

War God 421

Chapter 421 - Heaven Rank Demonic Beasts

Long Chen had seen the power of the Mighty Heavenly Sword Prison. Using a sword as a prison was indeed a very powerful sword move. However, Long Chen did not expect that such a simple sword skill, would actually be a battle skill from the Heaven Stage High Rank!

"Heaven Punishing Sword Formation? "Tell me in detail." Hearing that name, Long Chen immediately knew that it was not ordinary, and immediately asked excitedly.

"The Mighty Heavenly Sword Prison mainly consists of the word 'prison'. As for the Heaven Punishing Sword Formation, it consists of the word 'array'. Using the sword as the array, it forms the sword formation. If you can use it, it will definitely be much more powerful than the power of Devil Dao Supreme Sword. " Ling Xi said seriously.

"Sword formation?" could roughly imagine the scene, with the sword as the array, trapping the person within, and then with the combined power of tens of thousands of swords, killing them all, no matter how strong the experts were, they would all die under the Heaven Punishing Sword Formation. Long Chen had a premonition, that if he could really learn the Heaven Punishing Sword Formation, then it would become a killing move that would last him for a very long time!

"Brother Chen, I still have a clear impression of my cultivation of the Heaven Punishing Sword Formation. You are naturally talented, and with my guidance, you should be able to learn the Heaven Punishing Sword Formation. From today onwards, are we going to drop our cultivation of true energy to learn the Heaven Punishing Sword Formation?" Ling Xi asked.

"No, half of the training time for the Heaven Punishing Sword Formation and Zhen Qi are for each of us. I cannot slack off in the slightest, this time, I must kill the Sword Emperor in front of everyone!" Long Chen had a hundred thousand feet of pride in his heart. After having the Heaven Punishing Sword Formation, his confidence grew even greater.

Ling Xi also did not know whether she should give this Heaven Punishing Sword Formation to Long Chen or not. She had only seen Long Chen frown deeply, and did not want to bear it in her heart. After she said it, she actually regretted it a little, because she knew that after cultivating the Heaven Punishing Sword Formation, Long Chen would definitely work even harder to fight the Sword Emperor for the sake of that Nine Celestial Spirit Fruit.

The thing that Ling Xi had longed for the most in the past, was that when she had fallen deeply in love with Long Chen, that thing had actually caused her to feel fear. Every time she had wanted to say it out loud, Long Chen's blazing gaze made her forcefully retract her words.

As Ling Xi slowly explained, Long Chen gradually understood that the Heaven Punishing Sword Formation was a move, rather than saying it was a move, it was more accurate to say that it was a combination of countless tiny moves, which was why it was formed with tens of thousands of moves.

This was the power of a sword formation. Although it was just Heaven Stage High Rank, when unleashed, its might was even greater than the battle skills of Heaven Stage High Rank. The more in contact with the Heaven Punishing Sword Formation, the more Long Chen was shocked in his heart! This was the first time Ling Xi had ever carefully decided to give him something that was so much stronger than the Spirit Devil Sword Finger and the afterimage sword.

To Long Chen, this was a heavenly huge opportunity, so he spent all his attention and concentration on researching and demonstrating the Heaven Punishing Sword Formation. With his talent, it was only his first time encountering help from the Heaven Punishing Sword Formation. If not for Ling Xi explaining in detail by the side and even demonstrating it for her, even if he obtained a copy of the Heaven Punishing Sword Formation's secret scripture, Long Chen might not have been able to successfully cultivate it.

With Ling Xi's help, Long Chen gradually began to walk the path forward, and every day, she would improve. With Ling Xi's help, Long Chen gradually walked the path forward, and every day, she would progress slowly, and every little bit of progress could be piled up into a pile that couldn't be underestimated.

Of course, if not for Ling Xi's guidance, even if he had spent ten months, it would have been difficult for him to cultivate successfully. Whether it was cultivating her true qi or cultivating her combat skills, Long Chen could feel that his talent was not as strong as she had imagined. His cultivation path was not as smooth as she had imagined it to be, and everyone was struggling within the rules.

Fortunately, for some reason, his luck had always been better than everyone else's.

"Evil Slaughtering Myriad Swords, Righteous Bestowal of the Heavens and Earth! The clouds in the nine heavens move, and the sky shine brightly! "

On this day, Long Chen was standing on top of the river, his feet were less than 10 cm away from the river surface, and the True Qi in him was surging non-stop, supporting his body up, causing Waves to spread out in all directions.

Using his finger as a sword, Long Chen closed his eyes and gently drew out a mysterious pattern. Streams of light lines started to appear in front of his eyes, gradually turning into countless profound runes, and these runes erupted with a sharp light, gradually forming a formation in front of him, revolving under Long Chen's control.

"Break!"

A tall locust tree not far from them had actually completely disappeared without a trace. If there was anyone else here and they saw such a scene, they would have thought that they had seen a ghost. How could such a large locust tree suddenly disappear like this?

However, as long as they got close to the locust tree, they would be able to see some clues. At this moment, there was a small powder floating in the air. The powder was gradually dispersing and covering the ground with a thin layer.

If one looked closely, they could see that these powders were basically of a normal size. They looked simple and flat, impressive. The only strange thing was that some of the powders were brown while others were green.

"Brown is the trunk, green is the leaf. "Success." Long Chen walked onto the grass. He had used the Heaven Punishing Sword Formation just now, but of course, he had only used it slightly. And it was only against a locust tree that he was able to produce such a shocking effect. However, from this small scale Heaven Punishing Sword Formation, it could be seen just how terrifying of a power that large scale Heaven Punishing Sword Formation was.

"Brother Chen, you are really smart!" Back then, when he was learning Heaven Punishing Sword Formation, she had also taught them before, but she had spent even longer time on it than Long Chen. Long Chen was born in a small place like Canyang Kingdom, yet he had such a gift, which was already considered very, very rare.

Just as Long Chen was about to proudly say a few words, he suddenly felt the ground shake a little, causing him to swallow his words and concentrate on listening. It was at this time that the sleeping Little Wolf woke up, and looked towards the north with a heavy expression.

"Something's wrong. Come, let's go take a look." Long Chen decided on a direction, and then brought Ling Xi and the little wolf to fly in that direction. In the process of rushing, Ling Xi directly entered into Long Chen's ear with his sword, while the little wolf recovered its body from the battle. Only by doing this could he be faster, even faster than the current Long Chen.

"The aura of a demonic beast, and it's very strong?" This came as a great shock to Long Chen. At this time, not only did he feel it, Ling Xi and the little wolf also felt it. In the depths of Snow Peak Mountain Range, there was the faint sound of a demon beast's roar.

"How can there be such a strong demon beast in the Snow Peak Mountain Range? The Dark Moon Tiger from before, was much stronger than the other beasts in Snow Peak Mountain Range, so it shouldn't be the original Snow Peak Mountain Range's beasts. But now, another one actually appeared? " Long Chen quickly thought in his heart.

At this time, the little wolf also felt that this was definitely the aura of a strong demonic beast. If he met a demonic beast, he would be even more excited than Long Chen. The bones of the Sun Devouring Demonic Wolf were filled with warlike factors. The previous Sword Demons and Lin Zichen had all been snatched away by Long Chen, causing the little wolf to feel extremely depressed.

Therefore, this time, the wolf cub's fighting spirit was surging!

One man and one wolf, they both rapidly dashed towards the direction of the demon beast. The closer they got, the more intense Long Chen felt.

The closer he got, the more his heart palpitated from the deafening roars. When he was about a mile away from the beast, all that remained in Long Chen's ears was a rumbling, furious roar. He could tell that this beast should be a tiger-type beast, and it was most likely related to that Dark Moon Tiger from before!

When Long Chen was about to use the Spirit Devouring Demon Pupil, Ling Xi had already completely understood the situation. She hurriedly said: "Brother Chen, this is a Dark Moon Tiger King, a king level beast rarely seen amongst Dark Moon Tiger, and its strength is at the first level of heaven stage. Don't be afraid, though.

"Dark Moon Tiger King, then is it related to the Dark Moon Tiger from before?" Long Chen hurriedly asked. He had already started to care about the Heaven Ranked Beasts, especially the Heaven Ranked Beasts, who were actually injured! This was a great opportunity!

"There should be a connection, I think that the Dark Moon Tiger from before must be the descendant of this Dark Moon Tiger King, I guess it has been healing itself here for a long time, it just recovered a little

today, and it already has such a high profile, calling out to the heir that ran away, we are the ones who have brought it here!" Ling Xi analyzed.

"Ling Xi, if I team up with Little Wolf, can we get rid of this Dark Moon Tiger King?" It had been a long time since he used the Blood Refinement Qi. Today was a rare opportunity, he had already cultivated the Heaven Punishing Sword Formation, and as long as she reached the ninth level of the Milky Way Realm, he would have the ability to fight against the Sword Emperor!

Ling Xi was stunned, and then she fell silent. She had only been concerned with looking at the Heaven Ranked Spirit Demon Beast earlier, but she had forgotten about this now, and with Long Chen's personality, once he reached the ninth level of the Milky Way Realm, it would be impossible for him not to fight over the Nine Celestial Spirit Fruit. Even if it was for the sake of the little wolf, Long Chen would look for the Sword Emperor for one last time!

"Xiao Xi, can we defeat it?" Long Chen had never seen a Heaven Ranked Beast before, so he asked.

"Brother Chen, can you not kill him? Shall we go back?" Ling Xi suddenly said with a sad face.

"Hmm?" Long Chen was startled and then laughed: "Xiao Xi, you must be joking right? Don't worry, between me and Little Wolf, we are confident in dealing with an injured demon beast. Even if it's a Heaven Stage beast, Little Wolf, what do you say?"

Chapter 422 - Universe Teleportation Formations

Long Chen only thought that Ling Xi was only worried about his safety. After he finished speaking, he brought the little wolf and charged towards the Dark Moon Tiger King with a loud bang. A distance of one kilometer, to Long Chen, was equivalent to a few instants.

Its body was huge, and it was even twice as big as the Dark Moon Tiger from before. Its height almost reached ten meters, and just its claws alone, were already almost as thick as Long Chen's body! This Dark Moon Tiger King looked similar to the Dark Moon Tiger, its entire body was black. The only difference was that on its forehead, there was a blood-red "King" symbol, which made it look majestic, and in its majesty, there was a hint of blood!

The arrival of Long Chen and the little wolf instantly attracted its attention, especially the little wolf. If this was in the past, it would definitely not be afraid of the little wolf, but now was the moment when it had recovered from its heavy injuries, and met Long Chen and the little wolf at this moment. It was also

somewhat nervous in its heart, but as the king of all beasts, not only did it not retreat, it was also enraged to the extreme!

Roar!

The Dark Moon Tiger King gave a threatening howl to Long Chen and his wolf. It was warning Long Chen to leave this place as soon as possible.

"Universe Teleportation Formations!" At this time, Ling Xi, who was in the middle of Ling Xi's sword, suddenly exclaimed out, her voice was filled with shock.

"What?" Long Chen was startled, and asked doubtfully. Following Ling Xi's instructions, Long Chen looked towards the direction behind the Dark Moon Tiger King.

"Look, behind that Dark Moon Tiger King, it's that Universe Teleportation Formations. This is the mysterious formation your master mentioned, and through this Universe Teleportation Formations, you should be able to reach the Holy Martial Empire. I was wondering just now why a Heaven Stage demon beast would appear here, so that's what happened." Ling Xi suddenly realized.

