

War God 271

Chapter 271 - Mother and Child Jade Fire Crystal

When the Ninth Prince spoke, he made his purpose very vague, but Long Chen was not stupid, and understood immediately. In fact, the Ninth Prince only wanted to recruit Long Chen as his loyal subordinate.

Long Chen was innately rebellious and unruly, how could he submit to others? Even if the Ninth Prince had immense power, Long Chen would not give in. But the Ninth Prince had given him benefits, why not just take it back?

"Forget it, I'll just fool him today. When I'm strong enough, I won't bother with you either."

Long Chen thought in his heart, and when the Ninth Prince finished speaking, he immediately said respectfully: "Long Chen is willing to serve Your Highness, and repay Your Highness for showing mercy, and to go through fire and water, and not refuse in the least!"

"Very good, very good!" Seeing that Long Chen was sensible, the Ninth Prince was overjoyed. Without saying a word, he took out a Heaven and Earth Pouch and handed it over to Long Chen, saying: "You actually want me to do something, I will naturally give you some gifts. Within this Qiankun bag, there are one hundred Tianhe Dan, enough for you to charge into Milky Way Realm. There is also the high-rank earth class battle skill "divine fire clone", which you can learn! "

This time, Long Chen had no choice but to be overwhelmed by the favor. It seemed that the Ninth Prince was very good at taming his subordinates, and was extremely generous, if Long Chen was not smart, he would probably be moved to tears by this. One must know, a hundred Tianhe Dan s, ordinary Second Stage of the Milky Way Realm did not have this kind of wealth, but as for divine fire clone s, they were even more valuable.

However, to Long Chen who had two thousand Tianhe Dan and the full version of the divine fire clone, these things were useless.

"If you want to move your father, you have to at least take out half of your wealth." Long Chen slandered her in his heart, but he pretended to be grateful on the outside. Looking at the situation, he almost wanted to say something about going through thick and thin.

"This divine fire clone is a very mysterious battle skill. It has two stages in total, cultivate well and try to condense five clones as soon as possible. At that time, your combat power will increase greatly! " The Ninth Prince was very satisfied with Long Chen's performance, and said with a smile.

"Thank you, Your Highness!" Long Chen said gratefully.

Long Chen reckoned that this Ninth Prince must have gotten three levels of divine fire clone, but he only gave him two.

"Looks like this guy is really quite generous, but in reality, he is just using it as a method. He would never give me something that's truly important. However, if he knew that I have a fourth stage divine fire clone, what kind of expression would he have?" Long Chen secretly slandered her in his heart.

Initially, Long Chen was still worried that if he used divine fire clones in the future, he didn't know how to explain it. But now, not only could Tianhe Dan explain it, it could even explain it. In the future, he would be able to cultivate to his heart's content and would no longer have any fear.

"No need to thank me. Since you've agreed to work for me, it is only right that I give you some benefits. If you satisfy me in the future, the benefits will be endless!" Long Chen, in three days, I will be leaving the Source Spirit City and returning to the Biyang Royal City. You should prepare well in these three days and bid farewell to your family and friends! "

"Three days later? So fast? "Fine." Long Chen nodded, and said: "Does Your Highness have any other orders? If not, I will leave first. I will definitely head to Imperial Jade Palace within three days. "

"Since that's the case, you can go first." The ninth prince nodded in satisfaction.

Long Chen then left.

After Long Chen left, the butler dressed in black who had been silent this whole time finally said: "Your Highness, I feel that this Long Chen is a little strange."

"What's so weird about that?" The ninth prince was stunned.

"When he received the Nine Revolving Fire Shield, he did not say anything. He just revealed it today, and I feel that if he really wanted to fight over the fairyland godly guard, he should have revealed it earlier."

"Old Yan, what you're saying is that Long Chen might have had some fortuitous encounter in the Burning Sky Secret Realm, but he didn't say it?" The ninth prince laughed.

"It's just a guess." The butler dressed in black said.

"Forget it, stop thinking about it. That old fogey Fen Tian on the map I obtained doesn't have anything else. Besides, Long Chen is tied to me from then on, if he has anything else, how could he possibly escape my eyes?"

"Your majesty is right." The black clothed butler laughed.

Coming out from the city walls, Long Chen had no choice but to walk in a few alleys, otherwise, if he was recognized, he would definitely be surrounded.

"Am I going to leave here in three days? "Who should I say goodbye to?" Long Chen was reluctant to part with this place that he had lived in for so long.

"We need to go back to White Sun Town for one round. We need to go back to Qingyang Hall as well. That's about it." Thinking about it carefully, there were only a few people who had a good relationship with him. As for Little Wolf, he was the only one left.

Long Chen was thinking about how he did not attract anyone's attention. He suddenly remembered that a long time ago, when Liu Lan was participating in the auction, there was a cape that Long Chen took out, put on his head, and then stuffed Mo Xiaolang inside it. Only then did she dare to walk on the streets with ease.

"Let's go take a look at Sister Meng Yao first." Long Chen said to the wolf cub.

As he was wearing the cape, not many people could recognize Long Chen, and Long Chen said complacently: "This time, no one recognized me right?"

Just as he was feeling proud, a child suddenly ran in front of him, blinked his eyes, and asked: "Are you Big Brother Long Chen?"

Long Chen was so depressed that he almost vomited blood.

That child didn't care about that. Instead, he stuffed a piece of paper into Long Chen's hands and said: "Big Brother, someone asked me to give this to you."

After saying that, the child immediately ran away.

Long Chen frowned, his instincts told him that something must have happened. He immediately opened the slip of paper and saw the line of words, along with a simple and crude map.

"Long Chen, if you want Yin Mengyao's life, come to this place."

That simple and crude map had an obvious location marked on it. Long Chen guessed that this should be a relatively remote and abandoned district in the Northern Spiritual Realm. As long as he followed the map, he would be able to locate the location easily.

However ...

Long Chen clenched his fists tightly, and a trace of violent killing intent instantly filled his eyes.

In fact, what Long Chen loathed the most were people whose strength was inferior to him, and people who could threaten those whom he valued the most, in order to take his life. From the moment Long Chen had risen to now, he had encountered many things like this! Many of the people around him had been threatened like this before!

This was what Long Chen hated the most!

He did not expect that just as he was about to leave the Source Spirit City, there was actually someone who came to cause trouble for him!

This time, it was Yin Mengyao who had been kidnapped. No matter what Yin Mengyao said, she was also the foster sister of Long Chen and Xiao Lang. Not only did Long Chen think highly of her, Mo Xiaolang had even treated her as his own sister.

Seeing this inflating slip of paper, traces of blood started to leak out of the little wolf's black and pure eyes. Long Chen could feel that the little wolf's body was gradually becoming ice-cold.

"Wolf, go kill him." Long Chen said indifferently.

In the Source Spirit City, there were only two forces that dared to provoke Long Chen. Long Chen wanted to see whether it was the Lingwu Family or the Beast Soul Hall!

Therefore, when the little wolf transformed into its battle form on the main street, Long Chen straddled his back and sat on his back. Then, a black figure that was almost impossible to see with the naked eye was running between the rooftops, crazily rushing towards the Northern Spiritual Region from the city gates!

Most people could only feel a whirlwind rushing towards them, but they could not see anything clearly. Moreover, the wolf cub was running wildly on the rooftop and did not run into anyone. This made his speed much faster.

Mo Xiaolang had already memorized the location on the map.

"Regardless of whether it is the people of the Lingwu Family or the people of the Beast Soul Hall, as long as they have some rationality, they will not touch me, so this matter must be done by someone who has lost his rationality. Within the Lingwu Family, there are many people who have lost their rationality towards me, and within all of the Beast Soul Hall, there is only Yan Danqing!"

Thinking about Yan Danqing, Long Chen felt that he was eighty percent sure that it was him!

When he saw the hatred and gloominess in Yan Danqing's eyes when he left, Long Chen understood.

At this moment, the hatred in Long Chen and the little wolf's heart had already filled to the brim. No matter who it was, to them, they would definitely die!

With the wolf cub's abnormal speed, it took Long Chen half a quarter of an hour to reach the Northern Spiritual Region. After that, he found the location indicated on the map within the Northern Spiritual Realm and spent another quarter of an hour to reach it. When they arrived at this quiet and abandoned district, Long Chen astonishingly saw that Yin Mengyao was tied to a stone chair. Luckily, she was not harmed or humiliated. Long Chen was in the city gate tower talking to the Ninth Prince. Not much time had passed, so that thief should not have enough time.

At this moment, did not rejoice at her arrival. Instead, she was flustered, her mouth was stuffed with cloth and she could not make a sound, so she could only send Long Chen a meaningful glance with all her might. Tears welled up in her eyes, and she was so anxious that her eyes were filled with tears.

Long Chen knew that Yin Mengyao wanted him to leave quickly.

But was that possible?

Long Chen quickly saw the reason why Yin Mengyao was so anxious. Currently, on Yin Mengyao's thigh, there was a fist-sized green crystal.

"You must not know what this is, right?" Yan Danqing laughed sinisterly, walking out twenty meters behind Yin Mengyao. His face was ferocious, with a crazed look, he said hysterically: "Let me tell you, you are my mother, the Jade Fire Crystal!"

In his hand, there was another thumb-sized green crystal, which was practically a mini version of the crystal on Yin Mengyao's thigh.

"Mother Jade Fire Crystal, as long as the child crystal explodes, the mother crystal will explode as well. And if this piece of mother crystal explodes, under the Milky Way Realm, no one can stop it, the only outcome is death! Long Chen, tell me, if I crush this crystal right now, how much pain would you experience? "

Chapter 272 - Soul Jade Plate

Being able to use all of his mother's jade fire crystals meant that the current Yan Danqing had already lost most of his reason. The current him was a madman, he would rather not care about his own life, than to have Long Chen pay the price.

He used his thumb and forefinger to hold the child crystal, placing it in front of his eyes. As long as he used a little more strength, he would be able to completely crush the child crystal, and at the same time, the mother crystal on Yin Mengyao's knee would explode. The child crystal would explode, but if the mother crystal exploded, Yin Mengyao would definitely not be able to leave any trace behind.

In this crucial moment of life and death, both Long Chen and the wolf cub charged straight for Yin Mengyao without hesitation! This was exactly what Yan Danqing was planning! What Yan Danqing

wanted was for Long Chen to die, Yin Mengyao to die, and Long Chen to die. If Long Chen wanted to save Yin Mengyao, how could he not die?

Looking at Yin Mengyao's flustered face, Long Chen's heart had already tensed to the extreme. At this moment, his heart was filled with overflowing anger, because from the looks of it, he simply could not save Yin Mengyao at all.

However, right at this moment, the little wolf, who was even faster than him, let out a burst of wolf howls. Long Chen could feel a strange aura coming from the little wolf, and this feeling was clearly the feeling Long Chen had when the little wolf was by his side and engulfed the Nine Hell Devil Ancestral Flame.

"Is the wolf cub using the engulfing technique of the Sun Devouring Demonic Wolf?" Long Chen was stunned at first, but then he immediately reacted and revealed a look of great joy. This mother jade fire crystal was obviously something of the fire attribute, and this kind of item, would only be the Sun Devouring Demonic Wolf's food!

