

War God 331

Chapter 331 - Second Chase

He had already walked a third of the distance, but Japanese was right behind him, so Long Chen could only take a roundabout route and play around as he advanced towards the west. Although it would be longer on the way, but it would increase his safety by quite a bit.

Long Chen's physique was extremely astonishing. In just a few short days, under the nourishment of Bai Lian's heart, his body gradually recovered from his severe injuries. Three days had passed, and he had already recovered almost all of his combat strength. The spirit medicines of the high-rank earth class were indeed extraordinary.

However, because he used the Blood Refinement Qi too often, the Primordial Blood Spirit Dragon's bloodlust and killing attribute had already severely affected him. Long Chen longed to fight and kill every single moment of the time, and if not for Ling Xi who was watching him from the side, it would have been very easy for him to indulge himself and follow his personality to start a massacre.

After three days, Long Chen and the little wolf had already recovered to their most perfect condition. However, unfortunately, Ling Xi fell ill from cold that night. This illness would continue for three days, and it would become more and more serious. Long Chen had thought of all sorts of methods, but none of them were able to do anything. He had a lot of spirit herbs on him, but Ling Xi's body did not have any form of True Qi to refine, so she was unable to absorb it.

Seeing Ling Xi's body weaken day by day, Long Chen became anxious like a ant on a hot pan. He knew that the current Ling Xi only needed a very ordinary doctor, but the problem was, with their identity as a street rat, how could they dare to find a doctor?

"Brother Chen, stop blaming yourself, I'll be fine." Seeing that Long Chen, who was hugging himself, was a little anxious, Ling Xi immediately grabbed onto his hand, forcing the weakened him to reveal a smile, and comforted him.

"All of this can only be blamed on me for being too rash. Lil 'Xi, I'm truly sorry for making you suffer alongside me." If he hadn't killed the ninth prince back then and had merely defeated him, they wouldn't have fallen to such a desperate situation.

Ling Xi coughed a few times before looking at Long Chen seriously. "I don't know how to understand this, but I think being able to be together with you is the best thing that I can do, no matter what we are

doing now. But lying in your arms like this, I'm really happy. "This is the most beautiful few days of my life ... If you ask me to die now, I really don't have any regrets ..."

"Bullshit."

Long Chen patted her somewhat pale face, and said: "Stop speaking nonsense to me. I'm only trying my best to make you safe, if you don't care about your own life, how do you expect me to protect you?"

"I know I was wrong." Long Chen's words moved Ling Xi's heart as he hurriedly said. She coughed again. This time, he coughed even more thoroughly. Long Chen's heart twitched when he heard this. Ling Xi was like a treasure in his hands, like a beautiful white lotus flower. And now, this lotus flower was a little damaged and withered, so naturally, he felt extremely uncomfortable in her heart.

"The fever is getting worse." Moving his palm away from Ling Xi's forehead, Long Chen said with furrowed brows.

"It's fine, it's going to be fine soon. Xiao Xi will not become a burden for the Brother Chen, I will work hard!" Ling Xi held her tender fists and spoke with vigor.

Long Chen looked at her for a while.

"Little Wolf, find a town nearby and we'll disguise ourselves. I want to take Xiao Xi to see a doctor." Long Chen said firmly.

He knew, if he kept on rushing, and let Ling Xi experience the attacks of the gale, after a few days, her body would definitely collapse. At that time, even if Long Chen managed to escape the pursuit of the royalty, it would be meaningless.

"No!" It will cause trouble! " Ling Xi said anxiously, but because she was speaking in a rush, he couldn't help but cough.

"I've made up my mind. Don't say too much. Lil 'Xi, if there's any more trouble, I'll crush you to death with my foot."

There was a city called Clear Water City on the river side. Clear Water City was not big, and compared to crescent city, he was not much bigger. However, because Clear Water City is rich in divine jade, its resources are plentiful and it has a bit of a reputation in Canyang Kingdom.

Long Chen was currently outside the Clear Water City.

He definitely wouldn't go to the city gate, because he was simply courting death. Outside one of the city walls at the east side, Long Chen rushed into Clear Water City with Little Xi in his arms.

Actually, Long Chen had already entered the Clear Water City once before this. Inside Clear Water City, he found a remote alley and a house that no one seemed to be living in. And now, he had directly sent Ling Xi to this simple and crude house. Although the house was simple, it had everything he needed for living, and it was also quite warm, remote enough, and without many people, it was very suitable for Ling Xi to recuperate.

Long Chen swept the area and had the little wolf stay here to protect Ling Xi. Then, he said to Ling Xi: "Stay here well, I'll go find a doctor for you."

"Yes." Ling Xi nodded heavily.

After looking at her again, Long Chen finally walked out of the Clear Water City. Because of the lesson taught by the crescent city last time, he had basically walked in the shadows, and with his speed of fifth level of the Milky Way Realm, no one could see him. Among the Clear Water City s, the most powerful expert was only at the first or second level of Milky Way Realm.

After observing the Clear Water City for a long time, Long Chen finally found a middle-aged doctor. It should have been more than ten years since he started practicing medicine. He should be able to cure a simple cold easily. The reason why Ling Xi became more and more severe over the past three days was mostly because her physique was weak and he had been hurrying the entire time.

Long Chen followed the doctor back to the pharmacy, and when there was no one around, Long Chen appeared and said: "Doctor, help me treat a person, a thousand divine jade, how about it?"

When he was practising medicine, he could at most collect less than a divine jade. Long Chen instantly dropped a thousand divine jade, which made him a little stunned. In order to worry about whether he would believe it or not, Long Chen directly counted out a thousand divine jade from his Qiankun bag,

clattered on the table, and said: "These are all yours, I only need you to treat a very simple cold. Put away your tools and medicines and come with me? "

As a doctor who had seen countless people, with just a glance, he could tell that Long Chen was an extraordinary young Ranker. He straightforwardly took out thousands of divine jade. The doctor hesitated for a moment and eventually accepted. This was because he knew that someone like Long Chen would give away a lot of benefits. But if he did not do as he said, he would lose his life.

After keeping the thousand divine jade, the doctor said to Long Chen: "Lead the way."

He had already been out for a while, without saying a word, Long Chen grabbed onto the doctor's arm. The two of them were like a gust of wind, sweeping across the Clear Water City, and anyone who was outside could only feel a gust of wind sweeping past them, but they would not be able to see anything.

Soon, he returned to his original place.

Long Chen finally stopped. The high speed movement caused the doctor's face to turn pale, and he looked around in shock. It was clear that he did not know which part of the Clear Water City this small courtyard was.

"After you go in, don't ask too many questions. All you need to do is to treat the person inside and leave safely. Otherwise, the divine jade won't be yours, and its life won't be yours either."

Long Chen's threat made the middle-aged doctor's heart tremble. He did not dare speak anymore, and directly followed Long Chen into the room.

Seeing Long Chen coming back, Ling Xi's face lit up again.

It was the first time that the doctor had seen such a beautiful young lady, and from his point of view, Long Chen was undoubtedly evil and terrifying. However, this young lady who was like a white lotus in front of him had a pure and kind gaze, and had earned the doctor's goodwill.

"It was indeed the cold from the infection, and it was not treated effectively, and it has been working hard all the time, which is why it's so serious. However, I have practiced medicine for twenty years and still have a lot of experience with the cold."

After hearing and understanding, the doctor had already prescribed the ingredients. In fact, before he came, Long Chen had already instructed him to bring the necessary ingredients. It was said that a long time ago, doctors specialized in prescriptions and there were specialised pharmacies on the market. However, ever since the Cosmic Bag was popularized, ordinary doctors would directly bring medicine ingredients to practice medicine.

After prescribing the medicine, under Long Chen's request, the doctor went to the side to boil the medicine. Long Chen sat down beside Ling Xi, and looked at the weak and tender girl in pain, and asked: "Do you feel better lying here?"

"Hm!" Very good. " Ling Xi nodded her head, she was a little depressed and leaned close to Long Chen's ear, looking at the doctor who was refining the medicine not far away: "Brother Chen, are you going to kill him?"

Whether the doctor could recognize Long Chen or not, Long Chen did not. It was just that for Ling Xi's safety, he could not take the risk, so in his heart, he had already decided that even if she became an evil person, after Ling Xi was cured, he would immediately kill this doctor.

"Yes." Long Chen nodded his head.

"No, Brother Chen. A doctor has the heart of a parent. I can tell that this is a good doctor." Ling Xi could not bear to see that.

"Alright, then I will let him stay here for a few days. Only when we are about to leave the Clear Water City will he leave."

Some of the normal herbs were nourishing, and there was even a doctor specially attending to them, causing Ling Xi's condition to gradually improve. In just one day's time, her face had reddened slightly, and her fever had abated by more than half.

"As long as two more days pass, she'll probably be able to recover." The nearby doctor, was somewhat terrified in front of Long Chen.

"You can leave then." Long Chen said.

With this assurance, the doctor heaved a sigh of relief. It was as if he was living on the edge of a knife today. He had almost entered the gates of hell.

Another day had passed. Early in the morning on the second day, Long Chen was lying on his bed with the soundly asleep Ling Xi in his arms. Suddenly, his eyes turned cold as he crawled out of bed.

After covering Ling Xi's bed with a blanket, Long Chen bent over and kissed her pure white forehead.

Long Chen laughed, turned and pushed open the door, then walked out of the room.

Outside stood a large group of short fellows. They were the Da He family!

Chapter 332 - The Birth of Myth

Just now, Long Chen had already felt that there were many strong experts surrounding them. Amongst these Rankers, there were some that were strong to the point that even he felt his heart tremble. Without a doubt, these were all Rankers from the Japanese.

At this time, Song Zhongcheng had one eighth level of the Milky Way Realm in total, and nearly ten warriors of the seventh level of the Milky Way Realm. As for the warriors of the sixth stage of the fifth level of the Milky Way Realm, added together, there were almost a hundred of them. With so many experts, they had exhausted almost all of Japanese's power!

This time, not only had Long Chen killed Song Zhongcheng's most beloved son, he had also killed the Ninth Prince. As long as they killed Long Chen, not only would they be able to take revenge for Song Yuefeng, they would also be able to take credit for the Sword Emperor.

That was why Japanese had always been competing with Imperial Guard Army as they followed him all the way. When they found out that Imperial Guard Army was actually in Long Chen's hands and had lost all their troops, the Da He family's people were all shocked. At the same time, they had also received a lot of information. For example, the many Lotus Marten that they were holding in their hearts right now was information that had been leaked from the Imperial Guard Army.

It was precisely because of this Lotus Marten, and the fact that there were dozens of Lotus Marten, that Japanese found Long Chen and Ling Xi in this relatively remote city of the Clear Water City. Therefore, when Japanese used the Lotus Marten, as long as Long Chen's speed slowed down, it was bound to be discovered by them.

Long Chen was already very careful this time, but he didn't expect that he would still lose to the Lotus Marten, a small first rank Yellow Rank demon beast.

At this time, the Little Wolf was standing beside Long Chen, and that doctor, seeing so many ugly and sinister looking strangers, was so scared that his legs were trembling. It could be seen that these people were here to cause trouble for Long Chen, and they definitely weren't from Clear Water City.

"You can go first." Since it was already exposed, Long Chen did not want to make things difficult for the doctor. After all, he was the one who helped Ling Xi recover. Regarding safety, he had spent a lot of effort on the details, such as not letting the doctor go, but Ling Xi's body had that scent of a Herba Euphorbiae, which could not be hidden.

With Long Chen's permission, the doctor heaved a sigh of relief, he moved to the side, and was just about to leave from a place with fewer people in Japanese, just at this time, one of the youths from Japanese threw a punch into the air, killing the powerless doctor.