Behind the Dark Moon Tiger King, Long Chen could vaguely see an array formation on the ground. The array formation was very large, with a diameter of about twenty meters, mysterious symbols were flickering inside the array formation, if one did not observe carefully, it would be difficult to discover the array formation.

This was the Universe Teleportation Formations, the mysterious formation that could instantly bring Long Chen to Holy Martial Empire.

"Xiao Xi, tell me, what exactly happened to you?"

"The activation of the Universe Teleportation Formations and its legends requires sufficient power to support it. Ordinary Universe Teleportation Formations, for example, this small scale in front of you, will require the activation of a Tongtian Pill. If you want to go to Holy Martial Empire, you probably need quite a few Tongtian Pill."

had heard Zhao Qingyun say before that there were Tianhe Dan s on the Milky Way Realm, and there was naturally Tongtian Pill s on the Heavenly Completion Stage as well. The cultivation of Heavenly

Completion Stage was actually at the same level of cultivation as Milky Way Realm. However, Heavenly Completion Stage no longer condensed into eighteen sky rivers, but instead formed nine great chakras in the body!

still did not know what exactly the nine main acupoints were, but he did know that to form the nine main acupoints, Tongtian Pill was required to complete them, just like how was required to cultivate himself. Furthermore, compared to Tianhe Dan, Heavenly Completion Stage were countless times more precious.

"Xiao Xi, what you mean is, this Dark Moon Tiger King, together with the previous Dark Moon Tiger, came out from this Universe Teleportation Formations, are they the Holy Martial Empire's demon beasts?" Long Chen was suddenly enlightened.

"It should be, there are no Tongtian Pill on this beast, they probably accidentally broke into the Universe Teleportation Formations, but there is no Tongtian Pill, so the teleportation formation was able to absorb their demonic powers directly, the injuries on this beast's body were mostly healed because the demonic energy was sucked dry by the Universe Teleportation Formations, and they had suffered serious injuries, which is why they are able to recover today. Furthermore, the reason why that Dark Moon Tiger was not injured, should be because it received the Dark Moon Tiger King's protection!" Ling Xi analyzed.

At first, he thought that his luck was too good, whatever he wanted would appear. It turned out that the Goblin Beast was already here, and it was because of that Dark Moon Tiger that Long Chen was able to find it.

But now, during the course of their quick conversation, the Dark Moon Tiger King had actually urged them on, and they hadn't left yet. The dignity of a Heaven Rank beast couldn't be offended, and although the Dark Moon Tiger King was injured, it was truly enraged at this moment. It gave rise to a huge killing intent towards Long Chen and the little wolf.

And after Long Chen understood everything, he became even more determined to kill this Dark Moon Tiger King. Only by doing this would he be able to quickly reach the ninth level of the Milky Way Realm, and then, with extreme strength, create stormy waves in the imperial city!

Looking at the fighting spirit in Long Chen's eyes, Ling Xi had more words in her heart. At this moment, she had no choice but to endure, but she secretly decided that after Long Chen finishes his battle, she would tell Long Chen about what she had been hiding in her heart.

Because right now, she only wanted to be together with Long Chen.

And just at this moment, Long Chen and the Little Wolf looked at each other, and immediately separated, one on the left and one on the right, as they charged towards the furious Dark Moon Tiger King!

Long Chen did not dare to be negligent at all, and in the process of advancing, he quickly completed the Dragonsoul Transformation, and then, he activated his devil seed. Using the Great Mantra of Dao-heart Seed, he increased his true energy to the maximum, and Long Chen, who was originally ignored by the Dark Moon Tiger King, in that short period of time, had actually become an expert who could match up to the little wolf, which also caused the Dark Moon Tiger King to be wary of him. Especially when Long Chen took out the Demon Emperor Sword, the Dark Moon Tiger King began to tremble even more!

It could feel that this was a weapon that could injure it!

"Devouring Blood Realm!" In the very first moment of the siege, Long Chen had used his trump card,! Even when he was facing Lin Zichen, Long Chen had not used his Devouring Blood Realm, it could be seen how much importance he had placed on the Heaven Ranked Dark Moon Tiger King!

Under the Devouring Blood Realm, the blood red fog instantly engulfed the Dark Moon Tiger King and the huge devouring ability made the Dark Moon Tiger King let out a scream of fear. The blood Qi boiling in its body forced it to use its demon power to suppress it, which meant that the amount of demon power it could use would be greatly reduced!

"The way of the Demon Emperor's Sword, The Supreme Sword of the Ancestor Realm!"

After using the Devouring Blood Realm, Long Chen jumped from the mountain wall, like a goose, he instantly appeared above the Dark Moon Tiger King's head, the Demon Emperor Sword in his hands chopped down, and immediately, a destructive black Sword Qi swept towards the Dark Moon Tiger King. Within the valley, sand and rocks flew, and trees were all uprooted by the strong wind, as they were swept away from the mountain wall!

Roar!

The Dark Moon Tiger King roared and slashed its claws down onto Long Chen's The Supreme Sword of the Ancestor Realm with lightning speed. The Dark Moon Tiger King's body was so strong that it surpassed Long Chen's imagination.

However, even if it was just a little bit of blood, it flew towards Long Chen in the middle of the Devouring Blood Realm.

Using the "Traceless Demon Shadow" and the "Traceless Demon Shadow", Long Chen turned into numerous mirages, spinning around the Dark Moon Tiger King and dodging one of its attacks!

"This Heaven Rank Demonic Beast is indeed extraordinary. My full strength can only leave such a useless wound on its body! And this is in the state of injury, if it was at its peak, even I and the wolf cub might not be its match! "

Long Chen was secretly shocked in his heart!

Just at this moment, the wolf cub had passed Long Chen and his Great Mantra of Dao-heart Seed had also reached the second level. His current demonic energy was only half of that of the Dark Moon Tiger King, but at this moment, his body had suddenly collided with the Dark Moon Tiger King's, and the huge impact caused the Dark Moon Tiger King to be pushed back a few steps!

Swoosh! The wolf cub retreated explosively, at this time, the Dark Moon Tiger King was angry, and was about to bite down on the wolf cub. The cub's mouth was large enough to swallow the wolf cub whole, and its sharp teeth could definitely bite the wolf cub into two in an instant!

Suddenly, a surging black flame surged out like a flood towards the Dark Moon Tiger King. To the Dark Moon Tiger King, this black flame was like a surging tide, and it was basically difficult for it to escape. The Dark Moon Tiger King was vigilant, and it had a premonition that this flame was very strong, so at that moment, a black torrent of fire spewed out from its mouth, and collided with the Little Wolf's Nine Hell Devil Ancestral Flame!

Tssss! *

Black smoke rose into the sky, instantly filling Long Chen's field of vision!

All in all, the Dark Moon Tiger King had still underestimated the destructive power of the Nine Serenities Devil Ancestral Fire. Even though it tried its best to dodge, the Little Wolf's Nine Serenities Devil Ancestral Fire still completely submerged the black torrent of energy, the aftermath of the Nine Serenities Devil Ancestral Fire even threw itself onto the Dark Moon Tiger King's shoulder. In an instant, the Dark Moon Tiger King's body was covered in a lot of solid ice.

This time, the wolf cub successfully used the Nether Demon Ancestral Fire to injure the Dark Moon Tiger King!

The few potholes on its body made the Dark Moon Tiger King let out an earth-shattering scream! Soon after, an enormous amount of demonic energy swept out from its body. This time, it was going crazy! The ferocious nature of the wild beast completely exploded at this moment!

Every claw of the Dark Moon Tiger King was filled with power. If Long Chen and the little wolf were to meet him once, they would definitely suffer heavy injuries, so he had temporarily chosen to retreat. At this time, Long Chen was right behind the Dark Moon Tiger King!

Chapter 423 - ninth level of the Milky Way Realm

From their repeated exchanges, Long Chen had gradually understood the Dark Moon Tiger King's strength. Although it was still terrifying in its state of injury, it was not impossible to deal with.

"Haha, Little Wolf, your Nine Hell Devil Ancestral Fire hasn't even killed it yet. Now it's my turn." Long Chen used the Traceless Demon Shadow and suddenly appeared behind the Dark Moon Tiger King. The Demon Emperor Sword in his hand whistled, and in the dozens of consecutive Sword Qi of the Evil Emperor s, he slashed open many white lines on the back of the Dark Moon Tiger King!

Roar!

Although Long Chen's Sword Qi of the Evil Emperor did not injure it, the pain it felt made the Dark Moon Tiger King even more furious. It turned its huge body around and was about to attack Long Chen, the annoying fellow, but at the moment when it was about to attack, behind it, the little wolf started moving again.

This valley was very wide for Long Chen, but for Dark Moon Tiger King, it was extremely narrow, causing its body's agility to decrease greatly. Especially since Long Chen and the little wolf used the form of pincer attack, and most importantly, the Devouring Blood Realm that Long Chen used, placed a huge restriction on the Dark Moon Tiger King.

On its body, currently, there were many wounds. If not for it using its demonic powers to suppress them, it might very well have died at Long Chen's hands.

And at this time, seeing that the Dark Moon Tiger King was about to take care of Long Chen, the wolf cub's eyes flashed with inspiration. He knew that Long Chen was giving it a chance to take care of him, so when the Dark Moon Tiger King just turned around, the wolf cub jumped onto its back.

Just as the little wolf started stepping on its back, it already knew that the situation was not good. It immediately waved its huge tail, wanting to pull the little wolf off its body, but the little wolf was a step too fast, and directly spat out the Nether Demon Ancestral Fire onto its body!

Roar!

A painful howl sounded out, and crackling sounds came out from the Dark Moon Tiger King's body. The black hard ice quickly spread, and at this time, the little wolf saw that the Dark Moon Tiger King's attack was approaching, it immediately jumped up, and fled in the opposite direction! The Dark Moon Tiger King's tail struck empty space!

When the Dark Moon Tiger King lashed out, it carried a world-shaking power. However, it was dodged by the little wolf. As for the wolf cub's Nine Hell Devil Ancestral Fire, it directly created a huge hole on the Dark Moon Tiger King's back. Suddenly, the hole was covered in blood and flesh, and the wound was so deep that the wolf cub was almost buried.

Suddenly losing so much blood and flesh, and even some injuries to its internal organs, the Dark Moon Tiger King was obviously not feeling well. It was already injured, and now that it was injured, the loss of such a large amount of blood made it dizzy, almost causing it to lose its balance.

And right at this moment, in front of it, Long Chen had already rushed forward, under the howling wind, the Demon Emperor Sword suddenly slashed out!

"The way of the Demon Emperor's Sword, Devil Dao Supreme Sword!" In that instant, waves of blade light and sword images surged towards the Dark Moon Tiger King. The move that had killed Lin Zichen previously, was now being used even more perfectly by Long Chen. This vast attack, was like a storm, sweeping towards the Dark Moon Tiger King!

At this time, the Dark Moon Tiger King was still in a daze due to excessive blood loss, so Long Chen's attack had already reached its target. Long Chen and the little wolf's attack had worked together flawlessly, and the Dark Moon Tiger King had not fully recovered from its severe injuries. Under Long Chen's last move, of course it would find it hard to resist.

Rumble rumble rumble!

