

War God 3001

Chapter 3001 - The Battle of Destiny

Di Jun was right next to the Pangu's heart, guarding the place. Maybe he had already predicted that one day, Long Chen would appear in front of him.

At this moment.

When Long Chen, who was carrying Ling Xi, who was currently devouring an endless amount of Pangu's Qi, raised his head, Di Jun was in the air, with his left eye like the blazing sun and his right eye as void, looking at Long Chen with a gaze that was scorching hot and cold.

Time seemed to come to a standstill!

"Brother Chen ..." Ling Xi called out softly. Facing Di Jun, she naturally couldn't hold back his nervousness, but very quickly, a resolute expression appeared on her face as she said, "Don't worry, go fight. When you return, I will make Yan'er and I see you safe and sound.

Destiny, allowed Long Chen to complete this fate duel at this most important moment.

"Then, we must abide by the agreement." Long Chen gazed into her eyes and saw Ling Xi's resolute gaze. This was the time where he trusted Ling Xi the most.

Since fate had decided at this time, it was also the right time for him to pour out all his anger and passion at this moment!

At this point, the Ancient God of the Wilderness and the Desolation Lord were roughly aware of what was happening on their side. Only, according to the agreement, they stayed in the Pangu's heart and did not participate in the competition between Long Chen and Di Jun. In fact, all the experts of the Pangu Continent could feel the rivalry in this place!

The news of the duel between Long Chen and Di Jun had already spread across the entire Allworld. There were countless people waiting for a new battle situation as well. Today's battle was destined to shake the entire Myriad Worlds. The consequences were unprecedented!

The battle for the first rank of the Divine Emperor!

Who was the strongest Divine Emperor among all the Divine Emperor?

The suspense, all of it was today!

Long Chen decisively gave Ling Xi to Yang You, Jade Flower Divine Emperor and the others. They were all women, and understood this kind of thing better than Long Chen. If there was anything troublesome, the Undead Phoenix could help. She was just nearby and had rushed over at this time. Because of Zhu Xi, Undead Phoenix and Long Chen's relationship was very good.

"Don't waste time!"

Di Jun suddenly sneered, with a wave of his hand, a gigantic pillar of fire descended from the sky, smashing towards Long Chen. In an instant, it was as if all the Pangu's Qi had been ignited, causing the sky above Pangu's heart to become incomparably bright!

Di Jun was not a gentleman, his target was not only Long Chen, but also Ling Xi.

As long as Ling Xi had no choice but to stay in this place, this was what he relied on. In order to obtain the Origin Dragon Palace, he was actually just a lowly person.

Without saying a word, Long Chen left Ling Xi this time. Under everyone's gaze, he rushed into the clouds and hacked apart the pillar of fire with a single slash. Under his sweeping motion, the pillar of fire split into two and shot left and right respectively, forming a sea of fire in the sky.

And Long Chen was already in front of Di Jun.

"Let's go." Long Chen looked at him, and then started to head towards the starry sky. Di Jun could tell from his eyes that Long Chen would not escape this time, he was already prepared. In this way, Di Jun could relax for the time being. Of course he wouldn't be despicable enough to want to first kill Ling Xi to this extent.

"Whatever, I'll give you a fair fight." Di Jun smiled faintly and followed Long Chen. Under the watch of hundreds of millions of eyes, both of them rushed into the starry sky. The huge Pangu Continent gradually shrank in their eyes.

Her smile and calmness were the most majestic power in Long Chen's heart, as well as the little life in her stomach. That was the source of all of Long Chen's fighting spirit. This was unprecedented!

He could not forget Ling Xi's smile, could not forget the pulse of that little life. It was precisely because of this that, at this moment, as his husband and father, he seemed so confident, so righteous, and so full of fighting spirit! When they arrived in the endless starry sky! Long Chen knew that this was the battlefield he wanted. Fighting in this place, at least it wouldn't affect Ling Xi!

But of course, the experts of the Pangu Continent could also see the state of their battle!

Ten thousand meters away, Di Jun stood in the air. On his left, there was a raging fire, his blonde hair fluttered in the wind, and the right side was blurry and indiscernible, as if he didn't even exist. The power of the laws had begun to spread before the battle even began!

What frightened Long Chen the most was that there was a layer of strange thing on Di Jun's body, he could not tell what it was, but it was like an armor and had already fused with him. Long Chen could not imagine how hard it was to break through. What he could feel was that this thing definitely had something to do with the Dragon Sacrifice Continent!

"When I was in Pangu's heart, I once felt a fluctuation that even caused a reaction from the Origin Dragon Palace. This must be what Di Jun has now, and it must also be his trump card. Whether I can win or not will depend on whether I can break this trump card!"

At this point, Long Chen had no way to think about the matter that he was confident in; he could only win, and return alive; this was the only choice he had! There was nothing more important than being a father and husband and meeting his own daughter and woman!

It was a wave of immortal energy, a wave of mental will. Even if he did not close his eyes, what Long Chen saw was Ling Xi smiling at him, it was the movement of that little life!

He was moved.

To be moved by life.

Di Jun found it hard to understand Long Chen's current emotions. He even more so did not understand that this was actually the moment where Long Chen's condition was at its peak. Everyone yearned for something different. To Di Jun, the so-called daughter was nothing more than a trivial matter. It was not as important as the Origin Dragon Palace that he wanted!

"Unfortunately, it seems that you care a lot about your children who are about to be born. However, this is fate. You will not have the chance to see them again. When a child was just born, his father's death in battle was indeed a sad thing. However, you seem to have no other choice. "

Di Jun enunciated each word as he spoke.

Long Chen's eyes were indeed calm like never before. He said, "The reason the so-called Human God is noble is because of emotions. A heartless person like you is no different from a beast in the mortal world. I'm not qualified to talk about me. After coming here today, I won't flee anymore. You chased me for dozens of years and crossed over half of the ten thousand worlds. Today is the final destination. "

Di Jun laughed coldly, "Yes, but it is your final destination, my new starting point." Everything in the Dragon Sacrifice Continent belongs to me. It is true that you are heaven defying, but unfortunately, you were born too late. "

"Since that's the case, there's no need to say anymore. Many years of grudges, destiny against an enemy, today, I, Long Chen will settle this with you thoroughly! "

"Of course, that's what I want!"

He had chased Long Chen for too long, time and time again reaching the limit of what he could endure. For the sake of today's arrival, he had truly waited for too long, so he was excited, extremely excited. His excitement and fanaticism were the most insane forces in his body at this moment!

Roar!

He seemed to be unable to suppress the rage in his heart. He looked at Long Chen and roared like a wild beast! Everyone was looking at them, witnessing this battle, as well as Di Jun's madness! Under this kind of insanity, Long Chen indeed appeared to be extremely insignificant!

It was just that in Long Chen's eyes, it was as if he had returned to his childhood. It was true that he was powerless, but the other party was also just a wild wolf. What he needed to protect was something, and he had strong emotions in his chest.

"Your life, everything about you! "I, Di Jun, will definitely take it!"

At that moment, right in front of Long Chen's eyes, Di Jun suddenly split into two, with the golden-haired Emperor Jun and the silver-haired Emperor Jun appearing. The golden-haired Emperor Jun was furious, like a sun being refined, the flames were dense, and the silver-haired Emperor Jun was cold and indifferent, like a mysterious void, fusing together with space, it was simply omnipresent.

If they were split in half, each clone would be incomparably powerful! At this moment, Di Jun's aura was overflowing, and he had indeed brought a kind of frightening pressure to Long Chen. Fortunately, he had fought against the Desolation Lord before, so he was confident!

As a result, even though there were layers of flames and the Emperor Jun was like the sun itself, it was not that terrifying.

In that instant, a battle erupted! Di Jun charged forward, directly taking action! Among them, the golden-haired Di Jun was in the front while the silver-haired Di Jun was behind. Faintly, Long Chen could see that the golden-haired Di Jun was holding onto a stone in her hands. But, it was definitely a Creation Divine Artifact from the Eternity!

Before he could take a closer look, the golden-haired Di Jun, under his incomparable fanaticism, unleashed an attack!

The stone in his hand was the Everlasting Stone!

did not know now that the Eternal Harmony Stone that had once suppressed the Dragon Sacrifice Continent and stabilized it had actually been destroyed by Di Jun.

"I train in the Dao of the Sun, and am not weaker than Shen Yi. Refining the Sun isn't just a part of Shen Yi's domain!"

The golden-haired Emperor's aura was vast and majestic. For a time, large areas of the starry sky began to burn under his control. At this moment, the eternal stone in his hand erupted with an unprecedented superb light, piercing through the world!

Even on the Pangu Continent, this light covered almost every inch of it!

BOOM!

An explosive sound came from the sky.

And then everyone could see, with the eternal stone and the golden-haired Emperor as the core, an incomparably large fireball was being born, growing bigger and bigger, directly surpassing the ordinary sun, and growing stronger as well. Such a large fireball could only be the Sun Refining!

Chapter 3002 - Forbidden Area

The fireball in front of Long Chen, with the golden-haired Emperor Jun and the Eternal Stone at its core, was extremely huge.

"If this rule were to be thrown onto the Pangu Continent, it would definitely cause a terrifying amount of damage, even more than the damage caused to the barbarians by the ancient demon horde!" The other party practiced the rules of the day. "Then this evolution is to refine the sun."

Even at this moment, Long Chen's mind was still calm.

Compared to the huge fireball, his entire body was covered in waves of fire, making him look extremely small. And Di Jun's power was vast! Honestly speaking, just this rule alone was not any weaker than Desolation's Desolate God Fist.

"All Things Ashes — Sun Refining Emperor Flame!"

In the midst of the sun refinement, an endless wave of sound exploded out. In the eyes of everyone, the gigantic sun refinement had already crushed towards Long Chen, it was simply too terrifying, and everyone couldn't help but worry for Long Chen.

The flames were too fierce, too fierce!

To Long Chen, there was only one thing in the entire world ahead, and that was this incomparably huge fireball that was suspended in the starry sky.

And the rule of burning everything down!

RUU...!

As the Sun Refining Emperor Flame moved, even the starry sky was set ablaze. Countless fragmentary stars were instantly turned into ashes. It was as if he was using fire to create a world!

Such a rule, it could be seen how Di Jun wanted to kill Long Chen! The moment he made his move, it was an absolute killing move!

Inside the Divine Kingdom, inside the Living Realm, on top of the Pangu's heart, countless people who were concerned about Long Chen couldn't help but clench their fists as they watched this scene. Even under the test of the flames, their eyes did not dare to leave!

Bang!

In their line of sight, Long Chen had moved!

It was hope and dawn.

Facing this terrifying Sun Refining Emperor Flame, Long Chen had been calm throughout. When the Sun Refining Emperor Flame approached him, he had long since made his preparations, and had also made his plans.

Weng! *

In front of the Sun Refining Emperor Flame, his extremely insignificant self suddenly brought out the Buried Heavens Coffin!

"Grow!"

The Eternal Creation Divine Artifact, under his control, infinitely increased, and blocked Long Chen's eyes. The Buried Heavens Coffin, under his power, revealed its limits, and the huge bronze coffin, with countless floating skeletons on it, appeared in front of everyone. It was incomparably fierce, and formed a stark contrast with the power of Di Jun's righteous flame!

The Buried Heavens Coffin. A bloody light began to spread!

Long Chen's movements were extremely straightforward. He controlled the Buried Heavens Coffin and directly swallowed the Sun Refining Emperor Flame, while the golden-haired Emperor Jun and the Everlasting Skylight Stone were both the core of the Sun Refining Emperor Flame. Therefore, they were both directly swallowed by the Buried Heavens Coffin!

When Buried Heaven Coffin's lid, the heat and light between heaven and earth suddenly disappeared, as if the Sun Refining Emperor Flame had never appeared. Just as everyone found this miracle hard to accept or understand, the entire Buried Heavens Coffin began to shine once more, and even began to burn!

"Although Long Chen used this Creation Divine Artifact to suppress Di Jun's rule, Di Jun's rule is too strong and fierce. He is currently fighting back inside this Creation Divine Artifact, if Long Chen cannot do it, even the Creation Divine Artifact will be broken!"

The Desolation Lord explained to the Divine Emperor s.

Right now, they were purely competing to see who was stronger. Was it the Sun Refining Emperor Flame that destroyed the coffin, or the coffin that suppressed the Sun Refining Emperor Flame?

Amidst everyone's anticipation, the answer was instantly revealed. Long Chen descended from the skies and landed atop the Buried Heavens Coffin, his eyes now filled with a hypnotic color. Both of his hands instantly pressed onto the Coffin of Buried Heavens!

"Great Void Heart!"

