

War God 3181

Chapter 3181 - 500 years

Standing outside the Realm of the Great Wasteland Emperor, they could only watch as and Shen Jun disappeared into the Dragon Demon Ancient Tomb, while the Dragon Demon Ancient Tomb closed.

Below, all the living beings of the Realm of the Great Desolate Emperor were still unaware of the change in their world lord. They were also unaware that if their world lord returned, it might be the day of their destruction.

"The Archaic Giant Demons were created by the Heaven-Devouring Race. They were created to be destructive in the first place. The Heaven-Devouring Race devoured the divine dragon, using the divine dragon as a template to create an Archaic Giant Demon. After it was created, its nature was to kill and destroy. It is natural to destroy all beings. There will be no mercy at all. "

This was the most difficult part to deal with for an ancient Giant Demon.

The Chaos Clan would not use everyone as its goal, but the appearance of the Ancient Giant Demons was precisely to destroy all life forms other than them. They wanted to devour everything and take over this world. They had the same characteristics as the Eclipse clan, but their targets were limited to living beings and gods and devils.

In half a year, they would definitely be like a pack of hungry wild wolves. Coming to this world where sheep were everywhere, this was simply their heaven.

With this time limit, if they didn't make sufficient preparations by then, the result could be imagined. Regardless of whether or not they would provoke the descent of the Swallowing Heavens Clan, it would not benefit Long Chen and the living beings of the Myriad Realms at all.

He had to inform the four Chief Sovereigns of this news.

The four Chief Sovereigns who had just passed through the calamity in the Chaos Clan had just transferred the barbarians to the Pangu Continent.

He had also received such news.

"Half a year?"

"In this period of time, we have been through many calamities. The Ancient Giant Demons are the biggest obstacle in our lives. They are vicious, and most importantly, we simply do not know how powerful they are. "

The four Chief Sovereigns still remained at the Pangu Continent.

"However, if we want to destroy the Allworld, we have to do so on our own accord."

"Actually, I feel that the situation now is much better than I imagined. Firstly, when the Chaos Clan came, they didn't guess that there would be an Ancient Giant Demon. Although the Lord of the Chaos has lost its power, they still have the Lord of the Chaos and seven Chaos Saint. It is still our Myriad Realms' greatest battle power. Moreover, with the Archaic Giant Demons' nature, they simply cannot escape. They must ally with us and fight in battle. "

"The second point is for you, Long Chen. You still have three experts that can defeat the Chaos Saint and an existence that can defeat the Lord of the Chaos. You are stronger than the four of us combined. Even if the ancient Giant Demons were to really descend, I would still have a lot of confidence in you guys. "

Their analysis was indeed correct. The Myriad Worlds was now simply unbelievably strong.

He said, "Four sirs, our situation is indeed very good, but the problem is that the Ancient Giant Demons are fully aware of our situation, but they still dared to appear. That is because they have a certain amount of support, so no matter what, during this half a year, I hope the four of you can still use all your strength to prepare. "We'll try our best to minimize the casualties."

"We understand this point. To be arrogant and underestimate your opponents will only result in a crushing defeat. "No matter what, we have to push our defense to the limit."

With their words, Long Chen was relieved.

The Ancient Giant Demons had descended, and the only thing Long Chen needed to prepare for was to be prepared to contend against them when the time came, especially his own. To be able to stay in the Tower of Time s for five hundred years was equivalent to having a huge room for improvement!

What Long Chen lacked the most now was time, if only the fourth floor of the Tower of Time had not been closed.

Amongst the Tower of Time, although the time was long, they lacked sufficient strength, so Long Chen would have to stay in a place with sufficient strength for a long time at the very least. The place with the most boundless spiritual energy in all of the realms was naturally the Primal Chaos Realm.

As long as a time tunnel was inside the Primal Chaos Realm, they would be able to open the door and absorb a few more Nine-colored Chaos Qi. Although the effect of the Tower of Time was definitely not as strong as that of the Ten Thousand Worlds 500 years ago, it was still able to reduce the difference in time by a thousand times.

If it was cultivation, it would be at least a hundred times, or even hundreds of times faster.

The space in the third floor of the Tower of Time s was limited. The space here had basically been handed over to the most important and potential The Dragon God Clan. She had already found a small portion of the Origin Dragon's Soul and most of the Unparalleled Dragon's inherited blood essence. Before the arrival of the Ancient Giant Demons, it seemed like enough time for Long Chen to go out and search for the Origin Dragon's Soul.

"Now that I'm strong, finding those should be easier. I should focus my attention on this area, at least until I enter the realm of Extreme Realm Divine Emperor."

That's right, Long Chen's true strength was only at The God Emperor of Perfection. He still had a huge space, especially when he reached the realm of the Hierarch. There would definitely be terrifying changes.

From the gate of the universe, Long Chen moved to the Primal Chaos Realm.

"Big Brother, do we need to tell Cat about the information on the Ancient Giant Demons?"

Long Chen said: "I have already told Zhu Xi, she will definitely find a chance to clarify this with Cat. However, whether Cat will help or not, I am not sure."

"I think he will."

Mo Xiaolang said with certainty.

"How do you know?"

"Although he seems to be despairing of the current situation, I feel that he is at least still concerned about the world before the era. He cannot just watch helplessly as this place is destroyed."

What Mo Xiaolang was thinking, was actually about the same as what Long Chen was thinking.

"Also, where is Lord of the Chaos?"

Since the Lord of the Chaos had just arrived in this Ten Thousand Worlds, he should still not have a good understanding of the matters regarding the Ancient Giant Demons. Otherwise, he wouldn't have been in such a rush to start this Allworld Fiendgod Bestowal.

Long Chen thought for a while, then said: "He has a secret about the second ancestor on him, before the Primordial Giant Demons arrive, I must think of a way to clarify this secret. Once this step is completed, I will explain it in detail to them. Of course, perhaps all of this was built on the premise that I could defeat him. Now, I can only work hard to defeat him. "

He was currently outside the Primal Chaos Realm, and the Chaos diagram of nine colors was blocking his way. Seeing the sun within, Mo Xiaolang really wanted to devour it, but the problem was that he couldn't anger the Lord of the Chaos yet.

"Big Brother, tell me, can I devour Northern Star Domain's Refining Sun?"

Mo Xiaolang suddenly said.

Long Chen shook his head: "Refining the sun is a world of primitive level, after all it is a world, and it is not that easy. You are now the Hierarch of Perfection, and once you become a The Supreme Divine of the Extreme Realm, or even a realm higher, you can try to turn the entire Refining sun into an existence."

Mo Xiaolang only needed to devour in order to grow, it was much more efficient than Long Chen.

Now that he was outside of the Chaos diagram, Long Chen felt that if he went in, it would definitely alarm the Chaos Clan. But if he didn't go in, he wouldn't be able to borrow the Primal Chaos Realm's power to strengthen himself.

However, Ling Xi could directly bring Long Chen in if the universe door had opened inside, but the problem was, Lord of the Chaos would definitely sense it.

But Long Chen didn't care, he had Ling Xi directly bring him into the Fire Dance Continent. Looking at the vast continent, and the dense Nine-colored Chaos Qi, Long Chen couldn't help but laugh.

"Long Chen, what are you doing in my Primal Chaos Realm!"

Sure enough, Lord of the Chaos's voice immediately came over. Of course, if it was in the past, Long Chen would probably be directly thrown out.

Long Chen smiled and said: "God Master, I think that during the last few days, when I was arguing with Miss Primal Chaos Fire Wu, I had offended her too much, so I prepared to apologize to her.

"Coming uninvited, are you humiliating me?" Lord of the Chaos's voice was gloomy.

"No, that's absolutely not the case. I was careless. I apologize to the God for this. It definitely won't be like this next time."

"You'd better not have any evil intentions, or else I'll never let you off. Also, my Chaos Clan's daughter will definitely not be like any outsiders. You can also give up on his and don't have any other intentions towards Huo Wu. "

With that, the Lord of the Chaos ignored them.

At this time, Primal Chaos Flame Dance had already arrived in front of Long Chen. She looked at Long Chen with her bloodshot eyes and said angrily, "Humiliating is not enough, why must you embarrass me today?"

Long Chen said with a depressed face: "Forget it, I sincerely wanted to apologize to you. If you don't appreciate my kindness, then forget it. However, since you guys are staying in the Ten Thousand Worlds, there's still a long way to go before you guys can meet again. I don't wish to end up with any deep grudges regarding this matter, so I'll be taking my leave first. "

In the Fire Dance Continent, Long Chen opened the doors to the Tower of Time and immediately left.

Actually, his main purpose was to leave the Tower of Time door here so he could borrow the Primal Chaos Realm's power. Previously, when he said he would apologize to the Primal Chaos Flame Dance, it was all pure bullshit.

Ten days outside meant that twenty-seven years inside. Long Chen would leave behind the main entrance of another time tunnel every twenty-seven years as long as he left the room.

"I really thought you were going to apologize to her." Li Xuanji chuckled.

"How is this possible?"

"If she wants to know the truth, she must hate you."

"The thing is, she'll never know."

"What do we do next?"

"Let's cultivate to the realm of the Extreme Realm Divine Emperor first before talking about other things."

"Mm, then tell me. In five hundred years, before the ancient Giant Demons descended, would our children be born?"

"How would I know? You'll have to see."

Li Xuanji pursed her lips and said: "What about you?"

Long Chen thought for a while, then said: "Of course I want him to be born in the future, this way, he won't have to experience this war."

Li Xuanji shook her head, and said: "I don't think so."

"Why?"

"I want him to be born before that, because after he is born, I can help you wholeheartedly. "Before, I didn't have the ability to, so I didn't ask for too much. But now that you've given me your chance, I don't want to hide behind you anymore."

Chapter 3182 - Origin of the Dragon Scripture

From then on, Long Chen was like a parasite in the Primal Chaos Realm.

The Nine-colored Chaos Qi was quietly absorbed by him and pulled into the time tunnel. Although the quantity was not large, it was something that had been accumulated over a long period of time. Adding on her outstanding talent, even though her cultivation speed was only half a year outside, he was still extremely fast.

Two hundred years later.

Long Chen had yet to reach the realm of Extreme Realm Divine Emperor, but Ling Xi came as a great surprise to him. Under the circumstances where he did not encounter any other fortuitous encounters, he had actually entered the realm of A Highgod in the Perfection Stage as well.

His level of mastery was now at the same level as the four Chief Sovereigns.

Of course, in terms of combat power, the rules of space had also made great progress. In these two hundred years, Ling Xi had already comprehended new rules of space. And this new spatial rule was actually very similar to the Chaos Clan's primordial laws. It could basically be said to be a type.

This explained more about the relationship between Lord of the Chaos and himself.

Perhaps the Primal Chaos Rules were the talent of their Chaos Clan, but the primordial laws did not belong to them in the past. Of course, in the entire Chaos Clan, other than Hundun Shenwu, only the Lord of the Chaos knew the primordial rule.

Further understanding, perhaps only by defeating the Lord of the Chaos would he be able to confirm his suspicions.

Of course, to a large extent, Ling Xi was still researching on the divine ring, because the divine ring was related to the sealed divine dragons, so if the divine dragons could return, their situation would be much better.

But in this area, the most progress was still the Immemorial Curse.

The Silent Curse, the Fate Curse of the heavens, there was still something deeper to it as he continued to study it. The current Ling Xi was actually even more powerful than the Origin Ancestor.

And Long Chen had to put in some effort ...

Two hundred and fifty years passed.

This time, he calmed down and started cultivating. Although his speed was not fast, it also made up for many of his deficiencies and consolidated his strength. Chaos' The Power of the Dragon God of All Things was purer and more majestic.

"It's about time."

The realm of Extreme Realm Divine Emperor, had even crossed this level for many of the surrounding Dragon Emperor s.

Crossing through the same realm, in terms of difficulty, Long Chen was equivalent to entering the The Supreme Divine of the Extreme Realm. This is the difference between Taiyuan Deity Realm and Tai Yi Shen Jing.

However, on this day, after borrowing Primal Chaos Realm's Nine-colored Chaos Qi, he finally allowed Long Chen to cross this chasm. This caused his body's power to converge and increase explosively. Finally, he entered the realm of Extreme Realm Divine Emperor!

