

## War God 371

Chapter 371 - Praying mantis for its prey

"Is that true?" Long Chen asked with a gloomy voice.

This time, he merely wanted to get his hands on the Great Mantra of Dao-heart Seed. With the Three Great Demons behind Yang Jun, there was no need for Long Chen to deepen the hatred between him and them. When he came to the Demonic Palace, he only wanted to become stronger, and that was enough for him to return to the Biyang Royal City.

"Say what you want." Seeing that Long Chen had no intention to kill him, Yang Jun stopped and said helplessly. Today, he completely admitted defeat.

"Give me the Ice Soul's map, it's a waste that you have it." Long Chen went straight to the point.

"You heard us?" Yang Jun was shocked, and looked at Long Chen in shock.

"Cut the crap! Give me that map!" Long Chen shouted coldly.

Yang Jun was still a little hesitant, the Ice Soul was left behind for the three of them to compete for, they could hide it from Zhao Qingyun, but if Long Chen managed to snatch it in the end, Yang Jun would definitely kill him.

However, when Yang Jun thought about it again, it became much more straightforward.

It had already been four days, and perhaps they had already obtained the Ice Soul. Even if they did not get the map, how could Long Chen win against them? It had to be known that the two of them could learn Long Chen's most heaven defying Traceless Demon Shadow, and they had even trained in it for an even longer period of time. Furthermore, they also had a level of Great Mantra of Dao-heart Seed, so in terms of true energy, they were at least two levels higher than Long Chen.

This meant that Long Chen was still far from being on their level, and even if he met them, it was just a futile attempt.

"This is the map. Can I leave now?" Yang Jun took out a piece of golden silk from his Cosmos Sack, and Long Chen quickly took it into his hands. After carefully looking at it, he discovered that it was indeed the map that Yang Jun had previously held in his hands.

With Long Chen's permission, Yang Jun immediately used his fastest speed to escape. After running about one kilometer, Yang Jun could not help but laugh: "This Long Chen is such a fool! Although Ice Soul is important, Great Mantra of Dao-heart Seed is a Heaven Tier Battle Skill, and similarly important. He only cares about Ice Soul, and actually didn't take any fire essence from me? Haha, what a fool! I have at least three hundred Flame Refinement Essence, even Senior Brother Yang Danfeng might not be more than me, is the Great Mantra of Dao-heart Seed still not mine? As for the Ice Soul, it was originally something that belonged to Senior Brother Yang Danfeng and the Senior Sister Murong.

Thinking about it, Yang Jun happily found a place to hide, and waited for tomorrow to come. When the time for tomorrow arrived, Zhao Qingyun and the Three Great Demons would personally come to pick them up, and then, they would be forbidden from fighting.

When that happened, it would be the time for Yang Jun to obtain the final victory.

After getting the map, Long Chen and the little wolf met up again. They found a place to focus on studying the map, because Long Chen had traveled to many places before due to the Spirit Devouring Demon Pupil, he was more familiar with the terrain of the riverbed than them.

"I can see that the terrain here should be the Divine Flaming Beast's cave, this is probably the map that the Three Great Demons drew herself, this area is blurry, which means that they have not yet found the cave." Long Chen suddenly shouted in surprise.

After some deliberation, he was finally able to determine a location. As long as he was able to determine where he was and find his destination, it would be much easier.

"The location of the Ice Soul is not far from the Divine Flaming Beast's lair. Let's go to the Divine Flaming Beast's lair first, then advance in this direction. We should be able to reach our destination in about fifteen minutes!" Long Chen said somewhat excitedly.

"Brother Chen, you're so smart. There are a total of eight of them, and after researching for two days, they weren't able to figure it out. It only took you a moment to recognize them!" Ling Xi said in admiration.

Xiao Lang, let's go. I can't deal with Yang Danfeng and Murong Yu, so I'll have to rely on you this time. If they still haven't found it, we can give them a surprise! "

After he finished speaking, Long Chen brought the little wolf and headed towards the direction of the Divine Flaming Beast cave. They had just come out from there, and reaching the place once again was very easy for Long Chen who had a very good sense of direction.

Time flew by while he was hurrying on his journey. Very quickly, Long Chen arrived in front of the Divine Flaming Beast's cave. Long Chen confirmed the location of the map once again. After realizing that what he thought was correct, he put down the map and rushed there with the little wolf.

The current Little Wolf, if they were to really fight, Long Chen reckoned that it was not his match, after all the Earth Stage Level 8 Nine Nether Demon Ancestral Fire was really strong, and every little wolf's divine fire clone, every single one of them had the fighting strength of Earth Stage Seven. Such a lineup, even if Long Chen met them, it would be a tragedy for him.

When they were approaching, Long Chen heard the sounds of fighting, and said indifferently: "What a coincidence, looks like they only just found this place, that's why they are fighting here, and the Ice Souls have not been taken away yet."

Long Chen heaved a sigh of relief.

He continued to walk forward, and this time he had to be extremely careful, all the way down there, in a basin at the bottom of the magma, two figures were wailing and fighting. Long Chen's gaze was not attracted by them, but there was actually a blue pearl that was as big as a thumb inside the basin.

"This is the Ice Soul? It was already the size of a thumb, no wonder the Three Great Demons had let their disciples come over to take it. However, Yang Danfeng and Murong Yu both had eighth level of the Milky Way Realm, so it was not fair to distribute them to anyone, which was why they had to compete for them based on their strength.

"Xiao Yu, don't you know how sincere I am to you? We grew up together. After so many years of taking care of you, how could you not feel it?" At this time, Yang Danfeng said sorrowfully as he fought crazily.

"Immaculate? Are you trying to compete with me for the Ice Souls? Is this your sincerity? It really makes me want to vomit!" Murong Yu's cold voice rang out.

"This is different, the Ice Soul is related to my future, don't you like men that risk their lives for it? As long as I'm strong, I can still protect you. Isn't it the same? Why don't you give this Ice Soul to me so that I can protect you from now on? Yang Danfeng said righteously.

"Is your future going to be one where you can climb up on the feet of the people you like? Yang Danfeng. Then why didn't you give the Ice Soul to me and let me protect you? "You kept saying that you like me, that you're meticulous to me, and that this kind of meticulous and meticulous approach of yours is something that little girl can't afford." It could be said that with regards to Yang Danfeng, she had completely given up.

"Xiao Yu, if you really don't listen to my advice and insist on going against me, then don't blame me for being rude. I've never seen such a stubborn woman like you!"

"I've never seen a disgusting man like you!" Murong Yu shouted lightly.

"Slut!" Murong Yu being so rude to him made Yang Danfeng completely mad. A figure suddenly appeared in his mind, and shouted angrily: "Murong Yu, you are so heartless to me, could it be that you have taken a fancy to that Long Chen?"

Murong Yu was startled, but she immediately rejected the idea after thinking about Ling Xi. She said coldly: "Don't speak nonsense, I don't want to waste my breath on you, for the competition for the Ice Soul, we should just watch the battle from the bottom of our hearts, speaking any further is pointless!"

After he finished speaking, Murong Yu's attacks were even sharper, the Innate Qi on his arm swept towards Yang Danfeng.

"I was right, he actually ran away!" When he thought about this, Yang Danfeng was practically angered to death. The woman he had coveted for almost twenty years, had now suddenly run into Long Chen's embrace. Hot blood surged from his heart, instantly filling his eyes!

"Murong Yu, you slut, just die!"

In his haste, Yang Danfeng had already become berserk, and his true qi had erupted with a loud bang. It could be seen that he had indeed held back, a devil shadow had actually appeared behind him with a loud bang, and thick black smoke started to rise from his body. Yang Danfeng's aura had grown extremely crazily, and in the blink of an eye, it had actually doubled in strength!

"Great Mantra of Dao-heart Seed, do you think only you know it?" Murong Yu shouted softly, a black mist also rising from her body, enveloping her within it. Her aura had also risen by about half.

"I know you can do it too, but I have obtained this heart demon. It's much earlier than you. Can you cast it to my level? Let me tell you, Murong Yu, today's second level of the Dao-heart Magic Seed is mine, the Ice Soul is also mine, the Demon Emperor Sword is also mine! Once I reach the ninth level of the Milky Way Realm, I will be a peerless genius comparable to Lin Zichen, and Long Chen will sooner or later become the spirit of my sword. As for you, you will become my slave sooner or later!" Yang Danfeng's face turned sinister.

This kind of Yang Danfeng, caused Murong Yu to feel a little uneasy in her heart. However, she still made herself bolder as she coldly said: "Wait until you defeat me before saying such big words."

"Then I shall grant your wish!" Yang Danfeng let out a wild laugh, then, like a gust of black tornado, he surged towards Murong Yu.

Traceless Demon Shadow!

#### Chapter 372 - Unholy Sky Breaking Finger

"You're the only one who knows the Traceless Demon Shadow?" Murong Yu emboldened herself, and in that instant, her body transformed into a devil shadow.

"My master is the Great moxibustion, and I train in the Nether Breaking Heaven Finger. Your master is the Erythropoda, and I train in the Willow Catching Soul Palm. Today, I will see whether the Nether Breaking Heaven Finger is stronger, or your Liu Xu Soul Shattering Palm!" From within the blob of shadows, a laugh could be heard.

This caused the onlooker Long Chen to be unable to clearly see their movements, especially in the lava. However, right at this time, Long Chen discovered the benefit of the Spirit Devouring Demon Pupil, and that was that when using the Spirit Devouring Demon Pupil, his grasp of the positions of the two warriors that used the Demon Shadow was much stronger. If Long Chen were to fight them, he would gain a lot of advantage.

Murong Yu and Yang Danfeng's fight was extremely intense, causing Long Chen to be secretly shocked. He made a quick estimation and realized that his current self should not be their match. Only by obtaining the Ice Soul would he be able to reach their level.

"My fighting strength is far superior to Yang Jun's, but these two are Heaven's Prides of Demonic Palace, so the resources provided for their cultivation should not be any worse than Lin Zichen's. And that Great Mantra of Dao-heart Seed, their true qi has been raised to double the explosive strength, it's almost the same as the Sword Fighter."

Regarding the increase in his Innate Qi, Long Chen only found out about how heaven defying his Dragon Soul Transformation was when he found out about other people's. An ordinary Beast Fighters, after transforming into a beast spirit body, would be able to increase their true energy by at most three times, while Soldier would be able to increase his true energy by three to four times.

For example, when the Church of Red Blood relied on the blood of the bathing girl and used a secret technique to change the nature of his Zhen Qi, he could barely raise it by two times. However, this was an evil art and not a great one, and it would have many benefits in a short period of time.

And this Great Mantra of Dao-heart Seed was also the type of technique that belonged to the Church of Red Blood, but the Great Mantra of Dao-heart Seed was not as despicable as the technique. The Dao-heart seed demon was a formed ability, after cultivating to the second level, it could increase the original Zhen Qi by four times! Amongst warriors of the same rank, they were basically the same as Long Chen, who had an overwhelming suppression of Innate Qi.

However, in a short period of time, the Dao-heart Devils would be even stronger than the royal family's Sword Fighter s, but the Sword Fighter s would always be strengthened, and the Great Mantra of Dao-heart Seed was an early stage heaven-step cultivation technique. It was only above the first three stages of the Heavenly Completion Stage, so it was estimated that it would be useless.

However, within the Canyang Kingdom, where would there be a person who could break through the first three stages of Heavenly Completion Stage?

