the wind, the atmosphere was tragic. She extended her hand and grabbed onto the nine star Emperor Sword, this fire attributed long sword was imbued with the power of the laws of forgetfulness.

"If you can't block my sword, you will die!"

Di Yao directly made her move.

Indeed, the difference between the current her and the previous her was incomparably vast, and it was somewhat hard to believe.

Long Chen was not in a hurry to transform into a dragon. He held onto the peerless Dragon Slaying Sabre with one hand, looking similar to Di Yao.

"The knife I gave you is truly laughable." The fire burning in Di Yao's eyes became even more intense.

Chapter 2684 - Sentimental Injuries

"Isn't that one of your methods? "What's so funny." Long Chen didn't care in the slightest. Furthermore, right now the Tripod black was very loyal to him, and it was even more unwilling to return to Di Yao's side. This was the only reason why Long Chen was willing to help him.

Di Yao held the sword in one hand, her long hair fluttering in the sky, with the other hand she grabbed a small, pale white ball, suddenly shattering it. That small, pale ball turned into countless white stars, spreading out in all directions, it looked simple, but it turned out to be a kind of rule!

In the blink of an eye, the entire Star Domain, as if under the control of Di Yao, all the gods had retreated, leaving the Star Domain and becoming outside of Di Yao's control.

"This is called an emotional injury."

As expected, this was still her third rule. Di Yao acted as a pre-emptive measure to suppress Long Chen in this area. Currently, her strength and nature were all above Long Chen's. The only thing Long Chen could fight against were the rules, but in reality, Di Yao's two rules of forgetfulness, her white hair, and her emotional injury, were both terrifying!

The rule of love was extremely mysterious, each word was filled with emotion. It was the most important thing in the world, and might not have any power, but when Long Chen truly displayed his power, he discovered that it was extremely terrifying, because at times, he himself would also advance due to love, and at times, he would make a move as well.

His emotional trauma had taken control of this endless starry sky.

White dots could be seen everywhere, each white dot seemed to be a world, among which countless people were going through countless painful stories. When this move was being used, Di Yao's face was covered in tears, but this was terrifying!

BOOM!

The Rules of Affection and Injury were suppressed.

Long Chen immediately felt dizzy.

This kind of rule, the more passionate a person was, the harder it was to resist. It could be said that Di Yao had completely grasped his weakness, using the word 'love' to attack him. She herself was not Long Chen's match, but using methods to improve herself and suppress Long Chen had reversed the situation.

It was unable to describe how strong the power of the laws were. Perhaps, the other party could control his emotions, causing Long Chen to sink into an extremely sorrowful atmosphere, countless scenes flashed past his eyes, such as Ling Xi being killed, Ling Xi's corpse, and other people being killed. Everyone he protected was dying, and this world was collapsing and being destroyed!

It was not only his emotions, nor was it his imagination, it was also an entire mental state. Under the strong influence of this state, Long Chen continuously struggled with the demons in his heart, but he wanted to start a war with Di Yao!

"How terrifying!"

He had realized it already.

His mind was in a daze. This feeling was as if he had caught a cold before he started cultivating. It was dizzying and extremely painful. The scenes he saw were all fake and real.

"You truly are a person who values love, but why are you so heartless to me?!"

Di Yao made her move.

An emotional injury was something that she had taken the initiative to do. She had pinched Long Chen's weakness, and she could only use these two ungrateful rules. But using it in her current state, the results were beyond her imagination.

"Dance of the Forbidden Sky!"

Di Yao's graceful body danced in the air. Her pale white hair fluttered in the wind, making her dance extremely attractive, and she was as graceful as an elf. Layers of energy of the spatial laws moved according to her dancing posture, and when her emotional injury restricted Long Chen, she also used the Forbidden Sky Dance to lock onto Long Chen.

Spatial freeze!

He was originally in a very poor state, and now that he was restricted by space, he was unable to move. At this time, Di Yao waved her Nine Star Emperor Sword, sending a sword attack over!

A pleasant surprise!

One of Di Jun's three swords!

Di Yao did not hold back at all. This time, she took out her sword, directly rushing over to kill Long Chen. The nine star Emperor Sword turned into a flash in the starry sky, rushing over to kill him!

"Eternal!"

While Long Chen was struggling, his eyes became unreal. Using the power of the laws of time, he locked onto Di Yao's Fleeting Sword. Indeed, at this time, Di Yao's Great Emperor Yang Yuan was extremely powerful. At that moment, Long Chen was eternal, and he only allowed his to stay for a relatively short period of time.

Of course, that was enough.

Long Chen finally managed to regain his ability to move, but the light wound was still able to reduce his strength greatly. Once again, Che Di Yao's killing move came up to him!

"The Tempest of Time!"

Under this chaos, Di Yao was finally forced back. Even her long hair was torn by the power of time, the surrounding audience's spirits were pushed back, because several divine weapons were accidentally attacked by the power of time, causing serious injuries on the spot!

From afar, the entire starry sky seemed to be trembling.

It could be seen how much strength Long Chen had right now.

However, this was actually not his peak strength. Currently, under the suppression of emotional trauma, he could only display about half of his abilities.

"I have to break the rules of this love wound to be able to defeat her. But how can you break such a rule? "

Long Chen felt a headache.

In the eyes of the Gods, even if Long Chen was not injured, he had already been suppressed by Di Yao.

"Nine Slaughter!"

Di Yao once again attacked with her sword, the nine star Emperor Sword turned into nine streaks of blazing flames, and then formed nine three-legged Gold Crows, surrounding Long Chen, the huge beasts rolling around, and the blazing flames layer upon layer!

At that moment, Long Chen could only transform into a Divine Dragon, he appeared as an Primordial Blood Spirit Dragon, and at the same time, Di Jun's Three Swords and Two Swords had already arrived, his entire body suddenly stirred, and countless of dragon scales began to shine.

"Blood Weeping Dragon Soul!"

The divine ability combined with the power of the Ancient Code, that was the true power of the Ancestral Dragon. A million little slaying dragons rushed out and clashed with the Three-legged Golden Crow, and as the two clashed, they were annihilated, suppressed by the power of God, especially Long Chen who was under the influence of the rules of grievance.

But Long Chen had managed to block her second sword attack!

"It seems that I can only use brute force to break this emotional injury."

Long Chen had tried many different methods, but none of them worked. He knew that under the suppression of this Di Yao, he could only keep on being beaten, and the moment the opponent grabbed the chance, he would be dealt a fatal blow. This battle was rather dangerous!

Seeing the scene of this battle, the various gods could not help but feel pleased. Last time, when Long Chen defeated the Divine Monarch of the Yellow Springs, he was this pleased with himself.

"The third rule of the princess is truly inconceivable. It could not be broken. It will be hard for Long Chen to escape this calamity. "

"What exactly is going on? The only reason why this glutton is so arrogant and despotic is because he relies on the princess' protection and likes him. You've fallen out with the princess? "

"Hehe, you don't know what's good for you. The princess is good to him, and he even kicked his nose in the face. Now that he has angered the princess, he should know that he is regretting it." Unfortunately, this time, no one will save you. Even if he was able to survive the attack of the princess, how could the Infernal King let him off? "He's the person who killed the Divine Lord of Netherworld. He only managed to survive because he was protected by the princess."

"Not only is he going to suffer, Mo Xiaolang and the Nuwa Devils have also reached an end. I thought they were an eyesore. "It's better if it's settled early."

Looking at the self-proclaimed strong Long Chen, he seemed to have countless rules for staying up all night. However, in front of Di Yao's grievances, he could only be suppressed, and in addition to that, Di Yao himself surpassed him in almost every aspect!

However, with the power of all living things, Long Chen's power would never stop. If this continued, there would be a day when Di Yao would be tired, and he wouldn't have a chance.

Such a big battle would definitely not be able to hide from the masses. Now that the Dragon Sacrifice Continent was alarmed again, he came to watch the godly battle.

This era had changed. The deities that did not even know if they existed before now often fought in the air. All living beings could be considered to have enjoyed their eyes.

It was as if every single time, Long Chen was the one fighting!

There was no end to the fight. Di Yao was like the sun in the sky. Her attacks were all extremely ruthless.

"Return to your world!"

As he was using the mixed use of the spatial power and flame laws, Long Chen was only able to dodge the light injuries in an extremely sorry state. He also suffered a few wounds on his body, but his fires of life were fine!

"Qianyang!"

This was the third sword of Di Jun's Three Swords!

