

War God 481

Chapter 481 - Second Demon World

A quarter of an hour later, Long Chen arrived at the peak of Mount Demonheart.

There was a large range around the Ancient Devil Region that was controlled by the Ancient Devil Region, so it was not even at the three Martial Realms. Basically, no martial artists could enter this place, and Long Chen could also feel that the true core of the Ancient Devil Region was probably in the later three stages of the Sevenfold Demon World.

Mount Demonheart's guards could only be considered normal, and this was because basically no one could enter the Ancient Devil Region.

Long Chen had entered openly this time, so there was no danger. He stood at the peak of the Mount Demonheart, and looked down at the bottomless pit, which was pitch-black. It was basically a bottomless abyss, and if he did not know that there was a Sevenfold Demon World down there, no one would dare enter.

"Brat, you haven't entered the Sevenfold Demon World yet right? Do you know what's the most mystical place at the entrance?" At this time, when one of the guards saw Long Chen still standing, he said mysteriously.

"I don't know." Long Chen shook his head.

"Hehe, there have been many Ninth Level of the Heavenly Completion Stage experts flying downwards. They have always been deep in, always deep in, and discovered that this is simply a bottomless pit. I heard that the person who has entered the deepest place in history has probably arrived within a thousand kilometers, but there's still no end to it. If we were to directly fall down and not use our true qi, our bodies would probably go in a kilometer or so before reaching the first stage of the Sevenfold Demon World! "Tell me, is it magical or not?"

What kind of logic was that? If you fly in directly, you might not even be able to reach the Sevenfold Demon World even if you go a thousand miles in, but if you jump in, you should be able to reach the Sevenfold Demon World after falling a mile?

The Dragon Sacrifice Continent was vast and boundless. Even the Holy Martial Empire was only a small corner of it. Even in this small corner, there was such a miraculous thing, to say nothing of other places.

After talking to the guard for a while, Long Chen opened his arms wide and directly fell into the huge hole.

The feeling of falling rapidly.

When he was in Star Demon Prison, Long Chen had fallen down once, and the current feeling was similar to what he had experienced then. Long Chen believed that if the ground had appeared in front of him at this time, even if he had the power to transcend the heavens, he would still fall into a meat patty.

However, after falling down for almost a kilometer, he discovered that his body had suddenly crashed into an invisible membrane, and he instantly knew that he had arrived in another world. There was no pain, the huge impact on his body had completely vanished, and he slowly landed on the ground.

Looking at the vast expanse of black ground in front of him, Long Chen knew that from today onwards, his strength would advance by leaps and bounds, just like when he had just arrived in Inverse Wonderland.

Wolves in sheep.

To Long Chen, the other demon beasts were like sheep in his eyes. Except for the wolf cub, of course ...

"Is this the first Demon World?" Long Chen secretly sized up this piece of land. The land here was completely black, not the charred black of the Burning Sky Mountain Range, but pure black. It was completely black, even a tiny grain of sand was black.

Aside from this black ground, the sky was also covered by dark clouds. These dark clouds did not give people the feeling of rain. It was originally this color. Black fog filled the sky.

It had to be said that in this first stage of the Demon World, the natural spirit energy was richer than the Ancient Devil Region outside. Unfortunately, this place was even more barren, and only the occasional desolate beast's roar could be heard, proving that this place was actually alive.

Powerful auras came from afar.

"In this first level Demon World, all the demon beasts of the first three stages of Heaven Stage aren't of much use to me. I have to find a way to get to the second place from the Infernal Realm. " Long Chen thought.

"With my current status as a normal disciple, I can only wander around in the first stage of the Demon Realm and Second Demon World. As for Third Demon World, there are no demon beasts that I want to kill, so at that time, I can only think of another way. Right now, the most important thing is to reach the Second Demon World, and directly go there!"

Just as this thought floated in Long Chen's mind, ripples appeared in the sky and a young man in his twenties descended from the air. He slowly opened his eyes and saw Long Chen.

Long Chen sized up this youth. He had about the strength of his Fifth stage of the Heavenly Completion Stage, and judging from the comparison between his strength and age, he should be an ordinary disciple. This youth had an ordinary appearance, there was a simple and honest look in his eyes. After seeing Long Chen, his mouth opened widely, showing that he was a person who was easy to get along with.

In the Ancient Devil Region, he might not be that eye-catching, but if this kind of person was placed in a small place like the Canyang Kingdom, they would definitely be able to summon the wind and summon the rain.

Very quickly, this person stopped by Long Chen's side, and asked while smiling: "Little brother, is this your first time here at the Sevenfold Demon World?"

Long Chen nodded and said, "Indeed."

He sized up Long Chen for a while and said: "I have observed carefully, and discovered that your strength should be at the first three stages of Heavenly Completion Stage. Therefore, you must be careful when coming to Sevenfold Demon World. As for Second Demon World, you absolutely cannot go there. "

For Long Chen, the chance had come.

"This big brother, I don't even know how to reach Second Demon World yet. Are you going to go to Second Demon World?" Long Chen immediately asked, to get the location of the Second Demon World from the entrance, it was a pretty good choice.

Second Demon World, as long as you reach the end of the first layer of the Devil Realm, and then discover that there is a huge ravine in front of you, once you jump in, you will be able to reach the Second Demon World. During your trial period, if you discover that you have encountered the ravine that obstructs your path, you don't need to advance any further.

The young man explained in detail to Long Chen.

Long Chen felt that this man was quite warm-hearted, succeeded in getting a few words out of the man's mouth. Long Chen's face was full of gratitude, and he immediately said: "Thank you, big brother. I will definitely be careful.

"Mm, life is the foundation. If you want to gain experience, then you have to ensure your own life!" The youth sighed.

"I wonder if Big Brother will go to the Second Demon World?" Long Chen asked again.

"Indeed, I have a woman I like, she's training his Second Demon World, I can't stop worrying about her, so I went to help her out. Little brother, there's not much time left, I think she'll be in a rush if I leave first, take note!"

After he finished speaking, the young man quickly left. Even Long Chen did not know his name.

This was the entrance, and in a while, there would be more people coming out. Long Chen was not willing to see the others, so he quickly left and started his demonic hunt.

In the first stage of the Demon World, there were demon beasts that were at the first three levels of Heaven Stage. Even if Long Chen didn't use his Dragon Soul Transformation, killing these demon beasts wouldn't have too much pressure. The ones here were mostly first-grade Heaven Stage demon beasts.

Heaven Ranked Level 1 beasts were of no use to him, so Long Chen used the Spirit Devouring Demon Pupils to directly bypass these beasts, and also bypassed a lot of Ancient Devil Region disciples, and directly headed towards the depths of the first level of the Demon World.

Therefore, he continued to move forward, and soon reached the area where the Heaven Ranked Level 3 Spirit Beast was. When Little Wolf was trying to level up to Heaven Ranked, he had once eaten a Heaven Ranked Level 3 Spirit Beast, the Raging Inferno Lion's Spirit Beast Core. He was now a Heaven Ranked Level 1, so the Heaven Ranked Level 3 fire type Spirit Beast Pill was still effective on him.

Therefore, Long Chen did not deliberately take a detour, but instead, advanced forward. Within the vicinity of his vision, if there were any third level heaven stage beasts, as long as they were of the fire attribute, he would not let them go. Although it was useless to him, it was effective for the little wolves.

At this time, Long Chen pulled the Demon Emperor Sword out from a Fiery Lion's neck. That Fiery Lion rolled on the ground a few times, then quickly stopped moving. The wolf cub very quickly pounced on him and started to bite at him. Then, he took out a fiery-red beast core from his mouth and swallowed it into his stomach.

Last time, they had merely obtained the Ferocious Lion's beast core, but they had not seen the Fiery Lion's power. Even though it was only at the third level of the Heaven Stage, the Fiery Lion was extremely extraordinary and had a very profound ability in fire control.

In order to end the battle quickly, Long Chen immediately used the Dragon Soul Transformation skill and used his entire body's worth of power to kill it.

Very quickly, the wolf cub used up all the Demonic Cores belonging to the Fiery Fiery Lion, but he was still a Heaven Stage level 1. According to the wolf cub's estimation, the Demonic Cores did not have much effect on him, and for the Level 3 Demonic Cores, he would need at least ten of them to be able to help the wolf cub reach Heaven Stage level 2.

However, demon beasts that could devour flaming items to level up were truly rare!

As long as they are allowed to grow, there will be a day when the entire Dragon Sacrifice Continent will be shaken.

Long Chen was also looking forward to see that day. Of course, he also hoped that he wouldn't be weaker than the little wolf at that time, if he was weaker than the little wolf, how would he be able to be the big brother of the little wolf?

There were quite a few third grade heaven stage beasts here, but Long Chen believed that the fourth stage heaven stage beasts were more suitable for him and the little wolf, so he directly headed in the direction of the Second Demon World.

After about an hour, a deep ravine finally appeared in front of them. This scene was pretty much the same as the entrance to Mount Demonheart.

"You need to fall into this deep ravine in order to reach the Second Demon World?" Long Chen realized this. As for the logic, it should be the same as the situation in the Mount Demonheart.

On the other side of this ravine was black fog, and there was no other way out. To reach Second Demon World, this was the only way.

"Then, jump."

Chapter 482 - True Body of the Ancestral Dragon

Once again, he felt the sensation of falling rapidly.

Long Chen simply closed his eyes and experienced the sensation. Time passed quickly, and not long later, Long Chen had already fallen about a mile, and at this time, he came across an invisible membrane, it was strong and soft, and after Long Chen crashed into it, all the falling power in his body was immediately dispelled. He once again entered another dimension, and his body steadily landed on the ground.

When he opened his eyes, the scene in front of him was exactly the same as the first level Demon World. It was all black ground and a black sky, a vast expanse of land with even a trace of terror hidden within.

Here, Long Chen also felt a bit of pressure.

He understood that he might not be able to deal with many of the demonic beasts here. Moreover, there were quite a few experts here, so he had to restrain himself a lot in order to accomplish his goal.

The first mission was, of course, to leave the place immediately. Long Chen first found a safe place to stay, then used the Spirit Devouring Demon Pupils to observe his surroundings. Within a kilometer, he quickly discovered a fourth level heaven stage demon beast.

From the strength of the soul, he could also see some clues.

The ancestral dragon blood has never been obtained by anyone since its existence. You can be considered the only descendant of an Ancestral Dragon in the Dragon Sacrifice Continent, under the transformation of the ancestral dragon blood, you might even become a new Ancestral Dragon — the Archaic Blood Dragon of Blood and Slaughter! "

At this moment, the kitten suddenly said this.

The Inherited Blood Essence is the Inherited Blood Essence of the Primordial Blood Dragon. Only after being acknowledged by Little Cat did Long Chen finally confirm it. He knew that although Little Cat didn't have much fighting strength right now, she still had a lot of authority and knowledge.

"You always knew, but you didn't say it out loud?" Long Chen asked. He knew that the kitten should have woken up a long time ago and knew about Long Chen's and the Little Wolf's situation. Therefore, when it first appeared, it did not seem to be surprised by Long Chen and the Little Wolf at all.

Logically speaking, most people would find it hard to believe to know these secrets. However, Cat should be the type of person with great knowledge. At this moment, he had personally witnessed Long Chen's Blood Refinement Art, which was why he was sighing with emotion.

"This god naturally knows about such a small matter." The kitten said imposingly.

Although he said that it was a small matter, Long Chen felt that it was a huge matter. Long Chen knew that this was probably the reason why Little Cat followed him, with its arrogance, it would not give up its ten thousand year of strength to revive Long Chen. It would even follow behind Long Chen as a little brother.

Everything was because of the ancestral dragon blood.

Regardless of whether the kitten had any malicious intentions, it had saved her before. After all, it had saved the entire White Yang Town, and Long Chen would repay it for that. And now, the relationship between one man, one wolf, and one cat was progressing quite well.

