

## War God 281

### Chapter 281 - Goldfish Island

The attack of this black light was beyond everyone's expectations. Sensing the shocking aura, Long Chen grabbed Ling Xi's slender waist with one hand and stood up with his legs firmly clamped on the back of the Sculptor.

This black hawk was not as big as the Wind Breaking Roc, and only carried a person on it. However, Long Chen was certain that this black hawk was definitely an Earth Rank demon beast, and was even stronger than the current Sun Devouring Demonic Wolf!

"Ninth Prince, I didn't expect to meet you here!" It really is like looking for a broken iron shoe wherever you go, and you can get it without any trouble! " On top of the black hawk stood a man dressed entirely in black tight clothes. His vulture eyes stared deadly at Lin Cangtian, and just as he finished speaking, he had already sent a fist out at Sculptor!

"It's the people of the Demonic Palace! Old Yan, protect them well!" The Ninth Prince's face sank, without saying anything further, he started to fight with the opponent. The Demonic Palace was unexpectedly strong, but before Long Chen could clearly see them make a move, he suddenly felt a tremor beneath his feet. The Sculptor flying in the air had its internal organs shattered by the Demonic Palace's punch, and at this moment, it had already died, while Long Chen and the rest had all fallen from the sky!

Seeing that he could not save them in time, the Old Yan thought of the Ninth Prince's safety and no longer cared about Long Chen and the others who had fallen from the sky, and rushed towards the Ninth Prince!

Long Chen did not know how the Ninth Prince and Old Yan managed to escape in the air. After the Sculptor died, he carried Ling Xi and fell from the sky. His surroundings were filled with the sound of wind as his falling speed became faster and faster. Long Chen felt that his entire body was about to fall apart.

If he was already like this, then Ling Xi, as a mortal, would definitely be even more miserable. In a moment of desperation, he tightly hugged Ling Xi in her embrace.

The Sculptor's corpses fell down with Long Chen, but because of the difference in the force of the fall, they fell down in different directions!

Fortunately, because they were close to the Biyang Royal City, the Sculptor's flying speed and altitude had decreased. After descending rapidly for a while, Long Chen was already able to see the ground, his and Ling Xi's body was still able to carry an enormous impact, and Long Chen himself was still fine. If he fell down, he had the confidence that he would be able to reduce the impact.

"What should we do?" Long Chen was a little flustered. He had just given Ling Xi the feeling that he had a body, was it really going to end like this?

Right at this moment, the body of the little wolf that was falling down from the side suddenly grew bigger. The speed at which it landed quickly increased, and before Long Chen landed, the Sun Devouring Demonic Wolf's huge body fell onto the ground with a loud bang!

The body of the Sun Devouring Demonic Wolf was much stronger than the current Long Chen. After the wolf cub smashed down from high in the sky, he was actually completely unharmed. Without saying a word, he leaped towards Long Chen who was in the air!

Long Chen heaved a sigh of relief and used his Innate Qi to place Ling Xi on the wolf cub's body. The force of impact on Ling Xi's body gradually dissipated as the wolf cub fell, while Long Chen himself took out her green dragon halberd. When he landed, he suddenly slammed it onto the ground, causing a rebound force that sent him flying up into the sky before landing steadily on the ground!

Not far away, the corpse of the Sculptor crashed onto the ground, causing smoke and dust to fill the air.

Only after Long Chen landed on the ground, did the little wolf carry Ling Xi and landed on the ground. Long Chen immediately rushed over, and when he realized that Ling Xi had successfully avoided a crisis, and was only slightly frightened with a pale complexion, Long Chen heaved a sigh of relief, and fiercely hugged the Ling Xi who had survived a great disaster.

Having just possessed a body, Ling Xi had not even reached Biyang Royal City, yet she had already encountered such a calamity. But luckily, it was fine in the end.

"The people from the Demonic Palace are obviously chasing after the Ninth Prince. We belong to the Ninth Prince's side now, so if we land on the ground, the other party will definitely see us. So, it's better

for us to leave this place quickly." Long Chen looked up at the sky and realized that the battle between the Ninth Prince and the Demonic Palace had disappeared. He made a prompt decision and left the place with Ling Xi and the wolf cub.

Long Chen embraced Ling Xi and used the green dragon halberd to lead the way. In order to prevent others from noticing, the wolf cub shrunk her body once again and quickly followed behind Long Chen.

"The direction of the Biyang Royal City is over there. The Ninth Prince has been attacked and can't take us into consideration, so there shouldn't be any possibility of him returning to look for us. We can go our own way to the Biyang Royal City." Thinking to this point, Long Chen no longer hesitated. In this lush and fresh forest, he hurried in the direction of the Biyang Royal City.

This piece of forest was extremely beautiful, with crisscrossing rivers everywhere. Furthermore, there were large and small lakes as well, and on the way, Long Chen stopped to kill a few wild rabbits, light a fire, and roast them into delicacies. These days, Ling Xi had been eating rations and was already hungry.

After feeding the little girl, the two people and the wolf continued to advance. Ling Xi was obviously unable to catch up to her in terms of speed, so Long Chen had to carry her on his back all the way.

Feeling the warm feeling coming from her soft body and the smooth feeling of her back, Long Chen was a little distracted. As for Ling Xi, who smelled his scent, her face was also a little flushed. The wolf cub followed him bitterly, pretending to have seen nothing.

Although he had just saved Ling Xi, but between them, he still seemed like a redundant existence ...

A wide lake appeared in front of them. The clear water was calm, and Angele could vaguely see a small island in front of him. The island was filled with smoke. It should be someone else's home.

"It's getting late, we will rest on this small island for the night and then continue our journey tomorrow. I believe that we will reach the Biyang Royal City soon." Long Chen instructed.

"Brother Chen, the wolf cub said that he knows of this island. He came here when he was young and his name is Goldfish Island." Seeing the little wolf stare at him for a long time, Ling Xi finally understood what the little wolf wanted to say.

"Goldfish Island? "Since you're still familiar with Little Wolf, then that's great."

Mo Xiaolang spent his childhood in the Biyang Royal City.

Long Chen carried Ling Xi as he walked on the surface of the lake. At the same time, he was talking to the little wolf through Ling Xi's translator.

"You mean, the areas outside of the Biyang Royal City were originally managed by the four great clans of the Imperial City. This Goldfish Island and the surrounding vast lands originally belonged to the Mo Clan, but because the Mo Clan was destroyed, you don't know the situation on the island?"

The wolf cub nodded, looking at the approaching island, with a nostalgic look in his eyes.

Long Chen could not imagine the misery that had befallen the little wolf. He wanted to console his brother a little, but at this time, both he and the little wolf vaguely heard the anxious cries for help.

"Save me! You Japanese people, go and die! "

The scream for help was accompanied by the man's cackling laughter.

"Let's go take a look." Long Chen naturally could not sit still and watch him die.

In front of them was a small boat floating in the lake. At this moment, there were two people in the boat, a man and a woman, arguing. At this moment, the man let out a beast-like roar, pressing the woman down and frantically tearing at her clothes.

Without saying a word, Long Chen rushed over and with one leg he kicked the man out of the water, causing him to crash into the water. He did not completely understand what was right and wrong, so he kept one hand on his leg, and did not completely kick the man to death. The man also had Earth Core Stage's strength, so he would not drown in the water.

Then, Long Chen looked at the woman in the boat, and after he saw her clearly, traces of anger surged in his heart. The young girl in front of him was frail, her face was young and tender, and her body had only just started to develop. She was only twelve or thirteen years old, but a moment ago, that burly man was clearly going to rape this young girl!

"Bastard." When Ling Xi saw it, he grinded her teeth and cursed.

At the same time, the man who was kicked out of the water floated back up to the surface, and used a language that Long Chen did not understand to curse at him. Both of his eyes were red, and he glared at Long Chen, and very quickly, he jumped out of the water and unleashed his Earth Core Stage's power, rushing towards Long Chen.

This man looked extremely ugly and wretched, with a thick and short stature that was not even close to Long Chen's chest. However, his eyes revealed bloodlust and madness, and he was obviously not someone to be trifled with.

"Brat, you actually dare to touch our great Japanese, you are truly courting death!" At this time, the fellow finally spoke the language that Long Chen understood, but his tone was extremely strange, it took Long Chen a lot of effort to understand what he was saying.

"Japanese? "What is it?" At this time, how could Long Chen not understand that this fellow was actually a beast? When he leaped out of the water, wanting to kill Long Chen, Long Chen immediately used a Spirit Devil Sword Finger to pierce through his chest!

The short man's eyes were wide open as he fell into the water. Fresh blood gushed out from his chest and quickly dyed the surrounding dark green lake red.

The little girl clearly saw Long Chen's methods of killing the Japanese. At this time, she stood up, tidied up her clothes, and politely said to Long Chen: "small fish thanks big brother big sister for saving me."

This little girl was very tenacious. Despite facing such a situation, she didn't cry.

"Are you called small fish? What's going on? " Seeing that she should be someone from the small island, Long Chen started to chat with her.

"That person was from the Japanese. I thought that they wouldn't come today, so I came out to play. If it wasn't for big brother saving me, I would have died. " Speaking of which, small fish's face revealed a look of fear.

"What is a Japanese?" Long Chen pulled Ling Xi and sat on the boat as he asked.

## Chapter 282 - Japanese!

At this moment, the wolf cub nudged Long Chen's leg. After Ling Xi's translation, Long Chen finally understood what the wolf cub wanted to say.

"The Japanese was originally a race of humans to the east of the Canyang Kingdom. Because of the harsh environment, the entire clan moved to the vicinity of the Biyang Royal City, and one of the elites, due to some abilities, formed a Da He Family in the Biyang Royal City. It is one of the three great clans in the Imperial City, and possesses the same strength as the previous Mo Family."

This was the message from the wolf cub.

Listening to what they said, Long Chen realized that the people of the Japanese seemed to not be simple.

Through Ling Xi's translation, Xiao Lang said: "Japanese generally live around the Imperial City, and have their own language, and looks somewhat different from the people of our Canyang Kingdom. They are all extremely ugly, short in stature, violent in character, fierce and barbaric, and the clan, regardless of whether they are male or female, are extremely perverted and disrespectful, even to the point of being cruel and heartless, but in the Imperial City, with the Da and family supporting the other Japanese, they have always been doing very well, so not many people dare to provoke them."

"Right, right, they can't even be considered human, they are just a bunch of beasts wearing human skin!" Speaking of the Japanese, the small fish was filled with righteous indignation.

"small fish, tell me, why do you say that?" Long Chen asked worriedly, although he wanted to rush to the Biyang Royal City now, but it seemed that there was something here that needed his help. Furthermore, the little wolf seemed to have some feelings for the Goldfish Island. If the people of the Goldfish Island were in danger, Long Chen would consider helping them.

"That's because our Goldfish Island is almost done for!" small fish said with a gloomy expression.

"What happened?" Long Chen asked.

"The land surrounding the Imperial City was previously under the jurisdiction of the four great clans. However, ever since the disappearance of the Mo Clan, the region managed by the Mo Clan started to

be contested by other powers. Because our Goldfish Island is located in a remote area and we don't have any areas that are worthy of our interest, it has always been calm and peaceful."

The small fish paused for a moment, then continued: "However, recently the Japanese has been gathering up the land in the vicinity, and it is almost time for us to arrive at the Goldfish Island, our Island Lord said, the Japanese people are cruel, almost like beasts, wherever they go, burn, rob, kill, everything is done, especially the beautiful women, it is very difficult for them to escape their clutches. We originally wanted to move, but most of the people on the island are unwilling to leave, this is the land our ancestors left us, we cannot leave the land to these kind of beasts!"

