

War God 3101

Chapter 3101 - Unparalleled Curse of the Ghost God

The 30,000-meter tall giant body of the The Great God and the Ghost Emperor was formed from the bodies of over a thousand types of Ghost Clan beings. It was clearly just a single existence, but every part of the Ghost Clan's body was lifelike, causing people to gasp in admiration and fear.

Seeing the appearance of the The Great God and the Ghost Emperor, countless of ghost clan members were anxious, they kneeled on the ground and screamed out, their eyes blazing with fanaticism.

"Roar!"

In front of Long Chen, The Great God and the Ghost Emperor roared angrily. It was a very chaotic roar, because it seemed like the roars of over a thousand people came from the mouths of the thousand people on his body. The sound alone was enough to send chills down one's spine.

"Are you scared?" Long Chen had changed into the form of a spirit, using the tone of a spirit to sneer.

Actually, the biggest benefit of his current state was that he could now use his own rules, because no one knew what capabilities Gui Qi had, nor did they know that a person like Long Chen existed, so they would believe that the current Long Chen was the real Gui Qi.

"How is this possible!"

Compared to the current The Great God and the Ghost Emperor, Long Chen was as small as a speck of dust! Right at this moment, the The Great God and the Ghost Emperor decided to not show any mercy. Even if he accidentally killed Gui Qi, he was not afraid.

He couldn't deny that at this time, he felt that even though Gui Qi was still the same, it made him feel that it was too dangerous.

"Die!"

In an instant, the giant became active, wailing like ghosts and howling like wolves. A black symbol appeared on every body of the Ghost Clan, and started to twist and transform, it was a vicious spell from

the ancient times. In an instant, all the Ghost Clan on The Great God and the Ghost Emperor were chanting the same incantation, which was a method to activate the Rule of Curse that was passed down from the ancient times.

The voices of over a thousand people were like poisonous snakes and nightmares, everywhere, making people's hearts tremble. For a moment, the world changed color, and even the Blood Clan Divine Emperor s in the distance were affected as they resisted with all their strength. At the same time, countless of Ghost Clan members started dancing happily as they cheered for the The Great God and the Ghost Emperor. Their faces were filled with the glory and pride of the Ghost Clan, causing the Blood Clan Divine Emperor s to be enraged to the extreme.

"Unparalleled Curse of the Gods and Demons!"

The Great God and the Ghost Emperor finally appeared in front of Gui Qi, and without hesitation, he used his killing move. When the Code erupted, all of the Ghostly Clansmen's bodies condensed into a symbol, and the giant instantly turned into more than one thousand symbols. Only then did Long Chen realize that the The Great God and the Ghost Emperor did not actually grow larger, but when all of the Ghostly Clans transformed into the symbol of a curse, he had already appeared at the location of his brain.

"Kacha!"

In the midst of the powerful momentum, the The Great God and the Ghost Emperor gathered over a thousand symbols, which condensed the cursed killing intent of the large clans of the Ghost Clan, gathering the thousands of symbols into one body, forming a ray of pitch black light in his hand. The light was like a venomous snake, it was extremely terrifying, the eyes of the The Great God and the Ghost Emperor looked down, as though Long Chen's life and death was in his hands!

This was the Ghost Clan's Hell Mantra.

The The Great God and the Ghost Emperor held onto the black light, his eyes cold. In the midst of the millions of Ghosts, who were merrily laughing, he pierced through the black curse light like a spear. The black light instantly spanned across the endless space and time, bringing about a fatal crisis to Long Chen. It had to be said that this The Great God and the Ghost Emperor was not bad!

Just this rule alone could be considered one of the upper echelons of the Hierarchy!

"Little girl, get lost!"

For a moment, endless laughter rang out.

The Ghost Clan's victory was within his grasp.

Only now did Long Chen have a reaction, everyone felt that he was already afraid. In the blink of an eye, a blood-red Creation Divine Artifact appeared in Long Chen's hands. When this Divine Creation Artifact appeared, it was as if the entire The Great Star of the Gods had fallen into a deathly silence!

"primitive level's Ghost Blood Curse!"

For a moment, cries of alarm were everywhere!

In the midst of his screams, Long Chen moved swiftly and cleanly, the moment she raised the Ghost Blood Curse, the blood sea of the Death Realm behind her surged, countless of blood ocean rumbled, as though it was another The Great Star of the Gods. All the power in the world was unleashed from the third eye between Long Chen's eyebrows, condensing into the Ghost Blood Curse!

"The Death Realm is killing us!"

With a slash of his sword, a dragon-shaped sword aura rushed forward. In an unlimited amount of time, it collided with the Ghost Great Emperor's Ghost God's invincible curse. The huge impact caused the entire The Great Star of the Gods to tremble!

"A stalemate?"

Everyone was shocked, they were shocked by the power displayed by Gui Qi! After all, that was a Creation Divine Artifact from the primitive level! Speaking of which, even if she was able to pass the The Great God and the Ghost Emperor's test, it was something that should be done.

However, this was only the beginning!

In other words, there was no stalemate at all. It was a kind of suppression!

Bang!

A crisp sound rang out.

Under Long Chen's sword attack, the Death Realm's killing blow instantly shot towards his body. It instantly broke through all of his defenses, and instantly penetrated through his opponent. It was like a stomp, causing the Ghost Great Emperor to be heavily injured!

Pfft!

In the deathly silence, the Ghost Great Emperor's wails were very obvious. His face turned pale in an instant, and he fell from the sky, smashing into the ground where the Ghost Gods and Giant Stars were hidden! The Death Realm's Killing technique and the power of the Ghost Blood Curse were currently wreaking havoc on his body. If it wasn't for Long Chen showing mercy, he could have instantly massacred the Ghost Great Emperor!

This was his current ability!

"Uhh ..." Now, Ghost Great Emperor had a large number of Ghost Blood Curses on his body, and the rules of slaughter themselves had caused him to bleed profusely. He climbed up with much difficulty, but it was basically useless.

Looking at the current state of the The Great God and the Ghost Emperor, everyone was stunned, even the Blood Clan Divine Emperor s did not dare to believe it themselves. As for those Ghost Clan experts who had mocked and teased earlier, they were now suffering the greatest blow in their lives. It was as if someone was ruthlessly slapping them in the face!

Pah pah pah!

Their swarthy faces were red and swollen, and their eyes glazed over as they stared at the speck of red light in the middle of the starry sky — Long Chen! No, now he looked like a ghost.

For a time, there was no sound.

Originally, Gui Qi was the one who came to accept the The Great God and the Ghost Emperor's test, but who would have thought that it would actually be Gui Qi who defeated the The Great God and the Ghost Emperor in one move! It was simply like a dream, to the point where it was impossible for one to go easy on him. After all, everyone could tell that Ghost Great Emperor was truly injured!

In the dead silence, Long Chen's gaze was sharp as he stared at the The Great God and the Ghost Emperor who was looking at him with fear, suspicion, and depression.

His question was like a thorn that stabbed at The Great God and the Ghost Emperor, causing his face to turn pale and his body to tremble. He had been in charge of this place for so many years, yet Ghost Great Emperor had never experienced such a crushing defeat and humiliation! When he knew that if Gui Qi was truly so strong, the one who would be humiliated wouldn't be him. There were even more supreme deities!

"Excuse me, have I passed?" Long Chen approached this fellow, and asked heavily once again. Under Long Chen's domineering pressure, the The Great God and the Ghost Emperor clenched his teeth and said: "Your talent is extraordinary and your strength is tyrannical. I think you have the qualifications to become a Bloodthirsty Great Emperor!"

Originally, the Origin Ancestor did not allow him to say that, but now that he was being suppressed, there was nothing he could do. He never thought that Gui Qi would be so strong. Even to the point of being terrifyingly strong, just the appearance of that Primitive Creation Deity Equipment was at least not inferior to the top four ranked fellows of the Ancestral Star.

Done.

In the Death Realm, Gui Qi was simply dumbfounded, she never thought that Long Chen would actually use this kind of method to achieve such an unbelievable scene. The ease with which it was completed also made her gasp in amazement.

At this time, Long Chen said, "There are still eight places to visit. However, I am a little tired from today's battle, so The Great God and the Ghost Emperor should be able to let me stay here for five days before leaving."

When all the ghosts couldn't wait for Long Chen to leave, Long Chen said this. Using an extremely unyielding tone, he made it so that the The Great God and the Ghost Emperor had no way to refuse.

"No problem at all. I'll arrange a place for everyone." The Great God and the Ghost Emperor had been the ruler of this The Great Star of the Gods for countless of years, and now, he had recovered from the humiliation and shock of defeat.

Long Chen smiled faintly. This way, he would have enough time to look for the ancestral dragon-inherited blood.

Lowering his head, he saw that everyone had submitted.

From today onwards, the name of Gui Qi would definitely shock the entire ancestral star, Bloodthirsty Great Emperor, and their rise to prominence!

"Thank you so much."

"It's nothing. Besides, both of us can be considered to be helping each other, each taking what we need."

It was only at the location arranged by the The Great God and the Ghost Emperor that Long Chen and Gui Qi swapped roles. Gui Qi once again exited the Death Realm, while Long Chen turned into dust, and used five days to search for the inherited blood essence. He could only speak of five days.

"Origin Ancestor will definitely be watching the battle today. However, if he isn't nearby, he probably won't be able to see any clues from it. They would suspect that Gui Qi was originally this strong. As long as they don't know of any outsiders, it'll be much easier for me. After all, their attention is on Gui Qi. "

Thus, Long Chen left Gui Qi and started searching.

Of course, he was also constantly contacting Gui Qi, and once there was danger, he would immediately return. He needed a very good opportunity and time to slowly search for the The Great Star of the Gods, so this kind of situation, the longer he could maintain it, the better. The more mysterious Gui Qi was, the more likely she would be worried even if the Origin Ancestor made a move, and this was Long Chen's goal.

"Where exactly is the inherited blood essence of the Universe Swastika Dragon?"

Because it could not be too high-profile, Long Chen did not search very quickly. He had to see the movements of the eyes left behind by the head of the Black Jade Dragon. However, he basically did not give up.

"I'm sure that on this ancestral planet, I will eventually discover that I already possess six types of ancestral dragon blood essence. Adding this Universe Wasteland Swastika Dragon, I have a total of

seven types. Other than the tenth ancestral dragon, there was still the first ancestral dragon and the second ancestor — Origin and Origin. "I wonder where the inherited blood essences of these two Ancestral Dragons are?"

"Also, where are all the ancestral dragons' origin dragon souls?!"

Reddit

Chapter 3102 - Emperor Qing Xue

Ancestor Star.

Black, red, and grey, the power of the three-colored curse rolled over the massive planet. Under the power of the curse, all sorts of evil and evil beings were wreaked havoc. Pure power was basically impossible to survive on the Ancestral Star.

"Did you see that?"

In this dark and gloomy space, hundreds of millions of black, blood-red and gray incantations twisted like poisonous snakes. Under heavy curses, this was a forbidden area that not even the average person would be able to reach.

Within that space was a gray vortex that looked like a pair of eyes. A clear image could be seen, within which was a woman sitting cross-legged. Her eyes were closed as she rested. There was no sign of movement. It was Gui Qi.

Someone was peeking at her.

There were two people spying on them. One of them could only see a large grey robe, which covered him, he should be as thin as a stick, floating in the air, he did not seem to have any legs. He could only see a clump of grey flame inside the hat, it should be the man's eyes.

This was a sinister and mysterious expert. At this moment, he could only be a servant. Beside him, the person he respectfully faced was a baby, extremely young, looking about a year old, but not cute. He looked old and dignified, with a total of three eyes on his face, one of which was blood-red, the other black, and the last one grey.

The old man's words came from the baby. It didn't seem to be his own words.

"Origin Ancestor, she's not moving at all." The gray-robed man observed for a long time before he ed.

That one year old infant was actually the master of the entire Ancestral Star and the entire primitive level Realm. Terrifying. In any case, Long Chen would never have thought that he would actually be like this.

"This is weird, going through a door and coming out is simply like going through a different person. But, Gui Qi doesn't have any sisters. " The gray-robed man sighed.

