

## War God 321

### Chapter 321 - Lightning Divine Bird

The sun rose and set. After a day of time, Long Chen finally arrived at the mountain wilderness marked on the map. After four days and four nights of full speed travel, they were still two-thirds of the way to West Sea Country in the west. This also meant that Long Chen had already succeeded by one third.

In this mountain wilderness, the forest was very tall and dense, and amongst the trees, Long Chen was able to unleash a greater speed, so he was allowed to continue to carry Ling Xi, but, after being carried continuously for an entire day, Ling Xi's entire body was aching, and seeing that this girl was uncomfortable, yet did not dare to say anything, Long Chen's heart ached.

In the mountain wilderness, there was no lack of Demonic Beasts. Therefore, there was no lack of caves where Demonic Beasts lived. As a result, Long Chen occupied a clean demon beast cave. He cleaned up the place thoroughly, and then took out the bedding, cooking utensils and other tools.

"It's getting late. We will train here today and continue our journey tomorrow morning." It was currently a dark night in spring and the temperature was extremely low. As long as it was like this, Ling Xi would feel like she had taken a little less.

At this moment, the wolf cub had already brought back many trees from the outside. Under the roasting of his flames, the cave was quickly set ablaze, and there was a bit of warmth and brightness.

Long Chen brought over a huge boulder, and it completely blocked off the fire in the cave, leaving some space for him to breathe. This piece of vast wilderness was truly boundless, Long Chen did not believe that, after making such meticulous arrangements, the people of the imperial family would still be able to come knocking on his door.

After all the preparations were completed, the wolf cub saw that he had nothing to do, so he just laid at the entrance of the cave, cultivating while acting as a lookout. Long Chen then processed the pots and pans he bought in the morning, making them into a small scale kitchen. He had everything that a normal kitchen should have.

It had been a long time since he had cooked a delicious meal like this.

After about an hour of lighting a fire, cutting vegetables, cooking and roasting meat, a table full of fragrant food was prepared.

As Long Chen was going up and down, Ling Xi was wrapped in a blanket and only her small head was revealed as she looked at Long Chen with his eyes. This youngster's devoted attitude filled Ling Xi's heart with a thick sense of happiness. Basically all the girls fantasized about being spoiled like this, Ling Xi was no exception.

Although he was escaping, the atmosphere that Long Chen deliberately created made it so that time could never be lost in this moment. It was because this moment was extremely warm and beautiful, with no worries for the future, and no enemies chasing after him.

However, this was impossible. All the beautiful things would eventually pass as well.

Calling the little wolf over, the two of them and the wolf cub quietly ate a meal like this. Because it had been too long since they last made a meal, Long Chen's culinary skills were a little unfamiliar. In addition, this wasn't the real kitchen either.

Although nothing earth-shattering happened, this meal was indeed the happiest one of Ling Xi's entire life.

After the meal, it was time to rest. The wolf cub did not disturb them, and since he was too idle, he went back to the cave entrance to keep watch. With him holding the fort, ordinary demonic beasts would not dare to approach him.

Therefore, not long after the meal, she was in Long Chen's embrace as she slowly fell asleep. Looking at the beautiful girl in her embrace who could topple all living things, even while she was asleep, Emei's brows were still slightly knitted, showing just how terrified she was of the future. It was just that in front of Long Chen, she did not dare show it, and was worried that Long Chen would be worried for her.

Her eyelashes trembled.

Long Chen sighed. This life and death journey of escaping was destined to be the deepest one in his life, not because the royalty was too strong, but because there was Ling Xi by his side and his brother Xiao Lang, who had always been silently accompanying him.

Ever since he had become a Sun Devouring Demonic Wolf, he had little to no interaction with Long Chen. However, they did not need to interact with each other anymore.

When he was in dire straits, being able to share his hardships and challenge the mountain together, Long Chen knew that this was what a true brother should be like.

The people he loved were all by his side, along with his brothers who supported him, Long Chen felt extremely satisfied.

Night gradually descended.

The girl in his embrace was naturally very captivating. Her snow-white skin, exquisite and beautiful curves, and the spring light that leaked from her collar; these were all enough to make Long Chen a little restless. But he knew that Ling Xi was already tired.

In the middle of the night, Ling Xi suddenly woke up in a daze. She slightly opened her eyes, looked at Long Chen with a disinterested gaze, and hesitantly said, "Brother Chen, I want to go out."

"Get out?" Long Chen naturally did not sleep for the entire night. He asked with some doubt: "It's so cold outside, why are we going out?"

Ling Xi fell silent. She had held back for a long time before finally saying, "I ... I want to shhh!"

"Ugh." Long Chen suddenly understood, laughed, and said: "Idiot, what is there to be shy about in front of me, I'll bring you out."

In this wilderness, Long Chen obviously would not let Ling Xi go out alone. After bringing him out of the cave, he randomly found a place and Long Chen said to Ling Xi who was in his embrace, "Let's do it here."

Ling Xi did not move, her head was almost pulled back into her neck.

"What's wrong?" Long Chen asked.

"Go away." blushed a little. She would be embarrassed to just let Long Chen stay here. After becoming a mortal, many problems were unavoidable for Ling Xi.

"Oh, oh, okay." Long Chen suddenly realised, he had walked a few steps out, with his back facing Ling Xi, he teased: "Xiao Xi, are you still shy in front of me? When you were using the Herba Euphorbiae, I saw you everywhere. "

"Don't say it, don't say it!" Remembering the embarrassment and shyness at that time, Ling Xi's face flushed a little. If Long Chen had said another word, she would have been anxious with Long Chen.

Since it was so cold outside, it would be better to settle it early. After all, it was better to head back later, so Long Chen shut his mouth. After a short while, a hissing sound came from behind him. Long Chen fantasized for a bit, then recalled the scene when Ling Xi was reborn.

"Alright." Not long after, Ling Xi arrived beside Long Chen. To her, it was really difficult to solve this problem by standing next to a man, so even at this time, her ears were still red.

"Brother Chen, why are you looking at me like that?" At this time, when he saw Long Chen looking straight at him, Ling Xi was a little flustered in his heart. Long Chen's burning eyes, was hiding some sort of message, so Ling Xi could feel it.

It was the look in his eyes as if he wanted to eat her up.

Right at this moment, Long Chen didn't say anything and pulled Ling Xi into his embrace. Before Ling Xi could react, the back of her head was pressed down by Long Chen, and right after that, Long Chen's warm lips covered her sandalwood mouth. A tongue that was like a water snake instantly broke through her white teeth and intertwined with her tongue.

Ling Xi opened her eyes wide, her hands supporting Long Chen's broad chest, for a moment, it was the only thing she could say. The current Long Chen was like a ball of flame, the dense male aura on his body quickly ignited Ling Xi within the darkness.

Ling Xi suddenly felt his body burning up, as if the cold night had stopped. From head to toe, as long as Long Chen came into contact with any part of her body, there would be waves of numbing feeling coming from her body. It was precisely this sort of numbness that caused Ling Xi to groan as she softly fell into Long Chen's embrace, allowing him to pick whatever she wanted.

The beauty in his embrace, the fragrance of the lotus flower that pounced on him, had even touched Long Chen's sense of smell, stimulating his desire to move. Without any hesitation, a palm had already reached into's clothes before she could even react, covering the soft flesh on her chest.

"Brother Chen doesn't want it!" At this time, Ling Xi's face was flushed red, her eyes blurred, and the voice she spoke with could only be described as indistinct.

At this juncture, how could Long Chen still listen to what she had to say? Just as his hand came in contact with that ball of softness, his hand involuntarily moved.

At this moment, a sharp bird cry resounded out of thin air, shaking the entire mountain wilderness!

Long Chen was originally immersed in his desire, but at this moment, he completely woke up. His hands quickly left Ling Xi, and he was just hugging her.

He raised his head and looked over.

In the sky that wasn't too far away, streaks of lightning began to flicker, as if there was a lightning web that pounced towards Long Chen. Long Chen opened his eyes wide and looked, and once he used the Spirit Devouring Demon Pupil, he shockingly discovered that there were a few cores among his lightning net, and the electric wires that were roaming about were emitted from this core.

This core was surprisingly made up of several Thunderbolt Birds!

"Oh no, this is the Earth Grade Three's demon beast, the Thunderbird! To be able to raise such a large scale demon beast as a mount, only the royal family would have such a big gift! " Long Chen said with a serious face.

The royal family had finally caught up.

Right at this moment, the little wolf had already rushed over. Through its anxious eyes, Long Chen was even more certain of his judgement!

"The little wolf said that the Thunder Birds have already moved out, this must be the commanders of the Imperial Guard Army, there are a total of seven commanders of the Imperial Guard Army! Other

than the Seventh Commander, the rest are all capable of controlling Thunderbirds. There are five Thunderbirds in the sky, which means at least five commanders have arrived! "

When the royal family's troops came, Ling Xi also became clear-headed and said anxiously.

#### Chapter 322 - First Blood

The Thunderbird was a thunder-attribute demon beast, and it was also a flying type demon beast. Its specialty was speed, although its level was not as high as the wolf cub, but in the sky, its speed was fleeting. It was definitely not any slower than the wolf cub.

When the Thunderbird appeared in the sky, it didn't take long for it to fly right in front of Long Chen. For now, escaping immediately would most likely attract the attention of the people in the sky, so in the most critical moment, Long Chen carried Ling Xi and quickly rushed into the cave!

Just as they entered the cave, a total of five Thunder Birds interweaved to form a huge lightning net, rushing past Long Chen's head, and wherever they went, crackling sounds could be heard!

The Thunderbirds flew at a low altitude, and after they flew by, the entire forest seemed to be on fire. If it were not for the humid air at night, the trees would have been burning by now.

During the process of the Thunderbird's flight, Long Chen had been looking at Ling Xi in his arms and he was also staring blankly at him. They had been in love just now, but they hadn't thought that the royals would catch up to them at this time. Ling Xi felt a little awkward, but she was more worried.

"Brother Chen!"

The ones who came were the commanders of the imperial city, which also meant that the imperial family had caught up to them. Long Chen didn't know how they found out the direction that Long Chen was heading in, but it wasn't important anymore. The important thing was how to get out of here.

"Little Wolf, how is the strength of the Guard's Commander in the Imperial City?" Right after the Thunder Bird passed, Long Chen asked in a low voice.

From Ling Xi's translation, Long Chen found out that there were a total of seven commanders in the Imperial Guard Army. One of them was eighth level of the Milky Way Realm, the other four were Sixth Stage of the Milky Way Realm. This included the Seventh Commander who brought Long Chen into the Biyang Royal City to become China.

To Long Chen, this was an unstoppable force. Putting aside eighth level of the Milky Way Realm, even Long Chen was not his match.

"Relax, that First Commander is actually part of the royal family. His status is honorable, and he carries out the important mission of guarding the Imperial City. He shouldn't be moving out. The five Thunder Birds should be the other five commanders." Ling Xi passed on the Little Wolf's words to Long Chen.

Long Chen heaved a sigh of relief and nodded.

"Brother Chen, are we just going to stay here?" Ling Xi asked nervously. As it was the middle of the night and she wasn't wearing much, she was already shivering in the cold.