"Are you saying that one day, I will transform into a Ancestor Dragon?" Long Chen asked seriously.

When you absorb all the inherited blood, you should be able to awaken the Ancestral Dragon's true body, but you are only a young dragon, a truly strong Ancestral Dragon needs billions of years to grow, so at that time, you were still very weak, of course, for me, you are still very weak, but for other living beings, a infant Ancestral Dragon is also the most powerful existence, so, work hard and fight for your Ancestral Dragon's true body! The kitten lazily said.

"Cat, let me ask you a question." After hearing the true body of the Ancestral Dragon, Long Chen was a little excited in his heart.

"If you have anything to fart, hurry up and release it for laozi." The kitten said proudly.

"Tell me, if I had awakened the true body of the Ancestral Dragon, would my strength at that time be enough to marry Ling Xi!" Long Chen's eyes flickered as he said that.

"Nonsense, do you think that the true body of the Ancestral Dragon is like a cabbage, that can't even beat a few little Divine Martial Stage s? Of course, if there were any strong practitioners from that girl's tribulation stage, it would be a little suspenseful. "

How many little fellows with Divine Martial Stage? What other tribulation stage do you have?

Long Chen was a little stunned. He once again realized his insignificance; among the three great Martial Realms, the Heaven Martial Stage was the strongest, and Divine Martial Stage was a legend. And in Little Cat's words, Divine Martial Stage was only a little fellow.

At the same time, Long Chen also realized his own potential, this time he had inherited 1% of the inherited blood essence, so it should be 10% the next time. The next time it was all the next time, and as long as he reached the next time, he would have the strength to fight against Ling Xi's family.

Therefore, he had a lot of potential, and in an extremely short period of time, he would become the peak existence of the Dragon Sacrifice Continent. At that time, Divine Martial Stage would truly be nothing more than a small role in front of him!

If one day, he could become a true Ancestral Dragon, then who in the Dragon Sacrifice Continent could be a match for a heaven-destroying existence like this Ancestral Dragon?

He knew that there would be a day when he would be a super strong Ranker, and everything that he wanted, as long as he wanted, would be his. But right now, what he needed the most was growth and time, so he had to be cautious, and the only thing he could do was to preserve his own life, and raise his own strength. Perhaps, in a decade, Long Chen would be able to snatch Ling Xi back!

"So, try your best, young man. Just like this little black dog, you two are miracles unwittingly produced by the Dragon Sacrifice Continent, of course you two are just small miracles now. When you two become big miracles, I can also brag to others about it. The kitten fell into a trance.

Dreams were of course beautiful, but it all depended on the hard work of the moment.

Long Chen and the wolf cub looked at each other and saw the blazing light in each other's eyes.

There will be a day when their brothers will stand at the peak of the entire Dragon Sacrifice Continent and no one can stop them!

Long Chen now had the most heaven-defying talent, but now, he needed to steadily improve. Thus, after making eye contact with the little wolf, they immediately took steps, and walked towards the demon beast at the fourth level of the Heaven stage.

Cat's words from before had caused endless passion to rise in Long Chen's heart, and now that they had actually made a move, his heart had actually calmed down. He knew that this would be more suitable for him to move forward. He would throw away everything and take every step steadily.

"This young man is like an apple that suddenly crashed into a board game. His appearance will disrupt the entire game. Will the secrets that have disappeared be revealed one by one as he grows up?" Why did the ancestor dragons at the peak of the realm disappear without a trace in one night? If not for the disappearance of the Ancestral Dragon, how could the Ancient Dragon God, which has ruled the Dragon Sacrifice Continent for billions of years, be completely extinct? How could ordinary divine beasts like us appear?

For the first time in Great Void Realm, the kitten's gaze became incomparably deep.

And at this time, Long Chen had already gotten close to his target. Because it was not a fire-attribute demon beast, Long Chen let the little wolf return to the Great Void Realm, while his eyes were tightly staring at the gigantic demon beast in front of him.

"Seven Fiends Demon Ape. The fourth level of the heaven stage specialized in strength and speed. "The information about this demon beast began to appear in his mind."

To Long Chen, this was already considered extremely huge. Seven Fiends Demon Ape's entire body was white, but there were a lot of black stripes on his body, like a series of runes running around its body. The most eye-catching thing was his pair of claws. One had to say, they were truly terrifying.

Even though Long Chen had transformed into the Dragon Soul, he did not dare to let his opponent scratch him. Just from his appearance, it could be seen just how powerful the Seven Fiends Demon Ape was.

Especially ape-type demon beasts, their speed and agility were also quite good!

Without saying a word, Long Chen took out the Demon Emperor Sword, turned it into a blood red shadow, and rushed towards Seven Fiends Demon Ape! He used the method of assassination. After arriving at the Sevenfold Demon World, he had to become stronger as fast as possible, so if that method could kill demon beasts, he would choose that method!

At that moment, all of the power in his body was being used. Other than the Great Mantra of Dao-heart Seed, he had used everything else in his body, and at the first moment, Long Chen used the Devouring Blood Realm to control a portion of the Seven Fiends Demon Ape's movements. At the same time, he raised the Demon Emperor Sword in his hands high up into the sky.

"Heaven Punishing Sword Formation!"

As he quickly approached the Seven Fiends Demon Ape, Long Chen used his most powerful move. Every time he used the Heaven Punishing Sword Formation, Ling Xi's smile, which could overturn everyone's hearts, would appear before his eyes.

"Ling Xi!"

In his eyes, the gigantic Seven Fiends Demon Ape had turned into the image of a dynasty. Long Chen obviously knew that it was an illusion, but he had to say that he swore that in this life, he would definitely let that young man realize that he, Long Chen, was a terrifying person!

The Seven Fiends Demon Ape was taking a leisurely stroll when he suddenly received an attack that made all the hairs on his body stand up. Especially Long Chen's Devouring Blood Realm, because of the difference in their realms, the current Devouring Blood Realm could only be of little use to the Seven Fiends Demon Ape. However, it could be considered to have a huge impact on him, especially in this life or death situation.

It had to be known, when Long Chen used the Heaven Punishing Sword Formation, he could immediately kill Zhao Wuji who was using the Fourth Level of the Heavenly Completion Stage. And now that he had reached the Second stage of the Heavenly Completion Stage, the Seven Fiends Demon Ape he was facing was only at the fourth level of Heaven Stage.

Chapter 483 - Phantom Fox

Most importantly, Long Chen used a sneak attack.

Cat's words caused Long Chen to be greatly shaken, and made him realize that right now, the most urgent matter at hand was to use the greatest effort possible in order to raise his own strength. Right now, he was not fighting with the Seven Fiends Demon Ape, but was using the simplest method to understand Seven Fiends Demon Ape's life, which was the witness to his growth.

"Puchi!"

Under such a terrifying attack from Long Chen, the Seven Fiends Demon Ape simply did not have the power to resist. It could only dodge the cold light at the last moment and at the same time, used its arms to block, but the price was that both of its arms were chopped into pieces by Long Chen. Following that, the Heaven Punishing Sword Formation stabbed into its body, crushing its internal organs into powder.

In the shortest amount of time, Long Chen kept the Seven Fiends Demon Ape's corpse and all of the beast blood within the Great Void Realm. The Great Void Realm was a considerably perfect space, much easier to use than the Qiankun bag, and following Long Chen's increase in strength, the size of the space inside was also increasing.

That was why Long Chen had immediately left this place after he retracted his Seven Fiends Demon Ape's body. He came to a remote corner, and used the Spirit Devouring Demon Pupil to discover that there was nothing around him before he released the little wolf.

"Little Wolf, protector, I will attempt to break through to the 3rd stage!"

To Long Chen, with the formidable power of the Ancestral Dragon, his level up didn't need to take a long time to accumulate. He only needed the blood essence of the Goblin Beast and enough Tongtian Pill to become stronger. Not long ago, he had just reached the Second stage of the Heavenly Completion Stage, and was about to head there.

The Seven Fiends Demon Ape's beast blood was completely swallowed by Long Chen. His originally huge and fat body quickly became a dried up corpse in front of Long Chen. This was the terror of the Ancestral Dragon. The Archaic Blood Spirit Dragon was a bloody and slaying dragon, and it was normal for it to have such a terrifying ability.

At this time, the rich power contained in the Seven Fiends Demon Ape's bloodline was being slowly devoured by Long Chen, and under his control, only a small portion of his blood essence, which was a few tons heavy, turned into true qi and was absorbed by Long Chen. Under his control, the majority of the blood turned into trash and left the room.

The Innate Qi Devoured by Blood Refinement was much purer than any demon Qi, and was even more suitable for Long Chen. Other than Long Chen's own Innate Qi, Blood Refinement Qi was the most suitable method for him to level up.

gradually possessed the qualifications to break through Third Level of the Heavenly Completion Stage. In less than three days of time since he had entered, his cultivation realm had risen by several levels continuously, and in the competition for entry, those who looked down on him, especially the Scarlet Ghost King, would probably have a very interesting expression on their faces if he knew that!

Long Chen quietly continued to improve.

The first acupoint was in the Dantian, the second acupoint was in the chest, and the third and fourth acupoints were in the legs. To be exact, they were in the center of the feet, so it was much harder to open the third and fourth acupoints than the first and second.

Of course, there were a lot of benefits after opening the Gate of Opening. The true energy within one's legs would directly affect one's speed, and generally speaking, after Third Level of the Heavenly Completion Stage, the speed would greatly increase.

There were a total of six spiritual cavities in the human body, two of them were in the body and the other four were in the sole of the feet and palms, greatly increasing the strength of the four limbs.

And now, Long Chen's attention was completely focused on his left leg. With the experience of opening the meso-spiritual canal, he only needed to be more careful and he would be able to open the third one.

Of course, the most important thing was still the Tongtian Pill. Long Chen didn't hesitate at all as he stuffed a large amount of Tongtian Pill into his mouth. He only had a total of ten thousand Tongtian Pill, and having reached the Third Level of the Heavenly Completion Stage realm, he had already spent twenty percent of it. Moreover, he believed that as his realm rose, the amount of Tongtian Pill that would be needed in the future would only grow.

With a total of three thousand Tongtian Pill, his true qi had reached a sufficiently mild state.

Here in his leg, there were only two star veins that could be connected, thus Long Chen had to carefully send all of his Innate Qi into the middle of his leg, and rush to the bottom of his leg. His legs were weak to begin with, so he had to put in a lot of effort, but luckily, Long Chen was able to endure the pain, and after fifteen minutes, all of his Innate Qi had gathered at the bottom of his feet, preparing to launch the last burst of Innate Qi.

"Phew ..."

Under Long Chen's control, wisps of Innate Qi started to expand the third acupoint, from missing to present, from small to large. The position of the sole was not very large, and when the third acupoint expanded to the size of his dantian, Long Chen realized that his foot did not actually grow much larger.

The sea of consciousness did not exist in any part of the body, but it was real, and this acupoint was the same. The third acupoint in the sole of his foot was around the size of a danling aperture, but in Long Chen's feet, he only displayed the size of a yellow bean.

This should be due to the relationship between dimensions, just like how such a vast space as the Sevenfold Demon World actually existed within the Mount Demonheart. Looking at it from the outside, the Sevenfold Demon World was not very big, but when Long Chen arrived inside the Sevenfold Demon World, he realized just how big it was inside.

After stabilizing his third acupoint, Long Chen started to sprint. Under his control, all of the true qi converged into the acupoints, because there were enough Tongtian Pill, so he did not encounter any obstacles, and successfully formed a white whirlpool. Soon enough, white pills appeared on the surface of the whirlpool.

The third nucleus formed within Long Chen's body like this. The eighteen galaxies' cycle was now even more convenient, fast, and massive.

When all of the Tongtian Pill's power had dissipated, Long Chen had successfully reached the Third Level of the Heavenly Completion Stage, allowing his strength to once again increase tremendously! At least in terms of zhenqi, it had increased to nearly ten times!

