

War God 611

Chapter 611 - Martial Emperor Inner City

The old man immediately nodded his head. He had completely forgotten about Long Chen and he placed the stone basin containing the Jedefrost Lake's water into a Qiankun bag. Then, he respectfully lowered his head and handed it over to the girl.

That beautiful woman happily extended her hand to catch the Cosmos Sack.

At this moment, an accident happened.

When he handed over the Cosmos Sack, the old man accidentally touched the woman's hand. This was originally a normal matter, but the woman was furious. After receiving the Cosmos Sack, she said to Zhao Danchen: "Big Brother Zhao, this old man actually dared to touch me!"

Without a second word, Zhao Danchen's face turned cold. With a casual wave of his hand, a gust of wind blew the old man away, and when he fell to the ground, he was already soundless.

The other Head Supervisor of Martial Arts Association, the charming young lady, quickly knelt on the ground and trembled as he shouted for help.

The beautiful woman in Zhao Danchen's embrace looked at the old man's corpse and said snappily: "How audacious! I'm Big Brother Zhao's woman, how can he casually bang around?"

Zhao Danchen smiled and carried the woman in his arms. He patted her face and said, "Alright, Lian'er, I'll give you the Blue Magic Flame. I still have things to do. I'll go to your place tonight, okay? "

"You must come." The heart of the woman who was previously like a scorpion was now speaking in a delicate voice.

Seeing this, Long Chen looked at them one by one. As expected, all species converge in one group. This Zhao Danchen was not a good thing, and his woman was also not a good thing. The old man had only touched her hand slightly, and his life was already gone.

After collecting the Blue Magic Flames, Zhao Danchen did not stay any longer, and carried the woman out.

Long Chen heaved a sigh of relief, but Zhao Danchen didn't notice him.

But at this time, Zhao Danchen suddenly turned around. He once again sized Long Chen up for a while, and asked with furrowed brows: "Chen Guangjun, what are you doing here?"

Long Chen knew that Zhao Danchen was starting to get suspicious, and tried his best to keep himself calm. If he were to lie at this time, Zhao Danchen was not an idiot, he would certainly be able to hear it. He said, "I had wanted to use the Blue Magic Flame originally, but since Zhao Wu Huang wants it, I don't need it anymore."

There was no flattery in his words, but it fit Chen Guangjun's style.

Hearing Long Chen say this, the woman in Zhao Danchen's embrace immediately gave him a look of disgust. She gave Long Chen a disdainful look and said, "For a little person like you, wanting the Blue Magic Flame is just too laughable."

After she finished speaking, she actually began to giggle.

Long Chen continued to not move, his head slightly lowered.

Zhao Danchen's status was high with regards to the matter of him disappearing for more than ten days, so he would definitely not care about it, thus he did not know about it.

No matter how he looked at it, Long Chen felt that it was normal. Previously, Zhao Danchen had actually felt a trace of dangerous aura from his body, but now, it seemed that it was probably just an illusion.

After they left, Long Chen left the Martial Arts Association.

This time was very dangerous, but luckily, Zhao Danchen still did not find out his identity.

"Xiao Lang, that Zhao Danchen seemed to have said that if he had something to do, that woman would go back by herself, right? Then, I will follow her to a place where no one is around and take her life, stealing away the Blue Magic Flame. "

Although that girl was beautiful, she was vicious. Long Chen did not plan to spare her. Generally speaking, what he wanted to obtain, was taken away by others this way. Long Chen was not going to accept this in his heart.

"Big Brother, forget it. If that woman had gone missing, Zhao Danchen would definitely know that you were the one who did it. You don't know how long you can stay here either, you can't reveal your identity because of this Blue Magic Flame." Mo Xiaolang said.

Long Chen thought about it carefully and felt that what Xiao Lang said was reasonable. He still wanted to use the identity of the Hundred Warring Martial Kings to walk around here. We can't act rashly.

"That woman hasn't reached the Earth Martial Stage yet, so she's not in a rush. Let's leave the Blue Magic Flame with her first, one day I'll come retrieve it. Right now, let's see where that woman lives." Long Chen said.

After he finished speaking, he followed the footsteps of Zhao Danchen and the others, passing through the crowd. After exiting the Martial Arts Association, Zhao Danchen parted ways with the girl called Lian'er, who, under the protection of the Martial Alliance warriors, got on a beautiful horse carriage and sped towards the east.

Long Chen casually followed his opponent.

Very quickly, the carriage reached the destination. Long Chen raised his head, in front of him was a beautiful mansion, in the outer city of Martial Imperial City, it could be considered a famous family, there were at least Earth Martial Stage experts overseeing the house.

After remembering the location of the residence, Long Chen left.

Although the Blue Demon Flame was of great use to the little wolf, saving Long Yue this time was the real deal.

"According to the rumors, nine nether regions can only enter but not exit from the Little Universe world. However, according to the information given to him by the Scarlet Soul, that is not the case. The Martial King who is in charge of the nine nether regions, Xiao Lin, very likely knows of the method to exit from the nine nether regions."

"Seems like I have to find a way to get close to Xiao Lin."

As for how to get the method to exit the nine nether regions from his mouth when he was near Xiao Lin, Long Chen had already made a plan in his heart.

"The Spirit Devouring Demon Pupil has finally been promoted. Fourth level: Soul Controlling! Starting from the fourth stage, the impressiveness of the Spirit Devouring Demon Pupil began to unfold. "

The confusion in the first level and the Capturing Spirit in the second level did not have much use, but the insight in the third level had helped Long Chen countless of times. It could be said that if he did not have the insight from the third level, Long Chen would have already died countless times.

Most importantly, he had finally reached the fourth level, Soul Controlling Technique. As the name implies, this soul-controlling technique could confuse a person's mind, and cause them to lose consciousness in a short period of time, making them fall under Long Chen's control. Of course, there were many restrictions to controlling one's soul. He wasn't invincible and could be used on anyone.

However, just this alone was already quite heaven defying.

This fourth stage of Soul Controlling Technique was what Long Chen needed to find out the way to leave the nine nether regions from Xiao Lin.

The security in the inner city was much more strict than the ones in the outer city. In the inner city, only the true upper echelons of the Holy Martial Empire or the families of those who were Martial Kings or above could enter, so there were only a lot less people in the inner city.

When Long Chen got familiar with Chen Guangjun's information, he also got to know a bit about the Martial Alliance. This Martial King guarding the inner city was called: Fierce Tiger Martial King, because he was a Beast Fighters, a beast soul of the Earth Martial Stage, a fire tiger type king level demon beast.

"Hundred Warring Martial Kings, after you disappeared for so long, we thought that you had disappeared. We wonder where have you been?" When that Fierce Tiger Martial King came up, he asked somewhat rudely.

He guarded the inner city gate, his authority was slightly higher than Hundred Warring Martial Kings and he was also older than Hundred Warring Martial Kings by a dozen years, in terms of qualifications and strength, he was above Hundred Warring Martial Kings.

Long Chen then said indifferently: "In Yun Mengze, he was injured by a king level demon beast, the Jade-Eyed Golden Toad, and he almost lost his life. Only after he recuperated from his injuries did I come back."

In reality, the Hundred Warring Martial Kings had died in the hands of the Jade-eyed Golden Toad.

"Jade-eyed Golden Toad? It's really scary! " Fierce Tiger Martial King said in a hoarse voice. A somewhat shocked gaze swept across Long Chen's body, and said: "You're able to survive the Jade-Eyed Golden Toad's grasp, you're definitely not weak!"

Everyone in the Hundred Warring Martial Kings who knew him thought that Long Chen was the Hundred Warring Martial Kings the moment they saw him, and didn't doubt him in the slightest. From this, it could be seen that Lan Ling'er's disguise skills had reached an unparalleled level.

"He is lucky that he didn't die." Long Chen remembered Hundred Warring Martial Kings's tone every now and then. He was too lazy to waste any more time trying to get closer to the Fierce Tiger Martial King, so he didn't want to expose himself too much. He said: "I haven't been home for a few days, so I don't know how my home is doing. Brother Lie Hu, I will be leaving first. "

When the Fierce Tiger Martial King heard this, he smiled and patted his shoulder, and said with a crafty smile: "I'm not homesick, I'm thinking of that pretty girl of yours right? Your wife has already asked her a few times. Since that's the case, you should hurry back! "

Long Chen nodded and no longer spoke. After passing the Fierce Tiger Martial King trial, he had successfully entered the inner city of Martial Imperial City.

Looking at Long Chen's leaving figure, Liehu Martial King licked his tongue and said in a bored manner: "This kid actually came back! I really don't know why that pretty girl would fall for this piece of wood! "

Of course, Long Chen did not hear what he said.

In Hundred Warring Martial Kings's family, there was a wife of his that Hundred Warring Martial Kings called moxa. It was a woman who had grown up with Hundred Warring Martial Kings. She should look pretty good, and she had a son and a daughter with Hundred Warring Martial Kings.

Of course, Long Chen would not go to the Hundred Warring Martial Kings's home. Although he was confident in Lan Ling'er's disguise skills, it was not to the extent of exposing himself in front of the Hundred Warring Martial Kings.

However, Long Chen still had no idea how he should proceed.

His plan to approach Xiao Lin and gain Xiao Lin's trust was the only way for him to succeed in the end.

Long Chen was fairly familiar with the map of the inner city of Martial Imperial City.

In the inner city, there were very few people coming and going. The majority of people that could live here were of high status, so those that did not come out.

Long Chen remembered the location of the nine nether regions. Just as he walked a few steps, he heard the startled cry of a woman behind him.

"Chen Lang!"

Chapter 612 - moxa

Long Chen turned his head to look at his and saw a woman who looked to be around twenty years old looking at him with a shocked expression. This woman was indeed very beautiful.

Chen Lang, Long Chen remembered, this was how Hundred Warring Martial Kings's wife addressed him. Long Chen had no choice but to admit that he was unlucky, he did not want to go to Hundred Warring Martial Kings's house, in case he exposed himself.

Clearly, this woman had come to the city gate to inquire about the Fierce Tiger Martial King.

"moxa." As matters stood, Long Chen could only continue to pretend.

Just as he said those two words, moxa had already leaped into his embrace, her red face was filled with a surprised smile.

"Chen Lang, you're finally back. I thought, I thought ..."

"Alright, I'm fine now that I'm back. I'm just delaying a little. Let's go home first!"

After Long Chen said such a long sentence, he was worried that moxa would see through his flaw. However, since moxa was still excited, he probably didn't see through it.

"Mm, okay. Xiao Yu'er and Zhan'er are waiting for you at home. "

The son and daughter of the Hundred Warring Martial Kings were both around seven years old. The two of them seemed to be just one year apart. The man was called Chen Guang Zhan, and the woman was called Chen Guanyu. Long Chen firmly memorized the information.