Under Long Chen's explosive attack, the Devil Dao Supreme Sword directly passed through the Dark Moon Tiger King's claws, and struck its neck. The vast attack directly slashed open its neck, windpipe, blood vessels and other parts, and it was completely cut in half by Long Chen's sword. did not stop at this moment, using the Traceless Demon Shadow, he instantly appeared in front of the Dark Moon Tiger King, and the Demon Emperor Sword in his hands stabbed towards the back of the Dark Moon Tiger King's head until it was completely penetrated!

It was only at this moment that the Dark Moon Tiger King let out a wail and fell to the ground. During the process of its fall, the blood in its body crazily surged towards Long Chen and the huge amount of blood quickly formed a giant ball of blood.

Underneath Long Chen's feet was the shriveled up corpse of the Heaven Rank.

It knew that with the blood of this Dark Moon Tiger King, Long Chen's realm would definitely increase once again, and he would once again reach the same realm as him.

He began to wait quietly.

At this time, Long Chen started to use the Blood Refinement Qi to refine the beast blood. With the Dark Moon Tiger King's body being so huge, the blood on its body was naturally extremely dense, and as Long Chen continued to swallow, the ball of blood around him slowly became smaller and smaller. Time passed by, and before long, all of the beast blood was absorbed by Long Chen.

In the middle, the blood essence was turned into a Dragon Soul Zhen Qi and absorbed into the body, while the dregs were discharged outside the body by Long Chen. Only a portion of the blood essence would appear in ten or even a hundred portions.

Inside Long Chen's body, his Innate Qi was soaring rapidly, all the way until he had enough Innate Qi to condense the ninth pair of the Astral River in his body. At this time, half a day had already passed.

"It's finally time to attack the ninth level of the Milky Way Realm." Long Chen was overjoyed. He took out almost all the Tianhe Dan s in his Heaven and Earth Pouch and began to condense the ninth pair of heavenly rivers. Because he had previous experience and also had enough Innate Qi, the ninth pair of heavenly rivers was not difficult for him at all.

Under the huge supply of Tianhe Dan, the ninth pair of heavenly rivers was quickly formed. Long Chen's aura soared very quickly, and very quickly, the last pair of heavenly rivers in his body was completely formed, and it was exceptionally stable.

At this time, in Long Chen's body, a total of eighteen rivers of crimson red qi formed a perfect cycle, flowing within it. They were almost liquid, looking like the Milky Way in the sky, sparkling and translucent. A soul-stirring light flashed.

After everything was over, Long Chen stood up, opened his arms, closed his eyes and experienced the power within his body.

"ninth level of the Milky Way Realm, it's actually this kind of feeling! This kind of feeling, should be considered perfect." As he felt the flow of energy in his body, Long Chen had a profound feeling in his heart.

"That's not right, the Astral River in my body has indeed reached perfection, but there is still one thing I haven't cleared. Right now, my powers lack a crux, and I lack a center of power, and if there are some centers, then it would be perfect. I presume those centers should be the acupoints for Heavenly Completion Stage."

Long Chen knew that once the dragon fountain, divine pellet, and heavenly river formed another acupoint, the path of cultivation would be complete. Dragon Meridians, Divine Pills, Sky River and Heavenly Completion Stage, these were the four great basic realms of cultivation. The cultivation of these four great realms were all just the beginning of the cultivation, just like how the heaven and earth, profound and yellow level of demon beasts were the lowest among all demon beasts. The stronger opponents existed in an even more distant and vast world.

"Four great foundation realms. I've only managed to complete three of them now, and I don't know when or how long it will take before I'll be able to complete these four realms. Then, I'll take a look and see what realms are beyond the four great foundation realms."

However, when he looked in the direction of the Imperial City, a faint smile appeared on his face.

"With my current ninth level of the Milky Way Realm and my newly-learned Heaven Punishing Sword Formation, I think that I already have the qualifications to obtain that Nine Celestial Spirit Fruit, right?"

Thinking about it till here, Long Chen then collected the Dark Moon Tiger King's demon beasts and beast spirit. He then called for the little wolf, and was already prepared to set off. It had already been two months since the battle with Lin Zichen back then. Long Chen couldn't wait any longer and wanted to find Sword Emperor for a deathmatch!

Long Chen was more or less clear that with his current strength, in addition to using the Dragon Soul Transformation skill and the Great Mantra of Dao-heart Seed, he could definitely raise his Innate Qi to the level of Heavenly Completion Stage. In addition to the many powerful abilities he had, he was completely qualified to fight against the Sword Emperor!

Today, Long Chen had finally grown into the strongest warrior at the peak of Canyang Kingdom.

Of course, this was all thanks to that Dark Moon Tiger King from before. If it had not randomly barged into the Universe Teleportation Formations and arrived at the snowy mountain peaks of the Canyang Kingdom, Long Chen would still need at least another two months to reach her current level.

At this time, although Long Chen looked calm on the outside, it was actually true that a storm was brewing in his heart.

He was about to face the final battle! It also started from White Yang Town, the end of the Canyang Kingdom battle, as long as he got the Nine Celestial Spirit Fruit, Long Chen would have all his wishes. At that time, he would no longer have any pressure in his heart, and he could easily carry Ling Xi by the hand and live a carefree life.

His hard work during this period of time was very stimulating, but it had also caused Long Chen to feel very tired.

When he was in White Yang Town, he was a playboy who had nothing to do, but there were many things that forced him to this place. The family crisis, Ling Xi's crisis, all of it made him have no choice but to stand forward and use his own strength to resolve it. Now everything was over.

How could Long Chen not be excited in his heart?

He had been waiting thousands of times for this moment!

"Let's go, Xiao Xi. It's time for the final battle. This time, I'll definitely help you seize the Nine Celestial Spirit Fruit until you die!" Long Chen said firmly.

"Brother Chen, I don't want the Nine Celestial Spirit Fruit, I want you!" Ling Xi suddenly cried.

Chapter 424 - Divide

Long Chen had successfully reached the ninth level of the Milky Way Realm and was originally filled with confidence. But suddenly, he heard Ling Xi's sorrowful expression and he stared blankly for a good while before looking at Ling Xi with a solemn expression without saying a single word.

Ling Xi had already sensed something was amiss long ago, but he was only worried about his safety so she did not want Ling Xi to snatch the Nine Celestial Spirit Fruit away from him. She was already fully equipped with the strength to fight the Sword Emperor, so why did Ling Xi suddenly say such words?

"Xiao Xi, what thoughts do you have? Just tell me." He sat down on a clean patch of grass and waved his hand towards Ling Xi. Ling Xi pursed her lips, flew onto the back of his hand, and then, gently bent her legs as she sat down. At the start, she was a little timid, but when she looked at the expression in Long Chen's eyes, she finally forced herself to say it.

"Brother Chen, what I suddenly said wasn't because I was causing trouble for no reason, but because there was a reason. Before this, I didn't dare to say it out loud because I was afraid, afraid that you would blame me for feeling really uncomfortable." Ling Xi looked at Long Chen and said, his voice actually choked with emotions.

"Idiot, don't be like this. Just tell me what you want. Don't you believe me? From the start till now, how can I blame you? " Although Long Chen was not sure what Ling Xi would say, he was very calm.

Only then did Ling Xi begin to explain everything.

"When I first met you, I never thought that this day would come. It made me feel as if you and I are inextricably linked. So, when you said that you would help me find the Nine Celestial Spirit Fruit, I would agree. At that time, I thought, if you are nice to me, I don't mind being nice to you. If I really can return

to my original state, I don't mind giving you some benefits and saying goodbye. Just think of you as a kind passerby in my life. "

When she said till here, Ling Xi was already sobbing uncontrollably. Although she did not cry, Long Chen knew that she was crying in her heart.

"Why are you telling me this?" In Long Chen's heart, he already had a bad premonition.

Ling Xi shook her head and said helplessly: "Brother Chen, you don't understand the power behind me, it is a place that you cannot imagine. The reason why I don't want you to obtain the Nine Celestial Spirit Fruit today, is because I simply cannot leave you.

As a girl, Ling Xi looked at Long Chen with teary eyes. He did not show any signs of cowardice and directly said such words.

From this, it could be seen how strong the emotions in her heart were.

They had experienced too much along the way. Life and death, life and death. If they did not have the help and support from each other, it would have been difficult for them to make it this far.

"Why are we separated the moment we obtain the Nine Celestial Spirit Fruit? Xi Er, are you saying that the power behind you will become a hindrance for us? " Long Chen had also thought of this question before. However, even if Ling Xi had recovered, she didn't need to immediately return to her home. Long Chen had always thought that he would have a lot of time to grow, and then obtain the recognition of the powers behind Ling Xi.

Long Chen's heart thumped.

Ling Xi could only shake her head in pain, as her eyes filled with regret: "There is one thing that I have been hiding from you. Brother Chen, what you do not know is that the power behind me is enormous, my father and mother are both noble and respected experts.

"I've already thought of that before. However, Lil 'Xi, don't we still have time?" Long Chen asked quickly.

"No, we don't have time, when my body recovers, the power that I once had will return to my body. The power that I possess is very symbolic, the people in my clan probably found the Realm of Myriad Kingdoms long ago because they were looking for me. That is to say, if I recover, it is very likely that my family will discover my existence and appear in the Brother Chen later on. I am sorry, I did not tell you about this right from the start."

When Ling Xi said till here, Long Chen was like a bolt out of the blue. No wonder Ling Xi had said that she only wanted him and not the Nine Celestial Spirit Fruit.

Ling Xi's background was deep and unpredictable, far from something that the current Long Chen could scout out. This meant that when Ling Xi's family appeared, she would very likely be directly brought away, and the two of them would be separated forever, never to see each other again.

There was a chasm between the heavens and the earth between them. Once they were separated, it was as if they were parting forever.

For a moment, Long Chen felt his throat becoming a little dry. To be honest, he really wanted to beat Ling Xi up. Why did he have to say this at such a time? Something like that, a long, long time ago, she should have said it to let him, Long Chen, be prepared, not now!

At this time, Long Chen's heroic spirit soared into the skies precisely because his strength had reached the ninth level of the Milky Way Realm and he was cultivating the Heaven Punishing Sword Formation. However, Ling Xi gave him a heavy blow, causing him to completely wake up.

"Brother Chen, I am truly sorry. I know that you feel very uncomfortable, and I also feel very uncomfortable. I really want to beat myself to death. However, there's nothing I can do about it. Every time I see you full of fighting spirit, I can't bear to say it.

"The first time Source Spirit City heard about the Nine Celestial Spirit Fruit, I had already predicted that there would be such an ending. Before this, we didn't have such a deep relationship, so what I thought about was, as long as I recover my body, I would give you a lot of benefits, so I didn't think too much about it. But later on, after everything that happened, I understood that you were more important than anything else, Brother Chen, I'm not lying, as long as I stay by your side, I'm willing to do whatever it takes, even if I don't have a body.

Ling Xi lowered her head, and blurted out the words in her heart, to the point that she was somewhat hysterical.

Long Chen pursed his lips, and the look in his eyes when he looked at Ling Xi was somewhat painful. Ling Xi's words, had caused him to face a dilemma. Ling Xi now felt that she could not leave him at all, but wasn't Long Chen the same now? Back then, while staying in Inverse Wonderland for less than a month, Long Chen had endured the days without her by his side.

And at this time, seeing that Long Chen had fallen into a dilemma, Ling Xi bit her lips and said softly: "Brother Chen, don't be sad, I won't leave no matter what, so I've decided that no matter what, I don't want the Nine Celestial Spirit Fruit. "I know I can't give you a child like this, I can't give you a child like this, but I just want to be selfish for once. Can you please let me be that once?"

