

War God 2971

Chapter 2971 - Desolation Lord

The battle had ended.

For all the barbarians, no one could defeat their opponent even if they used the Pangu's Clone. However, no one had ever broken the Pangu's Clone.

At the very last moment, Man Ji felt Long Chen's heaven defying change of fate. This rule had forcefully changed him from the state where he had been possessed.

"Although I am not able to defeat you in your strongest state, it is still a skill for you to break the Pangu's Possession of the Goliath race. I've lost to you in battle. From today onwards, you are number 33 on the Divine Emperor's leaderboard. "

Man Ji could be considered to have walked out at the moment of his death, and with his hands cupped together, he said solemnly to Long Chen.

This way, he would not expel Long Chen from the Pangu Continent.

Man Ji scratched his head and looked around. Actually, he knew that there were many people hiding in the darkness watching the battle, so news of what had happened would quickly spread out.

"I'm so sorry, I was too busy challenging you, but I didn't expect that you would actually hide from me. Now that your whereabouts have been exposed, I'm afraid that Di Jun will catch up very soon." You'll be in danger. After all, I am the number one ranker on the Divine Emperor and the number one Divine Emperor in all of the realms. and he had even fought against the Tianyin Region Lord before. "

Long Chen said: "This is unavoidable, it has nothing to do with you. Brother Man Ji, if there's nothing else. I'll be leaving first. "

Man Ji was still apologetic in his heart. He thought for a while and said: "Since you have defeated me, I will respect you and take you as my, Man Ji's, brother. My Quipah tribe is nearby, and I don't know if

you can help me. Come to my Quipah tribe, I have to think of a way to help you avoid Di Jun's chase, or else I will feel bad. "

"You can use this Man Ji to ask about the Living Realm more carefully. He should belong to the 'Desolation', and it would be convenient for you to travel the Pangu Continent if you have a good relationship with him. "

Although Long Chen didn't know what Desolation Yuhua was talking about, he still trusted her. Thinking about it carefully, Yuhua wasn't someone from the Pangu Continent, so some things could only be done by relying on the barbarian race to speak up in their territory.

"Sure, I've just arrived. Coincidentally, I have some matters that I would like to discuss with you."

Long Chen readily agreed.

"This brother is truly a straightforward person. Please follow me to my Quipah tribe! "

To be able to invite Long Chen, Man Ji was very excited. The barbarians respected the strong. They respected the strong. All the strong warriors had the responsibility to protect all the living beings.

Following Man Ji, Long Chen advanced once again. The direction that the Quipah tribe was heading in was the same as the one he was heading in before.

Along the way, the two of them chatted happily.

Man Ji said: "That Divine Emperor Di Jun is really lingering like a ghost. It is said that he has been chasing and chasing after you for a long time, and it is said that you killed his daughter, and he is chasing and killing you for revenge. However, I, Man Ji, have always been accurate in my judgement. Brother Long Chen is a righteous man, even if I were to kill my opponent, there would probably be a reason. "

God is indeed wise, and no one knows that his true purpose is the Dragon Palace.

As far as he was concerned, it was something that originally belonged to him.

It didn't take long for the Quipah tribe to arrive. This was a large tribe with hundreds of millions of barbarians living here, living creatures and deities mixed together, there wasn't much of a difference. Man Ji was the leader of this Quipah tribe.

In Quipah tribe, Long Chen received the greatest amount of respect.

Coming here, Man Ji set up a banquet to treat Long Chen to a private banquet.

"I'm thinking of a way to let you hide from Di Jun, but I don't know, if I bring you into the 'Pangu's heart', will the Pope protect you, after all, his opponent is a Quasi-Divine level expert. We need the Sect Leader to step out and suppress them. "

"Sect Leader?"

Could that be how they call Ancient God of the Wilderness?

Seeing that Long Chen did not understand much, Man Ji introduced him to her excitedly: "Our Desolation is the strongest power in the Pangu Continent. We control over seventy percent of the land in the Pangu Continent. There was still more than eighty percent of the barbarians. The creator of the Desolation is our Pangu Continent's number one god, also the Western Star Domain's number one god. This was why the Desolation was one of the top powers in the entire Ten Thousand Worlds. However, the Ancient God of the Wilderness had long transcended the world and there were very few roads. The Desolation has always been under the command of the Ancient God's disciple, Goddess of Desolation, and outsiders call him the Desolation's Lord. "

"So that's how it is."

In fact, it was Long Chen's first time leaving the Ten Thousand Worlds. Otherwise, he would have known about this long ago.

"And the Pangu's heart is the highest ranked holy land of our Desolation. Generally speaking, the Sect Leader and the Heavenly Divine Emperor s are all in this Pangu's heart, unless someone like me is in control of a region. Unless the Sect Leader agrees, no one is allowed to enter Pangu's heart. If I have a way to get you to hide inside, I can avoid Di Jun's pursuit. "

Long Chen knew that he wanted to help his out of goodwill.

He smiled and said, "To tell you the truth, I already have a way to get rid of him. Otherwise, I wouldn't have swaggered around here."

Hearing this news, Man Ji was genuinely happy.

"That's good. I'm relieved. After all, I was the one who exposed you, so I feel a bit uncomfortable inside."
"

Man Ji burst out laughing, it was extremely candid.

"Oh right, actually, my main reason for coming to the Pangu Continent is to find out more about the Living Realm. Man Ji, can you tell me, how can I enter the Living Realm? "

"Living Realm?" Man Ji was surprised for a moment. He never thought that Long Chen would be related to the word Living Realm at all.

Then, he shook his head and said: "It's impossible to enter the Living Realm. A few years ago, the Ancient God still viewed the Living Realm as a training ground, where outstanding Divine Emperor s could compete for treasures. I was lucky to have been in there. But in the end, the Living Realm was a little strange, and many people died. Therefore, the Ancient God forbade everyone from entering the Death Realm. But I heard that the Ancient God was actually in Living Realm all these years. The Living Realm has already become the Ancient God's cultivation ground. The only person who can contact the Ancient God is the Sect Leader. If you want to enter the Living Realm, you can only ask the Ancient God through the Sect Leader to let you in. "

Long Chen never thought that it would be so troublesome.

"That Ancient God of the Wilderness has actually been cultivating in the Living Realm all this time. Treat that place as his secluded cultivation ground? "

Since Long Chen could control the Death Realm, how could he familiarize himself with and understand the Living Realm in the midst of the Living Realm, or even such a terrifying existence as the Ancient God of the Wilderness?

Long Chen tried his best not to come into contact with an expert of that level.

Man Ji thought for a while, "Sect Leader has always been a fair and strict man, and he has always treated his friends quite well. But to make him disturb the ancient god is not easy because the sect master respects the ancient god the most. In his heart, the ancient god is this world. This was the first trial, and the second trial was to get the ancient god to agree. If you were a nobody, the Ancient God would definitely ignore you. Long Chen, I think the only thing I can help you with is bringing you to the Pangu's heart to meet with Sect Leader. "

Man Ji trusted Long Chen a lot, so he did not ask him what he wanted to do in the Living Realm.

Long Chen was well aware of the difficulty of this matter.

He said, "I am not in a hurry. I just want to go into the Living Realm to see what is going on. In other words, the entrance to the Living Realm is right inside the Desolation, right? "

Man Ji nodded, and said: "That's right, the entrance to the Living Realm is in the depths of the Desolation. However, there is still another entrance to Living Realm, which is in the Pangu's Eye of the Great Desolation Sect. Of course, because we, the Ancient Gods are in the Living Realm, even if they had an entrance, they wouldn't dare to enter. The other four Hierarchs of the Pangu Continent wouldn't dare to disturb the Ancient Gods. "

One was in the Pangu's heart, the other was in the Pangu's Eye.

"Great Desolation Sect? "Is it another faction?"

Long Chen asked.

Speaking of the Great Desolation Sect, Man Ji smiled blandly and said, "It's just a group of barbarians that like to rebel. They claimed to be members of the Hong family, but in essence, they were a member of the barbarian race. They had occupied about ten percent of the Pangu Continent's territory, and had built the Great Desolation Sect around the Pangu's Eye. With the Great Desolation Sect's head as an esteemed figure, the Great Desolation Sect's head is a supreme deity whose strength should be around the same as our Sect Leader's. But our Desolation has an ancient god, and the other Hierarchs of the Pangu Continent can only bow in respect. "

Long Chen would not go to the Great Desolation Sect for the time being, but he would remember that there was still the entrance to the Living Realm there. It was important to collect more information in order to act conveniently.

Man Ji started to narrate the details himself.

"In the Pangu Continent, aside from the two Hierarchs of our Desolation ... There were also four Hierarchs. One of them was the Hierarch of the Great Desolation Sect, who had taken control of the Pangu's Eye. There was also 'Great Sun God' in the south. He was a hot-tempered guy. In fact, I am a member of the Goliath race, but I am a maverick and do not have any influence. The other one is the 'Yin-Yang Heavenly Emperor'. He is not a member of the barbarian race, but he has made a good living on the Pan Gu continent. Finally, the 'Undead Phoenix'. The Divine Phoenix Clan had also settled down on Pangu Continent since ancient times, standing apart from the rest. "He can be considered to be on good terms with us barbarians. There is no contradiction between them."

"Divine Phoenix?"

Hearing this name, Long Chen thought of Zhu Xi. He directly threw Zhu Xi out of the Divine Kingdom and asked Man Ji: "Is it like this for the Divine Phoenix?"

When Man Ji saw this, his eyes almost popped out. He asked: "This seems to be the highest grade of bloodline amongst the Divine Phoenix Empire, but I have never heard of this young lady before. Where did she come from?"

Zhu Xi said imposingly: "I come from the Building Wood Holy Tree, the Phoenix Clan!"

"Never heard of it." Man Ji laughed honestly.

"I took her away from another world, but I never thought that the Divine Phoenix Clan actually existed in the Pangu Continent. If you have the time, I'll take you to see the Divine Phoenix Clan, after all, that Undead Phoenix is also a supreme deity, and might be able to help us."

Zhu Xi pouted and said: "No, it's definitely a group of old people. When the time comes, they'll have to leave me there again."

Chapter 2972 - Mysteries of the Living Realm

Currently, Long Chen had the heart of the Death Realm, he could hide inside at any time. If he was able to return, then he didn't have to worry about anything at all. In this sort of situation, even the Ancient God of the Wilderness might not be able to do anything to him.

Since Zhu Xi didn't want to go to the Divine Phoenix Clan, Long Chen would just casually ask. After letting her return to the Divine Kingdom, Long Chen then continued to learn more about the Living Realm s.

"You have been to that Living Realm before. How does that Living Realm look like?"

Man Ji said: "Actually, it is just an endless green forest. It is very quiet, without much movement. However, the strange thing was that even if anything was destroyed, it would quickly return to normal. For example, if a tree was cut down, it could quickly recover. There were also many strange things. It was just that back then, he didn't have the time to understand it in detail. The Living Realm is very big, and I haven't explored much. "

He thought for a while, then said: "Brother Long Chen, since you are so interested in this Living Realm, then let's see what you can do. Furthermore, since Di Jun is chasing you, I will bring you to the Pangu's heart. The entrance to the Living Realm is also there. If the High Priestess and the Ancient God were to agree, you should be able to enter the Living Realm directly. When we get there, I will speak up for you. "

Having a person to recommend was naturally the best.

In the Desolation, Man Ji was ranked thirty-three. He should be considered one of the few people with the highest status under the Desolation Lord. With him with his, at least he didn't rush over.

"In that case, thank you very much." Long Chen naturally agreed. He didn't need to worry about the consequences anymore, he could just bravely give it a try.

Man Ji laughed: "It's just a small matter, not worth mentioning. Now that the Ancient Demon has turned into cholera, my Desolation will probably make a big move, maybe I won't be able to take care of my brothers anymore, so since we have decided, let's head towards the Pangu's heart as soon as possible. It will take at least half a month to get from here to Pangu's heart. "

After the two had reached an agreement, they left from Quipah tribe.

There were still a few Divine Emperors amongst the Quipah tribe. After Man Ji instructed them to take care of this matter, he and Long Chen headed in the direction of Pangu's heart.