"The Island Master said that we still have at most five days, right now all the warriors on the island are madly cultivating. As long as the Japanese arrives, we will fight to the death with him and shed the last drop of our blood. We will not give our ancestral land to anyone else! Let a group of beasts step on our heads! "

Although small fish was not old, she knew a lot. At this time, she explained everything slowly, one by one. She tightly clenched her little fists, her blood boiling as an unyielding gaze appeared in her eyes!

"This beast should be the scout of the Japanese. Now that the scout has died here, if the people of Japanese knew about this, they would definitely attack faster! "At that time ..."

Thinking about Japanese's strength, small fish felt a little powerless. Although she was afraid, he did not give in.

"Brother Chen, Little Wolf wants to help them. He said that they are the people of the Mo Clan and should not be sullied by anyone else." Ling Xi said softly.

Long Chen lowered his head, looking at the Little Wolf's burning gaze, he nodded.

"small fish, we will stay behind to help you." Long Chen laughed and said.

Not to mention the relationship with the little wolf, Long Chen was also unwilling to let this peaceful island be ruined. And when small fish spoke, that kind of fearless spirit made Long Chen feel really touched.

Long Chen knew that this was the spirit of an entire race.

"Really?" small fish revealed a surprised look. She had clearly seen Long Chen's strength in killing the Earth Core Stage warrior just now. If Long Chen could help, Goldfish Island might still have a bit of hope! At the very least, with Long Chen's help, the Goldfish Island would be able to kill a few less people!

As for the trip to the Biyang Royal City, it shouldn't be a problem to delay him for a while.

"Big brother, can you tell me your strength? Small success Heavenly Core? Great Perfection of the Heavenly Core? Or is it that terrifying Milky Way Realm expert?" small fish asked excitedly. She was currently in the The eighth level of the Dragon Meridian Realm, and was close to the Imperial City. The martial wind was prevalent here, so Long Chen was not surprised that the small fish had such knowledge.

"Tianhe." Long Chen said directly, he did not hide his true strength. Goldfish Island was in need of help the most right now, so Long Chen was not stingy with his help.

"Really?" small fish let out another gasp of surprise as she sized Long Chen up from head to toe. Seeing that Long Chen obviously would not lie to her, she immediately became excited, and jumped about on the boat, taking away the pressure of her clan being destroyed. She was still a child.

"Big brother, and beautiful big sister. I will bring you guys back to the Goldfish Island now to meet our Island Lord!" With that, the small fish rowed the boat past the Japanese's man's corpse and headed towards the Goldfish Island. Before long, Long Chen and the rest had reached the shore.

The only special thing was in the center of the small island. There sat a small mountain, and Long Chen could acutely feel that within the small mountain, there was a hint of blazing fire.

"There's actually a volcano on such a small island?" Long Chen was very strange, but after thinking about it, this used to be a volcanic crater, after the topography changed, this crater sank and became so small, but it still looked like it was there.

The wolf cub also seemed to have noticed the strangeness of the place. He carefully sniffed and shook his head, seemingly puzzled.

"The little wolf said that he seemed to have felt the aura of a demon beast." Ling Xi whispered into Long Chen's ear.

"Demon beast? I don't think so. If there were any demon beasts around, this Goldfish Island would have been destroyed long ago. Long Chen shook his head.

"Big brother, follow me!" small fish walked in front and waved his hands towards Long Chen.

Only then did Long Chen and the little wolf stop what they were doing and started to concentrate on following small fish. It could be seen that the Goldfish Island was very peaceful. There were not many islanders living in this place, most of them were fishing for a living. The people's ways were simple and honest, making Long Chen feel very comfortable.

However, what made Long Chen suspicious was that on the road, he seemed to have passed by several villages, but there were not many able-bodied men, only a few women doing household chores and children playing around, it was a peaceful and beautiful scene.

"The others are all at the Island Master's place. Under the Island Master's guidance, they are currently cultivating and working hard for the upcoming battle! We have already dug a cave in the back of the mountain. Starting tomorrow or the next day, the old, weak, and children will move into the cave. I'm twelve years old this year, but I'm already at the eighth level of the Dragon Meridian Realm! However, the Island Lord doesn't want me to fight, he wants me to protect the others! He said that the task is even heavier! " Speaking to here, the small fish was extremely proud of himself.

And Long Chen felt a little heavy.

He was only twelve years old, and he already needed to face such pressure. If he couldn't handle it, the only outcome would be death. Furthermore, from their descriptions, Long Chen knew that their opponent was the Japanese, a savage and violent man. It was no different from a wild beast.

"After passing through the bamboo forest, we will reach the Island Master's residence, but I'm guessing that they must be at the Martial Arts Practice Grounds, so I'll bring you to the Martial Arts Practice Grounds now! Seeing that I brought a practitioner from Milky Way Realm, the Island Master will praise me a little, hehe! " small fish said proudly.

"small fish, do you know the comparison in strength between the two sides? How much combat power does Goldfish Island have? How much combat power does Japanese have? " Long Chen asked.

"About this, we have two great Milky Way Realm experts, namely the Island Master and the Island Master's son. We have quite a few Heavenly Core s. As for the Japanese, I know that the one attacking

the Goldfish Island is one of the clans of the Japanese, but I do not know its specific strength, but looking at how nervous the Island Master is, it should be very strong! "

Long Chen nodded.

Some bamboo houses appeared in front of him, one after another, but they were all extremely elegant. After passing through these bamboo houses, the bamboo forest in front of them suddenly opened up. Separated by a long distance, Long Chen already heard the sounds coming from the martial arts arena.

Heh!

Long Chen shouted out explosively again and again, and with each and every clash of weapons, he was able to clearly capture every single one of them.

In the blink of an eye, a group of almost two hundred people appeared in front of them. Most of them were bare-chested, perspiring profusely and fighting ferociously.

"Island Lord! Island Lord!" small fish did not dare to approach, and shouted loudly at the side. Everyone who was training turned their heads, and upon seeing small fish, they did not care, but Long Chen and Ling Xi, had caught their attention.

Long Chen did it because of strength, but because of Ling Xi, because of her beauty.

"Continue to cultivate!" In the arena, an old man with a grave and stern face and crane eyes shouted loudly. Then, he turned around and walked towards Long Chen and Yue Yu.

"Island Master, Island Master, the small fish has found a great helper for our Goldfish Island! Big Brother is a practitioner of Milky Way Realm, he promised to help us defeat the Japanese! " small fish shouted excitedly.

small fish's words caused everyone to stop in their tracks once again. Their gazes moved towards Long Chen with faces full of suspicion. To them, Long Chen was really too young. He was already a Milky Way Realm Ranker at such a young age?

Such a genius should be in the Biyang Royal City, not a small place like the Goldfish Island.

Everyone stopped their cultivation and looked at each other, discussing Long Chen, and of course the extremely beautiful Ling Xi.

"Milky Way Realm?" Hearing what the small fish said, that island master was also shocked. He could tell with a single glance that Long Chen was an outstanding genius, but he never thought that her Milky Way Realm was this terrifying. One had to know that at his age, he also closely followed up on his First level of the Milky Way Realm.

"My friend, is what small fish said true?" The island master of the Goldfish Island walked in front of Long Chen and asked seriously.

#### Chapter 283 - Seraphic Pond

A great man has his ways, but he doesn't. Saving the Goldfish Island is what can be done.

"Junior Long Chen, after hearing Miss small fish talk about the Goldfish Island, I have decided to offer my own strength." Long Chen nodded and said.

The Goldfish Island Lord sized up Long Chen, and discovered that she was actually unable to see Long Chen's level. This kind of expert was exactly what he needed right now.

"Little friend Long Chen! This old one's name is Chen Feng, if you do not mind, just call me Elder Chen! This old one will be forever grateful to you for having such intentions in your heart to protect my Goldfish Island! " Chen Feng's eyes revealed an excited expression.

"Come, come! This way, please!" Chen Feng naturally received ten thousand welcome from Chen Feng. He hurriedly brought Long Chen into an elegant bamboo house, let others bring tea, and then took out the Goldfish Island's unique snack pastries to take care of Long Chen. Long Chen didn't really need food, but since he had become a mortal, he was extremely interested in these delicious pastries, so Long Chen didn't go easy on him. He passed the food over to Ling Xi to enjoy, while talking to him at the same time.

"Little friend, where are you from?" Seeing that Long Chen was already at the Milky Way Realm at such a young age, Chen Feng guessed that he was from Biyang Royal City.

"This, I cannot tell you." Long Chen laughed as he shook his head, and said apologetically. This matter was too troublesome to talk about, Long Chen was too lazy to mention it.

"I was rude, I'm really sorry!" Chen Feng apologized.

"Elder Chen, I won't say anything else. When I was passing by the Goldfish Island, I saw a man making a move against the small fish and saved the small fish, so I asked him about the matters of the Goldfish Island. However, I do not know anything about the Japanese's power, I hope Elder Chen can tell me. " Long Chen said.

"So that's how it is, no wonder it was small fish who brought you here." Chen Feng slightly frowned as he walked, and said: "This time, the one who had the idea on Goldfish Island was a clan within the Japanese. This clan has always been nearby the Goldfish Island, and it caused people to feel terrified upon hearing of it. In the family, there is a man and a woman, who are practitioners of Second Stage of the Milky Way Realm. They also have several other practitioners of First level of the Milky Way Realm.

Hearing this news, Long Chen was shocked. In the Goldfish Island, there was only a total of two First level of the Milky Way Realm.

"Island Lord, please forgive me for speaking bluntly, but the enemy's strength is obviously above yours. You have no chance of winning at all. Why did you stay here instead of migrating and waste your lives?" Long Chen said with a stern expression.

"Migration? The land left behind by our ancestors, how could we let them go? My people have said that no matter how strong the other party is, when we have lost the last drop of our blood, we cannot let them pay a heavy price! We will definitely die, but our souls will forever be! " As he finished speaking, Chen Feng was also as excited as a small fish.

Seeing that the old fellow was so excited that his face was flushed, Long Chen's heart was infected, and his blood started to boil. Previously, the reason why he had absolutely helped was largely because of Little Wolf. But now, no matter what Long Chen said, he had to use all of his strength.

"Little friend Long Chen, I will thank you no matter what for your decision. It's just that the chances of victory for Goldfish Island is too low and you are still young, you can't waste your life in vain."

"Don't worry, Elder Chen. Even if I'm not their match, it's not a problem for me to stay alive." At that time, I will definitely do my best to minimize the casualties in Goldfish Island.

Chen Feng explained the fighting strength of the Japanese, but Long Chen was not afraid at all, which made Chen Feng feel very touched.

"You must be bragging, right?" Right at this moment, a tall and middle-aged man walked into the bamboo house, and looked at Long Chen coldly.

The aura of this man was not inferior to Chen Feng's. He must be another Milky Way Realm warrior in the Goldfish Island.

"Nonsense!" Chen Feng berated, then said to Long Chen while smiling: "This is my son, Chen Lei! Lei'er, this is little friend Long Chen who promised to help our Goldfish Island! You should have heard that at his young age, he already has the strength of his Milky Way Realm, so he's much stronger than you! "

Chen Lei was aware of this fact, he sized Long Chen up from head to toe, and felt that he was a little unreliable, thus he said: "Brat, you couldn't have some sort of goal, right? I don't believe that a fool would come to this Goldfish Island to throw away his life for no reason! "

"Chen Lei! What are you talking about? Get the hell out of here! " Chen Feng exclaimed as he stood up from the bamboo chair and looked at Chen Lei coldly.

"Good, good!" Chen Lei saw that his own father was actually angry at him, and mocked in his heart: "Father, I see that your face is covered with oil, and it doesn't seem to be anything good. Maybe you're even that Japanese's spy."

