

War God 451

Chapter 451 - Purple Shadow Ferocious Lion

Under the orders of the middle aged man, the Martial Alliance warriors who had just killed the muscular man started rubbing their fists and wiping their palms, surrounding Long Chen.

Long Chen knew that his strength was only at the ninth level of the Milky Way Realm level. Killing one or two would not be a big deal, maybe they all knew that with Long Chen's strength, he couldn't possibly be the Long Chen that they wanted to catch. But, was it even related?

Long Chen deserved his bad luck when he was called that.

The Martial Alliance's work did not stop because of this, it was just that Long Chen had been separated from them, and the others all watched in horror as Long Chen was surrounded by the Martial Alliance Warriors, and seeing that he was about to lose his life, they quickly shrunk their necks.

The first time they had come to the Holy Martial Empire, the Holy Martial Empire had given them a horrifying reality. It was then that they clearly understood that they were peerless experts in a small place, but when they came to the Holy Martial Empire, they were just insignificant ants.

This was the principle behind why the people from the Martial Alliance wanted to give it to them. The big and sturdy man from before was an idiot, but Long Chen only gave it to him because he was unlucky.

Everyone watched this scene in fear.

I will not offend you all, so at this point, he said one last sentence, and said: "Everyone, I think you all have truly misunderstood. I am from the Canyang Kingdom, and the Long Chen you all want to capture, I presume his strength is not limited to ninth level of the Milky Way Realm, right? If you guys want to investigate, I can just follow you back. Think about it, isn't capturing a living better than a dead one? "

"Tsk tsk, boy, stop wasting your breath. If my boss wants you to die, even if your name is a cat or dog, you must die!" Then, they each threw a punch and charged towards Long Chen from all directions. As expected, the power of their Heavenly Completion Stage was not just for show, for a moment, the air exploded and Long Chen felt like a mountain was charging towards him.

Ever since he had absorbed one percent of the Primordial Blood Dragon's Inherited Blood Essence, Long Chen had yet to test just how strong he was personally. Right now, he was at the perfection-stage of the Milky Way Realm.

"The way of the Demon Emperor's Sword, Devil Dao Supreme Sword!" At this time, Long Chen had no other choice, the Demon Emperor Sword appeared in front of him in an instant. Long Chen swung his sword fiercely, causing numerous black sword blades to directly send everyone flying, and the arc of the sword images exploded out in all directions, turning Long Chen's surroundings into a vacuum state.

"There's even a good sword, at least a Heaven Stage Medium!" When Long Chen revealed his Demon Emperor Sword, the eyes of the warriors in Martial Alliance lit up, especially the middle aged man. In the beginning, he did not pay much attention to Long Chen, but what he did not expect was that Long Chen was able to resist, and even take out a good sword.

"All of you attack! Hand over his sword to me! Whoever kills him will be rewarded with a beautiful girl!" The middle-aged man let out a sinister laugh.

"Yes, boss!" When Long Chen revealed his weapon, a few more Martial Alliance warriors surrounded him. To them, one of them could kill Long Chen easily, let alone the fact that there were so many people around.

"I'll go first!" Without saying a word, one of the Heavenly Completion Stage Rankers rushed towards Long Chen. That might was vast and majestic, comparable to the Sword Emperor in here, but Sword Emperor was the lord of a country. He was just a small member of the Martial Alliance.

"There are a total of more than two hundred Martial Alliance's people here, however, they are truly going too far. If I do not make a move today, I think it would be difficult for me to continue living." There are a total of more than two hundred Martial Alliance's people here, but, they are truly going too far.

Because he had absorbed 1% of the inherited blood essence, Long Chen's current Dragon Soul Transformation had become his greatest reliance. When the opponent's fist was already close to him, Long Chen decisively used the Dragonsoul Transformation, and the blood-red scales rapidly covered his entire body, elbows, knees, back, and other areas. The scarlet sharp bone spikes pierced out, causing his current appearance to become extremely sinister.

The wail of a crimson dragon was faintly discernible on every scale.

In the eyes of an outsider, Long Chen's powerless body had instantly turned into a bloody-cold killing machine. That dragon's scale, bone spikes and claws made everyone's scalps go numb, and what was even more terrifying was that the Ancient Spirit Qi that was being emitted from Long Chen's body had an aura that was difficult to resist. Even the Second stage of the Heavenly Completion Stage middle-aged man, upon seeing Long Chen's appearance, started to frown deeply.

"What kind of beast soul transformation is this, why does it look like I've never seen it before?"

"Its aura is very terrifying. It should be a bloody lizard or a flood dragon type demon beast."

"He doesn't look weak at all. A country bumpkin from such a small place actually has such a terrifying aura. This is truly an eye-opener."

Everyone was puzzled as they watched nervously.

The warriors of the Martial Alliance, on the other hand, had not made a move. They knew that a beast spirit body could only increase a person's strength by a few fold at most, so how much could one's ninth level of the Milky Way Realm be strengthened?

It was at this time that the martial practitioner who had attacked in front of Long Chen suddenly stopped after seeing Long Chen's Dragon Soul Transformation skill, and said with a cold smile. I also have a fourth grade heaven stage demon beast, Violet Shadow Ferocious Lion! "

With that, he also started to transform into the beast spirit body, his body suddenly grew thicker, his muscles expanded, purple hair frantically grew out from his body, his head also gradually grew bigger, turning into the appearance of a lion. The claws in his hands were stretched apart, making him look even more terrifying than Long Chen's claws.

The Purple Shadow Ferocious Lion's beast spirit transformation quickly made its body completely surpass Long Chen's.

Long Chen looked at this lion that looked like a human and laughed coldly. And as he laughed, that Violet Shadow Ferocious Lion instantly sped up and appeared before Long Chen in an extremely short

amount of time. Its huge claws struck towards Long Chen's head, and from the howling wind, it could be seen that if Long Chen was struck, his head would definitely blossom from the attack.

They thought that Long Chen could only dodge, but what shocked everyone was that Long Chen did not. He stood at his original position, as if he was scared stiff by the opponent's attack.

"He actually didn't dodge? Could it be that he was frightened?"

"That's only natural. The Purple Shadow Ferocious Lion is a fourth level heaven stage demon beast's soul. I wonder what kind of demon beast this brat's soul is.

Just as everyone was discussing, the Purple Shadow Ferocious Lion's claws slashed across Long Chen's head with a "dang" sound. Everyone imagined the bloody scene and felt a little nauseous, so they did not watch anymore.

However, what shocked everyone was that when those sharp claws directly struck Long Chen's body, a loud sound exploded out, and then, the huge body of the Violet Shadow Ferocious Lion was actually bounced back, falling onto the ground with a loud bang.

When he rolled onto the ground, he hurriedly covered his own claws. Everyone immediately looked over, only to realize that the roots of his claws had been broken, and were bleeding profusely.

No one expected it to be like this.

It was out of everyone's expectation.

"How is this possible? His head is actually so tough?" What exactly is the transformation of the beast spirit? " With a "pa" sound, the middle-aged man stood up from the stone chair, and looked at Long Chen with a face full of shock. The others also stopped what they were doing and looked at Long Chen in a daze, discussing amongst themselves.

"How can this fellow's body be this strong?" Oh my god, a move from the Heavenly Completion Stage Beast Fighters, upon hitting his body, was actually deflected back? "

"How abnormal must this be to have such an effect?"

Tremendous waves of shock rose in the hearts of the crowd.

However, this was just the beginning. Long Chen shot a cold glance at the middle-aged man, and then, his body immediately disappeared, the next time he reappeared, the Beast Fighters of the Purple Shadow Ferocious Lion was already in his hands. Without a second word, Long Chen smashed the martial artist down to the ground, and at the same time, raised his knee that was covered with sharp bone spikes.

Everyone inhaled a breath of cold air and looked at Long Chen in shock.

The mysteriousness of Long Chen killing a Beast Fighters with such ease was no longer within the scope of everyone's understanding.

Long Chen did not want to start a massacre, and did not want to offend the Martial Alliance either. Just now, it was just a demonstration, and so everyone's gazes turned to him, causing Long Chen to say to the middle-aged man: "I'll say it again, this is the first time I am in the Holy Martial Empire, and I am not one of you people. We do not care about the situation, if you continue to be unreasonable and force me, I will have no choice but to take action."

If the other party was a little afraid of the power that he had just displayed, then it was about time for him to stop.

However, Long Chen had still underestimated the Martial Alliance. The middle-aged man was not scared by him, and laughed instead: "Son of a bitch, you have truly turned the tables on me, in the Holy Martial Empire, there is no one who has ever dared to make a move against the Martial Alliance, and that is indeed interesting, but with your character, sooner or later, you will die, so I will send you off. Everyone, go, whoever can kill this brat, will have two hundred Tongtian Pill as a reward!"

Two hundred Tongtian Pills was a huge sum of wealth to them. Therefore, at this time, nearly two hundred Martial Alliance warriors swarmed towards Long Chen, or at the very least, blocked his way.

Chapter 452 - Killing

This was the biggest scene Long Chen had ever seen. However, ever since he had absorbed 1% of the inherited blood essence, his strength had explosively increased, and the toughness of his body had allowed his fighting strength to increase to a terrifying level.

Long Chen was prepared to test just how terrifying it was.

"I have already explained it clearly enough, and this guy obviously knows that I am definitely not that Long Chen, but he still wants my life. This Martial Alliance, isn't he a little too arrogant and despotic?"

There were some things that could be endured, but there were some things that could not be endured, because when Ling Xi left Long Chen's place, they had accumulated a sigh of relief.

Everyone knew the outcome would be, but from how Long Chen easily killed a Heavenly Completion Stage, it seemed like there would be no accidents at all.

Everyone, whether it was those from the Martial Alliance s or those who had just arrived in the Holy Martial Empire s, craned their necks to see what was happening.

Long Chen looked like a sheep that just ran into a wolf pack. Everyone felt a bit of regret, but in the next moment, everyone was stunned, so it was actually Long Chen that was the real wolf, while the others were the real little sheep.

"Puchi!"

Long Chen's body suddenly disappeared from where he was. When he reappeared, he was already behind one of the martial artists, and everyone could clearly see that Long Chen suddenly punched the martial artist's body, causing a huge explosion. The clothes on the martial artist's body suddenly exploded, and his face became deathly pale.