To date, the most tyrannical rule of time.

It directly happened inside the sealed Buried Heavens Coffin.

At the same time, he had also used the power of the Buried Heavens Coffin!

The Great Void Heart had both the power of time stillness and time acceleration. It was almost equal to the time prison and the white skeleton. If one used it in the Buried Heavens Coffin, its might would surpass the demon's return to chaos and chaos! It was even faster and more violent! The Buried Heavens Coffin could be said to be controlled by Long Chen!

BOOM!

Under the effects of time, Long Chen unleashed his ultimate killing move right from the start in order to kill the golden-haired Emperor! The Buried Heavens Coffin and the Great Void Heart were almost definitely the strongest combination he had right now!

And it was his first time trying it out!

He was actually very confident!

This was definitely going to be a terrifying match for Di Jun!

In that instant, the Buried Heavens Coffin stopped moving and became a time prison. And those rules that resembled beautiful bones, when they fell on the golden-haired Emperor's body, were simply unable to resist. No matter how powerful his Sun Refining Emperor Flame was, he could not do anything at this time!

"It's a success!"

Long Chen was not overjoyed, all of this was actually in his plan. When he saw that the golden-haired Emperor had already started to weaken under the power of time, Long Chen immediately threw Mo Xiaolang into the Sky Burying Coffin.

Roar!

After rushing in, Mo Xiaolang turned into a Sun Devouring Demonic Wolf, he had been waiting for this moment for too long. Right now, the golden-haired Di Jun who had the heart of the Great Void was not his match at all!

The three colored Ancestral Flames quickly charged forward.

Before the Sun Refining Emperor Flame's power had disappeared, it was as if the Sun Devouring Demonic Wolf was watching a feast, heartily gorging on it. Of course, the fastest person it was, was still someone who directly used the Forbidden Land of Fire to swallow the golden-haired Emperor!

"Long Chen!"

The most terrifying part of the Edicts of Time was the fact that once one was caught in it, there would be no corresponding time rule to alleviate it. There was only the possibility of death, who let Di Jun be directly hit by the Heart of Great Void?

"You've lost!"

This way, he would be able to forcefully take a majority of the energy from Di Jun's body. Of course, the Sun Refining Emperor Flame and the Eternal Heaven Stone were both his targets, and now that Di Jun was powerless to go against the laws of time, Long Chen saw that the flames on the coffin had gradually dissipated and knew what to do, so he directly took care of the coffin.

Such an action naturally caused a huge commotion in the Pangu Continent.

Although, you don't know the exact process

However, it was very obvious that when Long Chen was able to pack up the Buried Heavens Coffin, it basically meant that the golden-haired Emperor was unable to come out. The battle had only just begun, and Long Chen had already killed one of their fire clones?

Destroy half of the enemy?

Didn't that mean that he was certain that he would win the battle? In fact, he was definitely capable of suppressing Di Jun!

After all, they thought that this would be a huge battle. At least, at the moment, most people believed that Di Jun had a better chance of winning, since he had suppressed Long Chen the previous few times.

To turn defeat into victory so quickly?

In fact, even Long Chen himself felt that it had gone somewhat smoothly. However, he was very confident at this moment. After the golden-haired Di Jun had been devoured, there was nothing he could do about it. Mo Xiaolang was a member of the Heaven-Devouring Realm. His devouring meant the death of the golden-haired Emperor. With half of the enemy's combat power dead, what was there to worry about?

"It seems that I have slightly underestimated the destructive power of the Great Void Heart." This thought flashed across Long Chen's mind.

Suddenly, despite the cheers from the crowd below, he sensed danger!

Too successful?

The golden-haired Emperor Jun Zhan had died. The silver-haired Emperor Jun had died?

Why did he allow him to kill the golden-haired Di Jun? Was he a fool? Obviously not.

From the very beginning, he had seemingly disappeared, especially now. In this entire world, there was no trace of him, and at that moment, Long Chen felt a chill down his spine! On the surface, he looked like he had achieved a complete victory, but in reality, it seemed like Di Jun was still in control of everything!

At this moment, there was a feeling of suffocation.

The silver-haired Emperor Jun was here!

He had been hibernating for a long time, and even if he had to sacrifice the golden-haired Emperor, he would give Long Chen a fatal strike at this moment! It was not that Long Chen had the upper hand and crushed Di Jun, but he had fallen into a trap!

Most likely, not many people in the Pangu Continent knew of this!

Suddenly, the silver-haired Emperor appeared before Long Chen's eyes. He lost a clone, but he did not react at all. There was even a strange sneer on the corner of his mouth. This showed that everything was still under his control.

When Long Chen saw him, it was already too late. After all, for this moment, Di Jun had already been preparing for too long.

"Door of the Universe - Forbidden Area of Eternity."

The Space Laws!

Using the universe door to unleash the laws of space! The instant Di Jun appeared, in fact, right under Long Chen's feet, the door to the universe opened without form, it was already within reach, there was no way to dodge it. Inside the door to the universe, a terrifying space directly engulfed Long Chen!

One could imagine, for an existence like Di Jun, to use this move, it would still take such a long time and also need the golden-haired Di Jun as a cover, then how powerful the rules of the 'Eternal Forbidden Area' would be. At the very least, when the power of the laws erupts, Long Chen would not be able to stabilize and be directly devoured!

It was as if the golden-haired Di Jun had been swallowed into the coffin. Long Chen had been swallowed into the laws of space at this time, and he disappeared from everyone's sight!

At that moment, Long Chen thought of many things.

He finally saw a detail, which was that when Di Jun was fused into one, the treasure in the primitive level was fused into two. However, after separating the two, the golden-haired Emperor did not have any protection at all, while the silver-haired Emperor had everything.

Furthermore, second ancestor's concomitant dragon Dragon Sacrifice specializes in the laws of space, but it does not have any rules of fire.

Long Chen had always thought that the other party's two clones, the golden-haired and the silver-haired, were of equal status. But now that he was engulfed by the laws of this 'Eternal Forbidden Area', he knew that this was not the case, and it was even possible that the silver-haired Emperor's true form was this silver-haired Emperor. As for that golden-haired Emperor, it was even possible that he didn't care about it at all!

BOOM!

In shock, Long Chen fell into a mystical space.

The space inside was not very large, and there were smooth grey walls on all four sides. However, it was definitely completely sealed off, and the moment Long Chen entered, the door to the universe immediately closed up.

"This kind of space, as long as I open the Death Realm's dragon gate, I can return!"

Long Chen knew in his heart, that it was like a coffin of the sky, unable to trap him!

However, when he used the rules, he discovered something horrifying.

Chapter 3003 - The Revitalization of the Earth

This was a strange space.

It was the eternal law of the forbidden region of Di Jun.

The space was not very big, but was trapped inside like a coffin.

When he first came in, Long Chen was not too worried. Just like the Graveyard of the Heavens, he could completely move the coffin away from the Death Realm. However, just as he entered this Forbidden Area and was about to open the doors to Living Realm or Death Realm, he suddenly discovered that he was unable to move in this Forbidden Area.

This was an absolutely sealed space!

It was one of Di Jun's uses for the Spatial Freezing technique.

"There's no need to struggle. Even Hierarch was unable to move after falling into the Forbidden Area of the Universe that's been activated for an eternity. I used my avatar to attract your attention. I spent so much effort to use this rule, so how can I let you leave so easily? "

In this grey coloured space, the silver-haired emperor suddenly appeared before Long Chen's eyes.

Of course, he could move about freely.

The freezing of space was similar to the freezing of time. However, they were not the same. One of them was suppressing the time from space while the other was locking the time in place. It is different in nature, but the effect is the same. And in the Forbidden Area of Eternity, the laws of space that Di Jun had been brewing for a long time were evidently much more terrifying than the time prison of the Heavenly Demon!

"I just didn't expect that you would be able to kill my clone while I was preparing to stay in the Forbidden Area for the rest of my life. Obviously, you, Long Chen, already possess the strength to fight against me. Unfortunately, you have still been defeated. "

This was a transparent divine sword, slender and clean, as though it was a transparent crystal. Only by looking carefully, would one could see the impressiveness of this divine sword, because there were actually over ten thousand spaces hidden within, and within each space, it was as if there was a true world.

"Oh, this is a Myriad Realms Divine Sword. There are ten thousand worlds inside, corresponding to ten thousand worlds in a ten thousand world. This is the microcosm of a ten thousand world."

This was a spatial sword!

It was formed from ten thousand spatial fragments, including the Pangu Continent and the Three Layered Heavens.

This was Di Jun's true weapon!

He casually waved his hand, and all ten thousand worlds inside began to collide. Terrifying spatial fluctuations were emitted from the circulating space.

At this moment, he was standing right in front of Long Chen, and those empty eyes narrowed as they looked at Long Chen. The Myriad Realms Divine Sword slightly raised the Creation God Manifestation Weapon of the Eternity. On the strength level, this Myriad Realms Divine Sword completely suppressed the Ghost Blood Curse, and it was even more powerful than normal Eternal Creation Divine Artifact.

"I've been preparing for the Forbidden Area for an eternity since the last time I let you escape. Today, I've finally used it for real. As my cultivation level increases, the laws of raging flames gradually lose their effect. It is far from the laws of space, and a long time ago, it had already become a burden to me. "I am unwilling to part with it myself. Today, you helped me kill it, but in reality, you have also opened up a new path for me. A pure path of cultivation."

No matter what he said, Long Chen was unable to move or even speak a single word.

The frozen space, like countless gigantic mountains pressing down on Long Chen's body, could actually use her primordial spirit to communicate with Di Jun, but there was no need for it. What Long Chen wanted to do with all possible means, was to think of a way to break Di Jun's eternal forbidden zone!

"It's over!"

Di Jun couldn't help but laugh out loud.

He had been waiting for this moment for too long.

Not only was he stronger than Long Chen, he had also long prepared a plan beforehand. The loss of the golden-haired Emperor was nothing to him. His foundation was the law of space. This was also the reason why he had transferred the Primordial Dragon Pagoda to this body.

Their gazes met!

With the wave of the Myriad Realms Divine Sword, Long Chen could already feel the danger of death.

"What a coincidence, is your child about to be born? I understand your feelings a little now. Unfortunately, fate had brought you here, so you could only bear it. If you were to say that the two of us are people that the Dragon Sacrifice Continent has chosen, people that the Divine Dragon has chosen, but in the end, I am stronger than you. Once I get what you want, I'll have a broader future! "

The Myriad Realms Divine Sword was stirred.

Di Jun raised his Myriad Realms Divine Sword high up, his silver hair fluttering in the wind.

"You don't want to say a word before you die?" Di Jun looked into Long Chen's eyes and said solemnly.

Long Chen was unable to move. Even though he was extremely angry, the power of the frozen space made it impossible for him to move or show it on his face. Di Jun saw the calm Long Chen, his eyes were calm.

"Oh, it's not that you have nothing to say, but you're desperate. I understand you! "

Until now, when Di Jun made his move.

Outside the Forbidden Area of Eternity, everyone was anxiously waiting for the results. Everyone could see that although Long Chen had killed the golden-haired Emperor, he seemed to have fallen into the silver-haired Emperor's rules and had not come out. What had happened to him?

When she was close to death, under the protection of Yang You and the others, Ling Xi was a little exhausted. However, she could not help but open her eyes wide, looking at the movements in the starry sky, and her heart started to race. No matter how she called out to Long Chen, she did not reply.

"Brother Chen!"

Ling Xi slowly closed her eyes. She had an extremely bad premonition ...

But that didn't scare her.

"My mission is to let Yan'er be safe, and then welcome his victorious return. I cannot give up, and he will definitely not give up."

Ling Xi knew what kind of person Long Chen was.

He definitely would not admit defeat before seeing that his wife and daughter were safe and sound. He would definitely accomplish what he had promised Ling Xi! Remembering the promise Long Chen made to her before he left, Ling Xi clenched her teeth. Even if Long Chen's movements were to be even quieter now, her heart was still filled with hope. In the most critical matter, Long Chen had never let him down!

The Forbidden Area of Eternity!

"Die!"

Di Jun instantly moved his Myriad Realms Divine Sword in front of Long Chen, who was unable to move! For a time, over 10,000 worlds began to move. A terrifying power that tore through space erupted outwards!

"Forbidden Area Annihilation Slash!"

One slash, sweep!

Even in this Forbidden Area, everything was destroyed by the tearing power of space.

"This, is the final destination for you, Long Chen!"

Di Jun roared.

His voice echoed throughout the entire Forbidden Area.

BOOM!

