

War God 301

Chapter 301 - Moon Lake

"At the bottom of the lake, there are a total of about 50 paths that lead to the Inverse Wonderland. Twenty of them belong to the elementary region. We will begin to guard area eighteen today. Right now, we have to pass through the 18th passage." Zhang Yuanteng said while standing beside Long Chen.

As for Yu Tao and the others, as well as the guards of the Eighteen Regions, they did not care about Long Chen at all. It was a good thing that Zhang Yuanteng was the one who had explained the situation to him. Otherwise, it would be dangerous to just go in without knowing a thing about the Inverse Wonderland.

Following them, Long Chen began to infiltrate the Moon Lake. The Moon Lake was a little cool, as if it was mixed with dense spirit energy. Upon contact with the lake water, Long Chen could feel the spirit energy of the heaven and earth becoming denser.

The Moon Lake was extremely clear. Long Chen could see the bottom of the lake clearly, in his line of sight, the bottom of the Moon Lake was a large jade-green crystal that emitted a dark green glow, causing the entire Moon Lake to turn into a green emerald.

Inside the jade-green crystal were 50 white crystals of varying sizes, each about one meter in diameter. This white crystal was surrounded by a faint mist, which made it seem like it was in the clouds. Although it was crystal, it seemed more like a passage.

Long Chen knew that this should be the entrance to the Inverse Wonderland.

Long Chen noticed that the closer he got to the center of the crystal, the bigger it became. In particular, the white crystal in the middle was several times larger than the others. Beside these large crystals, there would usually be a few old men sitting cross-legged, protecting the crystals or the gate to the Inverse Wonderland.

"The closer they are to the crystal in the middle, the higher the level the area they lead to. The crystal in the middle directly leads to the Advanced Fields, so very few people have the qualifications to enter there, and as for these elders, they have all taken over the fairyland godly guard before, so because they are old, they have retired, but their strength cannot be underestimated. With their protection, it would be difficult to enter the Immortal Realm with an unknown identity." Zhang Yuanteng saw the doubt in Long Chen's eyes and explained.

Long Chen realized that there did not seem to be any freedom in the fairyland.

For the time being, he could only follow the arrangements of the owner of the South Central City, the Sword Demon, to enter the Eighteen Regions and receive management.

"Everyone, follow me into passage eighteen." We will arrange for the details of this month's Guardian Rules to be found in the fairyland. " At this time, Yu Tao turned his head and said loudly. After saying that, he stepped on one of the white crystals and quickly disappeared. The others also followed suit and entered the Inverse Wonderland one by one. Because Long Chen and Zhang Yuanteng were new, they were ranked last.

Just as they were about to enter, another group of people came down from the Moon Lake and arrived on the crystal beside number eighteen. That should be the seventeenth crystal. From the crowd, Long Chen saw Song Yuefeng, who was at Japanese.

"Kid, what's your name?" Walking to the very front, Song Yuefeng raised his chin high up, faced Long Chen with his nose, and asked arrogantly.

Amongst the Japanese, although his appearance was still a little wretched, he could still be considered to be the most outstanding. However, Long Chen found it hard to praise this nosehead.

Long Chen could not be bothered with him and directly followed Zhang Yuanteng. He did not even look at Song Yuefeng before stepping into the eighteenth crystal.

His actions immediately caused Song Yuefeng's face to turn gloomy.

"Ba Ga, this grandson actually dared to ignore my words! You went to Area 18? Very good, see if I don't kill you! "

Long Chen suddenly felt a clear and cold water surrounding him, and with lightning speed, it sent him far away. This feeling was extremely comfortable, and a dense wave of spiritual energy rushed towards him.

Not long after, Long Chen discovered that he was standing in the middle of a vast expanse of heaven and earth. The Inverse Wonderland was indeed worthy of being called a city of immortals. Yellow Rank spirit herbs were everywhere, and this was not a rumor, but a true appearance at Long Chen's feet.

Raising his head, he saw that the sky was a dark blue, with white clouds floating in the sky. Under the white clouds, the spirit energy of the world had already condensed into a white mist.

"This is the Inverse Wonderland?" Long Chen and Zhang Yuanteng, the two newbies, couldn't help but start to appreciate the beauty of the Inverse Wonderland. Honestly speaking, this was indeed the most wonderful place that Long Chen had ever seen.

After sizing up his surroundings for a while, Zhang Yuanteng sighed with emotion: "The place that I dream of coming to, is really wonderful."

"I really don't know how this sort of small universe was formed. It is truly marvelous." Long Chen also sighed.

"Oh right, Long Chen, your attitude towards Song Yuefeng just now is a little too much, you don't understand the personality of the Japanese, if you are weak, you must kneel down to him, if not, he will treat you as her mortal enemy, and kill you quickly. Before she does not have the strength to defeat them, I suggest that you cater to him a little, so as to not meet any misfortune."

"Catering? Kneeling? " Long Chen laughed.

"This is only an action of helplessness. Japanese is just like this, without any humanity to speak of, why not bow and kneel first in order to protect your life?" Zhang Yuanteng said helplessly.

"Brother Zhang, a dog wants to bite you, will you still bow down and kneel before this dog?" "For the same reason, I don't believe that I can't slaughter this barking dog." Long Chen laughed.

With regards to Long Chen's blind confidence, there was nothing Zhang Yuanteng could do.

After they entered the Inverse Wonderland, under Yu Tao's lead, everyone arrived at the base of the Eighteen Regions. Because there were people here, Yu Tao barely managed to point at the map on the wall, and explained the location of the Eighteen Regions to Long Chen and the others.

"You two have just arrived and you don't know anything, so you have to listen carefully. We in the Eighteen Regions have a total of eight low grade Earth Stage Elixirs that have yet to mature, and the exact guards are ... Last month, Long Chen, Long Chen, you were a newcomer, so we had to join an

additional patrol and let one of our brothers lead you. Yu Chong, you and Long Chen are in a party, Jiang Shuai, you and Zhang Yuanteng are in a group. "

The eight Earth Stage, low level spirit herbs all had their locations marked on the map. However, protecting the spirit medicine was not Long Chen's responsibility right now.

"Patrol?" Long Chen thought that it was just right. If he stayed in one place, it would be difficult for him to find Nine Celestial Spirit Fruit, he could patrol around freely, and it would be easier this way. However, with Yu Chong, his defeated opponent, dragging him around, Long Chen knew that this fellow would probably cause him some trouble.

"Can I team up with Zhang Yuanteng?" Long Chen looked up and interrupted.

"What nonsense are you talking about? Both of you are new here, and no one is bringing you along. Do you know how to patrol?" Yu Tao's eyes were wide open as a wave of ferocity assaulted his senses.

"Isn't it the same as not taking it with you?" Long Chen himself was clear that when he came to the Inverse Wonderland, all of his knowledge was told to him by Zhang Yuanteng. This Yu Tao swore that he would tell Long Chen about the rules, but in reality, he was farting.

"What did you say?" Long Chen, in the Immortal Realm, as long as you are in the Eighteen Regions, you will have to listen to the orders of the Prefectural Elder. If you continue to speak, I will directly kill you. Yu Tao's gaze darkened.

"Can you do it?" Long Chen's eyes flashed with a cold light.

"Long Chen, are you really seeking death?" Yu Tao was originally a horse bandit, and basically did not have a good temper. At this moment, Long Chen actually did not give him any face in front of everyone, and had already angered him.

Long Chen's insignificant Second Stage of the Milky Way Realm at most had the combat strength of a Third Stage of the Milky Way Realm, but Yu Tao's strength was full of fifth level of the Milky Way Realm.

"Prefectural Elder, you don't seem to have the right to make a move against Long Chen. What right do you have to kill him? Aren't you afraid that Lord Sword Demon will kill you?" Seeing Yu Tao's aggressive attitude, Zhang Yuanteng hurriedly said.

Indeed, as a fairyland godly guard, Long Chen was a direct descendant of the imperial family, so he did not make a mistake. As a fellow fairyland godly guard, Yu Tao did not have any rights to face Long Chen in broad daylight.

"Good, good!" Yu Tao laughed coldly, he endured it and no longer bothered about them. After about fifteen minutes of time, the missions had been distributed. The people who should guard outside gradually left, Long Chen noted down the patrol routes, and said his goodbyes to Zhang Yuanteng.

"Be careful, I see these guys don't like you. Be careful that they don't want to mess with you." Zhang Yuanteng said in a low voice to Long Chen.

"Understood. I'm not reckless." Zhang Yuanteng saw himself as one of his own, but Long Chen thought of him as one of his own as well.

Long Chen himself understood that because of Ling Xi's conflict with the Ninth Prince, although the conflict would not break out for the time being, it would happen sooner or later. And Yu Tao and the others were followers of the Ninth Prince. Their conflict with them was actually a conflict with the Ninth Prince. In this conflict, Long Chen could not give in.

"Looks like I have to quickly raise my strength in this fairyland, Immortal Beast? "Kill them all!"

The member in the same group as Long Chen was Yu Chong. When the two enemies met, their eyes would turn red, and they would even go through official business together. Following the patrol route, Long Chen walked in front, while Yu Chong looked at his back with a dark expression.

"This kid, he really doesn't know how pitiful he is! Furthermore, that day I lost to you, it was purely your luck. If it wasn't for His Highness not allowing me to take action, I would have certainly made you suffer till death!"

As Long Chen walked in this fairyland, he saw quite a few things. Occasionally, he would pick a few mature Profound Rank spiritual medicines and place them in the Qiankun bag. Time slowly passed by.

"I'm already halfway to my destination. I need to make a few detours on this route." Long Chen looked around, and suddenly, he noticed that the fog not far away had started to become denser, and in the blink of an eye, it had formed into a pure white fog.

Seeing the ball of mist, Yu Chong's face changed. Without saying a word, he turned and fled!

"What is it?" Long Chen was shocked!

Chapter 302 - mackerel

Suddenly, a cloud appeared, and Yu Chong ran away without saying a word.

"What did this grandson discover?" Long Chen was not stupid, he ran, he was about to run, but right at this time, two Goblin Beasts rushed out from the clouds, they were two Goblin Beasts that were similar to dogs, not tall, not even half as strong as Sun Devouring Demonic Wolf, their entire bodies were covered with white fur, among them there were black runes that looked like black lines, their eyes were also black, and there were a lot of lion manes around their necks, causing them to look extremely mighty.

"Immortal Beast?" Long Chen stopped in his tracks because he felt that the realm of these two dog type demon beasts should be around Earth Grade Three. In the elementary level regions, it was extremely difficult for a fourth level Earth Stage demon beast to appear.

It looks like Yu Chong isn't afraid of these two demon beasts, he only wants to borrow the hands of these two demon beasts to get rid of me. The importance of this scheme clearly shows. "

Although he knew Yu Chong's intention, Long Chen still did not run away. To him, whether it was Immortal Beast or demon beasts, they were both great supplements.

Because of the damp terrain, the venomous beasts that were born were extremely poisonous, and because of the rich nature spirit energy in the Inverse Wonderland, it was almost liquid. Bathing in such spirit energy, even the demon beasts would become very beautiful and have intelligence, their demonic energy being nourished by the nature spirit energy, it also reduced their violent aura by a lot.

These two demon beasts were somewhat similar to the mackerel from the Earth Grade Three recorded in the records of demon beasts. Presumably, they were originally mackerel s, but after countless years of being passed down in the fairyland, they finally became like this.

Long Chen had no choice but to use all of his strength to deal with the two Earth Grade Three demon beasts. Soon enough, he directly used the Dragonsoul Transformation, its neat and orderly red dragon scales completely protecting him. Just standing there made him feel like he was filled with power.

Roar!

The two mackerel s were originally heading towards the center of the Eighteen Regions. However, when they saw Long Chen, they immediately turned around, lowered their heads and roared, then pounced towards Long Chen. Ever since the imperial family took control of the Inverse Wonderland, the Immortal Beast s had started to battle with the imperial family for countless of years.