"Ba'e, a piece of trash like you wants to leave in front of the Da He family's Patriarch?"

That arrogant attitude did not put Long Chen in his eyes at all.

Long Chen clenched his fist tightly behind him.

Song Zhongcheng sized Long Chen up from head to toe, and laughed dryly before sighing with emotion: "Long Chen, your reputation has already shocked the entire Canyang Kingdom. Every single time, I would remind myself that I can't underestimate you, but later on I realized that I still underestimated you.

"But! Our Da He family has a great and glorious bloodline. All our trash can't even take a single blow from us! Including you, haha, I have to say, Lotus Marten is truly a good item, and it's them. Let us find them in the Clear Water City! "

The Japanese s roared with laughter. This Lotus Marten was originally the third commander of the Imperial Guard Army and he never thought that it would actually benefit the Japanese in the end. The Japanese followed suit and relied on the Lotus Marten to finally find Long Chen and then, with absolute superiority, completely besieged Long Chen.

With such a huge force, how could he not be victorious against a fifth level of the Milky Way Realm warrior? Therefore, Song Zhongcheng and the others felt relaxed. Although Long Chen was full of miracles, with Song Zhongcheng's eighth level of the Milky Way Realm, which was close to the pinnacle of combat strength, he couldn't possibly allow Long Chen to defeat him right?

In that case, Long Chen would not be a miracle, but a myth!

Legends were legends, they would never appear in reality.

Ling Xi was in the room behind him, sleeping peacefully. If Long Chen wanted to maintain the peace in her heart, he would have to pay the price of blood. Thus, his heart felt somewhat heavy. While the other party was speaking sarcastically, Long Chen was also estimating their fighting strength, and the result was undoubtedly tragic. Even if he and Little Wolf combined, they could at most face up to two seventh level of the Milky Way Realm, so with such a huge difference in strength, what could they use to make up for it?

It could only be wisdom.

Because Japanese were generally very short, Long Chen could only lower his head to look at them and coldly said: "So what if we find where? Even though I am afraid of the Imperial Guard Army, but I have never been afraid of any of you. You are just a group of ants, and trying your best to intimidate others, who would dare to fight me one on one?"

Long Chen's provocative words immediately caused a huge uproar in the Japanese. Even if Song Zhongcheng knew that Long Chen was trying to goad them into action, under the indignant looks of the clan members, he could only say coldly: "Who said that my Japanese only knows how to win in numbers? Long Chen, let me fight with you. I want to see what kind of methods you have to kill the Second Commander! "

"What a fair battle, eighth level of the Milky Way Realm, against fifth level of the Milky Way Realm? Isn't Patriarch Song afraid of losing his identity? Long Chen's face was full of ridicule.

"Bullshit!" Our master did this to you because he wanted to give you face, so why aren't you kneeling down to express your gratitude? "

"To die in the hands of our great clan is your honor!"

"Stop it!" Song Zhongcheng waved his hand, and now that he said it, many experts from the Japanese had arrived. Song Zhongcheng knew, if he were to take care of Long Chen himself, when he returned to the Imperial City, it would cause many of his comrades to laugh their teeth off, making him unable to lift his head.

When the robust man saw that Song Zhongcheng had pointed at him, he instantly licked his lips, revealing a bloodthirsty gaze and said: "Hey! I guarantee that I can capture him! "

After he finished speaking, he walked out of the crowd and stood in front of Long Chen.

"You're the first!" Long Chen was not the least bit afraid. Being able to handle these Japanese separately was already the best ending for him. He knew that the people of Japanese loved face. Long Chen tried to provoke them a little and they fell into his trap.

But even so, Long Chen's current situation was still not looking optimistic.

A practitioner of seventh level of the Milky Way Realm usually used their battle skills, and Long Chen currently lacked many things. His most powerful attack skill, Dragon Emperor's Destruction, was only his battle skill of Earth Stage Medium. The only person who could take it out was the The Devil Emperor of the Burning Heaven's divine fire clone!

Long Chen jumped a few steps forward consecutively and arrived on top of one of the rooftops. He looked down at the densely packed Japanese and spoke neither humble nor arrogant: "I'm standing here. How many people do you need to defeat me? Or could it be that you bunch of trash are simply no match for me? "

"Eight!" Long Chen's provocative words immediately made all the Japanese angry, they wanted to immediately charge forward and slaughter Long Chen to death!

"This kid is crazy!" However, in front of my Da He family, I will die no matter how arrogant I am! "

"All warriors of my Japanese possess the ability to cut through the heavens. Song Bendao, go up immediately and take this brat's head off! I'll give my wife to you tonight! " With a cold gaze, Song Zhongcheng said coldly.

Upon hearing his words, the eyes of the short and stout man called Song Bendao immediately turned green. Remembering the rich and fat buttocks of the patriarch's wife, his lower body started to turn red. He really wanted to kill Long Chen immediately, then go back and kill the patriarch's wife on the bed.

"They are indeed a bunch of beasts." Long Chen secretly shook his head, even his wife could casually send his subordinates to sleep. Long Chen was really unable to understand these uncultured barbarians. It could even be said that they had yet to evolve into an adult.

Amidst the cheers of the crowd, Song Bendaο was already panting heavily as he rushed up to the roof. There were not many people here in the first place, but because of the people from Japanese, all the remaining people ran away.

Looking at the beastlike Japanese in front of him, Long Chen heaved a sigh of relief in his heart. He did not know the doctor's name, but to have him die in the hands of the Japanese, Long Chen still felt that it was not worth it.

"Forget it, I'll take revenge for you. If I can kill one, I'll kill one." Long Chen's eyes flashed with a cold light. He looked towards the courtyard Ling Xi was in, where the Little Wolf was currently guarding. He looked at the current Long Chen with admiration and excitement.

"Protect Xiao Xi well" Long Chen said in a very soft voice, but the Little Wolf could tell what he meant just by looking at his mouth, hence he hurriedly nodded! To him, this was an important task.

"This time, I definitely cannot let Sister Ling Xi be caught in my hands! "Not even if I die!" In the wolf cub's heart, this thought was very strong.

"If I had ignited the Sun Devouring Demonic Wolf's life force when it was necessary, I would not have believed that I would not have been their match even if I had ignited the life force within them!"

Long Chen didn't know what the little wolf was thinking, he believed that it would do a very good job. But for the Long Chen right now, all he needed to do was to provoke one Japanese after another, and then kill each and every one of them.

"Your name is Song Bendaο? Very good, you are the first Japanese animal to die in my hands today. " Long Chen said unhurriedly as he looked at the sturdy man in front of him.

"What?" Eight! Brat, have you lost your mind? I heard that you have the most beautiful girl in Canyang Kingdom beside you? Wait until I defeat you, I will definitely ask the Patriarch to give me this girl for one night! "

Long Chen was furious.

"F * ck you!"

In a blink of an eye, the Devouring Blood Realm and the divine fire clone all appeared at the same time, and instantly drowned Song Bendao completely!

Chapter 333 - You are all trash

The Devouring Blood Realm and the divine fire clone were the two most powerful methods available to Long Chen. Song Bendao was too close to him, and his face was filled with savagery, so when over a hundred divine fire clone appeared, he was instantly drowned out!

"Eight!" What the hell is this? " Song Bendao already ate it, and the divine fire clone still wanted it. After all, it was fighting for the advantage of quantity, but what was that blood red fog that had almost controlled its own bloodline and made his blood boil, reducing his fighting ability?

"The fall of the Dragon Emperor!" Right at this moment, in the gap between the attacks of the numerous divine fire clone, a red line of blood suddenly shot out, and with the speed of lightning, it struck at Song Bendao's back in an instant. Song Bendao was currently surrounded by Devouring Blood Realm and divine fire clone, and he was busy dealing with the divine fire clone.

Moreover, under the Devouring Blood Realm's influence, he had no choice but to split out about a third of his true qi to suppress the boiling blood qi.

After shattering the divine fire clone in front of him with a punch, Song Bendao finally felt the nearby threat from behind him. His face became deathly pale, and at this moment, all he could do was to use his movement techniques to the maximum extent possible in order to escape.

Puff!

The green dragon halberd pierced his shoulder blade!

"AHH!" Song Bendaο, who was surrounded by the divine fire clone, let out a world-shaking scream. Although he was dodging, her entire shoulder was almost chopped off by Long Chen, and fresh blood exploded out. Under the Devouring Blood Realm's influence, she crazily rushed towards Long Chen!

"Eight!" He grabbed Long Chen's green dragon halberd with one hand and suddenly turned his head, just as he was about to throw a punch at Long Chen, at this moment, Long Chen's face was ice-cold. His finger stabbed into the ground right in front of him, and immediately, a resplendent sword light appeared, whistling through the air, instantly piercing into Song Bendaο's eyes and piercing through his skull!

Spirit Devil Sword Finger.

Even though Spirit Devil Sword Finger were only high-grade Profound Rank offensive skills, to be able to directly pierce Song Bendaο's eyes in such a close range was naturally enough to take his life!

The divine fire clone suddenly returned to Long Chen's body at this moment, and the Devouring Blood Realm was also withdrawn by Long Chen. Previously, because of Long Chen's divine fire clone's encirclement, not many people could see the situation. Now that the divine fire clone had disappeared, Song Bendaο had been kicked out of the fight by Long Chen!

All of the blood in his body had already been swallowed by Long Chen, he used the Blood Refinement Qi, and completely absorbed the blood from the seventh level of the Milky Way Realm into his own body, causing his own true qi to sharply rise!

Long Chen was really forced to use Blood Refinement Qi again, because he knew that if he did not use it now, he definitely would not be able to live past today!

This was Long Chen's plan today. He would challenge all the Rankers in the Japanese in the form of a challenge, to become stronger in the end!

"Japanese is indeed a piece of trash! "seventh level of the Milky Way Realm, you actually can't even beat me, this fifth level of the Milky Way Realm, and are purely trash amongst trash. Right now, which piece of trash from Japanese is going to come up!" Long Chen's expression was insolent, he laughed loudly, and looked down at the Japanese from above, the green dragon halberd in his hand pointed at the seventh level of the Milky Way, and roared: "You! That's right, it's you, trash! Do you dare to come up? "

This kind of Long Chen caused all the Japanese to explode, and they all started to clamor. If Song Zhongcheng was not standing in front of them, they would have swarmed forward a long time ago!

"Shut up!"

"Eight!"

"Hey!" Calm down, all of you! " Song Zhongcheng stopped everyone. He looked at Long Chen and frowned deeply.

Long Chen ignored him and the green dragon halberd pointed straight at one of the seventh level of the Milky Way Realm and sneered, "Japanese is indeed a stingy person. I told you to come up but you guys didn't dare? It was also known as the Da He family? I think it's just a pile of shit! "

With Long Chen's current fighting strength, compared to the entire Japanese, the only one who could defeat him easily and stably, was Song Zhongcheng.

Being humiliated by Long Chen like this, the warrior was forced to let out a howl of rage and pounced towards Long Chen!

"Eight!" Brat, I'll make you act crazy again! Patriarch, if I kill this brat, will I be able to enjoy your wife tonight? " Compared to Song Bendao just now, this warrior was thinner. It seemed like he was better at speed.

"Good!" Don't learn from Song Bendao and throw my Japanese's face again! " Song Zhongcheng clenched his teeth, and said while staring at Long Chen with his blood red eyes.

"Hey!" The skinny warrior rushed in front of Long Chen, his eyes bloodshot as he roared, "Brat, die! I will drink your blood and eat your flesh!"

"Drink my blood?" Long Chen laughed crazily. In this world, only he could drink the blood of others. Following the steps just now, the Devouring Blood Realm and the divine fire clone started to move again. This warrior was not much stronger than Song Bendao, so not long after, he was directly split into two halves by Long Chen in front of the warrior with the green dragon halberd!