Weng! *

The enormous Nine-colored Chaos Qi condensed and rushed towards Long Chen, charging into her body. Under the transformation of the Universal Source Dragon Scripture, it turned into Long Chen's own power! The current Long Chen was only lacking the Origin Dragon Soul. Once he possessed the Origin Dragon Soul, he would be able to instantly surpass everything and enter the ancestral realm.

That realm was the realm of the creators of the world, the realm of the creators.

From the mortal spirit to the Fiendgod, the Fiendgod ruled over the mortal spirit and ruled over the world. From the gods and devils to their ancestors, the progenitors created their own gods and devils, creating a world of their own.

This was the relationship between the three.

True ancestors were born at the very beginning of the Allworld, and created it. Only a very small number of people like the first and second dragon servants were born in Dragon Sacrifice Continent later on.

Now that Long Chen had matured once again, the moment his power erupted, the entire time tunnel began to tremble. At that instant, Long Chen felt an even deeper secret of the time tunnel.

It only lasted for a moment.

"It looks like other than the Ruins of Time, the Tower of Time and the Everlasting Vortex, the time tunnel must have other dimensions as well, and even the Life and Death Realms are like this. There must be some secrets that the Ancestral Dragon has deeper within, which the Dragon Attendants probably don't even know."

Having gathered such boundless power, Long Chen's heart was now filled with a heroic desire to vent.

After treating it as the peak of the current ten thousand realms and its power very possibly equal to that of the Lord of the Chaos, Long Chen's gaze focused on his own Divine Kingdom, on the Origin Dragon Palace.

"Lord of the Chaos has his provenance corundum, maybe his origin level's Creation Divine Artifact! He can even control it, and now that my realm has risen, I should be able to control it too. Even if the Origin Dragon Palace is more powerful than the Dragon Pagoda, the secret is much bigger. "

Even if the Primordial Dragon Pagoda had become a Primitive Dragon Sword, Long Chen still did not know.

Now that his will was even stronger, Long Chen calmed his mind and focused to communicate with the Origin Dragon Palace. This golden dragon palace was able to suppress the huge Divine Kingdom and also store a large amount of inherited blood essence and Origin Dragon Soul.

The Origin Dragon Palace seemed to be protected by a layer of barrier. Long Chen had to rely on sufficient willpower and strength to fiercely attack it in order to break its defense.

This time was the key!

"Origin Dragon Palace. A great catastrophe is approaching. Please grant me your strength!"

Long Chen's heart was devout, he was open and upright, and used the will of a junior to communicate with the soul of his ancestor. He believed that all the divine dragons were protecting him and helping him.

As long as he reached a certain level, they would definitely not reject him.

Just as Long Chen had expected.

When he felt that the hard shell of the Origin Dragon Palace was gradually melting, Long Chen was overjoyed. He attacked even more fiercely, and finally, under his strong willpower, the Origin Dragon Palace rumbled loudly. The four words on the signboard, Origin Dragon Palace, shone with a bright light.

BOOM!

On the God Kingdom Continent, all of the The Dragon God Clan could see a burst of golden light whenever they raised their heads.

Right now, Long Chen was wandering within this golden ocean. It was as if he had returned to his mother's embrace, warm and gentle, with limitless hope in his heart. This was the internal world of the Origin Dragon Palace.

In the end, it turned into a golden palm-sized palace. The palace was similar in size to the Chaos Temple, and the golden origin dragon palace penetrated through space and directly appeared in the center of the Tower of Time, in Long Chen's hands.

Actually, he had just come out from Long Chen's Divine Kingdom.

Of course, even though it was in Long Chen's hands, the Origin Dragon Palace was still suppressing the Divine Kingdom, ensuring the stability of the Divine Kingdom's enormous world. Actually, this was a world that relied on the Origin Dragon Palace to stabilize the situation, and was always linked to Long Chen's life and death, so it was very difficult to be called a real home here.

For everyone's true home, Long Chen was still working hard.

BOOM!

The moment Long Chen held onto the Origin Dragon Palace, the most powerful God of Creation power in the history of the Origin Dragon Palace, which was equivalent to several types of half-primitive level God Creation Equipment, crazily rushed into Long Chen's body. When he controlled the Origin Dragon Palace's body, the power in his body was increasing explosively, and to a terrifying extent!

Long Chen had always been weak in terms of power, but this time was different. The great amount of Creation God Power from the Origin Dragon Palace was washing his body and merging with his The Power of the Dragon God of All Things, it was simply about to explode his body! The energy that was as boundless as the stars was currently changing him.

"Chi, chi ~ ~ ~"

Within his body that was as vast as the stars, endless divine power swept out. Billions of palaces lit up, burning like the sun.

"I now have control over the Dragonblood Palace."

Long Chen was extremely excited. From the moment he obtained the Origin Dragon Palace, he had been waiting for the Origin Dragon Palace all this time.

Although the Origin Dragon Palace was still like the Primeval Dragon Pagoda, where Long Chen could only use his Creation God Power, that was enough. After all, the God of Creation of the origin level artifact was already at a terrifying level.

Just the provenance corundum alone was enough to use such power, let alone a Creation God Manifestation Weapon.

"Fuse!"

The Palace of Origin was similar to the Primeval Dragon Pagoda, being able to merge with Long Chen. The palace melted into water and turned into a golden membrane that spread over Long Chen's body.

When it fused with the Origin Dragon Palace, the boundless power would flow through his body. Long Chen had an illusion, it was as if in this Myriad Worlds, there was no longer any power that could injure him at all!

Naturally, he could also use the Origin Dragon Palace to directly attack his opponents, just like how he had once used the Dragon Pagoda.

"And this!"

Finally, in the vast sea of gold in the Origin Dragon Palace, a golden heat current flowed into Long Chen's body, quickly fusing with the The Power of the Dragon God of All Things in his divine body. Under the effects of the heat current, new energy was being born!

"Origin of Dragon Scripture!"

This, was unintentionally a type of Infinite Divine Art.

From the Dragon Palace.

When this power entered Long Chen's body, it caused the limitless power in his Myriad God Palace to undergo a tremendous change.

Vast and majestic like the universe, under the transformation of the Origin of Dragon Scripture, it formed a dark golden power. This was the purest power Long Chen had ever seen, a power that completely exceeded the Origin of Dragon Scripture's primitive level.

RUU...!

The origin dragon palace and the advancement to the next level had surprised him. He had made a huge leap forward in terms of strength, even catching up to the rules. This was the huge harvest he had obtained after two hundred and fifty years of settling down.

It was because of the bitter days and nights of cultivation that he had reached his current state.

"Right now, I should only be able to have a basic level of control over this Palace of Dragon. There's definitely more possibilities for me to be able to control this Palace of Dragon in the future." Other than that, the Primeval Dragon Pagoda may not even have half a origin level. "I still haven't completely grasped it, so it means that there are still bigger secrets!"

The divine artifacts inherited from the Dragon Sacrifice Continent were as mysterious as the life and death worlds of the two time tunnels that the Ancestral Dragon had left behind.

In the end, under the transformation of the Dragon Scripture, all of Long Chen's power became the Dragon's Origin Energy.

the power of origin level.

The Ten Thousand Worlds were rare.

Most likely, only the Lord of the Chaos would have such a level of power.

"Success."

Even without using the Origin Dragon Palace, Long Chen could still clearly feel the enormous changes in his body. What he wanted to do the most right now, was to use this kind of berserk power to battle!

Chapter 3183 - Challenge the Lord

The realm of the Extreme Realm Divine Emperor.

Infinite Divine Art, Origin of Dragon Scripture. Forging origin dragon essence.

The most important thing was the fusion of the Origin Dragon Palace's vast God of Creation God Power into the Origin Dragon Essence, allowing Long Chen to reach a level of power that surpassed his limits.

In the past, the improvement in the rules alone had far surpassed his level of power.

Now, Long Chen finally had the power to support the Eternal Whirlpool, the Boundless Life Tribulation, and his future life changing technique.

"Done."

Amidst everyone's expectations, Long Chen stood up. Today, everyone was surrounding him, and even though an even greater calamity was approaching, Long Chen had already made enormous progress before this. Everyone was filled with confidence in him.

"The most important thing to do now is to completely finish off the Lord of the Chaos. I am prepared to go out and fight with him now to see if there is any chance of victory. These few days, Lord of the Chaos had been staying in the Primal Chaos Realm very well. The other Chaos Clans did not go out and cause trouble, meaning that they are still afraid of Cat. "

No one had any objections to Long Chen's decision.

"How's the kitten?"

"He roamed all over the Myriad Worlds and visited several places. After that, he probably didn't have any other thoughts, so he stayed near Dragon Sacrifice Continent. Most of the time, he was silent. Naturally, we should also be thinking of a way to recover his peak strength. "

"It seems like he is also preparing for the Myriad Worlds!"

The Lord of the Chaos could only be considered a pressure. The true chaos probably started on the side of the Ancient Giant Demons.

When they were talking about that, Long Chen felt that the Lord of the Chaos had appeared in Fire Dance Continent. After all, with Long Chen's activation, the time tunnel was considered to be connected to the Fire Dance Continent.

"Most likely, he has already felt the changes in the Dragon Palace. Or perhaps it was merely the feeling of my strength increasing. "

Facing Lord of the Chaos, Long Chen's heart held the most majestic fighting spirit! He was not able to enjoy the battle back then. At that time, the gap between him and Lord of the Chaos was really huge.

"But today, I must overturn the Lord of the Chaos and cross his peak so that I can go even further!"

The Lord of the Chaos represented the end of the gods and devils, as well as the power of the The Supreme Divine of the Extreme Realm.

"Most importantly, he must have the second ancestor's secret on him. Without suppressing his strength, it is impossible for him to reveal his secret. "

Thinking up to here, Long Chen exited the time tunnel s. After returning to the Fire Dance Continent, he closed the time tunnel s, causing his boundless power to descend onto the Fire Dance Continent. In an instant, he possessed the power to overturn the heavens and earth.

"Long Chen, why are you here again!"

The anger in Chaos Flame Dance's heart hadn't subsided yet. When she saw Long Chen again, she would feel flames rising from her stomach, wishing that she could eat Long Chen alive.

"He's always been there, he's just secretly using our Primal Chaos Realm's Nine-colored Chaos Qi." At this moment, the Lord of the Chaos appeared behind the Primal Chaos Flames Dance.

As expected, he already knew what Long Chen was doing, it was just a small matter. He was curious about Long Chen's goal and did not stop him. Of course, it was because of the kitten. If not for the shadow of the kitten in his heart, Lord of the Chaos would not have been so courteous to Long Chen.

"Shameless Thief!" "What a shame." Chaotic Flames Dance's silver eyes revealed traces of disdain.

Although Long Chen did not display it too strongly, she could feel that the current Long Chen had a qualitative leap forward compared to before!

He had transformed from a terrifying opponent into an existence that could completely suppress the Flaming Chaos Dance of the Chaos! The feeling it gave the Primal Chaos Fire Dance was the feeling that the Lord of the Chaos gave the Primal Chaos Fire Dance.

"Huo Wu, you can go back now." His ice-cold eyes were constantly staring at Long Chen. Ever since Long Chen had appeared, he knew that perhaps because of the Nine-colored Chaos Qi, the current Long Chen had simply reached a point where even Lord of the Chaos was wary of him.

"Before this, he only had the power of primitive level. But now, just based on the nature of the power, it had already transformed into the power of origin level. And I want to be. It wasn't just his level that had changed, but his strength had increased explosively! Just what kind of change had he experienced in the past three months?!"

Lord of the Chaos did not know about the existence of Tower of Time, so for Long Chen to be able to improve so quickly and swiftly, the shock in his heart was not just a little bit.

"God Lord, I challenged you a few days ago, but I ended up in the middle of it. I feel deeply regretful, but now I want to challenge God Lord again to have a fair spar. I wonder if God Lord can give me this opportunity."

Long Chen stated his request in front of the Primal Chaos Flame Dance in a simple and straightforward manner.

"You're courting death!"

Chaos fire Wu was so angry that she laughed instead, laughing at Long Chen's overestimation of his strength, laughing at his arrogance and conceit.