Thinking to this point, Long Chen heaved a sigh of relief, but the anger in his eyes did not lessen. If not for the fact that Little Wolf had such an ability, Yin Mengyao would definitely have died today, causing both Long Chen and Little Wolf to regret for the rest of their lives.

Long Chen immediately took out the green dragon halberd. When the little wolf was trying to save Yin Mengyao, he suddenly rushed towards Yan Danqing and pointed the green dragon halberd in his hand at Yan Danqing's head.

"You still want to kill me? "Go to hell!"

Right at this moment, Yan Danqing laughed crazily, and crushed the crystal in his hand. Immediately, a wave of energy fluctuations were transferred to the mother crystal, and at this moment, everyone tensed to the extreme.

When Yan Danqing exploded the crystal, the mother crystal had already left Yin Mengyao's thigh and was walking towards the Sun Devouring Demonic Wolf. What made Long Chen truly feel at ease was that the mother crystal did not explode, but was directly swallowed into her stomach by the little wolf. From this, it could be seen how strong the Sun Devouring Demonic Wolf's ability at devouring flames was.

Towards this guy, the enraged Long Chen simply could not stop his own hands. He waved her green dragon halberd and suddenly raised it up, and with a dragon roar, the green colored dragon image suddenly rushed towards Yan Danqing!

"green dragon halberd, Soaring Dragon Nine Heavens!"

Using this move against Yan Danqing, it could be seen what level of fury Long Chen had reached. Yan Danqing had originally been looking forward to seeing Yin Mengyao and the nearby Long Chen getting smashed into pieces. But what he saw was that the mother crystal had actually been swallowed by the little wolf, and to him, this kind of thing was impossible. So when Long Chen used such a move on him, he was actually in a daze.

However, it was already too late, as his strength was inferior to Long Chen's in the first place. Under Long Chen's Soaring Dragon Nine Heavens, he could only let out a roar of despair, and was sent flying into the sky by Long Chen. When he fell on the ground, his eyes were wide open, and he had already lost all signs of life, and died completely.

After killing Yan Danqing in one move, Long Chen had finally resolved his hatred. However, thinking back to the Primordial Emperor behind Yan Danqing, and the warning that the Primordial Emperor had given him, he became somewhat worried.

Even though he was worried, he didn't regret killing Yan Danqing. He actually kidnapped Yin Mengyao, offending both Long Chen and the little wolf. Even if Long Chen didn't kill him, the little wolf would definitely kill him.

Just as Long Chen was about to get together with Yin Mengyao, a ray of white light suddenly flew towards the Yuandi City from Yan Danqing's corpse.

"This is bad!" The little wolf had just untied Yin Mengyao with its claws, allowing her to regain her freedom. The moment Yin Mengyao broke free, she saw the white light and immediately said anxiously: "That's a soul jade tablet, when Yan Danqing dies, it will fly back to its master's side, and record the location and the character's information. I think that Primordial Emperor will know soon enough, you guys hurry and run!"

Before he even had the chance to speak with Yin Mengyao, an even greater danger was right in front of him. Long Chen reckoned that the Primordial Emperor would look down on him because he was a fairyland godly guard and would not dare to be his opponent.

"Sister Meng Yao, hurry up and return to the Lingwu Family. I am already a fairyland godly guard now, so I will be heading towards the direction of the Imperial Jade Palace. There's no time to waste, let alone escape this time, I will go find you in the Lingwu Family!" Long Chen kept his green dragon halberd and quickly instructed.

"Alright, you guys must be careful!" Yin Mengyao knew how serious the situation was, so he did not delay any further. They split into two groups and started to move.

On the little wolf's broad and broad back, Long Chen thought carefully: "Primordial Emperor's strength, is Second Stage of the Milky Way Realm, and also the Primordial Beast's beast spirit transformation, I am definitely not his opponent. The little wolf currently controls the body of the Sun Devouring Demonic Wolf, and is not particularly familiar with it. In a real battle, neither of us are necessarily the match of the Primordial Emperor! Primordial Emperor seems to be more difficult to deal with than Azure Dragon Ancestor, regardless if it's mental strength or power. This time, will he take the risk to kill me? "

At this time, Long Chen and Xiao Lang still had not left the Northern Spiritual Realm. The position of the Imperial Jade Palace was located in the center of the Four Great Regions and was relatively close to the Eastern Spirit Region.

However, just at this time, a furious roar came from the west: "Long Chen, don't go!"

This hoarse and aged voice was obviously from the Primordial Emperor's, and never would he have thought that the other party would actually catch up to him. Long Chen's heart instantly tensed up to the extreme, and when he turned around to look, he could clearly see the enormous aura being released by the Primordial Emperor's body, and was clearly going to make a move against Long Chen.

"Wolf, be careful!" During the process of speaking, Long Chen had no choice but to complete the Dragonsoul Transformation, and reveal his strongest side! He was about to leave the Source Spirit City right now, and if he were to fall at the hands of the Primordial Emperor again, then everything would be a waste!

"Why is the Primordial Emperor looking for me?" Long Chen asked coldly.

If it was a long journey, Primordial Emperor would definitely not be faster than laughing, but right now, it was only a period of chasing, so even if it was the little wolf, it would still find it difficult to get rid of him.

"For what? Long Chen, you killed two of my grandchildren, Yan Chixie, Yan Danqing, regardless of whether you are a fairyland godly guard or not, today, I will take back some justice from you! "

Primordial Emperor's figure suddenly appeared in front of Long Chen in an instant!

With just the strength of a single person, he was already able to catch up to the state of the Four Great Patriarchs of the Lingwu Family with their Earth Ranked Divine Weapons. It could be seen just how strong the Primordial Emperor was.

"Aren't you afraid that the Ninth Prince will take your life?" Long Chen asked curiously.

"Fate? So what? Long Chen, I had already warned you not to underestimate an old man's methods, yet you still killed my grandson. With such a deep hatred, if I were to act as a human with my tail between my legs, how am I to face all of my Beast Soul Hall's disciples in the future? The Ninth Prince values your potential, not your strength. There are a lot of people with talent like you in Biyang Royal City, but you honestly think that if I kill you, the Ninth Prince will destroy the entire Beast Soul Hall. I'm telling you, dream! "

Long Chen's brows deeply furrowed. He could tell that Primordial Emperor had truly gone berserk this time, and just by looking at his heavy breathing and the veins bulging on his body, he was able to see through some clues. Long Chen, this commoner who had no foundation, had actually taken away the position of his grandson's fairyland godly guard, and even killed Yan Danqing in the end. How could the Primordial Emperor not go crazy over this?

It was very possible that he would reach the Milky Way Realm in a few years, and in the future, he might even surpass the Primordial Emperor himself. This kind of grandson, Yan Danqing, could be said to be a good sapling that the Primordial Emperor had raised for many years.

This time, even if he had to brave death, he had to get rid of Long Chen. As long as Long Chen died, he would deal with the pressure the Ninth Prince had on him. The Primordial Emperor didn't know how much the Ninth Prince valued Long Chen, nor did he know that the Ninth Prince had already given him a lot of Tianhe Dan s, as well as the first two stages of divine fire clone s.

At this time, the only thing in Primordial Emperor's heart was fury and killing intent!

Long Chen knew that this battle was unavoidable. He had thought that his battle with the Azure Dragon Ancestor would be his last battle in the Source Spirit City, but he didn't expect it to be Primordial

Emperor's. This was the strongest warrior in the Source Spirit City, and what Long Chen was facing was the existence he had once looked up to.

However, he was still not Primordial Emperor's match. It seemed that he could only rely on Little Wolf this time.

"Wolf, be careful. I'll support you from the side." and the Little Wolf already had a true brotherly relationship. The Little Wolf didn't feel that there was anything wrong with Long Chen killing Yan Danqing, but now that they were about to fight this legendary strongest warrior of the Source Spirit City, his heart was filled with emotion.

"A second level Earth Stage demon beast. Hmph!" Primordial Emperor snorted coldly.

"Beast Soul Transformation, Primordial Beast!" At this time, Primordial Emperor was quickly completing his beast spirit transformation, transforming into the appearance of a half human half white ape. However, this white ape was at least four meters tall, and just its arms were thicker and longer than Long Chen's entire body!

The sharp teeth, sharp claws and white fur all over muscles gave Primordial Emperor a visual shock. His robust appearance was completely different from his old and strong appearance.

At the same time, a monstrous aura burst forth from his body!

Chapter 273 - Fighting Primordial Emperor

This was the first time Long Chen and the little wolf fought side by side, and Primordial Emperor was also the first time, strong to the point that he needed them to fight together!

At this time, the Primordial Emperor's eyes were gloomy, he did not say anymore, the tip of his foot moved on the ground, his four meter tall body turned into a mountain, the fast moving mountain, rushed towards Long Chen and Little Wolf!

The enormous pressure caused Long Chen's expression to change from the very beginning!

Long Chen knew himself well, and knew that he was definitely not his opponent's match. Therefore, the ones fighting against the Primordial Emperor were mainly the little wolves, while Long Chen only played a supporting and harassing role!

Therefore, he dodged to the side. At this moment, compared to the Primordial Emperor, the even larger wolf cub had already completely collided with the enemy. The body of a demon beast had a very strong advantage, and compared to a warrior who had cultivated in the body tempering technique, their physical bodies were much stronger, especially the heaven defying perfect demon beasts like the Sun Devouring Demonic Wolf!

As a Beast Fighters, Primordial Emperor was at most half a demon beast. In terms of size and strength, he was not as good as the wolf cub. Thus, during the first charge, he lost to the wolf cub and was forced to retreat!

"Devouring Blood Realm!" At this time, Long Chen immediately unleashed his most powerful support skill. Devouring Blood Realm did not attack without distinction, but instead targeted at others, although the Little Wolf was within his range, the Devouring Blood Realm did not affect his fighting strength in the slightest, but it was different for the Primordial Emperor. The huge suction force worked on his blood, causing his blood to boil!

"Is this the strange ability to make the Azure Dragon Ancestor lose his soul to the heavens?" Primordial Emperor was secretly shocked. The Innate Qi Long Chen used to cast the [Devouring Blood Realm] was not strong, so the impact that the current Devouring Blood Realm had on the [Primordial Emperor] could only be described as average.

However, in the middle of the battle, Primordial Emperor felt as if a knife was resting on his chest, making him very unhappy.

Without saying a word, he roared and pounced towards Primordial Emperor. At this time, a cold air current swept the surroundings, the wolf cub opened his mouth and spat out, immediately, a black flame pounced towards Primordial Emperor! The black flames congealed into the shape of a wolf, as though it was a charging fire wolf, and instantly appeared in front of Primordial Emperor!

"What is it?" From the flames, he felt a hair-raising aura. Under the control of Long Chen, even when he used his movement technique, he was still unable to dodge, so at this moment, he could only use his battle skill!

"Clear Water Shield!"

Under Primordial Emperor's display, a shield that seemed to truly be made of water blocked in front of him! The water on the shield flowed in a natural pattern, and a faint symbol appeared on the surface of the water shield!

