

## War God 2701

### Chapter 2701 - Confronting the Celestial King

After the six Divine Monarchs had fallen, Long Chen stood on the enormous altar, with eight white divine dragons revolving around them. However, their eyes were dull, and white chains seemed to be wrapped around their bodies as well.

"Here!"

Right now in Star of Destiny, he no longer had any enemies.

He could now peacefully search for his own things.

In the past, even if four Divine Kings attacked together, the change in Star of Destiny would not be too great. But today, Long Chen could even feel that this Star of Destiny was actually heading far away from the Dragon Sacrifice Continent.

"What's going on?"

Long Chen squinted, staring straight ahead.

In the Divine Kingdom, the Dragon Fighters were originally still immersed in the joy of defeating the six Divine Monarchs, but at this moment, they couldn't help but become nervous. Because from this situation, Long Chen's greatest reliance, the protective barrier of the Star of Destiny might have already been broken.

"Impossible!"

Long Chen still could not believe it. He roughly knew how powerful that barrier was, and this place was a place that had been passed down since time immemorial.

The Infernal King had already tried it out. He was indeed very far from breaking through this barrier!

It was extremely difficult for Long Chen to understand much about the Eternal Rocks, so he could not imagine that it was the Eternal Rocks that had broken the barrier of the Star of Destiny!

But he was a man who would soon accept the truth.

"Time is running out."

If the barrier was broken and the Star of Destiny was exposed to the outside, then he would inevitably be in extreme danger, his life at stake. It could be said that he would very likely fail this time round, and might even lose the chance to rise again. This was a huge matter that concerned the lives of millions of Dragon Fighters!

"I have to find a way to protect myself in this Star of Destiny and use the characteristics here to fight with them! If I don't, I'll have to escape towards the Incantation. "

This was his plan, but the problem was that if the four Celestial Kings blocked the entrance to the Bottomless Pit, he would never be able to leave.

Below, there was an altar.

Then, what was the secret of the altar?

Even though the situation was extremely critical and an even greater danger was about to befall upon him, and all of the future prospects of the Dragon Fighter were in his hands, he did not panic. Instead, he was very calm, communicating with the white dragon and altar.

The altar was very big, so Long Chen tried his best to look for different things on top of it. He realized that the white dragon had already returned to the coiling dragon column and couldn't communicate with it at all, so he decided to search for it himself.

At this time, the Star of Destiny had already stopped. Presumably, the four Divine Kings had also caught up.

"Right, coiling dragon column!"

He rushed to the top of the coiling dragon column and discovered that on the top surface of one of the pillars, there was a small dragon-shaped groove. Long Chen came to a sudden realization and squeezed out his own blood, mixed it with the blood of four types of Ancestral Dragon and dripped it into the groove.

"It's finally done!"

Under Long Chen's anticipation, the eight coiling dragon column and the pale white altar gradually disappeared from his sight. What appeared below him was still a bottomless pit, and he didn't have much time left.

But who would have thought that time would stop here!

Above them, four terrifying god-level killing intents descended. Four berserk God Kings charged down at terrifying speed!

"Long Chen, don't go! If we continue to flee, we'll only end up with an even greater crime! "

He had the most contact with Long Chen, and at this moment, was the most furious!

A total of seven Divine Monarchs of the polar state had died in his hands. From then on, not even a single person in the Dragon Sacrifice Continent had reached the level of polar state.

As expected of the Divine Kings, every single one of them were super strong beings who could defeat the combined attacks of six polar state Divine Monarchs in a frontal battle. In a flash, they were already in the air above Long Chen.

Amongst the four Divine Kings, the Infernal King Long Chen was the most commonly seen one. He was dressed in a black robe, his long hair fluttered in the wind, and his face was as white as paper. The Divine King of Light and the Starry Skies Divine King had met before, and the only person he had not met before was the Dark Desolate God King.

Be it in the eyes or the divine might, they were all more terrifying than the other three.

Soon after, another person came down from above, landing not far behind the four Divine Kings. He was actually desperately chasing after Di Yao. On the side of the Gods, she was now the strongest expert amongst the Divine Kings.

The situation instantly became urgent.

The millions of Dragon Fighter in the Divine Kingdom couldn't help but hold their breaths, worrying about the future of themselves, Long Chen, and even the descendants of dragons. If Long Chen and the others were all gone, then the Divine Dragon's legacy would be completely severed.

The two sides stared at each other in silence for a moment.

You allowed the Divine Monarch of the Yellow Springs to perish, and the Princess and I even treated you so kindly, allowing you to live freely. However, you unknowingly repented and repented, causing such a huge loss to my dragon sacrifice's Gods. Long Chen, do you know your wrongs?

At this point, the other three Divine Kings were not anxious at all. They had been worrying about the Star of Destiny's barrier from the beginning, not Long Chen.

Long Chen realized that these four Divine Kings were exhausted, probably because the energy they expended to destroy the protective barrier around the Star of Destiny was too much.

He couldn't help but ask, "I'm very curious, how did you guys manage to get in?"

Starry Skies Divine King said in a stern and furious voice: "You miscalculated, with the Everlasting Skystone, your Dragon Sacrifice Continent, we do not have anything that we cannot destroy!"

Long Chen laughed and said: "You are the ancestors of the Dragon Sacrifice Continent, why do you call us Dragon Sacrifice Continent? "Who said that you were coming back to save your home?"

They must have other motives for coming here. This made Long Chen think that when he had just become a god, the divine dragon had told him that before he possessed sufficient strength, he should not expose the Dragon Palace's origin.

Di Yao's hair was completely white. At this moment, her emotions fluctuated the most as she berated, "Why are you so arrogant and despotic!?" He was looking down on everyone else! He still dared to be stubborn even in the face of death! Until now, when you committed such a heinous crime, even my father ordered you to be killed! "

"Did it startle Divine Emperor? "Then I really have some face."

Even if it was the Primordial Gods, even if it was the Divine Emperor, Emperor Jun, and the two Demon Divine Emperor, at a time like this, there was nothing left for him to fear!

Only by fighting against the heavens, fighting against the earth, and killing against others could he reach his current cultivation realm. He had killed demons to protect the Immortal God Realm, and he was not afraid of the slaughter gods to protect him! The Divine Emperor's Emperor's Physique could cover ten thousand worlds, but since it had already reached this point, it was destined that he wouldn't be able to be part of it, and Long Chen wouldn't force it either. He had the four kinds of Ancestral Dragon inheritances, so his future achievements were limitless.

First, take away his blood, the World Tree and the Divine Palace. Then, put them into my Creation God Creation Stone to calcinate them and let him experience the pain of ten thousand disasters. Wait for Divine Emperor to bring them over before letting him handle them.

The Dark Desolate God King did not know Long Chen well, in his eyes, he was just an enemy. Their demon race had lost to the Sky Sovereign Emperor Tiger and the Profound Nether Holy Beast.

With that, he immediately took action!

There was no room for compromise!

The eyes of the other three Celestial Kings were filled with murderous intent as well!

Even for Di Yao, although she was struggling a little, her love went from love to hate. Right now, she only wanted Long Chen to kneel down and apologize to her.

At that moment, Long Chen's eyes narrowed.

A big battle!

But of course, if the current him were to go head to head with the four Celestial Kings, he would be courting death!

Therefore, he had long since communicated with Su Yan!

The moment God King Mo Huang made his move, Long Chen released Su Yan. The devil Nether Realm was in its true body state now, so the Bottomless Pit was huge enough and she had been preparing for a long time. The moment it came out, the biggest black hole vortex she could withstand was activated!

BOOM!

That black hole, which could distort the world and mince everything, appeared and spread out like an altar, completely separating Long Chen and the four Divine Kings. The black hole rules were absolutely Divine King level strength, which was also the peak rule and magic power that Su Yan could currently unleash!

Only now did the four Divine Kings realize that they had completely forgotten about the five Divine Monarchs who had devoured the Nuwa Devils, who were now too busy for Long Chen.

"Retreat!"

When the devils were at their peak, they could instantly kill any one of them. The rules of the black hole was also the best at slaughtering and devouring humans, and now, Su Yan's power was similar to theirs. Although her usage of the power was still unfamiliar, her killing power was still terrifying.

In order to avoid being devoured, the four God Kings retreated in a panic. It would not be easy to devour them all!

But they never thought that they were actually not Long Chen's main target!

Everything happened too fast!

When the Divine King resisted the black hole's laws, Long Chen instantly rushed out from within the black hole's whirlpool. His blade broke in half and struck right at Di Yao, who wanted to resist the black hole's rules, right in the middle. With Di Yao's strength, as long as the four Divine Kings managed to stabilize themselves, they would hold her back, but the time they were fighting each other, caused her power to crumble and she couldn't even cry out as she was sucked in by the black hole's laws at a terrifying speed!

Long Chen dodged the God King's final struggling attack and escaped back into the black hole's rules. Of course, Su Yan would not harm him at all.

He had also grasped the most important point. That was, after using the Everlasting Stone, the four Divine Kings were indeed lacking in strength.

Therefore, since the black hole rules were in front of them, there was nothing they could do!

"Princess!"

They were scared silly, the princess had been swallowed?

"All of you, stand here and don't move. If I find out that you have destroyed this black hole, then your precious princess will be shattered into pieces and become a part of the power of the Nuwa!"

Chapter 2702 - Rules of Authority

Like a giant meat grinder, it distorted the space and light, causing the four kings to be busy saving their lives for a short period of time, as they did not dare to approach the black hole.

From this, it could be seen how terrifying Su Yan was right now. As long as she continued, if she was able to devour these divine kings, then it would be even more terrifying.

When the God King descended and Di Yao followed along, Long Chen had the thought of capturing her. She was so arrogant that she would fall for it easily.

When he discovered that the Divine Kings had exhausted all of his strength to break through the Demon Star's barrier, his thoughts became even more firm. He was confident that he could succeed, that's why he took such a risk!

Right now, he was shouldering the lives and legacies of millions of Dragon Fighters, he was deeply responsible and must never make the slightest mistake, so the current Long Chen was even more ruthless than he was at any time!

For example, when he controlled Di Yao, who was instantly severely injured by him and Su Yan, he showed no mercy at all. He killed Di Yao twice in a row, causing her strength to collapse and erupting with a boundless divine power at the same time.

Even though Di Yao was severely injured, and extremely weak, she was still extremely terrified.

Her eyes were opened wide. Now that Long Chen had surpassed her, he had sealed her even more tightly.

From this moment onwards, you will not listen to me at all. In the end, you will be in a miserable state, so don't force me to let you suffer the same fate as the Yellow Springs Divine Lord and the others. You have to know that you owe me a favor.

To Di Yao, the current Long Chen was extremely terrifying.

He spoke every word like a devil.

What he said was all true, he was carrying the entire Divine Dragon Legacy and was fighting in a battle to the death here. If Di Yao disobeys him, being devoured by the Nuwa Demons will be her fate, so Long Chen didn't care whose daughter she is.

"Let go of me, I'm a Daughter of the Divine Emperor, you dare to hold me hostage, have you thought about the consequences!"

When Di Yao said these words, she did not have enough confidence, because at this moment, she was already scared stiff by Long Chen.

Above her, the black hole's whirlpool isolated the four Divine Kings, and as expected, when Long Chen yelled this, the four Divine Kings didn't immediately rush down.

Moreover, they had already exhausted all of their strength, so they might not immediately rush into the black hole's whirlpool.

Now that Di Yao was under the control of the other party, this was a huge taboo. Once something happened to Di Yao, the lives of the four of them and their future prospects would all be ruined. Being able to become the God King had already consumed tens of millions of years of hard work, and no one wanted to ruin their own lives just because of Di Yao's death.

Thus, there was no need to mention how ugly the faces of the four Celestial Kings were right now.

Even the cold and stern Divine King Mo Huang was trembling and his eyes were bloodshot. He finally understood how difficult it was to deal with Long Chen.