Everyone understood that Long Chen's punch had already completely shattered his internal organs.

"One ..." Long Chen counted softly. His strong body gave him an extreme speed and agility, allowing him to be relaxed and flexible amidst this hundred person free-for-all. He was like a true wolf, and in this group of one hundred people, one after another, he consecutively died under his fists.

"How is this possible!" In a mere instant, more than a dozen people had already died under Long Chen's fist. While the others couldn't even touch where Long Chen was, the Traceless Demon Shadow played a

huge role under Long Chen's feet. He was like a reaper as he swiftly swept across everyone's bodies, and no one could see his figure clearly, so no one knew when they would die!

As for the middle-aged man with Second stage of the Heavenly Completion Stage, she was already stunned. Several other Second stage of the Heavenly Completion Stage s came over to his side and looked at each other in dismay before saying: "Everyone, this Long Chen, could he be the Long Chen who was ranked third on the rewards list and had bounty for a hundred king crystal? That is something equivalent to ten million Tongtian Pill. "

"Impossible, that Long Chen, is rumored to already be a warrior who has surpassed the Heavenly Completion Stage, he's so weak. But this Long Chen, to have such a strong body, he must have a lot of treasures on him, he came from a small place, there's a high possibility that there are ancient ruins in those small places, and in the end, it's all because of him!"

"What should we do?"

"What else can we do? Wealth comes from danger. Today, we two hundred brothers are going all out, I don't believe that we won't be able to handle Long Chen! Think about it, ninth level of the Milky Way Realm already has the strength to instantly kill a Heavenly Completion Stage Ranker. If we were to obtain it, wouldn't that be? "

"Brother Lin is right!" When they thought about how they could also challenge someone stronger than them, everyone became excited. One of them quickly announced: "Martial Alliance, listen up, everyone put down what you're doing and focus on capturing this Long Chen. Whoever can kill him will be rewarded with a thousand Tongtian Pill!"

One thousand Tongtian Pill would probably be enough for people to reach the Fourth Level of the Heavenly Completion Stage. It had to be known that in order to train Heavenly Completion Stage, most of the time, one had to have sufficient true qi, and instead lacked Tongtian Pill, which caused many warriors to stagnate. A thousand Tongtian Pill was enough to make everyone go crazy!

"Kill!" instantly felt the pressure increase greatly. If the opponent's attack was a battle skill, when it hit his body, it would still make him feel pain. Furthermore, the majority of the attacks they used were Heaven Ranked combat skills.

However, almost forty people had already died in Long Chen's hands.

Long Chen helplessly waved his hand. After transforming into the Dragon Soul, his eyes had already turned blood-red, and at this moment, Long Chen suddenly took out the Demon Emperor Sword from

the Great Void Realm. After that, he displayed the Demon Emperor Sword, and the speed at which he killed increased by at least one fold.

Holding the Demon Emperor Sword in his hand, Long Chen quickly flew past the crowd. With a light wave of the Demon Emperor Sword, it was able to pass through the necks, hearts, and other areas of the Heavenly Completion Stage warriors.

Wherever he went, ghosts would cry and wolves would howl. One figure after another fell at his feet, and only those who realized that something was wrong from the very start, and then, would be able to avoid Long Chen's Demon Emperor Sword if they tried to flee frantically.

"Puchi!"

Just as they were about to drip, the Demon Emperor Sword was once again pulled out by Long Chen. Not much time left, it swept past the neck of another warrior who was rushing over, and instantly opened a huge hole in the ground as fresh blood sprayed out crazily!

More and more Martial Alliance people died in Long Chen's hands, and more people realized just how terrifying Long Chen was, and began to escape. Although the allure of a thousand Tongtian Pill was huge, it was nothing compared to their own lives.

"Let's go! Get lost! " Just at this moment, the leading few Second stage of the Heavenly Completion Stage experts saw that too many people had died, and frowned, they knew that if this continued, they would not be able to explain themselves, thus they rushed to the front, and chased away the others. The five Second stage of the Heavenly Completion Stage experts quickly surrounded Long Chen.

Long Chen looked up and realized that the ground was currently covered with corpses and blood, while the other warriors had all escaped in a sorry state. The people from the Universe Teleportation Formations had also escaped with their lives, leaving behind only the few Second stage of the Heavenly Completion Stage warriors who were surrounding Long Chen, including the middle-aged man who had ordered them to kill Long Chen.

"So they were killed so quickly? "It's really not enough to kill." Long Chen licked his lips, looked at the middle-aged man with some playfulness, and said: "What are you planning to do now? Are you letting me go, or are you the same as them?"

Long Chen pointed to the corpses on the ground.

A few Second stage of the Heavenly Completion Stage warriors looked at each other, and in that instant, after they said the word "go" to each other, they no longer spoke. Each of them was much stronger than the Sword Emperor that Long Chen had met back then, and Long Chen was also much stronger than the previous him.

"Floating Fist Shadow!"

With the middle-aged man taking the lead, the others started to use their Heaven Tier Battle Skills one after another. They surrounded Long Chen and started to attack together, creating a strong threat that caused Long Chen to frown.

However, before his powerful physical body, the attacks of others would be like floating clouds. Long Chen was only using his ninth level of the Milky Way Realm right now, but he had at least the body tempering technique of his Heaven Stage High Rank.

With the Demon Emperor Sword in her hand, Long Chen was in a position where one would fight with their life, he did not use any combat skills, and directly waved the Demon Emperor Sword, attacking one of the Second stage of the Heavenly Completion Stage warriors, and Long Chen only took care of him, allowing those attacks to land on his body!

"Die." The attack of the Second stage of the Heavenly Completion Stage was indeed many times stronger than the Heavenly Completion Stage Level 1, but Long Chen realized that he could still endure it, and his speed had reached its limit. In the eyes of the Martial Alliance warriors, Long Chen was just like a bolt of lightning, instantly appearing in front of them after receiving all the attacks.

In this last moment, the warrior could only open his eyes wide, his face was filled with despair and regret. His only reaction was to use his own arm to resist Long Chen's Demon Emperor Sword.

At this moment, the severed arm and the head, which had been unable to close their eyes in peace, flew into the sky, carrying blood with them.

In front of the huge temptation, they had chosen to fight. They had thought that no matter how strong Long Chen was, there would always be a limit, but it was a pity that they were extremely wrong. The Second stage of the Heavenly Completion Stage was still not Long Chen's limit!

"It would be too late now to understand." Long Chen thought in his heart. After killing the first Second stage of the Heavenly Completion Stage, his body did not stop as he suddenly turned into a devil shadow, and instantly appeared on the body of another warrior. When everyone reacted, the Demon Emperor Sword had already pierced through the warrior's chest, madly dripping blood!

Second Second stage of the Heavenly Completion Stage, die!

"Flee!" Words could no longer describe the shock and regret in their hearts. They all ran in three different directions, and with this, Long Chen might only be able to kill one of them. As for who he was going to kill, that would depend on his luck.

Seeing the three of them escaping, Long Chen's eyes flashed with a cold light, and then, his body disappeared quickly, because at this moment, when they had just escaped, one of them was instantly caught by Long Chen. Amidst his furious howl and struggle of despair, Long Chen covered his eyes with one hand, while the Demon Emperor Sword in the other hand quickly swept across his neck, causing blood to spurt out, and the Second stage of the Heavenly Completion Stage warrior stared wide-eyed with despair.

Chapter 454 - Three Great Martial Realms

Divine Sea of Immortality, Divine Phoenix Bird, Martial Emperor. Long Chen had only quietly memorized these words in his mind and did not ask any further questions. He started to head in the direction of Huangwu City with the Jiang City. During the journey, he asked: "Brother Jiang, I wonder what's going on with the Martial Alliance's bounty list?"

"The Martial Alliance is the largest organization in the entire Holy Martial Empire, and is the leader of all the forces in the world. They have always been a core of the Holy Martial Empire, and within the Holy Martial Empire, there are people who listen to the commands of the Martial Alliance, but there are also some ignorant people who do not follow the rules of the Martial Alliance, and are even enemies of the Martial Alliance. These people are all extremely vicious, and can kill without blood nor being seen.

Pausing for a moment, the Jiang City continued to speak with excitement: "In the bounty board, every warrior who kills one of them will receive a corresponding reward. The bounty list's top ten warriors, the reward's Heavenly Completion Stage has already exceeded tens of millions of Tongtian Pill, and the warriors in the top three will receive a bounty for their precious king crystal! king crystal is something rumored to be required for the cultivation of the three Martial Cultivators. Their uses are much stronger than Tongtian Pill's! "

"Over ten million Tongtian Pill?" Long Chen was a little stunned, this Martial Alliance was really strong, it was just a bounty for a warrior, yet it actually raised the price to ten million Tongtian Pill, it was just too terrifying. Martial Alliance is really rich!]

In fact, had never even heard of anything like king crystal or three great Martial Realms.

Seeing that Long Chen had a face full of suspicion besides being shocked, Jiang City knew what he was thinking so she explained, "You probably don't even know about the king crystal and the three great Martial Realms, right?"

Long Chen shook his head. He hadn't even reached Heavenly Completion Stage yet, so how could he know what the Three Great Martial Realms were?

Jiang City smiled and said, "It's alright. Let me tell you right now, above the four great foundation realms, dragon veins, divine pellets, heavenly rivers, and Heavenly Completion Stage, there are three great martial arts realms. The three great martial arts realms are respectively the Earth Martial Stage, the Heaven Martial Stage, and the Divine Martial Stage. Four Foundation Realms and three Martial Realms. This was the entire path of cultivation! On the path of cultivation, even Heavenly Completion Stage are only the basics. Only by reaching the three great Martial Realms can one be called a true expert! "

"I wonder, how many Earth Martial Stage, Heaven Martial Stage and Divine Martial Stage experts are there in the Holy Martial Empire?" Long Chen was shocked, and immediately asked.