When the Primordial Emperor used the Clear Water Shield, he immediately threw it out, and then retreated. As he retreated, the Clear Water Shield exploded, and the remaining flames directly struck the ground!

Crack! Crack! Crack!

At this time, when Primordial Emperor landed on the black ice, he discovered that it was easy for the ice to turn into powder. The original ground, the soil, and the other things had already completely disappeared!

"What kind of flame is this!?" Primordial Emperor was shocked. He was very glad that he made such a right decision just now. He believed that if he were to clash head on with the little wolf, this Nine Hell Demonfire, he would be reduced to a pile of dust.

Long Chen's Devouring Blood Realm and Little Wolf's Nine Hell Devil Ancestral Fire all showed just how extraordinary they were. If they were allowed to grow, Primordial Emperor believed that they would definitely grow into peerless existences.

The little wolf, who was supported by Long Chen's Devouring Blood Realm, actually did not kill Primordial Emperor with one of the Nine Serenities Devil Ancestral Fire, which made the two of them feel even more tense. Even the first Nine Serenities Devil Ancestral Fire was avoided by the Primordial Emperor by means of a trick, it seemed that it would become a little difficult to unleash this killing move on him in the future.

Long Chen knew that even though the Nine Serenities Demon Ancestral Fire was being devoured by the little wolf, it wasn't like the mother jade fire crystal, which was being directly digested into demon power. Instead, it was hiding in the little wolf's body, which the little wolf could only control a small part of right now.

Ever since he had unleashed the Nine Hell Devil Ancestral Fire, Primordial Emperor was even more determined to take the risk and get rid of Long Chen. Long Chen was already a monster, if he had a monster beast pet, one day, he would be able to easily kill Primordial Emperor.

"Nine Elements Shattering the Sky!"

Right at this moment, Primordial Emperor let out a loud explosive sound, and a simple and direct punch shot towards the Little Wolf. His body directly inserted between Long Chen and the Little Wolf, and then, he focused on attacking the Little Wolf!

For Second Stage of the Milky Way Realm experts, Little Wolf had no choice but to focus on them. Just now, his Nine Hell Demon Ancestral Fire had no effect, so it was not endless. Therefore, Little Wolf could only use it sparingly.

Of course, just with the Sun Devouring Demonic Wolf's combat abilities, it was not bad either. At the very least, Xiao Lang had to block the Primordial Emperor and guarantee that he wouldn't be injured.

The Nine-Yuan Sky Shattering Fist and the little wolf's claws clashed together with a loud bang. Both of them were knocked back and retreated behind them, when suddenly, the little wolf's eyes widened, because he had discovered Primordial Emperor's true intention!

Just a moment ago, Primordial Emperor had stabbed into the middle of the two of them and successfully separated them. But now, during the process of being pushed back, Primordial Emperor suddenly turned around, and with lightning speed, rushed towards Long Chen!

His true target, was Long Chen!

Long Chen did not discover his purpose in the beginning, he had neglected the hatred the Primordial Emperor had for him. Although Long Chen's strength was not as strong as the little wolf, he was the one who made the decision, as long as Long Chen died, the Primordial Emperor would feel that he did not need to care about the little wolf at all!

"Brat, I didn't think that my real target would be you, right? Let's see how you can escape my Demon Claw! " This time, his attack was even more powerful than last time. It was the strongest move that Yan Danqing had ever used!

"Die!" "Yuan Ji Murderous Fist!"

This Earth Ranked battle skill had an extremely strong killing power. It was like an electric drill that flew towards Long Chen!

Previously, when the Primordial Emperor separated him from the little wolf, Long Chen was also unable to resist. In fact, he had already guessed that the Primordial Emperor would specially deal with him, so when Yuan Ji tried to attack him with his Murderous Fist, he had already unleashed the Nine Revolving Fire Shield!

Before the Yuan Ji Killing Fist arrived, the Nine Revolving Fire Shield had already completed its sixth rotation, and could probably barely block the Primordial Emperor's attack. However, at this time, Long Chen discovered a serious problem!

He had just defeated Azure Dragon Ancestor and then killed Yan Danqing. Today, the amount of true qi he had was already extraordinary, when he used his Earth Stage Medium again, he realized that he did not have much left!

they definitely could not stop the crazy Primordial Emperor!

"Wolf, save me!"

Right at this moment, under the barrage of Second Stage of the Milky Way Realm experts, the Nine Revolving Fire Shield was completely smashed apart. Against the Nine Revolving Fire Shield, Primordial Emperor had used two full moves of the Primal Slaying Fist! After breaking through the Nine Revolving Fire Shield, Long Chen had already appeared before his eyes!

"This time, you're not going to die!" Primordial Emperor let out a cold and wild laugh, his huge claws crazily thrusting towards Long Chen, his huge body and strong muscles, were almost able to completely tear Long Chen's stomach apart!

"Heaven Shaking Divine Palm!"

Just at this time, the claws turned into palms, smashing down towards Long Chen! Long Chen suddenly felt as if the sky had been covered, and an enormous pressure directly pressed him down to his knees! The technique Primordial Emperor was using with all his strength. Without question, it should be a

battle skill of Earth Stage Medium, even if the Azure Dragon Ancestor has a battle skill of Earth Stage Medium, the Primordial Emperor must have one too!

This should be the most powerful move of the Primordial Emperor!

"Not good!" However, his experience told him that the more dangerous it was, the calmer it should be. At this time, Mo Xiaolang had already rushed to the back of Primordial Emperor, and because Long Chen was right in front of him, the little wolf didn't dare to use the Nine Hell Devil Ancestral Flame.

"Azure Dragon Battle Method, Soaring Dragon Nine Heavens!"

At this moment, Long Chen unleashed his strongest move once again, which was enough to kill Azure Dragon Ancestor. Although it was weaker than Primordial Emperor's strongest move, it was still not weak at all!

Rumble rumble rumble!

One above and one below, the two forces clashed and produced powerful ripples!

The Primordial Emperor was laughing wildly, but Long Chen felt as if he had sensed a gigantic mountain peak pressing directly on his head. His palm trembled and blood spurted out as the green dragon halberd flew out of his mouth, flying god knows where, while Long Chen himself felt the impact of the impact, causing his legs to sink straight into the ground!

To Long Chen, it should have been a long time since he suffered such heavy injuries. However, he discovered to his horror that Primordial Emperor's attacks had not stopped, and when the little wolf's attacks had already completely hit Primordial Emperor's back, Primordial Emperor was still clenching his teeth, and his last palm strike had sent Long Chen flying with a loud bang!

At the same time, Primordial Emperor was also knocked away by the wolf cub, his face was pale white, he spat out a mouthful of blood, on his back, were numerous bone-deep claw marks, and fresh blood flowed out. At this time, if Long Chen had any Innate Qi to support his Devouring Blood Realm, he would definitely be able to absorb all of the Primordial Emperor's blood, but unfortunately, Long Chen was also severely injured!

Seeing that Long Chen was injured and flew backwards, the little wolf let out an angry howl. When it had injured Primordial Emperor, it did not immediately attack, but was worried about Long Chen's safety. When Long Chen landed, it caught him steadily and carried him on the ground.

At this time, Long Chen's situation was much worse than he imagined. Only now did he understand the meaning behind the words that he had said earlier, about not underestimating the elderly.

He endured the attack the little wolf had given him, in exchange for Long Chen's heavy injuries, all for crippling Long Chen and not killing him!

Chapter 274 - Opening the Space within one's body

The damage it caused to the Primordial Emperor could only be considered serious superficial wounds. This kind of injury looked very terrifying, but as long as there were enough spirit medicine to recuperate, it was very easy to recover from. However, Long Chen was different.

The last palm strike from the Primordial Emperor landed directly on his abdomen, or should be said to be inside his dantian. This strike did not cause any damage to Long Chen's body, but the sharp Astral Qi contained in the palm was like a sword, directly thrusting into Long Chen's dim Heavenly Pellet.

Primordial Emperor wanted to directly pierce through Long Chen's Heavenly Pellet and drain all of Long Chen's True Qi, turning him into a cripple! It could be seen how ruthless he was. He didn't even think about killing Long Chen.

Would the Ninth Prince not value Long Chen's talent? When Long Chen became a cripple, would he still want it?

As the strongest expert in the Yuandi City, he held a lot of spirit medicine and treasures in her hands. The spirit fruit he was currently using was probably an Earth Rank medicine, and only an Earth Rank medicine would be able to quickly heal the injuries of a Milky Way Realm Ranker.

To be honest, Long Chen was really panicking now, he could only watch as the Heaven's River Qi pierced into the Heaven Pellet, and watched as it formed again. The Heaven Pellet started to crumble, and the

Qi that he had trained so hard for started to dissipate into his limbs and bones, and if this continued, in less than half an hour, he would definitely become a cripple!

The wild laughter of the Primordial Emperor had aroused his endless anger!

"Old bastard!" To think that it would be so ruthless! I should still underestimate you! I underestimated others! "Now that the Heavenly Dan is broken, my cultivation will be destroyed sooner or later, what should I do?"

The wolf cub, who was beside him, felt his condition and was extremely anxious. If it wasn't for the huge situation that Long Chen was in, he would have killed the already injured Primordial Emperor straight away. Otherwise, it would be extremely difficult for him to deal with the latter when he recovered.

At this critical moment, an idea suddenly came to Long Chen's mind.

To go from Divine Pill Realm to Milky Way Realm, one must experience a process which is like a river bursting out of a pill, opening up the starry sky within the body, widening the astral veins. Although the temperature of my Great Perfection of the Heavenly Core is not hot enough, making it difficult to break through to the Milky Way Realm, my advantage lies in the fact that I have enough Tianhe Dan s, and at this time, this method is my only chance to preserve my strength!

Thinking up to here, Long Chen's eyes lit up. He struggled to stand up, gritted his teeth, and said to him in a soft voice: "I want to take this opportunity to attack Milky Way Realm! You go and hold him! "

The wolf cub's eyes also lit up. He immediately realized that this was the only solution to the problem. After hearing Long Chen's instructions, he rushed towards the healing Primordial Emperor without a word!

After wasting some time, the Primordial Emperor's injuries had already recovered a little, and seeing that the Sun Devouring Demonic Wolf was actually going to attack him crazily, he smiled secretly: "Seeing that Long Chen doesn't have any hope, you're already crazy, you want to deal with me? However, a beast is still a beast. In Source Spirit City, this is my territory, what right do you have to fight me? "

Although he thought this in his heart, Primordial Emperor dared not be negligent when dealing with the little wolf. The flame the little wolf spat out previously, Primordial Emperor firmly believed that as long as he got hit by it, he would definitely die.

In the Sun Devouring Demonic Wolf's memories, there were many battle methods that were not inferior to battle skills. After using them, and adding the threat of the Nine Hell Devil Ancestral Fire, he was able to fight to a draw against the Primordial Emperor, while Long Chen took this opportunity to sit on the ground and circulate the shattered True Qi, to open up a river of stars in his body!