"If not for that person who saved you back then, you would have been reduced to ashes by now. "You actually went as far as to challenge my grandfather today, don't tell me you are thinking too much!"

Long Chen smiled as he faced her. He wanted the Lord of the Chaos's answer, not the Primal Chaos Flame Dance.

The Lord of the Chaos narrowed his eyes as he looked at Long Chen. Before Primal Chaos Flame Wu could finish speaking, he nodded, "It seems like a complete conclusion is required. The reason you've improved so much in such a short period of time is because you've come for me. Your will is unstoppable. Today, I will be shocked for you, but in this battle, I will not let you die even a single moment because of that expert! "

"There's no need for the God to allow me to challenge the God. I only want fairness. I just need to carry it out."

"Satisfying!"

Lord of the Chaos's blood boiled from the battle. Honestly speaking, even though Long Chen had once been a defeated opponent under him, and even though he was far inferior to the Divine Master, looking at his now, with such an awe-inspiring aura, the Lord of the Chaos was already very curious about what realm he had actually grown to!

"Let's go!"

Without saying a word, the Lord of the Chaos extended a finger and the Chaos diagram in the sky opened up a path, this was a path for Long Chen, of course the commotion had also shocked most of the Chaos Clan.

There was another hole in the sky, and there was no reason why no one could see it.

The Lord of the Chaos instantly disappeared, and without saying a word, Long Chen followed closely behind him. In the blink of an eye, Long Chen left the Primal Chaos Realm, and arrived in the endless starry sky outside.

They had left the Primal Chaos Realm and found a battlefield that would not affect the entire Primal Chaos Realm!

Aside from the kitten from billions of years ago, this was already the final battle between the two peak existences of the ten thousand worlds. This was the true end of the last ten thousand world holy war!

"Huo Wu, what happened?!"

From within the Primal Chaos Realm, Chaos Saint s such as the Primal Chaos Primal Chaos Primal Chaos Firmament and the Primal Chaos Ghost Dance emerged one after another. Many Hierarch and Divine Emperor s were also alarmed.

For a moment, the entire Chaos Clan was boiling.

"It's the Divine Master! That Long Chen is provoking the Divine Master again! The final battle between the Divine Master and Long Chen! "

"The same one who lost miserably in front of the God Master last time!"

"Right, if not for the appearance of the last super strong expert, Long Chen would definitely have died at the hands of the Divine Master.

"I hope this isn't a conspiracy of that expert."

Within the Chaos Clan, those who were capable all rushed into the Chaos diagram. After all, the Chaos diagram did not affect them in the slightest. They remained at the outermost layer of the Chaos diagram's blue color. Looking out, they could see the opposing Long Chen and Lord of the Chaos in the depths of the starry sky!

"It's about to begin!"

Everyone inhaled a breath of cold air as they stared with wide eyes. Very few people made a sound. The hearts of the seven Chaos Saint s at the very front also rose to their throats.

Huo Wu, you said, Long Chen seems to be different. Chaotic Ghost Dance asked.

"Yes, this is the confidence he has today."

"But, it's only been three months, how strong can he become? His arrogance has also angered Father. If that expert did not appear today, I think Father would not be able to hold back and kill him. "

"You're thinking too much. Father knows his limits. Before he defeats that expert, he will not act rashly."

There was no longer that unattainable feeling of anticipation when he confronted the Lord of the Chaos again.

When Long Chen faced the Lord of the Chaos, his heart was in turmoil, his blood was boiling, and his fighting spirit was about to break through the horizon! However, he was still able to keep his calm and said: "God, this time, we will only spar and not fight with our lives on the line. Also, I want to make a bet with you."

Another bet.

Lord of the Chaos did not gamble heavily. He said, "Speak frankly."

"If I win, I want to know some secrets of yours that are related to that continent's tattoo on your body. I hope you will know everything and answer me."

It should be easier to ask in this way.

"What if I win?"

Lord of the Chaos said.

"Does the God Master not have an answer?"

Lord of the Chaos said: "I won't take advantage of you, an equal exchange. If I win, I also want to know all the information regarding the giant beast tattooed on your body. If you lose, I hope that you will know everything."

He should have a lot of doubts about that divine dragon as well.

Long Chen did not have much confidence in victory, but since that was the case, he could only give it his all. It was best to not let Lord of the Chaos know about the secrets of the Divine Dragon.

There were some things that, if known, would easily bring him a true disaster.

"Then it's a deal, please."

Long Chen was completely prepared for battle.

Lord of the Chaos was expressionless, but he was different from last time. Last time, he had only casually used a single rule and he was able to completely suppress Long Chen.

This was his real fight!

In a short moment, right in front of Long Chen's eyes, Lord of the Chaos displayed the ability of three heads and six arms. The three great bodies stared coldly at Long Chen, as though they were burning hot rays of light that wanted to pierce through Long Chen!

Weng! *

When the Lord of the Chaos's power surged, it was as if the universe had exploded within his body.

Chapter 3184 - Third rule

"So it is. Three types of rules, huh?"

After observing the Lord of the Chaos, Long Chen came to a conclusion.

Right now, in the depths of the starry sky, three bald heads with the same divine body appeared in front of Long Chen. Some were fierce, some were cold, some were mysterious.

Three temperaments, three powers of laws, were distributed amongst the three bodies. This division, was much more perfect than Hundun Shenwu's. Hundun Shenwu only had two rules, so he was extremely embarrassed.

The first rule, which had nine berserk chaos elemental essences, was undoubtedly the chaos laws.

The second type of rule, was cold, ancient, and primal. It was the supreme way for the Lord of the Chaos to control grandmist space, and that was the primordial rule!

As for the third rule, if the Lord of the Chaos didn't use it, Long Chen would never know what it was, but he felt that it could be something from the world. It could be a kind of nurturing, and even more so the evolution of a primordial universe, the birth and destruction of the world, the transformation of the stars from the myriad worlds, it wasn't just the rules of the stars, the changes of the stars were just a small part of it.

The true content was far too inclusive.

It was the universe, a myriad worlds.

The last type of rule, not only did it not lose to Primal Chaos and grandmist, it even had the intention of surpassing these two rules.

"Are you curious? I'm even more curious about you. According to what I know, you have at least seven rules!" "Other than the rules of killing being more common, the other six rules are at least at my level. Even three months ago, I was impressed by your skills in the rules."

Time, fate, karma, life, tribulation, change. These were all the top rules. Especially as they were the rules of the Ancestral Dragon, they were naturally not inferior to the opposing Primal Chaos, primordial chaos, or the third type.

The Lord of the Chaos gathered the three types of rules onto three different bodies. Right now, they were simply like three different Lord of the Chaos s, each of them skilled in one type of rule, and were fighting with Long Chen.

"Your rules, there is time, there is life, there is calamity, and there is another kind of rule that is similar to duplication. The two most difficult to decipher are the two that seem to fuse together with your past and future life skills. The two combined together make a lifetime. So my guess is that it has something to do with fate and karma. Such a top-notch rule is indeed different from the others. "

Basically, the Lord of the Chaos had guessed everything that Long Chen possessed.

While his third type of rule contained the universe, stars, creation and destruction, and the evolution of ten thousand worlds, Long Chen was unable to use a single word to describe it. This rule was even more complex, but at the same time, he could clearly feel its unique intensity.

Lord of the Chaos saw his doubt, and said: "This third rule, I am the only one who possesses it. You guessed right, it really comes from something related to my tattoo. Its name is — Good Fortune. "

Good fortune!

Long Chen was enlightened.

He understood.

Chaos, grandmist, Creation.

Chaos Treasures, hongmengxinling, Creation Divine Equipment.

These three rules seemed to be one, and then they were split into three parts.

Chaos was the element that made up all worlds, grandmist was the space, and was the skeleton of all worlds. Creation, on the other hand, was a change, a change, a change, a change.

One of the three was the first world, the world that was the beginning of heaven and earth.

There was an essential difference between this and the creation of Taiji Creature Dragon. The creation of Taiji Creature Dragon was built on the skeleton of the primal universe. Chaos, grandmist, and Creation created a world, while the Taiji Creature Dragon modified the world.

"Perhaps, grandmist and good fortune are the second ancestor's rules, and chaos can also be the second ancestor's rules. From the very beginning, it was possible that the Primal Chaos Realm had inherited one of the second ancestor's rules. So that's why the second ancestor appeared here in the end? "

Of course, all of these were Long Chen's guesses.

Only, until now, he seemed to truly understand that the image of the second ancestor had already begun to become clear in front of his eyes. His mysterious veil had already been lifted, revealing the tip of the iceberg. Even though it was very blurry, Long Chen also desired it a lot!

It could be said that the Lord of the Chaos was the successor to the rules of the second ancestor!

He just didn't know how much this fellow had inherited!

Of course, many of these were changes in Long Chen's heart, when Lord of the Chaos just said the two words "good fortune", he was already prepared to fight!

Three heads and three Godly Creation weapons!

Fortunately, they were all Creation Divine Artifacts with half of origin level! It was just that, even though it was a Creation Divine Artifact which had half a origin level in time, it was still comparable to a Chaos Temple.

The body controlling the Chaos Laws held a long silver-gray sword in its hand like a centipede. There were a total of nine sections, and each section hid the power of a chaos element.

The chaos elemental essence swirled around the longsword.

This was, Primal Chaos sword!

In the legends of the Primal Chaos Realm, the weapon that the Lord of the Chaos used the most was the sacred artifact of the Primal Chaos Realm, and it was carved out of many weapons.

The body that controlled the primordial laws had thousands of golden tokens revolving in his hands. Long Chen was extremely familiar with this person, it was the invitation card to bring them to the Primal Chaos Realm. Now, the cost of the transformation was just like a plate of golden tokens.

Before and after the gold medal, each of them had carved a character. It was an ancient character, complicated, with numerous brushstrokes. It should be the word 'primordial'.

This was the grandmist gold medal!

In the end, the god body that controlled the laws of creation held a black star with both hands. In the end, the god body that controlled the laws of creation held a black star with both hands.

This thumb-sized object definitely hid a power that could instantly destroy a world of primitive level!

This was a planet of Creation!

Primal Chaos sword, Primordial Gold, Heavenly Creation Star Plane!

When the three divine instruments appeared, the Lord of the Chaos was surrounded by these three types of rules. Under the encirclement of the three Creation Divine Artifacts, the divine might was vast and boundless, as if the Primordial Chaos was the creator of the world. One look, one action, was the destruction and rebirth of the world.

The Primal Chaos sword turned into a giant centipede, swaying in the chaos. The grandmist gold medal spread out, turning into a stone tablet that was as large as the world itself, suppressing the space around it. As for the Good Fortune Star, it was still in the hands of the Lord of the Chaos. It was devouring light and space; it was very similar to the black hole rules of the Nuwa Devils!

A black hole was one of the transformations of all worlds. Thus, the rules of a black hole were also one of the laws of creation!

"Long Chen, take this."

Since it was a spar, Lord of the Chaos was very polite. Of course, he was just being polite with his words. The power that was produced, was several times more terrifying than the power that was used on Long Chen when he was an ant!

Lord of the Chaos did not want to lose!

"The True Primordial Sword Dao!"

On top of the Primal Chaos sword, a gray colored chaos storm swept over. Primal Chaos lightning flashed, fire and ice coexisted, light and darkness coexisted, the nine ultimate killing powers condensed into a myriad of sword dao, broke through ten thousand worlds, cut down ten thousand stars, and only had one goal, and that was Long Chen!

"Life Prison!"

In the blink of an eye, the primordial gold medal had already completely surrounded Long Chen. This was an even higher Primordial Law, when paired with the Primal Chaos Sword Dao, it could simply increase the might of the Primal Chaos Law by several times!

Under his control, the Life Prison and the Primordial Gold Medallion would first fortify the space and upgrade it to a terrifying level. He was simply like a fellow with Dragon-Meridian Realm entering the Primal Chaos Realm, just the pressure of space itself already possessed the power to crush Long Chen into dust!

For a moment, the space was like the weight of a world of origin level, smashing onto Long Chen's head!

