

War God 701

Chapter 701 - Demonic God and God Tribes

Seeing that Long Chen's eyes were filled with doubt, Shao Yu lowered his head and whispered into his ear: "That purple-robed middle-aged man is the Patriarch of the Thunder Clan. His cultivation should be around the same as the Patriarch of the Five Elements Alliance, and he should be around three hundred years old. He was also a legendary figure. When he was at the eighth stage of the Earth Martial Stage, he had killed three brothers of the same level and immediately ascended to become the new Patriarch of the Thunder Clan! As for that black-clothed youth, hehe.

"What about him?" Long Chen asked.

"You must have made a mistake. In the future, isn't he just an ordinary person? In fact, he was the demon clan leader! Rumor has it that he's already 500 years old! Others may not have reached the Heaven Martial Stage, but the patriarch of the Demon race was a recognized expert of the Heaven Martial Stage! He was truly at the legendary Heaven Martial Stage! In the past five hundred years, he has simply been a myth of the devil race, and he is also my idol, hehe! "

Speaking of the Clan Leader of the Demon Clan, Shao Yu was extremely agitated. He spoke a series of words, and left without even knowing how much he spit. From this, Long Chen could see that this Shao Yu, was indeed a character with a genuine personality.

At the same time, Long Chen secretly remembered these important figures in his heart.

In their eyes, Long Chen was just a tiny ant right now, but Long Chen had confidence and desire to catch up to them in the future!

Amongst Long Chen's Great Void Realm, there was still another five-color key, and among the Archaic Graveyard, there was still the treasure left behind by the Five Emperors.

When the leader of the thunder demon lineage came out, the people from the Wind God's lineage also came out. Of the two patriarchs of the Wind God's lineage, the patriarch was a white-haired, elegant old man. His face was filled with a faint smile, and as for strength, it should be similar to the Thunder Clan's patriarch's. As for the patriarch, the dragon clan paid more attention to him, because the patriarch of the god clan was actually a woman, and a young lady at that.

Of course, Long Chen knew that this girl was probably the same as the Demon Clan Leader, an old witch who was a few hundred years old. From her figure, she seemed like a goddess. She was like a pure and holy white lotus flower, and no matter where she went, this god race's chief, just his figure and temperament alone was enough to be the focus of everyone's eyes!

At this time, when the Patriarchs of the nine great clans came out, even more people looked towards the patriarch of the god race. From behind that thin veil, Long Chen could vaguely see her face that could shake the hearts of the people.

Of the nine great clans, the god race leader was the only female.

"Patriarch of the Nine Great Clans, the strongest is the patriarch of both the God and Demon races, they are all genuine Heaven Martial Stage experts. One is my idol and the other is my goddess, I never thought that I, Shao Yu, would actually be able to see these two peak existences with my own eyes!" Beside Long Chen, the fat guy's eyes were filled with stars.

Long Chen, however, was not like him. He carefully sized up the troops of the three forces and calculated the difference between him and them.

"From the first stage of the Earth Martial Stage to the third stage, I have spent a total of almost four months, and the time for each stage has nearly increased by half. Which is to say, if I want to have a realm like theirs, it should take four to five years?" The enormous chasm within, made Long Chen feel somewhat dejected.

If anyone else knew his thoughts, they would definitely not be able to resist slapping him to death. Even if it was the patriarchs of the two clans of the gods and devils, they would probably only be able to reach Heaven Martial Stage after a hundred years of age. Furthermore, ever since they had reached this realm, they had not improved at all, so it could be seen how difficult cultivation was.

Of course, currently, Long Chen's strength could not even compare to a random expert from the nine great clans.

"Looks like I have to endure it for a while, wait for my strength to increase, then I can carry out other actions. Otherwise, in this Archaic Graveyard that is filled with blood and slaughter, I will really lose my life very soon," Long Chen thought.

On the platform, no one made a move, but looking around, other than Shao Yu who looked easy to talk to, the rest of them were all on guard. If they were in that place, perhaps they would start fighting very quickly!

In this place, there was only killing and no friendship!

Even the nine great clans would probably do the same.

At this moment, the Patriarchs of the nine great clans all began to exchange pleasantries.

Amongst the Five Elements Alliance, an old man with a golden mark on his eyebrows smiled at the thunder demon lineage and the rest, "Clan leader of the Thunder God's Wind God's Four Great Clans, how have you been?"

Among the two types of Thunder Demons, the demon race was the leader, and the god race was the leader among the two races. At this moment, the demon clan chief didn't say anything. Then, the god clan chief used a gentle voice and asked, "Jinshi's chief, does she only know how to talk rubbish?"

The god race's patriarch was not courteous at all. When the Five Elements Alliance greeted her, she actually used such provocative words to provoke him. It could be seen how arrogant she was.

However, it was not easy for a big character to get angry. In front of a large crowd, the patriarch of the Jinshi laughed and retorted, "Why is the God Clan Patriarch's temper so bad? Could it be that at this age, there are things that happen every month?"

Puff!

Everyone burst into laughter.

The patriarch of the Jinshi had fought back beautifully, everyone laughed and cursed at the old rogue in their hearts.

Her gaze instantly turned cold. Although the Star Plate was moving at a high speed, everyone still felt a chill coming from the bottom of their hearts, the smiles on the people who were originally laughing became stiff.

Five Elements Alliance and Feng Shen, the two tribes, quickly assumed battle postures, and the two sides glared at each other.

The atmosphere gradually became tense, and the atmosphere was filled with the smell of gunpowder.

"How ridiculous." The gloomy voice of the demon clan chief disturbed this atmosphere.

We will meet on the battlefield, but on this Star Plate, whoever attacks will be courting death, so don't harm anyone else even if you want to die. If the Star Plate is broken, then we will all be dead!

After the demon clan chief finished speaking, she turned around and directly entered the crowd, sat cross-legged, and closed her eyes.

"This demon clan chief's character is rather straightforward."

Through a few short conversations, Long Chen roughly understood the relationship between the three clans. And the tempers of those in power.

The reason why the three clans were still in this situation was because none of them had submitted to anyone. Otherwise, any alliance between two clans would be able to eliminate the third.

Although he was indeed an old brand, with a rich background, the strength of the three great powers were all around the same.

That demon clan leader had a straightforward character, decisive in killing. The God Clan Master was a woman. He was arrogant and noble, and might get excited when he did things. The Five Elements Alliance, on the other hand, could tell from the words of the patriarch that he was perhaps just a bunch of despicable people.

"Kill, kill, kill! Kill none of them!" Long Chen wished that all three of their forces could be annihilated in his heart.

After the demon clan chief finished speaking, both sides snorted at each other and returned to their respective places. When Xing Pan reached the Archaic Graveyard, that would be the time for the real decisive battle.

Long Chen noticed that when the God Clan Patriarch returned to the God Clan team, a handsome young man with a pale complexion welcomed him. This young man wore a purple and gold crown embedded with his hair tied up by his eyebrows. He wore a white robe with black hair, and his clothes and hair were all elegant and unrestrained. There was a faint flow of luster on his skin, and his eyes flashed with a thousand different kinds of glaze. A single round of appearance had already crowned all of the people on the Astral Plate.

The youth emitted a vast aura. The several great Patriarchs from before were all extremely reserved, but this young man was brazenly releasing an aura that could topple mountains and overturn the seas, making everyone tremble with fear.

"It seems like this young man should be at the level of the young elites from the nine great clans. His strength should be above the eighth stage of the Earth Martial Stage," Long Chen thought as he looked at the young man.

At this time, the youth was speaking softly to the god race patriarch. Long Chen could faintly hear the words "mother" in his voice. Presumably, this young man was the Chief's son. However, judging from their appearances, their ages should be around the same.

"This young man is the famous young master of the god race. It is said that the god race's patriarch dotes on him, but who would have thought that he would be brought into this dangerous Archaic Graveyard this time around. Furthermore, so many experts from all sides have come, could it be that they are going to teach him a lesson this time?" Shao Yu muttered in Long Chen's ears.

"God Clan's Young Master?" Long Chen had an impression of the youth in his mind. He did not mind, the other party was strong, so Long Chen was not qualified to be his opponent, but since Long Chen was not an enemy to him, he did not mind much.

Even the young Rankers in the The Nine Hallows were more than a level higher than the Holy Martial Empire.

"The Star Plate is already slowing down, I think the Archaic Graveyard is about to arrive. Oh right, Little Brother Long Chen, let me ask you a question?" Shao Yu suddenly said.

"What problem?" Long Chen asked.

Honestly speaking, it will be very difficult for you to survive in there. It's fate that we meet each other. Shao Yu said with hope in his eyes.

He saw that Long Chen's eyes were calm and calm, and that he was still very young. It would be a pity if he died just like that, which was why he wanted his to stay.

Long Chen had not rejected him yet, but after hearing Shao Yu's words, suddenly, in his group, a man with a vulture face walked over. He glared at Shao Yu with eyes filled with killing intent and said coldly: "Idiot, you are a trash yourself.

Chapter 702 - Wu Guangyu

His pitch black face had a ferocious scar on it, and when he roared, his expression was extremely terrifying. Shao Yu immediately said in fear: "Boss Du Jiu, I spoke too much."

"It's good that you know this. Not just anyone can join our team. What if you drag us down?" How many lives can you have to hold someone back in this Archaic Graveyard? If you want to join our team, that's fine, but if you bring out your true abilities, I, Du Jiu, will treat you as a brother! "

After he finished speaking, Du Jiu looked at Long Chen with disdain for a moment, then turned and left. Shao Yu looked at Long Chen apologetically before following him away.

Long Chen did not say anything. Originally, he would have rejected Shao Yu's invitation, and the result would have been more or less the same. This Du Jiu was the leader of a group of people. Honestly speaking, Long Chen could not see through his cultivation, but he was still at least at the fifth stage of the Earth Martial Stage. He was definitely stronger than the Feng Xuan from back then, and was not someone Long Chen could easily deal with.

After Shao Yu left, Long Chen did not speak anymore. After a year of hard work, he had calmed down a lot. He knew that his opponent was the most terrifying one. This meant that he had to become such a person.

Sure enough, the speed of the astrolabe was slowing down. Everyone started to discuss, it seemed that the Archaic Graveyard was finally here.

In this endless starry sky, the Star Plate flew for a long distance. Just where was this place? What kind of place was the Archaic Graveyard? Long Chen didn't know, but he had heard that the Archaic Graveyard was surrounded by them.

No matter what, Long Chen had already felt the existence of the Archaic Graveyard.

In front of the starry sky, an illusory image of a vast piece of land vaguely appeared. When Long Chen looked carefully, it was as if there was a new world there, and all he could see was an illusory image.

After a while, Long Chen and the others finally realised that this was a light source, and Archaic Graveyard was inside that light source. The Star Plate brought everyone into the light, and the dazzling light covered Long Chen's eyes directly. When he was able to open his eyes, Long Chen felt that the Star Plate below him had already disappeared.

Of course, everyone here was an expert at the Earth Martial Stage. After arriving here, although the Star Plate had disappeared, they were still able to safely land on the ground. The tens of thousands of people scattered at this moment and one by one landed on the ground. They looked at this novel world with astonished eyes.

