

War God 3091

Chapter 3091 - Troll Envoys

The battle between Long Chen and Shen Jun was very similar to the battle between Li Xuanji and the Tianyin Region Lord. Basically, after two moves, the opponent was defeated and had no strength to fight back.

With this battle, at least within the Northern Star Domain, Long Chen's reputation would once again soar, and he would surpass the imaginations of the other Gods. It would not be an exaggeration to say that it would cause a sensation in the entire Ten Thousand Worlds. Long Chen relied on his various battles and deeds to consolidate his position in the Ten Thousand Worlds.

At present, the Divine Jun was bowing his head, and the Divine Demons and other living beings of the Realm of the Great Desolate Emperor did not dare to move as well, as they looked nervously at Long Chen and the Divine Jun. She was afraid that Long Chen would accidentally cause his godly figure to fall.

Under Long Chen's suppression, Shen Jun was unable to pass the stalemate, and in the end, he still chose to compromise. However, at this moment, he was no longer worried about death. This also showed that he had someone to rely on!

"It's not that you're not curious to the end. Since that's the case, then I'll give you a reason that you can't kill me." Do you know, the Ancient Demonic Dragon Tomb is a place! "

"Ancient Dragon Devil Tomb?"

Long Chen squinted his eyes because he had heard of this place before.

Chaos demons had once spoken of this place.

"From your expression, it seems you know. I heard that you must have met the Chaos Demons back when the Pangu Continent was in chaos. It wouldn't be strange if you knew about this place. "

Long Chen did indeed know this place's name from the Chaotic Demon's mouth, but the real reason why he knew this place was from the Heavenly Demon's mouth.

"You know the ancient tomb of the Dragon King, so what?"

Long Chen's Ghost Blood Curse was not relaxed at all.

Shen Jun smiled and said: "Truth be told, with your personality, if it wasn't for the reason that you are truly afraid, you wouldn't have let me go. So, listen carefully. There is a place called the Dragon Demon Ancient Tomb, where there are as many Ancient Giant Demons as Myriad Realm Gods. Even Supreme Divine Gods and Ancient Giant Demons are about the same as Myriad Worlds! I once broke into that place. "

Today's matter had already exceeded Long Chen's expectations.

He had only come to seek justice for the Eastern Flower Great Emperor, so he naturally did not know that it would involve the Dragon Demon Ancient Tomb, much less that Shen Jun had visited the Dragon Demon Ancient Tomb. "So what?" Long Chen asked.

"There are so many archaic Giant Demons here that are comparable to Myriad Realms Demons. Once they arrive at the Myriad Realms, they will cause a great war. They will be able to exterminate myriad worlds and extinguish trillions of lives. Aren't you surprised? "

"It's just a one-sided story. I might not believe it."

"All right, but I think you'll believe it. I will continue, that's right, I accidentally entered the ancient tomb of the Dragon King, alerting one of the supreme experts, who had the power to easily suppress me. When he discovered me, he naturally defeated me, but he didn't kill me. and signed a 'Troll Contract' with me instead. "

It had been a long time since he had heard of this term.

Heavenly Demon Ji had always relied on the Giant Demon Contract to subdue him.

He never thought that he would actually sign a Giant Demon Contract. Thus, the fact that he could transform into an ancient Giant Demon Emperor was explained. The Heavenly Demon Primordial Era had said that after signing the Giant Demon Contract, one would become an ancient Giant Demon. Thus, the true identity of a handsome god was actually an ancient Giant Demon.

He even knew about the Giant Demon Contract, and Long Chen knew that everything he said was true. Of course, he still displayed a skeptical attitude and asked, "That's why you were able to become an Emperor Devil. However, what does that have to do with whether I'll kill you or not?"

"If you kill me, you will definitely regret it! What's important is that, if you force me, I will sacrifice everything and burn my life as the price to open the ancient tomb of the Dragon and Demons, and wake up the billions of ancient Giant Demons, allowing the billions of ancient Giant Demons to descend onto the ten thousand worlds and destroy ten thousand worlds! If the ten thousand realms were grassland and we were sheep, then the archaic Giant Demons would be jackals. If they swept across like this, then the ten thousand worlds would no longer exist! "

His voice was loud and excited, full of menace. He finally allowed Long Chen to understand all the meaning behind his words.

After he finished speaking, Shen Jun began to laugh loudly. He said a bit crazily, "I don't wish to sign the Giant Demon Contract. I definitely don't wish to transform into an ancient Giant Demon either. You can treat me like a poor man. I'm the same as you. I even have the people of the Realm of the Great Desolate Emperor behind me, so I don't wish for them to be exterminated by the ancient Giant Demons. This is the only thing I can resist from the Giant Demon Contract, and that is to preserve my humanity. But, if you force me into a corner and don't give me a chance to live, then I can only choose to die here and let the entire world accompany me in death! "

Looking at his twisted smile, Long Chen remained calm from beginning to end. After hearing everything, he had a rough idea what had happened. However, there was one thing he was doubtful about. Thus, he asked, "Then the last question. What does that have to do with Great Emperor Donghua?"

Shen Jun laughed and said: "In fact, it's just a small matter. He went to the entrance of the ancient tomb and went a little deeper, although he came out very quickly, he doesn't know what's inside, but I cannot let him leak out that place, otherwise, if he goes in more, there will be someone who will wake up those sleeping devils."

"Long Chen, don't force me. I just want to live a peaceful life. I don't want to give up the world at all. Don't let me take the blame. " At this time, Shen Jun was incomparably sincere as he solemnly said that he had been freed from his madness.

"Are you done talking?"

"What do you think?"

When the truth was revealed, Long Chen thought about it from beginning to end, and did not seem to have any flaws. However, he still increased the strength of the Ghost Blood Curse by a little bit, suppressing it with great force, and said, "How do I know that you have exaggerated it? I believe that you might have been here before, but I don't believe that there are so many Ancient Giant Demons, and I even less believe that you have the ability to wake them up. "

"Then give it a try. In any case, the final sinner will also be yours! For the sake of some personal grudges and for the sake of causing the destruction of ten thousand worlds, you can give it a try. You can always see clearly what's important and what's not. "

To be honest, it was a huge problem.

It was impossible to tell whether he was real or fake. This fellow before him was truly an old fox. This matter was originally a small matter to Long Chen, but it had now become a big matter, a difficult matter. One wrong step could lead to a huge disaster.

He was sure that there were many ancient trolls there. The only thing he couldn't be sure of was whether or not this godly figure would be able to wake them up. The appearance of an ancient Giant Demon was not a good thing. Firstly, it would definitely cause death and injury. Secondly, if the Heaven-Devouring Race was alerted, then that would be even worse.

"You win, get lost."

In the end, Long Chen made a decision to stop. It wasn't that he was scared, but he knew that it wouldn't be too late for a gentleman to take revenge. Since he had met with a problem and a challenge today, there was no need to put it on today's list at all. An Archaic Giant Demon was a great matter. He was truly worried that he would take a wrong step and destroy all ten thousand worlds.

"I am proud of your wise decision. You saved ten thousand worlds! "

Shen Jun solemnly said as he retreated. After taking one last look at Long Chen, he brought the Divine Demons of the Realm of the Great Desolate Emperor and quickly hid within it. He did not dare to appear before Long Chen again.

"This person doesn't look like a good person. Moreover, he signed a Giant Demon Contract with the Ancient Giant Demons, he should already be on the Ancient Giant Demon side. Brother Chen, do you really believe him?"

Ling Xi felt that something was wrong.

"Not really. However, not now. There were still a lot of doubtful points. For the big picture, he had to think twice before acting. Let's go, there's someone waiting for me. "

"Who's waiting for you?" Ling Xi asked curiously, could it be that someone was talking to Long Chen at this time?

"A person that you would never have thought of. He told me not to kill the gods. Otherwise, I would have taken more out of this handsome guy's mouth. I really don't believe that he can open the ancient tomb of the Dragon King. "

The Realm of the Great Desolate Emperor.

The palace that the God Emperor resided in was called 'God Imperial Palace'. This was the base of this world, a place that none of the gods or devils could reach. It was also the place where all living creatures worshipped. It is the holiest place.

At the moment, only Shen Jun and Ji Taixu were in the middle of an empty hall, Shen Jun was seated on the first golden chair, and Ji Taixu was standing beside him. At the moment, Ji Taixu's face was extremely ugly, walking back and forth, and could not help but ask: "Why must you endure? Isn't it about time now? Summon my ancient Giant Demon army and crush all worlds! Isn't that just around the corner? Isn't our mission to destroy all life in this Myriad Realm? "

Shen Jun opened his eyes slightly and said, "That is still not today. Everything depended on the overall situation. "Now that the time has come and the might of the heavens has come, if I were to make a move now, I will only be messing around."

"I am just angry at Long Chen for humiliating you like this today."

"Don't worry, when that day arrives, this person will definitely become our main target. At that time, the first thing he would do was to kill him. All that he has given me today, I shall return to him in the future."
"

Ji Taixu lowered his head, still not satisfied.

"We are the Destroyer, and cannot be humiliated. Patience, what a ridiculous word. If he really wanted to, he wouldn't stand for it. However, we are not truly ancient Giant Demons. Just what are those beast-like existences thinking? "

Ji Taixu knelt down helplessly.

Shen Jun sympathized with him, because he himself was even more so. It had always existed in chaos, black on one side and white on the other. However, they were grey in the middle of black and white and were chased out of two worlds.

"One day, the devil will completely suppress human nature. We're going to be the devil through and through, so there's no need to think about it. In any case, it was impossible for me to break away from this Giant Demon Contract. "When the Ancient Giant Demons dominate the world, with our power and contributions, we might be able to obtain happiness then. It'll be the happiness of the demons, and we might even be able to control higher peaks!"

"I see. Just follow the waves. That way we can live forever. "

"Right, soon. "It's not far."

Chapter 3092 - Mysterious visitors

After leaving the Realm of the Great Wasteland Emperor, Long Chen continued to head north, moving forward through the endless starry sky. Finally, in front of him, he saw a man sitting on a small fragmentary star, heading towards them.

This was a somewhat sloppily dressed man, barefoot, his sleeves rolled up, his hair scattered, wearing cloth clothes, with a straw in his mouth, appearing somewhat sloppy. But to Long Chen, this was undoubtedly a terrifying person, especially his two eyes, which were actually octagonal in shape, and were in the midst of spinning.

Even though the other party had a teasing smile on his face all the time, those gazes were still enough to cause fear to well up in their hearts. Although the other party was very casual, Long Chen still felt pressured when he went up.

Long Chen had seen the Ancient God of the Wilderness, the Heavenly Dao Saint Emperor and the Anarchic Demoness, and today, he had finally seen the last of the four great rulers — — Heavenly God's pressure.

The Ancient God of the Wilderness was ancient, heavy, and grand. Heavenly Dao Saint Emperor was quiet, noble, and ethereal. The Anarchic Demoness was strange, sinister, and terrifying. And this fourth Deity in front of him was one who was compatible with all things. Although it seemed casual, in reality, it was the one that was the closest to all worlds, making people feel close to it.

Ling Xi finally understood.

The person who told Long Chen not to kill the god, was actually the God of Heaven Lu Wang.

Of course, if it was anyone else, it would not be so easy to make Long Chen listen to them.

He arrived in front of Long Chen in the blink of an eye, sat on that star, and circled Long Chen three times with great interest. Then, he said: "I heard Wushuang say that you had appeared in the God Realm's Zhou Mountain, and then that Ji Taixu had disappeared, I knew that you had come to see a handsome god."

No wonder he was here.

Since they all knew each other's identities, Long Chen didn't ask any further. The Ancient God of the Wilderness was very kind to him, and the Heavenly Dao Saint Emperor did not seem to reject him.

The only one with enmity was the Anarchic Demoness of the Goblin Tribe. Perhaps all three of them were Paragons for the sake of their human identities.

"Did Senior Lu Feng come here specially for this matter?"

Long Chen asked respectfully.

"No, the main reason is because he will become the number one existence in the entire Ten Thousand Worlds in the future. How handsome will he become?"

Empyrean God Lu Xin laughed loudly.

This made Long Chen startled. He remembered that the way he spoke was kind of similar to the kitten's, but it was a pity that the kitten was still adapting to its original body and had not woken up yet.