Being entangled by the moxa, it was already hard to not go to his home. Long Chen couldn't just throw the moxa aside on the street. Thus, he brought the moxa and began to walk.

Along the way, moxa kept on asking him about what had happened, so Long Chen told her the excuse he had come up with. He had a pained expression on his face.

Long Chen could only be glad that he did not reveal himself.

But looking at this woman, she should be a kind-hearted woman. Thinking that her husband was already gone and she still had to bring two children with her, Long Chen did pity her a little.

Very quickly, they arrived at the Hundred Warring Martial Kings's residence. Two children, dressed in jade, sat at the entrance, staring at them intently, and when they saw Long Chen and moxa walking

over, they were like little rabbits, yelling and running to Long Chen's side. One of them grabbed onto Long Chen's leg, and shouted: "Daddy, Daddy, you're finally back, we miss you so much!"

These two children were very cute, Long Chen didn't know how to escape for a while. The only thing he could rejoice about was that the moxa and her two children did not recognize him. Long Chen heaved a sigh of relief, since he had already decided to first enter the Martial Imperial City, then he would talk about this matter. As long as he was in the Martial Imperial City, he would have the chance to enter the Nine Nether Pavilion sooner or later.

The Nine Nether Pavilion was precisely the entrance to the nine nether regions!

"These two children, when you're not around, you're really a troublemaker." moxa glanced at Long Chen flirtatiously and said with a soft chuckle.

"No, no, brother and I are both very obedient." The little girl called Xiao Yu'er shouted.

"Mother is a bad guy, complaining randomly, hmph, ignoring you!" The child also shouted, baring his fangs and brandishing his claws at moxa.

It had to be said, these two children were really cute. Long Chen really liked children. He thought about it, if the one standing beside him right now was Ling Xi, then the boy and girl under his feet were their children. How good would that be.

This was the future Long Chen yearned for the most.

Unfortunately, for the sake of this future, Long Chen still didn't know how many years he would have to battle for.

"Daddy, where's our present?" Suddenly, the two children eagerly looked at Long Chen.

Long Chen froze, he knew that something bad was going on. He did not know anything about the present, nor did he know what the agreement was between the Hundred Warring Martial Kings and the two kids.

Seeing that Long Chen did not say anything, the moxa immediately replied: "Daddy, this time going out was very dangerous. You were injured, so you can't bring any gifts. You guys can't mess around."

Her gentle words were like a gentle breeze blowing, causing the two children to immediately nod their heads like chicks pecking rice.

Thus, Long Chen escaped this calamity.

He followed moxa and her two children and walked into the mansion.

Everything in the Martial Imperial City needed to be handled by himself, so the moxa went to prepare dinner. It was already late in the night, so Long Chen sat in the middle of the courtyard and accompanied the moxa's two children to talk.

did not know what to do, he just stood in the center of the courtyard for a while. After a while, under the clear moonlight, the moxa walked out, took Long Chen by the arm and laughed: "You've been waiting for a long time right?"

As she said this, her face reddened a little.

Too long?

Long Chen didn't know what he meant.

Before he could react, moxa had already pulled Long Chen all the way to their room, and lightly closed the door. moxa turned around, walked in front of Long Chen and said: "When you were gone, I entrusted my cousin to look for you, but she had to protect Nine Nether Pavilion, so we can only send people to look for you. After a few days, he told me that you had completely disappeared, and it is very likely that you had met with misfortune, and at that time, I almost went mad.

As she spoke, her tears fell.

Cousin?

Only now did Long Chen remember, it was as if this moxa had a cousin who was also a martial king, one of the three great Martial King s, Commander Xiao Lin. Did this mean that as long as he got close to his cousin, he would be able to get close to Xiao Lin, and even obtain Xiao Lin's trust?

Long Chen felt that it was possible!

The current him felt as if he had parted the clouds and seen the moon.

The current him, as long as he stays here, his cousin would definitely come to find him after hearing the news that he had returned. At that time, if Long Chen asked for him to recommend him to him, it should be possible.

The only thing he had to do was to not reveal himself in front of the moxa.

With a target in hand, Long Chen heaved a sigh of relief. Currently, the moxa and his two children did not recognize Long Chen, so he was very confident in his disguise.

"Chen Lang!" Just as Long Chen was thinking about something, a sweet voice suddenly came out.

"Ugh ..." Long Chen had a headache. It was only now that he remembered that they had not seen each other for a long time, and that their parting was better than being newlyweds. However, Long Chen did not dare to do so.

"moxa, forget it. My body has not fully recovered yet."

"He hasn't recovered yet?" moxa was shocked, her blurry eyes regained its clarity. She looked at Long Chen and said apologetically: "Then forget it."

Long Chen could only laugh dryly.

"moxa, uh, I can't get up to cultivate?" Long Chen said in distress.

"Aren't you hurt? Rest well, don't work so hard! " moxa said somewhat displeased.

Long Chen could only wait for her to fall asleep before he could break free from her embrace. He had to admit that he was extremely envious of Hundred Warring Martial Kings, to have such a beautiful wife and cute child waiting for him at home.

Suddenly, the look in the moxa's eyes changed from one of shock to one of fear. She stood up from the bed with a 'whoa', and looked at Long Chen with trembling hands: "You're not Chen Lang, you're not! You have a different taste from him! "

Long Chen didn't know that men also had a taste.

Only a woman who was with him could smell it.

Helplessly, he was still discovered.

Before moxa could scream, Long Chen exclaimed loudly and held her back with one hand, saying, "You better not make a sound or else not only you, even your two children will die!"

moxa was completely terrified.

Chapter 613 - Spirit Devouring Demon Pupil, Soul Controlling

The moment Long Chen became ferocious, he could of course suppress the woman, and the thing that moxa cared about the most was her children. She was worried that Long Chen would really touch them, so she didn't dare to!

"Who are you? What are you trying to do? You can't hurt my child! " moxa was scared pale and immediately started to cry.

"Look at me." Long Chen suddenly said.

Hearing that, moxa immediately looked at Long Chen's eyes. She suddenly felt that Long Chen's eyes seemed to be two pitch-black vortexes, she really wanted to see what was inside the vortex. Suddenly, the vortex produced a kind of devouring force, and while moxa was still in a daze, he felt like he was being sucked in.

"I am Chen Guangjun, you and I are women, moxa," Long Chen whispered into moxa's ear.

"En, you are Chen Lang," moxa's sandalwood mouth slightly opened as he said.

Following that, Long Chen gave a series of hints to the lady. He had just thought of using soul control to control this woman, and now that Long Chen had control over her thoughts, with a hint, the moxa would quickly forget about what happened and would firmly believe that Long Chen was her husband.

This control of the soul was similar to a type of hypnotism, but it was countless times stronger.

To Long Chen, moxa was merely a woman who had no power at all. He had casually controlled her, and the reason he used this soul control was because he was discovered to have no other choice. However, the first test, made him feel very good.

Very quickly, the mission was completed. moxa listened to Long Chen and obediently laid on the bed, while Long Chen cultivated by his side. Right now, in moxa's subconscious mind, Long Chen was her husband.

This way, Long Chen could feel more at ease.

Long Chen's expression changed. He used the Spirit Devouring Demon Pupil to look and sure enough, he saw two people waiting outside the big gate of the mansion. One of them was knocking on the door.

"It's so late. Who is it?" Long Chen had called moxa, and moxa was currently being controlled by him. With her presence, if she did not suspect Long Chen's identity, then no one else would either.

When they were near the gate, Long Chen found out that the two people who had come were both strong Rankers, and one of them should have knocked on the first level of the Earth Martial Stage, while the other one should have knocked on the door. The other one, Long Chen could only describe it as unfathomable.

What a coincidence!

Opening the door, Long Chen saw their appearances and immediately knew who they were. One of them was moxa's younger cousin, Mo Feng, who was knocking on the door, while the other person had

a head of white hair and a strong and sturdy body, with a smile on his face from start to finish. Impressively, it was one of the three great Martial King s, the oldest and most experienced, Xiao Lin!

The one Long Chen was looking for was Xiao Lin, he never thought that Xiao Lin would come looking for him himself. I heard that this Xiao Lin has the best personality out of the three great Martial King s. Of course, this is only to myself.

"Hundred Warring Martial Kings, the two of us didn't disturb your reunion, did we?" Upon seeing Long Chen, Xiao Lin laughed indifferently.

Long Chen immediately replied: No, Chen Guangjun greets Martial King!

The moxa at the side also followed Long Chen in bowing to Xiao Lin. She was only a part of his subconscious and was influenced by Long Chen.

"Fine, fine, don't you want to invite me in?" Xiao Lin laughed.

Long Chen immediately brought Xiao Lin and moxa's cousin Mo Feng into the palace and sat them down in the main hall. After that, the moxa prepared some tea and fruits and the like and stood obediently behind Long Chen.

Xiao Lin and Mo Feng didn't suspect at all that Chen Guangjun was actually someone else pretending. Since the moxa and Long Chen were so intimate right now, they took it for granted that they would not suspect at all.

"It's already late, I'll just say the reason for my visit." Xiao Lin began to speak.

"I wonder what orders Martial King has?" Long Chen also didn't know what the two of them were doing here in the middle of the night.

"We were just passing by earlier, and heard that you came back, so we came to take a look." moxa's cousin, Mo Feng said with a smile.

That Xiao Lin nodded, then said: "I will directly say the reason for my visit. The Sword King of the Yellow Springs that I served under earlier was killed by someone from the Warring Clan. You are under Yang Ningfeng's command, and now that Yang Ningfeng is gone, my Nine Nether Pavilion is lacking a person, so you can come to my side to take charge of the Nine Nether Pavilion. "

Mo Feng also quickly said: "Hundred Warring Martial Kings, Nine Nether Pavilion is a relaxed job, it is not like you need to travel day and night, and there are dangers of death at any time. I only introduced you to this relaxed task because I remembered that my cousin was alone with two children."

Long Chen's face was filled with surprise and joy.

Regardless of whether he was Chen Guangjun or not, both of them would be pleasantly surprised at this moment. To Chen Guangjun, being able to stand guard inside the Martial Imperial City directly without facing any danger, and being able to fight evenly with the moxa was definitely a good thing, but to Long Chen, he was actually eager to get close to the Nine Nether Pavilion, so he could learn more about the nine nether regions!

"Really? That's great, I thank the Martial King for his help! " He looked forward to his husband's return every single day. If Long Chen could transfer to Martial Imperial City, it would be a great thing for him.

As she said that, she urged Long Chen to hurry up and agree.