Under the destructive slash of the forbidden region, right in front of Di Jun, the body of Long Chen, who was imprisoned in the eternal forbidden region, began to crumble bit by bit in the midst of the destructive laws of this space. It was practically turned into ashes, and it was not only Long Chen, even the entire forbidden region was being destroyed!

The Forbidden Area and the Forbidden Area Annihilation Slash were actually just a single rule. The Forbidden Area imprisoned the opponent with the power of space, and the Forbidden Area Annihilation Slash combined with the power of the Forbidden Area to shatter everything!

BOOM!

What everyone saw was a transparent sword Qi soaring into the skies. The transparent sword Qi wreaked havoc everywhere, and the space within the radius of 10% of the Pangu Continent was shattered by this sword Qi! In fact, this was also the explosion of the Forbidden Area for eternity!

This was practically one of the most terrifying killing moves that Di Jun possessed within the laws of space. Long Chen had already merged with the Eternal Demon Abyss, so the explosion and destruction of the Eternal Demon Abyss was his destruction!

Di Jun suddenly appeared, the Myriad Realms Divine Sword was still rippling with endless spatial energy, tearing through everything. Everyone saw Di Jun, the trillions of miles long stream of sword qi, and the countless spaces in front of his eyes that were destroyed!

And Long Chen, simply did not exist!

RUU...!

An endless explosion reverberated between the heavens and the earth, causing a massive explosion that shook the entire Pangu Continent!

Long Chen disappeared into the starry sky.

Other people might not have seen it, but Di Jun could clearly feel that Long Chen had already been torn apart by the laws of space while the Forbidden Area of Eternity was being destroyed. Of course, Di Jun wouldn't doubt it. After all, even if it was a Hierarch, as long as they were trapped in the Forbidden Area, even if they didn't die, they would still be seriously injured!

The Myriad Realms Divine Swords were famous for their destructive power. Back then, Di Jun had relied on only the Myriad Realms Divine Swords to fight his way to the top of the Divine Emperor's leaderboards!

BOOM!

Most people saw this.

Di Jun couldn't hold back his laughter anymore. Above the starry sky, his silver hair was dancing in the wind. The surrounding space was filled with destruction.

"Could it be that Long Chen has already died in battle?"

"What a pity!"

In the end, even the Ancient God of the Wilderness sighed. The situation that they didn't want to see happened. Moreover, it happened in a situation like this, and it was indeed a bit hard to bear. After all, the child he had been waiting for for for for a long time was about to descend into this world.

Having just been born, and he just happened to lose his father?

For a moment, the entire Pangu Continent was silent, and the gaze they used to look at Ling Xi was also filled with pity.

"Long Chen, dead!"

Di Jun's voice spread throughout the world! After so many years of chasing, he was naturally extremely excited after having waited so long for this day to come. An unprecedented sense of accomplishment overwhelmed him.

"Xi Er!" Yang You shook her head as tears started to flow from her eyes.

"Aunt You, did you forget?" He can bring the dead back to life! "

Ling Xi's gaze was firm as she looked at the starry sky, as if confirming her words. Just as she finished speaking, just as Di Jun was about to open up his Divine Kingdom to look for the Origin Dragon Palace, countless green lights gathered. About a kilometer in front of Di Jun, a huge power was accumulating and erupting!

BOOM!

At the moment when everyone was feeling helpless!

Suddenly, with an explosion, Long Chen's figure appeared there, unharmed, her battle intent overflowing, her killing intent heavy!

In his right hand, the Ghost Blood Curse shone with a crimson light that spanned 10,000 miles!

On his left hand was the Heaven's Sacrificial Spear, radiating light that shot into the sky!

At this moment, Long Chen raised his head amidst the sword and spear, paying with his life, in exchange for another equal opportunity to battle. At this moment, it could be said that both Di Jun and him had died!

When he raised his head, those sharp eyes caused Di Jun's smile to freeze. The moment their eyes met, sparks flew out!

Chapter 3004 - Reappearance of Life and Death

On his left hand, the emerald green circle that had brought him back to life had already dimmed down.

He didn't know when it would be the next time it would shine again. This was Long Chen's only remaining chance! After experiencing the previous confrontation, each of them had a certain degree of

understanding. Just as Long Chen appeared and Di Jun was shocked, Long Chen unleashed an unprecedented tyrannical attack from the starry sky!

This was his limit!

BOOM!

In the blink of an eye, the sky exploded!

All of a sudden, a dark green sea of life formed in his left eye and a rolling sea of blood formed in his right eye. The power of life and death was perfectly combined at this time!

The most important thing was that the eye at the center of the brows appeared. That was the fusion of the Death Realm's core and the core of the Living Realm, fusing life and death together to form a strange eye that was jade-green in color and blood red in color!

BOOM!

Behind him, to the left was the image of an endless ocean of life. That ocean of life had created a huge whirlpool behind Long Chen, so huge that even the people on the Pangu Continent would think that it was even able to cover the entire sky.

To the right was a sea of blood that was filled with endless killing intent and uprising power! "Kill him!" "Kill him!" "Kill him!" "BOO!"

Long Chen's position was exactly in the middle of these two seas and two worlds. At this moment, he had gathered almost all of his power from both the Life and Death Realms. While Di Jun was still in shock, he took advantage of the opportunity and unleashed this peerless move that was destined to be passed down through the ages!

"The Death Realm is killing us!"

"The Living Realm is killing us!"

Adding up all of them, if they were to be used at almost the same time, then that would mean that they were using life-and-death tribulation!

When the Ghost Blood Curse erupted with the Death Realm's power of slaughter, the Heaven's Sacrifice Spear carried the laws of life within the entire Living Realm, and pierced towards Di Jun! Di Jun, who was just inches away from him, could not dodge at all. He also could not escape because the power of the Living Realm had already locked onto him, making it impossible for him to escape!

"Kill!"

In the eyes of the barbarians of the Pangu Continent, the power of life and death was perfectly combined!

The power of the laws!

Facing all these, no matter how depressed Di Jun was, he still had to go from being shocked to fighting. Obviously, Long Chen was back to life. This was the truth. Even if he could not believe it, it would not change this fact!

His eyes were illusionary, and were cold and emotionless, but he still maintained his composure. He held onto the Myriad Realms Divine Sword with both of his hands, and just before the life-and-death tribulation descended, he shouted loudly, and the laws of space were activated. Using the Myriad Realms Divine Sword, he slashed out yet again!

A sword slashed down!

"Universal Extinction Slash!"

The Forbidden Area Annihilation Slash was different from the previous Forbidden Area Annihilation Slash. It was only a part of the Forbidden Area. As the sword slashed down, something horrifying happened. Within tens of millions of meters of the sword, the space near the Pangu Continent was completely shattered!

This attack of Di Jun's was enough to destroy an entire world!

Endless amounts of spatial fragments, condensed into a gigantic sword, pierced towards the life-and-death tribulation!

This was a clash of pure power of laws, a clash of strong powers, and was the best way to distinguish the absolute combat strength of both sides. In the space that Long Chen resided in, other than the place where he stood, everything else was in the midst of destruction!

For a time, all life was destroyed!

life-and-death tribulation and Universal Extinction Slash crazily clashed!

Heaven and Earth were destroyed!

The Edicts of Life and Death, and the Edicts of Space.

"Break!"

Long Chen used the Death Realm to clear the way, and the Living Realm followed. With the cooperation of the two, each of his rules were not weaker than the Universal Extinction Slash. Under the dual attack, the Universal Extinction Slash that Di Jun was most satisfied with was instantly destroyed, shattered, rammed, and destroyed under the attack of his rebirth!

BOOM!

"Wow!" Everyone cried out in alarm.

They saw, the life-and-death tribulation had broken through the Universal Extinction Slash, and even if the entire world was exterminated, they still charged into Di Jun's body. Long Chen's Ghost Blood Curse and Heaven's Sacrifice Spear almost descended onto Di Jun's body at the same time!

"Die!"

Under the impact of the life-and-death tribulation, even though Di Jun was facing the attack head on, according to Long Chen's estimation, he would definitely die! In this fight, Di Jun had completely lost!

After all, Long Chen's rebirth was too strange!

As long as the Ghost Blood Curse slashed across Di Jun's body, as long as the Heaven's Sacrificial Spear could pierce through, Di Jun would die and be turned into ashes!

At that moment, flames sprayed out of Long Chen's eyes!

"Di Jun!"

"Long Chen."

But even so, at the last moment when the Ghost Blood Curse stabbed into his body, Di Jun suddenly gave up all resistance and allowed the Ghost Blood Curse and the Heaven's Sacrificial Spear to stab into his body! In the next moment, Long Chen realized that what he had stabbed into was not Di Jun's body, but something else!

"A Creation God Manifestation Weapon!"

He knew what it was!

When his weapon struck Di Jun. A transparent pagoda appeared on Di Jun's body, completely enveloping Di Jun within it. The Ghost Blood Curse and the Heaven's Sacrificial Spear were not able to pierce through them, and were almost crushed as they collided with Long Chen. Long Chen's entire body was also sent flying backwards!

Di Jun was also sent flying!

After a life-and-death battle, the two were separated instead.

BOOM!

Such a scene also made everyone's heart clench. After all, their battle had reached its climax from the very beginning! Initially, Long Chen thought that he would reach the end after killing the golden-haired Emperor. However, Di Jun instantly suppressed it, causing Long Chen to almost lose his life. This time, Long Chen turned the tables, and when he was about to kill Di Jun, he did not expect that Di Jun had a super divine tool that could protect him!

"This is the Primeval Dragon Pagoda." Something that you will never be able to break in your entire life.
" Di Jun was very calm as he calmly pointed at the transparent pagoda on his shoulder.

As expected, it was the Creation Divine Artifact from the primitive level.

Long Chen could not help but feel troubled. At this point, he was only missing the Primeval Dragon Pagoda. He had just personally experienced the terrifying power of the Dragon Pagoda. Doesn't that mean that he had no way to defeat him?

Everything he had done so far had been in vain?

Not giving him time to think, Di Jun didn't give him a chance to catch his breath. When the Yuanshi Dragon Pagoda performed well, he smiled lightly and said, "I've played with you for so long, but I didn't expect you to be reborn again. However, you won't have the next chance. "Let me end this grudge. The Origin Dragon Palace should belong to me to begin with. Just let it return to me."

"You don't even know what the Origin Dragon Palace is, how can you know that you belong to it?" Long Chen's eyes were gloomy. He stared at Di Jun's Primeval Dragon Pagoda, looking for a way to break it!

"Actually, I'm stronger than Di Jun. I'm just lacking in this Primeval Dragon Pagoda! No, that's not right. It's because he can use the Primeval Dragon Pagoda, and I can't use the Origin Dragon Palace! "

This gave Long Chen some hope.

It was just that at this critical moment, Di Jun's speed had never been faster, he had also reached his limit, and right now, in the eyes of Long Chen, and in the eyes of tens of thousands of people, he had directly turned into a dragon. It became a giant, beautiful, silver dragon. Its scales were dazzling, its claws were like gems, and its eyes were shining brightly. Its entire body seemed illusory, flickering with light that could be used to travel at will!

Moreover, he was a relatively mature and complete Unparalleled Dragon. Therefore, its body was extremely huge, and when it twisted around, it would look like a super huge monster. In comparison to it, Long Chen was just a tiny dot.

"What is this!"

"It's too big, it doesn't look like a demon at all!"

"It is said that Long Chen can also transform into this!"

For a moment, on the Pangu Continent, there were countless people discussing about Di Jun's body. But of course, there were far too many people in the Allworld who were paying attention to this battle.

Up until now, this battle was brilliant beyond compare, only, it was indistinctly Di Jun who had the upper hand! Especially right now, when this Dragon Sacrifice appeared in front of Long Chen, he could clearly feel the true might of a Divine Dragon!

"In time, Di Jun will definitely reach the peak of the Tai Yi Shen Jing!"

That was the real Unparalleled Dragon.

Unfortunately, I couldn't find the source of the Ancestral Dragon's Dragon Soul. Even if I found it, it would have to wait until I approach the ancestral realm before I can integrate it. This was his father's warning. "After all, fusing with the Heaven-Devouring Race can create too much of a disturbance and might attract the attention of the sleeping Heaven-Devouring Race."

This was Long Chen's current regret. He could only rely on his inherited blood essence to fight against someone else's true Divine Dragon.

"Yan'er seems to truly possess the Origin Dragon Soul, but she was born of her own accord. Compared to an adult Ancestral Dragon, her current movements are not too big, and it is also possible that the Dragon Attendant and the others know about Long Yan's situation without reminding me otherwise, it shouldn't be a problem. She was afraid that if Yan'Er became stronger in the future, she would attract their attention. I have to get stronger quickly in order to protect her. "

However, he also understood that thinking so much was useless. The most important thing was to get past today's calamity! The most important women in his life were all waiting for his return!