It was also the most powerful sword attack!

Di Yao descended from the sky, the nine star Emperor Sword formed a thousand times and formed a thousand suns in the sky above. To all the living beings, it was unknown how many people closed their eyes in an instant due to the light, and how many places were immediately set ablaze. The entire Dragon Sacrifice Continent was in a state of chaos.

The Thousand Yang Sword, had come in order to completely defeat Long Chen!

A sword-force formed from a thousand suns.

Long Chen wanted to focus his mind, but his emotions were in turmoil at all times. Not only was he suppressed his spirit, he was also suppressing his strength, and the more emotional people he was, the more trouble he would face. And now, the last strike of Di Jun's three swords, also brought about a terrifying crisis.

Sword Wave!

Thousand Sunsets had fallen! Long Chen had nowhere to run.

"Damn it!"

Even though he had the power, he was unable to unleash it. This feeling was truly depressing, if not for the emotional injury, even if Long Chen might not have been able to defeat Di Yao, he would not have been in such a sorry state.

Extreme suppression!

The moment of Qianyang's death, as well as the moment of his ultimate attack, Di Yao wanted to deal with him once and for all. End it all.

"You said that we will never have the same fate in this life. In that case, I'll send you to your next life, and then you can come and see me again."

Di Yao said in a sobbing tone.

Looking at it from Dragon Sacrifice Continent's perspective, the scene was even more terrifying, there were actually a thousand suns falling in the starry sky, if it hit Dragon Sacrifice Continent, then it would definitely destroy trillions of lives.

Long Chen was so angry.

This was the most depressing battle he had ever fought. After being suppressed to this point, even he was enraged, seeing that his opponent was about to kill him, and all the other living beings seemed to be worried for him. After all, the scene of Qian Yang dying was simply too big.

All living beings are willing to provide with a great deal of power.

Being suppressed to the extreme, his emotions fiercely rebounded, and he wasn't even able to withstand the pain.

Long Chen's power, which had been suppressed to the utmost limit, had undergone a huge transformation at this moment. The origin energy of the primordial divine dragon's heavenly tribulation increased sharply and its majestic power surged. It had actually allowed him to break through a bottleneck, charging towards the Perfection realm amidst the battle!

Chapter 2685 - Rift

BOOM!

A huge vibration occurred.

At the moment of Qianyang's death, a huge change had happened to Long Chen at this moment. The gods could clearly see the explosive growth of the Divine Source Power in his body, and in a short moment, he had completely transformed and reached a new level.

Breaking through at this time, especially for the gods, could only be described as miraculous.

Of course, before they grew to their peak, their speed would also be quite fast. However, it was definitely impossible for them to be like Long Chen; it had only been a year, and he had already reached a new level.

The Gods still remembered how, a year ago, he had just crossed the Fiendgod Calamity and truly become a Deity.

This speed was truly heaven-defying.

"The only explanation is that before this Long Chen became a god, he possessed the power of a divine spirit and had accumulated too much power. Only after he had become a god, did the accumulated divine power explode in a short period of time, allowing him to almost continuously break through two stages, and directly reach the Taiji Realm realm."

When he finished speaking, the situation that had been deadlocked for a long time finally turned for the better.

Long Chen had been waiting for this moment for a long time.

BOOM!

With the power of all living beings supporting him, now he was simply a miracle. He grasped the peerless Dragon Slaying Sabre, welcomed the fall of Qianyang, soared into the sky, and slashed out!

A single saber strike, Thousand Sunsets Explosion!

After breaking through to a new realm, it seemed that even the emotional trauma had greatly affected and suppressed him, and it no longer had the same great effect as before. The main reason was that before this, his strength was not as high as Di Yao's. However, after reaching the Perfection, he was practically on the same level as Di Yao.

Moreover, the current blade was the power of time breaking!

Time could be broken, he could be facing people, or he could be facing objects.

For example, Long Chen's current target, was the fallen Qian Yang.

The power of the Cracking Time Rules collided with Fallen Qianyang, causing an incomparably huge wave to sweep across the land. From the Dragon Sacrifice Continent, one could see the terrifying sun that had fallen, shrinking, before eventually disappearing without a trace in front of Long Chen's eyes.

After Long Chen levelled up, he caught this move.

Furthermore, his emotional distress was no longer suppressing him like before.

The Long Chen in front of them had surpassed their imagination time and time again. Breaking through in battle, and also only one year had passed. To the Gods, this was practically no different from a continuous breakthrough.

If it was before he became a Deity, then it would still be acceptable.

Even in the Ten Thousand Worlds, Divine Emperors were not like this when they were young.

Therefore, at this moment, the entire audience was in an uproar as they looked incredulously at Long Chen. When they had returned to the Dragon Sacrifice Continent, they did not expect such a terrifying existence to appear here.

Every time Long Chen suffered setbacks, like the last time he was imprisoned in the Hell City, everyone thought that he was done for, but every time he stubbornly survived.

But this time around, Di Yao, who had protected him in the end, had already given up on him.

So the gods were thinking, so what if he could obtain Taiji Realm and Perfection? He had to be punished by the gods!

Currently, the most restless person was none other than Di Yao. She had once again seen the Long Chen who had broken through, and now that he had rushed forward with cold eyes, it was that kind of annoying feeling again! Because of his persistence and tenacity, even though he had been defeated, he had never been afraid of Di Yao!

Di Yao gripped her sword again as her long hair danced in the wind. Her white hair billowed as she madly rushed over. Wherever her sword passed, the space around it lit up, and a golden light engulfed the entire space!

"Die!"

Without saying a word, Long Chen's eyes became illusionary. In that moment of Eternity, the increase in realm brought with it an increase in strength, and even more so in power. After breaking the love wound, Di Yao was immediately stopped by him in that moment of Eternity!

This time, Long Chen was no longer polite, he unleashed the Break Time Skill once again, with an intense burst of force, his mental energy was restored by a lot, showing a power that completely surpassed his previous self. The blade Qi moved horizontally, the tyrannical slash directly clashed with Di Yao's Nine Star Emperor Sword that had broken free from her grasp for an instant!

Trapped!

Three breaths of time.

Since Long Chen was so close to her, of course he wouldn't give her another chance. He entered the Time Traversing Dragon, and when Di Yao couldn't see him for a moment, the peerless Dragon Slaying Sabre had already cut off a few strands of his hair. He said: "Princess, you've lost."

Di Yao had already expended a great deal of her energy, and with the time being cut short, her strength was greatly depleted. At this time, she had indeed already lost the strength to fight back.

The outcome had been decided.

It had to be said that Di Yao's white hair and her emotional injuries were indeed very heaven-defying. If she did not break through at the last moment, who knew what Long Chen would do. In the past, Long Chen did not really take her seriously. After all, she was a spoiled child, and in terms of battles, she could not compare to Long Chen, who had fought his way up from the bottom.

But of course, he also understood that defeating Di Yao was nothing. Next, if Di Yao decided to kill him, he would definitely have to face other opponents.

"Long Chen!"

Di Yao clenched her teeth, and shouted out his name, her vicious eyes were still staring at Long Chen. She did not expect herself to suppress Long Chen all the way, but to lose at the very last moment!

In the trial of love, he lost to him!

In the battlefield, he lost!

She wanted to kill Long Chen, but she wanted to rely on herself. Now that she had been defeated by Long Chen, the feeling of having no place to vent her anger was simply too painful. It was simply too painful.

At this moment, the Infernal King moved and appeared right beside Long Chen. He reached out a hand towards Long Chen.

"Ghost Hand."

This seemingly inconspicuous move was actually a rule, and an extremely terrifying one at that. This should be one of the rules of Hell.

Even though it was not eye-catching, Long Chen could still feel that the Infernal King was hiding this world in his hands, a dark and cruel world. This was a kind of binding law that only Divine Kings could use, Long Chen was not sure if he could resist, after all, when the Celestial King made his move, Long Chen knew, that he was much stronger than the current Di Yao!

"Scram!"

Long Chen was actually already prepared to fight.

However, it was only the Infernal King. Even though he knew his opponent was at the peak of his cultivation, he still wanted to give it a try. But at this moment, Di Yao angrily snapped, causing the Infernal King to stop.

"There's no need for you to come. He's my prey."

Di Yao waved her hands, she couldn't be bothered to talk to the King of Hell.

Thus, Long Chen was able to escape a calamity.

He chuckled and said to Long Chen: "No matter what, you are always provoking trouble. The princess already wants to kill you, how long are you going to live?"