"Do you think that the strong are like dogs? Do you think that they are everywhere?" Jiang City laughed helplessly and continued to speak, "In Holy Martial Empire, even the Demon Emperor, Huangfu Family, and even Martial Emperor, are only experts in the Earth Martial Stage. According to legends, the number one ranked Holy Dynasty s only have one or two super existences in the Ten Great Saints! As for that Divine Martial Stage, it doesn't even exist in reality. Only the ancient legends say that the experts of Divine Martial Stage exist! " Jiang City was extremely agitated, saliva flying from her mouth.

Long Chen's expression was very excited, but his heart was extremely calm. He secretly noted down the Earth Martial Stage, Heaven Martial Stage, and Divine Martial Stage; He knew that in the Holy Martial Empire, Heavenly Completion Stage was the foundation, Earth Martial Stage was the strong, and the strongest expert was also in the Earth Martial Stage. As for Divine Martial Stage, there shouldn't be any in Realm of Myriad Kingdoms.

The Jiang City thought that Long Chen was just a countryside bumpkin, but in truth, Long Chen had seen a lot more Rankers than him.

"I reckon the people over at Ling Xi's side, her grandmother, her father, and her mother, are all experts in Divine Martial Stage, or maybe even more powerful." Long Chen guessed in his heart.

"So, Brother Yang, what I want to tell you is that your strength might be considered very strong in your hometown, but after you come to Holy Martial Empire, you are really nothing. So, Brother Yang, what I want to tell you is that your strength might be very strong in your hometown, but after you come to Holy Martial Empire, you are really nothing. Jiang City looked at Long Chen seriously, and said sincerely.

"You're right, I have heard of the Ancient Devil Region before, and now I plan to go to the Ancient Devil Region's side as well." Long Chen said with a smile.

"Ancient Devil Region?" Jiang City's face flashed with a strange light.

"What's wrong?" Long Chen was a little doubtful.

"No no, the Ancient Devil Region is very good. The Ancient Devil Region's Domain Lord — — Mo Huangjiangwuxie, is a top-notch expert, and he even has the same surname as me." Jiang City hurriedly smiled and said.

Long Chen nodded his head, he had some suspicions in his heart, but he did not say it out loud.

"Brother Jiang, what is that king crystal?" Long Chen suddenly thought of something he didn't understand.

As long as one reaches the three Martial Realms, they would be able to absorb the Martial Spirits within them and assist in their cultivation. As long as they have enough king crystals, their cultivation speed can definitely increase by many times. King crystals, Emperor Crystals, and divine crystals are the most popular treasures among the cultivators in the three Martial Realms, and they are suitable for the Earth Martial Stage, Heaven Martial Stage, and Divine Martial Stage. However, there are not many Emperor Crystals in the entire Realm of Myriad Kingdoms and those divine crystals are only something from legends. "

Jiang City sighed with emotion.

"This king crystal is also a currency, right?" Long Chen asked. Regardless of where it was, this thing that was extremely useful for cultivation was used as a currency.

"That's true, Brother Yang. Do you know that the value of one king crystal is basically 10 million!? Ten million Tongtian Pill, what kind of wealth is that? If that person is able to kill the top ten rankers on the bounty list, then he will be rich! "

Long Chen laughed awkwardly, and said: "Amongst the top ten rankers in the bounty list, there should be Earth Martial Stage, right?"

"Of course, the top three rankers are all Earth Martial Stage. Even the third ranked mysterious Ranker, Long Chen, is an expert from the Earth Martial Stage! Let me tell you, this Long Chen only managed to get third place in the bounty list in the recent few months. At that time, he caused a huge sensation in the entire Holy Martial Empire! Because, this Long Chen had directly killed the important figure of the Martial Alliance! Who exactly is it that doesn't know, but the Martial Emperor was furious and directly raised Long Chen's bounty to one hundred king crystal! " When he mentioned Long Chen, Jiang City's eyes were filled with worship.

Long Chen was a little speechless, it seemed like that Middle-aged Fighter was just playing with him, with Long Chen's strength, it was impossible for him to be the Long Chen who was placed third on the bounty list.

"Brother Jiang, in the Holy Martial Empire, how are demon beasts, spirit medicine, and divine weapons divided?" Long Chen thought about this and asked.

"In the Holy Martial Empire, heaven stage demon beasts, their battle skills and spirit medicine are the most common. Heaven stage items are spread throughout the entire Holy Martial Empire, and generally, items that exceed heaven stage are considered treasures, and demon beasts that surpass heaven stage are considered top grade demon beasts. That Divine Phoenix Bird is a demon beast that surpasses heaven stage!"

"It's the same as the cultivation level. Spirit medicine, spirit beasts, and divine weapon battle skills, on top of the Heaven and Earth Profound Yellow foundation, there are three levels as well: king, emperor, and god, Deity Tier Battle Skills, spirit medicine, and divine weapons. There are not many battle skills and spirit weapons in the entire Realm of Myriad Kingdoms, and not many demon beasts in the royal level are in the hands of those peerless experts. As for king level entities, in our Holy Martial Empire s, they are considered precious treasures. That Divine Phoenix Bird, is also a king level demon beast. "

"Above the four basic realms are the three Martial Realms. Demonic beasts, Divine Weapons, Spirit Medicines, and battle skills are only at the king, emperor, and Divine level. Brother Jiang, is what I said

correct?" Of course, there are also king crystals, Emperor Crystals and divine crystals. " Long Chen organized the messy data in his mind.

"Of course." The Jiang City said with a smile.

Long Chen nodded, he obtained a large amount of knowledge from the Jiang City, and at the same time, the structure of the world formed in his mind.

"Thank you so much, Brother Jiang." Long Chen said with heartfelt gratitude.

"No need to thank me. However, Brother Yang, where did you get that demon wolf?" Jiang City suddenly looked at the little wolf, her eyes bursting with light.

"Naturally, it was brought here from my hometown." Long Chen was a little doubtful. Why was Jiang City always bringing up the topic of Little Wolf?

"I wonder where is Brother Yang's hometown?" The Jiang City asked hurriedly.

"That's not convenient to talk about, right? We just got to know each other." Long Chen thought for a moment, he still could not completely trust Jiang City. With Jiang City's power, if he ran into Canyon Kingdom, perhaps things would get out of hand. During the fight just now, he had also realized this problem, so he had killed almost all the people who heard the two words "Canyon Kingdom".

"Sorry, I was too impatient." Jiang City hurriedly smiled in embarrassment.

"I'm fine. But Brother Jiang, do you know the name of this Monstrous Beast?" Long Chen asked.

Jiang City laughed bitterly and shook her head, "The reason why I am interested in this demon wolf is because I have never seen this kind of demon beast before. To be honest, I've been very interested in demon beasts since I was young. I've read about all kinds of demon beasts, but I've never seen one with a sun mark on its forehead. I actually know that weak Moon Devouring Demonic Wolf. "

The words spoken by Jiang City did not seem to be fake. Long Chen thought to himself: "Looks like I am acting like a lowly person, after introducing the Jiang City to me so many times, and even preparing my identity gold plate with good intentions, I have to guard against him and hide things from him. However, in this foreign land, it is better not to completely trust him."

At this time, Jiang City raised her head, and said with excitement: "Brother Yang, look, Huangwu City has arrived!"

Chapter 455 - earth vein spirit

Long Chen raised his head and looked over. He saw a vast city appearing at the end of the horizon, looking like a giant city that was hibernating in the horizon. A vast yellow stream of air rushed towards the sky above the city from the city, sweeping towards the surrounding clouds. From the yellow stream of air, Long Chen felt a vast amount of Spiritual Qi of Heaven and Earth.

"What a dense Spiritual Aura!" Long Chen suddenly realized that the surrounding spirit energy of this city, which was surrounded by the yellow air current, was actually more than ten times richer than that of the Inverse Wonderland from before.

"Of course, the cities of the Holy Martial Empire are mostly built on the Feng Shui lines. Don't think that the land just now was barren, but in reality it is filled with earth veins, and the earth veins are flowing with the spirit energy of the heaven and earth. Just look at the Huangwu City, it is just a crack in the Feng Shui lines, and the spirit energy of the heaven and earth has surged up from the crack to the sky, causing the spirit energy of the world of the Huangwu City to be stronger than the place I am standing at by a hundred times!"

"No wonder the people of the Holy Martial Empire have such a powerful cultivation. Under the influence of such a strong spiritual energy, they must have been powerful since they were born, right?" Long Chen was a little speechless.

"Of course, a city like the Huangwu City can only be considered a medium level city. Basically, as long as a child is born in a low level city, they will be able to pass through nine dragon veins and reach the Ninth Stage of the Dragon-Meridian Realm realm. When they are one year old, they will be able to condense a Mortal Core!" Jiang City said with pride.

Long Chen was quite speechless, compared to others, this was truly infuriating. He remembered back then his grandfather, the Yang Ancestor, had trained for a lifetime before finally reaching the Ninth Stage of the Dragon-Meridian Realm, and the people in this low level city, Holy Martial Empire, were able to pass through nine dragon veins and reach the Ninth Stage of the Dragon-Meridian Realm realm right from the moment they were born!

"Huangwu City is the most famous city in the vicinity. Look at that city, the wave of yellow air current that goes straight into the clouds is the earth vein spirit that gushed out from the crack in the ground. With this kind of nurturing from the earth vein spirit, the residents of the Huangwu City, even if they did not cultivate, the ordinary people would still be able to reach the Earth Core Stage or even Heavenly Core. The Jiang City said as she rushed towards the Huangwu City.

Deep shock existed in Long Chen's heart.

Even the Holy Martial Empire had such a level, so Ling Xi's family might even be at a level above the Divine Martial Stage. With Long Chen's current strength, it would be strange if her parents were to teach him a lesson.

"Looks like I really have to desperately move forward." Long Chen secretly thought. No matter what, he still had a lot of capital. Everything was just a matter of time.

At this time, Jiang City continued: "Do you want to go to Ancient Devil Region? The Huangwu City is the biggest city beside the Ancient Devil Region, and the Ancient Devil Region is on the other side of the Huangwu City.

Long Chen nodded, and said: "Thank you, Brother Jiang. You have answered so many questions for me today, Yang Qing will definitely repay me well in the future."

"There's no need to repay him. Meeting by chance is fate. For the sake of fate, I will do whatever it takes." The Jiang City said with a smile.

His smile was rather pure.