"Since they know we're nearby, their only plan is to escape. Xiao Xi, quickly put on more clothes, I need to pack up! "

At this critical moment, Ling Xi did not dare be negligent at all, she immediately wrapped herself up, and at the same time, Long Chen had already packed his belongings and carried her on his back. He shot a glance at the little wolf, then rushed out, and started to travel through the vast mountains overnight.

Long Chen and the little wolf actually didn't make any noise.

Not long after he fled, Long Chen heard a rumbling sound from behind him. This was the sound of countless war horses advancing, and it must be a demonic beast of high quality. If there were a lot of dense sounds, it meant that there were a lot of methods to catch up.

"Crap, those war horses are surrounding us!" If they were to fight now, the lightning birds in the sky would be on patrol. With the lightning birds' eyesight, as long as there was the slightest movement, they would bring their master here immediately.

At that time, Long Chen would truly lose his life.

"Little Wolf, they haven't found our location yet. If they do, Little Xi will leave it to you. I'll lead the way!" Xiao Xi, your health is not good. Just bear with it a little longer this time. At this critical juncture, Long Chen quickly gave the orders.

He hadn't been discovered yet, so he ran at his highest speed, heading for a dark place where the woods were thick and dense.

had already activated his fastest speed in the forest, but it was in time for this, as the Thunder Bird in the sky was still patrolling around, a few times flying above Long Chen's head, at this time, Long Chen could only stop, catch his breath, and not be discovered!

Fortunately, he had Spirit Devouring Demon Pupils, so when enemies approached him, he could quickly discover them!

In the process of escaping, Long Chen finally realised that among the Spirit Devouring Demon Pupils, the ability of insight was actually quite great.

This kind of escape lasted for less than an hour. However, the lightning birds in the sky continued to exist, and the sounds of tens of thousands of horses galloping behind them could be heard.

At this time, what was Long Chen chasing from behind? This was a powerful army from the Imperial City known as the Ghost Horse Heavy Riding! The Ghost Horse Heavy Riding was made up of a total of two thousand Milky Way Realm practitioners, and demon beasts of the ninth level of the Profound Ranked — Scarlet Ghost Horses. Just by hearing this name, one could infer that the configuration of the Ghost Horse Heavy Riding s were naturally quite luxurious, but in order to chase after Long Chen, they didn't know how many Ghost Horse Heavy Riding s had been dispatched!

Demonic beasts teamed up with warriors to form a group, and it was such a large group, so the Ghost Horse Heavy Riding's fighting strength was naturally self-evident. And the commander of the Ghost Horse Heavy Riding s, was the one who had led Long Chen into the Biyang Royal City before. As for the other commanders, they were probably above the Thunderbird!

There are at least two hundred Ghost Horse Heavy Riding s and many others that are following behind me. Other than the Ghost Horse Heavy Riding, there seem to be a lot of other Imperial Guard Army s as well, because they seem to know that I'm in the forest. Thinking about it here, Long Chen changed slightly!

The Imperial City Army was a form of encirclement that trapped the current Long Chen. Without question, they knew the general location of Long Chen. Long Chen's brain quickly turned, and finally remembered a person!

It should be the owner of the shop who bought all sorts of things in crescent city, the middle-aged fatty, the one who owned the map!

What Long Chen did not expect was that, in order to kill him, the imperial city had actually achieved such a degree, that even the owner of a random shop in a small city could guess the identity of the cloaked Long Chen!

"It seems that the royal family has decided this time. They will dig me out from the Canyang Kingdom and kill me after!" The ruthless determination of the imperial family made Long Chen's heart heavy. It was only when he thought that he still had someone to protect, that he did not express his flustered mood.

"When a boat reaches the end of the bridge, it will naturally come to an end. Now, it seems that everything can only be killed!" The pursuit by the imperial family also triggered the bloodthirsty killing intent that belonged to the Primordial Blood Spirit Dragon that came from the depths of Long Chen's personality. Very quickly, his body began to emit a faint baleful aura.

"Brother Chen, are you alright?" Seeing Long Chen's situation, Ling Xi was a little worried.

"Don't worry, I will definitely bring you out. Just be good and listen to me." Long Chen said in a low voice. His voice began to become hoarse, and even when he was talking to Ling Xi, a dense amount of killing intent emitted from his voice.

"How about I give up on this body right now, so that it won't burden you, and you and Little Wolf can escape without me," Ling Xi said, and tears welled in her eyes. Of course she didn't want to return to Ling Xi's sword, if not, then today, Long Chen and Little Wolf would die here.

"Shut your mouth! You are not allowed to mention this matter again, otherwise I will not forgive you!" Long Chen naturally wouldn't allow her to do that. At such a critical juncture, he could only say some ruthless words. Being yelled at in a low voice, Ling Xi bit his lips with a look of innocence, tears almost flowing out from his eyes.

"Brother Chen, I am truly useless. I am unable to help you and I have even dragged you down with me. I feel very uncomfortable in my heart." Ling Xi said these words in his heart.

Right at this moment, Long Chen stopped in his tracks. After rushing to this place, he actually discovered a valley in front of him, with towering mountains at both sides. The only way to pass through here, was to forcefully pass through this valley.

As for retreating, that was already impossible. Even more pursuers had already caught up from behind, and if he turned back, what Long Chen was about to face was an even greater battle!

Long Chen only stayed for a single breath of time. Right now was the most urgent moment, he only had a minute to analyze the pros and cons. It was already impossible to retreat. If he hid in the distance, he would be discovered sooner or later. The only option he had now was to decisively kill his way out!

"Little Wolf!" Little Xi is in your hands! " Long Chen did not allow Ling Xi to resist, and he placed her behind the little wolf. The wolf cub had his own demonic powers, so during the battle, he could naturally suck Ling Xi onto his back, and Long Chen and the wolf cub had trained their divine fire clone to the highest level. With a large number of divine fire clone, they did not need to worry about anyone attacking Ling Xi in the chaos!

The little wolf followed closely behind him. He understood that Long Chen was trying to break through the encirclement very quickly, and what he needed to do was to protect Ling Xi well, and then follow Long Chen's footsteps. As for making a move, it was enough for Long Chen to do it by himself!

In the blink of an eye, Long Chen had already charged into the valley!

His speed was too fast, and his arrival was too sudden. The Imperial Guard Army in the valley didn't have time to react, as a large amount of blood colored fog covered the entire valley. The blood colored fog quickly filled everyone's vision, and that terrifying suction force acted on everyone's body!

"Devouring Blood Realm!"

The entire Devouring Blood Realm was like a blood cocoon, quickly covering all the other Imperial Guard Army!

"Who is it!" A loud shout came out from the Guard!

Chapter 323 - Ghost Horse Heavy Riding

A loud roar from the ground shook the vegetation in the valley, causing it to tremble! Although it was so, some of the lower levelled soldiers still had their bodies exploding under the effect of the Devouring Blood Realm. It could be said that the moment Long Chen opened her Devouring Blood Realm, one

tenth of the people in the had already died, and there was blood fog everywhere. This horrifying scene made everyone's head go blank!

There was no doubt that the Devouring Blood Realm was the bloodiest type of massacre. This proved that the Primordial Blood Spirit Dragon was a dragon of blood and slaughter. This had nothing to do with good or evil. In Long Chen's heart, as long as there was a standard, it would be his true nature. Anyone who violated or even harmed him, no matter how kind they were, Long Chen would never show mercy!

Under the terrifying effects of the Devouring Blood Realm, most likely, the Imperial Guard Army who could still barely survive was completely dumbfounded. He could only circulate his Innate Qi and calm the boiling blood in his body.

At this time, the crowd barely parted to form a path. Rumbling sounds came from afar, and in the blink of an eye, they arrived in front of everyone. There were over ten large, black horses, their muscles knotted, their limbs powerful, and their eyes red.

This was a Xuan level nine demon beast, Scarlet Ghost Horse!

At this time, the Scarlet Ghost Horse was covered in a thick black heavy armor, looking majestic and full of murderous intent. On the Scarlet Ghost Horse was a tall martial artist who was also wearing a full black heavy armor.

After this troop of heavy riders rushed over, a strong stench of blood immediately assaulted their senses. Without question, this was the Ghost Horse Heavy Riding that was famous for its ability! A Xuan level nine demon beast, a warrior with Milky Way Realm and above, the battle power of a Ghost Horse Heavy Riding, could absolutely sweep away many armies! Fighting one against a hundred was not impossible!

However, they had met an even more bloody Long Chen! Under the influence of the Devouring Blood Realm, the closer they got to Long Chen, the more timid and anxious they became. When they were still about twenty meters away from Long Chen, all the Scarlet Ghost Horses suddenly jumped out with their front legs.

At this time, Long Chen was like a gust of wind, rushing straight towards Ghost Horse Heavy Riding! There were many obstructions in this valley. Only by getting rid of these Ghost Horse Heavy Riding would they be able to intimidate the others and pass through this valley in the shortest time possible!

"Bastard!" The Scarlet Ghost Horse did not listen to him. The warriors atop it flustered and exasperatedly cursed a few times, then hurriedly turned around and charged towards Long Chen with their blood-red eyes.

"Long Chen, it's really you! It truly is like stepping on broken iron shoes and finding the right place without any effort. You actually dared to kill a member of the royal family.

The warrior who was rushing in front was the Seventh Commander of the Imperial Guard Army, and his strength was Sixth Stage of the Milky Way Realm! At this time, he brought a group of Ghost Horse Heavy Riding warriors with him as he charged over with an explosive shout. All of them were tall and big with more than ten people charging forward.

At this time, Long Chen was alone. Waving his green dragon halberd, he lowered his head and a cold light flashed in his eyes. He suddenly accelerated and his body instantly appeared in front of Seventh Commander!

"Die!" The Seventh Commander was crazily rushing towards Long Chen! He was confident that he could flatten Long Chen with a single punch, but he had underestimated Long Chen too much. Underestimating Long Chen who was close to going crazy, that was an extremely terrifying thing!

A streak of blood was emitted from the green dragon halberd and in that instant, Seventh Commander saw Long Chen's eyes.

In that split-second of blankness, Long Chen used the strongest move he had ever seen, the Dragon Emperor's Destruction, and directly shattered his attack. The green dragon halberd shattered Seventh Commander's entire arm, and his flesh and bones suddenly exploded, scattering in all directions!

Seventh Commander immediately let out a world-shaking scream, the scream made everyone's hair stand on end, they could not help but retreat!

"Long Chen defeated the Seventh Commander in one move?" Everyone was shocked by this question!

But the shock was far from just that. After shattering Seventh Commander's entire arm in one move, Long Chen had already rushed in front of him, and in front of his terrified eyes, Long Chen's fist had smashed into his head, causing his entire brain to explode. Red, white things were scattered all over the ground!

"AHH!"

Such a cruel situation caused everyone's heart to sink as they hurriedly retreated. Even the strongest Seventh Commander was instantly killed by Long Chen, who could be his opponent? And who would dare to die the same way as the Seventh Commander, at the hands of Long Chen, who seemed to have completely entered a state of slaughter!

Without any pause, Long Chen stood in front of him, and only the rest of the warriors from the Ghost Horse Heavy Riding dared to stand still. They were all warriors of the Milky Way Realm, and at that time, amidst Long Chen's devil-like slaughter, their hearts were all trembling!

