

War God 361

Chapter 361 - Slap Yang Jun

No matter what Long Chen did, he had already raised the issue of the battle, so no one dared to cause a ruckus. They knew that there was no need for them to mock him anymore, as long as Long Chen lost to him, it would be a heavenly mockery to him.

Yang Jun never would have thought that Long Chen would come at the last moment. He had always thought that Long Chen was afraid of him, and since he did not come at the beginning, he could not come next.

"Fearfulness, is a very normal thing. There's no need to hide it at all," Yang Jun sneered, and gradually loosened his arms. One could see that his body was beginning to be surrounded by surging true energy. His tall and sturdy body was like a bomb, filled with boundless energy.

Long Chen smiled faintly.

"Dragon Soul Transformation."

Under this ability, Long Chen's body started to be covered by the blood red scales at a speed visible to the naked eye, and very quickly, Long Chen became a blood red battle machine. Looking at Long Chen's current appearance, he should be ferocious, but he gave off a supreme feeling of perfection.

"How dare you make a fool of yourself in front of me with such a lowly beast spirit transformation?" Yang Jun laughed, his expression suddenly becoming extremely fiendish. With a roar, his sturdy legs kicked off the ground, and like a cannonball, he shot towards Long Chen!

With Yang Jun's stomp, the entire stage started to shake. From this, it could be seen how strong Yang Jun's strength was.

"This guy must have trained his high-rank earth class's body tempering technique. In terms of physical aspect, he should be much stronger than me, so what I need to do is to take advantage of this situation and use my speed to deal with him!"

Long Chen secretly thought.

In fact, after experiencing Dragonsoul Transformation, his current true qi was almost the same as Yang Jun's. It was just that there was still a difference in strength.

Although the green dragon halberd was no longer useful, it had to be said that this was the only convenient weapon that Long Chen had in front of him. With the green dragon halberd in his hand, Long Chen moved his feet, and gently slashed towards Yang Jun.

The two of them, one light, one violent, one calm, their battle was full of visual impact.

"Die!" The Seven Deadly Devil Finger! " When he was near Long Chen, Yang Jun immediately used the battle skill of his high-rank earth class, and instantly, the fierce wind from his fingers blotted out the sky as it pounced towards Long Chen!

Long Chen had already seen the Seven Deadly Devil Finger's move twice, and he roughly understood the trick behind it. However, right at the start, Long Chen chose to face it head on, because he had enough confidence in his ability to deal with Yang Jun.

"Azure Dragon Battle Method, the fall of Dragon Emperor!"

The green dragon halberd shook and turned into a blood-red thread, piercing towards the Seven Deadly Devil Finger! The Seven Deadly Devil Finger's power was scattered, but Long Chen's Dragon Emperor's Falling Death was completely concentrated. No matter the level, Dragon Emperor's Falling was definitely very suitable to break through the Seven Deadly Devil Finger.

"Under the situation where he is at a disadvantage in terms of true energy, using Earth Stage Medium's battle skill to fight against high-rank earth class's battle skill is pure courting death. Long Chen has not even managed to cultivate the Traceless Demon Shadow, and he has even used his strongest move. On the stage, Triplex's face was filled with smiles.

In front of so many people, for his disciples to defeat Demonic Palace Lord's disciples, he felt a sense of accomplishment!

However, what happened next caused him to lose his teeth!

Long Chen suddenly exerted force, causing the green dragon halberd to go berserk. The berserk burst of power forced Yang Jun's Seven Deadly Devil Finger to retreat, and Yang Jun's halberd also forced Long Chen to retreat a few steps!

Long Chen could be said to be right. With the strength of his Sixth Stage of the Milky Way Realm, fighting skills that relied on Earth Stage Medium could directly break the battle skill of his high-rank earth class. However, Yang Jun had the absolute advantage, but in the first attack, he was at a disadvantage!

"Impossible!" Yang Jun roared, his eyes completely red, without saying a word, an even fiercer attack swept towards Long Chen!

"It seems that after the Demonic Palace cultivated quietly, my disease of being impulsive and bloodthirsty in battle has improved." At this time, Yang Jun was so angry that he had already lost all sense of reason. The thing he could not accept the most was that he would lose to Long Chen, which was why he was in such a rush right now!

"Long Chen, I will skin you alive! You were lucky enough to get rid of the Seven Deadly Devil Finger, I'll let you see this move! "True Devil Fist on the seventy-second step!"

could only survive after enduring through seventy-two punches, of course, if Long Chen was strong enough, he would be able to completely train his opponent's punching routine in the middle of the process!

"The first way!"

That fist force that was like an ocean tide suddenly pressed down towards Long Chen. Under Yang Jun's enormous aura, the entire stage trembled, and the hearts of everyone below the stage also tensed up to the extreme.

Behind Yang Jun, it was as if a gigantic devil shadow had appeared, and was channeling endless power into him. With this tiny bit of power, Yang Jun could completely unleash the power of the seventy-two moves of the True Devil Fist!

"Isn't Long Chen done for this time?" The Seven Deadly Devil Finger just now had already exceeded Triplex's expectations, so Triplex did not believe that the current Long Chen could still bring him shock!

"What about the Demon Fist Art?" Long Chen looked at the force of the punch, but he was not nervous at all.

"It's time to use the Traceless Demon Shadow." With that thought in mind, Long Chen continued to stay where he was. He stood in the distance, waiting for Yang Jun to approach.

"What's going on?" Long Chen's actions caused everyone to be suspicious. Even if he was already exhausted, there was no need for him to court death like this, right?

"Father-in-law?" Dongfang Xuanxiao was anxious. Just as he was about to stand up, he was stopped by Zhao Qingyun, who had a surprised look on her face.

"Could it be?" Seeing that Zhao Qingyun was not worried at all, he guessed that Dongfang Xuanxiao did not disappoint him as expected. Dongfang Xuanxiao was not an idiot.

In the midst of everyone's doubtful gazes, Yang Jun's first punch had already struck towards Long Chen's face. If he was hit, Long Chen would at least lose half of his battle strength, while Long Chen still did not have any signs of resisting, causing many people to subconsciously close their eyes, because they were worried that they would see a scene that was too cruel.

"Are you seeking death?" Yang Jun also did not understand, but this was a huge opportunity. Right now, even if he killed Long Chen, it could only be attributed to the fact that Long Chen was courting death.

At this critical moment. Long Chen laughed.

"Whiz!"

Under his shock, Yang Jun raised his head and suddenly saw a bunch of black, blurry figures in front of him right before his eyes. They were flashing crazily!

"Traceless Demon Shadow!" The Three Great Demons who was seated, as well as the various Hall Masters and Protectors were all looking at the stage with eyes filled with shock, their bodies had unconsciously stood up!

Seeing those blurry figures in front of Yang Jun right now, it was basically hard to tell which one was Long Chen's real body!

"Only by cultivating the Traceless Demon Shadow to the stage of mastery can one display such a level of mastery. Not only has this Long Chen learned the Traceless Demon Shadow, the degree of familiarity has already surpassed Dan Feng and Xiao Yu!" Although he could not believe it, the Great Moxibustion was still a little speechless.

Yang Danfeng and Murong Yu heard his, and their hearts were shocked, they looked at Long Chen but their emotions were different. Murong Yu was purely shocked, even if she told Long Chen a trick up her sleeve, she never thought that Long Chen could cultivate to such an extent. At this moment, her beautiful eyes were firmly staring at Long Chen, and she was already a little stupefied.

As for Yang Danfeng, one of the words of the Great Moxibustion, he actually said that Long Chen had already suppressed him, which made him, who had always been one of the top in the Demonic Palace, feel extremely uncomfortable. Furthermore, his relationship with Yang Jun was better, so how could he like someone that Yang Jun hated? Therefore, in his shock, there was a trace of malice.

Even the people outside the arena were stupefied, let alone the Yang Jun who had no idea where Long Chen was right now. The fame of the Traceless Demon Shadow within the Demonic Palace was so great that Yang Jun could tell with a single glance that Long Chen had definitely already used the Traceless Demon Shadow!

"Impossible, this should only be half a meter in strength. As long as I'm careful, I can easily break through this Traceless Demon Shadow. I definitely won't be scared!" Yang Jun told himself with all his might, he knew that the most important thing right now was not to use the Seventy-two Path Demon Fist, but to escape!

But, would Long Chen let him escape?

When Yang Jun's first move on his True Devil Fist failed, Long Chen had already used the Traceless Demon Shadow and instantly transformed into a figure, arriving behind Yang Jun. Immediately afterwards, the green dragon halberd in his hands directly whipped Yang Jun on his back!

Pow!

Yang Jun was slapped until he staggered a few steps, and almost fell to the ground! On his back, a red line of blood had already been drawn!

"Son of a bitch, your body is so strong!" Long Chen could not help but curse in rage. He used all his strength to draw the green dragon halberd against Yang Jun, but he did not expect it to merely draw a line of blood!

However, for Yang Jun, this was already considered a humiliation. He suddenly turned his head, and just as he was about to attack Long Chen, Long Chen's green dragon halberd had already ruthlessly smacked his face!

Pow!

Yang Jun cried out miserably, spitting out a mouthful of blood. There were a few teeth mixed in!

Yang Jun had completely collapsed, because he realized that he could no longer see Long Chen's figure. He raised his head, the sky was filled with Long Chen, which one should he fight?

Pow!

Yang Jun's butt was slapped, causing him to fly out!

Chapter 362 - Hugging Your Legs

"I'll beat you to death, but I don't believe that I can't beat you to death!" Long Chen's laughter echoed in the arena, and then, everyone's scalps went numb as they heard one after another crackling sound, accompanied by Yang Jun's miserable cries of despair after another!

In the competition arena, Yang Jun looked miserable and miserable, but he was being chased and beaten up by Long Chen. Right now, his clothes were tattered, and his entire body was covered in wounds!

Everyone was dumbstruck as they watched this scene unfold. Before this battle, even if they wanted to blow their brains out, they would never have imagined that such a scene would appear.

No one would have thought that not only did Long Chen cultivate the Traceless Demon Shadow, he even used it to such a degree. This kind of talent was simply too monstrous.

"I concede!" I concede! " It was only until Yang Jun almost cried out those words that Long Chen stopped his attack. He stood in front of Yang Jun, looked at him with a bit of ridicule, and said with a smile: "Yang Jun, I'm sorry about this. "You can't be disobedient in the future, or else I'll still slap you until you cry, until you beg for mercy."

"Long Chen!" At the moment, his entire body was filled with stinging pain, because of the loss of a lot of teeth, Yang Jun's words became extremely painful, his current state was extremely miserable.

This was the power of the Heaven Tier Battle Skill's Traceless Demon Shadow.

"A heaven-step movement technique is indeed extraordinary. After I use it, this fellow simply doesn't have any strength to fight back in front of me." Long Chen thought in his heart.

Yang Jun glared at Long Chen venomously, he no longer had the face to stay on the stage, and the current him, felt a burning pain all over his body, and his mind went blank. This reality was simply too shocking to him, he didn't even dare to believe it.

After Yang Jun left the stage, Long Chen stood alone on top of the stage.

He suddenly enjoyed the feeling of being stared at and watched by everyone.

At this time, the Three Great Demons looked at each other. After a long time, the Great Moxibustion sighed and said, "I have to admit, he is indeed a genius. It seems like the rumors in the outside world about him violently killing the six great commanders and exterminating the Japanese is definitely true. This child is very terrifying, the Palace Master has placed her bet on the right person. "

"Then what should we do?" Erythropoda said worriedly.

