

War God 691

Chapter 691 - Reverse Attack

Of course, Feng Xuan could create even more Three Thousand Phantom Shadow, but she would need True Essence to create Three Thousand Phantom Shadow. Feng Xuan's true essence had been suppressed by Long Chen's Devouring Blood Realm by two levels, how could she care about those three thousand illusions?

"Now, only the two of us are left?" Feng Xuan used her movement technique and quickly rushed in Long Chen's direction. She was not the least bit afraid of a mere Long Chen, the only thing she was afraid of was the Sun Devouring Demonic Wolf's Nine Hell Devil Ancestral Flame.

"So what if you two!" Long Chen's Devouring Blood Realm completely enveloped the two of them.

"If it's two people, then go to hell!" Feng Xuan's face immediately turned sinister! Boom!

Long Chen could not bear to see her, and she could not bear to see Long Chen either. She knew that the three thousand illusions would not be able to hold the little wolf for long, so her only option was to quickly finish him off!

"Three Thousand Illusory Palm!" What was attacking Long Chen were countless of Illusory Palms, these Illusory Palms carried a huge amount of power, and were completely condensed by the wind, crazily rushing towards Long Chen, releasing rumbling sounds!

The Three Thousand Phantom Palm was a direct attack similar to the Three Thousand Phantom Shadow. The effect was completely different from the Three Thousand Phantom Shadow!

"Liu Xu Suifeng" Facing the dense palm wind, Long Chen actually used the catkin with wind confidently. The catkin with wind had already been used to the peak level by him, and was even more powerful than when Feng Xuan used her own movement technique. Those countless Three Thousand Illusory Palm, could only blow Long Chen's figure around, but could not hit him directly at all!

"This kid's comprehension ability is truly abnormal. Such a person absolutely cannot stay in this world!" A trace of ruthlessness flashed across Feng Xuan's eyes.

Suddenly, two illusory blades appeared in her hands!

This blade edge was entirely made up of rapidly moving wind, just like a real blade edge, and was even more terrifying than a real blade edge. At this moment, these two blades were flashing with whistling sounds, and countless blade lights burst out from these two small blades, twisting the air around them.

Feng Xuan held onto the two blades as though she had controlled countless blade lights!

"You can use your movement technique to block the Three Thousand Illusionary Palm. To be honest, I admire you quite a bit. But, can you dodge this move?" Feng Xuan let out a sinister laugh, and her body suddenly rushed towards Long Chen. At the same time that she formed the strong impact force, the two blades in her hands were smashed out!

Rumble rumble rumble!

The two blades suddenly transformed into countless wind blades!

These were countless blades formed directly from the wind, their speed was countless times faster than the previous Three Thousand Illusionary Palm. Long Chen's catkin with wind was able to dodge the Three Thousand Illusionary Palm, but towards these endless wind blades, it was still an unknown!

"wind race's offensive skill, storm blade!"

This battle skill was just like its name - it was completely a blade created by a storm!

"The wind race is the ruler of the The Heavenly Wind Holy Dynasty. The The Heavenly Wind Holy Dynasty is countless times more powerful than the Holy Martial Empire. Even her battle skill is so terrifying," Long Chen said as her heart trembled.

Of course, he wasn't scared!

Under his Devouring Blood Realm, Feng Xuan's true essence had already been suppressed to two levels. Otherwise, her attacks would be even more terrifying!

Long Chen's mind quickly spun, and looking at the proud Feng Xuan, he suddenly came up with a plan.

It was the same old trick, but this one had been tried many times. Previously, when he was facing Zhao Danchen, if he did not have a move, Long Chen would not be able to fight with his full strength.

"Nine Heavens of Absolute Murder!" The blade-like claws in his hand turned into nine divine dragons that pounced towards the fake blades! Instantly, intense crackling sounds rang in the air. Long Chen's claws were frantically clashing with the storm blade, he had unleashed the power of the Nine Heavens of Absolute Murder, the claws were definitely capable of splitting the storm blade into pieces, but the number of storm blade was far beyond his imagination. At this moment, Feng Xuan had completely restrained the output of the three thousand illusions, and had even used all of his true essence to condense the storm blade!

Her meaning was very obvious, she had to first kill Long Chen before dealing with Xiao Lang!

To her, Long Chen was a huge problem, and she would only be at ease if she killed him first!

The feeling this young man brought her was too terrifying!

Countless storm blade s attacked Long Chen endlessly, with each stroke of storm blade being extremely fast. In a mere five breaths of time, Long Chen crazily unleashed the absolute power of the Nine Heavens, and shattered all the storm blade!

However, Feng Xuan had formed a large amount of storm blade, and was rushing towards Long Chen!

Helpless, Long Chen unleashed another high intensity Absolute Killing Nine Heavens. In such a short period of time, he executed Absolute Killing Nine Heavens several times without restraint, if not, the storm blade would probably have completely dismembered him!

"I want to see just how much true essence you have left to contend against me!" Feng Xuan laughed and used his storm blade once more! She had to use 20% of her true essence to suppress the Devouring Blood Realm, while the other few formed 3000 illusions, leaving her to completely sacrifice Long Chen's life. Of course, even if that was the case, her body's true essence was still much more powerful than Long Chen's!

Just as Feng Xuan had expected, when Long Chen had unleashed the Absolute Killing Nine Heavens, his true essence was quickly exhausted. Fifteen breaths of time had passed. Long Chen had consecutively used the Absolute Killing Nine Heavens five or six times.

However, the storm blade still did not stop.

In Feng Xuan's opinion, Long Chen no longer had a chance to live!

She could feel that the undulations from Long Chen's body was getting weaker and weaker, and he was already at the edge of exhaustion!

"Go to hell!" Feng Xuan let out a cold laugh, and two storm blade appeared in her hands once again. In order to kill Long Chen, she had almost exhausted all of her available True Essence.

As for the demon wolves, I want to see what kind of mysterious abilities they have. If I can tame them, my strength will definitely increase by a whole level, and once I reach Archaic Graveyard, I will be able to broaden their horizons! "Su Yun said.

Feng Xuan thought with passion in her heart.

After killing her way out, did not relax even after facing the oil lamp dried up Long Chen. She executed her movement technique and rushed towards Long Chen.

Unfortunately, what she did not see, was that even though he was completely exhausted, Long Chen did not have a single trace of panic on his face. Seeing the last wave of storm blade heading towards him, Long Chen smiled faintly!

Relying on his remaining true essence, Long Chen used the Nine Heavens of Absolute Murder for the last time. But this incomplete Nine Heavens of Absolute Killing, was directly pushed back half the time he used it. As Feng Xuan wished, he let out a miserable scream of despair, and was then completely drowned by the storm blade!

"He's going to lose his life!" Feng Xuan revealed an excited smile.

On the other side, the wolf cub's eyes were gloomy. He knew that Long Chen had his own methods, and would not let Feng Xuan succeed in moving so easily, but he was still worried. In addition to his anger, the wolf cub had cast aside the remaining three thousand illusions.

She knew that Long Chen had definitely already been dismembered at this time. The Sun Devouring Demonic Wolf did not care about the three thousand illusions and directly rushed towards her in anger, this was the best proof!

The sign that proved Long Chen was dead was that the Devouring Blood Realm that was tightly suppressing Feng Xuan had already disappeared at this time, and clarity had once again returned to the surroundings!

Roar!

The Sun Devouring Demonic Wolf instantly pounced to a spot thirty meters in front of Feng Xuan's eyes and its body suddenly expanded. The Nine Serenities Devil Ancestral Flame that could be controlled was now spat out by him with a loud bang, and all of the Nine Serenities Devil Ancestral Flame instantly turned into a black torrent, surging towards Feng Xuan like the tide of the ocean!

Feng Xuan felt a suffocating coldness!

Wherever the Nefarious Spectral Demon Ancestral Fire went, everything turned into black ice. Even those that weren't covered yet were shattered!

Such a terrifying flame, was simply unheard-of by Feng Xuan. However, this strengthened her resolve to tame it, so how could she know that the Sun Devouring Demonic Wolf had a human soul on it?

"How terrifying!" At this critical moment, Feng Xuan could only think of hiding. Long Chen had already died, and everything else was just to seriously deal with the little wolf. Feng Xuan did not believe that the little wolf could use the Nine Hell Devil Ancestral Fire without any limits!

Among the nine great clans, the wind race was famous for his speed. At least in the area of the Holy Martial Empire, Feng Xuan was considered one of the best at speed!

She used all the techniques she could muster and retreated to the back!

"Can you burn me, baby?" knew that he wouldn't be in any danger, so he covered his mouth and started to giggle, his eyes filled with a flirtatious expression. Moreover, after the wolf cub took human form, his appearance had become so beautiful. If he tamed the wolf cub, then wouldn't he be leading a different kind of life in the future?

Thinking about it, Feng Xuan was simply going crazy with happiness!

At this moment, a change occurred!

Feng Xuan suddenly discovered that just an inch behind her, a terrifying aura was suddenly transmitted over. After she discovered this, a gray aura of death had already shrouded her body!

"What is this?" That terrifying gray aura was not one bit inferior to that of the Underworld Devil Ancestral Fire. Feng Xuan determined that there was nothing behind him, but how did this gray aura appear?

In an instant, her face revealed an expression of extreme shock!

Chapter 692 - The birth of an ancient tombstone token

At this critical moment, she frantically turned her head, only to see Long Chen's sneering face. The Long Chen that she thought was dead, was completely unharmed, and his true essence had not reached the limit, he even had a lot of it!

"You!" Feng Xuan's face suddenly became deathly pale. The moment she turned around, she saw the death aura covered palm print, which was currently imprinted on her chest!

That terrifying death aura instantly wrapped around her body, turning the clothes on her chest into dust. The moment that the snow-white proud twin peaks were exposed, they were immediately pressed against by Long Chen's grey palm. Long Chen flew backwards in retreat, but that grey hand print was left in the space between Feng Xuan's body, and deeply embedded itself there!

Feng Xuan let out a world-shaking scream!

Long Chen's attack was really too sudden. In front of his, there was the little wolf's Nine Hell Devil Ancestral Flame, and behind her, there was Long Chen's Desolate Divine Seal. How could she possibly dodge it?!

She blankly looked at Long Chen, then looked at her own chest. At this moment, between the twin peaks, the gray colored Desolate Divine Seal had instantly expanded, turning her proud pair of peaks into rotten meat, and then spreading towards other directions of her body!

This kind of pain was not something a human could endure!

Feng Xuan's face contorted as she tried to struggle out, but she did not have the slightest bit of strength!

Her eyes were still looking at Long Chen who had an indifferent expression!

"How come he didn't die!" At the very last moment, Feng Xuan still had that thought.

Her eyes were filled with despair.

In this final moment, Feng Xuan's eyes flashed. An invisible imprint quietly emerged from her forehead, and moved onto Long Chen's arm. Long Chen had only paid attention to Feng Xuan's life and death, and this point was completely ignored by him.