This was a good thing, of course Long Chen agreed. After all, they had already come to visit, although they were just passing by ...

"I am indebted to the Martial King's kindness. This subordinate will definitely do the job well!" Long Chen stood up and said to the Martial King with a face full of gratitude.

Xiao Lin chuckled, and said: "That's good, since that's the case, we won't disturb you, so let me first let you rest well for three days. After three days, come to my Nine Nether Pavilion!"

After he finished speaking, Xiao Lin left with Mo Feng.

hadn't even gone to the Nine Nether Pavilion, but he never thought that the Nine Nether Pavilion would have already come knocking on his door.

As long as he stayed here for three days, moxa would take care of it. Long Chen was not worried that there would be any mistakes after staying here for three days.

Three days later, Long Chen appeared in Nine Nether Pavilion. Xiao Lin would normally be in closed door cultivation, and the depths of the Nine Nether Pavilion would be the entrance to the nine nether regions. The nine nether regions was extremely infamous in the Holy Martial Empire, and even if one wanted to enter, they would not have to be guarded, nor would anyone dare to go in. Letting Mo Feng and Long Chen stand guard here, was only to prevent people who were blind from going in to cause trouble, so it was said to be a rather easy task.

The Nine Nether Pavilion was Xiao Lin's residence. Normally, Xiao Lin would not appear to take care of the affairs of the nine nether regions.

Without Xiao Lin present, Mo Feng directly called Long Chen brother-in-law, being called Brother-in-law by a middle-aged man, Long Chen felt a little strange in his heart.

"You've never been to Nine Nether Pavilion before, I'll bring you in now. We just need to stand guard at the entrance of the nine nether regions. Only after a period of time, or maybe it's a few years, or perhaps a few days, the Martial Emperor will personally send some prisoners in. "

They travelled back and forth in the courtyard of Nine Nether Pavilion. Birds were chirping merrily, it was hard to tell that it was a prison.

"In the past, I joined up with Huang Quan to guard here. If he had other things to do, then I would stay here. If I had things to do, then he would stay here alone. "How about this, there's twelve hours each day, half of each of us. If there's anything important, such as my cousin being pregnant, I can stay here for a long period of time!" Mo Feng said very straightforwardly.

The Martial Alliance was a strict mechanism, and all the tasks were arranged very carefully. Every Martial King was actually managing a part of the affairs, and it was not as simple as the Martial Alliance's martial power.

Very quickly, Long Chen arrived at the entrance of the nine nether regions.

What appeared before his eyes was a small wooden house in the middle of a beautiful garden. The ground within a hundred meter radius of this wooden house was grey without a single blade of grass growing. The wooden house had probably existed for a long time. Its entire body was grey, and it emitted a strange aura. Traces of grey mist were emitted from the wooden house.

"This is the entrance to the nine nether regions? I've never seen one before. " Long Chen said in surprise.

"nine nether regions, I heard that this is the most terrifying place in the world, and no one can come out alive. Of course, there is only an entrance and no exit, who can come out?" Mo Feng said somewhat complacently.

"No exit? Could it be that they didn't find the person inside? " Long Chen asked.

I heard that inside the nine nether regions, it is a barren land, and the nature spirit energy is already so poor that it is shocking how much there is. When warriors are inside there, without enough nature spirit energy, it is very difficult for them to survive, and the scariest thing is that there is no direction in the nine nether regions, no matter which direction you go, you will be walking in a circle at the same time!

There was no spiritual Qi of Heaven and Earth, no direction.

No wonder the people inside couldn't get out.

However, Long Chen thought of another question: "Then that's strange, if no one comes out, who knows what is going on inside the nine nether regions?"

Mo Feng was startled, then said with a bitter smile: "I don't know either."

It seems that Mo Feng did not know much, the information on the Scarlet Soul was powerful indeed, even the person in charge of the nine nether regions, Mo Feng, did not know about it, he was able to find out about it.

The way to leave the nine nether regions was in Xiao Lin's hands.

"Big sister, just wait a while for me. When I have the appropriate opportunity, I will ask Xiao Lin about the thing that I need! "You just have to hang on for a little longer!"

Thinking about how much suffering Long Yue would have to endure in this place, Long Chen felt a little uncomfortable in her heart.

After all, this woman had really helped him a lot!

Chapter 614 - nine nether regions

Xiao Lin resides in this Nine Nether Pavilion, so during the process of his guard, you would occasionally come over to talk to him. Of course, there were also times when Long Chen was here alone. Long Chen realized that every time he interacted with Xiao Lin alone, it was always a chance for him to use Soul Controlling Technique!

But Long Chen was not in a hurry. He needed to be absolutely familiar with Xiao Lin, and only when Xiao Lin was not wary of him did he truly begin to control his soul! Otherwise, even if his martial spirit was strong, he could still fail in the end. If he failed, then not only would it be dangerous, but all his previous efforts would have gone down the drain!

Coming to the nine nether regions was already quite a thrilling thing to do. But in order to save Long Yue, he was willing to give it her all. He knew that there were still a lot of people standing around waiting for his good news, so he definitely could not retreat!

A total of seven days had passed. In these seven days, half of the time Long Chen had been guarding the place, and during this period, Xiao Lin had come by several times, but he would always chat a little with Long Chen.

In actuality, Xiao Lin was already old. In his entire life, no matter how much he trained, he wouldn't be able to make any more breakthroughs, so he basically didn't cultivate anymore.

This was the only one of the three great Martial King that Long Chen had a bit of a favorable impression of. Furthermore, in the Martial Imperial City, she was not an evil being. For example, this moxa was a pitiful woman.

Seven days of time had passed and Long Chen and Xiao Lin had become completely familiar with each other. Usually, during the process of defending, Long Chen would not waste his time, but rather cultivate. When he was disguised as the first stage of Earth Martial Stage, when Xiao Lin came over, he was also practicing the second stage of the fist technique. In fact, he had long since become familiar with the second stage.

However, with his abilities, he could pretend that he wasn't familiar with it.

Thus, when Xiao Lin saw this, he could not help but give some pointers.

Time flew by quickly, and Long Chen knew that this time, the conversation would be rather long. It was a rare opportunity, and right now, he had completely obtained Xiao Lin's trust. If he missed this opportunity, he did not know when it would come again.

During the conversation with Xiao Lin, Long Chen talked while using the soul-controlling technique of the Spirit Devouring Demon Pupil. His words started off with a random chat, the time he had used the soul-controlling technique was especially long, Xiao Lin's consciousness had condensed into a Martial Spirit, it was extremely sturdy, and was not someone that Long Chen could take down easily.

Thus, he could only spend a long time to kill time.

Until finally, when Xiao Lin was in the middle of a conversation with him, his eyes revealed a perplexed look, only then did he realize that he had succeeded. Of course, this was only the initial success of soul control. The process of asking the questions was still rather thrilling!

There was no limit to how much one could control.

With Long Chen's current cultivation level, he could not even compare to Xiao Lin, so the chances of failure were high, and he had only managed to approximately hypnotize his. If Long Chen suddenly used his true essence to kill him, or cause him to feel some energy fluctuations, he would immediately wake up.

At that time, Soul Control would fail.

Only those who were weaker than would be able to completely control their thoughts, and could even cause them to commit suicide.

"When did you reach the Earth Martial Stage?" In the beginning, in order to prevent the other party's train of thought from fluctuating greatly, Long Chen had to choose a relatively simple question. These questions, in the current Xiao Lin's opinion, should be considered quite normal.

"When I was twenty-seven years old ..." Xiao Lin said subconsciously, his eyes blank.

The questions that Long Chen asked were more and more related to Xiao Lin's privacy. He had already planned these questions beforehand, and it would gradually increase. That way, he wouldn't need to suddenly involve Xiao Lin in the deepest secret, and would wake him up.

In the end, Long Chen suddenly asked, "According to the rumors, if nine nether regions goes in or out, he won't be able to come out. But I seem to have heard that you knew of a method to get out of there, and I really want to know if Martial King can tell me."

Xiao Lin was at a loss, and said: "Of course I know, do you want to know?"

"I humbly request Martial King to tell me." Long Chen said with a begging tone. The other side could easily accept this sort of tone.

"In the nine nether regions, you must first find a small mountain that is ten meters tall and dig one hundred meters down from the top. You must find a compass and follow the direction indicated by this compass to the end."

"Mo Feng greets Martial King!" At this time, Mo Feng walked over, and when he saw Xiao Lin here, he hurriedly greeted him.

Long Chen's heart was already in his throat.

Xiao Lin's gaze instantly recovered its clarity under Mo Feng's loud shout. He looked at Long Chen with some suspicion, and just as he was about to speak, Long Chen gratefully looked at him and said: "Many thanks to Martial King for your guidance. I feel like I've advanced another level towards the second level of the Earth Martial Stage!"

"Guidance?" Xiao Lin felt that his mind was in a mess, he had just slept for a while and was just waking up.

Of course he would not think that there was actually such a thing as soul control in this world, allowing him to ask about the deepest secret in his heart. Therefore, he shook his head and bitterly laughed, "I'm old, and my mind is in a bit of a trance. You guys go ahead and chat, I'll go back and take a good rest. "

After that, Xiao Lin left.

That was close.

Long Chen's heart was thumping hard. Fortunately, at the last moment, he had asked for a method to leave the nine nether regions, otherwise, all his preparations would have been for naught.

"Brother-in-law, why is the Martial King so weird?" Mo Feng asked curiously.

"I don't know either. He was instructing me just now." Long Chen said casually as he continued to practice his fist arts.

Mo Feng did not ask any further. After chatting with Long Chen for a while, Long Chen finally left the Nine Nether Pavilion and returned to his residence.

"I just found out about this news and can't immediately enter the nine nether regions. I'll look for another opportunity to enter after a day or two."

After another day or two, Long Chen finally decided to make his move. Previously, he had controlled his soul to control the moxa one more time and made his think that Long Chen was his husband. This way, he wouldn't cause any trouble when Long Chen entered the nine nether regions.

On this day, it was Long Chen's turn to guard the entrance of nine nether regions. He could stand in front of the entrance of nine nether regions without any worries, and use the Spirit Devouring Demon Pupil to look around.

Before he could even react, a huge force directly pulled Long Chen into the wooden house. The door of the wooden house slowly closed and once again, the Hundred Warring Martial Kings Long Chen acted as disappeared from this world.

Towards that moxa, Long Chen could only apologize, her husband's death was not related to Long Chen at all. Long Chen had only saved her life once, and this woman still had a cousin who was a Martial King, so her life would not be too miserable. There must be a lot more people in this world who were worse off than her.

A powerful suction force directly sucked Long Chen into the nine nether regions!