However, these two rules were just an appetizer. In the moment that the Primordial Gold Medallion was forged into the Life Prison, another God Creation Artifact also entered into the Life Prison. That was the Creation Star!

"Good Fortune Black Hole!"

The rules of the black hole appeared on the body of the Lord of the Chaos, but it was completely different from the power of the devil. This was a black hole that originated from the Primordial World, and when the black hole opened up in the cage of life, it was also the time to destroy everything!

The terrifying destructive power of the True Primal Chaos Sword Dao!

The suppressive force of the Life Prison!

The devouring and destruction of the Manifestation Black Hole!

The power of the three combined to create a peerless destructive power! The Lord of the Chaos was initially used to prepare for dealing with Little Cat, but now, it was used on Long Chen.

In terms of the level of power, after many years of bitter cultivation, the Lord of the Chaos naturally surpassed Long Chen. His Ancient Sutra of the Tai Yi, was the peak-level Infinite Divine Art of the Tai Yi Shen Jing. With his absolute origin level, the 'Innate primordial spirit' he produced was not any weaker than Long Chen's Origin Dragon Essence!

In such a desperate situation, Long Chen's response became the thing that all the Chaos Clan looked forward to.

"Long Chen will definitely be destroyed!"

"Oh my god, the Divine Master is too terrifying. If these three rules were to fall into the Primal Chaos Realm, how many people would have to die?"

All the Chaos Clans were deeply shocked.

Long Chen was equally shocked by the strength of his opponent! However, this did not destroy his confidence, as all his strength was being destroyed. He decisively decided to merge with the Dragon Palace.

Under Long Chen's control, it turned into a golden light and fused into his body. At that moment, with the support of the God Creation God Power, the Origin Dragon Essence began to surge violently in Long Chen's body!

At the same time, the Origin Dragon Palace gave Long Chen absolute defense!

Until now, that was why Long Chen took away the Primitive Dragon Sword. His battle had just begun, and with such immense power, what Long Chen wanted to do the most was to tear everything apart!

Chapter 3185 - Descent of the Ancestor

The power of the Dragonblood Palace flowed throughout his entire body.

The appearance of the real origin level Creation Divine Artifact was enough to cause the Chaos Clans in the distance to tremble. Even with the grandmist gold medal blocking the way, the berserk might of the origin level Creation Divine Artifact was still able to shake the Chaos Clans in the distance.

In the gaps between the gold medallions, the Chaos Clan could feel the unrivaled divine might, let alone the Lord of the Chaos.

"origin level!"

Actually, it was this origin level's Creation Divine Artifact that attracted the Lord of the Chaos to him. The reason why he was fighting with her life on the line right now was actually because she wanted Long Chen to bring out this God Creation Divine Equipment.

However, the three great rules had been swept away, instantly reaching a point of life or death! Even if Long Chen were to use his origin level's Creation Divine Artifact, no matter how shocked the Lord of the Chaos was, he could not retract his attack!

In the Life Prison, Long Chen's body was intertwined with a golden dragon, a huge force rushed into the Primitive Dragon Sword! The two divine objects from the ancient Dragon Sacrifice Continent did not reject each other at all, and could even enlarge each other.

"metaplasia!"

In an instant, Long Chen did not have the slightest bit of preparation, the sword strike which had condensed the Origin Dragon Essence swept out under the three great rules, releasing a monstrous Sword Qi that broke through everything in an instant, the disintegrating power of the metaplasia, with the support of powerful God Power, instantly erupted with a destructive force that surpassed the heavens!

When the metaplasia collided directly with the primal chaos sword dao, it exploded right in front of Long Chen's eyes. Under the impact of the destructive power and the destructive power, although the metaplasia wasn't enough to completely destroy the Primal Chaos Law, the problem was, Long Chen, who had the Origin Dragon Palace, was not afraid of this kind of power anymore!

Amidst the brilliant light, he blocked the Primal Chaos Rules, but the suppression of the primordial laws, the crushing pressure, was completely suppressed inside the Origin Dragon Palace. No matter how strong the primordial rules were, encountering the Creation God Manifestation Weapon of origin level, it simply did not have the slightest bit of destructive power to Long Chen.

Long Chen ignored the cage of living beings, and the brilliant golden eyes instantly shot towards the Primordial Gold Coin. As for the Creation Black Hole, although it expanded out below his feet and unleashed its terrifying power, suppressing Long Chen at the same time as the Primordial Laws, it was at this very moment!

"Infinite Life-Death Tribulation!"

Origin Dragon Palace and Origin Dragon Yuan, tens of thousands of divine powers, top rules! With the fusion of the three great laws, the endless life and death tribulation would erupt. In an instant, the countless times stronger sword paths would be released by the Primitive Dragon Swords, and with an enormous amount of energy to support them, the level of the endless life and death tribulation could be imagined!

Bang!

In the blink of an eye, it collided with the grandmist gold medal above. The endless tribulation of life and death was endless, and the power was the strongest, as Long Chen was currently like an Azure Dragon in the ocean. Under the shocked gazes of countless Chaos Clan, his sword penetrated through the primordial gold medal, causing it to instantly explode into thousands of small cards.

Under the protection of the Origin Dragon Palace, the power of the Creation Black Hole's timely devouring completely surpassed Mo Xiaolang's Heaven Swallowing Fire Diagram, but even so, it still helped Long Chen escape. After breaking out of the prison of life, in that instant, Long Chen was already thousands of miles away!

Thus, the fight for the three deadly rules of the Lord of the Chaos was completely shaken off, and they were all in a state where they were completely unharmed. Their abilities were thousands of kilometers away from that of three months ago. And it was precisely this way that the Chaos Clans found it hard to believe!

"Impossible!"

She clearly remembered that in the previous match, Lord of the Chaos was only one of the relaxed rules. Long Chen was simply about to be destroyed, destroyed.

Now that his attack power had increased by several times, his lethality was even more exaggerated. But with Long Chen's God Creation Sword and his heaven defying sword, everyone thought that they were seeing things!

"In just three months, there's no way he could have made such progress!"

"The God said that he has the time rule. Maybe he can control the time. Maybe we passed three months, and he passed tens of thousands, or even hundreds of thousands of years."

"Then how powerful is the time rule?"

Even if there were seven Chaos Saints present, all of them were left speechless. The appearance of Long Chen breaking out of the prison of life just now was incomparably domineering and free from worry, showing that he completely possessed the strength to fight against the Lord of the Chaos at the moment!

"Could it be that this Long Chen has completely surpassed our level? How could there be such a heaven-defying person in this insignificant Myriad Worlds? Are we unlucky, or what? Why were there no such existences in the previous ten thousand worlds? "

Even the Primal Chaos Crimson Nimbus was helpless.

"What would father do?"

Chaotic Ghost Dance calmed down with great difficulty. They were waiting. Soon, another fierce battle between two evenly matched opponents would begin!

The Four Great Overlords also knew that Long Chen had invited them to battle against the Lord of the Chaos. The current Ten Thousand Worlds already regarded Long Chen as their leader.

In other words, this was the final battle of the Sacred War of Myriad Realms!

That was the Origin Dragon Palace, and that Primitive Dragon Sword was now like a silver divine dragon in Long Chen's hands.

Lord of the Chaos similarly traversed five thousand kilometers and when he arrived in front of Long Chen, his gaze was already serious and shocked.

"I can see that your origin level Creation Divine Artifact is a palace. I really didn't expect that the Creation Divine Artifact that possesses origin level still exists in the Myriad Realms. In a world where there is no origin level, there should be no origin level Creation Divine Artifact. "

"Isn't the Primal Chaos Realm a part of the Ten Thousand Worlds? Isn't it just origin level? "

Long Chen's gaze was indifferent. Chaos Clan was used to being aloof from worldly affairs, but what Long Chen wanted to tell them was that in reality, they weren't special in the slightest. They were also members of the Ten Thousand Worlds.

There was even a world that was separated by the Heaven-Devouring Tribe just like them, a world that existed in all ten thousand worlds. It might even be stronger than the Primal Chaos Realm!

It was even possible that the Ancestral Dragon's Origin Dragon Soul and the other similar worlds that Long Chen wanted would all exist in those worlds.

"That's right, the Primal Chaos Realm is a part of the Ten Thousand Worlds, I am too proud. So it made you. Unfortunately, I did not see you for the first time and I had the intention to kill you, resulting in you being unable to control yourself. "

Lord of the Chaos said.

Long Chen shook his head, and said: "Wrong, there will be a day when you will rejoice that you didn't kill me when you first laid eyes on me."

"I don't believe it."

"You'll believe it. Let the time prove it."

Long Chen's expression was indifferent. The Origin Dragon Palace had already given him a lot of confidence.

"I just want to know the secret on your body!"

Lord of the Chaos said all three at once, which was quite strange.

"Even like this, I can't do anything to you. I can only use my own limits to fight you."

Very quickly, he made a new change, a change that made Long Chen even more shocked. After this change, the Lord of the Chaos was no longer the Lord of the Chaos.

Once, the Starlord of Primal Chaos and the Chaos royal clan were able to transform into the founder of the Chaos royal clan, namely the Chaos beast.

That Chaos beast should also be the ancestors of Primal Chaos Realm and Primal Chaos Realm.

Presumably, he was also the creator of the Primal Chaos Realm.

But now, when Lord of the Chaos put away the three half-origin level Creation Divine Artifacts, returned to their normal state from their three heads and six arms, and then started to swell and undergo a new round of change, seeing this change, all the Chaos Clans immediately knelt down in the air in a fervent and sincere manner, paying their respects to him!

"The ancestor has arrived!"

The transformation of a Lord of the Chaos into a Chaos beast was a grand ceremony for all Chaos Clans. It was a precious scene that they would not see for a long time.

Long Chen had also seen the Chaos beast of the Chaotic Star Lord before, but they were obviously not of the same level. Although they looked similar, the Chaos royal clan had long lost the most important part of their bloodline, which was their power and inheritance. Therefore, although there were a lot of Chaos royal clans on the Dragon Sacrifice Continent and they also had three heads and six arms, they had lost a lot of power to support them.

The Chaos beast in front of him was enormous!

In the previous battle with the Lord of the Chaos, Long Chen had barely been able to see the shadow of a Chaos beast. And the Chaos beast that appeared this time was just as huge, to Long Chen, it was simply equivalent to a quarter of a Primal Chaos Realm!

In front of this Chaos beast, just looking at its blood-colored eyes, Long Chen felt as though it was as big as a continent!

RUU...!

Under the pressure of the Chaos beast, even the surrounding space was collapsing.

The dragon's scale that the Star Lord of Primal Chaos had transformed into was extremely conspicuous. Even though it was undoubtedly a Chaos beast, Long Chen felt that it had an extremely rich aura that belonged to a divine dragon!

Weng! *

Even just a single breath of time was enough to cause a windstorm to spring up in the starry sky!

Long Chen had no choice but to hide far away, otherwise, that battlefield would be completely controlled by his opponents.

How could Chaos Clan not go crazy at such a grand occasion?

"Long Chen!"

Just by shouting that name, it was as if thunder, shaking the entire Endless Territories. In front of this Chaos beast, Long Chen was just a tiny speck.

Within the Primal Chaos Realm, even if it was within the ninth level of the Primal Chaos Continent, everyone present was summoned by the Chaos beast and they all knelt down, filled with fanaticism and piety!

"Ever since I had the origin level and Divine Creation Equipment, I had never used it to my heart's content. I was powerless when I faced the powerful person you summoned last time. However, you gave me the opportunity to enjoy myself to the fullest. "

"So, actually, I have to thank you."

"However, even with this being the case, I will not show the slightest mercy to such a rare opportunity."

Long Chen said: "To tell you the truth, there will be even more chances for you to make a move in the future."

"Really?" "Then I'll have to look forward to it."

Only after Long Chen had retreated far enough away did he manage to see the true appearance of the Chaos beast. What was more, he saw that behind the Chaos beast, two pairs of enormous silver wings were actually condensing! They were metallic, shiny wings, and every single feather was practically a creation god artifact. Moreover, they were all at least the creation god artifacts of Order-level!

There were trillions of feathers on it!

This was Lord of the Chaos's divine artifact of origin level.