In the next moment, the Nefarious Spectral Devil Ancestral Fire directly pounced onto her body, and blazing black flames rapidly burned on her body. Very quickly, the black flames swept past, leaving behind an icy cold black ice sculpture.

Just now, under the attack of Feng Xuan's last storm blade, Long Chen used a reverse flow of time and successfully escaped the attack.

It should be an ability belonging to a Great Void Cosmic Dragon. If it was in its complete state, it would be even more terrifying than those abilities of the Primordial Blood Spirit Dragon. It was just like how a kitten had restored the entirety of White Sun Town, which had been destroyed, to its original state.

From this, it could be seen that Cat's claim that the status of Great Void Cosmic Dragon was above that of the Primordial Blood Spirit Dragon was well-founded.

The last time he used it was in reverse flow of time. It had been almost a day already, and Long Chen could just happen to be able to use it again.

But Feng Xuan was a powerhouse at the fifth stage of the Earth Martial Stage. Long Chen was just at the third stage of the Earth Martial Stage, and his collaboration with the little wolf was interrupted. If they didn't go all out like this, it would be difficult to kill Feng Xuan at the final moment!

This battle was exciting and thrilling!

Looking at Feng Xuan's lifelike ice sculpture, Long Chen powerlessly sat on the ground. The last time he used the Desolate Divine Seal, he had almost used up all of the true essence in his body.

Mo Xiaolang returned to his human form and came to his side. His battlefield was extremely intense, so his forehead was covered with sweat and he was panting.

"Little Wolf, is it finally over? Zhao Danchen and Feng Xuan were both killed by us?" Long Chen said in disbelief.

"Zhao Danchen has nothing to do with me. Brother, are you scared silly by this woman?" Mo Xiaolang said with a smile.

Long Chen was not stupid, it was just that the hopes of so many people had already been carried into his hands, so it was natural that Long Chen would care a little.

In particular, Feng Xuan's life and death meant the location of the ancient tombstone token.

The matters of the Holy Martial Empire had finally come to an end.

Next, he would be able to embark on a new path. As long as he passed through the Archaic Graveyard, he would be able to meet Ling Xi!

He hadn't seen her for over a year, but now, the longing in his heart was this strong!

"Big brother, Zhao Danchen is dead. Feng Xuan is dead as well. This matter with the Holy Martial Empire is over. If they found out about the good news, they would probably be so happy that they would jump up."

Long Chen nodded, and said: "At this point, they should have already occupied the Martial Imperial City, that old fellow Xiao Lin doesn't dare to resist."

"It's time to leave." Mo Xiaolang said.

"Yes, there is always a difference in a normal situation."

"What about you and me?" The wolf cub suddenly said.

Long Chen was startled for a moment, then said with a grin: "First, let me declare that I am not the slightest bit interested in men. Then, let me tell you, us brothers can also live together forever, and fight side by side as we do today! Let all our enemies die just like this old witch, haha! "

"I'm not interested in men either!" Mo Xiaolang smiled helplessly.

Long Chen had a kind of relaxed feeling.

Although the Archaic Graveyard was full of fortuitous encounters, there was still danger. The danger there was countless times greater than in the Holy Martial Empire, and not only were there demon beasts, there were also all kinds of natural disasters, and there were even countless attacks from opponents. What came next, was the even greater challenge!

"Hey, kid, there's something I need you to tell me." Just then, the little kitten from the Great Void Realm said.

"What?" Long Chen was startled.

"When that woman died, she seemed to transfer her own bloodline imprint onto your body. This kind of bloodline imprint belongs to the clan, and should be the wind race. I think in the future when her clansmen feel this imprint, they will know that you have killed their clansmen."

Long Chen was dumbstruck.

"Where is it? Can it be removed?" Long Chen frowned and said.

This was a troublesome matter, the wind race would definitely go there, Long Chen did not want to be killed instantly by the people from the wind race.

"I don't have much power right now, and I can't remove this brand. However, after forty-nine days, the brand will automatically disappear. It will depend on your luck." The kitten chuckled, as if the matter had nothing to do with it.

"Holy sh * t!" Long Chen burst out in vulgarities, completely speechless.

However, since it had already happened, there was no point in worrying about it. He had to think of a way to deal with the wind race people first, Long Chen believed that if they were prepared, it should be alright.

Following that, it was time to wait for the ancient tombstone token to be born.

After Feng Xuan's death, at Holy Martial Empire's place, no one could compete for the ancient tombstone token anymore. Long Chen had spent a year's time climbing from the bottom of Holy Martial Empire to the peak of Holy Martial Empire.

At the same time, the little wolf had also become a demon beast with king level four.

Of course, the reason the little wolf had such results was mostly because of Long Chen. If not for Long Chen, how would he have had so many good things to consume?

On the Sky Island, time slowly passed.

"It appeared!" While Long Chen was meditating, he suddenly stood up. After a day of recuperation, his body had already recovered to a perfect state!

BOOM!

It was at this moment that an explosive sound rang in the sky. The red fog sea was suddenly blown away, and Divine Sea of Immortality, who had always been covered by the white fog sea, became incomparably vast and open in this sky island. Long Chen raised his head, and could directly see the blue sky!

In the Divine Sea of Immortality, this was practically an impossible feat, but Long Chen saw it right now.

Other than the blue sky, Long Chen also saw a place that shocked him!

"Is this a mirage?" Long Chen stared blankly at a corner in the sky. In that corner, there was a blurry image and he could vaguely see countless tall and solemn tombs, all kinds of tombs lined up together. It was extremely shocking, and an ancient and magical aura leaked out from these tombs.

As soon as the tomb forest appeared, it was quickly engulfed by the gray fog. The entire place was instantly turned blank, but the ancient scene was deeply engraved in Long Chen's mind.

"Is that the so-called battlefield of the Middle Paleogene, the Archaic Graveyard?" Long Chen muttered to himself.

Right at this moment, a grey light suddenly flashed out of the place where the mirage had appeared, and a grey light quickly flew towards Long Chen. Long Chen's eyes lit up, and hurriedly flew towards the gray light!

The direction in which the gray light was moving was the Sky Island. In the air, Long Chen directly stopped the grey light. Holding it in his hand, he saw that it was a grey plate, about the size of a palm, with no discernible material. It looked somewhat like rotten wood, and was not eye-catching at all.

"This is the ancient tombstone token? Suspicion appeared in Long Chen's eyes.

There was no doubt that this was the ancient tombstone token.

"The more mystical the item, the more mysterious it is. But I have obtained the ancient tombstone token, how will I be able to enter the Archaic Graveyard?" This was the question that Long Chen was puzzled about.

He turned the ancient tombstone token up and down a few times. I don't see anything strange about it.

"Try to use your true essence to imbue it." Thinking about it, Long Chen immediately started it, and the dragon soul true essence gradually imbued itself into the ancient tombstone token. The ancient tombstone token actually started to emit a grey light at this time, firmly locking onto Long Chen's palm, at this time, a burst of information flowed into Long Chen's mind.

"Open the Archaic Graveyard one month later!"

Chapter 693 - Celebration

"On this day next month, that means there are still thirty days left." Long Chen heaved a sigh of relief.

In other words, he had the time to bid farewell to everyone and study the matter of the Five Emperor Prints.

Long Chen studied the ancient tombstone token for a while longer. After discovering that he could not find anything else, he placed it back into the Great Void Realm. However, in the process, Long Chen discovered that he was obstructing him.

"Cat, what's going on? Is this ancient tombstone token resisting me as I take it in?" Long Chen asked.

"En, this thing has been tampered with, it cannot be placed into the Qiankun bag. But for Great Void Realm, everything can fit inside, so this mere ancient tombstone token is naturally a small matter." The kitten lazily said.

"Been tampered with? "Who?" Long Chen was shocked.

The Archaic Graveyard required the key to enter order for the ancient tombstone token to enter, yet the ancient tombstone token came into Long Chen's hands in such an unbelievable manner. This seemed to be arranged beforehand, Long Chen subconsciously thought that this was something that would happen naturally, but Little Cat's guess was that it shouldn't be like this.

It must have been manipulated by someone to produce such a coincidental situation. Then who was the manipulator?

"How do I know the details? "You're about to enter the game, if I tell you the inside story of the game, it'll be boring to play." The kitten said.

Insider?

Long Chen was a little speechless, looking at the lazy attitude of the fat cat, it seemed like it did not want to clarify the matter, so he asked: "Why not say it?"

"Don't ask me. This time, I won't say anything." The kitten didn't seem to care at all.

Long Chen was too lazy to force it.

He knew that if there really was a danger, he would definitely remind them. After all, everyone was a grasshopper on the same rope.

"Even if I didn't say it, I would have guessed it. There must be a trick behind this Archaic Graveyard, but who could it be?" Long Chen couldn't figure it out for a while, so he didn't think about it.

Carrying the little wolf, Long Chen descended from the sky island and headed in the direction of the Martial Imperial City.

The entire world was quiet. Long Chen believed that under the rule of Long Yue and the others, the entire Holy Martial Empire would become better and better, and perhaps even regain its former glory.

After all, the former Holy Martial Empire was also one of them.

At this time, the people of the dragon race had already completely taken control of the Martial Imperial City. To the people of the Martial Alliance, they had to submit themselves and escape, but there were still people who did as they pleased, so it was difficult for the Martial Alliance's way of doing things to nurture loyal warriors. These warriors, seeing that the Martial Alliance's situation had gone, naturally chose to submit.

The power of the Scarlet Soul also controlled the entire Holy Martial Empire.

Under the dragon race's erosion, the entire Holy Martial Empire had fallen into their hands in just a few short days.

At this time, Long Yue and the others were in the great hall of the Martial Emperor Palace, discussing about the future of the Holy Martial Empire.

"Our plans are all built on the basis of Seventh Brother being able to kill Feng Xuan. If Feng Xuan was still here, and Seventh Brother was no longer here, she probably wouldn't let us stay in the Martial Imperial City. After all, there's still enmity between us and her." After he finished making all of her plans, Long Yue couldn't help but say something depressing.

"Big sister, will seventh brother win?" Lan Ling'er bit her lips and said worriedly.

Seeing that the atmosphere was a little serious, Long Yue chuckled and said: "Everyone, what's wrong, don't you have confidence in Seventh Brother? Even Zhao Danchen died in his hands, Feng Xuan is at most not that much stronger than Zhao Danchen, I believe Seventh Brother will succeed! "

"Don't worry everyone, they have all gone to the Divine Sea of Immortality, and the news will be out very soon. We'll just watch who will be the final victor." Long Shan was an elder, so everyone naturally believed what he said.

"Also, Long Chen still has his demon wolves. That demon wolf should have already reached the king level four level, at the Divine Phoenix Bird level. With the combination of the two, I believe it can defeat Feng Xuan," Lan Ling'er said as he looked around.

Actually, she didn't have much confidence. Her own heart felt a little hopeful when she said those words, which made her feel better.

Could this seventh brother, who often showed miracles, hold on to his miracles until the very last moment?

Everyone ignored the affairs of the Holy Martial Empire and directly went to the walls of the Martial Imperial City, waiting anxiously. Judging by the time, it was about time for the news.