Long Chen was extremely calm as he said, "Didn't the Divine King appreciate me greatly in the past? Why did you want me to die again recently? Is it because I killed the Yellow Springs Divine Sovereign, your lackey? "

The Infernal King did not get angry and said, "It's not that I want you to die, but I do admire you. But as the Celestial King, I have to follow the divine rules. And how could he explain it to the Divine Emperor? I really want a good future for you. When the time comes, I might be able to bask in the light as well.

At this point, he returned to the Path of the Gods. As expected, Di Yao was still very stubborn. She couldn't kill Long Chen herself, but she couldn't allow other people to kill Long Chen either.

He then confronted Di Yao.

Her anger had gradually been suppressed, and it had turned into a deep indifference. Now that she seemed to have stabilized her white hair, it was almost like she had raised a whole new level, and of course it was not just this part of the change. Her body originally controlled the Emperor's bloodline, but now that the two types of Divine Emperor's blood had fused, her talent had also increased. His future achievements were limitless, even if he didn't have emotions.

"Go back to your Five Dragon Cities. If I don't kill you today, there will be a day when I will make you lose to my sword and beg for your forgiveness! "

Di Yao coldly replied.

was the one who made her change from a little girl to her current cold and detached self.

Long Chen continued: "With regards to today's matter, from the moment you decided on using the Infatuation Curse against me, I had already given up all hope. We were originally on different paths, why would the princess make things difficult for me? You can despise me, and I can live in peace. "

Di Yao replied, "Don't even think about being too beautiful. From today onwards, your fate is no longer in your hands, but in mine. If you want to escape from this fate, you have to be stronger than my father. But is that possible?" You don't have the confidence, and now that you have missed this chance, don't even think about having a good life in the future. In this lifetime, I will use it all to take revenge on you. "

Just what kind of hatred could cause her to become like this?

Long Chen was truly indifferent, this was not emotionless at all, but rather, he was responsible for each other, but Di Yao felt that he was heartless, this was something that could not be explained.

In the future, this woman would definitely bring him all kinds of troubles. When her father returned, he would be in grave danger. The surrounding gods were also eyeing him covetously. This Primordial Gods was truly interesting!

Today, it could be said that Long Chen had completely broken all ties with them!

None of the Gods stood on his side.

The Infernal King, the various Divine Monarchs, and the various Divine Generals all looked at Long Chen as if he were their biggest enemy. They never treated Long Chen as one of their own, so the so-called "juniors" were just mocking him.

Long Chen finally understood.

The thing he understood the most was that he didn't have much time left. It just so happened that he had a grudge with the Infernal King.

"Then I'll take my leave."

This was his attitude, and staying here was useless. He might as well go back and improve himself. Only strength could allow him to protect his home.

"You can't leave." The Infernal King was going to imprison him.

"Let him go!" Di Yao glared at him coldly.

The Infernal King was helpless, but he was also baffled in his heart. Di Yao liked Long Chen so much and even offered herself up for him, how did she change to such a degree? Long Chen was so stupid that he didn't even want the beauties and overflowing powers that he had in his hands?

Chapter 2686 - Hun Yuan's Heavenly Fate Dragon

From today onwards, the conflict between him and the Primordial Gods that was difficult to resolve could be considered settled.

This was not because Long Chen was impulsive or careless, but a matter of fate. First of all, the assassination attempt on Ling Xi by the Infernal King was already an irreconcilable conflict, and second of all, Di Yao's messed up actions were all aimed at forcing him.

Dragon Emperor, Yang You and the others all recommended Long Chen to be one with the Gods. He tried to do the same thing, but it was useless as others did not have such intentions.

Right now, the reason why he wasn't dealt with by the Gods was because Di Yao wanted to defeat him herself.

"In other words, I'll be fine before she defeats me. But, there will be a day when the Divine Emperor and the God King return, then the situation will be even more out of my control. I don't even have the right to speak, let alone take revenge for Ling Xi. "

Overall, what was in front of Long Chen was a difficult road.

He did not care about the gods, and directly returned with Mo Xiaolang and Su Yan. His figure gradually disappeared into the horizon, and this departure was even more decisive.

Although the Gods were invincible, Long Chen was fighting hard for the sake of challenging them. He had too many questions and secrets in his heart that he would only understand if he had the strength of a 10,000 Elder! For example, how the divine dragon was exterminated and how Long Qinglan died! Who was this mysterious existence?

He had to resolve the predicament in front of him on the day that the Divine Emperor returned!

The eyes of the god were indifferent as they watched Long Chen leave. Today was a day of total destruction.

Di Yao angrily retorted, "What are you all looking at? All of you, scram!"

The crowd saw that her hair was completely white, and it was obvious that she was deeply wounded in love. They did not dare to provoke the princess, so they hurriedly left. Even the Infernal King did not stay behind. They still had their own missions, they did not come back to the Dragon Sacrifice Continent to play.

"I really didn't expect that such a genius would emerge from this world that was on the verge of collapse. However, even that genius couldn't save the world, and the day that the Everlasting Stone was taken away would be the day this world perishes!"

Staring at the vast world before him, the Infernal King revealed a strange, cold smile.

At this time, Long Chen had already returned to the Dragon Slaying City. All the Dragon Emperors, Yang You and the others were waiting for him, and only after seeing their faces full of concern did Long Chen feel moved and warmth.

"Come to my Divine Kingdom to have a chat."

Long Chen brought the Dragon Emperor s to his own Divine Kingdom.

The immortal Dragon Emperor was slightly angered as he said, "These Primordial Gods are all claiming that they are ancestors, yet their actions are all over the place. If they did not use the eternal radiance to save this world, who knows how many people would suspect them?"

All the Dragon Emperor s were a little angry.

"Chen Er, you haven't suffered much during your stay in Hell City, have you?" Dragon Emperor Yongye asked with concern.

Long Chen said: "Don't worry everyone, I am fine, I just have a falling out with the gods, even Di Yao views me as an enemy, our Five Dragon Cities's future situation will become dangerous because of me."

Dragon Emperor shook his head: "Don't blame yourself, this is not your responsibility. If not for you, I'm afraid we wouldn't even have our home. No matter what happens in the future, even though we might be weak, we will definitely unwaveringly support you. "

"Right." The Dragon Emperor s all agreed.

Yang You said: "If their goal is only to get the Five Dragon Cities, then it's nothing, even if the Five Dragon Cities's legacy cannot go on, the billions of lives in the Dragon Sacrifice Continent are still fine. But everything that has happened recently made us have no choice but to doubt the identity of the Primordial Gods and the rest. The ten thousand realms are too big, we can't possibly know this kind of secret, could they have returned to save this world, or for what? "

Long Chen asked the peerless Dragon Slaying Sabre, and asked: "Do you know why?"

The Tripod black was startled and said: "I don't know, but didn't they say this is their homeland? Of course they have come back to rebuild the world, but they have a higher level of this world in the 'Taihao Region', where there are countless living beings that can be enslaved. I think that in the future, they should still leave this place."

"Taihao Region?"

"Mn, it's a place within the Ten Thousand Worlds, where more upper realms are gathered. As for the Dragon Sacrifice Continent's side, it was originally the lowest level world, but with the Everlasting Stone, it can just barely be considered a mid-level world. At least Divine Emperor can still hold on here. "

The Myriad Domain was limitless, and Dragon Sacrifice Continent and Lingsu Star Sea were but a drop in the ocean.

"In other words, there will be a day when they will leave." Long Chen and the others pondered.

"If their return was as simple as just rebuilding their home and returning to their upper echelon, I really don't believe it. If they don't look like people who are selfless and dedicated, I can tell that they don't have any feelings for this world. They are selfish and self-serving, completely unlike their ancestors."

"So, they must have a secret!"

Everyone thought so.

Yang You suddenly said, "Actually, powerful gods rarely stay in their respective Shencheng. I keep having the feeling that they are searching for something when they travel upstream in the entire Dragon Sacrifice Continent. For example, last time when they entered the Incantation. "

Long Chen came to a sudden realization, and said: "That's right, their center of gravity, should be searching."

Yang You stared at Long Chen, and said: "Speaking to here, I remember something. While you were in Hell City, a small matter happened. "

Long Chen listened.

Yang You continued, "It's like this, when you and the Ancient Giant Demons fought in chaotic star field and destroyed the entire chaotic star field, we thought that everything was gone, but the Gods found out, that in the endless starry sky, there is still a planet, do you know what it is?"