Chapter 3186 - Ancestral Wings

When this origin level Creation Divine Tool appeared, its dazzling degree in the starry sky had even surpassed that of the entire Primal Chaos Realm.

It was as if something that did not belong here had been born, and when it was born, it illuminated the entire world. Perhaps even the destroyed Dragon Sacrifice Continent could see it.

Silver, piercing through ten thousand worlds.

Under the contrast of those bright and beautiful wings, the originally rough and ugly Chaos beast seemed to become even more sacred, like a saint that could not be violated or desecrated.

Naturally, a dignified origin level God Creation Divine Equipment would allow the Lord of the Chaos's power level to increase explosively, just like Long Chen. As a result, Long Chen's advantage of being in the Origin Dragon Palace was completely gone.

Those gorgeous silver wings were incomparably huge. The Creation Divine Artifacts above Order-level had piled up into two pairs of wings that were the size of a world of primitive level.

Of course, although the Origin Dragon Palace restrains itself, it might not be any weaker than those silver wings. However, right now, the Origin Dragon Palace's greatest use in defending and providing the God of Creation Power, and these silver wings, in addition to defense and strength, are like a pair of blade-like blades.

From the looks of it, it seemed even better!

"On these wings, there is an aura that does not belong to Primal Chaos Realm. This is like real wings. "Who left them here?"

Long Chen's heart was filled with doubts.

The vast voice of the Lord of the Chaos descended once again.

"This is the ancestral wing!" Perhaps, this was left behind by the founder who created my Primal Chaos Realm. "From the time I took control of it till now, I have not used it with all my might. Right now, you are the only one who is suitable to be my opponent!"

Ancestral Wings!

"Could it be something left behind by the person who created this Primal Chaos Realm? That person should have also been devoured by the Heaven-Devouring Tribe. Only after the Eclipse Tribe had taken care of the Myriad Realm Ancestral God would they have the strength to contend against the Ten Great Ancestor Dragon. "

As a result, the Ancestor's wings were very extraordinary.

However, this was not the end.

Just at this moment, without saying a word, the Lord of the Chaos looked in the direction of the Primal Chaos Realm, and in a blink of an eye, a nine-colored light appeared in front of him. To the Lord of the Chaos, this object was as big as his eyes, but to him, this was the provenance corundum that was known as the Divine Master Continent!

The Chaos Treasures of the origin level.

"Boom!"

Under the will of the Lord of the Chaos, the provenance corundum suddenly fused in the direction of the center of his brows, turning into his third nine-colored eye. After it had fused, the entire boundless power of the provenance corundum, had also become the power of the Lord of the Chaos!

This was something that completely surpassed Long Chen in Lord of the Chaos.

On Long Chen's body, there was no such provenance corundum, and he was already destined to be at a disadvantage. Not long ago, he was still struggling to use the provenance corundum with Hundun Shenwu, but now, the entire provenance corundum had become a part of the Lord of the Chaos.

It seems that Lord of the Chaos still has complete control over the provenance corundum.

Under the light of the Ancestral Wings and the provenance corundum, the current Chaos beast was terrifying to the point that no words could describe it. All the Chaos Clans were still kneeling in the air and on the ground, using their most devout gaze to look at them and roared with passion. The excitement in their hearts could be imagined.

"Ancestor!"

"The Ancestral Founder has descended, sweeping across all worlds!"

"No one can stop our Chaos Clan's footsteps!"

In the midst of their cheers, the Chaos beast had completely gathered the power of the Ancestral Wings and provenance corundum into his innate primordial spirit s, surpassing Long Chen in numbers once.

"I only have one move, if you can't block it, then just admit defeat!"

"Otherwise, life and death isn't something that I can control."

Lord of the Chaos's domineering words only caused slight ripples in Long Chen's heart.

"I already knew how terrifying he was, but I still came to challenge him in order to break this mental barrier."

"How far have I come? Only I know. "

"Don't let the appearance blind you."

"The Origin Dragon Palace helped me the first time. It contains endless inherited blood essence and the Origin Dragon Soul. I might not be suppressed!"

Many thoughts, even under such a disadvantageous situation, had given Long Chen great confidence, so much so that in front of such a huge Lord of the Chaos, he was not weak at all, and was instead tit for tat!

In that instant, the power of the provenance corundum at the center of the Lord of the Chaos's brows combined with the power of the Innate primordial spirit and surged through his entire body. In that instant, all of the Innate primordial spirit gathered onto the Ancestral Wings!

The most terrifying disaster in the world came at this moment!

For a time, it could be said that the entire world went silent, and countless stars began to crack apart.

In the blink of an eye, it transformed into a thousand illusions that surrounded Long Chen. The most important thing was that there were now more than a thousand Ancestral Wings, which in comparison, made Long Chen appear so small that he did not even exist!

"Primal Chaos Diagram!"

These were the rules of the primordial chaos.

Using the Primal Chaos Laws in this situation meant that the ones Lord of the Chaos was most proficient in were still the Primal Chaos Laws. He was not the most proficient in primordial chaos and good fortune.

This Primal Chaos Diagram was very similar to the Chaos diagram of nine colors in the Primal Chaos Realm, but it was also different. Chaos diagram of nine colors used to defend, could be considered quiet, but it would still take a long time to arrange a formation. However, this was different, it was violent, instantaneous, and destructive! But just at that moment, the power of the Primal Chaos Diagram far surpassed that of the Chaos diagram of nine colors!

Moreover, this was not something that could be solved just by Mo Xiaolang devouring the sun. Instead, this was the source of power for the Primal Chaos Diagram, the Lord of the Chaos! For a moment, Long Chen came to yet another boundless world.

It was obvious that this was a change in the Ancestral Wings. Although it was a Creation Divine artifact of Order-level and above, because it was a part of the Creation Divine Equipment of origin level, it possessed the most terrifying destructive power. Furthermore, there were laws of primal chaos on its surface!

In the blink of an eye, endless calamities erupted!

Nine types of chaos elements, tens of trillions of creation artifacts! Inside the Primal Chaos Diagram, it was like a world which had just opened up to heaven and earth, a world where nine types of chaos elements were wreaking havoc! Momentarily, a storm! Thunder! Flames! Ice Mountain!

The nine elements of Primal Chaos tore open one world after another as they violently clashed against each other. Compared to the Primal Chaos Diagram, Long Chen was simply too minuscule.

Bang bang!

What Long Chen had endured was his life's most violent attack!

He had to admit that if he did not have the Dragon Palace to protect him, he would have been reduced to ashes by now. Let alone two lives, even a hundred lives would be destroyed by the Primal Chaos Diagram!

In this world, it was as if Chaos beasts were everywhere, as if they were the Ancestral Wings everywhere! Invisibly, the myriad Manifestation Divine Weapons would suddenly form the Ancestral Wings, turning into enormous blades that tore through the heavens and earth, slashing towards Long Chen! Once struck, even the Dragon Palace would be torn apart!

RUU...!

Even the flames of his life couldn't stop Long Chen's severe injury!

Life and death were on this line!

In front of his eyes was a world of destruction, an array formation that meant certain death.

The shouts of the Chaos Clan echoed in his ears, while the harsh words of the Lord of the Chaos echoed in his ears.

Everyone in the time tunnel and the Divine Kingdom had their eyes on him.

And there was also the youth who had lost his memories. He needed Long Chen.

"I can't lose."

"The Lord of the Chaos isn't that scary either."

At least, by relying on the Origin Dragon Palace, Long Chen was able to endure the first wave of the enemy's most terrifying attacks! Just as the wind was blowing, Long Chen clenched his teeth!

In his heart, the Chaos beast appeared!

The Chaos beast was simply too big.

He was omnipresent, and ignored all of Long Chen's attacks. He only wanted to destroy Long Chen and make him admit defeat!

He had already lost one more time, and like before, he could not afford to lose anymore. If he lost again, the entire Chaos Clan would not be able to raise his head from the Ten Thousand Worlds!

"God Lord!"

Long Chen simply gave up on resisting. Gathering all the energy of the Origin Dragon Palace, he used his own body to withstand the attack of the Primal Chaos Diagram, and then gathered all of the Origin Dragon Essence on the Primitive Dragon Sword. At that moment, a golden radiance exploded from the Primitive Dragon Sword.

"Go over there! Future! "Life Transference Technique!"

A sword slashed out!

The instant when all of the power poured down, the moment when Long Chen was the weakest, the Primal Chaos Diagram had instantly surpassed the Origin Dragon Palace, destroyed Long Chen, and caused him to die once again!

"Resurrection of the dead!"

However, every time he died, he would become a new disciple. The reason why Long Chen used the future life changing technique at the price of a single life was so that he could determine the outcome of the battle in one move! After he died and was reborn, the Dragon Palace once more helped him block the slaughter of the Essence of Primordial Chaos and the Ancestral Wings!

Extremely thrilling!

BOOM!

Long Chen was swept away by the Ancestral Wings, and then smashed into the Primal Chaos Diagram!

"You still have your life!"

A warning voice came from the Lord of the Chaos! This meant that if you didn't admit defeat, you would be destroyed.

"You too!"

Long Chen suddenly sneered, the Primal Chaos Diagram was unable to stop the miraculous fusion of the three types of rules, and currently, the past life changing technique was using an unbelievable speed, which was something that could gather one of Long Chen's life. In a short period of time, it broke through all the array diagrams, appeared outside the array, and appeared in front of the gigantic body of the Chaos beast!

Earlier, the boundless power of the Primal Chaos Diagram had covered up these rules! As a result, Lord of the Chaos did not sense it, but the moment it appeared, it gave him a fright.

"Withdraw!"

The Lord of the Chaos did not care about Long Chen's last struggle to live. He took back the Ancestral Wings and placed it in front of his eyes to protect himself.

Chapter 3187 - Origin

Past and future life changing techniques.

Karma, fate, change.

The three great natural laws had been perfectly fused.

The might of this strike, was something that only existed on a regular basis. Even in the face of the Lord of the Chaos's most top-notch Primal Chaos Diagram, it had already surpassed it. It's just that it's not that big of a deal.

Now that the Lord of the Chaos had completely suppressed Long Chen in terms of strength, whether Long Chen could resist would depend on the future life changing technique that he had cast using the cost of his life!

"Break!"

Lord of the Chaos's Ancestral Wings that were closed off in front of him were instantly opened, and all of a sudden, the nine types of chaos elements erupted, blended together, forming a world-class destructive force that struck the Life Transference Technique of the past!

The Lord of the Chaos was going to make Long Chen's last hope go extinct!

However, the unexpected thing was that even though the Lord of the Chaos knew these rules, he was still bewitched by them. The chaos elements could destroy almost all the rules in this world, but they could not break the karma and fate rules that belonged to the Ancestral Dragon.

Karma and fate were both intangible.

The cause and effect, endless destiny.

The future life saving technique would disappear before the chaos elements, appear after the chaos elements, and right in front of Lord of the Chaos. At this time, the Lord of the Chaos, whose heart was trembling for the first time, could only use those Ancestral Wings to protect himself!

"Buzz ~ ~ ~"

In front of the Lord of the Chaos, the Life Transfer Technique of the past suddenly activated. After activating it, it was actually big enough to surround the entire Lord of the Chaos. Even though the Lord of the Chaos used the Ancestral Wings to protect himself, it was still easily surrounded by the Life Transfer Technique of the past.

"Success!"

At least, it had already descended upon the Lord of the Chaos. The seemingly simple rules had only just unleashed their peerless might!

Of course, this was also the time when the Primal Chaos Diagram was at its most berserk!

Soon after, Long Chen clearly knew in his heart that whoever won, depended on who could persevere on. If he could not persevere on, he would be destroyed, and the Lord of the Chaos would be destroyed, and he would be turned into a cripple just like Hundun Shenwu!

Both sides knew that this was a fatal blow to their opponent!

"Die!"

The Lord of the Chaos knew what would happen to his son, so when he went on a rampage, all of the power poured out of his body and smashed onto the Primal Chaos Diagram, the laws of primal chaos created a world of destruction. Millions of times he tried to break Long Chen's defenses, but he managed to send Long Chen flying one hundred thousand miles each time! Even though it was blocked by the Origin Dragon Palace, it was still extremely uncomfortable!

