Chapter 2761 - origin level Creation God Equipment

"Huh?"

The ninth stage, origin level's Creation Divine Artifact, originated from the Dragon Palace. Give it to him?

Such a pleasant surprise caused Long Chen's mouth to open wide for a moment. He was still using the fourth stage Genesis, the Creation Divine Artifact, but now, he suddenly had one that even the most powerful of Divine Demons didn't have.

Even the person that Long Chen feared the most, the Eternal Heaven Divine Emperor Di Jun, truthfully speaking, his strongest treasure was only the Eternal Light Stone. Furthermore, the Everlasting Stone was not a Creation Divine Weapon, but a Chaos Treasures. Although Chaos Treasures were also precious, the question was whether or not it was caused by the battle.

As for the Creation God Equipment ...

Amongst the Divine Emperor, for example, the Primal Heavenly Demon, was only at the sixth stage of the Hun Yuan Rank.

The other Divine Emperor s were generally the same.

"Ah, origin level!"

Long Chen found it hard to react in that moment.

Long Qinglan shook his head and smiled, saying, "There is no need to be so surprised. He couldn't show it to others or attack them. Isn't there still a big problem in your heart that hasn't been resolved? Actually, we have already thought about it for you. "

Long Chen couldn't understand what it was. "What's the problem?"

Long Qinglan continued, "Now that the Divine Emperor has come and the Immortal God Tribe is descending, with your current strength, you will not be able to protect the Dragon Sacrifice Continent,

nor can you protect all the living beings. That's why you have to leave the Dragon Sacrifice Continent. But what about all beings? So, we solved your problem! "

This was indeed the reason why Long Chen was here.

Right now, both of the Gods are rushing to the Dragon Sacrifice Continent, so I can escape, but what about all the living beings? He had come to the Origin Dragon Palace to ask Long Qinglan for an answer. It was just that he had asked him too many shocking questions just now, so he was still unable to recall them now.

Long Qinglan didn't keep them in suspense and directly said, "We can slightly control the Origin Dragon Palace and have him descend into your Divine Kingdom, expanding that continent of your Divine Kingdom to roughly the size of half of Dragon Sacrifice Continent. Rest assured, although we are only at the first stage of controlling the Origin Dragon Palace, even the Eternal Rocks are able to guard the Dragon Sacrifice Continent. The Origin Dragon Palace is completely capable of allowing your Divine Kingdom to hold on for one trillion lives! "

Long Chen was deeply shocked.

He never thought that he would actually bring along one trillion lives, move them from their homeland that they had lived in for countless years into his own Divine Kingdom, and then live and die together with him. It was hard to imagine what a grand occasion it was!

There were currently millions of people in the Divine Kingdom, Long Chen already felt that there were too many. He had the feeling of being the creator of the world and then seeing the world he had created along with the people in it.

If it were a trillion living creatures ...

He had to say that this was a huge project and a crazy plan. It was an unimaginable plan, but it seemed to be the only solution!

If Long Chen fled by himself, Di Jun from the Divine Emperor might not destroy the Dragon Sacrifice Continent, but he would definitely take away the Everlasting Skystone. In addition, there were the eight Great Divine Emperor s from the Immortal God Clan, so if they were angry, they could easily destroy the Dragon Sacrifice Continent that had lost the Everlasting Skystone.

A trillion people would be destroyed.

If Long Chen brought them and left, it would be the only way out.

From that day onwards, their fates would be tied to Long Chen's. It was very likely that if Long Chen died, they would also disappear, and that would be the complete extinction of the Divine Dragon's legacy!

The Dragon Attendants were really crazy, placing everything on Long Chen.

If Long Chen had not experienced so many battles since he was young, he probably would not be able to withstand such a terrifying pressure!

It was hard for Long Chen to understand what it meant if he did that, what kind of start would this be! He had embarked on a new path. This was truly a battle to the back, a desperate counterattack! Dragon Sacrifice Continent was their home and everything they relied on to survive, but if they were to survive and fight, they were forced to leave their homeland. There was nothing they could do, but one day, they were going to make a comeback and return home!

Create a new world!

The return of the Primordial Gods was something that no one could stop. On the other hand, Emperor Jun of the Divine Emperor somehow knew about the existence of the Origin Dragon Palace.

The Eternal Harmony Stone had attracted the attention of the Immortal God Clan and it was not something Long Chen could control. It could only be said that even if Long Chen did not kill Shen Yang and Shen Qiong, the Dragon Sacrifice Continent would still not be able to escape death.

"The Origin Dragon Palace will suppress you in the Divine Kingdom. From now on, you will travel with all living things, wander the myriad worlds, and become strong. Not only will you become strong, you will also become strong with all of our descendants! This involves your second mission, but the first task you have to complete is this one. "

After finding the way out, he finally heaved a sigh of relief. After saying so much, he should be able to understand what the second mission is now.

"In the Origin Dragon Palace, there's a lot of inherited blood essence. There's a lot, and it can even be used to create tens of billions of Dragon Fighters. At the same time, there were a lot of origin dragon souls that could turn tens of billions of Dragon Fighters into true dragons. To create tens of billions of true divine dragons. Most of these inherited blood essences were low level divine dragons and middle level divine dragons. There were high level divine dragons and super divine dragons that were comparable to gods, and even Ultimate Dragon that were comparable to and surpassed Divine Emperor. There were less origin dragon souls as well, but it could still make the majority of Dragon Fighters become true dragons. For example, making the millions of profound Dragon Fighters in your God Nation transform into a True Dragon. Your Divine Kingdom will probably continue to go through this process of turning into a dragon. After all, the Origin Dragon Palace is a place where our divine dragon legacy is preserved."

Long Chen was even more shocked.

Tens of billions?

In his own Divine Kingdom, there would be tens of billions of true divine dragons?

What kind of grand occasion was that?

Low-grade and mid-grade Divine Dragons, as long as they have reached adulthood, would possess power close to that of a god. A high level divine dragon would become a god upon reaching adulthood, and a super divine dragon would become a divine king upon reaching adulthood. Many would even become a god king after that. When Ultimate Dragon reach adulthood, they would immediately become Divine Emperor, or perhaps even more terrifying.

"In other words, if all fifteen Dragon Emperors were to find the Origin Dragon Palace, wouldn't that mean that all of them would be able to become Divine Emperor?"

Long Chen chose the most classic type.

Needless to say, Yang You had inherited the Unparalleled Dragon's blood essence.

If fifteen Dragon Emperor could become Divine Emperor s, then his own team would be expanded to an unprecedented size. He would have an army of ten billion Divine Dragons, and at that time, it would not be difficult for him to sweep away all the realms.

Long Qinglan nodded: "Of course, there is no problem with that, the only problem is time! When they fused with the Origin Dragon Soul, they could actually only be considered infants. For them to become adults, they would need a certain amount of time. The higher the level of the divine dragon, the longer it would last. For example, a Ultimate Dragon, even if it was promoted by a treasure from heaven and earth, it would at least take thousands of years or even tens of thousands of years. Therefore, you'll have to see whether you can train the rules of time to a higher level in the future. For example, the three hundred times the speed of flow in this starry sky is my rule. You can make them grow faster in this way. Of course, even if they had just merged with the Origin Dragon Palace, it would be sufficient to give these experienced Dragon Fighter the power of a god. They would not be inferior to the Divine Monarch in any way.

This was too terrifying.

Then, the origin of the Ancestral Dragon, the Dragon Soul?

Long Chen reckoned that the mission that Long Qinglan mentioned had something to do with this.

In fact, they knew very well that the origin of a dragon's soul was as important as the inherited blood essence. If they had possessed the origin of a dragon, they probably wouldn't have remained dormant until now.

Long Qinglan said, "The most precious inherited blood essence of our Origin Dragon Palace is the blood essence of Unparalleled Dragon s. There are about forty different types of blood essence, and there are nearly a hundred Unparalleled Dragon s, and more than forty different types. Because the battle was spread throughout the ten thousand realms, you need to go to the ten thousand realms to find them, and at the same time, the origin dragon soul of Unparalleled Dragon, the origin dragon soul of origin dragon palace, none of these origin dragon souls are scattered throughout the ten thousand realms. For example, according to my knowledge, the origin dragon soul of the eight great concomitant dragon s of Primordial Blood Spirit Dragon, exists in the Death Realm!"

Death Realm?

No wonder when Long Chen unleashed the Death Realm's Dragon Gate, he was able to produce the eight great concomitant dragon of the Primordial Blood Spirit Dragon.

"Actually, the Death Realm was a world that the Primordial Blood Spirit Dragon created by himself. It was attached to the Dragon Sacrifice Continent and was related to the death and reincarnation of the Primordial Blood Dragon. After that war, the Primordial Blood Spirit Dragon died in battle and the Death Realm was lost as well. As for a portion of the Unparalleled Dragon's blood essence and origin dragon soul, we need you to go and find them. Only then can you produce a Unparalleled Dragon of the, or even a Divine Dragon Ranker from the Half ancestral realm Realm. In your Divine Kingdom, there are many things that are good to be done, and they all need you to make them. "

"Alright."

Long Chen had organized the two tasks well.

The first was to find a way to break the curse and save the sealed Divine Dragon.

Secondly, he had to find the inherited blood essence of the Unparalleled Dragon, the origin of which was the Dragon Soul. Raising one's own divine dragon.

Long Qinglan stared into his eyes and said, "Lastly, we have to find the origin of the Ancestral Dragon, the Dragon Soul. The remaining four kinds of inherited blood essences are scattered throughout the Myriad Realms. 100,000 years ago, after the Heaven Swallowing Dragon fell into a deep slumber, these inherited blood essences and the origin of the dragon soul might have appeared. You have to find them before everyone else and become a true Ancestral Dragon! Remember one thing. Only when you get close to the ancestral realm can you fuse with the Origin Dragon Soul. If you fuse it too early, it will definitely alarm the Primal Chaos Celestial Devouring Dragon.

The two missions were very clear.

Now, he clearly knew what the Origin Dragon Palace truly had.

He had already made clear what he needed to say.

Long Chen took a deep breath, as though a new journey had begun! A new battlefield appeared!

The battle for ten thousand worlds!

Chapter 2762 - Reincarnation Demon Ancestral

The mystery of the Divine Dragon Extinction, the riddle of one's birth, the riddle of gods and devils, as well as the two tasks for the future, Long Qinglan had explained everything clearly to Long Chen.

He knew that Long Chen would need a long period of time before he could completely digest what he knew today.

To him, this news was simply too shocking.

Of course, Long Chen had to forget about all these. After all, he and the descendants of the Divine Dragon wouldn't have enough power to deal with the Heaven-Devouring Race.

The more he knew, the more danger he would face. This was the reason why the Eternal Dragon Emperor died.

So in fact, before Long Chen had reached this level, the Dragon Attendants had chosen to do their best to keep Long Chen in the dark.

Until now, when *Draconis officinalis* Hance was about to return to a hundred thousand years ago, he had no choice but to say.

After that, a new journey.

"I should go."

Long Qinglan was relieved. He looked at Long Chen with a bland smile, his eyes ethereal but filled with wisdom.

With his departure, they would never see each other again.

Although they were both men, Long Chen was still incomparably unwilling to part with them. This was his own father, and after today, he would embark on a road that was bound to end in death. However, he would not regret it.

Great and heavy.

Maybe Father was like that!

It was very difficult to see the pain in his body, and he was even more indifferent and calm than Long Chen.

He was about to leave. Long Chen had thousands of things to say, but he didn't know how to say them or how to say goodbye.

However, his heart was filled with grief. It was just a mission that neither of them could avoid!

The fate of all the realms rested on his two shoulders.

"Oh right, there's something else I need to tell you about the people around you."

Long Qinglan was not in a hurry to leave.

The people around him, were Ling Xi and the rest?

Long Qinglan said: "First is my daughter-in-law. Ling Xi. I saw that she had her own good fortune and obtained the inheritance of a Divine Emperor, which was also a Divine Emperor that was not devoured by Divine Devil Giant Beast. Perfect for her. It seems that just by training eighteen types of Heavenly Code Spiritualism, you can become a Divine Emperor. "

Long Chen nodded.