Long Chen had a flash of inspiration, and said: "Is that Star of Destiny!"

He had always known that the Star of Destiny was very mysterious. When he went to the demon star, he had already obtained the white floating grass, but he did not have the time to go in and take a look. His

battle with the group of devils caused such a huge commotion, so he thought that the Star of Destiny was just like the other places, completely destroyed.

It was obvious that it was because of its mysteriousness, and even possibly not inferior to that of the Incantation s.

Dragon Sacrifice Continent was once the number one of ten thousand realms, so it was normal for him to exist in such a place.

In fact, there were even places such as the Dragon Palace and the Dragon Palace.

"And then?" Long Chen asked anxiously.

Yang You said: "The four Divine Kings have all gone. From the sounds of movement, they seemed to want to enter the Star of Destiny, but they quickly left. They probably failed. They had tried for two or three months, but none of them had succeeded. After that, they gave up and left behind six Divine Spirits to guard the place. He should still be trying all sorts of methods to enter the Star of Destiny. "

"Even the Celestial King cannot enter?!"

Long Chen really started to value them.

He thought of something. Back then, he had found a stone lock and a key in the slaughtering dragon's tomb, namely Destiny Dragon City and the Star of Destiny. He had obtained the white Floating Grass in the Dragon City and there was a reaction when he passed by Star of Destiny. It was obvious that he could rely on the white Floating Life Grass to break the Star of Destiny's secret.

Currently, the white floating grass was flourishing in his Divine Kingdom.

More importantly, Long Qinglan was a mysterious person. Almost all of the inherited blood essences from the Primordial Blood Spirit Dragon to the God Realm's Heart Refining Dragon were either provided by him or told to him by him. The Star of Destiny and Fate Dragon City both had the word "Fate" in their names, so was it possible that the Star of Destiny was related to the Ancestral Dragon that Fate Dragon City offered?

Fate was the dragon of destiny and will.

The dragon of destiny and wishes was its true name and rule, and its real name was: Hun Yuan's Heavenly Fate Dragon.

Hun Yuan's Heavenly Fate Dragon was ranked fourth in the Ten Great Ancestor Dragon and followed closely behind the Great Void Cosmic Dragon.

It ruled over the Dao of Fate.

Hun Yuan's Heavenly Fate Dragon influenced the fate of every living being. He was an extremely mysterious existence in the Ten Great Ancestor Dragon, but he was always connected to everyone. Everything had its causes and effects, and everyone had their fate. Of course, he was also the wish of all living beings, an Ancestral Dragon born from the will.

Fate was second only to time.

Karma is also behind fate.

Life came after karma.

Destiny was born before life, so first there was fate, and then there were living beings.

Of course, this was just one of Long Chen's imagination.

Right now, his only goal was to be strong. If he really had a ancestral dragon-inherited blood and he had the conditions to get it, he obviously wouldn't retreat. After all, he had the white Floating Life Grass.

"Who are those six guardian gods?"

Long Chen decided to take a look and asked.

Yang You replied, "It's quite troublesome for you. There are six Divine Monarchs of polar state guarding that place. One of them is a Sorcerer, two are Divine Beasts, and three are human Divine Monarchs. The Sorcerer is the strongest among the entire Shaman Tribe. I'm not too sure about the divine beast, but

the three human polar state Divine Lords should be the three remaining polar state Divine Monarchs amongst the human race, with the exception of the Yellow Springs Divine Monarch. "Of course, if you don't count the gods."

Long Chen finally knew who it was.

On the side of the human gods, there were a total of four Divine Sovereigns of the polar state, of which Divine Lord Netherworld had died.

The remaining three should be Holy Martial Fire God, Lord of the Soulreaper and Lord Phantom. If it was a one-on-one battle, no one would be a match for Long Chen. If it were two of them attacking together, Long Chen would be able to handle them, but if there were three, it would be a little difficult, but if there were six, then it would be troublesome. It would at least be more trouble than two Di Yao, or even three Di Yao.

Seeing his hesitation, Yang You reminded him, "If you want to go, you can only secretly go. You can't let the Celestial King know. Otherwise, even if you get something, it won't end up in your hands."

Chapter 2687 - Sky Sovereign Imperial Tiger

Star of Destiny, this is an adventure.

Long Chen was not particularly anxious, even the four Divine Kings were unable to enter the Star of Destiny and had already given up. In this short period of time, even if the Star of Destiny had what he wanted, no one else would be able to take it.

The most important point was that he was currently in an awkward situation.

"I have the Floating Life Grass on my hands, and I just broke through into the Taiji Realm. Within at least a year or two, it will be very difficult for my realm to increase anymore. If Di Yao had improved, or if Divine Emperor and the rest came, there would be no chance for them to enter the Star of Destiny ever again. Within one or two years, Star of Destiny should be the only chance for me to quickly raise my fighting strength! "

"Also, if there really is the inherited blood essence of an Ancestral Dragon, when the Divine Emperor returns, the Star of Destiny will probably not be able to stop him. He is someone close to becoming a real Ancestral Dragon, even if he is protected by the Eternal Rocks, the Dragon Sacrifice Continent would still be like rotten wood in the hands of this kind of existence. In this Ten Thousand Worlds, I should be the only one who possesses an ancestral dragon-inherited blood. The Fate attribute Ancestral Dragon who is ranked fourth must not fall into the hands of others. "

Long Chen had already made his plans.

But even so, he was still a lone wolf. He had to be careful in everything he did, because he had to take responsibility for himself, as well as for everyone in the Five Dragon Cities.

"Ling Xi is still trying to comprehend the 'Heavenly Rules Spiritualism'. I think it will be a while before she returns, I need to try my best to reach the level of the Infernal King, or even possess the power to kill the Celestial King!"

Celestial King!

The king of the gods!

An illustrious figure of the Allworld.

A true Divine Dragon would have to be a supreme Divine Dragon in order to defeat the Celestial King. Many of the inheritances in the Five Dragon Cities were from the super divine dragon's inherited blood. Of course, some high level divine dragons would be enough to deal with the Divine King of initial state.

A low level red dragon was not even comparable to a normal god.

So Long Chen understood what level he was at now.

Now that he had just left the Hell City, he could faintly feel that the Infernal King was paying attention to him from time to time. Compared to when the Infernal King had assassinated Ling Xi, he was much stronger than before, and if the Infernal King were to pay attention to him now, he could vaguely sense that it was him.

At first, he paid more attention to it, but after a while, it became fewer and fewer. Maybe a few days, or maybe a dozen days, he would finally notice him.

After becoming a god, raising one's cultivation would be even more difficult than ascending to the heavens. Eighty percent of the people stayed at the level of their initial state, so they would be unable to progress in their entire lives and lifetimes. It would at least take hundreds of thousands of years for someone with talent to reach the level of a Divine Monarch.

But after a few months of Long Chen's time, he couldn't take it anymore.

He also didn't understand the world of gods, so he thought that their cultivation speed wouldn't be much different from before. Indeed, to him, it wasn't that different. Because he had the support of trillions of lives.

Of the two people by his side, Su Yan and Mo Xiaolang were rather fast as well, but that was because they were both relying on Devour.

Two days after the Hell God King paid his last attention to himself, he entered the state of Time Traversing Dragon, deceived all the gods, and quietly headed in the direction of the Star of Destiny. With his current realm of the gods, he could reach there in half an hour. The Immortal God Region was simply too small for the Gods.

No god noticed him.

He quietly approached the Star of Destiny, and sure enough, after that violent battle, the Star of Destiny was still there. It was shrouded in white clouds, and one could vaguely see the bustling world of the Divine Star, which seemed to be extremely lively. There were quite a few people living inside, and after looking carefully through the clouds, one could still see the expressions on the faces of those people, as well as the lines of the rubble.

The people of Star of Destiny were previously known as the Fate Race, and never appeared. Those who entered the Star of Destiny also never came out, and at that time, the Star of Destiny could still go in.

"It seems like we can't go in now. There seems to be a barrier that is blocking the gods. I reckon that this barrier was created specifically to stop the Gods. " Long Chen surrounded the Star of Destiny with the rules of the Time Traversing Dragon, and did not make any movements.

He saw the six polar state Monarchs standing guard there.

All of them were on par with the Yellow Springs Divine Monarch. Gathering six experts who were proficient in the laws here was indeed a headache for them. The most important thing was that Long Chen still couldn't let them find out about him, let alone fight with them.