After she finished speaking, Ling Xi looked at Long Chen with a gaze filled with hope and deep affection. She was waiting for Long Chen to give her a reply. What she wanted to say was more or less what she wanted to say.

He was like a drowning man who was frantically struggling against water. In the end, he slowly said, "Xiao Xi, you're right, you're not wrong at all, but you don't understand men. You don't understand me!"

Long Chen said as he stood up from the ground. At this time, his eyes were actually a little red, he turned his body and looked at the vast world. The world was so big, and he was so tiny, which made Long Chen feel extremely powerless, but it did not scare him!

"I don't know men?" Ling Xi didn't understand what he meant for a moment.

"No, you don't." Long Chen clenched his teeth, and looked towards the imperial city with an ice-cold gaze: "Ling Xi, you have followed me for so long, yet you have never understood my personality? I, Long Chen, as a seven feet tall man, when have I ever backed down before? Fear? I have always believed that as long as I keep on moving forward, no one in this world can stop me, including your family! "

"Brother Chen, what do you mean by that?" Ling Xi was shocked in her heart. Long Chen's resolute attitude caused her to feel a little afraid.

"What do you mean? Hehe, "Long Chen laughed as he gently held Ling Xi in her palm, and tried to soften her tone as much as possible, before saying:" I have never retreated, I am a man, and even more so do

not want to retreat behind your back when it comes to your problems. Ling Xi, you better think this through. If I promise you today, then I, Long Chen, am still worthy to be a man! "

As she finished speaking, Long Chen practically roared out loud. Ling Xi was so shocked that he was in a daze and almost cried. Long Chen had never looked at her in such a ferocious manner before, this was the first time today. But Ling Xi knew, no matter how much Long Chen died, he would not harm her!

"Brother Chen, you mean, you want me to use that Nine Celestial Spirit Fruit? But if that's the case, there's a great possibility that I'll leave you forever and you'll never see me again. Are you really willing to part with me? " Ling Xi cried.

"I can't bear to part with you, Xiao Xi." Long Chen closed his eyes. However, Long Chen forcefully restrained himself, came close to Ling Xi's ear and said: "I can't bear to part with you, and I also want to lock you by my side forever. But, I can't ruin your future because of my own selfishness, because this doesn't belong to you. You're still young, so what you should have is a complete body. "The most important point is ..."

Long Chen breathed heavily, staring straight at Ling Xi, and said word by word: "Darling, don't forget, one day I will appear in front of you, defeat or even kill all those who obstruct us, and then turn you into my Long family's daughter-in-law!"

Chapter 425 - Divine Guard Killing Gods

Long Chen's words were like a hammer that repeatedly smashed onto Ling Xi's soul, causing him to be momentarily speechless. At this moment, she blankly looked at Long Chen who was panting heavily, and traces of blood-red appeared in his eyes; From the look in his eyes to the depths of his bones, he had never once thought of giving in. To either die or win, this was Long Chen's creed, so he kept on winning, and his enemies were all dead.

And now, only the final Sword Emperor remained in Canyang Kingdom, to accompany him and become his enemy.

This was how Long Chen crawled up one step at a time. He looked weak, but no one had ever been able to stop him.

At this moment, she was deeply moved, and felt that she was actually this happy. Maybe Long Chen's heart was higher than the heavens, or maybe he did not know how high the heavens were, and other people would think of him that way, but at this moment, Ling Xi firmly believed that he would do what Long Chen said. If he did not do it, then there was only one possibility, and that was that Long Chen was already dead.

"Xiao Xi, do you know what this means? "It means that no matter what the final result is, I will work hard to chase after you. You are my woman, and right now, you are so for all eternity. Tell me, why should I let you escape from my grasp?"

Ling Xi opened her mouth wide, but was unable to say a single word.

"Don't say anymore, Biyang Royal City, I have to go, this battle of the Sword Emperor, I have to go, the Nine Celestial Spirit Fruit, I have to go, you have to get it, you have to help me recover your body, if you say that I am unlucky, get your family members to find it, and bring it back to you, then please tell me your home address, another day when I, Long Chen, will rush over to kill everything in my path, to kill gods and devils, until the day comes when I hold your hands again!"

Facing the sky, Long Chen spoke out such heroic words.

Regarding the determination in Long Chen's eyes, Ling Xi had already engraved it deeply in her heart. She had originally thought that as long as she could talk to Long Chen, he would choose to give up. At this time, Ling Xi finally understood a lot. She also knew that Long Chen had a stubborn temper, and the things he thought of could never be changed.

Therefore, no matter what Ling Xi did, no matter what method she used to persuade him, Long Chen would always rush back to the Imperial City to seize the Nine Celestial Spirit Fruit and seize the dream that he had been dreaming about for the past half a year.

For the sake of the Nine Celestial Spirit Fruit, Long Chen had left the battlefield and battled for nearly half a year. At this final juncture, Ling Xi had actually revealed such a cruel reality, which showed just how big of a blow this was to Long Chen. However, Long Chen did not retreat in the slightest, he only felt sad for a while, and then, he set his goal once again.

In front of the cruel reality, Long Chen was just an unbeatable cockroach.

Xiao Lang was silently watching the conversation between them. When Long Chen had finished saying the last word, he revealed a smile of understanding, because he knew that this was Long Chen, his big brother!

Even though Long Chen dared to say such words, it did not mean that his heart did not feel pain, and it was easy to say them out loud, but if he wanted to completely say them, he would have to put in a thousand times more effort. If Ling Xi was truly taken away, he had already promised that he would definitely look for Ling Xi's location and use her true strength to gain the approval of her family.

The most likely thing was that Long Chen would die in an unremarkable corner, turning into a pile of dried up bones. He and Ling Xi, would never meet again in their entire lives. This was fate. Sometimes, life was just this cruel. There were very few people who could defy the will of the heavens and change their fate.

Long Chen already knew in his heart that for the sake of today's decision, for the sake of the oath he had made today, his next step could only be to leave this place. In other words, his future prospects for a very, very long period of time had already been limited.

Before he found the Nine Celestial Spirit Fruit, Long Chen worked hard for it. But after he found the Nine Celestial Spirit Fruit, he would soon lose the beautiful dream of bringing Ling Xi carefree throughout the world. He had no choice but to embark on this journey, and he was also incomparably lonely. To be able to embrace her, to feel the moving warmth of her body, to feel the feeling of her two hearts pressed together.

This was fate.

Long Chen knew that once he swore the oath, he would have to struggle to the point where he was struggling with his life on the line. However, he had no regrets.

Actually, Long Chen could have chosen to be like what Ling Xi had said at the beginning. He could have spent so much energy and lived with Ling Xi, but that would have meant that he had already given in to fate, and giving in was never Long Chen's style. He walked a path that defied the heavens, and naturally had a character that defied the heavens.

It was just that Long Chen and Ling Xi did not know how much suffering they would have to endure in order to finally be together for the sake of their oath. Fate was forever out of their control. Even the strongest person would die in the hands of fate in the end.

A fierce wind blew past.

Long Chen took in a deep breath. The road ahead was vast and his heart felt like it was being pressed down by a heavy stone. However, Long Chen did not give up just because of this. He looked deeply in the direction of the imperial city, tidied up his clothes, and said to Xiao Lang in a soft voice: "Let's go, prepare for our final battle in Canyang Kingdom. Xiao Lang, he is also your great enemy."

Only then did the wolf cub stand up, and he had recovered his huge body. At this time, the wolf cub was also unable to relax either, he looked at Long Chen with his blazing eyes, and let out a loud howl that shook the sky.

"Brother Chen, the wolf cub said that no matter what, he will fight shoulder to shoulder with you until the end!" Ling Xi translated for Long Chen.

"Very good, let's move forward and charge for our bright future!" Long Chen laughed heartily, his laughter helped to ease the atmosphere, and ignited his fighting spirit. Under the wind, the two people and the wolf started to move towards the Biyang Royal City.

Long Chen knew that these people were definitely waiting for him.

Two months had already passed.

Long Chen knew that the final battle would definitely be an extremely exciting battle.

Within the Imperial City, following the death of Fourth Prince Lin Zichen, the atmosphere had undergone a strange change.

In the past few days, Long Chen's matter had spread throughout the entire Biyang Royal City. Now, any random person who came out of the Biyang Royal City would not only recognize Long Chen, but would also explain in detail how Long Chen had snuck into the Imperial Palace, and how he had killed Lin Zichen in front of the Jiang City.

Long Chen had killed the genius that was originally favored by the people of the Canyang Kingdom, and the commotion caused by this matter was much greater than the one he had caused when he first fled. Long Chen was like a dark horse that had suddenly appeared and obtained the final victory, successfully seizing the attention of almost everyone in the Biyang Royal City.

And Long Chen's final declaration caused the entire Biyang Royal City to explode. Now, everyone knew that after Long Chen killed Fourth Prince Lin Zichen, he was about to return to the Biyang Royal City and begin the final battle with the current strongest warrior in the Canyang Kingdom! This young man who suddenly appeared caused all the higher-ups of the Canyang Kingdom to feel a chill run down their spines.

From their point of view, Long Chen had long since become a first-rate expert in the Canyang Kingdom. His current strength was probably only inferior to Sword Emperor and Zhao Qingyun.

Of course, Long Chen's identity had already been discovered by everyone.

From the Demon Emperor Sword he used and the Three Great Secret Scriptures he used, there was no doubt that Long Chen had already pledged his allegiance to the Demonic Palace, and had even become the next master of the Demonic Palace. The battle between Lin Zichen and the Canyang Kingdom was in fact, a battle between the two forces of the Canyang Kingdom.'s death, however, gave the royal family immense pressure.

This meant that if Long Chen did not die, then it was very likely that in the near future, the royal clan would completely lose to the Demonic Palace, and the position of emperor would also be replaced, and the royal clan would be in danger of being exterminated.

The current Biyang Royal City had an atmosphere of a storm approaching.

Therefore, while waiting anxiously, two months had already gradually passed by. During these two months, not only did public opinion not decrease, it seemed to be growing larger instead.

There was such a discussion in a small tea house.

"Brother Zhang, why are you here today?" Don't you usually cultivate behind closed doors? " One of the middle-aged men called out to the other as he smiled.

"Training my ass, I can't calm my mind at all, so I specially came to the teahouse to inquire about the news. That Long Chen from Demonic Palace, is he here to kill us today?" the man asked softly.

"There's no movement. It shouldn't be, right?" The middle-aged man frowned.

"Because of Long Chen's challenge, right now in the Imperial City, there is a storm, we don't even know if Long Chen will come or not. It has already been two months, Brother Chen, do you think that Long Chen is trying to trick us?"

"Probably not. I heard that he came here for the revenge of a brother, so it should be about time. I heard that he has made sufficient preparations on the side of the Imperial City. I guess if he comes for another month, he would trick us!"

"His Majesty the Sword Emperor's son was killed, why didn't he go to the Demonic Palace to kill him?" The man voiced out his doubts.

"I don't know either, but maybe he was waiting for Long Chen to come. I heard that with Long Chen's personality, he would definitely do as he said. He should be back soon, let's wait and see!"

Chapter 426 - Golden Eyes

Currently, it was the morning court in the imperial palace. However, due to the major event that happened a while ago, the atmosphere had always been heavy.