Seeing Long Chen like this, Primordial Emperor immediately laughed: "Truly an innocent fellow. Breaking through Milky Way Realm to open up a river of stars in one's body, this is an extremely dangerous and difficult task, it still requires eighteen Tianhe Dan! You have just entered the Great Perfection of the Heavenly Core, what qualifications do you have to enter the Milky Way Realm! "

If Long Chen were to shatter the Sky Pill directly, his Innate Qi would dissipate even faster.

But, this was his only hope, and at this critical juncture, Long Chen calmed himself down, gritted his teeth, increased his speed, allowing his Heaven Pellet to shatter faster. Under his control, the Heaven Pellet suddenly shattered, and a huge amount of blood red True Qi immediately exploded out, gushing into his four limbs and bones, into his completely cleared dragon vein, and into his eight meridians!

But, it was already the Great Perfection of the Heavenly Core's true qi, for Long Chen's body right now, it was simply too much. Countless tiny streams of air flowed out from his skin, ears, nose, and mouth, turning his entire body blood-red.

Long Chen was very upset, he realized that if he did not have his Level 3 Thunder Flame Battle Body, he might have been broken through by the huge amount of Innate Qi right now.

"Next, I will guide all the Zhen Qi and gather all the tiny meridians together to form eighteen star veins. These eighteen star veins will be the elementary form of the starry sky, and after I absorb the power of the stars, I will be able to fuse the invisible star power into the Dragon Soul Zhen Qi, transforming it into liquid form. Breaking through the star veins, I will form the same kind of star vein as the night sky, which will form the first level of Milky Way Realm!"

Among the eighteen galaxies, nine would appear during the day and nine would appear during the night. Each Yang Tianhe and one Yin Tianhe would form a pair of Yinyang Tianhe, and only by condensing the Yinyang Tianhe would one be considered to have truly completed the first stage of Milky Way Realm.

It was still daytime now, so if Long Chen could condense the Sky River, it would also be Yang Sky River.

At this time, the blood red Innate Qi was surging in his body, Long Chen was controlling the True Qi and sensing the power of the Astral River, in the daytime, there was a sun, hence it was not easy to discover the formation of the Astral River, but Long Chen had long memorized the location of the first Astral River.

Tianshu Xinghe.

The name of this first galaxy was Tianshu. There were two of them, yin and yang, which extended in parallel through the sky without any sign of intersecting. And now, Long Chen had to open up a new starry sky in his body, absorb the power of the Dubhe River, fuse it with the Dragon Soul Zhen Qi, and create a positive Sky River in the star veins in his body.

The method to open up the starry sky in his body was called the "Star Condensation Method". After Long Chen obtained the Tianhe Dan, there would be a day when he would be able to reach the Milky Way Realm, so he had found an opportunity to view the Star Condensation Method. This thing was not rare, it was just that there were not many people who actually needed it. With the Star Condensation Method, Long Chen could use all of the True Qi in his body to open up a new starry sky in his body. The Star Condensation Method was very common, but using the Star Condensation Method required a very important thing, and that was the Tianhe Dan!

A total of eighteen star veins required eighteen Tianhe Dan to open, and this was even at the level of an ordinary person. Long Chen had even heard that there were some genius warriors with special physiques that required nearly a hundred Tianhe Dan to open up their inner space! The Tianhe Dan s were not cheap, and with normal First level of the Milky Way Realm, all of her possessions would only be ten or so Tianhe Dan s. The reason Long Chen was able to have over two thousand Tianhe Dan s was purely because he was lucky and obtained the inheritance of the The Devil Emperor of the Burning Heaven!

At this moment, Long Chen was using the Star Condensation Technique, but what surprised him was that all his development was very good. The only drawback was, even with his Innate Qi, he still lacked in quantity, unable to open up 18 star veins at the same time!

With the Star Condensation Art, Long Chen had already planted a total of eighteen Star Vein Seeds in his body, running through his entire body. The process was very smooth, next, he needed to use Tianhe Dan s to open his Star Vein from the Star Vein Seed!

At this time, he had already displayed all the characteristics related to a divine dragon. Right now, his body was already somewhat different from an ordinary person, Long Chen had a faint premonition that

it would be somewhat difficult, even extremely difficult, to open up a new starry sky within this dragon body.

"However, for the sake of not becoming a piece of trash, let's do it!"

Thinking of this, a cold light burst out of Long Chen's eyes, and within his eyes, the power of the stars could already faintly be seen.

He decisively took out eighteen Tianhe Dan, placed them in his palms. All of them had already been completely prepared for the Star Condensation Art, and Long Chen's true energy had all been drawn close to the location of the star vein seed. And at this time, Long Chen had just swallowed a Tianhe Dan.

The Tianhe Dan's power was a tamed formed power, it had gone through refinement, so after consuming the Tianhe Dan, Long Chen did not feel any discomfort. A cool wave, but it was filled with an invisible power, like liquid, that seeped into his body and fused with Long Chen's Dragon Soul Zhen Qi!

"Start!"

Using the power of the Tianhe Dan and his Innate Qi, with the Tianhe Dan as her guide, and his Innate Qi as her attack, Long Chen started to look in a fixed direction from inside the Star Vein Seed, and opened her Star Vein! Although there weren't many Dragon Soul Zhen Qi in the Great Perfection of the Heavenly Core, their quality was extraordinary. Long Chen was happy to see that it didn't seem to be too difficult to open this Star Meridian.

However, he quickly suffered from the pain. In the process of opening the Star Meridian, his true qi was not expended much, but the Tianhe Dan seemed to have met a strong resistance and consumed its energy very quickly. It had only been a short while, and the energy of one Tianhe Dan was already used up.

In theory, a Tianhe Dan's power could altogether open a single star vein, but Long Chen had not even opened a tenth of a star vein yet. Under his helplessness, he could only quickly consume the Tianhe Dan. Luckily he had enough Tianhe Dan, or else this would have been a tragedy.

During the process of breaking through, if it were to be interrupted, his body would even explode and he would die.

"This is a good thing, it means that your father is talented!"

With the support of the Tianhe Dan, Long Chen quickly opened up a star vein. When he finally opened a star vein in his body, he counted and discovered that he had already consumed no less than ten star veins. Out of the eighteen he originally took out, he only had a few left.

Could it be that I have to use up close to two hundred Tianhe Dan to open eighteen Milky Way Realm? "

Regarding this, Long Chen was extremely depressed.

Chapter 275 - Promotion of Milky Way Realm

"Two hundred Tianhe Dan? Why am I burning money like this? " At this critical juncture, Long Chen was depressed about this matter. He only had around two thousand Tianhe Dan in total, and he spent two hundred just to open up his internal space. After that, with the cultivation of his Milky Way Realm, he estimated that two thousand Tianhe Dan were not even enough.

However, at the moment of life and death, he could only take out 200 Tianhe Dan and condense 18 star veins. At this time, the eighteen dark-blue Star Meridians penetrated Long Chen's body. From his chest to his arms, from his head to his tail, and from his buttocks to his legs, there existed thick Star Meridians.

From the outside, one could see the faint appearance of these star veins. When these star veins were combined together, from afar, it looked like a real starry sky. However, this starry sky was empty. What was missing was the stars.

Breaking through Milky Way Realm had a total of two crucial steps, and these two steps could be completed together, or they could be divided into two. Only by completing two steps, could true First level of the Milky Way Realm be achieved, and Long Chen had already opened up a starry sky in his body, so it could be considered as having completed the first step, and the second step, was to draw upon the star energy of the star river Tian Shu, and fuse it with his star veins, then fuse it with his Dragon Soul Zhen Qi, making his true energy completely liquid.

It was currently daytime, so Long Chen could only complete the Yang Tian River within the Dubhe River. As for the other Sky River, he had to wait until night before he could complete it. What Long Chen was preparing now was to condense the first galaxy, the Dubhe River, within his body's star veins!

The purpose of the 《Star Condensation》 was to open up a river of stars, and the 《Star Drawing Arts》 was to use the power of the river in the sky. This power was formless, and as long as one could see the river of stars, they would be able to use this technique to obtain the power of the Milky Way stars.

"This is ..."

Long Chen was deeply shocked by the scene. This scene had appeared too suddenly, Long Chen faintly felt that all of the stars in the sky were calling out to him, and thus, Long Chen's mind was connected to the river of stars so that he could hear the sound of it.

This kind of energy contained a berserk attribute. At this moment, it seemed like a type of adhesive, and at this moment, it had already poured into the first star vein formed in Long Chen's body, the Dubhe Star Vein.

This was the power of true formation.

When the energy that had formed was channeled into the Dubhe Star Vein, Long Chen also channeled his Innate Qi into the Dubhe Star Vein, and when the Dragon Soul Zhen Qi met the power of the stars, it slowly fused together. Long Chen could see that within the blood-red colored Innate Qi, a large amount of invisible starlight melted and turned into liquid form, like a crystal clear river of blood, flowing within the Dubhe Star Vein.

If his true qi was magnified countless times, it would be a blood-red river of stars that was filled with sparkling and translucent colors. Compared to the ordinary light blue galaxies, his blood-red Milky Way was even more magnificent.

When all the Dragon Soul Zhen Qi were completely transformed, a beautiful blood colored Milky Way appeared in Long Chen's Star Meridian. This was one of the Star Meridians, and Long Chen could currently only be considered to have achieved half of the First level of the Milky Way Realm.

He opened his eyes!

In that moment, a ray of blood red starlight shot up into the sky with a loud boom, stirring up a storm. Long Chen, who was at this time, suddenly stood up, although he was still in the form of the Dragon Soul Transformation, he had a different temperament. After successfully reaching the Milky Way Realm, his temperament had changed a lot, and his entire body was filled with a mysterious aura.

For Long Chen, being able to bring the dead back to life was a blessing in disguise. To the little wolf, this was an enormous surprise. However, due to his anxiety, he was not a match for the little wolf. When Long Chen stood up, his entire body was already wounded, and if he did not try to escape, he would very likely die at the hands of Long Chen.

And when Long Chen successfully reached Milky Way Realm and stood up, when he saw the blood red starlight in's eyes, he was so scared that his face turned deathly pale. Before Long Chen even reached Milky Way Realm, he could already kill Azure Dragon Ancestor with his First level of the Milky Way Realm.

In the face of dignity and survival, Primordial Emperor clenched his teeth and chose to live. All of his arrogance from before was thrown out of the window when Long Chen reached the Milky Way Realm, but at this moment, he actually felt a sense of despair.

"This kid is definitely someone with a lot of luck to be able to survive in such adversity. I'm just looking to die by fighting him. Unfortunately, I only understand this logic now!"

was someone who wanted to leave the Source Spirit City. As long as Long Chen could not catch up to him, he would be safe and sound in the future!

But towards this person who had almost killed him, how could Long Chen possibly let him escape!

Half of his First level of the Milky Way Realm's strength, combined with the Dragon Soul Transformation, made Long Chen's explosive speed comparable to that of his Second Stage of the Milky Way Realm. And while the Primordial Emperor was injured, his speed had increased by a sliver.

At the same time, the little wolf was also chasing from the other side, leaving the Primordial Emperor with nowhere to run!

"Devouring Blood Realm!"

Immediately, a blood-red fog engulfed Primordial Emperor, the might of Long Chen's Devouring Blood Realm directly acting on his body, and the current Devouring Blood Realm's might, due to Long Chen's advancement, increased by a lot. Primordial Emperor, who could still resist before, was now under a large burden!