Origin Ancestor looked at Gui Qi in the whirlpool and said, "The distance is too far. It seems impossible to understand by just looking, but there is no need to worry. Let her go on. There was always a clue. No matter what, her power was too strange. Don't move until you know what's going on. I'm worried that there might be experts from other realms causing trouble for her. "

The grey-robed man: "Origin Ancestor, what kind of place is a foreign world? Is there any expert who can compare to you there? "

"I've seen one before, so I'm worried that he might come over. I've been preparing for so many years, and I was just about to fight with him in the past, but I didn't expect that Gui Qi would suddenly appear like this. It might have something to do with his scheme. Since she doesn't dare to kill anyone, then let her walk a few more steps. Let her expose herself first and we can settle this a bit easier. "

The gray-robed man nodded.

"Origin Ancestor, would a foreign world be a better place than our ancestral star?"

"The strong preys on the weak. Our ancestral star is too small. With our abilities, we should have a wider world. "As long as we cross the border of the Blood Fiend Star Region, we'll be able to get there."

The gray-robed man seemed to understand the situation somewhat.

At this time, the Origin Ancestor smiled lightly, and said: "I originally thought that I was one of the strongest people in the world, but who would have thought that the other side would also have such an

expert. We have all lost our memories and have even forgotten how big the world is. I think that I have been in a deathly silence for too long. I should find a new path to travel and rule over the new starry sky.

"At this critical moment, the appearance of Gui Qi is indeed something to be careful of. Furthermore, with her methods in dealing with ghosts and gods, she is indeed very powerful. The grey-robed man said.

"There is no need for you to be modest. To go to another world, you are my greatest support. Of course, if Gui Qi is on our side, then our confidence will be even greater. "

"Origin Ancestor, I understand."

time tunnel.

Inside the Everlasting Whirlpool, the Anarchic Demoness lingered on.

While familiarizing himself with the Eternal Whirlpool, he continued to stare at the vast, endless vortex.

"He escaped, but he will eventually return, right?"

Anarchic Demoness's eyes were filled with hatred.

At that moment, the Heavenly God Continent's pressure had contacted him.

Of course, he was still far to the north.

"Rumor has it that you have a grudge with Long Chen?" The God of Heaven Lu asked.

"Yes."

"Must we kill him?"

"If I have the chance, I will naturally kill him."

"As far as I know, your son committed suicide after losing the war. He can't blame anyone else."

"If you plead for him. "There's no need to say anymore. Scram."

"That's not it. However, there are indeed other important things that I need to remind you about. It concerns the safety of your Eastern Star Region. I'll just say it directly, do you know about Archaic Giant Demons? "

Five days passed in the blink of an eye.

In four days of time, Long Chen had actually already searched through the entire The Great Star of the Gods, and then spent another day to re-inspect the entire place. Unless the inherited blood essence of the Universe Tortoise Dragon went to someone else, this The Great Star of the Gods should not have anything.

"Let's start on the next companion star."

After returning, Long Chen turned into a speck of dust and remained on Gui Qi's body. Gui Qi stayed here for a few days to attract the attention of the Origin Ancestor and the rest. Of course, they were still constantly paying attention to what was going on.

"Alright."

The Divine Emperor that brought them along, under the resentful gazes of the The Great God and the Ghost Emperor and the countless ghouls, left the The Great Star of the Gods and headed towards the next companion star. The next Sovereign God was weaker than the Ghost Great Emperor.

Basically, from this moment onwards, Long Chen was using the same tactic, testing it out repeatedly. Every time, under the shocked eyes of countless people, he would help Gui Qi defeat one Supreme Divine Spirit after another, and every time, he would take five days to search for the ancestral dragon-inherited blood.

He had a feeling in his heart that the inherited blood essence was getting closer and closer to him!

Long Chen's desire to obtain it was getting stronger and stronger!

He was going to pass through all obstacles along the way!

In the past few days, the Bloodthirsty Great Emperor had become a celebrity on the entire ancestral star. Gui Qi's name had risen strongly, to the point that even the lowliest beings all knew that the Bloodthirsty Great Emperor of the Emperor Blood Star was incomparably tyrannical!

Of course, it was the new Bloodthirsty Great Emperor and not a ghost marriage. On Emperor Blood Star, a ghost marriage was now a joke, a synonym for betrayal.

Along the way, Long Chen helped Gui Qi, sweeping through five Supreme Gods!

Naturally, no one knew that it was Long Chen who did it, and even the Origin Ancestor and the rest probably wouldn't be able to see it. Every time, Long Chen would change people through the Death Realm. Every time he defeated his opponent in one move, he would stay for five days and let Gui Qi attract their attention.

Although he succeeded every time, Long Chen still felt depressed. He had already found five companion star and there were no traces of inherited blood essence.

"Looks like the remaining three companion stars and the ancestral star should have inherited some blood essence. I need to be more careful and stay here for around ten days or so.

Gui Qi said, "No problem, I will do my best to delay them. However, the remaining three Supreme Gods are the Origin Ancestor's strongest warriors, which is even more difficult to deal with. You must be careful, the three of them are the leaders of the Blood Curse Tribe, the Ghost Curse Tribe and the Heavenly Curse Tribe. "

The entire Curse Tribe was a Heavenly Curse Tribe. They were good at spells.

"Aren't you the leader of the Strigoi?" Long Chen asked.

The Bloodthirsty Great Emperor shook his head and laughed, "How is that possible? Within the Ten Ancestors, there are a total of three Great Emperors who are blood related. I count as the same for the Sacrificial Blood Emperor you defeated before, and the last one is 'Emperor Qing Xue '. He controls a type of 'primitive level' Infinite Divine Art. His inheritance was even more terrifying than that of the

Bloodthirsty Great Emperor and the Blood Emperor. That's why he's the true number one leader of the Strigoi. Right now, I can only be considered second or third. In the same way, the Ghost Curse Tribe and the Heavenly Curse Tribe also have the biggest leaders. "

Long Chen understood.

The Beginner's Realm Hierarchs who possess the primitive level and Infinite Divine Art should be around the same as the Fairy Shangyangs. At this level, the Fairy Shangyang was almost at the peak of existence. He hadn't expected that there were three other Ancestral Immortals here.

It was reasonable for these three Hierarchs to appear in such vile environment.

"We are about to arrive at the companion star that Great Emperor Qing Xue is at. It is one of the three largest companion stars, called 'Azure Heaven Blood Star'. Did you see that? "

In the pitch-black night sky, Long Chen indeed saw a dot in front of him that looked like a cyan colored droplet of blood.

"You can definitely defeat him. I was just worried that you would be exposed. After all, we are getting closer and closer to the Ancestral Star. "

Long Chen naturally understood this principle. The situation he hated the most right now was for the Origin Ancestor to directly join forces with the other Hierarchs to attack him. It was precisely because of this that he did not directly show himself, and that caused Origin Ancestor and the rest to still hold hope for Gui Qi.

Of course, Long Chen didn't want to make enemies with Origin Ancestor and the others. After all, he was here to take away what belonged to him, and also didn't want to seek help from them.

The Azure Heaven Blood Star gradually grew larger in front of his eyes.

More than ten days should be up.

Presumably, the Azure Blood Emperor and the others were already waiting for Gui Qi to arrive. At this time, Long Chen directly exchanged with Gui Qi, becoming Gui Qi.

One companion star is a new hope!

Rumble ...

On the Azure Sky Blood Star, the green sea of blood was churning. The green blood was even more eerie and terrifying than the red blood. The entire Azure Sky Blood Star was like hell on earth, but the Azure Blood Emperor was an extremely saintly existence. There was no one beside him from the Azure Heaven Blood Star, only themselves.

After this event, the Divine Emperor s of the Emperor Blood Star should return. After all, a great battle could break out at any time. It affected them.

"Bloodthirsty Great Emperor."

"The Azure Blood Emperor."

Both parties greeted each other.

Great Emperor Qing Xue was very straightforward, he made a gesture of invitation for Long Chen to attack and on his body, Long Chen saw the rolling super divine power. As expected, it was the power of his primitive level, which was similar to Long Chen's The Power of the Dragon God of All Things.

The name seemed to be the 'Azure Heaven Blood Art'.

Chapter 3103 - Cyan Blood Incantation

Gui Qi became the Bloodthirsty Great Emperor. Originally, it was only the other Rankers in Ten Ancestors that were testing her, but because of Long Chen's intervention, it had basically become Gui Qi against the other Great Emperors! What was even more terrifying was that he had been defeated along the way! They had basically all defeated their opponents in one move.

The name Bloodthirsty Great Emperor shook the entire Ancestral Star.

Gui Qi was a member of the Blood Clan, while Emperor Qing Xue was the leader of the Blood Clan, the strongest of the Blood Clan. Like this, today's battle was especially meaningful. It was that if Gui Qi was able to maintain her terrifying pace, then it was very likely that Gui Qi would replace Emperor Qing Xue and become the new number one of the Blood Family, or even the new leader of the Blood Family!

This pair of blood races, and even the entire ancestral planet, would be in great turmoil.

Therefore, the people who were paying attention to this battle were actually all living beings and Fiendgods!

Of course, the person who was truly involved in the battle was Long Chen.

All the living creatures and divine beings on the Azure Heaven Blood Star were waiting for the battle to start. These Divine Emperor s were actually very close to the battlefield, and were watching nervously from the sidelines. In fact, Long Chen knew that the Origin Ancestor would pay more attention to this battle.

The onlookers' expressions were naturally different from the people on the The Great Star of the Gods back then.

To Gui Qi, they were already full of respect!

The battle was on fire!

The power produced by the refinement of the Green Blood Emperor's Green Heaven Blood Art spread out, as if it controlled the entire world of Eternity. The surrounding area was filled with the opponent's afterimages. The opponent's movements were light, but the attack was extremely strong, because of the difference in Rule of Curse, Long Chen had no choice but to pay attention!

Suddenly!

The Azure Blood Emperor was making her move!

A strange symbol started to spread in his green eyes, instantly covering his entire body. The symbols were like green snakes that appeared on his flesh. It was quite terrifying. His head was lowered, yet he was raising his eyes to look at Long Chen. His green lips were wiggling, and although there was no sound, he possessed a tyrannical power that could take the lives of his opponent.

"Cyan Blood Curse!"

The moment the Ancient Code was being used was when Great Emperor Qing Xue was at his most terrifying. He suddenly opened his eyes wide, and those jade green eyes were astonishing, giving birth to a strange gaze.

"Silent and formless. Just by relying on a single glance, he was able to instantly make his opponent fall into his own domain of laws. This is probably the strongest aspect of the Rule of Curse."

The Cyan Blood Curse invaded his body, and in an instant, his blood turned green. This was a kind of curse. Under the power of the curse, the green colored blood was a type of extremely tyrannical and destructive blood. It simply could not be controlled at all. It was as if the giant beast in his body was wreaking havoc!

The first thing Long Chen did was to use the Flame of Life to protect himself, but he realized that it was useless. The laws of the curse were hard to suppress, and in a short period of time, he was already covered in green blood. Although he wouldn't die, as long as he lost the battle, the Origin Ancestor would have a hard time discovering his secret.

In that moment of life and death, Long Chen knew that it would take a lot of effort to remove the Cyan Blood Curse. He had a simple method, which was to attack.

"The Death Realm is killing us!"

One slash, sweep!

The power of the Death Realm, the power of the new Primitive Creation Deity Equipment, the power of the God Dragon of All Things! The combination of these three factors transformed into a monstrous sword strike that instantly tore apart Heaven and Earth, arriving right in front of Emperor Qingxue!

Before this, when they saw that Azure Blood Emperor had used a Cyan Blood Curse to control Long Chen, the rules were successful, and many people started cheering.

On the Ancestral Star, in the void, even the Origin Ancestor and the grey-robed person thought that Azure Blood Emperor was about to succeed. These two had spied on Long Chen's battles, and every match that Long Chen made was a battle with his enemies.

"Her rule is to kill, but there are no curses. The curse was entirely based on the Ghost Blood Curse. This is the only move that comes and goes. It should only be this rule, right? "

"She's really strange."

While they were speaking, Long Chen's Death Realm's Calamity instantly shot toward Emperor Qing Xue. Emperor Qing Xue was controlling the Cyan Blood Curse to attack Long Chen's body, so it would be difficult for him to escape Long Chen's attack, so he had no choice but to give up the Cyan Blood Curse and flee.

Swish!

The Azure Blood Emperor made the right choice, escaping halfway to get out of the way. Finally, she managed to stop the Death Realm's killing spree. But the Cyan Blood Curse was also finished, thus Long Chen obtained freedom.

"We can't give this guy a chance to use Rule of Curse!"