Standing up, Long Chen once again felt the strength of his body.

"Even though it's very strong, much more powerful than before, it's still weak compared to those truly strong warriors. Third Level of the Heavenly Completion Stage, in a small Ancient Devil Region, can only be considered as the lowest level." Thinking about it, Long Chen was still not satisfied with his current strength.

He cast his gaze deeper into the Second Demon World.

"The next target is a fifth level heaven stage demon beast. At the same time, I need to find some for the little wolf. I need to see if there are any fire-type demon beasts."

Along the way, he had already spent a lot of time cultivating, killing demon beasts, and breaking through Third Level of the Heavenly Completion Stage. Adding on the time they had to travel, a day might have already passed outside. Long Chen continued to move forward, hunting demon beasts as he increased his own strength, and with the foundation of his Third Level of the Heavenly Completion Stage, his Innate Qi grew even more. In the process, Long Chen also encountered a fourth level Heaven Stage Jade-Eyed Flame Fox, after killing this Fire Fox, its Orb made the wolf cub's level increase another level, reaching the second level of the Heaven Stage.

The wolf cub's increase in strength was of great help to Long Chen.

It could be said that the two of them were both extremely heaven-defying. Their speed of improvement had reached an unprecedented level.

Long Chen spent quite a bit of time to arrive at the place where the Heaven Stage level 5 beasts were lurking. The beasts here were relatively rare, but they were all very powerful, and after Long Chen used the Spirit Devouring Demon Pupil to search the surroundings for a long time, he finally found the figure of a demon beast. He slowly snuck up and looked at the beast from a very far distance.

"It should be a fifth level Heaven Stage Phantom Fox. This beast's attack power can only be considered average, but its speed is faster than normal sixth level Heaven Stage demon beasts. When it walks, it's like a ghost, however, its blood can indeed allow me to reach Fourth Level of the Heavenly Completion Stage!"

Now that Long Chen had opened up one of the legs' acupoints, once he reached Fourth Level of the Heavenly Completion Stage, he would be able to open his legs' acupoints, his speed would increase by several fold! Of course, it was quite good now.

Long Chen secretly changed into the Dragonsoul Transformation, and then quietly dived towards the Phantom Fox. This time he had to get rid of this Phantom Fox, and let himself reach Fourth Level of the Heavenly Completion Stage.

The reason Long Chen came to the Sevenfold Demon World was to level up, so his determination was incomparably strong.

In a flash, Long Chen crazily rushed forward, and like a streak of red blood, he quickly swept towards the Phantom Fox's location!

The Phantom Fox's hearing was extremely good. In that instant, it suddenly raised its head and saw Long Chen. The Phantom Fox was a fifth level heaven stage demon beast while Long Chen was just a mere Third Level of the Heavenly Completion Stage. Logically speaking, the Phantom Fox should not be afraid of him, but Long Chen underestimated the cowardice of the Phantom Fox.

"You want to escape?" Long Chen sneered, then erupted with an even faster speed and madly chased after the Phantom Fox. Although the Phantom Fox's speed was fast, Long Chen was not slow either, and the current Long Chen still had a strong body, becoming an addition to her speed. Thus, one could see that the distance between him and the Phantom Fox was slowly closing in.

Of course, the difference was not too big. It was just that Long Chen relied on his physical strength, while the Phantom Fox relied on its demonic powers.

The direction that the Phantom Fox was heading towards, was towards the deeper parts of the Second Demon World.

Chapter 484 - Fourth Level of the Heavenly Completion Stage

If this continued, in order to catch up to the Phantom Fox under normal circumstances, he believed that he would encounter some unforeseeable danger. Long Chen quickly thought about it and decided right away. He used the Blood Escape that he hadn't used in a long time and merely used it to instantly increase his speed by tens of times. In a very short moment, his body had already arrived in front of the Phantom Fox.

Actually, Long Chen had already withdrawn the blood escape in the shortest time possible after using the blood escape technique. Simply by doing this, he had already completed his goal, crossed a distance of a hundred meters, and arrived in front of the Phantom Fox.

From this, it could be seen that the Archaic Blood Spirit Dragon's abilities were all heaven-defying. Even the blood sacrifice was terrifying.

It was just a blood sacrifice and escape, Long Chen did not use them often enough.

After pouncing in front of the Phantom Fox, Long Chen did not hesitate at all and immediately used the Heaven Punishing Sword Formation. With such a large scale attack from the Heaven Punishing Sword Formation, dealing with a demonic beast as fast as the Phantom Fox was the most suitable option. Under the encirclement of the Heaven Punishing Sword Formation, the Phantom Fox basically had nowhere to run.

In fact, the thing that Phantom Fox could not understand the most was how Long Chen's speed could increase by so much in such a short amount of time.

And at this time, Long Chen's Heaven Punishing Sword Formation enveloped its body.

Similarly, the Phantom Fox's first thought was still to escape.

Just that, with the Heaven Punishing Sword Formation in such close proximity, how could it possibly escape?

The Heaven Punishing Sword Formation was a battle skill of the Heaven Stage High Rank, and it came from Ling Xi. What Long Chen was certain of was that the strength of the Divine Martial Stage, the power of the warriors, and the Heaven Tier Battle Skill that they had were not simple either, something that the Phantom Fox, could not hide from.

Under Long Chen's powerful physical body, the Heaven Punishing Sword Formation quickly pounced, causing the Phantom Fox to be unable to escape. Of course, the counterattack from a fifth level heaven stage demon beast before its death was also very terrifying, and it took a lot of effort for Long Chen to dodge the Phantom Fox's attack, then directly used the Heaven Punishing Sword Formation to reap the life of the Phantom Fox.

It was not that the Phantom Fox was too weak, but rather, the current Long Chen was increasing in strength step by step. Now, a fifth level Heaven Ranked Spirit Demon Beast was unable to withstand the might of his Heaven Punishing Sword Formation.

After collecting the Phantom Fox's corpse into the Great Void Realm, Long Chen hurriedly used the Spirit Devouring Demon Pupil to look around him. Because he had a relationship with the Phantom Fox, he had already delved deep into the second layer of the Demon World, so he had to make sure that he was safe.

Fortunately, there were no other spirit beasts around, but there was an existence of someone. This person was only around a hundred meters away from Long Chen, and caused a lot of noise, but he did not head in Long Chen's direction. He was walking in circles, as if he was looking for something.

Long Chen originally wanted to find a place to refine Blood Qi and raise his own strength, but when he saw this person, his curiosity was piqued.

"This guy is the man who told you how to reach Second Demon World when you just arrived at the first realm. He seems a little strange." At this time, the kitten reminded him.

"I'll go take a look." If it was him, Long Chen wouldn't have to worry. That guy had Fifth stage of the Heavenly Completion Stage, even if he had malicious intentions, he would be helpless against him, just like a fifth level Heaven Stage Phantom Fox. To the current him, fifth level Heaven Stage was not a problem.

But what Long Chen found strange was that didn't he say that he would enter to find a woman he liked? Why was he here alone? Could something have happened to his woman?

A distance of over a hundred meters could be covered in a short while. Long Chen quickly appeared in front of the man's eyes. When he saw the man's appearance, Long Chen was startled, in his impression, the man before was gentle and refined, but now, his hair was messy, and his eyes were deep sunken.

"This big brother, do you still remember me?" Right now, it should have been around a day or so since he arrived at the Sevenfold Demon World.

"It's you!" The man was taken aback. Then, he reacted and coldly said, "With your strength, you still dare to come here. I advise you to leave quickly. I have no time to care about you!" After saying that, he turned around and prepared to leave.

Long Chen did not make a move. He only felt that it was strange, but since it had nothing to do with him, he was too lazy to ask.

However, after the man walked a few steps, he turned around again and coldly said, "It seems that you don't want to leave?"

"I'm free to stay where I am. What happened to you?" After all, he had helped him before, so Long Chen was more polite. If there were other people trying to kill him, Long Chen would definitely not forgive them.

"Then go to hell." Hearing Long Chen's words, he actually rushed towards him.

Long Chen was a little helpless. He had just withdrawn the Dragon Soul Transformation skill, he did not expect it to be used again, but since Long Chen was too lazy to fight him, he immediately used Blood Escape and disappeared from the man's sight.

He actually wants to kill me for no reason at all. This time, I'll let you off this time on account of the path you have given me towards Second Demon World. If it's like this next time, it's not like this anymore. "

Using the blood escape technique, Long Chen immediately left the man, and then found a safe place to refine and absorb the Phantom Fox's blood and rush into the Fourth Level of the Heavenly Completion Stage.

This time, the charge was considered successful. When the fourth acupoint in his right leg opened, Long Chen's strength reached the Fourth Level of the Heavenly Completion Stage, causing his true qi to surge again, but right now, the effects of the true qi started to increase, while the physical body's power started to weaken. It wasn't until Long Chen reached the middle of the Sixth Level of the Heavenly Completion Stage that the physical body of the opponent he met would be able to feel a strong restraining force.

After all, there were quite a few people who had successfully cultivated the body tempering technique among the sixth and seventh stages of the Heavenly Completion Stage. It was just that their Heaven Stage High Rank combat skills were still inferior to Long Chen's dragon body by several levels. Long Chen's current strength was infinitely close to that of the three great martial artists.

When he arrived at Third Level of the Heavenly Completion Stage, Long Chen spent close to three thousand Tongtian Pill, and after arriving at Fourth Level of the Heavenly Completion Stage, Long Chen spent close to ten thousand Tongtian Pill, which was to say, his one hundred thousand Tongtian Pill, had already cost fifteen thousand. Following this speed, Long Chen was shocked to discover that the Tongtian Pill he was currently in possession of was only enough for him to reach Fifth stage of the Heavenly Completion Stage.

"This kind of speed at which Tongtian Pill are being consumed is really frightening. Looks like during my Demon Realm trial this time, at most, it'll only allow me to raise my Fifth stage of the Heavenly Completion Stage to; after all, Tongtian Pill are not enough, and within these Second Demon World, the strongest will only be a demon beast at the sixth level of Heaven Stage. at most, it would only allow me to reach the Fifth stage of the Heavenly Completion Stage. After I go out, I'll find other ways to get the Tongtian Pill and then encounter stronger demon beasts. Based on the current situation, in a month's time, I'll definitely have the strength to fight against the Eighth level of the Heavenly Completion Stage!"

In fact, what Long Chen lacked the most was a backstage. If he had a backstage, he would definitely become much stronger in an instant.

"Of course, with my Fifth stage of the Heavenly Completion Stage's strength, it's likely that no one will be my match under the Level 7 of the Heavenly Completion Stage's power, including that whatever Zhao Wuji, and that Qin Huanyu. Among the ordinary disciples, my strength has already reached the peak in just a short two days. I wonder what their reaction will be after they find out?" Long Chen was a little excited in his heart.

Of course, his rapid improvement this time was only because of the accumulation of his super strong battle body. Since he obtained 1% of the inherited blood essence, it meant that he would have a huge improvement in the future.

"Next, I need to find a sixth level heaven stage demon beast and let my strength reach the Fifth stage of the Heavenly Completion Stage." Long Chen set his goal, looked towards the depths of the Second Demon World, and started heading deeper inside.

During his journey, Long Chen met a few Heaven Ranked Level 5 beasts, of course, he only attacked because of the fire attribute demon beasts, and he could also verify his current strength. Amongst the few Heaven Ranked Level 5 demon beasts, there was coincidentally a fire attribute demon beast, so unfortunately, it became Long Chen's lost soul under the Long Chen's sword, and its demon core, under the Little Wolf's body, allowed the wolf cub to successfully reach the third level of Heaven Ranked.

Ordinary demon beasts would never be able to level up in their lifetime. Only a freak like the wolf cub, who possessed the power to absorb fire, would be able to rise two levels in such a short period of time.