Long Chen was also stunned for a moment.

"This is the Archaic Graveyard?" The world in Long Chen's eyes was different from the barren land that he had imagined. Not only was the Archaic Graveyard not desolate, it was as if the entire world was covered with trees, and the fragrance of flowers and birds could be heard. In front of him was an oasis. It was a place where no one had been in for a long time. The plants here were quite lush, and the places he could see were like a paradise on earth!

Such a place was completely unrelated to the word 'grave'.

This place was the burial ground of countless experts?

Those who had never been to the Archaic Graveyard before were stunned when they saw the scenery around them.

Long Chen never thought that the Archaic Graveyard would actually be this beautiful, and that the spirit energy of the heaven and earth in this place was even denser than the Holy Martial Empire. The Holy Martial Empire was abundant with earth vein spirit, but this Archaic Graveyard was filled with all kinds of spirit energy.

"This is the Archaic Graveyard?"

"How is the Archaic Graveyard like this? I thought it was a wasteland filled with tombstones and dried up bones."

"Me too!"

"Only those people from the nine great clans who have entered and then left the Archaic Graveyard know of this."

Everyone could not help but start discussing.

This was Archaic Graveyard, and also a place to fight. After arriving here, there would be true battles soon, and where there were treasures, there would be battles and battles. As a result, just as they were shocked by the scenery, everyone quickly reacted. They all looked at the people around them warily.

For a moment, the surroundings were filled with people. No one knew which direction to go first. At this moment, the people from the nine great clans all flew up into the air. They looked at each other with provocative eyes, and without a word, they all flew off in different directions!

The others also followed suit and flew up. The Archaic Graveyard naturally had many treasures, but if they fell behind, they wouldn't be their own. Thus, everyone rushed forward. Actually, when they came here, they were not very familiar with this place. They did not know which path was suitable for this place, so most people still followed the footsteps of the three big powers.

Long Chen saw that everyone had already left, and he couldn't stay in this place any longer. Thus, he found a direction to go, and in the depths of the dense forest, there were many demon beasts. In the vicinity, the majority of the demon beasts were not even a threat to Long Chen and the others, but if Xing Huang were to stay here, perhaps this place would just be the safest place in Archaic Graveyard.

As he walked, the ten thousand people were completely dispersed. Long Chen realized that he was alone.

He stopped in his tracks and told Mo Xiaolang to come out of the Great Void Realm as well. Xiao Lang was his brother after all, so he could not stay in the Great Void Realm forever.

"Big Brother, is this Great Void Realm? "Why is she so beautiful?" The wolf cub was also surprised.

Long Chen sighed with emotion: "I didn't know this place would be like this either. I thought it would be the same as the nine nether regions, a barren land."

Just as Long Chen finished speaking, Mo Xiaolang seemed to have noticed something amiss. He frowned as he looked in one of the directions and said: "Big Brother, there seems to be a strong wave coming towards us from that direction. And in that direction, the aura of fire is extremely dense!"

"What?" Long Chen was shocked.

He had just arrived at the Archaic Graveyard, so other than Shao Yu, no one else had noticed. How could there be someone like him at this time?

Among the god race troops, the mysterious female chief and the shining God Clan's Young Master walked in front. At this time, the God Clan's Young Master suddenly stopped in his tracks.

"What's wrong, Guang Yu?" The god race chief asked softly. His voice was soft and sweet, making people's appetite.

God Clan's Young Master Wu Guangyu extended his arm, and on his wrist, hung a green bracelet. God Clan's Young Master said: "Mother, didn't you say that the inheritance of the Azure Lotus Emperor is of the fire attribute, and that as long as my Blue Lotus Bracelet is near the inheritance of the Azure Lotus Emperor, it would be able to sense her existence and heat up? Why is it getting hot now? "

He immediately extended his slender fingers and gently touched Wu Guangyu's Green Lotus Bracelet, and said: "It's indeed hot, but it can't be the inheritance of the Green Lotus Emperor here. The Green Lotus Bracelet is hot, probably because there are some pretty good fire-type objects around, or maybe even demonic beasts."

"Being able to make the Green Lotus Bracelet heat up is definitely not bad. Mother, you guys wait here for a while, I will follow the position indicated by the Green Lotus Bracelet and look around. If I can find anything, it would be for the best, but there are so many treasures in this Archaic Graveyard, maybe your son's luck is really good," Wu Guangyu said as she acted like a child, acting a little spoiled.

"Alright, go. Pay attention to your safety. We'll wait here for you." The god race's patriarch couldn't bear to see this child any longer, so she let him carry the Green Lotus Bracelet as she pleased. Under her orders, many experts from the God Clan followed behind God Clan's Young Master Wu Guangyu. As for the others, they waited at the same place as the God Clan Patriarch.

Even if Wu Guangyu went there once, he wouldn't need too much time.

"Almost there?" Long Chen still did not understand the situation, the opponent's speed was actually so fast, the Little Wolf had only just realized it, and the opponent could already see it. Long Chen used his Spirit Devouring Demon Pupil to look over, and discovered that quite a few people had already barged into his one mile radius, and the leader was an expert that Long Chen could not figure out.

On the way here, the God Clan's Young Master felt that it was strange and many people followed from the road. Originally, there were still many people who had not left in time, but seeing that the God Clan's Young Master was in a hurry, it was as if the God Clan's Young Master had discovered something important.

Even if they couldn't get the treasures, they might be able to gain some insight by following behind him.

A mile away, Wu Guangyu instantly appeared in front of Long Chen's eyes. Behind him were many experts from the God Clan, and even further back were hundreds of people who had not left in time to watch the show.

Seeing that the God Clan's Young Master was actually surrounding Long Chen, everyone looked surprised at Long Chen who was not masked or famous, what was so strange about him that the God Clan's Young Master would rush over in a hurry?

Long Chen also didn't know what this guy was planning to do. However, he quickly found out, because the eyes that he, God Clan's Young Master, looked at Mo Xiaolang with, were actually blazing with passion.

"It's actually a super demonic beast that can level up limitlessly, Sun Devouring Demonic Wolf!" A look of ecstasy appeared on his face. The Green Lotus Bracelet was burning hot, and when he came back to take a look, he already noticed that there was such a good thing in the Archaic Graveyard, and it was obvious that it was not the Archaic Graveyard's original Goblin Beast, but rather brought by a young man next to the Sun Devouring Demonic Wolf.

The heavens are truly helping me!

Long Chen knew, this Wu Guangyu was definitely the person who understood Sun Devouring Demonic Wolf the most. He even knew that Sun Devouring Demonic Wolf could level up without any limits!

Chapter 703 - God Clan's Young Master

What kind of strength did the God Clan's Young Master have?

Long Chen knew that the difference between him and was just as great as the heavens and earth. Right now, he was regretting that he should immediately let the Little Wolf out, if he was a little further away, this God Clan's Young Master would probably not be able to feel it anymore.

Long Chen never thought that such a thing would happen. He was already alone, who would have thought that the God Clan's Young Master would actually come back with a Green Lotus Bracelet?

Long Chen held his breath.

Now that he thought about it, at least the God Clan's Young Master did not reveal any killing intent towards the two of them, he looked at the wolf cub in astonishment. As for Long Chen who was at the third stage of the Earth Martial Stage, he did not catch his eyes at all, he came down from the sky and circled around the wolf cub a few times, then nodded in satisfaction: "As expected, it is the legendary divine object — — Sun Devouring Demonic Wolf, it is indeed extraordinary.

On the contrary, he was actually quite knowledgeable. When he had confirmed the identity of the Sun Devouring Demonic Wolf, he then looked towards Long Chen and asked indifferently: "Is this Sun Devouring Demonic Wolf yours?"

Long Chen was thinking of a way to leave. This God Clan's Young Master had come too quickly, and had stuck himself in between him and the little wolf as soon as they arrived. Even if he wanted the little wolf to return to the Great Void, it would be difficult for him to use Blood Escape.

Although he was unwilling, Long Chen could only endure.

The difference in strength was always an insurmountable chasm.

The surrounding martial practitioners were also discussing what had happened here.

"It looks like the God Clan's Young Master has taken a fancy to that young man's demon beast."

"What kind of background does that demon beast have? How come it wants the dignified young master of the God clan to talk to a weak warrior?"

Everyone didn't quite understand this.

There were not many people who knew about the origins of Sun Devouring Demonic Wolf. The last time she had entered the Holy Martial Empire, because of the matter of the Sun Devouring Demonic Wolf, Jiang Wucheng plotted against him. However, in the end he failed and was killed by Long Chen instead. Her strength was millions of times greater than Jiang Wucheng's, so two times of danger, was simply not even worth mentioning.

After Long Chen finished answering, he looked at Mo Xiaolang with interest, but said to Long Chen: "You raised the Sun Devouring Demonic Wolf to such a state, looks like you know his talent already. Initially, I did not want to keep you, but seeing how you have taken care of it so well, I will let you live, now scam!"

His voice, converged into a faint sound, reached Long Chen's ears.

His words caused Long Chen and his to become nervous.

Who would have thought that they would encounter such a huge challenge after just arriving here?

His opponent was actually the god race's young master?

Long Chen didn't know the specific strength of this God Clan's Young Master, but he was at least at the eighth level of Earth Martial Stage.

Unfortunately, they had already lost track of time, and God Clan's Young Master seemed to have known that they were going to escape, as he stood between the two of them.

Long Chen's brain frantically spun, thinking about how he could make the correct response within a short period of time. He knew very well that if he were to fight against this God Clan's Young Master, just a glance from him would be enough to kill him. With him here, it would be even harder to save the wolf cub than ascending to heaven.

"Young master, I am very willing to give this demon wolf to you, but can you let me stay with him for a little longer on the account that I've raised him for several years?" Long Chen said with a begging expression.

When one was under a roof, one had no choice but to lower their head. He pretended to lower his head now just so that he could have his revenge in the future!

Long Chen was a petty person, so whoever provoked him, he would definitely take revenge in the end, even if he was from the God Clan's Young Master s!

His goal was only to get closer to the little wolf, and then directly put the little wolf into the Great Void Realm, so that he could use Blood Escape to escape. Of course, even Blood Escape might not be able to escape from the hands of this God Clan's Young Master. The moment he entered the Archaic Graveyard, he encountered such trouble, it could be seen that Long Chen's luck was bad.

"Didn't you hear what I said? "Scram for me." The God Clan's Young Master's brows furrowed and a cold aura surrounded Long Chen. Long Chen instantly felt a strong force acting on his body!

"Big brother!" He knew that the God Clan's Young Master was powerful, even if Long Chen did not make a move, he would not dare to. If he provoked the God Clan's Young Master, things would become troublesome.

Long Chen clenched his teeth, this God Clan's Young Master clearly wanted to take the little wolf as his own, and had trained it as a demon beast. Right now, his mood was good, and he might even make Long Chen scam. When he was weaker than others, words would be useless.

The others all looked at Long Chen with pitiful eyes. Just as they arrived in Archaic Graveyard, Long Chen was immediately targeted by this God Clan's Young Master, showing just how tragic he was. At this time, everyone looked at the struggling Long Chen with eyes of pity.