Long Chen quickly made his decision and made his move, waving the Ghost Blood Curse to attack again. He did not want to reveal his other abilities and rules at the moment, so he wanted to use the Death Realm to kill this Azure Blood Emperor to make Gui Qi even more famous, but at this time, the Azure Blood Emperor suddenly turned her head as she was fleeing. Realizing that Long Chen's strength was terrifying, he decisively chose to fight him head on!

From the gaze of this Emperor Qing Xue, Long Chen could tell that he must have chosen a method to fight to the death with him. This battle seemed simple, but it was actually even more thrilling! If he failed to defeat his opponent in a single move, then he would be exposed!

"Soul Breaking Curse!"

As expected, the Azure Blood Emperor made her move. This time, she must have used a power that exceeded her limits. His unique symbol that was like a green poisonous snake once again expanded, instantly dyeing his entire body green, like an endless sea of poisonous snakes coiling around him.

Weng! *

This time, it gave Long Chen a severe blow.

Just the term Soul Shattering Curse was already very clear. It was a curse aimed at the primordial spirit and the soul. However, the Absolute Soul Curse was not only aimed at the primordial spirit, but also directly affecting the connection between the primordial spirit and the body. In that instant, Long Chen felt as if his own body and primordial spirit were being cut off by the Azure Blood Emperor's gaze!

If the physical body and the primordial spirit were to be separated, then the situation would be dire. Even if it could be recovered, it would be impossible to recover during this period of time when it was attacked. At this time, a mere Divine Emperor was enough to deal with Long Chen.

Long Chen was very much aware of the power of this curse. It wasn't because he felt that Emperor Qing Xue was strong, but because he felt that the Rule of Curse was truly mystical. If he allowed these two to separate, then he would definitely lose!

If he could defeat the Holy Son of Confusion, it would be laughable for this Emperor Qing Xue to finish him off. In that moment of life and death, Long Chen did not care about his trump card, the Ghost Blood Curse that he was still holding in his right hand, in that moment, a ray of light appeared in his left hand, and the illusionary Great Void Demon Sword instantly appeared. In that instant, just as his body and primordial spirit were about to be separated by the Soul Breaking Curse, Long Chen used the Great Void Demon Sword to unleash his entire body's power, and struck out with his sword.

"Destiny Killing Technique!"

The Destiny Killing technique instantly rushed in front of Emperor Qing Xue. No matter how he resisted, the art had already entered his body! Time was like water, fate was like a blade, after the cut, Azure Blood Emperor's entire body instantly stopped, and in the blink of an eye, she was turned into a white jade by Long Chen with the most astonished expression.

As such, the Soul Breaking Curse also stopped at that moment.

In the time it took for a spark to fly off a flint, Long Chen had reversed the situation and obtained victory.

However, in his opinion, he would be considered to have lost today's battle.

"I didn't expect that I would underestimate my opponent's move. He is clearly stronger than me, but I almost fell for his move. Furthermore, right now, the Great Void Demon Sword, the laws of time and destiny have all been exposed. "

Although he kept the Great Void Demon Sword, the Origin Ancestor must have seen it. The second divine creation artifact of the primitive level, he would probably be very shocked.

Long Chen's guess was right.

Currently, Emperor Qing Xue had turned into a jade and landed on the green colored blood ocean below. The Divine Emperor of the Azure Sky Blood Star looked on in a daze as they hurriedly went down to look for someone. They thought that Emperor Qing Xue had died in battle, and so they were extremely nervous. Furthermore, Long Chen, who had defeated Emperor Qing Xue, made them even more afraid to raise their heads.

Of course, in their eyes, the one who attacked was Gui Qi.

On the side of the Ancestral Star, the use of Long Chen's Fate Killing Technique caused Origin Ancestor to frown deeply.

"This is not the rule of slaughter! Is that a creation god artifact of the primitive level? " The gray-robed man at the side said with incomparable shock.

"That's right, it seems to be related to time, and also to another kind of rule. Hard to tell! How could the Ghost Bind have such a rule? Other than that, we can still foresee the appearance of the primitive level's Ghost Blood Curse. This God Manifestation Weapon of the primitive level definitely does not originate from a different world! "

The gray-robed man was shocked. "There are so many Primitive Creation Deity Equipment in this alternate world? Doesn't that mean that people from other realms are much stronger than us?! "

"That's not it. Perhaps their strongest have already entered our world. And, Ghost Qi definitely has a problem, it's hard to make her one of us. "But she's actually this strong!"

This was the most depressing thing about the Origin Ancestor.

He wanted to subdue Gui Qi, but he was afraid that she would have already surrendered to a foreign world, and that she would try to take advantage of him. After all, he was the one who killed her father.

"Origin Ancestor, it looks like she will be here soon. Next, he looked for the one from the Ghost Clan. It seemed like it was time for me to go back. Or would you like me to meet him? "

The Origin Ancestor nodded and said: "I can only rely on you. However, this time, I'll go as well. "No matter how much one sees here, it would be better to go personally and take a look."

Originally, he wanted to wait until Gui Qi arrived at the Ancestral Star, but now, the Origin Ancestor couldn't wait any longer. The more he waited, the more passive he became.

After defeating Emperor Qing Xue, Long Chen did not make things difficult for him, and helped him remove the rules. It allowed him to return to normal. Even the Azure Blood Emperor was willing to be defeated.

"Since you've defeated me, then the future leader of the Strigoi will be you." Emperor Azure Blood had an expressionless face.

Long Chen laughed and said: "It's just an empty title, I don't care. But, I need to stay here for ten days, take a rest, then head to the next place. I believe you won't refuse. "

"It used to be five days, but now it's turned into ten days? I'll leave it to you then."

Emperor Qingxue was defeated and was in a hurry to to the Origin Ancestor, so he immediately left. Long Chen ordered all the Blood Clan Divine Emperor to return to the Emperor Blood Star, in case the fierce battle that followed would affect them.

Chapter 3104 - Emperor Tianxin

The green colored blood rolled around like waves in the ocean, forming a terrifying wave. Above the sea, the wave swept up a thousand meters high, as if it were a wall sweeping towards them.

It was hard to imagine just how the blood clan of the Azure Sky Blood Star had managed to survive in such a harsh environment. Each city was like a giant ship, without a fixed position. They wandered everywhere, moving in and out of the blood-red waves, and mortals were simply unable to leave the city. If ordinary Fiendgods left the city, they would probably never be able to find their own home again.

Long Chen transformed into a speck of dust, then transformed into a Blood Clan Ranker that had the strength of a Divine Emperor, he travelled back and forth across the entire Azure Sky Blood Star, and as time passed by, his journey gradually covered the entire Azure Sky Blood Star.

The place Long Chen was looking for was a forbidden area within the Green Sky Blood Star.

Although the forbidden area was dangerous, it wasn't much to someone like him.

"This is already the third last companion star, and there still isn't one?"

To be honest, Long Chen was the one who wasn't willing to meet the Origin Ancestor the most. If the inherited blood essence of the Universe Swastika Dragon was on the Ancestral Star, then he would definitely have to search for it under the eyes of the Origin Ancestor. That would probably be an extremely dangerous matter.

"Although I have a better grasp of the rules, I'm not sure if I will be exposed when I face the Origin Ancestor."

This was his concern.

The best result was that they could find the inherited blood essence of the Ancestral Dragon on the companion star. This could allow Long Chen to take the initiative.

The more he failed to find one, the more passive his future would become.

"Ten days seems to have passed."

This time, Long Chen searched very carefully, but still didn't find anything.

"Clearly, there aren't any on this planet either."

In these ten days, Gui Qi was still being monitored, luckily she had attracted everyone's attention, if not, Long Chen would not have been able to so easily search for so many companion star. After all, no matter how similar the rules were, this was still the Origin Ancestor's territory.

He returned to Gui Qi's side.

"How is it?" In the past few days, the changes were too great, and Gui Qi was also extremely shocked. Seeing that Long Chen had returned, he couldn't help but ask in a hurry.

"Nothing, let's head to the next place."

"Long Chen, I feel that if this continues, Origin Ancestor will eventually suspect something."

Long Chen thought for a while, then said: "There's definitely danger. However, I myself am not that much weaker than the Origin Ancestor. Even if you are later discovered, you can rest assured that you will be safe and sound. It's just that after being discovered, the difficulty will increase and the danger will increase. "

When Gui Qi heard him say this, her heart finally settled down. She had originally thought that visiting the Ten Ancestors would be an easy task, but she hadn't thought that Long Chen's current ruckus would become even bigger. He consecutively defeating six Hierarchs scared her so much that she became stupefied.

Right now, the reputation of the Bloodthirsty Great Emperor s were all extremely terrifying.

"Let's go."

The other Divine Emperor s of the Emperor Blood Star had already returned, it was very convenient to travel, the next target was the leader of the Ghost Clan, Long Chen changed to Gui Qi, and quietly left the Green Sky Blood Star.

Half a month later, the name of the Bloodthirsty Great Emperor had once again stepped across the peak and reached a level that would make the entire ancestral star tremble.

That was because after Long Chen replaced Gui Qi and reached the next companion star, with an unprecedented speed, he defeated the leader of the Ghost Clan, whose strength was similar to Emperor Qing Xue — — Devil Emperor.

This meant that in the entire ancestral star and Ten Ancestors, perhaps only the Origin Ancestor and Emperor Tianxin could be a match for Long Chen. In actuality, although Emperor Tianxin possessed the God Creation Divine Artifact of the primitive level and the Infinite Divine Art of the primitive level, which was equivalent to the combined strength of Emperor Qingxue and the Devil Emperor and was the strongest leader of the Heavenly Curse Tribe, compared to the current Bloodthirsty Great Emperor, it was still very dangerous.

Therefore, the battle between Emperor Tianxin and Long Chen in the future could be said to be the pinnacle of all the battles so far, the one that would shock all the living Ancestral Stars and gods and devils. Bloodthirsty Great Emperor was like a miracle, rising mightily from this Ancestral Star!

After that, Long Chen had already left the Devil Emperor, and headed towards the 'Celestial Star' where Emperor Tianxin resided. This was the largest companion star that was closest to the Ancestral Star and also one of the nine great companion stars. It was about half the size of the Ancestral Star. It was also the core position of the Three Clans.

Millions of lives on the entire Ancestral Star were waiting for Long Chen's arrival. This was the pinnacle of battles that everyone was anticipating! Bloodthirsty Great Emperor and Emperor Tianxin, who was stronger?

"Great Emperor Tianxin, a Creation Divine Artifact and Infinite Divine Art with primitive level, should be a character that is infinitely close to the Holy Son of Confusion. On this Ancestral Star, the person who firmly occupied the second position was only second to the Origin Ancestor. He was the most important confidant of the Origin Ancestor. It has existed for as long as the Origin Ancestor. The emperors of the other eight companion stars have inherited it many times, but there has never been any change with Emperor Tianxin's side. "

"Oh, that should be a pretty good opponent! "I need to test how strong I am now!"

Long Chen could only look forward to this battle.

He could already see the huge planet shrouded in grey clouds.

However, he did not know what was waiting for him in front of him this time around.

In fact, when Long Chen had just defeated the Azure Blood Emperor, everyone knew that the Devil Emperor could not stop him. He would definitely come to the Celestial Star. They were going to engage in an unprecedented, terrifying battle with Emperor Tianxin. As a result, many Fiendgod experts had departed early to the Celestial Star to watch the battle. Before Long Chen even arrived, the Celestial Star was already filled with experts.

Even the The Great God and the Ghost Emperor, Blood Sacrifice Great Emperor, and the Azure Blood Emperor who had been defeated by Long Chen had all come here early. Almost all the Rankers on the entire Ancestral Star gathered at the Celestial Star. They were hiding within, coldly observing, as if they were waiting for something.

In the clouds above Celestial Star, two human figures suddenly appeared. One was an illusory gray-robed person, and the other was a one-year-old baby. Origin Ancestor squinted his eyes, looking in the direction Long Chen had come from, and said in a heavy voice: "It's about time, I'll be hiding nearby, and watch your performance."

The gray-robed man, who was Emperor Tianxin, said, "Origin Ancestor, please be at ease. I will definitely live up to the expectations you have of me. "Work hard to complete the mission."

"Victory or defeat is nothing. What's important is that if we stick around for a while longer, it's best to let us see through this kid's secrets. This time, we can't let him slip away from us. "

Emperor Tianxin said, "No problem. I want to see for myself what the strength of an otherworldly expert is like. "

Although he did not say much, Emperor Tianxin had long ago started to feel his blood boil. The time he had been waiting for had finally come.