His blood became Long Chen's true qi.

The two halves of the corpse was thrown right in front of Song Zhongcheng. The gulped down saliva at the ugly corpse and immediately retreated backwards. Many people looked at Long Chen with fear!

"Trash!" All of them were trash! Was seventh level of the Milky Way Realm actually so useless? I don't believe it. Then let's do it again, it's you! "Bastard, do you dare to come up?"

Holding the green dragon halberd in his hand, Long Chen stood majestically on top of the roof, as if he was a god of war bathing in blood. The morning light shone from behind him and enveloped him, such a glorious image caused Japanese to retreat in panic once again!

The battle between Long Chen and the Japanese had caused quite a commotion, and at this moment, there were many people watching from afar. Seeing this scene, they looked at each other in even more dismay. They gradually realized that this battle today would likely cause an even greater commotion!

"The trash of Japanese!"

Long Chen looked around, and surprisingly, no one dared to come up and fight him!

"Patriarch, you're up?" Just a moment ago, they had underestimated Long Chen, but now, it seemed that Long Chen was simply too terrifying.

If I go up, I will definitely become the laughingstock of my comrades in the Imperial City, and if I don't, even more people will die today. Song Zhongcheng weighed the pros and cons, and said: "Alright, I'll get rid of this kid. High strength, extraordinary, at least had seventh level of the Milky Way Realm! Ordinary martial artists are simply impossible to deal with, so let me do it! "

He gave Long Chen the title of seventh level of the Milky Way Realm. This way, he would be able to deal with Long Chen with a much calmer heart.

"Or should we make a move?" Honestly speaking, this Song Zhongcheng was the strongest person in the Da He family, and his Da He family was one of the three great clans of the imperial city. He really didn't have the slightest confidence in being defeated by Long Chen.

eighth level of the Milky Way Realm, this was already close to the level of the strongest in Canyon Kingdom.

However, Long Chen knew, no matter what, he could not retreat a single step, so even if Song Zhongcheng were to make his move, he was not afraid at all. Japanese is indeed useless, even your realm has a lot of moisture in it! "

In actuality, the entire Clear Water City knew that such a thing had happened here. Long Chen, who was the talk of the town these few days, had actually come to the Clear Water City, and the person surrounding him was actually one of the three great clans, the Da He clan! Although Long Chen was being chased by the Canyang Kingdom's royal family, the people from the Clear Water City still presided over Long Chen with their thumping hearts. They had never heard of the Japanese's reputation in the Clear Water City, but they knew that the Japanese was an outsider and an outsider.

After seeing Long Chen's performance, everyone could not help but stick up their thumbs up and praise him: "This Long Chen, sure enough, is a man with an unyielding character!"

"He's young, his cultivation is extremely strong, and even though he's strong, he doesn't show the slightest fear. This child's temperament is truly shocking!" For such a genius to have a grudge with the royal family, that is truly a pity! "

"Father, I heard that it was because the Ninth Prince coveted Long Chen's beloved woman that he was killed by Long Chen. Why can't we blame him?"

"Then what can we do? Your father is only a member of the Second Stage of the Milky Way Realm, any one of them can pinch me to death. "

The Clear Water City's City Lord sat in a teahouse in the distance, observing the situation here.

At this time, Long Chen already had no other choice but to meet with the Da He Family's Patriarch, Song Zhongcheng.

"It's clearly seventh level of the Milky Way Realm, yet he's still concealing it, and calling it fifth level of the Milky Way Realm? Long Chen, you have treason and actually killed the Ninth Prince. Today, I will listen to your orders and take your life.

Song Zhongcheng had also realized just how frightening Long Chen was, so he had already realized that if he didn't kill Long Chen soon, accidents might happen!

"Secret technique of Japanese, Shadow Killing technique!"

Song Zhongcheng walked along the route of speed. His eighth level of the Milky Way Realm was several times faster than Long Chen!

Such a strong opponent had triggered Long Chen's violent nature. He clearly knew that he was not's match, but since the situation had already reached this point, what could he do? There was only blood! Countless bloody battles!

"Roar!"

Long Chen let out a roar that sounded like a dragon's roar, his whole body was a blood red, like a king of slaughter, he wielded his green dragon halberd, and rushed towards Song Zhongcheng like a shadow! The roofs along the way were all shattered by him!

Long Chen was even more terrifying. He was fast, but he was even faster, and there was a black dagger in his hand. It looked normal and ordinary, but it contained an incredible power.

Puff!

Blood splattered everywhere!

"Hey!" With another move, Song Zhongcheng sent Long Chen flying while vomiting blood!

Chapter 334 - Mysterious Technique Blood Sacrifice

"Just now, they were clamoring so much. It seems like they're not even this strong?" Song Zhongcheng laughed as he slowed down his pace, and walked towards Long Chen step by step. Honestly speaking, after killing two seventh level of the Milky Way Realm warriors just now, he was really scared by Long Chen.

"This guy's speed is too fast!" In the situation just now, Long Chen did not even use his Devouring Blood Realm s and divine fire clone s. He only felt that his vision blurred, and then, his lower abdomen was

directly penetrated! Although this kind of injury wasn't fatal, it could still be considered a serious injury. If Long Chen didn't properly recuperate, it would be difficult for him to have a normal fighting strength!

However, this did not make things difficult for Long Chen. He only had one thought in his mind, and that was that he still needed to protect Ling Xi, so he could not fall down for fifteen minutes!

Whoa!

Long Chen held onto the wound on his abdomen with one hand and the green dragon halberd with the other. Under the gaze of the crowd, he stood up! Although he had been defeated, the fighting spirit in his eyes made everyone secretly tremble!

"He's not dead yet?" Song Zhongcheng laughed in ridicule, "Not bad, not only did you not die from my Shadow Killing technique! However, you're not dead yet? Long Chen, your life will end with this one move of mine. I have used this move to kill countless people, and today, you are not the first, nor are you the last! "

One move?

A move that Song Zhongcheng was proud of must be a battle skill from his high-rank earth class, and it was also inevitable that Long Chen had a large chance of dying under this move.

"You can't kill me." Long Chen swallowed all the blood in his mouth, and said coldly.

"Then let's give it a try!" Song Zhongcheng was about to attack!

Right at this moment, with a low howl, the enormous figure of the wolf cub suddenly blocked in front of Long Chen. With a light swing of his tail, he immediately pulled Long Chen safely to the entrance of Ling Xi's residence!

The wolf cub's intention was very simple, it was to exchange for Long Chen to protect Ling Xi, let him deal with Song Zhongcheng!

"Little Wolf!" Long Chen had already prepared to die, he was just about to remind Little Wolf to bring Ling Xi to break out of the encirclement, but he didn't expect the Little Wolf to see through his

intentions, so he directly intervened and escorted Long Chen down. The Little Wolf's intention was very simple;

Roar!

Under the morning light, the majestic Sun Devouring Demonic Wolf, with its black fur, was like a countless number of black vortexes, sucking in the sun's rays into their own bodies!

"Come back here! I'll deal with it!" If the little wolf sacrificed itself, Long Chen felt that he would be unable to forgive himself. Killing the Ninth Prince was purely a matter of Long Chen and Ling Xi, the help the little wolf gave them along the way was already very much, if it were to make the little wolf give up her life, in exchange for Long Chen's chance to escape, he would definitely not let this happen!

To be honest, the current Xiao Lang was a little weaker than even Long Chen. Song Zhongcheng was a complete eighth level of the Milky Way Realm warrior, and Xiao Lang was definitely not his match!

It was at this moment that raging black flames began to rise from the wolf pup's body. The only difference between the black flames and the Underworld Devil Ancestral Fire was that the flames burned with fervor and madness!

"This wolf cub's strength is rapidly increasing. However, this is definitely not normal strength. There should be a heavy price to pay!" Long Chen could immediately tell that the little wolf was fighting with its life! When the flames burned, the wolf cub's fighting strength increased by a lot. His attacks were direct, and even Song Zhongcheng, who was able to fight with eighth level of the Milky Way Realm, was forced to retreat!

Especially when he used the one hundred twenty-five divine fire clones, Song Zhongcheng was beaten into a very miserable state. It was a pity that it did not harm Song Zhongcheng's foundation!

"What the hell is this?" Song Zhongcheng had already eaten it, the little wolf's fighting strength, when the flames ignited, was already about the same as his.

"He's definitely burning his own body to deal with me. This method is very injurious to the very core, and it even has a very high chance of crippling him, turning him into a cripple from now on. Moreover, it will be very difficult for him to use this method to hurt anyone else in this lifetime, so as long as I endure for a little while, I can definitely exhaust him to death!" Song Zhongcheng thought sinisterly, he started to not face the wolf cub's attack head on, but started to flee in all directions. In the eyes of outsiders, he

was indeed in a sorry state, only he knew, that not long after, the beast would fall down without him doing anything!

What the wolf cub was burning was the life force of the Sun Devouring Demonic Wolf. If this kind of fire burned any more, it would decrease a little, until it was completely used up. At that time, the wolf cub would lose all his life!

Long Chen watched with bloodshot eyes.

"Little Wolf!"

The feeling in his heart could no longer be described with words, it was only because of their friendship that Little Wolf was able to do this step for him. To be able to meet such a brother in this lifetime, Long Chen was truly satisfied!

Which brother would use the means to burn their own life to give you the chance to live?

In White Yang Town, the relationship between the Yang Ancestor and himself had given Long Chen a vivid memory, making him realize that brothers could not be said easily, but what Long Chen was absolutely sure of was that although he and Xiao Lang were not blood brothers, they were definitely blood brothers!

"You are so worthy of me, how can I, Long Chen, let you down?" He only wanted to desperately stop Song Zhongcheng and give him a chance for him to live! Long Chen's head was blazing with fire! He could feel the blood in his entire body boiling, as endless blood-colored dragons roared crazily in his body!

"Kill!"

"KILL KILL KILL!"

Suddenly, a scene appeared in his mind. Countless blood-colored dragons were burning with blood-red flames, and the moment these flames appeared, their battle strength increased explosively, and the length of their bodies also increased crazily, until it covered the sky!

Just then, the Mysterious Dragon Jade moved again!

This time, the inherited blood essence actually took the initiative to fly into the Dragon Jade, and fusing the blood essences together to form a set of cultivation methods. Long Chen was overjoyed, every time he inherited blood essence, with this kind of action, Long Chen would be able to obtain a set of heaven-defying divine techniques, from Blood Refinement Qi, to the Dragon Soul Transformation, from the Devouring Blood Realm to the Blood Escape! Which one of them wasn't a heaven-defying divine ability?

"Eternal Arcane Art - Blood Sacrifice!"

The word blood sacrifice suddenly appeared in Long Chen's mind!

At this time, Long Chen's body seemed like it was about to explode. He stared deadly at the wolf cub's life force as it weakened, and at this moment, he used the secret technique he had obtained, Blood Sacrifice. Immediately, a wave that made everyone's hearts palpitate exploded from Long Chen's body, sweeping towards death!

"Little Wolf, you stop it right now! Let your father deal with this beast! "

This earth-shattering explosive shout caused everyone to retreat a few steps. Even Song Zhongcheng listened and looked at Long Chen's situation in doubt!

Whoosh!

Suddenly, blood-red flames wildly surged out from within Long Chen's blood-red dragon scales, and Long Chen's entire body began to burn crazily. What shocked Song Zhongcheng the most, was that Long Chen's fighting strength crazily surged, from his fifth level of the Milky Way Realm to his Sixth Stage of the Milky Way Realm, and then to his Sixth Stage of the Milky Way Realm, and then to the very top of his seventh level of the Milky Way Realm. Only then did he stop!