Along the way, Long Chen wanted Man Ji to understand the entire Pangu Continent's situation in detail, making it easier for him to proceed.

"At least compared to other realms with primitive level, Pangu Continent is considered to be relatively stable. For countless years, nothing had happened. There was once an ancient demon that was comparable to a supreme deity in history. Although it was later killed by the ancient deity, when it first ambushed our barbarian tribe, it still caused heavy casualties for our barbarian race. "

"It is because of that lesson, that we, the barbarian race, would be very vigilant once the ancient beasts went into a frenzy." It is because of that lesson, that the barbarians would be very vigilant once the ancient beasts went into cholera.

In the blink of an eye, ten days had passed.

"In a few more days, we will reach the Pangu's heart."

The closer they got to the Pangu's heart, the denser the Pangu's Qi became. Even though the place in front of them was a wasteland, with not a single blade of grass growing, it was actually because the Pangu's Qi was too dense. Ordinary hongmengxinling could not endure it any longer, and even a single grain of sand would be considered a heaven-defying treasure if placed in the Dragon Sacrifice Continent.

"All the Pangu's Qi's are erupting from the Pangu's heart. Of course, some of them came from the Pangu's Eye. It was just that the Pangu's Eye was too small. can't compare to our Desolation. "

Man Ji was extremely proud of his Desolation.

"If we arrive here safely, then Di Jun probably won't be able to catch up. After all, we're almost there. "

Seeing Long Chen carefully observing his surroundings, Man Ji asked casually.

"Rumor has it that he borrowed the gate to the universe from the Hierarch Taihao. When he hears the news, he could transfer it to the Pangu Continent." It was precisely because of this reason that Long Chen had a vague premonition in his heart, as if he felt that danger was about to descend.

"Door to the Universe?" Man Ji obviously did not know.

Right at this time, they crossed over a tall mountain, and in front of them was another tall mountain. That earthen yellow mountain shot straight up into the sky, stirring up the yellow clouds, and right on top of that mountain, a man stood there with his hands behind his back, his long hair shining with a shiny luster.

Di Jun.

The moment he saw him, Long Chen knew, that after he had heard the news, he must have used the Door of the Universe, probably guessing that Long Chen would go to the Kui Ba tribe, and go over there first. Then, he knew that Long Chen was currently in front of the Pangu's heart, and although he did not know where Long Chen was at, he could easily travel to the only path, and wait for Long Chen!

Indeed, Man Ji and Long Chen had appeared right under his nose.

Both sides stood on two mountain peaks, facing each other. At that moment, Man Ji felt a chill down his spine, and he quickly said: "Quickly escape, I'll stop him!"

"It's already too late, but don't worry, I'm confident." Long Chen said softly.

Perhaps this time, Long Chen could carefully look at the existence that came from the Dragon Sacrifice Continent with him. As he stood there, it was as if the entire Pangu Continent belonged to him. This feeling of dominating the world was something that many Divine Emperor would never be able to achieve.

He was the real emperor!

"Long Chen!"

With a swoosh, Di Jun flashed and instantly appeared a hundred meters away from Long Chen. This distance was no different from standing in front of Long Chen, as he could more clearly feel the pressure brought by this first Divine Emperor. When they looked at each other, Long Chen knew that he had to at least reach the level of Extreme Realm God King in order to be able to slightly contend against him in terms of strength.

Otherwise, if Di Jun could contend against the Hierarch, he could contend against the Hierarch as well!

As for Hierarch Blackheaven, he was already a Paragon of the Ten Thousand Worlds.

This confrontation between the two was a fated showdown. Even though the other party had a boundless might and killing intent, Long Chen was not scared at all.

"Di Jun, Long Chen is my Desolation's friend. Protected by my Desolation, without the consent of my Ancient God of the Wilderness and my Goddess of Desolation. No one could move him. Please leave. " Man Ji was naturally not afraid, his huge body blocked in front of Long Chen, looking down from above, like a ferocious beast staring at Di Jun!

Di Jun looked indifferent, looked at Man Ji, and asked, "Don't tell me that this is your trump card this time. Last time, Death Realm played his trump card pretty well. But this time, it's not difficult for me. "

Being mocked by Di Jun, Man Ji was enraged, and shouted: "Impudent! This is the Pan Gu continent of the barbarian race. How dare you spout nonsense here! "

Under someone else's roof.

This was probably the biggest unwillingness in Di Jun's heart.

If he was stabbed by Man Ji, he would instantly turn gloomy and cold, and the eyes he looked at Man Ji with would also be filled with killing intent, but he endured it. In the end, he said, "Fine, the two of you can attack together. As for the Goddess of Desolation, I will personally apologize to him. As for you, Man Ji, you simply don't have the qualifications to represent the Goddess of Desolation s and Ancient God of the Wilderness s. "Don't try to fool me with this little trick."

While he was speaking, his eyes were constantly controlling Long Chen's position. This time, he would absolutely not let Long Chen escape.

"Man Ji, please let me go first. Don't worry, you haven't forgotten what I told you before, right?"

Long Chen had told him before that he had a way to deal with Di Jun. Seeing the confidence in Long Chen's eyes, Man Ji hesitated for a moment before giving a cold snort to Di Jun. He moved to the side and allowed Long Chen to settle the grudge.

Furthermore, he knew that he could at most use the Desolation to scare Di Jun a little. If he truly attacked, he wouldn't be able to help much, he guessed that Long Chen wouldn't think that he could defeat Di Jun at this time.

"To be honest, I'm really curious how you managed to escape from the Death Realm and come here. But when I saw you, I suddenly didn't want to know so much. As long as I can get back what belongs to me from you, no matter what method you use, it doesn't matter to me. "

Di Jun paused for a moment and said coldly. After finishing his words, he was actually prepared to make his move. He believed that they were all decisive and decisive individuals. Since he had missed several opportunities, he naturally did not want to miss this one opportunity!

"Some things are destined to not be yours, there's no need to force yourself. Considering the fact that we are both from Dragon Sacrifice Continent, if you are willing to submit to me, I can let go of all these grievances. " Long Chen was very confident in his heart anyway. After being chased by this guy for so long, how could he not be angry in his heart? The more he said it, the angrier Di Jun became!

Long Chen was not in a hurry to return to the Death Realm.

He wanted to see where the gap between him and Di Jun was! Therefore, at this time, he calmed his mind and concentrated on his battle intent. In his right hand, the Ghost Blood Curse appeared and pointed towards Di Jun. That murderous aura gradually submerged the surrounding territories!

"I heard that after you obtained the Ghost Blood Curse, you became quite a bit stronger. I never would have thought that you actually had the courage to fight me." "Heh."

Di Jun couldn't help but laugh. To him, this was indeed a joke. Therefore, at this time, he casually waved his hand and said, "Make your move."

Long Chen would not be courteous to him.

After dozens of years of chasing, fleeing in a sorry state and escaping from death, this hatred was not fake. The pressure brought by Di Jun was greater than anyone else's. Now that the main culprit was right in front of him, this was the best chance for revenge! He must see clearly what was still lacking between him and this person. He must transform in order to defeat him!

At that moment, Long Chen's peak strength exploded forth!

He focused all of his power on the Ghost Blood Curse, fusing it with the Creation God Power of the Ghost Blood Curse before using the irresistible laws of the Karma Thrust! If he defeated Man Ji in this move, would it even cause a little bit of damage to Di Jun?

Long Chen didn't hesitate as he thrust his sword towards the nearby Di Jun!

Seeing this blood colored sword, Di Jun laughed sinisterly. He extended a hand and actually aimed it towards Long Chen, in an attempt to block Long Chen's Karma Thrust.

Chapter 2973 - Silver Emperor

Ghost Blood Curse, Karma Thrust!

One sword thrust!

Man Ji was filled with anticipation. After all, Long Chen had defeated his sword in a frontal clash with the Eternal Creation Divine Artifact, and it was a strike from it.

However, Di Jun just reached out her hand and took it.

In that moment, Long Chen noticed that Di Jun's eyes. The originally invisible Eye of Space was now filled with fire and scorching sun, it became exactly the same as the other eye.

Originally, Di Jun was basically bipolar, the two powers were fused together without any connection, but this time it was completely different. The power of space in his body completely disappeared, leaving only the aura of the Scorching Flame Laws!

The moment the Ghost Blood Curse pierced his palm, Long Chen had a bad premonition. He knew that the other party would definitely not seek death like this, so he definitely had a way out!

"Whiz!"

In the next moment, Long Chen understood.

The sword directly pierced into his palm, but it pierced into another world. The moment the Ghost Blood Curse and his palm came into contact, a sun imprint suddenly appeared on his palm. Although the imprint was small, it was extremely hot and looked like a real scorching sun.

It was a world of extreme heat!

Long Chen even suspected that Di Jun's dao was related to the world of primitive level, because at this moment, he felt as if he was stabbing the Ghost Blood Curse into Refining Sun!

"Ugh ..."

could already see the terrifying flames were spreading towards his body through the Ghost Blood Curse. If he did not pull out the Ghost Blood Curse now, he reckoned that before he could kill Di Jun, he would be burnt to death by Di Jun!

He finally understood the difference between him and himself.

At this time, the wisest choice would obviously be to stop right away. Long Chen would immediately execute it, but it was already too late, because right at this moment, a killing crisis suddenly came from behind him!

There was someone behind him!

However, Di Jun was right in front of him!

The person behind him was no weaker than him. Just who was he? How could it be silent, without even seeing Man Ji, just standing behind him?

Long Chen did not care about anything else as he took out the Ghost Blood Curse and swept it across, it was the Sword of Time!

Swish!

In that instant, Long Chen suffered a heavy blow. He felt it, it was the power of space, the power of his opponent's laws striking his own body, the power of space caused Long Chen's bones, tendons, bones and flesh to shatter, causing him to almost lose his ability to fight! It was the power of space itself!

"Di Jun!"

Long Chen of course saw who attacked him.

When both of Di Jun's eyes became blazing suns, right behind Long Chen, a man with long silver hair appeared. His eyes were hollow and empty, wearing a silver dragon robe, looking exactly like Di Jun!

That's right, he was also Di Jun!

Both of them were him.

Long Chen naturally did not know what kind of rule this was. To actually be able to split his strength into two bodies, and the strength of each body, had basically reached the pinnacle realm of Divine Emperor!

This Di Jun, he was really hiding too many trump cards!

"Fire of Life!"

This time, the fire of his life could be cured, but the next time, he would have to revive.

"After trying it out, it turns out that it's still difficult for me to deal with this fellow. However, there will always be a chance for me to succeed. He is the same as me, he also received the luck of the Dragon Sacrifice Continent, it's normal for him to be difficult to deal with it! "

Although he had been defeated, Long Chen was not discouraged, nor was he scared. He rushed forward within the flames of his life, saving himself from being encircled by these two Emperor Jun, but he knew

that the silver-haired Emperor who was proficient in the laws of space, was within his reach no matter how far away he was.

"If you're convinced, then bow down."

He did not know when the silver-haired Emperor would appear again, but the golden-eyed Emperor Jun was sweeping the golden flames towards Long Chen. Last time, he did not manage to defeat Long Chen, but this time, it was the end for Di Jun.

The more trouble he caused, the less likely he would be able to obtain the Origin Dragon Palace.

It's time!

When Di Jun thought that Long Chen was completely out of ideas, Long Chen opened the Death Realm's Dragon Gate right in front of him. Standing in front of the Death Realm's Dragon Gate, Long Chen said: "Don't be naive, if I couldn't deal with you, would I appear right in front of you? Di Jun, it has been decades but you still couldn't take down a nameless newbie like me. Don't you feel ashamed? This is the last time you'll see me. The next time, thousands of years from now? We welcome you to continue your pursuit of me in this endless starry sky. "

Actually, when he had just started speaking, he had already entered the Death Realm in a flash, and then closed the Death Realm's Dragon Gate. In such a short period of time, Long Chen disappeared from Di Jun's sight.