"The future is still far. Senior, please don't joke with me for now."

"You can just call me Brother Lu Feng. In any case, from what I can see, you are a kind of miracle. No matter how much you block me, your future will still be above mine. When the time comes, you will be my senior. "

The other party was straightforward and direct, causing Long Chen to laugh, not putting on an act on the matter. Since the Heavenly God Continent pressure was not out, Long Chen immediately asked: "How much do you know about the matters of the handsome god?"

"I know everything he said. Furthermore, he said that it was true that he could make billions of archaic monsters descend upon the Myriad Worlds. He could do it, and he doesn't even need to waste his life. "

When he mentioned this matter, he shocked Long Chen. Actually, he was still doubtful, but since even the God of Heaven pressure him on the land was so, what's more, it was even more serious ...

"How can you be sure?"

Long Chen still couldn't believe it.

Lu Xin curled his lips and laughed, "He's in Northern Star Domain, right under my nose. One of my rules is to be able to see and hear everything in the boundless universe. After you left, he and Ji Taixu spoke a few more words, but that didn't escape my ears. He thought he could hide it from me, but he couldn't. "

Long Chen understood.

It was no wonder that Silk had said that he would know the name of the Heavenly God Continent. He had terrible eyes and ears. He heard and saw everything in the Allworld!

"Then, what you said is true. Because he signed the Giant Demon Contract, he is in fact a complete member of the Ancient Giant Demon race. He can awaken all of the Archaic Giant Demons at any time, open the ancient Dragon Demon Tomb, and descend upon the ten thousand realms? "

Sky God Lu Xin said, "That's right. Today, he has become a huge disaster. I can't kill him before he alarm the ancient Giant Demon. He still didn't have a complete understanding of the situation in the ancient tomb. So I advise you not to kill him in a hurry, and let me observe the situation again. However, it seems that even if we don't kill him in the end, it seems that we will still be unable to escape the calamity of an ancient Giant Demon. "

Long Chen's mind was in a mess.

He thought to himself, "Didn't they say that the Ancient Giant Demons were sealed up by the Heaven-Devouring Race?" Right now, the Eclipse clan relied on the Fiendgods of the Ten Thousand Realms to slowly devour them. If the archaic Giant Demons were to appear, how are they going to devour all the realms? "

After all, the Heaven-Devouring Tribe is in deep sleep right now, and their injuries are still recovering. In that case, if the ancient Giant Demons were to really fall into chaos, then it would be troublesome. Not only would the Ten Thousand Realms be in trouble, it might even alert the Heaven-Devouring Race. Once the Heaven-Devouring Race appears, it would be very difficult for me to deal with an ancient Giant Demon without exposing my divine dragon bloodline! "

No matter what, it was still a big problem.

Just then, Sky God Lu Xin said, "But don't worry. Although they say that the time to wait is almost here, but according to my understanding, fast means that it will take at least a few hundred years. In this period of time, I need to learn more about this place. At the same time, I will work with Ancient God of

the Wilderness and Heavenly Dao Saint Emperor to create some defenses. The demons tried to communicate with each other. As a human, I'm afraid you'll need your strength in the future. I think you are even the key to winning. "

Long Chen knew clearly in his heart that what Heavenly God Continent Pressure saw was different from what he saw, because he did not know of the existence of the Eclipse Tribe. To him, an ancient Giant Demon was a type of otherworldly demon. Just as he was about to wake up from his slumber. Long Chen however saw the Swallowing Heavens Clan behind them. No matter what, this was a bad thing. It could even speed up the process of the Heaven-Devouring Race digesting the boundless universe. It could bring about a huge impact to Long Chen's future plans!

His mind was in a mess now.

"Don't worry, I will definitely do what I have to do." Long Chen said with certainty.

The Allworld was his foundation, and he did not want it to suffer any harm.

"From the looks of it, this is most likely a private operation by the Ancient Giant Demons. Since the Diremonster and the Diremonster were both able to wake up and appear. It is also possible that all the other ancient Giant Demons will awaken as well. "

In this way, it was clear that he couldn't kill the godly figure, or else this process would be sped up. This had caused chaos throughout the entire Allworld. By then, the Empyrean God Land might not be ready for this.

Hearing Long Chen's words, the pressure on the land by the God of Heaven was put at ease. He said, "You seem to have other things to do. Hurry up and do them." In the future, I might come to you often to discuss some matters regarding this ancient Giant Demon. "

Long Chen really needed to hurry up and go to the Ancestral Star. Of course, he still needed to improve his own strength and go to the time tunnel to take back the core. Only then would he have a lot of time to nurture the divine dragon. Built a world that belonged to the Dragons.

"When the time comes, you can call for me." After he finished speaking, just as Long Chen was about to set off, Sky God's Land Pressure suddenly called him and asked: "Are you going to the Ancestral Star?"

Hearing this name, Long Chen was surprised. Long Chen had never told him this, how did he know?

Seeing Long Chen was suspicious, he laughed and said: "Since you're in this direction, to you, the most likely target would be the Ancestral Star. I didn't expect me to guess it correctly. Of course, I thought that I was the only one who knew about the Ancestral Star in the Myriad Realms. "

He actually knew the location of the Ancestral Star!

"Brother Lu Xuan, do you know anything else about Zu Xing?" Since he knew, Long Chen asked immediately.

Lu Xin thought about it and said, "That's not a place we should be going to. Honestly speaking, I did not go over. When I got closer, I looked around with my eyes, the location was very far away. From the edge of Northern Star Domain to the Ancestral Star, it was about half the diameter of the Myriad Realms. Most of them are in the Red Fearful Star Region. The Ancestral Star is a cursed land, and the entire Fearful Star Region is filled with evil and curses. I was able to reach the Ancestral Star but I just didn't want to go. If you want to go over, you should be able to do it. Going to that place is a thankless task. "

"So far away?"

Gui Qi only knew roughly which direction to go, but she didn't know how far away it was.

It was so far away that even it would take a long time.

Long Chen was not finished with his surprise, but Sky God Lu Xin continued to say: "That's nothing, just take a bit more time. The problem is that I also saw countless lives on that ancestral star, forming a power. There was a very strong existence on it, and being able to see through my line of sight, I exchanged wills with him. "Your strength is not inferior to mine, but might even be above mine. If you really want to go over, you must be careful of this guy."

"There is such an expert?"

Long Chen was truly depressed. He thought that the strongest in all realms would be the Four Great Overlords, who were standing right in front of him right now. Who would have thought that in the distant and concealed Ancestral Star, there would actually be such a A Highgod in the Perfection Stage!

"Only I know of his existence. He might not even know of the existence of the Myriad Realms, so he would naturally cross that evil sea of stars and come to our side. Actually, that place was also part of the Ten Thousand Worlds. At this point, you still want to go, right? "

The Heavenly God Continent Pressure actually wanted Long Chen to know the difficulties and retreat. After all, he wanted Long Chen to help as soon as possible.

"Yes."

The stars had to go for the sake of those cursed dragons.

"Alright, let's go, brave young man!"

Empyrean God Lu Xin's face was covered with smiles, but his gossipy eyes were filled with a long-lasting coldness.

"Goodbye. I will try my best to return as soon as possible."

Watching Long Chen leave, the smile on the face of the God of Heaven Lu kept on forever.

'I have a feeling that a lot of the missing parts in my memories are all with this person. Where did I come from? Why was it born? "

Chapter 3093 - Blood Fiend Star Region

Ancestor Star.

According to what Sky God Lu Xin said, Long Chen had finally reached the edge of Northern Star Domain. From this position, he could see that the area in front of him was enveloped in a vast expanse of red starfields, with no end in sight. It was only because Long Chen could sense that everywhere he went, was flooded with this kind of red light.

It was simply hard to imagine where this light came from.

"This is the Blood Evil Light I just remembered. It was precisely this kind of Blood Evil Light that blocked off this place and the Ancestral Star. It would allow the Ancestral Star to be completely sealed. To reach the Ancestral Star, one had to pass through these Blood Evil Light. But I m afraid the deeper we go, the denser the Blood Evil Light will be. "

It was just like someone laying a Blood Evil Light here, allowing the Ancestral Star to stand alone. To Long Chen, this was something that not even the four Chief Sovereigns could do. It was something that surpassed the realm and nature of gods and devils. Perhaps only the ancestors above could do such a thing.

Man, god, ancestor.

The levels of the living creatures should be these three.

Swoosh swoosh!

When Long Chen's body came into contact with the Blood Evil Light, that blood-red light shone onto his body, causing him to feel an enormous burning sensation. Forget about mortals, even ordinary Fiendgods would turn this Blood Evil Light into ashes just from being in Long Chen's position when they first arrived here.

Moreover, this was only the outermost perimeter of the Blood Fiend Star Region.

"It's hard to imagine what's going on inside."

"No wonder ... although Lu Xin was curious, he did not want to go in. The Master of Ancestral Stars inside did not want to come out either. The Blood Fiend Star Region is a great chasm in terms of Fiendgods. "

It was difficult to cross.

Of course, they could still make it if they persevered for a bit. The Dragon Attendants said that would definitely believe that the Ancestral Star had a way to break it. Therefore, at this moment, he almost did not hesitate and stepped into the place. For the time being, the Blood Evil Light could not truly do anything to him.

On the other hand, Long Chen was slightly worried for Ling Xi.

After all, she was the one who had to control the door to the universe.

The duration of this journey, would depend on how long Ling Xi could persevere on.

The Primeval Dragon Pagoda was even more passive, unable to merge with Ling Xi, and could not protect Ling Xi.

"You can try to walk for a while."

Long Chen held onto Ling Xi's small hand.

Ling Xi opened the door to the universe. In a place that she had never gone to before, she could only move about a little. Of course, this kind of teleportation was a few times faster than Long Chen's.

"Whiz!"

The first shift took place in almost the same area, and blood-red light shone everywhere, but Long Chen felt that the Blood Evil Light had clearly become much heavier. Ling Xi was using the laws of space to resist, protect herself, and then continue to use the gate to the universe.

"When you reach the limit of your power, I will travel by myself."

"Don't worry, I won't try to be brave."

Ling Xi knew that Yue Yang was worried about her, so she felt very sweet.

"Whiz!"

Time and time again, they moved towards the direction of their ancestors. Long Chen felt the situation between the Blood Evil Light and Ling Xi, after about a month, he discovered that the surrounding Blood Evil Light had already reached the level where the Hierarch was able to endure. It was already very difficult for Ling Xi here, and every time she came out, she had to expend a lot of energy to protect herself from the attacks of the Blood Evil Light.

"I'm almost done here. I can go in myself." Long Chen stopped Ling Xi from using the gate of the universe the next time.

"How can that be? At least nine tenths of the way." Ling Xi still wanted to help Long Chen even more.

"I won't be in a hurry anyway."

Long Chen would never let her grit his teeth and persevere. Even if Ling Xi wanted to endure for a while longer, he still brought her back to the Living Realm. It had been a long time since he last saw Ling Xi.

As a result, Long Chen rode on this omnipresent light, and quickly charged forward. Only by going back and forth between these Blood Evil Light would he be able to experience the terror of this region of the stars.

"Is this natural, or is this man-made? Otherwise, why would there be the feeling of a law? "

This was only 10% of the journey, yet it was already at the point where the Hierarch was unable to withstand it. Even he himself wasn't completely sure whether or not he could complete this stretch of the Star Domain.

One day, two days, all the way until one year later!

It was about a tenth of the way forward.

The further one went, the stronger the Blood Evil Light was and their speed would be greatly affected. Fortunately, Long Chen was able to endure the Blood Evil Light here. However, for a long period of time, it was as though he had been attacked by the rules of a powerful expert.

"Brother Chen, I'm almost at the Tai Yi Shen Jing."

One day, Ling Xi suddenly told herself with great joy. Then, she started her final journey in the Living Realm. To be honest, it was probably to help Long Chen increase her speed. After returning to the Living Realm, she threw herself into cultivation with all her heart, and added with the Dragon Blood Sacrifice Realm, she was able to move so quickly.

Seeing that she was confident, Long Chen was relieved.

He looked up ahead and confirmed his goal. Breaking the curse was the key to his plan this time. Of course, finding the seventh ancestral dragon's inherited blood was also a very important matter.