With Long Chen's current Dragon Soul Transformation which was ten times stronger than his original body, in terms of true qi, Long Chen had already reached the eighth level of the Milky Way Realm and was even above Song Zhongcheng!

This kind of terrifying increase was much more powerful than the burning of the wolf cub's life force.

However, Long Chen knew that although it was the same upgrade, this Blood Sacrifice was countless of times more powerful than the one that Little Wolf had used to burn his own life. The burning of the wolf cub could only happen once in a lifetime. Once it was finished, he would naturally die. But Long Chen's blood sacrifice was different, he had ignited all the true energy in his body, within a certain range, with Long Chen's current abilities, he could at most use the blood sacrifice to increase his fighting strength by three levels. Of course, there was a price to the blood sacrifice, and that was after using the blood sacrifice, his strength would decrease by three levels! Long Chen had forcefully raised his seventh level of the Milky Way Realm, which meant that once the battle was over, he would return to Third Stage of the Milky Way Realm!

However, with the Blood Refinement Qi, what was there to be afraid of?

Using a blood sacrifice to complement Blood Refinement Qi was simply the most heaven defying combination. This way, even if Long Chen raised himself to eighth level of the Milky Way Realm, in the end, he would only be able to restore his Second Stage of the Milky Way Realm. As long as he had enough time, he could once again raise his fifth level of the Milky Way Realm!

Of course, unless it was absolutely necessary, it was best not to use such a heaven defying method like blood sacrifice! Long Chen felt that this blood sacrifice was even more terrifying than the Blood Refinement Qi he received at the beginning.

Because he had used too much Blood Refinement Qi, Long Chen was now deeply affected by the Primordial Blood Soul Dragon's killing intent. If he used too much Blood Sacrifice and Blood Refinement Qi, he would definitely not have any good results.

Of course, in this life and death situation, Long Chen could only use his blood sacrifice!

Feeling Long Chen's increase in strength, the wolf cub could not understand no matter how much he thought about it. Long Chen wasn't a Sun Devouring Demonic Wolf, how could he burn his life force?

"Quickly stop!" Under Long Chen's explosive shout, the little wolf had no choice but to release itself from the burning of its life force! However, what came next was indeed a feeling of overwhelming weakness. This kind of pain caused the wolf cub to faint on the roof. He was only the size of a small dog and was about to fall down from the roof.

Long Chen caught him.

Looking at the unconscious, weak and powerless little wolf in his hand, Long Chen's heart twitched. He gently placed the little wolf at the door, and then, his eyes that were filled with blood red, stared fixedly at Song Zhongcheng!

"Japanese, all of you must die today!"

Chapter 335 - Extinction Japanese

Everyone's eyes were focused on Long Chen. Even though they were very far away, many of them could still feel the terrifying killing intent coming from Long Chen's body. When the Little Wolf turned into this state because he wanted to save him, Long Chen was completely enraged.

All the Japanese s that were swept by his gaze all retreated in fear.

Song Zhongcheng also looked at the current Long Chen in bewilderment and shock. Soon after, he reacted and said, "What happened today? Why is it that when all of them are weak, they burn their lives in front of me? That little wolf was unable to hold on for long, Long Chen, how long can you hold on for?"

"Take your life." "That's enough." Finally, his gaze locked onto Song Zhongcheng, and Long Chen said those words indifferently. His hoarse voice made everyone in Japanese look at each other, giving them a creepy feeling.

"Pretending to be ghosts!" Song Zhongcheng laughed in disdain. He came down from the roof, waved the dagger in his hand, and said: "Do you know? This is the Underworld King's blade of high-rank earth class, the highest level weapon in my Japanese. When I dealt with you just now, I showed mercy and did not stab you in the heart.

"Is that so?" Long Chen's killing intent exploded when he looked at Song Zhongcheng!

Innate Qi that exceeded Song Zhongcheng's burst out at this moment, immediately sweeping away all the smoke and dust in the surroundings!

"Such insignificant skill, using your life to improve yourself, the final result will definitely be very miserable! Then, let me show you Song Zhongcheng's strongest move! "

Clutching the Underworld King's Blade, Song Zhongcheng's entire body erupted with the Qi of a eighth level of the Milky Way Realm Ranker. The Innate Qi surged crazily in his body, the Underworld King's Blade in his hand, was drawing a strange pattern.

"Secret technique, Hades' Phantom God Killing technique!"

A shrill bird cry seemingly came from the Nether King's blade as it appeared beside everyone's ears, causing them to feel as if the world had frozen. And right at this moment, Song Zhongcheng's silhouette turned into a blur that blotted out the sky and covered the earth, as countless phantoms charged towards Long Chen!

It was as if the entire world was enveloped in darkness. The only thing that stood out was the Hades' Blade in Song Zhongcheng's hands. Like a ray of light that was trying to take his life, the Hades' Blade twisted towards Long Chen's neck!

"The strongest move, is that it?" The corner of Long Chen's mouth curved into a faint smile.

"Devouring Blood Realm" That scarlet dragon-like fog instantly wrapped Song Zhongcheng tightly, causing him to instantly be thrown into great disorder! He had experienced Long Chen's Devouring Blood Realm before, but it was definitely not to such an extent! The suffocating Devouring Heart worked on his body, which was in the midst of executing its strongest move. Without being able to guard against it at all, a sliver of a loophole appeared on Pluto's Phantom God Killing technique!

And a loophole had appeared right in front of Long Chen's eyes!

"You're too slow." Long Chen's cold laughter resounded in Song Zhongcheng's ears at this moment, as if it was ringing right beside his ear. Song Zhongcheng was greatly shocked, because he felt that because of the relationship with the Devouring Blood Realm, the movements of his hands had become slow, and in that instant, Long Chen disappeared from his sight!

BOOM!

Borrowing the Devouring Blood Realm's terrifying suction and controlling Song Zhongcheng's speed, Long Chen instantly flashed to his right and landed a heavy punch on his armpits!

Pow!

A bone shattering sound that made people's scalps go numb rang out!

Song Zhongcheng let out a blood-curdling scream. His armpit was struck, and the Underworld King's blade in his hand was instantly sent flying. He was held in Long Chen's hands!

"You're too slow!" Amidst Song Zhongcheng's terrified expression, Long Chen disappeared once again in front of him. The current Long Chen, wielding the Underworld King's Blade, was like a devil in the dark!

To be honest, Long Chen's speed wasn't considered fast, it should be around the same as Song Zhongcheng's. The problem was, within the Devouring Blood Realm, Song Zhongcheng's speed had been suppressed by two-thirds.

On top of this, an astonishing situation had appeared. It was Song Zhongcheng clumsily accepting the abuse from Long Chen's Devouring Blood Realm!

"If you stab me, I, Long Chen, will always give you 1 to 10!" Then I will compensate you with ten cuts, f*cking Japanese, enjoy yourself! "

"Puchi!"

The [Underworld King's blade] in his hand directly pierced through Song Zhongcheng's lower abdomen, causing him to let out a world-shaking scream! Long Chen was too lazy to bother with him, he followed up with a sword, and directly pierced through Song Zhongcheng's lungs!

Blood gushed out!

Such a terrifying Long Chen had scared them so much that they had lost the ability to think. None of them knew that they could still run away!

When Song Zhongcheng let out the ninth scream, Long Chen's last strike had directly chopped off his head. His fat and big head directly smashed into the side of the Japanese's people, causing them to let out a series of screams!

Song Zhongcheng of eighth level of the Milky Way Realm had died in Long Chen's hands. This daily hefty piece of news would once again shake the entire Canyang Kingdom!

When the strongest practitioner of the Da He Family died, everyone in the Japanese was stunned. They all knelt down in panic in front of Long Chen, crying their hearts out!

"Mercy!" "God, spare us, I am willing to give you my property, my wife, and my daughter, who is not yet an adult!"

"Right, please forgive us, we are willing to follow you with just one word, all the wealth of our Japanese is yours! All the women in my Japanese are also yours! "

Such voices begging for mercy rose and fell one after another!

"You guys are just a bunch of beasts!" Long Chen coldly sneered as he stood in front of them, "Let me tell you all, what is called bloodlust! What is called a spine! Property? Property is to be occupied! None of my things can be taken away from me! Woman? Women are used to protect. Today, I am protecting my woman. As for you, you are willing to sacrifice your woman for your own life? Japanese? Haha, your Japanese doesn't even have the qualifications to be called human! You are civilized beasts! If I let you live in this world, I will only harm more people and my compatriots! So, you want me to spare you? "In your dreams!"

Long Chen used the Japanese's Nether King's blade time and time again, and with every swing of his sword, he would immediately kill a Japanese. Within the scope of the Devouring Blood Realm's attack, not a single person was able to escape death! When all the people who were kneeling had fallen, blood started flowing like a river on the ground. Only then did Long Chen regain his senses.

On one hand, Japanese was really detestable. On the other hand, Long Chen hated them to the bones, and on the other hand, of course, it was the influence of the Primordial Blood Spirit Dragon!

But now, anyone with a discerning eye could tell that the entire Da He Family had already been completely annihilated in the hands of Long Chen!

Long Chen annihilated the entire Da He Family by himself?

This kind of news would spread out from today onwards, and everyone in the Canyang Kingdom would be shocked by Long Chen. Warriors who could kill eighth level of the Milky Way Realm, were more or less the same as when Long Chen had grown up.

In the Clear Water City, all the onlookers widened their eyes when they saw this miserable scene. They looked at the youth who was still standing, and their faces were filled with disbelief!

Long Chen!

This name was firmly etched into everyone's minds.

"This child has already reached a heaven defying level. When we fight against him, we can only look up to him," the city lord of Clear Water City said as he stroked his beard with a shocked expression.

"He fled from the Imperial City and violently killed the six great commanders of the Imperial Guard Army. Now, he even single-handedly exterminated one of the three great families, the Da He family! With such a great achievement, his name would definitely be known throughout the ages! Even more so than Lin Zichen! "

"Father." The young girl at the side looked at the youth in the distance with flickering eyes, and asked with some worry: "Tell me, will Long Chen be able to escape? I seem to have heard from you that there is a mysterious figure who is also involved in this matter? "

"That person," The Clear Water City Lord shook his head, "With his strength, compared to Long Chen, he is nothing. I hope that the brat's luck is good, and that he won't be stopped."

The girl's eyes rolled around. When she looked at the stubborn Long Chen again, she nodded, and made up her mind on the inside.

"I have to remind him!"

At this time, the effect of the blood sacrifice slowly started to lessen. Long Chen could sense that his strength should be slowly shrinking back to the around Third Stage of the Milky Way Realm.

With the battle strength of his Third Stage of the Milky Way Realm, if he were to face other opponents again, he would almost be a piece of trash. This was the reason why he had used the Hades' Blade to deal with them!

When it was a matter of life and death, Long Chen could no longer care about anything else. The fresh blood of the people of the Japanese was something that he could continue to live on and he had to ensure Ling Xi's safety. Therefore, he had no choice but to use the Devouring Blood Realm and focus all of his fresh blood, including Song Zhongcheng's, onto his own body!

Using the Blood Sacrifice increased his combat strength by two levels, and then he reversed the two levels. The next step might not be easy, so Long Chen gritted his teeth and used the Blood Refinement Qi!

The blood vessels of many Rankers caused the river of stars in Long Chen's body, which had originally collapsed, to slowly form once again. Time slowly passed, and when all the people in Japanese had turned into mummies, Long Chen's true qi gradually rose back to its peak, returning to his fifth level of the Milky Way Realm once again.

The one hundred thousand Tianhe Dan that he had obtained from the Ninth Prince were gradually being exhausted.