Could it be that he had a better idea?

Long Qinglan said: "This is a very good girl, there will always be good luck. And your child ... I have to do something good for you. She seems to need time. You will have to leave this place soon, to get them to put the Dragon Palace into your divine realm, and she can stay here. I can speed her up and reach even greater heights now, at three hundred times the normal rate. Before you get it done, let her learn more Spiritualism s of the heavenly laws so that she can be of more help to you in the future. "

"Great."

Long Chen was sincerely happy for Ling Xi.

They were both too heaven-defying, so Ling Xi was always distressed and was unable to help, especially after the Infernal King assassinated them.

"I can only let her speed up. If it's someone else, it's not convenient for me to see too much, so the cultivation of Unparalleled Dragon still depends on you. As for your own growth, you need the right sort of fortuitous encounter. Otherwise, no matter how much time I give you, it doesn't seem to be of any use. Furthermore, regarding the rules of the Ancestral Dragon, we can only give you one hint. If we were to reveal everything that we know to you, it might restrict your development. After all, what we know is only a very small part of the Ancestral Dragon's teachings. "

Long Chen understood everything he said.

Long Chen was already very satisfied to be able to give Ling Xi a little more time and see him again.

He suddenly thought of a problem and said, "The three hundred times the time flow here was created by you. That is to say, when you return to a hundred thousand years ago, you would disappear and the time would synch with the ten thousand worlds, right?"

Long Qinglan nodded.

Long Chen's expression changed for a moment, then said: "And you also have to go back for a hundred thousand years. That is to say, I don't have that much time left, after you've finished speaking, and moved all of the beings in the Dragon Sacrifice Continent to my Divine Kingdom, I need to leave as soon as possible. Otherwise, Divine Emperor Di Jun will catch up. "

"That's right." Long Qinglan nodded.

It became urgent once again.

So these three hundred times wasn't enough to last forever.

Long Chen had thought that he could stay here for a very long time.

At this time, Long Qinglan said: "I make it so that Ling Xi can help you in the future, but a person's strength is ultimately weak. As a leader, you must create even more strong experts. There is another girl beside you, that is Su Yan. Even though she had become a devil, her accomplishments were actually due to some of the changes that Mo Xiaolang and herself had caused. Now that she had escaped the control of the Heaven-Devouring Tribe, her achievements were not limited to Extreme Realm God King. In addition, he actually also had the legacy blood essence of the ancient dragon, and was currently undergoing some changes. There will be better things in the future. Don't forget to cultivate her. Of course, the other two people that I want to talk to you about are actually the ones that are most important to you on the battlefield. "

Long Chen listened but did not interrupt.

"The first, Mo Xiaolang. Perhaps you have already guessed it, but he is actually a Heaven-Devouring Tribe. He was the blood of the Heaven-Devouring Tribe scattered across the Dragon Sacrifice Continent during the great battle and has been in existence for many years now, but he has always been at the bottom level of the Dragon Sacrifice Continent. Actually, you don't know, even though the Heaven-Devouring Clan is very strong, when they were born, they were actually at the bottom of the entire realm. As long as there was a suitable opportunity, there would be no end to it. Therefore, there were only two factors that mattered: whether or not the Heaven-Devouring Tribe was strong. First, whether or not what they devoured was common, and secondly, whether or not they devoured much of it. Flames covered all ten thousand worlds, and there was even the Ancestral Fire. So as long as he follows you, his achievements will be limitless. In the end, we might even be able to compare to the overlords of the Eclipse Tribe! "

Long Chen had seen the Sun Devouring Demonic Wolf before on the Heaven-Devouring Clan's relief sculpture.

Of course, their appearances were slightly different.

However, Mo Xiaolang's devouring was no different from the Heaven-Devouring Race's.

Therefore, Long Chen suspected that he was somehow related to the Heaven-Devouring Clan.

However, after becoming a deity, they realized that the Heaven-Devouring Race was too weak, so they didn't pay much attention to it.

Mo Xiaolang had been bewitched once, and almost lost his will. That was a very troublesome matter, Long Chen did not want him to leave him behind, nor did he want him to fight against him. Right now, his biggest enemy was the Eclipse Tribe, and he was actually a member of the Eclipse Tribe.

Who would be willing to fight with a brother?

Long Qinglan seemed to be able to read his thoughts, and said: "You don't understand the Heaven-Devouring Clan."

"Hmm?"

"They are not destined to be strong, but rather rely on their devouring strength. Before they are devoured, it is very likely that they are so lowly that it surpasses your imagination, and even more so, there are still many Heaven-Devouring Tribe existences in every realm. There are even some Dragon Sacrifice Continent s, but their starting point is too low, they are not some kind of amazing living thing, because their growth is also filled with danger. The only reason they could become the rulers of this world was because they grew bigger and bigger, surpassing the peak and endurance of all the realms. Therefore, Sun Devouring Demonic Wolf are just an ordinary race of the Eclipse Tribe. Whether or not they are evil depends on who they interact with and grow stronger, so you don't have to worry about them standing against you. The Heaven-Devouring Tribe and the demons were not the same. Previously, he stood by the side of the demons because she was controlled by the ancient Giant Demons. "

"Then I am relieved."

Of course he hoped that Mo Xiaolang could be strong, and be brothers with him for all eternity, to adventure together!

"It's just that, one day, you all might be able to take control of ten thousand worlds and establish a new balanced order. Then, you have to pay a little attention to him. This is because he is the same as the Heaven Devouring Dragon, and relies on devouring and destruction to survive. "

Of course, this was something to be said in the future. To establish a new order, it was still a joke right now. Therefore, these random things would have to wait until they had the ability to establish a new balance.

In any case, Long Chen believed in Mo Xiaolang. If he was not affected by anything else, his heart would be a lot more kindhearted than Long Chen himself.

Whether or not it was the Heaven-Devouring Race was none of his concern.

"You said two just now, then the other one is, Cat?"

Actually, Long Chen was also prepared to help Cat ask about his background.

The kitten had always been troubled. Who was he?

In his memory, he fought with the Great Void Cosmic Dragon before being defeated, so he did not experience that battle.

But apart from that, nothing else was clear.

Long Qinglan smiled slightly and said: "This guy, before the era, I can be considered to be very familiar with him. He was a stubborn and interesting guy. At that time, he was stronger than me. He surpassed the realm of gods and reached the realm of ancestors. It was one of the only four ancestral realm in the entire Dragon Sacrifice Continent besides the Ancestral Dragon lineage and Dragon Servant. If our Dragon Servant is the founder of the dragon sacrifice's humans, then the four of them are the founder of the dragon sacrifice's demi-humans. They were also known as the Four Great Demon Ancestors. He was the leader of them, and his name was: the Reincarnation Demon Ancestor. The laws of reincarnation. "It's quite scary."

"So powerful?"

Long Chen was shocked.

Below the Ancestor Dragon, he was almost the strongest guy. How could such a strong fellow be so shameless?

Long Qinglan laughed and shook his head, then said: "This guy has always been interesting from the moment he was born, he was extremely daring, and when the Spirit Demon race had just started to develop, he had already thought of overturning the order in the Ten Great Ancestor Dragon, and thought himself to be stronger than even the Ten Great Ancestor Dragon. He couldn't find the first and second Ancestor Dragon, so he searched for the Great Void Cosmic Dragon to challenge, thus I was very familiar with him, and also fought a few battles with him.

"And then?"

Long Chen asked curiously.

Long Qinglan said: "In the eyes of the Ancestral Dragons, he is just a joke, not a threat. He was rather arrogant and domineering, even threatening the appearance of the Great Void Cosmic Dragon. In the end, the Great Void Cosmic Dragon appeared, defeated him, and also punished him, stripping him of her strength and rules. He sealed his soul within a set of dragon scales. Back then, I was only planning to suppress him for a period of time and release him after he obeyed. Who would have thought that the Heaven-Devouring Race would appear, the Heaven-Devouring Dragon turned traitor, and the nine Ancestral Dragons were defeated. Naturally, no one will remember him.

This is a sad story

It was as funny as a kitten's personality.

Chapter 2763 - time tunnel

"I didn't expect Cat to have such a young and arrogant moment. However, he really is quite unlucky. He was originally just punished for a while, but in the end, he was imprisoned for a whole era." Long Chen thought about it, and still felt that this guy was really pitiful. After all, he was from another era. As the ancestor of the demon clan, his punishment was too great.

Of course, the Great Void Cosmic Dragon did not do it on purpose.

Unexpectedly, Long Qinglan shook his head and said: "You are wrong about that, I think he is lucky."

Long Chen was stunned and asked: "Why?"

"Do you know what happened to the other three demon Patriarchs in the great battle? They were all swallowed up by the Heaven Swallowing Dragon, turned to dust, and left with nothing left of them. "

"Oh!"

Perhaps those three were Cat's siblings.

Long Qinglan continued: "There is another important point. His body and power, as well as everything about him, have not been used by the Great Void Cosmic Dragon. They were only sealed by the Great

Void Cosmic Dragon for a whole era. If you can bring him and find what belongs to him, he might even be able to return to the ancestral realm. Of course, he would have to go through a certain period of time before successfully fusing with it. After all, he has passed through an era, and his vitality has been greatly damaged. "

No wonder Long Qinglan said that the kitten was lucky.

The other three demon ancestors had all been annihilated while he had challenged the Ten Great Ancestor Dragon. He was punished with a sealed punishment, but was able to escape this calamity, and even had the hope of returning to his peak, surpassing even the supreme divine spirit's ancestral realm!

No wonder Long Qinglan said that these two would be of great help to him on the battlefield.

Mo Xiaolang had limitless possibilities. As long as he swallowed the spirit stone, with Long Chen's help, he might not necessarily be unable to become the overlord of the Heaven-Devouring Clan! It was comparable to the Skyrise Dragons.

As for Cat, as long as he found something that belonged to him, he might reach ancestral realm faster than anyone else. It could be said that it had recovered to ancestral realm.

"Is there a place for the kitten's body?" Long Chen asked.

Long Qinglan said: "In a single era, such a huge change has occurred in the ten thousand realms, just like how Death Realm, who knows where she went. I don't even know where the Great Void Cosmic Dragon's' time tunnel 'went, if you can find them, then maybe it would be over there.

"time tunnel?"

Long Chen remembered this location.

The places he was looking for were cursed lands, Death Realm, and even the Death Light Tunnel.

He wanted to find a way to break the seal, find the Inherited Bloodline and Origin Dragon Soul, and find the original body of the kitten!

They were all things he was looking for, and they were also tasks for him! With so many things here, it was obvious that they were going to travel through the entire Myriad Worlds. It was quite terrifying just thinking about it.

The four people beside you are all the most loyal to you. You can feel at ease to nurture them and sacrifice a certain amount of effort to make them all strong. In the future, they can help you and give you the qualifications to fight against the Heaven-Devouring Dragon!

Long Chen also understood the importance of helpers.

He was not fighting alone.

Beside him were Ling Xi, Mo Xiaolang, Su Yan and Cat.

There were fifteen Dragon Emperors and Yang You and other elders who gave him advice.

With the protection of the other Dragon Guards, they helped.

With the support of millions of Dragon Fighters!

There was the faith of trillions of lives!

In fact, there was a high chance that there would be a true Divine Dragon army of trillions in decisive time!

It engulfed all worlds!

With so many like-minded people, what did he have to worry about?

In any case, at this moment, Long Chen was full of passion and blood. Long Qinglan had given him such a heavy but glorious mission, and had also given him a new life!

"Go out and take a look at the Origin Dragon Souls. Let the Dragon Fighter try fusing with the Origin Dragon Souls, they can also produce many True Dragons that are comparable to gods. Then, let the Origin Dragon Palace suppress your divine country. The only thing that I can do right now, is perhaps just

to let Ling Xi have a little more time to become more proficient in Heavenly Law Spiritualism. You have to remember one thing. "

"What?"