Roughly a few days later, Ling Xi succeeded in breaking through to the Sovereign God Realm. Henceforth, Long Chen, Mo Xiaolang, Li Xuanji and the others all possessed the power of a Sovereign God. Long Chen, this supreme being, was already very close to a world of primitive level!

After all, a world of primitive level only had one A Highgod in the Perfection Stage and several Beginner's Realm Hierarch. Usually five or six.

"If I am able to have the foundation of a world with primitive level at this moment, then I can restore the world that belongs to the divine dragon to the level of normal primitive level. I can still attack origin level in the future, but unfortunately, I don't have a world of my own. "

The Dragon Sacrifice Continent had been destroyed, and from then on, Long Chen felt that he was wandering around with the descendants of the Divine Dragon.

When would he be able to cause the Dragon Sacrifice Continent to reappear in the center of the ten thousand realms?

"Brother Chen, let me do it."

After reaching the realm of Hierarch, Ling Xi had become much more resistant to Blood Evil Light. After becoming a Hierarch, one could only guess that they would not be able to pass through the most important places in the entire Blood Fiend Star Region. Ling Xi's hard work had indeed greatly reduced the amount of time they had left.

"Let's go."

The door to the universe opened.

Sou sou sou!

Transferring rapidly again and again also caused Long Chen to lose a lot of strength. That life flame was burning in Ling Xi's body at all times, and the third kind of Ancestral Fire, the Primal Chaos Azure Flame, was also able to resist the Blood Evil Light, and all of that was in Ling Xi's body!

This time, even his speed was much faster.

In a month's time, he had traveled two tenths of a meter.

Now, Long Chen had already walked nearly half the distance, and reaching here, was simply reaching the core position, which meant that Ling Xi could no longer hold on. At this critical moment, Long Chen had replaced Ling Xi, and immediately rushed there. The Blood Evil Light in front of them had already thickened to the point that it dyed the entire world red, as if they were being burned by flames.

After arriving here, Long Chen had already taken out the Primordial Dragon Pagoda to protect himself and then madly charge forward. He reckoned that there would be around two tenths of a journey ahead of him that even the ordinary Divine Sovereigns would not be able to cross, and only the Four Great Overlords and Master of Ancestral Stars would be able to pass through that.

Sou sou sou!

He turned into a streak of blood-red light. In this boundless blood-red space, there was nothing around him but a surging wave of Blood Evil Light.

"How terrifying!"

Reaching the core position, even the Yuanshi Dragon Pagoda found it difficult to resist.

Fortunately, there was still the Quintet Energy that could help Long Chen replenish his energy and continue to control the Primeval Dragon Pagoda to hold on. Long Chen guessed that if not for the Primeval Dragon Pagoda, he would have been burnt to ashes by now.

This difficult journey lasted for two years!

More!

Fortunately, with the Primeval Dragon Pagoda, even if it was two years of suffering, Long Chen was able to endure it. After passing through the hardest region, the remaining four tenths of ten were basically equal to the one in front. This was all within the range of Ling Xi's ability to move, so after that, Long Chen had to hand over all of this to Ling Xi.

After continuously assaulting him for two years, Long Chen was already tired!

However, he was very excited. Having passed the most terrifying part of the journey, it basically meant that he would have no problems reaching the ancestral star.

"Leave the rest to me. About four months will be up. You should take a good rest first. "

Seeing Long Chen so tired, Ling Xi's heart also ached. Luckily, she was able to share Long Chen's worries. Therefore, she was very happy in her heart.

"Don't force yourself."

"I know."

In fact, in just a few days, Long Chen had pretty much rested. He was constantly watching his progress within Ling Xi's divine country, and the further he went, the fewer Blood Evil Light he would see. This made him understand that this Blood Fiend Star Region was actually not only stopping the Myriad Realm Gods and Demons, but also the Gods and Demons of the Ancestral Stars. Let the two not interfere with each other.

Long Chen was the first person in a long time to have teleported in.

"What's the matter with you?" Seeing the Ghost Blood Curse trembling, Long Chen asked.

"Perhaps it is the fear of approaching the countryside. The closer they get to this place, the more they think about it. They think about who they are, and how they used to be here. "

"Tell me about it?"

"I can't say. It's very chaotic, whether it's true or false, not very clear. But I must have a story here. I was dying to go back and find out. "Thank you for letting me come back here."

"Aren't you afraid of the dangers here? Are you going to land yourself in danger?"

"Don't worry, you're very strong. I underestimated you in the past."

Gui Qi was speaking from the bottom of her heart.

"No matter what, you will be even stronger in the future. All I can say is that within my power, I will definitely throw away my head and shed blood for you."

"Alright."

Four months passed by in a flash.

The Blood Evil Light had almost disappeared.

Passing through the endless starry sky, Long Chen seemed to have seen a gigantic world in front of him!

Chapter 3094 - Emperor Blood Star

The Blood Fiend Star Region had already passed.

After experiencing the Blood Evil Light, Long Chen still had lingering fear in his heart. However, when a vast world appeared before his eyes, he was already attracted by this world.

Without a doubt, they had arrived at Zu Xing.

Upon arriving here, Long Chen immediately used the Shadow Dream Charm Dragon's rules, transforming into a small star that floated towards his ancestral star. The change in the rules of the Shadow Dream Charm Dragon was extremely accurate. Back then, Long Chen had only transformed into a Thousand

Transformation Demonic Lord for the first time, yet he dared to break through the encirclement of nine Hierarchs.

The current Long Chen was in fact, no different from a real star at this moment.

In his eyes, he already understood Zu Xing's true appearance.

It was a world of primitive level, a planet that was even larger than a Hong Jun. Three colors filled up the surface of the planet, and they were respectively blood-red, black and grey. The three colors were unpredictable, giving off a sense of deathly stillness in the peaceful starry sky.

The Ancestral Star was extremely peaceful, but it was indeed eerily quiet, as though an eye from the myriad realms was staring fixedly at the arrival of Long Chen.

This place was rather far from the Ancestral Star and one could not see the true contents of this primitive level world.

However, Long Chen actually discovered a total of nine huge stars around this Ancestral Star, each of them resembled a Nine Heavens Holy Star. This Ancestral Star was indeed very similar to the Hong Jun Star Sea, it was just that there were too many of them, and this one only had 10.

The other nine could all be considered as Ancestral companion star.

This was a place filled with evil, curses and cold.

For example, the pellet that was closest to Long Chen, which was slightly smaller in comparison, was completely red, and seemed to be covered by a sea of blood just like the Death Realm. The only difference was that there were many cities built on the sea of blood, proving that there were actually many mutants on this ancestral star, who were not much different from the sea of Hong Jun Star.

There was almost no difference in the amount of power in the entire world.

"This is the Emperor Blood Star!"

Suddenly, within the Ghost Blood Curse, Gui Qi's eyes widened. Her body was already starting to tremble, her legs were trembling, and her eyes were becoming increasingly red, because her heart seemed to be filled with hatred. The entire world within the Ghost Blood Curse, including the Blood Sea, corpses, and ghosts, was going to erupt, as if it was the end of the world.

Gui Qi even began to pant heavily.

"Did you remember something?" Looking at her, Long Chen knew that after Gui Qi became the Destiny Heroic Spirit, she had lost some memories. Now that she saw it, tears welled up in her eyes.

"Yes, I belonged here."

Gui Qi continuously shook her head. There were some memories that she didn't even want to recall, but they had all popped up.

"This is the ancestral star, and one of the companion stars is the Emperor Blood Star. This is my hometown, the place where I was born, grew, and recorded everything that happened to me."

When she talked about this, she was in a bit of a daze, and tears filled the corners of her eyes due to nostalgia. In the past, she had been very arrogant, but now that she was crying, Fang Xing could see that she wasn't actually any different from other women. To Long Chen, she had always been a human, not a normal Creation Heroic Spirit.

"The Ancestral Star and the nine great companion stars formed the entire world in our eyes. Almost all the living beings and gods and devils did not know that they were only a part of the true Myriad Realms."

"I remember now. There are a total of three great races here: the Blood Race, the Ghost Race, and the Cursed Race."

"The colors of the Ancestral Star are basically also occupied by the three great clans. Among them, the red is from the Blood Race, the black is Ghost Clan, and the grey is the Cursed Race."

Long Chen looked over, there was a little more red and black than before, the gray color was relatively concealed, but it seemed to be even more terrifying.

"Although the Cursed Soil Sect is a rare race, they are indeed the strongest. As for the Master of Ancestral Stars, it was a mixture of the three races' bloodline. It seems to be what we call the 'Origin Ancestor'. "

If she wasn't here, Gui Qi would never have thought of these.

"What race do you belong to?"

"The Blood Clan, the Emperor Blood Star, is the territory of the Blood Clan. I used to live here. Please let me go down and take a look. "

Gui Qi turned and pleaded with Long Chen.

Long Chen agreed. He originally wanted to enter the society of an ancestral star to see what was inside. Especially with the rules of change, he can be anyone you want.

"The secret to breaking the Dragon God's Curse, there's also the ancestral dragon-inherited blood!"

Two important things.

Perhaps he could learn a few things from the commoners. Otherwise, if he met with the Master of Ancestral Stars directly, Long Chen wasn't sure if he would directly start fighting. After all, one mountain didn't allow for two tigers.

The Emperor Blood Star was the closest to Long Chen, so it was naturally the best choice.

"Let's go."

Long Chen gradually approached the Emperor Blood Star and then turned into a meteorite, rushing into the middle of the Emperor Blood Star. After passing through the thick layer of blood-colored clouds, he finally arrived at this giant star that was filled with a sea of blood.

Beneath him was an endless sea, a huge ocean, its territory comparable to a world of Eternity. All sorts of cities had been built into the sea of blood. Upon closer inspection, one could see that they were basically at the level of creation artifacts.

The Strigoi lived within the city.

Long Chen took a closer look and realized that the so called Blood Clans were actually not much different from him. They were exactly the same as Gui Qi, with their hair, eyes, and temperament that were cold and cold.

"We're here."

Long Chen kept changing, and eventually, he snuck into a huge city. After meeting the first person, he changed from head to toe into that person's appearance, and snuck into the Blood Clan.

Given his transformation capabilities, it would be difficult for the Master of Ancestral Stars to discover his infiltration.

The Strigoi were generally very cold and quiet. The pedestrians basically did not talk. Occasionally, they would fight and kill each other without showing any mercy. Long Chen found a Divine King, using a wishful eye, he understood some things from him.

"On this planet, the strongest person is a guy called Bloodthirsty Great Emperor. It was not far from here, and according to what he said, it should be a initial state's supreme deity. That means to say, the nine companion stars of the Ancestral Star have a possibility of possessing nine Hierarchs? "

Including the Master of Ancestral Stars, ten?

Emperor Blood Star was considered small among the companion star.

"That's right. There are ten Hierarchs, and they always have! They were also known as 'Ten Ancestors'. Ten Paragons of the Ancestral Planet. Of course, amongst the nine great emperors, one Origin Ancestor is the strongest. "

The Godking said.

In the Three Great Imperial Domains, even the True Martial Emperor and the others could be called Great Emperor. But, compared to the Ancestral Emperor, the True Martial Emperor and the Ancestral Star Great Emperor were two completely different concepts. The name was just made by man, but when the scope was different, the degree of the name would be different. The True Martial Emperor ruled over the hundreds of millions of people at the bottom of this unranked world. These nine

Ancestral Star Emperors ruled over 10 billion, and each one of them was able to instantly kill the True Martial Emperor.

The difference between them was the difference between the bottom level of the ten thousand worlds and the top level of the ten thousand worlds.

"Bloodthirsty Great Emperor!"

At this time, Gui Qi suddenly exclaimed.

Amidst the blood curse, she fell to her knees in the sea of blood, her entire being going crazy. Even her eyes bulged, as she endured the powerful impact of the memories.

"I will kill her! I remember now, she was the one who killed me! I want to take revenge on her, Long Chen. Please help me, I remember all of this! "

Gui Qi treated Long Chen with the most seriousness and desire. Her eyes were filled with hope, and her expression made it impossible for people to refuse.

"Explain the situation first, I will help you resolve it. "Otherwise, I would be confused too."

Long Chen let go of the Divine King, stood in a quiet corner, and then chatted with Gui Qi.