When the silver-haired emperor Jun appeared in front of the Death Realm's dragon gate, it wasn't closed, but it seemed like the two emperor's lords couldn't be separated, so the silver-haired emperor's Jun didn't chase after them, and could only watch as Long Chen left.

"..."

Looking at the empty space in front of his eyes, Di Jun's expression was cold. It was one of the few humiliations he had received in his life.

"Brother Long Chen?" Man Ji was also startled for a long time. He finally understood why the method Long Chen spoke of was so mystical. He had disappeared without a trace in front of an expert skilled in the laws of space!

"That's the Death Realm!"

"He went back to the Death Realm!"

Even though Di Jun was cold on the outside, in reality, he was already on the verge of exploding from anger.

He was the dignified number one on the Divine Emperor Ranking, yet he had actually allowed Long Chen to slip away right under his nose twice. This feeling was as if he had not yet won against a three year old child.

Especially this time.

Long Chen had actually opened the Death Realm's entrance right in front of his eyes.

Doesn't this mean that as long as Long Chen could continue to be like this, I will never be able to catch him? He would never be able to obtain the Dragonorigin Palace again? Of course Di Jun couldn't tolerate letting this happen.

The silver emperor's body fused into his body, and one of his eyes started to turn illusory.

Di Jun suddenly turned his head, looking at Man Ji coldly.

"What, you dare to do anything to your master Man Ji? If you dare to even touch a single hair of mine on the Pangu Continent, we, the ancient gods, will make you an ant. If he wants to crush you, it will be as easy as crushing an ant to death." Man Ji rolled his eyes and said disdainfully.

"Then it would be best for you to never leave the Pangu Continent for all eternity." Di Jun said his last sentence and then disappeared from Man Ji's sight. He had to go back to the Death Realm and find out everything about the Death Realm.

"Scared me?" Man Ji had to admit, when Di Jun said the last sentence, it was kind of terrifying.

However, he couldn't be bothered to leave the Pangu Continent either.

"I never thought that Long Chen would be able to open the gates of the Death Realm at any time, and even returned to the Death Realm here. It was said that someone could control the Death Realm, could it be that he had already grasped control of the Death Realm? "Then is his purpose for coming to the Living Realm?"

No matter what, the Living Realm was their own Pangu Continent's, Man Ji felt that if Long Chen wanted to take it away, it would be inappropriate.

"However, this is a matter of the Ancient God and the others. With the Ancient God here, even if Long Chen wanted to take it away, he wouldn't be able to. But, now that Long Chen is back in Death Realm, what should I do? "

After thinking about it, Man Ji decided to return to the Quipah tribe. He thought that if Long Chen still wanted to go there, he should have gone there to find him.

Thinking of this, he started his journey.

"Man Ji."

Right at this moment, Long Chen actually appeared in his original position.

Previously, the Death Realm's Dragon Door had left behind its power of laws here, and through that door that was not completely closed, Long Chen was able to easily return. This was the impressiveness of the Death Realm's core.

"Let me enter your Divine Kingdom and head to the Pangu's heart."

This way, he could prevent Di Jun from suddenly appearing and assassinating him.

"Alright!"

Man Ji was extremely straightforward as he let Long Chen enter the God Nation. After looking around at his surroundings, he quickly walked towards the Pangu's heart. As for Di Jun, he didn't know if Long Chen would still be able to return to this place, so he avoided Long Chen's relationship with him again.

At this time, Long Chen had already recovered from Di Jun's previous attack.

"Presumably, only by obtaining the realm of Extreme Realm God King and making some progress in the laws, will I have the confidence to deal with him. But now, let's look at the Living Realm first, and not be anxious, and when we have enough confidence, we can then lure him into the Death Realm and kill him! "

"Luckily I was able to test Di Jun's power this time. Otherwise, if I brought him into the Death Realm and I couldn't kill him, I wouldn't be able to stay in the Death Realm anymore."

During his reflection, five days passed quickly.

Reaching here, Long Chen had already discovered that the surrounding Pangu's Qi had become terrifyingly dense. In this location, he saw a circular mountain range in front of him, and at the center of the circular mountain range was an incomparably vast bottomless pit. In the entire Pangu Continent, more than 80% of the Pangu's Qi was spewed out from here!

This place was the Pangu's heart!

The sacred land of the Pangu Continent was the source of power for the entire world. Without the Pangu's heart, there would be no barbarians or Pangu Continent.

"We're here, I'll take you in."

Man Ji stretched his back and let Long Chen come out of the Divine Kingdom.

Chapter 2974 - Great Emperor of Earth

Looking at the Pangu's heart up close, he realized its terror and vastness even more. The Pangu's Qi that was born was a type of boundless power that was even denser than the three-clearing zhenqi. It was also the birthplace of the most powerful world that Long Chen had ever witnessed.

"Without this Pangu's heart, there would be no endless living creatures on the Pangu Continent. Therefore, this place is considered the number one holy land in the hearts of the barbarians. Many

barbarians would spend their entire lives wishing to see this place, but no, this is not a good place to do so."

Long Chen also felt it.

As a result, the Divine Kingdom in Long Chen's body became closer and closer to the level of power in the primitive level world. In reality, when this energy entered the Origin Dragon Palace, it had already been transformed into another type of spirit energy, and was no longer the Pangu's Qi, but a type of power that belonged to the divine dragon.

With the nourishment of the new power, the whole world was developing rapidly.

Standing at the edge of the lake, looking down, Pangu's heart was only an earthy yellow fog.

Beneath the dense Pangu's Qi, he could not see anything clearly.

"Let's go in together, I'll lead you to the head."

Just as Man Ji finished speaking, the clouds and mist in the Pangu's heart started to move, as if someone was coming out from there.

In the entire Pangu's heart, there were approximately several hundred, and nearly a thousand, all were supreme experts of the Taiyuan Deity Realm. But at this time, Long Chen had already sensed that there were at least five hundred Divine Emperor s who had suddenly appeared below him.

"What's going on?" Man Ji was startled. He had only brought Long Chen to the Pangu's heart, why would there be such a commotion? Could it be that Long Chen had something that they valued?

RUU...!

More than five hundred Divine Emperor s rushed out from the Pangu's heart. They were all at least five meters in height. Even in the Pangu Continent, if five hundred Divine Emperor s were to move at the same time, it would be quite rare.

However, they were obviously not here for Long Chen.

"Sect Leader!"

When Man Ji saw one of the five hundred people, he immediately half-knelt down respectfully.

Long Chen did not need to look to know that the Goddess of Desolation was the leader of the group of Divine Emperor. All the top people in the entire Pangu Continent were gathered at this place.

"Man Ji?"

Seeing the War God Kui standing there, the Divine Emperor that were preparing to leave stopped along with the one in front. That person was the Desolation Lord, the Goddess of Desolation.

Supreme God.

With the tall stature of the barbarians and the cultivation of Tai Yi Shen Jing, the aura of this Desolation Lord alone was enough to overwhelm all of the Divine Emperor s behind him. All of these Divine Emperor s were figures that had once been able to suppress Long Chen, and of course, only a few of them were feared by Long Chen.

Goddess of Desolation's gaze swept across Long Chen's body and directly said, "You have grasped the Ghost Blood Curse, so you should be Long Chen. I heard that Di Jun was chasing after you, but I didn't expect that you would actually come to my Pangu's heart. Are you busy? "

He truly was worthy of being a Sovereign God. Being able to recognize Long Chen with a glance, had also saved him a lot of trouble. This person's Tai Yi Shen Jing was not aimed at him, but rather, extremely friendly. Long Chen, on the other hand, heaved a sigh of relief.

The Desolation Lord was magnanimous, majestic and worthy of respect.

At the side, Man Ji quickly said: "Sect Leader, Long Chen is my good friend, I brought him to the Pangu's heart, I was just about to bring him in to meet you."

The Desolation Lord nodded, and continued to look at Long Chen, and seeing that he was a straightforward person, Long Chen did not beat around the bush and directly replied: "Senior, I want to go into the Living Realm to take a look, so I wanted to ask if you can help me ask the Ancient God of the Wilderness, and if he can allow me to enter the Living Realm."

Many barbarians started to talk about this after they heard this. It seemed that they didn't want to deal with this matter. Now that the Living Realm had gradually become a place of cultivation for the Ancient God of the Wilderness, even they were not able to see it.

However, the Desolation Lord quickly answered, "You have only recently risen to prominence, so your reputation in my Pangu Continent isn't very big. Even if I were to ask my master, he wouldn't let you in, since he doesn't know you. Unless ...

"Unless there's something you need, senior, feel free to say it." Long Chen also understood in his heart that the other party would definitely not let him in so easily. After all, that was their territory.

We need your help. If you can make a contribution to our Barbarian Clan in the chaos of the ancient demon race, then when the war is over, I can introduce you to my master. It will be easier to introduce you to them as well. If he is interested in you, maybe I can promise you that at least, I will be interested in your legend. "

His eyes were like two chaosworlds as he looked at Long Chen with a smile on his face.

Long Chen understood.

He actually liked this Desolation Lord's method. It was simple and direct, not one bit wasteful. Since Long Chen had a request, then it was only an inquiry to the Ancient God of the Wilderness. As such, he casually needed to add on a helper.

"Of course not, Long Chen will definitely try his best to introduce you to the chaos of the ancient demons, so that you can find a place to introduce us before the Ancient God of the Wilderness." Long

Chen agreed directly, since it was not a big loss to him anyways, he only delayed for a little. Now that he had the Death Realm's core, he was not afraid of wasting any time.

"Since it's like that, you should team up with Man Ji. This is an important location around the Quipah tribe that Man Ji is in charge of, and it is also the place where the Ancient Demons run rampant. "I hope that you can help our barbarian tribe through this tribulation. If my master doesn't agree to it in the end, I will also give him a gift."

Goddess of Desolation could see that Long Chen's rise to power was extremely shocking, and his future would definitely be extremely terrifying. He also knew about the grudge between Long Chen and Di Jun. In any case, he would never offend any of these two people, but he would never please any of them. He let Long Chen kill the Ancient Demon but he did not have the intention of protecting Long Chen either. After all, this way Long Chen would not be able to stay in the Pangu's heart.

"Then it's a deal." Man Ji was overjoyed. Letting Long Chen help him, was what he definitely wished for.

However, there would also be some differences of opinion among the barbarians. Man Ji was extremely happy, but there were also people whose eyes were red. Right at this moment, behind the Desolation Lord, a woman's voice sounded, "Sect Master, I am not convinced."

Long Chen looked over and saw that the one causing all this trouble was actually a woman, a woman from the Goliath race. Generally speaking, barbarian women were considered to be few in number since they had reached the Divine Emperor Realm.

The barbarian woman in front of him was three meters tall. Compared to the tall and sturdy barbarian man, the barbarian woman in front of him was actually quite petite. Their bodies were wild and their skin was the color of wheat. She was one of the most outstanding barbarian women.

The top barbarians of the Endless Territories.

"This is the Earth Emperor who is ranked # 18 in the Divine Emperor. She has the God's Creation Divine Weapon with the Eternity, and her name is 'Emperor Sky Queen Earth' and she is very powerful." Divine Emperor Yuhua warned Long Chen first.

Great Emperor Changsheng was ranked nineteenth on the Divine Emperor and had the [Divine Creation] artifact of the Eternity. The Great Emperor of the afterworld was slightly stronger than the Great Emperor Changsheng.

"Why are you unconvinced?" The Desolation Lord asked indifferently.

"She is the wife of the Desolation's Master, the person she loves the most. It's best if she doesn't offend this person." Yu Hua said again.

It turned out to be a couple

The Great Emperor of the afterearth was even more direct. He looked at Long Chen coldly and said, "I remember that the Ghost Blood Curse was originally our clan's item, but in the end it fell into the hands of this outsider, so I find it hard to accept. Stealing from my clan is my clan's enemy. How can you let him join our race's team, and still want to go to Living Realm? Once he enters the Death Realm and then the Living Realm, who knows what his goal is? "

The husband and wife duo were at loggerheads, so no one dared to make a sound. They just waited and watched obediently. However, the Great Emperor of Earth did represent some people's thoughts, so he gained some support. Of course, everyone still followed the orders of the Desolation's master.

