

## War God 311

### Chapter 311 - Golden children

This man's words directly condemned everyone to death. Dense black clouds enveloped the body of the Goldfish Island's citizens. Seeing those sinister laughing, beast-like Japanese people, swarming towards him like a flock of beasts, and there were no lack of strong Milky Way Realm amongst them. All they could do was wait for their deaths!

In their hearts, none of them were willing to give up!

Even though the Japanese was very strong, dealing with them like this was like hitting a stone with an egg, Chen Feng still did not choose to give up. He had already been buried alive, so it was better for him to just retaliate, to them, only by defending, would there be that little chance of survival, and only by resisting, would they be able to make the people of the Japanese pay the price!

"The citizens of my Goldfish Island!" Chen Feng breathed heavily, his face green, seeing that the other party was about to pounce forward, he pulled out his throat, his veins popped out as he roared: "The people of Japanese are all no different from beasts, if we were to fall into their hands, we would definitely suffer a fate worse than death. Listen carefully, there is only death left and right! Our bodies can die, but our souls and dignity cannot! "

"Yes!" Seeing that his own father was trying to rouse everyone's courage, Chen Lei also roared: "Who cares about the people of Japanese, they are just a bunch of dogs, they are truly strong, so what, left and right is just a death, why can't we let them die?! Everyone make a move, and let them know how powerful we are. Even if we die, we won't be humiliated! "

Chen Feng's and Chen Lei's two sentences made the blood boil in excitement within the Goldfish Island. The Goldfish Island had originally prepared many soldiers that were not good, but now, they all pushed the old, weak, and children all the way to the front. All the warriors, who had the courage of a man, held onto their weapons, circulated their Zhen Qi all over their bodies, and walked to the front!

In a short period of time, more than a hundred warriors had already stood out from within the island citizens of Goldfish Island. They all looked at the Japanese with hatred and coldness in their eyes.

"Even if I die, I can't let you bully my wife and children!"

"Yes!" If a group of animals were to occupy the land left behind by our ancestors, how could we have the face to meet our ancestors? Goldfish Island is ours, not this group of dogs! "

Brother, don't even mention dogs, it's enough to insult them by describing them as dogs.

"Yes!" Let's see who is stronger today. I don't have any plans to live anymore. Today, I will fight to the death! Even if I die, I want to kill Japanese! "

"KILL KILL KILL!"

More than a hundred warriors from the Goldfish Island gathered, led by Chen Lei and Chen Feng. They roared furiously, and looked at the people from the Japanese without fear.

Amongst this group of Japanese, there were four of them, and one of them was a Sixth Stage of the Milky Way Realm Ranker who was giving out orders in the middle. This was a man who looked to be around thirty years of age, with a skinny stature and a wretched appearance. At this moment, he was looking around the crowd of Goldfish Island with a lustful expression, occasionally releasing lecherous laughter, and the sound of gulping could be clearly heard by the people around.

At this time, the warriors of the Goldfish Island not only blocked his line of sight, but also said some disrespectful words. The leader, Song Zhongzhen, was enraged, and shouted angrily: "Eighty, hurry up and attack! Today, I want to enjoy ten young girls who have not been killed yet. As for the others, whoever kills more will get more! "

These words gave the Japanese warriors a huge boost in their motivation. All of their faces revealed crazy and lustful expressions, and with a roar, they charged towards the people of Goldfish Island like beasts!

Under Chen Feng's lead, the warriors of the Goldfish Island, although aware of the great disparity in strength, knew that the brave are invincible.

He was willing to face death head-on.

These four words perfectly described their current feelings.

Just as they were about to start a bloody fight, a loud shout came from the ground, and a figure quickly rushed to the middle of the two teams, causing everyone to retreat a few steps. This person's speed was too fast, and everyone had to confirm that it was a super expert!

"Stop! Everyone, back off! "

When the man was in the middle, his sharp eyes suddenly turned to look at the people of Japanese. The dignity on his face immediately scared the people of Japanese away.

The scene suddenly became silent.

Following closely was the young man in the middle, as well as an old man. He led a beautiful young girl to the side. Beneath the young woman's feet was a small black wolf. To the people of Goldfish Island, Ling Xi and the little wolf were simply too familiar. Last time, it was Long Chen and Ling Xi who saved them. No one expected that this time too, everyone's eyes revealed excited tears.

"It's big sister Ling Xi, then this person must be big brother Long Chen!" small fish's mood, from jealousy and grief, immediately became excited. She looked at the person in front of her with great anticipation, yet, she discovered that the person who scared Japanese back with a single sentence was not Long Chen, but another handsome young man.

"By Sister Ling Xi's side, why is it not Big Brother Long Chen? "Could it be?" small fish tilted his head, unable to make sense of the situation. She would even have this question, let alone others. At this time, everyone in Goldfish Island looked at the man in the middle, one one after the other, grateful for the youth, while guessing where Long Chen had gone to.

They looked at Ling Xi, whose expression was a little ugly, and couldn't wrap their heads around it no matter how hard they tried.

Long Chen and Ling Xi's relationship was so close, there was absolutely no reason for Ling Xi to betray him. But now, he had appeared together with another man, what was going on?

At this time, the Ninth Prince Lin Cangtian turned around and smiled, causing everyone to feel as if they were facing a spring breeze. This kind of Ninth Prince really gave off the impression that Long Chen was a little stronger than he was back then. No wonder Ling Xi appeared along with this man.

The Ninth Prince's gentle smile infected many people from the Goldfish Island. Then, he turned around and looked coldly at Song Zhongcheng, who was commanding the Japanese.

"Where did this bastard come from? Men, give it to me!" "So it's his highness the ninth prince!" However, he did not mind it at all. Leading the rest of the Japanese, he quickly got up and led them to the front of the ninth prince while nodding and bowing: "So it's Your Highness, this lowly one didn't manage to see that. This one is the Song Zhongzhen of the Da He family, the cousin of the Song Zhongcheng Patriarch, does he remember me?"

Although they had Sixth Stage of the Milky Way Realm at the same time, the difference in status was still very big. Song Zhongzhen had not paid attention to them just now and had already verbally insulted the Ninth Prince, causing great waves to surge in his heart. He innocently looked at the Ninth Prince, and only hoped that the Ninth Prince would spare his life.

"Song Zhongzhen, what did you just say?" He lowered his head, and said coldly: "I have already remembered your words. Originally, if it was any other time, since you dared to speak to me like this, I will definitely cripple you on the spot. Today, I am in a good mood, and I am just about to let you off.

"Scare!" Fortunately the Ninth Prince had already said it, and barely took his life today. Although he did not understand why the Ninth Prince had to protect this Goldfish Island, when he saw Ling Xi, he completely understood, and was smart in his heart. He knew that at this time, the most suitable thing for him was to scam, so he hurriedly nodded and said: "Yes, yes! Your Highness, I will immediately bring them and scam, we will never come again. Quickly scam, everyone, scam back! "

Under Song Zhongzhen's wise urging, all the Japanese s only dared to pinch their tails. In front of the Ninth Prince, they were big enough to not even dare to make a sound, and ran off with their tails between their legs. After they left the Goldfish Island, someone could not help but ask Song Zhongcheng: "Chief, why does the Ninth Prince want to protect this unrelated Goldfish Island?"

"You don't know, the last time I tried to take back the Goldfish Island's three donkeys, they were destroyed by one of the fairyland godly guard s under the ninth prince's command, and beside the fairyland godly guard followed a woman who could topple the masses, and also a little wolf, this woman would definitely not let us massacre the Goldfish Island, but the most important point is, these few days, the imperial city has been in an uproar, these few days, we have been bringing this woman out for sightseeing and sightseeing, if you don't like her, what kind of situation could it be, does Your Highness like you?" Song Zhongzhen said excitedly.

"Then, Goldfish Island actually dares to touch our Great Japanese's people, are we going to bear with it like this?"

"I don't know. Let's go back and first." The Ninth Prince is trying to act cool here, so we have to run for our lives! "

Seeing that the Japanese had left, the Ninth Prince's brows relaxed. He turned around and looked at the people of the Goldfish Island with a peaceful smile on his face. This was the first time they had seen such an amiable expert.

This was undoubtedly the young man with the highest status in the Canyang Kingdom. No wonder he appeared by Ling Xi's side. But, where did Long Chen go?

Chen Feng still had some understanding of Ling Xi, and in Ling Xi's heart, there was only one hundred percent chance that Long Chen was the only one, but this Ninth Prince, he did not know what was going on either.

At this time, the Ninth Prince saw that Ling Xi had walked to the front of the Goldfish Island. His eyes moved, and she walked next to Ling Xi.

#### Chapter 312 - Please don't call me Xiao Xi

slightly frowned at the Ninth Prince's deliberate actions of standing together with her. She subconsciously took a few steps to the side, but at this time, the little wolf lowered its head and directly inserted itself between the two of them, pushing the Ninth Prince to the side.

This detail couldn't be seen by outsiders, only the Ninth Prince had a flash of anger in his eyes. However, he covered it up well and flashed a golden smile, then said to the audience: "Hello everyone, I am Miss Ling Xi's friend, and also the current Ninth Prince of the Imperial Family. So, everyone need not worry, as long as I am alive, those people from the Da He Family will definitely not come to the Goldfish Island to cause trouble."

No matter who the Ninth Prince was, they had to express their gratitude, and so many people began to express their thanks, some even directly kneeled down, but the Ninth Prince's hands and feet were quick, and he rushed over to help them up, and said gently: "Everyone, there is no need to thank, and even less so, as a member of the imperial family, it is my duty to protect my own people, so there is no need to thank me, you all should thank Miss Ling Xi ah, if not for her, I would not have known this would happen here."

Although the people from the Goldfish Island were suspicious of why Long Chen wasn't here, but seeing that the Ninth Prince didn't seem to be a bad person and was even an extremely good person, they began to have a good impression of him. As for Ling Xi, they had a better impression of him, and so everyone thanked him.

Looking at the people from the Goldfish Island, who were finally free, and seeing their happy smiles, Ling Xi was happy for them in her heart. It was just that there was still the Ninth Prince by her side, which made Ling Xi a little unhappy and worried.

"I wonder how Daochen is doing. I had no choice but to beg the Ninth Prince, but seeing that all of Goldfish Island's people have been saved, Brother Chen should be very happy." Thinking about it, Ling Xi was very satisfied.

"Miss Ling Xi, I wonder where Little Brother Long Chen is now?" After saying a few words of thanks to Ling Xi, Chen Feng went straight to the point and asked somewhat suspiciously. To the people of the Goldfish Island, the truth was that today, the Ninth Prince had helped them even more than when Long Chen had helped them previously. However, they had a strange feeling in their hearts, as if Long Chen was more pleasing and friendly to them.

"The Brother Chen went to the Inverse Wonderland and became the fairyland godly guard. However, he will be back soon. " When it came to Long Chen, Ling Xi was a little excited.

"Wow, Inverse Wonderland." The people of Goldfish Island all praised him. Inverse Wonderland, this was not a place that ordinary people could enter. Long Chen being able to be a fairyland godly guard, they were also feeling happy for him. Even they did not realize that a mere fairyland godly guard, compared to the identity of the Ninth Prince, was simply a piece of cake.

The Ninth Prince seemed like he had turned into a bomb that was about to explode. He forced himself to hold his breath and said to Ling Xi: "Xiao Xi, it's time for us to return. Today, I'll bring you to the Ocean Awareness Pavilion in the Imperial City. There are quite a few rare exotic delicacies here. "

Hearing the name Xiao Xi, Ling Xi's expression changed. She stared coldly at the Ninth Prince, not giving him any face at all, and spoke word by word: "Your Highness, didn't I already say it, please don't call me Xiao Xi. Only Brother Chen can use this name."