"Calm down first."

With Long Chen's help, the enraged Gui Qi finally stabilized, however, at this moment, there were still tears of hatred and humiliation in her eyes. He suddenly became enlightened, and thought of a little, but the hatred in her eyes exceeded her own imagination.

"There is something very strange about our ancestral star. That was inheritance. As long as one reached the level of the Divine Emperor, they would be able to condense their own inheritance into one. Once one died in battle, the inheritance would be passed on to the next person, and even if it was a person with ordinary talent, after receiving the inheritance from the Divine Emperor, they would soon be able to become a new Divine Emperor. This is similar to your Divine Dragon Legacy. It's just that our legacy does not have any inherited blood essence or Dragon Soul of Origin. "

It seemed that the inheritance wasn't the dragon's patent, and the races above the Ancestral Star were also able to do this. It's just that their requirements were a bit higher, and they had to be at Divine Emperor level to do that.

It was precisely this kind of inheritance that allowed the number of experts on this high death rate planet to continue rising. If a person managed to become a Divine Emperor, they could even pass on their legacy for eternity, benefiting the future generations.

Gui Qi held her hands tightly, her chest was still moving up and down, and she was slightly choked with emotions, and said: "Among them, Origin Ancestor is immortal. And the inheritance of the nine emperors was the most grand event on this ancestral star, something that wouldn't happen even once every tens of millions of years. Generally speaking, the reason for Hierarch's death was mostly because he angered the Origin Ancestor, and thus the inheritance of the Emperor appeared. "

Speaking to here, Gui Qi took a deep breath, then said: "My father is the previous generation's Bloodthirsty Great Emperor, the owner of this Emperor Blood Star. He only let the Origin Ancestor kill him because he angered the Origin Ancestor, and according to the rules of the Ancestral Star, the Bloodthirsty Great Emperor's throne should have been passed down to me, because I am my father's only son."

"Except for what?"

I made a friend, and it was I who saved her life, allowing her to get rid of the lowest level of fate. I treated her like a sister and brought her to the 'Blood-Thirsty Imperial Palace', I grew up with her and shared everything with her, and in the end, I found a Divine Emperor's legacy, and gave her a chance to become weak, to become a strong person. I even begged my father to take her as my foster daughter. Just to be her real sister. "

Chapter 3095 - Ghost Marriage

The beauty of the past, now appeared, to Gui Qi it was simply like a sword.

Those scenes were all ironic for today. Because she was lonely, Gui Qi shared everything with this girl. It allowed her to escape from her fate of suffering and gave her the most precious identity on the entire Emperor Blood Star. This was because the Divine Emperor's inheritance had even allowed this girl's strength to surpass hers.

On the other hand, Gui Qi was trying to prove himself. He never accepted the inheritance and worked hard on his own. At that time, he had already become a Divine Emperor. Just a little worse than the girl. But she never cared.

"Before that day, I was like a sister to her. I was very grateful that I had gained so much joy, and that I was no longer alone. I had already decided that I would share everything with her. "She really is someone that everyone loves. Even my father dotes on her ..."

"Until that day, when my father angered the Origin Ancestor and was killed by the Origin Ancestor and my father's inheritance returned to the Emperor Blood Star, when I heard that my father had died, it was as if my soul had been struck by lightning and I lost my soul." It was not until that day, when my father angered the Origin Ancestor and was killed by the Origin Ancestor and my father's inheritance returned to the Emperor Blood Star, when I heard that my father died, I felt like I was struck by lightning and lost my soul.

"I will never forget the look on her face when she stabbed the Ghost Blood Curse into my body. It's the look of a smart person and I can tell that in her eyes, I'm just a complete fool. In the end, when my remnant soul was sucked into the Ghost Blood Curse, she said to me, You are the dumbest and funniest person on this planet. You are the true despicable one! But unfortunately, you will never have the chance to take revenge against me. "

"From then on, I've endured so much pain and suffering. Finally, on this day, I'm back on Planet Emperor Blood. I want to see her, what she looked like when she saw me. "

Hearing her words, Long Chen finally understood. He didn't expect such a thing to happen to her. Long Chen could feel her pain and anger. The most unbearable thing in her life was undoubtedly making her feel close to him, he had treated his opponent the best, he had simply given his all, and in the end, he had allowed her to stab him with the knife and take his life. She was the successor to this planet, and yet had lost everything. She had lost her life, and had become a living, fleshless, blessed spirit. She had drifted away like this, leaving her native land behind and wandering about alone.

If he were to bear such a burden, he would definitely go crazy.

Fortunately, Mo Xiaolang and Cat were not like him. Long Chen could only say that Gui Qi was truly stupid in the past, that he had a poisonous snake by his side, but he was completely unaware.

"I think I understand now that you gave her everything when she came from the bottom, and that made her jealous of you. Every time you give it to her, her smile might be a form of killing. Perhaps to her, this was a form of humiliation. Unfortunately, you wouldn't have understood then. However, no matter what, if a person does not know how to be grateful, and repays kindness with hatred, then I am willing to help you. "

After hearing Long Chen's reply, Gui Qi shed tears of gratitude and said: "Right now, I just want to return to her eyes and let her see how I look like. I just want to ask if she once regretted doing that.

Now that she had calmed down, even her thoughts had changed.

"Didn't you just say that you wanted to kill her?"

"If I kill her, I can only vent my anger. Everything has happened. However, the position of the Bloodthirsty Great Emperor belongs to me in the first place. I will definitely take it back so long as she is willing to admit her wrongs, I will not strip her of her right to live. "

It looked like that period of interaction was truly too valuable for Gui Qi. She was a loyal person, but unfortunately, not everyone was like her.

Then go to Blood-Thirsty Imperial Palace and lead the way.

Gui Qi followed her memories and brought Long Chen back to the place where he grew up. Along the way, she saw all of those familiar things, and she couldn't help but cry.

As a Ghost Blood Curse and as a fog, she had helped him quite a bit.

The Blood-Thirsty Imperial Palace was at the core position of the entire planet.

That girl called 'Ghost Marriage', after killing Gui Qi, inherited the position of the Bloodthirsty Great Emperor's adopted daughter. Of course, Gui Qi did not know how she lied, so people did not know that she had killed Gui Qi with her own hands.

The name Ghost Marriage was given to her by Gui Qi. When the girl from before didn't even have a name and was almost torn apart by a few Strigoi men, Gui Qi had saved her and brought her back to Blood-Thirsty Imperial Palace in a pitiful manner.

When the familiar Blood-Thirsty Imperial Palace appeared in front of him, Gui Qi was like an idiot, this was the place with the deepest memories. She was mumbling, probably calling her father's name.

Long Chen could feel that the Bloodthirsty Great Emperor and the Ghostly Marriage were within it.

The Blood-Thirsty Imperial Palace wasn't a place an ordinary person could reach. Long Chen waited outside for a while, and when he saw a few Divine Emperor s leave from there, Gui Qi saw many familiar people.

"This person is one of my father's trusted aides from the past. Judging from his glowing face, he should be a good person in the hands of that ghost marriage."

Hearing Gui Qi's description, after the person left, Long Chen changed into that person's appearance. No matter what, they were all the same, there was no difference.

"His name is Half-Mountain Xiao."

"Yes."

Long Chen nodded, then entered the Blood-Thirsty Imperial Palace with the identity of Half-Mountain Xiao. Due to the identity issue, no one dared to obstruct him along the way, so Half-Mountain Xiao was a Extreme Realm Divine Emperor, its strength was not bad.

The deeper they went into the palace, the more nervous Gui Qi became and her face turned pale white.

"Calm down and settle it." Long Chen reminded her.

"Thank you."

Demon Qi's voice was still trembling. How many years had passed? She had experienced countless wandering experiences and crawled out from countless nightmares. She had finally returned to this place, the place where she grew up, the turning point of her fate.

"I'm back."

"Half Mountain Divine Emperor wishes to seek an audience."

With a loud proclamation, Long Chen entered the deepest part of the Blood-Thirsty Imperial Palace. There were nine great emperors on this ancestral star, and on the Emperor Blood Star, the Blood-Thirsty Imperial Palace was actually extremely similar to the imperial palace of mortals. All the various ceremonies were extremely complicated.

After going through a few complicated checks, Long Chen finally walked into the great hall where the Bloodthirsty Great Emperor's Ghost Marriage Hall was located. The center of the great hall was separated by a layer of blood colored fog, and behind the fog, there was a huge blood pool.

On the surface of the pool of blood, there were petals of all sorts of hongmengxinling. Within the pool of blood, there were petals of all kinds of hongmengxinling.

Seeing this person, Gui Qi's breathing became much more hurried, and Long Chen suppressed the movements of the Ghost Blood Curse. At this time, the woman in the blood pool used a tender and beautiful voice that made people's scalps go numb and said, "Qiushan Qing, why did you return after leaving?"

Her voice was sweet and charming. It had been a long time since she had heard such a voice. Her emotions fluctuated greatly. The image of the girl who had stabbed the Ghost Blood Curse into his Heart of Rules before her eyes back then was constantly projected before her eyes. It overlapped with the image of the girl before her right now. After so many years, she had become very strong, even more delicate and precious than he was back then.

That's right, she was the Bloodthirsty Great Emperor that ruled over a trillion lives!

"There's one important thing that I think it's better to confess to the Emperor after thinking about it for a long time. Or rather, after thinking for a long time, I found a gift that I wanted to give to the Emperor. "

The first time Long Chen had used it, he had only made the Holy Son of Confusion and Fairy Shangyang notice it. That Emperor Saint Beast which was exactly the same as this damned marriage before them didn't detect it at all, let alone doing it now. He was confident that under the preconceived scenario, the other party wouldn't be able to guess that he would be impersonating him, so he naturally wouldn't suspect anything.

"Oh? I'm interested. " As the sound of her voice faded, it was like water splashing in the water. The graceful woman jumped out of the blood fog and a bright red long dress was instantly formed on her body.

She appeared from within the blood mist, and appeared before Long Chen. That beautiful face, was indeed a peerless beauty.

"The current her is too different from the first time I saw her. Or rather, she has already changed. "

Gui Qi took a deep breath and closed her eyes. Now, she had finally stabilized her emotions. However, the other party's appearance made her suppress her hatred once again.

Long Chen immediately started talking to the ghost marriage, and said: "Once, unintentionally, I broke into a world, and discovered that this world was incomparably vast. In this world, I found the core that controls this world, this is a very mysterious and strange thing, if you don't believe me, the Great Emperor can go in and take a look."

Long Chen very naturally, opened the Death Realm's Dragon Gate in front of her.

After opening it, there was a majestic Death Realm inside. It was so endless that it stunned the ghost marriage for a moment, her bright red little mouth grew quite big, his beautiful eyes flickered a few times, and he had already forgotten about Long Chen. Without saying a word, she directly rushed in.

"Enough."

Long Chen also followed him in and immediately closed the Death Realm.

Chapter 3096 - The Second Ghost Blood Curse

Ever since they had Death Realm, only the Chaos Demons had come in and fought with Long Chen. After that, Long Chen's Two Realms of Life and Death gained a huge reputation, and others did not dare to enter anymore.

The strong thing about Shadow Dream Charm Dragon was that it could change the rules to the point where it could reach the peak of perfection. Sure enough, the Bloodthirsty Great Emperor was caught off guard and was trapped within the Death Realm.

Within the Death Realm, a sea of blood surged endlessly. Within the blood water, there were blood beasts shuttling back and forth, letting out monstrous roars in the deep seas, causing the sea of blood to be thrown into chaos.

The eyes of the ghost marriage standing above this blood colored storm lit up like never before in Death Realm. Long Chen was standing behind her, but the Death Realm's dragon door had already closed, and the other party hadn't even noticed it yet.

"Half Mountain Qing, you have made a great contribution this time. This is indeed a huge and mysterious world with many possibilities. If we use it well, we can definitely make the Emperor Blood Star more prosperous and majestic. Let me take a look at the core of this world. "

At this moment, the ghost marriage looked back, its face glowing red, its pleasantly surprised look making people want to bite her face. She looked at Long Chen with great anticipation, but Long Chen did not move the slightest bit. As time passed, the ghost marriage went from joy to joy, and then, she laughed heartily. Only, there was an extra coldness to her eyes.