He was very clear on the temper of the Great Emperor of the Earth. She had been thinking about it for countless years and would not completely comply with him. This was also the joy of life, so he said straightforwardly, "Fine, let's follow the rules of the barbarian race and challenge her." "Fighting is the way to solve problems."

"Alright." The Great Empress didn't expect the Desolation Lord to listen to him either.

Therefore, she had already come to a conclusion in her heart. At this time, her dark eyes were fixed on Long Chen, and she said, "I have long since wanted to test the power of the Ghost Blood Curse, and whether or not it could suppress my 'Heavenly Queen'. Do you have the guts to accept that I will challenge you in the manner of a barbarian today? You defeated Man Ji, so your ambitions are not small. I am ranked eighteenth in the Divine Emperor, do you have any kind of challenge? "

Even if he did not want to accept, under the watch of five hundred Divine Emperors, rejection was still a piece of cake. If Long Chen wanted to enter the Living Realm, he would need to make the Ancient God of the Wilderness interested in him.

The first barrier that the barbarians had given him.

If the Great Emperor of Earth was unable to pass this trial, there was no need to talk about the Living Realm at all.

Long Chen was very calm about this kind of challenge. If he did not have the capital, he would be jealous of the barbarian race. Even though the Great Emperor of Earth was challenging him, he was actually helping him.

Of course, the prerequisite was that he had to win.

"The Eternal Creation Divine Artifact, the emperors and emperors?"

The blood in his heart was boiling as he fought.

"In the Pangu Continent, the Queen Mother was the Queen Mother. It was the Goddess of the Earth, who had mastered the Edicts of the Earth. The time that he was born was about the same as the Desolation Lord. They are the oldest divine beings of the Pangu Continent. " Before Long Chen welcomed the battle, the Jadeflower Divine Emperor told him a few details about the Great Earth Emperor.

Amidst everyone's gaze, Long Chen did not reply, but the Ghost Blood Curse had already appeared in his hand and his killing intent spread out.

Chapter 2975 - Heaven and Earth

It was not Long Chen's killing intent, but the ghost blood curse's killing intent. Eternal Creation Divine Artifact s were already at the peak of the Creation Divine Artifacts, they were either the emperor or the Zhi Zun among the evil soldiers.

The Ghost Blood Curse was the Zhi Zun of the Demonic Creation God Equipment. When it appeared, it made Long Chen feel extremely terrified. Until now, Long Chen's best battle record was to lose to the Arena War God, Man Ji, ranked 33 on the Divine Emperor.

However, it was clear that with the Eternity, his ranking would continue to rise.

It all depended on whether the Great Emperor of the Earth could stop his charge.

Of course, out of all the five hundred Divine Emperor, the Great Emperor of the Earth had an extremely lofty position. It was not only because she was the Lord's wife, but also because she had extraordinary fighting strength and was ranked in the top five of the five hundred Divine Emperor s!

"If she can't take care of this Long Chen, I'm afraid that in our Pangu Continent, there are very few people who can beat him."

"Not really. It is true that he has obtained the Eternity's Creation God Equipment, but the Great Emperor of the Earth controlling the 'Emperor's Heaven and Earth' is not something that can be done in a day or two. "

Long Chen, prepare for battle!

The Ghost Blood Curse was the symbol of his challenge.

He said: "Since the Great Emperor of the Earth has flattered us, then Long Chen can only accept respectfully."

Towards his response, the Great Emperor of the afterworld was extremely calm. She had long anticipated what kind of person Long Chen would be. Without waiting for the Desolation Lord to speak, she directly said, "Follow me, we can't possibly change our seats here in Pangu's heart."

"Of course."

After receiving Long Chen's affirmative answer, the tyrannical existence of the eighteenth place on the Divine Emperor passed through the group of Divine Emperor s, heading in a certain direction. Long Chen followed closely behind her, and behind Long Chen, was obviously the army of the Pangu Continent's Divine Emperor, with more than five hundred people following behind him.

It was quite normal for someone who couldn't help but be nervous when fighting.

After approximately half a day, the Divine Emperor were already far away from the Pangu's heart. They had arrived at a desolate place that was filled with desert, the world of primitive level was very stable, and Long Chen didn't have the ability to destroy it at the moment.

"I'm building the Wood Holy Tree. With my current power, I can completely destroy that world, which is why I feel like I can rule that area. However, on this Pangu Continent, I finally understand just how insignificant I am."

The difference between the fifth and the eighth level was unexpectedly huge.

"Right here." She stood barefooted on the ground below her. had a very strong feeling that when she came into contact with the earth, the entire land was a part of her body. She was connected to this endless land.

The Great Emperor of the Earth was definitely the person with the deepest understanding of the laws of the earth amongst all the people Long Chen had seen.

Behind him, hundreds of Divine Emperor s spread out, forming a huge encirclement. The gazes of the five hundred people in Taiyuan Deity Realm also contained boundless pressure. The barbarians, of course, stood on the same line, supporting the Great Emperor of the afterlands while hating Long Chen. This way, he naturally had to suppress Long Chen!

The psychological suppression was also terrifying.

Even though he was expressionless and did not intentionally suppress Long Chen, he was, after all, the supreme divine spirit of the Tai Yi Shen Jing. Just by standing there, he created his own world, and that was also a terrifying pressure.

Long Chen calmed his heart and focused on the Ghost Blood Curse.

"Hmph. Today, I see that you're going to lose. I know that 'Heavenly Queen Earth' is an unbreakable turtle shell. If you don't have enough strength, you can forget about attacking your enemy." Then, Gui Qi began to mock him.

"If you cannot break it, then you can only blame the Ghost Blood Curse." Long Chen said indifferently.

"You!"

Gui Qi stomped her feet in anger, and because of that, the Ghost Blood Curse started to tremble. Of course, even so, in a true battle, she could only follow Long Chen and die.

"The Great Emperor of the afterworld is the limit of my current strength. I may win, but I may also lose."
"

But to him, winning or losing wasn't too big. What was important was still his progress! Growth! Therefore, this time's challenge was very open and even more wild. No matter who his opponent was, even if it was a supreme deity's woman, he would only view her as an opponent to be challenged at this time!

Ding!

He held the Ghost Blood Curse in both his hands, and the narrow and sharp sword edge was filled with a baleful aura, matching with Long Chen's current ice-cold temperament, like a god of death walking out of hell!

The Great Emperor of the earth was cold, but she was the same as Long Chen, summoning her own Creation Divine Artifact before the battle!

Eternity! Heavenly Queen Earth!

She floated slightly. Under her feet, countless grains of sand and dust formed a yellow patch of land. There wasn't much dirt there, only a few people could stand on it. It was like a cloud beneath her feet that was constantly changing its shape.

Although it looked simple, in reality, this Huang Tianlang possessed a thick aura of the earth. A small piece of land was comparable to a Hun Yuan grade world, and within each grain of sand, there were countless array diagrams. After enlarging, one could form a plot of land.

"Rumor has it that the Earth of Heavens and Earth was refined from a Hun Yuan level world! Once it is unleashed, it will transform into an enormous world! "

The Jade Flower Divine Emperor was a little emotional. Exactly so, she was worried that Long Chen might lose the battle, because this [Emperor's Queen], could be said to be perfect in suppressing the Ghost Blood Curse. This was a Manifestation Divine Artifact that had great defensive properties. It was like a mass of formless water that was extremely difficult to destroy!

When the Heavenly Queen Earth and the Ghost Blood Curse met each other, the two God Creation Equipment of the Eternity met each other, and the smell of gunpowder between Long Chen and the Great Emperor of the Earth gradually grew stronger. Then, it exploded amidst the chaos and excitement of the two Eternal Creation Divine Artifact, with the two sides not speaking any nonsense or being courteous! It was a very fierce battle!

What was different about her and Long Chen was that her Infinite Divine Art was a set of Eternity, which was a level higher than Long Chen's power. In terms of power, it was absolutely an enormous suppression!

"Mother Earth Sword!"

The Earth Emperor's figure danced, fusing into the endless earth. Under her change of laws, the 'Emperor Sky and Earth' under her feet quickly transformed, actually condensing into a giant earthen yellow sword that pointed straight at Long Chen!

It could even be transformed into anything, forming the rules of the Earth Mother Sword, which was even more suitable. Under these rules, the Emperor Earth and the hundreds of millions of fertile soil under his feet were completely connected, and Long Chen instantly became an opponent of the boundless earth, an opponent of two worlds!

BOOM!

Absorbing the power of the earth, it was endless. It became stronger and stronger, and under the orders of the Great Emperor of Earth, the Mother Earth Sword rushed towards Long Chen, the speed of the earth was still incomparable!

A battle was about to break out, and it exploded on the spot!

Without saying a word, Long Chen turned into a bloody shadow and rushed forward, striking out multiple times in a row. Every strike was extremely fast, reaching its peak, and time had exceeded the speed of the Earth Mother Sword.

RUU...!

A huge storm was set off.

The earth was like a wave as it surged forward. Everything was crushed like duckweed! "Aoo!"

Shua shua shua!

Every single fierce Sword of Time was able to pare away a portion of the Earth Mother Sword. When the Earth Mother Sword was right in front of Long Chen's eyes, it was completely torn apart by Long Chen, but the aftermath still forced Long Chen back, the Great Emperor of Earth's boundless divine power still forced Long Chen to retreat tens of thousands of meters, receiving a huge impact!

Of course, Long Chen also solved the other party's rule in an interesting manner.

"Not bad." The Earth Emperor flipped his hand, and the soil that was torn apart by Long Chen once again gathered under her feet, forming a piece of land. This was the power of the Earth Emperor's' Emperor's Queen Mother '.

"Whiz!" Long Chen returned unscathed.

Of course, he knew in his heart that his opponent was only testing him a little. Next would be the real killing move, the one she had the confidence in to defeat him once and for all!

In a battle, unless one had absolute confidence, it was best not to let anyone else take the initiative. Thus, when Long Chen returned, he was like an arrow that had left the bow, releasing the Ghost Blood Curse, charging straight towards the Great Emperor of the Earth!

Of course, the Great Emperor of the afterland was also quick. With a flip of his hand, the Earth below his feet turned into a lump of mud in her hand, and she threw it towards Long Chen in an instant. During that process, everything had changed!

"The Emperor ascended the mountain!"

The Great Emperor of the Earth released his divine power and shouted softly. Under his laws, the Great Emperor of the afterworld suddenly turned into a golden mountain, shining with a golden light. It was not very big, and it suppressed above Long Chen's head in a short amount of time!

"So heavy!"

Before he even got close to, Long Chen could already feel the weight of that Emperor Sky Mountain, and that was simply the weight of an entire Hun Yuan class world. Such a weight could casually squash other Extreme Realm Divine Emperor, and this meant that before that Emperor Sky Mountain even got close to him, the ground that Long Chen was standing on, had already caved in!

Terrifying weight!

At this critical moment, the Divine Emperor s of the barbarian race knew that the Earth Emperor was stronger than Long Chen by a hair's breadth, but what surprised them was that Long Chen was still able to stay calm and did not give up his attack. All he did was target the Emperor Sky Mountain!

Karma Stab. Everything has Karma. Karma is connected. Karma is connected. Nothing can't be broken!

It was true that the current Huang Tianshan would definitely be terrifyingly hard, but Long Chen could only rely on his willpower and understanding of the Karma Thrust to dare to do such a thing!

His feet firmly stood on the ground. As he held the sword with one hand, just as the Emperor's Sky Mountain was about to press down on his head, a sword shot into the sky!

"If the Heavens suppress me, then I'll shatter the Heavens! Karma Thrust will pierce through Heaven and Earth!"

The tip of the Ghost Blood Curse was precisely resisting the toughest part of the Azure Emperor's body!

BOOM!

Victory or defeat at this moment was what all the Divine Emperor looked forward to the most.

Chapter 2976 - The AfterEarth Holy Prison

The battle between two Eternal Creation Divine Artifact!

In terms of divine creation artifacts, the disparity was not too great, and the type was also not the same. Long Chen lost to his opponent in terms of divine power, but he held the upper hand in terms of rules. The rules of karma are still a bit stronger than the rules of the afterworld!