Everyone's heart was like fifteen buckets filled with water — it went up and down.

After half a day had passed, just as everyone was about to lose their patience, two figures suddenly appeared in the distant horizon. They were clearly a man and a wolf, and when they approached the Martial Imperial City, the Sun Devouring Demonic Wolf took on the shape of a human. Two handsome youths, one cold and the other pure, were walking towards the Martial Imperial City.

Seeing these two figures, everyone's heart finally dropped. Did this mean that Long Chen had already defeated Feng Xuan and successfully obtained the ancient tombstone token? One had to know that the signs of the ancient tombstone token's birth were already gone.

Seeing that Long Chen was completely unharmed, all of their faces revealed entangled smiles, especially the few brothers of the Dragon Clan like Long Chen.

In the blink of an eye, more than half a year had passed and their relationship had already deepened to an unparalleled depth. In Long Chen's place, other than Little Wolf, this life and death brother, they were the closest people to him.

"Seventh Brother!" Everyone shouted for Long Chen.

Long Chen had long since noticed that they were on the city wall to welcome him. He also revealed a smile on his face, and with a flash of his body, he rushed towards the walls of Martial Imperial City. After a few breaths of time, Long Chen and Mo Xiaolang who were completely unharmed stood in front of them.

Everyone carefully sized up the two youths, their eyes filled with praise. A few of them anxiously asked: "Seventh Brother, what about that Feng Xuan, did you kill her? Did you get the ancient tombstone token? "

They all roughly knew how important the ancient tombstone token was to Long Chen.

Under everyone's anticipating gazes, Long Chen smiled and nodded, saying, "Everyone, don't worry, from today onwards, no one in the Holy Martial Empire will be our match, and I have obtained that ancient tombstone token!"

Hearing Long Chen's words, everyone let out a burst of surprised cheers, regardless of old or young, their faces were filled with a satisfied and grateful smile.

They looked at the young man in front of them with reverence, because they knew that if not for Long Chen, they would not have been able to achieve such a perfect outcome today.

Under such a harsh situation, if Long Chen had not turned the tide, who could have survived?

Zhao Danchen and Feng Xuan, these two enemies that were basically impossible to defeat, had both died in Long Chen's hands!

Furthermore, Long Chen had also obtained an ancient tombstone token, which made everyone happy for him. The only one whose smile was a little stiff, was at the corner, Liu Yiyi, whose smile and tears were both there.

"Yi Yi, he obtained the ancient tombstone token and is about to leave, are you unhappy?" The Duke of Qing Li lightly touched his daughter.

Liu Yiyi faked a smile and said: "Who said that? He is able to accomplish his dream and this is a very happy thing. He won't be staying here anyways.

"It's good that you can think it through." The Duke of Qing Li looked at his daughter with a pained expression.

She was an experienced person and knew that it was impossible for a young person like Long Chen to stop for a scenery along the way. The thing he wanted to chase was really too high and too far.

While they were speaking, everyone had already started to ask Long Chen when he was going to the Archaic Graveyard.

Long Chen then told them that he still had a month's time.

"A month, just nice, at that time Holy Martial Empire should also be stable, and a month's time, should be enough for Seventh Brother to make his preparations. Archaic Graveyard isn't like us, Holy Martial

Empire, where dangers and opportunities coexist, there are a lot of things Seventh Brother should be prepared for!"

"Of course, but today is a day that all of us should celebrate. Let's go back and prepare a feast so we can have a drink?" Beside Long Yue, his brother said.

The siblings were at the third stage of the Earth Martial Stage. After Long Chen left, other than the two of them being the strongest, there were still a lot of things that had to be done by the two of them in Holy Martial Empire.

Under his suggestion, everyone returned to the great Martial Emperor Palace, and the news of Long Chen killing Feng Xuan spread throughout the entire Holy Martial Empire like a tornado. The powers that were dissatisfied with the dragon race previously, were completely convinced after hearing this news.

This grand feast should be considered a celebration. Without the pressure from the enemies, everyone had a good time tonight. There were even bad programs to watch. Long Chen was also overjoyed. After playing for several hours, when everyone was a little tired, he finally dispersed and Long Chen returned to the residence Long Yue had prepared for him.

In the remaining time, Long Chen prepared his own matters, while the others worked together to plan how to manage the Holy Martial Empire. Although Long Yue was a woman, he had an outstanding talent in decision-making. In fact, his heart was kind, and even amongst the Dragon Clan, every one of them had a kind heart, so Long Chen could be at ease if he handed over Holy Martial Empire to them.

Long Chen knew that with their personality that liked to be free, they may not necessarily like to rule the Holy Martial Empire, but since they had killed the Martial Emperor and overthrown the original ruler, if they did not use a ruthless method to control the Holy Martial Empire, the ultimate victims would only be the billions of people here!

So they stepped forward.

The old man, Long Shan, saw Long Chen again and told him everything that he knew about the Archaic Graveyard. Only then did Long Chen understand that in a month's time, this ancient tombstone token would bring him directly into the Archaic Graveyard, and when that time came, he would meet with countless of strong warriors from small nations in the The Nine Hallows. These strong warriors numbered at least in the tens of thousands, and their strength were all at least at the fourth stage of the Earth Martial Stage or above.

Moreover, there were many hidden talents among the great Holy Dynasties, and there were probably quite a few who had methods that surpassed Long Chen's.

"It seems that for hundreds of years, no one in the Holy Martial Empire who has been there have ever returned, so I am not aware of the other situations, but I have to remind you of one thing, after entering the Holy Martial Empire, killing is unavoidable, because I heard that only by killing a certain number of opponents and fusing with their ancient tombstone token, can you gain the qualifications to finally obtain it, otherwise, you would die in the Archaic Graveyard."

"What?" Long Chen was shocked. If this was the case, then the slaughter within the Archaic Graveyard would definitely be extremely intense. Not only that, it wouldn't kill an opponent, but a certain number of opponents.

"This is a certain amount. How much is it?" Long Chen frowned and asked.

"I'm not sure either, but I heard that it's very difficult and very scary. As long as one enters the Archaic Graveyard, usually, they would be in close combat, with less than 1000 people entering every time, but only hundreds of people would be able to return at the most terrifying times," Long Shan paused for a moment, before consoling: "Every person who can leave the Archaic Graveyard, their strength and background have increased by a lot. The Archaic Graveyard has countless of heritages left behind by powerful experts, and many of them can inherit a Heaven realm expert, so when they return to the Realm of Myriad Kingdoms, they will be able to do as they please!"

It was only then that Long Chen remembered why the ancient tombstone token could not be put into the Heaven and Earth Pouch. It seemed like it was convenient for others to fight and fuse with. However, this seemed to indicate that someone was controlling everything. Who was controlling everything?

If he wanted to make a breakthrough, Long Chen would have to enter the Archaic Graveyard to understand everything.

Previously, I wanted to go to the Archaic Graveyard to witness this legendary place before I died, but you are different. You have a natural ability to fight, so you have to be extremely careful, and must not offend any major figures of the nine great clans. Only by doing this will you be able to endure past the initial period of time, and once you have endured this, you can walk without a care. Long Shan warned Long Chen because he knew he had great potential.

"Many thanks, Senior Long. I will definitely protect my life." Long Chen said gratefully. He suddenly thought of something else and asked: "I heard that there is a path to Three Great Imperial Domains within the Archaic Graveyard. I wonder if Senior is aware of this?"

"Three Great Imperial Domains?" Long Shan looked at Long Chen in shock and said: "Someone did indeed say that, but up until now, no one has been able to verify this legend, so I'm not too sure either, do you want to go to Imperial Domain?"

Long Chen nodded.

It's a good thing that young people have such yearning. That Three Great Imperial Domains, every single one of them are legends, and that is the core of the Dragon Sacrifice Continent, the true stage of the Dragon Sacrifice Continent. Our Realm of Myriad Kingdoms might seem big, but in reality, it's just a small corner. " Long Shan lamented.

"Is the Three Great Imperial Domains really so terrifying?" Long Chen bit his lips and said.

Although I have never seen it before, it is recorded from various documents that there are strong individuals there, and their levels far surpass that of the Realm of Myriad Kingdoms. There are many ancient races there, and legends say that when children of many races were born, they would be able to skip the practice of the Four Great Foundation Realms.

Long Chen was stunned.

A newborn child would soon be able to skip the training of the four foundational realms. When he reached the age of five or six, he would start comprehending the three Martial Realms. What kind of concept was this?

If they were twenty years old, how strong would the people there be?

Of course, what Long Shan was talking about were just some of the legendary ancient clans. If the overall level was like this, then Three Great Imperial Domains Long Chen wouldn't even need to go.

Of course, Long Chen was a strange character, the greater the pressure, the more fighting spirit he had, and as long as he was not completely dead, he would never stop moving, how many people could he find in this Realm of Myriad Kingdoms who had the courage to go forward?

"Imperial Domain, I, Long Chen, will one day step into that place!" Long Chen clenched his fists, his eyes shining brightly.

"I can see that you have a strong obsession in your heart. Young man, work hard!" Long Shan patted his shoulder, and said smilingly.

Long Chen was the most heaven-defying junior he had ever seen in his entire life. Not only was he heaven defying, he was also a demon wolf that was equally heaven defying. At this moment, Mo Xiaolang was sitting next to Long Chen, but when Long Chen was speaking, he did not say a single word.

When Long Chen asked about the matters of the Imperial Domain, his eyes also flickered with a blazing light.

"Many thanks, Senior Long." Long Chen said.

"Why are you thanking me? Hehe, by the way, Long Chen, have you gathered all the Five Emperor Prints?" Long Shan asked.

Long Chen said: "I have already gathered all of them, and was just about to check them out, but I do not understand anything about them, so why don't we look at them together? After all, these Five Emperor Prints were not all things that I had obtained.

"Forget it." Long Shan immediately waved his hand and smiled: "I'm already at this age, why would I still need to learn this? Furthermore, I can't really see this Emperor Level battle skill clearly for now, for the rest of us to learn our own battle skills, it's more or less enough." After he finished speaking, he did not linger, and directly bade farewell to Long Chen, and left.

Long Chen could only ponder over the Five Emperor Prints. Of course, with how troublesome it was even the Desolate Divine Seal, Long Chen had a premonition that the training of the Five Emperor Prints would be even more difficult.

After Long Shan left, Long Chen turned to look at the Little Wolf.

"Big brother." Mo Xiaolang stood up and walked in front of Long Chen.

"Why?" Long Chen asked.

But what I want to say is, no matter what, I, Mo Xiaolang, will always stand by your side. I know that Sister Ling Xi is very important to you, and we are brothers, so the achievements that I have achieved today is all because of you. In the future, I will follow you and fight with you until you do not need me! Mo Xiaolang looked at Long Chen firmly, and said word by word.

Long Chen was startled for a moment, but then he immediately laughed out loud. He then patted the Little Wolf's shoulder and said: "Why are you trying to incite my feelings for no reason? What should I do now, I'm going to start thinking about the Five Emperor Prints!"