"This speed, it's practically the same as when the little wolf was still at Earth Grade Three." No wonder Yu Chong was able to escape. In terms of Earth Grade Three, this mackerel could be considered a relatively strong demon beast. Even Yu Chong himself didn't know if he could handle one or not.

"Coincidentally, Yu Chong isn't here. Let me try the divine fire clone." With that in mind, Long Chen released all the kindling fires that he had condensed during this period of time. A total of five human shaped fire clones stood behind him. After a period of training, Long Chen had successfully cultivated to the second stage of the divine fire clone!

Looking at the five fire clones, the mackerel was stunned, but it did not stop its steps.

Five divine fire clone, had completely trapped one mackerel and as they attacked consecutively, flames danced wildly and completely intercepted the mackerel. And at this time, Long Chen used his green dragon halberd and knocked the mackerel away, and immediately pounced on it.

The mackerel's advantage lay in its speed and agility. It was able to dodge very little even when facing against Long Chen's speed of green dragon halberd, and its claws and teeth, supported by strong demonic power, were able to attack Long Chen time and time again and completely avoid Long Chen.

"Nine Revolving Fire Shield!"

Pulling away the green dragon halberd, Long Chen had a bright idea. He directly used the Nine Revolving Fire Shield, and used it as a weapon, pushing it towards the mackerel. This huge flame vortex appeared out of thin air, causing it to be unable to dodge in time, and it was a battle skill from the Earth Stage Medium.

The flames of the Nine Revolving Fire Shield made the white fur on the mackerel burn up. The mackerel let out a wail and was trying to escape, seeking help from its companions. At this time, Long Chen pulled away the Nine Revolving Fire Shield, and the green dragon halberd started to dance!

"Azure Dragon Battle Method, Soaring Dragon Nine Heavens!"

The green colored dragon soul rose into the air, and blasted the mackerel that was about to escape into the sky. Then, it fell down with a loud bang, falling onto the ground. As he fell to the ground, black blood flowed out of his eyes, ears, nose and mouth. His eyes were wide open and he had lost all signs of life!

When the other mackerel saw its companion in such a miserable state, it immediately went crazy. The five divine fire clone were instantly destroyed by it, and two of them!

Long Chen did not stop. Right after he killed one of the mackerel, he pounced towards the other direction, his Innate Qi was not any weaker than the mackerel's Spirit Qi. Furthermore, he had the Earth Stage Medium's weapon, coupled with the three divine fire clone's obstructing hands, he quickly used the same method to kill this mackerel.

"Blood Refinement Qi!"

Through the inheritance ability of the Primordial Blood Spirit Dragon, Long Chen had completely absorbed the blood veins of the two mackerel and transformed them into his own Innate Qi.

"It's a pity, there's still some distance to go until I reach the Third Stage of the Milky Way Realm. Looks like I can only use the fourth level Earth Rank Immortal Beast, but I can't defeat the fourth level Earth Rank Immortal Beast."

To Long Chen, this was indeed a tangled matter.

After digesting the blood of the two mackerel, Long Chen burnt their corpses to ashes. Counting the time, looking at the direction just now, he knew that Yu Chong should be back soon. During this period of time, it was enough for him to return to the base area, notify Yu Tao, and then come over to clean up Long Chen's corpse.

Sure enough, not long after, Yu Tao, Yu Chong and a few patrolling fairyland godly guards came over. From afar, they saw Long Chen standing there perfectly fine and were immediately shocked, especially Yu Chong.

"Long Chen, where are the two mackerel?" As the Prefectural Elder, Yu Tao immediately looked around at the traces on the ground. Other than the traces of being burned by the flames, there was nothing else.

"What mackerel?" Long Chen looked at him with a smile that was not really a smile.

"Yu Chong, didn't you say that two mackerel with Earth Grade Three have appeared here?" Yu Tao turned his head, and asked gloomily.

"Really? I'm not mistaken, they are definitely two mackerel! Why did it suddenly disappear? " Even if he was killed by Long Chen, what about his corpse? Could it be that Long Chen had incinerated it? Was Long Chen that powerful? The Second Stage of the Milky Way Realm, was enough to instantly kill two demon beasts of the Earth Grade Three?

"Since when did mackerel exist? When we patrolled here, you rushed back just like that, Yu Chong. I thought you wanted to find a place to shit, haha, "Long Chen laughed, his face full of ridicule.

"Long Chen, what did you say?" Yu Chong's expression turned cold.

"Forget it." Yu Tao shook his head, holding down Yu Chong, he looked at Long Chen with suspicion: "Since no mackerel appeared, then everything will continue, you guys continue your patrols!"

"Yes sir!" Although everyone was bewildered, they did not dare believe that a countryside bumpkin from a small place like Long Chen could achieve this in a short period of time without getting hurt.

Long Chen was thinking about the Nine Celestial Spirit Fruit and could not be bothered with these clowns. Although there were some that were stronger than him, as the one and only Dragon Fighter, Long Chen could quickly surpass them.

As the days passed, during Long Chen's patrol, he killed quite a number of demon beasts, from the first rank of Earth Stage to the first rank. His strength was only a hair's breadth away from his Third Stage of

the Milky Way Realm. However, there was still no news about the Nine Celestial Spirit Fruit. Long Chen knew that this was no good, and on this day, when they were on patrol and resting, he could not help but ask Zhang Yuanteng.

"Brother Zhang, do you know if there are any famous treasures in the Inverse Wonderland?" Long Chen asked in a low voice.

"Baby? I don't know about this, the Advanced Fields is a place directly controlled by the royal family, everything inside is kept a secret. You talk about treasures, I actually know of a legend, that there is a spirit rune in the Advanced Fields, a very strange spirit rune. It is visible but untouchable, and no one can do anything to it. "

"Soul Symbol?" This had nothing to do with Long Chen, so he asked nervously: "Have you heard of Nine Celestial Spirit Fruit?"

"No. What grade of spirit medicine is this? " Zhang Yuanteng was startled.

At that time, Long Chen did not even ask Li Xuanji what rank the Nine Celestial Spirit Fruit was, which was his negligence. However, he guessed that anything that could help Ling Xi recover her fleshly body had to at least have Advanced Fields.

Zhang Yuanteng didn't know about Nine Celestial Spirit Fruit, which made it even more obvious that Nine Celestial Spirit Fruit were precious.

"Tell me, do you think we can enter Advanced Fields now?" Long Chen tried to test the waters.

"Of course not," Zhang Yuanteng laughed, "Advanced Fields is the direct subordinate territory of the imperial family, and there are countless secret treasures inside. Long Chen, you can't be thinking of going to the Advanced Fields, right? Don't joke around, you will definitely lose a thousand lives! "

"What a joke, am I courting death?" Long Chen laughed and said, but his heart sank, it seems the Nine Celestial Spirit Fruit was much harder to obtain than he had imagined.

"Not to mention that there are many strong warriors in the Advanced Fields who can kill you, those Immortal Beast with Earth Stage Seven above that area are very common. If you were to go there, you

would be able to lose your life even if you met any random thing." Zhang Yuanteng was worried about Long Chen, so he explained in detail.

"The beasts of the Earth Stage Seven? Are they always staying within the Advanced Fields? " Long Chen suddenly asked.

"Usually, they live in the Advanced Fields, however, the several times that the Immortal Beast tide has occurred in the Inverse Wonderland is in fact, the uprising of the Immortal Beast. Every time there's a Immortal Beast tide, the powerful Immortal Beast in the Advanced Fields, there would be many that run into the Elementary Region, and every time, there would be a lot of deaths."

"Immortal Beast tide?" Since they were called tides, there must be many of them, and they were extremely terrifying.

Chapter 303 - Immortal Beast Wave

"When does the Immortal Beast tide normally happen?" Long Chen asked.

"I'm not sure about that, but don't worry. When there is a Immortal Beast tide, an elementary level area will normally open up, and there will be more powerful warriors there. As long as we can reach the protected area in the shortest time possible, we can find shelter there." Zhang Yuanteng patted Long Chen's shoulder and laughed.

"Our Eighteen Regions's closest protected area should be at the border between the seventeenth region and the Eighteen Regions. But Long Chen, you don't have to worry, the Immortal Beast tide is extremely rare and has happened a few times as well.

Long Chen was just casually asking and did not record the tides of the Immortal Beast in his heart.

In the following period of time, Long Chen scouted information about Nine Celestial Spirit Fruit from various angles, but to no avail. He gradually realized that if he wanted to stay in the Inverse Wonderland and get to the level of being able to come in contact with Nine Celestial Spirit Fruit, his current strength was completely insufficient. At the very least, he needed the strength of his seventh level of the Milky Way Realm.

If only I had known earlier, I would have cultivated everywhere until then, and only then did I come in. But luckily, the Inverse Wonderland has an endless number of Immortal Beast, and I'm almost able to break through 4th level of the Milky Way Realm now.

More and more seeds of True Fire were condensed out by Long Chen, and planted in his acupoint. Long Chen had already completed the last move of training the green dragon halberd, which was definitely a move many times more powerful than the Soaring Dragon Nine Heavens, and was the complete essence of the Azure Dragon Battle Method.

There was one more thing that was more important, and that was that Long Chen realized that he could now cultivate the third level of the Spirit Devouring Demon Pupil. Long Chen had already mastered the first two levels of Spirit Devouring Demon Pupil's charm and Capturing Spirit. However, the third floor still didn't have any actual attacking power, but it could give Long Chen a lot of support.

The third floor of the Spirit Devouring Demon Pupil s, named: Insight.

Long Chen realized that when he used his Insight, the surrounding rooms, mountains and rocks would all disappear, or more accurately, it was equivalent to disappearing. In the range of his vision, the strongest person there was a human being, and in the eyes of the Spirit Devouring Demon Pupil, all of these people were gray and strange mist, this should be the soul.

Not only humans, as long as it was life, even if it was just a flying insect, it would be extremely clear in the eyes of Spirit Devouring Demon Pupil. When using this Spirit Devouring Demon Pupil, even if Long Chen was in the darkest environment, she would be able to completely see the position and movements of the nearby lifeform. It was equivalent to him having a pair of eyes that could directly see the soul.

During their first patrol, Long Chen had already seen clearly how many demon beasts there were within the clouds, and to what degree.

"With this Spirit Devouring Demon Pupil, if I were to fight with others in the darkness or other special situations, I would take advantage of them. "Besides, it can prevent others from sneaking an attack on me. No life around me can escape my sight!"

Long Chen was a little emotional. This Spirit Devouring Demon Pupil was only at the third floor, but it was already so powerful. He really didn't know how strong it would be in the future. The thing that Li Xuanji gave should not be a simple one.

"A month's time will pass in the blink of an eye, while Xiao Xi is in Prince Jadeite's manor, I can't calm down. Since there isn't much time left, I have to fight for the chance to obtain the Nine Celestial Spirit Fruit, but, I have to patrol this small place everyday, when will I have the chance to enter the Advanced Fields?"

In the past few days, Long Chen had been bitterly pondering over this question.

On the eighteenth day after entering the Inverse Wonderland, Long Chen continued his patrols with Yu Chong, following Yu Tao's instructions. Patrolling was something that the lowest level of fairyland godly guards did. After Long Chen came to the Inverse Wonderland, although he had seen many Profound Ranked Spirit Medicines, he did not see any Earth Ranked Spirit Medicines. As long as they were Earth Ranked Spirit Medicines, they were protected by Yu Tao and the others.

Towards a person like Yu Chong, who frequently provoked and framed, if not in this Inverse Wonderland, Long Chen really wanted to kill him immediately.

"Long Chen, this is clearly the path. Where are you going?" At this time, Yu Chong who was behind him asked in a strange tone.

"Who cares where laozi goes?" Long Chen was too lazy to bother with him. He suddenly felt that there were some movements in the clouds at the other side, hence he could not help but go over. But, seeing that his attitude was not good, Yu Chong immediately went against him.