A grey light flashed, and Long Chen discovered that he had already arrived in this little world. He opened his eyes, raised his head to look, and was immediately shocked.

This was an empty, grey wilderness, with not a single blade of grass growing. Grey rolling clouds filled the sky, spreading across the horizon. Traces of desolate, cold wind swept through this endless wilderness.

"Is this the legendary nine nether regions?" Long Chen looked around, and sure enough, he found two important questions. The first one was to look around, and seemed to find that the scenery in every direction was the same. This nine nether regions seemed to be a huge maze.

The second reason was that the Spiritual Qi of Heaven and Earth here was extremely scarce. Even a place like White Yang Town couldn't be compared to this. After arriving here, Long Chen discovered that his Quintessential Essence circulation had become much slower.

From Martial King Yang Ningfeng, Long Chen obtained about a thousand king crystal, adding his own over eight hundred, Long Chen now possesses approximately two thousand. king crystal s contained a tremendous amount of nature spirit energy, perhaps even in this Martial Emperor, they wouldn't have this many king crystal.

Most of these king crystal came from the Li Huo Jing!

Fortunately, Long Chen had these king crystal s so he didn't have to worry about later.

However, he could imagine, for those people who did not have king crystal, if they came to this place that was lacking in spirit energy, their bodies would definitely weaken very quickly, and he heard that the nine nether regions could not find any direction at all, and most people would probably die in despair here.

This was probably the reason why the Martial Emperor had made this place into a prison.

This place was too cruel.

It was desolate.

"First, I have to find my big sister, and then I have to find that compass!"

Long Chen set his target, but still laughed bitterly, in this desolate land, there was nothing. He wanted to find Long Yue there, where would he find the hill? If it was a small mountain, then this place would be a flat wasteland, and it would be easier to find her. But if it was Long Yue, then where would she be?

Long Chen did not waste his time. After establishing a direction, he started to display his own speed and sprinted towards that direction. A grey shadow was moving forward in this gray wilderness.

Because he didn't know if he still had to use the identity of the Hundred Warring Martial Kings, Long Chen hadn't changed his appearance back yet.

"Huh?" Long Chen had been on the road for a long time, but he had not met a single person. As if he was the only one in this world, he suddenly discovered a few footprints in front of him.

He frowned at once.

Chapter 615 - The grey-clothed youth

"It's really strange. I've been running in one direction all this time, but I've returned to my original place. If this goes on, I probably won't be able to find the exit even if I go around to the end. It seems like I have to constantly change directions to go somewhere else!"

Long Chen was very smart. He knew that if he continued walking in this direction, he would circle back to the original place, so he decided to just run around randomly.

Half a day later, Long Chen no longer saw his footprints, which meant that he had already left that place.

No wonder a compass can find the way out. It's very likely that that compass will change along with the direction that compass is going. Although I can leave the place if I run around randomly, it's still very difficult to find an exit! "" It's not like that.

Long Chen continued to advance.

"Newbie!" Suddenly, he finally saw a figure in front of him. Long Chen immediately rushed over, and that person saw his clothes from far away. He immediately cried out in surprise and charged towards Long Chen.

From the shout, Long Chen felt that this person seemed to have found a prey. He immediately stopped and could be sure that this person was not Long Yue, but he was indeed an expert at the second level of the Earth Martial Stage.

Long Chen carefully sized this person up and was immediately a little overwhelmed with shock.

His clothes were tattered and messy, his hair was a mess, it was filled with filth, his face was covered in soil and sand, he looked like he had just come out from the soil, and more importantly, his eyes were filled with panic, it was only when he looked at Long Chen that he revealed his original beast form.

"After staying in the nine nether regions for a long time, would humans become like this?" Long Chen guessed.

With a whoosh, the person stood in front of Long Chen, panting heavily as he looked at Long Chen with blazing eyes.

"Newbie!" Hand over the Heaven and Earth Pouch, hand over the king crystal! I can let you live! Fast!
"Faster!" The man roared at Long Chen.

king crystal?

The king crystal s were the key to every person's survival. Without the king crystal s, the power in every person's body would gradually fade and they would know that not a single bit of it was left. Then, they would gradually age and die.

Looking at this man's crazy face, Long Chen suddenly felt that he was a little pitiful.

"How many years have you been locked up in here?" Long Chen asked.

"How many years? How do I know how many years? Quick, king crystal! " The man roared crazily. It was obvious that he did not want to fight with Long Chen anymore, she would waste a large amount of energy fighting against him!

Long Chen frowned, took out two king crystal s from the Great Void Realm, threw them at the man and said: "This is for you, answer a few of my questions, is that okay?"

The man did not reply him. He accepted the king crystal, his hands trembling, as if he had seen the most wonderful treasure in time. A look of ecstasy appeared on his face.

"Answer a few of my questions." Long Chen emphasized.

The person acted as if he didn't hear anything, and maliciously smiled as he put the king crystal away. After that, the gaze he looked at Long Chen with, had already turned blood-red.

"Newbie!" I want all the king crystal! I want to live forever! Give me all of the king crystal, or you will lose your life! "

With the two king crystal as support, he seemed to have become more crazy. Right after he finished speaking, he pounced towards Long Chen.

"A greedy snake devours an elephant." Long Chen shook his head. The other party had already become so weak, yet he still dared to act like this. It could be seen that the temptation of the king crystal here was greater than anything.

When the opponent attacked, Long Chen waved his hand, and the strong power directly pushed him away.

After rolling a few rounds on the ground, the man crawled up in waste. With a roar, he pounced towards Long Chen once again: "Newbie! You have a lot of king crystal! Sooner or later, you will be killed and your king crystal will be split between us. Sooner or later, you will all die.

"Is that so?" Long Chen rushed forward, with just a few moves, he had completely subdued the man. The other party's cultivation level was the same as his, and their resistance was very strong, so Long Chen's Soul Controlling Technique was very difficult to achieve, which was why he did not use it.

"Strong?" What's the use of being strong? When I first came in, I was also very strong, at least much stronger than you. "Go to hell!" That man roared. Even though he was subdued by Long Chen, he had been struggling with all his might.

Looking at this crazy person, Long Chen felt a kind of sadness. At the same time, he also felt the terror of this nine nether regions.

Moreover, he didn't know if that method would work.

"Let me ask you! A while ago, did you know that a female warrior came in? She is at the third stage of the Earth Martial Stage!" Long Chen asked.

"A warrior? Female? Third stage of Earth Martial Stage? Haha, if she was injured by Martial Emperor, then I am afraid that she would have already been dismembered long ago. The man laughed.

From his words, Long Chen could feel the cruelty of this place.

Obviously, he did not know anything about Long Yue.

The nine nether regions was so big and it had no direction, so finding something was easier said than done.

However, Long Chen did not feel disheartened, he felt that he could not waste any more time, and coldly asked: "I have no intention to kill you, so I gave you two choices. "Second, if you die, I will be at peace!"

The person's eyes were still blood-red. After hearing Long Chen's words, he roared: "I have a third choice, and that is for you to die. I'll obtain all of your king crystal!"

Crack. Crack.

Long Chen immediately broke his neck.

"You reckless fool, I will give my life for you." Long Chen was speechless. He threw the man's body down, frowned and looked around at his surroundings in a daze, then thought to himself: "Not only is the pressure physically stronger, the pressure on the spirit of nine nether regions is stronger. If he stays here too long, he will lose his consciousness sooner or later.

After abandoning the man, he continued on his way.

Continuing on without any rules, Long Chen realized that as long as he followed it in a straight line, after a while, he would definitely return to his original place. If he randomly walked around, he might even be able to go to another place.

"Where is it?" Time passed bit by bit, and two hours passed by hour by hour. In the end, one day after another, three days had passed by. During these three days, Long Chen had met another two people, but the situation was the same. In the end, the two madmen also died in Long Chen's hands.

It was four of the warriors, who were currently chasing after a grey-clothed youth. The grey-clothed youth had his head down, and judging from his clothes, he looked a little better than the other four. It was obvious that he had not been here for very long.

There were a total of five people. He should be able to get some clues from these five people.

"Don't run!"

"Brat, hand over the king crystal you have dug up, or else we will take your life!"

These few people already had extremely low levels of spirit energy, to the point where even Long Chen was unable to see through their true strength. However, no matter how strong they were, if they were here without king crystal, their fighting strength would probably be the same as ordinary people. Any one of their Heavenly Completion Stage would be able to kill them.

Beneath his messy hair, his clear eyes were filled with a murderous aura. He said coldly: "If you force me any more, I will absorb this king crystal's energy and kill you all!"

He had originally thought that the four fellows would be scared, but the grey-clothed youth discovered that he was thinking too much. One of the large men laughed loudly and said, "Then you can kill us. We don't want to live anymore anyway!"

Sometimes, the people here were very afraid of death, and at other times, they weren't afraid of death. The reason they wanted to obtain king crystal to extend their lifespans was because they were worried that they would slowly die from exhaustion. Furthermore, if they committed suicide, they didn't have the courage, so it was a good thing that someone would kill them.

He hurriedly got up and used all his strength to stand. At this moment, his eyes were filled with helplessness and pity, and a king crystal appeared in his hand. Then, under his circulation, it was quickly absorbed by him!

Seeing that the king crystal had disappeared just like that, the few fellows were already prepared to die. They looked at each other in dismay, revealed crazed expressions on their faces, and then pounced towards the grey-clothed youth!

The grey-clothed youth's body moved. One by one, rays of light from his claws turned into dragon shadows as they swept past the four people. Within a short period of time, the four corpses that could not be more dead fell at his feet.

The grey-clothed youth swayed and almost lost his balance.

"Soulcatcher claw?" This time, it was Long Chen's turn to be shocked. The gray clothed youth was actually using the Soulcatcher claw, which meant that his identity had already been clarified. It was the other Long Chen!

In other words, the grey-clothed youth was Long Yue's little brother, the genius at the third level of the Earth Martial Stage.

"Wait." Long Chen took a few steps forward and arrived in front of the grey-clothed youth, blocking his path. The grey-clothed youth's expression was originally very cold, but after seeing Long Chen's appearance and clothes, he was a little stunned. "Newcomer? And he is a martial king of the Martial Alliance? "

Right now, Long Chen was still dressed like a Hundred Warring Martial Kings.

Long Chen laughed, then said: "I am not from the Martial Alliance, you should know Lan Ling'er, this is something she did for me, I know your name is Long Chen, you are Big Sister Long Yue's brother, I don't know if you recognize me or not."

Long Chen's words made the grey-clothed youth's dim eyes light up a little, especially after Long Chen mentioned someone else. He stared at Long Chen and sized him up, and only after a while did he speak.