"Don't let Ling Xi inherit the dragon's inherited blood. Tai Su has seen her fate before. She might encounter other encounters, and they might be even more useful to you."

god of tai-su was Hun Yuan's Heavenly Fate Dragon Attendant.

Her understanding of the Edicts of Fate was definitely deeper than her own. Her words were always reasonable.

"Alright!"

Long Chen nodded.

He truly admired the dragon servants. It was they who had created him, and it was they who had protected the divine dragon's bloodline.

"When I reach the limit of my time, I will leave and also allow Ling Xi to leave this place. There's no need for us to meet again, Chen Er."

Long Qinglan turned and stared at him.

"Say goodbye to me."

"Father!"

Long Chen was unable to say goodbye because he was unable to say what he wanted to say.

If he left this room, it would be a farewell.

From then on, they all fought for their destinies.

"Don't worry about that. I'll wait for you to establish a new world order. When the time comes, it will be easy for you to rebirth me. All of the Ten Thousand Worlds have to listen to your thoughts. "

"Is that so?"

What a distant dream.

Maybe Long Qinglan was just casually saying it.

"I understand, Father."

Long Chen bowed deeply towards him.

This was an admirable elder.

"Very well, go chase your destiny. I didn't mean to put it all on you. "

Long Qinglan's voice became hoarse.

"I remember what you said to me when you gave it to the Dragon Jade.

Long Chen almost choked up.

"That's right, go! "To drink blood, to topple this world. To establish the balance of this dragon that belongs to me. To protect our homeland. To protect our brothers, sisters, relatives, and loved ones."

Long Qinglan pressed both hands on his shoulders and said: "Remember, never easily give up. No one knows how terrifying your future will be. When I gave you the Dragon Jade back then, you never thought that you would have such a day! "

"Alright."

Long Chen did not plan to say more.

The more he spoke, the harder it was for him to let go of her.

His heart ached for the man in front of him. The term 'greatness' was no longer enough to describe him. He was an avenger, a guardian, and even more so, a father.

He knelt on the ground, kowtowed three times, and then stood up.

He had already exchanged a few words with Ling Xi, but Ling Xi was completely unaware of their conversation. Even Threelives had no way of knowing. Now, Long Chen had only told her that he would give her more time so that she could truly meet his father.

When she appeared in this room, Ling Xi saw Long Qinglan. She was a little nervous, so she called out to him as father.

"Next up, Long Chen will complete his mission. You stay here, and I'll buy you a bit more time to comprehend the Spiritualism of the heavenly laws and make you stronger."

"Alright!"

Ling Xi nodded obediently.

Right now, everyone in the God Kingdom was confused, and Ling Xi was the same.

"I'm leaving."

Long Chen took a deep breath and said to Long Qinglan in the end.

"We'll meet again if fate wills it." Long Qinglan laughed softly, and said without emotion.

Ling Xi looked at the father and son duo blankly. What was she doing? She still didn't know that Long Qinglan had transmigrated from a hundred thousand years ago to now.

One last look.

Walking out of this door meant never seeing again.

However, Long Qinglan had given him hope. He said that on the day that everything was completed, he could let Long Chen return to this world. That was the goal of Long Chen!

Today was just a new starting point!

He had a burning passion in his heart to complete the difficult and seemingly impossible missions of the future!

Thus, he decisively turned around and walked out of the room. He pushed open the door, and his gaze fell upon Long Qinglan and Ling Xi one last time. That glance was as deep as the look he gave him at the beginning.

"Go and fight."

He didn't say anything, but from the way he mouthed it, that was what he meant.

Long Chen closed the door and left the place. After hearing Long Qinglan's words, he left the room and forgot about many things.

Everything you know.

Facing Long Qinglan alone, Ling Xi was still a little nervous.

"I ..."

"Don't worry about me. Continue to study the Heavenly Rules and Spiritualism. I'll do my best to make your time flow a little slower." give you enough time to follow Long Chen's footsteps. " Long Qinglan said gently.

"Alright."

Long Chen had already reminded him of this before.

Ling Xi did not know that Long Qinglan would leave in the future, so she had a lot of things to say.

Sure enough, after a while, she realised that in the small space she was in, the time was extremely fast, faster and faster. Long Qinglan who was outside seemed to have stopped moving.

"Is this the time for acceleration?" Then I can use this time to research the Spiritualism s even faster. "

Since Long Qinglan seemed to not have moved, Ling Xi focused. Previously, she was only researching the second type of Spiritualism, so her progress was extremely fast.

She wasn't sure how much time had accelerated, but it should be soon!

Gradually, she sank into a deeper level of cultivation.

Only Long Qinglan moved. He walked behind Ling Xi and a drop of empty liquid appeared in his hand. A moment later, the drop fell into the back of Ling Xi's neck and fused with her body without a sound.

"This is for you, to what extent will you be able to display it? It all depends on your luck, I hope you can help Chen Er, and become her biggest helper."

After he returned to his position, time had returned to normal. Ling Xi was still accelerating, and she did not know what had happened at all.

Outside, Long Chen and the other six Dragon Attendants stood face to face.

When he returned, the reason he told Long Chen that he did not know about the Origin Dragon Palace was actually because the time was not right. At that time, Long Chen had yet to receive the inheritance of blood essence from Hun Yuan's Heavenly Fate Dragon.

"Let's begin. He's running out of time. " She turned to Long Chen and said, "I'll bring you to see the Origin Dragon Souls."

Chapter 2764 - The future Divine Dragon Army

Right now, he didn't know how long Long Qinglan could hold on in this world.

He had to leave.

Long Chen's mission was to take advantage of the fact that he was still alive, and the three hundred times the normal rate of flow, to let the millions of Dragon Fighter in the Divine Kingdom find out where their origin dragon soul came from, and let them first turn into the true Divine Dragon.

Of course, Long Chen also wanted to become a real Divine Dragon.

However, what he inherited was the inherited blood of the Ancestral Dragon. It was destined to be different and not that easy.

If it was that easy, the Dragon Guards would have succeeded long ago. They wouldn't have waited for him to appear.

He wasn't in a rush. The Myriad Realms was vast, but it was still waiting for him to explore.

This day was the most important turning point in his life.

The moment Long Qinglan left, the other Dragon Attendants were able to control the Origin Dragon Palace, suppressing it within Long Chen's Divine Kingdom, and expanding his Divine Kingdom. Next, he had to immediately leave, bringing all of the life forms of the Dragon Sacrifice Continent to his Divine Kingdom.

It was a huge project.

The Origin Dragon Palace was rather large, and there were even tens of billions of inherited blood essences and origin dragon souls preserved inside. Basically, the Dragon Fighter s of every Five Dragon

Cities would be able to find their own origin dragon soul. Other than Yang You, the Unparalleled Dragon, and Long Chen, the ancestral dragon.

In the future, even fifteen Dragon Emperor would become Long Chen's trusted aides.

All of Five Dragon Cities's brothers and sisters could be exchanged for Ultimate Dragon Inherited Blood Essence s. At that time, Long Chen would be able to create a terrifying Divine Dragon army.

It just takes time.

It was hard to imagine how much effort the Dragon Attendants had put in at the end of the day to collect so much inherited blood and Dragon Soul. Of course, the Dragon Sacrifice Continent back then was incomparably prosperous, and the true number of divine dragons definitely exceeded a trillion. What they gathered was only a small part of the total, and a portion of the divine dragons were immediately cursed.

Also, those who lost their blood essence in the Myriad Realms like the Unparalleled Dragon.

Deep within the Dragonhead Palace, there were a total of two golden gates.

"On the left is the dragon clan's inherited blood essence, while on the right is the Dragon Soul of Origin. We have preserved them until now because we wanted to wait for your appearance. This way, our descendants could unknowingly inherit the blood essence of the Divine Dragons in your Divine Kingdom. " When it comes to mission, revenge, even Tasu's expression is serious.

The other Dragon Attendants also spoke very little, and most of the time, they were solemnly looking at Long Chen. Especially in the Slaughter Dragon Attendant, Long Chen and his bloodline were linked. It was precisely because he had added his own bloodline into the mix later on, that he was so compatible with the Primordial Blood Spirit Dragon.

Illusion, Slaughter, Desolation, Life, Karma, Fate.

"Let's take a look at the inherited blood essence first."

Although the millions of Dragon Fighter in the Divine Kingdom still did not know what had happened in the Origin Dragon Palace, Long Chen had decided to give the current group of people he trusted the most, all of them to exchange with the best inherited blood essence. They all had their own beliefs and all the blood that flowed in their bodies was of the dragon's bloodline. They had the deepest faith in Long Chen!

If everyone followed Long Chen for benefits, there would always be a possibility of them betraying the sect.

But they were not, they followed Long Chen through faith.

After replacing them with their strongest inherited blood essence, the inherited blood essence from their bodies could be preserved and placed back in the Dragon Palace of Origin.

Since he was already prepared for revenge, there was no need to hide it anymore. Long Chen planned to use all this inherited blood essence and the Origin Dragon Soul to build them. In any case, with the Origin Dragon Palace suppressing them, he was able to bring so many experts through the world and the starry sky.

Naturally, this was an extremely large mission. It required time and effort, and even required him to do many of the tasks himself.

A warrior would need a certain amount of time to become familiar with the Inherited Blood Meridian, and changing it into a new one. Therefore, in a short period of time, they wouldn't be able to help him, and when they become strong, Long Chen would probably be even stronger.

"The Origin Dragon Palace allows your divine country to connect with the heaven and earth, allowing your divine country to have the same strength as the myriad worlds. They can be even stronger. "

"Yes."

The Dragon Attendants brought Long Chen and opened the first golden door. Inside was a vast expanse of starry sky with countless fragmentary stars, floating within this starry sky, as if there was a

transparent sphere on top of every fragmentary star. Within the sphere was a drop of blood hidden within.

The people of the Five Dragon Cities knew more about dragons and their powers. It was most suitable for them to inherit the blood essence of a super dragon and Ultimate Dragon.

There were countless broken stars in this starry sky, so Long Chen believed that there would be tens of billions of inherited blood essences.

"The first mission is to communicate with the Dragon Emperor, so that everyone can find their own inherited blood essence. After that was the fusion of the Origin Dragon's Soul. The Origin Dragon Soul should be given to the Dragon Emperor s to try out first. He had to settle the matter of the inherited blood essence first. When a Dragon Fighter completely adapted to the new blood essence, he could then fuse with the Origin Dragon Soul. Otherwise, it would obviously cause trouble. "Haste makes waste."

As for the Dragon Emperor s, they were the inherited blood essences of the Ultimate Dragon, so there was naturally no need to change them.

In the ancient times, there were only about a hundred Unparalleled Dragon, some strong and some weak, estimated that there were only a few hundred thousand. The Origin Dragon Palace had a total of around a hundred thousand Ultimate Dragon Inherited Blood Essence, and these could be given to the most core experts. With a super divine dragon, there were millions or even tens of millions of them, and they could be handed over to other races. Generally speaking, when a super dragon reaches the strongest state, becoming a Divine Emperor would not be a problem.

Long Chen was prepared to collect all the super divine dragons and Ultimate Dragon Inherited Blood Essence during this period of time so that the Five Dragon Cities s could fuse together first. Of course, he would also keep a portion of them, because right now in the Dragon Sacrifice Continent and the Immortal God Realm, there would also be some talented and outstanding descendants of the dragon race. As a controller, he had to be fair.

From his perspective, the entire starry sky seemed to be filled with millions upon millions of divine dragons. It was incomparably gorgeous and spectacular! He could not help but imagine the Dragon Sacrifice Continent from before this era. It was a bustling scene, the world was stable at that time, and all races were harmonious! Unlike today, everything was in pieces!