Mo Xiaolang rubbed his nose, and laughed helplessly.

This was how Long Chen was. When they were talking serious matters together, he actually acted like he didn't care at all.

"I'm going out for a breeze." Mo Xiaolang did not want to disturb him, so he headed outside.

"Wait." Just as he reached the door, Long Chen suddenly turned around.

"What's wrong?" Mo Xiaolang looked at Long Chen strangely.

"What did you just say?" I don't need you until then? " Long Chen repeated himself.

"Yes."

Looking at this youth with clear eyes, Long Chen was silent for a moment, then said: "First, emphasize that I am not interested in men, and then, in my heart, you and Xiao Xi are both my most important

people. I can risk my life and walk this desperate path for her, but for you, Mo Xiaolang, I will do the same!"

"Why?" Mo Xiaolang was a little stunned. He had actually always understood in his heart that the person Long Chen cared the most about was Ling Xi, yet this brother of his was often ignored by Long Chen.

"Because we're brothers, get lost!" Long Chen said with a smile.

"Alright!" Mo Xiaolang revealed a smile on his face. Needless to say too much, he already understood in his heart.

After Mo Xiaolang left, Long Chen laughed helplessly, and said: "This brat, normally, I ignore his feelings. Sigh, I wonder which day, will he truly transform back into a human, and not into a demonic beast!"

Long Chen had actually always kept this matter in mind.

After that, Long Chen took out the Five Emperor Prints one by one and placed them on the sandalwood round table. The Five Great Emperors Seal s were gold, green, black, red and yellow respectively.

Long Chen then arranged the Five Great Emperors Seal into five corners according to the five elements, and started to think about the rules of the Five Emperor Prints. Initially, he had thought that with the Five Emperor Prints gathered together, the so called Five Emperor Prints of the Royal Tier Battle Skills would appear. He must have needed some sort of special method to be able to trigger the activation of the Five Emperor Prints.

On the road of cultivation, Long Chen was like a blind man crossing a river, touching a rock. There were many things that he did not understand. After all, he was born in a small place like White Yang Town, and was unable to compare to the genuine proud son of heaven like Ling Xi. However, Long Chen's luck was also very good, when he first came into contact with cultivation, he had always been guided by Ling Xi.

If he did not understand that asking Cat was the most appropriate thing to do, Long Chen could not be bothered to continue pondering and directly asked: "fat cat, what should I do?"

Just as she said that, Cat's body came out from the Great Void Realm. Its body was extremely illusory, much more so than Ling Xi's body back then.

Chapter 695 - Dragon Emperor Long Chen

Without saying anything, Cat floated above the Five Emperor Prints. After pondering for a while, she said, "These Five Emperor Prints should be considered to be magic treasures. If you want to control them, it should be possible for you to bind them with blood."

"Magic treasure? What is that?" Long Chen asked.

The kitten looked at Long Chen with disdain, and snappily said: "In the Dragon Sacrifice Continent, the so-called weapons are separated into two types, one is the weapon, and the other is the magical equipment. As you can see, those high quality divine weapons can allow warriors to display a greater fighting strength, and the Soldier born from the weapons are few in number, but in the Imperial Domain, there is a large area, and it is the world of the Soldier, and the Soldier there, is the true Soldier. As for what exactly the strength of the Soldier there is, it'll be known once you're truly knowledgeable. "

"Then is the Sword Soul Imperial Palace related to the Soldier?" guessed from Little Cat's words.

"Not bad, you're smart, the Imperial Domain of Sword Soul is the domain of the Soldier, and the Sword Soul Imperial Palace is where the strongest practitioners gather. The Soldier there is countless times stronger than the ones here in the Realm of Myriad Kingdoms, and they rely on weapons to unleash all kinds of abilities and techniques. I can't explain it, but you'll understand it when you see it for yourself. "

In other words, where were the Soldier different from here?

This was something that he needed to understand later on. Although it had something to do with Ling Xi, she was not in a rush, so Long Chen changed the topic and asked: "That treasure, what is that thing?"

Other than weapons like spears, swords, halberds and so on, many weapons that do not have the shape of traditional weapons but possess powerful fighting strength are called Dharma treasures. Dharma treasures have all kinds of functions, can attack, defend, can even cure etc, the Eternal Demon Flag that can control Ancient Devil's Corpse is actually also considered a type of Dharma treasure, and the five seals you obtained are also considered the Dharma treasures. Of course, these are only the lowest level Dharma treasures, they are just some amazing names.

After Cat's brief introduction, Long Chen had a basic understanding of the concepts of weapons and treasures. He discovered that he was now like a newbie that had just embarked on the path of cultivation. He had only just come into contact with a lot of things. On the Realm of Myriad Kingdoms's side, he was quite knowledgeable, but compared to the real stage in Three Great Imperial Domains, he knew way too little.

That place was a place where only the truly strong could stay. Long Chen became even more immersed in his path of cultivation, his desire to fight and challenge, his extreme desire. The stronger the opponent, the more his blood boiled. He thought that it was his own nature that had changed, but the thing that had affected him the most was the Primordial Blood Spirit Beast in his bloodline. The Primordial Blood Spirit Dragon was the legendary Ancestral Dragon that ruled over blood and slaughter, and was specially born for slaughter. In the Primordial Blood Spirit Dragon's world, the only word that could be used to describe it was "kill".

Otherwise, he would have long since become a crazed killing demon!

Putting all these thoughts aside, Long Chen looked at the Five Great Emperors Seal and asked: "In other words, I need to drip my blood on these five seals?"

With a brand that belongs solely to you in your blood, no one in the entire Realm of Myriad Kingdoms can compare to you in terms of bloodline. The kitten lazily said.

Long Chen nodded, he had some extraordinary control over his own blood. At this moment, he directly forced the blood droplets out of his fingers, and carefully dripped them on the five seals one by one. The first few drops of blood flowed down the seals, but there was nothing wrong with it.

Almost at the same time, the blood on the surface of the Five Emperor Prints was simultaneously absorbed. Then, that originally ordinary old Five Great Emperors Seal started to emit a misty glow.

Gold, green, black, red, and yellow. Initially, these five colors were shining in front of Long Chen. But after a while, these rays of light gradually became brighter and brighter!

"It's starting!" As the kitten spoke, it returned to the Great Void Realm.

This meant that the method of binding the master with blood was correct.

The moment Cat entered the Great Void Realm, Long Chen felt a strong and imposing power coming from the Five Great Emperors Seal, which directly caused the whole series of houses to collapse. All of the walls in Long Chen's surroundings were shattered, and the tables under the Five Great Emperors Seal immediately shattered into pieces!

Long Chen's residence was relatively peaceful, so there were no people living in the surrounding, so even if the house collapsed, it would not be able to hold down much. However, this huge commotion caused everyone in Martial Imperial City to be alarmed.

In the blink of an eye, it had already reached the top of Long Chen's head, and also to the top of the Five Emperor Prints which was not far away from the Martial Emperor Palace. At this time, the Five Emperor Prints had already erupted with strong rays of light, and five rays of light — gold, green, black, red and yellow — enveloped the entire Martial Imperial City in a colourful world.

This intense light caused everyone who had been in the room to come out. They could not see the Five Emperor Prints, but it was possible that they could see five different colored suns in the sky!

"Wow, what exactly is this thing?"

"How amazing, how could it be like this? Could it be that a god had appeared? Is there really a god in this world? "

Martial Imperial City had a population of hundreds of thousands or even millions, but at this moment, they were all in shock as they looked at this abnormal scene, and were discussing amongst themselves.

At this time, Long Chen had already followed the Five Great Emperors Seal and flew down to the bottom of the Five Great Emperors Seal. He temporarily did not go up, and wanted to see what kind of movements the Five Great Emperors Seal could make.

How could Long Yue and the others not have noticed this large commotion? Mo Xiaolang and the others who were nearby quickly arrived beside Long Chen. As long as they were from the Earth Martial Stage, they too, arrived at her side.

Long Chen nodded, "Yes!"

"This is a great opportunity, you have to grasp it well. Grasping this Seal is the biggest thing you can rely on when you go to the Archaic Graveyard." Long Shan said meaningfully.

"That's right, with these Five Emperor Prints, I am much more at ease. However, Seventh Brother, you must know the principle of not revealing your wealth, but you must not let others know that you possess an Emperor level battle skill. In the Realm of Myriad Kingdoms, there are not many people who possess a Royal Tier Battle Skills." Long Yue urged.

"I know." Regarding their concerns, Long Chen accepted them all.

"That's good, that's good. Let's not disturb Seventh Brother and let him focus on comprehending the Five Emperor Prints. Tonight, let's work a bit more and not let Seventh Brother be disturbed." Long Yue smiled faintly before instructing everyone. Under her arrangement, everyone started to gather at all sides of the Martial Imperial City to observe the movements in the surroundings and even suppress the chaos in the Martial Imperial City.

Beneath the Five Great Emperors Seal, only Long Chen was still in midair. His figure was especially dazzling, and everyone quickly recognized him.

The news of Long Chen killing Zhao Danchen and Feng Xuan had already spread throughout the entire Holy Martial Empire. Everyone now knew that this Long Chen was the most terrifying person in the entire Holy Martial Empire.

In the Holy Martial Empire, an existence like Long Chen was directly recorded in the history books.

He was already the most dazzling person in the Holy Martial Empire before even reaching twenty years of age.

Below, everyone was discussing Long Chen, their eyes filled with admiration. Long Chen was a young genius, but in terms of character, he was far superior to Zhao Danchen. In reality, many people did not know that Long Chen was about to leave, and thought that Long Chen would be the next ruler of the Holy Martial Empire.

There were already many people who gave Long Chen a title — — Dragon Emperor!

The Martial Emperor bloodline was completely extinct, and Long Chen was the strongest among the Dragon race. It was normal for him to represent the Dragon race in power, but the Holy Martial Empire had changed masters.

Of course, this was only the views of the people. Long Chen did not want to cower in a place like Holy Martial Empire, to become a Dragon Emperor.

Even though this name was quite impressive.

In a certain corner of Martial Imperial City, a beautiful woman and two children looked up at the shining figure in the sky.

"Mother, is this brother Dragon Emperor?"

"This brother is so powerful, at such a young age, he became a Dragon Emperor!" The two children surrounded the woman's knees, yammering.

"Hmm, he's very powerful. When you grow up, you must be as powerful as him!" The woman gently caressed the two children's heads and gently said.

"Of course!" The two children fought to be the first to speak.

The woman nodded in satisfaction. She raised her head and looked at the youth in the sky, she knew who he was, it was him back then, and he had disguised himself as her husband and laid on her bed. At that time, she had thought that Long Chen was Hundred Warring Martial Kings. The two of them had come into contact before, so it was rather unnatural for moxa to think of it now.

However, to be able to interact with such a dazzling character of her generation for even a little bit was a wonderful thing for her.

Looking at the high-spirited teenager in the sky, the corner of moxa's mouth twitched.

She knew there were a million pairs of eyes down there, and he wouldn't have noticed her, but that would have been enough.