"Bastard, you idiot, get lost now!" Have you ever seen such a high level spy for Japanese? " With Long Chen's age, his current strength, and his tall and straight appearance, it was impossible for him to be the Japanese's spy.

Thinking about the height of Japanese, Chen Lei didn't know how to refute him. He felt that something was wrong with Long Chen anyway, but he couldn't say anything.

"Long Chen, I hope that you do not take him seriously, he is also very cute, his wife who has been in love with him for so many years was killed by the Japanese, that's why he is so sensitive." Chen Feng sat back down and said apologetically.

"No matter, I understand." Long Chen nodded.

Dongfang Xuanxiao once said that the most terrifying thing in this world is a woman who doesn't have the strength to protect herself. He could understand why Chen Lei had encountered such a thing.

"Elder Chen, then let's leave it at that, it's already late, and I have to prepare a place for me to stay. I will stay on the island for the next few days, and when the Japanese arrives, I will definitely give it my all!" Long Chen stood up, and pulled Ling Xi who was still eating the pastries, and said.

"Good, good!" This way, please! Oh yes, little friend Long Chen, I have already sent someone to prepare a feast. "

"No need, Elder Chen. This is an emergency. If there's food, just bring it to my room." It's enough to just fill my family's Ling Xi's stomach. " Long Chen pinched Ling Xi's face and laughed.

Ling Xi used the Herba Euphorbiae and turned into a mortal. Within Long Chen's Heaven and Earth Pouch, there was an extra bit of firewood and oil.

Chen Feng prepared an exquisite bamboo house for Long Chen before he left. After an hour, someone had already delivered dinner to him. After Long Chen and the others finished their dinner, they left. In this small space, the little wolf howled and went out tactfully. It did not forget to shut the door for Long Chen when it left.

"Brother Chen, am I very troublesome?" Ling Xi grabbed onto the corner of his clothes, and asked worriedly.

When warriors started to cultivate, they would eat the Heaven and Earth aura as a food, causing their dependence on food to decrease. Long Chen only wanted to taste the delicacies before taking a bite, but food was indeed Ling Xi's living energy. Long Chen had to prepare it for him everyday, which was why he had asked that question.

"Silly girl, don't you think this is a happy occasion?" Long Chen laughed and patted her pink cheeks.

Starting from the Star Demon Prison, Ling Xi's personality began to change. She seemed to have become more reserved, and Long Chen seemed to see traces of worry in her eyes. Worry about the future.

"Xiao Xi, do you have something on your mind?" Long Chen asked.

"Not at all."

"Then why do you look so bitter? Think of a small grudge!" Long Chen laughed.

"You're the one who's resenting me, I'm not!" Ling Xi said angrily.

The night was as cold as water.

"I can't sleep." Ling Xi suddenly said from within Long Chen's arms.

"Really?"

"Yes."

"Today, I keep feeling that there's something strange about the mountain in the center of Goldfish Island, and the Little Wolf seems to have sensed it too. But since you're here, I can't relax and go over. Long Chen crawled up, and said.

After Ling Xi put on thick clothes and organized herself, Long Chen brought her out the door. He called for the little wolf in the distance, and the two of them and the wolf ran towards the center of the Goldfish Island.

"It is indeed the aura of a demon beast. However, it seems to have fallen into a deep sleep." When they were approaching the mountain peak, Long Chen had already sensed them. He believed that Chen Feng and the others must have also known that there was a demon beast hibernating in the Goldfish Island.

He climbed to the top of the mountain. There was a small heavenly lake, and inside the pond was a dark green lake.

Long Chen reached out his hand and probed into the lake water before taking it out again, and said: "This lake is warm, so I presume that this demon beast should be a fire type demon beast. A fire type demon beast's demon core, it should have a good effect on you, Little Wolf.

The wolf cub let out a howl and nodded.

Because Ling Xi was currently powerless, she had no choice but to ensure her safety at all times. He sent Ling Xi to the side, gave him a few instructions, and then jumped into the warm heavenly lake with a roar.

What surprised Long Chen was that although the Seraphic Pond was not big, it was very deep. He only managed to touch the bottom of the Seraphic Pond after a long time.

Long Chen looked at the bottom of the pond again and again. He could feel that blazing energy was right under this heavenly lake, so he wanted to see if there was an entrance that could let him directly go in.

Of course, if he used brute force, he could directly shatter the bottom of the pool, but it would definitely alert the beasts inside the pond, so Long Chen did not dare to take the risk.

After a quick search through the bottom of the pond, Long Chen finally found a crack in the wall at the corner between two huge rocks. Without hesitation, Long Chen went through the crack and found that there was a small pond in this direction.

This underground cave was downwards.

"Very possibly, this underground cave can lead to the location of the Monstrous Beast." Thinking to this point, Long Chen had no choice but to be cautious, and didn't make any sound as he moved downwards. The further he went, the higher the surrounding temperature became.

"The Demonic Beast is up ahead!"

Chapter 284 - eight claw fire horniness

The deeper they went, the bigger the cave became. Very quickly, Long Chen saw a vast stretch of subterranean space. The rocks here were red from the heat, and the air was filled with the scent of fire.

"There should have been a lot of lava here, but now the geology has changed and only the shell is left." Long Chen looked towards the depths of the underground and saw a huge cave below. Presumably, it used to be filled with lava, but now, it was only red stones and a small lava lake with a diameter of less than fifty meters.

The lava lake was not the key point, the key point was that there was actually a demon beast that was a few times larger than Sun Devouring Demonic Wolf lying inside that was similar to a dragon. It had sharp claws, teeth, sturdy limbs, fiery red skin, and was similar to a normal flood dragon.

What was even more peculiar was that he did not only have one pair of upper limbs, but four pairs! There were a total of eight sharp, fiery red claws, and they seemed like steel blades that were still in the process of being refined. They were extremely terrifying!

"What kind of demonic beast is this?" Long Chen had never seen it before.

Although the demonic beast was sleeping, its aura was very thick and it was stronger than the Sun Devouring Demonic Wolf. Long Chen did not dare be nosy. After memorizing the demonic beast's appearance, he returned along the same path and swam out of the heavenly lake, arriving in front of Ling Xi.

He described the appearance of the demon beast in front of Ling Xi. When he heard the four sets of claws, Ling Xi said without hesitation, "This is Earth Grade Three's eight claw fire horniness! Living in the magma is to absorb the power of the magma and survive. There is not much magma left here so it is using sleep to reduce its consumption. eight claw fire horniness are lazy, wait for the magma in this place to run out, then it will move to another place. "

"Earth Grade Three?" Long Chen calculated that it was a level higher than the little wolf. If the two of them were to join hands, there would probably be a chance. However, before dealing with the Japanese, Long Chen did not dare to act rashly.

"Forget it, wait until we help the Goldfish Island people get out of this disaster. We'll think about the eight claw fire horniness then." Long Chen decided.

eight claw fire horniness had two benefits. Firstly, there was some Flame Essence that had been absorbed into his Orb for many years. To the little wolf, this was a great tonic. And its abundant bloodline, was Long Chen's food.

Long Chen carried Ling Xi and returned along the same path.

"You came out for a walk. You should be sleeping by now, right?" Long Chen whispered into Ling Xi's ear.

"I want you to hold me, but don't touch me!" Ling Xi's face was a little drunk. Right now, the weather was cold. With Long Chen holding her, she felt especially peaceful and warm.

"Fine." The hungry and impatient could only take small advantages of it. Every time he was attracted by it, he would become furious, but there was no way he could vent it out. This kind of feeling, made one want to die.

Just as he was about to reach the residence Chen Feng had arranged for, a figure suddenly appeared in front of him.

"Long Chen! You really do have ill intentions, you aren't staying well in the middle of the night, and are sneaking around my Goldfish Island, why are you doing this?" Chen Lei said coldly, his huge body pressing down towards Long Chen.

I promise to help the Goldfish Island deal with the Japanese, but that doesn't mean that I can't move, does it?" "That's fine. At first, Long Chen felt some pity for Chen Lei, but if the other party continued to provoke him, Long Chen would not mind teaching him a lesson.

"Still trying to quibble? From what I see, you're clearly a thief! What did you steal?" Chen Lei said.

"Steal? "What do you have that is worth stealing?" Long Chen was too lazy to talk to him anymore.

Chen Lei suspiciously sized up the place for a while. Long Chen was right, within the Goldfish Island, other than Chen Lei and Chen Feng, there was nothing else that caught his eyes. From Chen Lei's point of view, although Long Chen's movements were suspicious, he did indeed possess Milky Way Realm in terms of realm. As for his true combat strength, with Long Chen's age, how much experience could he undergo?

In Chen Lei's opinion, Long Chen must be a noble disciple of some kind of force, with the protection and nurturing of his ancestors, to be able to achieve his current achievements. This kind of flower in a greenhouse, if they were to fight, would definitely not be his match.

Therefore, it was not possible for Long Chen to steal something.

He looked behind Long Chen and suddenly exclaimed: "You've been to the heavenly lake? Long Chen, looks like you have plans for that eight claw fire horniness! eight claw fire horniness is a demon beast of the Earth Grade Three. If you were to wake it up, it would definitely die a graveless death. You might even implicate the entire Goldfish Island! You said that you're here to save our Goldfish Island? In my opinion, you are a disaster for our Goldfish Island! "

This time, his guess was right. Long Chen was indeed interested in the eight claw fire horniness, but it was definitely not now.

It's just that when I came to the island, I noticed that there was something amiss with the heavenly lake in the center. It's only been half an hour, and indeed, I found out that there were indeed traces of demon beasts. Long Chen didn't want to waste too much time with him, so he patiently explained.

"If you don't want to fight it now, you can still fight it tomorrow! "With your strength, you are obviously seeking death. No, I will make you give up on this idea!" Thinking about it, Chen Lei's whole body started to surge with Qi.

"Out of the way!" Since it was impossible to explain, Long Chen was too lazy to explain.

"Don't even think about it!" Chen Lei roared.

Long Chen no longer had any patience. He wanted to give Ling Xi to Little Wolf to teach this idiot a lesson, but at this moment, the Little Wolf's body suddenly expanded and transformed into a Sun Devouring Demonic Wolf. With its Earth Rank Level 2 fighting strength, it only attacked for a few times before it stomped on the shocked Chen Lei.

The heavy aura of the Sun Devouring Demonic Wolf, as well as its eyes that were burning with black flames, gave Chen Lei a creepy feeling. He never would have thought that the little wolf beside Long Chen was actually an Earth Rank beast.

"Remember, I have my own patience. I am here to help the Goldfish Island, not to suffer your wrath. Walking to his side, Long Chen said a few words, then took Ling Xi and left. The wolf cub used his thick claws to ruthlessly smack Chen Lei onto the ground, a mouthful of flames engulfed his mouth. The cold temperature of the black flames made Chen Lei's hair stand on end, and he almost suffocated.

Fortunately, the wolf cub put away the Nefarious Spectral Demon Ancestral Fire.

However, the little wolf's warning made Chen Lei stay where he was. Only after a full fifteen minutes did he crawl back up from the ground, his eyes gloomy and indeterminate as he looked in the direction that Long Chen had disappeared in.

"Just where did this Long Chen come from, to have such a terrifying demon beast following him so stubbornly?" After thinking for a long time, Chen Lei still couldn't figure it out. He immediately shook his head and said helplessly: "Sigh, no matter how hard you try, it seems like you can't even compare to the descendants of these big powers, their elders just randomly bestowed a demon beast below your feet. If Long Chen truly wants to help, with this demon beast, it will definitely increase the hope of my Goldfish Island.

Returning to the room, Xiao Lang went out to play by itself. As Long Chen promised, he hugged Ling Xi's warm and soft body and allowed her to sleep in peace.

