

War God 471

Chapter 471 - The Seven Great Demon Kings

Everyone already had their answer, so it was impossible to create a fake Aeolus. He laughed helplessly and said: "That's right, when we were attacking the heavenly magic pillar just now, the Jiang City was obviously stronger, so the champion of the second stage was the Jiang City! Of course, Zhao Wuji did very well. She obtained second place, got a total of ten thousand Tongtian Pill, and the Jiang City got thirty thousand! "

Thirty thousand, everyone looked at Long Chen with envious eyes.

Thirty thousand Tongtian Pill, with this number, for a long period of time in the future, not only would they not need to cultivate, they would not need to worry at all. One had to know that Tongtian Pill was basically omnipotent. As long as one had Tongtian Pill, they would have everything.

Of course, Long Chen obtained it with his own strength, so no one would have any objections towards him.

"Alright, today's selection battle is almost over, the second trial is already over, everyone else please leave the Ancient Devil Region along the same path. As for the remaining seven hundred people, all of you are about to face the most critical battle, and after this last trial, you will be considered the most honorable disciples of the Ancient Devil Region!" Aeolus said clearly.

The remaining people were all very nervous, but after thinking about it for a while, their lives would inevitably go through a huge change. This was the most important turning point in their lives, and only one out of ten people could make it in, so why not give it a try?

Thus, everyone was filled with fighting spirit.

"When you reach the second stage, the numbers on your hands are already uneven, so you must select a new number. Then, I will introduce you to the rules of the third stage!"

At this time, one of the disciples brought out a huge box. This box was in a sealed state. There was only a fist-sized hole on the top of the box and the inside was completely dark.

"There are a total of 700 pieces of paper inside. Each piece of paper has a number on it. Each of you, draw a piece of paper first. Otherwise, we will just be eliminated, the geniuses of our Ancient Devil Region are tens of millions, we won't even need you!" Aeolus said coldly.

"Is it finally the final moment? This Ancient Devil Region is indeed worthy of being a super power. Even the entrance selection is so troublesome, and ordinary people can't get in. This also guarantees that there will be endless geniuses in the Ancient Devil Region, and countless experts." Long Chen secretly thought.

With his current strength, his Fourth Level of the Heavenly Completion Stage and above were things that he could not handle. And in the Ancient Devil Region, there were more than a thousand with Fifth stage of the Heavenly Completion Stage s.

"In this powerful environment, victory will lead to rise and death to be eliminated. This time, I am going to go all out." Long Chen firmed his confidence.

At this time, it was Huangfu Qi's turn. After Huangfu Qi finished drawing, Long Chen also picked up a piece of paper, with the word 'one' written on it.

"Big brother, I'm number two, I'm number two, what are you?" Huangfu Qi raised his head, and said excitedly.

"One." Long Chen said truthfully.

"What a coincidence, Jiang City, it seems that the heavens are not on your side this time." At this moment, a strange voice sounded from behind him.

Long Chen didn't even need to turn his head to know that it was Zhao Wuji.

"What do you mean?" Long Chen asked.

Zhao Wuji waved the plate in his hand, and on it was the word 'one' written, and said: "This time, your good luck is up."

In this box, there were 100 '1'. It was normal to draw the same amount.

Long Chen was too lazy to bother with him. If they really fought, Long Chen would beat him up.

At this time, almost everyone had their own number.

"Now, let me bring you guys to a new place. It is my Ancient Devil Region's Martial Arts Practice Field!" Under the lead of the Aeolus, the remaining hundred people all followed him.

Very quickly, Long Chen and the rest arrived at a narrow valley. After passing through this valley, they saw light and a flat basin that was surrounded by small, pale gray mountains.

Just as he walked in, Long Chen felt that there were many experts hiding in the mountains around him. They were all hiding there to watch the battle. Amongst these people, most probably were disciples of Ancient Devil Region who had come to watch the show, or even people with a higher status.

With so many people gathered, Long Chen and the others felt a terrifying pressure. Long Chen knew that there must be a lot of old monsters from the Ancient Devil Region in this group of people, including the seven so-called Earth Martial Stage Rankers.

The three great Martial Realms were a whole new level. They were different from the four great Foundation Realms.

Then, Long Chen saw many black colored arenas in the empty space in front of him. Counting these arenas, he discovered that they were the same as heavenly magic pillars, there were a total of seven of them. The seven rings were arranged in the shape of the Big Dipper. On every stage, there was currently a black-clothed person. Among these people, there were old and young, both men and women, and their appearances were all different. However, there was one thing in common, which was that Long Chen could feel wave after wave of terrifying auras from their bodies.

"We pay our respects to the seven great demon kings!"

Just at this time, Aeolus immediately knelt down, and said with a pious expression.

"We pay our respects to the seven great demon kings!" Upon seeing this, the others all knelt down, Long Chen was not good to stand out, and pulled Huangfu Qi along to half kneel on the ground.

"ing to the seven great demon kings, Shen Feng has already brought the seven hundred selected seedlings to the Martial Arts Practice Grounds. As long as we carry out the final battle of the last stage, we will be able to select seventy decent disciples to fill up the various great King Palaces!"

At this time, one of the Demon Kings said, "Let the Divine Wind rise, all of you rise. This time, the seven of us are only here to accept disciples. We don't care about the selection process, you just have to follow the rules. "

After saying that, they all retreated, leaving the seven black arenas.

Behind the black stage, there were a total of eight gorgeous chairs forged from black metal. One of the chairs in the center was empty, while the rest sat in the middle of the other seven. Long Chen estimated that the place in the middle should be Mo Huangjiangwuxie's, and among the Ancient Devil Region, below the Demon Emperor were the seven great Earth Martial Stage's Demon Kings.

Only then did Aeolus lead the group to the seven black stage. He leaped onto one of the stages and glanced at the seven hundred young faces beneath him, and said: "Being able to come to this place is already not an easy feat, let me first congratulate you all. All of you are very good, but the world is always cruel. Only after a final ten to one elimination can you achieve your goals! "Completing the most important transformation!"

Now let me talk about the rules, each of you hold a card in your hand, each number corresponds to a stage, a total of seven stages, each stage has a hundred people, and the rules are very simple, when there are only ten people left on the stage, they will find themselves standing on top, then you are lucky, because you are already my Ancient Devil Region's disciple, boys, everything will end here!

The words of the Aeolus had a strong power to incite.

"Every stage will have ten people remaining. The most important reward for the remaining seventy people will be to become disciples of my Ancient Devil Region, and each person will be rewarded with a thousand Tongtian Pill!"

A thousand?

The crowd clamored. Only two thousand Tongtian Pill would be rewarded to be ranked third in the first stage, and in the third stage, as long as one could pass it, they would get a thousand.

"Of course, there will be a top three rankings for each stage, and the third stage will also be one! However, from the eighth to seventieth place, every Tongtian Pill would be ranked one thousand, and from the fourth to seventh place, each person would receive five thousand Tongtian Pill! Third place, ten thousand Tongtian Pill, second place, thirty thousand Tongtian Pill, first place, sixty thousand Tongtian Pill! "

The highest reward was actually sixty thousand Tongtian Pill. In other words, if Long Chen could become the champion of the last stage, he could obtain a total of one hundred thousand Tongtian Pill!

The rewards for being a Tongtian Pill truly made one envious!

"Of course, the Tongtian Pill s' rewards are only a part of it. As long as you can reach the top seven, you are lucky, because you will become the direct disciple of our seven great Earth Martial Stage Demon Kings! The seven great demon kings are the hall masters of the seven great king palaces in Ancient Devil Region. Their statuses are below one, above tens of thousands of people, to be able to become their disciple, they are destined to soar to the skies. Aeolus was filled with passion.

"Lord Demon General, isn't this stage only able to determine the 70th place? How can we decide the top seven and top three?" At this moment, a youth asked in confusion.

"That's simple!" Aeolus smiled faintly, and said: "After the top ten of each arena are decided, then the battle will begin again, and every arena will have only one person, and that person will be the top seven! Everyone was an arena master! Each arena master can become the Infernal King's direct disciple, and between the seven arena masters, there will be a final match. The third from last will leave, the second from last will be the second, and the final remaining will be the champion! "

This rule seemed very important, but if one did not have enough strength, who would still be able to stand in the arena?

Amongst the 700 people, the last to stand on the arena was the absolute champion!

Long Chen laughed, it turned out that the final test was real combat, no wonder Zhao Wuji said that Long Chen would definitely die this time. However, who was the real culprit?

Long Chen raised his head and looked at the seven Demon Kings behind the stage.

"The strength of the Earth Martial Stage gave me a vast and domineering sense of power, and Ling Xi's family was mysterious and terrifying. However, these seven great demon kings seem to be quite frightening. As expected of the top existences in the Holy Martial Empire! "

At this time, under the Aeolus's arrangement, everyone started to step onto the stage.

It was also a stage.

Chapter 472 - Scarlet Ghost King

Long Chen followed his arrangements and went up to the first stage. After going up on stage, he realized that the black stage was much larger than he had imagined. Over a hundred people were standing around vigilantly.

Long Chen was standing in one of the corners.

As for Huangfu Qi, she was standing on arena number two, so Long Chen was not worried about anything happening to the girl. In her group, basically no one would be her match, so she would definitely be able to enter the top seven, and the biggest suspense of this battle would be group one, because Long Chen and Zhao Wuji were both in the same group.

Thus, even though this group had yet to begin, it had already attracted the attention of the vast majority of people. Even within the seven great demon kings, there were several people who had their eyes fixed on this group.

Long Chen suddenly felt goosebumps all over his body. He did not turn his head back because the seven Demon Kings were sizing him up. Long Chen was the champion of the first and second trials, and he was also the dark horse amongst the dark horses. The dark horse was always the one who received the most attention, so they were all researching on Long Chen, the person who could actually suppress Zhao Wuji.

Only after a long while did the numbing feeling disappear.

"A strong person is indeed a strong person. Even their gazes are able to give me such a huge pressure!" Long Chen was secretly shocked in his heart.

Amongst the crowd, he saw Zhao Wuji's gaze. At this moment, Zhao Wuji was also looking at him. Zhao Wuji's eyes were naturally gloomy, and anyone could see the provocation in his eyes.

Long Chen and Zhao Wuji were two of the most famous people in this selection. Everyone knew how strong they were, so no one dared to offend them.

At this time, after looking around, the Aeolus announced the start of the battle.

As such, when the Aeolus was announced to have begun, no one dared to move against it in the beginning. Furthermore, since they were all just randomly drawing lots, there was basically not a single person who could be trusted by their side. Thus, when the Aeolus was announced to begin, no one dared to move.

Every arena, every person was fighting against the other 99 people!

At some point, there was a person in the arena who suddenly took action. After that person took action, all of the arenas would begin to move. Screams, howls, curses, all sorts of voices resounded throughout the training grounds. From the outside, every stage was filled with all kinds of lights, and even the Aeolus was dazzled for a moment.

If one were to beat someone to the ground or directly leave the ring, then even if one lost, those people would fall one by one and be thrown out of the ring in an instant. The number of people in the seven rings was quickly decreasing.

For the time being, no one dared to make a move against Long Chen, because there was a large vacuum around him and no one dared to make a move against him. Long Chen was also happy and at ease, he looked around carefully at his surroundings and smiled helplessly.