And at this time, the Five Emperor Prints had started to change from being a new topic of discussion.

He still did not know that he already had the name Dragon Emperor.

Chapter 696 - Five Great Emperors Seal

The Five Emperor Prints in the sky still retained their original form, the movements coming from other places. Just at this moment, everyone felt the ground slightly trembling, but in reality, this trembling was nothing. Back when Long Chen and Zhao Danchen were fighting, the trembling of the Martial Imperial City was even more intense.

But what the crowd didn't know was that this kind of trembling was only limited to a small area like the Martial Imperial City, as long as it was within a 100 mile radius.

Long Chen was also observing this tiny vibration. He could vaguely sense that the Five Great Emperors Seal seemed to be releasing some kind of power, and this power was like countless tentacles controlling the entire world around them.

It seemed to be five forces of attraction, coming out from the Five Great Emperors Seal. The theory was similar to Long Chen's Devouring Blood Realm, but it was not necessarily true. Because the suction was unrelated to humans, Long Chen was not affected in the slightest when he stood there.

Very quickly, he understood what the Five Great Emperors Seal was swallowing.

Long Chen raised his head and looked over. Unexpectedly, there were five different colored airflows, gold, green, black, red and yellow, that rose from the ground, from the rivers, and even from the endless forest of trees. They surged towards the direction of the Five Great Emperors Seal.

Within a circumference of a hundred kilometers, there were these streams of air currents that rose into the air and converged towards the direction of the Martial Imperial City. As they neared the direction of the Martial Imperial City, all of the air currents gradually converged into five different strands of air currents, each of which were of five different colors, converging towards the direction of the Five Great Emperors Seal from five different directions!

The people below all cried out in alarm.

This was because they saw five streams of golden, green, black, red and yellow air currents appear in the sky. Each stream of air was incomparably wide and turbulent, like a torrential river that stretched across the sky, almost completely blocking out the stars in the sky.

Long Chen could feel that these five colored streams of air, should have been condensed from the countless metal veins, trees, rivers, flames and earth. They were the essence within them, and all of these essences were gathered here by the Five Great Emperors Seal, or should be said to have been devoured.

The five colors of the river and the five colors of the emperor's seal were completely fused!

Under the absorption from the Five Great Emperors Seal, more and more streams of energy gushed out from the river and converged onto the Martial Imperial City, which was then swallowed up by the Five Great Emperors Seal. The Five Great Emperors Seal was like a bottomless pit, everyone raised their heads, staring at this scene in a daze, until everyone felt pain in their necks, only then did the five colors of energy completely disappear, fusing into the Five Emperor Prints!

Everyone knew that the final moment was about to arrive.

What strange things could happen to these five colors at this point in time?

This matter could very well be related to Long Chen!

Everyone was looking forward to what was going to happen.

They realized, that after this incident, Long Chen would probably get a lot of benefits. Some of the people with higher status and strength had already guessed what was in the sky.

"I never thought that all the Five Great Emperors Seal are in Long Chen's hands!" In a dark corner of the Martial Imperial City, Xiao Lin stared blankly at the Five Great Emperors Seal in the sky, his face full of helplessness.

"No wonder, so it turns out that this kid is the real terrifying person. Silent, he actually gathered all of the Five Great Emperors Seal for him. It seems like him winning in the end, monopolizing Holy Martial Empire is not something that doesn't make sense!" Xiao Lin looked at the youth in the sky with a face full of reverence.

In the Martial Imperial City, many people had the same thoughts as Xiao Lin.

The current Long Chen had the strength to cause them to respect and submit. It was a pity that Xiao Lin was already old and no longer had any intention to fight. What he wanted to do the most was to live his life peacefully in his late years, so he could decide who was the Martial Emperor and who was the Dragon Emperor. In fact, it had nothing to do with him.

When the airflow in the sky disappeared, the Five Great Emperors Seal's color started to darken, and it no longer shone as brightly as it did at the beginning. When all of the Five Great Emperors Seal's brilliance disappeared, Long Chen realized that the Five Emperor Prints in the sky had already formed into a circle the size of a palm, surrounding together. Each of the Emperor Prints had become the size of a thumb, but they had become crystal clear, like the most beautiful jade stone in the world, sparkling and translucent.

Long Chen knew that the time had come, and he could faintly feel that the current Five Great Emperors Seal had already formed an indescribable connection with his bloodline. He began to head in the direction of the Five Great Emperors Seal, and at this time, the Five Great Emperors Seal were also in a profound illusion as they headed in Long Chen's direction.

Long Chen stopped in his tracks, subconsciously raised his right arm, opened up his fingers, and faced his palm with the Five Great Emperors Seal s. This was his subconscious action, but he knew that doing so was right.

As expected, the Five Great Emperors Seal quickly arrived in front of him. The five crystal clear and beautiful jade directly flashed with a faint fluorescent light and fused into his palm. Long Chen felt a cool feeling on his palm, and it was extremely comfortable.

Long Chen looked at his own palm and saw that the Five Great Emperors Seal had disappeared, transforming into a kind of tattoo that appeared on his palm. Each of the Emperor Prints had their own color, and they looked as clear as crystal, extremely lifelike.

This meant that the Five Great Emperors Seal had been successfully integrated.

Long Chen took a deep breath, and attempted to use his own consciousness to touch the Five Great Emperors Seal on the palm of his hand. As expected, it was as if this place was a part of his body.

As expected, this was the cultivation method of the Five Great Emperors Seal.

The cultivation method of this Five Great Emperors Seal had at least ten thousand words, which was at least twenty times more than the cultivation method of the Desolate Divine Seal. From this, one could see how awesome the Five Emperor Prints were as combat skills.

These obscure words, for the first time, gave Long Chen a feeling that it was difficult for him to cultivate in them. Even the Desolate Divine Seal did not have such a feeling.

Long Chen looked at it for a while, until his head started to feel tired. He realized that after studying these words a lot, he actually felt a sense of exhaustion. It seemed that it wouldn't be easy for him to cultivate these Five Emperor Prints. Indeed, it was worthy of being called an Emperor level combat skill.

However, the more challenging something was, the more interested Long Chen was!

Only this way would he be able to arouse the spirit of challenge in his heart!

From the Superclass of the Five Emperor Prints, Long Chen learned this information.

"The Five Emperor Prints are separated into five moves. They are the Golden Emperor Heaven Shrouding Seal, the Emperor Qing Qing Tian Ji, the Profound Emperor's Seal of Shrouding the Heavens, the Scarlet Emperor Burning Heaven Seal and the Yellow Emperor Sky Movement Seal! Different from other battle skills, within these five moves, there is actually no difference in strength between the two, only in terms of attributes. Using an Emperor Seal with different attributes to attack different types of enemies, the effects are different, but this Five Great Emperors Seal actually has a superimposed effect!"

If both Five Great Emperors Seal were powerful, then wouldn't just cultivating one would be enough?

For example, if Long Chen had cultivated the Golden Emperor Heaven Shrouding Seal and the Emperor Qing Qing Tian Ji, when he used these two moves alone, the attack power would be about the same. But when he used the two Emperor Prints at the same time, the effect would be completely superimposed and the attacks created when the two different attributes were combined at the same time would definitely not be as simple as one plus one equals two!

If he were to use two Emperor Seals at the same time, then the power he would create would be four or five times greater than before!

Long Chen had a total of Five Great Emperors Seal techniques!

In other words, even if he didn't successfully cultivate an Emperor Seal, his combat strength would directly soar by several times! If he was able to master all the Five Great Emperors Seal and then superimpose the effects, at the same time, the attack power that the Five Great Emperors Seal would create would probably be a hundred times stronger than an Emperor Seal!

"These Five Emperor Prints are actually this terrifying. It seems that I've really picked up a treasure this time ..." An excited expression appeared in Long Chen's eyes.

He is even stronger than my current Desolate Divine Seal. By the time I have mastered three seals, the effect of the seals added together would probably reach the middle level of the Emperor Level. In other words, the Five Emperor Prints are definitely not just some low-level Royal Level battle skills!

Thinking about it, Long Chen was filled with confidence about his trip to Archaic Graveyard.

Even in the entire Realm of Myriad Kingdoms, these Five Emperor Prints were considered great treasures. In the Holy Martial Empire, who could use a battle skill more terrifying than the Five Emperor Prints?

When Five Great Emperors Seal s unleashed their powers at the same time, under the impact of five different attributes, the explosive fighting strength they produced was absolutely unimaginable!

However, Long Chen immediately understood that the cultivation of the Five Emperor Prints was extremely difficult.

"In order to cultivate any kind of Emperor Seal, one must find a treasure of that attribute. If I want to cultivate Scarlet Emperor Burning Heaven Seal's fire, I must find a type of strange fire, the Grand Sun Primordial Flame that the little wolf once swallowed, and the's animal fire, can all be considered as

useless. The Blue Magic Flame that I obtained in the Martial Imperial City has already lost its effect on the little wolf, I don't know if this will work."

The cultivation of each seal needed a medium to guide it.

The only thing Long Chen wanted to try was the Scarlet Emperor Burning Heaven Seal. As for the other items, he would probably need to spend a lot of time to find metal, wood, and other treasures of these attributes.

Chapter 697 - Scarlet Emperor Burning Heaven Seal

Cultivating an Emperor Seal should not be difficult for Long Chen. After cultivating it successfully, the Scarlet Emperor Seal in Long Chen's palm would be broken through, and a dense fire type energy would condense in Long Chen's palm, turning his entire palm into a sea of fire!

What Long Chen needed to do was to gather two completely different types of energy into the tiny space in the palm of his right hand. There, he would have a martial arts aperture and a martial arts aperture, and how to store two different types of energy, which would probably cost Long Chen a lot of effort in the future.

As for the future third and fourth seal, there was no need to even mention them.

After knowing this much, Long Chen was both happy and worried. He was happy that the Five Emperor Prints were actually so powerful, and worried that the Five Emperor Prints were actually so difficult to cultivate.

"Forget about him. When the boat arrives at the bridge, it will naturally straighten out." Long Chen thought in his heart.

The abnormal sign today had already completely passed, leaving Long Chen in a daze. After he had digested the shock brought about by the Five Emperor Prints, Long Yue and the others came to his side.

"Everyone, stop watching the show." There were still tens of thousands of people watching below, so Long Yue let them return first. In the Martial Imperial City, Long Yue held a lot of power. Everyone saw that the matter was over and left with reverence.

The news of the Five Emperor Prints spread throughout the entire Martial Imperial City from some people who knew about it. Now, everyone knew that Long Chen, who was originally strong enough, had actually obtained such a powerful treasure.

Strengthening himself, and most importantly, he was still young.

People naturally looked up to such a person.

Seeing everyone's concerned gaze, Long Chen told them about the Five Emperor Prints' news. Logically speaking, the Five Emperor Prints should belong to everyone, so it was a little awkward for Long Chen to take them all for himself. But he knew that his brothers and sisters did not care.