The indifference in her voice stunned Chen Feng and the others. Some of the more brainy people were probably able to guess what was going on. It seemed like the Ninth Prince wanted to seize the opportunity to save the Goldfish Island, which meant that the Ninth Prince saying that it was his own duty was completely bullshit. He was just trying to make the beauties happy.

Now that they thought about it, it seemed that this Ninth Prince was only so-so. Hence, everyone shook their heads one after another in their hearts; Long Chen and Ninth Prince, they liked the hot-blooded Long Chen more.

Whispers were heard from the crowd.

"I really thought that the Ninth Prince would be that kind, but I'm curious, didn't the Da He family serve the imperial family? Those people just now, they are the imperial family's henchmen."

"Don't talk about it anymore, the ninth prince is angry, we don't even have the chance to eat. The other party isn't really trying to save us, they could kill us at any time."

This kind of discussion, and Ling Xi not giving him face, simply made the Ninth Prince so angry that he died. His breathing became heavier, his eyes stared straight at Ling Xi, a light flickered in his eyes, yet Ling Xi was not afraid of him. She went against him tit for tat, gritted her teeth, and said softly: "How is it? Are you angry? No matter how angry you are, it's useless. At most, you'll just kill me. I'm not afraid of death. "

Ling Xi's attitude was unyielding. Seeing this beauty in front of him, the Ninth Prince's anger turned into helplessness as he waved to the rest of the Goldfish Island and said: "You guys are already fine. Just do whatever you need to do."

"Miss Ling Xi," Chen Feng was a little hesitant, the Ninth Prince was clearly chasing them away.

"Uncle Chen, take them and leave first. In any case, Goldfish Island will be fine in the future. In the future, I will let him take me and come here often to play." Facing a person from the Goldfish Island, Ling Xi was much more obedient, and said with a smile.

"Alright then, Miss Ling Xi, you must be careful, our Goldfish Island will welcome you anytime!" After she finished speaking, Chen Feng had no choice but to line up with them. She could only bring along her reluctance as she watched Ling Xi and the rest of the Goldfish Island leave. After everyone had left, the

Ninth Prince looked at Ling Xi deeply and said: "Ling Xi, these past few days, I have spent a lot of effort to make you happy. Don't you understand how I treat you?"

"What the hell is that thing? Is it edible? I'm very hungry right now, and I want to eat! " Ling Xi opened his eyes wide, looking at him without showing any signs of weakness.

"Don't change the subject, what I said was true, tell me, how can I not compare to Long Chen? In terms of looks, strength and background, am I not stronger than him? Why can't you think about it? " The ninth prince anxiously said. His voice was even a little choked with sobs. He looked like he had hurt his soul because of love. He would definitely be able to kill an ordinary girl in one shot.

"You want to compare yourself with Brother Chen? What are you joking about? I said a simple question. Can you die for me? Brother Chen will know how to do it. " Ling Xi said in a cold voice.

"Don't joke with me. Everything is fine. Why do you want to die?" The ninth prince didn't quite understand.

"That's why I said, you don't know what love is, on what basis do you like me? Isn't it because I'm beautiful? In the past, when I'm not even a fart, the Brother Chen took good care of me." Ling Xi said happily.

"Nonsense, don't misunderstand. Long Chen can do it, I can do it too, but dying for you, is not too difficult! " In order to move Ling Xi, the Ninth Prince was willing to throw caution to the wind this time. Of course, he wouldn't do that.

"Then let me see your death right now." Ling Xi took a few steps back, and looked at the Ninth Prince indifferently.

The indifference revealed by Ling Xi's words instantly shattered the Ninth Prince's heart. Looking at the beautiful woman in front of him who seemed to be indifferent to his life, the Ninth Prince felt more and more that this month's hard work was simply laughable.

"Alright, let me ask you one last question, are you willing to follow me or not? Think about it carefully, you only have two choices, one is to follow me, two is to follow me, but Long Chen will die!" At this time, the ninth prince finally couldn't take it anymore and revealed his true face.

"You're so flustered and exasperated. Have you finally revealed your fox tail?" In this regard, Ling Xi was not surprised at all. She had long anticipated such a day. When the Ninth Prince discovered that all his efforts were useless, he would inevitably go crazy and reveal his true face.

The Ninth Prince had always relied on his power and strength to conquer others, so how could he sincerely use his emotions to move others? Ling Xi was not an idiot. From the day that Long Chen entered the Inverse Wonderland, she knew that the Ninth Prince would go berserk. She didn't tell Long Chen and instead advised him to head to Inverse Wonderland. She wanted Long Chen to focus on finding the Nine Celestial Spirit Fruit and not need to worry about her.

Of course, daring to break off relationship with the Ninth Prince at this time, and causing the Ninth Prince to go berserk, was not reckless. Before, Ling Xi and the little wolf could use the soul communication, and after a month of tempering, the communication became very smooth. At this moment, Ling Xi was talking to the wolf cub.

"Little Wolf, hurry up and leave. Otherwise, it won't be good for him to use you to threaten me. Brother Chen will help me find the Nine Celestial Spirit Fruit. Once I return to Ling Xi's sword, no one will be able to harm me again. "

Before this, Ling Xi and the Little Wolf had already decided that if they really had no other choice, they would use this method. The day that he turns into a devil would come sooner or later. It was already a difficult task for Ling Xi to drag things out until today.

Otherwise, how could Ling Xi agree to this Ninth Prince's invitation?

"Sister Ling Xi, I'm still worried. I'm currently an Earth Stage Fourth Rank, so this guy might not be able to defeat me ..." Little Wolf did not escape at this time. Instead, he stood in front of Ling Xi.

At this time, the ninth prince gnashed his teeth, with a sinister look in his eyes, he said: "Ling Xi, you have to say, you're forcing my hand!"

Ling Xi took a few steps back, looked at him coldly, and did not speak anymore. At this moment, she was using her soul to urge the wolf cub to leave. However, the wolf cub did not follow her plan and did not fear death. Instead, he stood in front of her, blocking her path.

"My big brother told me to protect you. Before he appears, I won't retreat even half a step!"

## Chapter 313 - Long Chen returns

"Alright, since that's the case, then I won't say anymore. Don't blame me, I originally wanted to be gentle to you, but you let me choose rudeness instead! You forced me! Ling Xi, you forced my hand in everything! " The current Ninth Prince's eyes were a little red. Ling Xi's stubborn eyes, allowed him to completely erupt. The image that she had painstakingly put on earlier, was now completely destroyed!

"What do you mean by forcing you?" It's obviously your own problem, but you have to blame it on someone else. Don't you know that being magnanimous is the most difficult character for a man to come by? Ling Xi didn't have any intention to give in.

To be honest, this ninth prince was very annoying, very annoying! She had seen a young genius whose status was countless times more honorable than the Ninth Prince's. She had seen it herself, and she was even such an illustrious existence, yet the Ninth Prince wanted to use her identity and status to keep Ling Xi by her side. This was undoubtedly an act of a fool!

What Ling Xi valued from above, had never been his identity or status.

"Brother Chen? Hehe, Long Chen, right? It's just a mere Second Stage of the Milky Way Realm, I can kill him even if I summon any of my subordinates. Do you believe that if I send a letter right now, he would die in Inverse Wonderland? " The ninth prince's eyes gradually revealed a ferocious expression!

"In this world, there is no power that is more powerful than my imperial clan, and in this world, there is no woman that I, Lin Cangtian, cannot obtain. Ling Xi, you bitch, you actually don't want me to obtain your heart, and I will obtain your body!" Speaking till this point, the Ninth Prince had already lost control. He walked towards Ling Xi step by step, his entire body emitting an astonishing evil aura.

The Old Yan did not dare be nosy. The Ninth Prince clearly wanted to use this broad daylight against Ling Xi, so as his subordinate, he could only avoid him, but he still had a little wolf to deal with. Thus, he took a step forward, preparing to deal with the little wolf.

"You dare to call me a bitch?" Ling Xi's eyes revealed an angry look. She had never hated someone so much before, but looking at the Ninth Prince now, it was as disgusting as it could get. Ling Xi was too lazy to even say a word to him.

She thought of Long Chen. From the first moment they had met, it had been a bit dramatic, to every single detail that they had together, every single day of their interaction, every single detail resonated within Ling Xi's mind. Especially when he had jumped into the endless abyss for her sake, without hesitation.

From that moment onwards, Ling Xi had firmly entrusted her heart to him. She believed that no one else would do such a thing for a woman who could not be considered as having lived.

"Brother Chen, I really don't know if we'll meet again in this calamity. After not seeing you for more than ten days, I really miss you, but Little Xi knows that you're working hard for me."

I can only say that this is a blessing that I gained from training for several lifetimes. I keep thinking that if I let this broken sword destroy my body, it would be the greatest tragedy of my life. However, meeting you would be the greatest blessing in my life.

As he thought about it, tears began to well up in his eyes. Sparkling tears appeared in her pure eyes.

"I also dream that one day, I will be able to marry you and live a carefree life, but those are just my hopes, everyone will be living a miserable life, and we will be even more so, from White Yang Town onwards, there will be endless calamities. You will always be standing in front of me, and you will never retreat, you are a true man, my father said, true men will never lose!"

"Perhaps it's because I'm not so lucky that I'm not lucky to be able to accompany you on your journey."

With too many unknown futures placed in front of Ling Xi's eyes, no matter how strong her heart was, she would still feel fear, because at this time, Long Chen was not by her side.

"Sister Ling Xi, listen to me, I have another way. I can use the Nine Hell Devil Ancestral Fire to create a cage and trap these two fellows inside!" Just as the Ninth Prince was getting closer to Ling Xi, the little wolf was at her side, speaking anxiously.

Ling Xi was startled, and this was something the little wolf had never mentioned before.

"You will definitely consume a lot of energy. Is there a lot of damage?"

"Within ten days, I don't think I'll be able to control the Nether Demon Ancestral Fire anymore." The wolf cub said helplessly.

This meant that as long as it was used in that cage, it would lose most of its fighting strength. Currently, the most heaven-defying aspect of the Sun Devouring Demonic Wolf was its levelling up. As for its attacks, it wasn't very good at them. The Nine Hell Devil Ancestral Fire was the Little Wolf's most powerful attacking method.

Ling Xi still shook her head, and said: "Xiao Lang, you can go, don't worry about me."

Ling Xi's stubbornness even made the Little Wolf's eyes turn red. She turned her head and looked at the Ninth Prince angrily, panting heavily. Ling Xi was stubborn, he was also stubborn, no matter what, he would not take a step back.

"Ling Xi, you must be very helpless at this time. It's a pity that Long Chen can't save you in the first place!" The ninth prince laughed. At this time, he who had decided to make a move, had already used the power of her Sixth Stage of the Milky Way Realm. That kind of earth-shattering power, to Ling Xi, who was currently powerless, was simply a nightmare!

That enormous pressure instantly caused Ling Xi's face to turn pale!

Ling Xi was incomparably anxious. At this time, she herself had already resigned herself to fate and could only use her soul to communicate with the wolf cub, causing him to flee quickly. However, the wolf cub did not listen to her at all.

The gigantic Sun Devouring Demonic Wolf, gritting its teeth, was staring straight at the Ninth Prince!