Although he was still dressed as a hedonistic disciple.

Very quickly, Long Chen was nearing the majestic city. The city looked like the imperial city but its aura was much higher, the Canyang Kingdom's imperial city was exquisite, and the Huangwu City was vast and domineering, sinister and terrifying, just like a fierce beast, lying in wait, revealing its edge.

When they were approaching the Huangwu City, the Jiang City took out an identity gold plate and handed it over to Long Chen: "Brother Yang, this identity gold plate is mine, when you enter the city later, just assume that your name is the Jiang City."

"Then what do you need?" Long Chen asked.

"My family still has some influence, so I got myself an identity gold plate. However, the name of this identity gold plate is fake." The Jiang City said with a smile.

Long Chen nodded. He could still get himself a fake identity gold plate, but he was able to use it. Very quickly, they arrived outside the city gate. In front of the Huangwu City's city gate, there were at least a thousand warriors wearing the Martial Alliance's golden colored embroidered clothes standing there. Each of them had the word "Martial Arts" on their chests!

Long Chen followed the Jiang City and stood at the back of the queue. The procession quickly moved to the front, and in the Huangwu City, there were not many people who dared to make a ruckus, and the discipline of the members of the Martial Alliance here was a bit stricter. There were no situations where people killed innocents randomly, as everyone knew that there were still many people in this world that they could not afford to offend.

Very quickly, it was the Jiang City's turn. At this time, the Jiang City walked to the front and Long Chen carefully looked at it, only to see the Jiang City quickly taking out a gold identity gold plate from his Qiankun bag. Long Chen did not see the gold plate clearly, but when the guards saw it, their faces immediately revealed a respectful expression, and they slightly bowed, indicating that the Jiang City could enter.

Long Chen noticed this detail.

"Who exactly is this Jiang City?" Long Chen pondered.

"Jiang City, come over quickly." At this time, the opposing Jiang City hurriedly shot Long Chen a glance and said.

Long Chen nodded his head, and handed the identity gold plate that Jiang City had given him to the martial artist guarding the city. The martial artist looked at the identity gold plate, then looked at Long Chen's appearance, and only then allowed Long Chen to pass.

When he saw the name 'Jiang City', the guard did not have a respectful expression, but seeing that the Jiang City has the gold medallion in his hand, he was slightly awed. In other words, the gold medallion

that the Jiang City was holding is definitely lower than the identity that I am holding, and that is obviously his real identity. Long Chen realized this and his heart changed.

"Brother Yang, what's wrong?" Jiang City saw that Long Chen's expression was a little unnatural and immediately asked.

"It's nothing, I just felt a little surprised at the dense Spiritual Qi of Heaven and Earth in Huangwu City." Long Chen laughed and said, the Spirit Qi of Heaven and Earth here was much stronger than there was in Inverse Wonderland, and the Spirit Qi that was rising from the ground made Huangwu City feel as if he had become a hot stove.

In the middle of Huangwu City, Long Chen felt very comfortable.

"The Huangwu City is just a simple medium level city. When you are lucky enough to go to the Martial Alliance's headquarters one day, you will know that the real rich earth vein spirit is in the Martial Imperial City." The Jiang City revealed an envious expression.

"You've never been there?" Long Chen guessed.

"That's only natural. Those who have the qualifications to go to the Martial Imperial City are all heavyweight figures within the Martial Alliance. They are all places where the big shots of the Martial Alliance gather. I don't even have the qualifications to go there." Jiang City said while laughing.

Then, as they talked, they continued to travel through the Huangwu City. Long Chen sized up the people coming and going around him and sure enough, every single one of them were very powerful. Along the way, Long Chen basically had not seen any martial artists below the Earth Core Stage.

"Jiang City, are you bringing me to get your identity gold medal?" Long Chen asked.

Initially, he had chosen to believe in the Jiang City, but looking at the small details of entering the city, this Jiang City might not be as kind as he looked on the surface.

At this time, the little wolf was also in Long Chen's embrace, and it looked at Jiang City with a face full of suspicion.

"My friends from the Martial Alliance, they are in the west side of the city, and we are in the east side of the city, so we will arrive very soon. But I came to the Huangwu City today, and want to participate in a small auction to get some stuff started, and it looks like the auction is about to start, I wonder if brother Yang can delay it a little?" Jiang City said with some difficulty, his expression did not seem to be fake.

Long Chen thought about it, he had some blood escape abilities, and this Jiang City's strength should be around Third Level of the Heavenly Completion Stage, so he was not a threat to, so he nodded his head: "Brother Jiang has helped me with such a big favor, I will delay it for a bit, of course there won't be any problems, I hope Brother Jiang can lead the way."

"Thank you, Brother Yang." The Jiang City nodded her head in gratitude as she walked around the Huangwu City, gradually arriving at a building that was similar to the Morning Star Merchant Union. Under the welcome of the guards at the entrance, the Jiang City walked into the auction hall with Long Chen, and as expected, the auction was about to start.

Long Chen looked down from the window. At first, it was pitch black, but very quickly, it was bright. A beautiful girl, whose clothes were somewhat revealing, walked to the center of the platform, and started to interact with the guests.

The young girl's voice was very coquettish and sweet. Very soon, the crowd below was tickled by her. At this moment, the young girl laughed tenderly before announcing the official start of the auction.

"Yang Qing, don't worry, I came here today for one of the items, but I must auction at least 20 treasures this time. If Brother Yang needs them, I will do my best to buy them for you, it can be considered as your greeting gift, what do you say?" The Jiang City said with a smile.

"Thank you, Brother Jiang." Long Chen also laughed. He knew that this guy had something up his sleeve. If he really did give him something, he would definitely put it away.

Very quickly, the auction started. The first few items that appeared were all low-grade Heaven-ranked items, and it was indeed just a small scale auction. In a place like Huangwu City, there should be a lot of items from the Heaven Stage Medium.

Amongst these items, there were Red Lotus for Forbidding Blood s that were similar to Red Lotus for Forbidding Blood s, divine weapons and battle skills of Heaven Stage, and there were all kinds of battle skills. It was just a Heaven Ranked low grade battle skill, Long Chen did not need it, and Jiang City was also waiting for something later on, so they did not say anything for a while.

After auctioning more than a dozen treasures off, the little wolf in Long Chen's embrace suddenly stuck its head out, and looked towards the auction with its eyes wide open. Long Chen followed his gaze and looked over.

Chapter 456 - Your Mother's Division

"Next, I will auction the inner core of a demon beast!" At this moment, the pretty young girl was smiling. Under the convergence of all sorts of lights, someone was carrying a red tray to the young girl. At this moment, the tray was covered with a red cloth, making it impossible to see what was inside.

The girl pointed at the item on the tray and said, "Everyone, guess what it is?" I believe that everyone can already feel the rich fire attribute energy. That's right, this is a kind of demonic core of a fire attribute demon beast! "

As she said this, the young lady stretched out her hand and gently pulled open the beast core on the tray. Immediately, a fiery-red beast core that was still burning with flames appeared in the tray.

"Did everyone guess? This Spirit Demon Core is extremely beneficial to the cultivation of Beast Fighters. If there is enough Tongtian Pill, maybe it can let the Heavenly Completion Stage Level 1's warriors reach the Second stage of the Heavenly Completion Stage. Of course, Xiao Qin recommends that everyone refine it slowly, otherwise, the Fiery Lion's Spirit Demon Core might burn them! "

"Alright, Xiao Qin, cut the crap. Now I announce the starting price for the Blazing Lion: fifty Tongtian Pill! Everyone can raise the price now. "

After the young lady finished speaking, the rest of the people started increasing the bid, from 50 all the way to 80, and at the same time, Jiang City saw Long Chen's interested look and said: "Brother Yang, you want the Fiery Lion's beast core? That's right, Brother Yang is Beast Fighters, so this Fiery Fierce Lion's beast core is useful to you.

As he said this, he subconsciously glanced at the wolf cub.

"Thank you, Brother Jiang." Long Chen said.

"No worries, Brother Yang just came to Holy Martial Empire, it's normal for you to not have any Tongtian Pill. I'll bring up Brother Yang to buy it." Jiang City laughed heartily.

At this time, the price outside had already increased to about one hundred Tongtian Pill and no one was calling out a price anymore. After all, a third level Heaven Stage beast was only worth this price.

It was at this time that Jiang City shouted, "One hundred and twenty Tongtian Pill."

The young lady immediately revealed a look of pleasant surprise, because the price had already exceeded the Fiery Lion's market price, and the market price was also around a hundred or so. Without raising the price further, she announced that the Tongtian Pill of the Fiery Lion belonged to Jiang City.

The auction continued, and very quickly, someone brought out the Intense Flaming Lion's beast core. Then, the Jiang City gave the beast core to Long Chen, who obviously didn't want it for nothing, and took it.

"I hope Brother Yang can use this Demonic Core to raise your strength." The Jiang City said with a smile. His mood seemed to be extremely good all of a sudden, Long Chen didn't know why either.

"The Jiang City was still so happy even after being slaughtered by me. It seems like there are quite a few Tongtian Pill in the Cosmic Bag." Long Chen thought that if Jiang City had any ulterior motives, he would make a move sooner or later. Long Chen did not mind taking away his Tongtian Pill.

Following that, the auction continued and it was soon the end of the auction. The previous auction of a Heaven Stage Medium axe caused a huge sensation, and in the end, it was auctioned off for two thousand Tongtian Pill. And now, the final item had appeared. Under the influence of the beautiful young girl, the crowd was filled with anticipation.

"Everyone should be aware of the last item. There might be a portion of people who came here because of admiration. This is the final item of this auction. Come, hand over the mysterious treasure."

At this moment, another person brought a black tray over. This time, it was wrapped in a black cloth. The beautiful little girl maintained her smile as she gently lifted up the black cloth. In the middle of the tray, there was a bright neck ring with a diameter of about twenty centimeters, this neck ring was not normal, it was completely bright, but there was a strange aura coming from it, and at the same time, it had a bloodied scent. Long Chen looked carefully, as though there were a lot of spirit beasts roaring within the ring.