Chapter 616 - Storm Association

The young man said: "I have seen everyone in the Dragon Clan. You call me big sister, so I assume you are the Long Chen who just joined, the one with the same name as me! Before you were taken to this damned place, your name was like thunder in my ears, but why did you come here? "

From his words, Long Chen was even more certain of his identity.

That's right, this grey-clothed youth was the other Long Chen.

After going around for three days, Long Chen finally obtained his first harvest.

This grey-clothed youth was locked in this nine nether regions approximately one month ago. He did not know about what happened in the Holy Martial Empire afterwards.

Therefore, Long Chen immediately said: "The reason I came here disguised is actually to save you all!"

"Save us?" The grey-clothed youth laughed involuntarily and said, "Aren't you thinking too much? nine nether regions, this damned place has no exit at all. Only people have ever been in here, but no one has ever been able to get out.

Long Chen laughed, and declined to comment.

"No, you mean to save us? Who and who are we talking about? " The teenager in grey frowned as he asked.

Long Chen knew that the grey-clothed youth wouldn't know where Long Yue was. If he did, the two of them would be together now.

Roughly ten days ago, when she heard that you were locked in the nine nether regions, she came here by herself. After that, she fought a great battle with the Martial Emperor, and after losing, she was also locked in here. " Long Chen said.

"What?" The gray-clothed youth's originally somewhat ice-cold face instantly paled. His eyes looked at Long Chen with some disbelief as he said, "Tell me, in order to save me, my elder sister has already been locked in this nine nether regions!"

"This news is absolutely true. The reason I came in was to save her." Long Chen said seriously.

The grey-clothed youth's eyes became somewhat blank and even painful. He slowly squatted on the ground and held his head. I've never listened to her, and I've made her angry more than once. I've even left her, so why would she come and save me? Shouldn't she hate me? "

It seemed that there was still some conflict between Long Yue and her brother. Long Chen laughed lightly and said: "Hate? No matter what kind of relationship the two of you have, as an older sister, she still cares a lot about you. Only you think too much of the contradictions between you and her. "

Honestly speaking, this grey-clothed youth was a rebellious youth. Only by not obeying Long Yue's orders was he able to escape from her. However, these matters couldn't weaken the affection between the brother and sister from before.

Family love, this was an emotion that nothing could defeat.

Long Chen's words caused the grey-clothed youth to be silent for a long time. In the end, he helplessly shook his head, recovered his senses, and said: "This woman is really too stupid, I came to the nine nether regions, and that means I'm already dead.

Long Chen laughed. The grey-clothed youth's words meant that the enmity between the brother and sister had already completely disappeared. This was obviously a good thing. At the same time that Long Chen saved Long Chen, he could also save the grey-clothed youth.

After the grey-clothed youth finished speaking, his gaze finally landed on Long Chen, and said seriously: "You came here to save my sister? And you just said, you know the way nine nether regions left? "

A look of disbelief appeared on his face.

Long Chen nodded, and said: "I do know the method, but the most important thing to do now is to find your sister. When she was imprisoned here, her king crystal must have been taken away by the Martial Emperor. I've been looking for her for three days and haven't heard from her yet. "

Long Chen's words caused the grey-clothed youth to become nervous. He tightly clenched his fist and roared in a low voice: "Martial Emperor this bastard, actually dared to harm my sister. If I get the chance, I'll definitely tear him into ten thousand pieces!"

When he heard the news of Long Yue's injuries, he had actually temporarily forgotten why he was able to leave.

Inside Long Chen's Qiankun bag, there were a large number of king crystal, and he also had many Qiankun bags. Thus, at this moment, he took out over a hundred king crystal and placed them into a Qiankun bag, and said: "You should accept these king crystal first."

When the grey-clothed youth saw Long Chen's actions, he estimated that there were at least a hundred or so of them. He didn't think that Long Chen would actually be giving them to him, and said in shock, "How do you have so many king crystal?"

Long Chen laughed, and said: "Of course I got it myself. With these king crystal, you will be able to recover your third level of Earth Martial Stage strength for a period of time.

For the first time, the grey-clothed youth revealed a grateful expression towards Long Chen, and said: "Brother, I, Long Chen, will never forget today's feelings!"

After Long Chen heard this, he laughed dryly, "Don't talk about Long Chen, our names are the same. These words were a joke, but it brought the relationship between the two of them closer.

From their short conversation, the grey-clothed youth had quite a good impression of Long Chen's character and character. Very quickly, the two of them started to chat.

The grey-clothed youth asked the most important question, and said, "Doesn't this nine nether regions have no way of getting out? I've been researching here for a month already, and I can't get out at all. No matter how much I walk, I just walk around in circles in a small place. "How do you know the way to get out? What's the way to get out?"

Long Chen said: "The method was obtained from Xiao Lin. You do not need to worry about the authenticity, if there are no accidents, it should be true."

The grey-clothed youth did not suspect anything and asked, "What is the method?"

Long Chen said, "He said, in the wilderness, there will be a small mountain that is ten meters tall. Dig one hundred meters down from the top of the mountain, and there will be a compass.

"Little Shan, Compass? After hearing what you said, it seems like only a special compass can do it. "But a hill!"

Suddenly, the grey-clothed youth's eyes widened as he exclaimed in surprise, "Little mountain, I know that little mountain. If it's ten meters tall, I should have seen it once!" There really is a small mountain! "

Seeing that he was excited, Long Chen was also a bit excited, which meant that Xiao Lin's words weren't fake.

"You still know the location of that hill?" Long Chen asked.

Subsequently, the grey-clothed youth's expression became bitter. "Who knows? Wherever we go, it will be even harder than climbing to the sky. But since I have seen it before, it means that the hill truly exists, and the fact that you have enough king crystal, means that we have enough time to find the hill again! "

What he said made sense.

As long as there was hope, it didn't matter if he spent a little more time!

"But before that, we must definitely find Big Sis first!" Time is of the essence, she was not only injured, but also a woman. It will be very dangerous here! "

Regarding the extent of his concern for Long Yue, the grey-clothed youth was definitely not inferior to Long Chen. He hurriedly nodded, and then, together with Long Chen, they began their journey to find Long Yue. In reality, they were just looking for it. It would be more accurate to say they were wandering around randomly to try their luck. The grey-clothed youth was the same as Long Chen. He knew that she had to walk around randomly in order to be able to go to other places.

With enough time, the grey-clothed youth's strength had recovered to Long Yue's level. He also knew that Long Chen had the power of the second stage of the Earth Martial Stage, so he said: "This realm of yours is already pretty good, with your rate of improvement, you should be able to reach the third stage of the Earth Martial Stage in a short amount of time!"

Long Chen nodded his head. Actually with his current fighting strength, ordinary third stage Earth Martial Stage s, including the grey-clothed youth, would not be able to stop him, especially when Long Chen had already fully mastered the Soulcatcher claw and the Wind God Leg, and could even use them in battle. Even in actual combat, with the cooperation of his hands and feet, if he fought full-body, he would definitely be able to unleash an even more powerful attack!

There were a lot of people in the nine nether regions, and the Martial Emperor would often lock some warriors up. Some of them did not even have Earth Martial Stage s. Long Chen and the grey-clothed youth searched the entire way. Every time they met a person, they would capture and interrogate them to find Long Yue's whereabouts.

The patience of Long Chen and the grey-clothed youth gradually faded away. Finally, more than ten days later, the two of them felt that they had already walked around the entire nine nether regions and didn't see Long Yue at all.

On the twelfth day, Long Chen caught another warrior at the first level of the Earth Martial Stage. This warrior originally wanted to snatch Long Chen's king crystal, but he, who had already lost most of his strength, was not Long Chen's match.

Long Chen followed his previous steps to subdue this fellow, and asked him again if he had seen Long Yue's whereabouts. He did not expect that after hesitating for a moment, he actually said: "I ... I seem to have seen it before."

Long Chen and the grey-clothed youth were shocked and asked immediately, "Where did you see it? Quickly tell me the details. If it's true, the ten king crystal are yours! "

It was only until Long Chen slapped his face that he reacted to it, and said: "I, I saw yesterday that people from Wind Cloud Guild were chasing after her. She does not have any king crystal on her, but the boss of Wind Cloud Guild wants her as his wife!"

"Storm Association?" Long Chen frowned.

The gray-clothed youth's face turned cold, and said gloomily: "Feng Yun Hui is originally a great power in the Holy Martial Empire, he is similar to the Wind God Cult, they are all bandits, very aggressive, and do not obey the Martial Alliance's suppression. A total of eight experts, all of them were locked up by the Martial Alliance in the nine nether regions! Among them, their guild leader was at the third stage of the Earth Martial Stage! This month, I've also heard that the Wind Cloud Guild has a lot of king crystal at the beginning, and they also continuously plunder king crystal from others. Therefore, in nine nether

regions, no one dares to offend them! "However, since they dared to attack my Big Sis, then they should die!"

Long Chen nodded.

Time is of the essence, act immediately!

Chapter 617 - Rebellion before Death

In this nine nether regions, no matter how strong the Wind Cloud Guild was, they were existences similar to dog shit to two Long Chen.

He had seen Long Yue yesterday, and today, they might have gone somewhere else, but they should be somewhere nearby. If Long Yue did not succeed, then with so many people chasing after one person, as long as they appeared in Long Chen's field of vision, they would definitely be discovered!

Long Chen and the grey young master moved apart. They maintained a distance of more than a hundred meters, allowing them to see each other, then pushed forward layer by layer, both of them extremely nervous when they heard that Long Yue was being pursued. That whatever Wind Cloud Guild, was a power born of a bandit, so they were not even afraid of the Martial Alliance.

Grey rolling clouds covered the entire horizon, and a desolate cold wind swept through this vast wilderness. It was as if this grey land would never end.

When they ran over here, Long Yue was already exhausted. After half a month had passed, most of the time they were chasing and killing her, and she had almost used up all of the True Essence in her body.

Due to falling on the grey ground several times, her clothes were stained with dirt and traces of blood could be seen on her clothes. This was not only her own blood, but the blood of others!

After running all the way, Long Yue only felt dizzy and she fell on the ground accidentally. Her body told her that she really wanted to lie here and rest, but when she thought of the pursuers behind her, she quickly regained her senses.

"No!" You can't stop or you'll really lose your life! " Behind her, the Wind Cloud Society members were still in hot pursuit. In the beginning, it was them who had set their sights on Long Yue. After Long Yue killed their comrade, her initial greed and hatred made it so that as long as they caught up to her, she would definitely end up in a miserable state!

Long Yue never thought that she would actually die in this place, in the hands of these people!

At this moment, she clenched her teeth and quickly got up from the ground. Her originally rosy face was now incomparably pale. The injuries she had suffered at the Martial Emperor's place, coupled with the days of constant running and consumption of true essence, were all on the verge of collapse.