"I must return and see Yan'er!"

It was also an explanation to Ling Xi.

It's a promise a man has to carry.

It was responsibility, it was everything.

However, Di Jun would not give him that chance. When he turned into a dragon, the Primordial Dragon Pagoda still shrouded his body, and he could even use a part of the power of the Creation God Equipment of the primitive level to unleash the laws that belonged to the dragon sacrifice! This was Di Jun's strongest point!

Previously, he thought that the Eternal Restriction Region would be enough for him to kill Long Chen.

Actually, that's right, the Eternal Heaven Forbidden Area had indeed killed Long Chen once!

Di Junhua's voice was very dignified.

"Then, this is the moment of your end!"

This was the first time he was facing such a huge divine dragon.

The Sacrificial Dragon's body was covered in silver light, fusing together with the surrounding space!

It was as if he himself was the embodiment of space itself in countless areas around him.

In that moment, his eyes became as illusory as the universe.

Above the Dragon Pagoda, a transparent divine dragon was circling and flickering with a magical light. This was something similar to the Dragon Palace of Origin. It always made people feel that it wasn't as simple as a God Creation Artifact.

"Primitive cage."

The Edicts of Sacrifice descended!

"Spatial freeze again!"

Long Chen was most depressed because of this.

However, the Primitive cage was different from the Forbidden Area. There was still a door to enter the Forbidden Area for eternity. The Primitive cage, on the other hand, controlled the entire Endless Territories and froze them, turning them into a cage.

This was the ultimate prison of the Edicts of Space.

On his body, the Primordial Dragon Pagoda shone brightly. Obviously, he was using the power of the Primordial Dragon Pagoda to carry out the rules of the Primitive cage to this extent.

If he was willing, he would probably be able to lock down the entire Pangu Continent!

But he was afraid of the Ancient God of the Wilderness, so he didn't.

However, what made Long Chen angry was that Ling Xi, Yang You, and the others were all imprisoned under the Primitive cage's seal. Di Jun must have done it on purpose, not only did he want to destroy Long Chen, he also wanted to destroy everything about Long Chen!

The boundless space of the entire Pangu Continent had been frozen by the Primeval Dragon Pagoda and the Sacrificial Dragon Pagoda.

In that instant, the world fell silent.

Only the sacrificial dragon itself could speak.

His silver eyes stared at Long Chen and spoke indifferently: "Looks like it's a pity, but this is the result. I have always been ruthless. Don't blame me for destroying you, destroying all of you, your children, your descendants, everything you care about. However, I will help you fulfill your lifelong wish. Ancestral Dragon's successor, Long Chen. "

At the end, he couldn't help but smile strangely.

So it turned out that he knew everything.

Chapter 3005 - Fury of Origin

"Of course I hate you, because why not me? I, Di Jun, am much more superior in every aspect! "

In the midst of stillness, Di Jun turned into a dragon as his incomparably huge body descended into the skies above Long Chen! There was too much killing intent and anger, and of course jealousy, hidden within those silver, illusory eyes of his.

Since the Ancient God of the Wilderness was able to recover some of his memories, and Di Jun had interacted more with the Dragon Sacrifice Continent, it could be considered normal for him to have some memories. However, he had endured for far too long. It was only until today, and until today, when Long Chen's entire situation was under his control that he finally spoke out.

From the day he was chased by the Dragon Sacrifice Continent until now, he was still able to maintain his calm.

"Now, everything is over. "Blade of Heavenly Sacrifice!"

The Primitive cage imprisoned Long Chen, Ling Xi and the others. The rules unleashed by the Primeval Dragon Pagoda was a type of crushing defeat for Long Chen. It was harder to withstand than the last time in the Forbidden Area!

But to bring the dead back to life, only once!

Right at that moment, Di Jun's dragon sacrificial body moved. The part of his dragon tail changed and became an incomparably huge silver blade. It shone with light and was void. With any movement, it could cut the heaven and earth, and cut apart mountains and rivers, as well as the sun and moon.

This was the thing that his Blade of Heavenly Sacrifice was used to end Long Chen's life.

"I don't believe that you can survive this again!"

Di Jun let out a cold laugh. Under the gazes of all the barbarians of the Pangu Continent, the Sacrificial Dragon waved the Heaven's Sacrificial Blade and descended on Long Chen's body. The Heaven's Sacrificial Blade was raised high up in the sky.

Furthermore, underneath Long Chen, Ling Xi and the others, they would become the target of the Heavenly Sacrifice.

The Blade of Heavenly Sacrifice was definitely capable of killing Long Chen, and then, it would destroy everything Long Chen did. Everything he protected, all his responsibilities, and all his promises. The deadly Divine Edge made Long Chen feel a little absent-minded.

"I can no longer bring the dead back to life."

It was just like when faced with the Forbidden Area of Death's Annihilation previously, the only difference was that if he were to be killed this time around, he would die. Not only would he die, Ling Xi would also have all his brothers and sisters, as well as everyone in Dragon Sacrifice Continent.

Di Jun would not let them go.

His death would be the end of everything!

"No!"

In the midst of stillness, Long Chen saw the motionless Ling Xi. Seeing that the young life was still pulsing, Long Chen was about to come to this world!

How many years had it been just for this day?

From the beginning until now, he had always strived for what he had promised his father, and this was his long-cherished wish.

But the Heavenly Sacrifice must cut through all of this!

The power of the Dragon Pagoda had been fused within it, and everything was formed from the Dragon Pagoda.

Within the divine country, countless people were crying out hot tears. They held each other's hands and roared.

"We can't die!"

"Fight, victory!"

"Fight!" "Fight!"

"Charge charge charge charge charge!"

It was a struggle against fate, a rage against disaster!

Everyone stood together with Long Chen.

Perhaps Ling Xi and Long Yan were the reason why Long Chen couldn't lose at this moment. Perhaps this was just a battle between men. He had promised Ling Xi and had promised that child.

"It can't be like this!"

At this moment, his eyes were burning hot as he looked at the Blade of Heavenly Sacrifice. Every particle in his body was erupting with an unprecedented fighting spirit! Almost all of his blood, muscles, bones, and bones were roaring in anger at the same time.

It wasn't that he couldn't lose, but that he couldn't die.

If he lost, he could make a comeback, but if he died, he would lose everything, and he wouldn't be able to fulfill his promise.

At this moment, he was filled with passion and blood, as well as rage.

All over Long Chen's body, trillions of particles, an unprecedented fighting spirit, an unprecedented killing intent, all gathered in Long Chen's eyes, turned into boundless flames and erupted.

Today, cultivation had long ago not only been for his own sake.

Long Chen thought about what Long Qinglan had told him before.

Only by being strong could one have dignity, have the right to speak, and change their destiny.

Right now, he was already strong enough. He needed more energy, and that was responsibility, love.

Not only his love for his brothers, his feelings for his father, his feelings for his son and his mother. His feelings for the people and his companions were his strength. They were the reason why he had no choice but to become strong and live.

From long ago until now, he was not the only one who was fighting. As he roared in rage, the trillions of lives in his Divine Kingdom began to fight with him!

"KILL KILL KILL!"

The love of a hero, the tears of a beauty.

The battle of survival, the battle of destiny!

It was a battle of life and death, but Long Chen could not die at all.

It was precisely because of this that he had no reason not to go crazy and rush to the final moment! With the descent of the Heaven's Sacrificial Blade, Long Chen slashed downwards. When his life was about to end, many images appeared in his mind.

Ling Xi's gentle and trusting smile, Li Xuanji's silent accompany, Mo Xiaolang's sincerity and hot-bloodedness, the little kitten's comicality, were still numerous and endless. Every scene was a force in his heart!

"Daddy ~"

It was unknown when and where he was when he suddenly heard such a tender voice. Long Chen's heart was filled with tears, this must be the call of Long Yan, she must be anxious for him, even if it was only for Yan'er, this cute little life, what reason did he have to not fight?

The moment Di Jun lowered his head, the look in Long Chen's eyes gave him a fright.

He had never seen such a fervent and persistent expression before. Just this look alone was enough to swallow up the world and destroy everything. The will in this gaze was the will of the entire ten thousand worlds. It was unyielding and explosive!

Humans, because of their powerful willpower!

When Long Chen's will and the will of ten thousand worlds fused, it formed a will that was above all other things. To Di Jun, this was a terrifying impact!

"You can't kill me." Even in this kind of situation, Long Chen's crafty laugh caused Di Jun to feel a chill down his spine.

No one would allow him to be defeated, so how could he be defeated?

A good man should stand up for love and for responsibility! Behind Long Chen, all the looks and hope was the boiling hot power in his heart. It was also the reason why he was willing to fight to the end even at the cost of his life!

The blood of the five Ancestral Dragons had long ago blended with each other in anger, and had even coalesced into one. At this moment, Long Chen was doing it on purpose. He gathered all of the power in his body and started to attack the Origin Dragon Palace!

"Wake up!" "Wake up!"

The only thing that could crush the Dragon Pagoda was the Dragon Palace!

The power of his emotions, the pursuit of his survival, all of his fighting spirit, had fused into the invisible dragon essence, launching an unprecedented attack towards the origin dragon palace. He used the ancestral dragon's bloodline to attack the origin dragon palace that he couldn't possibly control!

"Origin Dragon Palace!" Today, I will use your strength to clear away the obstacles and open up a new path! This is the only time! "

Under Long Chen's call, within the God Nation, countless divine dragons and Dragon Fighter, even the most ordinary citizens, were contributing their power! When the Divine Dragon and Dragon Fighter s appeared next to the Origin Dragon Palace, even if their power was insignificant, they used their power to merge with Long Chen's power, to shake the Origin Dragon Palace!

Tens of millions of people, all of them had the same strength of heart as Long Chen!

This was a place where Di Jun could not compare with Long Chen at all.

Everyone believed that under this kind of frenzied assault, with the fighting spirit of the entire nation, they would eventually have a glimmer of hope!

"What did you say?"

In the endless starry sky, the Emperor Jun laughed savagely.

He was not scared by Long Chen.

"Then let's give it a try!"

In fact, all of this happened in an instant.

Di Jun laughed coldly, the Heaven's Sacrificial Blade cut down, the silver huge blade sliced down, cutting through the heaven and earth, falling down from the sky, aimed at Long Chen's head, for a moment, the sky and earth were torn apart, from the beginning till the end!

"From this moment onwards, you, Long Chen, will no longer exist in this Myriad Worlds, this world!"

"You are indeed a legend of this generation, but in my eyes, you are still a joke. Because everything that you have is mine! "

"Die!"

Primitive cage, the Blade of Heavenly Sacrifice.

A silver light flashed, the heaven and earth lost its color, and everything else disappeared. Long Chen's angry face was still flashing with the light of the blade!

The moment the Heavenly Sacrificial Blade was about to land on his head!

Suddenly, Long Chen laughed.

In that moment, when all of their powers were gathered at the Origin Dragon Palace, when everyone was roaring and contributing their power, when Long Chen rushed everything to the Origin Dragon Palace, a golden light exploded out from the Origin Dragon Palace with a loud rumble. The terrifying power exploded out from there, penetrating through the God Kingdom, and a golden divine dragon rushed out from there!

They charged out from Long Chen's Divine Kingdom!

Even though everything was under the control of the Dragon Pagoda, the golden divine dragon still charged out. It swam amongst the Primitive cage and charged upwards to meet the dragon's Heaven's Sacrificial Blade head on!

Everything had changed in this moment. Everything was being reversed!

BOOM!

Golden and silver rays of light illuminated the world, submerging everything.

"Kill!"

From Long Chen's mouth, the voice of the trillions of lives.

At that moment, the golden light engulfed the Dragon Guardian Dragon and with a loud explosion, the entire Primitive cage began to collapse. Long Chen was the first to resume his movement. The endless star field began to revolve once more.

"How could this be?"

This change was too shocking, too violent, too sudden and too quick.

Even the Ancient God of the Wilderness did not anticipate this scene. Just a moment ago, he was still conflicted over whether or not to save Long Chen.

The Primitive cage was gone.

Di Jun was engulfed by the golden light in disbelief. When he opened his eyes wide, he felt that it was not Long Chen's power, but the power of the Origin Dragon Palace!

BOOM!

The protection of the Dragon Pagoda had been penetrated by this power.

"Yuanshi Dragon Pagoda!"

Di Jun exclaimed, his voice was hoarse.

Chapter 3006 - The End of the Emperor

"Ugh ..."

As the golden light submerged, the Dragon Pagoda had already retreated back into his body.

The Primordial Dragon Pagoda had encountered a power that intimidated it.