"This name: soul lock ring, is a spirit treasure of Heaven Stage Medium! Everyone knows its heaven-defying abilities, which is, only those demon beasts below the sixth level of heaven stage, including those below, can use this soul lock ring to control this demon beast, making it completely submit to you, forever submitting to you, this means that everyone can have a powerful battle strength at the sixth level of heaven stage! Who would want to miss out on such an advantage? Even if they were to go bankrupt, everyone would have to buy it! Hehe, Little Zither is just joking here, but soul lock ring are really precious, if we miss this chance, then we won't have another chance in the future. Everyone hurry up and increase the price, now I announce that the starting price of the soul lock ring is five thousand Tongtian Pill! "

Five thousand Tongtian Pill, that was already a lot, but it was just the starting price.

To the current Long Chen, five thousand Tongtian Pill was an astronomical number. However, what he cared about right now was not five thousand Tongtian Pill, but the soul lock ring. At this time, the Jiang City rubbed her hands together, preparing to start bidding, but Long Chen used Spirit Beast Language and started to converse with the little wolf in a low voice.

"Xiao Lang, you should know that something is wrong with the Jiang City, right?"

"I feel like he is calculating you. It looks like after buying the soul lock ring, he would have to make a move, but Big Brother, what is worth it for him to plot against you?" The wolf cub was also curious.

"A stupid wolf. He was obviously scheming against you, not your big brother!" Just then, the fat cat in the Great Void Realm sighed, looking like the two of them had no future.

"I understand," Long Chen said as he came to his senses and nodded his head: "Before, this fellow kept mentioning you, but I saw that he had done his research on demon beasts. Previously, he also said that he did not know what kind of demon beast you were, and I reckon that he knew that you were a Sun Devouring Demonic Wolf, and knew that you had talent, that's why he came here to buy a soul lock ring. Although a soul lock ring is only a Ninth Grade Earth Grade, but as long as he can control you and let you level up, wouldn't it be as easy as obtaining a super helper?"

"This guy is really scheming. If something didn't happen at the city gate, you, big brother, would probably have been tricked by him, right?" You actually want to use the soul lock ring to control me. The wolf cub said with a resentful expression.

"Jiang City is truly not bad, I think he already knew the list of items being auctioned, that's why she told me what they needed from the start and he would help me buy it. After I bought the Fiery Lion's beast core, he is even more sure that you are a Sun Devouring Demonic Wolf capable of devouring fire items to level up. So, even though he was killed, he still looked very happy. " Long Chen analyzed. Honestly speaking, he was also secretly shocked. He had always been thinking about what this Jiang City was planning to do with him, but she never thought that it would be with Little Wolf.

Even Long Chen was shocked by Xiao Lang's talent. In the future, if he cultivated properly, maybe he would be able to become a peak level demon beast. And for him to use just a soul lock ring to exchange for this kind of demon beast, wouldn't he earn a lot?

"This guy probably came to the Huangwu City to auction the soul lock ring anyway, but coincidentally, he met someone who was fighting with me on the road and knew of my origins. I'm afraid that he was only slightly interested in me, but after seeing the little wolf appear, he followed me and even lured me over to the Huangwu City!" Long Chen was already beginning to sneer in his heart. He was originally very grateful to the Jiang City, but after knowing his goal, Long Chen felt a little disappointed.

"Big brother, what should we do?" the wolf cub asked.

"It's alright, he's only at Third Level of the Heavenly Completion Stage, and I am not weaker than him. He has underestimated my strength, and when the time comes, I will do as I please. Let's see who the culprit is, I still want to get some Tongtian Pill from him!" Long Chen said with a cold smile.

At this time, Jiang City also joined the auction. The soul lock rings were indeed worthy of being the top treasures, and as the price continued to rise, they soon broke through to the ten thousand Tongtian Pills, amidst the increase in the price of the Jiang City's.

"This fellow is very scheming, but I believe that there are indeed a lot of forces in the family. When ten thousand Tongtian Pills were to speak, they would not even bat an eyelid." Long Chen was secretly shocked. One had to know that the Tongtian Pill in his pocket was only seventy of them, and once he reached the Tongtian Pill, the remaining Tongtian Pill would no longer be enough for him to enter Second stage of the Heavenly Completion Stage.

At the moment, the soul lock ring's auction was nearing its end, only a few people could participate in it, but it seemed like the Jiang City had the most money, so he was quickly impatient and shouted out a high price of fifteen thousand, immediately killing the others.

As such, the Jiang City obtained the soul lock ring.

After the auction ended, the Jiang City was in a very good mood. He kept the soul lock ring and patted Long Chen's shoulders, and laughed: "Brother Yang, the auction has finally ended.

"Brother Jiang is too serious. How could this be considered as delaying me? Isn't Brother Jiang giving me the Fiery Lion's beast core?" Even Long Chen himself does not know how to repay such a huge gift! " Long Chen said with a smile.

"Long Chen?" Jiang City was startled. He seemed to have heard Long Chen call himself Long Chen.

"What Long Chen? Brother Jiang, is there a problem? " Long Chen said his name tens of thousands of times, but he would definitely misspeak for a moment.

"Oh, oh, it's nothing. But since the auction has ended, I'll take you to get the identity gold medal!" Jiang City thought she heard wrong and laughed.

"That's great, I really have to thank Brother Jiang. When I become a Ancient Devil Region and accomplish something, I will definitely not forget to repay Brother Jiang!" Long Chen said with gratitude.

"It's fine, it's fine. Meeting each other is fate." Jiang City snickered.

"Bound to be your mother's share!" Long Chen thought in his heart.

Chapter 457 - Ancient Clear Three Seals

Thus, Long Chen followed the Jiang City out of the auction place, and under the lead of the Jiang City, they circled around the huge Huangwu City.

"Brother Yang, in a little while, we will reach the west side of the city. My friends from the Martial Alliance are there." Jiang City turned around and laughed heartily.

Long Chen also nodded with a smile.

He observed his surroundings and noticed that it was the west side of the city. However, the further he went, the more desolate this place became. The earth vein spirit in the west side of the city was extremely dense, so there were less people living here. In reality, there weren't that many people in the Holy Martial Empire, it was just that the population of a city like the Huangwu City was probably not more than the number of people in the Source Spirit City.

After all, the more experts there were, the easier it was for the weak to prey on the strong.

Very quickly, Long Chen and Jiang City arrived in front of a slightly dilapidated courtyard. It seemed like no one had lived in this courtyard for a very long time, so a lot of dust had been left behind.

"We're finally here. Are you in a hurry?" They're in there. " Jiang City gently pushed open the door, then brought Long Chen in.

Long Chen laughed coldly in his heart. At this time, the Jiang City had already exposed herself, because they had not lived in this courtyard for a very long time. How could there be people from the Martial Alliance staying here? Furthermore, the Martial Alliance was high up in the sky, why would they live in such a desolate place like the west side of the city?

Long Chen reckoned that the Jiang City was about to return to normal.

Following Jiang City, Long Chen quickly entered the center hall of the courtyard. This hall was very large and spacious, whether it was the ground or the tables and chairs were all covered in dust, one could tell with a glance that no one had lived here for at least ten years.

"Brother Jiang, is the Martial Alliance friend you spoke of here? Why does it seem like dust is everywhere? " Long Chen said while standing at the door.

At this time, Jiang City stood at the center of the hall, he slowly turned around, and the gaze she used to look at Long Chen had already become somewhat playful. He shifted her gaze onto the little wolf beside Long Chen, and said with a greedy look in his eyes: "Yang Qing, don't be anxious, they should be out soon, I think they will be back soon, how about I discuss a matter with you during this period of time?"

"Brother Jiang, what is it? Please speak." Long Chen pretended to be a little doubtful.

Looking at Long Chen's silly expression, Jiang City laughed coldly in his heart. To think that Long Chen did not discover anything even here, it could be seen how foolish Long Chen was. He looked at the wolf cub and impolitely said: "I would like to ask Brother Yang, all the way here, I have introduced you to the

various aspects of the Holy Martial Empire, and have even gifted you with the Fiery Fiery Lion's beast core. I will even make a gold medal for you in a while, am I nice to you?"

"Brother Jiang has indeed treated me very well. I will remember this great favor. However, what is Brother Jiang planning to discuss?" Long Chen asked.

Jiang City looked at the wolf cub with a passionate gaze and laughed: "The first time I laid eyes on this demon beast, I felt that there was a special relationship between us, and I truly loved it. I wonder how much Brother Yang would give me to this demon wolf, if possible, how many Tongtian Pills would be no problem."

"That's impossible, Little Wolf is my brother, how can I give him to you casually? Even if you give me ten million Tongtian Pills, that won't do." Long Chen decisively rejected. As he expected, this guy was after the wolf cub, and he had even prepared a soul lock ring.

It was because he did not want to take the risk and fight here, so he was prepared to use this kind of peaceful method to settle the problem. However, since Long Chen refused to drink the penalty wine, it was not his fault.

Therefore, the Jiang City said in a low voice: "Brother Yang, honestly, I must have this demon wolf today. Brother Yang is so determined, are you not going to give me a chance?"

Long Chen suddenly laughed.

"Alright, Jiang City, I won't be messing with you anymore. From the moment the soul lock ring came out of the auction, I already knew that you were up to no good. When you got close to me, you probably knew that he was a Sun Devouring Demonic Wolf, right?"

Long Chen said directly.

Jiang City was startled, she thought that she had plotted against Long Chen, he never thought that Long Chen knew all about his tricks, and it was just a form of humiliation to him, causing him to immediately become angry, her face immediately becoming gloomy, he coldly said: "So that's the case, but Yang Qing, you are too bold, since you know I plotted against you, you actually dare to follow me here?"

"Why would I not dare?" Long Chen said directly.

Long Chen's indifferent attitude caused a strong killing intent to rise up from the bottom of Jiang City's heart. He angrily laughed and said, "Alright! Good! Good! I originally wanted to give you a way out, but now that you yourself are seeking death, you can't blame my Jiang City. You brat, you can be considered to be a pretty good genius.

Long Chen didn't have the time to bullshit with him.

Since the other party wanted to kill him, Long Chen would naturally not let him go. With his personality, he would not let any of the enemies that wanted to kill him live in this world.