The body in his arms that was filled with temptation, caused Long Chen to feel extreme grief and indignation. He wanted to attack, but he felt that to Ling Xi, it was too evil.

"Brother Chen, why are you poking my stomach?" Ling Xi mumbled to himself.

Long Chen was shocked, he immediately moved his butt away.

"Your fingers are really big." Ling Xi's hand reached downwards without anyone knowing, and before Long Chen could react, he was grabbed by her. Immediately, Long Chen's face flushed red. Looking at the girl in his arms whose face was still hazy and beautiful, he breathed out like a wild beast.

"It's really hot." Ling Xi moaned before letting go of her hand and continuing to sleep on her side. Only then did Long Chen heave a sigh of relief, the fire energy around his body gradually disappearing.

"When will these bitter days come to an end?" Long Chen rolled his eyes as he helplessly looked at the ceiling.

He himself did not know whether it was right or wrong for Ling Xi to use the Herba Euphorbiae and make him become a mortal, or not. Right now, it was enough for Ling Xi to be happy.

In the Goldfish Island, Long Chen spent a total of five days. During these five days, he would occasionally look around the surroundings of the Goldfish Island, occasionally check on the cultivation of the islanders, and occasionally help the elderly, women, and children to move. In the Goldfish Island, other than Chen Lei, the others all liked this pair of immortal companions.

The news that Long Chen was a Milky Way Realm Ranker had already spread across the entire Goldfish Island from the small fish's mouth. When they found out that Long Chen was actually here to help out the Japanese, everyone was extremely grateful to him. They normally would give Long Chen many gifts, but in these past few days, Ling Xi had received a lot of clothes, rare jewelry, and all kinds of delicious foods.

With regards to the eight claw fire horniness, Long Chen and Chen Feng had already discussed this matter. He planned to look for an opportunity to deal with the eight claw fire horniness after the attacks from the Japanese. Regarding this, Chen Feng had no objections, his entire mind was focused on dealing with Japanese. Honestly speaking, although Chen Feng knew that Long Chen had a monster that was also an Earth Rank Beast, and that could easily move Chen Lei, it should still be at the second rank of Earth Rank. However, there were a total of two Second Stage of the Milky Way Realm experts in the Japanese.

In the face of death, the citizens of Goldfish Island were not afraid at all. Their blood was boiling and their blood was boiling, they had already sharpened their weapons and were waiting for the arrival of the beasts of Japanese to start the life and death battle!

What they protected were the old, weak, and children of the island, as well as the land left behind by their ancestors. Therefore, other than victory, they would die. There was no other path for them to retreat!

And as they were preparing, the people of Japanese, finally arrived ...

#### Chapter 285 - Arrival of the Japanese

The people of Goldfish Island had set up many spies in the vicinity of Goldfish Island. As long as there was any movement from not too far away, they would be able to notify the island immediately.

A few days ago, the old, weak, and children of Goldfish Island had already moved to their caves. Even if Japanese were to search the entire Goldfish Island, it would be difficult to find the cave.

Under the threat of life, no one dared to act rashly.

As for the brawny men of the clan, they were already prepared to fight. Dozens of days of perseverance and cultivation had filled every one of them with fighting spirit.

The Goldfish Island was not big. When the scouts rushed back and confirmed the direction of the people's advance, the warriors on the island immediately rushed towards that direction. They had set up an omnidirectional defense on the island, and regardless of which direction it was from, they had a huge advantage in terms of terrain.

Long Chen also followed along in the crowd. Because he was worried about Ling Xi, he let Ling Xi follow along, and did not allow Ling Xi to follow the old and weak women and children on the island into the cave.

To him, in terms of protecting Ling Xi, he only believed in himself and Little Wolf.

At this time, there were about three hundred warriors from the Goldfish Island lying in wait in a valley, and in front of them was a lake. At this time, everyone could already see the large ship from the Japanese, flying towards the Goldfish Island.

Different from the nervous faces of the warriors in the Goldfish Island, Long Chen and the little wolf were standing in front. The island master of the Goldfish Island, Chen Feng, and his son Chen Lei were also present.

Chen Lei had always disliked Long Chen, and felt that Chen Feng was simply too courteous to him. However, Long Chen did not do anything to him before the battle of the Goldfish Island, which made it difficult for Chen Lei to say anything.

"Let's see who can kill more enemies in a bit. The silver spear is waxen and it wants to compare with me, a Milky Way Realm warrior with over twenty years of fighting experience." Chen Lei looked at the indifferent Long Chen, and retorted.

"It's definitely because Brother Chen Lei has a bit more than me. I'm just a fledgling, how would I dare to compare with Brother Chen Lei." Long Chen laughed.

He was too lazy to argue with this donkey.

In his eyes, every single one of the Goldfish Island clansmen looked like they were filled with fighting spirit and blood. Even though they knew that the other party would be difficult to deal with, they did not cower in the slightest. Long Chen finally saw it.

"Everyone, in our dictionary, there is no submission or patience, the Japanese's methods are ruthless, if the Goldfish Island is ruled by them, we, and our children and grandchildren, for generations, will definitely live under their tyranny, be humiliated by them, and live like a dog."

Chen Feng deeply furrowed his brows, he stopped for a moment, then said with a calm voice with a somewhat tragic tone: "In order to prevent our children and our women from being humiliated, in this battle, no one can retreat. This land is the most precious gift bestowed to us by our ancestors, it is the Goldfish Island that our generations have thrived and reproduce from, today, he will suffer a great calamity! Whether or not we can make it through this crisis will depend on whether or not all of you are afraid of death! "

"Remember, killing one is worth it!" Killing two would earn him money! Kill ten? This is f \* \* king profit! "

The normally strict Chen Feng rarely burst out with such vulgarities, mediating the tense atmosphere. It could be seen that the fighting spirit on everyone's faces had become even more turbulent.

This was a battle of life and death for their race. The victor was the king, and the loser was the bandit. Long Chen could see blood in their eyes that even he admired.

"Elder Chen, don't worry too much. Look, the height of the Japanese is not even close to the chest of our warrior. How could a group of short fellows like this be our match?" Long Chen laughed.

The people of Japanese were generally short and skinny, their looks were vulgar, and everyone in Goldfish Island knew them.

"Long Chen, I really have to thank you this time, if I am defeated in a moment, you can escape, I will take one with me, and leave some blood in my Goldfish Island. If possible, help me take care of the elderly, women and children in the cave. " Chen Feng said in a bland voice. From his eyes, it could be seen that he was already prepared to die in battle!

"Fine." Although he did not think that he would be defeated, Long Chen still agreed to let this old man feel at ease.

The large ship in the distance had already approached. At this time, the people in the col could already see the group of Japanese people on the deck. In their eyes, they were purely here to receive the Goldfish Island, as for the small resistance they would encounter, they did not care at all.

He recalled the wealth and women of the Goldfish Island, numbering in the hundreds. The closer he got to the Goldfish Island, the more excited he became.

While they were nominally replacing the Da He Family in managing the Goldfish Island, in reality, they were a group of robbers who committed all sorts of crimes.

There were a total of more than a hundred Japanese. It could be seen that they did not hold Goldfish Island's fighting strength and courage in high regard, but, the fighting strength of these hundred people was much higher than the entire population of Goldfish Island. In the Goldfish Island, there were only around thirty people with Divine Pill Realm, but in the Japanese, most of them were warriors with Divine Pill Realm.

This was the difference.

After clearly seeing the other party's strength, Chen Feng's face paled as he slowly clenched his fists.

In Long Chen's ears, the surprised and hurried sounds of everyone's breathing could be heard.

At this time, one of the middle-aged man from Japanese walked up a few steps. Her face was filled with a proud smile, and was brimming with passion. Although this man was short, and did not dare to compliment her appearance, her strength was not bad. She was the same as Chen Feng, a practitioner of First level of the Milky Way Realm.

"Goldfish Island! Everyone, you have received the notice, from today onwards, this is the territory of our Da He Family, Goldfish Island will be under their control, haha! In order to express your happiness, as per the old rule, you should quickly deliver three-quarters of the island's property, and then offer up a hundred girls to receive our brothers from the Japanese! "

With his throat and strength, it was very easy for him to spread this voice throughout the entire Goldfish Island. Even the people in the concealed cave could vaguely hear it, and when they saw the hundred young girls, they panicked.

With a hundred girls, the number of Goldfish Island girls and young women added together was almost this number. Who would be able to find a hundred girls for them? According to the rules of the Japanese, if one woman was missing, then that man would die.

"Of course, it's fine if you're a young woman, but you're more interesting!" The man that spoke laughed arrogantly.

At this time, over a hundred Japanese s, thinking that they could enjoy such benefits right after they arrived on the island, especially in such an open place, had already done such a pleasant battle before. Hence, when they thought about the charms of the Goldfish Island women, their breaths became heavier.

"One, two, three, four?" Long Chen counted, and discovered that there were a total of four First level of the Milky Way Realm s, as for the two Second Stage of the Milky Way Realm s that Chen Feng was talking about, he didn't seem to have them.

"Elder Chen, didn't you say that there are experts in Second Stage of the Milky Way Realm?" Long Chen asked.

"Indeed, but is he not here today?" Impossible, they are all moving together! " Chen Feng was also somewhat suspicious.

"Dad, don't worry about it. It's great that they didn't come. There are a total of four Milky Way Realm s, the three of us, and this demonic wolf, we can withstand it!" As long as we get rid of these four Milky Way Realm, the rest will be much easier to handle. Even if the other two Second Stage of the Milky Way Realm come, wouldn't we be able to handle them? " Chen Lei said decisively.

With his grasp of both sides' overall strength, the best way now was to end the battle as quickly as possible.

"Chen Lei is right, let's do it." Long Chen could tell from the expressions and words of these Japanese s that there was not a single good person amongst them. These extremely vicious people, could only be punished by death.

"Attack!" Chen Feng instructed.

"Wait, the others don't move. We'll move." Seeing that Chen Feng was about to launch his main attack, Long Chen immediately stopped him.

"Why?" Chen Feng asked doubtfully.

"Elder Chen, a real battle will only see the fight between the top players. If we make them fight, it can only increase the number of casualties. We can just use the method of goading them out of the fight, can't we?" Long Chen smiled faintly.

"It's easier said than done." Chen Lei curled his lips, looking as if he despised Long Chen.

Long Chen was too lazy to bother with him.

At this time, the people of Japanese waited for a long time, but discovered that the other party did not send over any beauties or wealth. They looked at each other, and started laughing out loud, speaking some strange languages.

"Then, let's slaughter them!" One of the Milky Way Realm warriors said.

Just at this time, three human figures suddenly appeared in front of them, quickly arriving in front of the Japanese. Seeing that there were three warriors from the Milky Way Realm, the Japanese people were shocked, but thinking that their side had more people, they became more confident, and said haughtily: "The three of you, are you here to deliver wealth and beauties? If we bring back the wealth, where are the beauties? "

"I am truly sorry, we are not here to send you away, we are here to send you to heaven. I wonder if the powerful Milky Way Realm warriors of the Japanese have the guts to spar with the Milky Way Realm warriors of the Goldfish Island alone?" Long Chen said in a neither humble nor arrogant manner.

"So he's here to seek death." The Japanese people understood his intentions, and started to laugh. Very quickly, four Japanese Milky Way Realm warriors came out, and one of them said gloomily: "Looks like you, little demon, is going to challenge us. However, you only have three people, and we only have four.

"Who said we only have three?" Long Chen threw the wolf cub that was in his embrace onto the ground. In the process, the wolf cub's body gradually expanded, and the baleful aura around his body gradually grew.

"Earth rank demonic beast?" The Japanese people were pleasantly surprised and laughed: "Haha, with this corpse of an Earth Stage Beast, us brothers can go and enjoy for a few more days!"