Di Jun had yet to fully control the Dragon Pagoda, but he never imagined that something like this would happen.

When the Primeval Dragon Pagoda was gone, he was not much stronger than Long Chen.

At this moment, his mind went blank.

The heavens and earth, the universe, everything seemed like a dream.

BOOM!

The body of the Sacrificial Dragon collapsed under the power of the Origin Dragon Palace. It was riddled with holes. An irresistible collision occurred, causing Di Jun to regain his human form!

The silver body was almost illusory, as though it could disappear at any time.

His eyes, his eyes, had never been as confused or in pain as they were now.

He had never been as fragile as he was now.

On the other hand, when Long Chen unleashed the power of the Dragon Palace, not only did he not exhaust himself, he was even brimming with energy and vigor.

This battle had been reversed several times so far! This caused everyone to widen their horizons. They were filled with disbelief again and again, yet they were being reversed again and again. It had been a long time since there had been such a great battle happening in ten thousand worlds!

The barbarians could only express their amazement when they saw this scene.

However, they couldn't quite believe it now. There would be more suspense. At this moment, they were completely immersed in the power that Long Chen unleashed just now.

That was simply a power that was impossible to appear in Divine Emperor.

When the Primitive cage was destroyed, everything returned to normal. On Ling Xi's side, her dragon face was also born in a normal state.

"Impossible!"

Di Jun had never been defeated.

However, his current weakness reminded him that he was on the verge of death in this crucial battle. When the smoke dissipated, he saw Long Chen.

Long Chen was no longer as crazy as he was before. He was cold and calm, instantly appearing in front of Di Jun!

Di Jun was proficient in the laws of space, what Long Chen was most afraid of was of course, his escape.

Their gazes met once again.

Only this time, Long Chen had overpowered Di Jun.

"Buried Heavens Coffin!"

The Emperor Jun, who had suffered a crushing defeat under the attacks of the Origin Dragon Palace, did not have the power to dodge the Buried Heavens Coffin at all. Just like the golden-haired Emperor, he was sealed inside the Buried Heavens Coffin.

"Long Chen!"

Di Jun suddenly remembered the end of the golden-haired Di Jun, and felt his blood run cold. It was just that when he was inside the coffin, he had just shouted out Long Chen's name, and Long Chen had already made his move before that!

He had paid such a heavy price, he definitely couldn't let Di Jun leave!

"Great Void Heart!"

At that moment, he suddenly turned into a Great Void Cosmic Dragon and pounced onto the huge coffin. With the body of the Great Void Cosmic Dragon, he activated the Great Void Heart, causing the Great Void Heart to envelop the entire coffin and descend like a turtle in a jar!

BOOM!

The power of time passed.

"Time!"

Space and time were the most important parts of the rules.

However, space was just one of the second ancestors, and time had become the third Ancestral Dragon.

Space

This was the first time Di Jun encountered the suppression of time, of course it was the silver-haired emperor. As time passed, he was unable to move, nor could he move. Time accelerated, and it descended upon him, accelerating his destruction. He was struck by the heart of the Great Void. He was in such a weak state, and was destined to perish.

As time passed, Di Jun's body was gradually fading away.

Aging, drying up, losing everything.

But, he was actually very strong, even so, the speed at which he disappeared, was very slow. After he dies, he would probably only need a quarter of an hour to do so, and Long Chen wouldn't be able to wait that long.

Although it was destined that Di Jun would lose the battle and that he would die, Long Chen was still worried. He had to watch Di Jun's downfall so that he could be at ease.

This was the lesson he had learnt from Di Jun.

It was too early for him to be proud. Before he was completely killed, he was already feeling proud. That would be fatal.

"Whiz!"

Long Chen fell into the Sky Burying Coffin.

"Whiz!"

He brought the Burying Heavens Coffin and teleported directly to the Death Realm. With the Death Realm here, even if Di Jun were to teleport, he would definitely not be able to leave! The Death Realm was the world of the Primordial Blood Dragon. It did not surpass the rules of the Primordial Blood Dragon and was not easy to leave.

After arriving at this place, he was finally at ease, but he still held onto the Ghost Blood Curse. When Di Jun opened her eyes wide and looked at him, without saying a word, a sword pierced through his Heart of Rules!

"Ahhh!"

With the Ghost Blood Curse remaining, the swastika's black symbol crazily rushed towards Lord Jun's body, instantly covering his entire body. Under such circumstances, it was impossible for Di Jun to survive. However, his vitality was too strong. He was still in a deadlock and had not died yet.

"Goodbye." Long Chen took out the Heaven's Sacrificial Spear, using the Living Realm's rule of massacre, just as he was about to give Di Jun the final strike!

"There's no need to be so ruthless, I'm already dead. Do you really need to go that far?" Di Jun suddenly laughed and cried. The swastika blood curse had already covered his eyes densely.

Long Chen was startled. That's right, he had already decided, there was no hope for him anymore. In fact, it was not even time for him to speak.

"Long Chen, you have won, you have completely won. I know I do not have any qualifications, but I still plead for you to agree to one of my requests!"

Di Jun ignored the destruction of his body and stared at Long Chen.

"On what basis?"

"We all came from the Dragon Sacrifice Continent."

Di Jun clenched his teeth, and without waiting for Long Chen to reject, he said: "Within my God Kingdom, there are some Gods left behind by the Dragon Sacrifice Continent, they are all my brothers, and also your ancestors. They are innocent. The Primeval Dragon Pagoda, the Myriad Realms Divine Sword, and so on. "

"They?"

They were probably the two Demon Divine Emperor s and the Supreme Divine King and the others.

They did not have much interaction with Long Chen.

Of the Gods and Demons of the Archeozoic era, the only one that was powerful was Di Jun. The others were too far away from him, but Di Jun still remembered them and still brought them along. He was a strange person. Although he didn't seem to care about his lover or daughter, he still made such a request before he died.

Actually, even without him saying, Long Chen would not be as innocent as him.

"I am different from you. I have all the living beings to fight alongside me, so I will not kill the innocent. That's why you lost. "If you hadn't targeted Ling Xi, the one who would have lost today might not have been you."

Now, Di Jun's body started to disappear under the destruction of the Ghost Blood Curse and the Great Void Heart, only leaving behind a remnant soul which was still struggling.

"Thank you!"

Di Jun's last words were filled with tears.

"I, Di Jun, have lived a glorious life!"

"In the era of the Divine Dragon's Annihilation, I rose first, took control of the Dragon Sacrifice Continent, and became the number one god in history! "A legacy of ten million years!"

"With the death of the Dragon Sacrifice Continent, I obtained the Primordial Dragon Pagoda, found the Origin Dragon Palace, rose to prominence in all realms, and established a power in the Taihao Region. I want the Hierarch Taihao to address me as my brother!"

"I hid my identity, challenged the Battlefield of Divine Devil, killed my way up to the top of the Divine Emperor's leaderboard, defeated the experts of ten thousand realms, and became the number one Divine Emperor! Its power will shake the entire Allworld! "

"I've awakened my memories and understood the secrets of ten thousand worlds. I was just about to obtain the Origin Dragon Palace and save ten thousand worlds, but I never thought that the shabby Dragon Sacrifice Continent would actually give birth to you!"

"I thought you were just lucky, but the real inheritor was me, so I never cared about you. Just a quarter of an hour ago, I firmly believed that I was the inheritor, but I didn't expect that all of my brilliance would be the stepping stone for you!"

"Long Chen, I'm not reconciled to this!"

The hero of this life, at the moment of his defeat, his face was covered in tears as he cried loudly!

Unwilling, unwilling.

He was only one step away from achieving the greatest success.

Speaking of which, Di Jun was not a villain. Everything he wanted to fight for was harmless to all living things. Did he also want to fight for the Myriad Worlds?

"I am asking this ancestor, why did he give birth to me, Di Jun, and to you, Long Chen?"

Finally, there was only one head left. Di Jun roared with all his might, the vengeful spirit stared at Long Chen.

Why?

Why?

Long Chen did not waver from beginning to end.

"Because I fought for the Divine Dragon and for the Myriad Realms for the sake of survival, for the sake of all living things, for the sake of responsibility and responsibility. And you, for your own glory, for your own achievement. "Di Jun, even though our goals are the same, our minds are different. Hence, you are destined not to be the chosen one."

"Whiz!"

Just as Long Chen finished his last word, Sacrificial Sky shot out, and in the Buried Heavens Coffin, he swallowed Di Jun's remaining soul.

However, after Long Chen finished his last sentence, Di Jun seemed to have understood what was going on. He was no longer so unresigned, because he understood what Long Chen was saying.

They seemed to have the same goal, but in essence, they were different.

The only one who was truly lucky was him, and the person who was truly chosen was still Long Chen. If he was willing to help Long Chen, the situation would be different, but he still had to walk on a path of fighting to the death with Long Chen.

Di Jun completely disappeared.

The entire Buried Heavens Coffin was empty except for Di Jun's Divine Kingdom.

At this time, many spirits from the Dragon Sacrifice Continent came out from the Divine Kingdom.

They knew about this battle, but they probably didn't know anything about the Divine Dragon and Heaven-Devouring Race.

"According to my agreement with Di Jun, you can leave." But, do not do such a heartless thing in the entire Myriad Realms, and lose face for our Dragon Sacrifice Continent. "

Currently, Long Chen had long ago become a different level from them.

He kept the Burying Heavens Coffin and swept all the important items from the Di Jun Divine Kingdom into the Death Realm. He would sort them out slowly when he had time in the future. Then, he would control the spirits of the Dragon Sacrifice Continent.

"Long Chen, from today onwards, we will follow you." At this time, within the Demon Divine Emperor, a white-haired girl said.

The others actually didn't have any objections.

Everyone looked at Long Chen.

Perhaps, this was Di Jun's final instruction.

"No matter what happened in the past, it was only you and Di Jun fighting over the treasures. The ten thousand worlds are vast, and right now, we can only follow you. I hope you can give us a chance. "

"Alright."

Long Chen directly swept them into the Divine Kingdom, which was under Long Chen's control. They couldn't do anything even if they wanted to.

Right now, what Long Chen was most anxious about was that he wanted to go out and see Ling Xi and her daughter!

Chapter 3007 - Longyan Birth

Of the treasures left behind by Di Jun, the most important ones were the Primordial Dragon Pagoda, the Myriad Realms Divine Sword, the door to the universe, and the Everlasting Stone.

Among them, the Door of the Universe was borrowed from the Hierarch Taihao. Of course, it had fallen into Long Chen's hands now. It was so precious and had such huge uses, that Long Chen did not plan to return it to the Hierarch Taihao.

With this door of the universe, as long as one grasped the method to use it, one could easily reach any place in the universe. Assisting the Life and Death Realms in capturing Long Chen would be even more difficult.

However, what Long Chen was most curious about was still the Primordial Dragon Pagoda.

If it weren't for the special circumstances, he would have researched the Dragon Pagoda first.

The special thing about this situation was that something even more important than the Dragon Pagoda had appeared. Of course, it was his precious daughter, who he had been waiting for a long time. After dealing with Di Jun, he didn't have the same feeling of disbelief as after defeating Di Jun. Instead, he quickly left the Death Realm and returned to the starry sky where he was battling Di Jun!

If it was any other time, he would definitely still be immersed in the excitement and joy after defeating Di Jun.

But now, there was something that made Long Chen even more excited!

Whoosh!

The moment he appeared alone in the starry sky, the entire Pangu Continent burst into an uproar! Just earlier, Long Chen relied on a special method to heavily injure Di Jun, then used the Burying Sky Coffin to imprison him and bring him into the Death Realm.

Now that he was alone, it naturally meant that Long Chen was the true victor of this unparalleled war!

"He actually won!"

"Unbelievable!"

"For a battle of this level to have such twists and turns is simply a miracle!"

"Even Di Jun, who could repel the Tianyin Region's Lord, was defeated. From today onwards, Long Chen will be on the main road to prosperity and no one will be able to stop him anymore! Right now, he is already the number one Divine Emperor under the heavens, and beneath the supreme divine spirit, he is definitely the strongest, and she might even be able to contend against supreme divine gods and Tai Yi Shen Jing! "

The praises and praises for Long Chen surged over like a tide.

Even the experts of the Pangu's heart, as well as the several Hierarchs, were admiring Long Chen.

"Master, I didn't expect that his limits would actually be so shocking. Before the battle, I really thought that he wasn't a match for Di Jun. " Desolation Lord shook his head and smiled bitterly.

"Not to mention you, I also feel that his chance of victory is only a tenth."

The Ancient God of the Wilderness and the Desolation Lord both smiled bitterly.

