

War God 3051

Chapter 3051 - The Holy Son's Plan

The time in the deep sea was mainly due to chaos. The time crack caused by the great fluctuation of time had become the most lethal weapon.

If he was lucky, he would encounter less and less. However, if he was unlucky, he would always be caught in the crack in time and space. That would be troublesome.

On the side of the Holy Son of Confusion, the nine Hierarchs formed a square formation, forming an indestructible whole.

It was mainly because of those sudden cracks in time that were the most difficult to deal with.

Long Chen, on the other hand, relied on his understanding of the Time Laws to dissolve everyone's power of time, allowing time to become stable, thus advancing into the depths of the ocean. He was like a fish in the ocean of time, while the nine Hierarchs formed a boulder.

The fish's movements were even more nimble than the boulder's.

The key thing was that, for a guy like Cat who didn't understand the rules of time at all, because of his perception of his own body, he was actually able to point the way for Long Chen. Although it was a little blurry, at least he knew the location, unlike the Holy Son of Confusion. After exploring the depths of the sea for so many years, he had been forced out by the tempest of time before his strength was exhausted. He had marked out a lot of locations during this time, but he was not sure if they were actually the entrances.

The sea was constantly changing, making it too difficult to find the entrance.

But to Long Chen, it seemed to be easy.

"This way, this way!"

Once Long Chen escaped their control, he became as relaxed and free as a fish diving into the ocean. Following the instructions of the kitten, they quickly got close.

"I'm sure it's up ahead!"

Cat chuckled.

"That Holy Son of Confusion, may seem awesome, but compared to my cat-lord, he's just trash! It couldn't even compare to 10%! Hehe! My cat-lord is the real power, the era that belongs to me, is about to descend! "

He was so pleased that he jumped up and down in the Living Realm.

He was already used to it. All of them had looks of disdain on their faces.

Long Chen laughed.

Cat had followed him for too long. As long as he was happy, it was also because of his sense of accomplishment. No matter what the relationship between the Holy Son of Confusion and Little Cat was, he would do his best to solve the problem of his original body.

"Found it, it's that rock!"

Cat suddenly said excitedly.

"Which one?"

There were many stones floating at the bottom of the ocean during the time period. Some were big, some were small, and some had the power of time. Even when these rocks hit each other, they could be fatal.

"This!"

Little Cat brought Long Chen to walk in front of one of the very ordinary rocks. It was a stone that was floating in the midst of the ocean's temporal waters, surrounded by many others of the same kind.

"No wonder they can't find the entrance that is being moved at this moment. No matter how much they mark it, they won't be able to find it."

"Boss, this is something related to time. You should think of a way to open it, since I can't do anything about it."

"Yes."

Long Chen nodded, he walked around the small stone and understood it better. It was not that the stone was the entrance, but the entrance was hidden within the dark gray stone.

"The power of time!"

Long Chen used his Heaven's Sacrificial Spear first. It was obvious that he had to destroy a stone in order to open this entrance, so Long Chen condensed the power of his Death Realm's slaughter into his Heaven's Sacrifice.

Amongst the rules he grasped, Death Realm's killing power was the greatest.

"Whiz!"

Bang!

The Heaven's Sacrificial Spear pierced the rock.

The surrounding time and the sea rippled outwards.

With the rock as the center, the seawater around them began to seethe violently.

However, the stone was sent flying. Only a small hole was left on its surface by Long Chen.

Long Chen immediately gave chase and found the rock again.

"Can't break it?"

In the Living Realm, everyone felt a little regretful.

Time was of the essence, so the sooner they could break it, the better. This prevented the Holy Son of Confusion from chasing them, so that they could kill the Thousand Transformation Demonic Lord in an instant.

"Don't be impatient."

Long Chen had an idea in his mind. He rushed forward and once again stabilized the stone.

On this rock, the flow of time was extremely slow. Long Chen estimated that it was about one ten thousandth of the normal time. Of course, this was only limited to this rock.

"Time is too slow. So, what if I let it move faster?"

Thinking about it, the Heaven's Sacrificial Spear in Long Chen's hand, changed the rules this time, and stopped thinking about destroying the stone. Instead, it was thinking about another method.

"Great Void Heart!"

The power of time condensed onto the tip of the spear!

"Whiz!"

The Heaven's Sacrificial Spear pierced the seawater and opened a path. During this process, Long Chen forced the surrounding time where there was chaos to a standstill. Very quickly, he gathered the power of time and drew out the surrounding time from the Great Void heart and channeled it into the rock!

Clang!

With a crisp sound, the flow of time on the rock instantly increased, from 0.1% to 0.1%, it instantly increased to 10%, then crossed over the normal time, reached 10 times, and then hundreds to thousands of times more!

Swoosh swoosh swoosh swoosh. At this time, it seemed as if the stone had reached its limit, the stone had completely changed, its entire body started to melt, turning into a ray of light, and the light once again expanded, opening a huge door in front of Long Chen!

Inside the door, there was a gray vortex, which was the true entrance of the time tunnel!

"It's open!"

"Wow, boss sure is awesome!"

For a moment, everyone in the Living Realm was excited.

Time flowed on endlessly through the deep sea. Long Chen had gone through great difficulty to open the entrance, obviously to enter as soon as he could, thus his figure flashed, and directly rushed in!

Just as he was about to enter the gate of light, an incomparably intense turmoil suddenly occurred in the surrounding space. This was outside of Long Chen's expectations, and at that instant, Ling Xi, who was most sensitive to the energy of space, hurriedly said, "They're here!"

The instant they entered the gray vortex, Long Chen saw the nine Hierarchs, with Holy Son of Confusion as the leader, standing behind Long Chen. The moment Long Chen rushed into the gray vortex, they rushed forward and followed closely behind Long Chen.

Their expressions were all ice-cold. They must have been waiting for this moment for a long time!

Long Chen didn't know how they suddenly appeared by his side!

But he knew that he must have been used!

"Thousand Transformation Demonic Lord died in vain." Li Xuanji suddenly said.

seemed to be standing on a mountain as he slid downwards.

Along the way, it was incomparably bumpy!

"Brother Chen, they hid something on your body, I got it!"

Ling Xi was a little anxious, she searched around and said, "Do you still remember when that Taotie bumped into you while dealing with the Time Giant Beast? It's just that at that time, Holy Son of Confusion seemed to have given him something, a spatial tracking brand. I didn't notice it at that time, so I didn't see it, it was right on your left hand."

Long Chen looked carefully, and sure enough, on the left arm of his hand, there were some traces of space, and it was very weak. If he didn't pay careful attention, it would be very difficult to discover, especially during this time when the deep sea was in a state of chaos. It would be very difficult to notice this little bit of rules.

"I've already helped you get rid of it. "It's all my fault, I didn't notice this," Ling Xi was a little worried, obviously the nine Hierarchs had chased after Long Chen and entered this place.

"That's not your fault. We underestimated the Holy Son of Confusion."

Li Xuanji reminded them as she roughly understood what was going on in her heart.

"After the Fairy Shangyang told him my true identity, he started to make his plans. He knew that I would follow the rules of time and roughly guessed that there would definitely be a way to enter this time tunnel. So he made a bet. "First, they tricked me into coming in here. Then, they branded me with the Spatial Imprint so that they can follow me at all times. Even if I find the entrance, they would instantly appear by my side using the laws of space."

"Of course, or he might have guessed it, but I might have discovered that he had deceived me along the way, and might have thrown out the Thousand Transformation Demonic Lord, which he might have already guessed, but at that time, he definitely made a move, which led to a false impression of me escaping, and that would have made me feel lucky in my heart. It would have been even more difficult for him to detect the details of the spatial laws ... In order to find this entrance, he would have been able to sacrifice even a Hierarch, and furthermore, he would have quietly transferred his hatred onto me."

After thinking about it carefully, he realized how scheming the Holy Son of Confusion was.

The other Hierarchs clearly did not know that Thousand Transformation Demonic Lord's death had the greatest relationship to him, so there was a chance that he was the one who had really done the killing blow.

Only then could he deliberately let Long Chen escape.

"Long Chen, what are you going to do next?" Li Xuanji was also a little worried.

Long Chen thought for a while, then said: "They definitely came in as well. If Cat's original body was here, then our advantage would be Cat. "Since you've come in, there's nothing we can do. We can only compete against each other in minutes."

BOOM!

Finally, he seemed to have come from that world.

His surroundings were a chaotic starry sky and time had become extremely stable. However, when he had just arrived here, Long Chen felt a rather large sense of discomfort, making him unable to describe the feeling. However, the change was too fast, and it took a while for him to adjust to it.

"The time in this space is actually ten thousand times slower than outside."

Chapter 3052 - Ruins of Time

It was precisely because the flow of air in the entire space was only one ten-thousandth of the speed of sound outside that Long Chen would have that kind of chaotic feeling.

First of all, he would of course open the Death Realm's door so that he would be able to leave a few doors in the vicinity.

Now that Ling Xi had erased the spatial imprint, Holy Son of Confusion and the others could no longer instantly reach his side.

"If it's only one in ten thousand, then one day has passed and outside will be thirty years. If I were here for a month, a thousand years would have passed. "

This was truly exaggerated.

Because of the influence of this world, the Divine Kingdom's speed had been slowed down by 10,000 times, being on the same level as this world.

"No matter what, I have to end this quickly."

"Boss, hurry. I feel the location of my main body!" Cat quickly said. He came out of the Living Realm directly, this way he could more easily sense the position of his main body.

"Alright, lead the way!"

Following the direction the kitten indicated, Long Chen saw a world.

This was a city of ruins.

It was the only thing that still existed in this chaotic space.

However, this city was more than twice the size of the Fengdu Ghost City. The only thing was that the Fengdu Ghost City was intact, and the city in front of him was a dilapidated ruin, with ruins everywhere. Of course, when they got closer, those ruins were the size of a continent.

This was a place called the Ruins of Time.

A gray city shrouded in gray fog moved extremely slowly, as if it had come to a standstill. This was the place where the time tunnel resided.

He did not expect that the time tunnel would have time wreckage like this.

Ling Xi opened the door to the universe, immediately asking Long Chen to move to the side of the Ruins of Time, where Cat's main body was. As for the exact location, there was a need to search. The little kitten was sealed here by the Great Void Cosmic Dragon, so it might not be easy to find.

The moment Long Chen arrived at the Ruins of Time, a chaotic ray of light flashed in front of him. Nine Hierarchs appeared within it.

Sure enough, they were here!

The time to compete had come!

The key now was to be fast! Of course, he had to try his best to avoid directly clashing with them!

"Boss, why are there a total of four spots?" Cat was also stunned for a moment. Each of these four locations gave him a similar feeling, they were all his main body.

"It may have been divided into four parts. It could also have four bodies. Find the first one. " Long Chen instantly decided.

"Alright, then come this way!"

Long Chen immediately carried him, and according to his instructions, he rushed towards the first location indicated by him. He had already entered the gigantic Ruins of Time, moving on the surface of the ruins, when he entered the gigantic world, it would be difficult for Holy Son of Confusion and the rest to find Long Chen.

Furthermore, Long Chen had left behind the Death Realm's Dragon Gate all along the way, making it convenient to transfer to the entire Ruins of Time.

It was a race against time!

Long Chen increased his speed to the maximum, and like a ray of blood-colored light, he instantly moved millions of kilometers in the direction of the kitten. Even the speed of the door of the universe might not be able to match up to Long Chen's speed.

Sou sou!

On the Ruins of Time, a blood vein swiftly bypassed it!

For them, time was their victory.