In this Second Demon World, a Heaven Ranked Level 6 beast could only be described as rare, and just from the Spirit Devouring Demon Pupil s alone, it was hard to differentiate between a Heaven Ranked Level 5 beast and a Heaven Ranked Level 6 beast.

"I wonder, at the end of the Second Demon World, if there would be a ravine that would lead to the entrance of the Third Demon World?" With this thought in mind, Long Chen entered the deepest part of the Second Demon World. But what made him feel depressed was that he guessed wrong, the end of the Second Demon World was actually just a layer of membrane that he couldn't approach. Long Chen knew that this was the extreme wall of the Little Universe world.

"It looks like I'll have to find another way to enter Third Demon World." Thinking to this point, Long Chen had no choice but to look for a sixth level Heaven Stage demon beast. Finally, after two days, after going around in a circle for a long time, he finally found a sixth level Heaven Stage demon beast.

Their Orbs and the like had all become food for the little wolves, causing the little wolf's demonic energy to greatly increase. Of course, the little wolf had not reached the fourth level of heaven stage yet, so the effects of the fire attribute demon beast core on the little wolf were not very obvious.

After discovering the tracks of the demon beast, Long Chen did not act rashly. After all, even the current him had no choice but to focus all of his attention on the Heaven Ranked Level 6 demon beast.

"Sixth level of the Heaven Stage. The Icefire Twin-headed Snake! "

Chapter 485 - Icefire Twin-headed Snake

Icefire Twin-headed Snake.

From this name, one could roughly tell the characteristics of this demon beast. Honestly speaking, this was the first time Long Chen had seen a more powerful snake type Goblin Beast, a Two-headed Snake. Even from a distance, Long Chen was shocked by the appearance of this Icefire Twin-headed Snake.

It was a long snake that was over twenty meters long, and its entire body was covered in two colors, blue and red, blue and red, respectively occupying half of it. From its abdomen onwards, one snake had originally sprouted two snake heads, red and blue respectively, the red snake heads were currently burning with flames, and the blue snake heads were condensed with cold air, as a thick layer of ice formed around them.

Two extreme attributes appeared on the body of one demonic beast.

"This Icefire Twin-headed Snake should have two beast cores, right?" Long Chen asked.

"Of course, these kinds of demon beasts are the most peculiar, almost unparalleled among the same level of existence. Two demon cores, it means that their battle power is also two times stronger than other demon beasts, especially with these two extreme attributes, it is a pity that this little snake is too weak. Back then I had seen a nine headed snake, it had a divine beast, and its body was ten times stronger than mine.

Golden Crow, Reincarnation Godly Beast, and Nine Infants. According to what Little Cat said, these should be beasts of the same level, and they should gradually appear and grow during the later stages of the Primordial Divine Dragon's extinction.

Just by listening to Little Cat's description of the Golden Crow, Long Chen could tell how powerful these Goblins were.

These demon beasts simply only existed in myths and legends.

Long Chen set aside the reverence in his heart and carefully observed the Icefire Twin-headed Snake in front of him. This Icefire Twin-headed Snake was very ferocious, even though there was no threat from

its side, it still did not calm down. Its two pairs of eyes looked around cautiously, and within its mouth, a red flame like snake's tongue and a blue sword like snake's tongue were spitting and spitting. Its eyes were filled with a fierce light.

The ferocity of this Icefire Twin-headed Snake was much stronger than that Phantom Fox. Long Chen believed that if he revealed himself slightly, that Icefire Twin-headed Snake would immediately rush forward and tear him into pieces.

In this Second Demon World, this Icefire Twin-headed Snake should be considered an existence at the level of an overlord.

Long Chen did not want to delay any longer, so very quickly, he adjusted his mental state and prepared to make his move.

But at this time, he suddenly heard a loud noise not far behind him. He was so frightened that his hair stood on end, and he immediately hid himself, and headed towards the direction of the noise. At the same time, he was only a hundred meters away from the Icefire Twin-headed Snake, and the noise was estimated to only be a hundred meters away.

Long Chen had to be clear of those noisy people before he dared to focus on dealing with the Icefire Twin-headed Snake.

From the Spirit Devouring Demon Pupil's point of view, there were two people fighting with their lives on the line. Long Chen quickly approached and then went into hiding at the side. Because he had Spirit Devouring Demon Pupil, he wasn't worried about the Icefire Twin-headed Snake escaping. Furthermore, he reckoned that the Icefire Twin-headed Snake wouldn't even be able to escape.

The first person he saw was the man whom Long Chen had met twice in the Demon World. The first time he met him, he told Long Chen of the way to enter the Second Demon World out of good intentions, and the second time he saw him, he had a strange expression on his face. He wanted to kill Long Chen, but at this moment, his expression was crazed as he made his move against another woman.

The age and strength of that woman was around the same as his, and should be at the level of Fifth stage of the Heavenly Completion Stage. She was not a match for the current Long Chen, and she also had a pretty good appearance, plump and enchanting, a sexy woman that could not be more, but it was a pity that the man in front of him did not seem to have realized this at all, and was crazily attacking him.

"Fu Yang, you beast! You kept saying that you love me, but today you are going to make a move on me because of the Mystical Emperor Seal! " The woman said with a bit of resentment.

"Aren't you the same, previously you said that you would marry me, and now, because you wanted to monopolize Mystical Emperor Seal, you hid in this Second Demon World, letting me know, and still wanted to kill me. If I wasn't clever, I would have died already! You venomous snake and scorpion woman, how dare you speak ill of me? " The man said somewhat malevolently, and his attacks became even faster.

"I found the Mystical Emperor Seal myself, and it has nothing to do with you, why should I share it with you! In the past, you kept saying that you didn't even want your life for me, but now that you're fighting with me for the Mystical Emperor Seal, you are clearly a piece of trash who won't admit what you just said! "

"Do I think you can see me clearly? I only saw you clearly now, I only wanted to share a treasure with you, but you, the poisonous snake and scorpion woman, actually killed me, and the legend of the Royal Tier Battle Skills's Five Emperor Prints, wasn't I the one who told you! You dare to destroy the bridge after crossing the river! Forget it, since you are heartless to me, I will treat you unrighteously. I will take the Mystical Emperor Seal away, then you will obediently become the spirit of this place! "

From their conversation, Long Chen could tell that this woman was the woman that Fu Yang had said he liked. Long Chen also roughly knew the situation, it seemed like these two lovers started to fight with their lives on the line because of a treasure. Their love, in the face of treasures, could only be considered a bubble.

To Long Chen, this was something that he completely could not comprehend. The love that he understood, was just like the twenty years of waiting Dongfang Xuanxiao and Xuan Ming had never changed. It was like ten years of endless pursuit between him and Ling Xi, but they would definitely not clash in life and death because of some treasure.

It could be said that their concept of love had given Long Chen a certain degree of impact, allowing him to understand that love in this world was lowly to this extent.

Long Chen did not hate them, he just felt that they were very pitiful. If they knew how to sacrifice themselves, then they wouldn't have to die today. Instead, they could rely on this treasure to survive.

Most importantly, Long Chen heard a single word: Royal Tier Battle Skills.

Above the Heaven Stage was the king level, corresponding to the Earth Martial Stage, and above the king level was the emperor level. The royal level was corresponding to the Heaven Martial Stage. The dead Jiang City had once said, an Emperor level treasure, it was the pinnacle of treasures in the entire Realm of Myriad Kingdoms. The pinnacle of combat skills in the entire Realm of Myriad Kingdoms, it actually appeared here? Long Chen truly thought that he had heard wrongly.

But in truth, he confirmed that he was not wrong. He had listened very carefully, and what the man had said just now was indeed: The Legend of the Five Emperors Seal of the Royal Tier Battle Skills.

The Five Emperor Prints ought to be comprised of five parts. From their conversation just now, Long Chen could guess that the Mystical Emperor Seal that they had obtained ought to be one of the Five Emperor Prints.

If he really could get his hands on the Royal Tier Battle Skills, it would be even more effective than the dianyin bead, even if he could get his hands on the dianyin bead, it would just be a set of Ninth Level of the Heavenly Completion Stage, but the Five Emperor Prints, were king level seals. Long Chen knew that in the entire Holy Martial Empire, there was probably no one who had a Royal Tier Battle Skills.

Of course, it would be hard to come by if it was precious, and Long Chen did not know the exact situation, so he could only try to steal it, or even kill them, and this kind of couple, Long Chen did not mind killing them all.

An enormous opportunity was placed right in front of him, Long Chen would obviously not let it go.

Right now, their fight was getting more and more intense, and their attacks were becoming more and more vicious. It was as if they wanted to put the other party to death. Long Chen looked at it and felt very uncomfortable in his heart.

"Perhaps this is human nature. It is truly unimaginable how it would look like when they loved each other. Little Xi and I will surely never have such a day. "

Just as this thought was running through Long Chen's mind, he suddenly felt a powerful aura coming from behind him. Long Chen was startled, he knew that the battle between the two had already lured the Icefire Twin-headed Snake over. Icefire Twin-headed Snake was a fierce Heaven Stage level 6 beast, in terms of fighting strength, even if the two of them worked together, they still wouldn't be able to compare!

Long Chen had no choice but to change his position and change his position. Since the Icefire Twin-headed Snake had arrived, he decided not to make a move first. After he found a suitable time, he would then obtain the Mystical Emperor Seal in one fell swoop.

As for their lives, Long Chen did not care about them anymore.

When the two of them noticed the unusual movement, the Icefire Twin-headed Snake's huge body had already appeared in front of them, and was looking down at them from above!

"Icefire Twin-headed Snake!" The lady screamed in shock. She was initially under attack, but when she saw the Icefire Twin-headed Snake, she immediately retreated and attacked. She clearly knew just how powerful the Icefire Twin-headed Snake was!

Whoosh!

The Icefire Twin-headed Snake let out a hissing sound. It had always been an overlord in the vicinity, so not only did these two small creatures disturb it, they even wanted to escape now. Therefore, its attack landed on the woman's body first!

The huge snake tail created a phantom image as it swept towards the two of them. The woman was the leader of this group. The scope of this attack was enormous and it was impossible to escape.

"Fu Yang, save me!" At this time, the woman let out a sudden cry of despair. She used all the true energy in her body to the maximum extent possible to resist the snake tail's attack.

Just as he expected, the Icefire Twin-headed Snake's immense force directly sent the woman flying, causing her to spew out a large mouthful of fresh blood, her face instantly turning pale white, as though all her bones had been broken, and she would not live much longer.

"He deserved to die! The Mystical Emperor Seal is mine! " Fu Yang was escaping in the direction of the woman, and seeing that she was about to die, he revealed a look of ecstasy, and immediately chased after her!

Chapter 486 - Royal Tier Battle Skills

In truth, the Icefire Twin-headed Snake was only giving them a heavy punishment. If they could really escape, the Icefire Twin-headed Snake would not pursue them relentlessly, because with the lady's

obstruction, the man had actually fled a lot of distance. As long as he could obtain the Cosmic Bag from the woman, he could completely escape!

Seeing that the girl was about to land on the ground, and that the Icefire Twin-headed Snake behind her did not seem to have the intention of chasing after her, Fu Yang's face revealed a look of ecstasy.

As long as he got the Cosmos Sack, he could escape. As for the woman, he did not care whether she lived or died.

Just as he was about to approach the woman, an accident happened. A red shadow instantly swept out and caught the girl in front of him. At the same time, his hand quickly searched her body.

This change in events caused Fu Yang to immediately fall from heaven to hell!

"Who is it!?" "You're courting death!" Fu Yang roared, and pounced towards Long Chen, but how could he be a match for Long Chen? After he transformed into the Dragon Soul, the quality of his Innate Qi had increased by ten times. In terms of Innate Qi, he was not inferior to Fu Yang, especially when he had an extremely strong physical body, so when Fu Yang pounced towards him, Long Chen used the Traceless Demon Shadow and in a flash, he was right in front of Fu Yang.