At this time, she had already noticed that Long Chen had closed the Death Realm's Dragon Gate.

Demon Qi couldn't hold it in anymore.

In the eyes of the Bloodthirsty Great Emperor, Long Chen had finally changed. In the blink of an eye, the changes to the rules were removed, and his true appearance was restored.

"Who are you?"

The ghost's heart was deeply shocked. She never thought that someone would set her up in this world. The most terrifying thing was that she didn't see through this person's disguise just now. She was currently one of the Ten Ancestors on the Ancestral Star. Being able to deceive her was already a powerful symbol!

"It doesn't matter who I am. I only brought one person with me to see you today. She wants to ask you a few questions. "

Long Chen was efficient and nimble. Right at this moment, the crimson red and black Swastika Symbol Ghost Blood Curse appeared in front of him, Gui Qi couldn't endure it any longer and directly appeared from within. His figure appeared in front of Bloodthirsty Great Emperor and in that instant, Gui Qi experienced a huge psychological torture, but in the end, she mustered his courage!

Today was the day she would return!

"You!"

When he saw Gui Qi, it was hard to imagine how shocked the Bloodthirsty Great Emperor was.

Her eyes were wide open as she stared at Gui Qi, as if she was afraid that she had seen wrongly. It went on for a long time.

"Ghost marriage, long time no see."

It was only when Gui Qi said this with gritted teeth that the ghost marriage completely believed her. The person from before had actually appeared in front of her eyes. Her chest rose and fell, and after being stunned for a long time, she suddenly laughed coldly and said: "I never thought that you were still alive, Gui Qi! I really didn't expect this. I thought you had already vanished like smoke in thin air. But, you seem to have become a Destiny's Heroic Spirit? Heroic Spirit of Creation? Haha, without flesh and blood, you actually managed to survive.

Her smile and the contempt within it caused the hatred in Gui Qi's heart to surge, but perhaps in her heart, she still held some hope towards this person. In front of the ghost marriage, she took a deep breath and asked, "Ghost marriage, I've come back here with great difficulty, you should give me an explanation, right? I want to know why you are so heartless to me after I changed your fate and gave you everything! If you tell me that you want to inherit the position of Emperor, I might not not necessarily not give it to you.

After hearing Gui Qi's question, the ghost marriage stopped laughing. She looked at Gui Qi like she was looking at a fool, and said: "How can I describe you? Stupid? Kind? Or was it ridiculous? Didn't you say that you came back after a long and arduous journey just to ask a boring question? "

"I want to know what in the world displeased you." Gui Qi was trying his best to suppress the anger and hatred in his heart.

It was this person in front of her that had caused her many years of difficulties.

"Alright, I'll give you an answer for this foolish question of yours. That was: I envy you! Why did you have everything when you were born? Why did I have to suffer when I was born? Why are you able to stand in the position of a kind-hearted person and give alms to me? You think yourself noble, but do not know, each time you give is a deep irony to me! The things that I would dream of, the things that I have to work so hard for, you have it all in one sentence. How can I not hate you? "

"In my heart, you are a demon that is used to mock me. The moment I see you, I will tell myself that one day, I will take your place and truly change my own fate! I endured, lay low, and waited for that chance. Killing you wasn't an impulse, it was something that I had planned countless years ago. Esteemed princess? Haha, what a pity, right now you're just a wandering ghost without flesh and blood. Even if you come back, what can you do to me? Right now, I am the Bloodthirsty Great Emperor! "

Maybe it was a matter that had been suppressed by her, but now that she had said it out in front of Gui Qi, she felt extremely refreshed. It was just like when she first killed Gui Qi, she also enjoyed the look of despair in Gui Qi's eyes.

"In other words, the relationship between you and me has always been fake?"

"What kind of friendship? Between you and me, there is only hatred. " The ghost marriage condescendingly said in a tone full of contempt.

"Back then, you were punished by my father for protecting me, and risked your life to save me for my playfulness. Is this all fake?"

The ghost's marriage laughed and said, "Stupid woman, if I don't move you, how could I have the chance to kill you and replace you? and even replaced your father? "

Gui Qi asked a few more questions that she wanted to ask, but the other party made her give up on it little by little. In the end, even Long Chen couldn't stand it anymore. The darkness in the ghost's heart

was simply too strong. He said, "I don't think there's a need to say anything more. You deserve to die too. Whatever decision you make will be up to you. It is because of you that I was able to come to this ancestral star, and have given me so much help. Today, as long as you say it, I will do it for you. "

Before Gui Qi said anything, she smiled brilliantly and said: "You? What are you? Her lover? With a Creation Heroic Spirit? You have such a strong taste. That's enough for today's farce. I think she's treating you as her hope for revenge, so why don't you attack her directly? Her survival is a huge problem for me, and it just so happens that I can take care of all of you in one fell swoop.

When Gui Qi died, she must have made up an excuse. So she actually wanted to kill Long Chen and Gui Qi more than Long Chen to kill them without anyone knowing. That's easy, Long Chen was worried that he would alarm the Master of Ancestral Stars.

"Gui Qi, you're a bitch."

The ghost marriage giggled without restraint. Her red dress fluttered in the blood sea, with a large number of Chaos Treasures s flickering with a seductive light.

After all, this was an ancestral star, and she did not even know Long Chen. In her eyes, Long Chen was just an ordinary Divine Emperor. It was nothing to worry about.

"You seem to want to kill me so much that you've placed great hopes on him. I, on the other hand, like to destroy your hope the most. I'll trample on your dignity and let you experience that kind of pain again!"

Without saying a word, she made her final decision, and directly returned to the Ghost Blood Curse. When she returned, the Ghost Blood Curse was even more bright, and there were even more Swastika Symbol on it.

"Help me kill her."

The voice of Gui Qi was very sad, but at the same time, she had already made her decision. Without any more hesitation, without any more consideration for their relationship, the past days all disappeared like a wisp of smoke in thin air.

And the Ghostly Marriage's charming eyes stared at the Ghostly Blood Curse, emitting a red light over a hundred thousand meters long. She unrestrainedly used her red tongue to lick her lips, and said excitedly: "Gui Qi, you don't know, how excited I am to see you return with the Ghostly Blood Curse! You are truly the lucky star in my life. This is the first time you have brought me the throne of the Bloodthirsty Great Emperor, one of the most precious things in the world! And this time, you sent me a type of Primitive Creation Deity Equipment! How good you are! "In return, I will make sure you die miserably. I will let you be eaten, haha!"

The ghost marriage was laughing too much.

"What does she mean?" Long Chen asked.

"I don't know." Gui Qi's expression was indifferent. Today was a blow to her, but she was also a freshman.

Just as they finished speaking, a blood-red longsword appeared in the hands of Ghostly Marriage's opponent opposite of them. On the blood-red longsword, there were numerous symbols crawling about like poisonous bugs. It was exactly the same as the Ghost Blood Curse. In other words, there was no difference at all!

The only difference was that the other party's Destiny Heroic Spirit wasn't a soul, but a blood-red centipede. Every section of the centipede had a blood-red eye as it climbed onto the blade of the sword and wrapped itself around it, giving it a very ferocious appearance.

Two Ghost and Blood Curses

Long Chen also did not expect such a situation to occur.

"What's going on?" Just as Long Chen was about to ask, Gui Qi was already in a state of shock, and at this time, the other side suddenly burst into laughter, and said: "You naturally wouldn't think that in the period of time that you've swept away the Ghost Blood Curse, I actually found a new Ghost Blood Curse in one of the ruins! The legend was true! The Ghost Blood Curse was originally a Creation Divine Artifact from the primitive level, but it was just separated! Do you know how many years I regretted it when I found this Ghost Blood Curse and lost yours? "But in the end, you still brought it back to me ..."

Chapter 3097 - Bloodthirsty Inheritance

"There is indeed such a legend, but my father seems to think that it was false, so he didn't pay much attention to it. I never thought that she would actually find another Ghost Blood Curse. "

Gui Qi was also very surprised in her heart. Of course, it was because Long Chen already had two kinds of God Manifestation grade primitive level on him. Therefore, in her heart, she did not have any strong feelings towards the Primitive Creation Deity Equipment, but the ghost marriage had gone crazy. She had actually suppressed it for a long time, although she had spoken to Gui Qi, she had actually focused all her attention on the Ghost Blood Curse.

It was obvious that she was going to snatch the Ghost Blood Curse, fuse it, and then become a Creation Divine Artifact of primitive level! Ghost marriage was a woman who thirsted for power and status. primitive level's Creation Divine Artifact allowed her to rank among the top three in Ten Ancestors!

"Heh heh."

Her laughter was filled with desire.

"Looks like I have another reason that forced me to kill her."

Long Chen held onto the Ghost Blood Curse, and when he decided to take action, his eyes instantly turned blood-red. Of course, in order to obtain the Ghost Blood Curse, the Ghost Marriage was even faster. In that instant, she laughed coldly and directly made his move, as the Bloodthirsty Great Emperor, she waved the fatal Ghost Blood Curse, sweeping over and attacking with his ultimate killing move!

"Gui Qi, back then you couldn't even defeat me, so now you should understand how large of a gap there is between us!"

Wherever the Ghost Blood Curse went, the Blood Sea would be torn apart, creating a huge gully. Her rules should have parts to do slaughter, and there should also be parts to curse, combining the two rules together.

Of course, it wasn't a fusion of the two. It was an amplification of one of the two.

"Blood Sacrifice Curse!"

This was completely a type of Rule of Curse that belonged to the type of massacre. It was filled with the confidence of a ghost's marriage, and with the power of a Hierarch, it slashed across the sea of blood. The Swastika Ghost Blood Curse turned blood-red in the midst of the sword aura and mixed with the sword aura. It gradually transformed into a gigantic bloody centipede, charging right in front of Long Chen's eyes!

Among the Hierarchs, the ghost marriage could only be considered pretty good.

Generally speaking, he was only slightly stronger than the Tianyin Region Lord. Compared to Long Chen, the difference was really too huge. Just as the other party had made a move, the moment Long Chen had used his strength for the first time, the Ghostly Marital House had already felt the divine power of Long Chen's primitive level. That was strength that completely exceeded hers!

primitive level!

It was only then that she realized that Long Chen was not the Divine Emperor she had imagined! It could be said that among all the strong practitioners that she had seen, the only one who felt that their aura could suppress Long Chen was the Origin Ancestor.

This kind of feeling, was as if the ant in front of him had suddenly turned into a ferocious beast, and the heart of the devil marriage was instantly thrown into a vortex of astonishment. Before he could even wake up, Long Chen was already like the giant who was thirty thousand meters tall, and was basically squashing him with a crushing posture. While he was fighting here, his fighting strength had increased a lot. Just like now, Long Chen was only using the Death Realm's Killing technique!

However, the power was terrifying!

This is the Death Realm!

The Death Realm unleashed a massacre, gathering the power of the entire Death Realm. He struck his sword out, and that sword condensed into a divine dragon, completely crushing the Blood Sacrifice Curse of the Ghost Marriage. The divine dragon crushed it, and the centipede formed from the Blood Sacrifice Curse crumbled into pieces!

"Kill!"

This move condensed the anger and hatred of Gui Qi, as well as the desire to give up. She was involved in this battle.

She had never forgiven him before, and Long Chen was naturally the same as well. He also hated this ghost marriage. Of course, in order to prevent this ghost marriage from alarming Origin Ancestor, Long Chen needed to finish this quickly! If he showed the slightest mercy to a woman like a ghost marriage, he might be able to deal that fatal blow.

For example, when Gui Qi was nice to her, she would give Gui Qi a fatal blow.

In the time it took for a lightning stone to ignite, they collided onto the body of the ghost marriage. With added to the Death Realm, there was simply no suspense, the Death Realm's massacre had drowned the ghost marriage!

To the Ghostly Marriage and Ghost Qi, this instant seemed to have become incomparably slow.

Gui Qi saw with her own eyes the current Bloodthirsty Great Emperor, with an expression of incomparable fear, unwillingness, and despair, being engulfed and killed by the Death Realm! And this ghost marriage had personally witnessed how strong the other party was! She found it hard to believe. Exactly what kind of dog shit luck did Gui Qi have to be able to make friends with an expert of this level!

Also, who exactly was Long Chen?