"So much true energy, it seems I have to rush through the Sixth Stage of the Milky Way Realm!" Since he wanted to be ruthless, then he would do it to the end! This was a critical period, so Long Chen did not mind being more vicious, but he knew that after he passes through this crisis, he had to learn how to cultivate steadily.

Chapter 336 - Sixth Stage of the Milky Way Realm

The divine abilities from the Archaic Blood Spirit Dragon were all heaven-defying. This was the case for blood sacrifices, as well as for blood refinement and qi refinement. At this time, Long Chen was using his Blood Refinement Qi, channeling all of the Japanese's blood vessels into his own body, refining them into his own blood red Qi. Then, as a huge number of Tianhe Dan congealed, a blood-red river of starlight gradually formed in his sixth star vein.

On the other side of the Milky Way, Long Chen did not let go either. There were even warriors with eighth level of the Milky Way Realm in the Japanese. Moreover, the one hundred thousand Milky Way Realm he got from the Ninth Prince was enough as well. However, just reaching the Sixth Stage of the Milky Way Realm already consumed tens of thousands of Tianhe Dan, who knows how much it would take to reach the ninth level of the Milky Way Realm?

A powerful aura swept out in all directions.

At this time, everyone in the Clear Water City was watching Long Chen. Towards this mysterious youth, they felt too much shock in their hearts. With his own strength, he had overturned the situation, and almost exterminated the entire Japanese. Such a grand feat, was actually done by a youth who was not even twenty years old!

After the battle, he even made a breakthrough and reached an even stronger level.

To most people in the Clear Water City, this kind of youth was an unreachable existence. How could they have known that Long Chen, such a shining figure, was born in a small town, and that he was of a lower class than the Clear Water City? He had completely crawled up one step at a time!

Standing up, looking at the strange corpses around him, Long Chen actually did not manage to react. He could do this. The Japanese was exterminated by him.

Killing people to steal their treasures, was perfectly justified. Other Japanese wouldn't have much money, but as the Patriarch of the Japanese, Song Zhongcheng must have a lot of money. Long Chen immediately took his Heaven and Earth Pouch. Among them, the Tianhe Dan should be more or less able to allow him to finish training the entire Milky Way Realm.

Under normal circumstances, of course.

Sighing slightly, Long Chen looked in the direction of the little wolf. The little wolf was currently in a coma and looked extremely weak.

"Little Wolf, if you treat me like this, I won't say anything else. I will treat you ten times better in the future. You are my brother for life!" Long Chen said in his heart, he carried the little wolf and opened the door, walking in, and finally disappearing from everyone's sight.

In order for Ling Xi to have a good rest, the doctor had placed some medicine in her medicine that could help her sleep well but did not injure her body, thus there was such a huge disturbance outside, to the point that the entire Clear Water City was in a mess, and Ling Xi, as the person involved, was still in deep sleep. However, Long Chen was not by her side, and she seemed to be in a nightmare.

Long Chen gently put down the little wolf's body, then walked to the bedside and let Ling Xi feel her way around, before grabbing onto herself. After sensing Long Chen's existence, it was not until then that Ling Xi was at peace. She let out a few whimpering sounds before falling back into slumber. However, it could

be seen that her mental state had not recovered very well after the recovery of the medicine and sufficient rest. There were already traces of redness on her face.

To be able to protect a person like this, Long Chen was also very satisfied in his heart. Even if it was the light of a blade or the shadows of a sword, he had to leave a peaceful space for Ling Xi behind him. It allowed her to be carefree.

The wolf cub's injuries could only be recovered slowly. After all, he was burning his life's fires. His life was only that long, and after using them all up, there would be no more. Spirit medicines and the like would not be of any help. Fortunately, Long Chen had stopped the little wolf from running away. Otherwise, the little wolf now would not be able to survive.

After a while, there was a knock on the door. Long Chen used her Spirit Devouring Demon Pupil to look over, to see that it was a little girl, with a cultivation of Earth Core Stage, he should be considered a genius in the Clear Water City.

Seeing the pure look in your little girl's eyes that seemed like a kind and kind girl, Long Chen said: "Come in."

She was a little afraid of Long Chen, so she lowered her head when she came in, and carefully looked at her surroundings. When she saw Ling Xi who was on the bed, her eyes opened wide, and she couldn't help but praise him: "What a beautiful sister!"

Her surprised voice definitely came from the bottom of her heart.

She had heard of the story of Long Chen and Ling Xi, and she knew that it was because of Ling Xi that Long Chen had decisively killed the Ninth Prince, and then begun this life and death chase. In the process, the youth Long Chen violently killed the six great commanders, exterminating the great s, causing his reputation to rise dramatically.

This was the story of a hero and a beauty. It was a tragic, emotional, lingering, and moving story. Whenever she thought of the two standing in front of her, her blood would boil.

"If only there were a day when I could be like that big sister. Although I don't know how to cultivate, I would have a man fight for me. She's really beautiful!" The girl was envious and jealous.

"What do you want?" It was rare for Long Chen to use such a polite tone towards strangers.

"I, I am the daughter of the Clear Water City's City Lord. My name is Liu Qing Qing. Qing Qing was somewhat afraid of Long Chen, and retreated a few steps, her scalp going numb.

"What news?" Seeing that this little girl didn't seem to be a bad person, and she really did have the intention of helping.

"My father said that there seems to be a mysterious big shot over at the royal family's side. Even the leader of the Japanese is far from being his opponent, so she wanted you to escape!"

Long Chen frowned.

He had wanted to let Ling Xi and the little wolf rest more. But now it seemed impossible.

"Thank you." Long Chen smiled at her, and then thought for a while. When he defeated Song Yuefeng, he had once obtained a set of divine weapon called the Sun Moon Divine Blade, from him.

The Divine Edge of the Sun and Moon, this should be considered a pair of fusion godly weapons.

Long Chen placed the two shiny blades in her hands, amidst Qing Qing's somewhat shocked gaze, and said: "These are divine weapons from the Earth Stage Medium, so it turns out to be from the Japanese, you should use them carefully. Unless you have sufficient strength, it would be best if you don't take them out, so that others won't covet them, understand?"

Qing Qing was so excited that she couldn't speak.

She never thought that she would receive such a great reward for wanting to inform Long Chen of the news that she had obtained. To her, this was something out of the ordinary.

"En, you should go back quickly. Stay with us and let others see; it's not good for you. I will leave immediately. Qingqing, thank you for your reminder today. We will meet again if fate allows!"

In the end, even Liu Qingqing did not know how she managed to walk out of the room. She only felt her mind go blank.

However, Long Chen was destined to just be a bright passerby in her life.

"I've decided that I must cultivate with the fastest speed possible!" Liu Qing ran back towards the City Lord's Mansion at lightning speed.

Once Liu Qing left, Long Chen woke Ling Xi up.

"Xi Er, it's time to go."

"Wu ..." Ling Xi slowly opened her eyes and looked at Long Chen with a misty gaze. "Brother Chen, is it already dawn?"

She reached out her white hands and gently wiped her eyes, then looked at Long Chen with her hazy, sleepy eyes. She said a little coquettishly, "I don't want to wake up, I still want to sleep for a while."

"No, Xiao Xi, I'll carry you on my back. It's getting late." Long Chen gently helped her up, then draped a thick layer of clothes over her body, wrapping her tightly.

"Alright," Ling Xi pouted.

"Brother Chen, why does it look like the little wolf is?" Seeing that the little wolf was lying on the side, Ling Xi was shocked.

"Yes, a few kids came just now, we've already killed them, but the wolf cub was injured, it seems it will take some time for him to recover." As Long Chen spoke, he took out a piece of cloth and wrapped it around his chest.

"A snack?" Ling Xi frowned her brows. She knew that normal noobs would not let the little wolf be injured. The little wolf was a Sun Devouring Demonic Wolf that could even deal with seventh level of the Milky Way Realm. But now, it seems that the injury is not light ...

"Xi Er, come up quickly." Long Chen carried the wolf cub in front and Ling Xi was behind him. If someone who did not know what was happening were to see this, they would definitely laugh out loud, but Long Chen did not agree with it. These two were the most important people in his life. He had to be able to protect them like this.

As he hugged Long Chen's neck, Ling Xi was still a little doubtful.

When the door opened, it was a complete mess, revealing how heavy of a battle had actually been. The corpses, without any surprise, had all died under Long Chen's Blood Refinement Art, with almost a hundred corpses inside.

"Japanese!" Ling Xi suddenly realised, because these corpses were generally relatively shorter. It had to be without a doubt Japanese. Ling Xi knew, that the reason the entire Japanese sent out their entire clan was to kill Long Chen!

"Brother Chen, did Japanese come? That's why we have to escape?" was a little nervous. With eighth level of the Milky Way Realm, the current Long Chen had no way to resist.

"Japanese? They're all here." Long Chen laughed.

"Hmm?"

"Look at the ground beneath our feet, these are all Japanese s, but right now, they are all just corpses." Long Chen walked past Japanese's body.

Ling Xi was in a bit of a mess.

"Brother Chen, you mean to say, when I was sleeping, you already killed all of Japanese?" Ling Xi said in disbelief.

"I killed it with the wolf cub."

Facing the morning light, Long Chen rushed out of the Clear Water City. Then, he headed towards the place where his back was facing the morning sun ...

After leaving the Clear Water City, he was only half the distance away from the West Sea Country. Because of the mysterious person that Liu Qing Qing talked about, in addition to the fact that Ling Xi's condition had improved, Long Chen sped up his pace. He followed suit and used his feet to travel for two days, but the little wolf still showed no signs of waking up. On the other hand, because of Ling Xi's bumpy journey, she did not rest well.

Therefore, Long Chen could only slow down.

According to Liu Qing, the mysterious man was even more powerful than Song Zhongcheng, who could already guess who he was. Amongst the royal family, there were three great powerhouses. Among them, the existence known as the Emperor of the sword would definitely not come. Therefore, the mysterious person could only be the Sword Demon and Lin Zichen, and the Sword Demon had to protect the Inverse Wonderland, so Long Chen guessed that the mysterious person was most likely Lin Zichen.

If it was Lin Zichen, Long Chen didn't have confidence. After all, Lin Zichen was the legend of the entire Canyang Kingdom, and already had the supreme ninth level of the Milky Way Realm at such a young age. Furthermore, he was a Sword Fighter with extremely strong fighting strength, and he even possessed a super divine weapon like the Emperor Sword.

To be able to be called the number one divine weapon of the Canyang Kingdom, Emperor Sword should definitely be at an Earth Ranked or above level. From this, it could be seen that the Emperor Sword should be the legendary Heaven Ranked Divine Weapon!

Heaven Ranked Divine Weapon, this was an existence that Long Chen looked up to.

If he used his blood sacrifice, he wouldn't need his life. He could kill Song Zhongcheng, but Lin Zichen was different. Long Chen had a faint idea that up till now, Lin Zichen would be his most terrifying opponent!

However, in order to survive, he had no choice but to give it his all!

"Brother Chen, where are we going?" Ling Xi lightly leaned her head against the side of Long Chen's ear, and the delicate fragrance that belonged to a pure white refined being pounced towards Long Chen.

"Let's head in the direction of the Diremonster Mountain." Long Chen looked forward and quickened his pace.

"Why? Didn't you say that the other way would be closer?" Ling Xi was at a loss. Traveling day and night, even with the help of medicine, her body still felt very uncomfortable.

"Within the Diremonster Mountain, there are some powers that the royal family is wary of, the Demonic Palace. If we approach that road, it is very possible that we will be intercepted, but in Demonic Palace's territory, the royalty would not dare to do anything rash." Long Chen explained as he hurried along his way.