But even so, Long Chen's eyes were still strong, full of hope and will to win. He did not retreat at all!

"God master, if you can't hold it back, just admit defeat as soon as possible. Don't force yourself to the same state as your son."

Long Chen's voice pierced through the Primal Chaos Diagram, causing all the Chaos Clans to be stunned for a moment.

And now, the Divine Master had also fallen under Long Chen's rules?

For a time, the entire Primal Chaos Realm was completely silent. Everyone was almost suffocating as they watched this battle! Look at the gigantic Chaos beast! that endless Primal Chaos Diagram!

Suddenly, the Chaos beast disappeared and the Lord of the Chaos appeared again. The Ancestral Wings were as small as his body and were still behind him. But the current Lord of the Chaos had lost his previous tyranny, and the expression on his face was somewhat ugly!

He was resisting the past and future life changing techniques!

But how could he resist such a heaven defying rule?

The rules were still sweeping through his entire body, and the moment he was completely controlled, it meant the moment they took effect. Lord of the Chaos must know, he would be like Hundun Shenwu, because if he did that, the entire Chaos Clan would not just be unable to raise his head, but would instead be destroyed!

It was a humiliation!

But, Long Chen had not lost!

The Lord of the Chaos was useless. All of its power had descended onto the Primal Chaos Diagram. The Origin Dragon Palace didn't attack, they were only defending, and in a short period of time, it would be very difficult to break through this origin level's God Creation Artifact and kill Long Chen!

"God, it's almost over."

No matter how powerful the impact of the Ancestral Wings was, under this heavily injured state, Long Chen was extremely weak. However, his fighting spirit was still strong, and his proud face and heaven defying recovery ability could not help but move the Lord of the Chaos!

Previously, Lord of the Chaos had a lot of words to say, but now he was completely silent. Perhaps, Long Chen would be able to kill him soon, but with his tenacity, he estimated that he would still be able to hold on for a period of time! However, he himself had reached the limit!

Lord of the Chaos is not willing! He was absolutely unwilling!

It was just that the tough guy in the Primal Chaos Diagram, with her arrogant expression and cold smile, was really powerless to do anything. If it wasn't for the fact that she had a chance of survival in the past, and if the opponent didn't have two lives, he definitely wouldn't have lost!

However, the other side just so happened to have the most heaven-defying rules, just two lives! In this way, even if a Lord of the Chaos whose strength surpassed Long Chen's after merging with him, he would not be able to defeat Long Chen in a short amount of time under the protection of his opponent's God Creation Art!

All of these factors caused his heart to feel desolate right now, even if he didn't believe it. Thinking of Hundun Shenwu's fate, coupled with such a strong willpower impact, and the power of the Heavenly Netherpassage Realm ...

In the silence, three words rang out.

"I admit defeat!"

These were the three words that the entire Chaos Clan did not wish to hear. He had admitted defeat. This was the only way he could preserve her strength, and only then would Long Chen be able to keep her promise and stop the future life changing technique.

When she admitted defeat, the Primal Chaos Diagram was released. Long Chen was also struggling to survive. When the crisis was over, he let out a deep breath and retrieved his life.

Then, he also summoned back his previous life changing technique. This was also what the Lord of the Chaos could do for a while. If it was Hundun Shenwu who was hit by this attack, he would not even have the time to take it back.

It ended!

In the endless starry sky, everything became quiet. Long Chen's entire body was ignited with fire of life, he faced Lord of the Chaos who was hundreds of thousands of miles away, and looked at him. Lord of the Chaos's body was currently trembling.

He had lost. Although he was unwilling, he still acknowledged in his heart that this time, he had lost!

He was not weaker than Long Chen, but Long Chen's future techniques, which were unstoppable. Moreover, he was resisting the Origin Dragon Palace and could even bring about a revival ...

All of these had contributed to Long Chen's victory.

Only, this fact was an unimaginable blow to all Chaos Clan.

Being defeated by Little Cat was already a huge shock. Long Chen was originally a defeated opponent of the Lord of the Chaos, but now, even the Lord of the Chaos had personally admitted defeat. This truth, simply caused the Chaos Clan to be completely disheartened, to the point where he could not even lift his head up within the boundless realms.

He had originally descended into the Myriad Worlds with great power, looking down on all living things with arrogance and arrogance.

The faith was now destroyed, the face was covered with dirt, and the face was swept across the floor.

The news could not be concealed, and thus the outcome of the battle had been decided. Within the Ten Thousand Realm Divine Demons, the news had already spread quickly, and many people within Long Chen's Divine Kingdom naturally knew of Long Chen's victory!

All of a sudden, the entire world was cheering!

The Ten Thousand Worlds War had finally come to an end.

Long Chen had truly won the dignity of the Myriad Realms.

"I ..."

She stared at Long Chen with her bright eyes, her mind still thinking about the first battle she had with Long Chen. At that time, even though Long Chen had defeated her, she didn't have the slightest intention of looking down on him.

But now, the time was too short, and Chaos Clan who was laughing previously could not laugh anymore. The two people she worshipped the most, were defeated by Long Chen in succession!

That man had become the nightmare in her heart!

Looking at Long Chen's calm face, she became lost in thought for a long time.

"God Lord." Long Chen was not very proud to have defeated his opponent this time. He knew that Lord of the Chaos was not weak and was an opponent worthy of respect.

"It was a complete and ironic battle, and you won it all in the end. You should be the one humiliating me right now."

Lord of the Chaos's expression was a little lonely. Today's matter was similarly a blow to him.

"God Lord, please do not think too much. In reality, I still have many things I want to discuss with you today. We are friends, not enemies."

Long Chen said sincerely.

"Didn't you want to know about the Primordial Laws and the Creation Laws? That's right, what I'm cultivating is definitely related to you. Since I've lost, you should ask as you promised. Naturally, I keep my promise. "

The Lord of the Chaos was very straightforward. After he finished speaking, he took a glance at the Chaos Clan, and saw that many Chaos Clan were standing outside the Chaos diagram of nine colors. The Lord of the Chaos waved his hand and said, "Go back."

"Yes!"

No matter how heavy their hearts were, they still had to go back.

Waiting until all the Chaos Clan s had returned, only then did Lord of the Chaos say: "So it's like this. If there's any problem, just say it out."

Other than the matters concerning the second ancestor, Long Chen would also discuss about the Ancient Giant Demons with him. Of course, since the matters of the second ancestor were the priority, Long Chen turned into a Great Void Cosmic Dragon in front of the Lord of the Chaos, followed by the Primordial Blood Spirit Dragon and so on.

"God, did you see that?"

"I see. The symbol on my body and the creature it depicts are you. However, this symbol of mine is also a continent. Could it be that this continent is your home? "

"That's right." Long Chen nodded. It seemed that the Lord of the Chaos had gotten a little interested, so he continued to ask: "God Lord, then, what relationship do you have with this symbol?"

Lord of the Chaos thought for a moment, then said, "To be honest, I already forgot. Memories from tens of thousands of years ago were very vague. I only remember that in the past, I didn't care about the grandmist rules or the rules of Creation. Are you satisfied with saying this? "

"Then, what exactly is the reason for such a change?"

Chapter 3188 - second ancestor

Letting Long Chen know everything about the Runes, was the bet made before the battle between the two.

With the current status and identity of the Lord of the Chaos, even if he was unwilling in his heart, it would still be useless. Under Long Chen's intense gaze at this time, the only thing he could say was: "Fine, then I'll tell you the truth."

He pointed to his Heart of Rules and said: "There is a drop of blood here. It was a drop of blood that I had painstakingly finally managed to produce in our Primal Chaos Realm. A very, very long time ago, I knew that there was a foreign object in a certain location in the Primal Chaos Realm but it took me millions of years to find it. "

To Long Chen, a single drop of blood was enough to explain everything.

That must be inherited blood essence!

second ancestor's Inherited Blood Essence!

Now, he did not even know the actual name of the second ancestor but he did know that it was right in front of Long Chen, among the's Heart of Rules. Realizing this, Long Chen could not help but feel excited in his heart.

However, the Lord of the Chaos continued to speak, "Afterwards, I also spent a lot of effort to research, control, and finally transferred it to my Heart of Rules through the similarities between me and it. From then on, I spent millions of years researching it, and with the existence of the primal chaos rules between me and it as a foundation, I discovered the Primordial Laws and the Creation Rules."

The Lord of the Chaos had its own laws of chaos, and the legacy of that drop of blood also had its own rules of chaos. This way, Long Chen could basically be sure that the second ancestor's rules were chaos, grandmist and good fortune.

These three rules all belonged to the primordial era when the heaven and earth was first established.

Speaking till here, the truth was already clear. Everything related to Lord of the Chaos and Dragon Sacrifice Continent basically came from this drop of blood.

"It's pretty much like that. Why, Long Chen, after hearing this, it seems like this thing is very important to you, so you want to kill someone to steal their treasure right?"

Lord of the Chaos crossed his arms. Now that he had returned to Chaos Clan, he had more or less recovered his vitality, and the fighting spirit in his heart was probably ignited once again. He could see the determination to destroy in Lord of the Chaos's eyes.

Long Chen was actually calculating in his heart.

"With the Lord of the Chaos's primordial laws, he knows the power of the past, so it would be difficult to lock onto him again. He could cross over ten thousand worlds at any time. If he was forced into a corner, the entire ten thousand worlds would be thrown into chaos. "I may not be able to get it in the end, but it is not worth it."

However, he also had an extreme thirst for the inherited blood essence of the second ancestor! The first ancestral dragon and the second ancestor were both the peak of the Ten Great Ancestor Dragon and the most mysterious. They were the foundations of the Dragon Sacrifice Continent and had transcended the rest of the Ancestral Dragons. Whether they could truly inherit the blood essences of these two Ancestral Dragons was the key to Long Chen's future!

His goal was to inherit all of the ancestors' inheritances aside from the Heaven Devouring Dragon.

The second ancestor was a crucial step in his dreams.

The Lord of the Chaos gave him a difficult problem at this moment.

If Little Cat could help him now, that would be great. But with the second ancestor's Inherited Blood, Long Chen was not sure if Little Cat would have other thoughts. After all, he had not returned to Long Chen and the others' big home.

Just as Long Chen was hesitating, the Lord of the Chaos suddenly laughed loudly and said, "Honestly speaking, I understand how you are feeling right now. He wanted to, but was hesitant. Most things in the world were very hard to deal with. To tell you the truth, until now, I've found that I can no longer use this drop of blood. It doesn't belong to me, and I can't continue digging either. Your strength will only be a nightmare to me. Therefore, even if I cannot use it, it will be of great use to you. Even if you want me to gift it to you, it is impossible. "

was pleasantly surprised by the first half of these words, but the latter half of his sentence directly cut off his naive thoughts.

"You want it, unless you want my life. If you want to fight with my life, then you have to be prepared for a huge loss. Our Chaos Clan is hot-blooded and loves to fight. You are the only one capable enough to speak for yourself in all realms.

Speak, Lord of the Chaos is preparing to return to the Primal Chaos Realm, he knows that Long Chen will at least not take part in a life and death battle right now. The more they stood at this level, the more they knew just how strong they were. With their abilities, they could easily control the lives of trillions of lives and deaths, and the destruction was simply too great. Both of them had xanshen backing them, so neither of them dared to force the other to death.

"Wait."

Long Chen called out to him.

"What, the attraction of this drop of blood is so huge that you can't even resist it now?" The Lord of the Chaos's divine might had descended once again and was already prepared to go against Long Chen. The situation had changed greatly and the solemn atmosphere made it seem like the two of them were about to clash again.

"No. Let's not talk about the matter regarding this drop of blood first. Actually, I have another important matter that I need to explain to you today. "

"Speak frankly."

"Do you know of ancient Giant Demons?"

Lord of the Chaos immediately shook his head. When the Primal Chaos Realm was sealed, there would be no Ancient Giant Demons at all.

Long Chen then told the story of the Ancient Giant Demons to the Lord of the Chaos from beginning to end.

Of course, nothing about the Heaven-Devouring Tribe could be said right now.

In Long Chen's description, the Immemorial Giant Demons had no way of proving their origins, but their natures were cruel, and their mission was to destroy the xanshen, to devour the common warriors themselves. They were the greatest enemies of the Allworld.