Those who were killed or lost in combat would be cleared out quickly by Ancient Devil Region's Rankers, and the number of people on the black stage became fewer and fewer. Long Chen's group also progressed quickly, and after about half an hour, there were only a dozen people left on the stage, while the other groups were about the same.

It was clear that they could not enter the Ancient Devil Region at the most critical time.

Up till now, no one dared to make a move against Long Chen. Of course, no one would attack Zhao Wuji. Thus, just by standing there, the two of them could directly make it into the top ten.

But at this time, they had begun to scan through the Third Level of the Heavenly Completion Stage. After going through it again and again, Long Chen counted and discovered that there were exactly ten people left on the stage, which meant that these ten people already had the qualifications to enter the Ancient Devil Region!

Other than Long Chen and Zhao Wuji, the other people's faces were filled with excitement!

From the 80,000 participants, they had successfully squeezed into the top 70. Today, they had already paid a high price. After finally obtaining such a harvest, they were all extremely satisfied and excited.

Out of the seven arenas, the top ten were gradually decided.

The number of people who could enter the Ancient Devil Region this time was already determined. The next thing to do was to snatch the first seven places and the top three places.

Those who were able to stay on the stage let out a sigh of relief, while those who had already left lowered their heads in dejection. This was because they were only a tiny bit away from the final step.

"Life is like this. If someone succeeds, then another person is destined to fail. When you fail, don't be discouraged. If you don't fall down, then there will be more opportunities waiting for you." Looking at these teenagers who had lost their souls, Aeolus consoled them.

"To be able to come here means that you are indeed very strong, so you don't need to be discouraged. There is still a chance for you to come back next year!"

After saying all this, the Aeolus had already arranged for people to send them off slowly.

Then, his gaze fell upon the seventy remaining people present.

"Congratulations everyone, from now on, you are all my Ancient Devil Region's disciples! This also meant that your lives are destined to be superior! Even if my Ancient Devil Region's disciples join the Martial Alliance's Law Enforcement Squadron, the positions they receive will be higher than those of ordinary people, and the cultivation you receive will also far surpass those of your peers! It can be said that your lives have undergone a huge transformation! "

The benefits of joining the Ancient Devil Region was needless to say, everyone was extremely excited.

However, the selection battle was not over yet.

"However, there is one more thing that we must do. That is, to determine the first seven places and the first three places from among you! If you can make the Infernal King your master, then your future will be even more limitless. Of course, if you don't have that strength, it's best not to try to be brave. If you get killed, then you will have to waste a disciple's spot in vain.

The words of the Aeolus were mainly directed towards the top ten of the Ring One, because there were two strong practitioners here, Long Chen and Zhao Wuji. From the test of the second stage, Long Chen's and Zhao Wuji's attack power far surpassed that of the others.

After hearing this, everyone in the arena smiled helplessly.

Only the people from Ring One started to leave the stage. When the Aeolus was announced to have started, there were only four people left from Ring One, Long Chen, Zhao Wuji and two other Fourth Level of the Heavenly Completion Stage Warriors.

They looked at each other, and actually charged towards Long Chen at the same time!

In their opinion, Long Chen's strength was still rather uneven, they might still have a chance. Furthermore, they were working together, so it might not be impossible for them to deal with Long Chen.

Long Chen did not dare to be careless with his cultivation, as he quickly transformed into Dragonsoul Transformation and crazily increased his strength. Since he was going to fight with Zhao Wuji, he did not hold back at all!

"Great Mantra of Dao-heart Seed!"

This was a low-grade heaven stage combat skill, so it was still useful to Long Chen. With the Dragon Soul Transformation skill, his true qi had increased to a level close to that of his Third Level of the Heavenly Completion Stage.

"Dao-heart type demon?" Isn't that the battle skill of the Scarlet Ghost King's Palace? " At this time, six of the seven demon kings had their eyes set on a tall, tall, and ugly middle-aged man. His eyes were large and small, and his face was riddled with holes. He looked like a ghost.

Seeing Long Chen use a Dao-heart type demon, a few Demon Kings were puzzled.

"Who knows where this grandson's Dao-heart seed was stolen from? But it's only the second floor, and is equivalent to a low-grade heaven-step cultivation method. Scarlet Ghost King sneered.

At this time, Long Chen's body instantly disappeared.

"Traceless Demon Shadow? Isn't this the The King's Hall of Clearing Seep's technique? " Everyone's eyes turned towards one of the beautiful woman. The woman slightly nodded and said: "This is indeed a low level Heaven realm cultivation technique from my The King's Hall of Clearing Seep. It's used pretty well."

And at this time, Long Chen used Devil Dao Supreme Swords to sweep towards the two Fourth Level of the Heavenly Completion Stage warriors with a loud bang. With the addition of all sorts of attacks, his strength had risen to a terrifying level!

"He can even learn The way of the Demon Emperor's Sword, could this brat be related to my Ancient Devil Region?" The seven great demon kings gloomily thought to themselves.

"Among these people, there are many disciples of my Ancient Devil Region who died outside. I think that this brat is lucky to have killed the disciples of my Ancient Devil Region and snatched away the secret manual, yet he still dares to display it in front of me. He must be tired of living!" Scarlet Ghost King gnashed his teeth.

After saying that, Long Chen's mighty attack directly sent the two Fourth Level of the Heavenly Completion Stage warriors flying. This was his second strongest attack from the back, so the two Devil Dao Supreme Sword's attacks were just right.

After all, coming here wasn't easy, so of course Long Chen wouldn't kill them easily.

Long Chen's actions, had won the praise of the majority of the people!

From the actual battle, they could tell that Long Chen's strength was indeed at the peak of this selection!

And at this time, the other stages were also nearing their end, the fastest was Huangfu Qi, he had just won first place, and was jumping and jumping happily on the stage, shouting at Long Chen: "Big brother, I took first place, quickly work hard, defeat that bad guy, let him have no descendants, no descendants!"

Everyone was speechless.

Huangfu Qi's words also made Zhao Wuji's face twitch a little. He furiously glared at Huangfu Qi and roared: "Bitch, shut up! Just wait and see who beats up who! "

In fact, in Long Chen's opinion, this Zhao Wuji was just a child. If he was outside, he would definitely be easily toyed to death by Long Chen. His strength was on the same level, but his experience and temperament were completely on a completely different level. Long Chen could even instantly kill him in this regard.

"Forget it, if I defeat him, I would probably be first. I will be the champion in three consecutive times, and will also have a hundred thousand Tongtian Pill. This time, I will be the one who will stand out!"

Chapter 473 - Silver Spear Wax

The seven black arenas were all about to show the final victor, but Ring One had caught most of the attention, because there were Long Chen and Zhao Wuji.

Even the seven great demon kings didn't want to miss the battle between these two youths.

And at this time, Zhao Wuji, who was in a confrontation with Long Chen, was already the one who could not endure it any longer. If not for Long Chen, he would have definitely won three consecutive victories, so he incomparably hated Long Chen and wished that he could swallow him alive.

So not long after Long Chen knocked the two Fourth Level of the Heavenly Completion Stage warriors off the stage, Zhao Wuji started to attack. In the second trial, the strongest move he used was the Di Wu Ji Finger, but at this moment, he actually took out a silver spear from his Cosmic Bag!

Long Chen looked carefully, the silver spear looked similar to the green dragon halberd, its entire body was covered with fine silver scales, the sharp tip gave Long Chen the feeling of a gloomy and cold poisonous snake.

"The divine weapon of the Heaven Stage Medium, the Silver Snake Spear! My Zhao Family's spear arts are unparalleled in the world, and that Di Wu Ji Finger is an evolved form of the spear arts, it's a Heaven Stage High Rank combat skill! Once I master the supreme existence of my Zhao Family's spear arts, how could your Jiang City's sword formation be my match? "

After he finished speaking, his silver spear turned into a silver thread and rushed towards Long Chen with a speed that was almost as fast as Long Chen's Traceless Demon Shadow.

"This guy's gun is pretty good." Long Chen praised in his heart. The figure of the Traceless Demon Shadow moved swiftly and his body immediately turned into numerous afterimages, appearing faintly in the middle of the black stage. Even the shadow of the Demon Emperor Sword could not see through it.

"Pretending to be ghosts?" Zhao Wuji let out a cold laugh. He had moved Long Chen to the limit and was very smart, so he chose to stay still and not change his mind. At the same time, he pricked up his ears and listened to the surrounding sound of the wind.

"Here?" Zhao Wuji suddenly sneered, the silver spear in his hand suddenly leaped out like a swimming dragon, silver long snake s gushed out from his silver spear one after another.

"Breaking the River of Qi!"

It could be seen that this was a combat skill from the Heaven Stage Medium. Zhao Wuji was worthy of being called a genius, even though he managed to learn the same battle skill from the Heaven Stage High Rank, he still wasn't able to slow down the battle skill from the Heaven Stage Medium!

"His perception is quite keen. It seems like the Traceless Demon Shadow no longer has any effect on experts at this level." Long Chen deeply understood that the rules for elimination in this world were extremely cruel. The Traceless Demon Shadow that was previously the strongest movement technique was easily broken by someone when it reached the Holy Martial Empire.

Everyone's progress was very fast, if the speed of progress did not exceed everyone's, then they would be easily eliminated. The Traceless Demon Shadow was previously Long Chen's treasure, but now it could only be considered a combat skill that could barely be used.

Only those supernatural abilities called Blood Refinement Qi were able to forever defy the heavens, and accompany Long Chen far away!

Facing Zhao Wuji's crazy move, Long Chen chose to retreat, Zhao Wuji aimed for the opportunity, and refused to forgive him. With a move, he rushed towards Long Chen, pushing him to the edge of the black stage.

"As expected, Zhao Wuji's family background is a bit behind. Although that Long Chen seems strong, in truth he suffered from a loss due to his Innate Qi and was suppressed from the very beginning."

"With just a mere Heavenly Completion Stage Level 1, no matter how strong your body is, it's fine to deal with ordinary people with Fourth Level of the Heavenly Completion Stage, but if you meet Zhao Wuji, it would be a tragedy."

Behind the arena, the great demon kings were all discussing.

As they spoke, the situation had reversed.

Honestly speaking, other than the aspects of Zhen Qi, Long Chen was much stronger than Zhao Wuji in many aspects. For example, Long Chen could complete a huge reversal from Zhao Wuji's silver spear just by using an elementary heaven class battle skill like Devil Dao Supreme Sword!

When Long Chen suppressed him, he found an opportunity. He directly used the Devil Dao Supreme Sword to cut off Zhao Wuji's momentum, and at the same time, he released another Devil Dao Supreme Sword!

In his hands, the Devil Dao Supreme Sword seemed to be endless. Although his single attack was not strong, every single strike combined together like a torrential storm that completely overturned Zhao Wuji, leaving him unable to react!

"You want to fight me with such a small trick? I think you should go back and drink your milk!" Long Chen laughed arrogantly, the current situation was completely opposite from before. Under Long Chen's attack, Zhao Wuji was forced to retreat continuously, the way he retreated was much more miserable than Long Chen.

And Long Chen's insult, made Zhao Wuji incomparably embarrassed and angry!

He had always been proud of himself since he was young. Today, not only did Long Chen suppress him, he also made him feel humiliated.

"Oh? You're going to go berserk? " Long Chen had already reached a perfect state of mind towards the little guy. He could already tell from Zhao Wuji's eyes that the competitive Zhao Wuji was already preparing for the Di Wu Ji Finger at this moment.