To be honest, God Clan's Young Master's look of contempt made Long Chen angry. As an Ancestral Dragon Fighter, he had his own pride. He had already reached his limit with the two words he said before, but this God Clan's Young Master was still as overbearing as before, not allowing him a single inch. Long Chen was sure that if he dared to say another word, the other party would definitely take action!

Amongst the nine great clans, the Celestials and Demons were the strongest. This God Clan's Young Master was ranked second among the Celestials, and was the treasure of the Celestials' Patriarch! In this Archaic Graveyard, even if it was the other two big powers, they wouldn't dare to provoke him like this, and not give him in front of the god race's patriarch!

So, for a person like him, why would Long Chen put him in his heart?

"Still not getting out?" This even colder voice firmly enveloped Long Chen, and God Clan's Young Master's eyes suddenly burst forth with bright and white light. It was like a sharp sword light, piercing towards Long Chen!

It was only then that Long Chen realised, this God Clan's Young Master seemed to be a sword wielding expert!

"Attack!" Delay, was not the best plan. At this time, Long Chen had exceeded everyone's expectations, because he had actually attacked the God Clan's Young Master, causing the surrounding people's faces to go stiff, this young man's courage was too great, the two's identity and strength were far too different. It was as though a dirty beggar had actually attacked the country's prince.

Long Chen's desperate move only wanted the little wolf to enter the Great Void Realm. He and the little wolf could directly communicate with each other in the Spirit Beast Language, which other people could not understand at all!

The moment Long Chen shouted and attacked, the little wolf instantly turned into a Sun Devouring Demonic Wolf and the Nether Demon Ancestral Fire in its mouth shot towards the God Clan's Young Master in front of it!

And Long Chen had directly used the Devouring Blood Realm s themselves. Although the effects of the Devouring Blood Realm s were insignificant, it could at least attract a portion of his fighting strength. This was the strongest opponent Long Chen had ever met in his entire life, the level of the two were several levels apart!

This enormous difference was not something that Long Chen's cleverness and decisiveness could make up for!

Seeing that Long Chen was actually going to attack together with the little wolf, the God Clan's Young Master was still startled. Then, the corner of his mouth revealed a mocking smile, and only the little wolf's power of the Nine Hell Devil Ancestral Fire was able to make him feel slightly surprised.

"Why is this flame so strange?" The Nether Demon Ancestral Fire attracted the attention of the God Clan's Young Master.

"Little Wolf, come here!" Long Chen shouted using the Spirit Beast Language, God Clan's Young Master and the rest did not know Long Chen's goal!

Right at this moment, the little wolf spat out the Nether Demon Ancestral Fire, and quickly moved towards Long Chen's direction. The Nether Demon Ancestral Fire instantly swept in front of God Clan's Young Master, and Long Chen thought that he could block the other party for a while, but he didn't expect the God Clan's Young Master to sneer. His body suddenly disappeared, and the next time he appeared, he had already dodged the Nether Demon Ancestral Flame, appearing right in front of Long Chen without a single injury!

"What terrifying speed!" Long Chen was extremely shocked, with the speed of the God Clan's Young Master, Long Chen was almost unable to see it with his naked eyes. Long Chen's current Dragon Soul Transformation already had the strength of the fourth stage of the Earth Martial Stage. If he were to use Blood Escape now, even if he used that burning true essence, the Blood Escape would probably only be slightly faster than this.

"You really are a strange guy, you actually dared to make a move on me." The God Clan's Young Master looked at Long Chen curiously, his entire body surging with True Essence, firmly suppressing Long Chen. Honestly speaking, Long Chen actually dared to make a move on him, this made him more curious. It seemed that there was no such person in the Realm of Myriad Kingdoms?

Xiao Lang had been close to Long Chen, but this guy was blocking his path in front of Long Chen.

"Is it strange to do anything to you? What the f * * k, your mother!" Long Chen shouted a vulgarity!

The God Clan's Young Master was standing right in front of him, the pressure was too great, Long Chen was tensed to the extreme, the blood in his entire body was boiling. Even in the Holy Martial Empire s, he had never seen an opponent with such a huge gap.

In every corner of their bodies, there were countless blood dragons roaring unyielding. It was as if they were provoked by this tiny creature, causing them to feel incomparable rage!

"What did you say?" The God Clan's Young Master's brows sank. His mother was the patriarch of the god race, so wasn't Long Chen just cursing this Realm of Myriad Kingdoms's existence like a myth? He actually said these words to the Holy Maiden that everyone had a holy heart?

This surprised the others so much that their jaws dropped.

Chapter 704 - Humiliation of Today

Just who was this youth? Did he have a high status, or was he an ignorant fool who wasn't even afraid of death?

God Clan's Young Master was simply about to faint due to Long Chen's anger. He was extremely angry in his heart, and even had difficulty breathing. In the next moment, he decided to kill Long Chen first.

But right at this moment, Long Chen had already made the first move!

This was the first time Long Chen had used the Scarlet Emperor Burning Heaven Seal! Right now, the Scarlet Emperor Burning Heaven Seal would drain all the energy in his body in one go, so Long Chen did not dare to use it lightly, but if he did not use it now, he reckoned that he would not have another chance.

"Phew ..."

The Scarlet Emperor Burning Heaven Seal and the others had all formed hand seals with one hand, so the speed of using them was extremely fast. When Long Chen raised his arm again, the hand seals were

more or less complete, and as he covered the palm with the palm, a huge flame imprint appeared in front of Long Chen's eyes!

"Scarlet Emperor Burning Heaven Seal!"

At this critical juncture, Long Chen screamed as his right hand suddenly turned into a ball of flames. The flames inside the martial arts aperture were frantically being discharged, and the only Scarlet Emperor Seal in his palm suddenly lit up and expanded, forming a gigantic imprint in front of Long Chen's palm. Under Long Chen's control, it suddenly smashed toward God Clan's Young Master who was just inches away!

Under Long Chen's control, the Scarlet Emperor Burning Heaven Seal became larger and larger, and by the time it reached the God Clan's Young Master, it was already equivalent to a gigantic mountain.

"Die!" The enormous mountain of flames instantly enveloped the top of God Clan's Young Master's head!

To use such an earth-shattering move at once, it could be seen how crazy the current Long Chen was. Under the effects of the Scarlet Emperor Burning Heaven Seal, all the True Essence in his body was completely absorbed, all of the True Essence condensed into one, and erupted with the most violent attack, striking the defenseless God Clan's Young Master!

Who would have thought that a mere third stage Earth Martial Stage martial artist would actually be able to unleash such a terrifying battle power!

Honestly speaking, such an attack was something that even the average fifth stage of the Earth Martial Stage found difficult to execute. That God Clan's Young Master was not prepared for it for a moment, so he was heavily hit by Long Chen's Scarlet Emperor Burning Heaven Seal!

"What!" The hundreds of spectators cried out in shock. They had never expected that Long Chen, this young man, would have such a crazy side to him!

"How is this possible, a mere third stage of Earth Martial Stage actually produced such an explosive attack power!"

"Looking at the power of this attack, this battle skill, could it be Royal Tier Battle Skills? An ordinary brat actually has a Royal Tier Battle Skills on him, and he even learned it? "

The Royal Tier Battle Skills, to them, was still a huge temptation. Other than the few members of the God Clan, the rest of them firmly remembered Long Chen's appearance, as the Royal Tier Battle Skills really made them, who were not from any sect, envious.

Of course, they also understood that it was impossible for Long Chen to escape the God Clan's punishment today, he actually dared to make a move on God Clan's Young Master. Amongst the tens of thousands of people who came to Archaic Graveyard, only Long Chen had the guts!

When the God Clan's Young Master was attacked, many of the experts from the God Tribes among them were close to the strength of the God Clan's Young Master. They all understood that Long Chen's battle skill was a good one, but the person who used it was simply too weak.

Under the bombardment of the Scarlet Emperor Burning Heaven Seal, the entire ground began to shake. Such an attack caused the faces of all the people watching to change, they understood that even if it was a powerhouse of the sixth stage of the Earth Martial Stage, facing an attack of such strength, the result would probably be tragic!

"What happened to the young lord?" Just as everyone was considering this question, a resplendent sword light suddenly swirled out from the center of the Scarlet Emperor Burning Heaven Seal, directly shaking the Scarlet Emperor Burning Heaven Seal, causing the surrounding flames to crumble under the sword light, the gigantic Scarlet Emperor Burning Heaven Seal was instantly sliced to pieces by the sword light!

Long Chen's brows deeply knitted together.

The Scarlet Emperor Burning Heaven Seal, which could almost kill a sixth stage Earth Martial Stage expert, was easily destroyed by the opponent using a sword beam. The only good thing about it was that during this period of time, he had already successfully avoided the God Clan's Young Master, and the wolf cub also took this chance to come to Long Chen's side. It looked like he would be able to enter Long Chen's Great Void Realm soon.

Of course, at this time, because Long Chen had used the Scarlet Emperor Burning Heaven Seal, he had completely used up all of the strength in his body.

However, Long Chen had no choice!

"Great Void Dragon Symbol, Time Reversal." Under Long Chen's display, the Great Void Dragon Symbol on his chest started to ripple and enveloped Long Chen's entire body. Under the reversal of the ripple, the True Essence in Long Chen's body quickly recovered, and quickly returned to its perfect state from ten breaths ago!

The wolf cub was overjoyed and rushed towards Long Chen's Great Void Realm.

At this moment, the God Clan's Young Master had already broken open the Scarlet Emperor Burning Heaven Seal, but his hair was in a mess right now, and his face was completely red. It was obvious that Long Chen's Scarlet Emperor Burning Heaven Seal had angered him to no end, and from his messy clothes and slightly burnt hair, it could be seen that he had been accidentally ambushed by the Scarlet Emperor Burning Heaven Seal!

Just as he broke through the Scarlet Emperor Burning Heaven Seal, he saw that the little wolf had turned into a streak of black light and was rushing towards Long Chen's Great Void Realm!

"You want to run, Purple Bone Lock!"

At this time, from God Clan's Young Master's hands, a purple chain of light suddenly burst out. This chain of light was extremely fast, and in a flash, it broke through space and wrapped itself around the little wolf! This level of speed was much faster than that of the wolf cub!

"What?" Long Chen was shocked, before he could even clearly see what that purple light was, the wolf cub let out a stuffy groan, obviously it was in extreme pain. Then, Long Chen saw that the wolf cub was actually completely shackled by a purple metal chain, the purple chains had wrapped around his entire body and tightly strangled him within his fur.

"Little Wolf!" A wave of blood Qi suddenly rushed towards Long Chen's head!

From the start, Long Chen had never let Xiao Lang face such a crisis. Xiao Lang's relationship with him, was more like that of a blood brother than a blood brother, but now, that God Clan's Young Master had actually completely locked him down with this strange purple chain!

Seeing the pained look in the wolf pup's eyes, Long Chen's eyes were about to spew fire!

Anger!

Long Chen's eyes were completely bloodshot as a towering baleful aura burst out from his body. He stared fixedly at the God Clan's Young Master who was dragging the little wolf back, and then, he looked at Long Chen playfully. "Bastard, do you really think you can escape? In front of me, the Purple Bone Lock, nothing can escape, not even you! "

Long Chen looked at the purple bone lock, and sure enough, this thing should be what Cat had mentioned. The treasures and weapons were different, but the methods of using these treasures was a little strange, and the effects were also strange, but it was just like the purple bone lock, extremely practical!