With the demon beasts in the northern Jiang City in chaos, the Canyang Kingdom did not have anything else to do. The Canyang Kingdom was established by martial might, there was nothing that could not be solved with force. This morning assembly was just a good tradition left over from generations to generations. It was basically of no practical use.

Due to the control of the Sword Emperor, sometimes, the Canyang Kingdom did not look like a country, but a region ruled by a sect. There were not many laws in the Canyang Kingdom, there were only the martial power and rule of a royal family. Of course, in the Dragon Sacrifice Continent, all of the people who were known as the nations, were almost the same as the Canyang Kingdom.

The morning assembly was the only ceremony that resembled a nation in Canyang Kingdom.

At this moment, the other officials were casually ing the situation in their respective prefectures, so there was nothing else to . At this moment, the leader of the Gongsun clan walked out of the line between the two clans and said, "Your Majesty, the number of outsiders in the Imperial City has increased by a lot. It has been ten years since such a situation occurred.

At this time, Sword Emperor was seated on a white jade chair at the very front with his eyes closed. When Patriarch Gongsun spoke, he didn't even move an inch. After knowing that Patriarch Gongsun had finished speaking, he slowly opened his eyes. Two rays of golden light burst out from within his eyes.

All of the officials hurriedly lowered their heads, not daring to meet Sword Emperor's eyes.

If Long Chen had come to this place, he would definitely be shocked, because at this moment, the Sword Emperor's eyes were not black like that night, but gold. The black eyed Sword Emperor seemed to have an indescribable feminine aura on his body, but this Sword Emperor before him, was tyrannical, strong, masculine, and a pair of golden eyes that seemed to burn with flames, making people not dare to look directly at him.

Actually, among the people in the Canyang Kingdom, there was always a legend. Because the Sword Emperor cultivates an unknown secret scripture, his eyes would change color. Indeed, this was the case. Every time night came, his eyes would turn gold.

At this time, Sword Emperor's golden eyes swept across Patriarch Gongsun.

Patriarch Gongsun could not resist the pressure and his body trembled slightly.

"So it's like this ... I know what they're here for, so they should be here to take a look at the challenge that Long Chen, that youth, is challenging me, right?" His voice was extremely calm, and it was hard to tell if he was happy or angry.

"It is indeed so!" Patriarch Gongsun had to admit that these outsiders had come to watch the show. How could they miss such a pinnacle battle?

There was another period of silence.

"Then let's do it this way," Sword Emperor suddenly said flatly. "Gongsun, lead your family and kill all those who came in to watch the show. The corpses are piled outside the imperial city gates.

His tone was very calm, as if he was talking about a trivial matter.

Everyone inhaled a breath of cold air, they could not help but feel their scalps go numb, but this was Sword Emperor's temper, they had already gotten used to it over the years.

"Yes sir!" Patriarch Gongsun accepted the order and quickly retreated. As long as the imperial court ended early, there would definitely be a bloodbath in the Imperial City. Everyone was excited and didn't dare to say anything else.

"You guys tell me, it's already been two months. When will that Long Chen come here? I can't wait any longer. Batian, you're the one who brought this back. Tell me." Sword Emperor's gaze swept across Lin Batian's body.

Lin Batian took a deep breath, and forced himself to calm down. Ever since Lin Zichen's death, Sword Emperor's temperament had become somewhat moody, and had already killed quite a few people. Thus, he was somewhat afraid of this royal father.

"Back then, Long Chen's strength was only slightly stronger than Fourth Brother's. He's not an idiot, he clearly knew that royal father's strength was one hundred times stronger than's, if he had not made enough progress, he wouldn't have dared to come. Long Chen should be really too confident in himself, he probably wants to reach Heavenly Completion Stage before coming, but he will need at least a few years to reach there, so I think that he is just spouting nonsense. Long Chen, he would definitely not dare to come! "

After Lin Batian finished speaking, he took a deep breath.

He didn't think about what Long Chen had said back then and was in a hurry to come back to the Sword Emperor to tell them and create such a huge disturbance. However, thinking back on it now, he felt that it was indeed not possible. No matter how heaven defying Long Chen was, he would never be a match for the Sword Emperor. After all, the gap between them was too big.

"What the hell said is right. I guess that Long Chen only has the strength of his ninth level of the Milky Way Realm, his talent should be around the same as the Fourth Prince. It is normal for the young people to speak big with their arrogance. So I guess he's just trying to trick us. He won't come. " At this time, another of the two families, the head of the Zhou family, spoke up.

As they were speaking, the Sword Emperor listened, but a smile gradually appeared on his face. Suddenly, he snapped: "Bullshit! I know, he will definitely come! "

The words of the Sword Emperor caused everyone's heart to tremble. They all sucked in a breath of cold air and instantly, everyone went silent.

Just as the Sword Emperor had finished speaking, someone rushed into the Jin Luan Palace while shouting the word "". That person immediately knelt on the ground and said excitedly: "ing to your majesty, outside the Imperial City, that Long Chen and his demon wolf have appeared!"

His words caused the entire Jin Luan Palace to be shaken, and everyone started to discuss about it. They looked at each other, with expressions of disbelief on their faces.

"He really came?" Lin Batian was almost scared silly. He had just promised that Long Chen would definitely not come, but he did not expect that he would arrive in less than a quarter of an hour.

"Hey, are you sure you're not seeing things? Are you sure it's Long Chen?" Lin Batian calmed his emotions and asked coldly.

"We can't be wrong. We saw it all over ten thousand people on the city wall, and Long Chen also had a black colored demon wolf by his side. He was standing right outside the imperial city. He had already said to let the king out! That person suddenly hesitated when he said the last part.

At this time, Sword Emperor's golden eyes landed on his body, and he asked expressionlessly: "Tell me, what are his original words? "He definitely won't let me leave so easily, right? Tell me honestly, otherwise, die."

Sword Emperor's words scared the messenger. Since his life is at stake, how could he dare to hide it from him? He hurriedly said: "That brat told His Majesty to quickly scam and serve him! Your Majesty, this brat is simply too audacious. He doesn't know his place. To think that he would say such outrageous words. He deserves to lose his life! "

After he finished speaking, everyone's expressions changed. They never would have thought that Long Chen would actually be so bold to say such outrageous words. Sword Emperor was a lofty existence in the Canyang Kingdom, he had never been so humiliated before, but today, an insignificant person like Long Chen had actually said the word "scam"!

And Long Chen even wanted him to serve him?

This is crazy.

No one dared to look at Sword Emperor's expression, they could imagine how unsightly Sword Emperor's expression must have been at this time.

"Is that so?" Sword Emperor laughed lightly. Surprisingly, he did not get angry.

"It's finally here. I've been waiting too long." With a smile on his face, Sword Emperor stood up, a golden robe draped over his body. He walked forward a few steps, then killed his way up the stairs and headed towards the exit of the Jin Luan Palace.

"Let's go. Don't let our guests wait too long." Sword Emperor's footsteps, slowly started to pass by the person who ed the news. As he passed, his hand lightly brushed against the person who ed the news, and in that moment, that person's eyes became wide open, falling onto the ground weakly without any signs of life.

Everyone was stunned.

From this, it could be seen that Sword Emperor's current killing intent was actually this strong. Most likely, the smile on his face was formed from killing intent. The crowd was silent. No one wanted to pity the pitiful person, but instead, they bypassed him and directly followed the Sword Emperor as they walked towards the entrance of the imperial city while trembling.

"This Long Chen, does he really like fighting under the city gates? I heard that when he killed Zi Chen, he was also outside the city gates, right? "What an interesting boy! Last time in the Imperial Palace, I actually didn't recognize him!" As they walked at the forefront, Sword Emperor's voice gradually traveled behind them.

The group of people headed out of the city gate.

In the Sword Emperor's words, although he urgently needed to fight with Long Chen, his walking speed was rather slow, as if he was enjoying the process. After hearing the news, more and more people rushed towards the direction of the city gate. The streets were densely packed with people, and if not for someone opening a path for the Sword Emperor, he believed that the Sword Emperor would have been squeezed into a dead end.

The most abnormal dark horse in the history of Canyang Kingdom, the strongest warrior against the Canyang Kingdom, no one would miss this battle. The walls of the Biyang Royal City were large enough, so these people quickly rushed towards the top of the wall.

At the back of the crowd, Sword Emperor led the palace and slowly headed towards the city gate. At this time, there was only one person smiling at him, and the others all had very solemn expressions. And right in front of everyone, on the vast plain outside of Biyang Royal City, Long Chen leaned on the Little Wolf, crossed his arms, and calmly looked in the direction of the Imperial City.

Back then, when he first arrived in Biyang Royal City, he had gotten close to this position, where he had killed a general of the Imperial Guard Army and met the Seventh Commander once.

Time flew by and in the blink of an eye, it had already passed by so long. At that time, Ling Xi still had her Herba Euphorbiae and now, Ling Xi would need to rely on him, Long Chen, for the last time!

Chapter 427 - Fighting the Sword Emperor

"Xiao Xi, did you see that? Above Biyang Royal City, a sea of people are watching us. " Long Chen raised his head and smiled faintly. At this time, because of Long Chen's appearance, the gates of the Biyang Royal City had already closed, and the Biyang Royal City was facing a great enemy. Outside the imperial city, it was naturally spacious and only the figures of Long Chen and the little wolf were especially obvious here.

At this moment, the wolf cub was lying prone on the ground. He raised his head and looked at the direction of the city wall. Finally, he had a chance to take revenge. He was extremely excited. He had endured ten years of hatred. Today, he finally had the chance to take revenge.

To the wolf cub, only by exterminating his entire family would the Sword Emperor be able to atone for his sins through the price of blood. Sword Emperor had killed his entire family, but what he needed to do now, was to kill Sword Emperor alone.

This time, Long Chen fought shoulder to shoulder with the little wolf. Relying on just the little wolf alone, it was impossible for his to be a match for the Sword Emperor.

Long Chen was looking at the people on the city wall and the countless people on the city wall were also sizing up Long Chen, this legendary figure. He was still quite a distance away from the city wall and only warriors with strong fighting capabilities and sharp eyes could clearly see his appearance.

"So this Long Chen is really so young, he is simply a legend of our Canyon Kingdom. Unfortunately, he is a member of the Demonic Palace, and is going against the imperial family."

"That's right, how could it be easy to get rid of the fourth prince Lin Zichen? I heard that he also killed Lord Sword Demon. Out of the three great experts of the imperial family, two have already died in his hands.

"Are you kidding? Sword Emperor is next, do you think that His Majesty will lose to Long Chen?"

"A slip of the tongue, a slip of the tongue." The man smiled in embarrassment and continued to discuss with the people beside him.

In the midst of tens of thousands of anticipation, the city gate finally burst open with a loud bang, and within the city gate, a group of people appeared, all of them being the remaining experts of Canyon Kingdom. That golden-eyed Sword Emperor was standing right in front of them, and when he saw Sword Emperor, the people on top of the city wall started cheering loudly.

Of course, they didn't necessarily support the rule of the Sword Emperor that much. Of course, if Long Chen were to win, they wouldn't be sad. Only when their lives were truly threatened would they truly feel threatened.

The moment the city gate opened, Long Chen saw two golden rays of light shooting towards his body. Immediately, Long Chen felt as if there was a sword softly piercing into his skin, it was extremely uncomfortable, and even painful, and this was Sword Emperor's gaze.

From a distance, Long Chen could already see his golden eyes.

"Xiao Xi, do you see his eyes? They look different from that night." Long Chen asked in confusion. He clearly remembered that night in Sword Emperor, his eyes were pure black, and his aura was not as fiery and sharp as it was now.