Actually, according to his comprehension of the laws of time, deep down, Long Chen also noticed that there were four very special spots on the Ruins of Time. However, his senses were not clear. They were not as strong or accurate as the kitten's.

However, he guessed that the opposing Holy Son of Confusion should also be able to find one of Cat's main body. It was just that the time it would take was rather long, so his side would still have a huge advantage. Although he would definitely not be as good as the other party in a direct confrontation, Long Chen did not necessarily need to face him head on!

"Soon!"

The kitten's eyes were wide open, and they flickered with a strong light. This guy was really nervous at the moment.

Long Chen had now rushed into a world without any daylight. It should be because the shattered walls of the Ruins of Time had smashed down, forming the sky, sealing off the entire continent.

With such a close proximity, the kitten's body was like a beacon in the dark night. Not to mention Cat, even Long Chen himself could feel it. After breaking through the darkness, they finally arrived at a patch of rubble. There were large and small rubble, some big enough to cover the sky and the others small enough to crumble into dust and float in the air.

Long Chen's movements were small, so as to not attract the other party's attention. At this most critical moment, the little kitten almost suffocated.

"Found it, found it!" I saw it! " His voice shook.

Long Chen immediately threw him into the Living Realm, and when he reached the place he said he would be, he raised his head and noticed that even though it was filled with stones, it was still undamaged. There was a platform here with a white jade dragon head on it.

That's right, it was the white jade dragon head.

Although it felt different from the Black Jade Dragon's head, the material was different, and it was even more mysterious, as long as it was something left behind by a Divine Dragon, it would give Long Chen a sense of familiarity.

The white jade dragon head was not big, only about a tenth of the size of the Black Jade Dragon's head from before. Long Chen did not seem to be large in his surroundings.

"My original body should be inside this Dragon Head's body. We should just break this. " The kitten said.

"Yes." Long Chen was calm in his heart. Destroying the little kitten recklessly was a reckless action, especially towards the divine dragon. This white jade dragon head should be the thing the Great Void Cosmic Dragon used to seal the kitten's body.

"Let's try to speed up the time."

Just like the door from before.

Long Chen took out the Heaven's Sacrificial Spear, and after reaching the head of the white jade dragon head, he stood in between the two white dragon horns. At this time, the Great Void Heart's power had already condensed onto the Heaven's Sacrifice Spear!

Stab!

The Great Void heart gathered a large area of time on the Heaven's Sacrificial Spear. All of the time was poured into the Heaven's Sacrificial Spear, and suddenly, it pierced through. With a ding sound, the Heaven's Sacrificial Spear was nailed to the white jade dragon head, but it did not go any deeper.

Of course, the power of time, was still changing the time of the white jade dragon head.

Sou sou sou!

Time passed faster and faster, but Long Chen still felt that he had not reached the limit yet!

"Yuanshi Dragon Pagoda!"

If their levels weren't high enough, they would have to rely on the Dragon Pagoda.

At this time, he suddenly transformed into a Great Void Cosmic Dragon. This illusionary divine dragon landed on top of the white jade dragon head and curled up its body, forming an illusionary heart that landed on top of the white jade dragon head's head.

Too much tyranny of the Great Void heart exploded.

On the white jade dragon head's body, the time sped up even more, it became a thousand times faster. When it reached this degree, the white jade dragon head began to flash with light, and with the acceleration, the light also became stronger!

With Long Chen's final effort, the white jade dragon head finally turned into a ray of light and disappeared before Long Chen's eyes.

With the lesson from the last time, this was the time Long Chen was the most cautious.

However, because Ling Xi had erased the spatial brand, it was impossible for Holy Son of Confusion to suddenly appear at his side.

"Boss, it's inside!"

The kitten exclaimed.

It had been a long time, but it had finally come to this!

Without even needing him to say anything, Long Chen had already rushed over. He could also see the deepest part of that light which made even him throb. When Long Chen got closer, he reached out and grabbed, only to realize that this thing was really small. After looking carefully, the thing that was shining with a white light and had a strange rule, was actually just a small leg?

This was a crystalline leg that was as thick as a finger. From the looks of it, it should be a cat leg ...

[But it is so small!]

Long Chen took one look and threw it into the Living Realm.

"Main Body, your cat-lord is here!"

The kitten was incredibly excited.

Everyone was looking forward to it.

Clang!

The crystal leg was thrown right in front of the kitten's eyes, upon closer inspection, the kitten almost lost its breath. His tall and mighty Reincarnation Godly Beast was actually as thick as a finger, and its main body was that of a crystal leg?

"Damn, what is this?" The kitten was stunned.

It was different from what he had imagined!

Seeing this, everyone laughed.

The kitten held onto its crystal calf, wanting to cry but had no tears.

Especially Zhu Xi, he laughed the loudest: "Haha, Cat, I can already imagine how you looked like when you turned into that Reincarnation Godly Beast, haha!"

She swayed back and forth in laughter.

"Humph!" Cat picked up the leg awkwardly and said, "Wait until I collect everything, then you'll know how powerful you are. When the time comes, don't beg for forgiveness."

In fact, it was very clear.

Although the crystal calf looked simple, it was indeed the kitten's original form.

"Apparently, your body is divided into several parts, not even just four. He should have gathered everything. At least there are three more that you can sense, let's hurry to find the second one. "

Long Chen said as he pulled the kitten out.

"AHH!"

At Long Chen's extremely high speed, the kitten let out a series of sharp screams.

"Shut up and lower your voice." Long Chen knocked on his head.

"Got it, this way, this way!"

Although the crystal leg disheartened the kitten, he knew clearly that if their bodies were to be separated, it would be very troublesome. This basically meant that as long as Holy Son of Confusion could find one, Long Chen would have to fight with them to get it back, otherwise, no one would be able to obtain its true body!

In a battle with the Holy Son of Confusion, the other side still had eight Hierarchs.

"Don't let him get it!"

In this way, Long Chen increased his speed. Not long later, it seemed that he had reached the second position, which Long Chen himself could feel.

However, when he got near, he quickly felt a sense of danger, and hurriedly threw the kitten back to the Living Realm. He looked up, and saw that in the middle of the vast sea of gray clouds in front of him, there was a floating platform, on top of it was a floating white jade dragon head, and on it, were Holy Son of Confusion s, Fairy Shangyang s, Taotie s, mother animal s, etc.

They saw Long Chen.

Chapter 3053 - Fourth Body

The Holy Son of Confusion and the others had already surrounded the white jade dragon head, and the Holy Son of Confusion, in particular, was currently standing on top of it. Relying on his control of time, he should be preparing to snatch something inside the white jade dragon head.

Although it was just a glance, he could roughly feel that his and Long Chen's principles were similar. They all used the principle of using time to speed up. As long as his speed could reach a certain degree, he could also make the white jade dragon head release the kitten's original form.

Taotie, mother animal, Fairy Shangyang and the others all noticed Long Chen. When both sides encountered each other, the Holy Son of Confusion laughed coldly. There was no movement, but the other three Hierarchs chased after them.

The Taotie, mother animal and Divine Bird Merchant Yang, from three different directions, their movements were extremely quick and violent, their killing intent filled the air. To them, this distance only took an instant, and other than the Holy Son of Confusion who was still on the white jade dragon head, the others had already started a crazy slaughter against Long Chen.

Long Chen's gaze met Holy Son of Confusion's in an instant.

In the other party's eyes, Long Chen saw confidence and calmness. It was as if everything was still under his control. He had been so calm from the beginning, and now, not only had he successfully followed Long Chen in, he had also occupied a white jade dragon head. Even though he had lost a Thousand Transformation Demonic Lord, it seemed like to him, this wasn't really anything.

"Here, I have no chance of defeating the four of them and successfully seizing the kitten's original body. Holy Son of Confusion was also proficient in the laws of time. It was normal for him to be able to obtain

one of the four locations. Crucially, I had to get the rest of it quickly. There are two more. There's no need to fight them here. "

Thinking to this point, Long Chen instantly made a decision. Before he had even exchanged blows with the Taotie and the others, he had already snuck into the Death Realm. Then he came out from another position.

After coming out from this place, he had already found the distant Holy Son of Confusion.

"Boss, which one do you want?" The kitten was a little depressed. It was clearly his own item, but now there was another guy fighting over it.

"There's no rush. In any case, we still have to fight in the future, so I'll try to get the most as fast as possible. "

Long Chen still remembered the look in the Holy Son of Confusion's eyes. They were calm and indifferent, but it was undeniable that if he wanted to obtain a piece of the kitten's body, it would be even more difficult than Long Chen.

"I am getting closer to the next one." Long Chen was even aiding the gate of the universe, which greatly increased their speed. Even though they were all in the same realm as the Hierarch, even though the Ruins of Time was large, they were trying their best to save time and snatch away time. After all, one day inside and thirty years outside.

"We're here."

This time, he was in an abyss.

The white jade dragon head was on one of the walls.

The surroundings were in tatters, as if they had experienced the greatest amount of destruction.

This time, Long Chen did not waste any time, he directly used the Primeval Dragon Pagoda, turning into a Great Void Cosmic Dragon, using the Great Void Sect's heart, increasing the speed of the white jade dragon head, and quickly charging a million times over!

In the end, Long Chen obtained another crystal leg.

It was slightly different from the previous one. The first one should be the forelegs, while the second one was the hind legs.

"Could it be that the four people I'm aware of right now are all my legs?" The kitten was depressed.

He found two, both were legs. After all, the other two couldn't be all of his body!

"It's very possible!"

Long Chen squinted his eyes and said.

"What about the rest?"

"Maybe you can't sense it, maybe it's somewhere else. If it was in another place, it would be fine, but if you couldn't sense it, but Holy Son of Confusion and the rest could, it would be troublesome. "

"It's almost impossible. This is my true body. " The kitten was very confident.

"It's fine, let's find the last one first and then talk. Don't let the Holy Son of Confusion get it first." Long Chen tossed the crystal calf in his hand to Little Cat, then asked him to lead the way to the next place!

The last spot was slightly farther away.

Almost on the other side of the Ruins of Time.

Ling Xi had never gone to that universe door before, but after taking a slight risk, she could roughly feel the position and distance of the gate, locking onto a general location. Only now did Ling Xi open the door to the universe.

"Whiz!"

It didn't take long before they finally arrived. Of course, they had only moved to this side. The darker side would require some time to find the final part of the original body.

"This way!"

Forget Long Chen being anxious, Cat herself was anxious too.

"cat-lord's legs! Nobody can steal my cat-lord's legs! Who's going to snatch this grandpa away from you?! "

This platform was extremely obvious. From a very far distance, Long Chen could see the white jade dragon head that had appeared in this open space.

"Found it!"

Long Chen was like a cannonball, he instantly crashed into the platform. In the blink of an eye, he was already on the white jade dragon head, preparing to use the Primeval Dragon Pagoda.

"Boss?" Long Chen suddenly stopped again.

"Someone's coming."

Long Chen looked in a direction.

His voice was cold and murderous.

He had already taken away the original bodies of the two kittens. This was the third one, and adding the one found by Holy Son of Confusion, it seemed like the fourth one had already appeared.

However, this last one had met with some trouble. Just as he was about to break open the white jade dragon head, the opponent also looked for him. It was possible that they were nearby earlier, and just happened to catch up to Long Chen when he was making a move. Otherwise, with their level of strength, they might not have been able to find him.

"Those disgusting fellows here, they're all trying to take advantage by following our tails!" This pissed the kitten off.

"If we don't take care of them, it will be very difficult to focus on breaking this white jade dragon head. After all, breaking through white jade dragon head requires a certain amount of time." Long Chen said in a serious tone.

Just as he finished speaking, his opponent appeared.