"What can we do? Fortunately, Long Chen only has Sixth Stage of the Milky Way Realm now, and Demon Emperor Sword are about to start a new round of competition. As long as he doesn't get the Demon Emperor Sword, everything will be fine. " The Great Moxibustion said calmly.

The Erythropoda also nodded his head. She looked at the shining young man on the roof and was momentarily stunned, because he realized that this young man was actually looking down at him from above. Even though she was stronger than Long Chen, she had a strange feeling in his heart, as if Long Chen was too high up in the sky while she could only look up to him like an ant.

Erythropoda sighed, then looked towards Triplex at his side. At this moment, Triplex's face was gloomy, his face was so dark that it seemed like blood was about to drip out.

"Oh 'Three, what are you thinking?" Erythropoda asked.

Triplex was silent for a moment, then said in a low voice: "I'm thinking, why didn't you get your revenge, and kill this brat."

"Don't, now is not the time. You are not young, don't let me be rash." The Great Moxibustion heard his words and immediately warned him.

"Un, farewell!" With that, Triplex stood up, he no longer had the face to continue staying in this place, he called out to Yang Jun, and immediately broke through the crowd and walked out.

Zhao Qingyun watched as they left, then looked at the Long Chen on the stage. The more he looked at this youth, the more satisfied he became. At the same time, the arranged battle had already ended. Previously, when Long Chen did not come, he was so aggrieved that he died, but now, he was finally able to stand up straight with a face full of smiles. The result of this arranged battle was extremely clear. Long Chen had completed his words, and not only did he completely cultivate the Traceless Demon Shadow, he had even defeated the third ranked disciple of the younger generation, Yang Jun! Let's give him a round of applause! "

With Zhao Qingyun taking the lead, how could the crowd not clap? Immediately, the entire Demonic Palace was shaken by the tide of applause. Now that Long Chen already had such strength, even more people felt sincere admiration towards him, especially those people who had said that Long Chen was not the same as them. At this moment, their faces were burning with anger.

Amongst them, Wang Xing was the loudest.

It could be said that because of this arranged battle, Long Chen could finally use his identity as 'Long Chen'.

However, in this arranged battle, Long Chen had an even more important matter to attend to.

"Master, I heard that there's going to be a fire generating meridian trial in a few days." Long Chen asked.

"The fire generating meridian's trial is in five days." Zhao Qingyun nodded, he knew what Long Chen wanted to do, and it seemed that before, Long Chen had the intention of entering the fire generating meridian.

"I would like to ask, with my current strength, do I have the qualifications to enter the fire generating meridian to train?" Long Chen asked with a smile.

"Of course there is. You have defeated Yang Jun, and among the young disciples, you are already ranked third, so you are completely qualified to enter the fire generating meridian. How about this, the ten people from before have already been decided, and Long Chen also has enough qualifications. Zhao Qingyun announced.

In this way, the tenth ranked fellow would no longer resent Long Chen because he was squeezed out.

"Thank you, Master!" Long Chen was very happy that he had succeeded in obtaining this position. Long Chen could imagine that it would be a paradise of flames. The Little Wolf was a demon beast that was born from flames, and right now, he was only at the fifth level of the Earth Stage. As long as he entered the fire generating meridian, he would definitely be able to greatly increase his strength.

"Master, I want to bring my wolf cub in. It should be possible, right? He has always been by my side. When I'm not around, if he has no one to control him, it would be bad if he could injure someone else. " Long Chen said.

"Of course." Zhao Qingyun felt extremely comfortable, and at this time, no matter what request Long Chen made, maybe he would agree to it.

"How about this, Long Chen, the test is about to begin, you don't know anything about the rules, Xiao Yu, if you have time, tell Long Chen about it properly in the next few days."

In the fire generating meridian, Long Chen was alone. The top ten were all disciples of the Three Great Demons, so Zhao Qingyun was worried that Long Chen would surround and attack them, hence

she thought of Murong Yu. Amongst the disciples of the Three Great Demons, only Murong Yu was the most obedient, and did not have any prejudice towards anyone.

Murong Yu didn't think that Zhao Qingyun would suddenly mention her own name, and was stunned for a moment. She had just been warned, so her first reaction was to look at her master, but since Zhao Qingyun had already spoken, Erythropoda didn't dare for Murong Yu to reject.

Zhao Qingyun nodded her head in satisfaction, then looked around, and said: "Today's matter is over, everyone go back and attend the fire generating meridian's training, everyone should go back to preparing for it, in five days, I will open the, and whoever obtains it will have to depend on how hard you guys are working!"

"Yes, Mistress!"

Because of Long Chen, not only did Zhao Qingyun's prestige not decrease, it had increased by a lot. Previously, the only complaint everyone in Demonic Palace had was that this Asgard Master had the ability to take in disciples. When Long Chen rose in power, his image of a Zhao Qingyun instantly became perfect in the eyes of all the disciples in the Demonic Palace.

As for the Three Great Demons, other than Murong Yu who was still at her original location, the rest of them also left without a word.

What Long Chen did not notice, was that when Yang Danfeng left, his eyes had always been gloomy. He scanned the crowd, and finally found a skinny youth.

Long Chen naturally did not know of any of this.

Long Chen, Xiao Yu is a genius warrior with eighth level of the Milky Way Realm, moreover, she has a kind heart and a good temper. If you communicate well with her, it will be of great help to your trip to fire generating meridian. Zhao Qingyun said, then left with Dongfang Xuanxiao and Yue Yang by her side.

Only Long Chen and the veiled Murong Yu remained.

"It seems that my Master wants you to protect me in the fire generating meridian. It looks like I have to hug your thighs as soon as possible." Long Chen laughed bitterly.

"Legs?" Murong Yu was a little embarrassed and angry, although she didn't mean what Long Chen had said, but to Murong Yu, it sounded weird, and she still remembered the warning given by the Three Great Demons in her heart.

"Long Chen, I'll tell you the rules of the fire generating meridian. After I say it, I'll leave. Murong Yu said.

"Yes." Long Chen nodded.

"The fire generating meridian is a huge magma river. Underneath the magma river are two things, one is a Flame Refinement Essence, and the other is a demon beast, an Earth Rank Level Six Flamethrower. Under normal circumstances, only by defeating the Flamethrower would one be able to obtain the Flame Refinement Essence. This time, I will compare it with Yang Danfeng. As for you, as long as you compare it to the others, as long as you have the most fire refining essence, you will be able to get the first level of Great Mantra of Dao-heart Seed. "

"It's that simple?" Long Chen was a little surprised.

"What else do you think you need?" Murong Yu said.

"Then what if I get more Flame Refinement Essence than you and Yang Danfeng?" Long Chen asked.

"I don't know about that, you can ask the Mistress, but don't think too much, Yang Danfeng and I have entered the fire generating meridian a total of two times, and are extremely familiar with the place. It's basically impossible for you to surpass us. "

Chapter 363 - Plum and Bamboo Horse

After saying that, Murong Yu decided to leave. Although Erythropoda had already left, Murong Yu knew that his performance was closely watched by Erythropoda. If she stayed here for too long, there would definitely be a scolding.

"Right, there's one more thing." Halfway there, Murong Yu turned around.

"What is it?" Long Chen asked. He thought for a while and roughly understood that the Three Great Demons was pressuring her. Right now, in the middle of Demonic Palace, it seemed like Three Great Demons was openly and secretly fighting with the Demonic Palace Lord, and Long Chen and her were in different factions respectively, so this was very normal.

"In the fire generating meridian, fire refining essence is the most common thing. After being tempered in magma for countless of years, fire refining essence is able to form divine refining crystals, and our training will be even better if we can obtain divine refining crystals. If you were to get your hands on the divine refining crystal, it would basically be the same as getting your hands on the Great Mantra of Dao-heart Seed. "

"divine refining crystal? "I have." Thus, the wolf cub had another target.

There are even stronger divine refining crystals for the Fire Refinement Essence, and there are even stronger Spirit Beasts for the Flamethrower as well. They are called Divine Flaming Beasts, and Divine Flaming Beasts are more similar to Spirit Beasts, but bigger and stronger. The Divine Flaming Beasts are the Spirit Beasts of the Earth Stage Seven, and there are many of them in the fire generating meridian.

Although Murong Yu deliberately kept a distance from him, she did indeed speak of all that needed to be said to be said very carefully to Long Chen. From this, it could be seen that she still took care of Long Chen quite a bit.

"Thank you very much." Long Chen nodded to her. Generally speaking, those who were good to him were not many.

"Mm. Also, you have to be careful of others. I wonder if they will give you any trouble. You know who I'm talking about, so I'll take my leave." After that, Murong Yu left.

On the gigantic stage, only Long Chen was left standing, only then did Xiao Lang jump up from a corner into the stage, and excitedly ran to Long Chen's side. In the past few days, Long Chen's strength had increased by leaps and bounds, and he had been standing at his original position. But luckily, his good days were about to come.

However, what the wolf cub didn't understand was that he clearly remembered that there were still two days left before Long Chen's arranged battle.

The matters with the Demonic Palace s had already come to an end, and Long Chen was currently completely immersed in the mysterious stone talisman.

"It's such a miraculous item. Unfortunately, I am simply unable to grasp it. Just leave it for now. If I continue to improve, there will come a day when I will be able to completely comprehend this item."

After coming to a conclusion, Long Chen brought the little wolf and headed in the direction of the Greencloud Residence. There were only five days worth of time, and Long Chen was no longer planning to cultivate. Right now, the Traceless Demon Shadow could only progress in actual combat.

Along the way back, the way everyone looked at Long Chen was already completely different. In the past, people would laugh at him because of his identity, but now it was different. He was the real Long Chen, and he had already cultivated to the Heaven Tier Battle Skill, so basically, he had already broken the records of the Demonic Palace. Who would dare laugh at such a monstrous genius?

Looking at his eyes, apart from respect, it was also reverence.

As for the Great Mantra of Dao-heart Seed, I want both. Once I have all these things, my strength will increase once again, and it will be when I kill my way back to the Biyang Royal City. Xiao Xi, just you wait, Nine Celestial Spirit Fruit, I will soon get them for you. "

"En!" Seeing the passionate look in Long Chen's eyes, Ling Xi nodded her head obediently. Immediately, his eyes revealed a strong sense of sorrow, because there was one thing she could not tell Long Chen, and could not bear to tell Long Chen, if Long Chen really brought the Nine Celestial Spirit Fruit for her, then it would be exchanged with an eternal separation.

This was what Ling Xi was panicking about more and more.

At that time, Long Chen had promised her that he would reconstruct his fleshly body for her. What she wanted was to give Long Chen some compensation after the remodeling of his fleshly body, and then, he could leave this place.

But she couldn't do it now, her soul was already in Long Chen's body. If she were to split up, her soul would definitely be left behind, and she would become a person with almost no soul.

She would rather stay together with Long Chen forever, but she knew how strong the obsession in Long Chen's heart was. Long Chen was the type of person who would never turn back when he had decided to do something, so, if he did not get the Nine Celestial Spirit Fruit in his life, he would definitely not let things rest.

Of course, this was all a story in the future.

After boasting with Ling Xi, Long Chen returned to his residence. He had already stayed in the Demonic Palace for approximately two months, but he did not stay in the Greencloud Restaurant for more than a few days. With the remaining month, these two months were a peaceful two months. Long Chen knew that the next month would be when the Demonic Palace would stir up a storm.

Just then, Long Chen saw a shoe on the ground. This shoe only had one person, standing alone here, which seemed a little strange.