"Looks like this kid doesn't believe in the judgement of the heavenly magic pillar, to actually choose to fight me head on. This is truly inconceivable." Zhao Wuji almost fell off the stage because of this. With great difficulty, he managed to stabilize his body, the true energy in his body erupted as his fingers suddenly thrust forth. It was like a vortex, in the middle of the vortex, a bright, starlight arrow suddenly appeared!

"Di Wu Ji Finger!"

As Zhao Wuji explosively shouted, all of the attacks rushed towards Long Chen. To the outside world, it was as if Long Chen had been completely engulfed by Zhao Wuji's attacks in an instant!

"Dead?" Such a thought instantly appeared in the hearts of many people.

But that thought did not last long, it was broken by a sharp sword light, following that, sword beams that formed the array formation quickly surrounded Zhao Wuji, as though they were covering the entire sky, Zhao Wuji did not have any chance to dodge. Seeing the sword light from everyone, all of the sword beams had sword runes transforming them, the sword energies quickly changing between sword energies.

In just an instant, the Di Wu Ji Finger, which was also a Heaven Stage High Rank offensive skill, was completely destroyed by Long Chen's Heaven Punishing Sword Formation, and the might of the Heaven Punishing Sword Formation directly descended onto Zhao Wuji's body. This happened in a very short period of time, but Zhao Wuji was completely terrified!

Zhao Wuji had never thought that he would actually die in a selection battle. To him, this selection battle was only a place where he would show his talent, and not a place where he would bury his bones.

However, he had no way to defend against Long Chen's Heaven Punishing Sword Formation. That sharp sword beam had already completely pierced through his clothes, and very possibly, in the next instant, he would be cut into pieces by Long Chen's Heaven Punishing Sword Formation!

"Father!" "Mother!" Zhao Wuji's heart was in chaos, his mind a complete blank. At this moment, his heart was filled with ten thousand disbelieving regrets and despair, but at this point, everything was fate.

Long Chen was also hesitating on whether or not he should kill Zhao Wuji. In an extremely short period of time, a lot of information flashed through his mind.

Thinking about it, the Demon Emperor Sword whizzed towards Zhao Wuji's direction.

Just at this time, a fiery hot gust of wind directly blew Long Chen away, the overbearing force did not estimate Long Chen at all, and shook him until he almost fell off the stage. Luckily Long Chen used his Demon Emperor Sword to block the attack at the critical moment, otherwise, he would have been injured this time!

"Who is it!" Long Chen stood still and hurriedly looked over. He saw a tall man with ugly skin and scarlet red skin coldly floating in front of Zhao Wuji, looking at him with that ice-cold gaze. It was as if Long Chen had fallen into an ice cave.

"The power of the Earth Martial Stage is within reach, it is indeed extraordinary!" Long Chen was secretly shocked in his heart. He was not a foolish person, of course he would not rush up to argue with someone who was clearly one of the seven great demon kings. Instead, he politely cupped his hands and asked: "On this stage, it should have been my disciples participating."

He performed very well, even the Scarlet Ghost King would not be able to stab him.

Everyone was also thinking, why did the Scarlet Ghost King suddenly make a move when they saw that Long Chen was about to win? And judging from how Long Chen was pushed back just now, the Scarlet Ghost King seemed to be clearly biased towards Zhao Wuji.

The hearts of the youths who had just become Ancient Devil Region were a little unsettled, and they hurriedly waited for Scarlet Ghost King to answer. As for the others, they also looked over, and at this time, the other groups had almost finished their battles. Of the seven great Demon Kings' direct disciples, six of them had already decided on their rankings, and Long Chen was the only one left.

On the other hand, Long Chen had defeated Zhao Wuji with an absolute advantage, just like in the previous two stages. Although everyone was a little shocked in their hearts, it wasn't something that was difficult to accept.

Therefore, after Long Chen asked this question, basically everyone's eyes were on Scarlet Ghost King.

Zhao Wuji, on the other hand, had a deathly pale face.

"Why did I do it? Do I need to talk to you, kid? " The Scarlet Ghost King said coldly.

Since the other party came to be so arrogant, Long Chen was not afraid of him, and said: "Of course, Master is the one who is superior, the one whom I respect and respect, every Earth Martial Stage Ranker, I, Jiang City, admire him in my heart, but I heard that the Ancient Devil Region is a place with rules, and while we are following them and fighting on the stage, the Demon Lord is going to destroy them, I still do not understand, Master is a truly important person, I believe he will not argue with me because of my words, right?"

This time, most of the people in the audience were baffled. If Long Chen was eliminated, and Zhao Wuji became the arena master, they would not feel at ease anymore, and everyone would know that Long Chen's strength was definitely above Zhao Wuji's.

Chapter 474 - The New King

The reaction of the crowd was a form of oppression towards Scarlet Ghost King. He thought to himself, "If I directly kill this brat, then when the new disciples enter the sect, they will cast a shadow over me. When the Domain Lord returns, he will definitely punish me."

Thinking to this, he looked coldly at Long Chen, and asked: "Brat, I won't waste words with you, you just used the The way of the Demon Emperor's Sword, Traceless Demon Shadow and Great Mantra of Dao-heart Seed, these are all my Ancient Devil Region's secret scriptures, you can't teach them to others without permission, yet you are able to use them, don't you know that you once killed my Ancient Devil Region's disciples, and stole their secret scriptures?"

Hearing that, Long Chen immediately laughed, and said: "Lord Demon King is too arbitrary, I know the Ancient Devil Region's secret scripture, does it mean that I have to have killed people from the Ancient Devil Region before?"

Hearing Long Chen actually dare to talk to Scarlet Ghost King, one of the seven great Demon Kings, like this, everyone was practically prostrating themselves in front of him. At this moment, everyone raised their ears, trying to understand what they were saying.

If you didn't kill my Ancient Devil Region's disciple, would you have any other way? The Scarlet Ghost King said coldly.

Long Chen helplessly took out a black metal tablet from his bosom. It was precisely the plate Zhao Qingyun gave him when he left the Canyang Kingdom that had the identity of an ancestor named 'Guangyuan'. Long Chen said, "What is this?"

"This is the identity token of our Ancient Devil Region!" Scarlet Ghost King raised his eyebrows and a wave of heat wave pounced toward Long Chen. He laughed coldly: "Brat, you even stole my identity as a disciple of the Ancient Devil Region, and said you didn't kill my disciple of the Ancient Devil Region?"

Long Chen was also sizing up the Scarlet Ghost King. This Scarlet Ghost King was indeed powerful, but his brain was not very sharp. The other six Demon Kings did not move at all, only him rushing forward.

However, he was unreasonable and unreasonable, so Long Chen could only use logic to speak. As long as he could convince this guy, the other sixty thousand Tongtian Pill would be his.

Long Chen raised the iron medallion in his hand and said: "The name of this iron medallion is Guangyuan, you can go and check if there has been any disciple named Guangyuan in the past hundred years of Ancient Devil Region!"

"What do you mean?" The Scarlet Ghost King shouted in anger.

"Very simple, this disciple named Guangyuan was originally a disciple from the Ancient Devil Region. However, after he left, he casually found a small country in the Realm of Myriad Kingdoms and created a small branch sect called the Ancient Devil Region. Even today, my Jiang City was only the current head's disciple, and because he had mastered it, he came to the Holy Martial Empire and entered the Ancient Devil Region to cultivate. If Your Excellency doesn't believe it, you can go and check it out. "

What Long Chen said was basically true, and to be honest, The way of the Demon Emperor's Sword was only an early stage Heaven Ranked technique, among Holy Martial Empire, even if one was not a member of Ancient Devil Region, there were still quite a number of people who knew, and Scarlet Ghost King was just looking for trouble, now that Long Chen has the evidence, no matter how much he meddled with it, he would probably be scolded by the Domain Lord. Thus, he nodded impatiently, and said: "Since you did not kill my Ancient Devil Region's disciple, then forget about it."

After saying that, his body instantly disappeared. When he reappeared, he was already back in the seat of the seven great demon kings.

Long Chen still had a lingering fear.

If he was not quick-witted and thought of using Guangyuan's identity to resolve the crisis, he would have died due to Scarlet Ghost King's barbarity.

At this time, Aeolus looked at Long Chen and Zhao Wuji, and could only announce loudly: "Among the seven stages, the arena master has already been decided, and they are: Jiang City!"

When he read this name, Zhao Wuji knew that he had lost all hope. His original goal had been to win the three consecutive victories, but what he hadn't expected was that he had only gotten second place in both the first and second stages. And he had even been excluded from the seventh stage of the third stage.

He walked off the stage in a daze with his head lowered. His face was incomparably gloomy and terrifying as he tightly clenched his fists.

At this time, Aeolus announced to the arena masters of the other six stages.

In a bit, you will have the honor of being chosen by the seven Demon Kings to become their direct disciples. As for which Demon King's disciple you are going to be, it will depend on your luck! Right now, there is still one more person who needs to fight for the top three, and all of the arena masters must go to Ring One! "

Under the orders of the Aeolus, the seven victorious participants all stood on top of the Ring One. Of course, one of them was Huangfu Qi, who saw that Long Chen had also won, and was obviously incomparably happy, so she happily ran to Long Chen's side. Holding his face, with stars shining in his eyes, he said in worship: "Big brother! You're really great, hitting that bad guy until he piss his pants! "

"Isn't Qi Qi great too? No one on your side is a match for you. " Long Chen pinched her cheek and laughed.

"Big brother is bullying me, it's bad! But Qi Qi is not a match for big brother! " Feeling pain from Long Chen's pinching, Huangfu Qi hurriedly complained.

The two were very close, but the other five were very far apart.

At this moment, the Aeolus officially declared the start of the battle for the top three. Amongst the seven of them, Long Chen's strength was clearly visible to all present, and from the move that he used to defeat Zhao Wuji, no one present was able to withstand that move of his. Especially since his relationship with Huangfu Qi was extremely good, and Huangfu Qi was publicly acknowledged as the third strongest person, the publically acknowledged number one genius.

If it weren't for the other five teaming up to deal with them, no one would be able to resist their teamwork. Even if they joined forces, they might not even be able to win.

As a result, the five of them gave up on fighting with Long Chen and directly decided on third place.

Long Chen had already known that it would be like this, after defeating Zhao Wuji, he knew that he would be the champion.

To be able to become the disciple of the Demon King, he would soar into the sky from then on. So they did not fight hard, after all, they only obtained an additional five thousand Tongtian Pill, there was no need to risk their lives.

So, very quickly, they had determined the victor, leaving behind only a breathless youth. His age was actually about the same as Zhao Wuji, and compared to Zhao Wuji, he was only missing a portion of the Heaven Stage High Rank's combat skills. Him being able to get third place, could also be considered as being worthy of his title.

He alone was not a match for the two of them, so he tactfully decided to go down. After he went down, Huangfu Qi gave a charming smile and said: "Big brother, I do not lack Tongtian Pills. It seems like you need them a lot, so I'll give them to you!"

After she finished speaking, she also skipped off the stage.

Long Chen was the only one that remained in the upper echelons, receiving everyone's gazes.

A dark horse appeared out of thin air and completed an astonishing three consecutive victories!

Most importantly, his strength was only limited to Heavenly Completion Stage Level 1!

Long Chen's victory today was enough to become an interesting topic for the Ancient Devil Region's disciples. It had to be said that there were quite a few people in the Ancient Devil Region who were currently watching from the side, and the name "Jiang City" would resound across the entire Ancient Devil Region from today onwards.