The entire Celestial Star was filled with many strong practitioners. Divine Emperor from the Ancestral Star and the nine great companion star were hiding in the clouds of the Celestial Star, waiting nervously yet expectantly. To them, this was originally just a test, but now it had turned into a great century war.

Everything about the Ancestral Star was gathered here!

Origin Ancestor set up an illusory rule right beside Emperor Tianxin, and then entered it, gradually disappearing, completely disappearing.

"Origin Ancestor is still Origin Ancestor. Even if he was right by my side, I would not have been able to discover him."

Emperor Tianxin sighed with emotion.

Of course, he knew that currently, the Origin Ancestor was right beside him. As long as Long Chen arrived, as long as he fought, it would be impossible to hide from his eyes. He also felt that Long Chen had many mysterious places, but they were about to be revealed.

"Origin Ancestor, why do you think Gui Qi would stay for five or ten days after defeating her opponent? I feel that with her consumption, she shouldn't even need to rest. "

"I don't know either. But this was definitely the key to her secret. But now that I'm here, she has no secrets. Tianxin, it's up to you. "

Long Chen was already very close to the Celestial Star.

"So many experts!"

On the Celestial Star, Long Chen saw hundreds of Divine Emperor, with almost five hundred of them. In addition, all of the Hierarchs that were defeated by him were basically all present. Even after being defeated by him in the Devil Emperor, Long Chen had still not left, so he was the first to arrive here.

"What do they want to do with this lineup?"

Gui Qi was slightly nervous.

Long Chen squinted his eyes for a while, then said: "It's good that they aren't too much of a threat. What I am worried about is that since it is so grand, there is a possibility that Origin Ancestor is also inside.

Gui Qi was even more flustered, and said: "Then what do we do? Will your rules be discovered? "What if we are discovered?"

Long Chen thought that this day would come sooner or later. He said: "No problem, since there's only the Ancestral Star and Celestial Star left. They couldn't avoid a direct confrontation anyway. There was no need to worry about it today. It was enough to defeat Emperor Tianxin. I can deal with the rest. "

Although Long Chen was very confident, Gui Qi couldn't help but be nervous. After all, she had lived in this place since young, and even though she was the princess of the Emperor Blood Star, she still knew how frightening Emperor Tian Xin and the Origin Ancestor were.

The closer they got to the Celestial Star, the denser the aura became. There were too many experts hiding in the endless clouds. He did not go too close to the Celestial Star, but instead stopped outside of it. He could be considered extremely cautious, and said: "Emperor Tianxin, for the sake of being afraid of harming your Celestial Star's people, please come out and fight."

Emperor Tianxin was straightforward as he directly broke through the clouds and appeared in front of Long Chen in front of everyone's anxious eyes. Although this distance would be a little difficult for Origin Ancestor to observe, Origin Ancestor would definitely have no problems.

In front of Long Chen, the Tianxin Emperor was so skinny that he couldn't even form a body. There was only a grey robe covering his entire body, and on top of the hat, there was only a grey flame within, which was terrifying!

But when he saw the gray flames, Mo Xiaolang was alarmed, and immediately said: "Big Brother, this grey flame, seems to have the aura of an Ancestral Flame!"

Chapter 3105 - Heavenly Curse Mirror

"It's not the Ancestral Fire, but it seems to have been born from the Ancestral Fire and was contaminated with the aura of the Ancestral Fire. This kind of flame had the characteristics of a curse and evil. "It's quite similar to the Universe Swastika Dragon ..."

Hearing Mo Xiaolang's explanation, Long Chen started to understand.

"Back then, Hun Yuan's Heavenly Fate Dragon's inherited blood essence existed in the same place as the Azure Sky Emperor Ancestral Fire. This Ancestral Fire was actually similar to the Universe Wasteland Swastika Dragon. The original Ancestral Fire should be the Ancient Ancestral Fire that accompanied the Universe Wasteland Swastika Dragon. Then since Emperor Tianxin possesses this kind of flame, it is clear that he has approached the Ancestral Fire before and knows where the Ancestral Fire is located. Naturally, he should also know the location of the inherited blood essence! "

This was the biggest piece of information Long Chen had gotten about the Inherited Blood Essence ever since he came to this Ancestral Star. This information directly caused the changes in his heart. Finally, he had an idea. Of course, it was to be happy ...

However, this was his battlefield, and Emperor Tianxin couldn't possibly bring him directly to the place he wanted to go. Therefore, Long Chen was very clear in his heart, with just an idea, there might be countless gaps between him and truly obtaining the inherited blood essence.

Furthermore, the Origin Ancestor was still here, so he definitely could not have too many changes in his heart. At this critical moment, although he knew of such a crucial clue, Long Chen still stabilized his emotions and pretended that he didn't know anything, before facing off against his opponent and this Celestial Star.

Emperor Tianxin seemed to be one with the Celestial Star. His body, was the body of the Celestial Star!

The Celestial Star was huge and boundless, but in reality, there were no land, only endless clouds and mist. The Heavenly Curse Tribe lived within these clouds and mist, and in the Celestial Star, there was a terrifying disaster called 'Heavenly Thunder Curse'. The Heavenly Thunder Curse filled the entire Celestial Star and shot out in all kinds of forms.

For simple Heavenly Thunder Curse, mortals would be dead without a doubt if they touched them. These Heavenly Thunder Curse were as big as a finger and were in the tens of billions, roaming in the clouds. A normal Heavenly Thunder Curse the size of an arm or the size of a mortal god's body would be able to pass through myriad worlds in a flash. If they were to come into contact with a normal god or demon, they would definitely die.

However, the worse the environment, the more powerful the race! The Heavenly Curse Tribe was a powerful race that was born here! Thus, for generations, despite knowing the dangers of this place, no one left.

"Bloodthirsty Great Emperor, please take note."

Great Emperor Tianxin was extremely courteous. In this meeting, under the anticipation of millions of Divine Demons, he decisively made his move, and even reminded Long Chen before he made his move.

"Whiz!"

Emperor Tianxin turned his robes and disappeared into the starry sky!

A battle erupted! In order to quickly finish off an opponent who was probably around the same as the Holy Son of Confusion, Long Chen naturally had to display the pinnacle of strength! At this moment, the Ghost Blood Curse appeared in his right hand and the The Power of the Dragon God of All Things erupted. It rushed towards the Ghost Blood Curse, causing the Ghost Blood Curse to burst out with a cold light, and swept out.

"Heavenly Thunder Curse, Eternal Ashes!"

Without saying anything, Emperor Tianxin made his move. In the Heavenly Curse, he used his ultimate move, and under these rules, the entire Celestial Star was thrown into chaos. The originally quiet clouds instantly turned into wild beasts!

"Emperor Tianxin is truly terrifying. He actually used a Killing technique that hasn't been used for countless years!"

"Fuse with the Celestial Star, and activate all of the Heavenly Thunder Curse! In the entire Ancestral Star, other than the Origin Ancestor, there should not be anyone that can block this move! "

"Emperor Tianxin thinks so highly of his opponent?" This time, Bloodthirsty Great Emperor is finally in danger! "

All of a sudden, the Divine Emperor was in an uproar.

Even the Hierarchs who had been defeated by Long Chen had turned pale when they saw this rule. They looked at each other and realized just how terrifying Emperor Tianxin was. Especially Great Emperor Qing Xue and Devil Emperor, they had even wanted to challenge Great Emperor Tianxin's position!

Rumble rumble rumble!

A scorching aura exploded, and it was as if an explosion had erupted. In the blink of an eye, Long Chen saw countless gray lightning bolts, big and small, entangling with each other, forming a huge grey electric snake. It was big enough to be thirty thousand meters long, and was rushing toward him with explosive speed!

That's the Heavenly Thunder Curse!

A Heavenly Thunder Curse the size of an arm was enough to kill gods and devils!

Moreover, the Heavenly Thunder Curse's speed was extremely fast and violent to the extreme. When it erupted, it instantly exploded forth with a force of five hundred kilometers, descending right in front of Long Chen's eyes. It was like a giant snake, trying to swallow a speck of dust!

In the face of such a killing move, Long Chen remained calm. Without saying a word, he raised the Ghost Blood Curse in his hand, regardless of what curse his opponent had, he only used one move to deal with them.

The power of the Death Realm! The Power of the Dragon God of All Things! The power of the Ghost Blood Curse! When the three of them combined, compared to Emperor Tianxin, there was an additional Divine Creation Artifact with primitive level!

It was also the Infinite Divine Art of the primitive level, and was not inferior to Long Chen in terms of strength. Therefore, this was a confrontation of rules!

The Death Realm's slaughter had produced a dragon-shaped sword aura. In the blink of an eye, the sword-light with the blood-red color exploded, and in a very short period of time, it had grown to become thirty thousand meters large, directly colliding with the Heavenly Thunder Curse!

"Bloodthirsty Great Emperor still has those rules!"

"Can he block it!?"

When everyone was still suspicious, Long Chen gave them his answer! It was that the Death Realm's massacre and the Heavenly Thunder Curse's clash had erupted, sending both Long Chen and Emperor Tianxin flying. In an instant, the two giant red and gray beasts charged into the starry sky, it was

fortunate that Long Chen had shifted the location of the battle to the starry sky, otherwise, many people would have suffered!

Bang!

The two rules were wiped clean!

They were evenly matched!

Everyone knew how terrifying the Heavenly Thunder Curse was, and knew that Long Chen had always been using the Death Realm to kill and finish off his opponents. Heavenly Thunder Curse is one of the strongest laws that Emperor Tianxin can cast!

"You're the first person to block my rule."

Long Chen used Gui Qi's arrogant tone and looked at Emperor Tianxin in contempt.

"How arrogant!"

Emperor Tianxin did not reply, but the Divine Emperor s of the Heavenly Curse Tribe could not take it anymore. But they had to admit, this Gui Qi was too strong. Emperor Tianxin might lose today, allowing Gui Qi to become the second strongest person on the Ancestral Star!

For a moment, it seemed as if there were a large number of people scolding from the Celestial Star.

In this regard, Emperor Tianxin couldn't see his expression at all.

"Your Manifestation Divine Artifacts are all not bad." In the Ancestral Star area, he was far from being a match for the Origin Ancestor, but against the other Hierarchs, he basically did not need to use his killing weapon.

"As for me, I haven't used it for a long time."

Right at this moment, a black mirror appeared in front of Emperor Tianxin. It was a complicated ancient bronze mirror that Emperor Tianxin held in his hands. This was a mirror that caused people to tremble in fear, it must not be weaker than Long Chen's current Primitive Creation Deity Equipment!

The 'Heavenly Heart Mantra' that Emperor Tianxin possesses primitive level. There was also the God Creation Divine Equipment — Mirror of Heavenly Curse, which possessed the primitive level.

It was said that this was a Curse Realm that no one in the world could escape. Anyone with the Heavenly Curse Mirror could instantly take that person's life even if they were trillions of miles away. In the folklore of the Ancestral Star, Emperor Tianxin was the one who controlled the life and death of all living things.

As long as someone appeared in his mirror, it would be the day of their death.

Inside the Celestial Curse Mirror, Long Chen saw a twisted symbol. It should be a very complex and ancient symbol, like an eye, looking at the heavens and earth!

"Heavenly Curse Mirror!"

"I finally saw the legendary Heavenly Curse Mirror!"

"The Deathly Hallows that exists everywhere!"

Even the Hierarchs were filled with yearning for the Heavenly Curse Mirror. Before the Ghost Blood Curse appeared, this was the only Creation Divine Artifact with the exception of the Origin Ancestor!

Emperor Tianxin held it in his hand as his gray flames stared at Long Chen and said in a deep voice, "As long as you can block this move of mine, then I really have no other choice. "You are very powerful, but you still need to be careful!"

"You are a prodigy, I do not wish to unintentionally take your life at this time. So when you can't hold on any longer, just give up. The knowledge and recognition that you need from the Bloodthirsty Great Emperor s, for you to be able to do this, no one on the entire Ancestral Star would think that you are not qualified to be one. "

Not only was he the Bloodthirsty Great Emperor, he was also the number one of the nine great companion star Hierarchs!

"Alright." Long Chen also did not underestimate his opponent. As the saying goes, the first strike is the strongest, and at this moment, he was holding onto the Ghost Blood Curse with both hands. The swastika on the Ghost Blood Curse spread outwards, and at that moment, the blood Qi on Long Chen's body overflowed into the heavens.

It was about to explode!

The final battle!