In the middle of the darkness, three figures appeared, two males and one female. The two males were very majestic, while the females were as flirtatious as water and extremely beautiful. They wore a long blue skirt that was filled with deep sea gems, and among them were a few Chaos Treasures with Eternity s.

Seeing that it was them, Long Chen heaved a sigh of relief.

Looks like the Holy Son of Confusion and the rest were not able to catch up to this place that quickly, and even to break open the white jade dragon head, they would need a certain amount of time. He couldn't even open the white jade dragon head.

If only these three had come, Long Chen wouldn't be the slightest bit worried.

The three were: Astral dragon, Emperor Saint Beast, and Cosmic Sea Deity Beast.

They were respectively the Star Wargod, Holy Emperor and Supreme Ocean God.

Amongst them, the Star Wars and Holy Emperor were men, and the Supreme Sea God was a woman.

Holy Son of Confusion should be splitting the team and searching the Ruins of Time together.

Both sides had encountered each other here. In order to obtain the original body of the kitten, they would have to fight here.

"Three Hierarchs, deal with them separately. I can deal with one of them and quickly deal with the other to help you guys." Long Chen quickly decided.

When their eyes met for the first time, sparks flew, especially the Emperor Saint Beast. The Thousand Transformation Demonic Lord he was on good terms with had died because of Long Chen, so he shifted all of her anger onto Long Chen.

"Big brother, let me deal with that Cosmic Sea Deity Beast. Although it is a bit difficult, it can delay it for a while." Mo Xiaolang said first.

Furthermore, Ling Xi and Li Xuanji, with the addition of Ling Xi, she would be able to contend against a Divine Sovereign by changing the rules. Long Chen could even quickly defeat an opponent. The only one that was slightly troublesome was Mo Xiaolang.

"Big brother, you should be able to hold on for a while." If Mo Xiaolang could not hold on alone, it would be troublesome to have another opponent.

Given that he had the azureflame chaos flames now, it would be hard for him to die.

In the blink of an eye, three opponents appeared in front of Long Chen.

He had to hurry!

"You're looking for this too?" Amongst the three, the Astral dragon was the indistinct leader. He took a glance at Long Chen and had already told the news regarding Long Chen's location to the Holy Son of Confusion.

The Emperor Saint Beast's eyes were already blazing red. The aura of a Hierarch, the pressure from the demon clan's peak bloodline, all erupted. Even the surrounding space of a million meters was trembling under this manic pressure.

"Stop wasting time with him, I want to avenge the Thousand Transformation Demonic Lord! If the three of us were together, we would be able to dismember his body into ten thousand pieces! "

The Emperor Saint Beast's roar shook the world, causing even the Ruins of Time to tremble.

He went past the Astral dragon and attacked directly.

Long Chen made a decision!

He really had to end this quickly!

In the blink of an eye, three people appeared beside Long Chen. They were Mo Xiaolang, Ling Xi and Li Xuanji. Although the location was different.

These three were all the top-notch Hierarchs, all of whom could rank in the top three of the Divine Emperor s! They were both characters that could fight against the Hierarch alone.

"Oh?"

Three helpers had appeared, something they hadn't expected at all.

Mo Xiaolang was the fastest, and directly left Long Chen's side. His gaze was always on the Cosmic Sea Deity Beast. He said coldly, "If you want to attack, then come over."

The Supreme Ocean God's beautiful, watery blue eyes glanced at him for a moment before he said to the two beside him, "Give me ten breaths of time."

To her, dealing with Mo Xiaolang only required ten breaths of time.

Ling Xi and Li Xuanji looked at each other, and the two of them instantly went to the other side. Only this sort of decisive battle would result in quick results. Long Chen's intention to fight was very clear.

"I'll deal with him!" The Emperor Saint Beast growled.

"I'll do it!"

The Astral dragon pushed him behind and said: "You have already lost your mind, go take care of those two girls! I'll deal with this Long Chen! After he was done, the Son would be able to look for what he wanted. "Maybe he has something on him that the Son of Heaven wants."

Holy Emperor clenched his fists tightly and shifted his gaze onto Ling Xi and Li Xuanji. He knew that these two women were Long Chen's favorites, so destroying them was equivalent to destroying Long Chen!

Chapter 3054 - The Big Bang of the Universe

Not long ago, Long Chen, Ling Xi and Mo Xiaolang fought together against the Hierarch Taihao, and only then did they win.

After that, the Heavenly Dao Sovereign, Notre Dame de Nine and Notre Dame de Nine, Long Chen had no choice but to split them up and fight against the Notre Dame de Nine alone, only then would he have the chance to defeat her.

And today, in the Ruins of Time, when the four of them fought against three Hierarchs, it could be considered a challenge that surpassed their limits!

Especially since Mo Xiaolang was in an extremely dangerous situation, and he needed Long Chen to quickly finish off his opponent, otherwise, trouble would likely befall Mo Xiaolang.

At this moment, the Emperor Saint Beast roared, and the entire time zone within a ten million meter radius around it began to tremble. As it pinched the fund, it transformed into its original form, which was a golden coloured beast, a huge body with a lion's body, but it was also a giant beast with eagle wings and steel-like feathers. The overlords of the two continents, the lion and the eagle, were almost completely fused together, forming a terrifying visual impact!

This sort of peak demon race bloodline was able to crush over trillions of lives before the war even began!

On the other side, there was a Cosmic Sea Deity Beast. Almost at the same time that the Emperor Saint Beast changed its form, Mo Xiaolang's area had already been submerged by a vast ocean.

Long Chen saw the original body of the Cosmic Sea Deity Beast. The beautiful blue-haired woman had already turned into a gigantic underwater beast, and an octopus with numerous tentacles. The tentacles were embedded with countless blue gems, just like the eyes at the bottom of the sea.

"I know that you are powerful, but if you go against the Son of God, you will realize that this is the biggest mistake you will ever make in your life. In this Myriad Realms, no one can oppose our Son. Even the four Paragons couldn't do it! The potential of a Holy Son was something that had never been born in the entire history of the The Supreme Divine of the Extreme Realm. The future generations of the Myriad Realms would all belong to the world of the Holy Son. "In the place of the Holy Son, I will ask you something. Are you willing to join the side of the Holy Son?"

What answered him was Long Chen's attack.

Since Mo Xiaolang and the others were participating in the battle, Long Chen couldn't be bothered to explain to the Astral dragon. No matter what results the Holy Son of Confusion had in the future, Long Chen's perspective would always be different. His future achievements definitely will surpass those of the Holy Son of Confusion s!

Amongst the ten thousand worlds, the peak positions of the four great masters of the primitive level were deeply ingrained!

That was why Astral dragon had so much confidence in Holy Son of Confusion! But Long Chen was different. The current Ten Thousand Worlds was just a decayed world! He had to climb to the peak of ten thousand worlds before he could truly begin his revenge plan!

Revenge and rebirth!

It concerned him, and also concerned the The Dragon God Clan.

BOOM!

In front of the Astral dragon, when Long Chen held the Ghost Blood Curse in one hand, what he felt was a terrifying impact of aura. At this moment, Long Chen was already a peerless god of death who had killed millions of gods and devils!

Long Chen had risen up too quickly, and even now, he was still a mysterious existence in the eyes of the entire Allworld.

However, this mysterious existence had displayed his killing intent in front of the Astral dragon!

Of course, all of this was built on the fact that Long Chen had already activated the Primeval Dragon Pagoda, and the Dragon Pagoda had already fused with his body. On one hand, it had given Long Chen the terrifying power of Creation, and on the other hand, it had brought about an extreme defensive power that even the Hierarchs were unable to break through.

Inside, Gui Qi was so pleased that she was about to cry. At first, she was not satisfied with Long Chen, but now, she had exceeded her limit, and it was even awkward for her to try to please Long Chen right now. She could only give it her all to fight for Long Chen.

Of course, Long Chen also trusted it absolutely.

At this time, the Heaven's Sacrificial Spear had already reached Li Xuanji's hands.

"Humph!"

Seeing that Long Chen did not know what was good for him, the Astral dragon snorted and immediately transformed into its original form. The Astral dragon formed from countless planets appeared in the Ruins of Time.

On the other two sides, Ling Xi and Li Xuanji were fighting together with the Emperor Saint Beast, while the Sky Demon Wolf and the Cosmic Sea Deity Beast were also fighting between fire and water!

RUU!

The commotion caused by the battle here had definitely shocked the entire Ruins of Time. With Holy Son of Confusion's understanding of the laws of space, it shouldn't be difficult for him to rush here. Therefore, there wasn't much time left for Long Chen.

The Astral dragon was as illusory as the Great Void Cosmic Dragon, and only the black stars that were like acupoints in the body could see that every black star was connected to each other!

BOOM!

As the Astral dragon moved its body, the walls and land that it touched with the Ruins of Time all crumbled and turned into dust.

At the same time, Long Chen had already rushed forward, the Death Realm in his hands released a killing light that was thirty thousand meters long. The sword strike that contained the power of the Primeval Dragon Pagoda and Long Chen's own strength, and without even using the rules to slash out, was already sufficiently terrifying. The sword light flashed for millions of kilometers, causing the Astral dragon to have no choice but to turn its entire body black in order to block Long Chen's strike!

"Scram!"

The Astral dragon endured the sword and instantly became furious. With a roar, it suppressed both the Emperor Saint Beast. In a short while, the Astral dragon connected head to toe, forming an incomparably large circle. In the middle of the starry sky, facing Long Chen who was standing on top of the Ruins of Time, they swiftly executed their ultimate move!

Astral dragon could be considered as the supreme expert who used the laws of the stars in the ten thousand worlds.

When he used the rules of the stars, the myriad of black stars in his body seemed to connect to the stars in the entire Myriad Realms. Countless amounts of star power descended from the myriad realms of the universe and imbued into the Astral dragon's body!

Following the flow of time, the Astral dragon's illusory body had seemingly been filled up in the blink of an eye. A true gigantic flood dragon appeared in front of Long Chen, and the energy of the myriad star worlds formed a star vortex in front of his eyes!

"Star Domain Black Hole!"

Law Explosion!

This was actually the rule of a black hole similar to Su Yan's!

With the Astral dragon's body as the core, it formed a terrifying black hole. After it expanded, it was almost 10% the size of the Ruins of Time, and Long Chen was at the center of the black hole in the Star Domain. It was many times stronger than what Su Yan had displayed in the past!

"Die!" The Astral dragon roared, and formed an attack of its will.

However, in front of such a huge Star Region Black Hole, Long Chen didn't have a single shred of respect for it. This time, she had truly used the power of the Primordial Dragon Pagoda, and gathered all of it onto the body of the Ghost Blood Curse, pushing the Ghost Blood Curse to its limits. Gui Qi let out a shrill scream from within, and following the appearance of the Death Realm core on Long Chen's forehead, the churning of the blood sea behind his, completely surpassed all of Long Chen's previous attacks!

"The Death Realm is killing us!"

This time, what was born was a monstrous sword qi, hundreds of millions of feet wide, as if it erupted from the Ruins of Time. The sun that rushed into the starry sky shot up into the sky and slashed down, and in the midst of the TV and fire, it slashed down onto the black hole!

Silent

The Death Realm killed, and with a sword strike that seemed to destroy everything, he tore the Star Domain Black Hole into two. After the Death Realm killed the Star Region Black Hole, the Star Region Black Hole was torn apart like a piece of paper and then turned into countless smoke clouds which dispersed. The Star Region Black Hole was immediately destroyed.

The outcome of the battle seemed to have been decided in an instant.

Indeed, Astral dragon were similar to Notre Dame de Nine. Long Chen would definitely be able to defeat him, it was just a matter of time.