But regardless of how much praise he had, or how much praise he had, to Long Chen, all of this did not exist. He could not hear anything, and the moment he appeared, he had already crazily rushed towards Ling Xi!

His eyes were only looking at one place.

In this place, the dense Pangu's Qi had already dissipated, everything became very clear, as though everything had ended.

"Xi Er!"

Long Chen's gaze penetrated through everything and landed on Ling Xi's body. Right now, Ling Xi was floating in the air, her white skirt fluttering in the wind, her long hair fluttering as though she was in a dream. Long Chen had thought that she would be very tired, but she never thought that the current Ling Xi was brimming with energy, as if she had received a great nourishment. Her realm had already stabilized in the The God Emperor of Perfection, and was even infinitely close to that of a Extreme Realm Divine Emperor!

Before long, she would directly become a Extreme Realm Divine Emperor.

Maybe all of this was because Long Yan had used her to absorb too much Pangu's Qi. Ling Xi encountered danger twice before, but now it could be considered a blessing in disguise.

Long Chen saw that she was in good condition, and the nervousness in his heart had already been reduced by half. In the next moment, his gaze landed on Ling Xi's arms, where there was an incomparably large living being!

In terms of vigorous life force, she was not one bit inferior to Long Chen who cultivated in the Edicts of Life.

At the same time, the boundless power emitted from his body was almost on par with Ling Xi in terms of realm. After absorbing a large amount of Pangu's Qi, this child had just been born, and was practically a The God Emperor of Perfection! There were even many forces piled up in her body. When she grew up, it would be even more terrifying.

Long Chen couldn't wait to appear in front of Ling Xi. His hands were trembling, as he gently placed them on that young but powerful life form.

Even though she had just been born, she was already round and cute. One could vaguely see that she had black hair, and when she opened her eyes, her pupils were red.

"This is my daughter?" Long Chen was in a daze. Even though he had watched her grow up, when he saw her in front of his eyes, he still felt a kind of trance.

Her body and primordial spirit were rapidly growing and changing at every moment. Her pair of bubbling red eyes stared at Long Chen, and the moment she saw Long Chen, she shyly reached out her hand towards him. Long Chen, "Little rascal"

"I'm asking you to hug her."

Ling Xi's face was slightly red. As a mother for the first time, the way she looked at the girl was slowly filled with love.

However, the little girl was much calmer than him. As soon as she entered Long Chen's embrace, she stretched out her little body as much as she could, and from time to time, she would use her little hands to pinch Long Chen's face and laugh.

"Daddy!"

Suddenly, she shouted 'born', and her pair of red eyes widened as she stared at Long Chen.

It was not strange for her to know how to speak after being born in the Divine Emperor. Perhaps she had already gained consciousness while she was still alive.

This call made Long Chen's heart feel intoxicated, he wished that he could take out everything he had and gift it to this child.

"What about me? What about me? " After Ling Xi heard this, she became anxious.

"Mother!"

This little guy's drawl and an unfamiliar form of address also made Ling Xi's face turn red. Right now, the two of them had completely forgotten about everything else. In their world, there was only this little kid.

Of course, this was in public.

Long Chen and Yue Shuang played with the girl for a while longer before handing them over to Ling Xi and bringing them into the God Kingdom. After defeating Di Jun, he didn't want to do anything anymore. He just wanted to rest for a while with his family and brothers.

However, in this battle on Pan Gu continent, one still had to greet the Ancient God of the Wilderness.

In the midst of tens of thousands of admiring gazes, Long Chen landed in the middle of the Pangu's heart, where the Ancient God of the Wilderness and the Desolation Lord were.

"This time, many thanks to the two seniors for your help. will never forget today's kindness."

The Ancient God of the Wilderness shook his head and said, "I didn't help you much. Everything that you have obtained today, you worked hard to obtain. The road ahead is still bumpy. It's up to you to work hard in the future. "

As long as Long Chen kept this kind of thing in mind, he would be able to thank his.

The Desolation Lord said: "We would like to congratulate you on your arrival today. Not only have you solved the big problem in your heart, but you also have a happy woman. "As long as you are on the Pangu Continent, you can do as you wish."

Long Chen laughed easily, and said: "Then I'll have to thank the two of you."

To be honest, he couldn't wait to return to the Living Realm.

After the battle, he hadn't seen enough of his daughter yet.

Finally, he expressed his gratitude to Undead Phoenix. Under the numerous gazes of satisfaction and amazement, Long Chen returned to Living Realm. He knew that the news of today's battle would obviously spread throughout all the realms in an instant!

His name, his glory, would be known by even more people. From then on, he would be crowned as the number one on the Divine Emperor, the number one in all realms! , at this time, was already one of the most terrifying figures in the world!

Even in the world of primitive level, one had to be wary of a person like Long Chen.

However, to Long Chen, all of this was not important at all.

The Living Realm was safer than the God Nation. Therefore, when there was no need to cultivate, Long Chen hoped that the people he was closest to the most were the Living Realm s like Mo Xiaolang, Little Cat, Yang Lingqing, Yang You, and the others. Of course, the Dragon Emperor s were extremely busy normally, dealing with the matter of the Inherited Blood and Origin Dragon Soul for Long Chen.

Xiao Long Yan and Ling Xi were also at the Living Realm.

The Living Realm with its exuberant vitality was a very wonderful life.

It was just that Long Chen did not find the origin of the Taiji Creature Dragon, the Dragon Soul. After all, the spirit dragons that had appeared in the tree must have dispersed the others.

When Long Chen returned to the Living Realm and made Ling Xi and the others appear, Long Yan had already started to get familiar with Little Cat, Mo Xiaolang, Su Yan, Yang Lingqing and the others. Although she was still a little baby, her intelligence matured even faster.

"Little beauty, quickly call me Uncle Cat!" Hurry up and call me Uncle Cat! "

"No, call me first, call me! I am Zhu Xi, I am your aunt."

At this time, Ling Xi was already surrounded by everyone. Everyone could not wait to look at this little fellow. And all of this was built on Long Chen's victory.

Seeing this scene, Long Chen understood in his heart how much worth it, how precious his victory and survival this time were.

"Big brother."

In fact, had just finished digesting it at that moment. When he woke up, Long Chen had already won just as he had expected. The Eternal Harmony Stone was also of the fire attribute, and was devoured by Mo Xiaolang at that moment.

With Extreme Realm Divine Emperor's strength, adding on the three kinds of Ancestral Flames and the Primal Chaos Demon Saber, Mo Xiaolang could already be considered strong enough to fight against Long Chen.

"Di Jun seems to have left a Infinite Divine Art with a type of Eternity, it's called the 'Heavenly Emperor's Sun Refining Tactic'. I'll give it to you when I pack my things later, it's like adding wings to a tiger."

Long Chen had a quick glance earlier and saw that there was this thing among the things Di Jun had left behind. It was the Infinite Divine Art that the golden-haired Emperor had cultivated in.

"Yes." Mo Xiaolang smiled and nodded. Despite going through so many battles, his smile was still clean.

At this time, everyone let out a cry. It turned out that at this time, Xiao Long's face had actually turned into a chubby little red dragon the size of an arm.

"Ugh ..."

One could imagine the appearance of an Archaic Blood Dragon when it grows up.

"Is that the Ancestral Dragon? However, there's a difference with the Ancestral Dragon that appeared in the Land of Origin of the Divine Dragons. When the Ancestral Dragon appeared, it was already a supreme expert, and compared to those Ancestral Dragons, Yan'er is still too weak." However, it seems that she has a huge room for growth. Before I merged with his Origin Dragon Soul, her space was even bigger than mine. In the future, his future is indeed limitless, but, I must protect her well. "

Long Chen secretly made up his mind. No matter what, he would let his grow up safely.

However, he was depressed. Growing up under the protection of so many people, wouldn't Long Yan have a bad temper in the future?!

After all, he hated the little princess' temper the most.

Then, he saw Ling Xi.

"Xi Er will be very kind with her."

In this way, he felt at ease.

Chapter 3008 - New Dragon Sacrifice

Following that, the days surrounded the dragon's face and became peaceful.

From the moment they arrived in the Ten Thousand Worlds, they had always been chased and hunted by Di Jun.

Now that Di Jun was dead, with all the pressure on them gone, Long Chen and the others could easily go up on stage and not be in a passive position anymore.

Even if they knew the location of the time tunnel, they would not rush there.

Long Yan had been growing up very slowly, and it would probably take her countless tens of thousands of years to grow up. However, she was very smart, and was able to communicate with everyone in no time.

Of course, it would be more lively.

Only a few people in the entire Living Realm were able to catch up to her. Luckily, the Living Realm was not afraid that she would ruin it, otherwise, if it were in any other place, she would not be able to do as she pleased.

Normally, when Ling Xi chased after her, she would feel depressed, but Ling Xi enjoyed it.

"Mother, what is that thing!"

"Ah, Uncle Cat is here again! I want to run!"

This little red tornado became the everyone's gratifying fruit.

Especially Little Cat and Zhu Xi, who loved to cause trouble the most and never stopped even once every day. At first, it was Cat who was teasing her, but very quickly, she became the target of teasing.

"Haha, Uncle Cat, you're too slow!"

"Good Yan'er, quickly hit his butt!" Zhu Xi was playing tricks on them from the side.

After circling around the child for a long time, Long Chen finally set off again. Right now, Long Yan was no longer afraid of anyone, but he still listened to Long Chen. Everyone was too used to her, so Long Chen had to be serious, to avoid her being too lawless.

"Father, are you very powerful?"

"I saw you fighting that day! "So fierce."

Long Yan turned into a small dragon and wrapped herself around Long Chen's arm, and looked at Long Chen eagerly. Now that she was in the shape of a dragon, it was easier to move around. If she was in the shape of a human, she could only crawl and walk.

"Yan'er, be good. In this world, there are struggles, and there are people who live in harmony. All of us live in harmony, but there will also be people who want to fight with us. So, I must protect everyone. When Yan'er grows up, I must protect everyone as well as my parents. Do you understand? "

"AHH!" I understand! " Long Yan nodded her head heavily. She had the best talent and future in the entire world. Long Chen hoped that when she had great power, she would also have an upright and kind heart.

He and Ling Xi played an extremely important role in the world of dragons.

"Daddy, I'm going to play with Uncle Cat." After Long Yan finished listening, she immediately ran off.

Looking at her leaving figure, Long Chen couldn't help but smile. This feeling was simply too wonderful. Family could really make a man have more strength and fighting spirit.

"Xiao Xi, come with me."

Long Chen waved slightly as he brought Ling Xi to another corner of Living Realm.

It has been a few months since he defeated Di Jun. He had been accompanying them the entire time, but he knew that he had to deal with these important matters now.

Previously, he had found the 'Heavenly Emperor's Sun Refining Art' for Mo Xiaolang amongst Di Jun's remnants. Right now, Mo Xiaolang was training his Infinite Divine Art. Mo Xiaolang was already a member of the Extreme Realm Divine Emperor. To complete the transformation of his strength into Eternity, it should not be difficult for a normal Hierarch to obtain the "Heavenly Emperor's Sun Refining primordial spirit".

However, he also learned from the dragon sacrifice's myths that the Dragon Sacrifice Continent had been destroyed by the Emperor.

At that time, when he heard this news, he was extremely dejected.

However, he was also clear in his heart that it was already a world that had to be destroyed in the end.

He had to re-establish order and create a new world in order for the Dragon Sacrifice Continent to return.

However, the once glorious world had now been destroyed. His heart naturally still felt deeply moved and heartbroken.

In his memories, there were also the streets that he had visited, the familiar Yang family compound, the prosperity of the Source Spirit City, the paths that he and Ling Xi had taken together, the Holy Martial Empire, the True Martial Imperial Palace that he had fought hard for, the Sword Soul Mountain that he had used when he had transformed into a dragon ...

There were Five Dragon Cities, chaotic star field, Sea Clan's Three Lives Divine Stone and Spirit Palace.

However, all of this was gone ...

It was impossible to say no. After all, it was this entire Dragon Sacrifice Continent that carried too many of Long Chen's memories.

"One day, I'm going to make this vanished world reappear and shine again!"

In the entire Divine Kingdom, the people of Dragon Sacrifice Continent still believed in Long Chen even though they felt a little helpless. It was as if they had given their all to help Long Chen defeat Di Jun.

Before his eyes, it was a new beginning!

Long Chen planned to return to the Dragon Sacrifice Continent once more before he went to search for the time tunnel. Although the Dragon Sacrifice Continent no longer existed, Long Chen still wanted to go back to take a look.

At least, both the Incantation and the Star of Destiny were still standing there.