"Okay," Ling Xi nodded, burying her face on Long Chen's back and not speaking anymore. The spring wind was still a little cold, and only by hiding behind Long Chen's back, would she feel warmer.

"Brother Chen, can you carry me like this for your entire life?" Ling Xi suddenly said with her head lowered.

"Silly girl, what are you thinking about now?" Long Chen laughed helplessly.

"We don't want the Nine Celestial Spirit Fruit. I just want to stay with you and find a place where there is no more killing." Ling Xi knew that this request was a little unrealistic, but she still voiced it out after some hesitation.

"Hmm? Don't think about it anymore, I must obtain the Nine Celestial Spirit Fruit. If the royalty treats me like this, if I am able to escape, I will definitely make a comeback one day and massacre the entire Imperial City. Of course, Little Wolf will take his revenge too!" Long Chen said with a dark look in his eyes.

"Okay then," Ling Xi nodded her head helplessly. She was not worried that Long Chen would be in great danger when he returned to the Biyang Royal City, in fact, she trusted his strength a lot since he had a lot of experience. What she was worried about was that if she had recovered her true body and possessed strength, the people of her clan would be able to feel it. If that was the case, she might have to part with Long Chen forever.

Their status and identity was a huge gap between them.

"Forget it, it's best if I don't think too much and distract the Brother Chen. This is still a critical moment, and as long as we pass this last trial, we'll be able to successfully escape and lead a peaceful life. Also, Brother Chen has been holding on to his body these past few days, so he should be tired as well," Ling Xi thought to himself.

Not only was Long Chen a little tired, the little wolf was even in a coma right now because its life force was ignited. Long Chen hung him on a piece of cloth around his neck.

The days passed one by one as they travelled on their journey.

"Xiao Xi, do you see that black mountain that is holding up the sky?" Long Chen stopped and raised his head to look at the steep mountain peak in front of him that pierced through the clouds. This mountain was ridiculously tall. The surrounding mountains could already be considered to be tall. A steep mountain peak in the middle stood out from the rest.

"This mountain looks like a sword!" Ling Xi said in surprise.

Long Chen looked carefully, and indeed, the mountain peak looked like a sky-upholding sword that had been stabbed out from the ground. Not only did it look similar, it also looked similar, and under the illumination of the sunlight, the black mountain peak released wave after wave of sword beams, causing Long Chen to not dare to look directly at it.

"This should be the Canyang Kingdom's number one peak Diremonster Mountain. I heard that the Demonic Palace was established inside this Diremonster Mountain. The strength of the Demonic Palace is about equal to that of the royal family, so there should be an expert on the same level as the Sword Emperor." Long Chen sighed.

In actuality, Long Chen had already heard of the name of Demonic Palace when he was still in Source Spirit City. At that time, when he rescued Xuan Ming from the Azure Dragon Star, he heard that he was someone from the Demonic Palace, and his position was not low either.

"I wonder what will happen to foster father and the others after he escaped from Star Demon Prison. I hope they will be happy." Long Chen laughed and said.

"They must be living happily together. To be honest, I envy them too." Ling Xi revealed an expression of longing.

"Xiao Xi, let's go. As long as we pass this Diremonster Mountain, then it will be the territory of the West Sea Country. I don't believe that the royalty would dare to go there to cause trouble if we go straight to the imperial city." As he neared his destination, Long Chen felt a little more relaxed in his heart.

Of course, he didn't dare to completely relax yet.

Although Lin Zichen had yet to arrive, he still seemed like a huge mountain, pressing down on top of Long Chen's head.

Just as he was getting close to the Diremonster Mountain, Long Chen stopped in his tracks. This time, his steps were a bit heavy. He was still joking with Ling Xi earlier, but when he saw the proud and aloof back figure in front of him, Long Chen's heart sank.

This was a road that led to Diremonster Mountain, and in front of Long Chen, there was a man with a body similar to his, who was currently facing away from him. It could be seen that this tall and stern youth, with long black hair, was more terrifying than the Diremonster Mountain itself, and continuously erupted from his body.

Just the fact that this youth was standing there was enough to make it impossible for people to cross him.

Long Chen gently put Ling Xi down, then untied the little wolf and placed it in Ling Xi's embrace. At this very moment, his expression was incomparably heavy, because the person in front of him, was the legendary young Sword Emperor, Lin Zichen!

Long Chen thought that she had already escaped his control, but he did not expect that he was still unable to escape his grasp in the end.

At this time, Lin Zichen slowly turned around. This was the first time Long Chen saw this legendary super genius up close. His long hair was like ink as it scattered across his white clothes, only using a white ribbon to tie the hair in front of him behind his head. His entire body was exuding an aura as cold as his sword! His thin lips were pursed tightly, and his unfathomably deep eyes shone with a sharp light, as he coldly looked at Long Chen.

Of course, Ling Xi knew in her heart that the person who could make Long Chen so wary was the legendary Lin Zichen. Although they were both princes, Lin Zichen was much more outstanding than the

Ninth Prince Lin Cangtian. With Lin Zichen's strength, even a thousand Lin Cangtian would be no match for him.

Lin Zichen's appearance had caused him to lose control of himself. She knew how terrifying this person in front of her was. In the previous two trials of the six great commanders and the Japanese, Long Chen had already risked his life, and only now did he pass.

His appearance was tantamount to sentencing the two of them and the wolf to death. This made Ling Xi almost collapse.

"Be good and don't worry. If there are any monsters or ghosts, I will definitely stand in front of you and kill them one by one. You close your eyes and you will pass quickly." Long Chen knew the nervousness in her heart, so he told Ling Xi to carry the little wolf and retreat while he spoke.

This was the final battle.

If he won, then Long Chen had truly changed the direction of life and death, and if he failed, that meant that he had reached the end. This was the most difficult and critical time.

At this moment, it was still the first time Lin Zichen had met him. He nonchalantly sized up Long Chen, and only now did his lips lightly move, as he said: "I'm really surprised that such a person like you appeared in Canyang Kingdom. However, you still have to go against the Imperial Family ..."

"I'm not going against the royal family. I'm merely pestering you and not letting you go." Long Chen said indifferently.

"I had long heard that you were very bold, but now that I look at it, indeed, the six great commanders of Guard and the Da He family have all been annihilated by you. This time, the losses of the Imperial family are not just average, no matter how much I love talent, I will bring you back."

Lin Zichen raised his eyebrows, and continued: "Honestly speaking, I have already been alone in this Canyang Kingdom for too long. Thus, I wanted to give you some time to grow properly. Your matter has caused the imperial family to lose all face. My royal father has already ordered me, if I don't kill you, let me lift my head to meet him! "

"There's also this beautiful girl. Because of her, she also went to the Imperial City. I heard that my ninth brother died because of her. That idiot ... However, his wish ... it seems that I, as his elder brother, am going to finish him ... "

Chapter 338 - Hibernation

Long Chen knew that he didn't have the foundation of the Lin Zichen Family. Long Chen's rise was simply too fast. From the time he started cultivating in White Yang Town to the time he reached the level of Sixth Stage of the Milky Way Realm today, it had only been less than a year, but Lin Zichen was different. He had been raised under the cultivation of a Sword Emperor since childhood, so the cultivation technique he cultivated was the best, and the guidance he received was also the best.

Right now, other than the Ancient Blood Spirit Dragon's ability, Long Chen had a divine fire clone that he could barely handle. For the other things, the strongest offensive skill would only be Earth Stage Medium, and the strongest defensive skill would also be Earth Stage Medium. The movement technique would only be a high grade Profound Rank skill, and as for the body tempering technique, a third grade Thunder Flame Battle Physique, in Lin Zichen's opinion, was equivalent to nothing.

As for Lin Zichen, he was bound to possess everything in the high-rank earth class, and might even possess a super combat skill of Heaven Stage.

To be honest, if it was an ordinary person, they would have already lost all hope when thinking of such a huge gap between them. However, Long Chen did not. The opponent became stronger, and when there was someone behind him who needed protection, no matter how strong the opponent was, he would not retreat a single step.

Sometimes, only by persevering for as long as possible could one win the final victory.

looked at Long Chen and with a playful look, and said with a chuckle. "You are indeed very touching. Heroes, beauties, hot blood, violently killing the six great commanders, exterminating Japanese, it can be seen from this that your relationship must be very deep right? But I don't believe it. Where in this world is there such a thing as absolute strength of feeling? I'll give you two a choice. Between the two of you, one of you will die today while the other will follow me back to the Imperial City. I'll give you two a quarter of an hour to discuss among yourselves.

His meaning was very clear, if Ling Xi died, then he could just directly bring Long Chen back with him. If Long Chen died, then he would bring Ling Xi back. Although they didn't know if they would live or die if they went to the Imperial City, they could at least live for a few more days.

"Do you mean what you say?" Ling Xi immediately responded, "So long as I die, will you agree to let the Brother Chen live?"

Looking at her eager eyes, it was as if she was suddenly drowning and grabbing onto the straw that could save her life.

"Xiao Xi, shut your mouth." gave a cold glare and was so scared that he retreated a few steps. He knew what Ling Xi was thinking, right now, Ling Xi's body was only that of a Herba Euphorbiae. If Ling Xi were to give up on this body, then Long Chen would have a chance to live.

But Long Chen knew, even if he was allowed to safely return to the Imperial City, he would only die in the end.

"But ..." Ling Xi still wanted to say something, but Long Chen forced him back with a fierce glare. She knew that Long Chen was thinking for her sake. The Nine Celestial Spirit Fruit was still a misty thing, Long Chen was not willing to place his hope on something that is misty.

Long Chen, looks like I have overestimated you, this lady is willing to die for you, but you are afraid of death, looks like you are not a true man, how about this, if you die, I can let her go and let him leave safely, will you do it? Lin Zichen ridiculed.

There was some provocation in his words. If Long Chen really loved Ling Xi a lot, he would have given up his life to let Ling Xi be safe. However, Long Chen was not an idiot. He only believed in fighting, his own strength, and not the enemy's path of retreat.

"Cut the crap. If you have the guts, then come at me. Lin Zichen, stop saying such meaningless words. I don't want to underestimate you." Long Chen took out the green dragon halberd s, and in the process, the blood-red scales gradually covered his entire body.

"Xiao Xi, step back!"

Under Long Chen's command, Ling Xi could only retreat in the rear with a pale face, and leave the battlefield as much as possible. However, Lin Zichen's words still made her feel uneasy. As for the

comparison of their strength, she knew it better than Long Chen, so she knew that there was no possibility of Long Chen winning.

"If what this fellow said is true, as long as he is not dead now, Brother Chen still has a chance, and my life is nothing, nothing more than a Herba Euphorbiae, I was previously inside Ling Xi's sword, why can't I stay with you now?" Because he was worried about Long Chen's safety, Ling Xi anxiously looked at the two of them as her mind was filled with random thoughts.

"Let's just watch the battle first. If Brother Chen is not good enough, we can only choose to do this," Ling Xi said as she sighed.

And right at this moment, Long Chen had already come to a standoff with Lin Zichen. The battle was about to begin.

"Your beast spirit transformation seems to have increased your strength by quite a bit. A mere Sixth Stage of the Milky Way Realm, seems like it's already approaching the seventh level of the Milky Way Realm?" Lin Zichen said in a somewhat amazed tone.

In truth, he underestimated Long Chen too much. Long Chen's true qi had already reached the eighth level of the Milky Way Realm. This was the heaven-defying aspect of the Dragon Soul Transformation.

"However, even seventh level of the Milky Way Realm is too weak in my eyes. They aren't even qualified for me to use battle skills." Lin Zichen laughed proudly.