However, it didn't seem that easy to make the opponent lose their combat ability. This Astral dragon was even crazier than Long Chen imagined, especially when it was working for the Holy Son of Confusion. Even though it was heavily injured, the Astral dragon was still able to hold on, and right now his eyes, which were only two black stars, suddenly exploded. Her illusionary body released an even more terrifying roar!

Right at this moment, the tens of thousands of black stars on his body, which were like acupoints, were all drawn towards the center under the huge gravitational force. They gathered together, and when all the black stars were gathered together, they started to press against each other.

At this time, Astral dragon's body no longer existed.

His body had already been compressed to the limit.

Even after the extreme, it was not the end. All the black stars were still compressing, compressing, and shattering. They condensed into a single entity, then became smaller and smaller, eventually turning into a small dot.

It was a very thin dot.

The whole process was extremely quick. In the blink of an eye, all the energy that the Astral dragon had compressed was condensed into a dot. The next moment, it was a suicide attack!

"Universe Explosion!"

This was the final rule of the laws of the stars, and in the entire ten thousand worlds, perhaps only Astral dragon could use it. Its power was naturally close to that of a ruler. It was one of the most destructive laws of the world!

What Long Chen saw was the destruction of a world in front of him.

Of course, it was also the birth of a new world!

Without a sound, the power of destruction appeared before him.

In actuality, all of the destructive powers were being released right in front of Long Chen's eyes, and it was completely aimed at himself. Everyone saw the bright and resplendent starlight, and only Long Chen saw all of their destruction!

It was as if a torrent had completely engulfed Long Chen and the Astral dragon. The destructive star power completely engulfed Long Chen. The Astral dragon's suicide attack indeed had an incomparable effect.

Of course, the Astral dragon was not dead, after a while, a few small stars condensed into his appearance, it was just that he was extremely weak, although she had attacked Long Chen, but she had actually reached her limit, and had lost all of her fighting strength.

"Is he dead?" "Now that he's dead, there's no need for the Son to bother."

The Astral dragon looked at the Ruins of Time in front of him;

Chapter 3055 - Beheading Dragons

The destruction laws of the big bang was enough to cause serious damage to a world with Eternity.

It was only because of this that Astral dragon dared to face Long Chen, who was able to defeat the Notre Dame de Nine, alone.

"Facts have proven that I have succeeded. Although this kid was being spread like a demon by the outside world, ah! In the end, he was still a bit too inexperienced. I don't know my opponent. Even though I am heavily injured, it is worth it to take care of him for the Son of God! "

The Astral dragon could only maintain its human form and weak state.

He was thoroughly relieved. He imagined how the Holy Son would reward him if he found out about this.

Thinking about his future status, the Astral dragon couldn't help but be excited. He was one of the first to decide to follow the Holy Son of Confusion.

After the Big Bang of the universe, the smoke gradually dissipated. Just as the Astral dragon was full of smiles and was about to help the Emperor Saint Beast, an aura suddenly appeared behind it that made it tremble!

"Long Chen!"

The Astral dragon turned its head in shock. What it saw was: When the smoke dissipated, Long Chen's figure completely appeared in the smoke. The Primordial Dragon Pagoda appeared, and that transparent pagoda that protected Long Chen was completely unharmed. Now that the might of the universe explosion had completely dissipated, it directly determined the outcome of the battle!

In truth, even Long Chen was shocked by it, but what surprised him even more was the protective power of the Primeval Dragon Pagoda. That attack was completely unharmed. It seemed like he had still underestimated the Primordial Dragon Pagoda!

"You!"

The Astral dragon's face instantly became deathly pale.

From Long Chen's point of view, the Astral dragon that had completely lost all fighting strength was already not his opponent, and he was currently in a state of serious injury. Without a second word, Long Chen gave him a cold glance, and then rushed in Mo Xiaolang's direction!

Mo Xiaolang was after all, not a Hierarch, so he couldn't resist for long. Currently, he had already been completely suppressed below by the Cosmic Sea Deity Beast, and was even on the verge of losing his life, so he could only rely on the Primal Chaos Blue Flames to persevere.

Right at this moment, the Cosmic Sea Deity Beast's gigantic body rolled around in the sea, countless of gemstone tentacles extended out, like countless of eyes in the night sky, bright and blue, shining brilliantly, trapping the Time Demon Wolf inside. She was very powerful in the ocean, Mo Xiaolang's damage to her was limited!

"Universe Sea, Heavenly Punishment Region!"

maybe because the Cosmic Sea Deity Beast sensed the situation Long Chen was in, it immediately brought out the final rule, which was not one bit inferior to the Astral dragon's universe explosion. Or maybe it was an attack that could injure one thousand enemies and self-destruct eight hundred times! Their goal was to kill Mo Xiaolang, to be able to kill one opponent, was already a huge victory for them!

After all, on the Emperor Saint Beast's side, Ling Xi and Li Xuanji were working together, and the two women were suppressing a Hierarch. This caused the Emperor Saint Beast to feel incomparably stifled.

With these gems as the core, it formed a spherical dimension. All of the Cosmic Sea Deity Beast's tentacles were placed on the surface of the spherical dimension, while Mo Xiaolang was trapped inside of it!

Instantly, the inside of the Sky Law Region was drowned by the blue colored seawater, and Mo Xiaolang was also submerged!

"Your flesh and blood, your soul, shall be used as an offering to the soul of the Hanhai, Sky Law, shall descend!"

Within the Sky Law Region, the sea storm that was comparable to a huge explosion in the universe started to erupt, and the entire sphere shaped space also started to shrink, suppressing it. According to Long Chen's estimation, the Sky Law Region would shrink down infinitely, and the sea storm would also erupt, until Mo Xiaolang was crushed into ashes!

In the starry sky, the numerous blue gems in the Great Sea emitted brilliant rays of light. Each of them was like a beautiful sun sinking into the ocean, emitting boundless blue rays.

"Big brother!"

In this kind of situation, Mo Xiaolang could not hold on much longer, so he asked Long Chen for help. He knew that Long Chen had already defeated his opponent, and it was time for him to help.

Actually, there was no need for Mo Xiaolang to say anything. Seeing that the Cosmic Sea Deity Beast was prepared to use its life on Long Chen's side to inflict damage, he had already charged towards the Cosmic Sea Deity Beast! With his speed and his current lethality, the Cosmic Sea Deity Beast's punishment domain was definitely futile! Even the Universe Explosion Long Chen was able to block it, and he was not injured at all!

At this critical moment!

However, something unexpected happened at this time.

The Astral dragon understood the crux of the matter now, Long Chen had underestimated his fanaticism for victory and his fanaticism for the Holy Son of Confusion. At this time, he was already in a state of

severe injuries, and he could not make a move, but the Astral dragon was like a madman, using all of its strength to block Long Chen before he moved, it had barely managed to transform into the Astral dragon's body, condensing its power and pouncing towards Long Chen!

He wanted to stop Long Chen and let the Cosmic Sea Deity Beast succeed in its attack!

"All of you deserve to die!"

The pitiful and majestic roar of the Astral dragon!

Although the threat was small, the opponent's body was simply too big. It was also troublesome, so Mo Xiaolang's side had to race against time. If he hesitated even a little bit, Mo Xiaolang might really lose his life!

After realising the severity of this, Long Chen was extremely cold and detached, no matter how big of a trouble he caused, he had to save his brother. When everyone was worried for Mo Xiaolang, Long Chen didn't say anything, held onto the Ghost Blood Curse, and smashed into the Astral dragon's body!

"Don't even think about it!" The Astral dragon roared crazily.

Long Chen's face was indifferent, when he collided with the body, all the strength in his body was congealed on the Ghost Blood Curse, and with a sudden slash, the Ghost Blood Curse released a sinister light, under the surging force, it broke through everything, and directly cut the Astral dragon's invisible body apart!

Rip!

Long Chen rushed forward, facing this frail Astral dragon, he did not hold back at all. He used the Ghost Blood Curse to clear the way, allowing him to pass through the body of the Ghost Blood Curse.

Uh!

In the end, the Astral dragon's hoarse voice turned into a humanoid shape, and Long Chen passed through his body, descending right in front of the Cosmic Sea Deity Beast!

This happened in an instant!

At this point, Long Chen did not have the time to look at the Astral dragon, it was madly compressing the Universe Sea Heaven Punishment Region, if he was any slower, Mo Xiaolang's life would have ended! The sphere of Sky Law Region had already been suppressed to a fairly small size!

"The Death Realm is killing us!"

At this moment, Long Chen was like a god of death, with his sword thrust, the Death Realm's tribulation once again formed a thirty thousand meter long sword aura. This time, it was even more tyrannical, and all the Death Realm's energy condensed onto his sword.

Rip!

This time, the Death Realm killed and destroyed a ray of sword qi that rampaged through, charging straight into the sea of Cosmic Sea Deity Beast, cutting this endless ocean into two, then charging forward once again. The true opponent was the Cosmic Sea Deity Beast's entire tentacle!

It was extremely fast!

The Cosmic Sea Deity Beast was simply unable to dodge in time, and allowed the sword aura to pass through all of the tentacles. At that moment, she was screaming and practicing, using all her strength in the Sky Law Region, unable to defend against Mo Xiaolang's sword attack at all. With the support of the Primeval Dragon Pagoda, Long Chen's Sword Qi was able to break all of the Cosmic Sea Deity Beast's gemstones!

Swish!

All of the tentacles broke into two pieces and flew out. This scene was absolutely spectacular!

When he lost the maintenance of the tentacle, the Sky Law Region instantly lost its power. Mo Xiaolang broke through the Sky Law Region, broke free from it, and appeared in front of Long Chen. At this time, he was in a slightly sorry state.

"How is it?" Long Chen asked quickly.

"Fortunately, I need some rest." Mo Xiaolang grinned. Now that he had completed his mission and returned to Living Realm to rest, he could quickly recover. Now that the situation was set, Long Chen would definitely win.

"That's good." It was already very heaven-defying for Mo Xiaolang to be alone against the Warlord for so long. Once he became a Hierarch, he would be able to crush many Hierarchs.

Long Chen swept his eyes across his surroundings, and what he saw was ...

Ling Xi and Li Xuanji were in a stalemate with the Emperor Saint Beast, so their teamwork was about the same as Long Chen and Ling Xi's. After all, Li Xuanji had used Long Chen's rules.

On the other side, the Cosmic Sea Deity Beast was heavily injured, and was currently recalling its tentacles, binding them together again, but it had also lost a lot of strength, so if Long Chen were to make a move now, it would definitely take his life.

"As for the Astral dragon!"

Long Chen saw that he had regained his humanity, his skin was pale white and his entire body was trembling. The Ghost Blood Curse had already covered his entire body and even his two eyes were completely filled with the Ghost Blood Curse.

Right now, he looked at Long Chen with trembling and fear. In the end, he laughed sinisterly. Long Chen! Haha, you are destined to die! "Today, when I die in your hands, the Son will avenge me. He promised me that he will let you leave this world with ten thousand times the pain."

"He can't do it." Long Chen said indifferently.

"No, he can do it. From the moment he was born until now, there was nothing he can't do."

After saying that, the Astral dragon's body started to turn into ashes under the attack of the Ghost Blood Curse.

"I didn't expect that your curse would have such a great effect on Hierarch Hierarch. Of course, this is also because I chopped many times and directly passed through his body. " Long Chen watched the Astral dragon disappear before his eyes, and then, the fall of the Hierarch!

In reality, Long Chen did not want to kill him either, but he had blocked Long Chen's path at the most crucial moment, and that would be asking for death.