"This Sun Devouring Demonic Wolf is the most mysterious demon beast. With your lowly status and strength, how can you be its master? It's completely sully this demon beast. Rest assured, he's in my hands, so I'll let him devour endless flames. At least, it'll increase his strength by ten times. As for you, you can rest assured! " God Clan's Young Master laughed heartily as he heard this.

There was no need for him to explain so much to Long Chen, but looking at the grief and indignation in this brat's eyes, his heart felt great.

"Big brother!"

At this time, the little wolf spoke to Long Chen using the Spirit Beast Language.

"Big brother, this God Clan's Young Master is too strong, if we can't beat him, it would be better to just let me stay with him for the time being. It can be seen that he is greedy for the abilities of the Sun Devouring Demonic Wolf, and wants to tame me. He thinks that I am a beast, but he doesn't know that I am a human. We are not his match for the time being, so I might as well follow him first, since he will let me be strong, and when I can break free of him, or when you can defeat him, we brothers will flay this guy's muscles and tendons. There will be a long period of time in the future, who knows who will win? "

This was the only way for the wolf cub.

If Long Chen continued to fight with his life on the line, it was very possible that he would lose his life. After all, he only had one chance to go against the flow of time and he encountered this kind of thing the moment he arrived here.

What the little wolf said made sense. The God Clan's Young Master did not know that the Sun Devouring Demonic Wolf was a human being, it was something he could not tame at all, he had thought that the little wolf would tame it and give the little wolf a lot of resources. When the little wolf's strength rises, it would be time to get rid of the God Clan's Young Master!

The wolf cub was completely safe, and if Long Chen were to avoid this clash, leave this place and raise his own strength, in the future, he would not be as passive and humiliating as he was today, when he faced the power of the God Clan's Young Master!

This was a humiliation to Long Chen!

He swore that he would get rid of this shame!

"Xiao Lang, promise me, I'll deal with this God Clan's Young Master. Don't do it until I do!" Long Chen's voice was trembling with cold.

The wolf cub nodded.

If he could choose from Long Chen, he would definitely be more willing to let them progress together. However, it was too early for him to meet an opponent like God Clan's Young Master, so he could only feel helpless!

At this time, Long Chen took a deep breath.

Everyone looked at this young man, although they could not deny that this young man truly had strong fighting strength, and was out of everyone's expectations, but encountering an existence like the God Clan's Young Master with such a noble status, he was truly a tragedy!

The crowd's eyes were filled with pity.

"One day, I will come back and take your life. Remember my name, I am Long Chen!"

Chapter 705 - Fourth Stage of the Earth Martial Stage

When everyone heard this, they wanted to laugh. They felt that this youth was simply too ignorant of the profoundness of heaven and earth. Right now, he was about to lose his life, yet he still dared to say such arrogant words.

But when they saw the dense blood and killing intent on Long Chen's body, they were dumbstruck, as though the youth in front of them was simply a symbol of slaughter. Although he was currently very weak, if he was allowed to become strong, the result would be terrifying!

"I swear on my blood! In half a year, I will definitely come to take your life. Wash your neck and wait! " Long Chen's cold voice resonated in everyone's ears. Those who did not see him would think that he was bragging before his death, but those who saw his appearance were mostly infected, so they felt that he was not lying!

The opening of the Archaic Graveyard had a total of one year. Long Chen had given himself a goal, which was to reach the realm where he could kill the God Clan's Young Master within half a year! If it was based on the cultivation speed in the Holy Martial Empire, this would definitely not do, so he needed to make a breakthrough, an endless breakthrough!

Long Chen's blood was boiling!

"I really can't accept it today. I want to become stronger!" Long Chen had such a strong desire in his heart, that God Clan's Young Master's stunned face was currently firmly engraved in his heart. One day, he would come back and tear it to pieces!

After hearing what Long Chen had to say, God Clan's Young Master was startled at first, but then he started to laugh out loud. He waved his hand and said, "Bastard, are you daydreaming? Someone come, get this brat away from me and kill him. If his eyes are dirty, then how dare these ants talk back and forth in front of me. This world really has changed, don't you know what god race is? "

God Clan's Young Master didn't even look at Long Chen as he muttered to himself.

Long Chen laughed instead.

"Wolf, take care!" Using the Spirit Beast Language to speak, Long Chen looked at the God Tribes experts who came to capture him, they were known as the God Tribes, and at most, they were humans, but they called him with such an overbearing title, Long Chen felt rather shameless.

Long Chen knew that even if he were to sacrifice three times, he would not necessarily be able to defeat this God Clan's Young Master. The only thing he could do now was to temporarily avoid danger and when that day came, Long Chen would definitely let this God Clan's Young Master know what cruelty was!

"Big Brother, take care!" The wolf cub's eyes also revealed a blazing light. Honestly speaking, he was also not resigned to this outcome!

He wished to travel with Long Chen for a few days, but he was forced to disguise himself in front of the God Clan's Young Master.

"The next time we meet, let's see who can wait till the next time!" Long Chen laughed, he took one last look at God Clan's Young Master, and the cold killing intent in his eyes caused God Clan's Young Master to feel slightly panicked!

It was as if what lay in front of him was not a person, but rather a gigantic beast from ancient times! That kind of bloodline nobility, gave the God Clan's Young Master a feeling of inferiority. In terms of bloodlines, he was just an ant in Long Chen's eyes!

At this time, Long Chen suddenly turned into a streak of blood light, and with an unparalleled speed, he disappeared from everyone's sight! No one would have thought that Long Chen had such a mystical escaping art! They originally thought that Long Chen was dead for sure, but they never thought that he had such a trump card!

It was only then that everyone realized that's previous words were actually meant for the Blood Escape!

The God Clan's Young Master did not chase after him. He was first frightened by Long Chen's cold gaze for a while, and only after he recovered his wits did he laugh mockingly, and said: "Wu Guangyu, oh Wu Guangyu, how did you get coaxed by such a small trash. If not speaking about half a year, he's like that, even if it wasn't for him, he wouldn't be able to surpass you in a lifetime.

Thinking of this, the God Clan's Young Master felt incomparably excited!

This Archaic Graveyard was simply the treasure of his life! Having just arrived here, he already had such good luck!

"Young Lord, that youth has run away. Aren't we going to chase after him?" One of the God Clan warriors came in front of Wu Guangyu and asked carefully.

"Do you think it's appropriate for us, with our status, to chase after a fearless ant?" He smiled as he looked at the Sun Devouring Demonic Wolf. The more he looked, the more satisfied he became.

Seeing that Long Chen was safe and sound, the little wolf cub finally calmed down a little. He knew that Long Chen was a person who did not need to worry about him at all, and he also believed that Long Chen would definitely come back within half a year!

The vow he had made would definitely come true!

As a result, the wolf cub hid the killing intent he had for the God Clan's Young Master and recovered his expression of a ferocious and ignorant demon beast.

God Clan's Young Master laughed, bringing the experts of the god race with him as he excitedly left!

The bystanders looked at each other. One of them asked in a daze: "Everyone, do you think there will be a day that this youth will fight against the God Clan's Young Master?"

"Your head must be rusting!" This is clearly a joke, with his strength, he would die without even writing it down in the Archaic Graveyard, who would put him in their eyes? "

"This kind of small fry, only you will remember."

They didn't think that they were just minor characters.

After he finished speaking, they dispersed in high spirits, but there was a high chance that today's matter would spread throughout the entire Archaic Graveyard just because of their mouths. There was a little nobody called Long Chen who actually dared to make such a challenge to the great God Clan's Young Master;

The god race was one of the two largest families in the entire Realm of Myriad Kingdoms, and was the symbol of the strongest power in the Realm of Myriad Kingdoms. In the billions of people in the Realm

of Myriad Kingdoms, there was only one god race, and within the god race, the patriarch already had such a son.

Wu Guangyu was a famous super strong Ranker in the entire Realm of Myriad Kingdoms. His cultivation had reached perfection, and he had already reached a level similar to that of a myth, but Long Chen was merely at the third stage of the Earth Martial Stage. It would take at least several dozens of years to reach this level, let alone half a year.

Even Long Chen didn't know whether he would succeed or not!

His goal in coming to the Archaic Graveyard was only to pass through the Archaic Graveyard in the beginning, but now he only had one goal, and that was to kill the God Clan's Young Master and bring this brother, Xiao Lang, back to his side!

No matter how much suffering there was, Long Chen did not mind. Although everyone would see this matter as a joke, Long Chen did not think so, because he possessed the Primordial Blood Dragon bloodline, one of the Primordial Ten Great Ancestor Dragon s! He was a supreme existence, and all he needed was time to grow!

Faith was the first essential element of cultivation!

Long Chen used his Blood Escape and flew 10 miles away, he did not dare delay any longer, while using his physical strength to travel, he used the king crystal to recover his Qi. In the Holy Martial Empire, Long Chen had killed many people, and in the end, brought out 3000 king crystal s, but for the current him, 3000 king crystal s were not enough, of course, Long Chen could use the blood essence of demon beasts to recover, but he had not seen any demon beasts that helped him!

After running for a long time without anyone catching up, Long Chen confirmed that the god race people could not find him anymore. Only then did he find a quiet and concealed cave, and hid his body inside. In the first moment, Long Chen took out over a thousand king crystal s, to recover his own true essence!

Countless king crystal surrounded him, and the dense Wu Yuan on top of them were all swallowed by Long Chen, turning into his own dragon soul true essence!

Facing such an expert today, Long Chen's entire body was tense. He was furious to the point that his blood was boiling! But at this time, after he relaxed and his strength had steadily increased, Long Chen unexpectedly had a very refreshing feeling.

"God Clan's Young Master" had completely recovered his true essence, and half a day had already passed. Long Chen stood up in the middle of the mountain cave, his eyes flickering with flames of hatred as he looked in the direction just now.

Long Chen knew how strong the god race was and knew that he would be treated as a laughingstock by others, but he didn't care. A true strong warrior would not care about the ridicule from others.

In the Holy Martial Empire, Long Chen was one of a kind. However, ever since he came to the Archaic Graveyard, he had gradually understood that he was only at the lowest level, a level that others could easily trample on!

"Nothing is more important than cultivation. Only by being strong can you control your own destiny," Long Chen sighed helplessly. Of course, his heart was still full of fighting spirit!

Whoa!

In the narrow cave, Long Chen started to practice the fourth stage of Earth Martial Stage's Earth Martial Arts!

From the moment he had reached the third stage, Long Chen had been working hard for the fourth stage. While he was training the Scarlet Emperor Burning Heaven Seal, Long Chen had not forgotten about the increase in realm, and after an entire month had passed, under the suppression from the God Clan's Young Master, Long Chen had accumulated quite a bit. In a few days, Long Chen had attracted a chance to break through!

Ha!

In this narrow mountain cave, Long Chen's fist aura was moving in a profound trajectory, moving the power of the earth abnormally, completely merging with the ground itself. His speed first became faster and faster, until it finally became a series of afterimages, and couldn't be seen clearly, then slower and slower, the slower it became, the more mystical and beautiful it was!