After killing Seventh Commander, in the next second, Long Chen's green dragon halberd had already pierced through a martial artist's chest! In the next second, the green dragon halberd directly chopped off the head of the next person, and the head flew far away. The surrounding Guard who didn't dare to make a move, all screamed and dodged the head, and more people started to retreat backwards!

In front of everyone's eyes, Long Chen's entire body was covered in blood, like a meat grinder, he rushed into the group of people, with every life and death, other than Seventh Commander, no one could stop his attack, they were all killed!

More than a dozen Milky Way Realm experts were all instantly killed by Long Chen in an extremely miserable state. Long Chen directly used his green dragon halberd to cut open a bloody path, and the little wolf followed closely behind him as he charged out!

Other than the Ghost Horse Heavy Riding, the rest of the warriors had also watched Long Chen escape with their eyes wide open. It wasn't that they didn't want to stop him, but they had completely lost the ability to move their bodies in front of the Devouring Blood Realm and Long Chen's bloody and intimidating aura!

When Long Chen walked far away, everyone looked at the miserable state of the Milky Way Realm Warriors blankly. Some of those who had just entered the battlefield had already started vomiting.

"As expected, he's worthy of being a fierce character who dared to kill the ninth prince!"

Within the valley, silence reigned!

The activity here obviously could not exceed that of the Thunderbirds in the sky, or those who were stronger than the Thunderbirds, or even those who had reached the seventh level of the Milky Way Realm! However, it had also attracted the attention of the Thunderbirds, so at this time, all the Thunderbirds clamored crazily. The gigantic lightning web in the sky whizzed towards Long Chen!

During the process of running, Long Chen had already straddled onto the Little Wolf's body. He had an extremely strong control over his blood, so even if he created a very abnormal situation, he currently didn't have any stolen goods on him.

The current Long Chen's entire body was covered in shining blood-colored dragon scales, and sharp and domineering bone spikes. Merely by looking at it, Ling Xi could feel a soul-shaking power acting on her soul. At this moment, faint images of ancient blood-colored dragon began to appear on the blood-red dragon scales. They were roaring and dancing wildly. That crazy bloody killing aura was emitted by the picture on the dragon scales!

Just a moment ago, Ling Xi had watched Long Chen carry out an extremely intense massacre. It was to frighten the enemy, and also because of the effects of the inherited essence, blood, and killing intent, that Ling Xi did not blame him for it. She looked at Long Chen who was working so hard with tears in her eyes, feeling the perfect, rules, and gorgeous dragon scales on his body, until she cried from being touched.

The rebellious and unyielding young man before her was the man she had dedicated her life to.

However, with so many obstacles, would she be able to remain as she was today? Would she die under his protection?

This was Ling Xi's most tragic memory, and also her deepest memory.

"Ling Xi, I'm sorry. When we were killing, I basically could not control myself now, and only by ruthlessly shattering the opponent, would my body be able to reach its most excited state." After the slaughter, Long Chen was awake for a short period of time, but he knew that under the effects of the Primordial Blood Spirit Dragon's Slaughter Consciousness, he would eventually become a Slaughter Devil!

"I don't blame you, Brother Chen. I am only worried, that in the future, you might not be able to recognize any of your kin, and will become a killing machine. A part of the good and evil, frantically slaughtering people," Ling Xi bit her lips and said sorrowfully.

"Don't worry." Long Chen stood up on top of the little wolf. Looking at the lightning net that was quickly approaching from afar, he suddenly had a boundless ambition and ambition!

"Xiao Xi, I want you to promise me that even if I have to destroy the entire world, I will absolutely not make a move against you! Of course, I will not destroy this world! Because I am Long Chen, and no one can control my fate, not even them! "

The place he pointed to was precisely the Thunderbird, and above the Thunderbird, the commanders of the Imperial Guard Army! The Seventh Commander was only the weakest of them all, and the other five were Long Chen's greatest resistance this time. Two seventh level of the Milky Way Realm and one Sixth Stage of the Milky Way Realm, they were about to bring about the most terrifying threat to Long Chen!

The crazy lightning net channels and the sharp cries of the Thunderbirds gradually approached!

The light of the lightning gradually covered Long Chen's eyes!

When experts approached, Long Chen was not the least bit afraid, because he was the incarnation of the Primordial Blood Spirit Dragon. He was the pinnacle of countless creatures and there was nothing he could fear that could make Long Chen afraid!

Reddit

Chapter 324 - Mist Valley

As there were no obstacles in the sky, the Thunderbird's speed in the sky was extremely fast. If the little wolf continued to stay in the air in this vast and endless wilderness, there would always be a time when it would be caught.

When you are poor, you change.

Long Chen's face became gloomy, he looked around, while recalling the rough terrain on the map. With these words, they had already exited the mountain wilderness. When they arrived at the wilderness, Long Chen suddenly remembered that on the left side of the wilderness, there seemed to be a Misty Valley! Not to mention that the Thunder Bird wanted to fly up there. With the obstruction of the mist, if Long Chen wanted to escape from the royal family, he would still have a chance of doing so!

Thinking about that, Long Chen immediately told Xiao Lang, "Move towards the left!"

Long Chen was thinking of a countermeasure, and of course the little wolf was not idle either, it was just that it still hadn't thought of anything. If Long Chen told it to turn left, then it must be correct! With a low roar, the Sun Devouring Demonic Wolf's huge body suddenly turned and rushed towards the left at full speed. Along the way, the sky was covered in smoke and dust, and at this time, if it was a normal person, they would not be able to see its appearance at all.

The Thunderbird behind him also changed its direction and chased after Long Chen and the others. The endless explosion of lightning net in the sky was about to engulf Long Chen!

At this time, the wolf cub had already started moving at his highest speed!

In this boundless wilderness, a grand chase was occurring.

Facing the night wind, Long Chen hugged Ling Xi tightly, and felt her nervousness and despair. Long Chen knew what she wanted to say, but he suppressed her mouth and said: "Before the outcome of the battle is decided, don't say anything."

His tone was very flat, but there was an unparalleled dignity within it. From his calm voice, Ling Xi could tell that his body, was already like a volcano. Under the influence of the Primordial Blood Spirit Dragon's inherited blood essence, there was only one word left in his mind — kill!

In the wilderness, the Thunderbird chased after the Sun Devouring Demonic Wolf for a full hour. There were several times when it almost made it, but it was pushed back by the wolf cub! When a valley enveloped by dense fog finally appeared, Long Chen immediately revealed a pleasantly surprised smile!

"Given the density of the fog in this valley, the Thunderbirds are unable to fly down here, much less fly at an incredible speed. However, the wolf cub is able to do so!"

The wolf cub now knew the reason why Long Chen made him turn left. This Misty Valley should be his only hope in escaping.

The commanders of the Imperial Guard Army above the Thunder Bird had obviously seen this Misty Valley, but they didn't think that Long Chen would be able to escape this time. Five Thunderbirds, a total of five commanders. Amongst the five commanders, there was a male and a female Middle-aged Fighter, and the two of them seemed to be hiding their abilities. Their eyes contained bright starlight, obviously their realms were far above Long Chen's.

"You want to escape into the Misty Valley? Truly an innocent child. In the Misty Valley, the Thunderbirds won't be able to catch up to you, but we can't catch up either?"

"Hehe, second brother, he is not a child. After killing Song Yuefeng consecutively, Ninth Prince, he just killed Seventh Brother. Can a child do this?" One of the two experts, the beautiful young woman, said.

Amongst the commanders who had come this time, the two of them were the strongest, and the lady had just called another strong Ranker as her second brother. Obviously, both Imperial Guard Army and Second Commander had moved out.

Just then, the wolf cub carried Ling Xi and jumped down from the Misty Valley! The other commanders were surprised that Long Chen had actually jumped down from the Sun Devouring Demonic Wolf. Then, with a cold gaze, she swooped down towards the Thunderbird that was about to land on the ground.

With the speed of the commanders, they would definitely be able to catch up to Long Chen and the others on the ground.

"Why did he stay?"

This question appeared in everyone's hearts.

The unknown coldness in Long Chen's eyes made them somewhat uncertain of his thoughts!

Therefore, they all mocked Long Chen's bravery. At the same time, the lightning birds that swooped down, formed a gigantic lightning net and pounced towards Long Chen!

Right at this moment, Long Chen made his move, allowing the little wolf to rush into the misty valley first. Long Chen immediately turned back, and when he saw that the few Thunderbirds were about to land, Long Chen used all his strength and roared. The green dragon halberd in his hands swung out crazily, like a sharp arrow, and pierced towards the sky!

"What!" No one would have thought that Long Chen would actually attack the Thunderbird, because the Thunderbird was about to land, its flying height was not high. Long Chen's green dragon halberd was suddenly flung out, and before the person riding the Thunderbird could even react, the whole bunch of green dragon halberd had already deeply pierced into one of the Thunderbird's chest!

With his heart broken, the Thunderbird let out a painful cry. It immediately lost control of its own body and fell down. It seemed that it would die soon.

Seeing that he had achieved his goal, Long Chen immediately summoned his green dragon halberd back and quickly dashed into the Misty Valley with the wolf cub.

Actually, in the Misty Valley, Long Chen still had one more layer of reliance, and that was the Spirit Devouring Demon Pupil! The third insight of the Spirit Devouring Demon Pupil allowed Long Chen to completely ignore the dense fog and directly see any life form within it. Even though the little wolf had already entered into the Misty Valley for a distance, Long Chen was still able to find him quickly!

Earlier, he only wanted to stay behind to cut off the rear and delay the five commanders from entering the Misty Valley. He only killed one of the Thunder Birds. Even he did not expect it to have such a huge effect.

Previously, the five Thunder Birds could only soar in the sky at such a fast speed through lightning net s that were linked together. Firstly, it had caused the unfortunate Sixth Commander on his back to directly descend from a height of around a hundred meters in the air. With his Sixth Stage of the Milky Way Realm, although he could avoid falling to his death, he had at least fallen to the ground in confusion!

As for the others, because of the death of one of the Thunderbirds, the five Thunderbirds instantly lost their balance, causing the other Thunderbirds to tremble in the air for a long time.

However, with just that little delay, Long Chen was already gone.

"Sixth Brother, give the order for everyone to surround Misty Valley!" Others, go and search inside, we must catch Long Chen! " After being played around with so easily by Long Chen, Second Commander felt uncomfortable. With a gloomy expression, he made arrangements, and then immediately brought the others to quickly rush into the Misty Valley!

With Long Chen's nimbleness, he quickly caught up to the little wolf in the middle of the Misty Valley. He rushed to the front, using his Spirit Devouring Demon Pupil to guide the little wolf. In this Misty Valley, there were many demon beasts, and even many that were very powerful. In order to avoid conflict with these demon beasts and to cause unnecessary trouble, Long Chen tried his best to avoid these demon beasts.

The topography of the Misty Valley was rugged and rugged. Strange rocks littered the ground, and not a single blade of grass grew. It was a desolate scene.

Although there was no longer any sound of pursuers behind him, Long Chen did not dare to be negligent at all, as he was also considering his own strategy. In reality, the Misty Valley wasn't large, as the five great commanders would be able to completely surround them if they directly brought 10,000 troops over. Even if Long Chen broke out of the encirclement, it would be difficult for him to escape the pursuit of the five great commanders. Therefore, he had to make good use of this terrain and reduce the strength of the five great commanders one by one until he was completely killed!