Gui Qi became excited and said, "That's only natural. It's been a long time since I've beheaded Hierarch. I've already forgotten the taste of Hierarch! What a great feeling! This feels great! "

Her smooth and tender skin was completely exposed to Long Chen's eyes, and he no longer cared about her at all.

"I'm going to level up!" Suddenly, Gui Qi opened his eyes wide, revealing an incomparably ecstatic expression.

She had devoured the remnant soul of the Astral dragon.

Chapter 3056 - Ghost Blood Curse leveled up

There was a possibility for the creation of a divine artifact to increase in power.

Of course, each of them had their own conditions. Generally speaking, the advancement of a Creation God Creation Tool was countless times more difficult than the advancement of a god or demon.

The conditions required were basically some special items, which could be hongmengxinling or Chaos Treasures. It could also be other conditions. On the other hand, the ability of the Eternal Creation Divine Artifact was that even if it could not kill an opponent, it could still devour the soul fragments of the opponent.

When it had accumulated to a certain degree, especially after killing the supreme divine Astral dragon, it had undergone a huge leap. At this very moment, the Ghost Blood Curse was refining all of the remnant souls within it. These remnant souls that had been imprisoned for a long time were all ignited and became the power of the Ghost Blood Curse.

An unbelievable transformation was currently occurring within the Blood Curse, as Ghost Qi was submerged within the sea of curses and merged with the sea of countless swastika words that were formed by the Blood Curse.

Long Chen held onto the Ghost Blood Curse, and sighed at her changes. It was an accident.

Perhaps even the Ghost Blood Curse could not have predicted this.

"I've been waiting for this moment for far too long. I've been waiting for this moment for far too long and I've forgotten about it. "I didn't expect that after you took me as a master, the slaughter would increase and I would evolve to this extent!"

Naturally, the leveling up of the Ghost Blood Curse could cause its grade to change.

"It should be able to allow me to reach the semi-primitive level. But my half-primitive level is definitely stronger than the Myriad Realms Divine Sword. "

Gui Qi said with a bit of pride.

Of course, it did not dare to compare with the Primordial Dragon Pagoda. What she was afraid of now was the Primeval Dragon Pagoda. But of course, the Dragonhead Palace was even more afraid. It was just that the Dragonhead Palace rarely showed it off.

Finally, the transformation of the Ghost Blood Curse succeeded.

Long Chen closed his eyes and felt that it had indeed reached a level that exceeded the Heavenly Sacrifice Spear and the Buried Heavens Coffin.

This way, Long Chen would not need to use the Heaven's Sacrificial Spear anymore. After all, it was probably the same type of God Creation Art, and wouldn't be of much use.

Of course, there was something even more important for Long Chen. He let the Ghost Blood Curse transform, the Cosmic Sea Deity Beast had already escaped with heavy injuries, and the Astral dragon was already dead. Only the Emperor Saint Beast was still fighting with Ling Xi and Li Xuanji.

In an instant, Long Chen appeared in front of the Emperor Saint Beast, blocking in front of Ling Xi and Li Xuanji.

The Emperor Saint Beast had already seen this!

"You killed the Astral dragon!" The Emperor Saint Beast's eyes became even redder, and it trembled in anger.

Long Chen raised the Ghost Blood Curse that had transformed to half of his primitive level and pointed it at the Emperor Saint Beast. If you don't scam, your fate will be the same as the Astral dragon. In your opinion, I have already killed two Hierarchs of your demon race. "Don't think I'll hold back."

Long Chen was too lazy to be courteous with him.

He didn't kill people because it wasn't easy for his opponent to cultivate to the level of a Hierarch. Thus, unless it was an extreme situation, he would not be too heartless.

"You!" The Emperor Saint Beast had already seen that he was only left with one person, standing alone without any help.

"F * ck off."

Long Chen was giving him a last chance, if he still didn't get out of the way, he would attack.

"Hmph, how laughable. Here. No matter how arrogant you are, you are doomed to lose your life. "To go against the Son, to fight over things with the Son, not just you, but everyone around you must also live in eternal disaster."

With that, no matter how tough the Emperor Saint Beast was, it had to escape with its tail between its legs. He knew clearly in his heart that Long Chen was the kind of person who could quickly defeat him.

When the Emperor Saint Beast escaped, Long Chen turned around, but both he and Li Xuanji were a little tired.

"Thank you for your hard work." Letting them participate in this sort of battle was actually extremely dangerous. It's just that they're happy to help me in these areas

"I'm fine. "Hurry up and take away the last one."

"Alright."

Time waited for no one.

Long Chen finished his opponent, and quickly landed on the white jade dragon head.

When the Primordial Dragon Pagoda was summoned, it became very cooperative. The longer Long Chen accompanied it, the longer he would be able to use it. At least until now, there was no situation he could not summon out.

"Great Void Heart!"

To obtain Cat's fourth main body, one needed to exceed the normal speed of time flow. Under the Great Void Heart, the time around the white jade dragon head flowed past like a tide. After about fifteen minutes, the time had already reached its limit.

A tempest of time formed around the white jade dragon head.

"Boom!"

Just at that moment, she had also reached the limit of the white jade dragon head. The white jade dragon head turned into light in front of Long Chen, and the light dispersed. In the end, it formed one of the kittens' original forms in front of Long Chen.

A crystalline calf.

Sure enough, another leg.

Evidently, what Holy Son of Confusion obtained from the second place was also a leg.

Now, four legs had appeared.

As for where the other items were, he could only slowly search for them.

Long Chen reached out his hands to the crystal calf in front of him. The kitten couldn't wait any longer.

But in this instant, not only Ling Xi, Long Chen also felt the arrival of spatial energy and that natural law had even rushed ahead of him. In the midst of the firelight and lightning, a hand suddenly appeared from the space in front of Long Chen, rushed in front of him, held onto that crystal calf in his hand, and then, that hand which carried that crystal calf instantly disappeared before Long Chen's eyes.

This speed made Long Chen a little dazed.

In the blink of an eye, the crystal calves he had painstakingly made were gone.

"Who is it!"

In fact, even without asking, he knew that in this time tunnel, in the Ruins of Time, only the Holy Son of Confusion had such a degree of spatial ability.

Turning his head to look, he saw that on the other side of the Ruins of Time, a few people had appeared. They were Holy Son of Confusion, Fairy Shangyang, mother animal, and Taotie.

Previously, the Emperor Saint Beast had escaped from another direction.

Now, Holy Son of Confusion was the leader and stood behind him like a little woman. mother animal and Taotie were on both sides. One was silent and mysterious, the other ruthless and savage.

His palm was playing with a crystal calf in his hand, looking extremely small and cute. It was the thing he stole from Long Chen's hands that had just traversed through space!

To be able to snatch something from Long Chen's body under these circumstances, this could only be described as being at the pinnacle of abilities. In terms of spatial ability, this fellow surpassed Di Jun and Ling Xi!

However, space was only one of his three rules!

Long Chen was depressed in his heart. In his eyes, this Holy Son of Confusion was indeed harder to deal with than he had imagined, especially at this time.

"Thank you so much. If you were to give this to me, I would have to spend quite a bit of effort to get it myself."

Holy Son of Confusion's voice was very soft, which did not match with his appearance.

On the side, the Taotie laughed sinisterly: "This idiot really thinks she's capable."

Fairy Shangyang said: "Don't underestimate him. He took away half of the things on his own."

Speaking till here, they once again surrounded Long Chen. This was the Holy Son of Confusion's intention, not only did he want to snatch away the kitten body that Long Chen had just obtained, he also wanted to snatch away everything that Long Chen had obtained now.

From the fact that he was able to endure for so many years, he knew that he had to obtain the kitten's true form.

Only after the encirclement was successful did Holy Son of Confusion put away the kitten's original body. Those chaotic eyes looked at Long Chen and seemed to have penetrated Long Chen's body. It seems that you want to snatch it for him. "

He was talking about the kitten.

This Holy Son of Confusion was extremely powerful, it was normal for him to be able to feel the existence of the kitten.

Only, in the heart of this Holy Son of Confusion, he was actually extremely arrogant. When speaking of Cat, although his words and demeanor were nothing, he was actually deeply disdainful in his heart.

In the Living Realm, Cat was angry.

"You dare to look down on cat-lord?"

The Holy Son of Confusion said again: "You all better not be in vain. This thing has nothing to do with you. The person beside you, even if he obtains all of them, it's useless. Because this is not yours at all, but my Holy Son of Confusion's. This is my last word of advice to you. To be honest, I have to thank you for bringing me here. But if you anger me, I don't know what the consequences will be, but you will definitely regret it. "

Long Chen did not speak, but he thought to himself: Now, this guy and I have gotten half of it each. However, the kitten's main body was definitely not limited to just these four legs. I'm the only one who got the two things. If this guy wants everything, then he has to snatch it from me. Now that the most important thing had yet to appear, there was no need to fight here. In the end, he had to find the other parts first.

"Cat, can you feel the position of the other parts?"

The kitten was still fuming when she said, "I don't know."

"I think time tunnel is definitely more than this. We should first search for other layers of space and find more things there. Finally, we can take everything that needs to be taken away from this Holy Son of Confusion. "

"But boss, this guy seems very strong. Are you sure?"

"Right now, he has the upper hand, but before the end, who can be sure who will be the one laughing at the end?"

No matter how much Holy Son of Confusion and the rest humiliated him, Long Chen was very calm. Stealing away the items he had spent so much effort to obtain was depressing, but that was the other party's ability. Now, the Holy Son of Confusion wanted to snatch everything that was on his body, but Long Chen was too lazy to bother with them!

"Long Chen, give those two to me. I can disregard the death of the Thousand Transformation Demonic Lord and the Star Wargod." Holy Son of Confusion said calmly.

"Impossible." Long Chen was equally calm.

"Can't we discuss it?"

"There's no other way. What you want is what I want. There will only be one final victor. "

"Sure." "Then from now on, I won't be polite with you anymore."

In the end, the Holy Son of Confusion's mouth formed a smile.

Chapter 3057 - Mirror of Time

Holy Son of Confusion, Fairy Shangyang, Taotie, mother animal.

Four powerful Hierarchs blocked Long Chen's path from the east, south, west and north respectively.

Although he knew that Long Chen existed in the Life and Death Realms, he still used this method to give Long Chen a huge amount of psychological pressure. It made him feel as if he was running for his life.

"Escape, coward. Isn't this what you often do?" The Taotie opened its huge mouth and laughed unrestrainedly.

They knew that they couldn't take care of Long Chen here, and couldn't take away his belongings. All of this was just to humiliate Long Chen, to let him know the difficulties they were in, and let him retreat.

Holy Son of Confusion didn't speak, naturally he acquiesced to the words of the Taotie.

"I think you should consider what the Holy Son said. The Holy Son has never been so patient with others before." Fairy Shangyang said gently.

The Holy Son of Confusion shook his head and said, "Now I change my mind. Long Chen, I can spare you, but there is one person that I cannot forgive. Hand over that brat who wants to have the same thing as me, and I can let you leave this place alive. "

Four supreme deities, four huge pressure.

Long Chen was too lazy to tell them more. No matter how much humiliation and pressure they created, it would be useless to the current Long Chen. He directly opened the Death Realm's Dragon Gate and said, "Then it's fine. The next time we meet on the battlefield. "

"On the battlefield? It seems like this kid still hasn't seen the situation clearly! " The Taotie looked at Long Chen sinisterly, and said: "Right now, there is not a suitable location, but there is always a position, and you cannot escape. Useless coward, trash, just run. "You cannot escape from the palm of the Son of Heaven."