"Strange, it's really strange." Ling Xi immediately shook her head, and said with a face full of doubt.

"This Sword Emperor, his soul is not very complete. It's as if he's missing half, who knows where it went. I remember that night when I saw him, I felt the same way, but at that time, the part of his soul that was missing was the part that now occupied Sword Emperor's body! " As Ling Xi said this, he was almost in a state of confusion.

Long Chen didn't understand at all.

"Since you don't understand, then my mission is to get rid of him! Xiao Xi, my words are definitely true. Just watch and see. From now on, I will start to fulfill my own promise. " Recalling the oath he had made previously, Long Chen was filled with fighting spirit.

"Oh." Long Chen had already arrived at this place, and he knew that everything could no longer be reversed. For the time being, she could only submit to Long Chen's crazy decision. After all, what Long Chen said made sense. If he could live with Ling Xi for his entire life and live with him, it truly wouldn't be his style.

However, how difficult was it to complete the final step? Ling Xi knew that Long Chen's progress in strength was extremely fast. To have reached such a level in a short year, he could already be considered as a top genius. However, Long Chen's starting point was just too urgent.

Ling Xi knew the difference, so she felt it a little deeper.

However, as Long Chen welcomed the final battle, she did not dare say much and could only silently watch. This time, the one fighting was the Sword Emperor, the strongest battle Long Chen had ever fought, he was probably much stronger than the injured Dark Moon Tiger King.

"Is it finally out? Your movements are really slow. I thought that His Majesty was sleeping in a lazy bed. " Despite facing such a huge pressure, Long Chen did not panic. Instead, he teased and teased Long Chen.

Sword Emperor did not reply to Long Chen. Instead, he gestured for the people behind him to return, and then used an extremely calm gaze to look at Long Chen as he walked out of the city wall. At this moment, he was roughly one hundred and fifty meters away from Long Chen.

The attack was the most influential battle in the past ten years. It was about to take place at this moment.

Everyone could not help but wipe their eyes, afraid that they would miss a single detail.

After Sword Emperor stood still, he did not make a move yet. Instead, he first sized Long Chen up from top to bottom for a while, and said: "Two months ago, I had met Zhao Qingyun. I was going to fight him to the death, but he told me that you were my opponent. I asked him if he was joking, and what he said. I trust Zhao Qingyun's words, so I have waited until today. "

"You killed my two sons and all my younger brothers, but I did not touch your family or your teachers because I value your potential. I hope that you do not lose too quickly today. If I am not satisfied, I am afraid I will still execute your entire family!"

Long Chen finished listening to what he said seriously.

"Don't worry, I will definitely let you die a great death. For this moment today, I have already prepared for two months. I believe that I will not disappoint you." In front of the Sword Emperor, Long Chen spoke in a neither humble nor arrogant manner.

Their conversation was especially bright in this vast and empty land, and everyone could clearly hear their opponent. It was only because Sword Emperor placed great importance on Long Chen that he was able to say such words.

Long Chen knew that the hatred he held towards Long Chen was already the same as the hatred Little Wolf had towards the Sword Emperor.

"I heard that you have another brother who belongs to the Mo Clan and was executed by the entire family? I checked, it should be that Mo Xiaolang. After entering the Burning Sky Secret Realm, he didn't come out again. The Mo Clan's sole survivor is actually dead. " When he said till here, the Sword Emperor was somewhat emotional, and when Long Chen saw his indifferent expression, he immediately became somewhat angry.

"Your royal family is the same. After you die, other than Lin Batian, the rest are just cats and dogs. I am too lazy to kill them. Do you want to know how Lin Cangtian died in my hands? He was burnt to death by my fire, do you know how Lin Zichen died? He was hacked into pieces by my sword! " Long Chen did not give in at all, and said these words with a cold tone.

Sword Emperor's entire body shook. After that, the gaze with which he looked at Long Chen had already revealed unconcealable killing intent.

"What strange golden eyes," Long Chen was secretly shocked in his heart.

Their conversation was clearly heard by the others. When they saw the killing intent break out from Sword Emperor's eyes, they knew that the battle was about to begin.

Whoosh!

The Sword Emperor had only taken a step forward, when a gust of wind swept towards Long Chen. The strong winds whistled, and the firm soil of the imperial cities were like sand outside of the northern Jiang City, lifted up by the Sword Emperor's power out of thin air.

"Little Wolf!" Long Chen called out to the wolf cub and, as usual, they separated instantly. Facing such a strong expert like Sword Emperor, Long Chen had no choice but to instantly use all of his trump cards. Of course, the most important ones were the Dragon Soul Transformation and the Great Mantra of Dao-heart Seed, and after the two stages of amplification had been completed, his body flowed with boundless energy, and the surging waves of True Qi circulated among the eighteen galaxies in his body. The eighteen galaxies were already completely connected, and the flow of True Qi became even smoother, causing Long Chen to be able to erupt with even more True Qi!

And at this time, the little wolf used two layers of Great Mantra of Dao-heart Seed! Allowing his demonic energy to approach the level of Heavenly Completion Stage meant that the little wolf could control even more of the Nether Demon Ancestral Fire.

The change in Long Chen and the Little Wolf caused the originally calm Sword Emperor to exclaim slightly in admiration. Firstly, it was Long Chen's Dragon Soul Transformation that had shocked the Sword Emperor.

"I've long heard that your beast spirit transformation is very heaven defying. I never thought that you would actually have such a profound realm! Furthermore, with the Great Mantra of Dao-heart Seed, your Innate Qi is actually close to that of a Heavenly Completion Stage Ranker's. No wonder Zi Chen was

defeated by your hands, no wonder Zhao Qingyun said that you were my opponent! " The Sword Emperor's voice trembled slightly.

Then, he saw the little wolf's Great Mantra of Dao-heart Seed, which made him even more dumbstruck.

"What!?" Demonic beasts can actually cultivate Great Mantra of Dao-heart Seed, what kind of demon is this? " This almost exceeded Sword Emperor's common sense. He had sufficient confidence in his own knowledge, but when the demon beast used its Great Mantra of Dao-heart Seed, Sword Emperor was actually speechless.

The people on the city walls also heard the words of the Sword Emperor.

"Am I hearing things? Long Chen actually had the true qi of Heavenly Completion Stage? That demon beast could actually cultivate Great Mantra of Dao-heart Seed? "Oh my god, what kind of monster combination is this?"

"Calm down, these are just appearances, true strength, we can see that although the Sword Emperor is shocked, he is not afraid, which means even if Long Chen is like this, he can still defeat Long Chen!"

Chapter 428 - Breaking your arm

With the Dragon Soul Transformation skill and Great Mantra of Dao-heart Seed, Long Chen quickly approached the Sword Emperor from the side.

Long Chen knew clearly in his heart that even if he had Innate Qi equivalent to that of Heavenly Completion Stage, there was a sky and earth difference between Milky Way Realm and him, so Long Chen did not dare to be careless in the slightest.

The Little Wolf's current strength was a level lower than Long Chen's and Sword Emperor's. The Little Wolf's greatest reliance was the netherworld Demon Ancestral Fire, so the battle with the Little Wolf was supported by Little Wolf, while Long Chen was the main opponent!

During the battle, Long Chen quickly took out his Demon Emperor Sword!

"Demon Emperor Sword? It's really been many years since I've seen it. When I was still young, Zhao Qingyun fought with this Demon Emperor Sword against me, but unfortunately, he wasn't my match back then, and she isn't one either!" Speaking to here, the Sword Emperor was extremely pleased. She watched as Long Chen took out the Heaven Ranked Divine Sword, but he did not panic in the slightest.

That was why he passed the Emperor Sword to Lin Zichen. He thought that no one would be able to take it away from Lin Zichen since the Emperor Sword was still in Long Chen's Cosmos Sack and even if he wanted to take it away, there was nothing he could do.

However, even if the Sword Emperor did not have any Emperor Swords, they were nothing to him. Sword Emperor was known as the Emperor of the Sword, and he only had unique methods, and at this moment, when Long Chen rapidly approached, he had a calm expression, and suddenly stabbed the fingers of his right hand. In the middle of his fingertips, a sharp golden light instantly appeared, and under the control of the Sword Emperor, nine sword lights suddenly exploded out, charging crazily towards Long Chen!

"Nine Heavens War Sword, Ripping Sky and Earth!"

This was another type of Heaven Tier Battle Skill that possessed power that could not be underestimated. Back then, when the Sword Demon used it, it was immediately broken by Long Chen using his The Supreme Sword of the Ancestor Realm!

And what surprised Long Chen was that when the Sword Emperor unleashed it tightly with his fingers, its power was ten times stronger than the Sword Demon's, and those nine whistling sword lights caused Long Chen to have no choice but to use the Traceless Demon Shadow to resist, and then, in the gap between them, the Demon Emperor Sword in Long Chen's hands danced crazily, surging True Qi swept out in his body, and a pitch-black Sword Qi swept towards the Sword Emperor like a violent ripple, arriving in an instant!

"The way of the Demon Emperor's Sword, The Supreme Sword of the Ancestor Realm!"

A fierce wind blew, causing the black soil to shake, pieces after pieces of the soil rolled outwards. Long Chen immediately used his The Supreme Sword of the Ancestor Realm s to neutralize Sword Emperor's Nine Heavens War Sword attacks! And at this time, Long Chen used Sword Qi of the Evil Emperor after Sword Qi of the Evil Emperor to force the Sword Emperor away!

In this exchange, Long Chen did not fall into a disadvantageous position. Although he had taken advantage of the Demon Emperor Sword, with his age, it was already very rare for Long Chen to reach this step.

Above the city gate tower, those who had some experience all looked at each other in dismay when they saw this scene. They all knew that since Long Chen was able to break the first Heaven Tier Battle Skill used by the Sword Emperor, it meant that he could also block the others. In their hearts, the current Long Chen was no longer as if he was far from being a Sword Emperor, but was instead close to being a Sword Emperor!

And at this time, Long Chen used a series of crazy Sword Qi of the Evil Emperor s to force the Sword Emperor behind him. Then, he explosively roared, and the Devouring Blood Realm opened his mouth, causing a blood-red fog to instantly rise. With the support of Long Chen's current Innate Qi, the Devouring Blood Realm possessed an even more formidable might!

The Devouring Blood Realm had always been one of Long Chen's ultimate moves. It could even play a huge role in dealing with Heaven Rank s, and now it could as well!

In the next moment, Sword Emperor felt the suction force on his body, and frowned. He felt that every drop of blood in his body seemed to come to life, surging, boiling, messing up, and it was completely out of his control!

"What's going on?" The Sword Emperor immediately used his Innate Qi to suppress it, but the power was very strong, he had to use a lot of Innate Qi to be able to completely control his own body, and not let it mess around, but at this time, in the midst of the noise, Long Chen's attack once again swept towards Sword Emperor!

"The way of the Demon Emperor's Sword, Devil Dao Supreme Sword!"

After using the Devouring Blood Realm, Long Chen suppressed the Sword Emperor, and at the same time, he did not give the Sword Emperor any chance, in front of everyone's cries of surprise, Long Chen unleashed all of his Qi, and even used all of his strength!

At this time, he was very close to the Sword Emperor, and was basically only ten metres away. And at this time, the Demon Emperor Sword slashed out with his hand, and a dense amount of black sword blades immediately swarmed towards the Sword Emperor, who was currently suppressed by the Devouring Blood Realm. In the time it took for him to be stunned, that vast attack had already arrived in front of his eyes!