So, the fact that the Demonic Palace ranked the Dao-heart type devil above the Traceless Demon Shadow did not make no sense. Now that Yang Danfeng and Murong Yu was fighting, true energy was vast and the waves were turbulent, to the extent that normal people could not get close to it.

As the proverb goes, a sandpiper clam wins the fight. Long Chen did not prepare to attack immediately, but chose to wait and see.

As time passed, their fights became even more intense. They used their killing moves, not wanting to let go at all. In fact, their strengths were all at the same level, evenly matched. A long fight would depend on a person's patience and viciousness, and very clearly, Yang Danfeng had won by a bit in this area, so his attacks were extremely quick and violent. In the later stages, he gradually went berserk, and then, he suppressed Murong Yu.

At this time, Murong Yu, who was wrapped in Innate Qi, was already sweating like rain. Her fragrant sweat was dripping all over, and her full chest was heaving up and down violently, rippling out moving ripples. However, her face was ugly, because she knew if this went on, she would not have another chance to get to the Ice Soul.

Ever since she was young, she knew that Yang Danfeng was not a good person, so she kept the distance between the two of them. Because of their identities, she knew that if she was weaker than Yang Danfeng, she would easily be suppressed by him.

Because of this, she trained even harder.

However, if Yang Danfeng reached ninth level of the Milky Way Realm, he would definitely obtain the Demon Emperor Sword, and at that time, he would even become a Ranker that surpassed Three Great Demons. As long as he forced his, Murong Yu would not be able to resist him, so Murong Yu knew, she would definitely die this time!

"Haha!" If only you knew about this, why would you fight me, it would be a waste of your strength. But Xiao Yu, you don't have to worry, after I obtain the Ice Soul, I will definitely not mistreat you! " Yang Danfeng's arrogant smile sounded out.

"In your dreams!" Murong Yu took a few steps back, she knew that the arrow was already on the bow, and had no choice but to make her move, at this moment, she was using all of her True Qi, and could only use her last trump card!

"Liu Xu's soul is dissipating, Glimpse of Light!"

This move of Murong Yu's, was definitely something that could only be executed with the combination of her Traceless Demon Shadow. On top of countless afterimages, numerous palm prints appeared, and thousands upon thousands of them rushed towards Yang Danfeng! The huge momentum caused the surrounding magma to frantically surge. A large empty space was formed!

"Idiot, I already knew that you knew how to use this move!" Yang Danfeng let out a proud smile. At this time, his figure suddenly changed, and he very accurately thrust out his finger. Immediately, a black sword image shot out from his fingertip in a berserk fashion!

"Nether Break the Heavens, Clear the Heavens!"

From this angle, the Netherworld Udumbara Finger could only stab the side of Liu Xu's Soul Shattering Palm to break the surface. Yang Danfeng had used this move to the most suitable place, he may seem crazy, but his mind was actually calm. He knew that Murong Yu had already been forced into a mess by him, so he waited for the opponent to use this move any time.

To him, this was exactly what he wanted!

BOOM!

Long Chen also felt a strong force acting on his own body. He forcefully used his true energy to suppress himself, and did not let himself fly out, but at this time, Long Chen had already gradually activated the Dragonsoul Transformation, and the true energy of his Sixth Stage of the Milky Way Realm instantly rose to the realm of the seventh level of the Milky Way Realm. Compared to the Great Mantra of Dao-heart Seed, the Dragon Soul Transformation was much more heaven-defying.

However, Long Chen knew that the Dao-heart type demon would definitely be able to increase the amount of Innate Qi that Long Chen had already transformed into after his Dragon Soul, reaching a higher level.

Just when Long Chen was already prepared, Yang Danfeng and Murong Yu had already made a slight difference in victory. This time, because Murong Yu's mind was in a mess, she was sent flying backwards, and even some blood flowed out of the corner of her mouth.

Of course, Yang Danfeng was also not feeling well, his true strength was not stronger than Murong Yu's, he only relied on the advantage of being a man. However, he reacted even faster, and when he saw that Murong Yu had already been blown away by the impact, his eyes lit up. Borrowing the momentum of the battle, he rushed towards the direction of the Ice Soul with his fastest speed!

Roar!

At this time, a black figure appeared in front of him, and another black figure left the image in front of him. It quickly rushed towards the Ice Soul, and in the middle of Yang Danfeng's bloodshot eyes, Long Chen put the Ice Soul into his Qiankun bag!

Success!

When Long Chen's appearance was revealed, both Murong Yu and Yang Danfeng were stunned. Murong Yu had been in a state of shock the entire time, but Yang Danfeng had instead instantly combusted into an inexhaustible rage!

It hadn't been easy for him to defeat Murong Yu and win the chance to seize the Ice Soul, but Long Chen had appeared at this time and seized the fruits of his hard work?

Yang Danfeng had always been the only one to get the fruits of someone's labour, and no one had ever gotten the fruits of Yang Danfeng's labour.

"Long Chen, you're courting death! Hand over the Ice Soul to me quickly, I can spare your life, I'll give you ten breaths of time, and after ten breaths of time, if you remain stubborn, your life will definitely return to the Yellow Springs!" Yang Danfeng said with a sinister look!

"Idiot, are you daydreaming?" Long Chen said with a bland smile, his face didn't have any expression of fear, as though the person in front of him wasn't Yang Danfeng with his eighth level of the Milky Way Realm, but any other mortal.

This kind of negligence completely angered Yang Danfeng. He was already too lazy to waste words with Long Chen, so he directly rushed towards Long Chen, and with one move of the Seven Deadly Devil Finger, he wanted to take Long Chen's life!

However, he had forgotten that the little wolf in front of him was a majestic Sun Devouring Demonic Wolf, not a simple demonic beast!

When Yang Danfeng made his move, the wolf cub used his divine fire clone and a large group of Sun Devouring Demonic Wolf surrounded Yang Danfeng. That crazy attack immediately stunned Yang Danfeng.

More than a hundred divine fire clones with the battle strength of Earth Stage Seven were no secret to Yang Danfeng. That crazy attack instantly caused Yang Danfeng to be forced to retreat step by step, and this was under the situation where the Little Wolf himself had yet to make a move, when the Little Wolf possessed the absolute destructive power of the Nether Demon Ancestral Fire, and with this divine fire clone, even if it was a practitioner of ninth level of the Milky Way Realm, they would still not be able to escape with much benefits, let alone Yang Danfeng.

Very quickly, under the attack of the little wolf, Yang Danfeng's head and face were all covered in dirt and he was in a sorry state.

"What the hell is this thing!?" Why was it so powerful! Long Chen, if you have the guts, then fight me fair and square, don't hide behind the demon beasts, are you fucking a man or not! "

"You don't know whether I'm a man or not, but your mother knows. Go back and ask her!" He knew that Yang Danfeng was currently enraged to the extreme, but the more furious he was, the happier Long Chen would be.

"You!" Under the attacks of the divine fire clone, Yang Danfeng encountered danger after danger again. Especially when the little wolf's Nine Hell Devil Ancestral Fire once brushed past his shoulder, causing him to lose half of his shoulder in an instant, which made Yang Danfeng have the idea of retreating!

"Long Chen, you stole my Ice Soul today, so one day, I will take it back. Also, I will take your life as well!" After he finished speaking, Yang Danfeng fled.

### Chapter 373 - The Number One Wolf in the World

Only then did the little wolf stop its attack, and transformed into the cute little guy, arriving in front of Long Chen. He looked pretty cute on the outside, but his expression was always serious, as if he was being serious, which made him even cuter.

Murong Yu looked at Long Chen and Little Wolf at times, but she still found it hard to believe.

"Is this wolf cub really that powerful?" Gently lifting up his thin lips, Murong Yu said with some difficulty.

"Of course, the wolf cub is the best in the world!" Long Chen laughed, and then, looked at Murong Yu with a smile that was not a smile: "How is it? Now that the Ice Soul is in my hands, are you convinced? "

How am I an opponent? I'm not an idiot, you'll be the one to get it if you get it, the result is better than what Yang Danfeng got, but Long Chen, how did you know we would be fighting for the Ice Soul here?

"I saw Yang Jun and a few others looking for the map, so I snatched it over. Then, I found this place, luckily I got there in time, otherwise, I would have taken advantage of Yang Danfeng." Long Chen replied.

Looking at Long Chen's indifferent face, Murong Yu felt a sense of disorder in his heart. Her current strength was stronger than Long Chen's, but in her eyes, Long Chen was still mysterious and powerful. With the Ice Soul in Long Chen's hands, she accepted it.

After obtaining the Ice Soul, there was no need to look for the Fire Essence, she could just wait for a day more and then leave the fire generating meridian. Overall, Long Chen's harvest this time was rather huge, with the Ice Soul, after going out of the fire generating meridian, Long Chen's strength would increase dramatically.

He and Murong Yu are still not familiar with each other, so it would be awkward for them to stay together. Therefore, Long Chen nodded and said: "Since that's the case, let's meet tomorrow.

"How much do you get now?" Murong Yu hurriedly asked, but when she asked this question, she realized that her words were flabbergasted. They were competing, and the amount of Flame Refinement Essence they obtained would determine whether or not they could obtain the Great Mantra of Dao-heart Seed. It would be inappropriate to divulge it to each other.

"Flame Refinement Essence? Almost two thousand. " Long Chen didn't think much of it, and said directly. In fact, Murong Yu had helped him before, so Long Chen had basically treated her as a good friend. There was no need to hide these small matters from his friends.

"Two thousand?" Murong Yu was a little speechless. She sized Long Chen up, and seeing that there was a smile on her lips, she said somewhat angrily: "Alright, Long Chen, you actually messed with me, alright, I won't delay you from collecting the Flame Essence anymore, but let me remind you one more time, if you want the Great Mantra of Dao-heart Seed, it would be better for you to have 500 Flame Essence. It would be safer, since there are 8 of them, and as for the second stage of the Heart Demon, you can probably get 800!"

"If I add divine refining crystal into the mix now, it would be equivalent to seven hundred Fire Essence Refinement Essence. As for Yang Danfeng, I don't know, but I believe he won't be too far off from me."

Murong Yu did not hold back and directly told Long Chen what amount he had, in order to prepare his heart.

"Many thanks!" It was obvious that Murong Yu was treating him well. Long Chen gratefully looked at her for a moment, then said goodbye before turning around and leaving with the little wolf.

Murong Yu stood blankly in place, watching the youth's figure gradually disappear into the distance. Only after he had disappeared did she regain her senses ...

A day's time slowly passed.

Long Chen was already more or less aware of the other disciples' Fire Refinement Essence, but he had already defeated them in terms of numbers, so he no longer collected the Fire Refinement Essences, but chose to accompany Ling Xi. After the time was up, Long Chen felt a majestic aura pressing down on him from above the fire generating meridian, he had long floated up to the surface and returned to his original tunnel.

Zhao Qingyun's figure was currently standing above the magma. When he saw that Long Chen was safe and sound, he finally let out a sigh of relief and said: "Come, follow me back!"

Following a iron chain that was hanging down from a path, Long Chen followed Zhao Qingyun and returned to the passage. At this time, the others probably had already returned with the Three Great Demons, so Long Chen directly followed Zhao Qingyun and walked onto the road to leave the fire generating meridian.

"How can the aura of this Demonic Beast be so much stronger than before?" The moment he saw the little wolf who was resting in Long Chen's embrace, Zhao Qingyun was immediately shocked. He looked at it from top to bottom for a while with an expression of disbelief.

Zhao Qingyun knew that Long Chen was a mysterious youngster, and he had a lot of mysterious items on his body. However, in five days time, she had crossed three levels, so this kind of advancement was really hard for him to accept.