Under the situation where they were all about the same, the only thing left was the battle of wills. Long Chen's soaring sword, combined his thoughts and will together, one move was enough to kill, the blood red sword image bringing the blood curse with it as it stabbed towards the sky!

Huang Tian went up the mountain and descended with a loud bang. The power of the entire world suppressed above Long Chen's head.

As for the Karma Thrust, it was searching for the location that would destroy the heavens!

Ding!

Under the anticipation of tens of thousands of people, the most sharp blade of the Ghost Blood Curse pierced right into the center of the mountain where the Emperor Sky Mountain was located. The two forces clashed!

The crux of the matter was revealed at this moment.

Silently, the golden colored Emperor Tian Mountain actually shattered once again, turning into a pile of scattered sand and disappearing into powder in the air.

The Royal Sky shall go up the mountain and dissolve it!

It seemed simple, but in truth, Long Chen was not at ease. In that instant, he almost used the power that defied the heavens and changed his fate, allowing the Emperor Sky to collapse in the mountain and overcome the attack.

The majority of the spectators took in a breath of cold air, impressed by Long Chen.

However, this was only because Long Chen had neutralized his opponent's attack, and not because Long Chen had defeated his opponent, everyone was still holding onto their curiosity to watch the battle before the victor was revealed!

"Not bad. However, you'll never be able to do anything to me, so you can try if you don't believe me. " The Great Emperor of the afterlands didn't even frown. After he shattered the earth, she casually waved her hand and countless dust and sand returned to her side. They condensed into an earthen yellow fortress around her, wrapping around her completely.

In the next moment, she did something that shocked Long Chen.

Through the fortress, she suddenly stretched out both her hands, pressing them down on the ground. Her relationship with the ground was extremely intimate, as if she was one with the land itself, and at that moment when her hands pressed down on the ground, an unprecedented divine might instantly descended!

"Pan Gu Possession!"

It turned out to be the trump card of the barbarian race!

"To be able to force the trump card of the Great Emperor of the Earth out, it can be said that Long Chen is truly amazing."

"The Queen Mother of Sky and the Pangu Possession, there's no possibility for Long Chen."

At this moment, a 30,000-meter tall giant appeared behind the Great Emperor of the Earth, opening his thick arms and roaring towards the sky, roaring angrily. For a moment, it shook heaven and earth, and everything trembled.

BOOM!

After Pan Gu possessed his body, the Great Emperor of the Earth had a golden glow on his skin, and his entire body was shining with a boundless radiance. It was extremely dazzling, but at the same time, it

was also terrifyingly powerful. And at this time, the Emperor's Queen Earth was still surrounding her. With her current strength, it could be said that the Emperor's Queen Earth became even more sturdy, and the fort it formed became even more terrifying!

She seemed to have taken control of the entire situation.

As expected of someone close to the Divine Sovereign.

The people surrounding her caused Long Chen to feel even more depressed.

"You can naturally come and see whether or not you can use this Ghost Blood Curse to cut apart my Heavenly Emperor Queen!"

The Great Emperor of the Earth's voice was heavy, but it could be heard that it was a woman's voice.

"Then let's give it a try!"

Since the other party was provoking him, Long Chen naturally wanted to give it a try as well.

"The most uncertain thing is whether the rules that defy the heavens and change the fates can pierce through the earth of the emperors."

Although he couldn't be sure, he still turned into a ray of blood-red light and charged forward. The Ghost Blood Curse appeared, and at the same time, his other hand condensed a heaven defying law that changed fate.

"Karma Sting!"

The same killing move!

Ding!

At this moment, when the Ghost Blood Curse stabbed onto the fortress, it suddenly bent down, unable to destroy the Emperor of Heaven and Earth, injuring the Great Emperor of Earth. More importantly,

although the Great Emperor of Earth had fought in actual combat with Pangu's body, he was completely blocked by the Great Emperor of Earth.

If she couldn't enter, then she wouldn't be able to change the condition of her Pangu's Clone, and she wouldn't be able to destroy the transformed Emperor's retribution. She would be able to truly injure her opponent! If this continued, then the Great Emperor of the earth would simply be invincible.

"I'll give you a few more chances. I'll let you try."

The Great Emperor of the earth smiled faintly, his tone filled with contempt. Long Chen didn't say anything further as he struck out with his sword a few times. Every sword strike was of an extremely high standard, but it was a pity that even if it was the Ghost Blood Curse, it was useless against the Great Emperor of the Earth after he broke through!

"This is so infuriating. You are truly useless. You can't even break through this." Gui Qi had lost face and was naturally unhappy in his heart.

The biggest problem Long Chen faced was that he couldn't go in against the heavens and change his life. He could only use his brute force to tear the earth apart, but sure enough, with the possession of Pangu's body, the power of the Great Emperor of the afterworld increased greatly.

"Is that enough?" When Long Chen was about to attack, he suddenly sneered. With the power of Pangu's Possession, she was able to draw out layers upon layers of power from the ground, and explode at the last moment. Under her control, the empress of heaven and earth, had undergone a huge change!

"Back Earth Holy Prison!"

Just as Long Chen's sword was about to strike, it, who was supposed to be protecting the Great Emperor of the afterworld, instantly turned into a state that surrounded Long Chen. It quickly expanded and covered the sky and the sun, instantly enveloping Long Chen within!

BOOM!

The Holy Hells of the Earth had descended!

After being completely surrounded by the Heavenly Emperor Eclipse, it was as if Long Chen had entered another world, and it was even a huge one. This place was in complete chaos, and it was inexhaustible!

He could vaguely feel that the Great Emperor of the Earth was just outside this world, and she was currently controlling the Great Emperor's Great Earth. Naturally, she wanted to completely defeat him and win the battle. After all, she didn't want her ranking on the Divine Emperor to drop either. She also wanted to block off Long Chen's path of ascension and destroy the legend that he had created.

"The Sacred Hell is a place where even the gods will die. If you can't bear it any longer, just tell me!"

The Great Earth Emperor was kind and did not want Long Chen's life. Of course, to her, Long Chen was a formidable opponent, so under such circumstances, she had to make Long Chen admit defeat as soon as possible.

Therefore, the Holy Prison in the Land of the Earth was rapidly changing!

In this endless world, enormous earthen yellow walls had appeared in all directions. Long Chen was trapped in a fixed space, and at this moment, the surrounding six walls, front, back, left, and right, were shrinking. Judging by this speed, it wouldn't be long before they squashed Long Chen flat!

"Whiz!"

The countless swords of time slashed at the wall, but were unable to tear it apart.

"This wall, is actually the Emperor's Divine Earth. This is something that the Great Emperor of the afterlands controlled after he possessed Pangu. It's impossible for me to break through to the afterlife. If this goes on, I'll probably lose. "

Long Chen was very clear about this in his heart.

Although defeat was nothing, he obviously did not want to be defeated. Especially as there were so many Divine Emperor watching from the sidelines.

However, the Great Emperor of the Earth had tried a few times to follow up with an attack. This Great Heavenly Fate Ruler was truly worthy of being called a defensive, divine creation artifact! It specialized in defense, but even the Karma Thrust was unable to rip it apart!

Roar!

Long Chen had turned into a divine way's heart dragon.

The Sword of Judgment unleashed its Karma Thrust and pierced into one of the walls.

Bang!

There was a huge movement on the wall, but it was not broken. The Heavenly Queen Earth had an extremely strong transformation ability, as long as it was not broken in one go, it would instantly recover. It simply wouldn't give Long Chen the chance to rush out!

In fact, looking at the current situation, as long as Long Chen rushed out, the Earth Emperor would actually be defeated.

"Truly useless. You are destined to be defeated in this battle." It wasn't easy for Gui Qi to find an opportunity, so she pouted and taunted Long Chen.

Of course, it was not only her. The Divine Emperor outside had also realized that after the Great Emperor of the Earth possessed Pangu's body, Long Chen had been suppressed to the absolute limit. Now, they were only waiting for him to admit defeat.

Long Chen returned to his human form and held onto the Ghost Blood Curse. The surrounding walls had already shrunk too much and it wouldn't be long before they suppressed onto his body.

"At that time, I'll have no choice but to admit defeat."

The opponent would never kill him, so he was not worried. He just wasn't willing to lose just like that!

Therefore, he held onto the Ghost Blood Curse's hand with all his might!

The walls on both sides of the arena were closing in and shrinking. This kind of feeling was naturally extremely uncomfortable, and just watching the moment of defeat come was an absolute suppression on the mind, causing Long Chen to feel extremely uncomfortable.

"If we were to be defeated like this, it would truly be boring. Originally, this would have been an opponent that I could take care of."

Long Chen stared at his surroundings, he did not resist, he did not kill crazily, but was thinking.

"If you can't even deal with her, how can you deal with Di Jun? Let's hurry back to the Death Realm and escape!" Gui Qi crossed her arms and laughed mockingly.

"Death Realm?" Long Chen thought of something and thought of a way. He could return to the Death Realm from here and disappear suddenly. The other party would definitely open the door and he would appear again when the time comes. It was also a chance to defeat his opponent.

However, if he wasn't willing, then that would be the same as losing the battle!

"Death Realm!"

He had the Death Realm's Core, and now that he was in contact with the Death Realm, he thought of the Death Realm in his unwillingness, and gave him some ideas. When the surroundings were pressing down, the Death Realm's Core, in between his brows, was faintly transmitting information to Long Chen!

Long Chen squinted his eyes, to feel that wave of power. When it was the right time and people, and when everything was forcing him to move closer to the core of the Death Realm, the Death Realm appeared in his heart, and he could feel Long Chen's unyielding fighting spirit.

"Even a Heavenly Demon from the Ji Dynasty can use the power of the Death Realm, why can't I do the same?"

When this idea was born, it seemed to have been formed smoothly. The power and laws of the Death Realm had already been concentrated on the Ghost Blood Curse.

Actually, this was a rule.

Under the suppression of the empress, it caused Long Chen's heart to be filled with the ruthlessness and heaven-defying will of the Primordial Blood Spirit Dragon. He once again thought of the Death Realm's core, felt the power of the Death Realm, and finally the slaughter dao seal.

The power of the Death Realm, had reached the core of the Death Realm, and had given birth to a new law of slaughter, a pure law of slaughter! It was not the Dragon Seal of Extinction, but compared to the Dragon Seal of Extinction, this rule that directly carried the power of the Death Realm, was evidently more terrifying!

Long Chen was already on the path of a rule, going further and further away!

The thing that defied the will of the heavens was that it was very likely an environment where he would be enlightened and be able to communicate and obtain new rules! It was as if at this moment, this rule had descended into Long Chen's heart!

Suddenly, when he opened his eyes, it was not his eyes but an endless sea of blood, as though the Death Realm had already arrived before him. Even more frightening was that the space between his eyebrows suddenly cracked open, revealing a blood-red eye.

A sea of blood covered his eyes, as he slaughtered!

This was the ultimate move that could display the most vividly the will of the Primordial Blood Spirit Dragon. Although it was said to be the ultimate kill move of the Dragon Seal, it did not have this kind of pure killing intent! This was a defense against fate, an unyielding, extremely furious resistance!

Weng! *

The blood dyed Long Chen red.

"Admit defeat!"

The Great Emperor of Earth said.

At this time, the Great Emperor of Earth had already squeezed to Long Chen's side. Great Emperor of Earth knew in his heart that with Long Chen's previous performance, he wouldn't be able to break through this Holy Prison in the afterworld.

But just as she finished speaking, the strongest impact exploded out, causing the entire Emperor Sky and Earth to tremble. Even the expression of the Great Emperor of the Great Earth changed.

The Divine Emperor people looked at each other.

"What's wrong?"

"What happened?"

Even the Desolation Lord had carefully observed the blood-red light that was vaguely emitted from the Heavenly Emperor's body. Her expression was solemn as though she was afraid that she would miss out on this detail!

This was an astonishing turn of events!

At this moment, the limitless power of the Death Realm was instilled into Long Chen's body and channeled into the Ghost Blood Curse, making him feel like his body was merged with the Death Realm.