The might of this Devil Dao Supreme Sword was much stronger than the one Long Chen used to kill Lin Zichen before, and the clouds and wind changed color, the thick and heavy soil on the ground started to crumble under the sword tip, the berserk sword edge released a sharp sound of friction, shaking everything!

It was just the start of the war, yet Sword Emperor was already facing such a dangerous situation. The people on the city walls were completely shocked, they had originally thought that Sword Emperor would be able to take care of Long Chen easily, but who would have thought that such a situation would happen?

Even under the suppression of Long Chen, the Sword Emperor was still able to move smoothly. As he retreated, his fingers danced frantically, as though he had turned into a sword, and then, the sword qi in his body shot out from his body like a berserk storm!

"Emperor Sword Dao, Martial Dao Supreme Sword!"

This Martial Dao Supreme Sword, was only the first move of the Emperor Sword Dao. Immediately, a golden sword qi shot towards Long Chen's Devil Dao Supreme Sword s, the two big sword moves were just inches away from each other, crazily exploding, the vast and powerful attacks clashed against each other and shot out in all directions. Instantly, a deep crater appeared between the two of them!

This enormous power directly sent the two of them flying. Long Chen flew up into the air, hurriedly twisted his body, allowed himself to stabilize himself, and then immediately landed on the ground!

"Little Wolf, this is a good opportunity!" Honestly speaking, these two attacks of Long Chen's were just a preparation for the little wolf's attack. When Long Chen was using the Devouring Blood Realm, the little wolf had already circled behind him.

Long Chen had to admit that under the suppression of the Devouring Blood Realm, he was still able to use the Martial Dao Supreme Sword s to directly shatter Long Chen's Devil Dao Supreme Sword with just the power of a finger. If Long Chen didn't have a trump card, in fact, the Sword Emperor couldn't do anything at all!

The wolf cub was an ambush!

Long Chen was already forced to retreat, let alone the Sword Emperor who had retreated in a hurry. At this moment, the Sword Emperor was also sent flying. He was still wondering what exactly the Devouring Blood Realm was, but at this moment, a terrifying threat suddenly came from behind him!

Seeing his great enemy flying towards him, unable to control his own body, the wolf cub's eyes turned red, he exerted all of his strength in his four limbs, and with a loud roar, he rushed forward. The greatest amount of Nether Demon Ancestral Fire he could control was spat out by him with a loud roar, and a torrent of black flames rumbled towards the Sword Emperor. It was like a wave, instantly filling the sky for half a day!

From this, it could be seen how high the little wolf's hatred for the Sword Emperor had reached!

Long Chen could imagine that when he was six years old, his entire family had been annihilated, leaving only one person behind to run for his life. However, he continued to persevere and maintain an optimistic attitude!

This was the little wolf, Long Chen's best brother!

Long Chen had sworn long ago that the wolf cub's business would be his. Of course, the wolf cub was no exception. He was always easy to talk about, especially after he turned into a wolf. However, his heart was always burning with passion!

The Nine Hell Devil Ancestral Fire filled the sky, causing the sword light as it retreated explosively to feel a fatal threat! At that moment, Sword Emperor simply did not have time to see what was behind him. His instincts told him that if he did not run towards Long Chen now, he would definitely lose his life!

"Divine Nine Palace Steps!" He rushed towards Long Chen with the fastest speed possible. His speed was extremely fast, at least a little faster than Long Chen's, but don't forget, this was under the Devouring Blood Realm's suppression. If not for the Devouring Blood Realm, the Nine Serenities Devil Ancestor Flame would not have been able to hit him!

The appearance of the Nefarious Spectral Demon Ancestral Fire made the people on top of the city walls burst into an uproar. They could not see any clues from the flame, but how could it be easy for Sword Emperor to risk his life to dodge it?

"What flame is this? It's so frighteningly cold!" Sword Emperor sucked in a breath of cold air for the first time. Even though he had used his maximum speed, there were still a lot of flames that wrapped around his body, especially on one of his arms!

At this moment, Sword Emperor channeled all the Zhen Qi in his body and rushed towards the arm. He could feel that his arm was losing all sense of instinct at a very fast speed, which surprised him greatly.

Bang!

's left arm exploded and completely dissipated into the air while everyone was staring in disbelief. It was at this time that he successfully escaped the wolf cub's Nether Demon Ancestral Fire.

Of course, the price would be heavy, and from today onwards, Sword Emperor would lose one of his left arm. Even if there were spirit medicines to heal his arm, he would not be able to be so nimble in the future!

The Sword Emperor's fighting strength, must be greatly reduced!

Chapter 429 - Yin Yang Sword Emperor

At this time, he was blankly staring at his shattered right arm. That empty feeling, that piercing pain told him that he was indeed crippled, crippled by a junior, and with a strange demon beast in the hands!

The current Sword Emperor was like a wild beast that erupted. His veins bulged, as he let out an earth-shattering roar towards the sky, then he stared fixedly at Long Chen, who was in front, and the little wolf behind him!

Everyone was looking at each other, wiping their eyes, feeling that they had seen wrongly. Especially Lin Batian, the scene from the Jiang City at that time, seemed to have reappeared now. He actually felt some pain and panic, because Lin Zichen had died without making a sound like that back then, and he had died at the hands of Long Chen.

To Lin Batian, Long Chen was simply like a nightmare, a nightmare that he would never be able to wake up from!

In his heart, his royal father had always been a terrifying person. His happiness and anger never appeared on his own face, but at this moment, even if Lin Batian closed his eyes, he could still feel the anger of his Sword Emperor!

Right at this moment, someone patted on Lin Batian's shoulder. Lin Batian suddenly opened his eyes, turned around to look, and was stunned. His pupils enlarged, and his mind went blank.

It was because he saw a person, a person he had seen thousands of times before. This person was still howling furiously from beneath the city walls. Why was he here?

Lin Batian's shock had also caused others to turn their heads around. Then, everyone saw that the person who stood behind Lin Batian, did not have a lifeless expression on his face.

"This is the first opponent that has made me appear." That person spoke before instantly disappearing within the city gate tower. What everyone saw was a black figure that instantly headed in Long Chen's direction.

The people on the city gate tower were actually unable to react in time, until Lin Batian took a few steps back, sat on the ground, then looked at the crowd in a daze, and said excitedly: "Everyone, I, I actually have two royal fathers?"

That pair of black eyes was clearly the Sword Emperor that appeared in the dark night. Even his son Lin Batian only saw him as one person, but who would have thought that there would actually be two legendary unrivalled Sword Emperor s!

At this time, Long Chen also felt a huge aura sweeping towards him as well. He opened his eyes and saw a black shadow rolling down from the city gate tower, quickly arriving here like a whirlwind.

Long Chen was shocked. There were actually other Heavenly Completion Stage Rankers in the Imperial City?

However, when Long Chen saw the person's appearance clearly, he was even more shocked, almost unable to believe it, because standing next to the Sword Emperor was because of one Sword Emperor. The two Sword Emperor had the same appearance, without any difference, but the only difference was, one of their eyes was pure black, while the other one's eyes was gold!

The Sword Emperor with black eyes was unharmed, and the Sword Emperor with golden eyes had lost an arm!

Long Chen looked at the two of them and was extremely shocked.

He was no exception. All the people in the Imperial City had already lost their normal ability to think when they saw that two Sword Emperor s had actually appeared in their field of vision. This was because in their eyes, this was basically impossible.

and, strength is also Heavenly Completion Stage?

Most people in the Imperial City knew that the Sword Emperor cultivated a secret technique, that was why their eyes were black at night and golden during the day. But now, it seems like there were actually two legendary Sword Emperor s?

Everyone was stunned!

At this time, Ling Xi spoke in an astonished voice, "Brother Chen, I've discovered that these two fellows are actually the same person. When their souls join together, that is only a completed soul, but why would a perfectly fine soul split into two and then take over two identical bodies? This body, the golden one, has a positive true qi while the other one is negative. Even I have never seen such a miraculous thing! "

One soul, actually split into two, occupying two identical bodies, possessing the same strength?

To Long Chen, this was an extremely unbelievable matter.

Long Chen took a deep breath in and calmed himself down. He knew that the most urgent matter he had right now wasn't the appearance of the Black Eyed Sword Emperor, but rather, how to deal with the two Heavenly Completion Stage Warriors!

One of the Sword Emperor s had already been wounded to the point where he could hardly see. Now another one had appeared, what was going on? Because he was cooperating with the little wolf, Long Chen had basically locked onto the victor earlier, but he never would have thought that at this moment, there would actually be such a huge change. Seeing the extremely angry expressions of the two Sword Emperor s, Long Chen knew that what happened today was definitely not going to be good!

Everyone held their breath as they watched the battle below!

The battle today was simply too unexpected. The battle situation was off from Long Chen just now, but he did not expect another Sword Emperor to come out, so Long Chen was completely done for.

Seeing the expressions of the two Sword Emperor s, Long Chen knew something was wrong.

When the two Sword Emperor s were together, it was very easy for Long Chen and the Little Wolf to be separated. Long Chen could deal with one Sword Emperor by himself, but the little wolf absolutely could not!

"Little Wolf!" At this moment, Long Chen bellowed, his body immediately circling around the garden, and rushing towards the little wolf. When Long Chen moved, the others all followed suit!

"You want to save this beast?" A sinister laugh came about. Just as Long Chen made his move, the black-eyed Sword Emperor blocked his path ahead, and a resplendent sword qi shot straight towards Long Chen. Long Chen immediately used a Traceless Demon Shadow to dodge the opponent's attack, but because of that, he lost the chance to save Little Wolf!

He had already appeared in front of the little wolf. Although he was missing an arm and the blood Qi on his body had decreased, it did not affect him much. Merely by using one hand, he could release the power of his Heavenly Completion Stage and cause the little wolf to be unable to defend!

"Go to hell, Martial Dao Supreme Sword!" When it was close to the wolf cub, the Golden-eyed Sword Emperor suddenly used this move. The huge sword Qi suddenly shot towards the wolf cub, causing the ground to shake!

A cold light flashed in the wolf cub's eyes. As he retreated, his body immediately released endless flames, and in that instant, divine fire clones emerged from his body one after another. They lined up and rushed madly towards the Golden-eyed Sword Emperor's Martial Dao Supreme Sword!

Bang! Bang! Bang!

Under the Martial Dao Supreme Sword, the divine fire clones were shattered into pieces, however, every single one of them was able to weaken the Martial Dao Supreme Sword's power a little, and after the 30 divine fire clones were destroyed, the little wolf had already moved to the left side of the Golden Eye Sword Emperor. With a pu sound, the surging Nether Demon Ancestral Fire, under the control of the little wolf, swept towards the Golden Eye Sword Emperor again!

"It's that damned thing again!" This netherworld Devil Ancestral Fire was simply what the gold-eyed Sword Emperor hated the most. It was precisely because of this netherworld Devil Ancestral Fire that the golden-eyed Sword Emperor had lost an arm! Therefore, when he saw this Nine Hell Devil Ancestral Fire, he became even more angry!

The speed of the little wolf was simply nothing to the Sword Emperor. When the little wolf released the Nine Hell Devil Ancestral Fire, the Golden Eyed Sword Emperor used the Godspeed Nine Palace Steps to quickly dodge it!