After getting up, she didn't know how long she would be able to walk for. She gritted her teeth as she continued moving forward. The roars and obscene laughter of the people behind her were getting closer and closer.

Hearing these beast-like voices, Long Yue realized that she was actually a little afraid. Her personality had always been so strong, she wasn't even afraid when facing Martial Emperor. But this person from Wind Cloud Guild had stayed in nine nether regions for too long, and had suffered too much from nine nether regions, so he was now no different from a wild beast.

The strength in her body was quickly being exhausted, and it seemed like she could not hold on much longer. The more Long Yue used the remaining True Essence, the more dizzy she felt!

"What do I need to do to escape?" In truth, she was not afraid of death. It was just that in these many days, she did not even manage to find her brother, and was still worried. If both of them died here, then the Long Family would truly be a dead end.

Long Yue's legs once again went soft, and she fell onto the ground. This time, she was stunned for a moment, and did not immediately get up like last time. It was because of this that the people behind her immediately sped up crazily and caught up.

When Long Yue crawled up, and protected herself with their cold eyes, those people had already caught up. They surrounded Long Yue, a total of five middle-aged men, all of them dressed in rags, their hair in a mess, like beggars, their bodies dirty and messy. However, their Profound Spirit Qi was much heavier than Long Yue's, and now they had enough king crystal to replenish them.

Everyone's eyes were fiendish, full of hatred and lust. One of the skinnier middle-aged men rushed forward, panting heavily as he stared straight at Long Yue, while revealing a strong desire!

"Long Yue! Originally, I thought that I would be imprisoned in the nine nether regions and thus, I didn't have a chance. Unexpectedly, you actually came in, you once defeated me and now you even killed members of my Wind Cloud Association! Today, I, Feng Zhiyun, will fight you for both old and new grudges! "

This man's clothes were slightly better than the others'. He was the boss of the Wind Cloud Society, and with enough king crystal s, he was able to thrive in the nine nether regions. Not many people had obtained king crystal s, and they were not stronger than him.

Long Yue knew, if not for those king crystal, they would not have lived this long. This nine nether regions was truly extremely barren, however, Long Yue later found out that a lot of people were digging holes in the ground, and only later did she find out, that under this nine nether regions, if they were lucky, they could actually dig one or two unburied king crystal!

It was these king crystal that were hidden underground, and these king crystal that were brought here by newbies from time to time. Only these people were able to survive until today.

Looking coldly at Feng Zhiyun, the corner of Long Yue's mouth revealed a cold smile, and said: "You are already a long dead person, yet you are still alive and breathing in this nine nether regions. Those who came here were just a bunch of pitiful people. Even though you have overpowered them, you are still nothing more than a pitiful person! "

Long Yue's taunt had poked a hole in Feng Zhiyun's sore spot. Indeed, no matter how mighty he was in the nine nether regions, in the eyes of outsiders, he was nothing more than a joke.

This ridicule made Feng Zhiyun even more furious!

"Good!" Good! But I, Feng Zhiyun, like to bully pitiful people, so what? You fell into my hands today, so don't expect me to let you go! I have not tasted a woman for ten years, especially a girl like you, who is blessed by the heavens, she is simply a woman of the highest quality! I never thought that I, Feng Zhiyun, would be able to play with such a woman in my lifetime! This life was worth it! After I finish playing with you, I'll still let my brothers have a good time! Furthermore, I will not let you die so easily. As long as I can live, I will use you as a tool to vent my thirst! "

"Boss, mighty!" Upon hearing Feng Zhiyun's words, the other four members of Wind Cloud Guild also revealed surprised and excited expressions. How could they not drool over such a beautiful woman!

Good brothers had to be shared between each other.

Long Yue, however, was not scared by him. She sneered and shook her head, saying: "No matter what, in my heart, you will always be a defeated opponent, a trash."

Long Yue was not afraid of them, who could stop her if she committed suicide? She only felt that it was a pity that she couldn't find her brother.

Being surrounded by Long Yue like this, Feng Zhiyun's heart was filled with anger. He roared, and without wasting any more words with Long Yue, he roared: "Attack! Together, we have already wasted two king crystals for this woman.

"Yes, boss!" Those four warriors all revealed greedy expressions on their faces as they pounced towards Long Yue's alluring and alluring body. After so many years, their attacks had become completely disorderly.

Long Yue's current primeval essence was no longer enough for her, so of course it included Dragonsoul Transformation. However, even without the Dragon Soul Transformation, she still had a foundation at the third level of the Earth Martial Stage.

"Soulcatcher claw!" Relying only on his physical strength and the little remaining Innate True Origin, Long Yue was prepared to fight them one more time. Killing one was one, killing a pair was one only!

The truly fighting spirit of Long Yue was even more terrifying than what they had imagined. The Soulcatcher claw was originally a very fierce attack, and with Long Yue's crazy attacks that did not care about her life, the few Wind Cloud Guild warriors that had not fought for a long time were not her opponents, and were forced to retreat step by step by Long Yue!

"Die!" "Five Dragons Breaking Heaven!" Long Yue had originally wanted to get close to Feng Zhiyun, and was the last to get rid of her, but she never expected that Feng Zhiyun did not even take action, and only used a few of his subordinates to surround Long Yue!

Even if it were his subordinates, as long as they had enough king crystals, they would be able to seriously injure Long Yue, who had exhausted all of her primeval essence. At the same time, he would also be able to guarantee her safety.

Feng Zhiyun was right, it was best that Long Yue used up the last of his strength to counterattack. She used the last bit of her strength to unleash the Five Dragons Sky Breaking Dragon Claw, and the five blood-red divine dragon claw marks, four of them attacked the four Storm Association martial artists separately. Long Yue's desperate attack was not something the four of them who could defend against at the first stage of the Earth Martial Stage.

"No!" Feng Zhiyun used all of his strength and blocked the attack of Long Yue's final claw. He had still underestimated the power of Long Chen, which was why he ended up losing four of his subordinates!

Of course, Long Yue gave it her all. After killing the last four people, she weakly fell onto the ground, unable to continue fighting against Feng Zhiyun anymore. All the power in her body quickly left her, and her body was weak as her consciousness quickly disappeared.

The only thing that could be heard was Feng Zhiyun's enraged roar! His four subordinates were still of great use to him. After being together for more than ten years, they still had a bit of brotherly affection for each other. But now, they were all dead.

After Feng Zhiyun let out a few roars with his red eyes, he suddenly stopped and coldly laughed: "Good! Good! Now that they are dead, then Long Yue will be mine to enjoy. You will belong to me alone, and after they are dead, I will have even more king crystals to use! That's right! "That's right!"

What are you laughing at?

Long Yue could only smile bitterly.

What hope was there now?

Suffering humiliation?

At the last moment, she was already prepared to commit suicide. She did not even want to leave a complete corpse for herself, in case that pervert Feng Zhiyun took her corpse for granted. He had already become a wild beast, and there was nothing that he could not do.

At this time, Long Yue could smell a fishy stench coming from Feng Zhiyun's body.

At the last moment, Long Yue recalled her entire life. The first half of the time was spent with her own little brother, while the second half was spent with the rest of the dragon race.

Individual faces quickly swept past Long Yue. She remembered the details of meeting every single one of her brothers and sisters, and finally, the youngest Long Chen. This youth, Long Chen, had indeed brought her far too many surprises.

Suddenly, she seemed to have heard Long Chen's voice. Long Yue thought that he had hallucinated, so why would Long Chen appear in this nine nether regions?

In Long Yue's heart, there was still another worry, and that was Warring Clan. In the matter between her brother and the dragon clan, she had chosen to save her brother. This meant that it was very likely that all of her brothers in Warring Clan would all die, and now, Long Yue herself did not know which side they were on.

"Stop!" This sudden thunderbolt caused Long Yue to suddenly wake up. She looked up, confused, and saw two figures charging towards her at an extremely fast speed. That kind of speed could only be released when she was at her peak condition.

Who are these two?

Long Yue didn't underestimate him for a moment, she merely thought that it was just an illusion.

At this time, Feng Zhiyun had already arrived in front of Long Yue.

He had not touched a woman for more than ten years, he really could not endure it any longer.

Looking at Long Yue's fair face and willowy body, the majesty underneath his crotch had already risen up high.

At this moment, he heard the voice as well. With a dark expression, he hurriedly looked behind him and saw two figures appear in front of him in an instant. One of them was an extremely fast gray clothed youth.

"Who is it!" Just as Feng Zhiyun uttered this voice, he suddenly discovered that his vision had blurred as fresh blood gushed out of his neck and dyed his clothes red. That ice-cold pain told him that his neck had already been pulled halfway, and his head quickly drooped down.

"I'm dead?" As his consciousness quickly dispersed, Feng Zhiyun thought this with some disbelief. He felt that his head was falling uncontrollably, and in his last glance, he saw Long Yue's pleasantly surprised gaze.

And then, there was nothing!

"Xiao Chen!" The first thing she heard was her seventh brother Long Chen's voice, but she didn't expect that the person she was looking at right now was her own blood brother!

Long Chen stood at the side. He knew that when Long Yue called him younger brother, it was Xiao Chen. When he called him by that name, he usually called him Long Chen or even directly called him Seventh Brother. This matter of having the same name was truly a bit too difficult.

Long Chen laid on the ground as he looked at the grey-clothed youth in a trance, his face filled with tears, and the grey-clothed youth also looked at Long Yue, his eyes filled with tears. Long Chen, on the other hand, was ignored as he stood at the side, and took out more than ten king crystal s from the Great Void Realm, and said with a bitter smile: "Big sister, don't be so agitated, absorb the energy of these king crystal s, your entire body doesn't have any True Essence.

These king crystal were more than enough for Long Yue to recover about half of her strength. After she recovers, it would not be too late for Long Chen to give her other things.

Long Chen's voice somewhat stunned him. Her attention finally turned to Long Chen. Because Long Chen still looked like a Hundred Warring Martial Kings, she could not differentiate who had the strength right now.

"Seventh Brother?" Long Yue's beautiful face was filled with disbelief.

Long Chen replied, "Yes. It's me, hurry up and refine the king crystal, this matter cannot be delayed, wait for your body to recover, I will explain everything to you one by one, I have over a thousand king crystal in my hands, don't worry! "

She could only guess that Long Chen's current dressing should be Lan Ling'er's work. She knew where Long Chen's king crystal came from, so she quickly obeyed and began to refine it.

After she sat cross-legged and entered into a meditative state, the grey haired youth's face finally revealed a relaxed expression. He looked at Long Chen with gratitude and said: "I am truly grateful to you. "I really don't know how to thank you."