Long Chen also revealed a difficult expression. He didn't know how to explain to Zhao Qingyun what had happened with the little wolf.

"I'm afraid that's the reason why you brought this demon beast into the fire generating meridian. This demon wolf has a dense fire attribute energy. This fire generating meridian is clearly the most suitable place for him to live." In Zhao Qingyun's eyes, there was only regret, but not the slightest bit of malice.

"Okay, boy, you don't need to be nervous. I'm already old, so I don't have too many requirements for fame, strength, etc. I won't ask about your personal secrets. I just want to know the name of the Monstrous Beast." Zhao Qingyun patted Long Chen's shoulder, and said smilingly.

"Master, you should know that the Profound Rank demon beast, Moon Devouring Demonic Wolf. The wolf cub is an evolved variant of Moon Devouring Demonic Wolf called Sun Devouring Demonic Wolf." Long Chen said honestly.

"I have heard of the Moon Devouring Demonic Wolf, but I have never heard of the Sun Devouring Demonic Wolf. Hehe, forget it, we don't care about this demon wolf, let's get down to business, Long Chen, how are your chances this time? "

Zhao Qingyun's voice, had a hint of anticipation, but also a hint of nervousness.

"Master, don't worry. I guarantee it will surprise you." Long Chen smiled mysteriously.

"Surprise? Little baby, don't underestimate them. Aside from Xiao Yu, who is a little surprised, the other disciples of the Three Great Demons all have wild and unruly personalities, and are not truly 'devils', but you, Long Chen, suit my tastes a lot more. "

This was also the reason why Zhao Qingyun liked this junior so much. A maverick, unrestrained, heaven defying, free and easy life. This was the devil in Zhao Qingyun's heart, and Long Chen's character, was evidently like this.

"Nonsense, how could your direct disciples, Zhao Qingyun, be inferior to them? Speaking of which, your disciple has never defeated the Three Great Demons, so I'll let you have a good time today! " Even if it was Master, Long Chen was unbridled when he spoke, and Zhao Qingyun would naturally not care about this. This kind of relationship made Long Chen feel extremely comfortable.

No matter how Zhao Qingyun tried, Long Chen didn't tell him the amount of Flame Refinement Essence he had, until they reached the end of the ten tunnels, all the way to the iron gate, where Zhao Qingyun laughed helplessly. At this time, others also came out one after another, led by the Three Great Demons,

whose face was slightly gloomy, and behind them were Yang Danfeng, Yang Jun and a few other disciples.

As for Murong Yu, she was much more relaxed as she followed behind them.

When he saw Long Chen, Three Great Demons's eyes shone with a cold light, causing Long Chen to feel goosebumps. The matter of the Flame Refinement Essence had yet to be revealed, so of course the Three Great Demons was concerned about the ownership of the Ice Soul, which was something that they had prepared meticulously for their number one disciple. In the end, they gave it to Long Chen cheaply, and when they heard the news, even the Great Moxibustion was so angry that he almost fainted.

The rage they had towards Long Chen, was indescribable.

However, what was even more depressing was that they couldn't let Long Chen do it openly, because that Ice Soul was something that they had secretly told their own disciples. It wasn't right for the fire generating meridian to hide things that normally belonged to the Demonic Palace. Hence, they did not have the face to openly ask Long Chen to trade.

And when they saw that those disciples were actually injured by Long Chen, they became even more furious.

It was a pity that no matter how furious they were, they had to bury it in their hearts.

"Since we're already here, there's no time to lose. Let's go to the Demon Palace to announce the results, and then decide on the location of the Great Mantra of Dao-heart Seed!" Zhao Qingyun was not an idiot, so he could obviously see the gloomy expressions on their faces. He knew that it was definitely because Long Chen had ruthlessly suppressed their disciple in the fire generating meridian, which was why he had such an effect.

His own direct disciple would finally have a day where he could feel elated and proud. However, even though Zhao Qingyun didn't say it on the surface, he was actually secretly delighted in his heart.

Thus, he led the group and headed towards the Demon Palace. Whether it was the disciples or the elders, they were all very concerned about the ownership of the Great Mantra of Dao-heart Seed. Therefore, at this time, outside of the Demon Palace, there were already many disciples gathered. And

inside the Demon Palace, basically all the elders, protectors, and hall masters were already waiting for this.

When Zhao Qingyun took the lead and appeared, all the disciples of the Demonic Palace s started boiling with excitement. They impatiently looked behind Zhao Qingyun, and sure enough, all the disciples that were participating in the fire generating meridian trial had appeared.

Long Chen followed beside Zhao Qingyun with the same expression on his face, while the Three Great Demons and their disciples had the same expression. Long Chen was naturally happy, but the Three Great Demons and the others were all gloomy, could it be that they were revealing some kind of information?

"Could it be that Long Chen obtained even more Flame Refinement Essence and surpassed Yang Jun?" All their faces were filled with shock.

"Impossible, he's just pretending. Once he reveals the Flame Refinement Essence that he obtained, you will know who has won!" One of them laughed.

#### Chapter 374 - Revealing Flame Refining Essence

In the midst of everyone's doubtful gazes, a group of people walked into the Demon Palace. The Demon Palace's gate was extremely tall, but it was impossible for so many disciples to enter, thus, only disciples with high cultivation could squeeze their way to the front, while those with weak cultivation could only be pushed outside to be anxious, only by jumping up, they would be able to see the situation inside, but the amount of things they could see was limited!

"Quiet!" When we hear the news, we will immediately inform you! " At this time, the disciples that had squeezed to the front immediately turned around and shouted, their strength was strong, and they immediately suppressed the momentum of the disciples behind them. In fact, most of the disciples only wanted to hear the result at the first moment, and if everyone was quiet, they could hear the sound from inside!

Thinking of this, everyone else also began to shout, making everyone quiet down. After a few boisterous sounds, the scene finally became quiet. Everyone was trying to hear what was being said clearly without saying a single word, trying their best to not make a single sound.

This time, it was the fire generating meridian training, and due to Long Chen's relationship, he became especially nervous.

When everyone had started to quiet down, Zhao Qingyun had a solemn expression on his face as she sat in the seat at the very top, looking down condescendingly at the audience below. He had become stern and quite imposing, while Three Great Demons had sat down on the right side. Long Chen's face remained calm, but the others looked at him with venomous eyes from time to time. From this small detail, the other elders and protectors seemed to have guessed something.

"Alright, this time's fire generating meridian trial, has finally come to a successful end. Right now, the results are already in the hands of the various outstanding disciples. I won't waste any more time, so you guys should just follow the sequence and reveal that you have obtained the Refinement Essence. First, by the tenth ranked disciple, Ruan Cheng! "

The disciple whose name was called trembled as he walked to the front. Seeing Ruan Cheng, the elders started to discuss.

"Ruan Cheng is one of the disciples of the Triplex, and he is the only disciple of the. It has already been a year since he reached the seventh level of the Milky Way Realm, and he has even entered the fire generating meridian once!"

"I remember that the Flame Refinement Essence that he obtained last time should be around forty crystals. He should have made some progress this time and should be able to reach around seventy crystals."

The results were about to be revealed, and the disciples outside were extremely excited, especially the disciples from the Triplex. Ruan Cheng's disciples in the Triplex's bloodline possessed quite a bit of fame and reputation.

"Senior Brother Ruan Cheng, this time, you can at least take 80 pills. It seems like when I asked him a few months ago, he had already said he was confident!" One of the disciples said.

"Eighty? The ten great disciples are truly extraordinary! "

The disciples standing outside the door were sighing. The more distant ones strained their ears to listen.

Under everyone's gaze, Ruan Cheng became a little timid. He knew that he had to show his true self no matter what, and threw caution to the wind, not caring about the embarrassment, he directly took out five Flame Refinement Essences from his Cosmos Sack and said: "Reporting to palace master, I have obtained a total of five Flame Refinement Essences!"

Zhao Qingyun's first reaction was to laugh, while the other elders and protectors were first stunned. When they saw that there were really only five Flame Refinement Essences in Ruan Cheng's hands, they looked at each other in dismay with expressions of disbelief.

"How could it be only five? Could it be that someone stole it?" Everyone was baffled.

"Ruan Cheng, how can you only have five? After all, Flamethrower is only at the sixth level of Earth Stage. At this moment, some of the elders that he wanted to be familiar with started to ask.

Ruan Cheng lowered his head and did not say a single word. However, his face seemed to be blushing.

When the disciples outside heard that Ruan Cheng had only obtained five Fiery Refinement Essence, they had also erupted into laughter. Five such a number, was simply too shameful in this place.

"Only five? Can I get it too?" "Haha!"

"Five Flame Refinement Essence, this is too embarrassing! I can't believe that they're actually the same Master!"

"Quiet!" Seeing that the crowd had scattered, Zhao Qingyun immediately stopped them. She then swept her eyes across Ruan Cheng and said: "Ruan Cheng, five Flame Essence Essences, good, you can go now. Next, Zhang Dongyang, ranked ninth!"

With Ruan Cheng being mocked, Zhang Dong Yang became calmer, he knew that he would be mocked later on, he was just one of them, so he strode forward, towards the front. His leg was already pierced by Long Chen, and after a day, he had recovered quite a bit, but there was indeed a problem with his posture.

"What happened to his foot?" Everyone had a question in their hearts. When they saw Long Chen, they had a thought, could it be that Long Chen was injured?

However, no matter how much everyone thought about it, Zhang Dongyang still revealed his harvest. There was a total of eight Flame Refinement Essence. Just like Ruan Cheng, he welcomed a wave of

laughter. However, after everyone laughed, they were puzzled. Why were they so little when they had the strength to get even more?

Could it really have been taken away by someone else?

By the time this thought appeared in their minds, the third person had already revealed his Flame Refinement Essence. This time, it was even less. He only had four Flame Refinement Essences in his hand. This time, the crowd did not laugh. They knew that after this event, there would be people who would get their hands on the Flame Refinement Essence and it would be beyond their expectations.

In the following few people, the amount of Flame Refinement Essence in their hands would definitely not exceed ten, because Long Chen had defeated Yang Jun, so he had to line up in front of Long Chen to display his Flame Refinement Essence.

The previous seven people did not receive more than ten Fire Essence Extract. Everyone was guessing, could it be that Yang Jun's Fire Essence Extract was also more than ten? This meant that something interesting must have happened in the fire generating meridian, causing Yang Jun and the others to not have the time to look for the Flame Refinement Essence, or perhaps, someone else might have snatched it away.

Under everyone's gazes, Yang Jun gave Long Chen a fierce glance, and then walked to the front.

"Long Chen, oh Long Chen, you stole the Ice Soul, causing my master and seniors to scold me a lot. However, when you see the Great Mantra of Dao-heart Seed that you wanted, and I obtained it, what kind of expression will you have?" In Yang Jun's heart, he fantasized about Long Chen's extreme grief and indignation when he saw his Fire Essence. He was already filled with anticipation.

"Yang Jun, why don't you take out all of the Flame Refinement Essence that you obtained. Let's see, once the third strongest disciple among the young generation of Demonic Palace, what kind of achievement would she have?"

There was a hidden irony in Zhao Qingyun's words, making all the disciples blush.

"Yes, Mistress!"

Luckily, the Great Mantra of Dao-heart Seed was still her own, so Yang Jun felt much more relaxed now. He spent two days searching for the Ice Soul, and on the day after Long Chen took the Ice Soul away, his group still obtained more than 100 Flame Refinement Essences. Therefore, their total amount of Flame Refinement Essences was around 500!