"It seems that this time, I have to put my life on the line in order to survive!" Long Chen quickly advanced amidst the rocks of the mountain and looked for a concealed place where he could hide.

As long as Ling Xi hid herself and the wolf cub protected her, Long Chen would be able to fight a guerrilla war against the five great commanders in the Misty Valley. Long Chen's greatest reliance was on three: Spirit Devouring Demon Pupil s, her divine ability, Blood Escape, and of course, her divine fire clone s!

With Blood Escape, as long as he achieved the goal of killing in one move, no one could stop him!

This was Long Chen's plan!

It should be a waterfall, Long Chen did not care at all. He was originally heading towards the waterfall's location, and even now, he did not change his direction.

After a while, a waterfall appeared in front of them. It wasn't a big waterfall, but it was full of vigor and there was a huge gap of about thirty meters between them. The huge torrent of water crashed into the deep pool, creating a rumbling sound.

He was just about to cross this waterfall and search for another place to stay. But at this time, he didn't expect that his Spirit Devouring Demon Pupil would directly pierce through the mountain wall and see that there was actually a cave within the waterfall. And in the middle of the cave, a powerful demon beast was currently hibernating!

The pressure that this demon beast was giving Long Chen was extremely huge. It seemed like it was at least a demon beast around the level of their Earth Stage Seven!

Long Chen reckoned that inside the mountain wall, there was originally a cave entrance. But after the river changed, the river directly fell down from above the cave entrance, and only then did the flowing water cover the cave entrance. This was originally an excellent hiding place, but unfortunately, there was actually a Spirit Demon Beast inside that could not occupy this cave at all without the existence of the Spirit Demon Beast!

Right at this moment, Long Chen carefully felt that the demonic beast's aura had become extremely weak. Could it be that it was already injured?

## Chapter 325 - Euphorbidion

Long Chen couldn't help but sigh with emotion. He knew that the growth of an exceptional genius meant that his own talent was only a part of it, the background of the clan was only a part of it, and the most important part was his luck. He had to admit, from the moment he had obtained the Mysterious Dragon Jade, his luck had been especially good.

For example, the Misty Valley this time seemed to be designed for his Spirit Devouring Demon Pupil. With this Spirit Devouring Demon Pupil, he would be able to stay in the Misty Valley without any problems. However, others would be affected by the extremely dense fog.

But now, in the cave beneath the waterfall, there existed an injured Earth Stage Seven Demon Beast. No matter how strong this Demon Beast was right now, Long Chen knew that this was his only chance.

After telling Ling Xi about the cave in the waterfall, Long Chen immediately decided: "Little Wolf, I'll go to the cave first and lure the demon beast out, or chase it out, then you'll bring Ling Xi to hide inside. If there's nothing else, it's best that we don't come out!"

"That won't do, Brother Chen. Won't you be in danger if that happens?" Ling Xi said in panic.

"No, this is an injured Earth Stage Seven Demon Beast. If I'm lucky, I can kill it and become stronger. Even if I can't beat it, when I'm alone, I can still rely on blood to escape! Little Xi, be good. "

"I'm sorry, Brother Chen, I'm just a burden," Ling Xi's eyes flashed with tears. Her body was trembling from discomfort as she said: "I've already decided, right now I'm in big trouble so I have to give up on my body. This way, Brother Chen and Little Wolf can escape."

"Bullshit!" Long Chen cursed harshly. He looked at Ling Xi with a stern gaze as he warned: "Little Xi, don't let me hear you say such words again, or else I won't forgive you."

"Why?" Ling Xi was a little puzzled, and said. "If I can find a Nine Celestial Spirit Fruit for me in the end, wouldn't I be able to live as well?"

"That's if, I can't guarantee." Long Chen sighed and said: "Xiao Xi, who knows what the future will be like. Nine Celestial Spirit Fruit, this is still unknown, I cannot completely place your future on the unknown. So, before we find the Nine Celestial Spirit Fruit, you must not do anything foolish for me, because it's possible that I may never be able to obtain it in my entire life. "

Long Chen's words allowed Ling Xi, who was always blaming himself, to calm down.

"Little Xi, someone once told me that this world is too big, I am just a little genius from a small place. Even if I were to work hard in my life, the final result, in the eyes of the people from their world, would only be mediocre." Little Xi, someone once told me that this world is too big, I am just a little genius from a small place.

These were Li Xuanji's words, and Long Chen recorded them in his heart. However, he had never succumbed to these words before.

"So, if you don't take care of your body and I don't do anything, you will miss the chance to live with me for the rest of your life. So, be good and listen to me, understand?"

Ling Xi looked at the serious man in front of her, and was moved to the point where two streams of tears flowed down her cheeks. Towards this youth, she seemed to already have a feeling in her heart that exceeded even her family love, that kind of rousing, stimulating, and intense feeling that she had never experienced before in her entire life. She even felt that even if she were to die immediately after Long Chen, she wouldn't have a single bit of complaint.

"Brother Chen!"

"Hmm?" Seeing that Ling Xi had something to say, Long Chen quickly listened attentively.

"I've decided."

"What did you decide?" Long Chen asked.

Ling Xi was a little embarrassed. Her pale face gradually flushed red. She held back her emotions and finally said: "I, Ling Xi, will never marry unless it's you!"

"Huh?" Long Chen did not expect the little girl to say such bold words, causing him to be stunned for a moment. Finally, he looked at the girl who spoke her heart out loud, and his heart was moved.

"Ling Xi, I will live up to what you said to me today. I won't say anything else. You already know what I mean, so I'll immediately chase that demon beast out. Do as I say, and it will be fine! "

"En!" Ling Xi nodded heavily.

Without saying a word, Long Chen directly rushed towards the waterfall while carrying his green dragon halberd. When he was near, a cold light flashed in his eyes, and he immediately rushed into the waterfall, causing water to splash everywhere. Just as he rushed into the cave, a wave of angry beast roars towards Long Chen, almost sending him flying!

Blood!

The moment he rushed in, Long Chen could smell the blood stench that filled the air. He focused and saw that there was a Goblin Beast lying in the cave, staring at Long Chen with hatred! This was a huge beast covered in thick, black scales. Its overall shape was similar to that of the pangolin, but it was much more terrifying than that of the pangolin. On its back was a row of sharp black spikes. The only difference was that this demon beast's head was like a dragon's head. The single horn on its forehead released an ice-cold light, and its sharpness probably even surpassed Long Chen's green dragon halberd!

"Earth Stage Seven, Euphorbidion?" Long Chen was a little surprised, he never thought that he would actually meet such a demon beast in the Misty Valley. This Euphorbidion's name had the word "dragon" in it, and it was believed that it possessed the blood of the Ancient Dragon God. Of course, this was only a legend, if there really was a Divine Dragon bloodline in it, then this Euphorbidion would not be at its current level.

Seeing the current state of the Euphorbidion, Long Chen almost laughed out loud.

It was obvious that the Euphorbidion was trying to control the blood from flowing out, but it was still bleeding profusely. The most serious injury was one of its forelimbs, and it was actually cut off completely and disappeared without a trace. Just as the blood was about to flow out from the severed limb, under the control of the Euphorbidion, it did not surge out again.

But, what if we add Devouring Blood Realm?

Long Chen knew that this Euphorbidion was obviously injured to such an extent by other people, so when he saw Long Chen, his eyes were obviously filled with anger. Long Chen had already made a decision, the moment he entered the cave, the green dragon halberd in his hand would immediately throw itself at him, just like how it did when it killed the thunder birds. Although the wound was not deep, the piercing pain was enough to enrage the Euphorbidion!

Long Chen retrieved his green dragon halberd and immediately rushed outside. As expected, the Euphorbidion that was in the midst of recuperating did not hold back as it crazily chased after Long Chen. Since there was a word in his name, it naturally meant that he was extremely irritable.

It was very correct for Long Chen to use this method to lure it away.

After rushing out of the waterfall, Long Chen quickly shot a glance at the little wolf who was hiding at the side, then quickly fled far away. In the next moment, the Euphorbidion's gigantic body rushed out of the waterfall, and immediately splashed out in all directions. Ling Xi was so scared that she hid behind the boulder in front of him.

Seeing the Goblin Beast that was chasing Long Chen, although it was strong, its entire body was drenched in blood, and even one of its lower limbs was missing, Ling Xi heaved a sigh of relief, because she knew that no matter how strong this Goblin Beast was, it would not be a threat to Long Chen.

"Brother Chen, you have to be good and well!"

Ling Xi revealed a determined look, and then, under the protection of the little wolf, she entered the waterfall!

"If I make such a loud noise here, I think I'll attract the other commanders over to this direction!" Long Chen silently calculated the distance between him and the waterfall, it was no longer close, and only after ensuring that Ling Xi's side was absolutely safe, did he stop, and prepare to deal with the Euphorbidion!

On the road here, blood kept flowing out of the Euphorbidion's body. Of course Long Chen would not let this opportunity go, so he used the Devouring Blood Realm to a very weak point, where he absorbed all the beast blood that flowed out from the Euphorbidion's body.

"If this Euphorbidion pursues us all the way, it will leave a trail of blood on the ground. If they discover this path of blood, it will be very easy to find the end of the path of blood — — Waterfall. At that time, Ling Xi will definitely be exposed!"

This was why even though Long Chen was running in front, he was still collecting beast blood!

At this time, Long Chen turned his head around, he was still in the state of beast spirit transformation. Holding onto the green dragon halberd, he looked at the enormous Euphorbidion in front of him, and didn't even furrow his brows.

"He bled so much, and he still wants to be my enemy. What a stupid donkey, I'll let you experience the Devouring Blood Realm!" In an instant, the Euphorbidion was completely surrounded by a red mist, and in a large area of its surroundings, there was quite a bit of blood red mist flying, which transformed into a faint dragon image. This was a true Divine Dragon, thus, Long Chen did not expect that the Devouring Blood Realm's Qi would cause the Euphorbidion to be afraid!

A majestic Demon Beast of the Earth Stage Seven was actually trembling and wailing in the Devouring Blood Realm. Long Chen had increased the power of the Devouring Blood Realm to the maximum. The

Euphorbidion's demonic powers were not able to sustain such a huge devouring power, and when one of the wounds was broken through by Long Chen, the other had also broken through!

In order to lessen this fellow's terror, when this fellow lost all of its resistance, Long Chen used her green dragon halberd to directly cut off its throat, ending its life!

#### Chapter 326 - fifth level of the Milky Way Realm

The battle with the Euphorbidion had already caused quite a big commotion. Long Chen believed that if the five commanders had already entered the Misty Valley, the current them should have already noticed the commotion. Without further ado, after killing the Euphorbidion, Long Chen started to refine its blood and Qi.

The current Long Chen, was just a 4th level of the Milky Way Realm. To him, the bloodline of a Earth Stage Seven demon beast was still extremely useful. In terms of Milky Way Realm, Long Chen had gradually figured out the rules. Generally speaking, demon beasts that had a rank above him, wouldn't have much use towards him, but demon beasts that had a rank above him could only be said to have a rank below him. Only demon beasts that had a rank above him, such as the current Euphorbidion, would have a bloodline that could raise Long Chen by a whole level!