Although the other three did not say anything, from their eyes and expressions, it could be seen that the Taotie only spoke or spoke what they were thinking. From the very beginning, the Holy Son of Confusion had never viewed Long Chen as an equal opponent, just a rodent rodent.

The surrounding Taotie s jeered at him.

Based on Long Chen's temperament in the past, if he was scolded in such a way, he must take action to get back at them, but now was not the case, he would not do something so meaningless as to vent his anger.

He walked into the Death Realm and closed the doors. He disappeared from the eyes of the four Hierarchs.

After Long Chen left, the mother animal and the rest gathered before the Holy Son of Confusion.

"Holy Son, this Long Chen is running away like a mouse. As long as he has those two life and death realms, we don't seem to be able to do anything to him." The Taotie said with his loud voice.

The three of them were the true core of the Holy Son of Confusion.

The mother animal did not talk much, but at that moment she said: "We need to think of a way to prevent him from entering the Life and Death Realms. As long as he is unable to escape, she will definitely hand over those two. "

Holy Son of Confusion pondered for a moment, then said: "Then think of a way, to make him immobile the moment he appears. I'll leave it to the three of you. I had to find the entrance to the next space, not all of it, except for the four legs, if I guessed correctly. Especially the head, don't let him get it first. "

"Don't worry Son, we will definitely complete this mission! Let that Long Chen rat beg for death! " In order to gain merits, the Taotie immediately accepted this matter.

"Alright, let me rest assured."

Without further ado, the Holy Son of Confusion entered the Ruins of Time, searching for the next spatial entrance.

He could roughly sense that everything on the Ruins of Time had been found.

Because there was a time difference between the Life and Death Realm and the outside world, Long Chen could not stay inside for too long.

As soon as he entered, he came out from the other Death Realm's dragon gate.

"Long Chen, I feel that after this time, they will definitely think of a way to break through your life and death situation. What should they do?" Li Xuanji asked in a low voice.

Long Chen began to move quickly, saying, "We'll use the force to parry the attack, and we'll use the force to parry the attack. They're looking for the right opportunity, and so am I. "Don't worry, I know what I'm doing."

Hearing what Long Chen said, Li Xuanji and the others were relieved.

This time, the thing was snatched away by the Holy Son of Confusion. Although Long Chen did not say anything, he had never suffered such a loss. Fighting wasn't something that could be described with just words.

"Boss, this is so infuriating!" "You have to work harder. Once I recover my strength, I'll capture these two demon clan members. I'll be the king of this demon clan, haha!"

The kitten soon began to daydream.

Long Chen was currently using the power of the laws of time and felt the entire Ruins of Time. If there really was an entrance, it must be related to time, so he might be able to gain some clues.

"Cat, can you feel the position of the other parts?"

The kitten calmed down and suddenly said excitedly, "I can feel it when you say that. However, it's a bit blurry. Around this direction, there might be an entrance. "

Long Chen quickly followed.

Right now, two days had passed, and it had been sixty years since they had last seen the outside world.

There was no time to lose.

Deep in the Ruins of Time.

In a deep space, it was very quiet, not a single sound could be heard.

Just as the silence reached its peak, a few people appeared. They were the Holy Son of Confusion and the rest. There were a total of eight of them, with the exception of Thousand Transformation Demonic Lord and Astral dragon, the rest were all gathered here.

"Judging from the trajectory of time, it should be below here." Holy Son of Confusion led the group and entered an abyss. There were many small rooms within the abyss, and finally, the Holy Son of Confusion stopped in front of one of the broken rooms.

Entering this narrow room, the eight Hierarchs felt a bit crowded. The Taotie walked beside the Holy Son of Confusion, looked around and said, "Holy Son, there's nothing special about this place. How could it be the entrance to the next space?"

The Holy Son of Confusion was not angry, he just smiled, then walked to the front of a wall. With a light brush, the dust on the wall fell, and a mirror appeared on the wall.

"This mirror? "How strange."

When the mirror appeared, everyone understood. Although they were laypeople, they could still see the power of time on the mirror. Standing in front of the mirror, what they saw were eight children.

Yes, that was how they looked when they were young.

They had even forgotten that they had once been in such a state.

"This is us?"

Everyone was stunned.

In the mirror, he actually took a look at them.

It was like a reversal of time.

Luckily, he lowered his head and looked at himself. He was still in his original state.

"Follow me." Holy Son of Confusion laughed lightly, he went ahead and entered the mirror. When his feet touched the mirror, it started to ripple, and not long after, the Holy Son of Confusion disappeared.

"We can really go in!"

The other Hierarchs all sighed with emotion.

Then, in a hurry, they all followed.

After a while, there was no one here anymore.

Long Chen stood in front of a mirror.

This mirror floated amidst the gray clouds. If one did not search carefully, one would not be able to see it.

In the mirror, Long Chen saw his own appearance when he was young, about eight or nine years old. It was a dirty child, but there was a deep sense of wildness hidden in his eyes even though he was young.

Long Chen looked at him, and he looked at Long Chen as well.

That gaze, it was as if he did not recognize Long Chen.

Not much time left, Long Chen hurriedly stepped into the mirror. A ripple flashed and Long Chen disappeared from the Ruins of Time.

In the blink of an eye, he appeared in another region. This region wasn't very large, but it was also a region of gray chaos. The surroundings seemed to be sealed, and this sealed space was precisely the mirror Long Chen had seen outside earlier.

As Long Chen stood there and looked in the mirror, he could see his own reflection everywhere. Of course, he looked to be about ten years old.

The six mirrors reflected thousands upon thousands of themselves.

"Here?" Long Chen looked around, he was sure that this was not the second place he was going to. This place was like the inside of that door. Only by going out from here could one possibly reach the second place.

The question is, how do we get out of here?

"Could it be that I have broken the mirror?"

It seemed that this mirror was easy to break.

Long Chen took away the Spirit Demon Blood Curse, and with a casual slash, the sword aura struck a mirror, but the mirror was like water, it rippled and the force rushed into the mirror, quickly recovering without the slightest bit of damage.

A power on the level of Hierarch wasn't even able to damage the mirror.

"This mirror seems to exist, but it doesn't. I am trapped here, but as long as I attack, it will seem as though it has disappeared, and I will be able to strike at an empty place. "

Long Chen used the Ghost Blood Curse to block against one of the mirrors.

The mirror was very hard.

In the mirror, the young man was also holding onto the Ghost Blood Curse, stabbing it towards the mirror. His young face had a wild look, making him look very strange.

The Ghost Blood Curse couldn't penetrate it, but as long as it was a force, it would pass through it in an instant.

Of course, it was also impossible for Long Chen's body to pass through.

"That's strange. How could this thing be broken? Could it be that we still have to test the rules of time? "

The speed to reach the second place was equivalent to the time taken for the other parts of the kitten's body, so right now, they were running around in a race against the Holy Son of Confusion. He had even reached the world inside this place, and whoever could break through this place faster would be able to obtain even more things!

What should he do?

Long Chen asked Li Xuanji to come out. Beside Long Chen, Li Xuanji was a little girl who was ten years old.

Even Li Xuanji was the same.

For a moment, he seemed to have no other choice, staring long and hard at the mirror, lost in thought.

"You can divert your thoughts for a while, but there is a possibility that there might be a way. Don't limit yourself to what you see in front of your own eyes. " Li Xuanji looked at him and said softly.

"You have a way?" Long Chen asked.

"No, but you will."

Chapter 3058 - Destiny's Killing technique

In the mirror of time, was Long Chen's past.

In that tiny eyes, one could see her thirst for power.

It was not only this mirror, all of the mirrors had the same scene, no matter what Long Chen did, the other party would also do the same.

"What should I see?"

"Time?"

The time here was not the time in the Ruins of Time. It was actually on the same level as the Life and Death Realms and also on the same level as the entire Ten Thousand Worlds.

It was good that he did not have to worry about the time passing too quickly outside, but what he worried about was that the Holy Son of Confusion would find a new way out even faster than him. Then he would be placed in a very passive position.

"Do I have to use the corresponding time rules to break this mirror?"

After he thought of this, Long Chen began using the first time rule and used it all the way to the Void Heart.

But no matter what rules he used, or even if he used them to the limit, there was no movement at all.

"If even the slightest movement is feasible, I can already feel if it is the same rule. But from the beginning, no rules seemed to have any effect. Clearly, it is useless even if you are to use your full power. "

It was a corresponding error, not a lack of one.

"What a headache."

This was the time tunnel, the power of time was useless, what could they do?

Could it be that there was a way of moving through time that he did not know about?

As he thought about it, his mind was still in a state of confusion.

During this time, Long Chen had tried many different methods, and basically, he had used all of the methods that he could think of on them. However, it was to no avail.

Very quickly, ten days had passed.

In ten days, there was no harvest at all.

"If the Holy Son of Confusion had reached the second place, he would probably have obtained all the other parts by now."

Thinking about it carefully, Long Chen suddenly stopped worrying.

"It's hard for me, and it must be hard for him, and even harder for him. But if he had it all now. However, he was unable to gather all of them. In the end, he still has to snatch them from me. "

Only having a part gave him the right to take the initiative.

When time passed and his mood relaxed, Long Chen actually let go of him.

He did not rack his brain to think about it. Instead, he relaxed as he looked at the mirrors. Looking at his past self, just like that, Long Chen saw a kind of wondrous feeling from his eyes, from his body, and from his actions.

"Life, me and him ... he is me, I am him, but he is me and he is not me. I might not be him either. There's only a gap of so many years between us. "

In so many years, under the guidance of fate, Long Chen's journey had been filled in. It had created everything he had now.

He reached out and touched a mirror.

Within the mirror, the young Long Chen also reached out his hand and touched the mirror, his two hands touching each other. What Long Chen felt was not the iciness of the mirror, but the warmth of the opponent's palm.

Wonderful.

When one didn't have to rack one's brain to imagine, but to experience and feel, that wondrous feeling quickly appeared before one's eyes.

"The Great Void Heart is actually a fusion and transformation of the time and speed up the process."

And in this warm little palm, what Long Chen felt, was naturally the power of time. It was a kind of reverse flow of time, a reverse flow that went back many years, to when he was still a rebellious child.

Among them, besides time, Long Chen also felt another kind of power.

If one looked carefully, this was a line that led Long Chen's time from the past to the present. It connected all of Long Chen's experiences together, in short, it was the needle that guided the Long Chen of the past to the present.

"This is fate."

To see the power of destiny in time was truly an inconceivable matter.

Long Chen had focused all his attention on the power of time previously, and never paid any attention to the power of destiny.

"Time and destiny. These two rules, can they still be reflected in one of these rules?"

Long Chen suddenly had a strange thought.

Then, after thinking for a while, he asked himself, "Why not?"

In the entire Myriad Realms, Fiendgods might be able to fuse the two types of laws, and there might even be people who had been able to do so. It was just that there was a difference in the depth of their fusion. Without a doubt, after fusing, the natural laws would become even more powerful, but the difficulty of fusing them would be too high.

Long Chen's Void Heart was a fusion of two different types of Time Laws, and was extremely perfect.

But now, he thought of another possibility.

"Time and time can overlap, but why can't time and destiny do the same?"

The reason why this type of technique rarely existed in the Allworld was that the higher the level of the natural law, the more unique it was, and the harder it was to fuse it. For example, time and fate were like this.

At the very least, Long Chen had never seen this kind of fusion from a top-notch Hierarch. On the contrary, this kind of fusion did exist on the bodies of the weaker gods and devils.

This gave Long Chen a new vision and a new path.

"Time, fate."

An unprecedented attempt.

In the past, Long Chen had only tried to comprehend the rules of an Ancestral Dragon, and had never tried it together.