"Your Highness, let me deal with this beast. You just focus on enjoying it!" At this time, Old Yan stood beside the Ninth Prince and coldly said.

"Good, Old Yan, then I will trouble you, each of us will take on one of them, while you take care of this beast, I will take care of your beauty, let's see who is stronger. "Okay?" The ninth prince laughed.

"Given your majesty's power, you will definitely be able to fight for three days and three nights." Old Yan said with a thick face.

As her voice fell, the situation had already reached a point where it would explode at any moment. Since Ling Xi was not able to call the wolf cub away, despair had already appeared within her eyes.

"Are you finally going to despair? Ling Xi, let me love you more!" The Ninth Prince's eyes burned with a blazing light, and he was just about to grab at Ling Xi.

Right at this moment, Ling Xi, who was facing the outside of Goldfish Island, suddenly saw a figure, like a tornado, break through the Goldfish Island's water surface, forming a surging wave that swept towards Goldfish Island with a loud bang!

A blood-red figure holding onto a green dragon halberd landed on the ground of the Goldfish Island. With a stomp of his feet, her entire body, like a cannonball, struck the space between Ling Xi and the Ninth Prince! Boom!

At that moment, the entire Goldfish Island was trembling because of him!

Looking at the blood-red back that was filled with red scales and spikes, Ling Xi immediately cried. This familiar voice was obviously the Long Chen that she dreamt of seeing! At this moment, Ling Xi thought that she was dreaming, but the moment she grabbed onto her arm, the distinct pain made her truly understand that what she saw was not a dream!

That firm spine once again stood in front of her without any hesitation! No matter if it was a mountain or a sea, no matter how sharp the blade and sword were, Ling Xi would be safe and sound behind him!

That's right, Long Chen rushed over at full speed when Prince Jadeite's manor heard that Ling Xi had come here, he was even afraid that he wouldn't be fast enough, so he directly turned into Dragonsoul Transformation, and appeared in front of the Ninth Prince in a state of complete combat!

Seeing that it was Long Chen, the wolf cub could not believe his eyes either, but he immediately went wild with joy! Amongst the three of them, Long Chen was without a doubt the pillar of their hearts. Without Long Chen here, even the wolf cub himself would not be able to do anything, but now that Long Chen had come, with his personality, this meant that a battle of life and death was imminent!

The little wolf could feel that Long Chen's entire body was filled with violent blood energy and killing intent. From this suffocating feeling, the little wolf had already sensed that Long Chen's cultivation had completely reached the level of at least 4th level of the Milky Way Realm, and the him behind the Dragon Soul Transformation was already surpassing ordinary fifth level of the Milky Way Realm!

In only an instant, this firm figure made Ling Xi and the wolf cub completely feel at ease!

At this time, Long Chen gently raised his blood-red arm, and pulled Ling Xi behind him.

"Xiao Xi, watch on the side. I'll show you what a man is today." Long Chen's tone was very calm, but there was an unparalleled power contained within it. That hoarse voice revealed killing intent, making the Ninth Prince somewhat fearful.

Ling Xi did not think about anything else, and she did not know how strong Long Chen was currently either. As long as it was Long Chen's words, she would obediently listen to him. When Long Chen told her to retreat, she actually backed off for a long distance, and watched Long Chen's back with tears flowing down her face.

"Long Chen?" The Ninth Prince was very depressed. Long Chen hadn't even been in the Inverse Wonderland for a month, so why would he be here now? Long Chen's appearance, was not a big deal to him, so he directly asked: "Why did you escape from the Inverse Wonderland?"

At this point, the Ninth Prince was still discussing about the Inverse Wonderland, which was really a bit stupid.

"Do you want to know? Using your head in exchange, I will reluctantly tell you. Let me tell you, I have recently chopped off quite a few heads, so I will add you, Lin Cangtian, today, what do you think?" Long Chen said indifferently as he pointed the green dragon halberd at the ninth prince.

His voice was filled with endless killing intent.

Chapter 314 - Scarlet Demon Sword Technique

Most of the people in the Goldfish Island had already returned, but there were still two people who did not walk too far before returning. They were Chen Feng and Chen Lei's father and son. They could tell that the Ninth Prince was after Miss Ling Xi, but Ling Xi did not care about him. Chen Feng was a little worried, so he brought his son and came back to watch. When they were lurking in a nearby col and raised their heads, they saw the figure of Long Chen.

"Long Chen? Didn't he say to become a fairyland godly guard? Why are you back?" Chen Feng was a little surprised.

"Father, let's not talk about this first. Long Chen is obviously going against the Ninth Prince because of what happened to Miss Ling Xi, and they are going to fight. The Ninth Prince is a member of the royal family, which prince is not an exceptional genius? Chen Lei said somewhat anxiously. When Long Chen first came to the Goldfish Island, his kindness made Chen Lei suspicious. However, when Long Chen really helped the Goldfish Island to resolve his crisis, Chen Lei finally admitted to it and felt extremely guilty for his previous actions.

"Our First level of the Milky Way Realm just now, was simply not their match. Watch first, as long as there is anything that we can help with, we, father and son, will not hold back."

"Yes, Father!" "Ah, they're fighting!"

Right at this moment, Long Chen sent Ling Xi to a safe place, and stood shoulder to shoulder with the little wolf, respectively welcoming the battle of the Ninth Prince and Old Yan.

"Little Wolf, that Old Yan also has Sixth Stage of the Milky Way Realm. You are only at the fourth level of Earth Stage. Long Chen whispered as he advanced.

Xiao Lang nodded, his eyes revealing a dense killing intent. The ferocity of this demon beast was not much worse than the killing intent that Long Chen was emitting.

Looking at Long Chen and the little wolf who were overestimating themselves, the Ninth Prince laughed sinisterly.

"Old Yan, you lure that beast away first. I'll stand in front of Ling Xi and prove to her how much of a trash Long Chen is. How much better I am compared to him!"

The Old Yan nodded his head, without saying a word, he sent a provocative look towards the Little Wolf, who understood what was going on, lowering his head, and roared deeply. Like an arrow, his four legs bent slightly and exploded out, chasing the Old Yan!

Although it was an Earth Stage Fourth Rank Sun Devouring Demonic Wolf, it was not impossible for the Sun Devouring Demonic Wolf to defeat it given that the Sun Devouring Demonic Wolf was special. Furthermore, the wolf cub also had two great treasures, one of which was obviously the most terrifying of the Nine Hell Devil Ancestral Fire, and the other one was Long Chen's current ultimate killing move, the divine fire clone!

When Long Chen entered the Inverse Wonderland, he had told the wolf cub about his experiences in training divine fire clones. At this time, Long Chen had already found traces of the True Fire Seed on the wolf cub.

At the same time, the ninth prince's body also had traces of the divine fire clone's kindling, a total of twenty-five of them. This meant that the ninth prince had already cultivated the divine fire clone to the highest level he could cultivate!

On the Old Yan's and Little Wolf's side, the battle immediately started, while on Long Chen's side, the two gloomily looked at each other. Both sides' auras rapidly increased, and what surprised the Ninth Prince was that Long Chen's aura, was not one bit inferior to his!

It had only been less than two months, but Long Chen's cultivation had advanced by leaps and bounds, and today, he was able to fight against Lin Cangtian. To Lin Cangtian, Long Chen was a genius who he felt was a menace, a threat and a fear. At the beginning, he thought that Long Chen could be used by him, but when the devastatingly beautiful Ling Xi appeared, the Ninth Prince realized that Long Chen would only become his enemy.

However, he did not expect it to happen so quickly.

Among all the geniuses I have seen, besides my fourth brother, Lin Zichen, you are the most terrifying one. However, you will still have to die in my hands today.

"Do royalty only know how to talk rubbish?" The Goldfish Island was still in the vicinity of the imperial city and she had just killed Song Yuefeng. Long Chen did not dare to be negligent at all and gripped her green dragon halberd tightly. With a loud bellow, he charged towards the Ninth Prince!

"Competing in weapons? A mere Earth Stage Medium weapon dares to shine in front of me?" The Ninth Prince laughed sinisterly. Towards Long Chen's fierce attack, he did not even wrinkle his brow as he took out a divine sword from his Cosmos Sack!

This was Long Chen's first time fighting against a Sword Fighter!

She knew that in terms of Innate Qi, Long Chen was not a match for the Ninth Prince, even with the Dragon Soul Transformation. What Long Chen relied on the most in the past, was the green dragon halberd, and now that he had even suppressed the green dragon halberd, there was basically no hope of victory!

"Brother Chen" was in such a predicament, it caused Ling Xi to panic in her heart.

In the process of Long Chen's advancement, he had noticed the divine sword in the Ninth Prince's hand. It was a red, blazing divine sword, its entire body looked like it was made of jade. On this godly sword, the most prominent were the nine Flame Refinement Essence inlaid within. The nine Flame Refinement Essence exuded a blazing hot aura, causing the surrounding temperature to instantly rise by quite a bit!

"I believe you must have heard from the Old Yan about the high-rank earth class and the Fire Essence Sword. Furthermore, if it's combined with my Sixth Stage of the Milky Way Realm, this Sword Fighter can even fight against an expert from the seventh level of the Milky Way Realm, let alone a piece of trash from the 4th level of the Milky Way Realm like you." The difference in strength was extremely clear. It was impossible for Long Chen to be his opponent, so the Ninth Prince was not nervous at all. Using the corner of his eyes, he saw the somewhat flustered Ling Xi.

"We will only know who is trash after exchanging blows!" Long Chen danced with the Azure Dragon Battle Method. With his vast offensive, he instantly arrived in front of the Ninth Prince. A single Dragon Battle Star Field released endless star light, and countless tiny dragon silhouettes rushed towards the Ninth Prince!

He had almost reached the level of his fifth level of the Milky Way Realm, and was able to unleash 100% of the Dragon Battle Star Field's power. This was even the strongest move that Long Chen had used, the Ninth Prince's clothes immediately fluttered in the wind!

"Crimson Demon Sword Technique, One Sword Whirlwind!" The Ninth Prince laughed lightly, shouted lightly, and the Fire Essence Sword in his hand swept across, a fiery red sword image suddenly slashed out, and instantly welcomed Long Chen's Dragon Battle Star Field. Waves of intense sounds of weapons rubbing against each other came out, the sharp noise, even Long Chen himself felt uncomfortable!

Clang!

This made him understand that if he had to face it head on, he would definitely not be a match for the Ninth Prince. Not only did the Ninth Prince possess a Fire Essence Sword, but it was also because the sword spirit was in his sword, causing his body to be completely fused with the sword. With his current strength, he was able to unleash more than two hundred percent of the Ninth Prince's combat strength.

This was the heaven defying aspect of the Soldier. As one of the Soldier, of course, it was extraordinary in this direction!

Although it had been repelled by the sword, Long Chen was not injured at all!

The moment they started to fight, Long Chen's eyes gradually turned blood-red, and within his body, the endless dragon shadows started to roar again, causing Long Chen's head to instantly turn bloodshot. Battle intent and killing intent rapidly rose, and not long after, Long Chen's body was practically turned into a bomb!

He could explode at any moment and annihilate the ninth prince!

"Ling Xi is my woman, even a toad like you wants to hit her, you are courting death! You are forcing me to let you die a horrible death! "

"Kill!"

The dense smell of blood covered Long Chen's entire body.

"You said I'm a toad? Just based on your status and strength alone, Long Chen is worthy of her beauty? " The ninth prince sneered. After a short conversation, the two began to fight again!