"What did you say, kid?" You're looking for death, right? "Don't think that just because you defeated me last time that you will be so proud. Let me tell you, in terms of actual combat strength, even if you flatter me, you won't be my match." Yu Chong said angrily, his big and sturdy body walked to the front of Long Chen and stared at him, like a tiger eyeing its prey.

"Idiot." Long Chen was too lazy to bother with him. He knew that he still couldn't kill Yu Chong at this time, so he didn't want to waste his strength. To, who was eyeing him covetously, what he needed to do was to kill him in one hit.

Just as he was about to circle around him, Long Chen suddenly felt the earth shake.

"Illusion?" At first, Long Chen thought that he was hallucinating, but in this world, even Yu Chong's expression changed as he hurriedly laid down on the ground, listening to the movements on the ground. His face instantly turned pale, and at this time, Long Chen heard the roars of beasts that pierced the skies, and the sky above Inverse Wonderland shook!

The earth shook violently. Countless running sounds could be heard from all directions.

Rumble rumble rumble!

It was as if tens of thousands of horses were advancing at the same time that such a sound could be heard.

When he raised his head, Long Chen discovered that the clouds and mist around him had surged greatly. His eyes were calm as he used the Spirit Devouring Demon Pupil s, and looking towards the clouds and mist in the distance, he actually felt a strong soul aura surging forth from the depths of the clouds and mist.

"Immortal Beast tide?" In Long Chen's mind, the noun that Zhang Yuanteng had just mentioned to him not long ago appeared.

"Immortal Beast Tide!" He had heard of the terror of the Immortal Beast tide before, but it had actually happened to him now. Seeing that the Immortal Beast tide was approaching, he did not have the time to fight with Long Chen, and at this moment, everyone was probably able to sense that a wave of Immortal Beast was about to be discovered, so most of the weaker fairyland godly guard were already heading towards the protection grounds.

Without saying a word, Yu Chong ran. In his opinion, without Yu Tao's explanation, Long Chen definitely wouldn't know how terrifying the Immortal Beast tide was.

"This kid doesn't know anything, so just stay here and let him die." Thinking that Long Chen would die under the claws of the Immortal Beast, Yu Chong felt extremely relieved.

Seeing Yu Chong running away, Long Chen's eyes flashed with a cold light.

"I never thought that a wave of Immortal Beast would really appear. It just so happens that I can take advantage of this chaos and risk my life to enter Advanced Fields to find out more information about the Nine Celestial Spirit Fruit. Otherwise, I probably won't have the chance.

Thinking of this, without saying a word, Long Chen followed Yu Chong and escaped.

Looking at Yu Chong's escaping figure, Long Chen laughed. Before this, he had never dared to kill Yu Chong, but what about now? Rumbling sounds came from the Immortal Beast behind him. Maybe in a few breaths time, the Immortal Beast would arrive, Long Chen could completely use this opportunity to push the matter of killing Yu Chong to the Immortal Beast.

Honestly speaking, Long Chen had endured them for too long. Today was the day he would truly erupt!

In the process of chasing after Yu Chong, Long Chen turned into a Dragonsoul Transformation and used a green dragon halberd. The green dragon halberd flashed with a cold light.

"Whatever, I'll let you try the last move of the green dragon halberd." In the midst of the silence, Long Chen quickly stuck close to the other party.

"Yu Chong." Yu Chong was originally focused on travelling when he suddenly heard Long Chen's voice behind him. He was frightened to the point of quivering, and then furious, because in his opinion, Long Chen should be waiting for the Immortal Beast tide at the same place, but he actually still dared to chase after him and play tricks on him?

"F * * k off!" Yu Chong turned his head around, and shouted out a vulgarity!

"Azure Dragon Battle Method!"

When Yu Chong turned around, all of a sudden, an extremely powerful aura pressed down on his body, making it hard for him to breathe. And at this moment, amidst his confusion, he seemed to see a bright white thread flying towards his own forehead. Before he could even react, a heart-piercing pain appeared between his brows, and then, the entire world had turned black.

"The fall of the Dragon Emperor."

This was the last move of the Azure Dragon Battle Method. It was simple, simple, but possessed incomparable lethality. Long Chen stuck close to Yu Chong's back and used this move against Yu Chong. Yu Chong didn't even have the chance to react before he was killed.

He never thought that Long Chen would actually be so bold to this extent. Although Long Chen was not a wolf, he had a wolf-like personality. He was patient and vicious, but Yu Chong died because of his wolfness.

After getting rid of Yu Chong, Long Chen immediately threw his corpse behind him. Behind him were the endless Immortal Beasts, and this Immortal Beast hated the fairyland godly guard to the bones.

"I don't have any other intentions, I just want you to understand that offending me will not end up in a good way. It's the same for you, your brother Yu Tao, and even more so for the Ninth Prince." Looking at Yu Chong's corpse, the corner of Long Chen's mouth faintly revealed a cold smile.

He stayed where he was for a while longer. Through the Spirit Devouring Demon Pupil, he could already see the surrounding Immortal Beasts. If he returned to the base too quickly, Yu Tao would definitely suspect him. But right now, the Immortal Beast was right in front of him, if he wanted to escape first by himself, he would instead be caught and killed by the Immortal Beast.

"So many Immortal Beasts, it must be the wave of Immortal Beasts that Zhang Yuanteng was talking about."

Long Chen headed towards the direction of the protected area. There were many Immortal Beasts that made a lot of noise, and their beast roars shook the world. Many fairyland godly guards headed towards the direction of the protected area. Long Chen did not take long to arrive, and before that, he met Zhang Yuanteng.

Chapter 304 - Nine Heavens Primordial Flame Beast

Seeing that Long Chen was safe and sound, Zhang Yuanteng heaved a sigh of relief and said: "Long Chen, look at my crow mouth, I just said that not long ago, the Immortal Beast tide had really arrived. But don't worry, we'll head over there to the protected area right now."

The reason why Long Chen did not rush to Advanced Fields directly was actually to meet Zhang Yuanteng. He is a rare good friend, after ensuring his safety, Long Chen shook his head and said: "No, I have some matters to attend to. Brother Zhang, if you consider me as your brother, then don't ask too

much, I have my own responsibilities, and this matter is extremely important to me, I hope that you do not interfere, goodbye!"

After he finished speaking, Long Chen no longer said anything else and directly went past Zhang Yuanteng, disappearing from Zhang Yuanteng's field of vision with a very fast speed. Long Chen's words gave Zhang Yuanteng a fright. Because Long Chen's words were spoken so flatly, before Zhang Yuanteng could think of how to persuade him, Long Chen had already ran off.

With no other choice, Zhang Yuanteng could only head in the direction of the protected area with his thoughts. At this time, the Immortal Beast tide was approaching and deafening beast roars could be heard everywhere. Basically, not many people were able to notice Long Chen.

This was the intersection between the Eighteen Regions and the seventeenth region. Not only were the people from the Eighteen Regions going to the protected area, the people from the seventeenth region were also going to do the same. When Long Chen was talking with Zhang Yuanteng, a group of youths under the escort of a group of fairyland godly guards looked in their direction. When they saw Long Chen, a trace of ruthlessness flashed past their eyes.

"Isn't that youth the Long Chen who stole my limelight in front of the Sword Demon? And that original Anti-Central Army Warrior, she's really evil!"

As he thought about how the things he prepared to obtain were actually obtained by Long Chen, the jealousy and hatred in Song Yuefeng's heart grew deeper and deeper. Long Chen instantly escaped and disappeared, but under that helplessness, Zhang Yuanteng had no choice but to quickly go to the protected area.

"You can run fast, but this Anti-Central Army warrior is related to him, she's very annoying!" Looking at Zhang Yuanteng's leaving figure, Song Yuefeng laughed sinisterly and followed.

"Kill another one, take it as an appetizer. Long Chen will definitely go to the protected area, at that time, there will be a proper meal."

Song Yuefeng thought happily.

Long Chen hacked another mackerel to death, then opened his eyes and looked around. The thick white fog had already covered the entire Inverse Wonderland, and using the Spirit Devouring Demon Pupil, he

could see the souls of the many Immortal Beast, and they were slowly approaching. There were already many warriors who did not manage to retreat in time, and were fighting with the Immortal Beast.

The tide of Immortal Beast was either from the Advanced Fields or the intermediate realms. The fairyland godly guards of the intermediate and primary realms were completely no match for him, so she could only hide in the shadows first and conserve her strength. As long as the fairyland godly guards of the Advanced Fields appeared, he would have the ability to suppress the tide of Immortal Beast.

Long Chen had already passed the protected area, and very quickly, he entered the intermediate region. After entering the intermediate region, Long Chen discovered that the spirit energy here was a lot denser, and the spirit medicine grade here was even better.

It was quite common for Earth Stage Level 4 to Level 6 Immortal Beast. If Long Chen did not manage to cultivate the third stage of Spirit Devouring Demon Pupil and met them, regardless of whether they were Immortal Beast or warriors, he would end up with a tragedy.

With the Spirit Devouring Demon Pupil, Long Chen could avoid these Immortal Beast and warriors from far away. In the Intermediate Region, there were a lot of mackerel. Long Chen avoided high level Immortal Beast and directly rushed towards them to kill them. At the same time, he was also using the Blood Refinement Qi to increase his own strength.

"What's going on? He had used too much Blood Refinement Qi recently. He felt dizzy, and the killing intent in his heart was heavy.

Long Chen felt that every time he used Blood Refinement Qi, it was as if he was poisoned. Although his strength had increased by a lot and he felt refreshed, there was always a cold killing intent growing in his chest.

However, this could be said to be the time where Long Chen needed strength the most, and Ling Xi's life and death depended on his performance this time. Long Chen did not dare to be negligent in the slightest, as the only thing he felt more was killing intent and a bloody aura.

They continued to advance through the intermediate domains.

In the Intermediate Region, there were only extremely important spiritual medicines, and only at this moment, they were protected by someone. As for the other Profound Rank and yellow rank spiritual

medicines, Inverse Wonderland would immediately produce a large pile, and they would not have any effect, but every single one of the fairyland godly guard's people were relatively talented.

Therefore, every time the Immortal Beast tide came, it would still be to protect the person.

In this period of time, Long Chen had seen several stalks of Earth Stage Medium elixirs, but, because these medicines were not ripe, even if he picked them out, it would be useless, and would be useless to look at them.

At this time, the entire Intermediate and Basic Regions had already been occupied by Immortal Beast. If not for Long Chen relying on the Spirit Devouring Demon Pupil, his journey would not have been so easy. In his field of vision, he had seen Earth Rank Level 6 or 7 Immortal Beast. On the way there, he had seen that the strength of an Earth Rank 6 or 7 beast could greatly improve it.

Only, to Long Chen, the sixth level of the Earth Stage was a distant beautiful dream.

Just then, the battles between the strong fairyland godly guard and the Immortal Beast officially began. Long Chen quietly went around them and walked along the small path, quickly approaching the Advanced Fields. Although there was no clear boundary between Advanced Fields and the Intermediate Realm, Long Chen could roughly guess it from the changes in spirit energy and spirit medicine around him.

"The surroundings here are relatively peaceful, it's as if we aren't threatened by Immortal Beast. What's going on?" When Long Chen walked to the middle of a wilderness, he realized that there were not even a few Immortal Beast, let alone a few humans. There was a suffocating smell in the air.

Long Chen had a bad premonition, he quickly used the Spirit Devouring Demon Pupil to observe the surrounding soul fluctuations. However, there seemed to be nothing here? Not even an ant.

There were no living creatures within a mile radius.

"What's going on?" is this place the Advanced Fields? " Long Chen looked around.

Right at this moment, his Spirit Devouring Demon Pupil caught sight of a ripple that was strong to the point that it made his soul tremble, and it instantly approached him. Long Chen abruptly raised his head, and shockingly saw a gigantic beast floating in the sky!