A wild laugh came out, and the Golden Eyed Sword Emperor shifted his body in an instant, appearing on the other side of the wolf cub. At this moment, his hand exploded with the most activity, as rays of golden light howled crazily from within, and the image of the sword qi kept appearing!

"Bastard, you're not going to die this time, Emperor Sword Dao, Sovereign Sword!"

BOOM!

With an explosion, thousands of sword qi shot out from the Golden-eyed Sword Emperor's finger, completely not losing to Long Chen who used the Demon Emperor Sword! With such a massive attack, there was simply no place for the wolf cub to dodge after using the Nether Demon Ancestral Fire! "Aoo!"

Seeing that the little wolf was about to die in the hands of the golden-eyed Sword Emperor, Ling Xi immediately became anxious, "Brother Chen, quickly save the little wolf!"

At this time, as Long Chen was fighting evenly with the Black Eyed Sword Emperor, he was also getting closer to the little wolf. He had been paying attention to that area the entire time, and because of that, he was almost injured by the Black Eyed Sword Emperor several times.

"You want to go and save it? "Let's get past me first!" At this time, the Sword Emperor held the absolute advantage, so they laughed without restraint.

Indeed, his strength was originally a bit stronger than Long Chen's. Under his attacks, it was already enough for Long Chen to be able to preserve his life, so how could he guarantee the life of the wolf cub? If Long Chen had split his attention to save Xiao Lang at this time, he would have definitely died in the hands of the Black Eyed Sword Emperor!

However, even if he died, Long Chen would not retreat.

The appearance of the two Sword Emperor s was a surprise to him, so at this moment, he had no choice but to take the risk and use that move!

Under the threat of the Black Eyed Sword Emperor, Long Chen actually turned around and fled as if he was fleeing for his life. The Demon Emperor Sword activated its Devil Dao Supreme Sword, and compared to the attack of the Golden-eyed Sword Emperor, an attack that was not too far off, it blocked the attack of the little wolf in such a short period of time!

"What an idiot!" The Black Eyed Sword Emperor followed closely behind him. Seeing that Long Chen was going to block the attack of the Golden-eyed Sword Emperor, he suddenly thrust his finger out, and a Martial Dao Supreme Sword attacked Long Chen from another direction!

Even if Long Chen has three heads and six arms, I'm afraid he won't be able to escape death!

Chapter 430 - Time Reversal

When the Black Eyed Sword Emperor appeared, everyone knew that Long Chen was not in a good situation, especially when the battle started in a scattered fashion. That demon wolf was obviously not a match for one of the Sword Emperor, so as long as they killed the demon wolf, it would be a 2v1, and Long Chen would definitely die at that time.

But who would have thought that when the Golden-eyed Sword Emperor was about to kill the wolf cub, Long Chen would actually choose to block it? In that case, Long Chen would have to face the attacks of two great Sword Emperor s at the same time and if they came from different directions. Long Chen could only block one side, but the other side's attack was completely enough to take his life!

"Little Wolf, prepare the Nine Hell Demonfire, Golden-eyed Sword Emperor!" At this critical moment, Long Chen was very calm as he told the wolf cub, and at this time, he used all of his strength to unleash a strike from the Devil Dao Supreme Sword and the Golden-eyed Sword Emperor's Great Supreme Sword. Instantly, it created a huge shockwave that swept towards the surrounding area, and from this, it could be seen that Long Chen truly had the strength to fight against the Sword Emperor!

No one had expected that there were two in the Sword Emperor. Therefore, when Long Chen helped the little wolf resist the attack of the Golden-eyed Sword Emperor, the Black Eyed Sword Emperor's Martial Dao Supreme Sword immediately smashed onto his body, directly blasting a huge hole in Long Chen's body, causing his flesh and blood to fly in all directions!

Long Chen is dead!

Everyone saw it with their own eyes!

Everyone could see it clearly.

Under such a violent attack, Long Chen's body was practically shattered into pieces by the Sword Emperor's strike. Under such a situation, Long Chen couldn't possibly not die!

From their point of view, for Long Chen to be able to fight to a draw with the first strike of the Canyon Kingdom at such a young age, it was obvious how heaven-defying that was. For such a genius who surpassed Lin Zichen to die just like that, no matter how they thought about it, they all felt a deep sense of regret.

This rising star had died just like that.

The scene was completely silent.

Everyone looked at Long Chen's shocking corpse and for a moment, they were completely speechless.

The two Sword Emperors also stopped in their tracks, and looked at Long Chen's body that had not collapsed yet. They could feel that Long Chen's life was rapidly disappearing, and they believed that within a few breaths of time, Long Chen would completely die.

After they had finally gotten rid of Long Chen, the two Sword Emperor s looked at each other and heaved a sigh of relief. Honestly speaking, they did not believe Zhao Qingyun was their true opponent, but after today's verification, they did indeed witness the terror of Long Chen. They knew that if the two of them had not moved together, one of them would have definitely died at Long Chen's hands.

"Such a heaven-defying genius, to actually oppose me, he really deserves it!" Such a thought appeared in the Sword Emperor's mind.

Right at this time, Long Chen's body slowly fell to the ground, the two Sword Emperor s shook their heads, this meant that Long Chen had completely died.

Everyone on the city walls sighed.

For such a genius, everyone was looking forward to see just how high he would reach. Unfortunately, he died.

Otherwise, with his speed, he could have escaped immediately after the appearance of the two great Sword Emperor s. But he did not escape, and not only did he not escape, he even used his own life to exchange the two great Sword Emperor s' lives for the chance to let Little Wolf live.

Long Chen, even if it was true, would always be engraved in their hearts.

Long Chen's body was about to fall to the ground.

When everyone closed their eyes and couldn't bear to watch this scene unfold, no one saw a strange ripple suddenly appear on the chest of the badly mutilated Long Chen. This ripple instantly covered his entire body, and in an extremely, extremely short period of time, Long Chen's body actually fell back down once more.

In merely an instant, Long Chen's eyes completely lit up. He could not even see a single wound on his body, as if he had not been injured at all when he came out!

Even those who had personally witnessed the changes in Long Chen's body could not help but stare with their mouths wide open, unable to utter a single word!

If the appearance of the two Sword Emperor s had already caused great shock to them, then Long Chen's revival, and even the perfect revival, had already made them completely dumbstruck. Today's matter had brought about great conflict in their world outlook, and if they had not personally witnessed it, no one would have believed that such a thing would actually happen.

It was as if Long Chen's time was actually flowing backwards!

That's right, Long Chen had precisely gotten the heaven-defying ability that the Great Void Dragon Symbol gave him — — Time Reversal, which was why he dared to help the wolf cub block the attack. At the edge of death, Long Chen activated the Great Void Dragon Symbol and used the Time Reversal, allowing his body's time back to before he was injured.

As long as it was ten breaths, Long Chen could be completely saved!

The use of the Great Void Dragon Symbol was naturally quite heaven-defying. Long Chen had already tested it here, and the time reversal of the Great Void Dragon Symbol was indeed useful, but this time, he dared to use it boldly. His loss was something that exceeded the expectations of everyone except the little wolf and Ling Xi, and even the two great Sword Emperor s did not happen in a short while.

The wolf cub was lying in wait for this moment!

At this time, the Golden-eyed Sword Emperor was about to kill the little wolf, while Long Chen was in the middle of them, so he was the closest to Long Chen. The moment Long Chen was completely recovered, he waved the Demon Emperor Sword in his hands, and a Sword Qi of the Evil Emperor smashed onto the head of the Golden-eyed Sword Emperor who was just inches away from him!

Towards the Sword Emperor, Long Chen was undoubtedly very ruthless. This move of his, the Golden-eyed Sword Emperor did not even have time to react, both his eyes were directly hit, and instantly blood and flesh flew everywhere. The eyes of the Golden-eyed Sword Emperor was completely shattered by Long Chen in an instant!

At this moment, he didn't even understand what was happening. The little wolf, who had great understanding with Long Chen, jumped up, and the Nine Hell Devil Ancestral Fire that was filled with hatred was spat onto the body of the Golden Eyed Sword Emperor. The Golden Eyed Sword Emperor

that was crying miserably had completely turned into black hard ice, and like a sculpture, it stayed outside the city gate!

End, Golden Eye Sword Emperor is dead!

From the time of Long Chen's death to the time of the Golden-eyed Sword Emperor's death, only a little while had passed before such a huge change occurred. This change was too shocking. The group of people who were stunned just a moment ago had their jaws drop to the ground.

To them, this was far more than just a miracle. Amongst ten thousand people, at least nine thousand of them were wiping their eyes, thinking that they were dreaming. But after verification, they realized that they were not mistaken, Long Chen was still alive, he had mysteriously revived, and the golden-eyed Sword Emperor was already dead!

One move to reverse the flow of time had created such a huge contrast!

Of course, if Long Chen had the choice, he would definitely not dare to do it again, because the feeling of death was too terrifying and too painful. Someone without great perseverance would definitely not dare to challenge death to be reborn on the brink of death. In order to save the wolf cub and reverse the situation, Long Chen had risked coming here once. At this moment, he still had a lingering fear in his heart, if not for the fact that he was killed on his own accord, he would not have been killed the next time.

Silence.

Xiao Lang walked to Long Chen's side and looked at him with grateful eyes. Just now, not only had Long Chen saved his life, he had also given the little wolf a chance for revenge. Of the two Sword Emperor s, Long Chen was already satisfied after killing one of them. After killing one of the Sword Emperor, it would be much easier to deal with the other one. At least Long Chen could fight them all alone.

However, looking at the Golden Eye Sword Emperor that had turned into ice, Long Chen suddenly froze.

The Golden-eyed Sword Emperor and all the items on his body had already been turned to powder. In other words, his Qiankun bag was gone too.

The Nine Celestial Spirit Fruit was his final goal, if he lost it like this, he would vomit blood and die.

However, the situation at that time, for Little Wolf to use the Nine Hell Devil Ancestral Fire was the best choice to kill the Gold-Eyed Sword Emperor. In that moment of peril, how could Long Chen have thought about killing him? That was why his face instantly turned pale. Ling Xi noticed his change and immediately asked: "Brother Chen, what's wrong?"

The way Long Chen looked before he died had really terrified her.

"The Nine Celestial Spirit Fruit may not have any more," Long Chen said as he pointed to the corpse of the Golden-eyed Sword Emperor.

"Gone?" Ling Xi was overjoyed and immediately said: "Brother Chen, it might be because the heavens are against me leaving you behind, just listen to me this time. Although what you say makes sense, Xiao Xi really doesn't want to leave you behind, not even for a moment!"

"Enough, there's one more person." Long Chen's gaze turned gloomy. He would not give up, so his gaze landed on another Sword Emperor, that black-eyed Sword Emperor's face was filled with pain, probably because his soul was still connected, and the other one had died.

"Long Chen, how could it be like this!" The Black Eyed Sword Emperor roared out, he raised his head, and stared at Long Chen with his bloodshot eyes.

"Because I have an indestructible body." Long Chen said indifferently.

He took a few steps forward, sized up the Black Eyed Sword Emperor, and said: "If you can take out the Nine Celestial Spirit Fruit, I'll let you live. What do you think?"

"How did you know I have a Nine Celestial Spirit Fruit?" The black-eyed Sword Emperor was shocked, his eyes opened wide as he looked at Long Chen, his face filled with disbelief.

And at this time, Long Chen noticed that he had made a small movement: he actually covered his waist lightly, which meant, the Nine Celestial Spirit Fruit was truly on him!