However, if the Euphorbidion was not heavily injured, Long Chen would not be its match at all, so, it was very difficult for Long Chen, who did not have a backer, to rely on Blood Refinement Qi to quickly become stronger, and Blood Refinement Qi was not something that could be used easily either. Just like these few times, because Long Chen had been using it too often, the murderous intent of the Primordial Blood Spirit Dragon had already gradually surfaced in his heart, making it difficult for him to control it while he was fighting.

However, this escape was not like the past where he could peacefully cultivate. If he did not refine his blood into a Qi and did not become strong enough, it would be impossible for him to survive! Therefore, continuously using the Blood Refinement Qi was something that Long Chen had no way of doing!

Under Long Chen's control, the blood from the Earth Stage Seven demon beast surged towards his body, and gradually blended into his body, while some of the trash in the blood turned into blood mist from Long Chen's body, and was sent flying!

"The effect of the Euphorbidion's bloodline is really good!" Long Chen was a little emotional, at the same time that he was rapidly converting his Innate Qi, he was also channeling it into his fifth star vein.

The upgrade of Milky Way Realm required a large number of Tianhe Dan. When she broke through the 4th level of the Milky Way Realm, Long Chen had actually already used up most of the Tianhe Dan The Devil Emperor of the Burning Heaven had given him. Coincidentally, after getting rid of the Ninth Prince, Long Chen had acquired around a hundred thousand Tianhe Dan from him.

As he used the Tianhe Dan to construct the starry sky, he also used the Blood Refinement Qi to refine more true energy and returned it to his star veins. Time slowly passed, and the fifth pair of stars also quickly formed within his body. Because the last time he condensed the fourth pair of Milky Way, Long Chen was unable to absorb the power of the stars from the fourth pair of galaxies, and the galaxy inside his body was very stable as well. Thus, he passed through the time interval and directly condensed the fifth pair of galaxies out from within his body!

fifth level of the Milky Way Realm!

Bright starlight suddenly exploded from Long Chen's body. From now on, the integrity of the river of stars in his body was more than half of what it was! There were a total of 18 galaxies, inside Long Chen's body, there were already 10 galaxies flowing through, the True Qi circulated within them, as though it was the resplendent star amongst them!

"The strength of the fifth level of the Milky Way Realm is truly worthy of thanking this Euphorbidion, and the one who injured it too," At this time, Long Chen's eyes were shining with a dense blood light, his strength had indeed entered the fifth level of the Milky Way Realm, adding all sorts of innate gifts, the destructive power of the seventh level of the Milky Way Realm would not be a problem at all, but the problem was, his killing aura that belonged to the Primordial Blood Spirit Dragon, was even thicker.

"It seems that after this successful escape, I must find a way to solve this problem of mine." Long Chen frowned as he thought.

From the moment he made a ruckus, defeated the Euphorbidion, and then successfully levelled up to the fifth level of the Milky Way Realm, not much time had passed before Long Chen believed that with him making such a ruckus, the other party would definitely rush over. The current him, as long as Ling Xi was not by her side, with the ability of Blood Escape, he would forever be invincible!

Long Chen stabilised his strength and started to frantically smash against the rocks. One after another, explosions sounded out in the Misty Valley, and his high-profile actions, very quickly, attracted one of the commanders over. This was also a tall and sturdy middle-aged man with a face full of stubble and fierceness. His eyes revealed a ferocious light, especially when he saw Long Chen.

It was Long Chen who killed his mount, the Thunderbird, which caused him to fall from the sky and lose all his face.

"Why is there only you?" Long Chen was a little suspicious, but immediately he understood. The five commanders definitely split up after entering the Misty Valley, and went to search for Long Chen's movements everywhere. Sure enough, as Long Chen was speaking, the Sixth Commander sent a signal fireworks into the sky. After a while, the others arrived quickly as well.

"I would also like to ask, why is it only you? Where's that pretty girl? And that demon wolf?" Sixth Commander's face darkened as he walked towards Long Chen. Because, when he heard that Long Chen had killed Seventh Commander in an instant, and was only stronger than him, he was prepared to delay for a little while for other people to arrive!

But how could Long Chen let him do as he pleased? The current Long Chen could already contend against this fellow in terms of Innate Qi, but Long Chen had other methods that were difficult to compare with!

Without a second word, Long Chen charged towards him. To Long Chen, every commander was a huge threat, so naturally, he had to kill one less!

"Make a move? I'm not afraid of you!" Sixth Commander glared, the muscles on his body tensed up as he charged towards Long Chen! This guy was clearly a master in close combat. His body was incredibly strong, and should be a body tempering technique that had mastered Earth Stage Medium. The muscles all over his body were slightly gray, and he looked no different from hard rocks!

"Long Chen, with your weak body, how could you withstand a punch from my Meteor Body? Haha! I heard that you killed the ninth prince and seventh brother. You should have used some despicable method to launch a sneak attack! A mere 4th level of the Milky Way Realm, what can you do about it?"

The wild laughter echoed within the Misty Valley.

"Idiot." Without saying a word, like the green dragon halberd in his hand, Long Chen instantly used Dragon Emperor's Destruction, transforming into a blood colored figure that rushed towards Sixth Commander! Long Chen realized that this was the ultimate move of the Azure Dragon Battle Method. Combined with the Spirit Devouring Demon Pupil that Li Xuanji had gifted him, he could unleash this move with unimaginable power!

That red line caused Sixth Commander to be dumbstruck. In his opinion, this red line of blood was no longer the tip of the green dragon halberd, but rather a Ancient Dragon God that could cover the sky and cover the earth. With such a huge pressure pressing down on his body, Sixth Commander discovered that no matter how strong his body was, he was almost unable to move.

The Spirit Devouring Demon Pupil gave him fear.

"Why?" Such a thought reverberated in his mind. The impact of such a scene was simply too great. When he realized that the Ancient Dragon God was right in front of his eyes, he realized that he was going to die!

Just at this time, that Ancient Dragon God had completely disappeared, leaving behind only a green dragon halberd that had already stabbed into his chest! The green dragon halberd directly pierced through his chest and abdomen!

Sixth Commander looked at the young man in front of him with a look of disbelief. What he truly did not expect was that he would die so quickly at the hands of his opponent? What exactly was Long Chen?

Why would a mere realm of 4th level of the Milky Way Realm be able to unleash such a terrifying combat strength? Where did all his strange methods come from?

Before dying, Sixth Commander had a feeling that this time's assassination attempt might not go as smoothly as everyone had imagined. At least, at the current position, the Sixth Commander and the Seventh Commander were already dead.

The corpse crashed to the ground.

"As expected, the power of my fifth level of the Milky Way Realm has increased by ten times. I can directly kill them with my green dragon halberd. Of course, the most powerful one is still the Spirit Devouring Demon Pupil. Charm, this move, actually has an effect similar to an illusion. As long as he looks into my eyes, he will be stunned for a period of time. "

After successfully killing the Sixth Commander, Long Chen did not loosen his guard in the slightest.

"There are four more. They should be arriving soon. "

Long Chen reckoned that the two seventh level of the Milky Way Realm warriors should arrive at the place faster than him, but he was wrong. After a while, the ones who came here were the other two commander, which should be the Fourth Commander and the Fifth Commander. When they arrived here, they saw the corpse of the Sixth Commander, and without saying a word, they started charging towards Long Chen!

"Strange, where are the other two seventh level of the Milky Way Realm people? When the signal fireworks was released, they did not actually arrive first?" Long Chen was a little anxious in his heart.

However, the two people in front of him were already rushing towards him. Long Chen did not dare to be negligent, and immediately brandished his green dragon halberd, and rushed towards the two of them!

"divine fire clone!" During the process of the fierce battle, Long Chen had instantly released one hundred and twenty-five divine fire clone. With the help of this huge number of divine fire clone, Long Chen quickly killed the Fifth and Fourth Commanders. Currently, every one of the divine fire clone had the combat strength of 4th level of the Milky Way Realm. More than a hundred of them surrounded one of the commanders and with Long Chen's help, they quickly killed the other party!

However, after quickly killing the two commanders, Long Chen realized that something was wrong.

"Could it be that they found out where Ling Xi is, and did not fall into my plan to lure the tiger out of the mountain?" Thinking up to here, Long Chen started to panic. Just as he had expected, at this moment, the little wolf's angry roars came from afar!

## Chapter 327 - Second Commander

After hearing the wolf cub's angry roar, the bloodlust and bloodshed factors within the Primordial Blood Spirit Dragon attribute completely exploded out. A strong killing intent instantly exploded out from within Long Chen's body.

Long Chen knew that with Xiao Lang's current fighting strength of Earth Rank Level 5, in addition to the divine fire clone, he could at most contend against one seventh level of the Milky Way Realm warrior. But to deal with two seventh level of the Milky Way Realm s, that was simply impossible!

In other words, their current situation was extremely critical.

Long Chen let out a roar of unwillingness to die, at this moment, he directly ignited his True Qi and erupted out his blood escape technique. Even with just his fifth level of the Milky Way Realm, the moment the blood escape technique erupted, the speed of the beast had already surpassed the speed of the beast. With such a speed, it was only ten breaths of time before Long Chen would be able to rush to the center of the waterfall!

"How did they manage to discover Ling Xi's whereabouts?" This was a question that Long Chen could not understand no matter how much he thought about it. His plan had originally been a very successful one. After fighting with the Euphorbidion and levelling up, at the same time, attracting all the enemies towards his direction with a loud noise, this way, it would be very difficult for the enemy to find Ling Xi who was hiding in the cave. Originally, everything had gone according to plan, but why did something go wrong at the last moment?

Since he didn't understand, Long Chen stopped thinking about it, because he knew that as long as he reached the other side of the waterfall, he would be able to find the answer.

This was an unforgettable lesson for Long Chen. He understood that not everyone could give him a firm grasp over this matter.

When "Ling Xi" was near the waterfall, Long Chen had already withdrawn her Blood Escape, although in the short distance, Long Chen had already consumed close to a tenth of her True Qi. Long Chen had to maintain enough true qi in order to face the opponents of the two great seventh level of the Milky Way Realm in the remaining time!

A lot of time had already passed, how was Ling Xi? Would the other party go crazy and kill Ling Xi? This series of questions made Long Chen's head turn red, and his eyes turn completely blood-red!

If something were to happen to Ling Xi, he would never forgive herself, not even in her entire life!

The waterfall was right in front of his eyes, and Long Chen quickly reached there. At this moment, he was completely prepared to fight, because from afar, he could already see all the divine fire clones of the Little Wolf were crazily attacking!

It was at this time that Long Chen rushed over. Then, he astonishingly saw that under the encirclement of the little wolf divine fire clone, Ling Xi had already been captured by one of the middle-aged robust men. As for the other beautiful woman, she was busy resisting the little wolf's all-out attack!

Long Chen's appearance instantly attracted the attention of everyone present. Seeing Long Chen's arrival, the two commanders both smiled.

"You still know how to come back? If you don't come back, this beautiful young lady will die." Seeing Long Chen's furious face, the beautiful woman giggled. Although it was a woman, to be able to climb up to the position of Third Master of Imperial Guard Army, it could be seen that this woman was not simple at all.