"Look, I've already said that only a pervert like Seventh Brother can cultivate in this Five Emperor Seal. Ordinary people like us will know once we understand it, haha," Jiang Wuya took the lead and laughed first.

Everyone quickly laughed.

They were very happy that Long Chen had such a fortuitous encounter, but they were definitely not jealous!

Young man, struggle hard. I look forward to hearing the news of you showing off your prowess in the Archaic Graveyard. These few days, it was probably the happiest days for Long Shan after he left the nine nether regions. In the days that followed, he was even more able to enjoy the bliss of the heavens.

After they talked for a while, Long Yue finally said: "Alright, let's not disturb this little genius anymore, he will be going to the Archaic Graveyard soon, he should hurry up and figure out the Five Emperor Prints, we should not disturb him anymore." Then, she looked at Long Chen and encouraged him, "Do your best!"

"Right, good luck brother!" Jian Chen, Lei Zhen and the others all laughed.

Lei Zhen and the Warring Clan still had to take care of him, so he would be leaving in a few days. Under Long Chen's arrangements, Jian Chen would go over to help, while the others stayed in the Martial Imperial City.

Although Huangfu Fengchen no longer had any strength left, he was the Patriarch, so no one had any objections. After all, the strongest person in the Holy Martial Empire was Long Chen, and as for the

relationship between Long Chen and him, everyone knew that even his elder brother Huangfu Fengyun had no choice but to bow to him.

And Huangfu Qi, with the help of everyone, began to move towards the Earth Martial Stage.

Everything was progressing perfectly in Long Chen's imagination.

Long Chen was extremely satisfied.

He was also very happy to see the happiness of the people around him.

This way, he would be able to fight for his future in peace.

Sometimes, Long Chen would ask himself, was it worth it to give up so much for a woman?

Later on, he felt that he was very funny. Love grew in the heart, there was no value in it. Only whether or not he wanted it, everything was up to him.

And in Long Chen's heart, from the moment he made the oath in White Yang Town, he was destined to walk this path. Back then, he was confused, confused to the point of tears, but today, he truly had his own means. would let all those people who had looked down on him before, understand how laughable their initial contempt was!

"My life is not up to the heavens. One day, I will make all of you crawl under my feet while trembling!"

After finding a new place, Long Chen started to study the Five Emperor Prints.

This would be the most important thing he would rely on after entering the Archaic Graveyard!

He would have to spend the rest of the month in the Five Emperors Seal.

When it was deep into the night, Long Chen was sitting alone in the middle of the room. Xiao Lang had already gone out to walk around, while Long Chen was wholeheartedly studying the Five Emperor Prints.

He spent a few days, and first read the outline of the Five Emperor Prints several times, and then understood it once more. Looking at it repeatedly like this, the effect was much better than the rough reading he did previously.

Of course, after understanding the Superclass, he did not think that Long Chen could cultivate it quickly enough. The Five Emperor Prints were a huge project, without studying day and night, it was impossible to succeed.

Long Chen planned to start from the Scarlet Emperor Burning Heaven Seal, so he would casually glance at the other four seals and roughly understand them.

"This Scarlet Emperor Burning Heaven Seal, is an attack of the fire attribute. Within my true essence, there are fire of Golden Crow s, especially in the acupoints on my right palm, there is a portion of the Golden Crow's soul within the pill. In this situation, if I were to cultivate the Scarlet Emperor Burning Heaven Seal, it should be much easier, so let's start from here!"

The Scarlet Emperor Burning Heaven Seal was a fire type seal technique. Long Chen had trained in a technique called the Burning Heaven Devil Yang Fist, and the two battle skills were different and similar, but the difference in power was like the difference between the two.

The moment the Five Emperor Seal was released, the earth trembled and the mountains shook. How could such a small combat skill compare to it!

The more he cultivated, the more Long Chen felt that the Five Emperor Prints were extremely difficult and scary, but he was not discouraged.

"I wonder if the Blue Magic Flame can become a primer for cultivating the Scarlet Emperor Burning Heaven Seal?" Long Chen pondered.

The most important thing he needed to rely on was the fire of Golden Crow. These two kinds of flames should be able to help him with the Scarlet Emperor Burning Heaven Seal, but of course, it would be much more difficult for him to cultivate other types of hand seals in the future.

had studied the Scarlet Emperor Burning Heaven Seal's cultivation method for a full five to six days to prepare for her true cultivation of the Scarlet Emperor Burning Heaven Seal. He did not cultivate inside the Martial Imperial City, but found a desolate mountain around the Martial Imperial City instead.

The wolf cub did not need to cultivate, so it just watched Long Chen cultivate.

"The Scarlet Emperor Burning Heaven Seal is as masculine as it can be. Using fire as a guide, first seal will burn the heavens!"

In the next moment, Long Chen was completely silent inside the Scarlet Emperor Burning Heaven Seal's technique. He followed the Scarlet Emperor Burning Heaven Seal's mental cultivation method and placed the Blue Magic Flame on his palm, the temperature of the Blue Magic Flame was still considered high for Long Chen, and he could only barely resist the heat after transforming into the body of a dragon. However, his palm had already been burnt to a crisp by the blue light.

"To think that I would need a total of three days to completely absorb the Blue Magic Flame in my hand before the Scarlet Emperor Seal can truly start their journey to cultivate the Scarlet Emperor Burning Heaven Seal."

The path of cultivation was already extremely difficult, if he could not even endure such a degree of pain, it would be difficult for him to achieve anything. Was like this, his willpower and willpower were both extremely shocking, which was why he was able to achieve what he had achieved today.

Three days quickly passed by.

Therefore, in just three days of time, all of the Blue Demon Flame had already melted into Long Chen's palm. In between, Long Chen suffered a kind of heart-wrenching torment, as if a knife had cut into his palm at every moment. That kind of burning pain was not something an ordinary person could endure.

'Persistence '! It was precisely because of his conviction and pursuit that he was able to endure pain after pain!

He couldn't stand suffering. He wasn't a real man!

He knew that only by persevering and gritting his teeth would he be able to stand out amongst the heroes and control his own fate! Even though cold sweat was flowing down his body, Long Chen still clenched his teeth and persevered.

Three days later, the Blue Magic Flame had completely fused into his palm. After a sharp pain had passed, Long Chen felt a comfortable sensation.

At this time, the Blue Demon Flame had already been absorbed by the Scarlet Emperor Seal, and the Five Great Emperors Seal pattern on Long Chen's palm directly connected to the martial cavities on Long Chen's right hand. When the Blue Demon Flame fused into Long Chen's palm, it was as if it had directly appeared in the martial cavities!

At this critical moment, Long Chen silently read the Scarlet Emperor Burning Heaven Seal technique. The Five Emperor Prints were all formed with one hand, and the process of forming the seal was also a process of cultivation. Long Chen followed the route in his memory, and immersed himself in the cultivation of the Scarlet Emperor Burning Heaven Seal.

It was another long journey.

The Scarlet Emperor Burning Heaven Seal on her palm extended out a thin line of flame and wrapped around the Blue Magic Flame. Tiny, bizarre runes began to flow from the Scarlet Emperor Seal's body towards the Blue Magic Flame and it could be seen that in front of the Scarlet Emperor Seal, the Blue Magic Flame seemed to be rather weak. This might have meant that using the Blue Magic Flame as a primer was actually far from enough.

Time passed day by day.

was completely focused on using the Scarlet Emperor Burning Heaven Seal's cultivation method, controlling the change in the Scarlet Emperor Seal at the center of her right palm. After a few days of time, the Blue Demon Flame seemed to be in a precarious situation, it could be extinguished by the Scarlet Emperor Seal at any time.

Chapter 698 - Beginning the journey

Right at this moment, the fire of Golden Crow in the pill suddenly started to burn, and instantly pounced on the Blue Magic Flame, that Blue Magic Flame instantly turned blood-red. The fire of Golden Crow was originally gold, but after being assimilated by Long Chen's ancestral dragon bloodline, it had already turned blood-red.

After it had turned blood-red, the Blue Magic Flame's aura greatly increased. The Scarlet Emperor Seal's tiny bright red runes constantly appeared in its flames, looking very beautiful. More bright red threads extended out of the Scarlet Emperor Seal and connected together with the Blue Demon Flame that had changed in color.

With the fire of Golden Crow, and with the research and practice from a few days ago, this time, Scarlet Emperor Burning Heaven Seal's cultivation seemed to not be as difficult as it was in the beginning. However, Long Chen knew that this was all thanks to the fire of Golden Crow, if not for the fire of Golden Crow, Long Chen wouldn't have been able to succeed just now.

Furthermore, there were many problems, such as the pain at the beginning and the focus after, if he did not do well, he would not be able to cultivate the Scarlet Emperor Burning Heaven Seal successfully.

Not only that, this was the first imprint and it was the simplest one. The next step of practicing this second imprint would be much more difficult.

Long Chen's cultivation this time was considerably perfect and he was well-prepared. But even so, he still spent a lot of time and in the end, the Scarlet Emperor Seal and the Blue Demon Flame were already completely connected by a dense cluster of fire threads, and were inseparably close. Meanwhile, the Blue Demon Flame revolved around the blood-red pill that was Long Chen's true essence vortex.

"Success?" Long Chen seemed to feel that the only Scarlet Emperor Burning Heaven Seal in the Five Great Emperors Seal pattern on his palm seemed to have come to life. It was like a small life form, existing in his palm.

Under the control of the Scarlet Emperor Seal, his entire martial arts aperture had been completely engulfed by the flames. Long Chen could feel that the temperature of his right hand was much higher than his left hand.

At this time, Long Chen felt as if a volcano was hidden within his right palm. That boundless power, as long as Long Chen was willing, could erupt at any time and engulf the entire place!

After succeeding, his entire arm trembled.

"If I had learned this move before, with such a large amount of power, I think I would probably be able to kill off Feng Xuan," Long Chen muttered to himself.

The strength of the Scarlet Emperor Burning Heaven Seal was at least ten times that of the Desolate Divine Seal! With Long Chen's current level of true essence, he could only use it once even if he turned into Dragonsoul Transformation. This Scarlet Emperor Burning Heaven Seal was truly worthy of being an Emperor level battle skill.

He opened his palm and saw that the Scarlet Emperor Seal among the Five Emperor Prints was currently glowing with a translucent blood-red light. A small red flame could be seen in the picture of the Scarlet Emperor Seal. This was the flame formed from the fusion of the fire of Golden Crow and Blue Magic Flame. The main force should be the fire of Golden Crow.

Following Long Chen's will, blood-red flames ignited on his entire arm. The blazing temperature was so hot that even he himself was shocked.

"I've already become a wolf cub this time," Long Chen laughed helplessly.

However, his flames were the most masculine flames that were incomparably blazing, while the Little Wolf's Nine Serenities Demon Ancestral Flame was the most yin fire, sinister and cold. The two did not conflict, and the Scarlet Emperor Seal s were suitable for positive flames, so the Little Wolf's Nine Serenities Demon Ancestral Flame was not suitable for Long Chen to cultivate.