Everything that she was proud of shattered with a terrifying speed in front of Long Chen's eyes. With her current realm, she definitely knew that she was already dead.

Fall!

To her, this was something that was originally impossible. And it could also be considered as Gui Qi bringing her death!

To think that the fate of one's life could be so wonderful. It was exactly the same as what he said, karmic retribution! But unfortunately, she didn't even have the time to lament over it. She was directly drowned by Long Chen's Death Realm's massacre, and then, it shattered and dissipated!

In this Death Realm, the rule of Long Chen killing all those in the Death Realm with a single move could have turned her into ashes and disappeared from the face of the earth.

Before death, there was only the long time that Gui Qi and the ghost marriage looked at each other, and in that instant, their eyes changed a lot. The ghost marriage was crazy and unwilling. Gui Qi, on the other hand, felt as if he had been released from a burden. It was this woman in front of him who had made him cold and detached.

Whoosh!

The Bloodthirsty Great Emperor disappeared.

Ghost Qi's heart had changed since then. She had taken her revenge now, but her heart was even heavier.

Following that, Long Chen saw the so-called inheritance in the Death Realm.

The ghost marriage that was beheaded originally turned into ashes, but at this moment, all of the flying ashes actually condensed, under the attraction of a strange character. That was a word that was formed from countless twisted black snakes, and as the characters condensed, it gradually formed into a blood-red colored ball in front of Long Chen.

"As you can see, this is actually a type of Rule of Curse. But it was a good curse that allowed a type of power to be passed down through countless generations without dispersing. "So on our planet, in order to obtain more power, hunting and killing will never end. There are even many strong warriors who have many inheritances in their possession."

The words within the blood colored ball were still flashing. This inheritance was something that Long Chen was unable to grasp, it wasn't hongmengxinling nor was it a Chaos Treasures. However, just like the inheritance of blood essence, it was the core to change one's strength.

The sea of blood quieted down.

"What should I do with the inheritance?"

Not only the inheritance, even the second Ghost Blood Curse, which once belonged to the Marriage Ghosts, was stopped in front of Long Chen's eyes. Seeing that Long Chen was too strong, that Destiny's Heroic Spirit did not dare to run away, trembling, and stayed in front of Long Chen's eyes.

Gui Qi came out from the Blood Curse, and turned to look at Long Chen, her eyes flickering, but she still said, "I seem to have remembered something. In fact, if I compare my current condition with the Destiny Heroic Spirit, I will still be able to get rid of the Ghost Blood Curse. I can try this inheritance. After all, it belongs to me. "

"Without flesh and blood, it can be inherited?"

"Inheritance is itself a part of one's flesh and blood. I'll try. In the Ancestral Star, there is indeed someone who inherited the inheritance through the soul, and then obtained a new body of flesh and blood. "

This inheritance of the Bloodthirsty Great Emperor was an opportunity to change the fate of Gui Qi. Long Chen then allowed her to do as she pleased.

She carefully moved closer to the inheritance and wrapped herself around it. Perhaps because she felt its return, the inheritance let out sounds of pity. That was the mark left behind by her father.

He began to inherit!

Thus, Long Chen's Ghost Blood Curse was thrown away. At this time, the blood colored centipede brought the second Ghost Blood Curse to Long Chen, indicating its submission.

"Is it said that it's a creator of primitive level?"

This was Long Chen's greatest surprise today. At this time, he held the two Ghost Blood Curses in his hand, and when Gui Qi inherited the technique, he combined the two Ghost Blood Curses. At the start, on the two Ghost Blood Curses, the black symbol with the word swan started to spread towards the other party's body, and there was a slight difference between the two symbols, as Long Chen's previous one was darker in color.

In the beginning, it was a mix of two Swastika Symbols, and the two symbols continuously blended and changed, crowding onto the two swords like poisonous bugs. Then, the two Ghost Blood Curses started to turn into liquid water and truly merged, becoming a ball of blood filled with Ghost Blood Curses. When the two symbols merged together, it seemed to trigger some sort of mechanism, but also like two broken weapons.

All of a sudden, the entire Death Realm was celebrating the transformation of the Ghost Blood Curse. In the midst of the shaking of the world, another rare divine weapon was born!

The ball of blood in front of Long Chen became a new Ghost Blood Curse. Compared to the previous sword body, the sword body was much more imposing and ferocious. Compared to the Great Void Demon Sword, the advantage of the Ghost Blood Curse was that it had an extraordinary lethality and deterrence. All of this proved that this was a super divine creation weapon that brought about death!

primitive level!

The Ghost Blood Curse, Primeval Dragon Pagoda, and the Great Void Demon Sword!

It was very possible that Long Chen was the only person in the entire Ten Thousand Worlds who possessed three kinds of Primitive Creation Deity Equipment!

Amongst them, the Ghost Blood Curse suited his tastes the best. This was the Sword of Slaughter!

With this new Ghost Blood Curse, Long Chen had an imposing aura that could destroy all living beings.

The scarlet centipede was nourished greatly within the Ghost Blood Curse. Now that it had crawled out of the Blood Curse, it had grown much stronger. Its countless blood-red eyes were even more sinister and fiendish!

At this time, Long Chen looked at the other side, where Gui Qi's inheritance seemed to have come to an end. After enduring so much suffering, Long Chen actually hoped that she would be able to become the new Bloodthirsty Great Emperor.

Stay here.

Chapter 3098 - The Emperor returns

On the other hand, Long Chen did not know how she could replace the Destiny Heroic Spirit within the Blood Spell and become the new Destiny Heroic Spirit, nor did he know how he could break free from the Destiny Heroic Spirit now.

This was the special ability of their Ancestral Star Fiendgods.

Inheritance was also a mysterious thing. When Long Chen put away the Ghost Blood Curse, he saw that Gui Qi was almost done. She and the inheritance had fused into one, using the inheritance to create a new body, and then began to grow at a visible rate. Not long after, a new life was born in front of Long Chen's eyes.

Coldness, pride, she was born with the demeanor of an empress.

It was similar to a ghost's marriage, but she was not a ghost's marriage. However, when she opened her eyes, one could see the purity within them.

She used a strange gaze to look at her surroundings, and in the end, her gaze focused on Long Chen, as if she had relaxed quite a bit. She sighed in relief, and said: "Actually, I didn't have much confidence in succeeding, I never expected that I actually succeeded."

Her current realm, fixed at Extreme Realm Divine Emperor, was not considered strong. But the Ancestor had a rule that as long as a successor to the Ancestor Realm was not at the realm of the Hierarch, no one could be killed. Otherwise, they would be chased down and killed by the Ten Ancestors.

Looking at his brand-new flesh and blood, Gui Qi had a kind of absent-minded feeling.

Of course, this was common for Long Chen. Ling Xi's current body was made from Nine Celestial Spirit Fruit s from the very beginning. Of course, the body that was created at that time and the divine body that Gui Qi achieved, were simply not the same thing. After going through many forgings, Ling Xi's current divine body was stronger than the sea that Gui Qi agglomerated into.

"Before long, I might become a Hierarch." After all, she had inherited the Ancestor's legacy.

She gently turned her head, and when she thought about the matter of the ghost marriage, she could not help but feel sad. However, she knew that there were some things in a person that they would never be able to return to.

"This is the Ghost Blood Curse of primitive level."

Long Chen showed her the Ghostly Blood Curse.

Although the Ghost Blood Curse was something that belonged to their Emperor Blood Star, it was impossible for her to use it now, unless she stabilized the realm of the Hierarchy. Therefore, Long Chen did not plan to return it to her first.

"How terrifying!"

After she finished reading, Gui Qi was slightly startled.

After looking for a while, Gui Qi was not very interested. Instead, she asked Long Chen: "Alright, it's settled now. What do you think we should do?"

Actually, Long Chen was also thinking about this problem.

"Right now, there probably isn't anyone who has been alerted yet."

Long Chen thought for a while, then said: "The ghost marriage has been missing for a long time. Others will doubt it. You have been away from here for too long, so you must want to return to your homeland in broad daylight. Rather than hiding, I feel that it would be better for you to just return to Blood Emperor Star to be this Bloodthirsty Great Emperor to protect your homeland. "At the same time, we will have a base of operations on this planet."

From Gui Qi's eyes, it could be seen that she definitely wanted to return here. She openly accepted the inheritance left behind by her father. But she still worriedly asked, "I am only in the Divine Emperor now, and yet I obtained the inheritance. They will definitely be curious where I have been all these years, and just who helped me settle the matter of the ghost marriage. Wouldn't that be very troublesome? "

Long Chen thought for a while, then said: "Actually, it doesn't matter, let them suspect. Wasn't it good to create a sense of mystery? In this way, they will instead be afraid of you. "

Actually, Long Chen understood that even if Gui Qi did not appear, because of the disappearance of the ghost marriage, this Ancestral Star would still be in great turmoil. The Origin Ancestor would also be able to guess that there was an invasion. The entire ancestral star would be on guard as well. So the result was the same.

"Alright, then we'll do as you say."

For a return, Gui Qi still had some expectations.

To Long Chen, at least he could openly search the entire Emperor Blood Star, and see if there were any ancestral dragon-inherited blood's whereabouts. In addition, this way, Gui Qi would be able to join the whirlpool of the Ancestral Star. He would be able to recall and hear more news about the God Dragon Curse.

In the blink of an eye, Long Chen and Gui Qi returned to the Blood-Thirsty Imperial Palace.

In total, less than two hours had passed, but there were still no movements in the Blood-Thirsty Imperial Palace. Long Chen didn't need to appear by her side, he immediately transformed into a pendant and hung it on Gui Qi's body.

"Go and get everything that belongs to you."

"Fine, I'll go to 'Blood Demon Pagoda', knock down 'bloodthirsty clock', summon all experts of the Emperor Blood Star that are at least at Divine Emperor and announce it to the world. From now on, I'll be the new Bloodthirsty Great Emperor!"

Gui Qi directly went over.

Long Chen knew that it was likely that the other Ten Ancestors would also appear after it was announced.

For example, the Shadow Dream Charm Dragon's inherited blood essence was in the hands of the Notre Dame de Nine, so there was a certain probability that someone on the Ancestral Star had obtained the inherited blood essence of the prehistoric Swastika Dragon in the universe.

Before long, Long Chen saw the Blood Demon Tower. Above the Blood Demon Tower, there was a huge blood-colored bell, and it was called the bloodthirsty clock. Amongst the bloodthirsty clock, there was a

person standing guard there. It was a Divine Emperor. Divine Emperor had originally had his eyes closed, but when Gui Qi approached, he suddenly opened his eyes, and when he saw Gui Qi's appearance, his face instantly changed!

"Ghost Qi!"

"Is that you?" Gong Yi. "

"It's me! Didn't you die!"

Gong Yi had an expression of disbelief.

At this time, Gui Qi was already standing in front of him, but she did not respond to him, and instead extended her hand and knocked on the bloodthirsty clock, and in that moment, the entire bloodthirsty clock became loud, and released a loud dang dang dang sound, and instantly pierced through the entire Emperor Blood Star, all the myriad of lives on the Emperor Blood Star, and all of them were shaken by the bloodthirsty clock's voice.

"It's the Bloodthirsty Great Emperor's summon!"

"Ghost Qi!"

Gong Yi was completely unable to move. His duty was to not let anyone touch this bloodthirsty clock, but he did not dare to stop them at all. It was not that Gui Qi was too strong, but he had never been able to forget this former princess.

"Princess!"

Gong Yi knelt on the ground, his eyes full of tears as he said, "You're finally back. No matter what, Gong Yi is still the same as before, serving at the front and rear of your horse. "

"Alright." This was one of her former guards.

Although she was cold, the feelings in her heart were strong.

Time quietly passed, and all the Divine Emperor in the entire Emperor Blood Star headed towards the Blood Demon Tower.

"Who was it that knocked on the bloodthirsty clock!?"

"Where's the Emperor!"

"The Emperor isn't here. Gong Yi, just who sounded the bell to the bloodthirsty clock?!"

In a short period of time, all of the Divine Emperor on the Emperor Blood Star were gathered nearby. They had surrounded the place, and were looking in the direction of the Blood-Thirsty Imperial Palace, but there was no one coming from the direction of the Blood-Thirsty Imperial Palace.

"The Great Emperor is beside the bloodthirsty clock?"