He was just a newcomer, but the reason he was able to create such a whirlwind was mainly due to his outstanding results.

Long Chen enjoyed the attention paid to him.

"Rookie King. "This way of addressing me would probably fit me very well." Long Chen laughed helplessly in his heart.

And at this time, with the loudest voice possible, the Aeolus announced that it would at most be the top three in one stage. Long Chen had become a three-peaked consecutively disciple, so he was heavily mentioned by the Aeolus several times!

However, he knew that there were a lot of people who were more powerful than Long Chen who were crouching tigers and hidden dragons within the Ancient Devil Region. He was merely the king among the newbies, and in the entire Ancient Devil Region, he didn't have the qualifications to speak.

"This time's selection battle has completely ended. Congratulations to the seventy of you, especially those who have entered the top seven, for entering the next round of cultivation from today onwards!" And the first seven, you will now have a Demon King as your Master! Of course, it is impossible for the Infernal King to accept trash. If you do not show sufficient improvement within two years, you will all be reduced to the most ordinary disciples! " The Aeolus's cold and harsh voice woke everyone up from their daze.

No one can always be at ease. Only those who continuously improve can become the king among men.

"Next, the top seven disciples are invited to step out!"

Under the orders of the Aeolus, Long Chen brought Huangfu Qi and the other five disciples out. It was at this time that Long Chen turned around to take a look, and he coincidentally saw Zhao Wuji's resentful and venomous gaze.

He turned a blind eye and followed the Aeolus, arriving in front of the seven great demon kings. In front of them, even the Aeolus had its head lowered.

But Long Chen was thinking, seven people, seven disciples, how do they divide them?

Amongst the seven disciples, there were some differences in aptitude. For example, Huangfu Qi, who had such strength at such a young age, had the most outstanding aptitude, and the other five disciples, who were also around fourteen or fifteen years old, all had Fourth Level of the Heavenly Completion Stage. It looked to be much better than Long Chen. It looked like Long Chen had used his age to learn a few more battle skills and obtained victory today. In terms of talent, he was probably the worst.

Of course, this was only the view of an outsider. Long Chen had only cultivated for a year, and compared to the others, he was much shorter. His aptitude could only be described as terrifying.

There was a difference in talent, but the seven great demon kings were similarly on the same level, who would be willing to let a genius like Huangfu Qi be chosen?

Therefore, Long Chen was looking forward to see how the seven great demon kings were allocated, and who was his new master? Long Chen just looked at it. It seemed like among the seven great demon kings, other than Scarlet Ghost King, all of their thoughts and abilities were extremely terrifying.

Chapter 475 - King Qing Li

"Everyone, let's follow the old rules and draw lots." It was at this moment that a clear and cold female voice sounded beside Long Chen's ears. When Long Chen had just arrived, he had already seen that among these seven great Demon Kings, there was a woman who looked to be around thirty years of age.

Generally speaking, girls care more about their appearance, so Long Chen reckoned that this Evil Woman was probably over forty years old.

"So what if you're drawing? You don't have to earn so much money." There are both good and bad talents among these seven people. Who would be willing if we didn't draw lots? " At this time, another Infernal King said.

"Divine Wind, bring the items here. I know that you have already prepared everything." One of the Infernal King said.

Aeolus hurriedly nodded and walked in front of the Demon Kings. She took out a small box from her Qiankun bag and the seven Demon Kings, in order, took out a folded piece of paper. This method was very dirty, but it was very effective.

"The seven of them are arena masters of the seven arenas. Whatever number each Infernal King draws, they will correspond to that disciple. How about it?" Aeolus said respectfully.

"That's only natural. Everyone, let's open the note together." At this time, the only female that spoke was the Prince of Qing Li.

Everyone nodded their heads and opened the paper in their hands at the same time. In that instant, the seven great demon kings' expressions changed.

"All seven of you, raise your heads and let the Infernal Kings have a good look!" The Aeolus warned them, only then did Long Chen and the rest raise their heads. They had already lined up their positions, the number drawn by the Demon King would be obvious at a glance, which disciple would be the same as them.

Seep King smiled.

"Little lady, your name is Huangfu Qi, right? You see, out of the seven of us, I am the only female, and out of the seven of you, you are the only female.

The expression on the Duke of Qing Li's face had always been very cold, but when she opened the paper, she actually smiled for the first time. It could be seen how happy she was right now.

In the Demon King's heart, although Huangfu Qi had only obtained second place, she was the one with the strongest talent out of the seven. He was also the disciple that the seven great demon kings wanted

the most. Now that Huangfu Qi had become king of Qing Li, all of their eyes were filled with jealousy and envy.

"Congratulations to the Pure Li King, but unfortunately, I drew three. Fourteen years old, and Fourth Level of the Heavenly Completion Stage, not too different from the previous years. "

"Me too, I got five."

"I'm Number Four."

"Six."

"Seven."

The other Demon Kings had all announced their numbers, one after another, but when the number two to seven came out, they were all missing one. Everyone was startled, and looked at Scarlet Ghost King, and only then did everyone realise that Scarlet Ghost King's face was filled with depression and misfortune, and was even a little angry, and directly burnt the slip of paper!

"Damn it, why is it always my bad luck!" The last time I went back with a Third Level of the Heavenly Completion Stage, I thought that if he could enter the top seven, he must have some outstanding points. Who would have thought that after a year, he would still be at the third stage, and the other ordinary disciples would have already surpassed him. Why can all of you be geniuses, this old man only receives trash every time! "

Just now, he had confronted Long Chen for a while, but was actually pushed back by Long Chen. In his heart, he already felt quite a bit of disgust towards Long Chen, and now, it was even better.

Every time, the first seven would become the direct disciples of the Demon King. This was a rule set by the previous Territory Lords, so the Scarlet Ghost King could only accept his fate! Of course, on the surface, he was only resigned to his fate.

"Who said my big brother is trash? He defeated that bad guy Zhao Wuji, and even won third place in a row, becoming first place. Hearing that, Huangfu Qi was unhappy, she was just like a newborn calf unafraid of a tiger, and directly shouted at Scarlet Ghost King in anger.

"Little girl, you dare to talk to me like that?" The Scarlet Ghost King roared.

"Scarlet Ghost King, don't scare my good disciple, tell me about it!" The Qing Li King was in an extremely good mood. Huangfu Qi was basically her precious baby right now.

"You've got a good disciple. Why don't you show off in front of me? My Scarlet Ghost King's words are spoken here today. What kind of Jiang City is this, I don't want to accept it, whoever wants it can take it, and give me that eliminated Zhao Wuji, and I will take him in as my direct disciple. I promise I won't take a year, what Jiang City is not his opponent in one move! " The Scarlet Ghost King said coldly.

He was very determined.

They had all accepted their disciples, so they were too lazy to bother with Scarlet Ghost King. However, if he did not accept Long Chen, when the Region Lord returned, if he also wanted to punish him, it would be as well, it had nothing to do with them. After all, the only thing he had to do with Scarlet Ghost King was to punish Scarlet Ghost King.

Of course, Zhao Wuji was a good seedling, other than the Qing Li King who already had Huangfu Qi, the rest of the seven Demon Kings were after Zhao Wuji, it was just that the Scarlet Ghost King was obviously going to go berserk, the other Demon Kings were not willing to cause so much trouble for a disciple and the Scarlet Ghost King, so they let him go.

"Zhao Wuji, come over here. My Scarlet Ghost King will accept you as his direct disciple today!" Right at this moment, Scarlet Ghost King's voice directly reached Zhao Wuji's side. Zhao Wuji's heart trembled, and after a flash of pleasant surprise, he immediately ran over.

My Scarlet Ghost King will be your master from now on. I promise, after a year, I will make you one of the top disciples in the Ancient Devil Region! As for the Jiang City, I don't want them anymore. Whoever wants them, have your Heavenly Completion Stage Level 1 at your age, who knows how long it will take for him to reach the Sixth Level of the Heavenly Completion Stage Realm? Ten years later? "

He accepted Zhao Wuji, and the others did not object, this caused his mood to gradually improve, and now that he was looking at Zhao Wuji, he was really satisfied the more he looked at him, so he directly grabbed onto Zhao Wuji's clothes and soared into the sky, saying: "Divine Wind, there are still nine disciples, help me send them to the Scarlet Ghost King's Palace, I will take this Zhao Wuji away first!"

He was worried that the others would snatch Zhao Wuji from him, hence he directly left.

This is one of Huangfu Qi's ultimate skills. With her appearance, the Duke of Qing Li's heart softened, and said: "Alright, Jiang City, you can enter my The King's Hall of Clearing Seep as a disciple, but every year I can only accept a few disciples. Because of the rules, you can only be a normal disciple in my The King's Hall of Clearing Seep. Are you willing? "

This was exactly what Long Chen wanted.

"Many thanks, of course I'm willing." Long Chen nodded, and said neither servile nor overbearing.

After Long Chen spoke, everyone then knew that he was not scared silly, but that he did not care about it in the first place. The few great Demon Kings looked at each other again. It was only then that they vaguely felt that whether it was in terms of character or strength, Long Chen did not seem to be simple.

Indeed, if it was simple, could he obtain three consecutive crowns?

As a result, the seventy new disciples were gradually assigned to the seven great King Palaces. The seven great Demon Kings, the Palace Masters of the seven great King Palaces, had brought them back to the seven great King Palaces. This time's selection battle had finally come to an end.

The sixty thousand Tongtian Pill was quickly brought over for Long Chen. Long Chen also successfully obtained a hundred thousand Tongtian Pill. These Tongtian Pill were enough for him to cultivate for a long time.

The details of the selection battle quickly spread.

Long Chen had become a dark horse and achieved three consecutive victories, but in the end, he was abandoned by the Scarlet Ghost King. In any case, the loser Zhao Wuji had become the Scarlet Ghost King's disciple.

In everyone's eyes, Long Chen was simply a complete tragedy.

Of course, Long Chen knew that this was considered a humiliation.

"We've only just arrived here, we can only wait here for a short while. When I'm strong, what Zhao Wuji? What Scarlet Ghost King? Isn't killing them with a single sword strike?" On the road to The King's Hall of Clearing Seep, Long Chen looked in the direction before him and gently smiled.

Chapter 476 - Great Strength Demon General

The The King's Hall of Clearing Seep was located to the east of the Ancient Devil Region, so it was not far to go to the entrance of the Ancient Devil Region.

In the Ancient Devil Region, there were a total of seven great King Palaces. They were divided into the seven great Demon Kings that controlled the seven great King Palaces and were distributed amongst the mountains of the Ancient Devil Region. That was the center of the Ancient Devil Region, the place where the Demon Emperor lived. However, most people did not know the location of the palace.

Amongst the new disciples, there were a total of ten who joined the The King's Hall of Clearing Seep among the seventy, of which Huangfu Qi was the direct disciple of the King of Clear Seep, while Long Chen and the rest of the other seven were regular disciples who had just arrived at The King's Hall of Clearing Seep. They did not have any tyrannical strength or strong backers, so they were only the lowest level disciples in the The King's Hall of Clearing Seep.

Of course, Long Chen was an accident.

Currently, the other disciples were looking at Long Chen from time to time when he was following them. However, what surprised them was that after such a huge incident occurred, Long Chen acted as if nothing had happened, despite him losing his identity as the direct disciple. This made them sincerely admire Long Chen.