As for the middle-aged man controlling Ling Xi, her face was cold and her eyes burst with waves of cold lightning. She looked at Long Chen gloomily and the blood aura on his body.

"Looks like you've killed the other commanders?" The cold middle-aged man, or in other words, the Second Commander, said in a cold voice.

Ling Xi was being controlled by the opponent, Long Chen knew that what he needed the most right now was to remain calm, even though he was already close to exploding, for Ling Xi's sake, he could only clench his teeth, and suppress the urge to attack!

As long as this was the case, he could guarantee Ling Xi's safety!

wanted him to protect Ling Xi, but he did not complete the mission. To him, he simply had no way of facing Long Chen, which was why he attacked him so crazily! Even the beautiful woman with seventh level of the Milky Way Realm had no way out under the attacks of the little wolf.

Long Chen stopped the wolf cub's attack and said: "Little Wolf, don't be like this. The opponent has two seventh level of the Milky Way Realm s and I don't blame you.

After comforting Xiao Lang, Long Chen looked at Ling Xi and gave the pale Ling Xi a look that made her feel calm. Only then did Long Chen look at the two people who were standing high above her and asked, "I'm very curious, how exactly did you guys find this place? Logically speaking, shouldn't you guys have acted according to the signal fireworks and taken care of me? "

"Little brother, I can't help but praise him. He is indeed meticulous and courageous, but what a pity, you met us? Do you know what this is? " The beautiful woman laughed as she trembled. As she laughed, she raised her arm, at this time, a small demon beast drilled out of her sleeve. It looked at Long Chen with its beady eyes, and immediately retracted its arm.

This is a Lotus Marten, only a Yellow Rank Level One. It can't even be considered a Demon Beast, but it has a very special characteristic, and that is, it is very sensitive to the fragrance of lotuses. Even though it is several miles away, it can still smell the scent of lotuses, and you are covered in the scent of lotuses.

The Third Commander, who was also the beautiful woman, had finally revealed the reason to Long Chen. This time, he was wholeheartedly convinced. No matter how meticulous his thinking was, he would never have thought that there would be a problem here.

"Speak, what do you want?" Long Chen knew that they had caught Ling Xi, but they did not immediately kill him. Clearly, they wanted to use him as a threat. He did not know how the situation would change. Even if it was the current Long Chen, he would most likely die in the hands of these two because of her relationship with Ling Xi.

"What do we want?" The middle-aged man, or in other words, the Second Commander, sneered coldly: "You killed four of my brothers, so I will naturally let you have a taste of the death of the person beside you. Today, this little girl and this beast are both going to die, but Long Chen, you surrender, and we will bring you back to the imperial city, so the imperial family will naturally take care of you! "

The Second Commander was overbearing and showed off his might to Long Chen, who was indeed frightened. The current Long Chen had a huge amount of anger in his heart, but he could only force himself to calm down. Only by remaining calm could there be a chance for survival today.

"You two have truly broadened my horizons. As the second and third commanders of the Imperial Guard Army, you actually used hostages to threaten a mere 4th level of the Milky Way Realm of mine. This truly has broadened my horizons, seventh level of the Milky Way Realm, even though you two can crush me to death with a wave of a hand, but you two still need to use this method. It seems like you two don't have the confidence to fight me head on." Long Chen looked at them, his face full of ridicule.

"Hehe, Long Chen, you don't have to provoke us. We are not fools, we won't be fooled." The Third Commander's beautiful eyes swept across Long Chen's body, and said slowly: "This beautiful girl, we can not kill her first, after all he is such a beauty, and if we present his to Your Majesty, wouldn't the two of us get promoted to wealth? However, this demon beast was really annoying! Therefore, it had to die! Second brother, I will kill this beast now, and as for Long Chen, I will leave it to you to tame! "

This beautiful woman was a kind person, but the meaning behind his words made Long Chen's scalp go numb. Long Chen knew that if he was unable to get through this trial today, their results would be disastrous!

The Third Commander wanted to personally deal with the wolf cub, but the wolf cub was also full of fighting spirit for her!

"Wolf, are you sure?" Long Chen frowned and asked. If the little wolf could help him share an opponent, it would be easier for Long Chen to deal with.

The wolf cub nodded without hesitation. His pure eyes were filled with bloodlust. Since he did not complete his mission this time, he was blaming himself in his heart. Therefore, he had already decided that even if he had to die, he would tear this damnable woman in front of him into pieces!

"Go on, I believe in you!" Long Chen treated Xiao Lang as his closest brother. Between brothers, there wasn't that much restraint and politeness.

The wolf cub nodded. He gave the lady a provocative glance and growled at her. Then, with a few flashes, he appeared a hundred meters away in a mountain rock! There, he could do whatever he wanted to deal with this woman from the seventh level of the Milky Way Realm!

Sun Devouring Demonic Wolf, this was the terrifying demon beast that could grow the most, how could he lose to her?

The wolf cub's provocative look made the third commander laugh even more. This was the first time she had seen such a human-like demon beast.

"Looks like this little bastard is quite smart. It's just that his eyes are really annoying, forget it." I will go and take his life first. Second brother, play around with this little fellow and let him see your unparalleled close-combat skill! "

"Of course I wouldn't treat this kid unfairly." The Second Commander laughed, but his smile contained the cruelty of ice.

After she finished speaking, the beautiful woman did not speak anymore. She looked pitifully at Long Chen and Ling Xi for a moment, then immediately left. When she faced the little wolf, her entire body was already filled with killing intent.

"An animal dares to look at me like that? You're tired of living!"

A battle, had instantly started right next to Long Chen! Although Long Chen was concerned about Little Wolf's life and death, he knew that his opponent was right in front of him and Ling Xi was still in his hands, so he could not watch!

Looking at Long Chen, Ling Xi was incomparably flustered. By her side, Second Commander, who was controlling him, emitted a baleful aura that made her tremble a little.

"This Second Commander, seems like he's also an expert in the body tempering technique. His physique is definitely stronger than the meteorite from earlier, it should be the high-rank earth class's body tempering technique!" Long Chen looked at him coldly.

#### Chapter 328 - Fatal Five Fists

At a critical moment.

The Little Wolf at the side and the Third Commander's battle intent overflowed, while Long Chen, who was forced to do so by himself, looked at the Second Commander calmly, even though his body was already completely boiling over.

"You guessed right, I do have the body tempering technique s of the high-rank earth class." Seeing Long Chen's serious expression, Second Commander said indifferently. I have always had a keen intuition, so I can sense that if I let go of her, you even have the strength to contend against me. I have always been cautious in everything I do, so when this girl is in my hands, I will rely on her to cripple you. "

"The decree His Majesty gave me is that you should not be killed, because I want to bring you back so that he can execute you, but I can cripple you. You killed so many of my brothers, so I can't let them die in vain, can I?"

Long Chen looked at him. He did not speak, but his mind was quickly thinking of a countermeasure.

At this time, Second Commander looked at Ling Xi and said: "It is indeed a calamity, no wonder you had the guts to kill the Ninth Prince, your good luck has already come to an end. From now on, I will bring her to attack you, and if you have the slightest chance of resisting, I will send the same attack to her.

"You bastard!" was anxious, the strength of the Second Commander was originally stronger than Long Chen's, if Long Chen could not retaliate, how many moves would he be able to endure?

"Alright!" Long Chen's face darkened, and immediately agreed, which was outside of Second Commander's expectations.

"So bold?" Second Commander let out a cold laugh. He grabbed Ling Xi's arm with one hand, and with a playful sound, he charged towards Long Chen. The speed of his seventh level of the Milky Way Realm appeared in front of Long Chen in an instant.

"I'll give you a simple move first!"

An ordinary punch struck towards Long Chen's lower abdomen!

"Quickly dodge!" At this time, Ling Xi's arm was in pain because of Second Commander, her entire body was almost falling apart, but how could she have the time to care about her own situation, under Second Commander's threatening words, Long Chen actually did not dodge, he stared straight at Second Commander and did not move!

With a hong sound, Long Chen flew out and crashed into the mountain wall. Instantly, countless of mountain rocks rolled down from above, and a rumbling sound could be heard.

This heavy punch caused traces of blood to flow out of the corner of Long Chen's mouth. However, he immediately wiped away the blood, and looked at Second Commander with his wild and untamed eyes, laughing mockingly: "Old man, did you not eat yet, or did you spend all your strength on the female pig's stomach last night? Why do you have to be so soft?"

"Don't try to be brave in front of me." Second Commander remained unmoved and continued to speak: "I will increase my strength with every punch, and punch with the Great Circle of Heaven Punching, this fist technique will completely shatter your body, until you are crippled. That was my first punch, after five punches, all the meridians in your body will be broken, and your true qi will be crippled!"

"Then what if I endure five punches and still don't become a cripple? Old man, do you have the guts to fight me head on!" Long Chen's eyes were covered with blood color. Although he was injured, his head was still proud and unyielding. The provocation in his words caused Second Commander to feel extremely uncomfortable.

"If you can withstand five punches and still have the strength to fight, I'll give you a fair chance to fight." The Second Commander said indifferently.

Even if Long Chen was able to endure five moves, he had not become a cripple. At that time, he would definitely be heavily injured, and with his complete seventh level of the Milky Way Realm, he would be able to deal with the severely injured Long Chen. The Second Commander was obviously in an invincible position.

"You are the one who said it, don't go back on your word like a grandson when the time comes. I can see that even the royal family's lackeys don't have any seeds. You still have some spine, don't let laozi find out that you're a weakling when the time comes, and you dare to spout bullshit but don't dare to admit it!" Long Chen said with a cold smile as he used Gui Yuan to heal his injuries.

But in reality, the middle grade Profound Rank life combat technique, Gui Yuan, was no longer effective on his body.

There was no time to refine the medicine right now, so Long Chen could only endure.

"Since we have an agreement, let's not waste any more words. Does my words count as anything? Just watch." The Second Commander said indifferently.

Ling Xi had completely heard of their opponent. Looking at the stubborn youth in front of her who was drenched in blood, the tears in her eyes dripped down. These past few days, Long Chen had brought her way too much, and the righteousness in the youth's eyes made her feel extremely uncomfortable.

"It's just because I'm useless."

For the first time in his life, Ling Xi developed an intense desire for power. Therefore, she never felt that there was any use in having her strength. When she saw today that the person she liked, in order to save herself, dared to accept such a preposterous gamble, Ling Xi's heart broke.

If there was a second chance, she swore that she would cultivate well. Even if she had to protect Long Chen for the rest of her life, she would be willing to do so.

But now, in order to prevent Long Chen from becoming a trash, Ling Xi only had one choice, and that was to die. As long as she died and gave up on this body, Long Chen would have a chance to defeat his opponent and escape far away.

"Ling Xi." Right at this moment, Long Chen looked at her with cold eyes, and said indifferently: "Don't do anything foolish for me, don't make me hate you."

The ice-cold words caused even Ling Xi's heart to tremble; with just a glance, Long Chen had seen through her decision. From Long Chen's eyes, Ling Xi saw a message: He was a man and he needed to trust him.

This gaze, made Ling Xi choose to give up.

"Stop being coquettish. If you all don't have a good life, then there's no need to be bashful about it." Second Commander laughed, then looked at Long Chen and said: "That was the first punch, now it's the second punch, are you ready?"