In fact, the Ninth Prince had already been secretly shocked from the exchange with Long Chen just now. Long Chen was merely in the realm of 4th level of the Milky Way Realm, so the combat strength he could unleash was already very close to that of Sixth Stage of the Milky Way Realm!

"Azure Dragon Battle Method, Soaring Dragon Nine Heavens!"

"Crimson Demon Sword Technique, 10,000 Li of the Crimson Earth!"

One move at a time, the green dragon halberd collided with the Fire Essence Sword, causing a sharp sound. The sound made Ling Xi feel extremely uncomfortable, she turned pale and had no choice but to retreat, despite retreating, her eyes continued to stare at Long Chen, her face filled with worry.

The current Long Chen, was being continuously pushed back by the ninth prince's attack. Before long, he would probably be defeated!

The wielding the high-rank earth class Divine Sword was still a little too strong for Long Chen. That one Scarlet Tide, was a crazy series of moves. The Ninth Prince's sword swept towards Long Chen like a stormy wave, forcing Long Chen to continuously retreat!

Ling Xi was unable to see through the door now, but the Ninth Prince could tell, that although Long Chen had been defeated, he could feel the ruthless killing intent in his eyes, the dense bloodlust, which made the Ninth Prince feel somewhat fearful. The scariest person was someone who had already gone mad.

"You are indeed a difficult guy to deal with. However, this has further strengthened my resolve to kill you!" Long Chen, I wonder how you are doing with your cultivation? What do you think about dying with the divine fire clone? " A sinister voice came out of the ninth prince's mouth.

At this time, Long Chen, the "divine fire clone", had finally survived the attack of the Ninth Prince. He knew that the Ninth Prince no longer had the time to waste with him, since he was going to use the divine fire clone.

"You want to use divine fire clone, let me accompany you."

With the little wolf as the center, the blazing flames ignited, and the black balls of fire suddenly exploded. Then, all of the densely packed black wolf divine fire clones abruptly appeared!

"125!" The ninth prince was completely shocked!

## Chapter 315 - Ultimate divine fire clone

Japanese's group dejectedly left the Goldfish Island. With the Ninth Prince stopping them, their beautiful dreams immediately turned into bubbles. Everyone could not help but feel somewhat unlucky in their hearts.

At this time, one of the fifth level of the Milky Way Realm warriors asked Song Zhongzhen with some unwillingness: "Brother Zhongzhen, did we just slip away like that? So many beautiful ladies had slipped away just like that? Furthermore, this person from the Goldfish Island has once killed a citizen of my Da He family. "

"Eight!" So what, is the ninth prince someone we can provoke? Do not bring up this matter again, otherwise I will definitely make it so that you all will not be able to eat! "

"Yes, yes!" The person speaking quickly closed his mouth. The resentment in his heart was his own problem. Song Zhongzhen was right, the Da He family could not afford to offend the Ninth Prince. None of the people from the royal family could.

Right at this moment, a gust of fallen leaves swept across the area in front of them, and a figure suddenly appeared in front of Song Zhongzhen. With the exception of Song Zhongzhen, everyone was forced to take a few steps back by the immense aura.

"Patriarch!" Seeing the person's appearance, the people of the Da He family immediately kneeled down. As Song Zhongcheng's biological brother, of course Song Zhongzhen did not kneel down, but facing his big brother, he was slightly afraid. He immediately asked: "Big Brother, what are you doing here? "Oh right, I followed your instructions. Originally, I wanted to exterminate the Goldfish Island, but since the ninth prince didn't allow it, I was prepared to go back. Big brother, what's with your face?"

Halfway through his speech, which was filled with reverence, Song Zhongzhen realized that Song Zhongcheng's expression was extremely dark and sinister to the extreme.

"Big brother, what happened?" Song Zhongzhen felt a little uneasy and hurriedly asked.

"Yuefeng was killed in the immortal realms!" Song Zhongcheng eerily spat out a few words, then passed them as he rapidly flew in the direction of the Goldfish Island. After his figure had completely disappeared, Song Zhongzhen was still a little confused.

"What?" Yue Feng has been killed! " Song Zhongzhen was shocked, Song Yuefeng was her big brother Song Zhongcheng's most beloved son, she looked pretty good, she was a pure Japanese, he was actually killed!

"Eight!" "Who is the murderer?!" Song Zhongzhen roared, he punched the tree, causing the trunk of a huge tree to shatter. Unexpectedly, the tree toppled over, pushing down Japanese's men to the ground!

Song Zhongzhen did not care about that.

"If Big Brother goes in that direction, he must be chasing after the culprit. Everyone, follow me to avenge Yue Feng! You actually dare to kill the young master of my Japanese, I will tear you into pieces and destroy your bones! "

The group of Japanese people turned into a group of ferocious beasts, heading back the way they came!

When the wolf cub used all one hundred and twenty-five divine fire clones, the ninth prince had already stopped his attack and was completely stunned. Those one hundred and twenty-five wolf-shaped divine fire clones, every single one of them was not much different from the real Sun Devouring Demonic Wolf s.

"Be careful!" The ninth prince was in a state of endless shock. The divine fire clone he understood should only be at the third layer, the wolf cub had obviously used the fourth layer. More importantly, how could a demon beast learn human combat skills?

If others were to tell him, the Ninth Prince would definitely think it was a fantasy. But after witnessing it with his own eyes, no matter how hard it was to believe, he still had to believe.

These one hundred and twenty divine fire clones had appeared too suddenly, to the point that even Old Yan, who was suppressing the Little Wolf, could not react in time!

The one hundred and twenty-five Sun Devouring Demonic Wolf let out heaven-shaking roars, and pounced towards Old Yan without any hesitation. The little wolf was an Earth Stage Level 4 demon beast, which meant, these one hundred and twenty-five Sun Devouring Demonic Wolf, each one's fighting strength could reach the level of Third Stage of the Milky Way Realm!

Surrounded by a hundred and twenty-five Third Stage of the Milky Way Realm warriors in an instant, even Sixth Stage of the Milky Way Realm would lose his life, so after the Ninth Prince ate it, his face turned pale and he immediately rushed towards Old Yan to save him. However, at this time, Long Chen blocked his path.

"What's the hurry? Your opponent is me. Old Yan will die, and you will also die!" Long Chen's tone was ice-cold. When the little wolf used the mysterious divine fire clone of the fourth floor, Long Chen had already been brewing.

"Scram!" The Ninth Prince could no longer be bothered with what he said as he slashed his sword towards Long Chen.

This was definitely a battle skill from Earth Stage Medium, and compared to the ninth prince's Crimson Earth, it was even more powerful, at least five thousand kilometers away!

"Nine Revolving Fire Shield!" Long Chen's hands stirred as true energy surged out. A fire shield appeared in front of him, telling him that the Ninth Prince's sword had been completely crushed, his body once again blocked in front of the Ninth Prince. The green dragon halberd in his hands released a strong attack, and thrust his halberd towards the Ninth Prince's head!

If the ninth prince continued to rush forward, his brain would surely burst!

"Long Chen! "Go to hell!" When he was once again stopped by Long Chen, the Old Yan was already on the verge of death. Without saying a word, flames surged on his body, and in an instant, a total of twenty-five identity flames appeared around him. His divine fire clones, were practically the same as Long Chen!

Since Long Chen was so difficult to deal with, he would just use the divine fire clone to tie him up and kill him. Since the Old Yan was his current important arm, he could not let the Old Yan die in the hands of an insignificant person like Long Chen. If news of this were to spread to the Imperial City, wouldn't Lin Cangtian die from laughter?

The divine fire clone quickly rushed towards Long Chen and surrounded him.

At this critical moment, the Ninth Prince had forgotten one thing. That is, where did these one hundred and twenty-five divine fire clones come from? Could it be that the Little Wolf was a Burning Sky Secret Realm demon beast?

The ninth prince could only explain in this way.

"Do you really think that the divine fire clone I'm cultivating with, is really something you gave me?" Right at this moment, Long Chen burst out in laughter. Amidst his laughter, a series of loud explosions could be heard, and raging flames ignited on his body.

The densely packed human-shaped divine fire clones were almost the same as the Little Wolf's trees. This meant that Long Chen's attainments in terms of divine fire clones were not any worse than the Little Wolf's, and he was even more powerful than the Little Wolf!

This was his trump card towards the Inverse Wonderland, and also for the him of today. Even though there was an enormous difference, he still dared to go against the Ninth Prince even though he clearly had an enormous difference in strength. It was at this good moment when the Little Wolf had already used his divine fire clone and was about to kill the Old Yan.

"The real divine fire clone, there are four levels, and the person who truly obtained the inheritance of the Burning Sky Secret Realm is me! Your third floor's divine fire clone is just a piece of trash!" Long Chen laughed coldly, a total of one hundred and twenty-five divine fire clones, densely packed together, followed Long Chen and rushed crazily towards the Ninth Prince!

It was true that the Ninth Prince's divine fire clone was much stronger than Long Chen's, but it was still inferior to Long Chen!

The Ninth Prince really wanted to know, that when he was in Source Spirit City, he was actually played around by Long Chen. At this moment, the Old Yan was in danger, his anger was growing crazily, and he thought that he would definitely be able to beat Long Chen, and in front of Ling Xi, he was saying countless big words. But now that Long Chen had forced him to this state, the Ninth Prince felt that his face had already been completely thrown away!

"Ever since I was young, no one has ever dared to provoke me into such a state! Long Chen, even if you were to be smashed into pieces by my body, it will still not be enough to quell the hatred in my heart!" Seeing that the one hundred and twenty-five divine fire clones had surrounded him, the Ninth Prince did not care about the Old Yan anymore. Long Chen had divine fire clones, he had his own, so he controlled all the divine fire clones and fought with Long Chen's divine fire clones!

Both Chen Feng and Chen Lei who were hiding at the side thought that they would be defeated easily, but what they did not expect was that not only were they not defeated, they had even created a huge scene!

Ling Xi also watched this scene in a daze!

At this time, that young man, who was filled with miracles, hid among the endless divine fire clone and rushed towards the Ninth Prince. In his eyes, there was no fear or retreat, only the will to fight that would never be defeated!

One hundred and twenty-five divine fire clone clashed with the ninth prince's divine fire clone. Each and every one of the balls of fire exploded in midair, blinding everyone's eyes.

It was at this moment that the little wolf's endless divine fire clone finally pounced onto Old Yan. Even though it was difficult to kill Old Yan, it was able to completely suppress him. At this moment, the little wolf rushed to his side, and in front of Old Yan's disbelieving eyes, it spat out a mouthful of Nether Demon Ancestral Fire, directly drowning him within!

Crack! Crack! Crack!

The sound of ice congealing continuously sounded. When the Nine Hell Devil Ancestral Fire disappeared, the Old Yan had already turned into an ice sculpture. When lightly touched by the little wolf's divine fire clone, it immediately turned into a pile of small black ice particles!

Seeing this scene, the Ninth Prince knew that the Old Yan was already dead!

This made fear start to appear in the Ninth Prince's heart. The one hundred and twenty-five divine fire clones in front of him, as well as Long Chen's cold and indifferent eyes, made his normally arrogant head suddenly go numb!

"Impossible!" He simply did not believe that Long Chen had the qualifications to fight against him!

"No matter if it's you or this beast, they must all die! Ling Xi will only be mine! "

"Go to hell and daydream!" Long Chen's cold voice sounded in the Ninth Prince's ears. The densely packed divine fire clones had already successfully broken through the Ninth Prince's divine fire clone defense, and one after another, they attacked the Ninth Prince as if they were committing suicide!