He understood Long Chen the best, and now that his voice had shaken this bottomless pit, he shouted angrily, "Long Chen, don't be agitated. The crimes that you have committed, or the Divine Emperor and the Gods of our dragon sacrifice, will only target you, and you can even let your family and friends go. But if something were to happen to the princess, not to mention your family, even if it was all the Dragon Fighters, all of the billions of lives in the entire Dragon Sacrifice Continent, they would all have to die with the princess. "You better think this through clearly. Let the princess go, then we will settle the grudge between you and us. Don't let the people of this world pay the price for your wrongdoings."

After hearing this, Long Chen could not help but burst out laughing, and said: "Is this woman's life so precious? Billions of lives were buried with her? Sure enough, you guys aren't good people. Then what I've done today is even more correct. Even though I do not know who exactly you all are, but since you have said such a thing, then it is basically no different from the Primordial Demons back then.

"Stop wasting time with him. Break this black hole. Even if you give him ten times the guts, he wouldn't dare to kill the princess."

Starry Skies Divine King roared.

Just as he finished speaking, Long Chen showed them what he had done. His Ten Thousand Deadly Claw had pierced into Di Yao's lower generation, from top to bottom, and drew streaks of blood, suddenly, Di Yao screamed miserably, her tears streaming down her face. She shouted angrily: "Don't move, if I die, all of you will die!"

Starry Skies Divine King immediately shut his mouth.

"You're really vicious."

Di Yao turned her head back with great difficulty, her eyes filled with resentment.

"It's not that I'm vicious, but do you think I wouldn't know who attacked Ling Xi back then?"

Long Chen sneered.

Di Yao was dumbstruck, her whole body trembling.

In reality, she had misunderstood. He thought that until Long Chen was ordered by her, he was actually speaking of the Infernal King. And the Infernal King was one of the Primordial Gods, which was why Long Chen was fighting against him.

After saying that, Di Yao no longer dared to speak. Her face was deathly pale, and she allowed Long Chen to control her body as he wished.

She also wouldn't have thought that she only wanted to follow them in and punish Long Chen, but didn't think that she would be captured by him instead.

"Billions of lives?"

Long Chen finally understood, after forcing them to a corner, they had indeed used trillions of lives to threaten him. The Five Dragon Cities could no longer threaten Long Chen.

If they were the ancestors, how could they not take the entire world's billions of lives seriously? Every single one of them had their own fate and future. In Long Chen's heart, they were never a number, but in the eyes of the gods, they were obviously a number.

"They are no different from Primordial Demons! is my enemy. "

Long Chen had already realized this point!

Without further ado, he rushed downwards with Di Yao. Su Yan was not enough, after all the other party had four Divine Kings, he had to uncover the secrets of the Star of Destiny, otherwise, she would really die without a burial ground. If she died, who would protect her home? Who will protect this land that once belonged to the Divine Dragon?

Who would solve the mystery of his father's death?

Ling Xi was still accepting her inheritance, what should she do? And what about their daughter?

There was only one path in front of them. Fight, fight, fight!

"Long Chen, you better think this through! If you surrender now, I can promise you a good result. But you are still stubborn and must definitely die! "

This was the voice of the Infernal King.

Long Chen laughed, and said: "Everyone has to pay the price for their own decisions, and you too, don't have the qualifications to teach me a lesson. There will be a day when I, Long Chen, will make you feel despair, the King of Hell! Between us, it's only just the beginning. "

He rushed downwards.

Above the black hole whirlpool, the Infernal King's face was pale. What did Long Chen mean?

Divine Kings was so anxious that he lost his ability to think.

"If we break the rules of this black hole, he will definitely discover us. What if he kills the princess?"

The Infernal King was in a state of panic as well.

"We were too careless and allowed the princess to follow in."

However, the four of them were all Divine Kings and had only captured Long Chen. Who would have thought that such a situation would occur?

"Stop talking, think of a way!"

The Divine King of Light had a sinister look in his eyes. He could see that Long Chen was holding onto Di Yao as he walked further and further away.

"Honestly speaking, we did scare him just now. Even if he had ten thousand guts, he wouldn't have actually killed the princess. The most likely outcome would have been torture. He cares more about the world than we do. He hijacked the princess, yes, but we hijacked the world. "

He stood up and said: "I have consumed a stalk of hongmengxinling, and have more or less recovered. I will break through the rules of this black hole, all of you, prepare to charge in."

The Infernal King finally heaved a sigh of relief and said, "Mo Huang is right. He definitely wouldn't dare to truly kill the princess, and if the princess is gone, then he would have no one to rely on, and he would also die. As long as we don't touch his limit, he wouldn't choose to suffer a mutual destruction. Breaking the rules of this black hole was far from his limit. As long as we give the order, the gods outside can destroy this Dragon Sacrifice Continent anytime! "

"Let's do it, Mo Huang."

Just as he finished speaking, the Divine King of Dark Desolate descended from the sky above the black hole. He was now like the emperor of a generation of beasts. His authority was boundless, and one of the rules that the Divine King of Dark Desolate was proficient in was power. This was a magical and magical rule that seemed ethereal, but in truth, when it truly worked, it was also quite inconceivable!

Now, he stood atop the black hole vortex, arms outstretched, a terrifying divine might erupting from his entire body. In front of him, the lights of the other three Divine Kings were completely hidden!

Taizhen Deity Realm!

The ink-eyed Emperor's might was vast and boundless. It was as though the entire Bottomless Pit was in his control, and the laws of power had been released formlessly.

"Everything trembled!"

This was a rule of power.

It was a form of power, an invisible influence. Just from this move alone, the Dark Desolate God King could make millions of people kneel and tremble for him.

But now, the goal of the rule of power was the black hole whirlpool.

The two were both mystical laws. One was an invisible divine might, while the other was a direct and fierce ripping.

The only difference was that the Dark Desolate God King was stronger, while Su Yan was already quite a distance away from him, so the black hole whirlpool was already weaker.

Therefore, under the power of the laws, the black hole vortex stopped. When the Divine King and the other three Divine Kings charged down, but were not engulfed, and instead directly went through the black hole, the black hole had already collapsed. The four Divine Kings burst out with their full speed, as they chased after Long Chen!

"Big brother Long Chen, they're catching up!"

Su Yan was a little nervous. She had obtained such a great power, but facing the Gods, her mental fortitude was still lacking.

"As I expected."

Long Chen smiled faintly, but the hands that were controlling Di Yao, suddenly tightened, causing Di Yao to cry from the pain.

At this time, Long Chen had already seen a pale white door in the abyss!

Chapter 2703 - Maze of Destiny

"Long Chen, stop. You already have nowhere to run."

The voice of the Infernal King, filled with threat, shook the entire Bottomless Pit.

"Last chance!" Don't let our heads be muddled. As long as we give the order, all living beings outside will be swallowed up by us, not a single one remains. Let your Dragon Sacrifice Continent become a barren world and you will be removed from the world! "

Starry Skies Divine King's temper was even worse.

He had the three rules of power, luck, and calamity. The rules of power made all the other gods revere him and the rules of the calamity made him feel great killing power, and the rules of luck made him have control over his own fate.

If they could really kill all living beings so casually, then they wouldn't have to struggle to maintain their image in front of the living beings for the past two to three years. They must have other motives, and they must have connections with the gods.

Long Chen had already rushed far away, they needed some time before they could catch up with him.

And Long Chen only had eyes for the pale white door, if he was lucky, this would perhaps be his opportunity.

"Long Chen, why must you force yourself into a corner? No one will force you, and if you had only killed the Divine Monarch Huang Quan in the beginning, when my father returns, he might not have killed you."

Di Yao trembled as she spoke.

"But you said it earlier, he wants to kill me. You want to destroy this world's Di Yao? We are enemies from the start." From start to end, it has been so. You are invaders like the Primordial Demons and I am the guardian. From today onwards, you will either die or I die. "

Long Chen seemed to be talking about something insignificant.

He was only a mere country bumpkin, how could he possibly fight against these gods? Although his progress was terrifying, and his father said he was number one in the entire Ten Thousand Worlds with potential, at such a young age, how could he fight against them?

But Long Chen said so.

He didn't have a choice.

"If you had been willing to fall in love with me, so many things wouldn't have happened." She said confidently. She still couldn't forget that love in her heart.

Long Chen laughed and said, "If the Infernal King had not killed Ling Xi that day, such a thing would definitely not have happened. You do not know what love is and what responsibility is! You don't even know that I swore the oath that I would make the perpetrator suffer for eternity! "Say, can I still stay together with you for the rest of my life?"

His smile was cruel, and his eyes were bloodshot.

At this time, the four Divine Kings overtook him in speed and caught up to him. The four terrifying killing intents arrived in the blink of an eye, the four Divine Kings did not waste any time on words, they immediately activated their own methods and were already prepared. As long as one of them could restrain Su Yan, the other three Divine Kings could definitely snatch Di Yao back in the nick of time.

At this critical moment!

Long Chen didn't even turn his head around, he rushed into the large, pale white door and disappeared without a trace along with Su Yan and Di Yao.

The four Divine Kings had also noticed this white colored door, but they didn't care about it at all. They followed closely behind Long Chen as he charged in, and in that instant, the entire Bottomless Pit lost all sound.

Fortunately, Long Chen was smart, and had brought Di Yao and Su Yan into the Divine Kingdom before entering the door, so the two of them had not been separated yet.

In the midst of the chaos, Long Chen felt the power of a type of law. It was a type of torrent that could enforce the law, and even Divine Kings would have to follow these rules.

**BOOM!**

A new world suddenly appeared in Long Chen's mind.

Of course, this was the inside of Star of Destiny.

Di Yao was in the Divine Kingdom, and Su Yan had been in control of her for a period of time. She was also in danger, and even though she had been confined, she was still someone close to the realm of the Divine King. In the Divine Kingdom, she could easily cause a large amount of death in the Dragon Fighter, so the moment Long Chen came in, the first thing he did was to regain control of her!

As for Su Yan, Long Chen needed her help right now.

Mo Xiaolang was different from Su Yan. He did not recover, but grew.

"Big brother Long Chen, this place is?"

Su Yan curiously looked at her surroundings.

Long Chen and Di Yao were the same.

First, Long Chen saw that the four Divine Kings did not appear by his side. This meant that they might not have been able to enter, or had possibly gone to some other place.

Only with this did he heave a sigh of relief, and then could he observe his surroundings.

This was undoubtedly a miraculous world ...

First, Long Chen felt that it was a kind of miraculous rule. It had many manifestations, filling the surroundings, and even with Long Chen here, he could not resist the suppression of this kind of rule. Under the suppression of these various rules, he was afraid that many things could not even be displayed.

"We have already become Deities, but to come here, we are no different from mortals."

Long Chen was deeply aware that, for example, his vision and senses had been suppressed down by the laws. Although he could still use his power, the damage he caused would still be suppressed down by the rules. In any case, all sorts of suppression made Long Chen feel that he was only at the level of Divine Martial Stage, unable to even fly in the air.

Presumably, not even the four Celestial Kings would be able to stop such a mysterious, comprehensive set of rules.

If the four Celestial Kings were to enter, they would definitely be extremely shocked. Even with their Celestial King's power, they were suppressed to the level of mortals.

The entire world was pitch-black, and Long Chen could only see or sense anything within a hundred meters of him. If there was something blocking him or something far away, he would not be able to see anything.

This was a world where gods were suppressed into mere mortals.

Under the rules, everything was like this.

But Long Chen knew that the power of the rules they used had not changed; It was because of the mysterious rules that existed everywhere.

"The Star of Destiny is indeed mysterious. Presumably, the numerous rules around this place are fate!"

This was a world where the Chief Sovereign of Fate ruled over. No matter what the rules of fate were, if they couldn't break through the rules, then the rules would be set.

Raising his head to look, he saw many pale white buildings in front of him, and Long Chen felt that he was in an endless maze.