"Just stop tickling me." Long Chen arrogantly raised his head, there was not a trace of fear in his eyes.

"You stubborn brat." Second Commander laughed. In the process of laughing, his body suddenly accelerated, and instantly broke through Long Chen's surroundings. He punched out, exploding the air with his fist.

"Pah!"

With a crisp sound, the sound of Long Chen's bones breaking could be heard. A mouthful of fresh blood was spat out from Long Chen's mouth, and sprinkled onto the ground. This time, Long Chen rolled several times on the ground before he stood up without even frowning. Whoa!

"Brother Chen!" Ling Xi cried out in alarm. She thought Long Chen was definitely finished, but Long Chen was able to stand up very quickly, causing her to heave a sigh of relief. However, Long Chen's face, which was mostly covered in blood, was twitching.

He fell and stood up immediately. It was obvious that Long Chen's chest and abdomen had caved in a bit, but he didn't even bat an eye as he forcibly stood up and laughed coldly at Second Commander Jiang

Cheng. He mocked: "Old fellow, looks like you really aren't going to make it. It should be pretty good to be able to kill you, right? "

This time, Jiang Cheng did not speak. He was sure that Long Chen was injured, but the other party's willpower was truly shocking! Blood sprayed out, his chest and abdomen were caved in, his ribs were broken, such a pain, Long Chen's complexion did not change, he stood up immediately after falling, with such a character, if he was allowed to grow, it would be a huge disaster for the royal family in the future.

"We must capture this child today!" Thinking to this, the Second Commander did not speak anymore, and continued to send his third punch towards Long Chen. He had to get rid of Long Chen as soon as possible, because he could already see that there was a small problem in his third sister's fight with the little wolf girl. The wolf cub was not as easy to deal with as he had imagined, so after taking care of Long Chen, he needed to help her out.

The heavy injuries caused intense damage to his internal organs. With such a heavy injury, Long Chen crawled onto the ground as he vomited a few mouthfuls of blood, before he finally stood up shakily. He continued to maintain his composure, with his face covered in blood, and looked at Second Commander with a cold smile: "Can I ask, what kind of position are you in, a female pig, taking? Up and down? Left or right? Or back and forth? "

"Foolish brat, give me another punch. I bet you will not be able to get up." The corner of Second Commander's mouth twitched. Long Chen's words were simply too humiliating, and this also increased the anger in his heart.

"What are you crying for?" Seeing Ling Xi's face covered in tears and crying so hard that her delicate body couldn't stop trembling, Second Commander was a little annoyed and said: "I have to say, the guy you like does indeed have some backbone, but the reality is this cruel. You don't even have the strength to tie up a chicken, yet you're so beautiful. As for today's youngster who is willing to endure my deadly attacks for your sake, just treat it as a memory. "

Even if he stood on the imperial family's side, he had no choice but to admit that Long Chen was definitely a shocking character. It could be seen from his eyes, his attitude, and his fighting spirit.

"Xiao Xi", Ling Xi had also seen Ling Xi's crying, and it caused her heart to feel waves of pain. However, with the enemy still in front of him, he had no choice but to grit his teeth and endure the heart-wrenching pain as she looked at Second Commander and said, "Old man, there are still two more punches. If you can't do it, then we will fight fair and square, and have a duel!"

"No, Brother Chen, no, I don't want you to die!" The ordinary person's body brought Ling Xi too much pain, and she wanted to rush forward to block Long Chen, but unfortunately, in the midst of Second Commander's imprisonment, she couldn't move an inch!

"Old man, don't dawdle, laozi is in a hurry, give laozi another punch and let laozi tickle!" Long Chen no longer looked at Ling Xi.

"How reckless. I'll grant you that wish. " Second Commander sneered and sent Long Chen flying once again with a punch. This time Long Chen directly fell into the deep pool below the waterfall.

Chapter 329 - Great Evolution Fist

Pow!

Water splashed everywhere as Long Chen swiftly sank into the deep pool. The blood from his body directly dyed the surrounding green water red. A bloody aura gushed out from the deep pool.

"Is he dead?" Second Commander frowned, he had to do his best to rescue Long Chen, if Long Chen died, his contributions would be greatly reduced.

Seeing Long Chen sink into the deep pool, Ling Xi's mind was blank. She was powerless as she knelt on the ground and stared at the light red pool of water below with wide eyes.

Tears welled up.

Panic, powerlessness, fear, and despair, these emotions, at this moment, instantly knocked Ling Xi down and caused her to completely lose the desire to live. None of them realized that after today, they had long ago connected into one and the same entity. The moment Long Chen had jumped down the abyss where the Star Demon Prison was located, they were already destined to live and die together. So if Long Chen died, Ling Xi definitely had no intention of surviving in this world.

With Ling Xi's current body, if she wanted to die, it would be a simple matter. She immediately jumped into the deep pool, and did not enter Ling Xi's sword, as long as she did not enter Ling Xi's sword, her soul's energy would be depleted in just a few days.

Thinking of this, Ling Xi clenched her teeth, and began to walk deeper into the pool.

Because he thought that Long Chen was probably dead, Second Commander had already let him go. He did not expect Ling Xi to be so daring as to use her own life to follow Long Chen.

Just as he was about to pull Ling Xi back, right at this moment, Long Chen's head came out of the water, just in time to see Ling Xi poking his head out from above.

"Scram back." Long Chen scolded.

Ling Xi cried even harder. This was the feeling of rising from hell to heaven. Although Long Chen was scolding her, she was still incomparably happy.

Using his Innate Qi to push away the water, Long Chen barely managed to rush to the shore. However, when he landed, he staggered a few times before barely managing to stabilize himself. Because of the clean water, there was less blood on his body, and the blood on his face had disappeared. However, his face was now extremely pale, and it was obvious how serious his injuries were after those four punches!

Only, he gritted his teeth and continued to forcefully endure. At this time, Long Chen's internal organs were completely dislocated, and quite a few of his bones had been broken. Even though he was forcefully standing, looking carefully, one could still see the deformity on his body.

"Don't continue!" Ling Xi really couldn't hold back anymore. Although there was only one punch left, but she knew that with this Jiang Cheng's ruthlessness, his final punch would definitely use 200% of his strength. His intention was to directly beat Long Chen into a useless person, and even cause him to die!

"Brother Chen, I beg of you, please don't continue. Just do as I say. Even if I die, wouldn't I still be accompanying you?" Under Jiang Cheng's control, Ling Xi asked weakly.

"Enough, there's only one punch left." You think this trash can kill me? " Long Chen pointed at Jiang Cheng, and laughed coldly: "A dignified Imperial Guard Army, yet your seventh level of the Milky Way Realm is so useless; truly ridiculous to the extreme. "It seems like your family has too many sows, and the Lord Commander is busy with breeding, so he has no time to bother with boxing!"

"Kid, enough! This time, I have decided to directly take your life! " Jiang Cheng roared out. After having been humiliated by Long Chen in succession, he had also gotten angry, and now, he grabbed Ling Xi's arm into his hands and looked at Long Chen coldly. "Great Circle Swing, one punch is stronger than

another, and this punch of mine, can directly kill any practitioner of seventh level of the Milky Way Realm.

With that, Jiang Cheng gave Long Chen no more chances. Under Ling Xi's despairing gaze, a strong aura burst forth from his body, and she dodged suddenly and threw out a punch, as though the entire world was hidden in the fist in his hand. With the force of the heaven and earth, the last punch landed on Long Chen's body!

A total of five punches, Long Chen actually did not even have a chance to resist a single punch!

This kind of mentality made even Jiang Cheng's heart tremble. He had to admit, Long Chen was definitely the most terrifying young man he had ever seen! He believed that if they were to fight normally, it was very likely that he would not be this young man's match. It was only at this moment that he realised how correct he had been in using Ling Xi to threaten Long Chen!

"Great Circulation Heaven Punching Fist, Great Evolution Fist!"

BOOM!

With a huge explosion, Long Chen was struck against the mountain wall once again. The huge impact force caused his entire body to sink into the mountain wall.

Beneath the ground, blood spilled all over the ground.

This punch was extremely powerful, and compared to the fourth punch, the fifth punch was basically multiple times stronger. In order to get rid of Long Chen, Jiang Cheng had already used all of his strength. When this fist truly struck Long Chen's body, he understood clearly in his heart that Long Chen was already done for. With his meridians shattered and his bones shattered, he did not believe that Long Chen would still be able to survive.

"Young man, in the end, you're still too impulsive. It's just that you're a beautiful woman. For the sake of beauty, you actually lost your life." Jiang Cheng shook his head, and looked at the Ling Xi in his hand, at this time, Ling Xi seemed to have lost her life, if one were to say, that Ling Xi still had a trace of luck on her fourth punch, and chose to believe Long Chen's words, then on the fifth punch, she would already have lost all hope.

The moment Long Chen died, her heart also died. There were no tears, no despair, only satisfaction. With such a person willing to sacrifice his life for his, Ling Xi truly felt that she was already very happy and that she had lived enough.

In a human's life, no matter how long it was, even if it was a short life, they still got enough experience and obtained something that ordinary people couldn't. That was enough.

The only regret he had left was that he had killed Long Chen.

Along the way, even though she had given Long Chen quite a bit of help and also gave him a lot of smiles, Ling Xi believed that if not for the fact that she had foolishly flew over Long Chen's head that time, he would have been able to live a peaceful and peaceful life, and would not have been so young.

The Little Wolf's angry and despairing howls were like a bunch of knives slicing Ling Xi's heart.

"Little girl, think it through. His Majesty wants me to bring you back to see what kind of woman his son died because. I think that you will definitely have a difficult life in the future. Today's events will be an insignificant hour." Jiang Cheng was a little emotional.

He had originally wanted to cripple Long Chen, but in the end, Long Chen had truly made him afraid, and that was why he chose to kill Long Chen.

Letting go of Ling Xi, Jiang Cheng shook his head and walked straight towards Long Chen, muttering: "Brat, I can't bring you back to the Imperial City alive, I can only take care of your corpse and complete the quest. You killed four of my brothers, and without your corpse, I won't be able to account to their parents."

With Long Chen's strength, he had to face his seventh level of the Milky Way Realm's strongest move, and it was even with the coordination of his high level body tempering technique. If Long Chen was able to survive, then the sun would rise from the west. Jiang Cheng was a strong warrior and was confident in his strongest attack, so he did not mind and directly reached his hand into the mountain wall that was smashed open, wanting to pull out Long Chen's body.

Indeed, at this time, Long Chen no longer made any sound.

"It's all over." Jiang Cheng laughed, "Although Japanese's group of fools have more men, they aren't as smart and meticulous as Third Sister. Otherwise, it would be difficult for us to find this girl."

Jiang Cheng was very pleased with himself for completing the mission before the Japanese did.

Very quickly, he had already pulled on Long Chen's clothes. The clothes were sticky, and it should be blood.

At this time, under the frenzied attacks of the wolf cub, the hair of the third commander was completely burnt by the wolf cub. For a woman, hair was simply her life, so when the wolf cub succeeded, the third commander let out an earth-shattering scream.

"What's going on?" Jiang Cheng frowned, while pulling Long Chen along, he looked back!

Puff!