"What!" Looking at the bone spikes and claws that had stabbed into his spleen, Fu Yang felt despair, and realized that he was about to lose his life. Long Chen's light strike had caused him to suffer injuries similar to that of a woman's.

"Who the hell are you?" Fu Yang's face was deathly pale as he looked at the Beast Fighters in front of him in despair.

"We've met twice, I'll accept this Mystical Emperor Seal. Thank you for telling me the location of my Second Demon World. " Long Chen grinned.

After hearing what he said, the man's eyes immediately opened wide in disbelief. He obviously remembered Long Chen, but shouldn't Long Chen have been around the Second stage of the Heavenly Completion Stage? How could he possess such shocking strength?

"Are you the new King in three consecutive championships?" At the very last moment, the man thought of such a person. The current him was in despair and regret, he knew that he had underestimated Long Chen.

"It's me, the first time I saw you, you helped me, the second time I saw you, you wanted to kill me, I'm even now, we are fighting over the same thing, the Mystical Emperor Seal cannot be leaked, so ..."

"Don't kill me!" The man said in shock, but it was already too late, Long Chen had gently made a move and snapped his neck, then his hands relaxed, causing his opponent's body to limply fall on the ground, his eyes wide open, as though he died with grievance.

Long Chen's ice-cold gaze landed on the woman who was still breathing.

"Jiang City Jiang, don't kill me! I'm willing to be your woman, what do you mean by not revealing anything! I'll listen to you for all eternity!" The woman had also heard of Long Chen's reputation, and upon seeing Long Chen's terror, she immediately stood on her lofty peak, wanting to use her slender body to obtain Long Chen's favor.

In fact, with just this body, she had already conquered a lot of men, and the one who fell at Long Chen's feet was one of them. She had enough confidence in her own body. Men were creatures that thought for their lower body. As long as she could conquer the lower half of his body, the upper half would be easy to capture.

Unfortunately, Long Chen had seen beauties who were much more beautiful than her.

"I, Long Chen, cannot enjoy a beauty like you. Since you two can't truly love each other in your lives, I'll send you two to hell." Long Chen's cold voice sounded beside the woman's ears.

"Puchi!"

Just then, the bone spike on Long Chen's body pierced into her heart.

In the end, her mind was still wondering Long Chen's name. He was clearly called Jiang City, why did he call himself Long Chen? Also, why does the name Long Chen sound so familiar?

Of course, the Long Chen who was ranked third on the Martial Alliance's bounty list was one of the three great martial artists, Long Chen, not the current Long Chen.

In a very short period of time, Long Chen had taken care of both of their lives, allowing their corpses to be held tightly together. Only then did Long Chen turn around, and saw that there was actually someone else who was causing trouble.

Especially the aura on Long Chen's body. Even though it was weak, it gave off a terrifying feeling. Having gotten used to being an overlord, this innate sense of subservience was something it could not believe. It had also successfully stimulated its vicious nature.

Furthermore, Long Chen had killed its prey, the Icefire Twin-headed Snake s, in front of it.

Just like that, a man and a snake faced each other as they got closer and closer.

Long Chen knew, that he only had one last step left to his mission to Sevenfold Demon World, and that was to kill the Icefire Twin-headed Snake and level up to Fifth stage of the Heavenly Completion Stage!

Of course, one of the key aspects of the Royal Tier Battle Skills's Five Emperor Prints, the Mystical Emperor Seal, was Long Chen's biggest unexpected gain. Of course, this was a secret that he absolutely could not reveal. If news of this were to spread, he would definitely provoke a fatal disaster.

Based on his current strength, Ancient Devil Region, which had numerous experts, was still considered the bottom level. At most, it would only be considered as the middle level.

During the confrontation, Long Chen took out the Demon Emperor Sword. Now was not the time to waste time, so at the first moment, Long Chen rushed towards his opponent. The Demon Emperor Sword in his hands drew out a ray of sword aura that shot into the sky, and slashed towards the Icefire Twin-headed Snake!

"The way of the Demon Emperor's Sword, Devil Dao Supreme Sword!" When Long Chen used the power of the Devil Dao Supreme Sword, he obviously could not underestimate it. The densely packed black sword blades shot towards the Icefire Twin-headed Snake with a loud bang!

The Icefire Twin-headed Snake let out two hissing sounds. At this time, its red and blue heads were charging towards Long Chen, spitting out a mouthful of blood. Suddenly, a streak of fire-red flames and

an icy-blue stream of cold air intertwined, colliding with Long Chen's Devil Dao Supreme Sword! That enormous power was even stronger than Long Chen's Devil Dao Supreme Sword!

Rumble rumble rumble!

The Devil Dao Supreme Sword was shaken to pieces as the surging water and fire energy crazily rushed towards Long Chen. Long Chen had already eaten this and immediately executed the Traceless Demon Shadow, allowing himself to quickly dodge the enemy's aftermath.

"This Icefire Twin-headed Snake is very strong, it's not easy to deal with!" Long Chen frowned deeply, he wanted to kill it in one strike, but it would probably not be that simple. After all, the Heaven Punishing Sword Formation did not have many opportunities to attack, if he allowed the opponent to hold on, killing it would be very difficult, and he might even attract others over!

Just then, the wolf cub's voice rang out, "Big brother, try to get close to it. When the time comes, I'll try using the Nether Demon Ancestral Fire! This fellow is half an expert at playing with fire! "

This was a good idea. If the Little Wolf suddenly appeared in the Great Void Realm, it would catch others off guard, especially since the Nine Hell Devil Ancestral Fire was a super terrifying technique. As the Little Wolf's rank increased, the power of the Nine Hell Devil Ancestral Fire also increased.

Long Chen made a sound of acknowledgement. The blood red figure used the Traceless Demon Shadow and quickly approached the other party. This time, his goal was to get closer, so it was much simpler!

Whoosh!

That enormous snake tail swept under Long Chen's feet, causing him to quickly jump, and dodge the Icefire Twin-headed Snake's attack. Then, he stepped on the Icefire Twin-headed Snake's tail, flying straight for its head!

The Icefire Twin-headed Snake was enraged, one of its heads suddenly turned, and suddenly a wave of flame surged towards Long Chen!

"Little Wolf!" As Long Chen let out a cry, the body of the little wolf suddenly emerged from the Great Void Realm, and the Nefarious Spectral Devil Ancestral Fire, which had been brewing for a long time,

immediately rushed forward. The nature of the Nefarious Spectral Devil Ancestral Fire was so much stronger than this snake fire, and the fiery red snake fire was actually completely engulfed by the Nefarious Spectral Devil Ancestral Fire in an extremely short amount of time. Then, the Nefarious Spectral Devil Ancestral Fire strengthened by a bit, and instantly reached the Icefire Twin-headed Snake's fiery red head!

This time, the Icefire Twin-headed Snake did not react at all, because the appearance of the little wolf was just too sudden. The appearance of the Nine Hell Devil Ancestral Flame was just too sudden.

Such a great pain made the Icefire Twin-headed Snake let out a painful scream. If it wasn't fighting, it would have rolled on the ground due to the pain. Of course, Long Chen didn't give it a chance to roll, because after the little wolf attacked, Long Chen immediately followed.

"Heaven Punishing Sword Formation!" Under Long Chen's instructions, the berserk sword aura completely strangled and killed the Icefire Twin-headed Snake that could not resist anymore, causing it to die beyond death. Long Chen put away its corpse, not letting out a single trace of blood, before he prepared to leave.

Before leaving, Long Chen checked the corpses of the couple, and discovered that there were no other Heaven and Earth Pouch. Then, he looked inside the Heaven and Earth Pouch he had obtained. After confirming that he had obtained the Mystical Emperor Seal, Long Chen said to the little wolf, "Forget it, for safety's sake, let's destroy the corpse and eliminate the evidence."

The wolf cub nodded. Under his Nine Hell Demonfire, the couple had completely disappeared from this world.

"It's a pity that the Icefire Twin-headed Snake's fire-type demonic core has been destroyed along with your head. Otherwise, it would have allowed you to improve." Long Chen shook his head regretfully.

Next, he prepared to find a safe place to refine the Icefire Twin-headed Snake's corpse. Once he reached Fifth stage of the Heavenly Completion Stage, he would be able to leave this place and return to the The King's Hall of Clearing Seep.

"I remember that after the Sky Demon Light is spread, the next day seems to be for training. Such a strict cultivation method in the Ancient Devil Region, although not bad, it is not suitable for me. When I go back this time, I wonder if they will cause trouble for me? After all, I have already stayed in the Sevenfold Demon World for almost three days. "

Long Chen thought worriedly.

Chapter 487 - Fifth stage of the Heavenly Completion Stage

This was already the third time Long Chen had levelled up in the Second Demon World, but this time, Long Chen relied on the Icefire Twin-headed Snake's blood essence to reach the Fifth stage of the Heavenly Completion Stage. The fifth acupoint was located in the palm of his right hand. Compared to the danling aperture in his dantian, this fifth acupoint was not small at all.

When the fifth spiritual cavities was formed, it greatly reduced the amount of time Long Chen had to attack, and increased the strength of his attack. If he were to open the sixth spiritual cavities, and let his left palm open the spiritual cavities, then there would be a perfect cycle of his body.

The cultivation of Heavenly Completion Stage was simply an evolution.

However, Long Chen was depressed because after he had reached the Fifth stage of the Heavenly Completion Stage, even though he had spent a total of thirty thousand Tongtian Pills, the one in his hands, along with the ten thousand he had plundered from the pair of man and woman, was still only around seventy thousand. He reckoned that if he wanted to reach the Sixth Level of the Heavenly Completion Stage, he would need about ninety thousand Tongtian Pills.

In other words, not only was he unable to reach the Third Demon World, he did not have enough Tongtian Pills left. He had to find a way, in order to be able to further raise his strength, otherwise, he would not be able to face the competition for danyin beads that were not even a month old.

After he finished cultivating, Long Chen had no choice but to go back.

But before that, he took out the Mystical Emperor Seal, and looked at it carefully. The Mystical Emperor Seal was completely black, without any special features, and looked like a very ordinary seal.

"Cat, this thing can't be fake, right?" Long Chen asked somewhat gloomily.

"The more ordinary something looks like, the more likely it is that it is a treasure. This Mystical Emperor Seal, should be a key, isn't it called the Royal Tier Battle Skills, the Five Emperors Seal? "After you finish

collecting the other four Emperor Prints, you will be able to activate the battle skill of the Five Emperor Prints. Of course, this is also my estimation."

Long Chen nodded his head, looks like the Mystical Emperor Seal was useless to him for now, he was unable to study it thoroughly, so he decided to first talk about keeping the Mystical Emperor Seal, and then, he prepared to leave. There should be ten exits to the Second Demon World. While Long Chen was wandering around this place in search of the sixth level of heaven stage beasts, he had already encountered a few of them. Those were black whirlpools that had appeared on the ground, and only by entering this whirlpool, would he be able to return to the foot of the Mount Demonheart.

Long Chen was still not very familiar with Second Demon World, so he had to search everywhere for an exit. But this time, after searching for a long time, he actually discovered a larger black vortex in front of him, and inside this vortex, there were actually quite a few people guarding it. The one leading them was the Aeolus.

"We can't find an entrance to the Third Demon World anywhere, but this black vortex has a heavyweight like the Aeolus guarding it. This must be the entrance to the Third Demon World." Long Chen guessed that, only the top disciples with Level 7 of the Heavenly Completion Stage and above could enter the Third Demon World. With the Aeolus blocking him, Long Chen knew that it was impossible for him to enter, so he secretly noted down the location, and then left to search for the Second Demon World's exit.

Before long, he appeared at the foot of the mountain.