When Yang Jun placed all the high temperature Flame Refinement Essence on the ground, everyone's tensed up expression finally relaxed, and they looked at each other: "Yang Jun is truly extraordinary, even when others don't have time to refine their essence, he actually obtained so many Flame Refinement Essences, which even exceeded my expectations of him!"

"A whole five hundred Fire Essence Refinement Essence! This is too amazing!"

"More than five hundred of them, killing at least fifty Flamethrower a day, Yang Jun is truly defying the heavens, and this time's first level of Great Mantra of Dao-heart Seed, will definitely be his!"

"Palace Lord, I have already counted a total of 522 Flame Refinement Essence." At this time, Yang Jun finally felt proud of himself. He proudly looked at Long Chen for a while, and then began to collect his own Fire Essence Refinement Essence. Although this Flame Refinement Essence was not directly useful for cultivation, it could still be sold for a good price elsewhere.

The number 522 was spread out, causing all the disciples who heard it to be shocked. All of them looked at Yang Jun in shock, and started to exclaim!

The disciples behind them who could not see the situation were stunned when they heard the news that Yang Jun had obtained five hundred and twenty-two Flame Essences.

"Senior Brother Yang Jun, this time, we have the Great Mantra of Dao-heart Seed. 500 Fire Essence Refinement Essence, even if it was the previous number one ranked, the number of Fire Essence Refinement Essences he obtained would only be 400, right? The fire refining spirits in the fire generating meridian must have all been taken away by these fellows! "

"That's right, when it's our turn, there might not be any more Flamethrower, and we might not even have a chance to refine it into essence!"

All the disciples had regretful expressions on their faces.

With so much Flame Refinement Essence out, the previously defeated Yang Jun was now in a whole new level. Everyone thought that Yang Jun, who had obtained the Great Mantra of Dao-heart Seed, could only cultivate, and his cultivation would very likely surpass Long Chen's! At that time, it was not certain who would win and who would lose. And don't forget, Yang Jun was only a hair's breadth away from the eighth level of the Milky Way Realm!

Even the Three Great Demons was very satisfied with Yang Jun's performance. This was the only thing they were happy about, the Ice Soul had already taken advantage of Long Chen, if even the Great Mantra of Dao-heart Seed was taken advantage of, the Three Great Demons would definitely have cramp.

"Alright, 522 Fire Essence Refinement Essence. This is a very good result! Yang Jun, you did well this time, go back and hurry up to reach the eighth level of the Milky Way Realm, the Traceless Demon Shadow will also be yours!" Zhao Qingyun encouraged her, at this time, Zhao Qingyun's eyes looked at Long Chen, and when she realised that Long Chen's eyes were still calm, he understood, he wanted to know, how much qualifications did Long Chen have to be able to be so calm?

"Alright Yang Jun, you go down first. Next, Long Chen, bring out the Fire Essence that you have obtained!" Zhao Qingyun said with a smile.

In front of everyone's eyes, Long Chen took a step forward and said: "Mistress, before I take out the Flame Refinement Essence, I need to explain one thing!"

Chapter 375 - Dao Heart Seed Magic Level 1

"What are you trying to say?" Zhao Qingyun asked with interest.

Long Chen did not take out the Flame Refinement Essence first, but wanted to clarify one thing, this made everyone's appetite rise one after another. The battle between Long Chen and Long Chen had decided who was in the first level of Great Mantra of Dao-heart Seed, so Long Chen's result was extremely important. Everyone stretched their necks, wanting to see the result.

Long Chen glanced at Yang Jun with disdain. Suddenly, he said in a clear voice: "All of you are all smart people, so you should be able to see that among the seven disciples from before, there were not even ten of them yet, but Yang Jun had unexpectedly acquired five hundred and twenty-two. This is really

strange, and there is one thing that I have seen with my own eyes, which is that I am sure that the reason why Yang Jun has so many of these Flame Refinement Essences is from other fellow disciples.

Long Chen's words immediately stirred up a huge uproar. After all, they had already guessed it earlier, and to the disciples, this was just a public fraud. It was a serious challenge to the Demonic Palace's reward system! If it was said that a popular disciple could do this, then when they joined this event in the future, they would suffer a great loss. Then, why would they still need to work so hard?

"How can this be? Isn't this unfair? It's not that we've already agreed that we can fight over it, but it shouldn't be possible this way right?"

"That's right. If it's like this, how can the competition be fair to others?"

"I work so hard, my goal is only the Three Great Secret Scriptures, if the Three Great Secret Scriptures is fixed, then why would we cultivate?"

Suddenly, a clamor sounded out, and a majority of the people looked at Yang Jun with righteous indignation, and their faces were full of accusation and rejection.

"All of you, quiet down!" At this time, the Triplex could no longer bear to watch, he knew that this was the truth, but he could not admit it, so he stood up and looked at Long Chen: "Kid, what proof do you have? I think you clearly know that your fire refining essence is insufficient, so you thought of ways to frame Yang Jun, right? Yang Jun, tell Long Chen, how did you get your hands on the Fire Essence?!"

Originally, Yang Jun had the highest reputation, but suddenly he became the target of criticism. At this moment, he was looking at Long Chen with incomparable hatred, and simply didn't have the face to face other people.

In fact, on the way back, they knew that Long Chen had already found out about their secret, so they had already thought of a way to counter them. At this time, Yang Jun stood forward and said: "Long Chen, let me tell you, half of these 500 fire refining essence was obtained by me after much effort. The other half was won by me in a battle with my other seniors! Otherwise, who would unconditionally hand over the Flame Refinement Essence to me? It's precisely because I defeated them that I obtained the Flame Refinement Essence from their hands. If you don't believe me, you can ask them! "

In the end, Senior Brother Yang Jun's technique became even stronger, and basically won all of our Fire Essence. The reason why we were so embarrassed before, was that we found it difficult to talk about

this matter, since out of the seven of us, no one was able to fight as much as Senior Brother Yang Jun, but I can swear to the heavens, this Flame Essence is definitely something that Senior Brother Yang Jun deserves! "

With his beginning, the other disciples promised as well.

"Long Chen, in the future when you participate in the fire generating meridian's trials, I advise you to honestly look for the Flame Refinement Essence and not think of all sorts of evil methods to frame others!" In the end, Triplex concluded. He looked at Yang Jun with praise, then sat back down.

Hearing Yang Jun's explanation and the assurances from the other disciples, the disciples outside Demon Palace felt much better. They didn't know who they should trust, but it looked like Long Chen had lost to Yang Jun this time.

Everyone looked at Long Chen, only to see that after being refuted, Long Chen was not depressed, but his face was full of indifference, what was going on?

Zhao Qingyun was also looking at the change in Long Chen's expression. Even after Long Chen was rejected, his expression still did not change.

Just at this time, Long Chen looked around, and said loudly: "I think I do not care about Yang Jun's matter, but I do believe that using such evil methods to obtain the Great Mantra of Dao-heart Seed can only be considered the actions of a coward, a waste who cannot understand the pride of a genius. I will now let you all see, what a true genius is!"

Long Chen's words were extremely arrogant, but he had the ability to do so. At this moment, in front of the dumbstruck eyes of the audience, Fire Essence Qi poured down from Long Chen's Heaven and Earth Pouch, and very quickly, a huge pile was formed in front of Long Chen. The Fire Essence Qi gathered at an extremely high temperature, instantly raising the temperature of the Demon Palace by a large amount.

That huge pile of Flame Refinement Essence had completely attracted everyone's attention. Anyone with a discerning eye would be able to tell that the Flame Refinement Essence inside was much more refined than what Yang Jun had displayed just now.

Three Great Demons and their disciples had their eyeballs about to pop out of their sockets when they saw the large amount of Flame Refinement Essence present. As for the other elders and protectors, they too had stunned expressions.

"There is a total of one thousand Flame Refinement Essence. If you do not believe me, you can count it. It will definitely not be less than this number." Long Chen looked at the crowd proudly, and said indifferently.

No one responded to his words for a long time, because everyone found it hard to believe.

A thousand.

This number spread crazily amongst the disciples. When Long Chen revealed that he really wanted to come out and was rejected instead, they roughly knew that Long Chen was hopeless. They never expected that Long Chen would suddenly say something like this.

A thousand Fire Essence Refinement Essence made all of the disciples' hearts boil. They crazily rushed forward, wanting to see if it was real or not.

"How could it be a thousand? I don't believe it. I have to see it clearly. Don't push!"

"Squeeze your head!" Look at your sister! "I've already said it earlier, it's a thousand. I saw a thousand just now. It really is a lot. Your sister!"

"One thousand Flame Refinement Essence? Oh my god, this Long Chen is a monster!"

It was like a storm had swept through everyone's hearts!

Even Zhao Qingyun was stunned when she saw the one thousand Fire Essence Extract. The first time, she was able to obtain one thousand Fire Essence Extract at fire generating meridian's trial, and even if it was a disciple of eighth level of the Milky Way Realm, it would not be easy to reach this number!

Looking at the others, all of their faces were filled with disbelief, especially Three Great Demons, who had an expression that seemed as if a pile of shit was stuck onto it, Zhao Qingyun felt really good in her

heart. Long Chen had given him a huge amount of face, and Zhao Qingyun felt that deciding to take Long Chen as his disciple back then was the right decision!

"That's right, Long Chen obtained a Fire Essence Refinement, one thousand of them, which is even stronger than Yang Jun's Fire Essence Refinement. I believe that everyone is very clear on the first level's Dao Heart demon, and who exactly does it belong to, he is my direct disciple, Long Chen!" Zhao Qingyun announced with a loud laugh.

From his voice, even the most ordinary disciple could hear the smug look on his face.

Hearing this, Long Chen laughed in his heart, and immediately kept the Fire Essence. These things were the Little Wolf's treasures, it was better to keep them as soon as possible.

's declaration of the news nearly made him collapse. With an expression of disbelief, he looked at Long Chen, his heart tearing and his lungs splitting, and said: "Impossible! Asgard Mistress, Long Chen must have used a shameful method to obtain this much Flame Refinement Essence! This Great Mantra of Dao-heart Seed cannot be given to an outsider that has come from nowhere! "

"Shut up!" With a loud boom, Zhao Qingyun let out a loud shout, causing him to cough out blood and kneel on the ground. The others felt as if they were struck by a heavy hammer, and their bodies felt uncomfortable!

At this time, Zhao Qingyun coldly looked at Yang Jun and said: "Brat, I will not look into your matters with you, but Long Chen relied on his own abilities and obtained more Flame Refinement Essence than you, yet you still dare to cause trouble? Today is just a small punishment, you have to remember one thing, Long Chen is my direct disciple, although it's late, he is definitely not an outsider! Do you all remember it well? "

Zhao Qingyun was normally very calm, and did not expect there to be such a side to him. Everyone was frightened by him, and felt extremely upset, and naturally did not dare to say a word, but they remembered, they definitely could not think of Long Chen as an outsider.

Even if it was Three Great Demons, they could only swallow their anger at this moment. There were only four people targeted at Zhao Qingyun's explosive shout just now, since Yang Jun's strength was not strong enough, causing him to fly back while spitting blood, and the three of them suffered different degrees of injuries.

Outsiders.

Long Chen etched Zhao Qingyun's words into his heart. Anyone who treated him as an absolute member of their own clan, Long Chen would treat them very well, and would act like Dongfang Xuanxiao.

"Long Chen has obtained the first level of Great Mantra of Dao-heart Seed, does anyone have any questions?" Zhao Qingyun asked again with a cold voice.