"These are service disciple's shoes. In Green Cloud Palace, there's only one Wang Xing. Why did Wang Xing throw his shoes here?" Long Chen was a little confused. He picked up the shoes and shockingly discovered a sentence carved on the bottom of the shoes.

Alone, he came to the locust tree at the back of the mountain.

Among them, there was a locust tree that was especially tall. Long Chen remembered that the last time Wang Xing visited the other disciples, it was also near the locust tree.

"To think that all the thoughts are on Wang Xing. Who was this? Yang Jun is already injured, that should not be possible, so it should be Yang Danfeng right? "

Of course, this was just a guess.

Without saying a word, Long Chen made the little wolf stay far away, and then headed towards the back of the mountain. He had been running along this road for the past few days, so he quickly arrived at the location specified on the soles of his shoes. When he saw the locust tree from afar, Long Chen already saw two people standing there.

"Wang Xing, put on your shoes." After walking to Wang Xing's side and realizing that he wasn't injured, Long Chen calmed down a little. After that, he tossed the shoes in his hands to Wang Xing while he stood in front of Wang Xing and looked at him.

"Brother Chen!" Seeing Long Chen, Wang Xing's eyes filled with tears. Just now, Yang Danfeng had told him that if Long Chen did not know, he would execute Wang Xing.

"It's none of your business, let's go back first. "Don't tell anyone else about what happened here." Long Chen said indifferently.

"En!" Wang Xing knew that he would only be a burden to Long Chen if he stayed, and he also had an extreme amount of worship for Long Chen, so he didn't believe that Yang Danfeng would do anything to him.

After Wang Xing left, a cold smile surfaced from the corner of Yang Danfeng's mouth as he said: "Looks like you're still interested in a lowly service disciple, huh?"

"Meeting is fate. To be able to say a few words and to have some friendships is fate. In my opinion, this has nothing to do with strength and status, nor is there any conflict. However, you, on the other hand, don't do this. If you want me to come out and meet you alone, just say a few words. " Long Chen said.

Yang Danfeng laughed, then said: "I brought him here to see if you care about his death. We core disciples all have the right to kill service disciple without punishment, and it's normal for me to kill him in public, do you understand?"

"What do you mean? Just tell me your purpose. " From's posture, it was clear that she was going to become his enemy. Yang Danfeng was a practitioner of eighth level of the Milky Way Realm, and had also cultivated the Traceless Demon Shadow and Great Mantra of Dao-heart Seed.

"I'll just ask you a few things. Number one: fire generating meridian's trial, once you use your seventh level of the Milky Way Realm, you can't take first place. Number two: You're not allowed to speak to Little Yu in the future, and you're not allowed to have any interactions with her." Yang Danfeng's voice turned cold.

Long Chen almost laughed out loud. This Yang Danfeng was really self-righteous. Even if it was Zhao Qingyun, he didn't have the qualifications to restrict Long Chen.

"What right do you have to make me do this?" Long Chen laughed.

"I knew you would ask." Yang Danfeng's expression, everything was within his expectations, and he said: "If I were to threaten you, saying that you cannot do it, I will kill you. This kind of threat is too small, you are proud and arrogant, I think you think you can stand shoulder to shoulder with me already."

"Then what other weakness do I have in your hands?" Yang Danfeng's attitude made him extremely uncomfortable, so the viciousness in Long Chen's eyes had gradually been aroused.

I can already tell that you, Long Chen, are a person who values your feelings greatly. service disciple's life is like straw in my eyes, but to you, it's a treasure, and I have many powers in the Demonic Palace, so I can guarantee you that I have a hundred ways to kill Wang Xing. Yang Danfeng had cut Long Chen's fatal point, and said complacently.

Long Chen was silent.

Therefore, Long Chen raised his head, and his gaze gradually turned cold as he said: "Since that's the case, then let me tell you this, if something happens to Wang Xing, one day, you will also lose your life. If I can even kill Song Zhongcheng, do you think that I can't kill you? "Goodbye."

After he finished speaking, Long Chen left without even turning his head back.

Since the enmity had already been formed, there was no need to waste words.

"I and Xiao Yu and I have been together for twenty years. If you make trouble, even if I do not want my life, I will kill you, Long Chen!" Behind him, Yang Danfeng clamored.

Chapter 364 - fire generating meridian

Five days later, the fire generating meridian's training officially began.

Before this, the wolf cub was very excited. Long Chen realized that after the little wolf had taken over the Sun Devouring Demonic Wolf's body, it had become more childish, and spent its days thinking of becoming a child.

Early in the morning, the little wolf was eagerly following Long Chen, and at this time, Zhao Qingyun was already waiting for him outside.

"How is it with Murong Yu?" Zhao Qingyun asked as they headed towards their destination.

"Don't worry. Even if I'm alone, I won't lose to them. What do you think?" Long Chen said confidently.

Zhao Qingyun nodded his head, and said: "Actually, what I'm worried about is that in order to take revenge for Yang Jun, Yang Danfeng will join forces with Xiao Yu to deal with you.

"Nope." Long Chen could guarantee this, but he was able to discern that even though Yang Danfeng was being attentive to him, Murong Yu did not really pay attention to him.

"Then that's it. Remember, the more Flame Refinement Essence you get, the better. The Great Mantra of Dao-heart Seed is a good item. " Zhao Qingyun warned.

Long Chen nodded.

"Oh right, if I obtain more Flame Refinement Essence than the two of them, would I be able to obtain two stages of Great Mantra of Dao-heart Seed?" Long Chen tried to test the waters.

Great Mantra of Dao-heart Seed, level one, could increase the explosive power of one's Innate Qi by two times, and level two, could increase the explosive power by four times. Long Chen's Dragon Soul Transformation could already increase it by ten times, so this way, it might be able to increase it by forty times!

Forty times, this was an extremely terrifying concept. This meant that after Long Chen used the Great Mantra of Dao-heart Seed, his Innate Qi would be able to increase to a level that was even stronger than a seventh level of the Milky Way Realm Ranker.

Therefore, the Great Mantra of Dao-heart Seed was indeed a good thing.

Of course, since it was a grade origin ability divine ability, Long Chen's strength would far exceed this level. For example, the strongest power of every clone of the divine fire clone, was only around eighth level of the Milky Way Realm. When Long Chen's strength was far stronger than the Milky Way Realm, the divine fire clone's quality was only high-rank earth class, so it was impossible for it to improve any further.

The same goes for the Great Mantra of Dao-heart Seed. When Long Chen's strength does not surpass Zhao Qingyun's, the Great Mantra of Dao-heart Seed can be used, but if it does, then it should not be of much use.

Long Chen's question stunned him for a while.

"This hasn't happened yet, but do you want to obtain two layers of Great Mantra of Dao-heart Seed?" Zhao Qingyun said with a stern expression.

Long Chen nodded his head, and said: "The technique manuals, who would not want to obtain more?"

If I agree, they will definitely object. If they agree to it first, then I can agree to it naturally, but Long Chen, I understand Dan Feng and Xiao Yu, if you want to surpass them, it won't be easy. You must know that these two are the two strongest geniuses currently beneath Lin Zichen in the Canyang Kingdom. "

Long Chen was a smart person, so what Zhao Qingyun said basically made sense at all.

"I'll do my best." Long Chen laughed.

The Traceless Demon Shadow, Great Mantra of Dao-heart Seed, and The way of the Demon Emperor's Sword were all things that he had in his possession.

Following Zhao Qingyun, Long Chen had already arrived at the middle of the rear mountains. The entrance to the fire generating meridian was to bypass the back mountains, pass through the deep pool where Long Chen was cultivating, and then walk a short distance before arriving at a cave. The entrance to the fire generating meridian was right in the middle of this cave.

In the rear mountain, the Three Great Demons and his ten disciples were already waiting for Long Chen. It was like a battle between the new and old powers of Demonic Palace Lord. Long Chen was extremely bitter. He should be the same as Zhao Qingyun, both being alone, Zhao Qingyun being able to handle three of them, but Long Chen being a little weaker.

Due to the conflict between Long Chen and Yang Jun, the air seemed to be filled with the smell of gunpowder. These young disciples were all from the Three Great Demons and shared a common enemy.

They did not dare to have any objections towards Zhao Qingyun, so they all looked towards Long Chen with cold eyes.

Other than Murong Yu, they were all looking at Long Chen with cold and stern gazes. Logically, if Long Chen was facing such a pressure, he should be scared to the point where he peed his pants, but what surprised everyone was that Long Chen did not react at all. He still had a face of indifference, somewhat similar to Zhao Qingyun at the side.

"This child's temperament is indeed outstanding. He's not easy to deal with." Even the Three Great Demons was a little worried. In fact, if Long Chen had not appeared, the Traceless Demon Shadow and Great Mantra of Dao-heart Seed would have been prepared for Yang Jun. If they knew that Yang Jun had reached the eighth level of the Milky Way Realm, they could have entered Yang Danfeng's realm and added one more pinnacle disciple to Three Great Demons.

Unfortunately, Long Chen had appeared. Not only did Long Chen snatch the Traceless Demon Shadow, he even beat Yang Jun up during the arranged battle.

This was all brought to Yang Jun by Long Chen, so the person he hated the most now belonged to Yang Jun.

"Since everyone is here, let's go." Of course, Zhao Qingyun knew that the atmosphere was abnormal, but he had only turned a blind eye. In the past, there had never been a disciple of Zhao Qingyun's during the training. The Three Great Demons at that time was so mighty, but this time, it was as if Long Chen was able to help him show off her might.

In the midst of the thick smell of gunpowder, everyone had arrived in front of the cave. Before they had even reached the cave, Long Chen had already felt a fiery hot aura rush over, and at this time, the wolf cub hurriedly crawled out from Long Chen's embrace.

The reason why the little wolf liked to sleep so much, Long Chen reckoned that it was the result of him burning his life force last time.

"We're here. You guys are going to have your fire generating meridian's five-day training soon, and whoever obtains the most Flame Refinement Essence will be the final winner. Is everyone ready?" Zhao Qingyun turned her head and looked at everyone with a serious gaze.

"I'm ready!" Everyone nodded their heads as their voices sounded clearly.

"If there are no problems, I will be opening the tunnel now." Zhao Qingyun swept his gaze across everyone and confirmed.

"I have a question." Long Chen knew that Zhao Qingyun was trying to create an opportunity for him, so he hurriedly asked, "Master, I want to know if I can directly obtain two levels of Great Mantra of Dao-heart Seed if I obtain more Flame Refinement Essence than the two of them!"

Long Chen was extremely bold, he directly swept across the crowd and used a provocative gaze to look at Yang Danfeng, and said clearly.

His words stunned everyone.

Sixth Stage of the Milky Way Realm, you dare say you have collected more than two warriors of the eighth level of the Milky Way Realm? And it was one of the most outstanding eighth level of the Milky Way Realm, with each of them being able to train two sets of Heaven Tier Battle Skill?

"What kind of joke is this? With your strength, so what if you can obtain two levels? So what if I give you two?" Yang Danfeng laughed. He was extremely confident in himself. Long Chen's greedy actions were just a joke.

Three Great Demons was also looking at each other.

"The only standard for this training is the Flame Refinement Essence. Whoever obtains more Flame Refinement Essence will become a strong person. If I can obtain more, that means I am stronger than them, and even they can obtain the second layer. Then why can't I completely obtain the second layer?" Long Chen looked around at everyone, and said word by word.

"Wishful thinking." Everyone shook their heads.

"Stop messing around!" The Great Moxibustion shook his head. He looked at Zhao Qingyun and asked, "Mistress, what do you think about this matter?"