"You think you can kill me with these!" The Ninth Prince's Fire Refinement Sword was in a frenzy. Every sweep, slash, and thrust could cause Long Chen to lose several divine fire clones!

However, the time had come!

### Chapter 316 - Killing the Ninth Prince

One by one, the divine fire clones were smashed into pieces by the ninth prince who was crazily going berserk. However, the current Long Chen was more like a wolf. When the Ninth Prince was venting like a fierce tiger, Long Chen had concealed his presence and used a large number of divine fire clones to hide his body!

The attack the Ninth Prince dealt to the death of the Old Yan had all been dealt to the divine fire clones of these Long Chen clones. He did not notice at all that Long Chen, who was under the protection of the divine fire clones, had already arrived behind him.

No matter how fast the ninth prince's sword was, it would not be able to resist the attacks of so many Third Stage of the Milky Way Realm and fighting strength divine fire clones in a short period of time. Those divine fire clones, many of them attacked him directly, leaving behind many blue-purple marks on his body!

This caused the Ninth Prince, who had an elegant demeanor and thought himself to be a fan of tens of thousands of people, to instantly transform into an ugly appearance. Looking at how she was still thinking about Ling Xi, she definitely agreed to Long Chen's words, which was like a toad wanting to eat swan meat.

Just at this moment, the Ninth Prince suddenly felt a life-threatening danger from behind him. He was about to kill all these annoying divine fire clones, then kill Long Chen and the little wolf, and abduct Ling Xi and bring him back to the Prince Jadeite's manor.

At this moment, the divine fire clones' threat was at its densest. The Ninth Prince had always been paying attention to the divine fire clones' matters, and had never thought that Long Chen would already be hiding behind him at this time, and had used his deadly move on him!

"Azure Dragon Battle Method, the fall of Dragon Emperor!"

Just like that, a thin blood-red line pierced towards the ninth prince!

At the start, had already used the Dragon Battle Star Field and Soaring Dragon Nine Heavens in front of the Ninth Prince, so when the Ninth Prince used them, it was very easy for him to deal with them. In his opinion, Long Chen only knew these two moves, and the divine fire clone at the fourth floor, it was already an accident.

No one could tell the lethality of Dragon Emperor's death. Only the ninth prince, who had regained his senses, could feel that the world had suddenly turned crimson, and everything around him had disappeared. Only a roaring Ancient Dragon God was charging towards him!

This divine dragon was simply too big, causing the ninth prince to be so frightened that he couldn't even resist it. His face was deathly pale as he dodged and retreated, but he discovered that it was completely useless. He could not dodge this move!

Spirit Devouring Demon Pupil, activate!

The fall of the Dragon Emperor originally carried an extremely shocking mental power. It could be said to be a kind of majesty that belonged to a dragon, and Long Chen had even used the enticing power of the Spirit Devouring Demon Pupil to cause this kind of mental confusion to the greatest extent. This way, what the Ninth Prince saw was already different from what ordinary people would see!

"Die!"

Long Chen roared out explosively, and the green dragon halberd that was using Dragon Emperor's Destruction stabbed into the Ninth Prince's chest, instantly piercing a hole through it. Blood and organs were shaken out of the center of his chest by Long Chen's immense strength, and spilled onto the ground.

After pulling out the green dragon halberd, Long Chen shook off the various foreign objects on top of the green dragon halberd as if he was doing something insignificant.

His internal organs were completely shattered by Long Chen but the Ninth Prince was still alive. He looked at Long Chen with eyes that were filled with blood red, with some disbelief. He could no longer say a single word.

"I can only say that no one has ever been killed by me, Long Chen. Everything is just a matter of time. Ninth Prince, your time is up today."

Before the ninth prince died, Long Chen looked at him indifferently and said his last sentence.

Hearing this sentence, the ninth prince finally understood that he was not dealing with a clown who came from a small place, but the most terrifying genius who had a peerless talent for cultivation, which was not scary at all. What was most terrifying was that after obtaining peerless talent, he also had a peerless temperament.

Filled with fear, the ninth prince's body slowly fell to the ground. When he fell to the ground with a thud, there was silence.

The little wolf had just killed the Old Yan, so Ling Xi stared at the tall and straight youth without blinking. As for Chen Lei and Chen Feng, both of them had their mouths agape, simply dumbstruck.

He had always felt that Long Chen was an existence that he would never be able to surpass. Even he could defeat the Old Yan, so it was natural for Long Chen to kill the Ninth Prince. Ling Xi had shocked her far too much. At this moment, when she saw that Long Chen had actually won, defeated and killed the Ninth Prince with an absolute reversal, bringing her absolute safety, tears welled in her eyes again.

The fairy-like girl had a crystal-clear jade-like face with slightly red watery eyes. Ling Xi's pitiful appearance made people's hearts ache for her.

After such a long period of time, he finally met Ling Xi again. To be able to look at her so clearly, Long Chen realized that he was satisfied. There was a pure power within Ling Xi's body, which allowed him to calm his mind as long as he carefully focused her eyes.

With the flick of the green dragon halberd, the fire refining essence that the Ninth Prince was still holding was in his hands. In the fire refining sword, there was a total of nine fire refining essence embedded in it, but to the little wolf, it was a great tonic, Long Chen would of course not let it go.

Therefore, the Ninth Prince's Qiankun bag was also lightly picked up by him and held in his hand. Because the Qiankun bag usually had a mark on it, Long Chen did not dare to use the Ninth Prince's

Qiankun bag, and instead directly transferred all of his things into his own Qiankun bag. After calculating for a bit, he discovered that there were at least tens of thousands of Tianhe Dan on the Ninth Prince's body!

This was the biggest sum Long Chen could get!

Of course, in comparison to the excitement of being able to finally flee far away from Ling Xi after killing the Ninth Prince, these tens of thousands of Tianhe Dan could be considered nothing at all. Long Chen moved the tip of his feet and instantly appeared in front of Ling Xi, looking at the weak and beautiful girl in front of him, who was currently looking at him with tears in her eyes. Long Chen's heart ached slightly as he reached out his hands and firmly held Ling Xi in his embrace, feeling the softness and warmth of her body. As long as you have me, no one can touch you! "

"Wuu" Ling Xi was moved beyond words. She leaned against Long Chen's chest and couldn't help but sob, her tears could almost reach Long Chen's clothes. When Long Chen was not around, she discovered that she had an unimaginable sense of helplessness. If she wasn't forced, it would be very difficult for her to deal with the Ninth Prince for so long.

"This bastard actually dares to have ideas about my woman, he is too daring! Such a lazy frog, if I, Long Chen were to kill one of them, I will kill a pair, and if ten thousand were to come, I will kill them all!" Seeing that Ling Xi found it hard to control herself, Long Chen used a joking tone to speak.

"Mhmm!" Being pampered like that, Ling Xi felt warmth and happiness. She raised her head, and looked at the resolute youth in front of her in a daze. She did not know when, but in her heart, there was only this one figure, and no one who could put it down.

Because of Ling Xi, Long Chen directly and violently killed the Ninth Prince.

This was Long Chen's greatest battle achievement, because the other party was the strongest power in the entire Canyang Kingdom. They were of the royal family and one of the strongest people in the Canyang Kingdom, the legendary ninth son of the Sword Emperor.

This meant that from now on, Long Chen had to bring Ling Xi and the little wolf and leave the Canyang Kingdom as soon as possible. Otherwise, as long as he was in this country, he would be endlessly hunted down!

As for the Nine Celestial Spirit Fruit, Long Chen had already decided that with his strength, he would definitely return when he could control the entire Biyang Royal City. Today, he had escaped. There would be a day when he would return in broad daylight.

"Little Xi, I'm sorry, I haven't obtained the Nine Celestial Spirit Fruit yet. That thing is much more difficult than I thought it would be. If I want to obtain it, I probably need the realm of eighth level of the Milky Way Realm." Long Chen said somewhat guiltily.

"It's fine, Brother Chen. I know you've tried your best, and I'm fine now too, so I can hug you," Ling Xi said as he opened his arms with a blushing face and hugged Long Chen's waist.

However, at critical moments, Long Chen would not be distracted because of this. He held Ling Xi's face, looked at her clear eyes and firmly said: "Don't worry, I will definitely hand over the Nine Celestial Spirit Fruit to you, it's just a matter of time. This Biyang Royal City, I, Long Chen will definitely return one day, and at that time, no matter what kind of Sword Demon, Sword Emperor, or even Lin Zichen, will be unable to stop my footsteps."

"Brother Chen, are we leaving?" Ling Xi raised her head and asked.

"Mn, we must leave the Canyang Kingdom and leave immediately. "Among the Inverse Wonderland, I have also killed the favoured youth from the Da He Family. The patriarch of the Da He Family is none other than eighth level of the Milky Way Realm. If he comes chasing after us, we're done for!"

That Song Zhongcheng was a eighth level of the Milky Way Realm, no matter how many arms he had, he would still not be his match.

However, just as he was about to lead Ling Xi on their way, the nearby Little Wolf suddenly shook, revealing an anxious look. Seeing Little Wolf's expression, Long Chen's heart shook, he suddenly turned his head, and used the third floor's Spirit Devouring Demon Pupil — — If one looked closely enough, they would see that everything around them had been turned into nothing. Only a high-powered soul, which rushed over in an instant with Long Chen's speed that was innumerable times faster!

"Song Zhongcheng!" Long Chen inhaled a breath of cold air.

Song Zhongcheng came too fast, so fast that it exceeded Long Chen's expectations. This kind of situation, was something he had never expected.

With Song Zhongcheng's fighting strength, his arrival here was tantamount to announcing the death penalty for Long Chen, Ling Xi and the little wolf. Long Chen could barely deal with the Ninth Prince, but the difference between Song Zhongcheng and him was just too huge, so huge that it was hard to imagine. Song Zhongcheng was one of the top experts in the Biyang Royal City, other than the three great ultimate experts of the imperial family, Song Zhongcheng could be considered the strongest.

Long Chen had killed his most beloved son, and he would make things easy for him.

In this moment of death, in an instant, Long Chen had decisively made his decision. He pushed Ling Xi away from him, tightly held her hand, and then said to Xiao Lang with a determined gaze: "I will give you one mission, you must save Ling Xi, otherwise this brother won't be able to do it!"

There was an irresistible force within Long Chen's words. His thoughts were simple, he wanted Little Wolf to bring Ling Xi away, while he stayed behind to block Song Zhongcheng. As long as the Little Wolf could bring Ling Xi away safely, he would do anything.

"Did you hear that, quickly bring Ling Xi away, have you gone deaf!?" For the first time, Long Chen's face was filled with savagery as he roared at the wolf cub, causing it to retreat two steps in fright. It looked at Long Chen with its eyes wide opened, but did not do anything.

Seeing that Long Chen was truly going to go berserk, Ling Xi immediately pulled him back and advised: "Brother Chen, Little Wolf said that he can use a move to trap someone in the future. The price is, that within ten days, he won't be able to use the Nether Demon Ancestral Fire again."

"What?" Only now did Long Chen calm down. If there really was such a method, then he would not have to sacrifice himself. Being able to have a perfect ending was naturally a good thing for the whole world.

"For how long? Wolf, are you sure? " Long Chen asked solemnly.

"Little Wolf said that because it's the Nine Hell Devil Ancestral Fire, it's used to perform the same combat skill as before, and because the Nine Hell Devil Ancestral Fire is abnormally marvelous, it can trap a eighth level of the Milky Way Realm practitioner for at least six hours, and it's definitely stable!" Ling Xi explained.