Now that you have also come to the Ten Thousand Worlds, that is naturally the goal of the Ancient Giant Demons. After three months, if the Ancient Giant Demons appear, they might attack you guys, but if you want to protect the entire Chaos Clan, Divine Master must be prepared. We are not too clear on the exact strength of the other party, but, making more preparations is always a good thing.

Lord of the Chaos's expression was skeptical from start to finish. After hearing what Long Chen had to say, he asked back, "Why should I believe you?"

Long Chen smiled and said, "Divine Master, you can trust me completely. Three months is very short. When that time comes, the truth will be revealed. Whether or not I am lying to you, the truth will be revealed immediately. "I actually hope that what I've told you today is a lie! To be honest, I feel that

you're really unlucky. After going through so much trouble to return to the Ten Thousand Worlds, you've encountered such a destructive disaster. It's just that you guys are unable to return right now, so prepare for battle."

After hearing all that, the Lord of the Chaos did not say anything else. Long Chen was right, it was just to make preparations, he would not lose anything, and Long Chen did not have any reason to fool him.

"Let me calm down a bit. If you have any doubts or plans, I will contact you." When the God said this, he was obviously very helpless. He was really unlucky. After arriving at the Ten Thousand Worlds, he thought that he could take over the Ten Thousand Worlds and rule over all directions. Unexpectedly, a little kitten came out, then Long Chen. And now, the mysterious and brutal ancient Giant Demons had invaded them!

The Immemorial Giant Demon that Long Chen had described was like the world of gods and devils, the destroyer of all worlds. This kind of existence, the possibility of even seeking peace and joining forces, seemed to be very unlikely to exist.

"The lips go cold, the teeth go wrong, God Lord should never ally with the Ancient Giant Demons. If the Ancient Giant Demons massacre the entire world, and then stay in the Chaos Clan, does God Lord think that there is still a possibility for the Chaos Clan to exist?"

Before this, Long Chen had to remind him not to make any foolish decisions.

His heart was heavy, and in the blink of an eye, he disappeared before Long Chen's eyes. He returned to the Primal Chaos Realm, which was currently sealed away.

Other than the Chaos diagram of nine colors being devoured by Mo Xiaolang, there were no other changes.

Looking at the Primal Chaos Realm, in order to save time, Long Chen hurried back to the third floor of the Tower of Time!

This time, the gains from defeating the Lord of the Chaos, no matter what, were huge! The might of the Origin Dragon Palace far exceeded anyone's imagination, pushing Long Chen to a whole new height.

"Unfortunately, I am not able to obtain the second ancestor's inherited blood essence from him today."

Long Chen really wanted to do this, but the uncertainty was too great, especially the fact that he had already revived from the dead once. Furthermore, if they forced their opponents to a corner, under Long Chen's lack of absolute control, it would not be appropriate for them to rashly attack.

"At least, with a target, I can confirm where I am now. Moreover, the Lord of the Chaos is useless as well, I'm just afraid that I might be stronger. It was safe to keep it with him. Wait until we are more confident, then we can make our move. "

With regards to the matter that he couldn't eat the hot tofu anxiously, Long Chen had already slowly calmed down.

Currently, there was still no news of the Ancient Giant Demons in the entire Myriad Realms. Instead, the news of Long Chen defeating the Lord of the Chaos caused a huge commotion in the Myriad Realms.

"There are still two hundred years left, and I still have to become stronger as my top priority!" Since it's difficult to break through to the next realm, we can only start from the rules. "

Now that he was a Extreme Realm Divine Emperor, becoming a Hierarch was equivalent to other The Supreme Divine of the Extreme Realm reaching a higher realm. Naturally, it was extremely difficult. Probably not even a thousand years.

When Long Chen calmed his heart and focused on the rules, he quickly discovered that although he was very satisfied with his current strength, it was undeniable that he had reached a bottleneck in both terms of realm and rules.

In terms of laws, the Eternal Whirlpool could be considered a mechanism for time while the other six rules could be considered a mechanism for time. As for the other six rules, they could all be considered a mechanism for time while the other six rules could only be considered a mechanism for time.

For example, the deeper one went into the Edicts of Slaughter and Life.

Only by going deeper would one have more possibilities to fuse with them.

However, what gave him a headache was that after fusing, it was difficult to make a breakthrough on a single rule. This was because fusing with a single rule was just too powerful. It was very likely that he made a breakthrough on a single rule, and his power was actually weaker than fusing with a single rule!

Thus, in terms of individual rules, one must improve tremendously.

Chapter 3189 - Bottlenecks

Two bottlenecks.

Two kinds of difficulties.

The disaster of the Primordial Giant Demon had already started to spread invisibly. So as time passed, Long Chen felt a little headache.

Even if he possessed a power that the entire Ten Thousand Worlds xanshen admired, as though he was truly unrivalled in the Ten Thousand Worlds, but in Long Chen's heart, he understood that this was not enough.

The ancient Giant Demons were like hungry wolves or a storm that engulfed the entire world. Only forces of the same level could stabilize the situation.

Once the Eclipse clan was alerted, that would be the most terrifying time. Even the current Cat was in despair, to say nothing of others.

Therefore, in this quiet moment, the pressure in his heart was greater than anyone else's.

Forget about the common folk, at least amongst the people around him, Ling Xi, Mo Xiaolang, Li Xuanji and Cat

And there was also Long Yan, who had just grown up.

She hadn't really seen the world.

In the final battle, he had to win, he couldn't lose.

Losing meant the destruction of everything.

It was precisely because he couldn't lose that he fell into nervousness and confusion when he spent a hundred years and came up empty-handed.

Vaguely, the demonic figures that filled the sky and the unrivalled creature that had engulfed the entire myriad worlds had descended. From the looks of it, the awakening of the Archaic Giant Demons meant that the descent of the Heaven-Devouring Race would not be too far off!

It could even possibly appear in ten thousand worlds tomorrow.

It was possible for even Long Chen to be discovered.

Any one of them could take Long Chen's life, destroy all the people who protected him, and slaughter The Dragon God Clan.

"I won't allow it!"

A man should be courageous. Cursing and escaping were all acts of cowardice. It was precisely because of this that Long Chen wanted to have the strongest power to fight a fierce battle with the Immemorial Giant Demon and the Heaven-Devouring Race.

From the beginning to the end, he wasn't afraid of death.

"Take a break, it's useless to force yourself. Why don't we go for a walk?" Maybe I'll be able to relax and gain something unexpected. "

Seeing him so anxious, Ling Xi frowned, his face full of concern.

"Don't worry!"

For the outside world, there were only two months left.

"I feel that you are too entangled with time. It is possible that a hundred years is no different from a moment to you. A hundred years of waiting might not be equal to the Transcendence in an instant. "

Ling Xi's words caused a light to shine in Long Chen's eyes. After being in silence for so many days, perhaps what Ling Xi had said was the answer that she wanted.

"Absolutely."

He was certain that even if he had waited 150 years, he might not be able to get anything out of it.

Thus, he had to enter the battlefield.

"If the archaic Giant Demons were to move out, they would do something in less than two months. Now, the four Chief Sovereigns had spent as much time as possible to lay out some of the formations. I should walk around and see if there's any movement. "

"I'll accompany you." Ling Xi held onto his arm, as though they were first lovers, a pair of bright eyes was still filled with adoration towards Long Chen, love and worship merging together.

"Let's go."

Ling Xi's God Creation Art, the Door of the Universe, was able to play a huge role today, especially after Ling Xi reached the realm of A Highgod in the Perfection Stage. Her comprehension of the Primordial Laws was extremely deep, and the Door of the Universe was merely a medium through which she could become like the Lord of the Chaos.

"Where to first?"

"Go to the Ancestral Star and return the Ghost Blood Curse and the Blood Death Curse to her."

"Alright."

This was something that he had promised Gui Qi, something that he couldn't go back on. Moreover, the arrival of the ancient Giant Demon should also be a warning to her, because it might affect the ancestral star.

Even other worlds that were still separated.

It was just that Long Chen was currently incapable of figuring out where those worlds were.

"You're finally here."

On the Ancestral Star, Gui Qi saw Long Chen.

"It's even more impossible to guess what level of cultivation you are at right now."

Long Chen discussed recent events with her in detail. In fact, Ling Xi and the others were also connected to Gui Qi, so she had a basic understanding of it. Therefore, Long Chen gave the Ancestral God Creation Equipment that he had borrowed previously, back to Gui Qi for those that he could not use, such as the Ghost Blood Curse, the Ghost Curse, and the Blood Death Curse.

Mo Xiaolang was already in control of the Flaming Light Flag so he didn't need the Ghost Curse anymore.

"After losing the Origin Ancestor, the Ancestral Star is not as strong as it used to be. I was unable to grow up, so I have to rely on you for everything."

Gui Qi said worriedly.

"Since that's the case, then go to the Tower of Time and inherit the Origin Ancestor's inheritance as soon as possible. On the side of the Ancestral Star, if there are any problems, I will make the arrangements. "

Gui Qi was overjoyed, and daintily said: "Thank you! "Good man."

The Origin Ancestor was defeated by Long Chen. Without the Origin Ancestor protecting the ancestral star, Long Chen had the responsibility of protecting it.

After settling the matter of the Ancestral Star, Long Chen stayed for a few days, ignoring the approaching time. One day, he suddenly remembered something.

"Xiao Xi, do you still remember when a Hierarch went missing in the beehive in the universe? No news of him since then."

"Of course I remember. In the depths of the beehive in the universe, even Heavenly Dao Saint Emperor wouldn't dare to enter that place. Therefore, even if they were to go missing, no one would dare to look at them. "

"I used to be anxious about other things, but I didn't have the time or the strength to go in. Now that I have the protection of the Origin Dragon Palace, I can give it a try. Maybe it has something to do with the ancient Giant Demons. "

Ling Xi hesitated for a moment before asking, "What if it has something to do with the Heaven-Devouring Tribe?"

Long Chen's heart shook. He thought for a moment, then said while shaking his head, "Since the Eclipse Tribe is asleep, it shouldn't be in a place that we can see. No matter what, there was one possibility, and he had to go take a look. "Let's go."

The present was not the past. Naturally, it could not be generalized.

With the Origin Dragon Palace's origin level and the Primitive Dragon Sword in his hands, Long Chen had already surpassed the Heavenly Dao Saint Emperor by too much.

After almost two days of time, Long Chen neared the Universe Honeycomb, which was also the Upper Firmament. When he came here once again, he couldn't help but marvel at the mysteriousness of this place. Perhaps with his current abilities, he could directly destroy the entire Pangu Continent, but he wasn't confident in destroying this Upper Firmament.

Long Chen let Ling Xi return to the group of Tower of Time, he used the Origin Dragon Palace to protect himself in secret, told Heavenly Dao Saint Emperor and the others a little, and then rushed directly towards the depths of the Cosmic beehive.

Thinking back to when Long Chen and the three Hierarchs were fighting to the death here!

Right now, he was already as strong as a true Ten Thousand World Sovereign.

As he went deeper, the shallow environment did not have any effect on him at all. He was already rushing towards the depths of the Universe Bee Nest, but Long Chen did not make too much of a scene as he secretly went deeper, breaking through layers after layers of illusions.

Perhaps it was because Hierarch Shen had disappeared, but very few people from the Upper Firmament would come here to train. The Divine King's Divine Emperor s he met did not dare to rush in.

Long Chen passed them, quietly arrived at the place where he was fighting with Notre Dame de Nine and the others.

"There really is something deep in there!"

The more powerful one's body reached, the more acute the power of will would be. In fact, it could even be called intuition, Long Chen had not only locked onto the position of this thing, he even faintly felt its strength!

"It's roughly equal to the Beginner's Realm Hierarch, and should not be the Heaven-Devouring Race. And its position within the hive, isn't too central. "

After getting a target, Long Chen continuously flashed. At this time, he had already entered the deepest part of the beehive in the universe, where the Hierarch had approximately disappeared at that time.

Long Chen had almost led him to this position.

When he arrived at this place, Long Chen suddenly stopped. The surroundings were already filled with illusions that had come from the beehive of the universe, but Long Chen was now proficient in the Heavenly Netherworld, so illusions were nothing to him.