In particular, his entire body was covered with wounds. At this moment, that huge amount of blood was about to escape his control, flying towards Long Chen!

"No!" Under the might of the Devouring Blood Realm, he was unable to move a single inch. In a panic, he turned his head back and used all his strength to control his own blood with his Qi, preventing it from being devoured by the monster, Long Chen!

"Long Chen, what exactly is wrong with you?"

Before he could even finish his last word, he suddenly felt the world spin around him as his mind become muddled. In his last glance, he saw a tall youth standing right in front of him with a cold smile on his face.

After that, he didn't know anything.

After the death of Primordial Emperor, Long Chen withdrew from the Devouring Blood Realm. The Primordial Emperor was only one level higher than him, so his blood couldn't be used on Long Chen. did not want the Ninth Prince to know that he actually had the ability to swallow other people's blood to strengthen his own Innate Qi.

With a hong sound, Primordial Emperor's headless body fell to the ground.

The head of the Primordial Emperor was lying at the foot of Long Chen's feet.

Just now, when Primordial Emperor turned around, Long Chen's green dragon halberd had directly swept past his neck and beheaded the old ghost.

After taking care of the Primordial Emperor, Long Chen's heart felt a wave of relief. However, from the start of this battle, it had been extremely thrilling and dangerous. Long Chen had even made a move in front of the gates of hell.

He turned his head to look at the little wolf. At this time, the little wolf had already walked to Long Chen's side. The current Long Chen, as long as he completed the other one, Tianshu Xinghe, would have a battle strength that was about the same as the little wolf.

After the little wolf became a Sun Devouring Demonic Wolf, Long Chen's strength once again approached and even surpassed his.

Looking at the Primordial Emperor's corpse, Xiao Lang was somewhat regretful. This was the strongest person in the Source Spirit City, he never thought that he would die at the feet of Long Chen and Mo Xiaolang.

"Let's go, Little Wolf. Everything is over. Before we head to Biyang Royal City, let's say our goodbyes. Go to Sister Meng Yao first and to her that you are safe. "

The wolf cub nodded.

As for the Primordial Emperor's corpse, Long Chen believed that someone would clean it up soon.

In fact, there were already many people spectating from the surroundings. The news of Long Chen killing the Primordial Emperor would quickly spread throughout the entire Source Spirit City. This place was not a very secluded place, and there was no reason for it to cause such a commotion. No one actually knew about it.

"Could it be that this Ninth Prince, after finding out that the Primordial Emperor was hunting me, didn't come to my rescue?" was secretly thinking about this problem. Logically speaking, the Imperial Jade Palace should get the news very quickly, if the Ninth Prince really wanted to save Long Chen, he would have already done so.

"Or perhaps, he just went to the side and saw that I was breaking through my Milky Way Realm and did not make a move." Long Chen thought to himself.

They quickly left the scene.

Not long after they left, a lot of people had gathered, but no one dared to go up to see the Source Spirit City's strongest warrior.

In the corner, the Ninth Prince finished reading everything. At this time, he turned his head and said doubtfully: "Old Yan, you see, he used nearly two hundred Tianhe Dan, and the sacred art he used, actually had the ability to swallow blood."

"His Highness only gave him a total of one hundred Tianhe Dan, which means that he had another fortuitous encounter. It is very likely that he obtained something else in the Burning Sky Secret Realm, and two hundred Tianhe Dan, it means that his physique far surpasses that of an ordinary person. In the entire Canyang Kingdom, I have never heard of this physique." The black clothed butler Old Yan said with a dark and emotional sigh.

"However, two hundred pills doesn't mean that he has an outstanding physique. When someone reached the Milky Way Realm, they opened up a river of stars and shared more than a hundred Tianhe Dan, and after that, their achievements were similar to trash. The only reason why they used up such a perfect set of Tianhe Dan is because their bodies are weak enough, and are hard to change."

"The strangest thing is the divine ability he used to devour blood. I feel that he must have had some extraordinary fortuitous encounter. Could there be something on his body that can make me tremble?" The ninth prince lightly said.

"His Highness wants to make a move?"

"No, I won't be able to eat the hot tofu in a hurry. I'll slowly think it over after I return to the Biyang Royal City, lest I alert the enemy." The ninth prince laughed.

Chapter 276 - Farewell

Not wanting to cause too much of a stir, Long Chen infiltrated the Lingwu Family directly. At this moment, Yin Mengyao was in the middle of her courtyard with a worried expression on her face. Then, Long Chen jumped in with the little wolf.

"Sister Meng Yao." Long Chen put down the little wolf and lightly called out.

Upon hearing Long Chen's voice, Yin Mengyao hurriedly raised her head. When she saw Long Chen, her face immediately filled with happiness as she said: "Long Chen, didn't Primordial Emperor chase after you?"

"Yes, but he was killed by us." Long Chen laughed proudly.

"A poor mouth will boast in front of me. Come here and sit down. It should be safe enough here, the Primordial Emperor won't chase us here. " Yin Mengyao pulled Long Chen along and sat on the stone chair in the pavilion, then laid out some fruits and pastries.

With a whoosh, the little wolf scuttled onto the stone table and lied down, staring at Yin Mengyao blankly.

"Long Chen, did you get this powerful little wolf from the Burning Sky Secret Realm?" Yin Mengyao looked at Mo Xiaolang with extreme curiosity, and her eyes revealed a dotting expression.

"Right, you can touch him and see. He will definitely not resist." Speaking of the Little Wolf, Long Chen still felt a little guilty. Logically speaking, the wolf cub was his younger brother who should have been protected by him, but now, he was reduced to such a state.

"Really?" Yin Mengyao was itching to give it a try. She observed the little wolf for a while, only daring to extend her hand but not to touch it. In the end, the little wolf immediately stood up and extended its pink tongue, licking the back of Yin Mengyao's fair hand.

Then, the wolf cub went to eat the pastries on the stone table.

"It's really cute, but he's still eating pastries, this Pine Flower Cake is what the little wolf likes to eat the most. Oh right, Long Chen, I asked you for information about the little wolf, is he really dead, or did he leave this place to embark on his path of revenge?" Yin Mengyao looked at Long Chen with anticipation.

was a little hesitant. He even knew about the issue of revenge, it seemed that the little wolf really valued her, Long Chen wanted to tell her that the person in front of him was Mo Xiaolang. However, just as he was about to speak, the little wolf stopped him with a look.

"He told me he went to get his revenge, but he will definitely come back to see you." Long Chen said.

He felt a little bitter in his heart. The wolf cub didn't want Yin Mengyao to see his current state, so he stopped Long Chen. He's always been a nice, reassuring kid.

"Alright." Yin Mengyao was a little helpless as she stared at the little wolf who was eating a muffin with all his might.

"Oh right, Long Chen, you have become a fairyland godly guard. When are you preparing to leave?" Yin Mengyao said.

"Three days later, I will be coming to bid you farewell." Long Chen said.

"Three days?" Yin Mengyao pursed her lips and lamented: "Both you and Little Wolf are so outstanding, yet my strength is so low as your big sister. However, having you two little brothers is the most proud thing in my life.

"Of course, but we were still basked in the glory of the Sister Meng Yao. Look, the two geniuses both became your brothers, this is definitely not a coincidence, you have created it yourself." Long Chen laughed.

"Stop being so talkative." Yin Mengyao was embarrassed by his words.

"In three days, you will also have to leave." As your adopted sister, I hope that you can quickly become the strongest person in the world and marry a beautiful sister-in-law for me. Come back and let me have a look! "

"Sister Meng Yao, you really have no spirit," Long Chen laughed, "Sister-in-law, the more things you have, the better. In the future, I will bring back an army of sister-in-law for you to see."

"You playboy, sooner or later, sooner or later" Yin Mengyao was so angry that her face turned red.

Fortunately, Long Chen had been joking this entire time, so the atmosphere was not deathly still. Finally, when they parted ways, Long Chen did not waste any time, and directly said goodbye before climbing over the wall and leaving.

The wolf cub also followed Long Chen as they climbed over the wall. However, when Long Chen flipped over the wall, he fell back and jumped into Yin Mengyao's embrace.

Yin Mengyao was so scared that she couldn't even speak. She knew how powerful this little fellow was after killing Patriarch Xuanwu.

"Dragon Long Chen."

As Yin Mengyao shouted dumbly, the wolf cub quickly licked her forehead, then jumped off her embrace and quickly disappeared into the dusk. She allowed Yin Mengyao to stand there in a daze, staring in the direction they left in.

"Why does this black wolf give me such a familiar feeling? Why does it look like I've seen its eyes countless times?"

Yin Mengyao was stunned for a long time but she did not hear an answer to this question.

When night was about to fall, someone suddenly knocked on the courtyard's wooden door. Yin Mengyao then woke up from her stupor and went to open the door. The one who knocked on the door was a young lady with bright eyes and white teeth. At this moment, she came bounding in and said happily: "Sister Meng Yao, I have a huge piece of news for you!"

"What is it?"

"You go out with me tonight and I'll tell you!" The little girl said in a weird voice.

"Good, good. Such a headache-inducing little girl. "

"Hee hee!" Really? You are not allowed to act shamelessly! "

"When did Sister Meng Yao play tricks on you?"

That's right, "the little girl tilted her head and said excitedly," I just found out, it seems like that Yuandi City's big boss was defeated and killed by my idol Big Brother Long Chen, and she was even beheaded! "Yea!"

The little girl jumped up excitedly in the yard.

Yin Mengyao's smile froze. She remembered what Long Chen had told her when she first arrived here, and she easily said that she had killed the Primordial Emperor. Yin Mengyao thought that he was joking, but she never expected that it was actually true.

Long Chen, has he already grown to this extent?

As the night gradually fell, Long Chen returned to the Yang family in the Bai Yang Town. It seemed that it had been a long time since he last returned, and the Yang family members were all excited. Yang Lingqing had already followed Li Xuanji to who knows where, but Long Chen, the most terrifying genius of the Yang Family, was still in Source Spirit City.

During the banquet, Long Chen recounted his recent deeds, and then recounted his future whereabouts. After the Yang family listened to him, they were all stunned. The chopsticks in their hands didn't move for a long time.

"Grandfather, Uncle, Mother, I'm going to pursue something even deeper and higher. If there's a chance in the future, I will go and find Ling Qing. "As for you guys, I will make other arrangements, and I will absolutely not let my enemies affect the Yang family's development and inheritance." Long Chen said.

After being silent for a long time, Yang Ancestor finally said a few good words! It was obvious that although everyone was reluctant to part with Long Chen, they were very proud to have such a genius in their clan.

Yang Xueqing's eyes were filled with tears.

She had always imagined that one day, Long Chen would become as successful as he had predicted, and she never thought that this day would come so quickly. Because of the problem of growing up, she and Long Chen were a little new to her, but in her heart, the only person who could live was Long Chen.

Before he left, Long Chen left many things for the Yang Family. With these things, the Yang Family's rise to power was very easy.