The wolf cub would never lie. This way, Long Chen could rest assured. To him, today's mood was really unstable.

With the Little Wolf's guarantee, Long Chen felt a lot more relaxed in his heart. At this time, through the Spirit Devouring Demon Pupil, he could already see that Song Zhongcheng was about to arrive. But what surprised Long Chen was that there was a large group of people following behind him, and with a turn of his mind, he could roughly guess that the people following behind him were probably other Japanese s.

The hatred for Long Chen's Japanese had already grown to a large level, and towards this race, he truly hated them from the bottom of his heart. Furthermore, Japanese had committed many crimes near the imperial city, many of which were heinous. Such a race, should be completely exterminated, Long Chen was only able to dispel the hatred in his heart!

"Xiao Lang, get ready. We will find a chance to trap Song Zhongcheng later. We brothers will do something and leave immediately." At this time, the little wolf had already turned into a battle state, Long Chen said to him in a low voice.

When the little wolf nodded, Song Zhongcheng's figure had already broke through the lake water outside the Goldfish Island, and successfully stood on top of the Goldfish Island. A moment later, another group of Japanese followed behind him, and it was the group of Japanese that came to the Goldfish Island earlier, and were preparing to exterminate the Goldfish Island. With so many Japanese people, it could be considered as the life force of most of the Da He family.

At this moment, everyone was looking at the two people and one wolf on the island. A majority of them were instantly attracted by Ling Xi's beautiful appearance and immediately revealed coveting expressions. Although the miserable state of that corpse made it hard for people to associate it with the Ninth Prince, but in reality, the Ninth Prince was actually here. Just by connecting the dots, they knew that the Ninth Prince had died.

After seeing Long Chen, Song Zhongcheng's killing intent immediately exploded out, but after seeing the Ninth Prince's corpse, his body trembled, and he roared at Long Chen in shock: "You are Long Chen? You killed the Ninth Prince? "

If Song Yuefeng's death was a huge shock to the Da He family, then this news was a huge bomb to the entire Biyang Royal City. Not only Song Zhongcheng, even the other people of Japanese had no time to look at Ling Xi's beauty, they were all looking at Long Chen in shock!

Even if it was them, they would still bow and kneel before the Ninth Prince, bowing and groveling. Why did a small figure like Long Chen actually kill the Ninth Prince? The conflict of beliefs that this matter brought to them was too great, and everyone found it hard to believe.

"You're right, not only did I kill your foolish son, that trash called Song Yuefeng, I also killed that shameless lazy toad, Song Zhongcheng. Song Zhongcheng, what can you do to me?" Long Chen had something to rely on in his heart, he smiled and said indifferently.

Song Zhongcheng was silent.

He sized Long Chen up from head to toe with his gloomy eyes. When he had first entered the Inverse Wonderland, Long Chen was just a little fellow with Second Stage of the Milky Way Realm. He did not expect that in the blink of an eye, not even half a month had passed, he had advanced by leaps and bounds, and he had even done such a great thing that caused the entire Canyang Kingdom to be shaken up.

The Ninth Prince did not die in the hands of the Demonic Palace, but he died in the hands of his own men.

Song Zhongcheng was also thinking about what kind of shock would occur if news of this were to spread to the imperial city.

"I originally wanted to kill you directly, but it seems that I can't. You killed the ninth prince, so you have to give it to the imperial family to deal with. You should be glad because this way, you can probably live half a day longer." After Song Zhongcheng finished speaking, he walked towards Long Chen with a dark expression.

He did not give Long Chen much of a chance to speak. In his opinion, controlling Long Chen and sending him to the imperial city was a very simple matter.

"Actually, in my opinion, the Japanese is just a bunch of beasts." In this life or death situation, Long Chen didn't seem to be afraid at all. He looked at Song Zhongcheng and said: "Look at you, you're so short, not even reaching my chest. Look at your face, it's so wretched. "How unsightly, truly unbelievable. There is actually an unsightly race like you in this world."

After he finished speaking, Long Chen's disdainful expression swept across the crowd of Japanese s.

"I really can't find anyone who can read it." Long Chen was speechless.

"Eight!" "Kid, close your mouth. If you continue to talk, I will tear your mouth to shreds!"

"Yes, we Japanese, all of us, are as elegant and handsome as you make us sound ..." This person's voice became softer and softer. It seemed like he was growing more and more unconfident.

"Are you courting death? You want me to kill you? It seems you are afraid of falling into the hands of the royal family?" Seeing that Long Chen was trying to provoke him, but Song Zhongcheng was unmoved, his face was extremely thick, of course he wouldn't be angered by Long Chen's few words.

"You're thinking too much. I'm just sighing from the bottom of my heart when I see that you guys are really too ugly. In any case, you guys are really too short and too ugly. In my opinion, Japanese can't even be considered human, you guys shouldn't even have grown into human beings yet. In my opinion, you are monsters born from the fusion of gorilla and baboon. After Long Chen finished speaking, he started laughing loudly.

"Eight!" "Kid, you're courting death!"

"You're the ape!"

Long Chen's words were simply too powerful, the people from Japanese and the rest could not hold back anymore, they followed behind Song Zhongcheng and rushed towards Long Chen.

Even Song Zhongcheng had started to frown. He was prepared to not give Long Chen a chance to speak, so without saying a word, his body suddenly disappeared from the distance, turning into a blurry afterimage as he quickly rushed towards Long Chen.

This speed, was completely incomparable to Long Chen's.

"Wolf, attack!" At this critical moment, Long Chen stopped laughing, and his gaze turned ice cold!

When Song Zhongcheng made the slightest movement, the wolf cub was actually already prepared. Song Zhongcheng moved, and the wolf cub suddenly roared, and instantly, a wave of ice-cold aura swept towards Japanese, and that vigorous Nine Hell Devil Ancestral Fire, was like a fire lotus. It sprayed out of the wolf cub's mouth with a loud rumble, and this fire lotus instantly enveloped the incoming Song Zhongcheng with a wave of speed!

"What is this?" However, he was currently very close to Long Chen, and at such a close distance, the range of the fire lotus's aura was extremely large. When Song Zhongcheng suddenly threw out a palm strike, the fire lotus had already covered it completely!

"Eight!" Song Zhongcheng's last words came out from the fire lotus.

There was no danger.

After successfully trapping Song Zhongcheng, Long Chen heaved a sigh of relief. At the same time, his complexion had already changed, he knew that he should escape now, but sacrificing some time would get rid of more scum, what he was willing to do.

"Xiao Xi, close your eyes. I will bring you away in a moment. Little Wolf, you must be tired. Long Chen used the Dragonsoul Transformation, holding onto the green dragon halberd, he coldly looked at Japanese and ordered. When he mocked Japanese, he was still sloppy, but after the plan was completed and Song Zhongcheng was safely trapped, a strong killing intent burst out from his body.

"Brother Chen!" Ling Xi wanted to say something but hesitated.

"Don't worry, I know what I'm doing." After comforting Ling Xi once more, Long Chen obediently closed his eyes again, he gestured to the little wolf and rushed back to Japanese without hesitation.

When those Japanese s saw that Song Zhongcheng was actually trapped by the strange fire lotus, they all turned pale with fright, and didn't have any other ideas. They looked at each other, and when Long Chen actually charged towards them with his strength, they naturally weren't afraid.

"Let's catch this kid first!" Song Zhongzhen instructed.

At this time, Long Chen's eyes were ice-cold.

"Devouring Blood Realm!"

## Chapter 318 - The Path to Life and Death

The moment the Devouring Blood Realm appeared, a misty blood-colored fog quickly spread to all the Japanese s. The surrounding space had turned blood-red.

As Long Chen's level rose, the power of this Devouring Blood Realm also became stronger and stronger. At the very least, people who had a realm lower than his, Long Chen's, cultivation, were no longer able to resist against this domain-type superpower of the Devouring Blood Realm!

In this group of people, the strongest was Song Zhongzhen. Although he could not compare to the Ninth Prince, nor to the extent of the Old Yan, he could still barely fight above the Devouring Blood Realm! But inside his body, the uncontrollable boiling blood energy shocked him. As for the others, those with no Milky Way Realm basically exploded completely the moment Devouring Blood Realm came out, turning into a ball of blood mist!

"I can't swallow this blood fog!"

Blood had a fatal attraction towards Long Chen, but ever since he used the beast blood of the Nine Heavens Primordial Fire Beast to level up to the 4th level of the Milky Way Realm, due to the Primordial Blood Spirit Dragon's slowly awakening killing intent, it was already difficult for him to control himself. At this point, it was best not to use Blood Refining Qi, especially not human beings.

Although Long Chen did not use the Blood Refinement Qi, the method he used to make people lose their fighting strength and even explode, completely shocked and terrified all the Japanese. To them, Long Chen was just like the devil in legends!

"Impossible!" This is the work of a god! " Song Zhongzhen was also shocked. Looking at the surrounding Japanese, all of their faces were pale and their blood was boiling. At this critical juncture, he could only loudly shout: "Everyone, quickly retreat! "Retreat!"

As he spoke, he tried to escape from the vicinity of Long Chen's Devouring Blood Realm at the fastest speed possible.

But how could Long Chen give them the chance to do so?

"Little Wolf, surround them with divine fire clone, and even get rid of that Sixth Stage of the Milky Way Realm. I will deal with the others, I must definitely kill all of them within a short period of time!" Long Chen said in a cold voice. After that, he turned into a blood red shadow and instantly appeared among all the Japanese.

In terms of fighting strength, they were definitely not Long Chen's match, but under Long Chen's Devouring Blood Realm, they were completely outmatched. Long Chen hated the Japanese, he did not have the slightest mercy when he attacked. To these scum, if they did not kill all of us, they would extend their Demon Claw towards the weaker ones.

Hearing Long Chen's instructions, the little wolf didn't hesitate at all. When going against the Old Yan, he had lost around ten divine fire clones, and at this moment, the remaining hundred jumped out from his body. A crazy group of Sun Devouring Demonic Wolves headed towards the people of the Japanese.

In the Devouring Blood Realm, divine fire clones would not be affected at all, but Song Zhongzhen was different. As long as he used his innate energy, he would definitely encounter an enormous resistance.

"No!" "No!" Sensing the condition of his body, Song Zhongzhen let out an absolutely miserable scream. As long as the Devouring Blood Realm existed, even if he had decent strength, it would be very difficult for him to use it. Furthermore, what Long Chen was currently pursuing was to end it quickly, so at this moment, countless divine fire clones had directly swallowed Song Zhongzhen up.

Amongst the fire lotuses made by the little wolves, Song Zhongcheng who possessed eighth level of the Milky Way Realm could obviously hear the commotion outside. When he first heard the miserable cries of countless Japanese, his eyes immediately went bloodshot as he roared, "Long Chen, what are you doing? Kill my Japanese? You must die! "

"Since we've already killed them, what do I care about one or two? Oh? This person who looks as ugly as you, he should be your little brother. He has made many mistakes in his life and has probably killed a lot of people. I have already shown a great deal of mercy and surpassed him.

Long Chen's teasing voice made Song Zhongcheng, who was within the fire lotuses, fly into a rage. Thinking about how the people from the Japanese had already died in panic, one by one, Song Zhongcheng felt like he was going to collapse, but he could do nothing about the fire lotuses that trapped him. It was too terrifying.

His only option was to wait for the fire lotus to disappear with time. He could tell that the fire lotus was shrinking by a small margin.