Looking at them, even if there were Earth Rank beasts, they would not put Long Chen and the others in their eyes at all.

#### Chapter 286 - Killing Japanese

"Foolish as pigs, you want to challenge the dignity of our Da He family? It looks like you guys have something wrong with your brains, you dare to take the risk of destroying our clan, and want to go against us? I'm telling you, there are a lot of people who are going against us, but there are definitely not going to be a good ending. Your Goldfish Island isn't the first, and isn't the last! "

"To treat beasts, one must treat beasts the same way. Goldfish Island is a good man, how can she bow and kneel to a group of beasts?" Long Chen's expression was gloomy as he said this. The audacity of his words made Chen Lei, who was not used to looking at him, admire him a little.

"What?" You dare to call us beasts? He was truly courting death! Brothers, leave this brat with your mouth, how about it? " One of the Milky Way Realm Japanese who looked to be relatively younger said.

This meant that they had already accepted Long Chen's challenge.

"Be careful." Chen Feng instructed Long Chen before following his opponent to the side, leaving them some distance.

"It's been a long time since I've dealt with a demon beast. I'll deal with this strange demon wolf!" One of the Milky Way Warriors said.

Long Chen could not help but mourn in silence.

Very quickly, there was only one person left in front of Long Chen, and in everyone's field of vision, the battle on all four sides quickly began.

Although the number of Rankers in the Goldfish Island was outside of Japanese's expectations, it was nothing to them. They were extremely confident in their own battle, and people like Long Chen would never be able to shake their confidence!

Looking at the opponent in front of him who was looking at him with ridicule, Long Chen held onto his green dragon halberd.

"What a tender youth!" Do you know how many people died by my hands, oh no, under my crotch? How many are there for a handsome young man like you? How wonderful do you think it would be if I took off all your clothes and took care of your ass? " The middle-aged man from the Japanese sized Long Chen up from head to toe, and said while clicking his tongue.

"I will normally split their buttocks and let them bleed to death. You actually dare to provoke our Da He family today, you deserve this kind of punishment!"

Hearing that, Long Chen's eyes became even gloomier.

"F \* ck, so these people not only raped and plundered, but they also had perverted wills and were doing things that only beasts would do!" For a man like Long Chen, this kind of thing was unbearable.

After hearing what the man said, the people of Japanese knew that he was going to perform a good show with Long Chen in front of the crowd, and started jeering at him. Long Chen originally detested these beasts, but now he was even more furious. Without saying a word, he suddenly erupted, and without hesitation, the green dragon halberd rushed towards her enemies!

"Azure Dragon Battle Method, Soaring Dragon Nine Heavens!"

When he made his move, Long Chen used his most powerful killing move, of course, the current him did not use the Dragon Soul Transformation skill, but the fighting strength was not just for show. A gigantic green dragon soul, before the Middle-aged Fighter could even react, had already rushed towards him!

"How is such a terrifying and vast attack possible!" He was initially absent-minded, but when Long Chen used her Azure Dragon Battle Method, he was completely stunned. In that moment of life and death, his short and muscular body, immediately formed a fist, and a vast fist turned into a tiger, clashing with Long Chen's Azure Dragon Battle Method!

One was prepared for it, the other was passively defending, and Long Chen's fighting strength was much higher than the other side. Even if he did not transform into the Dragon Soul, his Innate Qi was still four times stronger!

With such a huge difference in strength, in the midst of everyone's shocked cries, Long Chen used a light move and directly sent the middle-aged man flying. A large mouthful of his blood was left in the air.

Without saying a word, Long Chen followed along. He was expressionless, he immediately swung his green dragon halberd and sliced off the neck of his opponent, and immediately, a head flew towards the gathering area of Japanese. The headless body spurting out blood and dropped to the ground!

From the start of the battle to Long Chen killing his opponent, it had only been a few breaths of time!

Whether it was the people of Japanese or the people of Goldfish Island who were still hibernating in the col, all of them were completely dumbstruck when they saw the teenager holding the green dragon halberd in his hand. They knew that Long Chen was strong, but they never thought that he could actually be strong to such an extent.

They were currently fighting with their opponent at death's door, and it would be difficult to determine the victor in a short period of time. Yet, Long Chen had already killed his opponent before Little Wolf could kill his opponent, doesn't that mean that Long Chen was a little stronger than Little Wolf?

To Chen Lei, this was a fantasy. Just a moment ago, he had been ridiculing Long Chen for having a silver spear wax head, but now, it seemed that the silver spear wax head was him.

However, the shock that Long Chen brought to them was far more than just this. Just now when he had killed his opponent, his strength had only been shown. But now, his ruthlessness and decisiveness were vividly displayed!

The people of the Goldfish Island hated the beasts of Japanese to the very end. After hearing about their deeds that beasts had done, Long Chen became even more furious at this group of people who were completely devoid of conscience. So, he followed the heads of the Milky Way Realm warriors and landed in the center of the hundred plus warriors of the Japanese.

Almost all of the practitioners here were from Heavenly Core, and some even had Great Perfection of the Heavenly Core s. However, to the current Long Chen, these were nothing more than cabbages.

Long Chen actually dared to kill an important figure of the Japanese. The eyes of the other Japanese s emitted a blood-red light, and regardless of whether they were in the right or wrong, they charged towards Long Chen.

"Good timing! Save me the trouble of chasing after you one by one!" At this time, Long Chen's eyes were also red from killing!

The green dragon halberd in his hands danced about, he had basically not used his true qi, just the third complete stage of the Thunder Flame Battle Physique was enough to deal with these beasts.

Every time the green dragon halberd danced, it brought about a field of bright red blood flower. Accompanied by a miserable scream of despair, Long Chen was like a wolf that had charged into a flock of sheep as he slaughtered to his heart's content. The people around him grew fewer and fewer, but the corpses piled up on the ground. Very soon, the small piece of land called Goldfish Island became a river of blood.

The bloodthirsty Long Chen, however, was not the least bit interested in the blood, because he found it dirty and smelly.

From the very beginning, the Japanese people's eyes were red with killing intent towards Long Chen, to the last moment when they discovered that the surroundings were filled with corpses, they were terrified and panicked. Some of them even started to flee, but at this time, Long Chen directly rushed onto the ship, waved his green dragon halberd, causing the steel-covered ship to shatter into pieces.

"Bastards! All of you want to escape!" Long Chen used the Nine Dragons Flash, and none of the Japanese s that were fleeing were his match. When the more than a hundred Japanese s all turned into more than a hundred corpses, everyone was dumbfounded.

At this time, Chen Feng and Chen Lei, supported by the Little Wolf, killed their opponents one by one. It could even be said that it was the little wolf that completely killed the three First level of the Milky Way Realm warriors.

After a hundred Japanese, without losing a single soldier or soldier, they were almost completely wiped out by Long Chen and Little Wolf. Hence, looking at Long Chen who was beside the pile of corpses and the mighty black flame demon wolf beside him, everyone swallowed a big mouthful of saliva, their faces filled with shock, and looked at each other in dismay.

He had always thought that Long Chen was useless looking at things, but now, it seemed that he was the one who looked away. This made him feel like his face was burning, and he didn't dare look straight at Long Chen.

Not mentioning Chen Lei, even Chen Feng did not expect that the matter which he had been worrying about for so long, which had almost completely turned his hair white, would be settled by Long Chen so easily today.

Those warriors who were hibernating within the col also stood up one after another. The gazes they used to look at Long Chen with were already filled with reverence.

They had previously expressed their gratitude towards Long Chen's kindness, but now, their image of Long Chen had already been deeply engraved into their souls. His heroic actions today, would be passed down through their mouths, letting their children and grandchildren know that there was once such an expert who had turned the tide and saved Goldfish Island.

The people of Goldfish Island were shocked, but Long Chen did not think much about it. The hundred corpses were extremely inconvenient, so Long Chen turned around and said to Chen Feng: "Elder Chen, you guys think of a way to get rid of these corpses first, it's best if you do not leave any traces behind. You previously said that there are two warriors of the Second Stage of the Milky Way Realm, but now, they have not appeared, so you cannot be happy too early."

Chen Feng had also realized that it was rumored that there were two Second Stage of the Milky Way Realm warriors in a small clan under the command of the Da He Family. If they did not show themselves, it would be impossible for Long Chen to obtain victory so easily.

"Alright, I'll send someone to deal with these corpses." Chen Feng nodded, and immediately called out to the others.

Only then did Long Chen come to Ling Xi's side, and said with a smile: "Xiao Xi, was your Brother Chen powerful?"

"Of course, the Brother Chen is the best, but when it comes to killing people, it is truly scary." With so much blood, Ling Xi's face paled.

"The Japanese are all beasts, not humans." Long Chen laughed.

At this time, Chen Feng had already caught up and said: "Looks like I can't relax. I will continue to send spies to investigate everywhere.

"In their view, there are two Milky Way Realm Warriors in the Goldfish Island. If they send four of them, it should be enough to destroy the Goldfish Island, so there are only two possibilities. First, they will remain in the clan.

Long Chen thought, suddenly, an idea came to him, and he blurted out: "Elder Chen, do you think they would go after the eight claw fire horniness?"

"It's possible?" Chen Feng frowned, the only valuable thing in the Goldfish Island was the eight claw fire horniness that was sleeping in the middle of the mountain.

Just as he finished speaking, the entire Goldfish Island shook, Long Chen immediately looked up and saw the mountain in the middle of the island suddenly erupting, smoke and dust filling the sky as a fiery red Goblin Beast crawled out from it.

#### Chapter 287 - Fighting against Japanese Warriors

The enormous fiery red beast that crawled out from the belly of the mountain was clearly the Earth Grade Three demon beast that was slumbering within, the eight claw fire horniness!

It was originally in deep sleep, but now it released wave after wave of furious roars, shaking the entire Goldfish Island. It was obvious that it was furious!

Vaguely, Long Chen could see two tiny figures beside the eight claw fire horniness attacking.

"These two people must be the warriors from the Japanese s. They actually had plans for this eight claw fire horniness. Two Second Stage of the Milky Way Realm, they actually dared to have plans for a Earth Grade Three demon beast. They really don't know if they're dead or alive." Long Chen squinted and looked in that direction.

"Long Chen, what should we do? Although the old, weak, and children are already hiding, but if they continue to fight like this, it is very likely that it will affect them. Furthermore, it is possible that our entire Goldfish Island will be destroyed by this eight claw fire horniness! " Chen Feng was already

sweating profusely. When Long Chen defeated so many Japanese s with powerful methods, Chen Feng had already treated him as his pillar of support.

"Long Chen, I'll do whatever you say!" Chen Lei was completely convinced of his power.

Long Chen quickly looked at the two of them, and said. "Chen Lei, I'll give you a mission, and then, Little Wolf and I will go there. I can guarantee that I won't let them harm Goldfish Island and the others."

"What mission?" Chen Lei asked quickly.

"Help me protect her." Long Chen pointed at Ling Xi and continued: There isn't much time left, just protect her for me. Although there isn't any danger, but I can't slack off either.

After he finished speaking, Long Chen didn't waste any more words, and directly brought the little wolf towards the mountain peak in the center at full speed.

"Don't worry. Even if I die, I will protect this lady!" Chen Lei said in a clear voice.

He was a man, and the reason he looked down upon Long Chen was purely because of a misunderstanding. Now that Long Chen had displayed his strength, he felt guilty.

Chen Feng looked at Long Chen's leaving figure, sighed, and said, "Miss Ling Xi, looks like your background is really not shallow. Long Chen might be a First level of the Milky Way Realm cultivator, but his fighting strength is still terrifying."

"Brother Chen doesn't have any background. He climbed up one step at a time." Ling Xi explained.