For a moment, everyone could feel the might that belonged to the Bloodthirsty Great Emperor.

But the strange thing was, why didn't it seem like a ghost marriage?

When everyone gathered, Gui Qi knew that it was time. She had come from the side of the bloodthirsty clock, and exposed herself to all of the Divine Emperor s. The moment she saw her, all of the Divine Emperor s nearly suffocated.

Their expressions were mixed with shock and surprise!

With just a glance, Gui Qi could see that those people truly cared for her, and were waiting for her return.

"Princess Ghost Qi!"

"Didn't they say that he had fallen?"

"Why did it appear again!"

"Where's the Emperor!"

After being shocked, many people started to look for the location of the Bloodthirsty Great Emperor's Ghost Marriage.

"There's no need to look for her, I've already killed her."

Gui Qi announced and at the same time, displayed the aura of a Bloodthirsty Great Emperor. If the ghost marriage didn't die, then it was impossible for Gui Qi to obtain it. So, when Gui Qi said these words, even if others didn't believe it, they would still know that this was a fact, a truth that was hard to believe!

"Everyone, that year, when the old Bloodthirsty Great Emperor perished and the Bloodthirsty Emperor returned, an important matter occurred at that critical moment. That was that Princess Ghost Qi disappeared and we were unable to search for his for many years, but in the end we confirmed that he accidentally entered the Blood Fiend Star Region and was burnt to death by the Blood Fiend Star Region. However, none of you know the truth! "

"The truth is, on that day, Princess Gui Qi's most trusted marriage of ghosts, at that moment of Princess Gui Qi's sadness, she pierced the Ghost Blood Curse into her body, causing her to turn into ashes, and the remnant soul escaped into the Ghost Blood Curse. It brought the Ghost Blood Curse to wander around the endless starry sky, and after going through countless hardships, it finally returned today.

After saying that, Gong Yi's gaze swept across the crowd, and he said in a stern voice, "Ghost marriages are cruel, you do not have the qualifications to be the Bloodthirsty Great Emperor, and you have murdered the princess. You deserve to die a thousand times for your crimes, and after becoming an emperor, you will not have any contributions to the Emperor's Blood Star. Furthermore, he doesn't have the qualifications to become the Bloodthirsty Great Emperor, and now that Princess Gui Qi has once again become the Bloodthirsty Great Emperor, if there are people who are unsatisfied, then he can have the remnants of the ghost's marriage destroyed! "

Before the various Divine Emperor s had arrived, Gui Qi and Gong Yi had conversed for a bit, causing the other party to naturally have hot tears in their eyes.

In the Divine Emperor, most of the people were still loyal to Gui Qi's father. When they heard about Gui Qi's situation, they became angry, but luckily, Gui Qi had already killed the ghost marriage, so most of the Divine Emperor's people quickly knelt on the ground.

"Greetings Bloodthirsty Great Emperor!"

In an instant, more and more Divine Emperor kneeled down.

No one was stupid. First of all, Gui Qi had already received the Bloodthirsty Inheritance, so no one could shake her position. Offending her now was simply courting death.

All the Divine Emperor s submitted, including those who were loyal to the ghost marriage. Now that the marriage of a ghost was gone, naturally no one would bother with her. Furthermore, she came from a humble background, so many Divine Emperor did not agree to let her become a Bloodthirsty Great Emperor in the beginning.

"From today on, I, Gui Qi will regain control of the Emperor Blood Star! All Divine Emperor, listen to my command. "

"Yes sir!"

"I need to reform Emperor Blood Star for a period of time. What about you?"

After he was done, Gui Qi asked.

Long Chen said: "Then, I will first look through this Emperor Blood Star to see if there is anything I want to find."

Chapter 3099 - Descent of the Origin Ancestor

Under the forceful execution of Gui Qi, the Emperor Blood Star in her homeland gradually returned to her control. Numerous Divine Emperor had declared that her existence and story had quickly spread to the ears of the entire Emperor Blood Star's Blood Clan.

On Emperor Blood Star, Gui Qi was worthy of her title, as the new Bloodthirsty Great Emperor. Ghost marriage was not a good reputation on the Emperor Blood Star in the first place. In this way, Gui Qi could be considered to be everyone's wish.

Long Chen spent a few days to search every nook and cranny of the planet. However, there was no news of the prehistoric Swastika Dragons in the universe. However, as expected, after the news regarding the Emperor Blood Star spread throughout the entire Ancestral Star, other than Gui Qi, all the other Ten

Ancestors were stirred. Among them, the Origin Ancestor that Long Chen was most curious about was far away from the Ancestral Star, but he directly talked with Gui Qi!

On that day, after clearing 10,000 miles, thousands of blood-red clouds began to condense above the surging sea of Blood Star Emperor's body. Finally, a gigantic face appeared above Blood-Thirsty Imperial Palace's head.

It was an empty void, a void that made one feel like they were old, but if one looked carefully, he would be able to see that the blood colored clouds that formed this part of the face were all weirdly written, twisted and hideous, like a blood colored poisonous snake.

"Greetings Origin Ancestor!"

Upon seeing this gigantic face, especially on this powerful and strict Ancestral Star, anyone who saw it immediately fell to their knees, prostrated to the ground. He was incomparably devout, without a trace of doubt.

At this time, Long Chen had searched through all over the Emperor Blood Star, and returned to Gui Qi's side. When the Origin Ancestor descended, he quickly turned into a pendant and attached it to Gui Qi's body, and Gui Qi left without saying a word. On this Ancestral Star, the Origin Ancestor was the ruler, the emperor. The other nine emperors had to be under her command.

"Gui Qi greets Origin Ancestor."

Just as he walked out of the Blood-Thirsty Imperial Palace, Gui Qi kneeled on the ground, similarly incomparably devout. Even if the Origin Ancestor was the enemy of her father.

Long Chen asked her if he wanted revenge. Although he did not reply, Long Chen could tell that she was still rather unwilling about her father's death.

Of course, she didn't show it at this moment.

"This Origin Ancestor should really want to know how exactly Gui Qi did it, and whether she has any helpers."

Long Chen looked at the face in front of him. In reality, the Origin Ancestor was still in the Ancestral Star, and this was only his rule. So Long Chen was sure that he couldn't feel his. The Origin Ancestor stared at

Gui Qi, and used his ancient voice to say: "Gui Qi, welcome back. When I saw you, I thought of your father. Back then, I was truly regretful. However, fate is fair. You are still returning, and you have obtained the congratulations that originally belonged to you. "It's a great honor for your father."

"Yes, Origin Ancestor."

Gui Qi remained calm and said in a stiff voice.

When Origin Ancestor spoke, no one dared to move. Demon Qi also didn't get up.

"It is a great thing that you have returned. However, according to the rules of our ancestral star, even though you have obtained the inheritance, you still have to follow the rules, and obtain the recognition of the other great emperors and myself before you are qualified to become the Bloodthirsty Great Emperor. From today onwards, you will pay a visit to each of the other great emperors. If you are able to pass their trials and gain the approval of more than half of the emperors, then come to my ancestral star and let me personally visit you. "

After speaking, the clouds that had condensed into the Origin Ancestor began to dissipate.

whooshing

In the blink of an eye, the entire Emperor Blood Star once again had a sunny day.

However, everyone's hearts were drenched in cold sweat. After all, this Origin Ancestor was a terrifying figure from ancient times until now. If they truly angered him, as long as he uttered a single curse, the entire planet's people would suffer. There was once a Hierarch who wanted to rebel, but in the end, he was forced to carry out a curse that had been tormented by the Origin Ancestor for millions of years. No one on the entire planet was spared.

Only after Gui Qi knelt for the last time did he stand up.

"What does he mean?" Long Chen asked curiously.

Gui Qi shook her head helplessly and said, "That is also the rule of the Ancestral Star. Every single person who had just obtained the inheritance of the Emperor needed to go through it, and that was to obtain

the acknowledgement of the others in the Ten Ancestors. I need to visit them one by one. They will test my strength, talent, personality, leadership and so on. In short, to get their acknowledgement, defeating them is impossible. After all, almost all of them are on the level of a Hierarch. "

He frowned slightly and said: "These damned fellows, in the past, the inheritors of the nine great emperors would all mutually protect each other. In this test, everyone will remember the relationship, after all, every great Emperor will eventually pass on their legacy. If he made things difficult for others now, then others would make things difficult for him. But it has been too long since I have returned, and I can feel the enmity within the Origin Ancestor. Under his orders, it will be difficult for me to pass the trials of other great emperors! "

If there was no Emperor's approval, then it would mean that Gui Qi's aptitude was really too poor, then the Origin Ancestor had the authority to cripple her, and pass down the position of Emperor to the appropriate people.

"Long Chen, I don't want to just throw this thing away like that. I can't let my father down. "

Gui Qi looked at Long Chen with her beautiful eyes, and her heart was filled with pleading. Seeing her troubled look, Long Chen actually laughed and said: "The Emperor Blood Star doesn't have anything I want to look for. This rule of yours, actually gave me a fair and square opportunity to go look for you in the other companion star. Every time you go to a place, I'll look for it. As for the trials of the Emperors, rest assured, leave it to me. "

"How are you going to help me?" Gui Qi asked curiously.

"Just keep it a secret."

"There won't be any problems, right?"

"As you wish."

Long Chen was still in a good mood, but he was actually still thinking about the Origin Ancestor that just appeared.

"This old fellow definitely knows that Gui Qi has a strange thing by her side, she might have a helper." Guess there was someone like me. Therefore, while he was on his way to the other companion star, he should be able to take this opportunity to observe. This person is extremely cautious. If he does not understand his opponent, then he will not easily take action. If it was me, I think I would not be able to hold back and directly come out to threaten Gui Qi. "

Thinking about it carefully, he had once crossed swords with Sky God Lu Wang, so he might think of Long Chen as Sky God Lu Wang.

"There are Life and Death Realms, but he can't do anything to me. I can try to use my identity as Gui Qi to search for these two key things ..."

Actually, the reason Long Chen came here was to ask him about the Rule of Curse. After Origin Ancestor left, Gui Qi helped Long Chen with the questions, "The entire ancestral star may have the Blood Clan, Ghost Clan, and Cursed Clan. But it was not just the curses that contained the Rule of Curse. In truth, the three clans were all skilled, but with slight differences. For example, we, the Blood Tribe, are experts in blood curses. For example, the Blood Sacrifice Curse and Ghost Blood Curse are all types of blood curse. "

"The Ghost Clan specializes in the 'Hell's Spell'. Hell's curse is cold, strange, ever-changing, and even scarier than our blood curse. Of course, there was a huge gap between him and the Cursed Clan, who were experts in curses and were born for curses. The Cursed Clan was proficient in Heavenly Curses. The divine incantation encompassed everything, its usage was endless. It was the root of the curse. Heaven curses are not as cold as blood and hell curses. But it is actually not as good as the Heavenly Curse. "

"From what I've said, the kind of existence that can seal an existence for more than a era and forever be trapped in a whirlpool of pain without being able to escape. What kind of curse is this? "

"This ..."

Gui Qi was deeply shocked, and after a long while, she said, "From the look of it, it should be a type of Sky Curse, and it could also be used in combination with three other types. The level of power that you are talking about is actually beyond my imagination. According to what I know, even if it's the Origin Ancestor s, the limit should only be a million years. In addition, there were restrictions placed on the opponents as well. I wonder how strong the existences you know are? "

How strong were the dragons?

She was already very familiar with herself, so Long Chen could easily tell her, "There are hundreds of millions of people, and there are many among them that are far stronger than the rest of the Ten Thousand Worlds combined."

Gui Qi was frightened.

Her red eyes flashed for a long time before she said, "It sounds too exaggerated. This is indeed a curse, but Ancestral Stars are the birthplace of the Rule of Curse. According to what I know, it is absolutely impossible for the Origin Ancestor to accomplish this, and we need to become much stronger than the Origin Ancestor, or even obtain 'Da Na ancestral realm' to accomplish it. "

"So, is there a way to break it?"

Gui Qi decisively shook her head and said, "It must be impossible. There are no longer any strong practitioners from the ancestral realm in the Ten Thousand Realms. Although he did not know why, there was no such existence. In any case, I don't know, and the other emperors probably don't know either. Right now, Origin Ancestor is the person who understands the entire Ancestral Star the best.