"The curse of my previous life!"

In this deadly clash, the Heaven Curse Mirror in his hand changed greatly. In the middle of the mirror, a gray vortex appeared, as if it had reincarnated, and the reincarnation cycle was expanding, going back a long way. In that instant, Long Chen, who was still in front of the mirror, felt something falling onto his body!

Curse!

He realized.

It shook violently!

He saw the Heavenly Curse Mirror!

On the Heaven Curse Mirror, the reincarnation cycle had ended. A grey figure appeared, which Long Chen would never be able to forget even after looking at it.

"This is your previous life."

Emperor Tianxin's voice was like an incantation, echoing in Long Chen's ears.

"Killing your previous life can change your current one. In this life, if you change, or if you change, then you will just be a peddler. "

Emperor Tianxin used his hand as a blade and slashed into the Celestial Curse Mirror. Instantly, his head fell to the ground.

Chapter 3106 - Origin Ancestor Attacks

The moment the head of the shadow in the Heaven Curse Mirror fell to the ground, Long Chen used a single hand of the Ghost Blood Curse to calmly attack. He fused the rules of slaughter and of karma together, perfectly combining the power of the two rules with the power of the Ghost Blood Curse!

"metaplasia!"

One slash! Rebirth.

Beneath the metaplasia, what was born was a sword aura that seemed to be inferior to the Death Realm in terms of killing intent and terror, but its power was even more terrifying. Wherever it went, everything would be annihilated, returning to its most chaotic and original state. This was a rule of absolute death. In addition to the power of the Ghost Blood Curse constantly spreading throughout the area, to anyone, the rippling sword qi was the most terrifying killing intent!

"Whiz!"

When the head in the Heaven Curse Mirror fell to the ground, Emperor Tianxin might have a relaxed smile on his invisible face. He could sense how terrifying Long Chen's metaplasia was.

"With this level of destructive power from the laws, I'm afraid they'll be able to instantly kill me."

Even so, he was not worried. That was because his Heaven Curse Mirror had already taken effect. The grey figure within was already lying on the ground!

"Besides the Origin Ancestor, there is no one in this world who can block the curse of the Heaven Curse Mirror. Even the Origin Ancestor would have a headache. "Once I was killed in my previous life, I will disappear from this life!"

As long as he successfully slays his previous life, victory was already in his grasp.

"Disappear!"

He was waiting for this scene to happen.

In the nick of time.

"Hmm?" Emperor Tianxin was instantly stunned, because even when he thought that Long Chen was about to disappear, he did not disappear. His eyes were still cold as he looked at himself, the metaplasia was still as though it was urging him to die. In the blink of an eye, the dense Shadow of Death was like a nightmare as it descended upon him.

"Impossible!"

Emperor Tianxin's heart was filled with madness and depression. Who could still stay here after being killed in his previous life?

"There is only one possibility! That was, his fate was tough, and he had reached the ultimate state! No matter what happened, it couldn't stop him from reaching his current state! But that's impossible! "

Emperor Tianxin understood the Mirror of Heavenly Incantation the best. The more he understood, the more incredible the situation became. The rule that he was most proud of, was that it completely missed Long Chen!

"What are you doing?" Long Chen had thought that such a troublesome attack would be enough to scare his metaplasia out. He hadn't thought that the other side's attacks would have no effect at all. And even under the threat of the metaplasia, the other party was actually unable to defend at all?

It was all at this critical moment!

At the last moment, Emperor Tianxin screamed miserably, and used the Heavenly Curse Mirror to block the attack. But with such a hurried defense, it was impossible for him to block Long Chen's metaplasia!

For a moment, it was as if all the living beings and demons of the Celestial Star had cried out in alarm! His expression changed greatly. The more powerful an existence was, the more they knew how terrifying Long Chen's metaplasia was. It was much better than the Death Realm's massacre!

"Without a doubt, Emperor Tianxin will be destroyed!"

This thought flashed through the minds of the supreme gods of the Ancestral Star!

In a split-second!

Long Chen felt a sense of danger approaching and all of a sudden, someone blocked his path in front of his metaplasia. A three colored cloud converged over, and in an infinitely short period of time, it was in front of Emperor Tianxin!

Rip!

The three colored clouds shattered before the metaplasia! The metaplasia was like a hot knife through butter, it slashed at the Heaven Curse Mirror, and in that moment, the Heaven Curse Mirror released a huge vibration that struck the Heavenly Heart Emperor's body. Although the power of the metaplasia did not directly kill the Emperor, it still caused him to suffer heavy injuries, causing him to grunt and retreat countless steps.

For a moment, there was no sound. If Long Chen was not still around, everyone would have thought that time had stopped. Anyone who encountered such a situation would be rendered speechless.

At least in their eyes, this was an evenly matched battle, but they never thought that Long Chen would actually be able to suppress Emperor Tianxin! Especially since he was safe and sound from the attack of the Heavenly Curse Mirror, it could only be described as inconceivable!

All the xanshen s felt as if their hearts were being struck by drums, as they looked at the naturally transformed Gui Qi, which was an unending clamor. His mind was blank, and he did not know how to describe his current feelings!

However, Long Chen knew that his current situation was not too optimistic, because if not for the tri-colored clouds earlier, he would have almost killed Emperor Tianxin. The power of the metaplasia was tyrannical. The three colored clouds were naturally condensed by the Origin Ancestor. Otherwise, it wouldn't be enough to resist majority of Long Chen's metaplasia!

In the moment of everyone's shock, the Origin Ancestor had appeared, replacing Emperor Tianxin's position! It was an eye of three different colors, and looked like a very young baby. Even though it was an infant who looked young, its primordial spirit was withered and old, and when the three different colored eyes looked at Long Chen, it naturally gave Long Chen a kind of terrifying feeling!

"They really are similar to the four Chief Sovereigns. There's even something special about them!"

The Origin Ancestor was the most special part of him, and it should be the rule of the curse! This was the most peculiar and difficult rule to deal with!

"What did he discover?"

In the middle of Death Realm, Gui Qi asked nervously. At this time, the Origin Ancestor's expression did not look good, which was scary for anyone.

The instant the Origin Ancestor appeared, and it was the arrival of a Spiritual Master, all of the living Gods and devils in the Celestial Star were immediately recognized and kneeled down in a pious manner before the Origin Ancestor. On this ancestral star, this emperor level figure was the peak of authority and also the peak of everything.

"Greetings Origin Ancestor!"

"Long live Origin Ancestor."

In the midst of the crowd, waves of voices swept through. This made everyone forget about the great shock just now. They were immersed in an even greater shock, and that was the arrival of the Origin Ancestor! The Paragons, the Creator of this land!

Beneath the endless shouting, the Origin Ancestor looked even more terrifying. Long Chen did not expect that the legendary and terrifying Origin Ancestor would actually look so much like a baby. However, it could not be denied that he was extremely powerful.

Appear, look at each other!

"What is he trying to do?" This question had just appeared in Long Chen's heart.

After all, this was not a place he should appear in.

Right at this moment, without saying a word, the Origin Ancestor made a move. Everyone was shocked that he actually made a move, his target was obviously Long Chen. This action, was something that made Long Chen feel like he was suffocating!

"Heavenly Eye Curse."

Origin Ancestor raised his head and looked towards the sky, looking deep into the sky. For a moment, three rays of light shot up to the sky, converging in the depths of the starry sky, and at the moment of convergence, it was like an explosion, resulting in a myriad of beautiful rays of light.

A terrifying descent!

Suddenly, in the midst of everyone's shock, three giant eyes appeared in the endless starry sky. They were like the eyes of the common people, and every eye was as large as the entire planet. The three eyes were triangular in size, red, black, and grey.

Long Chen lifted his head, and he could look right into the eyes of the three huge eyes! It was so big that it was terrifying. From the Heaven Eyes, Long Chen felt a terrifying coldness. It wasn't just three eyes, but three deadly weapons!

The Origin Ancestor was cold and indifferent. Right after the Heavenly Eye Curse was formed, it immediately erupted, and under everyone's astonished gaze, the three eyes erupted with boundless thick and resplendent light, forming three gigantic pillars of light, like heaven's weapons or battle lances, that pierced towards Long Chen!

Heavenly Eye Curse!

Under the Heaven's Eyes, where no one could escape from, nothing about Long Chen could hide! But of course, the most terrifying part was still the most direct damaging prowess! It had to be said that Origin Ancestor's decisive attack this time, brought about a fatal threat to Long Chen!

"Whiz!"

For a moment, countless cries of surprise arose.

"Origin Ancestor actually wants to kill this Bloodthirsty Great Emperor!"

"Such a powerful Bloodthirsty Great Emperor, why?"

No one understood.

However, Long Chen was not someone who was waiting for death to come. He did not know what the situation was yet, but he would treat it as fighting against the Origin Ancestor.

With the convergence of the two types of powers, Long Chen's fighting strength had reached the limit of what he could today. In that instant, he erupted with a radiance that was as bright as the night sky, like the brightest star in the sky, and it was even brighter than those three eyes!

BOOM!

Holding the Ghost Blood Curse, Long Chen used all the strength in his body and roared. Under countless of gasps, he rushed into the sky, this time with the support of the Dragon Pagoda, the sword in his hand erupted with a 30,000-meter long sword light, forming a monstrous Sword Qi that clashed with the Heavenly Eye Curse!

"metaplasia!"

With the Beginner Dragon Pagoda, it was simply a form of transformation!

Rip!

In the starry sky, a brilliant light spread out for 30,000 meters!

The entire Celestial Star was shaking. Under the roiling clouds, no one could see what was going on. The light and the Paragon's power were all submerged in the clouds. "Aoo!"

BOOM!

Under the remnant might of the attack, many of the Mortal Life Cavern's members were severely injured.

"Gui Qi is this strong!"

The several Hierarchs saw it!

At this time, the Primordial Dragon Pagoda's support was basically the strongest move. The metaplasia, which possessed both the nature of slaughter and karma, was like a giant dragon, disintegrating and devouring the Heavenly Eye Curse.

In the midst of danger, Long Chen actually blocked the Heavenly Eye Curse. The metaplasia rushed forward, and even suppressed the Heavenly Eye Curse. In that situation, no matter who it was, it would be a miracle within a miracle!

BOOM!

In the end, the metaplasia rushed into the depths of the starry sky like a giant dragon. The connection between the Heaven's Eyes and the Origin Ancestor was torn apart!

Bang!

Everything shattered.

"Pa, pa, pa." Origin Ancestor suddenly appeared, but he did not attack.

Chapter 3107 - Wishful thinking

The Heavenly Eye Curse was indeed terrifying.

Even though Long Chen blocked it, he still had a lingering fear. His hands that held onto the Ghost Blood Curse could not help but tremble. At his current level, he was rarely suppressed.

Other than the Anarchic Demoness and the Origin Ancestor.

"As expected, even though I have three types of primitive level, a Creation God Weapon, compared to a figure like the four great rulers, the strongest in all realms is still a little lacking. The difference in rules is not too great, and the Creation Deity Equipment is definitely the same as well. The true difference is still in power, after all, no matter how much I go against the heavens, I am still just a Divine Emperor of initial state. "

Long Chen knew clearly in his heart that if he were to fight recklessly, he would definitely not be a match for the Origin Ancestor at the moment. In order to prevent himself from having more difficulty achieving his goal, he calmed down. After all, he still did not know the degree of understanding Origin Ancestor had towards him.

"He should be testing where the limits of my cultivation are. I can even block and destroy the Heavenly Eye Curse that he is using all his strength in. It should have reached a point where he cannot crush me like this, and many unforeseen events will occur."

Only Long Chen had one breath left, and that was enough to deal a devastating blow to the entire. If the entire ancestral star was forced into a desperate straits in order to kill Long Chen, would have to rely on killing countless lives to rely on in order to kill a single Long Chen. With the loss of countless lives, it wouldn't be worth it even if he were to die.

Ordinary life forms simply could not stop Long Chen.

Long Chen guessed that it was because of this that Origin Ancestor did not continue to take action. From the test of the Heavenly Eye Curse, he understood that Long Chen's combat power was second only to him. With such a degree of power, even if Origin Ancestor had a smile on his face, maybe his heart would still be shocked.

At this moment, it was completely silent.

Everyone looked dumbfoundedly as they watched Long Chen block Origin Ancestor's attack. They looked at Long Chen, then looked at Origin Ancestor.