Other than these run-down buildings, pavilions, and palaces, there was practically nothing else in the area around him. Long Chen walked around for a few times, and realized that it was all like this, this place was indeed a maze, and the rules were affecting him here. Long Chen realized that if he casually stepped through a door, there would be changes behind him, and if he were to go back, it would already be another world.

"The Maze of Destiny."

Long Chen couldn't help but think, maybe this place should be named this way.

He traversed through the courtyards and would occasionally enter large palaces, but without exception, the interior was completely empty. Moreover, as long as he stepped through a door and emerged from the palaces, he would have already entered another courtyard.

Although it was extremely complicated, Long Chen could still feel that the arrangement of each courtyard was different.

In this Maze of Destiny, the only thing that was left was probably the carvings on some of the walls and pillars. That's right, the carvings were of a pale white divine dragon, just like the ones on the altar, but this divine dragon did not cause any reaction from Long Chen's invasion.

Long Chen firmly held onto Di Yao, preventing her from taking even half a step away from him. He guessed that if she and Di Yao didn't have any physical contact when he stepped through a door, the two might end up in different places.

"The four Celestial Kings should have entered the Maze of Destiny as well, but they should have separated by now. And under the suppression of the Edicts of Fate, they might not be as frightening as before, but they've crushed me!

He had escaped danger once again!

Fortunately, the Maze of Destiny had allowed Long Chen to escape the trap once again.

But the problem was, if he could not leave this place forever, there would be a day when the Divine Emperor would return and take his life and everything.

Not only that, he was currently holding onto Di Yao.

"I need to find the crux of the Maze of Destiny in order to be able to get rid of them. To be free. "

Long Chen knew clearly in his heart.

If he could escape Dragon Sacrifice Continent with all of the Dragon Fighter, that would also be a solution. But now he was worrying, what if after he left, the Gods had to take action against all of dragon sacrifice's living beings? There was also a possibility.

Long Chen would obviously not sit by and watch this world get destroyed.

So right now, he still had no real way out.

"Even though you are temporarily safe, in the end, you cannot escape. How about this, Long Chen, let me go. Even though the Infernal King killed Ling Xi, you let the seven Divine Lords fall. I can plead with my father for revenge and let him write off this grudge. I'll let you leave this place."

Di Yao was very afraid of Long Chen right now. In order to escape, she had to think of a way herself.

Long Chen said coldly, "The lives of seven Divine Monarchs aren't enough, at least you should be added in."

Di Yao and Long Chen talked for a while before she finally understood that Long Chen had not known that she was the mastermind until the Infernal King had killed Ling Xi.

"Not only you and the Five Dragon Cities, but the entire Dragon Sacrifice Continent will be annihilated as well. Believe me, the Dragon Sacrifice Continent is still very useful to my father. Unless absolutely necessary, he will not destroy this place. At this time, she suddenly came to a realization.

Long Chen stopped in his tracks, looked at her coldly, and said: "Do you want to live now? When you were using the Infatuation Curse on me, you did think about it for me. "

Di Yao shook her head pitifully, "It's not like that, I have many difficulties. I know you are still hurting because of Ling Xi, but I really do like you, and I did not hold you responsible for the matters of the Dream Spirit World."

After transforming into her white hair, she had not shown such a pitiful appearance in front of Long Chen for a long time.

Long Chen was not a fool. He said, "The matter regarding the Dream Spirit World was also planned by your mother. If I did not wake up in the end, with my personality, I definitely would not have treated you ruthlessly. Honestly speaking, it is hard for me to imagine what you and your mother actually wanted. You are willing to pay such a price just to obtain me? "

Just as he said that, there was movement not far away from him. Long Chen squinted and saw the Infernal King enter the courtyard from a door.

## Chapter 2704 - Long Chen's death

The courtyard was sealed, and the only place to escape were two doors. One was by the side of the Infernal King, and the other was behind Long Chen.

This was because Long Chen was very close to the door behind him. As long as he passed through, by the time the Infernal King caught up, he would probably reach a different place.

Therefore, although he had met the Infernal King, he wasn't nervous at all.

Indeed, only the Infernal King himself had entered.

The other three Celestial Kings hadn't gone with him. Now that they had entered, they were separated by the Maze of Destiny.

This was a miraculous place left behind before the era, and it was very likely to be the core of Star of Destiny. Under the suppression of the laws of destiny, even three Divine King level experts were bound by the rules of fate. Hence, in here, they were even more aggrieved than when they were in the Incantation.

Honestly speaking, this Star of Destiny was very similar to him.

Long Chen was simply like a fish in water here. Just like before, he had the help of the White Dragon, which was why he allowed the six polar state Divine Lords to fall so easily.

Judging from the gloomy expression of the Infernal King, he was extremely disgusted with the Maze of Destiny.

The two of them faced off like this.

The Infernal King sneered and walked towards Long Chen. Even under the rules of fate, the dignified Celestial King was suppressed to the point that he looked like a mortal. However, he was naturally not afraid of Long Chen.

"Halt." Long Chen became even more indifferent. After saying these two words, he grabbed Di Yao's jade neck with one hand, and wrapped the other hand around her full chest. His finger stabbed into the space between her twin peaks.

As long as Long Chen acted rashly, or as long as Di Yao acted rashly, she could very well lose her life.

Under Long Chen's provocation, Di Yao's face turned red. She berated the Infernal King and said, "Stop, don't come over!"

Just as the Infernal King took a step forward, he could only stop in anger, saying, "Since we're lucky enough to meet in this maze, then let's not be rash and have a good chat. Tell me, what do you want to do in order to release the princess?"

Of course, he wanted to take action immediately. But on one hand, he was suppressed by the Rules of Fate, and he wasn't sure if his attack was effective or not. On the other hand, Long Chen was too ruthless, and he had his reservations.

Long Chen shook his head, and said: "It's impossible to let her go until I'm absolutely safe. Stand still. I'll be leaving first. "

He retreated a few steps, preparing to cross the door behind him and leave the sight of the Infernal King. Now was not the time for him to meet the Infernal King, even though Su Yan could stop him, she lacked combat experience. There was a certain risk in fighting the Infernal King, so Long Chen did not want her to take this risk.

Of course, this was a rare opportunity to kill the Infernal King and avenge Ling Xi.

However, Long Chen could only endure for now.

"Halt!"

This time, it was the Infernal King who told him to stop. He said, "Fine, you can choose to leave the Dragon Sacrifice Continent, I can promise you this. As long as you let the princess go, we'll let you go."

Long Chen didn't believe him. To these gods, a promise was just a fart. He sneered, "Are you trying to trick a three year old child?"

The Infernal King said angrily, "Long Chen, count me in wrong! We can be considered to be not unkind to you, but I never thought that you would actually be such an ungrateful and heartless person. The princess can be considered to be sincere to you, but you are actually so heartless to her. "

Speaking to this point, Long Chen laughed even harder, and said: "Looks like you still haven't figured it out yet, have you? That's right, I already knew that it was you who attacked me that day, and I also swore that one day, I would make you suffer for eternity. You are still pretending to be crazy and fool in front of me, is it interesting? "

The Infernal King was stunned.

He had confidence in his ' Aroma of the Desire ', but when Long Chen had said it, he only felt that it was frightening. He never thought that even though he knew that he had killed his woman, he had still endured until today, until he had killed six Divine Monarchs before then!

In truth, he had overestimated Long Chen. It was only because Ling Xi was not dead yet that he had endured until today.

"The hatred between us is only the beginning. The Infernal King is not far from that day." Thinking about the day that he had just returned to the Dragon Sacrifice Continent, how much he appreciated himself.

But now, Long Chen had sent him a challenge.

The Infernal King was not afraid, but as the mighty Celestial King, he was certainly not afraid of him. He only glanced at Di Yao, and discovered that she was gesturing to him.

Otherwise, he would probably go crazy and kill Di Yao. That would be troublesome.

The Infernal King continued, "Since you know, then it's nothing. That's right, I killed her, not just her, but also her daughter. I saw the despair and fear in her eyes before she died, do you know why I killed her? "Actually, it's very simple. I just want to see how painful it is for you."

The Infernal King laughed as he spoke.

Hatred and anger were piled up in Long Chen's heart. He knew that if he couldn't resist fighting the Infernal King at this moment, he would fall into his trap. Once he took action, Di Yao would very likely be snatched back.

The Infernal King had purposefully angered him.

"Since I've decided to kill them, I'm not afraid of your revenge. Aren't you just a mere ant?" One or two lives aren't even worth mentioning at all. "

The Infernal King continued to exaggerate.

If Ling Xi really died, Long Chen would not be able to resist it at all, or it could be said that he wouldn't be able to endure until now either.

However, Ling Xi had actually undergone an even better transformation, so he only laughed coldly and said: "Don't provoke me, I will take your life and pay you back little by little for the debts you owe me. The next time we meet, I'm afraid it won't be like this. "

He was a bit out of the expectations of the Infernal King, to actually be able to retreat while being enraged. The Infernal King did not dare to take action, because Di Yao's life was on Long Chen's body.

In the blink of an eye, Long Chen had pulled Di Yao and pulled her back to the main entrance. But in reality, he had already reached another place, and was still in the Maze of Destiny, not even going in that direction.

The Infernal King chased after him in an instant, but he was still a step too late. When he passed through a door, he came to a different place!

"Damn it, let him escape!"

The Infernal King was incomparably depressed.

"What the hell is this place!?" You can't even spread your voice! "

They were the dignified Divine Kings, people who could spread their voices throughout the entire Dragon Sacrifice Continent, but could not spread their voices to any of the courtyards in the Maze of Destiny.

After getting rid of the Queen of Hell, Long Chen's breathing was heavy, and his eyes were red.

When he thought about it carefully, he realized that there were still many opportunities left. He had endured for so long, and it wasn't that much of a loss.

"Boss, aren't you going to take your pig's hand away from this chick's sensitive part?"

The kitten came out of the God Kingdom and giggled.

Being teased like that, Long Chen's mood became a lot better, and did not feel as nervous anymore. His Ten Thousand Deadly Claw was indeed in this position, preparing to pierce through her Heart of Rules at any time, but it was still a bit in contact. Di Yao had softer than him right now, and she was already weak, but at this moment, her gaze was even more blurry.

"Let's go!"

Long Chen dragged her, and walked to the next door. The maze was everywhere, there was no end to it. Where was the most crucial point in this maze of destiny?

"There must be something from the Ancestral Dragon here! I have to get it. Otherwise, how can I kill this Infernal King on my own? "

This was his determination.

He didn't care about the status of the Celestial King in the Allworld; all he wanted was revenge. Now that he was on the path of a heaven-defying war, he couldn't think about anything else.

As he spun around in the Maze of Destiny, time slowly passed. He didn't even know how much time had passed.

Even after a month had passed, he still wandered around aimlessly.

In fact, on the side of the Dragon Sacrifice Continent, even the Gods were going crazy, why haven't the four Divine Kings and the princess gone to capture Long Chen yet?

It had already been a month!

Could the four Divine Kings not handle Long Chen in one month?

It was impossible.

"It's been a month and the four Divine Kings and Princess have all disappeared without a trace. Could something have happened? "

"That's impossible, those are the four Divine Kings. In the Dragon Sacrifice Continent, there's nothing that can make something happen to them, and Long Chen is even more impossible."

"Then how do you explain the current situation?"

"I believe that the Divine Kings must have encountered something important, and did not have the time to bother about us. Maybe they have already found them, so let's not worry about them too much, let's focus on the Dragon Sacrifice Continent first. "

The Gods began to discuss amongst themselves.

The Spirit beings of the Monster race, Sea Race, Witch Race and Human Race were all here.

Even the strongest Black Mage of the Witch clan fell, it was indeed quite embarrassing.

A total of a few hundred divine spirits looked at Star of Destiny with eager eyes, but did not dare to approach him.