The problem was that his expression had changed slightly.

"What's wrong?" Li Xuanji hid in his body and asked.

"It really is the smell of an ancient Giant Demon. The disappearance of that Hierarch at some point in time clearly has something to do with this ancient Giant Demon."

"Didn't you say that it is roughly equal to Beginner's Realm Hierarch? How can you deal with the other Beginner's Realm Hierarch so quickly? Could there be an even stronger expert that your sister can sense? "

"We'll know when we get down."

Long Chen sneered. He had already locked onto the location of the Ancient Giant Demon.

"Xuanji, help me expel these illusions and I'll leave it to you."

"No problem!"

In terms of hallucinations and changes in the rules, Li Xuanji was basically equal to Long Chen. With her making a move, Long Chen could focus even more. Otherwise, if he was distracted and had his illusions entangle him, it would be troublesome if that fellow escaped.

Currently, both Li Xuanji and Ling Xi were very strong and each of them was proficient at it, so there was no need to mention how happy Long Chen was.

Both of them could be of great help.

"It's done."

Although she did not exit Long Chen's body, she had already focused on handling the various illusions. Even the wind blowing from below could affect the laws of the illusions in the Hierarch.

"Let's go!"

Without saying a word, Long Chen sped up abruptly this time, and advanced with the greatest speed possible. It was simply surfing against the wind and waves, and the billions of illusions flashed before his

eyes. Countless sad and terrifying scenes flashed before Long Chen's eyes, and the illusion of the universe's beehive simply rose to the extreme, because this place was practically the core position.

However, even if there were billions of rules for the Hallucination Illusion, Li Xuanji would still solve them all for Long Chen, so that Long Chen's attention would completely be focused on the Primordial Giant Demon!

That's right, Long Chen felt that his opponent was an Ancient Giant Demon. Not only that, it wasn't a Primal Sky Demon, an Emperor Demon or a Primal Chaos Demon, but a type of Demon that Long Chen had never seen before.

Suddenly, Long Chen broke through countless illusions. In the depths of the universe, in a field of white mist, facing the Ancient Giant Demon face to face, was an endless expanse of white mist. Every drop of this mist was simply an illusion of a world.

This white fog was mostly emitted from this ancient Giant Demon's body. His gloomy and cold armor seemed to be soaked through as it constantly emitted this fog outwards, creating an endless illusion.

It was another ancient Giant Demon that had awoken early!

This caused it to be difficult for Long Chen to even see the other party's appearance. All he could grasp was that silver dragon's scale, and probably a pair of gigantic wings!

"Who is it!"

Long Chen's intrusion naturally alarmed him.

Chapter 3190 - Eternal Huanmo

The illusions filled the air.

In the depths of the universe, endless white mist swept out, isolating this place from the rest of the universe. The Ancient Giant Demon also took up at least half of this world's space.

Weng! *

The moment he said that, the entire space seemed to be filled with the force of the world collapsing.

Without saying a word, with his current ability, dealing with an archaic Giant Demon, who was the Elder of initial state, was a small matter!

"Eternal Whirlpool!"

With the engulfing of the laws of time, everything around him was instantly thrown into Long Chen's control of time. The Eternal Whirlpool even passed through this world, directly covering half of the universe's beehive.

Within this range, the Primordial Giant Demons that were completely under Long Chen's control would have no chance of escaping.

Under the pressure of time, the Primordial Giant Demon instantly felt an enormous pressure. At the same time, under Li Xuanji's dispersal, that environment-like mist was finally expelled, and the Primordial Giant Demon before him, revealed his true appearance in front of Long Chen.

The rest of them were similar to the Heavenly Demons of the Era, belonging to the Archaic Giant Demons. They were more orthodox, and there were even some that were slightly more elegant, not like the War Demons or the Chaos Demons.

Its head was somewhat similar to a divine dragon, but its body was that of a gigantic beast. It had thick hind legs and a tail, and its wings could cover its entire body.

Her pair of eyes were as blue as gems. The moment he saw Long Chen, he could actually see fear in those eyes that were like gems. Because of the change in time, this fear was also extremely obvious.

"You know me?"

Long Chen instantly understood the reason for his fear.

He controlled the time so that the Primordial Giant Demon could act normally. Now, this Primordial Giant Demon immediately withdrew the fear in his eyes, and replacing it was pride and iciness as he

said: "Long Chen, other than the lowest level mortal spirit, who doesn't recognize you in this boundless universe?"

Although the Ancient Giant Demon was brutal, it was still intelligent. Although he was here, he had the means to scout the outside world, and from this, Long Chen deduced that this Ancient Giant Demon should be tasked with collecting intelligence for the Ancient Giant Demons.

But of course, the Diremonster God should also have this mission.

Then, he would know even more!

had already decided that he must capture this fellow. The opponent only had the strength of the initial state Demon Elder, so he should be 90% sure of his success, but when he thought about the Dragon Demon Ancient Tomb, Long Chen was very clear. Although he was not sure if the Ancient Giant Demon would be able to open the Dragon Demon Ancient Tomb and rush in, but he was sure, once he opened it, it would be very difficult to control him!

Without controlling him, how could he obtain the confidence of an ancient Giant Demon?

Suddenly, Long Chen activated the Everlasting Vortex to the extreme. First, he restricted his opponent in terms of time, and then the Origin Dragon Palace suddenly flew out from his body, directly pressing down on the head of the archaic Giant Demon!

Long Chen was practically using a knife to kill a chicken.

To use the Origin Dragon Palace to deal with the Demon Elder of initial state was indeed a bit excessive. However, the effect was also very obvious.

Under the suppression from the Origin Dragon Palace, the Immemorial Giant Demon was like an ant, unable to move at all. It had even degenerated from its state of being an Immemorial Giant Demon, and revealed its human form in front of Long Chen.

It was a youth with silver hair and blue eyes, as exquisite as precious jade. However, even under his control, there was still a deep arrogance in his bones. This gaze was similar to that of a former Heavenly Demon.

But no matter what, in the blink of an eye, Long Chen had instantly descended into the eternal vortex of the time tunnel.

"Brother Chen, if you want to control him and prevent him from going anywhere, I can do it with the Silent Curse. Also, there is no problem with your question."

Ling Xi said.

"Alright, then you."

After all, he couldn't keep using the Origin Dragon Palace to suppress him, so Long Chen had other uses.

Now that the situation was so urgent, Long Chen wanted it to be absolutely foolproof.

Carrying the ring, Ling Xi went straight to the Everlasting Whirlpool. Long Chen led the way for her and immediately sent the Ancient Giant Demon to Ling Xi for a delay.

Ling Xi's silver hair danced in the air, like a fairy in the sea, her entire body was covered in pure white light, like a goddess descending, and at the same time, the Silent Curse that was being used by her.

The Silent Curse in her hand was like a puff of green smoke that drifted onto the body of the Ancient Giant Demon. In the blink of an eye, the thin smoke condensed into something that looked like ice, but wasn't.

However, it was only a thin layer of imprisoning. It was only used to imprison the opponent, not to kill them.

When she let go, the Origin Dragon Palace was also pulled back by Long Chen. The Ancient Giant Demon couldn't move, and could only drift in the vortex of time.

"How dare you imprison me! How audacious! He deserved to die a thousand deaths! Long Chen, you are playing with fire. We ancient Giant Demons do not have the slightest bit of mercy. If you anger us again, we will definitely make you regret it! Let your current Ten Thousand Worlds be minced into ten thousand pieces! "

This young man with the carved jade ornaments was glaring at Long Chen and Ling Xi with a vicious gaze.

"What kind of ancient Giant Demon are you?"

Long Chen basically ignored his threat and directly went straight to the point. Standing in front of his opponent, his eyes which were filled with pressure, pierced the eyes of the Ancient Giant Demon. Even though his opponent was inside the Silent Curse, he could feel that piercing like mind attack.

"I am ... the Eternal Illusory Demon!"

Speaking of his title, this fellow was filled with pride. But in reality, it was useless against Long Chen.

What he wanted to ask was the current situation of these Archaic Giant Demons.

Who would have thought that the Eternal Illusory Demon would actually open his mouth and say such a thing, "Don't even think about finding out anything about our Primordial Demons from me. Actually, even if you knew, you would only be afraid. But even so, I am still not interested in surrendering to the lifeforms at the bottom that are about to be destroyed. "

This fellow was extremely arrogant.

Long Chen and Ling Xi looked at each other. The Primordial Giant Demons were not like ordinary people. Long Chen actually wanted to try using the wishful eye s.

If that didn't work, then he could only think of other methods, such as torturing them.

Looking at his opponent, his gaze suddenly changed, and his eyes turned completely white.

The rule of wish, invade Eternal Huanmo.

"An insignificant skill!"

Tens of millions of illusions were actually charging towards Long Chen as well. Ling Xi did not use Silent Curse to lock him down, so he was still able to act arrogantly in front of Long Chen.

"Break!"

The opponent was an Eternal Illusory Demon, who was proficient in illusion rules. Long Chen was also proficient, but he might not be as pure in this aspect, but Long Chen won in terms of having absolute strength to support him, so no matter how arrogant the Eternal Illusory Demon was, Long Chen had still easily broken through his illusions.

"Be quiet and listen to me."

Long Chen's intimidating voice caused the head of the Eternal Illusory Demon Realm to quiver for a bit, before it started to get confused and struggle. Occasionally it roared crazily and occasionally it became as dumb as a wooden chicken.

Long Chen's wishful eye rules could not be considered to be complete control of the opponent. After all, the opponent's willpower was not weak.

Of course, this was more or less enough.

The first thing that puzzled Long Chen was that this Eternal Demon Incantation was indeed powerful, but just him alone, was enough to destroy a Hierarch without making a sound?

"The Hierarch that went missing in the depths of the hive, did you kill him!?"

Long Chen had to find out whether or not there were any other accomplices in the Universe Bee Nest. If there were, he naturally could not let it escape. "No, no, no!"

The Eternal Demon God struggled and roared in pain within the Silent Curse. Just a moment ago, he had been asked this question but he was feeling extremely pained. Occasionally, he would struggle and struggle to free himself, but he would also angrily stare at Long Chen with his sapphire eyes, as if he was going to explode.

"It's really not!"

That is to say, there must be other existences within this universe beehive, and their numbers are uncertain.

"Then who killed him?"

Every time he questioned her, Long Chen would use his strong mental will to attack her. Then, he would use the suppression from the Origin Dragon Palace to strengthen the power of laws.

"It's Huan Ri. Huan Ri killed him. "

"Who is Huan Ri, and who are you? "This universe beehive, how many of your comrades are there?"

"Huan Ri, that's the Eternal Illusory Demon. I, I'm Huan Yue, that's also the Eternal Illusory Demon ... him, in this beehive in the universe, he's stronger than me."

On and off, this was the information that came out of the Eternal Demon God's mouth.

The other things could be asked slowly, but this Huan Ri had to be the first one to find it. After all, it was an Eternal Demon Beast that was stronger than Huan Yue, and Long Chen couldn't even feel that he was in this Cosmic Bee.

"Then, where is Huan Ri now?"

This was the most crucial point!

"AHH!"

Long Chen increased the force of his charge. After the other party wailed in grief, he finally said: "Huan Ri, we're going out to look for food! He wanted to find a remote world and go find food! He wants to swallow the entire world! "

With that said, Long Chen was immediately shocked.

He really didn't expect that he would encounter such a thing in the Honeycomb.

There was actually an Ancient Giant Demon that appeared in advance to look for food. It was actually the same as the Ancient Giant Demons of the Dragon Sacrifice Continent that devoured the common people.

"Which world did he go to?!"

This was the most crucial point. In order to get to this point, Long Chen did not hesitate to suppress the Eternal Demon God until his head was bleeding. His entire body was trembling, until the other party said intermittently, "I heard that it's a place called the Flower Immortal World."

Flower Immortal World!

Ling Xi had been there before, it was the territory of the Taihao Region, Long Chen had once searched for Inherited Blood Essences there.

After finding out about this place, he couldn't care about other things anymore. Long Chen immediately let Ling Xi take him to the Flower Immortal World!