Behind him, the illusory image of a thirty thousand meter tall Death Realm appeared. The Divine Emperor s were baffled, as they saw the boundless Death Realm actually appear before their eyes, and that boundless, fiendish aura suddenly erupted. Under that murderous aura, even the Great Emperor of the afterworld, who had already possessed a body, seemed insignificant!

Of course, she was someone who could bear this killing intent, so her face instantly turned pale. Her hands, which controlled the Heavenly Queen's land, were also constantly trembling. At that moment, her face changed drastically.

It was just that at the last moment, Long Chen revealed the explosive move which contained the power of the Death Realm. This kind of explosive suppression was for a very long time, and when it erupted, it was practically a nightmare for everyone!

A sword was sent out!

"The Death Realm is killing us!"

This was the name of the rule, the angry power of the Primordial Blood Dragon. It was the power to control the Death Realm, the power to be born after merging with it. It was pure slaughter, pure destructive power.

The most obvious thing was that Gui Qi did not make a sound, and was enjoying the feeling of being ruthlessly attacked by the force! The Ghost Blood Curse also glowed because of this. When the most vicious rules met the most vicious Creation God Equipment, even if it was the Holy Prison that the Great Emperor of the afterworld fought in, it completely collapsed under the deadly attack of the Death Realm!

It then dissipated once again!

The power that could topple mountains and overturn seas came out explosively. In the end, it tore apart everything, and that sword rushed out to gather the power of the Death Realm. Just when the Great Emperor of the Earth was completely unable to guard against it, the Ghost Blood Curse appeared on her neck.

As long as Long Chen slashed gently, he could take her life.

This time, the damage was great, even without the Ghost Blood Curse, just the fact that Long Chen was able to break through the formation caused her to receive some injuries. His face was pale, and he retreated a few steps.

"You lost."

Long Chen retreated quickly and suppressed the power of the Death Realm. After he finished this rule, the eye above his head also hid away. The sea of blood in his eyes disappeared and returned to his eyes.

At the moment, he looked so friendly, as if he had nothing to do with the extremely vicious him from before.

"Yes!"

Her mind was actually completely blank. Just as she was about to be victorious, she was suddenly defeated in reverse, and her speed was simply too fast. What she remembered most clearly right now was the massacre that happened in the Death Realm just before Long Chen.

If it wasn't for him gathering his strength, she would have already been killed by the Ghost Blood Curse.

Everyone knew how powerful the Ghost Blood Curse was.

After shaking his head, the Great Emperor of the earth finally reacted, and said, "Everyone has seen that I have lost, so there's nothing much to say. Furthermore, from now on, the eighteenth place on the Divine Emperor will be yours. "

This ranking, had even surpassed Great Emperor Changsheng.

Of course, to be honest, Long Chen was confident of defeating the Great Emperor Changsheng, at least the latter wouldn't possess the ability of Pan Gu Possession.

"Awesome!"

Man Ji was also startled for a long time before he finally shouted out for Long Chen. As for the other Barbarian Divine Emperor s, most of them were still shocked and amazed by the previous rule.

"Clap clap!"

If you are willing to help us deal with the Ancient Demon, it will also be a great help to us. Once the chaos of the Ancient Demon is over, I will definitely keep my promise and tell your request to my master so that we can speak a few more words. Of course, whether or not he agrees in the end is not something I can do. "

This was also the greatest help he could do.

"Thank you, senior. I will do my best in the chaos of the ancient demon race and do my best. " Not many Berserkers would be convinced of Long Chen's power after this battle. In truth, the reason why they could not accept it was because of the Ghost Blood Curse, but when they saw Long Chen using the

Ghost Blood Curse this way, they had already vaguely sensed that Long Chen was the most suitable person for the Ghost Blood Curse.

After the Great Emperor returned to the back of the Desolation's master, she was convinced and did not say anymore.

Actually, the reason why she challenged Long Chen was probably because of Desolation. She wanted to see how capable Long Chen was, but didn't expect that she would actually be able to help Long Chen activate this 'Death Realm Murder'.

"With the ancient demon race in a state of chaos, it's extremely urgent. We'll leave first, you just have to follow Man Ji. Goodbye." The Desolation Lord did not speak anymore. He immediately led the five hundred over Divine Emperors away, and then headed towards the Pangu Continent in accordance to everyone's instructions.

"Brother Long Chen, looks like we don't need to enter this Pangu's heart. Then, follow me back to Quipah tribe!" Man Ji walked up with a face full of smiles. Long Chen was brought here by him, so he had a lot of face.

Thank you, Brother Man Ji, for your introduction this time.

The two of them didn't have much time before directly stepping onto the road back. Long Chen turned his head to look at the location of the Pangu's heart, sighing with emotion at the magnificent waves of this place.

"The final rule should be the one that you comprehended the most recently. That's truly amazing. Relying on this rule, I believe that you will not be that passive when you are in the hands of that Di Jun."

Man Ji was happy for Long Chen.

"I'm still a bit away from truly defeating him. We still need to work hard." When he exchanged blows with Di Jun previously, it made Long Chen deeply aware of the danger.

He knew that Di Jun would definitely come often, but he had the Death Realm, so he couldn't hurt Long Chen at all. However, Long Chen could use him time and time again to train himself.

In a few days, he and Man Ji returned to the Quipah tribe. There were many barbarians here, and they had to constantly guard against attacks from ancient demons. Long Chen did not stay in the Quipah tribe, but chose to wander around and tame the ancient demons that appeared.

This way, because of his irregularity, it would not be easy for Di Jun to find him.

"After comprehending the Death Realm's Death Tribulations, my control over it has also increased. Now I can give it a try and let the Heaven's Sacrificial Spear grow."

After finding a place in the endless Pangu Continent, Long Chen stopped.

However, the moment Death Realm unleashed his massacre, she no longer dared to speak to Long Chen anymore. When Long Chen asked her about it, she faltered, wanting to become a vexed little daughter-in-law.

Long Chen focused on the Heaven's Sacrificial Spear.

He had a premonition that when the Heaven's Sacrificial Spear was formed, it would not be any worse than the Ghost Blood Curse.

The fourth Scepter of the Holy Spirit was quickly controlled by him and began to merge with it. The power of the Heaven's Sacrificial Spear increased once again, completely surpassing that of the God-Slaying Sword, and started to advance towards the Creation God Manifestation Art that possessed half of the Eternity.

Long Chen still had room to spare, so he began to control the fifth Scepter of the Holy Spirit. He didn't expect that he would be able to succeed so quickly. He was even more powerful than he had imagined. After fusing with the fifth Scepter of the Holy Spirit, the Heaven's Sacrificial Spear emitted an even stronger light. In fact, it could already be considered a semi-Eternity God Creation Artifact.

Then, the sixth Scepter of the Holy Spirit, although a bit difficult, still succeeded.

Of course, the Heaven's Sacrificial Spear was even fiercer. Now that the silver spear in his hand was releasing waves after waves of sharp light, it was already extremely close to that of a Eternal Creation Divine Artifact, and might not even be inferior to that of a Eternal Creation Divine Artifact.

"The Ghost Blood Curse will definitely kill, and this Heaven's Sacrificial Spear is still just and powerful. You can use it interactively, or else if you use the Ghost Blood Curse for a long period of time, I will also receive its effects. "

When the time comes, he would have to directly control two divine artifacts of the Eternity. Long Chen knew that he could not be hasty with his actions, so he prepared to finish the final step after he reached the Extreme Realm God King.

After finishing his spear, he stood on top of a mountain and thought, "Di Jun has already heard the news that I'm still in the Pan Gu continent. He should still be nearby searching for me by now! I just wonder, if Death Realm's assassination can cause any harm to him! "

Chapter 2978 - Dragon's Sacrifice

Above the peak of the mountain, Pangu's Qi swirled under his feet.

Long Chen looked at everyone present. Currently, many of the barbarian warriors were interacting with each other, as if an extremely strong Ancient Demon had appeared somewhere. He would inform Man Ji and Man Ji would also inform himself.

Ordinary Ancient Demons did not need Long Chen's help for the time being. The barbarians had a large number of God's Legion which could defeat the Ancient Demons. In the Pangu Continent, it had been the barbarians that had defeated the ancient beasts since ancient times. Even if the ancient beasts returned from the dead, it was impossible for them to defeat the barbarians for the time being.

The only thing that the barbarians were worried about was the great damage that the ancient demons would cause to the weaker barbarians.

After all, in history, there had been a case of an ancient demon god who had caused death and destruction. That was the reason why the Desolation Lord was so cautious, sending all of her members out.

"The news of me defeating the Great Emperor of the afterworld and becoming the eleventh rank on the Divine Emperor must have already spread throughout the entire higher realms. Di Jun should have already known. Then, since I have stayed here for such a long time, he should have come looking for me. "

In such a vast primitive level world, Long Chen was not as obvious as the ordinary world. Even if Di Jun knew that he was in the vicinity, it would still be difficult to find him.

"I've finally found you."

Di Jun's voice came from behind him. He had suddenly appeared behind Long Chen, clearly using the laws of space to transfer to this position. However, he was in no hurry to attack.

Long Chen suddenly turned around and faced Di Jun. At this moment, Di Jun's entire body was cold and detached, proving that he was in a very calm state.

"My biggest mistake was letting you enter the Death Realm, and also letting you control the legendary Death Realm's core! Now that you are so capable, it will be difficult to take care of you. However, even if this is the case, I still want to discuss the terms with you. "

Di Jun's eyes were burning as he coldly spoke.

With him in front of his eyes, countless spaces around him were sealed.

"You first." Long Chen was curious, the enmity between the two of them had reached such a stage, how could he possibly negotiate with him? In any case, in Long Chen's opinion, they were mortal enemies in fate. Long Chen could be considered to have suffered countless hardships, and now, they were finally close to resolving his problem! His desire to kill this person had already reached its peak.

Di Jun got straight to the point, "Very simple. Give me the origin dragon palace. From now on, you and I have nothing to do with each other. Of course, I won't kill you."

It sounded as if he had given in.

After Long Chen heard this, he laughed and said, "So you think that you can put me to death this time?"

Di Jun said indifferently, "Even if it is not this time, it is the next time. "What's the difference?" It seemed that he still had absolute confidence in himself. The thing that caused Long Chen the most fear was that Di Jun had many unknown trump cards. To Long Chen, being unknown meant that he was in absolute danger!

"There are some things that you cannot control. Forcefully seizing them will only bring about a calamity to your life. This is your last chance to survive! "

Of course Long Chen wouldn't give the Origin Dragon Palace to him.

He changed the topic and said, "I am actually quite curious, just what kind of divine dragon's inherited blood essence do you inherit? Before you left the Dragon Sacrifice Continent, you weren't so tyrannical. You must have obtained the inherited blood essence and the Origin Dragon Soul, which was why you have improved so much. It seems that in time, you will definitely reach the peak of the Hierarch Realm. "

Di Jun let out a cold laugh, "Seems like you know quite a lot. It's a pity, this way you won't have the qualifications to continue living." I guess you wouldn't agree to that either. "

Long Chen still did not respond to him, but asked instead, "Do you mind telling me, what kind of divine dragon is it?"

Although it was unlikely for Di Jun to answer, it would still be easier for Long Chen to deal with the kind of ancestral dragon concomitant dragon blood that he inherited.

Di Jun's confidence in himself was something that Long Chen couldn't even imagine. He didn't say anything and said: "You are very curious, his name is 'Sacrificial Dragon'. I think the inherited blood essence is about the same as mine. "

As a result, he did not know that Long Chen had inherited the Ancestral Dragon's Inherited Blood.

"Sacrifice the dragon?" Long Chen repeated this name in his heart. He knew that most of the concomitant dragon names that went from the third dragon to the ninth dragon definitely still existed, and they definitely were not Di Jun. Other than this, the only ones remaining were the first ancestral dragon 'origin' and the second ancestor 'origin'!