"Then let's give it a try!" After Long Chen finished his sentence, his body turned into a blood red arrow, shooting towards Lin Zichen! With a roar, a thin line of blood red light turned into a dragon and pierced towards Lin Zichen's head!

"Too weak!" Lin Zichen laughed out loud. He gently punched out, and Long Chen's Dragon Emperor was directly sent flying. It was only a light punch but Long Chen was finally able to stabilize himself. It was at this moment that he realized the true strength of both parties.

However, Lin Zichen's might was within his expectations.

"You're nothing special!" Long Chen clenched his teeth, and reversed his body in mid air. The fierce attacks were like a torrential storm, once again rushing towards Lin Zichen! His attacks were extremely ruthless, to the point that it could be described with the word "suicidal". However, every single time Lin Zichen used a move, even if it wasn't any actual move, a light push would be enough to send him flying.

"What's going on? With your strength, you can't even deal with ordinary seventh level of the Milky Way Realm. How did you kill the six great commanders and Japanese Song Zhongcheng? " With regards to Long Chen's strength, Lin Zichen was simply too disappointed. Long Chen was currently just an ordinary Sixth Stage of the Milky Way Realm, there was nothing special about him.

"It seems that the outside world had spread the rumours about you, and frightened me. I am truly disappointed." Lin Zichen's face was filled with regret and disappointment. It was because he heard about Long Chen's heaven-defying abilities, that he took the initiative to chase after him, he had always been a superhuman genius, and it was not easy for him to find another expert of the same generation in the Canyang Kingdom. Now that Long Chen appeared, he immediately ran back, who would have thought that even the legendary Long Chen would end up like this!

Long Chen didn't care about his sarcasm at all, he continued to attack with all his might, with both of his eyes completely red. As long as he fought, his Primordial Blood Spirit Dragon's personality would immediately erupt, and he would adjust Long Chen's aura to a state where it was violent enough.

"What is Brother Chen doing?" Ling Xi had some doubts, she understood Long Chen's strength the best, but she had never used the current Long Chen, not even the Devouring Blood Realm, not even the divine fire clone, and even more so, his heaven defying blood sacrifice!

'Could it be ... '

Sure enough, at this time, Lin Zichen had already lost patience with Long Chen. When the truth was revealed, Long Chen's strength was merely at the standard of Sixth Stage of the Milky Way Realm, he directly punched Long Chen's lower abdomen, causing him to fly backwards while spitting blood, falling onto the ground!

"Truly a piece of trash. This kind of trash can actually create such a huge storm in the Canyang Kingdom, it's really unbelievable," Lin Zichen said as he neared Long Chen step by step. It could be seen that the next attack would take Long Chen's life.

"Such a light punch can't even get up?" Seeing that Long Chen was actually struggling on the spot, Lin Zichen was truly speechless. He casually walked towards Long Chen and then glanced at Ling Xi. Towards such a beautiful girl, to be honest, he was somewhat moved. However, in his view, no matter how

beautiful a woman was, she would distract him on his path of the path of the sword. As a result, he was able to restrain his impulse.

"Ninth brother actually died because of a woman, what a loser." Lin Zichen shook his head, just as he was about to bend down and end the painful struggle with a punch, a blood red space suddenly surrounded him!

"What is it?" Lin Zichen was shocked. He, who was relaxed due to the sudden arrival of this situation, was unable to react in a short period of time.

The blood-red fog around him howled, like numerous blood-colored swimming dragons, coiling and dancing around Lin Zichen. A wave of sucking power caused the blood in Lin Zichen's body to boil, and was even difficult to control.

And it was at this moment that endless crimson red flames suddenly surged out of Long Chen's body! In the blink of an eye, one hundred and twenty-five divine fire clone formed in an instant. Countless attacks that covered the sky and covered the earth were launched towards Lin Zichen.

"Was he hiding his strength just now?" When he looked at Ling Xi a moment ago, although he was nervous, he did not feel any heartache or fear because of Long Chen's injuries. This meant that she completely knew that Long Chen was fine!

"Bastard, you're actually toying with me!" The battle strength of the divine fire clone in front of him was not high, it seemed to be a domain-type battle skill. Although it was very troublesome and required true energy to suppress the blood energy, it was definitely not to the point where Lin Zichen could not react in time. Even if Long Chen had suddenly erupted, he was still easily dealing with the attack.

"Even if he was hibernating and then exploded at this moment, it would still be difficult for the strength of this Long Chen to get onto the stage."

To him who had ninth level of the Milky Way Realm, the current Long Chen was simply too weak to withstand a single blow.

And it was at this time that a powerful aura suddenly exploded out from where Long Chen was!

Blood sacrifice.

Long Chen could have used a blood sacrifice from the very beginning to raise his fighting strength and fight a peak-level battle with Lin Zichen. However, he was worried that he would not be able to obtain the desired result. After all, the other party's foundation was simply too robust. So, Long Chen could only endure and endure until Lin Zichen looked down on him, then choose to explode at that critical juncture.

At least, it seemed like he had succeeded. Only after using the divine fire clones to completely block Lin Zichen's line of sight did Long Chen use the Blood Sacrifice to forcefully raise his own body by another two levels, and reach the eighth level of the Milky Way Realm realm.

Crimson flames were blazing on his body.

There was a price to pay for raising his strength, so he thought that after Long Chen finished his battle, his strength would once again drop to the realm of 4th level of the Milky Way Realm. At that time, if he had not taken care of Lin Zichen, Lin Zichen only needed to casually wave his hand to take his life.

This was the last gamble, which was why Long Chen used such a method!

When his true qi immediately rose to the level of eighth level of the Milky Way Realm, because of the Dragon Soul Transformation skill, it had actually already reached the ninth level of the Milky Way Realm. This was the first time Long Chen had controlled such a terrifying amount of Innate Qi, and he could not really control it. This kind of strength was too strong, and compared to his previous self, it was at least ten times stronger!

Because of the sudden increase in his Innate Qi, the Devouring Blood Realm's power had instantly increased to the point that it was able to pose a threat to Lin Zichen. In terms of true qi, Long Chen was about the same as Lin Zichen. Generally speaking, before warriors of the same level, the threat posed by Long Chen's Devouring Blood Realm would require more than half of the same level of Rankers to use their true qi to suppress the blood qi.

As for the divine fire clone, because it was released from the True Fire Seed that was stored in the acupoint earlier, the strength of the divine fire clone did not increase. The effect of the fifth level of the Milky Way Realm of the divine fire clone on Lin Zichen was only slightly obstructed, and very quickly, a large number of them were killed by Lin Zichen.

The moment Long Chen completed his blood sacrifice, he withdrew his divine fire clone, and then, a storm-like attack poured onto Lin Zichen's body. This was precisely Long Chen's goal. He quickly completed the blood sacrifice and immediately launched an attack, as such, the unexpectedly boosted strength in front of him, actually forced Lin Zichen to retreat step by step!

"What kind of domain is this?" And Long Chen, why did your strength suddenly increase by so much? " Lin Zichen's eyes widened in shock. He was forced to retreat continuously by Long Chen's green dragon halberd! It was as if he had thought of something. He couldn't even guess that Long Chen would have two heaven defying abilities, the Blood Sacrifice and the Devouring Blood Realm.

Long Chen was still weak now, so with the increase of his strength, the power of these two abilities continued to increase. It could be imagined, when Long Chen's strength reached the peak level, he could still use the Blood Sacrifice to raise his strength by one or two stages, or even three stages. How terrifying would that be!

"Die!" This was the only chance to reverse the flow of life and death. At this moment, Long Chen didn't hold anything back, he exploded with his full power, increased the Devouring Blood Realm's devouring power, and used another move with his life on the line!

Long Chen's extreme talent and exceptional control, had allowed Dragon Emperor's death to quickly surpass the level of his high-rank earth class and battle skill!

Rumble rumble rumble!

The eruption of a move, every move more ruthless than the last!

"Azure Dragon Battle Method, the fall of Dragon Emperor!"

Roar!

The blood colored divine dragon turned into a small, sharp blade. That small dot of blood colored light instantly appeared in front of Lin Zichen with lightning speed.

Long Chen's sudden eruption had truly shocked him. Only now did he understand that this was the true heaven defying aspect of Long Chen. This kind of Long Chen, was only fit to be his opponent!

Of course he didn't know, that Long Chen's current explosion of power came at the cost of two levels of strength!

If he wasn't careful, he would have encountered such a dangerous moment, and that terrifying devouring ability made Lin Zichen unable to move! Under Long Chen's ultimate attack, Lin Zichen was immediately in a precarious situation!

Long Chen's eyes were filled with dense blood energy. He knew that this was his most important chance, if he did not kill Lin Zichen this time, or perhaps leave any scars on his body, it would be very difficult to attack him again!

"Nine Revolutions of the Milky Way!" At this time, bright starlight suddenly appeared in Lin Zichen's hands. He rotated his hands, and suddenly, a huge force acted on Long Chen's green dragon halberd! Under Lin Zichen's manipulation, a bright starlight vortex stood in front of Lin Zichen and the enormous reversed force directly pulled Long Chen's green dragon halberd to the side!

"Want to reverse it?" "You wish!" Lin Zichen's strength was not weak, but the strength that Long Chen's Devouring Blood Realm and his blood sacrifice had was not weak either. Although Lin Zichen's Nine Revolutions Transcendental Tower was strong, Long Chen's green dragon halberd was not weak either!

"Puchi!"

The green dragon halberd passed through Lin Zichen's shoulder, bringing about a large amount of flesh, and of course, Lin Zichen's miserable cry!

Even if he used the Star River Nine Revolving high-rank earth class's defensive combat skill, under the combined power of the Devouring Blood Realm and Blood Sacrifice, Lin Zichen, who was in danger, would not be able to completely block Long Chen!

However, the problem was that ever since Lin Zichen was born, his talent had always been extraordinary. He had never been defeated, nor had he ever been injured, and this was the first time Long Chen had ever injured him!

A person from a small place, whose strength was clearly only at Sixth Stage of the Milky Way Realm at the start, had actually injured him in the end. This caused Lin Zichen to instantly erupt with great anger!

Originally, he had only wanted to play around with Long Chen, but Long Chen had actually hibernated for so long and come up with such a killing move. This caused Lin Zichen to feel that it was a humiliation!

"You're courting death!" You are courting death! " Lin Zichen suddenly retreated, and reached out his hand to block the missing piece of flesh on his shoulder. Even though he blocked it, there was still blood flowing out!

His face instantly turned blue.

"Long Chen, you are the first person to injure me. I have decided, you must die!" Lin Zichen's face gradually revealed a crazed expression. He, who was always so high up in the sky, was being so profane for the first time. He felt a burning pain in his shoulder and his heart began to twitch!

Swoosh. A golden-colored longsword appeared in Lin Zichen's hands, and at that moment, an imposing pressure immediately applied onto Long Chen's body. This Emperor Sword was worthy of being called the legendary Emperor's Sword.

"With such a divine sword, I still have a chance?" The move just now, was already considered Long Chen's ultimate killing technique. However, it was only enough to lightly injure Lin Zichen. The Ultimate Skill did not kill Lin Zichen, but the wound that appeared on him would be easier to deal with. However, Long Chen was not confident about Lin Zichen's Emperor Sword.

"Emperor Sword Qi!" Right at this moment, Lin Zichen gave a simple wave of his hand. Immediately, a golden light blade shot out from the Emperor Sword and whistled towards Long Chen. That terrifying speed and that fatal blow if reacted slightly better, it would definitely slice Long Chen into two halves!

"What a powerful Emperor Sword!" Long Chen was shocked. This was clearly only the most basic power of the Emperor Sword, but even so, it had already surpassed Long Chen's strongest killing move by a long distance.