So this time, he was also opening up a new path for himself.

There was no nervousness, only excitement.

When he used a type of excitement to comprehend the rules, it seemed as if the entire starry sky was lit up, the sky was filled with stars, and it was full of rules. Long Chen only needed to pick one out from there.

The ocean of laws was endless.

In Long Chen's eyes, there was only the old him.

His eyes, his expression, everything in his mind

Time and fate were dominating this person.

In his body, time and fate were perfectly fused.

Time quietly passed, but Long Chen seemed to not care about it anymore. A new and shocking natural law was descending. In the underworld, he had already made preparations to welcome them.

At this moment, he closed his eyes, reached out his hand, and made a gesture of a hand blade. The power of time and destiny flowed around him, as if two small dragons were circling around him. One was illusory and transparent, while the other was pure white.

Two small dragons coiled around Long Chen's arms.

"Time Reversal, Destiny's Slaying!"

Time was like water, fate was like a blade!

On the Great Void Cosmic Dragon's primordial spirit, the two types of Dao Seals were quickly glowing, and even moving. At a certain moment, the two Dao Seals had actually fused together, of course in an instant, but just at this moment, everything suddenly became clear!

Long Chen was enlightened.

In that instant, the blade in his hand cut down on the mirror in front of him, and the blade in his hand directly slashed into the mirror, landing on the child's body. Finally, the child in front of Long Chen disappeared into the mirror.

When Long Chen's figure from before disappeared, the mirror also gradually disappeared, which meant that Long Chen had already succeeded. Not only had he broken the barrier here, but he had also comprehended an unprecedented rule.

Time and fate, the rule of perfectly fusing together!

This had opened up a new path for Long Chen. In the future, as long as he had an idea and a fortuitous opportunity, he would definitely be able to comprehend more fusion rules.

This was a step by step transformation. The most important thing was that it surpassed every single ancestral dragon! This was because every Ancestral Dragon only knew one type of rule, and it was impossible for a single type of fusion to occur within their bodies, but exactly because Long Chen had obtained the inherited blood essence of six types of Ancestral Dragons, and also possessed the foundation of fusion, the fusion process was able to give birth to an unprecedented set of rules!

Amongst them, there was definitely the effect of the Mysterious Dragon Jade.

This newly born rule did not belong to any kind of Ancestral Dragon, but it could be considered Long Chen's own rule. A large part of this was created by him, and not directly passed down through his ancestors.

And, Long Chen could even give this rule a name of his own accord.

"Just call it: Destiny's Killing technique." To give a name such a headache, of course it would be for the best.

In the Destiny Killing technique, the key point was to cut off a line of fate. The function of time was to pave the way and complement each other.

In Long Chen's heart, there was already the outline of the Destiny Killing Technique. As long as he tried it a little, it would definitely have an unprecedented effect.

The key now was, what would he encounter if he left the space surrounded by the mirror?

The surrounding mirrors were disappearing, and he could roughly feel that he was about to enter another space.

The Ruins of Time, ten thousand times slower.

In the mirror, time was equal to ten thousand worlds.

As for the space Long Chen was currently in, time suddenly accelerated, and the difference from the outside world was probably ten times or so.

Looking around, they could see that they were in a building, or rather, a sealed space. It was just that this sealed space was too large. If the Taotie was in this space in time, it would be like a fly in a normal room.

And Long Chen was just like the dust inside.

"Tower of Time!"

Having just arrived here, Long Chen had a very deep understanding of this place, and this recognition suddenly appeared in his heart.

"I am now at the first level of the Tower of Time. The Tower of Time had a total of four floors. The first level's time flow was ten times faster than the outside. The second level seemed a hundred times larger. The third level is 1000 times, and the fourth level is naturally 10,000 times! "

In this new territory, there must be other parts of the kitten's body. Now was the time to start searching. Every second counted.

However, what made Long Chen feel threatened was that on the first floor of the Tower of Time, there were a few characters that made Long Chen depressed. He noticed the other party almost at the same time as the other party.

Looks like they arrived before Long Chen.

Aside from the Thousand Transformation Demonic Lord and the Star Region War God, the other eight Hierarchs, with the Holy Son of Confusion at their head, were all standing not too far away from Long Chen. Within this sealed off space.

Chapter 3059 - Fury of the Emperor

They met on a narrow path!

The Tower of Time s, from the first level to the second level, only had one passageway. It was a narrow passageway at the very top and the very center.

And now, this position was being taken by the Holy Son of Confusion.

It seemed like they had only just arrived.

As long as they held onto this position, it would be difficult for Long Chen to break through to the second floor. That's for sure.

Long Chen didn't know how they came to this place. Maybe they met with the mirror of time, or maybe they used some other method to break the mirror!

However, to be able to come here proved that they were not simple.

"You can actually come out from the space in the mirror by yourself?" The Holy Son of Confusion looked down from above, and a group of people looked at Long Chen with contempt, and every single one of their faces were filled with surprise.

Evidently, they had gone through the same trials as Long Chen, and had expended a lot of effort.

"That's right, you also possess a Creation Divine Artifact with the primitive level." Then, the Holy Son of Confusion seemed to have understood something. The surprise on his face finally disappeared and turned into indifference.

After being entangled with Long Chen for such a long time, he was starting to get impatient.

At this time, they were preparing to enter the second floor of the Tower of Time.

Obviously, the best and most important thing would be at the last floor of the Tower of Time.

Holy Son of Confusion looked at the Taotie and the mother animal, and said: "This is the mission that was previously assigned to you, I believe you guys have already prepared it. I will set up an interception

in this passage and let him take at least fifteen minutes to break through. As long as you all do not die in battle, he will not be able to reach the second floor of the Tower of Time. "

Long Chen squinted. They had a large number of people and they were in a favorable position, if Long Chen arrived earlier, he would have arrived at the second floor and then later, he would have taken the initiative. But now it was troublesome.

Hearing the Holy Son of Confusion's words, the Taotie's eyes burned with passion. With a sinister look, it roared, "Don't worry, Son. If you don't deal with this fellow, I will bring my head to meet you!"

They occupied the position of the tunnel. After the Holy Son entered the second floor, he would seal the tunnel even further. If Long Chen did not take care of these opponents, it would be impossible for him to enter the second floor. Of course, Long Chen knew that the Holy Son had also underestimated him, he wouldn't necessarily take fifteen minutes.

I have already created such good conditions for you. If he is allowed to reach the second floor or even catch up to me, then there will be no point. I want you guys, there's no use. "Just kill yourselves and apologize."

Hearing the words of the Holy Son, the Taotie became even more fanatical.

"Shang Yang, follow me."

The Holy Son of Confusion gave one last indifferent look to Long Chen, and without further ado, he brought the Fairy Shangyang up to the second floor of the tunnel. He knew that Long Chen was proficient in the laws of time, so he used the laws of space to set up obstacles. As long as this one rule still existed, even though Long Chen could break it, as long as he couldn't instantly break it, the Taotie and the rest could not even reach the second floor.

After the Holy Son of Confusion left, at the first level of the Tower of Time, only Long Chen and the six Hierarchs were left standing, facing each other tit for tat.

The six Hierarchs mainly consisted of Taotie s. Emperor Saint Beast, Cosmic Sea Deity Beast, Gou Chen, Demon Sovereign Bai Ze and the others surrounded the surroundings. mother animal were left near the passage to block the passage, preventing Long Chen from going up.

"Are you trying to kill me like how you killed Thousand Transformation Demonic Lord?" Long Chen laughed.

Facing their aggressive approach, Long Chen knew that he had to end this battle quickly and it was a ferocious one, but he didn't panic in his heart. What he had in his heart was an intense fighting spirit that could allow him to surpass his limits!

Battle will!

Speaking of the Thousand Transformation Demonic Lord, the Taotie and the rest were even more furious.

A fierce battle was unavoidable. Most importantly, the Holy Son of Confusion had already gone up. Who knows what he'll get up there? Right now, there was no one stopping the Holy Son of Confusion, he could easily obtain the bodies of the other kittens. In this kind of situation, the only way was for Long Chen to defeat everyone here, in order to have the chance to compete with him!

"Big brother, let's go together." Even though it's dangerous, it's still possible to share one or two opponents for you. " When Mo Xiaolang just recovered from the last battle, he was already a little impatient.

This time, Long Chen rejected her.

He calmly said, "I'll do it myself. I have the Primordial Dragon Pagoda, and they can't hurt me. It would be more convenient for me to control the Death Realm by myself. This battle was different from the last one. He would definitely win last time, but this time, he was going to go all out. "Since I'm going all out, it would be more advantageous for me alone."

did not need to explain it too clearly, Mo Xiaolang, Ling Xi and the others all knew what he meant.

If they were to fight alone, it would definitely be much more convenient. If Ling Xi and the others were to fight, they would be able to suddenly restrain their opponents, but the danger was too great, and Long Chen was afraid that he might not be able to take them into consideration.

"Well, you must be very careful." Although Ling Xi said this, he couldn't conceal the worry in his heart.

"Daddy, you can do it! Beat these bad guys! "Yan'Er is cheering for you!" In Ling Xi's arms, her dragon face was gradually growing, and her human form could now speak as well.

"Alright, Yan'er, watch carefully."

With so many people supporting him, even a battle to the death was nothing!

When the Taotie and the others were at their most furious moment, Long Chen stood in front of them like a peerless god of death, cold and indifferent. She indifferently took out the Ghost Blood Curse and held it in one hand while a shadow of the Dragon Pagoda gradually appeared in the other.

His imposing manner, divine might, and defense had all reached an unprecedented level!

Facing the suppression from the Taotie, Long Chen's first move was actually to escape!

That's right, he used his maximum speed and turned around to escape!

"This trash has escaped again! Catch up to him! "

The Taotie roared and transformed into its original form. The gigantic Taotie was leading the Emperor Saint Beast, Qu Chen Liu star beast, White Swamp Demonic Beast and Cosmic Sea Deity Beast as they chased after Long Chen like a huge team of demon beasts.

"Catch him!"

"Not really. Why did you escape now! "

"What a ridiculous person!"

Under their pursuit, Long Chen remained expressionless. In fact, every time he landed in a position, he would plant a Death Realm Dragon Gate. He moved very quickly, like a speck of dust in a room.

The process wasn't long, because Long Chen's speed was simply too fast!

With the support of the Primeval Dragon Pagoda, the five Hierarchs did not manage to catch up to him. Only the mother animal still hadn't moved from its position near the tunnel.

These eyes were colder and colder. Even though she was standing guard there, she was constantly watching Long Chen, and it was clear that she was even more terrifying than the Taotie.

For approximately half an hour, Long Chen did not confront the six Hierarchs directly.

Under the insults of the six Hierarchs, it was as if he did not hear anything.

But in reality, Long Chen's footsteps had covered the entire first floor of the Tower of Time and for the next shocking battle, he had already made the best preparations!

"So it turns out that Long Chen, whose name is renowned throughout the world, is really this kind of trash who doesn't even dare to make a move!"

"We might as well call him a super trash!"

The Hierarchs couldn't help but laugh. Now that they had so many people, they weren't worried at all. Let alone Long Chen, even the Four Great Overlords would have a headache from such a lineup.

"If Long Chen accepts the challenge, we'll kill him."

"If he escapes into the Death Realm, we can stabilize him and prevent him from going up to the second floor."

"That thing can only belong to the Son of God!"

It was finally the final moment.

Long Chen observed for a while, and it seemed that the entire first floor of the Tower of Time had already been planted by him, the Death Realm Dragon Gate. It was time to demonstrate his prowess. At the same time, this was also the moment where the opponent was the most lazy.