"first ancestral dragon controls the origin, the origin is related to all living beings' spirit souls, second ancestor controls the origin, and the origin is all living beings. To be able to see, feel, and sense is everything, and space is also a part of the beginning. Then this 'Sacrificial Dragon' might very well be one of the second ancestor's concomitant dragon! The power that he is currently displaying is completely

that of a True Dragon. I wonder where exactly did he obtain the dragon's blood essence and origin palace? "

Hearing this name, Long Chen guessed in his heart that Di Jun was even more difficult to deal with than he had imagined! Today, he would stand here waiting for Di Jun to find him. He only wanted to give it a try, to see if his current self could defeat him! But now it seemed impossible, after the last failure, Di Jun was already prepared!

"This time, he's definitely going to do everything he can to prevent me from entering the Death Realm. If he were to speak to me, he might have been stalling for time to arrange it. If I want to escape, I need to strike first to gain the upper hand! "

"Being able to find out about his inherited blood essence could be considered a huge harvest this time. He had inherited his blood essence and origin dragon soul for such a long time. With such a huge advantage, it would be unrealistic for me to kill him! You can't eat hot tofu in such a hurry! "

In that short moment, under Di Jun's ice-cold gaze, Long Chen thought of many things, and finally decided that he could not let the other party delay him, and he would immediately make his move!

From a state of calm, he instantly reached his peak.

At that moment, the power of the Death Realm gathered and rose. The entire sea of blood of the Death Realm churned, and countless blood beasts roared as they contributed their power to Long Chen!

In that moment, a sea of blood roiled in Long Chen's eyes. The surging sea of blood in his eyes was the real Death Realm!

At this moment, the third blood-red eye between Long Chen's eyebrows suddenly split open, shaking the world, the killing intent that affected the land of ten thousand li swept out. Di Jun, who was right in front of Long Chen, obviously received a huge blow! Di Jun had defeated too many opponents, but he had to admit, this was definitely the strongest killing intent he had ever encountered!

The Ghost Blood Curse was instantly raised above his head!

The blood-red blade that was as thin as a cicada's wing pierced towards the sky. After gathering all of the power of the sea of blood, the Swastika Ghost Blood Curse appeared crazily and moved about in the surrounding space on the sword's body. Even the surrounding space had been easily torn apart by Long Chen like a quagmire or even steel!

From an ordinary person, he became a god of death in an instant!

"The Death Realm is killing us!"

The power of the Death Realm poured down as the laws slashed down. The sword aura transformed into a blood colored True Dragon, rushing towards Di Jun. All of this happened the moment Long Chen finished his thoughts.

Di Jun's expression changed!

He was only at Long Chen's limit the last time, so he was completely focused on arranging the rules that Long Chen couldn't move. Now that he was almost done, his postponement of time was extremely effective.

"Whiz!"

Di Jun instantly moved across.

As long as Di Jun was not too far away, it would catch up. As a result, in a short span of time, Di Jun had changed positions several hundred times in a row, not only was he unable to get rid of the Death Realm, he was also forced to the point of being able to fight against the Death Realm head-on!

"Empty!"

The Death Realm's Tribulations crashed into the attack, and in the blink of an eye, it erupted with millions of killing intent, causing the void created by Di Jun to be completely dyed red. Di Jun bit her teeth, and suppressed the power, but the overflowing force still managed to squeeze through the void!

Swish swish!

A few wounds appeared on Di Jun's body.

Di Jun was enraged to the extreme as she used all her strength to suppress it, only then was she able to cause the Ghost Blood Curse to disappear. After all, it wasn't a true slash from the sword blade, so it wouldn't be that easy for him to die!

But it could not be denied that this was the first time he was injured under Long Chen's attack!

This meant that Long Chen was actually quite close to him.

"Humph!" After settling Death Realm's assassination attempt, Di Jun raised his head to look. Long Chen had long disappeared from his sight. He could not escape, he had obviously returned to the Death Realm!

"I let you escape again, but this time, I'm guessing you'll have to reappear here!"

Di Jun knew very clearly that the last time Long Chen returned to the Death Realm, if he did not appear at the place he disappeared from earlier, it would be impossible for him to return to the Pangu Continent so quickly. After all, Long Chen was not him.

Even though he was enraged, Di Jun still waited here.

In reality, his heart was already shaking more and more. He couldn't even calculate clearly how many times he had let Long Chen escape from his hands. The most terrifying thing was that every time he escaped, he would become stronger. In fact, he could even injure himself this time!

If things continued like this, there might even be a day when he would be defeated and escape the fate of death.

"Perhaps, I only have one last chance. I can't underestimate him any longer. From today onwards, I will treat him as an opponent of the same level as me. The next time, I must kill him in one hit. "

Actually, his plan this time was to delay time, so that Long Chen would not be able to return to the Death Realm. But Long Chen was too smart, saw through his plan, and even attacked him.

When Long Chen was the most careless of times, he would take away his life. However, once Di Jun placed him in a very low position, Long Chen would naturally become even more dangerous.

Chapter 2979 - Abdominal Dragons

When he reached the Death Realm, he had a feeling that Di Jun had already left.

"He actually didn't stay where he was?" Long Chen pondered for a while, and roughly understood. He thought to himself, "Twice in a row, I hid in the Death Realm. With his arrogance, yet having been continuously thwarted, he must have truly viewed me as a great enemy and was meticulously preparing for it. I believe that the next time I appear, even if I have a Death Realm, it would be hard to deal with me. "

Ordinary people wouldn't fall at the same place three times, let alone Di Jun.

This time's Death Realm massacre was only a big surprise to him.

However, such accidents would not occur every time.

"The Death Realm's massacre had worked on him, but it's not easy to kill him. I have to think of a way to reach the Extreme Realm God King as soon as possible. "I can't kill the barbarians. So, the only target is the ancient demon race."

Anyway, he was now the opposite of the ancient demon.

"I must have the power to contend against Di Jun before his next attack."

He could not stay in the Death Realm forever. That would be too difficult to obtain strength.

"The last time I entered the Death Realm in Pangu Continent, the power of the laws that was left in the Pangu Continent was still present. However, it seemed to be about to dissipate. "Although Di Jun has already left, he might still be lurking in the vicinity."

Standing within the Death Realm, Long Chen felt this point from the overflowing sea of blood.

He suddenly came up with an idea. He thought to himself, "I've come back twice from the Death Realm's Dragon Gate in the Pangu Continent, and now that there are still remnants of the rules of the Death Realm's Dragon Gate on those two positions, I can use this method to quickly teleport away. This effect should be more or less the same as Ling Xi's Stellar Transposition!"

This was the world of the primitive level, so it was simply impossible to complete a formation that would exhaust one to death like the Universe Teleportation Formations. It wouldn't be that easy to penetrate such a stable world. Therefore, even the Divine Emperor s had to obediently hurry on their way.

There was around ten days of remaining time before Long Chen could return to that place.

For example, right now, he was worried that Di Jun was still in his previous position, so he directly shifted and left Death Realm, appearing on the way to Pangu's heart.

"Although I still need some time to get back to the Quipah tribe, it's still better than encountering Di Jun."

Long Chen thought as he looked at the towering mountain, the barren land and the Pangu's Qi that was in mid-air.

Di Jun moved like a shadow. I need to get the chance to enter the Living Realm as soon as possible. The most important thing was to raise his strength. 'If I can't swallow the barbarians with my blood, then why don't I go deal with the enemies of the barbarians?' "Ancient demon?"

Under the wisdom of the ancient demon beasts, beheading them was akin to beheading a beast without intelligence.

"Di Jun!"

This battle made Long Chen even more determined to kill him no matter what he had to do! The rage and hatred in his heart had long since been set ablaze.

"There seemed to be hundreds of places in the entire Pangu Continent where ancient demons gathered. Most barbarians wouldn't dare to approach these places. The Gods of the barbarian race would often sweep through these places, but there would always be remnants of them. "Rather than waiting here for the barbarians to attack me, I might as well kill my way in."

After making his decision, Long Chen returned to the Quipah tribe to look for Man Ji. He remembered that there was a place called 'Demonic Creek' near the Quipah tribe. This was the forbidden land of the barbarians; it was the territory of the ancient demons.

"Where are you going? "No, that place is too dangerous. Normally, I would not even dare to venture in here, let alone the rampage of the ancient demons. They are about to swarm out and start a great battle."

Man Ji was worried for Long Chen's safety.

"Don't worry, even Di Jun couldn't kill me." It was the same for a mere Demonic Creek. Right now, the ancient demon horde is surging with dark waves. I can use this opportunity to investigate the situation of the ancient demon. Furthermore, if I do not contribute, how can Ancient God of the Wilderness allow me to enter that Living Realm? "

Since Long Chen had decided on this matter, of course he would be calm.

Man Ji had personally witnessed Long Chen's escape so he naturally believed in him. Thus, he nodded and said: "Why don't the two of us go together? This way, we can look out for each other. "

Long Chen shook his head in refusal, and said: "It's easier for me to hide by myself. Moreover, this Quipah tribe needs your protection. If you leave your post without permission and allow this Quipah tribe to be exterminated by an ancient demon, that would be the responsibility of the two of us. "

After saying that, Man Ji did not persist. He did not know if Long Chen's main purpose was still to become stronger, so he was deeply moved. After he pointed out the location of the Demonic Creek for Long Chen, he respectfully sent him off.

Right now, the Quipah tribe was relatively calm. Only the surrounding small tribes and cities would be attacked by normal Ancient Demons. Of course, war would frequently break out in other parts of the Pangu Continent. Desolation Lord and the other four Hierarchs had all dispatched forces to destroy the ancient demon strongholds to pacify the ancient demon horde.

The ancient demons had not lasted long against the four Hierarchs. For the time being, they had not caused any major casualties on the Pangu Continent. It seems that the Desolation Lord and the rest have already grasped control of the situation.

Long Chen traversed across the mountains and rivers and finally reached the so-called Demonic Creek in front of him.

The place where the ancient demons were hibernating.

"Brother Chen. "Yan'Er is moving."

Just as he was about to enter the Demonic Creek, he heard Ling Xi's slightly weak voice. Long Chen immediately withdrew and stayed away from the Demonic Creek for the time being.

"How is it?"

Honestly speaking, he had been waiting this entire time. After being pregnant for so many years, Ling Xi had almost reached the moment his child was born. Of course, Long Chen had been waiting for this moment to become a father for a long time as well. Ever since he found out that Ling Xi was pregnant, at every moment, he was actually waiting and suffering.

So when Ling Xi suddenly mentioned that her daughter had made a move, Long Chen was immediately frightened. Although he had prepared for a very long time, he was still somewhat apprehensive about becoming the father. After all, this was a life form that he had personally created. No matter how one looked at it, it was a magical feeling.

The magic of life, the crystallization of love.

"It's not the time of her birth yet, but it's almost time. You come and take a look at her ... I can't explain clearly ..."

Ling Xi and Yang You were also present. Long Chen shifted his gaze to the Divine Kingdom and saw that in a palace, everyone was surrounding Ling Xi.

Long Chen's gaze could obviously penetrate her lower abdomen and see the child inside. When he saw it clearly, Long Chen's entire body shivered, he was extremely shocked!

"Yan'er, she actually became a dragon in your stomach."

That's right, the original human-shaped fetus had turned into a red dragon in Ling Xi's stomach. It was curled up with its eyes closed and looked extremely adorable. From the vague aura that it gave off, this little dragon seemed to have inherited the bloodline of the Primordial Blood Spirit Dragon.

"In terms of bloodline, he has completely inherited my Primordial Blood Spirit Dragon bloodline. "It's a little purer than me."

Regarding her dragon face, Long Chen was actually looking forward to it. This was because the Ten Great Ancestor Dragon had never produced any descendants, and it seemed impossible for them to do so either. This was because they were all too strong, and it was difficult for them to produce a bloodline as powerful as themselves, one that could be considered the pinnacle bloodline in the entire Allworld.

But Long Chen seemed to be different. In the entire Ten Thousand Worlds, besides his father, he was the only one other than his father who had inherited an ancestral dragon-inherited blood. Actually, he was born from Long Qinglan and his mother after he had inherited the Great Void Cosmic Dragon's Inherited Blood Essence. However, the starting point of Long Chen's birth was rather low, no different from a mortal.

So from the start, he had thought that she would be the same as him.