"Other than the Ultimate Dragon, the Origin Dragon Palace also has forty different kinds of Unparalleled Dragon's inherited blood essence. I recommend that you find forty good seedlings in the entire Dragon Sacrifice Continent, who are most loyal to you, with the best willpower, the tenacity and talent, and who are a little younger, to let these young geniuses inherit the Unparalleled Dragon's blood essence. They might be very weak before they find the source dragon soul that belongs to them, and might not be able to match up to the other True Dragons. It might even be possible for him to surpass you in a short period of time. Therefore, the person you are looking for must be extremely loyal to you. "

Tai Su said solemnly.

Long Chen understood.

It was very easy to find forty people like this.

For example, he had many disciples from the Slaughter Dragon City, such as Liang Teng, Luo Yan, and Pang Hong.

He still had many friends, such as Feng Zhiling, Ye Xuan and so on. Of course, loyalty and determination were one point, talent another point. If talent really wasn't good enough, Long Chen could only change to someone else.

"Let's go take a look at the Origin Dragon soul."

Until now, he had yet to see the true origin of the dragon soul.

When they opened it, there was a resplendent world of gold and jade inside. It was a huge golden hall, and within the entire hall, stood countless colorful pillars, with no end in sight. There were at least ten billion of them, and within each pillar was a Dragon Soul of Origin, a divine dragon in the form of a soul, which was slightly different from a real soul.

However, the true imprint and power of a Divine Dragon was hidden within. It was what was most needed in order to pass on one's blood essence.

"In all the realms, only the divine dragons, aside from their divine souls, have the Dragon Soul's origin. I heard Hun Yuan's Heavenly Fate Dragon say before, that in the Dragon Sacrifice Continent, all the divine

dragons originated from the Origin Dragon Soul, and the Origin Dragon Soul is the first ancestral dragon. In other words, the first step for all the divine dragons is the creation of the first ancestral dragon. He is the starting point of all the Divine Dragons' lives and the source of their power. "

Long Chen looked at the countless Dragon Souls that were burning on the golden pillar, and couldn't help but be stupefied. As a Dragon Fighter, he could obviously feel that he was in extreme need of the Dragon Soul. In reality, if he were to give up on the ancestral dragon-inherited blood to fuse with a type of Ultimate Dragon Inherited Blood Essence and even fuse with an Origin Dragon Soul, he would be able to become a true divine dragon.

Of course, he wouldn't do that.

Because that limits his end.

His final destination was to fight against the Heaven Swallowing Dragon and the others.

Therefore, he had to endure in silence until he found the origin of the Ancestral Dragon. He had to rely on his inherited blood essence to be comparable to a Unparalleled Dragon.

There were simply too many things he needed to find.

After looking at the Origin Dragon Soul, Long Chen's heart was in turmoil. After he calmed down a little, his willpower returned to his own God Kingdom, where everyone was waiting for news from Long Chen. At this moment, they were all staring at Long Chen, waiting for him to tell them the truth.

However, Long Chen said: "Everyone, from today onwards, everyone will undergo an incomparably significant change. From now on, everyone will follow whatever I wish for you to do, but please do not ask me why, is that possible?"

The Dragon Fighter people looked at each other.

Of course they believed in Long Chen.

However, it was rather strange for it to be kept secret to this extent.

However, as long as it was a good thing, they could do it. To this day, they had long ago trusted Long Chen.

From this moment onwards, Long Chen began to remodel them, and began to create a set of legends that belonged to him!

Divine Dragon Army!

Chapter 2765 - Dragon Making Plan

Long Chen only had to let them know that the Origin Dragon Palace had all the Dragon Soul's origin and inherited blood that they wanted. Long Chen had to make sure that the Dragon Soul was truly the most precious thing he had, even if it meant nothing to them.

At this time, even Mo Xiaolang and Su Yan did not know a thing or two about what Long Chen knew. He did not know what Long Chen would do in the future, or how he would avoid the Divine Emperor Emperor and the Immortal God Clan.

But when they saw Long Chen's extremely confident appearance, they knew that he definitely had an extremely suitable method.

In addition, at this time, he could roughly confirm that the surrounding people were the Dragon Guards.

Right now, millions of Dragon Fighter s were waiting for Long Chen's decision.

As their leader, and as their faith, the Divine Kingdom was their world. His voice transmitted into the ears of every single Dragon Fighter.

"Currently, there are millions of Dragon Fighter s in the Five Dragon Cities. Almost all of the Dragon Fighter s here are gathered. Our group of people understand the divine dragon the best. As we cultivate, we are closely related to the divine dragon, and the blood flowing in our veins is the densest of divine dragon bloodlines. Everyone should be clear that our Dragon Fighter lacks one thing to become a real Divine Dragon. But right now, we already have the Dragon Soul's Origin! "

Origin Dragon Soul!

Hearing this news, everyone in Five Dragon Cities cheered!

For a moment, all of them were brimming with smiles, this was laughter, a loud laugh! They excitedly hugged each other, using incomparably respectful gazes to look at Long Chen, they were so excited that they could not breathe!

"I ... I can become a real Divine Dragon?"

"Covering the sky and covering the earth! To travel through the vast wastelands and travel through the starry sky? "

"A generation ago, a real dragon!"

It was hard to imagine what kind of joy this was.

Excitement, fanaticism, endless joy, and the surging passion erupted like a volcano!

Seeing their excited expressions, Long Chen was also very pleased in his heart. Of course, this was not because of his contribution, but because of the contribution of the Dragon Attendants.

He was also grateful to the dragon servants of his ancestors for keeping the divine dragon's inheritance.

This allowed the Dragon Bloodline to be passed down.

"I can guarantee that you can let every single Dragon Fighter find their own origin dragon soul! Make every single Dragon Fighter of our Five Dragon Cities become a real Divine Dragon! For example, Ultimate Dragon! Does anyone know what level of strength Ultimate Dragon has after it matures? "

When the excited Dragon Fighter heard these words, they all quietened down. They looked at Long Chen in a daze, and their hearts were filled with unimaginable surprise.

Long Chen didn't keep him in suspense and directly said: "That's right, if it's a Ultimate Dragon, it should at least be a Taiyuan Deity Realm. It is equivalent to the Divine Emperor's Emperor! "

"Hua!"

Speaking to here, the Dragon Fighter almost suffocated.

It sounds unthinkable.

Emperor Jun of the Divine Emperor was the number one god of the Archaeozoic era, and to the people of the Dragon Fighter, even if it was just an ordinary god, they were still existences similar to myths. Now, when the gods returned, they would see Long Chen and the other gods fighting everyday. But thinking that he might become the Divine Emperor's Emperor, it was as though he was in a dream.

Of course, when Long Chen heard about this himself, he also felt that he was dreaming. Not to mention them.

Even the Dragon Emperor s were trembling all over as they asked each other if they had heard wrongly.

Of course they knew how powerful the divine dragon was in the past, and how it definitely surpassed the divine gods.

He just hadn't thought that the origin dragon palace would have so many origin dragon souls.

He could actually become the legendary dragon of a distant ancestor?

Excited, shaken, and in their eyes, Long Chen saw far too many pleasant surprises and fanaticism.

"Although it requires a certain amount of time to mature and become stronger, at least in terms of bloodlines, everyone surpasses the gods. Therefore, we are also destined to reconstruct the glory of our Dragon Sacrifice Continent, and have all the Gods and Demons of the ten thousand realms bow down before us! And I have even more good news here. Everyone, listen up. "

As long as Long Chen spoke, the Dragon Fighter would be completely quiet.

Everyone looked eagerly at Long Chen.

Long Chen enjoyed their excited anticipation very much.

Fighting for all this, no matter what, was worth it.

He once again said: "Not only the Origin Dragon Soul, now that we possess the Origin Dragon Palace that the God Dragon Ancestor left us, there is a lot of inherited blood essence, so the first thing we need to do is not to fuse with the Origin Dragon Soul, but to inherit the more powerful inherited dragon blood essence. First, the warriors of our Five Dragon Cities are the most elite, a group of people who are most familiar with the Divine Dragon's inheritance, so I plan to find them at least for everyone, and I mean that right now, everyone in our God Nation will have the possibility of becoming a Divine King in the future! We will build an army of millions of Divine Kings, an army that is close to a hundred thousand Divine Emperor! "

"Boom!"

Long Chen had scared them.

If it was the shock before, then it was fear now, happiness had come too suddenly, making them feel as if they were living in a dream. Long Chen reckoned that it would take a few days before they could truly wake up from this happiness.

Next, Long Chen let them think carefully.

He first gathered with Mo Xiaolang, Su Yan, Little Cat and Yang You, fifteen Dragon Emperors, and some core friends. Even Mo Xiaolang couldn't believe this news, and Little Cat was also staring at Long Chen with widened eyes. The moment Long Chen landed, he ran over and hugged Long Chen with both of his legs, and howled: "Boss, from today onwards, I'll be yours! Let you ravage them as you please. Please give them the Ultimate Dragon Inherited Blood Essence and Origin Dragon Soul! "

As long as he could find Cat's true form, his future would be limitless.

At this time, the Dragon Emperors were gathered together. Yang You knew that he had met Long Qinglan, and was also waiting for his answer.

"Aunt You, his identity is a bit complicated, so he can't really be considered as my father. That's why it's inconvenient for me to see you. I'll tell you in detail about it in the future."

Long Chen explained to Yang You first.

"Yes." Yang You took a step back, her heart was a little empty. Although she was disappointed, she was still excited that Long Chen had found a chance to change the situation.

"Also, the origin of the Unparalleled Dragon, the Dragon Soul, is still not here. I might have to go to the Ten Thousand Worlds to search for it."

Yang You slightly smiled and said, "I'm not in a hurry. Just do what you need to do in peace, and let the youngsters become stronger."

With such a mother and woman supporting him, Long Chen felt at ease in his heart.

Yang Xueqing was also in the Divine Kingdom, and Yang You roughly explained all of this to her.

Long Chen had to find the suitable Inheritance Blood for everyone. This required the cooperation of fifteen Dragon Emperor s and fifteen Dragon Emperor s as the leaders.

"Chen Er, is this true?"

Tears streamed down the face of the Immortal Dragon Emperor.

"Just watch."

Long Chen laughed, then let them begin to count the information. Every Dragon City has several hundred thousands of Dragon Fighter, so they must properly register the information about everyone, so that they can clarify what type of Divine Dragon they like and what kind of Divine Dragon they are good at. Long Chen would select the best ones, close to a hundred thousand people, and would help them inherit the Ultimate Dragon's inherited blood essence.

In the Origin Dragon Palace, the low, medium, and high grade divine dragons had the most inherited blood essence. There were hundreds of millions, or even a billion, of them. In other words, in the future, Long Chen would be able to produce a billion divine beings in the Dragon Sacrifice Continent.

There were even some medium level divine dragons that could become Deities.

No matter how weak they were, they were equivalent to the current Dragon Emperor and the rest.

Under Long Chen's instructions, all fifteen Dragon Emperor's cooperation were carried out in an orderly manner. Of course, Long Chen would also take into consideration his old relationship. Everyone he knew, including his own parents, were basically the people that Di Yao had once found. Long Chen had almost allowed them to inherit the Ultimate Dragon's blood essence.

This was all thanks to the Eternal Rocks that the Primordial Gods had brought. Because the Eternal Rocks, which even the Sword Master Ling Wu had reached, were able to absorb and refine the blood essence of the Ultimate Dragon.

Although the others were weaker, Long Chen had the help of the Dragon Attendants, it was more or less the same.

In any case, during the following period of time, everyone was busy as usual, even Long Chen himself.

When the inherited blood essence appeared, everyone finally understood that everything Long Chen said was true.

Long Chen had obtained their faith and obtained control over all their information. No one could act rashly as to whether or not they had inherited the blood essence of a super divine dragon and Ultimate Dragon.

In reality, everyone was very satisfied, because whether it was a super divine dragon or a Ultimate Dragon, to them, all of it was like a dream. Long Chen only had the combat power of a Divine King, but they already felt that he was terrifying enough. Becoming Long Chen was their lifelong dream.

Everything was progressing in an orderly manner.

After three months, all sorts of information had been gathered. There were also quite a few people who had begun fusing new inherited blood essences, and at the same time, they were saving the inherited blood essences. After all, there were many supreme divine dragons in the Five Dragon Cities.