"It's up to you." He knew that Zhao Qingyun was pressuring him, and if he did not agree to Long Chen's request, it would seem that the Three Great Demons did not have much confidence in his disciple. But if he agreed, he was worried that there would be some special circumstances that would benefit Long Chen.

"Looks like all three moxibustions don't have much confidence in their own disciples. Forget it, forget it then, if I were to casually obtain two stages of Great Mantra of Dao-heart Seed, some people might be unbalanced, and it would be bad if they secretly obstruct me." Long Chen's face was full of ridicule.

"Stop it." Since the Mistress has given me the right to decide, then let's do as you say. My disciples are all honest people. " The Great moxibustion could only helplessly say. If he were to reject Long Chen at this time, it would truly be giving him the feeling that someone else's will was going to extinguish his might.

Zhao Qingyun did not immediately make the decision, and handed the decision over to him, just to force Three Great Demons to agree.

After completing the mission successfully, Long Chen was very happy.

"What are you so proud of? Not to mention surpassing us, you can't even surpass Yang Jun. " Yang Danfeng gritted his teeth.

Following that, under Zhao Qingyun's lead, everyone walked into the cave. It was a fiery red cave, there were no flames in the cave, but the temperature was extremely high. The rocks in the cave were all red red.

While walking, Long Chen saw that they had reached the end, and at the end, there was a gigantic steel door. This steel door was stained with rust, as if it had been through countless years.

"If you go through this iron door, you will be in fire generating meridian. There are ten tunnels ahead, and if you follow this path down, you will reach ten different locations. I suggest that if you do not want your own people to find you, after you go to fire generating meridian, quickly change your position. " Zhao Qingyun's explanation was purely for Long Chen to hear, because it involved only Long Chen and the others. If they met each other, who knew what might happen?

Long Chen nodded secretly.

After that, Zhao Qingyun reached out and grabbed the huge iron door handle, and using all her strength, she forcefully pulled the iron door outwards, causing a loud metallic sound to ring out in the cave.

Chapter 365 - Ten Channels

After Zhao Qingyun opened the iron gate, a wave of hot air blew over. Even in this place, it was very hot, so there was no need to talk about the people inside.

Smelling the smell of the fire, the wolf cub was no longer calm in Long Chen's embrace. His two round eyes were staring inside the cave with wide opened, looking at the scene in front of him. Murong Yu, who was not far away from him, was envious of the fire cub.

"Let's go in, let's all go in." There are ten tunnels, a total of eleven people. Xiao Yu, you should be familiar with the environment inside, so you should enter one of the tunnels together with Long Chen, wait until you reach the fire generating meridian, then split up from him. " Zhao Qingyun ordered.

He was using the same tactic and using his authority to tie Murong Yu and Long Chen together.

This time, Erythropoda was a little angry. If the Great moxibustion did not hold her back, maybe she would have directly contradicted Zhao Qingyun. After all, Murong Yu was her disciple, and she was the center of all the Three Great Demons.

"Understood." Murong Yu nodded her head, she did not say anything, but after arriving at fire generating meridian, they still had to separate, so getting along with each other would not be a problem.

However, Murong Yu didn't have any objections. Yang Danfeng had a bigger opinion now, so he didn't dare to disobey Zhao Qingyun and could only vent all his resentment onto Long Chen. The resentment he had for Long Chen grew even stronger.

When they went through the ten tunnels, Yang Danfeng had actually wanted to ask Zhao Qingyun and the Three Great Demons to come with him. He never expected that Zhao Qingyun would already arrange for Long Chen to go up before he had even finished speaking.

Under Zhao Qingyun's guidance, one disciple after another began to walk into the passageway. Only when Long Chen and Murong Yu walked into the same passageway did the iron gate behind them slowly close.

After the door closed, the surroundings lit up even more. The rocks around the tunnel were all fiery red, and the scorching heat emanated from the rocks, causing waves of heat to rise up from the tunnel.

The passage was diagonally downwards, which meant that the lava should have been deep underground when Long Chen had been moving underground.

At this time, Murong Yu didn't say anything, but walked in front. In the hazy fiery red light, her delicate and beautiful body was wrapped in a tight black veil, which was faintly discernible.

Zhao Qingyun bringing Murong Yu here again was purely messing things up. In fact, Long Chen did not need anyone's help anymore.

Arrrrrrrrrrrrrrrr

The wolf cub let out a restless howl. If not for Long Chen, he would have immediately charged down.

She was still wearing her veil, so her appearance couldn't be seen clearly. At this moment, she stopped her steps, and when Long Chen walked to her side, she looked carefully at the little wolf in his arms, and said softly: "Such a cute little wolf, Long Chen, what's the name of this demon beast?"

"He's called the Blazing Flame Beast, and loves it the most." Long Chen lied.

"Flaming Beast?" Murong Yu searched her memories. It seemed that she did not recognize this Fire Beast, but the name was too inferior.

"Are you kidding me?" Murong Yu said somewhat angrily.

"Ask him yourself if you don't believe me." Long Chen rolled his eyes.

He knew that Murong Yu didn't want to talk to him initially, but because the Little Wolf was really too cute, she didn't have any resistance. In the end, she still started to talk to Long Chen.

"Ask yourself?" Murong Yu was a little dazed. She then looked at the little wolf and asked in a low voice, "Little Wolf, are you called Flame Beast?"

The wolf cub burped and spat out a flame from his mouth.

"Can you give me a hug?" Murong Yu said with some anticipation.

"No way!" hurriedly called out from within Ling Xi's sword, "Xiao Lang, if you give her a hug, don't call me Big Sister Ling Xi in the future!"

The wolf cub immediately shrank back into Long Chen's embrace, even taking his tail with him.

"Look, he doesn't want to, so there's nothing I can do." Long Chen helplessly spread his hands.

"Why?" Murong Yu said in an unlucky tone.

"Maybe it's because you're too ugly." Long Chen blurted out.

"You!" Murong Yu's eyes widened as she shot an angry glance at Long Chen. Then, she quickened her pace and walked in front. Long Chen said shamelessly. It looks like she wouldn't even speak to Long Chen anymore from now on.

This passage to the fire generating meridian was extremely deep, Long Chen had walked for at least a few thousand meters, yet he had not reached the end, the passage was meandering down, Long Chen guessed that the passage was spiraling, from the entrance of the door, to the bottom of the Diremonster Mountain.

In the latter part of the journey, Murong Yu did not speak to Long Chen again. Long Chen was currently staring at the sword in his ear. As soon as Murong Yu got close to her, he glared like a tiger, and Long Chen did not want his ears to suffer for nothing. It was the perfect timing for Murong Yu to not talk to him.

"Oh yeah, Long Chen, you've been in Demonic Palace for so long, how come you haven't seen that girl before?" Just as he was about to exit the passage, Murong Yu suddenly stopped and said.

It seems that Murong Yu was quite concerned about Ling Xi.

"I won't be able to see her for now. Wait until I become stronger, then you'll be able to see her. What's wrong?" Long Chen asked. Of course he wouldn't tell her that Ling Xi was in his ears.

"It's nothing. At that time, I saw you desperately protecting her and even received a few punches. I felt that you should have liked her a lot, so I just casually asked. Since you're fine, it's fine." Murong Yu said indifferently. From her tone, it was hard to tell what she was feeling.

Only now did Long Chen know why Murong Yu had to help him so often. Firstly, she was a woman, and Long Chen had to be moved to be able to protect a woman. However, Murong Yu was very clear that all of this would not belong to her.

"Do you feel it? The temperature has risen by about ten times compared to when you entered. fire generating meridian is here." Murong Yu changed the topic.

Long Chen also felt it.

But Long Chen, I have to remind you one last time, if possible, you have to learn as much Flame Essence as possible, the more the better. Murong Yu hesitated, but in the end, he still said it out.

"Why?" Long Chen felt that Murong Yu still had something to say.

"I heard that other than Yang Danfeng, the other people's Fire Refinement Essence will be gathered and given to Yang Jun. This way, it will be equal to comparing you with the other eight combined, so you should know how much is needed, right?" Murong Yu said.

"That works too?" Long Chen was a little speechless. Fortunately, Murong Yu had reminded him, otherwise, she would have underestimated the amount Yang Jun could receive.

"There's nothing to be afraid of. When the time comes, it will all depend on how many Flame Refinement Essence you have." You can rob them of their Flame Refinement Essence before the

deadline. Of course, you can't possibly take out the Flame Refinement Essence from the magma, which you just took out, or the Flame Refinement Essence that you released in the outside world for a year. The temperature is over a hundred times that. Murong Yu didn't explain this to Long Chen initially, so she was worried that Long Chen might have this thought.

"No. Long Chen was a little speechless. With the little wolf on him, there was no way that he could keep the Flame Refinement Essence with him.

On the ground in front of him, a small hole had appeared. Long Chen walked to the side of the hole and looked inside, only to see a sheet of crimson red magma below him.

Other than magma, there was nothing else.

The magma rolled and surged as vast heatwaves blew towards Long Chen. From time to time, bubbles would pop out from the magma below and explode. The scene was like a red turbid boiling water that released enormous amounts of heat!

"This is lava!" This was the first time Long Chen had seen it.

"Un, that's right. The Flamethrower and the Flame Refinement Essence are both hidden deep within the magma, and they need to go deep into the magma to be able to harvest anything. Without true energy above the fifth level of the Milky Way Realm, it is impossible for them to protect themselves and move freely below. Is this cub related to you?" She still did not know the level of the wolf cub, so she was a little worried.

"Don't worry, he was born specifically for the fire." Long Chen smiled mysteriously.

"Alright, let's not talk about the rest. They should be running all the way now and should be entering the lava river. I can't delay any longer. Goodbye!"

Long Chen nodded.

After Murong Yu finished speaking, without hesitation, she jumped down from the small hole. True qi circled around her, giving her body the ability to resist the heat of the lava.

The wolf cub's eyes were blazing as he looked down.

"Let's go too, Little Wolf. Is this your heaven, fire generating meridian? Flamethrower? With my Spirit Devouring Demon Pupil, all of the demon beasts are nothing but shadows in my eyes. If we find the demon beast, wouldn't we be able to find the Flame Refinement Essence? This way, I won't have to worry about finding even less Flame Refinement Essence than them! "

What Long Chen needed to do was to gather Fire Essence in the shortest amount of time and with the greatest efficiency.

After he finished preparing with the wolf cub, Long Chen followed Murong Yu and wrapped his body with his Innate Qi and jumped into the lava river. As for the wolf cub, the magma was just like water in a bath for him.

"It's really hot!" After jumping in, the surroundings had become a field of red, and he could not see anything. The only thing he could see was that the driving force that was flowing like water in the magma caused Long Chen to tremble.

Long Chen controlled his body and then used his True Qi to support a space so he could see his surroundings. The wolf cub was in the lava right in front of his eyes. He could see the traces of flames flowing into the wolf cub's body on their own, then being devoured by the wolf cub.

"Let's go and start searching!"

Chapter 366 - Flamethrower

In this fire generating meridian, what Long Chen had to face was not only the attacks of the demon beasts, but also the attacks from the other disciples of the Demonic Palace. Long Chen believed that in the Demonic Palace, other than Murong Yu, as long as anyone saw him, they would attack him. At the very least, they would snatch away Long Chen's Flame Refinement Essence.

In fact, ever since he mastered the Traceless Demon Shadow, Long Chen was not afraid of anyone else out of all the disciples of the Demonic Palace. However, Long Chen was not willing to meet with Yang

Danfeng and the others before obtaining enough Flame Essence. After all, Long Chen only had two goals this time, one was to level up the Little Wolf and the other was for the Great Mantra of Dao-heart Seed.