But now, it was clearly different. The dragon had already taken human form, and it had even transformed into the Archaic Blood Spirit Dragon's bloodline.

Just like a pure Primordial Blood Spirit Dragon.

This was what made Long Chen suspicious.

Why was it that although she was so weak after she was born, her own child seemed to be very strong? This child caused Long Chen to feel a sense of nervousness in his heart.

are both descendants of the Ancestral Dragon Fighter.

Or was it because of the Mysterious Dragon Jade?

The only difference between him and Long Qinglan was that this Mysterious Dragon Jade, in other words, the current Dragon Jade Dao Seal, had yet to know what exactly this first ancestral dragon was giving him. When he and Ling Xi merged together, the Dragon Jade had already existed at that time.

"I can sense that her bloodline is very strong, and very pure at that!"

Of course, Ling Xi was truly proud from the bottom of her heart, but she was also a bit worried. After all, this was the first child she had with Long Chen, so he was worried that she would successfully give birth to a child.

In its stomach, the tiny fetus was changing between a human and a dragon.

"Yes, it's almost the same as the Primordial Blood Dragon's Inherited Blood Essence that I inherited. It's like she inherited the Primordial Blood Dragon's Inherited Blood as well, but shouldn't Dragon Sacrifice Continent only have one Primordial Blood Dragon?"

He thought, maybe I can directly create a future Archaic Blood Spirit Dragon?

"However, we have all inherited blood essence, but there seems to only be one Dragon Soul ..."

In other words, if the Dragon Face grew up, it would only be equivalent to an Ancestral Dragon that had inherited blood essence and didn't have a Dragon Soul to begin with?

"Even though it's a pity, at the very least being able to reach the Tai Yi Shen Jing, it should be pretty good." Long Chen thought.

"Brother Chen, however, I feel that her soul seems to be different from yours. There's something else you don't have. "

At this time, Ling Xi reminded them.

"What?" Long Chen was truly shocked.

In his eyes, the blood colored little dragon was sleeping. Long Chen could feel that although her soul was weak, it was indeed different from his own. That kind of difference was as if a True Dragon who possessed the origin of a dragon's soul was the same as his own!

"Don't tell me ..."

Chapter 2980 - Little Zu Long

"She even has an Origin Dragon Soul!"

Long Chen almost cried out involuntarily.

This was too exaggerated.

Even though it hadn't even been born yet, it had already turned into a dragon. It was already the same as inheriting the blood essence of an ancient blood spirit dragon. Long Chen guessed that this was related to him inheriting the Primordial Blood Spirit Dragon's Inherited Bloodline, and the Mysterious Dragon Jade that was left behind by the first ancestral dragon. However, even a soul had reached the origin of the dragon's soul. What kind of situation was this?

That Origin Dragon Soul was obviously not the Origin Dragon Soul that Long Chen was looking for. It was the same as Long Yan, both in the state of a fetus and extremely weak. However, it was only a small amount. It was undeniable that in the future, regardless of whether it was the Origin Dragon Soul or others, they would all grow up along with Long Yan.

In other words, at this time, she was completely a newly born Primordial Blood Spirit Dragon!

Long Chen was not completely an Ancestral Dragon yet, but his child that was still in Ling Xi's womb was already a tiny little Ancestral Dragon. As long as she had the time, she could grow into an Ancestral Dragon!

"This ..."

Currently, only Long Chen and Ling Xi knew about this matter.

Of course, they weren't sure if it really was an Archaic Blood Spirit Dragon or not. After all, if it really was, then the disturbance would be a bit less. Once, the Ten Great Ancestor Dragon was born in the land of the origin of the Divine Dragon.

"No matter what, I must make her live in peace and grow up carefree in this world. As for potential and so on, we'll observe more carefully and only come to a conclusion in the end." Long Chen repressed the excitement in his heart in the end, and said calmly.

Ling Xi was also shocked. She was still a little dazed and said: "I just don't really understand, you and her can both be considered the descendants of our ancestor's Dragon Fighter. She was conceived when we were still in True Martial Emperor Domain, and you were still far from being as powerful as you are now.

Long Chen smiled faintly, and said: "Xiao Xi, I think that this should be a present that the first ancestral dragon left for us, or perhaps it was a setup by him. In any case, it's only good for us, it's not bad for us. "Think about it. If every single one of my descendants can be the same as Yan'er, then I won't need to do anything in the future.

This was because it had been a very long time since she had last had a loving look on her face.

"I hate it. You have to be able to afford to give birth to so much. "Who knows what Yan'Er will need after she is born."

That's true.

"When Yan'er is born, we can indeed consider it." However, I feel bad for letting you work hard for so many years. I don't think I'll have such a plan for now. And it may not be easy. "

The two of them temporarily put aside Long Yan's matter and didn't tell anyone else about the origin of the dragon soul. After all, this was too much of an exaggeration. They weren't completely sure yet.

"This child is causing trouble. You and Di Jun have already fought to this extent. She wasn't born earlier or later, but she was born now." If I happen to meet you in battle with him and distract you, that would be terrible. " Ling Xi said worriedly.

"Don't worry, how could there be such a coincidence? No matter what happens, I will protect her and let her live in peace in this world. The happiest thing to grow up with is her being my child. " Long Chen knew in his heart that no matter what happened in this period of time, he would live on and welcome the arrival of this new life!

Demonic Creek.

Temporarily putting aside his Dragon Face matter, Long Chen crossed over a barren mountain river and arrived above this Demonic Creek. In front of him was an endless abyss. There was no end to it, and there was also no end to it below. There was dead gray fog everywhere and that dead gray fog was in fact Pangu's Qi. It was just that after they arrived here, it was transformed into a dark and strange kind of energy.

It was similar to the feeling of the ancient demonic energy.

"There are hundreds of places like this to hide Ancient Demons in the entire Pangu Continent. I wonder if there are any demons comparable to Taiyuan Deity Realm in this Demonic Creek. If there aren't, then I've come here for nothing."

To those hundreds of ancient demons, the Demonic Creek was considered to be one of the smaller ones. The probability of an ancient demon appearing with Taiyuan Deity Realm was rather low. The Ancient Demon that was killed by Man Ji back then might have come here.

However, the danger of this place was unpredictable, so Man Ji would not rashly come here. There was a possibility that even an abyss that looked empty would hide a powerful and terrifying Ancient Demon.

Long Chen passed through the layers of gray fog, entered the state of the Time Traversing Dragon, and headed deeper into the Demonic Creek. He had already seen that there were many Ancient Demons active around, and the majority of them were not as strong as gods and devils, with a small portion being comparable to gods and devils. Although it was only a small portion, there were actually quite a few of them.

Ancient demons above the Divine King were relatively rare. At least, along the way, Long Chen only saw a few hundred of them.

Of course, the Demonic Creek was too big. If all of them were added together, it would be difficult to count them clearly.

There were simply too few people that could make him interested in killing them.

"So it turns out that unknowingly, I am already standing at the peak of the myriad worlds. Even Divine Emperor is nothing in my eyes!"

Long Chen was still somewhat emotional.

Right now, he was in the top world of the ten thousand worlds, but in the entire world, there were only a few that were stronger than him. This was the symbol of strength. When he came to the Ten Thousand Worlds, he had already passed the most difficult stage. To be able to kill Di Jun, he was already the supreme expert of the Ten Thousand Worlds!

It continued to decline.

Occasionally, when he was nearby, he would be discovered by the Ancient Demon. With the Ghost Blood Curse in his hands, once the Ancient Demon rushed over, he could easily kill it with a single slash, which was extremely convenient. His strength was so great that even the ancient demonic beasts were in awe of him and didn't dare to approach him.

After around half a day, he finally reached the bottom of Demonic Creek. There were simply too many Ancient Demons here, but because Long Chen's Ghost Blood Curse was too powerful, after Long Chen killed many Ancient Demons, they didn't dare to approach him!

Long Chen stood on the ground at the bottom of Demonic Creek, surrounded by a large amount of roaring ancient demons. They surrounded him, forming layers upon layers of meat shields, preventing him from escaping, there were at least an estimated hundred thousand of them!

"How depressing, one of them is actually in the Divine Emperor Realm?" Long Chen slashed out with his Time Sword, causing the corpse of the Ancient Demon to rain down like rain, smashing into the ground. A small portion of it directly turned to dust by the Ghost Blood Curse.

In this way, it would be difficult even for him to devour blood.

"The Ancient Demons that alarmed the Desolation Lord and made the barbarians nervous are not at such a level."

Long Chen held onto the Ghost Blood Curse and walked deeper into the Demonic Creek. If there were any Ancient Demons making a ruckus in the way, he would directly kill them and carve a bloody path out of them.

"Ancient Goblin, this kind of creature, has no intelligence and can only devour and kill. It is more like a puppet, somewhat similar to the blood beast in Death Realm. It looks like there is also a secret hidden behind this Ancient Demon! "

After walking for about an hour and killing a large amount of ancient demons, he was suddenly attracted by some strange power. In the depths of the Demonic Creek, he passed through layers upon layers of mist and the corpses of ancient demons, and finally saw a gigantic deathly gray formation appearing in the depths of a deeper abyss. The Diagram Array alone was millions of meters in diameter.

"This formation has been in place for a long time, but it's actually so complicated." Long Chen floated above the array, searching for the core of the array!

"Something's off!"

He stopped.

In reality, the disturbance he was causing right now was very large. Because of the attacks of the ancient demons, he had no choice but to kill them. Even at this moment, a large number of ancient demon corpses fell into the complex grey formation.

After the ancient demon's blood dyed the formation diagram, a monstrous baleful aura erupted from it. The gray aura violently surged as countless symbols on it lit up!

It was as if there was a gigantic beast in the array that let out a world-shaking roar, shaking the entire Demonic Creek. Just as Long Chen lowered his head, a greyish super beast rushed out from within the formation that was millions of metres away.

It was the head of a lion.

It was a completely grey male lion, and it looked just like a rock, similar to the feeling Old Demon Shi Si gave Long Chen. The male lion had a very luxuriant mane, and every mane was a dead gray long snake that was writhing!

Roar!

That roar was coming from this enormous beast!

This was also an ancient demon!

It was a very strong Ancient Demon that far surpassed the one Man Ji dealt with before. Long Chen felt it just a little bit and knew that the Ancient Demon completely surpassed him and Man Ji in terms of strength. It was just that the rules were definitely lacking.

"Good stuff!"

Long Chen wanted to find an ancient demon of this level when he entered the Demonic Creek. It was possible that Ancient Demons of this level were very rare in the entire Pangu Continent, but only this type could help Long Chen!

BOOM!

The male lion rushed out of the formation.

"Sword of Time!"

Long Chen was not courteous at all. He held the Ghost Blood Curse in his hand, and with the Eternal Creation Divine Artifact's sword slashing down, he did not use the Ghost Blood Curse to attack at close range.

RUU...!

The Sword of Time carved out countless sword slashes on the body of the ancient demon.

Long Chen kept the Ghost Blood Curse, and the Heaven's Sacrificial Spear that had already been fused with seven Scepter of the Holy Spirit appeared in his hand, as he was extremely close to the existence of the Eternal Creation Divine Artifact! He held the silver lance in his hands. As the Ancient Demon rushed up, he suddenly dropped down!

"Karma Sting!"

In actual combat, the Karma Thrust was most suited to the Heavenly Sacrifice Spear. The power of karma was also a righteous judgement, and the Heavenly Sacrifice Spear could even display such power! It was a deadly attack!

"Whiz!"

Long Chen's Heaven's Sacrificial Spear fiercely collided against the Ancient Demon's forehead. Under Long Chen's control, the Heaven's Sacrificial Spear deeply penetrated through, flying out from behind the Ancient Demon's head!

No matter how tough the skin was, he could only be defeated by Long Chen at this moment. Of course, Long Chen did not stop, his attacks came wave after wave!

"Extinction Dragon Seal!"

After the Karma Thrust heavily injured the opponent, Long Chen suddenly turned into an Primordial Blood Spirit Dragon. Its huge dragon claw directly pressed onto the Ancient Demon's body, exterminating the Dragon Seal and destroying the soul.