"What's wrong?" Ling Xi had been busy these past few days with Long Yan. Her condition was much better than before. Now that her dragon face had been born, her entire body felt relaxed, and she seemed to be brimming with energy and vitality.

"What do you think happened?"

Long Chen smiled and pulled her into his embrace. He was entangled within the Living Realm, after all, he hadn't been entangled like this for a long time with Long Yan. This time, it was especially exciting.

's skin was still slightly red, and radiated heat. Her rules that formed an interaction with Long Chen was extremely useful to her, as they were already close to the Extreme Realm Divine Emperor, and now it was even faster.

"Out of the eighteen types of Spiritualism s, only one is left. Before long, I will be able to comprehend everything and reach the realm of Extreme Realm Divine Emperor. I hope that at that time, I can be of the same help as the wolf cub. "

Ling Xi laid on his chest, looked at Long Chen with the same pair of big eyes as Long Yan, and said softly.

"More than that." Long Chen suddenly laughed.

"What?"

Ling Xi looked at him curiously, and when she saw that he was only smiling, she hit him on his chest with her fist, and said: "You are not young anymore, you are not allowed to be disrespectful anymore. If you have anything to say, quickly say it."

"Alright, alright." Long Chen sat up straight and said, "Earlier, I took a look at the Primeval Dragon Pagoda that Di Jun left behind. I did not expect that such a selfish person like him would actually leave that thing behind instead of choosing to destroy it. "He must have left it at the last moment and didn't tell me."

Ling Xi seemed to have guessed something. She pursed her lips and said: "With his personality that doesn't want to admit defeat, she definitely won't do it in front of you. So she came here secretly. In fact, he also hoped that the divine dragon would return. Otherwise, with so many Unparalleled Dragon in the future, it would be a pity if only the Dragon Sacrifice its Inheritance. "

That's right, Long Chen had actually discovered the Dragon Guardian's Inherited Blood and Origin Dragon Soul in the Primordial Dragon Pagoda.

The Sacrificial Dragon was one of the concomitant dragon in the second ancestor, a pure spatial divine dragon. Before the era, it should have been able to be ranked in the top ten of all the concomitant dragon. It was stronger than all of the Inherited Bloodlines and the masters of the Dragon Soul that Long Chen possessed.

In the end, Di Jun couldn't bear to see it being destroyed, so he left it behind. Otherwise, it would have been destroyed together with Qin Wentian.

"What I mean is, I want you to inherit the dragon's blood essence and the Dragon Soul's origin. With your current level, if you were to directly become a dragon sacrifice, you'll be much more powerful than Ling Qing. There were also several types of Spiritualism s that were related to the laws of space. You are undoubtedly the most suitable. You have already displayed the full extent of the Sphinx's legacy, so you should need a greater development. "

"Me!"

Ling Xi was startled. Actually, she had never been the best at fighting. Long Chen's talent was not very high, so even if Long Chen helped her a lot, it was actually very difficult for her to make a difference under the shadow of Long Chen. Especially after she had held the Dragon Face for a long time, she practically did not participate in the battle.

"Well, I don't want to be a weakling myself. I should have tried. " Ling Xi nodded slightly.

Previously, there were many Unparalleled Dragon's inherited blood essences, but she didn't have a choice. Second, she herself was not prepared for the loss of Long Chen's Inherited Blood.

"Believe me, there is no one better able to play its part than you, and I need someone to control the door to the universe. You are the person I trust the most, so of course you are the one coming. With that universe door, I can quickly travel to other parts of the universe. "

Without Long Chen understanding the laws of space, if he were to control the gate of the universe, it would be difficult to utilize its full potential. Since Di Jun had left so many resources behind, Long Chen could easily rely on these to create another Di Jun!

Now that Ling Xi was in her best condition, it was time for her to take charge herself. After all, she also wanted to use her own strength to protect her children and home.

"Alright then. "Since I have made my choice, I will work hard and not disappoint your expectations." Ling Xi thought about it, and in the end, looked at Long Chen with a determined gaze.

"Don't be so formal with me. I believe you can do it."

A look of conviction was enough. Ling Xi had not prepared to inherit her blood essence previously, but now she was. In the past hundred years, even with her looks, she was still the most precious treasure to Long Chen.

"Alright, let's begin. I'll protect you." Perhaps, with your foundation which is close to that of the Extreme Realm Divine Emperor, you will not necessarily be weaker than Di Jun! "

Di Jun only became a Extreme Realm Divine Emperor because he had the help of a dragon.

Ling Xi herself was already an Extreme Realm Divine Emperor. When she inherited the Inherited Bloodline and the Origin Dragon Soul, she was much stronger than Di Jun at the time. So, even Long Chen himself was not sure of the extent to which she could allow Ling Xi to reach this time!

Making the woman he loved grow stronger was in itself an embodiment of his abilities. In the future, they would build a home together!

He had opened up a space for Ling Xi in the Living Realm, allowing her to quietly merge with him. Yet he was right in front of her, attentively looking at her, as if he was looking at his most beautiful work.

Chapter 3009 - Fusion Tower

Inherited blood essence required a certain amount of time to adapt, but the origin of the dragon soul was something that could be done very quickly.

Therefore, during this period of time, Ling Xi had basically been adapting to the inherited blood essence.

There were many people playing around with Long Yan in Living Realm, and Yang You was watching as well. There were no problems at all.

As Long Chen guarded Ling Xi, he also placed his own center of gravity on top of the Primordial Dragon Pagoda.

A mysterious pagoda.

It was very similar to the Dragon Palace. Long Chen was still unable to truly use the Origin Dragon Palace. Of course, he was also sure that Di Jun didn't really control the Dragon Pagoda.

However, at least Di Jun could do it. He could fuse the Dragon Pagoda with himself and also use the power within the Dragon Pagoda to become stronger.

If it were not for the help of the Origin Dragon Palace, Long Chen would not be Di Jun's match under the Primeval Dragon Pagoda.

"Although I don't know how much Di Jun had paid to fuse the Primeval Dragon Pagoda and how much time she had used. However, if he can do it, I can definitely do it too. "

"Indeed, I'm afraid that only a Sovereign Profound Realm being like Ancient God of the Wilderness would be able to use a Creation God Creation Art from the primitive level. I am still lacking quite a bit. It was normal for it to be unable to truly shake the Primeval Dragon Pagoda. "However, we can always be as good as Di Jun."

"As long as I'm not too far away from Di Jun, the Supreme Divine Spirit and Tai Yi Shen Jing should be unable to do anything to me. "Of course, I won't be able to beat them either."

In the end, the supreme deity was still slightly stronger than Di Jun.

There were quite a few supreme deities in the Allworld.

Long Chen held onto the Primordial Dragon Pagoda, which was a transparent pagoda with an invisible divine dragon revolving around it, without a sound. It was as cold as the Origin Dragon Palace and hard to communicate with.

Long Chen used the blood of five Divine Dragons and fused into the Dragon Pagoda.

Maybe the ancestral dragon-inherited blood was too strong, and instantly touched the Dragon Pagoda. The blood of the transparent Primordial Dragon Pagoda actually formed five different colors. However, its center was still transparent.

Long Chen squinted his eyes.

"It seems that in order to truly take over the Primordial Dragon Pagoda, one has to possess sufficient strength just because of their bloodlines." "Of course, I have an advantage over Di Jun in terms of bloodline."

Therefore, when his ancestral dragon blood moved through most of the Dragon Pagoda's surface, he could vaguely feel the terrifying power of the Dragon Pagoda. Each level was simply an enormous world, with a total of nine levels. It was hard to imagine how terrifying the effects of using such enormous amount of Manifestation Divine Energy would be.

Long Chen was in a stalemate with the Primeval Dragon Tower.

Day after day.

He was sensing and communicating with the Primordial Dragon Pagoda's power. Currently, the Dragon Pagoda's consciousness was extremely blurry, like a baby, Long Chen had to first have his trust.

After approximately two months, he was already familiar with the place, and the Primordial Dragon Pagoda had also adapted to Long Chen's existence. Long Chen had also figured out that the Primeval Dragon Pagoda was filled with the God of Creation.

This portion of power was several times more than the three Eternal Creation Divine Artifact that he had combined. No wonder the power of Di Jun's Primitive cage increased by several times.

"I want to merge with you and borrow your strength!"

Long Chen continuously requested of his blurry consciousness, obviously, it was established when the two seemed to have communicated well.

At first, the Dragon Pagoda refused

But then, as time passed, another month went by. Under the condition of Long Chen's own bloodline, he discovered that his blurry consciousness had started to loosen, and estimated that after a while, it would be entirely possible for him to reach Di Jun's level!

"It took me a few months. So troublesome, so slow." Long Chen could not help but sigh.

What he didn't know was that Di Jun had been able to successfully fuse the Dragon Pagoda for hundreds of years.

On one hand, it was like a type of armor made from primitive level, allowing Long Chen to have a terrifying level of defensive power. On the other hand, most of the limitless God Power of Creation was something that Long Chen could use. Once Long Chen used the rules, its power would obviously increase by several fold!

Di Jun's trump card, became his trump card.

"Whiz!"

Not long after, the Dragon Pagoda left.

Long Chen was just going crazy because of that terrifying power.

"It's really too powerful!"

It would be great if he could completely control the Dragon Pagoda.

The current situation was not perfect. Firstly, the Primordial Dragon Pagoda was not completely obedient. Whether or not it could be fused would depend on luck and the mood of the Primordial Dragon Pagoda. Presumably, as time passed and he became more familiar with it, that would be better.

Second, was the amount of time it took to fuse them, and that was not something Long Chen could control. If the Dragon Pagoda suddenly lost its effectiveness in some crucial battles, it would be a tragedy.

"So, for the time being, I can't rely too much on this Primeval Dragon Pagoda." It would be great if he could use it at the most crucial moment. "It seems like that Di Jun is more or less the same. Otherwise, he wouldn't only be able to use the Dragon Pagoda this time. Obviously, he might not be able to control it completely."

This was an unstable trump card.

However, it was at least the hope of registering. Once successful, it would be the end of the enemy's life.

Communicating with the Dragon Pagoda was an equally long-lasting mission. When he had to use it, he had already forgotten himself. That would be fun.

Whoosh!

Long Chen recovered from that state and kept the Primeval Dragon Pagoda.

"AHH!"

He jumped in fright. In front of him was actually a dragon sacrifice. Its entire body was silver, and it shone like a gem. It also seemed to have fused with the surrounding space. He could be considered a peerless beauty among the divine dragons. A dragon like this should have been made by a woman.

So it was Ling Xi.

A few sounds of laughter came from the dragon's body, and then it transformed into Ling Xi right in front of Long Chen's eyes. She descended from the skies and arrived before Long Chen's eyes. Her long hair had turned from black to silver, and his eyes flickered with light, becoming even more beautiful and elegant. It was as if she was the darling of space, one with the endless heaven and earth.

Even though he was always with Ling Xi, seeing her now still gave him a breathtaking feeling.

Powerful, ethereal, mysterious, every movement, every smile and gesture, they were all the most perfect masterpieces, the most perfect art.

"Has the Origin Dragon Soul been fused?"

From now on, Ling Xi and Yang Lingqing were the same, true Unparalleled Dragon. As long as time passed, they would be able to grow to the peak of their Tai Yi Shen Jing, and would be very close to the level of their ancestral realm!

"Yes." "It's been settled." Ling Xi landed in front of him and wrapped his arms around her waist, giving her a dreamlike feeling. She was no longer the virgin of the past. Instead, she had become imposing and majestic, and was a true Unparalleled Dragon!

In this way, she had washed away her weakness in exchange for strength and tenacity, yet she had not lost the grace of a myriad of people.

The ethereal eyes, cherry red lips, hair ribbon, even more wonderful.

Long Chen could actually better feel her current strength through his Three Lives Love Silk. Yes, she was infinitely close to him. Just in terms of strength alone, she was already on par with Long Chen. For her, who had become a true Divine Dragon, her own strength had the nature of a Infinite Divine Art.

What you lack right now are the rules. The Sacrificial Dragon has many spatial rules and Di Jun also comprehended them from within. Right now, you are just like a young dragon that can slowly comprehend it on your own in the future. "As long as you comprehend it, you might not be any weaker than Di Jun." Long Chen analyzed her current situation.

In terms of power, it was close to the realm of a supreme deity.

After all, Ling Xi's starting point was very high.

"Mm. I have a lot of ideas now. I've watched your fight with him. There are some similar rules in the Dragon Sacrifice Realm's inheritance. Actually, it shouldn't be too difficult for me to figure it out." Furthermore, the eighteen types of Heavenly Rules Spiritualism s of the Sphinx could now also display their usefulness.