"The fourth stage of the Earth Martial Stage, should this be the feeling?" Long Chen was calm as he explained the profoundness of the fist art. The fist art was the basis of all attacks, after comprehending the fist art, he was more or less clear about the rest of the attacks. It was just a change of form.

Chapter 706 - Iron Demonic Wolf

In this small cave, with Long Chen controlling the soil on all four sides, the wind created countless of fist imprints on the walls of the cave, and when the cave was completely filled with fist imprints, Long Chen had been practicing for four days straight!

The reason why he was able to break through to the fourth level of the Earth Martial Stage this time was related to the suppression he had received from the God Clan's Young Master earlier. The opponent's strong aura was suppressing Long Chen's body, causing Long Chen's true essence to explode once again!

As he cultivated, the dragon-shaped Martial Spirit in his sea of consciousness gradually grew stronger, becoming more and more corporeal, and the might it possessed became more and more terrifying. The dragon-shaped Martial Spirit gave Long Chen a sense of fear, but he also understood that this was actually his own martial spirit.

Humans had a soul and a martial soul, and when the soul masters thought about it, they were split into three souls and seven souls. The martial soul was formed from cultivation and possessed a physique, so it could control the body's true essence. It was the core of the battle and was also Long Chen's original consciousness in the sea of consciousness.

The evolution of the martial spirit meant that Long Chen's power had evolved. More and more earth vein spirit came out of the vast earth and entered Long Chen's body, allowing him to control more and more dragon soul true essence, and his power became stronger and stronger!

BOOM!

A berserk energy was unleashed from Long Chen's body!

"The fourth stage of the Earth Martial Stage is already so powerful. If the God Clan's Young Master were to fight me, he would probably be able to crush me to death with a single finger." Long Chen was deeply aware of the gap between the two of them.

On the other hand, it was impossible for the God Clan's Young Master to reach the Heaven Martial Stage, but the gap between them should not be too wide. That level of cultivation was not something Long Chen could contend against right now!

However, he wasn't in a hurry.

"You want the wolf cub? Since that's the case, then I'll let you raise him. When that time comes, I'll bring him back. I really don't know how wonderful your expression will be then. Little wolf, is it something you can tame?"

A few days later, Long Chen's cultivation had already stabilized at the fourth stage of the Earth Martial Stage. If he could use the Dragon Soul Transformation, he would be able to reach the fifth stage of the Earth Martial Stage, and he still had many divine powers, especially that Scarlet Emperor Burning Heaven Seal, which he could use to kill the sixth stage of the Earth Martial Stage.

Staying in the same place forever, there was no way for him to improve. After stabilizing his strength, Long Chen adjusted his mental state and started his journey again!

Fight to the end!

Long Chen used Spirit Devouring Demon Pupils to travel through the dense forest. The forest was extremely huge and was lush and verdant, and there were even many spirit medicines growing in it. Long Chen noticed that there were some areas that were in complete disorder, and it was obvious that there were traces left behind by battles.

Over ten thousand people were scattered around the Archaic Graveyard. Since the Archaic Graveyard was so big, Long Chen did not see many people along the way. There were many traces of fighting, and there were even some large trees that were uprooted.

"The slaughter of the Archaic Graveyard is truly tragic!"

Long Chen squinted, and walked past the marks.

"There are sounds of people fighting in front of us. Someone should be here." After a while, Long Chen could roughly hear the voices in front of him, he realized that amongst all Archaic Graveyard, the thing that was the most blocked out was information. He did not understand what everyone understood, and that would put him in a very passive position, so he had to understand these things first, so he had to start from someone else.

Hearing the sounds of fighting, Long Chen immediately rushed over.

In the process of advancing, he noticed that the trees around him had shrunk.

"This is the edge of the forest?" Long Chen realized this point. The trees and flowers were decreasing, and the birdsong and fragrance of the environment was also gone. As he moved forward, Long Chen left the forest and suddenly felt a sense of clarity.

In front of him, a dazzling metallic light could be seen.

Long Chen squinted, and looked at the scenery in front of him. In front of them was a large area. It was a place completely different from the forest. This place was more suitable for the Archaic Graveyard in Long Chen's eyes, but there was a slight difference.

The only thing it had was a barren dark brown land. When Long Chen looked carefully, he discovered that this dark brown land was covered with fine, dense metallic sand, and everywhere he looked, there was this kind of fine metallic sand. Although the dark brown land was still made of mud, it looked similar to metal and steel.

In the distance, there were even many large pieces of steel that stuck out from the ground. They were malevolent and sharp, and under the rays of the sun, they emitted cold rays of light. There were even some bloodstains on them.

Before his eyes was a world of steel.

This world was no smaller than the one in the forest.

"Archaic Graveyard, Five Emperors' Treasures, I understand. It is possible that this Archaic Graveyard is divided into five regions. The area that I was in just now should belong to the 'Mu' area, and the area that I am in now should belong to the 'Jin' area."

From this, it could be seen that the Archaic Graveyard was truly mystical.

After seeing this vast dark brown land and the piece of metal that occasionally exposed the ground, Long Chen's gaze was attracted by the sounds of fighting. This was a battle between humans and demon beasts. The first thing that caught Long Chen's attention was the demon beasts, this was a small pack of demon wolves, with a total of about ten or so, and each of them was about the size of a horse. However, Long Chen knew that they had probably changed their physiques in order to adapt to the battle situation, their physiques should be about the same as the little wolves.

This Archaic Graveyard was terrifying, even the demon beasts within were terrifying. The demon wolves fighting those people in front of me right now are at least at the king level four level, and the demon beasts at the king level four level, actually appeared at all in such a short time. It's a little bit scary, really.

The most miraculous thing about these demon wolves was that they did not look like demon beasts, but metal. That's right, these gray demon wolves looked like a type of gray metal. This gray metal was hard on the places it should be hard on, tough on the places it should be tough on. Even if the blades were to cut into their bodies, it would be difficult to injure them.

This body was much stronger than the Little Wolf's body. If Long Chen didn't feel the blood energy from their bodies, he would have mistaken these Iron Demonic Wolf s as a kind of puppet.

Each of these demon wolves had one or two human opponents. These Iron Demonic Wolf were extremely powerful. They pounced on one another and clawed at one another. The metallic sand on the ground danced wildly. The ground that was as hard as steel was even covered with huge craters, and the attacks of these humans were often unable to cause this kind of earth-shaking effect!

"Brothers, stop!" If we kill these demon wolves and sell the 'Limestone Gold' and the 'Demon Core' on their bodies, we will be able to get quite a few king crystal to buy other things. This' Limestone Gold 'is sold at an extremely high price! " A hoarse voice sounded from the crowd.

Long Chen looked over. This man was tall and sturdy, with tanned skin and a face filled with fiendish aura. The most sinister part was the scar on his face.

"Isn't this guy the Du Jiu who was with Shao Yu?" On the Star Plate, the fatty called Shao Yu had even introduced many things to Long Chen. It was also because of him that Long Chen had met the young master of the God Clan.

With Du Jiu here, Shao Yu was definitely here. After searching for a while in the crowd, Long Chen discovered that fat Shao Yu was eating sh * t while battling against a demon wolf, he was a warrior at the fourth stage of the Earth Martial Stage, holding onto a gigantic black axe, releasing a dense cold light. Under his control, the axe flew towards the Iron Demonic Wolf, instantly attacking fiercely!

However, Long Chen realized that the Iron Demonic Wolf was extremely nimble and did not want to clash with Shao Yu head on. At this moment, Shao Yu was already panting, the rest of them were already on the verge of winning, his stamina seemed to be running out.

"Great Lei vulture, help me!" When his Quintessential Essence was almost exhausted, Shao Yu's face was pale white, but that Iron Demonic Wolf seemed to not be tired at all, as it continued to fight even more fiercely!

The Iron Demonic Wolf's fighting technique was extremely sharp, it had been passed down for many generations, under their observation, it had already reached its peak. Their claws and teeth, even if it was the real sword shadow of steel, could still leave deep scars on Shao Yu's axe, but when Shao Yu's axe cut down on its body, it was actually difficult to kill them!

This kind of demon beast was invincible in the Holy Martial Empire. Even the Martial Emperor Zhao Wuji back then wouldn't necessarily be able to deal with such terrifying demon wolves. Their physical bodies were simply too strong!

Even Divine Phoenix Bird may not be able to deal with one!

However, he acted as if he did not hear her, and continued to easily deal with his own opponent. This Du Jiu had the strength of at least the sixth stage of the Earth Martial Stage, and was much stronger than Feng Xuan's cultivation, so it was extremely easy for him to deal with the Iron Demonic Wolf s. However, he chose not to make a move.

"Boss Du Jiu!" Shao Yu had already given up hope, all of them had made an appointment, but he was the weakest out of the group, so Du Jiu normally did not think much of him, but now he did not even save him, causing Shao Yu to feel a chill in his heart.

And at this time, the Iron Demonic Wolf in front of him let out a terrifying roar, its steel mouth suddenly opened wide, and instantly pounced towards Shao Yu. Shao Yu was shocked, he immediately used his axe to block in front of his eyes!

Clang!

The Iron Demonic Wolf's teeth had deeply bitten into Shao Yu's axe and its teeth had deeply sunk into his body. Shao Yu felt a terrifying strength come from his arm, which nearly caused his axe to fall out of his hands. He gritted her teeth and used the last of his true essence to control the axe in his hand!

Chapter 707 - My life is over

The Iron Demonic Wolf's eyes turned blood-red, and the steel on its body let out a sharp rubbing sound as it wriggled. It was extremely terrifying, and with a sudden burst of strength, Shao Yu's axe was actually thrown flying by it, the huge force pulled Shao Yu's body forward and fell down, and at this time, the Iron Demonic Wolf released an excited roar, and bit towards Shao Yu's neck!

"My life is over!" Shao Yu's face became deathly pale, he struggled with all his might, but it was completely useless. The other party's strength was astonishing, and every move he made contained the power to move mountains and fill the sea, making it impossible for Shao Yu to resist. Seeing that the Iron Demonic Wolf's teeth were about to bite down on his neck, Shao Yu's eyes were filled with despair.

It was at this time that a strong aura suddenly came from behind Shao Yu. An attack instantly passed through Shao Yu's body and ruthlessly smashed onto the jaws of the demon wolf. The attack of the kick directly sent the demon wolf flying!

Clang!

"Boss Du Jiu!" Before Shao Yu died, he was saved, and thought that Du Jiu had saved him, when his eyes suddenly revealed a grateful expression, he looked towards the people in front of him, but did not expect that the person he saw was not Du Jiu, but the back of a youth. When he turned his head, Shao Yu looked at him in confusion, as if he had seen this person somewhere before.

"You are, I remember now. You are the Long Chen that I met on the Star Plate?" Shao Yu's face revealed a terrified expression. He remembered that Long Chen's strength was probably only at the third stage of the Earth Martial Stage, yet he was actually able to knock that demon wolf flying so easily?