The gigantic beast's entire body was burning with blazing red flames, a pair of gigantic wings, it was similar to a bat's, yet it also required the coin bat's meat wings to be filled with ferocious power. The gigantic beast had a lion like body, sharp claws and fangs, a pair of eyes that were burning with flames, it coldly looked at Long Chen, and that overwhelming pressure made Long Chen think that he had met a god in that instant!

Such a huge pressure almost made him kneel down, much less fight!

Long Chen clearly remembered the name of the Immortal Beast. After the little wolf had obtained the Sun Devouring Demonic Wolf's body, Long Chen had been looking for a fire type treasure to help the wolf cub, and there were some demon beast cores for this project. And amongst the earth category, the demon beast with the strongest fire attribute was considered one of the Nine Heavens Primordial Flame Beasts.

True Fire Beast of the Ninth Heaven, Ninth Grade Earth Grade!

This kind of Immortal Beast was only a sneeze, it was more or less a demon beast that could jump Long Chen to death!

It was only then that Long Chen remembered, no wonder there were no other living beings around, this was the territory of the Nine Heavens Primordial Flame Beast. It was a demon beast from the Ninth Grade Earth Grade, and the sensing strength was even higher than Long Chen's Spirit Devouring Demon Pupil. Therefore, when Long Chen hadn't discovered it, it had already discovered Long Chen.

Long Chen's entire body's nerves tensed up in an instant.

"Why am I so unlucky? "If this Nine Heavens Primordial Flame Beast wants to kill me, I definitely don't have the slightest ability to resist it," Thinking up to here, Long Chen's face paled. Ling Xi and the little wolf were still waiting for him at Prince Jadeite's manor.

Without Long Chen, Ling Xi simply had no future. This was the enormous pressure in Long Chen's heart, a man must take responsibility!

It was only then that Long Chen realized that he had been too impulsive to rush to the Nine Celestial Spirit Fruit's territory. Now that he had barged into the Nine Heavens Primordial Fire Beast's territory, it could be said that he deserved it.

The only thing that made Long Chen happy was that after the Nine Heavens Primordial Flame Beast realized his existence, it did not attack immediately. Instead, it looked at Long Chen with a puzzled expression.

Flames were spewing out of his nose as he breathed.

"What is this beast trying to do?" Long Chen did not dare to raise his head to look at it, and could only silently ponder.

Just at this time, the Nine Heavens Primordial Flame Beast seemed to have lost its patience. It circled around Long Chen a few times, and suddenly let out an angry roar.

Long Chen knew that the Nine Heavens Primordial Flame Beast was about to attack him. Without saying a word, he turned into a Dragonsoul Transformation, then burst out with his strongest speed and escaped in the direction he came from!

At this moment, he did not care if he would be found in the Intermediate Domain or not!

When Long Chen used his Dragon Soul Transformation, the Nine Heavens Primordial Flame Beast was stunned for a moment. Its body stopped in mid air, and with that little bit of time, Long Chen had already leapt more than a hundred meters away!

"He seems to be able to sense the inherited blood essence of my Divine Dragon? And the Dragon Soul Transformation? No, it shouldn't be feeling anything. Rather, it must have sensed something on my body that it is wary of. Otherwise, it would have rushed over long ago and killed me with a single breath. " Long Chen thought as he ran.

Even if it was the Dragon Soul Transformation, the Nine Heavens Primordial Flame Beast would only last an instant. It flapped its wings and instantly appeared behind Long Chen. With a roar, a surge of flames engulfed Long Chen at an extremely fast speed!

The Nine Heavens Primordial Flame Beast was incomparably large. Its flames were simply like an ocean to Long Chen, and soon, he would be submerged ...

Chapter 305 - Divine Blood Escape

Long Chen could already smell the fiery hot air. The problem of how the Nine Heavens Primordial Flame Beast was spitting out flames was extremely high, and even if it had not approached him, Long Chen could already feel a burning pain from his back. The searing heat made his body feel as though it was suffused with smoke.

"He's really dead this time!" Long Chen felt incomparable despair. If it was an Earth Rank sixth or seventh stage beast, he could still resist it a little. This beast with Ninth Grade Earth Grade probably had battle prowess comparable to the Canyang Kingdom's strongest warriors and Sword Demons. In this Inverse Wonderland, he reckoned that these were the most powerful demon beasts. Facing such a powerful demon beast, how could he possibly survive?

"Xiao Xi!" Thinking about Ling Xi and feeling the crazy flames behind him, Long Chen's blood immediately boiled. He felt that it was a little difficult to breathe, and in his chest, it seemed as if there were explosions occurring again and again. His entire body was bloodshot, and if she had not used her Dragonsoul Transformation, his entire body would definitely have been covered in veins!

"How could I just die here!?" I can't accept this! " At this time, the flames behind him could engulf him at any time. Long Chen had already reached his limit, he angrily raised his head, and roared out in frustration!

"Die!"

Right at this moment, Long Chen felt as if his body had exploded. His blood was already flowing extremely fast, and now it was flowing even faster! Countless amounts of blood seemed to transform into little bloody dragons that swarmed forward amidst the bloody light, emitting earth-shattering roars!

The Ancient Dragon God was the most heaven opposing creature. Right now, it was like it was hiding within Long Chen's body, yet it was being threatened by the Nine Heavens Primordial Flame Beast. Coupled with Long Chen's unreconciled emotions, while he was fleeing for his life, he had the nagging feeling that there was something in his body that was about to break out, and that it was directly destroying the Nine Heavens Primordial Flame Beast's body!

That was the blood of a dragon!

Roar!

With his human mouth, Long Chen let out a deep dragon's roar. It was at this time that he realized that the Mysterious Dragon Jade that had been quiet for a long time had suddenly moved!

In Long Chen's sea of consciousness, the Mysterious Dragon Jade released a pitch black light, enveloping the bottom of the drop of God Dragon's Inherited Blood. There was still 999% of the Inherited Blood here, and at this moment, a familiar scene happened once again.

Being controlled like this, the Inherited Blood essence seemed to be extremely abundant, but there was nothing Long Chen could do about it. Long Chen could vaguely feel that in that tiny bit of Inherited Blood Essence, there lurked a blood-colored dragon that blotted out the sky and covered the earth.

However, it was useless.

Just like how Long Chen had comprehended Blood Refinement Qi and the Dragon Soul Transformation, flowing blood veins had appeared on top of the Dragon Jade. The flow of the bloody light in these blood veins was not much different from when he had comprehended Blood Refinement Qi.

"Blood Escape!"

In Long Chen's mind, these two words appeared. When he comprehended Blood Refinement Qi, the words Blood Refinement Qi appeared in his mind. Only then did Long Chen understand the meaning of the heaven defying divine ability.

And this Blood Escape, was only able to activate the Mysterious Dragon Jade under the coercion of the Nine Heavens Primordial Flame Beast, allowing him to comprehend this ability. Long Chen had not used it yet, so he did not know how it could be used.

From the moment the Mysterious Dragon Jade was active to the moment Long Chen learned the Blood Escape, there was only a tiny amount of time. Just when the Nine Heavens Primordial Flame Beast was about to burn Long Chen to a crisp, Long Chen used Blood Escape at death's door!

He believed in Mysterious Dragon Jade, so this was his last chance to protect himself. If even blood escape wasn't effective, then Long Chen would truly die this time.

"Blood Escape, Activate!"

In a split second, his entire body turned into a ray of blood light and instantly disappeared from under the eyes of the Heaven Primordial Flame Beast. The Nine Heavens Primordial Flame Beast only had enough time to see that this ray of blood light was something that looked like a long snake and Long Chen had already disappeared.

In reality, this was not a long snake, but the legendary Ancient Dragon God. Long Chen used the Blood Escape and his entire body appeared to be in a liquid state. He even turned into a ray of blood-colored light and instantly disappeared into the distance.

Long Chen was unable to even describe how fast he was moving but what he was certain of was that the Nine Heavens Primordial Flame Beast would never be able to catch up to him. His speed was even faster than the Nine Heavens Primordial Flame Beast which was countless times faster than him! The Nine Heavens Primordial Flame Beast never thought that Long Chen would have such speed, so when the little guy in front of it disappeared, it finally reacted and let out a roar that shook the heaven and earth, and crazily chased after Long Chen!

Under the burning behemoth, all the spiritual medicines were charred black and turned to scrap ...

Long Chen was not worried, because in just a small moment, the Nine Heavens Primordial Fire Beast behind him had already disappeared. Long Chen immediately turned a corner, and with that turn, it was basically impossible for the Nine Heavens Primordial Fire Beast to find him.

He was still able to rejoice that he was not dead, but right at that moment, a feeling of weakness pervaded his entire body, only then did Long Chen realize that this Blood Escape had consumed a lot of True Qi, he had only been about five kilometers, his True Qi was almost exhausted, if he did not stop in time, he would have been squeezed dry by the Blood Escape!

Suddenly, a streak of blood-colored light transformed into a human, standing on this piece of land. Long Chen turned his head in a hurry, and heard a burst of angry roars coming from behind him. However, he could no longer see the Nine Heavens Primordial Fire Beast.

Only then did he have a sigh of relief.

"Looks like I can't be so impulsive and anxious in the future, or else something bad will happen sooner or later. If I'm not in danger this time, I would have definitely died if I had actually comprehended the blood escape technique!"

"The moment I die, Xiao Xi, sigh, for her sake, I would only be so anxious to get my hands on the Nine Celestial Spirit Fruit." Long Chen was a little helpless.

His attention shifted to the Blood Escape.

"Blood Refinement Qi, Dragon Soul Transformation, Devouring Blood Realm, and this Blood Escape are all heaven defying abilities, and they can even level up along with their own leveling up. The drawback is that with my current Zhen Qi, I can only maintain this speed by running only ten miles. However, with regards to escaping, ten miles is enough. This Blood Escape is indeed the ultimate move to escape! "

With this Blood Escape, Long Chen's future life would be even more secure. Although Blood Escape wasn't as dazzling as Blood Refinement Qi, it was still a life saving sacred art. If Long Chen used it well, he might be able to save several lives, and that would be even more so.

"Primordial Blood Spirit Dragon, ancestral dragon blood, I can't be wrong. I am the one who was mentioned by the The Devil Emperor of the Burning Heaven, the one who surpassed the Sun Devouring Demonic Wolf and became the world's number one Ancestral Dragon Fighter?"

Thinking about it here, Long Chen was somewhat excited.

However, he had no choice but to consume the Tianhe Dan s. Furthermore, he was cultivating by the side, and after an hour, he had fully recovered her true qi. This time, he learnt his lesson and found a secluded place to hide.

After recovering his strength, Long Chen stood up and took a closer look. He realized that the sound of the beasts outside had calmed down a lot, and there did not seem to be any beast roars anymore. Looks like this time's Immortal Beast tide riot should be about right.

"It seems like the Nine Celestial Spirit Fruit is not that easy to obtain. I have already learned my lesson, and I have to remember it well." Long Chen secretly thought and was about to return home, but at this time, he suddenly heard the Nine Heavens Primordial Flame Beast's angry roar.

"They haven't left yet? It's really like a ghost that won't leave. " Just as he was about to leave, he suddenly heard that the Nine Heavens Primordial Flame Beast seemed to be fighting with someone. Someone who could fight with the Nine Heavens Primordial Flame Beast must be in the upper echelons of the Inverse Wonderland, and this time, it had even Blood Escape to protect him. Long Chen no longer hesitated, and directly headed towards the location of the Nine Heavens Primordial Flame Beast's roar!

"Who is fighting with the Nine Heavens Primordial Flame Beast?" Long Chen hid himself and headed in that direction carefully. After crossing a few tall mountains, he found a place to lie down and was finally able to see the Nine Heavens Primordial Flame Beast fighting him with its life on the line, letting out bursts of furious roars. One could see that wounds had already appeared on its body.

"This sword!"