"Brother Chen!" When the Emperor Sword Qi appeared, Ling Xi was as anxious as an ant on a hot pan. Ling Xi was an expert who used the sword, with this Emperor Sword Qi's might, she could tell with a glance that Long Chen would definitely not be able to stop it.

Long Chen heard Ling Xi's warning clearly. Now, even if he forced himself to use his movement technique to dodge, he probably wouldn't be able to do so. But it wasn't like there was no way for Long Chen!

"Blood Escape!"

Although this move was not as terrifying as a blood sacrifice, the use of it made Long Chen's speed increase tremendously.

With such speed, Long Chen was simply unable to control his direction. He instantly accelerated, turned into a bloody shadow, and disappeared from his original position. When he reappeared, he was already at least a hundred meters away!

If it weren't for Ling Xi and the little wolf, with the Blood Escape, Lin Zichen wouldn't have been able to catch Long Chen at all.

Using this Blood Escape, even though Long Chen was trying his best to control it, he had already flown a hundred meters away. This was already considered the shortest range. Ling Xi was still in her original place, so Long Chen had no choice but to rush back immediately. With regards to true qi from the ninth level of the Milky Way Realm, a distance of a hundred meters was enough to cover in the time for a single breath.

However, even if it was just for the time of a breath, Lin Zichen could still kill Ling Xi, so Long Chen knew that she wouldn't be able to use Blood Escape again. This time Lin Zichen still had not reacted, he did not know what to do next.

Indeed, Long Chen had used his blood to escape, and was struck by the Emperor Sword Qi. Lin Zichen was stunned for a while, and while he was stunned, Long Chen had already returned. He was worried about Ling Xi, so the location he was standing in front of was right in front of him.

"I have to say, Long Chen, you have a lot of methods on you that can make people gasp in surprise." Lin Zichen squinted his eyes and looked at Long Chen. Suddenly, an evil smile appeared on his face.

"Your method of escaping is very powerful, it seems like even my Emperor Sword Qi would have a hard time hitting you, but, I really want to know, if you use this method, will you be able to dodge it?"

Lin Zichen's words gave Long Chen a bad premonition.

Sure enough, at this time, Lin Zichen shot his Emperor Sword Qi towards Ling Xi!

Chapter 340 - Demonic Palace Lord

Long Chen was not far in front of him, which meant to say, if Long Chen dared, he could definitely block Ling Xi's path before the Emperor Sword Qi arrives. But to risk her life, did Long Chen dare?

This was Lin Zichen's plan.

That line of Emperor Sword Qi instantly caused Long Chen's heart to twitch. He was certain that if he had not blocked in front of Ling Xi, Ling Xi felt that he would have been split into two. But for the same reason, if he had blocked in front of Ling Xi, he could have been split into two as well!

The Emperor Sword Qi whistled out, and the resplendent golden light dyed Long Chen's entire world gold!

"Brother Chen!" Ling Xi finally revealed a relieved smile. Along the way, she had always been a burden. This made her feel uncomfortable every gram. Even though she knew that Long Chen would not blame her, she still felt terrible. This Herba Euphorbiae gave her a lot of experience as a new person, and even gave her a lot of feelings that she had never had before.

From the Source Spirit City onwards, she had been carefully taken care of by Long Chen every day. She had received enough happiness, so this time, she had truly given up. Throughout the journey of life and death, it had always been Long Chen who had paid the price for her sake, and now, it was her turn.

Right at this moment, Long Chen felt his mind go blank, the only thing left in the world was that golden sword qi. His current thoughts were very simple, or to be more accurate, he did not have any thoughts, just like when he was in Star Demon Prison. Without the slightest hesitation, Long Chen moved his legs, and his entire person appeared in front of Ling Xi in an instant to block the attack!

Ling Xi knew that he would do this, she knew Long Chen too well. Whatever calamity he had decided on could not be changed! He had already decided to protect Ling Xi, so she had long put life and death on the line!

The Emperor Sword Qi instantly rushed to Long Chen's front, accompanied by Lin Zichen's cold laughter, and that enormous sword light, even before it reached Long Chen, had already caused him to feel pain all over her body!

In Long Chen's mind, he was frantically thinking of a way to use everything he had. The only thing he could take out to use was the King of Hell Blade that he had snatched from Song Zhongcheng's hands.

BOOM!

Long Chen erupted with true energy from his entire body, gathering all of his energy into the Underworld King's blade in his hand, blocking the Emperor Sword Qi!

Clang!

With a loud sound, Long Chen was blasted away while spitting out blood. His face was pale white, but he continued to persevere, the Emperor Sword Qi actually did not dissipate, with an extremely fast speed, it forced Long Chen to retreat backwards. The sharp sword light danced in all directions, passing through Long Chen's skin, and had already killed Long Chen to the point of wounding his body!

Long Chen felt that the Emperor Sword Qi in front of him was like a mountain, pressing down on top of his head with the [Underworld King's Blade]! Even though he had used up all of his strength, he was still forced to retreat. His hands that were holding the edge of the Nether King's blade were almost crippled!

"He really went to block it? It really moved me, but I have never believed that I am touched. Since you are willing to die for her, I will help you fulfill your wish. With that, he raised his Emperor Sword high, and saw another Emperor Sword Qi rushing towards Long Chen!

Forget about the other Emperor Sword Qi, even the Emperor Sword Qi in front of him had already killed Long Chen to the point that it was covered in wounds. Looking at the Underworld King's blade in his hand, it had started to crack, and was almost about to shatter! If the Underworld King's Blade were to shatter, Long Chen would definitely be killed on the spot!

It was only then that Long Chen realized how terrifying this fellow was. Most likely, this Emperor Sword Qi was a simple battle skill like his, and this young Sword Emperor should be even more away from him than his royal uncle, Sword Demon!

At this moment of life and death, all that was left in Long Chen's heart was to resist with his life! His eyes were filled with blood and hostility!

In reality, if Lin Zichen had not attacked Ling Xi, Long Chen could have relied on her blood to escape and fight with him. What was certain was that Lin Zichen would never be able to kill him, but it was a pity that Lin Zichen was also someone who did not follow common sense.

Life and death, at this moment!

"Brother Chen! I'll save you! " At this time, Long Chen suddenly heard Ling Xi's voice. Ling Xi's voice had already changed a bit, but it did not sound like the voice her body was emitting now. Instead, it sounded like the voice Ling Xi used to communicate with Ling Xi while she was on the sword a long, long time ago!

'Could it be ... '

Long Chen's face changed greatly. He could not care anymore about the Emperor Sword Qi in front of him, he suddenly turned his head, only to see a pure white sword qi sweeping over, instantly shattering the Emperor Sword Qi in front of Long Chen! It turned into specks of light, dissipating into the air!

"Xiao Xi!" When the sword beam passed by, Long Chen was shocked to see that Ling Xi had already become a soul state completely covered by white mist, and the original Herba Euphorbiae, gradually turned into a smaller and smaller piece of abandoned lotus root, charred black all over, was no longer usable anymore.

This meant that Ling Xi had already given up on her Herba Euphorbiae's body and returned to her original soul state, so she could carry Ling Xi by her side.

"I'm sorry Brother Chen, I can't watch you die! Forgive me for being disobedient this time, but I've had enough of being a useless person who can't help me with anything! Okay? I believe that you will soon find something better for me! "

Because he was worried that Long Chen wouldn't be able to think straight, Ling Xi hurriedly explained.

Of course, Long Chen also knew about it, but he did not know about the Nine Celestial Spirit Fruit.

At this critical juncture, Long Chen had thought it through. He really did like it when Ling Xi had a good body and lived a carefree life, but unfortunately, under these circumstances, it was no longer possible to be carefree.

Nine Celestial Spirit Fruit was certainly a huge challenge, but until the end, who knew who would be the victor?

Since he couldn't keep her even with his life, then he might as well just lose her. Hearing Ling Xi's words, Long Chen realized that she had been really a little selfish along the way. He wanted to give Ling Xi a happy life, but she had forgotten about Ling Xi's feelings.

"Brother Chen, can you forgive me?" Ling Xi asked worriedly.

Previously, Long Chen had been extremely against her giving up on the Herba Euphorbiae she had gotten with much difficulty, so she was a little uneasy in her heart. She was afraid that Long Chen wouldn't want her anymore because of her disobedience.

"Because of the Herba Euphorbiae, I have accumulated and nurtured quite a bit of soul power during this period of time. I should be able to stop this fellow for a while, Brother Chen, can you leave first?" Ling Xi asked somewhat nervously.

To Long Chen, having lost the Herba Euphorbiae, he had no choice but to live inside Ling Xi's sword. He should respect Ling Xi's decision. This matter had already become a foregone conclusion, and the most important matter at the moment, was Lin Zichen!

Then, only by training even more diligently would he be able to find the Nine Celestial Spirit Fruit for Ling Xi as soon as possible so that she could truly become a human and possess her peerless abilities from before!

However, it was impossible for Long Chen to escape on his own!

Ling Xi did not blame Ling Xi, as all of this was forced on him by Lin Zichen, who had thrown all his anger and hatred onto Lin Zichen! At this time, he turned her head coldly and looked at Lin Zichen, his eyes flickering with an ice-cold killing intent!

"How can I leave first? Xiao Xi, if you are still okay, then come and deal with him with me. Today, I will definitely take his dog life! "

"Doggy life?" Lin Zichen was still looking at Ling Xi in a daze. Even though he was experienced and knowledgeable, he did not know what was going on with Ling Xi. Why did a person who was in such good condition suddenly become shrouded in fog, and become so unreal? Furthermore, from the looks of it, it seemed as if Ling Xi did not have a body!

Lin Zichen had initially thought that one more Emperor Sword Qi would be enough to kill him, but he never thought that there would be such an effect, causing him to forcefully stop his attacks. When Long Chen said he wanted his dog life, he finally reacted!

"Although I don't know what happened to this girl, I am rather interested. Do you want to join hands and kill me?" Coincidentally, I also want to use this lady to research and understand what is going on. At the same time, Long Chen will send you to hell! "

Ling Xi came to Long Chen's side. She currently possessed power, and although it wasn't much, but she could probably be like Long Chen and suppress him for a while!

Just as they were about to fight, from the direction of the Diremonster Mountain, a wave of huge fluctuations suddenly came out. Long Chen and the others were knocked back a few steps, and a burst of ear-piercing devil music suddenly entered their ears!

"Child of the royal family, quickly leave! Otherwise, don't blame me for being rude!" After all, it was not aimed at him. However, Lin Zichen was shaken to the point that his blood energy was boiling, his face pale white. He was already slightly injured, and now he was forced to retreat a few steps!

To be able to injure Lin Zichen with just a single sentence, such an expert was definitely a legendary peerless expert who surpassed the limits of Milky Way Realm! In the entire Canyang Kingdom, other than the Sword Emperor s, there were definitely no more than two!

This person was obviously the Asgard Master of the Demonic Palace!

Hearing that, Lin Zichen's face changed.

"Dogs who have lost their homes, do you want to escape?" Long Chen also did not expect that such a situation would actually happen. There was still some distance between here and the Diremonster Mountain, he did not expect that the Demonic Palace's Palace Master would actually be able to sense such a thing!

"Long Chen, you got lucky this time, but you have the guts to stay in Diremonster Mountain's territory. The moment you come out, I will definitely take your life!" Lin Zichen said fiercely.

"Then if I don't go to Diremonster Mountain, wouldn't that be fine? Also, Lin Zichen, you better remember this, I will definitely return to the Biyang Royal City in the near future. At that time, it will be the day you, Lin Zichen, die! I swear here today that if I don't hack you into a thousand pieces by then, it will be absolutely difficult to quell the hatred in my heart! "

"Then we'll see!" Lin Zichen sneered, and left.