"Do you remember my name?" Long Chen laughed and his appearance caused everyone to be stunned. Only when Shao Yu called out his name, did they remember that he was such a person, but at that time, Du Jiu thought that Long Chen was also a piece of trash who would drag them down.

Shao Yu's heart was filled with gratitude and shock. He still didn't know what to say, but the demon wolf that was just blown away behind Long Chen had already angrily rushed over, and after being kicked by Long Chen, the ferocity of the Iron Demonic Wolf was completely activated!

"Long Chen, be careful, quickly dodge!" That was why Shao Yu was so worried. He suddenly rushed towards Long Chen, wanting to break Long Chen's attack, but did not know that his axe had already flown out.

Long Chen turned around and looked at the bloody demon wolf charging towards him. He didn't even furrow his brows, at this moment, his left hand had already turned into a Dragonsoul Transformation, his entire arm was covered with blood-red dragon scales, those sharp claws, was like the sharpest blade!

The Iron Demonic Wolf roared. Long Chen's body looked much smaller than the others, and he was definitely less threatening as well. He never thought that Long Chen would actually dare to attack him! Being attacked by the weak was a disgrace!

Although the Iron Demonic Wolf's body was tough, its speed was still extremely fast. As it moved its soul, it flashed past many afterimages and instantly arrived in front of Long Chen. Those ice-cold teeth, bit towards Long Chen's head!

"Be careful!" The Iron Demonic Wolf pounced towards Long Chen, but Long Chen did not seem to react. Shao Yu was extremely frightened, even if he wanted to save his, it was already too late.

Whoa!

Just as the Iron Demonic Wolf was about to swallow Long Chen, Long Chen's arm that had turned into a dragon claw suddenly moved. His arm's movement was much faster than the Iron Demonic Wolf's speed, the blood red claw instantly pierced into the Iron Demonic Wolf's lower jaw!

Dang! Dang! Dang!

A sharp sound of metal scraping against metal rang out!

The Iron Demonic Wolf let out a terrified roar, and at this moment, Long Chen's claws had all stabbed into its lower jaw, deeply sunken in, at a place where even Shao Yu's axe couldn't cut through, yet, they were directly pierced in by Long Chen's claws.

But at this time, Long Chen grabbed onto the Iron Demonic Wolf and suddenly unleashed its power. The Iron Demonic Wolf that was as heavy as a mountain was swung up by Long Chen and smashed fiercely onto the ground, causing the entire mountain to shake!

"You, a beast, want to eat me?" Long Chen let out a cold laugh, his fingers dug deep into the other party's lower jaw, and flung him continuously into the air, smashing him ruthlessly onto the ground.

Kcha! *

The Iron Demonic Wolf's head was directly grabbed by Long Chen!

Headless!

As a result, this Iron Demonic Wolf was already dead.

After Long Chen killed the Iron Demonic Wolf, he activated the Blood Refinement Qi on its body. The skin of the Iron Demonic Wolf was very hard, but its flesh and blood was still inside.

These essences could only make Long Chen's primeval essence increase, reaching the pinnacle.

From his appearance to the time he killed the Iron Demonic Wolf in front of them, it had only been a short while. Everyone looked at this scene in a daze, especially Shao Yu who was completely dumbfounded. Long Chen's strength far surpassed that of the Iron Demonic Wolf.

As for the others, they naturally didn't understand how an ordinary youth could have such combat strength!

's eyes slowly narrowed. Previously, he had felt that this youth was at most at the third stage of Earth Martial Stage, and judging from the true essence he had displayed earlier, he should have already reached the fourth stage of Earth Martial Stage.

"Have you broken through?" The fact that this youth was able to unleash such power must be a secret. I have to keep him alive, Du Jiu thought to himself.

"I wonder what level of combat strength this youth can display at the most?" For the time being, I will keep him here and wait for him to find out before making my move.

As for Shao Yu, Du Jiu did not care about him anymore.

did not save him when he was in danger just now. Instead, it was Long Chen who saved him. It was clear who was a good person and who was a bad person.

Because of Long Chen's outstanding performance, the others were all shocked for a moment. Originally, many people were around the same size as the Iron Demonic Wolf, but now that their hands were moving a little too slowly, the Iron Demonic Wolf s grabbed this opportunity and unleashed all sorts of violent methods, actually forcing them to retreat bit by bit!

"Concentrate on dealing with your opponent!" Du Jiu called out, he increased his speed, and before long, he had killed his own opponent, and at the same time, he had also joined in the battle with the other people, helping them kill their opponent. More and more people came out empty, and the Iron Demonic Wolf s were all killed.

Long Chen did not help with their battle.

Shao Yu went to retrieve his own axe. This black axe already had many cracks on it and he reckoned that he would not be able to use it for long, as faint black light leaked out from the broken parts.

"Little brother Long Chen, I never thought that your strength would be so strong, I really have to thank you this time!" Shao Yu's face revealed an expression of gratitude.

"I happened to pass by here by chance, I didn't expect to meet you here. I can only say that there is some fate between us." Long Chen laughed.

Shao Yu laughed honestly. He suddenly thought of something and said: "Little brother, where are you planning to go next? He's going to the 'liujin region' with us. Or to return to the 'Greenwood Region', or to some other place? "

Long Chen did not answer and asked instead, "Do you know much about this Archaic Graveyard? Where are you going? "

Shao Yu scratched his head, and said: "I don't really understand it, but at least I understand it better than you. We are going to liujin region!"

"Iron City? "Where to?" Long Chen asked.

"Uh, there are too many things you don't know. Little bro, why don't you come with me? I'll slowly tell you everything I know. How about it?" Shao Yu said with great anticipation.

There was anxiety in his eyes.

Long Chen more or less knew what he was thinking about in his heart. From the actions of Du Jiu just now, he could tell that he did not treat Shao Yu's life as anything much. If he continued to mix with them, Shao Yu would very quickly lose his life.

At this time, Du Jiu had already led the others and killed all of the Iron Demonic Wolf s. The others were excitedly cleaning up the corpses of the Iron Demonic Wolf s, and Du Jiu walked over with a few warriors at the fifth level of the Earth Martial Stage. With a smile on his face, he looked at Long Chen and said: "This little brother, thank you for saving our brother just now.

Long Chen clearly remembered that on the Star Plate, this Du Jiu had even called him trash. He didn't expect his attitude to have a complete change so quickly.

At this time, in order to preserve his life, Shao Yu quickly asked: "Boss Du Jiu, Brother Long Chen came to the Archaic Graveyard alone, and is not knowledgeable about this, so why don't you let him join us and go with us to the Iron City. With his strength, you guys should have seen it right?"

Long Chen didn't blame him, Long Chen was a free man, he wanted to clarify the situation of the Archaic Graveyard now, and after he was clear about the situation, it would not be too late for him to leave.

Du Jiu is waiting for Shao Yu to say those words, he doesn't want to miss this young man who has a secret like Long Chen. Thus, he hurriedly nodded his head: "Brother Long Chen has an extraordinary cultivation, at such a young age, so of course you have the qualifications to be along with us!"

Hearing Du Jiu's permission, Shao Yu's heart filled with joy, and immediately looked at Long Chen with expectation. Long Chen thought for a moment, then nodded: "Since it's like this, then thank you very much, Boss Du Jiu, for taking care of me."

A cold light flashed in his eyes.

"You're after me? "Hehe, you don't want to live anymore."

Chapter 708 - liujin region

After discussing with them for a while, Long Chen followed this warrior's small team and left. The only person he was familiar with here was Shao Yu, the others were all extremely ferocious and rarely talked to Long Chen. As for the big brother Du Jiu, he did not say anything and completely separated Long Chen and Shao Yu from the rest.

Long Chen knew that this Du Jiu was just trying to trap him by his side. He still could not figure out Long Chen's strength, and was afraid that Long Chen would have some kind of trump card that would be difficult to resist.

Under Du Jiu's lead, everyone walked onto this ice-cold dark brown ground. The ground was covered with fine, metallic sand, and the ground was extremely hard. This caused the hardness of the ground to be comparable to real steel. Everyone stepped on the ground and the iron sand on top of it emitted a rustling sound as it rolled.

Du Jiu and the others were walking in the front, and one of the sturdy men walked to the side of the vulture and said with a gloomy voice: "Boss, when are you going to attack that brat? I think he doesn't have much strength, so I think I can cut him into two! "

"Don't worry. If he encounters any danger later and lets him charge in front of us, I will first ascertain his strength. This kid is a bit mysterious, we cannot easily make a move against him." Du Jiu sneered and said.

"Mystical?" The sturdy man laughed coldly, he turned and glanced at Long Chen, but he could not see anything special about him. He frowned and returned to his seat. He rubbed his fist a few times.

Their voices were not heard by Long Chen, but when the two of them whispered to each other, Long Chen was able to guess what they were talking about. He sneered in his heart, The reason why he had mixed in here, was because he had two reasons. First, to understand this world more from Shao Yu's mouth, and secondly, because Shao Yu was a good person, at least he treated Long Chen well, Long Chen understood that if Shao Yu was allowed to follow them, even if he did not die this time, he would definitely become cannon fodder the next time.

"Brother Yu, tell me, what's with that Iron City thing?" Long Chen walked to Shao Yu's side and asked.

"You haven't heard about the Archaic Graveyard's affairs, so you don't know about it ah, but actually, the seniors of the Realm of Myriad Kingdoms have already come here many times. When they first came here, they suffered heavy losses, and after they learned from it, they made some rules, which the entire Realm of Myriad Kingdoms agreed to enforce. With the nine great clans overseeing it, even the nine great clans would abide by these rules. And the city is one of the rules. " Shao Yu said somewhat sorrowfully.

"What exactly?" Long Chen continued to ask.

"Among the Archaic Graveyard, there are a total of five regions. They are the liujin region, the Greenwood Region, the heavenly water, the Mysterious Fire Region, and the Deep Earth Region. We are currently in the liujin region, one of the Five Great Regions is a wasteland, but, in every region, there is a special place, and that is the abandoned cities that were left behind from the ancient times. For example, in the liujin region, there are many Iron City! "

"What is the use of this Iron City?" Long Chen asked.

Shao Yu chuckled: "In the liujin region, this is where we rest, you should know that the Archaic Graveyard is filled with treasures, these treasures are all in some mysterious place, even if there are any other places, they would normally be taken away by the ancestors, to fight for these treasures, everyone who comes to this Archaic Graveyard has to fight for them, to snatch what is in the hands of others, and to obtain the qualifications to go out, many people would lose their lives here, the losses suffered by the ancestors are truly too great, so the ancestors have jointly made some rules. For example, because there are no basic treasures in these cities, so the Nine Tribes have to include the Nine Tribes in the forbidden grounds. This is because killing is prohibited here. If anyone is discovered, they will be punished by the nine great clans' personnel stationed here! "

Shao Yu spoke a lot in one breath, and after he finished speaking, he started laughing while looking at Long Chen: "Of course, we came to the Archaic Graveyard to kill them, and because wealth comes only in danger, we cannot stay in the Iron City forever, so there is a rule that every person can't stay in a city for more than a month, or else they will be automatically expelled from this city! Boss Du Jiu's plan is to use the city as a foothold, and search for and fight for the treasures around here. When we are out fighting, if we suffer any losses, we will return to the city.