Among the Gods, the Storm God has become the center of attention. She looked down at the crowd below and sneered, "These beasts are so disgusting. They have been making a ruckus for days now, can't they just calm down? Isn't it just a Long Chen?"

Hearing her words, the gods immediately nodded their heads in agreement.

Because of the big matter of the Star of Destiny, the four Divine Kings had been captured, and all the living beings knew more or less about this matter.

She descended upon the, her voice spreading throughout the world, and said: "Everyone listen, Long Chen killed gods and gods, killing fellow countrymen, it is a heinous crime, he angered Divine Emperor, Divine Emperor ordered us to kill this child, and now that he has already been executed, all of you have turned into ashes, stop causing trouble, if anyone continues to cause trouble, don't blame my Storm God for being rude!"

"Long Chen is already dead?"

The initially boiling Immortal Divine Realm and Dragon Sacrifice Continent suddenly quieted down.

Countless living beings raised their heads and looked at the gods in the sky in a daze. In such a long period of time, Long Chen had already left a deep impression of himself in their hearts, yet he was actually killed today.

Chapter 2705 - Divine Dragon's Protection

Then, is Long Chen dead yet?

All beings believed it in the beginning, after all, it was the words of the gods.

But after that, they could not help but suspect, if Long Chen had already been killed, the gods were still facing them like they were facing a great enemy, why would they stand guard in the starry sky?

Moreover, everyone could roughly feel the connection between them.

Even though it was an illusion, they still believed that Long Chen was not dead!

But they did not dare to reveal it, and only silently lowered their heads.

Although the Dragon Sacrifice Continent had completely quietened down, the hearts of countless people had changed. The words of the Storm God allowed them to see the ugly side of the gods and they couldn't help but feel sympathy for Long Chen.

Of course, they were praying for Long Chen to escape the capture of the four Divine Kings.

Long Chen did not know what was happening outside.

After wandering around for a month, he finally saw a change.

Although they were unable to communicate, they had always been by Long Chen's side the entire time. No matter where Long Chen went, even if he suddenly moved somewhere else, they could still easily pass through and arrive beside Long Chen.

Not long after, hundreds of white divine dragons followed behind him.

Every time he went anywhere, a divine dragon would wake up and follow him.

A hundred Divine Dragons, Long Chen thought, were equivalent to a hundred Divine Monarchs close to the polar state!

Furthermore, he was an immortal polar state Monarch!

This was already a miracle.

But after some thought, back then the entire Dragon Sacrifice Continent had countless divine dragons, countless experts, and even thousands of Ultimate Dragon, one could imagine how terrifying that was.

One had to know that the Ultimate Dragon were stronger than most Divine Emperors.

He suddenly had a lot of confidence, because if the hundred White Dragons that accompanied him could fight for him, then he wouldn't have to fear even if he met any Celestial King.

Kill the Celestial King!

After all, these white dragons did not die.

They could even travel through the maze, and no matter where Long Chen went, they would always go.

It was a little regretful that Long Chen was unable to communicate with them.

"Why are they following you? So the Black Dragon of Incantation won't hurt you, just because you're the Dragon Fighter? " Di Yao asked in shock.

"Shut up."

Long Chen was currently looking for a new key, and was also looking for the Infernal King!

These hundred divine dragons danced around him, a truly spectacular sight.

"You want to kill the Infernal King?" Di Yao's face was pale. If it was before, this would definitely be impossible, but with these hundred Divine Dragons and the terrifying Nuwa Demon called Su Yan, it was really possible that the Divine King would meet Long Chen alone.

"The Infernal King? I'll kill him myself. "

What Long Chen meant was that he wanted to rely on his own strength to kill the Infernal King, but if it were any other Divine King, he wouldn't be polite. In the Maze of Destiny, it was a battle for life and death!

After Long Chen finished speaking, he entered the next courtyard. When he buried his feet in the ground, he immediately felt the existence of danger, and raised his head to look, only to see a man wearing a blue robe with billions of stars revolving on her robe turn his head and look at him.

This is the Starry Skies Divine King.

Clearly, he hadn't met any of the other Celestial Kings either.

He had finally met the Celestial King!

Long Chen casually grabbed Di Yao, quietly looked at Starry Skies Divine King, and remained motionless.

"What, have you been scared silly by me?" The Starry Skies Divine King walked over step by step. Even though he was bound by the rules of fate, he was still ten thousand times confident that he could take Long Chen's life.

Di Yao suddenly said, "Quickly run, it will be too late later."

He thought that it was Di Yao and Long Chen who had said this. After all, he had an old relationship with Long Chen and it was normal for his to warn Long Chen.

"Quickly run!" "Idiot!"

Di Yao angrily shouted at him.

Starry Skies Divine King was startled, what kind of joke was this? He saw Di Yao's anxiousness, and Long Chen's cold and unhurried attitude.

Indeed, at this time, one white dragon after another rushed out from the door behind Long Chen. The moment they discovered the Starry Skies Divine King, they immediately launched their attacks!

Almost all the white dragons charged out at the same time!

Over a hundred white dragons had instantly occupied the courtyard, causing the spacious courtyard to become extremely crowded!

"This ..."

Starry Skies Divine King's face changed. He had never seen more than eight white dragons before, and it was precisely because of them that the six Divine Monarchs died so quickly. At that time, there were only eight of them, but now there were more than a hundred!

"Yan Er, find a chance."

Long Chen's expression did not change, and he also allowed Su Yan to appear. He was also a Divine King, and working together with these hundred Divine Dragons, the threat he posed to Starry Skies Divine King was extremely huge!

Under the suppression of the Rules of Fate, neither Starry Skies Divine King nor Su Yan could take human form.

"Damn it!"

Starry Skies Divine King had only said two words, and the white dragons had already begun their attack!

"Break!"

Starry Skies Divine King had many abilities, but he was unable to use them here. It was rather depressing, and this was the territory of the divine dragon. The divine dragons were too numerous, and they almost didn't die.

Even if the divine dragon were to shatter, it would quickly condense!

"Black hole!"

Su Yan was hidden between the divine dragons, and unleashed the laws of the black holes from time to time. The small sized black hole tore open numerous wounds on the Starry Skies Divine King's body, but

the mighty Starry Skies Divine King, who looked down at the sky with disdain, was now in an extremely sorry state.

"Long Chen!"

In the blink of an eye, the grand Starry Skies Divine King was almost torn apart.

"Star Burst!"

Dazzling starry skies exploded, blowing up dozens of white dragons around him. Starry Skies Divine King was also pleased with himself as he let out a sigh of relief, but the other divine dragons were still attacking and the ones that were shattered were still gathering.

To him, the one who posed the greatest threat was Su Yan.

Right now, the Starry Skies Divine King was under the three-sided black hole, attacking from three directions. He only had one place to escape to, but the white dragons in front of him were densely packed, blotting out the sky and covering the earth.

BOOM!

The robe which had belonged to the Creation Divine Artifact was instantly destroyed, turning into fragments.

If it was outside the Maze of Destiny, it wouldn't be so easy to take care of this Starry Skies Divine King.

Crash! \*

Su Yan's black hole had twisted one of his arms into pieces!

Di Yao was dumbstruck. This was the God King!

So pathetic!

Starry Skies Divine King's face was covered in blood. He was going crazy, no matter how crazy he was, the White Dragon was endless.

"Long Chen, in the future, I will definitely cause you ten times more pain!"

The Starry Skies Divine King roared.

He was too sullen. No matter how fierce his attacks were, once they were unleashed, they were all suppressed by the Edicts of Fate to the point where there wasn't much left of them.

"Stop boasting, a dignified Starry Skies Divine King, today is the day you will fall."

Long Chen looked at him coldly and could not help but sneer.

That's right, he was like a demon at full strength, one of the peak existences of the ten thousand worlds. He was a character that could call the wind and summon the rain wherever he went.

But in the Maze of Destiny, he had to kneel!

Long Chen was mixed into the crowd of dragons. With one hand controlling Di Yao and the other grasping the peerless Dragon Slaying Sabre, while the Starry Skies Divine King was busy dealing with the white dragon, one slash was broken instantly!

"Be careful!"

Di Yao hurriedly reminded him.

Starry Skies Divine King dodged a bit, but he was still hit by a bit, causing him to stop for a moment and dissipate his energy. In that moment, Black Hole and a few Divine Dragons pounced on him and tore off his other arm and thigh!

"AHH!"

Starry Skies Divine King's body erupted in a violent explosion, his entire body was red, his eyes were bulging out, filled with blood veins, but now he had gone berserk to the extreme, releasing waves after waves of roars, if this battle continued, he really might die, previously he was assuming his status as a Divine King and was destined to crush Long Chen, but he never thought that so many Divine Dragons appeared, falling to such a miserable state now, he could only flee!

He bellowed as he charged out of the white dragon's encirclement towards the other door, carrying endless humiliation on his back.

"The exalted Celestial King, what the f \* ck are you doing?"

Long Chen's laughter made Starry Skies Divine King explode with anger. He really wanted to turn around and kill Long Chen, but in that instant, Su Yan's black hole had caught up to him and torn his last leg apart!

"AHH!"

The Starry Skies Divine King was in an extremely sorry state as he rushed through the door.

"Long Chen, I will not rest until you are dead!"

With a final roar, he vanished.

Sure enough, after he left, the white dragons did not chase after him.

Perhaps it was because Long Chen was still here, but they only followed him and did not chase after the enemy. But if Long Chen were to chase after him, he would actually be unable to catch up with the Starry Skies Divine King because he would be in a different place.

But this battle gave Long Chen immense confidence!

He understood that unless the two Celestial Kings met, with so many White Dragons following them, he would be able to walk unhindered in the Maze of Destiny!

Of course, he still had to find the secret here!

Otherwise, as long as he leaves this place, he would still be nothing. Furthermore, in the future, the Divine Emperor Emperor would definitely return.

The abuse of the Starry Skies Divine King had made him feel much better.

Even the Godking had been able to oppress her. She had indeed created a miracle.

If it was the Infernal King, it would have been even better. But it was more so for Long Chen to defeat the Infernal King with his own strength.

He led the hundred white dragons and continued on his journey.

"You were going against me just now, right?"

Long Chen squinted his eyes and looked at Di Yao.

Right now, Di Yao was even more afraid of him. Her delicate body couldn't help but tremble as she replied, "No, I won't dare to do it again."

Long Chen's Ten Thousand Death Claw pierced into Di Yao's snow-white skin, causing her to be in so much pain that she was about to die. Only after that did she let go, and said: "If you do this again, the consequences will be even worse."

Di Yao nodded like a little chick pecking rice.

However, Long Chen helplessly discovered that after being tormented and punished by her, her face was flushed red and he was extremely shy, as if he was enjoying this feeling.

When he held her, the more he touched her, the softer she would lean on him.

"Are you sick?" Long Chen really couldn't take it anymore.

Chapter 2706 - Heavenly Fate Palace

More than a month had passed, yet there were still no movements from the Star of Destiny's side. Some of the gods could not help but approach the Star of Destiny.

However, the Star of Destiny's gravity was too great, and before the realm of the Divine Monarch, they could not get close. They could only watch from the outside.

After all, with the God King's orders, no one was allowed to come close. In addition, no one was leading the charge, so for the time being, no one dared to disobey the order and enter.

However, the worry on the faces of the Gods was getting stronger.

"What happened?"

Of course, they definitely wouldn't think that anything would happen to the four Divine Kings, as this was simply unrealistic. The greatest possibility was that Long Chen was hiding in a corner and the four Divine Kings were chasing after him.

After all, he still has several million Dragon Fighter with him. If the God King wants to slowly kill all these Dragon Fighter s, then it will take a very long time. "" Is that so?

"These Dragon Fighter have never believed us from the beginning till the end. They deserve to be eliminated. The Dragon God had already disappeared for an entire era and was already out of date. It was not worth mentioning at all. There are actually people who have used their inherited blood essence to cultivate. What a joke. "

Once upon a time, the Dragon Sacrifice Continent was a mighty force that shook all realms. The might of the dragon race was unmatched, but it was different now.