If the six polar state Gods were to attack together, she would probably not even have the time to retaliate in time, and would instead be killed by their Rules Bombs. She might not even be able to retaliate in time.

Long Chen was not in a hurry to give it a try. He wanted to know the background of these six polar state Divine Sovereigns.

First of all, he recognized the three human beings, one of them was a young man dressed in white, with his hair tied up in a bunch, his eyes burning with a white sacred fire, the heat waves were extremely oppressive, it was Holy Martial Fire God. In actuality, the Holy Martial Fire God came from the Di Jun Divine City, he was Di Jun's family general. This time, he came with Di Yao, but Di Yao didn't want him to follow her, so he was willing to serve the Hell God King. Due to the fact that he was a subordinate of Di Jun, the Hellgod King was extremely courteous to him.

Holy Martial Fire God was not one of the seventy-two gods. He was a divine being that had been born for tens of millions of years. His potential was limitless, and in the future, he might even become a Divine King. He cultivated two rules, the Rules of Martial Arts and the Rules of Sacred Fire.

He was dressed in black robes and looked similar to the guardian of the Incantation. Although the Lord of the Soulreaper was in the east, he was still a small fry with a bad reputation like the Yellow Springs Divine Lord. It was just that the Lord of the Soulreaper came and went without a trace, and liked assassinations, which was why she was even more terrifying than the Yellow Spring Divine Sovereign.

The third was the Lord Phantom. The Shencheng, who was right beside the Dark City, was the number one Monarch under the Goddess of Darkness, a little girl in a black skirt. His eyes were hollow and extremely strange.

There were also two Divine Beasts and a Sorcerer.

Right now, these two Divine Beasts were human forms. They were two burly men, one tall and the other short and strong. The two Divine Beasts were both in human forms, both of them were burly and sturdy. As for the short one, he was dark all over and was even more muscular. His skin was like an armor, and his eyes were filled with evil and dark aura. In terms of power and influence, they were even more murderous than the three human Divine Monarchs.

He was dressed in a long gray robe, his skin as black as iron. He looked weak and thin, but in reality, he was extremely hard, and this person was actually one of the eight great Sorcerer Gods. His name was the 'Black Mage', and he was most likely skilled in the iron laws of the world.

The six Divine Monarchs guarded the surroundings of the Star of Destiny. When Long Chen arrived, they were just attempting to break through the barrier of the Star of Destiny.

So he hid in the shadows, just in time to watch the performance of these few polar state Divine Monarchs.

The three High Lords stood there, their eyes blazing like torches.

At this time, one of the two Divine Beasts took action. One of the muscular man stood out and said in a deep and heavy voice filled with dignity: "It has been several hundred tries, and even the Celestial King has failed. But I keep having the feeling that this barrier has a weak point.

With that, he suddenly turned into a giant beast.

BOOM!

What appeared in front of Long Chen was indeed a fierce tiger. This tiger's entire body was snow-white, its body was huge, and it was even several times bigger than Star of Destiny. After he transformed, Star of Destiny in his hand, was like a small ball.

What surprised Long Chen was that this Divine Beast was also cultivating the way of slaughter. This was a tiger that could be killed, born just for the sake of killing.

"This is the Empyrean Emperor Tiger, the king of the demonic beasts of the Ten Thousand Worlds. It's a tiger of slaughter and killing intent that has already been cultivated to the pinnacle. Its reputation in the ten thousand worlds is extremely great."

On the contrary, the Tripod black recognized him.

When it was only one tenth of the size of Star of Destiny, it suddenly jumped out of the mountain. Its sharp claws struck on the spot of the Star of Destiny, and what Long Chen saw was a layer of ripples on the surface of the Star of Destiny.

He had failed.

"Forget it."

The Empyrean Tyrant Tiger had taken human form and said helplessly, "It's best to obediently watch over them. Once the Divine Emperor returns, they'll be able to break through this damned barrier. Fortunately the thing that we are looking for is not inside, otherwise, we would have to wait for the arrival of the Divine Emperor before we can settle this matter. "

The other Divine Monarchs walked over to the side of the Heavenly Sovereign Tiger, frowning as they looked at the Star of Destiny.

"You two Demon Divine Emperor s have also come along with us, the Emperor?" Amongst the humans, the Holy Martial Fire God said with a slightly arrogant tone.

The Ascendant Di Hu said, "Yes, Divine Emperor Di Jun is going to do something else. The two Demon Divine Emperor have also gone."

After hearing the words ' Demon Divine Emperor ', Long Chen thought about it carefully. He reckoned that the leader of the dragon sacrifice's divine beasts held a similar position to Di Jun.

The Tripod black continued: "These two Demon Divine Emperor s haven't been in the Divine Emperor for very long. These two can be considered the newly born Divine Emperor of the Ten Thousand Worlds. "

They were all gods of the Dragon Sacrifice Continent, so it was normal for them to act together.

"What is that divine beast?"

After knowing the Sky Sovereign Di Hu and experiencing his power, Long Chen asked about the other person.

Compared to the Yellow Springs Divine Lord, the Emyrean Tyrant Tiger should be stronger in terms of physical body and strength. The weakest aspect should be its comprehension of the rules. For the most part, there would be many accidents.

"This is the Profound Nether Holy Beast. The Turtle Snake was similar in form and excelled in the Profound Nether and Water Laws. His personality is sinister and quite similar to that of the Lord of the Soulreaper s, but he knows how to hide his abilities.

These six polar state Divine Monarchs could be said to each have their own unique features.

Chapter 2688 - Real Star of Destiny

Of course, those who could become Divine Monarchs of polar state were powerful divine beings who had cultivated for tens of millions of years and had established countless glorious achievements. None of them would be a random character.

After many attempts, the six Divine Monarchs realized that every part of the Star of Destiny was protected by the protective barrier and thus gave up on it.

The gods have their secrets.

Long Chen listened for a while and they did not discuss what they were looking for in the Dragon Sacrifice Continent. Instead, they were discussing about Long Chen.

Lord of the Soulreaper laughed sinisterly: "It's a pity that old fogey Huang Quan, who was originally one of the four of us, lost and lost. He insisted on assassinating Long Chen's little brother and little sister and ended up dying in the end."

The Sky Sovereign said, "I watched the battle between Long Chen and the Princess Di Yao. He is indeed very powerful, fighting him alone, even if I train in the rules of killing with him, I shouldn't be his match."

Holy Martial Fire God said: "Being so young is indeed a miracle, but unfortunately, his temper is too wild. If we go against him, there's only death waiting for us, furthermore, he did not only go against us, he also offended the princess. With two Divine Emperor behind the princess, no matter how talented he is, he will not have a future. "

The Sorcerer, Black Witch, said with a hoarse voice, "I would actually like to know, what is the relationship between Princess Di Yao and him?"

The Holy Martial Fire God sneered, and said: "Before, I also thought that what the princess said was true. However, I heard the God King say that the princess was still a virgin, and Long Chen did not get the upper hand. To be honest, the princess really likes him, but it is useless for him to do so. If it were me, I would have tried to kill him as well. If you don't even know your status, you really think the princess is begging him. "

The Sky Sovereign said, "Then, how long do you think Long Chen will live? Will the princess surpass him? To be honest, there is no such genius among our three clans. "

The Holy Martial Fire God was a little displeased and said: "He was born to a lowly background. Some fortuitous encounters led to his rise in status when he first became a god. Furthermore, the princess is a Daughter of the Divine Emperor, she was only a playboy previously, but when she truly decided to cultivate, no one could stop her, so, this thorn in her side will die soon, not just him, but everyone else who is related to him, all of the troubles in the eyes of the gods will be eliminated! "

Hearing that, Long Chen's gaze congealed.

If people did not offend me, I will not offend them. But now that Holy Martial Fire God had said it, not only did he become a thorn in their side, even Little Wolf and the others, and even the entire Five Dragon Cities, wanted to exterminate them! This was a blood feud!

He laughed coldly. It seemed that the Star of Destiny was his only chance. He was not an idiot. He wouldn't sit still and wait for death to come, nor would he let the Five Dragon Cities or anyone he cared about die with him.

"Speaking of which, who exactly killed Long Chen's wife?" Just at this time, the little girl like Lord Phantom spoke with a tender and clean voice. When she spoke, her eyes were empty. She did not look at anyone, as if he was blind.

No one answered this question after a long time. Finally, the Lord of the Soulreaper laughed and said: "Who cares, but she is indeed a beauty, but it's a pity that she's just a mortal spirit. To us, what's the difference between a mortal spirit and an animal? "Heh heh."