In this gigantic magma river, Long Chen's Spirit Devouring Demon Pupil had played a great role. He had just entered the magma and his surroundings were filled with boiling scarlet red magma. If he could only blindly try his luck, Long Chen did not know how long it would take him to find the Flame Refinement Essence.

Using the Spirit Devouring Demon Pupil, the surrounding magma all disappeared. Long Chen could see the souls in a radius of one kilometer, and the first time he used the Spirit Devouring Demon Pupil, Long Chen could see two souls. One of them was Murong Yu, and she was heading towards the west.

Flamethrower.

That's right, within a mile radius of Long Chen, there were traces of a Flamethrower. Long Chen called out to the wolf cub and without saying a word, he started to walk in the direction of the Flamethrower.

"Flamethrower live in the lava and eat the lava as food, it's about the same as the eight claw fire horniness we met last time in Goldfish Island. However, the Flamethrower is actually much stronger than the eight claw fire horniness, the Flame Refinement Essence is the essence of the lava, the Flamethrower cannot swallow it directly, so they usually lie dormant beside the Flame Refinement Essence and absorb the Flame Refinement Essence. Therefore, wherever there are Flamethrower s, there will be Flame Refinement Essence. "

This was the information that Long Chen himself had gathered these past few days.

Using the Spirit Devouring Demon Pupil to find the Flamethrower meant that she had found the Flame Refinement Essence. With such speed, Long Chen did not believe that he would be slower than others.

Usually, whether it was Flamethrower or fire refining, they were both at the bottom level of the lava, so it was no exception now. Actually, if one only looked at the plane distance, then that Flamethrower was not too far away from Long Chen, but the vertical distance was a few hundred meters. Because Long Chen was in the lava, his movements would easily cause the magma to churn, so Long Chen's speed was not too fast, and could be considered to be extremely careful as he dived deeper into the magma.

"Almost there."

Long Chen could already feel that the Flamethrower was not far from his eyes. He held his breath. Originally, he wanted the wolf cub to show off his skills, but now that the wolf cub had let go of the Earth Stage Fifth Rank, it would be easier and more convenient for him to do so.

Quietly, Long Chen transformed into the Dragonsoul Transformation, holding onto the green dragon halberd. Given how he could fight against seventh level of the Milky Way Realm Warriors, dealing with an Earth Stage level 6 Flamethrower wasn't a difficult matter.

When they approached, Long Chen could roughly see the appearance of the Flamethrower. It was a demonic beast half the size of the Sun Devouring Demonic Wolf, it looked a little like a lion, with a thick mane, full of arrogance and arrogance. However, its body was covered with fiery red scales, its teeth and claws were both extremely sharp, and its tail was actually exactly the same as the scorpion's tail.

"This is the Flamethrower, it looks pretty good."

This demon beast was probably born in the lava, and emitted a dense evil aura. It would be difficult for a normal seventh level of the Milky Way Realm to fight it in the lava, even if they wanted to win.

Long Chen looked around it for a while and saw a Flame Refinement Essence not far away from the Flamethrower's feet. At this moment, the Flame Refinement Essence was actually burning with flames, and the extremely high temperature around it was largely because of the Flame Refinement Essence.

"Attack!" When Long Chen was as close to the Flamethrower as he could get, he suddenly used Dragon Emperor's Break. With his Innate Qi, which was equivalent to that of seventh level of the Milky Way Realm, he burst out instantly and used a fast attack like Dragon Emperor's Break, the green dragon halberd instantly pricked Li Huo's head!

Long Chen suddenly exerted strength. Just as the Flamethrower was about to open its eyes in pain, it had already stabbed its entire body into the Flamethrower's head. The Flamethrower wailed and released countless scarlet flames, which then died under Long Chen's hands.

"A sneak attack like this, I don't believe you won't die!" Long Chen laughed and retrieved a fist-sized beast core from the Flamethrower's head and threw it over to the wolf cub. The wolf cub's face was filled with excitement and he immediately popped the beast core into his mouth. He swallowed it into his stomach with a gulp.

"How is it?" Long Chen asked with some anticipation.

The wolf cub opened his eyes wide and looked at Long Chen innocently. He had indeed swallowed the Flamethrower's beast core, but it didn't seem to fill his stomach up yet.

"F * ck, you glutton!" Long Chen laughed out loud, and then picked up the Fire Essence on the ground and put it into his Heaven and Earth Pouch. As for the Flamethrower's corpse, the blood of an Earth Rank Level 6 beast would not help him at all, so Long Chen was too lazy to clean it up.

"Let's go. We've already obtained a Flame Refinement Essence. We just don't know how fast they are." Long Chen guessed that since they did not have any Spirit Devouring Demon Pupils, it would be easy for them to find the Flame Refinement Essence. Therefore, it was not certain who would win.

With his first experience dealing with Flamethrower, it would be much easier to deal with them next. There were a lot of Flamethrower in the fire generating meridian, and beside all the Flamethrower, there would be Flame Refinement Essence. As for Divine Flaming Beasts and divine refining crystals, Long Chen had never encountered one.

Because of the Spirit Devouring Demon Pupil, Long Chen spent his time collecting the Flame Refinement Essence. His battle with the Flamethrower was basically a landslide victory, unless they met two Flamethrower at the same time, which was why they would need a relatively long time to settle things.

Long Chen reckoned that under normal circumstances, the Flamethrower that other people would find would not be as many as the one he discovered, so he still had a very good chance of being first or even surpassing two eighth level of the Milky Way Realm s.

"Three?" But this time, Long Chen directly met three Flamethrower, and when Long Chen approached them, he used a sneak attack to directly kill one of them. The other two Flamethrower discovered his movements, the Flamethrower's personality was ruthless, it was impossible for them to retreat because of this.

"Devouring Blood Realm!"

When he used them, the two Flamethrower no longer had any form of resistance, they were connected to Long Chen and were chopped to death by the green dragon halberd. After collecting the five fire essence pellets on the ground, Long Chen threw all three beast cores of the Flamethrower to the wolf

cub. The wolf cub had finally reached a breakthrough into the current level, increasing her demon power and various other aspects of her body, reaching the sixth level of the Earth Stage.

Long Chen did a quick count. The little wolf had probably consumed more than thirty Flamethrower's beast cores this time, which meant that Long Chen had already killed more than thirty Flamethrower. In his Cosmic Bag, he had already obtained forty Fire Essence Refinement Essence. The Fire Refinement Essence was of greater help to the wolf cub, but Long Chen still needed this Fire Refinement Essence to obtain the Great Mantra of Dao-heart Seed, so he could only give it to the wolf cub after he leaves the room.

It has already been half a day. If I can maintain this frequency, I should be able to obtain around three hundred Fire Essence Refinement Essence after five days, but I'm not sure about that either. After all, I've pretty much finished sweeping up the surrounding Flamethrower.

The little wolf had already reached the sixth level of the Earth Stage. Adding the two killer moves, divine fire clone and the Nine Hell Devil Ancestral Flame, the Flamethrower probably would not be her match. In the search that followed, Long Chen's speed would increase.

"Let's head to the next area."

Another day passed. During the journey, he didn't gather as many Flame Refinement Essence as he did at the beginning. However, he had now gathered around 80 Flame Refinement Essence. It had to be said that Long Chen had met Yang Jun once before during this period of time. Under the escort of the other seven seventh level of the Milky Way Realm Warriors, Long Chen fled far away after using the Spirit Devouring Demon Pupil to discover them.

Unless he had no other choice, he would not fight with an opponent with eight seventh level of the Milky Way Realm.

"Murong Yu is right, it seems that all the Flame Refinement Essence they found would be given to Yang Jun, but why are they gathered together now?"

If they were looking for it separately, then they could find out more about the Flame Refinement Essence. If they gathered together, their efficiency would probably be lower.

Although he was suspicious, Long Chen couldn't be bothered with them. He continued to move forward and use the Spirit Devouring Demon Pupils to search for traces of the Flamethrower.

After a total of two days, Long Chen felt that he seemed to have penetrated into a relatively hidden location. The magma here was actually mixed with a faint black flame flow, and the surrounding temperature had also become much higher.

"There are no Flamethrower here, but they have even more powerful strength. If I'm not wrong, there should be an even stronger demon beast hibernating in front. It should be the Earth Stage Seven's Divine Flaming Beast."

Long Chen guessed with his sharp intuition.

As expected, after sneaking around for a while, he was already able to see a demon beast that was slightly smaller than the Flamethrower. Spirit Devouring Demon Pupil could only sense the existence of souls, but Long Chen did not know what they looked like.

"Aowu," the little wolf cried out softly. From his eager expression, Long Chen understood what he meant. He wanted to deal with it by himself.

Chapter 367 - Divine Flaming Beast

When he got closer, Long Chen finally saw the Divine Flaming Beast's appearance. It was similar to what Murong Yu had said, the Divine Flaming Beast's appearance was actually not that different from a Flamethrower at all. There were thick scales and a scorpion-like tail, but the only difference was that the Divine Flaming Beast's entire body was black, while the Flamethrower's scales and mane were fiery red. Moreover, the Divine Flaming Beast's body was slightly smaller than the Flamethrower.

"Little Wolf, this is what you wanted. Divine Flaming Beast is a Spirit Demon beast with Earth Stage Seven, and they have an even more outstanding fighting strength in this magma. Long Chen ridiculed in a low voice.

The wolf cub nodded his head. Although his level was a bit lower, Sun Devouring Demonic Wolf s were still more like pets compared to Divine Flaming Beast s. Furthermore, the wolf cub had many tricks up his sleeve, he did not believe that he was unable to deal with even a single Divine Flaming Beast.

"Be careful." The little wolf had already decided, so Long Chen could only remind him at the final moment.

The little wolf nodded, and then, in front of Long Chen, it gradually turned into a battle form. The battle form of the Sun Devouring Demonic Wolf was awe-inspiring and breathtaking, it was even more terrifying than a Divine Flaming Beast. The strange black flames that flowed on the surface of his body and the golden sun mark on his forehead all showed its uniqueness.

When the little wolf suddenly accelerated and rushed towards the Divine Flaming Beast, Long Chen stayed in place, carefully observing the surrounding movements. If anything happened, he could help the little wolf too, since the fire generating meridian was not a safe place.

At this time, the Divine Flaming Beast had already discovered the existence of the Sun Devouring Demonic Wolf.

In fire generating meridian, there were two types of Goblin Beasts, namely Divine Flaming Beast and Flamethrower. Flamethrower were basically equal to the subordinates of Divine Flaming Beast, so other than the fights and provocations between males during the breeding period, normal Divine Flaming Beasts would not be provoked at all. And right at that moment, a Goblin Beast that had never seen one suddenly appeared, actually dared to provoke him?

Sensing the level of the wolf cub, the Divine Flaming Beast's brain grew bigger. It suddenly let out a roar that completely didn't match its body shape, and streams of flames gushed out from its mouth, crazily assaulting the Sun Devouring Demonic Wolf!

Roar!

The two demon beasts collided with each other. Both sides' sharp claws and teeth clashed nonstop. The battle between the demon beasts was not as people imagined. They also had battle techniques that had been honed by their ancestors for generations. When they started fighting, Long Chen was immediately dazzled by it.

The collision of claws and teeth again and again produced a sharp grinding sound.

Hiss!

Although the Divine Flaming Beast was small, it was still a lot stronger than the wolf cub. This forceful collision lasted for about half a quarter of an hour.