After exiting the Mount Demonheart, Long Chen headed in the direction of the The King's Hall of Clearing Seep. The current him, compared to the difference of a few days ago, was simply too huge. A few days ago, he had just reached the Second stage of the Heavenly Completion Stage, but right now, he was already at the Fifth stage of the Heavenly Completion Stage.

From the time Long Chen entered the Ancient Devil Region, only a few days had passed. If others knew that he had relied on these few days, and used it all the way from Heavenly Completion Stage Level 1 to Fifth stage of the Heavenly Completion Stage, to wildly raise a few ranks within a few days, how shocked would others be?

What Long Chen was considering now was, with his current situation, once he returned to the The King's Hall of Clearing Seep, what would happen to Qin Huanyu, who was in charge of his cultivation, and the Giant Strength Demon General? Before this, they had always been emphasizing discipline. Long Chen reckoned that once they returned to the The King's Hall of Clearing Seep, they would face a lot of trouble.

Of course, he wasn't afraid.

Very quickly, he returned to the front of The King's Hall of Clearing Seep. Before he even arrived, an ordinary disciple came up to welcome him, sized him up, and asked in a cold voice: "You are Jiang City right?"

"What's the matter?" Long Chen nodded, and admitted it.

"Great Strength Demon General ordered that if you appear, you are to immediately go to the training field. Do you need me to lead you there?" The disciple said directly.

"Training ground?" "Alright, I'll go over now." Long Chen nodded, and directly went past the disciple, his meaning was clear, he could leave without the disciple.

Watching Long Chen's leaving figure, the disciple curled the corner of his mouth and said with a sneer: "Truly an ignorant fellow. The Ancient Devil Region is very disciplined, and after entering the Ancient Devil Region, he dares to not participate in the training grounds's training for three days straight. More importantly, this guy still doesn't know that he has violated the death penalty."

Long Chen didn't hear his words, but Long Chen could have predicted it, so after walking a few steps, Long Chen said: "Little Wolf, go and bring Huangfu Qi to the training grounds. It's best if you lure the Qing Li King over, and with them here, the Giant Strength Demon General probably won't directly make a move against me.

Xiao Lang knew that the matter was urgent, thus, he immediately disappeared from Long Chen's sight the moment he came out from the Great Void Realm.

Huangfu Qi could feel that the Qing Li King was treating her too well, and he believed that with her here, the Giant Strength Demon General would not dare to act recklessly.

Only then did Long Chen slow down his steps and walk towards the direction of the training grounds. At this time, there were already many people who recognized him, but the ordinary disciples were probably training in the training grounds, so there were fewer people in the The King's Hall of Clearing Seep.

Long Chen estimated that they were almost there as well, thus he appeared outside the training grounds. When the normal disciples saw him, besides those that were cultivating, they all stopped. He looked at Long Chen in a daze. This ordinary disciple who had just entered the Ancient Devil Region had already become the topic of conversation after their tea time.

They had only just arrived at the Ancient Devil Region and disappeared for three consecutive days, leaving even the Demon Generals here cold. They really did not know how big Long Chen's guts had become, and for the past three days, they had been discussing about how if Long Chen appeared, he would already be dead for sure.

"This brat actually dared to appear?" I thought he escaped from the Ancient Devil Region. "

"Aren't you looking to die? Because he does not put the Lord Demon General in his eyes, for the past few days, the Lord Demon General's temper has been extremely bad, and quite a few people were injured by the Demon Generals. "

"I heard that Lord Demon General's nephew is Zhao Wuji. He was suppressed by the Jiang City in the selection battle. He did not come for three days, yet he still dared to appear. He is just thinking!"

More and more people came out of their cultivation and whispered to each other, discussing about Long Chen who had appeared at the side of the training grounds. Their faces were filled with shock and regret.

"Look at this Jiang City, it seems like she doesn't even know anything. The last time, that youth didn't even come for two days, and his neck was directly broken by the Giant Demon General. He just entered the school, and he dares to not come for three days!"

"What a big idiot."

Everyone continued to discuss with one another.

It was Qin Huanyu, who was in charge of newbie cultivation, and the Giant Strength Demon General who was leading the group. When he saw Long Chen's figure, the Giant Strength Demon General's mouth revealed a cruel smile, and without saying anything further, he directly stood at a position ten meters in front of Long Chen. Then, he sized Long Chen up and down, and said: "Jiang City, I remember that you're called Jiang City, do you know of Ancient Devil Region, especially my Giant Strength Demon General's rules?"

"I don't know, what rules does Lord Demon General have?" Long Chen said indifferently, his voice was neither servile nor overbearing, and this kind of expression where he did not know if he was dead or alive made the others sigh one after another, feeling that there was nothing he could do to save him.

"Hehe." The Giant Demon General laughed, "As a new person, you actually didn't come to the training ground for three days. This is because you despise me, your respected master is the number one commandant of the Ancient Devil Region, and you have already violated this commandment, so you have already violated it.

At this time, even if he knew that the Giant Strength Demon was going to kill him, he would not be moved by it. This was because when he used the Spirit Devouring Demon Pupil, he had already seen Huangfu Qi and the Duke of Qing Li within a mile.

"Does the Lord Demon General have the right to wantonly kill innocent people? In this The King's Hall of Clearing Seep, the one making the decision should be the Duke Qing Li, right? "Whether or not you kill me, you still have to see King Li's intentions clearly in the end." Long Chen said stubbornly.

The Great Strength Demon General laughed, "I have to trouble the Pure Li King to kill an insignificant person like you, right? "How about this, Universal, you are the prized disciple of King Qing Li, the death penalty in Jiang City can be carried out by you, don't waste time, we need to hurry up and train our disciples."

Qin Huanyu was standing next to the Giant Strength Demon General. After hearing the Giant Strength Demon General's words, he laughed and said, "Indeed, a small role like the Jiang City does not require my master's consent. How about this, I understand him on behalf of my master.

As he said that, he looked at Long Chen with contempt in his eyes. Walking towards Long Chen, he suddenly sped up and charged towards Long Chen.

The might of the Sixth Level of the Heavenly Completion Stage exploded forth.

And at this time, Huangfu Qi and Duke Qing Li had already arrived. They watched the scene of Qin Huanyu killing Long Chen from afar.

"Big brother!" Seeing Qin Huanyu striking down Long Chen, Huangfu Qi immediately cried out in alarm. In this moment of emergency, with her speed, he couldn't save Long Chen at all, and furthermore, she didn't have the power to save Long Chen!

Therefore, she could only place her final hope on the Duke of Qing Li behind her. However, time was too tight and she could only turn around and shout anxiously, "Master!"

If the Qing Li King wanted to save Long Chen, it was possible, even without Huangfu Qi's reminder, she could do it. However, right at this moment, the Qing Li King did not make a move, but instead looked at Qin Huanyu with a cold gaze.

In the blink of an eye, that moment had passed.

Everyone was focused on how Qin Huanyu killed Long Chen. Among them, there was only one person who was incomparably anxious, and that was Long Chen. As for the others, their hearts were mostly cold and detached, because after all, they were also very jealous of the miracle Long Chen had accomplished in the selection battle!

A hundred thousand Tongtian Pill, amongst many present, they might not have such wealth in their lifetime!

It had to be known that in Qin Huanyu's Cosmic Bag, he only had twenty to thirty thousand Tongtian Pill. The one hundred thousand Tongtian Pill that was rewarded with the Triple Layered Crown were almost used up by now, and in the past two years, there hadn't been many that had obtained any Tongtian Pill either.

The twenty thousand Tongtian Pill were still not enough for Qin Huanyu's Level 7 of the Heavenly Completion Stage. If he wanted to obtain Level 7 of the Heavenly Completion Stage, he would need at least fifty thousand Tongtian Pill.

Therefore, when he made his move, he immediately used his killing move. With his Sixth Level of the Heavenly Completion Stage's true energy, using her entire Heaven Stage Medium's combat skill, how could Long Chen avoid it when he was not even in the Third Level of the Heavenly Completion Stage's realm?

Furthermore, the Qing Li King did not come to their rescue, as he believed that Long Chen would definitely die.

Coming to the Ancient Devil Region would seem impressive, but if they did not obey the rules, they would be eliminated and killed, just like how Long Chen was now, a proud son of heaven, who had come to the The King's Hall of Clearing Seep in a row, would die in a few days.

However, what happened next made everyone's jaws drop to the ground.

At this time, Qin Huanyu suddenly took out a bright, crystal-like battle blade from his Cosmos Sack. This blade had a might that was not inferior to a Demon Emperor Sword's, so it should be a Heaven Stage Medium divine weapon that was on the same level as Demon Emperor Sword! It was even better than the quality of Demon Emperor Sword s. When the battle came out, a wave of cold and sinister aura spread out!

"Snow Moon Divine Blade, Blizzard Blizzard!"

Qin Huanyu had long since disliked Long Chen. With this great opportunity in front of him, and to even be able to curry favor with the Giant Strength Demon General, he obviously wouldn't miss this opportunity. The moment he attacked, it was the absolute killing move!

In an instant, rays of bright blade light, like a snowstorm, surged towards Long Chen. With Long Chen's strength, he would probably just be chopped into pieces!

"Big brother!" It was obvious that she was truly concerned about Long Chen. At this moment, her eyes were somewhat moist, and her fat face had turned deathly white.

Just when everyone thought that Long Chen was about to die, Long Chen's expression was extremely indifferent. A black sword blade appeared out of nowhere in his hand, and after he swept it, numerous black sword blades instantly collided with Qin Huanyu's violent snowstorm at the first possible moment!

"The way of the Demon Emperor's Sword, Devil Dao Supreme Sword!"

Rumble rumble rumble!

The blade beams clashed with the sword shadows one after another, giving rise to a huge wave. The two of them attacked with equally immense power, causing everyone to realize that Long Chen could actually contend against Qin Huanyu with just one swing of his sword.

This was simply unbelievable.

Everyone's eyes slowly widened. When Qin Huanyu's attack was completely wiped clean by Long Chen, Qin Huanyu hurriedly took a few steps back, and looked at Long Chen in shock. At the same time, the eyes of the others who looked at Long Chen were also looking at him with disbelief.

From what he said just now, although Qin Huanyu did not use his full strength, even if it was a practitioner of Fifth stage of the Heavenly Completion Stage, it would still be impossible for Qin Huanyu to block his attack so easily.

In the selection battle, he had relied on his Heavenly Completion Stage Level 1's strength to defeat Zhao Wuji, who was in Fourth Level of the Heavenly Completion Stage, purely because of his strong physical body. But now, with his Heaven Stage High Rank's combat body, he no longer had such a strong pressure on Qin Huanyu, so what did Long Chen rely on to protect his life?

"How can he be so powerful?" "He actually blocked Senior Brother Qin's attack?"

"That's impossible. When I looked at it just now, it seemed to be a relaxed sword attack."

"In the selection battle, I saw this Long Chen attack. Even after he transformed into the beast spirit, he still isn't as powerful as he is now?"

"In a short span of three days, what miracle medicine did this Jiang City eat?"

The ordinary disciples started to discuss with each other.

This caused Qin Huanyu and the Giant Strength Demon General's faces to turn even uglier. However, they had to admit that Long Chen's performance just now was simply too heaven defying. From Long Chen's actions just now, the Giant Strength Demon General was able to determine Long Chen's strength, and he cried out: "Jiang City, when will you arrive at the Fifth stage of the Heavenly Completion Stage?! Aren't you a Second stage of the Heavenly Completion Stage cultivator? "

He knew that while the devilish light was enveloping Long Chen, he had reached the fifth level of Second stage of the Heavenly Completion Stage, and then, after three days had passed? To advance one level in a day, what kind of concept was that? He had never heard of such a thing since ancient times!

The Giant Strength Demon General's words once again created a storm in the crowd.