Long Chen nodded, so it was like that.

"As long as it is a city guarded by nine great clans, it will carry out this rule. If there isn't a city guarded by nine great clans, then of course, that city isn't counted. The nine great clans are the first to move, and as long as we move in that direction, we will definitely be able to find a city." "Then you won't have to be as scared as you are now." Shao Yu said.

The effects of those cities were indeed enough to give the practitioners a place to rest and to slightly ease up. This was a convenience which the nine great clans provided to ordinary warriors. However, Long Chen had another idea.

"As long as those ordinary warriors go to the city, they might be under the supervision of the nine great clans if they get the treasures." As long as those ordinary warriors go to the city, they might be under the supervision of the nine great clans if they get the treasures. Long Chen thought in his heart.

He suddenly thought about the fusion of the ancient tombstone token and asked, "What exactly is the situation with the fusion of ancient tombstone token that you mentioned?"

"You don't even know that?" Shao Yu's face was full of shock.

Seeing Long Chen's blank look, he had no choice but to say: "The competition for the treasures is the origin of the similar slaughter that happened in the Archaic Graveyard, and the fusion of ancient tombstone tokens was also the source of the slaughter. Every one of us had an ancient tombstone token, but it was grey, and this ancient tombstone token recorded our true essence information and knew our approximate strength.

"How many other ancient tombstone tokens will I need to fuse with in order to reach gold?" Long Chen was more concerned with this issue.

A look of helplessness flashed across Shao Yu's face as he said: "Someone from our level should have roughly calculated it, if it's someone from our level, they would be able to turn golden after killing ten or so opponents from the same level, and if it's at a higher level, the number of them would be lower. But the God Clan's Clan Chief's level, every time they are able to leave safely, I reckon the ones who have the worst requirements are all us from the lower levels, I really don't know who my ancient tombstone token will end up fusing with."

Every time over ten thousand people came to the Archaic Graveyard, only a few hundred would return, or even fewer. From this, it could be seen just how terrifying the battles in the Archaic Graveyard were. The chances of surviving were close to one percent, but those who survived were basically all peerless powerhouses, so even though they knew very well that they were going to die, there were still many people who wanted to come and fight!

Wealth comes from danger!

"Before reaching gold, I couldn't leave the Archaic Graveyard, and every time the Archaic Graveyard opened, it was around a dozen years or so apart. Doesn't that mean that a lot of the people who entered the last time haven't left?" Long Chen thought of this question and asked.

"You are really smart to be able to think of this so quickly. I was wondering too, this is the most mysterious thing in Archaic Graveyard." As Shao Yu said this, his eyes showed fear.

"What's going on?" Long Chen asked.

Shao Yu said, "I heard from others that every time the battle in Archaic Graveyard was about to end, there would still be more than a thousand people who were still alive. Amongst them, one third of them already had golden ancient tombstone tokens, and the remaining few hundred were left behind, along with some warriors who were at the eighth level of the seventh stage of the Earth Martial Stage. These people have a lifespan of several hundred years, so they could easily survive in this Archaic Graveyard."

Long Chen squinted his eyes.

The ancient tombstone token that have been distributed, the teleportation formation, the fusion of the ancient tombstone token, all of these situations clearly indicate that someone is controlling the Archaic Graveyard, and when we come to this Archaic Graveyard to compete for the treasures, it feels like a

game in the eyes of others. We are playing chess, and who is the one playing chess, the one from Three Great Imperial Domains?

Long Chen was not stupid, he could easily think of this point. From this point of view, those who had not fused into the Golden ancient tombstone token yet, and those who were still left behind, were most likely 'cleaned up' by the people who laid down the game. After they had been cleaned up, they would come again every ten years for the next game.

There must be some eyes in the darkness that was examining Long Chen and the group of ants that were trying their best to kill from a high altitude.

"Indeed, the strong have limitless power. The weak like us can only be manipulated by others." Long Chen was extremely unresigned in his heart, but it was a pity that he was completely powerless. Right now, he couldn't even suppress a single God Clan's Young Master, let alone others.

Since even the little wolves could not protect him, Long Chen had a clear understanding of the reality. That was, he was simply too weak! With such strength, if he went to Imperial Domain, he would only be humiliated!

"Right now, I should increase my cultivation as fast as possible and find treasures of other attributes to complete such a heaven defying battle skill like the Five Emperor Prints as soon as possible. In Archaic Graveyard, there shouldn't be many people who can use Royal Level battle skills."

Chapter 709 - Legends of the Seven Monarchs

At this time, Shao Yu sighed with emotion: "People die for money, birds die for food, so I didn't know what happened to me back then, I got a fever and stole an ancient tombstone token, then mysteriously came here, and came here, and after witnessing the slaughter here, I regret it now, but it's already useless. I don't feel that it's a pity that I can't keep my life here, so I might as well work hard, if I could obtain the inheritance of the 'Seven Monarchs', I would even be willing to die."

Shao Yu's unintentional emotional reaction attracted Long Chen's attention. Long Chen hurriedly asked: "Brother Yu, what is the Seven Monarchs's inheritance that you're talking about?"

"You don't even know this, why did you come to the Archaic Graveyard?" Shao Yu was truly at a loss for words for Shao Yu. After a pause, he explained, "In this Archaic Graveyard, there are countless treasures left behind by the experts of the Middle Paleogene, and some people obtained these treasures and

went back to the Realm of Myriad Kingdoms to become respected experts. Among the nine great clans, other than the established Five Elements Alliance, the others also rose up because of the treasures of the Archaic Graveyard. That is because they have obtained the inheritance of the 'Seven Monarchs'! " Shao Yu's face revealed an excited expression, and his eyes were full of yearning.

"Even the two races of God Tribes rose because of this Archaic Graveyard's treasure?" Long Chen was slightly startled. To be able to become so powerful, it could be seen that the treasures of the Archaic Graveyard were truly powerful.

"Everyone knows, there are countless treasures in Archaic Graveyard, such as Divine Weapons, Magic Treasures, Spirit Medicines, Battle Skills, and many other mysterious things. And the most famous one is the inheritance of the Seven Monarchs, that is the wish of every single warrior who comes to the Archaic Graveyard!"

Long Chen did not know about the Seven Monarchs, he only knew about the Five Emperors' Treasures. The legendary Five Emperors of the Realm of Myriad Kingdoms were buried in the ground of the Archaic Graveyard. Why did Shao Yu not talk about the inheritance of the Five Emperors, but rather the inheritance of the Seven Monarchs?

"Seven Monarchs? What are they doing? Don't they have any inheritance from the Five Emperors? " Long Chen asked.

Shao Yu looked at him with eyes that could not be saved, and asked with widened eyes: "Five Emperors? The inheritance of the Five Emperors was something that only existed in legends. No one had been able to obtain news of it for countless years, and no one believed it. How could such a thing exist? The inheritance of the Seven Monarchs is the most realistic, and also the most pinnacle treasure of the Archaic Graveyard! "

Long Chen secretly thought: "Looks like no one has been able to find that Five Emperors' Treasures before. What is the difference between the five-color key I got this time and the Five Emperor Prints that I have now?"

This doubt was something that Long Chen could only keep in mind for the time being.

Just then, Shao Yu told him about the Seven Monarchs.

"In the Middle Paleogene, of the experts who followed the Five Emperors in the war, seven of them were the most famous, and they were the experts that the later generations called the 'Seven Monarchs'. According to the legends, they were only a step away from Divine Martial Stage, because they were the peak existences in the Heaven Martial Stage, with a lifespan of more than two thousand years! Among the Seven Monarchs, there are the Demon God Emperor, the white lotus, the Blue Lotus Emperor, the True Monarch Xuanyan, the Sevenstar Monarch and so on. The legacies of the Demon God Emperor and the white lotus have already been obtained, but the legacies of the other five Monarchs are still present.

Without a doubt, these two races had obtained the legacies of the Demon God Emperor and the Divine Demon Realm respectively, and also possessed the same situation as today. In other words, these two races were created by the white lotus and white lotus!

Long Chen naturally could guess.

The strongest people in the Heaven Martial Stage had long ceased to exist, and the inheritance of such a strong individual was revered as the most valuable treasure by the billions of people in the Realm of Myriad Kingdoms. This was only natural because the inheritances of the Demon God Emperor and the white lotus could produce the gods and devils, which showed just how terrifying the inheritances of the Seven Monarchs were.

"If I can also obtain the inheritance of one of the Monarchs ..." As Long Chen listened, his heart also had the same desire. For the time being, he did not have much desire for the legendary Five Emperors' Treasures, but as for the inheritance of the Seven Monarchs, if Long Chen was able to obtain one of them, he would have his own back to rely on when he goes to the Three Great Imperial Domains in the future.

"Of the legacies that I have not obtained, there are still five left. Seems like I can still fight for them, and if I were to obtain these legacies, I might be able to defeat the God Clan's Young Master and bring the Little Wolf back."

If he did not bring the wolf cub back in a day, Long Chen would feel extremely uneasy. The wolf cub said that it was fine and he could protect his own life, but what if an accident happened and God Clan's Young Master went berserk? What if the God Clan's Young Master had some terrifying method to deal with the wolf cub?

These were all things that could happen!

"If anything happens to the wolf cub, I will make the entire god race accompany me in death. No matter if I'm strong enough or not, I will!" Long Chen gritted his teeth and silently swore!

When he thought about God Clan's Young Master's disdainful smile, Long Chen had the impulse to pinch him to death!

"Let's wait and see." Long Chen lowered his fist and stabilized his emotions.

"Brother Long Chen, what's wrong? You also want to obtain the inheritance of the Seven Monarchs? As for me, Shao Yu, as long as I don't have a family background, no potential, no looks, no connections, no hard work, everything is ordinary, and a person like me should die a quicker death, I don't have any special characteristics, the only special one is that I am fat enough! "

Shao Yu laughed, but how could Long Chen hear it, in his smile there was helplessness.

Indeed, in this world, many people were ordinary. There were no bright spots, and they would not be remembered by others. Sometimes, even he looked down upon himself. Before Long Chen left White Yang Town, he was also such a person. He ate and ate until he died everyday, without finding any goal or courage to let him live.

The moment Long Qinglan closed his eyes, the moment Ling Xi had left, Long Chen had become like a machine that had been wound up. He was not tired, he was fearless, and when he stepped onto this long journey with no future, he realized that he also had a life and goal.

As for Shao Yu, he was in the same state as Long Chen was in a long time ago. He had neither life nor goal. He was very ordinary, and everything was flowing along with him. When fate told him to die, he would naturally die. Aside from a pile of dirt, there were no other traces left behind.

Long Chen didn't know how to tell him these reasons.

"Do you have a goal of your own? What kind of person do you want to be? " Long Chen suddenly asked.

Shao Yu was startled, and said: "Pursuit? I don't know, my parents are gone, the people I like are also gone, the only reason I'm alive is probably because I'm afraid of death. If you didn't save me earlier, I would have been scared to death myself. "

"..."

These were all his personal matters and Long Chen felt very helpless. He was somewhat fortunate that his life and Shao Yu's were different. Even though it was very tiring, it was still very fulfilling;

Walking on this dark brown iron-sand land, the road here was actually not even smooth. Sometimes, a huge mountain made entirely out of rusted metal would appear beside him, and a desolate smell of rust spread out from it, causing Long Chen to retch a little.