This made the wolf cub angry. He had been a human for more than ten years and suddenly became a demon beast. Although it was not long ago, he was still not familiar with combat. Otherwise, he wouldn't have been injured.

At this time, after successfully injuring the wolf cub, the Divine Flaming Beast suddenly became high-spirited, and its body ignited with raging flames. It roared crazily, and its small body suddenly charged towards the wolf cub like a sharp arrow!

Roar!

Just when the Divine Flaming Beast thought that it could take care of the wolf cub, a raging flame suddenly rose from the wolf cub's body. The flame burned crazily, and many black wolf shadows escaped from the flames, becoming black demon beasts that were similar to the wolf cub.

The originally arrogant Divine Flaming Beast was instantly surrounded by the little wolf's divine fire clone. Suddenly, such a strange situation happened, and the Divine Flaming Beast was almost scared to the point of peeing. It shuddered and stopped its steps, then turned around in shock, preparing to escape!

Of course, the little wolf wouldn't let it escape. When all the divine fire clone came out, hundreds of demon wolves immediately surrounded the Divine Flaming Beast, and in that instant, at least fifty of them surrounded the Divine Flaming Beast, attacking it crazily!

The Divine Flaming Beast suddenly let out waves of mournful howls!

Although Divine Flaming Beast belonged to the flames and the attacks of divine fire clone were not particularly effective towards it, they could not hold up to much. Every single divine fire clone had a fighting strength that was roughly equal to a fifth level Earth Stage demon beast, equivalent to the fighting strength of the wolf cub. It was clear that the wolf cub had improved by a lot!

"Roar!"

The Divine Flaming Beast crazily charged out of the encirclement, leaving wounds on its body one by one. However, even more divine fire clone managed to successfully hit it!

Furthermore, the most serious part was that one of its legs was almost broken by the little wolf, so at this moment, its speed was slowly decreasing. It was believed that before long, it would die in the hands of the little wolf.

"Little Wolf, stop! Let it escape!" At this time, Long Chen quickly approached and said this.

The wolf cub was startled, but he immediately put away the divine fire clone. The black wolf shadow that covered the sky finally disappeared from the magma, and the Divine Flaming Beast looked around in a daze for a while, before looking at the wolf cub timidly. It didn't even cry out, and directly dragged its broken leg, fleeing away in a sorry state.

The wolf cub was puzzled!

"Chase!" When the Divine Flaming Beast ran a distance away, Long Chen finally caught up. He then explained to the little wolf: "There is no Flame Refinement Essence around this Divine Flaming Beast. So, I guess this place isn't its headquarters. As long as we follow it, we can definitely find its headquarters. Not only can we get its beast cores, we can also find a Flame Refinement Essence. "

This was Long Chen's goal.

Xiao Lang then came to a realization and looked at Long Chen with some admiration. He inwardly praised him.

After making up his mind, Long Chen hung onto the Divine Flaming Beast from a distance. The Divine Flaming Beast's body was still dripping with blood, and Long Chen would be excited when he smelled the scent. Therefore, no matter how far the Divine Flaming Beast escaped, Long Chen reckoned that he would be able to find it.

In the deepest part of the fire generating meridian, Long Chen followed the Divine Flaming Beast for a short distance. Suddenly, he felt that he had entered a cave filled with lava, which made him shocked, there was a riverbed in the middle of the fire generating meridian, and a cave suddenly appeared in the middle of the riverbed. What did this mean?

Could this mean that this was the den of the Divine Flaming Beast?

This thought had just appeared in Long Chen's mind when he used the Spirit Devouring Demon Pupil. Then, he saw that in the deepest part of the cave, there were actually numerous Divine Flaming Beast present!

These Divine Flaming Beast were all gathered in a large cave, gathering in groups of two or three. Long Chen reckoned that this was the Divine Flaming Beast's lair, he never expected it to be so!

At this moment, his heart was a bit tangled. On one hand, Divine Flaming Beasts were demon beasts from the Earth Stage Seven, so there were at least fifty Divine Flaming Beasts in this place. Even if Long Chen and the little wolf were to go together, it would probably be very difficult to deal with so many Divine Flaming Beasts, and there might even be dangers here.

Long Chen told the wolf cub everything he saw. The wolf cub frowned and was also hesitating. The benefits from this was incomparably huge for the wolf cub but the danger in doing so would also easily make Long Chen and the wolf cub pay with their lives.

"How about this, we both have divine fire clones. I think with our combined strength, we can probably fight against at most twenty Divine Flaming Beasts at the same time. We will stay here for now, and when the Divine Flaming Beast comes out, we will kill one of them. We can even go in and lure them out. We still have three days, and I won't be able to grind these beasts to death. "

Long Chen thought about it for a while before speaking cautiously.

His head was still clear.

When the injured Divine Flaming Beast returned to the big cave where the Divine Flaming Beasts were gathered, the other Divine Flaming Beasts gradually boiled over, because the beast was injured so badly, that her own compatriots were actually harmed by others. The mature Divine Flaming Beasts were basically all very angry, and very quickly, two Divine Flaming Beasts rushed towards Long Chen's cave entrance.

Little Wolf, let's attack together and go guard at the cave entrance. Once they come out, I will use the Devouring Blood Realm and get rid of them! As Long Chen made the arrangements, he and the little wolf very quickly pushed themselves into the cave, preparing to wait for the appearance of the two Divine Flaming Beasts.

When the furious Divine Flaming Beast had just appeared at the entrance of the cave, Long Chen had already used the Devouring Blood Realm to suppress their bodies. The two demon beasts were momentarily caught off guard and they had instantly encountered a large restriction, but at this time, Long Chen and the little wolf, these two fellows, were able to sneak an attack and with lightning speed, fight against one of the Divine Flaming Beasts.

The wolf cub was lazy and used the Nether Demon Ancestral Fire to burn through one of the Divine Flaming Beast's stomach. Under the Devouring Blood Realm's influence, the Divine Flaming Beast's movements were restricted by many. In addition to being unprepared, the Divine Flaming Beast easily died in the hands of the little wolf.

Long Chen also used a sneak attack on him. Under the protection of the Devouring Blood Realm, his green dragon halberd crazily danced, and with a swift and fatal move, the Dragon Emperor's Falling Moon Slaughter quickly killed another Divine Flaming Beast.

However, it was not easy for the little wolf to level up either. At least the two Earth Stage Seven beast cores were only enough to fill his stomach a little.

To be able to easily kill the two Divine Flaming Beasts, Long Chen's actions were undoubtedly correct. Basically, he had to kill all the Divine Flaming Beasts and be able to get what he wanted the most, thus, Long Chen did not waste any time and decided on the next round of lure.

Chapter 368 - Huge harvest

Long Chen quickly found out that there were a total of sixty-eight Divine Flaming Beasts inside. Long Chen and the little wolf had already killed two from the very beginning. After the two Divine Flaming Beasts died, Long Chen did not have much time to wait here. He needed to imprint the Divine Flaming Beasts inside, but he could not attract too much attention.

"Wolf, look at me!" Long Chen laughed, then quietly snuck into the cave. Presumably, to the little wolf, Long Chen was more suited to take on the mission of lure.

Relying on the Spirit Devouring Demon Pupil, Long Chen could easily control the movements of the Divine Flaming Beasts inside. He held his breath and slowly walked towards the cave. With his speed, he quickly arrived in front of the cave where the Divine Flaming Beasts were gathered. Due to the magma,

he was unable to see exactly how many treasures there were below him. However, there were definitely a lot of treasures because the temperature here was roughly a hundred times higher than normal. This meant that it was very likely to be filled with Flame Refinement Essence, and there might even be divine refining crystals inside!

Long Chen was sure that he had found the place that had the most Flame Refinement Essence in the fire generating meridian. It could only be said that his luck was truly too good. Whether or not he had the luck to enjoy his luck depended on whether or not his strength had passed the test.

Gently taking a few small stones from the ground, Long Chen mustered up his strength and threw them towards the closer gods. Although the stones could not cause any harm to the Divine Flaming Beast, but he had successfully alarmed them, and when Long Chen let out a few sounds outside the cave, a total of five Divine Flaming Beasts, who started to head outside the cave with suspicion.

Long Chen fled in an instant!

The Divine Flaming Beast found traces of him, and immediately increased its speed to chase after Long Chen. This time, there were a total of five Divine Flaming Beasts. However, Long Chen knew that he definitely could eat them all.

Very quickly, Long Chen rushed out of the cave, followed by five Divine Flaming Beasts. It was at this moment that Long Chen used the Devouring Blood Realm and the little wolves who had been hibernating here all appeared the moment Long Chen released the Devouring Blood Realm, instantly besieging five Divine Flaming Beasts. After that, the little wolves used the Nine Serenities Devil Ancestral Fire, which the divine fire clones trapped, were obviously unable to defend against his heaven-defying attacks, and were killed one by one.

Five Divine Flaming Beasts died in less than a quarter of an hour. Long Chen had only killed one in total, while the little wolf had already killed four. His Nine Hell Devil Ancestral Fire's destructive abilities were already much stronger than Long Chen's attacks. Long Chen was also a little distressed, because he had already learned the Heaven Tier Battle Skill's Traceless Demon Shadow in terms of movement techniques. Especially in terms of attacks, green dragon halberd had long since lost the ability to face stronger and stronger enemies.

And the wolf cub had already started to reveal his heaven-defying abilities.

In the following time, Long Chen did what he did before, and every time, he would lure five to six Divine Flaming Beast out. Once, the scene went out of control, and there were even ten Divine Flaming Beast that came out, no longer allowing two people to combine a large number of them, and under the Devouring Blood Realm and the Nine Serenities Devil Ancestral Fire, even if there were ten Divine Flaming Beast, they would have no choice but to die in their hands.

This time, the transformation lasted for half a day. After that, the speed at which the little wolf successfully transformed surpassed Long Chen's, and reached the level of Earth Stage Seven.

Long Chen had already known since long ago that this fire generating meridian was simply a heaven for little wolves, and now that it had officially become reality, the little wolf had already successfully passed through two levels, and reached the Earth Stage Seven realm. As a result, his body shrunk a bit, but it was a bit more solid. His life force had improved, and he could now control even more of the Nether Demon Ancestral Fire.

After the wolf cub had reached the Earth Stage Seven, there were still a dozen or so Divine Flaming Beast left in the cave.

"Good little wolf, from today on, I will be relying on you to protect me. Hurry up and open a path, we will go collect our spoils of war!"

A man and a wolf excitedly rushed into the cave filled with lava. This time, Long Chen was no longer afraid to cause any disturbance, and under the strong attacks of the little wolf, a dozen or so Divine Flaming Beasts all died inside his divine fire clones and the Nine Hell Devil Ancestral Fire. Although the little wolves were of the same level as the Divine Flaming Beast, the little wolf received the legendary Ancestral Fire.

The original Divine Flaming Beasts were almost completely exterminated by Long Chen and the Little Wolf.

After getting rid of all the threats, Long Chen came over to inspect the huge amount of spoils of war. This cave was very big, and could hold up to a hundred Divine Flaming Beasts, there were a lot of Flame Refinement Essence inside, and with every few steps could see a Flame Refinement Essence quietly stored inside, emitting a dazzling light and a scorching heat.

Long Chen and Xiao Lang moved separately to collect the Flame Refinement Essence. They were worried that there might be some other unforeseen event, so they gathered the ingredients very quickly.

The heat wave from the Flame Refinement Realm was already strong enough, but it did not do anything to Long Chen. Instead, this heat wave actually caused Long Chen to feel somewhat uncomfortable, only by using his Innate Qi to protect his body would he be able to feel better.