Hearing Long Chen's praise, she had a kind of unexplainable pride in his heart.

"No wonder, no wonder." Chen Feng thought that only those who had crawled up by themselves and gone through many life and death battles, would have such powerful fighting strength and a decisive and ruthless mentality like Long Chen.

"Little Wolf, let's let them fight first. As long as it doesn't affect the island and the underground cave not far away, it would be best if both of them suffer from heavy injuries." Long Chen said in a low voice as he gradually approached.

The wolf cub nodded.

They were hiding in the middle of the formation and outside of the formation, the eight claw fire horniness released waves of angry roars and was fighting with the two Second Stage of the Milky Way Realm Warriors from Japanese. The eight claw fire horniness was very big, its entire body was a mass of red flames, its eight huge claws held a huge force, and the two warriors did not dare to pat him, but relied on their speed, spinning quickly beside him, occasionally releasing an attack, causing the eight claw fire horniness to roar again and again!

Only now did Long Chen clearly see the appearance of the two Japanese s. They were two short and skinny warriors wearing tight leather clothes, completely the attire of assassins. Moreover, in terms of speed and movement techniques, they were extremely extraordinary.

From their figures, it could be seen that these two Japanese s were a man and a woman. From the huge surging waves on the woman's chest, it could be seen that the appearance of these two people were superior to that of ordinary Japanese s.

These two Japanese s were like two annoying flies beside the eight claw fire horniness, making it difficult for the eight claw fire horniness to hit them.

"Their weapons are not bad." Long Chen looked carefully, and saw that the two people were holding dark blue daggers in their hands, wielding them up and down, and occasionally leaving wounds on the eight claw fire horniness's body.

This dagger should also have the quality of an Earth Stage Low Rank weapon.

Speed and agility, in addition to low-grade earth-step weapons, were the basics to how they dealt with eight claw fire horniness. However, Long Chen reckoned that since the eight claw fire horniness was a Spirit Demon beast from Earth Grade Three, they would not be easy to deal with.

Sure enough, the numerous wounds thoroughly angered the eight claw fire horniness. It opened its mouth and spat out a scarlet flame that shot towards the two Japanese s. Within the flames, there was even scarlet magma!

eight claw fire horniness existed in the magma, so it was normal for them to attack.

"This eight claw fire horniness, is probably not young anymore. After so many years, it must have absorbed a large amount of fire essence from its Inner Core. After being injured in Burning Sky Secret Realm, its power has dropped by a level, and this Spirit Demon Core can probably help the wolf cub take another step."

When Long Chen came to the Goldfish Island, he had his thoughts on the eight claw fire horniness, he would definitely not allow the eight claw fire horniness to be killed by others.

Ever since the eight claw fire horniness used fire and other methods, the fighting level had increased. Fortunately, they were fighting right here and did not move, so the people in the underground cave not far away would not be in much danger.

"Honest Chen is overthinking it. In that case, I shall wait for them to determine the victor before sitting down and reaping the rewards." Long Chen thought in his heart.

The battle of Milky Way Realm caused the earth to quake and the mountains to tremble. Although Long Chen did not directly participate in the battle, he could still feel that both sides were extraordinary. Needless to say, eight claw fire horninesses were the nemesis of the beasts with their Earth Grade Three, and those two Japanese people, with their movement techniques and speed at their disposal, coupled with the sharp weapons in their hands, were the nemesis of beasts like the eight claw fire horniness.

Because it could not hit the opponent at all, the eight claw fire horniness released waves of furious roars!

Just at this moment, it gave up on attacking the two of them, and directly clashed against the big-chested woman's attack. It opened up its eight claws, and with its method of fighting to the death, it received a good result, the man was unable to dodge all eight of the strong claws. He was slapped by one of the claws, causing him to fly backwards as he spat out a mouthful of blood!

The lady shouted in a strange language, the dagger in her hand left a few marks on the back of the eight claw fire horniness, and at this time, the eight claw fire horniness had already specially dealt with her, causing her to feel extremely dangerous.

"These two Japanese are done for." From the fact that the man was injured, Long Chen could tell that their advantage lay in their speed and teamwork. Unfortunately, the eight claw fire horniness was not stupid, and had broken their teamwork.

The eight claw fire horniness was moving crazily, and the ground was shaking.

Right at this moment, Long Chen suddenly heard a scream. He was startled and immediately turned towards the direction of the scream, only to see a little girl crawling out of the cove not far away.

This girl was small fish.

"Damn it!" Long Chen knew that the small fish that was inside the cave was definitely because of the disturbance outside. He wanted to see what was inside, but when she saw the eight claw fire horniness's gigantic body, she was completely terrified.

When it attacked the Japanese, it had already noticed the small fish. In its eyes, this kind of little guy was the most terrifying of creatures, so it directly spat out a mouthful of flames, which swept towards the small fish. If it was hit, the small fish would definitely die!

At this time, Long Chen could no longer hide anything, he immediately jumped out of the forest and rushed towards the small fish, grabbing onto him before the flames could reach him, he soared into the sky and bypassed the flames.

"Immediately, go back and stay here!" "Otherwise, I will beat you to death!" Long Chen's vicious expression almost made small fish cry, but he knew that Long Chen had saved her. In front of such a terrifying demon beast, she naturally did not dare to stay, and quickly returned.

However, Long Chen and Little Wolf were exposed.

When he was attacking the Japanese woman with all of his strength, the eight claw fire horniness had already noticed Long Chen and the little wolf.

Compared to the two Japanese s, the eight claw fire horniness felt that these two people seemed to be more of a threat to it.

From the eight claw fire horniness's point of view, everyone looked the same. They were all in the same group, and Long Chen's appearance of the two made him immediately give up on his opponent.

The Japanese girl heaved a sigh of relief and immediately rushed towards the man who seemed to be heavily injured. If Long Chen was going to deal with the eight claw fire horniness, the situation would turn around.

Of course, Long Chen would not let this happen.

"Little Wolf, how long can you last in front of this eight claw fire horniness?" Long Chen asked.

Long Chen knew what he meant. He seemed to think that he should be at the same level as the eight claw fire horniness.

The little wolf was only bragging, so Long Chen believed it.

"I'll deal with the eight claw fire horniness for you. I'll kill this woman first, then focus on helping you." After saying that, Long Chen surprisingly went to stop the Japanese woman! On the other hand, Mo Xiaolang changed into his battle form. Although the Sun Devouring Demonic Wolf was not as strong as the eight claw fire horniness, its power was not weaker than the eight claw fire horniness at all!

"Who is it?" When she saw that Long Chen did not go to deal with the eight claw fire horniness but stopped her, the Japanese lady said cautiously. Seeing that Long Chen only had First level of the Milky Way Realm, she heaved a sigh of relief.

"The person who will take your life." Long Chen said indifferently. In the process of speaking, he took out the green dragon halberd, and even completed the Dragonsoul Transformation. The fine and dense red scales quickly covered his entire body, and at that moment, Long Chen was like a blood colored battle machine.

"A mere First level of the Milky Way Realm dares to take my life?" The Japanese girl smiled coquettishly.

"I have already taken the lives of all the people from your Japanese, what do you think?" Long Chen laughed.

Hearing this news, the other party's gaze instantly darkened.

"Truly courting death!" After she finished speaking, she suddenly rushed towards Long Chen!

## Chapter 288 - To the West

Long Chen's movement technique was still the high level Profound Ranked Primordial Dragon Nine Flashes, and according to Long Chen's estimation, the movement technique of the Volkswagen women should be an early stage Earth Ranked.

However, Long Chen had already reached the acme level in using the [True Dragon Nine Flashes]. When he used this movement technique, he was not weaker than his opponent, and in terms of speed, he was even stronger.

Seeing that, the Volkswagen women with his fat buttocks said in shock: "A mere First level of the Milky Way Realm can use the movement technique to this extent? How is this possible? Is this not a talent that only my Japanese can possess? "

"What kind of dog stuff is the Japanese?" sneered. Right now, the little wolf was already fighting with the eight claw fire horniness, in order to free up time to deal with the eight claw fire horniness, Long Chen was too lazy to waste on this woman.

With the Dragon Soul Transformation skill and the green dragon halberd, Long Chen's attack power had already surpassed his opponent's.

"Your halberd should be a divine weapon from Earth Stage Medium, right?" When his own dagger was actually deflected by Long Chen, Volkswagen women stared fixedly at Long Chen's green dragon halberd, his eyes filled with greed.

Long Chen knew that this pair of Japanese men and women had to die. Otherwise, this would bring trouble to the Goldfish Island sooner or later.

"Azure Dragon Battle Method, Dragon Battle Star Field!"

When he used this low-grade Earth Rank combat skill, countless of battle skills shot towards the Japanese woman. When the Volkswagen women saw that Long Chen had such a strong First level of the Milky Way Realm and could even use such a powerful attack, he had long treated Long Chen as an equal opponent.

"Secret technique, Sun Thrust!" Without hesitation, the dark green dagger in Volkswagen women's hand spun rapidly, and a blazing cold ray pierced towards Long Chen's forehead. At the same time, her footwork also rapidly changed!

Using a small trick to get rid of Long Chen's halberd, she was indeed very clever, but Long Chen wouldn't let her do as she pleased.

From Volkswagen women's point of view, Long Chen used a long weapon like the halberd, but she used a short weapon, so as long as Long Chen let her near, Long Chen would be done for.

The power of the Dragon Battle Star Field and the attacks of the Volkswagen women missed its target crazily, because of the two parties' movement techniques, and did not successfully attack the other party. However, the Volkswagen women took this opportunity to stick to Long Chen's side, and laughed coldly, his dagger piercing towards Long Chen's waist crazily!

Long Chen could obviously feel that sharp aura, and without saying a word, he let go of one of his hands. In an instant, a shining Spirit Devil Sword Finger appeared, and that resplendent sword light not only blocked Volkswagen women's stab, it even forced him away!

Long Chen was unforgiving, with a few quick attacks from Spirit Devil Sword Finger s, forced Volkswagen women to retreat. When Volkswagen women finally regained her senses and forcefully broke through one of Long Chen's Spirit Devil Sword Finger, Long Chen's cold laughter had already reached her ears!

"Azure Dragon Battle Skill, Soaring Dragon Nine Heavens!"

Relying on his First level of the Milky Way Realm's strength, Long Chen forcefully used her Earth Stage Medium's battle skill. However, he was able to completely unleash the battle skill's power, causing the sky to change color, and the crazy green dragon soul, carrying the power of the heaven and earth, pounced towards Volkswagen women!

Looking at such a powerful attack, Volkswagen women was about to lose all hope. While frantically using her movement technique to escape, she also used her skills to resist Long Chen's Soaring Dragon Nine Heavens!

Suddenly, an idea came to her mind and she pulled open the hem of her clothes. Immediately, a pair of gigantic existences leapt out with surging waves, almost blinding Long Chen's eyes.

She ripped open the hem of her clothes and immediately put on a pitiful look, wanting to use this signal to beg for mercy from Long Chen.

"Lust?" Long Chen was a little speechless, although the thing in front of him was the most enticing thing he had ever encountered, it was mostly lost in front of Ling Xi's beauty. Long Chen looked at her body and felt nauseous, his hands did not stop moving at all and the violent green dragon halberd directly pierced into her body, destroying her pair of treasures completely. At the same time, the immense energy of the Soaring Dragon Nine Heavens directly took her life.

"Isn't he a man?" This was Volkswagen women's only thought before his death.

As far as she was concerned, as long as it was a man, they wouldn't be able to do anything under such extreme temptation.

Indeed, there were not many people who could be ruthless to the most beautiful thing in the world, yet it was just this Long Chen. He was now guarding Ling Xi beside him every single day, and after seeing Ling Xi's shaming holiness, all of the other women were no different from a pile of feces in his eyes.