"What a strong fire energy!" Seeing Long Chen stand up, as if he had already stopped his cultivation, and appeared in front of his eyes, Mo Xiaolang looked at the flame on Long Chen's hand with a little surprise.

In terms of flames, Sun Devouring Demonic Wolf was an expert, and if even he could say that, it proved the might of the Scarlet Emperor Burning Heaven Seal.

Long Chen nodded: "The first seal is a bit simpler, it will be troublesome in the future. However, with this trump card, there would be an ultimate life-saving technique in the Archaic Graveyard. Oh right, Little Wolf, how many days has it been since I trained this time? "

"Thirty-three days. There are only seven days until the day I head to Archaic Graveyard." Wolf said.

"In that case, I'll first consolidate my cultivation before accompanying them for a while. There won't be any banquet that won't disperse. Before leaving, we can only gather together."

After he finished speaking, Long Chen once again combed through the various mental cultivation methods and methods he had used with regards to the Scarlet Emperor Burning Heaven Seal.

A day later, he returned to the Martial Imperial City. Under Long Yue's guidance, the entire Holy Martial Empire was now on the right track, and in the Martial Imperial City, Liu Yiyi had already learned how to control Ancient Devil's Corpse. After Long Shan had recuperated for a while, it wasn't a problem for him to utilize the combat strength of the fourth stage of the Earth Martial Stage.

In the Martial Emperor Palace, Long Chen met Long Yue. Originally, no one knew what kind of arrangements Long Chen had made with the old tribe of the Martial Alliance, but after seeing Long Chen, she immediately abandoned the others and came to stand in front of him.

"How is your training progressing?" Long Yue asked expectantly.

"It has already become one of the seals, but the other seals are probably very difficult," Long Chen said honestly.

"That's great." Long Yue smiled sweetly, and said: "He should be leaving in about five or six days. To be honest, I really can't bear to see you. Time flies and in the blink of an eye, so much has already passed.

"Yes." Big Sis will always be so beautiful. " Long Chen nodded and joked around before asking again, "What are you saying to the people from Martial Alliance?"

"They wanted you to announce earlier that you would replace the Martial Emperor and directly become the ruler of it." Long Yue smiled as she looked at Long Chen.

"You know that I can't possibly stay here," Long Chen said.

"Of course I know, but I'm prepared to tell them after you leave, haha ..."

Long Chen stayed in Martial Imperial City for a long time. Next, he made a trip to the Huangfu Family. Huangfu Qi had finally brought Long Chen here, of course he wouldn't leave.

"Big brother, I'm telling you, I already know what the martial realm is. My father said that in half a month, I will become an expert of the Earth Martial Stage. I am the new Patriarch!" Huangfu Qi pulled Long Chen's arm, and shouted happily.

Long Chen did not tell her that he was leaving.

After talking to her for a while, Long Chen finally started to talk to Huangfu Fengchen after she went to cultivate.

"I'm really sorry. I wanted to find a way for you to recover your strength, but there's already no time," Long Chen said.

"It's fine." Huangfu Fengchen laughed, then said: "Your mental state is different from mine, and right now, strength is no longer important to me. Wait until Qi Qi grows up, I can just relax and live the life of an immortal couple with my wife. My path of cultivation is too dangerous and ruthless, I have this chance to rest, and truthfully, I still have to thank Feng Xuan!"

He was in a good mood, so Long Chen was not worried.

If he could be with the person he loved, strength wasn't really important. But since Long Chen had already entered this trap, there was no other way out.

After quietly leaving the Huangfu Family, Long Chen went to see Liu Yiyi for the last time. He did not approach, but chose to look at her from afar, like she was a lady who was deep in thought. She sat alone in a pavilion, and Long Chen did not want to disturb her.

After finding a peaceful place, Long Chen quietly waited for the final moment.

He knew that from tomorrow onwards, there would be a bloody storm. This night could be considered the eve of a storm. There were many challenges ahead of him. Only by persevering could he become a strong warrior!

He did not bid farewell to the others and just quietly left like that.

"Overall, this Holy Martial Empire's experience and experiences are pretty good. I also have my current strength, and next up, Archaic Graveyard ..."

Long Chen's gaze shot off in a distant direction.

The endless stars were actually seen by him as a bloody path!

"Big brother!" At this time, Mo Xiaolang reminded them.

Long Chen lowered his head to look. The ancient tombstone token that was previously motionless, was now emitting a faint gray light.

"It should be starting soon. Little Wolf, come into my Great Void Realm!" Long Chen squinted his eyes and stood up.

Without saying a word, the wolf cub turned into a streak of black flames and poured into Long Chen's body.

It was said that this ancient tombstone token could only bring one person into the Archaic Graveyard, but since Long Chen possessed the space of the Great Void Realm, he naturally had to bring a few.

After the little wolf entered, Long Chen's expression became solemn as he held the ancient tombstone token in his palm. The originally ice-cold ancient tombstone token, however, now transmitted a warm burst of energy.

"It's about time ..." Long Chen sensed that this ancient tombstone token that was originally normal, was now emitting an ancient aura, as it enveloped Long Chen in an enclosed space.

Just at this moment, the ancient tombstone token flashed with a bright light, and a gray formation appeared in front of Long Chen's eyes. Countless dense symbols appeared and twisted, and all of them swam to Long Chen's body.

He had a feeling that he was in a teleportation circle, and the teleportation was quickly activating.

At this moment, it was the break of dawn.

When the first ray of sunlight shone onto Long Chen's body, an illusory wave of water appeared on Long Chen's body, and an astonishing power acted on his body. What could be seen was that his body, was actually slowly disappearing in the air just like that.

Just like that, he disappeared from Holy Martial Empire.

What followed next was the journey of blood and slaughter!

Chapter 699 - Endless Star Plate

Long Chen seemed to be shuttling through a dark tunnel, his body involuntarily becoming uncontrollable. A powerful suction force appeared in front of him, sucking him in. In the distance, there seemed to be specks of starlight.

Long Chen felt like he was being devoured by a monster.

The first time Long Chen had used the Universe Teleportation Formations to travel from the Canyang Kingdom to Holy Martial Empire, but this time, a similar formation existed on the ancient tombstone token, and it was even more precise than normal Universe Teleportation Formations.

"Are you bringing me to the Archaic Graveyard?" Long Chen thought.

As time passed, perhaps it was just a moment, or perhaps countless years, Long Chen finally discovered that the bright light in front of him had become extremely bright, and this pitch-black tunnel, had finally come to an end.

That thread of light, had an endless suction power that sucked Long Chen towards it!

In the blink of an eye, Long Chen had disappeared into the light. At this time, he realized that the power over his body had gradually returned back to him.

His body stepping on the ground, allowing Long Chen to feel more at peace, but then he was stunned. Before he even opened his eyes, he could already feel that the ground beneath the platform was already circulating at a high speed.

"This place is?" The moment Long Chen opened his eyes, he was immediately stunned by the vast scene before him.

He realized that there was a vast starry sky above him, and what was different from what he saw in the Holy Martial Empire was that this vast starry sky was actually within his reach, which meant that he was already in this vast starry sky. The shining starlight, which was revolving around the center in the distance, was actually within his reach, as if it was right in front of his eyes!

This ancient tombstone token actually brought Long Chen to this piece of starry sky!

The eyes could see that the heads were all bright stars. The sea of stars, was spinning according to a certain trajectory, this magnificent and beautiful scene, directly frightened Long Chen!

The starry sky was a part of Long Chen's shock. After looking through the vast starry sky, Long Chen started to observe the place where he stood. This was a disc that was moving at a high speed in the starry sky, as though it was trying to bring Long Chen to a faraway place. This disc was incomparably large, and at least Long Chen was still unable to see his camera. He only knew that this round plate was like a flat star, with a resplendent blue light flashing from it, and in the middle of the blue light surrounded by countless dark golden runes. These runes were arranged in a circular pattern, with ring after ring, giving off an ancient impact that came from the top of the runes, as it headed towards Long Chen.

This was a boundless star board, and it was moving through the endless starry sky.

Other than the Starry Sky and Star Plate, the next thing that Long Chen was surprised about was the people around. When he opened his eyes, there were already many people standing on top of the huge plate, and more and more white lights were flashing past. Each time a white light flashed past, a warrior would appear on the board.

"The people who originally obtained the ancient tombstone token would appear in the center of the Star Plate at this time, and they all headed in the direction of the Archaic Graveyard. In other words, we have not reached the Archaic Graveyard yet. "

Thinking to this point, Long Chen was not anxious at all. He calmed his emotions and restrained his aura, then carefully sized up the increasing number of people. He heard that every time they went to the Archaic Graveyard, there would be close to ten thousand people going there, and the star board was so enormous that he couldn't see the end of it.

He should have arrived earlier than them, and after he had arrived, there were only a few hundred people that he could see, followed by an increasing number of people that appeared. All of them were

all warriors, and upon arriving, their eyes were filled with shock, but like Long Chen, they quickly reacted.

Looking at these warriors, Long Chen inhaled a breath of cold air.

It was more or less as he had imagined, but the strength of these people were actually all at the third level of the Earth Martial Stage. There were even some people whose strength Long Chen was simply unable to see through.

And most importantly, those who dared to come to Archaic Graveyard to take the risk were all extremely vicious people, and there were many who had killed before. With so many people gathered, although no one dared to make a move, every single one of them had an ice-cold look in their eyes, and their combined killing intent directly soared into the sky and pierced through the clouds!

Under such a gloomy atmosphere, no one dared to make any big moves.

Judging from the size of the golden rune ring on the ground, Long Chen realized that he should be somewhere in the middle of this huge star disk. If he had appeared at the furthest corner, he might have been thrown away if he hadn't noticed it. If he was thrown out into the endless starry sky, the consequences would be unimaginable.

In the middle of the starry sky, the Starblade was speeding towards a certain direction. Long Chen held onto the ground tightly, facing a group of extremely vicious people, although he was not afraid, he did not dare display too much. He looked to be the weakest, if he was discovered, it would be very troublesome.

Actually, the most important reason for Long Chen to go to the Archaic Graveyard was to find a way to go there. This was a huge prerequisite, and increasing his own strength was also the most important.

It had probably been half a day, and the people who should have come had almost arrived. There were almost thousands of experts on the Star Plate. This was a kind of comprehension of martial arts. Long Chen was a little speechless, this kind of martial artist was a first class existence in the Holy Martial Empire, there were even many that were very young, but on this Star Plate, there were actually tens of thousands of people!

Long Chen looked over, and there were even quite a few people younger than him.

However, there should be all the elites of the Realm of Myriad Kingdoms here!

Although the battle in Archaic Graveyard was terrifying, but there were still countless treasures, people die for money and birds die for food. This was the truth since ancient times, so even though they knew it was dangerous, many of them came to the Star Plate like crucian carp crossing a river.

Most of the people around them were unfamiliar with the place, so no one dared to get close to them. Instead, they looked at everyone with hostility. Of course, there were also some small groups that appeared together.