Long Chen listened for a while and was filled with anger, but he did not hear any useful information. It seemed that they were very careful, as the most important thing was that it would not be leaked.

Action started.

He quietly came to the opposite of the six Divine Monarchs, where the Star of Destiny was located. If he did not reveal any movements, with his current attainments in the Time Traversing Dragon, it would be hard for them to discover him.

At this time, he was fairly close to the Star of Destiny. The barrier that they had destroyed was right in front of Long Chen, something that not even the four Divine Kings could break.

Long Chen wanted to go in and see what this Star of Destiny really had!

"I must not let any deities find out, or else I'll be screwed."

He told himself so.

What he relied on was the floating white grass.

Why was he so confident? That was because the White Floating Grass had started to sway again as it neared the Star of Destiny. When Long Chen approached the Star of Destiny, he quietly took out the White Floating Grass.

The six Divine Monarchs facing him had senses as sharp as Long Chen's.

When the Floating Grass touched the barrier, Long Chen almost suffocated!

Then, he discovered the surprising fact!

That was, when he used the Floating Life Grass to approach the barrier, it started to melt, and a hole that Long Chen could enter completely appeared. As expected, this was the method Long Qinglan found for him to truly enter the Star of Destiny!

From the outside, the Star of Destiny was a bustling world with many people inside.

However, when Long Chen broke through the barrier and looked at the Star of Destiny, he was shocked to discover that it was completely different when he looked in through the gap!

In front of him was an incomparably desolate, barren land. This was an extremely dilapidated planet with no life at all. It was a wasteland that was extremely miserable, and there was only grey dust everywhere.

"How did this happen?"

He had thought that the Fate Race and those bustling cities were real.

In the past, it seemed that no one had ever seen the real Star of Destiny.

Long Chen was slightly moved in his heart. He discovered that the place that the Floating Life Grass had broken was beginning to recover and perhaps, a barrier would form again in a few breaths of time.

"I have to hurry and enter."

At this time, he gave up on entering the Star of Destiny, and quickly fled into the river of time. He discovered that the Infernal King seemed to be searching for him! The Infernal King did not hide his intentions at all. Although he was in the Hell City, his will traveled thousands of miles.

He didn't seem to have found me in the Slaughter Dragon City and went to the Dragon City instead.

If the Five Dragon Cities did not find him, he would definitely be suspicious.

There was no need for him to rush in there. Thus, he quickly left the Star of Destiny in the state of Time Traversing Dragon, bypassed the six Divine Monarchs, and rushed back to Slaughter Dragon City. It was

only until he entered the Immortal God Realm that he was able to remove the Time Traversing Dragon state.

He slowly approached Slaughter Dragon City and started cultivating on the way. This was to let the Infernal King think that he had merely left Slaughter Dragon City and was cultivating in the vicinity.

At this time, the Hell God King had already discovered that Long Chen wasn't in the Five Dragon Cities. He didn't want Long Chen to escape, so he kept an eye on him.

Of course, he did not understand. Unless it was absolutely necessary, Long Chen would never leave his homeland.

"Why is the Celestial King looking for me?" At this time, the clouds in the sky condensed and a pair of huge black eyes shot towards Long Chen.

"Check to see if you ran away." The Infernal King said calmly.

Long Chen said indifferently: "Don't worry, this is my homeland. No matter what, I will not leave this place."

The Infernal King laughed, "I coincidentally think so too. Long Chen, everyone has to be responsible for their mistakes. Now that you want to escape death, the truth is, you can only depend on the decision of the Divine Emperor. Before that, I advise you to be a little more obedient, otherwise, you will die even faster, and then, you will harm everyone who loves you. "

"Thank you Divine Emperor for your reminder."

Long Chen was indifferent. He did not need the Infernal King to explain these logic to him. He was clear that he was currently enemies with the gods, and the reason why he did not die today was only because of Di Yao's mood.

Although these were all terrifying gods of the Archeozoic era, Long Chen was not afraid at all. He was actually extremely unhappy, since when did his own fate begin to be manipulated by others like this?

Just like Di Yao had said, he would never be able to escape her palm?

As a Daughter of the Divine Emperor, could she control her own fate?

"It's still early."

Long Chen thought.

After the Infernal King left, he suddenly came to a decision.

Previously, the Infernal King used the Five Dragon Cities to threaten him.

Long Chen's only weakness was probably the Five Dragon Cities. It was also because of the Five Dragon Cities that he was unable to leave this place.

It should be done immediately.

He was very bold!

Thus, he immediately returned to the Five Dragon Cities.

Soon enough, he gathered the fifteen Dragon Emperors, Yang You, Mo Xiaolang and Little Cat in one group in his Divine Kingdom. Seeing that Long Chen was in such a hurry, everyone held their breaths and waited for him to speak.

Long Chen said: "I just went to Star of Destiny. There was a barrier there that even the Celestial King could not destroy. In the future, if Di Jun and Divine Emperor returned, it might be destroyed. But not necessarily. Why do you say that? That's because I feel that there's a fifth type of ancestral dragon blood essence there. It is precisely Fate Dragon City's Heavenly Fate Dragon, Hun Yuan. "

Everyone could guess what Long Chen was doing, it was just that they were not so sure about it.

Yang You asked: "Chen Er, is that white Floating Grass useful?"

Long Chen replied, "Yes, I used it to open up a barrier and saw the real Star of Destiny. It was completely different from the outside world. After the Infernal King came looking for me, I hurriedly came back, and the barrier closed once more. In other words, I am the only one who can enter the Star of Destiny. "

Everyone nodded and waited for him to continue. Long Chen was their leader, and they knew that was the main point.

Long Chen paused for a while, but in the end, he clenched his teeth and said in the end, "The Infernal King said a few words to me, letting me understand clearly that my fate, and everyone's life and death, are already under the Primordial Gods's control, allowing the Infernal King and Emperor and Di Yao to control them, and that life and death are all up to their last wishes. This won't do, so I've decided."

Chapter 2689 - War!

Long Chen thought very clearly.

To the Gods, the Five Dragon Cities was nothing. Right now, the only use of the Five Dragon Cities was to let them use it as a threat to Long Chen.

Long Chen said: "Star of Destiny may be the only chance to change my future, and will allow me to fight against an opponent of the Divine King level in a short period of time. Otherwise, I'll probably have to wait for a few years. If I enter the Star of Destiny and the Infernal King does not find me, he will definitely suspect that I'm afraid that he will harm you guys at that time. "

Just like the Infernal King had said, his own fate was already in their hands. In the future, Di Yao would either defeat him or have the Divine Emperor return and punish him. In any case, nothing good would happen to him.

With the current state of the Five Dragon Cities, there was no way to fight against the gods. If he wasn't there, they would be dealt with sooner or later.

His analysis was clear. Everyone was waiting for his decision.

He was a very adventurous person. He would never choose to sit still and wait for death to come. Thus, everyone had already guessed his decision. This was not hard to guess, even the Dragon Emperor had similar plans before.

Long Chen finally said in a serious tone, "With my current Divine Kingdom, I want to transfer Five Dragon Cities and the millions of people within him to my Divine Kingdom. From today onwards, Five Dragon

Cities will live in my Divine Kingdom, and I will live and die with everyone. I would like to ask for your opinion. "

Without him saying it, the Dragon Emperor s understood.

There was no need to talk about Mo Xiaolang and the others, they were definitely in favor of it. Now that Long Chen was their pillar, the Five Dragon Cities was his shackle and the only way to let him fight in peace was to enter the God Kingdom.

The fifteen Dragon Emperor s looked at Long Chen with fiery eyes and smiled at him.

"Yang You, you tell me."

All the Dragon Emperor s said.

In reality, they knew very well that this was how they dealt with the Gods. From waiting for death to resisting. Once Long Chen moved the Five Dragon Cities into the God Kingdom, it was practically a signal to the Gods that he was going to escape. The Gods would definitely think that he was going to leave the Dragon Sacrifice Continent and go to another world.

But they didn't expect that Long Chen only wanted to go to the Star of Destiny, which was a place only he could go.

If they were to quietly wait for their deaths, it would definitely not end well in the future.

Therefore, Long Chen chose to fight it out.

Right now, the gods were only using the Five Dragon Cities to threaten Long Chen, but Long Chen did not want them to control him. This was a very important decision, and it was possible that he would have brought forward the time of Five Dragon Cities's destruction. If he failed and was killed, the Five Dragon Cities would definitely not be spared.