Moreover, Long Chen knew that this Jiang City was definitely not a lowly person. From his casual move, he had taken out fifteen thousand Tongtian Pills to buy a soul lock ring, and the amount of Tongtian Pills in his Qiankun bag must be pretty good. Right now, Long Chen needed them very badly, so since the other party had delivered them to his doorstep, he would naturally accept them.

The two sides faced off and were about to make their move.

And it was at this time that Long Chen began her Dragonsoul Transformation. There was no helping it, his current strength was entirely supported by the Dragon Soul Transformation skill, if not for the extremely strong dragon body brought about by the Dragon Soul Transformation skill, Long Chen's insignificant ninth level of the Milky Way Realm would not have been a match for this Jiang City.

He had once seen Long Chen use this Dragon Soul Transformation to kill from a distance, but he never thought that when he got close, he would discover that the aura on Long Chen's body was actually this terrifying. That kind of bloody and bloodthirsty aura that came from ancient times, actually made him have the urge to kneel and tremble.

"It must be an illusion!" Jiang City told herself secretly.

At the same time, his Third Level of the Heavenly Completion Stage strength exploded forth.

The Third Level of the Heavenly Completion Stage had already opened up the three great spiritual cavities, forming the three great centers of true energy within his body. The true energy was surging between the spiritual cavities and the galaxies in his body, erupting with a strong power that was at

least several times stronger than the warriors in the Second stage of the Heavenly Completion Stage. Furthermore, the background of the Jiang City was not ordinary, and there must be many secret techniques in the clan.

However, Long Chen found something else.

"Look at the way Jiang City uses his Zhen Qi, and his attitude when fighting. It seems like she has very little actual combat experience, and although his Zhen Qi is strong, it's unstable. Obviously she relied on a lot of drugs to forcefully improve herself!"

Long Chen carefully sized up the other party as he thought in his heart.

"The identity of this Jiang City should be the descendant of a top-notch existence in a great power, but she himself is indeed a rare piece of trash with powerful resources, and she only possesses the strength of Third Level of the Heavenly Completion Stage."

Very quickly, Long Chen had guessed all the secrets of Jiang City's family.

"Let's end this quickly."

Thinking about that, Long Chen dared to be ahead of the other party and instantly rushed towards Jiang City like a ball of blood colored illusion. His current speed was completely supported up by his strong body, so compared to relying on his True Qi, he was much more nimble and fast, he could even display a much stronger strength in this narrow environment!

"Not bad speed!" Jiang City acted tough and roared, seeing that Long Chen was about to attack him, he immediately slid down and rushed towards Long Chen, then used her Roc Spreading its wings instantly, the true energy of her Third Level of the Heavenly Completion Stage was extremely powerful, causing the air to vibrate, the seats in the center of the hall hummed, and they shattered into pieces!

Long Chen made the first move, but it was true that Jiang City made the first move.

"Gu Qing's Three Seals!" His fingers moved extremely quickly, just like the rapid movements of an insect's wings. In an extremely short amount of time, he quickly completed a handprint, and with his help, the handprint whistled as it flew towards Long Chen!

All of a sudden, the air started pressing down on them, causing the previously intact floor to shatter like a huge net.

"It should be a Heaven Tier Low Rank battle skill!" After Long Chen looked at it, he understood in his heart. However, if this Gu Qing Three Seal was truly used, it should be stronger than Devil Dao Supreme Swords by a lot.

It was just that, when used by the Jiang City, it did seem somewhat suffocating.

Long Chen stomped on the ground, and continued to attack the Jiang City in the air. In the process of rushing forward, the Demon Emperor Sword appeared in his hands!

"The way of the Demon Emperor's Sword, Devil Dao Supreme Sword!" Under Long Chen's command, the raging black sword edge immediately numbered in the thousands, welcomed the Jiang City's Gu Qing San Ying. It was obvious that this Gu Qing San had three changes imprinted on her sword, but Long Chen had directly sliced into his attack in a crazed manner!

"Even under the attack of Third Level of the Heavenly Completion Stage, you still dare to not dodge!" Jiang City was a little shocked in his heart, because Long Chen did not use a common way of thinking to attack him. He did not choose to fight him head on, but to directly attack Jiang City from the side!

In other words, if this continued, Jiang City's attack would definitely hit Long Chen, but Long Chen's attack would also hit Jiang City, causing both of them to suffer, and even both of them would die!

In response to Jiang City's shock, Long Chen only smiled indifferently and continued to use her side attack on Jiang City.

"You madman!" At this critical juncture, Jiang City had no choice but to pull back her attack, and then frantically retreated, wanting to escape from Long Chen's Devil Dao Supreme Sword.

"I really don't have much actual combat experience." Long Chen shook his head helplessly. He could tell that Jiang City lacked experience in actual combat with one glance, so he used this method to fight with his life on the line. He guessed that would choose to retreat first.

And Long Chen was using his retreat as an excuse to kill his enemy!

Chapter 458 - Nine big chakras

In that instant, Long Chen's speed increased by several fold, and at the same time, the Spirit Devouring Demon Pupil that he had not used for a long time, the charm of the first level, was used by him.

The Spirit Devouring Demon Pupil was a skill that Li Xuanji had imparted to him. Long Chen had only learned a hair's breadth of technique, and that already had a huge impact on him. Especially the third stage of the Spirit Devouring Demon Pupil's insight, this method of directly ignoring the surrounding objects and only seeing the soul was extremely useful for Long Chen.

At this time, Jiang City was looking at Long Chen with shock in her eyes. In Long Chen's bloodshot and hungry eyes, the word "Charm" could vaguely be seen, Jiang City was trying her best to force to retreat, in order to shake off this madman first, and then attack.

But just at this moment, he suddenly saw Long Chen's figure become extremely blurry, and even close to disappearing. His surroundings seemed to have become incomparably strange, as if there was a whirlpool in front of him that was sucking him in.

"How could this be?" Jiang City was depressed.

And at this time, Jiang City felt a fatal crisis. She had been in a daze for no reason just now, and it had caused his speed to slow down. But this minuscule change in speed had allowed Long Chen to successfully bully his own body.

"AHH!" The Jiang City let out a world-shaking scream, but unfortunately the human population was sparse, and no one could hear it, just at this time, Long Chen sneered, and the Demon Emperor Sword in his hand flew past the Jiang City's throat at an extremely fast speed, and pierced through!

Before Jiang City could even cry out, he was cut off by Long Chen's Demon Emperor Sword. Although her Third Level of the Heavenly Completion Stage was not considered weak in terms of strength, Long Chen had grasped onto his heart and suppressed him from the very beginning, which was why he was able to achieve success so easily.

At this time, Jiang City was not dead yet, her eyes were wide open as she looked at Long Chen in disbelief. Her breathing was like a gust of wind, his face was filled with despair, he knew that the moment Long Chen pulled out that sword, he would immediately die.

"Originally, you helped me this much and I am very grateful to you. However, as it turns out that you were scheming against me, you brought about such an outcome yourself. Friends aren't made like you, so when you go to the Underworld of the Underworld, you can slowly ponder over it." Long Chen said coldly.

Jiang City was simply unable to say a word. His eyes became dimmer and dimmer, until she was on her last breath.

This was the result of plotting against him, Long Chen.

Long Chen directly pulled out the Demon Emperor Sword, then the Jiang City's body slowly fell to the ground. Just as the Jiang City was about to die, her body erupted with a golden light, and a golden metal plate instantly broke through Long Chen, flying towards the sky outside. Long Chen was shocked, if he was not mistaken, that should be the real gold medal on the Jiang City's identity.

"I can't stay here for long." Long Chen frowned. In the shortest amount of time possible, he hurriedly took out the Jiang City's Cosmos Sack, and without even looking at what was inside, he moved all of them into the Great Void Realm. Then, in the shortest amount of time possible, he left the courtyard and headed outside the city.

"In the rough examination just now, the identity gold medallion called 'Jiang City' was still there, but when he entered the Huangwu City, the identity gold medallion that he used had already flown away. Could it be that his identity was noble, so when he died, his true identity gold medallion would return? That gold medal should be different from the one obtained by the 'Jiang City'."

Very quickly, Long Chen arrived at the west gate. There were also people guarding this place, so Long Chen took out the identity gold medal of 'Jiang City', and thought to himself: "This identity gold medal, is obviously not that brat's true identity, but rather his alias. If I stole someone else's identity gold coin and took it for myself, it might not fit the record, but this identity gold medal was originally used by the Jiang City to conceal her identity.

Very quickly, it was Long Chen's turn. Long Chen handed over the gold medallion, and after the guards checked for a moment, they nodded and said: Jiang City, alright, you can go now.

After this verification, Long Chen had confirmed that in the future, he would be able to use the identity of the Jiang City. At the Universe Teleportation Formations, because he had killed so many Martial Alliance warriors, Long Chen did not dare to look for the people from the Martial Alliance to obtain an identity gold medal.

"The name of the person ranked third on the bounty list is also Long Chen. He actually has the same name as me, but that should just be a coincidence. But it seems that from now on, I can only use the name Jiang City. " Long Chen was a little helpless, he already had the alias Yang Qing, but he never thought that he would have another name called Jiang City.

"The brat said before that after passing through the Huangwu City, this road should lead to the Ancient Devil Region. If I follow this road, I should be able to reach the Ancient Devil Region, but I need to find a remote place to properly count the rewards."

Of course, there was also the fact that the wolf cub wanted to swallow the beast core of the third level of the Heaven Ranked Intense Flaming Lion. He was now a beast of Ninth Grade Earth Grade, and with the beast core of a third level Heaven Ranked beast, the wolf cub was very likely to become a Heaven Ranked beast!

"Big brother!" At this moment, the wolf cub was also very excited.

"Let's go and find a place first."

Therefore, in the middle of the road, Long Chen saw a mountain in the distance, and he started moving quickly towards the desolate mountain. The Holy Martial Empire was incomparably vast, but there weren't that many people around, so it was quite desolate outside the city.

Using the Spirit Devouring Demon Pupil, he finally found a safe and quiet place. This place could be considered as a small cave, it was very quiet and also very safe, basically, no one would be able to get there, and even if someone arrived, Long Chen could easily find out after using the Spirit Devouring Demon Pupil!