At that moment, when Long Chen was rushing forward, he suddenly disappeared from the eyes of the Taotie!

"Where is he!"

The Taotie's huge body also blocked the other Hierarchs' senses. The moment Long Chen disappeared, as if he had teleported, Long Chen suddenly appeared in another location!

When he appeared again, Long Chen had already climbed to the peak. Blood light soared to the sky, and after reaching the half-primitive level, the power of the Ghost Blood Curse had increased by at least one fold.

"Whiz!"

Long Chen appeared behind the Emperor Saint Beast!

This Emperor Saint Beast had battled with Long Chen many times, so when Long Chen appeared, he naturally felt it. Amongst this group of people, he was also the one who feared Long Chen the most, the Hierarch!

What he felt, was Long Chen's overflowing killing intent!

The killing intent of the Primordial Blood Spirit Dragon!

In Long Chen's hands, the Ghost Blood Curse still fell to the ground and was still the Death Realm's Killing technique!

Bloody light shot up into the sky, and a sea of blood filled the air.

The entire sea of blood gathered onto Long Chen's sword.

From between his brows, the Death Realm's core was shining with a bright light!

"The Death Realm is killing us!"

Looking at the endless sword light, the Emperor Saint Beast was shocked, thinking of the death of the Thousand Transformation Demonic Lord, its fighting will rising, its gigantic divine body shining with a golden light, the lion's mouth opening at that moment!

"Wrath of the Emperor!"

A rule!

The rule of a voice, the unprecedented Lion's Roar, exploded in the Emperor Saint Beast's mouth, forming a force that shook the heavens and earth! Her target was not only Long Chen, but the entire world!

This was an opportunity that Long Chen had created to fight the Emperor Saint Beast alone.

Chapter 3060 - Consecutive slashes

A destructive sound wave!

Amongst the Tower of Time, five super huge demon beasts were chasing after Long Chen, but they did not expect Long Chen to suddenly disappear from their sight. With a flash of blood, he appeared right behind the Emperor Saint Beast.

Naturally, the distance that didn't seem very far was due to the size of the Divine State level demonic beast. It was also tens of thousands of kilometers away.

The Emperor's Wrath of the Emperor Saint Beast exploded like a bomb, causing the entire Tower of Time to tremble. The scene was akin to a tiny fly roaring suddenly, causing the entire room to tremble.

However, the speck of dust in front of him shot out a hundred thousand meters long divine light, which condensed a sea of blood above his sword. The sword qi wreaked havoc, and without any obstructions, it directly slashed down onto the top of the Emperor Saint Beast's head!

Pfft!

The monstrous sword light split apart the lion's head, and a bloody light shot out for 300,000 meters!

The Emperor Saint Beast's roar came to an abrupt end.

In the sea of blood, the Emperor Saint Beast that was separated stared blankly at the tiny speck of dust in disbelief.

He had originally thought that the wrath of the Emperor would be able to force Long Chen to stop before Long Chen could hit him, but he did not. The fury of the Emperor, which was the most berserk of all, was able to shake an entire world of billions of lives until they became deaf, not even a hint of it was able to make Long Chen stop.

Long Chen was as cold and indifferent as iron, the sword qi spread out for thirty thousand miles!

In fact, it was not because his Emperor's Fury could not be used, but because the rules could not penetrate the protection of the Primeval Dragon Pagoda. Therefore, Long Chen was practically unharmed, and he directly inflicted heavy injuries on the Emperor Saint Beast with one move!

This was not the end!

In that short moment, Long Chen waved his sword and struck out ten more times, every sword was as fast as lightning, the speed of time was terrifying, the ten time swords slashed out ten more deep wounds on the Emperor Saint Beast's body!

"Awoo!"

The Emperor Saint Beast was heavily injured, and under such circumstances, its head was split into two, thus it was difficult for it to maintain its original form, it directly transformed into a human form, falling down from the sky. At such a high altitude, no matter what it fell down, it would shatter!

"Roar! Roar!"

Other than the mother animal, the other Hierarchs had all rushed back as fast as they could. It was just that Long Chen had long anticipated their movements, so after heavily injuring the Emperor Saint Beast, Long Chen didn't stop at all. With a cold laugh, he directly opened the Death Realm's Dragon Gate, and disappeared into the empty space!

"Bang, bang ~ ~ ~"

As soon as Long Chen disappeared, the opponent's attacks immediately flocked over. Without exception, all of them hit empty air.

For a moment, the Tower of Time became empty.

The Emperor Saint Beast landed in the Taotie's huge claws, making it difficult for it to participate in the battle.

Looking at the Emperor Saint Beast's miserable state, the Hierarchs were so angry that they trembled.

"Be careful, don't let this guy take advantage of us."

"He wants to destroy us one by one."

"Don't let him succeed."

"Holy Emperor will rest first."

The Taotie's blood-red eyes looked around at their surroundings. After going through a lesson, their arrogance from before was quickly defeated, and now all of their faces were red and swollen.

"If I catch this coward, I will definitely turn him into a blood powder!"

Just as he finished speaking, Long Chen appeared not too far away from them.

Although time was running out, this was not the time to be in a hurry. The opponent's strength was still quite strong. The faint smile on Long Chen's face was the greatest provocation!

RUU!

The Taotie said that they had a way to deal with Long Chen, but in reality, they were not prepared at all. According to his thinking, Long Chen was not one of the Four Great Chief Sovereigns, so how could he block the attacks of the six Hierarchs?

With the Taotie as the leader, Yun Che led the group of Spirit Demon Sovereign, White Swamp Demonic Beast and Cosmic Sea Deity Beast as they came together in a powerful and majestic formation, surging forth with power. Unfortunately, without saying a word, Long Chen entered the Death Realm and when he came out again, he had accurately appeared behind the Cosmic Sea Deity Beast.

He had not recovered from the serious injury he had suffered to Long Chen last time.

Most importantly, the shadow in his heart had yet to disappear.

Long Chen appeared even more powerful and ferocious this time. The moment he appeared, the Ghost Blood Curse pierced downwards, and at that moment, a gigantic green vortex appeared behind him. The swirl of life energy was even larger as it swirled, at least ten times larger than that of the Supreme Ocean God Beast!

"Life Calamity and Death Tribulation!"

Even the blood-red Ghost Blood Curse turned dark green in an instant.

The Ghost Blood Curse pierced the head of the Cosmic Sea Deity Beast with its sword. This time, the supreme Sea God Beast was unable to resist at all and was directly devoured by its life force. Its entire body withered like a plant, turning into a withered old woman that miserably fell down!

Clean and neat!

A sword strike to destroy a Hierarch!

It was like killing a man with ten steps, unstoppable for a thousand miles.

After taking care of the Supreme Ocean God Beast, Long Chen returned to the Death Realm before the other Hierarchs returned.

This was the result of him fleeing after the Taotie and the others for such a long period of time. This was the moment he had been waiting for.

Of course, Long Chen had not cut off the lives of the Supreme Ocean God Beasts and Emperor Saint Beast yet. This could be considered as leaving a bit of leeway. After all, trillions of years of cultivation wasn't easy. He and the Holy Son of Confusion had not yet become enemies to this extent.

"The second one!"

Long Chen's indifferent and contemptuous voice once again spread throughout the first floor of the Tower of Time, causing the remaining four Hierarchs to go crazy with rage. Especially the Taotie, he was the one leading this group. All the humiliation they had suffered right now was like a slap on his face.

Pah pah pah!

All the words they had said to despise Long Chen just now had turned into a slap on their own faces.

When Long Chen once again appeared before the Taotie, the Taotie remembered the boastful words that it had said before the Holy Son of Confusion and the request of the Holy Son. The anger and hatred in the Taotie's heart was simply like the eruption of billions of volcanoes, as though billions of thunderbolts had exploded out horizontally, and its eyes were burning with blood-red flames.

"Tao Tie, if you can't do it, then you'll have to stand guard here and save face for the Holy Son." The mother animal spoke very little.

"You can't! Within half an hour, I will make this Long Chen's body into pieces, tear him into a thousand pieces, and destroy his entire body! Just watch! "

The roars of the Taotie shook the entire Tower of Time, it was no less than the fury of an Emperor. Presumably, even the Holy Son of Confusion above the Tower of Time could hear the roars.

Long Chen pointed the Ghost Blood Curse at the Taotie and laughed, "Between us, it is very clear who is the trash. It's not over yet, you have nothing to worry about. "

BOOM!

The Taotie brought the last two of them, the Chen Liu Star Beast and White Swamp Demonic Beast, with the three of them forming an iron triangle, guarding the surroundings at all times.

The three used the Taotie as their attack point and the other two as their support. They were constantly paying attention to their surroundings to prevent Long Chen from suddenly appearing. Long Chen's attack was too powerful, they had no choice but to be vigilant!

Long Chen took a deep breath, the battle was going to start soon! The Death Realm's Dragon Gate, Dragon Pagoda and Ghost Blood Curse were all his weapons!

"You want to block me? The problem is, can you block me?!"

Long Chen laughed out wildly, shuttling between the Death Realm and the Tower of Time. The other three had no idea where he would appear at. When the three of them were extremely nervous under Long Chen's attacks, Long Chen suddenly appeared. This time, unexpectedly, he appeared right in front of the Taotie, facing off against it!

From the three Hierarchs' looks of it, Long Chen was definitely looking to bully the weak.

However, Taotie were the hardest of them all!

If he were to take it head on like this, then he would be acting recklessly!

This time, it was the rule of time. When the Ghost Blood Curse was pointed to a certain direction, time immediately came to a standstill, and in this stillness, even the Taotie was no exception. They were frozen in time by Long Chen, while the gigantic demonic beast remained motionless in the air, before the endless power of time acceleration came!

Shua shua shua!

"Scram!"

The Taotie was furious, and fought against the power of time with incomparable ferocity!

While the Taotie was battling against time, Long Chen had already reached the side of's star beast and the White Swamp Demonic Beast. Gou Chen Liu Star Beast and White Swamp Demonic Beast were very nervous in their hearts. Indeed, at this time, Long Chen immediately appeared in front of them.

Time seemed to have stopped for an instant!

In the next moment, an intense battle erupted!

He basically used the rules of Chen Liu's star beast and White Swamp Demonic Beast at the same time.

The six dark stars in the pair of eyes of Chen Liu Star Beast shone with a terrifying light as they projected six stars in the sky.

The White Swamp Demonic Beast was an auspicious beast, and was the complete opposite of the [Gou Chen Liu Star Beast]. When the [Gou Chen Liu Star Beast] completely released its dark and deathly silent power.

The White Swamp Demonic Beast, on the other hand, used the rules to release endless auspicious light, as though there was a pure white star that released a boundless radiance and the Six Star Disaster Formation diagram of the Chen Liu Beasts.

"Six Star Disasters Light!"

"The Light of Aphrodite!"

At the same time!

The two peak Hierarchs naturally gave Long Chen an enormous pressure, and the Taotie was constantly struggling to free itself from the Great Void Heart. The three of them were about to converge together!

However, his expression did not change!

Suddenly, Li Xuanji appeared on his body. As her beautiful figure danced, the Heaven's Sacrificial Spear in her hand was thrust forward. The dark green vortex that was the Living Realm's killing move enveloped Long Chen within, and at the same time, she was directly clashing with the two Hierarchs head on!

Of course, after finishing one move, Li Xuanji quickly fused into Long Chen's body, becoming a part of him.

After Li Xuanji, Long Chen had already used all of the power of the Primeval Dragon Pagoda to condense them onto the Ghost Blood Curse. After the Living Realm slaughtered, the Death Realm's slaughter, under the overflowing sea of blood, quietly erupted.