No one answered.

After all, Yang Jun was still lying in Yang Danfeng's embrace, with a mouthful of blood on the verge of fainting.

Zhao Qingyun nodded her head in satisfaction, then said: "Since that's the case, then let's decide on the ownership of the second level of the Great Mantra of Dao-heart Seed now. Murong Yu, and also Yang Danfeng, both of you take out your own Fire Essence, and a number!"

Under Zhao Qingyun's gaze, Yang Danfeng and Murong Yu looked at each other, then stood in front of him.

Long Chen looked at them curiously. After all, after obtaining the Ice Soul, they had been looking for Flame Refinement Essence for a whole day. Therefore, Long Chen did not know how many Flame Refinement Essences they had.

## Chapter 376 - Dao Heart Seed Demon Level 2

The competition for the Great Mantra of Dao-heart Seed in the first level had already ignited a climax, but what the crowd was more looking forward to was actually the second level of the Great Mantra of Dao-heart Seed.

After all, Yang Danfeng and his strength had always been on par with each other, and had only temporarily been placed first in the rankings back then. Actually, there was basically no difference between first and second place in the eyes of the masses.

Therefore, between the two of them, who would win?

Basically, whoever could obtain the Great Mantra of Dao-heart Seed of the second level would take another step forward in their future cultivation, leaving another person behind and becoming the true number one of the young generation in Demonic Palace.

Under the watchful eyes of the masses, Yang Danfeng and Murong Yu placed the Fire Refinement Essence on the ground one by one. Each and every one of the Fire Refinement Essence fell from their Cosmos Sacks, and not long after, a small pile of them appeared in front of them. This number naturally did not surpass Long Chen's, but the two of them were still competing. Time slowly passed. Finally, the fire refining essence of the two of them had been fully released. However, the others were amazed that the fire refining essence in front of them was almost the same. It was hard to tell how much fire refining essence there was with the naked eye.

"The Flame Refinement Essence I obtained amounted to 652 pills. However, in my Cosmic Bag, there are another hundred divine refining crystal that are equivalent to a Flame Essence." Yang Danfeng said indifferently.

"I have a total of 687 Flame Refinement Essence. Of course, I also have divine refining crystal in my Cosmic Bag." Murong Yu followed. Until now, she had more than Yang Danfeng with 35 Fire Essence Refinement Pills. However, the number of divine refining crystal was the most important, so she was not confident of her abilities.

At first, when everyone saw that they did not have as much Flame Refinement Essence as Long Chen, their admiration for Long Chen had increased by a few points, but if they still had divine refining crystal, then Long Chen's result seemed to be average.

"Chen Qing, Liu Xiyang, I want you two to tell me their fire refining skills." Zhao Qingyun instructed, because their results were about the same, and the slightest differences would very likely affect the outcome, so Zhao Qingyun did not dare to act recklessly, and casually picked two elders, and had them go count the amount of Flame Refinement Essence.

After a while, the results were out, Yang Danfeng and Murong Yu did not make any false claims.

"Since that's the case, then show us your divine refining crystal. Let us see what our two most talented disciples will achieve in the end. Zhao Qingyun laughed. He recalled that before she entered the fire generating meridian, Long Chen asked him to give the Fire Refinement Essence to as long as the number of Fire Refinement Essence surpassed that of Yang Danfeng and Murong Yu.

Therefore, he was really looking forward to see, if the two of them combined their divine refining crystals less than a thousand, Long Chen would have won big this time.

However, at this time, Three Great Demons's eyes revealed rare confidence.

The first level's Dao-heart type demons, the second level's Dao-heart type demons, and there were also Ice Souls. These were the three gifts that the Three Great Demons had arranged for his disciples. Of the three things, two had already belonged to Long Chen, and the other one was the only thing that the Three Great Demons was confident in.

At this time, under the anticipation of the masses, Yang Danfeng and Murong Yu took out their own divine refining crystal. Everyone looked over.

"Let me see, in Murong Yu's hands, not bad, five divine refining crystal! And in Yang Danfeng's hands, there were six of them! That's right, there are six of them!" Zhao Qingyun was a little surprised. Six divine refining crystals, was already not bad. If they only had three divine refining crystals, then Long Chen would be the biggest winner. Unfortunately, their divine refining crystals could actually reach five or even six, which meant that Long Chen was completely hopeless.

At this time, when Yang Danfeng took out the divine refining crystal, everyone knew that the second layer of the Heart Seed Demon would be taken by Yang Danfeng. However, in the hearts of some male disciples, they were more willing to let Murong Yu win than them. After all, Murong Yu had a good personality and she was a great beauty, in the hearts of the male disciples, she was definitely a sexy goddess. Compared to Yang Danfeng, she was much more popular.

Murong Yu bit her lips lightly. She had previously told Three Great Demons about the amount of Flame Refinement Essence, but Three Great Demons did not say anything about Yang Danfeng's results. Now that it was revealed, she realised that she had indeed lost.

"Since that's the case, I shall announce the location of the second stage of the Great Mantra of Dao-heart Seed." At this time, Zhao Qingyun said.

Everyone had already come to a conclusion.

"Hold on." Right at this moment, a voice interrupted Zhao Qingyun's words. Everyone looked over and realized it was Long Chen, who had taken the spotlight earlier, and was then suppressed by Murong Yu and Yang Danfeng. Everyone was puzzled, what exactly did Long Chen want to do?

"Long Chen, do you have anything else to say?" Zhao Qingyun was a little surprised. In fact, in his heart, she was already surprised by Long Chen's thousand fire refining essence.

"Master, there are still the three moxibustion s. Before I entered the fire generating meridian, I asked them before, if the amount of Flame Refinement Essence I received surpassed that of Murong Yu and Yang Danfeng, then I would be able to obtain the second level of the Great Mantra of Dao-heart Seed. Long Chen raised his head, and the corner of his mouth raised into a faint smile.

At that time, everyone present could testify to that. But Long Chen, you only have a thousand Fire Essence Extract, and the total amount of divine refining crystal and Fire Essence Extract that they obtained was over one thousand. That's why I can't give you the second stage of the Great Mantra of Dao-heart Seed. " Zhao Qingyun had some suspicions in her heart, he herself naturally wanted to help Long Chen, but in front of everyone's eyes, he could not show favouritism.

Three Great Demons chuckled, his eyes showing a look of disdain, and said in a high-pitched voice: "And you call yourself a genius, such a simple math question, you're actually not clear about it?"

In everyone's hearts, they did not know what Long Chen meant by that.

Long Chen simply stood up, looked around, and said: "Everyone, in the first round, when palace master told us to display the amount of Flame Refinement Essence, I immediately took out a Flame Refinement Essence, but I did not tell you that I do not have a divine refining crystal! They have divine refining crystal, so why can't I get a thousand fire essence refiners?!"

Long Chen's voice was very loud and instantly shook everyone. At this moment, everyone had a hard time thinking, could it be that the divine refining crystal that Long Chen had obtained all added up together actually surpassed Yang Danfeng?

Yang Danfeng, who was originally after defeating Murong Yu, instantly froze. His widened eyes, as he looked at Long Chen's palm in disbelief!

Just at this moment, Long Chen took out all of the divine refining crystal, and put a total of ten black divine refining crystal on his palm. When they saw the ten divine refining crystal, it was as if they were struck by an iron hammer in their hearts.

"In the fire generating meridian's training, I, Long Chen, obtained a total of 1,000 Flame Essence, and 10 divine refining crystal, equal to a total of 2,000. I have to ask everyone, with my results, do you think I have any problems with my math?"

No one answered Long Chen's question.

Because, it was already very difficult for them to answer this question, and it was an obvious question. Today, Long Chen had won, and by relying on his absolute advantage, he won very thoroughly. Not only the Ice Soul, even the first or second level of the Great Mantra of Dao-heart Seed had fallen into Long Chen's hands!

To the entire Demonic Palace, this news was a huge shock!

's performance today was simply too heaven-defying. All of the protectors and elders were dumbstruck as they looked at him, while the disciples also rushed to the front in an attempt to see what exactly was happening. In an instant, the area in front of Demon Palace was a complete mess.

At this time, in Zhao Qingyun's heart, other than being shocked, there was of course still a thick sense of pleasant surprise. The face Long Chen had given him this time was just too huge, and Three Great Demons and Yang Danfeng seemed to have received a bolt from the blue! Yang Danfeng could finally understand why the Yang Jun just now couldn't control himself. It was because the grievance, discomfort, and anger in his heart had reached an uncontrollable extent!

The meat that was already in his mouth was dripping with saliva. He was about to taste it when Long Chen suddenly popped up and pulled out his meat to swallow. How could Yang Danfeng, whose stomach was about to die of hunger, maintain his rationality?

Yang Danfeng was about to lose control of himself and attack Long Chen.

Right at this moment, an old man stood in front of him, blocking his way. Yang Danfeng opened his eyes and saw that it was his master, the Great Moxibustion. The Great Moxibustion's eyes looked at Long Chen first, then moved towards Zhao Qingyun.

Their expressions were extremely cold, so much so that it could be said that they were terrifyingly cold, but Long Chen knew that this was like the eve of a storm. If they were to do this, it showed that they were about to arrive in such a terrifying storm!

"Mistress, looks like we don't have anything to do today. Goodbye!" After he finished speaking, the Three Great Demons didn't even turn his head around, and left with the rest of the direct disciples in their sights. From their backs, Long Chen saw gloom and viciousness.

"Looks like the following days aren't going to be easy."

Long Chen suddenly remembered that before he had entered the fire generating meridian, Yang Danfeng had warned him that if he did not let Yang Jun go, he would kill this service disciple.

After Three Great Demons and the rest left, everyone's eyes fell on Zhao Qingyun.

"In that case, I declare the second level of the Heart of Dao's devil seed to be Long Chen's!" Zhao Qingyun was ecstatic.

Chapter 377 - seventh level of the Milky Way Realm

Even Long Chen himself was unable to remember just how great his gains were. The two of you, you and Xiao Lang had basically completed a complete transformation after coming back from fire generating meridian.

When all the Three Great Demons had been angered to leave, everyone looked at Long Chen, the mysterious person, with their mouths agape. It was only when Zhao Qingyun had already announced that they finally recognized the reality.

After the announcement was over, Zhao Qingyun laughed and continued: "Long Chen, in order to celebrate the fact that you have obtained two floors of Great Mantra of Dao-heart Seed, our Demonic Palace will hold a grand banquet.

"No need." Long Chen hurriedly said, "Master, I'm really in a hurry to see the Great Mantra of Dao-heart Seed right now, how would I have the time to set up a banquet?"

Seeing his anxious look, Zhao Qingyun praised him from the bottom of his heart, and said: "Good boy, but you have the heart to improve, as expected of my, Zhao Qingyun's, good disciple, to work so hard, you must be stronger than some of the disciples.

Under Zhao Qingyun's orders, everyone reluctantly left the place. To be honest, Long Chen, whom they all wanted to take a few more glances at, was the one who had almost set a record for Demonic Palace, a youth who was destined to shock the entire Demonic Palace!

"This is the second stage of Great Mantra of Dao-heart Seed. Before this, I have already brought it over. You have already cultivated the Traceless Demon Shadow, so why don't you give it to me." Zhao Qingyun took out two secret manuals that were similar to Traceless Demon Shadow, but neither of them were as thick as the other.

"Thank you, Master!" Long Chen accepted the Great Mantra of Dao-heart Seed's secret scripture, then handed the Traceless Demon Shadow back to Zhao Qingyun with the Cosmos Sack. Then, he said, "Master, if there's nothing else, I'll be going back?"