"Little Wolf, take this Fiery Lion's demon beast and try to reach Heaven Stage as soon as possible." As soon as Long Chen arrived, he took out the Fiery Lion's beast core and gave it to Xiao Lang.

Just then, Cat said lazily: "If I let this smelly dog devour me in the Great Void Realm, I might get even more benefits."

Long Chen thought about it, the Great Void Qi in the Great Void Realm was more suitable for the wolf cub's evolution and if anything happened to Long Chen here, he would definitely be safe. Therefore, Long Chen nodded and sent the wolf cub to the Great Void Realm.

In the Great Void Realm, Long Chen divided into three areas, one of which was occupied by the kitten. It was a native of the Great Void Realm, so it was normal for it to occupy so many areas.

Of the remaining two areas, one was for the little wolf to rest and cultivate, and the other was for storing items such as Long Chen's Demon Emperor Sword. They were normally kept there, of course, including Tongtian Pills and so on. At this time, he started to check the rewards he got from the Jiang City.

"This kid doesn't seem to have much Heavenly Completion Stage with him. He spent fifteen thousand worth of money to buy a soul lock ring, and only five thousand are left in his Qiankun bag. It looks like his purpose of going out this time, is only to buy soul lock ring."

However, to be able to obtain five thousand Tongtian Pills out of thin air was already very good, and that soul lock ring was still in Long Chen's hands. If Long Chen sold it, he might even be able to obtain ten thousand Tongtian Pills.

The Jiang City had specially come for the soul lock ring, so the other things that they had brought along weren't many. Those miscellaneous things were all directly burnt away by Long Chen's flames. In the end, all he obtained were some low-grade Heaven Stage elixirs.

"Looks like this kid's father knows that if he comes out, he would be easily killed and his things taken away. That's why he didn't want him to bring too many things with him." This was especially the case for those high level battle skills. Once they were leaked, it would definitely deal a heavy blow to the power backing him.

Besides the five thousand Tongtian Pills, Long Chen's biggest gain this time was the identity gold medal in his hands. Without it, it would be hard for him to even take a single step in the Martial Alliance.

"Looks like it's truly just as Master said. I have to join a great power, otherwise, I'll be like a headless fly wandering around outside. How can I raise my strength? How can I obtain such a powerful battle skill?" Furthermore, right now I have already offended Martial Alliance, so no major power will be able to protect me. I can't either, looks like I must go to this Ancient Devil Region. "

Long Chen smiled bitterly and shook his head.

"After the little wolf has successfully devoured everything, I will begin to rush to Ancient Devil Region. But before that, I should have broken through my Heavenly Completion Stage."

Since the last time he absorbed one percent of the inherited blood essence, Long Chen's cultivation speed had increased by ten times. From ninth level of the Milky Way Realm to Heavenly Completion Stage, according to his original normal cultivation, it should have been several months.

From this, it could be seen how heaven-defying his current cultivation talent was.

"I have now completed the condensation of eighteen galaxies. Right now, my body is like a starry sky, and my zhenqi is like a flowing galaxy. And I still need to open nine more great chakras. Among the nine great chakras, there are a total of six spiritual cavities, two of which are Earth chakras and one Sky chakra. The first spiritual cavities to open them is danling aperture. "

The location of the danling aperture was actually in the Dantian realm, but ever since Long Chen had reached the Milky Way Realm, the Dantian was no longer in use. At this time, Long Chen wanted to reopen the Dantian, and once again open the core of his Innate Qi.

Seeing that the little wolf still needed a bit more time to cultivate, Long Chen sat cross legged and prepared to break through one of the four great foundation realms, the last realm of Heavenly Completion Stage.

Chapter 459 - Promotion of Heavenly Completion Stage

danling aperture.

In fact, of the nine great acupoints, danling aperture was the easiest to open. After all, danling aperture was the dantian, and it had previously been the core of true qi.

To open the nine big acupoints, one needed to use a sufficient number of Tongtian Pills to assist them in clearing their acupoints. Then, they would stabilize the acupoints and allow the true qi to occupy the center to form the core.

And at this time, Long Chen, whether it was his true qi or her Tongtian Pills, both had been prepared sufficiently. Very quickly, he took out fifty Tongtian Pills from the Great Void Realm, and directly consumed thirty of them. After the Tongtian Pills entered his body, it immediately turned into a sparkling and translucent white torrent, and started to sweep through his body. Under Long Chen's control, it gradually gathered with the true energy within his body.

After the Innate Qi completely merged with the Tongtian Pills' power, Long Chen thought for a moment and once again consumed the remaining twenty Tongtian Pills. Because of the uniqueness of his Innate Qi, just thirty of them were not enough to stabilize his Innate Qi.

However, even if there were a total of 50 pills, it would not be up to the standard he had expected.

"Fortunately I got the Jiang City's Tongtian Pills, or else I would be in trouble this time." Long Chen was rather speechless. He added Tongtian Pills bit by bit, and when the total number of Tongtian Pills increased to 300, his true qi, seemed to have truly transformed and gained the qualifications to attack danling aperture.

Other people reaching Heavenly Completion Stage Level 1, I think thirty Tongtian Pills would be enough, but I need three hundred of them. At this rate, when I reach Ninth Level of the Heavenly Completion Stage, how many Tongtian Pills will I need to use up? " Long Chen was already dumbstruck. He estimated that it should only be at the level of a million.

In terms of Milky Way Realm cultivation, I have never worried about the number of Tianhe Dan, it seems like there are always a lot of them, but since I came to Holy Martial Empire with no money, everything is different. Looks like in the future, I have to work hard to obtain the Tongtian Pills, if not, no matter how strong my Blood Refinement Qi is, it will be useless!

Long Chen secretly thought.

And just at this time, he started to use his true energy which had completely merged with the spirit energy of the Tongtian Pills, and started to rush towards the danling aperture.

Without a doubt, his true qi was violent, but with the help of the Tongtian Pill's gentle power, the violent true qi was successfully wrapped inside, allowing Long Chen to remain safe and sound, controlling the true qi in his 18 star veins at the same time.

Everything had been prepared extremely well, and Long Chen had cultivated himself to this level, not by using Blood Refinement Qi. Thus, his Heavenly Completion Stage Level 1 cultivation seemed to be much simpler than he had imagined.

"danling aperture!" At this time, the eighteen streams of True Qi had already completely charged into the Dantian. They did not charge forward, but rather, under Long Chen's control, they quickly rotated, and the eighteen streams of True Qi gradually formed into a small, sparkling, white vortex.

Long Chen felt that his dantian was about to explode.

"It seems that every level of training isn't easy."

He tried his best to endure, trying his best to not let this huge amount of Zhen Qi hurt his Dantian. Time slowly passed, and after a while, a small white pill gradually appeared on top of that white vortex, sparkling and translucent like the most beautiful jade.

These pellets were only the size of soybeans, but the power contained within them was nearly ten thousand times the original strength of a Divine Pill Realm Heavenly Pellet! This was the difference! It could also be seen how much stronger Long Chen's Heavenly Completion Stage had become since then.

"Success!" Long Chen heaved a sigh of relief, the white colored energy was still revolving around the small white pellet, but at this time, Long Chen lost control of his energy, and the energy started to flow back into the eighteen star channels. However, at this time, his dantian, which was his danling aperture, had already become the core of the eighteen star channels, and his energy was flowing in nonstop from the eighteen star channels, replenishing the whirlpools which were in the danling aperture.

At this time, the Tongtian Pill's power started to dissipate.

Now that it had formed a new cycle, they had succeeded and retreated. It could be seen that no matter if it was the true qi in the star river, or the whirlpools and pills in the danling aperture, the white color on it was gradually disappearing, and it had gradually turned into the faint red color of Long Chen's body.

And when Long Chen used the Dragon Soul Transformation skill, these colors would immediately change into a deep red color.

After the Tongtian Pill disappeared, the flow of the True Qi, the rotation of the vortex, as well as the rotation of the pill, had increased by more than ten times. Long Chen immediately felt an immense power coming from his body, as if his entire body was about to explode.

The roaring true energy quickly engulfed his body.

Long Chen could only endure.

During his patience, a new cycle gradually took shape, and then, it gradually stabilized. Thus, Long Chen truly reached the Heavenly Completion Stage, which completely activated it.

Looking at the light red whirlpool in his Dantian and the pills inside it that contained a huge amount of Innate Qi, Long Chen smiled with satisfaction.

"That pill should be active. When I am fighting, the pill will sink into the whirlpool, and then, a huge amount of true energy will burst out, and when not fighting, my body's aura will become a little more obscure, as if it is only comparable to the warriors of the first few stages of Milky Way Realm. This is probably the method they use to differentiate whether or not they have reached the Heavenly Completion Stage. "

Long Chen stood up and carefully checked his body.

"Seventy percent of the True Qi in my entire body is inside that tiny pellet. The True Qi flowing in the eighteen galaxies only accounts for thirty percent of it, but even so, thirty percent is still three times stronger than the True Qi I had when I was still at ninth level of the Milky Way Realm! That is to say, my zhenqi has increased at least tenfold! "

After successfully reaching the Heavenly Completion Stage, and opening up a new cultivation path, Long Chen's heart had already started. This was a very good start, as long as he continued, becoming superior to others would not be a problem.

"Now, just by opening the danling aperture, I am already this strong. I wonder how strong I will be once I open the six great spiritual cavities, the two earth cavities, and that one and only sky cavities, right?"

With my current cultivation speed, these should not be difficult. The most difficult thing right now should be the Tongtian Pill. The first floor already consumes three hundred Tongtian Pill, and these five thousand Tongtian Pill, seems like they can only help me reach the third floor of the Tongtian Pill, or even the Second stage of the Heavenly Completion Stage. "

Thinking of this, Long Chen became gloomy.

"Looks like you have to put in a lot of effort on the Tongtian Pill. Without the Tongtian Pill's stability, no one can break through the acupoints. After all, the acupoints are so weak, if you are not careful, it will be destroyed."

Long Chen thought as he felt the strength of his body.

"Tsk, it's really easy for you to be satisfied. However, at Heavenly Completion Stage, you already display such a pleasantly surprised expression. This god really can't help but want to laugh at you." In the Great Void Realm, the kitten looked like it despised all of them.