"Not bad, there are actually three types of Creation Divine Artifacts of primitive level. Especially the last one that appeared, the ones that increased your strength by quite a lot. " The Origin Ancestor's voice spread out in the starry sky, that old and indifferent voice gushing into everyone's ears.

Three!

Every single one of them, especially those Hierarchs, had been viciously rammed into. Those were Creation Divine Weapons of the three primitive level! Everyone dreamt of a Creation God Creation Art, so how could this Bloodthirsty Great Emperor be so tyrannical?

"Did he not discover that I'm Gui Qi?"

Long Chen could not help but have this thought in his heart. If only it was.

However, in the next moment, the smile on Origin Ancestor's face disappeared, and those three incomparably indifferent gazes looked at Long Chen, standing proudly in the middle of the starry sky, as they spoke word by word, "But, you are definitely not Bloodthirsty Great Emperor, nor are you the Ghost Bun. Although I've never seen a rule like yours, it should be considered a change. Change yourself into a Ghost Bind. To invade my ancestral star. Your true identity should be from another world! "

Sure enough, during his battle with Long Chen, he should have seen through it. It was because of this that he decided to test his!

When Origin Ancestor said these words, another wave of commotion broke out, and for a moment, everyone was extremely shocked, to the point of suffocating, even the Hierarchs did not think of this situation, but after they heard Origin Ancestor's words, they looked at each other and dense killing intent appeared in their eyes. They then appeared behind Origin Ancestor one after another, and all of them were staring at Long Chen with hatred!

At this time, as long as Origin Ancestor gave the order, they would fight to the death.

"Origin Ancestor, how do you know?"

Long Chen still had not given up. The other party could have only been guessing.

"Gui Qi doesn't have your ability. In addition, the aura of the inheritance on your body has been transformed, and it is truly different from before. Also, upon becoming a god, everyone on my ancestral planet will have the rule to curse. You don't even have the basics, and instead have other rules. "Clearly, you are an impostor. Show your true appearance."

Origin Ancestor could not see the joy or anger in his killing intent.

At this point, there was nothing left to hide. To be able to last until now before being discovered was already quite impressive. Long Chen knew how to react. When the people of the Ancestral Star looked curiously at him, a guest from another world, Long Chen's expression changed from Gui Qi to himself. It was only then did everyone realize that he was actually a man.

"He trespassed into my ancestral star and disturbed its order. If you want to kill my Ancestral Star Emperor, you must do so! You have something to say! "

The Origin Ancestor said impolitely.

"Yes."

Long Chen's heart was calm as he said, "I have a reason for everything that I've done to this point since I arrived at the Ancestral Star."

"For what reason?" It seemed that the Origin Ancestor wasn't in a hurry to fight with Long Chen, and was perhaps thinking of ways to quickly restrict Long Chen so that he wouldn't retaliate or put his life on the line. This would save his Ancestral Star a great deal of damage and suffering.

Under the gazes of everyone present, Long Chen pulled Gui Qi out from the Death Realm. In order to pass on his blood essence and break the God Dragon Curse, he didn't want to be enemies with the strong warriors of the Ancestral Star. He righteously spoke, "My friends from the Ancestor Stars, yes, my name is Long Chen and I come from the different realms that you all speak of. My sole purpose in coming to Zu Xing was to avenge her. She was a friend of mine who had helped me greatly in the past. I knew that she had great regrets on the side of the Ancestral Planet, so I came back with her to avenge her. As for the challenges along the way, it's because the various Hierarchs don't seem to be friendly towards the new Bloodthirsty Great Emperor. I wanted to help her become a Bloodthirsty Great Emperor and fulfill her wish, which was why we fought all the way here. However, it was only a spar along the way. I didn't kill anyone, and the Hierarchs I challenged were also all here, unscathed. "All I

have to say is that I am from another world and I don't want to fight with you. I just want to help my friends, and if you don't mind, I can also become your friends."

After these words came out, Gui Qi knew it was her turn. She said: "Seniors, I have been harmed by this little person, I have suffered, I have drifted to the ten thousand worlds, and have tasted all the suffering. I have never forgotten the hatred in my heart, and have endured for millions of years. If there is anything that offends you, I hope you do not take offense to it. This friend of mine doesn't have the intention of destroying anyone or anything on the Ancestral Star, he is even trying to vent his anger on Origin Ancestor. "

At this time, anyone could see that Gui Qi was the real Gui Qi.

Universal

This word made Origin Ancestor twitch a little.

The other world he had wanted to conquer countless times. He knew nothing about that world now. There might have been memories, but they had all been lost. And now, an expert from that world had appeared before him. He didn't seem to have any ill intentions. Killing or not killing, that was a problem.

"Please forgive me for offending you in any way. If Origin Ancestor doesn't like me, now that I have completed my mission, I will leave the Ancestral Star first and return to the world that belongs to me. I think, I just want to avenge Gui Qi, Origin Ancestor wouldn't need to exterminate me completely right? "

Long Chen wanted to subdue them.

Even if the Origin Ancestor forced him to leave, he had the Life and Death Realms and the Door of the Universe. For places like the time tunnels, the door of the universe was unable to directly enter, but the Ancestral Star was a part of the myriad worlds. From the door of the universe, one could enter this place at any time as long as they remembered it.

"Wait."

Sure enough, the Origin Ancestor did not want him to leave.

His three eyes changed quickly, sometimes fiercely, sometimes doubtfully. It seemed like he was struggling between killing and release. But the intention to kill was not strong. The biggest reason was naturally because of Long Chen's strength. The reason he used the Heavenly Eye Curse's test was precisely because of this, and now he clearly understood in his heart, that if he made a move, he would not be able to kill Long Chen, and would definitely suffer heavy losses!

On one side, the opponent was sincerely begging for forgiveness. On the other hand, Long Chen had suffered heavy losses. This was the only reason why Origin Ancestor could make such a choice, if it was an ordinary Hierarchy, Origin Ancestor would slaughter them easily. Just like how he killed Gui Qi's father.

At this moment, everything was completely silent.

Until the Origin Ancestor said, "Since you are her guest, I naturally will not act against you. Besides, I've recently learned about the feud between the Ghost Marriage and Ghost Qi. As a friend, it makes sense for you to avenge her. This is an internal matter of your planet, so I'm too lazy to interfere. Gui Qi would be the new Bloodthirsty Great Emperor in the future. As for you ...

Since he could not deal with Long Chen, then there would be two scenarios.

One of them made Long Chen leave immediately.

The other reason should be to leave Long Chen here.

If Origin Ancestor was a conservative person, he would probably let Long Chen return to the Ten Thousand Worlds immediately.

If he had a desire towards the Ten Thousand Worlds, then he definitely wanted to understand more about the Ten Thousand Worlds. With great difficulty, he finally came here. Even if it was just a bomb, he still wanted to understand more about it.

In the end, the Origin Ancestor said, "I am extremely curious about the world you live in. You are indeed a little messed up in the past few days and have disturbed the order of my ancestral star. As an apology for your actions, you should tell me about the world you live in. We'd be happy to be friends with you. "

Sure enough, he wanted to seize this opportunity to understand the myriad worlds.

Once he discovers that Long Chen is worthless and is not even a threat, then, he would definitely decide to kill Long Chen.

The Origin Ancestor had intentions for the Ten Thousand Worlds, but he did not know how vast the Ten Thousand Worlds was. Long Chen actually wanted to disappoint the frog at the bottom of the well, since he had come to find him, then he would not be courteous.

Although it was exposed, at least for now, there was no problem. Most importantly, Long Chen had gained a lot from this battle. The gray flames that he saw on Emperor Tianxin's body would be the biggest clue for Long Chen to find the inherited blood essence in the future.

Chapter 3108 - Five Chief Sovereigns

"Everyone dispersed."

Under the orders of the Origin Ancestor, other than those at Ten Ancestors's level, all the gods, devils, and common beings below the Divine Sovereign Realm began to return to their positions. Origin Ancestor didn't want ordinary people to know about the other world right now.

"I'm very interested in your world. Since we're friends, let's have a chat."

Origin Ancestor said.

Emperor Tianxin had recovered some of his strength. Now that he had summoned the endless clouds, this place was now completely surrounded. Gui Qi stayed in such a sealed environment and was actually a little scared. She couldn't help but get closer to Long Chen.

"Whatever Origin Ancestor wants to know, feel free to ask. I don't know how to answer."

Surrounded by the strong warriors of the Ancestral Star, Long Chen was calm and composed. This made the Origin Ancestor not dare to underestimate him.

"I want to know how vast the world you all live in is."

Long Chen said: "This is simple. Our side is called the Ten Thousand Worlds. It means ten thousand worlds! "

"Ten thousand?" Origin Ancestor and the others were not nervous. After all, there were big and small worlds.

"Yes, ten thousand. There were levels in the world, from the initial dreamy grade, to the highest level of primitive level. For example, a world like the Ancestral Star can be considered a world of primitive level on our side. It was also the world of the highest level. To be honest, the Ancestral Star is actually a part of the Myriad Worlds. This is one of the most supreme worlds of the entire Allworld! "

"What!"

This time, all the Ancestral Star Sovereigns couldn't help but cry out in alarm.

They had always thought that the Ancestral Star and the Myriad Realms was a world of equal, roughly the same size. However, they hadn't thought that Long Chen's words would actually be filled with tolerance.

"Long Chen, don't lie to us, we are friendly with you, if you tease us, be careful of your life!" The leader of the Ghost Clan, Devil Emperor said sinisterly.

Long Chen looked at him indifferently, and said: "Why would I lie to you? Are you afraid that you will conquer the ten thousand worlds? So you intentionally exaggerated it? "

"Shut up." Origin Ancestor glanced at Devil Emperor, and then signaled Long Chen to continue.

Long Chen continued: "Among the ten thousand worlds, those are the worlds with relatively top-notch Eternity, considered seventh rank, for a total of nearly fifty. And in the world of primitive level, which is the equivalent of an ancestral star, there are four in total. They were respectively located in the east, south, west and north. And the Ancestral is north of the North. To be honest, the Myriad Realms is simply too vast. Even the Myriad Realms is at least the size of a few hundred of your world. "

Long Chen roughly knew that this Origin Ancestor might have some thoughts. If he were to tell them the truth of the Ten Thousand Worlds now, he would still be able to dispel these thoughts.

Thus, after hearing what Long Chen had to say, the Ancestral Immortals all became very manic. They felt their own insignificance, and had always thought that they were in a world of equality. But they never thought that it was truly an amicable relationship. Even though this tiny little planet was powerful, how could it conquer the boundless universe!

Hearing Long Chen's words, they had a certain understanding of the structure of the boundless universe, even though they were still unwilling to believe it to be true.

"He didn't lie to you. I have been to the Ten Thousand Worlds before, that is indeed the case. However, in the entire ten thousand worlds, the Ancestral Star is considered to be the world of the highest level. In at least the four primitive level realms, the Divine Sovereign Realm experts are not as strong as you. The true number one of the Myriad Realms is still the Ancestral Star. " Only after hearing Gui Qi's words did Ten Ancestors feel a little more refreshed.

Origin Ancestor nodded. He pondered for a moment before saying: "So, your strength can be ranked fifth in the entire Myriad Worlds, right?"

He could probably guess that in a world with primitive level, a A Highgod in the Perfection Stage would be born.

He had always thought that there would only be one Empyrean God on land, but he had never expected that there would be four experts of the same level who were unable to deal with him. Therefore, even the Origin Ancestor was disheartened at this time.

Long Chen nodded: "More or less. The masters of the four primitive level realms are known as the Four Great Overlords. They each controlled the East, South, West, and Star Regions. Including you, the Allworld should have five Chief Sovereigns. I'm a little worse off than you. In truth, the people of the Allworld also knew very little about the Ancestral Star. Only the ruler of the Northern Star Domain, Sky God Lu Wang, knew a little about it. "He's one of the people who saw your side on the other side of the Blood Fiend Domain."

"Is his name God of Heaven, Lu Wang?"

Origin Ancestor took a deep breath.

Perhaps it was that glance of Empyrean God Lu Wang that had caused him to have the thought of conquering ten thousand worlds. How many years had it been since he'd encountered an opponent? The loneliness in his heart could be imagined. Finally one day, a gaze of someone of the same level was cast upon him, letting him understand that the world beyond was just as vast.

Until today, from what Long Chen had said, he finally understood the true situation of an entire realm.

"We are all frogs at the bottom of a well."

Origin Ancestor sighed and said helplessly. The expressions on the faces of the other Hierarchs weren't too good either. They knew clearly in their hearts that although the Ancestral Star could be considered the strongest, it still possessed the strength to conquer all realms.