These people were too close, so Long Chen had no choice but to watch them vigilantly. Very quickly, these dozens of white lights turned into warriors, and when they first saw the starry sky, they were also startled for a moment. One of the fat big men was unable to control his body for a moment, and charged towards Long Chen.

The speed of the star platform was simply too fast, right when he arrived here, it was normal for such a situation to occur. Long Chen stretched out his arm, and without using too much strength, he held onto the big sized man.

After a short while of uncomfortableness, the big sized man had already controlled his own body, so Long Chen took out the arm that was supporting his waist, and at this time, the fat big sized man turned his head, with his bell-sized eyes staring straight at him.

"Little brother, thank you very much!" The most obvious feature was that on his back was actually a huge, pitch-black axe. The handle of the axe was almost two meters long, and the cold edge of the axe emitted a cold, sharp light.

Long Chen could tell from the way he touched the big sized man's body that although he looked fat, he was extremely strong. The fat was extremely tough, he must have trained in a high level body tempering technique, and his body was already much tougher than steel.

Seeing that the big size man did not have any malicious intent, Long Chen smiled lightly and nodded slightly.

He returned to his group with a group of men. All of them were male warriors, and their bodies were thick and bulky. Their muscles were knotted, and their faces were full of malicious intent. They appeared to be quite murderous. They should also be a group of people who had a bloody life.

Amongst the group, the only one who looked relatively amiable was the fat man from before.

This small episode did not divert Long Chen's attention for long. More and more people slowly walked to the center of the Star Plate, and Long Chen also had many more people beside him. However, everyone was looking around vigilantly, and did not say much.

At this moment, in the direction of the centre of the disc, many white lights suddenly lit up.

"The people of the nine great clans have arrived." It was unknown who said this, but Long Chen hurriedly looked towards the center.

Long Chen estimated that there were more than eight thousand people in the center of the Star Plate. These eight thousand plus people didn't seem to belong to the nine great clans. In the The Nine Hallows, the Nine Great Clans were in the hands of the Zhi Zun. However, this did not mean that there were no other rankers, and many experts did not belong to the forces of the Nine Great Clans.

Although the strength of the nine great clans were much stronger than the Martial Alliance, they were clan based powers and their numbers were limited. It was impossible to be like the Martial Alliance, where they could suck almost all the strong warriors into the Martial Alliance and completely control the entire Holy Dynasty.

And after The Nine Hallows, there were also many small nations with warriors of the same level.

Of course, no matter what, the nine great clans were still the core of the Realm of Myriad Kingdoms.

Five Elements Alliance, Wind God's lineage, thunder demon lineage, a total of more than a thousand white lights altogether. At this moment, they all appeared in the center of the Star Plate, and all the people in the center made way, looking at the more than one thousand people who just appeared, their eyes filled with reverence.

Chapter 700 - Five Elements Alliance

The place where Long Chen stood was near the center of the Star Plate, and because of this, it was affected and pushed a distance backwards by the crowd of people. From the looks of their reverence, it seemed as though the power of these nine great clans was truly terrifying.

Long Chen looked around and the largest group of people should be the Five Elements Alliance, with a total of over 600 people. The remaining warriors, Wind God's lineage and thunder demon lineage, were respectively around 300 odd people, and according to their characteristics, Long Chen could roughly distinguish which ones were the Wind God's lineage and which ones were the thunder demon lineage.

The Five Elements Alliance was the direct descendant of the legendary Five Emperors, so the combat skills they cultivated were all biased towards their respective attributes. They were divided into the metal, wood, water, fire, earth, and five meridians.

Long Chen discovered that the people of the Five Elements Alliance had an extremely obvious characteristic, which was that on their foreheads, there were golden light, green trees, flames, water droplets, and loess patterns. This sealing mark seemed to have quite a bit of power. Most likely, some sort of powerful technique would require the use of this seal.

After Long Chen looked at the Five Elements Alliance a few times, his gaze landed on it. There were two different types of, and it was very easy to distinguish between them, the thunder demon lineage did not have the same mark as the Five Elements Alliance, but it could be a rule. In the thunder demon lineage, all the Thunder Clans had a very tall stature and a very dense lightning aura, they were very similar to Lei Zhen.

As for the Wind God's lineage, Long Chen was already very careful. He had killed Feng Xuan before, and Feng Xuan seemed to have left a mark on his body before, so he did not dare approach the wind race in case she was discovered.

However, wind race's clothes were mostly the color of green bamboo, and they looked simple and elegant but strong. As for the so-called god race, they were all handsome men and beautiful women, and their clothes were mostly white, with not a speck of dust on them. They looked quite pure.

However, in this world, there were only a few truly pure people. If they didn't use some tricks and kill some people, the god race might not have a place like this.

The overall power of the nine great clans was far greater than that of ordinary people. Especially the gods and devils. Although they didn't have a lot of people, they were all elites. Whether it was their temperament or strength, they were all far superior to those ordinary warriors.

But the current Long Chen, he could not even compare to these ordinary warriors at the single stage.

It could be seen that the competition for the treasures in the Archaic Graveyard was actually a competition between the nine great clans. And these eight thousand odd ordinary warriors would

definitely hide a lot of hidden talents, but there would also be a lot of people who would just be cannon fodder for the nine great clans.

The true duel would definitely take place amongst the nine great clans. Those truly great treasures, under their monopoly, ordinary people didn't have the right to interfere.

"The nine great clans are really going all out this time. They've actually dispatched so many people!"

"Yeah, under the watch of these powerhouses, how much chance do we have?"

"We can only fight with everything we have. If we don't kill enough people, it might be difficult to even get out. How can we even talk about obtaining treasures and going back to bring glory to our ancestors?"

Upon seeing the appearance of the nine great clans, many people gritted their teeth, prepared to die.

In their eyes, the reverence they had for the nine great clans was just like when Long Chen first came to the Holy Martial Empire and saw the reverence the ordinary people had for the Martial Alliance. This reverence came from the other party's bloody killing methods, which was why he was scared.

"This is a contest between the nine great clans, I cannot go near the wind race, so I might as well move first." When Long Chen thought about this, and about to leave, suddenly, someone stood beside him. Long Chen raised his head and looked;

"Brother, are you going to the Archaic Graveyard alone? "He sure is bold." The fat man looked at Long Chen with surprise. Compared to him, Long Chen's body was simply too thin.

"Yes." Long Chen nodded, and looked carefully at the big sized man, if he had any evil intentions, he would definitely not continue pestering him.

"Don't worry, I won't take any notice of you, my name is Shao Yu, you can call me Fatty Yu, what about you?" The fat man said passionately.

Long Chen had this kind of ability to judge others by just looking at his eyes. This burly man asked Long Chen this question purely because Long Chen helped him just now.

"My name is Long Chen." Long Chen nodded, and the coldness on his face relaxed.

Shao Yu laughed and was just about to talk about other things with Long Chen when the surroundings suddenly became silent. It turned out to be the nine great clans in the center of the big star disk. There were a lot of people around, and when Long Chen saw that everyone was looking in that direction, he also looked over.

At this time, among the three factions, many of them were at the front. Needless to say, Long Chen knew that these people were the leaders of the three factions, existences that Long Chen couldn't even touch right now.

In the Five Elements Alliance, there were five elders, representing the metal, wood, water, fire, and earth races. The first stage of the Earth Martial Stage already allowed one to live for more than a hundred, and then the lifespan would increase by five years without even reaching the first stage. If one reached the ninth stage of the Earth Martial Stage, then one would have a lifespan of more than five hundred years, or even six hundred years.

These five elders were like ordinary old men, with no trace of power on their bodies, but that was the reason why Long Chen knew how terrifying they were. Earth Martial Stage was a control over one's strength, and the smaller the fluctuation on one's body, the more powerful their strength was. These five elders had already reached the realm of returning to their original nature, which showed just how strong they were.

Although they could not feel any fluctuations from their bodies, but when their calm eyes swept past the crowd, they all felt a chill run down their spine, even Long Chen. Although the other party wasn't looking at him and had only swept past his surroundings, that tranquil and calm gaze contained a powerful pressure that directly caused the true essence in Long Chen's body to stop circulating!

"What a terrifying Ranker. If I were to fight them, they wouldn't even need to fight me, and they would be able to subdue me with just a glance? The strongest warrior at the peak of Realm of Myriad Kingdoms is actually at such a level?" Long Chen was secretly speechless.

"The old Patriarchs of the five clans are all over four hundred years old and have commanded the Five Elements Alliance for nearly two hundred years. I never thought that it would still be like this, the older the better." Shao Yu sighed and said.

"How strong are they?" Long Chen asked in a low voice. Amongst the nine great clans, there were still many things that he did not understand about the Archaic Graveyard. Amongst the The Nine Hallows, however, this information should be spread far and wide, and this Shao Yu actually delivered himself to his doorstep. Long Chen did not mind asking him a few more questions.

"The old patriarch of the Five Elements Alliance should be at least at the ninth stage of the Earth Martial Stage. In the past, the achievements of the five of them, were really able to shock the entire Realm of Myriad Kingdoms. In the entire Five Elements Alliance, it was these five clan leaders who supported the majority of the people. Shao Yu said in a low voice.

He could tell that Long Chen should be from some remote place, so he asked: "Little brother, I am from the The Heavenly Wind Holy Dynasty, what about you?"

"It's just a small country, you wouldn't know about it even if I told you." Long Chen said with a faint smile.

Shao Yu's words were within his expectations.

"You're really bold, to dare come to Archaic Graveyard like that, you don't know the dangers of that, if we didn't join hands, we wouldn't dare to take the risk coming from this damned place." The fat Shao Yu pointed at his dozen or so fiendish looking companions, and told Long Chen that in their entire group, only this Shao Yu was able to speak.

At this time, Wind God's lineage and thunder demon lineage had respectively walked to the very front. Long Chen looked around, and what had appeared in thunder demon lineage was a middle-aged man and a young man. That middle-aged man was dressed in a purple embroidered robe, and on it was embroidered a gigantic beast covered in lightning. However, this person was much stronger than Lei Zhen. His hair was an inch long and he had a pair of dark purple eyes. Within his eyes, there were actually quite a few blue lightning flashing. It was as if all the thunder and lightning between the heavens and the earth were hidden within these two tiny eyes!

The purple-robed middle aged man squinted his eyes. That kind of immense pressure was even stronger than the previous patriarch of the Five Elements Alliance.

The other youth, on the other hand, made Long Chen feel weird. Logically speaking, the purple-robed middle aged man should be the clan leader of the Thunder Clan in thunder demon lineage, while this young man should be the clan leader of the Demon race.

Upon closer inspection, Long Chen realized that he had seen wrongly.

Even though this person looked like a youth, his eyes were as deep as a bottomless pit, causing everyone to sink into his depths. They even lost consciousness for a moment. From this alone, one could tell that this person's age was absolutely not as young as he looked.

This youth gave the dragon a rather strange feeling, his face was pale white, like a sickly, sickly youth, who couldn't even withstand a single blow, and wasn't as intimidating as the purple-robed middle aged man beside him. But Long Chen only felt that he was very terrifying, and he just stood there casually, as if he was the center of the world.