Although Long Chen's potential was a little low, but his power was definitely number one amongst the seventy people there. If he could raise his cultivation level, he would become an existence others looked up to very quickly.

Along the way, the Qing Li King treated Huangfu Qi warmly, and as for Long Chen and the others, they were completely ignored.

Very quickly, the The King's Hall of Clearing Seep arrived.

Ancient Devil Region was located in an azure colored mountain range. The environment of the The King's Hall of Clearing Seep could only be considered normal, but compared to the other palace halls, it was already much better. Similarly, there were basically no plants here.

"There must be something strange underground in this Ancient Devil Region. It must have absorbed all of the life essence in this place." Just then, Cat spoke out from the Great Void Realm.

"What is it?" Long Chen asked somewhat curiously.

"I'm not too sure either, for this Ancient Devil Region Ranker is too strong for you. For the time being, you should think of a way to improve yourself.

This was indeed an urgent matter.

"Don't worry, my current fighting strength is way beyond my cultivation realm. This means that I can kill demon beasts of several levels higher than me. As long as I can find a place where demon beasts gather, my strength will definitely increase by leaps and bounds." Long Chen said confidently.

Generally speaking, as long as a demonic beast could reach level 3, the beast blood would allow Long Chen to improve his cultivation, and with Long Chen's Heavenly Completion Stage Level 1 true qi, dealing with a level 4 Heaven Stage demonic beast was not a problem. Even a level 3 Heaven Stage demonic beast could help him improve greatly, let alone a level 4 Heaven Stage demonic beast.

During the conversation with Little Cat, Duke Qing Li suddenly turned around and looked at the newly advanced The King's Hall of Clearing Seep disciples, and said, "After you have entered the The King's Hall of Clearing Seep, you belong to one of the four great demon generals of my The King's Hall of Clearing Seep, the Giant Strength Demon General. Under the command of the Giant Strength Demon General, the Giant Strength Demon General is in charge of training and upgrading the ordinary disciples of my The King's Hall of Clearing Seep.

"Yes sir!" Long Chen and the others nodded.

In the Ancient Devil Region, it seemed that only the Demon King was qualified to accept disciples. Among the others, the relationship between a normal disciple like Long Chen and a Demon General was like that between a soldier and a general. The difference between a regular disciple and a Successor Disciple was basically like heaven and earth. Of course, Long Chen knew that if a Successor Disciple did not perform well, they would be demoted to a regular disciple.

Under the lead of the Duke of Qing Li, Long Chen and the others arrived at the The King's Hall of Clearing Seep's martial arena. They were very far away, but Long Chen could already feel a grand and berserk

aura coming from ahead, which required hundreds of experts to train at the same time in order to burst forth with power enough to force Long Chen to retreat.

As he approached the training grounds, Long Chen saw that, as expected, there were hundreds of young disciples training in the vast training grounds of The King's Hall of Clearing Seep. They were all wearing simple black armor, and their attire was similar to that of ordinary soldiers.

Among these 100 people, there were around 70 people quietly cultivating in the corners. The rest of the people were battling, tempering themselves in battles, and gaining ascension. This was an extremely good method.

The system in the Ancient Devil Region was strict and urgent, it was completely managed by the army. From how these ordinary disciples fought with their lives on the line and how much competition there was, it could be seen from their sweat and blood. Long Chen guessed that it was precisely this type of strict military management system that allowed the Ancient Devil Region to become one of the great powers that ruled over the Holy Martial Empire.

"You have just come out from the competition, so you should be able to experience it now, right? In our Ancient Devil Region, there is a strict system of rewards and punishment. Only you work hard, only you have talent, no matter where you are, you will be able to get enough rewards and have the time to shine, but if you work hard, if you don't have any achievements, then your talent might be buried. Among the ten of you, two of you have received quite a few rewards. I hope that you can continue to work hard. "

The Duke of Qing Li turned his head and said.

The two people she was talking about were obviously Long Chen and Huangfu Qi.

The Qing Li King was the leader of the The King's Hall of Clearing Seep. When people saw her, no matter what identity they had, they would obediently salute her over a thousand times. Even if a Demon General walked out from the crowd of people, it would still be the same.

This Demon General's figure was abnormally tall and sturdy. His height exceeded two meters, and what stood out more than his height was his figure. His body was huge, and even though he was over two meters tall, with his sturdy body, he still looked a little short. Long Chen looked at his bare arms, and was secretly shocked.

"This Demon General's body is truly robust. I wonder what kind of person he is, to be able to look like this?" Long Chen sighed with emotion, somewhat at a loss for words.

He estimated that the arm of the person in front of him was almost as thick as his own waist.

Long Chen only gave a rough glance, and did not dare to look at him anymore. After all, he was a Demon General, and with the strength of his Ninth Level of the Heavenly Completion Stage, Long Chen did not have the qualifications to sized him up.

The other nine people also obediently turned their heads.

Long Chen knew that this incomparably robust man was the Giant Strength Demon General that Long Chen would be following after. The Enormous Strength Demon General's appearance was not simple and honest. Instead, it was mature and steady. In between his eyes, there were streaks of cold light, which were extremely intimidating. If there was a bit more blood-red light in his eyes, he would be no different from a savage Demonic Beast.

From the appearance of the Giant Strength Demon General, it could be seen that he was a very suitable person to be a general. Under his training, the ordinary disciples of the Ancient Devil Region were all brimming with energy. Basically everyone had a dense murderous aura around them.

In the Demonic Palace, there was only the "devil" that Zhao Qingyun pursued. It was a form of freedom, but the others, as well as the people in the Ancient Devil Region, the 'devils' that they pursued, were aggressive and cruel, and were the devils in the eyes of the common people.

At this moment, the Giant Strength Demon General had already seen the Pure Li King.

"Huge strength, these are the ten new disciples that have joined this year. Other than Qi Qi who is my direct disciple, the rest's cultivation, potential stimulation, battle skill enhancement and the old rules, I entrust them all to you." The Duke of Qing Li laughed directly.

"Yes!" This subordinate will successfully complete the mission and will not give up any of the talents, nor forgive any of the trash! " The Giant Demon General immediately cupped his hands and said sincerely. He looked at the ten people around him and saw that there was no one he was meeting, then asked: "These people have formed a huge force, tomorrow after bathing in the demonic light, the day after tomorrow they can begin their training. But, King Li, dare I ask, has my nephew Zhao Wuji been accepted as a disciple by a certain Demon King?"

After he finished speaking, he looked at the Qing Li King with a face full of anticipation.

The Duke of Qing Li didn't answer, but Long Chen was startled. [What a coincidence!] He had only followed Huangfu Qi to the The King's Hall of Clearing Seep, and the person who was going to lead his life and work and rest next, was actually Zhao Wuji's uncle? Long Chen did not know how much of an insult he had given Zhao Wuji in the selection battle.

As matters stood, regret was already useless. Long Chen could only try his best to guard against the villains in this vile environment and increase his own strength. If he did not obtain the dianyin bead and lost his life, then he would be at a huge disadvantage.

"Zhao Wuji, you don't have to worry because the Scarlet Ghost King has already accepted you as his direct disciple. The Scarlet Ghost King is like a treasure, who knows, maybe he will even visit you that day." The Prince of Qing Li said with a faint smile.

He continued to ask, "My nephew's talent is indeed not bad. As I watched him grow up, I clearly understood his potential, as long as he safely grows up, his future achievements will be limitless. He once told me that he can easily win the third place in a row, and I would like to ask, King Qing Li, did my nephew win the third place in a row?"

"Three consecutive victories?" She was a smart person, and knew that once she told him the truth, Long Chen would definitely be hated by the Giant Strength Demon General, and might even lose his life in a few days. With a thought, the Giant Strength Demon General would find out sooner or later, and since Long Chen's potential was not high, it wouldn't be of much use to the The King's Hall of Clearing Seep.

So she said, "Three consecutive championships? Zhao Wuji's talent is not bad, just a little bit more and he would have been crowned with the three consecutive victories. "

"You didn't get it?" The Great Strength Demon General was a bit depressed and asked, "Which stage did you fail to obtain? Could it be the first stage? His body is not strong, so he hasn't inherited my strength. "

He didn't even manage to get the second and third stage, and he didn't even get the first seven stages. In the end, when the Scarlet Ghost King took him in as his disciple, it was also only because the Scarlet Ghost King broke the rules, so to tell the truth, there really was someone who had won the three consecutive victories, and that is right in front of your eyes! "

Chapter 477 - In exchange for your life

"In front of me?" The Giant Strength Demon General was shocked, his gaze instantly landing on Huangfu Qi as he exclaimed: "This little girl is so young, yet he already has Fourth Level of the Heavenly Completion Stage, and even obtained three consecutive championships; he is truly a peerless genius. My Zhao Wuji has lost to her, without any complaints, and no complaints at all."

King Clearing was startled, knowing that he had clearly misunderstood.

Just then, Huangfu Qi got angry and pulled Long Chen's arm: "Big sized uncle, what nonsense are you saying? The ones who won the three consecutive championships are my big brother! Your idiot nephew is no match for my big brother, but that big brother has problems with his brain, to think that he actually did not want my big brother to fight with, and even took in some Zhao Wuji, so I let my big brother follow me! "

First of all, she called the Giant Demon General a big uncle. This could be considered normal, but Scarlet Ghost King's face was full of holes and his skin was red, so she called him a big red toad. If Scarlet Ghost King heard that Huangfu Qi's big red toad saying that it was him, he would definitely explode from anger.

"Qi Qi, don't speak nonsense." The Duke of Qing Li almost choked on his own saliva as he sternly said this. Scarlet Ghost King was famous for being difficult to deal with and stingy. If he knew that Huangfu Qi was calling him that behind his back, he would definitely cause trouble again.

Then, he completely absorbed the information from Huangfu Qi's words. He looked at Long Chen, but still could not believe that what he had heard was the truth, so he quickly asked King Zhi, "Duke Qing Li, the little girl said ..."

"What she said is true. This youth's name is Jiang City, and just now his Heavenly Completion Stage Level 1 allowed him to grasp body tempering techniques and offensive battle skills. It was precisely this body tempering technique and offensive battle skills that allowed him to obtain the three consecutive championships and the hundred thousand Tongtian Pills! The Scarlet Ghost King is not on good terms with him, so after taking Zhao Wuji as his disciple and coming to your tutelage, you should nurture him properly, don't try to keep him private with the bulletin board. " The Duke of Qing Li casually reminded her. After all, if the Enormous Demon General made it too obvious, then it'd be hard for her to give the Duke of Qing Li face.

Understanding what King Qing Li meant, the Great Strength Demon General hurriedly nodded.

He sized Long Chen up from head to toe. He really couldn't understand why an ordinary youth like Long Chen would actually have the power to obtain three consecutive crowns.

As for why Long Chen was not accepted as a direct disciple, the Giant Strength Demon General was clear about this point. Long Chen was already older than most people, but the level of his realm was the lowest and deepest, since realms were one's foundation. Furthermore, when one's talent was different during their youth, the gap between them would grow wider and wider.

As for the battle skills of the Heaven Stage High Rank, people like Zhao Wuji, they would be able to train a lot in the future.

This was also why Scarlet Ghost King chose Zhao Wuji instead of Long Chen.