After getting rid of the Volkswagen women, Long Chen did not stop at all. He turned his halberd around and headed towards the direction of the eight claw fire horniness, at this time, the fight between the Sun Devouring Demonic Wolf s had already reached its day state!

Even though that Volkswagen women from before was called a Second Stage of the Milky Way Realm, his actual combat strength was not at the level of a Primordial Emperor. If Long Chen could kill even a Primordial Emperor, then that would naturally not be a problem.

At this time, neither Long Chen nor the wolf cub saw that the man who was just injured by the eight claw fire horniness was actually able to get up. He looked at the woman's corpse, hatred and hatred surging within her eyes.

Long Chen had just said a few words to the Volkswagen women, allowing this man to hear it too. From this, he knew that Long Chen had already killed off the convoy from his family, and his current goal was to rush over to take a look. Maybe he could even kill someone to avenge today!

Long Chen and the little wolf were currently focused on dealing with the eight claw fire horniness. After experiencing so many battles, the eight claw fire horniness was now at the end of its tether.

"Devouring Blood Realm!" Under the cover of the little wolf, Long Chen used this killing move!

This ability could be said to be the best combination between him and the wolf cub. After Long Chen unleashed the Devouring Blood Realm, the wolf cub was not affected at all, which allowed him to display an even greater advantage!

The eight claw fire horniness was a demon beast from the Earth Grade Three, so normally, Long Chen's Devouring Blood Realm would not be particularly useful to it, at most, it would only be used to block its movements. However, during the battle with the Japanese's warriors, the eight claw fire horniness had already suffered superficial wounds, and during the battle with the Sun Devouring Demonic Wolf, it had been injured quite a bit!

These wounds were all over its body, and the blood that it had lost during this period of time, under the Devouring Blood Realm's help, flowed towards Long Chen and gathered around him. Although it wasn't much, it was certain that the eight claw fire horniness would die if it continued on for long!

Roar!

The eight claw fire horniness let out an angry roar. It felt that its blood was actually decreasing, it had already become crazy, its eyes were filled with a dense color of blood, and its eight huge claws were dancing frantically. It did not hit anything, but it still caused the ground to crack and crack!

"Little Wolf, this is a good opportunity!"

Long Chen called out.

When the wolf cub heard this, without saying a word, he rushed to a place where a eight claw fire horniness could not be seen. He opened his mouth to spit out, and suddenly, a jet black flame instantly pounced onto the back of the eight claw fire horniness!

The Nefarious Spectral Demon Ancestral Fire directly left a huge pit on the back of the eight claw fire horniness. The flesh and blood within it completely turned into black ice, and then shattered!

Of course, the eight claw fire horniness could not survive this. Very soon, its eyes dimmed as it fell to the ground, smashing into a cloud of smoke and dust!

In fact, the most fatal part of his body was his head, but the little wolf actually spat out the Nether Demon Ancestral Fire onto the back of the eight claw fire horniness. That was because the eight claw fire horniness's beast core was in his head, so the little wolf needed it.

Losing almost a tenth of the beast blood essence, this made Long Chen's heart ache. He was currently in the First level of the Milky Way Realm, and this demon beast in the Earth Grade Three was far stronger than his true qi. It was very possible that it could bring Long Chen's cultivation direction in the Milky Way Realm to an even closer level!

"Damn, this eight claw fire horniness is really hard to deal with, but the good things it has on it will belong to us brothers." Long Chen was preparing to give the Goblin Pellet to the little wolf in exchange for using Blood Refinement Qi himself. At this moment, he acutely sensed that there were some movements in the east.

That was Ling Xi's direction.

Long Chen's nerves instantly tensed up, he scanned his surroundings, and sure enough, he saw that the man from Japanese who was previously injured by the eight claw fire horniness was no longer there. Long Chen immediately had a bad premonition, and that the man from Japanese, was definitely heading towards Ling Xi's direction!

Long Chen and Chen Lei were probably not his match. Long Chen was so scared that he quivered, and didn't even bother to refine his Blood Qi. He did not even bother to call out the Little Wolf as he exploded his fastest speed possible and crazily rushed towards Ling Xi's direction!

"Xiao Xi!"

Long Chen's eyes gradually suffused with a hint of blood. It was his negligence this time, and if something were to happen to Ling Xi, no matter what, he would never forgive himself!

The wind in his ears crazily rushed over, causing Long Chen's heart to be incomparably angry. However, when he felt that the little wolf was already chasing him, he felt much better.

The wolf cub didn't even know what was happening and directly put down the eight claw fire horniness's corpse. It could be seen how important Long Chen was in his heart.

During this journey, Long Chen had not even taken thirty breaths of time, and quickly, he had rushed back to his own place. He was shocked to see that Chen Feng was already injured, and with the support of the Goldfish Island Warriors, barely able to stand, while Chen Lei was firmly blocking in front of Ling Xi, suffering from the attacks of the Second Stage of the Milky Way Realm Warriors. Because of a single word from Long Chen, he did not retreat even half a step!

As for the man from the Japanese who was attacking, she looked at the beautiful Ling Xi with blazing eyes. A beauty like Ling Xi was already enough to make him completely forget her goal this time.

At this time, Long Chen and the little wolf rushed back.

"A piece of trash wants to block me!" The last move, I'll send you back to the West! " The Japanese man's dagger slashed across Chen Lei's neck.

#### Chapter 289 - The Merak River

This was the last time, and Chen Lei was unable to dodge it. Helpless, he could only close his eyes and wait for death.

At this moment, he really didn't know how to describe his feelings. When he knew that his opinion of Long Chen was merely his own vile heart, he would always feel guilty facing Long Chen.

He wanted to do something for Long Chen and prove that he was also a man. Hence, because of Long Chen's words, he risked his life to protect Ling Xi. However, even though it was an injured Second Stage of the Milky Way Realm, he discovered that he was completely unable to resist it.

In these past few days, Chen Lei also knew that Long Chen and Ling Xi's relationship was very deep. If Ling Xi were to be kidnapped by this beast, not to mention Long Chen, even he would not be able to accept it.

However ...

Chen Lei sighed in his heart. He knew that as long as he died, this would happen for real.

He could already feel that the other party's dagger was already close to his neck. The shadow of death enveloped him as Chen Lei felt his scalp go numb.

A whooshing sound was heard.

Time seemed to stand still in this place, Chen Lei was shocked, he realized that he was not dead yet, when he opened his eyes, there was a headless body in front of him, and this headless body had a dagger in its hand, aimed at his neck, just a little bit away from piercing through, and took Chen Lei's life.

Chen Lei found the wide-eyed man's head nearby. What he could see was that this guy didn't know why he died either.

In fact, as he was about to obtain Ling Xi, when he was agitated and met the furious Long Chen, this would be the result. Long Chen directly used the green dragon halberd to chop off his head from behind.

"Who killed him?" What he saw was that Ling Xi had already been embraced tightly by a young man. This man was holding onto a long green halberd, and now that the tip of the halberd was pressed against the ground, the bright red blood that flowed out of the tip of the halberd instantly flowed onto the ground.

"Long Chen" Chen Lei felt his mouth go a little dry.

"Brother Chen Lei, thank you this time. If not for you, I would have been late. I have to say, you are a true man!" Long Chen withdrew his green dragon halberd, patted Ling Xi's shoulders to comfort her, and then said to Chen Lei.

"Man?" "Of course." Chen Lei was a little embarrassed as he touched the back of his head.

At this time, the Japanese man's body fell to the ground.

The body of the eight claw fire horniness with the spoils of war was still lying on the island. Long Chen held Ling Xi up by the waist and then said to Chen Lei: "You are all injured, take good care of yourselves. The others, take care of these corpses. Let's go collect our spoils of war now. "

After he finished speaking, Long Chen didn't say a word as he carried Ling Xi and the little wolf and returned to the center of the island.

Chen Feng and Chen Lei looked at each other, noticing the shock in each other's eyes.

To them, Long Chen was like a miracle. In this battle against the Goldfish Island, if not for the appearance of Long Chen, the Goldfish Island would have been finished for sure. Even if the Japanese did not destroy the Goldfish Island, the eight claw fire horniness would have destroyed the Goldfish Island instead.

In fact, it was Long Chen who destroyed the eight claw fire horniness and Japanese.

eight claw fire horniness was a beast of the Earth Grade Three. It had died in the hands of Long Chen and the little wolf, how heaven defying must this youth be to be able to do such a thing?

"Lei'er, this time, I've finally seen a true genius. Genius, talent, nature and luck are all indispensable, and Long Chen is obviously such a genius. "

Chen Feng sighed with heartfelt emotion.

"Brother Chen, to be honest, I was very scared just now," Ling Xi said as he nestled in Long Chen's embrace very naturally.

"You used a Herba Euphorbiae, you seem to have become a lot more timid." Long Chen said.

"Mn, when I was still in my soul state, I still had a bit of attack power, and hiding inside Ling Xi's sword, no one could touch me. But now it's different, this feeling of not having any power, makes me feel insecure," Ling Xi said worriedly.

"It's fine, I will pay more attention in the future. Before we find the Nine Celestial Spirit Fruit, you will be very safe. I promise, even if I have to risk my life, you will definitely be safe." Long Chen said firmly.

"Why are you so good to me?" Ling Xi's eyes filled with hot tears.

"Because you're my Ling Xi." Long Chen laughed sinisterly.

Ling Xi, who was being hugged, extended her pure white arms and tightly hugged onto Long Chen's neck, burying her head in Long Chen's embrace. Where Long Chen could not see, her eyes were filled with worry, worry for her future.

"How much longer can I carry you like this, Brother Chen?" Ling Xi bit her pink lips and thought.

Finally returning to the center of the island, when the eight claw fire horniness's corpse was still there, the wolf cub came back first and took the beast core in his mouth. Long Chen only saw a fist-sized red ball of fire being swallowed by the little wolf, which was about the size of a fist. The beast cub cried out towards Long Chen, then found a place to refine it.

Due to the delay, some of the beast blood had flowed out from the eight claw fire horniness's body. This time, the beast blood from Earth Grade Three was a good opportunity. Long Chen placed Ling Xi to the side and said: "I will refine this beast blood for you. Only by becoming stronger will I be able to protect you."

To be honest, this sacred art of Blood Refinement was very bloody and terrifying. Ling Xi could not bear to watch, so she found a place to sit.

After using Blood Refinement Qi, Long Chen quickly swallowed the eight claw fire horniness's beast blood. What surprised him was that the eight claw fire horniness's blood essence was especially abundant, and what he had lost just now were mostly ordinary blood. The true essence was still in the eight claw fire horniness's body.

This huge amount of blood helped Long Chen to condense the star river in his second star vein. Because the Star River that condensed the First level of the Milky Way Realm, it was turned into the Heavenly Axis Realm, and the Star River that Long Chen had begun to condense became the Star River of Merak. The Second Stage of the Milky Way Realm was also known as the Merak Realm. Dongfang Tianxuan's name, was precisely given from this Merak Star.

A huge amount of blood Qi had turned into Long Chen's true qi and gathered in the Merak Star Vein, which had yet to condense into a river of stars. Long Chen began to use his Star Guiding Art to communicate with the formed power of the Heavenly Jade River.

There were a total of two galaxies, one during the day and one at night. It was still daytime now, so Long Chen had condensed the Yang Tianhe.

In the sky, under the light of the sun, the somewhat obscure power of the stars was thrown into Long Chen's body. This Xuan Star River was only a primer. What was truly needed to provide Long Chen with enough strength to break through his Second Stage of the Milky Way Realm was the Tianhe Dan.

In order to help with the Blood Refinement Qi and quickly absorb enough star energy to improve, Long Chen had no choice but to go all out. He had a total of more than two thousand Tianhe Dan, and when he was condensing the eighteen star veins before, he had already used two hundred of them.