A green dragon halberd pierced his chest. After a twisting and turning, a huge hole suddenly appeared in Jiang Cheng's chest!

"Huh?" Lowering his head to look at the hole in front of his chest, Jiang Cheng was stunned. He looked up in disbelief to see a bloody figure, slowly crawling out of the deep pit on the mountain wall.

"Am I dreaming?" As his senses slowly faded, Jiang Cheng was in a daze, because he saw that Long Chen, who was drenched in blood, was already standing in front of him. The current him had eyes that were filled with dense blood red, as if an endless blood red divine dragon was roaring in his eyes.

There was not a single complete place on his body, but despite such heavy injuries, Long Chen stood tall and straight, looking at Jiang Cheng with a smile that was not a smile, his eyes were still filled with disdain.

Jiang Cheng realized that he was not dreaming.

"Long Chen, you are definitely a devil!" Jiang Cheng said with great difficulty, as his breath was fading. Facing the current Long Chen, he could not help but tremble all over, because this was the most

terrifying person he had ever seen in his life. It was not because of his strength, but his undefeatable will.

With this undefeatable will, there was nothing left. It would still be difficult for him.

"It's a pity that you're a trash that only knows how to fuck sows!" The green dragon halberd in his hand suddenly whipped out, and then, his ice-cold, bloodthirsty eyes looked towards Ling Xi.

"Xiao Xi, close your eyes."

His tone was instantly replaced with endless gentleness.

Ling Xi looked at this youth who was covered in blood, she no longer knew how to describe the shock in her heart. In her mind, the only thing that existed was the instructions Long Chen gave her earlier, which was to close her eyes!

"En!" Ling Xi nodded heavily!

Chapter 330 - White Lotus Heart

"Good girl."

When Ling Xi closed her eyes, she raised the green dragon halberd up. Pointing to Jiang Cheng, the current Jiang Cheng was already faintly breathing. He could barely stand in front of Long Chen, and the gaze with which he looked at Long Chen was filled with fear and despair. He knew that Long Chen was going to kill him, but he didn't know what form she was going to take.

"You punched me five times."

Long Chen walked to the front and said softly, "I never wanted to be at a disadvantage. You had punched me five times, and then I would have to chop six times before I would be satisfied.

With a swoosh, the green dragon halberd waved and cut off one of Jiang Cheng's arm. The arm flew out and smashed onto the battlefield between the Little Wolf and the Third Commander.

She wanted to rescue him, but the wolf cub turned around and stopped her.

Long Chen's resurrection filled the current Xiao Lang with fighting spirit. Xiao Lang knew that under normal circumstances, if he could not even beat this woman, he would not have the face to see Long Chen again!

Aooo!

The crazy attacks forced the Third Commander to retreat step by step.

"Old bastard, now it's your turn to say that I don't have any strength left. Do you dare to say that?" Long Chen smiled faintly.

In reality, Jiang Cheng had almost died. The pain had tortured him to the point that he was on the verge of death, it didn't matter to him if he lost an extra arm.

Of course he couldn't say anything. He slowly fell to the ground, staring blankly at the sky. His eyes were filled with endless fear and despair.

Seeing that he did not speak, Long Chen took the third cut off his other arm.

Jiang Cheng's body began to spasm.

"Fourth, fifth." These two times, they had chopped off Jiang Cheng's legs. At this moment, Jiang Cheng took another step forward before he died. His eyes began to turn white.

"Forget it, I'll give you a refreshing feeling." The sixth time, the green dragon halberd directly chopped off Jiang Cheng's neck. Looking at the broken body in front of him, Long Chen laughed weakly.

"No one can underestimate me, and defeat me."

Although his voice was not loud, his words were filled with endless pride.

After saying this, right at this time, the Third Commander let out a blood-curdling scream, and was completely engulfed in the Little Wolf divine fire clone's flames. She was not a match for the Little Wolf divine fire clone in the first place, and when Jiang Cheng died in the end, her heart fell into despair and

she lost his consciousness. Being burnt to charcoal by flames, her fate was pretty much the same as Jiang Cheng's.

The wolf cub retreated from the battle and fell to the ground, gasping for breath. Long Chen forced himself to take a few more steps forward and arrived before Ling Xi's eyes. The two of them and the wolf looked at each other, revealing smiles of having survived a calamity.

Just then, Long Chen fell to the ground.

"Brother Chen!" Ling Xi was shocked, she immediately pulled Long Chen up, and anxiously looked, her tears almost flowing out. Long Chen's body had too many bloodstains, and by doing so, they were all smeared on Ling Xi's body, causing her to almost turn into a bloody person.

He knew that under Jiang Cheng's terrifying attack, although Long Chen was not dead, his injuries were certain.

"I'm fine." In Ling Xi's soft embrace, Long Chen hurriedly forced out a smile. He was worried that these two fellows would lose their sense of propriety because they were worried about him. But in reality, Long Chen was already on the verge of death, and this time, he had also been infinitely close to death. But precisely because of the terrifying physique of this body, he had endured it time and time again, and even without the Origin Convergence, her body was gradually reforming at an astonishing rate under the nourishment of her blood. Long Chen knew that this was entirely thanks to the inherited blood essence.

"Bastard, you're already going to die, and you still say you're okay, wuu" Ling Xi's snot was full of tears, as he wiped Long Chen's blood all over his face. After today, Long Chen's figure was deeply engraved within her soul. It would never be erased. Only now did she know that Long Chen had a goal that he was trying to hold back with his five punches.

Only when the opponent had finished all five punches, thinking that Long Chen was definitely going to die, would Long Chen have the chance to kill him in one hit when the opponent relaxed.

This was a crazy gamble, but Long Chen had gambled correctly, so he was alive. Out of the seven great commanders of the Imperial Guard Army, six of them had already died. Those who came to hunt Long Chen down, all died!

If this news were to spread out, it would definitely shake the entire Canyang Kingdom, and Long Chen's name would become even more famous.

"Spiritual medicine" was a critical juncture, and this place was definitely not a safe place. Therefore, the most important thing for Long Chen to do now was to recover from this serious injury.

immediately took out a Cyan Jade Spirit Fruit, and placed it in his mouth. The Cyan Jade Spirit Fruit turned into a clear stream, and was swallowed by him, helping him to reincarnate from the inside out!

However, due to Long Chen's heavy injuries, a single Green Jade Spirit Fruit was not worth mentioning. But fortunately, because of the Cyan Jade Spirit Fruit, Long Chen had been pulled back from the brink of death.

"Let's go first. There are still a lot of Imperial Guard Army outside. We need to hurry on our way as fast as possible before we can finally escape." "So we can't delay."

"But Brother Chen, how are your injuries?" Ling Xi asked anxiously.

"It's fine, I can refine the spiritual medicine on the wolf cub's body." Long Chen patted her head and said while forcing a smile.

He struggled as he slowly stood up with Ling Xi's support.

Long Chen also raised his head to look in front of him. At this time, a black-clothed person slowly walked over from behind a boulder not too far away. This person was dressed in black, and his head was covered by a heavy black cape, making it impossible to see his appearance. Judging from her figure, she should be a young girl.

"Don't panic, I'm not an enemy." The girl said as they gradually drew closer. From her voice, Long Chen estimated that she should be around the same age as him. However, this young girl's mind was more mature now, and her tone of voice was more mature as well.

"What's the matter?" Long Chen reckoned that this person should have been lying in wait at the side, because he was so focused on dealing with Jiang Cheng, he did not immediately notice her existence. However, she had been watching at the side for so long, for what reason.

"I know you are suspecting me, there is absolutely no need for that. Let me tell you, I was the one who injured the Euphorbidion earlier, it fled in all directions and I caught up with you. I didn't expect you would get lucky in the end." The girl stopped ten metres away from Long Chen.

Long Chen was shocked. This girl was young, but was able to defeat the Euphorbidion unharmed. Didn't that mean her fighting strength was at eighth level of the Milky Way Realm? Such a young Ranker, it seemed like Lin Zichen was the only one in the entire imperial city!

"Let me be frank, I know your name, Long Chen right? These few days, it had been the talk of the town, and it had already spread across the entire Canyang Kingdom. I don't want to interfere with the matters between you and the royal family, but let me remind you that if you don't use the high-rank earth class's spirit medicine to heal your injuries, a large amount of hidden injuries will be left behind, which will have a negative impact on your future cultivation. I have the spirit medicine for the high-rank earth class, I can give it to you, but I need the beast spirit for the Euphorbidion, can we exchange it? "

Long Chen heaved a sigh of relief.

Honestly speaking, the conditions offered by this girl were extremely cheap for Long Chen. With her strength, if she forcibly snatched it away, Long Chen would not be able to hold her off at all, and with the Euphorbidion's beast spirit, it would belong to her anyway.

After advancing into the fifth level of the Milky Way Realm, Long Chen took advantage of the time he had spent to collect the Euphorbidion's beast spirit. At this moment, he took out a Soul Concentrating Orb from his Qiankun bag and threw it towards the girl.

The young girl took the Soul Concentrating Orb, and without saying a word, she threw a jade box to Long Chen: "Hurry up and refine it, let me remind you one more time, it seems like Japanese has already set out to slaughter you before Imperial Guard Army does. In the Japanese, there are practitioners who have eighth level of the Milky Way Realm, so you can consider them as you. "

After she finished speaking, the girl immediately left in a flash.

"Thank you." Long Chen said his last sentence.

It was obvious that this girl was helping them. Not only did she give Long Chen the spirit medicine for his high-rank earth class, she even told Long Chen the important news. Who this mysterious girl was wasn't important, what was more important was that it would be even more troublesome as it shrouded Long Chen's head.

"Brother Chen, what should we do?" Ling Xi shivered in the night wind.

"Let's go." "Wolf, sorry to trouble you." Long Chen said firmly. He had never been afraid of Japanese.

Because his failure to protect Ling Xi had caused such difficulty for the day, the wolf cub had always felt ashamed of herself. Now that she was in her own place, he hurriedly crawled up, displayed her battle form, and directly carried Long Chen and Ling Xi onto her back.

Remembering the map, Long Chen pointed in a direction and told the little wolf to go in that direction.

As the little wolf was advancing at full speed, Long Chen opened the pellet the mysterious girl gave him.

"high-rank earth class, heart of the white lotus." The faint fragrance of lotus flowers wafted into his nose.

"Xiao Xi, this elixir smells exactly the same as your body." Long Chen laughed faintly.

Ling Xi lowered her head, feeling a little sad.

"It's precisely because of this rotten smell on my body that you're in danger." Ling Xi bit her lips, her eyes filled with endless self-blame.

"What are you thinking, you fool?" Long Chen patted her head, he looked up to the sky and after a night of fighting, the sky had just started to brighten, and behind him, the sun was rising from the east, its gold light slowly covering the entire ground.

"Little Xi, remember this," Long Chen smiled, and sunlight shone on his face, causing him to shine exceptionally brilliantly.

"All of my enemies, all of my tribulations, are the driving force behind my growth. One day, all of my enemies will be stepped on by me, and all of their tribulations will be crushed by me! At that time, you will realize that your man, Long Chen, will be the strongest existence in this world, in countless other worlds! "

Ling Xi looked at him excitedly, her eyes filled with adoration and adoration.

After a night of travel, her frail body had always been beside Long Chen.