"Long Chen, you will definitely die! Not only you, everyone around you will cut me into pieces! I will never be able to reincarnate!" Song Zhongcheng's crazy shouts came out from the fire lotuses.

"Is that so?" Long Chen sneered, the green dragon halberd in his hands danced at high speeds, and every time, it was able to take away a life. In addition to the little wolf's divine fire clone, these Japanese s were simply not enough to kill! Waves of painful screams sounded out in the Goldfish Island. The citizens of the Goldfish Island did not dare to go forward, but when they found out that Long Chen was slaughtering the devil-like citizens of the Japanese, they were extremely excited in their hearts.

The Japanese s who had done all sorts of evil deeds were like rice being slaughtered by Long Chen. They were being controlled by Long Chen's Devouring Blood Realm, making it difficult for them to have the strength to escape.

Amidst Song Zhongcheng's frantic threat and warning, Long Chen had never heard of it before. By the time all the Japanese s fell into a pool of blood, Long Chen's body and green dragon halberd were already completely covered in fresh red blood.

Only Song Zhongcheng remained in Japanese.

Long Chen no longer spoke, and directly jumped into the lake, allowing the water to wash the blood off his body. Only then did he instantly arrive in front of Ling Xi and the little wolf, and said: "This matter can't be delayed, let's move out immediately."

When she said that, Long Chen was still gloomy, the killing intent around his had disappeared completely. Instead, it gave Ling Xi a scare and made her feel uncomfortable. She grabbed Long Chen's arm and asked worriedly: "Brother Chen, are you alright?"

The current Long Chen had just erupted with the blood of an Primordial Blood Spirit Dragon and was already starting to recover. Seeing the concern and worry in his pure eyes, Long Chen's heart gradually calmed down.

"Let's go." The little wolf was at least a few meters tall, and by placing Ling Xi on top of it, it was basically not that heavy for him. In order to help Ling Xi stabilize herself, Long Chen also climbed onto the little wolf's back.

The wolf cub let out an excited growl.

Although he had used the fire lotus, causing him to lose the ability to use the Netherworld Devil Ancestral Fire in ten days, the impact on his body wasn't as great as he had imagined. Carrying Long Chen and Ling Xi was completely possible.

As they were finally about to leave Biyang Royal City, the three of them were extremely excited.

Hope is ahead.

"You want to leave safely? Long Chen, are you underestimating the imperial family's power? This entire Canyang Kingdom belongs to the imperial family, and as long as you are still in the Canyang Kingdom, you will be under their watch and control! Just you guys want to safely leave the Canyang Kingdom after killing the Ninth Prince? That's simply wishful thinking! Even I don't dare to say that I have the capability!"

In the middle of the black colored fire lotus, Song Zhongcheng, who had been trapped, shouted angrily.

He also knew that killing the Ninth Prince, in order to escape this Canyang Kingdom which was controlled by the imperial family, was a very, very difficult thing to do, especially for the current Ling Xi. Furthermore, she was an ordinary person who knew nothing and needed nothing.

"As long as I can escape from this life and death struggle path, I will have an even greater future, and I will also be able to live safely together with Ling Xi. And ten thousand care and caution!"

Thinking to this point, Long Chen held Ling Xi tightly in his arms, and then said to Little Wolf softly. "Let's go, with the fastest speed possible."

The wolf cub let out a low growl, bent his legs slightly, and disappeared into the horizon like an arrow leaving the bow.

When the little wolf completely disappeared, Chen Feng and Chen Lei finally looked at each other with eyes filled with great shock.

"Lei'er, if my estimation is correct, because of the matter of Long Chen killing the Ninth Prince, I'm afraid the entire Canyang Kingdom will be shaken! Furthermore, with so many people dying in Japanese, it will be very easy for us to be angered by the Patriarch.

"But Father! The Goldfish Island is a treasure left behind by our ancestors. Chen Lei was a little anxious.

"What is the solution? Our ancestors wanted us to preserve our lives, not have our clans exterminated. Today's escape is for the sake of making a comeback, and the current situation is different from when the Japanese came and forcibly took over our territory. Even if they killed Long Chen, the Japanese would not return to camp in a small place like the Goldfish Island for no reason.

Hearing Chen Feng's words, Chen Lei finally understood the reasoning behind it. He immediately agreed and exchanged glances with Chen Feng, then separated to inform his family and friends with the fastest speed possible.

Because they were prepared to resist the Japanese, the families of the people in the Goldfish Island had already packed their belongings and followed Chen Feng to leave the Goldfish Island, where they had lived for generations.

In the direction of the Goldfish Island, Song Zhongcheng's angry roars echoed in the entire sky.

Although Long Chen had escaped, the news of him killing the Ninth Prince would quickly spread to the imperial family. At that time, there would be endless numbers of people chasing after him, waiting for him to participate in countless life and death battles.

In front of countless of strong enemies and in front of Long Chen, who was just at 4th level of the Milky Way Realm, how could he win?

### Chapter 319 - Heading West

"Is it cold? "Little Xi." Amidst the wild wind, Long Chen sat on the Little Wolf's back and welcomed the incoming wild wind with his back. And Ling Xi was currently nestled in his embrace, she had pulled her body tightly into Long Chen's embrace, her face as white as jade, currently lacked a bit of blood. It seemed like she was cold to the extreme.

"En," Ling Xi nodded weakly, looking at Long Chen, water mist about to appear in her eyes again.

"Wolf, is there any way to raise the temperature of your body?" Long Chen asked loudly.

Sure enough, after he finished speaking, Long Chen felt the temperature of Xiao Lang's body increase by a lot. Only then did Ling Xi feel better, but it was useless if the fierce wind had reached his bones, as he could only choose to use his body to block Ling Xi with all his might.

Half a day had already passed. On the other side of the Imperial City, they must have already discovered that the Ninth Prince had been killed, so maybe the people chasing after him had already moved out. Long Chen did not dare be negligent at all, and could only make the wolf cub increase his speed.

Of course, the little wolf increased its speed. Ling Xi's mortal body was starting to feel unbearable.

"Brother Chen, where are we going?" Ling Xi asked.

"Source Spirit City, we have no way to return. Biyang Royal City is the center of the Canyang Kingdom, and if we go from the Imperial City to any direction, the distance we have to travel to the west is about the same." Long Chen patted her head, and explained while looking at her somewhat dotingly.

"Why are you heading west?" Ling Xi was a little confused. Her curious look could only be described as a disaster because she was cute in her innocence.

If it wasn't for the fact that Ling Xi's looks were too much of a disaster, Long Chen wouldn't need to take him and the little wolf to flee for her life. Fortunately, the wolf cub did not care, as his enemy was the royal family. Long Chen had killed the ninth prince, and the ninth prince possessed the blood of his enemy, so he was extremely grateful to Long Chen.

In the Canyang Kingdom, there is only one strength that can go against the royal family, and that is the Demonic Palace. The headquarters of the Demonic Palace is in the west side of the Diremonster Mountain, and the closer we are to the Diremonster Mountain, the fewer members of the royal family there will be. We can pass through the Diremonster Mountain and enter the west side of the West Sea Country, and the West Sea Country will be our sworn enemy. Long Chen slowly explained to Ling Xi.

"Can we really escape successfully?" Ling Xi was a little lost as she watched the distant Biyang Royal City grow further and further away.

He had only been in the Biyang Royal City for less than a month. However, because of Ling Xi, Long Chen had killed the Ninth Prince who had admired him back then, and from then on, he set foot on this road, where he would never turn back. It could be said that this was a path of life and death. There was only life, or death.

"Of course, don't think too much about it. You should sleep in peace for a while. The following days will probably be very tiring for you. I don't have the heart to watch my family's Xiaoxi get sick from overwork, then turn ugly. " Long Chen pinched her nose with all his might and laughed strangely.

"Brother Chen, you're a bad guy." Ling Xi was a little shy as she reached out her hands to push away Long Chen's anxious claws. Even though Long Chen had guaranteed that he would be fine, the worry and confusion in her heart still did not dissipate.

"I'm sorry, it's all because of me. If it weren't for me, you would have received a lot of nurturing in the Imperial City. You wouldn't be like this, aimless, uncertain, and desperate." Thinking of this, Ling Xi felt very sad.

"Silly girl, what did you say?" Long Chen was a little displeased. He gently held Ling Xi's head and looked into Ling Xi's eyes with a determined gaze. The resolute belief in his eyes moved Ling Xi a little.

"Xiao Xi, remember, don't say such words to me again. There is no relation between us, your business is my business. I am a man, it is perfectly justified for me to take responsibility and protect women. If you say anything else, I'll just treat it as you bullshitting? " Long Chen smiled faintly.

"You're the one bullshitting, hmph!" Ling Xi reached out an arm and tried to pinch Long Chen's face with all her might. She wanted to punish Long Chen but unfortunately, her strength was too weak to even pinch Long Chen's face.

"I'm really useless." Ling Xi said with his head down.

"You're thinking too much, just because your Brother Chen's skin is too thick, of course you can't pinch it." Long Chen laughed out loud.

Although she was fleeing for her life, under Long Chen's teasing and teasing words, the heavy heart Ling Xi had gradually calmed down a little and revealed a peerlessly beautiful smile. Long Chen felt that she had grown up. The girl in his arms at this moment, was just like a blooming lily, pure, natural, and there was even a little inner enchantment in her. Long Chen couldn't bear to see a little bit of her beauty being harmed.

This was the most important thing that he wanted to spend his entire life protecting, the place where his soul rested, and his other life. Anyone who dared to lay a hand on Ling Xi, would undoubtedly be touching Long Chen's hardest line.

Killing the Ninth Prince and escaping with his life, Long Chen did not regret at all.

Only, while Ling Xi had recovered from her shock, she was still incomparably heavy in her heart. He merely didn't let Ling Xi feel it.

Long Chen had killed the Ninth Prince, and was basically fighting against the entire country. In this country, there were always people from the royal family, and there were countless strong people in the royal family. How could Long Chen be their match right now?

If they really caught up, what would they do?

Moreover, many of the small scale communication demon beasts were even faster than the little wolves carrying Ling Xi. Just at this moment, the news of them trying to capture Long Chen had already spread through many cities, countless of which were like giant dormant beasts, waiting for Long Chen to walk into their trap.

Because of this, while they were hurrying along the way, Long Chen had not entered the city a single time, as he was worried that his whereabouts would be discovered, and so he and the little wolf specifically chose a remote path, trying to walk in as desolate a place as possible.

There were many things that were not as simple as Long Chen had imagined. For example, Ling Xi was a mortal, so her body would not be able to withstand such a high intensity traveling. Ling Xi still needed to eat and drink, sleep, the strong wind and the cold would make her sick, etc. These questions were like maggots coiling around Long Chen's body, causing his expression to become heavy and it was difficult to breathe.

Three days and three nights had passed, and in order to take care of Ling Xi's body, their speed wasn't fast. It could be said that if not for Ling Xi, their speed would have been increased by at least three times.

But even so, Ling Xi's body was still shaking and she could not take it anymore. In the past few days, her face had become even more pale, her body weaker and weaker, and she spoke in a lower and lower voice. Although she said everyday that she was alright, her body was getting weaker, so how could Long Chen not feel it?

In the wilderness, Long Chen couldn't even find dry food. He could only let Ling Xi eat the roasted beast meat. In these three days, these greasy foods had already been vomited once by Ling Xi. Seeing Ling Xi puking in front of him, Long Chen felt as if his heart was being sliced in half. He really wanted to stop and travel, so that Ling Xi could properly recuperate her body in this manner.