If he did not take any measures, he might be able to live for a while longer.

The reason the Dragon Emperor s handed the decision to Yang You was because they believed in Long Chen. After all, Yang You was Long Chen's mother. At this time, she practically did not think twice, and said: "Chen Er, to have the guts to make your own decisions, this is definitely your era. The Gods can't beat you. "

She gave Long Chen the greatest confirmation.

"Alright!"

With their selfless support, Long Chen was completely filled with confidence, and even his eyes were shining. This was a historic moment, where he had followed the Gods, brazenly stepped onto the path of resisting against them for the first time, and his only hope was to rely on the Star of Destiny!

"Don't leak out this news first, I have to secretly move out. The first thing I should do is to devour Dragon City, because he is closest to the Hell City and Hell City is constantly monitoring him. Next will be the Light Shencheng from the south, then the Fate Dragon City, the Life Dragon City, and finally, the Slaughter Dragon City. "

This sequence was almost exactly the same as the one in which Ling Xi had set up the Heaven and Earth Transference Array back then. However, the Dragon Slayer City had become the last city.

The Dragon Emperor s did not say a word and brazenly supported Long Chen doing it.

"Long Chen, just give up on Five Dragon Cities and let the Dragon Fighter enter. We can rebuild the city without the city, but we cannot leave without our bloodline, so we must return to our respective dragon cities and take away all the important things from the Five Dragon Cities. We must make sure to leave the dragon city behind in the Immortal God Realm without making any noise, so that your movements will be even quieter.

The Blood Red Dragon Emperor pondered for a moment and said.

Long Chen had indeed considered this question.

The Dragon Fighter had been passed down for countless of years and had never been destroyed. The Dragon Fighter s were always in the Five Dragon Cities s, so he had planned to move the city with them

from the beginning. Although it was dangerous, Long Chen did not want to let the Dragon Emperor s lose their homes.

The other Dragon Emperor s also said the same thing.

Since that's the case, Long Chen then said: "Alright, but I guarantee that in the future, I will bring everyone back to this place and take back our homeland!"

"Alright!"

At this moment, everyone's heroic spirit was at its peak.

It was as if they had returned to when they were fighting the demons, Sea Clan and Witch Clan back then, and were unafraid of death when they were dealing with the Primordial Demons. The Gods weren't noble at all, they were just another opponent for them!

"No matter what, you are the leader of all the Dragon Fighter s in our group. You are the ruler of all of us. From today onwards, the fate of all our Dragon Fighter will be in your hands! "

This was pressure, and also Long Chen's determination.

He was not afraid of this pressure!

They were Dragon Fighter, and their systems were different from those of gods. What they were looking for was not a god, but a dragon!

"In that case, let's begin. Everyone, go back and pack up. In two hours, I will arrive at the Dragon Devouring City and begin my operation."

"Yes sir!"

The Dragon Emperor did not have such passion for a long time.

They all returned to their respective Shencheng s, to collect the important things. The most important thing should be the well-preserved divine dragon blood essence. To them, the value of inherited blood essence was incomparable to a divine creation artifact.

Long Chen, Mo Xiaolang and the others were together.

"Big brother, I've been enduring for a long time. To be honest, I'm also very unhappy with these deities. I also have my eyes on a few deities that cultivate the laws of fire. If we start a fight, it'll be my chance to level up."

Mo Xiaolang's talent was not as good as Long Chen's. If he wanted to cultivate, it was possible that he would only be able to reach this level after a million years. But if he wanted to devour someone, a single battle would suffice.

Needless to say, Su Yan herself was strong. It was only a lack of power after being sealed for tens of thousands of years.

"A bunch of perverts. My cat-lord is the most handsome and the most normal." The kitten rolled its eyes and said in a bored manner. He had always been so calm and collected. From what others could see, this was a great decision that would change history and change fate. In his opinion, it was just like that ...

Two hours passed in the blink of an eye.

The Dragon Emperor were ready.

It was time to make preparations, Long Chen took one last look at the river and mountain, this was the world he was protecting, now that he had protected the Five Dragon Cities, it was considered giving all other places to the Archaic Gods, luckily, the Archaic Gods would not hurt any other living beings.

"Begin!"

At this point, none of the Dragon Fighters knew what was going to happen.

The Dragon Emperor had already secretly gathered together with the other Dragon Fighters. Long Chen was also constantly paying attention to the Infernal King's movements, because only the Infernal King could restrict him.

Without saying a word, he opened up the Divine Kingdom and swallowed all of the several hundred thousand Dragon Fighters inside. His Divine Kingdom's continent had enough places for them to live in, and he had also absorbed enough Creation Spiritual Energy for them to cultivate.

This was a god.

In the blink of an eye, Long Chen was devoured into nothingness. There wasn't a single Dragon Fighter present.

Long Chen saw the Heaven and Earth Transference Array that Ling Xi had set up and the empty Dragon Devouring City.

"See you next time."

He had arrived at the Everlasting Dragon City.

The Immortal Dragon Emperor and the others were also prepared.

Inside the Divine Kingdom, the three Dragon Emperors of Dragon City were discussing Long Chen's actions, resistance, fighting spirit, inheritance, and dignity to all the other Dragon Fighters!

The Swallowing Dragon City and Everlasting Dragon City were considered the most dangerous places.

Long Chen was very calm in his heart, and he took care of the Everlasting Dragon City once again!

Next was Destiny Dragon City!

Fate Dragon City, and Long Chen was currently controlling his own fate, the fate of the Dragon Fighters!

Success!

The last two.

There were already nine Dragon Emperor s who were trying to pacify the other Dragon Fighter s in the Divine Kingdom. There were already a million Dragon Fighter s in the Divine Kingdom.

Next, from Dragon City to Life Dragon City!

Life, East! Head of Black Jade Dragon, Origin Dragon Palace, Ancestral Dragon Cave!

Long Chen looked to the east and became even more determined!

If he was a dragon, then he had to fight and fight!

The Five Dragon Cities had been passed down for so long, how could they let people just kill them as they pleased?

Hundreds of thousands of Life Dragon City s all entered the God Kingdom, leaving only Long Chen's base camp, Dragon City!

At this moment, he was also the leader of the slaughter Dragon Emperor, as well as the ruler of all the Dragon Fighter s!

"Dragon Fighter, follow me!"

All of the Dragon Fighter s looked at the sky and discussed spiritedly, not knowing what was about to happen.

At this time, Long Chen appeared in the sky.

"Slaughter the Dragon Emperor!"

The Dragon Fighter s were full of worship, and they cheered.

"My fellow brothers and sisters of the Dragon race, enter my God Kingdom!"

With Long Chen's words, the Dragon Fighter did not resist at all. Hundreds of thousands of people rushed forward, all entering Long Chen's Divine Kingdom.

In the Divine Kingdom, nearly two million Dragon Fighter had gathered. This was practically all of them.

Of course, they were not in the Five Dragon Cities, so no one would hurt them.

Long Chen quickly rushed towards Star of Destiny with the fastest speed possible.

The Dragon Emperor had roughly explained everything to them.

Hearing such a shocking matter, all the Dragon Fighters were unable to recover their wits, but during this period of time, they had indeed been living a miserable life.

"Fellow brothers and sisters, please trust me. There will be a day when I will bring you all back to our Five Dragon Cities!" Long Chen could only tell them this.

But even with these words, the Dragon Fighters still cheered.

They were going to fight together with Long Chen!

However, at this time, the bellowing roar of the Infernal King came over, "Long Chen, are you trying to escape?!"

Chapter 2690 - Rushing into the Star of God!

At the final moment, the Infernal King had discovered it.

It just so happened that at this time, it couldn't be considered bad news, but it wasn't really bad news either. At least at this time, Long Chen had already brought all of the Dragon Fighters into the God Kingdom.

"If I was still in the other four Dragon Cities, I would have been discovered by the Infernal King. By the time I brought all of the Dragon Fighters to the Celestial Empire, you would have definitely rushed over to Slaughter Dragon City."

The Hell God King's speed was so fast that it almost surpassed the speed of the Heaven and Earth Transference Array.

Of course, Long Chen didn't bother to answer him. Right now, the most important thing was to rush to the Star of Destiny.

Previously, the Dragon Emperor had already informed the Dragon Fighter of the fact that Long Chen could enter the Star of Destiny and the four Divine Kings couldn't.

Thus, everyone knew that the goal of this dangerous mission was only to charge into the Star of Destiny!