The wind coming from all around was filled with this disgusting smell.

During their journey, they encountered another attack from a Spirit Demon beast, but this time, it was just a king level four scorpion, its entire body was black metal, and its eyes were filled with viciousness. A mere king level four dared attack them, and was quickly killed by a tall warrior beside Du Jiu.

After the warrior got rid of the scorpion, he gave Long Chen a provocative look, as if Long Chen had turned a blind eye.

The reason why he was still staying here, was because he felt that he could not just watch Shao Yu become someone else's cannon fodder. Long Chen was a very righteous person, and the reason why Shao Yu called him brother would be something that he would remember in his heart.

As they passed through a small mountain formed from metal, they suddenly heard the sound of a battle from in front of them. Everyone's expressions changed, with the exception of Long Chen and Shao Yu, who surrounded Du Jiu, their eyes cold and bloody.

"Let's go and have a look quietly!" Take advantage of the situation! " Du Jiu said gloomily, and then everyone followed him, crawling on the ground as they headed forward, the distance between them was only less than a mile, through the Spirit Devouring Demon Pupil, Long Chen could easily see the situation over there.

At this moment, there were two groups of players fighting. The battle had already reached its end. The scene was quite tragic. There were blood and corpses everywhere. The two squads originally had five or six people on them, but now only two people were left in battle!

"Bastard! You actually killed so many of my brothers! Hand over that axe and I'll spare your life!"

Long Chen and the rest advanced a little further, and they were able to see the situation ahead with their naked eyes. After seeing this, a look of pleasant surprise suddenly appeared in the eyes of Du Jiu and the rest. Of the two groups in front, only two were left.

Both sides attacked very viciously, so it was everywhere with the exception of the broken arms.

The one who spoke just now was a relatively short martial artist, and the other yellow-clothed man was currently crazily fighting with him. He maliciously shouted, "We obviously got this axe, but you guys came to steal it.

"Dream on!" Go to hell! Hun Yuan's finger gun! "

Chapter 710 - Blue Light Ax

The battle between the two was quite intense and they basically ignored each other's attacks. If they desperately tried to take each other down, then both of them would probably die at the same time. And Du Jiu and the rest had gotten a huge advantage by coming here.

"Little brother Long Chen, these two are already at the brink of death. If you join our team, you won't have a chance to show off, and I'll leave these two to you!" Du Jiu turned his head and said to Long Chen with a smile.

His smile was indeed cold.

The two people in the middle of the battle, should have the strength of the fifth level of the Earth Martial Stage. The reason why Du Jiu was able to easily deal with them and let Long Chen take action was simply to see how strong Long Chen was.

"They are fighting, and are done with, we just went up to take advantage of them, why do we need Brother Long Chen to go up?" Shao Yu asked curiously.

He didn't know that Du Jiu was planning something for Long Chen. This fatty was really a bit too stupid. Otherwise, he wouldn't have joined this team.

Du Jiu's group killed people without blinking an eye, but Shao Yu's nature was kind, how could he mix in with them?

"Fatty Yu, if these two escape, you take responsibility!" Beside Du Jiu, many warriors stared at Shao Yu like he was their prey, forcing Shao Yu's words back.

Long Chen laughed, without saying a word, he immediately rushed towards the two people who were fighting, the two of them had already fought to the point of losing their lives, if Long Chen came out now and wanted to reap the rewards, he would undoubtedly be hated by the two of them! The two of them immediately separated as they looked at Long Chen with sinister eyes.

There were many wounds on their bodies that were dripping blood, but they did not care about them at all.

"Brat, we are fighting, what are you doing here? Are you seeking death?"

"If you take another step closer, we'll kill you first!" The other person said with great tacit understanding.

Even though they hated each other even more, they definitely could not allow their countless brothers to die or be taken away by someone else! Therefore, at this time, if Long Chen got any closer, they would not hesitate to join hands!

Long Chen turned a deaf ear to their words. He directly advanced, suddenly accelerated, and instantly appeared in front of the two of them!

"Desolate Divine Seal!"

The Desolate Divine Seal suddenly attacked the two of them. He did not have the Dragon Soul Transformation skill. True essence was four times the range of the fourth stage of the Earth Martial Stage, but it still wasn't enough to reach the fifth stage of the Earth Martial Stage. However, because both of them were heavily injured and Desolate Divine Seal was a high level king level offensive skill, they were immediately suppressed by the attack!

The palms that were filled with the aura of death pounced towards the two of them. The gray ball of air, in a lightning fast speed, completely covered the two of them!

"You're courting death!" When Long Chen made his move, the two of them immediately took action as well. When they saw that Long Chen was only at the fourth stage of the Earth Martial Stage, they started to act unscrupulously.

The Desolate Divine Seal's power, coupled with the fire of Golden Crow's power in her primeval essence, swept towards the two of them. The fire of Golden Crow also received a strong boost from Long Chen, who added more and more as his strength increased.

Hu hu!

The grey ball of air swept past the two people. After Du Jiu and the others saw this clearly, Long Chen had already arrived at the back of the two people, and those two people had gray handprints on their chests. Right now, those handprints were extending in all directions, and the death aura instantly spread throughout their bodies.

This was the kindness that Long Chen had shown them. Anyone who came to the Archaic Graveyard would have a death wish. The weak would prey on the strong; this was the logic of the heavens!

After Long Chen killed the two, Du Jiu and the rest were all stunned, they did not expect Long Chen to deal with it so easily. Du Jiu had originally wanted to test Long Chen's strength, and when Long Chen revealed his strength, if anyone was weaker than him, he would immediately kill him. But this time, Long Chen's strength was still a mystery.

Du Jiu, who was initially prepared to take action, forcefully repressed his desire. As for the others, they also restrained themselves from thinking too much. They were sure that if they had been the ones to kill the two of them, it wouldn't have been so easy.

However, Long Chen had killed their opponent, they immediately followed him, and in a blink of an eye they arrived in front of the two men, Du Jiu was the fastest, Long Chen had just killed two enemies, and they had already pulled out their Cosmos Sacks, and in one of their Cosmos Sacks, Du Jiu took out a sharp axe!

Long Chen looked carefully, it was a metal axe, it was entirely black, with a dark blue light flowing on it, the edge of the axe was shiny, it seemed to have some kind of strong energy fluctuation, it was obvious that it was a king level or higher divine weapon, at least a king level middle grade or even higher.

"How unlucky. It's actually an axe. Which one of us uses an axe?" One of the men looked at the dark blue axe and hurriedly cursed. Without a doubt, this was a good godly weapon. Unfortunately, it wasn't suitable for him.

The others were also feeling a little disinterested.

"Brother, just now when we were fighting the Iron Demonic Wolf, my axe was already destroyed. Can you let me use this axe?" At this time, Shao Yu looked at the blue battle axe with blazing eyes, and said a little timidly.

Just as he finished speaking, Du Jiu had already packed up the blue light battle axe. She looked at Shao Yu and said expressionlessly: "This battle axe, should be at high king level, and is the first precious thing we obtained after coming to Archaic Graveyard. Your strength has not yet allowed this battle axe to display its proper fighting strength, so leave it to me first.

That's right, Brother Shao Yu, you don't even have the use of such a good axe, it would be better for us brothers to sell it in exchange for king crystal and spiritual medicine, which would benefit everyone. You have contributed the least along the way, how can you have the best spoils of war?

"That's right. I don't agree with it anyway."

was already looking forward to it. When they had finished speaking, his expression was already very ugly, he was just stupid, and knew that everyone was bullying him again.

However, Du Jiu put it away and did not let him use it. Furthermore, he did indeed lack a weapon, and without this axe, his strength would be greatly reduced.

However, Shao Yu did not dare resist, his face was filled with helplessness and he shook his head, as he could only sigh.

Long Chen saw all of this.

At this time, he walked in front of Du Jiu, stared into Du Jiu's eyes, and said calmly: "According to the rules, this battle axe is entirely mine. I have the qualifications to gift it to you, but Boss Du Jiu kept it for himself. What is the meaning of this?"

To Du Jiu, such a good thing for him to use was just like a bunch of fresh flowers inserted into cow dung.

He never thought that Long Chen would fight with him directly for this trash, Shao Yu. Du Jiu originally wanted to do it on Long Chen's behalf, although he didn't do it previously, he didn't know what Long Chen's background was, but now that Long Chen had directly fought with him, Du Jiu was not a person with a good temperament. The killing intent in his heart, immediately rose.

The two of them looked at each other coldly. When the others saw this, they sneered and rubbed their fists as they walked behind Du Jiu one after another, using their bloodthirsty eyes to look at Long Chen and Shao Yu. At this time, only Shao Yu stood behind Long Chen.

"Long Chen, forget about it, Boss Du Jiu is right, I do not have the strength to use that battle axe, if I lose it, I would be letting everyone down, forget about it, forget about it," Shao Yu anxiously said as he pulled Long Chen's arm. He could tell that Du Jiu and the others were already ready to kill. No matter how strong Long Chen was, he wouldn't be able to face all of them alone.

Long Chen gently pulled him apart, but he really couldn't take this lying down, and said: "We are all in the same group, and already we are treated equally. As the boss, the most important thing is for the benefit of our brothers, you don't even know this, how can you be the boss?"

Long Chen directly asked Du Jiu.

"Do you want to be the boss? Being like this right from the start doesn't seem to be in accordance with the rules. Of course, even if you are the boss, it will still depend on whether my brothers agree to it or not!" Du Jiu said with a cold smile. The scars on his face were affected by the smile, making him look like a squirming worm, which was extremely disgusting.

"What a joke, if he can be the boss, I'll directly chop off his head!"

"Do you know what a big boss is? "Hehe."

The others burst into laughter one after another.

Long Chen remained indifferent, his eyes squinted and said indifferently: "I will not speak anymore nonsense, the battle axe is mine, you guys take it out, and I will settle this matter peacefully, if you don't take it out ..."

"You're going to kill me. Take it?" Du Jiu replied with a smile.

There were a total of more than ten experts of the fifth stage of Earth Martial Stage here, and he, Du Jiu, was an expert of the sixth stage of the Earth Martial Stage. How could Long Chen say such words?

At first, Du Jiu thought that Long Chen had some trump cards, not daring to make a move, for fear of loss. But now, it seems that he was purely a rash fellow who wasn't afraid of death.

To be honest, after reaching the fourth stage of the Earth Martial Stage, Long Chen had a rough estimate of his own strength.

If not for the fact that had no one to rely on after killing them, which made things even more troublesome, Long Chen would have killed them all long ago. But from the looks of it, even if he didn't finish them off, Shao Yu would have died sooner or later if he followed them. Since that was the case, Long Chen had already decided that he didn't mind sending them off.

The only trouble was that Long Chen's following path definitely could not be followed by this Shao Yu. In his current plan, Long Chen could only kill all these wolf-like men, and then send Shao Yu to the Iron City.

Just as he was about to make his move, the metal ground began to tremble, and a terrifying feeling descended!

"Sky Disaster!"

Someone shouted.