Fifteen Dragon Emperor were the fifteen who first merged with their Ultimate Dragon Inherited Blood Essence.

Their familiarity and control over their own inherited blood was almost unrivaled. When the others started to fuse with their inherited blood, and with the help of the Dragon Servants and the other strong warriors, Long Chen brought fifteen Dragon Emperors to search for their origin Dragon Soul.

In the end, they found it.

brought a total of fifteen origin dragon souls to the God Kingdom.

Dragon Emperors were the first to try.

It was time for them to become real dragons.

Chapter 2766 - Unparalleled Dragon Army

Another job was to find about forty young warriors to inherit the Unparalleled Dragon's blood essence.

If Long Chen was able to establish a grand event in the future, then every single Unparalleled Dragon would be extremely important. There was a huge requirement for one's temperament and ability.

He surpassed the Divine Emperor, and even exceeded the level of supreme deities. If he could find the origin of the dragon soul, in the future, he could even become a half ancestor like the Dragon Attendants.

Long Chen's standard was obviously not to let people who were evil, irritable, useless, or cowardly become Unparalleled Dragon.

Therefore, it was up to him to personally choose.

He could see the fire of everyone's fate, see everyone's past, and almost everyone was nowhere to be seen in front of him.

It was just that this was destined to be a job that required time. Right now, he had to race against time to produce as many experts as possible while Long Qinglan was still holding out, in order to be able to help himself in the battle against the Ten Thousand Realm Gods and Demons. Honestly speaking, even

though he had tremendous resources, he didn't have the strength to sweep the entire Myriad Worlds at the moment. It was rather dangerous to guard such a huge treasure trove.

About Mo Xiaolang, Little Cat and Su Yan.

Firstly, Su Yan. Long Chen still suggested that she should first enter the realm of Extreme Realm God King. Her own blood essence was still present, so Long Chen would be able to research a better way for her to grow in the future.

Then came Mo Xiaolang.

When it came to Mo Xiaolang's background, he couldn't say that it would definitely involve the Heaven-Devouring Tribe. However, he told Mo Xiaolang that he couldn't use his Inherited Blood, and could absolutely rely on himself to become stronger. Actually, Mo Xiaolang was very confident in this aspect, so Long Chen didn't pass on his blood essence to him.

From the perspective of the Heaven-Devouring Race, Mo Xiaolang was indeed useless.

As for him and Cat, he told them in detail.

"I know where you came from, but for some special reason, I can't say it too clearly. Listen to me, but don't ask, understand?"

It was easy for Little Cat to be careless, so Long Chen was very serious in telling him these things, hoping that he wouldn't act recklessly.

Hearing the question about her family background, Cat calmed down and said, "Tell me, I won't ask."

"Alright."

Long Chen continued, "In the The Age of Dragons, you are one of the four great demon ancestors and the current ancestor of the dragon sacrifice. You seem to be the leader of the four great demon ancestors. Your main body is sealed in one place, and if we can find this place in the future, and you obtain your main body, you can become a demon ancestor again."

"F * ck, boss, are you kidding me?"

The kitten's mouth grew big.

"Believe it or not." Long Chen laughed.

"Then when I find your true body and crush you, will you become my little brother?"

Cat immediately said proudly.

"Then wait until you can crush me." Although he was joking again, Long Chen was very clear about his current excitement. He had always been waiting for Long Chen's answer.

Of course he knew that Long Chen wouldn't lie to him.

"Damn, cat-lord is dreaming!"

He suddenly became spirited and swaggered away.

Right now, it was the time for the fifteen Dragon Emperor s to fuse with their Dragon Soul.

The Dragon Attendants transferred the Origin Dragon Souls to the God Nation. There were a total of 15 Origin Dragon Souls, which corresponded to the inherited blood essences of the Dragon Emperor s.

Eternal Time Dragon

Eternal Dark Dragons

Billions of galaxies

Wait a minute.

Every Dragon Soul that originated from it was majestic and shocking, causing Long Chen to feel deep veneration for it. Inherited blood essence only provided a foundation to inherit. The origin of the dragon soul was the true strength.

The fifteen Dragon Emperor s all found their own origin dragon souls without any guidance.

They knelt down deeply before the Dragon Guards, and naturally, they had also guessed the identity of the Dragon Attendants. Even though there were many details they didn't know, they were still full of respect for them.

"From today onwards, no matter what kind of power we fellows receive, we all vow to be loyal to Chen Er to the death. We vow to sacrifice our heads for my The Dragon God Clan, to let our blood boil, and to fight until the end of our lives!"

They were of the same mind and heart.

The Origin Dragon Soul left the golden pillar and started to coiled around the Dragon Emperor. Even without them doing anything, the Origin Dragon Soul would automatically fuse with their inherited blood essence after sensing it.

"In the future, the best way for you to find the Origin Dragon Soul is to let the children who have inherited the Unparalleled Dragon's blood essence to sense it. As long as we get close to them, they will be able to detect any changes, even to you. As long as you approach the Ancestral Dragon's origin dragon soul, you will definitely be able to detect it as well. " Tai Su said from beside Long Chen.

"Alright."

This way, at least he wouldn't be like a headless fly.

The fifteen Dragon Emperor s had all become divine dragons.

Their Divine Dragon Body s were the same size as the Origin Dragon Soul. Now that they were dancing in the sky, they looked like two identical divine dragons. At least from below, they couldn't see the difference. In this continent of the Long Chen Divine Kingdom, the Dragon Fighter who were inheriting the blood essence of their ancestors, couldn't help but look up at the sky with an expression filled with longing.

Long Chen was also very excited.

When he could fuse with the Origin Dragon Soul, it would be time for him to become a real ancestral dragon.

Just like the Ten Great Ancestor Dragon before the era.

Moreover, his greatest advantage was that he could fuse the inherited blood of the other nine Ancestral Dragons into one. At the very least, he could now control five of them.

Actually, if it wasn't for the fact that they were worried about the discovery of the Heaven Swallowing Dragon, as long as they could find the ancestral dragon's origin, they might be able to fuse with it.

However, in order to not be easily found, the Ancestral Dragon's Dragon Soul must have been hidden quite well!

At this time, the fifteen Dragon Emperor began to fuse with their Dragon Soul.

Every divine dragon began to fuse with their origin dragon souls, from their heads to their tails, until they completely fused with them.

This was definitely a change akin to rebirth.

It was a change in the level of life.

The real Divine Dragon was born in front of the Dragon Fighter!

They could also transform into human forms, and they could also look to be around the same size, but there was an endless amount of room for improvement. It was just as Long Qinglan had said, the realm of every single Dragon Emperor was rising rapidly, and they were not as powerful as gods.

Their strength was transforming, increasing.

The change from Dragon Fighter to Dragon.

Many of the changes were too fast for Long Chen to clearly see.

Every single one of them should have the strength of a Divine Monarch, and should even be equivalent to a Divine Lord in terms of polar state. In the future, they will continue to grow, and as long as they go forward, they will be fated to possess a power that could be comparable to a Divine Emperor! And even more so, their profound strength will be comparable to that of a!

Imagination is one kind of state, and what you see with your own eyes is another kind of state.

Fifteen Dragon Emperor in human forms appeared in front of Long Chen.

They had changed. Other than the Immortal Dragon Emperor who stubbornly wanted to take on the image of an old man, the other Dragon Emperor s all turned into young people. In fact, in front of the Dragon Attendants, they were indeed extremely young.

Every Dragon Emperor was extremely excited!

"We, the group of us, who were on the verge of death by the Divine Tribulation, have now obtained eternal life. Should we call this luck, or should we call it something else?"

They were almost in tears.

Ten years ago, they were still bitterly suppressing their strength, waiting for their deaths. At that time, they would never have imagined that there would come a day when they could become true Ultimate Dragon!

They were just like Long Chen, with an unlimited future.

In the future, they would always be strong!

Most importantly, Long Chen would create one in the future, with at least a hundred thousand Ultimate Dragon that was equivalent to their current strength.

"This is a miracle, a gift!"

The Dragon Emperor s had no right to call themselves elders in front of the Dragon Guards. They all kneeled down on the ground, and with the most respectful attitude, they paid their respects to their ancestors.

"This is only the beginning." Tai Su said.

"In the future, there will be a day when our The Dragon God Clan reappears in the ten thousand worlds again! Once again building our own glory, we will not die, and our heritage will not be destroyed! "

These words constantly reverberated within Long Chen's Divine Kingdom!

His first attempt had succeeded!

Of course, the fifteen Dragon Emperor s were stronger than the average person, and were familiar with their inherited blood essence. From today onwards, the fifteen Dragon Emperor s will stand guard over Long Chen. As long as they pass the examination, almost all of them will be able to start fusing with the Dragon Soul of Origin.

The first batch consisted of the Bluefire Emperor and Bloodfire experts. They had also reached a level close to that of a Deity.

Half a year passed.

But of course, only a short period of time had passed in the Allworld.

As for the room that Long Qinglan was in, he had no idea how long it had been.

As long as Long Chen had time, he would always look at the door silently. He could use the wishful eye but he did not do so.

"I wonder what level Little Xi will reach once she comes out?" Our child will not be born! "

Long Chen was entangled with this problem in his heart.

As long as one was a Ultimate Dragon, they would generally be able to reach the level of Divine Monarchs. Long Chen was already beginning to overturn this world.

He was also envious of becoming a real dragon.

There were already a number of candidates for the good seedlings to look for Unparalleled Dragon. They were all young people with passion and blood, such as the children of the Slaughter Dragon City's masters, the children of the former Sky Dragon Star, and the good seedlings of the Five Dragon Cities. They might not be strong for the time being, but in the future, their futures were limitless!

Long Chen would properly test them and filter them out.

In the future, they would be his comrades-in-arms!

When would his Unparalleled Dragon army be established?

Chapter 2767 - A New World

Another half a year passed.

During this year, Long Chen and the other Dragon Emperor s had all been busy, and had practically found their own matching inherited blood essences for these millions of people. Because almost everyone in the body was a Dragon Fighter, the amount of Inherited Blood did not change.

There was also a portion of Dragon Fighter that had already merged with their origin dragon soul, becoming a true divine dragon with power comparable to or even surpassing an ordinary divine spirit.

Of course, it was only a young dragon.

In the future, all they needed to do was slowly familiarize themselves with the new inherited blood essence and comprehend the dao and rules of the inherited blood essence. For ordinary martial artists, this naturally required a very long time, so there weren't many people who met the daily requirements to begin fusing with the origin of the dragon soul.

Long Chen had already given this vast task to Dragon Emperor and those who had already become True Dragons.

After a year, Long Chen finally had some time to rest.

On the Five Dragon Cities's side, almost everyone had already changed their faces. In the future, they would become strong step by step.

They were all filled with gratitude towards all of this.

They were all terrifyingly strong, and in the future, they would definitely be able to rebuild the Dragon Sacrifice Continent, allowing the Dragon Sacrifice Continent to once again become the new number one in ten thousand worlds!

Long Chen had been guarding that golden door all day.

He did not use the wishful eye to open the door, he was afraid that it would affect Ling Xi, since it would take some effort for Long Qinglan to change the time in the room.

"Once Ling Xi comes out, it's probably time for my father to leave."

Long Qinglan leaving meant that he would forever disappear. Although he said that it was possible for him to reincarnate, how long would that be?

The two of them were destined to share a future together, to use different methods to toss their heads and shed hot blood!

Long Chen was very glad that he actually carried the same mission as his own father!

The current him was no longer the same as he used to be in White Yang Town, Source Spirit City, or the Three Great Imperial Domains many years ago. At that time, he might have been young and arrogant, but now, he was the leader of a great realm. He was the hope of the dragon sacrifice, the guarantee for the survival of trillions of lives.

Just reached the realm of Taiyu Deity.

In terms of realm, he might not even be comparable to Dragon Emperor and the others.