"Fifth stage of the Heavenly Completion Stage? Am I hearing things? Even Huangfu Qi and Zhao Wuji had their Fourth Level of the Heavenly Completion Stage, why did the Jiang City suddenly soar to the fifth stage? "

"No wonder he hasn't appeared for three days. Could it be that he had a fortuitous encounter? If there is such a fortuitous encounter, I am willing to not appear for three days! "

"Originally, because of Long Chen's age, his realm was low and wasn't taken seriously, but now that his realm is higher than a genius, and he even has the Heaven Stage High Rank's body tempering technique and offensive techniques, I'm afraid that he's around the same level as Senior Brother Qin Huanyu. Jiang City has an additional Heaven Stage High Rank's body tempering technique, and Senior Brother Qin's realm is higher, their ages are about the same!"

The Giant Strength Demon General had no choice but to look at the Duke of Qing Li, because he knew clearly in his heart that the first time the King of Qing Li did not make a move, it was because he looked down on Long Chen. But when Long Chen revealed his peerless talent, would the King of Qing Li still look down on him?

What the The King's Hall of Clearing Seep needed the most were geniuses, so it was very likely that the Qing Li King would not kill Long Chen!

At this moment, the current Duke of Qing Li was extremely shocked in her heart. As one of the three Martial Realm experts with extraordinary knowledge, she had never seen a demon-level character like Long Chen. Her speed of advancement could only be described as demon-level.

At this moment, Qin Huanyu was frightened, and everything came to a halt. In Huangfu Qi's eyes, Long Chen had always been very powerful, so after Long Chen beat him back, she was not too surprised. She immediately threw himself into Long Chen's arms, with a snot and tears, he said: "Big brother, you're a bad guy, Qi Qi thought that he would never see you again, wuu."

"Qi Qi is obedient, I'm so powerful now, how can a few little friends kill me?" Long Chen laughed indifferently.

His words were too kind, causing Qin Huanyu to be extremely furious, he roared: "Little junior sister, go away, Jiang City has violated the death penalty, I was too careless just now and did not succeed in killing him, this time I will not let him off!"

"If you're not leaving, then I'm not leaving! Sixth Senior Brother, you're a big bad guy! You have a son, but you have no butt!" Huangfu Qi was infuriated by Qin Huanyu, he immediately opened his eyes wide, pointing at Qin Huanyu's nose and scolding him.

Qin Huanyu was scolded until his head spasmed. But the problem was that Huangfu Qi was the Duke of Qing Li's beloved disciple, so he had no other choice but to beg for help as he looked at the King of Qing Li. At this time, the King of Qing Li waved his hand, signalling him to go back. Then, the Duke of Qing Li walked in front of Long Chen.

"You disappeared for three days, violated the rules, just to reach the Fifth stage of the Heavenly Completion Stage?" Duke Qing Li looked at Long Chen coldly and said.

"Of course, otherwise there would be several people here who would want to kill me. If I don't increase my strength, then wouldn't I be a fish in a haystack?" Long Chen laughed faintly.

was not a child, he knew that benefits were the key to everything. When Long Chen was able to win something for the Duke of Qing Li, the Duke of Qing Li would definitely protect him, no matter what.

"Alright, since you have just arrived in the Ancient Devil Region, you do not understand many rules, so let's just forget about it this time." She felt that Long Chen would be grateful to her if she did not pursue the matter with him.

Seeing that the Qing Li King had managed to save Long Chen, the Giant Strength Demon General wanted to say something but hesitated. In the end, he could only shake his head helplessly. He and Qin Huanyu looked at each other, feeling a little depressed in their hearts.

"Calculate?" "How can we just forget about it?" It was at this time that Long Chen said these words for the first time in the world. He patted Huangfu Qi's face, raised his head and said, "The Son of Heaven has violated the law, and has committed the same crime as the commoners. I, a mere ordinary disciple, cannot be forgiven for my ignorance.

"Then what do you want?" Prince Chen asked.

Long Chen looked in Qin Huanyu's direction and said: "Senior Brother Qin Huanyu's strength far surpasses mine, so let's let him teach me a lesson. In a quarter of an hour, I will battle with Senior Brother Qin in the training ground, and at that time, I believe that everyone in the The King's Hall of Clearing Seep will come over to watch. I believe that Senior Brother Qin will give me a deep lesson, and that at that time, I can let everyone in the palace understand that violating the rules will be an extremely stupid thing.

Chapter 489 - Liu Yiyi

After saying that, Long Chen looked at Qin Huanyu provocatively.

Everyone sighed at Long Chen's shamelessness. He clearly wanted to challenge Qin Huanyu in public, but he had given such a grand reason to the crowd, and had thickened his skin to the point that it was only possible for him to be so shameless.

However, putting aside the way Long Chen said it, if one only looked at the results, it was Long Chen provoking Qin Huanyu! Qin Huanyu was a three-peaked genius from two years ago, and after studying in the The King's Hall of Clearing Seep for two years, he was already considered a profound practitioner. Among the The King's Hall of Clearing Seep s, he was definitely one of the top three geniuses!

As for Long Chen, although he had won three consecutive championships in the selection battle, because of his low potential, he was directly humiliated and abandoned by the Scarlet Ghost King. These two people were geniuses in stark contrast to mediocre talents. But now, mediocre geniuses had issued a challenge to mediocre talents.

"In that last move, Senior Brother Qin Huanyu obviously did not use his full strength. This Jiang City is really restless, Duke Qing Shui spared him, but he kept tormenting him. Isn't that just courting death?"

"Who knows what this Jiang City is thinking? If he can defeat Senior Brother Qin, it will prove that he is also a peerless genius. But unfortunately, he has chosen a target, isn't that a bit too difficult? "

"Actually, there's no need for him to be like that. He only needs to reveal the realm of his Fifth stage of the Heavenly Completion Stage, and can be considered to be a first-rate genius. After all, he's someone who possesses Heaven Stage High Rank, body tempering technique, and offensive skills."

The others were all discussing, while the Duke of Qing Li and the rest were looking at Long Chen.

At first, King Qing Yu did not speak, but after everyone had finished discussing, he looked at Qin Huanyu who had a darkened face and said, "Yu Han, what's your decision?"

Without even thinking, Qin Huanyu said directly: "Fight! Master, if you can't even beat him, then I will be your disciple! "

"Very good, very good. Just don't embarrass me." He looked at Long Chen and said, "Since you said fifteen minutes, then fifteen minutes. Everyone, give up the training grounds and gather all the people in the The King's Hall of Clearing Seep to watch this' lesson '."

Under the instructions of the Qing Ning King, the training grounds were emptied out quickly, leaving behind a large space for Long Chen and Qin Huanyu to fight in. The ordinary disciples then ran to all the different locations of the The King's Hall of Clearing Seep and called out all the disciples, including those old fellows.

In the Ancient Devil Region, anyone who was over thirty years old and had a cultivation level that did not even reach Ninth Level of the Heavenly Completion Stage was not considered a disciple and was instead bestowed the title of an elder. Of course, if one did not even have Sixth Level of the Heavenly Completion Stage at that time, they would be directly sent out of the Ancient Devil Region. The Guangyuan who had established the Demonic Palace back then was probably one of them.

After becoming an elder, one could become one of the Demon Generals as long as they reached the Ninth Level of the Heavenly Completion Stage. However, once an ordinary person became an elder, their potential would almost be exhausted. There were many elders in the Ancient Devil Region, and most of them ranged from Sixth Level of the Heavenly Completion Stage to Eighth level of the Heavenly Completion Stage. Even in the The King's Hall of Clearing Seep s, there were more than a hundred of these elders.

Of course, because their potential had already been used up, they did not have much of a chance to take part in the disciple examination. For example, the competition for the dianyin bead that was not even a month old, was a very grand disciple exam that only happened once every five years in Ancient Devil Region and the biggest prize this time was the dianyin bead.

After fifteen minutes, as expected, everyone from the Ancient Devil Region had all arrived. Over a hundred elders with Sixth Level of the Heavenly Completion Stage above, as well as about three hundred ordinary disciples and a few disciples of the Qing Li Kingdom, had all arrived.

From among the disciples of the Qing Ning Kingdom, Long Chen could not help but laugh. He said softly, "Looks like the direct disciples of the Qing Li Kingdom aren't much either. They don't even have disciples with Eighth level of the Heavenly Completion Stage."

"Yeah, I heard them say that the highest level disciples in the other six Royal Palaces are all at Eighth level of the Heavenly Completion Stage. Only the The King's Hall of Clearing Seep's highest level disciple is Senior Sister Yi Yi, her Level 7 of the Heavenly Completion Stage. However, Senior Sister Yiyi had more or less reached the Eighth level of the Heavenly Completion Stage as well. Of course, this was not the highest level of talent in the Ancient Devil Region. The strongest geniuses all existed in the legendary palace. I heard that one of the sons of the Demon Emperor is already from the Earth Martial Stage, and is about the same as my Master. " At this time, Huangfu Qi who was beside Long Chen spoke up.

"The son of the Demon Emperor again?" Of course, Long Chen remembered that during the trial of the heavenly magic pillar, he heard that the one called Jiang Wushang had left a palm print on the heavenly magic pillar.

Towards a true genius, Long Chen still felt some reverence.

Of course, Qin Huanyu did not count.

The two of them stood in one corner, while the direct disciples of the Prince of Qing Li stood in another corner. The Qing Li King had roughly ten disciples, and other than Huangfu Qi, there were also two other youths of Fifth stage of the Heavenly Completion Stage. Above them were Sixth Level of the Heavenly Completion Stage s, a total of four disciples, and among them was Senior Sister Yi Yi, whom Huangfu Qi had mentioned before.

Long Chen looked at the Senior Sister Yiyi that Huangfu Qi had mentioned. She was a girl about the same age as Long Chen, dressed in a long white dress, with skin as white as snow, soft as snow, and long hair like a waterfall that reached down to her waist. Her pair of eyes were agile and bright, containing within them was a moving charm.

"Xiao Xi" Long Chen was a little dazed, and subconsciously shouted out, but he immediately forced a smile. He had seen wrongly, no matter if it was his appearance or temperament, this young lady called Yi Yi was extremely close to Ling Xi, but she was not. Although he was a fairy who wanted to fall into the world of mortals, she did not have Ling Xi's loveliness and cuteness, but he had an additional layer of Cymbidium in her heart.

"What Xiao Xi? Senior Sister Yi Yi's name is Liu Yiyi and she's my master's daughter. Big Brother, looking at your perverted appearance, you wouldn't have fallen for Senior Sister Yi Yi, right? " Huangfu Qi pouted and said unhappily.

"Don't talk nonsense." Long Chen sometimes spoke without thinking, and his voice was not soft either. The opposing Liu Yiyi should have probably heard his at this time, as she turned his head to look at Long Chen, with a hidden trace of hostility in his eyes.

"Senior Sister, this guy actually dares to look at you, I will beat him until all his teeth fall out!" At this time, Qin Huanyu said between gritted teeth in front of Liu Yiyi.

"Yes." Liu Yiyi nodded her head. Actually, she could tell that Long Chen had only looked at her symbolically, and his words weren't lecherous or lecherous. Today, the main character was Long Chen, so Liu Yiyi also looked at him curiously a few times, and only felt that this man's expression was indifferent, without any ripples at all. He seemed to be a little more terrifying than Qin Huanyu who was gritting his teeth at the side.

Qin Huanyu and Qin Huanyu had both won three consecutive victories, but the treatment of the two of them were completely different. Qin Huanyu had great potential, and he had already approached the Level 7 of the Heavenly Completion Stage at the age of sixteen, so by the time he reached the age of twenty, he should be able to reach the eighth rank of the Heavenly Completion Stage.

And Long Chen was an abandoned character from the very beginning.

Of course, his story was also quite complicated. When Liu Yiyi was together with her for the past few days, she had heard a lot of things regarding Long Chen from him, so she was still a little curious about him.

"The universe."