"Brother Chen, it's okay, I'm really okay. Let's go." With Long Chen's support, Ling Xi asked somewhat powerlessly.

Long Chen hesitated for a moment, but still chose to rush forward. On the wolf cub's thick back, strong gales were gushing in all directions. It was now night, and the sky was covered with bright starlight. A total of nine rivers flowed across the sky, and it was an extraordinary scene.

Under the starlight, the Sun Devouring Demonic Wolf was like the wind as it ran in the wilderness.

"Hm." Ling Xi seemed to have had a nightmare as she woke up with a pale face. Only when she saw that Long Chen was still beside her, tightly hugging her, did she heave a sigh of relief.

"What's wrong?" Seeing Ling Xi like this, Long Chen felt extremely uncomfortable in her heart. He increased her strength a little, allowing Ling Xi to lie in her arms more comfortably.

"Brother Chen, I dreamt that you died." After Ling Xi finished speaking, he laid in Long Chen's embrace and started crying. The soft sobbing sounds were like that of an ant crawling into Long Chen's ears.

"I'm still scared. If you die, I have no one to rely on, and there are bad people everywhere. What should I do?! I don't want you to die, I don't want you to die!" Wuu wuu, the girl in his arms was filled with helplessness.

"Xiao Xi!" Long Chen hugged her. His firm eyes looked at the bright starlight and didn't flinch in the slightest.

"You must believe me, no one can kill me, I am immortal! You can sleep in peace and rest well. I will continue to hug you like this forever. As long as you are willing, you can continue to be with me at any time you want. "

To be able to say such firm words, it was enough to express the determination in Long Chen's heart. Of course, Long Chen didn't have much of a guarantee in his heart either. He only knew that no matter what danger was approaching, he would always stand in front of Ling Xi and protect her, regardless of life or death.

"En" Ling Xi opened her eyes wide and nodded.

"Sleep well, I won't die." Long Chen reminded her once again as he gently wiped away the tears on her face. After that, he looked at her timid expression and faintly smiled.

When he had finally coaxed Ling Xi to sleep, the sky was already almost bright. Long Chen looked at this vast land, and a moment of confusion appeared in his eyes.

"Xiao Lang, I need to find a small city and enter first. I need to see if there are any maps of the Canyang Kingdom and buy some of Ling Xi's daily necessities." After pondering for a moment, Long Chen decided.

## Chapter 320 - crescent city

After daybreak, the wolf cub began to approach the place where there was smoke coming from. Not long after, a small city appeared in front of them. This small city was about the same size as the Source Spirit City's Acropolis City, Yuanyang City, and it was considered to be a smaller city than the Source Spirit City. The strongest amongst them should be around the Heavenly Core.

did not plan to let Ling Xi and the little wolf enter as she did not know if there were any royal bounties in the small city. Outside the city gates, Long Chen hid them within a secluded forest. After explaining for a while, he arrived in front of the city gates of the small city.

However, all of these were not important to Long Chen. When he saw that the guards at the city gate had actually become much stricter, he was already shocked in his heart, but he did not immediately enter the city. Instead, he focused on listening to the conversation of the Guard in the city gate from afar.

"With such a huge commotion, where did that Long Chen guy run off to? The entire Canyang Kingdom is trapped in an inescapable trap. I heard that there's a woman beside him who doesn't have any cultivation, so her speed won't be too fast. Why is there no news about her at all? "

"I'm afraid he's trying to escape. This Long Chen's reputation was blown up this time, he actually dared to kill the Ninth Prince. His guts are simply too big."

"Flee?" From what the commander said, this time, the imperial city had sent many people, and it seems like most of them were headed towards the west. How could this unknown brat, Long Chen, escape through such a tight encirclement? "

"It would be a good thing if we were caught earlier. We don't have to stay here and watch every day. If we're not serious, we'll be scolded."

Their conversation caused Long Chen's heart to feel much heavier. Sure enough, the royal family had caught up.

These few days, Long Chen had fully recovered his strength and the divine fire clones had also been prepared. Although the wolf cub was temporarily unable to use the Nether Demon Ancestral Fire, because of the nine Flame Essence, his strength had reached the fifth rank Earth Realm, which was very extraordinary. However, this kind of strength was akin to an egg striking a rock when faced with a powerful person from the imperial family.

His heart felt heavy.

However, Long Chen was not one to easily give up. Since he knew that the royalty had already caught up, he could just put up a resistance. Long Chen was currently unable to enter the gates of the crescent city, but how could the strongest expert possibly stop him in her small city? Slightly moving to the side of the city walls, Long Chen directly jumped into the crescent city.

It was early in the morning, and the streets were bustling with activity. Long Chen then took out his own cape and covered his face. There were a lot of people these days who didn't want to reveal their identities, so he didn't appear out of the blue.

In the middle of crescent city, Long Chen used the remaining divine jade s in Source Spirit City and bought a lot of daily necessities that mortals use. No matter whether he lived here or lived here, at least in terms of clothes and food, he had well-prepared for Ling Xi.

"Boss, do you have a map to sell the Canyon Kingdom here?" After paying the bill, Long Chen kept all the items he bought into his Qiankun bag and then casually asked a question.

The owner of this shop was a stout middle-aged man. The outline of his body was similar to Source Spirit City's Alliance Master Li Wudi, but his strength was merely at Dragon-Meridian Realm.

It could be seen that Long Chen was definitely an expert, so the middle-aged man was trembling with fear, worried that he would not be able to serve Long Chen well. Since Long Chen needed something, he thought for a moment before quickly nodding and bowing: "Sorry, our shop did not buy any maps. "However."

"But what?" Long Chen followed up with what he said and asked.

"I do have one in private. If the lord is willing, I will give you one in private. After all, you have bought quite a few things from me." The fat boss smiled and left.

"Thank you very much."

After obtaining the map from the owner of the shop, Long Chen then left. When his figure disappeared outside the door, the owner of the shop was already covered in cold sweat. He trembled as he looked in the direction Long Chen had left in, and said with some excitement, "A million divine jade s are about to reach my hands?"

After exiting the crescent city, Long Chen headed towards the mountain forest at his fastest speed. His memory was not bad, and he also had the Spirit Devouring Demon Pupil s, which could only see souls in demon's eyes. It was very easy to find Ling Xi and the rest. However, what made his heart filled with killing intent was that there were actually quite a few bandits who had surrounded the Little Wolf and Ling Xi, and had yet to make a move.

At this time, the wolf cub had yet to turn into a battle state. The surrounding bandits only had the strength of Earth Core Stage at most, and did not even have the right to fill the gaps in the wolf cub's teeth. Therefore, the wolf cub didn't pay much attention to them. After they chattered for a while and revealed a bit more information, he would make his move.

"This woman is really beautiful. I've seen countless women in my life, but I've never seen such a beautiful woman before!"

In the group of bandits, most of them sighed with emotion. However, when they saw the wolf cub, they remembered the shocking news of that one million divine jade s.

Long Chen had killed the Ninth Prince and fled for his life. The imperial family had ordered, whoever found traces of them in the Canyang Kingdom would be rewarded with a million divine jade. In the crescent city, a million divine jade, that was a property that even the strongest warriors of the crescent city had difficulty possessing. It could also let a group of bandits live for countless of years.

"Big brother, a peerless young lady and a black little wolf, aren't these the people who killed the Ninth Prince? There's still the main culprit, Long Chen doesn't seem to have appeared, right? "

Everyone thought of this, and their hearts were naturally filled with excitement. Only the bandit leader suddenly frowned and shouted, "We will split up and flee, quickly!"

His mind was spinning very quickly. To be able to kill a super existence like the Ninth Prince, how could his battle prowess be simple? A bunch of bandits from a small place like theirs didn't even have the right to fill the gaps in someone else's teeth.

Just as the bandit leader finished his sentence, a series of screams came from behind him. When he turned around, he could only see a blurry shadow moving at a speed that was hard to see with the naked eye. Wherever he went, the bandits would all die, and none of them could withstand a casual punch from that person!

In less than five breaths' time, over a hundred bandits had all fallen to the ground. This showed just how fast that person was. Seeing this scene, the bandit leader's mind went blank, because this meant that the foundation that he had worked so hard to build up was now completely destroyed! Years of hard work had all gone down the drain!

However, this was not all. In front of Long Chen, he was no different from any other bandits. Under the situation where he was completely unable to resist, Long Chen smashed his fist into his abdomen,

causing the clothes on his back to be instantly torn apart. His internal organs were all broken under Long Chen's punch, and the bandit leader was immediately killed beyond dead.

Gently pushing aside his corpse, Long Chen arrived in front of Ling Xi. The matter was settled, and after obtaining a lot of information, it was already useless to stay here.

"I'm worried that they would leak out the news and have already killed them all. Right now, the entire Canyang Kingdom is after us, so we have to be even more careful, let's go now. Little Wolf, you just stay like this, I'll carry Ling Xi on my back and quickly head out into the wilderness.

After giving out his instructions, Long Chen didn't hesitate at all. He turned around and said to Ling Xi: "Xiao Xi, come up, I'll carry you."

"Huh?" Although she usually stayed in Long Chen's embrace no less, this was the first time she had let Long Chen carry her, so for a moment, Ling Xi felt a little unnatural.

"What are you dawdling for? Hurry up." Long Chen turned, and said with a frown.

Ling Xi was a little restrained. She had just finished preparing, so Long Chen immediately turned his hand to protect her legs, and carried her on his back.

"Let's go." After saying that to the little wolf, he started to move towards the direction of the wilderness. From the map he just obtained, there would be a vast wilderness forest on the left side of crescent city. As long as they entered this mountain wilderness, they would be safer.

The wolf cub's body was small, but it didn't affect his speed. The two of them and the wolf quickly disappeared from the forest. At this time, the sun slowly rose.

It had to be said that after carrying Ling Xi, what Long Chen felt was not a burden, but a comfortable one. Ling Xi's body was soft as she obediently lied down on Long Chen's back. Both of her hands were wrapped around Long Chen's neck, and the soft flesh of her chest, which had a certain scale, lightly touched Long Chen's back, making him feel extremely refreshed after being kissed by his skin. Even though he was facing a great enemy, he did not forget to take advantage of Ling Xi a few more times.

What made Long Chen feel the most was that, because it was a body made of Herba Euphorbiae, there was a strong fragrance of lotus on Ling Xi's body. It was light, elegant, and fresh.

As for Ling Xi, she was already being held tightly onto her back by Long Chen, so it was very difficult for her to even move, yet the only way she could do so was to hug Long Chen tightly as she was told to move. This peculiar feeling finally caused her pale face to regain some color.

"Mn ..." Ling Xi moaned softly, her face slightly flushed red, because Long Chen's hand had already climbed up her little butt and grabbed it. Ling Xi felt as if she had been struck by lightning, and this kind of feeling, which she had never experienced before, caused her to feel a little lost.

"Scoundrel." After Long Chen had already thwarted her, Ling Xi felt a little bit of humiliation. He stretched out his pure white neck and used his white teeth to lightly bite Long Chen's ear, then immediately shrank back.

"What's wrong, Ling Xi?" Long Chen's expression was deep as he asked casually.

"I will bite off your ear and make you carry me for the rest of your life. Remember me." Ling Xi whispered into his ear.

"I can now remember you for the rest of your life. I don't need to bite your ear anymore." Long Chen acted as though he was afraid.

"Maybe." Ling Xi was confused about the future.