Right now, it was the world of gods.

While the gods were talking non-stop outside, inside the Maze of Destiny, Long Chen was still trying to figure out a way to go forward. He started to become more familiar with the Maze of Destiny.

When he was trying to figure it out, the Infernal King and Divine King of Light had bumped into each other. When they discovered the other party, they had almost made a move.

"It's you?" After wandering around here for such a long time, what did you get? " Divine King of Light's entire body was suffused with a sacred light, like a bright day in the dark night.

The Infernal King said in a low voice, "I encountered him, but he captured the princess, and he also had the assistance of neo-demon. I wasn't able to deal with him."

"Nuwa?" Divine King of Light shook his head helplessly.

"When I first met this Nuwa, I should have killed her or imprisoned her. At that time, I didn't pay any attention to her and Long Chen and didn't expect that they would cause so much trouble for us today, especially when they kidnapped the princess!"

The Infernal King clenched his teeth. Before, he controlled everything within his hands, but now, he felt as if he was sitting on pins and needles. It was extremely troublesome, and his face was filled with anger and worry.

"In that case, he didn't even kill his woman until now, right?"

Divine King of Light asked.

The Infernal King nodded. "That's right. It's just that he doesn't know that it was the princess who ordered it. If he did, I'm afraid the princess would be in danger."

"Yes!"

Divine King of Light began to ponder, and said: "Since Divine Emperor wants us to kill this child and personally give him orders, he must have some sort of extraordinary background. "We need to hurry up and act. Since he has the assistance of neo-demon and has kidnapped the princess, it will be quite difficult for the four of us to face him by ourselves. Do you have any ideas for letting us advance in total?"

The Infernal King thought for a moment and said: "Long Chen and the princess are always together. When they cross this huge door and come into contact with other people, can we give it a try?"

"Body contact?"

It was not easy to encounter the Infernal King.

"Then let's give it a try."

The two of them walked towards a door of destiny. As they stepped in, the two Divine Kings held onto each other's hands. Even though the scene was a little strange, in order to kill Long Chen and save the princess, they had no choice.

Sure enough, they arrived at the same place.

The two of them immediately let go.

The Hell God King said: "Alright, then from now on, continue to chase after Long Chen. It's just that in this maze, we can only wander around."

The Divine King of Light shook his head and replied: "I've pondered this for a month and have managed to make sense of the situation. There is still a core within this maze, as long as we follow the instructions, we should be able to reach this core. I think, Long Chen's goal must also be this core, we'll wait for him there! "

The Infernal King's eyes flashed with killing intent as he said in a low voice, "This can't be any better. This time, I will make him regret it! "

Long Chen did not wait until these two human Divine Kings had gathered together, he brought over a hundred Divine Dragons to search for a relatively core position. Sometimes, the Divine Dragons would even guide him, so while summarizing the rules, he also searched for people with high success rates.

"There must be a place with what I want."

Long Chen restrained Di Yao and silently advanced.

Di Yao was extremely weak, and she would occasionally snort a few times, her eyes were blurred, allowing Long Chen to do as he pleased.

He then walked for another month.

To the Gods, a month was no different from the blink of an eye.

Finally, Long Chen discovered that there was a door in front of him that was a little strange. Behind the door, also looked like a normal courtyard, but the white dragons were all heading towards that direction, stopping in front of the door, eager to give it a try, and continuously turning their heads to look at Long Chen, as if reminding him that this was their final destination.

After spending close to three months, they had finally found this place!

Long Chen could not hold back his excitement, but he was also more cautious. This was because the more crucial the location, the more danger would appear.

He controlled Di Yao and said in a cold voice, "Don't mess with me. If you don't, as long as I'm safe, I won't hurt you."

"Alright."

Di Yao said weakly.

After finishing his preparations, without saying a word, Long Chen stepped through the door that was completely different from before.

When they arrived, they found a spacious area before them.

Originally, the entire Maze of Destiny was very dense and there were very few open places like this. This place was like a huge square, seemingly endless, with white jade inlaid floors, as far as the eye could see, sparkling with sparkling jade. Compared to the pale-white palace outside, it was much prettier.

It was like a dream world.

In the center of his field of vision, there was a similarly crystal clear palace. The palace wasn't big, and there were carvings of the divine dragon's patterns, and there was only one door, upon it were written two extremely complicated words. One was 'Life ', and the other was 'Wishing '.

Long Chen was pleasantly surprised, he knew that this palace was definitely the most important place on this trip!

Because, Hun Yuan's Heavenly Fate Dragon, was the dragon of fate and wish!

It governs the fate of all beings and listens to their wishes.

He was overjoyed. Without saying anything further, he headed towards the palace. On the door, there was a jade plaque with four words written on it, 'Destiny's Heavenly Palace'.

"Hun Yuan's Heavenly Fate Dragon's inherited blood essence, it's very likely to be here!"

Long Chen squinted his eyes.

That would be the key to his revenge against the Celestial King!

But at this time, all the hair on his body stood up, because he felt an extremely dangerous aura, not only him, but the white dragons too had become fierce, uneasy, and the direction they were staring at, was right beside the 'Heaven's Fate Palace', and just as expected, a tall, heroic, cold looking divine being dressed in dark green armor, came out from the side of the Heavenly Fate Palace.

With an indifferent face, he looked at Long Chen and Di Yao. That imposing voice that was filled with the might of an Emperor said, "You've finally found this place, I've been waiting for you for a month."

Long Chen's heart trembled. He did not expect Divine King Mo Huang to be so powerful, he only found this place today with the help of the White Dragon. He did not expect him to be here a month ago.

dared to mistreat Starry Skies Divine King, but he had no choice but to be fearful of the person in front of him.

He asked calmly, "Since you came first, why didn't you enter the Heavenly Fate Palace?"

He was the Ink Qilin, one of the peak Qilin bloodlines, the mixed blood of the divine dragon. It was probably because of this that he suffered more obstructions than Long Chen could imagine in this Maze of Destiny.

The Dark Desolate God King was very straightforward, "I don't have enough divine dragon blood, so I can't enter. However, you can take me to the Kingdom of God and take me there. Or you can just casually give me one of your Dragon Fighters."

It wasn't because his Divine Dragon bloodline was lacking, but because his other bloodline was also very powerful. It was precisely because of this bloodline that the Heavenly Fate Palace rejected it. Otherwise, he would have long since entered the Heavenly Palace.

Long Chen heaved a sigh of relief. If he was allowed to enter and obtain what he wanted, he would be finished.

Fortunately, fate was on his side.

He controlled Di Yao with all his might once again, trying to determine whether she was alive or not. He coldly stated, "That's impossible, scram. If not, I will make my move."

The first was that he had over a hundred white dragons that were the same as polar state Divine Monarchs, and they were indestructible, and the second was Su Yan, who had the body of a devil of Nuwa. Right now, everyone was bound by the rules of fate, so Long Chen still had a huge advantage.

Now, Su Yan had appeared by his side, and she was a huge pillar of support for Long Chen.

"Dragons and neo-demons are quite terrifying." The Dark Desolate God King was not afraid, he must be ready to strike, this must be a desperate battle, Long Chen's goal was very simple, he wanted to rush into the Destiny Heavenly Palace.

"Let the white dragon fight. Don't leave my side at any time. I'll bring you into the Heavenly Fate Palace and interfere with the Dark Desolate God King."

Long Chen warned Su Yan repeatedly, because once she left her side, things would not be easy.

With his experience of mistreating Starry Skies Divine King, Long Chen was still extremely confident.

After all, no matter how strong the Dark Desolate God King was, he was still just a Primal Realm King and could not be compared to the guardian of the Incantation.

Just as the two sides were preparing for a big battle, a sudden unusual movement came from behind them. Long Chen was startled to see the Divine King of Light coming out of the gate behind them and also arriving in the vast plaza.

"You two Celestial Kings, sorry for the trouble!"

Long Chen frowned. It would be extremely difficult for the Divine King Mo Huang and the Divine King of Light to be absolutely safe.

But something even more troublesome had happened.

When the Infernal King came out of the Divine King of Light's Divine Kingdom, he couldn't help but laugh out loud when he saw the scene of Long Chen and the Dark Desolate God King staring at each other.

"Long Chen, it's been a long time.

Chapter 2707 - Soulshake Moment

Three Celestial Kings!

The situation had completely surpassed Long Chen's control, to a situation that he basically could not control, which meant that the upcoming conflict would definitely be extremely dangerous. If he were to lose, then it was very likely that it would be the destruction of him and all the Dragon Fighter, and would also harm Su Yan, the little wolf, and the others.

This was definitely the result that Long Chen did not want to see.

This kind of meeting, was also within reason. Divine King of Light had always been researching on this Maze of Destiny, and had also guessed that Long Chen would be here, but it was just a coincidence that he arrived a bit late, if Long Chen had, then he might have met the three Divine Kings from the very beginning.

After all, the three Godkings weren't stupid.

There was no use being nervous. It was only a battle to the death!

It was a good thing that the Starry Skies Divine King did not come. Otherwise, if the four Divine Kings had descended, he would have no chance of winning at all.

"Don't leave my side." He once again reminded Su Yan that even if something were to happen to him, he definitely could not let anything happen to Su Yan.

"Big brother, don't worry."

Su Yan nodded heavily. She knew in her heart that it would be difficult to deal with such a situation, but she was also a determined person. She also wanted to avenge Ling Xi.

The hundred plus white dragons also sensed the danger. They seemed to be able to sense Long Chen's mind and encircled Long Chen, while glaring at the three Divine Kings.

Long Chen said: "That's right, it's indeed a coincidence. My luck is bad, I actually ended up meeting three Celestial Kings here. Then, what do you think we should do next, three Celestial Kings? "

The Infernal King said, "Release Di Yao first."

"What are the conditions?" Long Chen sneered.

The Infernal King sneered as well. "Are you still going to negotiate with me here? Although this White Dragon is indeed scary, it doesn't pose much of a threat to us. You don't have the qualification to negotiate with us, so you should let the princess go. Perhaps in the future, we can even say a few good words in front of the Divine Emperor to alleviate your pain. "

Long Chen's whole body was covered in dragon scales, no matter whether it was the dragon claw or the dragon tail, they were all pierced into Di Yao's body and tightly entwined with her. The three Divine Kings watched as Di Yao's tender skin became bloodied and they frowned deeply, while Di Yao also moaned in pain.

"Tell them that you are afraid of death."

Long Chen leaned close to Di Yao's ear, coldly looked at the three Divine Kings and said.

In a panic, Di Yao hurriedly said, "Don't move!"

During the past few days with Long Chen, she had witnessed Long Chen's decisiveness and ruthlessness. If the three Divine Kings really did not consider things clearly, then it would be a life and death struggle.

Long Chen was going to give them a headache!

Divine King of Light said at this time: "Alright! We will negotiate with you for the conditions. If you let the princess go, we can let the people from the Five Dragon Cities return and let them continue their inheritance. "

This was their biggest concession.

The condition was that Long Chen had to surrender here.

Actually, Long Chen understood them, they were merely trying to stall for time through negotiations, and then find an opportunity to take action. As long as Di Yao was not in his hands, that meant that when they made their move, they were good at lying, and Long Chen did not trust them at all.

He smiled and said, "You don't have any sincerity at all. Then I will directly talk about my condition. I can let Di Yao go. No problem. My condition is, let me go in there."

The direction Long Chen pointed towards was in the direction of the Destiny Heavenly Palace.

With just a glance, the Infernal King and Divine King of Light knew that this was the key to the Maze of Destiny. If he really could release Di Yao, then there was no harm in letting him in. After all, they could also chase after him.

However, the Dark Desolate God King rejected and said, "Only he himself can enter that place. If he is allowed to go in, and if he does not come out, I am afraid we can only wait until the Divine Emperor arrives. "

"So that's how it is."