They, too, had heard the Infernal King's earth-shaking voice. Given the Infernal King's speed, he would naturally give chase immediately!

This was a battle for speed!

Long Chen erupted with unprecedented power, and rushed towards the direction of the Star of Destiny.

In reality, the Infernal King only thought that he wanted to escape from the Dragon Sacrifice Continent and go to another world. In the eyes of the gods, Long Chen was now a criminal and they had to wait for the Divine Emperor or Di Yao to punish him.

When the Infernal King roared, everyone could hear him as long as they were above the Immortal God Realm. Some of the gods were even closer to Long Chen, but with their speed, they simply could not catch up to him.

In the human race, all of the current Divine Monarchs of the polar state are with the Star of Destiny.

To be honest, these six polar state Divine Lords had also heard the Infernal King's explosive shout.

The thrilling scene was about to happen!

They did not blame Long Chen for bringing them danger, nor did they complain about him. In their eyes, ever since the return of the gods, their lives had been especially uncomfortable, especially when the Nine Heavens Thunder God, they were grateful to Long Chen and the others. Otherwise, at that time, they would have had to leave their homeland!

In the hands of all the Dragon Fighters, Long Chen was their mental faith, so no matter what decision Long Chen made, they would enthusiastically support him!

They had brought the strongest power of desire to Long Chen!

"Killing the Dragon Emperor! Lead us to resist the Primordial Gods! "

"We've been bullied. Even if they're our ancestors, they shouldn't go this far."

"Our Five Dragon Cities has been around for tens of millions of years. We do not need to look at the looks on others' faces as we survive. Our fate is even less under their control."

This was the voice in their hearts.

This voice transformed into the bravest and bravest power in Long Chen's heart.

He was confident that the Infernal King wouldn't be able to catch up to him!

In reality, he was already infinitely close to the level of a Divine King, even closer than Di Yao. In terms of speed, the Infernal King was only slightly faster than him, but they were originally quite a distance away from each other!

Long Chen was like a ray of bloody light, he transformed into a divine dragon and with his fastest speed, he moved five thousand kilometers in the blink of an eye!

"Why didn't he take out the starship?"

This was a rather dispirited question to the Infernal King. If Long Chen really wanted to escape, he could have directly controlled his Wind Moon Godship. The closer they got to space, the faster the spaceship was able to travel, and the less energy it consumed.

If he were to escape, he would have dispatched his Windmoon Godship by now.

However, the Infernal King did not have that kind of imagination. He would think that Long Chen was able to enter the Star of Destiny, and even more so, that the Star of Destiny was his greatest backer in battle.

"Six Divine Monarchs, Long Chen is heading in their direction, join hands and stop him!"

The Infernal King had also moved ten thousand kilometers in the blink of an eye. When he spoke, he had already charged out of the Eternal Realm.

"Yes sir!"

There were a total of six of them, so of course they didn't have to be afraid of Long Chen. Since Long Chen wanted to unleash his strongest form of speed, then it was simply impossible to hide his position, and the six Divine Monarchs could clearly feel that Long Chen was quickly approaching in their direction. His speed was terrifyingly fast!

It was just like a World Shattering Sword!

Sharp, sharp!

He guessed that Long Chen would definitely use the Windmoon Divine Ship once he passed by a certain place, but his Creation Divine Artifact was definitely not what the Infernal King had in his possession. The Infernal King was confident that he could stop Long Chen within fifteen minutes!

"Long Chen, it's all futile, how can your divine ship with the prehistoric level fight against my divine ship with the Genesis? Furthermore, with me controlling it, its speed will be one fold faster than yours, I know that you are being hotheaded for a moment, calm down and think about it, you are now a mortal, the further you go, the deeper your crimes are, the less likely it is that Divine Emperor will forgive you!"

His threat was known by the entire world.

This was the era of the existences of the gods. The voices of the gods were like thunder to all beings as long as they were willing to do so. They could clearly hear it and the entire Dragon Sacrifice Continent was once again in an uproar!

Long Chen fought along the way, defeated too many gods, and created too many miracles!

The moment he became a god, he obtained the faith of the billions of people in the Dragon Sacrifice Continent!

That was why all the living beings were more willing to side with Long Chen. When they heard this news, they immediately became nervous!

However, Long Chen did not respond to him.

Indeed, he could not escape.

However, he did not want to escape. He only wanted to go to the Star of Destiny.

The Infernal King wasn't able to catch him, nor was he able to guess.

The only trouble was that he was about to reach the Star of Destiny, but those six Divine Monarchs of polar state were already prepared in front of him!

Looking around, the three human Divine Monarchs, the two huge divine beasts and the Sorcerer had already blocked all paths for him. Among them, the human proud Holy Martial Fire God was standing right in front of the Star of Destiny.

Behind him, the Infernal King was about to arrive!

Without saying a word, Long Chen fixed his eyes on the Holy Martial Fire God. In the midst of the extremely quick reunion, the blood red Divine Dragon Body immediately started to spin, transforming into a blood colored tornado, forming an incomparably sharp blood spike!

"Blood Spirit Spikes!"

At the moment, the blood thorns in the starry sky had shot out thousands of miles in an instant. Wherever they went, the space would still shatter one after another with the protection of the Everlasting Stone. Their extremely fast speed and frightening spikes had created a power comparable to that of the God King's attack!

It was equivalent to Long Chen rushing forward for millions of miles and condensing his power to a single point!

Holy Martial Fire God was originally full of confidence, and when he saw Long Chen rushing towards him, he was excited. He had thought that he would make a big contribution, but when the Blood Spirit Spikes came out, he was completely stunned, he knew how terrifying this attack was.

If he were to face it head on, he would most likely be pierced by the Blood Spirit Spikes, and be seriously injured!

In that moment of life and death, even if Holy Martial Fire God did not want to dodge, he could not control his own body, so he dodged. He knew that behind him was Star of Destiny, so why would Long Chen attack him?

"Catch up to him!"

In a flash, Blood Spirit Spikes swept past him, even though it was the body of a god, Holy Martial Fire God was still numbed with numbness, and was swept around by the hurricane until countless wounds appeared!

On the other hand, the other five polar state Divine Monarchs chased after Long Chen, following right behind him!

They thought that Long Chen would avoid Star of Destiny, but who would have thought that he would actually rush straight towards his. Star of Destiny definitely wouldn't be broken through, they were just about to watch a good show with Long Chen's powerful attack, who would have thought that his Blood Spirit Spikes would actually stop in front of Star of Destiny's barrier.

Since Long Chen had stopped in his tracks, the Infernal King would definitely catch up to him within five breaths of time. At that time, he wouldn't be able to go anywhere else.

The six polar state Divine Lords intended to surround him!

Only, he never would have thought that when Long Chen landed in front of that barrier, he would suddenly take out a small stalk of white grass and touch that barrier that couldn't be broken through.

And in that instant, that barrier that not even the Divine King could break through, actually melted, revealing a hole!

The six Divine Monarchs who had charged forward could even clearly see that outside the barrier, what the real Star of Destiny saw was completely different.

Long Chen heaved a sigh of relief. The Infernal King would be able to rush to him in three breaths' time, so without any hesitation, he rushed into the Star of Destiny, and as the barrier had already healed up to about two breaths' time, he wanted to turn around and make his move first. He wanted to prevent the six Divine Monarchs from charging up as well, but he didn't expect that the moment he entered, the world would spin and the enormous change would cause him to be stunned for an instant.

"It's the world within the barrier. It's different from the outside world." Moreover, there was an extremely strong suction force acting on every part of his body, giving him a huge pressure. Hence, he was unable to turn around and attack the six Divine Monarchs!

Roughly two breaths of time had passed when Long Chen had just gotten used to the terrifying devouring power. When he looked up, the barrier had already healed, but the problem was, the six Divine Monarchs had already rushed in. Like Long Chen, they were also in the middle of the devouring power!

If not for the huge change that had occurred since they entered, Long Chen only needed to stand guard at the entrance of the cave.

Six Divine Monarchs of polar state, and it couldn't even be considered to be the worst situation!

"The Infernal King!"

Long Chen raised his head and saw that the Infernal King had crashed into the barrier and was sent flying. He was still slightly slower by a breath of time and was unable to charge into the Star of Destiny.

It wasn't so bad that he didn't come in.

However, the combination of these six polar state Divine Monarchs in front of him was also a huge headache. Fortunately, they were scattered, and only the Holy Martial Fire God was right in front of his eyes!