"Long Chen, he might be leaving soon. Once he's gone, we can't waste any more time. We will transfer the Origin Dragon Soul to your God Kingdom. Are you ready? "

One day, Tai Su waited for the Dragon Servant to appear by his side.

Now that a year had passed, the Dragon Sacrifice Continent outside only lasted more than a day.

But once the time was synchronized, the Divine Emperor Emperor would be there quickly.

"Alright."

Long Chen was already prepared!

The journey began!

At this time, the golden door in front of him opened and Ling Xi walked out in a daze. When she saw Long Chen, she asked him softly, "Why is he gone?"

"Let's go."

Long Chen was very sensitive to time, and the moment Ling Xi opened the door, the time inside and outside of her body had already synchronized. Long Qinglan returned to the one hundred thousand years ago that belonged to him. Perhaps this was a farewell match.

"I've been through ten years, but she still hasn't been born yet. But soon."

Now her stomach was bulging again.

After all, they were children who possessed the bloodline of an Ancestral Dragon. Before the era, the Ancestral Dragons had never raised any descendants, but normally, the combination of a god would require a certain amount of time to nurture their descendants. For their long lifespan, this little life wasn't too long from birth until now.

reckoned that the time at which she was born would probably be later than he imagined.

Of course, he wasn't in a hurry.

After ten years of cultivation, Ling Xi had changed.

"I have cultivated a total of five types of Spiritualism s, and I have reached the realm of Primal Realm King. Brother Chen, I can help you now. "

In that room, even though she and Long Chen were connected for three lifetimes, she could not see what was happening on Long Chen's side. Therefore, she didn't even know about the matter of inheriting blood essence.

Five!

About one every two years.

In other words, it was very likely that after Ling Xi had completely mastered all eighteen types of Heavenly Code Spiritualism, reaching the Divine Emperor would only take twenty odd years.

Long Chen was really happy for her.

She must have put in a lot of effort to do all these things, which was why she got the return today.

The other Dragon Attendants were all at the side, looking at the empty room. Their gazes were respectful, as if Long Qinglan had always been their leader. For the dream of rebirth in the dragon sacrifice, he gave his all first to create Long Chen.

The golden door slowly closed and disappeared. The room no longer existed.

"Long Chen, let's begin."

Tai Su said.

"I'll tell you about the other matters in detail. I need to do something first."

Long Chen hugged Ling Xi and let him return back to the Divine Kingdom. From today onwards, Ling Xi would be one of the strongest fighting forces beside him. Far surpassing Di Yao!

As for the thing that Long Qinglan inherited in the end, no one knew what it was. Perhaps even the dragon servants didn't know.

Long Chen followed the six Dragon Attendants out of the Origin Dragon Palace, and floated above the Origin Dragon Palace. From the outside, the golden palace looked magnificent, radiant, and vast.

If Long Chen could use him in the future, then the power would be terrifying.

But of course, its most important mission right now was to protect the Origin Dragon Soul.

"Not many Fiendgods are able to open up the sealed formation of the Dragonorigin Palace."

After saying this, the Dragon Attendants who once occupied half of the ancestral realm realm began to manipulate them. First, they had to make the Origin Dragon Palace shrink a little.

Long Chen knew that since the Origin Dragon Palace had arrived at his own Divine Kingdom, it would definitely cause a huge change, so he first let the Dragon Fighters protect themselves and stop their cultivation.

It began!

The six Dragon Attendants were respectively situated in six different directions from the Dragon Palace.

They began to chant. Spreading out their arms, they began to form countless complicated divine runes that struck against the Dragonhead Palace. Under their control, the Palace of the Winged Dragon was indeed growing weaker and weaker. They were not the real controllers of the origin level, but they could

control the Origin Dragon Palace through the authority given to them by the first ancestral dragon through the bloodline.

Of course, to them back then, origin level's divine creation probably wasn't much.

They have enough skill and power.

The scene was undoubtedly grand.

Finally, the Origin Dragon Palace shrunk to the size of a room. However, its vast might didn't change at all. It was still a sight to behold.

"I'm ready."

Tai Su and the others reminded him.

Long Chen opened his Divine Kingdom to welcome the arrival of the Origin Dragon Palace.

In that moment, the golden palace flew towards Long Chen.

What came at the same time was the The Dragon God Clan's hatred and mission.

Long Chen's blood was boiling as he accepted it.

BOOM!

The Origin Dragon Palace entered his Divine Kingdom, falling towards the center of the continent before finally suppressing this vast land.

At first, nothing seemed to have changed.

However, all of a sudden, the entire Divine Kingdom began to undergo a heaven-shaking transformation. The landmass continued to expand, grow, and in an instant, double the size of its territory. Along with the change in time, the entire world began to intensely change.

But he was excited.

The millions of people in the Divine Kingdom were also excited, even though they didn't know what had happened.

Long Chen hadn't told them his shocking plan to transfer the entire Dragon Sacrifice Continent to the Divine Kingdom yet.

They could only look on helplessly as the world within the Divine Kingdom surpassed the Immortal Divine Realm and then continued to expand. It was like a completely real world. Now, they no longer felt as if they were living within the Divine Kingdom.

"Is that the Origin Dragon Palace?"

"The Origin Dragon Palace entered his Divine Kingdom?"

Now, they could see that as the Origin Dragon Palace expanded, the world also expanded. It was like the Origin Dragon Palace had expanded!

The might of a divine artifact made from origin level could be clearly seen!

Several days passed!

Every day was filled with shocking changes.

Until the Dragon Palace, which everyone saw as its origin, became as big as the outside world, and Long Chen's divine country was nearly propped up to become a vast continent equivalent to half of the Dragon Sacrifice Continent!

To everyone present, this boundless world was a real world!

He was no different from the Dragon Sacrifice Continent outside.

Furthermore, with the suppression from the Origin Dragon Palace, the level of the world here was many times higher than the level of the Dragon Sacrifice Continent that was currently suppressed by the Eternal Rocks! At the same time, the Origin Dragon Palace was connected to the outside world, allowing the to absorb the vast energy from all over the world and provide it for them to cultivate.

A new world!

Millions of Dragon Fighter were shocked!

"This Divine Kingdom has actually become a true massive world!"

"It's even better than the current Dragon Sacrifice Continent. Oh my god, I feel like even if I don't cultivate, my power is still increasing rapidly."

Finished.

Long Chen was naturally very satisfied with this new world.

In the future, he would bring this new world, and millions of lives, to wander the myriad worlds and retrieve what belonged to their The Dragon God Clan.

As for the old Dragon Sacrifice Continent ...

In fact, it had already perished, but it was only struggling to survive.

Long Chen did not want to abandon him. One day, he would bring everyone back to rebuild their home.

"It's time to leave. It's time to leave."

Long Chen was ready.

In the past few days, he had finished communicating with Ling Xi, and now, Ling Xi had a general idea of the situation.

"What was he doing when you were cultivating?" Long Chen asked.

"Just stand there. Nothing happened."

"Yes."

From the outside, Long Chen and the six Dragon Guards had left the ancient starry sky of the Origin Dragon Palace.

Suddenly, Tai Su said, "Within the Origin Dragon Palace, there are three more Celestial Kings that are being suppressed."

Chapter 2768 - The Endwar

At this time, Long Chen came out from the starry sky.

When he came out, that piece of starry sky would probably disappear forever. This was a space that the Ancestral Dragons had created to protect the Genesis Dragon Palace.

"Three Celestial Kings?"

To be honest, Long Chen had been busy for an entire year, and had really forgotten about them.

They had been suppressed beneath the golden mountain peak of the Origin Dragon Palace.

Now, he stood above the Immortal God Realm, the Eastern Star Region.

They had to be dealt with.

Now that he had reached the realm of Divine Monarch, he even had over a thousand true Divine Dragons in his Divine Kingdom, along with Ling Xi, Mo Xiaolang and the others.

"Then get rid of them."

Long Chen rushed into the sky. He was still cautious and prudent, even though he had the power to suppress the three Divine Kings. If they were to make a move, they would instantly lose millions of lives.

"To me, everyone is a precious treasure."

Very quickly, he arrived at the starry sky above the Dragon Sacrifice Continent, which was also the battlefield where he frequently fought. Unfortunately, Long Chen was unable to take the Eternal Harmony Stone away from him.

"This belongs to the Divine Emperor Emperor. Even if I have a way to take it away, I cannot erase the traces on it. It would only give the other party clues to catch up to me."

So he gave up any thoughts he had of the Eternity Chaos Treasures.

Below, the Dragon Sacrifice Continent was still the same.

Of course, only one day had passed in the outside world. In the eyes of the crowd, the fight between Long Chen and the Divine King Mo Huang had ended just like that.

They probably knew that in the end, Long Chen and the rest had disappeared to the east of the Immortal God Realm. However, they knew that they were gods and they would not disappear forever.

The vast Divine Kingdom in Long Chen's body, was comparable to a world.

This world naturally could not be known to the three Divine Kings, nor could they be told to the Divine Emperor's Di Jun in advance. Thus, he had instructed the Dragon Guards to 'shock' the three Godkings out. Now that the Dragon Attendants were not suitable to take action outside, Long Chen chose to take care of them personally. It could also be considered as ending to everything that happened in Dragon Sacrifice Continent!

Before entering the Origin Dragon Palace, Long Chen had to face the suppression of two great divine systems.

Now, Long Qinglan and the other dragon servants had brought him new hope, a new journey.

BOOM!

The three Divine Kings, who had been suppressed for one year, were vaguely thrown out of the Dragon Origin Palace and Long Chen, who had also thrown them out of the Divine Kingdom. They, who had been suppressed for one year, were in a daze at this moment, and naturally could not see Long Chen's Divine Kingdom clearly either. They almost thought they would be suppressed forever.

"You're out?"

The three Godkings were utterly stupefied.

could have stayed inside for seventy years, but why would he choose to come out at this time? This is only the beginning, could it be that he wants to fight the Divine Emperor Emperor?

The three Divine Kings looked at Long Chen in unison. Long Chen had not changed much from a year ago.

When they thought that he had already taken control of the Origin Dragon Palace, the three Divine Kings were still wary. After all, since he had released them, they seemed to be able to control the entire situation.

The Starry Skies Divine King said angrily: "Long Chen, are you courting death? If you release us and want to suppress us again, you won't have a chance. "

His explosive shout had once again shocked the world, causing the myriad of living beings in the Dragon Sacrifice Continent to become nervous once again. It turned out that the great battle had not ended yet.

God King Mo Huang said in a deep voice, "Looks like you have gained something from the Dragon Palace. But let me tell you, since you're out, Divine Emperor will be here in less than three months. Unless you give up on Dragon Sacrifice Continent and escape, you don't have any other way out. Furthermore, we will also stop you. "

He deliberately wanted to let this matter be known to everyone.

He wanted to let them know that Long Chen was someone who wanted to give up on them and escape by himself. If he wanted everyone to lose hope in Long Chen, with his personality, there would definitely be restrictions on him and he wouldn't want to leave this place.

For a moment, the Dragon Sacrifice Continent was in an uproar, Long Chen's faith was also challenged.

"You don't have to worry about that. I won't leave this place, and I won't leave them. As for how I will deal with the Divine Emperor Di Jun and the Immortal God Tribe, you guys don't have to worry about that. The three of you, continue with your battle ahead. This time, I, Long Chen, will fight the three of you alone!

By now, he could be considered to have become a Divine Lord.

The Origin Dragon Palace had changed his view of the world, changed everything about him, allowed him to have an even more robust future, and could even form a huge army. But it did not change Long Chen's fighting strength, in terms of fighting strength, he was an ancestor so no one could help him, he still had to rely on himself to advance step by step.

Fight alone!

It had only been a day. A day ago, Long Chen had fought the King Qinguang alone, but he still hadn't been able to determine the outcome.

But now, he had actually declared that he would fight against three Celestial Kings!

On the Dragon Sacrifice Continent, the trillion lives had quietened down. Long Chen still allowed them to feel at ease. However, the challenge this time was a bit too big.

"Can he really succeed?"