Every ruler was almost as strong as the Origin Ancestor.

Gui Qi said, "Origin Ancestor, it's not really anything, you just don't understand it. Actually, the Allworld was just a big place. I've just said it before. If we're really going to be the first in ten thousand realms, then our Ancestral Star will be the first in ten thousand realms. So why should we compare ourselves to the world? "

Number 1 for all worlds!

The once Dragon Sacrifice Continent had now become an ancestral star.

Origin Ancestor and the rest might not know of the golden age 100 million years ago, but if they knew, they would definitely be more shocked.

"The structure of the ten thousand realms is basically like this, so Origin Ancestor can understand that the other side of the Blood Fiend Star Region has no intention of invading. I also do not have the slightest intention of becoming enemies with you two. "

"Understood."

Origin Ancestor waved his hand. The change in his world view had a huge impact on him. He looked at Long Chen, and continued to be strong, and said: "You've come here with great difficulty, don't be in such a hurry to leave. He would stay on the planet. In the future, I still have some questions that I would like to ask you. "

Hearing that, Gui Qi was overjoyed, and said: "Thank you, Origin Ancestor, for understanding, Long Chen had helped me so much, I must properly thank him. In a few days, if he wants to leave, he will definitely bid farewell to the Origin Ancestor first. "

"Then that's good."

Speaking to here, Origin Ancestor was very clear, if the Ten Thousand Realms were truly this vast, then the people there really had no intention of going against the Ancestral Star. There was no need for the Ancestral Star to be compared to the entire Myriad Worlds.

"Disperse."

Origin Ancestor was about to leave.

"Origin Ancestor, I ..." Emperor Tianxin was still injured.

"Stay in the Celestial Star and rest up for a bit."

He had originally wanted to enter the myriad worlds. But now, he had no choice but to cancel this plan. Thus, there was basically nothing for Emperor Tianxin to do.

Seeing that, Long Chen stayed behind to avoid any troubles. After bidding farewell to Origin Ancestor, he left with Gui Qi. Of course, before he left, he left the door to the Death Realm here. It would be convenient for them to travel here at any time from the planet. After all, the universe door would be a little too noisy.

After Long Chen left, Emperor Tianxin asked, "Origin Ancestor, do you believe that what he said is true? I have a feeling that this kid is the one who is warning us. "Let's get rid of this idea."

"He used facts to warn us, and that's the scariest part. He didn't lie to us. " Origin Ancestor said.

"Then, the plan is cancelled?"

"No, but I need to change it a bit. I will only carry it out after I think of a concrete countermeasure. We should make the entire Ten Thousand Worlds tremble. "

"Yes sir!"

"If I take one more step, I can control the entire ten thousand worlds, break open the Blood Fiend Star Region, and make our Ancestral Star the only world with origin level! Let us become the true First Imperial Lord! The Chief Sovereigns of the Four Chief Sovereigns! "

Before long, Long Chen used the Door of the Universe and returned directly to the inside of the Emperor Blood Star. He and Gui Qi slowly descended, and news of what happened in the Celestial Star had only just spread to the Ancestral Star.

So it turned out that it was not that the Bloodthirsty Great Emperor was strong, but his friends were strong.

This was a piece of heaven-defying news, and everyone finally knew the reason.

However, the people of the Emperor Blood Star did not reject Gui Qi. Being able to have such a powerful friend was also a huge reliance on the Bloodthirsty Great Emperor, and in the future, the might of the Emperor Blood Star would definitely rise!

"Even at such a level, you have still been exposed. It is fortunate that Origin Ancestor did not kill you, what are you going to do next?"

Gui Qi asked.

Long Chen said: "The only places I want to look are the Celestial Star and Ancestor Stars. Emperor Tianxin has a clue that I want, and in the future, I will secretly follow him. "Go in secret to find what I want."

Gui Qi's beautiful eyes flashed. "Alright then, what about me?"

"Be your Bloodthirsty Great Emperor and become a Hierarch as soon as possible."

"You don't need my help?"

"No need."

"What if the Origin Ancestor and the other Hierarchs suddenly get here when you're not on the Ancestral Star? They were still on guard against you, which is why they allowed you to remain on the planet. "

"If there are any circumstances, notify me at any time. I will return from Death Realm in an instant.

"Fine."

A day later, Long Chen reckoned that it was time for them to leave Celestial Star too. They arrived at the Death Realm.

"The kitten hasn't awoken yet, but it's about time."

He had spent quite a bit of time fusing with this original body. If he woke up, Long Chen would not have to go through so much trouble to kill his way up to their doorstep, suppress their entire ancestral star, and just find the two important things that they wanted.

"We'll have to see kittens in the future!"

Coming out of the Death Realm, the Celestial Star hid in the tranquility. Long Chen turned into dust, quietly landing on the Celestial Star. Celestial Star was close to the Ancestral Star, so Long Chen had to pay more attention. Now that he had exchanged so much information with Origin Ancestor and the rest, if he was discovered lurking here, then he wouldn't be able to explain anything.

"Let's first search and see if it's on the Celestial Star. If it's not, let's go look for Emperor Tianxin."

Following that, Long Chen searched everywhere on the ground, moving across the entire Celestial Star. This entire process took nearly twenty days. He thought that he would be at Celestial Star, but who knew that he wouldn't be there!

After carefully checking some important areas, he still did not find anything.

"I can only follow Emperor Tianxin. I hope he won't find me. "

Long Chen began to head towards the place where the Heavenly Heart Emperor was.

Chapter 3109 - The Battle of the Twin Dragons

The Celestial Star was extremely huge, but it was completely filled with clouds and mist. Only the core of the Celestial Star was fiery hot. Because of this, the Heavenly Curse Tribe had built the city within the clouds, which looked like the third sky.

It was hard to imagine that there were trillions of lives hidden in this huge cloud.

Emperor Tianxin was the ruler of millions of lives, and his' Heavenly Heart Pavilion 'was located in the deepest, most central position within the Celestial Star. Heavenly Heart Pavilion itself was a type of Creation Divine Artifact that had half a primitive level. That was why it was able to exist in such a scorching, wild area.

Of course, it was also the core with the densest amount of spirit energy in the Celestial Star.

Long Chen floated like a speck of dust, from the outer layer of clouds, all the way to the innermost layer of scorching gray lava. In the Heavenly Heart Pavilion, only Great Emperor Tianxin existed.

Even if the Divine Emperor were to approach closer, he would probably be melted by the boundless heat.

When he lost to Long Chen last time, Emperor Tianxin was recuperating in seclusion in the Heavenly Heart Pavilion. It had never appeared before. Since he was sure that the inherited blood essence was not in the Celestial Star, Long Chen was not anxious, nor would he approach. He stayed at a distance from the Heavenly Heart Pavilion and returned to the Living Realm.

This position was very good, Emperor Tianxin wouldn't be able to detect his existence. Once Emperor Tianxin left, he would still be able to sense him.

"This will probably take a long time. But now was not the time to break off all ties with Origin Ancestor and the others. "It's better to be cautious."

Right now, time was not too tight either. He returned to the Living Realm, and it was rare for him to have a few leisurely days, which was naturally to enjoy the bliss of the heavens. In the Living Realm, everything was happy, especially after having a dragon's face.

"Daddy, I'm hungry!"

Only Long Chen and the others could endure her coquettish actions. As time passed, his dragon face grew too fast, and even though he had not started to comprehend the rules, she already possessed the power of the Extreme Realm Divine Emperor.

He estimated that it wouldn't take long before he became a Sovereign God.

Not long after he was born.

It was obvious that Long Yan was a Primordial Blood Spirit Dragon without a doubt. Furthermore, she had a Primordial Blood Soul, a complete Primordial Blood Dragon.

"Eat slower, there isn't much left."

Long Chen had almost made this little fellow eat a poor meal. What she had was a variety of Spirit Objects, with hongmengxinling being the majority of them, most of them being very high levelled. That way he could keep up with her.

"Not much!" Mother said that you are still hiding a lot! I want to eat poor you. " Long Yan muttered as she put the spiritual essences into her mouth. That look was pretty cute. Right now, she had changed into her human form. Her arms and legs could already fly into the sky and escape into the ground before they could even open them. Many people in the Living Realm didn't dare to play with her, saving their lives ...

"Daddy, I want to see you become a dragon. Quickly, let me see! I want to ride on your head! Uncle Cat said that would be the most impressive!"

After eating, she seemed to have countless of energy again as she climbed up Long Chen's neck, riding on top of it. Her meaty hands grabbed onto Long Chen's hair, making it seem as if she was riding ...

"Cat again!"

Basically, all of the weird opinions and habits were taught to him by the kitten.

Long Chen was used to being serious, but he still tried his best to fulfill his daughter's request. Seeing him transforming into an Primordial Blood Spirit Dragon and flying in the sky with a dragon's face, everyone below couldn't help but laugh out loud.

Ling Xi, Mo Xiaolang, Zhu Xi, Yang Lingqing, and the Jade Flower Divine Emperor were all here.

"Xiao Xi, Yan'er is so cute, and her talent is so high as well. You should work hard to produce a few more so that we can play around." The Jade Flower Divine Emperor teased.

"I have Yan'er, that is enough." it's possible for xuanji sister to ...

Just as Ling Xi finished speaking, Long Chen came back with Long Yan. Long Yan's ears were sharp, and immediately after she heard it, she shouted: "Let Aunt Xun Ji have children! "Daddy, go quickly. Uncle Cat said that if you don't go quickly, Auntie Xun Ji will give birth to a younger brother and younger sister. He will have to find Auntie Xun Ji and give birth to a new cat!"

"That's what he said!" Zhu Xi suddenly let out a sharp cry.

For a moment, everyone was still.

Long Chen swore that if he could defeat the little kitten after it woke up, he would definitely sew up its mouth

Li Xuanji was still sleeping soundly on Long Chen's body, so she naturally heard such words. Long Chen could feel the change in her heart, as well as the change in his body.

Then, everyone started to laugh, teasing Zhu Xi and Long Chen at the same time. Ling Xi hugged Long Yan as he watched with a smile. Actually, he was the one who suggested this. She felt that she and Long Chen owed Li Xuanji a certain amount, so at least they could entrust their lives to each other.

The most important thing was that Long Chen could make his own descendants directly become Ancestral Dragons, complete Ancestral Dragons. This was simply inconceivable, and was a miracle within miracles.

It was just that after Ling Xi had given birth to her dragon face, she naturally wanted her to rest. After all, she had worked hard for far too long.

Would there be a day when Long Chen was able to reproduce all of Ten Great Ancestor Dragon s?

What would he be then? The most primitive origin of all worlds?

These were all possible possibilities.

After having Long Yan obediently go to sleep, most of them were cultivating as well. Ling Xi said softly, "There seem to be many difficulties in the future. We had once fantasized about settling the matter in front of us and being able to live in peace forever. Only now do I seem to realize that this is our life, that peace is not our goal. Therefore, for the sake of all the better futures, not just you, we have to work hard together. I hope I can help you. "

Long Chen hugged her, and lightly patted her fragrant back, stroking his temples: "Don't worry, even when you're weak you will still be reborn, not to mention how immortal you are now."

From that moment on, until now, their love was eternal.

"This little life is like the crystallization of all the love between us. Looking at her, I can see that everything is so beautiful, and the future is so great. So, everything is up to you. " Ling Xi nestled into his embrace, her long and delicate eyelashes and long silver hair seemed to be like they were in a dream.

"I see."

"Then go. I don't believe that you've never thought about it. Hmph." Ling Xi pinched his cheek, pretending to be slightly angry. Even after so many years, she was still so cute.

Without her saying, from the looks of Li Xuanji's reaction, she was already very anxious. Li Xuanji was very nervous now, but she didn't refuse. Long Chen seemed to know all of the thoughts in her heart.

In the blink of an eye, Long Chen had already gone from the Living Realm to the Death Realm.

And here in the Death Realm, it was an empty space with no end, with only the endless ocean below.

After just arriving here, Long Chen's face had already turned a little red.

"Xun Ji. "Come out."

"No."

Long Chen didn't care whether she refused or not, and directly forced her out. In the blink of an eye, the woman with the long, dark green hair was grabbed by Long Chen by the shoulders and locked onto him. The sea of blood was surrounded by a violent wind as it swept away the long, ink-black hair.