Taking a few steps forward, Long Chen saw the reason for the heat wave. In front of him, a black crystal quietly floated about in the magma, and if Long Chen's guess was not wrong, this should be the divine refining crystal that was basically equivalent to a hundred Flame Essence!

Long Chen quickly put the divine refining crystal into his bosom and started to collect the Flame Refinement Essence. With a spirit of not wasting anymore, he and the little wolf wandered around the cave a few times, and finally cleaned up all the Flame Refinement Essences, as well as the other divine refining crystal s.

After Long Chen counted the numbers, he was completely dumbstruck. Adding the 100 Fire Refinement Essence he got from hunting the Flamethrower, Long Chen obtained a total of close to 2000 Fire Refinement Essence, and as for the divine refining crystal, Long Chen obtained 13. Thirteen divine refining crystal, that was basically equivalent to thirteen hundred of them being refined into fire essence.

When he was in Biyang Royal City, the nine Flame Refinement Essences embedded on the Ninth Prince's sword had already made Long Chen's eyes go red. He never thought that one day, he would actually be able to find so many Flame Refinement Essences in this place.

"Looks like the Fire Refinement Essence is a worthless thing. Back then, when he relied on the nine high-rank earth class Divine Swords that were forged from Fire Refinement Essence, the Fire Refinement Essence must have only played a mediating role. The other materials are also very important. It does not mean that just by relying on those nine Flame Essences, you can become a divine sword of high-rank earth class! "

In the beginning, just one Flame Refinement Essence was enough to raise the wolf cub by a level, but now it was different. To the wolf cub, the Flame Refinement Essence was equivalent to a Flamethrower's beast core, but the fire energy contained within the divine refining crystal was many times stronger than a Divine Flaming Beast's beast core.

In the end, the reason why Long Chen was able to obtain so much Flame Refinement Essence was only because he found the Divine Flaming Beast's lair. This batch of Divine Flaming Beast s was the largest clan of Divine Flaming Beast s in the fire generating meridian, and over the years, they had collected countless of Flame Refinement Essences and divine refining crystal s, and threw them into the lair.

This cycle allowed Long Chen to reap such a huge harvest this time.

Of course, this was also because of strength. Long Chen believed that without the Spirit Devouring Demon Pupil, Yang Danfeng and Murong Yu wouldn't dare to fight against a bunch of Earth Rank Level 6 Divine Flaming Beast.

Although the Fire Refinement Essence did not have much use towards the little wolf, but after reaching 2000, the effects were still very obvious. Now that they were all collected, Long Chen went to a quiet place to meditate, he had already obtained many treasures, and staying far away from the scene of the accident was the most accurate choice.

"This time, the harvest is truly out of my expectations. Little Wolf, a large portion of it is thanks to you, I estimate that even if there were a hundred of them, the amount of Flame Refinement Essence and divine refining crystal they would have obtained would probably not be as much as mine, so I will first leave a thousand Flame Refinement Essence and ten divine refining crystal. The rest will be treated as snacks for you!"

Long Chen laughed.

This time's harvest, made him extremely happy. This way, not only would the Great Mantra of Dao-heart Seed be stable, the little wolf's strength would also receive a terrifying increase. In any case, it was far more than just Earth Stage Seven.

The Devil Emperor of the Burning Heaven had once said that as long as the little wolf had enough conditions, it would definitely grow into the most heaven-defying demon beast. Right now, it was his time to act against the heavens, and his devouring of fire treasures was completely unlimited. As long as he had enough fire treasures, even the current him could grow to a level that Long Chen couldn't even touch.

At least, it was above the four basic realms.

It was only now that Long Chen realized how right he had been when he first wanted to enter the fire generating meridian to help Little Wolf raise his strength. With so many Flame Refinement Essence and divine refining crystal, he couldn't help but wonder what kind of choice he had made. Long Chen was

looking forward to see if the Little Wolf would become as strong or even stronger than the Three Great Demons after it had devoured everything in its hands.

The wolf cub's defiance had even improved Long Chen a little. In the past two months, Long Chen had been training seriously every single time, but the final result was only a small part of the wolf cub's strength.

After receiving the 'snacks' that Long Chen had given him. There were about a thousand fire refining spirits and a few divine refining crystals in total. The wolf cub happily went to devour them, but Long Chen took out another piece of loot he found in the cave just now. It was a sword, its entire body was blue and flickering with a faint starlight.

Chapter 369 - afterimage sword

"This sword, is also at the level of high-rank earth class." Ling Xi looked at it for a while, then smacked her lips and said.

"Of course, there are different types of swords used in high-rank earth class. The Nether King's blade you obtained earlier is a good sword, but unfortunately it was destroyed by Lin Zichen's Emperor Sword. And this sword is similar to the Underworld King's blade, in the entire Demonic Palace, I probably won't be able to produce ten of these divine weapons. " Ling Xi said.

"Being able to match up to the Nether King's blade, it should be pretty good. Since this sword is actually emitting a faint starlight, let's call it Xingjian." Long Chen nodded his head, and used his hands to wipe the sword blade. Although a lot of time had passed, could tell that the Xingjian was still sharp, and did not die down because of the passage of time.

"Why would this sword appear in the Divine Flaming Beast's territory?" Ling Xi was a little puzzled.

"I think it should be the previous disciples of the Demonic Palace who found the Divine Flaming Beast's lair. However, they do not have any Spirit Devouring Demon Pupils, and are unable to grasp the number and position of Divine Flaming Beast like I do, nor can they be broken one by one. It is very easy for this sword to be killed from being surrounded. I think that sword was thrown away at that time, and I'm afraid that I would never have imagined that there would be a day when this sword could see the light of day again," Long Chen said with some emotion.

Then, he looked at the little Ling Xi in front of him and smiled: "Xiao Xi, you have an understanding of my current situation. Right now, I'm trying my best to get the Demon Emperor Sword, and the The way of the Demon Emperor's Sword among the Demon Emperor Sword, but before this, the Earth Stage Medium's green dragon halberd and Azure Dragon Battle Method are really too terrible.

Ling Xi said in a distressed manner, "In my memories, the sword techniques that you can practice must at least be learned after you have reached the Heavenly Completion Stage. The last time we met, the Spirit Devil Sword Finger was just something I learned from playing around.

Ling Xi's words caused Long Chen to be rather speechless. The Spirit Devil Sword Finger was once Long Chen's ultimate killing move, but it was only a combat skill that Ling Xi played with when she was young. What she could let Long Chen cultivate was only possible if he reached the Heavenly Completion Stage realm.

"Xiao Xi's background, exactly how big is it?" Thinking up to here, Long Chen felt powerless in his heart.

At this time, the wolf cub had started to devour the Flame Refinement Essence, there were a lot of Flame Refinement Essence and divine refining crystal, it would probably be for a period of time. During this period of time, Ling Xi was painstakingly meditating on her sword technique, Long Chen was happy and relaxed.

Finally, Ling Xi became excited: "I remembered a small sword technique, it was from my high-rank earth class, but I forgot many of the sword technique's chants, give me two hours of time, I will try to deduce it."

After he finished speaking, Ling Xi continued to ponder. It was rare for her to be serious, so her appearance was quite moving.

"Inference?" Long Chen was a little speechless, this was basically equivalent to creating a sword technique for Long Chen to use. He needed a lot of knowledge and a lot of family background to be able to do this? In any case, Long Chen knew that with his current realm, he would definitely not be able to deduce anything.

"The name of this sword skill is afterimage sword and it was something I learned when I was young. At that time, I felt that there was always a shadow on the sword and it was very beautiful, so I learned it myself and watched it every day. However, when I grew up, I lost interest."

Ling Xi thought while tilting her head, trying to stimulate Long Chen's nerves.

"What a freak." Long Chen scolded in his heart. He had never asked just how big Ling Xi's family was, because he was afraid that if he knew, the huge pressure in his heart would stop him from continuing onward.

"AHH!" "It's finally done!" Not even two hours had passed, and not even a single hour had passed when Ling Xi jumped up excitedly and said: "I don't remember the original formula for the sword, but I have modified it a little, but I am certain that the current afterimage sword is at least beneath the Heaven Tier Battle Skill, and can be considered the strongest. Before you fight for the Demon Emperor Sword, you can relax and use it!"

"What?" Long Chen really did not know what to say.

"Hey, I worked so hard, you don't need to praise me!" Ling Xi's face immediately became gloomy. She had done so much just to think of Long Chen praising her, but she had been instantly stunned when she thought of Long Chen.

"Xiao Xi, you're really great! You're so good to me! You're just like a new parent to me!" Long Chen reacted, and said somewhat exaggeratedly.

"Tsk, you're my reborn parents, I'm not that old. Alright, I won't talk to you anymore. Time is of the essence, you should cultivate slowly. If you don't understand something, just tell me." Ling Xi rolled his eyes at him, leaving behind the sword technique chant for the afterimage sword, then returned to Ling Xi's sword.

"This girl ..." Long Chen laughed helplessly, but what Ling Xi said was right, the time was indeed tight, it was only five days, and the little wolf was at the critical moment of its growth, and Long Chen calmed down, and began to study the afterimage sword that Ling Xi had modified.

Moreover, because of Ling Xi's changes, it was possible that there would be many obscure areas that would become extremely easy to understand and understand. Therefore, this afterimage sword did not take Long Chen much time.

Long Chen already had enough Flame Refinement Essence, so he no longer needed to search for it. After devouring the Flame Refinement Essence and the divine refining crystal, the little wolf recuperated for a

whole day and stabilized its current strength. Under the accumulation of so many Flame Refinement Essence and the divine refining crystal, the little wolf successfully went from Earth Stage Seven to the eighth level of the Earth Stage.

In this time's fire generating meridian's trial, the unremarkable Little Wolf had become the biggest winner. An Earth Rank Level Eight Sun Devouring Demonic Wolf was already able to fight against Yang Danfeng and the others with eighth level of the Milky Way Realm, and could even surpass them. Xiao Lang was Long Chen's life and death brother. Basically, the strength of the Little Wolf was equivalent to Long Chen's strength.

Therefore, from this point onwards, Long Chen's strength increased once again.

At the same time, Long Chen also successfully completed the afterimage sword's cultivation while the little wolf was recuperating. Of course, Ling Xi had helped out a lot of things.

"Brother Chen, once you reach Heavenly Completion Stage, I can give you a stronger sword skill than the The way of the Demon Emperor's Sword, do you wish for it?" After Long Chen finished cultivating the afterimage sword, Ling Xi whispered in Long Chen's ear sneakily.

"Really?" Long Chen's face was filled with surprise and joy.

"Little Xi, I truly love you too much. I swear that I will marry you in this life! Otherwise, wouldn't I have let others off for nothing?" Long Chen laughed proudly.

"Could it be that you're with me because you value my sword skill?" Ling Xi said with a bit of grievance, her big eyes blinking.

"Who said that!?" "Nothing like that, haha." Long Chen laughed happily.

The Heavenly Completion Stage was still a distance away from him, but Long Chen was still filled with anticipation. The first battle skill that Ling Xi would officially give him must not be something ordinary, even though it might not count as anything to Ling Xi, but to Long Chen, it was something that could potentially benefit him for life.

After he finished organizing his things, it would be five days time for Long Chen to prepare to leave this place. There was no need for him to look for more Flame Refinement Essence now, he only needed to

find the passageway that he came from and prepare to return tomorrow. He did not believe that he would lose a total of two thousand Flame Refinement Essence which was equivalent to two thousand pills to anyone.