"Even if we succeed, we have already offended the Primordial Gods and the Immortal God Tribe. Are we still going to live?"

No one was a fool.

In the era of the Gods, the flow of information was simply too fast.

"Then let's give it a try!"

Starry Skies Divine King was already angry.

After being suppressed at the golden mountain for a year, he had had enough. A dignified Primordial Gods had actually allowed a little kid like Long Chen to play around with him, and in the end, he was reduced to such a miserable state.

BOOM!

The Starry Skies Divine King revealed his true form.

A space dragon that spanned the heavens and the earth appeared before everyone. Every scale was like a shining star, like a heavenly river.

The Black Qilin had the authority, the killing power, and it stood right in front of Long Chen, standing side by side with the Vajra Flood Dragon.

Divine King of Light was hidden between the two Spirit Demon beings. Since Long Chen had brazenly said that he wanted to fight the three of them alone, and the matter was extremely serious, they would naturally not dare to be courteous. In the Divine King of Light Divine Kingdom, the other gods were also cursing Long Chen.

The battle began!

In the Dragon Sacrifice Continent, the hearts of the common folk once again tightened.

"I've heard too much secrets, seen too much truth, and seen too much inherited blood essence and origin dragon soul. It's as if it has transcended the ordinary level and allowed myself to feel a little elated. In fact, my current opponent is only a god, and a mere Divine Emperor at that."

Long Chen finally understood.

He had to eat the rice bit by bit.

The road, he had to walk step by step.

Overly expanding himself would only destroy everything that the The Dragon God Clan had left behind, destroy the efforts of the Dragon Attendants, and also destroy the himself that Long Qinglan had exchanged the cost of his life for this.

He began to try to forget about the things that the Origin Dragon Palace learned, focusing on facing his three opponents, and then making his move!

Speed!

It disappeared in a flash!

His opponent attacked as well.

The combined attacks of the three mighty Celestial Kings instantly detonated the world!

Under the suppression of the Origin Dragon Palace, they were nearly driven mad.

"Starry Skies Divine King!"

He did not transform into a dragon at all, but instead used his human form to fight the Space Flood Dragon. Right now, a Lingxiang's twin swords appeared in his hands, which he instantly erupted with, descending right in front of the Space Flood Dragon.

All the living beings stared with widened eyes, watching nervously!

"Sky Execution!"

On the Lingxiang's twin swords, two monstrous sword auras burst out!

To the space dragon, it was just two insignificant sword Qis, one golden and one black.

He had underestimated the power of Sky Execution!

He quickly discovered that even ten thousand layers of starlight wouldn't be able to block Sky Execution, and even that Star Realm Dragon Cave wouldn't be able to block Sky Execution.

The Starry Sky Flood Dragon was about to laugh, but he realized that Long Chen's attack was too weak.

Then, he cried out in pain.

RUU...!

Right now, he was completely covered by the golden and black sword Qis. Countless divine dragons had caused the energy within his body to explode, and for a time, the Space Flood Dragon screamed miserably. With just a single move, he had returned to his human form, his entire body dyed with blood, and he was on the verge of death.

"Xingfeng!"

The Divine King of Light caught him, and with just one move, the Starry Skies Divine King was already close to death. If the Divine King of Light did not protect him, Long Chen's casual slash could completely destroy his spirit!

"Long Chen, your opponent is me!"

The Ink Qilin descended!

What appeared at the same time was the Ancient King's Cauldron. He was finally able to use the body of the Ink Kylin to execute the Ancient King's Cauldron, its might was truly much greater!

"You are indeed much stronger than before, but this kind of power, it's easy to resist us. Any random Perfection Divine King would be able to take your life, and the Immortal God Clan wouldn't let you get away with it, so you better think carefully, if you were to give the Origin Dragon Palace to you, at least among the trillions of lives, no one would harm you!"

God King Mo Huang gave Long Chen one last chance.

Without saying a word, Long Chen attacked with his sword!

"Time Breaks!"

This sword strike surged with time, tearing out a long river.

The Ancient King Cauldron trembled, and shrunk. When Long Chen returned to the side of the God King Mo Huang, he did not manage to hit God King Mo Huang at all, but Long Chen managed to shatter the Ancient King Cauldron's power, causing it to leak out the power of its creator, so it was difficult to use it for a short period of time!

"So strong!"

The Divine King was stunned.

In the past, he could still rely on the Ancient King Cauldron to suppress Long Chen, but now, it had been completely destroyed.

Furthermore, time had always been Long Chen's first step!

The laws that he had finally comprehended were truly powerful. Just like this moment, he had suddenly transformed into a Taiji Creature Dragon before the Dark Desolate God King. The green tunnel instantly enveloped the Ink Kylin within.

Chapter 2769 - The Moment of Vengeance

"The Origin of Life."

To Taiji Creature Dragon, the rules of his path of life were generally a little stronger than the other fourteen.

For example, even though he had comprehended the fire of life before the Fourteenth Life Array, it still played a huge role.

After repelling the Ancient King Cauldron with a sword strike, Long Chen used the Origin of Life.

Using the Taiji Creature Dragon state to cast the Origin of Life, it would only be stronger!

The Dark Desolate God King watched helplessly as the most important dragon head slowly opened its mouth, revealing a green gem, followed by an earth-shattering devouring power. Under this power, the majestic Divine King was completely imprisoned, losing countless lives in a short instant!

"What's going on?"

Last time, he too was faced with Long Chen's origin of life's rules.

That time, it was interrupted by the God of Tai Chi. However, this time, it was even more violent, even more violent, and it only lasted for a short moment, and the Ink Kylin could clearly feel itself weakening, losing its power, losing its life, all of its life force had been sucked into the green life source in the Taiji Creature Dragon's mouth.

"What does it feel like to lose your life? "You have always been good at controlling other people's lives, controlling the lives of the people, believing yourselves to be above them. When I took control of your life, what were you thinking?"

Long Chen's voice sounded beside the Divine King's ears.

"Long Chen, you won't have a good ending."

The Dark Desolate God King said in pain. Anyone who looked at him as he aged would see that it was a nightmare. Even his strong divine body had started to shrink.

"Light Graveyard!"

Suddenly, a frightening tombstone shot towards Long Chen. It was the power of the outside world, the power of the Divine King of Light, to break through Long Chen's green tunnel and stop his life source, Long Chen did not expect it to end so quickly. Long Chen did not think that it would be possible.

The grave of light had broken through the origin of life, but it did not harm Long Chen at all. Instead, it had pulled the Qilin back from the gates of hell.

"Long Chen is actually this strong! "We ..."

They were all scared

He was not afraid of Long Chen being powerful, only afraid of him not being afraid of death. Now that even the Divine Emperor was unable to threaten him, what if he went crazy and killed everyone?

When they first returned to the Dragon Sacrifice Continent, they only knew that this was a crappy place and that no gods would come here. Furthermore, there wouldn't be any dangers either.

"Use the Everlasting Stone and kill him!"

In the Divine Kingdom, Di Yao screamed with a pale face.

"Right. The Everlasting Stone!"

They still remembered how they could not break through the Star of Destiny at the beginning, but in the end, they succeeded with the Everlasting Stone.

The three Godkings had no other options.

The two Goblin God Kings were severely injured, but they were immediately beaten back to their original state by Long Chen. With how weak they were, the two almost lost their lives. If they didn't think of other methods, they would die without a doubt. Thus, under Di Yao's reminder, they could only use the Eternal Light Stone!

The three Godkings joined forces, fighting for the Everlasting Stone with all their might.

Lowering his head, everyone looked at him.

They couldn't see it clearly, but from their conversation and analysis, it seemed as though the Three Gods had suffered a crushing defeat, and then had to use the Eternal Rocks?

Last time, when the earth shook and the mountains shook, it was truly terrifying!

"The three Celestial Kings are really in a rush!"

Fortunately they didn't threaten Long Chen with us, or else he would be dead.

"I never thought that Long Chen would become so strong in just a single day."

"That's true. Back then, when he left with the Heavenly Demon, he was only considered a small figure among the Gods. His rise is truly terrifying! "

"Can he block the attack of the Everlasting Stone? He doesn't seem to be in a hurry? "

All the living beings were extremely nervous, because at this time the three Divine Kings had indeed reached the side of the Eternal Rocks, setting up their formation, and were deeply shocked by Long Chen's terror. They planned to fight to the death, and what made them rejoice the most was that Long Chen was being arrogant, since they were still able to control the Eternal Rocks!

Seeing Long Chen's carefree attitude, hope filled their hearts once again.

"Yes!" Use the Everlasting Stone, and blast him into pieces! "

To be honest, she was too scared.

Every glance from Long Chen caused him to tremble.

She remembered what The God Emperor of Forgetfulness had said. Long Chen was the most monstrous young man in the entire Ten Thousand Worlds.

"Activate!"

The three Divine Kings were prepared to exhaust all their strength just to kill Long Chen. No matter what price they had to pay, they would not hesitate!

The situation was critical but Long Chen remained calm. He was still far away from the Everlasting Stone, and despite his human form, he did not move a single inch as he looked at the three Divine Kings. He did not even have the intention to rush forward to stop them.

"Attack!"

Di Yao urged.

Even if it was only a little bit of the Eternal Argent Stone's power, being able to directly hit Long Chen would be enough to cause him to lose his life. They were nervous and excited.

The three Godkings were preparing to attack.

Just at this moment, an extremely strong ray of light exploded out of Long Chen's right eye. That ray of light shot into the sky and in a blink of an eye, it arrived in front of Divine King of Light, and the speed of light was unstoppable.

"wishful eye."

Long Chen was more than willing to give it a try.

He used the wishful eye to stab into the Divine King of Light's Heart of Rules. He had experienced the attacks of the wishful eye before, so he knew what the current Divine King of Light felt like.

"Attack the two people beside you."

This was Long Chen's order to the Divine King of Light.

In that instant, the Divine King of Light could no longer control himself and stopped his activation of the Eternal Rocks. Suddenly, he acted, striking the two Divine Kings' bodies with his palms, and the Eternal

Rocks that were originally about to activate suddenly stopped. The two Divine Kings also suffered heavy injuries!

The three mighty Celestial Kings were instantly annihilated!

"What's going on!" Divine King of Light woke up, unable to believe his eyes.

"What are you doing!"

All the deities in the divine country were shocked.

Of course they didn't know about wishful eye.

In the blink of an eye, he had already appeared in the vicinity of the severely injured Divine King and Starry Skies Divine King. Each of his hands grabbed one of them, and under his strong control, the two Divine Kings were in a daze, unable to move at all.

"Leave it to me."

Tai Su appeared beside Long Chen, controlling both the Dark Desolate God King and the Starry Skies Divine King. His last gaze fell on Divine King of Light. Holding onto a sword in one hand, he walked towards him.

All of this happened in a split-second, and all living beings still had not figured out what had happened.

But they knew that the three Celestial Kings had been defeated.

All of a sudden, everyone cheered for Long Chen.

Divine King of Light didn't know who Tai Su was, but it made him scary. Now, it seemed that the three of them would lose.

"It's useless even if you kill the three of us. The death of Dragon Sacrifice Continent, you can't solve it!"

"Is that so?"

Long Chen rushed forward and used Sky Execution, which pierced through the Divine King of Light's divine body.

Divine King of Light was also heavily injured to the point of death.

"Why didn't you just kill us?"

The Divine King of Light shouted in anger.

Long Chen pointed the sword at the center of his brows and said: "I want a person from you."

"Who?"

"Di Yao."

Long Chen's gaze turned cold and he said those two words.

The faces of the three Godkings changed dramatically.

That's right, Di Yao was still here. Right now, their most important task should be to protect Di Yao.

"Impossible!"

Divine King of Light shook his head in anger. He knew that there was a huge grudge between Di Yao and Long Chen.

The three of you have done nothing wrong with my Dragon Sacrifice Continent. I might not want to take your life, but if you insist on fighting with me, it will be easy for me to kill you. Divine King of Light, I won't joke around with you, you should understand. "

Long Chen was telling the truth.