After the banquet, when all the Yang family members had gone to sleep, Long Chen left White Yang Town and came to the boundless wilderness. At this time, the night sky was full of nine rivers flowing across the sky. It was very easy for Long Chen to find the location of the dark attributed Dubhe River.

During the day, he condensed the Yang Tianhe River and during the night, he condensed the Yin Tianhe River.

After Long Chen finished the Yang Tianhe, it became much easier for Yin Tianhe. But from now on, other than using the Star Guiding Method to gather and form a berserk power, he would also need to use the gentle power of the Tianhe Dan to be able to produce more Innate Qi.

The process of cultivation continued all the way until dawn. There were still two hours left, and Long Chen decided to get together with his family for a while. After all, even if he didn't die in a foreign land, he didn't know how long it would be before he could return.

During the day, Long Chen accompanied his family, and of course, the most important person he accompanied was his mother Yang Xueqing. Although the two of them did not talk much, they had some tacit understanding, and at night, Long Chen condensed the Heavenly Axis Realm. Finally, another night passed, and Long Chen finally completed his First level of the Milky Way Realm cultivation, formally stepping into the First level of the Milky Way Realm.

There was still a day before they set off, so Long Chen left the Yang family residence amidst the crowd of farewells. The Yang family had long expected such a day to come, so they were proud of Long Chen.

"With the current situation in the Source Spirit City, only the Vermillion Bird Ancestor and the White Tiger are left. Without the Primordial Emperor, the Beast Soul Hall will definitely fall a thousand feet and won't be able to take the position of the City Lord at all. Only the cunning Morning Star Merchant Union is left with enough strength to protect herself.

The reason they went to the Morning Star Merchant Union was because there wasn't any deep hatred between the two of them, unlike the other two powers. Long Chen wanted the Morning Star Merchant Union to help him do something this time. Of course, there would be rewards for doing so.

Arriving at the Morning Star Merchant Union's headquarters, the moment Long Chen stood there, a large group of people had already rushed in to to him. A while later, Alliance Head Chen Xi's fat body appeared at the doorway along with Li Ziling, the head guest of the Morning Star Merchant Union's First level of the Milky Way Realm. He was an eagle-nosed old man, with sharp eyes. Everyone in Morning Star Merchant Union called him Old Ying.

"So it's Brother Long Chen, hurry, let's enter!" Li Wudi said with a big smile on his face.

The news of Long Chen reaching the Milky Way Realm and getting rid of the Primordial Emperor had already spread throughout the entire Source Spirit City. To everyone, this news was even more shocking than Long Chen defeating Azure Dragon Ancestor.

Therefore, when Long Chen paid a visit to the only complete power in the Morning Star Merchant Union, Li Wudi was also frightened out of his wits. It must be known that the current Long Chen, regardless of status or identity, was not someone he could afford to offend.

Chapter 277 - Ling Xi's Rebirth

When Li Ziling saw this youth with a calm expression, it was as if she was in a dream. The first time they met, was when they were still at the Thunderfire Mountain Range. Back then, when Long Chen took advantage of her suppression of the Thunder Flame Crystal Soul, he exhausted all of his true energy and attacked her, making her an extremely shameless person. However, his true strength was not that great.

The difference in his heart was truly too great.

Li Ziling had always been conceited with her beauty and strength, thinking that in this world, there were very few people who could match her. But right now, in front of Long Chen, she felt like she was being wronged, and her self-confidence received a serious blow.

"Bastard, isn't it already amazing if you become stronger?" Li Ziling had the urge to swallow her alive. However, she did not dare make a move, otherwise, the one who would die would definitely be her.

Right now, in the Source Spirit City, because of the existence of this heaven defying fellow Long Chen, the two largest powers were already crippled by him. The Morning Star Merchant Union was celebrating, so from now on, it would be the time for them to rise. At this time, Long Chen, the god of pests, actually came to find them. How could they dare to wait on him?

In the Morning Star Merchant Union's magnificent drawing room, Long Chen was placed at the highest position. Towards this position, Li Ziling was not convinced, but remembering Long Chen's current strength and position, she could only shut her mouth and obediently stand behind Long Chen.

"Alliance Chief Li, there's no other reason why I'm here today. I just want to talk about a deal with you." After Long Chen sat down, he went straight to the point.

"Trade?" Li Wudi heaved a sigh of relief. Luckily it was only a deal, if Long Chen had asked for something big and asked for something else, it would be hard to deal with.

"I wonder, little friend Long Chen, what kind of trade do you want?" Chief Li asked with a face full of smiles.

"This is my reward for you." Long Chen immediately took out a Qiankun bag and placed it on the table.

Li Ziling rolled her eyes at the Cosmos Sack. In her opinion, Long Chen was just a poor bastard who came from a small place;

"This is?" Chief Li asked in confusion.

"Twenty Tianhe Dan are enough for your Morning Star Merchant Union to have one Milky Way Realm warrior in the future." When Long Chen said this, he looked at Li Ziling. His estimation was right, these twenty Tianhe Dan would definitely be used on Li Ziling.

"What?" Li Wudi and the other two were all shocked, but the one who was most shocked was Li Ziling. She was already at the Great Perfection of the Heavenly Core, and in a few years, she might have a chance of breaking through the Milky Way Realm to become a top class expert of the Source Spirit City. However, the Tianhe Dan that she was preparing for, was still lacking.

She looked at Long Chen with shock and gratitude.

"There are actually twenty Tianhe Dan in there?" Li Wudi was in a state of disbelief. In his opinion, although Long Chen had already become a fairyland godly guard, it would still be difficult for him to take out so much.

"Chief Li can open it and take a look." Long Chen said.

Li Wudi took the Heaven and Earth Pouch in his hand, opened it and saw that there were indeed twenty Tianhe Dan s. Looking at the youth who had suddenly risen to prominence recently, he was still in a daze. Unknowingly, his cultivation and wealth had already surpassed the entire Morning Star Merchant Union.

"It is indeed twenty Tianhe Dan s. Little friend Long Chen, what kind of deal would you like to make?" the leader asked gravely. Twenty Tianhe Dan. Looks like what Long Chen wanted Morning Star Merchant Union to do, was definitely not simple.

Li Ziling also looked at Long Chen in shock.

"It's actually very simple, I'm about to go to the Biyang Royal City, and there are many enemies in the Source Spirit City, but my family in the White Yang Town has no power to resist my enemy, so I hope that the Morning Star Merchant Union can send at least two Great Perfection of the Heavenly Core warriors to guard the White Yang Town, and if there are Milky Way Realm warriors attacking my family, the two of you can help out, what do you think? With the death of Primordial Emperor, there will be no warriors with Milky Way Realm at Beast Soul Hall, and as for Lingwu Family, under the supervision of the Ninth Prince, he will not lower himself to go deal with my family. Therefore, as long as the warriors with Great Perfection of the Heavenly Core are at White Yang Town, these twenty Tianhe Dan s will belong to Morning Star Merchant Union! "

The trade that Long Chen talked about, not only did Morning Star Merchant Union earn a lot, it was also a huge profit. With Long Chen's current reputation, when Long Chen goes to the Biyang Royal City, basically no one would make a move against the White Poplar Town. All the Morning Star Merchant Union had to do was send two Great Perfection of the Heavenly Core guests over there to play.

"In short, as long as you can guarantee the safety of our White Sun Town's relatives, these twenty Tianhe Dan will belong to you." Long Chen repeated himself.

Li Wudi and Elder Ying looked at each other.

They understood Long Chen. Long Chen was currently a super strong warrior, but strong people also had their own family to burden him. Long Chen was about to go on a long journey, if some scumbags set

their eyes on his family, it would definitely be troublesome. That was why Long Chen found the Morning Star Merchant Union.

Firstly, Long Chen is a filial piety, there are no other schemes. Secondly, in the end, this matter is very easy for the Morning Star Merchant Union, it can be done, and thirdly, the harvest is very plentiful. Fourth, he could befriend Long Chen, the genius who would become even stronger in the future.

This is such a great gift that he has no reason to refuse. Thus, Li Wudi said with a face full of smiles: "I understand, little friend Long Chen. I will definitely take care of this matter beautifully so that you won't have to worry about me when you're on your way here."

He paused for a moment, thought for a while, and said: "We will directly send three Great Perfection of the Heavenly Core experts, ten of them are at the initial stage of the Heavenly Core, and the rest are at the Earth Core Stage Mortal Core realm. We will move into the White Yang Town and protect the entire White Yang Town, making the Yang Family an honored guest, and if there is a stronger opponent, Elder Ying and I will also take action!"

"Then I'll thank Chief Li." Long Chen was very satisfied with his arrangements. Now that he had settled the worries of Bai Yang Town, Long Chen no longer had any more worries.

The truth was that he was going to bring the little wolf to the Biyang Royal City. He brought Ling Xi to Inverse Wonderland to find the Nine Celestial Spirit Fruit.

"I wonder when Xiao Xi will wake up. If she wakes up, she can use the Herba Euphorbiae. At that time, hehe," thinking about how Ling Xi must be a devastatingly beautiful existence like Li Xuanji if he possessed a physical body, and with the relationship between Long Chen and Long Chen, it should be normal for him to take advantage of her, right?

Thinking about Ling Xi's matter, Long Chen left the Morning Star Merchant Union under the respectful greetings of Li Wudi and the others. Now that the sky was gradually getting dark, and she understood that Long Chen was going to follow the Ninth Prince and head to Biyang Royal City.

"Everything has been arranged. Come, Little Wolf, let's go to Imperial Jade Palace." Long Chen said indifferently.

The wolf cub let out a low growl. He was currently in the state of a small beast. When he howled, his voice was babbling, and his row of white teeth looked very cute.

This would be the last night Long Chen would be in the Source Spirit City. Starting tomorrow, he would be heading to the center of the Canyon Kingdom — — the Biyang Royal City.

In there, there was the royal family that ruled over the world, the mysterious and fertile Inverse Wonderland, the Little Wolf's enemy, and the hope of Ling Xi being able to recover. Of course, it was also the gathering place for all the Rankers in Canyon Kingdom, while Long Chen was the stepping stone for them to reach a higher level of strength!

When they arrived at Imperial Jade Palace, a servant girl who was serving the Ninth Prince said to Long Chen: "Your Highness has already instructed me to bring you to rest if Sir returns. Tomorrow morning, we will set out on our journey back to Biyang Royal City."

Long Chen nodded.

Under the lead of this beautiful maid, he arrived at a gorgeous room.

"My lord." His Royal Highness said that I was giving you a present. " After sending Long Chen in, the beautiful servant immediately undressed, quickly revealing his snow-white skin.

"Get out." Long Chen was about to leave.

"Yes." The beautiful servant girl seemed to have been relieved of a heavy burden as she respectfully left. Long Chen laid on the round bed, directly burying her under the soft pink quilt, staring blankly at the ceiling.

His mind was completely immersed in his memories.

"I couldn't tell, Brother Chen, but you're still pretty obedient." A clear and melodious voice, that sounded like a silver bell, suddenly rang beside Long Chen's ears. Long Chen could even remember in his dreams that this pleasant voice belonged to Ling Xi.