Long Chen said: "Don't be formal with me, she is your big sister and also my sworn sister. It is perfectly justified for me to save her. Without her, I don't think she would have achieved what he did today. In other words, she could be considered a benefactor to me. "

In the end, he had even helped break through into the Earth Martial Stage. If not for Long Yue's guidance, who knows what kind of fork in the road Long Chen would take.

The grey-clothed youth nodded his head and smiled, "It seems that the relationship between you few so called dragons is really good. I'm a bit envious. If I can get out, I won't be separated from my sister anymore. I want to follow you! "

"Have you thought it through?" Long Chen was pleasantly surprised. This fellow was a traitor, but now, he was able to turn back and follow Long Yue. With an expert like him, the dragon race's strength must have increased by a lot.

When I found out that she had actually come to my rescue, I already realized that no matter what, in her eyes, she was still a child that wouldn't grow up. Brother is father, sister is mother, I grew up in her care, so I should be an obedient child, after all, she is my only family! "

Long Chen was relieved.

Long Yue was afraid that she would have to let go of this matter as well.

The Martial Alliance's power was getting weaker and weaker. It was a good thing that their powers were growing stronger and stronger.

After half a day, amidst the conversation between the two Long Chen, Long Yue finally recovered. The martial Yuan from the king crystal replenished her body, allowing her to have more than half of her true essence. This was enough to put her out of danger.

Long Chen handed the other hundred or so king crystal over to Long Yue. He had never been a stingy person, so he did not take these hundred or so king crystal to heart.

Just now, when he was absorbing the profound energy from the king crystal, Long Yue had already heard the conversation between the two Long Chen s. She had just recovered and received the king crystal that Long Chen had prepared for her.

The youth smiled and nodded: "Absolutely. Sister, from now on I will follow you. Don't abandon me."

Long Yue's eyes were once again filled with tears. However, it quickly became bitter as she said: "Since we're all here, what's the use of staying with me? We won't be able to leave this lifetime, right Seventh Brother, why did you come back here?"

There were simply too many things that Long Yue wanted to know.

Long Chen did not answer Long Yue first, but said instead, "Big sister, you have already recovered. We are looking for a small mountain that is ten meters tall, and as we look for it, I am slowly telling you other things."

The other two nodded. The gray-clothed youth began to search for the small mountain in front of him, while Long Chen began to talk to Long Yue.

Firstly, because Long Yue was worried about the matters of the Warring Clan, Long Chen roughly told him about the matters of the Warring Clan.

"Are you saying that you broke through the second level of the Earth Martial Stage in battle, and then killed Martial King Yang Ningfeng, won, and chased away Martial Alliance?" Long Yue's voice trembled a little as if she was looking at a monster.

"What?" Kill Yang Ningfeng? I can't even kill that old guy! " Breaking through the second level of the Earth Martial Stage in battle could already be considered a miracle. What was even more miraculous was that he actually killed the Martial King?

Looking at Long Chen's expression, he did not seem to be lying anymore.

The grey-clothed youth and Long Yue looked at each other.

"Roughly twenty or so days ago, we had just left Yun Mengze's place, and at that time, you had just reached the Earth Martial Stage. Just ten days ago, you have already reached the second stage of the Earth Martial Stage.

He had never seen such a perverted person.

Before, the grey-clothed youth had even told Long Chen to work hard and reach the third level of Earth Martial Stage as soon as possible, to become an existence at his and Zhao Danchen's level. He didn't expect that Long Chen had already arrived and had even vaguely surpassed him.

Long Chen could only keep nodding his head.

It was only then that he started to recount what happened next, and he said: "Zhao Danchen said that you're imprisoned in the nine nether regions, and he even wanted to marry Second Brother's daughter, Liu Yiyi. I sent Second Brother to the Ancient Devil Region, and then I came to the Martial Imperial City to find a way to save you!"

Hearing that Long Chen had come to save his, Long Yue was moved at first, but felt pained after he was touched. She chided Long Chen: "Why are you so stupid? Now that the three of us are here, when we are all dead, the Long family will have no descendants! "

Thinking of this, she was truly angered in her heart.

Long Chen and the grey-clothed youth looked at each other, then smiled.

"What are you laughing about?" Long Yue asked curiously.

Chapter 619 - Stone Scorpion Shocking the Soul

"Sis, he knows the way out. The hill we are looking for now is the key to getting out." The grey-clothed youth laughed.

"What?" Long Yue was also shocked.

"It's news from the Scarlet Soul, saying that Martial King Xiao Lin knows of a method to leave the nine nether regions, I used a secret technique and obtained this method from his mouth. There is a compass that can help us leave this place, a hundred meters below a ten meter tall hill." Long Chen explained.

"So that's how it is!" Long Yue nodded in surprise. She knew that if they could really get out, all of these miracles would be something that Long Chen had created.

"There's no time to lose, let's find a hill together!"

"Un, but elder sister, you should first recuperate from your injuries." The spiritual medicine here should have some effect on your body. " Long Chen said.

In the remaining time, they had one final goal.

Little mountain!

As long as he found the hill, he should be able to leave.

At that time, searching for Long Yue took more than ten days. Long Chen reckoned that it would take more than ten days to find that small mountain, but in reality, his estimations were not bad. Even though the grey-clothed youth had once seen the small mountain, after ten days, they still did not get anything.

"Strange, I clearly saw it then." The grey-clothed youth said somewhat dejectedly.

"Don't be impatient, we'll keep looking. There will be one sooner or later." Long Chen said. In this nine nether regions, there was nothing at all, so it was indeed a little boring and lonely.

Ten days had passed, and with the help of the king crystal and spirit medicine, Long Yue had completely recovered. The three of them had the fighting strength of the third stage of Earth Martial Stage. With fighting strength like this, they could definitely sweep across the entire Holy Martial Empire, and as long as they could get out, even the Martial Emperor would not be able to do anything to them!

A super great power like the Ancient Devil Region would at most be at the third stage of the Earth Martial Stage.

Even if it was the Martial Alliance s, they only have two people left in the third stage of the Earth Martial Stage.

The three of them chatted as they continued forward.

This time, it was more important to find a small mountain, so Long Chen did not have much time to cultivate.

As long as one's feet stepped on the ground, and communicated with the power of the earth, they would be cultivating Earth Martial Stage.

In the past few days, Long Chen had removed the Hundred Warring Martial Kings's clothing and returned to his original appearance.

"This nine nether regions is simply too simple. There's nothing here at all." Long Chen said somewhat gloomily.

"That's right. Other than these dark gray clouds and this gray land, there's really nothing else." Long Yue said somewhat helplessly.

"There is another strange stone scorpion that I have never seen before, but I heard that it is extremely scary. This stone scorpion is not a demon beast, its appearance is similar to stone, it is very hard and strong, and most Earth Martial Stage warriors would find it difficult to kill it, and with its immense strength, they would give its tail a slap, or even a pincer to pinch, and it is estimated that we would all lose our lives. What is even more terrifying is, every time this kind of stone scorpion appears, there will

be thousands, and wherever it goes, no one can survive." This sentence came from the grey-clothed youth. He had stayed here for a relatively long time and knew quite a bit about it.

"Oh? There's actually such a thing? " Long Chen and Long Yue were both surprised, hearing him say that, it seemed that the stone scorpion was really powerful. This kind of magical thing, even people didn't know if it was life or not, and its combat power couldn't be measured by ordinary demon beasts.

"This stone scorpion is like the death god of the nine nether regions. Every time it appears, many people die. No matter how strong an expert was, without enough king crystal, they would still die if they fell into the group of stone scorpion! Fortunately, we have enough king crystal, and you guys don't have to worry. This stone scorpion will only appear once every few years, if not, there would be no one left in nine nether regions ...

When he said this, he suddenly froze.

"What?" "The earth is shaking?" The grey-clothed youth's mouth grew big.

Long Chen and Long Yue frowned. Long Chen carefully felt it and sure enough, the earth started to shake. They had a bad premonition and immediately looked around!

"Aren't I still a jinx?" The grey-clothed youth said somewhat gloomily.

"Yes." Long Chen and Long Yue said at the same time, because they had already seen that at the distant horizon, there was a large cloud of dust rising right now. That gray sand connected the earth to the gray clouds in the sky. Suddenly, Long Chen saw a lot of tails raised high!

Long Chen estimated that the length of this scorpion tail should be at least ten meters.

Ten meters was still the most conservative.

"Oh my god, it's really a stone scorpion, my crow beak!" The grey-clothed youth's expression was extremely wonderful. Just as he mentioned stone scorpion, he did not expect that this stone scorpion had really come.

The earth rumbled as they thought about it. That terrifying vibration was getting stronger and stronger, and from that, it could be seen how powerful those stone scorpion were. It was unknown what material the stone scorpion's body was made of, but it was definitely extremely hard!

The three of them looked at each other and saw the meaning in each other's eyes.

The stone scorpion did not know what it was, but if it was surrounded, then it was done for. In the nine nether regions, it was better to not cause any trouble, and so they all took their leave, escaping once again!

In order to save the king crystal, they only had to maintain a speed that was about the same as the stone scorpion. This was also because they had enough king crystal. If it was anyone else, they definitely would not be able to outrun the stone scorpion.

It could be seen that they seemed to be staring closely at Long Chen and the others. No matter how Long Chen and the others changed their direction, these tens of thousands of stone scorpions were chasing after them.

"I understand. This nine nether regions is really a prison born of nature. The combined primeval essence of the three of us is probably the strongest here, so these stone scorpions will automatically come here to clean us up."

Otherwise, it would be impossible to explain why they were chasing after Long Chen and the others.

Fortunately, they had enough king crystal.

Of course, this would delay their search for the hill.

Along the way, Long Chen and the others tried their best to find a place with fewer people to run to, but those stone scorpions continued to chase relentlessly, always chasing with all their might. Their army of thousands of men, was simply another person's nightmare.

Three days passed.

They were all exhausted, but the distance between them and the stone scorpion was much closer. When Long Chen turned around, he could roughly see their appearances. It was a huge stone scorpion, its entire body was formed from grey and white weird stones, every single stone scorpion was huge, their raised tails were not only ten meters tall, they were also at least twenty meters wide, and a pair of gigantic pincers were also raised high, just like their tails, they were their most terrifying weapons.

"We can't go on like this. They've already killed a lot of people along the way, but they still have no intention of stopping. Could it be that they'll keep chasing us until we're all dead?" Long Chen asked suspiciously.

"I don't know. In the past three days, we have exhausted a lot of king crystal. Furthermore, if this goes on, we probably won't be able to find any hills, and will die in the hands of these damn things. " The grey-clothed youth said somewhat exasperatedly.

Long Yue also laughed bitterly as she shook her head.