However, the honor that was supposed to belong to Zhao Wuji had been snatched away by the youth in front of him, especially the hundred thousand Tongtian Pill, which had saved him a lot of expenses. Now that it had fallen into Long Chen's hands, the Giant Strength Demon General felt uncomfortable in his heart.

Seeing the expression in his Giant Strength Demon General's eyes, Long Chen knew that his future days would not be good.

However, Long Chen had never thought that he would be able to stay in the Ancient Devil Region for a long period of time, and in two months, he would be able to live together with the nine suns. Moreover, he had the confidence that he would quickly become stronger, surpassing everyone's expectations. At that time, he would let everyone know who exactly was the true genius.

"Your name is Jiang City? To be able to obtain the three consecutive championships, Ancient Devil Region's strength was not very high. I hope you can work hard and wait for one year before you seventy people. I hope you can still hold your ground in the top three, and bring honor to my The King's Hall of Clearing Seep! " The Great Strength Demon General sized Long Chen up for a while, then nodded.

"Yes, Lord Demon General!" Long Chen replied according to the rules.

The rest of you follow me. I will arrange a place for you to stay, tomorrow I will let you all bathe in demonic light, improve your true qi, and become a true disciple of my Ancient Devil Region. From the day after tomorrow, you all will follow the Giant Strength Demon General to cultivate! He is a very good senior, follow him, and I believe that your cultivation will quickly rise! "

"Yes sir!" Everyone nodded.

Under the Duke of Qing Li's arrangements, Long Chen arrived at the residence of an ordinary disciple. I heard that in the The King's Hall of Clearing Seep, all the ordinary disciples below the Sixth Level of the Heavenly Completion Stage lived in this area. As for those above the Level 7 of the Heavenly Completion Stage, they only had one of the two earth cavities open and could already be considered to be a senior disciple.

Huangfu Qi was a direct disciple of the Duke of Qing Li, so after arranging some things with the direct disciple of the Duke of Qing Li, he took her back with him.

Of course, Long Chen knew that the person that she was most reluctant to part with was the little wolf.

After calming down, the wolf cub came out of the Great Void Realm. The little kitten didn't want to be lonely and turned into a fat white cat, rolling around in the small room.

"Big brother, I think that Giant Strength Demon General will give you trouble. It's impossible to guard against it." He is a member of the Ninth Level of the Heavenly Completion Stage, if we really do make a move, you are done for. " The wolf cub said worriedly.

"Let's do it openly. He doesn't have the right to do so. I just need to hurry and increase my strength." After I go bathe in that demonic light tomorrow, I will enter the Ancient Devil Region's demon beast trial grounds. "

As long as he reached there, Long Chen was sure that the increase in his strength would be terrifying.

"That Demonshine, what is he?" the wolf cub asked curiously.

"I don't know." Long Chen shook his head.

"Bath? The disciples of the Ancient Devil Region all cultivate Zhen Qi with a kind of evil attribute, and over time, it will affect their minds, and the source of this evil attribute should be this kind of imprint. After a strong warrior dies, he would be able to leave his own imprint of power in one piece, which would then be treated as a treasure by the later generation, and with the release of this power, the imprint would also penetrate deep into the body of the disciple, for example, this kind of evil attribute. " At this time, the kitten explained.

Long Chen and the wolf cub finally realised.

"In other words, if Demonshine bathed me in his true essence then my true essence would be tinged with the demonic attribute. It's best if I don't take this bath of Demonshine's." Long Chen tried to test the waters.

"Not going?" Aren't you afraid that the big guy will find an excuse to kill you? " The kitten chuckled, as if this had nothing to do with it.

"Then what should we do?" Long Chen knew that the fat cat must have a way.

"Go. We must go. Moreover, not only must we absorb the power of the mark, we must also take all of the power from it." The kitten smiled mysteriously.

"Do you have a way to remove that imprint and let me absorb its pure power?" Long Chen guessed.

"What?" The kitten widened its eyes and laughed helplessly. "You are quite smart. You can match up to one in ten thousand of me. Not bad, not bad. For this, the Japanese God will erase your imprint and absorb your power."

Done.

Long Chen planned to quickly increase his strength after taking care of Demonshine.

At this moment, Cat frowned and said, "That big guy is coming over. You should pray for yourself!" After it finished speaking, it moved faster than anyone else and immediately slipped into the Great Void Realm.

"Coward." Long Chen cursed, and then used his Spirit Devouring Demon Pupil, and indeed, he saw the Giant Strength Demon General walking towards him. His body was extremely big, and would make sounds no matter how light he walked. He quickly arrived at Long Chen's door and knocked directly.

"Lord Demon General, why are you looking for me?" Long Chen opened the door and asked calmly.

"Follow me." Gigantic Devil General lightly said and turned around to leave.

"If you have anything to say, you can just say it here." Long Chen did not move. He was not sure what this fellow was planning, so he did not dare to act rashly.

The Great Strength Demon General stopped moving, turned around, and swept his blade-like gaze across Long Chen's body, giving him a strong pressure. He took a few steps closer, and then, instantly, a strong pressure directly pressed Long Chen into the room.

"Brat, looks like you did a good job today. Did you gain enough guts?" Raising his eyebrows, the Great Strength Demon General said coldly.

"What does Lord Demon General mean? This disciple hasn't done anything since arriving at the The King's Hall of Clearing Seep, does he?" Long Chen asked.

"You still dare to talk to me, this is your fault." The Giant Strength Demon General's voice rumbled, causing Long Chen to feel dizzy. Ninth Level of the Heavenly Completion Stage's true qi was indeed extraordinary. He was afraid that with a wave of his hand, he would be able to kill Long Chen.

Long Chen knew that he was being unreasonable. The more he spoke, the more unreasonable the other party would be.

Seeing that he had finally learned his lesson, the Great Strength Demon General said, "I went to see my nephew this afternoon. He has a big opinion of you. Let me teach you a good lesson." "Kid, from now on, if you fall into my hands, you will be guilty and be punished. Of course, if you can complete the training mission that I gave you, you won't have to suffer."

Long Chen continued to be silent.

Seeing that he did not resist, the Great Strength Demon General felt bored, so he shrugged and said, "Forget it, you are a new person, I will not make things difficult for you for the time being, but you do not need to use the hundred thousand Tongtian Pill, how about this, I will keep the ninety thousand Tongtian Pill for you so that others will not think of you and you will be left without even bones, I am protecting you now, what do you think?"

"You finally revealed your fox tail?" Long Chen laughed in his heart. He knew that these ninety thousand Tongtian Pill were his goal for tonight. To him, these ninety thousand Tongtian Pill were merely a small number to the Giant Strength Demon General. However, to him, these were originally things that belonged to Zhao Wuji.

"Give it to me. Ninety thousand Tongtian Pill in exchange for your life." Seeing that Long Chen did not move, the Giant Strength Demon General's eyes darkened.

Chapter 478 - Sevenfold Demon World

If Long Chen did not hand it over, the Giant Strength Demon General really might kill him.

To him, Long Chen was just an extremely young person. Furthermore, in this Ancient Devil Region, even though he did not have any background, he occupied a great treasure that did not match his strength.

Fortunately, he had used the Spirit Devouring Demon Pupil at this time and had actually seen Huangfu Qi, the little girl, coming here. This little girl must have just settled in recently, so he couldn't bear to part with him and the little wolf, so he quickly rushed over.

Her arrival could be said to have solved a huge problem for Long Chen.

Soon enough, the Giant Demon General felt Huangfu Qi approaching him. His expression stiffened, and said with a bit of exasperation: "Son of a bitch, you got lucky today, but let me warn you, those hundred thousand Tongtian Pills were my nephew's in the first place. If you don't take them today, I'll still come back tomorrow to get them.

After speaking, the Giant Strength Demon General swung his hands, and quickly left the place. Just as he left, Huangfu Qi who was sneaking around saw him and immediately cried out, "Big fat uncle! Oh no, Uncle Brick, why are you here!?"

She thought she was smart, but since the Qing Li King didn't want her to call him uncle, he changed her name to Brick. Indeed, the body of the Brute Demon General was huge and broad, not much different from a brick.

That word "Brick uncle" immediately caused a black line to appear on the forehead of the Great Strength Demon General.

Of course, Huangfu Qi's identity was miles away from Long Chen's, so the Giant Strength Demon General only dared to let out a cold snort, and directly left. Huangfu Qi watched his figure that left curiously, then slipped into Long Chen's room. He sized Long Chen up from head to toe, and after that, he heaved a sigh of relief.

Long Chen paused for a moment, then said furiously, "Kid, where did you learn these words?"

"Isn't that so? I have heard before that those wretched uncles, who do not like girls, like a handsome youth like you. When I saw him just now, I thought that you were going to lose your body, wuwu luckily Qi Qi came quickly, or else I would have regretted it for the rest of my life!"

"..."

Long Chen and the little wolf's expression were both extremely stiff.

"Lovely dog, you've appeared again!" Huangfu Qi let out a sharp cry, changed his target, and pulled the little wolf into his embrace, stroking it in all sorts of ways. The wolf cub's good hairstyle had been made into a bird's nest by her.

Watching the little girl play, Long Chen felt much more relaxed. After Huangfu Qi got tired of playing around, he asked: "Little girl, did you find out what I asked you to ask about?"

Previously, when they were separating, Long Chen had given some instructions to Huangfu Qi, so he knew that Huangfu Qi would come over at night.

"Ah, I've asked around!" Huangfu Qi said happily.

"Then tell me quickly." Long Chen was very satisfied with her performance.

My master said, she said, in the middle of Ancient Devil Region, there is a Mount Demonheart. The entire Mount Demonheart is pierced through by a vertical tunnel, and at the peak of the Mount Demonheart, it is like the mouth of a volcano.

"Is that the place where the demonic beasts will train?" Long Chen probed.

"Hm!" Each space was a small Qiankun world, and the Sevenfold Demon World was the superposition of the seven small Qiankun worlds. In the midst of the Sevenfold Demon World, there were first stage demon beasts that were ranked in the first stage, second stage demon beasts that were ranked in the fourth or sixth stage of the Heaven stage, and third stage demon beasts that were ranked in the fourth stage, which should be a huge trial, fourth stage, and fourth stage demon beasts that were ranked in the seventh or ninth stage of the Heaven stage. As for the fifth stage and above, I don't know, Master didn't tell me! "

"Sevenfold Demon World?" Long Chen secretly nodded.

knew about the first four stages, but he had a faint feeling that the secrets of the Ancient Devil Region were all hidden in the last three stages, including the palace that did not exist in the outside world.

The seven great Royal Halls were spread all over the Ancient Devil Region, and the mysterious Imperial Hall was nowhere to be seen. Only a small number of people in the Ancient Devil Region have the qualifications to enter the palace.

Furthermore, the peak of the Ancient Devil Region's battle skills, Divine Weapons and Spirit Medicines, most likely existed in some other similar dimension in the Imperial Palace.

"Qi Qi, your master said that there are some restrictions placed on entering this Sevenfold Demon World?" Long Chen asked the question she was most concerned about.

"Master said that as a direct disciple, as long as I get her permission, I can go to any of the first four stages. Amongst ordinary disciples, the first six stages of Heavenly Completion Stage could be considered as low level disciples, and the last three stages could be considered high level disciples. Low

level disciples could only reach the first two stages, but high level disciples had the same rights as direct disciples, and could freely go to the first four stages. Of course, once you reach Ninth Level of the Heavenly Completion Stage, you would already be at the Demon General level. "

"I'm currently a low level disciple, which means that I can go to the first two stages. There must be a lot of beasts that are useful to me in Second Demon World ..." Long Chen breathed a sigh of relief.