After all, not everyone was so lucky to be able to find the Divine Flaming Beast's lair, and not everyone had the ability to sweep away the Divine Flaming Beast's lair in one go.

This time around, the fire generating meridian had gained a lot, and Long Chen walked closer to his target step by step.

When he finally left the black-colored lava, Long Chen had to travel for a while before he actually met Yang Jun and the other three. Last time, Long Chen was too lazy to bother with them, so he brushed past them.

Long Chen's Spirit Devouring Demon Pupil found them from a distance of one kilometer away. Of course, they did not discover Long Chen.

Long Chen hid at the side. He wanted to see how much Flame Refinement Essence these eight people could obtain when they gathered together.

"How unlucky. We've already searched for it for two days, but we still haven't found the location marked on the map!" Senior Brother Yang Jun, this map can't be fake, right? " One of the disciples said somewhat gloomily.

"What's fake!" He said that there was only three of them, Senior Brother Yang Danfeng and the Senior Sister Murong probably already found the Ice Soul a long time ago. Just the eight of you trash walked around the place, and after searching for two days, you still haven't found any movements! " Yang Jun started to curse loudly.

Yang Jun was the number one disciple of the Triplex, and his status was somewhat higher than everyone else. Although everyone was displeased that he had gone berserk, they did not want to show it.

Although he said he was trash, he was actually the trash. He was the one who had been looking at the map for the past two days, and the one directing them was also him. The reason why he couldn't find his destination was mostly due to him, Yang Jun.

"I don't even want to scold you! There is still one more day to go. We still have a chance to find the Ice Soul. Yang Jun scolded angrily.

After walking for a while, one of the disciples asked worriedly: "Senior Brother, in two days, eight people altogether, we managed to find more than two hundred Fire Essence Refinement Essence, what do you think we should do if we compare the Fire Essence that Long Chen obtained before reaching three hundred?"

"How is this possible?" Yang Jun laughed indifferently, and said: "This is the first time Long Chen has been to this fire generating meridian, and it is unavoidable that he is a little unfamiliar with it. You guys can go down the mountain and find around fifteen Fire Essence Refinement Pellets, it is already not bad that he can find ten of them. No need to worry about this trash, let's just pay more attention to the Ice Soul. Master said that it is something that can allow one's cultivation to steadily improve by leaps and bounds! "

"Yes sir!"

Chapter 370 - Ice Soul

"Ice Soul?" After Long Chen heard this, he became a little interested.

The thing that the Three Great Demons had hidden from Zhao Qingyun for the three of them to search for using the map was probably not something simple.

"Ice Soul, I remember that the reason why such a cold treasure appeared in the magma was probably because it was too hot. It was just like Little Wolf's Nine Hell Devil Ancestral Flame, but because it was hot, it seemed extremely cold." Ling Xi explained.

"Ice Soul, what's its use?" Long Chen asked with some anticipation.

As for how much it can be used, it will depend on the size of the Ice Soul. Generally speaking, Ice Souls are slowly being accumulated and will usually take a thousand years to condense to the size of a thumb, and a thumb sized Ice Soul, if you refine it, you will be able to go from the Sixth Stage of the Milky Way Realm all the way to the peak of the seventh level of the Milky Way Realm, almost breaking through the eighth level of the Milky Way Realm. "Yun Che said in a low voice. Ling Xi explained the Ice Soul to Long Chen in detail.

"Then if the people from the eighth level of the Milky Way Realm were to refine it, what would the situation be?" Long Chen frowned, he could faintly feel that the Three Great Demons had been planning for this fire generating meridian trial for a very long time. It seemed that to them, the most important thing was not the Flame Essence, but the Ice Soul.

"If I am lucky, I should be able to reach the ninth level of the Milky Way Realm and create warriors of the same level as Lin Zichen." Ling Xi said.

Long Chen had guessed correctly, the Three Great Demons had probably known about the existence of the Ice Soul a long time ago, it was just that the Ice Soul was too young, and now the time was right, so they sent their own disciples to retrieve it, obviously hiding it from Zhao Qingyun.

After all, the later the cultivation, the more difficult it would be, especially the breakthrough from the ninth stage of the eighth level of the Milky Way Realm. According to Long Chen's Blood Refinement Art, when Long Chen was in the eighth level of the Milky Way Realm, he would need to devour heavenly ranked beasts in order to level up, which was already considered the fastest method he had.

To Long Chen, Ice Soul were as good as corpses of Heaven Rank Beasts.

The item that Three Great Demons took out after hiding for a long time was indeed very tempting. At least, Long Chen was already moved. Ice Soul was not equivalent to refining blood into energy, it was a type of plundering, a type of bloody and overbearing method, and Ice Soul was a type of comprehension born from heaven and earth. When refined, it would conform to the laws of heaven and earth, and could be considered a type of gradual cycle.

Since even Little Wolf had reached the eighth level of Earth Stage, Long Chen obviously could not fall behind.

"Three Great Demons, if the things that you have prepared for your own disciples end up in my hands, I really want to see how wonderful your expressions will be then. Ice Soul, this is a good name." Long Chen smiled faintly.

"Brother Chen, what are you going to do?" Ling Xi asked.

"Of course, snatching the map!" After he finished speaking, Long Chen didn't hesitate at all. With an extremely fast speed, he instantly appeared in front of Yang Jun and the others, and looked at them with a faint smile.

Long Chen's appearance shocked everyone present.

"Who is it!"

Yang Jun was a little anxious, and immediately kept the map. After that, he looked at Long Chen somewhat anxiously, but when they saw clearly what Long Chen looked like, they all calmed down as well.

"Long Chen? There's really a road to heaven that you don't want to take, there's no door to hell and yet you barged in! " Yang Jun called out to the brothers by his side. Immediately, a total of eight people surrounded Long Chen with sinister expressions. Yang Jun took the lead and looked at Long Chen arrogantly: "Kid, since we have met again, we cannot not take out a wager. How about this, take out the fire refining essence that you have collected, I can let you off, what do you think?"

"Keep dreaming. You're only a defeated opponent. What qualifications do you have to speak in front of me? Aren't you afraid that I'll come and spank your butt again?" Long Chen said with a smile.

"Shut up!" This was the humiliation of Yang Jun's entire life. Now that it was revealed by Long Chen, he immediately felt his face burning. Long Chen's disdainful gaze made him more and more angry. As the number one disciple of the Triplex, there had never been anyone who dared to embarrass him like this.

"Everyone, give Long Chen a good beating. A mere Sixth Sky of Sky River, it is only a fluke that he defeated me, and he still dares to be so rampant in front of us seniors, not putting us in his eyes. Brothers, attack together!" Yang Jun said somewhat hysterically.

Everyone knew that Long Chen had mastered the Heaven Tier Battle Skill's Traceless Demon Shadow, and knew that he was indeed difficult to deal with. Therefore, they also knew that although Long Chen's Innate Qi could not compare to theirs, but the Traceless Demon Shadow was their only way of doing so.

"Attack!" There were a total of eight great disciples. Before Long Chen had arrived, he was ranked from three to ten on the Demonic Palace, and was considered the most elite disciple there. They all released their Innate Qi and rushed towards Long Chen.

"In that case, I'll let you all have a taste of my new unique skill."

With a Dang sound, Long Chen took the Xingjian out. The Xingjian emitted a faint starlight, its edges were sharp, and were extremely soul-stirring. At a glance, one could tell that it was a good sword!

"Asgard Master is truly unfair, Long Chen had only just entered the Demonic Palace, yet he actually bestowed him such a good sword!" Everyone present at the scene felt extremely uncomfortable. All the eight people present had thought of using the Traceless Demon Shadow, but they had all been snatched away by this Cheng Ding Jin who was only halfway there. Everyone's heart was filled with anger towards Long Chen.

"Take my attack, Seventy-Two Path Demon Fist!"

"Divine Wind Leg Technique!"

Among them, there were a lot of high-rank earth class battle skills. They were already at the seventh level of the Milky Way Realm, and the battle skills used to cultivate high-rank earth class were their lowest requirements, but high-rank earth class was also divided into different levels, and the best high-rank earth class battle skills were at least ten times stronger than the worst high-rank earth class battle skills. And the afterimage sword in Long Chen's hands, after being modified by Ling Xi, had undoubtedly become the best type of Earth Tier Battle Skills!

"Traceless Demon Shadow!"

In the blink of an eye, numerous blurry shadows shuttled back and forth between the crowd, almost to the point of looking down on them.

Beside each of them, there were many shadows of Long Chen. They frantically attacked these shadows, but in the end, they discovered that their speed could not keep up with the changes in Long Chen's movement techniques. Amongst these shadows, every one of them were Long Chen, and none of them were Long Chen!

"The Traceless Demon Shadow is actually so abnormal!" Everyone felt a bit of fear in their hearts, but right at this moment, one of the disciples let out a blood-curdling scream, they turned to look, only to see that in the disciple's thigh, a sword had actually appeared, and Long Chen's figure was standing behind the disciple. Before anyone could react, Long Chen and his sword had disappeared, leaving behind the disciple who was screaming in pain because his thigh had been pierced!

"Everyone, be careful!" Seeing this situation, everyone's initial complacency gradually turned into fear. They never would have thought that Long Chen was strong to such an extent, his Traceless Demon Shadow was simply something that had already been used to its maximum extent. Even though he was only at the sixth level of the Milky Way Realm, when it was unleashed, even Yang Jun was completely unable to catch his figure, let alone others.

This Long Chen was practically an invisible killer to them, they could only sit and wait for death, but they had no power to resist!

"AHH!" Another disciple let out a blood-curdling scream. Everyone looked over in shock, and found that the disciple's thigh had also been pierced! Fresh blood crazily flowed out. It seemed that the blood had pierced into his artery, causing the disciple to quickly stop the flow of blood. However, such a troublesome injury had caused him to lose his combat strength.

Everyone was completely flustered.

"Long Chen, if you have the guts, don't use the Traceless Demon Shadow. If you have the guts, fight us head on, you coward!" Seeing his own side being killed by Long Chen one by one, Yang Jun was alarmed, his face turning sinister as he spoke in a flustered and exasperated tone.

"Do you take me for a fool?" Long Chen's laughter echoed in everyone's mind.

"AHH!" Another disciple had his thigh pierced by Long Chen!

Everyone was already terrified. They knew that if they stayed here, the final result would only be Long Chen getting pierced in the thigh. So when one of them started to run, the others started to run one after the other.

Even the injured ones began to flee. The first time Long Chen pierced their thighs, but who knew if the second time he pierced their hearts?

"Where are you going? Come back here!" Yang Jun was shocked in his heart, and immediately shouted out in fear, but unfortunately, his shout was completely useless, as Long Chen's method of killing was simply too shocking for them.

When everyone had fled, Yang Jun was finally afraid. He hurriedly turned around and also escaped in one direction, but what made him collapse was that Long Chen was actually chasing after him!

"Long Chen, I beg you, please spare me! I won't fight with you anymore, I'll give you all of my Flame Refinement Essence, I beg you, please spare me!" As he fled in a sorry state, he begged for mercy with a miserable expression, making the two meter tall giant do such a thing. It could be seen just how scary Long Chen was.

An invisible attack was the most terrifying thing. No one wanted to die so suddenly without even having the chance to fight back.

"Did you say that?" If I raise any conditions, you will agree to them all? " Long Chen's voice resounded sinisterly beside Yang Jun's ears.

Yang Jun clenched his teeth and said: "As long as you don't cross my bottom line, anything is fine. As long as you spare me!"