There was nothing she could do.

Another two days passed.

Five days had passed and the three of them were completely exhausted. The stone scorpion still had not retreated, and these stone scorpion were still more than 100 meters away from Long Chen and the others. As long as any of them stopped, they would quickly rush over!

Long Chen and the other two were feeling anxious in their hearts.

That small mountain didn't have any plans, he didn't expect to run into this damned thing first.

"They stopped!" Long Chen suddenly heard Long Yue's surprised voice and he hurriedly turned around. As expected, at this moment, those stone scorpion actually stopped walking in a neat row, and smoke and dust that filled the sky began to fall.

Tens of thousands of stone scorpion lined up neatly and stopped more than a hundred meters behind Long Chen and the rest. Finally, Long Chen could stop and take a good look at these stone scorpion.

In that moment, Long Chen could see clearly that the stone scorpion's grey rocks were actually not anything special. It was just that in their armor, there were circles of strange black runes.

It was because of these runes that these items were able to have such a large movement.

"Both of them stopped? No more chasing?" The grey-clothed youth shook in front of the stone scorpion a few times. Those stone scorpion did not have eyes at all, as if they could not sense the grey-clothed youth's movements.

"They haven't killed us in the past five days. I'm guessing they'll need energy to sustain themselves. Now that their energy is exhausted, they shouldn't have any more strength left." Long Chen said calmly.

"This is great, we can finally throw off these birds. Let's go." The grey-clothed youth laughed.

"Wait a minute, they're going to dig underground. This nine nether regions is so strange, aren't you guys curious? Where the hell did all these stone scorpion come from? What's so special about them? "Since we haven't found the hill, why don't we follow them and check it out. If there's any danger, why don't we come back?" Long Chen suggested.

At this time, these stone scorpion had already begun to dig on the grey ground. Although their bodies were huge, it seemed like they could easily burrow into the ground.

Long Yue hesitated for a moment, then nodded: "Okay, let's follow in and see, if there's any danger, come out immediately, you can't keep fighting!"

Chapter 620 - subterranean space

In Long Chen's heart, he was full of the spirit of adventure, and the grey-clothed youth was the same. Long Yue was also a decisive person.

Using Spirit Devouring Demon Pupil, Long Chen was unable to see any souls from them, which meant that these stone scorpion did not have souls. As for what it was, Long Chen didn't understand it now.

Under the eyes of Long Chen and the others, tens of thousands of stone scorpion began to sink underground. The ground here seemed to be like the home of stone scorpion s, and after they sank in, the ground would automatically return to normal.

As for Long Chen and the other two, if they wanted to follow, they would have to dig a hole for themselves. All three of them possessed the powerful Dragon Soul Transformation skill, and Earth Martial Stage trained in the earth. They were able to fuse with the earth, and could even communicate with it further, thus they were more or less able to keep up with the speed of the stone scorpion.

It was only at this time that Long Yue and the grey-clothed youth noticed that Long Chen's Dragon Soul Transformation was different from theirs. Long Chen's Dragon Soul Transformation was a lot darker, and the rules of the dragon's scale and the like, as well as the bone spikes, seemed to be a lot better than the Long siblings'.

Although the Archaic Blood Spirit Dragon and the Red Dragon were both red, there was a great difference between the strongest and weakest. There was, of course, a great difference between the two.

"Are you a member of our Long family? Why does the Dragon Soul seem to be stronger than us?" The grey-clothed youth said.

Long Chen shook his head and laughed: "I don't know either, I was like this when I learned the Dragon Soul Transformation. Elder sister said that I might be another branch of your family. We should hurry up and follow that stone scorpion and not alert them."

Long Chen didn't want others to know about the Dragon Fighter, so he changed the topic.

The three of them were silent as they dug forward. Their bodies and claws were much tougher than the grey soil beneath the ground. It was easy to break through the soil.

However, the deeper they went, the more pressure they felt from the soil, and the harder it was for them to withstand. Those stone scorpions were still going deeper, and it was unknown when they would reach their end. Therefore, Long Yue said: "Forget it, no matter how deep we go, I'm afraid we won't be able to avoid them even if we encounter danger. It's better to go out."

The grey-clothed youth nodded.

Just then, Long Chen exclaimed in a low voice: "They have disappeared, there's something strange up ahead!"

Long Yue had originally decided to leave. Hearing Long Chen's words, she could only follow him and go deeper in. Since Long Chen was able to defeat Martial King, his strength was most likely the strongest amongst the three of them, so Long Yue letting him take the lead made her feel at ease.

Long Chen headed in the direction of the stone scorpion's disappearance. When he was almost there, Long Chen suddenly felt a cool sensation in front of him. He immediately stopped and thought to himself: "What is it?"

He gently touched it with his hand and walked forward. Suddenly, he felt nothing but mud, as if his arm was extended out of the ground. Long Chen immediately guessed that there might be a hollow place deep underground.

Just how big was this empty space?

Long Chen was bold and skilled, without saying a word, he replied: "There's something strange here, I will go in first, if there's anything I need to remind you guys!"

He had come here on his own initiative, so he too took the lead and headed straight ahead. Suddenly, his entire body was empty. After Long Chen immediately used his Ninth Level of the Heavenly Completion Stage, he activated the flawless supernatural power of the One Heavenly chakra, stabilizing his body in midair, and then looked down at his body.

Instantly, he was stunned.

Long Chen didn't know how big it was, but the only thing he saw was that there was actually a large amount of shattered rocks at the bottom of the cave. These shattered rocks were of the same color as the stone scorpion just now, but those stone scorpion were all gone, so Long Chen couldn't help but suspect, could these shattered rocks which were all over his field of vision, be those stone scorpion s?

This place was their lair. After arriving here, they were separated by the stone scorpion's body and turned into stone once again?

Of course, this was only Long Chen's guess.

As for the top, Long Chen raised his head to look. A layer of pitch-black light had blocked a large amount of soil, allowing such a huge space to appear from within the ground. The pitch-black light was like the

ripples on the surface of a lake, circulating on the surface of the membrane and appearing rather beautiful.

Long Chen had just passed through the membrane of light and arrived at this place. The membrane of light seemed to only be effective for blocking the mud, he could easily pass through it and enter.

At this moment, the light barrier behind him rippled with black ripples once again. Long Yue and the grey-clothed youth's figures appeared from within, and they did not wait for Long Chen to return and tell them about it. Instead, they directly entered, because they were also worried for Long Chen's safety.

After seeing the scene inside, the two of them were shocked.

"This cave is really huge. But, where are the stone scorpion? " Long Yue's beautiful eyes flashed with suspicion.

Long Chen pointed to the endless rocks below and said, "These things seem to be the only stones here."

"Are you saying ..." Long Yue's eyes lit up. She spoke as if her words were spoken, but was interrupted by the grey-clothed youth, who was currently pointing at a place in shock, letting Long Chen and the others look over, and said: "Look, in the center, there seems to be a very large stone!"

Following his gaze, Long Chen and Yun Che looked over. Indeed, at the center of the countless shattered rocks, there was a huge spherical stone. This stone was entirely gray, and the material was most likely the same as the one on the stone scorpion. The sphere of stone was firmly pressed on top of countless stones. Its surface was smooth and glimmered with a faint light. The diameter of the stone was approximately 20 meters.

"If there's anything strange about this place, it should be on top of this spherical boulder." Long Chen secretly guessed in his heart. He waved his hand and said: "This is a rare occasion, let's go and take a look."

With that, he once again took the lead and headed toward the spherical stone.

On the way, everything seemed calm and peaceful.

Just as he was about to approach the giant spherical boulder, Long Chen suddenly felt a sense of danger. He immediately stopped his footsteps, then, he called for everyone to retreat, and after they retreated,

the area under his feet emitted a black light, and circles of black runes lit up in the air. There were more than ten runes appearing at Long Chen's feet, and the shattered stones quickly turned into a dozen of stone scorpions, baring their fangs and brandishing their claws, and appeared in front of Long Chen.

Black runes sparkled behind them.

"Are these stone scorpions really shattered?" The grey-clothed youth said with some surprise.

Before, there were tens of thousands of stone scorpions, of course, it was very scary, but now, there were only a dozen of them, they were not scared at all. At this time, there were many broken stones on the ground. Even with dozens of stone scorpions, there were only a small amount of broken stones.

Long Chen thought for a while, then said: "The stone scorpion from before chased us for five days, I estimate that they have exhausted all of their energy, so when we went into their nest, they could only produce a few dozen to deal with us. Let us settle these few heads first!"

If he guessed, then he would have nothing to fear.

Long Chen didn't mind keeping more than ten stone scorpions in his heart.

With a whoosh, Long Chen appeared in front of one of the stone scorpions. That stone scorpion's gigantic pair of pincers smashed towards him like two meteorites.

"Liu Xu Suifeng" Long Chen gently displayed this movement skill, the stone scorpion's attack immediately blew him away, and she was not even touched. Long Chen was not blown far, and he quickly turned back.

With a sou sound, the stone scorpion's tail that was hiding behind it, unleashed a violent attack towards Long Chen. The stone scorpion's tail was extremely fast, its strength was even greater than the pair of pincers.

The wind began to howl.

Similarly, because of the catkin with wind, Long Chen easily dodged its attack. Dodge to the side, allowing the stone scorpion's attack to land on empty space.

"Huangfu Clan's catkin with wind?" The Long family siblings who were about to fight with the stone scorpion, were shocked when they saw Long Chen's catkin with wind. How did this Huangfu Family's catkin with wind end up in Long Chen's hands, and why was Long Chen able to learn it?

In such a short period of time, Long Chen had not even broken through a level and had even learned two middle level king level techniques?

Among them, Long Yue was even more surprised.

As for the grey-clothed youth, he had a deep admiration for this Long Chen. After all, he had reached the third level of the Earth Martial Stage at this age. It was a rare sight, and he was even younger than Zhao Danchen by two years. But after meeting Long Chen, his self-confidence received a merciless blow.

"What a freak!" The gray-clothed youth was speechless.

Relying on the catkin with wind, Long Chen saw that the stone scorpion could not injure him at all. Instead, it caused the broken stones on the ground to fly out and explode.

More than ten stone scorpion spread out. Because Long Chen made the first move, a total of six stone scorpion surrounded him. Countless attacks were aimed at him. Honestly speaking, the attack power and speed of these stone scorpion were all extremely strong. Long Chen was also not willing to waste his energy to fight them head on.

Long Chen did not need to make a move to obtain victory.

For example, when he saw that one of the stone scorpion was about to attack, he instantly flashed in front of the other one, and when the attack came, he used the catkin with wind. The stone scorpion's attack, just the wind itself blew Long Chen away.