"I'm hallucinating." Long Chen was a little depressed. He changed his posture, but his heart was still restless. It was because he realized that he seemed to miss Ling Xi quite a bit. I wonder how that silly girl is doing now.

"Brother Chen, quickly release Ling Xi." Long Chen who was in a daze heard this sound once again. This time, he jumped out of bed in shock, scaring the little wolf who was lying down on the ground.

"Xiao Xi, you're awake?!" No matter if he was mistaken or not, he immediately opened the Qiankun bag, and a black sword light flew out. Long Chen rubbed his eyes with all his might, and was shocked to see that Ling Xi's small body of less than two centimeters, was standing on top of Ling Xi's sword.

Xiao Lang also looked at this little fellow in surprise. Although he did not hear about it from Long Chen, he knew that Long Chen had always had this kind of woman by his side who seemed to be even more important than him.

When "Brother Chen" saw Long Chen, Ling Xi's eyes became misty.

Ling Xi died for him, but Long Chen followed in Ling Xi's footsteps. Without hesitation, taking the risk of certain death, he jumped into the abyss of Star Demon Prison. Only they themselves knew how hard it was to come by today's meeting.

Long Chen could tell that after experiencing so many things, Ling Xi had really matured a lot. She was no longer the girl with a weird temper like before, with the temper of a little princess.

Looking at this foolish girl, Long Chen realized that his voice was choked with sobs. He had thought of many things he could say to Ling Xi, but right now, it sounded like his throat was blocked by a rock.

Life and death parting, mutual silence, only tears.

Chapter 278 - The Moment of Eternity

To Long Chen, being able to wake up at this moment was a great surprise. He had been waiting for this moment for a long time. From the upheavals in the Star Demon Prison to now, such a long time had passed that Long Chen had become much stronger, and in this period of time that Ling Xi had not appeared, he was fortunate that the little wolf had appeared.

However, when Ling Xi appeared, Long Chen had already thrown the little wolf far away.

He wanted to know why had followed him into the abyss, but did not die. He wanted to know why they appeared here, and why Long Chen had reached the Milky Way Realm.

However, Long Chen didn't have the mood to talk about this with her, as the only thing he wanted to tell his was the Herba Euphorbiae.

"Xiao Xi, I'll tell you about what you want to know later. I have a present for you right now." Long Chen had already recovered from his excitement and said mysteriously as he held Ling Xi in his hands.

"It's a secret. I'll show it to you right now." As Long Chen said this, he took the Herba Euphorbiae out from his Qiankun bag. Ling Xi was experienced and knowledgeable, so she must know about this item.

"Herba Euphorbiae?" It could be seen that Ling Xi was shocked, and then she became excited. She asked incoherently: "Brother Chen, how did you get this thing called the Herba Euphorbiae? Logically speaking, this place should not have any Herba Euphorbiae s."

"I will tell you later how the Herba Euphorbiae came to be. Hehe, Xiao Xi, do you know anything about the Herba Euphorbiae? "I heard that it can temporarily allow you to have a body ..." Long Chen became a little nervous after asking this.

"Yes, in our place, Herba Euphorbiae are quite common. Ordinary strong warriors are being killed, and if their souls have not been completely strangled, they can turn into a state like mine, where they can borrow the Herba Euphorbiae and become a mortal from then on. If they can have a few more precious Nine Celestial Spirit Fruit s, they would be able to reconstruct their flesh." Looking at the Herba Euphorbiae, Ling Xi was extremely excited, and as she spoke, she was already feeling choked with emotions.

"I heard that living on a Herba Euphorbiae is equivalent to having the body of a mortal. You can feel everything human being, eat, drink and sleep, but you can't cultivate. You can only be an ordinary person. Xiao Xi, what do you think?" Long Chen asked. Becoming a mortal meant that there would be a lot of trouble, and in fact, Long Chen even needed to prepare enough food, clothes, and care for Ling Xi during his future journeys.

"I don't want it." Ling Xi looked at the Herba Euphorbiae, his expression somewhat bitter.

"Why?" Long Chen thought that she would be very happy to see this Herba Euphorbiae. He had been using it since he was looking forward to it, but he did not expect Ling Xi to give it up after struggling for a while.

"Brother Chen, don't you know how much of a burden it is for a mortal who doesn't have any combat power to follow by your side? I will drag you down, slow your growth, and even cause you to lose your life, "When Ling Xi finished speaking, his voice contained a lot of sadness, which showed that he really wanted to experience the feeling of being alive again. However, if this hurt Long Chen, she resolutely chose to give up.

When she saw the Herba Euphorbiae, her heart was indeed moved, and she was pleasantly surprised.

"Thank you for your gift, but Ling Xi really cannot accept it." Ling Xi lowered his head and said somewhat dejectedly.

"Idiot!" Don't you think I'm too useless? If I can't even protect a woman, what's my name Long Chen? I shall just call Doggie Chenchen! " Long Chen said with a hint of anger. He had already seen that Ling Xi actually desired this thing a lot, so he did not care about anything else and directly passed the Herba Euphorbiae in front of her eyes and berated: "Immediately use it. Don't blame me for being harsh on you.

"Brother Chen!" Ling Xi knew that Long Chen was deliberately saying these harsh words for her sake in the end, which moved her a lot.

"Be obedient. Believe me, I will protect you." Long Chen said sincerely.

"But, it will bring you a lot of trouble." Ling Xi was still conflicted.

"Yes there is, but it's also a lot of benefits. Look, if my Ling Xi has a body, wouldn't she be able to reward me a lot?" Long Chen said as he stared lecherously at Ling Xi.

"Scoundrel, even if I used Herba Euphorbiae, you are not allowed to touch me!" Ling Xi understood what Long Chen meant and his face immediately flushed red.

With that said, it was indirectly equivalent to her agreeing.

"I promise you. Haha, there's no time to lose, let's use it now. Xiao Xi, I'm looking forward to it."

Long Chen was actually very excited in his heart when he saw that the soul that had always been by his side, would one day have a true body appear beside him and receive his care. It was wonderful to think of such a devastatingly beautiful little beauty standing around him and listening to his commands in the future ...

Especially after experiencing so many things, Ling Xi's character had become much more obedient, and was even more lovable.

"Alright". Although Ling Xi was still worried about Long Chen's intense request, she could only put it in her heart. Everything would be fine if she was able to get to the end of the bridge.

Just as Ling Xi was about to use her Herba Euphorbiae, Long Chen saw the little wolf staring at them from under the bed.

"Xiao Xi, he is Mo Xiaolang. However, due to an accident, he gave up his original physical body and entered this demonic beast's body. As for the details, I will explain them to you later." Ling Xi explained. Ling Xi was indeed not simple, with just a glance, he could tell that within the Sun Devouring Demonic Wolf's body, there was a human's soul.

"I am able to communicate with him through our souls. "Though it's a bit strenuous," Ling Xi suddenly said.

"What?" Long Chen's and the little wolf's eyes lit up. After the little wolf had changed into this state, there was a huge obstacle in their communication. Listening to Ling Xi's words, if she could communicate with Mo Xiaolang, Long Chen would know what the little wolf meant in the future.

"I'll try first." Ling Xi put down the matter of the Herba Euphorbiae and concentrated, staring straight into the eyes of the little wolf without blinking. After a while, she said joyfully, "He was just saying, Hello, I'm Mo Xiaolang. He saw me help you guys in the Star Demon Prison and trapped you in there."

"How wonderful!" Long Chen sighed with emotion. Although this exchange was slow and strenuous, but he had won or lost.

"This is good news, Xiao Xi, just use this Herba Euphorbiae from now on." Long Chen laughed.

With Ling Xi and the little wolf, Long Chen felt that the road ahead of him would be very interesting.

In fact, Ling Xi had been trapped in the sword for a long time, and Herba Euphorbiae was something that she longed for. Now that she had finally achieved her dream, she was very excited. Being able to recover her body was her greatest dream.

The wolf cub howled and stood up. He opened the door and walked out, closing the door behind him.

"He said to go out and watch, so that no one would come near." Ling Xi explained.

With the little wolf watching from outside, it was much safer for Ling Xi to use this Herba Euphorbiae. Long Chen relaxed and placed the Herba Euphorbiae on the ground.

"It's begun, the process is very quick" Ling Xi's gentle and beautiful voice was like an oriole, hiding her excitement.

Long Chen watched intently.

The Herba Euphorbiae was basically a pure white lotus that was only as thick as an arm. At this time, Ling Xi's little soul body was emitting a faint white light, and slowly blended into the Herba Euphorbiae's, and very quickly, Ling Xi's body disappeared, while the Herba Euphorbiae's body, which was like the highest quality white jade, floated in the air, releasing a pure white light that filled the entire room.

A burst of the fragrance of lotus flowers assaulted his nose.

"Is it going to succeed?" When he thought about how Ling Xi would appear before her eyes alive and not take the form of a soul, Long Chen's heart was filled with anticipation.

In Long Chen's eyes of anticipation, the Herba Euphorbiae was emitting a round white light that became brighter and brighter, and very quickly, it illuminated the entire room. As Long Chen bathed in the white light, he breathed in the fragrance, and his entire body felt refreshed.

Right at this moment, the Herba Euphorbiae slowly grew in size and shape, and under Long Chen's gaze, it gradually turned into an extremely beautiful woman that could shake the world. Long Chen was completely dumbstruck, and the young girl in front of him was so beautiful that he almost suffocated.

Her delicate eyebrows were like a crescent moon, her delicate lips were smeared with a faint powder like honey. The two strands of hair on the side of her face gently brushed against her face, adding a somewhat alluring charm to it; her waterfall of black hair flowed down to her waist, and her nimble eyes shyly and cunningly swiveled, revealing an intelligent and charming luster, a little naughty, a little mischievous, and her entire body exuded an extraordinary and refined aura.

Beneath the goddess' face was a demon that made Long Chen want to make his move.

The body that the Herba Euphorbiae had just materialized naturally did not have clothes on it, this was something that Long Chen and Ling Xi did not expect at the start.

At this time, in front of Long Chen, was a naked fairy-like girl bathed in white light. Long Chen looked at her in a daze, and sized her up ...

Her smooth and smooth pearl shoulders were elegant and exquisite, like the world's most beautiful twin peaks that were like a mountain range. Her slender and delicate waist that could not be grasped, her slender and fair arms that were like tender lotus roots, her two long legs that were so white that they could reflect light and so beautiful that they dazzled people's eyes, her perfectly shaped and beautiful ankles, and of course, the mysterious zone that captivated Long Chen.

"Little Xi" Long Chen wished that he could never forget this moment of time.

Chapter 279 - Sincerity

"Be good and go to sleep. Starting tomorrow, we will be running." Long Chen said indifferently as he rubbed her head with his hand.

"I don't want to sleep, I want to talk to you. Brother Chen, I want to go to Biyang Royal City tomorrow. Ling Xi comfortably holed up in Long Chen's embrace. With Long Chen's sudden rise in strength, she gradually let go of her courage. This comfortable embrace made her unwilling to leave.

"I once heard from someone that there are Nine Celestial Spirit Fruit in the Biyang Royal City. Now that I have become a fairyland godly guard of the Imperial City, I am able to enter the Inverse Wonderland, so we will be leaving tomorrow." Long Chen laughed and said.