"Big Brother, you're going to the Sevenfold Demon World? I want to go too! " Huangfu Qi's eyes lit up as he quickly replied.

"Who said I'm going? Aren't we going to get that Demonshine tomorrow? Shouldn't we start training the day after tomorrow? I just wish that I can spare some time in the future. If I have the time in the future, I will definitely bring Qi Qi there, okay? " Long Chen knew that this little girl would not stop, he had already long prepared an explanation.

But big brother, you are a man, you have to do what you say. If you lie to Qi Qi, I will curse you.

"F * * k" Long Chen felt like he had just been kicked in the foot. He really didn't know where Huangfu Qi had learnt these words from. Sometimes, when he said them out loud, people would feel like spitting rice out of their mouths.

When he understood everything that he wanted to know, Long Chen invited Huangfu Qi, the great god, to leave. At the same time, he started to immerse himself in his training.

"Coming here, it seems like the use of the The way of the Demon Emperor's Sword's Heaven Tier Battle Skills will no longer be of much use. What I can take out now are the series of abilities of the Primordial Blood Spirit Dragon, as well as the time reversal ability of the Great Void Dragon Symbol. As for fighting strength, most of it is due to this body and the Heaven Punishing Sword Formation that Little Xi left for me. Just that, it is still far from enough. "

Long Chen realized his own inadequacies.

The current him was like a dried up sponge, and Ancient Devil Region was like a sea to him. Once he fell into the sea, he would be able to absorb all the water he could. He only knew how many people there were in this sea. He was like an endless sponge, and he didn't know if he would be able to suck up all the water here.

When I obtain the danyin bead and reach the Ninth Level of the Heavenly Completion Stage on the day that the nine suns coexist, the power of the Golden Crow will be formed in my nine chakras. At that time, my strength will definitely rush to the top of the Holy Martial Empire, and only then will I be able to enter the Archaic Graveyard. In Long Chen's heart, there was a firm goal and a deep understanding.

Therefore, the only target in Ancient Devil Region was the danyin bead.

"The danyin bead can bring a person to the Ninth Level of the Heavenly Completion Stage, which means, my strongest competitor will be the Eighth level of the Heavenly Completion Stage, which means, I have to reach the Level 7 of the Heavenly Completion Stage in a month, how can I do such a big difference?"

To Long Chen, this was an unknown.

Although he had the Blood Refinement Qi, he still needed to have enough Tongtian Pill and sufficiently strong beast blood.

"Experts are as common as the clouds. In that case, we need to fight even more!" In the room, Long Chen clenched his fists.

After Long Chen heard the urgent knocking sound, he immediately opened the door. It was one of the eight new disciples who had come yesterday, but Long Chen still did not know his name.

"Jiang City, it's almost time. Among the Ancient Devil Region, the punishment for being late is very heavy. I also just found out that today we are going to be shrouded in demonic light. We have to hurry over!" The disciple hastily replied.

In the Ancient Devil Region, it was like an army. One could imagine how much time an army would need.

"Thank you!" Long Chen thanked the disciple and followed after him. In order to not be late, Long Chen had put in all his effort into travelling, and when the time finally arrived, Long Chen and the others arrived at the destination. This was not a training ground, but a different pavilion.

They would only go to the training ground when the real training starts tomorrow.

Just as he arrived, Long Chen heard Huangfu Qi's laughter. Before he could see where she was, Huangfu Qi had already pounced on him and shouted with wide eyes: "Big brother, where's the dog, where's the dog?"

"The dog isn't showing you right now, so don't mess around." Long Chen pulled her away lightly and said viciously.

"Oh ..." Huangfu Qi was a little dejected, but she immediately became interested again. Pointing to a young man, he said to Long Chen, "Big brother, look, this is my Sixth Senior Brother, oh, my Sixth Senior Brother is awesome. He was ranked first in the entrance selection two years ago, and also won third place in a row, obtaining one hundred thousand Tongtian Pill! At that time, he was at Fourth Level of the Heavenly Completion Stage, and in just two years of time, he was already an expert at Sixth Level of the Heavenly Completion Stage! And Master said that he would very quickly open the aperture, reach the Level 7 of the Heavenly Completion Stage, and become the top disciple! "

Following Huangfu Qi's gaze, Long Chen looked at the young man who seemed to be a little bit of a legend. He looked to be a year younger than Long Chen, had a delicate and pretty face, looked like a talented person.

Chapter 479 - Second stage of the Heavenly Completion Stage

At this moment, everyone was already there, and he wasn't late at all.

"Everyone, be more careful next time. Come at least a quarter of an hour earlier, it would be impolite for me or the Lord Demon General to wait for you here. At this time, Huangfu Qi's sixth senior brother said. His expression was cold and stern. When he spoke, he did not conceal the fact that he was strong in the art of zhenqi.

"Yes sir!" Everyone replied in a somewhat submissive manner. After arriving at Ancient Devil Region, the Demon King, Demon General and the others had already completely calmed their tempers. Wanting to mix with them in the Ancient Devil Region without any strength was just empty talk.

Long Chen then opened his mouth.

"My name is Qin Huanyu, you can just call me Senior Brother Qin. In my daily training, I will assist the Giant Strength Demon General in taking care of these nine newbies, so from today onwards, all of you have to listen to me! You must do what I tell you to do! If you all have done what I didn't want you to

do, then you all can just wait for your punishments. You all can go back and understand Ancient Devil Region's punishments.

"Sixth Brother's words are a bit annoying. It wasn't like that just now." Huangfu Qi whispered into Long Chen's ear.

But towards Long Chen, these ordinary disciples, as the one in charge, it was obviously to establish his own dignity, so he could do whatever he wanted.

Long Chen and the rest did not speak.

"Do you all understand!?" Qin Huanyu said in a clear voice.

"Understood." Everyone nodded.

"What?" Louder, I can't hear you! "

"Understood!"

This time, the sound echoed in all directions.

Long Chen was a little speechless. This guy was really acting tough, it seems that he will have a difficult time in the future. Fortunately, Long Chen had a direction he needed to go. Otherwise, if he stayed here every day and was angered by his sixth senior brother, he did not know whether he would be unable to hold back and make a move one day.

At this time, Qin Huanyu's gaze landed on Long Chen, and he said: "I heard that among the ten of you, there's one who obtained three consecutive victories, and that should be you, right?"

Long Chen nodded.

"Sigh." Qin Huanyu shook his head and said: "The level of this selection battle is really lower than the previous generations. Back then, when I won the three consecutive championships, the resistance I encountered was far beyond your imagination, but in the end, I still managed to make it through."

Qin Huanyu shook his head and sighed. Seeing that no one had any reactions, he was too lazy to waste any more words, since Long Chen and the others were very obedient today, he was very satisfied and took out a black crystal ball from his Cosmos Sack. This crystal ball was about the same size as the Soul Concentrating Orb, it was about the size of a fist, and it was filled with dense energy.

"The imprint power contained in this crystal can at most help one reach the Level 7 of the Heavenly Completion Stage." Just at this moment, Little Cat's voice sounded out in the Great Void Realm. The only ones that could be heard were Long Chen and the little wolf.

"Level 7 of the Heavenly Completion Stage? What happens if I continue to absorb them?" Long Chen thought excitedly.

Don't even mention such a large power, you still can't control it right now, and I can't dispel such a large power from the seal. Furthermore, you should be a treasure of the The King's Hall of Clearing Seep, and got wasted by you just like that, will you still be able to continue living? More importantly, that young man has control over the use of the Inscription Crystal, so he can cut off the source of your power anytime. "

Long Chen nodded his head, it seemed like his idea of stepping into the heavens was not realistic.

"From now on, you all sit down cross-legged. I will bathe you all in the demonic light, allowing their cultivation to grow faster and have the power of the Ancient Devil Region. They will become one of my Ancient Devil Region's people!" Qin Huanyu looked around and said sternly.

Everyone sat down cross-legged and prepared to cultivate. As soon as Demonshine arrived, they would be able to begin cultivating.

"Good, very good!" Qin Huanyu was very satisfied, but at this time, he held out the crystal ball in his hand before his eyes. Then, under his control, the black crystal ball slowly floated upwards, reaching a height of four meters above the ground, and floated above Long Chen and the others.

"It's starting!"

Qin Huanyu said softly. Just as he finished speaking, the black crystal above everyone's heads had already started to emit a black mist, which quickly became like a black cloud, shrouding the top of Long Chen and the others' heads. Long Chen truly felt that there was a very powerful force above their heads, and this energy was also increasing in strength.

Gradually, it was like a huge black egg, surrounding Long Chen and the others. The black crystal, on the other hand, was like a lump on top of the egg, still emitting black energy.

Long Chen could already feel that following the channeling of his Innate Qi, the black energy had already replaced the spiritual energy of heaven and earth, and started to fuse with his Innate Qi. This was a very pure energy, compared to the spiritual energy of Ancient Devil Region, it was ten times richer and purer, this energy could even directly transform into his Innate Qi.

"The energy emitted by this crystal is really too slow, and with the ten of you sharing it, I estimate that none of you will reach a higher realm. Let's take the risk and directly let you level up your Second stage of the Heavenly Completion Stage, how about it?" The kitten's enticing voice sounded beside Long Chen's ears.

"Very good." Long Chen pondered in his heart, and decisively said.

Afterwards, he discovered that the surrounding energy, with the Great Void Dragon Symbol as the core, quickly swept into Long Chen's body. Long Chen hurriedly circulated his Innate Qi and wildly swallowed the black energy into his body.

Very quickly, the black egg that enveloped everyone entered Long Chen's body like a gust of tornado. The huge egg disappeared, and everyone's figures appeared. However, at this time, the majority of the people were trying their best to absorb the black energy. No one knew that the black energy had been absorbed by Long Chen.

As for the black crystal above his head, it seemed to have suffered from Long Chen's devouring power as well. Even more black energy gushed out, and it was as if a straight line was being devoured by Long Chen!

"What!" Qin Huanyu was originally relaxed, but the sudden turn of events caused him to be stunned. His face was deathly pale, his hands were in a mess as he immediately kept the black crystal into his Qiankun bag. Then, he looked at Long Chen in shock.

At this moment, the others also felt that the suction force had been cut off. They just thought it was over and ended it from the start, but they were still a little hesitant. In that moment, their Zhen Qi had increased at a much faster rate than usual.

But when they opened their eyes, they saw that Qin Huanyu had an angry face, and was walking quickly towards Long Chen. From the looks of it, it was as if he was going to kill Long Chen.

What was going on?

Everyone was puzzled.

However, Huangfu Qi would not allow his to do that. She hurriedly stood up, blocked Long Chen, and said: "Sixth Senior Brother, what are you doing?"

"Junior Apprentice Sister, get out of the way. This brat actually absorbed all of your strength. I wonder what kind of demonic method he'll use, I want to get rid of him now!" Qin Huanyu's face turned sinister.

"No!" No one can touch my big brother, not even the Sixth Senior Brother. If the Sixth Senior Brother disobeys me, I will go to Master and say that you are bullying me, wuwu ... "When Huangfu Qi started to make trouble, even Qin Huanyu had no choice, because he knew that Huangfu Qi was now a big celebrity in the eyes of the Qing Li King, and was even more popular than him, Qin Huanyu. If he offended her, Qin Huanyu would not have any good results.