In Long Chen's opinion, all the money was spent on cultivation, so he did not hesitate and directly took out ten Tianhe Dan and stuffed them into his mouth.

Others who trained in Milky Way Realm would have to relax because Tianhe Dan s were limited. On the other hand, Long Chen who was rich and imposing, eating her own Tianhe Dan was no different from eating beans. Although it was going to happen violently, it would take time to slowly cultivate and increase in strength. It did not really matter, as Long Chen was able to directly obtain energy from the Tianhe Dan.

Due to the inheritance of blood essence, his body had a miraculous effect that ordinary people could not imagine. Long Chen felt that his body was like a bottomless pit, feeling that he had a huge stomach. No matter how much he ate, he wouldn't be able to hold on.

To his stomach, the food Long Chen ate was simply too little.

Under the supply of large amounts of blood energy and huge amounts of Tianhe Dan s, Long Chen's strength gradually increased, and the true energy that filled his entire body, gradually gathered with the formed energy, and transformed into liquid galaxies of true energy, slowly fusing into the Merak Star Meridian, and forming the resplendent Merak Star.

After an hour, Long Chen had condensed the third star vein. His overall strength, had already stepped half a step into the Second Stage of the Milky Way Realm. As long as he completed another piece of the Profound Sky Star Vein, Long Chen would be able to truly step into the Second Stage of the Milky Way Realm.

However, at this time, the eight claw fire horniness's blood energy had already been completely used up, and almost a hundred of them had also been used up. If he wanted to condense the other star, he would probably need some time.

However, even though he had stepped into the Second Stage of the Milky Way Realm, Long Chen's current strength had increased by a lot.

After Long Chen succeeded, he saw that the Little Wolf was right beside him.

"You have finally returned to the Earth Grade Three?" Long Chen said in pleasant surprise.

The wolf cub nodded, the feeling of having more power made him especially happy.

Because of the eight claw fire horniness, the strength of the two brothers had increased a little.

"Since I've already delayed here for a while, I might as well delay for a few more days. I'll leave after I truly step into the Second Stage of the Milky Way Realm. Furthermore, in the next few days, I will be able to find some time to carefully study the divine fire clone. "

Long Chen decided.

With the existence of Ling Xi right now, he could also exchange some of her thoughts with Long Chen.

The days passed peacefully like this, and the people of Goldfish Island regained their calm lives. small fish played with Long Chen and the others all day.

On the tenth night after Long Chen had ascended to the Sky River, he finally used the Tianhe Dan s as well as his ten days of painstaking cultivation to form the Merak Star s Domain within his fourth star vein, and truly stepped into the Second Stage of the Milky Way Realm.

The next day, Long Chen and the little wolf was ready to leave the place.

He still had to challenge the Biyang Royal City.

## Chapter 290 - The City Gate Incident

After bidding farewell to the citizens of the Goldfish Island, Long Chen took Ling Xi and the little wolf and stepped onto the road that led to the Biyang Royal City. In front of this huge city, Long Chen was like a tiny ant, or a small stone thrown into the ocean.

As he sat on the wolf cub's back with Ling Xi, the wolf cub's speed was extremely quick. Before long, Long Chen had already seen the city lying across the horizon from afar. This enormous city looked to be at least ten times bigger than the Source Spirit City.

It was this city that separated the heaven and earth.

The closer they got, the larger and larger the city became. In front of this enormous monster, Long Chen was no different from an ant.

In front of this huge city, there were many people riding demon beasts, but the Sun Devouring Demonic Wolf was a little special, because she was worried that it would cause unnecessary trouble, Long Chen made the little wolf withdraw from her fighting state and followed behind him. As for Ling Xi's peerless beauty, it would also make Long Chen look especially bad, thus she took out his cape and let Ling Xi bring it.

"As long as we enter the city and find the Ninth Prince, there shouldn't be any unnecessary troubles." Long Chen thought.

Since the Ninth Prince was not here, he did not have any status in the Biyang Royal City. Although Long Chen could not see through the Ninth Prince, and estimated that he would not sincerely make friends with Long Chen, Long Chen still had to rely on him to enter the Inverse Wonderland.

Only after he made sufficient preparations did Long Chen begin the process.

This was the southern gate of the Biyang Royal City, although it was not the largest city gate, but its size was still something the Source Spirit City could not compare to. From all directions, people came and went into the city and left, Long Chen stood on one of the wide public roads and walked forward, looking ahead, there were no less than ten public roads, and the closer they got to the Biyang Royal City, the more human and beasts' property they had.

Holding Ling Xi's hand, Long Chen followed the crowd and almost reached the city gate. As long as he passed through this gate, he would think of a way to determine the Ninth Prince's whereabouts.

"You two, stop!" Just at this time, one of the guards called out to Long Chen and his group.

Outside of the Biyang Royal City stood rows upon rows of soldiers, all looking to be over a thousand soldiers. Judging from the appearance of the person speaking, he should be a small officer like the centurion, with a fierce-looking face, thick muscles and black stubble covering half of her face.

"I wonder what is the matter, my lord?" Long Chen pulled Ling Xi to his side, and with an indifferent expression, he looked at the little officer who stopped him and asked.

"This woman is wearing a cloak. There must be something that cannot be revealed. I have to check it before I can let her in!" The officer saw that Long Chen was just a yellow haired boy, after saying that, he immediately stepped forward, and without caring if Long Chen agreed or not, he directly lifted Ling Xi's cloak.

Long Chen protected Ling Xi next to him, and looked at the officer with his sharp eyes. He did not want to fight with the officer, but since the officer was so aggressive, he had no choice but to fight back.

"What are you doing?" "And rebellion?" Seeing that Long Chen actually dared to disobey, the officer looked at Long Chen in surprise, his tone gradually becoming colder.

"Lord, you're being too serious. From what I see, there are a lot of people who don't reveal their true colors. Why are they only targeting us?" Long Chen said in a neither humble nor arrogant manner.

These city guards had at least the strength of Divine Pill Realm. Although this little officer's rank wasn't high, he still had the strength of Heavenly Core. Furthermore, behind them was the entire Biyang Royal City's army. It was really unwise for Long Chen to clash with him, but he was also not someone to be easily bullied.

At this moment, many people had already seen the conflict. Some people who loved to watch the commotion did not bother entering the city and started pointing.

In fact, there was a reason why this officer was targeting him. Although Ling Xi was wearing a cape, he was curvaceous. Judging from the contours of the cape, he must be a rare beauty. Seeing that, the

officer was moved, and then he spoke to stop Long Chen. All for the sake of giving Long Chen a hat, and then openly abducting Ling Xi.

This wasn't the first time they had done this.

Of course, it was not the first time for the people who stayed in Biyang Royal City to see these officers acting so recklessly. They could guess that the reason for Long Chen's death was because he had been killed, his corpse buried, and Ling Xi had become a toy of the officers. If he was really too beautiful, he would have been offered to the higher ups by these young officers. In this way, officers could be rewarded, or even promoted.

Within the imperial city, even if it were the three great families, they would still be running errands for the imperial family. As for the army of the Biyang Royal City, they were the direct descendant of the imperial family, so if one did not have enough power and backing, who would dare to mess with these tyrannical soldiers?

Long Chen was not an idiot. He could differentiate the rules just by thinking about it. The army belonged to the imperial family, but Long Chen was still the fairyland godly guard that the Ninth Prince had personally recruited. Why should he be afraid of these people?

At this time, the black-bearded officer saw that Long Chen, this rash youth, actually did not understand. He originally wanted to give this brat a way out, but he did not expect Long Chen to court death. He sneered and called out to everyone: "Men, I have already investigated thoroughly, this man is a disciple of the Demonic Palace.

"Yes, centurion!"

With his words, the soldiers who were ready to move immediately shouted and charged towards Long Chen. To help the centurion in this matter, they would also be able to obtain benefits.

The centurion had over a hundred soldiers under his command, and these hundred soldiers were currently surrounding Long Chen. With so many Divine Pill Realm, the combination of all of them was not a small amount of strength.

Without saying a word, Long Chen let Ling Xi stay where he was, protected by the little wolf by his side, and then, like a sword, he stabbed straight into the crowd.

"They actually dare to attack?" The bearded officer laughed and was just about to watch Long Chen make a fool of himself, but when he saw the soldiers fall one by one screaming in pain, his smile froze.

A hundred soldiers fell to the ground in less than a quarter of an hour. Not only the officer, even the others were stunned by what they saw, as they started to re-evaluate Long Chen.

"So this young man actually has some guts and strength. I guess he also has some background." However, if he provoked the Imperial Guard Army this time, he would probably suffer greatly. In this day and age, you can't fight with the Guard of the Imperial City no matter who you fight with. "

"That's true. Last time, there was a Milky Way Realm warrior who fought with the Imperial Guard Army here. Wasn't he directly killed by the Guard's commander?"

Long Chen knew that in this Biyang Royal City, Milky Way Realm was the highest level of power and it might even have power above the Milky Way Realm. However, there were also quite a few warriors with Divine Pill Realm.

There were simply too many people in the Biyang Royal City, almost ten times the number of people in the Source Spirit City. Furthermore, this place was where the experts from the Canyang Kingdom gathered.

He realized that Long Chen's fighting strength had surpassed his, but he was not afraid. No matter how strong he was, many of them died to him, so he quickly took out a horn and blew it fiercely. A wave of a desolate voice immediately rushed up to Yun Xiao.

"Should I call out the bigger officials?" This suited Long Chen's intentions, but, the reason Long Chen dared to take action, was because he wanted to shout out the existence of a higher level. However, this fellow had caused him so much trouble, and it seemed as though he had harmed quite a few people.

His eyes turned cold. When the other party had blown the horn, Long Chen had directly used a Spirit Devil Sword Finger to stab through his chest.

The horn fell to the ground.

He wanted to know whether the person who killed him was Long Chen or not, but he did not have that chance. He did not even have the chance to see Long Chen's shadow, and had already collapsed onto the ground, stirring up a thick cloud of smoke and dust.

He never thought that Long Chen would actually dare to kill him in this place. He had done many things like this today, but most of them had been successful. Even if he hadn't succeeded, the commanders that had taken advantage of him would have protected him. But this time, even before the commander was called out, he was already done for.

Long Chen had injured Guard, but not killed him. Everyone thought that he was someone who knew his limits, but after that, Long Chen had directly killed the Hu Chi with his own words, shocking everyone.

As far as they were concerned, daring to assault and slay an officer of the Imperial City at the entrance to the Imperial City was no different from a crime of conspiracy. Like this, even if Long Chen had a huge power behind him, no matter how strong he was, he would still die.

Basically, everyone in the city was looking at the young man who still had an indifferent expression even though he had killed someone.

With his death, the other centurions realised the importance of the situation and immediately gathered their men to surround Long Chen and Ling Xi. However, the real leader had not come, so they did not dare take action.

Over a thousand city guards stared at Long Chen like tigers stalking their prey.

Right at this moment, a shadow rapidly descended from above the city wall. With a loud bang, the shadow fell to the ground, landing on both legs before steadily coming to a stop.

This was a middle-aged martial artist. He wore a thick set of armor and wore shiny black military boots. This man was handsome and quite charming.

"This subordinate pays his respects to Lord Seventh Commander!"

Thousands of soldiers knelt before him.

"What happened?" This Seventh Commander's gaze turned between Long Chen and the bearded officer. What happened here had already affected the flow of traffic within and out of the Imperial City, so he had to swiftly resolve it.

Returning to the Seventh Commander, this man is a disciple of Demonic Palace that Liu Heng had found out, Liu Heng originally wanted to take him down, but was killed by him instead.