"En!" Zhao Qingyun smiled and nodded. She was not at ease at all with Long Chen's hard work.

Actually, Long Chen was not anxious to cultivate the Great Mantra of Dao-heart Seed, he was just worried that Yang Danfeng would make a move against Wang Xing and harm this innocent life. Thus, after bidding farewell to Zhao Qingyun, he rushed back to the Greencloud Residence at the fastest speed possible. Fortunately, Wang Xing was fine.

"Brother Chen, you're back from the fire generating meridian?" Seeing that it was Long Chen, Wang Xing was pleasantly surprised. He quickly ran in front of Long Chen.

"Brother Chen, how much Flame Refinement Essence did you get? Fifty, or a hundred?" Wang Xing asked in admiration and anticipation.

"I got 2000 Flame Refinement Essence, do you believe me?" Long Chen laughed.

"Brother Chen, you really know how to joke around!" Wang Xing laughed.

"It doesn't matter if it's just a few Flame Refinement Essence, but I did get the Great Mantra of Dao-heart Seed." Long Chen walked into the room and laughed.

"So powerful, I knew you were stronger than Yang Jun." Wang Xing said with a face full of worship.

"Wang Xing, the Demonic Palace has not been at peace these past few days. You will stay in my room in the Greencloud Residence for these few days, and you will not be going anywhere, so you don't need to do anything. If anyone says anything, you just say that I'm the one who asked you to be like this.

"Huh?" Wang Xing was a little puzzled. As a service disciple, he had to do a lot of things every day.

Only, out of Zhao Qingyun's nine great direct disciples, the other eight disciples had basically not seen Zhao Qingyun at all. Long Chen was the most favored one, and the most powerful one as well.

"I'm doing this for your own good. If there's anything you're not sure about in terms of cultivation, I can answer it for you, but from today on, I will be closed up in this place. You will be staying in this courtyard to cultivate, and if anything special happens, you will loudly shout, do you understand?" To Long Chen, he did not need to place so much importance on Wang Xing's life in the first place. After all, they had merely met by chance.

"Got it!" Wang Xing quickly agreed.

Long Chen nodded, and with a light lift of his feet, he rushed towards the rooftop. This was the place which was the closest to the starlight, and because there was a problem with Wang Xing, he didn't go to the peak of Diremonster Mountain yet.

"Also, I still don't know if those three old fellows will attack me so it's better for me to go less to the peak."

After making this plan, Long Chen prepared to start cultivating. But before that, he had to give all his remaining Flame Refinement Essence and divine refining crystal to Little Wolf.

"Little Wolf, with this much Flame Refinement Essence and divine refining crystal, is it enough for you to reach the Ninth Grade Earth Grade?" Long Chen asked with some anticipation in his heart.

The wolf cub shook his head.

"The Ninth Grade Earth Grade actually requires so many fire-attribute treasures?" Long Chen was a little speechless, as expected, the little wolf was unable to support it. In the fire generating meridian,

countless Flamethrower beast cores, Flame Refinement Essence, as well as Divine Flaming Beast cores had all smashed onto the little wolf but still not allowed him to reach Ninth Grade Earth Grade.

After handing all the Flame Refinement Essence and divine refining crystal to the wolf cub, the wolf cub proudly left. He probably would find a place not too far away and then refine it himself. When the wolf cub walked over, Long Chen had prepared everything for him.

"The harvest this time is really huge. Two stages of Great Mantra of Dao-heart Seed, and there are even Ice Soul. First, I should use this Ice Soul to raise my level. " Long Chen secretly thought.

Thinking about it, Long Chen didn't say anything else. He kept wanting to raise his strength so that he could fight his way back to the Imperial City. So he didn't waste any time.

Thus, he took out the Ice Soul.

The Ice Soul was the core of the ice, it was formed from the rich ice attribute natural energies of heaven and earth. It was the condensed form of the natural energies, upon being absorbed into the body, it would melt and become spirit energy before eventually transforming into true energy. Although the Ice Soul in Long Chen's hands was only the size of a thumb, it was enough for him to make a lot of progress.

Without hesitation, Long Chen placed the Ice Soul into his mouth. In an instant, the Ice Soul turned into an ice-cold liquid and rushed into Long Chen's throat. Long Chen immediately felt the bone-piercing coldness, that was the feeling of being frozen in the ice cellar. The cold came from the inside out. Long Chen only felt that his body, every meridian, and every piece of internal organs had already completely lost all feeling and turned into ice.

"Hurry up and refine it!"

At the moment, Long Chen only had this thought in his mind, all of his improvements couldn't be achieved overnight, it was the same even for Ice Soul. Ice Soul had so much cold Qi, if he did not resist carefully, without enough Innate Qi to refine the Ice Soul, he would easily freeze to death.

"Ha!"

Long Chen exhaled a breath of blue cold air, and his Innate Qi started to surge. The frozen meridians were all shaken to the core, and the shattered ice fragments instantly turned into blue particles of Innate Qi. Then, they were swallowed up by Long Chen's blood red Astral Qi and became one of them.

All of the ice blocks that had frozen Long Chen's body were completely refined into one of Long Chen's true energy. When Long Chen had enough strength to suppress the cold energy of the Ice Soul, he would be able to enjoy the essence of the Ice Soul.

At the beginning, Long Chen's body was covered with a layer of frost, but at this point, the frost on his body started to gradually melt, and was swallowed by Long Chen, turning him into a member of the True Qi.

Time gradually passed by, and more and more Ice Soul's power was assimilated into his own strength by Long Chen, his true qi gradually rose sharply, and after about an entire night had passed, he had already reached a critical point. Long Chen could feel that he had already welcomed an opportunity to break through.

He was about to reach the seventh level of the Milky Way Realm.

This was even a realm he had never before reached and it was even Zhang Yuanteng's dream. From the Sixth Stage of the Milky Way Realm to the seventh level of the Milky Way Realm, it could be said that they had already crossed a huge gap, and from the middle levels of the Milky Way Realm, they had reached a high level.

Huge amounts of Innate Qi surged inside Long Chen's body, almost bursting his meridians. Next, he would need to use his Milky Way Realm to obtain energy from the starlight, using the Tianhe Dan to stabilize his body, and then using his Innate Qi as the foundation, he could condense the seventh pair of galaxies in his body.

The last time he had obtained the Tianhe Dan from the Da He family's Song Zhongcheng, it had allowed Long Chen to at least reach the eighth level of the Milky Way Realm realm. Therefore, Long Chen was currently not worried about the Tianhe Dan. He had enough Tianhe Dan in his Qiankun bag, and with his current identity, would definitely give him a lot of things like Tianhe Dan as long as he opened his mouth.

A ray of resplendent starlight poured down from the starry river and descended onto Long Chen's body, enveloping him within a dreamlike starlight. The Tianhe Dan that had already been consumed moved by the starlight as ripples appeared on Long Chen's body.

Long Chen was carefully condensing the seventh pair of stars in his body.

Time slowly passed, and the conditions were enough, thus Long Chen's promotion to the next level was completed in a very short period of time. Not long after consuming the Tianhe Dan, the starlight on Long Chen's body dimmed, and when the starlight completely disappeared, Long Chen opened his eyes, which were filled with bright light, and like a sword, two rays of light erupted from his eyes, shooting towards the sky!

In the dark night, this streak of starlight was extremely attractive.

At this time, Long Chen had already closed his eyes once again, and started to train quietly, because he felt that he had only used about half of the Ice Soul's power, and that nearly half of the Ice Soul was still waiting to be refined by Long Chen.

"This isn't the smell of the Ice Soul?" Zhao Qingyun was very surprised. A Ice Soul had indeed appeared in the fire generating meridian, but she did not expect Long Chen to find another one.

### Chapter 378 - Three Devils City

Long Chen did not tell him about the Ice Soul, so he only thought that Long Chen had found a mysterious place in the fire generating meridian. Zhao Qingyun guessed that the reason why Long Chen was able to obtain so much Flame Refinement Essence was probably not because of his own abilities. It was possible that he was among it all because the strength that Xiao Lang had now was already around the same level as Yang Danfeng and Murong Yu.

"This little guy's luck is really not just normal, it is possible that the location of the Demon Emperor Sword really belongs to him. Demon Emperor Sword and Emperor Sword are two great heaven stage divine weapons of Canyang Kingdom, and even I am not clear about their background, so it is likely not as simple as being a primary level Heaven Stage."

Zhao Qingyun nodded in satisfaction, then disappeared into the darkness. Long Chen continued to absorb the Ice Soul's power and increase his own Innate Qi. After another day, the Ice Soul had finally absorbed all of it.

"What a pity, just a little more and I would have been able to enter the eighth level of the Milky Way Realm. As expected of a treasure that can allow the eighth level of the Milky Way Realm to reach the ninth level of the Milky Way Realm."

Long Chen stood up with some emotion, then checked the condition of his own body, and said: "Right now, I am only a thin line away from the eighth level of the Milky Way Realm. Originally, it was agreed that three months would be enough, but I believe that when the agreed time time for the competition to start, I will be able to raise my strength to the level of eighth level of the Milky Way Realm. At that time, I will be invincible in Demonic Palace, and as long as I obtain the Demon Emperor Sword and The way of the Demon Emperor's Sword, I can consider myself Lin Zichen."

Speaking of which, Long Chen was still not willing to leave Ling Xi alone inside Ling Xi's sword. Therefore,, who had created such a situation, hated him to the bones.

The current Long Chen had ample confidence in himself.

Seeing that Long Chen had completely laughed at the power of the Ice Soul, the wolf cub came to his side. Even though the wolf cub had not reached the level of Ninth Grade Earth Grade yet, he was very close to it.

"Little Wolf, good job! In such a short time, all the food was eaten by you?" Long Chen laughed.

Wolf shook his head.

From the time he had left the Burning Sky Secret Realm, his cultivation had advanced, and he had now reached the realm of the eighth level of the Earth Stage. It had only been a few months.

The Devil Emperor of the Burning Heaven once said that the Little Wolf would be the most heaven defying demon beast. Although Long Chen was staying in a small place like the Canyang Kingdom, he was still living in a vast outside world.

In the entire Dragon Sacrifice Continent, there were countless experts. The Canyang Kingdom that Long Chen was in right now was only the lowest ranked country, a small country like the Canyang Kingdom had over ten thousand experts in total, so this corner of the Dragon Sacrifice Continent was called the Realm of Myriad Kingdoms.

Realm of Myriad Kingdoms, Ten Great Saints, just one Canyon Kingdom made Long Chen feel like it was an incomparably deep pool of water, not to mention the other nations, there were even those terrifying Ten Great Saints!

From what Long Chen knew, whether it was Ling Xi or Li Xuanji, neither of them were members of the Realm of Myriad Kingdoms, and instead belonged to an even higher level. Long Chen had already started to have an idea in his heart. If he wanted to marry Ling Xi back home in front of Ling Xi's family openly, who knows if he would be able to do it if he were to work ten times harder in this lifetime?

Ling Xi had never told Long Chen about her family's matters. She was probably afraid that Long Chen would lose the motivation to move forward due to the immense pressure.

"No matter what, this can only mean that the Dragon Sacrifice Continent's stage is too big, but what do I have to be afraid of. The brother next to me, Xiao Lang, will definitely be the most heaven-defying demon beast in the entire Dragon Sacrifice Continent, and I am also an ancestor who has not existed for eternity. No matter how great the Dragon Sacrifice Continent is, it is fated to be the stage for us brothers.