Long Chen took a deep breath and said, "Actually, it doesn't have much to do with the ones they say. I owe you an explanation even after so long. The road ahead was long and dangerous. We have to face something as terrible as the Devourer race. Who knows? Who knows if they will win or lose? He had been waiting, but he had missed out on so many things. He had almost lost his life. But today, you will not be able to escape from my grasp. "

His eyes burned as he stared at Li Xuanji's trembling eyes. The fiery aura burned the body of the woman in his embrace, causing her to almost melt on Long Chen's body.

Long Chen had always been very obedient to her, but this time, his strength was so strong that Li Xuanji had no way of dealing with him.

"I don't think you owe me anything. I just wanted to stay by your side. I was born with such a personality, and I don't want to disturb you and Xiao Xi. "Therefore ..."

Long Chen laughed. He strongly rubbed Li Xuanji in her embrace and said: "Li Xuanji, you're too naive, you and I have been tangled up in this and now, our fates can't even be separated. How could you possibly just stay by my side and not give birth to my child?"

"What did you say?"

Seeing Long Chen's fiery gaze, restless aura, and such a strong desire, made her not know how to resist. She had been quiet for a long time, and after suddenly encountering such a violent attack, he had also lost control of himself for a moment, as he looked at Long Chen in astonishment.

"If you don't say anything, I'll just take it as a tacit agreement."

There were many things that needed to be done in one go.

Long Chen also wasn't like her, who had always been floating at the edges of everyone. When everyone was talking, she could only quietly listen. Let her come out.

As Li Xuanji lost her voice, Long Chen held her and smashed violently into the sea of blood like a cannonball. That sea of blood was so majestic and vast, and so blood-red in color, yet it had now become their battlefield.

Amidst the blood red, the cold and charming woman before him merged with her skin and blood. Long Chen would never forget the nervous expression in her eyes.

Blood-red, beautiful, and alluring.

In the Star Demon Prison, on top of the bronze coffin, Long Chen saw everything that happened to her. Yet at this step, they had actually walked for such a long time, such a long time, that Long Chen had finally managed to fuse with her in this manner.

BOOM!

The Death Realm was a romantic battlefield.

For a time, the bloody light filled the skies and the sea of blood trembled. However, no one was able to see even a trace of it.

He did not know when, but with a roar, the twin dragons suddenly rushed out of the blood ocean and stabbed in again. It was Li Xuanji's Shadow Dream Charm Dragon and Long Chen's Divine Dragon Body that were constantly changing.

The Death Realm rippled endlessly in the battle of the twin dragons.

Chapter 3110 - Cursed Stars

Flowers bloom and fall, spring leaves and autumn comes, seeds bury the soil deeply, quietly wait for the root to sprout.

A long time had passed since the sea of blood was calm. Time quickly passed by, and the time that Long Chen had whispered to Li Xuanji in his ear continued to fly by. For the sake of a short moment of happiness, everyone had to spend more time fighting and fighting.

"Then, what are you going to do?" Li Xuanji spoke in a soft voice. He had just had a taste of the wind and rain, and it was extremely soul-stirring.

"What else can we do? We won't give up until we leave this place, and we will depend on each other through life and death."

Long Chen's resolute voice gave her a sense of security.

"Alright!"

It had actually changed a lot this time. It could be said that he had made many unknown connections clear.

"All I know is that in this life, or perhaps in eternity, you are the only man I will ever have. You live, I live. You die, I die. "No matter how difficult the road in front of us is, no matter how vicious the Archaic Giant Demons and the Devouring Sky Clan are, I am willing to follow and protect you with my life." She stretched out her soft hands and stirred the sea of blood.

Blood dripped from the sea of blood and dripped down from her smooth, snow-like skin. It was as if it had come out of a lotus flower made of mud. If Ling Xi was a pure white lotus, she would be as pure as snow. That Li Xuanji is the Black Lotus, noble and proud but with deep feelings for him.

"Xuanji."

Gazing at her black eyes, that spirited look caused Long Chen to be extremely moved. The most beautiful treasure in the world was right before his eyes. An exquisite woman, was the world's most beautiful treasure.

"Hmm?"

"Let's do it again."

"..."

Within the sea of blood, the bewitching flowers once again bloomed.

It set off raging waves.

"Emperor Tianxin has appeared!"

Maybe it took a month before Long Chen heard of this news. He had been immersed in Li Xuanji's warmth and gentleness for too long, it was difficult for him to extricate himself from it. However, the appearance of the Great Emperor of Heaven's Heart allowed Li Xuanji to return to his body, and became a part of his power.

Returning to the Living Realm, Long Chen regained control of the situation. He turned into dust and left the Living Realm. Sure enough, he saw that Emperor Tianxin had left the Heavenly Heart Pavilion, and his grey robe was disappearing from Long Chen's sight. Long Chen had no choice but to chase after him.

"I hope he is heading to a place related to the Ancestral Fire, not an Ancestral Star."

In the past, Emperor Tianxin was either on the Ancestral Star or the Celestial Star. It's hard to be anywhere else. Now that he seemed to have completely recovered, Long Chen reckoned that he was going to return to his ancestral star to see the Origin Ancestor.

"Since you've chosen to follow me, then you should be patient."

However, Long Chen quickly discovered that the other party was not only advancing in the direction of the Ancestral Star, but also the opposite direction of the direction of the Ancestral Star. Furthermore, during this process, Emperor Tianxin was also hiding his body, which meant that he was also secretly hiding away. This meant that he was going somewhere where he didn't want others to know about him.

"It's very possible that he might even head to the place where the Ancestral Fire or even where the blood essence is passed down."

Since Emperor Tian Xin had yet to arrive at his destination, Long Chen did not want to get happy too early. He'd used that change in the rules to simulate it to perfection, so that Emperor Tianxin wouldn't discover that all his previous efforts had been wasted.

This also took quite a bit of effort, so no one bothered Long Chen too much.

As such, they sped through the starry sky.

This was also the opposite direction from the Blood Fiend Star Region. Long Chen turned his head to look, and discovered that the Ancestral Star and the nine great companion star had already gradually shrunk before him.

"There must be a problem for Emperor Tianxin to come to a place like this for no reason at all."

This was a more northerly direction.

A long journey.

After that, Emperor Tianxin continued to increase his speed, making it harder for Long Chen to track him. Many days passed in this way, and the ancestral star behind him was already very small. Long Chen had just seen the destination of Emperor Tianxin in in shock!

Up ahead, an enormous black shadow could be seen in the depths of the starry sky.

If one looked carefully, they would realize that it was a purely black planet. The key thing was, this was a huge planet that was only a little smaller than the Ancestral Star. It's about the same size as Hong Jun. However, the Ancestral Star contained a dense amount of spirit energy and it was called the primitive level World. The pitch-black giant star before him was of the same strength as the primitive level World, but it was a barren land, even more barren than the God and Devil Zhou Mountain.

Just like a demon god that couldn't reach a mountain or a beehive, this wasn't a place a normal person could come to.

What was Emperor Tianxin's purpose for coming to this giant star?

After seeing this gigantic black star, Long Chen immediately contacted Gui Qi. Right now, Gui Qi was leisurely sitting on the Emperor Blood Star.

"In the northern part of the Ancestral Star, there is a huge, limitless, black planet. It's about the size of an Ancestral Star. Do you know where this place is?"

Gui Qi's expression changed and said, "That's a Cursed Star! It looked a little like the twin stars of an ancestral star. The Ancestral Star was actually a curse. Cursed Stars were these two. However, there was a rumor that the Cursed Stars were as prosperous as their ancestors. It was only because they angered some unknown existence that their lives were exterminated, leading to their desolation today. To us, the Cursed Star is an ominous place, and the Origin Ancestor forbids us from reaching it. How did you get to this place? There's nothing there. "

It is possible that before the Age, the Bearstar and the Curse were one and the same. Both were prosperous worlds, but the Curse had already been destroyed.

"Emperor Tianxin has come to this place."

"Then I don't know. Just be careful. It's not that I'm not worried about your safety, but that your motives will be exposed. "

"Don't worry."

Emperor Tianxin had already landed on the enormous Star Curse. In truth, whether it was a human or a speck of dust, it made no difference to the Star Curse.

Long Chen followed after Emperor Tianxin, and landed on this incomparably vast Star Curse. It was as if this place had been scorched by a flame that had engulfed the entire planet, and everything was charred black. The entire world was filled with the smell of scorched earth. The smell seemed to carry the wails of billions of lives. It was a monstrous resentment.

"Tens of trillions of people, actually vanished in an instant." What kind of hell is this? "

Long Chen was now deeply aware of the terror of the Rule of Curse. What Gui Qi said was right, if you add Ancestral Star to the rankings, then Ancestral Star should be the number one of the Ten Thousand Worlds.

It was as if he could immediately see the things that he had dreamed of, so he was especially excited and forgot about the things in his surroundings. This way, when Long Chen was chasing after him, he would be able to relax a little.

After a day of traveling on this planet, Emperor Tianxin finally arrived at a small destination on this endless planet! It could be said that with such a tiny hole, the Cursed Star had trillions of stars on it. The Curse Star itself was like a burnt coal ball with many holes on it, but now that Emperor Tian Xin had found an inconspicuous hole, Long Chen realized that he had obviously hidden something very valuable inside.

Looking at the cave, which was only two people wide, Emperor Tianxin did not hesitate at all. However, he was extremely nervous as he rushed in, his body trembling slightly. Long Chen followed closely behind him.

Whether it was just an empty joy or a pleasant surprise, Ma Shan was going to reveal it.

The moment he entered the cave, Long Chen immediately felt it! This was not an empty joy, but a huge surprise! In his divine country, the eyeball left behind by the Black Jade Dragon was currently trembling. This proved that Long Chen had searched for a long time just to find out that the inherited blood essence of the universe's prehistoric Swastika Dragon was within it!

"Truly, nothing can be found by stepping on broken iron shoes. It doesn't take much effort to obtain them."

Long Chen was also exceptionally happy in his heart, which meant that his idea of following Emperor Tianxin was completely correct.

Now was not the time to be excited, Long Chen calmed his mind and concentrated. He still had to think of the best way to take the inherited blood essence from Emperor Tianxin's hands.

"In addition, he knew that there was inherited blood essence here, but he didn't take it away. Instead, he hid it here. Why? Could it be that they are afraid of the Origin Ancestor? "

The answer would soon be revealed.

Long Chen held his breath.

In the blink of an eye, they had reached their destination. The scope of the place expanded and a cave appeared before them. This place was extremely close to the Cursed stellar nucleus's heart and ordinary people wouldn't be able to find this place.

Long Chen looked at the Heavenly Heart Emperor that had landed in the spherical cave. The soil in the primitive level World was as hard as iron, so it was naturally difficult to knock it down.

Long Chen was already very clear that the thing he wanted was inside this spherical cave. Furthermore, Mo Xiaolang had even told him that the ancestral fire that was associated with the Universe Tortoise Dragon — the Great Desolation and Myriad Calamities Fire — was also within this place.

"Lin Er, I have come to see you."

Suddenly, Emperor Tianxin made a sound that was somewhat heartbreaking, and his voice was filled with deep regret and love, causing Long Chen to be stunned. If he looked carefully, the cave was very spacious, so it was very obvious that there was an ice coffin in the middle of it. Inside the ice coffin lay a beautiful young lady who was peacefully sleeping, but he could see that her skin had turned green and brown, and she was like a plant as she laid there without moving at all.

On her body, Long Chen saw some symbols and also felt the power of the curse. This was an extremely strong curse, and it was even a bit similar to the curse on a divine dragon. The divine dragons were transformed into statues and souls. As for this woman, she had been transformed into a Greenwood Tree, eternally sleeping and suffering.

The daughter of Emperor Tianxin?

How could he have been cursed and fallen asleep here? And Emperor Tianxin had an apologetic and helpless look on his face?

Long Chen's eyes quickly saw a gray, mysterious, and sinister flame that was burning underneath the ice coffin. The flames were suppressed and sealed under the ice coffin, submerging it within the sea of fire!

This was obviously the Ancestral Fire that accompanied the Swastika Dragon of the universe! It was the Great Desolation and Myriad Calamities Fire, the legendary being that had the most destructive power. It represented the heavenly tribulation, the heavenly tribulation that burned away all life! There were a total of ten thousand layers. The gray flames in front of him were able to tell that there were ten thousand levels.

The flames that Emperor Tianxin had on his body were contaminated with the flames of the Great Desolation and Myriad Calamities Fire, which was why Long Chen was able to find this place.