"At least, you can't beat me." Long Chen said shamelessly.

"What?" Boy, this god warns you, do not underestimate this god. If not for the fact that this god had spent ten thousand years of my life to revive your entire White Poplar Town, this god could have just sneezed and destroyed this Holy Martial Empire, do you believe me? " Cat was flustered and exasperated.

"What a great boast." Long Chen laughed.

"..." The kitten was speechless.

Right at this moment, Long Chen saw that, as if the little wolf had moved, and in the Great Void Realm, the little wolf's body had suddenly ignited with black flames, as if it had been reborn from a fire. Its body had undergone a huge transformation, and it was originally more than three meters tall, but now, it had actually shrunk to a size that was two meters tall.

After the flame disappeared, a terrifying aura was emitted from the wolf cub's body. This was an aura that belonged solely to the Heaven Stage demonic beasts. However, the wolf cub's aura was even more blazing and terrifying.

Just then, the wolf cub suddenly opened his eyes. In that instant, two rays of golden light passed through Great Void Realm and shone into the cave outside, lighting up the entire cave!

"What?" Long Chen was surprised to find that the little wolf's two eyes had become completely gold. The golden eyes were burning with burning black flames at every moment, just like the eternal sun in the sky. For a moment, Long Chen's eyes couldn't bear the pressure and he chose to close them.

When he opened his eyes, the two golden lights had completely disappeared, and the Little Wolf had also come out from the Great Void Realm. Long Chen looked carefully, only to see that the Little Wolf's eyes were still gold, and were still burning with flames. Even his four limbs were burning with flames, and the golden sun mark on his two eyes and his forehead formed a triangle, looking extremely terrifying.

"Big Brother, I feel that my strength has increased by a lot. Especially since I seem to have grasped a new talent!" The wolf cub said hoarsely.

"What is it?" Long Chen hurriedly asked with anticipation.

"Did you know that the Fiery Lion possesses a talent for controlling fire? Its control over fire could unleash fire in all sorts of ways, and it could even unleash 200% of its power. This is a rare talent. "

"What does it matter?" Long Chen asked.

"I'm now in control of this talent." Wolf said.

Chapter 460 - Fire Control Techniques

After saying that, the wolf cub gently spat out a flame from his mouth. Of course, this wasn't the Nine Hell Devil Ancestral Flame, it was just an ordinary flame that belonged to him, but this ball of flame was rapidly changing its shape in front of the wolf cub. It was even dancing around in the cave with great accuracy in its position and direction.

"So you're your newly awakened talent, Fire Controlling Technique?" Long Chen praised.

"Big brother, you misunderstood. The technique of controlling fire is only a technique that I brought with me after my talent appeared." The wolf cub quickly explained.

"What do you mean?" Long Chen still had not understood.

"After reaching the Heaven Stage, the talent that I awakened is that at the same time, the demonic core of a fire-attribute demon beast can not only increase its strength, it can also copy its talent to itself. It's like I swallowed the demonic core of the Fiery Lion, so naturally, I learned the technique to control fire." Of course, this talent has a certain probability of success, and according to my calculations, the probability of success should be around one third. " The wolf cub said excitedly.

"This talent is indeed heaven-defying. Right now, the Monstrous Beast you engulfed is too weak and doesn't have much strength. When you are fortunate enough to reach the peak, those Monstrous Beasts are all existences that can destroy the heavens and earth. All of them have heaven-defying abilities. The kitten interjected at this moment. To be honest, even it seemed to praise the wolf cub's talent.

It seemed that the wolf cub's talent was indeed much more important than the matter of him reaching the Heaven Stage.

"Congratulations, Little Wolf." Long Chen laughed.

"Didn't you also reach the Heavenly Completion Stage? My current strength, is still too weak for big brother. Thinking back to back then in White Yang Town, I was stronger than you by quite a bit, and it had only been a year, and the us at that time would definitely not think that we would be able to stand here today, one year from now, right? " The wolf cub sighed.

"Don't be so emotional. Who knows where we will be in one year? Now that everything has come to an end, we should hurry to the Ancient Devil Region. This time, no matter what, I have to go there and take a look. I came here to find a way to enter the Archaic Graveyard.

Thus, Long Chen brought the little wolf back to their previous path, and headed in the direction of the Ancient Devil Region. Now, the wolf cub's speed had increased by a lot. Carrying Long Chen, he ran in a

mad rush towards this direction. At the beginning, he did not meet anyone, but in the end, there were more and more people.

"The sky in front of us is even darker. Beneath the sky is an azure gray mountain range, and in the middle of the group, there are tens of yellow earth vein spirits soaring into the sky. Every single earth vein spirit's airflow seems to be much higher than that of the Huangwu City. The spirit energy of the Ancient Devil Region was actually so dense, to this extent, it was truly abnormal. However, with such dense Spiritual Qi of Heaven and Earth, there was barely any grass growing in the mountains. Why was that? Cat. Do you know? "

In Great Void Realm, Cat's eyes rolled back and said: "How would I know? This god has spent tens of thousands of years in order to save you, but now that my perception has decreased by ten thousand times, I can tell that on the land here, there is no living aura, only earth vein spirit, so anything that cannot grow is normal. "

"Life Qi? "What is this?" Long Chen said in shock.

Idiot, there are many types of natural spiritual energy. For example, the earth vein spirit is a very suitable type for cultivation, compared to the most ordinary type of spiritual energy in the Canyon Kingdom, the quality is much higher, and of course there are many types of spiritual energy that are stronger than the earth vein spirit, and the living spiritual energy is the most common type. The living spiritual energy covers the entire Dragon Sacrifice Continent and it is extremely dispersed. The kitten said proudly.

It had to say that its knowledge was even wider than Ling Xi. At least, Long Chen had never heard of such words.

"Life Qi has some important effects on the recovery of life, but since you have the time to reverse the flow, this is the most terrifying life combat technique, so you don't need to worry about the life energy anymore." Cat chuckled.

"What devoured him? What's so strange about this Ancient Devil Region? " This thought flashed across Long Chen's mind and he quickly stopped thinking about it. After all, this was not related to him at all.

Hiding in Long Chen's chest, Long Chen treated him as a real brother. Therefore, as long as the little wolf was not willing to return to Great Void Realm, Long Chen would absolutely not agree to it!

"Big brother, there's a small town up ahead. There's quite a lot of people." The wolf cub suddenly raised his head and perked up his ears, his golden eyes staring straight ahead.

Long Chen looked over, and indeed, a town appeared in front of him. This place was probably beside the Ancient Devil Region, which was why it was so lively here.

At this time, Long Chen saw many young warriors riding on mounts and rushing towards the town.

"So many people?" Everyone wants to enter the Ancient Devil Region to train? "It seems like I need to get to this town and gather some information." Long Chen knew nothing about the Ancient Devil Region, so this was the only way.

He was just at the Heavenly Completion Stage Level 1 so he didn't attract anyone's attention at all. Soon enough, Long Chen brought the little wolf and walked into the town.

Just now, at the entrance of the town, Long Chen found a few more people from the Martial Alliance.

As they walked along the road in the town, they saw many people coming and going. Most of them were young warriors, and their expressions were hurried and full of respect.

"Asking people on the streets is a bit rude. Generally speaking, restaurants and inns are the easiest places to listen for information. I have to find a restaurant first."

Before long, Long Chen had reached the largest restaurant in the town, the Wanfu Restaurant. Under the welcome of a waiter, he sat at the seat inside, ordering a few side dishes and a jug of good wine.

In this restaurant, many Young Fighters had already been specified, and judging by their age, they should all be under the age of twenty. However, all of them were already at the first or second level of Heavenly Completion Stage, and even at the level of Third Level of the Heavenly Completion Stage. In

the Canyang Kingdom, these people were all considered the top geniuses, but in this place, even though it was just a small town, there were already so many of them.

Long Chen soon found out that the reason why this town had so many people was all to participate in the Ancient Devil Region's entrance selection. The Ancient Devil Region's Entry Selection was held once a year, and this time, Long Chen coincidentally came at the same time. From what they knew, the entrance selection was only a matter of a few days, and the people who came here could already be considered a little late, so they had a very hurried expression. Most of them directly passed through the small town and headed for Ancient Devil Region.

"In this selection battle, there will be even more participants than before. I estimate that there will be 80,000 people who will be able to participate, and in the end, only 70 will be able to pass. And in the end, only seven will be able to become the direct disciple of the Seven Demon King! "The competition is really big, not many people can succeed!"

"Don't be discouraged, the Ancient Devil Region is a great power of the Holy Martial Empire. If they can enter the Ancient Devil Region, there will be endless benefits. I started from the time I reached the Heavenly Completion Stage at the age of sixteen, and after three consecutive years, I had failed. This year is my last chance. "

"Brother, I wish you success. However, the hope of obtaining Second stage of the Heavenly Completion Stage is somewhat slim. "

"It all depends on luck. In any case, this entrance exam doesn't just test one's true qi."

From their conversation, Long Chen learned a lot of information.

"Another entrance exam?" Long Chen had entered two forces before, one was the Lingwu Family, the other was the Demonic Palace. This selection would probably be similar to the selection of the Lingwu Family's outsiders.

However, the Ancient Devil Region was a force that was tens of thousands of times stronger than the Lingwu Family, and even the rules for elimination was much more terrifying. For eighty thousand people to enter into seventy people, it was about one in a thousand.

Brother, don't be discouraged, even if we cannot enter the Ancient Devil Region to become a cultivation disciple, we can still join the Martial Alliance. As the law enforcement warriors of the Martial Alliance, if

we perform well, we can be recruited into the higher ups of the Martial Imperial City, and become its higher ups.

"That's right, of course the Ancient Devil Region will fight for it. After all, the Ancient Devil Region will definitely summon in a good seedling that can truly go against the heavens. It has no competitive relationship with us!"

The news that Long Chen had heard came from all directions, so he was prepared to find someone to properly investigate the layout of the Martial Alliance. At this time, a huge commotion suddenly occurred at the entrance of the restaurant, as a little girl, who was carved in jade, ran in from the entrance.

At first glance, she saw Little Wolf, who was beside Long Chen, and her eyes immediately lit up.