Long Chen finally understood.

"It looks like I have to go to every planet to find the inherited blood essence. However, the way to remove the curse can only be relied on the Origin Ancestor. I will either be able to defeat the Origin Ancestor or be able to make him interested in something to trade with. It will definitely be impossible for me to convince him to help me. "

Therefore, Origin Ancestor was a super strong warrior who had no choice but to fight, a ruler!

Long Chen made his decision, he would first look for the inherited blood essence.

"Who's the first target?"

Gui Qi looked to the east and said, "The closest will be the first round. On the left was the 'The Great Star of the Gods'. It was one of the gathering places of the Ghost Clan. There was 'The Great God and the Ghost Emperor' on it. The The Great God and the Ghost Emperor was an expert of the Hierarchy

level. It was definitely much stronger than a ghost marriage. Are you sure you can let me pass his test? He definitely doesn't like me, and there's nothing you can do to help him fight directly. "

Long Chen remained suspenseful and said, "Let's go. We have to leave earlier and get it done earlier. "

"Don't let me know, stingy."

In truth, Gui Qi was still a child. She had been depressed for the past few days and had settled many matters. Now that she had Long Chen to protect her, she was much happier. The two of them immediately went to The Great Star of the Gods at the side!

Chapter 3100 - The Great God and the Ghost Emperor

Compared to Emperor Blood Star, the The Great Star of the Gods was about one third bigger. From afar, the Emperor Blood Star looked like a huge blood ball, rolling around the ancestral star. The The Great Star of the Gods, on the other hand, was a sinister and evil fog. If the evil fog was taken into account, the size of the The Great Star of the Gods would be even larger.

The entire The Great Star of the Gods was like a mouth that was opened around an ancestral star. Of course, the direction of devour was towards the outside of the ancestral star.

Although Gui Qi had left in a rather secretive manner, the other gods on the planet were naturally clear that she was going to start visiting the eight great emperors and Origin Ancestors. This was related to the honor of planet Emperor Blood, it was related to the fate of every living being. When the other gods saw that they had left, the levels above Divine Emperor basically followed along because they had Long Chen as their backer, so Gui Qi did not reject them.

"Great Emperor Princess, we are willing to fight side by side with you!"

"No matter who it is, they won't be able to bully the people of Planet Emperor Blood! Although we are not considered strong amongst the nine companion star, we are not easy to bully! "

"Emperor, we believe in you!"

Gui Qi had also shouldered some pressure, and these pressure made her a little suspicious, just what was Long Chen going to do? After all, he wasn't himself, he couldn't possibly be tested by the various emperors in his place!

No matter what, the The Great Star of the Gods had arrived. Gui Qi brought the vast army of Divine Emperor s to the The Great Star of the Gods. As for the The Great Star of the Gods's side, they must have obtained the orders from the Origin Ancestor, so they were already waiting for them.

"The Ghost Clan is extremely complicated and filled with all sorts of strange things. There are Crosscut Ghost, Yellow Springs Ghost, Canghai Ghost, Forgetfulness Ghost, Abyss Ghost, and so on. If we carefully calculate them, there should be thousands of them. They are skilled in Hell's Spells and have a tyrannical physical body, so their talent is much better than mine. Actually, all of us are called the Blood Curse Tribe, they are the Ghost Curse Tribe. The Ghost Clan of the Blood Race was only shortened to the Ghost Clan of the Blood Race. "

Before their arrival, Gui Qi had always been viciously replenishing Long Chen's common sense.

"Then which race does the The Great God and the Ghost Emperor belong to?"

Gui Qi said: "He can't be considered to be from any race, it should be because the inheritance to the The Great God and the Ghost Emperor has its own special place. As long as it's a Ghost Clan, as long as they inherit the position of Emperor, they would basically become a gathering place for over a thousand races of the Ghost Curse Tribe. You'll know when you see it. The Great God and the Ghost Emperor will definitely not let me pass this time. "

Long Chen nodded, and said indifferently: "Then we'll have to see if he passes or not."

He looked down at the gradually clearer The Great Star of the Gods below, and said again, "Origin Ancestor should be keeping an eye on us, right? Say less words, so as to not reveal any flaws."

"Alright."

In their eyes, this turbid world had appeared and expanded. In the midst of the black fog, there were faint ghostly wails and wolfish howls. It was as if the entire The Great Star of the Gods was submerged in a terrifying curse, where there were countless vengeful spirits. There were various Ghost Clan members

who were already beside Long Chen and the others, and there were even Divine Emperor s among them.

As they created an atmosphere that oppressed Long Chen and the others, they mocked them.

"Look, that's the new Bloodthirsty Great Emperor, just a Divine Emperor."

"I know her, isn't it just a Phantom Qi? She was too unreasonable in the past. No one dared to provoke her, but after her father was killed by the Origin Ancestor, her own life was rumored to have been taken by a ghost through betrayal, truly a pitiful bug! "

"Yeah, it's not easy to become a Bloodthirsty Great Emperor now, but it's said that the situation has changed a bit this time. Not many people are willing to sell themselves to this planet." Who told them to be so weak, to be so good at tormenting? Our The Great God and the Ghost Emperor has been here for so many years, how could something have happened to us? "

Along the way, all kinds of Ghost Curse Tribe members were surrounding him, their words were sharp, without a single trace of mercy. They were all attitude that did not put Gui Qi in their eyes at all. The The Great God and the Ghost Emperor is waiting for her at the Spirit Ghost Island, everyone quickly go over, this is a chance to see another Great Emperor make a fool of himself! "Emperor Blood Star and those useless bastards, it's time to give in!"

"That's right. The last two times, women became great emperors, but they would be useless if they weren't."

The spirit demons of the The Great Star of the Gods were all unbridled, causing the Emperor Blood Star's Divine Emperor s to be enraged, but without Gui Qi's order, they could not go against these little devils on the road, it would still be considered losing their identity. Moreover, they were actually very worried in their hearts. Maybe the Origin Ancestor wanted to take control of the Emperor Blood Star himself because he knew that the situation was bad?

After all, there were people who guessed that the Ghost Marriage was possible to become a Bloodthirsty Great Emperor, and that it was possible for the Origin Ancestor to add fuel to the fire. The Origin Ancestor definitely did not wish for the position of the person whom he had killed to become a threat.

Now that Gui Qi had returned, the other eight great emperors, in order to curry favor with the Origin Ancestor, would obviously be very strict and would have to be very harsh on him.

"You are Demon Qi. I remember when you were young, you called me uncle. "

In the blink of an eye, Gui Qi arrived at the God Ghost Island, which was a floating island in the center of the entire The Great Star of the Gods. Although it was called an island, it was still almost the size of a Dragon Sacrifice Continent.

On this Godly Ghost Island, there was a large number of Ghost Curse Tribe hiding in a large circle. And at the core position, all the Rankers in the The Great Star of the Gods were gathered here, spreading out in a circular area, leaving Long Chen and the others only a small space.

There were a lot more Divine Emperor than the number on Emperor Blood Star. Long Chen looked carefully and confirmed that the Ghost Curse Tribe and the Blood Curse Tribe were indeed completely different. There were even minotaur spirits, horse-faced ghost spirits, and more. Almost all of the powerful beings of the Ghost Clan were gathered here. The fierceness of the Ghost Clan still suppressed the Blood Race, especially with their powerful and robust divine bodies. They even surpassed them, so it was as if Gui Qi and the others were a flock of sheep entering a wolf's nest.

The one who spoke was a Hierarchy. He looked like a fair-faced kid standing in the middle of the group, but he was still a far cry from all the other ugly ghosts around him. His voice was shrill and his skin was pale. He squinted at Gui Qi with a playful smile on his face.

"Now that you and I are considered members of the Ten Ancestors, I will no longer call you uncle." The other party was using seniority to suppress them. Gui Qi wasn't courteous at all, and so she resolutely replied. At this time, they had already landed, and even though the area was not large, everyone's eyes were burning with passion. For the time being, they could still fight against the Ghost Blood Curse. "No matter what, I can't change the fact that you're just a little girl, so don't fight with uncle." The Great God and the Ghost Emperor said while laughing. Hearing these teasing words, the surrounding hundred thousand ghost clan members began to roar with laughter, just like a hooligan.

"That's right, I wonder if all my hair has grown up yet."

"Little girl, what kind of emperor are you talking about? Why don't you go back and drink some milk?" I see that on Emperor Blood Star, there are no longer people with the slightest bit of backbone. To think that a little girl would be allowed to become Bloodthirsty Great Emperor. "

Not only did they suppress Gui Qi, they even ridiculed all of the Blood Clans of the Emperor Blood Star. As these words came out, the atmosphere immediately became tense, the Blood Clansmen Divine Emperor's eyes were already filled with killing intent.

"Everyone, don't move. They are shameless and despicable. If we were to pay attention to them, the clowns would only act even more aggressively." I came here today to accept the The Great God and the Ghost Emperor's trial, and I hope you don't say anything useless, if you truly have the ability, you can take it out. " The other side's insults were unpleasant to hear, and even Gui Qi was annoyed. She wasn't someone who was easy to mess with.

Before this, Long Chen was actually still searching for ancestral dragon-inherited blood on the Emperor Blood Star. Seeing that he was almost there, he returned. As expected, the moment he returned, The Great God and the Ghost Emperor waved his arm, and in that instant, all the Ghost Clan members scattered with cold smiles, avoiding the space where they could fight.

"Humph, you refuse a toast only to be punished."

"I really thought that I was already a Bloodthirsty Great Emperor."

"A mere Divine Emperor. If he were to kneel and beg for mercy, the Emperor would definitely let her pass. "He doesn't know what's good for him, he deserves to be tormented."

The Ghost Clan Divine Emperor s' laughter was extremely unpleasant to hear, but Gui Qi did not care, and asked the Emperor Blood Star Divine Emperor s to retreat.

"You don't have to worry, just watch. I can kill ghosts and marriages, why would I be afraid of him? "

Hearing Gui Qi say this, they finally weren't worried anymore. In fact, Gui Qi was praying in her heart, she was praying for Long Chen to be able to help her without changing his expression!

"It's all up to you."

With her Divine Emperor's ability, she definitely didn't even have the strength to resist The Great God and the Ghost Emperor!

"Don't worry, just do as I say." Long Chen looked at the The Great God and the Ghost Emperor, and the corners of his mouth curled into a smile. At this time, the The Great God and the Ghost Emperor had the

same expression, as he could see through Gui Qi with a single glance. Of course, he only needed Gui Qi to be humiliated.

"Little girl, today Uncle will show you what a true Great Emperor is!"

The Great God and the Ghost Emperor did not say anything, but his eyes were conveying this message. Such arrogance had the foundation of strength!

"Humph!"

According to Long Chen's instructions, Gui Qi was imitating Long Chen's actions of opening the Death Realm's Dragon Gate. Then, he entered the Death Realm's Dragon Gate and disappeared before everyone's eyes. At this time, everyone was stunned, especially the The Great God and the Ghost Emperor!

"Where did he go?!"

The Great God and the Ghost Emperor looked carefully.

"Are you blind?" In the blink of an eye, Gui Qi appeared before him again. This time, Gui Qi's appearance caused The Great God and the Ghost Emperor to be startled. He discovered that Gui Qi seemed to be a little different, but he couldn't figure out where it was different. It was just that he felt a sense of danger in his heart, an extremely strange feeling!

"Don't worry about it, Origin Ancestor's meaning is to force the existence behind this guy's back. The Great God and the Ghost Emperor roared. Immediately, the The Great Star of the Gods he controlled was trembling because of him, and right now, with an angry howl, the winds and clouds tumbled, making him look ghastly, and the The Great God and the Ghost Emperor was not courteous in the slightest. His handsome body, however, had undergone a huge change at this moment!

In an instant, a thirty thousand meter tall giant appeared in front of Long Chen, who had turned into a ghost.

This giant was actually quite disgusting. This was because there were at least a thousand of them, and there was only one of each type. Their bodies could be considered to be sewn together. For example, on their heads, even their mouths were made up of the bodies of two ghosts.

The most important thing was that all of these thousand plus Ghost Clan members were still alive. Their eyes were all wide open as they looked at Long Chen with sinister and scornful eyes.