Long Chen's heart was filled with an unfathomable sense of pride!

"Little Wolf, this Great Mantra of Dao-heart Seed is not impossible since you can even cultivate in the last battle skill, divine fire clone. From today onwards, we will study the Great Mantra of Dao-heart Seed together.

After thinking it through, Long Chen's mood became incomparably comfortable.

Flipping open the Great Mantra of Dao-heart Seed, he placed the little wolf on his chest. One man and one wolf, they started to wholeheartedly study the Dao-heart seed.

"Truly worthy of being a better combat skill than the Traceless Demon Shadow, truly extraordinary! Every night, take out the heart of the night, condense a demon seed, and plant it in the meridians of the body. During battle, the demon seed spreads, fusing with one's zhen qi, can double the growth of one's zhen qi!" As for the second layer's Dao-heart type of magic, it can allow one's true energy to increase by one fold, and then by one fold! "

Long Chen's comprehension ability was very strong. According to the instructions in the secret manual, after he read through it, he almost understood everything, and what he needed next was only to practice over and over again, until he succeeded in the end!

Within the Demonic Palace, there was a building not inferior to the Demon Palace, called the Three Devils City, which was where the Three Great Demons normally trained. Because the Three Great Demons had to be protected, it was not far from the Wujing. It was currently night, and all the disciples of Demonic Palace were already immersed in the darkness. Only the lights of the main hall of Three Devils City were still on.

At this time, there were a total of six people, all with solemn expressions, standing within the main hall. Among the six, three of them were seated, and the three who were standing were naturally Three Great Demons, while the one standing was their number one disciple.

In this fire generating meridian's trial, the three great disciples lost to Long Chen alone. At this time, the three great disciples all had their heads lowered, their hearts filled with shame and self-blame, not daring to face Three Great Demons's cold and harsh eyes.

"Actually, your performance this time is not bad. It's just that Long Chen was too much of a surprise to us. If we were you, the outcome should be about the same." The Great Moxibustion sighed and said.

Hearing his words, Yang Danfeng and the others finally heaved a sigh of relief. The Three Great Demons had always been very strict with them. If there was any mishap in half a day, they would be severely punished, which was why they didn't even dare to breathe this time. It was only when the Great Moxibustion didn't pursue the matter that they felt like they had survived a disaster.

That Long Chen, under a situation where his cultivation is not even a tenth of theirs, dared to kill the Ninth Prince in the Imperial City, and even escaped for more than two thousand Li. In the process of escaping, he even killed the Patriarch of one of the three great families of the Imperial City, the Da He family, Song Zhongcheng, which is not something even you, Dan Feng, can do.

"Yes sir!" The three great disciples hurriedly nodded.

Yang Danfeng and Yang Jun naturally had endless hatred for Long Chen, but Murong Yu didn't have the slightest bit of hatred. At this moment, she was only echoing the words of the others, with a cute appearance.

"Big brother! This Long Chen is definitely going to be a huge problem, he already has the complete Formless Demon Shadow and the Dao-heart seed demon, and he even has the Ice Soul. If we let him grow, the Demon Emperor Sword will probably be taken over by him too, and the next Palace Master of the Demonic Palace will probably let Long Chen take over. The Triplex sounded anxious, but his words were laced with killing intent.

"Right, big brother, I also have a bad feeling about this. If this goes on, we will be completely suppressed and our disciples will probably be completely suppressed within the Demonic Palace. This child, is really must be eliminated!" A helpless expression was also revealed on Erythropoda's face.

Must be eliminated?

Hearing that, Murong Yu's body trembled, in her opinion, Long Chen was not really that hateful, he was only using his own strength to snatch what he deserved, that was not a crime.

In the Three Great Demons, even the Erythropoda had said that. The Great moxibustion could only nod his head helplessly and said, "Looks like we can't tolerate this anymore, otherwise, when Demon Emperor Sword falls into the hands of outsiders, the three of us will become the eternal sinner of the Demonic Palace." As the Great moxibustion thought, his eyes gradually radiated a cold light.

"Senior Master, Senior Master, I feel that the three of us have complete confidence in obtaining the Demon Emperor Sword. Last time in the fire generating meridian's trial, it was only because we didn't pay attention to him that he took the chance. Furthermore, if you were to make a move against Long Chen, I think Palace Master would be able to think it through, right? Asgard Master dotes on Long Chen so much right now, I'm afraid," Murong Yu hurriedly explained.

In actuality, the words she said, was for the Three Great Demons's sake, but it also dispelled the thought of them plotting to kill Long Chen.

"Xiao Yu, why didn't we think of what you said? Furthermore, it's not that we're underestimating you, it's just that Long Chen is too abnormal and we cannot afford to take the risk. If we have a foolproof plan, we can choose to eliminate Long Chen silently." The Erythropoda explained.

"Right now, Long Chen is holed up in the Greencloud Restaurant all day long. With Zhao Qingyun guarding by our side, how could we possibly get another chance?!" The Triplex said powerlessly.

"I have an idea." At this time, Yang Danfeng suddenly sneered.

#### Chapter 379 - Deceit

"What methods do you have? Tell me." When Yang Danfeng made a sound, he had already attracted everyone's attention. At this time, the Great moxibustion raised his head, and stared at his proud disciple and asked.

"Actually, we don't need to be anxious. We can directly act against Long Chen, and use a roundabout way instead." Yang Danfeng said with confidence.

"How?" The more impatient Triplex hurriedly asked.

"Everyone, you can actually think of something else. When Asgard Mistress' only daughter returned to the Demonic Palace a few months ago, didn't it cause a huge commotion? At that time, she had already claimed that she was already married and even brought back trash Dongfang Xuanxiao. Their marriage was actually approved by the Mistress herself, but I wonder if you all still remember one person? seventh level of the Milky Way Realm, Elder He Tian! " Yang Danfeng said faintly.

"Elder He Tian? It was that Elder He Tian who liked Xuan Ming for a long time, to the point of obsession, and was only forced to get married and have children because of his disappearance of Xuan Ming afterwards? " Triplex also remembered this person.

"Yes!" It was a major event that everyone knew of. After Xuan Ming returned, in order to prove his sincerity, Elder He Tian had killed his own wife and children, and then pursued Xuan Ming. However, at that time, Xuan Ming had already steeled his heart to follow Dongfang Xuanxiao, so how could he be together with this madman? However, he was discovered by the Asgard Mistress in time, and suffered serious injuries from the attack. The Asgard Mistress had a soft heart, and she let him live. "

"Dan Feng, I roughly understand what you mean. Do you know where He Tian is?" The Great moxibustion's eyes flickered as he asked directly.

Yang Danfeng was interrupted, but he did not seem displeased at all. He nodded and said, "I know He Tian's position, Master should already understand what I want to say. As long as we give him a bit of benefits, and coordinate from the outside, and let him enter the Demonic Palace without any problems, how could he give up this opportunity to kill his love rival? Dongfang Xuanxiao is the foster father of Long Chen. As long as Dongfang Xuanxiao dies, Long Chen will definitely fall into chaos.

"Yes!" The Great Moxibustion nodded his head in approval, and said: "No matter how we do it to Long Chen now, the palace master will suspect us. But if we do it to Dongfang Xuanxiao, as long as he dies, Long Chen's thoughts will definitely be thrown into chaos, and if he is disordered, do we have to be afraid that he will surpass Dan Peak and Xiao Yu, and take away the Demon Emperor Sword? Furthermore, as long as he is in chaos, we will have more chances to kill him! "

At the end, even the Great Moxibustion was slightly agitated.

It could be said that after Yang Danfeng had explained his method, five of the people who had agreed immediately, and only person who did not express their stance was Murong Yu, it could be said that her heart was actually very tangled up. Among the two sides, one of them was teaching her a master that she had achieved her current achievements, while the other was her conscience, her justice, and some inexplicable emotions.

When Yang Danfeng said this idea, Murong Yu knew that it was going to happen. She understood Long Chen, if he was really killed by such a scheme, Long Chen would definitely fall into a crazed state, at that time, he might even give Three Great Demons the chance to strike!

"No, absolutely not, this is unfair to Long Chen! However, my master has raised me for so many years. If I don't listen to her, wouldn't that mean that I have let down the years of cultivation she gave me? Wouldn't I have become that unfilial person? " Murong Yu's heart was already completely filled with panic.

At this time, the Three Great Demons and Yang Danfeng had already made their plans, and Murong Yu was standing there in a daze. At this time, the Erythropoda looked over, and looked at Murong Yu with a kind gaze, and asked: "Xiao Yu, don't just stand there by yourself, just give us your good idea, this time we have met a troublesome fellow, who stole your Great Mantra of Dao-heart Seed's second floor, so you must avenge yourself!"

"Yes, Master, but Little Yu is dull, I really can't think of a good way, you guys can decide." Murong Yu could only say this temporarily.

Erythropoda nodded his head, he did not bother with Murong Yu anymore, but rather looked at Yang Danfeng with praise for his idea and perfect plan. Time slowly passed, and very soon, the time and place, as well as the details, had been arranged.

I believe that with his lunatic personality, he would definitely not miss a good opportunity in front of him. As long as I can negotiate with him properly, three days later, at midnight, I can let him sneak into the Demonic Palace and kill Dongfang Xuanxiao! Dongfang Xuanxiao is definitely together with Xuan Ming. As long as we keep Xuan Ming here and let others know that it was He Tian who did it, who would suspect us? " Yang Danfeng laughed proudly.

"Wonderful, truly wonderful!" The Great Elder looked relaxed as well.

And there was still Yang Danfeng, who would have thought of such a method, if not, he too would be frowning and worrying, and didn't know how to deal with Long Chen.

"Since that's the case, everyone can go back." But at this time, Yang Danfeng suddenly said to the Erythropoda, "Martial Aunt, there is something that this disciple wants to talk about today."

"Dan Feng, if you have something to say, just say it." The more Erythropoda saw of this senior brother's disciple, the more he liked him.

I believe the three of you can see that I have feelings for Xiao Yu since I was young, but she has always been at the same level as me, and as a man, I am not stronger than her, so I have some feelings for her. I did not dare say it in front of her, but today, in front of Master and Martial Uncle, I think Martial Aunt can agree to one of my requests! Yang Danfeng borrowed the momentum from earlier and took another step forward.

"What do you want?" Erythropoda asked with a smile that was not a smile.

However, she could not reveal it in the presence of her elders, so she used a cold and indifferent gaze to warn Yang Danfeng. However, she did not expect Yang Danfeng to actually ignore her, and directly said to Erythropoda: "Junior, my feelings for Xiao Yu, can be seen by the heaven and earth! I believe the three of you have already seen through it, so I want to take this chance today to beg Martial Aunt, if I can obtain Demon Emperor Swords that surpass Junior Sister Xiao Yu in strength, would she marry Junior Sister Xiao Yu to me? In that case, I will have the strength to protect Junior Sister Xiao Yu! "

At this time, the Erythropoda was the first to finish laughing, and he said: "Dan Feng, we had originally thought of you and Xiao Yu as a couple, and you guys are no longer young, so you should have reached the age of marriage. You're right, a man does need to be a bit stronger than his woman in order for him to have face, so if you agree to your request, I will give Xiao Yu to you!"

"Thank you, Martial Aunt!" Yang Danfeng immediately revealed an expression of great joy.

"Master!" Murong Yu did not give Yang Danfeng any face, and she immediately said anxiously: "A marriage event, how can you be so hasty, I ..."