Of course, it was also because Long Chen had grabbed hold of this point that Long Chen dared to openly absorb everything. If Huangfu Qi was not here, then Long Chen who was cultivating would have already been killed by Qin Huanyu in one move.

"Little junior sister, you don't understand!" This Long Chen has gone against the rules. The original Demonshine was divided equally among the ten of you, yet you, one of you, completely swallowed him up. Do you think he should be killed? " Qin Huanyu said coldly.

If that was really the case, then Long Chen had stolen their things. It seemed that it was right for Qin Huanyu to stand up for them.

"I don't believe it! I think there's a lot of power in that crystal ball. Can't you just give it to us for another try? And my big brother is making a breakthrough right now, so no matter what reason, no one can touch him! " Huangfu Qi tensed up, one of his tendons wanted to protect Long Chen, but even Qin Huanyu could not do anything about it.

And in fact, the current Long Chen was indeed on the verge of a breakthrough.

The first time he broke through, Long Chen spent a total of three hundred Tongtian Pills to finally be able to break through the danling aperture in his dantian. But after being enveloped by the demonic light just now, Long Chen already possessed enough true qi to break through the second acupoint, the meso-spiritual canal at his chest. This place was right beside the heart, the core of the body. Breaking through the meso-spiritual canal, it would form a new core here!

At that time, Long Chen would be able to unleash an even more powerful power!

But now, Long Chen was gathering all the strength in his body and rushing towards the meso-spiritual canal from all directions. The meso-spiritual canal was not comparable to danling aperture, because danling aperture already had a large space, but the meso-spiritual canal needed to expand the acupoints that did not exist in the first place, so the amount of effort required was much more difficult than danling aperture!

Of course, before that, it was necessary to integrate the Tongtian Pill's power into the acupoint. The true qi's power was too violent, only the Tongtian Pill's power could nourish the acupoint, using a gentle method to gradually grow.

Until Long Chen reached the Second stage of the Heavenly Completion Stage.

Chapter 480 - Mount Demonheart

The first time he spent three hundred Tongtian Pills, then how many did he need for the second time? It was a good thing that Long Chen had a hundred thousand Tongtian Pills, otherwise, this would be a tragedy. For most people, if there were no Tongtian Pills, no one would dare to break through, or else, their veins would be shattered and they would die!

A hundred thousand Tongtian Pills, that is to say, Qin Huanyu, who knows if he has that much wealth at hand, so these Tongtian Pills were enough for Long Chen to cultivate to a few levels, although with his advancement, because of the Dragon Soul Zhen Qi, the number of Tongtian Pills he would need was much more than others.

Outside, they were all dumbstruck. They knew that Long Chen was just using Heavenly Completion Stage Level 1, to break through to the Second stage of the Heavenly Completion Stage, for most people,

required a hundred to two hundred Tongtian Pill, that was enough. Why had Long Chen already consumed nearly five hundred Tongtian Pill up till now, but he still had no intention of stopping?

"Is this a monster?" Such a thought appeared in the minds of several people.

Qin Huanyu, who had originally wanted to kill Long Chen, was also stunned when he saw this situation. To break through to the Second stage of the Heavenly Completion Stage, he would need so many Tongtian Pill, then if he reached the Ninth Level of the Heavenly Completion Stage, how many Tongtian Pill would Long Chen need?

In the Holy Martial Empire, there was a two million principle, in other words, it required at least two million Tongtian Pill to reach the Ninth Level of the Heavenly Completion Stage. Most warriors only had more than one million level up but most warriors only had more than one million Tongtian Pill.

If this was the case with Long Chen, then did that mean that once they broke through their Ninth Level of the Heavenly Completion Stage, they would need more than ten million Tongtian Pill?

Terrifying.

Of course, Long Chen was only making a breakthrough in his Second stage of the Heavenly Completion Stage now.

Piles after piles of Tongtian Pill appeared in his hands, and were then swallowed by him. Knowing that he had swallowed almost a thousand of them, Long Chen finally realized that her true qi had reached its saturation point. And from now on, he could attempt to break through the second acupoint, meso-spiritual canal.

With the experience of breaking through the danling aperture the first time, the second time was much simpler. Long Chen followed the rules and controlled his own Innate Qi, using the Tongtian Pill's gentle strength as the vanguard, he rushed towards the meso-spiritual canal from all directions, and gathered all the strength in his body towards the center of his body.

Gradually, at the same time, all of the True Qi converged outside the meso-spiritual canal. At this time, the meso-spiritual canal was just an acupoint that did not exist, and needed Long Chen to develop it himself, he took a deep breath, and slowly controlled the traces of True Qi inside the meso-spiritual

canal to converge at the location of the meso-spiritual canal. This True Qi contained a large amount of the Tongtian Pill's power, and had the ability to heal injuries.

Under Long Chen's meticulous control, everything went extremely smoothly. The meso-spiritual canal gradually appeared, then slowly grew. When it was strong enough, all of its energy suddenly flowed into the meso-spiritual canal, and then formed into a white vortex that rapidly spun.

The following steps, were about the same as when Long Chen had broken through to the first stage. The white colored vortex revolved around the meso-spiritual canal, and after all of the energy flowed into the vortex, it left the other star vein and flowed through the danling aperture, meso-spiritual canal, and danling aperture, becoming the two great cores of the eighteen heavenly rivers. The eighteen heavenly rivers' true energy gathered at these two major acupoints, and then returned to the eighteen heavenly rivers.

Amongst the meso-spiritual canal, a white pellet gradually appeared from within the whirlpool, which then floated above the whirlpool. It was exactly the same as the situation in the danling aperture.

Everything had been completed, the Tongtian Pill's power had gradually disappeared, Long Chen's true qi had turned into a faint blood-red, and even the whirlpool and pills had returned to their original appearances.

In Long Chen's body, a new cycle had already been formed and he had successfully reached the Second stage of the Heavenly Completion Stage. Feeling the increased strength in his body, Long Chen revealed a gentle smile. This kind of feeling of becoming stronger was really good, and from now on, his strength would be at a critical point in terms of increasing exponentially, until the Tongtian Pill in his hands became insufficient!

From the looks of it, reaching the Level 7 of the Heavenly Completion Stage in a month isn't entirely impossible!

Whoa! Long Chen opened his eyes and stood up, just in time to see the doubtful and fearful gazes of the crowd. While he was cultivating, he also paid close attention to the situation outside.

As for the others, they were not Long Chen's match in the first place. Now that Long Chen was even stronger, they didn't dare to say anything.

But now, Qin Huanyu had finally reacted. He looked at Long Chen coldly, and said: "Brat, you can explain to me what happened just now right?"

Just now, Long Chen let Little Cat erase the imprint on the crystal and absorbed its pure energy, allowing him to attain Second stage of the Heavenly Completion Stage.

"I don't know about the details either. I'm sorry, I only know that a large amount of energy suddenly surged into my body. The power of the crystal is not something that I can control." Long Chen pretended to be unaware.

Qin Huanyu was so angry that he could not figure out why it was like this. No matter if it was Long Chen's doing or not, he discovered that he did not like the young man, so he said: "You took other people's power, and you still want to act dumb in front of me?"

"What does Senior Brother Qin mean?" I don't know at all. " Long Chen said with an innocent look.

"Still playing dumb? Jiang City, do you really think I don't dare to beat you up? " Qin Huanyu said with a gloomy face.

"Sixth senior brother, are you done yet? My big brother said that he doesn't know, so why are you still pestering him? I think it's better if you don't waste your time and quickly take out that crystal. "I think there's a lot of power in that crystal!" Huangfu Qi pouted, and looked at Qin Huanyu like a tiger eyeing its prey.

Qin Huanyu helplessly shook his head. He looked at Long Chen, snorted and said, "I'll let you off for now. Wait until I return and this to Master, then we'll see how my Master will take care of you! "Also, you can leave now. Don't bother us anymore!"

Qin Huanyu knew clearly in his heart that he wouldn't be able to make a move against Long Chen with Huangfu Qi around, so he could only choose to let the Seep King take care of this matter.

For Long Chen, this was perfect.

"Qi Qi, then I'll go back first. Come and play with me again when you're free. " Long Chen was eager to leave now, so the other party's words were just in his heart.

"I want to go with you." Huangfu Qi hurriedly said.

"No, junior sister, you haven't been enveloped by the demonic light, you can't be considered to be a member of my Ancient Devil Region, you can't leave!" Qin Huanyu hurriedly said.

"Alright," Huangfu Qi's face was gloomy.

Looking at the little girl, Long Chen was a little speechless. If he told her that he was going to the Sevenfold Demon World s, she would probably follow him even if she risked her life.

After leaving this place, Long Chen secretly left the The King's Hall of Clearing Seep, and headed towards the direction of the Mount Demonheart. Long Chen only understood the position of the Mount Demonheart, because the characteristics of the Mount Demonheart was very obvious.

His appearance was similar to that of the Diremonster Mountain, I'm afraid that the founder of the Demonic Palace, Guangyuan, had discovered that the Diremonster Mountain was somewhat similar to him when he chose the Diremonster Mountain to establish the Demonic Palace.

After leaving the vicinity of the The King's Hall of Clearing Seep, Long Chen was already able to see the location of the Mount Demonheart from afar. Honestly speaking, after exiting the The King's Hall of Clearing Seep, Long Chen felt that the The King's Hall of Clearing Seep was indeed the most beautiful palace. Although it was only average, it was much better than the other mountains around the Ancient Devil Region.

"This place is full of earth vein spirit, but there is an extreme lack of life force. There must be something that absorbs life force, that's why it is like this." The kitten said.

The kitten had mentioned this many times, but it had no idea what it was.

This kind of thing was still a long way from Long Chen, so he only paid attention to it a little and did not delve into it any further. He focused on rushing towards the Mount Demonheart. In the Ancient Devil Region, he did not recognize anyone and only walked with his head lowered. On the way, there were very few people who greeted him.

In the Ancient Devil Region, there were a lot of people.

Very quickly, Long Chen had already reached the foot of the Mount Demonheart, and there were quite a number of people heading towards the Mount Demonheart. Long Chen noticed that there was a very large cave at the foot of the Mount Demonheart, and at this moment, there were quite a few people coming out from the cave. Most of the people were wearing messy clothes, and some of them even suffered some small injuries.

"Once you exit the Sevenfold Demon World, you will be at the foot of the Mount Demonheart. The Mount Demonheart's peak is the entrance, and the bottom is the exit. It is truly mystical," Long Chen said with a tinge of emotion.

Then, he took out a black colored plate from his chest pocket. This plate had the word "Jiang City" written on it, and this was the iron plate of a Ancient Devil Region disciple, proving the identity of a Ancient Devil Region disciple. Only with this iron plate, would Long Chen be able to enter the Sevenfold Demon World.

This identity token was distributed last night.

Taking the Identity Iron Plate, Long Chen began to climb up the Mount Demonheart. The strong warriors of the Ancient Devil Region relied on their Innate Qi to quickly rush up, Long Chen had already reached the Second stage of the Heavenly Completion Stage, but was still at the bottom in the Ancient Devil Region, so he had no choice but to slow down to avoid attracting other people's attention.

One had to know, that in the Ancient Devil Region, there were many people who recognized him. Of course, they recognized the appearance of Long Chen's Dragon Soul Transformation.