Judging from their expressions, they clearly didn't agree.

Long Chen brought Su Yan and Di Yao and moved. The battle between the three of them was going to happen at any moment, and with the protection of the White Dragon, even if the three Divine Kings suppressed him, he would still be safe. At this moment, a small decision could change the fate of the entire Dragon Sacrifice World!

"Since you don't agree, then I won't be polite."

He was familiar with the rules of the four types of Divine Dragons, especially the Myriad Death Claw, which was simply a claw of extreme pain. As he gradually increased his attack, Di Yao was in so much pain that she was about to die. Su Yan was extremely cautious, he created many black holes around Long Chen, and the White Dragons pledged themselves to protect Long Chen.

That tragic cry made the scalps of the three Divine Emperors go numb.

That was the Princess Di Yao!

Long Chen was forcing them.

This was the benefit of abducting Di Yao. If their conditions were not enough to satisfy Long Chen, he could choose to fight to the death. If it was only him, even if he abducted Di Yao, it would be useless.

If he failed, then things would get out of hand.

Therefore, none of them dared to act first.

But Long Chen knew that this was the time where he needed to be ruthless the most.

Thus, he would only cause Di Yao to become more and more miserable as she aged.

Di Yao's face was pale, her entire body was trembling, her blood had dyed her long red dress red, as she laid weakly in Long Chen's arms.

"Promise him or I'll take your lives!"

She was really scared.

Long Chen was just such a domineering and bloodthirsty person, it was impossible for him to have mercy on the fairer sex in front of something big.

Hearing Di Yao's words, the three Divine Kings could only nod their heads. They thought that they would definitely get Long Chen for sure, but they never expected that it would still be like this. If not for the Heavenly Fate Palace, Long Chen would have been able to hide.

"Out of the way!"

God King Mo Huang stood guard in front of the Destiny Heavenly Palace, while Long Chen approached with bloodshot eyes.

The Dark Desolate God King's face was cold, his expression terrifyingly grave.

"Out of the way!"

Di Yao cried out with a sobbing tone.

As such, the Divine King gave way, but he continued to stare at Long Chen, and said: "You have already committed a grave mistake, so it's best to think twice. This time, when we let you in, you have to abide by your promise and anger us, even though it's impossible to destroy all of the Dragon Sacrifice Continent outside, no one will know about the fact that we have killed hundreds of millions of people and assassinated hundreds of millions of people."

This was Long Chen's biggest fear.

The three Godkings were afraid that he would not keep his promise.

"Don't worry, I'll keep my promise. I'm not like you guys."

Long Chen replied indifferently. At this moment, he had already retreated to the front of Destiny's Heavenly Palace. He looked at the three Divine Kings and said, "Alright, please stay far away."

Since the three Divine Kings' biggest weakness was Long Chen, they could only resign themselves to their fate. Long Chen was even more cautious than they imagined. It was difficult for them to take advantage of him.

The white dragons gathered around him.

Behind him was the gates to the Heavenly Fate Palace.

Actually, Long Chen wasn't sure if he could go in, but if he found that it was difficult and Di Yao threw it out, it would be troublesome.

He gently pushed the two white doors open, and found that they had really moved.

With that in mind, he stared coldly at the three Celestial Kings.

"Farewell, the three of you."

The three Godkings were enraged, but they had no way to vent it.

Long Chen made Su Yan create the biggest black hole in front of the Heavenly Fate Palace, so Di Yao was already useless. After all, he still needed to strike a balance, and that was to ensure that the gods did not touch the people of the Dragon Sacrifice Continent. Not to mention several hundred million, even if she killed a few million, it would still be Long Chen's fault.

He had come to the Star of Destiny just to enter this place.

Then, Su Yan entered the Divine Kingdom.

Long Chen gave the Infernal King one last glance and said, "The day that I see you again will be the day that I take your life!"

The Infernal King was silent and enraged.

Long Chen threw Di Yao out, and immediately, the white dragons wrapped around Di Yao, and brought her to another direction. The three Divine Kings made their move at this moment, the Divine King of Light went to chase after Di Yao, while the other two chased after Long Chen. Their speed was extremely quick, and there was a chance that they might be able to stop Long Chen.

However, they did not have the chance.

Long Chen's movements were quick and violent. In a flash, he opened the gates of the Heavenly Fate Palace and rushed in.

This gate was definitely stronger than the barrier of the Star of Destiny.

"Princess!"

After Long Chen disappeared, the white dragons all dispersed one by one. The Divine King of Light borrowed Di Yao, and immediately used hongmengxinling to help Di Yao recover, the hongmengxinling was even rarer than the Creation God Equipment, and the effects were huge. Di Yao was extremely weak during this period of time, and had finally managed to recover.

No matter what, to be able to help Di Yao escape from danger could be considered a kind of success.

The three Divine Kings looked at each other, helpless as they stared at the gates of Destiny's Heavenly Palace.

"We actually allowed this little fellow to play with us to such an extent!"

The Infernal King ground his teeth.

"Let me give it a try. Is there any other way to open this Heavenly Fate Palace?" The Dark Desolate God King said coldly.

In fact, he had been trying for a month.

At this time, Di Yao slowly woke up and angrily asked, "Long Chen went in?"

The Divine King of Light nodded.

Di Yao's face was full of uncertainty, "I will tell my father everything that happened here. It is useless for him to hide in there, my father will definitely arrive early and take his life!" We'll stay here and guard this place until my father arrives! "

As long as he was fine, it was not a big deal to capture Long Chen.

They never thought that Long Chen would kidnap Di Yao, so they had to admit their defeat this time. The four great Divine Kings had been played by Long Chen like monkeys.

The three god kings were thinking of a way to enter the Heavenly Fate Palace.

Suddenly, the natural laws descended once again!

For a time, the world was spinning, the Divine Kings couldn't stop this rule, for a moment, space and time had changed, the surrounding environment had changed, Divine Kings and Di Yao had discovered that they were already outside of the Star of Destiny!

had been completely sealed within the Star of Destiny's interior. Now that he had lost his pathway, if he wanted to find Long Chen, he would have to blast this gigantic Star of Destiny away.

Chapter 2708 - Fire of Destiny

From the outside, the Star of Destiny was completely sealed.

At the very least, even the four Divine Kings could not find a single flaw.

As a result, if Long Chen was still in the Heavenly Fate Palace, it would be difficult for them to destroy the Star of Destiny with their own strength, unless the Divine Emperor's Emperor Jun descended.

The Star of Destiny was different from the Dragon Sacrifice Continent. Even under the suppression of the Everlasting Stone, the four Divine Kings could easily defeat the Dragon Sacrifice Continent. Without the Everlasting Stone, it would be much easier for the Four Divine Kings to destroy this fragile world.

But the Star of Destiny was incredibly stable, comparable to the Upper Realm. Especially since it was a planet, it was harder to destroy than the Dragon Sacrifice Continent.

"You four, you still can't break this Star of Destiny? And what about the Everlasting Stone?" Di Yao screamed out.

"Princess, even if it's the Everlasting Stone, given our power, it would be difficult for us to control it to destroy the entire Star of Destiny. We can only wait for the arrival of the Divine Emperor and only then can we personally activate it."

Hearing this, Di Yao knew that it was impossible to subdue Long Chen within a short period of time. She had been humiliated to such an extent that she could only temporarily swallow her anger!

"Die!"

With a very bad temper, she rushed up to Star of Destiny, took out the nine star Emperor Sword and casually chopped at it, raising a large amount of smoke and dust.

Di Yao was cursing wildly at the same time.

Seeing the four Divine Kings and Di Yao, yet not seeing Long Chen, they naturally knew that Long Chen had definitely already been taken care of.

"Little god greets Princess Di Yao, four Divine Kings!"

At first, all the Gods were very happy, but after seeing that Di Yao was venting her anger, the faces of the four Celestial Kings turned ugly and they were instantly stunned. For a while, no one dared to ask what exactly had happened.

"All of you, scram!"

Di Yao was finally tired, she turned around and shouted angrily at the crowd of gods.

They had a premonition that something bad was about to happen. Could it be that even Long Chen could not catch them after sending four of their Divine Kings?

"Get the hell back to where you were supposed to be!" Di Yao shouted in anger.

The four Divine Kings looked at them for help.

At this time, the Infernal King stood out and said, "Everyone, the four of us were unable to complete the mission. Long Chen has many tricks up his sleeve, using this enigma of the Star of Destiny to hide deep within the Star of Destiny. However, when Divine Emperor returns, he will have nowhere to run to, since he will not be able to escape no matter what. For the remaining period of time, we just need to guard here and not let him sneakily escape. "

The Gods thought that this was equivalent to imprisoning Long Chen.

The four Divine Kings discussed for a while, then decided that the Divine King and the Divine King of Light would stay in the Star of Destiny for a long time, while the Infernal King and the Starry Skies Divine King led the gods to continue searching for the palace. They had almost completely explored the entire Star of Destiny, and they were sure that the place they were looking for wasn't in the middle of the Star of Destiny.

As for Di Yao, no one could care about what she wanted to do.

"All of you, be careful. If you let Long Chen escape from this place, I'll make my father take your lives!"

She knew that Long Chen had many tricks up his sleeves, if he really escaped, it would be a huge joke. When the time came, it would not be easy even for the Divine Emperor to find him with their huge Ten Thousand Worlds.

"Princess, don't worry." The Dark Desolate God King didn't like her personality very much.

When it finally came to the truth, the gods were also embarrassed. Every single time they thought that they had defeated Long Chen, but they never expected that he, a country bumpkin, would continue to play until now.

"Still not getting out?" Di Yao angrily rebuked them.

Only then did the gods disperse.

If Long Chen did not appear, their days would continue to be peaceful.

With two Divine Kings as the leaders, the gods were also strictly guarding the vicinity of the Star of Destiny.

To the beings of Dragon Sacrifice Continent, they had already guessed that Long Chen was not dead. Since the Gods were still facing such a great enemy, they had to be careful.

Only then did this epic battle come to an end.

As long as Long Chen did not die, everyone was relieved.

But to Long Chen, this was just the beginning. He had finally fulfilled his wish of entering the Star of Destiny, which was to come to the Heavenly Fate Palace.

Right now, he was inside a palace. This palace was endless, and what he was inside was a long corridor filled with endless light that rushed into the endless distance.

It was quiet and distant ahead, and Long Chen wasn't sure what was there either.

Finally, everything was safe. Within the God Nation, the Dragon Fighters released waves of cheers and applause, cheering for Long Chen. Whether it was in this fight on the back or the ten percent result, they would all support Long Chen and Long Chen did not disappoint them.

Mo Xiaolang and Su Yan both held hands sweetly because they had become stronger with Long Chen's help. Mo Xiaolang had already become the Demon Lord and he had also recovered the power of the Divine King.

They were filled with anticipation towards the Destiny Heavenly Palace.

The most obvious thing around was the walls on both sides. On both sides of the walls, there were many squares. These squares were not big, and each of them was as long as an arm.

The endless corridors seemed to be filled with this kind of square, this kind of milky white flame.

"What is this?"

Long Chen approached one of the milky-white flames and upon closer inspection, the flame seemed to reflect a person's face. Then, as if he was reading a person's story, Long Chen saw the life of an ordinary person.

His parents had died early when he was young, and he had striven to become stronger. In the end, after cultivating successfully, he had then changed from the eternal rock, and he had absorbed the creation spirit energy of the world. Now, he already had the power of Divine Martial Stage, and after that, he could even vaguely see the trajectory of his future fate.

"This flame is this person's fate!"

Long Chen was deeply shocked.

He looked at the other flame. This was a girl, and her situation was much more miserable. She was being humiliated at such a young age, yet her strength was still lacking.

Further away, he couldn't see it clearly.

Each flame recorded a person's past and present, as well as a vague future. However, the future seemed to have many different directions; they could live or die.

Flames were constantly extinguished, and new flames were born.