Long Chen couldn't see his appearance clearly from where he was. However, looking at his tall and straight posture, and the smooth way he swung his sword, he could tell that this young man was definitely a super strong warrior.

However, what was even more attractive was his sword, it was simply a golden divine sword, during the process of fighting with the Nine Heavens Primordial Fire Beast, bursts of cold light bursts out. The material of this close combat sword was definitely much more precious than the real yellow gold, in order to be able to withstand the crazy fighting strength of this young man.

"To be able to face the Nine Heavens Primordial Flame Beast head on and even use the Divine Gold Sword, I know who you are!"

After arriving at the Biyang Royal City, coupled with the influence that the Little Wolf had experienced, Long Chen had a certain understanding of the young experts in the imperial city. Amongst the imperial family, the younger generation members were basically not very common, some of them had ordinary cultivation, but they had outstanding political accomplishments and military merits.

Long Chen remembered that his name was Lin Zichen and he was the current fourth prince of Sword Emperor. His weapon was the Canyang Kingdom's number one divine weapon — — Emperor Sword! Moreover, his realm, was the most heaven opposing ninth level of the Milky Way Realm!

The person in charge of the Canyang Kingdom was honored as the Sword Emperor. But this Fourth Prince, Lin Zichen, did not have much success in ruling a country, but his achievements in the martial way, completely obtained the Sword Emperor's tradition, and was revered by everyone as the young Sword Emperor. This meant that there would be a day when Lin Zichen would become the real Sword Emperor.

ninth level of the Milky Way Realm, this was the most terrifying genius that Long Chen had ever seen. For the young generation of the Biyang Royal City, other than Lin Zichen, there was not even a single practitioner with eighth level of the Milky Way Realm. The highest level was only seventh level of the Milky Way Realm, and that seventh level of the Milky Way Realm, it might not even be able to reach the ninth level of the Milky Way Realm in his entire life.

Thus, in the Biyang Royal City, Lin Zichen's evildoer was unrivaled. Lin Zichen in the Biyang Royal City, was equivalent to Long Chen coming out of the Burning Sky Secret Realm. The young generation did not have any opponents, and even many experts of the older generation were not his opponents.

It had to be known that even the Da He family of the three great families, the strongest was only Song Zhongcheng with his eighth level of the Milky Way Realm!

There were even rumors saying that within the imperial family, the fighting strength of the Emperor Sword that possessed the inheritance of the emperor was comparable to the Royal Uncle's Sword Demon that had already reached the ninth level of the Milky Way Realm for more than twenty years. He was one of the three great warriors of the royal family!

And now, this kind of genius was right in front of Long Chen!

Long Chen had to admit that even if he looked at it this way, this young ranker with sword Qi gave him an endless amount of pressure. The golden colored Emperor Sword waved again and again, emitting huge undulations. The world was filled with the sword beams of the Emperor Sword, and the Nine Heavens Primordial Flame Beast let out a series of furious roars. Its flames and claws, as well as various abilities, were all very powerful, but they were unable to hit the nimble Lin Zichen!

Lin Zichen was the Soldier, and at this time, his weapons spirit had already blended into the Emperor Sword, becoming one with it. With such a Lin Zichen, he could unleash 200% of his battle strength. The increase in the combat prowess of the Soldier's soldier soul was even greater than the beast spirit of the Beast Fighters, and that Emperor Sword itself was the most famous divine weapon in the entire Canyang

Kingdom. The Sword Fighter, together with the Emperor Sword and all sorts of heaven defying talent, were not even Lin Zichen's match when it came to the Nine Heavens Primordial Flame Beast.

With every wave of the Emperor Sword, a large amount of blood rain was created from the body of the Nine Heavens Primordial Flame Beast, sprinkling onto the ground. The originally clean ground was gradually dyed red with the beast's blood.

Long Chen was originally observing the battle under the immense pressure, but when he saw that the light had spread outwards, his eyes instantly lit up.

"The blood of a beast with Ninth Grade Earth Grade? Just a tiny bit, and you would have had an unexpected improvement, right?" Long Chen's heart was boiling. Right now, he needed strength the most, but he could not kill the strong Demon Beast. If he had this Beast Blood ...

Long Chen had originally wanted to leave immediately in case he was discovered and caused trouble, but when he saw the blood of the Nine Heavens Primordial Flame Beast spill out, he decided to stay.

Time slowly passed by. Lin Zichen's extreme fighting strength and ruthless methods had really broadened his horizons. He was indeed worthy of being Canyon Kingdom's number one genius. He knew that the Nine Heavens Primordial Flame Beast had immense power, so he chose not to clash with it.

The huge corpse fell to the ground with a thud, causing smoke and dust to fill the air.

Honestly speaking, Long Chen had always been drooling over this corpse. If he could obtain this beast with Ninth Grade Earth Grade, then he would definitely have to advance a few levels, but of course, that was impossible. The Immortal Beast's corpse was extremely important to Lin Zichen, so he quickly kept it in his Qiankun bag, tidied up his surroundings, and then left in satisfaction.

From start to finish, he had not noticed that there was another youth lying on his stomach on a mountain in the distance, watching him kill the Nine Heavens Primordial Flame Beast.

"I have to say, he's really strong. Be it in terms of personality or strength, compared to the Ninth Prince, they are way too powerful." When Lin Zichen completely disappeared, Long Chen had a few sentiments in his heart. This was not because of his determination, nor was it because he wanted to extinguish his own prestige, but rather, it was because his opponent was too difficult to deal with.

"Before I become too weak, I absolutely cannot engage in a conflict with this pervert." Long Chen was only a mere Second Stage of the Milky Way Realm now, so he knew in his heart what he should do.

At this time, Lin Zichen had already left, with his fastest speed, he headed towards the battlefield that was just burnt into a mess. There was black scorched earth everywhere, and what covered the burnt ground was the Nine Heavens Primordial Fire Beast's blood essence. It should have been a bit long, so many of his blood essence had dried up and become useless. However, there were still a lot of useful things.

Long Chen no longer wasted time and immediately used the Devouring Blood Realm. All the blood essence of the Nine Heavens Primordial Flame Beast, under the effects of the Devouring Blood Realm, rushed towards him and was engulfed by his body that seemed to be an endless abyss. Finally, it turned into a blood-red colored Innate Qi and violently flowed through the star veins in his body.

The blood essence of the Nine Heavens Primordial Flame Beast was practically a great tonic for Long Chen. Although it was not much, it was of a very high quality, but now Long Chen was 7 ranks higher. A small drop of blood essence, after being refined and filtered by Blood Refinement Qi, could transform into a large amount of blood red True Qi and merge into Long Chen's body!

"It's time to attack the Third Stage of the Milky Way Realm."

Thinking about it till here, Long Chen suddenly realized that it seemed like there was no starry sky in the sky of Inverse Wonderland. Without the starry sky, it was difficult to communicate with the power of the galaxies. Without the power of the galaxies, just the Tianhe Dan alone could congeal one's own galaxy.

But maybe it wasn't that horrible.

At this point, Long Chen could not care so much, the blood essence of the Nine Heavens Primordial Flame Beast was slowly being refined by him. If he did not use his Innate Qi to condense the river of stars, the large amounts of True Qi would explode him sooner or later!

Even without the starry sky, I can still form a river of stars!

Long Chen clenched his teeth, he sat cross legged and started to revolve the Qi in his body crazily. This time, he was consuming a lot of Qi, which was why it was hard to control. However, this was not the limit of Long Chen's abilities. This superior dragon body did not give Long Chen much physical

toughness. However, in terms of talent in the physical body, he was several times, perhaps even dozens of times better than ordinary people.

Whoa!

Long Chen felt that if he did not condense more star veins, his body would not be able to hold on any longer. Thus, he hurriedly took out over a hundred Tianhe Dan s from his Heaven and Earth Pouch and stuffed them into his mouth one by one.

More than a hundred Tianhe Dan turned into the power of the stars, helping Long Chen to condense the stars. Because among the Inverse Wonderland, there was simply no Astral River Formation that could be seen, so Long Chen directly decided to condense the third stage of Yinyang Tianhe together and truly step into the Third Stage of the Milky Way Realm first!

With the Tianhe Dan and a large amount of Innate Qi, Long Chen could easily gather all of the Yinyang Tianhe s in the third stage and step into the Third Stage of the Milky Way Realm, allowing his power to increase by a lot. However, the only small accident was that the number of Tianhe Dan was not enough. Long Chen had to spend more than three hundred Tianhe Dan before he finally managed to condense this Yinyang Tianhe in his body!

However, the essence blood of the Nine Heavens Primordial Fire Beast contained too much true energy. Even if Long Chen reached the Third Stage of the Milky Way Realm, there was still a huge amount of true energy stored inside his body. Under the situation where the third level was not stable, Long Chen had no choice but to start moving towards the 4th level of the Milky Way Realm.

"Blood? "Slaughter?" At this moment, Long Chen suddenly felt that there seemed to be a clear and cold aura filling his mind. He suddenly felt that his blood would make him very excited, and of course, killing him also felt the same way.

"I think it's because I've used too much of my Blood Refinement Art. My mind is somewhat affected by the inherited blood essence." Long Chen was a little helpless, but in order to increase his power, this small effect should be nothing much.

Thus, Long Chen began the 4th level of the Milky Way Realm's charge. The difficulty level of 4th level of the Milky Way Realm was much higher than that of Third Stage of the Milky Way Realm. Long Chen only had more than two thousand Tianhe Dan in total, and they were quickly exhausted. It took him more than a thousand Tianhe Dan to truly succeed in forming the fourth stage of the Astral River. When Long

Chen used all of his Innate Qi to condense the fourth pair of Sky River Stars, he only had one or two hundred Tianhe Dan left.

Because of the Nine Heavens Primordial Fire Beast's blood essence, Long Chen rose sharply from the second layer to the 4th level of the Milky Way Realm, wildly jumping by two levels. Long Chen believed that with his current strength, he would be able to deal with other people, such as Yu Tao, who were eyeing him covetously like a tiger!

"What a strong feeling. My body is filled with power," Long Chen laughed coldly as he felt the power in his body. His eyes were dyed with a faint color of blood.

"What's going on?" Although his power was strong, Long Chen realized that he could no longer control his body. It was as if there was a force in his body that was urging him to do something, and once he thought about it, he realized that it was a massacre.

"My body is very hot, so why would I be so eager to have someone fight with me?" Long Chen thought that this was probably because he had used too much Blood Refinement Qi, so after a while, he should be fine.

"Next, I'll head back to the elementary level region and see if there are any other chances."

Chapter 307 - The Fall of the Dragon Emperor

After such a long period of time, the Immortal Beast tide had finally come to an end. The fairyland godly guards of the intermediate realms all came out of their protected areas and took care of this mess. Relying on the special nature of the Spirit Devouring Demon Pupil, Long Chen bypassed many of the fairyland godly guard, and after roughly two hours, she finally returned to the Eighteen Regions.

Eighteen Regions was also attacked by the tide of Immortal Beast and it was currently in a mess. A dozen or so Earth Grade spirit medicines to protect had already disappeared without a trace, probably completely uprooted by those Immortal Beast.

After reaching the 4th level of the Milky Way Realm, Long Chen's eyes became even more reserved, and his strength became even more powerful. Although there was no Astral River forming in the Inverse Wonderland, but Long Chen had forcefully made a breakthrough.

At that time, he was in the same group as Yu Chong, so when he came back this time, he was afraid that he would clash with Yu Tao in any way. Long Chen had already made up his mind in his heart, he believed that as long as bit himself to death, he would have no choice in this situation.

Thus, Long Chen openly returned to the base area, and when some people saw that he was actually still alive, they were immediately shocked, and immediately called for everyone else to come out. Amongst the Eighteen Regions, most of them were the strong and sturdy men of the Heavenly Wolf Gang, and currently, they surrounded Long Chen one by one.