In terms of rules, Ling Xi was actually also a genius. She had a very good foundation, and with Long Chen's nourishment and nurturing, her progress today was actually not surprising.

"Brother Chen, I am so happy."

Ling Xi hugged him. Now that he had a daughter, Long Chen had obtained such a perfect thing for her, allowing her to realize her own value. To her, he was everything in this world.

From now on, I can still live and die with you. "This is great."

Feeling the warmth in her embrace, her burning heart ...

Long Chen thought about it, it seemed that he had always thought like this. Someone like his, even if he did more for her, would still be worth it. She had always been working hard to let Long Chen not worry about her.

For example, this time she was fusing with her inherited blood essence. She had done it much faster than everyone else, and she had done it much better than everyone else. She also had to work hard.

"Alright, don't be pretentious." Long Chen patted her buttocks, causing her to pout in annoyance. The two of them couldn't help but laugh. After a long while, Long Chen said, "When the iron is hot, you just so happen to be a Divine Dragon. Let me let you first control the door of the universe, take me through ten thousand worlds, and then let you control the Myriad Realms Divine Sword, allowing you to have the power to protect yourself from the enemy."

Long Chen's plan was of course to turn everyone around him into super strong warriors!

On Mo Xiaolang's side, Long Chen had always been working hard. Now that Mo Xiaolang had become the Extreme Realm Divine Emperor, with the three types of Ancestral Flames Seeds and Eternal Creation Divine Artifact like the Primal Chaos Demon Saber, his strength was simply close to reaching the top ten of the Divine Emperor's ranking!

But on Ling Xi's side, she had now become a dragon offering with eighteen types of Heavenly Rules and Spiritualism. She would once again comprehend the rules of space and control the door of the universe, the Myriad Realms Divine Sword. It would not be a problem for them to chase after the God of Heaven for a short period of time. Once she controls the gate of the universe and the Myriad Realms Divine Sword, there will definitely not be any problems for him in the top ten of the Divine Emperor's list!

Little Cat, Long Chen is about to go to the time tunnel and help him look for his original body.

Li Xuanji had never forgotten about her. If there was a better opportunity in the future, he would definitely give it to Li Xuanji as well. She was Long Chen's Yin Mo, the reason why she was so strong, was actually extremely important to Long Chen.

In the end, Su Yan, Zhu Xi and the others, Long Chen had also thought a lot of things for them. However, Zhu Xi's bloodline was very strong. With the body of the devil, there was still room for growth, and not to mention the fact that Yang Lingqing was already a Unparalleled Dragon.

When Ling Xi finishes with the door to the universe, it would be the day they would set off again!

The door to the universe and the Myriad Realms Divine Sword were both in the Death Realm.

Long Chen and Ling Xi came to the Death Realm alone. These two divine objects originally belonged to Di Jun, wanting them to submit was not an easy matter.

After arriving at the Death Realm, Long Chen saw that the door to the universe and the Myriad Realms Divine Sword had turned the Death Realm upside down.

"My father once said that you might have some other fortuitous encounters. Don't be in such a hurry to inherit the Dragon Palace's inherited blood essence yet. Whether or not this other fortuitous encounter is the dragon sacrifice inherited blood essence and the origin of the dragon soul is unknown. "

Ling Xi said in satisfaction, "Fate is something that can't be determined with certainty, and it can't be set. This so-called fate was only a coincidence. I feel fine now. "

Long Chen nodded his head, and said: "Actually, if it's better, you can just give up on the Inherited Dragon Soul and change it to something new. Furthermore, I now need you to control the door to the universe. Otherwise, this operation on the Myriad Worlds will take far too much time. "

The Door of the Universe had huge benefits.

The path in front was filled with countless possibilities, just like how Long Qinglan had seen countless possibilities after traveling for a hundred thousand years. From now on, there were countless possibilities for the future.

"Space is a type of rule that I really like."

Now that Ling Xi was completely immersed in the laws of space, her talent was oddly increasing, especially in terms of rules. In these past few days, she had actually mastered all sorts of laws of space, and her speed was extremely fast.

"Do you feel that something has happened to you? How can his speed be so fast? "

For example, Yang Lingqing, she did not have many rules that she had comprehended either. She was also a Unparalleled Dragon, but Ling Xi was far faster than him.

"I don't know. I'll understand in a moment. Maybe it has something to do with you. "

After all, the speed at which Long Chen comprehended the rules was even faster. Ling Xi's own rule of being a virgin was to be able to communicate and integrate with the power of the male side.

"Probably."

Of course he wouldn't think that this actually had something to do with Long Qinglan.

"Then, I'll help you control the gate to the universe first!"

When Long Chen descended, the door of the universe was trapped inside his bloodline. When he used it, it was a round door, but now it was a bronze bracelet.

With Long Chen's current abilities, he could easily catch it.

"Don't resist, it's meaningless."

Long Chen said to the Destiny Heroic Spirit.

"Don't worry, I won't hold a grudge against you all because of Di Jun. I already belong to the Hierarch Taihao. Let me ask you, you dare to control me? Are you ready to fight Hierarch Taihao? This is the real Hierarch, not Di Jun! "

Since he wasn't a fated opponent like Di Jun, Long Chen couldn't be bothered to fight with him. At that time, he could just return to the Death Realm. Therefore, he had no reason to be afraid of the Hierarch Taihao at all.

"The treasures belong to whoever obtains them." Long Chen said in a heavy voice.

"As long as you have the will."

The Door of the Universe still respected Long Chen a lot. After all, even Di Jun had not killed him yet.

"However, if you want to control me and not you, then it will depend on whether this woman has the will to suppress me. What I want to see is true skill. "

The universe door said calmly.

He wouldn't go easy on Ling Xi just because of her pressure. Without a Creation God Equipment, she would only want to follow a weak master.

"Brother Chen, I'll do it myself."

Ling Xi was very confident, floating down, allowing her to take out the position, allowing her to settle things on her own. He was not in a hurry, after all Ling Xi had a lot of time and energy, with Ling Xi's current supreme condition, she could definitely clear the door to the universe.

It's just that the Myriad Realms Divine Sword will be a little hard to deal with, because the Myriad Realms Divine Sword are the Creation God Equipment for the 'semi-primitive level'. It was even better than the Ghost Blood Curse and the Heaven's Sacrificial Spear.

Time flowed on.

Long Chen watched the battle between Ling Xi and the door of the universe.

She was very organized, and could be considered to be displaying her power at the door of the universe. With her current level, it was not difficult for her to do so, and before long, the door of the universe had already admitted defeat, and was wholeheartedly giving in to Ling Xi's control.

"I didn't expect that in terms of spatial laws, you would have such a strong talent. Your future achievements are above even the Emperor Jun."

The Door of the Universe initially thought that Long Chen was only strong himself, but he never thought that the woman beside him was also capable.

In fact, what Long Chen needed the most was Ling Xi to settle the door to the universe. She could slowly study and conquer the Myriad Realms Divine Sword. However, after easily finishing the gate to the

universe, Ling Xi had greater confidence that the Myriad Realms Divine Sword would be able to control the gate to the universe.

"I think that we should take this opportunity to try out a few more attacks on the Myriad Realms Divine Sword."

Ling Xi took out the Universe door and transformed it into a bracelet, putting it on her wrist, making it look like a beautiful accessory.

"Of course. However, the Myriad Realms Divine Sword have followed Di Jun for too long, so we have to be careful. "

Long Chen pulled Ling Xi and shifted their position amongst the Death Realm, instantly appearing in front of the Myriad Realms Divine Sword. Currently, the Myriad Realms Divine Sword was floating above the sea of blood, splitting into tens of thousands of world illusions, and each of them was like a real world. When Ling Xi and the others arrived, these tens of thousands of world instantly gathered together!

"It's all of you!"

Myriad Realms Divine Sword knew, that when Di Jun was defeated, this day would come. He was ready.

"If you want to control me, it's simple. At the very least, you have to convince me. Not just in terms of strength, but without the laws of space, I cannot display my strength! "

The Myriad Realms Divine Sword, on the other hand, was more straightforward and enthusiastic.

They were not loyal to Di Jun, they only acknowledged his strength. This was a good thing.

"Go."

Long Chen lightly patted Ling Xi's shoulder. This time, he used the golden-haired Emperor Jun to make Mo Xiaolang, and the silver-haired Emperor Jun to make Ling Xi.

The Myriad Realms Divine Sword must belong to Ling Xi, sooner or later!

"Forbidden Area for eternity!"

Ling Xi used her outstanding talent at the moment to give the Myriad Realms Divine Sword a lesson. Just when the Myriad Realms Divine Sword was not ready yet, she had already activated the gate to the universe she just prepared and used this move. Although its power was not as strong as when Di Jun imprisoned Long Chen, it was at least much faster!

It was not only the Myriad Realms Divine Sword that was swallowed while it was in a daze, Long Chen was also very surprised.

"This is Di Jun's spatial laws, Ling Xi comprehended it too quickly. I thought rules were her weakness, but I didn't think they would be hers. If this continued, once she controlled the Myriad Realms Divine Sword, she would not be too far off from Di Jun. It was only because I caught up with the Dragon Sacrifice's legacy blood essence and the Origin Dragon Soul, but how could I have such a fast comprehension speed? "

Now that Ling Xi had the spatial rule and adding the eighteen types of Spiritualism s from before, she would definitely become a character that was quite difficult to deal with and surpass Mo Xiaolang.

She had already crushed Myriad Realms Divine Sword in the Forbidden Domain!

Seeing her using this speed to control the Forbidden Area of Eternity, it was impossible for her to not surrender in comparison to the Myriad Realms Divine Sword.

Sure enough, a few days later, that terrifying spatial divine tool became Ling Xi's new weapon. After fusing with everything that was bestowed to the dragon, Ling Xi directly took a step up to the sky.

The rules of space, the Spiritualism s of heaven, the doors of the universe, and the Myriad Realms Divine Sword had allowed her to almost be on par with Di Jun in a very short period of time.

"I also find it strange. Why did many of the difficult questions suddenly become so simple after Yan'er was born?"

Ling Xi herself was confused.

Suddenly, she remembered and said, "Could it be related to your father?" I keep having the feeling that after the origin dragon palace came out, there was a slight change in my body, but it's not too obvious. And in these past few days, after I inherited the dragon sacrifice's inherited blood essence, this change has happened much faster. "

"Is that so?" If Long Qinglan was used as an explanation, then it wouldn't be surprising. However, he did not tell him. Maybe there were some secrets that he could not know for the time being.

"No matter what, my family's Xiao Xi is so powerful, it's a great thing!"

Above the sea of blood, Long Chen hugged her tightly.

"Alright, I miss Yan'Er. Quickly bring me to see her." "If I keep playing with the kittens, Yan'er will definitely become more and more mischievous."

"Alright."

Returning to the Living Realm.

"Father, Mother!" Uncle Cat is teaching Yan'er how to pick up girls, it's so fun! "

A small dragon crashed into him.

Long Chen's face suddenly darkened

With Ling Xi controlling the gate to the universe, everything was ready.

It was time to start again.

If he stayed in Living Realm, it would wear down his fighting spirit. Long Chen still had a lot of things to do.

Mo Xiaolang had already finished cultivating the Heavenly Emperor's Sun Refining Art, and had become the god power of the Eternity. With Long Chen as the leader, and with Ling Xi and the Iron Triangle that Mo Xiaolang had achieved, it had already formed.

"Let's go back to the Dragon Sacrifice Continent to take a look."

What was the current state of that destroyed world?

"Yeah." This was the first time Ling Xi had used the door of the universe to travel a long distance. To be honest, from here to the Dragon Sacrifice Continent, even if she used the Hun Yuan class Divine Battleship left behind by Di Jun, it would still take a few years.

Long Chen entered Ling Xi's Divine Kingdom and let him cross over.

Actually, it was fine for the others to stay in the Living Realm, because no matter where they go, Long Chen would be able to open the Living Realm and return from there.

"Open, door to the universe."

The door to the universe, it could reach all the places it had been before. However, he had never been to the Dragon Sacrifice Continent before.

Under the influence of the Heaven-Devouring Tribe, all of the Creation Gods had lost their memories of the Dragon Sacrifice Continent. It was a divine dragon related memory.

As such, the Door of the Universe does not know the specific location of the Dragon Sacrifice Continent.

It could only bring Ling Xi to the vicinity of Dragon Sacrifice Continent and adjust its direction later.

The bangle vibrated violently in front of her eyes, intertwining with the surrounding space. The door opened and space ripples filled it. This was a wide area of space crossing.

"Let's go!"

Ling Xi's figure disappeared into the gate to the universe, and then the gate to the universe disappeared.