This almost meant that one person had died and another had been born.

This Heavenly Fate Palace actually recorded everyone's fate, not just humans, but even beasts.

Long Chen had observed every single one of them carefully in the beginning, but after he realized that there were simply too many milky white flames, he began to move forward quickly in this endless corridor, and also quickly flew past the fate of almost everyone. A few months later, he finally discovered that this endless corridor actually burned the fate of everyone in the Dragon Sacrifice World.

Even the fate of the Dragon Fighters were within this group.

However, the only thing missing was Long Chen and the fate of these people who were closest to him.

It was a pity that her flames were too mysterious, and so many of the blanks were impossible to see clearly. And those blanks were all places where she and Long Qinglan were together, which also meant that Long Qinglan was also someone outside of fate.

A trillion lives.

It wasn't easy to walk through the entire corridor!

After Long Chen saw the fate of millions of people, he had a lot of insights. Suddenly, he started to understand what was fate and what was wish.

Fate was illusory and intangible. Everyone had their own paths of development and they were all uncertain. He might have a few paths in the future. As for which path he would take, life or death all depended on his own choice.

Wishing was the desire in their hearts. Their dreams were the ordinary desires of one person, but when the desires of countless living beings gathered together, it would also directly impact the rules of this world, bringing about some unimaginable changes.

Through seeing the fate of so many people, Long Chen vaguely touched upon the rules of fate.

Even he himself didn't know how much time had passed.

Long Chen was still undergoing her final transformation. Long Chen had a general understanding of the situation, it seemed like she would undergo a large change, and in the future, she might even become a new Sphinx. He might even have help, or even more than that!

Finally, he had walked through the long corridor of destiny.

In front of him was a vast expanse of empty space.

Long Chen turned around to take a look at the long corridor, his heart deeply moved.

"Destiny is not fixed, everyone will have a different future. Presumably, Hun Yuan's Destiny Dragon controls destiny, and it also provides only choices. The real path, will still depend on one's self!"

Because there was no such thing as fate, he firmly believed that as long as he worked hard and was strong, he could completely change his fate! Even though it was just a tiny ant, its fate wasn't fated. Rather, it had a choice.

Of course, the choice was up to capital.

It was impossible for an ant to become a Deity.

However, Long Chen had broken through the shackles of fate and achieved his current state from being an ant.

He was very curious. Now that he was prepared, what was waiting for him in front of him?

As he walked on the empty land, he suddenly felt a lot more scorching. The further he went, the more terrifying the heat became. It was only when a burning pale blue flame appeared in front of him!

"There are many divine flames up ahead!"

Mo Xiaolang smelled it.

Long Chen told him to come out of the Divine Kingdom, and the two of them walked forward together. The terrifying blaze of the flames made Mo Xiaolang a little excited.

"Why would there be such a genuine divine flame in this place?"

Long Chen was very curious.

He gradually began to see the color of many flames. It seemed that divine flames were not just one type.

An abyss appeared in front of them.

Even Long Chen's body was feeling quite uncomfortable at the moment. Even the other Divine Monarchs with Perfection would not be able to withstand the scorching heat.

But the flames were still far from them.

Looking down into the abyss, they were stunned.

Several hundred types of divine flames surrounded an azure white flame. In front of those azure white flames, those divine flames were like kneeling, submissive to that azure white divine flame!

"Ancestral Fire!"

#### Chapter 2709 - Azure Sky Emperor's Ancestral Fire

Inside the abyss, there were hundreds of types of divine flames kneeling and worshipping, but they were not ordinary divine flames. They were similar in nature to the netherworld Ancestral Devil Fire, and should be a type of Ancestral Fire.

Mo Xiaolang had a rather deep understanding of flames, and practically the moment he saw the pale white flame, he could tell that it was an Ancestral Flame.

Ancestral Fire might not be the same concept as Ancestral Dragon, but to be able to be crowned with the word 'Ancestral', it was definitely a divine object born after the creation of the world. It possessed the terrifying might to burn the world, and even after experiencing countless generations of legacies, it could still reproduce the invincible might.

To this day, the Ancestral Fire that they were talking about was actually a seed of flame.

After experiencing the passage of time, no one knew what kind of changes had occurred to the Ancestral Flames, but looking at the Nine Hell Devil Ancestral Flames and the pale white flames that they had seen today, they were all in the form of fire seeds that had been passed down between heaven and earth.

If it was Ancestral Fire at its peak, Dragon Sacrifice Continent would definitely not be able to endure it.

However, they all had the ability to become Ancestral Fires in their peak state. It was just like how Long Chen possessed a huge possibility of becoming an Ancestral Dragon. So much so that the seed of the Nine Serenities Devil Ancestral Fire had already grown up countless times with Mo Xiaolang, and had lived till now in the same state as him.

Mo Xiaolang's growth, was also the growth of the Netherworld Devil Ancestral Fire.

The black fire spark that was originally considered ordinary in the lower realms had now surpassed most of the divine flames. It was able to suppress almost all of them.

In the future, as Mo Xiaolang grows, there will still be a lot of room for the Nine Serenities Devil Ancestral Fire.

Even he himself believed that one day, the Nether Demon Ancestral Fire would grow from the fire element to its peak because of him.

Ancestor was the most powerful bloodline.

Ancestral Fire and Ancestral Dragon all belong to the Dragon Sacrifice Continent, and are unique to the Dragon Sacrifice Continent.

When the world first opened, there were many divine objects that had been born. For example, the vegetative energy that Ling Xi obtained was one of them. The vegetative energy created a Pure Immortal Origin Body and created a Sphinx. However, in the birth era, the vegetative energy was not as good as the Ancestral Fire, but today, the Ancestral Fire was like the Dragon Sacrifice Continent. When the Dragon Sacrifice Continent was almost destroyed, the Ancestral Fire that was born would also only be left with a Fire Seed.

Seeing this pale white flame, Mo Xiaolang almost suffocated to death.

In fact, even those hundred types of Divine Flames didn't make him as excited as this single Ancestral Flame. Even though it was only a seed, it could make those flames submit and kneel!

"Big brother, although only a few names of the ten great Ancestral Flames have been passed down, and there are even legends about them amongst the commoners, I think I know what this pale green flame is ..."

Long Chen carefully stared at the pale white flames. This was an extremely scorching flame, the opposite of the cold of the devil ancestor fire from the nine nether regions. It was originally scattered throughout the world, and was extremely weak. After Mo Xiaolang had cultivated it for many years, he had only managed to suppress the divine flame today, and the pale white flame was even stronger than the current Nine Hell Devil Ancestral Flame.

Although it was extremely strange that Ancestral Fire would appear in Destiny Heavenly Palace, Long Chen was still genuinely happy for Mo Xiaolang. If it was like this, and with these few hundred types of Divine Flame, if Mo Xiaolang engulfed all of them, he would definitely reach a terrifying realm!

His talent was different from Long Chen's, but he was also heaven-defying, because he only needed to devour!

Just like how the ancient Giant Demons had told him to become a devouring demon.

However, the Dragon Sacrifice Continent had already been searched thoroughly. Other than in the hands of a god, there was no other divine flame. This place had so many divine fires and even a seed of Ancestral Fire.

Long Chen had a deeper understanding of the term "fate".

Mo Xiaolang was unable to suppress the excitement in his heart and said: "Among the Ancestral Flames, it's the hottest and most brutal, just like an Primordial Blood Spirit Dragon who controls slaughter in the Ten Great Ancestor Dragon. Wherever this kind of flame goes, everything will turn to ash and no one will be spared! Its name is ' Azure Emperor Ancestral Fire '!"

Azure Sky Emperor's Ancestral Fire!

Extremely hot white fire.

The Netherworld Devil Ancestral Fire was extremely cold and black fire.

In the Divine Kingdom, the Dragon Fighters were also amazed by the hundreds of types of divine flames in the abyss, especially when they saw that the hundreds of types of divine flames actually kneeled and submitted to the Azure Sky Emperor's Ancestral Fire.

The stretching of the pale white flame had a domineering and powerful will. It was the complete opposite of the Nine Hell Demon Ancestral Fire's mysteriousness and indifference.

Suddenly, the Heavenly Fate Dragon Emperor of the Fate Dragon City said, "I have heard of a legend. It is said that every Ancestral Dragon possesses a type of flame, and that is Ancestral Fire. The Ancestral Fire had a mind of its own, and would accompany the Ancestral Dragon. However, this legend was not very well-founded, so not many people believed it. After all, we don't know much about the Ancestral Dragon. However, the inherited Fire Seed of the Azure Sky Emperor's Ancestral Fire is actually staying in the Heavenly Fate Palace today, which seems to be the confirmation of this legend. Because in the legends, the most docile and gentle of Heavenly Fate Dragons, the accompanied Ancestral Fire is the berserk 'Sky Emperor's Ancestral Fire'."

Hearing this legend, everyone suddenly became enlightened. Long Chen roughly understood that this was the truth, he never thought that there was such a relationship between him and Mo Xiaolang.

"Yes, according to the legends, Hun Yuan's Heavenly Fate Dragon was pure white, and this Azure Sky Emperor's Ancestral Fire was also white. Apparently, they are of the same line." He also wanted Long Chen and Mo Xiaolang to surpass him as soon as possible. After all, she wasn't very good at going about things on his own, so if he wanted her to hide behind him and pick up some cheap stuff, she would be okay.

"In that case, since the Fire Seed of the Ancient Emperor's Ancestral Fire is here, then Hun Yuan's Heavenly Fate Dragon should be one as well."

Long Chen looked in front of him. There was a path ahead that led to the depths of Destiny's Heavenly Palace.

To think that the Ancestral Dragon and the Ancestral Fire were related in such a way. He didn't expect it to be this close.

In front of him, there was definitely something he needed to wait for. Hun Yuan's Heavenly Fate Dragon's inherited blood essence!

When Long Chen and Mo Xiaolang obtained the Nether Demon Ancestral Fire, they were still incredibly weak. At that time, in their eyes, the Nether Demon Ancestral Fire was very terrifying, they thought it was the Nether Demon Ancestral Fire, but in reality, it wasn't even considered a Fire Seed at the time, it was only a fragment.

He knew that today, Mo Xiaolang had only grown it up, step by step, and gradually became a kind of fire seed.

This was just like the strengthening of Long Chen's Ancestral Dragon Inheritance.

At the same time as he received Hun Yuan's Heavenly Fate Dragon's Inherited Blood, he was actually able to find the Ancestral Fire for Mo Xiaolang.

What he didn't know was, what sort of Ancestral Dragon was associated with the Nefarious Spectral Demon Ancestral Fire? What was the Primordial Blood Spirit Dragon's Ancestral Fire? According to these rules, their colors were at least the same. In other words, the flames of Great Void Cosmic Dragon s could also be fake?

Long Chen couldn't help but be curious.

He and Mo Xiaolang must have gotten great fortune this time!

The two of them looked at each other, and Mo Xiaolang said: "Big Brother, go ahead. I can settle things here by myself, don't worry, I will first devour these divine flames, one by one. With my talent, there won't be a problem. "

It was unknown when the Divine Emperor would arrive, but Long Chen was also unable to accompany him and watch him swallow the divine flame. Thus, they could only split up.

"I'll stay." Su Yan was looking forward to it, of course he wanted to stay.

Long Chen nodded, leaving the two of them behind, and continued to advance after saying a few words, he believed that Mo Xiaolang had the limits of what he could do, and would not rush to succeed in swallowing the Divine Flame, even if his talent was heaven defying.

Leaving Mo Xiaolang and Su Yan behind, he once again embarked on his journey.

In front of him, there was no longer any fire of destiny.

His footsteps sounded far away.

Thus, Long Chen once again walked for a day in the long and empty corridor.

During this time, Mo Xiaolang received news that he had already devoured five types of Divine Flames, and was continuing to devour even more powerful beings. As for Ling Xi, she was still comprehending the Spiritualism of the heavenly law. Their group of brothers and sisters had become more and more powerful!