Yu Tao's face was so dark that blood was about to drip from it, he stood right in front of Long Chen, and a burst of killing intent surged towards Long Chen. Looking at the fearless Long Chen, he was about to ask a question, but Long Chen first asked a question: "Why are you not seeing Zhang Yuanteng? Where's Zhang Yuanteng? "

Previously, when Zhang Yuanteng went back to the protected area, he had to ensure his safety before rushing to the Advanced Fields. Now that he had returned, he keenly realized that basically everyone was still here, but Zhang Yuanteng was missing.

Yu Tao sneered, he did not answer him, but asked with a cold tone: "Long Chen, do not care about what Zhang Yuanteng, I will ask you now, what about my brother Yu Chong!"

"Yu Chong?" Long Chen laughed disdainfully: "When the Immortal Beast tide arrived, he had already run away without a trace. He still hasn't come back yet? Could he be weak and was eaten by Immortal Beast? "

"What did you say!" Yu Tao raised his eyebrows, his entire body was filled with Evil Qi, he approached Long Chen step by step, and spoke with a cold voice: "Long Chen, don't pretend to be stupid! When the Immortal Beast tide happened, Yu Chong was clearly with you, but why was it only you that returned now, and he still didn't? "

Hearing his words, Long Chen laughed even harder. His unbridled laughter made Yu Tao's eyes turn darker and darker.

"Yu Tao, it's not like you don't know your brother. Last time, when we met two mackerel, he was so afraid that he immediately scuttled off to find you, not to mention this time's Immortal Beast tide. For

such a weak and cowardly person like him, if we were to say that he was directly killed midway, I would definitely believe it!" Long Chen didn't back down in the slightest as he confronted Yu Tao tit for tat.

"Bullshit, I think you should blame the Immortal Beast for killing him?" Yu Tao's eyes flashed with a cold light, as he probed.

Long Chen had already expected that he would say such a thing. If Long Chen was feeling flustered at this moment, Yu Tao would be able to see it with a glance, so he had already planned it well, and how should he perform. With an ice-cold face, he replied with a question: "If what you said is true, then where did Zhang Yuanteng go?"

Long Chen was truly a little worried since he still hadn't seen him. Although the relationship between the two wasn't deep, Zhang Yuanteng had given Long Chen a lot of help. Long Chen always knew how to repay favors. When he saw that something might have happened to Zhang Yuanteng, blood energy immediately surged in his brain, causing his blood to boil and his eyes to slowly fill with blood.

Seeing Long Chen suddenly reveal such a vicious look, not a single bit of guilt in his heart, Yu Tao started to believe that Yu Chong's disappearance had nothing to do with Long Chen anymore. He was naturally very concerned about his own little brother's life and death. Right now, the Immortal Beast tide had just passed and they could finally go look for Yu Chong, so Yu Tao instructed the others: "You guys search throughout the entire Eighteen Regions to see if there are any traces of Yu Chong. As for Long Chen, you better stay here well."

Under Yu Tao's instructions, the rest of the people who had just finished their work all went out to look for Yu Chong. In the base area, only Long Chen and Yu Tao remained.

"Can you tell me where Zhang Yuanteng went?" "At that time, he rushed to the Protected Area and you went there as well. I can't believe that you didn't know what happened!" As he said that, Long Chen clenched his fists tightly. He realized that after leveling up his 4th level of the Milky Way Realm, his desire to kill had become even stronger. He had inherited the Primordial Blood Spirit Dragon's blood essence, so his personality would gradually be affected. Furthermore, after he had used the Blood Refinement Method again and again, his personality became more violent and difficult to control, which made his performance even more obvious.

"Zhang Yuanteng? I am too lazy to pay attention to such a small character. Long Chen, he honestly told me, what happened to my brother?" Yu Tao did not give in at all.

From Yu Tao's words, Long Chen could tell with his keen senses that something had indeed happened to Zhang Yuanteng.

Thinking of this, Long Chen felt a wave of blood energy rushing into his brain, gradually blurring his mind.

"Yu Tao, I ask you again, you were the one who killed Zhang Yuanteng! Is that right? " When he was three steps away from Yu Tao, Long Chen's eyes turned blood-red, and the veins on his neck bulged.

Yu Tao had not threatened Long Chen when he saw that Yu Chong had gone missing. Now that Long Chen had actually threatened him, how could Yu Tao, who was once a horse bandit, endure such a thing? Long Chen actually dared to be overbearing in front of him, but for any reason, he was courting death!

"Scram!" Yu Tao roared, and slapped towards Long Chen! Before Long Chen had levelled up, he would definitely not be able to dodge this slap. If the slap landed on his face, half of Long Chen's face would definitely get swollen!

"You want to make a move?" At this point, Long Chen was one hundred percent sure that Zhang Yuanteng had died because of his relationship with him. Long Chen still clearly remembered that when Zhang Yuanteng talked about his dream, he said he wanted to bid farewell to the boredom of Anti-Central Army and begin his real life. He said that his goal was seventh level of the Milky Way Realm and that he wanted to become a core fairyland godly guard. Because of Long Chen, all of his dreams had turned into bubbles!

How could Long Chen not blame himself? How could he not be angry!

It was so much so that when he used the Blood Refinement Qi and reached the 4th level of the Milky Way Realm, his killing intent grew exponentially. After what happened, Long Chen felt his head spinning, he stared straight at Yu Tao, his entire body was filled with fighting intent!

With a light flash, Long Chen dodged Yu Tao's slap. Powerful blood energy began to erupt from his body, and his eyes turned bloodshot!

"So what if I attack you? As the Prefectural Elder, although I am unable to kill you, Long Chen, I can at least cripple you! "Originally, I wasn't prepared to touch you, but you actually dared to point fingers at me. You are simply courting death, even if I have to go against the will of His Highness, I will teach you a lesson today!"

"Do you think you are qualified to teach me a lesson?" After Long Chen flashed past his slap, he gradually raised his head. What he could see was that even though he did not transform into a dragon soul, his eyes had already turned blood-red.

"Kill him!"

"To dare provoke the supreme you, kill him!"

"!"

Long Chen did not say a word, and pounced towards Yu Tao. In the process, he had already taken out his green dragon halberd, and in the short distance, Long Chen had already sped up, turned into a blood arrow, and rushed towards Yu Tao!

This time, he didn't even use the Dragon Soul Transformation!

The Dragon Soul Transformation was Long Chen's greatest advantage in killing people beyond his cultivation level. Long Chen had not used it yet, but that was because he was confident in his ability to kill Yu Tao without using the Dragon Soul Transformation!

"Azure Dragon Battle Method, the fall of Dragon Emperor!"

A streak of blood crazily rushed towards Yu Tao, who was just inches away from him!

Long Chen actually dared to make a move, which surprised Yu Tao. In his impression, Long Chen only had Second Stage of the Milky Way Realm, a mere Second Stage of the Milky Way Realm, yet he actually dared to make a move on his own fifth level of the Milky Way Realm.

Long Chen made the first move, and things became much easier. With that, even if Long Chen was severely injured, or died, the responsibility would not rest with Yu Tao. After all, in the fairyland godly guard, offending one's superiors was not a small crime.

In a place of strict hierarchy, no one was allowed to disobey the orders of the lower class.

In Yu Tao's opinion, Second Stage of the Milky Way Realm's attack was at most a low-grade Earth Rank battle skill. He directly threw out a punch, thinking to directly send Long Chen flying!

If it was any other Second Stage of the Milky Way Realm, any combat skill that used Earth Stage Medium would also be casually blown away by Yu Tao's punch. But Long Chen was different! Not only was he not a Second Stage of the Milky Way Realm, he was also a 4th level of the Milky Way Realm. This was not an ordinary battle skill!

Simple, simple, and straightforward, was the fall of the Dragon Emperor.

In such a close proximity, the outcome of the battle was instantly decided. Even though Yu Tao had used all of his strength in the later stages of the battle, Long Chen's green dragon halberd had still directly cut off half of his neck, leaving him with half a head in a daze!

Blood gushed out!

Chapter 308 - Killing Yu Tao

Even though half of Yu Tao's neck was chopped off, he was still not completely dead. His eyes were now opened wide, filled with endless despair and fear, for a person like Yu Tao, who was afraid of death, was more or less dead.

It was just that the cold and indifferent youth who stood in front of him, and the wolf den in his eyes, made Yu Tao have no choice but to believe that it was true.

He died in Long Chen's hands.

In his heart, he felt that it was ridiculous. Was he dreaming? He had not even made his move, yet Long Chen had somehow decapitated him? Long Chen's move just now, was extremely fast, precise, and one-hit kill. It instantly killed all of the things that Yu Tao had painstakingly accumulated for decades!

This was the end of the Dragon Emperor.

"Let me know the news about Zhang Yuanteng before you die. Is he dead or alive?" Long Chen did not take away the green dragon halberd but rather, it was still on Yu Tao's neck. Long Chen was certain that as long as he took away the green dragon halberd, Yu Tao's head would definitely fall to the ground.

Then he would be dead.

The earlier clash with Yu Tao, as well as his self-blame towards Zhang Yuanteng's death, as well as the gradually growing insane killing intent in his heart, made Long Chen realize that he was actually somewhat unable to control his own body.

"The Primordial Blood Spirit Dragon is actually so terrifying!"

Instantly, blood rushed into his head and he killed Yu Tao. Long Chen calmed down and thought back, his back feeling cold.

At this time, Yu Tao moved his mouth with great difficulty. It could be seen that he indeed still had other things to say, and when Long Chen listened carefully, he finally understood that the Yu Tao before he died had said two words. The first was that you would die. The second was: Song Yuefeng.

After he finished speaking, his head tilted to the side and only after Long Chen removed the green dragon halberd, did Yu Tao's head fall to the ground.

Long Chen stared into Yu Tao's eyes for a while. Even after he had died, his eyes were still opened wide, staring at Long Chen unwillingly. At the same time, he seemed to be filled with anticipation when he said the two words "Song Yuefeng". Song Yuefeng was a precious child of the Da He Family. If Long Chen were to come into conflict with them, he would definitely lose his life.

This was also the reason why Yu Tao had revealed his name at the last moment.

Long Chen was no longer in a position to consider what kind of trouble he would encounter after killing Yu Tao. At the very least, the trial of the Ninth Prince would not be easy to pass. At this time, the only thing in his heart was his remorse for Zhang Yuanteng's death, and at the same time, his hatred for Song Yuefeng.

Of course, it wasn't Song Yuefeng who said it was Song Yuefeng, it had to be Song Yuefeng. As long as Long Chen went over to the seventeenth region and asked, it would be easy for him to find out. Normally, Yu Tao would not lie before his death, if that was the case, Song Yuefeng would definitely be killed.

Towards this person's nature, Long Chen was truly speechless, he had merely stolen a bit of his limelight from the Sword Demon, and actually directly killed Zhang Yuanteng who was beside Long Chen? Savage, unreasonable, arrogant, these were all traits of the people of Japanese, and Song Yuefeng was one of them.

"Japanese, it's Japanese again!"

After killing Yu Tao, Long Chen had just recovered from his state of killing, and when he thought of Song Yuefeng, his body gradually filled with killing intent. His heart was tangled with his killing intent towards Zhang Yuanteng.

"No matter what, I cannot let you die in vain! So what if it was the three great clans? With my current strength, it's impossible for me to obtain the Nine Celestial Spirit Fruit in the Inverse Wonderland. Then, why don't I bring Ling Xi and fly far away, and wait for me to reach the ninth level of the Milky Way Realm, then when I can no longer be a match for anyone in the Inverse Wonderland, I'll come and take the Nine Celestial Spirit Fruit away? "

In Long Chen's heart, he let out such a roar.

Amongst these dozen or so days in the Inverse Wonderland, Long Chen's life was extremely depressing! Today, he repeatedly killed Yu Chong and Yu Tao, which was his performance when he erupted with power. Therefore, the quickly growing killing intent in his body, was related to the Primordial Blood Spirit Dragon, which was also related to himself!