"Senior Sister, do you have any instructions?" Qin Huanyu immediately replied.

"Later, you can't take his life. It's just small conflicts, don't fight with your life." "The heavens are blessed!"

"I understand Senior Sister, even if I wanted to kill him, I'm afraid Master would not be willing. This guy's current potential is already not inferior to mine, what is The King's Hall of Clearing Seep lacking the most? Geniuses, so Master wouldn't kill him. Furthermore, he was picked up from within the Scarlet Ghost King by Master. If the Jiang City grew stronger, he would simply be slapping the Scarlet Ghost King in the face. Qin Huanyu tried his best to show his wisdom in front of Liu Yiyi.

"That's for the best. Remember to show mercy!"

And at this time, those disciples and elders who had never seen Long Chen before, were also discussing Long Chen in succession. Long Chen had won three times, was then abandoned by the Scarlet Ghost King, and had not appeared for three days.

At this time, the Qing Ning King and two of the four Demon Generals were already seated, and a quarter of an hour quickly passed. The Giant Strength Demon General gave a slight signal to Qin Huanyu, who nodded and walked to the center of the training grounds.

At this time, the eyes of tens of thousands people had gathered on Long Chen's body.

Long Chen allowed Huangfu Qi to stay there for a good while, then he stood still fifteen meters away from Qin Huanyu.

"Big Brother, you can do it! Hit him!" Huangfu Qi was completely unaware of his position. As the direct disciple of the Qing Li King, she was actually cheering for Long Chen!

Amidst Huangfu Qi's shouts, the battle officially began. Qin Huanyu didn't waste any time with Long Chen. He directly took out the Snow Moon Divine Blade, pointed it at Long Chen from afar, and said: "I let you escape from my blade earlier, but this time, it's not that simple."

Long Chen slowly pulled out the Demon Emperor Sword and gripped it in his hand. His eyes were as calm as a lake, without any ripples.

At this moment, Long Chen only had one thought in his mind, and that was to let everyone see his terror.

Only by revealing himself, would he be able to receive sufficient attention. His path in the Ancient Devil Region would then become more and more open, and from the eyes of the Duke of Qing Li, Long Chen could see the rules of the Ancient Devil Region.

This was also why Long Chen wanted to let everyone in the The King's Hall of Clearing Seep watch this battle. Only then, with all of this evidence, with his super strength and ability, could he become an important figure in the The King's Hall of Clearing Seep in such a short amount of time.

And Qin Huanyu coincidentally bumped into him, becoming his stepping stone.

Chapter 490 - Snowfall of the World

The most eye-catching things were the Demon Emperor Sword and the Snow Moon Divine Blade. These two were both weapons of the Heaven Stage Medium, and since the two were relatively balanced in all aspects, it was worth watching this battle. It was full of suspense.

Of course, this was the view of others.

This was the first time he was testing his strength in front of so many people, so Qin Huanyu was a little nervous. He gritted his teeth, and stopped, and used his blood boiling battle to suppress the uneasiness in his heart, because he truly did not place enough importance on Long Chen in his previous move. Now that the blade had curled up, Qin Huanyu instantly turned into an afterimage, pouncing towards Long Chen.

Qin Huanyu let out a low roar, his gaze was gloomy as the Snow Moon Divine Blade in his hand crazily slashed out!

"Blizzard Blizzard!" Just the aura alone was much stronger than when he had faced Long Chen previously. In front of Long Chen's threat, Qin Huanyu had no choice but to use all of his strength just to win against him!

As a disciple of the Qing Li King, and also having been nurtured for two years, he should also be like this!

Even the elders were sighing with emotion, and said: "The World's Blade Art, is really becoming more and more powerful, this Blizzard Blade Art, is a sword technique from the Heaven Stage High Rank, and using the first move of the Heaven Stage Medium now, it's already so effective. When he uses the strongest move, even I will not be his opponent."

"That's true. How could we possibly be able to compare to the personal nurture of the king?"

As elders, they only possessed powerful battle power. However, in terms of potential, they, who were over thirty years old, were truly unable to continue fighting.

Facing Qin Huanyu's surprising attack, Long Chen appeared to be very calm. He was the same as last time, except this time, a cold light flashed in his eyes.

When the sword was unleashed at the critical moment, it was still a Devil Dao Supreme Sword, its power was almost the same as last time!

Rumble rumble rumble!

The clash between the sword and saber created violent ripples. Everyone hurriedly retreated, their clothes fluttering in the cold wind.

Of course, their eyes were still glued to the arena.

Just as they had expected, Long Chen was indeed exhausted of his skills. This time, Qin Huanyu's power was even stronger, so Long Chen was directly flung out, and rolled a few rounds in the air.

"As expected, those who have just arrived in the The King's Hall of Clearing Seep, cannot possibly be a match for the direct disciples." This thought appeared in the minds of everyone present.

Of course, even the disciples of the king thought the same way. From this first exchange, it was clear who had the upper hand.

"I hope that the universe will listen to my words and not kill him." Liu Yiyi's eyes were filled with worry.

Right at this moment, Long Chen was about to fall to the ground, but what shocked everyone was, when he landed, Long Chen actually lightened up the impact of Qin Huanyu's attack. His toes lightly stepped on the ground, and like a whirlwind, he instantly accelerated towards Qin Huanyu.

Honestly speaking, for the current Long Chen, he did not need to spend too much effort to take care of Qin Huanyu. Of course, this was under the premise that he wanted to use the Dragon Soul Transformation, since Long Chen had already tested it out earlier. If he did not use the Dragon Soul Transformation, he would not be his opponent.

Dragon Soul Transformation had brought him a battle body with ten times the nature of his true qi and Heaven Stage High Rank!

In the process of charging forward, blood-red dragon scales gradually covered Long Chen's body, and blood-red dragon images emerged from within Long Chen's tiny scales. A wave of primordial and

powerful imposing aura seeped out from Long Chen's body, and in an instant, Long Chen's speed increased by ten times!

This change caught everyone off guard!

His original speed was already around the same as Qin Huanyu's, but now, his speed had crazily increased by ten times. Compared to him, Qin Huanyu could only be described as slow!

Amidst the crowd, there were exclamations of shock. Seeing Long Chen's speed, even the expression of the direct disciples of King Qing Shui changed. Especially Liu Yiyi, she caught a kind of bloody light from Long Chen's eyes, which made her feel a bad premonition!

"He wants to kill the universe?" Liu Yiyi was her junior brother who had interacted with her for two years, and apart from being a little arrogant, she did not have any other shortcomings. However, right now, Long Chen's eyes were dark and bloody.

Thinking about that, Liu Yiyi would never let Qin Huanyu die, so she ignored everything else and started to move closer to where the two were fighting. If the two were to fight to the death, she would definitely make her move immediately and protect Qin Huanyu.

Before Long Chen had increased his speed, she was filled with confidence in him, but now, her heart was already filled with worry.

Other than Liu Yiyi, Qin Huanyu had also seen the cold and harsh bloody light in Long Chen's eyes. It was only then that he realized that Long Chen still had such a strong ability;

"No, he is so terrifying. If I didn't use that move, I would have definitely been killed!" In an extremely short amount of time, this thought had already passed through Qin Huanyu's mind. He clenched his teeth, waved Snow Moon Divine Saber once again, and charged towards Long Chen. At this time, he was already prepared to use the final move of the Snowstorm Saber Technique.

In an instant, the cold energy of the Snow Moon Divine Blade danced about in all directions as waves after waves of cold energy engulfed Qin Huanyu. Following the dance of the light from Qin Huanyu's blade, the windstorm around him grew in an extremely short amount of time.

Long Chen sneered. With his current strength, if he used the Heaven Punishing Sword Formation, even if the other party used a Heaven Stage High Rank's combat skill, they would be completely unable to resist him. After all, Heaven Stage High Rank's combat skills were also divided into different levels.

Whoosh!

A loud tearing sound rang out!

"Blizzard Saber Technique, Snowfall of the World!"

The Snow Moon Divine Blade in his hand instantly turned into ten million pieces, and each piece of light from the blade, was like a snowflake. This was enough to form a large snowstorm, so it could be seen how many blade lights there were.

Snowfall of the World One move, this was a battle skill of the Heaven Stage High Rank, it was not an undeserved reputation, but a move with true power!

Seeing Qin Huanyu use such a powerful move, Long Chen was a little shocked, but it did not surpass his expectations. Of course, to others, it would be hard for even a normal Level 7 of the Heavenly Completion Stage practitioner to use this move. When Qin Huanyu even used this move, they naturally felt that Qin Huanyu had won.

"The moment snow falls from the heavens, even more profound practitioners above the Level 7 of the Heavenly Completion Stage would be annihilated, let alone those above the Fifth stage of the Heavenly Completion Stage."

"It's a pity for that child from the Fifth stage of the Heavenly Completion Stage. The entire universe felt the pressure and even used a strange technique like the Floating Snow. If he wants to live, only the Pure Li King can."

Everyone turned to look at the king, only to see that his expression was cold and motionless. He clearly had no intention of making a move.

The moment the snow fell, cries of alarm could be heard everywhere, but this did not scare Long Chen. What had to be said was that this move was indeed powerful, but was it stronger than the Heaven Punishing Sword Formation that Ling Xi gave him?

Under Long Chen's instructions, the Demon Emperor Sword in his hands flashed, and his speed once again increased dramatically. Then, strand after strand of sword tokens quickly formed in front of him, and the sword tokens abruptly exploded, transforming into a Heaven Punishing Sword Formation that completely surpassed the fluttering snow in the world, as they completely enveloped Qin Huanyu within them.

The Heaven Punishing Sword Formation this time around was much more powerful than when Long Chen had used it before. The Heaven Punishing Sword Formation was a sword formation of the Heaven Stage High Rank, and the stronger Long Chen's true qi was, the more powerful he would be able to use it. And the current him, could only be considered to be displaying the power of the Heaven Punishing Sword Formation more fully for the first time!

Whistling sounds rang out one by one. In front of everyone's shocked eyes, all of the blade beams that had fallen from the sky were completely destroyed by Long Chen's Heaven Punishing Sword Formation! The tens of thousands of sword runes successfully enveloped Qin Huanyu and disappeared without a trace!

"How is this possible!" Cries of surprise sounded like the tide.

"Such a powerful attack, is it impossible to use it unless one is at the seventh level of the Heavenly Completion Stage? Is this Jiang City a monster?"

"I saw him use this sword formation during the selection battle, but it's definitely not as terrifying as it is now!"

"His strength has actually risen to such a terrifying level?"

Everyone's hearts were in turmoil, even the two Demon Generals' faces twitched, their Fifth stage of the Heavenly Completion Stage had produced such a sword move, it could only be described as abnormal!

"Not good, the universe will die!" And to the direct disciples of the Qing Li Kingdom, they were naturally shocked at Long Chen's strength. But what they were more concerned about, was that if this continued, Qin Huanyu would definitely die! The form earlier was that it was very possible that Long Chen was the culprit, but now, it had become that it was very possible that Qin Huanyu had died!

They could only call out for help for the king of the Qing Li Kingdom, but this time, they discovered that the king of the Qing Li Kingdom's eyes were still very calm. Only this time, there seemed to be a hint of heat in it.

Liu Yiyi's gaze landed on the Qing Li King as well.

"Mother, you really will let this Jiang City come and save me!" Liu Yiyi thought bitterly in her heart. She knew that if it was like this, the Duke of Qing Li definitely wouldn't do anything to save Qin Huanyu, so she could only do it herself.

"Stop!" Liu Yiyi shouted. Her white robe fluttered as she quickly rushed towards Long Chen.

"Stop?" Long Chen let out a cold laugh. At this critical moment, not only was he not going to stop, he was going to use even more strength as well. Under his powerful Heaven Punishing Sword Formation, this move of Snowfall from the Heavens did not have much resistance and was completely destroyed by Long Chen.