Now that he knew the truth about the gods and devils, he knew that these three were actually the divine beings of the Archeozoic era, the ancestors of the people of the Dragon Sacrifice Continent.

The bloodline should still exist.

However, if he didn't listen, then there was nothing he could do.

"What do you want to do?"

Divine King of Light asked in awe.

Long Chen thought about it, there was no need to hide it from him. At this time, Ling Xi appeared by his side, Long Chen had promised Ling Xi that he would give her a chance to personally take revenge.

Seeing Ling Xi, the three Divine Kings couldn't help but widen their eyes. Long Chen was able to cover it up for a while, she was a Primordial Immortal Body and it wasn't easy to understand his. All they could tell was that his strength was around the same as Di Yao's.

"She once incited the Infernal King to attack Ling Xi, and today, Ling Xi will personally take back this debt. Di Yao, I know you can hear me. Come out, Daughter of the Divine Emperor. "

Long Chen personally handed the Lingxiang's twin swords over to Ling Xi.

"Although she's pregnant and shouldn't move around, she's bullying me too much. She's underestimating me too much, just this once." Ling Xi said softly.

"It's fine, she's nothing." Long Chen gave her the greatest encouragement.

To be honest, Di Yao had changed Ling Xi.

At this moment, there should be a conclusion.

"If she loses, and Princess Di Yao wins, can you let go of the princess, Long Chen?" Divine King of Light still persisted.

"Fire." Long Chen only said one word.

However, the power of his words was different from Di Yao's. He had always kept his promise.

The Divine King of Light knew that he did not have any leeway to bargain with Long Chen.

"Princess!"

Before Divine King of Light even finished speaking, Di Yao had already rushed out. She looked at Long Chen with her bloodshot eyes, and then looked at Ling Xi. With your lowly mortal spirit, even if you become a god, you still wouldn't be able to remove your dirty blood. For Long Chen to actually fall for you, it is because he is blind. Today, I will let him see who is more suitable for him! "

Chapter 2770 - Mind Arts

Facing Di Yao's shrewd ridicule and curses, Ling Xi's face did not change at all. She was indeed not the least bit angry. Even though Long Chen, who was at the side, heard her words, he wanted to give her a good beating.

Long Chen believed in Ling Xi, so he stepped aside. However, he had restricted the Divine King of Light, and now he had complete control over the three heavily injured Divine Kings.

After all, they had to leave as soon as possible after the arrival of the Divine Emperor's Emperor.

Floating in front of Di Yao, whose face was ashen and expression was twitching, Ling Xi gave off an aura of immortality, her bright eyes stared at the excited white-haired Di Yao and said: "Between you and I, who is the real lowly person, everyone can see that the so-called nobility does not come from your bloodline, but from your soul. You are dirtier than anyone else, what does it matter if you are the daughter of the Divine Emperor. Furthermore, there has never been a situation where he and I are more suited for each other. From start to finish, you do not have the qualifications to do so. "

If Ling Xi had been polite with her, she wouldn't have wanted to attack her herself.

Back then in the Heavenly Sovereign Sword Sea, she had been defeated time and time again by Di Yao. Every battle was deeply engraved in her memory. Later on, she finally found out who the real person was that forced her to such a state.

It was Di Yao.

Not only to kill her mother and daughter, but also to rob her man.

To any woman, this was a huge grudge between life and death. The person in front of her was indeed the person Ling Xi hated the most since he was young, so she wanted to personally make a move.

Currently, she had mastered the body of the Pure Yuan Immortal, and she had mastered five Spiritualism's of the heavenly rules.

However, Di Yao did not know about these. She knew that Ling Xi had just become a god and that Long Chen was a monster, but Ling Xi was definitely not like that. She naturally did not believe that everyone around Long Chen was able to defy the heavens.

"You are courting death, and I will fulfill your wish!"

She was angry.

With his white hair fluttering in the wind, he looked like a demon.

Compared to Ling Xi who was filled with spirit energy and immortal energy, the disparity was much greater. Especially after the three God Kings had lost the battle, Long Chen had just silently observed from the side.

Seeing the concern in Long Chen's eyes, Di Yao was so angry that she was about to explode.

"What I, Di Yao, want, there is nothing that I can't get! You despicable thing! I will let you understand that you do not have the qualifications to compete with me! "

Di Yao shrieked, her tone extremely sinister, causing all living beings to gasp in amazement. Indeed, when women fought, it was indeed extremely terrifying.

But unfortunately, Ling Xi was too lazy to scold her.

Di Yao rushed over like a white whirlwind, holding the Nine-Star Emperor Sword in her hands and displaying the rules of space, the Sunscorch and the Forgotten Rules at the same time.

"Love wounds!"

This was her first rule of forgetfulness.

This was a move that she had seen before that had influenced Long Chen's performance. Di Yao was confident enough to instantly take care of this woman, Ling Xi, who did not know how high the sky was and how deep the earth was.

But when she slashed out, she found that Ling Xi was not moved at all.

"Bewildered Sky Slayer!"

She had originally been prepared to deal with Long Chen, but she had been completely restrained by Long Chen's Heaven's Eye of Destiny.

Bewildering Heaven Slayer was an emotional rule that made one's mood drop to the very end. They completely lost their will to fight, and their combat prowess plummeted. Honestly speaking, such a rule was quite terrifying in the ten thousand worlds. If one was a martial artist of the same level, then it would be very easy for them to suppress it.

"Think of your sorrows! You want to fight me with such an ant-like thing! Who do you think you are!
"Slut!"

Di Yao was extremely arrogant. At this moment, she had released three of her sword, starting from the time she had been shocked, she unleashed one sword attack at him. She reckoned that Ling Xi, who was under the influence of Tian Shang's sad eyes, would only be torn apart by her.

But at this moment, she saw Ling Xi's pair of clear, ethereal, and pure snow-white eyes without any hint of fear or sadness. She was like a gem, and any kind of negative energy could not affect her purity.

"monocardium."

This is Heavenly Rules Spiritualism.

Ling Xi only said a few words before the monocardium was activated.

Of course, Tian Shang wasn't able to hurt her. To her, this kind of natural law didn't have much of an impact on her, and her body was also able to resist it greatly.

Therefore, Di Yao was provoked!

"Die!"

Her hatred for Ling Xi was limitless.

But she met the monocardium.

Binding Spell.

At that moment, Di Yao let out a blood-curdling scream.

A single set of rules transformed into incomparably complex runes that wrapped around the world tree inside her body, completely entangling and tightening it. This terrifying set of rules caused Di Yao to instantly lose all her strength, and her internal organs felt as if they were entangled.

"AHH!"

That miserable shriek could be said to be earth-shattering, causing all living beings to cover their ears. Although they didn't know what had happened, they knew that in their first clash at least, Di Yao was at a disadvantage.

To tell the truth, in every aspect, Ling Xi was now on the verge of crushing Di Yao.

Just by relying on monocardium, Ling Xi was able to torture her to death.

Di Yao was right in front of her. Every time Ling Xi changed the slightest bit of her hand, Di Yao would look like she was convulsing. Her face was pale white, as she looked at Ling Xi with endless fear.

Earlier, she, Di Yao, still had an awe-inspiring aura, but in the blink of an eye, the situation had completely reversed. Di Yao had suffered a crushing defeat, and all of this happened in a single move.

"What is this evil art of yours!"

Di Yao screamed miserably as she rolled in the starry sky, her tears flowing out. As long as Ling Xi moved her fingers, it was as if the strings in Di Yao's body were being pulled, cutting into her internal organs.

"Princess!"

The faces of the three Godking's were ashen. To be defeated to such an extent was far beyond their imagination.

"Rules of the Celestial King!"

"When did she become the Celestial King! Impossible! With her talent, it is simply impossible for her to achieve such a speed! "

"Impossible!"

The three Godkings were stunned as well.

The same was true for the Gods of the Divine Kingdom.

Now they finally felt what it felt like to be crushed.

All living beings were also greatly shocked.

No wonder Ling Xi didn't scold Di Yao, it was because she had enough confidence in herself. Di Yao had been very arrogant just now, but the current scene was extremely satisfying.

"Di Yao, tell me, do you still have the qualifications to say that everything in the world belongs to you?"
How can you ignore the lives of others and think that you're the most pampered in this entire Ten
Thousand Worlds? "

Ling Xi was right in front of her, using the monocardium to firmly control Di Yao, what she was pulling on
was seemingly Di Yao's lifeline.

"It's mine! You're nothing! Do you dare to kill me? If you dare to kill me, my parents will definitely hunt
you down! I'll make it so that you will never have peace for all eternity, do you have the guts to do so!?"

Di Yao was crying and laughing at the same time.

It was one thing to be defeated by Long Chen, but to actually be defeated by Ling Xi, that was truly a
great shame and humiliation, especially in such a situation with so many people watching. This time
around, she was even crazier than the time Long Chen defeated her.

"Don't force me."

Flames were already flickering faintly in Ling Xi's eyes.

She was usually quiet, but that didn't mean she was easy to bully. At this time, she looked at Long Chen,
and could be considered to listen to Long Chen's words. After all, Long Chen had endured it many times.
But if he didn't kill him, he wouldn't be able to swallow his anger.

A vile character would only become more and more arrogant.

"As you wish."

Long Chen smiled slightly.

"Yes."

She received Long Chen's acknowledgement.

So what was her heart?

Hehe, Ling Xi, today you defeated me, very good! But who could laugh to the end? "You are the person that I, Di Yao, hate the most in this life. I swear, no matter where you run to, I will torture you in the cruelest way!"

Di Yao trembled from the pain. She was so angry that she was trembling.

"You have no future!"

Ling Xi's gaze suddenly became like a ray of light, piercing straight into Di Yao's body. She held the black spirit sword in one hand and controlled the monocardium with the other.

"What?"

Hearing those words, Di Yao was stunned for a moment. Was she really going to kill her?

Impossible.

He was a dual Daughter of the Divine Emperor.

"Princess, run!"

The three Divine Kings were on the verge of going crazy. They wanted to save Di Yao.

Di Yao did not understand, she did not understand Long Chen and Ling Xi, nor did she understand the current situation.

The current situation was that Ling Xi hated her.

Di Yao coughed out a mouthful of blood, the pain making her tremble. She looked at Ling Xi with wide eyes, but at this time, Ling Xi flashed past, and the Ling Xi in her hand pierced out!

"Sword Intent of the Mortal Realm!"

With a single move, he pierced through Di Yao's Heart of Rules that was imprisoned by the monocardium.

Pch!

It was as if everyone in the world could hear him clearly.

Di Yao's Heart of Rules was trembling, her spirit sword had killed off her primordial spirit, and with the help of the spirit sword and the sword intent of the mortal, Di Yao's entire being was destroyed, and in the end, her eyes were wide open as she stared straight at Ling Xi.

BOOM!

The annihilation of the divine body dissipated within this world.

At this moment, everything seemed to have come to a standstill.

Ling Xi withdrew her sword and returned to the front of Long Chen's eyes. Long Chen carried her in his embrace, and said with a bit of sadness in her arms: "It seems like it's been a long time since I last killed people."

When the gods returned, she felt the greatest pressure.

"It is only the beginning. Only the strong can establish order and protect their families."

Long Chen said with a smile.

To be honest, even if Ling Xi didn't kill her, Long Chen would only let her go. There would always be some people who crossed her bottom line, and Di Yao was such a person.

As for the result, Long Chen was prepared to accept it.

Actually, now that he took away the Origin Dragon Palace, that Divine Emperor Emperor Jun was also destined to chase after him. The results were all the same, so he didn't mind if Di Yao died or not.

However, to the three Divine Kings, all of them were trembling. The other Gods were kneeling on the ground, staring wide-eyed at this scene, watching as Di Yao disappeared.

She had already disappeared forever, and her deity form had been destroyed!

After returning to the Long Chen Divine Kingdom, the Dragon Fighter was cheering, they hated Di Yao to death too. Of course they weren't afraid, because they were of the dragon race, the future Divine Dragon Army!