After killing Yu Tao, Long Chen thought through everything.

"Inverse Wonderland is such a shitty place, I won't stay any longer. F * ck you!" Zhang Yuanteng's death caused Long Chen to have difficulty calming his desire to kill. Without saying a word, he threw Yu Tao's corpse here, and directly headed towards the 17th region. This time, if it was really Song Yuefeng, Long Chen would not mind taking justice for Zhang Yuanteng!

After advancing to the 4th level of the Milky Way Realm, Long Chen was like a gust of wind, quickly arriving at the 17th region, and headed towards the base area of the 17th region. In the current 17th region, because he had also encountered Immortal Beast, most of the fairyland godly guards were outside cleaning up a mess, and Song Yuefeng, the grand and distinguished young master of both families, was definitely living a happy life in a base!

"Song Yuefeng", this arrogant and despotic youth, slowly grew the blood color in Long Chen's heart. The closer he got to the base of the 17th region, the more his eyes turned bloodshot and his breathing became heavier. A faint bloody dragon pattern appeared in his eyes.

The others quickly saw Long Chen's arrival. Because Long Chen was approaching aggressively, they all went in to inform him.

In the elementary region, because there were some matters other than the danger level of the Immortal Beast, every region had a head of fifth level of the Milky Way Realm, and this Eighteen Regions was the same. Just now when Song Yuefeng became a fairyland godly guard, even though it was through fifth level of the Milky Way Realm, he had also been allocated to the elementary region to increase her experience.

Therefore, there were a total of two fifth level of the Milky Way Realm s in the seventeenth region. As for Song Yuefeng, due to her background in a large clan, her fighting strength was probably much stronger than Yu Tao.

The closer he got to this place, the more Long Chen felt that the Primordial Blood Spirit Dragon's massacre started to break out again.

"Kill him, take revenge for Zhang Yuanteng!"

"Zhang Yuanteng is innocent, but he killed him.

"In any case, we're going to bring Ling Xi and leave first. So what if we kill him? Now that I have comprehended Blood Escape, even if I kill Song Yuefeng, I can rush out of South Central City! "

These thoughts gradually occupied Long Chen's mind.

A heavy blood aura was emitted from Long Chen's body. His 4th level of the Milky Way Realm's strength had completely exploded outwards, and there were quite a few people here, but none of them were as imposing as Long Chen.

"Who is it!" Japanese's Song Yuefeng, under the escort of a group of third or fourth stage Milky Way Realm experts, angrily rushed over. Upon seeing that it was Long Chen, Song Yuefeng's eyes turned cold

as she laughed: "What, you heard the news, did you come over to take revenge? You guessed right, I was the one who killed that poor devil, but I didn't do it myself.

Once they met, Song Yuefeng had unrestrainedly said the truth that he had killed Zhang Yuanteng. It could be seen how arrogant she was in her heart.

"How did he die?" Long Chen stopped in his tracks. He tried his best to make his voice sound calm, otherwise, if he did make a move, he really wouldn't be able to control himself and would immediately make a move.

"How did he die?" Is that important? Ha ha, looks like I can barely tell you about you coming all the way here to ask, aren't the Immortal Beast coming? Didn't he want to enter the protected area? If I were to break both his legs, wouldn't he be lying on the ground, torn into pieces by the Immortal Beast? " Being able to suppress Long Chen like this, and seeing how he was furious but did not dare to attack, Song Yuefeng felt really good in his heart. In the iron tower, the depression caused by the fact that Long Chen had stolen the limelight, had finally disappeared like smoke into thin air.

Seeing Song Yuefeng laughing, the others also laughed along.

"People from the Japanese are really a bunch of animals. You bunch of dogs laugh with these beasts?" Long Chen did his best to calm his heart down, and said while looking at the others coldly.

Both of his legs were broken into pieces. These few words were like knives that stabbed into Long Chen's heart and caused him to bleed profusely. What no one could see was that inside Long Chen's body, an earth-shattering change had occurred. His blood was boiling and countless blood dragons were roaring.

After being questioned by Long Chen, the people who laughed and jeered at him did not have any intention of restraining themselves, as if it was their honor. Long Chen had already decided to sentence this group of people who had lost their souls to death.

"They say we are lackeys? What was a dog? Master Song Yuefeng is the first young master of the Da He family, and his family is one of the three great families of our Canyang Kingdom.

"Right, why are you so uncultured? What exactly did your parents teach you? "

The group of people began babbling and lecturing.

"Tell me, did you break his legs and let him be torn into pieces by the Immortal Beast?" Long Chen's gaze finally stopped on Song Yuefeng's body. He lowered his head, and within his eyes concealed a frightening killing intent.

"Yes, that's it, but boy, what can you do to me? Do you dare to go against our Da He family? You lowly creature! "Haha" Song Yuefeng laughed so much that he could barely straighten his back.

Long Chen no longer spoke, and directly took out the green dragon halberd. At this point, no matter how you say it, it was useless. Long Chen directly used the green dragon halberd to face him, and said with disdain: "Duel, do you have the balls?"

Everyone was startled for a moment before they started laughing maniacally.

"Alright, alright. If I don't teach this brat a lesson today, he will be wasting time here. I'll give him a lesson and send him away directly. We'll have a good drink together. Everyone, what do you think?"

"Of course, if Eldest Young Master takes action, this idiot will turn into a stupid pig if he doesn't have a few moves."

Chapter 309 - 25 - divine fire clone

"If you have the guts, come out." Long Chen said indifferently, he turned around and walked out. Outside, there was an even larger battle room!

That Song Zhongcheng on the eighth level of the Milky Way Realm was definitely not one that the current Long Chen could resist. Only, sometimes there are a lot of things that don't require the opponent's strength to be strong, and he would shrink back. To him, there was something even more important. It was pride, bravery, and brotherly friendship!

Although his relationship with Zhang Yuanteng was not deep, it was definitely not to be trampled upon by others, especially by a beast like the Japanese!

He even told Long Chen that although he might be hunted down and miserable after getting rid of Song Yuefeng, but humans only live for dignity, so dying without dignity is nothing.

Before he came here, he had already thought about this point.

"Broken leg, torn to pieces? "Song Yuefeng, I want you to be even more miserable than he is!" After walking out, Long Chen slowly turned around, his eyes filled with a dense hostility. What he could feel was that he was like a bomb that could explode at any time, killing everyone around him!

Surrounded by Song Yuefeng, everyone followed along. They only thought that they were watching a good show, so they did not think much. They all had smiles on their faces.

"Young Master Song, you have to beat this reckless kid to the point that he has to grind his teeth all over the floor. These days, there are some people who are blind enough to think that they can afford to offend anyone!"

"You're right, with just a little bit of strength, you think you're invincible. In a bit, you're going to suffer a setback. Why don't you go back and cry for your parents?"

"Of course, with Young Master Song's talent, he is number one among the young generation of the Da He family. How could the son of the Song Zhongcheng Patriarch be simple?"

"Everyone has already been said. If you keep talking, he will be scared to death. If he doesn't dare to fight me and let me enjoy myself, I will have to fight you." Song Yuefeng laughed.

"Young Master Song is a genius, how could we dare?" The lackeys quickly flattered him.

After they finished speaking, they retreated one after another, allowing Song Yuefeng to face Long Chen directly. Only now did the short Song Zhongcheng raise his head, and use his nose to look at Long Chen.

"Did you finish your last words?" Long Chen asked indifferently.

"Last words? "You're courting death!" Long Chen immediately rushed towards him, Song Yuefeng was already very angry inside, it was just that he did not reveal it.

"A mere dog like thing dares to steal the limelight from my Da He Clan's number one genius. If it wasn't for you, I could have immediately obtained the Sword Demon's approval and become his disciple! Long Chen, you deserve to die ten thousand times! I will be merciful today and just let you die once! "

As he spoke, the imposing aura of his fifth level of the Milky Way Realm erupted from his body. Compared to Long Chen, who hadn't even undergone the Dragon Soul Transformation, the current Song Yuefeng was much stronger. From his Qiankun bag, he directly took out a long and short dagger.

The long daggers were about half a meter long and about the same size as an ordinary short sword. The broken daggers were less than twenty centimeters long, and the two daggers were gold and black respectively.

"Long Chen, die under my Earth Stage Medium's divine weapon, Divine Sun Blade of Sun and Moon!"

Before the battle, Song Yuefeng shouted for courage and then, with a tap of her feet, his entire body turned into a whirlwind as she charged towards Long Chen!

This Song Yuefeng is just like the rest of the Japanese, short and flexible. Her strength and defense are both her weakness, but her speed and agility are both excellent. Long Chen retreated a few steps while using the Dragon Soul Transformation!

Song Yuefeng was clearly much stronger than Yu Tao, and was also very courageous and ruthless, when Long Chen went against him, he had no choice but to use the Dragon Soul Transformation and directly use this dragon's body to kill this Japanese disciple!

"Brother Zhang, I was the one who harmed you, rest assured, today I will avenge you, and if I cannot kill this beast, I, Long Chen will never be a human again!" As he roared madly in his heart, the bottom of Long Chen's feet trembled. His entire person transformed into a violent dragon, and with earth-shattering power, the green dragon halberd swept towards Song Yuefeng crazily!

With this move, both sides had witnessed each other's fighting strength. Song Yuefeng's strength was indeed quite impressive, and was within Long Chen's expectations, but Long Chen's performance had far exceeded Song Yuefeng's expectations. In his memories, Long Chen at the time he was in the Iron Tower, was just using his Second Stage of the Milky Way Realm. When he was dealing with the Sword Demon, he was only able to get the appreciation of the Sword Demon because of his cheap tricks!

But now! Long Chen had only made a move, yet he had already revealed his fighting strength!

"Impossible!" It must be an illusion! " Song Yuefeng howled in disbelief in her heart! He increased his speed, her entire body turning into a tornado as he swept towards Long Chen. The Divine Sun Blade danced, wave after wave, and those beautiful lines that looked like halos of light, were the sharpest blades of the Divine Sun Blade!

"Wild Dance of the Sun and Moon, Wind Shadow Kill!"

A whirlwind within the halo of light closed in on Long Chen! Under this sharp attack, the surrounding ground was swept away, and pieces of black soil pounced towards Long Chen. Then, under Long Chen's halberd, they were all shattered into pieces!

"Azure Dragon Battle Method, Soaring Dragon Nine Heavens!"

Long Chen tried again. In terms of pure strength, he wanted to compare himself to Song Yuefeng, so he chose to directly clash with Song Yuefeng!

All of a sudden, sand and rocks flew everywhere!

Ding ding dang dang!

Long Chen could feel that when the green dragon halberd had pierced into Song Yuefeng's attack range, it had encountered a strong resistance. The Divine Sun Moon Blade danced crazily and in order to resist the power of Long Chen's green dragon halberd, it had actually cut down the green dragon halberd more than a hundred times in a short period of time.

Long Chen knew what Song Yuefeng was planning, he wanted to blast away Long Chen's green dragon halberd with his hands, but he underestimated Long Chen. Although Song Yuefeng's speed was not bad, but in terms of strength, he could not compare to Long Chen!

"Break!" The green dragon halberd spun and suddenly sent Song Yuefeng flying! Suddenly, an uproar sounded from the surroundings, seeing that Song Yuefeng actually flew backwards, all of them jumped in fright, and wanted to go and pick him up!

"Get lost!" Song Yuefeng howled in midair, and then staggered as she landed on the ground. If the Song Yuefeng just now was like a proud peacock, she was currently in a sorry state, and although she was not injured, it was the same as getting slapped on the face. It was not good!

Earlier, he had calmly wanted to teach Long Chen a lesson, but now that he had expended a great deal of effort into thinking about it, he was directly shaken back down by Long Chen.

"Eight!"

Song Yuefeng's face instantly turned red, and her face, which could originally be considered visible, instantly became extremely sinister!