"Xiao Yu, don't say anymore. You're blissfully blessed." The Great Moxibustion in the middle interrupted her and laughed, "Among the young generation of Canyang Kingdom, the only ones who have surpassed you are Pill Peak and Lin Zichen. If you don't marry Pill Peak, will you still be able to marry Lin Zichen? You are so young, yet you have achieved such an extraordinary feat, yet you have a man who is about to overshadow you in terms of cultivation, who has loved you for twenty years every day, what is there to say, today your Senior Master is going to avenge Dan Feng. If he obtains the Demon Emperor Sword, then you will marry him, or else we will snatch the marriage! "

"Thank you, Master!" Yang Danfeng hurriedly said.

To the Three Great Demons, this was something that they had planned for, and it was Yang Danfeng who had spoken out loud today.

As for Murong Yu's reaction, it was also within their expectations. After all, every girl would be confused and suspicious before they get married, which was normal for Three Great Demons. They would get used to it after they got into bed.

"Well, that's settled. Go on and disperse. " The haze in the Great Moxibustion's heart was swept away.

After returning to his residence, Murong Yu had been thinking about two things from today onwards. The first, was to kill Long Chen's foster father, Dongfang Xuanxiao, and the second, if he let Yang Danfeng obtain the Demon Emperor Sword, then he would marry him and live a miserable life.

Originally, Murong Yu was not that determined, but the second matter made her feel too much resistance. She sat in front of the window and looked out with confusion. Her beautiful face was hidden behind the black veil.

"Murong Yu, what should we do?"

Dao-heart type demon.

Three days later, Long Chen and the little wolf had both made a certain degree of progress. With Ling Xi as a translator, basically all three of them had come together to study the secret manual, and after talking to each other, the Great Mantra of Dao-heart Seed actually became extremely simple.

"Brother Chen, you have to thank me properly. If it weren't for me, you wouldn't even know what the wolf cub was thinking!" Ling Xi said somewhat complacently.

"Thank you my ass. By the way, Xiao Xi, do you know any way to allow me to communicate with the wolf cub directly?" This was a very troubling matter for Long Chen.

"This?" Ling Xi tilted her head and said: "You won't be able to learn this method for the time being, but I remember that there is a secret method. If beasts have enough intelligence to cultivate, they can even emit human sounds.

"Isn't that nonsense?" Long Chen was a little speechless. He turned to look at Wang Xing, who was quietly cultivating below him, and said: "It is indeed much safer for Wang Xing to stay here.

#### Chapter 380 - Bloodsea Saber

Long Chen felt that with Yang Danfeng's personality and Three Great Demons's back when he left the Demon Palace, that kind of expression would definitely not let Long Chen cultivate comfortably, which was why he hid Wang Xing.

"Just like this, raise my cultivation realm during the day and cultivate the Great Mantra of Dao-heart Seed at night. With my current speed, I should be able to complete the second level of the Great Mantra of Dao-heart Seed before the competition for the Demon Emperor Sword. At the same time, reach the eighth level of the Milky Way Realm realm."

Long Chen was confident about all of these.

It was almost dark again. Long Chen and the little wolf Ling Xi gathered together and started to cultivate the Great Mantra of Dao-heart Seed. Time slowly passed and soon, it would be midnight.

At this time, Wang Xing had already cultivated to the point of falling asleep.

Suddenly, Long Chen's ears moved, and within a short period of time, he instantly opened his eyes. A ray of black light shot towards the courtyard entrance, and with a creak, the door was opened, Long Chen focused and saw that the person standing at the entrance was the graceful Murong Yu, she was still using a black veil to cover her face, and only revealed a pair of intelligent eyes to look at Long Chen. From her gaze, Long Chen saw that one side was filled with pain, while the other side was filled with determination.

"What are you doing here?" Long Chen asked softly. He treated Murong Yu as a true friend, so he did not have any ill intentions.

"I just came to tell you something," Murong Yu said as he lifted his head. "Long Chen, it seems that you haven't seen your foster father for quite a few days, right?"

After saying that, Murong Yu immediately left in a flash. She left very quickly and in a flash, she disappeared into the night.

"Foster father?" Long Chen's gaze instantly turned ice-cold. He was not an idiot, he knew that Murong Yu was just here to give him a signal. Only then did Long Chen realize that he had been negligent, and was just concerned with protecting Wang Xing, but he had forgotten about Dongfang Xuanxiao. He subconsciously thought that Dongfang Xuanxiao was Zhao Qingyun's son-in-law, and the other party shouldn't have dared to make a move against him.

Long Chen was furious, but he did not panic, because he knew that Murong Yu was his friend. Since she had come to remind him, he had to give Long Chen some time to go from here to Dongfang Xuanxiao, so he did not hesitate as he rushed to the center of the courtyard to wake Wang Xing up. He roared, "Wang Xing, I'm giving you a mission, no matter where my master is, you have to find him for me.

After he finished speaking, regardless of whether Wang Xing was awake or not, Long Chen directly roared at the wolf cub, and like an arrow, he shot out! The wolf cub's running speed was much faster than Long Chen's, so not long after, the wolf cub had already surpassed Long Chen and Long Chen coincidentally sat on his back at this time. The man and the wolf had completely transformed into a black shadow, rushing towards the direction of Dongfang Xuanxiao's residence.

In the process of advancing, Long Chen's eyes gradually turned red. After two months, his murderous intent was once again stimulated!

Long Chen could endure anything, but he could not bear it. Other people could not win against him, and then, he would think of some other devious idea to make a move on his loved ones.

And now, Dongfang Xuanxiao was Long Chen's reverse scale. Even though he was not his real father, Dongfang Xuanxiao had given him a lot of things, and it could be said that without Dongfang Xuanxiao's care back then, Dongfang Xuanxiao would not be where he is today!

The killing intent slowly drowned Long Chen's will!

"Yang Danfeng, Three Great Demons, this time, you will definitely not escape!"

Within the little bamboo garden, there were still bits and pieces of light scattered about.

This piece of land was filled with green bamboo, which was Xuan Ming's favorite bamboo. Thus, Zhao Qingyun created an elegant residence for her in the middle of the bamboo forest, named Little Bamboo Garden. After coming to Demonic Palace, Long Chen stayed at Little Bamboo Garden for a longer period of time than the time he spent at the Cyan Cloud Residence.

She, who was pregnant, needed more rest. Furthermore, ever since Dongfang Xuanxiao and Xuan Ming had returned to the Demonic Palace, they had not cultivated much anymore, they had already pulled down too much, and would not be able to repair it even if they wanted to. Furthermore, Demonic Palace was a place that could cultivate the mind and nurture the soul. Being able to stay together like this until the end of life was much more important.

Of course, this was on the premise that no one dared to disturb them.

Dongfang Xuanxiao gave Xuan Ming a light kiss on the forehead before straightening his body. He then walked to the center of the courtyard and looked at the brilliant stars in the sky.

"In my youth, there were some boundless ambitions. I wanted to conquer this stretch of the Stellar River, but now, I only want to be happy for life with Ming Er just like this. Xuan Xiao, oh Xuan Xiao, you're really old!"

When he thought about Xuan Ming, he laughed again and said in his heart: "Ming Er likes this type of life, then I like it too, my whole life being able to be like this, is actually enough. Only after twenty years can I cultivate successfully, how hard is this going to be, like Chen Er, who knows how long I have to work together with Miss Ling Xi before I can live like this."

In Dongfang Xuanxiao's opinion, the current him was much more blissful than Long Chen.

What Dongfang Xuanxiao couldn't see was, at a distance of less than three hundred metres, there were two people approaching him. One of them was naturally Yang Danfeng, and the other was a middle-aged man with a disheveled face. His upper body was naked, and his entire body was covered with scars.

"Yang Danfeng, thank you for this opportunity. The Tianhe Dan that you promised, can you give it to me now?" He Tian turned his head, and said with a hoarse voice.

"As long as you can complete it, I, Yang Danfeng, will naturally keep my word." Yang Danfeng was too lazy to scheme with him, he directly threw a Qiankun bag at He Tian and said: "Next, two hundred thousand Tianhe Dan, is enough for you to reach eighth level of the Milky Way Realm. You better remember this, if you kill Dongfang Xuanxiao and let Xuan Ming see your appearance, you can escape as far as you can. If you get chased to death by Zhao Qingyun, you can't blame me! "

"I understand, there's no need for you to say so much!" He Tian checked the Qiankun bag in his hands and discovered that there were indeed two hundred thousand Tianhe Dan s inside. He put it away in satisfaction, and then took out a blood-red blade from his Qiankun bag.

"Truly a piece of trash. You want to take out your high-rank earth class's blade when dealing with a mere First level of the Milky Way Realm?" Yang Danfeng looked at it and said disdainfully.

"Yang Danfeng, you don't know, when I, He Tian, kill someone, I always use the Blood Sea Saber to cut them into pieces, especially when it comes to dealing with Dongfang Xuanxiao, I actually went against the woman I wanted. He Tian said sinisterly.

"Alright, hurry up and make your move, it's best if you hurry up!" "Don't give me any time to waste, you'll be the one to die!" Yang Danfeng said coldly.

He Tian looked at him coldly and curled his lips. Then, like a whirlwind, he surged towards the Little Bamboo Garden. Wherever he went, the green bamboos were chopped in half.

He was originally immersed in happiness, but suddenly, such a change happened. Dongfang Xuanxiao turned pale with fright, he immediately shouted: "Ming Er, run!"

In that moment of danger, the first thing he thought of was Zhao Xuan Ming who was already pregnant!

Dongfang Xuanxiao had at least reached the Milky Way Realm, and this shout directly woke Zhao Xuan Ming up. However, her first reaction was not to flee, but to quickly arrive at this side. Her expression was panicked, and his face was pale, but her eyes were filled with determination.

Dongfang Xuanxiao knew she would do this. He helplessly sighed, then stood in front of Zhao Xuan Ming and watched the person who walked out from the bamboo forest with her.

His figure was majestic, his upper body bare, wearing a pair of tattered pants, his hair was disheveled and his face unkempt. He held a blood red battle blade on his shoulder, and with sinister eyes, he walked towards Xuan Xiao and Xuan Xiao.

"Two happy mandarins, I wonder if you still remember me?" He Tian laughed sinisterly as he walked.

"He Tian!" Even if it turned to dust, Xuan Ming would still remember him, because when he was young, this fellow had crazily chased after her. When he came back later on, he directly killed his own wife and children in an attempt to obtain Xuan Ming's heart, but how could Xuan Ming like this madman? Therefore, He Tian was directly expelled out of Demonic Palace.

Zhao Xuan Ming never thought that he would actually come back here today. Back then, Zhao Qingyun had mercifully let him off.

"He Tian, my father let you off that time, but you still dared to come to the Demonic Palace. What do you mean by holding the blade? Xuan Ming asked anxiously.

"What a joke, what is gratitude? If he doesn't kill me, then he's an idiot. He Tian laughed.

, I have truly treated you well for so many years, but you, on the other hand, ended up with a good-for-nothing pretty boy. This won't do, how can a figure that I know of, be defeated by a piece of trash? Today, I will take his life. If you are afraid of blood, then don't look. After I kill him, I will reward you well. You're pregnant too, this trash's seed is probably trash too, trash aren't even qualified to stay in this world. Ming Er, what do you think I should do to kill this trash's child, and not harm you, haha. "

Dongfang Xuanxiao inhaled a breath of cold air.

His opponent was seventh level of the Milky Way Realm, and he only had First level of the Milky Way Realm. With just a single move from He Tian, he could have easily killed He Tian.