"Huh?" This news was an absolute surprise to Ling Xi. Although Herba Euphorbiae s were mystical, they were definitely not a match for Nine Celestial Spirit Fruit s. With the Nine Celestial Spirit Fruit, Ling Xi could recover her strength, and truly have a human body. That would be true rebirth, and right now, she only had a place to live.

When she woke up from her endless slumber, she heard that Long Chen was still fighting for her and immediately, Ling Xi was moved to tears. With a choked voice, she pouted as she looked at Long Chen and started sobbing.

"Why are you crying? Silly girl, you should be happy." Long Chen patted her white and tender cheeks.

Ling Xi still did not stop.

"If you continue to cry, I won't want you anymore." Long Chen pretended to be angry.

With a low voice, he slowly enunciated word by word, "Ling Xi, I will protect you. No one can hurt you, no one can take you away from me! You will wonder why I am so good to you. Then I will tell you, because you are my woman, for all of my life, for all of my life! Ling Xi is Long Chen's woman! "

Such passionate words caused Ling Xi's heart to twitch. Long Chen's ardent gaze and words had completely melted her heart.

The mark of this man was deeply engraved in her soul. Eternal life was impossible to erase.

Sweet, warm, and blissful. These were all things that filled her heart, making her forget about herself. At this moment, they did not expect that under the promise of the current alliance, the future path would be filled with many trials and tribulations. How many more life and death parting, in exchange for a permanent appearance.

When two people who shouldn't have met each other wanted to be together, the resistance they would suffer would be countless times higher than ordinary people.

However, was there anything that Long Chen was afraid of in this world?

He didn't think too much, and only held Ling Xi's body tightly in her arms. Looking at the starry sky outside the window, he began to talk to Ling Xi about all that had happened during this period of time,

from when he was in the abyss of the Star Demon Prison, waking up to when he killed the Primordial Emperor, and becoming the strongest existence in the Yuandi City.

Chapter 280 - Biyang Royal City

From the Star Demon Prison to now, luck was part of the reason why Long Chen was able to achieve what he had achieved today. The Dragon Fighter was a special part of him, and his tenacity and intelligence were another part of it.

Hearing Long Chen's description of his experiences during this period of time, Ling Xi had a kind of soul-stirring feeling. She had said that he wouldn't sleep, but he could do nothing about a mortal's body.

Before dawn the next day, Long Chen ran to the rooms of the servants of Imperial Jade Palace and found a set of female attire. Whether or not Ling Xi needed it, he took a large pile and gave it to Ling Xi to choose for himself.

There was no girl who would not be enthusiastic about these girls' accessories. Finally, they did not need to wear Long Chen's loose and relaxed men's clothes, Ling Xi was extremely excited, she mustered her courage and gave Long Chen a light kiss on the cheek.

Long Chen and the little wolf were waiting outside.

After a while, the door slowly opened. Ling Xi, who had changed into a neat set of clothes, brightened up. These clothes, were only for servant girls. They were not very luxurious, but when worn on Ling Xi's body, it was different.

She wore a long brocade dress that was a mix of white and pale pink. Her sleeves were embroidered with a faint yellow pattern, and on the surface of her dress, there were large numbers of purple ducks and flowers, which were extremely beautiful to look at. She wore a pink and white belt around her waist, and her well-proportioned body was covered with a dense variety of bizarre patterns.

It was the first time that "Brother Chen" dressed up for Long Chen to see, so he did not have much confidence in himself. Now that she was in front of Long Chen, she looked at him flirtatiously, and asked: "Am I beautiful?"

"Beautiful as a fairy." Long Chen said subconsciously.

"Really?" Ling Xi was as happy as a little butterfly, she turned her body and let her skirt dance in the air.

"This is sunlight ..." She raised her head and squinted at the sky.

"Don't be silly, all of this belongs to you. Let's go see the ninth prince now." Long Chen laughed, held onto Ling Xi's white fingers and walked towards the Ninth Prince's palace. At this time, Ling Xi was looking around from head to toe, and under Long Chen's protection, she looked just like a little princess.

The wolf cub followed them bitterly. From today onwards, he would be officially ignored.

Ling Xi had noticed the little guy behind her. Hearing Long Chen's description, she knew that the Sun Devouring Demonic Wolf was indeed terrifying, and that inside the Sun Devouring Demonic Wolf's body was hidden that Mo Xiaolang's soul. Back in White Yang Town, Ling Xi had already known Mo Xiaolang, and after hearing that Mo Xiaolang had been following him around life and death all this time, Ling Xi had also treated the little wolf as her younger brother.

"Brother Chen, he calls me sister-in-law." Ling Xi chuckled, her face slightly red.

Long Chen looked at Ling Xi and the little wolf. After Yang Lingqing had left with Li Xuanji, the two of them had become his most important people. Long Chen swore to himself that he would protect them well in this life.

Of course, the wolf cub had also encountered some Sun Devouring Demonic Wolf and their future growth might not be worse than Long Chen's.

The two of them and the wolf, in the eyes of outsiders, were only two people. Mo Xiaolang had already turned into Long Chen's pet.

When he walked to the normal person, the Ninth Prince had already sent someone to welcome him. When the guard saw Ling Xi, he was immediately shocked as if she was a celestial being.

Very quickly, Long Chen arrived at the Jade Emperor Hall. In front of the Jade Emperor Hall, Long Chen saw the ninth prince's mount, a Sculptor of the ninth level of the Profound Rank.

Generally, demon beasts that became beasts to be tamed had a lot of the fierceness in their bones been grinded away. How could the Sculptor dare to act rashly in front of the demonic beast that was such a peerless demon beast?

Inside the Jade Emperor Hall, the ninth prince was already waiting. On this trip to the Source Spirit City, all of Imperial Jade Palace's manpower and resources were given to the three great forces. Leaving the Source Spirit City now, there were only the ninth prince and the Old Yan.

When Long Chen arrived, the Ninth Prince had originally wanted to set off, but seeing that there was actually a beauty who could topple all living things following beside Long Chen, he was completely dumbstruck and stared fixedly at Ling Xi.

"This is my wife, Ling Xi. If she wants to follow me to the Biyang Royal City, there shouldn't be any problems, right?" Long Chen said. Ling Xi was too beautiful, even the Ninth Prince's gaze was off, so Long Chen had no choice but to say this.

"A peerless beauty, a beauty capable of toppling empires. You sure are blessed. I was rude just now." Being interrupted by Long Chen, the Ninth Prince turned his gaze towards Long Chen and laughed.

The Ninth Prince's gaze made Ling Xi a little uncomfortable. She held onto Long Chen's arm and hid behind Long Chen.

"From then on, you have to take root in the Biyang Royal City, of course you have to bring her along, without further ado, we will set off now." The Ninth Prince nodded and didn't look at Long Chen anymore. He walked straight ahead, holding Ling Xi's hand, they followed him up the wide back of the Sculptor.

The road from here to the Biyang Royal City was filled with deep valleys, where Sculptors could fly. These deep valleys had no effect on the wolf cub, so even if the wolf cub was even faster than the Sculptor, he had no choice but to follow Long Chen and step on the Sculptors.

The Sculptor was afraid of the little wolf, and its entire body was trembling. The Old Yan comforted it for a while, and only then did the Goblin Beast realise that the Sun Devouring Demonic Wolf would not harm it, and dared to spread its huge flesh wings, ready to travel.

A huge gust of wind blew, and Long Chen instantly appeared above the Source Spirit City. Because Ling Xi was afraid of the cold, Long Chen had no choice but to take out the blanket from his Qiankun bag and firmly wrap it around Ling Xi. After that, he used his body to block the wind and hugged Ling Xi.

This way, Ling Xi would feel better.

"Endure it, we will reach the Biyang Royal City soon." Long Chen lowered his head, and whispered into her ear.

"It's fine, Brother Chen. I feel very warm with you hugging me." Ling Xi said with a smile.

When it came to heat, the heat emitted from the little wolf's body was incomparable, so Long Chen stretched out his hand and pressed it into Ling Xi's chest to warm it up. Of course, there was a thick quilt between the two of them.

The pitiful Mo Xiaolang, could only look at him innocently. This gaze made Ling Xi giggle.

While the Sculptor was advancing, the Ninth Prince turned his head and saw this scene. He silently turned his head back and looked ahead with a calm and cold gaze.

"Your Highness?" Old Yan understood his thoughts.

"No rush." "If it's mine, it will always be mine. No one else can take it away from me." The ninth prince secretly said.

Even though Ling Xi's body was weak, with Long Chen's meticulous care, her body would not get sick. The heat from the little wolf's body had played a large role, and the Sun Devouring Demonic Wolf itself was a fire.

The sun's rays converged on the wolf cub.

"Brother Chen, I have a feeling that this trip to the Biyang Royal City will be extremely dangerous. It will probably be difficult to obtain a Nine Celestial Spirit Fruit from the Inverse Wonderland." Ling Xi said worriedly.

There were a lot of experts in the Biyang Royal City, so it was definitely dangerous for Long Chen to go there.

"Relax, there's growth whenever there's pressure. When I went to Source Spirit City just now, my strength had not fully developed yet, but in Biyang Royal City, other than my cultivation level, I was no weaker than anyone else." Long Chen said firmly.

Indeed, in terms of Earth Stage, he already had a third level Thunder Flame Battle Physique, Earth Stage Medium Azure Dragon Battle Method, Earth Stage Medium defensive battle skill Nine Revolving Fire Shield, and high-rank earth class sacred art divine fire clone. The Dragon Fighter's unique ability, Blood Refinement Qi, was just as abnormal as before. Even the Spirit Devouring Demon Pupil that he had obtained from Li Xuanji was beginning to show its effects.

Moreover, Long Chen right now had Little Wolf, a peerless Goblin Beast, by his side.

"No matter how deep the water in the Biyang Royal City is, the three of us have to go out and adventure for a while. Let's take advantage of our young age and work hard!" Long Chen said with a smile.

Within Biyang Royal City, there were some extremely powerful forces. Long Chen could already see a corner of this Biyang Royal City from the Ninth Prince. Long Chen predicted that even if he and Little Wolf combined forces, they would still be no match for this Ninth Prince.

At this time, Ling Xi suddenly raised her head and said somewhat nervously: "Brother Chen, the little wolf told me earlier that he thinks that this Ninth Prince has some ill intentions."

She also knew that Long Chen was still unable to resist the current Ninth Prince. So he was a bit flustered.

This point, Long Chen actually knew, was something that a simple gaze could betray a person's thoughts. To him, the relationship between the two was more of a transaction and use, and it could not possibly be a life and death situation.

"Don't worry, I have my own plans." Long Chen rubbed the back of her head and said.

Time slowly passed, and the Ninth Prince had once said that with the speed of Sculptor, a total of five days would be required to go from Source Spirit City to Biyang Royal City, and very quickly, five days

would be around the corner. At this point, the Sculptor had already started to slow down, and its flying speed had gradually decreased, allowing Long Chen to clearly see the scenery below.

"Almost there." The ninth prince said.

At this moment, a black ray of light suddenly soared into the sky from the side, heading straight for the Sculptor!