"Looks like you are truly courting death!" Long Chen, you are here to issue a challenge, you can't blame me if you die! " As he roared crazily, Song Yuefeng was like a wild beast, charging towards Long Chen with an even greater speed!

The so-called pride and self-esteem of the people of Japanese were in fact a incarnation of madness and wildness. The current Song Yuefeng was simply like a beast, but Long Chen, the weak person in their eyes, had offended them. To them, this was a capital offense!

"Is he going to risk his life?" Long Chen sneered in his heart. In reality, with just a move, had already figured out the opponent's foundation. Song Yuefeng had mastered body tempering technique, so her movement skills were not bad, and could even be considered close to high-rank earth class. However, in terms of one-round attacks, he was not Long Chen's opponent!

"This time, I will truly avenge you! Seeing that Song Yuefeng was about to use an even more powerful move, right at this moment, Long Chen's entire body began to frantically burn with blazing flames!

"What?" Song Yuefeng widened her eyes in shock. Then, she saw fire clones emerge from Long Chen's body one after another. These fire clones, each and every one of them were releasing powerful moves.

In total, there were more than twenty Third Stage of the Milky Way Realm, and all of them were like bombs as they instantly surrounded Song Yuefeng. In such a short period of time, Song Yuefeng could only wave her dagger around in a crazed manner with a face full of shock, wanting to completely destroy these divine fire clone!

He had indeed done it, the divine fire clone that was rushing towards him in the beginning had been chopped into pieces by him, but more and more clones were rushing towards Song Yuefeng!

"Heavens, what is this thing!?" "Ahhh!" Song Yuefeng let out miserable howls. The current him was as miserable as she could be, and the current him was in an incomparably sorry state as she hacked at the endless divine fire clones. Could it be that flames were pouncing onto his body, burning him to the point of him crying out miserably?

Seeing that Song Yuefeng was actually in such a miserable state, everyone was stunned. They immediately reacted to it, and looked at the cold and indifferent Long Chen who was holding onto the green dragon halberd with shocked and trembling eyes, and swallowed their saliva one after another. They forcefully drove themselves to move towards Song Yuefeng to save him.

"I told you all to be human but not do anything, but the dogs of the Japanese will remove all your disgraces right now!" These people viewed the Japanese as a god, so they must have bullied their own people before. Furthermore, they had insulted Long Chen just now, and as a man, he should not have been humiliated. Long Chen had long understood this principle, the more merciful he was, the more the other party would take an inch from him!

When Long Chen pointed the green dragon halberd at the remaining people, Song Yuefeng had already been completely destroyed by the divine fire clone. His weapon fell to the ground, and the endless flames, all attached onto his body, burned fiercely, and Song Yuefeng had completely turned into a human torch. She curled up on the ground, howling in pain.

And Long Chen, coldly holding onto the green dragon halberd, had sent them into hell one by one!

Chapter 310 - Killing Devil

On the third floor, a total of twenty-five divine fire clones with the same profound strength as Song Yuefeng had successfully burned Song Yuefeng alive. Of course, Song Yuefeng did not die immediately.

And in this period of time, Long Chen reaped the lives of others with the green dragon halberd in his hands.

"Your parents raised you, but here they are flattering the people of the Japanese. You have no backbone, no soul, there's no difference between that and death. I'll send you all to hell right now!"

Long Chen crazily slaughtered a total of more than a dozen people, and all of them looked at Long Chen with terrified eyes, before collapsing onto the ground. Blood flowed everywhere.

"They have insulted me. We must kill them all."

"They are the dogs of the Japanese, they must have brought harm to many of our people!"

These thoughts were currently occupying Long Chen's mind. Zhang Yuanteng's death and the influence of the inherited blood essence slowly increased the ruthlessness in his heart. He realized, only by killing, those who obstructed his path, could he live better, only by having his own path, and not succumbing to the obscene might of others!

Dignity had to be recovered through battle!

"I'll teach you guys now what dignity is!"

With every swing of his battle skill, he could instantly take out a life. When Long Chen realized that everyone around him had fallen, Song Yuefeng who had been screaming miserably for a full fifteen minutes had finally turned into ashes under the scorching flames!

Long Chen withdrew his green dragon halberd and watched the entire scene in a daze.

"Song Yuefeng does deserve to die, and so should these people. But, when did my determination become like this? It seems to be a little out of control?" After killing so many people, he did not feel guilty at all. After all, they were all people that he should kill, and the worry in his heart was the effect of the Primordial Blood Spirit Dragon's murderous nature.

"Forget it, there is no such thing as a free lunch in this world. The Primordial Blood Spirit Dragon is the Ancestral Dragon that rules over slaughter. If I am not affected by it, then that would be weird. I just hope that I will not become a demon killer in the future. "

After killing Song Yuefeng, Inverse Wonderland Long Chen could no longer stay.

"Brother Zhang, I've killed you. Although I've avenged you, I cannot deny the guilt in my heart." was truly sorry about Zhang Yuanteng. If he had not come to Inverse Wonderland, Zhang Yuanteng would definitely be able to live a good life, and with his innate talent, he would be able to successfully complete his dream and reach seventh level of the Milky Way Realm without a problem.

The situation here, along with Yu Tao's death, would soon be discovered by others. It would be very easy for everyone to know that the culprit was Long Chen. Right now, it was after the tide of Immortal Beast

had passed, and most of the fairyland godly guard were still busy working, so not many people noticed the current Long Chen, and they were even more surprised that he, such a youth, had actually killed two fifth level of the Milky Way Realm s in a row, and one of them was even one of the three great clans, the Da He Clan's most favored Song Yuefeng!

After finding the entrance, Long Chen had already made his plans.

His blood escape speed was extremely fast. As long as he left the Mystic Moon Lake and found a remote area, and used the blood escape technique, it would be difficult for him to be discovered if there were no overpowered experts nearby.

In the blink of an eye, Long Chen went from the Inverse Wonderland to the Moon Lake, but not every moment was guarding the place. Even within the span of a month, he had the time to change shifts and train, and some people would use these moments to come out and exchange their Immortal Beast for points, and then use their points to exchange for other items.

Therefore, it was not strange for Long Chen to come out at this time. At the same time, there were a few people coming out from the other entrances.

Following them, Long Chen kept a very low profile as he arrived in the middle of the South Central City, where the trade was held. All of the buildings in the South Central City were built together with the city walls, and at this time, Long Chen used Blood Escape to quickly rush across the rooftops and the city walls. Then, he madly sprinted for two to three miles in one breath, but no one was able to discover him.

When he was using Blood Escape, he could escape from the Nine Heavens Primordial Flame Beast, so how could those ordinary Anti-Central Army see him?

After exiting the Inverse Wonderland, Long Chen heaved a sigh of relief. To him, there were countless experts inside, it was simply too depressing.

"Inverse Wonderland, there will be a day when I, Long Chen, return. At that time, no one can stop me! Li Xuanji said that there's a Nine Celestial Spirit Fruit inside, so there must be! "

"That master of the Da He Clan might soon discover Song Yuefeng's death. I have to take advantage of this time to go to the Biyang Royal City and pick Ling Xi up. I'll leave this place far behind, wait for my strength to be sufficient, then make a comeback!"

Thinking about it, without saying a word, Long Chen started moving at his fastest speed, heading towards the direction of the Biyang Royal City. The imperial city was not far from the South Central City, and after a while, the imperial city was already in sight.

After entering the Imperial City this time, there weren't any disputes from before. The Guards at the city gate were no longer the same group as before. Long Chen calmly entered the imperial city, and then activated his maximum speed and rushed towards the Prince Jadeite's manor.

After twenty odd days, Ling Xi did not know how she was doing. Long Chen was worried, and anxiously rushed to the Prince Jadeite's manor, where Long Chen was the new fairyland godly guard, in the eyes of the rest of the Prince Jadeite's manor, was a favoured person. Hence, the guards and the servants all looked at him respectfully, not daring to offend him.

However, it was strange for Long Chen to be back from Inverse Wonderland at this time.

In the Prince Jadeite's manor, other than the Old Yan, there were also other stewards, and their powers were not as good as that of the Old Yan's. Long Chen was not able to rush into the Prince Jadeite's manor directly, and seeing that there was a steward who was not too far away, he hurriedly stepped forward and asked: "I have urgent matters to discuss with Her Highness and Miss Ling Xi. Are they in the manor yet?"

As long as he asked, he could roughly guess Ling Xi's current situation.

"Your Highness?" Unfortunately, your highness seems to have gone to handle the matters of the Goldfish Island, and so did Miss Ling Xi. Why don't you wait in the manor? Maybe they will be back soon? "

"Goldfish Island?" Long Chen was startled, how could the Ninth Prince return to the Goldfish Island?

"What is the purpose of the palace going down to the Goldfish Island?" Long Chen asked.

"I heard that a month ago, there was a small branch of the Da He family that was annihilated by the Goldfish Island. Thus, when the people of the Da He family found out about it, they had already rushed to the Goldfish Island. This was originally not under the control of His Highness, but because Miss Ling Xi

requested for it, they left. I have never seen such a beautiful girl like Miss Ling Xi. This girl should have only appeared in the heavens, it's rare for me to have a good sniff of her. I heard that you had a good relationship with Miss Ling Xi? You are so lucky, when Your Highness marries Miss Ling Xi, your status will also rise greatly! "

"Marry?" These two words violated the taboo in Long Chen's heart. In his view, anyone could touch the Ninth Prince, but just not Ling Xi, because Ling Xi was her woman. If the Ninth Prince wanted to, no matter how high his position was, Long Chen would still stab him to death.

"Yes, to marry." The general director's face was full of smiles.

"Marry your mother!" Long Chen directly sent the steward flying with a punch. Pa! This fellow smashed into a pool, causing water to splash all over the place, while Long Chen didn't say anymore. With speed that no one could stop, he rushed towards the Goldfish Island!

"Ninth Prince, it looks like we should get to know each other. You always drool over my Ling Xi. As her man, if I don't eat you alive, how can I, Long Chen, be worthy of your name? "

"Anyway, I've already made it big enough. Why not make it even bigger?"

Like a tornado, Long Chen headed towards the direction of the Goldfish Island, sweeping across.

Within the Goldfish Island, everyone was looking at the rows and rows of Japanese warriors, their bodies trembling uncontrollably. This time, they came without any warning, and when they found out that the Japanese was already logged in, it was already too late. Under the Japanese's orders, everyone was gathered in a flat area.

Chen Ping, Chen Lei, and the little girl small fish were all there. Chen Feng and Chen Lei had some experience, and from a glance, it was clear that these people were truly from Da He Family. Most of the warriors here had at least Great Perfection of the Heavenly Core, and there were probably more than a dozen warriors with Milky Way Realm.

To the Goldfish Island, this was a completely unstoppable power.

Their strength was spread out among the crowd. When they found out that they were definitely going to die, all of the Goldfish Island's people crumbled. Looking at the ruthless methods of the Japanese, there was no doubt that their clan was about to be exterminated.

The crowd burst into tears. Many of them had already collapsed. They weakly fell to the ground, their bodies trembling as they looked at the group of demons with incomparably pale faces.

Even Chen Feng and Chen Lei had become deathly pale. They looked at each other and saw the despair in each other's eyes. Last time, they had some confidence, but this time, none of the people in Goldfish Island could escape, and that was, they would all die.

They would even be ruthlessly humiliated before death!

Japanese's methods towards men had always been to use cruel ways to kill them, but towards women, they had many ways to play. They would not immediately kill them, rather, they would only play until they were tired of playing with them, and then either kill them or play them to death.

"I will let you know, attacking people from our Japanese is the stupidest thing in the world!"

A man lying in the middle of the deck chair proudly looked at these trembling lambs.

"Men, pick out all the women between the ages of ten and fifty. Everyone else dig a hole and bury them alive. As for those martial artists with some strength, break their limbs and bury them alive!"