As his brother, Long Chen naturally could not be dragged down either.

Finally, he saw a door.

This was the end of the Destiny Heavenly Palace.

On the door, there was a pattern drawn by light. Strangely, this white pattern was that of a young dragon, pure white and extremely adorable.

The young dragon was slightly chubby, with a round body, crystal clear claws, large ancient eyes, exquisite dragon horns, pure white gem-like scales, a pair of white wings on both sides, a character on the left for life, and a character on the right for willingness.

Destiny Dragon City did not have the image of Hun Yuan's Heavenly Fate Dragon.

So he only knew that Hun Yuan's Heavenly Fate Dragon was white.

But, the cute and harmless infant dragon in front of him was actually Hun Yuan's Heavenly Fate Dragon?

Ten Great Ancestor Dragon was ranked fourth, and was in control of fate and wish. It was extremely mysterious, and could change the world, steal another pillar, and be second only to Great Void Cosmic Dragon s?

No matter what, Long Chen still could not believe it.

Of course, this was just a picture.

The thing he was looking for should be within this door.

Long Chen held his breath as he placed his palm on the door and gently pushed it open. At this moment, he suddenly had a feeling, this feeling was similar to the one he had when he took the inherited blood essence of the Primordial Blood Spirit Dragon from the Great Desolate Mountain in the White Poplar Town, it was filled with reverence. But the difference was, at that time, he was more afraid, and now, he was more comfortable.

This was the feeling that the Ancestral Dragon of Fate gave him.

Yes, it was here.

Long Qinglan helped him lead the way, allowing him to come here.

This was not a coincidence, it was something that he had arranged for all five ancestral dragons' blood essences to be absorbed by him.

"Father, I won't let you down."

Suddenly, he felt the painstaking efforts of the other party.

He finally pushed it open. It seemed to be completely empty.

Chapter 2710 - Heaven's Eye

This was a vast, white space. After Long Chen walked in, the door closed, and he could only see the surrounding white light.

The space here wasn't big, so he could easily see everything clearly.

At this moment, he was filled with reverence.

This was the place Long Qinglan had pointed out for him. Even if he hadn't seen anything, he still believed that something that should appear would eventually appear.

Even if he couldn't see it, he knew that the drop of Hun Yuan's Heavenly Fate Dragon's inherited blood essence was right before his eyes.

Perhaps this drop of inherited blood essence was the same as fate, invisible and intangible, but it was undeniably precious. Destiny was still before karma, only after time had passed.

When Long Chen calmed his heart and closed his eyes, he instead saw a drop of pure white inherited blood essence floating a meter in front of him. It was as pure and mysterious as a drop of milk. Just from the appearance alone, no one would have guessed that this was one of the Paragons of the Dragon Sacrifice Continent, and one of the peak existences of the world.

"Hun Yuan's Heavenly Fate Dragon!"

In Long Chen's life to this day, there were five moments that were especially special.

The moment he obtained the inherited blood essence of the Archaic Blood Spirit Dragon, he began his path of true cultivation growth and began to fight his way through.

The moment he obtained the Great Void Cosmic Dragon's Inherited Blood Essence, he became aware of his responsibilities and promises, and rushed into the Immortal God Realm.

The moment he received the Taiji Creature Dragon's blood essence, he became even more determined and mature. He wanted to fight for his father's honor and dignity.

When he obtained the divine way's Heart Refining Dragon's inherited blood essence, he had suppressed the Four Clans, fighting against the Primordial Demons!

Now, the inherited blood essence of Hun Yuan's Heavenly Fate Dragon was right in front of his eyes, as if it was announcing his departure to the Primordial Gods! This was the beginning of his new life!

Inside this Star of Destiny, the four great Divine Kings were already excluded. This was a world that belonged solely to him, there was no one who could disturb his ability to obtain the inherited blood essence of this Hun Yuan Heavenly Fate Dragon, and he could step onto the reverse path of the battle with the gods!

"No matter who you are, no matter what you want me to do, as long as you can protect the people I care about, protect my home, I am willing to give up everything for you to fight in the future. This is the oath that I, Long Chen, swear to you all. "

As he spoke solemnly, he bowed deeply towards the inherited blood essence of Hun Yuan's Heavenly Fate Dragon.

He knew in his heart that when he was at the head of the Black Jade Dragon, when he stepped onto the inheritance ladder, when he became a god, there would always be existences that were unable to be found, and they were guiding him in the future.

The black dragon that was in the middle of the flood of natural Laws was giving him guidance as well.

They needed him to protect this world and protect the descendants of the Divine Dragon.

Just like this moment, it was the mysterious them who had presented Hun Yuan's Heavenly Fate Dragon's inherited blood essence to him.

He was incomparably respectful to these seniors.

Now, after bowing, he no longer hesitated and extended his hand to touch the inherited blood essence of Hun Yuan's Heavenly Fate Dragon. At this moment, Primordial Gods's face flashed past his eyes.

"The Infernal King, Di Yao, Divine King of Light, and the Dark Desolate God ..."

These existences were all his mortal enemies, especially the Hell God King who had obtained the blood and essence from the inheritance of the Hun Yuan Heavenly Fate Dragon.

What surprised him was that he did not manage to touch the inherited blood essence of Hun Yuan's Heavenly Fate Dragon. The target was his eyes.

The slaughter of the body, the primordial spirit Great Void, the life of the divine nation, and the doings of good and evil, all came from the heart. But now, Hun Yuan's Heavenly Fate Dragon was heading towards his eyes, obviously, the place where he had inherited these eyes, each eye, had inherited one type of fate, destiny of the people, and one type of wish was the wish of all living beings.

Heaven's Mandate in Eyes.

Long Chen was baffled as to why these four words appeared in his heart.

Destiny was in the eye.

Long Chen was unable to describe just what kind of change it was, he lost consciousness in the blink of an eye, as if it was not his own, but the moment he regained control, many blurry images flashed in his eyes, it was an ancient world, the Dragon Sacrifice Continent s were countless times stronger than before, millions of Divine Dragons were incomparably huge, they covered the sky and the earth, they flew unhindered through the vast realms. What glory, what condition.

The number one of the ten thousand realms, the one to be slaughtered by ten thousand Sector lord.

Every single divine dragon was blurry, but they were all incredibly powerful.

These divine dragons, in Long Chen's eyes, gradually became wisps of the fire of destiny.

Looking at its appearance, Long Chen's eyes were still black, but it was already different. When the inherited blood essence of the Heavenly Fate Dragon had completely fused into his eyes, the world he saw was mostly the entanglement of fate, the discovery of the future, the voices of all living beings, and the wishes of the common people.

The left eye was Fate, named the 'Fate Heavenly Gaze'.

The right eye was named 'wishful eye' for a wish.

Long Chen saw different worlds, and adding on the insights he had gained from seeing the fire of destiny, all of these formed a sixth type of Dao Seal above his Great Void Cosmic Dragon Primordial Spirit.

A pure white Destiny Dao Seal.

After becoming a god, what he directly comprehended was the rules. The Dao of Destiny was guiding him, allowing him to first open the Heaven's Eye of Destiny in his left eye.

When the Heaven's Eyes of Destiny was opened, Long Chen's left eye was filled with the power of the Mandate of Destiny, everything was completed in a natural manner. It was as if he had just obtained the inheritance of blood essence of the Divine Purgatory Dragon and understood how to use the Blade Sword and God's Hell.

"This Power of Destiny's laws is like the suppression from the Maze of Destiny. Once I open the God's Eye, as long as I can see it, I will be trapped in an environment that is like a maze of destiny. Even Gods and Demons will be suppressed by the rules of fate, retreating back to the mortal world and greatly reducing their strength."

It seemed simple, but when it truly began, it was incomparably terrifying.

The laws of the Heaven's Eye were a type of weakening, a type of suppression by fate, directly changing the opponent's direction of development, causing his fate to change from a god to a mortal. Such a compulsory, strange, heaven defying rule, compared to the laws of forgetfulness, was even more terrifying.

"I'm afraid that from today onwards, the effect of the Heaven's Eyes of Destiny on me will exceed the effect of time."

For many people, this was undoubtedly a nightmare.

Long Chen had now inherited the inherited blood essence of Hun Yuan's Heavenly Fate Dragon, and this was only the first rule he had comprehended. Just like the rules of slaughter, Long Chen had already comprehended them to an extremely deep level and unleashed the many powers of the Primordial Blood Spirit Dragon.

Five types of rules!

To the gods, this was the most.

After all, even the Emperor Jun Divine Emperor only knew the principles of space and the scorching sun.

The most important thing was the depth.

This inheritance actually took a long time and was extremely slow. When Long Chen finally succeeded in inheriting it, he did not know how much time had passed.

The biggest gain this time was the formation of the Destiny Dao Seal. The endless secrets of the Ancestral Dragon were hidden here, and his eyes had already become the eyes of Hun Yuan Heavenly Fate Dragon.

The rules of the Heaven's Eye were also a great source of support in the future.

"If we can still persevere to the level of Taiji Realm here, and once again advance another level, then fighting or even killing the Infernal King should not be a problem."

Even now, he was confident that he wouldn't lose.

From Perfection to polar state, it was all for the sake of being more confident in defeating the Infernal King at one go. Although the Divine King was terrifying, Long Chen did not forget how helpless he was the first time he met the Infernal King. He hadn't forgotten how he had attacked Ling Xi, but it was about time now.

"If we can't wait for Di Jun to return and make a move, there's no way we can make a move. However, I can't rashly go out at this moment either. "

He still had to wait!

He took the chance to communicate with Mo Xiaolang.

Currently, Mo Xiaolang was concentrating on consuming the divine flame so there was no rush for him.

Su Yan said: "wolf cub has already swallowed one hundred of these divine fires and has gathered nearly two hundred different types of divine fires within his body. It has also been expanded. And he's about to approach the limit of his power, and reach the level of Perfection. "

In terms of cultivation level, Mo Xiaolang was indeed much higher than him.

Of course, Su Yan was the highest ...

He might even be able to help him out a lot during the battle with the God King.

Everyone was growing. This feeling filled Long Chen's heart with passion!

"Let him move forward with ease, I have to continue. Yan Er, if there's anything he needs, just tell me right away. " Long Chen instructed and began cultivating in the vast expanse of white space.

He needed to spend even more time to comprehend what fate was, as well as deeper understanding of killing, time, life, and karma.

He needed more time to grow stronger.

He had the power of the myriad living beings, so he did not need to worry about the source of the power at all. Although it was not fast compared to Mo Xiaolang and the others who could devour the power, his power was much purer, heavier and stronger. Even though he was cultivating step by step, he had already reached the point where he was close to being devoured by others. This was already the greatest manifestation of his peerless talent.

Especially after obtaining the fifth inherited blood essence.

He suddenly remembered the first time he had obtained the Archaic Blood Spirit Dragon's Inherited Blood Essence.

Blood Refinement.

That's right, that was one of the Archaic Blood Spirit Dragon's heaven-defying methods. However, as its cultivation grew later on, its Blood Refinement Qi would gradually lose its effectiveness against high-level enemies.

At that time, the Blood Refinement Qi had given Long Chen a huge help.

The blood sacrifices that followed were all the same.

But these were not the rules.

Since he was unable to use the Blood Refinement Art, he could only practice according to the rules. However, the Divine Emperor was about to return, and if he wanted to silently cultivate, it would be too difficult. Perhaps in the future, when he escaped to the ends of the earth, he would be able to catch up!

"Work hard!"

Persistence was victory!

Long Chen had never forgotten how he managed to reach the realm he was in today. It was just that up until now, he had endured it even more, and he was even more resolute. He no longer spoke to show

off his strength, but he was even more terrifying. This was because he was shouldering the responsibility. Compared to the gods, he had even more courage to fight!

Now, he could only sit and wait for the final battle in the future!
